MINERS ARE ON STRIKE

Earl Grey Will Try to Patch up Present Difficulty

Trouble With Coal Workers Because Their Employers Wish to Modify Agreement in Force Last Twelve Months

(Special to The Daily News)

Fernie, Sept. 9.—The local committee of the Miners' union at Frank, now on strike, have received a communication from the secretary of the governor-general, earl Grey, suggesting that a meeting be held by the committee of the Miners' union in conjunction with the management of the Frank mines with a view of arriving at some settlement. The secretary further stated that it was the intention of earl Grey to visit Frank on the 12th instant.

The secretary of the Miners' union replied that the committee would willingly meet the management but that it would be impossible to have a meeting before the 12th, as the mine management was away in the United States and would not return before that date.

As unexpectedly as the proverbial "thunderbolt from a clear sky," a strike of the miners employed by the Canadian American Coal & Coke company in the Frank mine has been declared and the mine is now closed down, says the Frank Paper.

The strike is an outgrowth of negotiations which have been in progress for some days for a contract between the coal company and the United Mine Workers of America. The old agreement expired on August 31st and since that time the representatives of the unions have been engaged in negotiations with the company. Up to Tuesday there had been no indication that there would be any difficulty in arriving at an amicable arrangement, but on Tuesday a notice calling a special meeting of the union was posted and it was then felt that there might be some difficulty although no one outside those immediately in touch suspected it would take the shape it did. At that meeting the miners voted to strike and the mine was consequently closed down.

From the statement of captain F. A. Hill, general manager of the coal company, and F. H. Sherman, president of the district board, U.M.W. of A., it appears that the union asks for a renewal of the expired contract, whereas the company seeks to obtain an agreement similar to those in effect between the other companies operating in the Pass and their mine workers.

The points of difference between the company and the men are very small. The main one and the one which in reality is the cause of the strike, relates to the "check off" system. The clause in the old agreement in relation thereto, provides that the company shall deduct from the wages of all members of the union in its employ, fees, dues, fines, etc., as required by the union any pay the same over to the union. The company desires the clause changed so as to provide that the company shall only deduct the charges mentioned when an employee gives a written order. There are also minor differences as regards wages of certain employees and other phases of the contract but they are not of so great importance as to be impossible of adjustment if the check off clause can be agreed upon.

Capt. Hill when seen relative to the controversy, made the following statement:

"The agreement between this company and the mine workers which has been in force for the past two years, expired the last of August. Negotiations for a new agreement have since been in progress. The union asks for a renewal of the old contract, while we asked for an agreement along the same general lines as those in force between other companies operating in the Pass and the mine workers there, and providing the same rates of pay.

"In this mine there are some places where the work is dangerous and others where it is wet. The company has for a long time been paying the men working in such places higher wages than the contract called for. It was done voluntarily as the management recognized that the men working in such surroundings were entitled to more pay than other men. We drew up an agreement embodying the same general provisions as those in the agreements with the other operators of the district, except as to the schedule of wages, which we agreed should remain as they are and have been, that is to say, that we would continue to pay the extra wages referred to. We made the agreement read to run for a year but the mine workers wanted it to run until March 31,1905, and we yielded the point. Then there was some difference of opinion as to the clause providing that the company's right to hire and discharge men not being abridged. We accordingly agreed to allow the substitution for that clause, of the clause in the Fernie agreement, relating thereto. We submitted the agreement to the mine workers on Saturday evening for consideration and felt perfectly satisfied it would be ratified. We were greatly surprised therefore when on Tuesday we received from president Sherman, a communication stating that nothing but a renewal of the old contract would be accepted. Of course that ended the matter.

"The fact is, I think, that the main obstacle in the way of ratifying the agreement we offered was the clause with reference to the check off system. The men want the old clause which requires the company to collect dues,, fees, fines, etc., from all the men as the secretary of the union requires, whereas we ask for the same clause as is in the agreements with the operators at Coleman, Lille, Bellevue and elsewhere, which provides that the company shall only collect such charges when the individual gives a written order on his pay.

"In conclusion I wish to say that the company stands ready to enter into a contract on the same general terms as are accorded other operators in the district and that we are ready to open the mine immediately under such an an agreement."

President Sherman of the district board, U. M. W. A., when seen in reference to the strike, submitted the following signed statement:

"The causes of the stopage of work at the Frank mines of the Canadian American Coal & Coke Co., ar briefly as follows: The refusal of the management to renew the old agreement which expired September 1st. That agreement, as far as I know has caused no friction, and worked no hardship either upon the coal company or the men and up to the advent of captain Hill, the new general manager, we were certainly given to understand that the agreement was satisfactory and would be renewed on the part of the company. However, we now know that captain Hill takes the stand that he cannot operate the mine under the old agreement. We desire to impose no onerous terms upon the coal company, we want no changes, only those that we have mutually agreed upon for new contract work, and we desire conditions to remain the same in this camp as have prevailed in the past. Under the old agreement no disputes ever occurred causing stoppage of work, by the company. The best of feeling has always prevailed between the Canadian American Coal company and its employees. The miners of Frank are ready to return to work just as soon as the company is prepared to renew the old agreement and allow conditions to remain as they were.

"F. H. SHERMAN.
"Pres. Dist. No. 18, U.M.W.A."

ELECTIONS IN OCTOBER

PREMIER RUTHERFORD FORMS HIS CABINET.

STRUGGLE IN ALBERTA WILL NOW BEGIN.

Edmonton, Alta., Sept. 9.—Premier Rutherford has announced his first cabinet to be composed as follows: A. C. Rutherford, provincial treasurer and minister of education; A. H. Cushing, of Calgary, minister of public works; C. W. Cross, of Edmonton, attorney-general; W. F. Findlay, of Medicine Hat, minister of Education, and provincial secretary; Dr. George Deveber, of Lethbridge, minister without portfolio.

Mr. Cross was sworn in yesterday. Mr. Cushing arrived to day. Other members will be here at the beginning of the week. It is rumored that the election will be, at the latest at the end of October but many think it cannot be brought on before December. Governor Bulyea at present has offices in the Alberta hotel. It is reported that parliament and provincial offices will be in the new empire block now nearing completion.

ROSSLAND GEOLOGICAL SURVEY

R. W. Brock at Work Upon North Ore Belt.

(Special to The Daily News)

Rossland, Sept. 9—Prof. R. W. Brock who is in charge of the geological survey of the camp, will leave for Kingston, Ont., early next month. He is now busily engaged examining the rocks and general condition of the Le Roi No. 2, while Mr. Boyd is making a topographical map of the north belt, and Mr. Young is engaged on the aerial distribution of rocks on Deer Park mountain.

Professor Brock is well satisfied with the work done to date, and intimated yesterday that good results had been obtained, although there is a lot to be done next year. It is a custom to have all field work filed at Ottawa before any detailed information is issued to the public, so the result of this season's operations here will not be available for some time.

MINISTER OF AGRICULTURE.

Will Open Live Stock Show at Dominion Exhibition.

(Special to The Daily News)

Ottawa, Sept. 9.—Hon. Sidney Fisher, minister of agriculture, will open the live stock show to be held in connection with the Dominion Exhibition at New Westminster on October 3rd Mr. Fisher will also visit Calgary, Lethbridge and other western towns.

KILLED BY A TRAIN.

Arthur, Ont., Sept. 9.—James Cannon, of Peel township, while walking on the Grand Trunk railway track to his home, about a mile south of Goldstone station last night, during the thick fog, was struck by a fast special and instantly killed.

YAMAGATA EXPLAINS

Defense of the Peace is Undertaken by Japan's Field Marshal

Nichi Nichi, However, Demands Resignation of Ministry for Interference With the Liberty of Free Speech

Tokio, Sept. 9—The Nichi Nichi today published an extended statement of field marshal Yamagata, chief of the general staff, reviewing the war.

He first discussed about the Russian advance in Manchuria and Korea, giving details about the futile negotiations between Japan and Russia, referring to the increase of the Russian naval force in the far east, and to Japan's resolution to draw the sword for her own protection.

Continuing, the field marshal says: "After the Japanese victory at Mukden, the principle of humanity started the cry of peace in Europe and America, and after Japan's victory at the battle of the Sea of Japan, president Roosevelt advised both belligerents to cease their differences of opinion. Dissensions over the terms of peace," Yamagata said, "are unavoidable but the people must remembe that Russia's obduracy and desire to continue the war left no hope of obtaining adequate repayment of the costs of the conflict, a continuation of which would have entailed further sacrifices and expenditures by Japan. The cessation of hostilities was also advantageous to Japan's national developments, while a continuation of the war meant wasting her energies and resources." He concluded by asserting that Russia's military strength is unimportant, and that Japan's armies could have taken Harbin.

