LITIGATION AT AN END

City and W. K. P. & L. Co. Adjust Differences Out of Court

Compromise Arrived at and Unanimously Approved by Council That Will Permit Work on Power Plant to Proceed

The long standing dispute between the city of Nelson and the West Kootenay Power & Light company is on the eve of settlement. The terms of agreement, which have found favor with both parties, are more favorable to the city than the present status of legal actions encouraged the citizens to hope for. The company consents to a variation of the order of the supreme court that will allow the immediate prosecution of work on the city's power plant, with only reasonable safeguards of the company's rights and interests.

The costs in actions already taken, which so far are all against the city, are to be shared by the company, that is, each party agrees to pay its own costs.

As was to be expected, the terms of the settlement were approved by unanimous vote of the council .

The credit of initiating the negotiations that resulted in the agreement belongs entirely to Ald. W. G. Gillett. While in Rossland on business of his own he interviewed manager L. A. Campbell, of the West Kootenay Power & Light Co., and expostulated with him against the continuance of a policy whose only object seemed to be to retard the progress and defeat the legitimate purposes of the city of Nelson. Mr. Campbell finally admitted that the provocation to such a course no longer existed, and agreed to meet the city's representatives in Nelson, and endeavor to reach an agreement that might be mutually satisfactory. There was no intervention from the directorate of the West Kootenay Power & Light company.

That body has consistently supported and endorsed Mr. Campbell in the prosecution of the policy he thought best for the company's interests.

Mr. Campbell arrived in Nelson at noon last Friday. In the afternoon a conference was held in R. S. Lennie's office, L. A. Campbell and R. S. Lennie representing the company, and acting mayor Bird and city solicitor Wilson appearing for the city. The conference was continued through Friday evening and Saturday morning.

Saturday afternoon a private and informal meeting of the city council was held, those present being aldermen Bird, Gillett, Malone, Macdonald and Kirkpatrick. The opinions expressed then led to a modification of the position taken by its representatives in the conferences.

Finally, at a meeting Monday morning a basis of agreement was reached, and it was resolved to hold a special meeting of the council last evening to ratify or reject it.

The council discussed the proposed terms carefully, and unanimously authorized their acceptance, instructing the city solicitor to prepare a formal agreement for execution .

The meeting came to order promptly at 8.30; there were present Ald. Bird in the chair, and aldermen Gillett, Kirkpatrick, Annable and Malone.

City clerk Wasson read the notice for the special meeting to consider a proposed settlement of disputes between the West Kootenay Power & Light company and the city.

Ald. Bird explained that the initiative in the negotiations had been taken by Ald. Gillett, who had arranged for the conference and induced L. A. Campbell to consider proposals for a settlement. Ald. Bird briefly detailed the course of the negotiations with the company's representatives continued through Friday, Saturday and Monday, and concluded: "The result is now before you. It is for the council to accept the terms of settlement, or reject them and continue the legal proceedings."

The city solicitor explained that the city's costs to date would be about $4500.

In reply to Ald. Annable, Ald. Bird stated that the proposal for settlement had been made by the city, not by the company.

Ald. Gillett— It required some persuasion to convince Mr. Campbell and Mr. MacNeill that a settlement was possible.

Ald. Bird—The matter is so momentous that I hope the council will be unanimous for or against the settlement.

The draft agreement, as prepared by P. E. Wilson and R .S. Lennie, was then read. Under the style of the action on appeal to the full court of the province, it is entitled:

Memo of settlement of the appeal and pending motion to commit and for sequestration:

1. The appeal and the motion to commit and for sequestration herein are to be abandoned, each party paying their own costs.

2. The City of Nelson agrees at their own expense to build a crib to the height of the lower track, and then a dry wall around the rock wasted from their works between high and low water marks, of sufficient strength to hold the rock from getting into the river at high water, to the satisfaction of an independent engineer to be appointed to inspect and approve the construction thereof from time to time.

3. The injunction granted on the trial shall remain in full force and effect, but shall be so acted upon that the city's plant and all rock work thereon may be completed, all work to be done in a reasonably careful way, and each party shall pay their own costs of the action.

4. All causes of action or alleged causes of action at present existing, if any, by the defendants or plaintiffs in the said action, one against the other, are hereby settled and satisfied, and hereafter the order in council, passed on the 17th of August, 1905, approving of the plaintiff's undertaking, are to apply and govern the rights of the parties in respect to the construction and operation of their said plants.

5. An agreement to be drawn up between the parties, containing the above terms with such necessary details and variations as shall carry out the foregoing provisions, to be signed by duly authorized representatives of the city of Nelson and the contractors and by the manager of the plaintiff company.

Ald. Bird explained that at the conferences the city's representatives had opposed the retention of ,the injunction. He added:

"But, if the city is an honorable body, the injunction is of no more binding effect than the undertaking we were prepared to give. The injunction, in fact, is all that Mr. Campbell has to show his directors for his victory in the courts, and the concessions he is making now."

Ald. Bird further explained that the city engineer, whose presence at the power plant is necessary for some time, had been at the meeting Saturday afternoon, and had given his opinion that the injunction as modified by the agreement, would not impede or retard the work.

In reply to Ald. Kirkpatrick's suggestion that the city was really gaining nothing, Ald. Bird said:

"Yes, we are gaining. We are not in the same position as before. We can now go on with the work without risk of having the injunction enforced against us literally, which must have brought the work to a standstill."

The city solicitor explained that the draft agreement presented would be drawn up in greater detail for execution. He had no doubt that the city's interests could be adequately protected.

It was then moved by Ald. Annable, seconded by Ald. Malone, and unanimously approved:

"That the acting mayor and the city solicitor be authorized to accept the terms of the proposed settlement with the West Kootenay Power & Light company as shown in the proposal submited, and that the city solicitor and a committee consisting of aldermen Bird, Malone and Gillett, be instructed to prepare the necessary agreement thereunder and to submit it to the council at its meeting on Monday, October 9th for approval of the terms."

Ald. Bird—Gentlemen, I think we have done a very wise thing.

On motion of Ald. Kirkpatrick the council adjourned.

JUDGES DISOBEY THE LAW

FAIL TO RESIGN FROM DIRECTORATE OF COMPANIES

STEPS TO BE TAKEN TO COMPEL THEM TO DO SO.

(Special to The Daily News)

Ottawa, Oct. 3.—Last session of parliament legislation was passed providing that judges should not be either managers or directors of companies or corporations. No penalty was attached for non-fulfillment of the terms of the act. It was left to the honor of judges who were managers or directors of concerns to retire. Some of them, however, have not done so and the likelihood is that the Act will be amended next session compelling them to do so.

Trouble in this connection is threatened immediately by the intimation that the auditor-general will refuse to pass cheques issued for the salaries of judges who have not complied with the law.

It may be that it is illegal for the auditor-general to take a step which places judges at the mercy of the a government official, but it is said he will do it nevertheless and it will be for the judges to prove that the action is ultra vires.

"If we can't get at those judges who refuse to obey the law in one way we can in another," said a high official. "As a matter of fact, a body of men which is charged with the administration of the law should have been quick to give the broadest kind of co-operation to a law affecting the judiciary.

"What is more, they should never have made it necessary for parliament to pass such a law. The judiciary should be free and impartial.

"Perhaps you will be startled to learn that to our certain knowledge judges in a certain province which I shall not mention have deliberately established precedents in ordinary cases with the object of influencing subsequent decisions in cases affecting the interests of their companies."

KLONDIKE GOLD DUST.

Shipment Received in Vancouver Yesterday—Mining Season About Closed

(Special to The Daily News)

Vancouver, Oct. 3.—Upwards of $50,000 in gold dust arrived here today from the Klondike placers by the steamer Princess Beatrice. Much of the gold was turned into the dominion government assay office during the day. Two sacks, containing about $15,000 each, were locked up in the Grand hotel safe. Miners who arrived from the Klondike creeks state that the season had about closed when they left Dawson. The weather was growing cold. Several degrees of frost had been registered with the result that washing operations could only be conducted under difficulties.

CONCESSIONS TO CHINA

CONFERENCE IN WASHINGTON OVER EXCLUSION ACT

SOME MODIFICATIONS CERTAINLY WILL BE MADE

Washington, Oct. 3—The most important subjects discussed at the cabinet meeting today were the Chinese boycott against American goods and the consideration of complaints made by the Chinese against the methods of execution of the existing Chinese exclusion laws. Th important fact developed was that the president's effort last summer to allay the indignation of the Chinese by a circular of instructions to the American minister to China and consular officers there, had in a measure failed in its purpose and required considerable amendment to secure the object sought.

Being freshly back from the Orient, secretary of war Taft took a prominent part in the discussion of the matter when it was brought up by secretary Root. It developed that the requirement that American consuls identify the Chinese seeking certificates admitting them to American ports, imposed a task upon these officers beyond their ability. The Chinese applicant frequently came from some place far distant from the American consulate and the consul consequently was obliged to refuse to identify as proper persons to be admitted to the United States many worthy Chinese, which, of course, led to bitter complaints and fostered the boycott feeling.

The trend of opinion in the cabinet meeting was that these complaints, after all, were directed rather against the construction placed upon the law than against the law itself, and especially against the definition given in California to the term coolie, so it was practically decided that changes in the present regulations must be made.

