## ANTHRACITE SITUATION

### Operators are Stubbornly Refusing to Accede to Demands

#### First Conference in New York Adjourned to Thursday Without Coming to Any Agreement as to Resumption

New York, April 3.—The sub-committee representing the anthracite operators and the mine workers of eastern Pennsylvania, held their first joint meeting here today and after nearly a three hours session adjourned until 1 p.m. Thursday, without coming to an agreement. Each side to the controversy has refused to make the slightest concession and the whole question is apparently as far from solution as it was before today's conference began. In the meantime the tie-up of the anthracite industry remains as complete as it was yesterday, without indication that a resumption of mining will occur very soon. Notwithstanding the first session and the apparently hopeless dealing between the workmen and their employers, rumors are still current that a way will be found which will enable the operators and miners to stand on common ground and settle their differences.

After the conference this statement was given out by a representative of the operators: The conference began at noon with president E. B. Thomas, of the Lehigh company in the chair. Mr. Mitchell made a long speech detailing why, in his judgment, the original demands of the miners ought to be granted. He was followed by Mr. Nicholls, president of the Lackawanna district of the miners' union, who supported Mr. Mitchell's argument. There were other speeches by the representatives of the miners and in fact that side did nearly all the talking. "There was no disposition on either side to recede from its original demands. Mr. Mitchell's attitude indicated that the counter proposal made by the operators for a renewal of the working agreement, drafted by the anthracite strike commission was not acceptable to the miners. On motion of Mr. Mitchell the conference adjourned until Thursday. The entire situation remains the same as before the meeting and the suspension of work in the anthracite mines will continue pending the negotiations."

After the conference no one could be found who would discuss the session. There was a full atendance of the members of the sub-committees which are made up as follows:

Operators—Geo. F. Baer, president of the Reading Co., chairman; W. H. Truesdale, president of the Delaware, Lackawanna & Western railway; E. B. Thomas, president of the Lehigh Valley railroad; Morris Williams, president of the Pennsylvania railroads mining companies; D. Wilcox, president of the Delaware & Hudson company; J. B. Kerr, vice-president and general counsel of the New York, Ontario & Western railroad and J. L. Cake, representing the individual operators.

Miners—John Mitchell, chairman; T. D. Nichols, president, and J. P. Dempsey, secretary of district No. 1 of the Miners' union; W. H. Dettrey, president, and J. P. Gallagher, secretary of district No. 7, and John Fahy, president, with George Hartley, secretary, of district No. 9.

Newspaper men had made a request that they be permitted to attend the conference, but it was refused. Nevertheless, details of the meeting, aside from those contained in the statement, were obtained. Mr. Mitchell's argument, it was learned, was along practically the same lines as that contained in his letter to Mr. Baer some time ago. He said the men felt they were entitled to more pay and the betterment of certain conditions, and he himself believed they were justified in asking that the situation be improved. The operators did not make a formal reply to Mr. Michell's remarks, but frequently plied the miners' leader and Mr. Nicholls with questions.

The Shamokin scale committee, which numbers 36 men, and which was appointed last November, held a session tonight. The sub-committee which had been in conference with the operators, made its report, after which president Michell read this letter from governor Pennypacker of Pennsylvania:

"Dear Sir,—The commonwealth of Pennsylvania expects that every reasonable effort will be made by the parties interested to accommodate the differences between the coal operators and coal miners, and to avert the strike which is now threatened." Mr. Mitchell stated that he had notified governor Pennypacker that he would communicate the contents of the letter to the committee.

President Mitchell said that all talk of concessions on the part of the mine workers was purely speculative. President Baer said that arbitration had not been suggested at the session.

Reports received from the anthracite fields during the day, according to the labor leaders, were satisfactory to them. There were no breaks in the ranks of the mine workers and none are expected.

President Mitchell received another large number of telegrams today from the bituminous districts of the union. He declares that affairs in the soft coal sections are working themselves out just as he had expected they would. All his information, he says, was of a favorable character, thousands of men have returned to the mines at the increased pay and he expected to hear during the day that many more soft coal companies have agreed to the 1903 scale.

Pittsburg, April 3.—The expected general resumption of work at the mines in this district where the scales were signed yesterday did not take place today. Only a few plants were represented as in full operation and many were idle. Yesterday's holiday is said by the operators to be largely responsible for the small forces at work. All the independent plants were shut down and no effort was made to operate them.

Chicago, April 3.—Nearly 300 coal operators of Illinois were represented at a meeting of their organization here today called to consider the strike situation. Without exception it was decided to stand firm in resisting the demands of the miners.

Pittsburg, April 3.—With the exception of one or two points outside of the Pittsburg district, the strained situation between operators and miners in the soft coal fields of western Pennsylvania is hourly growing more pacific. The mines of the operators who signed the scale resumed their operations today although in many instances with reduced forces. In the Pittsburg district there were 18,000 miners working and 12,000 were idle. Nearly all of the mines of the Pittsburg Coal company were in operation. The cause of the idleness of the men today was explained to be due to their failure to receive word of the signing of the scale.

Columbus, April 3.—The executive board of the Ohio mine workers organization today decided to permit the miners to sign contracts with any operators who are willing to pay the 1903 scale.

## TO SOLVE THE PROBLEM

DELAYED MACHINERY MAY YET BE INSTALLED.

VISIT TO POWER PLANT SITE AND ITS RESULT

There is now some probability that the Allis-Chalmers-Bullock company may come to reasonable terms with the city in the matter of the contract for the supply of hydraulic machinery for the city power plant. That the explanation offered to the council on Monday night was no explanation, and not entitled to any consideration, was practically conceded yesterday by the representatives of the company in Nelson, including W. F. Uhl, the special representative from the company's headquarters in Milwaukee. Correspondence by wire was conducted last night between Mr. Uhl and the heads of the company, and it is expected that some definite proposal will be laid before the council at its meeting this morning.

As arranged on Monday night, mayor Gillett, W. F. Uhl, E. C. Reeder and J. O. Gillice took the 10.40 train for Miles Ferry yesterday morning. City engineer McCulloch had gone out by an earlier train.

After arriving at the plant and making a brief inspection Mr. Uhl expressed the opinion that the site was not excelled by any other that he knew of and was also loud in his praises of the design and construction of the work for the plant.

After studying the situation Mr. Uhl admitted that he had under-estimated the cost of providing for installation of the machinery during the high water stage of the river.

A conference was then held informally and without prejudice to either party. It was finally agreed between Mr. Uhl and the city engineer that a permanent system of stop logs need not be considered but that a temporary water proof structure should be placed in the tail race to permit of the installation of the hydraulic machinery as soon as it arrives. They also agreed in estimating the cost of such a structure at $200.

As to the question of who should bear the cost, and other financial questions raised by the delay of the machinery, Mr. Uhl said he had no definite instructions and could not commit his company. Finally in reply to mayor Gillett's earnest representations of the city's rights and requirements, and his plain intimation that a definite answer must be available before any new agreement or modification of the original agreement could be considered, Mr. Uhl agreed to communicate with his company at once, lay the whole situation before them, and obtain a definite reply to the mayor's requests.

In the course of conversation Mr. Uhl admitted that the city was not at fault in any particular, and that the responsibility for the delay rested wholly with the company.

Pressed further by the mayor Mr. Uhl also told, in confidence, who it was that informed the company that the city would not be in a position to receive the machinery at the time specified in the contract.

Mayor Gillett authorizes the statement that the informant was not a resident of Nelson and was not in any way connected with the West Kootenay Power & Light company.

With the exception of the city engineer the party returned to Nelson by the delayed train from Rossland which reached the city shortly before 6 p.m. It is expected that a final agreement on the matters in dispute may be reached at the meeting of the council this morning.

On one point, however, a definite understanding has already been arrived at and that is that it will be possible to install the machinery, once it arrives here, by the construction of a temporary stop-wall, the cost of which will be about $200.

MONTREAL NEWS.

New Georgian Bay Line—Killed by Falling Water Tank.

Montreal, April 3.—The Ross Harris company, a new and powerful company formed recently in Montreal for railroad contracting purposes, has contracted with the C. P. R. for a section between Parry Sound and Byng inlet, of the new Toronto-Georgian bay line, designed to give the C. P. R. independent and direct connection between Toronto and its main line west. The distance is over 50 miles and the country to be traversed is of the utmost difficulty, heavy rock cuttings being the chief characteristic.

A large water tank on the roof of the building occupied by Messrs. Bovin & Wilson, importers of liquors and spirits, collapsed at noon today killing Miss Louisa Ross, an employee and flooding the building from top to bottom as well as St. Paul street. The tank held ten thousand gallons of water, for fire protection purposes. The support of the tank had been placed on a wall which had loosened owing to the tearing down of the building adjoining.

