WILL HELP OUT WITTE

Moscow Congress Concludes That in This Way Lies Safety

Meanwhile Peasantry Are Rising Independently in Central and Southern Provinces and Revolution is Feared

Moscow, Nov. 22.—At the end of four days debate the executive committees of the Zemstvo congress brought in the following resolution in favor of supporting the government the reading of which was greeted with tremendous applause:

"Considering that the imperial manifesto satisfies all the demands voiced since the zemstvo congress of a year ago, and that the liberties accorded by the manifesto are indispensible to the tranquilization of the country, the congress declares itself in complete solidarity with this conditional basis. The responsibility for the realization of the program rests upon the cabinet. The congress is convinced that the cabinet can count on the support of the great majority of the zemstvos and municipalities so long as it follows the path for the accomplishment of the liberties promised by the manifesto but every deviation will encounter decisive opposition.

The congress believes that the sole means of guaranteeing the authority of the government, the pacification of the country and the support of the peoples representatives are the immediate promulgation of universal suffrage in elections to the douma, the transformation of the first douma into a constituent assembly for the elaboration, with the approbation of the emperor, of a constitution of the Russian empire and the organization of the territorial reforms.

But measures for the realization of the liberties granted by the manifesto are regarded as immediately imperative.

The resolution outlining the proposed program of the Zemstvoists favoring the support of the government in its effort to establish the liberties promised by the imperial manifesto of October 30th, which was introduced by the executive committee in the Zemstvos congress today caused prolonged debate in which nearly forty speakers participated and at the end of a long evening session the resolution was referred back to the committee for the incorporation of any modification made necessary by the criticisms of it, and it will be voted on tomorrow. The leaders of the "Octoberists" as the party favoring the manifesto is called, and other moderates concentrated their attack on the section of the resolution calling for a constituent assemly.

The section calling for a thorough and severe investigation of and the placing of the responsibility for the recent disorders, met with general approval though M. Gouchkoff demanded an investigation not only of the police but also of the "Reds." M. Gouchkoff and count Hayden opposed not only the demand for a constituent assembly but also that for direct elections for which they said Russia was not sufficiently developed culturally. M. Gouchkoff, who is regarded as count Witte's spokesman, defended martial law, saying that extraordinary measures were necessary in extreme cases. He was continually interrupted by cries of "Enough" from the socialists in the audience, and the extremist delegates. Prince Troubetsky rebuked the disturbers. He said he was opposed to martial law especially in Poland but the delegates ought to give a respectful hearing to all opinions especially if they were unpopular.

The practical decision of the congress to cooperate with the government of count Witte is extremely distasteful to the social democrats, the party organization of which sent a letter to the congress, saying the delegates had sold themselves to the government, but that the socialists would show them up to the people as traitors, and would continue to prosecute their campaign for a democracy.

The excitement among the peasants in the central and southeastern provinces is spreading rapidly and it is feared that it will be impossible to suppress the movement which promises to develop into a general uprising, bringing devastation and untold horror to the whole country. The revolution is among the peasants who are industriously spreading the story that the imperial reform manifesto really decreed a division of the lands, but that the intelligent Jews distorted it and took all the freedom for themselves, and the peasants, therefore, have the right to possess themselves of the land which the emperor granted to them. The peasant congress, which is largely under the domination of men who during residence in the cities, have become imbued with socialistic ideas and who are preaching the expulsion of the landlords and the division of the estates, will assemble here tomorrow.

Some of the radical members of the Zemstvo congress are in negotiation with the leading members of the peasant congress.

St. Petersburg, Nov. 22.—An imperial proclamation of today states that during the year 1906 the payments on land granted to peasants will be diminished by one half and will cease entirely on January 1, 1907, the peasants then becoming owners of the lands.

St. Petersburg, Nov. 22.—All eyes continue to be rivetted on Moscow where the struggle in the zemstvo congress on the question of supporting premier Witte is continuing. Some of the most powerful men in the congress are urging the necessity for rallying the moderate sentiment in support of the government. The irreconcilable radical element appears to think a split to be inevitable. Should a resolution supporting the premier be carried it seems almost certain that it will be coupled with conditions. The idea of a constituent assembly seems to have been abandoned but not the demand for universal suffrage, to which latter demands the premier is likely to yield.

The only direct proposal thus far before the congress is prince Dolgoroukoff's plea for support of the government, so long as it follows the principles of a constitutional regime. But the section under the leadership of M. Roberts insists that portfolios be given to men known to be in sympathy with the cause of freedom and that there be granted universal suffrage and the immediate trial and punishment of all officials guilty in connection with the recent massacres.

Prince Eugene Troubetsky's followers will be content with an advisory council for the cabinet. Dmitri Shipoff and M .Cuckoff, who may be regarded as count Witte's representatives in the congress, are watching the trend of sentiment but have not yet shown their hands.

The prolongation of the struggle now in its fourth day is regarded as being favorable to she government, as with the exception of a few extremists who declaring that no alliance with the present government is possible practically all the leaders, of every shade of opinion, have expressed their realization of the fact that only cooperation with the government can prevent a reign of terror and anarchy.

The admission of women to the university on the same conditions governing the admission of men, is declared by count John Tolstoi, the new minister of education, in an interview published this morning, to be part of his policy. The minister says he is also in favor of instituting reforms in the university and the higher schools which, he declares, are in an "abominable state." It is his purpose, he says, to call a conference of professors for the elaboration of permanent rules permitting organizations of students and professors.

Kursk, Nov. 22—The agrarian disorders in the district of Subzsha have assumed such volume that the troops are unable to cope with them. The whole northern half of the district is in the hands of peasant rioters, who are pillaging the estates and burning the harvested crops. During the pillaging of one estate a company of Cossacks looked on being unable to interefere.

Vladimir, Nov. 22.—In the Jurieff and Alexandrovsk districts of this government peasant mobs are demanding the surrender of the stocks of provisions and are threatening to set the torch to the whole locality and storm the country treasury.

Pernau, Nov. 22.—During a prayer meeting in the Esthonian church today a crowd of socialists entered the church and threw the pastor from the pulpit. The congregation fled in a panic.

CRANBROOK'S FIRST COUNCIL

George Thompson Rogers Elected Mayor By Very Large Majority.

(Special to The Daily News)

Cranbrook, Nov. 22.—The first municipal election passed off very quitely and resulted as follows:

For Mayor

G. T. Rogers	141
Alex Moffat	57

Majority for Rogers—84.

For Aldermen

J. C. Fink	142
D. E. Murphy	131
Jas Greer	112
H. Hickenbotham	110
G. P. Tisdale	94
Jos. Jackson	89

The defeated aldermanic candidates were Jabez Harris P. DeV. Hunt, and James Ryan.

CUSHING RUNS AHEAD AGAIN

(Special to The Daily News)

Calgary, Nov. 22.—Cushing pulled up 19 today and has made a net gain in the two days of the recount of four votes. His majority is now 35. There are still five divisions to count, but the election of Cushing is certain now with a majority of about 45.

The liberals now have 24 of the 26 seats in Alberta.

PATTERSON-ROBINSON

(Special to The Daily News)

Winnipeg, Nov. 22.—Miss Gertrude Robinson, daughter of the late W. P. Robinson, of Nelson, was married here today to J. E. Patterson, of Carman, Man. The bride was given away by her brother-in-law, W. J. Guest, wholesale fish merchant of this city.

SIFTON MAY BE NEXT GOVERNOR

Winnipeg, Nov. 22—Clifford Sifton is here and announces his intention to remain for some time. This has strengthened the rumor that he will be the next lieutenant governor, taking the place of sir Daniel McMillan, whose term expires shortly.

AYLESWORTH IS ELECTED

Wins Out in North York by Majority of Over Five Hundred

Liberals Returned for West Lambton and Antigonish--Wentworth Still in Doubt but Smith, Conservative, Leads

Toronto, Nov. 22.—Bye-elections for the house of commons were held today in West Lambton, North York, Wentworth, Ontario, and Antigonish, N.S.

In West Lambton, Pardee (liberal) defeated Lesueur, (conservative) by 338, with 8 polls to hear from.

In Wentworth Smith (conservative) defeated Sealey (liberal) by eight majority.

In North York, Hon. A. B. Aylesworth postmaster general, defeated McCallum (conservative) by 501, and in Antigonish, Chisholmn, (liberal) defeated by Girroir (conservative) by 284.

Toronto, Nov. 22.—With impressive victories in bye-elections in North York, West Lambton and Wentworth, Ontario, liberals take a cheerful view of the situation regarding this province as in accord politically with the rest of the dominion in supporting the best government Canada has ever had.

Aylesworth's triumph in North York is particularly gratifying in view of the seductive platform and promises of his irresponsible opponents, and this grand old liberal riding gives the postmaster general a hansome majority of over five hundred.

In West Lambton, F. F. Pardee has won a noble victory over Lesueur, backed by the conservative and high protection party which is strong in that oil producing territory and among the border town merchants, who suffer from competition, both duty paid and smuggled.

In Wentworth Sealey (liberal) had to fight the cry of "non-residence" which was raised against him, as against Aylesworth in North York, and E. D. Smith, his opponent, a local man with extensive business connections throughout the riding, made an extremely awkward candidate to tackle.

Up to a late hour the result was in doubt and will remain so till the last sub division is heard from.

Sealey had been declared elected after the last general election by 20 majority. On the recount a number of ballots the returning officer had failed to initial were thrown out and Ed Smith (conservative) was declared elected by 10 majority. The liberals appealed the case and a new election was ordered. Now it is claimed Smith holds the seat by the very narrow majority of eight after an extremely keen contest.