Today's session was the first regular meeting of the cabinet held for some months. It was attended by all the members except secretary Shaw, who is absent from the city, and secretary Metcalfe, who is ill. It was the first cabinet meeting for secretary Bonaparte of the navy and the first as secretary of state for Mr. Root.

ZINC EXPERTS AT WORK

INVESTIGATION OF SANDON AND SLOCAN COMPLETE

P. ARGALL REPORTS SATISFACTORY PROGRESS MADE

An important part of the work of the zinc commission has already been accomplished. The proved deposits of the Sandon and Slocan districts have nearly all been examined. With what results will not be known until the report of the commission is prepared and submitted to the dominion department of mines.

P. Argall and A. C. Garde of the zinc commission, arrived in the city from Slocan yesterday. Mr. Argall was seen at the Strathcona last evening by a reporter of The Daily News. He said:

"We have practically completed the examination of zinciferous ore bodies in the Sandon and Slocan districts.

"No; I cannot anticipate the report. The government must know the results of the invesigation before they are given to the public.

"I am not sure that the work must necessarily extnd into next year. I thought so myself at first, but we have already accomplished a great deal in a short time. I should not be surprised if we have the field work practically finished before the approach of settled winter weather.

"We shall remain here tomorrow, and probably leave for Ainsworth on Thursday. That will be our next field of investigation."

Mr. Argall preferred not to discuss any criticisms of the personnel of the commission, or any difficulties supposed to have arisen from it. All he would say on the subject was that the conditions of the work so far had been very satisfactory, and that work in the districts already visited, numely Sandon and Slocan, was practically complete.

REPUBLICAN CAMPAIGN FUND.

Permission Asked to Enter Suit For Restitution Against President McCall

New York, Oct. 3.—Permission to begin suit against John A. McCall, president, and Geo. W. Perkins, vice-president of the New York Life Insurance Co. for the restitution of $150,000 contributed to the republican campaign funds was asked of attorney general Mayer today, by W. Hepburn Russel, acting as attorney for several policy holders.

TAX ON TRAVELLERS TO STAND

(Special to The Daily News)

Ottawa, Oct. 3.—The dominion government has decided not to interfere with the statute of the British Columbia legislature which puts a tax of $50 on commercial travellers coming from outside provinces. It is said to be within the jurisdiction of the legislature. This practically means that the $300 tax on commercial travellers entering the province of Quebec will have to remain, unless the provincial legislature rescinds it.

VLADIVOSTOK OPENED

Navigation still Risky Because of Floating Mines

Vladivostok, Oct. 3—The first freight steamer left this port today for Chefoo, thus opening regular connection by sea between Vladivostok and other ports. A Russian transport sailed simultaneously with stores for people of the Kamschtkan coast. Navigation is still risky owing to floating mines, four of which were sighted by small craft yesterday within 14 miles of the harbor.

DEATH OF A POET

Paris, Oct. 3—Jose Maria de Heredia, the poet, and member of the French academy, is dead. He was born in Cuba in 1842 and was a son of Jose Maria de Heredio, who was considered the greatest of the Spanish-American poets.

QUITS B. C. EXPRESS CO

Ashcroft, Oct. 3—J. B. Leighton of Savonas, has resigned the position of superintendent of the B. C. Express company, whilh he has held for the last eight years. He will in future devote his attention exclusively to his fine cattle ranch.

TROUBLE ON BOTH SIDES

Czechs and Radicals are Raising Dissension in Reichstag

King-Emperor Summons Hungarian Cabinet to Another Council and Agrees Upon Modification of His Policy

Vienna, Oct. 3.—The president of the lower house of the Reichstag was obliged to suspend the session today on account of a stormy demonstration on the part of Czechs and radicals. The latter interrupted the business of the house, rushed in a body to the ministerial bench and insisted on the minister of the interior replying to an interpellation on the subject of the disturbances at Bruenna. All attempts to restore order were futile, so the discussion was suspended.

Comparative quiet has since been restored at Bruenna. There were some unimportant street scuffles but no one was seriously hurt.

The king today received the Austrian premier, baron Fejevary, and the Austrian interior minister, M. Kristoffy, in special audience in connection with the Hungarian situation.

Subsequently the Hungarian minister of justice was summoned to the palace. The audience of the ministers was largely devoted to the discussion of the scheme for universal suffrage. His majesty postponed his decision, but as the Hungarian ministers are remaining in Vienna it is believed this will not be greatly delayed.

According to Hungarian reports, the re-calling of the Fejevary cabinet is to carry out reform on a basis of a modified universal suffrage, and is the outcome of prolonged conferences with the king-emperor granted to premier Fejevary and his colleagues today.

The premier was with his majesty four hours and a half, the time being occupied by the minister of the interior's explanation of his suffrage proposition. Nothing is officially known, however. It is reported that the minister of the interior, Kristoffy, succeeded in favorably impressing the king-emperor, who withdrew his opposition to the principle of manhood suffrage, but insisted on certain measures being taken, remarking that it was a question of nationalities.

Buda Pest, Oct. 3.—A resolution endorsing the action of the coalition leaders after their audience of the king-emperor at Vienna of September 22nd, has been approved by a committee of the coalitionist members of the Hungarian parliament and will be submitted to a plenary conference of all the opposition parties.

The resolution declared that the coalitionists cannot undertake to form a cabinet on the conditions laid down by the crown and protests emphatically.

HYDE WANTS SAFEGUARD

DENIES AUTHORITY OF INSURANCE INVESTIGATING COMMITTEE

BUT, UNDER CONDITIONS, DECLARES WILLINGNESS TO APPEAR

New York, Oct. 3—Samuel Untermeyer, attorney for James H. Hyde, has given out a letter for publication, addressed by him to Charles F. Hughes, chief of the insurance investigation committee, in part, as follows:

"Dear Sir—Referring to your request that Mr. Hyde voluntarily appear as a witness before the joint committee appointed by the defunct legislature of 1905 to investigate the affairs of life insurance companies, I have advised Mr. Hyde that your committee is without power or jurisdiction to make the investigation in which you are engaged.

"We appreciate, however, that the pending inquiry though unauthorized and irregular, will prove wholesome, and in the public interest, and that if continued on the same lines, much of the responsibility for existing conditions, which has been most unjustly placed upon Mr. Hyde, will be fixed where it properly belongs.

"The bulk of the subject matter of the inquiry, so far as concerns the Equitable society, relates to practices and conditions that antedated by many years his active connection with the society, of which he has no knowledge, but which seem to have been continued under the administration with which he subsequently became identified.

"Mr. Hyde instructs me that he is willing to assist the inquiry by voluntarily appearing as a witness, and in an other way that may be found desirable, provided that his rights and those of his father's estate can be reasonably safeguarded."

YELLOW FEVER REPORT

New Orleans, Oct. 3—The yellow fever situation improves daily both as to the city and country, only one death occurred in the state during yesterday outside of New Orleans, and there is a shrinkage in the number of cases everywhere. Among the dead in today's list is Arrington, night chief operator of the Postal Telegraph company.

JAPANESE MISSION

Vancouver, Oct. 3—The Japanese residents of Vancouver propose to erect a mission building on the corner of Powell and Jackson streets at a cost of $12,000. Yesterday plans of this structure were submitted to baron Komura, when he was passing through, who exhibited the deepest interest in the scheme.

NEW DENVER NEWS NOTES

(Special to The Daily News)

New Denver, Oct. 2—Although our mines are not making much noise, there is quite a lot of work going on. There has been more ore piled on the wharf recently for shipment than has been seen for years.

At the zinc works, Brockman way station, a few workmen are finishing up the details and the management is proceeding with their operations for a supply of ore which will be in evidence as soon as they are ready.

The most enjoyable social function of the season was given on the evening of Monday, Oct. 2 in Bosun hall, by the young folks of New Denver and the neighboring towns of Silverton, Sandon and Three Forks.

MINES RESUME WORK

TERMS OF AGREEMENT BETWEEN COMPANY AND MEN

INTIMATION THAT EIGHT HOUR LAW IS TO BE AMENDED

Nanaimo, Oct. 3.—The Brechin mine commenced work today. The hoisting machinery at No. 1 is in operation and the mine is being examined and tested.

The terms of the agreement entered into between the Western Fuel Co., and the miners, which resulted in the termination of the strike and the resumption of work at the collieries, are as follows:

1. As long as the present eight hour law stands, the men are to pay one dollar each per month for transportation to Protection Island shaft which will be used only for hoisting and lowering men. When the law is amended along the lines of the Hall amendment of last session, transportation will be provided free.

2. The company to make certain improvements in the docking system.

3. Minimum rate of wages for coal diggers in the lower seam to be $3.00 per day.

4. Company recognizes committee of men to settle future differences as they arise.

5. No discrimination against former employees.

6. Reduction in cost of tools.

The agreement is to cover a period of two years.

This agreement to be effective shall bear the signature of the manager and superintendent of the mines for the company and a committee of five for the men, and the approval signature of the president of the company.

Signed, sealed and delivered the day and the year above mentioned (Sept. 30, 1905.)

For the company, T. R. Stockett, manager; T. Graham, superintendent.

Witness, W. L. Mackenzie King, deputy minister of labor.

