IRISHMEN CELEBRATE

St. Patrick's Day Honored at Gatherings in Many Lands

Nelson's Society Hold Patriotic Banquet to Commemorate Occasion--Speeches and Songs of Unusual Merit

Rome, March 17.—There were abundant Shamrock decorations today in the three Irish Catholic churches here in honor of St. Patrick's day. Cardinal Louge, archbishop of Armagh, celebrated a pontifical mass, delivered a short address and set his greetings not only to the Irish in Ireland but to those across the seas.

New York, March 17.—Rear admiral Joseph B. Coghlan, of the navy, congressman Samuel W. McCall, of Massachusetts, congressman W. Bourke Cockran, of this city, mayor McClellan, and Thomas A. Daly of Philadelphia, were among the speakers tonight at the banquet of the Friendly Sons of St. Patrick at Delmonico's. The banquet followed a day of celebration by all of the Irish societies of this city.

At the dinner tonight Mr. Cochran responded to the toast, "John Barry, the first American Commodore." Coghlan's toast was the army and navy. In part he said: "We are having a little trouble with our dark skinned brothers in the far off islands, our little brothers in blood. I am sure that when we get the proper reports we will find that the army has been guilty of nothing we need be ashamed of. Sherman said: 'War is hell, and there are angels in peace and devils in war.'"

Mr. McCall told of the movements on foot in congress to have statues erected to the memory of commodore Barry and John Paul Jones.

London, March 17.—Never before was St. Patrick's day celebrated as generally in this city as today. Special services were held in all Catholic churches in the morning and every Irishman as well as many who are not natives of Erin, wore shamrocks in their buttonholes. As usual the Irish troops in the various garrisons were given a day's leave. Queen Alexandra sent a quantity of shamrocks to the Irish Guards on duty at the Tower. The shamrocks were distributed among the men at parade this morning.

Dublin, March 17.—St. Patrick's day was observed with more than ordinary zest and enthusiasm today than for many years and more generally than ever before. There was the usual St. Patrick's day parade at the Dublin Castle, which was attended by the earl and countess of Aberdeen. The vice-royal pair was received with great enthusiasm. Many thousands witnessed the ceremony.

Scranton, Pa., March 17.—There was a double celebration in this city today. The Irishmen of Scranton and vicinity were celebrating St. Patrick's day, and the Welshmen of this district held their annual Eisteddfod at the North End auditorium. The double celebration attracted many hundreds of visitors and the town presented a festive appearance. The great St. Patrick's day parade was held this afternoon under the auspices of the Ancient Order of Hibernians. Several Irish-American societies held banquets in the evening.

Baltimore, Md., March 17.—The various local divisions of the Ancient Order of Hibernians celebrated St. Patrick's day by holding banquets tonight. There was no parade.

Lowell, Mass., March 17.—The Irish organizations of this city celebrated St. Patrick's day with a parade this afternoon. In the evening there was a number of banquets.

Cincinnati, Ohio, March 17.—The United States Irish societies of this city held a big celebration in honor of St. Patrick's day at Central Turner hall this evening. Many prominent speakers addressed the meeting.

Yesterday was the national festival of Irishmen and their descendents throughout the world and was duly honored as such.

The St. Patrick's Society of Nelson celebrated the occasion as usual with a convivial banquet in Fraternity hall last night. The banquet was fairly well attended and was as much enjoyed as its predecessors.

President G. R. G. O'Driscoll occupied the chair in most acceptable style. His short and witty speeches provoked outbursts of laughter and applause.

The toast list included the king, the governor general and dominion, to which his honor judge Forin replied in a brilliant speech full of patriotic allusions and enlivened by many bright sallies.

Ireland was replied to by J. Fraser, and W. Ebbs, both making eloquent speeches. The former apologized for having, a year ago, doubted the traditional voyage of St. Partick from Ireland to Wales on a mill stone. He had learned since on unimpeachable authority that rock will float.

The city of Nelson called forth two enthusiastic speeches, from G. O. Buchanan and F. A. Starkey. The army and navy evoked good speeches from T. Kinahan, P. McL. Forin, and T. Brown. The sister societies were gracefully represented by E. A. Crease and Capt. T. J. Duncan. Ex-president Scanlan spoke eloquently to the toast of St. Patrick's day. D. M. Carley responded briefly for the press.

During the evening Irish songs were contributed by S. A. Wye, P. McL. Forin, W. J. Meagher and Capt. Duncan.

OPERATOR TAKES BLAME

EMPLOYEE WAS DOING A SHIFT OF TWENTY- FOUR HOURS.

ENQUIRY INTO THE WRECK OF COLORADO TRAINS.

Pueblo, Colo., March 17.—While the exact number of lives lost in the Adobe wreck on the Denver and Rio Grande railroad will never be known, it will undoubtedly take rank among the great disasters in the history of railroading. Conservative estimates on the loss of life place the number of dead at 36. Sixteen charred, mangled and unrecognizable bodies lie in the Pueblo morgue, five other persons are known to be dead, and possibly a score of bodies were burned to ashes. There was not a single entire body recovered from the wreckage, with the exception of the engine men, who, although mangled had not been reached by the flames that swept through the wrecked cars. Bits of charred flesh and piles of bones were all that were left to indicate a holocaust had occured, but it was seen that so far as the search progressed no less than thirty-six persons had perished.

At the office of the general manager of the Denver and Rio Grande railroad today the announcement was made officially that E. A. Lively, night operator at Swallows, was wholly responsible for the collision at Adobe yesterday. He was asleep at his post, it is said, when train No. 3, to which he was to have delivered an order, went by. Later he reported to the train despatcher at Pueblo that No. 3 had not passed Swallows. Two operators are employed at Swallows. Lively's regular shift was from 7 o'clock in the evening until 7 o'clock in the morning when he was regularly relieved by the day operator. Officials of the road deny that Lively had been required to work overtime and say of he had done so his action was voluntary.

When advised of the report that the night operator at Swallows, S. F. Lively, had made a confession in which he acknowledged his responsibility for the collision of the two passenger trains on the Denver and Rio Grande railroad near Florence, early yesterday, which resulted in a disastrous wreck, and that Lively claimed to have been in a condition of stupor at the time, owing to a long watch at his post, local officials of the Denver and Rio Grande deny positively having any knowledge of such a confession. It was stated, however, that the operator had assumed a longer shift on the night of the wreck than was usually required of him, but this, it was understood, was for reasons only known to himself.

It develops today that S. F. Lively, the regular day operator at Swallows, and William Vandeauren, the night operator, have been discharged by the railway officials.

ALLEGATION IS SERIOUS

STATE PRESSURE IN STEUNENBERG MURDER CASE.

SWORN DENIAL MADE BY JURY FOREMAN MOSS.

Caldwell, Idaho, March 17.—The sensational allegation of being influenced by the state made against A. B. Moss, foreman of the grand jury which indicted Charles Moyer, William Haywood, and George Pettibone, were not sustained when testimony in the matter was taken up before district judge Frank Smith today.

Mr. Moss swore that he had talked with no one about the case outside of the jury room and further testified that he had not at any time expressed an opinion as to guilt or innocence of the accused men. Affidavits of governor Gooding and attorney Hawley denying that they had any conversation with the foreman of the jury in the Steunenberg case, as alleged by the defence, were also introduced.

KEPT THE DAY

Grand Forks Irishmen Held a Smoker—New Rifle Club.

(Special to The Daily News)

Grand Forks, March 17.—A movement is on foot here to re-organize the Grand Forks Rifle association. The old association formerly in existence has practically become dead and it is the intention to secure the services of prominent citizens to act as officers of the new organization.

St. Patrick's day was quiet in Grand Forks. There was a grand smoker this evening, over one hundred persons participating.

STICKS TO HIS GUNS

J. A. Macdonald Given an Ovation By Vancouver Liberals.

(Special to The Daily News)

Vancouver, March 17.—J. A. Macdonald, of Rossland, the leader of the opposition in the provincial legislature, was tendered a most enthusiastic reception at a meeting here on Friday night. He severely censured the government for the Kaien island scandal, and declared that the minority report fully justified the phrase applied to the principal actors in the affair. "A band of adventurers, male and female."

Discussing the Columbia and Western land grant, he argued that the railway company had not fulfilled the terms under which the grant was obtained from the previous administration, by building from Rossland to Penticton. He also referred to another land grant made to the British Columbia Southern railway in 1890, in which he claimed the present administration had made no attempt to make the railway company observe the conditions on which the grant was made.

After declaring that he was prepared to fight with enmity, rather than court the friendship of the socialists, the speaker closed with a reference to his three years' experiences of politics and his appreciation of a meeting like the one he was addressing.

FOR PATENT MEDICINES

PARLIAMENT WILL REGULATE THEIR SALE.

WINNIPEG PRINTERS TO MEET MACKENZIE KING.