Had the bitter and unscrupulous attack on Aylesworth in North York succeeded, the member for South York would, without doubt, have figured in an organized mutiny against Borden's leadership. The decisive result in North York, where Aylesworth has a majority of 501, relieves the conservative party of one or two awkward problems. Maclean has been given rope and has hanged himself in the most approved fashion.

Sir William Mulock's majority in November last was exceptional.

The election of Pardee in Lambton may be regarded as a test of the government's popularity among widely separated elements of the electorate. The farmer and town dweller alike feel that the opposition must pull itself together and evolve some sort of policy before asking for the support of the people. West Lambton was rendered vacant by the death of Dr. Johnston (liberal) whose majority at the last general election was 447.

Nova Scotia's solid eighteen is unbroken. Chisholm (liberal) was elected for Antigonish by a majority of 284 over E. L. Girroir (conservative). The battle was keenly contested but attracted little attention outside the county and the whole campaign on the liberal side was conducted by local speakers. Mr. Girroir although a young man, is a veteran campaigner, having previously contested two elections and the splendid victory won by Mr. Chisholm is the cause of great jubiliation among liberals. Mr. Girroir is of French decent and was naturally strong in the Acadian districts but Antigonish stood true to liberalism. At the general election in November, C. F. McIsaac secured the abnormal majority of 807, but his opponent Dr. Cameron was a back number and Mr. McIsaac had a walk over. In 1900 Girroir ran against McIsaac and was defeated by 226, so that Chisholm's majority is about the normal liberal strength. Mr. Chisholm was making his first appeal to the electors and he has shown surprising strength.

[Bulletins sent out covering the election in Wentworth were very contradictory. At the time the article dealing with the results of the bye-elections was written, the latest bulletin received said: "Correction — Wentworth, Sealey (liberal) elected, majority 53." Later bulletins and our correspondent's lengthy review of the results announced that E. D. Smith, conservative, was probably elected by the small majority of 8.—Ed. Daily News.]

MURPHY TO STEP DOWN

MAYOR M'CLELLAN WILL SEEK NEW LEADER FOR TAMMANY

TIMOTHY D. SULLIVAN MAY BE THE MAN OF DESTINY

New York, Nov. 22—All eyes in Tammany hall are turned to mayor McClellan. The leaders who are dissatisfied with Charles F. Murphy's conduct of the campaign and who are ready to join in revolt are waiting for the mayor to make some sign. Among them are many who believe that he will give his tacit support at least to a reorganization.

The retirement of Murphy as the leader of Tammany, is said to be assured. Murphy, it is said will go back to the 15th assembly district, where he is supreme, and the Tammany organization will probably be led in the future by some representative of the Tim Sullivan crowd, perhaps by Sullivan himself. The crowd violently opposed Murphy on nearly all questions of policy in the recent municipal election, and loudly proclaimed that he made a mistake in refusing to consent to the nomination of Jerome. This refusal seems to be at the bottom of all Tammany's troubles. He should have known, it is said by the Sullivans, what the result of failure to endorse Jerome would mean. The leader of Tammany is leader by virtue of his foresight, and when this fails him he is no longer of use to the organization.

With the power of appointment and removal for the next four years at his command, Tammany realizes that the mayor can make or unmake any leader of Tammany, from the highest to the lowest, if he sets about it with determination. He has at his disposal the powerful weapon of patronage, and the mere announcement that he has taken the reins in his own hands would probably be sufficient to make him the real head of Tammany Hall for the next four years.

Mayor Weaver's successful rebellion in Philadelphia against a machine stronger in many respects than Tammany, has not been lost upon the Tammany crowd. The announcement that after January 1, many heads of departments who have brought criticism and reproach upon the administration will have to give place to new men chosen by the mayor himself, has attracted attention. Tammany is wondering what the mayor means by this promise and how far he intends to go.

John F. Ahearn, borough superintendent of Manhattan, who controls patronage next in importance to the mayor himself, is known to be an adherent of representative Timothy D. Sullivan, rather than as a supporter of Mr. Murphy. In a fight for the leadership Mr. Murphy would be able to depend only upon the assistance that the county officials who might stand by him, might be able to render. He has lost the board of aldermen, the district attorney's office and the boroughs of Brooklyn, Queens and Richmond.

In the light of the result of the election the Tammany leaders are resentful towards Murphy for his refusal to place district attorney Jerome on the ticket, despite the demand of the mayor and the majority of the Tammany executive committee. They are convinced that if Mr. Jerome had been named, the entire Tammany ticket would have been elected by safe majorities.

The fact that representative Sullivan used all his influence for Mr. Jerome, has increased his prestige in the organization. It is generally conceded that Mr. Murphy's tenure of the leadership rests entirely with the mayor and the Sullivans. Interesting reports of the mayor's attitude toward Murphy are being repeated in Tammany Hall. It is said that Mr. McClellan has expressed an unexpected determination to conduct his second administration without regard to the demands of the machine as voiced by its present leader.

The mayor, according to this report, while admitting that Mr. Murphy has done much for his political advancement, feels that the obligation has been fully discharged during his first term and that he is now entitled to have his own way.

It is expected that he will request the resignation of all the present heads of departments on January 1, and will feel free to go outside the organization to find men to aid him in carrying out his policy.

Among the officeholders who are said to be destined for removal are John T. Oakley, commissioner of water supply, gas and electricity; Isaac A. Hopper, superintendent of buildings, who is under John F. Ahearn; John H. Tully, commissioner of charities; John McGraw Woodbury, commissioner of street cleaning, who was brought over by the mayor from the Low administration; Maurice Featherstone, commissioner of docks and ferries and George E. Best, commissioner of bridges.

UNBRIDLED TEMPER

Insane Murder by Misgoverned Lover of New York

Nyack, N.Y., Nov. 23—Because they objected to his attentions to their sister, W. H. Jones, tonight shot and instantly killed Harry Britton, aged 18, and probably fatally wounded his brother, Frank. Jones, who is about 35 years old, is said to have been infatuated with the Britton boys' pretty sister, Jessie, who is only 16 years old and has but recently left school.

The girl was annoyed by Jones' persistency and at her request her brothers ordered him to keep away from the house. Tonight he presented himself at the door and demanded to see Jessie. Harry and Frank ordered him away, when Jones suddenly drew a revolver and shot Harry dead and then shot Frank twice, inflicting wounds from which he will probably die.

BOOTH DREAMS OF PEACE

Wants a Brotherhood of Man Among the Powers of Europe

Berlin, Nov. 22—General Booth of the Salvation army, who is travelling through Germany, addressed two big gatherings here today in the Circus Busch. He made special mention of the relations between Great Britain and Germany, and said that the most influential men of Great Britain were of the opinion that these relations should always be as peaceful as they are at present. "Can we not," said general Booth, "have a peace league with the heads of monarchies, presidents of republics and the churches and the press to advocate it, so that we shall be able to leave to the coming ages an example of real fatherhood of God and true brotherhood of men."

C. P. R. WATER SUPPLY

Medicine Hat, Nov. 22—In order to solve the difficulty of water supply for locomotives west of here the C.P.R. is piping water to Suffield from the Saskatchewan, a distance of 15 miles and to Irvine from Elkwater, 22 miles away.

LIT A FIRE WITH KEROSENE

Portage la Prairie, Nov. 22—Mrs. Goodrich, wife of a prominent farmer near here was horribly burned today while lighting a fire with kerosene and her recovery is very doubtful.

SULTAN IS STUBBORN

Refuses to Acquiesce in Demands for Reform in Macedonia

Sarcastic Suggestion That the European Concert Should Coerce Russian and Not Turkish Lack of Reform

New York, Nov. 22—A Constantinople despatch to the Times says: No answer has been received to the demands of the powers relative to the reforms in Macedonia, and although the diplomats still believe that the sultan will give way at the last moment, the signs are all the other way.

There can be no doubt regarding the resentment the Turks feel at the attitude of the European cabinets. Even among the people the hope is expressed that the sultan will resist to the bitter end.

The Turks are especially bitter at the sight of Russia, herself in the throes of revolution, produced by centuries of oppression, taking a leading part in forcing reforms in Turkey. It is sarcastically suggested that the powers would have been much better employed had they sent their fleets to Odessa to stop the massacre of the Jews, instead of planning a naval demonstration in Turkish waters. It is evident that the sultan would be enthusiasticaly supported by his people, were he to defy Europe and take the consequences.

This popular feeling he might easily disregard, but he is not likely to be indifferent to the consideration that sooner or later he will have to fight to keep Macedonia, and that such a good opportunity as the present, with Russia powerless and Austria weakened, is not likely to occur again.

In spite of the care taken by the German government to explain that its failure to take part in the demonstration is not due to any disagreement with the other powers, the sultan will probably prefer to draw his own deductions.

Paris, Nov. 22—The Temps today publishes the following despatch from Constantinople: "Following a second meeting of the council of ministers today it is stated that Turkey's response to the powers will be an acceptance of the demands with the reservation that the terms of the powers for control of th ehinances of Macedonia be modified so as not to reflect on the prestige of Turkey."

Constantinople, Nov. 22—The porte has rejected the proposals of the powers for the international control of the finances of Macedonia.

Vienna, Nov. 22—A despatch from Constantinople says that the reply of the porte, which was handed to baron von Calyo, Austro-Hungarian minister, tonight, rejects the proposals of the powers on all points and declares that the public opinion of Turkey would not countenance their acceptance. However, the porte agrees to extend to two years the terms of the civil agents of the powers in Macedonia.

