METCALFE TO INVESTIGATE

Anti-Japanese Crusade in San Francisco Growing More Serious

Restaurant Keepers Now Complain of Being Boycotted and of Being Subjected to Indignities

Washington, Oct. 26.—Secretary Metcalf, of the department of commerce and labor, will go to San Francisco tomorrow to investigate and make a full report on the situation as affecting the Japanese trouble.

Washington, Oct. 26.—Japanese restuarant keepers have suffered indignities in San Francisco as well as Japanese school children, according to reports received by the Japanese ambassador from the Japanese consulate officials in that city. At least seven or eight reports have ben made concerning a boycott inaugurated against Japanese restaurants in the Pacific city.

Agents have been posted to prevent patrons form entering restaurants and in several instances stones have been thrown and windows broken, according to the statements of Japanese officials.

These cases have been brought to the attention of secretary Root by viscount Aoki, who says it is with great reluctance that he brings to the attention of the federal government demonstrations against the Japanese which are purely local in their nature. Viscount Aoki said that all the trouble had been confined to San Francisco.

The ambassador assured his government today that the outbreak against the Japanese is purely local and was much gratified at receiving despatches which showed that the leading Japanese are, for the most part attempting to check the feeling against Aemircans.

Washington, Oct. 26.—At today's cabinet meeting, among the important matters discussed was the situation growing out of the anti-American sentiment in Japan and the exclusion of Japanese children from the public schools of San Francisco. It was stated by a member of the cabinet after the meeting that the general opinion of the members was that the Japanese situation was exceedingly grave and would require the most delicate treatment to avoid an open rupture.

It developed today that the proceedings initiated in San Francisco yesterday to compel the authorities to receive Japanese pupils in the public schools, were directed by the department of justice.

San Francisco, Oct. 26.—Judge Wolverton of the United States circuit court yesterday issued an order to the board of education of San Francisco citing that body to show cause why an injunction compelling the reinstatment of I. Yasugura, a Japanese pupil recently excluded from the Pacific Heights grammar school, should not be issued. The board is ordered to answer on November 5.

This order was issued following an application for an injunction presented to judge Wolverton with the intention of making this a test case. The application for the injunction was made on the ground that the present resolution of the board of education excluding Japanese pupils from the city schools is in violation of the legislation of the United States and the empire of Japan.

A mass meeting held here by the Japanese last evening discussed the present situation regarding the children's exclusion.

London, Oct. 26.—In a despatch from Tokio the correspondent of the Daily Telegraph say the Japanese foreign office has received a reply through ambassador Viscount Aoki at Washington, to the effect that the exclusion of Japanese children from the schools of San Francisco was quite a local affair. The American government was not aware of of the details of the incident until after the receipt of the cablegram from Japan. The American ambassador at Tokio, Luke E. Wright, has given a pledge that the United States will not discriminate between Japanese and other foreign children, and that she undertakes to protect Japanese interest fully. Baron Kaneko, a member of the privy council, the correspondent continues, in the course of his interview on the subject, said the incident was lamentable in view of the ever-increasing friendship between Japan and the United States.

He applauded the moral tone of the Japanese press, which he declared to be based upon gratitude. He said further there was undoubtedly evidence that Japan had taken offence at the San Francisco authorities, but it was universally held that the exclusion of the Japanese children from the San Francisco schools was an outcome of the present election campaign in the United States.

Tokio, Oct. 26.—It is definitely believed here that the anti-Japanese feeling existing in America is confined to the labor element in California. The tone of the Japanese press is sobering down. Thoughtful Japanese believe that if the country allowed itself to be carried away by a momentary excitement against America this would only play into the hands of those who are anxious to alienate foreign sympathy from Japan.

PASS THROUGH ROCKIES

GRAND TRUNK PACIFIC SAID TO HAVE MOST FAVORABLE.

YELLOWHEAD IS COMPARED TO A PARK DRIVE.

Winnipeg, Oct. 26.—"There is no doubt in my mind," said a man who returned to Edmonton from Yellowhead a few days ago, "that the Grand Trunk Pacific has the best railway pass in the mountains. I have crossed the mountains on every track between here and Mexico and I say positively that nothing like as favorable a pass has yet been found anywhere else. The Yellowhead is like a park drive compared with the most of them and there is no more climbing than plenty of roads have to do right on the prairie. In fact I know for an absolute certainty that nowhere between Edmonton and Fort George will the grade exceed one per cent. There is one stretch on this side of Tete Juan Cashe where for eighteen miles a one per cent grade will be necessary. There is also another piece of two or three miles just on the other side of the divide between that and Bear lake or Yellowhead lake as it is now officially known, where it goes the merest fraction over one per cent. Climbing up the pass from this side is a snap. The heaviest grade anywhere is along the Miette towards its headwaters where for a piece the grade will go eighty-five one hundredth of one per cent; but in mountain railroading these grades are so low as to be unprecedented.

"There is no doubt in my mind," continued the speaker, "that the G. T. P. survey's will be pretty well completed before the gangs come in this fall. On this side and over as far as Tete Juan Cache the surveyors are well along, in fact most of them will be about wound up now. On the other side, however, in below Tete Juan there is considerable to be done yet. The surveyor over there had a pretty bad time, the Roylston party which was made up in Victoria and came in via Kamloops, took 47 days to connect with the commissary department from this end, and the boys came within an odd shoe or two of starving to death. The Roylston party was supposed to do the work between the end of the Featherstonehaugh division at Tete Juan and the Little Smokey.

"Another outfit which came in from the coast via Kamloops was to do the Little Smokey-Fort George section, but when they reached the scene of operations at Little Smokey they found that the cache in which their grub was stored had been destroyed by forest fires and they had to get out as quickly as they knew how. This left the Roylston party the only one working between Tete Juan Cache and the junction of the Nicola and Fraser at Fort George, and they are doing everything that endurance can accomplish to get the gap closed up before the winter sets in. Beyond Fort George the string of survey camps is complete right through to the Pacific coast."

GREAT MUSICAL TREAT

THE WESTMINSTER GLEE PARTY DELIGHT LARGE AUDIENCE

NOTHING BETTER HEARD IN THE WEST IN MANY YEARS

Absolutely the best thing musical that has been in the west for the last decade at least was the performance of the Westminster Abbey Glee and Concert party at the opera house last night. Arriving late, not being able to reach the opera house until close upon half past ten—where the audience had been kept by Geo. Horstead in sublime confidence in the strength of the attraction—having to play in their ordinary clothes, tired, as they must have been, their performance was magnificent.

