HAS WON FREEDOM

Czar Gives Constitution to the Grand Duchy of Finland

Sends Four War hips and Ten Thousand Men to Overawe Finlanders at Their Capital at the Same Time

London, Nov. 4.—A despatch from St. Petersburg to the Times, published in a second edition of that paper today says:

"Finland has won her freedom. A manifesto embodying all the demands presented by the popular delegates at Helsingfors to prince John Obolensky, the governor general, will be submitted by secretary of state Luider for imperial signature at Peterhof tonight. The keystone of the new constitution of Finland is the responsibility of the secretary of state and the diet and not that of the monarch as hitherto. The presence of the Russian warships off Helsingfors is intended to signify that although the emperor grants constitutional freedom, he intends to prevent the severance of the grand duchy of Finland from the Russian empire." This despatch is dated November 3.—It is confirmed by a report received by the foreign office at Paris that "Finland has practically established an autonomous form of government without the Russian government adopting repressive measures."

On the other hand a despatch to the Associated Press dated Helsingfors states that "three Russian battleships and a cruiser with 10,000 troops have arrived here from Reval and are anchored in the harbor. The general strike continues and the situation is threatening on account of the attitude of the socialists, the other classes being content with the imperial manifesto. There is neither light nor communiaation by rail or telegraph with the interior with the single exception of a wire working intermittently with St. Petersburg."

This is backed up by a despatch to the same agency from St. Petersburg which is as follows:

"The most serious feature of the present situation in this country is in Finland where the socialists and revolutionists are threatening to go to such an extreme as to frighten many of the constitutionalists, whose aims do not include the separation of the grand duchy from the empire. The government, on account of the railway strike, is greatly hampered in sending the troops to Finland. Four warships, containing 10,000 troops, have anchored in the harbor of Helsingfors but it is impossible to send reinforcements into the interior, where a formidable movement might originate being unable to act effectively or even to obtain information with regard to it, owing to the suspension of telegraphic communications. The Finnish revolutionists are known to be well armed.

"The governor general of Finland, prince John Obolensky, arrived here yesterday and conferred with emperor and count Witte on the situation.

"While communication with Helsingfors is practically interrupted, a report is current today that a revolutionary government has already been established at Helsingfors and that the troops have already delivered up their arms to the revolutionists. But despatches received from Helsingfors recently do not show that affairs have reached the stage of an open revolution there."

A despatch to a news agency from Helsingfors says that emperor Nicholas has just been issued a manifesto granting Finland a constitution. The despatch adds that the resignations of the members of the Finnish diet have been accepted and that elections of the next diet will take place immediately and that it is expected that the first sittings will commence on December 20.

Helsingfors, Nov. 4.—Batteries have been placed on two commanding hills outside the town and the cannon in the Sveaborg fort have been turned against the city, which also lies under the guns of the warships in the harbor. The authorities, with the assistance of the 10,000 reinforcements which have arrived here hope to be able to control the situation. Russian families are seeking shelter in the Nylads.

Stockholm, Nov. 4.—A despatch from Helsingfors states that a manifesto was issued there today accepting the resignations of the ministers and summoning the diet to meet on December 20th.

Helsingfors, Nov. 4.—Prince John Obolensky, the governor general, covered his departure for St. Petersburg yesterday by artifice. He started out in the state carriage for the usual drive along the parade to the church, but never returned, slipping from the church to the quay whence he rowed to the battleship Stovo and afterwards was taken by a torpedo boat to St. Petersburg.

AYLESWORTH ON THE STUMP

Toronto, Nov. 4—The campaign has opened in North York. Hon. Mr. Aylesworth spoke at Newmarket to a big crowd. He eulogized the retiring postmaster general and said that sir William Mulock's policy would be his policy too. He referred to the indemnity increase, and said that if elected he would oppose the indiscriminate pensioning of ministers and endeavor to secure amendment to that act in that respect.

TO INSTALL NEW PLANT

PREPARATIONS BEING MADE AT HALL MINES SMELTER

J. J. CAMPBELL DESCRIBES PLANS OF IMPROVEMENT.

Extensive improvements and additions to the plant, and changes of arrangements are constantly in progress at the Hall Mines smelter. All the changes are in pursuance of a comprehensive plan designed jointly by R. R. Hedley, smelter manager, and H. Harris, chief assayer. The purposes kept in view are convenience and economy. Much has been accomplished in this direction within the last year and important changes are still in progress.

The installation of new machinery has been already determined upon and prepartions are being made for its reception, but the management is not yet prepared to state its nature or extent.

A reporter of The Daily News called on J. J. Campbell last evening and asked for some information as to the changes being effected, in addition to the very condensed account contained in the annual report. Mr. Campbell said:

"I am afraid that an account of the changes made during the year would be too long and not very interesting. They are always in progress. At present a system of gravity bins close to the furnaces is being installed. Its object, of course, is to save unnecessary hauling and handling.

"All the changes are being made in accordance with a plan adopted a long time ago. It was devised by Mr. Hedley and Mr. Harris after careful study of the requirements.

"Formerly there was a great deal of work, such as hauling, handling, lifting and lowering, done by hand, which can be done better, faster and less expensively by machinery. Anything that does away with the necessity for such work is a benefit. That has been the purpose of nearly all the changes that we have made in the design and arrangement of the plant.

"We have lately been adding a new crusher and other additions and renewals are made frequently.

"At present a large force of men is engaged an construction work at the plant and changes the being made a little faster than before. Excavation has been begun for the installing of new machinery.

"No, I am afraid we are not quite ready yet to tell you what is the nature of the machinery to be added now.

"The Silver King? Well, our partnership agreement with Mr. Davys will last for a long time yet, and it is too early to say what plans will be adopted at its expiration.

There is nothing new in the lead situation. Yes, I have seen the statement that the St. Eugene will probably resume shipments before the first of December, but I expect that it will be only a few days before. I prefer not to say anything about the problem of ore supply at present, but the period of possible shortage is reduced now to a fortnight at the most."

FRANCE AND THE RUSSIAN LOAN.

Paris, Nov. 4.—The progress of the Russian revolution causes grave apprehensions in regard to the success of the Russian loan of 1,250,000,000 francs, a large portion of which was to have been taken up in France. Among the masses of the French people there is a strong trend of sympathy with the revolutionists, but all admit the danger of plunging a country into universal suffrage where the inhabitants are wholly uneducated. Consequently count Witte, with his wide experience and his broard, liberal views, is felt to be the only man able to save Russia from anarchy or from a reign of terror. The French opinion of the czar is that he lacks the force of character, the determination and the grit, necessary to cope with the situation, and that he has adopted the only measure by which the dynasty can be saved by making count Witte a responsible minister with full powers.

NORDICA'S THIRD VENTURE.

New York, Nov. 4.—There appears to be absolutely no doubt that Mme. Lillian Nordica, premier American soprana divinity of the operatic stage and twice before a bride, is shortly to be married to captain de la Mar, whose fortune is estimated at $25,000,000. The groom-to-be has been married and divorced and has lived a life filled with romance such as would tax the genius of a Dumas to fitly portary, for de la Mar came to America an immigrant sailor many years ago, later became a deep sea diver and finally as butcher, then real estate dealer and finally miner, amassed a tremendous fortunte in the west.

TO CONSULT THE ADMIRALTY

Ottawa, Nov. 4.—Hon. R. Prefontaine leaves for England in about ten days to consult the admiralty regarding the proposed establishment of a naval reserve both on the Atlantic and Pacific coasts. He will also confer with the authorities at Lloyd's.

KILLED HER STEP-CHILDREN

Minneapolis, Nov. 4.—Mrs. James Brennan, step-mother to the four children of James Brennan, today shot and killed three of the children, fatally wounding the fourth, and is herself dying of a self inflicted wound.

DIVIDEND ON SLOCAN STAR

Sandon Silver-Lead Mine Pays Five Per Cent From Profits

Good News Received Yesterday by Bruce White--Company Meeting With Success in Spite of Litigation

The welcome news of another large dividend was received in the city yesterday. This time it is the Slocan Star Mining & Milling company of Sandon. On November 1st the directors decided to pay a dividend of $25,000 out of the profits for the year. This sum represents five per cent on the capitalization of the company which is $500,000.

The result is all the more creditable, and the more gratifying to the shareholders because during the year, in addition to the heavy expenses of mining, hauling and treating silver-lead ores, the company has had to bear the cost of protracted litigation over a disputed title to adjacent properties. The management of the company has been somewhat reticent lately as to the progress and results of their operations, but the dividend speaks for itself.

As G. W. Hughes remarked recently on the occasion of the announcement of a dividend from the Lucky Jim mine: "Accounts of development work done, of the number of men employed, of the amount of money expended, and of assay values obtained, are all interesting reading, but after all the best advertisement for a mine or a district is a dividend."

The news was received yesterday by Bruce White. To a request for particulars, Mr. White said:

"The dividend was declared on the 1st of November, and is payable now. The amount is $25,000, which represents five per cent on the capital authorized, which iis $500,000.

"I don't remember what the number of this dividend is, but it is the only one that has been declared this year.

"Yes, a dividend is satisfactory under any circumstances, but considering what the Slocan Star company has had to go through in the last year, I think a dividend of five per cent is decidedly good."

Coming so soon after the payment of a large dividend by the Lucky Jim mine in the same camp ,the result should be a decided stimulus to Sandon and the whole Slocan district.

