CORNELL WINNERS

Splendid Inter-Varsity 8-Oared Race on the Charles River

Cornell Out Rowed Harvard by Three Lengths -Contest Was Exciting From Start to Finish

Boston, May 25.—In a magnificent race, which was contested stubbornly throughout, Cornell 'Varsity eight-oared crew defeated Harvard 'Varsity eight, on the Charles river today, by three lengths. The event was a spendid exhibition by two carefully trained and finely balanced sets of oarsmen, especially in view of some adverse conditions, due to wind against the tide, and a bad swell left by pleasure boats which the police had failed to clear from the course.

Cornell's official time was 10 minutes 41 3-5 seconds, while Harvard's was 10 minutes and 52 seconds.

The 'varsity race was preceded by an eight-oared race between crews from the Cascadella preparatory school at Ithaca, N.Y., and the Stone preparatory school of this city, which the former crew won in 8 minutes, 15 1-5 seconds. The course was 1 5-16 miles, and Carscadilla won by two lengths.

Another event was the single scull contest, open to Harvard men competing for the Carroll cup, and this was won by T. E. Smith, or the law school, who took the Carroll trophy last year. The time was 8 minutes 17 1-5 seconds for the mile.

The 'varsity event was run off with the tide and against the wind. The crews were given a flying start, and both eights caught the water at practically the same moment. Both Harvard and Cornell showed skill in getting away, pulling a slow quarter stroke, then half, and then a three quarter stroke, until the boats were gotten steadily away. The crews held even until the quarter mile, but Cornell then forged slightly in the lead until she was a full length to the good. At this time both shells were moving easily without the slightest change and both were well spaced. At the half, when Cornell was rowing thirty to the minute, and Harvard two strokes faster, the Ithacans had increased their lead to one length. At this point both crews began to feel the rough water and the bothersome swell from the spectators' crafts.

Cornell throughout exhibited coach Courtney's slow, steady stroke, which, with the eight oarsmen working in perfect unison, induced the Cornell shell fairly to bound through the water. At the three quarter mile, the Ithacans were one and a quarter lengths ahead. They had done this with a stroke of 30, while Harvard was rowing 34. Gradually the gain was increased and at the mile Cornell led by a length and a half. After this Courtney's men began to spurt. The stroke was brought up to 34, at which it was held till the finish. Coxswain Blagden, of Harvard, took his cue from his Cornell competitors, and increased the crimson's stroke to 36. The Harvard eight responded manfully, though the Ithacans led by two and a half lengths at the mile and a half mark. Still the Cornell lead grew half a length before the finish.

Coach Courtney was much dissatisfied with the condition under which the race was rowed, and declared he would not approve of Cornell coming to Boston next year, where it seemed impossible to obtain a course free from pleasure craft. Mr. Courtney said he was satisfied with the showing his men had made and characterized the work of Harvard as "splendid," but he declared the conditions had afforded no satisfactory test of what either crew could do.

FATALITY AT PICNIC

Young Man Shot in the Eye and Killed Instantly.

London, Ont., May 25.—Norman Richman, about 18 years of age, was accidentally killed at a picnic held by the Hill street Methodist young people in Westminster yesterday. Richman in participating in some sport had occasion to remove a portion of his clothing, and while replacing it the accident occurred. One of his socks became entangled in the trigger of a rifle lying on the ground and while endeavoring to loosen it the weapon exploded, the ball striking him in the eye, killing him instantly.

NEW EXCITEMENT FOR WOMEN

Brokerage Office Opened in Chicago for Their Special Benefit.

Chicago, May 25.—Chicago women may gamble now in stocks and bonds just like a man.

A brokerage office for women has been opened in the Railway Exchange building.

If a little gambling in select circles is not only permissible, but attractive to women, reason one of the promoters of the new brokerage business, a taste of the frenzied life of the "street" should prove even more destructive of ennui.

Mabel Eaton Farnum, whose recently divorced husband was the Mahomet in "The Prince of India," is the presiding brokeress of the new establishment.

To teach the mysteries of stock, bonds, margins, "puts" and "calls" is not believed to be an easy matter by many members of the board of trade, and some declare it is not feasible.

Mrs. Eaton, however, is in love with her new idea and has supreme confidence that she can show her patrons how to bull or bear the market at pleasure. The firm name is Brando & Eaton.

BIG FIGHT CALLED OFF

RESULT OF SQUABBLE AT LAST MOMENT OVER WEIGHING-IN.

NELSON AND HERRERA DID NOT MEET LAST NIGHT

Los Angeles, May 25.—The Nelson-Herrera fight that was to have taken placue here tonight, fizzled out. There was a dispute over weights, Herrera refused to weigh in and Nelson quit the ring-side. Later Herrera agreed to weigh in, but Nolan said that Nelson had waited two hours for him to do so and that he was not prepared to go on with the fight, so it was announced to the crowd that the fight was off.

The articles of agreement called for the weighing in at 6 o'clock p.m. Both men were to scale 131 pounds. The men were on hand at the stipulated hour. There were scales there, but Herrera said they were out of order, and could not be adjusted. After half an hour's argument, Jacob sent Herrera to dinner, after that he refused to allow the Galacian to weigh. Nelson offered to go to the baths to weigh in, but Jacob declined. Following statement was made by Jacob: "I had Herrera at McCarey's office at a quarter to 6 o'clock. The scales were six or seven pounds off. We argued and squabbled until 6.15 and then I sent Herrera to eat. After that I would not consent to weigh. I claim the weight forfeit because I was on hand at the hour to weigh in and I also claim the appearance money, because I had my man in the ring at 9.30. I lived up to the articles, and I do not think we are to blame for the failure.

Nelson's manager said: "I had Nelson at McCarey's office at 6 o'clock. We found the scales out of order. I wanted to go to the baths and weigh, but Herrera refused. I then stated that I would claim weight forfeit and went back to the baths. Nelson came into the ring as you saw and made the proposition to fight at 140 pounds."

Manager McCarey, of the club, said: "Twice during the afternoon the scales were tested and found correct but at 6 o'clock, when they came to be used, they were 15 pounds off, and it was impossible to get the men to come to an agreement. I am very much disappointed over the fiasco, but I could do nothing to bring them together."

BOUNDARY MINE STARTS

THE BIG COPPER PROPERTY IS BEING DEVELOPED

OPTION AND BOND IS GIVEN TO BOSTON CAPITALISTS

(Special to The Daily News)

Phoenix, May 25.—This week a force of men was set to work on the Big Copper mine, located in Copper camp, three or four miles from the Mother Lode mine and about eight miles from Greenwood. A deal has just been made for the Big Copper, being an option and bond, with a cash payment down and the balance at the end of six months. None of those interested will state the amount of the bond, but it is understood to be above $100,000, the property being taken by Boston capitalists, who have started the initial phases of active development work this week. W. T. Smith, the Greenwood mining man, and J. C. Haas, M.E., of Spokane, took the bond for their principals.

The Big Copper is owned by John Moren, one quarter, S. W. McMichael, of Toronto, dominion customs inspector, one quarter, and the George B. McAulay estate, one half. It has long been noted for its tremendous copper showing, being an immense mountain of ore. In the last few years several attempts have been made to secure the property, but up to this time none of them have been successful.

Last winter nearly 600 tons of Big Copper ore were shipped to the British Columbia Copper Co.'s smelter at Greenwood for treatment, and it is unofficially understood that the returns gave in the neighborhood of $14 per ton in values. As the mine is located three miles or more from the Mother Lode spur of the C. P. R., the ore up to the present has been hauled on wagons to that point for transhipment to the smelter. The ore at the Big Copper is readily mined by the simple quarrying or glory hole system so that it can be takesn out and prepared for shipment with the greatest economy. William Hanna is in charge of the work now being done at the property.

CLEVELAND FIRE

The White City Wiped Out—Loss $150,000—Small Insurance

Cleveland, May 25—Fire today practically destroyed the amusement resort known as the White City, located a few miles east of here. Numerous buildings with their contents were wiped out. Several firemen were overcome by smoke but none were seriously injured. Loss $150,000 with small insurance.

GUILTY OF CONSPIRACY

Jury Took 30 Minutes to Convict Thomas and Taggart

Kansas City, May 25—George L. Thomas, a freight broker and L. D. Taggart, a clerk working for Thomas, today were found guilty in the United States circuit count of conspiraly with shippers to give rebates. The jury considered the case only 30 minutes. A motion for a new trial will be argued tomorrow and judge McPherson will not pronounce sentence until the motion for a new trial is disposed of.

George H. Crosby, freight traffic manager of the Burlington railroad, on trial on a charge of conspiring with Thomas to give rebates, was discharged early today by judge McPherson, the court sustaining a demurrer alleging that evidence had been produced to connect Crosby with the conspiracy.

HELD UP BY ANARCHISTS

WARSAW SAVINGS BANK SCENE OF PITCHED BATTLE.

CHIEF CLERK OPENS FIRE AND BRISK FUSILADE FOLLOWS

Warsaw, May 25.—A brief, but bloody, battle took place here at 12.30 this morning at the industrial savings bank which was attacked by a band of anarchists.

The latter, with revolvers in their hands, ordered the clerks and customers present to hold up their hands.

The chief clerk promptly drew a revolver and fired at the intruders. This was the signal for a brisk fusilade during which two of the customers were killed and two other customers, five clerks and one of the anarchists were wounded. The anarchists then escaped, carrying off their wounded.

