MISPLACED LENIENCY

Long Sentenced Murderer Adds Two More to His List of Victims

Terrible Convict Outbreak in Missouri Penitentiary Ended by Entrenched Battle Upon Streets of Jefferson City

Jefferson City., Mo., Nov. 24.—In a desperate attempt to escape from the state penitentiary today five convicts fought for freedom with weapons and with nitro-glycerine blew open the prison gates, killing two prison officials and wounding deputy Warden See. Four men made a dash through the streets under fire, only to be captured after two of the escaped men had been wounded.

Five prisoners taking advantage of the absence of warden Hall and six of the guards, who left today with 71 federal prisoners for Fort Leavenworth, Kas., attempted to escape, but only four left the prison after wrecking the gate. Convicts Harry Vaughan, Chas. Raymond, Hiram Blake, Geo. Ryan and Eli Zeigler who were working close inside the prison gate, having secured pistols and a bottle of nitro-glycerine, entered deputy warden R. E. See's office and shot him in the arm and hip as he sat in a chair. He sank back helpless and the convicts rushed to the gate where they met gateman John Clay who being alarmed by the shots, opened the gate to look inside. Before Clay could raise his weapon he was shot dead.

Then as if to signal the convicts generally that an attempt to escape had been started the convicts rang the gate bell and rushed through the gate, dragging Clay's body with them. They slammed the gate shut and fastened it while Zeigler was ringing the bell, and he was left inside. The four convicts were then on a wagon entrance to the penitentiary. This entrance is 40 feet long and 25 feet wide. It leads to the public street through a second double gate of steel which was locked. The convicts placed nitro-glycerine under the outside gate and blew an opening through the steel doors. The four men crawled through this rupture and dashed through several "trusty" convicts who were working in the street. Almost before the four had covered a block, prison officers were in pursuit, shooting as they ran. Pedestrians jumped behind trees, ran into houses and crouched down behind any obstacle that presented refuge. Several men seized weapons and joined the officers in the pursuit. The chase kept on for a dozen blocks, the convicts outrunning their pursuers.

Near the Missouri Pacific railway depot, the convicts came up with a wagon, jumped into this, seized the driver and used him as a shield from the bullets of their pursuers. One convict lashed the horse into a run and escape seemed sure, when suddenly a squad of city police and armed citizens appeared in front of the flying men, who stopped the horse and made a desperate stand. Lane, the driver, was thrown to the bottom of the wagon, and crouching over him, shielding themselves as well as possible behind the sides of the vehicle the four convicts fought the policemen. Volley after volley was fired in the street by both sides, to the conflict, while residents and pedestrians fled to escape stray bullets. The police, sheltering themselves behind trees, splintered the wagon and plowed up the mud, finally putting a bullet through Vaughan and Blake, the latter falling to the ground, probably fatally hurt. Then the convicts surrendered. Convict Harry Vaughan was sentenced from St. Louis to 35 years for robbery, after a street fight in which he and another companion shot three detectives to death.

Raymond and Blake are serving three years each for burglary; Geo. Ryan of Kansas City, is serving eight years for robbery, while Eli Zeigler is under sentence of three years for robbing bodies at a railroad wreck.

BRADSTREET'S WEEKLY REPORT.

Trade Conditions Over the Dominion and in This Province Are Good.

Montreal, Nov. 24.—Bradstreet's tomorrow will say: Retail trade is active in Canada while wholesale trade shows seasonable quiet except in dry goods and in holiday and fancy goods. very good reports come from the spring trade.

Montreal reports wholesale trade quiet, with re-orders of drygoods fair, and the outlook for spring satisfactory. City collections are fair. Hardware shipments are still large. Fancy groceries are active. Wheat exports are heavy.

Toronto reports a good holiday and spring trade at wholesale. Retail trade is better and building is active beyond the ordinary for this season.

Winnipeg reports the grain blockade seriously affecting shipments of goods from the east. Sales for spring are good collections are improving and retail trade is active.

In British Columbia retail trade is good, real estate, lumber and building are all active and there is growth shown in demand for grain from eastern surplus section.

Failures for the week number 40, as against 41 last week; 31 in this week a year ago.

LEGISLATIVE ASSEMBLY

SESSION LIKELY TO OPEN EARLY IN JANUARY.

FORECASTS OF CHIEF ITEMS IN THE BILL OF FARE.

(Special to The Daily News)

Victoria, Nov. 24.—The gathering of the lobbyists and of more substantial advocates of matters to be brought before the legislature may be taken as indicative of an unusually early session of the provincial parliament. Indeed it is a certainty that the house will be called together during the initial fortnight of the new year, and that sixty days should suffice to dispose of the sessional program.

There will be a general renewal by the railway companies of their applications for land or cash aid in road building in various parts of the province, in which connection the G .T. P., the Coast to Kootenay (McLean Bros.), the V. V. & E., Midway & Vernon, Kettle Valley Extension (to the north fork of Kettle river), and C. P. R.'s Midway to Nicola lines are to seek subsidies, as well as John Hendry's (Great Northern) Vancouver, Westminster & Yukon railway, and a projected extension of the C. P. R.'s E. & N. system from Wellington to the north end of Vancouver island, this extension being allegedly promoted by the C., M. & St. P. road and asking a land subsidy.

Whether these enterprises or any of them will be successful is matter for the session to disclose, the policy of the government to give no more railway subsidies in cash or land still being definite and explicit.

There is abslutely no truth in the suggestion that the commercial travelers' tax will be abrogated at the suggestion of the dominion government, or that any changes will be made in the timber or taxation laws, both of which are held to be working satisfactorily.

There will undoubtedly be material amendment of the Provincial Game Act in the direction of further protection of birds and animals prized of sportsmen, a gun license being provided for and the number of organized game districts being increased. It may be taken as positive, however, that in view of the decided expression of opinion obtained on the same subject in the house last session, that the government will take no action upon the petition of the provincial S. P. C. A. for a prohibition of all Sunday shooting, which is generall admitted in B. C. to be the only shooting the working man can find opportunity to enjoy.

Legislation with respect to foreshores and to confirm certain land leases jeopardized by technical error will unquestionably be included in the government program.

"LEGISLATIVE GENERAL"

EUPHEMISTIC TERM APPLIED TO ANDREW HAMILTON

LARGE SUMS OF MONEY PAID TO HIM BY NEW YORK LIFE

New York, Nov. 24.—Startling developments were brought to light at today's session of the Armstrong committee on insurance investigation in the course of a mintute inquiry by Charles E. Hughes, counsel to the committee, into the syndicate transactions participated in by the New York Life Insurance company. The most important witness of the day was Milton M. Madison, a bookkeeper of the New York Life Insurance company, during whose examination it was brought out that in the case of the United States Corporation syndicate, the managers of which were J. Pierpont Morgan & company, there appeared in one instance a profit due to the New York Life of $87,187, from which was deducted, no reason being given, the sum of $59,310 paid to Andrew Hamilton, who has been described in the course of the investigation as the insurance legislative general."

It appeared from records produced by Mr. Hughes that an account of J. P. Morgan & Co. with Hamilton showed that in December 1901, that firm had advanced to Hamilton the sum of $56,720, that on October 14th, 1902, this account amounted, with interest, to $59,310 and that it was then cancelled by the entry of that amount to Hamilton's credit. The entry of this amount in the account of the New York Life reads: "Per cancelled statement and arrangement with Mr. G. W. Perkins."

It has also developed that the participation in the syndicate by the New York Life was executed through the New York Security and Trust company by which one fourth of the profits of the former were retained. Pressed by Mr. Hughes to tell whether he knew of any other instance of money due the New York Life being paid to a third party, Mr. Madison recalled the payment in 1904 of $40,000 to George W. Perkins, representing the profit on a loan of $930,000 to the Boston firm of Kidder, Peabody & company. The profit, witness said, came in the form of a cheque upon the First National bank, which he cashed, and he gave the money to Mr. Perkins. What the latter did with it the witness did not know. No entry of the transaction was made on the books of the New York Life company. Other witnesses examined during the day were George T. Wilson, fourth vice-president of the Equitable; Francis F. Jackson, auditor, and Gerald Brown, in charge of the bond department of the Equitable.