RAISE MINERS' WAGES

Done Voluntarily By Rossland Mining Managers.

Rossland, April 3.—Members of the Rossland Miners' union state today that the wages of shovellers in the mines have been advanced from $2.50 to $2.75 a day voluntarily by all of the mines of the camp. It was found difficult to retain shovellers in the mines at $2.50 a day for as soon as they became proficient in shovelling and learned how to take care of themselves in the mines, they left for other mining sections. The result was that shovellers had to be constantly broken in. One result of this was that only the poorer class of men remained and the union men say that it was determined to raise the standard by voluntarily raising the wages from $2.50 to $2.75 a day. The union men are much pleased with the raise and express satisfaction with it.

PRINCE IS DELIGHTED.

Spent a Day in the Mountains And Will Shoot Again This Morning.

Castle Mountain, Alta., April 3.—Prince Arthur of Connaught and party left Field this morning at 7.30. At the foot of Castle Mountain two miles west of the station of that name the train stopped and the prince, captain Wyndham, and Mr. Lampson, started on a hunt for mountain sheep. Indians from the Stoney tribe at Morley acted as guides. The party travelled up the mountain trail about three miles. They secured one sheep which fell to Mr. Lampson's rifle. The prince, although not successful in bringing down the big game of the mountains, was so pleased with the sport that he will make another attempt at Sawbuck mountain tomorrow morning.

HOT CROSS FIRING.

Debate on the Address in the Saskatchewan House.

Regina, April 3.—The debate on the address in the legislative assembly began today and was characterized by bitterness on both sides of the house, even supassing usual party cross firing. Dr. Neely, of Humbolt, moved the address in a brief speech, and was followed by Sheppard, of Moosejaw. Ex-premier Haultain, as leader of the opposition, criticized the address very caustically and at considerable length, dealing particularly with the school law and the Prince Albert election. Premier Scott replied in a vigorous speech returning Mr. Haultain's personal implications to the amusement of the galleries. The government supporters outnumbered the opposition two to one.

WINNIPEG TRAM STRIKE.

No Settlement Yet Reached But Negotiations Continue.

Winnipeg, April 3.—Negotiations toward a settlement of the street railway strike are still in progress, but neither side will discuss the situation while the truce is effective.

McMILLIAN COMES WEST

Winnipeg, April 3.—A. L. McMillan, managing director of the Le Roi mine, is here en route west. He states that the property recently paid a dividend of one and one-quarter per cent, this being the first return to shareholders in seven years and the first ever paid out of bona fide profits.

FELL SEVENTY FEET

Madoc, Ont., April 3—Peter Jarvis of Deliar's Bridge, was killed at the American Mining company's Mundle mine, near Bannockburn yesterday afternoon. Five men were being brought up the shaft in a bucket and when near the top the cable caught on something, tipping the bucket over sideways. Jarvis and another workman named Presick of Cordova, fell out, the former dropping 70 feet to the bottom of the shaft and receiving injuries which caused his death a few minutes later. Presick escaped. Jarvis leaves a widow and one child.

STEAMSHIP ARRIVALS

New York, April 3—Kron Prinz Wilhelm, Southampton.
Liverpool, April 3—Cymric, Boston.
Dover, April 3—Zeeland, New York.
Havre, April 3—Hudson, New York.

## REFORM IN ELECTIONS

### Sheriffs and Registrars to Act as Returning Officers

#### Kootenay and Arrowhead Railway Bill Passed by Committee--No Reduction of Chinese Poll Tax Contemplated

(Special to The Daily News)

Ottawa, April 3.—Ralph Smith asked the premier in the house today, if there was any truth in the report that the Grand Trunk Pacific were asking a reduction of the poll tax from $500 to $50 in order to get in Chinese to build the western section. Sir Wilfrid Laurier said there was not a shadow of truth in the reports that they had made any such application.

The cabinet has accepted the offer of the British government to transfer the Halifax dockyard to the Canadian government. British warships will get the use of the dock as heretofore.

In committee today W. A. Galliher's bill respecting the Kootenay and Arrowhead Railway company was adopted. This is for an extension of the time.

Hon. H. R. Emmerson read protests from the Revelstoke and Trout Lake boards of trade against the bill unless the work was proceeded with. This referred to the section from Arrowhead to Trout Lake. The committee allowed three years to begin the line and five to complete.

At the special election committee today it was decided that the clerk of the crown in chancery could only be removed by an order of both houses of parliament. It was also decided that in all cases sheriffs, registrars and similar officials should be made returning officers.

COMPLETE VICTORY

Mayor Gillett yesterday received a telegram from city solicitor W. A. Macdonald, who is attending the sittings of the full court at Vancouver stating that the court had allowed to the city all the costs in the action of the West Kootenay Power & Light company against the city, including the costs of obtaining the fresh evidence tendered by the city and eventually heard by the court.

This makes the victory for the city over the W. K. P. & L. Co., complete.

DEMOCRATS WINNING

Witte Will Hold on to the Premiership Nevertheless

St. Petersburg, April 4—The official canvass of the voters in the election on Monday had not been completed at midnight, but it is conceded that the radical tide has swept to victory every one of the 160 constitutional democrats. The constitutional democrats naturally are jubilant and are now looking forward to a working majority in the national parliament.

The Russkoe Gossdarstvo, premier Witte's newspaper, declares that count Witte will hold on to the premiership until the convocation of the parliament, and that his resignation then will depend upon the attitude of the czar.

NEWS OF MANILA

More Troops Wanted to Complete the Late Lesson

Manila, April 3—Two companies of federal troops have arrived at Magtaona, on the island of Samar, to assist the governor general in suppressing the unruly natives. Governor general Ide and members of the Philippine commission have departed from Baguio, in the province of Benguela, Luzon, where the summer capital of the government is located. They will remain during the hot season. Before leaving governor Ide gave a dinner to captain Shigamura, in command of the Japanese cruisers now in port, and his staff officers.

MORE CENSORSHIP

St. Petersburg, April 3—The Russ, owned by Alexis A. Souvarin, which was suspended yesterday, has appeared once more under the name Molvabmolka (Fame.) The police confiscated the Polar Star, a weekly paper published by Peter Struve, former editor of the Osvobojdenie (Emancipation) who was summoned to St. Petersburg from Paris, where he was in exile, by count Witte in November last, and who was a strong upholder of the liberal policy.

THE NATAL AFFAIR

London, April 3—The Natal affair has been the subject of stronger party recriminations than any question that has come to the surface in recent years. Newspaper attacks continue on both sides, conservative organs flinging charges of "Little Englandism" against the government and liberal papers attributing the trouble to the desire of the Chamberlain party to discredit the government.

MYSTERY CLEARED UP

Port Arthur, Ont., April 3—George Wood, a deserter from the British army, disappeared from near here about a year ago and all efforts to trace him were futile. The mystery has now been cleared up by the receipt of news of his death in England.

LAKE NAVIGATION

Duluth, April 3—It will be April 15th before boats can pass through the connecting waters of lake Superior and lake Huron, according to the reports issued tonight. The ferry between the Canadian and American Saults went into commission on March 25 last year, and will go into commission tomorrow this season. The ice in the St. Mary's river is becoming honeycombed, but it is 16 inches thick in Mud lake. There is a solid field of ice from Whitefish down to the Sault at the lower end of lake Superior. There is no great amount of drift ice at the western end of lake superior.

BOUNDARY NEWS.

Work on Humming Bird and Pathfinder Mines—License Laws.

(Special to The Daily News)

Grand Forks, April 3.—The management of the Humming Bird property yesterday started a force at work to develop the claim and it is understood the force will be increased very shortly. The Humming Bird is located some nine miles up the north fork and is owned by Jules Erhlich and others.

The Pathfinder mine, recently bonded by the Granby company for $110,000, has now 21 men at work, and two machine drills. The monthly pay roll at present is about $2500.

By a recent order of the city license commissioners, the bars in hotels and saloons are allowed to remain open all night as heretofore. A former order of the present administration required all bar rooms to be closed after 11.30 p.m. The order requiring the closing of all bars on Sunday is still imperative.

The Hardy Bros, ranchers, who have been operating several lime kilns as a side issue, have just completed the building of an other large kiln which gives them a total daily capacity of 50 barrels.

Charles Brown of the Boundary Iron Works, is contemplating the immediate building of a $2500 residence on Winnipeg avenue. Mr. Brown's present home is in the direct line of the proposed right of way of the Kettle Valley railway through the city.

Smith Curtis has been here for the last few days and has secured n option on some well known properties in this district, the particulars of which cannot be made public for some days yet.