IMPERIAL BANK

Annual Meeting Held in Toronto—New Directors Elected

Toronto, May 25—At the annual meeting of the Imperial bank, authority was given the directors to increase the capital stock from four to five million dollars and the board of directors was increased from eight to eleven members. Authority will be required from parliament to increase the capital, as the four million already authorized has been issued, the last million having been put out in June, 1905. No announcement was made as to the future rate of dividend but remarks of the president were taken to mean that no change should be expected. If the new capital is all put out in one issue at 209, it will be in the proportion of one new share to four old, and give rights at current prices worth $12 per share.

A bylaw was passed to enable the directors to pay a substantial salary to the president if Mr. Wilkie at any time considers it necessary to seek relief from the heavier duties of the general managership. But the passage of the bylaw does not contemplate any such change for some time, and was, in fact, precautionary. The Imperial bank stock was firmer on the Toronto exchange, indicating that any disappointment about the dividend rate was more than allayed by the prospects of rights.

Among the new directors are William Whyte of Winnipeg; Crawfird Mulock of Toronto, and Mr. Turner of Quebec.

WINNIPEG FRUIT MARKET

Quantity and Quality in Demand Encouraging for Kootenay Growers

Winnipeg, May 25—Strangers from the south often express surprise at the quantities and qualities of fruit offered on the Winnipeg market, but few even of our own citizens realize the immense quantities of fruit consumed in the city or distributed from it. During the six weeks ending May 15, Winnipeg received from the south 170 cars of fresh fruits and vegetables or just about four and a half cars for every working day of that period. Of these shipments of fruit 40 cars were filled with bananas, oranges filled the next largest number, and other cars were composed of lemons, pineapples, and tomatoes. When it is remembered that all this fruit, with the exception of bananas, pays duty, it gives some additional spur to westerners to fight any advance in the fruit tariff. So far no fruit has arrived from British Columbia. It was rather expected that they would be able to forward some tomatoes about the middle of May but no doubt the home market has been too keen to allow any of these to be shipped east for another month at least.

BOUNDARY ODDFELLOWS

Rebekah Lodge Organized at Phoenix—First Officers Elected

(Special to The Daily News)

Phoenix, May 25—Last night a lodge of Rebekahs was organized in Miners' union hall, to be known as Phoenix Rebekah lodge No. 17, I.O.O.F., the installing officer being Thomas Embleton of Rossland. Mr. Embleton was accompanied by a team from the Rossland Rebekahs including Mrs. J. H. Lee, Mrs. Jas. Twaddle and Mrs. R. T. Evans. The new lodge starts off under most favorable auspices, 32 members being initiated at its inception, after which supper was served and a number of addresses were made by local and visiting members. The following are the officers of the new lodge: N.G., Mrs. W. S. Cook; V.G., Mrs. I. Crawford; Rec. Sec., Walter S. Cook; Per. Sec., William Scarle; treasurer, Isaac Crawford.

TRAGEDY AT VICTORIA

Young Girl Alone in the House Fatally Burned Yesterday

Victoria, May 25—A young girl named McKay, residing with her parents at 222 Cook street, was fatally burned today. She was alone in the house at the time, and had apparently been cooking the stove when her clothing caught fire and when discovered the later were practically burned completely off. She was removed to the Jubilee hospital but expired later tonight.

CHINESE REFORMER TIRES

Wu Ting Fang Gives up His Efforts in Disgust—Left Pekin Yesterday

New York, May 25—A despatch from Pekin, to the Times today says: "Wu Ting Fang left Pekin today. He goes into retirement and after visiting the tombs of his ancestors will reside in Shanghai, that haven for wealthy Chinese seeking freedom from official interference. Wu retires discouraged by the outlook, seeing no prospect of reform in the judicial system as expressed by article 13 of the Mackay treaty of 1902, any more than of reform in the monetary system promised in the same treaty."

TIRED AFTER EMPIRE DAY

London, May 25—The head office of the Mutual Reserve Life Insurance company in London and all the company's agencies in this country did not open for business today.

MORE SETTLERS FOR CANADA

Quebec, May 25—The Canadian Pacific steamship Lake Erie with 1076 passengers, arrived at Quebec at 7:15 this morning.

DISORDER IN ALL QUARTERS

Reports From all Parts of Russia Contain Alarming News

Everywhere There is Rioting, Killing of Police and Threats of General Strike Unless Full Amnesty be Granted

St. Petersburg, May 25.—Premier Goremykin tomorrow will read before the lower house of parliament the government's response to the address in reply to the speech from the throne, and announce the government's policy.

The purpose of M. Goremykin's trip to Peterhof today, the Associated Press learns, was to read to emperor Nicholas the final draft of the cabinet's dec a a i n of policy and was not uconnected in any way with the rumored change in the ministry, which however, is possible at no distant day.

The emperor, at the last moment, advised a few changes in the declaration. These caused a hurried meeting of the cabinet at which alterations were drafted and inserted.

The position of the government on the amnesty and agrarian propositions will not satisfy the general cry.

A despatch to the Associated Press from Moscow tonight says that denial of full amnesty probably will be followed by a general strike. Similar news has been received from other industrial centres.

If today passes without a general amnesty or if only limited amnesty should be granted, a general strike is expected. Hundreds of persons are leaving the city, apprehensive of a recurrence of the scenes of last December or collision between the Black Hundreds and strikers. A strike has already begun in the suburbs of Bogodorsk.

On account of the festival of the ascension, a great multitude gathered today at the monastery of St. Nicholas, on Holy Lake, in the outskirts of Moscow. Workmen in the crowd attempted to organize a demonstration, whereupon Cossacks charged the crowd fiercely. Many innocent persons, including women and children, were ridden down and lashed by the Cossack's whips. Two persons were killed.

At another demonstration near the Spassky Gate, a policeman's skull was fractured.

St. Petersburg, May 25.—It was rumored in the lobbies of parliament this afternoon that premier Goremykin had resigned, and had been succeeded by M. Shipoff, of Moscow.

It was also reported that prince Urusoff, the former assistant of the minister of the interior, who resigned when the old council of the empire declined to accept his project to remove the race and religions limitations from the schools, and who has been elected to the lower house of parliament as a constitutional democrat from Kaluga, has been appointed minister of the interior.

Tiflis, May 25.—M. Lefvre, the principal engineer of the Caucasus railway shops here, was killed today. The crime is attributed to political motives.

The social democrats have been completely victorious in this city and in many districts of the Caucasus in the first degree elections for members of the lower house of parliament. In this city, the social democrats elected 72 out of 81 electors.

Grodo, May 25.—Sergeant of police Kosl was shot and killed in the open streets today, and assistant captain Shakilo was wounded. There is great feeling against the terrorists.

Warsaw, May 25.—Governor Jelinski, of Kielceisis, is suspected of the murder of a woman named Okoulina, who was found dead in a room with him yesterday. Two shots were heard by the neighbors. Jelinski declares that the woman committed suicide.

The local papers have been forbidden to mention the occurrence which has creasted a sensation.

Tula, Central Russia, May 25.—Prof. Radetzki, principal of the high school here, was killed in the streets today by a youth of 19. The crime was the outgrowth of attempts to suppress a revolutionary propaganda in the school. The murderer escaped.

Odessa, May 25.—A. Welland, a student of the electro-technical school was today condemned by a court martial to death by hanging. He was convicted of being a member of a band of terrorists and pillagers.

Perem, European Russia, May 25.—Governor of this province has requested the abrogation of the state of reinforced security in the province of Perem, tranquility generally has been des troyed.

Moscow, May 25.—During a meeting today of revolutionary workmen in a wood in the outskirts of Moscow two mebers of the secret policy were discovered among the attendants. A court was immediately organized, before which the men were tried and condemned to death. As soon as sentence had been passed upon the men, they were tied to trees and shot to death. Subsequently four suspected members of the summary court were arrested and upon theem were found proclamations inciting to an armed revolt on May 27.

A spirit of the gravest unrest prevails acmong the industrial population here, thousand of whom are without work and starving. There are frequent collisions between the troops and people.

Windau, Courland, May 25.—A large peasant proprietor named Kronberg, was killed today by a band of Lettish revolutionists.

Vitebsk, Russia, May 25.—M. Belkine, director of the Vitebsk tobacco factory, was killed today for political reasons. The assassins escaped.

Libau, May 25.—The police today discovered a store of 3100 revolver cartridges in this city.

Odessa, May 25.—The strike of sailors, stokers and stevedores, recently inaugurated here has become general. All the shipping companies are affected and not a single ship was able to leave port today.

LUNATIC TIES UP ROAD

A TRAIN DISPATCHER GETS OFF HIS MENTAL BALANCE

ALL TRAFFIC IS STOPPED UNTIL MANIAC IS CAPTURED

Chicago, May 25—A despatch to the Record-Herald from Huntington, Ind., says

An insane telegraph operator blocked the entire Wabash railway system in this state for half an hour yesterday by sending out unintelligible messages to train despatchers. All trains had to be stopped.

When chief operator Beauchamp went out to his luncheon he left Everett Kellman in charge of the keyboard which controls all the wires Having been recently overcome by the heat, Kellman, unknown to his employers, was in an irresponsible condition, and as soon as the room was vacated, he decided that the past methods of train dispatching were all wrong.