COULDN'T BE TOO SWEET

SPEECH OF PRINCE LOUIS AT THE LUNCH AT WASHINGTON

INSPECTS THE FAMOUS AMERICAN CAVALRY DRILL

Washington, Nov. 4—Admiral prince Louis of Battenberg had a busy day at Washington. Beginning with an elaborate luncheon, given by general Chaffee, the whole remainder of the day was taken up by functions and festivities. At the luncheon the health of the king was drunk while the military band played England's national anthem.

Rising to respond to that toast prince Louis said in part: "Next to their loyalty to their king, every British officer cherishes the president of the United States—the king first but the president next. They have not only affection and esteem for the president alone but particularly for the man, for Theodore Roosevelt. And this prevails wherever the English language is spoken."

From the luncheon, accompanied by general Chaffee and the several staffs together with the distinguished guests, the prince drove to Fort Meyer, cordially returning the salutes which greeted him on every side. There the prince witnessed one of the famous American cavalry drills, executed by troop F. Afterwards an informal reception was held in the quarters of colonel Hatfield.

The state dinner, given at the White House was at 8 o'clock. The spacious dining room with its walls of carved oak was simply but effectively decorated with roses and chrysanthemums. The healths were informal but included the king and the president and the guest of the evening.

The personal staffs of the prince and the commanding officers of the British squadron were guests of the Army and Navy club at a smoker from nine to midnight.

FOLLOW NELSON'S LEAD.

Greenwood, Nov. 4.—Alderman Frank Parker, who has been transferred to P. Burns & Co.'s head office in Calgary, has sent in his resignation as alderman for the south ward. The council decided not to accept the resignation, in view of the fact that it is only about two months until the general municipal elections will be held.

HOT AFTER SCALPERS

Winnipeg, Nov. 4—The C.P.R. is waging a systematic war against the ticket scalper and incidentally causing the customers of the said ticket scalpers considerable inconvenience and expense. Two men were arrested on Tuesday last and three yesterday on western trains for travelling on scalpers' tickets. It is not believed that prosecution will follow in these cases, but the whole five were compelled to pay full railway fare to their respective points of destination and the scalpers' tickets taken up.

SANDON ORE SHIPMENTS

The following are the ore shipments from Sandon for the week: Silver lead: Star 33 tons; Payne, 20; Last Chance, 20; American Boy, 21; Reco, 20; Flint, 15; total, 129 tons. The Payne shipepd 120 tons of zinc to Pueblo.

PAYNE MINE LEASED.

Sandon, Nov. 4.—(Special).—Walker Smith has secured a three year's lease on the Payne mine and plant. It is expected that the Payne will proceed with new development and become once more a steady shipper. By this transaction the leasing system has received a great impetus.

CAMPAIGN IN ALBERTA

OUTLOOK FOR THURSDAY NEXT IS BRIGHT FOR LIBERALS.

LEADER BENNETT'S CHANCES OF ELECTION FADE AWAY.

(Special to The Daily News)

Calgary, Nov. 4.—The end of the first election campaign in the new province of Alberta is in sight and the unmistakable indications now are that on Thursday next the liberal government of Hon. A. C. Rutherford will record a decisive victory.

Reports received at campaign headquarters here from all sections of the province justify the belief that the liberals will carry 20 out of the 25 ridings. This appears to be a somewhat optimistic prediction, but those conversant with the situation in both camps freely concede a sweeping victory for the government and an analysis of the reports leaves little room for doubt that the number of tories returned on the 9th will be under ten and in all likelihood the total will not exceed five.

Of the election by large majorities of premier Rutherford, attorney general Cross, Hon. Dr. DeVeber and Hon. W. T. Finlay, there has never been the slightest doubt. Some fears were entertained earlier in the campaign that Hon. W. H. Cushing would be hard pressed to head the poll in Calgary, his chief opponent in a three cornere dfight being the redoubtable leader of the conservative forces R. B. Bennett. All fears on this score have, however, been removed in the past few days and the election of Hon. W. H. Cushing is now reasonably sure. R. B. Bennett is truly gifted with a fluent command of language. Unfortunately for him, and his chances of heading the polls in this city next Thursday, his tongue works faster than his brains and he says things on the platform that he afterwards finds extremely difficult to explain away. The worst break he has made in the campaign was to accuse his opponent Mr. Cushing, minister of public works, of corrupt practices, particularly with regard to the expenditure of public moneys for road works. Mr. Cushing gave him the lie direct at a public meeting and then amid the jeers of men of all shades of politics, R. B. Bennett attempted to squirm out of a nasty corner. His explanations would not go down and the better element in the conservative party were thoroughly disgusted with the pitiable showing made by their leader. Mr. Cushing was too well known here for any fair minded citizen to tolerate his being accused of corrupt practices. His record as an upright, square-dealing business man was too well established and too generally known for any mean insinuations of the kind given tongue to by Bennett to have other than an evil effect upon the election prospects of the man who made them.

Another factor that will seriously affect Bennett's vote is the candidature of A. Macdonald, the independent labor nominee. Macdonald will get the votes of the men employed at the C. P. R. shops, which the conservatives had counted upon in view of Bennett's connection with the company as solicitor and parliamentary agent.

All things considered there is every reason to feel confident that W. H. Cushing will be Calgary's first member in the new provincial legislature.

Another contest that is being watched with keen interest is the quadrilateral fight in Pincher riding. In that district there are two conservatives, one liberal and one labor candidate running. The fight is really between Marcellus, liberal, and Sherman, labor. It is admitted that the running between these will be close, though the liberals feel confident that their man will head the poll.

In MacLeod riding, H. Mackenzie, the liberal candidate, is safe. De Veber will carry Lethbridge without a doubt.

The contest in Red Deer is more than ordinarily strenuous between John T. Moore, the liberal candidate, and Rev. Dr. Gaetz, the conservative candidate. The contest has passed the stage of campaigning and now writs and such like are being used as weapons. Mr. Moore has charged Rev. Dr. Gaetz with slander, and has issued a writ for $25,000 damages against his opponent.

SENATOR FULFORD WAS RICH

Toronto, Nov. 4.—The will of the late senator George T. Fulford has been filed in Brockville and administration of the Ontario portion of the estate asked for. This will amount to $4,800,000, it is estimated, but it is impossible to say for some time how much the province will get for succession duty. In any case it will be a long time before the estate in finally wound up so far as the payment of the duty is concerned.

The five millions odd of an estate left in Ontario by no means represents all that senator Fulford left. He had valuable interests in Britain, France, the United States, Australia and even China, ann auxiliary letters of administration will have to be taken out in those countries. The province of Ontario derives nothing from such portions of the estate.

CONCEDES DEMANDS

Witte Settles Strike and Railroads Will Now Resume Work

Monster Procession Takes Place Today in St. Petersburg in Honor of the Men Dead in Struggle for Freedom

St. Petersburg, Nov. 4.—Count Witte is getting his hands on the helm and the Russian ship of state is beginning to right itself. Order is rising out of chaos that followed the promulgation of the constitution, giving the people liberty. The premier has met the immense difficulties confronting him and the pressure of the demands of the different social classes with the energy and sincerity that are more and more giving him the support of moderate liberals, who have been frightened by the carnival of disorder into which the country has been plunged and the inordinate demands of the proletariat, under the leadership of the "Reds" and several democrats.

Emperor Nicholas has signed the manifesto granting practical autonomy to the Finns and it has been despatched to Helsingfors where a grave revolution was threatened. Battleships alread had reached that port with 10,000 troops to quell the insurrection. The emperor's manifesto abolishes the dictatorship and summonses the diet to meet on December 20 with new and sweeping powers.

Count Witte has completely settled the railroad strike by giving in to the strikers, with whom he had a conference yesterday.

Despatches are brief from the riot centres. An Odessa despatch says: "It is believed the worst is now over owing to the mobs being satisfied with two days carnival of murder and destruction by flames. The revolt is dwindling down, partially, perhaps, because of lack of material upon which to prey. In several towns the Jewish quarter has been devastated and Jews killed or wounded."

The railroad strike was solved at a conference with the strike leaders at which count Witte did not hesitate to surrender to the men's reasonable demands. The bases of settlement are comprised in the following telegram sent to the strike committees throughout the empire.

First—The remuneration of all railroad employees is increased and the budget of 1906 will be revised to provide therefor.

Second—The creation of a commission on which the employees are to have elected representatives to consider questions of improvement in their condition.

Third—Permission is given railroad employees and workmen to have a co-operative organization based on models of Western Europe.

Fourth—The abolition of military regulations applying to railroads.

Fifth—Freedom of meeting for employees of railroads to discuss questions of a strike without notice being given to the police.

Sixth—Inviolability of the person of strikers and the employment of men dismissed for striking.

Seventh—The cancelling of all circulars limiting the employment of Poles on the Polish Southwestern and the western railroads and giving permission to use the Polish language in private.

A monster procesion has been organized for tomorrow on the occasion of the funerals of the victims of the recent disorders and in honor of those who have fallen in the struggles for liberty. Deputations from all quarters of the city will assemble at the Kazan cathedral at 12 and march through the Nevsky Prospect. The possibility of conflicts between the opposing sections of the population is causing apprehension.

An official communication issued tonight points out that the publication of the emperor's manifesto of October 30 has not yet pacified the country and declares it indispensible that all classes of the population shall refrain from action which might render the situation more acute, in order to avoid conflicts and disorders which the government must suppress to insure the immunity of the person and property of all citizens in Russia of all nationalities and religions.

WRECKED BY TORNADO.

Twice This Year Has Mountain View Lost Many Lives.

Oklahoma City, Okla., Nov. 4.—A report from Anadarko says that Mountain View, 35 miles west of Anadarko, was struck by a tornado this evening and much damage was done. A relief train has gone from Anadarka to learn the extent of damage. It is reported that 35 persons have been killed and injured. Mountain View is a small town three miles from Snyder, which was wrecked by a tornado last spring, with a loss of 120 lives.