SECOND HAGUE CONFERENCE

Russia Submits its Program to the United States

Washington, April 3.—The Russian program for the second Hague conference, as communicated to the United States provides that all political questions shall be excluded from the conference and makes the following provisions:

Amelioration of provisions of the convention concerning the settlement of international controversies as far as the court of arbitration and the investigation committees are concerned. Additions to the laws and usages of land warfare among others opening hostilities, rights of neutrals on land, declarations of 1899, and renewal of them. Compilation of a code regarding the laws and usages of naval warfare, relating to the special operation of naval warfare, such as bombardment of forts by naval forces, location of torpedoes, change of merchant vessels into warships, private property of belligerents at sea, time allowed merchant vessels to leave neutral or hostile ports after the beginning of hostilities, rights and duties of neutrals at sea, and among others, the question of contraband rules to which belligerent vessels must submit in neutral vessels. Into this code would be inserted provisions concerning land warfare which would apply to naval fights of the principles of the Geneva convention held in 1864.

PROGRESSING FAVORABLY

Much Attention Drawn to Nelson by the Twenty Thousand Club

At the meeting of the executive of the 20,000 club last night it was evident by the numerous letters of enquiry from advertising agents, newspapers, members and the public generally, that Nelson is being pretty widely advertised in a steady and persistent manner which tells far more than spasmodic efforts taken up today and abandoned tomorrow.

There were present F. M. Black, president, F. M. Chadbourn, secretary, W. W. Beer, W. T. Oliver, J. L. Buchan, S. A. Kelly, T. G. Procter, W. H. Jones, Le B. de Veber, E. W. Widdowson and Jonas Coxhead.

Reports of the special committees appointed to collect $100 or more from the banks, real estate brokers, hotels, professional men and merchants, each as a class, were then heard. The real estate men had raised $100, the retail and wholesalers, that is, the merchants, nearly that amount, the banks about half and the other committees for hotels and professional men, were not represented. Progress was reported, the work of the committees not being finished, except that of the real estate men.

Numerous communications were received asking for information as to fishing, shooting and scenery from the advertising agents of the various railroads. Others made suggestions of more or less merit which were referred to the committees concerned.

Some communications from newspapers, including the Week of Victoria and the Pacific Northwest, were laid on the table.

The popularity contest showed 750 to the good so far, with many more tickets sold which have not been returned. Other funds raised the cash balance to $402.

F. M. Black then brought up the question of the alteration of their schedule by the C.P.R. Before the question is to be taken up, the sense of the meeting was that the C.P.R. be asked as to its intentions in order that the future printing of the 20,000 club be accurate. The secretary was so instructed.

THE LORDS AND THE JEWS.

London, April 4.—Replying to a question in the house of lords today whether the government intended to lay on the table of the house and consular or other official reports concerning the recent outrages on Jews in Russia which it may have received, lord Fitzmaurice, under secretary for foreign affairs, said that to do so might be regarded as an illegitimate interference in matters with which Great Britain had no concern. The archbishop of Canterbury endorsed the government's attitude.

DINED BY ROOSEVELT

Washington, April 3—President Roosevelt gave a dinner at the White House tonight in honor of the governor general of Canada and countess Grey and party. The visitors will remain in the c ity for several days and will be entertained by the British ambassador and lady Durand and other friends.

At the dinner tonight the table decorations were Briday and Golden Gate roses. Those invited to meet the distinguished visitors included the British ambassador and lady Durand, secretary of state and Mrs. Root, speaker Cannon and representative and Mrs. Longworth.

## HIGH GRADE FINANCING

HOW PHILLIPS SECURED TEN THOUSAND DOLLARS

YORK LOAN INVESTIGATION STILL PROCEEDING

Toronto, April 3—That stock in the Toronto Life company was held largely by employees in the York County Loan and Savings Co., was the fact elicited by the crown attorney in yesterday's investigation into the conspiracy charge against Joseph Phillips. Mr. Curry went through the big books of the transfers and almost without exception the stock holders admitted were connected with the York County Laon. The names of four ladies are mentioned as being stockholders.

Regarding salaries it was shown that Miss L. Hudson received from the York County Loan a salary of $25 a week and in additios was paid $10 weekly by the Liszt Piano company and $5 per week by the National Monthly. Miss Hudson was examined as to a check for $10,050 which had been drawn on account of the National Monthly. It was drawn in the name of Miss Hudson, but she could not account for it, further than that she may have endorsed it. About this time Phillips had drawn a loan of similar amount from the York County Loan, and a like amount had been deposited to the account of the National Monthly. Next day it was withdrawn and apparently went to pay £2909 worth of bonds in the Canadian Northern, guaranteed by the Manitoba government.

At the adjournment Phillips was taken back to the jail in a cab.

Arthur O'Meara, a barrister of this city, has accepted the offer of bishop Stringer of the diocese of Selkirk to become a missionary in the southern part of the Yukon and also to help generally in the work of the diocese. Mr. O'Meara leaves for Skagway in May. He will be ordained by the bishop of Selkirk on April 29.

Three special trains with 2500 settlers for the west, left the Union station this afternoon. Included in this number was aparty of 37 public school teachers, 26 of whom were ladies. All are en route to Saskatchewan, where they have obtained schools at double their late salaries.

Rve. Dr. Carman, general superintendent of the Methodist church of Canada, left here yesterday for Japan. He sails from Vancouver on April 9.

The Globe has purchased a site on Queen street east for its new office building and publishing house. The purchase price was $130,000.

ATTACK COAL COMPANIES

French Deputies Do Not Follow Example of New World

Paris, April 3—In the chamber of deputies today, M. Basly, president of the Miners' Federation, who is deputy for the department of the Pas de Calais, in which the Courrieres mine disaster occurred, questioned the government regarding the catastrophe, and in so doing attacked the coal companies. He declared that the fire which caused the explosion, and which resulted in the loss of over 1200 lives, originated in a heap of rubbish which had accumulated, owing to the company's negligence. He stated that there were miners still alive in the mine and accused the companies of erecting five barricades which prevented the work of salvage. M. Lasies, another deputy, asserted that the companies were more interested in saving the mine than the miners. M. Barthou, the minister of public works, announced that the government would rigorously investigate this disaster.

WANT A SNOWSTORM.

Edmonton, Alta., April 3.—Seeding operations are general all over northern Alberta today and in the Saskatchewan valley from the boundary line of Saskatchewan to the limit of the settlement in the west. The crop is going in rapidly and under favorable conditions. Some sections report that the long spell of dry hot weather has made the ground rather dry, but this is a matter that may be remedied safely enough when the rains come. A good snowstorm at this particular season would help wonderfully in some parts, but in others it is thought hardly necessary.

BOUNDARY CUSTOMS RECEIPTS.

(Special to The Daily News)

Grand Forks, April 3.—The following are the customs receipts for the month of March as received by R. R. Gilpin, chief collector at Grand Forks:

| | |
|---|---|
| Grand Forks | $3,234.27 |
| Phoenix | 2,193.66 |
| Greenwood | 2,170.57 |
| Midway | 1,036.05 |
| Osoyoos | 164.69 |
| Sidley | 78.89 |
| Cascade | 58.38 |
| Keremeos | 29.15 |
| Total | $9,058.96 |

REPUBLICAN WAVE

Kansas City, April 3—The republican ticket, headed by Henry M. Beardsley, former mayor, was elected here today. Mr. Beardsley's majority over Robert L. Gregory, democrat, is estimated at 1200.

Milwaukee, April 3 — At 10:30 tonight mayor David S. Rose, democrat, concedes his defeat by Sherburn M. Becker, republican, by a plurality estimated at 1000.

BIG FIRE AT UTICA

Utica, April 3—The large four storey manufactory, owned by Foster Bros., was destroyed by fire this morning. The loss is placed at $350,000, but it is insured for $240,000. The company employed in this city about 250 men and did a business here of $600,000 a year. There are branches of the establishment in Montreal, Toronto and Winnipeg. There were ready for shipment about 11,000 brass and iron bedsteads and several carloads of spring matrasses, some of which were on sidings near the factory and were destroyed. The plant will be built as soon as possible.

WRECK ON GRAND TRUNK

Welland, Ont., April 3—Engineer Gayhart was injured and fireman Berry was killed in a freight wreck on the Grand Trunk at Port Robinson early today. The engine and rolling stock were somewhat damaged.

## RESULT OF CONFERENCE

### Sultan of Morocco Must Submit to a Needed Reform

#### Terms of the Agreement Will be Ratified by Sultan and Go Into Effect at the Close of the Present Year

Algeciras, April 3.—The protocol of the conference on Moroccan reforms contains 123 sections.

The opening paragraph sets forth the desire of the powers to assure the peace and prosperity of Morocco by reforms without violating the three principles of the sovereignty of the sultan, the integrity of his dominions and of commercial equality, at the same time pointing out the method for procuring the resources necessary to the carrying out of the reforms proposed.