For the men, Richard Booth, J. R. Mackenzie, John W. Grahame, George Johnson, Jos. Hardy.

Approved, president Western Fuel Co.

COUNTY COURT TANGLE

ATTORNEY GENERAL WIRING OTTAWA FOR RELIEF.

COMMISSIONS FOR JUDGES OF EAST AND WEST KOOTENAY

The announcement yesterday morning that the judicial county of West Kootenay was without a commissioned county court judge caused considerable surprise to members of the lagal fraternity.

Many opinions were expressed on the subject, the concensus of opinion being that such a result could not have been foreseen by the provincial attorney general. The sub-division of counties for judicial purposes has occurred again and again in the history of every province of Canada, including British Columbia. Never before has an act of a legislature or an order in council abolished the jurisdiction of a judge. Lawyers could hardly believe that such was the case in the present instance.

Inquiry by telephone of judge Forin received the reply that The Daily News' account was correct.

Later it was learned that judge Forin has telegraphed attorney-general Wilson acquainting him with the circumstances, and that the latter had replied stating that he had already communicated by wire with the dominion department of justice.

In the meantime Kootenay is without a county court judge, as no appointment has yet been officially announced for the position created in East Kootenay. It is expected that the new commissions will arrive by the end of the present week, an amended commission for judge Forin, and one for P. E. Wilson for East Kootenay.

MURDERED BY TRAMPS.

Body of Unknown Man Found on Erie Canal.

Binghampton, Oct. 3.—The body of an unknown man was, this morning, found beside the Erie tracks near Campbell, a few miles from Oswego. Death had evidently been caused by a long knife wound in the abdomen, and the throat was also cut on the left side, evidently by a knife. It is thought that the man was murdered by tramps on a freight train, and then thrown from the train. Seven dollars found in the man's pockets indicated that the crime was not committed for robbery.

DIVIDEND ON ST. EUGENE.

Two Per Cent on Capital Stock For Quarter Ending June 30th.

Another dividend has been declared on the St. Eugene mine payable today. It covers the quarter ending June 30th, and is on a basis of two per cent. The following notice was received yesterday from E. J. Kingstone, Toronto, secretary of the company:

Notice is hereby given that the directors of the St. Eugene Consolidated Mining Company, Limited, have declared a dividend of two per cent, upon the capital stock of the company for the quarter ending 30th June, 1905, payable on the 4th of October next, to the shareholders of record on the 2nd October, for which day the transfer books will be closed.

This is the sixth dividend paid by the St. Eugene.

ATTACKED BY LION.

Tamer Aimie Blondel Has Been Badly Wounded.

Gilman, Ill., Oct. 3—Miss Aimie Blondel, a lion tamer, was attacked and terribly mutilated during a performance of a circus here yesterday by the trick lion Roosevelt. It is thought Miss Blondell will die.

She was saved from immediate death in the case only by the bullets of a troop of U. S. cavalrymen, travelling with the circus, who poured a volley into the body of the lion. The woman was feeding several lions in the cage when the big animal became enranged and sprang uopn her. The lion was not killed and it is thought he may recover.

CTBAN POLITICS AFLAME

GENERAL GOMEZ ON MISSION TO UNITED STATES

DENIES THAT HE IS SEEKING ANY INTERVENTION

New York, Oct. 3—General Jose Miguel Gomez, governor of the Cuban province of Santa Clara and leader of the liberal party in Cuba, arrived here tonight on the steamer Monterey. He was accompanied by Mr. Ferrera, a lawyer of Havana. General Gomez recently resigned as the liberal candidate for the presidency of Cuba, in opposition to president Palma.

The general declared that he was here for a short rest, and would return to Cuba in two weeks. Asked if he would visit Washington and call on president Roosevelt, general Gomez replied: "I do not know if I will visit Washington. I have no plans. But I do not expect to visit president Roosevelt."

General Gomez flatly denied that his mission was to ask American intervention in Cuban politics, and professed ignorance as to the plans of the liberals in the matter of filling his place on the presidential ticket. The national convention of the party was held on Oct. 1, after general Gomez had sailed, and it refused to accept his declination.

FRENCH WINE COMBINE.

Said to Be Newest Thing in Octupuses

Capital of $57,900,000

Washington, October 3.—The French wine trust is the newst thing in octopuses.

Counsel Bardel, of Banberg, Germany, writes that the six important wine growing districts of Herault, Aude, Gard, Pryences-Orientales, Bouche-du-Rhone and Var are in combination, the growers of those districts have agreed to sign a fifty-year contract.

The capital of the organization will be $57,900,000.

An elaborate system of finance is proposed for the control of sales, distribution of profits, construction of additional wine vaults, with a capacity of over 7,000,000 gallons, and for profit-sharing among the employees.

The growers of the district named expect to have other districts join the trust.

HEARST WANTS MAYORALTY

San Francisco, Oct. 3—There is every reason to believe that W. R. Hearst will be an independent landidate for mayor of New York at the approaihing election. In fact, some of Hearst's San Francisco friends make no secret of the fact that the New York congressman has fully determined to be a candidate. Saturday Hearst's paper, the Examiner, announced that the congressman had been urged to be a candidate and had taken the matter under advisement.

If Hearst runs it will be as an independent candidate on a platform for municipal ownership. Hearst is not on good terms with mayor McClellan and has now come to the conclusion that he himself, and only he, can take McClellan from the mayor's chair, and it is said that he has decided to make the attempt.

FIXED VALUE FOR SILVER.

Ottawa, Oct. 3.—M. Gadd, an expert on currency matters, has arrived in Canada from London, England, on a mission which is regarded as of considerable importance to the present and future prosperity of the dominion. His proposal is to submit to the Canadian government certain measures having for their obpject the establishment in the dominion of a fixed value for silver. He is at present in Montreal.

SENTENCED TO DEATH.

Brantford, Ont., Oct 3.—Felix Doyle, and J. Bennett have been sentenced to be executed December 15th. Doyle was found guilty of the murder of his aged mother, and Bennett of the murder of an Indian girl, named Betsy Jacobs.

BURNED TO DEATH

Edington, West Va., Oct. 3—Two women and four children were burned to death in a cabin home last night. The two husbands of the two women escaped. The burned were Mrs. J. Algo and her three children and Mrs. Jos. Cardelli and one child. Their charred bodies were found in the smoking ruins of the cabin.

CAPITALS ARE BEATEN.

New Westminster, Oct. 3.—New Westminster and the Capitals, of Ottawa, played their first match of the series this afternoon, the home team winning by three goals to two after a good game.

MAINTAIN DOUBLE TRAIN SERVICE

Winnipeg, Oct. 3—The C.P.R. management has decided to continue the double transcontinental passenger service of the summer time until about Christmas, at least, to accommodate the unusually heavy traffic. The present schedule will be practically maintained.

KILLED ON THE TRACK

Ottawa, Oct. 3 — Phillip Lalonde and Stephen Peteau of Cornwall, were killed on the railroad track near here today. Their bodies were terribly mangled.

CANADA'S RAIL MILLS

Product of Sydney and Soo so Far Satisfactory to Railway Companies

Present Capacity of Canadian Rail Mills Would be Taxed to Limit for Ten Years to Provide Requirements of G. T. P.

Toronto, Oct. 3.—According to a conservative estimate, it would take five hundred thousand tons of steel rails to lay the Grand Trunk Pacific railway from Moncton to the Pacific coast. It takes one hundred and twenty-five tons of 80-pound rails to lay one mile of track and, as the total mileage of the road will be, as near as can be at present foreseen, about four thousand miles, the total amount required is apparent. In view of this, it is interesting to calculate whether or not the two steel rail mills in Canada can furnish this supply. Since the Dominion Iron & Steel Co. began to make rails last summer, their total output has been taken by the G.T.R., and has amounted so far to a little more than twenty thousand tons. Just now the mill is working satisfactorily, according to report, and is turning out from three hundred to three hundred and fifty tons a day. Their contract with the G. T. R. for this year was to supply twenty-five thousand tons. They have yet four thousand tons to deliver. A large amount of these rails has been used in connection with the double track of the main line west of London, and the Grand Trunk officials have been so well pleased with them that they have placed another order for twenty-five thousand tons to be delivered in March, April, May, June and July of next year. These rails are of the heavy type, and the ones that have been supplied so far have had, before leaving the mill to undergo a more severe test, according to the statement of a G. T. R. official, than any other rails that have ever been used anywhere over the entire system.

Reports from the Soo indicate that the rail business there is likewise gratifying. Deliveries to the Intercolonial railway have met with approval. As the capacity of the mill there is said to be about the same as that of the mill at Sydney, about three hundred tons a day, an estimate might be formed of how long it would take the two mills to supply all the rails needed for the new transcontinental railway. A conservative estimate would be five hundred tons a day, and at that rate it would take them three years and four months of steady going, counting three houndred days to the year. That means that it would take them a thousand days to make enough rails to lay the road from Moncton to the Pacific coast, even were they to make no rails for any other purpose. But allowance must be made for renewals that are being made every day all over the dominion. The C. P. R. use on an average about forty thousand tons of rails for renewals every year, and the Grand Turnk about twenty-five thousand tons. One hundred thousand tons for renewals every year on all the railroads of Canada would be a fair estimate. If the mills can turn out only one hundred and fifty thousand tons a year that would leave them only fifty thousand tons for the new road, and at that rate it would take ten years to supply enough extra rails to complete the Grand Trunk Pacific. Of course, the mills claim a larger total capacity than five hundred tons a day, but that is without allowance for mishap and delay of various kinds.

