BIG OVATION TO LAURIER

It Followed the Close of His Speech on Dundonald Incident

Said His Use of the Word Foreigner Would be Used Against Him by Those Who Appeal to Passion

[Special to The Daily News.]

Ottawa, June 25.—There was the greatest demonstration ever seen in the commons when premier Laurier closed his speech early this morning on the lord Dundonald affair. After agreeing with all that had been said about Dundonald as a soldier, and dealing with his dismissal, which the general forced on the government, the premier took occasion to refer to the use of the word "foreigner." He said when the word slipped from him, instead of another, which he substituted for it, he had taken it back before anyone could interrupt. But that privilege which was extended in the house every day was being denied him. During his whole public life he never applied an offensive term to anyone, and if his 60 years of loyalty and adherence to British institutions was not an answer to those who misrepresented him, then no answer would suffice, but he knew it would be used against him tomorrow and after tomorrow.

Dr. Sproule—"Hear! Hear!"

Sir Wilfrid Laurier then resumed saying: "Yes, there is an echo. I am familar with these appeals to passion and prejudice. Friends of the hon. gentleman in Quebec denounce me in Quebec as a traitor to my race and religion, but I fear not one, more than I do others. These appeals produce nothing but contempt in the hearts and minds of intelligent and honest people."

When the premier took his seat liberal members stood up and waved their hats and hankerchiefs and cheered for about a minute. The oldest member in the house never witnessed such a demonstration.

NEW CONVERTER.

Tested By B. C. C. Co. and Operated in A Satisfactory Manner

[Special to The Daily News.]

Greenwood, June 25.—The newly constructed converter plant at the B. C. Copper company's smelter here, had its initial run Thursday night. The results of the test were very satisfactory. The company's output of matte which has hitherto been shipped abroad for reduction into blister copper, will now be treated here, adding at once to the company's payroll as well as to its profits.

Messrs. Rumberger, Farrell and Porter are fast demonstrating that they have a great property in the Iron Lead claim in Wellington camp. They are working on a lead of ore 30 feet wide which yields gold values of $15 per ton. The claim adjoins the Jackpot and is only a few hundred feet removed from the celebrated Athelstan, which after years of inactivity, was demonstrated to be a great mine by Messrs. Collins and Hunter. The Iron Lead will not long want for convenient shipping facilities as a result.

More activity is being displayed in Long Lake camp than for many years. The dormancy of the Jewel owned by absentees has not deterred others from opening up several of the fine leads of this high grade section. Some wonderfully fine new discoveries have recently been made by Greenwood people in Long Lake camp.

BOUNDARY SHIPMENTS.

For the Past Week They Aggregated 16,571 Tons.

[Special to The Daily News.]

Phoenix, June 25.—So far this year the Granby smelter has treated over 300,000 tons of ore at Grand Forks, this total being somewhat less than the Granby mine shipments, as considerable custom ore has been reduced at the smelter.

This week's ore shipments from the several low grade mines of the Boundary were as follows:

Granby mines to Granby smelter	12,180
Mother Lode to Greenwood	3,104
Emma to Trail and Nelson	759
Oro Denoro to Granby	396
No. 37 to Granby	132
Total shipments for the week	16,571

Total for the year to date, 396,461 tons

This week the Granby smelter treated 12,284 tons, or 300,511 tons thus far this year.

LOOMIS IS STILL MISSING.

Report That He Was Seen in Paris is a Mistake.

Paris, June 25.—The suspense over the disappearance of Mr. Loomis continued throughout the day. The officials who are conducting the inquiry as to the whereabouts of the missing man, state tonight that not the slightest trace of him has been discovered. While Mr. Ellis was here he assisted in the investigation, but since his departure the officials are merely waiting in the hope that Mr. Loomis will be found in London. The correspondent sending out the report last evening that Mr. Loomis had been found here was rigorously examined by the officials, and explained that he had mistaken Mr. Ellis for Mr. Loomis.

LAST PAYMENT IS MADE

LUCKY BOY COMPANY TAKES UP BOND ON THE L. B. GROUP.

PROPERTY HAS ALREADY PRODUCED $30,00 WORTH OF ORE.

James McGlone, of Philadelphia, and C. E. Erehart, of Hanover, Pa., left here this morning for their homes. They have just returned from Trout Lake where they made the final payment of $11,000 on the L. B. group of five claims, located near Trout Lake city on behalf of the Lucky Boy Mining and Milling Company of Philadelphia. This is the final payment, the total amount for which the property was bonded being $23,000. The property has shipped $30,000 worth of ore since it was taken over by the company, and is in fine shape for further shipments. The work on the property was recently suspended owing to a lack of pumps to handle an inrush of water. The necessary pumping machinery will at once be installed and the mine operated on a larger scale than ever. The group is considered among the best in the Lardeau country. The ore is of a high grade silver lead.

KING EDWARD AT KIEL.

Given a Pleasant Reception by Emperor and His Entourage.

Kiel, June 25.—King Edward arrived here today on the Victoria and Albert and was given a very warm welcome. After the Victoria and Albert had moored at Kiel the two monarchs boarded the yacht Hohenzollern, where king Edward was received by the empress, and had presented to him the royal entourage. The weather had by that time improved. The rain, which sent the drenched spectators scurrying towards Kiel through the mud, after the arrival of the Victoria and Albert at the canal lock and at the meeting of their majesties, ceased and consquently the reception by the king on the deck of the Hohenzollern, of the high miltary and naval authorities was held under better auspices. There was a gala dinner at 8 p.m. on the Hohenzollern, which was attended by king Edward and the members of the royal family, a large company of high dignitaries of state and military, and naval officers.

HODGES AT PHOENIX.

Is Familiarizing Himself With the Mines of the Granby Company.

[Special to The Daily News.]

Phoenix, June 25.—A. B. W. Hodges, superintendent of the Granby smelter, spent several days in the camp this week familiarizing himself with the Granby mines, of which he will also have charge next week, succeeding W. Y. Willaims in that position. Jay P. Graves, general manager, and H. N. Galer, assistant manager of the Granby Co., were also in the camp at the same time. Regarding the close down about the 1st of July at the smelter, Mr. Hodges stated that on that date all six furnaces would be blown out for repairs to the roof of the furnace room. Four of the furnaces, however, will, it is expected, be blown in again on the following Sunday night, and the other two about a week later, when all the repairs have been completed. At the mines, it is anticipated that the close down will be only for one day, Friday, July 1st.

OVER ONE THOUSAND LIVES.

The Last Count of Those Who Perished on the Slocum.

New York, June 25.—That upwards of 1000 persons perished in the burning of the excursion steamer General Slocum is now practically certain. According to an exhaustive report of the number of deal, missing, injured and uninjured in the disaster, it appears that 938 bodies have been recovered and that 93 persons are still unaccounted for, bringing the total mortality of the disaster up to 1,031. The injured numbered 170.

SHEVLIN TO COMPETE ABROAD

New York, June 25—Thomas L. Shevlin of Minneapolis, sailed today for Great Britain to challenge for the championships of England, Ireland and Scotland in the hammer throw. Shevlin has for two years been a member of Yale athletic team and will represent Yale and Harvard in the international dual track meet in July with Oxford and Cambridge.

MADE A QUICK TRIP

Toronto, June 25—Four troopers of the governor general's body guards, reached Toronto at 11:45. They left Niagara camp at 11:20 yesterday morning to make a 90 mile trip to this city on pack horses, the object of the journey being to show the superiority of pack saddles over wheel transportation. A few years ago this journey occupied three days.

CHURCH UNION

London, June 25—The Anglican synod of has passed a resolution favoring church union and congratulating the Presbyterians, Methodists and Congregationalists ofr the steps already taken in that direction.

BARR NOMINATED.

Shelburne, Ont., June 25.—Dufferin conservatives have nominated Dr. J. Barr, M.P.P., as candidate for the dominion house at the next general election.

WON BY COLONIAL GIRL.

St. Louis, June 25.—The World's Fair handicap was won by Colonel Girl, Hermis second, and Moharib third; time, 2.09 1-2.

RUSSIANS LOSE SIXTEEN THOUSAND MEN

They Receive the Hardest Blow at Simenting Since the War Started--Only the Braverr of the Ninth East Siberian Brigade Saved the Defeat From Turning Into a Rout--Two Armies Confront Each Other and Battle Assured

BLOODIEST BATTLE OF WAR.

Russians Lost Sixteen Thousand Men at Simenting.