Details follow relative to the delegates' decisions concerning the organization of the police, the repression of contraband traffic in arms, the establishment of a state bank, the creation of fresh revenues and the control of customs and public works. The signatory powers undertake to introduce legislation ratifying the engagements of the delegates.

Final ratification of the protocol will take place not later than December 13 of this year at Madrid. Meanwhile the Moroccan delegates having declared their inability to sign without referring the questions involved to the sultan, the signatory powers reciprocally engage to endeavor to obtain the sultan's integral adhesion to the reforms outlined in order to make them simultaneously operative.

The sultan's consent will be communicated to the powers through Spain, and will be to the effect of a full ratification of the conferences in the convention. The reforms will be effective December 31, 1906.

Existing treaties between Morocco and the various powers will retain their validity, but, in the event of conflict between treaties and the conference protocol, the latter will take precedence.

The text of the resolution on behalf of the Jews in Morocco introduced yesterday by ambassador White, head of the American mission at the conference on Moroccan reforms, sets forth that the sultan is disposed to accord the Jews equity but his functionaries do not always sufficiently share the sovereign's tolerance and justice. Continuing the resolution says: "The American delegation, therefore, records its sentiment in favor of the sultan's continuing his tolerant attitude and that he instruct his functionaries that all his subjects, without distinction of belief, be treated with equity and justice." the resolution, which was supported by the duke of Almadovar, head of the Spanish mission, was accorded unanimous and cordial support, including that of the Moorish delegates.

Washington, April 3.—The American state department has received a cablegram from ambassador White at Algeciras stating that the British delegates had requested the abolition of slavery.

Paris, April 3.—The cabinet has authorized M. Revoir and M. Regnault, the French delegates to the Algeciras conference, to sign the Moroccan protocol and has congratulated the French representatives on behalf of the French government or the successful conclusion of their work at Algeciras.

ASK FOR TREATY RIGHTS

Russia Still Unwilling to Diminish Chinese Railway Guards

St. Petersburg, April 3—No confirmation has been received of the report published by the Russkoe Slovo in a despatch yesterday from Harbin, Manchuria, that hostilities between the Russian and Chinese troops were imminent. At the foreign office it was said that negotiations between Russia and China over Manchurian affairs are not progressing satisfactorily. The Chinese are asking for a dimunition of the railroad guards along the Manchurian railroad, but Russia is resisting the latter demands.

AMBIGUOUS VOTE

Chicago to Own its own Trams but not to Operate Them

Chicago, April 3—Under the result of the city election held today, in which the question of municipal ownership of street railways was the vital issue, the city of Chicago can proceed to acquire control of the railways, but cannot operate them. At the same time the voters, while declaring that the city shall not proceed to operate the railroads, declared that as a question of public policy, it would be desirable for the city to do so.

BURNED TO DEATH

Wallaceburg, Ont., April 3—Fire early today destroyed the dwelling occupied by Robert McLean. Thomas Coulter, who was sleeping in one of the upper rooms was burned to death. Coulter, who was intoxicated last night, had to be helped home. People sleeping were awakened by sparks falling from the ceiling on their beds. The flames then had such headway that it was impossible to save Coulter.

KILLED ON TOUR

London, April 3—News has been received here that Thomas Reid, M.A., a son of James Reid, formerly of this city, has been murdered near Heidelburg, Germany. Robbery was the motive.

THE W. F. M. ON TRIAL.

Elsewhere in this issue we publish an open letter signed jointly by the secretaries of the Phoenix branches of the Western Federation of Miners and of the Industrial Workers of the World.

The letter deals with a recent editorial in this paper on the arrest of leading officials of the W. F. M. upon charges of a very serious nature. Our Phoenix correspondents are, of course, *entitled to take whatever view they like* of the attitude of The Daily News on this subject, but we must say frankly that we think their disposition to jump to hasty conclusions on the one hand, and to insist that newspapers should judge the case in favor either of the mine operators or the W. F. M. before the trial, on the other, is not a course calculated to secure for them and their leaders that fair and unbiassed consideration on the part of the public we have held to be their due.

We must confess that we cannot at present accept the assurance of our Phoenix correspondents that the recent crimes in Colorado and Idaho, with which the officials of the W. F. M. stand charged, were instigated by the mine owners and the governors of those states with any greater degree of confidence than we can the statements appearing in certain American newspapers that there is no shadow of doubt of the guilt of Moyer, Haywood, Pettibone, et al.

We are still old-fashioned enough to believe in waiting to hear the evidence before coming to a conclusion as to the guilt or innocence of accused parties.

In the light of the "Standard Oil" disclosures, and other similar criminal undertakings for the enrichment of a few monopolists, it is possible to conceive that there is some foundation in fact for the suggestion that the mine operators of Colorado and Idaho are banded together in a fiendish conspiracy to wreck the Western Federation of Miners and to "railroad to the gallows" some of its chief officials. Whilst such a condition of affairs may be conceivable we should hesitate to form any conclusion in the matter until the evidence is adduced in court and subjected to the most thorough-going test.

In the same manner we decline to form any conclusion as to the guilt of the Western Federation officials until the alleged evidence of their complicity in the Colorado and Idaho crimes has been properly adduced. What our Phoenix correspondents apparently desire is that The Daily News should affirm its belief either in the guilt of Moyer, Haywood, Pettibone, et al., or in the counter allegation that these crimes were instigated by the mine operators and governors of these states. This is a postion The Daily News cannot assume.

Crimes were committed in Colorado and Idaho; several men in various walks of life were foully murdered, valuable mine property was destroyed. Some one committed these crimes. It is alleged that these crimes were instigated by officials of the Western Federation of Miners and certain of these officials are now waiting trial upon this charge. On the other hand friends of the Western Federation officials declare that these men are the victims of a conspiracy, that the crimes in question were really instigated by the mine operators and the governors of the states of Colorado and Idaho. We look to the forthcoming trial to place the blame where it *rightly belongs*. We assume that the Western Federation officials will be given a fair trial and that they will be given every opportunity to substantiate the charges they and their friends, in turn, make against their accusers. It is suggested that these men will not be given a fair trial. We hesitate to accept such a suggestion. The whole American people is interested in this trial and we do not for one moment believe that the American people would tolerate the railroading of prominent labor leaders to the gallows.

Our Phoenix correspondents further suggest that the attitude of The Daily News is possibly influenced by a desire to see the Canadian branches of the W. F. M. divorced from the parent organization.

If we could feel assured that the real interests of the workers would not be jeopardized we should on several grounds favor the inauguration of purely Canadian industrial organizations, but so far our investigations have not convinced us *on this point* and we still feel that international organization lends a strength to Canadian trades unionism that it could probably ill-afford to lose at present and probably for some years to come. Holding these views, The Daily News has heretofore deprecated the idea of the establishment of a purely Canadian metalliferous miners' trade union. But we have to face the fact of the possibility of the American end of the Western Federation of Miners, through its chief officials, being found guilty of criminal acts, and in that event separation must ensue, for the Canadian people would not tolerate the continuance of existing conditions.

It was because of this situation that we took occasion to comment upon Canada's interest in the forthcoming trial and to urge our readers not to prejudge the case.

We should regret very much if occasion should arise to necessitate the putting into effect of the recommendations made by the Royal Commission, referred to by our correspondents, but if that occasion should arise, as it certainly will if the Western Federation of Miners fail to establish to the satisfaction of all fair-minded men that the criminal methods now charged against them are absolutely foundationless, we should certainly demand that the dominion government take steps to carry out the recommendations of the Royal Commission, in so far as that organization is concerned, and in this demand we should be upheld by the overwhelming majority of trades unionists throughout the province, including the members of the Canadian branches of the Western Federation of Miners.

Whilst excellent work has been done in advertising the attractions of Kootenay, we believe that there is still room for improvement. Attention has been directed again and again to the scenic charms of certain main routes of travel, such as the Arrow and Kootenay lakes, but nothing like due publicity has been given to the numerous delightful resorts off the main travelled routes and yet easy of access from Nelson, Kaslo, Sandon and other Kootenay points. In the vicinity of Nelson, for instance, *there are a score of beauty spots that* would delight every lover of nature in her wildest and grandest forms. Many of our readers are familiar with these spots, such as the caves at Ainsworth, the Kitchener glacier, Woodberry creek, and we invite them to write to us about them. We want correspondence from all parts of Kootenay and we hope in this way to secure material that will facilitate the preparation of a really exhaustive description of the tourist attractions of this greatly favored section of the province. We want to be able to place before that large class of well to do people who spend several weeks every summer out-of-doors a program that will fill every moment they *can spare. A program that will ensure* the commercial success of a string of tourist hotels and of a score or more of chalets.