Mr. Brown produced a list of the tenants of the Equitable building at 110 Broadway. Mr. Hughes looked the list over and then asked the witness if he thought the rentals adequate. Mr. Brown replied that he thought the rent of the Mercantile Safe Deposit company was inadequate. He also thought that the Equitabe Trust company rental of $20,000 a year was inadequate.

"What would you consider a proper rental for the Equitable Trust company," Mr. Hughes asked.

"About $30,000 a year," answered the witness.

Mr. Brown said the matter of increasing the rent of the Mercantile Safe Deposit company and of the Equitable Trust company had been considered by the executive committee and that after the work of the investigation is finished those rentals will be raised.

Springfield, Nov. 24.—President John A. Hall, of the Massachusetts Mutual Life Insurance company of this city, has been requested to appear in December before the legislative insurance investigation committee, now sitting in New York and furnish detailed statements of the company's business.

POSTPONED FOR A YEAR

M'GOLDRICK AND ASSOCIATES NOT IN HURRY TO BUILD

G. O. LAMMERS GIVES REASONS FOR DELAY IN EXECUTION

The lumber mill projected by the Minnesota syndicate, represented in the west by J. P. McGoldrick and G. O. Lammers, will not be constructed for at least another year. The reason assigned by the company for the delay is not the failure of their negotiations with the Nelson city council, but their failure to secure a charter from the provincial government to boom the Duncan river, which is the only feasible means of getting the timber out from their limits. They believe that the granting of such a right is only a matter of time and that the delay has been caused by the conflicting of many rival interests.

The enterprise intended for Nelson, as outlined last evening by G. O. Lammers is a large one. It contemplates the employment of about 350 men and the investment of many thousands of dollars. Already $17,000 has been spent in securing a site east of Nelson extending along the lake shore from the C.P.R. shipyard to Roberts' ranch. The company has about $600,000 invested in Spokane, where their mills have a capacity of 30,000,000 feet of lumber a year, as well as other interests on a similar or even larger scale in Idaho, in Minnesota and in the Bahama islands.

J. P. McGoldrick and G. O. Lammers arrived in Nelson from Spokane Tuesday evening. They left for Revelstoke Wednesday morning and returned to the city last night.

Seen at the Hume during the evening Mr .Lammers said: "We are not in a very great hurry about a mill here. Nothing will be done this year. We did expect to begin this fall, but it is postponed now for another year. There is no object in hurying with mill construction until we have our charter for a boom on the Duncan river. That is opposed at present by several interests, rival lumber companies [illegible] limits in the same locality, boards of trade for reasons that I cannot understand, and many others from what seems a rooted objection to allowing a corporation to control a river.

"Undoubtedly a boom would interfere with the navigation of the river for several months of the year. But the timber is there and there is no other way to get it out. It was on account of that delay that we decided to operate in Spokane and we have a big establishment there capable of turning out 30,000,000 feet of lumber a year. It represents an investment of $800,000 altogether.

"Our other interests are in Idaho, Minnesota and the Bahama islands. On the three largest islands of the group we have a 99 year lease of all the timber land there is, with no restrictions on our operations.

"Yes; we shall certainly operate here some time, when circumstances make it possible and desirable. Our plans for here will be very much the same as those we have followed in the east. We shall employ about 350 men steadily.

"Yes; they will all be white men. The restriction your city council wanted to impose didn't cut any figure at all. We don't like, of course, to be dictated to as to the management of our business, but we never had any idea of employing Chinese, except possibly as cooks.

The present trip to Nelson has nothing to do with our Nelson interests. Mr. McGoldrick and I had some business in Revelstoke. We have finished it and we are returning to Spokane tomorrow morning.

"No; I cannot say definitely that we shall make a beginning even next fall. We have the timber limits and we have already spent $17,000 for our mill site. We shall certainly build and operate a mill in Nelson, but the time depends on a number of circumstances over which we have little control."

UNITED STATES COMMERCE

How a Country Exploits its Relations with its Dependencies

Washington, Nov. 24—The commerce of the United States with its non-contiguous territory in 1905, seems likely to exceed by many million dollars, that of any preceding year. According to a statement issued by the department of commerce and labor for the nine months ending with September, the shipments from the United States to its non-contiguous territory in the same period amounted to $36,550,150 against $47,141,638. These figures given relate to merchandise only. Alaska shipped to the United States $7,000,000 of gold produced in that territory and $5,500,000 of foreign gold which presumably originated in adjacent British territory. In the merchandise shipped from Alaska to the United States there is a falling off of a little less than $2,000,000 compared with the previous year. In shipments from the United States there was an increase of nearly $2,000,000 to Alaska; over three millions to Porto Rico; one million to the Philippines and nearly one million to the Hawaiian islands. In the shipments to the United States there Philippines and about twelve million from Porto Rico; over four million from the Philippines and about ewelve million from the Hawaiian islands. The estimate is made that the total commerce with the non-contiguous territory for the entire year of 1905 will approximate $125,000,000.

BALFOUR TO STEP DOWN

Appeal to Country Will Precede Resignation of Cabinet

Liberals Will Not Accept Office in Face of Present Hostile Majority--Lord Londonderry Retains Portfolio

London, Nov. 25.—The Times this morning says it is thought in well informed political circles that after a careful consideration of existing conditions premier Balfour will be confirmed in his views that he can no longer hold office with advantage to the country or with credit to himself and that therefore he will resign.

London, Nov. 25.—The commanders of the allied fleet at the Pireaus held a further conference yesterday on board the Austrian cruiser St. George as the result of which it is expected the fleet will sail tomorrow to seize the custom house of the island of Mytilene. Despatches from Athens say that two Russian vessels will join in the demonstration, but that Germany shows no sign of participating.

Doubts are expressed as to whether in the event of the sultan proving obstinate the combined fleet could establish an effective blockade of the Dardanelles. According to the Standard, should the naval demonstration be disregarded, the powers will give Austria a mandate to take the necessary military steps for the securing of the proposed reforms in Macedonia.

Vienna, Nov. 24.—The Neue Freie Presse asserts that the only reply from the powers to the porte's final note will be issuance of instructions to admiral Ritter von Jedina to begin operations.

Various alarmist reports have been current here for the last two days to the effect that some of the Balkan states particularly Bulgaria, are considering a plan to take advantage of Turkey's present predicament and to start a serious movement against that country for the purpose of succoring the people of Macedonia. These stories have received credence from the fact which was learned tonight that Austria had addressed the powers signatory to the treaty of Berlin, submitting to them the advisability of forwarding to the respective governments of the Balkan states a collective note setting forth that these governments should not misinterpret the naval demonstration as a good opportunity to harass Turkey.

Today's cabinet council, which although not originally summoned for the purpose, had to decide the question of the resigning or temporary prolongation of the retention of office by the Balfour ministry, was attended by all the members with the exception of the marquis of Salisbury.

Only a few score of the public gathered in the vicinity of Downing street to witness the assembling of the ministers and there was no demonstration. It was regarded as a foregone conclusion that the cabinet was going out and the only public interest was in the manner of its going, whether the premier and his colleagues would take precipitate action or decide to remain in office for a little while longer to wind up the business actually on hand. Mr. Balfour's hand, it is understood, was somewhat forced by the resignation of the marquis of Londonderry, the president of the council, and president of the board of education, which was tendered a few days ago.

The question immediately arose whether the collective resignation of the ministry would not be preferable to its gradual disintegration.

The session of the cabinet broke up soon after 2 o'clock in the afternoon, after a couple of hours' deliberation.

As the marquis of Londonderry was present at the cabinet council it is evident that Mr. Balfour did not accept his tendered resignation and the lord president of the council probably withdrew it when informed that the cabinet would not again meet parliament with the idea of transacting further business.

All doubt as to whether or not the marquis of Londonderry had consented to remain in the cabinet was dispelled later by a statement from the minister himself to the effect that he had not resigned.

It is understood that the proposals for the collective resignation of the cabinet was rejected and that the ministers arrived at the decision that it would be better to dissolve parliament themselves and appeal to the electorate. Should this course be followed it will largely be due to the well-grounded belief that the liberals would decline to form a cabinet before a general election places them in possession of an daequate parliamentary majority to carry out the liberal program.

AUTONOMY OF MACEDONIA

Sofia, Nov. 24.—All the revolutionary bands in Macedonia have reached an agreement to work together for the autonomy of Macedonia. This understanding was ratified yesterday by the exchange of letters between Gruaff and Tsoncheff, who hitherto have led rival bands which have been waging war between themselves.

