INTEREST IN NEW RAILWAY

Kettle Valley Extension Will Open Up Rich Mining Section

Route Will Follow East Side of North Fork of River With Maximum Grade of One Per Cent

(Special to The Daily News)

Grand Forks, June 8.—With the awarding of a contract to W. P. Tierney & Co., of Nelson, for the construction of fifty miles of railway from this city up the north fork of Kettle river, to Franklin City and the McKinley mine, added interest centres around the district to be traversed by the new railway, and to the means of getting there up to the time when the railway may be completed and in running order.

When Frank MacFarlane, then hunting and trapping at the headwaters of the north fork, discovered the first float on McKinley mountain in 1892, and afterwards returned and made the first location there in 1896, the only means of ingress to what is now Franklin camp was by picking one's way up the river through an almost trackless wilderness, without wagon roads or even trails of any kind. That summer other locations were made in Franklin camp, which received its name from the man, A. McKinley, of Danville, Wash., who grubstaked James Welcher, known as "Dead Shot Jim," who located the now well known McKinley mine.

In due course, the provincial government was prevailed upon to put a trail part way up the north fork, and a few years later the wagon road was built for a number of miles. Up to two years ago the wagon road was still about 15 miles from the big mines of the camp, but the trail was extended to that point. Last year a determined effort was made to get the wagon road completed to what is now Franklin City, but it was only partially successful. This year the many people in Grand Forks interested there redoubled their efforts, and succeeded in getting the work under way for the last seven miles of this greatly to be desired highway, which is destined to play such an important part in the upbuilding of that camp.

Road foreman E. Spraggett has had a force of 25 or 30 men employed for the last month, and today the wagon road is within a mile and a half of Franklin, and by July 1 it is expected that loaded teams can drive the entire distance to Franklin City.

Already a stage line has been put on the route from Grand Forks to Franklin City by A. Erskine Smith & Co., of Grand Forks, and is making round trips twice weekly, carring passengers, express and personal mail. This is proving a great convenience to the prospectors and residents of Franklin camp generally, as well as to the many along the 40 mile route. As soon as there is demand a stage will be run daily from Grand Forks.

The route of the Kettle River Valley railway takes for the most part, the east side of the north fork, and being the first line to make a location there has the choice of routes, no small advantage. The grade already established by superintendent H. W. Warrington has a maximum gradient of but one per cent, while the maximum curvature is ten per cent. There are no tunnels, and but one or two bridges, the rivet being crossed to the west side at Franklin City or near it. The dominion charter for building the line carries with it a cash subsidy of $6400 per mile.

For 50 miles, from Grand Forks to the McKinley mine, the permanent location of the new railway has been made, provision being made for sidetracks at Pass creek and at Franklin City. In addition to the mining traffic at Franklin camp and along the route, the road will be able to secure a valuable tonnage from the north fork timber limits, most of which have already been or are now being taken up.

The route of the stage line and of the railway line passes a number of mining properties, some of which have no little merit, but most of which have not been worked for some time on account of lack of transportation facilities. Doubtless there will be a revival among these properties now that a contract for building the railway has been let. Among these properties are the English and French, the Little Bertha, the Pathfinder, the Volcanic, the Earthquake, Golden Eagle, Bonanza and dozens of others. The Pathfinder now has a force of some 25 men at work, being under bond to the Granby company.

There is every reason to believe that the sight of railway navvies constructing the line up the north fork will have the effect of giving heart to many a poor prospector who has waited for years for this time, and that it will be no small attraction to the capitalists also.

Already the Great Northern has surveyors in the field, and is running lines to the Pathfinder mine, some sixteen miles from Grand Forks, and last week James H. Kennedy, chief constructing engineer of the V. V. & E., with one of his assistants, William Milliken, made a trip through to Franklin camp, to spy out the land on behalf of his company. The charter of the Great Northern subsidiary company, known as the Boundary, Kamloops and Cariboo Central Railway Co., calls for building right up over the route over which the Kettle River Valley lines are about to start construction. If this program is carried out, this means a competing railway for a section that to the present has been without transportation facilities of any kind.

Those enterprising persons who are anxious that the public should not be without townsite facilities in any growing locality, have not forgotten Franklin camp. The valley in that locality is well suited for the making of a town, and several land owners are now arranging to supply this need. The first in the field is the Franklin Townsite Co., Ltd., which has a beautifully situated plat of land at the terminus of the wagon road, where the level benches are well adapted for the purpose. Already a stable and hotel are being built, the necessary lumber for the purpose being hauled by wagon from Grand Forks. A postoffice will be established there to be known as Franklin, a sub-recording office will be established, a sawmill will be built and provision made for general business requirement. The hotel, which is already doing business in a tent, will doubtless have a rushing business this summer, the owner being B. Lequime, of Grand Forks.

Some two miles further up the valley is the Upper Franklin townsite, owned by F. H. Hutton, mayor of Grand Forks, and G. B. Todd, of the same place. This property is now being surveyed and platted into lots and blocks. Between the two townsites, P. McInnes, W. Dinsmore and M. H. McQuarrie, the latter of Phoenix, have tracts of land, which have been spoken of as suitable for townsite purposes, but it is hardly likely that there will be room or demand for as many townsites as are projected. In any event, it is evident that ample provision will be made for the many that are expected to settle in Franklin camp in the near future.

PROHIBITION IN P. E. I.

Charlottetown, P. E. I., June 8.—Queen's county yesterday voted in favor of the repeal of the Scott Act. Twenty polls out of sixty-two gave 695 against the Act and 78 for it. This means means that the Scott Act is repealed by a big majority, and that now the whole province will be under prohibition law.

GOOD FOR GRAND FORKS

BRIGHT PROSPECTS AHEAD OF THE BIG SMELTER TOWN

WILL BE VERY BUSY PLACE FOR SEVERAL MONTHS TO COME

(Special to The Daily News)

Grand Forks, June 8—Not to say anything about several hundred miners working in the various mines surrounding Grand Forks, there will be within the next 90 days over 2000 men employed in the immediate vicinity of Grand Forks, made up as follows: On Great Northern extension to Pathfinder mine, 500; Kettle Valley line extension up the North Fork, 1000; Great Northern round houses and work shops, 250; C.P.R. round house and work shops, 250. Besides these there is a standing army of workmen at the Granby smelter of 300. All these workmen will make good wages, the total montly payroll running into very big figures. This big payroll will likely last for about 18 months during railway construction. The money will all be paid out in Grand Forks as the railway pay offices are here. In consequence of this great activity and the exceedingly bright prospects for this place all kinds of property has advanced and every available dwelling has been taken. At present the population of Grand Forks is about 2500 and it is fully expected this number will be largely increased.

Contractors and carpenters are experiencing busy times. Every available mechanic has employment and almost any man who can drive a nail can get $3.50 a day. The Grand Forks steel structural works is about completed and the machinery is expected here in a few days. Over a dozen dwelling houses are in course of erection and fully 30 more are contemplated for erection yet this summer.

Fully 200 Italians and other railway laborers arrived here yesterday and they continue hourly to pour into town. They will all be employed in the Great Northern and Kettle Valley line extensions.

MINER KILLED AT MOYIE

Charles Anderson, Recently from Phoenix, Victim of Explosion

(Special to The Daily News)

Moyie, June 8—A miner named Charles Anderson, a native of Dalsland, Sweden, was killed yesterday afternoon while preparing for blasting in the No. 4 level on the hill. He had taken in powder for ten holes and was filling the first one, when an explosion occurred in some unknown way. He may have used his candle stick to make a primer or let his candle fall on the powder, or a piece of rock may have fallen on his caps which may have been near the powder. His right leg was torn off at the hip and his left at the knee. His head and face were also mutilated. The sticks of powder which he had put in the hole, which was a back one, did not explode.

The deceased was an experienced miner, having worked in different mines in this country and in the mines in Norway before coming to America. He came here on Tuesday from Phoenix where he had been working in the Brooklyn and commenced work Wednesday morning. He was therefore only in his second shift. He was alone but the time of his death is known, as the sound of the explosion was heard at the bunkhouse, and his watch, which was damaged, stopped at 1:12 p.m.

His age was 26, and he has a wife in Sweden, but no family. His brother, John Anderson, aged 21, is working at the sawmill in Elko.

BIG STORM IN ONTARIO

COUNTRY BETWEEN HAMILTON AND NIAGARA FALLS VISITED

TOWN OF CHATHAM ALSO SUFFERED SEVERE DAMAGE

Detroit, June 8—Reports to the News from Chatham, Ont., say that a terrific wind storm swept the city this afternoon, destroying a number of houses, blowing down the steeple of the Methodist church and injuring several people. The storm is said to have swept through that portion of Ontario with lightning like rapidity. Wires are all down east of Windsor and it is impossible this evening to get any reports from the storm swept section.

A report has just reached police headquarters that during the height of the storm early this evening, a young boy was blown off the Belle Isle bridge, and drowned, and that eight persons were drowned while on their way across the river to a shore resort in Canada.

Much damage has been caused to wires and telephones. No one has yet been reported as seriously injured in this city.

Buffalo, June 8—A terrific wind and rain storm swept over the country between Hamilton and Niagara Falls, Ont., late this afternoon. All direct communication between this city and Hamilton and Toronto was cut off for several hours this evening. It was reported that the wind storm reached the proportions of a cyclone around the race track in Hamilton. The horses were parading before the stand for the second time when the storm came up. They were sent back to the paddock and everybody sought shelter.

The skies were overcast with heavy, black clouds and the wind tore over the course at the rate of 75 to 80 miles an hour. Many of the crowd ran to the infield, where they laid flat on the ground, to avoid being struck by flying debris. The rain fell in torrents. It was all over in 20 minutes and racing was resumed. Wire communications were crippled but so far as known, no lives were lost.

Toronto, June 8—A heavy storm blew over the Niagar peninsula at 5 o'clock this afternoon doing considerable damage. So far as heard from no one was killed and no one seriously injured, althought reports are meagre owing to wires being down. Many buildings were unroofed, trees blown down, windows broken and vegetation damaged. At Hamilton the roof was taken off one of the largest buildings of the International Harvester company's plant. The flag pole at the Hamilton race course was blown down and on to the grand stand, causing a panic. No one was injured.