OPEN LETTER FROM PHOENIX

Endorsed by Local Unions of W. F. M. *And Industrial Workers of the World*

Editor, The Daily News: The enclosed open letter was read at the regular sessions of the Industrial Workers of the World, and the Miners' Union, and endorsed by both bodies, and the secretaries of each were instructed to forward it to you for publication. In case you refuse to publish it, it will be sent to the Western Clarion, and to any local daily or weekly newspaper which may consent to give it publication. We hope you are manly enought to present it to the public. Yours truly,

JOHN O. ELLIS,
Secretary I. W. of W.
W. A. PICKARD,
Secretary No. 8, W. F. M.
Phoenix, B. C., March 31, 1906.

Editor, The Daily News: For some time we have been watching every issue of The Daily News, waiting for some item or editorial which would show us what stand you were going to take regarding the conspiracy against the Western Federation of Miners. The Spokesman-Review has nailed its colors to the mast, and is backing up the conspiracy with all the spite and venom it can bring to bear. We hoped the management of The News was carefully feeling its way and would finally come out with a fair statement of the facts. However, in your issue of the 30th we find an editorial in which The News hopes "that in the best interests of labor organizations Messrs. Moyer, Haywood and Pettibone will be able to disprove to the satisfaction of all fair-minded men, the crimes alleged against them." This is not the first time that individuals and papers have insisted that a person accused of crime is guilty until he proves himself innocent, despite the laws of Great Britain and the constitution of the United States which say that a man is innocent until proved guilty. We expected Mr. Deane would be more careful in fishing for votes and that he would diligently avoid making such a compromising statement. But it is easy to read between the lines in that editorial and see the very evident desire of The News, and Mr. Deane, that matters may develop so that the Canadian branch of the Western Federation of Miners will be forced to break away from the main organization. Mr. Deane probably reasons that if the miners belonged to a purely Canadian organization, it would be much easier to stamp out the socialistic tendencies with which they are permeated.

We wish to put ourselves on record *once more, Mr. Deane, and say that our* unions in Phoenix confidently believe that our leaders Moyer and Haywood, also Mr. Pettibone, are absolutely guiltless of the charges preferred against them; and further that we are wholly convinced that the crime and many other dastardly crimes, were committed at the instigation of the mine-*owners of Idaho and Colorado, together* with their paid tools, the governors of those states; further that if our leaders are denied justice, and if an attempt is made to railroad them to the gallows, we are ready to take up their and our cause, and know the reason why.

After reading this outburst of yours, Mr. Deane, we expect to find in one of *your early issues a hint that the recom*mendations of the notorious Royal Commission be acted upon by the government, and that the Western Federation of Miners and Industrial Workers of the World be stamped out in Canada by legal enactment.

If such is your opinion, Mr. Deane, come out with it boldly. At least, be as *loyal to your masters as is the Spokes*man-Review. Show your colors. We will give you more respect if you come out wholly on the side of the capitalist, than we can if you try to ride both horses.

JOHN O. ELLIS,
Secretary I. W. of W.
W. A. PICKARD,
*Secretary No. 8, W. F. M.*
Phoenix, B. C., March 31, 1906.

GRAND FORKS NOTES

(Special to The Daily News)

Grand Forks, April 3 — Bert Rae, the genial general manger of the Betts and Hesperus Mines on Hardy mountain, will leave for Chicago and other eastern cities in a few days. He says that fully 600 feet of diamond drill work has been done on the properties with good results, and adds that his company proposed letting an extensive development contract in about one month.

The members of the Methodist church have presented their pastor, Rev. E. Manuel, with an address and a purse of gold, and in response to a very generally expressed request the reverend gentleman has announced his intention of remaining in Grand Forks for another year in charge of the church.

The Volcanic hotel will be the name of a new and commodious hotel to be opened shortly at Volcanic mountain by R. A. Brown, who will manage it himself.

GRIP QUICKLY KNOCKED OUT

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable *symptoms*," says Mr. J S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by all druggists and dealers.

POOR EXCUSE

Cleveland, April 3.—The Leader today says: Enough dynamite was found under a hoisting engine in the Taylor Arcade, yesterday to wreck that building as well as a half dozen others which cluster about it. Henry Claypool, a night watchman in the employ of the American Bridge company, which is building the Taylor Arcade, found the dynamite and later it is alleged confessed to detectives that he placed the dynamite where it was found because five of his fellow watchmen had been discharged.

MINERS STRIKE IN FRANCE.

Lens, France April 3.—The strikers in the mining districts now number 44,000. Seven arrests have been made on charges of exploding dynamite cartridges and of stoning the police and non-strikers. The strikers made a determined demonstration today against the arrests but the cavalry charged and dispersed them. The coal companies are continuing the workmen's trains and the feeling against the companies is increasing.

MINING MACHINERY.

Large Quantities Going Into the Boundary This Season.

(Special to The Daily News)

Phoenix, April 3.—Additional machinery equipment for Boundary's mines and smelters continues to arrive in this section with the greatest of regularity, seemingly. Every week sees something important of this nature brought into *this section, thereby aiding in increas*ing the Boundary metal output to just that extent.

As is well known, the British Columbia Copper Co. has a large force of men at work excavating for the three large furnaces to be installed at those smelting works this summer, but other companies are also enlarging and improving. The Dominion Copper Co. is expecting almost daily a complete equipment for a new machine shop at the smelter at Boundary Falls, and only last week this company received several electric motors at the smelter, which will eventually be used in furnishing power for the works, instead of steam as at present.

At the Granby mines, hardly a week goes by that machinery of some description does not arrive. Last week an electric locomotive was received here, for use in the No. 3 tunnel, making the second purchased for the purpose. These locomotives are of the standard Westinghouse-Baldwin type. On Saturday the new giant ore crusher, located on the C. P. R. tracks, but so arranged that ore from it can be shipped over either railway, was placed in commission, and is now working steadily. This takes the place of the crusher burned down at the No. 1 level last December. The No 3 terminal crusher is now out of commission for a few days while repairs are being made

One decided departure at the Granby mines is the receipt of an automatic ore bin feeder, its function being to take the ore after being crushed, without handling, to the ore bins on the railway tracks. *As far as known*, this is the first machine of its kind installed at any metalliferous mine in British Columbia. It will be placed in position at the No. 3 Granby terminal as soon as possible, and will greatly facilitate work there, and withal reduce the costs somewhat.

BLOW UP THE BANK.

Soumy, Poland, April 3.—An attempt was made last night to blow up the Mutual Credit bank here with an infernal machine which was frustrated just in time by a guard who extinguished the fuse.

Squire's ranch for sale, easy terms, Taylor & McQuarrie, Nelson.

SHINGLE MILL STRIKE

Seattle, April 3—Fourteen out of seventeen shingle mills of Ballard, are idle, the few remaining plants running being expected to close today as the result of a general strike against the mills in that city. The issues are a slight increase in wages and the open shop principle. The close of the Ballard mills will decrease the general output by 3,000,000 shingles per day.

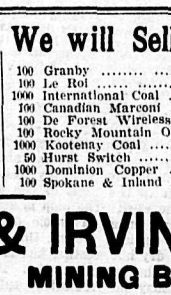
EARTHQUAKE IN OREGON

Ashland, April 3—Shortly after 9 o'clock last night a distinct earthquake was felt here. The vibrations lasted nearly two seconds.

Squire's ranch for sale, easy terms, Taylor & McQuarrie, Nelson.

## Samaria Stopped His Drinking

**A London Lady *cures her husband* permanently of the drink habit and without his knowledge.**



"How glad I am that I overcame my hesitation about writing you for a Free Sample of Samaria. At that time my husband was drinking very hard, and I was in despair. The effect of your treatment was immediate, and now our home is entirely free from the Drink Curse. I gave my husband the tablets in his tea, and he never knew. As the taste for liquor left him, his general health improved and is now splendid—many, many thanks. I will be glad if you will tell others of my experience.

**Free Package** and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence sacredly confidential. Address: THE SAMARIA REMEDY CO. 195 Jordan Chambers, Toronto, Ontario, Canada.

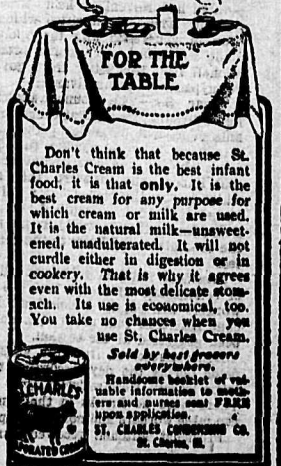
ANOTHER WONDER OF SCIENCE.

**Biology has Proved that Dandruff is Caused by a Germ.**

Science is donig wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills *the germ that makes* dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. With*out dandruff hair must grow luxuriantly.* It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

CANADA DRUG & BOOK COMPANY, Special Agents, K.W.C. Block

ST. CHARLES EVAPORATED CREAM



Don't think that because St. Charles Cream is the best infant food, it is that only. It is the best cream for any purpose for which cream or milk are used. It is the natural milk—unsweetened, unadulterated. It will not curdle either in digestion or in cookery. That is why it agrees even with the most delicate stomach. Its use is economical, too. You take no chances when you use St. Charles Cream.

