WAR WITHIN FIVE YEARS

Prediction is Made That Peace of Portsmouth is Mere Armistice

Russia and Japan Will be Involved in Another Gigantic Struggle for Supremacy in the Far East

Berlin, May 22.—Immediately after the end of the Russo-Japanese war, it was said and generally believed that the kaiser had expressed the opinion that he expected to live to see another gigantic struggle for the supremacy in the far east between the two empires.

The opinion has now been confirmed in a most remarkable book on the situation in that part of the world by J. P. Bashenow, who is probably better posted on this subject than any man living. In this work, which is dedicated to the Russian minister of war, and which was written at the request of the Russian chief of staff, general Palizyn, M. Brashenow declares point blank that it is his firm belief that the peace of Portsmouth is to be considered as a mere armistice only, and that Russia will be implicated in another war with Japan within five or six years at the most.

Bashenow's book is so much more worthy of notice, as it is remembered taht he, in 1897, wrote a similar book, also at the request of the chief of the Russian general staff, in which he foretold the recent war as something which was bound to come and also predicted the defeat of the Russian arms. At that time his book was ridiculed everywhere outside of Japan, and general Kuropatkin, who read it, declared that it was to be shelved in the archives of the war department and not to be allowed to be sold.

The responsibility for the second Russo-Japanese war will rest on Japan M. Brashenow says, because it is the unchangeable intention of the mikado's government to drive Russia back from the Pacific coast, an end which they tried to accomplish already in the recent war.

In the name of the people of Russia M. Bashenow implores the minister of war to prepare for the coming inevitable struggle and points out what he thinks ought to be done to insure the success of the Russian arms. Two-thirds of the armies now in the far east should be ready for war at any time, and the Russian government should be colonizing the eastern parts of Siberia to make it possible to get a large number of recruits in the immediate neighborhood of the places where the next great battles must be fought.

The construction of a second track along the whole length of the Trans-Siberian and the Ussuri railroad should be pushed with all speed possible, and the Amur railroad should be built immediately.

The fortifications of Vladivostok should be made impregnable, and the place made a first class naval base, and fortifications be built along the whole frontier, no matter how strongly Japan might protest.

A mighty Russian navy should be built, not in the government yards but in foreign countries, preferably in the United States, or better still, by American shipbuilders in Vladivostok.

Forts for the defense of that city should be built in a line reaching from Cape Poworotny to Possiet bay and all the islands in the outlet of the Amur river should be strongly fortified.

ONTARIO FARM PROSPECTS

Bulletin Issued by Government Department of Agriculture

Toronto, May 22—The following information concerning the conditions of agriculture in the province has been issued by the Ontario department of agriculture:

Fall wheat—The general situation in the third week in May may be described as being better than was expected, although reports vary greatly in describing the condition of the fields.

Winter rye—The acreage of this crop is comparatively small. It was looking well, as correspondents wrote.

Clover—Notwithstanding the many complaints of poor fields, there are nearly as many favorable accounts of a splendid showing. In fact, the two winter crops of clover and fall wheat never have called forth more varied reports as to prospects, correspondents in the same localities widely differing as to the condition of both.

Vegetation—When correspondents wrote, about the middle of May, field and forest growth was considered to be fully a week behind.

Fruit—A large fruit crop may be looked for.

Live stock—The open winter appears to have favored live stock. There was sufficient provender of all kinds except roots, as many of the turnips rotted. Although the backward spring caused an unlooked for raid to be made upon surplus fodder, horses came through the winter in splendid shape.

Sheep—Are now more in favor and are giving good satisfaction. They would be much more largely kept but for the dog nuisance. Lambs are coming in good and strong, but there are reports of heavy mortality among spring litters.

Farm supplies—In every section of the province there has been enough hay and grain for local needs but as a result there is not much to spare as the feeding of live stock is more engaged in than formerly. The failure of the turnip crop and the necessity of feeding later than usual, owing to the backward spring, also made great inroads on the grain and fodder supply. Most of the fat cattle have been disposed of but a considerable number of store cattle are on the grass for July and September delivery.

Spring seeding—Except in the more eastern counties, along the St. Lawrence the spring seeding is well advanced and in many cases completed by the middle of May. The seed bed was generally in excellent condition.

FAVOR CHANGE OF TIME

RESOLUTION OF COUNCIL ENDORSED BY 20,000 CLUB

MANY SCHEMES WERE APPROVED BY GENERAL MEETING

The proposal to put Nelson clocks on an hour, emanating from the city council, was endorsed by the 20,000 club last night after a general discussion in which the difficulties were frankly admitted.

The monthly election to the committee resulted in the choice of two old members and four new ones.

Reports from all committees were received, showing general progress and success. The entertainment committee has secured the new steamer Kuskanook for a club excursion in July. Several other sources of revenue were suggested including a series of dances in the pavilion at the old park.

The meeting was held in the board of trade rooms at 8:30. There were present: F. M. Black, in the chair, F. M. Chadbourn, secretary, M. S. Parry, W. Beer, S. A. Kelly, L. B. de Veber, F. A. Starkey, T. S. McPherson, J. Coxhead, P. Lamont, E. W. Widdowson, J. L. Buchan, T. G. Procter, A. W. Dyer and W. J. Astley. The minutes of the last meeting were read and adopted.

The chairman stated that the six retiring members of the committee were J. Coxhead, S. M. Brydges, E. W. Widdowson, S. A. Kelly, W. H. Jones and S. S. Fowler. Nominations were received for election or re-election, and the following were chosen as the result of a ballot: T. S. McPherson, A. W. Hyndman, F. J. Deane, G. P. Wells, S. M. Brydges and W. H. Jones. The chairman placed A. W. Hyndman on the reception committee and the other new members on the advertising committee.

The committee on the change of time, T. G. Procter, J. M. Lay and P. Lamont, reported recommending:

"That this general meeting of the 20,000 club hereby endorse the action of the city council in their effort to put forward the standard time of the city by one hour, the same to take effect on June 1.

The following letter from city clerk Wason was read:

"At the regular meeting of the city council held on Monday, May 14, it was unanimously agreed that a change in the standard time by one hour would be advantageous to the city of Nelson. They desire that this change should take place on the 1st of June next, and I have been instructed to write you to this effect, and ask if you would cooperate with the city council in an endeavor to bring this about."

The recommendation of the committee was put in the form of a resolution by Messrs. Beer and Astley.

M. S. Parry thought that great difficulty would arise owing to the refusal of the C.P.R. company to cooperate, and that C.P.R. employees would thereby suffer great inconvenience. He advised deliberation.

E. W Widdowson followed, seconding the caution of M. S. Parry.

W. J. Astley thought that the benefit to the majority would more than outweigh the inconvenience to a few, and that in time the railway companies would conform.

T. G. Procter advocated the change although he admitted that the railways would not change time for at least two years.

In the course of the general discussion it was agreed that serious inconveniences would probably result.

In reply to J. Coxhead the chairman said that a proclamation by the mayor would probably bring the change into effect.

The resolution was then put and carried, E. W. Widdowson dissenting and M. S. Parry not voting.

Further discussion by M. S. Parry and F. A. Starkey was ruled out of order.

W. W. Beer, chairman of the advertising committee, reported on the placing of signs, the forwarding of folders to R. M. Palmer to be forwarded to Hon. J. H. Turner in London, and to the C.P.R. headquarters in Montreal. He also again detailed the scheme for disseminating Kootenay mining news by cooperating with The Daily News. He had also written the postmaster general for permission to mail folders in bulk, but had received no reply. The mining data collected by A. W. Dyer had been presented but could not be used at present for lack of funds. The outside papers selected covered Canada, Great Britain, Australia, New Zealand, the United States, France and Germany.

The report was received and adopted.

W. W. Beer reported that mayor Gillett had said that advertisement of the power plant should be delayed until the plant was roofed in, which would be completed early in June.

J. L. Buchan, for the reception and entertainment committee, reported that E. J. Coyle and J. S. Carter had been interviewed and offered the steamer Kuskanook on its first voyage, for a club excursion at 50 cents for each passenger. A lacrosse match and a smoker had also been considered.

T. G. Procter stated that G A. Lammers had offered the old park to the city, and suggested fortnightly dances in the pavilion, to raise revenue for the club.

J. L. Buchan added that Procter was suggested as the goal of the excursion and $1 as the fee. He suggested an early date in July.

M. S. Parry explained that the C.P.R. asked no guarantee.

On P. Lamont's motion the scheme for an excursion on the Kuskanook was approved and resolved upon, and the committee authorized to proceed with arrangements.

The scheme for a lacrosse match was referred to the entertainment committee to carry out.

The suggestion of pavilion dances was then discussed, and referred to the entertainment committee to act at their discretion.

M. S. Parry, for the popularity contest committee, reported that photographs of the candidates had been taken and sent to Spokane for cuts. The estimated expenses of the contest to date was $20 and the receipts were far in excess of that sum.

F. M. Chadbourn and M. S. Parry recommended that the contest be stimulated by encouragement to the candidates.

W. W. Beer moved that the executive committee should meet hereafter monthly instead of fortnightly. T. G. Procter seconded; M. S. Parry opposed. He thought once a fortnight little enough. He moved an amendment to that effect, which was seconded by A. W. Dyer and supported by P. Lamont. The amendment was carried.

S. A. Kelly suggested that a sign be placed on the corner of Baker and Ward streets or on the street cars to give notice of general meetings. The suggestion was approved and adopted. The meeting then adjourned.