Albert Hole, the two foot nothing boy soloist, can own the town if he thinks Nelson worth while.

The company will play today at 2:30 p.m. and if a special train can be got to take them out afterwards, will repeat their performance this evening.

The opening chorus was "Foresters Sound the Cheerful Horn," the feature being the wonderful blending of the four male voices, the male altoist and the first tenor having peculiarly subtle intonations which seemed to pervade the whole glee, while perfectly harmonizing. Immediately following came the old "Hush Thee, My Baby," wonderfully sung; and then marched on a small boy in an Eton jacket, who sang "Cherry Ripe," and to an insistent encore brought down the house with "Love Was Once a Little Boy."

The next number was that of the only lady of the party, Madame Marie Hooton, who sang in a splendid mezzo soprano, with a contralto register of great clearness and distinctness, "Down the Vale," and later "What do the Summer Fairies do?" The male quartette then sang "The Ash Grove," and in answer to an uproar that filled the house for many minutes a trio sang "Pickled Pepper."

A musical sketch was then put on by Harry Ivimey, who is in a class by himself. He was vociferously encored and sang as an encore—singing is not quite the correct phrase—about his favorite pastimes, one being scandal tea. He quite conquered the house.

The second part of the program began with a "vocal waltz," which was exquisitely rendered by the whole strength of the male party. To this was given as an encore, just as perfectly, "Come, Let us Go."

Madame Hooton then gave a sketch of how the dumb wife was cured, to her husband's regret, but would not give an encore, the hour growing very late.

A quintette then sang the glee "Would You Know My Celia's Charms?" which convulsed the house and as a contrast sang "Nelle Gray," in which the blending of the harmonies was something never to be forgotten. The small boy then came out again and sang "Love's Echo," doing the faint echo beautifully. As an encore, on which the house insisted although already midnight, he sang "When the Green Leaves Come Again," to the delight of his hearers. Then came the only male song of the evening, "Rocked in the Cradle of the Deep," by Sterndale Bennett, who has a splendid bass voice. When encored, he took as his second "Oh, the Dear Little Girl," and certainly fetched his audience. Another sketch by Harry Ivimey of the misfits of an amateur opera, heartily appreciated many of his audience and the performance came to a close with a beautiful glee by the party, "St. Michael's Bells," where in one part the dying away clangor of the chime was rendered beautifully.

Here and there the boys sang by themselves catches and rounds which were well done, exceptionally so. Everything throughout the whole performance was simple, nothing pretentious, nothing vulgar, nothing classical except classical in its own simplicity, and yet there was never heard in the west anything so perfect musically.

BRANTFORD PERSONATOR

SUCCESSFULLY BLUFFED CROWN COUNSEL FRANKLIN.

BUT LATER IS ARRESTED ON A CHARGE OF PERJURY.

Toronto, Oct. 26.—The second act in the comedy in which John O'Meara, the witness from London, in the conspiracy to bribe voters' case, is a leading character, was enacted in the police court this morning.

Upon the previous occasion on which O'Meara appeared in court he was indignant at having been subjected to the indignity of arrest on a bench warrant. His denials were so explicit and vigorous that crown counsel Franklin admitted that an error had been made and asked that O'Meara be discharged from custody. Afterwards, he was paid his expenses and a letter of apology tendered him.

Today O'Meara appeared again in the dock with a charge of perjury hanging over his head. He was positively indentified by three witnesses as the Brantford personator.

O'Meara was held on a charge of perjury, bail being refused.

BUCKINGHAM INQUESTS

MEDICAL TESTIMONY PROVES THAT STRIKERS WERE SHOT

WITNESS TESTIFIES THAT ALBERT McLAREN USED REVOLVER

Buckingham, Que., Oct. 26.—The inquest opened this morning on the bodies of Belanger, strike leader, and Theriault, a striker, who were shot and killed in a riot at the McLaren lumber mills, two weeks ago.

Coroner MacMahon, of Montreal, addressed the jury declaring that responsibility attached to some persons for the fatalities of the strike affray. Cases when killing was justifiable were very rare in law. The coroner then read judge Roohon's decision allowing the inquest to proceed without exhuming the bodies.

Dr. Secord, who made an autopsy on the bodies, said bullets were not found in Belanger's body because they had passed through. One was found in Theriault's body, probably a ball from a revolver..

Dr. Wallace, who assisted in the autopsy, confirmed this, leaving no doubt that the strikers died from shooting.

Dr. Rodergue denied under oath that he knew there were rifles in the buggy in which he rode to the scene of the fight. He swore that Albert MacLaren of the MacLaren Lumber company, used a revolver.

Magistrate Pearson, in explaining why he did not read the Riot Act, said he was out of town.

Magistrate Gorman said he did not expect a battle, though he was on the scene.

C. P. R. TRACK WASHED OUT

Heavy Rains Caused Blockade On Crow Line East of Cranbrook.

(Special to The Daily News)

Cranbrook, Oct. 26.—Owing to torrential rains in the Rockies for the past two days the mountain streams overflowed their banks and tore out a portion of the C. P. R. tracks east of Morrissey Junction. The east bound passenger train of yesterday was stalled for about five hours before being able to proceed on its journey. The entire traffic over the line has been temporarily discontinued. The westbound passenger of today will be at least six hours late at this point, but the delay does not entirely arise from the washout as the track gangs have effected hurried repairs. The storm has quite spent itself and the weather here is clear, warm and beautiful.

GLEICHEN VACANCY.

Calgary, Oct. 26.—The Liberals of the provincial riding of Gleichen will meet at the liberal club, Calgary, on November 9 for the purpose of selecting a candidate for the election for the vacancy in the riding caused by the elevation of C. A. Stuart to the bench.

WELCOME M'BRIDE

Premier is Given Cordial Reception on Arrival in Victoria

Torchlight Procession and Speech Making in A. O. U. W. Hall—Calm Review of Work of Conference

(Special to The Daily News)

Victoria, Oct. 26.—Cordial, affectionate and to a large extent non-political (or at least non-partizan) was Victoria's welcome tonight to premier McBride upon his return from the conference of provincial premiers from which he eventually withdrew in protest against what he maintains is inadequate recognition of British Columbia's special claims upon the federal treasury.