(Special to The Daily News)

Ottawa, March 17.—There is every prospect of legislation this session of parliament to regulate the patent medicine companies. The matter has been for some time engaging the attention of the government.

MacKenzie King, deputy minister of labor, has left for Winnipeg to investigate the grievance of the printers there. Some time ago an agent of the Winnipeg board of trade went to England and engaged some 70 printers and brought them to this country. They allege that they did not get the work promised and petitioned the king. The deputy minister will now investigate the matter at the request of the colonial office.

Application will be made during the present session of parliament for the passing of an act incorporating the British Pacific Railway company, with power to build a railway from Victoria, B. C., via Bute Inlet and the Yellowhead Pass to Edmonton, Alberta, thence to Churchill on Hundson's Bay, with a branch to a point on the west coast of Vancouver island.

NEWS OF THE DOMINION

YESTERDAY'S HAPPENINGS ALL OVER CANADA.

RECENT OCCURRENCES OF VERY GENERAL INTEREST.

Montreal, March 17.—Patrick F. McCabe, formerly Central Vermont railway station agent at Bolton, Vt., was arrested near here recently on a dual charge of derailing the Boston-Montreal express at his station, and of swearing falsely before the state of Vermont railroad commission, and has been committed for extradition by commissioner Choquette.

Toronto, March 17.—Strong arguments against the removal of the meteorological observatory from Toronto were advanced at a meeting of citizens held in the city council chamber last evening, and a resolution was adopted calling upon the government not to interfere with the location of the present centre of the meteorological observations.

Moncton, N. B., March 17—Harry Cole, 22 years old, was instantly killed in the I. C. R. yards here yesterday afternoon while at work at the ruined shops. He went up an electric light pole to fasten a guy and on reaching the cross piece, touched a live wire, receiving the full force of the current, 2500 volts.

St. John. N. B., March 17.—In continuation yesterday of the preliminary examination here of H. B. White, acting cashier of the Dominion Express company on the charge of forging a note for $50, route agent Hycock testified that some $3000 or $4000 could not be accounted for.

COAST TELEPHONE STRIKE

Strikers and Strike-Breakers Appear in Police Court.

(Special to The Daily News)

Vancouver, March 17.—As one result of the strike of the telephone operators Mr. Kent, superintendent of the company, and Arthur Tazzaman, one of the striking employees of the company, and one Hawley, at present working for the company, were brought up in the police court today.

Tazzaman and Hawley came to blows on the street. Magistrate Williams assured both sides that he was going to see that order was maintained, and dismissed the case with a warning that in future severe sentences would be imposed for fighting or disorderly conduct on the streets.

THE DAILY WRECK.

West Wingham, N. H., March 17.—Two freight trains on the Worcester, Nassau and Portland division of the Boston & Maine railroad, collided head on near the local station early today and two men were killed and two seriously injured. The dead are fireman McLean and brakeman Tarbell. It was stated that failure to deliver orders to one of the trains was the cause of the accident.

HUNGARIAN OPPOSITION

Declare Themselves to be Within Constitutional Privileges

Protest Made by Coalition of Budapesth Against the Autocratic Decree Declaring Their Instant Dissolution

Budapesth, March 17.—The executive committee of the coalition party today issued a protest against the decree of the council of ministers dissolving the committee and prohibiting it from continuing operations. The protest declares that the executive committee has not incited revolt but to the contrary has emphasized the fact that it was to the interest of the nation to maintain order.

It argues that the leaders of the party are not subject to the government supervision, but are free to express their opinions like other subjects. The protest concludes with a statement that the committee will continue activity within the limits of the law.

CASUALTIES OF A DAY

PARTIAL LIST OF YESTERDAY'S ACCIDENTS

GREAT LOSS OF LIFE THROUGH THE SYSTEM EMPLOYED

Philadelphia, March 17—Becoming confused by the shrill blasts of a locomotive whistle, Brother Peter (John O'Leary) of the order of Christian Brothers, an instructor of the Roman Catholic preceptory for boys near Norreystown, was instantly killed by a freight train on the Pennsylvania railroad today. Brother Peter was walking along the track when two trains approached from opposite directions. The whistles bewildered him and in attempting to step aside he walked in front of a train and was run down.

Shreveport, La., March 17—A head on collision between two freight trains on the Louisana & Arkansas railway at Long Springs resulted in one trainman being killed and four others injured, two fatally. An order had been issued for one of the trains to take the siding, which order, it is said, was overlooked, resulting in the collision. Both engines were demolished and several cars derailed.

Middleton, N.Y., March 17—Regina Tascano, 12 years of age, was instantly killed and Harry Gilden, 45, probably fatally injured at a grade crossing on the Erie railroad at Port Jervis today. They were driving across the tracks and did not see an approaching train. The wagon was demolished.

Little Falls, N.Y., March 17—Raymond Bradford, 10 years old, while playing on a railroad track here today, was run over by a train and killed.

PILGRIM DINNER.

Hopes to Settle All Disputes With the United States.

New York, March 17.—The Times says: Lord and lady Grey will be the guests of Mr. and Mrs. K. Jessup, at their house on Madison avenue, the week after next, to attend the dinner given by the Pilgrims at the Waldorf-Astoria on Saturday March 31, in honor of lord Grey, the governor general of Canada. Elihu Root, secretary of state, will be one fo the principal speakers at the dinner and will, it is understood, confirm the announcement by the earl that all questions in dispute between the United States and Canada have been settled.

The negotiations, it is expected, will be brought to a successful termination within eight or ten days. Among the issues in question are the protection of the fisheries in international waters, the fur seal fisheries, the protection of the Niagara Falls, and minor boundary disputes.

MAKING RESTITUTION

Political Contributions From Life Insurance Co. to Be Repaid.

New York, March 17.—The World tomorrow will say: "At a conference in the office of a down town lawyer yesterday it was agreed that the trustees of the New York Life Insurance company, who were members of the finance committee during the presidential campaigns of 1896, 1900 and 1904, and were cognizant of the political contributions made by the New York Life, should reimburse the company to the extent of $148,000.

"This is the total of the political contributions made by the New York Life. Each trustee will go into his private funds to make the payment. In all there are fifteen trustees involved, and under the agreement each man will have to contribute a trifle less than $10,000. It was originally planned to hold the estate of John A. McCall responsible for all of the political contributions and to bring litigation against the estate to obtain re-imbursement. Abandonment of this plan is involved in the decision reached at yesterday's conference."

NEW YORK MAFIA.

New York, March 17.—The city police force is trying to find the author of a letter received last Sunday by John Bozzuffi, the Italian banker and father of Antonio Bozzuffi, who was kidnapped by Italians and held 48 hours for ransom. The letter, bearing a skull and cross bones, says: "Do not think that your son escaped. We simply did not want to spill innocent blood.. We want now the miserable sum of $5000, otherwise great harm will fall upon your head." The letter was written in Italian in backhand style, but there was no signature.

MORE SHIPPING MINES

SEVENTY PROPERTIES NOW ON THE OUTPUT ROLL

RECENT DEVELOPMENTS OF INTEREST IN MINING

Owing to the blizzard that has been in evidence in the surrounding country, to the dissatisfaction of its inhabitants, for the past week, the ore shipments are lower than they have been for some time past from every camp. This week there are only 20 mines shipping, three of which, however, the Majestic, Sunshine and Molly Hughes, are new to this year. The total number of shipping mines now on the list is upwards of 70, of which 50 are in the districts outside of the Boundary and Rossland.

In the Boundary district there has been some disquietude over the outlook for power to operate their mines and smelters, but as the B. C. Copper company is proceeding with the enlargement of its smelter plant, it is probable that an arrangement will soon be made between the warring power companies which will permit of the necessary power being obtained. It may be noted in this connection that the Granby company, through its head officials, has acquired the power site on the Kettle river in the state of Washington and it is openly asserted that power may be brought from the United States into Canada to operate the Granby mines and smelter..

In the Rossland camp there have been certain statements made in a general way as to the recent strikes beyond the Josie dyke to the west, but no definite particulars have been supplied to the public. The chief ore finds in Rossland camp have been between the boundaries of two dykes running up the face of Red mountain in a northerly direction. If the veins between these dykes are found to have extended to the westward in the same manner as they are found inside, the strikes are of a most important nature. The statement made public, however, declares the vein on the Le Roi found to the west of the dyke is of a high grade character, whereas the vein within is run of mine and of great width. Further developments will be looked forward to with interest.

The following are the detailed shipments of the mines of the Kootenay and Yale districts for the past week, together with the ore receipts at the smelters:

BOUNDARY SHIPMENTS

Mine	Week	Mine
Granby	17,014	182,089

The total ore receipts for the week at the smelters including shipments made from mines outside the Kootenay and Yale districts, were 32,203 tons for the week and for the year to date 355,192 tons.