KING CO.'S PLANER MILL

Important Addition to Industrial Establishments of Cranbrook

(Special to The Daily News)

Cranbrook, May 22—The planer mill of the King Lumber company, situated some half mile northeast of the depot, is rapidly assuming shape under the foremanship of Mike Johnston, who has been long associated with the company's interprises. The power house is being built entirely of brick and stone, and will be perfectly fireproof. This building will be 48x24 feet in the clear outside. The boiler, manufactured by the Waterous company, is on the ground ready to be placed in position.

The main planer building, which will be 144x48 feet, is already raised to the eve level. It will be a huge structure and the covered platforms which will project from either side will add very considerably to its imposing extent. The office building is already finished and is quite elegantly furnished in a thoroughly up to date style.

A considerable crew of men are engaged on the general work at present, but when the plant is in operation fully 40 will find steady employment in this important addition to the industrial establishments of Cranbrook.

Part of the machinery has already arrived, the principal units being a big band resaw and a timber sizer of equal dimensions. Another carload of machinery is expected to be laid down on the company's spur inside a day or two. It is said to be the intention of the company to bring all the lumber sawn at Tochty and Smith's lake mill to the Cranbrook plant for seasoning and finishing. The new concern will be the assembling and distributing point for the entire uninished product turned out by the company at its various plants; an arrangement which will tend to centralization and the consequent more effective management by Malcolm King, brother of Dr. J. H. King, M.P.P. for the Cranbrook division.

SPANISH ROYAL WEDDING

PRINCESS ENA TO ARRIVE IN MADRID NEXT SATURDAY

NUPTIAL CEREMONY WILL TAKE PLACE MAY 31.

Madrid, May 22.The arrangements for the wedding of king Alfonso and princess Ena of Battenberg on May 31 now provide for two distinct processions as far as the Puerta del Sol, the bride and her escorts starting from the mansion of the Infanta Isabella, and the king starting from the royal palace.

From Puerta del Sol there will be one procession to the church of Saint Jerome, where the wedding will take place.

This procession will be the most magnificent spectacle seen in Madrid for many years. Twenty-nine golden royal coaches of antique design, and hanging in leather straps instead of springs, will convey the foreign guests and representatives of the Spanish and British royal families.

These coaches will be drawn by six or eight horses with postillions in costumes from the 18th century, and will be beautiful to look at but anything but comfortable to ride in. All of them are now undergoing a thorough inspection to make sure that they will not break down, some of them being very old.

Following these will come 21 coaches, containing the flower of the Spanish aristocracy, and the large number of carriages containing ministers, ambassadors and government officials.

Princess Ena, the bride, and her mother, will arrive Saturday next.

The bride will be met at the Madrid railroad station by hundreds of automobiles, trimmed with ribbon and flowers, and these will accompany her to the palace, and afterwards pass in review before her.

On Tuesday, May 29, at 5.30 in the afternoon, the marriage contract will be read in the state apartment at El Pardo by the Spanish minister of justice who will act as notory general of Spain. Only the bride, her mother, king Alfonso and members of the cabinet will be present at the signing of the contract, and immediately afterwards Sancha, assisted by two bishops, will receive the solemn declaration of king Alfonso and princess Ena, that they declare to enter the marriage of their own free will without any compulsion.

During her stay in Madrid the bride and her mother will be entertained by a theatrical company of the most prominent actors and actresses of Spain, with Maris Cuban as the star. There is a private stage in the palace in a hall, which will seat about 200 people, and the performances will be given on this, which has not ben used since the days of Charles IV.

EAGLES AT HOME.

Smoker in Opera House Largely Attended and a Great Success.

The opera house was crowded last night on the first floor and there was a good sprinkling in the gallery. The occasion was the Eagles' smoker, one of the best ever given in Nelson.

At 9 p.m. W. R. MacLean, master of the lodge, took the platform and asked worshipful brother mayor Gillett to preside. The mayor, with his chair tilted back against a back-ground of flags with an eagle's wings outstretched above, and smoking a cigar, made an ideal smoker chairman.

While the proceedings were informal enough for quiet and sober mirth, an excellent program was rendered under the direction of E. Mason. It included songs and duets by Messrs. Grizzelle, Wye, Hinton, Bennett and Mason, the latter also reciting; instrumental selections by Messrs. Boyer, Nolan, Hearn, and Dode. The accompaniments were played by Messrs. Evans, Howe and Gallon.

The boxing match between Jim McLoughlin and Jack Holland, refereed by J. Emerson, was a good exhibition in friendly spirit, and ended with honors even.

The pie eating contest was the feature of the evening. The contestants, blindfolded made heroic efforts to swallow pies of cotton batting.

The refreshments included sandwiches, beer, sodawater, cigars and tobacco in profusion. The smoker was greatly enjoyed by the guests and a credit to the hospitality of the Eagles.

POLITICAL AMNESTY

Will be Proclaimed on Anniversary of Czar's Coronation

Sunday Next Will See Consummation of One of Chief Aims of Russian Constitutional Democratic Party

St. Petersburg, May 22.—The long awaited political amnesty, the Associated Press learns from a government source, will be proclaimed May 27, the anniversary of the coronation of the emperor. The measure will, as anticipated, be limited, but the Associated Press is in a position to state that the constitutional democatic party is prepared to accept the limitation gracefully, recognizing, though not publicly, that the government is not altogether unjust in refusing to set at large men who will be as great criminals in the future as in the past.

The administration daily is cutting down the number of prisoners who may be affected by the amnesty, releasing convicts by hundreds in the provinces, while among those released in St. Petersburg are 27 members of the council of workmen's delegates, who drew up the famous manifesto proclaiming a raid on the government's gold reserve.

Premier Goremykin has been summoned to go to Peterhof tomorrow for a conference which will probably put the final touches to a speech which the premier will deliver, unless unforeseen contingencies prevent, in the lower house of parliament on Friday, setting forth the government's position on the various points mentioned in the speech from the throne.

The premier and minister of agriculture have been making inquiries with regard to the form of procedure to be observed in the lower house in the matter of answering interpellations so as to reach the views of the ministers who participate in the general debates, M. Stoleypin especially wishing to speak on the agrarian question if permissable

POLITICAL PEACE IN HUNGARY

Emperor Francis Joseph Formally Opened Parliament Yesterday

Budapest, May 22—The Hungarian parliament was formally opened today by the emperor, Francis Joseph, who in tne speech from the throne, bade the deputies a hearty welcome, and expressed his keen thankfulness that the misunderstandings had passed away.

"We are thankful to divine providence," said the emperor, "that the disastrous misunderstandings have vanished and it is our ardently cherished hope that the constitutional cooperation of all the legislative factors may remain undisturbed in the future."

After enumerating the measures which are to be presented for the consideration of the new parliament the speech declared that although close relations exist with the country's allies, provision must be made for the defensive power of the country.

The speech also announced that after the question of electoral reforms had been settled a new parliament will be summoned.

WELLMAN POLAR EXPEDITION

Scores of Men Employed on Various Appliances Connected With Airship

Paris, May 22—Major H. B. Hersey left here this evening for Norway, where he will meet and conduct to Dane Island the first party of the Wellman polar expedition. Eighteen joiners will accompany him to put together the timber and canvas shed in which the dirigeable balloon will be housed.

Mr. Wellman is superintending the construction of the balloon work in order to be able to leave Paris as early as possible. One hundred mechanics are engaged in the construction of the motors, 40 men are at work on the envelope, 15 men are building sleds, and 50 men are at work on the various appliances connected with the ship.

C. P. R. EXPRESS WRECKED

Locomotive and Two Cars Drop Into a Gully at Twin Butte

Vancouver, May 22—An accident occurred Monday to the C.P.R. eastbound express at Twin Butte bridge, east of Revelstoke, where an engine and two cars containing fish were dropped into the gully, caused by what is reported as the buckling of a new steel span at the time being erected by the Dominion Bridge company of Montreal for the C.P.R.

The engine fell on its side and fireman Corbett was caught between the engine and tender and instantly killed. It will take about two days to build a temporary bridge and meantime passengers for the east as well as for the west will be transferred at this point; or those who desire to do so may travel via the Crow's Nest route.

AUTO COLLIDES WITH EXPRESS

Machine Completely wrecked and Occupants Instantly Killed

Westbury, May 22—While running at a rate of 40 miles an hour a big touring automobile belonging to P. F. Collier dashed into an eastbound express train at the depot crossing here tonight. The two occupants of the machine, George Gabriel, the chauffeur, and Frederick Whitehead, a valet in the Collier family, were instantly killed and the machine wrecked. The men were on their way to the Meadowbrook club.

GOLF CHAMPIONSHIP

Holyoke, England, May 22.—In the second round of the amateur golf championship, C. C. Lengen beat C B. MacDonald, of New York, by five up and four to play. W. H. Fairlie beat P. L. MacLeary, of Oregon, at the 19th hole. MacLeary and Fairlie had a neck and neck struggle, Fairlie winning at the 19th hole. Macdonald made a plucky fight against Lengen. The game was all square at the 5th hole but Lengen thenceforth played brilliantly, securing the next four holes, and became five up at the 12th. He lost the 13th and won the 14th, thus securing a victory by five up and four to play.