RELEASE OF BROTHIER

Macpherson Gives Notice of Motion Asking for Full Particulars in case

(Special to The Daily News)

Ottawa, June 8—R. G. Macpherson, Vancouver, has given notice of motion asking on whose recommendation Brothier was released and asking the government to bring down all papers in connection with the matter.

The Grand Trunk Pacific branches bill was before the railway committee again today and was practically ready to report when the hour of adjournment was reached. The company must begin work two and finish in five years.

Alf Jury was examined before the agricultural committee today, but nothing new elicited.

At the request of the opposition, the Arctic investigation committee adjourned till Wednesday next.

Major Moody testified that the provisioning was not too generous for the length of the trip and the work ahead.

COX AND THE IMPERIAL LIFE

Toronto, June 8—The Imperial Life Insurance company, which Hon. George A Cox said he brought into existence so that his son, Frederick W. Cox, might be general maanger of an insurance corporation, came under investigation of the insurance commission today.

Thomas Bradshaw, actuary of the company, testified to the fact that senator Cox was not only a warm friend of the company, but that he and J. W. Flavelle were very active in its early history. A large number of members of staffs of different Cox financial corporations were set down as shareholders of the Imperial Life despite the fact that all dividends were paid to the Central Canada Loan & Savings company, which owned a large percentage of the shares.

TO EVANGELIZE THE WEST

London, June 8—At this morning's session of the Presbyterian general assembly the emergency committee appointed Alexander Warden to fill the position temporarily of treasurer and joint clerk in place L. R. Warden.

Much interest was manifested in the reading of the home missions' report. The past year was a banner year in the history of the Presbyterian church in the eastern provinces. The burden of all the addresses is, more means needed to evangelize the west, whree there are 500 mission fields, containing nearly 150,000 families. The amount of the home mission fund last year was abuot $150,000.

STRIKE IN BRANTFORD

Brantford, Ont., June 8—A strike occurred yesterday at Pratt & Letchworth's malleable iron works, the foreign element causing the trouble. They asked an increase of pay and on account of the foreman being away were asked to wait his return when the matter would be taken up. About 30 men went out and soon a fight occurred among them in which bolts, bars and stones were used. One Armenian had his head cut with a bolt and another his jaw dislocated. The police stopped the fight and arrested the ringleaders.

TO ELEVATE JOURNALISM

Canadian Women's Press Club is Organized in Winnipeg

Great Gathering of Literary Ladies From all Parts of Dominion- To Tour the West After Convention

Winnipeg, June 8.—Distinguished literary women, whose names are household words all over the North American continent, assembled in Winnipeg yesterday as delegates to a convention, the first fruits of which was the formation of the "Canadian women's press club," an organization which is destined to be an important factor in promoting the best interests of journalism in Canada.

The visitors included such well known pen women as Mrs. Cynthia Westover Alden, of New York, madame Frechette, of the staff of Harper's, New York, and "Kit" of the Toronto Mail and Empire, Mrs. Coleman. Among the other present were Mary Dawson, Toronto; Ethel F. Lindsay, Winnipeg Free Press; Mrs. F. E. Baxter, Saskatoon; K. B. Coleman, Hamilton, Ont.; Katherine Smith, Minneapolis; Mrs. J. R. Marshall, Regina; Mrs. Thomas Bennett, Regina; Mrs. A. Adamson, Winnipeg; Evele Boutille, Montreal; Sara McLagan, Vancouver; Katharine Hughes, Ottawa; Emma C. Atkins, Vancouver; Jessie E. Barter, London, Ont.; Mae Harris Auson, Minneapolis; Mary G. Murphy, Chicago; Annie Howells, "Frechette," Ottawa; Mary A. Slipper, Port Arthur; Grace L. Benson, Winnipeg; Mary A. Wallace, Halifax, N. S.; Ethel Ruttan, Woodstock; Ella M. Towns, Guelph; Jane Wells Fraser, Toronto; Agnes D. Cameron, Victoria, B. C.; Gertrude Boimer Watt, Edmonton; Florence Randall, Winnipeg; Florence Ledlard, Winnipeg; Emmie Holroyde, Winnipeg; Effie Laurie Stone, Battleford, and Daisy C. McCorkett, Kingston, Ont.

Today's program commenced with a business meeting at which the Canadian Women's Press club, previously a somewhat informal organization, was put on a sound basis, with a constitution and objects which should attract to its ranks every newspaper woman in the dominion and both elevate, if that is possible, the profession of journalism for women, and enlarge the good influence which the ladies of the press in so large a degree exercise.

Mrs. Coleman, president, occupied the chair at the opening session and after her address the thanks of the club were expressed to the C. P. R. for courtesies extended to the delegates.

The draft constitution was then discussed and adopted, and one of the main objects of the club as set forth therein will be the promoting of a Canadian national sentiment in all papers and journals with which members of the association may be connected, and also for elevating the standard of newspaper writing. Membership will be limited to women actually connected with some reputable publication, either as writers or artists. Meetings will be held yearly. The emblem of the club will be a quill across a maple leaf, with the letters C. W. P. C.

In the afternoon the members of the club were the guests of the city, a private street car taking the party out to Deer Lodge where a sumptuous luncheon was provided and very pretty speeches were made by Mrs. Alden and Miss Agnes D. Cameron, in reply to toasts felicitously proposed by mayor Sharpe. This trip was immensely enjoyed by the newspaper women and they also found great delight in a trip over the street railway system and the reception given in their honor afterwards by lady McMillan at government house. The visit to Happyland, Winnipeg's amusement park, in the evening completed the day's enjoyment. The evening was delightfully cool and fine and the ladies had not been long inside the gates of Happyland when they forgot that they were the "leaders of thought" and entered into the spirit of the fun with all the pleasure of school girls.

Tomorrow the election of officers and other business will be proceeded with and the convention will conclude with a reception in the evening.

After the convention the members of the press club will be entertained by the Western Canada immigration association, and will be the guests of the latter organization on a tour extending as far as Banff. There being 32 ladies in the party the car provided by the immigration association will not afford sufficient accommodation, in consequence the party will divide and fifteen ladies accompanied by Mr. Vanderhoff, representing the immigration association, will go west in a special car over the C. N. R. to Edmonton and the remainder will travel via the C. P. R. and the parties will reunite at Banff. Those travelling via the C. P. R. will visit points of interest en route, including the experimental farms at Brandon and Indianhead. From Banff the party will return east, travelling via Macleod and Lethbridge, and will visit the famous Mormon settlement en route. No points of interest will be overlooked and the ladies will be gven an opportunity to study and observe the great and wonderful resources of the country, which is their heritage in common with the Canadian people, and no doubt their bright and ver satile news will do much in spreading a knowledge thus obtained.

OPPOSE EDUCATION BILL

GREAT GATHERING OF LANCASHIRE CHURCHMEN IN LONDON

THIRTEEN THOUSAND IN PROCESSION LED BY BISHOPS.

London, June 8.—Thirty-three special trains brought to London this morning 13,000 Lancashire churchmen to protest against the Education bill. The protesters proceeded to Regent's park, where they massed and, accompanied by bands of music and carrying banners, marched through the principal thoroughfares to Albert Hall. The procession was headed by the bishops of London and Manchester and included many clergymen.

The chief resolution submitted to the meeting recorded an emphatic protest against the bill on the ground that it is destructive of all forms of religious instruction in the elementary schools and contained the statement that the only true safeguard of religious education in the schools is a continuation of the denomination schools.

The visitors for the most part were factory employees, forming a typically Lancashire crowd, but all classes were represented and they all came at their own expense. Consequently the protest was more significant than most of such demonstrations.

OLD TIME RAILROADER DEAD

Alexander Stronach for Twenty-two Years C. P. R. Master Mechanic.

Winnipeg, June 8.—Alexander Stronach, M. E., one of the oldest railroad employees of the west, and who for 22 years was master mechanic for the C. P. R., died this morning at his home, Elgin avenue.

Mr. Stronach retired from active business three years ago, but had enjoyed comparatively good health until ten days ago, when he was attacked by heart and lung trouble.

The late Mr. Stronach was born in Three Rivers, Quebec, in 1832, and had been employed in railroad work for more than 47 years. He was for 22 years mechanical engineer on the Intercolonial railway, and after leaving that road, he was sent west in charge of the government rolling stock. He came to Winnipeg in 1881 and entered the employment of the C. P. R. as master mechanic, and was for 22 years engaged in that capacity, until his advanced age compelled him to retire.

The deceased was a well known old timer who passed through all the early experiences of this city and the west, and was well acquainted with the conditions which led to its prosperity. Mr. Stronach was prominently identified with Knox church and for years had been an elder in that congregation.

The deceased was a past master of the Masonic order.

AMERICAN CANNED GOODS

To be Subject of Discussion in British House of Commons

London, June 8—Sir Howard Vincent, conservative member of parliament for Central Sheffield, and one of the most pronounced advocates of protection and preferential treatment of the colonies, has givne notice of his intention to question the president of the board of trade in the house of commons on the subject of the meat packing disclosures in the United States.

His question is radically drawn up with a view of extracting information which may be utilized by the fiscal reformers in pushing their propaganda.

Sir Howard wants to know what is the total amount of the importation of American canned meats, game, fish, fruit and other preserved food into the United Kingdom and the British empire generally for the years 1904 and 1905 respectively, and, in view of the recent disclosures in the United States and president Roosevelt's public strictures, what steps the board of trade proposes to taek to protect the consumers.

The officer selected by war secretary Haldane to proceed to the United States and inspect all tins of meat intended for the British army, is lieutenant-colonel Percy Eyre Hobbs, chief instructor of the army service corps school of instruction at Aldershot. He will proceed to America shortly.

AFTER PRESTON'S SCALP

Toronto, June 8—Toronto district trades and labor council last night adopted a resolution calling for the dismissal of W. T. R. Preston, dominion immigration commissioner for Great Britain, as a result of the exposures before the public accounts and agricultural comimttees of the house of commons.

