BENDING TO THE STORM

Czar Nicholas Gives to His People Basis of Real Constitution

Four Liberties Demanded by Witte are Granted--Autocrat Makes an Appeal for Support to the Russians

St. Petersburg, Oct. 30.—The following is the text of the imperial manifesto issued tonight granting a constitution to Russia:

"We Nicholas II, by the grace of God emperor and autocrat of all the Russias, grand duke of Finland, etc., declare to all our faithful subjects that the troubles and agitation in our capitals and in numerous other places fill our heart with excessive pain and sorrow.

"The happiness of the Russian sovereign is indissolubly bound up with the happiness of our people, and the sorrow of our people is the sorrow of the sovereign.

"From the present disorders may arise great national disturbances, to the menace to the integrity and unity of ouh empire .

"The supreme duty imposed upon us by our sovereign office requires us to efface ourselves and use all the force and means at our command to hasten in securing the unity and co-ordination of the power of central government and to assure the success of measures for pacification in all circles of public life, which are essential to the well-being of the people.

"We, therefore, direct our government to carry out our inflexible will in the following manner.

"First, to extend to the population the immutable foundations of civic liberty based on the real inviolability of person, freedom of conscience, speech and association.

"Second, without suspending the already ordered elections to the state douma, to invite to participate in the douma, so far as the limited time before the convocation of the douma will permit, those classes of the population now completely deprived of electoral rights, leaving the ultimate development of the principle of the electoral right in general to the newly established legislative order of things.

"Third, to establish an unchangeable rule that no law shall be enforcible without the approval of the state douma, and that it shall be possible for the elected of the people to exercise a real participation in the supervision of the legality of the acts of the authorities appointed by us.

"We appeal to all faithful sons of Russia to remember their duty toward the fatherland to aid in terminating these unprecedented troubles, and to apply all their forces, in co-operating with us, for the restoration of calm and peace upon our native soil.

"Given at Peterhof, October 30th, in the eleventh year of our reign.

"NICHOLAS."

COUNT WITTE'S REPORT

He Clearly Lays Down to the Emperor the Course To Be Pursued.

St. Petersburg, Oct. 30—Count Witte's report to the emperor, who inscribed thereon "To be taken for a guide," is as follows: "Your majesty has deigned to indicate to me directions for a government in consideration of the actual state of Russia. The agitation of human society is not the outcome of partial imperfections in the social and governmental regime or of actions organized by the extreme elements. Its roots are much deeper. It took birth in the violation of the balance between the moral aspirationse and the exterior forms of Russian society.

"Believing that Russia aspired to law based on civil liberty the chief problem of the government consists in making effective, even before approval by the state douma, all elements of civil liberty. In the elaboration of normal legislative measures giving equality before the laws to all Russians, without distinction of race or religion, the problem ensuing consists in the establishment of legislaive forms seeming to guarantee the benefits of civil, political and economic liberty. These benefits should be extended to the masses of the people under the reserves safeguarding the laws in all civilized countries. It must be realized then that these objects cannot be attained immediately as no government could suddenly prepare 135,000,000 people with a vast administration for new liberties. It is therefore necessary to have the powers of a homogenious united in its aims taking care to put in practice the stimulating principle of liberty and to display sincerity and upright ness in its intentions.

government united in its aims taking care to put in practice the stimulating principle of liberty and to display sincerity and uprightness in its intentions.

The government should abstain from any interference with any elections to the douma and keep in view a sincere desire for the protection of the last imperial ukase. It must maintain the prestige of the douma and have confidence in its labors and in no way resist its decisions so long as they are not inconsistent with Russia's historic greatness. "It is necessary to respect the wishes of the great majority of society and not the echoes of the noisy groups and factions too often unstable. It is especially important to secure the reform of the council of the empire on an electoral principle.

"I believe that in the exercise of the executive power the following principles should be embodied.

"First—Straightforwardness and sincerity in the confirmation of civil liberty and in providing guarantees for its maintenance.

"Second—A tendency in the direction of the abolition of exclusive laws.

"Third—The coordination of the activity of all organizations of government.

"Fourth—Avoidance of repressive measures in respect of proceedings which do not openly menace society of the state, such resistance being based upon law and moral unity.

"Confidence must be placed in the political tact of Russian society. It is impossible that society should desire a condition of anarchy which would threaten, in addition to all the horrors of civil strife, the dismemberment of the empire.

Lodz, Oct. 30.—The situation here grows worse hourly. The infantry who were ordered to fire on the people are discharging their rifles in the air. The shops are closed and those which the owners refuse to shut up are destroyed. Crowds are busily tearing down Russian flags which are displayed by order of the police. Bands of peasants in the government of Suwalk are destroying the government alcohol stores.

WILL RETAIN HIS SEAT

JOHN HOUSTON AUTHORIZES A STATEMENT TO THIS EFFECT

NELSON WILL BE REPRESENTED IN THE LEGISLATURE.

(Special to The Daily News)

Victoria, Oct. 30.—Although John Houston, now of Goldfields, Nevada, has resigned the mayoralty of Nelson, in justice to the municipal interests with which he had been so intimately indentified during the past 14 years, his resignation of his seat in the British Columbia legislature does not by any means follow as a matter of logic. It has not yet been received either by premier McBride or Mr. Speaker Pooley, nor is it on the way.

When the members of the house are next brought together for the despatch of business, unless something unforeseen develops meanwhile to upset his present plans, the eccentric and iconoclastic member for Nelson will be found in his place, ever to be reckoned a doubtful quantity, to discuss the interests and greatness of the Kootenays, or to provide the welcome laugh; and to be a thorn in the flesh from which the government of the day (of which he narrowly escaped being a member) had imagined itself permanently delivered.

Your correspondent wrote recently to Mr. Houston at his new Nevada home. It was mentioned that speculation is rife throughout British Columbia as to whether he intended to resign his parliamentary honors or to return at the opening of parliament to represent Nelson, continuing so to do during the sessions remaining of the present legislature, as he could without the dangerous annoyance by his creditors, by grace of the Independence of Parliament Act.

Knowing John Houston to be a champion and admirer of blunt directness, he was asked, "Do you intend to resign your seat in the local legislature or will you come back for the sessions of the house until the seat is vacated in the natural course? I should like to use a direct answer." It was less than a week ago that this letter was written and today the answer came over the Western Union wires, via Tonopah:

"I do not intend to resign. You can make story. (Signed) John Houston."

The context is indicate that Mr. Houston will be on deck to discharge the parliamentary duties the electorate of Nelson has delegated to him, and give new color and animation to sessional life along quite exceptional lines.

Hon. R. F. Green informed a reporter of The Daily News last evening that John Houston is still a member of the legislature, and that, while nothing has been heard from him, members are looking forward with amusement to greeting Nelson's unique representative in February.

MICA IN CANADA.

Production of this Mineral Now Assuming Large proportions.

Ottawa, Oct. 30.—Eugene Haanel, superintendent of the mines branch of the department of the interior, has sent to Hon. Frank Oliver, the first of a series of publication on the economic minerals of Canada. The report deals with mica. Canadian mica mining, the expert says, has now reached such proportions as to entitle it to a prominent position in the mineral industries of the dominion.

There are at present employed in the mica industry 550 persons, but nearly all the mines and mica-cutting establishments are only employing about half the usual number of persons owing to the temporary slackness of the demand, probably due to last year's over production. The wages paid last year amounted to $120,000.

The best deposits so far discovered are those of Saguenay district, situated below Quebec.

REJOICING IS GENERAL

Strikes Declared Off on Several Russian Railroads

Revolutionists Not Pleased and Reactionaries Declare That Recourse Will Yet be Made to Repressive Measures

St. Petersburg, Oct. 31.—(3.30 a. m.)—The strike has ended on the Moscow and St. Petersburg, the Moscow and Kazan, and the Moscow and Archangel railroads.

St. Petersburg, Oct. 30.—The news of the czar's manifesto spread like wild fire throughout the city. The revolutionists and active agitators generally declared loudly that the government's promises would no longer suffice and that the strike must be continued. In fact an hour after the news became known the revolutionists took occasion to throw the first bomb in St. Petersburg used since the strike began. The incident occurred near the Polytechnic school but there were no fatalities. Practically all classes, except the socialists and the extreme radicals, read the document with delight, and amazement, declaring that it could not fail to rally the moderates to support count Witte.

But the irony of fate, while the strikers are clamoring for a constitution, it seems impossible to dissuade the striking printers to resume work, and therefore not a single newspaper, except the Official Messenger, will print the momentous document for distribution tomorrow. Arrangements, however, have been made to placard the manifesto on every dead wall in the city and the text will be telegraphed tomorrow to every city, town and hamlet with which there is telegraphic communication. It also has been ordered to be read from all the churches of the empire.

The effect throughout Russia is expected to be instantaneous. While the extremists threaten an attempt to keep up the present struggle the best opinion is that the backbone of the strike is broken. In the final analysis the effect will depend on how far count Witte will be allowed to execute the heavy task which he has assumed. Some persons, high in the government believe it will still be necessary to use ball cartridges to suppress the present movement, but count Witte appears confident. He has become the bridge whereby the people are to cross to constitutionalism. The count has already tentatively selected the members of his cabinet. He will himself hold no portfolio. The present ministers, except those of the war, navy and foreign affairs will be retired.