The Nichi Nichi declares that the home minister and the chief of the metropolitan police were responsible for the recent rioting here, and demands their resignations. It asserts that their unwarrantable arrogance in trying to spress expressions of national sentiment has resulted in great humiliation for Japan.

The night was uneventful and this morning Tokio is orderly and quiet. The belief is growing that the disorders are ended.

Today and tonight were almost without incident. A few crowds collected and made slight demonstrations against the police stations, but there was no disorder. General Sakuna has withdrawn the guards from the foreign legations, which are deemed to be in no danger. However, sentries in small squads, continue to watch them, and military patrols have been extended in order to thoroughly protect the city. There have been no demonstrations against the churches.

The suspension of the street car service at sundown has made the city more quiet than usual, and in some districts guards have patrolled the deserted streets. The police lines about the Kukamin' offices have been drawn about the building.

The situation in other cities is keenly watched. Apparently the trouble is not spreading. There has been some minor disorders at Chiba, Kobe and Kyoto. Anti-peace meetings held in many cities, are passing resolutions denouncing the settlement at Portsmouth. The destruction of the statue of marquis Ito is pronounced to have been the act of irresponsible rowdies. It is expected that the statue was recovered and conveyed to a warship in Kobe harbor. There is a firm belief that physical violence will soon end and that the government will use only ordinary political methods. It is generally believed that the Katsura cabinet will remain on the diet.

ST. PETERSBURG ALARMED

St. Petersburg Sept. 9—The continuance of the disorders in Japan is viewed with no slight degree of uneasiness in official and diplomatic circles, which is augmented by the fact that it is impossible to learn whether an armistice has been actually established and by occasional reports of clashes between outposts at the seat of war.

Operators on the Bourse today were nervous.

ORE RUNNING WELL

Success Met With in the Working of the Kootenay Bell Upon Lease

Manager Bell of the Kootenay Bell, who has just taken over the mine upon a lease, after the relinquishment of the property by Patsy Clark, came in last night from Trail where he had been looking after the shipment of a carload of ore. Mr. Bell stated that the smelter returns were very satisfactory, giving $18 to the ton in average values.

Just now a force of about 14 men is at work on the Kootenay Bell, sinking on a payshoot on the ledge of quartz, which is about four or five feet wide. The shaft is down about 60 feet.. Below is a crosscut tunnel run in from the hillside, which is in the ore about 130 feet below the collar of the shaft. It is the intention now to upraise from this crosscut during the remainder of the lease and to stope from the shaft itself. The values are gold, the ledge being free milling quartz. The car shipped was 22 tons from the shaft, raised by the present lessee and eight tons belonging to Patsy Clark.

IMPRESSIONS OF NEW YORK

M. Witte Taken Round the Metropolis of the United States

New York, Sept. 9—M. Witte visited the New York rogues' gallery with police commissioner McAdoo today, and examined the weapons with which numerous murders have been committed. Then he enquired about the punishment for political agitators in the United States. When, in reply to this question he was informed that freedom of speech was a literal fact in this country, and that the police interfered only when speeches became actions, M. Witte remarked, "In Russia, should a man say 'down with the czar,' we would send him to Siberia without waiting for anything more."

From the rogues' gallery M. Witte was taken on a visit to the Tombs prison, where he wished to see the cells of Nan Patterson and Roland B. Molineux. He had heard in Russia of their trials. The cleanliness of the prison was particularly noted by M. Witte. Later when summing up his impressions of the American metropolis, the Russian plenipotentiary said that a thing that interested him more than the subway or any other of the New York sights, was the immensity of the advertising business.

"Everywhere," he said, "there is advertising, advertising; all is advertising."

M. Witte returned from the Tombs to the St. Regis hotel, where he was joined by baron Rosen and both ministers started on their trip to dine with president Roosevelt.

NELSON'S NEWS OF THE DAY

Samuel Arthur Spears of Spokane Junction, East Kootenay, has been gazetted a justice of the peace in and for the province of British Columbia.

Harry Wight, M.L.A., and R. A. Renwick, government agent, have returned from an official visit of inspection of the roads and bridges constructed in the Sheep creek district to replace those destroyed by the recent forest fires.

Mr. justice Irving has decided at Vancouver in Madden vs. Dismond tried here in July last that the general costs of the action are to follow the event and the costs of the injunction are ordered against the company and the defendants Dimond and Law.

The Chinese are a peculiar race. A local heathen listening to a conversation in an hotel lobby yesterday, over the row in Tokio, said, with a grin: "Japs no good; 'cept to fight. All same Irishman; always bucking somebody. Always 'gainst government."

A special meeting of the Kootenay Fruit Growers' association is called for Tuesday afternoon at 3 o'clock in the city hall. A full attendance is requested as it is proposed to present a comprehensive reply to the tariff commission against the request of Manitoba merchants for a reduction of the duty on imported fruit.

Frank Barr failed to answer a summons in the city police court yesterday morning. The charge was drunkenness. A bench warrant was issued. Later Frank telephoned chief Jarvis to know if it would be all right if he arrived at 2 p.m. The chief answered in the affirmative and Frank was punctual. He will remain in a comfortable cell until tomorrow morning.

MANY WORKMEN KILLED

RAND POWDER WORKS HAVE BEEN DESTROYED

CARLOAD OF POWER BLOWS UP THE MAGAZINE

Connellsville, Sept. 9—The Rand Powder Works near Uniontown, Pa., blew up at 9:10 o'clock this morning. Fifty men are employed at the works and it is feared many have been killed. The telephone and telegraph wires have been blown down and communication is interrupted. Relief parties from Connellsville and Uniontown have left for the works.

It was stated in a telephone message to Fairchance that the dead would number between 20 and 30. The Rand Powder company had five separate buildings and employed about 45 people. The entire five buildings are said to have been destroyed.

The work of rescue is slow and it will be some time before anything like an estimate of the casualties will be known. The cause of the explosion of the car of powder may never be known. All the men who were working about it are believed to have been blown to pieces. From this car, by reason it is said, of flame and detonation, the explosion spread to the magazine which carried with it about everything there was to the plant.

Fairchance, Pa., Sept. 9—Twelve bodies have been removed from the ruins of the Rand Powder Works at 6 o'clock this evening and three employees are still missing.

SIR THOMAS STARTS.

President of the C. P. R. and Party On Their Way West.

(Special to The Daily News)

Ottawa, Sept. 9.—Sir Thomas George Shaughnessy president of the C. P. R. and several of the directors of the company, left Montreal today on a special train for the Pacific coast. They expect to reach Nelson in about a fortnight's time.

TO INSPECT WESTERN BUILDINGS

(Special to The Daily News)

Ottawa, Sept. 9.—D. Ewart, I.S.O., chief architect for the dominion government, leaves shortly for the Pacific coast to inspect the public buildings at Victoria, Vancouver, Nelson and other points in the province.

FOUR SAPPERS INJURED

Toronto, Sept. 9—By the premature discharge of a gun in the fireworks spectacle (fall of Port Arthur) at the exhibition last night, four sappers of the 93th field regiment were injured, one, W. J. Kirby, seriously.

CHOLERA IN BERLIN.

Berlin, Sept. 9.—An official despatch this afternoon announces that 19 new cases of cholera and two deaths were reported during the 24 hours ending at noon today.

Three cases formerly declared to be cholera have been proven to be other diseases. The total to date, therefore, is 139 cases, and 47 deaths.

STARVING TO DEATH

Baku Still in the Hands of an Incendiary Tartar Mob

Artillery and Rifle Fire is Continuous Day and Night--Insufficient Troops to Protect the Inhabitants

Tiflis, Sept. 9.—Reports from Baku say the conditions have grown worse, artillery and rifle fire continue. The troops are tired as a result of the work of the last few days and are in insufficient numbers and unable to prevent pillage and arson which are occurring everywhere. The governor of Baku has issued orders to shoot down mercilessly all incendiaries whether Tartars or others. Work people are starving.

Not even bread or water are obtainable.

St. Petersburg, Sept. 9.—Estimates of the losses at Baku received by the various oil companies give na aggregate approximate of 90,000,000 including contingent losses due to the cessation of production until the reconstruction of the plants and the losses of freight steamships and railways employed in the old industry. Outside of Baku the losses to Russian industry generally through the absence of oil fuel are incalculable.