Mountain View, Nov. 4.—A tornado struck Mountain View this evening killing seven persons and injuring many others and damaging much property. The dead are: W. T. White, W. F. Clark, Jennie Jenesm, Mrs. M. Holt and child, J. S. Barkley, Mrs. Smith. The school house, two churches, two livery barns, one hotel, a cotton factory and about a dozen dwellings were blown down. The business part of the town was untouched except that a few windows were blown out.

WORK FOR CITY COUNCIL

CONTRACTORS' REQUEST FOR RELEASE TO BE ANSWERED

CITY SOLICITOR TO BE APPOINTED—TRAMWAY DETAILS

The regular forinightly meeting of the city council will be held in the city hall tomorrow morning at 10:30. There will be a formidable agenda paper to dispose of, and public interest in the result of the council's deliberations is certain to be keen.

A long conference was held in the city hall last evening, those present being D. McBeath, W. P. Tierney, acting mayor Gillett, alderman Kirkpatrick and P. E. Wilson. The matter of the contractors' request for a release from their obligations in respect of the city power plant was thoroughly gone into. The result of the conference will be reported to the council tomorrow and it is expected that a definite reply will be returned at once.

The causes that led to the suspension of the street car service Friday morning are certain to become matter for discussion and it is said to be on the cards that a change in arrangements and responsibilities in regard to the city's tramway and electric light services may be effected.

The resignation of P. E. Wilson of the position of city solicitor will be presented. His taking the oath of office as a judge of the county court precludes his acting in that capacity any longer. In the city's present circumstances, with the most important law suit in its history pending, and with the date for the hearing of the city's appeal set for Tuesday, Nov. 7, it is imperative that a successor be appointed without delay. The position, however, is not unforseen. There are few lawyers in Nelson whose names have not been mentioned in connection with the appointment.

At a late hour last night nothing could be learned as to the probability of a petition for an extra municipal election being addressed to the council as a result of the meeting held in the opera house on Thursday evening. Without it the acting mayor and aldermen have plenty of work on their hands to occupy their attention for several hours.

VICTORIA HAS PIPE DREAM TOO

Looking Forward to Being the Real Pacific Terminal of C.P.R.

Yesterday The Daily News published a report from Vancouver that the people of that city expected the G.T.P. terminus to be located within its limits. Not to be outdone by Vancouver, Victoria now has a notion that the C.P.R. will in the near future make that city its real Pacific coast terminus.

The Victoria story is to the following effect: On good authority it is reported that the Canadian Pacific railroad will within a year or two alter the main line of the road across the prairie sections of the dominion and through British Columbia. The reason for this is that the present route through the mountains in this province is found to preclude successful competition in the carrying trade as far as transpacific shipments are concerned. The grades are too great and in order to carry grain to the Pacific coast from the wheatfields, a better route is required.

The Grand Trunk Pacific intends to pass through Edmonton in the northern part of the wheat producing section and from there come out on the Pacific coast near Port Simpson. The road will be one of the very easiest grades. The Canadian Pacific, however, has not been sleeping with respect to meeting the competition but on the contrary will probably reach the coast by an improved route almost as soon or even before the more northern competitor has completed the line to the Pacific.

The C.P.R. has been steadily acquiring railway charters in the Northwest which now gives it every direct route from Winnipeg to Edmonton. The way is thus prepared for a continuation of the more level line to the Pacific coast. According to the information received here, the work on the remaining section through the Rocky mountains from Edmonton and across the province of British Columbia to Bute inlet. From there a bridge is projected across Seymour narrows to Vancouver island. An outlet for the trade will be found at a port on the west coast of the island.

The only difficulty which may exist is in getting a route down Bute inlet. This part of the route is the only one which has not yet been surveyed, but it is not believed any serious obstacles will be met. The remainder of the route was all surveyed when the C.P.R. was first projected. It is a feasible route and many have wondered why it was not selected in the first place.

Bute inlet is the centre of the very best timber region in British Columbia and the northern part of Vancouver island is likewise rich in timber. By getting a port on the west side of Vancouver island the company will be brought nearer the orient and the advantages which follow are considered most important.

If the bridging of Seymour narrows offers too great difficulties, or it is found impracticable to get a route down Bute inlet there yet remains another route for reaching Vancouver island. This can be done by means of a ferry from Knight inlet to Fort Rupert.

The C.P.R. has recently acquired nearly two million acres of land on Vancouver island by the taking over of the Esquimalt & Nanaimo railway. Its interests are therefore great on this island and it is fully expected that ultimately the company will make the island its western terminus.

HUDSON'S BAY DIVIDEND

The Hudson's bay company is stated to be already piling up considerable sums against next year's dividend distribution, according to a London paper. Besides the £119,200 cash receipts already announced on the land sales account for six months, ended Sept. 30, it seems that the Stork, which was ice bound last winter, and is at present in London docks, has a cargo of furs worth £80,000 on board, arrived too late of course to swell the last dividend declared. This will total £199,200, to say nothing of the part payments on the balance of £70,800 for land sales, the full payment of which is extended over a term of years.

NEW MASONIC TEMPLE

Vancouver, Nov. 4—The three Masonic lodges of this city have combined in the purchase of a site for a new Masonic temple. The site is on the corner of Georgia and Seymour streets. By the time the lease of the premises at present utilized by the Masons of this city runs out the new Masonic temple will be completed and it will be a credit to Freemasonry of the west.

BAVARIAN AGROUND

Quebec, Nov. 3—The Allan line steamer Bavarian, which left here at 7 o'clock last night went aground about 8 o'clock on the Wye Rock, near Montagne and the steamer Lord Strathcona has gone to her assistance.

CHARGES ADMITTED

Congo Committee Submits Its Report to King Leopold

Sets Off Grave Abuses by Recounting the Advantages Brought by Civilization Into the Interior of Africa

Brussels, Nov. 4.—The Belgian government tomorrow will make public the report of the committee appointed by king Leopold to investigate the conditions in the Congo Independent state and the charges made against the administration there. The Associated Press was given access to the report which while praising the notable work Belgium has accomplished, frankly criticized many abuses.

"Security reigns today in a country which 25 years ago was plunged in barbarity, plundered by Arab tribes and strewn with markets for human flesh," says the report. "The slave trade has not disappeared, cannibalism seeks hiding and human sacrifices have become rare. Villages have sprung up, railroads have been constructed to the head equatorial forests, steamers navigate the rivers, the post and telegraph operate, hospitals have been established and governmental administration proceeds effectively in that vast territory."

Continuing, the report considers the charges which are under eight heads, and says: "The state was warranted in appropriating large tracts of vacant land, but this led to abuses by which natives were confined in narrow limits. The system by which the natives pay taxes in work requires strict limitations so that their work shall not exceed forty hours per month. The natives also suffer hardships in having to carry their tax contributions unreasonable distances."

The report criticised the harsh methods of enforcing the taxes, condemns holding women as hostages pending the non payment of taxes, and says that to these customs are largely attributable the harshness of the native chiefs. The action of the commercial companies in placing sentinel overseers over the native workers is also condemned as is the ill-treatment and abuses by the companies as having provoked many bloody conflicts. Military expeditions against the natives have become rare but the commission points out that such expedition sare liable to assume the character of war operation and therefore the commission recommends the passage of a law strictly limiting the number of authorities who shall be held capable of ordering war operations. Despite the states' prohibition, the report further says, commercial agents send out military expeditions causing grave abuses.

The commission lengthily examined the charges of mutilation of bodies of natives, and points out that mutilation is an ancient custom of the natives.

CRAWFORD MUST DIE.

Minneapolis, Nov. 4.—Governor Johnson has fixed Tuesday, December 5, as the date of the execution of C. D. Crawford, the Elk river box car murderer.

Crawford is now in custody at St. Cloud, but will be taken to Elk river for hanging. Thus far no application has been file with the state pardon board asking for a commutation of sentence from death to life imprisonment.

SAYS LAND IS HIS.

St. John, N. B., Nov. 4.—Lieutenant governor Snowball is filing a petition of right against the federal government in respect to land which the government claims to have taken over with the Canada Eastern railway property. Mr. Snowball says the land is his, and claims $75,000.

CAR PLANT STARTS WORK

Montreal, Nov. 4—The Canada Car company, which was organized by Toronto and Montreal capitalists has begun the operation of its huge plant, the largest corporation of the kind in Canada. The orders on hand include 1000 cars for the Grand Trunk railway. The capacity of the works is 15 cars per day. When running full capacity the plant will employ between 1200 and 1500 men.

HERRERA POSTPONES FIGHT

Los Angeles, Nov. 4—The Hanlon-Herrera fight has been postponed until Nov. 10, on account of Herrera being ill from a cold contracted Saturday night. He rested yesterday but went on the road again today, but collapsed about three miles from his training quarters.

Hanlon at first refused to stand for the postponment, but, after being reminded of his case of sunburn, when he had his fight with Fitzgerald postponed, he agreed on condition that the Mexican pay his training expenses for the additional time.

LOUIS HILL GETS A SNAP

Minneapolis, Nov. 4—The state has closed a contract with Louis W. Hill, vice-president of the Great Northern road, for the mineral rights for 50 years to the south half of the north half of 11-58-19, in St. Louis county.

This is one of the most valuable claims which the state has. The prospecting lease was sold to Mr Hill a year ago for $1500, whereas the minimum price of mineral leases is $25. The claim is situated just north of the Yates mine, which is at present one of the largest producers in the state.