Smitten with the idea that it would be entertaining to the rural population to run all passenger trains on a freight schedule and vice versa, with a head on collision or two on every division to give the wrecking crews practice, he started out to put it into execution

Kellman sent message after message to the dispatchers, countermanding all standing orders. He requested all passenger trains to run backwards and to turn to the right at every crossing. He also desired all tracks cleared for a special train of 40 cabooses, which was running through the state at 140 miles an hour, carrying the president of the United States and his cabinet.

All attempts to break into his wire were fruitless, but at last one of the dispatchers grounded the wire and then notified all operators to hold the various passenger and freight trains until intelligible orders could be secured. When Beauchamp returned to find Kellman playing checkers on the keyboard, he realized that the man was defanged, and ordered him from the post. Kellman refused and it required three men to drag him away to jail.

Then all misunderstandings were cleared up and the wheels began to move again.

Kellman will be committed to the asylum.

ABANDONED AT SEA.

Allan Liner Picks Up Crew in Mid-Ocean—Details Wanting.

Montreal, May 25.—A telegram received in this city this evening from Fame Point, a signal station on the St. Lawrence, 320 miles below Quebec, says that station was in communication by wireless telegraph with the Allan line steamship Ionian, inward bound from Liverpool, and that the Ionian reported that she had on board the crew of the Norwegian, abandoned at sea. It was added that the derelict had been fired. Nothing more is known here of the identity of the vessel.

MANITOBA ARCHITECTS.

Organize An Association in Winnipeg—Fell Six Stories.

Winnipeg, May 25.—The architects of Manitoba organized an association here today.

M. Patrico, an Italian laborer, fell six stories this afternoon and was fatally injured.

HOLDS FIRST COURT.

Brilliant Scene at Buckingham Palace Last Night.

London, May 25.—King Edward and queen Alexandra held the first court of the season at Buckingham tonight. The prince and princess of Wales, and all members of the royal family now in London were present.

OBJECTIONABLE REBATE SYSTEM

National Life Manager Believes it Could be Stamped Out

Toronto, May 25—A. J. Ralston, managing director of the National Life insurance company, before the insurance commission today, said his company never lost an investment. Regarding the question of commission, Ralston said he believed it possible and desirable to conduct business by giving salaries instead of commissions. It would, he said, help to stamp out the rebate system.

DEATH OF MRS. J. H. POPE

Montreal, May 25—The death occurred at Eastview farm, Cookshire county, Quebec, on Wednesday morning of Mrs. John Henry Pope, relict of the late Hon. John Henry Pope, minister of railways in the administration of sir John A. Macdonald, and mother of Rufus H. Pope, ex-M.P. Mrs. Pope has been for the past ten years a confirmed invalid.

INTERNATIONAL TENNIS

London, May 25—With the addition of A. W. Gore, the team selected to defend the Dwight L. Davis international tennis challenge, is the same as the one which successfully held the international trophy last year against all comers. France, against whom the Americans are pitted in the first round, is represented by Decugis, Germot and five others. The first two played in behalf of France in 1905 and suffered badly at the hands of Wright and Ward, who, however, are likely to find the Frenchmen improved since they last met.

STANDARD OIL METHODS

EMPLOYS MEN TO DRIVE OUT INDEPENDENT DEALERS.

SWORN IN EVIDENCE OF FORMER EMPLOYEE OF COMPANY

Cleveland, May 25.—George L. Lane, an employee of the Sandard Oil company previous to the year 1901, testified before the inter-state commerce commission this afternoon, that his business for several years with the Standard Oil company was to drive out the independent dealers, to kill them off, and he was told that if he could not do the job somebody else would be sent to put the Standard's competitors out of business.

Lima, O., May 25.—It is announced tonight that the headquarters of the Standard Oil company here, one of the largest business points of that company, are to be moved to Casey, Ils. The manager today received orders to remove his entire force there by Sunday. No reason is given for the withdrawal from this city. The Illinois fields are operated by the Ohio company from here.

MOST DARING ATTEMPT

LIFE PRISONER AT KINGSTON TRIES TO ESCAPE.

FELL SIXTY FEET SUSTAINING SEVERE INJURIES.

Kingston, May 25.—A convict named McGee serving a life sentence, tried to escape from the penitentiary during last night. He has already spent many years in confinement. He cut his way through the rear wall of his cell and secured entrance into the conduit through which the pipes passed to the sewer. He crawled across the main building and near to the wall found entrance to a chimney which was in course of construction. He found a rope dangling and tried to crawl up, a distance of over 60 feet, getting up to the top when his strength failed and he fell to the bottom, breaking his leg and injuring his spine. His attempt to escape was one of the most daring ever made here. It is the third he has made. He is a very noted criminal and has spent several terms in prison, his last sentence being given for a diabolical attack on the wife of a guard.

THE WHITE METAL

Leadville, May 25—When silver touched 67 5-8 today there was a quiet smile of satisfaction among mine owners. The fact that for the past six months the price of the white metal has been slowly creeping upwards had the effect of preventing any sensational excitement. Th egeneral sentiment among mining men is that they prefer to see the price of silver staple rather than subject to violent fluctuations.

When Simon Guggenheim was in the city a few weeks ago he expressed his belief that silver would reach 75 cents. He added, however, that the United States treasury would have to enter the market as a buyer o produce this price. Many iron mines in the Leadville district have been resuming operations gradually now that it seems assured that the price of silver would hold up.

ENGLISH TORY UNSEATED

London, May 25.—After a prolonged investigation the election of M. H. Williamson, conservative and tariff reform member of the house of commons for Worcester, was declared void today by the election court, on the ground of bribery by the candidate's supporters.

RETURN OF OLYMPIC ATHLETES

New York, May25—The White Star liner Republic, having on board the American athletes who competed in the Olympic games at Athens, Greece, arrived in quarantine this morning. She had a case of smalpox on board and will be detained several hours. Hundreds of friends were on hand here to glev the athletes a rousing reception when the steamer docked.

BRAKEMAN CRUSHED TO DEATH

Toronto, May 25—W. Corlett, a Grand Trunk brakeman, was crushed to death at Blackwater Junction yesterday while uncoupling an engine from the train. He came to this country abou a year ago and was married at Lindsay last month.

NO MORE FAGS AT KINGSTON

Kingston, May 25—Fagging has been cut out at Royal Military college by order of the militia department and it is reported that in view of recent developments regarding hazing that ancient form has been abolished.

TERRIFIC THUNDERSTORM

Hoosick Falls, N.Y., May 25—The most terrific thunderstorm of the season passed over this section this afternoon doing much damage. Houses were unroofed, trees blown down, windows broken with hail stones and all fruit trees suffered severely.

AMATEUR GOLF CHAMPIONSHIP

Holyoke, Eng., May 25—The amateur golf championship tournament was concluded today with a victory for James Robb, who defeated C. C. Lenglen by four up and three to play in a 36 hole match.

WILL PROROGUE TODAY

Regina, May 25—The legislature is to be prorogued tomorrow morning and all members are working overtime tonight to clear up the business, and may sit until day light.

HONORS FOR JAPANESE CONSUL

Winnipeg, May 25—Hon. T. C. Nosse, consul general for Japan in Canada, who is at present in this city, will be the guest of the Canadian club at luncheon on Wednesday, May 30.

PAPER MAGNATE DEAD

Glen Falls, N.Y., May 25—Frederick P. Parks, first vice president of the International company, residing in New York, died here at his country home today.

WELCOMED TO MADRID

Princess Ena is Received With Enthusiasm in Spanish Capital

Enormous Crowds Greet Her on Arrival at the Pardo Palace. Escorted by King Alfonso, With Loud Accla m

Madrid, May 25.—The arrival of the future queen of Spain at the Pardo palace tonight was the occasion of a magnificent ovation.

At 6.30 o'clock the royal train reached the outskirts of the palace park. Here a special station had been prepared, consisting of a majestic floral arch beneath which was suspended a huge crowd of red roses and yellow jonquins. On either side of the arch was a mast bearing British and Spanish banners. Beyond this a monster arch, which had been erected by the people of the neighboring village of Majahonda.

It was dusk as king Alfonso and princess Ena entered the floral station. Awaiting them there was the queen mother, the Infanta Isabella Eulalia and Maria Theresa, prince Ferdinand, the members of the government and the officials of Madrid. The queen mother embraced her son and his prospective bride. The party then passed between lines of the halberdiers bearing pikes and entering carriages, took up the route to the palace.

Princess Ena, with her mother, princess Henry of Battenberg, and the queen mother, entered the first coaches, while king Alfonso, mounting his horse, galloped alongside, accompanied by princes Ferdinand and Carlos. Next came the royal horse guards in white gala uniforms.

Ladies of the Madrid nobility occupied boxes along the route, from which they strewed the path of the royal party with flowers. As the party passed princess Ena acknowledged the act with a wave of her handkerchief.

Enormous crowds of people had assembled outside the palace gates, the government giving the freest rein to popular curiosity. The passage of the royal party was greeted by tumultuous cheering and cries of "Long live the queen," "Long live the king," and "Long live Spain."

Court dignitaries presenting a striking appearance occupied the steps of the palace. After entering the palace king Alfonso directed that the public be admitted to the grounds. The public surged up the avenues, forming a dense throng immediately in front of the portico. The king appeared on the upper balcony holding princess Ena by the hand. The crowd stood with bared heads, too greatly impressed to cheer, but a deep wave of emotion swept over the crowd. Princess Ena, with a radiant smile, gave a characteristic English wave of her hand. King Alfonso and the princess appeared on the balcony three times and saluted the crowd. This demonstrative beginning has produced a marked impression on the publiu and all Madrid resounds with the praises of the princess.