CITY SCORES A POINT

(Special to The Daily News)

Victoria, Nov. 24.—In the city of Nelson vs. West Kootenay Power & Light company appeal before the full court today, the city of Nelson gained a decided victory in securing the consent of the majority of the court to the application to put in additional evidence. The terms upon which this evidence will be admitted and the time for hearing the appeal itself will be argued and decided tomorrow morning.

ORGANIZE HOCKEY CLUB

OFFICERS ELECTED LAST EVENING AT GOOD MEETING

PROBABLY NO CHANGE WILL BE MADE IN LINEUP

The meeting of the hockey enthusiasts at the Hume hotel last night was a good one and representative, although half an hour late in convening. About 30 men were present. In the absence of president W. A. Macdonald, T. J. Scanlan was voted to the chair; W. H. Deacon acted as secretary. The election of officers resulted: President, W. A. Macdonald; vice-president, J. S. Carter; secretary-treasurer, W. H. Deacon; manager, J. G. Bunyan. The names of representative committee men were discussed, but no election was held, pending acceptance by the nominees.

The committee appointed to negotiate for the use of the Tramway rink, reported asking for further instructions. No agreement has yet been reached, but it is hoped that very favorable terms may be secured. The secretary and committee were instructed to continue negotiations with the resident directors of the company.

It was decided that the city council and the West Kootenay Power & Light company should both be approached in an effort to secure cheaper light for the rink.

Joe Thompson promised to direct and assist in the work of levelling the floor of the rink so that the flooding of it for ice might be easier and less expensive.

A communication has been received from the new Spokane hockey club asking for games. The secretary was instructed to reply accepting the invitation, but without fixing any date.

A number of junior players were present. It is already decided that the intermediate team, which had a victorious career last year, will reorganize at once and begin practice as soon as weather permits.

The concensus of opinion of those at the meeting was that the prospects for the season are good. Joe Thompson, F. V. Thompson, I. G. Robertson and W. H. Deacon of last year's team were present. It is understood that the Bishop brothers, and E. Armytage will also be available.

SOCIALISTS DEFEATED

POLITICAL RESOLUTIONS DECLARED OUT OF ORDER

YESTERDAY'S SESSION OF THE FEDERATION OF LABOR

Pittsburg, Nov. 24—At today's session of the Federation of Labor the socialist delegates introduced two resolutions on public ownership in which the committee on resolutions had not concurred. The discussion which followed was spirited but while at its height was cut short by delegate Mahon, who arose to a point of order and cited the constitution to the effect that political discussions shall not be permitted in the convention. President Gompers immediately decided the point well taken and declared the resolutions out of order and further discussion was stopped. Tomorrow a city will be selected for the next convention.

The committee on resolutions made its final report today, its first resolution condemning the present taxation laws now in force in the United States was defeated. The committee then reported on the immigration question, a resolution restricting immigration in the United States, alleging that the immigration laws were inadequate and demanded from congress the enactment of certain laws restricting certain persons from the country. Canadian immigration was not mentioned.

RATE MAKING POWER

Foraker Not in Favor of Granting it to Interstate Commission

Washington, Nov. 24—Senator Foraker today presented to the committee on interstate commerce a draft of his bill to amend the interstate commerce law. He explained that he had tried to meet the complaints against present railroad legislation and at the same time avoid conferring upon the interstate commerce commission or any similar body power over railroad rates. While this bill does not confer upon the court the power to fix a rate, it does authorize the court to say what is an unlawful rate and how much is unlawful and to enjoin the carrier from charging more than is found lawful.

SULLIVAN BEATS GARDINER

But the Contest Was Prolonged Until the Twentieth Round

San Francisco, Nov. 24—Mike (Twin) Sullivan tonight got the decision over Jimmy Gardiner in the 20th round. Gardiner was the favorite at 6 to 10. The contest was scheduled to go 20 rounds. Both men were in good shape and fought at catch weights which made the conditioning of the men an easy task.

NEWS OF REVELSTOKE

(Special to The Daily News)

Revelstoke, Nov. 24—Born, on Monday, 20th instant, to the wife of C. B. Hume, a son.

Kenneth McRae, from Fairbanks, Alaska, is visiting his brother, the postmaster.

The ladies of the Roman Catholic church netted about $800 from their watch contest and oyster supper.

The ladies of the Methodist church held a most successful bean feast on Tuesday evening.

T. Kilpatrick, divisional superintendent of the C.P.R., who has been enjoying a much needed holiday in the east, is expected back on Tuesday next.

A freight engine off the track near Albert Canyon, delayed Wednesday night's western express for a few hours.

The Revelstoke Tourist association has issued a splendid map showing the sporting attractions of this district, which is to be incorporated in the forthcoming publication of the Sportsmen's club of Boston. It was drawn by R. L. Smith, P.L.S.

With characteristic enterprise the hospital ladies society put in a water motor to run a dynamo for the ball room.

The electric light plant promises to be in operation by the end of the week or Monday at the latest.

MUTINY IN SEBASTOPOL

AGRARIAN TROUBLE CROPS UP IN DISTRICT OF OREL

ZEMSTVO OPPOSES GRANT OF AUTONOMY TO POLAND

London, Nov. 25.—A despatch to Reuter's Telegram company from St. Petersburg says it is persistently reported there that there has been a mutiny in the Black sea fleet and that portions of the Sebastopol garrison have mutinied, killing the chief of staff, and wounding a colonel.

Dmitrovsk, Nov. 24.—Agrarian disorders in the government of Orel are spreading. The peasants in many districts, brought to the verge of starvation by the crop failure, have risen against the estate owners and are pillaging and burning buildings and seizing their crops.

Moscow, Nov. 25.—A sharp division of sentiment on the question of Polish autnomy cropped up at yesterday's session of the Zemstvo congress. Over 50 speakers demanded to be heard on the question and while the majority of them emphasized the request and declared that they sympathized with the demand of the Poles for the abrogation of martial law, many were opposed to autonomy, looking upon it as the first step towards breaking up of the empire.

The executive committee took into account this sentiment in drafting a proposed resolution, which while decaring that the congress endorsed the decision of the September congress with regard to the autonomy of Poland, the question shoud be turned over to the first douma for settlement. The congress adjourned without the debate being finished.

St. Petersburg, Nov. 24.—The Witte cabinet appears to be fairly satisfied with the definition by the zemstvo congress of its attitude towards the government, believing that it will produce a good impression on the conservative sentiment throughout the country and materially aid the premier in successfully accomplishing his task of finding a common ground between the reactionaries and malcontents.

AN AMERICAN OPINION

Ithica, N. Y., Nov. 24.—Dr. Andrew D. White, former ambassador to Russia tonight spoke before the Cornell Cosmopolitan club upon the prospects of constitutional liberty in Russia. He said: "Count Witte has two great obstacles in his task to perform; the lack of universal education to fit Russians for suffrage and the censure placed on public discussion of all kinds by the government. When order is restored I think it will come in the form of autocracy perhaps stronger than ever, it may be with a few reforms. The army and autocracy will restore order and this may be the great danger that threatens Russia in its state of ignorance. I hope that as broad a suffrage will be introduced as the autocracy and the educated Russians see fit, but there will still be confusion rather than revolution in Russia."

TO BLOW IN NEXT WEEK

WORK TO BE RESUMED AT BOUNDARY FALLS SMELTER.

MEANS INCREASED ORE TONNAGE FOR C. P. R.

(Special to The Daily News)

Phoenix, Nov. 24.—Announcement is made by W. C. Thomas, superintendent of the Dominion Copper Co.'s smelter at Boundary Falls, that the reduction works will be blown in next Monday or Tuesday, and would have been placed in blast tomorrow had some expected castings arrived as expected. At first but one furnace will be blown in to be followed by the second one in due course when preparations are completed. For some time past Mr. Thomas has had a force of men at work making some changes in the arrangements at the smelter, and these are now nearly completed. For the past two or three weeks ore shipments have been going from the company's mines in this camp—the Brooklyn, Stemwinder and Rawhide, and something of a surplus is being accumulated for an emergency—something that was never done by the old company.

It is expected that the eight hour day will be put in force at the Boundary Falls smelter.