SMOKED FISH

RECEIVED DAILY
BY EXPRESS

Salmon, per lb . . 17½c
Kippers, per lb . . 15c

UNION LABEL

AN OPPORTUNE MOMENT

There being suggestions afloat looking to the healing of the breach in local conservative ranks, and this city being honored by the visit of the chief men of the first conservative government British Columbia has ever had, perhaps a hint from The Daily News might be taken in good part and acted upon when this reunion of the faithful takes place.

Nelson has undoubtedly suffered because of the lack of harmony in the conservative ranks. There have been two factions, one pulling against the other, with the inevitable result that neither has accomplished much good and at the same time their bickerings have afforded an excuse for the government of the day to "pass up" Nelson when any question of necessary public expenditure was mooted.

A new court house has long been a pressing need of Nelson. John Houston at one time secured an appropriation for this building, but things happened and Nelson was disciplined by the conservative government allowing the appropriation to lapse. Since then internal dissensions have made it easy for the government to ignore Nelson's just claims in this respect.

With the prospect of a restoration of harmonious relations it appears to us that our conservative friends could not in a more practical and generally useful manner celebrate the happy event than by obtaining from premier McBride and his chief commissioner, Robert F. Green, a definite undertaking that provision would be made in the estimates at the next session of the legislature for the new court house. The edifice, when erected, and we are sure it would be an imposing structure, would be a lasting monument to the interment of the hatchet. In years to come descendants of present day tories could point to it with pride and tell their children that in the year that magnificent pile was erected their forefathers had in the truest spirit of patriotism, sunk their personal differences and united as one man under the banner of British Columbia's first—and last (?)—conservative government.

EDITORIAL NOTES.

The school trustees of New Westminster city are becoming alarmed at the grave lack of proficiency in penmanship displayed in all grades of the public schools. There is to be an investigation and an effort made to formulate plans for an improvement in this very essential feature of the education of the youth of the city. There is equal cause for alarm on the same score on the part of school trustees in other parts of the province. It is a most regrettable fact that so little attention is paid to handwriting in our public schools.

The Frank Paper, published at Frank, Alberta, cites certain conditions alleged to exist in the coal trade of the Crow's Nest Pass and advises those interested in coal lands in that vicinity not to proceed with development at the present time. The purport of the Frank Paper's contention is that more than enough coal is being mined at the present time to fill all requirements and as a result of overproduction there has been such a cut made in prices by the C. P. R. that coal mining is not under the circumstances a very profitable investment. The Frank Paper asserts that companies already in the field and operating upon a more or less extensive scale will find it difficult to carry on operations at a profit at existing prices, and unless the market be enlarged in some new direction, present outputs may have to be materially restricted.

GOSSIP OF GRAND FORKS

(From Tuesday's Daily)

Grand Forks, Nov. 3—Arrangements are being made for the granting of a lease for three years on the Yankee Boy and Yankee Girl properties on Hardy mountain. It is the intention of the new management to start shipping to the local smelters at once. These claims are among the earliest locations on Hardy mountain and are noted for their innumerable small seams of high grade ore, which runs as high as $56 in all values to the ton.

Development work is being prosecuted on the Betts and Hesperus properties on Hardy mountain. The work of driving the 700 foot tunnel will be continued all winter.

George A. Macleod of the McKinley mine, who has been ill for some days with a mild form of typhoid fever, is rapidly recovering. His sister, Miss A. Macleod, is assisting to nurse her brother.

C. P. R. IN POSSESSION

GRADING WEST OF MIDWAY GOES ON UNINTERRUPTED.

GREAT NORTHERN CONTRACTORS ARE STILL INACTIVE.

(Special to The Daily News)

Midway, Nov. 4.—The work of grading by the C. P. R. gang west of here has continued all week without interruption, and without further conflict with representatives of the G. N. R. company.

Contractor W. P. Tierney, for the C. P. R. company, has now 75 men at work and is making rapid progress. He is still very reticent as to the destination of the line, and disclaims any knowledge of the company's intentions as to tracklaying.

Chief engineer R. A. Bainbridge leaves for Vancouver today. W. P. Tierney leaves for Nelson, but, it is understood, he will return next week to superintend the work.

The stopping of work by the Great Northern contractors between Rock Creek and Midway, and the secrecy preserved as to the scope and purpose of C. P. R. activity, have created considerable interest here, but so far, no one claims to know anything definite on the subject.

BOUNDARY FALLS SMELTER.

To Be Blown in Again About December 1st—Brooklyn Resumes Shipments

(Special to The Daily News)

Phoenix, Nov. 4.—This week ore shipments were started from the Dominion Copper Co.'s Brooklyn mine in this camp, the ore going to the company's smelter at Boundary Falls. Several cars were sent out each day, and some will also be taken from the company's Rawhide mine, also in this camp. It is given out that the smelter itself will be blown in about the 1st of December, although it may be done before that. Supt. W. C. Thomas is now getting matters ready at the reduction works, a supply of coke has been obtained and manager Drummond is gradually increasing the forces at the mines. The last ore was shipped from these properties in May last, just before the Montreal & Boston Consolidated disposed of its mines and smelter to the Dominion Copper Co., the smelter also being blown out in the same month, previous to the turn-over.

Preparations are being made for the installation of an air compressor at the Rawhide mine, this property having previously been operated entirely by hand. The compressor will be an Ingersoll-Sargent machine, to be driven by electric power, taken from the Cascade power concern's sub-station here.

DIED OF HIS INJURIES

(Special to The Daily News)

Fernie, Nov. 4.—Robert Kerr, commonly called "Scotty," who had his two feet amputated by the Coal Creek train the other day, died at the Fernie hospital yesterday. After being carried to the hospital he never appeared to rally from the shock.

He will be buried by the United Mine Workers of America.

When Indigestion Grips You

It is not merely "something you ate" at the last meal—it is weakness in the stomach. A pain is Nature's danger signal that something is wrong. Indigestion is the stomach's way of telling you that it can't or won't work.

NOW is the time to take FRUIT-A-TIVES.

These fruit tablets rest the stomach—bring out a copious flow of gastric juice at meal time—and make the stomach and intestines digest everything you eat.

You know that Fruit-a-tives are doing you good—because there is no more pain—no more sour stomach—no belching gas. Fruit-a-tives keep the stomach clean and healthy—and ready to digest any sensible meal you eat while the constipation is entirely cured by their use.

"Fruit-a-tives are most valuable in the home. We have used two boxes and are to-day getting a third, which tells our opinion of their merits. I find them especially good for the children, pleasant to take and very cleansing in their action."

Mrs. F. M. NORRISH, Calgary, Alberta.

Fruit-a-tives are pure fruit juices in tablet form. They act gently on all the organs of digestion—strengthen, invigorate, and cure. If there is anything wrong with stomach or bowels, cure yourself with

Fruit-a-tives

or Fruit Liver Tablets.

At all druggists, 50c. a box. Manufactured by Fruit-a-tives Limited, Ottawa

NEW YORK FASHION LETTER

New York, Nov. 4—The two departments which are most interesting to women at the present time, the costumes and the millinery, are full of possibilities for the woman who aims to dress well on a limited income. To begin with there are some charming examples of the graceful empire coats that every woman of taste loves. One of green broadcloth was very simple yet extremely smart. It had a wide all round border of cut out embroidery with a scalloped edge, and the yoke and cuffs were piped with a darker shade of green. A velvet collar was decorated with French knots in a lighter shade of green with medallions of lace, the edge being finished with a heavy twisted cord. The puffed sleeve had a deep flaring cuff within which were frills of chiffon and lace.

Another empire coat was of a very dark olive green broadcloth. The upper part was heavily braided with silk soutache, and the velvet collar in a lighter shade of green was decorated with French knots and a green and white silk cord. Beautiful buttons of silver with a leaf design in relief and a few tiny rhinestones finished this beautiful wrap. A smart little waist seen in the same department had a bolero jacket of black baby Irish lace over a pink chiffon. It opened over pleating of lace and chiffon, the whole blousing over a wide pink satin girdle. The sleeves were of elbow length and finished with pleatings of lace and chiffon.

Little leather blouses made in the palest shades of cream, tan and gray are taking the place of summer shirts, both for motoring and driving, and for wearing with tweed suits in the country. These are beautifully soft, having the appearance of satin, and will be more worn than anything else this winter

A lovely gown suitable for autumn wear is of fine black cloth, the long flowing cloak beautifully trimmed with large diamonds of black velvet outlined with wide black silk braid. With it is worn a short black velvet bolero, arranged with a strap effect of the same braid that figures on the skirt. A touch of lightness is introduced by a collar and cuffs and undervest of white glace inlet with old rose cloth, embroidered with the finest pale green and white braid. A deep black waistband tightly folded under the bolero and fastened with three large black buttons set in gold rims complete this costume.

Cashmere is once more in vogue for house dresses and for morning gowns. The colors are usually light grays, delicate shades of brown and the simple trimmings are of peacock green or ochre. Thin corduroy with its becoming velvety lines and in tones of silver gray or chestnut, is also coming into favor for coatees and is admirably suited for automobile wear. Jackets are also made of thin velvet-silk-corduroy of half length. Many of the empire dresses have extremely high waists, so that the skirts mount en corselet, so high as to form a sort of blouse or bolero.