Another Baku despatch says fires and murders do not cease despite the formal armistice. About 1500 Tartars are said to have been killed or wounded. The oil men met today and resolved not to re-open their works until the right to obtain private guards for the protection of property is granted by the government.

St. Petersburg, Sept. 10.—The situation at Baku yesterday showed a perceptible change for the better. Most of the despatches indicated that the rioters had made no headway in their attempts at incendiarism.

ROSEBERY ZINC WORKS.

Now Nearing Completion—New Slocan Steamer Nearly Ready.

(Special to The Daily News)

New Denver, Sept. 9.—The new concentrator and zinc separating works on Rosebery bay, of the Monitor and Ajax company, are nearing completion, and will be ready for business in the near future. The works are extensive and of ample capacity and show the capacity of Mr. Culver and his men, and will be another success in the career of Mr. Culver, who stands in the lead among concentrating experts.

The new hull of the C.P.R. steamer Slocan is nearing completion, and will likely take her first bath in the limpid waters of the lake on Saturday next. She will then be towed round from Rosebery bay to the harbor there to receive the transfer of the machinery and decking of the old Slocan that has done so much able and useful service during the past eight years. The machinists, and ship carpenters will have a chance to get in their work in finishing up. The new hull is a work of art and skill and built on beautiful lines of symmetry, strength and power and reflects credit on the handicraft of her builders, all active and skillful "whittlers."

The upper part is painted a clear and sparkling, pearly white, like a cluster of our pretty snowberries. The lower half is a bright and brilliant roseberry red that strikes the eye resiliently. We will await the launching of the finished boat.

OBTAINED HIGH VALUES.

Thunder Mountain Claims—A Poor Man's Proposition.

(Special to The Daily News)

Grand Forks, Sept. 9.—Frank Fritz, a well known mining man, has just returned from a trip to Thunder mountain, some twenty miles north of Franklin camp where he has a group of claims. He brought down some samples of the ore of these properties which has just been assayed and showed the remarkable returns of 14,000 ounces of silver per ton. This is the highest silver assay ever made in this section. Fritz says that there is considerable available ground open for location yet. The predominating mineral in this new camp is silver which is found in great quantities. Thunder mountain camp is about 70 miles from Grand Forks directly on the line of the proposed north fork railway.

Rube Hull, one of the owners of the Pay Ore property in Franklin camp, arrived in town yesterday with a 40 pound sample of ore from this property which has just assayed 160 ounces of silver besides good gold and copper values. The chief value of this claim is antimonial silver which is found almost everywhere. This property adjoins the McKinley smelter site. It is practically a poor man's proposition, and with smelting and transportation facilities near at hand, could be worked to good advantage by two or three men, who could literally quarry the high grade ore out ready for treatment, at small cost.

The C. P. R. are giving reduced rates to Midway on the 15th inst., being the occasion of the annual meeting of the Kettle River and South Okanagan Pioneers' Society.

H. Watlin and H. A. Sheads, owners of the Mountain Lion property in Franklin camp, are having their claim surveyed preparatory to making the required application for a crown grant.

NEW ANGLO-JAP TREATY.

Provisions Guarantee a Close Alliance in the East.

London, Sept. 9.—The new Anglo-Japanese treaty will be given out next week early. While much broader in scope than the agreement of 1902, the new treaty is understood not to be much longer than the old one and the increase in articles is partly due to the changed conditions of Korea.

In the old agreement the provision respecting China and Korea was contained in the first clause while in the new treaty, it is believed undertakings with regard to the kingdoms occupy separate clauses. This is necessary in order to give Japan a free hand in Korea. The open door here is guaranteed and the rights of all nations are recognized in much the same way as in the Russo-Japanese peace treaty. Likewise the open door in China is assured; and while taking precautions to safeguard the interest of the contracting parties, it is believed the agreement contains nothing which in any way interferes with the existing relations of other powers but is understood to be framed to prevent attempts looking to partition of China.

Clauses 2 and 3 of the old treaty, covering the conditions under which either ally comes to the assistance of the other when attacked by any two powers when the far eastern interests of the allies are effected, are understood to be completely changed so as to bring one ally to the assistance of the other even if attacked by one power.

In this respect it is especially interesting that its scope is to be applicable to all of Asia up to the line crossing north and south through Persia as indicated by the 51st degree of longitude, which brings India within the scope of this significant extension of the agreement. The clauses of the old treaty provide that neither ally shall enter into an agreement with other powers without consulting the other, and that whenever their interests are jeopardized the two countries shall consult fully and frankly with one another, will undoubtedly be retained, though they will probably be somewhat broadened.

INQUEST SHOWS MURDER

MYSTERIOUS KILLING OF EDITOR THOMPSON

NO CLUE TO NEW YORK'S LATEST SENSATION

New York, Sept. —9A mystery of unusual proportions was today developed in the circumstances surrounding the death of Jacob H. Thompson, for the past 40 years an editor of the New York Times, by positive evidence that he was murdered on the night of Sept. 7, by a brutal clubbing in a prominent hotel situated in one of the busiest residence and business sections of New York. This was disclosed today by the coroner's autopsy.

The examination showed that Mr Thompson had been struck over the head at least half a dozen times by a blunt instrument and had been strangled as well. No one has been found who admits having the slightest knowledge of what transpired in the editor's room at the St. James hotel at 909 west 45th street, from the time he entered it early Thursday evening until he was found at 9 o'clock yesterday morning by a chambermaid who told the coroner that she saw him sitting and making convulsive movements with his hands. He was then fully dressed and was wearing riding boots. An unfinished letter was lying on the desk as if the writer had just laid down his pen.

The mystery is still further complicated by the fact that at first reports were sent both to Mr. Thompson's brother and to the hospital which was telephoned for aid, that he was only suffering from heart failure.

DISASTER WAS TERRIBLE.

Casualties Reported Are Running Into The Thousands.

Rome, Sept. 9.—The effects of the earthquake were more disastrous than at first reported. Despatches give ever increasing lists of dead and injured, the numbers now running into thousands. Martirano shows 2200 casualties, while at Pargholia, 300 are dead and at Lappolo 200. Many persons are still entombed in the ruins in these and other districts.

FISHING BOAT ADRIFT.

Victoria, Sept. 9.—A special to the Colonist from Nanaimo states that the keeper of the Island lighthouse has found a large two masted Fraser river fishing boat adrift with much water in her hold. The boat is marked S.S.U. 1303 No. 23. Two overcoats and string net gear were found aboard.

A BAD RUNAWAY.

Glace Bay, C. B., Sept. 9.—By the breaking of the hoisting rope in No. 3 colliedy of the Dominion Coal company 68 loaded cars ran down the slope over 2000 feet and piled up in an indescribable confusion. No one was hurt.

CASE ADJOURNED

Nanaimo, Sept. 9—Nelson Nilson, charged with impersonating in the Alberni election, was brought here yesterday and arraigned in the provincial police court. An adjournment was immediately taken until next Tuesday to allow time for witnesses to be brought to Nnanimo.

BIG FINDS AT LE ROI

Trail Smelter to Add a Fifth Furnace to Its Plant

Famous Black Bear Ore Shoot Located Below 800 Foot Stopes--Find $15 Rock on 1550 Foot, or Lowest Level

Rossland Sept. 9.—The most important news in mining circles during the week is the finding of the famous Black Bear ore shoot on the 900 foot level of the Le Roi. The dimensions of the ore shoot on this level have not yet been determined, as the find is of too recent origin to have work enough done on it to determine its extent. Manager J. W. Astley says it will yield a large tonnage and that it has the earmarks of being an extensive shoot. The Black Bear ore shoot on the 800 foot level had a width of from 35 to 110 feet and was perhaps the largest ore shoot ever encountered in the camp. It yielded a very large tonnage of ore, and it is fair to presume that it is of the same extent on the 900 foot level that it was on the 800 foot level.

Another find of importance is the full face of ore on the 1550 foot level of the Le Roi. This ore averages $15 to the ton, but the dimensions of the shoot are not known. This find proves that the ore shoot found just below the 1350 foot level extends down to the 1550 foot level. The two strikes combined are most important, and gives assurance of a long career of profitable production for the Le Roi.