Athens, Nov. 22—The warships of the powers, which propose to make a demonstration against Turkey, arrived at Piraeus today and exchanged salutes and official visits. The commanders are awaiting instructions.

London, Nov. 23—The Vienna correspondent of the Times says it is reported there that the sultan of Turkey appealed to emperor Francis Joseph to postpone the naval demonstration on Turkish waters and that the emperor replied that further delay was impossible.

ROUTE OF GRAND TRUNK PACIFIC

Schreiber's Report on Location From Touchwood Hills to Edmonton.

Ottawa, Nov. 22.—Collingwood Schreiber, deputy minister of railways, has prepared his report on the location of the route of the Grand Trunk Pacific from Touchwood Hills to Edmonton. The whole question has to be referred to a meeting of the cabinet before the plans are adopted, yet they have been carefully looked over by some of the ministers and the route has been practically agreed upon. When in the west, Schreiber got the views of Hon. H. R. Emmerson.

The principal change will be that the line will go nearer to Saskatoon than shown in the plans. It is not likely the route will be materially changed thence to Edmonton.

The English company that proposes to run a freight service on the Pacific between Canada and New Zealand want a subsidy for a bi-monthly service of boats of 10 knots. New Zealand intends giving $50,000 for a service and Canada has appropriated an equal amount, but nothing has yet been done by either party to show that a service of the kind would be acceptable.

BRILLIANT MUSICALE

Miss Winifred Crowley Again Charms Nelson Audience.

The musicale in the Baptist church last evening was a pronounced success from every point of view. The attendance was very gratifying both to performers and promoters, the church being filled far beyond its seating capacity.

The star of the evening was Miss Winifred Crowley of Rossland. Miss Crowley was heard to even better advantage than in Rose Maiden. Her two solos "Tell Her I Love Her So," and "Good-Bye," were greatly admired. Her voice shows great development in power and in sweetness. Her ennunciation, however, seemed to show the influence of undesirable models.

Mrs. Shanks, E. Grizzelle and F. D. Arundel also sang very acceptably, Miss Newcombe and Rev. E. H. Shanks made favorable impressions in recitation. H. S. Bodmer, in his piano solos and accompaniments, sustained the reputation for faultless performance he has already made in Nelson.

CZAR DEEPLY AFFECTED

Talks of Confiding Government to a Triumvirate, Including Trepoff

St. Petersburg, Nov. 22—That the czar is deeply affected by the latest turn of events is apparently confirmed by the despatch to Le Temps from St. Petersburg, saying that he is considering the advisability of confiding the government to a Triumvirate, composed of grand duke Nicholas, count ignatieff and general Trepoff.

There can be but little doubt that the return of Trepoff will stir the strikers to hostilities. The gener ladid not add to his popularity during the strike previous to the present one and many threats have been made against him, which the strikers will undoubtedly endeavor to carry out if he again assumes the reins of dictatorship, as they will have little reason to hope for any intervention this time.

GRAPES FROM B. C.

To combat the impression that the climate of British Columbia is very inclement in winter J. H. Turner, agent-general for the colony, mentions in the Times that at the Canadian Pacific offices in Trafalgar Square may now be seen some fine, thoroughly ripe Flaming Tokay grapes grown at Lytton, B. C., in the open air—specimens of this year's crop just arrived.

OFFICER GUILTY OF FORGERY

Manila, Nov. 22.—Lieut. Kirkman, on the charge of forgery, has been arrested at Fort McKinley. It is alleged that Kirkman was short of troops funds to the extent of $500 and that he raised the money by forging names to a note.

MEDITERRANEAN AUTO CUP.

Rome, Nov. 22.—King Victor Emmanuel, the minister of marine, and several public institutions have promised important prizes for autoboats, if the next contest for the Mediterranean cup take place as proposed between Palermo and Toulon in which case important Italian firms will participate.

OFFICERS MUST QUALIFY

Ottawa, Nov. 22.—Militia orders announce that commanding officers are required to call upon all provisional officers who have not qualified to state their reasons why they should not be removed from the list.

AFTER ADULTERATED FOOD

Ottawa, November 22.—The department of inland revenue has given the department of justice order to prosecute a number of manufacturers of adulterated jams and jellies and maple syrup.

ELECTED COADJUTOR BISHOP

Concord, N. H., Nov. 22.—Rev. Edward Melville Parker of this city, was elected coadjutor bishop of the Protestant Episcopal diocese of New Hampshire today.

LEVEL CROSSING DEATHS.

Newburg, N. Y., Nov. 22.—Clara Rudolph, of Newburg, and George Adams, aged 19, nephew of Mr. Rudolph, were killed today at the Renwick street crossing.

AMERICAN BASEBALL

Chicago, Nov. 22—The American baseball league met in annual session today. The session was harmonious and routine business occupied the time. It i said that the proposed amalgamation of the American and National leagues will be discussed tomorrow. The tentative plan of proposed amalgamation, it is said, is for a combination of the two present major leagues into a major and minor league.

YET ANOTHER LYNCHING

Coahoma, Miss., Nov. 22—Dave Sims, the negro who shot and killed R. F. Jones at his home near Baugh station, in this county on Sunday night, was captured last night by a posse and immediately brought to this place. Several citizens interviewed the negro and they say he made a full confession. Sims was taken to Baugh and hanged to a tree.

CONFERENCE OF RABBIS

Chicago, Nov. 22—The central conference of American rabbis has issued an appeal urging that every rabbi in America request the people to close their places of business at 4 p.m. on Dec. 4, and meet in their houses of worship at 8 p.m. for prayer as an expression of sympathy with their afflicted brethren in Russia.

FOUNDERED WITH ALL HANDS

Halifax, Nov. 22—An unknown steamer has foundered off Beaver Harbor on the east coast, 55 miles from here, and the crew, it is said, have all perished. The steamer is supposed to be the Norwegian vessel Turbin, which was reported as having near Yarmouth.

SON OF MARSHALL FIELD SHOT

Chicago, Nov. 22—While cleaning a gun today preparatory to going hunting Marshall Field, jr., son of Marshall Field, the well known dry goods merchant of this city, accidentally shot himself. He was taken to the hospital and will probably die before morning.

LE ROI NO. 2 OCTOBER RETURNS

The mine manager cables for October: Shipped 680 tons; the net receipts are $17,950, being payment of 807 tons shipped, and $1633 being payment of 57 tons of concentrates shipped; in all, $19,583.—London Financial News.

STILL SUFFERS FROM BONUS EVIL

Medicine Hat, Nov. 22—A sewer pipe and tile factory will be erected here by a Winnipeg capitalist. The town will guarantee the bonds to the extent of $100,000

LARGEST CARGO OF WHEAT

Port Arthur, Nov. 22—The Sahar has just sailed from here with 300,000 bushels of wheat on board, representing the largest cargo ever taken down the lakes.

YELLOW FEVER IN CUBA

Havana, Nov. 22—Three new cases of yellow fever developed today. There are now seven cases of yellow fever under treatmnt and seven suspected cases.

PROGRESS LA PLATA

Ore of Development Pays Expenses of Mining Operations

Manager Trethewey Tells of Completion of Buildings, Splendid Results of Work, and General Outlook

The construction of the building for the concentrator for the La Plata Mines company is almost completed. The dam that is to provide water power is finished and the flume to the mill nearly finished. All the work has been done in a little over six weeks which is highly creditable to the management.

The mine itself is showing constant improvement as it is developed. Shipments are being maintained regularly from the ore taken out in development, and the returns are proving sufficient to pay the running expenses of mining operations.

The management is well satisfied with present conditions and prospects, and will not attempt to increase the output of the mine until their own concentrator is ready for operation.

The extent of the ore bodies has been previously reported. It is good news, however, that the quality of the ore as developed fully sustains the highest hopes of the management. With one vein of ore seven feet wide, and average values of 60 ounces of silver to the ton in addition to lead values, maintained on successive carload shipments of ore taken out in course of development, the outlook for the property and its owners is exceedingly bright and a source of natural gratification to the management.

T. H. Trethewey, manager of the company, arrived in the city yesterday afternoon for the first time in several weeks. Seen at the Strathcona by a representative of The Daily News, after stipulating that only his statements of fact, not his expressions of pleasure and satisfaction, should be reported.

Mr. Trethewey said: "The concentrator building is up and enclosed, except for the doors and windows. The dam that is to store water for the operation of the concentrator is also completed and the flume from the dam to the mill will be finished by the end of this week. I consider that very good progress has been made as the work was only begun on the 4th of October.

"The mine is looking remarkably well, better than ever before. The ore shipped from development work alone is more than paying the actual mining expenses, not, of course, the cost of the construction of mine buildings.

"We have now eight cars of ore on hand, but we shall wait for more snow before we get them down.

"The shipments for this month so far have amounted to about five cars. The returns were highly satisfactory. I have every assurance that at a very early date the mine will be paying good profits.

"The additions to the mine buildings, ore bins, and so forth, are practically completed. The number of men on the payroll now is 60 .

"Yes, the grade of the ore is keeping up to our highest expectations. Our shipments are averaging over 60 ounces of silver to the ton besides a good proportion of galena.

"We have some ore assaying away above that, but 60 ounces is a satisfactory average. As one of our veins is seven feet wide, I think it safe to say we shall do well, when our concentrator is running."

IN A GOOD CAUSE

Ottawa, Nov. 22.—Sir Wilfrid Laurier will attend a meeting here on Monday evening called by Hebrews to protest against the outrages and massacres committed in Russia.