Chicago, June 25.—A special to the Daily News from Tien Tsin says: "Officers arrived at New Chwang from the front and say that the battle fought on Thursday at Simenting, about 40 miles east of Kai Ping, was the hardest blow the Russians have yet received. The Russians lost according to these accounts, 16,000 men killed and wounded, missing and prisoners. That the Russian retreat did not turn into a rout was due to the dogged determination and bravery of the men of the ninth east Siberian rifle brigade, under general Kondratovitch, who covered the flying troops, contesting every inch of the way."

WERE GOING ON A CRUISE.

Japanese Torpedo Boats Sink a Russian Battleship.

Tokio, June 25.—Admiral Togo reports that on Thursday last, June 23, his patrol boat discovered the battleship Peresviet and seven other vessels, accompanied by nine torpedo boat destroyers near the entrance to Port Arthur harbor. They warned him wirelessly and he immediately advanced his entire fleet, except those engaged upon special duty. The admiral discovered that the Russian fleet, which consisted of six battleships, five cruisers and 14 destroyers, evidently had planned a dash southward by sundown. The Russians stopped outside the entrance to the harbor and after nightfall a fleet of Japanese torpedo destoyers attacked the Russian ships and succeeded in torpedoing and sinking a battleship of the Peresviet type and disabled the battleship Sebastopol. A cruiser of the Diana type was also observed being towed into the harbor on Friday morning and it was evident she had sustained serious damage. The Japanese ships sustained little damage. The torpedo boat destroyer Shiragumo was hit by a shell which fell in the cabin, and three men were killed, and three others wounded. The torpedo boats 64 and 66 were slightly damaged.

St. Petersburg, June 25.—The admiralty has no direct news of the naval battle fought off Port Arthur, June 23, but the announcement of the engagement evidently created no surprise here, the authorities having been aware that the squadron of rear admiral Withoft was ready to put to sea at a moment's notice. On Thursday the correspondent of the Associated Press was informed, as announced in these despatches, of important naval developments that were anticipated. If an actual engagement occurred the admiralty cannot believe admiral Togo got off practically scott free. Particular solicitude, therefore, is expressed to know whether the Russian battleship Peresviet was sunk by a mine, as she was emerging from the harbor, or by the projectiles, as it is known that the Japanese have repeatedly tried to mine the entrance.

London, June 25.—The version of the naval battle of June 23rd off Port Arthur, received by the Japanese legation from Tokio, is identical with that of the Associated Press, except that in giving the result of the torpedo boat destropers attack on the Russian fleet, it says: "At least one battleship of the Peresviet type appeared to be sunk."

TRYING TO STOP ADVANCE.

Japanese Pay No Attention to Impediments and Move On.

St. Petersburg, June 25.—Major general Mistchenko, commander of the eastern Cossacks brigade, according to reports reveived at the war office dated yesterday, attacked the Japanese advance outposts on the Siuyen-Kai Chou road, resulting in a sharp engagement, in which artillery was brought up, and the Japanese forward movement was arrested. On this road the Cossacks lost seven men killed and three officers and 11 men wounded. The position of general Kuroki's men on the Siuyen-Kai Chou road is unchanged. General Oku's army continues to advance from Senuchen, travelling six miles per day and marching in order of battle, evidently expecting momentarily an attack from the Russians. General Oku was about 10 miles from Kai-Chou yesterday. The city is full of rumors of heavy fighting being in progress at Ta Tche Kiao, which are said to emenate from the palace of Peterhoff, but no confirmation is obtainable. The above report sent in is the latest intelligence in the possession of the war office.

FROM NATIVE SOURCES.

New Chwang Filled With Rumors of Fighting to the Southward.

New Chwang, June 25.—New Chwang is filled with rumors of more fighting to the southward. The reports come from native sources. A few Russian officers, who talk guardedly, say the rumors are untrue, but that general Kouropatkin intends to make a determined stand at Kai Chou, where many mines have been laid and trenches constructed. Large bands of robbers are giving the Russian outposts much trouble northeast of New Chwang. The Japanese, it is said, have supplied the robbers with 1000 modern rifles and much ammunition.

French correspondents from Mukden report that the Japanese up to last Monday had made no demonstrations near Liao Yang. These correspondents are now with the Russian forces south of here, but the American and British correspondents are not permitted to see the fighting.

Viceroy Alexieff has issued a proclamation to the effect that traffic in the Liao river, south of Mukden, must stop and that foodstuffs must be delivered to the Russians.

According to natives, the Russians are losing thousands of horses from glanders. There are 800 wounded Russians at a camp three miles east of New Chwang.

A few surgeons and members of the Red Cross arrived this afternoon. Many more are needed.

RUSE OF THE JAPANESE.

Disguised As Chinese They Attack Russians While Bivouacked.

Taschichiao, June 25.—The Japanese recently used disguises in attacking the Russian outposts. They commandeered all the clothing the village of Siakolan on June 22 and on the following night, disguised as Chinese, attacked the bivouac of major general Mistchenko's men. The Cossacks retired, losing 14 men. Many dead were afterwards found mutilated, the character of the bayonet and sabre wounds indicating that they were inflicted after death. The heat is increasing terribly, the thermometer regeristering 104 degrees Fahrenheit in the shade. A party of general Samsonoff's Cossacks recently raided a Japanese cavalry outpost, ran off 30 horses killied the mounts of two entire squadrons and escaped without loss.

MAKES A PREDICTION.

Russian General Tells What Kouropatkin Will Do.

St. Petersburg, June 25.—An unnamed Russian general is quoted in the Viedomesti today, declaring this the eve of a great battle, adding that general Kouropatkin is moving to meet general Kuroki whom he will dispose of before general Oku arrives. The army organ figures that the armies of generals Oku and Kuroki, when combined, will consist of eleven and a half divisions exclusive of cavalry and artillery. The captains of the battleships Navarin and Sissoiveliky, and the armoured cruiser admiral, Nakhimoff, the first vessels to go out in the roadstead in commission, have been publicly complimented for their diligence.

JAPAN IS MODEST.

Wants Nothing More Than Was Mentioned in December Note.

Vienna, June 25.—The Allemagne Zeitung says that, according to a diplomatic note received here, the Japanese government has resolved in case peace is restored to demand nothing else than was mentioned in the government's note of December last, and that even if Port Arthur is taken by the Japanese, to restore it to Russia, respecting the Russo-Japanese agreement, and that Japan will regard Russia as economically precient in Manchuria. Japan demands only that she be considered with the other great powers on the solution of Asiatic questions.

CHINESE BANDITS REPULSED

Attempted to Blow Up the Bridge Over Koulou River.

Mukden, June 25.—Last night one hundred Chinese bandits, excellently armed and equipped and led by Japanese officers, attempted to blow up with dynamite the bridge over the Koulou river, three miles south of Kerson and 127 miles northeast of Mukden. The attack was repulsed by border scouts. According to the inhabitants of the vicinity, there have been numerous previous attempts to destroy this bridge. The bandits are said to fight splendidly and to be entirely different from the ill-organized brigands of 1900.

JAPANESE ARE GETTING CLOSE

Men, Women and Children are Completing the Defenses.

Ta Tscha Kiao, (Between Kai Chou and Hai Cheng, Liao Tung peninsula), June 25.—The Japanese are 12 miles from Port Arthur, the whfiole male population of which, from the age of 15 upwards, is under arms. The women are assisting in the work of completing the defenses .

NEWS FROM THE FRONT.

Constant Skirmishing Between the Outpost of the Armies.

St. Petersburg, June 25.—Today has been full of ruoms and intense excitement, but this was relieved somewhat this evening by the issue of a special of the Official Messenger containing some details of the fighting around Kai Ping, and other movements in the neighborhood of Siamatsze, already announced by the Associated Press. The operations in the northeast indicate that general Kouropatkin is keeping his force on the extreme flank and in the rear of the enemy and is carefully dealing with any threatening move that Kuroki may attempt in that direction. There is nothing in the official despatches so far to indicate any startling development regarding the Japanese movements north toward Kai Ping though the enemy is undoubtedly advancing slowly.

ARE FACE TO FACE

Armies of Oku and Kuroki Facing Kouropatkin's Forces.

Liao Yang, June 26.—The armies of general Oku and general Kuroki, aggregating at least six divisions, are confronted by the huge force under general Kouropatkin. The tension is most acute here at the approach of the most important battle of of the war, at which three times the number of troops engaged at Kiu Lien Cheng, Kin Chau and Vafangow, will take part. The proximity of the rainy season makes the battle unavoidable. A Cossack scout and a railway man have just returned here after having been held as prisoners by the Japanese. They managed to to kill their guard and escaped at night and rejoined the Russian advance posts. They report that they were kindly treated during their confinement, though they were kept on short rations. Reinforcements are arriving regularly and are in excellent spirits.