Arrangements are under way for the handling of the output of the Le Roi at Trail. J. S. Lawrence, superintendent of the C. P. R., E. E. Coley, resident engineer and W. P. Tierney, railway contractor, were here during the week for the purpose of looking over the ground with a view to ascertaining what trackage and other facilities will be needed to handle the output.

At the Trail smelter an additional furnace with a capacity of 250 tons a day will be installed. The furnace is at hand and can be installed in a very short time. There are already four furnaces with a capacity of 1000 tons a day, and there will be no shortage of furnace capacity at the Trail plant.

The shipments for the week ending tonight were: Le Roi 2970 tons; Centre Star, 2100; War Eagle, 1250; Le Roi No. 2, 210, milled 600; Spitzee, 60; Gopher, 30; Cascade Bonanza, 30; Crown Point, 90; Jumbo, 200; total for the week, 7550, and for the year 233,202 tons.

BOUNDARY SHIPMENTS

Output for the Year Now Over 600,000 Tons

(Special to The Daily News)

Phoenix, Sept. 9—Ore shipments from the Boundary mines for the last week were: Granby mines to Granby smelter, 12,353 tons; Mother Lode to B. C. Copper smelter, 3483; Emma to Nelson smelter, 230; Oro Denoro to Granby, 70; total shipments for the week, 16,141 tons; total for the year to date, 603,783 tons.

The Boundary smelters this week treated as follows: Granby smelter, 12,550 tons; B. C. Copper smelter, 4390 tons; total treatment for the week 16,940 tons; total for year to date, 619,466 tons.

ACTED AS FENCE

Old Woman Arrested for Jewel Robbing in New York

New York, Sept. 9—While employed as a scrub woman Mary Drennan, an aged widow is accused of having acquired in the last month jewelry valued at $15,000 from a large pawn shop in Brooklyn. Her nephew, 22 years old, is alleged to have been used in the disposal of the plunder. Both were arrested last night, the police stating that they had confessed and that one third of the property had been recovered.

FIGHT NOW ON

Watertown Printers Strike for an Eight Hour Day

Watertown, N.Y., Sept. 9—Fifty printers, incuding the employees of all the newspapers and printing establishments in Watertown, struck this morning in an attempt to force the signing of the eight hour day agreement.

YELLOW FEVER

New Orleans, Sept. 9—The yellow fever report for this city up to noon today is as follows: New cases since 6 p.m. Friday 19; total, 2340; deaths today, 1; total deaths, 309.

Advices were received here today that yellow fever has appeared at Baton Rouge.

THE KING RETURNS

London, Sept. 9—The king returned to London today in splendid health, after taking the cure at Marlenbad, Bohemia.

LACROSSE, EAST AND WEST

Montreal, Sept. 9—The Shamrocks defeated the Capitals at lacrosse here today by a score of 8 to 4.

Victoria, Sept. 9—The New Westminsters defeated Victoria here today by 14 to 1.

Vancouver, Sept. 9—The home team defeated Seattle at lacrosse here today by a score of 8 to 3.

TYPOGRAPHICAL UNION LABEL NELSON, B.C.

THE DOMINION EXHIBITION

The Dominion Exhibition, to be held this year in this province at New Westminster from September 27 to October 7, should prove a big advertisement for British Columbia. Properly handled there is no reason why the exhibition to be held in New Westminster two weeks from Wednesday next should not have taken rank with the best ever held in the dominion. Unfortunately those entrusted with the management of the undertaking have been unable to realise that they were handling anything more than the usual little annual fall fair held for the benefit of the lower Fraser river farmers. Consequently no adequate efforts have been made to interest the outside world in the exhibition either as exhibitors or as visitors. To-day very little is known of the nature of the attractions to be provided or of the scope and variety of exhibits.

It is probably too late now to arouse the right kind of interest in the forthcoming exhibition, but some attempt should be made to stir up the management to a sense of their responsibility in the matter. In a sense the reputation of this province is at stake. Strong representations were made at Ottawa that New Westminster was the place for this year's Dominion Exhibition, and all kinds of promises were made conditional upon the usual grant of $50,000 being voted. This large sum has been contributed by the dominion government and the promises to provide an exhibition of truly national import should have been lived up to. It is to be regretted that the business men of Vancouver were not more prominently connected with the management of the exhibition. Vancouver city will be the chief beneficiary by the undertaking as New Westminster has no accommodation for visitors and business men of the former city might well have infused some life into the preliminary arrangements. Visitors to the Dominion Exhibition from eastern Canada and the United States will be apt to form their opinions of the resources of this province from what they see there. This is why failure on the part of the management to take the steps necessary to secure thoroughly representative exhibits of the products of every section of the province is likely to have a very injurious effect. It is to be hoped that despite the failings of the management, those concerned in the fame of southern British Columbia will be at the pains to send in good exhibits of the varied products of this section of the province.

The exhibition to be held in this city the week preceding the opening of the Dominion Exhibition promises to be a great success. There will be more and better exhibits than ever before and the attendance should be greatly in excess of that of last year. If something like the same energy had been devoted to working up interest in the Dominion Exhibition as has been shown by the board of management and secretary Annable of the Nelson Fair, New Westminster would be sure of far better results than from present indications can fairly be anticipated.

FOR TARIFF COMMISSION

LUMBER, LEAD AND FRUIT DUTIES WIL BE CONSIDERED

MANY ORGANIZATIONS PREPARING CASES TO PRESENT

Since it has been announced that the tariff commission will meet in Nelson this week, many questions of local interest have occurred to those who are concerned in presenting their cases.

The Nelson board of trade is rather slow to move. As the board represents all manufacturing and mercantile interests in Nelson, it is not easy to crystallize its wishes into a definite presentation.

Among the questions that will be presented to the commission are those of the lumbermen, lead miners, and fruit men.

Following the lead of the coast lumbermen, already announced, the mountain lumbermen will earnestly advocate a protective tariff, sufficient to protect their product against the slaughter prices being quoted by Washington and Oregon lumbermen. It has already been demonstated that the homesteaders of Manitoba and the new Northwest provinces will not suffer by having the British Columbia lumbermen protected. Timber is still one of the chief assets of British Columbia and the Northwest. Therefore it is hoped and expected that the commissioners will be favorably disposed towards the unanimous request of western lumbermen for a small protective tariff.

The lead mine owners are anxious to have a tariff equal to that imposed by the United States. They are grateful for the benefit of the bounty on lead ore, and for the direct advantage derived by them from the duty on manufactured lead products. But there still remains the question of competition with the big lead producers across the international boundary line. The mine owners are getting together and their case will be carefully presented to the commissioners.

The fruit men have been aroused by the account of the appeal from Manitoba for a reduction in the duty on imported fruit. A special meeting of the Kootenay Fruit Growers' association is called for next Tuesday afternoon to prepare a strong protest against any reduction in the duties on imported fruit.

No definite answer has been received as yet in response to queries as to the date on which the commissioners will arrive on the Crow's Nest line. It is certain that enough business will be prepared for them in Nelson to keep them busy for the day they have allotted to Nelson.

Further particulars of the time they will spend in Kootenay, the location and dates of the sessions they will hold, and the matters to be treated of, will appear later.

The form of public reception to be tendered to the ministers has yet to be arranged by the city council, the board of trade and the Liberal association, details of which will be published later.

ROYAL TOUR OF INDIA

Itinerary to be Followed by Prince and Princess of Wales

The following is an outline of the prince of Wales' forthcoming tour in India. Five months will be spent in different parts of the Indian empire, and it is estimated that his royal highness will travel over 11,000 miles.

The battleship Renown, with the prince on board will reach Bombay on Nov. 9. A week will be spent in the western capital and a Durbar will be held, which will be attended by all the great ones of India.

On Nov. 16 a 600 mile journey by rail to Ajmere in Rajputana will be made. Udaipur will be reached on Nov. 18 and Jaipur on Nov. 21. A visit to Bikanir will follow and Lahore in the Punjab, will welome the royal visitor on November 28.

Still travelling northwards the prince will arrive at Peshawar on the northwest frontier on December 2nd, and will pay a three days' visit to Jammu, in South Kashmir. The royal party is due at Delhi on Dec. 7, and at Agra nine days later, while the Rajput fortress and Bhurtpore will be visited on Dec. 20, and Christmas will be passed at Gwalior.

