CENTENARY OF NELSON

Happily Commemorated All Over Britain's World Wide Empire

Celebration in This City Worthy of the Occasion--Parade of School Children and Fraternal Societies--Banquet

London, Oct. 21.—The Navy League took charge of the Nelson celebration this afternoon and besides services at Trafalgar Square, similar ceremonies were held simultaneously under the league's auspices throughout the country, consisting of special prayers and the singing of Kipling's "Recessional," and the National anthem.

In Trafalgar Square the National anthem was played by massed bands while the crowds, which filled every corner of the big square, joined in the singing.

Tomorrow services will be held in all the churches. Those at St. Paul's Cathedral, being of an official nature, will be attended by British naval officers and the naval attaches of the powers. As a more permanent recognition of the centenary, the Navy League proposes to improve Trafalgar Square by increasing the statuary and erecting majestic fountains, typifying Great Britain's naval successes.

In every part of the British empire today and wherever a British man-of-war floats, the one hundredth anniversary of Nelson's victory over the combined fleets of France and Spain off Cape Trafalgar was celebrated. On all the ships of the navy at a given hour, flags were dipped, while the bands played the dead march.

Nelson's old flagship, the Victory, still lying in Portsmouth harbor, was decked from stem to stern with bunting, and thousands of electric lights were strung everywhere for the night illumination of the old battleship.

In London the day's celebration began with the hoisting of national flags on the Nelson column. Immense crowds assembled, and when Nelson's famous signal "England expects this day that every man will do his duty," was unfurled, a mighty cheer went up.

The day was cold and threatening, but this did not deter the people from coming out to participate in the nation's holiday. Trafalgar Square, which was elaborately decorated, was naturally the center to which all converged, and much interest was manifested in the thousands of wreaths from the colonies, provinces and various cities of the empire, which were piled in immense masses at the base of the Nelson column. Among the floral tributes occupying the more prominent positions was a wreath inscribed "To the memory of the gallant dead of France and Spain who lost their lives in the great conflict." The column itself was covered with laurel streamers stretching from the top of the statue to the base.

The boys of the naval brigade arrived at the scene from Portsmouth during the morning, and after saluting the column by presenting arms, placed on it a wreath from admiral Togo.

[Special to The Daily News]

Ottawa, Oct. 21.—There was a good attendance in Parliament Hall this forenoon when earl Grey and Hon. R. W. Scott addressed the school children as they placed a wreath of maple leaves at the foot of the statue of queen Victoria, in honor of Nelson's day; both separate and public schools took part. Earl Grey said in a speech on the occasion, that the victory of Nelson was a triumph of one race over another, but was as much for the freedom of France as for England.

Montreal, Oct. 21—Trafalgar Day was celebrated here by many of the patriotic societies. The principal feature of the day was the memorial concert at the Y.M.C.A. auditorium, under the auspices of the Sons of England.

Winnipeg, Oct. 21.—Under the auspices of the various lodges of the Sons of England, Trafalgar Day was enthusiastically celebrated here. There was a grand patriotic concert tonight. Professor Bland and Sandford Evans delivered stirring addresses.

Trafalgar Day was observed in Nelson yesterday "with all the honors three." Flags waved everywhere; between the hours of one and six in the afternoon there was a general suspension of business and the whole population of the city took part in the celebration of Nelson's victory and death.

The school children were, as usual, the chief feature of the occasion. They mustered more than 400 strong for the parade, and cheered and waved their flags on every possible occasion. They filled both galleries of the Agricultural Hall and sang the patriotic choruses with a vim that did credit to their musical instructors.

By half past one the public school ground was filled with eager and enthusiastic children. Soon at a few words from their teachers they formed in a long, irregularly-curved line, extending from Stanley street to beyond the school building.

While standing in line they were supplied with flags furnished by the committee, and with badges thoughtfully presented by alderman Annable who wished the children to have some durable memento of the occasion. The badges contained the pictures of the king and queen; attached to them were neat ribbons of red, white and blue, inscribed: "Nelson, Trafalgar Day, 1805-1905."

Gradually the other component parts of the procession arrived, and about 2.30 o'clock marshal Waterman gave order for the start.

The city band led, followed in order by, the magnificent Victory float, with antique rigging and square-sails, of red, white and blue, prepared by fire chief Sargent; the school children came next, marshalled by principal Sullivan and his staff, the Rocky Mountain Rangers, under captain Forin, the Sons of England (with a few recruits from the sister kingdoms), the Odd Fellows, the Eagles, and the Knights of Pythias, in the order in which they arrived on the ground. There were fully 1000 men and children on the march.

Meanwhile a salute of 19 guns had been fired from a Maxim by Clarence D. Goepel and D. G. Booth. The band played the national anthem and the march began. The children's many colored cloaks and coats, the neat garb of the Rangers, and the gorgeous regalia of the fraternal societies, made an inspiring sight.

The crowds that lined Baker street accompanied the procession to Agricultural Hall, which was soon filled to the doors.

As soon as all were in place, the program began with "The Maple Leaf Forever" in chorus. The chairman then delivered an address, dwelling on the pride that the British race felt in their favorite naval hero. Rev. J. T. Ferguson thanked the Sons of England for the inspiration to unite in honor of Nelson, and urged the children to keep ever before them Nelson's mtto, slightly changed, "Greater Britain expects every man, woman and child to do his, or her duty." W. S. Riblet, American consul, briefly expressed his country's regard for the British navy and its idol. F. J. Deane dwelt on the inspiration to all, especially to the children, of Nelson's example of unflinching and unfailing devotion to duty at all times and under all circumstances. A Whealler spoke eloquently of the immense significance of Trafalgar and its influence on after time.

Rev. F. H. Graham was the last speaker and the most fortunate. He caught and held the attention of the galleries of children from the beginning with playful lecture on the spelling and pronunciation of "Trafalgar," and another on the number of places named Nelson. He did not omit to mention that Nelson's father was a church of England parson. He closed a strong address with the recital of Henry Newbolt's "Admirals All" with its stirring refrain:

"Admirals all, for England's sake,
Honor be yours and fame!
And honor as long as waves shall break
To Nelson's peerless name!"

The intervals between addresses were agreeably filled with songs by F. D. Arundel and C. G. Broadwood, who sang in splendid voice "The Death of Nelson," and choruses in which all joined heartily, "The Red, White and Blue," "Rule Britannia" and "God Save the King."

Meanwhile the author of the prize essay on Trafalgar, Joseph Ingram, whose school career has been a record of prize winning, received "The Life of Nelson," by captain A. T. Mahan, with a few appropriate words from S. A. Kelly, worshipful master of the Sons of England.

As the children, tired and hoarse from marching and singing, filed out of the hall and home to dinner and bed, they probably felt that for one day at least they had fulfilled England's expectation, and done their duty.

A fitting close to the celebration of the Trafalgar centenary was the banquet of last evening at Fratenity hall. There were between 70 and 80 guests present and the program of the evening went through with a vim which was quite appreciated and which required no additions to emphasize the loyalty of spirit which was evident in all who took part. The speeches were short, pithy and to the point, none excelling in this regard the speech of S. A. Kelly, master of the lodge of the Sons of England, who, responding in that capacity, declared that he was willing to fight for his country, (as he had proved in the Boer war), but was unable to talk in her service!

The songs, almost without exception, were patriotic and were received with much enthusiasm. As a caterer George Bartlett proved once more that he is a force to be reckoned with and the committee generally are to be congratulated upon the outcome of their undertaking. Still an appeal to the patriotism of Nelson is always one that is certain to meet with adequate response.

The first toast of the evening was, naturally, "The King" and then followed "The Army and Navy," "Canada and the Empire." The speakers were H. E. Croasdaile, P. McL. Forin, W. Blakemore, A. L. McKillop, J. M. Lay and the Master of the Lodge, S. A. Kelly, brought up the rearguard. They were all short and to the point ,some rising to eloquence, none unworthy of the occasion. The singers did splendidly and Nelson has to be congratulated on the number of her vocalists in the lower clef. The best song of the evening and one to which ample justice was done in an effective baritone was the "Death of Nelson" sung by C. G. Broadwood. Songs by F. D. Arundel, T. G. Procter, E. Grizzelle, P. McL. Forin, E. Mason, F. M. Chadborn and M. S. Parry, songs that comprised some of the best gems in the language, old and new, songs with a [illegible] effective [illegible] the remainder of a [illegible] which is one of the best of its kind that Nelson has hitherto enjoyed and one which is altogether worthy of the great occasion.

Provincial Library,

LAST OF THE STOLEN BILLS

Evidence Obtained That They Were Burned by Cunliffe.

Bridgeport, Conn., Oct. 21.—The Bridgeport police believe tonight that they have accounted satisfactorily for all the $100,000 taken by Edward G. Cunliffe from the Adams Express Co., in Pittsburg, and brought here by him. Mrs. Henry Clark, a chambermaid at the Arlington hotel where Cunliffe had a room while here, told detective captain Arnold tonight that on the day after Cunliffe went to the hotel she found some stains like wet charred paper ashes on the floor of his room and also found similar stains on the bathroom floor, while the washbowl in the bath room was clogged with burned paper.