The resolution also condemns the government's immigration policy, declaring it to be detrimental to the legitimate interests of the wage earners in Canada.

ONTARIO'S POWER COMMISSION

Toronto, June 8—The cabinet has appointed the hydro-electric power commission of Ontario, the members consisting of Hon. Adam Beck, M.P.P. for London; Hon. J. Hendry, M. P. P. for West Hamilton and C. B. Smith, chairman of the Temiskamingue & Northern Ontario railway commission. The two former members as members of the government are debarred from receiving salaries, but there is a rumor that a minister of power may be appointed.

PHILLIPS RELEASED AGAIN

Toronto, June 8—Believing that his bond for $2500 given for the appearance of Joseph Phillips, former president and manager of the York County Loan adn Savings company, was in peril, Thomas Walker withdrew yesterday. His intention being made known to judge Winchester, Phillips was again placed under arrest, but was released again on the agreement of A. Hobberton, who was on the bond with Walker, to go bail for $500.

RAWHIDE QUARRYING OPERATIONS

Necessitate Removal of Cascade Power Company's High Tension Wires

Phoenix, June 8—Owing to the enlargement of the quarrying operations of the Dominion Copper company at the Rawhide mine in this camp, the Cascade Water, Power and Light company has found it necessary to move its high tension electric feed lines, carrying 20,000 volts which bring the power from the works at Cascade on the Kettle river, some distance to the west of the present line. Two or three times lately one or more of the heavy wires on the double pole line have been severed by blasts from the Rawhide glory hole, temporarily stopping the supply of power till repairs could be made.

Manager A. Willey of the Cascade concern, has been here lately and the work of building a new line about half a mile in length is now in progress, in charge of Gilbert McEachern, local manager of the company. A force of men is now employed on this work, clearing right of way, getting out poles, etc., and the expense to the Dominion Copper company for the removal will probably be in the neighborhood of $1000. It will, however, preclude the probability of future stoppage of the present power supply from blasting.

RICH STRIKE ON THE INDEX

Frank Helm, superintendent of the Index on the South Fork, has struck a rich shoot of ore at a distance of 172 feet in the lower tunnel which was driven to ascertain if the ore held at depth. This is good news to Kasloites, says the Kootenaian, as it proves that the leads in the South Fork are true fissures and not of a blanket formation as originally believed. It is understood work will be pushed forward on an extensive scale so as to place the property on a shipping basis with as little delay as possible.

On the Flint, another promising property on the South Fork, a large body of high grade ore has been uncovered, which to all appearance is far superior to any yet encountered on the property.

COLORADO GROUP PURCHASED

The Colorado group situated on Mohawk creek was this week acquired by the Northern Mines, Ltd., of Minneapolis, says the Camborne Miner. The deal was engineered by Messrs, Floeter and Darragh and it is understood that a satisfactory price was realized. The Northern Mines, Ltd., intend to thoroughly exploit the property and place it on a producing basis as soon as that stage can be reached and to this end work will be commenced in a few days.

RAILWAY AND MUNICIPAL BOARD.

Toronto, June 8.—The Ontario Railway and Municipal board appointed by the government is as follows: James Leith, K. C., Cornwall, chairman; Andrew Ingram, M.P., for East Elgin; Henry Kittson, wholesale grocer, Hamilton; secretary; Henry C. Small, barrister, Carleton Place.

PASSENGER TRAIN WRECKED

Norton, Kansas, June 8—Eastbound passenger train No. 4 on the Chicago, Rock Island and Pacific railway, was wrecked today near Jennings, 30 miles west of here. The engine and all the coaches except one were derailed. Eighteen or twenty passengers are reported seriously injured.

PROGRESS OF CHURCH UNION

Embro, Ont., June 8—Union between the United Brethren of Canada and the Congregationalists was unanimously agreed upon this morning by the Congregational union of Ontario and Quebec. The United Brethren have 27 churches with 11 ministers in the dominion.

McGILL MEDICAL COURSE

Montreal, June 8—Steps have been taken with a view to extending the medical course at McGill from the present four years to five. The extension of the course of study will be in line with the methods adopted by leading American and foreign schools of medicine, where the four years' course has been abandoned as insufficient.

WINNIPEG BUILDING RETURNS

Winnipeg, June 8.—The Winnipeg building returns up to yesterday show 1519 permits issued, making a total of $5,609,700 in buildings. The same time last year the number was 1201 with a total of $5,115,200.

SMOTHERED TO DEATH

Fort William, June 8—Two Italians, Lucin Francesco and Peteo Mucanal, were smothered to death in a landslide near Kaministiquia today. Recent rains caused a bank of earth and clay in the cut to fall in on the unfortunate men. Death resulted before the men could be dug out.

TO SUCCEED GORMAN

Baltimore, June 8.—Governor Edwin Warfield tonight announced that he had appointed William P. White to fill the senatorial vacancy caused by senator Gorman's death.

KILLED BY A CAVE-IN

Strathcona, Alta., June 8.—Robert Burkett, a miner, whose home was at Smiths Falls, Ont., was killed in a cave-in here today. His neck was broken.

THOMAS McCORMACK DEAD

London, June 8—Thomas McCormack, the founder of the McCormack Manufacturing company of this city, died yesterday near Chicago. He was on his way home from California when he was taken suddenly ill.

PENSION BILL RUSHED THROUGH

Washington, June 8—The house today passed 357 pension bills in 53 minutes, which is a new record in pension legislation.

TO RETIRE GOREMYKIN

New Russian Premier's Tenure of Office to Be Cut Short

Czar is Dissatisfied With His Failure to Make Lower House Amenable to His Wishes

St. Petersburg, June 8.—According to reliable reports from Peterhof, emperor Nicholas has about decided to retire premier Goremykin.

From the first it was apparent to outsiders that Goremykin did not possess the force, capacity, or skill necessary to steer the ship of state in the present crisis and his majesty, who is extremely dissatisfied with the premier's sorry failure to make any headway towards an understanding with the lower house of parliament, is now ready to sacrifice him.

A few of his advisory friends are urging him to make a frank surrender and accede to parliament's demand for a ministry from the opposition. Such influences are hardly likely to prevail against the party headed by general Trepoff, who believes that no further concessions should be granted. The cabinet itself is in open rebellion and with the support they are receiving from the court the rebels are confident of being able to unhorse Goremykin.

One newspaper regards the government's decision to hold itself in the matter of the death penalty bill, behind the provision of the fundamental law requiring 30 days notice to the cabinet before the consideration of a bill, as being a sign that bad influences are getting the upper hand at Peterhof, but the paper comments on the wisdom of the constitutional democrats in refraining from making an issue of the matter, in the meantime insisting on the suppression of executions.

Despatches from the interior continue gloomy and show that the gradual extension of the agrarian disorder and partial strikes now affect 12 provinces.

The latest disturbances reported are at Rieff and Tver. Numerous collisions between peasants and rural guards have taken place, but nothing in the nature of a mass movement has occurred.

The popular expectation that a change of ministry is imminent is foreshadowed by the simultaneous departure of premier Goremykin and several leading members of the council of the empire, and other trusted advisors of emperor Nicholas for a conference at Peterhof this afternoon, though the connection of the conference with the tenure of office of the ministry remains to be proven.

The Associated Press learns that it is true the government is seriously considering bowing to the storm so far as to adopt to a limited extent the principle of expropriation. In this program forced expropriation will be granted only in exception cases. For example, when the land necessary to consolidate scattered peasant holdings is otherwise unobtainable.

No progress was made today in the general debate on the agrarian question.

Moscow, June 7.—There is a noticeable increase in revolutionary circles here, and it is evident that the leaders are preparing to take advantage of the first opportunity to start an armed uprising.

The workers of the factories and mills are being armed with Mauser rifles and drilled under the supervision of army reserve soldiers. In spite of the repressive measures adopted by the authorities, revolutionary meetings are held nightly and the leaders appear to be confident that the morale of the troops of the garrison is undermined, and they have received from some regiments promises of support in the event of a conflict. Revolutionary emissaries have been out in all directions into the country inciting the land-hungry peasants to appropriate the land and to strike at the big landholders. The plan evidently is to secure unity of action in the country and cities and inaugurate a conflict with a great strike. The troops evidently hope for a complete rupture between the government and parliament which would furnish the necessary opportunity for an uprising. The situation has greatly alarmed the government, and big land owners of the country.

HOBBS TO FIGHT EXTRADITION

New York, June 8.—David Hobbs, a former customs inspector of the Canadian Pacific railway, arrested in this city Thursday night, was arraigned before United States commissioner Alexander today and remanded until Friday next for examination. Bail was refused. It is alleged Hobbs is $60,000 short in his accounts. Hobbs denies the charge and has retained counsel. He will fight extradition.

CORONATION OF KING HAAKON

Christiana, June 8.—Sweden will not be represented at the coronation of king Haakon VII on June 22. The Swedish government desires that it be understood that this action is not the result of ill-will or as a breach of friendly intercourse, but that it is dictated out of regard for king Oscar's personal feelings,

THE HUDSON'S BAY CO.

Spring Poems and

Maple Syrup

These are now in season, but whilst the product of the spring poet is usually flat and tasteless, the pure product of the

SUGAR MAPLE TREE

is healthy and deliciously toothsome. So much adulterated stuff is on the market now, that we feel proud to be in a position to offer

Pure Maple Syrup

specially made for us in the Province of Quebec. The first shipment direct from the Habitant's Camp in the sugar bush has just arrived.

PROVINCIAL SUBSIDIES.

The Victoria Colonist quotes with evident approval a statement from the Toronto Mail and Empire to the effect that "the subsidy question will never be settled under the Laurier government."

The Colonist is the chief organ of the McBride government in this province and is supposed to voice more or less officially the views of the government. If we are to assume that premier McBride will go to Ottawa to attend the conference of provincial premiers with members of the federal government with the preconceived idea that the Laurier government will do nothing for this province, we fancy he will make a very poor ambassador, and, in the best interests of the province, he should absent himself from the meeting.