The crowd surged outside the palace grounds for hours, acclaiming for the bride. Later king Alfonso returned to the royal palace, princess Ena remaining with her mother in the Pardo palace until the wedding.

THREE DAYS IN THE WOODS

Little Girl's Terrible Experience—Saved By Her Faithful Dog.

St. John, N. B., May 25.—Mamie Galivan, ten years old, missing from her home at Drury Cove since Monday last, returned yesterday. For three days and three nights she was wandering in the woods with no food, except some berries and water from brooks. Search was unavailing until yesterday when her dog guided her to a clearing where she collapsed. The dog stayed by her barking and attracted the attention of the child's brother, who was among the searchers. The girl is very much exhausted and is threatened with pneumonia.

CAPTAIN DEVEREUX DROWNED

Body of Aged Superintendent of Esquimalt Drydock Found by Indians.

Victoria, May 25.—The body of captain John Devereux, superintendent of the Esquimalt drydock, was found floating in that harbor today by Indians.

The captain, who was well up in years and latterly has become quite feeble, took a boat yesterday afternoon and went out for a sail by himself. This morning the boat was found drifting bottom up in the harbor, and this afternoon some Indians discovered the body in water close to the shore.

GABRIEL DUMONT DEAD.

Batoche, May 25.—Gabriel Dumont, rebel leader, was laid to rest here Monday near the scene of his defeat in the battle that crushed the Metis' uprising. His funeral was largely attended by half-breeds and Indians, who loved the daring, courageous and resourceful old man who had led them in the hunt a well as in the field. The cause of Dumont's death was apoplexy.

THE HUDSON'S BAY CO.

Spring Poems and

Maple Syrup

These are now in season, but whilst the product of the spring poet is usually flat and tasteless, the pure product of the

SUGAR MAPLE TREE

is healthy and deliciously toothsome. So much adulterated stuff is on the market now, that we feel proud to be in a position to offer

Pure Maple Syrup

COMPULSORY VOTING

The recommendation of the committee on election laws at Ottawa that a person failing to vote at an election in which he is entitled to vote shall be disqualified from voting for six years has naturally given rise to a great deal of comment in the press. The prevailing opinion appears to be that such an amendment to the election laws would not tend to minimise corruption to any appreciable extent, and might in some instances work grave injustice.

The Toronto Mail and Empire believes that compulsory voting would tend to increase the activity of the bribers and it further very pertinently asks, Are voters to be compelled to approve candidates they do not deem fit?

To quote: The fact that the compulsory clause would bring out the whole vote would tend to increase rather than lessen the activity of bribers. The larger the vote the greater the mass to be turned. Buying in blocks would probably be one of the adaptions made to this state of affairs. That would enhance the importance of the local "boss" or manger of groups. Bribing would not be put off till the day of election. Corrupt shepherds of mercenary flocks would be busy getting these into order for a solid vote on polling day.

A man who would sell his vote ought not to have one. Disqualification would not be an excessive penalty for the guilt of accepting a bribe. But that is a proposition far different from this one—that a man who does not cast his vote should lose it. In theory an elector may vote for any citizen who is eligible for the office to be filled. In practice he has no choice but to vote for one of two or three candidates. Whereas everybody is supposed to have the right to nominate, the majority always monopolizes that right, and the majority usually accepts the candidate the party organization puts forward. It might easily happen that many voters might deem none of the candidates in a given riding fit for the seat. Are such voters to be compelled to approve such candidates.

The Toronto World dismisses the subject with the remark: "This is virtue with a vengeance."

The Toronto News holds that compulsory voting would be an interference with the liberty of the subject and in some instances might work real injustice. the News says:

The proposal is that if any elector neglects or declines to vote he shall be disqualified from voting for a period of six years. In case he has been prevented by sickness or any other sufficient reason from going to the polls, he may obtain from any court of record a certificate of enfranchisement on satisfying the judge by means of affidavit. This aims at a real evil, the indifference of many electors to the privileges of citizenship. We are not sure, however, that such a law is advisable or even necessary. Certainly it interferes with the liberty of the subject, and in some cases it might work a real injustice. For instance, cases are not rare when a voter refuses to vote for his own party nominee for personal or other reasons, and cannot conscientiously vote for the other candidate. Of course this might be regarded by a judge as a "sufficient reason," but even so, the elector who faces such a dilemma should not be compelled to make affidavits in order to save his enfranchisement.

The Toronto Star does not see how compulsory voting will operate against corruption. "A few cases of corruption may be reached," the Star says, "but it is very doubtful whether abstention from voting is to any great extent a measure or indication of corruption. It may represent indifference to public duty, in which case it is hardly a punishment to compel the indifferent person to be indifferent for another six years. But very often it shows dissatisfaction with both candidates or both parties, and in this way is a most valuable indication of public opinion."

The Star remarks further that under the proposed law a dissatisfied voter might cast a blank ballot, "and a big pile of such blanks might convey, in a general way, the information that some thing was wrong. But it would not be known which candidate or which party was aimed at, nor who cast the blanks. The lesson would not be nearly as clear as that conveyed by the deep, though silent, disgust of John Smith, the stalwart liberal, or John Brown, the lifelong conservative, who declares by his abstention that he cannot vote against his party, and will not vote for it on this occasion."

The Winnipeg Free Press would like to see the experiment of compulsory voting tried, although it does not anticipate that any great improvement would result from the innovation.

The strongest argument against compulsory voting is that advanced by both the Mail and Empire, and Star: Why should men be compelled to vote for candidates with whose nomination they have had nothing to do and of whose fitness for office they may have a very poor opinion

It may be taken for granted that compulsory voting will no more purify elections than compulsory Sunday observance will fill the churches.

EDITORIAL NOTES.

For the ten months ending with April last the foreign trade of the dominion reached the splendid total of $435,742,955. What these figures mean is best indicated by comparison with the figures of Canada's foreign trade for the year ending June 30, 1896, which were $189,675,875. In ten years our foreign trade has more than doubled. When we consider that the settlement and development of the great west have merely just commenced, we can form some idea of what the foreign trade of the dominion will grow to in the coming decade. For as the west becomes settled up our exports of wheat, other agricultural products, and live stock will enormously expand. Already our exports are increasing more rapidly than our imports and the day is not far distant when the exports will be largely in excess of imports.

The definite announcement made by the minister of justice that the dominion government propose to amend the law creating the Railway Commission by placing the control of telephone companies within the powers of that important body will be received with general approval. By numerous legislative enactments the liberal government have materially strengthened the influence of the state in the conduct of the chief public utility services. The large measure of control now exercised by the Railway Commission over the transportation companies has resulted beneficially to the public, although the machinery of the commission is by no means perfect as yet. By placing power in the hands of the Railway Commission to regulate telephone companies the great grievance of the municipalities in regard to interference with the highways on the part of these companies should be satisfactorily adjusted.

NATAL SITUATION GRAVE

PROSPECT OF A GREAT ZULU WAR NOW IMMINENT

BAMBAATA STILL SUCCESSFULLY EVADES CAPTURE

Pretoria, South Africe, May 25—The garrison here has been ordered to prepare to take the field at once, and it is understood similar orders have been sent to every commandant of British troops in South Africa. The situation in Natal is growing more and more serious daily, and advices received from troops that are operating against Bambaata show that he is receiving reinforcements from nearly every tribe in Zululand. Arms and ammunition are also being sent to him and all efforts of the colonial authorities to put a stop to this traffic have proven futile.

Zulu spies are everywhere and are apparently able to keep the rebel leader posted as to the field plans, as no sooner is a trap set for the rebels than they escape from it, and they have also captured several convoys. That Bambaata has the advice of experienced fighters is known, but so far it has been impossibl to learn the identity of the two whites who accompany his column. They are believed to be Boers but the colonial authorities have been unable to secure any sort of information of them or description as to their identity.

The fact that the colonial troops have been unable to make any headway against the rebels and that the British regulars era to be called on indicates how serious the situation is. The authorities are hardly in a position to enter into a great Zulu war, and it is understood that an effort will be made to crush Bambaata within the next few days. All the regular troops that can be spared are to take the field against him, when the colonials will act with them, and will also try to prevent any other Zulu tribes reaching Bambaata until he can be crushed.

With Bambaata and his advisers killed or captured, the colonial authorities say tonight that they will be able to control the situation and prevent any general uprising. If Bambaata escapes again, or if he succeeds in defeating the forces now to be sent against him, then there will be nothing left for the colonial authorities to do but to put their forces on the defensive in Natal and await the arrival of troops now en route to South Africa.

COAL TRADE EXPANDING

General Manager Lindsey on Fuel Outlook in Crow's Nest Pass Mines

G. G. S. Lindsey, K.C., vice-president and general manager of the Crow's Nest Pass Coal company, who is in the city in connection with some legal business at the assizes, said yesterday to a reporter of The Daily News in answer to a question as to whether the Great Northern railway contemplated extending their line east to Michel from Fernie, "You have seen what Mr. Hill said at Winnipeg recently. That means that when he does build east of Fernie, he must go to Michel whatever the route from there may be. There is no other way of getting out of the Crow's Nest valley.

"We are increasing our output every day and by the end of the month will have a daily tonnage of 4000 tons. As our coal gets better known it displaces all others that freight hauls will permit of being replaced, when rating our coal at more than 50 per cent better than other western fuels.

"I state this on the authority of independent tests made by the Northern Pacific and Oregon railroad and Navigation company, as well as on our Canadian roads.