The general staff has received the following despatch from general Sakharoff, under date of June 25: "Since the morning of June 23 the enemy has continued to advance toward Kai Chou. Three detachments of cavalry, each followed by a dense line of infantry, behind which are marching columns of the line. The Japanese outposts towards evening extended along the Kho valley, about nine miles south of Senu Chen, with the cavalry posted in the rear. The infantry, with machine guns, held the village of Mouski Tung on the right flank. There was firing all day long. We had one man wounded.

"The frontier guards, under sub-lieutenant Demeyer, ambuscaded and fired on a squadron of Japanese cavalry which lost considerable, ten of their horses being killed.

"There has been no further advance of the enemy up to 1 o'clock in the afternoon of June 21st, when a movement of the Japanese was observed from Khansia on the southern Siuyen road, towards Kai Chou along the mountainous route from Khansia leading northward to Siakotung.

"The Japanese on June 22 occupied the village of San Kaio, but towards evening evacuated the place under pressure from a detachment of our vanguard.

"The enmy concentrated three battalions with six guns and four squadrons of cavalry at Matsiavaitse and at dawn of June 23 a detachment consisting of a battalion of infantry, two guns and two squadrons of cavalry attacked a company of our vanguard bivouacking at Sin Diao and forced the company to retire. The Japanese occupied Black mountain, north of Sin Diao, and also the pass east of Sin Diao on the Sikotung road.

"The Russians concentrated on the heights. Four companes with three mountain guns were ordered to move from Sikotung over the pass to Sin Diao. The Japanese were dislodged from their position by our artillery and our detachment, on being reinforced, proceeded at 11 o'clock in the morning to attack the whole of the enemy's front. The enemy fell back in utter disorder and Sin Diao was reoccupied at 1 o'clock in the afternoon. Our artillery fire forced back the Japanese who retired beyond Erlatkau.

"Our losses were seven soldiers killed, three officers and 14 soldiers wounded, and one man missing. The officers commanding the detachment speak highly of the bravery of our artillery.

"Some Cossacks on June 23 prepared an ambuscade near Lintelaho, about four miles from Sely Chung. A Japanese detachment fell into the ambuscade and lost 15 killed or wounded. Sub-lieutenant Polozoff, of the Russian force was wounded. At 11 o'clock in the morning of June 22 a Russian sentinel exchanged shots with the enemy's vanguard. At about noon the Russians advanced and attacked the Japanese on the right flank, dislodging them from several advanced fortified posts.

"A Russian detachment at 5 o'clock in the afternoon approached the enemy's main position and found it occupied by three regiments of infantry with three guns. The Russians held their position until 9 o'clock, not attacking the Japanese because the Japanese were superior in force. Our men then retired in perfect order towards Siamatsz. Our losses are not yet known.

"The town of Kwayasian has been evacuated by the enemy."

PRAISED BY THE POPE.

His Holiness Expressed Admiration For the Valor of the Japanese.

Rome, June 25.—The pope today received in private audience monsignor Mugabure, the coadjutor of Tokio, and had a long talk with him regarding the situation in Japan and the events of the war. His holiness expressed admiration for the valor and heroic efforts of the Japanese, and satisfaction with the complete liberty that Catholics enjoyed in Japan.

The case of father J. P. Harrison, of St. Paul, Minn, against archbishop Ireland, in connection with the contention over St. Joseph's parish has been laid before the congregation of the propaganda.

TWO FIGHTS ON THURSDAY.

In Both Engagements the Japanese Repulsed the Russians.

Tokio, June 25.—A portion of the Japanese troops at Taku Shan were in two engagements on Thursday. They first surpised and routed a squadron of Cossacks posted at Heinchias, 10 miles northwest of Santako on the road to Ta Tscho Kiao and next repulsed a force of Russians who occupied a hill north of Sanio. The Russians retreated to the northwest. The enemy left 60 dead on the field.

FRANCE'S GOOD OFFICES

THOUGHT IN PARIS WASHINGTON SHOULD RECOGNIZE THEM

DELCASSE'S EFFORTS INDUCED RELEASE OF PERDICARIS

Paris, June 25—The foreign officials here are hopeful that the Washington government will take steps to recognize the good offices of France leading up to the release of Messrs. Perdicaris and Varley. Official despatches from Tangier show that the diplomatic plans which foreign minister Delcasse set in motion were responsible for the final liberation of the prisoners. These plans did not contemplate threats or use of force but appealed to the powerful influence of Mouli Ali and Maula Hamet, who had the escort sent to bring back the prisoners to Tangier. Moreover France practically furnished the money from which the ransom was paid, as the recent French loan of $12,500,000 gave the sultan the means of meeting Raisuli's demands for $70,000 ransom. M. Delcasse's energy throughout has been due to his earnest desire to acquiesce in the American request that France exercise her good offices. It is therefore thought that the successful result of the French efforts should have suitable recognition.

ECCENTRIC MILLIONAIRE

Started Life Poor and Died the Owner of Tracts of Houses

London, June 25—Newcastle has lost one of its most eccentric and picturesque characters in the person of George Handyside, a self-made millionaire, who died there last week after a most romantic career. He began life as a cobbler's boy in Berwick, and died in his 80th year, the owner of vast tracts of houses and business property on Tyneside. He thought nothing of buying a whole street at once, demolishing the houses and re-erecting the houses on plans of his own. Every Monday he would perambulate his acres of tenemented property with bell and wheelbarrow collecting his rents. Those who answered the summons and brought out the money to him received discount in the shape of a few coppers. It was his proud boast that he had never employed a bailiff or made use of the county court in his life. He never asked for rent at a house in which the bread winner was ill, and in case of death his first act was to call and tell the bereaved that she might occupy the house rent free as long as she remained a widow.

SNOW GIVES UP ITS DEAD.

The body of Peter Raymer, who was buried by a snowslide on February 15, has been receovered, says the Fort Steele Prospector.

Since the time of the fatal accident B. Lundin, a friend of the deceased, has been a persistent watcher, searching almost every day, the big slide, as it slowly melted away, for the remains of his friend. Success crowned his efforts on Saturday last, when the body was recovered at the foot of the slide, well preserved in its casket of ice. The body was taken to Steele where the funeral took place on Monday. A considerable number of the friends of the deceased turned out to pay their last tribute of respect to the departed. At the grave the Rev. Mr. Fortune delivered the funeral service.

PROVINCIAL HOSPITALS

A lengthy order in council appears in the last B. C. Gazette governing the future grants to provincial hospitals, providing a scale of fees payable for government patients and requiring that in addition to any register kept in the office of a hospital receiving aid under the Act, it shall be the duty of the matron, or nurse in charge to keep a register of all patients admitted to and staying in the hospital from day to day; and such register, which shall show the name, date of admission and disease for which each patient is treated, shall be certified to by the matron or nurse in charge, at the end of each month.

WESTERN TRIP FOR CHAFFEE.

Washington, June 25.— General Chaffee, chief of staff, and quartermaster general Humphreys, left Washington today on an inspection trip of western and northwestern posts. They will go first to Detroit, thence to Duluth, and across Minnesota to Fort Snelling. The itinerary calls for two days at Fort Snelling, one day each at Fort Lincoln, N.D., Fort Meade, S.D., Fort des Moines, Ia. Fort Keough Fort Missoula, and Fort Harrison, Mnt. The party will also visit Yellowstone Park and Puget Sound posts.

TWELVE INJURED.

Chicago, June 25.—Twelve or more persons were injured, several fatally, in a collission between two street cars today. The cars were crowded with passengers and there were a number of narrow escapes from death.

PICKS UP THE CUDGELS

American Federation of Labor Takes Up Fight of the W. F. of M.

Will Endeavor to Maintain the Legal Rights of the Miners in the State of Colorado

Denver, Colo., June 25.—The American Federation of Labor has taken up the fight of the Western Federation of Miners in Colorado and will give it financial and moral support. The proposed amalgamation of all general labor organizations has not taken place, but the American Federation of Labor has taken up the fight officially.

This was made public in Denver today on the receipt of a communication signed by president Gompers and the executive council of the American Federation of Labor. The report is dated Wilmington, and is addressed to organized labor of America. After stating the labor conditions existing in Colorado the document closed with an appeal for financial contributions, "to maintain the legal rights of the Colorado miners."

USING ELECTRICAL ENERGY.

Machinery at Mother Lode Smelter Being Driven By It.

[Special to The Daily News.]