FOR TRIAL AT CALDWELL

BOTH SIDES NOW IN READINESS FOR BITTER FIGHT

BRILLIANT ARRAY OF COUNSEL AND UNLIMITED FUNDS

Denver, May 22—With the date for the commencement of the Steunenberg murder trial near at hand, the little town of Caldwell, Canyon county, Idaho, is already crowded with those interested in either the defence or prosecution of the men charged with having assassinated the late governor of Idaho on the night of Dec. 30 last. The brilliant array of counsel secured by both sides and the unlimited capital at hand presage one of the most bitterly fought criminal cases in the history of the west. The crime ranks with the assassination of Lincoln, Garfield and McKinley. The detectives claim that they will prove beyond the shadow of a doubt the guilt of the leaders of the Western Federation of Miners and of Harry Orchard and Steven Adams, who have confessed. The miners, on the other hand, declare that the prosecution is only an attempt to break their organization, and that the detectives have manufactured the evidence against their men. They say they will spend a million dollars if necessary and carry the case to the supreme court of the United States in order to prove their innocence.

A tense feeling of suspicion and bitterness is plainly in evidence in Caldwell. Strangers arriving in the town are shadowed, called upon to explain themselves and account for their presence. The prosecution fears there will be an attempt to rescue the prisoners and the miners fear the prosecution will fake such an attempt in order to create prejudice against the accused men. The result is that both sides have a score of detectives at work and those interested are sleeping with one eye open. Governor Gooding fears a riot may occur before the trial is over and two companies of militia are at hand and ready to be called out at a moment's notice in order to quell any disturbance.

High handed steps were taken by the authorities of Colorado and Idaho in the arrest and extradition of the accused men. If the men are proved guilty there will be abundant vindication for the drastic action taken, but if they prove their innocence a wrong has been done them which neither time nor money can atone for.

No ordinary prisoners are these five men who are to be tried for their lives. All have gained prominence in the labor world and have wielded a mighty influence in the wealth producing sections of the Rocky mountain country from the British Columbia line to Mexico. On the outcome of the trial depends the death or existence of the great Western Federation of Miners, the richest, strongest and most perfectly organized body of the kind in the world.

The men who are charged directly with the murder of ex-governor Steunenberg are president Charles H. Moyer, and secretary William D. Haywood of the federation, G. A. Pettibone, a former active member of that body and now a prominent business man of Denver, and Harry Orchard and Steven Adams, alleged members of the inner circle of the federation, who have made confessions. L. J. Simpkins, a member of the executive board of the federation, has also been indicted for the Steunenberg murder, but though there is a reward of $2000 standing for his arrest he has not been captured. He is said to have helped Harry Orchard plant the bomb and to have been near by when governor Steunenberg was blown to atoms.

James McParland, head of the Pinkerton detective agency in the west, who gaind renown for breaking up the Molly Maguire gang in the Pennsylvania coal regions in the seventies, has worked up the case against the federation leaders and claims to have gathered overwhelming evidence of their guilt. McParland declares the story of crime, intrigue and conspiracy that will come out at the trial will overshadow the sensation created by the Molly Maguire expose, and that the red anarchists of Russia will be made to look like a lot of mischievous school boys. He says he can prove by the confessions of Orchard and Adams and by letters he has intercepted that the federation had plotted the death of scores of prominent men who had opposed it.

Chief Justices of the supreme court, former governors, sheriffs and mine managers and owners who had gained the enmity of the miners were marked men. After Orchard's confession a bomb was found under the gate of the home in Denver of judge Goddard of the supreme court of Colorado. Several attempts have been made to kill ex-governor Peabody and his poison his family; but these are only minor incidents, the detective says, in a long list that will show the reign of terror and bloodshed that had been planned.

The trial of the Steunenberg murder case is expected to clear up not only that crime, but scores of killings during the Miners' troubles in the Coeur d'Alenes and in Colorado and a number of other assassinations and disappearances which have been shrouded in mystery.

The federation has employed the ablest counsel to be secured and has subscribed hundreds of thousands of dollars for the defence fund. It is declared that there will be no trouble in proving the innocence of Moyer, Haywood and Pettibone and that if Orchard, Simpkins and Adams killed Steunenberg they did so without the knowledge of the federation's officers.

The defence of the Federation leaders will be led by Chas. S. Darrow, a Chicago criminal lawyer, and it is understood that Bourke Cochran of New York has also been retained. Patterson, Richardson & Hawkins of Denver, John F. Nugent of Silver City, Ida., and Fred Miller of Spokane, are also employed by the defence.

The prosecution is led by James H. Hawley of Boise, Idaho, who has had a remarkably successful record and W. E. Borah of the same town, a brilliant young man, who is styled the "Bryan of Idaho."

Governor Gooding of Idaho is an interested figure in the prosecution. He is English by birth and of indomitable perseverance. Coming to the west when a boy he has accumulated a fortune, all of which he will spend, he says, if necessary to bring the persons implicated in the Steunenberg murder to justice.

LE ROI APRIL RETURNS

April shipments amount to 10,860 tons, containing 4350 ounces gold, 6400 ounces silver, and 223,700 pounds copper; estimated profit on this ore after deducting cost of mining, smelting, realization and depreciation, $43,000; expenditure on development work, $12,000—London Financial News.

FIELDING'S BUDGET SPEECH

(Special to The Daily News)

Ottawa, May 22.—Finance minister Fielding made his budget speech this afternoon. There was a large attendance in the galleries for the occasion. Fielding was able to point to a buoyant revenue, an enormous increase in trade, and general prosperity from one end of the dominion to the other.

NO DIVERSION OF TRADE

J. J. HILL DISCUSSES HIS RAILWAY PLANS.

IS CONTEMPLATING NO INJURY TO CANADIAN PORTS.

St. Paul, Minn., May 22.—James J. Hill said today that his object in building a trans-continental line through Canada does not contemplate a diverting of the trade to the United States, and he has no intention of building up American ports at the expense of Canada.

At a banquet at Montreal on Saturday, minister of justice Fitzpatrick and president Shaughnessy, of the Canadian Pacific, were quoted as saying that Mr. Hill's Canadian projects will divert traffic across the line to American ports.

Mr. Hill added: "If it were our intention to haul Canadian products to America, would it be necessary to construct a new east and west line? We would be able to do that with our present lines, and would not have to spend $300,000 for terminals at Winnipeg. Nor do the people of the Northwest look upon it in that way. When the time comes, the records will show what we are doing. Who does the business of Canada belong to? It belongs, of course, to the people of Canada. If the Canadian Pacific and the Grand Trunk Pacific want the business east of Winnipeg they can have it, but we do not propose to put all our eggs in one basket."

SWELLING FIELDING'S SURPLUS

(Special to The Daily News)

Grand Forks, May 22—Inspector of customs J. S. Clute has been here enforcing the collection of additional customs duties upon certain teams imported recently from the American side, the contention being that they were undervalued at the point of entry.

The proprietor of the Black Hawk livery, J. L. Manly and J. W. Jones are among those who have been called upon to contribute to the dominion revenue sums ranging from $125 to $365.

FIGHT OVER EDUCATION BILL

London, May 22.—The detailed discussion of the education bill in the house of commons is now in full swing and there is every indication of a prolonged struggle.

The opposition is strenuously contesting every point and occasionally the debates are characterized by lively altercations, resulting in the measure making very slight progress.

SASKATOON CAPITAL SITE.

Regina, Sask., May 22.—In the legislature Mr. Sutherland, member for Saskatoon, will tomorrow move for leave to introduce a resolution declaring that in the opinion of the house the seat of government for the province of Saskatchewan should be established at Saskatoon.

FAIRBANKS THREATENED

Fairbanks, Alaska, May 22.—A fire which broke out here today is threatening the town with destruction. The Washington-Alaska bank has been burned and the flames crossed First and Second avenues and are rushing up Cushman street. The national bank is doomed.

NOTED PAINTER'S DEATH

New York, May 22.—Papers found today on the body of a man taken yesterday from the East river, led to the belief that the body is that of John Mulvaney, the painter of "Custer's Last Stand," a picture which has been exhibited in every large city in the United States.

MUD BLOCKS OBSERVATORY

Naples May 22.—The torrent of mud, resulting from the rain of the last few days, has obstructed ingress and egress to the royal observatory and the director and his assistants have been compelled to abandon their posts and come to Naples.

LEVEE AT ST. JAMES

London, May 22.—King Edward held a levee in the throne room of St. James' palace today. The prince of Wales, the duke of Connaught, the cabinet ministers the ambassadors and many other distinguished persons were present.

MACOUN-BORDEN

Ottawa, May 22—One of the most brilliant events which has ever taken place inside the walls of the Dominion Methodist church here, occurred this afternoon, when Miss Julia Maud Borden, second daughter of sir Frederick Borden, minister of militia, was united in marriage to Leslie of Stewart Macoun, son of John Macoun of Belfast, Ireland. Rev. George Salton, pastor of the church, officiated.

MORE CANADIAN CITIZENS.

Quebec, May 22.—The C. P. R. steamship Mount Temple landed 1376 passengers here at 6.50 this morning.

CATTLEMAN KILLED

Plumas, Man., May 22—Kiah Hamilton, of the firm of Hamilton Bros., cattle dealers and butchers of Neepawa, was killed here today while gathering up cattle for shipment.

FIRE IN COURRIERES MINES

Lenz, France, May 22—Fire again broke out in the Courrieres mines, where the disaster of March 10 last occurred. The new outbreak is causing walls to fall in. Steps are being taken to insure the safety of the miners.