NEW YORK TEAMSTERS STRIKE

Repetition of Chicage Experience May Be the Outcome.

New York, Oct. 21.—The refusal of the Truck Owners' association to accede to the demands of the International Brotherhood of Teamsters resulted today in a strike which may involve the entire trucking business in this city. In many respects the controversy is similar to that which paralyzed the industries of Chicago for weeks. Fearing just such trouble police commissioner McAdo today detailed a squad of mounted men from the traffic squad to reinforce the districts affected.

B. C. ACTS DISALLOWED

SAID TO BE CONTRARY TO IMPERIAL INTERESTS.

CANADA GAZETTE PUBLISHES OFFICIAL INTIMATION

[Special to The Daily News]

Ottawa, Oct. 21.—The Canada Gazette contains notice of the disallowance by the dominion government of the following Acts passed by the legislature of British Columbia: An Act to amend the Coal Mines Regulation Act; an Act to regulate immigration into British Columbia; an Act relating to employment on works carried on under franchises granted by private Acts.

The intention to disallow the anti-Japanese legislation, which is contrary to the dominion policy, was announced some time ago, in fact the legislature knew when it passed these acts that imperial interests called for their disallowance.

INSURANCE INVESTIGATION.

Actuary McClintock Will Be Placed On the Stand.

New York, Oct. 21.—It is the present intention of the legislative life insurance committee to put Emory McClintock on the witness stand when the committee resumes its sessions on Tuesday, says the Tribune.

On several occasions when asked important questions, Richard A. McCurdy, the president of the Mutual Life, has referred the committee to Mr. McClintock, who is one of the company's actuaries, and interesting testimony is looked for. Whether the investigation will reach James H. Hyde, next week remains doubtful at present.

In addition to the Morristown Trust Co. the Mutual Life, it is said, bought some time ago, the controlling interest in the Orange National bank of Orange, N.Y., making many changes in its management. It is understood that the committee will take up this topic next week.

FIND STOLEN DIAMONDS

FOUND IN UNOCCUPIED HOUSE IN VANCOUVER.

C. C. KURTZ ADMITS THEFT ON PROMISE OF IMMUNITY.

(Special to The Daily News)

Vancouver, Oct. 21.—The $5000 worth of diamonds stolen from jeweler Redfern in Victoria, were today discovered in an unoccupied house on Georgia street.

C. C. Kurtz, who has been under arrest since Wednesday, has confessed to the theft, after first being guaranteed immunity from prosecution.

The diamonds were brought over by a woman who registered at a hotel as Mrs. Matthews.

Kurtz is well known in Vancouver. He was formerly associated with his brothers in running a steamer on Kootenay lake some years ago.

HIGH PRICE FOR PAYNE ORE

The Sandon Mining Standard reports that G. F. Ransom, manager of the Payne, has contracted with Batchelor Bros. to furnish 120 tons of zinc ore. The price offered is the highest forany Payne product hitherto received, and over twice the amount paid for the first shipments.

INTERVIEWS THE POPE

Rome, Oct. 21.—Archbishop Riordan, of San Francisco, was received in private audience this morning by the pope. The audience lasted half an hour. The pope was most cordial and showed perfect knowledge of American affairs. He was apparently in excellent health and vigorous both mentally and physically.

STORM SWEPT INLAND SEAS

Terrible Loss of Lives and of Vessels on the Great Lakes

Particulars Now Coming to Hand Depict Recent Storm as Worst in Memory of Navigators of Inland Waters

Cleveland, Oct. 21.—The steamer Bulgaria came into port this afternoon bringing news of the loss of the barge Tasmania off Peele island in Lake Erie, during Friday's storm. The Tasmania sank at 5 a.m. Friday with her entire crew of eight men. Those lost were: Captain William Radford, Courtright, Ont.; first mate George Whitsall; donkey man, Austin Mayhew; cook, T. R. Treshough; seamen Mike Boyle, August Albrick, John Pratt and Harry Laypash. The Tasmania together with the barge Ashland, also carrying a crew of eight men, was in tow of the Bulgaria.

The Bulgaria and the Ashland rode the storm off Peele island all day Friday and Friday night and early today started for Cleveland, arriving at 2 p.m. The boats were on their way to Cleveland from Escanaba, ore laden. The Bulgaria, led behind her was the Ashland, and next the Tasmania. The storm came up so suddenly as to find the crews unprepared. The darkness of night hung over the lake. The wind rose with fearful suddenness, howling and sweeping around the boats. The lake became mountainous. The boats were tossed about at the will of the storm. It looked for a time as if all would be lost. The Ashland was lost to view of the Bulgaria. Those on board the Ashland could dimly see the Tasmania. One moment she rolled towards her on great waves; another moment she receded in the trough of the sea. On board the Ashland they were kept from being washed into the sea only by clinging to objects on deck. It was seen that the line to the Tasmania must be cut and one of the crew made his way to the stern with a knife, reached down and severed the line. The end of it dropped away out of sight. That was the last the crew of the Ashland saw of the other boat. It seemed that she sank at once.

From the best information obtainable today, 13 lives and 12 ships were lost on the great lakes as the result of the terrific gale which raged for 36 hours, ending at daylight today. These are the minimum figures and will in all probability be increased by later reports. Telegraph wires are down in many sections, and it is believed that when full reports are received the number of lives and vessels lost will show the storm to have been one of the most disastrous in the history of the inland seas. Word was received here today that wreckage is coming ashore near the southeast shoal lightship on Lake Erie. This is is supposed to be from the tow barge Tasmania.

Fear is entertained here for the safety of the steamer Siberia, owned by the Gilchrist Transportation Co., of this city. She was last seen flying signals of distress. No tidings have been received at the office of the company.

Kingston, Ont., Oct. 21.—Late last night L. Henderson, local manager of the Montreal Transportation company, received a message from Harbor Beach, Mich., announcing that the schooner barge Minnedosa had foundered on lake Huron, with all hands. The lost crew shipped here and comprised captain John Phillips and his wife, mates Arthur and Jack Charlottetown, and seamen Allen, Smith and McIntyre of Kingston. The Minnedosa was built here in 1890 and was valued at $40,000, but carried no insurance.

She had a cargo of wheat from Fort William to Kingston and was in tow of the steamer Westmount when she foundered.

Detroit, Mich., Oct. 21.—Reports to the local office of the weather bureau today announce that the storm which caused such widespread damage on the Great Lakes Thursday night and Friday, has subsided on lakes Superior, Huron and Michigan, and is slowly passing over Erie and Ontario.

Alpena, Mich., Oct. 21.—The big steel barge Malta, owned by the Pittsburg Steamship company, is missing. She was in tow of the steamer Wm. Lynn, and broke away during the storm yesterday morning in midlake. The Lynn reported the loss at Thunder Bay island last night. She carried a crew of eight men.

Niagara Falls, Ont., Oct. 21.—Heavy gales yesterday raised the water in the river below and above the falls away above high water mark, causing a great deal of damage to docks and other property.

Buffalo, Oct. 21.—The steamer Siberia, of Cleveland, foundered on the Canadian shore of lake Erie this afternoon. Captain Benham and the entire crew were rescued and brought to Buffalo tonight on board the steamer J. H. Wade. The Siberia, buffeted by the terrible gale which raged yesterday and last night, sprang a leak early today while captain Benham was trying to get in the lee of Long Point. The inrush of waters through the seam in her side and the tons of water shipped as the steamer stuck her nose into the water combers put out the fires beneath the boilers and captain Benham and the crew were forced to take to the life boats when the vessel's decks were awash. The steamer sank in about 25 feet of water, her upperworks showing about two feet above the surface. The steamer J. H. Wade sighted the Siberia about noon and stood by until captain Benham and his crew were forced to give up the fight to save their boat. The men were taken on board the Wade without difficulty.

Marquette, Mich., Oct. 21—The steamer Alta tonight lies a battered hulk on the rockbound coast of Grand island near Munising. The crew of seven men, and one woman was rescued in an exhausted condition.

The schooner Olga, dismasted and rudderless ,is at anchor off the pictured rocks east of Munising. The crew is safe. Both boats parted from the steamer Myers during the great gale of Thursday night. It was believed that they had foundered.

Chicago, Oct. 21.—Later returns from the storm, which swept the Great Lakes for 36 hours, subsiding this morning, increased the death list to 21 and the number of vessels, either lost or damaged, to 42. Several small craft are missing and it is feared that the death list will be increased.

LINK FRANCE WITH SPAIN

PROJECT TO BUILD A RAILWAY THROUGH THE PYRENEES.

FURTHER SUCCESSFUL TESTS OF DIRIGIBLE BALLOON.