Beginning next Monday the C. P. R. will take out ten cars of ore daily, or about 300 tons, from the Dominion Copper Co.'s mines in this camp, which is equivalent to the average capacity of one furnace, and this amount will be doubled whenever the smelter is ready to blow in the second furnace. Manager Drummond will also probably increase the force of men at work in the three mines of the company here, as it is understood that development is to be kept well in hand in advance of shipments. The beginning of shipments from these mines means the employment of another train crew by the C. P. R. on the Phoenix hill.

SULTAN IS OBDURATE

Naval Demonstration is Now Obliged to Make Good Its Threat

Force Inadequate to Occupy Dardanelles--Balkan States Threaten an Uprising--Austria May Now Intervene

Constantinople, Nov. 24. — The Porte's reply to the demands of the powers is not only a categorical rejection of the demands but contains veiled threats that the pressure of Europe will possible excite the Turkish population to reprisals on the Christians. The latter part of the note implying the possibility of massacres has created a bad impression in diplomatic circles, where it is regarded as being a deliberate attempt to create artificial public excitement against financial reform with the object of intimidating Europe.

Paris, Nov. 24.—It is stated in official quarters that the exchanges of communications between the powers concerning Turkey's answer to the ultimatum have resulted in the practical determination not to consider the answer as postponing the naval demonstration which will proceed without further parley. It is understood that the warships of the powers are already moving from Piraeus. The objective is not yet definitely stated but the island of Mytilene still appears to be the objective applicable to the situation.

London, Nov. 24.—The foreign office declared today that the Porte, having failed to accede to the demands of the powers the naval demonstration will proceed. The matter is now in the hands of the naval commanders.

WINNIPEG'S NEW CATHEDRAL

Two Spires Will Once Again Point the Roman Mission

Winnipeg, Nov. 24—"Bells of Roman Mission that call from their turrets twain," will once again be quoted from Whittier's immortal poem with all truthfulness. Since the far famed cathedral in St. Boniface was destroyed by fire in 1860 there has been no "turrets twain" to perpetuate the poem of the Red river voyageur, but plans are now being executed to erect another cathedral and this time two spires will deck the Roman Mission.

The present cathedral in St. Boniface, which was built since the fire of 1860, has only one steeple. The plans for the new cathedral are being prepared by architects Haskell & Marchant of Montreal, who will soon invite tenders privately. The dimensions of the structure will be 300x100 feet and be built of native stone. The spires will not be built until a few months after the main body of the cathedral has been erected.

ADAMS IN JAIL.

His Peculations Amount to Over $200,000 Instead of $35,000.

Seattle, Nov. 24.—Developments today in the case of George Edward Adams, cashier in the United States assay office at Seattle, arrested for embezzlement, indicates that instead of stealing $35,000 in gold dust to which he had confessed, his peculations may amount close to $200,000 and instead of covering a period of six months they will run further back than 1903. Adams' bondsmen today withdrew the $30,000 bonds given him and Adams is in jail awaiting trial.

WINNIPEG CATTLE TRADE

Increase of Over 50 Per Cent on Last Year's Figures

Winnipeg, Nov. 24—The cattle trade during the season just closing has been fairly satisfactory. There was an increase of over 50 per cent in the number of head exported and prices ruled slightly higher than those prevailing last years. In 1904 there were 32,471 head exported and 4962 head were consumed by the Winnipeg trade. This year there were 40,748 head exported and 9628 consumed locally, making the total number passing through Winnipeg yards 65,956, or 25,523 in excess of last year.

ALBERTA SHEEP RAISING

Lethbridge, Nov. 24—Sheep raisers have experienced the best season in the history of the Canadian west. Wool prices were exceedingly high and now a great demand for mutton creates a ready market for all offerings. Lambs are worth $2.50 on the hoof and any kind of breeding commands from $4 to $6.

CHALLENGES THE WINNER

New York, Nov. 24—Announcement was made here today that James Coltroth, matchmaker of the Colma athletic club of San Francisco, would match Jimmy Kelly to meet the winner of the Gardiner-Sullivan fight, which occurred in San Francisco tonight. The bout will take place late in December, the men to weigh in at 138 pounds.

HENRIK IBSEN DYING

London, Nov. 25.—The Christiania correspondent of the Times says that Henrik Ibsen is lying unconscious and is not expected to recover.

O'KEEFE KNOCKED OUT.

Spokane, Nov. 24.—"Honey" Mellody knocked out Jack O'Keefe tonight in the 14th round.

SASKATCHEWAN SETTLERS

North Portal, Nov. 24—Two hundred and twenty settlers and their effects entered Canada through here from the United States yesterday.

UNION LABEL

HOME RULE AN ISSUE.

Today's despatches from London confirm yesterday's rumors of an early appeal to the country in Great Britain, but there is now, apparently, no intention on the part of premier Balfour to resign before the general elections.

Sir Campbell-Bannerman's reported pronounceent on the Irish home rule question will force that highly controversal subject into the forefront of the coming campaign with results that may nip in the bud the sanguine hopes of the liberals, for it is extremely doubtful if the great mass of the electors of England are any more favorable today to home rule for Ireland than they were when Gladstone split the liberal party in twain by the introduction of his famous measure.

Whilst sir Campbell-Bannerman declares that opinion has changed on this subject in England there has been nothing in the chief English newspapers, nor in the utterances of prominent liberal-unionists to indicate that the change is at all far reaching.

Lord Rosebery declared quite recently that the home rule question could not be given consideration by a liberal government directly upon taking office. The tenor of his remarks was that it would be dangerous for the liberals to attempt to deal with the matter for some years to come and he certainly made it plain that he did not want to see the question figure in the next campaign.

The duke of Devonshire has broken with the government over the tariff reform issue and many thought that he might rejoin the liberal party, but his views on home rule are still as pronounced as when he severed palitical relations with Gladstone.

John Morley always was and still remains an advocate of home rule. Mr. Asquith, one of the foremost men in the radical ranks, is discreetly silent on the topic. Sir Edward Grey, another of the radical leaders, is believed to be in sympathy with lord Rosebery's anti-home rule sentiments.

The confusion in the government occasioned by the Chamberlain fiscal policy, which it was thought would ensure a sweeping victory for the liberals, may yet be paralleled in the liberal ranks by the home rule question. In that event the predicted downfall of the Balfour government may not materialize.

EDITORIAL NOTES

The London Mining Journal, of November 11, says: "The report on mining in British Columbia last year, though submitted to the minister of mines as early as February 13 in the current year, has only just reached us, so that though among the last of official reports to appear it has not the compensation which late comers sometimes possess of more complete statistics due to increased length of time for obtaining them." It will not be suggested that The Daily News is animated by bitter partisanship when it remarks that Hon. Richard McBride, minister of mines, might reasonably use a little greater haste in providing important English mining journals with copies of his annual report. It is generally agreed that, even for local purposes, the annual reports of the mines department are published too late to prove of any effective service and when nearly a year elapses before those reports reach London it may truthfully be asserted that they are of precious little more value than so much waste paper. The annual review of the mining industry issued by The Daily News on the first of the new year is of infinitely more value to the province than these belated government reports. In this connection we may be permitted to remark that work upon our annual review has been commenced. In the course of the next few days mine owners throughout the Kootenay and Boundary districts will receive copies of a circular letter asking for certain specific information regarding work done, shipments, etc., and we would request that prompt attention be given to the questions asked. We hope to make our review of the mining industry more comprehensive than ever before on this occasion.

The Victoria Week, despite pronounced tory tendencies, is usually sane in its comments on current affairs, but when it allows its party feelings to lead it into declaring that the Ottawa liberals "bought up the voters of Alberta" it discloses a weakness not heretofore suspected. There may have been corruption in the Alberta elections, of that we know nothing, but we have no hesitancy in describing as arrant nonsense the charge that the sweeping liberal victory was in any appreciable measure due to bribery of the electorate. To believe anything of the sort is to confess to a very poor opinion of the people of Alberta.

The Grove Hotel, Fairview is now under the management of Mr. J. Grant, late of the Club Hotel. He has laid in a stock of first class liquors and patrons may depend upon getting entire satisfaction. He will be pleased to welcome all old friends and any new ones.

PAYING ITS DEBTS.

Caracas, Nov. 23.—In view of the fact that no representative of the French government called on the Venezuelan government on November 14 for the second installment of the Plumley arbitration award, that being the date the money was due the Venezuelan government asked the United States minister to receive the installment and yesterday afternoon the money was delivered to the American minister.