The dominion government has accepted the invitation of New Zealand to make an exhibit at the exhibition at Christ church next year.

JEWS LEAVING RUSSIA.

St. Petersburg, Nov. 22.—Dispatches from southwestern Russia indicate that the Zionist movement has been given a powerful impetus by the anti-Jewish disorders. Hundreds of Jewish families are leaving or preparing to leave for Palestine. Three hundred sailed from Odessa on one steamer today.

BURRELL NOT A CANDIDATE

Grand Forks, Nov. 22.—Martin Burrell emphatically contradicts the statement sent out from here yesterday that he would be a candidate for mayor of Grand Forks in the next municipal elections. Mr. Burrell says he has no intention of being a candidate.

GOVERNOR FOR FINLAND

London, Nov. 23.—The St. Petersburg correspondent of the Daily Telegraph says that the emperor has ratified the nomination of privy councillor Gerrard as governor general of Finland, adding that his selection will be most acceptable to the Finnish people.

UNION LABEL

THE BYE-ELECTIONS.

W. F. Maclean has not secured a follower. North York electors have endorsed the candidature of postmaster-general Aylesworth in a very handsome manner by giving him the substantial majority of 501.

In the recent general elections North York gave sir William Mulock a majority of 962. The falling off in the majority on this occasion is probably due in some measure at least to the fact that whilst sir William Mulock was a resident of the riding, actively identified with its interests, Mr. Aylesworth is an outsider and came among the electors for the first time when he sought their suffrages.

However, the majority secured by the postmaster-general is a sufficient testimony to the confidence of that important constituency in the Laurier administration. The result, we fancy, will not occasion any serious regret to leader Borden. He will, rather, feel some satisfaction that the troublesome W. F. Maclean has been so severely snubbed.

In Wentworth the electors have increased Mr. Sealey's former majority of 20 to 53. This was only fair. Mr. Sealey was elected last year, but the seat was vacant because a deputy returning officer had failed to initial votes properly cast for him. Wentworth is a close constituency and the conservative candidate, E. D. Smith, was a hard man to run against, being extremely popular.

In West Lambton the liberal candidate, F. F. Pardee, is elected by about the same majority as was secured by the late member for the riding.

It would probably be unfair to attach any particular approval of the government's course to the results in these three Ontario constituencies, but they at least indicate that the conservative cry of a revolt against liberalism was purely imaginative. We were told that when the elections in West Lambton and Wentworth were brought on an enraged electorate would arise in its might and administer to the government such a rebuke as would prove the prelude to its early dismissal from office. The elections have taken place, the electors have had their say and it would appear that they have no very decided grievance against sir Wilfrid Laurier. The Laurier administration is not perfect by any manner of means. Misakes have been made, and doubtless, more will be made, but that is only to say that the administration is human.

The Laurier administration has accomplished big things for Canada and may safely be relied upon to continue the good work. It is useless to deny the fact that the progressive and aggressive policy adopted by the government in many directions has proved of very great advantage to the dominion as a whole. The proof of the efficacy of many of the reforms inaugurated by the government is too obvious. That there is room for more reforms and still greater aggressiveness in certain directions no one seeks to deny.

BROKEN LENSES REPLACED

We do not need your prescription to replace a broken lens. Bring the pieces; we analyze them and exactly duplicate. Or we can make up your present prescription in any of our popular style of mounts. Either our Sta-zon or Finch would please you. They are secure, neat and comfortable.

EDITORIAL NOTES.

The Toronto News, which apparently aims to fill the position of political scold of the dominion, denounces the Laurier government as "the most insolent, the most unscrupulous and perhaps the most corrupt government which has held office in Canada since confederation." But in order that the conservatives may not be unduly elated over this outburst, the News proceeds to remark:

"The truth is, that since its defeat in 1896 the conservative party has shown neither purpose, unity, nor energy. It seems still to be mourning over its defeat, and to be railing at Providence for the extraordinary dispensation which gave power and patronage to the liberal leaders. It cannot get rid of the notion that it has a divine right to rule, and that liberals in office are invaders and usurpers. During these nine years of opposition, it has failed to develop a constructive policy, nor has it even been able to attack the work of its opponents with consistency, moderation and sanity. The conservative party must lay down a constructive policy and stand by its platform whether it wins or loses elections, if it hopes to regain public confidence, and to show that it is worthy of the party traditions."

The Vancouver Province, professedly a liberal newspaper, publishes a long leading article full of personal abuse and misrepresentation of the British Columbia liberal members of the dominion parliament and senator Templeman. It is difficult to conceive what object a newspaper can have in adopting tactics of this kind. If the Province is tired of the liberal fold, if it disapproves of the course of the liberal government, generally, or in any particular, the fair and honorable course would be to say so distinctly and not to indulge in mean innuendo agains the men whom the liberal electors of this province have chosen to represent them at Ottawa. The kind of warfare the Province conducts against its former party friends is utterly despicable, and, to the credit of the conservative press of this province, be it said, will meet with neither approval nor encouragement in that quarter. In effect the Province charges the liberal members from this province with personal dishonesty in their representative capacities. If the Province has any grounds whatever upon which to base its cowardly insinuations, let it come out in the open, publish the facts and trust to public opinion to deal with the offenders. The increase in the indemnity, or the "salary grab," is the pretext for the attack made by The Province upon the B. C. members and senators. Disapproval of the increased sessional indemnity is quite intelligible and entirely defensible. If the Province discussed that issue on its merits and censured the liberal members from B. C. for voting in favor of the increase no fault could be found with its attitude, however much one might disagree with it. This is a subject fairly open to discussion and any newspaper whether liberal or conservative should be free to express its opinions thereon. But to hint at personal dishonesty, to throw out mean insinuations without offering the slightest evidence in justification, is a course that must be universally condemned.

SENTENCED TO BE SHOT

After Three Years' Trial, Murderers at Last are Doomed

El Paso, Nov. 22—In Chihuahua last evening judge Riosmarios sentenced C. T. Richardson, C. S. Harle and William Mason, Americans, to be shot. The men are accused of murdering two men in Chihuahua for their life insurance. Richardson was a life insurance agent, Mason, his brother-in-law, an assistant agent, and Harle, an examining physician. It was charged that they murdered a man named Devers, who they decoyed from El Paso, and another man named Mitchell, who is said to be a half brother of Mason. Richardson is from Rochester, N.Y., where he married Mason's sister.

The case has been in the American court three years. Harle formerly was an El Paso physician.

FOR SERVICES RENDERED

London, Nov. 22.—The Hon. Allan Johnstone, the British minister to Denmark and Arthur J. Horbert, the British minister to Norway, have been promoted to the rank of Knight Commander of the Victorian Order.

MAXIM GORKY'S LAMENT

OPPRESSED BY THE STUPIDITY OF THE PEOPLE

RUSSIAN ATROCITIES DUE TO THE GOVERNING POWERS

Dr. C. Hagberg Wright of Paris, makes public the following letter which he has translated, just received from the well known Russian author, Maxim Gorky, on the Caucasian uprising:

My Dear Friend—You ask me what I think of the events in the Caucasus. Well, I feel full of shame and sadness in reading and hearing of all that is going on there. When I was in the Caucasus I saw the Georgian everywhere working peacefully and contentedly side by side with the Tartar and the Armenian. How happily and simply, like children they played and sang and laughed, and how difficult to believe that now these simple, delightful people are busy killing each other in a senseless, stupid way, obedient to dark and evil influences.

What oppresses me is not so much the cruelty as the stupidity of the people, who do not understand that a foul external power is playing with their evil passions.

It does not seem to me that the bloody tragedies enacted at Baku differ in any respect from those tragedies in Warsaw, Kishineff and other places.

In Riga Kursk, etc., the same hideous work of a group of people who have lost their senses from fear of losing their power is visible. The group is trying to extinguish with blood the fire of conscience which is gleaming in the Russian people, at last awakened to the knowledge of its right to choose its own form of existence.

These men are accustomed to power. Life is pleasant to them while they can dispose of the fate and riches of our country, the strength and blood of our people, and that without giving an account of any one of their acts.

They have been accustomed to look upon Russia as their estate; they have forcibly kept the nation without rights and in ignorance and squalor in order to weaken its spirit and to prevent the growth of energies; they have kept the people like blind and dumb slaves obedient to their will.

With the cynicism of persons corrupted with impunity, with the frank ruthlessness of animals who are conscious of their power, they have done everything to kill the creative spirit in them.

But these contemptible creatures who reckon themselves the guardians of the whole life of the country are ignorant and stupid; they do not understand that to turn a nation into a blind, mechanical machine *is just as impossible as to change the granite mountains of the Caucasus into a* lump of clay.

This senseless and inhuman oppression has not been able to extinguish the fire of bold and free thought in our country. *It is breaking forth everywhere with greater* strength. Even the blind now see its angry flame.

This flame is spreading unexpectedly in all directions and is struggling to burst into one strong glorious blaze, into a stormy whirlwind of protest from all thoughtful and honest men against the violence which is used by an incapable group of parasites who have been enriched on the best sap of the country.

The parasites feel that the hour of their agony is approaching and that death is near; but they wish to live, and so they struggle as far as they are able against the will of the people, cowardly, dishonestly and basely.

They are raising from the depths of life all that is dark and evil; everything that is selfish, venal and low, and they have incited the dumb masses of brutalized beings against the best people of the land in order to crush them and to keep the power *in their own incapable hands, if only for* another year.