There was a torchlight procession, martial music, much handshaking and no discordant note in the welcome home proceedings.

The torch bearing paraders made their way with the returned first minister to A. O. U. W. hall where, after brief proparatory speechifying by J. L. Beckwith, as chairman, Hon. R. McBride spoke of his mission, briefly outlined the province's case for better terms and gave his reasons for each step in his official course during this latest mission.

It is doubtful if the prime minister ever before so carefully avoided even the appearance of party pandering, or created so strong a respect for himself as a sincere public man working in British Columbia's interest. He made no appeal, even indirectly, to prejudice or feeling, and completely divested his remarks of circumlocutory character. Stating the provincial case briefly, he gave all credit for sincerity to even his opponents and summed up a strong and concise privincial case with dignity, force and moderation.

In no public address in this city has Hon. Mr. McBride shown himself so large minded a public man and liberals as well as party friends are prompt to give him his due and congratulate him sincerely upon the evidences given of maturing judgment, toleration, fairness and good temper.

TO SETTLE THE STRIKE

Fernie, Oct. 26.—(Special)—Developments may soon be expected in the strike situation, John Mitchell's representatives, Sharpe and Burke, having arrived in town by the C. P. R. express this morning. It is understood district president Sherman is at Blairmore at present, but is expected back tomorrow.

CHARGE AGAINST AMBASSADOR

United States Representative In Mexico Mixed Up in Case of Fraud

Mexico City, Oct. 26.—Excitement was caused in financial circles tonight when it was learned that warrants had been issued for the arrest of J. E. Starr Hunt and three of his associates, charged with fraud in their handling of the funds of the defunct International Bank and Trust company of America.

Ambassador Thompson was openly charged with endeavoring to shield Hunt. The police and secret service agents are looking for Hunt, but have been unable as yet to find him although they say they are positive he is in the city.

Ambassador Thompson denies any connection with the case and says the charges against him are absurd.

FAST ATLANTIC SERVICE.

President Drummond of Bank of Montreal Says it is Essential.

Montreal, Oct. 26.—Sir George Drummond, president of the Bank of Montreal, returned this evening from a trip to England. Sir George stated that he had returned more than ever convinced that Canada should have a fast Atlantic mail service with an all the year round port at Halifax, and thought that this could be made so satisfactory that it would draw a great deal of trafic away from New York. It was an essential part of the scheme that the C. P. R. and the Grand Trunk should be given running rights over the Intercolonial railway.

MAXIM GORKY'S PLANS

Will Serve Russia with his Pen Rather Than in Parliament

Naples, Oct. 26—Maxim Gorky, accompanied by Madame Andreavea, arrived here today from New York on board the steamer Princess Irene. When seen at his hotel by the Associated Press Gorky spoke enthusiastically of Naples and expressed his pleasure at being in it again.

Regarding the present situation, Gorky said he was not in touch with the Russian events, but he had good reason to believe that the Russian situation had been exaggerated in the foreign press. He said it was impossible to foretell the duration of the present crisis and he did not think the next parliament would be reactionary. He said he would never serve as a delegate to the lower house, even if elected. He plans to help the Russian people with his literary work, believing this influence to be more useful than any he might exercise in parliament.

TELLS HARD LUCK STORY

MANAGER OF VICTORIA LIFE BEFORE INSURANCE COMMISSION

AFFAIRS OF FORESTERS TO BE FURTHER PROBED AT OTTAWA

Montreal, Oct. 26—The difficulties a young company has to contend with were enumerated today before the insurance commission by David Burke, general manager of the Royal Victoria Life Insurance company. The company had found the cost of obtaining business had been higher than anticipated, the result being that its capital had been impaired. This has been going on from the inception of the company in 1897, but now appears to have ceased, and the future promises better for the organization. In connection with the affairs of this company it was learned that loans had been made on what the government considered "unauthorized securities," securities not permitted by the insurance act. After communicating with the department and having the matter threshed out, the company ceased operations in these securities.

Burke said the securities had been good in every instance and that not a dollar had been lost.

The securities mentioned as unauthorized and on the shares of which the company had advanced money were :C.P.R., Montreal Light, Heat and Power company; Detroit rails; Twin City; Toronto rails; Montreal rails; Dominion Iron and Steel and Canadian Colored Cotton.

Burke was under examination during two sessions. At the close of today's proceedings it was announced by judge McTavish that the commission had adjourned and would meet in Ottawa on Wednesday morning next.

The affairs of the Canadian Order of Foresters will again be taken up at the capital.

HAS HIS OWN PLATFORM

WHAT NEW YORK'S REPUBLICAN CANDIDATE STANDS FOR.

HUGHES MAKING HOT FIGHT FOR STATE GOVERNORSHIP.

New York, Oct. 26.—In his speeches during the past week Charles E. Hughes has proclaimed a political platform of his own—a combination of personal beliefs and promises of executive action if elected governor.

The following extracts from Mr. Hughes' speeches form his platform:

"I am a republican and have always been loyal to the republican party, but I am not an apologist for republican sinners."

"I appeal, not to partisans, but to good citizens. I welcome the support of every democrat who believes in the democratic principles that were overthrown at Buffalo."

"I accepted the nomination because it came to me free from any obligation and because my election will leave me absolutely untrammelled in the discharge of my official duty."

"I stand for absolute honesty in administration. If there is anything wrong in the departments I propose to find out and to affix proper responsibility for the wrongdoing, no matter who stands in the way."

"So far as the power of the governor goes, I propose to use it to see that legislation and the action of the departments are taken solely in the interests of the people and that nothing meritorious is obstructed by any individual, however powerful, or by any corporation or interest, however entrenched in the financial world."

"If I am elected governor no legislation can get under way with the idea that it will ever meet with my approval which is not honorably presented, fairly discussed and which is not pushed in an honest effort to serve public welfare."

"I believe in home rule."

"I desire to see our health laws enforced, so that our people may be protected from adulteration in what they eat and drink."

"I desire to see the labor laws fully executed."

"I believe in labor organizations. Labor has just the same right to organize as capital."

"I do not believe in talking about classes. It is American to work. It is American to recognize all kinds of work. It is also American for all to recognize their common brotherhood; that they are inseparably related and that which makes for the prosperity of one makes for the prosperity of all, and that which pulls down any one pulls down all."