Phoenix, June 25.—For the first time electrical energy was utilized as motive power at the British Columbia Copper Co.'s Mother Lode smelter at Greenwood this week, the power in the first place being used to operate the large blowers for the two blast furnaces. Preparations have been going on for months with this end in view, and the Cascade Water, Power & Light Co., Ltd., constructed a pole line from the Phoenix sub-station to the smelter, about five miles, in order to supply the desired power, amounting to about 800 horse power. All of the electrical machinery, such as transformers, motors, etc., is now in place and has been tested, and it is expected that by next week the entire works, including the newly installed two stands of converters, will be using electrical power. The 50 per cent copper mattee will have the waste blown out by the converters till it is 98 or 99 per cent pure, containing nothing but copper, gold and silver values, the refining being done in the east. At present the matte is being sent to the Tacoma smelter for converting, or has been till recently, when it was known the company's own converter plant would be ready for use, as well as the electrical power to operate it. The saving of freight on the matte means a considerable item. It is not expected that it will be necessary to run the converter but one shift for the present, until new furnaces are added to the smelter equipment, which may be done some time this year.

It is also understood that plans are being talked of for the extension of the electrical line to the Mother Lode mine, three miles west of Greenwood, where steam power is now being used to operate the drills, hoists, pumps and ore crushers. It also goes, almost without saying, that as the electrical power can be delivered at one-third or one-quarter the cost of steam power, the Boundary Falls smelter will some time this year arrange for it, as it is but three or four miles down Boundary creek from Greenwood.

NAVAL WARFARE.

Clever Ruse Successfully Employed in Night Torpedo Attack.

Chemainus, B. C., June 25.—The Grafton and other vessels of the North Pacific squadron are manoeuvering in this vicinity. A night torpedo attack came off a few nights since. Two torpedo boats and their tender forming the attacking squadron, the larger vessels being stationed near Ladysmith. The attacking party procured a small launch, which is usually employed towing logs for the sawmill and quickly fitted her out as an auxiliary torpedo boat, the torpedo being carried alongside and just awash and as soon as darkness fell all went out for the attack. The regular vessels of the navy were soon "spotted" by the searchlights, but the auxiliary launch quietly towing a log aroused no suspicion and aproached quite close to the Grafton without being challenged. The torpedo was got into position and launched at the flagship before anything wrong was discovered, and the big ship put out of commission, considerably to the elation of the attacking party and corresponding chagrin of the officers of the flagship, who considered it a very "slim" trick.

TWO KILLED ONE FATALLY HURT

Deleware, Ohio, June 25.—The southbound Twentieth Century Limited, on the Big Four road, jumped the track here today while running at terrific speed. The fireman and engineer were killed and the baggageman fatally injured.

UNION LABEL — TYPOGRAPHICAL — NELSON, B. C.

ST. EUGENE STRIKE.

The strike of fourteen feet of ore of a higher grade than any hitherto found in the St. Eugene mine at Moyie, B. C., is most important, and means a great deal for the future of what is claimed to be the largest lead-silver mine in Canada, if not in the world. It is no mere shallow surface discovery for it is 1600 feet from the portal of the tunnel, and has a vertical depth of 1,000 feet. As the silver values are higher in the new ore body this means an increase in the profits of the company. The fixed charges for mining and concentrating are the same whether the ore yields 10 ounces in silver or 100 ounces.

The St. Eugene mill began operations in April, 1900. Before the shipments were confined to between 600 and 800 tons of crude ore. During 1900, 66,507 tons or ore were milled in the company's concentrator and this quantity produced 17,201 tons of concentrates, having a gross value of $1,100,904 the net amount received from the smelters was $627,415.

It will thus be seen that nearly one-half of the gross proceeds of the ore went to pay smelter charges.

In the first five months of 1901, 49,159 tons of ore were milled which produced 12,025 tons of concentrates. Silver and lead were lower than in the previous year and the gross value was therefore only $616,561 and the net proceeds, $272,-361. In other words the gross value of the ore produced in 1901 was $12.54 per ton, as against $16.55 in 1900 and the concentrates $51.27, as compared with $64 for the previous year. The freight and treatment charges together averaged $27.53 per ton of concentrates shipped in 1900, and $28.62 per ton in 1901. The figures show how important to the St. Eugene company is the fact that the new find contains more silver than any other ore yet encountered in the mine as it will tend to increase the profits of the company.

The profits were cut down so low owing to the decreased price in silver and lead that the mine was shut down for a long period. When the lead bounty act was passed the management concluded to start up again, and now with the help of the newly discovered ore shoot there should be a long period of profit before the company. Should the lead bounty act be so amended that ore containing lead shipepd out of the dominion could share in the bounty, the affairs of the company would show still more prosperity.

That the mining industry of the province is assuming importance is reflected in the reports of the commercial agencies. In the report of Bradstreets, published yesterday, the following is found under the portion of the report devoted to this province: "There is a good deal of activity in the interior mining districts and retail dealers are sending in large orders." Frequent references of this kind are made to the mining section.

Lace Curtains and delicate fabrics are best washed with Sunlight Soap. No injury from scrubbing or impurities. 8B

Grand stewards—J. Warwick, Nanaimo; G. D. Christie, Victoria; N. Thompson, Vancouver; Dr. W. F. Drysdale, Nanaimo; George N. Taylor, Trout Lake; and D. E. Mackenzie, New Westminster.

CONDITIONS IMPROVING

Rossland Mining Situation Shows a Considerable Improvement

Rossland, June 25—Matters have improved materially in the past week in connection with the Rossland mining industry. The Le Roi has strengthened its crew and started new development work, besides increasing the shipments somewhat. The Spitzee mine is installing five machine drills instead of three formerly used and expects to ship 150 tons weekly for several weeks to secure a thorough smelter test of its ore bodies. The Velvet mine resumed underground development on Monday after being idle for a year. Twenty-five men were employed in the city this week for the Velvet. The concentrator at the mine will also be working early in July. Considerable tonnage of dump ore from the Iron Mask mine will be sent to the Granby smelter commencing on Monday for the purpose of obtaining smelter tests on this class of material. Possible extensive operations will be the result from the Cliff mine, a well known producer of high grade copper ore, which expects to start next week with 10 men on preliminary work, and the force is to be increased gradually.

The ore shipments for the week ending tonight were:

Le Roi	1220
Centre Star	1,440
War Eagle	1,280
Le Roi No. 2	310
Le Roi No. 2 (milled)	250
Spitzee	30
Kootenay	390
Jumbo	220

Total for the week, 5240 tons, and for the year to date 177,528 tons.

NELSON DEFEATS YMIR

Banner Baseball Team Wins by a Score of 29 to 26

The Banner baseball club, connected with the Sunday school of St. Saviour's church, sent a team to Ymir yesterday to play the juniors of that town. The early arrival of the train at Ymir gave an opportunity for a practise game before dinner, which resulted in the very close score of 17 to 16 in favor of Ymir.

The supreme contest took place in the afternoon before a large crowd of interested spectators. Ymir started well and at one time had a lead of 16 to 6, but the Nelson boys, by plucky, hard work pulled the game out to the tune of 29 to 26, with an innings to spare. The players in each team were as follows:

Banners—Con Cummins, Taffy Cummins, Micky McCandlish, Fred Miller, Arthur Miller, Geo Gore, Gordon Woodhouse, Leon McCandlish, Willie Brown.

Ymir—G. Paquin, D. Steel, H. Campbell, D. Keefe, M. Newitt, A. Clark, B. Stewart, H. Paquin, S. Stewart.

The Nelson boys desire to express their appreciation of the sportsmanlike and hospitable way in which they were treated and hope to be able to reciprocate in the near future.

SCHOOL ATTENDANCE

The following statement shows the number of pupils attending the public school for the month of June and the average attendance of each class:

Class	Att.	Av. Att.
I.	27	26.22
II.	32	31.69
III.	41	37.64
IV.	36	34.89
V.	42	39.63
VI.	58	53.67
VII.	52	47.56
VIII.	57	50.08
Total	345	320.78

SCHOOL TRUSTEES ELECTED

[Special to The Daily News.]

Ymir, June 25—A meeting of the citizens was called today to elect trustees in place of A. Parr, whose term expires, G. E. Duncan and Wm. Forrester, who have resigned. A. Parr was elected chairman of the meeting and Rev. H. Young, secretary. There were four nominations put in and a ballot decided upon, the result of the poll being: W. S. T. Ross 39, Wm. Clark 38, Ed. Peters 34, Mrs. Newitt 28. Mrs. Newitt is the first lady that has been nominated since there was a school in Ymir.

SIMPSON'S
CHEMICAL ERASIVE

SOAP

— FOR —

CLEANING COAT COLLARS

And Extracting
Grease, Paint, Tar, Oil, Sperm and Kerosene from Silks, Cloths, Carpets, etc., of Fast Colors

Price - - 25 Cents

Directions for Use—Rub a little of the Soap on the spot or stain, dip a brush in warm water, and rub gently for a few seconds; then wipe thoroughly off with clean water and all will disappear. If the spots be hard, such as paint or *sperm, rub the garment together after* applying the soap.