*Sold by best grocers everywhere.*

Handsome booklet of valuable information to mothers and nurses sent FREE upon application.

ST. CHARLES CONDENSING CO. St. Charles, Ill.

Mrs. Sutherland thought she had

# Serious Heart Trouble

*"Fruit-a-tives" cured her when Doctors failed.*

Hundreds of people suffer with Irritated Heart. Pain comes over the heart, especially after eating. Palpitation or fluttering—headaches—belching gas—indigestion and constipation follow. And the sufferer takes heart tonics and sees heart specialists, and steadily grows worse.

The heart is irritated by the stomach. The nerves of the heart and stomach are identical. When the stomach is distended by gas—*when food sours or is not properly digested*—the stomach nerves are irritated and this soreness extends to the heart. That causes pain which makes so many people think they have serious heart disease.

**"Heart disease and Dyspepsia cured by Fruit-a-tives."**

OTTAWA, July 14th, 1905.

To Fruit-a-tives Limited,

Gentlemen:—

I never gave a testimonial to any medicine before but I like "Fruit-a-tives" so much I will gladly do so. **I had every symptom of heart disease and I had a very nasty pain over my heart.** I tried purgatives and consulted several physicians but nothing did me any good. After taking "Fruit-a-tives" I am entirely well again. My digestion was very bad and I suffered from long standing constipation and now I am quite well from these complaints. I wish to say also that my complexion was very bad, sallow and muddy in the extreme, but now after taking "Fruit-a-tives" it is as fresh as ever. To any one suffering from constipation and bad digestion or liver complaint and to any one with a bad complexion, I can recommend "Fruit-a-tives" with every confidence.

(Signed)

MRS. A. SUTHERLAND.

"Fruit-a-tives" CURE IRRITATED HEART because they cure stomach, bowels, kidneys and skin. "Fruit-a-tives" set the gastric juices flowing—clean and sweeten the stomach—insure the perfect digestion of every meal. They make the liver give up more bile, move the bowels regularly every day, and strengthen and heal the kidneys, as well as act directly on the skin.

"Fruit-a-tives" are concentrated fruit juices, combined by a wonderful process which increases their medicinal action many times. Tonics and antiseptics are added and the whole made into tablets.

At all druggists or sent postpaid on receipt of price—50c. a box or 6 boxes for $2.50.

**Fruit-a-tives**

or Fruit Liver Tablets.

Manufactured by FRUIT-A-TIVES LIMITED, Ottawa.

HAVE YOU EVER TRIED

# Blue Ribbon

TEA

You have often heard it spoken of very highly, have'nt you?

Chances are that a large proportion of your friends are using it right now.

Just ask them what they think of it. Or better still, order a pound from your grocer and try it yourself.

The more carefully and thoroughly you test it, the better you will like it.

Blue Ribbon Tea is its own best argument, and all we ask is that you give it a fair trial. Will you do it?

We have devoted special attention to the needs of the

## SPECIAL PRIZE LIST.

FRUIT

Display of Winter Apples—
First Prize, 30 Newton Pippin Trees, Value ..... $ 7.50

I know of no business that requires so much close personal attention as cigar-making. The slightest variation in the grade of the tobacco, the least negligence in the maturing of the leaf, or careless in the making of the cigar, will be noticeable in the smoke.

It is for this reason I give such particular and personal attention to every step in the production of my Pharaoh cigar.

I have produced an excellent smoke, and all my time, energy and knowledge is devoted to keeping it at that high standard. The quality of my

**Pharaoh Cigar**

is more to me than several years' profits.

I might make a little more money, and make it a little more quickly by using a poorer grade of tobacco, less experienced workmanship, or any of the many cheapening methods known to the cigar trade, but I wouldn't do it. The quality of my Pharaoh cigar is a matter of pride with me. I want it to be known as the cigar that is always good.

None genuine unless branded "Pha-ro."

Price 10 cents.

## DISTRICT PRIZE.

The "President's Cup" which was awarded to District No. 3 at the 1905 Fall Fair, will be competed for at the 1906 Fair. This is put up for the largest and best display of Fruits and Vegetables, and for this purpose the country has been divided into eight districts and the Association has selected one man in each section to look after his district, who will be paid for any expense he may be at up to $15.00 for each District.

The Board of Directors has decided that the "Cup" is to become the property of the District to which it is awarded at three consecutive Fairs.

District No. 1 comprises all the country east of Kooteny Lake, including Crawford Bay, Creston, and Rykerts. J. E. Houghton and Fred Little in charge.

District No. 2 comprises Ainsworth, Kaslo and point north of Kaslo. G. O. Buchanan in charge.

District No. 3 comprises the country on the north side of the arm of Kootenay Lake, from Hoover's Ranch to Ainsworth. J. Hyslop and A. B. Shannon in charge.

District No. 4 comprises the country on the south side of the arm of Kootenay Lake, from Procter to Ward St., Nelson. J. A. Kelly in charge.

District No. 5 comprises the country from Ward St., Nelson to the Columbia River, Slocan River and Slocan Lake section. Jas. Williams in charge.

District No. 6 comprises the country north of Castlegar, on Arrow Lakes and Fire Valley Robt. Shiell in charge.

District No. 7 includes what is known as the Boundary Country, including Grand Forks, Greenwood, Midway, etc. J. D. Honsberger in charge.

District No. 8 includes the country south of Castlegar, Trail, Waneta, and Rossland. D. F. Jelly in charge.

## Standard for Judging.

| | Points |
|---|---|
| Fruits | 300 |
| Roots and Vegetables, for Table | 250 |
| Roots and Vegetables, for Stock | 200 |
| Arrangement | 150 |
| Decoration | 100 |
| Total | 1000 |

The Fruit in each District Exhibit will be allowed to compete for the $100.00 Cash Prize donated by the Canadian Pacific Railway Company. In the event of this prize being awarded a District Exhibit, the Fruit only contained therein will become the property of the donor.

WHY DON'T YOU PUT IT IN

# THE DAILY NEWS

WANT ADS in The Daily News bring prompt returns, because The Daily News is read by nearly everybody in the Kootenay and Boundary Districts six days a week.

*Let Your Newspaper Do things for You.*

When this newspaper has given to you the last word about the events of the day—when it has acted as a sort of Central Office in "connecting" you with "all of Creation"—it has done much for you, of course.
But it can do more than that.
It can help you run your store, your office, your factory or your house.
It can carry your "little worries" for you—and never turn a hair.
You do not fully use your newspaper if you simply read it.
You don't really KNOW your newspaper until you have used its want advertising columns.
It can dispose of things for you—it can secure things for you.
It can find lost things for you, find any kind of help you need, find buyers for your house, your lot, your horse, you furniture your shop or store, leasehold or interest or equity.
In short, any day, every day, this newspaper stands ready and able to
DO THINGS FOR YOU!

*How would you like to Have 100 new Customers?*

Is your store in such shape that ONE HUNDRED NEW CUSTOMERS would "turn the tide" for you?
Are things with you only just "so-so?" Bills maturing too fast—sales a little too slow—too many people going past your doors—lack of "snap" and "go" and "hustle" around your counters?
Are Fixed Expenses coming to be a burden—while they should be merely an incident—in your business?
If you feel these symptoms—no matter whether you are a big merchant or a little one—YOU NEED A TONIC!
PUBLICITY, in just as large doses as yo ucan stand, repeated EVERY DAY, will change the whole situation for you.
It is idle to suppose that you cannot secure the ONE HUNDRED NEW CUSTOMERS—regular customers—who would "turn the tide" for you. YOU CAN GET THEM IN A WEEK—but not by wishing for them. It's not so easy as that. Nor by distributing hand-bills, or putting up posters, or buying space in programmes—it's not so easy as that. You must spend some money—more than you have ever spent—for ADEQUATE ADVERTISING SPACE IN YOUR DAILY NEWSPAPER.

# THE DAILY NEWS

## STOCKS REACH BALANCE

OPENING QUOTATIONS HIGH—LATER TRADING DULL

NO GRAIN REPORT ON ACCOUNT OF BOARD ELECTIONS

The stock exchange seems today to have reached a balance. Values are far above the quotations of a month ago, but distinctly below the high figures of last December. The opening prices were again several points in advance of Monday's close. After the first hour the movements were very irregular, some stocks advancing, others declining, but no stock gained or lost a dollar a share, and the net result was neither loss nor gain. Amalgamated Copper and Reading were again the most active, the former closing about $3 a share above Monday's price.