"Any measures for the real benefit of workingmen will have my cordial support. I am greatly in sympathy with every effort to avoid and settle labor disputes through conciliation and arbitration."

"I am against unfair combinations. I believe and stand for enforcement of the Anti-Trust law."

"I believe in doing full justice by those employed in our municipalities—our policemen, our firemen, our street cleaners and in all the varied activities of municipal work."

"To the extent of my power the corrupt lobbyist will have no footing in the capitol."

"I desire to see such an administration of the government at Albany that business interests can go to the capital in a fair way upon the merits of their case which they desire to present and receive the consideration to which they are entitled, not a bit more and not a bit less. I desire to see our business interests entirely safe from the menace of strike legislation.

"I believe in an honest, simple, ballot. I desire to see our election laws simplified. I believe in making it easy for the popular will to be expressed in connection with candidates. I desire to see a dishonest count made as impossible as any statutory scheme can make it.

"My administration will be an unbossed administration. I have no relations which will commit me to any person or to any corporation. In my life I have endeavored to maintain my individuality, and to do my duty as I see it from time to time according to my conscience. That rule I intend to follow if I am elected governor of this state."

WEEKLY TRADE REVIEW

ACTIVITY IN ALL LINES OF INDUSTRY REPORTED

BANK CLEARINGS FOR WEEK ENDING OCTOBER 25

Montreal, Oct. 26—The following are the weekly bank clearings, as compiled by Bradstreet's for the week ending Oct. 25, showing percentage of increase and decrease, as compared with the corresponding week of last year:

		Inc.	Dec.
Montreal	$36,704,634	71.0	....
Toronto	28,720,305	67.3	....
Winnipeg	15,306,901	89.1	....
Vancouver	3,383,044	95.1	....
Ottawa	3,144,276	6.4	....
Quebec	2,128,055	72.8	....
Halifax	1,827,352	20.0	....
Hamilton	1,556,664	40.0	....
St. John	1,252,773	51.6	....
London	1,175,353	45.2	....
Victoria	881,860	33.9	....
Calgary	1,491,449	....	....
Edmonton	804,971	....	....

Bradstreet's trade review says: Canadian trade has been helped by cooler weather for the marketing of grain, good export demand and activity in all lines o industry, including building. Car shortages are complained of in the Northwest. Export trade shows a large gain, largely in agricultural products. Cotton goods prices have been advanced all along the line. The closing of the Ontario bank has had no particular effect on trade. Demand for high grade railway goods is a feature. Trade is active and collections better in the Norhwest.

Failures number 18, as against 18 last week and 23 in this week a year ago.

MUNICIPAL CONVENTION

WARM DISCUSSION OVER MUNICIPAL CLAUSES' ACT.

TELEGRAM SENT TO LAURIER RE FERNIE STRIKE.

Kamloops, Oct. 26.—Mayor Morley's (Victoria) paper on the proposed new Municipal Clauses' Act, provoked a length and at times acrimonious discussion at the convention yesterday, but was finally referred to the executive, the convention empowering that committee to prepare either a new act or suitable amendments to the existing statute. Ladner's social club resolution was also referred to the executive.

Reeve Byrne carried a resolution asking the federal and provincial governments for extended control of roads, streets, etc., within municipalities, and against telephone company's encroachment.

On motion of mayor Gillett (Nelson) a telegram was sent to sir Wilfrid Laurier asking that the minister of deputy minister of labor be sent to Fernie with a view to settle the strike.

The constitution was amended, confining representation at the convention to active members of municipal councils, municipalities being allowed two delegates, with one additional for each $25 dues. The next convention will meet in Nanaimo in June, 1907.

TALKED TO THE FRUIT GROWERS

Creston, Oct. 26.—Professor Lake, of the Oregon Agricultural college and deputy minister of agriculture Anderson, addressed a meeting of the East Kootenay Farmers' Institute here yesterday. Earlier in the day they gave demonstrations in some of the surrounding orchards. Their visit was very greatly appreciated and local fruit growers will be materially benefitted by the excellent advice given by professor Lake.

CONFIRMED CRIMINAL

Winnipeg, Oct. 26—Chief justice Howell in the assize court today sentenced Alphonso Mariot to penitentiary for seven years on a charge of robbery with violence. Mariot was only recently released from Stony Mountain where he served three years for burglary. He also served seven years in St. Vincent de Paul for having shot at the chief of police of Montreal.

AMERICA CUP RACE

New York, Oct. 26—The Evening Post today says: "There will be no race for the America cup next year. There will, however, be a race for that historic mug in the summer or early fall of 1908, unless the New York yacht club refuses to meet the challenger a fraction of half way, which is extremely unlikely."

MONEY IN FISH AND GAME

Portland, Me., Oct. 26—Fish and game furnish Maine with one of its greatest industries and much of its revenue is obtained from visiting sportsmen, who are obliged to procure a license before they can fish or hunt.

TO REPORT AT OTTAWA

Indian Agent Loring Must Answer Charges Made by Father Coccola

Government Cuts the Price of Methylated Spirit—Nelson Man Recommended for Position of Hull Inspector

(Special to The Daily News)

Ottawa, Oct. 26.—Hon. Wm. Templeman, minister of inland revenue, announces that the government, which has a monopoly of the sale of methylated spirits, has reduced the price from 90 cents to 80 cents per gallon. A reduction was made last August from $1.10 to 90 cents.

Inspector Adams, who held an examination for the position of hull inspector at Victoria recently, has reported in favor of of Kinghorn, of Nelson.

A warning which all but the hidebound politicians will heed was sounded by Aylesworth in a statesmanlike speech at Wiarton, last night, for Mr. Tolmie, when he said in reference to the Quebec county election, it had been claimed sir Wilfrid Laurier was too British. This argument had been greatly used by the premier's political opponents. Those who exulted over the Quebec county victory were digging the grave of British institutions and setting province against province, the same as fifty years ago.

Pictures of the king and queen of Great Britain, painted by J. C. Forbes for parliament, have arrived at the buildings and for the present have been placed in the lobby of the commons.

Major Moodie has staked out a government reserve around Fort Churchill to prevent speculators taking up land which will be required for a railway terminus at an early date.