Late tonight after the news got abroad crowds began marching up and down the Nevsky Prospect singing the national hymn and hurrahing for liberty. It is significant that the great searchlight which has been lighting up the Nevsky Prospect from the admiralty tower for three nights was turned off tonight. At all the fashionable restaurants champagne was drunk in toasts to "Liberty and the Constitution."

"I am sure the American people who understand what freedo mis and the American press, which voices the wishes of the people, will rejoice with the friendly Russian nation at this moment, when the Russian people have received from his imperial majesty the promises and the guarantees of freedom and will join in the hope that the Russian people will wisely aid in the realization of these liberties by cooperating with the government for their peacful introduction. Only thus will it be possible to secure the full benefits of the freedom conferred upon the people."

Count Witte, Russia's first premier, tonight sent the above message to the American people. He had just arrived at his residence from Peterhof, where in the Alexander palace two hours before, the emperor had given his final approval to a manifesto and to a program which will forever end the rule of absolutism exercised by him and his Romanoff ancestors for 300 years.

St. Petersburg, Oct 30—An imperial manifesto was issued this evening appointing count Witte prime minister with special authority to co-ordinate and unify the powers of the different branches of the administration. Civil liberties are granted to the Russian people and to the national assembly is given legislative power while the suffrage is to be enlarged. Count Witte insisted on a cabinet on the British model with a selected premier responsible to the imperial douma or parliament, while the emperor clung to the appointment of the members of the cabinet on the American plan by the emperor as chief of state.

There appears to be no foundation for the rumors of mutiny on the vessels of the Black Sea fleet, which is in circulation in Odessa and which have been propogated by the strikers for several days. The following despatch from Odessa, just received does not even mention the alleged mutiny:

"After yesterday's exciting occurrences, when the gun shops were plundered, barricades built and the troops in dispersing crowds were forced to fire several volleys, quiet prevailed today. This is a holiday, being the anniversary of the escape of Alexander III. from a train wreck near Borki. All the banks and stores are closed. The number of killed and wounded has not yet been determined in yesterday's disturbances, but it is not large."

The state department has instructed charge d'affaires Eddy in case of emergency to give American citizens asylum at the embassy and if necessary to charter a steamer.

Foreign minister Lamsdorff is reassuring the ambassadors by formally guaranteeing the safety of foreign residents. He announces that the government is prepared to afford them military protection in St. Petersburg and elsewhere in the event of disorders.

The employees on the section of the Finnish railroad between St. Petersburg and the Finnish frontier, 15 miles north of this city, have struck. This portion of the road is operated by Russians.

General Trepoff forbade a meeting of the town council called for Tuesday to consider the demands of the strikers, made yesterday, including a constitution and political liberty, that the city furnish food to the workmen, that they refuse further supplies to the troops and police and that the troops be removed from the waterworks, otherwise the strikers would cut the water supply.

The municipal council at its sitting tonight, after reading the imperial manifesto, decided to send the following telegram to the emperor: "The council welcomes with delight the long desired tidings of freedom, firmly relying on a bright future for or dear ratherland. Hurah for the emperor of a free people."

St. Petersburg, Oct. 31—3:.5 a.m.—Celebration of the issuance of the imperial manifesto still continues at 3 o'clock this morning in many streets of the city where crowds are singing the national hymn, cheering for the emperor and shouting themselves hoarse. The restaurants and cafes were closed at 2 o'clock, disgarging their crowds, which have been drinking and making merry for hours around the tables, to augment the demonstration in the thoroughfares. The Cossack patrols were utterly discomfitted and confounded and were wholly at a loss to understand the meaning of the demonstrations or why the crowds were singing "God Save the Emperor." Russia's magnificent national anthem instead of the "Marseillaise."

The people displayed the utmost good humor towards the Cossacks. They surrounded their horses and patted their perplexed riders on the boots, shouting, "You can go home now; we no longer need you; we have liberty." They bade the Cossacks to toss their hats in honor of the constitution. After 2 o'clock all the patrols were withdrawn from the streets which were left in charge of the ordinary night force of policemen.

Soon after midnight a crowd of several hundred persons gathered in the great square before the winter palace and sang a chant from the church liturgy addressed to the emperor and the national anthem and finished with rousing cheers for his majesty and the imperial family. In the Nevsky Prospect there was some rough play, but the boisterous ones formed an inconsiderable part of the crowds.

Odessa, Oct. 30—Persistent rumors are in circulation here today that the crews of the Black sea fleet mutinied on arriving at Samsun, on the coast of Asia Minor, killed admirals Birileff and Chouknin and sailed back to Sevastopol, after hoisting the revolutionary flag. It is impossible to verify the rumors. The authorities are confiscating all political telegrams.

Warsaw, Oct. 30.—A telegram received from Moscow says the strikers destroyed the station of the Belt railroad and two houses on Twerska street one of them belonging to governor. Thousands of wealthy inhabitants of Moscow are leaving the city by every means available.

The military telegraph operators are complaining of having to do the commercial service. They declare they are too tired to perform the work. Telegraphic communication between Warsaw and Vilna has been severed.

The excitement here in the streets gives no signs of abating. Every now and then the crowds overturn a street car with the object of stopping traffic, but no serious conflicts have thus far occurred. The police are trying to induce the shopkeepers to re-open their stores, threatening to fine them if they do not do so, but the merchants are between two fires as the socialists promise to smash their windows if the shutters are taken down.

Keil, Oct. 30.—The Russian steamer Kurgan arrived at Holenau from Kronstadt with the British ambassador sir Charles Hardinge, and Charles R. Flint, of New York, on board. The Kurgan left Kronstadt on Thursday. St. Petersburg was then quiet. At Reval, where the steamer touched on Friday wild disturbances were going on. The city was burning in three places, all work and business had stopped and the troops were attempting to drive the people from the streets.

Berlin, Oct. 30.—The sailing of the German cruiser Lubeck and ten torpedo boats from Keil today for an unknown destination has given rise to a rumor that they were bound for St. Petersburg to bring the Russian empress and her children to be the guests of prince and princess Henry of Prussia. No official confirmation of the report is obtainable.

Groznyi, Russia, Oct. 30.—A reign of terror prevails in norther Caucasus. It is charged that the authorities are pursuing the policy of turning one class of the population against another and are abetting the brigands who last night mobbed and sacked a train k lling twelve persons, and wounding ten. When the train arrived the crowds dragged out and killed three brigands and then drove the Cossacks out of town.

Warsaw, Oct. 30.—The streets are darkened, deserted and are patrolled by infantry, nevertheless the news that the emperor had signed a constitution spread like wild fire and created a termendous sensation causing a feeling of joy mingled with the fear that the news might be premature.

Helsingfors, Oct. 30.—The Russian railroad strike will be extended to Finland tomorrow. A great meeting of Finnish workmen held today expressed sympathy with the Russian strikers and appointed a committee to elaborate a program for Finnish people.

DEATH OF REV. W. BLACKSTOCK

Toronto, Oct. 30—The death is announced in Atlantic City, N.J., of Rev. W. S. Blackstock, D.D., of Toronto, aged 81 years. He leaves two sons, T. C. Glackstock, the well known financier and G. F. Blackstock, K.C., and three daughters.

PLANS FOR YMIR MINE

Extensive Development is Determined by New Discoveries

Oliver Wethered, After Visiting Properties of London and B. C. Goldfields Co., Makes Optimistic Report

Extensive development has been definitely decided upon for the Ymir mine. The detailed plans will probably be determined very soon. The recent discoveries of ore of high grade, and the indications that the newly found bodies are extensive, have decided the company that a policy of operation and development on a larger scale than that followed for the last few years was called for.

S. S. Fowler has received from the London and B. C. Goldfields a renewal of his lease on the Whitewater mines on very favorable terms.

Oliver Wethered, of London, a director of the London and B. C. company, and also of the Ymir company, left for England Sunday morning after spending several weeks visiting the various interests of the company in Kootenay and conferring with the managers. Seen by a member of The Daily News staff just before his departure Mr. Wethered said:

"Yes, I am leaving for home this morning. I have visited every property in which we are interested. I am glad to say that I have found the most encouraging signs everywhere, so much so that I am incline dto take a rather optimistic view of the company's prospects.

"There is no longer any doubt about the future of the Ymir mine. There is a big shoot of good ore in the No. 5 level and manager Hand is certain now of finding it also in the No. 6. Development work will be carried on there now on a bigger scale than ever.

"Yes, Mr. Fowler has been given a renewal of his lease on the Whitewater mines. He has confidence in them which, it seems to me, is well grounded.

"There is nothing that I can tell you about the Enterprise. It is still under lease on terms satisfactory to the company.

The prospects of the Cascade power plant are excellent now. Yes, I have heard that there have been rumors here of negotiations for a transfer of that property. I can't confirm them.

"Altogether I shall take home very encouraging and, I think, satisfactory reports to my colleagues. The period of restricted activity on our properties has already passed, and to me at least, the prospects for the immediate future look very bright indeed."

DAVID HOBBS IS WANTED

GOVERNMENT OFFERS REWARD FOR ITS DISCOVERY

MOVE TO SECURE RELEASE OF CHINAMEN FROM PEN

(Special to The Daily News)

Ottawa, Oct. 30—The government has offered a reward of $250 to anyone revealing the hiding place of David Hobbs, who defrauded the Montreal customs.

Mr. Guerin, a barrister of Montreal, is here today seeing the premier in the interest of two Chinamen confined in New Westminster penitentiary for the murder of another Chinaman at Ashcroft two years ago. Three Chinamen were convicted and sent to the penitentiary. Sack Chun, one of the three, admitted to having committed the murder. Chinamen of British Columbia, Montreal and other points are trying to get the other two liberated. They always maintained their innocence of the crime.