Paris, Oct. 21.—M. Delcasse, former foreign minister, today made his first public appearance since his resignation, presiding at the Franco-Spanish congress, called to encourage the construction of the proposed trans-Pyrenees railway to link Spain and France. The former minister received an ovation but made no allusion to recent bitter controversies over the rehearsal of his pro-British and anti-German policy. The congress adopted M. Delcasse's resolution approving the Pyrenees line as a practical means of strengthening the bonds between the two countries.

Parliament will be asked to offer a $200,000 prize for a cure for consumption. The project has the approval of the government and therefore its adoption is assured. It is expected that the prize will stimulate effort in time for the result to be announced at the next tuberculosis congress in Washington.

The Chinese minister has received instructions from the emperor to investigate and report on the local systems for electrical lighting, locomotion and telephone communication.

The officials say that premier Rouvier's departure for Madrid tomorrow with president Loubet for ten days indicates that no change in the Venezuelan situation is likely to occur in the near future.

The Lebaudy dirigible balloon today made its third successful flight and manoeuvered against the wind. Several army officers accompanied the balloon, dropping blank cartridges upon a fort from an altitude of 4500 feet, thus demonstrating the practicability of launching projectiles from dirigible balloons in time of war. During the flight automobiles pursued the balloon and fired shots in its direction leading to the determination that automobiles carrying light guns could seriously endanger aerial manoeuvres.

FREEDOM OF THE PRESS

ONE OF DEMANDS MADE BY THE RUSSIAN STRIKERS.

UNIVERSITY MEETINGS CAUSE OF TROUBLE TO AUTHORITIES

St. Petersburg, Oct. 21.—A special conference of the ministers summoned by emperor Nicholas to discuss the subject of university meetings has declared that the immediate promulgation of a new statute governing the right of assembly was imperatively necessary and has recommended the putting of halls, outside of the universities, at the disposition of the students for meetings and the closure of the universities unless public meetings within their precincts are discontinued.

The last meeting at the St. Petersburg univers ty was attended by 13,000 persons of whom only a small portion were students, completely filling all the rooms and blocking the aisles and corridors. The university council issued a statement declaring that it can not be responsible for the consequences of such meetings and pointed out that the inadequacy of exits would cause a frightful catastrophe in the case of fire or panic easily caused in case of police interference.

The socialistic workmen have resolved to continue their tactics of political obstructions by calling strikes. Under the law they cannot be dismissed. The employees of the big Obukoff steel works and several other factories, who did not strike early in the week have begun such a strike and have issued a manifesto demanding the right of assembly, universal suffrage in the elections to the national assembly and freedom of the press.

REPUDIATES BORDEN.

Halifax Tory Paper Says He Does Not Represent the Party.

Halifax, Oct. 21.—The Herald (conservative) repudiates Mr. Borden as leader of the opposition and says he does not represent the party in his support of the increased sessional indemnity and the acceptance of a salary. The leader of the opposition in the local house also condemns the indemnity act.

Ottawa, Oct. 21.—Criticism by the Halifax Herald of R. L. Borden's action in accepting the extra sessional allowance of $7000 voted by parliament last session, has attracted widespread attention. As Mr. Borden is absent from the city, it is not possible to secure a statefrom him on this matter, even if he were disposed to speak. A maritime province politician who is in the city, said that personally Mr. Borden was averse to accepting the extra allowance, and only did so under strong pressure from the conservative opposition. It was pretty well understood by the rank and file of the party that Mr. Borden is not a wealthy man, and indeed the splendid legal practice which he had as leader of the bar of Nova Scotia up to 1896, when he first entered politics, was now altogether gone, so much so that in March last he had to sever his connection with the firm of which he had been the head for many years. His income for at least ten years previous to 1896 had averaged $14,000.

GOOD NEWS FROM MOYIE.

Moyie, Oct. 21.—(Special)—James Cronin, manager of the St. Eugene mine, tday informed your correspondent that everything will be going at full blast at the mine by December 1, a full month earlier than it was anticipated that mining operations could be resumed.

The thirty new drills have arrived and will soon be in use.

The blacksmith shop will be considerably larger than the old one, and more blacksmiths will be employed.

When work is fully resumed operations at the mine will be carried on on a more extensive scale than ever before in the history of the St. Eugene, and, consequently, more men will be employed. All of which is subject of great gratification by all readers of The Daily News.

GERMANY'S NAVAL PLAN

NO FURTHER INCREASE TO FLEET AT PRESENT

FINANCES OF COUNTRY NOT EQUAL TO EXPENDITURE.

Berlin, Oct. 21.—The German government will not propose to the reichstag an increase in the navy beyond the additions previously determined upon, which were six large cruisers and 35 torpedo boats.

Recent incidents of the German-British relations have not, therefore, influenced the government's immediate naval policy except that unusually heavy outlays will be asked for the equipment of naval stations, new docks, etc. These expenditures are all that Germany can conveniently afford.

An imperial loan will be necessary to balance the budget of 1906.

VALIENTE RAISED HIS PRICE.

British Officers Still Held By Bandits—Exchange Negotiations Off

Tangier, Oct. 21.—The negotiations for the liberation of the British officers, captain Crowther and lieutenant Hamon, who are held by Moroccan tribesmen, have been broken off, the scout ship Pathfinder, which sailed Friday night in order to exchange a brother of Valiente, the bandit, for the two officers has returned here from Tetman bay. The bandit's brother is still on the Pathfinder.

It is stated that on the arrival of the Pathfinder Valiente made fresh demands which the officer in command of the vessel was unable to concede without authority. The nature of the fresh demands is withheld by the authorities here.

GOSSIP OF GRAND FORKS.

(Special to The Daily News)

Grand Forks, Otc. 21.—Ex-mayor M. D. White has just returned from a trip to the McKinley mine in Franklin camp. He says that all former records regarding this property have been within the mark. At the pdesent time the mine is working sixteen men in three shifts. The work being done at present consists of running a crosscut into the main lead.

Tom Newby and Lee Mercer, the owners of the well known Glouster property, in Glouster camp, have made preparations to work this claim all winter.

Wiley Glover, formerly of Spokane, accompanied by Ed Shannon, have established winter quarters between the head of the North Fork river and Boundary creek, where they fill trap mortin all winter. It has ben ascertained that although they have only been trapping a few weeks they have averaged over $15 each per day in skins.

H. A. Sheads, chief of police of Grand Forks, and Mrs. Sheads arived here yesterday from their honeymoon trip to the coast

SMELTER TO BE BLOWN IN

Dominion Copper Co. to Resume Operations at Boundary Falls

Napoleon Mine, Formerly Operated by P. Burns, Changes Hands--Taken Over By B. C. Copper Co.

[Special to The Daily News]

Phoenix, Oct 21.—For a couple of months past the management of the Dominion Copper Company has been considering the advisability of operating the company's present smelter at Boundary Falls—which was blown out last May by the Montreal & Boston Consolidated, this company's predecessor in ownership—but lack of adequate slag dumping ground has stood in the way. This week, however, this matter was arranged and dumping ground to last a couple of years was secured, and it is now the intention to blow in the smelter once more. This will be definitely decided upon when M. M. Johnson, the company's consulting engineer, returns from Utah and Colorado. Mr. Johnnson is expected to arrive here now almost any day.

A force of men has been at work on three of the company's Brooklyn group of mines in this camp, and this force has been somewhat increased lately by T. R. Drummond, the resident manager for the company.

In the meantime, W. C. Thomas, the smelter superintendent for the company, continues his investigations regarding a site for the new and larger smelter which it has been announced the company fully intends to erect in the Boundary.

The British Columbia Copper Company, operating the smelter at Greenwood and the Mother Lode mine in Deadwood camp, has been gradually extending its sphere of operations this year, now having properties working near Princeton, near Hedley, and at Chesaw, Washington, in addition to the Mother Lode, itself a large shipper for years. Lately, however, the company has taken a bond on a property called the Napoleon, located at Boyd's, a little station six miles from Marcus, Washington.

The Napoleon was orignally bonded by P. Budns & Co., who have been shipping for some time from their rich First Thought mine near Orient, to the Northport smelter. The Napoleon ore, containing an excess of iron and sulphur, besides other values, was useful for mixing with the silicious ore of the First Thought, but with the closing of the Northport smelter this week, P. Burns & Co. had made arrangements to sell the bond on the Napoleon to the B. C. Copper Co., and that company now has captain Harry Johns, an experienced mining man, at the property in charge of the work, shipments of about twenty tons daily being made to the company's Greenwood smelter.

In this connection, an unusual thing happened. Before the B. C. Copper Co. took hold of the Napoleon, a gang of Italians had taken a contract to do work on the property, they coming from near Midway on this side of the line, where they had been employed as railway laborers, entirely forgetting the present stringency of the United States immigration laws. As a result, a force of United States officials swooped down on them the other day, and took them to Northport to explain their presence in the American republic. There were 17 in the gang.