Ottawa, Oct. 26.—Indian agent Loring, of Hazelton, who was requested to come to Ottawa in connection with the trouble between the Babine Indians and the fishery guardians, failed to come, and has been ordered to report to the department here at once.

The order was telegraphed on Friday after father Coccola, chief Big George, sub-chief William Trah, had held a conference with premier Laurier. John T. Williams, fishery inspector on the Skeena, who sat as a justice of the peace at the trial of the Indians, has also been ordered to Ottawa.

It has been reported to Laurier and Oliver that certain Indians were arrested allegedly for offenses against fishery guardians, but were prosecuted on other charges and were not protected in any way by the local Indian agent, Loring. One Indian was charged with the theft of a fishing net, convicted and sentenced on that count.

It is alleged that Indian agent Loring, made no attempt to protect the Indian from this charge, although father Coccola personally upbraided Mr. Loring for permitting the prosecution to go on.

Hon. Frank Oliver had issued instructions that the Indians convicted should not be committed to prison but released on suspended sentence. The necessary instructions were issued by the department, but the Indians were sent to jail at New Westminster. An explanation will be sought from Williams.

Complete returns of quin-quennial census of the three prairie provinces will not be available until next week. So far as they have been made up they demonstrate that Manitoba's population has increased forty per cent in five years; Alberta 65 per cent, and Saskatchewan 180 per cent.

The figures are as follows:

	1901	1906
Manitoba	225,211	364,000
Alberta	72,811	184,000
Saskatchewan	91,560	257,000

START ELEPHANT RANCH

Valentine, Tex., Oct. 26.—The first shipment of elephants which are to stock the large elephant ranch that is being established near here by J. P. Adams and associates, of New York, has arrived.

There were four females and one male in the initial shipment. Other elephants will be received during the next few weeks until the ranch is stocked with about 100 females and seven males. It is said to be the first experiment of breeding elephants on a large scale ever attempted in this country.

GRAFT IN SAN FRANCISCO

San Francisco, Oct. 26—After a day of excitement, district attorney Langdon of San Francisco, who last night was suspended from office by acting mayor Gallagher, tonight apparently was in a victorious position and had gained a temporary advantage over the city officers and politicians, who sought his removal after he had announced his intention to seek the indictment of several city officials for felonies and misdemeanors.

TERRORIZING TERRORISTS

Warsaw, Oct. 26.—Three terrorists, who had been sentenced by drum head court martial to death, were executed this morning by shooting . Over 150 other terrorists have been arrested.

UNION LABEL

AGRICULTURE IN B. C.

R. M. Palmer, secretary of the Bureau of Provincial Information, is to be heartily congratulated upon the new edition of Bulletin No. 10, entitled "Agriculture in British Columbia." This is the fifth edition of this Bulletin and it is certainly an admirable production, one that cannot fail to prove a splendid advertisement of the agricultural resources of this province if care be taken to distribute copies of it in the right quarters.

We believe persual of this pamphlet will open the eyes of many people even in this province and assuredly its contents will prove a revelation to the people of eastern Canada, the United States and the old country. It may be said that there is very little in the way of information relative to the agricultural industry and its possibilities in British Columbia that will not be found within the covers of this new edition of Bulletin No. 10.

The chapter devoted to fruit-growing is quite comprehensive and, very appropriately concludes with a citation from the governor-general's speech at the opening of the New Westminster Exhibition, on which occasion he said:

"Fruit-growing in your province has acquired the distinction of being a beautiful art as well as a most profitable industry. After a maximum wait of five years, I understand the settler may look forward with reasonable certainty to a net income of from $100 to $150 per acre, after all expenses of cultivation have been paid.

"Gentlemen, here is a state of things which appear to offer the opportunity of living under such ideal conditions as struggling humanity has only succeeded in reaching in one or two of the most favored spots upon the earth. There are thousands of families living in England today, families of refinement, culture and distinction, families such as you would welcome among you with both arms, who would be only too glad to come out and occupy a log hut on five acres of a pear or apple orchard in full bearing, if they could do so at reasonable cost."

A useful feature of the publication is a brief description of the various districts of British Columbia designed to convey an idea of their agricultural capabilities, the branches of the industry to which they are severally best adapted, and the quantity of available land each contains. It is pointed out that the absence of a general system of surveys renders it difficult to define with accuracy the areas of agricultural land, so that figures given are approximate only.

This is a condition of affairs that we trust will soon be remedied. There is no greater obstacle in the way of the settlement of the vacant lands of this province than this absence of surveys. There has been a lot of talk about something being done to remedy this evil, but so far nothing has come of the talk.

The Bulletin contains full particulars as to the land laws of the province,

CHOICE FRUIT LANDS FOR SALE

prices of land, how and where obtainable, etc., in fact it is a mine of useful information and cannot be too widely circulated.

Says the Kaslo Kootenain: "Our attention has been called to the fact that some unscrupulous real estate agents are advertising Kootenay fruit lands, reputed to be worth $1,000 an acre, in Northwest papers. This is a serious mistake, and should be looked into by the government. This kind of fake advertising will *do the Kootenay* valley irreparable harm and for the sake of the investor should be stopped. As a matter of fact there is no fruit land in the Kootenay worth $1000 an acre, and not likely to reach that value for a number of years to come. There are many acres of fine fruit lands adjacent to Kaslo, which can be had from $15 to $100 per acre, choice sections are somewhat higher, but no exorbitant price is asked. Again, it is announced that the land can be cleared for $25 an acre. This is another falsehood, as anyone acquainted with the conditions of this country will readily admit that $100 per acre for clearing most of our fruit land, is a very low figure. The fruit land industry is just *budding forth*, why strangle it by injudicious advertising at its birth." We have not seen any advertising of the class referred to by the Kootenaian, but if that sort of thing is going on it cannot be too severely denounced. The Kootenaian should be more explicit.

SULPHUR INDUSTRY

Italian Government Takes Control of Mines in Sicily

Louisiana sulphur is driving the Sicilian product from the American market, and has brought about a crisis in Sicily so grave that the Italian government has assumed control of the mines. Writing of the new Italian law enforcing a union of all the sulphur mining companies of Sicily, United States consul Benjamin F. Chase of Catania, says: "The new law in effect Aug. 1, *regarding* the Sicilian sulphur industry is very radical in its provisions. It practically amounts to the confiscation of the mines for a period of 12 years and also of the sulphur in stock, not refined, owned by the different people and societies. This is especially true of about 360,000 tons owned by the Anglo-Sicilian Sulphur company, whose rights expired July 1. This becomes *the property* of the obligatory company in the manner and at the price fixed by law. It might be added that this new law before it was adopted, was the cause of much discussion in the local press by the individuals, and, although opinions differed radically as to its utility, it is now a law and time alone will demonstrate whether such a trust will prove beneficial to the *mine owners*, the sulphur mills, the island of Sicily and the users of sulphur in general dependent upon this market for their supplies."