The Colonist is deliberately attempting to mislead the public in this matter. To read Colonist articles on the "better terms" question one might be induced to believe that British Columbia was receiving less consideration at the hands of the liberal government than it did when the conservatives were *in office at Ottawa.*

Anyone at all conversant with the facts knows this to be absolutely false. Apart from the question of increased subsidies, the public accounts prove conclusively that British Columbia has *fared infinitely better* under a liberal administration than it did when the Colonist's friends were in control of federal finances.

Not only by direct cash contributions has the Laurier administration shown its *concern* in the development of British Columbia, but in the intelligent efforts it has put forward from time to time to encourage the industries of the province, particularly mining.

Sir Wilfrid Laurier is taking the right course with regard to reconstruction of the entire basis upon which subsidies are paid the provinces. If the premiers of the respective provinces meet at Ottawa this summer with a determination to co-operate intelligently with him, there is no doubt that a satisfactory solution of the question will be arrived at and that each province will receive its due. What is to be deprecated is the attempt now being made by local government organs to create the impression that this province is foredoomed to unfair treatment. It is to be hoped that premier McBride will show a truer appreciation of his responsibility to the people of this province than to govern his course in the forthcoming negotiations along lines suggested by the Victoria conservative organ. Premier McBride will go to Ottawa as the representative of all the people of British Columbia and not of the provincial conservative party. It will be his duty to advance the claims of this province dispassionately. He should know his case before he leaves for Ottawa. When the subject was discussed in the local legislature premier McBride simply did not know where he was at. The memorandum prepared by the government was obviously inaccurate and misleading and not at all calculated to put the claims of British Columbia in the best light. So much was this the case that in response to the criticisms of the leader of the opposition, J. A. Macdonald, the premier withdrew his resolution on the subject and accepted one presented by Mr. Macdonald.

British Columbia is greatly concerned in the settlement of this subsidy question. It is not regarded, save by a few fanatics, as of a partisan nature, and the people of the entire province, irrespective of their party leanings, are prepared to cordially endorse intelligent action on the part of the provincial government of the day in the matter.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STOP THE WASTE

Every day that you put off placing a piano within reach of your children is another day thrown into life's waste-basket, for these golden moments lost in the matter of acquiring an education can never be regained. How much would YOU give today to bring back the days of lost opportunities? TALKING ABOUT A PIANO will not put one into your home, nor make the proverbial "next year" the one of peace and plenty.

LIVE TODAY

Give to your family the piano they have wished for so long. A little cash down and a trifle each month will soon make you its proud owner, and your home a sunnier and happier one. CALL AND SEE US AND OUR PIANOS. P. O. Box 615, Nelson, B. C.

mense number of women—a number nearly equal to a seventh of the electorate—are bearing the full burden of taxation, and are at the same time debarred from sharing in the privilege and duty of citizenship. Such a position has in it the elements of danger. It fosters a sense of irresponsibility. We want not blind conformity, but intelligent obedience to the laws. Everything possible should be done to lessen the number of people—already far too large—whose attitude towards public questions is one of reckless indifference. By absolving women from their political duties we cannot deprive them of their influence on the trend of opinion, and where there is no legitimate outlet for power it is most likely to be abused. If women had a responsibility towards the state in the forming of parliaments, they would realize that the home life is part of the national life, and that however small their sphere of action they could help to raise or lower the standard of national character. And they would be more insistent than have been the bulk of electors that the candidates of their choice should stand for those same qualities of honesty of purpose and conduct on which the stability of the home depends."

The Cranbrook Herald is already discussing the question of candidates in the forthcoming provincial elections. "Who is to be the conservative candidate in the Cranbrook district is a question not yet answered," it says. "There are three gentlemen mentioned for the honor, T. D. Caven, the candidate at the last election, who seems to be in the lead, J. A. Harvey, who has hopes in that direction, and G. T. Rogers, the mayor of Cranbrook, who would not be opposed to an elevation. It is also recently rumored that A. E. Watts is ambitious along these lines, but as he is a new convert, having been a liberal at the last election, some claim that his chances are not as good as the other three. Mr. Watts is at the head of a political syndicate that has launched the Nelson Daily Canadian, a newspaper stared to help out the McBride government, and this backing may give him additional strength, as none of the other candidates have an organ. On the liberal side there seems to be a unanimity of feeling that Dr. J. H. King, the present member, should stand again. Dr. King is deservedly popular, has made a most excellent member, and is stronger with the people today than ever before. The campaign promises to be a warm one in this district, as both sides are determined to win. The ministers are paying more attention to the Cranbrook district than to any other in the province of the same size."

Says the Vancouver World: The provincial press, conservative as well as opposition, are unanimous in demanding an inquiry into the Pendrqay lots, the Kitimaat and the Kaien island scandals. It is felt that the Pendray matter is only one link in the chain that needs to be straightened out. A partial investigation would not be satisfactory. In this connection it might not be unprofitable to remind our contemporary, the Colonist, who expresses its holy horror at the charge that Mrs. Anderson must have gotten here information as to the Pendry tenders from some person within the land and works office, that in his evidence chief commissioner Green admitted under oath that he talked the Kaien island details over with Mr. and Mrs. Anderson at a time when the transaction was an executive secret, and that the firm were in possession of information which was withheld from the house and every member thereof for fourteen months later. Yes, let there be the fullest inquiry. If the Colonist is right in expressing indignation at the accusation leveled against the lands and works in the matter of the Pendray scandal, what has it to say to Mr. Green's own evidence, in which he admitted that he discussed an executive secret with the "band of adventurers, male and female"?

A correspondent informs us that a recent communication to this paper anent the supply of labor in the Crow's Nest coal fields is hardly in accordance with the facts. Competent coal miners can find work readily, in fact the supply is not equal to the demand and no experienced worker need be out of employment any length of time. The other day The Daily News published some particulars of the increase in output of the Crow's Nest Pass Coal company's mines and this would suggest that the opportunities for experienced coal miners finding steady work were improved.

In a communication, published elsewhere in today's issue, George Huston, of Sandon, sounds a note of warning to local smelting and mining interests. The situation discussed by him is an interesting one and if his diagnosis be correct there is certainly need for watchfulness on the part of those concerned in the continued profitable operation of our lead smelters. We should welcome further discussion on this subject if any useful purpose can be served by publicity at this time.

EDITORIAL NOTES.

The question of women's suffrage has been brought to the front in England by the recent demonstration in parliament and the interview a delegation of women's suffragists had with premier Campbell-Bannerman. The London papers discuss the subject from varying viewpoints, mainly hostile. In the Guardian, however, we find this comment on the ethical aspect of the question: "The whole question of woman's suffrage has been debated far too much as one of expediency, with a view to its possible effect on the balance of parties. But the ethical principle at the back of the demand for this political privilege goes deep down to the very roots of our national life. It is on character-building that the welfare of the country depends. The individual must be trained to a realization of what is due to the community; he must be taught to consider first not what he can get in the way of power or place, but what he can give by right thinking and right acting. There could be nothing in our constitution which can, in the smallest degree, alienate the loyalty of any class of citizens. An im-

HOW TO BREAK UP A COLD

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by all druggists and dealers.

JUDGE GROSSCUP'S WAY

PROPOUNDS ALTERNATIVE REMEDY FOR ECONOMIC ILLS

REGARDS SOCIALISM AS DESTROYER OF INDIVIDUALISM

Socialism, in the opinion of judge Peter S. Grosscup of Chicago, is very far from being the best remedy for all the present economic ills. Judge Grosscup has remedies that he deems vastly better—remedies that have not the defects of tearing down institutions, but rather the qualities of building up. Participation in corporation enterprises is judge Grosscup's solution for all the troubles of the present day. As he sets forth in the American Magazine:

"What is wanted is not the prosecution, in one form or another, of corporations simply because they are big; and continued promises of such prosecutions merely because such promises keep the interest of the people; but that what is wanted is the corporation, big and little, so rebuilt that in the vast domain of property covered by it the people, who with their hands have worked, may hereafter see their way to participate; the people who accumulate savings may see their way to participate; the people who are to be served may participate—the whole domain turned into a possession calculated to invite their confidence and pride, as our landed domain invited the confidence and pride of those who occupied it."

Judge Grosscup, with true legal acumen, rightly supposes that people will say: "What you offer is not a cure by act of congress. What you offer is an industrial development and continuation of things that, though humanizing and uplifting, is dependent for realization upon the successful working out of the processes that no man can more than approximately forecast." Willingly does judge Grosscup fall in with these opinions. He agrees perfectly. In his opinion the case is not one for the surgeon, but one rather for the exercise of the higher intelligence that makes for the removal of the causes of the disease. No one, in his opinion, need lose heart because such reforms as he outlines can not be brought about by act of congress. Let but the state legislatures lay "clean and firm in state law the foundations for the new corporation for the local industry. Beyond that the cooperation of the people in their own interests must be relied upon." In short, the writer believes that the people have the remedies in their own hands.

The seeds of these remedies, in his opinion have already been sown. He cites certain industries, few but remarkable, in which the laborers have a share, in which capital and labor are virtually in partnership. He shows, for instance, that the stock of certain railways, some of them running out of Chicago, is held in large part by farmers and inhabitants along the roadbed. Obviously this is a good thing, because it brings the ownership of the company, so to speak, to the masses. Then he cites the form of corporation that helps its employees to purchase its shares at their market value by lending them money. "The comapny I have in mind," says the writer, "has interested in this way thousands of its employees—men who regularly, either in person or by proxy, attend its stockholders' meetings." One of the largest manufacturing companies in Chicago, it is also adduced, distributes every year from five to ten per cent of its net earnings of the preceding year to the employees of the firm. As a third example judge Grosscup cites the company that permits an employee to buy stock equal to the amount of his annual wages, paying therefor at least two and a half per cent down and thereafter four per cent a year out of his earnings. In the meantime the employee receives his dividends regularly on his stock. Nearly every employee is thus a stock holder in the corporation.