N. B.—Simpson's Soap removes Scruff from the head, Tartar from the Teeth, Fur from the Tongue, and cures Cuts, Sores, Ringworm, Chilblains, and Outward Piles by simply washing with it.

CAUTION—See that each cake bears the words "SIMPSON'S ERASIVE SOAP, REGISTERED," in raised letters, without which none is genuine.

If your druggist does not keep it, write for sample cake, enclosing 25 cents stamps or postal note, to Australian Agency, Room 1, (ground floor) Molson's Bank building, Vancouver, B. C.

Can be obtained at

The Canada Drug & Book Co's Stores
Nelson, B.C.

slips are used with canary colored sashes, forget-me-nots with blue almond blossoms and roses with pink and poppy buds and geraniums with cardinal ribbons.

Pompadour and Dresden ribbons, with borders of a solid color are not only very popular but also decidedly dainty and becoming for girdles to be worn with the thin summer frocks. Pastel shades are also quite popular. A very handsome girdle in one of the shops, to be worn with a champagne frock, is champagne blue and lavender in pastel shades of Louisine silk ribbon.

The style of bonnets that were in vogue at the time of our grandmothers, is becoming fashionable again. There is but this difference, that the bonnets of the present day are made so as to fit the face of the young girl, not the matron of advanced years. They are not intended for street use, however, but merely for lawn parties, driving and other outdoor occasions. It is quite probable, however, that the new style will find so much favor, that some modified form will be invented, suitable for theatre wear or other indoor occasions.

The demand for shawls, particularly of silk, is increasing and there is every reason to believe that they will be much worn this season. Nearly all are more or less embroidered, some in the same color as the material of the shawl, others in contrasting shades. Some of the shawls in pale salmon pink are embroidered in white, those in dull magenta in red of a deeper shade. Shawls in pongee silk are decidedly handsome embroidered in white or yellow of a different shade.

"The smart blouse," says an authority on fashion, "does not sag over the belt. Its fullness holds it out above the belt, but it should not fall over it. There should be no difference between the front and the back in that respect. If the back is pulled straight down and fastened to the skirt, the front should also be pulled down and fastened in the same manner." That is rather a valuable pointer for women who wear blouses and wish to be in style.

ESTELE CLAIRMONT.

R. J. Steel
REAL ESTATE AGENT.

A FEW WORDS ON SAMPLING

Any one or two single pieces will very seldom give a correct average of your ore, neither will it do to break a rock and send one half to the assayer and the other half to another, and expect them to agree, as the values are never evenly disseminated, hence a variation; the better way is to take what you consider to be a fair representation of the parcel, of a number of pieces (the more the better) and break them all down to the size of corn or smaller, then thoroughly mix and take your sample from it.

BROWN & CO.

When "Blue Ribbon giveth its color to the cup", it's no thin watery shade, but a rich, clear color that means purity strength and fragrance. Just try the Red Label. Only one best tea Blue Ribbon's it.

CLEANING HOUSE TIME

is near at hand. The question of what to do with your walls to have them sanitary, neat and attractive, has to be decided.

You will not want to use kalsomine, because after it has been on a short time it rubs off on everything that comes in contact with it; and then when you wish to do it over again comes the nasty mess of washing off the old coat, which costs as much as to put it on in the first place. Wall-paper with its mouldy paste is unsanitary, and stops wall respiration. The Doctor says, "Walls to be healthy must breathe."

CHURCH'S COLD WATER

ALABASTINE

is a porous cement and admits of the free passage of air. It is permanent, and sanitarians endorse the use of it. Anyone can do plain tinting, and with the aid of instructions we give, and designs we furnish, an ordinary workman can do very nice decorating. Cheaper than paint or paper. ALABASTINE is for sale by all Hardware and Paint Dealers—in packages only. For book of tints and further particulars, write mentioning this paper to

The ALABASTINE CO., Limited, PARIS, ONT.

NEW YORK FASHION LETTER

New York, June 25—The mothers of college or high school girls who graduate this year will have no trouble in selecting some suitable and, at the same time, handsome material for their daughter's graduating frocks. Never before were there such a bewildering variety of beautiful materials for the purpose in the market and, what is equally remarkable, the cost of the materials is by no means beyond the means of the average family. There were some comparatively inexpensive materials in former years, but they were too stiff and cheap looking. This year these materials are offered at practically the same cost but their texture is much finer, they are more pliable and handsome in appearance. Many of the cheaper cottons have an almost silk like sheen, which greatly enhances their beauty. There are mercerized lawns of exquisitely soft finish, white voile Egelptinne, which is not only very handsome, but can be washed without losing much of its beauty. There are also white chiffon organdies, plain and embroidered batistes, fancy nets, white silk viole, chiffon cloth, crepe de chine, crepe Louisine, chiffon taffeta and many other effective fabrics.

To be in perfect accord with the fashion graduating dresses should make the impression of simplicity. They may be trimmed and richly ornamented, but the simplicity of the general effect must be preserved. Elaborate looking dresses are decidedly in bad taste. The general style of the day is carefully preserved in the cut of the skirts, which should be clinging yet full in their lower part. The style is highly becoming to the graceful figures of young girls and it may be safely said that the raduating dresses this year will be handsome and more becoming than ever before.

Among the models shown in one of the shops is one of white chiffon organdie. The blouse going with the suit consists of a mass of dainty lace edged ruffles, and has a deep 1830 yoke of the organdie, laid in fine tucks. The yoke is outlined front and back with medallions of some material showing in the centre a raised bachellor button worked in white wash silk, and each medallion is framed in a narrow lace insertion. The sleeves are so long that the embroidered medallion which is used as a heading for the sleeves, comes in a direct line with those forming the yoke. The skirt is gored and the seams are trimmed with lace, the bottom of the skirt is trimmed with organdie, edged with lace. The two upper ruffles form the fashionable festoon line.

Many of the handsome frocks shown, which seem quite elaborately trimmed, really depend upon the shirring and puffing of the material to produce the desired effect. The shirred yokes are very pretty and particularly becoming to slender girls.

Soft white ribbons are also used for trimming purposes. The ribbons are made into ruffles and little bows and are also used in the form of ruchings. They are used in various ways, in horizontal bands on the skirt and for outlining medallions or other lace patterns.

While in former years white kid shoes were the only kind that could be properly worn with a graduating dress, the girls this year have the choice between the neat white kind or the black patent leather pumps. With the latter black broken work silk stockings are the proper thing, while white stockings should be worn with white kid shoes or slippers.

The custom of wearing a flower in the hair, matching the flowers of the bouquet carried by the girl graduate, will be more popular than ever this year. Great care should be taken, however, not to overdo things in this respect. The simpler the coiffure the more becoming it is to the young girl and a single medium sized flower or a small spray of small flowers is all that should be used for the purpose of adornment. Graduating girls should also avoid every display of jewelry. As similarity in appearance is the most becoming to a young girl, everything that is not in perfect harmony with the desired effect should be avoided.

Not only in Paris but also in New York, fashion is in an era of light and dainty *materials this season.* The fashionable Parisiennes simply revel in a bewildering variety of flimsy and delicate fabrics and most of them are finding their way across the sea. One of the latest revivals is that of foulards, which are used considerably. There is a difference, however, between the stiff silk materials of former years and the foulards of the present day. The latter is thin, supple and has a satinlike sheen. The lightest and most delicate taffetas are also extremely popular this summer. Linen holds its own, but it is not used in such severe plainness as formerly.

Of course there are other heavier materials like covert cloth, which is used a great deal for tailor mades. Then there are some of those English materials in dress goods of more substantial nature, which come in checks and stripes.

The general tendency towards elaboration and ornamentation, which characterizes fashions at the present time, also extend to bathing suits and it may be said that with the opening of the bathing season, there will be an opportunity to see some unusually handsome designs in bathing costumes. Bright shades of blue will be particularly popular and the sombre blacks and dark blues have gone out of style.

Silks of various kinds seem to be the favorite material for summer wraps this year. Black taffeta is used a great deal as the foundation for dark colored wraps, but not much of it becomes visible as most of it is hidden under a mass of chiffon, mousseline, laces and chiffon appliques. To make it bunchy, pinked or plain ruchings are used in profusion.