GROVER'S BIRTHDAY

Is 69 Years Old Today—Only Ex-President Alive—His Insurance Record

Princeton, N.J., March 17—Ex-president Grover Cleveland will be 69 years old tomorrow and his friends are preparing to celebrate the anniversary of his birth. Mr. Cleveland enjoys the distinction of being the only ex-president living at the president day. Although no longer actively engaged in politics he is still considered a man of strong political power and influence. It is a remarkable fact that there has been scarcely an important question that arose since his retirement from the presidency of the United States, concerning which his advice and judgment has not been sought. He is probably a greater man now, at least in a wider sense, than when he was president, although his great strength lies not in his party affiliations.

Mr. Cleveland has lately been brought into prominence through the reorganization of the insurance companies, after the scandalous exposures of the investigation. When the scandal covered officials of the insurance companies faced the difficult task of winning back public confidence, they saw that it could only be done by placing in charge some man who had the absolute confidence of the American people. In that crisis they turned to Grover Cleveland and finally succeeded in inducing him to become the head of the Equitable board of trustees, to bring a new regime into the company that the Hydes and Alexanders had discredited.

TAKE YOUR CHOICE.

Vancouver, March 17.—The Province says: Hon. F. J. Fulton, provincial secretary, is now acting attorney general. The government does not appear to be in any hurry to appoint a permanent successor to Mr. Wilson, and it is not likely that this will be done for some time. In the meantime the story is going around that Mr. Fulton will eventually replace Mr. Wilson; that Hon. R. F. Green will be provincial secretary; that Hon. F. Carter-Cotton will be the new chief commissioner of lands and works, an office he held in the Semlin government; and that our own James F. Garden will be president of the council. Another story has it that the premier in tends to make Mr. Manson of Alberni, a member of the cabinet. One may take one's choice of the possibilities; one thing is certain, nothing has yet been settled.

LOADED DICE ARE USED

RUSSIAN ELECTIONS ARE COERCED BY THE POLICE

PEASANTS SEND MANY PROTESTS TO THE CZAR

St. Petersburg, March 17—Charges of interference on the part of the local police officials to prevent the expression of their will by the peasants in the preliminary elections and the county conventions, are increasing. The Nasha Shisn says it has investigated the rural elections in St. Petersburg province and alleges that the authorities everywhere forbade popular meetings called by the liberals, but did not interfere with meetings called by the reactionaries. In many places the peasants were afraid to vote on account of the police at the polls.

Hundreds of representatives of the labor parties were arrested and in many cases there were even military demonstrations. The government agents openly threatened the peasants with repression if certain persons were elected. The peasants from three districts have sent telegrams of protest to the czar. One of the peasant districts drew up instructions to its delegates to vote for the expropriation of crown and state lands and a portion of the private lands.

The Nasha Shisn charges that the conservative results of the elections were due solely to repression. While the returns really show a large proportion of priests and village elders elected, in some of the provinces, especially in the west, the peasants displayed great independence at their meetings and talked only of a division of lands. Their hostility towards the noblemen and big landlords was relentless and they defeated all the priests and village officials.

OPPOSES GERMAN VIEW

UNITED STATES FAVORS PROPOSALS OF FRANCE

THINKS INTERESTS OF THE POWERS ARE RESPECTED

Washington, March 17—Advices received at the American state department from Algeciras, contain criticism of the German insistence of the adoption, practically without modification, of the Austrian proposal for the policing of Morocco.

Although not voting on any questions involving European politics, the government is averse to the frustration of the system for the policing of Morocco and, providing the national character of the scheme can be preserved, is well content to entrust the mission to a force of French and Spanish officers, who would be responsible to the diplomatic corps at Tangier, for effective service in caring for the interests of all nations.

There is authoritative information that eventually Germany, having assured herself of the internationality of the police system, will assent to the modifications of the Austrian proposal.

CODY IS FAMOUS.

Genoa, March 17.—A conflict between the board of health and the municipal authorities has arisen because of an order by the former prohibiting the encampment of Buffalo Bill's Wild West show, because of an alleged infectious disease among the horses. The municipal authorities, local associations and tradesmen are opposed to this prohibition, saying that it is contrary to the interests of the city. The members of the chamber of deputies representing Genoa is being urged to have the government interfere in the matter and to bring the question before parliament.

WITHIN THREE-MILE-LIMIT

St. Johns, Nfld., March 17.—The proposed attempt to arrest four American citizens on board the British Alaska Fur Sealing schooner Zillah at San Francisco because the American laws forbid Americans to hunt for seals, occasions much interest here because the matter involves the question whether the American herring vessels can catch outside the three mile limit before entering Newfoundland waters to take herring, as they did last fall, despite the colonial protest.

SRIKE ON STRATHMORE

(Special to The Daily News)

Grand Forks, March 17.—Corroborative reports reached here last evening ofa most important strike just made on the Strathmore property in the Greenwood high grade belt.

EARTHQUAKE IN FORMOSA

Tokio, March 17—A severe earthquake occurred at Tagi, Formosa, today. Hundreds of buildings were destroyed and many hundreds of people were killed.

MITCHELL'S FINE WORK

Manages so as to Please Both Operators and Workmen

Indianapolis Convention Now Seems Likely to Come to a Conclusion Which Will Prevent a Strike on April 1st

Indianapolis, March 17—It can be stated authoritatively that the officials of the United Mine Workers of Amtrica have decided to allow the Ryan resolution to be eliminated from consideration, and will act upon the assumption that the adoption of the report of the scale committee virtually has repealed the resolution which prevented the signing of an agreement with the operators if they and the districts had come to an agreement.

The report of the scale committee is as follows: "Resolved, that we hereby heartily endorse the policy and action of president Mitchell in this matter and do now hold ourselves ready to get together for the purpose of endeavoring to effect a satisfactory settlement of the wage question."

F. L. Robbins and other operators, who favor signing by districts, even if an advance in wages were given, are greatly pleased over the position taken by the leaders of the mine workers.

TO STOP SPECULATION.

Edmonton, March 17.—The banks have decided to shut down on lending money on the present inflated value of city real estate. This has caused consternation in business circles. It is claimed that the banks are to blame for the unreasonable prices prevailing for inside property, as five or six of these institutions have bid up figures, in order to secure desirable locations, to hundreds of dollars per foot above what they really should be.

CHICAGO FREE FIGHT.

Chicago, March 17.—One man was killed and three others were injured, one of them probably fatally during a fight early today in a saloon at Lakeview. The dead man is Willim Curry. The wounded men were taken to a hospital. The bartender and Henry Dusing, proprietor, were arrested.

CUBA'S TREASURER MISSING

Santiago de Cuba, March 17.—Blas Molinet, the provincial treasurer, has been missing for four days and his whereabouts is unknown. An investigation made today, it is alleged, reveals a shortage in the treasury that will approach $30,000.

THE JUDGE WON.

Columbus, Ohio, March 17.—Judge Dillon today sentenced Frankie McHugh, who was formerly featherweight champion of Ohio, to four years in the Ohio penitentiary for knocking down W. A. Watkins, of Pittsburg, while on the streets here, and robbing him of $1300.

BLACK HUNDRED AGAIN.

St. Petersburg, March 17.—The members of the council of the empire who voted for the abolition of the death penalty have received threatening letters from the black hundred.

HIS FIRST REPORT

Ottawa, March 17—The first part of the auditor general's report has been brought down. This is the first one brought out by Mr. J. Fraser, the new auditor general. He points out how bulky the report is becoming and suggests that a subcommittee of the public accounts committee should examine the reports and report for the guidance of the auditor general as to what information should be given to meet the requirements of parliament. He also thinks that the time has come for another writing off of worthless federal assets. Nothing has been done in this direction since 1885.

MANY LIVES ARE LOST

Rio Janerio, March 17—A storm on Friday caused landslides and floods. Two hundred persons were killed or injured in landslides at Petropolis, the capital of the state of Rio Janerio, killed 50 persons and injured many more. Petropolis is a town of about 9000 inhabitants and has a large German colony. Its industries consist of cotton goods and cigar manufacturies and breweries. It is on the railroad line, 22 miles northeast of Rio Janerio.

MANUEL GARCIA'S BIRTHDAY

London, March 17—Manuel Garcia, the well known professor of singing of the university of London, and inventor of the laryngoscope, who made his professional debut 80 years ago at the old Park theatre, New York, is celebrating his 101st birthday today. He is still enjoying remarkably good health. King Edward and many high officials and members of scientific societies sent their congratulations.

ATTACKED BY A STALLION

Wellsville, N.Y., March 17—Myron D. Walsh, a well known horseman and business man, was nearly killed this afternoon by the famous stallion Star Hal, which was recently bought at the Madison Square sale by a Wellsville sportsman. Star Hal attacked a visitor at the stables today nd when Walsh attempted to drive off the horse it turned on him. He was terribly injured by the animal's hoofs and teeth before a hostler dragged him from the stall.

WANT DRASTIC REFORMS

Helsingfors, March 17—The socialists are keeping up their threats of a general strike unless the diet pronounces in favor of a single chamber parliament and universal suffrage.