The price that the Canadian companies are paying for Canadian made rails is said to be as high as the duty and the bonus will allow; that is, slightly under the price of foreign rails of a similar standard, plus the duty and the bonus and the freight. It is to their credit, however that no fault so far has been found with the quality.

INCENDIARY FIRE

Methodist Church at Carman, Manitoba, is Destroyed

Winnipeg, Oct. 3—The handsome Methodist church at Carman was destroyed by fire at an early hour this morning. The blaze was first discovered at 2:30 o'clock and quickly spread to the stable of Mr. Saunders, whose horse and buggy houses were consumed.

The fire is thought to be of incendiary origin. Loss $12,000, insurance one half. All efforts to save the structure were unavailing.

OPENS LIVE STOCK SHOW

Three Dominion Ministers Present at New Westminster

New Westminster, Oct. 3—Hon. Sydney Fisher, dominion minister of agriculture, formally opened the live stock show in connection with the exhibition today. There were present at the opening ceremony lieutenant governor sir Henri Joly, and Hon. Messrs. Fielding and Patterson. All expressed themselves as well pleased with the display.

TRAGIC EXCURSION

Pleasure Fishing Trip Results in Two Deaths by Fire

Victoria, Oct. 3—Fire which destroyed a shack on San Juan island last night caused the death of Mr. Wm. Dick and her child, and the serious injury of Mr. Dick, who is now in the hospital. They were fishing in the strait when they were overtaken by bad weather and made for the American island for shelter. The shack took fire while they were sleeping.

UNION LABEL

THE CITY AND THE W. K. P. & L. COMPANY.

The terms of settlement of the dispute between the city and the West Kootenay Power and Light company, unanimously agreed upon by the council at the special meeting last evening will, we believe, be heartily approved by the taxpayers of Nelson.

The settlement is in the nature of a compromise and consequently Nelson does not secure everything we should like to have seen obtained, but, on the whole, it may fairly be said that this settlement places the city in as favorable a position as it was reasonably possible to obtain in order to pursue without further let or hindrance the construction of the power plant, and that, after all, is the chief desideratum.

It is possible that had the city declined to accept the terms finally assented to by the West Kootenay Power & Light company and the litigation been continued the result would have been entirely favorable to the city. But this course would have entailed long delays, very heavy expense—for judgment with costs never does pay the victor's cost in full—and in the meantime the city would be paying out to the West Kootenay Power & Light company, the heavy monthly bill for power.

Under the present agreement both sides pay their own costs to date and the proceedings against the city and the contractors for contempt are dropped. The Power company agrees not to interfere with the prosecution of the city's undertaking, and whilst the original injunction is to stand it is to be so interpreted as to permit of the work proceeding on lines that are entirely satisfactory to the city authorities.

Naturally the perpetuation of the injunction is a disagreeable feature of the compromise. Still, as pointed out by alderman Bird, if the city honorably live up to their part of the bargain the injunction need occasion no anxiety. Moreover, it is intimated that in some respects the continuance of the injunction may not prove inimical to the city's interests. That is the view taken by the city engineer and we can easily conceive of a situation arising in which the existence of the injunction may prove serviceable to the city.

The council has shown good judgment in deciding unanimously to take a course that will relieve the city of vexatious and costly litigation.

To alderman Gillett some special mede of credit is due for taking the initiative in the negotiations that have resulted so satisfactorily.

It is to be hoped that construction of the power plant will now go on uninterruptedly and that there will be no further unpleasantness in connectin with the carrying out of an undertaking that promises to prove of great material benefit to this city.

EDITORIAL NOTES.

John S. Ewart thus sets forth in the London Monthly Review Canada's attitude to Mr. Chamberlain's fiscal proposals: "(1) Mr. Chamberlain advocates the establishment of a protective tariff. To this Canada says nothing. (2) Mr. Chamberlain proposes preferential tariffs within the empire. Canada is almost unanimously in favor of such tariffs. (3) Mr. Chamberlain desires commercial union of the empire. Canada does not. (4) Mr. Chamberlain urges political union of the empire. Canada dissents."

In the Westminster Review L. H. Berens undertakes to prove that the teaching of Henry George was anticipated by Gerrard Winstanley, a social reformer of the days of Oliver Cromwell. He cites the following excerpt from the pamphlet of this early landnationalizer in support of his contention: "That we may work in righteousness, and lay the Foundation of making the Earth a Common Treasury for All, both Rich and Poor, That every one that is born in the Land may be fed by the Earth his Mother that brought him forth, according to the Reason that rules in the Creation. Not inclosing any part into any particular hand, but all as one man working together and feeding together as Sons of one Father, members of one Family; not one lording over another, but all looking upon each other as equals in the Creation."

The first issue of Rossland's new evening paper, the Star, is to hand. It is a bright, newsy sheet and starts on its career with external evidences of well-being, in the shape of liberal advertising patronage. Hugh Aitken, editor of the Nanaimo Herald, is in editorial control of the Star and he announces that in politics the paper will be liberal, believing "that the best interests of the country will be served by the ascendancy of the liberal party both at Ottawa and Victoria." It is a big undertaking to establish a second daily paper in Rossland, but Hugh Aitken is a hard worker and a capable newspaperman and will delight in grappling with difficulties that might well appal a less courageous man.

The county court impasse continues. Attorney general Wilson on being communicated with yesterday by judge Forin replied that he had telegraphed the minister of justice at Ottawa that a new commission must be issued before any further county courts can be held in West Kootenay. This opinion is, we understand, not concurred in at Ottawa. The minister of justice considers that the issuance of a new commission is unnecessary, holding that the provincial government would not have reconstructed judicial districts without making provision for jurisdiction. Hon. Chas. Fitzpatrick does not know attorney general Wilson's capacity for blundering. There will doubtless have to be much interchange of correspondence on the subject and in the meantime West Kootenay must struggle along without a county court.

15 Years Service or a New Chain.

A 15 year "H. & A. S." Chain gives 15 years service, or you get a new chain any time within the 15 years.

If you buy one this year, you will see on one side of the first link, "H. & A. S.—15 years"—and on the other "1905."

If that chain does not give good service—if the gold rubs or the links wear through—any time between now and 1920, take the chain to any jeweller in Canada handling "H. & A. S," goods—and get a new chain and the same 15 years' guarantee.

That's a pretty safe chain for you to buy, isn't it?

"H. & A. S." chains are sold only by the retail jewellers.

TRAFALGAR DAY CELEGRATION

Committee Last Night Reported Good Progress Being Made

The Trafalgar Day celebration committee held a meeting at th offices of Melville S. Parry last evening at 8:45 and good reports were made of the progress made. It was determined that the parade should start from the central school grounds, where the school children and the various public bodies and organisations taking part in the parade should assemble marching down Stanley street and along Baker to the recreation grounds. Choruses were arranged for to be sung by the children, Rule Britannia, The Maple Leaf, The Red, White and Blue and the National Anthem being those selected. To aid in the effect of these the secretary was instructed to write to the various choirs and choral societies in the city for their assistance. The singing is left in the hands of Miss Moody of the central school, and H. S. Bodmer. Fraternity hall has been engaged for additional practices and announcement will later be made of the days which the musical sub-committee named shall select. It was left in the hands of the banquet committee to draft a toast list and program for the banquet itself which will take place in Fraternity hall. Some male quartetts are being arranged by Ed. Grizzelle for this purpose.

With regard to the parade chief Sargent of the fire brigade, is arranging a float, representative of the Victory, which will be helped out by naval uniforms, which are being brought from Toronto. Other floats are also under consideration and a tableau of Britannia in the recreation grounds is also being taken up.

GRAIN AND STOCKS

The opening on the New York stock market this morning was somewhat lower than last night's close, but soon rallied and continued firm throughout the day, closing at the high mark. The opening of C.P.R. at 174 7-8, showed a loss of 7-8 from last night's close, advancing to 175 breaking to 174 3-8 and closing at 174 5-8; Amalgumated opened at 84 3-4, the low mark for the day, selling up to 85 3-4 on the close; U.S.S., common, opened at 38 1-2, sold off a quarter, closing strong at the high mark, 39, preferred opened at 105 1-4, sold off a quarter and closed at 105 3-4; Brooklyn opened at 71 3-4, the low mark, advanced to 72 3-4 and closed at 72 3-8; Met. opened at 25 3-4, sold off a quarter and advanced to 127, closing at 126 3-4; St. Paul opened at 181 3-4, the low mark for the day, sold up to 183 and closed strong at 182 7-8; U.P. opened at 133 5-8, sold down to 133 1-4, advanced to 134 1-2 and closed at 134 3-8; Missouri Pac. opened at 105 1-2, the low mark, closed at 106; L. & N. opened at 154 3-4, sold off an eighth, advanced to 155 3-4 and closed at 155 1-2; Atchison opened at 90 1-8, closed 90 1-2; Erie opened at 50 1-8 and closed at 50 1-4; B. & O. opened at 113, closed at 113 5-8; Reading opened at 123 3-4, sold off an eighth, advanced to 124 3-4; closed at 124 3-4; call money 5 1-2; sales to noon 271,000.