In 1905 the production of sulphur in the United States as reported by the geological survey, amounted to 181,677 long tons, valued at $3,706,560. The bulk of this output was of course, from Louisiana, while Nevada and Utah produced an appreciable tonnage. The development work now being carried on in Colorado and Texas did not furnish any commercial production in 1905 but may reasonably be expected to add materially to the output of 1906.

In 1905 the production of pyrite amounted to 253,000 long tons, valued at $938,492, as compared with 207,081 long tons, valued at $814,808 in 1904, an increase of 45,919 tons in quantity and of $123,684 in value. The states producing pyrite in 1905 were Virginia, California, Massachusetts, New York, Alabama, Georgia, Ohio, Indiana, and South *Dakota, given in order of their rank as* producers. South Dakota which contributed no pyrite in 1904, contributed a small quantity to the output of 1905. The only change in order of rank in 1905 was that New York displaced Georgia for fourth place, the latter state falling to sixth in rank.

The rapid decrease in the amount of *sulphur imported since Louisiana entered* the field, is shown in the following table:

Year	Tons	Value
1903	188,990	$3,709,620
1904	127,996	2,511,269
1905	82,961	1,567,485

Shipments of sulphur from New Orleans are steadily increasing each month, according to statements from that city, a *statement being made that in one week* in September over 12,000 tons went forward to New York, Boston, Philadelphia and other pors. Eastern and northern manufacturers, it is stated, find Louisiana sulphur well adapted to their needs for the manufacture of paper, and are buying large quantities of it.

ZINN'S MUSICAL TRAVESTY

Walla Walla papers all speak in high praise of the entertainment provided by the Zinn Musical Travesty company, which will open a week's engagement in this city on Monday night. The evening Statesman says: "It is hard to tell who is the leading artist as each one works with such vim that it would not be right to pick any particular one. J. W. Clifford, the comedian, is so funny that last night he had not only the large audience with him, but had the *company* laughing at him as well. Miss Cad Franks is thhe cleverest woman in the cast and her songs were repeatedly encored, especially the "Banana" song in the first act.. Miss Jessie Brown, the solo dancer, is an artist. The feature of the Zinn company is the chorus and dancing girls. They certainly deserve the title, as they are the best that have ever played in Walla Walla. They are without doubt the prettiest bunch of girls that have been at the Keylor Grand in a long time and it will probably be a long time before they are equalled."

If you want to buy Fruit Land see me.

That is my business.

BIBLE SOCIETY'S WORK

INTERVIEW WITH REV. F. W. GOODEVE, WESTERN REPRESENTATIVE

WHAT IS BEING DONE ON THE PRAIRIES AND IN THE MOUNTAINS

Rev. F. W. Goodeve, M.A., rector of St. James' Neepawa, who is the special western representative of the Canadian Bible society, is visiting Nelson just now in the interests of his society. He is speaking in all the principal towns of Alberta and British Columbia, endeavoring to arouse interest in the work of the Bible society among the Canadian people.

Talking to a representative of The Daily News, Mr. Goodeve gave some interesting particulars of his work. He said that the British and Foreign Bible society, to which the Canadian Bible society is auxiliary, is one of the oldest and most powerful auxiliaries of the Christian church. It knows no distinction of churches, being the handmaid of them all. Its immense income of $1,200,000 a year, is devoted solely to one purpose—the translation of the scriptures, without note or comment, into the language of every people, and their distribution throughout the entire world. Practically the entire supplies of scriptures for all the missionary societies of different churches are drawn from the society.

During the 102 years of its existence it has printed over 200,000,000 copies of the scriptures, or portions thereof, in 400 different languages. It employs 900 colporteurs, working in 27 different countries.

Referring to the work in Canada, Mr. Goodeve went on to say that for many years numerous colporteurs had been employed in this country, especially in the lumbering districts of the Ottawa, among the habitans ofthe province of Quebec and on the plains of the great Northwest, but the necessity of increased work in this portion has become more and more evident. The foreign element in the population is becoming more and more a serious problem. Over 44,000 immigrants from continental Europe came into the west during the first six months of this year. These represent a vast variety of tongues and they for the large part are from the ignorant portions of Sclavonia. The scriptures in 43 different languages were sold by the bible society in Winnipeg last year. But if these strangers are to become in time worthy Canadian citizens, it is necessary that their life be permeated by the principles of that book whose truth alone makes free, maintained the rector of Neepawa.

"A terrible responsibility," Mr. Goodeve continued, "rests upon the Canadians to provide for these peoples the scriptures in their own tongue. The need is also great among the English speaking people, many of whom in the west, in the mountains of Kootenay, for example, are utterly isolated. These people can seldom be brought to any religious service. For them in *particular the Bible society exists. By the* means of its colporteurs it seeks to place these men in possession of the scriptures. My object, therefore, in Nelson is to arouse in all the churches the interest of the members in the operation and the claims of the Bible society upon their support."

"HOME HELP" PROBLEM

MISS SAUNDERS TELLS OF OBJECTS OF B. W. E. ASSOCIATION

HOW NELSON HOUSEKEEPERS CAN SECURE ASSISTANCE

Miss Saunders, who is the private secretary to Hon. Mrs. Joyce, the founder and president of the British Women's Emigrant association, an institution founded 16 years ago for the purpose of sending help, primarily female help, to the colonies, accorded an interesting interview to a representative of The Daily News yesterday.

Miss Saunders is in Canada for the purpose of forming local branches of the association with which she is identified and is now on her way home from Vancouver, having founded since her arrival in Canada some dozen branches in various places in which Nelson is now included.

She explained that the particular portion of the work of her society which would interest the west was the sending from England of "home helps," ladies who would do the work of a general servant for the usual wage paid in the country and who would be treated as one of the family wherein engaged. The minimum wage demanded in Canada for such home helps, was $15 with the distinct understanding that this rate per month should be raised just as soon as the girl had made herself acustomed to the ways and appliances of the west.