GANS WON

Los Angeles, March 17—Joe Gans of Baltimore, tonight knocked out Mike (Twin) Sullivan of Boston in the tenth round.

A ONE-SIDED ALLIANCE

Socialists in British Columbia who honestly and sincerely desire that the distinctive political principles of their party should be regarded with respect by those who differ from them wholly or in part, must have been seriously concerned at the actions and votes of their two representatives in the legislature during the sessions recently ended.

Had Mr. Hawthornthwaite, the member for Nanaimo, and the acknowledged socialist leader and champion of socialist principles in the house, managed to secure for his party some concessions in return for the invariable support accorded the McBride government by himself and the socialist member for Newcastle, Parker Williams, it could at least have been urged that he was making the best bargain possible under the circumstances, was obtaining at least some of the legislation demanded by the socialists—at election times—and so was justified in supporting a shaky government.

But the alliance agreed to and carried out by Mr. Hawthornthwaite was entirely a one-sided affair. He did all the sacrificing of socialistic principles, and measures, and obtained, so far as the bills passed by the legislature show, absolutely nothing for his party in return.

The member for Nanaimo was in a position to demand some measure of socialistic legislation; his support, and that of his colleague, was necessary to sustain the government on several occasions during the recent session and holding the balance of power, the logical outcome of the situation would be the granting of at least some concessions along socialistic lines.

But while unqualified support was given by Messrs. Hawthornthwaite and Williams to such measures as the bill for the relief of the municipality of Dewdney, the Columbia & Western subsidy bill, and the Public Schools bill, legislation that called for pronounced opposition from avowed socialists, we find that measures in which socialists were keenly interested in getting upon the statute book, were ruthlessly defeated or conveniently allowed to drop out of sight.

Personally, many of Mr. Hawthornthwaite's utterances on the floor of the house during the session just ended, a summary of which appeared in these columns from time to time, were of a character that could not fail to bring the principles which the speaker presumably represented into ridicule and well-merited contempt.

If the members of the socialist party in this province allow the recent actions and utterances of their avowed leader in the house to pass unchallenged they certainly cannot complain when election time comes round again if electors decline to take their platform protestations at all seriously.

EDITORIAL NOTES.

When a man of 70 marries a woman of less than 25, he does it deluding himself that he has a prop and comfort for his last days. Instead, he finds himself hitched to a frisky colt, and the effort to keep pace shortens his days, says the Calgary Herald. When Chauncey Depew was at the height of his power, he was a "good catch," and Miss Mary Palmer, young enough to be his granddaughter, got him. This was in 1901, but the separation has occurred, and suit will shortly be brought for divorce. Depew, the honored senator and the dinner-table wit, was a different proposition from Depew, feebled and disgraced by the publicity through the life insurance investigation, and Mrs. Depew promptly quit him, and fled to Paris. The story books give good illustrations of what love is, but you have to read the newspapers to find out what love isn't.

Although the provisions of the proposed bill for the better observance of the Lord's day, introduced by the minister of justice in the dominion parliament, have not yet been published in the western press, it will be noted that petitions against the proposed legislation are commencing to arrive at Ottawa. A copy of the bill will probably be received here this week and will appear at length in these columns so that our readers can see for themselves what restrictions are asked for in the measure.

Some time ago, before the majority and minority reports of the Kaien island land grant investigation committee were before the public, the Victoria Colinist airily disposed of the matters involved by a remarkable editorial that was widely copied throughout the province in liberal newspapers. Apparently even the Colonist people realized that the defence of the deal then put up was not, to put it mildly, wise, and accordingly the chief organ of the McBride administration has adopted a different line, and to "explain away" one of the "simplest" and most "businesslike" transactions ever entered into by a government, column after column of editorial has appeared with great regularity. Perusal of these later efforts on the part of the Colonist will not change the views of any unbiassed elector who has read over carefully the minority report of the deal, and who looks to the columns of the coast newspaper for any "explanation" of the facts set out in the report.

BOOKS ASKED FOR.

Editor, The Daily News: May I appeal through your columns on behalf of the Nelson Library to the citizens of Nelson for the donation of cloth covered books to augment the number of books in the library. The latter has served a useful purpose in the past, is doing good work now and possesses a vigorous board of directors who are sparing no pains to make it worthy of the city. The donation by each citizen of one book only would constitute it one of the biggest libraries in the province.

E. A. CREASE.

17th, March, 1906.

[The Daily News warmly approves Mr. Crease's suggestion and will be glad to receive donated cloth covered books and forward same to the library.]

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

CANADA DRUG & BOOK COMPANY, Special Agents, K.W.C. Block

Suffered for years with Stomach Trouble

Fruit-a-tives" promptly cured her.

Stomach Trouble is usually bowel trouble. The bowels become constipated. Poisonous matter, which should leave the bowels every day, stays in the bowels, two and three days at a time. These poisons paralyze the stomach muscles, prevent the digestive juices from reaching the food, and stop the whole process of digestion.

MRS. F. H. WALLACE, St. Mary's, Ont.: "I have used most of one box of 'Fruit-a-tives,' and found them all right. I have had a good chance to recommend them as I have been in bed for a week with a bilious attack and am getting around fine thanks to 'Fruit-a-tives'."

Doctors talk of dyspepsia and catarrh of the stomach when they should talk of Constipation.

Fruit-a-tives
or Fruit Liver Tablets

cure Stomach Troubles because they tone, sweeten and stimulate the stomach and they cure the Constipation which is the chief cause of dyspepsia. These concentrated and specially combined fruit juice tablets act directly on the liver—increase the flow of bile—and make the bowels move regularly and naturally every day.

More than that. "Fruit-a-tives" regulate the kidneys—strengthen them—make them excrete more urine—and rid the system of excessive urea and uric acid. They stimulate the glands of the skin to increased action—take away pimples and redness—and keep the skin clear, soft and lovely.

A month's treatment with "Fruit-a-tives" will make you think you had a new stomach.

50c. a box or 6 boxes for $2.50. Sent prepaid on receipt of price if your druggist should not have them.

DEFENDS LOCAL MAPLES

Alderman Annable Answers Criticisms of His Plan for Shade Trees

Applications for shade trees are coming in to the city clerk fairly rapidly now. About 200 have been applied for up to the present.

Alderman Annable, the author of the motion to offer shade trees free to citizens explains that it is proposed to transplant young trees from along the Granite road. Arrangements have been made already with ranchers in the vicinity to take up the trees and load them carefully on wagons sent from the city at a cost of 25 cents per tree. The rest of the work will be done by the city street gang.

As the council has appropriated $250 for the purpose, a thousand trees can be provided. The planting along the residential streets, of 1000 trees in addition to those already in place, would make a great improvement in the appearance of Nelson and sensibly decrease the discomfort of street traffic on warm summer days.

In regard to some criticisms of local maple trees as unsuitable for the purpose, Mr. Annable contended that proper care in selection of trees, in pruning and general tending, would remove any objectionable features, and make the trees as beautiful and as useful as any eastern maples. Already many local maples planted only a few years ago are flourishing. Examples may be seen on the south side of Carbonate street, west of Stanley, on Mill street, and on the Hall Mines road.

OUTLOOK IN BOUNBARY

IS BETTER THAN EVER BEFORE AND WILL IMPROVE.

INDICATIONS ARE EXCELLENT FOR BUILDING.

(Special to The Daily News)

Phoenix, March 17.—The Boundary district is doubtless in better shape today than ever before, and there is every evidence that it will continue to go ahead. Last year there was considerable building in Phoenix, and already this year there are indications that a number of new buildings will be started this spring to keep up with the demand. David Oxley has already let a contract for a three story hotel structure, 30x60 feet, to be located on First street, adjoining his Summit hotel property, it having been leased for a term of years by Danny Deane. Actual construction is expected to commence next week, the lumber having already been ordered.

James Marshall states that he expects to erect an addition to his new Hotel Brooklyn property, opposite the Great Northern station on Dominion avenue. This hotel was only thrown open to the public last October, but it has already been proved too small for the demands made upon it, and guests are turned away almost every night. When mayor Rumberger, now in California, returns shortly, plans will be drawn for a thirty room addition to the Brooklyn, Mr. Rumberger being one of the owners.

There is not a house or residence of any kind to be had in Phoenix today, and when vacated, houses are quickly taken by those who have been waiting for a chance. It is more than likely that a number of residences will be built here this spring, as there is a steady demand for them, and not nearly enough to supply the calls.

ENQUIRY MUST PROCEED.

Toronto, March 17.—Chancellor Boyd has refused to interfere with the police court proceedings against Joseph Phillips, president of the York Loan and Saving company, charged with fraud. The chancellor remarks that this is merely an investigation, not a proceeding in which the prisoner can be tried and convicted. The road is now clear for attorney general Curry to continue his investigation which was interrupted by Phillips' counsel, who applied for an order directing the magistrate to give particulars of the charge laid.