STREET RAILWAY CHANGE

Big Deal in Connection With the San Francisco Street Lines.

San Francisco, Nov. 24.—The United railroads of San Francisco have changed hands. The New York banking house of Brown Bros. & Co., which has controlled the local street railway since the consolidation neary four year ago, no longer have any interest in the properties. Arthur Holland, who during the past four years has filled the position of president, will retire at the end of December.

Just what interests have succeeded to the control of the United railroads is not officially announced, but it is known that the owners are the New York banking house of Ladenburg Thalmann & Co. and its associates and clients. Patrick Calhoun continues to be the largest stockholder in the controlling company and it is said will have the naming of the new president.

G. McL. BROWN'S PROMOTION

George Ringland Will in Future Act as His Assistant Manager.

Montreal, Nov. 24.—A circular issued today from the office of Robert Kerr, passenger traffic manager of the C. P. R. announced the appointment of Geo. McL. Brown as general passenger agent of the Canadian Pacific Atlantic steamship lines. The appointment is to take effect on December 1. George M. Ringland who has been acting as general passenger agent of these lines will now act as Brown's assistant. Brown was from 1887 until 1897 district passenger agent for the company at Vancouver where he was later executive agent. In 1901 he came to Montreal to assume the duties of superintendent of sleeping and dining car department.

FRANCE MEANS BUSINESS

Preparing For a Naval Demonstration Against Venezuela.

Paris, Nov. 24.—A despatch from L'Orient says the French cruiser John Bart will take on armament on December 12 for the purpose of forming a part of the division charged to make a demonstration in Venezuelan waters. The minister of marine, however, will not give any additional details.

The foreign office insist that no decision has yet been taken to use force but they add that the naval branch is taking preparatory measures so as to be ready in the event of the failure of the negotiations to secure a pacific settlement.

HITCH IN PEACE TREATY

Declared to Be Merely a Matter of Some Verbal Errors.

St. Petersburg, Nov. 24.—The hitch in the exchange of the final ratification of the peace treaty is explained here as being due to the omission of three words in the French and English texts and a slight discrepancy in the translation of a phrase in one of the articles. Russia does not regard the matter as material. Baron Rosen, the Russian ambassador at Washington had authority to sign, but Japan raised objections.

MINING RECORDS

The records in the Nelson mining office Friday included one location and three certificates of improvement.

The Easterhazy was recorded by Thos. McIsaac, situated between the Mountain siding of the Nelson and Fort Sheppard railway and Anderson creek, above the line of the railway and a mile from the Mountain Siding, located on November 17.

Certificates of improvement on the H. G. N., Blakie and Mayflower claims in the Pingree group, were issued jointly to J. L. Stamford, Angus G. Shaw, and Frank Seaman.

FITZ-O'BRIEN FIGHT.

San Francisco Nov. 24.—The Fitz-O'Brien contest will be held in the Mechanic's pavilion on Wednesday evening, December 20. This announcement of the date is authorized by promoter Coffroth who is still in New York.

MINERS' CO-OPERATIVE STORES

A convention of delegates from all the locals of District No. 18, U M. W. of A. is to be held at Fernie on December 20 to consider the question of establishing co-operative stores in towns along the Crow's Nest line.

FIRE IN MONTREAL

Montreal, Nov. 24—A four storey stone building, occupied by Lejeunesse and Ducklos, produce merchants and J. H. Malden, manufacturer, in D'Youville square, was gutted by fire last night. The loss is about $15,000, fully insured. The building is in the heart of the congested business district.

SUICIDE OR ACCIDENT?

Quebec, Nov. 16—A young man named Jenner of Chatham, Ont., who has been for several years a teacher in the Quebec high school, was found in his bed this morning fatally wounded as a result of a revolver shot. He was taken to the hospital where he died later. It is not yet known whether it was a case of suicide or an accident.

NO NEARER SETTLEMENT

Toronto, Nov. 24—A Washington despatch says the dispute between the United States and Canadian governments regarding the use of the waters of the Milk river for irrigation purposes, is no nearer settlement than it was six years ago.

MARTIAL LAW IN JAPAN

Tokio, Nov. 24—The agitation against the government for its non-abrogation of martial law and its suppression of the liberties of the press is gaining strength. Many sympathizers with the opposition party can be found even among members of the public officials.

"JERRY FROM KERRY"

The next attraction at the opera house is Patten & Perry's funny musical farce comedy and vaudeville show on Monday and Tuesday, Nov. 27 and 28. Among the many special features with this show are Compbell and Fletcher, the comedy acrobats; the famous Gibbs children, in the greatest juvenile act before the public; Prof. Cailloutte, the king of the wire, and many other high class specialties.

THE ALBANY MURDER

Police Have Evidence Against Husband of Dead Woman

Albany, Nov. 24The police believe they have a complete case against the missing John Hammond, the 24 year old carpenter, the body of whose 57 year old wife was found yesterday, huddled and decomposing in an old trunk in their flat on South Ferry street. James Mangini of Cohoes, the husband of Hammond's sister, was taken into custody today and brought to Albany, and he confessed to the police of both cities that on Nov. 14, two days or more after the murder must have been committed, he accompanied Hammond from Cohoes to Rouse's point and that on the journey Hammond, who he says in a condition bordering on nervous collapse, told him that he had killed his wife and hidden her body in a trunk.

Mangini is being held both as a witness and an accessory after the fact of the murder. He says that Hammond also made a like confession on Nov. 15 to an uncle at Rouse's point. The police say they are confident that Hammond is in or near Montreal, and that he will be arrested. Albany detectives are in Canada searching for him.

REMARKABLE TOWING VOYAGE

Floating Dock to be Taken from Chesapeake Bay to Manila

Washington, Nov. 24—J. D. Wood, a tug master of Norfolk, has just signed a contract with the navy department to go out to Manila on the Dewey, on one of the most remarkable cruises of modern times. The Dewey is the big steel floating drydock now at Solomon's Island in Chesapeake bay, which is destined to dock the largest ships in the American navy in the far east, if this great structure can ever be successfully piloted through the 14,000 miles lying between Chesapeake bay and Manila.

Besides Mr. Wood there is a crew of eight mechanics, eight sailors and electricians and firemen. On the voyage across they will be reinforced by 22 sailors. This comparatively large crew is needed for the purpose of handling the towing lines and operating the pumps and electric appliances that keep the dock dry. The dock will be towed by three colliers. Each collier will have its own wireless plant so that they may freely communicate with each other.

The towing line will be a mile and a half long, a length regarded as necessary to guard against sharp strains in a heavy sea, and even with this great towing line, boats with pneumatic cushions have been placed in the colliers to reduce the chance of breaking the cables, the largest steel ropes in the world outside of some of the great suspension bridges. Competent naval officers believe that the Dewey can be towed at the rate of about 100 miles a day and allow three or four months for the trip via the Suez canal.

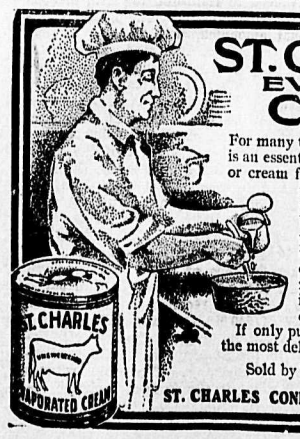
MICHEL HAPPENINGS

(Special to The Daily News)

Michel, Nov. 24—Mike Wallace, a Hungarian, met with a serious accident yesterday while working in the No. 8 mine, the cars running over him and breaking one of his legs.

The bazaar given by the Ladies' aid of the Methodist church in the Michel hall, was a great success. The church realized a handsome sum from the proceeds. Numerous dainty and useful articles were for sale and a fish pond added very greatly to the amusement of the evening. Miss Alwin Anthony and Miss Williams, who were candidates for election on the occasion, both received a large number of votes and Miss Williams, who was elected, was presented with a handsome gold watch.

Thomas Morgan, inspector of mines, who has been in town inspecting the properties here, left today for Cranbrook where he will remain for a day or two and then proceed to Moyie to inspect the St. Eugene and other mines of that place.



ST. CHARLES EVAPORATED CREAM

For many things in cookery, St. Charles Cream is an essential. It is as good as the best milk or cream for any purpose. For many purposes it is much better. It gives to coffee, for instance, a flavor which even the best of ordinary cream cannot approach, and it aids in bringing out the delicate aroma of chocolate and cocoa. For confection and ice cream it is unexcelled. For invalids and infants it is indispensable. It never curdles. It strengthens the strong. If only pure water is added it will agree with the most delicate stomach.