PRIEST CHARGED WITH FORGERY

Winnipeg, May 22—Rev. Father Desrosters, a French priest from the village of Aubigny, Man., was placed on trial today, charged with counselling certain electors to commit perjury in order to secure this own election as a school trustee. The case promises to be a very interesting one.

VEIN FOUND IN TUNNEL

Main Ledge of Kootenay Belle Struck at 150 Foot Level

Sheep Creek Property Abandoned by Patsy Clark Realizes Hopes of Its Owners--Ore Averages $75 a Ton

Among the undeveloped or partly developed mining fields of Kootenay none holds the interest of prospectors and promoters at present like valley of Sheep creek, a few miles southeast of Salmo. The district already contains five shipping mines, which are comparatively well known, and which have already made small fortunes for several Nelson men. The Queen and the Yellowstone are proving bonanzas to their present owner, William Waldie. The Mother Lode has more than paid all its expenses to date, and has enough high grade ore in sight to assure profitable operations for many years. The Ore Hill is working steadily and giving good returns.

And now comes word that on the Kootenay Belle the main ledge has been found in the tunnel at a depth of 150 feet, and that there is a wide vein of $75 ore. Fred Drummond, of Salmo who, with J. Billings, of Salmo, and T. Bennett, of Nelson, are the owners and operators, was in the city yesterday, and told the story of the discovery.

The Kootenay Belle has had a chequered history. The owners had little capital to start with, but succeeded in sinking a shaft on the lead, over 100 feet deep. Then a lease was given to G. D. Bell, of Salmo, who ran a tunnel some distance, but did not find the ledge.

Patsey Clark, of Spokane, then took a bond and lease, and continued the tunnel in the direction of the shaft. But, although his engineer, Mr. Harvey, advised further drifting and was confident that he would find the ledge before he reached the location of the shaft, Mr. Clark was impatient and gave up his bond.

The owners, at that time, last May and June, had the Mother Lode on their hands, and were not financially equal to handling both mines. Therefore G. D. Bell's request for a renewal of his lease was granted. The terms were that he should continue the tunnel towards the shaft and upraise to connect with it. The lessee drifted about six feet, then he also lost faith, and stopped.

Last December the Mother Lode was bonded to A. F. Dixon of Nelson. His operations were successful from the start, and from that source the owners of the Kootenay Belle soon had funds to resume work with. The first necessity was to unwater the shaft. As soon as that was accomplished work was resumed in the tunnel Pay ore, of an average of about $40 had already been taken out of the tunnel by Clark and Bell, but the main ledge had not been struck, and on its survival at depth depended the value of the property.

Bell had drifted about six feet further than Clark. The owners drifted only three feet farther when they struck the ledge, wider than it was at the surface and averaging $75 a ton. The point in the tunnel where the vein was found is 150 feet below the surface, and the vein is continuous between with values uniform.

Mr. Drummond and his colleagues are naturally jubilant and the news of the discovery was hailed with delight by the 40 or more claim owners in Sheep creek valley, who, without machinery and without capital are doing their best to develop properties which all mining men who know the district thoroughly believe in, and expect to prove rich beyond the expectation of their owners. The veins are all fissures, and except in the Ore Hill mine, which contains galena, all the values are in free milling gold.

HARD HIT BY 'FRISCO DISASTER

Lady Hesketh Has Been Compelled to Close Her Country House.

London, May 22—Many people in England have been hard hit by the San Francisco disaster. It has been the direct cause of the closing of the beautiful country mansion of Easton Neston, near Towcester, which was kept in good style by lady Hesketh, nee Florence Sharon of San Francisco, who frequently entertained there king Edward, when prince of Wales. Lady Hesketh has lost heavily by the destruction of the Palace hotel.

Another large holder of San Francisco interests was Richard Burke, master of the Tipperary Hunt. He has had to give up hunting and sell his establishment. Mr. Burke who is on his way to San Francisco to watch the reconstruction, was interested in the Occidental and Palace hotels, the gas works, the opera house and Californian railroads.

FORGING SHOP DESTROYED

Toronto, May 22—The forging shop of the Toronto Bolt & Forging company, at Swansea was gutted by fire early this morning. The loss is about $200,000, with insurance of about $75,000. Three hundred and fifty men, a large number of whom are mechanics, will temporarily be thrown out of work.

SHERRING'S TRIUMPHAL TOUR

Toronto, May 22—Sherring, the winner of the Marathon race, arrived here this afternoon from Montreal. He received an enthusiastic welcome. He leaves for Hamilton tonight.

TYPOGRAPHICAL UNION LABEL

ELECTIONS THIS FALL

It appears to be pretty generally understood that the first conservative government British Columbia ever had will appeal to the country some time before the end of the present year.

Those who should know, say that the government forces are being carefully organized, that a very careful canvas is now being conducted throughout the upper country to ascertain public sentiment, and that if present plans mature the elections will take place at the latest immediately after the November revision of the voters' lists.

There is no particular reason why the government should not go to the country this year and a variety of cogent reasons can be advanced why they should not again face the legislature as at present constituted.

Ex-attorney-general Wilson is too strong a party man to say much about his reasons for quitting the government until he is compelled to talk. If the legislature reassemble before a general election Mr. Wilson will have to enter into explanations and there is very good ground for the assertion that the premier does not want those explanations made. Matters affecting the lands and works department that were practically ignored at the last session because of the time taken up with the Kaien island land deal will assuredly be enquired into in the event of another session being held before the appeal to the country, and here again the premier scents danger. The odium of the Kaien island deal all but wrecked his government and fresh revelations of maladministration in the lands and works department would certainly prove fatal.

But there is naother, and from a party point of view, a graver danger to be confronted should another session of the legislature be held. So far premier McBride has had the slavish support of the socialists without any quid pro quo, that is to say without any concession to socialistic legislative demands, whatever arrangement he may have had with the socialist members personally.

Now it is well known that socialists throughout the province regard this arrangement as altogether too one-sided. Many of them go a great deal further and declare that no possible concession could justify leader Hawthornthwaite's unqualified support of the Columbia & Western land grant, his defense of the Kaien island land deal, and his failure to use his undoubted advantage in the house to secure the passage of certain measures. Leader Hawthornthwaite, therefore, if he is to continue to be a political factor, cannot allow another session to pass without at least attempting to make good, and that means putting the screws upon the government in a manner that might prove extremely embarassing.

In the same way that socialists throughout the province resent Hawthornthwaite's active endorsement of the government's policy, hundreds of conservatives bitterly resent their leader's open alliance with the socialist party in the legislature. They believe that an alliance between political parties whose principles are so entirely opposed cannot be excused upon grounds of political exigency, that the temporary advantage this alliance gives the government will not compensate them for the loss of votes it must inevitably entail if the alliance be maintained. It is plain therefore that to meet the house again under existing conditons would place the premier in a very awkward position.

On the other hand, premier McBride may well feel that the best time to go to the country is when he is sure of control of the election machinery and from numerous indications now apparent it is a safe bet that the general elections will be brought on before Christmas Day comes round again.

The Victoria Times foresees an appeal to the country this fall and in summing up its reasons for forming this conclusion, says:

If the members assemble again their own political lives will by that time appear of more importance to them than the salvation of a government whose acts of administration have not produced what can accurately be described as a sweet savor, grateful to the senses of either representatives or represented. They will be principally concerned about making peace with their constituents, a consummation not to be attained by votes condoning the Kaien island deal or other deals just as scandalous. It is therefore for the premier to decide which course of action involves the greater risk to his retention of power. If he were to meet the house and be defeated he would forfeit the privilege of an appeal to the country as premier. If he were compelled to take the field as the leader of a conservative oppwosition on his record as the chief of the present administration, the conservative party of British Columbia would be as the conservative party of Nova Scotia, there "would be no sich thing."

And in this connection we desire to draw attention to the fact that all things hav been made ready for a dissolution. The deals by which the country has been robbed of public lands worth millions of dollars have, we may be sure, resulted in an assurance of a fat campaign fund. A "newspaper" is to be published in the city of Nelson, a field which admittedly cannot support one daily, purely for political purposes. Such a project would not be entertained if there were not an election pending. Therefore we hold there is every reason for believing that premier McBride foresees the possibility that it will be inexpedient for him to again meet the legislature as at present constituted.

A copy of the Manhattan Mail, published at Manhattan, Nevada, has been forwarded to us with the request that we take immediate steps to correct the false impression that might be created by the reference made therein to British Columbia's mining industry. In what purports to be a summary of the annual gold output of different countries, the following reference is made to British Columbia: "British Columbia—Results here have not been up to expectations. For the last three years has gone backwards rather than forwards. The Atlin hydraulic field promises well. The Ontario mines have failed, in a large number of instances, to become producers. Taken with Canada, yearly output $6,000,000." There is certainly something vague and misleading in the foregoing citation, but it is safe to say that anyone who would form an opinion of the mineral resources of British Columbia upon such meagre (mis)information would hardly be likely to benefit by a statement of the facts. However, we are forwarding to the editor of the Manhattan Mail some printed matter which may induce him to refer to the subject again with a better understanding of the situation.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FATALITY NEAR NEW DENVER

James Martin Killed By Collopse of Derrick at Bosun Landing.

James Martin, an old Sandon miner, met death by accident near New Denver Monday night. An inquest will be held today by the district coroner, Dr. E. C. Arthur, on the arrival of the Slocan lake steamer at New Denver.