MAY YET RECOVER.

Harvey Mayne, of Pilot Mound, Man., who sustained the terrible fall of 90 feet at Bonnington Falls, while working on the new plant of the West Kootenay Power & Light Co., on Tuesday last, was reported last night by Dr. Hawkey to be likely to recover. His condition had much improved, the first symptoms of cerebral hemorrhage passing away and the patient recovering consciousness yesterday. Apparently the only injuries received apart from the terrible shaking up, were a minor fracture or so and numerous contusions. There is no depression of the skull as would have existed had there been a serious fracture.

$200.00
GIVEN FREE IN
GOLD PRIZES

GRAND EDUCATIONAL CONTEST

We offer $200.00 in gold to those sending in the largest lists of correct words made from the twelve different letters used in spelling the four words

Armour's Extract of Beef

$100.00 in gold will be given as the first prize.
$25.00 in gold will be given as the second prize.
$10.00 in gold will be given as the third prize.
$5.00 in gold will be given to each of the next five.
$2.00 will be given to each of the next twenty.

CONDITIONS

Use only the following 12 letters:—A-R-M-O-U-R E-X-T-C F-B. No letter to appear in the same word twice.

Only such words may be used as are found in Webster's International Dictionary.

No proper names, foreign words or names of persons, towns or places are to be used.

Words spelled the same, but having different meanings, may be used but once.

All contestants must attach to their lists a metal cap taken from a jar of "Armour's Extract of Beef." Failure to do this puts the list out of competition.

The names of the winners of these prizes will be determined by judges whom we shall appoint.

No list will be accepted that reaches our office later than 5 o'clock, April 30th, 1906.

Write only on one side of the paper. After making out your list, state the number of words it contains, with your full name and address at the top of each piece of paper and mark on the outside of the envelope "Educational Contest Department," and mail to our address as below.

Armour's Extract of Beef is sold by all druggists and grocers. If yours cannot or will not supply you, a small jar will be mailed you, post paid, on receipt of 25 cents in cash or stamps.

Bovril on the Dinner Table

Any meal is the better for the use of a little BOVRIL. It adds so much to the flavor and nutriment of so many dishes that it should be in every kitchen.

The mere odor of BOVRIL creates appetite, and it contains the nourishing element of prime beef that strengthens and builds up the system.

Here is a BOVRIL-helped dinner dish:

BOVRIL

Eight pounds of prime beef is concentrated in four ounces of BOVRIL.

BEEF STEAK A LA CLARE.—Cut a steak of an inch in thickness, and cook in a little butter, allowing about ten minutes, or more if liked well done. For a pound of meat heat a gill of good port and Bovril stock mixed in the pan, after the butter has been poured off; pour round the meat and serve with horse-radish.

Bovril is prepared only by

MUNICIPAL ELECTIONS

TEXT OF AMENDING ACT AS IT FINALLY PASSED.

DEFINITION OF HOUSEHOLDER AND OTHER CHANGES.

The Act to amend the Municipal Elections' Act as amended in committee of the whole, and as further amended in the house at the report stage and finally approved is herewith given:

1. This Act may be cited as the "Municipal Elections Act Amendment Act, 1906."

2. Section 2 of chapter 21 of the Statutes of 1905 is hereby amended by striking out all the words after the word "following" in the fourth line thereof, and by substituting therefore the following:

"Householder" shall mean and include any person of the full age of twenty-one years who occupies a dwelling, tenement, hotel, or boarding-house, or any part or portion of a dwelling, tenement, hotel or boarding house, and who shall, unless exempt by statute or municipal by-law, have paid directly to the municipality rates, taxes or fees of not less than two dollars for the current year.

3. Paragraph (a) of section 6 of chapter 68, as enacted by section 2 of chapter 20 of the statutes of 1902, is hereby amended by striking out all the words after the word "householder," in the ninth line, down to and including the word "municipality" in the thirteenth line; and also by striking out the word "December," in the seventeenth line, and inserting the word "October" in lieu thereof.

4. Section 9 of said chapter 68 of the statutes of 1897, as enacted by section 4 of said chapter 21 of the statutes of 1905, is hereby repealed, and the following is substituted therefor:

"9. In city municipalities the list of voters for the next current year shall be prepared by the clerk to the council of the municipality, and shall be closed at 5 o'clock in the afternoon of the 30th day of November in each year (if the 30th day of November shall be Sunday, then on the Monday following).

"(a) The list so prepared, or a copy thereof shall, on the tenth day of December, be posted upon the notice board or usual place for public notifications, at the city hall, and remain so posted until the sitting of the committee of revision:

"(b) The council shall, on or before the tenth day of December, by resolution, appoint two aldermen who, with the mayor, shall form a court of revision, and such court shall sit on the 21st day of December (or if a Sunday or a public holiday, then on the week day following) and shall continue to sit, if requisite from day to day. Ten days' notice of the sitting of such court shall be given by posting as aforesaid, and such notice shall be continuously advertised for five consecutive days in some newspaper circulating in the city municipality:

"(c) The court of revision shall correct and revise the said voters' list, and shall have power to hear, and (by a majority vote) to determine any application to strike out the name of any person which has been improperly placed thereon or to place on such list the name of any person improperly omitted from such list. All alterations made in the list shall be shewn in red ink, and the list so corrected, revised and altered by the said committee shall be certified by the mayor as correct, shewing the committee's determination thereupon, and forthwith printed as so certified, shewing such certificate:

"(d) Three copies at least of the voters' list so printed as aforesaid shall be posted up in each of three conspicuous public places in the municipality, and at the city hall, and shall remain posted up until the day of election."

5. Section 11 of said chapter 68, as enacted by section 4 of chapter 20 of the statutes of 1902, is hereby amended by striking out, in the fourth line of said section, the words "certified as correct by the clerk of the municipality," and by substituting therefor the words "certified by the mayor pursuant to section 9"; and by striking out the words "clerk of the municipality," in the sixth line, and by substituting therefor the word "mayor."

6. Section 5 of chapter 20 of the statutes of 1902, as enacted by section 5 of chapter 21 of the statutes of 1905, is hereby amended by striking out the word "third" where it occurs in the sixth line of said section, and by inserting the word "second" in lieu thereof.

7. Section 5 of chapter 20 of the statutes of 1902, as enacted by section 5 of chapter 21 of the statutes of 1905, is hereby repealed, and the following substituted in lieu thereof:

"5. After the first election the nomination for mayor, reeve, aldermen and councillors shall, in every municipality within the province, be held on the second Monday in January in each year from 12 noon to 2 p.m., and in city municipalities the polling, if any, on the Thursday following from 9 o'clock a.m. to 7 o'clock p.m., and in district or township municipalities the polling, if any, shall be held on the Saturday following from 8 a.m. to 7 p.m.

On the report stage the following new section was added: It shall be unlawful at any municipal election to provide to or for any elector, or to or for any inhabitant of the municipality, or any person being within the municipality, from the day of nomination until after the day of said election, any cockade, ribbon, or other mark of distinction and no person shall use at any municipal election flags, banners, placards or bills in any way concerning or having reference to the municipal election, whether carried by hand or upon vehicles at any such municipal election. Any person committing an offense against the provision of this section shall, in addition to any other punishment or consequence provided by statute, be liable upon summary conviction before a justice of the peace to a penalty not exceeding $50.

It shall be unlawful for any candidate for election at any municipal election on the day of election to distribute in or in the vicinity of any polling station, cards or printed matter containing representations of ballot papers or ballot marks, or any invitation to vote for any candidate or candidates.

$5,000 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

MANAGER ASSAULTED.

Ainsworth Miner Sent Up For 60 Days With Hard Labor.

A rather serious assault case was disposed of by stipendiary magistrate Crease on Friday by which a miner named Darby was sentenced to 60 days in the provincial jail with hard labor. There was no great dispute over the main facts of the case. Darby was working at the Blue Bell mine opposite Ainsworth and recently was discharged by the foreman, for, it was said at the trial before Mr. Crease, not doing his work. Darby applied to George Fernau, the manager in charge at Ainsworth, for the wages due and obtained part of them, the manager giving him the money in place of sending him to the Nelson office to draw his pay.

There was still a balance of $13 due Darby and on applying for this it is claimed he used rather rude language, and in consequence was told to go to the Nelson office and get what was coming to him there.

Some days after this last occurence Darby met manager George Fernau coming up to the mine office from the launch landing and inflicted a violent shaking as well as some blows on the face, marking Mr. Ferneu's nose, and loosening two of his teech, besides tearing his clothes. Darby is a big-sized man and he told Mr. Crease that he had been seven years in the Kootenay.

"Long enough for you to know that you should not assault your manager or any one else," remarked the magistrate.

The accused said he only shook the manager and denied striking him and claimed that he was compelled to wait around for the small balance coming to him after he was discharged and so prevented from going after another job.