The fashion of wearing sashes has been revived this year, and some made of soft ribbon such as Louisine and liberty taffeta, are shown in the shops, with the ends knotted at intervals and caught with a small artificial flower the same tint as the ribbon. Yellow roses, rose buds and cow-

TWENTY-THRRE TOOK ENTRANCE EXAMINATION TO HIGH SCHOOL

Examinations which usually precede the summer vaction were held in the public school during the past week. Inspector. David Wilson, B.A., presided at the entrance examination to the high school for which there were 23 candidates. Of this number 14 were from the Nelson public school. The others coming from Salmo, Creston, Ymir and Trail. The result of the entrance examination will not be known until July 24th as the papers are read and passed on by the members of the educational department at Victoria. The examinations for promotion from one class to the other were both oral and written and were conducted by the several teachers and supervised by the principal A. Sullivan. The results of the examination are a flattering testimonial to the ability of the principal, his teachers and the pupils. The results will be found below:

Division I.—A. Sullivan, principal.—Nellie Annable, Walter Baer, Edna Ellis, Fred Emory, Harry Ferguson, Winnifred Foote, Leon McCandlish, Jessie Mcdonald, Greta Macdonald, Jane McLauchlan, Willie Paterson, Jean Volume, Emily Wilkinson.

Roll of Honor—Deportment—Jane McLauchlan; Punctuality and Regularity, Ethel Ritchie and Amy Swannell; Proficiency, to be given to the one who secures highest marks in entrance examination.

Division II—Miss K. Scanlan, teacher.—Promoted to Junior Fifth—Mary Bailey, John Bell, Clara Clunis, Jennie Currie, J. Austin Elliot, Harry Eperson, Sofie Fries, Blanchard Johnstone, Hall F. Lawrence, Ben Leet, Clinton McBeath, Evelyn Mackay, Annie Mackay, Douglas Nagle, Nels Nelsons, Nora Paterson, William Poupore, Mary Rutherford.

Promoted to Senior Fourth—Hilda Beeston, Ethel Fox, Pauline Gilbert, Blanche Jackman, Mabel Knudson, Depha Manhart, Anna Mastberg, James McCandlish, Arthur Lackey, Bessie Scoley, Myrtle Traves.

Roll of Honor—Deportment—Jennie Currie; Regularity, Nora Paterson; Proficiency, Ben Leet.

Division III—W. J. Baird, teacher.—Promoted from Junior Fourth to Senior Fourth—Hazel Austin, Minnie Baer, Alice Corry, John Darough, Floyd Hyndman, Katie McPhee, Henry Svoboda, Charles Swannell, Robert Swartz.

Promoted from Senior Third to Junior Fourth—Ernest Aves, Lottie Annable, Beatrice Ebbs, Frances Fletcher, Lilian Hinde, Percy Howard, Florence Johnstone, Park Howell, Lizzie Kerr, Hazel McArthur, Youla McKay, May McVicar, Arthur Miller, Grace Smith, Nita Smith, Thomas Wilkinson.

Roll of Honor—Deportment, Katie McPhee; Punctuality and Regularity, Hazel McArthur; Proficiency, Charles Swannell.

Division IV—Miss A. McLeod, teacher.—Promoted from Junior Third to Senior Third—Donald Currie,, Bella Campbell, Charles Darough, Winna Ellis, Beatrice Fennell, George Grant, Hugh Gunn, Willie Gunn, Harold Helme, Dawn Hume, Winnie Kinahan, Willie Laughton, Maggie McPhee, Kate McKay, Willie Middleton, Lottie Nagorsen, Ernie Rammelmeyer, Homer Redding, Edward Scoley, Charlie Steele, Mabel Steele, Ellen Sloan, Samson Waters, Leonard Woodhouse, Ruth Williams.

Roll of Honor—Deportment, Kate MacKay; Punctuality and Regularity, Charlie Darough; Proficiency, Homer Redding.

Division V.—E. S. Shrapnel, teacher.—Promoted from Senior Second to Junior Third—Bertha Barker, Majorie Busteed, Donald Campbell, Mary Darough, Irene Driscoll, John A. Ferguson, Julius Friedman, May Jane Gunton, Svea Kate Hanson, Lottie Hall, Hans Habigard, Clifford Irving, Dora Jordan, Roy Kellog, Flossie McVicar, Frank Pogue, Albert Poupore, Ellen Maud Riley, Ina Steed, Maud Simons, Eric Weir, Kenneth Wilkinson, Gordon Smith.

Promoted from Junior Second to Senior Second—Paul Bard, Bertha M. Barker, Clara Crawford, Hazel Dowsing, Arthur Clyde Emory, Kenneth McBeath, William Munro, Beemer McLauchlan, Harry Pitts, Ernest Ritchie, Alice Swannell, Ross Taylor.

Roll of Honor—Deportment—Svea Kate Hanson; Punctuality and Regularity, Maud Ann Simons and Bertha M. Barker; Proficiency, Maud Ann Simons.

Division VI.—Edith S. DeBou, teacher.—Promoted from First Reader to Second Reader, (At Easter)—Enoch Arnquist, Mabel Astley, John Carpenter, Pearl Driscoll, Erma Ferguson, Waldo Ferguson, Hugh Fletcher, Arthur Gilker, William Hosking, Margaret Kay, Elizabeth Lynch, Ruth Manhart, Alfred Manson, Anna Palmquist, Charles Riley, Ernest Shears, Bina Taylor, Stuart Wheeler, Alexander Walmsley.

Promoted from First Reader to Second Reader, (At Midsummer)—Henry Ades, William Barker, Roy Brown, Barbara Cummins, David Friedman, Elizabeth Fennell, Cecil Grizzelle, John Laughton, Vernon Montgomery, Erle Mildren, Idella McLauchlan, Virginia McGregor, Lorne McCandlish. James Middleton, Lula McVicar, Daisy Richards, Nellie Richardson, Mildred Sharp, Hugh Sloan.

Promoted from Junior First to Senior First—Beatrice Amas, Laurence Amas, Gertrude Annable, Maudie Edwards, Louis Johnstone, Edith McDonald, Gladys McDonald, James McKay, Gordon McPhee, Hester Pierre, Clifford Steeper, Violet Watson, Winnifrede Ritchie.

Roll of Honor—Deportment— Roy Wallace Brown; Punctuality and Regularity, Violet Watson; Proficiency, Margaret Kay.

Division VII.—Miss Rath, teacher—Promoted from Second Primer to First Reader—Minnie Anderson, David Arnquist, Francis Allen, Retta Allen, Esther Bard, Edith Choate, Percival Corry, Gwendoline Cummins George Elliott, Lulu Fisher, Roy Finch, Caroline Finnerty, William Grant, Ida Gunn, Harry Gibbs, Gladys Turney, Willie Gunton, Tony Habegard, Jennie Hanson, Florence Hodge, Elizabeth Ingram, John Leslie, May Manson, Helen McArthur, Alice McGregor, William McVicar, Essie Norris, Hilda Palmquist Edith Ross, Virginia Riblet, William Ratcliffe, Emma Svoboda, Edmund Traves, Charles Traves, Charles Wilkinson, Ida Young.

Promoted from Junior Second Primer to Senior Second Primer—Finlay Campbell, Lulu Crossett, Crawford Fennell, Lyla Fisher, Joseph Greyerbiehl, Emma Gebert, Russell Hodge, Arthur Hansen, Mabel Irwin, Agnes Leslie, Harold Lowe, Bruce Macdonald, Christena McCuaig, Rebecca McDonald, George Swannell, John Weir, Daniel Webster.

Roll of Honor—Deportment, Virginia Riblet; Punctuality and Regularity, May Manson; Proficiency, Harry Gibbs.

Division VIII.—B. Thom, teacher.—Promoted from Senior First Primer to Second Primer—Dorothy Hinde, Norman Hall, Muriel Hirst, Tom Ivens, Edwin Leet, Florence McKay, Helen Nolan, Rica Starkey, Arthur Simons, Esther Williams.

Promoted from First Primer to Senior First Primer.—Elsie Barker, Donald Black, Charlie Bradshaw, Mary Brown, Lila Bailey, Rachel Grant, Irvine Hume, Carl Hamilton, Irene Irwin, Ethel McGregor, Violet Ross, Sam Ratcliffe, Majorie Riblet, Mary Toolson, Mary Waldie, Ivy Woodhouse.

Promotedfrom Class B to Class A—George Amas, Fay Brown, Eric Beeston, Kathleen Drew, Samuel Eaton, John Eaton, Isabel Foote, F. Grant, Kathleen Irving, John Ivens, Victor Mastberg, Mamie McCuaig, Donnie Munro, Hilton Nagle, Bernard Schermerhorn, Ray Weir.

From Class C to Class B.—Elmer Anderson, Hellen Boyd, Robert Dinwoodie, Rita McLaughlin, Pauline Sloan, Marion Waldie.

Roll of Honor—Deportment, Rita Starkey and Norman Hall; Punctuality and Regularity, Mary Toolson; Proficiency, Ivy Woodhouse..