Lucknow will be reached on Dec. 26 and Calcutta on the 29th. From Calcutta a hasty visit will be paid to Darjiling, among the Himalyas. Rangoon, the Burmese capital will be reached on Jan. 13, Mandalay on the 18th, and Madras, on the return journey, on Jan. 24. Bangalore, Mysore, Hyderabad and Ellore and Benares are next on the program, followed by Nepal, on the borders of Tibet, and ultimately Simla, the sumer capital.

Finally Quetta, the Baluchistan hill station, will be visited en route to Kurrachee whence his royal highness will sail for home on April 9, 1906.

LORD ROBERTS' ADVICE

Addressing Boys' Brigade, Tells Them not to Play at Soldiers

Lord Roberts made a telling speech in addressing the public schools' brigade at Aldershot.

He said a goodly number of civilians most patriotically came forward at the time of the South African war, but some of them—a good many indeed—had little or no notion of the duties they had to perform. They could not shoot, they could not ride, they knew no drill, and that was equivalent to saying they were not much use. "I hope," went on lord Roberts, "that you boys will do all in your power to prevent the reproach ever being possible again. Do not listen to those who laugh at you and say you are only playing at soldiers, and do not listen to those, who, when you are older, will tell you that patriotism is only another word for brag and jingoism. Those who are best at any game are almost certain to be the ones with the least brag and swagger."

DID NOT RESIGN.

McMillan Was Dismissed By His Co-Directors.

J. W. Astley, superintendent of the Le Roi mine in response to a long distance 'phone from the Spokesman-Review, told that newspaper that A. J. McMillan did not resign from the Le Roi directorate.

Mr. Astley said: "It is not true that A. J. McMillan, managing director of the Le Roi, has resigned. He was asked by the London directors to do so, but declined."

Mr. Astley leaves the impression that Mr. McMillan is still a Le Roi director, but it is stated on good authority that when Mr. McMillan declined to resign as requested, the other directors dismissed him.

In his conversation with the Spokesman-Review, Mr. Astley added: "The directors have made a contract with the Trail smelter to treat our ore there, but I do not know the terms. Shipments there can hardly commence before the Canadian Pacific builds a spur to the Le Roi, which will take perhaps, six weeks. I can not see any justification for treating Le Roi ore at Trail instead of at our own smelter at Northport. Freight to Northport is 30 cents a ton, and smelter costs have been cut by superintendent A. I. Goodell to a trifle over $3 a ton, with only two furnaces running.

We have struck $15 ore in the 1550 foot level and it shows for the full face of the drift. We have also discovered the Black Bear ore shoot at the 900 foot level. It was never found before below the 800 foot level. It runs about $12 a ton. The mine now has more ore than it has had in a year. The concentrator was started on test runs again yesterday."

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NEW YORK FASHION LETTER

New York, Sept. 9—Already autumn's styles and materials are seen in the shops but nothing of a definite nature has been decreed as to the thing for the coming season. Still, some things can be reckoned on as almost certain. All authorities are agreed that skirts are to continue wide at the bottom and fitted with clinging closeness around the hips. The new models show innumerable ways of obtaining these results and the fate of the kilted skirt is still undecided. They are neither as new nor as smart as the gored and circular skirts fitting smoothly over the hips and having a side rippling fulness at the bottom.

The circular skirt is better fitted to the long skirt length than to the short and the majority of the best makers reserve it for the full length models using the gored patterns for the short skirt. The circular model does not keep its shape so well in the short length.

A fall street frock shown is of English suiting checked in two tones of gray. The skirt is circular of the type most favored for walking costumes. It is a rippling model with bias front seam and flat trimming of narrow bias bands. These simple horizontal bands stitched flatly or flat tucks are the forms of trimming most often seen on the new tailored models.

Two tone checks in white or colors will not be in style this fall because of their over popularity this summer, but broken checks and plaids in shadings of one color or all in the one tone, with the checkered or plaid effect produced in the weaving and the thread finish are to be seen in large numbers and some of the best street frocks shown so far are made of these fabrics.

There is also to be seen in beautiful and serviceable soft woollens, small, indefinite checks and plaids in green and blue, blue and black, brown and black, green and black and the wine reds and black. One New York house is showing some expensive novelties in certain shaded plaid cloths which are marvels of skill in weaving and coloring.

Herringbone cheviots and serges and soft smooth serges are to be much used for tailor made costumes but broadcloth and satin cloth will, as usual, be the material par excellence for the dressy tailor made. All of last season's colors are to be seen but there are new shadings different from those to which we are accustomed. This is especially true of the reds and blues. The deeper reds seem to be especially emphasized at present but it is too early to predict finally what the fashionable color of the season will be.

Among other fabrics seen in these fabrics are the Parma violet shades, beet root reds, prune, mulberry, dahlia, olive greens from dark to light and in spite of contradictory rumors as to its status for the fall and winter season, there are certain copper and bronze browns and some shades of chestnut brown, represented in the best materials.

The light, bright shades of blue will probably be little worn this fall but there is talk of reviving navy blues for street wear. A greenish blue on the style of the old time peacock blue has gradually come into fashion in millinery and is seen on some of the smartest advance hats.

The black tailormade costume is likely to be as fashionable as ever this year and the woman who must consider the cost will find the black strictly tailored frock the most economical investment.

The coat and skirt costume will be as popular as ever and much latitude is allowed in the matter of coat lengths. It may be any length from the bolero to the redingote. In fact it is rumored that the latter is to be even more worn than it was in the past season. The coat may be semi or close fitting, although the tendency is towards the close fitting.

There are rumors of over skirts, but most of the models showing this style of skirt are either made with tunic overskirt or more frequently simulated tunic effects made by tucking the skirt on the line that a tunic overskirt would take and setting a ruffle under the tuck.

For dressy afternoon wear, the bodices have the popular elbow sleeve and it goes without saying that the evening gowns must have short sleeves if any at all. Even the dressy coats have the sleeves reaching only to the elbow and the lower arm will have to be protected by long gloves in many cases.

Velvet will be worn as much as ever and the newest in this much liked material is of a soft chiffon character and is to be had in any number of beautiful colors.

The princess model will be seen in evening gowns, street gowns and visiting gowns but they should only be worn by those who have an irreproachable figure as on such alone will they have that smart and chic effect on which they depend for their becomingness.

ESTELLE CLAIREMONT

STOCKS AND GRAIN

The stock market opened low this morning and sold off during the early part of the session but rallied at the close on the covering of shorts, closing near the opening prices for the day. C.P.R. opened at 165, after which it broke to 163 3-8, closing at 164 1-2; Sugar opened at 139, the high mark for the day, breaking to 137 1-2 and closed at 138; Amalgamated Copper opened at 81 38, its high mark for the day, after selling to 80 1-8, closed at 80 5-8; U.S.S. preferred opened at 102 3-4, sold up to 103, and after breaking to 102 1-4 closed at 102 5-8; B.R.T. opened at 67 3-4, its high mark for the day, and after breaking to 66 1-2, closed at 66 5-8; Metropolitan Street railway opened at 127 3-4, the high price for the day, and closed at 126 5-8; St. Paul poened at 176 3-8, breaking to 175, and closed strong at 176; U.P. opened at 130, its high mark for the day, broke to 128 7-8, and closed at 128 7-8; L. & N. opened at 117 1-4, breaking $1.50 per share and closed at at 115 3-4; Atchison opened at 89 3-8, sold up to 89 1-2, after which it broke to 88 1-p and closed at 88 7-8; Erie opened at 66 1-4, a loss of a half from last night's close, selling down to 65 3-4, closed at 66; Reading opened at 119 1-2, broke to 117 1-2 and closed at 118 1-8.

Grain—Liverpool closed 1-8 lower. The opening on our market was a fraction lower than last night's close, sold up to 83, closed at 82 1-2.

Reported by I. C. Major and Company, Nelson, Sept. 9.

The Quaker Brand canned fruits and vegetables never disappoint. They are always in season, always nutritious, always delicious. Every grocer keeps them because they're the best, and prices most moderate.

PRIZES FOR FRUIT MEN

MANY CHANCES ARE GIVEN TO LOCAL GROWERS.

ENTRIES MUST BE MADE IN GOOD TIME.

Naturally the fruits, Class B, come in for a fair share of the prizes at the Nelson fair, $363 in cash being appropriated for this department, besides the silver cup, and diplomas for district exhibit.

All fruit must be in place by 7 o'clock September 19th. Judging will begin at 8 o'clock a.m. September 20th.

No exhibit can compete for two prizes; any fruit exhibited in its own class cannot compete in collection of fruit.