Mr. Crease said that so far as manager Fernau was concerned he had gone out of his way to give the accused money in the first instance and would probably have done so again if Darby had not cheeked him. Mr. Fernau was not responsible for the pay system in vogue and there was no excuse for the assault. He was satisfied that the prisoner, who was a much bigger and more powerful man than the manager, had struck as well as shaken him, and assaults of this nature could not be passed over. He would sentence the accused to 60 days in the provincial jail with hard labor and hoped that the sentence would help to prevent the recurrence of such cases.

GUN CLUB SHOOT

Scores in Medal Competition and Handicap Sweepstake Events.

The weekly gun club shoot held at the club traps yesterday was very well attended. Weather conditions were a little less unfavorable than they have been lately and some of the scores were very good.

The first event was the second weekly shoot for the Dominion Cartridge company's silver medal, which was won this time by C. D. Blackwood. The scores out of 20 birds follow: Blackwood, 16; Wells, 14; Macdonnel, 13; Goepel, 12; Ink, 12; Gordon, 11; C. Young, 11; Tierney, 10; Ward, 8; Porter, 6; Brassfield, 5; Mawdsley, 2.

Two sweepstake handicap events were then arranged, and were won, the first by Ward, the second by Brassfield, Goepel and Blackwood jointly. Ties were not shot off, the stakes being divided. Each event was for 15 birds. Ward, Young, Gordon and Brassfield, had a handicap of 3 birds each, the others are scratch. The scores were as follows:

First event—Ward, 12; Goepel, 10; Wells, 10; Ink, 9; Young, 9; Blackwood, 8; Macdonnel, 7; Tierney, 4; Young, 6; Gordon, 9; Brassfield, 7.

Second event—Brassfield, 11; Goepel, 11; Blackwood, 11; Wells, 10; Ward, 9; Ink, 9; Young, 8; Gordon, 8; Macdonnel, 7; Tierney, 5.

Lumberman's and Boots are the best thing you ever put a foot into. Comfortable, strong and durable; weather-proof, waterproof, snag proof.

You'll know them by "the mark of quality" on all styles.

ARMOUR CLAD

TO THOSE WHO FIGURE ON BUYING A

ROWBOAT OR LAUNCH

See me before you place your order. I can do better for you than any other man in the business. W. G. ADAMS, P. O. Box 508, Lake Front.

WHY DON'T YOU PUT IT IN THE DAILY NEWS

WANT ADS in The Daily News bring prompt returns, because The Daily News is read by nearly everybody in the Kootenay and Boundary Districts six days a week.

Let Your Newspaper Do things for You.

When this newspaper has given to you the last word about the events of the day—when it has acted as a sort of Central Office in "connecting" you with "all of Creation"—it has done much for you, of course.

But it can do more than that.

It can help you run your store, your office, your factory or *your house.*

It can carry your "little worries" for you—and never turn a hair.

You do not fully use your newspaper if you simply read it.

You don't really KNOW your newspaper until you have used its want advertising columns.

It can dispose of things for you—it can secure things for you.

It can find lost things for you, find any kind of help you need. find buyers for your house, your lot, your horse, you furniture your shop or store, leasehold or interest or equity.

In short, any day, every day, this newspaper stands ready and able to DO THINGS FOR YOU!

How would you like to Have 100 new Customers?

Is your store in such shape that ONE HUNDRED NEW CUSTOMERS would "turn the tide" for you?

Are things with you only just "so-so?" Bills maturing too fast—sales a little too slow—too many people going past your doors—lack of "snap" and "go" and "hustle" around your counters?

Are Fixed Expenses coming to be a burden—while they should be merely an incident—in your business?

If you feel these symptoms—no matter whether you are a big merchant or a little one—YOU NEED A TONIC!

PUBLICITY, in just as large doses as yo ucan stand, repeated EVERY DAY, will change the whole situation for you.

It is idle to suppose that you cannot secure the ONE HUNDRED NEW CUSTOMERS—regular customers—who would "turn the tide" for you. YOU CAN GET THEM IN A WEEK—but not by wishing for them. It's not so easy as that. Nor by distributing hand-bills, or putting up posters, or buying space in programmes—it's not so easy as that. You must spend some money—more than you have ever spent—for ADEQUATE ADVERTISING SPACE IN YOUR DAILY NEWSPAPER.

POWER OF EVIL SPIRIT

CHRIST'S WARNING TO PHARISEES—NO NEUTRAL GROUND

SERVICES ANNOUNCED FOR TODAY IN NELSON CHURCHES

Today is the third Sunday in Lent. It is also the anniversary of the death of Edward the Confessor, the last but one of the Saxon kings of England. Edward was more priest than king, and though his encouragement of the Normans led to their conquest of England, his reputation for purity and piety endeared his name to his race. Although the peace of his reign was due far less to him than to his powerful ministers Gordon and Harold, the tranquility was credited to him, and successive Norman kings won favor by promising to restore "the laws of the Confessor."

The gospel for the day is a continuation of the story of the acts and teachings of Christ and contains the dogmatic statements which he used in reply to the Pharisaic criticisms of his casting out of the evil spirit and giving power of speech to the dumb. It contains the well known simile of the "strong man armed" and the stronger that overcame and despoiled him; the return of the evil spirit to the abode untenanted.

Underlying the figures of speech is undoubtedly the warning that the evil must be replaced by good, or evil will return with increased force, that there can be no neutral ground—"He that is not with Me is against Me, and he that gathereth not with Me scattereth.'

The services announced for today in the churches of Nelson are as follows:

Anglican—St. Saviour's church, corner of Ward and Silica streets. Third Sunday in Lent. Holy communion, 8 a.m.; morning prayer and holy communion, 11; children's service, 2:30 p. m.; evensong, 7:30. Rev. F. H. Graham, rector.

Catholic—Church of Mary Immaculate, corner of Ward and Mill streets. Low mass, 8 a.m.; high mass, 10:30 a.m.; evening service 7:30. Rev Father Althoff, priest.

Salvation Army—Barracks on Victoria street, west of Josephine. Special services will be held today. Knee drill, 7 a.m.; holiness meeting 11 a.m.; a praise meeting at 3 p.m.; Salvation meeting, at 8 p.m.

Baptist church—Stanley street, near Mill. Morning service, 11 a.m.; evening service, at 7:30; Sunday school at 2:30 p.m.; Rev E. H. Shanks, pastor. Morning topic, "Walking with God"; evening, "Access to God, or Heaven's Door."

Presbyterian church—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a.m.; Sunday school, 2:30 p.m. evening service, 7:30. Rev. J. T. Ferguson, pastor.

Methodist church—Corner of Silica and Josephine streets. Morning service, 11 am.; evening service 7:30; Sunday school, 2:30 p.m. Rev. G. W. Dean, pastor.

NEW YORK FASHION LETTER

New York, March 17—The vogue of the empire styles are having their effect upon blouses and there is one called the empire blouse; it is quite a novelty, built upon the 1806 lines but has the comfort and charming effects of the 1906 modes. In the first place, it is a popular idea to make the empire blouse, of the same material as the dress, elaborately decorated, in that case, with some contrasting fabrics or handsome trimming; but as it will be quite the mode to have one more extra blouse to wear with the empire and princess gown, there will be fine empire blouses of lace and net and chiffon for evening wear; embroidery and fine cloths for the afternoon. Later on in the season no jacket will be worn, but those for present use with the still needed coat should have their sleeves of the simplest form and most of the trimming in front of the bodice.

The top of the empire blouse has kept the best ideas of the usual dressy blouse; the embroidered and lace tucks, lace collar effects, yokes, bands, etc., and the sleeves are nearly always of elbow length; but all of these blouses end at the bust or a little below it, finished in a wide, soft girdle or folds of material, cunningly arranged as though they fell naturally about the top of the corslet skirt at this point.

It is quite a fad to have the lace, net or chiffon blouse match the gown, and many of those made of lace originally white were dyed to an exact match of the dress material. Nearly every princess or empire gown has one blouse of this order.

The majority of the new blouses are made with short sleeves, but when worn with jackets, many of them are supplied with detachable sleevelets of lace. This is an economy that is well to follow in less expensive waists, for nearly every woman knows that it is the sleeves and neck piece that soils first, and a blouse might be worn another day or possibly two, with these additional parts to the waist.

A pretty design for an empire blouse was developed from hand embroidered white Burlingham silk in association with chiffon and gold buttons. A lining is used in the waist, in which box plaits are made at each side of the back and front, diminishing in width at the bust line. The closing is affected at the left side of the front, and above it the neck may be cut out and filled in with a chemisette tucker, a fancy collar outlining it. The standing collar is high at the back, cuffs corresponding in outline with the fancy collar, turn back over the sleeve puffs, finishing them in short length. The skirt and corsage was of blue chiffon cloth made without any gores, the fulness around the waist being taken up with tiny tucks.