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miners for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for first year and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a mining recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate,

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, $10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of the Interior, Ottawa, February, 1904.

NEW STRIKES AT POPLAR

GOLD FINDS MADE ON THE OLYMPIA AND JOKER CLAIMS

RAPID CREEK SECTION IS TURNING OUT VERY WELL.

Charles Copp and Monty Morgan are in the city from Poplar and are quartered at the Queen's hotel. In an interview had with them yesterday they stated that a strike of considerable importance had been made on the Joker and Olympia claims. The former is owned by J. Verschole, W. Jennings and J. Patinson, and the latter by the Nelson brothers. These claims adjoin each other and are located between the Lucky Jack and the Swede group. A three-foot ledge has been uncovered on the Joker. The ledge has been stripped for considerable distance. Along the ledge has been found some free gold showings and for its length as far as stripped, shows free gold. The owners are very much pleased with the showing. On the Olympia a fissure vein a foot wide has been found and the quartz is very rich, showing a considerable quantity of free gold.

On Rapid creek, Nesbitt and Munroe are developing a six-foot quartz ledge. It is strongly mineralized throughout and in places gold in nugget form is found. This find is considered one of the best that has been made this spring in the Poplar district.

Jack Chism recently bonded the Hecla claim to Cutler Porter of Spokane, for $5,000. Since then he has uncovered a six foot quartz vein which shows free gold and the ore shows many colors on being panned. The Cutler Porter bond, which was for ten days, has expired by limitation and Mr. Chism would not take $10,000 for his property. It is located less than a mile from the railroad. The schist along Rapid creek adjacent to the quartz ledge pans well in gold.

Messrs. Morgan and Copp said that the Seattle parties who had secured the bond on the Mother Lode had a valuable property, as it is in the best section of the district and the showings of mineral are very large. The property has been acquired by a syndicate whose representative is George Pulver, who is interested in the Lucky Jack No. 2 Mining Co. James Spiers, Al. Palmer, O. E. Desmond, J. S. Reuter and Joseph Street were the owners. Under the agreement the parties are to sink a shaft on the property 100 feet and drive a tunnel 200 feet from the bottom of the shaft. The Mother Lode is located a mile and a quarter above Poplar on Poplar creek, there being one claim between it and the celebrated Gold Park group. A depth of 14 feet has been reached on the ledge and it carries concentating ore which assays $7 in gold, 23 ounces in silver and 30 per cent lead to the ton.

SHIPPING IN BULK

Ottawa Mine Sending Its Ore From the Arlington Chutes

Things are moving in a brisk manner at the Ottawa mine, where manager McPhee has 30 men at work, says the Slocan Drill. The mine is turning out one of the largest in the camp and by the end of the year will be the heaviest producer. Since the wagon road was completed the ore has been coming down at a lively rate, two teams now being engaged in the hauling.

The ore going out this week is the last to be handled in sacks. From now on it will be transported to the smelter in bulk. In fact one team has been so hauling all week. The Arlington ore bins and siding near the Y have been leased for the purpose. Much expense in the way of sacks, breaking and filling will be saved, and the ore can be handled more expeditiously. From now on two cars per week will be the output.

Manager McPhee says he does not want to talk much about the mine, as he prefers to let the results speak for themselves. He admits it is simply looking immense, while one large stope in particular is a sight for sore eyes. Two tons of ore have been forwarded to Jersey City for a practical mill test, by a new process which, if sucessful, will sooner or later result in a mill being erected on the property. Just now, however, there is very little ore going over the dumps, as the ore streak will almost all grade up to a paying average.

FREE CATTLE RANCHES

Any Citizen of United States Can Acquire One in Kansas

Omaha, June 25—Any citizen of the United States who is a head of a family and does not own more than 160 acres of land now, has a chance to acquire a cattle ranch in Nebraska for nothing. Under the Kinkaid bill, which passed the last congress and becomes operative tomorrow, 8,844,757 acres, most of which comprises as fine grazing land as there is in the world, will be open to the public as homesteads. The lands affected by the Kinkaid bill have been opened for homesteading in blocks of 160 acres each, for many years, but, not being suitable for agricultural purposes, and 160 acres not being large enough on which to raise cattle, the lands have never been taken up as homesteads. However a square mile of this land will furnish pasturage and feed for 100 head of cattle throughout the entire year. Great tracts of land have been fenced by the cattle barons of Nebraska, one concern having fenced in no less than 2,000,000 acres of it. These large cattle ranches now have to give up the government land they have been using. This is the largest distribution of land that the government will ever make.

The only place in the city you can get a drink of Bass' Ale on draught is at the Tremont. Try a glass.

FACTORIES BURNED

Employees had to Run for Their Lives —Loss is $60,000

St. Catherines, June 25—The large factories of the St. Catherines' Box and Lumber company, Niagara street, were destroyed by fire yesterday afternoon with the probable loss of $50,000. The fire burned with such tremendous rapidity that men employed in the buildings had to run for their lives. There was panic among the people watching the flames when the boilers exploded.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

ON LUCKY JACK GROUND

RUBY OWNER'S CLAIM TO THE FAMOUS LOCATION

IMPORTANT CASE FROM POPLAR IS NOW ON TRIAL

The sittings of the supreme court, with Mr. justice Martin presiding, were resumed yesterday morning, and the trial of the Poplar adverse action of Rutherford vs. Morgan and Pool occupied the entire day. When the court arose at 6:10 the case was only partly concluded, and it is expected that at least it will occupy all of Monday and possibly part of Tuesday.

Notwithstanding that it was Saturday, and a hot close afternoon, the court sat from 10 a. m. to 6:10 p.m., the learned judge remarking that the assize day at Barkerville had been advanced a day and that he must be there by Monday week, consequently the Nelson sittings must be terminated as speedily as possible.

Contrary to general expectations, no judgments were delivered during the day, nor was there any official intimation when they would be given. They may be announced on Monday morning or at the close of the present trial, or when the business of the sittings has been concluded.

Sheriff Tuck was in his place yesterday for the first time for a fortnight, being detained at his residence by a rather severe attack of lumbago. Although still obliged to use a stick when moving about, Mr. Sheriff has pretty nearly recovered.

After five challenges were made the following jurymen were selected yesterday morning in the Rutherford vs. Morgan et al trial: W. E. Ellis, foreman, Thomas Morley, W. G. Brown, W. H. Lee, A. H. Clements, W. W. Bradley, F. B. Leys and George E. McLaughlin.

E. V. Bodwell, K. C., appeared for the plaintiff and with him P. E. Wilson. W. A. Macdonald and with him Robert Hodge for the defendants.

The plaintiff's case, proving the location of the Edith claim, which was not recorded, and the subsequent location of the ground by the Ruby Fraction, under which the plaintiff now claims the ground covered by the famous Lucky Jack claim was partially concluded during the afternoon and case for the defence was opened up.

An order was made directing the production in court of the posts used in staking the Edith claim. As these are all trees cut and trimmed they will have to be cut down and put in as exhibits. Both plaintiff and defendants produced large photographs of the ground, showing location posts in position, and a map, showing the ground covered.

The trial will be resumed Monday morning at 10 o'clock.

CHURCH SERVICES

Anglican—St. Saviour's church, corner of Ward and Silica streets. Fourth Sunday after Trinity. Holy communion 8 a. m.; Matins and litany, 11:00 a. m.; Sunday school, 9:45 a.m.; evensong, 7:30 p.m. Rev. F. H. Graham, rector.

Presbyterian Church—St. Paul's, corner of Victoria and Kootenay streets. Services, 11 a.m. and 7:30 p.m.; Sunday school at 12:30 p.m. Rev. J. T. Ferguson, pastor.

Emmanuel Congregational Church—E. H. H. Holman, pastor. Morning service at 11; evening service at 7:30; Sunday school :230. Morning topic, "Paul at Corinth." evening, "Influence, its source and power."

Go to Hector J. Perrier's tent next to the Royal hotel, Stanley street, for stamp and caricature photographs.

CHICAGO WON AT ST. LOUIS

St. Louis, June 25—Chicago won the Olympic national college championship in the meet held today at the world's fair stadium, with a total of 70 points. Princeton was second with 60 points. Chicago and Princeton were the only real contenders, and the result was in doubt until the last event had been decided.

R. W. Hannington offers $25 reward for the return of his Sable Collie dog "Christopher," which was stolen ten days ago, or $50 reward for evidence securing the detection and conviction of the thief.

A DESTRUCTIVE FIRE

Cornwall, June 25—John B. Atchinson's sawmill, planing mill and sash and door factory were destroyed by fire last night, together with a very large quantity of lumber. Loss between $30,000 and $40,000.