Captain Collins, secretary of the Australian defence committee, spent today at the military depot and is well pleased with the registry system adopted by Canada.

Lord's Day Alliance local officers in British Columbia are complaining to the department of militia that range shooting is going on near Revelstoke on Sunday. They ask that it be stopped. The department says that it is a matter for the province to deal with.

The railway committee issued an order today in the complaint of the dominion millers and others of a shortage of cars to carry wheat from the Georgian bay to the sea coast. The order appoints a tariff officer of the board to thoroughly investigate the matter and report the facts to the board so that it can give its decision as speedily as possible. The board believes that there is a shortage of cars, but that there are other interests that must be guarded and therefore it does not want to act hastily. As soon as the traffic officer reports a decision will be given without delay.

FLATHEAD VALLEY ROAD

Work to be Started Next Spring—Premier McBride to be Here Saturday

The provincial government intends to begin the construction of a road into the Flathead country next spring. The point of departure is not yet finally determined. Hon. R. F. Green, chief commissioner of lands and works, arrived in the city from Kaslo yesterday. Seen at the Strathcona he said: "I am simply making an ordinary tour of the district. I leave for Rossland and Trail tomorrow morning. Then I shall spend a few days in East Kootenay, returning here Saturday to meet the premier We intend to make a trip through the Boundary.

"No; I am not here in connection with the Flathead valley particularly. We fully recognize the importance of that district, but funds could not be spared this year for a road, nor even for a trail.

"Yes; there is some difficulty about the choice of a starting point. There are four proposed. That will not cause any delay once the money is available for the purpose. An engineer will be sent to examine all feasible routes and report recommending the best.

"We are sorry that the work could not be accomplished this year, but it was precluded by the greater urgency of other requirements.

"No; there are no political developments that I know of, at least there were none when I left Victoria."

ANOTHER SPREAD RAIL

WRECK OF AN EXPRESS TRAIN NEAR KANSAS CITY

THIRTEEN PEOPLE KILLED AND 25 INJURED

Kansas City, Oct. 30—Thirteen persons were killed and 25 others injured by the wreck of one of the fastest regular trains on the Atchison & Santa Fe railway, the California Limited No. 1, which left Chicago at 10 o'clock last night for the far west.

The train was ditched one mile east of Sheffield, six miles from the business centre of Kansas City. The wreck occurred while the train was running at the rate of 50 miles an hour and was caused by spreading rails. The train was made up of vestibule cars and while the vestibules prevented telescoping, the speed of the train was so great that it caused several cars to pile up on top of others, tearing out the connections. The wreckage was piled high and under it scores of passengers and members of the crew were buried. A relief train, carrying many physicians, was sent out from Kansas City shortly before noon and preparations made to bring the dead and injured to Kansas City.

BEFORE PRIVY COUNCIL

ATTORNEY GENERAL WILSON WILL APPEAR FOR B. C.

DEADMAN'S ISLAND AND VANCOUVER STREETT ENDS APPEALS

Victoria, Oct. 30—Attorney general Wilson has gone to London, England to represent the province in two appeals which come up before the privy council in December. These are the Deadman's Island and Vancouver City street ends cases.

In the former the appeal is on the point of whether the dominion government has the right to grant a lease of the island. It is contended on one side that the island which is in Vancouver harbor, was part of a reserve and as such passed to the dominion. On the other hand the province contends that the jurisdiction over the island rests with British Columbia.

The case has been fought out in the courts of the province and is now being carried to the privy council. The other case has likewise been before the full court. The city of Vancouver sought to have certain street ends opened to the harbor, which has been closed by the C.P.R. line.

GOSSIP OF GRAND FORKS

Order for Slag Pots—Winter Work on the Silver Lump Group

(Special to The Daily News)

Grand Forks, Oct. 30—W. C. Thomas, superintendent of the Dominion Copper company, who has been here a couple of days, has given an order to the Boundary Iron works for several large slag pots of the design recently patented by the local foundry. Mr. Thomas says that nothing definite has been decided upon regarding the final location of the new smelter. He says that M. M. Johnson will be here in a few days and will inspect the various smelter sites preparatory to transmitting the final report for the approval of the company's directors in the east.

The owners of the Silver Lump group of three claims, known as the Silver Spot, Rampedia and Silver Lump in Thunder hill camp, have made arrangements to continue development work on these properties. Provisions to last several months have been packed into the mines. The work to be carried on this winter will consist of driving a 300 foot tunnel. Recent assays taken from assorted samples from the claims ran as high as $140 in gold and 14,000 ounces in silver.

Joseph Pringle has arrived from the Angus property in Franklin camp. He says that a fine body of ore has been uncovered on the claim.

J. D. Searles, industrial agent of the Great Northern, accompanied by H. B. Cannon, arrived here on Saturday from an inspection trip of the North Fork district. They visited all the leading properties in Franklin and Glouster camps. Mr. Searles was well pleased with the result of his trip.

Commencing today the C.P.R. passenger time table is changed, hereafter the west bound train arrives in Grand Forks at 2:12 p.m., while the east bound arrives at 3:55, a couple of hours earlier than before.

SCALDED TO DEATH.

Halifax, Oct. 30.—Fireman Patrick Purceldl and trimmer Patrick McGrath, of the government cable steamer Tyrian, are dead from a severe scalding received through the explosion of a steam tube of the boiler while the steamer was off cape North on Saturday morning. Purcell was 60 and McGrath 40 years old. Both men belonged to Halifax.

AYLESWORTH FOR NORTH YORK.

New Postmaster General Receives Liberal Nomination to Succeed Mulock

Newmarket, Ont., Oct. 30.—North York liberals have nominated Hon. A. B. Aylesworth, postmaster general to replace sir William Mulock in that riding.

STRIKERS READY TO QUIT

St. Petersburg, Oct. 30.—A meeting of the strike committee was held tonight after the promulgation of the emperor's manifesto was known. The question of calling off the strike was discussed, but a decision postponed until tomorrow.

DEATH OF A VETERAN

Winnipeg, Oct. 30—Patrick Lawlor, for many years governor of the Winnipeg jail, died tonight after a brief illness. He was 60 years of age and was a British army veteran.

COMIN U. S. ELECTIONS

New York, Oct. 30—Elections will be held on Tuesday, Nov. 7, in seven states and six of the largest cities.

HORSE THIEVES ACTIVE

Portage la Prairie, Oct. 30—Horse thieves are operating extensively in this vicinity.

FOR MIDWAY AND VERNON

Contract for Construction of Entire Line to be Awarded Shortly

New York Financier Well Satisfied With Traffic Potentialities of Route to be Traversed by New Line

(Special to The Daily News)

Phoenix, Oct. 30.—Alexander A. Arthur, of New York, after spending several days in the Boundary left here yesterday for the east, being more than pleased with his first visit to this section of British Columbia ,and intending to return at no distant date.

Mr. Arthur has taken in hand the financing of the new Midway & Vernon railway. The bonds for the construction of the road have been underwritten by English, French and German capitalists, to the extent of $4,500,000, or at the rate of $30,000 per mile, through Mr. Arthur who cam eout to see the country for himself, bringing eminent technical men with him to report on the potentialities of the territory through which the railway will be built. While the reports have not yet been made public, it is known that they are very favorable, both from a mineral and agricultural point of view, as the line will pass through the well mineralized west fork of Kettle river valley and emerge into and through a large part of the richly endowed Okanagan country.

In fact, Mr. Arthur stated that bids for the entire construction of the line were now in at his New York office, and the contract would be awarded on his return to that city. At present only ten miles of the line, out of Midway, are under construction, in order to get the actual work under way, this work being done by McLean Bros. of Vancouver. But the entire contract will be let this fall.

To build the line a construction company was organized entitled the Okanagan Construction Co., the officers of which are Frederick M. Allen, of New York, president; A. A. Allen, New York, vice president; and A. E. Best, New York, secretary treasurer.

The road is being built for and will be operated by the Midway & Vernon Co., with a capital of $1,000,000, and having the following officers: President John Cain, New York; vice president, Charles S. Stule, Pittsburg; general manager, A. E. Rope, New York; secretary-treasurer, D. H. McDowell, Victoria; other directors being L. S. Cook, Pittsburg, and Ralph Smailes and Robert Wood, Greenwood, B. C.

Asked as to what connection the Midway & Vernon will have with other railways, Mr. Arthur stated emphatically that it was entirely independent of any and all other lines in this section, and would be so operated. In fact, the capital for its construction comes entirely outside of Wall street, where most western railways secure capital. The road will, however, doubtless arrange for interchange of traffic with other railways with which it connects.

The work of construction is under the immediate supervision of chief engineer A. H. T. Leckie, a gentlemen who is highly competent in his line, having been engineer in charge of the great railway tunnel under the city of Baltimore, and having had a wide experience in railway work. Mr. Leckie now has sixteen men in the field surveying the route, and making the final location of the same, the preliminary surveys were made some time ago.

Among the original promoters of the Midway & Vernon are Ralph Smailes, Robert Wood, Christopher Wood, Duncan McIntosh, James Kerr, Robert Kerr all of Greenwood, and Charles Wilson of Victoria. The road has been subsidized by dominion and provincial governments for about $11,000 per mile.