Never before has such attention been paid to underwear. It is of gossamer thinness, to enable it to dress itself to disclose the outlines of the form. It is to comply with this new law of fashion that the "combined" undergarment has come into favor. This new idea is practically a petticoat and half pantaloon; both portions are incrusted with light Burges lace. There are flounces to the lower part of this somewhat Amazonlike drapery, bordered sometimes on each side with pleated lawn, and through the open hemming of which is a ribbon insertion. The favorite materials are the finest of batiste or white cambric. It is a sort of divided underskirt and is attached to a belt of the thinnest kid skin that compresses the waist under the corset and makes that article more pliable. Never before have such vast sums of money been lavished on underwear, the gossamer nothingness of which is absolutely necessary to insure the beauty line which is the pillar and foundation stone of the modernized directoire gowns now in favor.

Furs do not present so discouraging an item of the wardrobe as has been the case for some seasons past, for practically every kind and every style of fur garment, tie and neck piece will be worn. Neck pieces consisting of entire animals, including head and tails, are much more extremely stylish; yet, at the same time, flat stoles and round, untrimmed boas have lost none of their popularity. Even the question of sleeves is not an arbitrary one, for a smart furrier is making coats with big gigot sleeves, moderately tight around the elbow sleeves and blouse coats with flowing sleeves.

Muffs are exceedingly large this season, a fact due probably to the present fashion of making outside garments with short sleeves. There are some big, round muffs, especialy in fox, but in the short skins and square, flat shape is the best style. Some of the bag muffs are still seen, but they also are very large. Muffs are much decorated with beads and tails, but lace and artificial flowers are not now used in this connection.

"How simply charming," is what most women exclaim when they see the new gilt belts that are going to be worn this winter to enliven the dark blouses and skirts. Belts in gold braid were worn throughout the summer. A new style is built of gold scales overlapping like fish scales. It is very smart and becoming to a slender figure.

Among the colors to be worn this season purple, reds and blues and smoke gray make the most conspicuous showing, although there are hosts of rose shades, yellow reds, greens, blues and even browns which, though not written down to be among the leaders, are certainly not far in the back ground. The newest red is known as "Vesuvius," the tone being as near a flame color as wool or silk will yield itself. Bronze is the most fashionable shade of green, and olive and reseda are not far behind it. The Dalft or Alice blues are the only ones to play a prominent part in the color scheme of the season.

The long coat in one shape or another, at its smartest of empire extraction, is the model of models in the wrap department.

A broad turnover collar to fall over the shoulders of a light evening wrap, is slashed and broidered with English cut work. The embroidery is made in small squares, which are then appliqued on to the linen.

The woman who has bands of fur trimming stored away in her treasure chest is bringing them out to freshen an evening dress. Fur and rich lace form an excellent combination on a light silk.

The evening silks this fall are exceptionally lovely. There are new fabrics as well as new patterns and shades. Among the most beautiful are pompadour taffeta, embroidered taffeta, messeline duchess printed moire, brocade messeline, embroidered satin brocade and faille altere.

NOTICE

The annual meeting of the Nelson Agricultural and Industrial Association will be held in the Board of Trade Rooms on Thursday, November 2nd at 2 p.m.

J. E. ANNABLE, Secretary.

You Get Extract of Beef, Not Water

IT'S GOOD BEEF TEA!

when you buy Armour's Extract of Beef.

Armour's Extract of Beef is highly concentrated. Its strength, is its economy. Use only ¼ the quantity of Armour's that you do of ordinary Beef Extracts and Fluid Beef.

A two ounce jar of Armour's goes as far as an eight ounce bottle of Fluid Beef. You add the water yourself.

Armour's Extract of Beef will restore the rich juices to yesterday's roast. It will give that rich beefy flavor and color so much to be desired in soups, gravies, sauces and all made over dishes. Sold by all druggists and grocers.

ARMOUR LIMITED, - - TORONTO.

Armour's Tomato and Beef Catsup is the best. Sold by all Grocers.

your own home. Will also be at Cranbrook Hotel, Cranbrook, Nov. 9 to 12; Fernie, Beasdell's drug store, Nov. 13 and 14.

KILLED WHILE HUNTING

Burke Falls, Ont., Nov. 5—W. A. Clark, manager of the Toronto Cream & Butter company, was accidentally shot dead on Thursday by Wm. Panton, editor and publisher of the Milton Champion, while hunting.

S. H. Seaney has now converted his ice cream parlors into oyster parlors to be run as such during the winter season. He will serve coffee, tea, cocoa and cakes, beef tea, oyster stews, oyster cocktails, etc., during the winter months.

DAILY NEWS WANT ADS.

Use The Daily News Want Ad Columns, the best and cheapest means of making your wants known to all the people in the Kootenays.

Rates, 1 cent a word, each insertion.

A. G. LANG.

Waneta, B. C., Sept. 20, 1905.

NOTICE TO DELINQUENT CO-OWNERS

To Chas. E. Sealey, R. E. Lemon and D. D. Robertson, or to any person or persons to whom they may have transferred their interests in the Climax mineral claim, situated at the head of 8-Mile creek, adjoining the Alpine group on the south side, and recorded at Nelson in the district of West Kootenay

You are hereby notified that I, Beckford A. Shatford, F.M.C. No. B39656, have caused to be expended the sum of ($512.50) five hundred and twelve dollars and fifty cents in labor and improvements on the above mentioned claim in order to hold said claim under the provisions of the Mineral Act, and if within 90 days from the date of this notice you fail or refuse to contribute your proportion of such expenditure together with all costs of advertising, your interest in sold claim will become the property of the subscriber under section 4 of an Act entitled "An Act to Amend the Mineral Act, 1900."

Dated at Slocan City, this 4th day of Oct., 1905.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $2 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,
Deputy of the Minister of the Interior.
Dept. Interior, June 20, 1904.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way.

To appreciate the simplicity and ease of washing with Sunlight Soap in the Sunlight way you should follow directions.

After rubbing on the soap, roll up each piece, immerse in the water, and go away.

Sunlight Soap

will do its work in thirty to sixty minutes.

Your clothes will be cleaner and whiter than if washed in the old-fashioned way with boiler and hard rubbing.

Equally good with hard or soft water.

A WARNING TO RUSSIANS

PRESENT POLITICAL CONDITION OF ITALY.

REVOLUTION MUST BE PROCEEDED BY PATIENT EDUCATION.

Italy "redeemed," in its present sad political condition, is a warning to the revolutionary party in Russia, says Mr. Federica Paltrinieri in the Rassegna Nazionale (Florence). The Russian people, argues Mr. Paltrinieri, are not ripe for revolution any more than the Italian people were fifty years ago; the Russian leaders of revolt are indisputably inferior to those who led the Italian uprising, and the Russian people have so long sunk in servitude and have so long borne the yoke of tyranny that it is too late to call them to liberty. Even the Italian revolutionary leaders scarcely considered what they were doing. "A fatal blindness prevented these invincibles, noble and generous as they were, from seeing the real condition of things." Vain, he goes on to say, is any revolution which is not based upon the intelligent and moral aspirations of the masses. Italians have not been bettered by their change of government. He gives the reasons for this as follows.

"Even when the redemption of Italy had been accomplished, the Italian people remained what they were before—the masses impulsive and ignorant, the ruling classes, cynical, corrupt, immoral. Every revolutionary movement is vain unless it has been preceded by a long, patient, and tedious work of moral and civil education. We may denounce as infamous the arrogance, the tyranny, the corruption of Russian absolutism, but as long as the Russian people remain what they are, the same infamous abuses will continue, masked, it may be, in form, but even more destructive in substance." The writer points to the present condition of Italy in confirmation of this statement and declares: "Italy once had a despotic government; today she is ruled on a democratic basis—yet what is her condition? We see the most vital departments of the public administration badly directed; all are tending to disorganization; justice is perverted; the offices of the state are made instruments of corruption, and are frequently bestowed upon the most unworthy; virtue is ostracised when it is not actually treated as criminal; dishonesty, on the other hand, is so far exalted that the most abandoned are raised to apotheosis by popular vote. All this has come upon Italy renovated under the inspiration of democratic ideas." If such be the case in Italy, a country in so many ways so favored, what will happen in degraded Russia if a premature infusion of democratic rouse the people to rebellion? He answers the question in the following terms: "The promoters of a spurious democracy who have always railed against insincerity and pretence, are planting beak and talons in the vitals of the vast Russian people, more primitive and ignorant even than the Italians, and in the end Russia will have an autocracy more dangerous and more solid than ever, because it will be based on a broader foundation, favored by a larger number of adherents, and craftily administered with the assistance of those most potent, most misleading instruments, the great newspapers of the day, and the parliamentary form of government."

REVENUE IS INCREASING

Tariff Commission Meets in Toronto on Monday Week.

(Special to The Daily News)

Ottawa, Nov. 4—Canada's finances for the past four months show an increase in revenue of one million and a quarter and an increase in ordinary expenditure of two million four hundred thousand dollars. The expenditure on capital account is increased by about four hundred thousand. Every source of revenue shows increase. The tariff commission meets at Toronto on Monday, November 13th.

NO DANGER OF STARVING.

Plenty of Food For Imprisoned Whalers Off Mouth of Mackenzie.

Seattle, Nov. 4—A special despatch to the P.-I. from Nome says the whaling fleet is frozen in near the mouth of the Mackenzie. Of the 12 vessels only about four are provisioned for the winter. Captain A. J. Stone, who spent the winter of 1897-98 in the vicinity of the Mackenzie stated that there was no danger of the whalers starving.

NEW PHASE OF BOYCOTT

CHINESE REFORMERS FORBID USE OF AMERICAN TOBACCO

POON YIN DESCRIBES LATEST MOVE OF NATIONAL PARTY

The boycotting of American goods by members of the Chinese Reform association continues as strictly as ever notwithstanding the vague promises of fairer treatment to their countrymen held out to them by American publicists. American papers have practically ceased to discuss the matter on account of the delicate issues involved and the uncertainty as to the policy that may be adopted by the United States government.