The deceased was employed in a derrick gang at Bosun Landing, a little south of New Denver. The derrick was used to lower ore from the cliff to the landing. During the operation the gin-pole of the derrick broke and fell striking Martin and killing him instantly.

Word of the fatality reached provincial police headquarters yesterday afternoon by way of New Denver, and details were added by passengers who arrived on the Slocan train. Provincial constable J. T. Black, whose duties in connection with the assizes are over, will accompany the coroner today.

Little is known in Nelson of James Martin, except that he is an elderly man and an old timer in the Slocan district, having worked for many years in mines in Sandon camp.

SAVED BY ARREST

Intoxicated Indians Found Sleeping on Railway Track—Other Police News

In the city police court yesterday morning five offenders faced the magistrate. In each case liquor was the cause of offending.

Peter McLean, familiarly known as "Kruger," an old offender, pleaded guilty and was sentenced to 60 days in the provincial gaol.

J. Ryan, who completed a term of two months in gaol for vagrancy on May 10, had been found drunk and taken in charge. Ryan pleaded for an opportunity to leave the city and return to his home in the eastern states. He was remanded for three days.

A first offender charged with drunkenness was allowed to go paying costs.

Two Indians appeared charged under the Indian act, one with being intoxicated, the other with having an intoxicant in his possession. The prisoners probably owe their lives to their arrest. Monday night at 9:30 they were found asleep on the track in the C.P.R. yards near where freight trains were soon to be shunted. They were remanded for three days for sentence.

'FRISCO'S DEATH ROLL.

San Francisco, May 22—Four cases were added to the coroner's list of earthquake and fire victims yesterday, making the total number 395.

NELSON, B.C.

RECOMMENDED TO MERCY

ANDERSON IS SENTENCED TO EIGHTEEN MONTHS.

CRIMINAL LIST AT ASSIZES IS ENDED.

The last case on the criminal list at the assizes yesterday disclosed some rather unusual features. It was what is locally known as the Bonnington axe case. George Anderson whose nickname is "Skin-the-Goat," did not appear in the proceedings yesterday, was charged with wounding with intent to murder Charles Street, at the pool just below Slocan junction on Monday May 14 last. Both men are boatmen and fishermen, and the story of how Anderson attacked Street with an axe, severely wounding him is fresh in the minds of all readers of The Daily News. The somewhat unusual features of the case which appear in the evidence given hereunder, the that the man charged with committing the serious offence was shown to be an epileptic, suffering at times frequent lapses of memory owing to the attacks of epilepsy, and the man assaulted was shown to have done several things after the attack was made on him of which he had no subsequent recollection, his mind being a blank on the subject from the moment he received the most crushing and serious of the axe wounds until he found himself coming up on the train to Nelson on his way to the hospital ten hours after the occurrence.

Whiskey appears to have crept into the whole matter and to have befuddled the brains, temporarily of the chief actors. But for the intervention of two young Englishmen—non-drinking men—at the time of the assault, their prompt actions later and their subsequent appearance in the witness box yesterday, the assault would have undoubtedly ended more seriously than it did, and what happened, so far as the court and jury were concerned would have been conjecture largely.

As it was the sane and wholly intelligent statements made by F. C. and L. J. Jones made everything fairly clear as to what was actually done, including the fact that after Street had been conveyed to his cabin some 150 yards from where he was assaulted he recovered sufficiently to march back the two Jones brothers at the point of his rifle to Anderson's cabin while he endeavored to locate his assailant, ending with his second collapse and removal back again to his cabin, of all of which later details Street declared himself yesterday as being totally ignorant.

Anderson, who was cleverly defended by A. M. Johnson, under the direction of the court, looked ill and frail, in the dock. He complained of not being able to hear what was going on and had the appearance of being feeble minded.

When a jury was called there were no challenges and the following were quickly selected: E. W. Widdowson, (foreman); W. G. Thomson, A. W. Hyndman, A. Wright, S. H. Nolan, F. W. Arundel, C. T. Partington, J. L. Porter, D. A. Munro, B. Isaac, Anthony Turner and C. F. Hutton.

Mr. McAnn, for the crown, called Charlie Street, the man assaulted. Street heard with difficulty, had his arm in a sling and his head swathed in bandages, mute testimony of the serious injuries he had undergone. He said he was a miner but had gone in for fishing and boating this summer in company with George Clark, the two living in the same cabin at the pool below the second fall on the Kootenay river just to the west of the city. On Sunday, May 13, he had spent the afternoon, all night and part of the following early morning at Smith's hotel, Slocan junction, drinking beer and playing poker. He admitted a fairly generous consumption of beer up to the time he had a row with Anderson, then some whiskey and said he took a bottle of "Club" down with him when he and Clark went home Monday morning about 5 o'clock. About midnight Anderson and he had some words over the card games, Anderson reached over and plucked him by his beard and he promptly knocked Anderson down with his fists. Then Anderson went off and later he and Clark went down to their cabin. The two called on Kelly, a neighbor, to offer him a friendly drink and then went on to the cabin occupied by the Jones brothers and Anderson. "I had been there about 20 minutes in the inner room," continued the witness, "talking to F. C. Jones when I saw Anderson coming at me with an axe. He hit me three times. I tried to ward off the blows but fell down and don't remember anything more, until I found myself on the train on my way to the hospital."

To Mr. Johnson, the witness denied all knowledge of being in the front room or of offering Anderson a drink, or of subsequently marching the Jones boys from his cabin back to theirs at the point of his rifle to look for Anderson. His mind was a blank until he was on the train several hour later. He admitted taking beer and subsequently whiskey, "after the trouble" at Smith's hotel, and of bringing a bottle of Club whiskey back with him and of taking some of the contents while at the cabin. He recollected asking Anderson to have a drink when he came with the axe.

Dr. Hawkey testified to being called to Slocan junction to look after Street on May 14 and of dressing his wounds and bringing him up to the hospital here. He described the wounds at length—three severe ones on the head, one on the hand and a badly bruised shoulder.

To Mr. Johnson he said the blows were evidently glancing ones, had some of them been direct they would have proved fatal. Street's long and heavy head of hair also saved him from still more serious injury.

James Kelly, a neighbor, testified to seeing Street march the two Jones boys past his cabin on the Monday morning at the point of a rifle. He went back and shut the door so as to keep out of trouble. Anderson was often in a very peculiar state; he had known him well for several years, and frequently had seen him sitting and shaking in a queer way and then all of a sudden wake up and ask what had happened.

George C. Clark, fisherman and chum of Street, told the story of how the Sunday afternoon had been passed and up to 5 o'clock Monday morning when he and Street were sitting in the Jones brothers cabin. Street was in the inner room when Anderson suddenly came in. Street came out with the bottle in his hand and asked Anderson to have a drink. Anderson said, "What are you doing in my cabin?" and struck at Street with an axe. Street fell and Anderson hit him twice more. Jones interfered and pushed Anderson aside. Someone said, "Anderson, don't kill him."

F. C. Jones, who in company with his brother, lived with Anderson in the cabin at the pool, detailed minutely all that took place when Street, Clark and later on Anderson came into the cabin on the Monday morning. When Anderson arrived and saw Street he said that he had no business to be there and then went outside. Street got off witness' bunk where he had been sitting and went to the cabin door offering Anderson a drink and asking him to have no more bad feeling. Anderson then took up an axe and attacked Street who backed away and finally tried to rush Anderson out of the door but fell in the outer room

To Mr. Johnson—Both Street and Clark were more or less drunk when they came to the cabin. Consider Anderson mentally deranged. He is subject to fits and at times his memory leaves him. The prisoner was raving after the assault. During Monday he was "terrorized" i.e., afraid of what Street would do to him. Ordinarily the accused was always quiet and harmless.

L. J. Jones, brother of the previous witness told practically the same story as his brother. He said that before Street and Clark arrived on the Monday morning at the cabin the accused had come in hurriedly, gone into his brother's room, the latter being asleep, and took down the rifle from the wall. He went outside and then came and put the rifle back on the wall again. The gun was not loaded and only he and his brother knew where the cartridges were. He agreed that Street and Clark were both drunk when they arrived at the cabin and that Anderson was ordinarily a quiet, inoffensive man, subject to frequent lapses of memory, giving as an instance one occasion when Anderson had sat down and eaten his dinner, had a fit, and on coming to himself declared that he had eaten nothing and immediately finished off his, the witness' dinner plate. He added that after Anderson had been driven off the first time, he got another axe and smashed in the window with it, trying to get at Street once more. He and his brother fixed up Street's wounds and helped him to his cabin 150 yards away. While they were starting to come back Street suddenly appeared in the doorway, rifle in hand and ordered them to wait, He went on at first but on Street threatening to shoot, he stopped and Street made the two of them walk back to their cabin at the point of the rifle. Street was looking for Anderson, but could not find him. He collapsed a second time and was taken back to his own cabin again.

To Mr. Johnson, the witness said he had known Anderson to have seven fits in one day. He would not know what he was saying or doing during the fit or for some time afterwards. A small matter would bring on a fit. He had one just as he was arrested.

This closed the case for the crown, the axe with which the slashing was done having been produced and identified. Just an ordinary woodman's axe with a sharp edge.