"We are pushing our mines just now at Michel, and they are quickly overtaking the Coal Creek output, we have opened three mines at this point lately.

"The coal situation in the east has played no part in the present increased demand for coal. The expansion of western business is alone responsible for this. I am satisfied that before long the coal business in the territory west of Winnipeg, including the Canadian Northern railway trade, will be done largely from our mines. The quality of our coal will determine this. We received the gold medal at the Portland fair in competition with all exhibitors of coal and coke. It will be remembered we received the bronze medal at the St. Louis exhibition and also the bronze medal at Paris, France.

"Yes; our coke business keeps on increasing very rapidly. We recently signed a contract for the next three years for the exclusive supply of the Trail smelter. The prices in the metal markets make smelting everywhere very active now and our foresight in providing ovens to burn the coke in enables us to meet all dmands and give a steady supply.

"Our domestic trade has been recently receiving more attention, since the new tipple at Coal Creek has been running and we find an expanding demand for our lump coal in every direction. Next winter we anticipate a very large trade of this kind."

MAY WORK THE GIANT

English Owner of Rossland Property Thinks Work May be Resumed

Stuart Cumberland who purchased the Giant mine on Red mountain has arrived in Rossland and inspected the property. The mine has been thoroughly examined by Ferdinand Dietsch, Mr. Cumberland's consulting engineer, and a great deal of information has been put together as to the value of the ore.

In discussing the situation at the Giant and the probable future of the mine, Mr. Cumberland said to a representative of the Rossland Miner in part:

"In my opinion, which is also the opinion of the consulting engineer, it would be almost a crime to send, as in the past, to send the ores to the smelter, and thereby lose entirely the valuable by products which the Giant ores contain. Since my stay here I have been made fully aware of the difficulties which up to now have surrounded the economic concentration of the general ore of the camp. But the Giant's shipping ore is entirely different from the other ores of Rossland.

"The values of the Giant consists of gold, molybdenum, cobalt and nickel, and in smelting such ores the molybdenum and cobalt, from their volatility, are lost in the chimney. The demand in Europe for molybdenum for the purposes of hardening steel is at the present time very large, but this demand cannot be satisfied, as outside of the Giant there are no known large and permanent quantities of molybdenite in the world. Until the supply can be furnished from this camp, the steel manufacturers in England and on the continent are using wolframite and chromium as they do not fel justified in erecting a plant required for using molybdenum until they are assured of a constant supply. The Giant has this constant and permanent supply in its ores. Indeed there is scarcely a month passes that I do not get letters from steel manufacturers and metal agents, who have been recommended to apply to me by the British Columbia ministers of mines. These steel manufacturers and metal agents are in the habit of applying to the ministers of mines of the various countries for information as to what properties in their jurisdiction contain the much sought metal. So far they have to be satisfied with the small quantities from Norway and the larger quantities from Australia, which however frequently contain too much sulphur to be of practical value.

"Admitting the molybdenum contents of the Giant, the difficulty hitherto has been in extracting them. This difficulty has been overcome by Mr. Dietsch, who has proved that he can save the molybdenum and cobalt contents, as he saves the tin and wolfram contents of the mines in Cornwall, which he and his associates control. Approximately, then, the value of the molybdenum in the Giant is worth $150 a ton, whilst cobalt is bringing over $2 a pound. The gold values of the Giant during the shipping period averaged $20 per ton."

INDIANS MUST ABSTAIN

Two, Who Imbibed, in Provincial Gaol—Hotelkeper Fined

As a result of the sale of liquor to Indians in Nelson two penitent aborigines are confined in the provincial gaol and one hotelkeeper has paid a fine of $50 and costs.

In the city police court yesterday morning N. Johnson of the Klondike hotel, and A. Nordenson, an employee at the Kootenay hotel, were charged with selling liquor to Indians, and Joe and Baptiste the Indians, were charged, the former with having liquor in his possession, the latter with being intoxicated.

The Indians pleaded guilty; Joe was sentenced to one month, and Baptiste to ten days' imprisonment in the provincial gaol.

Johnson pleaded guilty and was fined $50 and costs, which he paid.

Nordenson pleaded not guilty. He swore that he began work at 6 in the evening, that on Monday evening last the two Indians entered the bar and asked for liquor. They were already intoxicated. He refused them and ordered them out and they went.

Joe swore that Nordenson had sold him liquor; Baptiste was not sure.

N. Mallette swore that the Indians were intoxicated before 6 o'clock, when Nordenson came on duty and that they had obtained no liquor at the Kootenay hotel.

The case was dismissed.

ROSSLAND MINES

Looking for Rich Ore on the Jumbo—Drills Busy on the Velvet

M. R. Galusha, manager of the Jumbo, speaks enthusiastically of the "glory hole" that was recently discovered in the Jumbo says the Rossland Miner. Under two inches of soft stuff, a sort of capping, was found the ore. It is his intention to extend a drift and and to make a shaft under the glory hole, and quarry the ore. He thinks it possible that there are 40,000 tons in this deposit. The diamond drill is now constantly at work, and promises to show the location of some valuable ore shoots. The diamond drill is being operated on the second level.

News from the Velvet-Portland is that three machine drills are at work on the 300 foot level, and that a drift is being driven through the ore towards a main shoot, which was pierced some time since by a diamond drill. Some ore is being extracted and is being stored pending the time when the concentating mill is put in operation. About 20 men are employed at present.

Kiejiro Nakamura, who is making an inspection of the copper mines and copper smelters of the province in the interest of a leading Japanese mining company, is a guest at the hotel Allan.

IT IS DANGEROUS TO NEGLECT A COLD

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

Minard's Liniment Lumberman's Friend.

The cheapest thing is not always the which is lowest in price, but is that which gives the best satisfaction. Canada Drug & Book Co.

Whose label is on your bottle? If it is ours then you can bank on the drug quality. Canada Drug & Book Co.

Stratford, 4th Aug., 1893.

MESSRS. C. C. RICHARDS & CO.

Gentlemen—My neighbor's boy, 4 years old, fell into a tub of boiling water, and got scalded fearfully. A few days later his legs swelled to three times their natural size and broke out in running sores. His parents could get nothing to help him till I recommended MINARD'S LINIMENT, which, after using two bottles completely cured him, and I know of several other cases around here almost as remarkable, cured by the same Liniment and I can truly say I never handled a medicine which has had as good a sale or given such universal satisfaction.

M. HIBERT, General Merchant.

CASES AT THE ASSIZES

PECULIAR PLIGHT OF OFFICIAL LIQUIDATOR.

DEFENDANTS WIN IN LUMBER TRANSACTION.

At the assizes yesterday before Mr. justice Morrison the trial of Burr et al vs. the Arrowhead Lumber company and others, which commenced on Wednesday last was finally concluded by the dismissal of the plaintiffs' action with costs and withdrawal of the defendant company of their counter claim with costs to the plaintiffs.

An application made by W. A. Macdonald, K.C., before the regular work of the court commenced revealed a peculiar state of affairs connected with the properties owned by the Broken Hill Mining and Developing company near Ymir. Mr. Macdonald read an affidavit of his own reciting that Stephen Bywater, who had been appointed official liquidator on September 1, 1905, of the company's properties near Ymir under winding-up proceedings taken some time previously under chapter 129, revised statutes of Canada and amending acts, after duly giving security for the due performance of his duties, carried on mining and mill operations at the properties until a recent date.

Early in the month of April last Mr. Bywater, while still liquidator, left Ymir and went to Moab in the state of Washington, where he now resides practically abandoning the property, stopping all work, paying off the men, but leaving unsatisfied liabilities. Only a watchman has been in charge of the property since Stephen Bywater's departure and now he has announced that he proposes to take his departure leaving the property to look after itself.

Acting on behalf of a creditor Mr. Macdonald asked for the direction of the court as to the removal of Bywater as official liquidator and the appointment of some one in his place to take care of the company's property and go on with the winding up proceedings. Mr. Macdonald further showed that he had repeatedly written Bywater asking for some explanation of his conduct, the letters being addressed to Bywater at Moab, Washington, his last known address, but had received no reply. His lordship thought that one more attempt should be made to communicate with Mr. Bywater before removing him as official liquidator. Another letter giving notice of the application will be mailed to Bywater at Moab and the matter will come up again next week if his lordship is here, or in some other way if the business of the assizes is over and Mr. justice Morrison goes away before Monday next.

A start was made in the Elk Lumber company vs. the Crow's Nest Pass Coal company and Daniel V. Mott.

But before any evidence was taken it was arranged that the trial should commence this morning and the court adjourned at 5.20 p.m. until 10 o'clock today.