This week Oliver Wetherald, of London, England, a director of the West Australian Goldfields, Limited, which has a large interest in the Kettle river power plant at Cascade, was a visitor in the Boundary, accompanied by S. S. Fowler, the consulting engineer, and William Anderson, who is in charge of the hydro-electrical works at Cascade. The party inspected the Cascade works, as well as the sub-stations at Grand Forks, Phoenix, and Greenwood.

While the party was in the Boundary arrangements were made by the officials of teh Dominion Copper Co. to take 100 horse power from the Cascade works for the purpose of the operation of the company's compressor now operated by steam at the Brooklyn mine in this camp. A larger and more modern compressor plant is to be installed by the Dominion Copper Co., which will also be driven by electricity, the plans for the plant having already been prepared.

GENERAL STRIKE CALLED

RUSSIAN RAILROAD MEN TO MAKE BIG DEMONSTRATION.

THREE TRUNK —LINES ARE ALREADY TIED UP.

St. Petersburg, Oct. 21.—The strike of railroad employees assumed a serious aspect today when, with the three great trunk lines out of Moscow completely tied up and the other Moscow roads embarrassed, trains were stopped on the branch road from Nishni Novgorord. The pan-Russian Union of railway employees have issued a call for a general strike on all the railroads of Russia. The demands of the men are purely political and therefore it is expected the strike will last long enough only to serve as a demonstration. The government is prepared, in case the strike affects the Nicholas railroad or the lines to Berlin and Vienna, to order the moblization of the railroad batallions of the army in order to keep communications open between Moscow an dSt. Petersburg and abroad, but it hopes the strike enthusiasm of the workmen will exhaust itself in a few days.

Kozloff, government of Tamboff, Oct. 21.—The employees of the Rizan & Uralsk railroad struck today and all traffic was stopped. The workmen demanded eight hours' work and liberty of speech and of the press.

Moscow, Oct. 21.—Practically every road leaving Moscow is affected by the strike, except the Nicholas line to St. Petersburg. Traffic is at a standstill on the Kazan road and on the line to Paroslav and Archangel. The shopmen of these two roads have struck.

NELSON CENTENNIAL SUNDAY

Throughout the English speaking world the church services today will largely be devoted to the memory of admiral Nelson.

It is estimated that over thirty thousand churches in the British Isles, the colonies, India, and the United States, will observe in one form or another, irrespective of denomination, a Nelson Sunday.

The principal service will be held in the afternoon at St. Paul's Cathedral, where Nelson was buried. The bishop of Stepney will preach the sermon on "Lessons from the Life and Death of Nelson."

In many of the churches throughout the empire, as in St. Paul's Cathedral, offertories will be taken for the Nelson Centenary Memorial Fund of the British and Foreign Sailors' Society, and will be used entirely for the benefit of seafarers.

One outcome of the Nelson Centennial will be that in future the Sunday falling on every recurrent October 21st, or nearest to that date, will be chosen for Nelson Sailors' Sunday. This will be a permanent Nelson Memorial, and help to fix upon the imagination and heart of the nation its absolute dependence (under God) upon the sea, its ships and sailors.

THE INTERCOLONIAL.

It is to be hoped that Mr. Emmerson, the minister of railways and canals, will be able to make good his promise to place the Intercolonial railway on a paying basis.

Whatever reforms he may introduce should be accepted in good faith and ample opportunity afforded him to conduct the railway on modern business lines.

In commenting upon the success achieved in Victoria by Mr. Tait in the administration of the state owned railways of that colony the other day, we remarked that until somewhat similar methods were adopted in Canada it was not to be anticipated that the Intercolonial would at any early date cease to be a burden upon the taxpayer.

We note that the Toronto Globe voices a somewhat similar opinion, declaring, "that competent and business-like management of the Intercolonial cannot be secured unless executive authority is vested in one man of first-rate ability, large experience, and proved administrative power."

The Globe further remarks that this one man should be the equal in power and authority of the chiefs of other railways. He should hold his position by appointment, not of the minister of railways or of the government, but of parliament. Such a position would command for the public the services of such men as now make the enterprises of private corporations successful. Such a man would cut out incompetence and graft and all political influence, and give the Intercolonial under public ownership the administration of a first class, private, business like corporation. And such an administration of the people's railway would be both good business and good politics.

The Globe frequently voices in advance the plans of the government. It is to be hopen on this occasion that the Globe is sounding an advance note of the scheme of reform planned by Mr. Emmerson for the betterment of the Intercolonial.

EDITORIAL NOTES.

It is good news that comes from Moyie. Manager Cronin expects to resume ore shipments by December 1st. This means that at most the close down of the Hall Mines smelter will be but of brief duration.

We publish elsewhere today an account of the proposed enlargement of the Frank zinc smelter, and of the plan of operations of the Canadian Metal company. This vast undertaking promises to exercise an enormous influence for good on the mining industry of the Kootenays. Facilities long needed will be supplied, and owing to the comprehensive nature of the undertaking, treatment charges should be on a basis that will prove an incentive to greatly increased ore production. That the best of success may attend the enterprises of the Canadian Metal company will be the fervent wish of every resident of the Kotenays.

Admiral Nelson was a great lover of children and it would have done his brave heart good to have witnessed the gathering in Agricultural Hall yesterday afternoon. There were great gatherings of children in other parts of the empire yesterday for the same purpose and doubtless in many instances the numbers were infinately greater, but it can *safely be said that nowhere else* in the king's domains was there gathered together an assemblage of healthier, happier-hearted youngsters than filled the galleries of the Agricultural Hall in the city of Nelson. With such splendid raw material Kootenay should raise good men and women, useful citizens and patriots of the type of him in whose honor they were assembled. Vainglorious ness is not a desirable characteristic in any people, but more frequent opportunities might well and profitably be taken to instil into the youth of this country love and veneration for the men and the achievements that to know and appreciate cannot fail to prove an inspiration to the truest form of patriotism.

NEW C.P.R. STEAMSHIPS

Magnificent Vessels Under Construction for Trans-Atlantic Service

There are now under construction on the Clyde, to be launched next month, two magnificent steamships, destined to be the first fast trans-Atlantic passenger service of the Canadian Pacific railway company. They will be christened the Empress of Britain and the Empress of Ireland. Everything in their equipment is of the most modern type, advantage being taken of the latest improvements on steamships through out the globe, and many new features for the comfort and convenience of passengers, and the protection of perishable freight being introduced. They will run between Liverpool, Quebec and Montreal, making their first appearance on the St. Lawrence with the opening of navigation next season, and will be larger and faster than any passenger steamship hitherto run on this route, their tonnage being 14,500 tons, length 570 feet and breadth 65 feet They will cost over two million dollars each. The passage from Liverpool to Quebec will be made in the week, even when taking the southern route by Cape Race, *adopted by the company on account of its* safety. Each steamship will have accommodation for 300 first cabin passengers, 350 second cabin passenger, and over 1000 steerage passengers. A photographic reproduction of a painting by Arthur Cox, R.A., showing the steamship leaving the Mersey has just been received and will be on exhibition at the ticket office of the Canadian Pacific railway on Baker street.

YMIR NEWS NOTES.

(Special to The Daily News)

Ymir Oct. 21.—Miss Maggie, Etta and Jessie McLeod have returned from a trip to Portland.

A dance was given last evening at the Miners' Union hall in honor of Mr. and Mrs. J. A. Fraser by their friends.

Allie Miswald, while employed at the Second Relief mine, cut his foot, which necessitated a number of stitches.

Miss Cameron, of Geneva, New York, has joined the nursong staff of the Ymir General hospital.

CLUB FOR CRANBROOK

(Special to The Daily News)

Cranbrook, Oct. 21—A much needed and long felt want to the people of Cranbrook has at last been filled by the formation of the Kootenay Club, which has been formed by some of the leading people of this city. A very suitable club house has been acquired where there is plenty of room for an extension as it is needed. The first meeting was held a few days ago and the following officers were elected: President, F. C. Malpas, manager of the Canadian Bank of Commerce; vice-president, V. Hyde Baker; secretary, M. A. Beale.