There was no report from the Chicago grain market.

STOCKS—Amalgamated Copper opened 112, advanced to 113 1-4, closed 112 1-2; U.S.S., common opened at 43 3-8, advanced to 43 5-8, closed 43 3-8, preferred opened at 99, sold to 108 3-4 at close; B.R.T. opened at 88 3-4, advanced to 89 3-8, closed 88 1-8; St. Paul opened at 179 1-2, sold to 173, closed 173 7-8; U.P. opened at 158 1-2, advanced to 159 5-8, closed 158 7-8; L. & N. opened at 152 3-4, sold to 151 3-4 at close; Erie opened at 45 3-4, sold to 45 3-8 at the close; C.P.R. opened at 173 1-8, advanced to 173 1-4, closed 173; Penn. opened at 140 1-4, advanced to 140 7-8, closed at 140; Reading opened at 138 1-2, sold to 137 1-8, closed 38.

RHEUMATISM MAKES LIFE MISERABLE

A happy home is a most valuable possession that is within the reach of mankind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by all druggists and dealers.

AT THE THEATRE

The Frith-Eaton Concert company will appear at the opera house on next Thursday and Friday evenings.

The following from the Winnipeg Free Press of Feb. 23, will give some idea of the estimation in which the Frith-Eaton Concert company is held at the prairie capital: "The Frith-Eaton combination must be heard and seen to be appreciated. Seldom if ever does such a talented trio visit this city. The program was varied and well chosen. Mr. Eaton, an impersonator of great talent was at his best. His make up was par excellence and his selections clever and humorous in the extreme. Miss Mazie Jackson is perhaps one of the best sopranos ever heard in this city. Her contributions to the program last night showed her to possess a rich and cultured voice, which is especially adapted for operatic work. A great future should be before this talented young artist. Francis Frith is a most expressive singer, a thorough artist, possessing a voice of pleasing quality and satisfying quantity."

CAUGHT COLD WHILE HUNTING A BURGLAR

Mr. Wm. Thos. Lanorgan, provincial constable at Chapleau, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles, I was completely cured." This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become known. For sale by all druggists and dealers.

The Frith-Eaton concert company will appear in the Nelson opera house Thursday and Friday evenings of this week. The company has only three members but each is an artist. They have won very favorable comment wherever they have appeared. The company is well known to the majority of Nelson theatregoers, having appeared here two years ago, when their concerts were well attended and highly appreciated.

Our James R. Muir will be in Nelson for a few days. Orders for piano tuning and repairs may be left with the Standard Furniture company, or the Mason-Risch Piano Co., Ltd.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

## NOTICE

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Starting from W. BZ. Pollard's S.W. corner post, situate on the north side of lot No. 1078, on the north side of the West Arm of Kootenay lake, about two miles from Procter, thence 20 chains east more or less to the N.E. post of L. 1078, thence 20 chains more or less to N.W. post of L. 5486, thence east 20 chains more or less to N. Clark's S.W. post, thence north 30 chains more or less, thence west 20 chains more or less, thence south 30 chains more or less, thence west 20 chains more or less, thence south 20 chains more or less, to point of commencement.

Dated this 31st day of March, 1906.

W. B. POLLARD.
J. E. TAYLOR, Agent.

# Ramsay's Princess Chocolates

THERE ARE NO OTHERS QUITE SO GOOD

Princess Chocolates have delicious soft, creamy centres with an outer coating of the finest blended chocolate. Sold by leading confectioners everywhere. Ask for them.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 15th, 1906.

## NOTICE

NOTICE is hereby given that 60 days from date the undersigned intends to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands. On the West Arm of Kootenay lake, starting from location post west 35 chains, running along J. Harris' north survey line, north 40 chains more or less, thence east 35 chains, then south to point of commencement.

Dated this 21st day of March, 1906.

JOHN E. TAYLOR, Locator
M. R. McQUARRIE, Agent.

## NOTICE

Sixty days from date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Situate on the south side of the West Arm of Kootenay Lake, about one mile from Nelson, commencing from southwest post of Lot 900, west 20 chains, then north 20 chains more or less, then east 20 chains, then south 20 chains more or less to point of commencement.

Dated this 24th day of March, 1906.

FRED STEVENSON, Locator.
WM. T. BUGGINS, Agent.

CERTIFICATES OF IMPROVEMENTS

Fourth of July No. 6, Jenny Long No. 2, and Tauro Mineral Claims. Situate in the Slocan Mining Division of West Kootenay district. Where located: On the North Fork of Lemon Creek.

TAKE NOTICE that I, C. D. Blackwood, acting as agent for A. T. R. Blackwood, Free Miner's Certificate No. 187845, and A. E. Teeter, Free Miner's Certificate No. B96326, intend, sixty days after date hereof to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 10th day of March, A.D., 1906.

C. D. BLACKWOOD, Nelson.

# NEWS OF THE DOMINION

YESTERDAY'S HAPPENINGS ALL OVER CANADA.

RECENT OCCURRENCES OF VERY GENERAL INTEREST.

Montreal, April 3.—A big real estate deal has just been completed here by which the S. Carsley company have purchased Queens block on St. Catherine street, which faces also on University and Victoria streets, and which is occupied now by W. H. Scroggie, Ltd. The price paid was $650,000. By the trend of events during the past few years the shopping public of Montreal has practically been divided into two camps, those who buy uptown and those who buy downtown. Carsley company is the only large departmental store in the lower field, notwithstanding the growth of the latter. By securing premises on one of the most central sites in the uptown section, they have placed themselves in a most advantageous position to compete in a new field.

Fred Brophy, goal keeper for the Montreal Hockey club team, is in a serious condition as the result of a blow received in a hockey match at Ottawa last month between his team and the Ottawas. Alf. Smith, the Ottawas forward, is alleged to have struck the blow which broke Brophy's nose. Complications have set in, and his condition is dangerous.

The customs fees collected at this port for the month of March were far in advance of the same month last year. The total was $1,171,000, compared with $838,000 for March, 1905, an increase of nearly a quarter of a million dollars.

London, April 3.—At a meeting of about 100 members of the Royal Templars of Temeperance on Saturday night a deputation was appointed to protest to the board of directors of the order not to go ahead on the basis of new rates recently decided upon by the council until various select councils in the dominion could be heard from on the matter. It was claimed that new rates were fifty per cent higher than the old.

Wm. Harding, 26 years of age, a furrier, was struck by the Montreal express on Saturday night and instantly killed. He was taking a short cut to his home when struck.

Hamilton, April 3.—Union brick layers and stone masons here went on strike this morning for an increase from 45 to 50 cents per hour in wages. The members of the local builders' association, Grace company and the Canada White company, Montreal, who are building skyscrapers for the Federal Life and Bank of Hamilton, refused to pay any advance. Only four contractors have signed the agreement for an advance. Building operations here are now at a standstill. The bosses say that they will not pay an advance as they have an agreement with the union that no change in wages is to take place this season.

Belleville, Ont., April 3.—As a result, it is alleged, of taking patent medicine, which had been distributed around the streets in free samples, Herbert Greatrix of this city, 24 years of age, is now lying at the point of death in hospital here. After taking the medicine, which was said to be a cathartic, Greatrix was seized with violent diarrhoea, which suddenly stopped when he was taken with cramps and vomiting. Dr. Yeomans was called and ordered Greatrix to the hospital where an operation was performed, when it was found that the victim was suffering with rupture of the bowels. His life is now despaired of.

St. Thomas, Ont., April 3.—Fifty-six men were laid off in the Pere Marquette railway shops here for sixty days, owing to a shortage of coal, and in view of the coal strike, a local train has been discontinued.

Welland, Ont., April 3.—W. J. McCoppen, proprietor of the M. C. R. hotel here while walking on the track was struck by a freight train and so badly injured that he died shortly after.

St. John, N. B., April 3.—Over 3000 immigrants have landed here within the past 24 hours, and some landed at Halifax yesterday. About 4300 have passed through here today in special Canadian Pacific trains for the Canadian northwest, where most of them will settle. The Allan liner Virginian, and the Canadian Pacific steamer Montrose, arrived on Saturday evening with 1400, mostly British born. The Canadian Pacific liner Mount Temple arrived from Antwerp with 2000, mostly Russians and Germans and some Italians. Three thousand more will arrive this week.

Port Arthur, April 3.—The government ice breaker will be commissioned tomorrow. The old excursion steamer Kaministiqua was burned to the ice near Clavet's dock last night. The loss will be about $8000.

MARYSVILLE MINES

(Arranging for Season's Work—Sale of Real Estate—Personal Mention

(Special to The Daily News)

Marysville, April 3—The snow is nearly all gone and preparations are being made by prospectors to start work on their assessments while the mining companies are making their plans for the summer work at the different properties.