A charming example of the princess dress was constructed from radium silk in two shades of grey in pin stripes. The dress was made over a nine gored slip and the outer dress was made with as many as 15 gores, which fitted perfectly over the hips under a high crush girdle, while at the edge of the skirt was a deep nun's fold. The neck was slightly open to show a dainty front of lace over which the bolero fronts, tucked on the shoulders, with curved outline crossel in surplice style with gold buttons for ornaments. The sleeves were in one large chiffon puff, finished with a narrow lace ruffle. Grey elbow gloves, grey shoes, a grey hat trimmed with pink roses and a parasol carrying out the same color scheme completed the costume.

A very attractive waist was in silk batiste, dotted, not yoke outlined, with an all over lace bertha of which material were made the puffs of thhe short sleeves. A body lining was used. The waist closed at the back, and a yoke in a plain or scalloped outline and a yoke tucker were provided. The neck was high and completed with a standing collar. Tucks were arranged to simulate a box plait at the centre of the front, and at each side of the front and back with narrow tucks in groups between.

Before having your empire or princess dress made, you must give some attention to your corset. The new models which have been developed for the princess gown are higher than the corsets of several seasons back, and much longer over the hip, to insure the exact fit of the gown, and the front is a modified straight front. Because of the close fit of the princess models, the fluffy bows and frills so much used of late, have now been discarded; but they are none the less decorated by beautiful flat trimming of embroidery and lace.

A perfect craze exists for little bolero jackets of lace, Irish lace being the favorite, and in many cases there are two or three sorts of laces used in its construction.

Coats, Collars and cuffs of lingerie are more elaborate than last season, but cut along the same lines. Lingerie cuffs in regular cuff shape go with the coat collars, only the cuffs are tacked at the elbow instead of the wrist, below which fall the lace frills or sleeves or the long gloves are worn to touch them.

Stoles both flat and round are extensively worn, especially those made of chiffon and there are muffs to match. All kinds of fancy stocks, round neck pieces of lace, having capes, are worn, cape boleros, cape collars, little bolero jackets of lace embroidery, or having some of its parts, the sleeves in particular, made of the dress material.

In all cases the skirts of the shirtwaist suits both in the tailor and feminine effects are short and generally show shoes in tan or grey as the wearer wills.

Lace and lingerie tuckers are worn by those who hesitate to adopt the open throat waist without some protection.

CATHERINE MANN-PAYZANT

When "Blue Ribbon" giveth its color to the cup", it's no thin watery shade, but a rich, clear color that means purity, strength and fragrance. Just try the Red Label. Only one best tea "Blue Ribbon" is it.

ALWAYS KEEP CHAMBERLAIN'S COUGH REMEDY IN HIS HOUSE

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continuously in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo.. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children and will prevent the attack when given as soon as the children become hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand. For sale by all druggists and dealers.

AT THE THEATRE

Verna May and her company will begin a week's engagement at the Nelson opera house tomorrow evening. There will be eight performances in all, one each evening and two matinees, Wednesday and Saturday. The company has an ample repertoire from which to choose. An entire change of special features between acts is promised for each performance.

The company band will parade at noon tomorrow, and will give a band concert from the balcony of the opera house each evening at 7:30.

A FAVORITE REMEDY FOR BABIES

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by all druggists and dealers.

Put up in 2 or 3 lb. sealed tins, each box containing full weight without including the package.

OF INTEREST TO MINERS

MINERAL DEPARTMENT GREATLY APPRECIATED.

SPECIAL ARTICLE THIS WEEK ON "URANIUM"

We are drawing to an end of the articles upon rarer metals, which have been running since the beginning of the year, within one month from this date we shall have completed them. In certain sections of the mining world of British Columbia they have been greatly appreciated, and hardly a week has gone by without our receiving letters from parties interested in the various metals and miners described. As we intend to keep this department running steadily we shall be pleased to receive suggestions from our readers as to subsequent articles and we shall be pleased to give such suggestions our best consideration.

We are frequently being asked to send private replies to letters sent us. We are sorry to refuse this favor, but are unable to comply with the same unless the fee of $1.00 is enclosed in the letter.

Below will be found our weekly article upon the rarer metals "Uranium" being the one selected.

URANIUM

There are a considerable number of ores in nature containing this metal, but only two that have any commercial importance, there are uraninite or pitch blende, and carnotite. The former is the ore from which the metal radium has also been extracted, and it is very possible that many of the effects of the ore placed to uranim may be due to the presence of this metal in minute quantities.

Pitch blende usually occurs in grayish black masses, but occasionally it is found in a crystalline condition when it has a dark brownish color. It is very heavy, having a specific gravity of 9 to 9.5, so can readily be distinguished by its extraordinary weight. It has a greasy or pitch-like dull lustre with a grayish to greenish streak. Occasionally it is found as a yellow oxide upon the surface, due to atmospheric conditions, but, with depth assumes the colors mentioned above.

Pitch blende is found in large quantities in Austria, Saxony, Cornwall, England, whilst in America it is found in Gilpin county, Colorado, and in South Dakota.

It carries from 76 to 84 per cent of the oxide of uranium and is by far the chief source of the metal carnotite, the other mineral of imporance was described a few weeks back under vanadium ores of which it is one of the chief sources. It is usually found in sandstones, in stringers of a few inches in thickness, and occurs in yellowish masses which leave marks and traces upon everything they touch.

In the latter part of the eighteenth century a German chemist examining a sample of pitch blende came across a metal previously unknown in the chemical world. This he called uranium, after the planet Uranus, but it was not until 1840 that the metal was obtained in its pure state when it was isolated by a Frenchman.

Metallic uranium has a steel gray color resembling nickel and has a greater atomic weight (239.6) than any other metal. It is slightly harder than wrought iron, and is said to improve the toughness, hardness, etc., of steel to a greater extent than nickel, tungsten, and other metals used for such purposes. Steel containing a very small percentage of uranium is used for armor plates and heavy cannon. The oxide of uranium is used for coloring glass a greenish yellow. It is also used in combination with thorium for incandescent gas mantles.

The extraction of the metal or its oxides from their ores is somewhat difficult, therefore the buyers arrange their prices on a sliding scale, the lower grade ores not fetching as much per lb. of the oxides present, as the higher; for instance a 10 per cent ore will fetch $1.25 per lb. of oxides present or $250 per ton, whilst a 30 p. c. ore will bring the owner $1.60 per lb or $960 per ton. For this reason it is usual to concentrate the ores upon the ground where found, as it increases prices, and decreases freight rates.

Uranium ores are said to be found in the neighborhood of Nelson in paying quantities, but we have nothing authentic to go upon. Will correspondents please oblige with facts and data.

CORRESPONDENCE.

F. L. A., Summerland, B.C.—Your letter and sample did not arrive until too late on Saturday last for publication of a reply in Sunday's issue. The rock you send us is composed of feldspar and quartz, stained a slight green color, with ferrous iron. We do not think it of any commercial value, and from the description you give of its formation, would think it to be an intrusion, with every probability of its cutting your pay shoot off entirely, before you have gone much farther.

A. McD., Nakusp, B.C.—We were unable to comply with your request and send you a private reply, as you did not send the necessary fee for that purpose, which is $1.00. The rock you submitted is ordinary white quartz, which some one has stained with analine blue, if you had taken the trouble to break it you would have seen this. It carries no commercial values.

X. Y. Z., Ymir, B. C.—Lot No. 1 J., sample A is mainly composed of pyrites and pyrrhotite, from the looks of the sample it would contain a little gold and no silver. Sample B, mainly composed of galena, blende and pyrites with a fine grained ore which is commonly called young galena or youngite. This latter is a mixture of lead, zinc, manganese iron and sulphur, and usually carries very fair values. In fact the whole of this sample looks very promising. We understand that tellurium ores are found near where these samples come from, but fail to find any indications in either sample. Lot No. 2 N.V.C., sample A is mainly composed of pyrites and other sulphides greatly decomposed and reduced into a lower state. Hematite is also present. Probably will contain low values. Sample B, galena, blende, pyrites in blue quartz, ought to carry good values. The white material in this sample is calcite or carbonate of lime. Sampe C is a silicious ore with pyrites present. It looks very promising when taken in conjunction with what you have below. Sample D, silicious ore with pyritic material presents a compound mixture similar to youngite (see above). Lot No. 3, sample A. This sample is silicious, with several lots of secondary quartz in it, as indicated by the quartz crystals. Apparently it would contain little or no values. We will keep your samples a month so that should you desire any of them assayed, we shall be pleased to get them done for you, and submit you prices.

B. C., Sandon, B.C.—We are unable to make any statement about your ore, as it has been powdered down. Please send us a sample of it in its natural state. Should you wish us to get this sample assayed the fee must be sent along, for silver this will be $1.00.