Sold by best grocers everywhere.

ST. CHARLES CONDENSING CO., St. Charles, Ill.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhœa, dizziness, flatulency, displacements of the womb or irregularities.

When these symptoms show themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one *tried and true remedy.*

Mrs. Fred Seydel, 412 N. 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"I was in a very serious condition when I wrote to you for advice. I had a serious womb and ovarian trouble and I could not carry a child to maturity, and was advised that an operation was my only hope of recovery. I could not bear to think of going to the hospital, so wrote you for advice. I did as you instructed me and took Lydia E. Pinkham's Vegetable Compound; and I am not only a well woman to-day, but have a beautiful baby girl six months old. I advise all sick and suffering women to write you for advice, as you have done so much for me."

Miss Lillian Martin, Graduate of Training School for Nurses, Brantford, Ont., writes:

Dear Mrs. Pinkham:—

"While we are taught in the training schools through the country to look down upon patent medicines, and while the doctors in the hospitals speak slightingly of them to patients, I have found that they really know different. I have frequently known Physicians to give Lydia E. Pinkham's Vegetable Compound to women suffering with the most serious complications of ovarian troubles, falling of the womb, leucorrhœa and other disorders. They would, as a rule, put it in regular medicine bottles and label it "tonic" or other names, but I knew it was your Compound and have seen them fill it in prescription bottles. Inflammation and ulceration have been relieved and cured in a few weeks by its use, and I feel it but due to you to give Lydia E. Pinkham's Vegetable Compound proper credit."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

PRICE OF WHEAT RISING

GRAIN MARKET STILL SHOWS SIGNS OF ADVANCING

ALL SECURITIES STRONG AND ACTIVE—MONEY EASY

The American *stock markets continue* very active and strong. The number of shares transferred daily on the New York exchange has been keeping well above the average for more than a week. Money is still abundant and available on easy terms. The grain markets are also active and yesterday's prices confirm the expectations of an advance.

The stock market was very active today, making the high mark in the early part of the session, it sold off toward the close. Metropolitan opened at 118 1-2, sold to 120 1-2 and closed at 19 1-4; Reading opened at 138, sold off to 136 1-4, advanced to 138 1-2 and closed at 138 3-4; Amalgamated Copper opened at 86 3-4, sold to 86 1-2, advanced to 87 3-4 and closed at 86 5-8; U.S.S. opened at 38 1-8, advanced to 38 3-4, closed at 37 7-8; U.S.S. preferred opened at 104 5-8, sold up to 105 5-8 and closed at 104 3-4; St. Paul opened at 178 5-8, sold to 178 7-8, closed at 177 3-4; R. I. opened at 28 1-4, closed at 26 5-8; Union Pacific opened at 136 7-8, sold to 137 5-8, broke to 135 3-4 and closed at 135 7-8; L. & N. opened at 151 3-4, sold to 152 3-8, broke to 151 1-2 on the close; Erie opened at 49 1-8, sold to 49 1-2, broke to 48 1-8 on the close; Southern Pac. opened at 68 5-8, closed 68 3-4; C.P.R. opened 172 1-4, gained an eighth, closed at 141 1-2; Penn. opened at 140 1-4, sold to 140 7-8, and closed at 140; B. & O. opened at 113 3-8, sold to 114 5-8, closed 113 7-8; sales to *noon*, 612,800 shares; call money 5 per cent.

Grain—Liverpool opened 1-4 higher and closed 1-4 lower. Our market opened off a fraction from yesterday's close, at 83 3-8 for December option, closing 83 3-4; May wheat opened 86 7-8, closed at 87 1-8.

Reported by Sharp & Irvine, Nelson Nov. 24th.

SMUGGLING DIAMONDS

Big Haul Has Been Made by Authorities in Chicago

Chicago, Nov. 24—Information was filed in the United States district court yesterday by assistant district attorney Godman to have forfeited 278 diamonds, valued at several thousand dollars, said to have been smuggled past the customs officials at Boston. The confession that the gems were smuggled into this country, was made by Henry Hoffman. A few days after the arrest of Mrs. Lena Becker, it was learned that the woman had been implicated in the diamond robbery in New York. The woman is believed to be an accomplice of Hoffman and has been indicted by the New York authorities.

When the federal authorities here learned of the New York diamond robbery, they decided to hold the gems, and unless Hoffman shows good reasons for not doing so, the gems will be forfeited on the information filed by attorney Godman.

IN ANOTHER ROLE

Tom Procter's Tale of Adventure as a Cattleman

A remarkable animal with a chequered history has recently disappeared from the forests of Kootenay under tragic circumstances, after a brief but glorious career. The villain of the story is T. G. Procter, also the narrator.

"In the spring of last year I bought the West ranch at Queen bay. There were 19 or 20 head of yearling cattle included in the outfit and I decided to have them shipped over to Procter. I made arrangements with the C.P.R. to have them taken across on the steamer. I had all the cattle tied to logs on the beach, and I went up from here on the steamer to take charge of the operation myself.

The steamer happened to be late that morning and the crew tried to hurry a little too much taking on the cattle. The result was that the sailors were butted all over the beach, and all but five of the heifers escaped to the timber. I had the five taken off and left rather than make two jobs of it. I raised a kick at the C.P.R. offices and got permission to superintend the shipping of the cattle myself. I took charge of the crew, roped a heifer, threw it on its back and dragged it up the gang plank, nearly wearing the hair off its hide at the same time. The others followed my lead and we got them all on board, except one steer, that bucked as soon as it was untied, and escaped to the woods. We left it there and took the others. That steer had the whole shore and woods to himself for a year and a half. No one could get near him. He got to know the whistles of the steamers and was often seen scampering from the beach into the timber.

"Well, about a month ago I decided that it was time to turn him into beef. I sent a man over to shoot him. The man said he hit him in the left horn, but the horn bears no mark of the bullet. Then I sent in three ranchers to corral him. They got him after putting four bullets into him. I cut him up myself. He will not be fresh any longer, he is salted down at the Outlet hotel.

The International association of Machinists, Nelson lodge, No. 663, C.P.R., intend holding their first annual ball in the near future.

JUDGE NOT BY APPEARANCES.

THIS advertisement looks the same in a newspaper of one thousand circulation as it does in a paper of fifty thousand.

You who read this paper probably do not know its circulation.

But we, before we buy space in it, want to know, first of all, how many people read it.

Because, it is worth fifty times as much to us to have fifty people read this "ad" as to have one.

Now the hidden things in shoes are as important to you as the hidden circulation of a newspaper is to us.

You should look under the polished finish of the shoe for its real merit.

Or, you should have the responsible guarantee of the Factory that made them, as to the actual value there is in them.

No retailer, however honest, can tell what kind of leather is hidden under the finish of the sole or upper.

Nor can he tell how far the expensive workmanship has been slighted, for "economy" sake, in the vital but unseen parts of the shoe.

The Makers alone know what service, comfort and shape retention there is in every pair, and they alone can be held responsible for results.

The only shoes in Canada which are price-controlled by the Makers are "The Slater Shoes."

Stamped on the lining, inside the boot top, will be found the slate-frame trade mark with the Makers' retail valuation $4.00 or $5.00.

What Flour Granulation Means in Bread-Making

Flour is composed of myriads of tiny granules.

To make good bread these granules must be uniform in size.

In poorly milled flour some granules are large, some small.

The small ones absorb yeast, "rise" and "ripen" before the large ones—the result is bread of coarse, poor texture.

The large granules are not developed into "sponge," they bake into heavy hard particles, spoil the texture of the bread and make it harder to digest.

ROYAL HOUSEHOLD FLOUR is perfectly milled—all the flour granules are uniform in size—the sponge rises uniformly—the bread is even in texture — perfect in flavor — good-looking, appetising bread — easily digested.

Ogilvies back it with their reputation by branding it

Ogilvie's Royal Household Flour.

"Just the thing"

For a "bite at bed-time," what could be better than a glass of milk and

IN WINDERMERE VALLEY

FARMING, FRUIT GROWING AND MINERAL RESOURCES.

IDEAL LOCATION FOR AN EXPERIMENTAL FRUIT FARM.