Grain—Liverpool opened 3-8 higher and closed 1-8 higher. Our market opened off a fraction from last night's close and held steady during the day. December wheat opened at 84 1-2, sold up to 85, declined to 84 3-8 and closed at 84 3-8 @ 1-2; May wheat opened at 85 7-8 and closed at same figure.

Reported by Sharp & Irvine, Nelson, Oct. 3.

"HOTTEST COONS" COMING

The "Hottest Coon in Dixie" company will pay their annual visit to Nelson one week earlier than was originally intended, due to a slight change in the company's route. Mr. Ernest Willis will bring his popular company of singers, dancers, fun makers and comedians on Saturday, Oct. 7 and will present the latest edition of the popular colored singing show "The Hottest Coon in Dixie," replete with new faces, new incidental music, new songs, new costumes, new light effects and new scenery, retaining all the old favorites of the company and bringing many new ones. Prof. Rhone's military band is a big feature of the attraction and will parade the streets on show day.

MINING RECORDS

Two locations, two certificates of work and two bills of sale were entered in the mining recorder's office yesterday.

The Lake, adjoining the Orza and X-ray, 11 miles north of Kitchener, was recorded by K. K. Luib, agent for Max Bourgoin; Allan Watson recorded the Allan, on Crown mountain, on the south slope of Lost creek, near Salmo.

Certificates of work were issued to John Chestnut on the Oversight and to Joseph Bernard on the Lucky Jack.

Bills of sale were recorded from W. Maher of Slocan, to John Bough of Sandon, a third interest in the St. Elmo fraction, the Portland and the J.I.C., for a nominal consideration; Harold F. Anderson of Sandon, gave a bill of sale to John Bough of a third interest in the Echo, the Portland fractional and the Delhi, consideration nominal.

OFFICE FOR A LABOR MAN

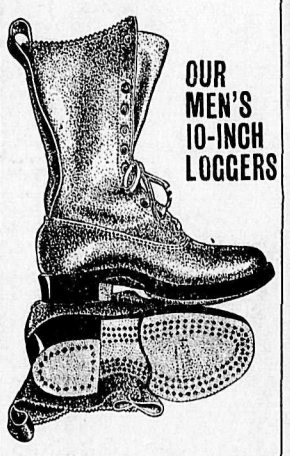
John Mitchell Wants an Appointment for His Union Editor

Washington, Oct. 3—John Mitchell, president of the United Mine Workers of America, had half an hour's interview with president Roosevelt today by appointment. At its conclusion Mr. Mitchell said he had come here at his own volition to urge the president to appoint Louis Hammerling, editor of the official paper of the Mine Workers, as collector of inland revenue for the Scranton district. He declined to intimate whether the appointment would be made or not. Hammerling is opposed by some members of the Pennsylvania congressional delegation.

"I did not discuss with the president the labor situation in the anthracite coalfields," said Mr. Mitchell, "my business with him was purely on this personal matter."

CROWE ADMITS HE IS CROWE

Butte, Oct. 3—The man under arrest here was positively identified as Pat Crowe. The man was made by a man whose name is withheld by the police, but who is said to have worked with Crowe in the stock yards at South Omaha. The prisoner admits that he is Crowe and says he is anxious to return to Nebraska to clear himself, saying there is no law under which he can be prosecuted.



OUR MEN'S 10-INCH LOGGERS

You can have a pair of logging boots made to order and pay double the price of Leckie Boots, but you cannot secure stronger footwear.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

ANADA AND THE EMPIRE

UBJECT OF SIR FREDERICK POLLOCK'S VISIT.

HIEF EXPONENT OF SCHEME OF IMPERIAL COUNCIL.

Sir Frederick Pollock, the well known British jurist, is paying a visit to Canada. His main purpose in coming to Canada is to sound the feeling of Canadians with regard to the scheme of an Imperial Council, of which he, and Mr. Pitt Kennedy, who accompanies him, are the cheif exponents.

Sir Frederick's ideas on the subject may be given briefly in his own words:

"The present relations between the component states of the British empire are not all that can be desired, and some bettger organized system is desirable, if practicable. The British empire presents the unique spectacle of a metropolitan state controlling by sundry and manifold relations a number of possessions and dependencies in different parts of the world, all of them relying for defence and protection mainly upon the imperial command of the seas. No other empire has been, or is so constituted; and this geographical situation lies at the basis of our colonial policy. Great Britain has acquired, during the course of the nineteenth century, the habit of holding her possessions in North America and Australia upon the very singular political tenure of sovereignty by mutual consent.

"The mother country and the colonies, like partners, are liable for each others acts to the utter-most farthing. External unity of this kind seems to require some internal unity of direction to make it prudent for reasonable men to accept its attendant risk. According to strict legal theory, that unity is given in the supremacy of the king, exercised either in the parliament of the United Kingdom or through ministers responsible to it. But this has long been a legal fiction. The partnership cannot at this day be treated as a one-man company in which the parent is the sole manager. Our colonies are autonomous in their internal affairs as fully as the colonies of Greek cities were, and in external affairs the tendency is to stop only at matters which may touch peace and war. There is still a senior partner holding and staking most but the junior partners are not merely members of the family admitted to nominal shares. And there are no partnership articles.

"If, on the other hand, we are to strengthen the ties, it does not seem that any merely commercial arrangements will be sufficient, or that any formal constitution-making is practicable. As for any kind of formal constitution, it assumes the consent of several independent legislatures, and involves a considerable modification of their existing authority. I am not aware of any reason for thinking that the parliament of the United Kingdom would easily be persuaded to reduce itself by a solemn act to a mere state legislature, or that the colonial governments would be willing to surrender any substantial part of their autonomy to some new federal senate or council. No one, I believe, is now found to advocate direct representation of the colonies in Parliament. There are at least three fatal objections, besides that which is common to all schemes involving ambitious legislation, the inconvenience of increasing the number of the house of commons, the enormous difficulties of allotting representation in due proportion to the several constituents of the empire, and the want of probability that the colonies would send us their best men, even if they consented at all. Addition of a certain number of distinguished persons from the colonies to the house of lords as life peers would be harmless and perhaps of some use, but inadequate; moreover, it is doubtful whether such persons, after any lengthened residence there, would carry much weight beyond that of their individual opinions.

"We will then look for some plan which will avoid elaborate legislation and formal change in the constitution. We must distinctly renounce the invention of any new kind of executive or compulsory power. No such power would be accepted by the colonies. We must be content with a council of advice which will have only what is called "persuasive" authority. My own expectation would be that, if such a council were once effectually constituted, including the fitting persons and furnished with proper information, its advice would come to have great weight, and ultimately take a definite place in the customs of our constitution.

"As to the constitution of the imperial committee, the nucleus of it exists already in the conference of premiers which met in 1902, and it is expected to meet again next year. The premiers of the dominion, of the commonwealth and of New Zealand are already privy councillors, and no good reason appears why their successors and the future premiers of a confederated South Africa, should not have the same rank as a matter of course. The colonial secretary would be a necessary member, (though, for reasons I shall mention, I do not think he ought to preside), and all the heads of great departments would also be members of the committee, though they would not all be summoned to every meeting. As in the case of the judicial committee, the selection of the persons to be convened out of the whole number would depend upon the nature of the business on each occasion. For example, the secretary of state for India would not be wanted to take part in considering the report of an expert committee on a question (let us say) of mail subsidies in the Pacific. But there might be other questions in which the Australian colonies and India had material common interests ,and in which, therefore, India could not go without representation . The crown colonies would constantly, and for the present sufficiently, be represented by the secretary of state.

"It is conceivable that now and then, when the business was of special importance, the venue might be transferred so to speak, to the cabinet by summoning one or two select members of the imperial committee to attend a cabinet council; but, as the imperial committee would itself include two or three leading members of the cabinet, it does not seem likely that the cabinet would need any further information."

WANT WRIT OF ERROR.

Mrs. Chadwick Desires Her Sentence To Be Set Aside.

Cincinnati, Ohio, Oct. 3.—The petition for a writ of error for Mrs. C. L. Chadwick, charged with bank wrecking and convicted at Cleveland of conspiracy to defraud, was at the head of the calender of the United States circuit court of appeals, the fall term of which opened here today. The record of the case comprises 216 printed pages. Mrs. Chadwick was convicted on seven of the 15 counts in the indictment and her attorneys, Rawley and King, brought the case to the court of appeals on a writ of error, alleging that the trial court had erred in various particulars, that the alleged offence is not a crime under any statute of the United States and petitioning for a new trial.

Mrs. Chadwick is now in jail awaiting the decision of the court of appeals. If the decision is against her, she will at once begin her sentence of ten years in the Ohio penitentiary and a prosecution in the courts on other counts is threatened in case she gets clear of the charge made in the federal court indictments.

FIRE IN GRAND FORKS

Carter Building and Furniture Proves a Total Loss.

[Special to The Daily News]

Grand Forks, Oct. 3.—A fire entirely consumed the private dwelling and household furniture belonging to Mrs. Jennie Carter in the west end of the city last night. The fire originiated from causes unknown, and was first discovered about midnight. The house was situated in close proximity to the large Folger block, and there are also several other smaller buildings close by but the gallant work of the fire brigade confined the fire to the Carter building. Had it spread the loss would have been about $7000.