It is still, however, one of the chief topics for discussion in Chinese newspapers. A new feature of the boycott is the forbidding of members to smoke American tobacco. Poon Yin has given The Daily News the latest phase of the campaign as described in papers just received from Canton.

He says: "Notice has been given to all members of the society to avoid the use of American tobacco in any form. As nearly all imported tobacco is of American growth, the order will probably have the effect of stopping the importation of tobacco into China.

"There has been an extensive trade with with the Philippines in Manila cigars. This too, is to be stopped because these islands belong to the United States and the government gets the revenue from the manufacture and sale of these cigars.

"The Chinese will probably for some time at least use only their own tobacco. It is quite different from the American, much stronger, which is probably due to the Chinese method of treating the leaves before manufacture."

A significant feature of the movement is its indication that the Chinese are diligent students of international industry and commerce, and are able to detect any article of American production or manufacture. It is equally significant that it is only American goods that are boycotted. So far no hostility has been shown by the Reform association to merchants or manufacturers of any other nationality.

DEROULEDE RETURNS.

Paris, Nov. 4.—Paul Deroulede, the exiled founder of the League of Patriots, crossed the frontier today on his way to Paris as the result of the recent amnesty. He was met by a number of friends who congratulated him. His arrival in Paris tomorrow will be the occasion of a demonstration.

STEPHENS- COCKIN.

Yesterday morning at the residence of E. W. Widdowson, Victoria street, W. I. W. Stephens, late lieutenant of the South African Constabulary, and Miss Mary Winnifred Cockin, formerly matron of an army hospital in the Transvaal, were united in marriage by Rev. F. H. Graham.

The bride was given away by E. W. Widdowson; the groom was supported by J. Mason. After the ceremony the party sat down to a wedding breakfast at the Strathcona before leaving by the Great Northern train for a short honeymoon trip.

They will return in a few weeks and take up their residence at Mr. Stephens fruit ranch on Kootenay river.

DEATH OF MADAME CAMBON

Paris, Nov. 4.—Madame Cambon, mother of Paul and Jules Cambon, respectively ambassadors to Great Britain and Spain, died today. She was 84 years old.

BAD MONTREAL FIRE

Montreal, Nov. 4—The six storey building of the Major Manufacturing company, at the corner of Craig and St. Francois Xavier streets, with its contents, comprising paper boxes, wire goods, etc., was destroyed by fire at an early hour this morning. The loss is estimated at $50,000 with insurance of about $30,000.

EXTENSIVE BANK FRAUDS

Hamilton, Nov. 4—The charge against Hillhouse Brown, manager of the east end branch of the Bank of Hamilton, is for appropriating $5000. The shortage, however, exceeds that amount by many thousands and the inspectors are not yet through. The frauds extend over a period of three years.

The Quaker Brand of canned fruits are considered a treat even when fresh fruits can be had, but much more so now that fresh fruits are out of season. Buy a can of your grocer and try them.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

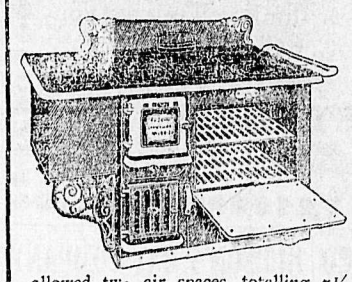
Every detail about the Oxford Chancellor Range has been built with the object of strength and long service. Each part is constructed of the very best material and mounted by the most skilled workmen.

The ash-pit is deep and wide and fitted with a large pressed-steel ash pan. An outside ash guard is provided.



Oxford Chancellor Range

Between the main bottom and bottom of the range, we have allowed two air spaces, totalling 7¼ inches, which protects the floor from over-heating. This is a point that will be most appreciated by those who have had their floors burnt by poorly insulated ranges.

We would like to tell you more about the Oxford Chancellor Range. Won't you write for some of our free booklets?

ARGENTA ROAD FINISHED

BUILT ALONG PERPENDICULAR SIDE OF CANYON.

PREPARATIONS IN PROGRESS FOR MINE DEVELOPMENT.

The Argenta mine, on Hamill creek, will soon be added to the fast growing list of working properties in Kootenay. Orders have been placed with eastern firms for mining and milling machinery. This step was the result of a visit to, and examination of the property by two directors, W. F. Almy and G. R. Angus, of Boston.

The working of the Argenta has just been made possible by the completion of a road, which in many respects is unique in British Columbia, if not in Canada.

The Argenta is on Hamill creek which flows into the Duncan river from the northeast about one mile from where it empties into Kootenay lake. The Hamill, though called a creek, is wide and deep. For the last two miles of its course it flows through a canyon whose walls are high and almost sheer. The country is one of the greatest difficulty not only for transportation but even for travelling on foot.

G. O. Buchanan, who has seen the road recently describes it as a splendid piece of work accomplished in the face of difficulties that at first appeared insuperable. The road runs close to the bank of the creek. In many places it had to be cut into the perpendicular face of the canyon wall. It is carried by trestle work over several depressions. The result is an almost level road, most of it, on solid rock.

While the expense of construction has been very great, the cost of maintenance, on account of the nature of the road bed, will be comparatively insignificant. The work of construction has taken nearly two years.

The owners have shown great faith in their property by undertaking the expense of building so difficult a road. The directors have been only waiting for its completion to initiate a policy of development. The company is prepared to expend all necessary capital to open up the mine. The first steps are the order for machinery and preparations for installing it.

JUDGE WILSON SWORN IN

Nelson's City Solicitor Takes Place on County Court Bench.

His honor, judge Wilson, judge of the county court of the new judicial county of East Kootenay was formally sworn into office yesterday at noon in the judge's chambers of the Nelson court house.

The usual oath, "to deal equal justice to all men," was administered by his honor, judge Forin, of the county court of West Kootenay, assisted by the court registrar, T. M. Bowman. The bar was represented by A. M. Johnson, H. A. Stewart and H. F. McLeod. Sheriff Tuck also witnessed the ceremony.

Judge Wilson leaves tomorrow morning for East Kootenay, to hold court at Cranbrook, on Tuesday, Nov. 7th, and at Fernie on Nov. 9th. The barristers of Cranbrook have asked his acceptance of a banquet, which will probably be given in his honor tomorrow evening.

Judge Wilson has not decided definitely yet as to the date of his removal from Nelson. His friends would all be pleased if it were possible for him to continue to reside here permanently.

JEROME AS A POLITICIAN

Noted English Humorist Makes Special Plea to Canadians

Toronto, Nov. 4—A warning to Canadians to send delegates to the colonial conference of next summer, was uttered at a Canadian club luncheon yesterday by Jerome K. Jerome, the noted English writer and entertainer. Mr. Jerome hoped that Canadian delegates would look at things from an imperial and not merely from a colonial standpoint and not listen to the arguments of protectionists. He did not think Canadians understood what poverty was as it was understood in England. A great many workingmen in England did not make $3 per week and on that they lived and supported families .

There were tens of thousands of them in England and to ask them to pay another shilling a week more for their children's bread was a dangerous thing, because an agitation would result, with an appeal to the workingmen that they had no right to bear that burden for the benefit of farmers in the colonies who were far better off. There would follow an agitation to let the colonies go, which would be dangerous in the extreme.

HUDSON'S BAY COMPANY

ITS HISTORY FROM EARLIEST DAYS TO PRESENT DATE

ENTERTAINING STORY OF STIRRING EVENTS BY DR. BRYCE

William Briggs, the Toronto publisher, is rendering a valuable service to Canada by the publication of books dealing with various phases of Canadian history. Recently The Daily News at some length reviewed Rev. Father Morice's history of New Caledonia, one of the most interesting and instructive works of its class that has been published in Canada.

Another publication received recently from Wm. Briggs is "The Remarkable History of the Hudson's Bay Company," by George Bryce, M.A., LL.D.

Whilst it cannot be said that Dr. Bryce brings to bear on his work the scientific knowledge and unexampled regard for accuracy that characterize Father Morice's "New Caledonia," readers of "The Remarkable History of the Hudson's Bay Company," will find it a work of quite exceptional entertainment and fully as veracious as histories of this kind usually are.

To give some idea of the scope of Dr. Bryce's history, it may be well to quote a few paragraphs from the preface.

"The Hudson's Bay Company! What a record this name represents of British pluck and daring, of patient industry and hardy endurance, of wild adventure among savage Indian tribes, and of exposure to danger by mountain, precipice and seething torrent and wintry plain.

"For two full centuries the Hudson's Bay Company under its original charter, undertook financial enterprises of the greatest magnitude, promoted exploration and discovery, governed a vast domain in the northern part of the American continent, and preserved to the British empire the wide territory handed over to Canada in 1870. For nearly a generation since that time the veteran company has carried on successful trade in competition with many rivals and has shown the vigor of youth.

"The present history includes not only the record of the remarkable exploits of this well known company, but also the exploits of the daring French soldiers and explorers who disputed the claim of the company in the seventeenth century, and in the eighteenth century actually surpassed the English adventurers in penetrating the vast interior of Rupert's Land.

"Special attention is given in this work to the picturesque history of what was the greatest rival of the Hudson's Bay Company, viz., the North West Fur Company of Montreal, as well as to the extraordinary spirit of the X.Y. Company and the Astor Fur Company of New York.

"A leading feature of this book is the adequate treatment for the first time of the history of the well-nigh eighty years just closing, from the union of all the fur traders of British North America under the name of the Hudson's Bay Company. This period, beginning with the career of emperor-governor sir George Simpson (1821) and covering the life, adventure, conflicts, trade and development of the vast region stretching from Labrador to Vancouver island, and north to the Mackenzie river and the Yukon, down to the present year, is the most important part of the company's history."