The local society formed in Nelson is composed of Mrs. R. R. Hedley, Mrs. F. H. Graham and Mrs. F. Starkey, with Mrs. R. M. Macdonald as secretary. This society will look after the girls on their arrival and will see to hem for some time afterwards. Any application for home helps must be made to the secretary who will forward it to the English association who will endeavor to supply the want. The girls coming either pay their own way, or the sum necessary is advanced to them by Mrs. Joyce on a bond which makes payment contingent on a certain sum retained out of the wages. On the other hand, the printed rules of the association show that the would be employer may forward the amount of passage money to Mrs. Joyce and in such case an agreement will be entered into for one year. Otherwise the engagement is terminable at a month's notice on either side. The fare to Nelson from the old country according to the arrangements made by the association, is £15 to which must be added 5 shillings for a fee to the association. All that Mrs. R. M. Macdonald can do is to receive the application and forward it to the association which in turn guarantees that the home help wanted is trained and of good character. In addition to this the association will also send forward girls for any occupation desired, stenographers, nurses, governesses, factory hands or anything else. All such demands must be made through Mrs. R. M. Macdonald.

The ordinary class of servants are not sent to the west. It has been found that just as good wages can be secured for this class of labor in the east as in the west and the ordinary servant girl does not therefore care to spend the extra money needed to bring her west. Moreover, Miss Saunders explains that there was a large demand in the old country itself for domestic servants and therefore there was not an unlimited supply. On the other hand there were a number of girls gently brought up who could not for social reasons do domestice work in England but who would not scruple to do so in the west. It is this class in which she is primarily interested.

These girls are received into a training home at Wrockwardine in Shropshire, where a six months' training in laundry, cooking and general housework is given for a small weekly fee in return. There the girls themselves do all the work of the home and must eat their own cooking.

On being asked whether these girls ever turned out to be failures, Miss Saunders declared that in 16 years' experience this had never been found to be the case. She explained that the girls were mostly young and teachable, being received from 16 years upwards. She admitted that occasionally there were misfits, employee and employer not suiting each other, but it had invariably happened that when the girl had gone to a second position that she had fitted well enough.

The training in the home at Wrockwardine, Miss Saunders said, was, of course, English. It could be nothing else. A description of the home, kindly lent to The Daily News, appearing in a magizine called the Young Woman, described the laundry work in detail, showing the regular laundry room with the usual English copper *boiler fitted into a brick furnace*, built especially for the purpose, something that is never seen in the west, the carefuly prepared irons and the mangle for which room can seldom be found in Canadian homes.

However the key to the situation is summed up in a letter written back from Canada to Mrs. Joyce in which the writer, who has succeeded more than usually well, says: "If a girl can make up her mind to rough it for a time, turn her hand to anything and learn quickly the Canadian ways, one can be very happy. Much depends on one's self." Or another, from an employer referring to her home help in whom she is rejoicing: "Like most English women when they first come out, she is inclined to potter; this is so true, but a few months soon remedies that defect."

Miss Saunders is distinctly enthusiastic and thinks she ha the solution of the servant difficulty in which opinion her Nelson committee are inclined to agree. But not only is the association for the purpose of serving domestic requirements, it will also, on request send men and families. For instance, to bring the matter down to local needs, a rancher who wants help on his ranch, can at least make the experiment of applying to the association through its Nelson secretary.

Minard's Liniment Relieves Neuralgia

NOTHING TO FEAR

Mothers have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but it is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by all druggists and dealers.

Gin Pills Help You As Nothing Else Will

ONTARIO PROOF

GIN PILLS cure all Kidney ills from simple backache to diabetes pain in the small of the back and through the hips—swollen feet and hands—burning urine—constant desire to urinate—dizziness—headaches—spots before the eyes—with loss of appetite, sleeplessness and nervousness—disappear under the healing, soothing powers of GIN PILLS.

Men and women who have any kidney or bladder trouble are throwing away their one chance of health and happiness by not writing for a free sample.

OWEN SOUND, ONT., March 10th, 1905.

Having used a sample box of Gin Pills, and finding them give me great relief, I sent my father-in-law, A. McDermid, of Keady, a box; he having for years been used up with kidney and bladder trouble, and unable to get relief from the urinary remedies used. The Gin Pills gave him relief before half the box was used. He is now entirely cured, and I believe Gin Pills a great cure.

JAMES LODGE.

Do as Mr. Lodge did. Simply write us for a free sample box of GIN PILLS and try them at our expense. If you feel better in every way, and know that GIN PILLS are doing you good, surely you will continue using them until cured. That is why we will send you a free sample box if you write and tell us in what paper you saw this offer.

GIN PILLS are sold by druggists everywhere, 50c a box, or 6 for $2.50.

ARGUMENTS OPEN TODAY

EVIDENCE IN FOREST FIRE SUITS IS ALL IN.

JURY EXCUSED UNTIL MONDAY MORNING

The forest fire damage suits were resumed yesterday morning and an end of the evidence was arrived at yesterday afternoon at 4 o'clock when the court adjourned until 10.30 a.m. on Monday next.

Today will be occupied in arguing a case for non-suit and the preparation of a series of questions to be propounded to the jury. While it seems that the jury are not bound to answer these questions and are at liberty to return a general verdict, yet it was thought better that while the discussion of the points involved in these questions was in progress that the jury should not be present. It is therefore likely that the session today will be short. The question of non-suit is not likely to be pressed, E. V. Bodwell intimating as much yesterday but saying that he would press the matter pro forma. Unless the court had undergone a change he saw no hope in pushing the point against the expressed opinions of the president, chief justice Hunter. His lordship remarked that he was open to hear new argument but as far as he could see the contention on the one side was that the fire which did damage escaped from the right of way and burned over the limits, whereas the contention for the defence was that the fire, which started from the right of way, was local in its consequences and that the fire, which really did the damage, wasa separate fire altogther which had not been proven to have started from the right of way, but which may have started in another manner. He saw nothing for a non-suit in this. It was a question of fact, the jury had viewed the ground and it was a matter for their judgment.