BYLAWS ALL CARRIED

Fernie Will now be in a Position to Improve its Fire Protection

(Special to The Daily News)

Fernie, Oct. 30—The bylaws submitted for ratification by the council were all carried today. They are to repeal the sewerage bylaw, to raise a sum of money for expenditure in fire department and necessarry apparatus, to raise $40,000 for sewarage purposes, and to confirm the agreement between the council and the Crow's Nest Power & Light company.

The voting on the last bylaw was very keen, both pro and con, the final vote being 68 for to 53 against. Some claim that this bylaw lost on the ground that it takes a three-fifths majority, while others dispute this and claim that a simple majority vote confirms, as no question of money was involved.

STRIKE IS SETTLED

Department of Labor Makes Terms For Grand Trunk Machinists.

Stratford, Ont., Oct. 30.—The strike of the Grand Trunk railway machinists, inaugurated last spring, was settled on Saturday night through the efforts of the department of labor. The men out at other points in the system will go back to work as soon as the emissaries of the Stratford union has laid before them the arrangement reached here.

UNION LABEL

THE CITY AND THE W.K.P. & L. CO.

The new agreement the West Kootenay Power & Light company is willing to enter into with the city with a view to settling differences in regard to the city's power plant undertaking is certainly not calculated to arouse the enthusiasm o fthe ratepayers of Nelson. It is a somewhat one-sided arrangement, further marred by what can only be characterized as a deliberate attempt to bleed the city of $2500 in hard cash.

The first and quite natural disposition of most people would be to call negotiations, looking to a settlement outside of the courts, off altogether and to decide to fight the dispute out to the bitter end in the courts. This is the decision arrived at by a majority of the council yesterday, immediately after the terms of the agreement were made known, and it is a decision, which on general principles, most people will be inclined to sympathise with. But the city has a great deal at stake in this case and it will not do to decide too hastily that the city's interests will best be served by costly litigation. It may be that the matter will have to be fought out in the courts, but before finally deciding upon that course all the circumstances should be carefully considered.

The city is asked to hand out $2500 in cash to the West Kootenay Power & Light company, and to pay the expenses of an engineer who will see that the work at the power plant is carried on in such a way as not to endanger the interests of the West Kootenay Power & Light Co. These are the new features of the agreement.

The demand for $2500 cash is wholly objectionable and savors of the methods of the highway robber. Still it is a fixed amount. We know what the hold-up in that particular is going to cost.

The objection to the employment of Mr. William Anderson as arbitrator, in effect, for the West Kootenay Power & Light company, is more apparent than real. It is, of course, unpleasant to have some other fellow tell us how we shall conduct our business, but if that fellow prove to be a competent man and one in whose honesty of purpose full reliance may be placed the result might work out beneficially rather than the reverse for the city.

On the one hand then we have to pay out $2500 cash, submit to the supervision of construction work by an outsider and pay him for his services, a further expense variously estimated at from $200 to $500. In consideration of these concessions the company undertakes to drop certain legal proceedings now in contemplation and not to interfere in any way with the completion of the city's power plant, save upon the report of Mr. Anderson that the city is not fulfilling its part of the agreement. The injunction granted by Mr. Justice Irving is to stand, but to be varied in accordance with the terms of the agreement, Mr. Anderson again to be the judge as to whether or not the city exceeds those terms.

Now a chief objection to entering into any fresh agreement with the West Kootenay Power and Light company has been that there was no guarantee that the company would not speedily find some new excuse for interfering with the city's work. Here is where we think Mr. Anderson's appointment might become of real value to the city, that is if he prove to be an horonable and a competent man, and all who know him unite in saying that he is a man in every respect worthy of the confidence of the city.

Amended clauses 5 and 6 of the new agreement say: "And while the parties of the second part (the city) carry on their work in such a careful and reasonable manner, and abide by the directions and take the precautions directed by the said William Anderson, the party of the first part will not interfere with the parties of the second part in the completion of the said work." . . . "On the parties of the second part complying with the terms hereof all causes of action or alleged causes of action between the parties hereto, excepting any claim for power supplied by the party of the first part to the City of Nelson, are hereby settled and satisfied."

In the event therefore of this new agreement being endorsed the city would have to deal with Mr. Anderson and not with the West Kootenay Power & Light company. That is to say it would not be open to any member of the W. K. P. & L. Co. to step in and say the agreement is not being lived up to. Mr. Anderson will be the judge of that and if the city carries out its part of the agreement, faithfully abides by the suggestions of Mr. Anderson—suggestions specifically limited to certain work—there is no reason to anticipate any further interference in the work by the West Kootenay Power & Light company.

So that for the sum of $2500 and the expenses of Mr. Anderson the city can go ahead uninterruptedly with the construction of the power plant, avoid further litigation and at the earliest possible moment be in a position to discontinue the purchase of power from the West Kootenay Power & Light company.

On the other hand if recourse be had to the courts we may as well make up our minds once for all that the expenses to the city, win or lose, will be very considerably greater than the expense itemized above. This may or may not be a matter worth consideration. If we win the appeal from Mr. Justice Irving's injunction we have to assume that the company will carry the case to the supreme court of Canada, and thence, if need be, to the imperial privy council, entailing, in any event, steadily increasing expense and delays.

A further fact in this connection must be considered. It is perfectly obvious that the city will have to borrow a large sum of money, probably at least $30,000, next year to complete the plant. What will be the city's prospects of borrowing that money advantageously if it be involved in a costly lawsuit which may terminate contrary to our hopes?

We point out these various considerations in order that all the pros and cons in the case may be weighed before final action is decided upon. If with clear appreciation of all that we have to contend against it be finally decided by the council that the best solution of the present difficulties is by recourse to the courts we must all bow to the decision and by a united front strengthen the hands of the council in every way possible; not merely by hurrahing for a fight, but by cheerful acquiescence in such curtailment of lighting and power facilities as the exigencies of the situation may demand. If there has to be a fight, it must be the fight of the whole city and not of a faction.

Whilst we can understand the motives that prompted acting mayor Bird to tender his resignation, it does not appear to us to be at all essential that he should persist in declining to serve as acting mayor for the balance of the term. He has gone on record as to his view as to what would be best for the city. His view did not prevail with the majority of the council, but that does not mean that alderman Bird cannot carry out the will of the majority as efficiently as if he heartily concurred in it. If there are to be legal proceedings the necessary instructions to the city's solicitor can be given by alderman Bird as satisfactorily now as they could have been last Friday when it seemed inevitable that the case would have to go back to the courts. The council as at present constituted has worked together admirably. The city's affairs have been well conducted and for the balance of the term there is no good reason why there should be any change. An election at this juncture would serve no good purpose. It is most desirable that whatever course be adopted be heartily supported by the whole city and an election campaign, might, by the introduction of irrelevant issues, occasion a breach in the harmony now existing. If alderman Bird cannot see his way clear to continue as acting mayor let the council appoint another of its members, so that there may be no delays or complications.

The czar of Russia has at last made up his mind to grant the concessions demanded as a condition precedent to his accepting office as premier by count Witte. The reforms now to be put into effect in Russia mark a very decided forward step in the direction of constitutional government. It remains to be seen whether or not the czar's eleventh hour compliance with the wishes of his one really able and fearless adviser will avert the storm. At the present moment conditions in Russia do not indicate that there will be any quick suppression of disaffection now rampant in all parts of the empire.

COUNTY COURT CASES

The complicated suits growing out of disputes among the original owners of properties now held by the Great Northern Mines, Limited, furnished most of the business of the county court of West Kootenay yesterday.

At the morning session the following were naturalized as British subjects: Michele Provenano, Bernard Romanelli, Guiseppe Rossetti, Antonio Cannella, Chas. W. Anderson, Ernest Sterner, Alfred Low, Robert McL. Spencer.

Alice Langford obtained judgment against James Grant for $350, money loaned, and costs. J. O'Shea appeared for the plaintiff and A. M. Johnson for the defendant.

A suit for $151.50 of W. Rolden against B. Crilly was dismissed. Taylor & O'Shea acted for Holden; R. Hodge for Crilly.

In the case of E. M. Morgan against the Great Northern Mines for $800 claimed as wages, stands over to a special session on November 23, R. Hodge claiming that notice was not duly given.

A number of other cases went over by consent to the next sitting of the court. Several judgment summonses were on the list but were not pressed.

In the afternoon the case of J. W. Chism against the Great Northern Mines and B. Crilly occupied more than three hours. S. S. Taylor, K.C., appeared for the plaintiff, W. A Macdonald, K.C, for Crilly and R Hodge for the company. Chism claimed $1000. He alleged that he was authorized by Crilly to purchase three claims on Poplar creek—the Lucky Jack, Lucky Jack No. 3 and Little Phil—from Orange Hamilton, the locator, for $7000. He secured them for $6000, and claims the balance. After much argument the case was dismissed with costs.