They openly hound on, like dogs, Russians on Jews, Poles and Finns; Tartars on Armenians and Georgians; the sluggish peasant, dulled by hunger, on students and even on children; and perhaps even if tomorrow the Tartars demanded the acknowledgement of their rights, they would send them against the Girghiz and Moldavians in order to oppress them. Everywhere one and the same thing.

These evil parasites have drawn around them for the protection of their own position in the country the wildest and most *ignorant of the people to use them* against those who sincerely and unselfishly desire good and freedom.

In the whole of human history and in no country has the struggle of the ruling class for the preservation of its power over the people been *fought so basely, so* infamously and so cynically as it is being fought in our country these bloodthirsty days. What a vile and mean impotence is seen in these creatures who are drunk with the blood which is spilt and who feel their end approaching.

What contempt must our country excite in Europe when they see those who rule us calling to life all that is savage, barbarous and uncivilized, and attempting to kill everything that is really honest and human and creative.

The days through which we are living are the days of the dawning of spiritual regeneration, but the struggle which is raging in Russia will be written in history as one of the most woeful events in the history of mankind.

This struggle cannot last long for the governing power is sinking into putrefaction. But those who today may steal and kill with impunity will not lightly let go their power.

The hand which yesterday broke the skull of the Armenian or Jew, because they became conscious of their right to freedom sooner than the Russian or Tartar—who can tell on whose head the hand will fall tomorrow?

It is easy to stop its blind and reckless strokes. Let all honest and good men of the Caucasus, Finland, Poland and Russia join together in one family of friends, and unite in a band of fearless men, asking of one another "who is our enemy?"

The answer is simple. One and all, Tartar, Russian, Armenian and Jew desire one thing, to live better than they have done hitherto. Not one of them has liberty not one of them has the right to live according to his racial and religious convictions, which things, above all are necessary for the growth of his spirit and that of his race.

Does the Armenian indeed deprive the Tartar of his freedom? Does the Georgian? Are not the Russian and Jew and Pole bound hand and foot by the same power which presses as heavily upon the shoulders of the Tartar? We have but one enemy.

All men whose reason is clear and whose will is not enslaved must unite in the struggle against this evil and senseless power which presses on all of us. All have but one enemy. Let equality and brotherhood be ours. Let the light of reason shine *on us all and weld us together in one great,* invincible will, and then "Hail Freedom."

COURT HOUSE AND LEGAL NOTES.

His honor judge Forin will hold a special session of the county court of West Kootenay this morning to try the adjourned case of E. M. Morgan against the Great Northern Mines company.

C. A. Waterman, as bailiff, and Joseph Jackson, as deputy for the sheriff, yesterday took possession of the office and plant of the Nelson Tribune, the former for the landlord, Alex. McDonald, the latter for W. Blakemore C. W. Hill, W. Hudson and R. McCandlish, claimants for wages.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

SUNLIGHT SOAP

is better than other Soaps but is best when used in the Sunlight way. Follow directions.

SUNLIGHT WAY OF WASHING

FIRST.—Dip the article to be washed in a tub of lukewarm water, draw it out on a washboard and rub the soap lightly over it. *Be particular not to miss* soaping all over. THEN roll it in a tight roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rubbed on, and are rolled up.

Then go away for thirty minutes to one hour and let the "Sunlight" Soap do its work.

NEXT.—After soaking the full time rub the clothes lightly out on a wash board, **and the dirt will drop out;** turn the garment inside out to get at the seams, **but don't use any more soap;** don't scald or boil a single piece, and **don't** wash through two suds. If the water gets too dirty, pour a little out and add fresh. **If a streak is hard to wash, *rub some more* soap on it, and throw the piece back into the suds for a few minutes.**

LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Woolens and Flannels proceed as follows:—Shake the articles free from dust. Cut a tablet of **SUNLIGHT SOAP** into shavings, pour into a gallon of **boiling water** and whisk into a lather. When just lukewarm, work articles in the lather **without rubbing.** Squeeze out dirty water **without twisting** and rinse thoroughly in two relays of lukewarm water. Squeeze out water ***without twisting*** and hang in the open air.

The most delicate colors may be safely washed in the "Sunlight" way.

SAVE THIS VALUABLE PREMIUM COUPON FOR SUNLIGHT SOAP PREMIUMS

$5,000 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

Your Money Refunded by the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

STOCK MARKETS STABLE

READY MONEY IS ABUNDANT AND TRADING ACTIVE

RAILWAY AND INDUSTRIAL SECURITIES AT HIGHER PRICES

The American stock markets remain very active and firm. Nearly all securities are quoted much higher than they were a year ago. Canadian Pacific shares vary from $170 to $175; American railway and industrial stocks are all higher and apparently stable.

The *grain markets* of Britain and the United States are firm with high prices ruling. The New York money market has recovered its balance and the average charge for call loans is again at the low figure of five per cent.

Brooklyn Rapid Transit was again the leading stock on the list, making a new high record of 91 1-2, and it is predicted that it will go to par within a short time. Opening at 87 5-8, a gain of 5-8 over last night's close, it sold down to 87 1-4, advanced steadily to 91 1-2, and closed at 90 1-4; Amalgamated Copper was very strong today, opening at 86 1-8, advanced to 87 3-4, closed strong at 87 1-4; Sugar opened at 142, advanced to 144 3-8, closed firm at 143 3-8; Metropolitan opened at 115 3-4, sold off to 115, advanced to 116 1-4 and closed at 15 1-2; St. Paul opened at 179 1-8, selling up to 179 3-8, broke to 178 1-8, and colsed 178 5-8; Rock Island opened at 29 3-8, closed at 28 3-4; Union Pacific opened at 134 1-2, advanced to 135 1-4 and closed at 134 3-8; Missouri Pac. opened at 102, sold up to 102 1-2, closed at 101 1-2; L. & N. opened at 153 1-4, sold off to 152 and closed 152 1-2; Atchison opened at 86, sold to 85 1-2, advanced to 86 1-2, closed at 85 3-4; Erie opened at 48 7-8, advanced to 50, closed firm at 49 5-8; C.P.R. opened at 173 1-2, sold off to 172 5-8, closed firm at 173 1-4; N.Y.C. opened at 150 3-4, closed 149 3-4; Penn. opened at 140 3-4, sold to 139 3-4, and closed firm at 140 3-8; B. & O. opened at 113 1-4, *closed* 112 7-8; *U.S.S. common* opened at 38, closed at same figure; preferred opened at 103 3-8, closed 103 3-4; Manhattan closed at 164; Illinois Central closed at 178 1-4; the sales to noon were very large being 710,100 shares.

Grain—Liverpool opened 5-8 lower and closed 5-8 lower. Our market opened off a fraction at 83 1-4 for December, closed at 82 7-8; May wheat opened at 86 1-4, closed 86 1-8.

Reported by Sharp & Irvine, Nelson Nov. 22.

GRAND TRUNK PACIFIC

Wall Street Journal's Fake Story of Non-Construction of Eastern Half

Somebody has been stuffing the Wall Stret Journal of New York with a report that the eastern division of the Grand Trunk Pacific will not be built, says the Ottawa correspondent of the Toronto Globe. In a recent issue it says: "Fairly definite information has reached the Wall Street Journal that the strongest influences in Canada are today being brought to bear upon premier Laurier and his cabinet to abandon entirely the project of building the eastern half of this system. It is stated that the possibility of construction east of Port Arthur is growing more and more remote." The paper further argues that the eastern division will not be built because it would not pay.

The New York paper's story is from start to finish a fake. Sir Wilfrid Laurier and his cabinet have not been approached with a view to the abandonment of the construction of the eastern division, and even had they been, such approach would have been entirely useless. Sir Wilfrid and his colleagues are bent upon the construction of a transcontinental railway from ocean to ocean, and are pledged to parliament and the country to carry it out. They deem the eastern division to be quite as necessary as any other part of the project It is necessary not only for the transportation of the wheat and other products of the Northwest, and ultimately, it is hoped, of the products of the Orient, but for the opening up and development of northern Ontario and northern Quebec and central New Brunswick. When railway communication is provided through these regions fertile tracts of land will be rendered available for settlement to say nothing of the development of forests of timber and deposits of minerals. Surveys by government engineers are proceeding simultaneously in Manitoba, Ontario, Quebec, and New Brunswick. No location surveys have as yet been completed. When they are the Transcontinental Railway commissioners will be able to call for tenders for construction . It is hoped to begin construction work next spring on several sections at the same time. The Transcontinental commissioners, of course, are impressed with the necessity of completing as soon as possible those sections of line which will have immediate earning power. Preference in the matter of construction may, therefore, be given to such sections as will yield immediate revenue. But their idea is that no part of the country through which the projected line will pass shall experience any delay that can possibly be avoided. No part of the proposed transcontinental, it can be taken for granted, is to be abandoned, but the whole system will be carried out as proposed, and as felt to be in the interests of the country as a whole.

HEAVY CASUALTY BILL

Death Roll of the Russian Army in Manchuria.

Washington, Nov. 22.—Colonel J. P. Hoff, of the medical department of the United States army, who has recently returned from the Russian army in Manchuria, with which he went through part of the campaigns in the war with Japan, has been authorized by the chief of staff to give out excerpts of his official reports.

Accordig to colonel Hoff, the number killed and died of wounds was 37,642 men, and the number of men dead from disease, 18,830, but these are exclusive of casualties at Port Arthur and show almost exactly two men dead from results of battle to one man dead from sickness.

MINING RECORDS

One record of location was the only entry at the Nelson mining recorder's office on Wednesday. Location and assesment records have already been unusually numerous and regular for the closing months of the year.

M. C. Monaghan recorded the No. 1 Fractional, situated on Iron mountain, on the north side of Kootenay river, located on November 11th.