(Special Correspondence)

Fort Steele, Nov. 23.—Less is heard within the province of the Windermere lake country than of the justly celebrated Okanagan valley, and hence less is known of it outside. The elevation of the Okanagan valley is, of course, considerbly less than that of Windermere, and thus the heat there becomes occasionally oppressive. On the other hand the temperature in the Windermere valley is more equable in summer, and yet is warm enough to ripen corn and tomatoes, though peaches might not prove as successful as in the Okanagan. Other fruits, however, as far as tested, have been grown to perfection. W. Brewer has had a few apple trees in bearing for about thirteen years and the quality of the fruit is excellent.

Mr. Walter Taggart has also a small but thriving orchard, and his apples are as handsome and fine as could be desired. It cannot be said as yet, however, that fruit growing has been followed by the ranchers as a money making industry. It is only within recent years that orchards have been planted on an extensive scale. Mr. Kimpton has shown most commendable energy and enterprise in this direction. Choosing out the sunny nooks in his extensive farm, he has cleared and cultivated the ground thoroughly before planting, leaving neither stump nor root to hinder the after cultivation of the soil. The wisdom of this course is shown by the thrifty appearance of his trees. In the last three years he has set out many hundreds of apples, plums and cherry trees, and has also planted a nursery of about 15,000 seedlings which he will graft and have ready for the market in a year or two more. While his orchard trees are growing Mr. Kimpton very properly cultivated the spaces between the rows. In some he has strawberries, in other various kinds of vegetables, and from these he has sold this year in the local market to the amount of $1200. As an instance of the fertility of the soil he grew a small patch of specially cared for potatoes which by calculation yielded at the rate of 28 tons to the acre! Could such a phenomenal yield be equalled in the fattest soils of the east? Another instance might be noted, not so extraordinary, but yet speaking volumes for the fertility of the soil, and that too without irrigation: from scarcely three-fourths of an acre Mr. A. Taggart dug 9000 pounds of excellent potatoes.

Speaking of irrigation Mr. Kimpton tells me that on ground that has been irrigated for several years less and less water is required and he thinks that in course of time good crops may be grown without it. The visitor is agreeably surprised to see the extent and beauty of the cultivated fields in this interesting valley. Behind the townsite of Windermere on the east the mountain range recedes to the distance of several mines and is the triangular area thus formed are many thousand acres of as fine land as can be found anywhere in the province much of it almost level and all capable of irrigation. One of the finest farms in the valley close to Windermere has recently been bought by Mr. Hammond, of Toronto, of the firm of Osler & Hammond, and is being very rapidly improved by new fencing and extensive cultivation. The price is said to have been $7000. Some of the best looking farms in the valley are held by Indians and their farming is quite a credit to them . All the same our native brother is still more of a hunter than farmer, and if he were permitted to sell the lands he occupies he would probably very gladly hie to the hills again. And very certainly if these Indian lands could be bought they would quickly be taken up by white settlers. The reservation of the Shuswaps, north of Windermere seems specially well adapted for grain and hay, that of the Kootenays south, is perhaps better for the cultivation of fruit. But the Indians themselves have begun to set out trees and if they will only learn to cultivate and prune them they may in a few years find in this industry a valuable means of maintenance.

Situated as is this great valley (nearly 200 miles in length), the most easterly in the province fitted for fruit raising, does it not seem reasonable that, with the Kootenay Central in operation, its future thousands of fruit growers should be able to suply the prairie market more profitably than districts farther to the west? There will be market enough for all, however, for the expansion of settlement on the plains seems well nigh limitless; and hence British Columbia may, like California, find her greatest and most enduring source of wealth in the wonderful productiveness of her soil. Our "sea of mountains" may give rise to greater, though fewer, fortunes, but the happier people will be those who quietly follow the more peaceful and natural avocations in our numberless smiling valleys.

Wilmer, the most northerly point visited, is headquarters for the mining companies operating in the mountains behind it to the west. We might almost have used the past tense in speaking of this industry, for unfortunately nearly all the companies have shut down or all but shut down awaiting railway transportation. Thus all are eagerly looking for—eagerly hoping that the leisurely builders of the Kootenay Central will "get a move on," and hurry up the "good time coming," for it can be said that many are weary a-waiting. Wilmer is a cosily situated town with many rather fine buildings—a little dull at present, but having, we trust, a good future before it. Half way between Wilmer and Windereere, on the river flat, is Athalmer. Here is a bridge crossing the Columbia over the celebrated "salmon beds," gravelly shallows, noted as the spawning grounds of the salmon after their thousand mile swim from the sea. Athelmer contains the newly erected warehouse and store of the Columbia River Lumber company, now operating somewhat extensively in this section of the country, and whose camps afford a good market for the hay, oats and vegetables raised by the ranchers of the valley.

Wilmer is the home of the Outcrop, a paper which gives the mining and other news of the district in readable style. It is published under difficulties which none but the newspaper man can fully understand. More power to its editor's pen and more cash and in his pocket is the wish of one formerly of the "Fourth Estate," and so full of sympathy for all toilers in the precarious and too often thankless field of country journalism.

One word is closing—and that to the minister of agriculture, dominion or provincial, or both. An experimental fruit farm should be established in this valley, for as far as the writer's experience goes it is the best example of the average conditions to be met with in hundreds of similar valleys in the interior. The farm at Agassiz, useful as it is, is of no earthly benefit to the residents of a soil and under a climate totally dissimilar; and private orchardists cannot afford either time or means to experiment in tree culture for general good.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $1 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within sixteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY
Deputy of the Minister of the Interior.
Dept. Interior, June 30, 1905.

NOTICE TO DELINQUENT CO-OWNERS

To Chas. E. Sealey, R. E. Lemon and D. D. Robertson, or to any person or persons to whom they may have transferred their interests in the Climax mineral claim, situated at the head of 8-Mile creek, adjoining the Alpine group on the south side, and recorded at Nelson in the district of West Kootenay

You are hereby notified that I, Beckford A. Shatford, F.M.C. No. B69656, have caused to be expended the sum of ($312.50) five hundred and twelve dollars and fifty cents in labor and improvements on the above mentioned claim in order to hold said claim under the provisions of the Mineral Act, and if within 90 days from the date of this notice you fail or refuse to contribute your proportion of such expenditure together with all costs of advertising, your interest in said claim will become the property of the subscriber under section 4 of an Act entitled "An Act to Amend the Mineral Act, 1900."

Dated at Slocan City, this 4th day of Oct., 1905.

B. A. SHATFORD.

CERTIFICATE OF IMPROVEMENTS

Polar, Polar Star and Climax Mineral Claims, situate in the Nelson Mining Division of West Kootenay District. Where located: In Alpine Basin.

TAKE NOTICE that I, Frank C. Green, acting as agent for Walter T. Shatford, F.M.C. B 64802, and Beckford A. Shatford, F.M.C. No. B 69,656, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under section 37, must be taken before the issuance of such Certificates of Improvements.

Dated this twenty-third day of October, A.D., 1905. F. C. GREEN.

Nelson, B. C.

INSPECTORS ARRESTED

HEARST VIGOROUSLY PROSECUTES ELECTION FRAUDS.

SEVEN INDICTMENTS HANDED DOWN BY GRAND JURY

New York, Nov. 24.—Seven indictments in election cases were handed down today in Brooklyn by the grand jury. Two young men Bernard J. McKeene and John White, who said they were lieutenants to former assemblyman Jos. Cahill, were indicted and pleaded guilty to charges of false registration. Mr. Cahill himself was indicted on Wednesday and held to $15,000 bail on charges of perjury and false registration.

Edward J. Millan was indicted on a charge of bribery in the second assembly district. The other indictments were for false registration. The four election inspectors arrested last night for negect of duty in the fifteenth election district of the twenty-sixth assembly district in Manhattan pleaded not guilty today and were held in $2500 bail each.

LAND DEAL CLOSED.

Chicago Syndicate Acquires Large Tract in Kootenay Valley

The deal by which a syndicate of Chicago capitalists secure land in the valley of the upper Kootenay river has just been formally completed. T. G. Procter, secretary of the Kootenay Valleys Land company, received a letter from Chicago Friday confirming in detail an acceptance wired the day before, by Paul O. Stensland, representing the purchasing syndicate. Seen last evening Mr. Procter said:

"Yes, the deal is closed. Preparations for the division and settlement of the land will be begun at once. I understand that the syndicate is purchasing a large tract of land in the same valley from the C. P. R. company. They will own a large area, and be able to carry on their colonization operations on a large scale.