STOCKS AND GRAIN

The opening on the stock market this morning showed some little gains over Saturday's close. The market was weak during the early part of the session but strengthened up at the close, which was around the high figures for the day. Metropolitan was the main feature of the day, being very active, opening at 119 3-4, broke to 117 1-2 and closed strong at 119; Canadian Pacific and Reading held firm when the rest of the list was selling off. C.P.R. opened at 170 1-2, a gain of $1 since Saturday, sold to 169 3-4 and closed strong at 171 3-8; Reading opened at 125, sold off to 124 5-8 and closed very strong at 125 3-4; Sugar opened at 140 1-2, closed 141; Amalgamated Copper opened at 82, sold off a quarter and closed at 82 1-2; U.S.S. common was very quiet, opening at 37 1-4 and closing at 37 3-8, preferred opened at 104 3-8, closed at the same figure; B.R.T. opened at 74 3-8, sold up to 75, broke to 74 and closed at 74 1-8; St Paul opened at 179 1-4, sold off a quarter, advanced to 180 1-8 on the close; Rock Island opened at 30, closed at 29 3-8; U.P. opened at 132, sold to 132 3-8, broke a point and closed at 132 3-8; Missouri Pacific opened at 102 1-2, closed 102 3-4; L. & N. opened at 150 1-2, broke to 149 7-8, closed at 150 5-8; Erie opened at 47 3-4, sold off to 47, and closed at 47 1-2; Southern Pacific opened at 69 1-4, closed 69 7-8; N.Y.C. opened at 150 5-8; Penn, opened at 144 5-8, closed 144 3-4; B. & O. opened at 111 5-8, closed 112 1-4.

Grain—Liverpool wheat opened unchanged from Saturday's close and closed 7-8 higher. Our market opened lower than Saturday's final quotations, at 89 3-4 for the December option, sold off to 89 1-2, advanced to 90 1-2, closed 90 3-8; May wheat opened at 91 1-4, closed 91 3-4.

Reported by Sharp & Irvine, Nelson, Oct. 30.

RUSSIAN PRISONERS IN JAPAN

Nagasaki, Oct. 30—General Danilloff left Nagasaki today for Tokio where he will be received by the Japanese government. The general and the commission appointed to supervise the transportation of the Russian prisoners, arrived here yesterday from Vladivostok. Owing to the difficulty in getting suitable transportation for the Russian prisoners of war from Yokohama, Kobe and Nagasaki, it will require three months time to ship them all to Vladivostok.

VESUVIUS IN ERUPTION

New York, Oct. 30—A Herald despatch from Naples says that information has come from the directors of the Mount Vesuvius observatory, that there has been constant explosions from the crater of the volcano since Saturday night. The explosions are increasing in violence and are now occurring at half minute intervals. They have again shattered the cone of the summit and caused a lateral fissure through which is pouring a constant stream of lava.

A plate of Quaker Brand canned strawberries would be much appreciated by your friends, now that fresh strawberries are out of season. You'll find them luscious fruit, wholesome and appetizing. All grocers have them in stock, becase they are the best.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

WHY DON'T YOU PUT IT IN THE DAILY NEWS

WANT ADS in The Daily News bring prompt returns, because The Daily News is read by nearly everybody in the Kootenay and Boundary Districts six days a week.

Let Your Newspaper Do things for You.

When this newspaper has given to you the last word about the events of the day—when it has acted as a sort of Central Office in "connecting" you with "all of Creation"—it has done much for you, of course.
But it can do more than that.
It can help you run your store, your office, your factory or your house.
It can carry your "little worries" for you—and never turn a hair.
You do not fully use your newspaper if you simply read it.
You don't really KNOW your newspaper until you have used its want advertising columns.
It can dispose of things for you—it can secure things for you.
It can find lost things for you, find any kind of help you need. find buyers for your house, your lot, your horse, you furniture your shop or store, leasehold or interest or equity.
In short, any day, every day, this newspaper stands ready and able to
DO THINGS FOR YOU!

How would you like to Have 100 new Customers?

Is your store in such shape that ONE HUNDRED NEW CUSTOMERS would "turn the tide" for you?
Are things with you only just "so-so?" Bills maturing too fast—sales a little too slow—too many people going past your doors—lack of "snap" and "go" and "hustle" around your counters?
Are Fixed Expenses coming to be a burden—while they should be merely an incident—in your business?
If you feel these symptoms—no matter whether you are a big merchant or a little one—YOU NEED A TONIC!
PUBLICITY, in just as large doses as yo ucan stand, repeated EVERY DAY, will change the whole situation for you.
It is idle to suppose that you cannot secure the ONE HUNDRED NEW CUSTOMERS—regular customers—who would "turn the tide" for you. YOU CAN GET THEM IN A WEEK—but not by wishing for them. It's not so easy as that. Nor by distributing hand-bills, or putting up posters, or buying space in programmes—it's not so easy as that. You must spend some money—more than you have ever spent—for ADEQUATE ADVERTISING SPACE IN YOUR DAILY NEWSPAPER.

POWER PLANT TROUBLES

COUNCIL REJECTS NEW AGREEMENT AND RESUMES APPEAL

CONTRACTORS ASK FOR RELEASE—ACTING MAYOR RESIGNS

The legal battle between Nelson and the West Kootenay Power & Light company will be resumed at once. The city council by a vote of four to two, rejected the agreement offered by president Doull, of the company on Saturday. The reasons assigned for its rejection are that the terms are unfair and humiliating, and that it is better to risk further litigation.

The minority consisting of aldermen Bird and Gillett, while admitting the justice of the terms proposed, advised their acceptance on the ground that the city's financial loss from delay and litigation will be greater than it is wise to incur. Ald. Gillett suggested a reference to the ratepayers.

The chief objectionable features of the ultimatum of the company are demands for $2500 for legal expenses incurred, and for the payment of an inspector, to be appointed by the company, who would have authority to veto any action ordered by the city engineer or contractors, which he might think involved any possibility of injury to the company.

The contractors, D. McBeath & Co., have asked for release from their contract without gain or loss to themselves. Ald. Bird has signified his intention of relinquishing the mayor's chair, as he disapproves of the council's resolve to plunge into litigation.

Such were the results of a special meeting of the council yesterday morning. As only one purpose had been referred to in the notice of meeting, the other matters will be dealt with at another special meeting this evening at 6.30.

The meeting was called at 10.30 o'clock. There were present, Ald. Bird, in the chair, and aldermen Malone, Macdonald, Annable, Gillett and Kirkpatrick.

City clerk Wasson read the notice calling the special meeting for the purpose of discussing and dealing with an agreement proposed by the West Kootenay Power & Light company.

Ald. Bird—Gentlemen, there is another agreement to consider. Ald Gillett has succeeded in reopening negotiations with the company and securing the offer of a new agreement, which is in the nature of an ultimatum. It remains for us to decide whether we shall accept it, or continue the legal proceedings that have been begun.

Ald. Bird then read the proposed agreement as follows:

Memorandum of agreement, made and entered into this ..... day of October, A. D., 1905.

Between the West Kootenay Power & Light Company, Limited, a corporation incorporated by a private Act of the legislature of the province of British Columbia, whose head office is at Rossland, in the said province, hereinafter called the "Party of the First Part";

AND

The Corporation of the City of Nelson, David McBeath and W. P. Tieney, of the City of Nelson, in the province aforesaid, contractors, hereinafter called the "Parties of the Second Part".

Whereas, in the supreme court of British Columbia, between the party of the first part as plaintiff, and the parties of the second part as defendants, a writ of summons was issued on the 10th day of May, 1905, for an injunction restraining the defendants from depositing rock in the Kootenay river opposite to or above the lands and works of the plaintiff, upon lots 1394, 1395, 4024 and 4429, in group one (1), Kootenay district of British Columbia, whereof the party of the first part is owner, in which said action an interim injunction was granted on the 23rd of May, A.D., 1905, and made perpetual by the judgment of that date, duly entered and regularly served upon the parties of the second part;

Whereas, the parties of the second part as owners of lot 5282 in group one (1), Kootenay district of British Columbia were and are constructing a hydro-electric power plant; and

Whereas, by alleged breaches of the said injunction an application was on the 11th day of September, 1905, instituted against the parties of the second part for an order that a writ or writs of attachment may be issued against the defendants, David McBeath and W. P. Tierney for their contempt, or in the alternative, that the said David McBeath and W. P. Tierney may be committed to the common jail of the county of Kootenay at Nelson, and for an order that a writ of sequestration be issued to sequester the goods, chattels and personal estate and the rents, issues and profits of the said real estate of the defendants, the corporation of the city of Nelson, for contempt in wilfully disobeying the said injunction; and

Whereas, the parties of the second part have appealed from the said judgment of the 8th day of August, 1905, aforesaid to the full court of the supreme court of British Columbia; and

Whereas, negotiations have been carried on between the respective parties for a settlement of the said appeal from the said judgment and the said motion for committal, attachment and sequestration against the defendants and it has been agreed that these presents should be executed by the respective parties for the purpose of embodying the terms of the said settlement;

Now this agreement witnesseth that in consideration of the premises and of the abandonment respectively by the said parties of the said appeal and motion, it is agreed as follows.

1. That the parties of the second part do hereby covenant and agree forthwith at their own expense and to the satisfaction of William Anderson of Cascade, as an independent engineer, who shall have full power from the defendants to direct, inspect and approve the constitution thereof from time to time; to erect along the entire river frontage of lot 5282 upon which the defendants have deposited any rock or debris from their said works as may be required by the said William Anderson, either a crib or a rubble masonry wall, as shall be necessary in the opinion of the said William Anderson, for the purpose, and of sufficient strength and stability to retain and hold any and all loose rock or debris taken or excavated from the said works for their said plant and now and hereafter to be deposited on the bank of the said Kootenay river between high and low water mark, so that the same may not be carried by the waters of the said river to or upon the premises of the party of the first part, or into the said river at the high water stage of the said river, such crib or rubble wall to be built in all respects according to the plans, specifications and directions of the said William Anderson and the same to be built and completed before the usual time for the high water in the year, 1906, and the said parties of the second part will at all times in the future maintain and keep in repair the said crib or rubble wall.