C. C. C., New Denver—The smaller piece of ore you sent us is wolfanite, but carries too much gangue with it to be of commercial value, unless you have sufficient quantity of it in sight to justify the erection of a concentrator. Pure ore of this kind carrying from 60 to 70 per cent of tungstic acid is worth about $200 per ton. Your larger sample is graphitic schist and carries no values.

W. H., Fairview, B. C.—We read your letter with interest, and have handed it over to a local representative of the firm we mentioned last week. The sample you submitted is very poor in molydenite and would be useless commercially, probably you have better ore on your claim.

KAISER'S DIPLOMACY

Madrid, March 17.—It is announced that the kaiser will visit Madrid in April and elaborate fetes are being planned as evidence of this continued German-Spanish cordiality.

RECORD BROKEN AGAIN

DEMAND FOR KOOTENAY MINING STOCKS STILL GROWING

NEW DISCOVERIES AND IMPROVING CONDITIONS ARE TELLING

The local mining stock market continues active and the past week has been a record one. The main feature was the large amount of buying orders by local investors of Granby, Dominion Copper, Eureka Copper, Rambler-Cariboo, International Coal and Western Oil.

Eureka Copper was the leader. On the lower level of this property a new four foot vein of high grade copper ore was struck. This caused large buying orders from the men working at the mine.

Granby stock has been in good demand, making a new high mark, closing yesterday in New York at $13.50 bid and $14 asked.

Dominion Copper has also been very active. This stock has advanced over 13c. a share during the week, closing yesterday at 58 bid, and 61 asked. Rambler-Cariboo, on account of new ore bodies being found in the long tunnel, has again become very active.

International Coal became very active during the early part of the week, principally on account of large buying orders from Montreal, and has advanced over 6 cents since last week. Western Oil is also very active and local brokers say that they cannot commence to fill their orders. Nicola Coal is in good demand with very little of the stock being offered.

St. Eugene is slowly disappearing from circulation as the shares are being exchanged for the shares of the Canadian Consolidated Mines, and is holding very firm. Canadian Goldfields shares are in good demand. Sullivan, which has been very quiet for some time, became fairly active, most of the orders coming from East Kootenay.

Coeur d'Alene, Washington and Oregon stocks are also very active.

The following are the quotations for the week just ending:

	Bid	Asked
American Boy	$ .1	$ .1½
Arlington Mines	.3	.4
Canadian Goldfields	.7	.8
Cariboo-McKinney	.1½	.2
Centre Star	.40	.45
Diamond Vale Coal	.28	.33
Denero Mines	.8	.9
Dominion Copper	.58	.61
Elkhorn-Boundary	.30	.33
Forty-Nine Creek	.10	.13
Granby	13.50	14.00
International	.35	.37
Jumbo, Rossland	.25	.30
La Plata	.12	.15
Lightning Peak	.1	.2
Nicola Coal	.6	.8
North Star	.3	.4
Pathfinder	.3	.4
Rambler-Cariboo	.40	.41
Sullivan	.5	.6
St. Eugene	.90	1.00
Western Oil	.20	.23
White Bear	.2	.3

MARKETS AGAIN NORMAL

USUAL WEEK END DECLINE LIMITED TO ONE POINT

GRAIN AND PROVISION PRICES ARE FIRM AND RISING.

Today's session on the stock exchange was strongly indicative of the restoration of normal conditions. There was the usual week end decline in stocks, due to dealers' profit takings, which is always in evidence except during periods of uncertainty. The average decline was only one point.

On the grain and provision markets, however, prices continued to advance and maintained their gains till the close of the session.

STOCKS—Sugar opened at 138 1-8; Copper opened at 107 1-4, sold to 107 5-8, closed at 106 5-8; U.S.S. preferred opened at 106, closed 105 7-8; B.R.T. opened at 85, sold to 83 7-8, closed 84 3-4; St. Paul opened at 175 5-8, closed 175 3-8; U.P. opened at 152 3-4, sold to 153, closed 152 5-8; L. & N. opened at 151 7-8, sold to 152, closed at 151 3-4; Atchison opened at 93, sold to 92 1-2, closed 92 7-8; C.P.R. opened at 171, closed 170 3-8; Reading opened at 128 1-2, closed 128 1-8.

WHEAT—May wheat sold from 78 1-8 to 78 7-8, and closed firm at the high price for the day.

Reported by Sharp & Irvine, Nelson, March 17.

CURLING SCORES

Detailed Results in Local Grand Points Competition and winners

The scores of the Competitors in the local points competition are appended in full. The average of points actually scored by the 33 curlers who finished was a little over 16:

Name	P.	H.	T.
J A Turner	—	—	17
Irving	8	9	17
F. Deacon	16	6	22
P. McL. Forin	—	—	30
Wallace	—	—	17

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those snow-white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

The following letter should bring hope to suffering women. Mrs. Robert Glenn, of 434 Marie St., Ottawa, Ont., writes:

Dear Mrs. Pinkham:

"Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need my recommendation, but I am pleased to add it to the many which you have in its favor. I suffered untold agonies from serious female troubles for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound and I am only too pleased that I did so, for it restored me to perfect health, saving me the pain of an operation and the immense bills attending the same. Pray accept my hearty thanks and best wishes."

Just as surely as Mrs. Glenn was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure other women who suffer from female troubles, inflammation, kidney troubles, nervous excitability and nervous prostration.

Mrs. Pinkham invites all women who are ill to write her for free advice. She is a daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge Address, Lynn, Mass.

London, March 17—Silver, 30 1-16; lead, no quotations.

NELSON'S NEWS OF THE DAY

If you need money to "set in motion" some business plan—look for it through a want ad.

At the evening service in the Baptist church today Miss Rosalind Colling of Manchester, will sing as a solo Cowen's "The Voice of the Father."

The feature of yesterday's metal markets was the advance in silver, which gained seven points in New York, and nine in London. It is now quoted at 65 cents an ounce.

W. B. Poole returned last night from *Spokane and is at the Hume.* He has been engaged in organizing the company which will develop the Majestic mine in the Lardeau, and reports having met with every success.

Figuring on *making the weakest link* in the chain of your advertising this year as strong as was the strongest link last year, you can figure on your poorest business day this year being as good as your best one last year.

The church committee of the church of Mary Immaculate desire to return thanks on behalf of the congregation to the ladies and gentlemen who so kindly contributed to the success of the St. Patrick's concert, and to the general *public for* the liberal support accorded.

The executive committee of the 20,000 club wish it understood that the list of members published yesterday is by no means complete, containing only those names that were already in the treasurer's hands and arranged in alphabetical order. A supplementary list will be published shortly.

It seems likely that the Spring trophy, the first prize in the grand points competition of the annual bonspiel of the Kootenay Curling association, has been won by Kaslo. Mr. Harper of Rossland, joined the Kaslo rink during the bonspiel. His score in the points competition is 34, the highest yet reported.

A week from today the open season for fishing begins. John Macleod, district inspector of fisheries, will address a warning to fishermen during the week. The fisheries officials throughout the province are determined to make every effort to prevent the use of all illegal means of capturing or destroying fish, and will take proceedings against any suspected offenders. The use of dynamite in particular, Mr. Macleod says, will be severely punished.

G. O. Buchanan, lead bounty commissioner, *has been instructed* by the dominion department of trade and commerce to forward at once as many as possible of the final (40 per cent) claims for lead bounty to June 30th, 1906. Claimants who expect to have no further shipments during that *period are* requested to make their claims at once. The minister wishes to have them that his staff may deal with them during the months when departmental business is not heavy.

After a long period of inaction the Nelson Operatic society is again to prepare a treat for Nelson theatregoers. It is probable that an opera will be produced either in connection with the Dominion day celebration, or during the week of the N.P. A.A.O. regatta. A meeting of the executive committee of the society will be held in M. S. Parry's office tomorrow at 4 *p.m.*

INSUFFICIENT REASONS

Why a Russian of New York Killed His Wife

Cambridge, Mass., March 17—John Schidlofsky, a Russian, 28 years old, was today found guilty of murder in the first degree for having killed his wife on July 12 last because, as he explained, she had not as much money as he expected when he married her about a year ago. The woman's mutilated body was found on the Arlington golf links at Belmont by workmen on *July 13.* Her husband was arrested at La Junta, Colorado, after a sensational pursuit by the police.

GAGE'S HEALTH FAILS

New York, March 17—The Herald tomorrow will say: "It became known on Wall street yesterday that Lyman J. Gage, former secretary of the treasury, has decided to resign the presidency of the United States Trust company, to which position he was elected after his resignation from president McKinley's cabinet, a few years ago. *The cause of his resignation was* failing health. Mr. Gage was president of the First National bank of Chicago previous to entering president McKinley's cabinet as secretary of the treasury.

FELL DOWN THE SHAFT

New York, March 17—Thomas F. Donohue, chief clerk of the board of city examiners, who was formerly prominent as a newspaper writer, and in theatrical work fell down an elevator shaft in the hotel Knickerbocker tonight and was killed. Mr Donohue was about 40 years old.