Dr. Bryce was well fitted to undertake the writing of this history. He has lived for upwards of 30 years in Winnipeg. He has visited many of the Hudson's Bay Co.'s posts from Fort William to Victoria, and moreover he has had access to documents relating to the history of the company both in England and in Canada.

The spirit in which this history is written is best exemplified in the closing paragraphs:

"All goes to show that the Hudson's Bay Company was preserving for the generations to come a most valuable heritage. The leaders of opinion in Canada have frequently, within the last five years of the century, expressed their opinion that the second generation of the twentieth century may see a larger Canadian population to the west of lake Superior than will be found in the provinces of the east. William Cullen Bryant's lines, spoken of other prairies, will surely come true of the wide Canadian plains:

"I listen long
....and think I hear
The sound of that advancing multitude
Which soon will fill these deserts, From the ground
Comes up the laugh of children, the soft voice
of maidens, and the sweet and solemn hymn.
Of Sabbath worshippers. The low of herds
Blends with the rustling of the heavy grain
Over the dark brown furrow."

"The French explorers are a reminiscence of a century and a half ago; the lords of the lakes and the forests, with all their wild energy, are gone forever; the Astorians are no more; no longer do the French voyageurs make the rivers vocal with their chansons; the pomp and circumstance of the emperor of the fur traders has been resolved into ordinary forms of commercial life; and the rude barter of the early trader has passed into the fulfilment of the poet's dream, of the "argosies of magic sails," and the "costly bales" of an increasing commerce. The Hudson's Bay Company still lives and takes it new place as one of the potent forces of the Canadian West."

MEMORIAL TO GLADSTONE

London, Nov. 4—The national memorial to Gladstone erected by public subscription in St. Clements' church in the Strand, was unveiled today by John Morley in the presence of a great concourse.

Coffee, tea, cocoa and cake will now be served at Scaney's.

DISORDER DYING DOWN

DELUSIVE HOPES ENTERTAINED AT ST. PETERSBURG.

DISAFFECTION OF ARMY GROWING IN RUSSIAN POLAND.

St. Petersburg, Nov. 4.—Last night for the first time in ten days the inhabitants of the capital of Russia could discard kerosene and candles and return to electric light. The normal conditions of life are returning gradually. Street meetings and demonstrations have ceased and the people are returning to their ordinary occupations. Many trains are arriving, but the service is as yet disorganized. The papers will resume publication tomorrow.

A general amnesty has been published by manifesto. This grants free pardon to those convicted, or arrested and not yet tried, or on whom sentence is not yet passed, of political crimes up to October 30. People who were convicted over ten years ago will be released but will be compelled to live in Siberia. Those who, convicted more than ten years ago, are now living as colonists in Siberia, will be allowed to select their place of residence there for the next four years after which they will be permitted to return to Russia but no to live in Moscow or St. Petersburg for a further three years. All others, not falling under these categories, will have their sentences reduced one-half. Those sentenced for life will have their sentences commuted to 15 years, while those condemned to death will have 15 years hard labor.

The situation in the provinces, according to information given to the Associated Press, is more reassuring. Agitation and disorder are dying down. At the same time the governments as in St. Petersburg, are taking energetic steps to restore order. General Trepoff's assurances to the foreign embassies that everything would be done to protect the life and property of foreigners were followed by the proclamation of martial law in several of the most unruly districts.

A despatch from Odessa says: "This city is quiet today and is almost assuming its normal aspect but the tension is still great. The consuls are trying to seure protection of the foreigners who are in a nervous state. The hotels are full and are in most cases guarded by troops. Many people, unable to find refuge in the hotels, have fled to the steamers in port. It is hoped that the worst is over.

"The pillaging is largely stopped, thanks to the intervention of the troops and local militia, the latter being formed largely of students but the streets are unsafe for all except sanitary officials and sisters of charity. The city presents the appearance of an armed camp. Artillery is posted in several streets. The student militia is pursuing the rioters, who are defending themselves with revolvers and are taking their captives to the universities.

"Looting was in full force yesterday and the amount of damage done was enormous. During the night there was further firing and a number of Jews were killed. Whenever the Jews, attacked by the rioters, fled to the roofs of their houses, their houses were promptly fired. Residents of the suburbs of the city say that their sections have been overrun by rioters, one band of whom was composed of ten half naked woman rendered frantic by murder and pillage."

Kazan, Nov. 4.—At the request of the town council, the governor has disarmed the local police and has sent the troops and Cossacks out of town. Order has been restored by the hastily formed militia. Largely attended meetings are taking place but otherwise all is quiet.

Batum, Nov. 4.—At three o'clock this afternoon there was an encounter between the troops and manifestants. A number were killed and injured on both sides.

Warsaw, Nov. 4.—A crowd of Russian students paraded the streets here today singing revolutionary songs. The troops paid them military honors.

Tomsk, Siberia, Nov. 4.—There were continued encounters here today between the loyalists and a crowd of socialists who were entrenched behind the railway tracks. The besiegers succeeded in setting fire to the railway buildings. There were many casualties. A battalion of troops was summoned to restore order. During the day the theatre was pillaged.

Paris, Nov. 4.—Foreign office reports received here from Russia show that Riga and Odessa are now the centres of disorder, but that St. Petersburg and Moscow are quiet.

CROW'S NEST TO MIDWAY

John McLatchie Completes Survey of the C.P.R. Right of Way

John McLatchie, P.L.S., has returned to Nelson, having completed in exactly a year the task of surveying the C.P.R. right of way from the Crow's Nest Pass to Midway, including the North Star branch. He may yet spend about a week securing some details that were not obtainable at the time of his first observations. His contract also calls for plans of the whole course, which will probably take several months to prepare.

In conversation with a member of The Daily News staff yesterday Mr. McLatchie spoke briefly of the task completed and the difficulties encountered. In East Kootenay especially, he said, the work was greatly complicated by inaccurate surveys of lands adjoining the right of way, which made the work of tying on extremely difficult.

The average number of men employed during the year was about 12, but the personnel of the party changed slightly from month to month and considerably from season to season. Owing to the nature of the work the camps were temporary and quite informal establishments.

Mr. McLatchie has enjoyed his year's work and feels better now than he did at the beginning. He does not know how long it will take to make the plan required, but expects that it will last well into the winter.

COSSACKS ARE RETIRED

ODESSA ONCE MORE ASSUMES THE APPEARANCE OF ORDER.

ENTIRE JEWISH QUARTER HAS BEEN DEVASTED.

Odessa, Nov. 4.—The centre of the city is quiet. Street cars are running some shops and markets are open and bakeries are working. The telegraph lines are crowded with despatches for newspapers and private citizens, who have been sending reassuring messages regarding the situation here, in view of the reports of massacres in various parts of Russia. The Jewish quarters are completely devasted. It is impossible to ascertain the number of persons killed. The authorities sent to the cemetery yesterday four trucks, each containing 30 bodies and today six trucks similarly loaded were driven to the cemetery. Up to this morning 5657 wounded people were reported to have been taken to the hospitals,

The Cossacks have disappeared from the streets and infantry soldiers have been substituted. The governor general has announced that he has taken the most strict measures to prevent further disturbances but should troops be fired upon he has ordered the artillery to devastate the houses from which the shooting is done. He also announces that the troops have strict orders to shoot and kill pillagers. Soldiers are now making a house to house visitation seeking for bombs and arms. They are also searching passengers on the street cars. It is believed the worst is over now, owing to the mobs being satisfied with two days of murder and revolt against the law and order, is dying down.

Almost the entire Jewish quarter of Slobdka and Bugaievka are devastated and their inhabitants have either been killed or wounded or have sought refuge in other sections of the town. The whole fury of the mob was directed unchecked against the Jews. While it is probable the total number of persons killed will never be known the number of wounded persons in the hospitals and ambulances, however, affords some guide. The 5657 wounded reported up to this morning are distributed as follows in various hospitals, etc.: The Jewish hospital 1,715, municipal hospitals 1,260, ambulance houses 682. It has been definitely ascertained that only 120 of the anti-Jewish mob were killed.

NELSON OPERATIC SOCIETY

Annual Meeting Well Attended—Opera for the New Year

The annual meeting of the Nelson Amateur Operatic society, held yesterday afternoon in the board of trade rooms at 4 o'clock, was well attended. The business before the meeting was the election of officers and the deciding as to whether or not the society should put on an opera some time during the coming winter.

President Lay, who was chairman of the meeting, surveying the well filled room, congratulated the members of the society upon the interest that evidently was being taken and was especially pleased to see some new faces present.

The election of officers was then proceeded with and resulted as follows: Honorary president, J. A. Turner; president, J. M. Lay; vice-president, W. Irvine; manager, Melville S. Parry; secretary, W. M. Jameson. The committee appointed was O. Newling, R. M. Macdonald, F. W. Swannell, C. A. Benedict, F. B. Hawthorne, T. Morley, H Harris, F. M. Chadbourne, S. A. Kelly.

Rising to discuss the question of an opera for the present season, Mr. Parry said that he had been the recipient of many enquiries as to the production of an opera for some little time past and was of the opinion that this betokened a lively interest on the part of the public in general. Producing an opera was no child's play and the cost was apt to run up to a considerable sum. This was especially the case with the production of Erminie last season, where the expenses had amounted to $1045 which sum, however, had been duly covered through the liberal patronage of the public. If an opera were produced he was of the opinion that the Gondoliers, Gilbert and Sullivan, would be suitable. It could not well be produced until January or possibly February, as another local choral society had now something else in preparation.