For the defence Mr. Johnson called Fred Addie, of Waneta, and Wm. Stubbs, rancher, of Thrums, who testified to the general mental condition of the accused during the last few years. He was constantly subject to epileptic fits and had seven or eight on some days.

Dr. Hawkey said the prisoner suffered undoubtedly from a mild form of epilepsy. The numerous fits described might lead up to a very serious fit. The accused might have had one of these more serious seizures on the Monday morning in question, such a thing was possible. The prisoner had delusions possibly but he considered him sane ordinarily.

Mr. Johnson made a brief address to the jury laying stress on the prisoner's affliction and asking if he were in possession of his mental faculties at the time of the occurrence or if he were crazed with fear at Street's approaching him with the bottle, believing that he was about to be attacked again. Counsel also read several quotations from medical authorities on the effects of epileptic attacks, at the time and subsequently.

Mr. McAnn contented himself with a very brief review of the facts and then his lordship charged the jury leaning strongly, under all the circumstances, in favor of the evidence supporting a conviction for wounding, without the serious addition of "with intent to murder." The jury then retired and after being out a little over an hour brought in a verdict of guilty on the second count in the indictment, "wounding with intent to do grievous bodily harm," adding a strong recommendation to mercy on account of the prisoner's admitted infirmity.

His lordship then sentenced the prisoner to eighteen months in the provincial jail, and the criminal part of the assizes came to an end.

DOCTOR BRIGHAM SAYS

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for female trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular periods, bloating (or flatulence,) weakness of organs, displacements, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound. If advice is needed, write to Mrs. Pinkham, at Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. No other living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be happy and well

PRESENTMENT

Grand Jury Visit the Jail and Say Complimentary Things of the Warden

About 11 o'clock yesterday while the Anderson case was in progress at the assizes the grand jury filed into the court room and through H. E. Croasdaile, their foreman, made the following presentment.

May it please your lordship, we the grand jurors for the Kootenay district present: That we have visited the jail at Nelson and find that the same high standard of cleanliness, order and discipline that we have always found under the present warden is being maintained.

We desire to call the attention of the government through your lordship to the yearly destruction of large areas of valuable timber owing to unchecked forest fires and to urge that more vigorous steps be taken to prevent and check these fires, and if necessary that more stringent legislation be introduced.

We desire to express the gratification of the district at the appropriation made for the long-needed court house, which gratification will be greatly enhanced by the early commencement and active prosecution of building operations.

HENRY E. CROASDAILE.
Foreman.

Nelson, May 22, 1906.

Many housewives think it cheaper to buy than to bake. That is because their baking isn't successful every time. Their failures run the cost up. Get

Royal Household Flour

and follow directions. The result will be light, wholesome bread or pastry every time. You pay a few cents more for Royal Household, but those few cents buy *certainty and purity. Your* grocer can supply you.

MOVE TO EXPEL CACERES

MORALES WANTS TO BE BOSS AGAIN IN SANTO DOMINGO

NEXT WEEK WILL PROBABLY SEE THE REVOLUTION STARTED

Washington, May 22—Disquieting news received today by the state department that the revolutionary movement in the West Indies directed against the administration of president Caceres of Santo Domingo, led to a conference taking place between officials of the state and navy departments. Details of the movement are vague, but they indicate that ex-president Morales is now in St. Thomas and is making a determined effort to expel Caceres and regain the presidency. Some of the leaders who were instrumental in ejecting Morales from office are now said to be on his side and many rumors have been received of purchases of arms and the gathering of revolutionists in ports adjacent to Santo Domingo.

It also appears that ex-president Jamaines is also taking an active part in the movement and he has recently addressed several letters to secretary Root containing long arguments to demonstrate the justice of permitting him and his party to make an unimpeded effort to regain possession of Dominican rule. At last accounts he was reported to be in Porto Rico.

The navy department has forwarded to commander Sutherland on the Yankee, such information as it has received through the state department, leaving him full charge as to his action.

The advices to the state department above referred to came from the acting governor of Porto Rico and are to the effect that munitions of war are being collected for an expedition against Santo Domingo. These supplies are being shipped from St. Thomas, British West Indies, to a place called Bajabon in Hayti on the coast and very near the Dominican Boundary. The leaders of the expedition are expected to embark from Porto Rico about he middle of next week.

Minard's Liniment Lumberman's Friend.

MONEY IN ZION CITY

If Properly Managed Estate Will Pay One Hundred Cents on Dollar

Chicago, May 22—Judge Landis today, in the United States district court, issued an order restraining Wibur G. Voliva and all Voliva's attorneys, agents and employees from disposing of or in any manner dissipating the estate of Zion City.

An injunction previously issued, enjoining counsel of Voliva from attempting to secure the dissolution of an injunction in the state which prevents Voliva from interfering with Dowie, was dissolved by the court. Judge Landis said that he preferred to preserve the estate under his own order. In making the order Judge Landis said that the agents who had been appointed by him for the purpose of examining into the condition of affairs at Zion City had reported to him that the Zion City industries can make money, that there has been no misappropriation of funds and that under proper management the estate can be made to pay one hundred cents on the dollar.

LICENCE TO AN EXTRA-PROVINCIAL COMPANY

"Companies Act, 1897."

Canada,
Province of British Columbia.
No. 345.

THIS is to certify that the "Canadian Pacific Timber Company, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate in London, England.

The amount of the capital of the Company is £60,000, divided into 60,000 shares of £1 each.

The head office of the company in this Province is situate at Nelson, and Leslie Hill, Managing Director of the Company, whose address is Nelson, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 10th day of May, one thousand nine hundred and six.

(L.S.) S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and licensed are:

(a) To enter into and carry into effect with or without modification the agreement mentioned in clause 3 of the Articles of Association;

(b) To carry on business in Canada or elsewhere as sawmill proprietors, timber merchants and timber growers, and to buy, sell, grow, prepare for market, manipulate, import, export and deal in timber and wood of all kinds, and to manufacture and deal in articles of all kinds in the manufacture of which timber or wood is used, and to carry on business as shipowners and carriers by land and sea, and to far as may be deemed expedient the business of general merchants, and to buy, clear, plant and work timber estates and limits;

(c) To seek for and obtain openings for the employment of capital in Canada or elsewhere, and with a view thereto to prospect, inquire, examine, explore, test, and to despatch or employ expeditions, commissioners, experts and other agents;

(d) To puchase or otherwise acquire property and rights of all kinds, and in particular lands, buildings, mines, mining rights, options, concessions, water rights, and water power for the purpose of generating electricity for domestic purposes or otherwise, stations, farms and business concerns and undertakings in Canada or elsewhere, and to make advances upon the security of, and to deal in, traffic by way of sale, lease, exchange or otherwise with any such lands, mines, options, rights and property;

(e) To develop the resources of and turn to account any lands, buildings, rights and property for the time being of the Company, in such manner as the Company may think fit, and in particular by irrigating, clearing, draining, fencing, planting, building, improving, farming, grazing and by promoting immigration, establishing towns, villages, and settlements.

(f) To buy, sell barter, import, export, manipulate, prepare for market, and deal in merchandise, stores, live and dead stock, and goods and chattels of all kinds, and generally to carry on business as storekeepers, merchants, general agents, importers and exporters;

(g) To carry on business as farmers, millers, flour, corn and meal merchants, fruit preservers, dealers in and breeders of live cattle, sheep and goats and horses and all kinds of live and dead stock and agricultural produce, stockmen, graziers, dealers in meat, hides, skins, fat and other animal products, carriers, builders and contractors;

(h) To acquire, carry out, establish, construct, maintain, improve, manage, work, control and superintend any roads, ways, tramways, railways, bridges, reservoirs, watercourses, ditches, wharves, embankments, telegraphs, telephones, sawmills, smelting and other works, furnaces, warehouses, hotels, transport and postal arrangements, stands, stores, shops, stations and other works and conveniences for the working and development of any concessions, rights or property of the Company, and to contribute to, assist in, or contract for the carrying out, establishment, construction, maintenance, improvement, management, working, control or superintendance of the same;

(i) To carry on any business which may seem to the Company capable of being conveniently carried on in connection with any business which the company is authorized to carry on, or may seem to the Company calculated directly or indirectly to benefit this company, or to enhance the value of or render profitable any of the Company's properties or rights;

(j) To apply for, purchase or otherwise acquire any patents, licences and the like, conferring an exclusive or non-exclusive or limited right to use, or any secret or other information as to any invention which may seem capable of being used for any of the purposes of the Company, or the acquisition of which may seem calculated directly or indirectly to benefit this Company, and to use, exercise, develop, grant licenses in respect of, or otherwise turn to account the rights and information so acquired;

(k) To lend money to such persons and on such terms as may seem expedient, and in particular to customers of and persons having dealings with the Company, and to give any guarantee or indemnity as may seem expedient;

(l) To acquire or carry on all or any part of the business or property, and to undertake any liabilities of any person, firm association or company possessed of property suitable for any of the purposes of this Company, or carrying on any business which this Company is authorized to carry on, and as the consideration for the same to pay cash, or to issue any shares, stocks or obligations of this Company.