STOCKS AND GRAIN

The stock market opened this morning from a quarter to a half point higher than last night's close, continuing very strong during the short session today, and closing around the high prices. The New York bank statement today was much better than for the past few weeks. Our letter a few days ago advised the buying of the most stocks, for handsome profits within a few days; since then the stock market has advanced steadily. Brooklyn Rapid Transit has advanced nearly $7 per share from the opening price Monday, or in other words, opening last Monday at 71 3-4 it closed today at 78 1-2. In a private wire which we received this morning we are advised that this stock will go to 100, its par value; also that Southern Pacific will reach 185 before going back to 166. Southern *Pacific opened at 172 5-8, sold off to 172 1-2,* and closed strong at 173 1-4; B. R. T. opened at 76 7-8, sold off to 76 3-4 and closed very strong at the high mark, 78 1-2; Sugar opened at 141, 3-4, sold off a quarter, advanced to 142 5-8, closed strong at the high mark; Amalgamated opened at 85 1-4, sold off to 84 7-8, closed strong at 85 3-; 4U.S.S. common opened at 38 1-2, closed 38 3-4, preferred opened at 104 7-8, closed 105 1-4; Met. opened at 125 3-8, advanced to 127 1-2, closed 127 1-4; St. Paul opened at 180 3-4, sold up to 181 5-8, and closed at 181 1-4; R.I. opened at 32 1-4, closed 32 3-8; U.P. opened at 133 1-2, closed 134 3-8; Missouri Pacific opened at 104 1-2, closed at 105; L. & N. opened at 152 3-8, advanced to 153 1-4, closed 153; Atchison opened at 88 3-4 closed 89 3-4; Erie opened at 49, closed at 49 1-2; Southern Pacific opened at 70 5-8, closed at 71 3-8; C. P. R. opened at 172 5-8, sold to 172 1-2, closed 173 1-4; N.Y.C. opened at 151 1-2, closed 153; Penn opened at 144 1-2, closed 145; B. & O. opened at 13 1-4, closed at same figure; Reading opened at 123, closed 123 1-2; Illinois Central, 180 1-2.

Grain—Liverpool closed unchanged. Our market opened a fraction higher than last *night's close at 86 3-4 for December, closed* at 87 1-8; May wheat opened at 87 1-8, closed at 87 1-2 bid.

Reported by Sharpe & Irvine, Nelson, Oct. 21.

CONTROL OF MOROCCO

Now Passed into Hands of International Conference

Paris, Oct. 21—Information received here is that the German minister at Fez and the French minister at the same place are about to depart together from Fez. This marks the practical termination of the sultan's direct control of Moroccan affairs nad the beginning of the powers' assumption of authourity by means of international conference.

The Franco-German accord stipulated that both ministers should withdraw, but their actual departure closes the sultan's opportunity for further communication directly with the governments through the ministers. The result is calculated to kill Morocco's hopes which were aroused to a pitch by emperor William's visit to Tangier and the assurances of German protection.

Reports from Fez show that the sultan has now recognized that the international conference subjects Morocco to practically the same control as the French program, therefore he is deeply disappointed to see the ministers depart and Morocco's future pass out of his hands.

ROSSLAND ORE SHIPMENTS

Le Roi No. 2 Lower Levels—O.K. Compressor Plant to be Started

Rossland, Oct. 21—The Le Roi No. 2 has decided to reach its lower levels by extending a shaft from the 1350 level of the Le Roi. The consent of the board of directors of the Le Roi has ben obtained in favor of the project. The task is to be begun immediately.

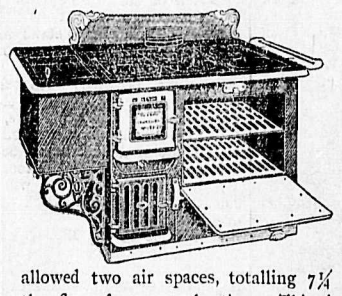
The compressor of the O.K. mine is to be started up and machine drills put to work just as soon as the boilers of the compressor plant have been declared "fit" by boiler inspector Sutherland. An extensive lot of development is to be done. The O. K. is probably the richest free gold *mine in the Trail Creek district.*

The shipments for the week were: Le Roi, 1650 tons; Le Roi, milled, 650; Centre Star, 1710; War Eagle, 1260; Le Roi No. 2, 180; Jumbo, 200; total for the week, 5650 tons, and for the year to date 270,960 tons.

The regularly accredited piano tuner, E. O. Windsor, is in town for a few days. *Leave orders with the Canada Drug &* Book company.

Every detail about the Oxford Chancellor Range has been built with the object of strength and long service. Each part is constructed of the very best material and mounted by the most skilled workmen.

The ash-pit is deep and wide and fitted with a large pressed-steel ash pan. An outside ash guard is provided.



Oxford Chancellor Range

Between the main bottom and bottom of the range, we have allowed two air spaces, totalling 7¼ inches, which protects the floor from over-heating. This is a point that will be most appreciated by those who have had their floors burnt by poorly insulated ranges.

We would like to tell you more about the Oxford Chancellor Range. Won't you write for some of our free booklets?

When That Biting Pain Tells of Kidney Disease

Fruit-a-tives are the first step in the cure. In fact, Fruit-a-tives will cure ordinary Kidney Troubles without assistance. They do this by cleaning and regulating the whole system.

"Fruit-a-tives" stir up the liver—cure Biliousness—make the bowels move regularly every day. That rids the system of poisons that affect the Kidneys.

Then Fruit-a-tives correct digestion—prevent acidity of the stomach—insure food being completely digested.

It is by their cleansing, purifying, curative powers on the other organs that Fruit-a-tives have such a healing, soothing effect on sick kidneys.

"I have been troubled lately with my back and kidneys and have received great benefit from taking Fruit-a-tives. I am getting along so well that I intend to continue with Fruit-a-tives until I am cured. I recommend them to my friends."

MRS. JOHN FOX, Cobourg, Ont.

If you have those sharp, shooting pains in the back—if the urine is scant and scalding—if you are bilious or constipated—cure yourself with

Fruit-a-tives

or Fruit Liver Tablets.

At all druggists. 50c. a box. Manufactured by Fruit-a-tives Limited Ottawa.

Constant Improvement

is the secret of the continued and rapidly increasing popularity of

Blue Ribbon

"The Tea of the West."

Choice and richer teas, the very pick of the best plantations, blended with the perfect skill of long experience. make Blue Ribbon Tea better than ever before.

Try the Red Label and judge for yourself.

Leading Dressmakers

and Ladies' Tailors use Belding's Silk on their smartest suits, gowns and waists. They know that

Belding's Spool Silk

sews smoothly and evenly—is free of knots and kinks—runs freely in the highest speeded sewing machines without breaking.

That is a hint worth following to those who sew at home.

Every desired color, shade and tint for hand and machine stitching and embroidery.

Leading stores everywhere sell Belding's Silk.

FRANK ZINC SMELTER

IS TO BE GREATLY ENLARGED IMMEDIATELY

WILL BE BIGGEST AND BEST ON THE CONTINENT.

The Frank (Alberta) Paper announces that the zinc smelter of the Canadian Metal company under construction there and now nearing completion— that is, as to the original plant—is destined to be of vastly greater importance to the community and to the mining industry of the west than has hitherto been dreamed of, highly as that importance has been estimated. This for the reason that with the plant not yet quite ready for operations, the volume of business in sight is so great that the company has decided to enlarge the capacity of the works to more than double that originally planned and in consequence, when the plant is finally completed, Frank will not only have the first zinc smelter in Canada, but the most modern and up to date as well as the largest institution of the kind on the American continent.

The decision of the company to increase the capacity of the smelter was announced by general manager J. C. C. Fernau, who returned a few days ago from British Columbia where he has been for some time completing the negotiations for the acquisition by his company, of the Pilot Bay smelter and the Blue Bell mine in addition to the mines previously acquired at Ainsworth. While in the Kootenays Mr. Fernau was joined by Messrs. Edward Riondel and O. Liegeart on their return from Goldfields, and a conference was held. It was recognized that with the ore the company would produce from its own mines and the large volume of custom business Mr. Fernau had received assurances of from other Kootenay mines the capacity of the initial plant would be entirely inadequate. The decision to enlarge was made and Mr. Fernau and his associates came to Frank, orders for the proposed enlargement were issued to works manager Jones the day of their arrival here and Monday morning the work was started. The clearing of the ground for the added plant is now in progress and within a few days the laying of the foundations will be under way.

The plans for the enlargement of the smelter contemplate the extension of the main building 200 feet on the west end and 120 feet on the east end which will give the main building a total length of 670 feet. This will give room for seven more furnaces or a total capacity of 3000 retorts and six more roasters or a total of ten. It will considerably more than double the capacity of the present plant and as stated, when completed, the aombined works will constitute the largest zinc smelting works on the continent. The enlargement will involve the construction of another great flue like the one already built which runs nearly 3000 feet up the mountain and the mountain top will be crowned by two gigantic steel stacks instead of one. The construction of the addition to the plant will be in all respects similar to that now built, being entirely of stone, brick and steel.

The Pilot Bay smelter is to be renovated and refitted for concentrating and will have a magnetic separator for enriching zinc ores containing too much iron. It will also operate a lead stack and roasting furnaces and the bulk of the lead ores will be treated there, only enough being brought here to supply the amount required to mix with the zinc ashes.

With the final completion of the works now provided for and the ultimate materialisation of its plans the ensemble of the Canadian Smelting company's equipment will probably be the most complete of any concern of the kind in existence. It will operate mines of its own which will supply a large portion of the ore for its smelter; with the acquisition of the Pilot Bay smelter it will have a plant with a water haul for all crude ore, which will concentrate the crude ore for shipment to the smelter here for final treatment, thus reducing to a minimum the freight charge; it will have its own smelter and finally, will operate its own colliery, by reason of which, coal will be delivered immediately from the coal mine into the works at a price no other zinc works can enjoy and at a cost no greater than if it had natural gas for fuel.