$1000. Reward

Recent investigations have disclosed the fact that unscrupulous handlers of flour are endeavoring to take advantage of the great popularity of Ogilvie's "Royal Household" Flour by refilling, with cheap inferior flour, the bags and barrels bearing the Ogilvie Brand, and selling it as the genuine article.

In order to bring the guilty parties to justice we offer the following reward.

REWARD

The Ogilvie Flour Mills Co., Ltd. will pay One Thousand Dollars ($1,000.00) for such evidence as will result in the conviction of any person, persons, firms or corporations who may be refilling their bags or barrels with flour of other manufacture and selling the same as flour manufactured by the Ogilvie Flour Mills Co. Ltd.

A. C. LAMBERT & CO

IN WINDERMERE VALLEY

GOVERNOR HANSON'S ATTRACTIVE WASA HOTEL

C. P. R. LAND GRANT AND K. C. R. POSSIBILITIES

(Special Correspondence)

Fort Steele, Nov. 21.—With an interesting travelling companion a gentleman known to and knowing all the residents along the route, an old-timer familiar with the history of white settlement in the valley, and able to point out its wonderful natural beauties and attractions—scenic and industrial—your correspondent was recently enabled to take a long desired trip to the beautiful Windermere lakes. Our first stop was at the well known Wasa hotel, a favorite resort since the earlier days, where the guest was always sure to find, nor with the poet, need

"Sigh to think he still has found
The warmest welcome at an Inn."

Everyone in the valley and many beyond know the genial Governor Hanson, the evidences of whose thrift, enterprise and prosperity can be noted by every visitor. Mr. Hanson is a rancher, millman, merchant and hotel keeper, and his steading or hamlet, shows the successive steps in a career of well-merited prosperity. His new hotel recently opened is a fine two storey building, the finishing and furnishings of which would do credit to our largest cities. It has twenty-two bedrooms, bath and toilet rooms, telephones, electric lights and a most efficient water supply. The heating by hot air furnace is also on the most modern system. North of Hanson's the road as far as Canal Flat, runs through a well timbered country, fairly watered by Wolf, Sheep and Mud creeks. At Canal Flat the Kootenay which comes in from the northeast is crossed on a substantial bridge, and is only about half a mile distant from the first of the Columbia lakes. This proximity suggested to Mr. Baillie Grohman, an English hunter of big game, the idea of connecting the waters of these two great rivers by a continuous navigation from Golden on the Canadian Pacific, southward into the neighboring union. The idea was a taking one. It took the government of that day and Mr. Grohman, or rather the Kootenay Valleys Company bagged some 30,000 acres of choice lands as a subsidy for the construction of the canal. The work cost the English stockholders a nice sum of money, but it has been of no practical advantage to our province. One or two vessels have indeed passed through it, but that has been the sum total of its usefulness. The channel is slowly filling up and the lock, constructed of timber, is now hopelessly decayed. Judged by results the scheme has been a failure and yet the time may come when the high hopes of the original projector may be fully realized. The scheme was no means chimerical. The projector was simply ahead of the time.

The wagon road crosses the course of the canal and climbs up by a rather narrow grade to the benches on the west side of the lake, whence may be had as fine a view of as lovely a lake country as can be seen anywhre in this province of magnificent scenery.

Shortly after ascending the grade we come in sight of what remains of the notorious Thunder Hill concentrator and cross the grade of the gravity tramway designed to convey the ore from Findlay creek to the mill. The whole enterprise was unfortunately a complete failure. A few years ago the machinery of the mill was bought by Mr. Pollen, who intended removing it to Tracey creek, but now, we are told, it is disappearing piece by piece and without the formality of purchase.

We have been travelling for perhaps 20 miles through C. P. R. lands, and the rest of our journey will hardly take us to the northern boundary of the block so generously donated to that company for the building of the Crow's Nest line. Had that block been rserved for a railway running northerly through the valley instead of for one crossing its southerly end, private property owners north would have had less or no reason to complain, and the K. C. R. would ere this have been in operation greatly to the benefit of every enterprise in the valley now languishing for lack of railway transportation.

Our second night finds us at Santo's (formerly Bullmans), a beautifully situated and well watered ranch, which the present owner has begun to systematically improve. Here table and beds are all that weary and hungry traveller could desire.

Next day our road takes us to the lower lands at Dutch creek, a stream large enough in some countries to merit the name of river. Here we see the remains of the Armstrong narrow gauge tramway designed for the conveyance of freight between the upper and lower lake, which was also aided by a land subsidy. Now both its glory and its rails have disapeared. We halt for noon at Brewer's on the east side of the valley. Everybody knowns this famous hostelry and what its shrewd proprietor has done to prove that fruit growing can be made a paying industry in that section; but of this more in a later letter.

Near Brewer's on the hill side are the famous Fairmont hot springs, the healing merits of which are beyond dispute, but not so widely known as they will be after the building of the Kootenay Central railway shall have rendered possible and certain the erection of a modern sanitarium beside the springs. It is no hazard to predict that when this shall have been accomplished, there will be no more famous, more popular, or more largely frequented health resort in the province; for here climate, soil and scenery combine to make the site in all respects ideal. It would almost indeed, pay to build the K. C. R. for the valetudinarian and summer travel that will be attracted to these springs and other beauty spots in this famous valley.

I wonder if the readers of The Daily News will credit the statement that your correspondent on the 16th of November took a bath in these hot springs, undressing and dressing in the open air, not only without injury, or danger of taking cold, but with appreciable benefit. The day was fine, it is true, but in some countries the act would have been considered rash and risky.

The night of our third day's travel found us at Windermere, an ideally situated town on the beautiful Windermere lake. Here in Stoddart's cosy and homelike hotel we rest for a few days and for the present close our correspondence.

POLITICAL TROUBLE IN CUBA

Havana, Nov. 22—Sixty rifles were seized by the police last night in a raid on a house near San Juan de Martinez, a province of Pinar del Rio, in which 50 anti-government plotters were meeting. A dozen of the latter were captured.

A HOUSE CLEANING LUNCHEON

Clark's sliced, smoked Beef, a delicious and substantial dish for any meal, ready to serve. Ask your dealer.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

HAS CROSSED LABRADOR

DARING EXPEDITION FROM BELLE ISLE TO DAVIS STRAITS

RETURN JOURNEY WILL PROCEED SOUTH TO QUEBEC

St. Johns, Nfld., Nov. 22.—Letters today from Dillon Wallace, the Labrador explorer and New York lawyer, contained the news that he had succeeded in crossing Labrador. Mr. Wallace is the first white man who has ever crossed Labrador without either guides or Indian assistance. With the lawyer was one companion named Easton. The letters said that both were well and had plenty of provisions when they reached the province of Ungava on October 16. In 1904 Mr. Wallace went with Leonidas Hubbard's Ungava expedition. Mr. Hubbard whose purpose was also to cross Labrador, lost his life from starvation and Mr. Wallace was found by the rescuing party after he had fallen exhausted in the snow.

Although the most perilous part of the trip is completed Mr. Wallace still has before him a winter of travel by snow shoes before he reaches civilization. He and Mr. Easton, at the time when the letters were written, were planning to start westward through Ungava for George's river post and thence to reach Fort Chimo, which is one of the most northerly points on the mainland of North America. Here the two will wait until the coast waters are frozen over. Then they intend to start southwards towards Quebec on the frozen rivers travelling with dog sleds and snowshoes. Mr. Wallace said that he expected to reach Quebec in April.

A ROYAL VISIT

King Charles of Portugal is Entertained in Paris.

Paris, Nov. 22.—King Charles of Portugal, arrived here today to return president Loubet's visit to Lisbon. His majesty was met at the railroad station by president Loubet and premier Rouvier and was escorted, with imposing military honors, to the foreign office where the royal quarters have been established. The king will remain here three days and will be entertained with state dinners, a gala performance in the opera, a military review and a hunt. The streets and public buildings are elaborately decorated.

VENEZUELAN SITUATION.

President Castro's Latest Effort in High Diplomacy

Paris, Nov. 22.—Inquiry at the foreign office today brought to the statement that the report that France accedes to president Castro's request to indicate what portions of the Venezuelan note to M. Taigny, the French charge d'affaires, are offensive, is incorrect. The officials say the president has been completely informed regarding the offensive features of the note and that the report that France will give further explanations is a bluff intended to delay and confuse the situation.

NEW WORK FOR ITALIANS

Special Inspector Reports to the Government at Rome

Rome, Nov. 22—Inspector Adolf Rossi, the special representative of the Italian government for emigration now in the United States, has sent the government an important report on an interview which he had with president Roosevelt on Nov. 9. The inspector says the president promised to do everything possible to prevent the congestion of Italian emigrants in the large towns, and to cause them instead to be spread throughout the agricultural regions where they can best serve themselves and the United States. Successful experiments in this direction, the inspector adds, have been made.

IN THE MATTER OF THE LUNACY ACT, AND OF THE ESTATE OF FRANK E. HEBDEN.

Tenders will be received by J. Laing Stocks up to and including the 27th day of November instant to purchase the stock in trade of the above named Frank E. Hebden.

Stock lists may be seen at the offices of J. Laing Stocks or Messrs. McDermid & McHardy, Baker street, Nelson.

Stock can be seen at any time. Neither the highest nor any tender necessarily accepted.

Dated 15th day of November, 1905.