2. That the hearing of the motion for attachment, committal and sequestration in the said action be adjourned until such time for completing said work is passed, and will then only be brought on in the event of the said parties of the second part failing to commence, carry on and complete the said crib work or ruble wall (whichever of the same the said William Anderson may direct to be erected) to the satisfaction of the said William Anderson. The said appeal is hereby abondoned.

3. That the judgment of the honorable Mr. justice Irving, dated the 8th day of August, 1905, and entered in the Rossland registry office on the 2ind of September, 1905, which said judgment has been duly and regularly served upon the parties of the second part and each of them; and the injunction order of the 23rd day of May, A.D., 1905, is to be and remain in full force and effect, subject to the terms and provisions hereinafter mentioned.

4. The parties of the second part will forthwith pay to the party of the first part, the sum of $2500 in full of all costs of the said action, appeal and motion for attachment, committal and sequestration. Should, however, it become necessary to again bring on the said motions for attachment, committal and sequestration, the costs of such action incurred after this date shall be at the discretion of the court. The parties of the second part will also pay to the said William Anderson all of his fees, costs and expenses in connection with the said erection of the crib or rubble wall.

5. That the injunction aforesaid mentioned shall not be varied or altered, but the parties of the second part are to be at liberty to complete their rock work at the present power site, such work to be carried on in a careful and reasonable way, and so as to do the least possible injury to the party of the second part; and the parties of the second part will only use explosives in places where the material to be removed thereby is liable to be blown into the Kootenay river, under such directions and taking such precautions to prevent the said material being blown into the Kootenay river as may be directed by the said William Anderson, and while the parties of the second part carry on their work in such a careful and reasonable manner, and abide by the directions and take the precautions directed by the said William Anderson, the party of the first part will not interfere with the parties of the second part in the completion of the said work.

6. On the parties of the second part complying with terms hereof, all causes of action or alleged causes of action between the parties hereto, excepting any claim for power supplied by the party of the first party to the City of Nelson, are hereby settled and satisfied, and the parties of the second part will henceforth refrain from doing anything that may be deemed to injure or delay the party of the first part in the prosecution of their undertaking.

7. The terms of this agreement may be entered up as a rule of the supreme court of British Columbia in the said action.

Ald. Bird—Gentlemen, that is the agreement. Personally I think that it is a hold-up, but that it is for us to swallow the pill, and get our plant finished as soon as possible.

Ald. Gillett—I took upon myself to attempt further negotiations with Mr. Doull. I did so on my own motion, but for what I considered the interest of the city. Mr. Doull at first took the same ground that he had taken before in conferences with Ald. Bird and myself. I tried to persuade him that the council had no intention of violating the agreement, and no knowledge that it had been violated. I left him, after telling him, at his request, where I could be found. Later I was sent for and was offered this agreement, duly signed. I opposed many of the terms but without effect. I thought it my duty as an alder man to present it to you. Personally, I think its acceptance, bitter as it is, is our easiest way out of the difficulties in which we find ourselves.

Ald. Gillett asked for general discussion of the agreement clause by clause.

Ald. Kirkpatrick—I move that we reject it as a whole. It goes beyond what we unanimously resolved before to refuse. The terms are such as we all consider unfair. I think it would be foolish to accept.

Ald. Annable—I agree with the motion. Everyone was surprised at the judgment in the case. We hope it may be reversed. The first agreement was entered into in good faith. Now Mr. Doull repudiates it and wants more. I

Add a little Extract of Beef, Armour's is the best, to hot water — and you have a cup of beef tea that tones up the system better than any medicine. All druggists and grocers sell

SUNLIGHT SOAP

is better than other Soaps but is best when used in the Sunlight way. Follow directions.

SUNLIGHT WAY OF WASHING

FIRST.—Dip the article to be washed in a tub of **lukewarm water**, draw it out on a washboard and rub the soap **lightly** over it. Be particular not to miss soaping all over. THEN roll it in a tight roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rubbed on, and are rolled up.

Then go away for thirty minutes to one hour and let the "Sunlight" Soap do its work.

NEXT.—After soaking the full time rub the clothes lightly out on a wash board, **and the dirt will drop out;** turn the garment inside out to get at the seams, **but don't use any more soap;** don't scald or boil a single piece, and **don't** wash through two suds. If the water gets too dirty, pour a little out and add fresh. **If a streak is hard to wash, rub some more soap on it, and throw the piece back into the suds for a few minutes.**

LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Woolens and Flannels proceed as follows:—Shake the articles free from dust. Cut a tablet of **SUNLIGHT SOAP** into shavings, pour into a gallon of **boiling water** and whisk into a lather. When just lukewarm, work articles in the lather **without rubbing.** Squeeze out dirty water **without twisting** and rinse thoroughly in two relays of lukewarm water. Squeeze out water **without twisting** and hang in the open air.

The most delicate colors may be safely washed in the "Sunlight" way.

SAVE THIS "SUNLIGHT" COUPON FOR SUNLIGHT SOAP PREMIUMS

$5,000 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

Your Money Refunded by the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

LEVER BROTHERS LIMITED, TORONTO

NOTICE

The annual meeting of the Nelson Agricultural and Industrial Association will be held in the Board of Trade Rooms on Thursday, November 2nd at 2 p.m.

J. E. ANNABLE, Secretary.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $1 per acre for soft coal and $20 per anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered minerals in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $2 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,

Deputy of the Minister of the Interior.

LEMP'S BEER

Pither & Leiser, Victoria

If you're looking for Wines, or Liquors, or Beer,
You can get them much better by buying them here.
We show many Brands, and they are all of the best,
Read over this "ad." and then make the test.

Mumm's Champagne at all the large banquets today,
They serve this exclusive, at least so they say.
Canadian Red Wheat, you know that is good,
Bottled in bond and matured in wood.

It may be you're looking for Lemp's "Extra Pale,"
We are filling all orders, verbal or mail.
Many other good brands you will find in our stock.
And also the pure famous water, White Rock.

If Cigars you are smoking, while walking with Hannah,
She'll never object to our brands of Havana.
And if any time you are out of your wits
With a raging old headache, try Red Raven Splits.

We keep all of these and some others too,
Call in and see us, we can surely please you.
If you are in doubt we'll be your adviser,
The reliable firm of Pither & Leiser.

am opposed to any further concessions by the city.

Ald. Malone—I prefer to take our chance with the courts.

Ald. Macdonald—The only course to pursue, I think.

Ald. Bird—There are three points in the agreement to which I object: the demand for $2500 I have already termed a hold-up. But if we refuse, we must pay interest on debentures and pay the company for light during a period of litigation that will probably last at least a year. I object to the appointment of Mr. Anderson without reference to us, though I believe that personally he is unexceptionable. I did object to clause 6, but the city solicitor thinks it harmless. We have a bitter pill to swallow, but as a business proposition, and in the city's interest, I believe it is wiser to accept than to continue protracted and uncertain litigation.

Ald. Gillett—That is the ground I take

On motion of Aldermen Kirkpatrick and Macdonald, the agreement was rejected, aldermen Bird and Gillett dissenting.

Ald. Bird—I think I should now be relieved of the office of acting mayor. It should be filled by some one who approves this course. I foresee endless difficulties.

Ald. Bird suggested that Ald. Malone fill the position. Ald. Malone and others favored an election by the citizens, and the matter was left to another special meeting.

Ald. Bird then read the following letter from D. McBeath & Co.:

Gentlemen: It is reported that the agreement of settlement arranged with the West Kootenay Power and Light Company has been cancelled by them. The reason given, is that we are still blasting rock into the river. This we claim is absolutely false. However, we beg to say that we are willing to surrender the work and allow the city to finish it on the following terms:

1. Let the city take over all our tools, appliances, stores, supplies, etc., at cost, on the works, on November 1st, and reiburse us for all expenditures made on the work, deducting payments made on account.

2. Take over our contract for cement, powder, etc.

3. Assume our contract with the Allis-Chalmers company, to deliver their machinery at the works and substation.

4. Pay D. McBeath $100 per month net for his services since the work started. In other wards, the city step into our shoes and receive the benefit of what profit has been made, and release us from further obligation in the matter.

Of course we shall expect to be indemnified with respect to the cheque for $5000 deposited with the city officials when our tender was made. We would be glad of an immediate reply."

Messrs, Tierney and McBeath were both present.

W. P. Tierney—Our position has not been a happy one. Our good faith has been questioned by the company. We ask no profit, and no return for our time expended. There are good men in Nelson willing to take it within a week. All the profit of the contract is still to come.

D. McBeath—If my $100 a month is any obstacle, I'll throw it off. I've "struck a snag" this summer, and I'm tired of it.

No action was taken.

After arranging for a special meeting this evening at 6.30 o'clock, to discuss power plant and electric light matters, and to consider the question of the vacancy in the mayor's chair, the council adjourned.

NEW SCHEDULE APPROVED

FIRST REGULAR TRIP BY SLOCAN ROCTE ACCOMPLISHED

ADVANTAGES OF CHANGE TO NELSON WARMLY APPRECIATED

The first regular trip over the Slocan route as the first link of the chain of connection between southern Kootenay and the coast was made Sunday morning. Schedule time was made at every point between Nelson and Nakusp, where the outward and inward passengers meet. By the officials and all the passengers the change was voted an unqualified success. The day was perfect and permitted an unclouded view of the beauties of Slocan lake—certainly a welcome change from the rather monotonous scenery of the lower Arrow lake.