When the court proceedings proper commenced at 10.30 yesterday morning, Mr. Taylor for the plaintiffs, called the following witnesses, E. T. Grimsley, Eli Levisque, T. Pooley, J. J. Brury and James Paul, to support the contention that the firm of Burr and Bush had duly performed their logging and clearing work under the written contract until they had been prevented by the defendant company stepping in and seizing the plant, supplies, etc., and that the seizure was unlawful and without color of right, as well as excessive under any circumstances. Mr. Taylor then announced the case closed for the plaintiffs, and at 12 o'clock Mr. Macdonald promptly applied for a non-suit, maintaining that the plaintiffs had failed to make out a case on their own showing. After hearing counsel the learned judge refused the application and Mr. Macdonald went on with the defendants' side of the case, calling W. W. B. Armstrong, Andrew Edgar, Wm. Leonard, Robert Stevens and R. Gibbons. After the address of counsel his lordship ruled that according to the evidence there had been ample justification for the defendants taking the action they did in making the seizure and trying to get out of a contract which was plainly an improvident one and impossible of execution so far as Burr and Bush were concerned. The action would be dismissed with costs, and the defendants' counter claim for logs and damages, was allowed to be withdrawn with costs to the plaintiffs upon Mr. Macdonald's application. The action was rather a complicated one, but briefly the facts involved and the claims made were as follows: Burr and Bush were in partnership and entered into a verbal agreement, subsequently reduced to writing, with the Arrowhead Lumber company, to do logging and stream driving operations on the Salmon river. The written agreement was dated October 31, 1904. On November 11, 1904, pursuant to this written agreement and as security for their due performance of it, as well as for advances made them by the company for the purpose of carrying on their work, Burr and Bush executed a chattel mortgage on all their logging plant and supplies. On December 6, 1904, the company, claimed default under the terms of the chattel mortgage made a seizure of all the goods and chattels contained therein. The plaintiffs said the seizure was wrongful and without color of right, and in any event in excess of the amount claimed to be due. The plaintiffs claimed $440 for logs taken, $3128 for goods seized, $11,325 for special damages and $1000 for general damages, in all $15,893. The plaintiffs asked that an account of all the dealings be taken, that a receiver be appointed and for an injunction. The defendants in addition to denying the plaintiffs' claim, put in a counter claim asking for $4864 on account of sundry logs and $5000 general damages sustained owing to the refusal and neglect of the plaintiffs to carry out the original contract.

Some additional interest attached to the case owing to the fact that a very material winess in the person of the late William R. Beatty was perforce absent at the trial, he having met with a tragic death in the burning of the plant at Arrowhead, since the matters complained of by the plaintiffs took place.

Shortly after 5 o'clock the next case on the list was taken up, that of the Elk Lumber company vs. the Crow's Nest Pass Coal company and Daniel V. Mott, of Fernie. This is an action in which the plaintiff company asks for a declaration that they are the owners of a certain 100-acre block of land near Hosmer station, and for an order compelling the defendant company to convey the lands to the plaintiffs.

The plaintiffs claim that they purchased the lands in question under an agreement signed by William Fernie, land commissioner for the C. N. P. C. Co., the agreement calling for $100 an acre which sum the plaintiffs say, they tendered the coal company before action, and have since paid into court.

The Coal company deny the right of Wm. Fernie to make any binding contract such as is claimed and add that if any such sale was agreed to it was with the understanding that the contemplated purchasers would erect and operate a sawmill on the lands, which they refused to do. S. S. Taylor, K.C., and W. R. Ross, Fernie, appeared for the plaintiff, and J. A. Macdonald, K.C., and H. W. Herchmer, Fernie, for the defendants. An adjournment until 8 p.m. was considered but as Mr. Macdonald would be engaged during the evening it was finally decided to adjourn until 10 o'clock this morning.

The remaining case on the list of Marks vs. Marks, involving an interesting issue regarding the application of one of the terms in the will of the late A. J. Marks, may be disposed of before the court adjourns permanently, provided the papers in a commission sent to Michigan to take the evidence of one of the claimants there, reach here in time. They are expected to be in court this morning. If they do not arrive the assizes will probably close today.

ST. CHARLES CONDENSED CREAM

"You are independent of the milk man—you are independent of the ice man—if you constantly keep St. Charles Cream on hand. It needs only the addition of pure water to convert it into the best milk or cream you ever tasted, and it costs no more than the ordinary kind. And if you have an infant to feed, or an invalid, you simply must have St. Charles Cream. It is absolutely pure—it does not curdle. In using it, *you take no chances.*

Sold by best grocers everywhere.

Handsome booklet of valuable information to mothers and nurses sent free upon application.

Diamond Dyes

Will Dye any Article of Clothing From Feathers to Stockings

The Only Package Dyes That Make Fast and Unfading Colors

Feathers, ribbons, silk ties, dress silks, shirt waists, dress, costume, capes, jackets and shawls can be dyed at home with Diamond Dyes so that they will look new. Try a package of Diamond Dyes and see what a bright, beautiful, non-fading color it will make, with but little trouble.

Diamond dyes are the greatest money savers of the age, as many a woman with one or two ten cent packages of these dyes has dyed her old dress a lovely and fashionable color so as to save the expense of a new one. Partly worn clothing can be made over for the little ones, and by dyeing it with Diamond Dyes no one would recognize that the dresses and suits were not new.

Diamond Dyes are adapted to many uses besides simply dyeing old clothing. Diamond Dyes give new life and usefulness to curtains, furniture coverings, draperies, carpets, etc. Beware of imitation and common package dyes; ask for the "Diamond" and see that you get them.

Send to Wells & Richardson Co., Limited, Montreal, P.Q., for New Direction Book, Card of Dyed Samples and Verse Story, entitled, "The Longjohn's Trip to the Klondike." All sent free by mail.

On this day only you can buy a tin of Christie's Soda Biscuits for 30 cents at the Dollar Grocery, corner Hall and Baker Sts.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

DID YOU EVER FIGURE THE COST of a single day's baking—the material, fuel, time and labour—and consider that it is all wasted if the baking is a failure?

Results are usually satisfactory or otherwise according to the flour you use. Is it economy, then, to use a flour of uncertain quality when a few cents more will buy

Royal Household Flour

a flour that you can depend upon to produce light, crisp and wholesome bread or pastry?

Royal Household flour does not vary in quality—does not disappoint. It is made from selected hard wheat, milled by a most modern process which guarantees absolute purity. And purity in flour is a matter of the very greatest importance.

"Ogilvie's Book for a Cook"

contains 130 pages of excellent recipes, some never published before. Your grocer can tell you how to get it, FREE.

NELSON TEAM DEFEATED

TRAIL BASEBALL TEAM EVENS THE SCORE FOR SEASON

GAME LOOSE BUT FULL OF INCIDENT FOR SPECTATORS.

Trail turned the tables on Nelson at baseball, defeating the local team on their own grounds by the score of 10-6, and an innings to spare. Of the 16 runs only 4, 3 of Trail's and one of Nelson's were earned, the remainder being due to errors. Trail's runs were made in the 1st, 4th and 5th innings, Nelson's in the 5th and 9th. The home team was never in the lead, and never had any prospect of victory except in their half of the 5th.

The pitchers were about equally effective, but the Trail infield gave the better support in the field, and were decidedly stronger than their opponents at the bat.

The features of the game were a home run by Potter, a three-bagger by Harry Houston, and a double play of Wallace and Fuller.

At 2.30 a procession formed on Baker street, led by Charlie Walmsley, followed by the city band, the members of the two teams, and the small boys who were not in school.

After the grounds were reached there was a long delay for one of the Nelson players and it was 10 minutes past 3 before the game began.

The attendance was only fair, due probably to the fact that business men had already taken one holiday during the week.

G. P. Wells acted as umpire and gave general satisfaction, the only dispute being due to a special ground rule of which he had not been informed.

The teams lined up as follows:

Trail		Nelson
Agnew	catcher	Veley
Davis	pitcher	Samuels
Potter	1st base	Houston
King	2nd base	Fuller
Johnston	shortstop	A. Bishop
Cattanach	3rd base	Woods
Gould	left field	Wallace
Moore	centre field	Blanchard
Shields	right field	Jones

Nelson went first to bat, six batters faced Davis but no runs resulted, the innings ended with the bases full.

Trail was more fortunate. In their half of the innings, smart batting and ragged fielding by the home team netted them four runs. Their lead was never headed and only once reduced.

In the second, third and fourth innins Nelson had men on bases but succeeding batters failed to bring them home.

Trail looked dangerous again in their half of the second, with runners on first and second and only one out. A long low fly between left and centre looked safe, but Blanchard caught it and sent the ball to Fuller in time to cut off the runner.

In the fourth Trail got two men on bases by loose work of Nelson's infield. Potter hit to right field and before Blanchard could find the ball three men had crossed the plate. Before the innings closed an overthrow to first by Woods gave Trail another and the score was 8-0.

The fifth was an eventful innings. Harry Houston hit to left field for three bags, and scored on a safe one to right by Archie Bishop. Four more batters found the ball, and Trail's field went to pieces for the only time during the game. The result was five runs for Nelson, and hopes of victory revived.

But Trail also scored in the fifth. With three men on bases a grounder was hit to Woods, He threw low to first. The batter was safe and one man out, Houston returned to Veley to catch the next runner but the ball went high. Three more men crossed the plate. Then all members of both teams and their friends gathered round the umpire and talked, at last Mr. Wells gather out of the confusion that by a special ground rule only one base was allowed on a passed ball or an overthrow to home. Only two runs were allowed. The other runners returned to second and third and the innings ended without further scoring.

The sixth, seventh and eighth innings were unproductive for both teams. In the first half of the ninth after two men were out Woods got a base on balls, stole second and third and came home on a fumble by Cattanach. A fly to King ended the game.

For the Nelson team Houston, Bishop, Wallace and Blanchard did good work in the field. Blanchard gathered in three difficult flies.

The runs were made as follows: for Trail, Agnew (2), Davis (2), Potter (2), Cattanach (2), King and Gould; for Nelson, Woods (2), Houston, Fuller, Bishop and Jones.