While the mines of the company will furnish a considerable portion of the ore treated by the smelter ,the plant was built in the first instance for the treatment of custom ores and that intention will be adhered to and the plant will be so complete that the company will buy ores of any description except copper.

The importance to Frank, of the metal company's decision to enlarge the smelter will be very great, as, whereas the original plans contemplated the employment of about 75 men when the plant should be in operation ,the institution will now afford employment to something like 200 men when it shall be in full operation and the volume of business that will be done through Frank by reason of the location of the smelter here, will be very greatly increased. The importance it will be to the mining industry of the west will be quite as obvious.

The expenditure of money entailed by the construction of the works here will total something over $700,000.

Mr. Fernau announces that the company will be pleased to assay and report on samples of any minerals received from prospectors or persons or concerns developing mining properties.

The first car of ore received at the smelter, arrived last week from the Grey Copper mine at Sandon. More consignments are expected shortly, and it is expected that the ore bins which are about ready to receive ore, will be well filled by the time the smelter is ready to begin operations.

The work of opening up the company's colliery has been started. A force of men is nw engaged in putting the tunnel and air course in shape and coal will soon be coming out.

The pottery plant is running smoothly and muffles and fire brick are being turned out rapidly.

SIMPSON BRANCHING OUT

F. E. Simpson, manager and editor of the Cranbrook Herald and A. S. Bennett, for several years his assistant, will start the publication of the Lethbridge Herald about the first of next month. Mr. Bennett will be in charge of the Lethbridge paper, and M. D. Billings, who has been with the "Old Man" for the past four years in Cranbrook, will be in charge of the Cranbrook Herald, while the "Old Man" will have general editorial supervision of both, and keep his eye on the finances of the two Heralds.

A plate of Quaker Brand canned strawberries would be much appreciated by your friends, now that fresh strawberries are out of season. You'll find them luscious fruit, wholesome and appetizing. All grocers have them in stock, becase they are the best.

Waneta, B. C., Sept. 20, 1905.

Use Armour's Extract of Beef in the Right Way.

Those accustomed to ordinary beef extracts and fluid beef usually use three or four times too much of Armour's. If a recipe called for one spoonful of salt and you put in 4, the dish would be briney.

ARMOUR'S is pure Extract of Beef—highly concentrated. One-quarter teaspoonful is sufficient to make a cup of beef broth, bouillon, etc., etc.

By the addition of a small quantity of Armour's Extract of beef you can restore the juices to yesterday's roast or give a rich, beefy flavor and color to gravies, sauces and left-overs that will make them appetizing and attractive. Sold by all Druggists and Grocers.

Armour Limited, Toronto, Ont.

Armour Tomato and Beef Catsup

An appetizing relish for steaks, chops, roasts, pork and beans, and fish of all kind. It is just a little bit better than others.

Sold by all Grocers.

LEMP'S BEER

If you're looking for Wines, or Liquors, or Beer,
You can get them much better by buying them here.
We show many Brands, and they are all of the best,
Read over this "ad." and then make the test.

Mumm's Champagne at all the large banquets today,
They serve this exclusive, at least so they say.
Canadian Red Wheat, you know that is good,
Bottled in bond and matured in wood.

It may be you're looking for Lemp's "Extra Pale,"
We are filling all orders, verbal or mail.
Many other good brands you will find in our stock.
And also the pure famous water, White Rock.

If Cigars you are smoking, while walking with Hannah,
She'll never object to our brands of Havana.
And if any time you are out of your wits
With a raging old headache, try Red Raven Splits.

We keep all of these and some others too,
Call in and see us, we can surely please you.
If you are in doubt we'll be your adviser,
The reliable firm of Pither & Leiser.

Sunnyside Hotel

NELSON, B.C.

RATES $1 PER DAY

The Sunnyside has nicely furnished bedrooms, is lighted with electricity, and the table is the best in Nelson for the price. The hotel is on Baker street, one block from the C.P.R. and G.N.R. union depot. No liquor is sold on the premises.

It's the Kidneys

Close the sewers of a city and an epidemic rages. The kidneys are the sewers of the body. Let these vital organs become diseased and the whole system is affected, dizziness, headache, dull, listless feeling, shooting pains in the back, tell that the kidneys are in trouble, and a neglect of nature's warning means uric acid poisoning and dreaded Bright's disease.

GIN PILLS

make kidneys healthy. They instantly relieve all Kidney Troubles—clear, heal, purify, strengthen—put the Kidneys in perfect condition to perform their work as nature intends.

We have such implicit confidence in the virtues of Gin Pills that we authorize druggists to refund the money if they fail to cure.

At all druggists, 50c box, 6 boxes for $2.50 —or direct from

The BOLE DRUG CO., Winnipeg, Man.

NEW YORK FASHION LETTER

New York, Oct. 21—In the creation of the millinery styles this season inspiration has been drawn for some time of the picturesque periods of the past. There are hats such as our mothers and grandmothers wore. In outline and trimming the fashions of the early sixties have been reincarnated. In Paris the new styles are designated as Third Empire. Many of the new hats show the most daring brims. High crowns too, give an effective dash to many of the models. Never before have feathers been so gorgeously beautiful. Ostrich and marabout plumes and tips in new colorings and shapes and new combinations are the order of the day. There are willow plumes, the ends of which give an effect in trimming impossible to attain in any other way. That most beautiful of feathered creatures, the bird of paradise, has been robbed of its plumage to adorn the fashionable millinery. Strange looking feathered ornaments, which resemble nothing that ever grew, have been manufactured. Huge butterflies made of feathers, attenuated swan necks with little heads set to a pair of wings—these are but a hint of many the weird and wonderful feathered novelties seen on this season's millinery.

Another pleasing feature of the new millinery is the coloring. Never have combinations been so unusual or harmonious. Not only are the different colors assembled in one hat, but any number of different tones of the same color are brought together. The merging of one color into another is greatly in evidence. A phase of fashion which is positively new will be the use of the hats of one color, to be worn with a costume of yet another color. Thus an all green hat, or one in violet or rose tones will be used with a tailored suit or costume of some contrasting tone.

Velvet hats will hold absolute sway. They will be first choice for all occasions. Where the entire velvet hat is not worn, there will be combinations of velvet and felt. Thus a hat with a crown and upper brim of velvet may have a facing of felt, or the reverse. The felt hat is faced and trimmed with velvet. Soft draped crowns of velvet, crown bandings rose plaitings, rosettes, loops and bows of velvet are used without limitation by the milliner.

For wear with tailor made suits there are simple felt hats of most stunning outline, turning skyward at back and sides. These hats are shown in all the soft and beautiful colorings of the season. Hats in tones of gray are particularly good style for general wear. Black and white combinations are always good, and here and there are seen very chic looking models with a dash of brilliant red.

The loose coat is always a favorite one with women and suits some figures better than any other sort, in addition to which it is easier to slip on and off and involves less difficulty in the making than do the fitted ones. Here is an exceedingly desirable model that will be much in vogue during the entire autumn and winter and both for the coat, suit and the separate wrap and which is quite appropriate for all suitings, broadcloth, cheviot, homespun, and the like and also for the cloakings that are preferred for all round wear. In this instance the color is black and the material English Kersey, simply stitched with belding silk, but color as well as material is is a matter of preference.

The coat is made on quite simple lines consisting of fronts and backs and is finished at the neck with the regular lapels. The closing is made invisible by means of button holes in a fly, and the sleeves are the favorite ones of the season that are full at the shoulders and plain at the wrists, where they are finished with the roll-over cuffs that are very generally becoming. If desired, the collar can be of velvet but there is a peculiar smartness found in the use of one material throughout.

Surplice styles have lost none of their popularity, in fact they have become even more popular than before.

Curiously enough they can be juggled with so as to be successful for almost every type of figure. Made on a tight boned foundation, with just a little fullness and that judiciously arranged, a surplice makes a large woman look slimmer; yet can be treated so that it fills out too slender a figure in the prettiest possible way.

For suits grey worsteds will lead. There are two distinct types of these worsteds the tight, hard-twisted suitings, such as men wore in their sack suits last summer; and that with the soft finish.

There must be a hundred different styles and variations of the checks, plaids and stripes that are almost invisible, yet give such individuality and and distinct beauty. One has a plaid an inch or so in size; and in the corners there's a shift in weave, forming a curious single section from the "wall of Troy" design. In the light the effect is absolutely fascinating and absolutely illusive. Another has a small check outline in a delicate green—you can't tell it is green but the indefinite quality this particular shade gives to the check is charming.

Chemisettes or real baby Irish lace are among the most attractive of the new neckwear from Paris.

Waistcoats and cuffs trimmed with bright gilt braid, laid on white broadcloth, are worn with almost any color.