These things, believes judge Grosscup, are a far better method than socialism of righting economic wrongs. Socialism, in his opinion, is a step backward, not forward—"a doubling back on the road along which the race has come from the days when no man had a hope of his own or an individual part in the destiny of things." Socialism, the writer thinks, has many other faults besides. Just as it is impossible for a government, no matter how careful, to secure the best service, so, he thinks, it would be for government owned enterprises and corporations to secure the best service. Private enterprise has invariably better service. But a change in corporation policy, such as judge Grosscup suggests, he feels, would bring home concretely the fact that the bulk of the wealth of the country is still in the hands of the people. For in truth it is the people that have the wealth; the few only control that wealth.

Says judge Grosscup: "These people own the largest portion of the nation's bonds. They have immense sums invested in insurance and trust companies. Though no exact facts are at hand on which to base a statement, I believe it is safe to say that the people of America have financial means at hand to possess themselves, at fair prices, of enough of the new great domain of property to make it as widely individualized as the farms of America." That would bring the republican ideal to the corporation which, judge Grosscup thinks, is the true ideal and far better than the destroyer of individualism, socialism.

Ask for Minard's and take no other

UNKNOWN FRIENDS

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated to give a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the house and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by all druggists and dealers.

TRAMWAY RETURNS

The weekly returns of the tramway service now operated by the city, issued yesterday for the week ending June 3, show the receipts for the week were $153.40, as against $106.65 for the corresponding week of last year, and the number of persons carried 2831, as against 1622, and increase of $46.75 and 1209 respectively for the week.

The total receipts and passengers carried this year to date of June 3 are $1852.80 and 35,562 as against $2086.05 and 38,124 for the same period in 1905 a decrease of $233.25 in receipts and 256 in passengers, accounted for by the fact that for about two months of the present year the tramway was out of commission.

DIOCESE OF KOOTENAY

THIRD REPORT TO SYNOD BY ARCHDEACON BEER

SOME FACTS AND FIGURES THAT SPEAK FOR THEMSELVES

During the session of the Anglican synod in this city just closed Ven. Archdeacon Beer, of Kaslo, submitted the following report of his work in the diocese during the past 12 months:

My lord and brethren: In making this, my third report to synod, as archdeacon of the diocese of Kootenay, I desire in the first place to acknowledge the goodness of God for the blesssings He has permitted us to enjoy during the year that elapsed since the last meeting of synod. I recently saw some pictures of the ruins of our churches in San Francisco. A few months ago these were beautiful and stately buildings, now they lie in ruins resembling those of ancient Rome or old cathedrals or monasteries in European countries.

Meantime we in Kootenay have gone on the even tenor of our way without a single disaster. No fire or earthquake or other disaster has come near us. Certainly our gratitude is due to our Divine Father for all His mercies to us. Our little band of clergy has been left to us, unscathed by sickness or death.

It is true we have lost five of our clergy and one lay reader, but only by resignation. While we regret this loss we do not feel to be sad, but only the normal state of continual change so characteristic of our energic and enterprising life in the west. Mr. Buttrum came to us with a desire to reach the coast and seized the first opportunity to attain his desire. He was with us so short a time as scarcely to be one of us. I have counted Mr. Solly as lost to us, though as a matter of fact, I do not know what has become of him. In losing Mr. Bartlett we suffered a loss to be regretted. Mr. Stoney has found more congenial work in the diocese of Kansas. Mr. Bastin found it necessary, on account of his health to seek a warmer climate.

He has been succeeded in his parish of Cranbrook, by our old and well-tried friend Rev. Mr. Flewelling, whom I am happy to welcome back among us. In addition to Mr. Flewelling we have Rev. John Leech-Porter, who has become rector of Greenwood; Rev. Howard King who has taken charge of the newly organized parish of Armstrong, which hitherto formed part of the Mission under the charge of Rev. F. V. Venables. Rev. Mr. Mildmay has gone to Penticton, where I trust he will find a congenial field and ample scope for all his energies. Mr. W. T. Johnson has been accepted by the bishop as a candidate for the ministry and has been for some months in charge of the mission of which Arrowhead has become the headquarters. In addition to this, a student has been secured from the Montreal theological college for the Ymir district and will work for the summer months under the Rev. F. H. Graham. He has already shown great energy and has settled down to earnest work. An attempt was made to secure a second student from the same college for work along the Crow's Nest, but our application was a little too late.

I have been, and am at present, in communication with several clergymen, endeavoring to secure them for work in this diocese, but for one reason or another, they have so far found it impossible to come among us.

I have tried as far as possible to fill the vacant missions myself, by giving Sunday services and have been at Fort Steele three times, Trout Lake six times, New Denver four times, Arrowhead three times, Michel once, Waneta once, also at Grand Prairie, Ducks, Trail, Nakusp, Armstrong, Penticton, Sandon Fernie, Grand Forks, Rossland, and was able to take Nelson on three Sundays while Mr. Graham was enjoying his well earned holiday. I also took Vernon on two Sundays while Mr. Lambert was absent on account of the sickness of Mrs. Lambert. I have recently taken Kaslo on two Sundays, thus giving Mr. Cook an opportunity to visit the coast, on these occasions I took Kaslo, while Mr. Cook went to Trout Lake.

In addition to these Sunday services, I have held a number of week day meetings and services, and these, together with the correspondence and other work, have kept me fully employed.

The scarcity of clergy has become a very serious matter, and with the influx of the thousands of immigrants to our country, is not likely to be mitigated in the near future. All the bishops appeal for more men and appear to be short handed. We are not quite so badly off as some of the bishops, yet we have room for good men and true, at Michel, Phoenix, Grand Prairie, Windermere, New Denver, and I might add the Crow's Nest and Trout lake. For the current year, the M. S. C. C. grant and the S. P. G. grant make the difficulty less of finance than of missionaries

I suppose the fact that we have some parishes without clergy, while others were vacant part of the year, may account to some extent for a falling off in the amounts of money contributed by our parishes as reported in the Easter returns for this year. Comparing our sheet of statistics compiled from the Eastern returns for 1906 with those of 1905 it will be found that in nearly every case our parish finances compare unfavorably with those of last year. I call attention to this important matter to emphasize the fact that we must not rest on our oars. Strange to say, even the number of baptized members reported is less this year, though the population of the country has been considerably increased. We have a few more communicants but the number of individual communions is less by about 1200. I think my brethren if you will compare this year's statistics with last you will find food for reflection. I make no further comment on this.

The greatest and most important work of the church is the missionary cause. Glancing for a moment at the amount paid in by our parishes for M. S. C. C. we find it is less than last year, though we are asked to raise $200 more. Again, last year we had seven parishes reported with a W. A. and 133 members, this year there are only five branches with a membership of 119. The Sunday school is our hope for the future, but even here we have less scholars reported than in 1905.

Perhaps we may take some small comfort in the fact that while our church property is increased in value, our indebtedness is some $500 less.

I know it is said that some times figures lie, but in our case I suppose they at least give us an approximate idea of the condition of things, and at any rate they furnish us the only means of comparing ourselves with ourselves.

While speaking of the W. A. I would like to say that this is a very important part of our missionary organization. So far, the few parochial societies we have have been affiliated with the diocesan branch of New Westminster. I think we ought to have our own diocesan branch. It is too far and too expensive to send W. A. delegates to Vancouver and without these conventions our parochial branches are too much like a rope of sand. If our W. A. was banded together into a diocesan branch, meeting say annually at some central place in our diocese, I feel sure our W. A. would become more of a reality to us and would enter into a new and vigorous life. I would urge therefore, that all parishes endeavor to have a parochial branch of the W. A. and that these be banded together into a diocesan organization, then we could show more fully that we are alive to the importance of the missionary cause of the church.

You are aware that the bishop has a theological college under way for New Westminster and Kootenay. Doubtless this will in the near future, help to supply us with a much needed body of candidates for the ministry. There are in this diocese, to my knowledge, some young men who would be glad to enter the ministry. They are not financially able to go to a distant college, but with some help and encouragement from us, they could easily be secured for God's work in this part of His vineyard.

I wrote a letter some months ago, to the Canadian Churchman, in which I pointed out that we, in this mountainous country, labor under a peculiar difficulty in the support of our clergy. We cannot drive from station to station as on the prairie, so that our clergy are obliged to confine their ministrations on any particular Sunday, to the one small station, and therefore all our support for that week must come from the one small place. On the prairie a clergyman ministers to three or four congregations, drawing a small amount of support from each place. At the end of the week therefore he has a respectable sum, drawn from three or four small offerings, while our clergyman has only his support from the one small community and though our people may give much more liberally than any one of the prairie missions, yet on the whole the amount is far less. The editor thought I made a good point there. This ought to be taken account of by our executive committee in making their missionary grants. At the same time we must remember that our clergy do not have to work so hard physically as those who have to drive thirty or forty miles each Sunday in all kinds of weather and over all kinds of roads.

I will close my report by calling attention to the well known fact that this Canada of ours is making a phenomenal stride in national growth just now. We are in this respect, the wonder of the world. Teeming myriads are pouring in from all parts of the world. The increase of population calls for tremendous efforts on the part of our church to fulfil her Divine mission of preaching the gospel. Brethren, Kootenay must take her full part in this great and important work. Each individual, clergyman and layman must realize his responsibility to God in this matter. The struggle is on, the battle has commenced:

Fight the good fight with all your might,
Christ is our strength and Christ our right.

A Grand Medicine for the Kidneys.

Don't suffer—don't experiment—don't waste money on unknown, untried remedies. There is one quick cure—one certain cure—one cure that everybody knows does cure Kidney Trouble. That's Gin Pills.

"I have been a sufferer with Kidney Trouble for years. Have tried medicines and doctors' prescriptions, but could get no permanent relief, my case being pronounced chronic. As it is generally known that the properties of gin without the alcohol is good for the kidneys, I decided to try Gin Pills, but must admit with very little faith. From the very first pill I got relief, and have since taken nearly four boxes and am COMPLETELY CURED, but am going to continue them a while longer. No dull, sickening pains in the back—no low spirits—am increasing in weight—and more vim and vigor than I have had for years—is what Gin Pills have done for me.

"H. P. HERBERT, Ottawa."

Be well and strong. Be free of pain. Be able to enjoy all the good things of life, with all your old-time vigor and enthusiasm. Gin Pills will cure those sick kidneys. Start now—to-day—and see how much better you feel to-morrow. 50c box—6 boxes for $2.50—and your money back if they don't cure.