Secretary Jameson said that if the Gondoliers were decided upon he had heard from San Francisco that the costumes can be procured from Goldstein, the costumier there, for $150, which was much cheaper than getting them from the east.

After some further discussion it was moved by F. B. Hawthorne and duly seconded, that an opera be produced and that its selection be left to the committee. This was carried. In connection with its production the name of F. Stetner of Spokane, who had previously conducted for the society, was mentioned, and it was thought probable that he would be able to come up to Nelson for about five weeks about the beginning of the new year.

After a vote of thanks to the board of trade for their courtesy in placing their rooms at the disposal of the society, the meeting adjourned sine die.

DEEP WORKINGS AT ROSSLAND

Good Results Found on Le Roi—Shipments for the Week

Rossland, Nov. 4—The chief intem of interest in the mining news of the week is the announcement that the Le Roi is installing a skipway in the winze on the 1250 foot level, as a preliminary to beginning the work of deepening the winze below the 1550 foot level. This winze will be extended down to the 1650 level and when that depth is reached the level will be explored. The development from the 1350 foot level to the 1550 foot level has been satisfactory. It is disclosing the presence of valuable ore bodies and it is thought that still deeper workings will bring forth like satisfactory results.

At the rate at which the workings of the Le Roi and Centre Star are reaching down it should not be long before the water line is reached. And at this point it is thought there will be a marked change forthe better in the character of the ore. The earlier Le Roi mine managers of the camp, Bernard Macdonald and W. A. Carlyle, were of the opinion that the ore shoots of the camp would become richer below the water line than above it.

Another incident of importance is the starting of a crosscut from the 1350 level of the Le Roi which is intended to pierce the ground of the Josie on the same level. The Josie workings are down 900 feet and this crosscut will enable its management to explore its ground 450 feet below the present lowest workings. As good shoots of ore have been found on the 1350 foot level of the Le Roi and below it and as the same condition obtains in the Centre Star, it is reasonably certain that a like condition prevails in the ground of the Josie.

The shipments for the week ending tonight were: Le Roi, 2,220 tons; Centre Star, 1550 tons; War Eagle, 1320 tons; Le Roi No. 2, 180 tons; Le Roi No .2, milled, 1200 tons; Jumbo, 300 tons; Crown Point, 80 tons; total for the week, 6880 tons, and for the year, 282,561 tons.

PROGRESS ON V., V. & E.

(Special to The Daily News)

Phoenix, Nov. 4—Patrick Welch of Stewart & Welch, railroad contractors, was in the city yesterday and stated that the work on the construction of the V., V. & E. was proceeding satisfactorily westward from Midway. Since the close of the harvest men have been coming in more freely, although more could be used than are at present employed.

Mr. Welch stated that work on the piece north from the boundary line to Keremeos into the Similkameen proper, would be started within ten days, the construction outfits now being shipped in to get it under way.

During the excellent fall weather that has prevailed the contractors have been making headway as rapidly as possible, and getting the easy work as far ahead as they could. In the winter time rock cutting and such work can be done almost as well as in the summer. Coupled with this is the fact that the lines of road runs for a large part through a district where the winters are as a rule quite mild.

TELEGRAPHIC TICKS

James J. Hill has gone to Europe on a visit.

Bob Fitzsimmons is matched to meet Jack O'Brien.

Dr. Harper of Chicago university is dying of cancer.

A Chicago plant for the manufacture of obscene photographs has been broken up by the police, 120,000 obscene photographs being seized.

Smart Dressers Among Men

There Is A World Of Difference

in clothing quality today and clothing quality ten years—yes, five years ago. And this change, this marvellous advance, is due solely to the makers of read-to-wear clothing. The competition among the men who compete for the trade has done everything for the clothing business.

20th Century Brand

of men's fine tailored garments is the acknowledged best ready-to-wear clothing made and sold in Canada. It has run away from competition. It has set new standards. It has been a tremendous influence in overcoming the prejudice of men who once despised ready-to-wear clothing.

Have you been persuaded? See 20th Century Brand if you are open to conviction.

NELSON'S NEWS OF THE DAY

E. E. Richards is confined to his house with a severe attack of quinsy.

D. V. Mott, editor and proprietor of the Fernie Ledger, arrived in the city yesterday and is at the Hume.

C. E. Gillan, city solicitor of Rossland, was in the city last evening at the Strathcona. He returns to Rossland today.

Mayor C. R. Hamilton and alderman J. B. Johnson of Rossland, arrived in Nelson last evening en route to the east.

E. K. Beeston leaves this morning for a hurried trip to Vancouver and back. He expects to be absent about a week.

Lloyd A. Manly of Grand Forks, arrived in town last evening on his way through to Alberta, where he has extensive land interests.

John R. Jackson of Midway, has been appointed a license commissioner for the Boundary Creek district, in place of A. H. Lawder, resigned.

The regular monthly meeting of the Women's hospital aid society will be held in the school room of St. Paul's church tomorrow afternoon at 3 o'clock.

Premier McBride did not arrive last evening. He is expected in tonight. Hon. R. F. Green stayed over at Moyie yesterday and will come in on this evening's train.

Silver advanced two points yesterday on both the London and New York markets. The American price is now 63 cents an ounce, which is the highest quotation for many months.

In the Baptist church today the communion of the Lords Supper will be celebrated at the morning service. In the evening there will be special music, including a solo by the pastor.

R. A. Bainbridge and Mrs. Bainbridge spent last evening in Nelson on their way from Midway to Vancouver. Mr. Bainbridge has laid out the C.P.R. line west of Midway for contractor W. P. Tierney.

A meeting has been arranged for Thursday evening next in St. Saviour's church mission room for the purpose of extending a welcome to Rev. R. E. Welsh, the general secretary of the Canadian Bible society.

At the morning service at St. Paul's church the choir will render the Gospel hymn "Under His Wings." At the evening service the harvest anthem will be repeated and the choir will sing Herbert Warren's "Sing Praises to God."

There will be a special service for the Women's Auxiliary in St. Saviour's church this morning, the choir rendering Woodward's Te Deum. In the evening there will also be special music including Bruce Stearne's anthem "Great is the Lord" and Simper's Magnificat and Nunc Dimittis.

George C. Rose, collector of customs at Cascade, is retiring from the service to enyage in journalism. He has purchased the Kelowna Clarion and will conduct that paper in future, says the Boundary Creek Times. Mr. Rose is one of the brightest young men in the civil service and he will be heartily welcomed by the newspaper men of the province. Kelowna is a growing town in one of the richest districts in the dominion. The Clarion and its new proprietor are both sure to flourish. He expects to be relieved of his duties in Cascade in ten days.

Hon. R. G. Tatlow, minister of agriculture, has received the following telegram from R. M. almer at Montreal, who is in charge of the B. C. fruit exhibit for London: "Fruit has been loaded on the Bavarian in fine order. I am sailing on the Champlain, due at Liverpool on the 11th.

Frank Clarke, a veteran Victoria journalist, who for the past few years has been doing newspaper work in this province, has entered the employ of the C.P.R. in a special capacity, for which he is eminently fitted. He will make a tour of the province and prepare a handbook to be issued by the railway company for advertising purposes.

According to the Ymir Herald it is reported that the mixed train service under which Ymir is now suffering, is to be done away with and the passenger train put on again about December 1st. It is also reported that the new service will be made speedier and more efficient than ever before, the purpose being to compete with the new C.P.R. schedule from Kootenay to the coast.

Total for year to date, 770,331 tons.

FULL CREW ON BY FIFTEENTH

Rapid Progress Being Made With Repairs At St. Eugene Mine

(Special to The Daily News)

Moyie, Nov. 4—James Cronin, manager of the St. Eugene, has informed your correspondent that he expects to put a full crew on at the mine on the 15th inst. At least 150 more men will be put at work than are now working.

The new shaft house, 200x40 feet, is being built as rapidly as possible. It will be 80 feet high.

The framing shed, 60x30 feet will be much larger and more convenient than the former one.

The new tunnel is now in a distance of 200 feet and the lead has been struck. This tunnel is between the 1100 foot level of the Moyie and the 1500 foot level of the Lake Shore property.

The repairing of the Lake Shore shaft is almost completed and work in it will be commenced within a week.

VIRGINIA MINE EXPLOSION.

Seven Miners Have Been Killed and Others Injured.

Bluefield, W. Va., Nov. 4.—Seven miners are dead and others were seriously injured as the result of an explosion today in one of the Tidewater Coal & Coke company's mines at Vivian. It is thought that some of the injured will die. The explosion is believed to have been due to a shot blowing out.

G. T. P. HAS MONEY TO SPEND.

Montreal, Nov. 4—The Grand Trunk Pacific Railway company has $9,000,000 at its credit in London, being the proceeds of several bond issues, and it is said that none of the transcontinental lines have ever commenced construction under such favorable financial conditions.

The foregoing became known after the regular monthly meeting of the company, which took place yesterday at the Grand Trunk offices in this city.

STRATHCONA TO RETIRE

Montreal, Nov. 4—Lord Strathcona is about to retire from the presidency of the bank of Montreal, to be replaced by sir George A. Drummond. No official announcement has yet been made, but this will be done at the annual meeting on Dec. 4. The parliament of Canada has authorized the appointment of an honorary president and lord Strathcona yill get this appointment.

For a nice oyster cocktail go to Seaney's.

Don't Worry

About the Boys—Put them in Lion Brand Clothing

It pays to buy clothing that will stand the hard knocks that any boy will give them.

Clothing that will hold together and hold its shape through the roughest of boyish sports—up a tree—over the shed or under a fence.