CHURCH SERVICES TODAY

Anglican—St. Saviour's church, corner of Ward and Silica. Eighteenth Sunday after Trinity; holy communion, 8 a.m.; morning prayer and litany, 11:00 children's service, 2:30 p.m.; evensong, 7:30 Rev. F. H. Graham, rector.

Catholic—Church of Mary Immaculate, corner of Ward and Mill streets. Low mass at 8 a.m.; high mass at 10:30 a.m.; evening service, 7:30 p.m. Rev. Father Althoff, priest.

Salvation Army—Barracks on Victoria street, west of Josephine. The following services will be held today: Knee Drill, 8 a.m.; holiness meeting, 11 a.m.; a praise meeting at 3 p.m.; Salvation meeting at 8 p.m.

Baptist church—Stanley street, near Mill. Morning service at 11 a.m.; evening service at 7:30; Sunday school 2:30 p.m.; Rev. E. H. Shanks, pastor. Morning topic, "Spirituality of the Church"; evening "The Fire of God."

Presbyterian church—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a.m.; 2:30 Sunday school; 7:30, evening service. Rev. J. T. Ferguson, pastor.

Methodist church—Corner Silica and Josephine streets. Morning service, 11; Sunday school, 2:30 p.m.; evening service, 7:30; Rev. J. B. Winslow will conduct both services.

You can make dirty picture frames, or any other such articles, look like new if you clean them the Sunlight way. Chop very finely a piece of Sunlight Soap and put it into a bottle with a teacupful of hot water, shaking it well and adding a wine glass full of spirits of ammonia. Paint the frames with this liquid, let it stay on a few minutes, then wash off with a soft brush and cold clean water, and polish with clean chamois leather. Sunlight Soap is the only soap that can be used successfully in every cleansing operation in the household.

SUNLIGHT SOAP

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.

J. E. ANNABLE, Nelson, B. C.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining— Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,
Deputy of the Minister of the Interior.

Dept. Interior, June 30, 1904.

RIVAL STREET RAILWAYS

CAUSING DISTURBANCE IN SPOKANE CITY COUNCIL

POST OFFICE ROBBER SENTENCED TO EIGHT YEARS

(Special to The Daily News)

Spokane, Oct. 21—The fight between the rival street railway lines in Spokane has grown more bitter and now involves all city officials. The city council recently ordered the board of commissioners not to permit the Washington Water and Power company to lay its rails across Howard street bridge until the council had further time to investigate the rights of the case. This company had a franchise and offered to give $8000 towards the new bridge. The Graves company which has no franchise for this street offered to give $15,000 towards the new bridge if it is given the right to use it. The council ordered the commissioners to prevent the first company from using the bridge, but the company for 10 days has been laying its rails and the commissioners and mayor refuse to interfere. Council men are angry and are trying to secure the necessary seven votes to remove commissioners Handley and Weymouth.

One man was killed by the sheriff's posse and one was sentenced to eight years in the penitentiary as a result of the robbery last November of the postoffice at Camden, Wash., where robbers secured less than $30. Wilson, one of the robbers, was killed in the pursuit at the time and Harry Allen was today sentenced by Judge Whitson to eight years.

School boys today found a cache of robbers which contained mining stock, insurance and other valuable papers belonging to B. J. Brown, whose room was robbed a few days ago. Included in the stock recovered was some of the Belcher Co., Gold Trades Co., and the Advance Mining Co. Boys of the Washington school were doing a lively business buying and selling stock when the value of the papers was discovered.

LIGHTWEIGHT CHAMPIONSHIP

Contest in View Between Terry McGovern and Battling Nelson

New York, Oct. 21—A purse of $5000 was offered in Philadelphia yesterday for a six round contest between Battling Nelson and Tery McGovern. Billy Nolan, Nelson's manager received the offer in Kansas City and rejected it, wiring that he believed the boys would draw a $50,000 house.

"I am ready to sign articles for a match tomorrow," said Nolan, "but it must be for a reasonable sum. Nelson and I have wanted to take on McGovern for a long time. He appears to have come into his own again, and we are hoping he will give the Battler a chance at him. I know McGovern is a dangerous man, but so is Nelson and I am ready the minute a suitable purse is offered."

For some reason a purse double that for Nelson's appearance was offered for Young Corbett to meet McGovern. Ten thousand dollars is the prize for which the two ex-champions are to compete; Corbett has accepted the offer. He says he will meet Terry at 128 pounds, weighing in at 3 o'clock in the afternoon, and beat him before the sixth round. McGovern has not been heard from. He has said previously that he will fight Corbett at 126 pounds, the same weight at which they met in Hartford when on Thanksgiving day the championship changed hands.

BIG MACHINERY CONCERN

Allis-Chalmers Company Has Absorbed the Bullock Electric Company

Milwaukee, Ost. 21—The Bullock Electric company of Cincinnatti, has been absorbed by the Allis-Chalmers company.

The general Electric company has purchased a majority of the Allis-Chalmers stock, according to report, as a result of a deal which has been made by the directors of the companies.

A few weeks ago the stock of the Bullock company was increased to $3,000,000 in order to enlarge the plant. The Allis-Chalmers company, a rival of the General Electric company leased the Bullock company in March, 1904. The price at which the General Electric company obtained control, it is reported, was $25 per share for common stock.

STAR CHAMBER PROCESS

Pinkerton Detectives Try to Force Evidence From Cunliffe.

Pittsburg, Pa., Oct. 21.—Edward C. Cunliffe, who stole $100,000 from the Adams Express Co., and who was captured on Thursday at Brideport, Conn., was taken to the local office of the Pinkerton detective agency, where he was put through a process of "sweating" by the officers. Whether it was productive and disclosed the whereabouts of the remaining $11,000 could not be learned. Several newspaper men were permitted to visit him today to whom he said:

"The Pinkertons put me through a terrible racking experience last night of about eight hours."

It was reported that Cunliffe had been cruelly treated during the examination. A Pittsburg newspaper man stated that en route to this city the authorities did everything possible for the prisoner's comfort. During the examination last night he was also treated with consideration. About 3 o'clock this morning the prisoner and his inquisitors grew hungry and a recess was taken while messengers were dispatched for something to eat.

APPLIES FOR DIVORCE

Ottawa, Oct. 21—Mrs. Charles S. Mackintosh is applying for a divorce. Charles Mackintosh is a son of ex-governor Mackintosh, and was for a time a resident of Vancouver with his father, and is well known in Rossland.

NELSON'S NEWS OF THE DAY

Mrs. Mouat, mother of R. S. Mouat, C. P. R. conductor, died yesterday morning at Calgary.

At this evening's service in the Baptist church Rev. E. H. Shanks will sing "Face to Face."

Rev. J. G. Winslow, of Trail, will conduct morning and evening services in the Methodist church today.

Born on Friday, October 20th, at the Home hospital, to the wife of J. G. Kaiser, of Hall street, a son.

George Mortimer, of the C. P. R. repair shops, has returned from an extended visit to Toronto and other eastern cities.

The regular fortnightly meeting of the city council will be held in the council chamber tomorrow morning at 10:30 o'clock.

As the school children filled Baker street yesterday on the Trafalgar procession, a citizen remarked: "Nelson is patriotic and productive."

The piano used at the concert in Agricultural hall yesterday afternoon was a Bell piano kindly loaned for the occasion by D. J. Robertson & Company.

The funeral of the late Robert Manuel will take place from the undertaking parlors of D. J. Robertson & Company tomorrow, Monday, morning at 8 o'clock.

The price of silver has steadily advanced for several weeks, and is now 62 3-4 in New York, within a point of the highest quotation reached on the last upward movement. Copper and lead have undergone no change in several days.

LOUBET TO VISIT SPAIN

PRESIDENT OF FRANCE WILL BE ROYALLY WELCOMED

MADRID LAVISHLY DECORATED FOR THE OCCASION

Paris, Oct. 21—President Loubet starts for Madrid tomorrow on the presidential train. He will visit the Escurial, 27 miles from Madrid, and place a wreath on the tomb of king Alfonso XII, reaching Madrid Monday.

Madrid, Oct. 21—This city is superbly decorated in honor of the arrival here of president Loubet on Monday, when the French chief magistrate returns king Alfonso's visit to France. The meeting of the two rulers will be the occasion of a notable demonstration and a series of brilliant spectacles. Business will probably be suspended for a week. The court suspended its sittings to October 27, and all classes are uniting to witness the visit of the French president. Considerable significance is attached to the visit in the light of the recent Franco-Spanish agreement and the cooperation of the two countries relative to Morocco. Premier Rouvier, accompanying M. Loubet, will give the trip a distinctly public aspect.

The appearance of Madrid is really magnificent. The houses are covered witn bunting, escpecially anlong the route the president will follow. The public edifices are lavishly decorated with entwined flags of France and Spain, and at night time they will be brilliantly illuminated. The festivities comprise banquets, gala performances of the opera, a shooting party and a military review, the program concluding with a bull fight in which the most noted toreadors in Spain will participate. The police have adopted strict precautions to prevent anarchist outrages.