(m) To enter into partnership or into any arrangement for sharing profits, union of interest, joint adventure, amalgamation, reciprocal concessions or co-operation, with any person or company carrying on or engaged in, or about to carry on or engage in, any business transaction which the Company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as to directly or indirectly benefit this Company, and to take or otherwise acquire and hold shares of stock in or securities of, and to subsidise or otherwise assist any company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with such shares, stock or securities;

(n) To purchase, take on lease or in exchange, hire or otherwise acquire any real or personal property, rights or privileges which the company may think suitable or convenient for any purposes of its business; and to erect and construct buildings and works of all kinds;

(o) To sell, exchange, mortgage, lease or otherwise dispose of or deal with the property, rights or undertaking of the Company, or any part thereof, for such consideration as the Company may think fit; and in particular, wholly or in part, for shares, debentures or securities of any other company, and whether any liability shall attach to such shares, debentures, or securities or not;

(p) To purchase, subscribe or otherwise acquire, and to hold the shares, stocks or obligations of any company in the United Kingdom or elsewhere, and upon a distribution of assets or division of profits to distribute any such shares, stocks or obligations, or any part of the property of the Company, among the members in specie, but so that no distribution amounting to a reduction of capital be made without the sanction of the Court where necessary;

(q) To borrow, raise and secure the payment of money in such manner as the Company shall think fit, and in particular by the issue or deposit of debentures, debenture stock or other obligations, perpetually or otherwise, or by mortgage or charge over the undertaking and all or any part of the property, present or future of the Company, including its uncalled capital, as may seem expedient, and to procure the guarantee of any moneys borrowed, raised or secured in such manner and upon such terms as may seem expedient;

(r) To make, draw, accept, sign, endorse, issue and negotiate bills of exchange, promissory notes, receipts, cheques, bills of lading, and other mercantile documents;

(s) To promote and aid in promoting, constitute, form or organize companies, syndicates or partnerships of all kinds, either for the purpose of acquiring and undertaking all or any properties and liabilities of this Company, or of advancing directly or indirectly the objects thereof, or for any purpose which this Company may think expedient;

(t) To remunerate any person or corporation, whether in the form of brokerage, commission or otherwise, for any services rendered in the formation of the Company, or any such company or syndicate as mentioned in the last preceding sub-clause, or for introducing business or otherwise assisting or rendering services to the Company;

(u) To pay the costs, charges and expenses preliminary and incidental to the promotion, formation, establishment and registration of the Company and any usual brokerage; to pay commissions to any person or corporation for subscribing, or agreeing to subscribe, whether absolutely or conditionally, for any shares in the company, or procuring or agreeing to procure subscriptions, whether absolute or conditional, for any shares in the Company; to give calls or options at a fixed price, not being less than par, or otherwise on any shares the Company has power from time to time to issue, and that either by way of commission for subscribing, or agreeing to subscribe, whether absolutely or conditionally, for any shares in the Company, or procuring, or agreeing to procure subscriptions, whether absolute or conditional, for any shares in the company, or for any payment or valuable consideration to the company, and generally to exercise the powers conferred on the Company by section 8 of the Companies Act, 1900;

(v) To enter into any arrangement with any governments or authority, supreme, municipal, local or otherwise, and to obtain from any such government or authority any rights, concessions and privileges that may seem conducive to the Company's objects or any of them;

(w) To support and subscribe to any charitable or public object and any institution, society or club which may be for the benefit of the company or its employees or may be connected with any town or place where the Company carries on business; and to give pensions, gratuities or charitable aid to any person or persons who may have served the Company, or to the wives, children or other relatives of such persons; to make payments towards insurance, and to form and contribute to provident and benefit funds for the benefit of any person employed by the Company;

(x) To do all or any of the above things in any part of the world, and as principals, agents, contractors, trustees or otherwise and by or through trustees, agents or otherwise, and either alone or in conjunction with others.

(y) To establish and maintain agencies of the Company in any colony or foreign state, and to procure the Company to be registered or incorporated or recognised in any colony or foreign state;

(z) To do all such other things as the Company may think incidental or conducive to the attainment of the above objects,

CANADIAN LABOR BUREAU

PRESTON AGAIN EXAMINED AS TO RELATIONS WITH LEOPOLD

SECURING MINERS FOR CROW'S NEST PASS COAL CO.

(Special to The Daily News).

Ottawa, May 22.—At the public accounts committee today Preston continued his evidence. A letter to Ennis, the Liverpool agent of the Allan line, was produced. It was written and signed by W. L. Griffiths, secretary to the high commissioner, and asked Ennis to give certain correspondence Ennis had with Preston about Leopold, as lord Strathcona wanted it. On this letter Ennis turned over the originals of letters he had received from Preston.

"Lord Strathcona," said Preston, when Griffith's letter was shown him by Preston, characterized it as "false in every line."

Barker—Previously you said that these letters were stolen from your office. Now it turns out that these letters were not stolen but obtained from Ennis.

Preston—I thought you had not been as well posted as you might have been. What I previously stated was that carbon copies of these letters were stolen from my office. The originals were obtained from Ennis by forged request. The request which lord Strathcona said was a lie.

The letter from Preston to Ennis was read. It was written July, 1903, in London, and went on to say that he (Preston) was getting applications for skilled labor and could not handle them because the department only wanted agriculturists.

MacLean (Lunenburg) protested against Barker using copies of stolen letters when he could not produce the originals. This was an offence against the criminal code.

At the agricultural committee today Ralph Smith examined Preston in regard to the Canadian labor bureau, of which Leopold was the head.

He asked what Preston's instructions were in regard to sending out skilled labor. Preston replied that at the beginning his views were that the department had not such stringent views in regard to skilled labor coming to Canada as were brought to him later on. If there were any special instructions from the department when he went to England he was not aware of it. He explained how, on one occasion, Mr. Just, one of the clerks in his office, had prepared a sterotyped letter in answer to certain questions, one of which was that skilled laborers should apply to the Canadian labor bureau. As soon as he knew of this circular he had it recalled. There were about 100 or 150 issued from his office. His attention was called to it by Mr. Smart.

Smith—Had you any connection with the bureau?

Preston—No.

Smith—Did you not write Ennis, at Liverpool, on the subject?

Preston—My letters on the subject are before the committee. They were stolen and if you produce them they will speak for themselves.

Smith—I am not dealing with stolen letter. But you encouraged the establishment of this bureau in London?

Preston said that to some extent he did, as Leopold sent agriculturists as well as skilled laborers to Canada.

Smith—The aims of the minister of the interior in regard to immigration were confined to agriculturists.

Preston said that he was aware of that later than the time mentioned.

Turiff—Did Leopold send skilled laborers without getting positions for them first.

Preston said he had impressed that upon Leopold and in one case Leopold returned a man his fare because he said that work was not given him as promised. Later it turned out that man got homesick after working three days at Collingwood.

Preston went on to say that Leopold was a friend of his; a thoroughly responsible agent, but notwithstanding this he had twice recommeded that Leopold's name be struck from the list of those who got bonuses from the government and the reason was that Leopold was engaged on the bureau work.

To Mr. Smith Preston said that he held £6000 of the Crow's Nest people's money to repay Leopold for sending out miners to Fernie. He did not know there was a strike on in Fernie. Mr. Lindsey for the Crow's Nest company, had been looking after the matter.

Mr. Smith—The miners returned because the strike was off?

Mr. Preston said that was not the reason Lindsey gave him. Mr. Bell, M.P., for Durham, England, got the men and Leopold engaged them. He merely held the money.

Smith produced a letter marked "Not to go in," which showed that Leopold had drawn some £90 from the North Atlantic Trading company, two or three years ago.

Mr. Preston said that this might be so. He would not be surprised if Mr. Smith produced a letter that it went through his office, but for all that, he (Preston) knew nothing of it.

U. S. IMMIGRATION LAWS

Complaint Against Provision Which Excludes Agricultural Laborers.

Washington May 22.—Senator Dillingham, chairman of the committee on immigration, today called up in the United States senate the bill amending the immigration laws. Presenting the merits of the measure, he said it was intended to strengthen the law of 1903 which is working admirably. He did not accept some of the popular theories concerning immigration, but held the belief that the influx of foreigners is regulated by the labor market. That in dull times the number is small and in good times large as for instance 1,026,000 in 1905, as compared with 229,000 in 1898. He also found encouragement in the fact that over 80 per cent of the immigrants are between the ages of 14 and 44 or at the age when persons are least likely to become public charges. These facts, he thought, should go far to relieve apprehensions regarding the foreign invasion, also to show the effectiveness of the present law, which he regarded as a masterpiece of legislation.

Senators Piles and Perkins criticized the present law as too lax, but senator Dillingham replied that the law had not been sufficiently tried to justify the condemnation.

Senator Bacon made the point that the existing law excluded agricultural laborers under contract. He thought that if the barrier were removed most of the southern states would bring over immigrants from the agricultural districts of the old world.

There is a growing need of laborers in agricultural pursuits," he said.

BRYAN FOR PRESIDENT.

Democrats of Northwestern Ohio Still Loyal to the Nebraskan Orator.

Lima, O., May 22.—William Jennings Bryan was endorsed for president here today by the democratic judicial convention of 16 counties in northwestern Ohio. The resolutions, which were adopted with cheering, declare that Mr. Bryan would have been re-nominated and elected in 1904 had the trusts not stolen the nomination from him, and that the national democracy will nominate him in 1908 by acclamation.

N. A. L. STOCKS AND INVESTMENTS

Toronto, May 22.—Shepley, the government counsel, investigated the North American Life Assurance company's stock holdings and past investments at the inquiry this morning.