At 7 o'clock Sunday morning the C.P.R. station presented a rather animated scene as passengers for the coast, for east Kootenay, and for intermediate points in both directions hastened to their respective coaches. The train for Procter was well filled with passengers who had been waiting from the night before. The number of westbound passengers was not great as the last steamer on the old route had left Robson the night before.

The party included divisional superintendent J. S. Lawrence, district passenger agent J. S. Carter, train master C. H. Crandon, Mr Tebo of the train despatcher's department, a representative of The Daily News and a large party of sportsmen, armed with rifles and shot guns, bound for the Slocan river valley

To the latter class the new time table is a boon, as it enables them to reach their hunting grounds at an hour when the hills are at their best. Among the party on board were several whose affections are divided between gun and rod. Although none cared to brave the wrath of fisheries inspector Macleod, even with the provincial statute to lend color of right, the reflection was made by more than one that sportsmen could ask no better arrangement

Slocan Junction was reached at 7:35 and the run up the Slocan valley began. The hunters left the train at Gutelius and began their day's work. The other passengers went on past lumber camps, sawmills and areas of potential fruit and farm land, until Slocan City was reached shortly before 9 o'clock.

There a transfer was made to the new steamer Slocan, which has been declared the best stern paddle steamer in the province. The trip up the lake is one of the loveliest in Canada. Snow capped mountains give back the sunlight in every direction and the whole landscape looks clean and fresh and bright.

At the northern end of the lake calls were made at Silverton, New Denver and Rosebery. On every wharf stood piles of sacked ore, waiting for transportation. The renewed activity of M. S. Davys' mines at Silverton and the Monitor-Ajax group near New Denver, have already restored some of the old time bustle to the Slocan mining camps.

Across the lake from New Denver the glacier was shining where it caught the sunlight, and almost justified the poet-editor's epithet of "Lucerne of America."

To the surprise and amusement of many of the passengers captain McLennan pointed out the new Chinese laundries in both Silverton and New Denver.

Rosebery suffers from a lack of compactness. There are many promising industries to support it, but few within any conceivable city limits. The new zinc reduction works now completed and in operation, present a fine appearance. Although near the lake shore, they front on shallow water and have to be served from the Nakusp & Slocan railway line, which there skirts the lake shore.

At Rosebery the party again entrained. The next stop was at Summit lake, a beautiful sheet of water. A question as to why it had not been made a summer resort was answered by J. S. Carter with: "There are not many places in Kootenay that are not ideal summer resorts."

From the summit to the coast, the line, which is being steadily and rapidly improved by W. P. Tierney and company, passes through almost level country, which has been described by fruit inspector T. Cunningham as the best agricultural land in the interior of the province.

At Nakusp there was a wait of 50 minutes to allow the passengers to have lunch. Meanwhile the steamer Rossland arrived from Arrowhead, bringing many passengers from the coast, and from Camborne and Comaplix. Captain J. C. Gore, superintendent of lake and river navigation joined the party on the return trip.

The sail down the lake in the afternoon was most enjoyable. At every port of call wharves were crowded with people expressing pleasure at having something to relieve the oppressive calm of Sunday afternoons, and at being at last on the main line.

At Gutelius the hunters, including C. D. Blackwood, H. F. Macleod, A. McQuarrie, R. Andrew and others, filled the baggage car with game. The slaughter of grouse and ducks had been prodigious Mr. McQuarrie was the most fortunate of all, a mountain goat having fallen to his rifle.

Nelson was reached at schedule time, 7:45 and those who had not been hungry enough for dinner at 5 o'clock, were in time for dinner at the city hotels.

In this city and in every town on Slocan lake there will be no desire for a return to the old, and longer route.

HOTELS

UNION HOTEL, ARROWHEAD—W. J Lightburne, Manager. First class and up to date in every respect. Finest brands of Wines, Liquors and Cigars.

DOMINION HOTEL, PHOENIX, B. C.—Mrs. P. L. McKelvey,, proprietress. The newest and most modern first class hotel in the city; lately furnished and with all conveniences. The bar, under the management of Mr. J. Wright, is supplied with the finest brands of wines, liquors and cigars.

NELSON COKE & GAS COMPANY

DEPUTY MINISTER'S VIEW

DR. BELL, DIRECTOR OF GEOLOGICAL SURVEYS, IN NELSON

FIRST FRIEND OF PROVINCE IN EASTERN CANADA

Among the guests at the Strathcona at present is a man to whom British Columbia owes a great and so far unacknowledged debt, Dr. Robert Bell, I.S.O., head of the geological survey department of the dominion government. Dr. Bell has spent the last five weeks in British Columbia and Yukon, the last week in Kootenay. Seen yesterday morning as to the purpose of his visit he said:

"My purpose is a part of the general plan I have followed since I became director and deputy minister, and, in fact, before that. To explain will require something of a retrospect. I have been in the department for 40 years.

"As early as 1871 I saw the importance of exploration in British Columbia, then just entering confederation. When the delegates from this province were at Ottawa negotiating terms—Dr. J. S. Helmcken of Victoria, is the only survivor now—I urged them to stipulate for special consideration from the geological survey department. They took my advice and the condition was granted.

"At that time and for long afterwards, the department under the directorship of sir Hilliam Logan and later of Dr. A. C. Selwyn, devoted its efforts to acquiring knowledge of the dominion as a whole. The information gathered was very useful but had no direct bearing on immediate economic needs.

"We went far afield. I have explored Baffin land myself. Labrador, both sides of Hudson's Bay and the old Northwest to far within the Arctic circle, have been explored and mapped. I served to [illegible] in the expedition of the Neptune, the Diana and the Alert.

"In early days we were assisted largely by Hudson's Bay company officers, and frequently by Indians. Parties were absent occasionally for more than a year at a time.

"Well, coming back to the present. I decided that the work of the [illegible] should be so directed that its results might be of greater and more immediate economic benefit to the country. And in no part of Canada, in my opinion, is there more important work to be done by the department than in British Columbia.

Our parties have been sent out here frequently. Dr. Dawson's name is well known. But the work done was generally of more scientific than economic value.

"This is my first official trip to the province. I was out here in 1899, but it was rather for a holiday trip than for investigation.

"No; my trip has nothing to do with the zinc commission, although my department provides the funds for it. Two members of the staff of the department, Dr. Barlow and Mr. Keele, are assisting the commission.

"The fact that $19,000 was set aside for the zinc commission's expenses will not diminish the share of the remaining $60,000 that will be devoted to work in British Columbia.

"Yes; a lot of work has been done this year. Mr. Brock and a party accomplished a great deal of valuable underground work in Rossland, chiefly in the Centre Star mine. Other parties are at work all over.

"The four old provinces have been fairly well covered, but some work is still being done in Nova Scotia, parts of northern Quebec and northern and western Ontario will receive more attention still.

"Yes; there is work for the zinc commission outside of Kootenay. It is known that there are deposits in Vancouver island, near cape Comoral, on Texada island in the gulf and on the northern mainland in the valleys of Lynn and Seymour creeks. A party is down there now. The Lynn creek country is very difficult, mountainous and densely wooded. I don't know whether much will be accomplished there or not.

"In the far north some important discoveries have lately been made, both geographical and geological. It was thought that Peel river, which drains a large part of Mackenzie and Yukon districts, was an affluent of the Mackenzie, flowing into the great delta of the latter. It is now know that the Peel river flows directly into the Arctic ocean. The only connection between the two rivers is a lost channel by which the overflow of the Peel river finds its way into the Mackenzie.

"In the upper valley of the Mackenzie, near its confluence with the Slave, there are extensive deposits of lignite. Hardly enough has yet been done as yet to determine just how extensive or valuable it is.

"No; our attention is not confined to minerals by any means. We study the nature of formations of sand and clay, some of which have high economic value. Bricks are being made from sand now, and discoveries of the right kind of sand are important. We are always on the lookout for clay suitable for the manufacture of porcelain. Clay for bricks and pottery is worth attention also.

"Yes; I have heard of quests for diamonds in the Lardeau, and in many other parts of Canada. I am afraid they will be fruitless. I am certain that nothing authentic points to any likelihood of their being found. Reports of discoveries of diamonds have been greatly exaggerated, and have been told again and again with variations.

"The fact is that four diamonds have been found in western Ontario, and about 20 in the United States. Professor Hobbes of Wisconsin university, has written a very full account of the finding of each one. His article ends with a ludicrous attempt to prove that all are from a common source in northern Labrador, 3000 miles from where the nearest was found. All I can say on the subect is that so far nothing definite is known on the subject. It is a pity that so much prominence has ben given to reports of the finding of diamonds. It has led and will lead to the wasting of a lot of valuable time and energy in a search for them that is almost certain to be unrewarded.

"The geological survey staff has a very large staff. It needs it. But we receive a lot of outside assistance also, which is often very valuable. Men who leave our service for that of private companies, very often, with the consent of their employers, of course, furnish us with full and accurate accounts of districts to which the department has not had time to devote attention. I am constantly in receipt of such communications.

"But, as I have said, the part of Canada to which we give most time and attention now is British Columbia. My interest in the province has always been great, partly perhaps, because I was one of the first in Eastern Canada to direct attention to its mineral resources."