BEATS ALL RECORDS.

Boundary Ore Shipments For the Past Week

(Special to The Daily News)

Phoenix, Oct. 21.—Once again the Granby has broken all former records for one week's ore output. The tonnage from the Boundary mines for the last seven days was as follows:

Granby mines to Granby smelter	16,448
Mother Lode to B. C. Copper	4,160
Providence to Trail	30
Total for week	20,638

Total for year to date 09,492 tons.

Boundary smelters this week treated as follows:

Granby smelter	15,127
B. C. Copper Co.'s smelter	4,058
Total for the week	19,185

Total treatment for year to date, 729,102 tons.

FIRE IN MINNEDOSA.

Damage Done by Conflagration—Body of John Brown.

Winnipeg, Oct. 21.—The body of John Brown of Fredericton, N.B., who was drowned in the Red river at Winnipeg a week ago was recovered and sent east today.

Fire destroyed the warehouse of P. J. McDermott, Minnedosa, last evening and threatened for a time a serious conflagration so that Neepawa was wired for help. Fortunately there was little wind and the fire brigade, aided effectively by a bucket brigade, was able to get the fire under control. The general store of P. J. McDermott and the row of frame buildings south of the Odd Fellows' hall were partially damaged.

The losers were: P. J. McDermott, blacksmith shop, warehouse and contents, $4000, insurance $500 in the Royal; S. Madill, contents of blacksmith shop, $500; J. C. Raar, stable and contents, $400; J. Hanna, damage to stock, $400; Howard Leslie, damage to stock, $1000.

DEATH OF "COOL" BURGESS

Toronto, Oct. 21.—Collin, popularly known as "Cool" Burgess, the veteran Canadian minstrel and comedian pioneer of the black-face monologue, died at the general hospital yesterday after a lingering illness. As an entertainer the deceased had a continental reputation and made a name and fame which placed him in the first rank of song and dance artists.

SALARY GRAB.

London, Ont., Oct. 21.—The London conservative association last night passed an unanimous resolution condemning the salary grab, including indemnity to the leader of the opposition.

CHIEF JUSTICE MULOCK

Toronto, Oct. 21.—Sir William Mulock was sworn in this morning as chief justice of the Exchequer division of the high court of Ontario.

FAUGH-A-BALLAGH

Toronto, Oct. 21.—Robert Hamilton Ramsay, one of the oldest citizens of Toronto is dead. He was in the thickest of fighting in the Fenian raid and it was his company that mistook the cheers of the Fenians for the shouts of their comrades and advanced instead of retreating as they had been ordered to do.

E. F. CLARKE MONUMENT

Toronto, Oct. 21—In spite of the bleak wind, bringing occasional showers, about 100 people gathered round the grave of the late E. F. Clark, M.P. in Mount Pleasant cemetery yesterday afternoon to witness the unveiling of the monument erected there in memory of him, by the McKinley Orange lodge of which the deceased was a member.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WHY DON'T YOU PUT IT IN

THE DAILY NEWS

WANT ADS in The Daily News bring prompt returns, because The Daily News is read by nearly everybody in the Kootenay and Boundary Districts six days a week.

Let Your Newspaper Do things for You.

When this newspaper has given to you the last word about the events of the day—when it has acted as a sort of Central Office in "connecting" you with "all of Creation"—it has done much for you, of course.
But it can do more than that.
It can help you run your store, your office, your factory or your house.
It can carry your "little worries" for you—and never turn a hair.
You do not fully use your newspaper if you simply read it.
You don't really KNOW your newspaper until you have used its want advertising columns.
It can dispose of things for you—it can secure things for you.
It can find lost things for you, find any kind of help you need. find buyers for your house, your lot, your horse, you furniture your shop or store, leasehold or interest or equity.
In short, any day, every day, this newspaper stands ready and able to
DO THINGS FOR YOU!

How would you like to Have 100 new Customers?

Is your store in such shape that ONE HUNDRED NEW CUSTOMERS would "turn the tide" for you?
Are things with you only just "so-so?" Bills maturing too fast—sales a little too slow—too many people going past your doors—lack of "snap" and "go" and "hustle" around your counters?
Are Fixed Expenses coming to be a burden—while they should be merely an incident—in your business?
If you feel these symptoms—no matter whether you are a big merchant or a little one—YOU NEED A TONIC!
PUBLICITY, in just as large doses as you can stand, repeated EVERY DAY, will change the whole situation for you.
It is idle to suppose that you cannot secure the ONE HUNDRED NEW CUSTOMERS—regular customers—who would "turn the tide" for you.
YOU CAN GET THEM IN A WEEK—but not by wishing for them. It's not so easy as that. Nor by distributing hand-bills, or putting up posters, or buying space in programmes—it's not so easy as that.
You must spend some money—more than you have ever spent—for ADEQUATE ADVERTISING SPACE IN YOUR DAILY NEWSPAPER.

NELSON'S NEWS OF THE DAY

The service in St. Paul's Presbyterian church this evening will be a Nelson commemoration service.

G. Ritchie will sever his connection with the Wood-Vallance Hardware Company on the 1st of November.

Conspicuous in yesterday's parade was sergeant T. Luscombe, wearing three medals, the British and Tukish for the Crimea, and the medal for the Mutiny. On his four clasps appear the words, Alma, Balaclava, Sebastopol and Lucknow.

Captain D. C. McMorris has been appointed steward of B. C. lake and river service, and is already installed in his new position. He will make his first trip up the Arrow lakes in this capacity this evening.

H. S. Bodmer rendered yeoman service yesterday afternoon and evening as accompoinst for all songs and choruses. The committee and the citizens generally are deeply indebted to Mr. Bodmer and Miss H. M. Moody for the training given to the school children.

The Montgomery Co., Ltd., wholesale and retail confectioners, are about to dispose of their retail business in order to devote their undivided attention to the manufacturing branch of their wholesale department. This move is necessitated by the rapid growth of this end of their business. In order to provide adequate accommodation for their plant new premises have been secured on Victoria street, in the large building formerly occupied by the Success club.

MOTHER AND SON DIE TOGETHER.

Insane Woman Turns on Gas in Bedroom and Waits for Death.

New York, Oct. 21.—Mentally deranged since the death of her husband a year ago, Caroline Dreher, 42 years old, undressed her son Joseph, thirteen years old, put him to bed, turned on the gas jets, pulled down the shades of the windows and knelt by the side of the bed and waited for death today in her home on Third avenue. Two hours later her son Bernard, after pounding on the door of the apartment, burst in the door and found his mother and brother dead. On a table was a note to an elder daughter saying: "I have taken care of Joseph, you and Bernard can take care of yourselves."

ENTERPRISE BANK FAILURE.

Politicians Themselves to Take Up Notes in Order to Conceal Identity.

Pitsburg, Oct. 21.—The Pitsburg Leader seys there is every evidence that the politicians, said to be responsible for the failure of the Enterprise bank of Allegheny, are hurrying to pay the notes in an effort to conceal traces of their identity, and receiver Cunningham, who is in charge of the bank, does not deny it. "It is known," says the Leader, "that since the bank was closed on Wednesday several political notes have been paid at the bank of Pittsburg, through which the Enterprise bank cleared."

S. P. Kohen, a stock holder of the Enterprise bank, said today that the depositors would be paid in full and that the stockholders would get together and make up any deficiency. He also said it was absolutely false, as had been alleged, that cashier Clark had appropriated any of the money for his own use. According to Kohen, Clark was at all times willing to oblige a friend and it was this willingness that had been abused by some of his special friends and business partners. Bank examiner Cunningham denied positively today that he had seen or heard of a statement made by cashier Clark. He further said that an examination of papers in the bank shows that there is no paper there with the name of senator Penrose upon it, either as maker, endorser, or guarantor.

OFFICIAL FRENCH WEDDING

Paris, Oct. 21—M. Clementol, minister of the colonies was married this afternoon to Mrs. Rigby Knowles, widow of an English publicist. Premier Rouvier acted as chief witness for the groom, and admiral Fournier for the bride. A brilliant assembly of cabinet ministers, army and navy officers and members of the diplomatic corps witnessed the ceremonies.

NATIONAL ASSEMBLY ELECTIONS.

St. Petersburg, Oct. 21.—The election to the national assembly will commence in the middle of November. The governor of Kaluga province today issued the first order, fixing November 12th as the date for the preliminary election.

NEW RUSSIAN LOAN.

St. Petersburg, Oct. 21.—The election for a new Russian loan were continued today without definite results. The American representatives joined the conference with finance minister Kokovsoff for the first time tonight.

CUNLIFFE COMMITTED.

Pittsburg, Oct. 21.—This afternoon a commitment to jail was issued against Cunliffe on a charge of larceny. The hearing will be held Friday next.