J. LAING STOCKS AND H. F. HEBDEN, Committee.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $1 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 250 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is connned to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,
Deputy of the Minister of the Interior.
Dept. Interior. June 20. 1904

NOTICE TO DELINQUENT CO-OWNERS

To Chas. E. Sealey, R. E. Lemon and D. D. Robertson, or to any person or persons to whom they may have transferred their interests in the Climax mineral claim, situated at the head of 8-Mile creek, adjoining the Alpine group on the south side, and recorded at Nelson in the district of West Kootenay

You are hereby notified that I, Beckford A. Shatford, F.M.C. No. B 56, have caused to be expended the sum of ($512.50) five hundred and twelve dollars and fifty cents in labor and improvements on the above mentioned claim in order to hold said claim under the provisions of the Mineral Act, and if within 90 days from the date of this notice you fail or refuse to contribute your proportion of such expenditure together with all costs of advertising, your interest in sold claim will become the property of the subscriber under section 4 of an Act entitled "An Act to Amend the Mineral Act, 1900."

Dated at Slocan City, this 4th day of Oct., 1905.

B. A. SHATFORD.

CERTIFICATE OF IMPROVEMENTS

Polar, Polar Star and Climax Mineral Claims, situate in the Nelson Mining Division of West Kootenay District. Where located: In Alpine Basin.

TAKE NOTICE that I, Frank C. Green, acting as agent for Walter T. Shatford, F.M.C. B 64802, and Beckford A. Shatford, F.M.C. No. B 69,656, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under section 37, must be taken before the issuance of such Certificates of Improvements.

Dated this twenty-third day of October, A.D., 1905. F. C. GREEN,
Nelson, B. C.

GOLD HANDY PINS

A woman can scarcely complete her toilet nowadays without a set or two of these pins for fastening her cuffs, holding her collar trim at the back, or using in some such way. A caseful of pretty styles here to select from. A few hints:

RAKE-OFFS OF OFFICERS

WHY INSURANCE HEADS HOLD TREMENDOUS POLICIES

PAY MUCH LESS THAN DO THE GENERAL PUBLIC

New York, Nov. 22—G. E. Tarbell, second vice-president of the Equitable Life Assurance society, was the first witness called when the Armstrong insurance investigating committee resumed its session today. Mr. Tarbell was on the stand when the commission adjourned last night and was called today to resume his testimony regarding the agency system of the Equitable. Today he submitted a specimen of contracts made with agents which was offered in evidence. Letters which accompanied this and explained the allowances was also introduced into the evidence.

Just before adjournment Mr. Tarbell gave a number of suggestions to remedy existing abuses in the management of insurance companies and for legislation designed to give the state proper control over the companies and to insure the confidence of the policyholders. Prominent among these suggestions was absolute publicity. While admitting that wrong had been done by life insurance officials, Mr. Tarbell said he had no apologies to make for any of them, and he hoped they would all be punished.

Mr. Tarbell was on the stand the entire day and was questioned as to the system of agencies and the commissions and other compensations allowed them for getting business. Just before the recess the fact was brought out that Mr. Tarbell had taken out insurance on his own life and on members of his family, and had received the agent's commissions on the premiums, as well as renewal comissions. He said that since he became an officer he had taken out $200,000 on his own life in the Equitable. Besides his policies in the Equitable he had taken insurance in the New York Life, the arrangement being with George W. Perkins and on this, too, he received the commission on the premium. He had also policies in the Aetna and the Travellers, on all of which he had collected commissions. He said he carried $400,000 on his life and $100,000 on members of his family.

Mr. Tarbell vigorously denounced rebating by agents and said that any agent of the Equitable who gave rebates to get his business, was dismissed. When he told of getting his commissions assemblyman Cox asked if it was not rebating and Mr. Tarbell said it was not, and that he considered he was entitled to it. Witness further said that the commissions were paid to get the business and that when the business was done without soliciting there was no expense and that therefore he was entitled to these commissions. Mr. Tarbell said, this was the custom of insurance companies to officers, adding that if he had done wrong he was sorry, but he had acted in good faith. Mr. Tarbell bore out in a measure the statement of James Hazen Hyde relative to the Frick report. The subject of the advances to agents was under consideration and Mr. Hughes read some figures of the amount of advances to one agent in this city. Mr Hughes asked where the Frick commission got the figures, and Mr. Tarbell replied with marked asperity that he did not know. "They did not get them from my department nor from the auditor's; they made their report without ever making an investigation of the departments," he said.

When Mr. Tarbell was excused, he was followed by Gerard Brown, who is at the head of the bond and mortgage department of the Equitable. He was examined about the real estate of the society and was on the stand when the committee adjourned.

"JERRY FROM KERRY" COMING

The fun makers, Patten & Perry, will offer that funny farce comedy, "Jerry from Kerry," at the opera house, two nights commencing Monday, Nov. 27 and 28. This piece of comedy is considered by press and public to be the very best on the road. The company numbers 20 people and among the top liners will be seen the three Pattens—John, Eunice and George—in their comedy act "Jerry from Kerry"; Campbell & Fletcher, the comedy acrobats, in many new acrobatic acts; the Perrys—George and Jennie—in a refined sketch, "The Newsboy"; major Cailloutte, slack wire artist and juggler, who rides a wheel on the wire; Dick Mitchell in a new Rube act, entitled Mr. Rube from Vermont; the Florence sisters, Lizzie and Hazel, in an up to date fencing and singing act, and the funny sketch, An Editor's Troubles, which introduces all the company. The company also carries its own superior uniformed band and orchestra.

NEW TELEPHONE SYSTEM

CHANGES EFFECTED WITH LITTLE INTERRUPTION OF SERVICE

REORGANIZATION WILL BE COMPLETED BY CHRISTMAS

The reorganization and improvement of the telephone service and equipment in Nelson is being accomplished rapidly and efficiently and with the least possible interruption of the service to the city customers. The company had the alternative of rushing the work, regardless of the convenience of customers, and of doing it gradually with a minimum of disturbance. They chose the latter as the more generally satisfactory, although it was certain to be slower and considerably more expensive. Another month is expected to see all the changes completed and the central staff installed in their new and commodious offices.

Speaking of the work and prospects yesterday, district manager G. C. Hodge said: "The erection of poles is almost completed. We have begun stringing the cables and have already made considerable progress. I hardly expect the work to be finished much before Christmas. Yes; we had hoped at the beginning to have everything completed by the end of November. We could have done it too. But it would have meant considerable interruption to the service first in one part of the city, then in another, and probably have caused a great deal of dissatisfaction and complaint.

"For that reason, although it involves delay and additional expense, we decided to go slowly and maintain the whole service all the time, or come as near it as possible. The only one inconvenienced by the present arrangement is the company and we can stand it.

"The work is being done well and as quickly as possible. I expect the new lines to be in order and working and the staff quartered in the new offices before Christmas.

NEW INDUSTRY FOR NELSON

S. A. Wye to Establish Headquarters for Heating Plant Installation

A new industial establishment is to be located in Nelson. S. A. Wye, one of the best known and most successful heating engineers in the west, has decided to settle in Nelson and make it his headquarters for work all over the Kootenays, which he says is plentiful now, and certain to expand rapidly in the next few years.

Mr. Wye is no stranger to Nelson. He installed the heating plant in the bank of Montreal building a little more than five years ago. He has conducted plumbing and heating establishments in Vancouver and Spokane. His last contract was the installing of a heating plant in the Rossland armory. He is familiar with the western coast from Yukon to Mexico.

The new establishfent will be located in the premises on the corner of Ward and Victoria streets, below the opera house.

Asked as to his plans and expectations, Mr. Wye said last evening: "I am locating here because Nelson is the natural distributing and industrial centre for the Kootenay districts. I have been all over British Columbia and the western states and I believe that the outlook for growth and progress in Kootenay is better than it is anywhere else at the present time. I don't intend to confine my operations to this city by any means. I shall attempt to cover the whole field. I can't tell yet how many men I will employ. That will depend upon circumstances, chiefly on the volume of business offering.

"Yes; I think the field here is excellent. Since I came to the west I have been pretty well all over, and I believe Kootenay has the best promise. New towns will spring into existence and those already founded will grow rapidly. It is in new towns that the demand for modern heating plants is greatest and steadiest."

SUICIDE WAS DRAMATIC

New York Girl Throws Herself Before an Elevated Train

New York, Nov. 22—Mary G. McCarthy today knelt and prayed on the tracks of the 9th avenue elevated railroad while the train, in front of which she had leaped for the purpose of ending her life, bore down upon her too close to be stopped by its motorman. The girl entered the station at 66th street and Columbus avenue and after passing the ticket seller, she attracted attention by several little irresolute runs toward the edge of the platform. Each time she stopped, apparently unable to bring herself to take her own life. Finally when a train was half a block away the girl, who was then at the extreme end of the platform, threw herself on the track. Although at first she fell prostrate, Miss McCarthy hurriedly rose to her knees and before the first car hit her she had raised her arms and clasped her hands in an attitude of prayer. She was killed almost instantly.

COULD NOT BEAR DISGRACE

Ontario Farmer Arrested for Arson, Commits Suicide

Barrie, Ont., Nov. 22—Alfred E. Carscadden, while waiting his preliminary examination on a charge of arson, attempted suicide early this morning and will probably die. He stabbed himself in the breast and throat, severing the windpipe. He was found lying on his bed in his own blood at 8 o'clock, barely alive. He left a note for his wife in which he said he was not responsible for his actions.

Carscadden was a man of very high strung temperament and it is thought his mind was unbalanced by the disgrace of his arrest. He had been in business here for about a year and was formerly a farmer of Oregon. He has a wife and four small children.