Score by innings:

	1	2	3	4	5	6	7	8	9	
Nelson	0	0	0	0	5	0	0	0	1	—6
Trail	4	0	0	4	2	0	0	0	*	—10

NEW YORK TO BERMUDA

OCEAN YACHT RACE FOR LIPTON $1000 CUP

FOUR BOATS WILL START ON SEVEN DAYS' CRUISE TODAY

New York, May 25—Yachtsmen of this city and from various points along the coast are greatly interested in the ocean race for small boat, which will start from Gravesend bay tomorrow afternoon. The race which is held under the auspices of the Brooklyn yacht club, is to be from the club house of the club in Gravesend bay to Hamilton, Bermuda, a distance of 650 nautical miles and the winner of the race will carry off the magnificent $1000 cup donated by sir Thomas Lipton.

Under the rules of the race only cruisers measuring not more than 50 feet, extreme length, and of any style of rigging, are eligible for taking part in the race. Several craft were entered but T. F. Dey, the originator of the race, was compelled to ban all but four because they exceeded the size limit. The crews must all be amateurs and no professionals are allowed on the yachts in any capacity. Boats under 40 feet are permitted to carry six men and 40 gallons of water, besides provisions for 20 days, while those over 40 feet may have eight men and must carry 80 gallons of water and the necessary provisions for 20 days.

When the starting gun is fired tomorrow at 3 o'clock in the afternoon, four boats will start on their seven day cruise to the Bermudas. They will be the Lila, yawl, 40 feet long, owned by R. D. Floyd, B.Y.C.; Tamerlane, yawl, 38 feet long, owned by Frank Maier, B.Y.C.; the Bonnie Kate, sloop 44 feet long, owned by W. B. Goddard, B.Y.C.; and the Gauntlet, sloop, 28 feet long, owned by George W. Robinson, B.Y.C.

The Tamerlane was the winner of last summer's ocean race to Hampton roads and will be commanded by ex-commodore Frank Maier, the owner. T. F. Dey, who represents sir Thomas Lipton, and made all the arrangements for the race, will sail on the Tamerlane. Warren Sheppard, the marine artist, will be one of the crew.

The little Gauntlet, which with the Tamerlane, was built by Larry Huntington of New Rochelle, will be sailed by the owner, with a crew of four.

Bermuda, the destination of the four boats, is southeast of Sandy Hook, in latitude 32 degrees and 30 minutes north and longitude 65 degrees west. The racers will have to cross the Gulf Stream where it is about 70 miles wide. The prevailing winds in May and the first part of June are usually from southwest to southeast.

The finish of the race will be in the harbor at Hamilton Bermuda and the arrangements there will be in charge of the Royal Bermuda yacht club. The most complete arrangements have been made for the finish and the legislature of Bermuda has made provisions to make the entry of the racing boats free from all charges for pilotage, etc. During their stay in Hamilton the commanders and crews of the American boats will be the guests of the Royal Bermuda yacht club. The latter club has offered a valuable cup to the boat which wins the return race from Hamilton to Gravesend bay. The return race in which probably all four boats will take part, will start from Hamilton on June 9. The same rules which govern the race from Gravesend to Hamilton will also govern the return race. A number of New York and Brooklyn yachting enthusiasts started from here for Bermuda on the last steamer to be in Hamilton to see the finish of the race.

Minard's Liniment is used by Physicians.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

NEW ATLANTIC RECORD

New York, May 25—All records from Havre to New York were broken by the arrival here of the new Franch liner La Provence in six days, three hours and 36 minutes. Her time was better by 6 hours and 35 minutes than the best previous record.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that linament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica, or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

Try Again for Health Gin Pills Will Cure You

OR MONEY REFUNDED

If you have wasted money on doctors, and taken medicine after medicine, without relief, of course you are discouraged. But don't give up. There is one cure—certain and sure—that will make your kidneys well and strong.

Here is a letter from an old gentleman, 72 years of age, who had just your experience, but who was convinced that he owed it to himself to at least try GIN PILLS. Read what he says:—

The Bole Drug Co. Winnipeg, Man. Boissevain, Man.

Dear Sirs,

I am now 72 years of age. I have been ill for about six or seven years, and have been attended by different doctors, but I could get no help. I started taking —— Kidney Pills, and I have taken several odd boxes, and I found they helped me a little. This spring I started to take Gin Pills, and believe they have cured me. I cannot say too much about them, and recommend them as a good kidney pill.

(signed) WILLIAM CUMPSTONE.

Note that Mr. Cumpstone not only found quick relief, but "believe they have cured me."

Try just once more. Give GIN PILLS a fair trial. So sure are we that GIN PILLS are a positive cure for all Kidney troubles that we will let you test them free.

Send name and address, and tell in what paper you saw this offer and we will send you a sample box of GIN PILLS free of charge. Gin Pills are sold by all druggists at 50c a box, or 6 boxes for $2.50.

THE BOLE DRUG CO. - WINNIPEG MAN.

Cracker Charm

There is all the difference in the world between eating biscuits and biscuit eating. One may eat a biscuit and not taste it, but when you think of biscuit eating you think instantly of

Mooney's Perfection Cream Sodas

Crisp, delicious and tasty. Absolutely and distinctly superior to any other make. Say "Mooney's" to your grocer.

I Say, Ezra!

We've not been doin' the right thing in not giving more of our trade to THE WORKINGMAN'S STORE.

Sure, Cyanthy Ann! Well, you jist go down tomorrow and rig me out from the feet up. It will cheer the old man's heart you know.

"Plastic Form" Rain Coats

are the most economical garments in a man's wardrobe.

On wet days, they protect from neck to ankle—are rain and damp proof—light and porous.

When it's clear—they make the smartest of top coats for a chilly day or cool evening.

"Plastic Form" Rain Coats are cut with all the elegance of a full dress coat. Collars that snugly hug the neck—broad shoulders—loose and roomy about the waist—yet falling in graceful lines to the very hem.

They come in a wealth of rich effects—in grays, greens, tans, blacks and mixtures.

NON-RESIDENTS BARRED

CITY WILL NO LONGER TEACH PUPILS FROM OUTSIDE FREE

SCHOOLS CANNOT CHANGE TIME WITHOUT INCONVENIENCE

The provincial government through its education department, has declined to entertain the suggestion that the city of Nelson should receive any financial consideraion for the school facilities afforded to children who reside outside the city limits, and who therefore are wards of the province not of the city. The board of school trustees have therefore reluctantly decided that after the close of the present term such children shall not be admitted as pupils in the public schools of Nelson. The only available school for such children to attend is that of the Hume addition, to reach which many of them will have to walk across the city past the public school. The position seems anomalous, but in coming to their decision the board have only complied with the earnest request of the city council that expenditure shall be kept at the lowest figure compatible with the efficiency of the schools. The number of children who will be affected at once is about 30, more than half enough to fill a division and occupy the time of a teacher.

The proposal to change Nelson standard time by an hour by putting on the clocks is not approved by the school board, as it will entail on the schools serious inconveniences. But the trustees nevertheless agree to conform if the change is approved by a majority of the citizens.

The questions of increased school accommodation, and of reorganization of the work of the high school are under consideration, but no decision has yet been reached.

The postponed meeting of the board, which was called for last evening, was held yesterday afternoon instead, at 3 o'clock in the office of the secretary. There were present A. D. Emory, in the chair; R. J. Steel, and Dr. E. C. Arthur. The minutes of the last meeting were read and approved.

Three communications were received and acted upon.

A letter from city clerk Wasson communicating the resolution of the city council on the subject of changing the city time by advancing it an hour, and asking that it be endorsed by the board.

The members present had no objection to the change on general principles, but inquiry by the secretary had already discovered two serious difficulties.

Nearly one-fourth of all the pupils are children of parents whose working hours are determined directly or indirectly by the C. P. R. company. That company will not adopt the proposed change. The hours of meals, or rising and retiring of such children, and of any home duties they may have will continue to be regulated by C. P. R. time, and such children and their parents will be put to grave inconveniences if the proposed change is adopted.

Further, it has been stated by C. M. Fraser, principal of the high school, that if the change be made, artificial light will be required in the mornings, during at least two months of the year.

The secretary was instructed to reply to the letter of the city clerk stating the obstacles found and also expressing the general sympathy of the trustees individually, with the proposal.

A letter from A. Robinson, superintendent of education, acknowledged the receipt of a letter from the board asking that the department increase the grant to Nelson in consideration of the number of district pupils taught in the city schools. The reply was briefly that such request could not be entertained by the government.

Discussion over the communication was brief and pointed. However they might personally regret the inconvenience or hardship that might be inflicted on families resident near but not within the city, in having their children deprived of educational facilities, the trustees felt that they could not, as trustees of school affairs for the city of Nelson, risk increase of the cost of city school maintenance by undertaking work the responsibility for which lies with the provincial government.

A resolution was therefore adopted that after the close of the present school term no non-resident pupils should be admitted to the public schools of Nelson. The finance committee reported recommending the payment of salaries for May and of sundry small accounts, aggregating $42.05. The report was adopted.

The secretary presented a request from the board of directors of the library that the pupils of the public schools be granted a half holiday on one of the days of Kirmess, June 20, 21 or 22. It was resolved that if the school term ends on June 22 ,the afternoon of that day shall be a half holiday.

The question of extra school accommodation, which is considered certain to be required at the beginning of the fall term, was discussed informally, and left over for further consideration at the June meeting of the board.

Principal Fraser of the high school was present at the request of the trustees and discussed with them the possibility of reorganizing or restricting the curriculum of the school so as to lighten the work of the staff and permit a reduction to two teachers. No decision was taken. The only possible solution is to determine the adoption of either departmental or university work to the exclusion of the other. If such a course is found feasible it will probably be adopted. A decision will probably be made when the board next meets.