Goldman, managing director, stated that his company had never had a bond or debenture on which there had been a default of interest. He explained that on December 31 of each year a list of stocks held by the company were sent to brokers. They sent him back a signed list showing the market value of the company's stocks on that date and this list was used in the annual statement of the company's assets. Witness said that while people talked glibly about the assets of British companies, outside of the officers and directors themselves nobody knows what the assets really are.

THE CIVIL LIST.

Trial of Attorney General vs. Daly—No Court Session Tomorrow.

At the conclusion of the criminal list of the assizes yesterday afternoon, Mr. justice Morrison commenced on the trials of the civil actions. Two out of the seven on the list, Cline vs. White Bear Mining company, and Blakemore et al vs. Tuttle et al, have already been disposed of as published. The third case of his majesty's attorney general for the province of British Columbia, and John Mr. Smith vs. Patrick Daly, W. M. Coffey, A. J. Hughes and John Ryan is now on trial, a start having been made about 3.30 p.m. yesterday. A. H. MacNeill, K.C., of Rossland appeared for the plaintiffs, and S. S. Taylor K. C., and with him J. O'Shea, for the defendants.

The defendants are all residents of Ymir and the plaintiffs seek to have a declaration made that two certificates of work on the Yukon Fractional mineral claim near Ymir were fraudulently obtained and should be set aside, together with the certificate of improvements.

The case will be resumed this morning at 10.30 o'clock.

Mr. Taylor asked his lordship whether court would sit on Victoria Day and after ascertaining that it was not the usual custom to sit on that day here, Mr. justice Morrison said he would follow suit and when court adjourns this evening it will be until Friday morning.

EXCURSION TO ROBSON.

Attractions Prepared By Kootenay Fruit Lands, Ltd., For Tomorrow.

The excursion to Robson and return tomorrow, under the auspices of the Kotenay Fruit Lands, Ltd., promises to be well attended.

The company has prepared many attractions for the excursionists. The grounds round East Robson form an ideal picnic site; the steamer Minto has been chartered for outings on the Columbia river, and for those who prefer taking lunch baskets and faring in picnic style to dining on car or steamer, tea and coffee will be provided without charge.

It is expected that the Nelson excursionists will be joined by many from Rossland and Trail. The company is placing some of its choicest blocks of fruit land on the market, and Rossland and Trail investors have already been making efforts to secure them.

NO RUN ON THE BANKS.

'Frisco Receiving Tellers Busier Than Paying Tellers.

San Francisco, May 22.—The anticipated run on the banks yesterday did not materialize. When they opened in their town quarters they did so expecting a rush on the part of depositors and fully prepared to meet it. Instead of heavy demands for payment there was a much larger stream of depositors and each receiving teller was far busier than the paying teller.

That absolute confidence reigns in banking circles here was made evident today when several savings institutions announced that they would open for business tomorrow instead of waiting until May 28, the date previously agreed upon. That conditions are rapidly approaching normal in financial circles was indicated by the holding of a regular clearing house today, in the new quarters of the clearing house in the Mercantile Trust building.

Minard's Liniment is used by Physicians.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that linament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

TO PRESERVE NIAGARA FALLS

Washington, May 22.—The house committee on rivers and harbors today agreed to an amendment to the bill for the preservation of Niagara Falls, calculated to meet the demands of the Chicago drainage canal. The amendment established the principle that the United States government reserve the right to be the sole judges so far as other nations are concerned of the amount of water that may be taken from the great lakes for sanitary or domestic purposes. The quantity is to be fixed, so far as the domestic users are concerned, either by congressional act or regulation by the secretary of war. The bill will not deal with the amount that maye be used at Chicago.

Cured of Drunkenness

How a Montreal lady cured her husband of drunkenness with a secret home remedy.

"I want to tell you that tasteless Samaria Prescription has entirely cured my husband of drunkenness so quickly and simply that I am astonished. How glad I am that I confided in you and wrote for your free sample package. The sample tablets I got from you checked his drinking, and before I had used the full treatment he was permanently cured. I gave him the remedy in his tea, and as it had no taste or smell, he never knew he was taking it. I want others to know so you can use this letter, but please not my name yet. I may say that my husband's health is better in every way than for years."

Free Package and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence sacredly confidential. Address: THE SAMARIA REMEDY CO., 193 Jordan St., London, Ontario, Canada.

Especially For Women

FRUIT-A-TIVES are the finest medicine in the world for women.

As a mild and gentle laxative—as a positive and speedy cure for Constipation and Biliousness—as the only cure for weak and irritated kidneys and especially for "that pain in the back"—as a positive cure for headaches—and as a general tonic to build up and invigorate the whole system — FRUIT-A-TIVES stand supreme.

In cases of irritated Ovaries, Ovarian Pains, Vaginal Catarrh, Excessive and Scanty Menstruation, Ulcerations, Bearing Down Pains—and all those troubles peculiar to women—

Fruit-a-tives

OR "FRUIT LIVER TABLETS"

have the most remarkable effect.

Ninety-nine cases out of a hundred of Female Troubles are due to neglect. Bowels become constipated — kidneys irregular — skin neglected — and the poisons of the body, which should be carried off by these important organs, are taken up by the blood carried to the female organs and poison them, thus starting up a train of female troubles.

FRUIT-A-TIVES are made from fruits and by their remarkable action on bowels, kidneys and skin, rid the system of poisons, purify the blood, and restore the delicate organs of generation to new vigor and health.

No woman, who suffers, should ever be without them. 50c. a box—6 for $2.50, at your druggist's or sent postpaid by FRUIT-A-TIVES LIMITED - OTTAWA.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

NELSON'S NEWS OF THE DAY

The new concentrator of the La Plata Mining company will be formally opened this afternoon.

W. H. Aldridge of Trail, general manager of the Canadian Consolidated Mining company, is at the Strathcona.

The members of the Boys' Brigade of St. Saviour's church are requested to meet in the Mission hall this evening at 7:30.

A meeting of all those who are to take part in Kirmess in any capacity is called for this evening at 8 o'clock in Fraternity hall.

The regular meting of Nelson aerie, F.O.E. will be held in the lodge room this evening at 8 o'clock. A full meeting is requested.

J. A. Macdonald, K.C., and A. H. MacNeill, K.C., both of Rossland are at the Strathcona, being engaged in cases on for trial at the assizes.

W. P. Tierney leaves this morning for a trip to Ottawa, combining business with pleasure. It will be Mr. Tierney's first trip home in 25 years.

The members of the Nelson cricket club leave for Rossland on tonight's train. The C. P. R. company has granted reduced fares for the round trip.

Tomorrow being Ascension day there will be celebrations of the holy communion at 7 o'clock and 10:30 in the morning and evensong at 8 p.m. at St. Saviour's church.

Dr. W. O. Rose, holder of ticket No. 53, won the case of silver raffled at the Office saloon. The cast contains a dozen silver knives with pearl handles; its original cost was 15 guineas.

There is an egg famine in the city only partially relieved by the local supply. A car of fresh eggs from Ontario consigned to the Nelson branch of J. Y. Griffin and company, ran off the track at Sirdar.

The recreation grounds have been put in condition for tomorrow's football match. The home team is reported in perfect form and a good exhibition of the game may be expected. The Pincher Creek team will arrived tonight.

A drill parade of the 1st Nelson company Boys' Brigade will be held this evening at 7 o'clock in St. Paul's church hall. This will be the last parade of the season, but the captain of the company hopes to continue the work in the fall of the year.

The annual church parade of Nelson Queen lodge S.O.E. will be held to St. Saviour's church next Sunday evening, this being the Sunday nearest to Victoria Day, the day appointed throughout the empire to be kept in memory of the late queen Victoria. The members will meet at the K. of P. hall at 6:45 p.m. on the 27th. The city band will head the parade and take part in the music of the service.

Meals will be served on the S.S. Minto tomorrow for the convenience of those who do not care to take lunch baskets.

The public are reminded that tomorrow is a geneal holiday and that the stores will be closed. The general delivery at the postoffice will be open only from 10 to 12 noon.

Silver and lead both declined yesterday, silver one point on each metal market, lead two points on the London market. Copper remained unchanged.

It was stated yesterday that the application before the supreme court at Victoria in the contempt of court case in which his honor judge Forin and J. A. Macdonald, K.C., are interested, had been adjourned again for another week.

A surveyor in urgent need of men, inserted a small ad in Sunday's Daily News making known his requirements. Sunday evening he wrote as follows: "The ad in the paper was all right. I could have made up three parties, I had so many applications." The moral is obvious.

It is stated as a fact worthy of note that of the 12 men who served on the jury in the Amandia murder trial not one had ever previously served on a Nelson supreme court jury and only one out of the 12 had ever been previously summoned to serve on a jury.

Discussion around town yesterday showed general public approval of the verdicts given in both the Amandia and the Anderson cases and a cordial agreement that in the sentences awarded just punishments were made to fit the crimes. Divided public opinion on such matters here is not unusual.

Thos. Sawyers, secretary of the Crow's Nest Pass football league, asks The Daily News to announce that any association football team wishing to enter for the Fort Steele brewery challenge cup, which is to be played for from Cranbrook to Lethbridge, should communicate with him at Coal Creek.

The following will be the line up of the Nelson baseball team that will play in Kaslo tomorrow: Catcher, Veley; pitcher, Samuels; 1st base, Houston; 2nd base, Blanchard; 3rd base, Woods; shortstop, A. Bishop; right field, Jones; center, Fuller; left, H. Bishop; spare, Wallace and Mallette.