DOWIE IN NEW YORK

New York, June 25—John Alexander Dowie, and his son, Dr. A. J. Gladstone Dowie, were passengers on the steamer Luciana which arrived today from Liverpool and Queenstown.

NELSON'S NEWS OF THE DAY

Born, in this city on June 19th to the wife of W. L. Wallace, a son.

Born, in this city on June 19th to the wife of Robert Heddle, a daughter.

R. S. Moore of Collier and Co., is in the city on his regular monthly tour in the interests of the company.

City subscribers not receiving their paper regularly from the route boys will confer a favor by reporting the same promptly to this office either personally or by telephone.

John Shaw of Nanaimo, is at the Hume. He has been in attendance at the Masonic grand lodge meeting at Rossland and, accompanied by his wife, is making a short visit here on his way home.

William and George Stevenson, brothers-in-law of Frank Phillips, secretary of the Nelson Miners' union, arrived in the city yesterday from Iron Mountain, Michigan. They intend to make Nelson their home.

The high school examinations will begin on July 4th for those at the end of their second, third and fourth years. Fifteen will take the examinations which will be conducted by professor David Wilson, school inspector.

W. A. Galliher, M. P., writes from Ottawa that an order in council has been passed authorizing the Carlson and Porter labor claims to be paid at once and that checks will be forwarded within a few days.

C. G. Broadwood, a rancher near Powder Point, had some giant Wickson strawberries on exhibition at the Hume hotel yesterday. The largest was six inches in circumference and weighed two ounces. From 18 to 20 berries filled a box and 23 of them weighed over a pound.

The M. W. Bro. Rev. C. E. Sharp of Esquimalt, will officiate at the Masonic services at St. Saviour's church this morning at 11 a.m. Members and sojourning brethren are requested to meet at Masonic hall at 10:15 a.m. The services today are in commemoration of St. John's day.

William J. Barker, foreman of the Arlington, is in the city for the purpose of visiting his family. His little daughter, Bertha, passed a successful examination at the public school and her name was on the honor roll. This so pleased Mr. Barker that he purchased her a handsome watch.

Norris and Rowe's great circus will show here on Tuesday at 2 and 8 p.m. with a grand street parade in the morning. The management promises a combined circus, menagerie, museum and hippodrome, with two rings, an elevated stage and a new circus throughout. A multitude of new features appear on the program including one hundred startling acts.

The strawberry social which was to have been given last Thursday evening by the ladies of St. Paul's Presbyterian church at Mrs. Lamont's residence on Carbonate street, and which was postponed owing to the coldness of the weather, will be given at the same place tomorrow (Monday) evening at 7:30. The city band will be in attendance. All connected with the church as well as other friends will be welcome.

On Friday afternoon a party of 30, consisting of the members of the Methodist choir and their friends, enjoyed a picnic and launch ride. At 1:30 o'clock the party assembled at the city wharf and embarked for a ten mile ride up the lake, finally winding up at Mrs. Rutherford's summer residence at Three Mile. Here a sumptuous repast such as only the ladies of the Methodist church can prepare, was partaken of. The party arrived home about 10 o'clock after a most enjoyable day. Such events tend to promote fraternal feeling and good fellowship and another similar trip will be taken during the summer.

Previous to breaking up of the public school on Friday a fire drill was carried out in the presence of the trustees, under the direction of chief Steele. The pupils came marching out like so many well-drilled soldiers and the building was vacated in 30 seconds. Another fire drill was held at the high school and owing to the fewer numbers the building was vacated in 18 seconds. There were about 30 pupils at the high school and about 300 at the public school.

McLACHLAN BROS.
NELSON AND VANCOUVER.

DOMINION DAY FARES.

The Kaslo and Slocan railway on July 1 and 2 will run a special train and boat between Sandon and Nelson. It will leave Sandon at 6.30, leaving Nelson on the return trip in the evening of both days.

The Canadian Pacific Railway Co. on July 1st is operating a special train service between Sandon and Nelson, making all intermediate stops. The train will leave Sandon at 6.30 a.m., reaching Nelson at 11.30 a.m., and returning on July 2 at 8 p.m. This train will reach all points in the Slocan.

The fare is one and one-third regular fare for the round trip. Tickets will be on sale on June 30 and July 1 and are good until July 2.

From Rossland the C. P. R. is quoting a special rate of $2.50 for the round trip, good only on July 1.

THE SLOCAN STAR

Byron N. White on the Future of Silver —Prospects are Satisfactory

Byron N. White of Spokane, president of the company owning the Slocan Star mine at Sandon, was at the Strathcona last night on his way to Spokane after spending several weeks at the mine. He will return north again in a short time and expects to spend the most of the summer at the property. At the present time some 70 men are employed and about 22 tons of zinc concentrates are turned out daily and stored for shipment when a market is available. About 12 tons of silver-lead is got out daily and shipped to the Trail smelter. All the ore runs high in silver. The company has practically rebuilt its concentrator and put in about $15,000 worth of new machinery this season. A good deal of damage was done by snowslides this spring, but Mr. White said last night "There was no use making a fuss about it, we met the trouble and got over it as quickly as we could. I think the report of the commission on the silver question, which has been issued will result in silver being eventually maintained at 60 cents and that its fluctuations will be slight around that figure in good time. I am glad to see the Federal company going to take hold of the Sullivan mine in East Kootenay and I think capital is steadily returning to the Kootenays. In time I believe we will satisfactorily solve the zinc problem and that a market for the output will be found."

A PREMEDITATED ACT

Charles Swayse Intended to Kill Miss Alvred and Himself

Detroit, June 25—That Charles Swayse intended to kill Miss Effie Swayse when he asked her to meet him at the insurance office in the Chamber of Commerce building, where yesterday's tragedy occurred, and then to kill himself, is believed to be proved by a letter which he left his wife, which was not made public yesterday. This letter is addressed to "Darling wife and children," and opens as follows: "Forgive me for this last terrible act of my life. God knows how I love you but our once happy home is ruined by my own weakness and the plotting of malicious enemies." The letter then tells how friends have failed him and "turned the cold shoulder." He says that "she" was only a tool in the hands of enemies. Miss Alvred who was shot by Swayse before he plunged from the eleventh story window, is doing satisfactorily at the hospital and is in no danger.

There will be a car of coarse screened Crow's Nest Pass Coal Co.'s coal in very soon, $6.35 per ton delivered. Please place your orders at once. H. E. Croasdaile, agent, telephone 247.

LAST COMMITTEE DANCE

The last assembly given by the committee boys will be held on Monday night in Fraternity hall. Music by Milward's orchestra.

ENTERTAINS FOR CHARITY

New York, June 25—Miss Helen Gould today opened her magnificent country place at Irvington-on-Hudson for a public lawn party and band concert. The proceeds of the entertainment will be donated to the army and navy branch of the Young Men's Christian Association, which is one of Miss Gould's pet charities.

Eye-Sight

Is an absolute necessity for a happy existence. There are multitudes who are afflicted with blindness, and they represent all kinds and conditions of life. We have been most successful in detecting the most minute defect in the eyes and equally successful in applying the right correction. We grind our own lenses and our work is positively guaranteed.

A Rare Opportunity for the Men of Nelson at the
Hub Furnishing House

The Fit Reform Clothing Co., of Montreal, seeing the importance of having their goods on sale in Nelson, have decided to put in a complete wardrobe system with us for the display of their clothing and have given us the sole control of their make for this district. Owing to the size of our store it is absolutely necessary that we dispose of our entire stock of clothing now on hand. We want the people of Nelson to understand that every suit and every pair of pants must move and we know the prices must do this for us. We quote a few prices as follows:

Men's Summer Suits, flannels and serges	$ 5 to $ 8.00	were $ 9 to $12
Men's Tweed and Fancy Worsted Suits	8 to 10.00	were 12 to 15
Men's Black and Blue Serge and Fine Worsted Suits	6 to 12.50	were 10 to 17
Men's Imported Scotch and English Worsteds	10 to 14.00	were 15 to 20

High Class odd pants, odd vests, odd coats, at clearing cut-prices To appreciate these prices it will be necessary to see the goods, for such values were never offered before in Nelson by ourselves or any one else. These goods are nearly all new this season, no old shop-worn goods in the lot. Sale commences Thursday, June 23rd.

EMORY & WALLEY, Baker Street

A Nice Diamond
is the only kind to have

Our constant endeavor is to have nice diamonds to sell at a reasonable price. The fact that we have long been buying our goods in the foreign markets and in large quantities places us in a position to give the very best diamond service to our customers. We solicit your orders for anything you may want in diamonds, loose or mounted.