The loss to the owner is estimated at $1500, $1000 the value of the building, and about $500 worth of furniture. It is reported there was no insurance. The building had been vacant for about two months, the owner having left the district.

Auction Sale

HOUSEHOLD FURNITURE

Wednesday, Oct. 4th,

AT 2 O'CLOCK P. M.

Acting under instructions from Mrs. F. H. J. Brigstocke we will sell by auction at her residence on Silica street, corner of Hendryx, all her valuable household furniture. This furniture consists of antique and modern furniture, so that every person can be suited. Goods on view the morning of sale.

TERMS: CASH.

C. A. Waterman & Co.
AUCTIONEERS

Blacksmiths & Wheelwrights

We are prepared to do Blacksmithing in all its branches. Expert horse shoeing. We do carriage repairing and painting. Will make your old rig look and wear like new.

Office hours—9 a.m. to 5 p.m.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered minerals in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

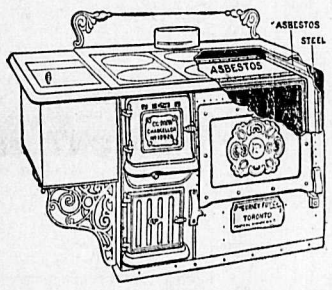
The only Fit-Reform Wardrobe here is at

Emory & Walley, Nelson, B.C.

Oxford Chancellor Range

The Oxford Chancellor Range is built to stand the wear and tear of years of usage. The body is constructed of heavy patent rolled steel plates, interlined throughout with asbestos millboard. The steel body is closely riveted together with specially clinched rivets, so that no matter how hot the fire the body will not warp and allow the heat to escape. This construction makes the Oxford Chancellor Range perfectly and permanently air-tight. No leakage into the flues, stopping the draft and impairing the oven heat, is possible.



The asbestos interlining insulates the heat of the range the outside of the range never getting overheated.

If you would know more of the Oxford Chancellor Range write us, and we'll tell you all about it and where you can see it.

LADIES MAY CELEBRATE

NATIONAL CONCERT PROPOSED FOR TRAFALGAR DAY

LIEUT. CROASDAILE, R.N., SUGGESTS NEW FEATURE

The people of Nelson without exception have risen to the occasion of the hundredth anniversary of the battle of Trafalgar. The more the great event and its fitting observance are discussed, the keener and more general is the interest it awakens.

Trafalgar day and Waterloo are the crowning victories of the navy and army. Each stands as the type of decisive action in its respective service. Nelson and Wellington are preeminently the heroes of Britain. But there is a difference in the significance of the two actions. Napoleon knew that his dream of world empire must be forever a dream unless he could crush the power of the Island empire. Waterloo ended suddenly and forever the career of the Corsican, but, ten years earlier, Trafalgar had made the conquest of Britain not only imposible but inconceivable.

Therefore Trafalgar day is the anniversary of the preservation of the British empire and of all the empire stands for in the modern world. No enthusiasm that is aroused among the British peoples for its observance can be considered extravagant. What Thermopylae, Salamis and Plataea were to Greese, Trafalgar is to the empire.

Nelson will certainly celebrate the glorious day in the best possible manner. The committees in charge of arrangements have invited suggestions from all. Among the citizens of Nelson none is better entitled to speak on the subject than H. E. Croasdaile, a retired lieutenant of the royal navy. Mr. Croasdaile applauds the suggestions for the children's participation and for a grand banquet. But with the gallantry for which British sailors have ever been noted, he asks that the ladies be invited to join in the ceremonies.

His sugestion is contained in the following letter to the editor of The Daily News:

"I greatly regret that I have been unavoidably absent from Nelson, and unable to attend any of the meetings held to arrange for a suitable commemoration of England's greatest day.

"So far as I can gather of the arrangements that have been made, they appear to me to hardly go far enough. A banquet is a very national way of celebrating, but it is after all a somewhat narrow conception for perpetuating the memory of a great event, and is at best confined to a very few.

"However, let us have the banquet and the procession, but I desire to suggest what I conceive to be a more fitting and what will prove to be a more generally attended feature in the day's celebration.

"I cannot ascertain that anything proposed for the day includes the attendance of the ladies of Nelson. Now, I am sure the ladies know that there is no body of men—no profession in the world—that equal sailors in their admiration, devotion and respect for the fair sex, and I am sure that the ladies are willing and ready to join as heartily as any one in the proposed celebration of the victory achieved by the greatest of sailors.

"My suggestion is that the agricultural hall should be used for a large popular concert in the evening, at which ladies and well-grown children can attend; that a program of naval and patriotic songs should be given. In saying this I am trusting to the assistance of our brilliant amateur performers, who have in the past shown a spirit of readines to aid in the public pleasure, which is as charming as their performances.

"It may not be out of place to suggest that some tableaux vivants should be arranged, illustrative of national events of a hundred years ago, among the most striking of which was the deep sorrow of the whole nation caused by the death of Nelson in the hour of victory.

"I may say that I shall be only too pleased to get music and songs from the east suitable for the occasion if my suggestion meets withe approval. Yours truly,

HENRY E. CROASDAILE.

The suggestion is one that will undoubtedly receive due consideration from the committee in charge of arrangements. A concert such as suggested by Mr. Croasdaile need not interfere with any other arrangements. It would naturally come to an end before the hour at which banquets in Nelson usually begin. It has the great merit of including all loyal British subjects, and none are so loyal as the ladies, in the commemoration of the greatest national victory.

GALLIHER TALKS OF B. C.

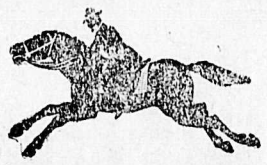
Toronto Globe: "I never talk politics between elections," said W. A. Galliher, M.P. for Kootenay, at the King Edward last night. Mr. Galliher was willing to talk about everything else in British Columbia, from the Chinese question to the tariff commission.

"I am free to admit that we don't like yellow labor in British Columbia," he said. "We believe in paying a good wage to white labor, and when a man works for eight hours pounding rock in a mine he has earned a good wage."

He spoke of the fruit trade of the Pacific province, which was dealt with in Globe correspondence yesterday, as being in a very healthy condition. It has been chiefly in small fruits so far but trees have been planted for four or five years and are now beginning to bear.

"We sent a lot of strawberries to Winnipeg this year, but could not nearly supply the demand. Pears and plums and apples are bearing now, and they are not only of the finest grain, but they are also splendidly flavored. There are a lot of fruit farms along Kootenay lake and also up around Salmon Arm and Shushup lake and along the Okanagan. Land is worth anywhere from $15 to $50 an acre for fruit farms, and some even as high as $100 an acre."

Mr. Galliher believes that there is a great future ahead of the fruit industry in British Columbia, and he thinks the tariff is a fair one as it stands in this regard.



Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for emergencies?

Lard! Lard!

For the next ten days we will offer No. 1 Rendered Lard at greatly reduced prices.

SITTINGS OF THE ASSIZE

FERA PERJURY CASE WAS NOT PRESSED BY CROWN.

RAFFAEL TO STAND TRIAL FOR ATTEMPTED MURDER.

Mr. justice Irving took occasion to congratulate the grand jury at the opening of the fall assizes yesterday morning upon the light docket, there being only one case for their consideration, that of a Fernie man charged with attempted murder.

The grand jury was composed as follows: H. Bird ,foreman; J. L. Buchan, W. F. Cochrane, M. S. Davys, W. G. Gillett, J. F. Hume, H. Selous, C S. Moore, J. A. Turner A. H. Kelly, P. Lamont, S. H. Green and J. R. Johnson.

After the grand jury retired to consider the case of J, Raffael, the Fernie man charged with attempted murder, the case of F. Fera, of Greenwood, retrial of alleged perjury, was taken up.

R. M. Macdonald, crown prosecutor, intimated a desire to enter a nolle prosequi, but his lordship suggested that it would be mare in the interest of the prisoner that the case should be submitted to a jury. This course was adopted and the following petit jury enrolled:

John A. Hunter, foreman; J. P. Paxton, D. J. Robertson, J. R. Dunlop, G. Horstead, C. H. Benedict, H. Caine, J. Teague, W. Gosnell, I. G. Nelson, H. H. Avery and C. Jiczkowicz.

Crown prosecutor Macdonald having no fresh evidence to adduce, his lordship directed the jury to return a verdict of not guilty, which was done and the prisoner immediately discharged.

The grand jury found a true bill in the case of Rex vs. Raffael, and the prisoner having pleaded not guilty, the following jury was empanelled:

M. S. Parry, foreman; W. J. Astley, N. M. Cummins, R. J. Steele, G. Horstead, G. Erickson, D. J. Robertson, C. F. McHardie, W. R. Campion, J. J. Walker, J. R. Hunter and W. Park.

The prisoner, in reply to the court, said he was not represented by counsel, and at the suggestion of his lordship P. E. Wilson undertook to act in his behalf, requesting an adjournment to permit of his familiarizing himself with the facts of the indictment.

Court thereupon adjourned until 10.30 this morning.

At the roll call of jurors T. Scanlan and T. Madden failed to answer to their names and the judge ordered that they should appear before the next court of criminal assize and show why they should not be fined.