Dr. Bell is accompanied by his son, Master Donald Bell. He visited the Reliance mine yesterday and viewed the work of the Hendryx agitator. He will spend several days in and around Nelson. He expresses gratification at the hospitable reception accorded him everywhere in British Columbia.

EVA'S PROSPECTS BRIGHT

Manager A. H. Gracey Reports Conditions Very Satisfactory

Prospects at the Eva mine are brighter now than they have ever been. The company is making money each month and constantly improving its plant and equipment. There are now 40 men employed at the mine and mill. Development work is well forward and good results are anticipated from the output.

A. H. Gracey, manager, arrived in Nelson from Camborne Sunday evening. Mr. Gracey has alweys hitherto been very sparing of statements for publication. To a suggestion to that effect, followed by a question as to the progress of affairs at the Eva, he said: "It is five years and a few days since I took charge of the Eva. I have never felt like saying anything about it before. It is only now getting into shape satisfactory to me.

"Yes; we are gaining a little every month now. That is satisfactory. But we have a lot of expenditure ahead at both the mine and the mill. We have delayed making improvements until they could be justified by the result of developments. There are about 40 men altogether at the mine and mill.

"The mine now looks well enough, and there is justification now for any necessary expenditure for improvement of the plant. As far as I know improvements will be made, probably very gradually. The company's prospects look bright. I have every confidence in the property.

"Yes; the last cleanup was very satisfactory."

The cleanup at the Eva mill for the month of September, it is said, netted the company $9000.

MINING RECORDS

Affidavits of assessment work are still being filed at the local mining recorder's office. Certificates have been issued to H. Mason on the Cherry and Kathleen; to H. Jackson, agent for M. Tait, on the Meadoy Lark; and to J. J. Budd on the Big Western.

WHY DOCTORS FAIL
AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of Canada to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequaled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of Canada than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

ATTACK ON AMERICANS

CHINESE VILLAGERS ASSAULT ADMIRAL TRAIN.

OUTCOME OF ADMIRAL'S POOR MARKSMANSHIP.

London, Oct. 30.—A despatch to the Evening Standard from Shanghai says that rear admiral Train, commander in chief of the American Asiatic squadron, and his son lieutenant Train, have been the victims of a savage attack by Chinese outside of Nanking. The American officers were pheasant hunting when the admiral accidently shot a Chinese woman, slightly injuring her. Hundreds of Chinese surrounded the officers, took away their guns, knocked the admiral down in the mud and held lieutenant Train as a hostage.

Forty American marines landed as a rescue party and were attacked by a mob of Chinese, who tried to pitchfork the officers. The marines were obliged to fire twice. The Chinese officials refused to restore the officers' guns and supported the villagers. Nanking has been a live centre in the movement for boycotting American goods and is the centre of activity on the part of Japanese students.

Washington, Oct. 30.—The state department has cabled to the United States consul at Nanking, China, asking particulars about the case of admiral Train, who, according to a cablegram from Shanghai got into serious trouble in Nanking after accidentally wounding a Chinese woman. The incident is regarded as serious. However, neither the Chinese minister here nor the state department has official information. Naval officers state that such accidents as this are not infrequent in China.

It is the custom of the naval officers of all nations, but particularly British and Americans, on the China station to go shooting whenever the opportunity offers among the Chinese rice fields, which at certain seasons abound with ducks and smaller birds feeding on the rice. Shooting in the tall rice is often followed by accidents, but the naval officers say these are easily adjusted as a rule by the payment of a small sum of money to the victim or his friends. One officer recalled his shooting a Chinese babe on his mother's back which was settled amicably by the payment of fifty Mexican dollars with the result that many Chinamen were tempted to put themselves in the way of shot guns.

MISSING FROM EXPRESS

Large Sum of Money Disappeared While in Transit

Helena, Oct. 30—A sum of money, said to be $25,000, en route by express from Hamilton, Montana, to New York, is missing. The Northern Pacific Express company, through several detectives, is trying to discover what has become of it. The money was shipped by Charles E. Kelly to N. W. Harris and company, for investment. Mr. Kelly has received a letter that the contents of the package upon receipt by the New York house consisted of newspaper clippings. The seals were intact, however.

St. Paul, Oct. 30—At the office of the Northern Pacific Express company here it was admitted that the story from Helena was true, except that the amount was $14,000 instead of $25,000. No details were given out.

RECEPTION TO TOGO

Another Russian Gunboat is Raised at Port Arthur

Tokio, Oct. 30—The reception of admiral Togo today by the citizens of the ward in which he lives while in Tokio, was a great success. Thousand of school boys and girls marched in front of the admiral singing a song especially composed to celebrate his distinguished services. The admiral and his wife were deeply moved.

The navy department announced today that the Russian gunboat Vsadink was raised at Port Arthur on Oct. 21.

FAILURE OF JAP RICE CROP

Tokio, Oct. 30—The latest official estimate of the shortage of the rice crop this year places it at nearly 12 per cent less than the average, and 25 per cent lower than the crop of last year. It is believed the government will abrogate the import duty on rice. The various political parties have various schemes for diminishing this duty.

SWISS ELECTIONS

Berne, Oct. 30—The results of the national election yesterday in which the middle classes of the liberals united against the socialists, show the success of the former. Only one socialist was elected.

AN APPETITE TEMPTER

LOST

LOST—A bunch of keys, tag, with name G. A. Hunter. Finder please return to Dail News office.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

PRICE OF METALS

New York, Oct. 30—Bar silver, 62 3-4; electrolytic copper, 16 3-8 to 16 5-8; casting copper, 16; lead, $4.85; spelter, quiet.
London, Oct. 30—Silver, 28 15-16; lead, £15.

NELSON'S NEWS OF THE DAY

W. A. Macdonald and S. S. Taylor returned from Ottawa Sunday evening.

E. C. Wragge and Mrs. Wragge arrived from Toronto yesterday and are at the Strathcona.

G. O. Buchanan and Mrs. Buchanan arrived from Kaslo last evening and are at the Strathcona.

At the regular meeting of the Knights of Pythias this evening there will be a second degree initiation.

J. T. Black, provincial constable of New Denver, arrived in Nelson Sunday evening and is staying at the Hume.

Lead reached £15 on the London market yesterday, the highest quotation in many years. Silver and copper are firm but inactive.

Constable James Wightman received a telegram yesterday conveying the sad intelligence of the death of his mother in Lancaster, Ont.

Mrs. G. Hageman's Honiton lace table cover which took first prize at the Nelson fair, will be raffled at the Queen's hotel Friday evening, Nov. 10.

Tomorrow evening the monthly moon feast of the order of Humility and Perfection will be held. All tribesmen are commanded to prepare for the solemn occasion.

Dr. and Mrs. Hendryx came down from Sandon Sunday evening and left for Denver yesterday morning. Dr. Hendryx states that he is content with the work of his latest invention.

E. Mallandaine and Mrs. Mallandaine arrived from Revelstoke last night and will leave for Creston this morning. Mrs. Mallandaine has been visiting friends in Nanaimo.

M. F. Madden, J .B. Heeney and P. J. Dermody, respectively president, treasurer and superintendent of the Providence mine, arrived from Greenwood last evening. Mr. Heeney leaves this morning for his home in Chicago.

J. S. Lawrence, divisional superintendent of the C.P.R., stated yesterday that the train service on the Lardeau branch will be continued throughout the winter, and the steamer service on Trout Lake will be maintained as long as possible.

The senior girl's class of St. Paul's Presbyterian church Sunday school, are planing for Friday evening to hold a taffy-pull and sale of candies in the church parlor. Their object is to help the building fund of the Sunday school, and they look for the support of many friends.

S. S. Taylor received word yesterday from Hon. C. Fitzpatrick, minister of justice that Henry Sam had been released from the provincial penitentiary. Sam was sentenced to five years by the late judge Leamy. An appeal to Mr. justice Duff against the jurisdiction, resulted only in causing a technical error to be rectified. While in Ottawa attending the supreme court, Mr. Taylor took the matter up with the department of justice, asking for Sam's release on a ticket of leave. Yesterday's letter was the result. Sam's offence consisted of causing a dynamite explosion in a boarding house in Sandon.

TWO WINNIPEG SUICIDES

Winnipeg, Oct. 30—Despondency caused two suicides on Saturday morning. The first was Charles Ferguson, who wound up a drunk by drinking carbolic acid. Later when Mrs. Casemore read the details in the paper she ended her career in the same manner.

MICHEL HAPPENINGS

Michel, Oct. 30—Mrs. Frank Henderson has arrived from Boston accompanied by her two children, to join her husband, Frank Henderson of this town. It is their intention to reside here.

A. R. Wilson, superintendent of the mines here and Mrs. Wilson, who have been spending a few days in Nelson, returned to Michel on Sunday.

Two motors which have been installed in No. 8 mine are a great success and largely increase the output.

Mrs. Matthew Mathers, accompanied by a son, a daughter, has arrived in Michel from her home in England. She comes to join her husband and five sons, who have taken up land near Red Deer for ranching purposes. They will remain in Michel for the winter.

Robert Lee, son of J. Lee of this town, was removed to the hospital on Sunday to be operated upon for appendicitis.

R. Danford McAllister of the Trites-Wood company, returned with his bride on Sunday evening from Nelson where they have been spending their honeymoon.

MURDERED BY CHINAMAN

Sintaluta, Sask., Oct. 30—Stanley Ross, a 12 year old boy was murdered here last night by a Chinese laundry man. The murderer afterwards tried to commit suicide by cutting his throat but he will recover.