First, second and third prizes are offered for apples, pears, plums, peaches, grapes, crab apples, quinces, nectarines, apricots and sundry small fruits.

The detailed list is as follows:

APPLES—Five of each.

Red Astrachan, Yellow Transparent, Gravenstein, Alexander, Malden's Blush, Colvert, Jeffries, Snow, Wealthy, St. Lawrence, Duchess, Blenheim Orange, McIntosh, any other fall variety, Pewankee, King of Tompkins, Ribstone Pippins, Rhode Island Greening, Baldwin, Northern Spy, Spitzenburg, Golden Russett, Roxbury, Mann, *Canada Red, Yellow* Newton Pippin, Stark, Grimes' Golden Pippins, Hubbardston Nonsuch, Ontario, Blue Permain Wagener, Ben *Davis*, Talman Sweet, Wolf River, Fall Pippin, Fallawater, Bell Flower, Ponathan, Rome Beauty, any other variety, best packed box of apples.

PEARS—Five of each.

Bartlett, Sickel, Clapp's Favorite, Salene, any other variety, Flemish Beauty, *Louise Bonne de Jersey*, Howell, Duchess d'Angeuleme Idaho, Keiffers Hybrid, any other variety, Buerre Clairgeau, Beurre d'Anjou, Winter Nelis, Vicar of Wakefield, La Cotte, any other variety.

PLUMS—Twelve of each.

Bradshaw, Grand Duke, Kelsey (Japan), Lombard, Washington, Yellow Egg, Abundance, Damson, Wickson, Peach, Italian Prune, German Prune, Giant Prune, Burbank's Sugar, Imperial Gage, Pond's Seedling, any other variety.

Peaches—(Six)—Early Crawford, Triumph, any other variety, named, best packed box for shipping.

Grapes—(Four Bunches)—Campbell's Early, Worden, Moore's Diamond, Roger's No. 9 (Lindley), Concord, any other variety; best collection, 2 bunches each.

Quince—Any variety, 5.

Nectarine—Any variety, 5.

Crab Apples—(12) — Transcendent, Hyslop, Montreal Beauty, Siberian, *Whitney, Martha, any other variety.*

Apricots—Any variety, 6.

Best packed plums for shipping.

Blackberries, any variety, 1 plate.

Best Prunes, 25 lbs, light, dry.

Best Prunes, 25 lbs., dark, dry.

Best dried Apricots, 25 lbs.

Largest and best collection of fruits—J. A. McDonald, $10 in gold.

Best display of fruits on branches—not less than four varieties, value, $7.

Best designs of fruits grown by exhibitor, cash $10.

The special donations given this year up to the present time are as follows: Christie Brown & Co., Toronto, $10; United Factories, $5; J. A. McDonald, wholesale fruit dealer, Nelson, $10; Geo. Milligan, Toronto, per G. B. Matthew, Nelson, 500 Arabella Cigars, value $35; Ogilvie Flour Mills Co., $15; Lake of the Woods Milling Co., $15; The Alexander Milling Co., Brandon, $10; Calgary Milling Co., $10; Nelson Coke & Gas Co., $13; A. Burpee & Co., Philadelphia, books; James Johnstone, silver cup.

VEGETABLE PRIZE LIST

CASH PREMIUMS OFFERED BY FAIR DIRECTORS.

INTERESTING LIST OF MISCELLANEOUS ENTRIES

First and second prizes are offered for the appended list of vegetables and *field produce.*

Class C and D.—$180 in cash prizes.

Potatoes—Everets Early, 25 lbs.; Early Rose, 25 lbs.; Carmen, 25 lbs.; Beauty of Hebron, 25 lbs.; Burbanks, 25 lbs.; largest, 25 lbs.; any other variety named, 25 lbs.; any other variety, not grown in district before; three varieties, correctly named, 15 lbs. each—special prize by West Kootenay Butcher Co., one 20-lb ham.

Turnips—Six table, any variety.

Carrots—Shorthorn; intermediate, 6.

Parsnips—Any variety, 6.

Cabbage—Two best Summer; 2 best Winter; 2 best Red.

Brussel Sprouts—Three stalks.

Savoys—Two best and largest.

Cauliflower—Best 2 heads.

Onions—Twelve White; 12 yellow; 12 Red; 1 quart Pickling.

Peas—10 lbs. unshelled.

Beans—One quart in pod, yellow; 1 quart in pod, green.

Corn—Table, 6 ears.

Beets—Long, 6; Globe, 6.

Celery—Any variety, 6 bunches.

Lettuce—Six heads.

Radish—Long, best dish of 12; turnip, best dish of 12; winter, best dish of 12.

Squash—Best 2 Hubbard; Golden Scolloped, heaviest; best 2 any other variety.

Pumpkins—For table, 2; largest 2.

Vegetable Marrow, 2.

Tomatoes—Best 12; best collection, 4 varieties, 6 each.

Cucumbers—Best 6; best pickling.

Melons—Water, best 2; mush, best 2.

Citron—Best 2.

Sunflowers—Best 2.

Peppers—Six.

Kale—Two heads.

Best collection of vegetables, distinct from other entries not less than 10 varieties to compete, and to be correctly named.

FIELD PRODUCE

All exhibits must be properly classified by name, must be grown by exhibitor and be the produce of 1905.

Wheat—Autumn, 1 sheaf; Spring, 1 sheaf.

Oats—White, 1 sheaf; black, 1 sheaf.

Peas—White, large 25 lbs; small 25.

Rye—One sheaf.

Beans—Field, 25 lbs.

Hops—Best selection.

Turnips—Five Swede, for cattle; 5 white for cattle.

Mangold Wurtzel—Five Globe; 5 long Red.

Sugar Beet—Five.

Carrots—White, 6.

Hay—Baled Clover, baled Timothy; baled Meadow hay.

Timothy Seed, 25 lbs.; Orchard grass, 25 lbs.; Rye grass, 25 lbs.; Red Clover Seed, 25 lbs.

Corn or Maize— Twelve ears.

MISCELLANEOUS.

Fifty dollars in cash prizes and 17 Diplomas.

Home made buns, one dozen, special prize.

Currants—Black, 1 qt. not preserved; Red 1 qt. not preserved; White, 1 qt. not preserved.

Gooseberries—One quart not preserved

Strawberries, 1 qt. not preserved.

Raspberries—Black, 1 qt. not preserved; red, 1 qt. not preserved.

Cultivated fruits, collection of not less than 4 varieties, not preserved.

Cultivated fruit preserves, collection of not less than 4 varieties, named, and of not less than one pint each.

Jellies—Collection of not less than 4 varieties, named.

Currants—Black, 1 qt. preserved; Red, 1 qt. preserved; White, 1 qt., preserved.

Gooseberries—1 qt. preserved.

Raspberries—White, 1 qt. preserved; black, 1 qt. preserved.

Strawberries—One quart preserved.

Raspberry Vinegar—Bottle.

Home made wine, 3 bottles, named.

Home made Sweet Pickles.

Home made Sour Pickles.

Home made Catsup.

Best display of Pastry by Bakery.

Best display of Stoves and Ranges.

Best display of Groceries.

Best display of Furniture.

Best display of Hardware.

Best display of Mens Clothing.

Best display of Furs.

Best display of Millinery.

Best display of Dry Goods.

Best display of Fishing Tackle.

Best display of Musical Instruments.

Best display of Boots and Shoes.

Best display of Jewelry.

Best display of Plumbing.

Best display of Electric Light and Gas Fixtures.

Best display of Wall Paper.

Best dispay of Mattresses.

Best display of Home Made Candies.

Best display of Cigars, provincial manufacture.

Best display of Boats and Boat Models

CHANCE FOR CHILDREN

If You Do Your Own Sewing

it is all the more reason why you should use only

Belding's Spool Silks

They save both time and money.

Belding's Silks are tough and strong, because they are pure silk. That makes them wear.

They sew smoothly, evenly—because they are free of kinks and knots. That prevents threads breaking.

You can do MORE work—and better work—and do it EASIER—with Belding's Silks.

Every shade and tint for hand and machine work.

Stores everywhere have BELDING'S SILKS.

The Best Boot Made For Men

Men's genuine Scotch Grain Blucher with heavy pegged extension sole—one of Leckie's best lines.

Ask your dealer for it.

R. W. PETERSON.

Nelson, Sept. 8, 1905.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $1 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,
Deputy of the Minister of the Interior.
Dept. Interior, June 30, 1904.