Special offer: If you send us your name and address and tell us the name of the paper in which you read this we will send you a trial box absolutely free and post prepaid. Write today and get the medicine that cures.

THE SMELTING INDUSTRY

NOTE OF WARNING TO MINING AND SMELTING INTERESTS

UNITED STATES LEAD TRUST MAY STRANGLE B. C. INDUSTRY

Editor The Daily News—From the account given in The Daily News of the improvements in the Hall Mines smelter equipment, it is evident that no stigma attaches to this plant of out of dateness, or want of preparation for future foreign competition. Persistent agitation may have had something to do with the remodelling, but the chief reason of the perfecting of equipment and practice must lead to the working out of that economic principle: That an industry works to the greatest perfection in the shortest period, proportionate to the amount of adversity with which it is confronted. Necessity is the mother of invention and the present instance is a striking exemplification of the truth of the proverb.

Canada, as well as Mexico, owes a debt of gratitude to the high protection policy of the United States. To it can be ascribed the splendid plants constructed, particularly for lead smelting. We owe our refining branch of the industry to that policy also the manufacture of lead products. This shutting out of lead ores from the nearest and natural market by a prohibitive duty, created the necessity which gave birth to the splendid extension and perfecting of processes for the treatment of the raw ore. Today we are their equals in costs, in excellence of plant, and possess advantages in having near the seat of ore supply abundant sources of fuel, with low freight rates on the ore to the smelters. Against this must be the fact that we still lack the large consuming market, and if the outside interests can do better for our producers in prices, they will do it entirely because of the saving they can effect on this latter item. We must consider that if such prices are better in the sale of ore in the United States, they have further assistance in the enormous protection afforded by the customs tariffs. The Canadian industry is well equipped to fight, if the hitting is above the belt, and they must be held blameless if the fighting features go against them by reason of the below the belt hits of government policy.

The only reason why the lead industry, in its mining and metallurgical features, has a weak point in its structure, is because we lack the consuming population to use the production. How long will that weak spot be there? The best answer is to check up the enormous immigration, chiefly agricultural, taking up the land in small farms. Each farm means the construction of buildings. As the farmer gets prosperous he paints, and white lead consumption means more market for lead. This is only one feature. The growth of the country is large and the demand for lead grows with it. It will not be long before the weak spot will be one of the strongest parts of the structure.

Local lead smelting plants are absolutely essential to the extension of the mining industry in British Columbia. Foreign plants are notoriously finicky in their appetite for good lead ore and are satisfied only with the best. The home plants, by reason of close proximity to the supply have voracious appetites for all classes. Is it right that the latter should be fed on the scraps while the outsider gets fed on the best? Provided the local plants do as well, which they can now do, they are entitled to receive the good with the bad.

Right here should be sounded a note of warning to the producing as well as the smelting interests. The consumption of lead in the United States is outstripping the production, which latter is almost at a standstill. Shortage in the lead base is causing a contraction in the treatment of ores which require lead ore as a collecting vehicle in the furnaces, and causing the producers great loss from want of smelting facilities. The consumer of lead is paying a price for the article that is high because of its shortage, and made still higher by the imposition of a duty that is out of all reason. Added to this the control of the industry is in the hands of a monopoly, which is as powerful in its control of lead, as the Standard Oil company is in petroleum. This Trust has been sharply denounced in congress and is undoubtedly the next on the list for investigation. All this points to tariff reform, and what is interesting from a Canadian standpoint, is the fact of just what form the reductions will take.

The Lead Trust cannot face the storm without giving concessions. The problem must be analyzed to consider how it will affect the Canadian industry.

The Trust argument to meet that of the producer of ores which require lead as a base, will be, to have removed the duty on lead in ore, which will assure a supply from the outside that will allow the reduction of smelting rates to the figure that will foster the production of this class. This will probably assure such producers, who will unite with the Trust in the argument to the consumer, that such admission of lead ores will create the abundance of supply which will cause a reaction in the high prices. Therefore there will be no necessity of reducing the duty on manufactured lead products. If this argument wins out, as it stands a chance of so doing, the Trust will still hold the advantage, as it owns or controls the machinery of treatment, and marketing, wherefore it can hold the output to serve its self interest. It will remedy the weak point in its policy, which is the loss of control of production because they lack the supply.

The removal or reduction of the tariff on lead ore into the United States and the retention of the duties on the manufactured forms of lead will give the Lead Trust a tighter cinch than ever and will almost allow it to control the markets of the world. Because of the duty on the manufactured forms no other country will be able to compete by shipping lead products into the United States. On the other hand the Trust can reach out into the other countries and because of higher prices due to the duty barriers, can rob the outside smelters of their supply of raw materially. This virtually means the total wrecking of the smelting concerns, which depend on lead as a collecting medium in the treatment of other ores, in these countries.

Already we have seen signs that the Trust is lining up its forces for the fight. There will be an election in Colorado for United States senatorship, and one of the heads of the Trust will be a prominent candidate, in the person of Simon Guggenheim. The stronghold of the tariff barons is the United States senate, and it behooves interested Canadians to get their fighting clothes on, if they would not see their smelting industry wrecked by this monster of modern times.

The interests of the smelting and producing branches are one in this regard. The removal of the lead base means the destruction of the dry ore and low grade mining part of the industry.

Will we sit supinely by and allow the destruction of Canadian interests to satisfy the voracious maw of a United States monopoly?

Thorough organization is necessary between the smelting and producing people, and the ultimatum to the United States government should be: "No free raw material to people who desire to wreck Canadian interests. If free raw material is desired the duties must be reduced on the derivatives to allow of equality in the competition."

As the Mexican republic is as keenly interested in the preservation of her smelting industry Canada, joint action could be taken, and in all probability the desired result could be achieved. A campaign of education should be started, for it means much to Canadian interests.

GEORGE HUSTON.

Sandon, June 7, 1906.

DAPHNE POLLARD

POLLARDS' MONDAY NIGHT

Clever Youngsters will Entertain Nelson Audiences Every Night for a week

A treat is in store for the people of Nelson for the Pallard Lilliliputian Opera Co. will open at Sherman's opera house on Monday night next for a week's stand. This company is composed of 50 clever children who have just completed a most successful tour of Canada and the Western States. The youngsters range in age from seven to sixteen years but to watch their performance one can hardly realize the extreme youth of the artists, for such they are. They are prime favorites on the coast for the Pollard companies have been visiting Vancouver, Victoria, Seattle and other coast towns for the past four years. The children are brought from Australia where the headquarters of the Pollards' are situated and the present company was on its way home when the San Francisco disaster occurred and the route was changed, and they will remain in this country one more season.

The London, Ont., Press of Oct. 3, 1905, said of them: "They are the cleverest company of musical comedy people seen here this season."

Their repertoire includes such popular comic operas and musical comedies as The Belle of New York, A Gaiety Girl, A Runaway Girl, H.M.S. Pinafore, and An American Millionaire.

B. C. LICENSED VINTNERS

Annual Meeting Yesterday—To meet Next Year in Fernie

The Provincial Licensed Vintners' association of British Columbia, was called to order at 3 o'clock yesterday afternoon. First vice-president L. A. Manl yof Grand Forks, occupied the chair; second vice-president W. Gosnell of Nelson, and Henry F. W. Behnsen, secretary-treasurer of Victoria, were also present.

After reading the reports of the first vice-president and the secretary-treasurer, the following officers were elected:

President—L. A. Manly, Grand Forks.
First vice-president, W. Gosnell, Nelson.
Second vice-president — H. A. Brown, Revelstoke.
Secretary-treasurer—Henry F. W. Behnsen, Victoria.

The president will appoint the executive committee of the various districts and cities in the near future.

The meeting was most harmonious and business of the greatest importance was transacted. The association has a membership of over 500 and is in good shape financially.

By resolution it was resolved to hold the next annual meeting in the city of Fernie in June, 1907.

MADE NIGHT HIDEOUS

Sailor Jack's Latest Adventure—More Violators of City Bylaws

About 3 o'clock yesterday morning Geo. Garner made the early morning hideous by shouting "murder" at the top of his fairly powerful voice, and in shrieking out all manner of names at the policemen on duty because the latter wanted "Sailor Jack" to go quietly up to the station and sober up. Garner has a weakness for taking up his quarters at the Home Temperance hotel at the corner of Hall and Vernon street, and yesterday morning appropriated one of the boarders' beds, refusing to budge when the latter came in off shift, and very naturally demanded the use and occupation of his own bed. The police were sent for and Sailor Jack forcibly ejected. Then the real trouble started as Garner decidedly objected to going to police headquarters and shouted and raved like a madman. He was finally quieted and taken to the city lockup. In the morning session of the police court he was remanded for three days so as to get into condition to be dealt with.

Chief Deasy had two citizens of Chinatown, Kwong Wink Ching and Wing See before the magistrate to account for defective stovepipes at their residences, against the plain language of the city bylaw which requires stove pipes to be at least 18 inches away from side walls. The cases were remanded until next Wednesday.

J. Balding was charged with allowing his cattle to stray upon the public streets and was fined in all $4.75 and $2.50 costs.

N. N. Cummins was charged with allowing his chickens to be at large and got off with $1 and costs.

FUNERAL OF G. R. G. O'DRISCOLL

Masons and Members of St. Patrick's Society Will Take Part This Afternoon

The funeral of the late G. R. G. O'Driscoll will take place this afternoon from St. Saviour's church at 2:30. Rev. F. H. Graham, the rector, will officiate.

The members of Nelson lodge A. F. & A.M. and sojourning brethren are requested to assemble at the lodge room at 2 o'clock this afternoon for the purpose of attending the funeral.

The special meeting of St. Patrick's society, held in the city buildings last night was very largely attended. Past president T. J. Scanlan was elected to the chair and briefly and fittingly referred to the death of the society's president, G. R. G. O'Driscoll. He reported that a floral offering in the form of an Irish harp had been ordered.

A delegation of members was appointed to represent the society at the funeral today and walk to the cemetery. All other members and all Irishmen in the city are cordially invited to join the delegation in the funeral procession.