The board then adjourned to Friday, June 15th.

BONDED THE GLOUSTER

Dominion Copper Company Will Develop Property—Work on Diamond Hitch

(Special to The Daily News)

Grand Forks, May 25—Papers were signed today for the bonding of the Glouster group of copper properties in Glouster camp to the Dominion Copper company and while the exact amount of the bond has not been made public it is known to be in the neighborhood of $90,000. By the terms of the bond actual development work will start immediately and be kept up continuously going until the bond is lifted. Cash payments are to be made at stated intervals during the life of the bond. The Glouster properties are owned by Tom Newby, Lee Mercer and Howard Garndtt. The new owners will spare neither time nor money to make the Glouster property a shipping mine at an early date.

It is expected that the Diamond Hitch property will be added to the list of working properties this spring preparatory to shipping this fall. The Diamond Hitch is an exceptionally promising property having an immense showing of iron ore, showing good copper values. The property lies on Pathfinder mountain and is owned by a stock company of residents of this place.

MAKING GOOD RECORD

C. D. Goepel at Washington Trap Shooting Tournament— Coming to Nelson

Clarence Goepel is making a record at the annual trap shooting tournament of the state of Wsahington, which opened at Spokane on Thursday. His low record for the first day's shooting was 141 birds out of 160, or nearly 88 per cent. His lowest score in any event was 11 out of 15. He made several straight 15's. In the big event of the day, 25 birds, with distance handicaps he won second place with 23; a Seattle expert leading with 24 birds.

He told the Spokane sportsmen of the trap shooting tournament arranged by the Nelson gun club for July 2 and 3, and 15 immediately promised to come to Nelson and compete.

As many cracks from other parts of Kootenay have already promised to be present the shoot should be even more successful than last year's.

TRAIL LEAD RECEIPTS

Detailed Returns for Last Month at the Trail Smelter

The lead ore receipts at the Trail smelter, operated by the Consolidated Mining & Smelting company of Canada, Limited, for the month of April are appended in detail, given in pounds.

Minard's Liniment Lumberman's Friend.

MUST HAVE A 20,000 CLUB.

Port Arthur, Ont., May 25.—This town is growing at a remarkable rate, the population having trebled within four years. It is now 10,216, an increase of 3400 over a year ago. The assessment totals $6,500,000. A city charter will be applied for.

CONTROL OF TELEPHONES

FITZPATRICK DEFINITELY OUTLINES GOVERNMENT POLICY

RAILWAY COMMISSION TO HAVE LARGE MEASURE OF CONTROL

(Special to The Daily News)

Ottawa, May 25.—The commons' railway committee this morning passed the Bell Telephone company's application for leave to add $40,000,000 more to its capital. The municipalities again opposed the application, and unless the Bell people surrender the right to go on the public streets without permission will continue to fight it.

Fitzpatrick said this point should be dealt with in the general act. The government had a bill prepared to give the Railway Commission control of telephone rates and exchange businesses. The government recognized that municipalities must have control over the streets.

"I am authorized," Mr. Fitzpatrick said, "to go one step further and to provide that in so far as municipalities are concerned we shall deal with companies in this way. That systems already in existence will continue as today. If municipalities desire a change in the present system as created by parliament then municipalities will have to go before the Railway Commission. For future extensions by new or existing companies in cities, towns and villages, the companies will have to go before the Railway Commission, if they get permission from the local authorities.

An increase of twenty million, making thirty million in all, was granted the company and the bill reported.

Minard's Liniment is used by Physicians.

FUNERAL OF IBSEN.

Christiania, May 25.—The funeral of the late Henrik Ibsen will take place on Thursday, May 31.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

P. O. Box 1 Nelson, B.C.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 14th, 1905.

NELSON, B. C.

FRUIT AND FARM LANDS For Sale In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have on my list many choice locations.

5 acre lot 2 miles from the city Price $250.00

80 acres two miles from Nelson on wagon road. Price $2000.

70 acres at Beasley Siding at $7.50 per acre.

10 acre lot partly cleared. River front. Price $60 an acre.

Ground Floor Prices

8000 Acres of Selected Land on my list.

20 acre lots below Slocan Junction.

Improved farm of 100 acres. Price $7500.

Several choice locations on Slocan river.

Nine small blocks at Creston.

Ten good locations on Columbia river.

Six blocks on the Arrow lakes.

I can give you choice, selected

On Kootenay Lake
On Kootenay River
On Slocan River
On Arrow Lakes
On Columbia River

In Fire Valley and Creston

Districts, and several partly improved farms. Wild land suitable for stock ranges. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

I have a fruit farm of my own located on the Kootenay river on which I have 1500 fruit trees, some of these are bearing. This is not for sale, but I have had experience in selecting lands, clearing lands, planting and pruning trees and I am prepared to make reports on land as to the location and desirability for fruit culture.

Emory & Walley

The Hub

PRICE OF METALS.

New York, May 25—Bar silver, 67 3-8; casting copper, 18 1-8; electrolytic copper, 18 3-8 to 18 5-8; lead, $5.75.

London, May 25—Silver, 31 3-16; lead, £16 16s. 3d.

NELSON'S NEWS OF THE DAY

Born at Fairview on May 25, to the wife of Max McSweyn, a son.

Why "half advertise" what you really want when a few lines in the classified column of The Daily News will fully advertise it.

Queen City Rebekah lodge degree team will meet this evening at 8 o'clock sharp for practice. A full attendance is particularly requested

On account of other engagements of several members of the competing crews, the semi-final races of the spring regatta have been postponed until Monday evening.

The reaction in the price of silver continued yesterday, the metal falling two points on the London market and three in New York. Lead advanced three points in London and is now £16 16s. 3d.

C. W. Young, provincial constable, who was sent north to assist in capturing the C.P.R. train robbers near Kamloops, and who lost his three valuable bloodhounds in the woods, returned to the city last evening with his dogs, he having eventually recovered all three of them.

R. J. Ward of the Roscius opera company was in the city last night, and arranged with manager Horstead for the appearance of the company in the Nelson opera house on June 5 and 6 in Martha and Fra Diavolo. A new member of company who is sure of a hearty welcome in Nelson is Miss Winnifred Crowley of Rossland.

A visitor to Nelson, who attended the baseball match yesterday severely criticized the arrangements. He thinks the crowd should be strictly excluded from the field of play by a fence if necessary, that the teams should wear distinctive uniforms, and that any change in the score should be promptly communicated to the grand stand by means of a blackboard. Many Nelsonites will agree with him on all points.

A meeting is caled for tonight at 8 o'clock in the fire hall in the interests of lacrosse. A strong effort will be made to organize a senior team and revive interest in Nelson in Canada's national game It is conceded that there are only enough old players left to form a nucleus for the team and that junior and intermediate players must be found to fill the gap. All who are interested in the sport are invited to the meeting tonight.

The provincial police are puzzled over the disappearance of a painter named L. Meistad, an Icelander, who has been missing since last Saturday. The man was engaged as a painter on the C.P.R. steamer Kuskanook up to May 19 when he left off work, complaining of feeling ill and started from the shipyards to consult Dr. G. A. B. Hall. He never reached the doctor and has not been heard of since. He did not get his time when he quit work and has not asked for his wages since. The police authorities will be glad to get some word of him

One of the excursionists on the Kokanee on the trip down from Kaslo on the 24th, will appear before stipendiary magistrate Crease this morning to answer to a charge of assaulting a Chinaman on the steamer.

A. C. Garde, manager of the Argenta mine, came down from the Lardeau last night. Work at the mine, he says, is going ahead very satisfactorily, and machinery for the 10 drill compressor plant is arriving and being installed.

Max Heberlein leaves this morning for New York. His work in connection with the installations at the Hall Mines smelter is finished. The installation is not completed but the plans are definite and the work so far advanced that his presence is no longer necessary.

R. Gilman Brown, consulting engineer of the Ymir Gold Mines, arrived last night and will soon proceed to the mine, to examine, confer with manager E. M. Hand and report to the directors in London. Mr. Brown's arrival has been delayed for several weeks. He was burned out in San Francisco He is accompanied by Mrs. Brown, and they are at the Strathcona.

FORMER C.P.R. AGENT AT CHICAGO

In Jail Waiting Bail and Now Indicted on Five Forgery Charges

New York, May 25—Five indictments, charging forgery in the first degree were returned today against George F. Wenham of Chicago and Miss Clay Lawrence by the grand jury The indictments are based upon an alleged attempt of Miss Lawrence to impersonate Mrs. Wenham for the purpose of transferring to New York $100,000 worth of the latter's Chicago property. This property was said to be intended for Wenham's use in securing bail. He has been in jail here for several weeks for lack of bail on charges preferred by the Canadian Pacific railway company, of which he was formerly the Chicago steamship agent.

WANT PRESTON DISMISSED

London, Ont., May 25—The labor educational association of Ontario held their fourth annual convention here yesterday with 70 degelates in attendance. A resolution asking the government to dismiss W. T. R. Preston on the ground of conspiracy against the interests of labor was unanimously passed. Another resolution was adopted condemning the contract labor system at Central prison.

A. E. Starr of Woodstock, was elected president.

STEAMER ARRIVALS

New York, May 25—La Provence, Havre; Pennsylvania, Hamburg.

Dover, May 25—Pretoria, New York.