A Gold Bond

whether it be a wedding ring or a financial term, must be good. In fact, it must be very good. As in the government note the price is a minor consideration to the goodness of the investment, so, in a ring, "the recollection of quality remains long after the price is forgotten."

The quality of our plain gold rings is our main argument. They are good because we put the stuff in them.

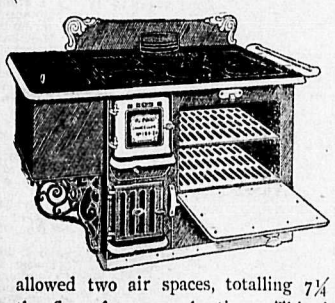
Fred Irvine Co., Ltd.
TERMS CASH

Every detail about the Oxford Chancellor Range has been built with the object of strength and long service. Each part is constructed of the very best material and mounted by the most skilled workmen.

The ash-pit is deep and wide and fitted with a large pressed-steel ash pan. An outside ash guard is provided.



Oxford Chancellor Range

Between the main bottom and bottom of the range, we have allowed two air spaces, totalling 7¼ inches, which protects the floor from over-heating. This is a point that will be most appreciated by those who have had their floors burnt by poorly insulated ranges.

We would like to tell you more about the Oxford Chancellor Range. Won't you write for some of our free booklets?

BATTLING NELSON WINS

DEFEATS BRITT BY SUPERIOR ENDURANCE.

FIGHT WAS A GAME ONE FROM START TO FINISH.

Colma, Sept. 9.—The fight between the two light weight champions here today, Battling Nelson, the Dane, and Jimmy Britt, of California, resulted in a victory for the Dane in the eighteenth round.

For the first few rounds neither of the men were seen at their best, although the Californian had the best of the fighting. Afterwards, and up to the twelfth round, Britt did some splendid work, apparently landing where he would. His left arm hooks were splendid and with a fighter of less staying power than Nelson he must have won. But the hard training that Nelson had done, training that left him at the ringside with a badly marked face, stood Nelson in good stead. Regardless of blows he rushed the fighting, wanting to get in close but seldom deigning to clinch and by pursuing these tactics, although out-boxed, he succeeded in wearing his opponent down. Up to the last Britt rallied bravely and struck hard but eventually the Dane broke down his defence and getting in a left swing landed his man.

The trouble about the referee lasted up till the hour had come for the fight and still no decision had been made. Jim Jeffries entered the arena and was wildly cheered as the undefeated champion, but Nelson objected to him as the referee. After an hour's wrangling during which, at one time, it appeared as if the fight would not come off, Graney was accepted by both men, all bets being declared off, however, on account of the change of referee.

Despite this dispute the arena was well filled with a cheering mob of enthusiasts betting largely on the Californian for the most part. A good deal of money was lost by the Californians for the betting was 10 to 6 on Britt.

The winner was challenged by Eddy Hanlon, Jimmy Gardner and Willie Fitzgerald. The fight by rounds was as follows:

ROUND 1.

They meet in mid-ring Britt missed a left hook for jaw but put a good right on heart. Nelson backed away from a left aimed at the jaw. Britt sent right to jaw. Nelson rushed into a left to wind. They clinch and break clean. Britt worked both hands to Nelson's jaw and hooked a hard left to wind. Nelson sent a hard right to Britt's nose and started the blood. Britt hooked right to face. Nelson sent straight left to mouth. Britt ducked left and sent left to nose. They work into a clinch. Nelson nearly landed a fast left on the jaw which would have done damage. Britt hooked left to wind and raised it to Nelson's mouth. One of Britt's left hooks nearly sent the Dane down in this round.

ROUND 2.

They come together quickly, Britt is short with his left then hooked it to jaw. Nelson blocked a left to wind. Britt sent left to cheek and backed away. Britt rocked Nelson's head with left then crossed right to jaw. He had Nelson staggering but the Dane came back with a hard left to jaw. Britt hooked two rights to the heart. Britt sent another to same place and two lefts to nose. Britt hooked right to ribs then jabbed left to mouth. In the clinch Nelson sent a hard right to face. Britt sent right to ribs as the bell rang. Britt had the best of this round.

ROUND 3.

Britt jabbed left to mouth. Britt landed his right on ribs and blocked Nelson's right. They clinch and hug. Britt ducked a hard left swing then they slug, both landing hard rights. Britt lands both hands on wind. Nelson keeps crowding up and put right to ribs. Britt sent straight left to mouth. Britt's left was blocked and then he landed straight right on cheek. Britt hooked right to jaw then Nelson put left to face and right cross to jaw. Britt dropped Nelson with a right hook to the jaw. The Dane was down three seconds. Britt sent left to face and right to ribs as bell rang. Nelson grinned going to his corner. This was all in Britt's favor.

ROUND 4.

Nelson's nose bleeding badly. Britt feints Nelson into clinch. Britt sends hard right to ribs. Britt swings right to jaw and clinched.

ROUND 5.

They came up fresh and went at it. Britt sent in left and right to the head. Nelson forcing but unable to land. Britt sent in overhand wallup to the head, missing a left and sending in a right and left in quick succession. Nelson slowed up in this round taking many blows without return but forcing all the time. He got Britt in a corner and tried with both hands for the jaw but missed. A moment later they got into a fast mix and slugged with right and left. Britt staggered and dazed Nelson with rights to the jaw and tried desperately to knock his man out. They stood in the centre of the ring and slugged with both hands, Nelson taking a tremendous beating. He was game, however, and never for a moment gave ground before Britt's onslaughts.

ROUND 6

Britt lost no time in going in, using straight lefts to the face and keeping Nelson off until he got a chance to send in his right. Nelson came right on, however, forcing Britt around the ring and taking blow after blow in his attempts to get in closer. Clever blocking by Britt prevented any damage to himself, however, and only just before the last half of the round did Nelson show to any advantage. He got Britt into a corner and pounded him with both hands until Britt was staggering. Britt threw all science to the winds and slugged taking a terrific beating. Britt was staggering all around but Nelson was unable to deliver the knockout blow.

ROUND 7.

Both had recuperated and lost no time getting at it. Britt tried left for jaw but missed. He sent hard left to Nelson's stomach which was stopped but got the right on nose. Nelson tried left for face, but without success. He got Britt in a corner and they exchanged lefts, Britt's being the more successful. Both are tired and inclined to linger and come to clinches. Nelson shot in a right to head, putting right uper-cut to Britt's nose. At close range, Britt put right to head and left to body. Britt landed his left quickly to face cutting Nelson's cheek.

ROUND 8

Both tired. Nelson after Britt every moment, taking half dozen stiff jabs in the nose, hooking, in order to come in close. They exchanged lefts to face and in getting away Britt was tripped by Nelson. To show that it was not intentional Nelson offered his hand and they shook.

ROUND 9.

Britt showed the effects of the pace but cleverly avoided Nelson for some time before they came together. In the clinch that ensued Nelson showed more strength. He missed a long swinging left that would probably have ended matters had it landed. Jimmy drove left and right to face and left to body. Nelson landed two left hooks on face and got a left on the stomach. Britt fought cleverly and taking advantage of a good opening drove both hands to Nelson's face staggering him. Britt also showed marks of the terrific battle and Nelson's face was badly cut. At the gong they were standing in the center with heads together and swinging both hands.

ROUND 10

Nelson landed a left on face, Britt hooked left to jaw. Britt jabbed left to mouth. In a clinch Nelson crossed right to head. Nelson put a hard left on the jaw. Britt jabbed left to mouth and jumped away. Both land solid lefts on jaw. Britt's right goes to jaw and he rocked Nelson's head with a left swing. Both bleeding freely.

ROUND 11

Sparring. Nelson's left lands on cheek. Britt hooked three lefts to face and put a hard left on wind. Nelson put his head down and ran into a left on wind. Britt works his left on body. Nelson puts left on face. Britt sent another left to wind then both hook good lefts on jaw. In a clinch Nelson worked both hands on body. Britt's left goes to nose. Nelson tries to butt in a clinch. Britt blocks left for body, works both hands on face. Britt's left goes to wind. When bell rings Britt grins at Nelson sarcastically.

ROUND 12.

Nelson ran into a left to jaw. Nelson keeps crowding, Britt hooked left to cheek. Britt does all the blocking. Nelson got half a dozen hard swings on the head. Britt hooked left to jaw then on wind. Nelson follows Britt up, put one left on face, but got two straight lefts on mouth in return. Nelson worked Britt to the ropes to get two lefts on face. Britt lands on jaw, Nelson seems groggy. Britt seems confident now, and is doing cleverer work than in the first five rounds.