A court motion by A. M. Johnson, in re Reisterer estate was granted..

Use Lever's Dry Soap (a powder) to wash woolens and flannels—you'll like it. 32

NOTICE

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of land in West Kootenay District, commencing at a post on the West Boundary of Lot 301A, where the said boundary intersects the south shore of the Columbia river, thence south along the west boundary of Lot 301A for a distance of 17 chains more or less, to a point 40 chains north of the south west corner of Lot 301A, thence west 100 chains more or less to Lot 4268, thence north to the southern boundary of Lot 4559, thence east along the southern boundary of Lot 4599 for a distance of 75 chains more or less to the southeast corner of Lot 4599, thence north along the east boundary of Lot 4599 to the south shore of the Columbia river for a distance of 25 chains more or less to the point of commencement, containing 160 acres more or less.

Dated Sept. 28, 1905.

J. J. TANGEN.

K. K. BJERKNESS, Agent.

The very best tobacco that ever came out of Cuba can be so spoilt in the factory that it will taste like a rank weed. It is a most sensitive leaf, and will absorb and become flavored with anything that it comes in contact with.

For this reason I give my personal attention to every shipment of tobacco for my

Pharaoh Cigar.

As soon as it arrives at my factory I place it in humidors built for the purpose. The tobacco is kept here for from two to three years at a temperature and humidity which as nearly as possible correspond with the climatic conditions of the Island of Cuba.

This treatment thoroughly matures the leaf, removes the injurious "gum," and develops the rich flavor of the tobacco.

This is one reason why my Pharaoh cigar has so delightful an aroma, and leaves a pleasant taste in the mouth.

I carefully watch every step taken in the production of my Pharaoh cigar so I secure a steady, even combustion and a cool, sweet smoke.

None genuine unless branded "Pha-ro."

NELSON ROSSLAND TRAIL

HARNESSING THE TIDES

TIDAL POWER TO BE USED IN PLACE OF COAL.

DESCRIPTION OF CHICHESTER HARBOR SCHEME.

In view of the fact that England will have to rely in the future upon other means than coal to generate power, Mr. James Saunders contributes to the Engineering Review (London) an interesting article upon the "Utilization of Tidal Power."

The British Isles are poorly off for waterfalls. If every available water power were used, the annual saving in coal would be 1,200,000 tons, a mere fraction of the present output of 230,000,000 tons. About 150,000 horse-power, working ten hours a day, would be generated. It is impossible to utilize the direct heat of the sun, owing to climatic conditions. To rely on the uncertain wind is hopeless. The largest wind-power generator in existence does not exceed 60 horse power. There remains the utilization of tidal power.

A few schemes are already in existence the plan generally adopted being to impound the rising tide, and on its ebb utilize the power by waterwheels. This is only available on the ebb, and is not constant. Mr. Saunders gives some figures of the rise and fall of tides. He says:

"On the west coast of Ireland and the south coast of England the highest tides occur three transits after the new and full moon, and along the east coast of England they take place four transits after the new and full moon, and in the River Thames five transits occur in the same epoch."

In order to utilize this variation of height between high and low tide, a considerable area of tidal water must be inclosed. In order to minimize expense, the natural configuration of the coast must be taken into consideration. Mr. Saunders describes schemes for using the tides at Chichester harbor, in Menai straits, and in the Bristol channel. The first provides for an average of 8000 horse power per day. Reckoning the value of an electric horse power at $225 per annum, this would give an annual income of $18,000, which would justify and expenditure of $1,500,000. The Menai straits scheme would yield 15,500 electric horse power a day valued at $326,250. This would justify a capital expenditure of $2,718,750, just about the amount that would be required by the scheme. The last scheme, that of the Bristol channel, is the most ambitious of all. The proposal is to dam up the mouth of the Severn. Owing to the enormous tidal rise in the channel, the daily energy generated would be 260,000 electric horsepower, worth $5,850,000, and justifying a capital outlay of the huge amount of $48,750,000. The total cost of the scheme would be $1,000,000 less than this.

A description of one scheme will suffice to show the general idea. Chichester harbor is 7,380 acres in area, the entrance being less than a mile in extent. The proposal is to build a large dam across the mouth, and also to divide the harbor in two, the configuration lending itself easily thereto. The Chichester side would be the high water basin the Hayling side the low water basin. The rising tide fills the high basin full. The top third of this is emptied through the turbines into the low water basin which it fills up to one-third of the height of the tide. This in turn is emptied out to sea at low water. By this means a constant power is obtained although at first sight it appears to be a waste now using the incoming and outflowing water. A dam would also be built at Langston to stop the flow from Langston harbor.

FIFTH ATLANTIC CABLE.

S. S. Colonia Has About Completed Her Share of the Work

Montreal, Oct. 3.—The Canadian Pacific Railway company announces that the S. S. Colonia, which sailed from Canso, N.S., September 23rd, paying out the Commercial Cable company's new Atlantic cable, reports that she arrived at 6 p.m. at a point 187 miles from the Irish side where she will make the final splice between the 2000 miles of cable laid westward from the Irish coast by the S. S. Cambria last June. A southwest gale is blowing which delays the final splice for the moment, but the completion of the cable is now only the question of a few hours. This will make the fifth Atlantic cable laid by the Commercial Cable company.

END OF GAYNOR AND GREENE

Quebec, Oct. 3.—The warrant for the handing over of Messrs. Gaynor and Greene to United States officials was received from Ottawa this morning. It was immediately signed by lieutenant-governor Jette, and transferred to the attorney general to be sent to Montreal. The delay granted counsel of Gaynor and Greene for pleading before the dominion cabinet at Ottawa expired yesterday. No further steps will be taken to prevent extradition.

GOLD OUTPUT OF YUKON

HON. FRANK OLIVER THINKS IT WILL BE PERMANENT.

B. C. COAST TOWNS SECURING INCREASING SHARE OF TRADE

Winnipeg, Oct. 3.—Hon. Frank Oliver is here on his way to Ottawa. Respecting his visit to the Yukon he said:

"The fact of chief interest regarding the northern goldfields, both to residents of the country and to those interested in it, is that there is every reason to believe that the yield of gold will be permanent. The annual product last year was not as large as in some previous seasons but it was very great nevertheless, and in proportion to the population of the country, very much more gold was secured than from any other gold fields in the world. An increasing amount of the trade of the country is being done from Canadian cities and although the amount of gold produced is less than formerly, the volume of Canadian trade is very greatly in excess of what it was. Larger purchases have been necessary in these later years in connection with the production of gold, and the trade of Canada has greatly benefitted by these great purchases.

The trade of the city of Seattle with the Canadian Yukon continues very large. The shipping facilities of the American city are excellent and, as is well known, American merchants are keen competitors for trade. They handle a fine class of goods and ship them with great promptness. Canadian merchants on the coast are rendering a splendid service to the northern country, and are, as I have stated, steadily increasing their grasp on the business, but the city of Seattle had the advantake of the start, and continues to do a large share of the trade."

PARALYSIS OF THE CONSTITUTION

Professor A. V. Dicey on the Political Situation in Great Britain.

British politics are just now in a confused condition. In the Contemporary Review for September, professor A. V. Dicey discusses what he calls "the paralysis of the constitution." He says the ministry, the opposition, and the nation stand at the present moment all alike in a false position. Ministers hold office when they have ceased to command the confidence of the country. The fiscal controversy has made the nation distrustful. The liberals hold a position at least as ambiguous. They are as little pronounced on home rule as the government on tariff reform. Neither of the great parties commands the confidence of the people. The mass of the nation is represented by neither.

"A cabinet which is called upon to resign because it does not represent the free trade principles of the nation may reasonably enough deny the moral obligation to make way for another cabinet which does not represent the unionism of the nation."

Yet, the learned professor says, not the government alone, but "every party and every member of every party dreads the next general election, and wishes to conciliate possible opponents. Conscious weakness produces, as always, unconscious cowardice."

Of this he finds two curious illustrations.

"How many of our legislators seriously believe in the wisdom or the possibility of establishing a system of old age pensions? Yet where are the men who have ventured to say openly that the attempt to provide old age pensions must end in failure, and, before its failure is patent, may lead to ruinous consequences?

"What, above all, is the meaning of hasty tampering with the fundamental principles of the poor law? What, in short, explains the support given to the unemployed workmen's bill?"

The only cure that professor Dicey can find for the situation is the creation of a majority which acquiesces in the will of the country, a unionist party that has renounced tariff reform, a liberal party renouncing the alliance with separatists, or even the conversion of the nation either to protection or to home rule. The two last possibilities professor Dicey deprecates as warmly as he desires the two first. The whole article reveals with almost tragic pathos the perplexity and suffering which Mr. Chamberlain's plunge has caused earnest and conservative minds.

JUNEBUGS KILL HORSES.

Amherstburg, Oct. 3.—About a week ago a number of horses in this vicinity were taken ill and about a hundred have since died. The farmers were at first unable to explain the sudden epidemic but they are now convinced that Junebugs, which were mixed in with the hay, have been causing all the trouble.

RUSSIAN ELECTIONS

St. Petersburg, Oct. 3—An imperial decree has been published today directing that immediate arrangements be made to conduct elections of members of the national assembly. The regulations for the conduct of the elections are also published today in the Official Messenger.