WAS NO JOKE

Another Arrest in Connection with the New York Election

New York, Nov. 22—An alleged election joke caused the arrest, indictment and $5000 bail to be heaped on George Wharton, a clerk, today. He was charged with attempting to vote illegally under the name of John Rockefeller in the recendt election. Although Wharton had been discharged from his first arrest on election day for this offence the grand jury which took up the case today refused to consider it a joke and indicted him. Wharton was immediately arrested and his bail was fixed at $5000. He is 28 years old.

WILL REPORT A BILL

Committee on Interstate Commerce Making up Their Minds

Washington, Nov. 22—Railway rate making was again considered by the senate committee on interstate commerce today in an informal way. Views were expressed by several members which indicated a sharp division as far as the situation developed. There is the further indication that a majority of the committee will favor a measure giving the interstate commerce commission more power, meaning in some form control of the rates. It seems to be quite well understood that three republicans and enough democrats favor such legislation to assure a rate making bill being reported.

NEW YORK ANARCHISTS

Rome, Nov. 22—At Spezia, the principal station of the Italian navy and the location of the chief naval arsenal, the police today discovered and confiscated several hundred anti-military manifestos issued by a New York group of anarchists, in which the recruits were urged to desert. It is thought that similar manifestos have been sent to other parts of the country. The authorities are endeavoring to discover how they entered Italy.

A RIDE FOR LIFE

Maple Creek, Sask., Nov. 22—John Jackson, a sheep rancher, was fatally injured near here while unhitching his team, being caught under the wheels. He afterwards secured a horse and rode for miles to his nearest neighbor, dying a short time afterwards.

STOLE A RIDE

Emerson, Man., Nov. 22—A harvest hand, named N. Birkett, while stealing a ride on the G.N. express, fell beneath the train and had both legs cut off.

FRUIT AND FARM LANDS FOR SALE

In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have one 13 acre lot near Nelson party improved.

One 5 acre lot near town.

One 20 acre lot on wagon road at a bargain if bought soon.

One farm with good house and outbuildings, and many choice places.

On Kootenay Lake
On Kootenay River
On Slocan River
On Arrow Lakes
On Columbia River

In Fire Valley and Creston

districts, and several partly improved forms. Wild land suitable for stock ranges, and timber lands that I have cruised myself. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

PRICE OF METALS

New York, Nov. 22—Bar silver, 64 3-8; casting copper, 16 1-8; electrolytic copper, 16 3-4; lead, $5.25.

London, Nov. 22—Silver, 29 11-16; lead, £15 8s. 9d.

NELSON'S NEWS OF THE DAY

The decision in the appeal of Madden vs. Dimond has been reversed by the full court at Vancouver.

Word comes from Ainsworth that A. D. Wheeler has struck a big shoot of high grade ore on the Krao.

G. W. Hughes, manager of the Lucky Jim mine at Sandon, arrived in the city yesterday and is at the Strathcona.

J. S. Deschamps of Blue & Deschamps, lumbermen of Rossland, arrived in Nelson last evening and is at the Strathcona.

At the meeting of the Nelson lodge, C.O.F., in the K. of P. hall this evening seven more candidates will be initiated.

George Ransom went up to Kitchener yesterday looking for S. S. Taylor. He failed in his object, but returned with two geese.

H. J. Rickard has accepted a position as agent for the Manufacturers' Life insurance company and left for Rossinad last evening.

Queen City Rebekah lodge, No 16, I.O.O.F. will hold a dance on New Year's night. The Rebekahs are good entertainers and an enjoyable time is assured.

The Eagles held a highly successful meeting last evening, two candidates being initiated and a new degree was put on eliciting much favorable comment.

The metal markets showed a general but slight decline yesterday. Silver fell four points on each market and is now 64 3-8 cents an ounce. Lead declined one point on the London market for the first time in several weeks.

At a special meeting of the board of public school trustees held last evning in the office of secretary R. J. Steele, it was decided to transfer Miss M. H. Moody, B.A., of the public school staff, to the high school during the illness of principal C. McLean Fraser.

D. J. Robertson & Co. are negotiating for the premises in the Griffin block, on the corner of Ward and Baker streets, formerly occupied by D. McArthur and company's furniture establishment. Mr. Robertson said yesterday that they would probably move into the new quarters at the beginning of the year.

The frost covered sidewalks are responsible for two accidents already this season. Mrs. Fox suffered a fall on Ward street on Tuesday from which she sustained a severe shock. Yesterday the little son of G. W. Hall fell on Silica street, and in trying to save himself, broke several bones in his left hand.

A Slav thought to save the price of a bed Tuesday night and went to sleep on the floor of the C.P.R. station. When he woke he found that his pocketbook, containing $94 in checks and money, had been abstracted. He did not inform the police until nearly noon yesterday. The checks were not endorsed and payment on them can be prevented; they amount to $64. The remaining $30 is unlikely to be recovered as the victim could give no description of the money or of any others who slept in the station room, except that one of them was a one-armed man.

G. O. Buchanan arrived from Kaslo yesterday and leaves this morning for Frank. On his return he will visit the Sullivan smelter at Marysville.

A. Carney, dominion timber inspector, arrived in the city yesterday from Kaslo and leaves on an official trip to East Kootenay this morning.

H. M. Stevenson, manager of the Highlander mine at Ainsworth, arrived in the city last night and is at the Hume. He came to meet his brother, Max, Stevenson, jr., of Philadelphia.

C. F. Caldwell, manager of the Pontiac mine, near Kaslo, arrived in Nelson from Kaslo yesterday. Mr. Caldwell is interested in many properties and is understood to be engaged at present in forming a coal and oil company.

J. P. McGoldrick and G. O. Lammers of Stillwater, Minnesota, arrived in the city last night from Spokane. They represent the lumber company which has acquired a millsite at Fairview, and extensive timber interests on Kootenay lake and tributary streams.

COMMITS SUICIDE

Another Consequence of the Failure of the Topeka National Bank

Leavenworth, Kas., Nov. 22—W. E. Thomas, an associate of the late C. J. Devlin in his extensive coal mine enterprises, and one of the principal stockholders in the defunct First National bank of Topeka, drank carbolic acid last night and his life is despaired of. Mr. Thomas has been in ill health since the failure of the Topeka bank and the failure of the Devlin interests, as he was heavily involved, his liabilities being about $480,000 and his assets about $175,000. It had ben planned that he was to go to Hot Springs for treatment today.

POORHOUSE AHEAD!

President of Mutual Life's Salary Reduced to Bare Living Wage

New York, Nov. 22—At the regular meeting of the trustees of the Mutual Life Insurance company today, the offer of president Richard A. McCurdy to have his salary reduced from $150,000 to $75,000 was accepted, and further reductions were also made amounting altogether to $150,000. The names of the officers affected were not given to the public. It was also stated that it was decided to place all the general agents on a salary instead of a commission basis.

BIG SHIPMENT OF HORSES

San Francisco, Nov 22—Four special trains operating on passenger schedules are carrying to New York the shipment of horses from the Rancho del Paso. The special shipment, it is understood, is valued at $1,000,000 and is insured for practically that amount. The cost of transportation of the 600 horses was about $60,000.

HUME—Mrs. Williams, New Denver; R. L. Robertson, Toronto; D. Campbell and wife, Ymir; J. P. McGoldrick, W. H. Adams, Spokane; G. O. Lammers, Stillwater; L. Godbolt, Vancouver; M. Stevenson, Philadelphia; H. M. Stevenson, Ainsworth; C. F. Caldwell, A. Carney, Kaslo; B. N. Oulmette, R. C. Waterson, Rossland.

STRATHCONA—J. S. Deschamps, Rossland; W. Von Kokkon, J. Morris, C. H. Cripp, Vancouver; T. W. Cavers, Trail; A. McQueen, Kamloops; Miss H. Mitchell, Spokane; Major H. Bland, Victoria; W. C. Wilkes, G. O. Buchanan, Kaslo; T. H. Trethewey, La Plata; G. W. Hughes, Sandon.

GRAND CENTRAL—Mrs. Hardie, Mrs. J. Wilson, Grand Forks; G. Ferguson, Winnipeg; H. Bree, Fernie; R. Dewar, Mrs. L. Irwin, Alberta.

MADDEN—B. J. Milligan, Butte; T. Kennedy, Rossland; P. Edwards, J. Edwards, Spokane; H. Card, Cascade; E. Prendergast, Greenwood.

NELSON—A. F. Chatterton, Northport.

ROYAL—H. B. Warren, Calgary; D. E. Whittacre, Spokane.

BARTLETT—W. J. Holman, S. Osborne, Poorman mine; J. Hughes, M. Hayes, Reliance mine; G. Harrington, Ehott; W. Provost, W. Davis, H. J. Mackay, Vancouver.

QUEENS—E. M. Morgan, Koch's siding; J. M. Currie, Cranbrook; G. S. Henderson, Montreal; R. Lawrence, Rossland.

TREMONT — E. Penderton, E. Gvora, Greenwood.

LAKEVIEW—J. C. Butler, New Denver; P. T. Corrigan, Kaslo; A. E. Wood, High River; J. Sutherland, Edmonton.

ARRESTED FOR FORGERY

New York, Nov. 22—John Snyder, a 19 year old clerk for the Lincoln Trust company, was arrested today charged with forging a cheque for $5200 on the bank which employed him. An official of the company said that for years past young Snyder had been seeking a position with the company and that he was put to work only three weeks ago. Today he presented to the Merchants' bank, a $3200 check which was signed by the paying teller of the Lincoln Trust company. The teller's signature was a forgery.