A committee consisting of J. Fraser, R. J. Clark and D. M. Carley was appointed to draft a resolution of regret to be adopted at a future meeting. The Irishmen will meet on Baker street in front of the undertaking parlors at 2:15 this afternoon.

STATUTORY MEETING

Shareholders of the Black-Mackay Mining Company Elect Directors

Yesterday afternoon a shareholders' meeting of the Black-Mackay Mining Co., Ltd., was held at the company's office in this city.

The company has now been in existence for some four months, and the meeting yesterday was a statutory one called to elect directors and transact general business.

The following directors were duly elected William Spurck, Seattle; Robert Campbell, Moyie; Leander Shaw, Vancouver; George M. Gunn, and Charles A. Mackay, Nelson. The directors will meet shortly and elect their officers.

The two claims located by C. A. Mackay and partner, to mine which the company was formed, were formally acquired and taken over by the directors. Two building lots near the shore of Moyie lake were also taken over.

Mr. Mackay will leave for the property next week, taking with him a couple of miners who will commence at once on assessment work on the two claims. They will sink a new shaft on the property and do some other mining work. As is well known the company expect to catch the extensions of the north and south veins now being mined on the St. Eugene property close to Moyie laks.

BASEBALL TODAY

Rossland and Nelson Juniors Will Meet This Afternoon

The Rossland junior baseball team and their friends will arrive here from the Golden City this morning and this afternoon on the recreation grounds at 2:30 a match with Nelson juniors will be commenced. Both teams have worked hard to get into good condition for today's encounter and a really fine ball game is looked for. The lineup is as follows:

Rossland		Nelson
Cogriff	catcher	Bard
Griffith	pitcher	Ebbs
Inches	1st base	Stephens
Owens	2nd base	Lett
Helgason	short stop	McCandlish
Demuth	3rd base	Ellis
Keefe	left field	Lacey
Wilson	center field	Brown
Ruel	right field	Newitt

Nap. Mallette will umpire and T. C. Cummins will be the manager of the local team.

TRINITY SUNDAY

The Special Services at St. Saviour's Church Tomorrow

There will be special services at St. Saviour's church tomorrow, Trinity Sunday, both morning and evening. There will be the usual celebration of holy communion at 8 a.m.. Morning prayer will be at 10 o'clock instead of 11 as is customary. At 11 o'clock the lord bishop of Kootenay will officiate at an ordination service, at which W. T. Johnstone, student missionary at Arrowhead, will be ordained to the Diaconate. At 2:30 there will be a children's service at which an address will be given by R. D. Harrison, student missionary in the Ymir district.

In the evening at 7.30 the lord bishop will administer the apostolic rite of confirmation and will preach.

THE VERY BEST REMEDY FOR BOWEL TROUBLE

Mr. M. F. Borroughs, an old and well known resident of Bluffton, Ind., says; "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel troubles. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before the summer is over. Why not buy it now and be prepared for such an emergency. For sale by all druggists and dealers.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

COLONIAL CONFERENCE

LONDON PAPER DISCUSSES THE FORTHCOMING MEETING.

COUNSEL, DEFENCE AND COMMERCE WILL BE CHIEF TOPICS

The London Daily Telegraph publishes a thoughtful article dealing with the coming colonial conference, in the course of which it suggests the formation of a permanent imperial cabinet. The Telegraph says:

Consulting the convenience of the several cabinet in the self governing states under the flag, lord Elgin has summoned the next colonial conference for April, 1907. The voice of India will be added upon this occasion to the counsels of an assembly by far the most authoritative in its composition, and the most critical in its proceedings, which has ever met together to deliberate and advise upon the best means of promoting the unity and development of the king's dominions. All fear that the home government might have sought to lay a veto upon certain subjects of debate is, we rejoice to say, at an end. Neither the commercial question, nor any other issue in which the mother country, the colonies, and our great Asiatic dependency may be jointly interested will be deleted from the agenda. The whole sphere of constitutional, economic and military policy—using the latter word, in captain Mahon's sense, to include naval forces and land reserves as the inseparable factors of an efficient system of defence—will be passed in review. The statesmen will confer across this memorable round table upon terms of complete equality. None will sit upon a dias and none below the salt. . . . While we cannot forecast at the present moment the procedure or conclusions of the conference, we can anticipate with more or less certainty the main subjects to which its attention will be called. Those subject are three—counsel, defence, and commerce.

After pointing out that we must seek a system by which a sort of permanent imperial cabinet may be ultimately created, which will enlist the energies and resources of every part of the king's dominions for the preservation and the advancement of the whole, the Telegraph says: "Our most imperative need is to fill up the waste places under the flag. We have a superfluity of acres and an inefficiency of men. At present half our immigrants flow to foreign territory, because we offer them no inducement to settle under the flag. A British settler who renounces all ties with the home courty, and exploits the soil of the United States, or of Argentina, enjoys precisely the same advantage in our markets as an emigrant who settles in Canada or Australia, who remains a subject of the king who is ready to spring to the defence of the flag in an hour of crisis, who purchases many times the amount of British goods bought by an American citizen or a German subject, and who already makes special arrangements, and is willing to extend them, for the support of British industry against foreign competition. If we do as much in time of peace for the development of foreign territory as for the promotion of population under the flag, why sould we expect special service from the colonies in time of crisis? That has hitherto been the argument of the sister states of the empire. We do not ignore the difficulties it raises, but to know definitely whether the colonies hold with it or not is an urgent need of imperial policy. Above all, we have to remember that the conference will be no provincial congress, but a council of nations, every one of whom in the course of time will surpass the measure of our own present power. Let its deliberation be full, free, unfettered, that the mother country and her children, taking counsel together in that spirit of frank speech, of searching and temperate discussion which is the birthright of our race, may draw closer to each other, and nearer and nearer yet to the day when Britain, gathering her great brood about her, shall answer to every challenge—'We are one!'"

POLICY HOLDERS' PROFITS

Dispute as to Whether or Not Canada Life Used Them in 1903

Toronto, June 8.—Whether or not in 1903 the Canada Life used $343,000 of the policy holders' profits to extend the business of the company, was the subject of dispute between I. F. Hellmuth, counsel for the Ontario government, and Frank Sanderson, actuary of the company, at the insurance investigation yesterday. The company's act provides that policy holders shall receive 90 per cent of the profits and the shareholders 10 per cent. The new business of the company in 1903 cost $343,000, which amount was taken out of the surplus earnings of the company. The contention of the actuary was that the directors had power to say what amount should be set aside as profits and that of that sum only were policy holders to get 90 per cent.

CONDITIONS IN MEAT PACKING

Washington, June 8—Labor commissioner Charles P. Neill, who assisted in making the investigation of the western packing houses, called at the White House today and had a brief conference with the president. Later he declined to say whether an additional report would be made to congress or not.

The president today received the following telegram:

Spokane, June 8—The president, Washington, D.C.—The Washington state grange in annual session, repudiates the reported attempt of the attorney for certain corporate interests to speak for the farmers of this country in opposition to your efforts to remedy conditions of meat packing or meat packers. Signed, C. B. Kegley, master State Grange; E. D. Campbell, secretary.

CELEBRATION ASSURED

OVER $1300 IS SUBSCRIBED FOR DOMINION DAY

COMMITTEES REPORTED PROGRESS LAST NIGHT.

There was a very good attendance last night at the adjourned public meeting in the city hall for the local celebration of next July 2nd and 3rd. Over $1300 has been subscribed so far and more is to come. An excellent program has been sketched out and good progress has been made with all the details.

The minutes of the previous public meeting held on June 4 were read and on motion approved.

Wm. Gosnell, chairman of the finance committee, announced amid applause, that so far $1312 had been collected. Mr. Gosnell said that further amounts would be got and asked that the committee be given further time, a request that was willingly acceded to. The amount now in hand is considerably in excess of the fund last year.

G. P. Wells, secretary of the sports committee stated that the following program for July 2nd and 3rd had been outlined:

Monday—Trap shooting, children's races, baseball match, lacrosse match, drilling contest.

Tuesday—Caledonian sports, log rolling and log chopping, trap shooting, football match and second baseball match.

For the above sports a sum of $1200 will be required for prizes, etc.

The report was received and adopted. The committee will continue to perfect the program outlined above.

It was decided that a plain program stating the events be issued. Posters will be issued at once.

Ald. Irving reported on the lighting and decorating. He suggested that a permanent system of electric lights be put up to be used every Saturday night during the summer and at fair and celebration times. Money was wasted each year in putting up and taking down the lights. There were three celebrations in sight during which the lights would be wanted this season and they should be put up permanently and the cost divided between the fair managers, the regatta managers, Dominion Day celebration committee and, if necessary, the city should bear its share.

William Irvine agreed with the suggestion and moved that a committee be appointed to confer with the city authorities and the agricultural society and obtain if possible a permanent lighting system this year. This carried and the mayor appointed Wm. Irvine, J. J. Malone and Frank Brewer as the committee referred to.

The question of music for the celebration was passed on to the decoration committee.

J. H. Wallace, as chairman of the transportation committee announced that they had arranged with the C. P. R. and the Great Northern railways to grant return tickets for the celebration at a fare and a third, and in the case of teams actually taking part in the program, they would be carried for a single fare. (Applause).

The secretary of the 20,000 club wrote saying that the club would support the celebration in every way and would not interfere with the arrangements made. The club's excursion would be held on some other date than was at first contemplated.

The sports' committee will arrange a schedule of children's sports.

C. A. Waterman will be invited to act as marshall of the day and if he is unable to act the sports committee will arrange for some on else to fill the position.

The launch club will be invited to join in the celebration.

The meeting adjourned until next Friday evening, June 15, at 8.30.

LAND NOTICES

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works, Victoria, to purchase 80 acres of land commencing at a post planted on the west side of Lower Arrow lake, about one mile south of the lower Narrows, thence north 20 chains; thence west 40 chains; thence south 20 chains, more or less, to the lake shore, thence east along the lake shore to place of beginning.

HANNAH ANNABLE
J. E. ANNABLE, Agent.
Located May 23, 1906.