ROUND 13.

Britt lands left hook on Nelson's jaw. Nelson bores in and puts left to jaw. Britt rocks head with left and right; misses a left swing but hooked left to wind. Nelson rushes Britt half across the ring and tried left to jaw. Britt groggy from the fierce onslaught by Nelson. Recovers and fights back and they are exchanging lefts on face at the bell. Nelson landed left on jaw and nearly knocks Britt out in this round.

ROUND 14

Britt hooked left to face. Nelson swung a right to the eye. Nelson sent Britt to the ropes and landed left and right swings on head. Nelson hooked right to jaw. Britt swung a right to jaw. Fighting like tigers. Nelson is strong. Britt hooked two rights to jaw. Nelson swung two rights to jaw. Nelson bores in and lands two rights on wind. Britt hooked left to jaw. Britt missed two lefts. Nelson put left and right to jaw. Both hook hard lefts to face and Britt drops Nelson with left hook. Britt makes Nelson break ground though the Dane is game and hooked hard left to cheek. Both are very tired and both nearly out. Bell.

ROUND 15.

They rush together Britt hooking left to face twice. Nelson sent left to face. Britt's left goes to mouth. Both miss left swings, Britt lands left and right to face. Nelson sent Britt's head back with straight left. Nelson rushed into a left hook to jaw. Nelson sent left to forehead. Britt sent left to cheek and right to ribs. Both land lefts on wind, Britt's blows seem harder. Both land lefts on face. Britt landed left on nose. Britt sent a hard one to cheek, Nelson sent nasty one to cheek. Nelson had Britt in corner and tried to land an uppercut but missed. The Dane's nose is a mass of pulp. It has been a terrific battle, but it is Nelson's fight at this stage.

ROUND 16.

Britt lands two left jabs to jaw twice. Nelson tries to land a blow but Britt holds and gets away. Britt rocked Nelson with a right to cheek. Britt swings left to wind. They work into a clinch but do no damage. Nelson rushes Britt to the ropes put right to face. Britt hooked left to jaw and clinched. Nelson inclined to clinch and hug now. Nelson sent left to head. Britt sent three left jabs to nose. Nelson tries a backhanded blow and gets hard left hook on jaw.

ROUND 17.

Nelson ran into a hard left hook to jaw. In a clinch he tries hook to jaw. Britt hooked a good left to cheek, Nelson did the same, then Britt sent left to wind. Nelson blocked right uppercut.

ROUND 18.

Britt hooked three lefts to head. He worked fast and Nelson missed a hard right swing. In a clinch Nelson did some damage. Britt sent a solid right to the head. They exchange lefts on face. Britt swung a left over Nelson's head. Both hook lefts to face. Nelson swung hard right for jaw, but missed. Britt jabbed a couple of lefts to mouth and hooked left on wind. Nelson knocked Britt down with a left swing and right hook to jaw. Britt fell on his back and rolled over on his face and tried to rise, but could not. He was knocked out. Britt's tongue was hanging out as they lifted him tenderly to his corner.

It was give and take all through. The ring was immediately filled with a crowd of crazy and yelling enthusiasts Nelson went to Britt's corner and shook hands with Jimmy. Both men are carried to their dressing rooms.

The fight was fair and clean and both men were wildly cheered as they left the ring. Britt says a left to the jaw and a left to the wind was what got him.

Clothes the Index of Man

A Man is judged by first impression--and rightly so. Clothes are an index of character. Right Clothes indicate right thinking.

TAYLOR & McQUARRIE,
Fashionable Tailors
NELSON & ROSSLAND

W. Parker is a Humorist.

"The Tribune inserted a despatch a few days ago setting forth Zionist Dowie's views on matrimonial obligations. Mr. Parker writes a letter explaining that Dowie was misreported and thanking the Tribune in anticipation for inserting Dowie's manifesto, which runs to three columns. Thanks, Mr. Parker, our advertising rates are 25 cents an inch."

The Tribune and all others can procure whole copies of "Leaves of Healing" for 5 cents per copy. The particular issue referred to in the above contains every word of what Zionist Dowie said about matrimony. It is well worth anyone's while to read and live it as it is done in Zion.

THE BOLE DRUG CO., WINNIPEG, MAN

The missing men were lost while out in dories on Wednesday last. The captain jumped overboard and was drowned early on Friday. He left a note declaring his intention to commit suicide.

TWO CONSERVATIVES

Cardston, Alberta, Sept. 9—Levi Harker, of McGrath, general merchant, a prominent member of the Mormon church, was selected by the conservatives of Cardston as their canadate in the approaching elections for the provincial legislature.

Leduc, Alberta, Sept 9—The conservatives have nominated C. A. E. Simonds of Leduc as their candidate in the approaching provincial elections.

STORY OF THE SEA

Captain Commits Suicide—Eight Men Lost in a Fog

Boston, Sept. 9—The death of captain Isaac Fraser by suicide and the loss of eight men by going astray in the fog, was reported by the remaining members of the crew of the Boston fishing schooner Joseph H. Cromwell who brought the vessel into this port today.

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 35 cents.

NELSON'S NEWS OF THE DAY

In the Baptist church this evening Mrs. Nicol will sing a solo.

Commencing today the Spokane Falls & Northern train will leave the union station at 7:20 a.m. and arrive here at 8:45 p.m.

J. P. Marcellus, farmer of Fishburn, has been nominated by the liberals of Pincher creek riding as their candidate in the forthcoming provincial elections in Alberta.

At St. Paul's Presbyterian church this morning Mrs. Melville Parry will sing Gounod's "There is a Green Hill Far Away," and in the evening an anthem will be rendered, "The Radiant Morn Hath Passed Away,' Woodward.

The K. R. & N. company's new time table comes into effect today. On and after this date the steamer for Kaslo will leave here at 4 p.m. daily except Sunday, reaching Kaslo at 7:30 p.m. The steamer will leave Kaslo for Nelson and way ports at 8 a.m., arriving here at 11:30 a.m.

The Presbytery of Kootenay will hold its half yearly regular meeting in St. Columbe's church, Greenwood, on Tuesday, commencing at 4 p.m. The ladies aid of the church will welcome the members of the Presbytery and members and adherents of the congregation at supper from 6:15 to 8 p.m.

Rev. Thomas Fowler, pastor of St. Matthew's, the premier Presbyterian church of Halifax, arrived in Nelson on Friday evening. He is making the transcontinental tour, and is much impressed with what he has seen of the west. He will preach at the morning service in St. Paul's Presbyterian church today.

Rosebery postoffice has been closed down for over a month, causing much inconvenience. The former post master resigned six weeks ago and the attention of the department was called to the matter by a petition signed and sent by the residents. No new appointment has yet been made, and the Rosebery people are at a loss to know what is causing the delay.

In the Success club hall commencing Tuesday evening next Rev. R. M. Simmons of Vancouver, an elder of the Christian Catholic Apostolic Church in Zion, will commence a series of stereopticon lectures on Zion City, her institutions, industries and people, and the teachings of Zion. The lectures will be continued on Wednesday and Thursday evenings. Many photographic and panoramic views will be shown and an excellent opportunity will be given the people of Nelson to gain reliable information regarding this unique city and the most wonderful religious movement of modern times. No charge will be made for admission but a collection will be taken up.

There will be no services in the Methodist chuch today.

Born, in this city on Saturday, Sept. 9 to the wife of F. M. Black, a daughter.

R. Kay, vice-president of the A. Macdonald company, died at Winnipeg yesterday. Mr. Kay had been an invalid for more than a ear.

R. T. Lowery will produce the first number of his new claim in Nelson on Sept. 20, the 51st anniversary of the Alma, and the first day of the Nelson fair.

On Thursday morning A. K. Wattie and Mrs. Wattie were trolling at the Outlet at 5 a.m. Within an hour Mrs. Wattie caught 23 trout weighing over 30 pounds.

A. Robinson, B.A., superintendent of education for British Columbia, has left Victoria for the interior, and will arrive in Nelson about the middle of the week.

Word has been received from Cranbrook that the Mountain Lumbermen's association is making preparations to present their views very fully to the tariff commission at the meeting here on Friday next.

Arnold's circus company performed to a large crowd yesterday afternoon and evening on the C.P.R. flats near the railway station. The performances were greatly enjoyed, the acrobatic features being exceptionally good.