The B. C. Mining & Development syndicate, with headquarters at Rossland, is taking steps to ship in more supplies to their mines as soon as the roads will permit. They have had a force of men engaged all winter under contract and the ore is showing up to their entire satisfaction. They will increase their force and push work as fast as conditions will permit. The people here are looking forward to these mines proving a valuable asset to the town of Marysville.

Mr. Leavick, representing capitalists of Colorado, has a number of properties under bond, the principal of which is the Mystery owned by Robert Dewar and situated on Alki creek. He has let a contract for the construction of a wagon road from the main road to the Mystery and as soon as this is opened, development work will be carried on by the aid of a diamond drill. Mr. Leavick is an expert on mining and for the short time that he has been connected with the mines he is thoroughly satisfied with the prospects of the St. Mary's and during the coming summer he will visit other properties with the intention of purchasing.

The Dominion Consolidated Mining company of Spokane, owing copper properties above the lake, are about to start active operations. They have an enormous body of ore exposed which can be easily handled as soon as the railway is built.

The Falls View hotel under the management of J. P. Pringle, is doing a good business. This hotel is thoroughly up to date and a more obliging proprietor could not be found in the Kootenay.

The secretary of the school board has been notified by the education department that money would be advanced by the department to pay current expenses and outstanding bills, until such life as the district can be assessed, when the amount raised will be handed over to the board, less the amount advanced.

E. J. Clayton, townsite agent, reports the sale of a number of lots, also the sale of a houst and lot in Belangeo addition for a good figure.

Marysville will not be behind other towns in the way of sports this season, steps having been taken for the forming of a football team, also a gun club. Last year the football team made an excellent showing, defeating all comers from neighboring towns, including Cranbrook. The gun club is forming rapidly and can boast of over 40 members and still more coming.

Mrs. Walter Clayton of Kimberley is home from Morrisburg, Ont., where she has been visiting friends.

Miss R. Snow and Mrs Whelen of Fernie have spent the past week as the guests of Mrs. A. P. Chenette of the Royal hotel.

The Falls View hotel will be giving a dance shortly after Easter and Cranbrook and other outside points will have an opportunity of attending as a special train will be run on that date.

PAIR OF SWINDLERS

Magnetic Healer Cheats Foolish Woman Out of $20,000

Chicago, April 3—The Chronicle today says: "Stripped of her entire fortune, $20,000, she declares by her husband, Dr. Frank Delacreale, who has fled, leaving her in abject poverty, Mrs. Frank E. Delacreale, No. 2, yesterday caused the arrest of Mrs. Frank E. Delacreale, No. 1, who is accused of being the accomplice of the man for whom the police of every city in the United States are on the lookout. Other women, the police say, were swindled by the man.

The woman, who makes the complaint, and whose maiden name was Triequett, was married to Dr. Delacreale, a magnetic healer, last November. He declared himself to be the owner of a $25,000,000 gold mine in Mexico, according to her story. He needed money to purchase machinery with which to operate his gold mine and the young woman says she wrote checks for him at the rate of $500 a day until her entire wealth was gone.

The woman who now turns out to be Mrs. Delacreale, No. 1, of eight years' standing, is said to have aroused the suspicions of Mrs. Delacreale No. 2, by constantly shadowing her husband to the very doorstep of the second wife. Delacreale, who is known to have passed also as Dr. Reed, explained the appearance of the mysterious woman by saying that she was a blackmailer, who sought money under threats of having him arrested. Wife No. 2 admitted to the police last night that she gave her husband sums of $200 and $500 at various times in order to stop the annoyance. Mr. Delacreale No. 1 proclaims her innocence and declares she too was swindled by Delacreale.

TRAMLINE TO MOTHER LODE

Extensive Operations Planned for Group of Mines Near Salmo

Work on the Mother Lode, one of the group of mines in the Salmo district bounded by A. F. Dixon on Feb. 1 last, has proceeded far enough to warrant extensive outlay for plant for treatment.

A contract for an aerial tramline a mile and an eighth in length has been let to the Kootenay Engineering Works, and the work will begin at once.

It is Mr. Dixon's intention to install a compressor plant on the property as soon as possible.

The group includes nine claims originally held by Salmo and Nelson locators. They are known to contain high grade ore, and two months' work has satisfied the lessee that the body is extensive enough to warrant operation on a fairly large scale.

## NELSON'S NEWS OF THE DAY

Born, yesterday in the Home hospital, to the wife of Robert Glendinning of Nakusp, a daughter.

The adjourned meeting of the city council will be held in the council chamber this morning at 9:30.

If you want to sell a store, shop, residence, vacant lot—or any other business—"The Want Ad. Way" is the cheapest, quickest, surest.

The regular weekly meeting of No. 1 company Nelson Boys' Brigade, will be held in the hall of St. Paul's church this evening at 7 o'clock.

T. G. Procter has sold his herd of prize Jerseys to J. Balding of the Fairview dairy, who now has 40 head of the best *and richest milkers in the province.*

Another basketball match has been arranged to be played in the armory this evening at 8:30. The competitors will be the second teams of the high school and the rangers.

E. M. Hand, manager of the Ymir mine, arrived in the city last night, and is at the Strathcona. He reports that good progress is being made with the development work in the mine on the lower levels.

If you deal in houses you can afford to use a regular display ad. space as well as numerous want ads.; for a "house merchant" cannot afford to have any of his stock "left over" from season to *season.*

Mrs. D. S. Carnahan of Fleming, Sask., who has been in Nelson for the past two *months, the guest of Mrs.* H. E. Dill, left for home yesterday morning. Mrs. Carnahan was delighted with the mild climate of Nelson.

It is learned that at the time of Delany's escape from the provincial gaol, negotiations were in progress between the departments of the attorney general and *the minister of justice,* to let him out on ticket of leave.

Silver is continuing to decline on both the London and New York markets. It lost another point on each yesterday and is now at 64 1-4 cents an ounce. Lead lost another point on the London market, and the bounty is now about 30 cents a ton.

Gordon Halkett of Ottawa, foreman of lighthouse construction for the marine department of the dominion government, is visiting his brother, A. Halkett, on his way home from the coast, where he has been engaged in the erection of a light house on Green Island, in the vicinity of Port Simpson.

The members of the staff of the Ashdown Hardware company's Nelson branch have testified their esteem for their retiring colleague, D. G. Porter, by presenting him with a pair of gold cuff links, set with pearls and suitably engraved. The presentation was made by the local *manager, Hamilton Byers, who,* in a few felicitous words, expressed the general appreciation of Mr. Porter, and best wishes for his future success.

The moon having attained her proper form for the occasion, the tribesmen of the Ancient and Oriental order of Humility and Perfection will pitch their tent on the Sahara *tonight at 8:30. The usual* solemnities and festivities will be observed.

There was no meeting of the fair directors *last night, and there will probably* be none until the regular meeting night in May. Managing director Starkey is out of town, and as the prize lists are completed and being published in detail, there is no urgent business.

H. M. Adams, general freight agent for the G.N.R. in the west, was in the city *last night. He leaves for Spokane* this morning. He was accompanied by P. H. Burnham, agent at Grand Forks. Mr. Adams' visit was in connection with the question of freight rates on the K. & S. railway, regarding which no settlement has yet been effected; J. L. Retallack arrived from Kaslo yesterday to confer with Mr. Adams.

Two presentations were made last night at the regular gathering of the Knights of Pythias. Brother D. Porter, who was saying farewell to the lodge, was presented with a watch charm, engraved with the emblems of the order. L. Iwerson, who has recently said farewell to single blessedness, was presented with a picture of *Sunshine. The presentations* were made by Dr. Rose.

The C.P.R. morning passenger train leaving Rossland yesterday got off the rails at the curve round Union street in that city. A relief train was sent up from Trail and the passengers were transferred, but in backing down to Trail the tender of *the relief train's engine left the rails* and more trouble ensued. Passengers and mail finally reached Nelson at 6 o'clock last evening. No connection was made with the main line on Monday night, owing to the through express eastbound getting off the track. The delayed passengers and mail reached the city last evening.

Wadds Bros., photographers, will cease to do business in Nelson on Saturday, 7th instant. Customers who have resittings to arrange for and other intending sitters should make their appointments at once.

## THE STORE OF QUALITY

## Fel's Naptha Soap

You have all had a sample of it left at your door and no doubt have tried it and find it to be the best soap of its kind on the market. It does the work quickly as you need use no boiling water and do very little rubbing. If you have not tried it do so. For sale in Nelson at

## WHEN GLASSES BECOME A NECESSITY

the most important thing is to consult a competent Refinoscopist who will diagnose for you the condition of your eyes in their minutest defect, then proper glasses should be ground to suit the case. Our examination and work cannot be better. We grind our own glasses.

Do Not Neglect Your Eyes