NOTICE is hereby given that 60 days after date the undersigned intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post planted at the southwest corner of Thomas Greenwood's application to purchase, and being on the eastern boundary line of Lot 222, G.I., Kootenay District, thence south 20 chains, thence east 40 chains, more or less to the western boundary line of Lot 306, G.I., Kootenay district, thence north 20 chains, thence west 40 chains more or less to the place of commencement.

FRED J. SAMMONS.
GEORGE ADAMSON.
Dated at Procter, B.C., this 2nd day of March, 1906.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay District: Commencing at a post marked "N. W. corner C. L. Stuve's land," west side Lower Arrow lake, about 16 or 17 miles west of Robson; thence 80 chains south, thence 40 chains east, thence 80 chains north, thence 40 chains west along lake shore to point of commencement, 320 acres more or less.

C. L. STUVE,
WM. BURGH, Agent
Nelson, B.C., May 16, 1906

NOTICE is hereby given that 60 days after date I intend to apply to the Hon the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay district: Commencing at a post marked "Jessie M. Tireman's northeast corner post," on the west side of Arrow lake opposite Nakusp, thence west 20 chains more or less to the northeast corner of the Y.C.L. company's timber license No 5140; thence south following the east boundary of the said timber license 80 chains; thence east 20 chains more or less to the shore of Arrow lake; thence following said shore 80 chains more or less, in a northerly direction, to the place of commencement, containing 160 acres more or less.

Dated this 29th day of March, 1906.

KENNETH L. BURNET, P.L.S.
Dated, May 19, 1906.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for purchase the following described lands in West Kootenay district: Commencing at a post marked "Mary Tireman's N.E. corner post," on the southeasterly bank of the Columbia river, one mile east of Joseph Genelle's purchase claim, thence south 57 chains and 46 links; thence west 40 chains; thence north 13 chains and 21 links more or less to the bank of the Columbia river; thence northeasterly following said bank 60 chains more or less to the place of beginning, containing 130 acres more or less.

Dated this 29th day of March, 1906.
MARY TIREMAN
KENNETH L. BURNETT, Agent.

NOTICE is hereby given, that 60 days after date, I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands, situated on the south side of the West Arm of Kootenay Lake, about 10 chains east of pre-emption 606, commencing at a post marked "M. M. Winter's S.W. corner post," thence east 40 chains, more or less; thence north 10 chains, more or less; thence west 40 chains, more or less; thence south 10 chains to point of commencement.

Dated this 23rd day of April, 1906.
M. M. WINTER.

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Starting from W. BZ. Pollard's S.W. corner post, situate on the north side of lot No. 1075, on the north side of the West Arm of Kootenay lake, about two miles from Procter, thence 20 chains east more or less to the N.E. post of L. 1975, thence 20 chains more or less to N.W. post of L. 6498, thence east 20 chains more or less to N. Clark's S.W. post, thence north 30 chains more or less, thence west 20 chains more or less, thence south 30 chains more or less, thence west 20 chains more or less, thence south 20 chains more or less, to point of commencement.

Dated this 31st day of March, 1906.
W. B. POLLARD.
J. E. TAYLOR, Agent.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works, Victoria, to purchase 160 acres of land, commencing at a post planted on the south shore of Lower Arrow lake, marked "J.A.C., N.E. corner," at the west boundary of lot 4599 and running south 40 chains, more or less, to Columbia & Western railway; thence west along said railway 40 chains; thence north 40 chains more or less to the lake shore; thence east along the lake shore to place of beginning.

April 26, 1906.
J. A. CRYDERMAN.
J. E. ANNABLE, Agent.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, for permission to purchase the following described lands, situate in West Kootenay district, commencing at a post marked by name "Gerald Rees N.E. corner post," at northwest corner of the purchase claim staked by E. A. Boyd and F. J. Sammons, thence 20 chains west along the C.P.R. right of way; thence 10 chains south; thence 20 chains east; thence 10 chains north to post of commencement, containing 20 acres, more or less.

GERALD S. REES.
Nelson, April 24, 1906.

NOTICE is hereby given that 60 days from date I intend to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands situate in West Kootenay district: Commencing at a post planted at the southwest corner of Lot 4024, marked "C.V.D.'s N.W. corner post," thence 80 chains east, thence 40 chains south, thence 80 chains west, thence 40 chains north to place of commencement, containing 320 acres, more or less.

C. V. DAKE.
June 5, 1906.

NOTICE is hereby given that 60 days from date the undersigned intends to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands. On the West Arm of Kootenay lake, starting from location post west 35 chains, running along J. Harris' north survey line, north 40 chains more or less, thence east 35 chains, then south to point of commencement.

Dated this 21st day of March, 1906.
JOHN E. TAYLOR, Locator
M. R. McQUARRIE, Agent.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria for permission to purchase the following described lands in West Kootenay: Commencing at a post marked "V. Dynes, northwest corner," about six miles west of Columbia river, and three miles south of Mosquito creek, thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to the place of commencement, containing 640 acres, being the same more or less.

V. DYNES
Dated at Nelson, B.C., May 22, 1906.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria to purchase 80 acres of land commencing at a post planted on the east bank of the lower Arrow lake, at a point known as Rock Slide, and marked "J.B.A. S.W. corner," running south 40 chains; thence east 20 chains; thence north 40 chains; thence west 20 chains to place of commencement.

PRICE OF METALS.

New York, June 8—Bar silver 65; casting copper, 18 1-8; electrolytic copper, 18 5-8; lead, $5.75.

London, June 8—Lead, £17; silver, 30.

NELSON'S NEWS OF THE DAY

E. C. Traves has been elected president and F. M. Chadbourn secretary of the Oddfellows' Building and Investment society.

While London lead remains at the satisfactory quotation of £17, bar silver has fallen to 65 in New York. Another advance in silver is looked for next week.

A meeting of the executive committee of the Dominion day celebration, composed of the chairmen of the several committees, will be held in Fred Irvine and company's office this morning at 11 o'clock, when progress will be made in completing the details of the program for the two days.

When F. G. Fauquier took up a ranch of 500 acres at the Needles on Arrow lake, some years ago his friends imagined the gates were ajar in his upper stope, says the Greenwood Ledge. This spring he was offered $5000 for the ranch, but will not sell for less than $25,000. Last year the fruit crop from only a few acres netted him $2000. He has sold this spring to the ranchers of Nelson 48,000 raspberry plants, and on Tuesday closed a contract to supply the Arrow lake steamers with their summer supply of fruit. Practically all the ranching land is taken from Robson to Arrowhead and and holders are asking from $3 to $20 an acre for it in its raw state.

Frank Phillips returned last evening from Ainsworth with the body of Pirere Giguere, who was drowned there on Thursday morning. He was accompanied as far as Nelson by all the deceased's fellow workers, who thus paid their last marks of respect to a greatly esteemed companion. When the body was recovered on Thursday afternoon after six hours' grappling, it was found that Giguere had grasped two sacks of ore when he was precipitated into the water and these sacks were hauled up with him. The arrangements for the funeral are delayed pending instructions from the relatives of the deceased, who reside in Quebec, and with whom Frank Phillips is in communication.

At the first practice of the grand march for Kirmess in the exhibition hall last evening there was positively such a brilliant array of local talent and beauty as to astonish even a hardened reporter thoroughly used to displays of all descriptions. The long line of marchers filed into the building in double files to the tune of a well played march and proceeded to go through all sorts of intricate movements. It was not a dress parade, but it gave an idea of what will be seen when Kirmess commences on June 20. This afternoon at 3:30 there will be a practice of the children's dances and at 5:30 of the tambourine dance at which all the performers are asked to attend.

The body of the late Robert Wood, who was found dead in his hotel, the Thistle, at Granite on Thursday afternoon, has been brought to the city and is now lying at the Standard Furniture company's undertaking parlors from whence the funeral of the old Scotchman will take place next Monday afternoon at 2:30.

The gun club will hold their regular weekly shoot this afternoon at the traps on the water front, at the foot of Stanley street. As the time for the tournament approaches increased interest is being taken in trap shooting and it is expected that the local shooters will give a good account of themselves on July 2 and 3.

A. G. Shaw, managing director of the Pingree Mines, who leaves tonight for Victoria as a delegate to the grand lodge of the I.O.O.F., reports things progressing very well at the Pingree Mines. Ground sluicing on the Eagle creek slope of the property has uncovered another ledge the extent of which has not yet been ascertained.

The officers and visiting delegates of the Provincial Licensed Vintners' association of British Columbia, were given a banquet last evening in Fraternity hall by the local members of the association. Wm. Gosnell presided and after full justice had been done to the choice banquet catered by George Horstead in his best style, a toast list of some length was duly honored. J. J. Malone and Dr. Rose spoke for "Our City"; L. A. Manly of Grand Forks for "Our Association"; E. Ferguson for the "Wholesale Trade"; the chairman for the "Brewing Interests" and all the hotelmen present for "The Overworked Saloonman." Songs were given by Mr. Moore of Ferine and Reid and Mason of this city.

At the monthly meeting of the missionary society of St. Paul's church, the report of the delegate to the annual meeting of the Womens Foreign Missionary society of the Presbyterian church in Canada, was received. The report which covered the proceeding sof the three days, showed prosperity and growth. Six hundred delegates, representing every province in Canada, were there. Returned missionaries gave accounts of their work in foreign lands. The amount raised for missions by the Presbyterian church of Canada was $63,725.45. Missions in the following countries were sustained or assisted: China, Japan, Africa, New Hebridles, Korea, Formosa, South America, Indians of Northwest, Chinese of B. C.

We will be pleased to furnish all information and can only say that for a lasting, serviceable and fireproof roofing, it has no equal.

J. H. Ashdown Hardware Co., Ltd.

Sole Agents for Kootenay District.

Messrs. The J. H. Ashdown Hardware Co., Ltd.,

After considering the matter of roofing for the buildings in connection with the new power plant for the city of Nelson, I have decided that the Malthoid Roofing is the best and only roofing to meet all the conditions contingent upon the situation and elements to which these buildings are subjected, as this roofing not only is fireproof, but will withstand dampness and heat. Yours truly,

W. G. GILLETT, Mayor.