The area includes about 20,000 acres of good land. A large part of it is suitable for general farming, and the higher parts make splendid pasture ground. The snow fall is very light and horses and cattle find good pasturage on the ranges all winter.

"It will make a great difference to the valley and to the whoe of East Kootenay. At present I don't thinks that there are more than 20 settlers in the whole stretch of Canal Flats and Fort Steele, where there is plenty of room for thousands. The ranges have been held by a very few for many years. They will not lose by the entry of others. I think they will gain by it.

"The first settlers will begin to arrive in the spring. I don't know the details of the scheme. My interest in it ends with the closing of the deal. But I understand that the company intends to settle a couple of thousand farmers on the land, and that they will come chiefly from Iowa and other states of the middle west."

WEEKLY BANK CLEARINGS

Vancouver and Victoria Lead the Canadian Procession.

New York, Nov. 24.—The following are the weekly bank clearings as compiled by Brandstreets for the week ending November 23, showing the percentage of increase and decrease as compared with the corresponding week last year:

		Inc.	Dec.
Montreal	$28,508,950	3.1	....
Toronto	22,367,272	7.7	....
Winnipeg	11,181,806	15.7	....
Ottawa	2,704,415	....	3.9
Halifax	2,145,946	12.0	....
Vancouver	2,121,082	26.7	....
Quebec	2,090,753	13.2	....
Hamilton	1,628,320	19.6	....
St. John	954,745	....	19.4
London	1,063,253	....	4.0
Victoria	590,098	25.4	....

HEAD OF FOREIGN OFFICE

London, Nov. 24.—It is officially announced this evening that sir Thomas Henry Sanderson, permanent under secretary of the foreign office since 1894 will retire early next year and that he will be succeeded by sir Charles Hardinge, now British ambassador to Russia.

MUST ACCOUNT FOR FUNDS

New York, Nov. 24.—Argument was begun today on demurrers of the Equitable Life Assurance society's directors to the suits brought against them and against the company by state attorney general Mayer. The suits are to compel an accounting of the societys funds and to divide the surplus among the policy holders. They are brought in the supreme court against 31 directors.

COURT HOUSE NOTES.

The supreme court will sit in Nelson on Tuesday, December 5th. It is not known yet who will be the presiding judge, but it is likely to be either justice Duff or justice Martin.

Notice of trial was given yesteday in four cases. Taylor & O'Shea for the plaintiffs, gave notice in the cases of Pickering against Smith, and Hill against the Granby Consolidated. W. A. Macdonald, K. C., gave notice in the cases of Grobe against Doyle, and of the Lanyon Zinc company against the Payne Mining company.

COAL FOR C. N. R.

H. N. Galer, manager of the International Coal & Coke company, of Coleman, has entered into a contract with the Canadian Northern railway for the supply of coal. The initial contract is for 100 tons a day to be delivered at Edmonton.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

NELSON, B. C.

FRUIT AND FARM LANDS FOR SALE

In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have one 13 acre lot near Nelson party improved.

One 5 acre lot near town.

One 20 acre lot on wagon road at a bargain if bought soon.

One farm with good house and outbuildings, and many choice places.

On Kootenay Lake

NELSON'S NEWS OF THE DAY

C. Dempster of Rossland, arrived in the city last evening en route to Slocan.

Rev. G. W. Dean will conduct services at Powder point tomorrow afternoon at 3 o'clock.

Mrs. J. P. Paxton leaves this morning for a short visit to relatives and friends in Grand Forks.

A turkey raffle will be held in the Bodega this evening. There are 18 fine young birds to be disposed of.

F. W. Aylmer of Golden, resident dominion engineer, arrived in the city last evening and is at the Hume.

A. Carney, timber inspector, returned to the city yesterday. He leaves for the Little Slocan this morning to adjudicate in several disputes over timber rights.

Miss M. H. Moody will take the classes in mathematics and science at the high school on Monday and continue until principal Fraser is able to resume his work.

Dr. A. Milloy leaves tomorrow morning for Calgary to meet his wife and son who are arriving from the east. During his absence his dental practice will be attended to by Dr. Lowe.

The monthly musical service in St. Paul's church tomorrow evening will include, besides anthems and solos, a rendering of songs and hymns of the Reformation from the Presbyterian book of praise.

John Hampson, manager of the Alice mine, was misquoted in yesterday's issue. The mine has not yet closed for the season. Mr. Hampson has hopes that the supply of water will enable him to continue work for several weeks longer.

W. P. Tierney returned from Midway last night. He says that no change has occurred in the railway situation. The C.P.R. is still in possession of the disputed ground and the work of grading is going on without interruption.

Silver advanced two points yesterday on both the London and New York markets and is again at the highest figure attained on the recent advance, 64 7-8 cents an ounce. Electrolytic copper gained another point and is now 17 1-2 cents. Lead neither advanced nor declined.

An anniversary service will be held at the Methodist church tomorrow, which will include special thanksgiving offerings, sermons and music. On Monday evening there will be an anniversary social held in the church, for which an excellent musical program is promised. Refreshments will be served and a collection taken up.

The new G.N.R. time table between Nelson and Spokane will go into effect on Sunday, Dec. 3, according to latest reports. The new schedule will provide for the passenger train leaving Spokane at 9 a.m. and reaching Nelson at 6:30 p.m.. The time of departure from Nelson will also be 9 a.m. There will be no buffet car on the Nelson-*Spokane run, that car being diverted to* the Marcus-Midway run.

PRICE OF METALS

New York, Nov. 24—Bar silver; 64 7-8; casting copper, 16 1-8; electrolytic copper, 17 1-8 to 17 1-2, firm; lead, $5.25.

London, Nov. 24—Silver, 29 15-16; lead, £15 7s. 6d.

LAND TANGLE STRAIGHTENED OUT

Assistant Commissioner Robt. A. Renwick Makes Settlement Satisfactory to all

The various applicants for land and timber between Trail and Castlegar were in attendance at the office of the assistant commissioner of lands and works in this city on Thursday, where the merits of the different contestants were investigated.

Everything passed off smoothly and an adjustment was made by the assistant commissioner which was satisfactory to all parties concerned. This result was largely owing to the tact of Robt. A. Renwick, the assistant commissioner and to the concessions made by the China Creek Lumber company.

Peterson Bros. receive 480 acres of land; a syndicate composed of Messrs. Annable, Schofield, Merry and Kinney get 640 acres; H. H. Annable, 80 acres; J. R. Christie, 160 acres; Ed. Johnson, 160 acres; R. S. McKibben, 160 acres; T. L. Bloomer, 80 acres; A. Hirst, 40 acres; P. J. McCormick, 80 acres; Lorne A. Campbell, 160 acres, and the China Creek Lumber company about seven square miles of timber lands. J. D. Anderson, P.L.S., of Trail, has received instructions to survey all the above lands and timber claims and commenced work on tse same day.

GOSSIP OF GRAND FORKS

Grand Forks, Nov. 24—A representative meeting of citizens was held last evening, the obect being to organize the hockey club for the coming season. The following officers were elected: Honorary president, mayor Hammer; president, Fred Clark; vice-president, Fred Murphy, treasurer, Roy Currin; secretary, W. D. Lawson. In addition to these officers a strong managing committee *was appointed. As the* townsite company had kindly offered the use of certain lots free of charge, it was decided to commence the building of an open air rink at once, to be 60x100 feet, for the ice space, leaving a large promenade on each side of the ice.

Word has reached here from Cascade that J. Bertois of that place, has just completed the sinking of an artesian well, which is 16 feet deep. This is the first well ever sunk in Cascade, the citizens heretofore having to haul their water from the river for domestic use. Mr. Bertois will erect a large windmill for the purpose of pumping the water.

H. H. Spinks who was recently seriously injured at one of the crushers at the Granby smelter, is rapidly recovering.

At a meeting held last evening a committee of representative citizens was appointed to canvass the city and to confer with the employees of the Granby smelter regarding the formation of an athletic club in this city.

JAMESTOWN EXPOSITION

London, Nov. 24—Foreign secretary Lansdowne on behalf of Great Britain, has accepted president Roosevelt's invitation to participate in the naval and military displays on the occasion of the Jamestown exposition in 1907.