NELSON'S NEWS OF THE DAY

The Calgary Herald states that the Alberta provincial elections will very likely be held the first week in November.

An auction sale of household furniture will be held by Charles A. Waterman this afternoon at 2 o'clock at the residence of Mrs. Brigstocke, on the corner of Silica and Hendryx streets.

A meeting of the directors of the agricultural society will be held in the city hall tonight for the purpose of passing the accounts in connection with the Nelson fair. All persons having accounts against the association are requested to send their bills to the secretary at once.

The Great Northern train from Spokane, due Monday evening at 8:45, arrived yesterday morning at 5 o'clock. The cause of the delay was an accident to the wheels of the engine which took many hours to repair. As it occurred near the mountain station the passengers suffered no serious inconvenience.

The regular meeting of the order of Humility and Perfection will be held in the lodge room this evening. No degree work will be performed. The meeting will be a social, open to all Oddfellows, visiting brethren being cordially invited. The evening's program will include the celebrated Moon Feast.

The C.P.R. has begun to use natural gas for illuminating cars on its passenger service. The tanks are filled at Medicine Hat. The governor general's parlor car was the first with which the experiment was tried. Three tanks, containing 647 feet were filled, the pressure being 147 pounds to the square inch. The gas gave entire satisfaction and the cars on the Crow's Nest line are being fitted with the equipment necessary for the use of gas.

BIG BERLIN STRIKE

Berlin, Oct. 3—The strike of the electrical workers has extended to two more factories. The total number of men out is 38,000. No disturbances have occurred.

TELEGRAPHIC TICKS

P. Crowe has been arrested in Butte for the kidnapping of the son of Edward Cudahy of Chicago in 1900.

The hemp field and warehouses in Manila have been damaged to the extent of $5,000,000 by the recent typhon.

The losses of the steamers Carmenis and Canliabia are reported to have occurred off the Philippine islands during the late storm.

Th United States circuit court of appeals has decided that the $2 head tax can be collected on aliens in transit through the United States.

Boxing exhibitions are again permitted in Chicago.

Inland revenue returns for Winnipeg port for September are $100,181.78, as against $86, 235 for 190 4.

LATEST FROM MARYSVILLE

Sullivan Group Mining Officials Inspect Smelter and Mine.

[Special to The Daily News]

Marysville, Oct. 2.—A number of officials of the Sullivan Group Mining Co., have been here inspecting the smelter and the mine at Kimberley. It is expected that the object of their visit was to lay out the work for the coming winter, in the way of improvements and additional plant. By present indications the smelter will be one of the largest and best equipped that money can buy. This, with a good supply of coal close at hand and any quantity of water power, should make the treatment of the ore cheaper than at any other smelter in B. C.

It will be good news to the many tourists and prospectors that traverse the road to St. Mary's lake, to know that the bridge across Mathew creek, which was partly burned about two weeks ago, is about to be repaired. Heretofore it has been necessary to drive through the river, descending and ascending steep banks on each side, and travel with heavy loads of freight was impossible.

Mr. Chenette, who purchased the Royal hotel some time ago, has remodelled the building and added many improvements.

E. J. Clayton, the local postmaster, who also keeps a general store, has one of the best equipped postoffices of any town of this size in the dominion. He lately installed 100 new postoffice boxes which the press of business made necessary. Miss Ouellet has accepted the position as money order clerk, and her courteous efforts are appreciated by all who have postoffice business to do. On and after the 1st instant the telephone exchange, which has been located at Clayton's store, will be found in the office of the Marysville Drug Co., where it is proposed to have a continuous night and day service.

ST. CHARLES EVAPORATED CREAM

makes an excellent cream for fruit, especially for such as contain a large proportion of acids. It is better than ordinary cream because it will not curdle. For the same reason it is more digestible and healthful. It can be used by persons with whom dairy cream does not agree.

St. Charles Cream is equal to the best ordinary cream for any purpose. In using it *you take no chances.*

Sold by Best Grocers Everywhere.

NELSON'S NEWS OF THE DAY

Alderman D. M. Macdonald is confined to his home with a severe cold.

C. F. Caldwell, manager of the Pontiac mine at Kaslo, arrived in the city yesterday and is at the Hume.

There was a musical reunion of the choir of St. Saviour's at the home of Mrs. N. M. Cummins last evening.

Between 3 o'clock on Monday afternoon and 4 o'clock yesterday morning, 13 hours, there fell .77 inches of rain which is about a record for this city.

W. R. Thompson has returned from a trip to Edmonton and the northwest countr generally. He reports that times are humming in that section of Canada.

A. Robinson, superintendent of education, has completed the inspection of Nelson public and high schools. He will spend part of this week visiting Trail and Rossland.

The partnership existing between E. K. Strachan and W. J. Cutler, as plumbers and fitters, has been dissolved, the latter retiring from the business. A new partnership has been formed between E. K. Strachan and W. Hebden.

John A. Gibson spent yesterday introducing to his friends his twin brother, S. H. Gibson, whom he last saw in 1890, in Bruce county. S. H. Gibson declares that his brother has hardly changed in the interval.

Owing to delayed trains on the main line the Arrow lake steamer was late yesterday, passengers from the coast reaching the city at an early hour this morning. A special train brought in the passengers from Rossland and the Boundary at 11 o'clock last night.

New sidewalks have been laid along the south end of Cedar street and on Observatory street in Addition A by the provincial government. The roads have also been graded making them somewhat more practicable for teams. The improvements are disconnected with the city sidewalks as a gap, within the city limits, exists for 123 feet on Cedar street and for 300 feet on Hoover. The city sidewalk gang having been laid off for the winter, a connection has been promised for next year.

OBJECT LESSON FOR WALL STREET

New York, Oct. 3—Police commissioner McAdoo today assented to a widespread opinion that the $359,000 theft was committed only as an object lesson to Wall street. Leonard's bail was fixed at $25,000 today, after an attempt had been made to place the amount at $50,000. It was stated at the rearraignment that the charge of larceny would probably not be pressed against Leonard but that he would be prosecuted for forgery.

Self Feeding Coal Stoves

Have you considered the comfort and economy of using a self-feeding stove. The steady even heat, the elimination of dust, dirt and labor (one scuttle full of coal night and morning) and the economy of using only half the quantity of fuel makes this type of stove very desirable. We have self-feeding stoves for both soft and hard coal, which we can offer you at very special prices.
We would be pleased to have the opportunity of discussing the question with you.

GOSSIP OF GRAND FORKS

Bonanza Mountain and Triple Camp Doings—Boundary Customs Receipts

(Special to The Daily News)

Grand Forks, Oct. 3—A revival is taking place in mining on Bonanza mountain. Properties which have been idle for years are now being developed with good results. An assay has just been made from surface croppings taken from the Blue Boy property in that camp, which went 64 cents in gold, $6.36 in silver and $28.20 in copper and $1.92 in lead, making a total value of $37.12 to the ton.

Word reached here yesterday from Triple camp, on the west fork of the Kettle river, that the Sally mine near Beaverdell is now steadily shipping some 20 tons of ore per day. This ore is exceedingly high grade, the chief value being native silver. It is hauled some 65 miles to the Greenwood smelter and pays a handsome profit to its owners after all expenses.

The Carmi mine on the west fork has been shut down until the Midway & Vernon railway is built to the camp.

The following are the customs receipts as received at the chief port of entry at Grand Forks, for the month of September:

Grand Forks	$7,634.30
Phoenix	1,353.06
Greenwood	1,419.98
Midway	4,283.39
Cascade	188.94
Sidley	75.75
Carson	31.52
Osoyoos	21.02
Fairview	14.05
Keremeos	5.25
Total	$15,026.88

GREAT NORTHERN HOLDUP

Robbers Secured Less Than $1000—Big Reward Offered for Capture

St. Paul, Oct. 3—General manager D. S. Elliott of the Great Northern Edpress company, made the following statement today regarding the holdup of the overland passenger train last night at Seattle:

"Our train leaving Seattle for St. Paul last night at 8 o'clock was held up by masked men about ten miles north of Seattle on the shore of Puget Sound. They forced the engineer and fireman at the point of revolvers to request the express messenger to open the door and leave his car. Some of the robbers then wrecked the safe with dynamite. Such of the contents of the safe as were not damaged by the explosion were taken by the robbers, who, it is supposed, had a boat handy to carry them away. There was little money taken, being all small remittances and amounting to less than $1000. The passengers were not molested. Up to the present hour we have no clue as to who the robbers are, or in which direction the made their escape."

Seattle, Oct. 3—A reward of $500 was offered today by the Great Northern Express company for the capture and identification of the robbers.

LICENSE COMMISSIONER RESIGNS

(Special to The Daily News)

Grand Forks, Oct. 3—A. H. Lawder, a member of the Boundary Creek licensing commission, has today resigned his position on the board. No cause for his resignation has been assigned.

OPTIMISTIC ESTIMATE

Sir Frederick Borden Has High Opinion of the Northwest

Winnipeg, Oct. 3—Sir Frederick Borden and party, including major general Lake, arrived here today en route east, after a tour of the west. The minister of militia was greatly impressed with the resources of the country and stated that he believed a thousand million bushels of wheat and barley is possible. The party leave for Ottawa tomorrow.