A point elicited for the defence yesterday was that the Pinkerton agency had bee nengaged at the request of the defendants, Stewart & company, to trace Qualife and had spent large sums of money in endeavoring to find the missing sub-contractor from whose portion of the right of way is declared to have escaped the fire which did the damage. This was sworn to by Sylvester C. Thirle, assistant superintendent of the Pinkerton agency.

Augustus Carney, assistant timber inspector for southeast Kootenay, testified that he had collected dues for the provincial government from the plaintiff company and he was of the opinion that the hollow cedar left as culls in the woods were of good value.

R. M. Bird gave the prive of timber standing, as $1 per thousand in 1904. He was agent for the Canadian Pacific.

Charles Scott, land agent for the Great Northern gave the value of standing timber in 1904 at 35 cents to a dollar a thousand.

This closed the case for the defence. For the rebuttal, manager Boynton of the Elk River Lumber company said that such of the land declared by F. C. Green to have been logged over was absolutely virgin at the timber of the fire. He further stated that the fires described to have been seen in July, 1904, on West Fernie lots near the right of way, fires ascribed to the clearing of land, could not have been so occasioned as there was no settlement in the locality sworn to. E. P. Davis then took the witness over a rough memorandum book in his possession, which purported to give the daily cut and from which the account books were entered up. It was shown that there was only one discrepancy betwen the memorandum book and the account book. This was for 600 logs.

W. A. Macdonald objected that there was nothing to show the bona fides of the memoranda displayed. E. P. Davis said that this conveyed an inuendo that the memoranda were faked, but Macdonald held to his position.

Manager Waters, of the Elk River Lumber company, then was recalled and reaffirmed the accuracy of his former statements as to the limits destroyed and their value.

J. Graham, who owned a strip of land running up to the back of Lever's house, several hundred feet wide, said that he had visited his land for a month after the fire and had see nmuch of the timber thereon destroyed by fire. There was fire to the north of the creek and to the creek and to the south of the creek, which ran up from Lever's hause. (Previous testimony for the defence as to this creek had decalred it to be the limit of the fire which had broken out of the right of way to the south of Lever's house).

Cross-examined by E. V. Bodwell witness said that the bridge over that creek within his land had not been burned.

In reply to the court, witness said that a pile of his wood lying to the east of the bridge, 125 feet away, had been burned. Also that another pile of wood lying to the west of the bridge, 100 yards away had been burned. The fire had swept north up the hill on either side of the bridge but the bridge itself had been untouched by it.

CLARK'S PORK AND BEANS

hot or cold are welcomed anywhere; a meal in five minute sthat satisfies for hours.

It is requested that any person desirous of preparing the rate schedule wanted by the Wholesalers' association should write to the secretary, I. G. Nelson, stating experience and salary wanted.

WOUNDS, BRUISES AND BURNS

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one third of the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic and when applied to such injuries causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the suffering and inconvenience such injuries entail. For sale by all druggists and dealers.

The Oxford Right Steel Plate Range

Until we found out just the right way to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook,—every steel-plate range kept the kitchen broiling-hot. This range is a cool range—the top shield and lining is thick asbestos, so the heat stays inside the range and keeps oven evenly hot. Food is better cooked, quicker cooked and cooked for less fuel-cost.

For Cleanly Cookery
OXFORD CHANCELLOR
BURNS WOOD OR COAL

Everything about it is cleanly,—empty the ashpit without fluffing ashes over everything; feed-pouch takes fuel without clutter and muss. Fuel does more cooking because this range has the right draft-control,—sensitive, easily-governed—bring a fire up quick, cool it down quick.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

TELEGRAMS OF THE DAY

BANDITS SUCCESSFULLY LOOT ILLINOIS BANK IN DAYLIGHT

KNIGHTS OF PYTHIAS WILL BAR LIQUORMEN HEREAFTER

Kansas City, Oct. 26—Four more bodies were recovered and identified this morning from the ruins of the chamber of commerce building, the dead now totalling eight. At the hospital two of the injured were in a critical condition but it is believed all the others will recover. The loss of life is attributed in part to the lack of fire fighting apparatus.

New York, Oct. 26—The strike of the chauffeurs, employed by the New York Transportation company, which began at the company's Main street station, spread today to one of the substations in 66th street. Ninety of the of the 120 chauffeurs employed at the substation joined the 200 strikers who went out yesterday. Thirty men remained at work and as they took out heir cabs each was accompanied by an officer in plain clothes.

Berlin, Oct. 26—The pretended captain of Grenadiers of the guard who, on Oct. 16 produced a forged order authorizing him to take command of a detachment of men which he met on the streets of the city, and proceeded to Copenick, a small town near here, where he arrested the burgomaster and city treasurer and took possession of the cash, amounting to about $.000, turns out to have been a shoemaker named William Voigt of Tilsit. He was arrested here today at his lodging house. Voigt, although working at his trade of shoemaker has committer a long series of felonies, principally robberies by means of forged documents. He has served five terms in prison, finishing a 15 year sentence in February and is nearly 60 years old.

New Orleans, Oct. 26—A sweeping anti-liquor statute was passed today by the supreme lodge Knights of Pythias. The new statute is expected to bar from entrance to the order wholesale liquor dealers and hotelkeepers who run bars in connection with their hotels. It includes professional gamblers, saloon keepers, bartenders or dealers in spiritous vinous or malt liquors. The new statute does not affect any who are now members of the order.

London Oct. 26—Replying to a question in the house of commons, president of the local government boards, Burns, said that of 1418 tons of meat seized and condemned at the Smithfield meat market in London, between July 19 and Sept. 13, 24 tons came from the United States and about 732 tons from the Argentine republic.

Montreal, Oct. 26—Rebates, policyholders' rights to vote and the various plans of insurance were the topics of discussion today during the sessions of the insurance commission.

T. B. Macaulay, of the Sun Life declared againt rebates and failed to see the need of giving voting powers to policyholders and was enthusiastic in his approval of deferred policies. Today's examination brought to a close the probing into the affairs of the Sun Life and it was announced that the Royal Victoria would be dealt with tomorrow, and that the close of the sitting would terminate the work of the commission in Montreal.

St. Louis, Oct. 26—A special to the Republican from Odin, Illinois, says: "The bank of Odin was looted by a gang of safe robbers early today. The report of the explosion attracted a crowd of citizens to the scene and a running fight ensued in which more than 30 shots were fired. The bandits escaped with all their booty, the amount of which is not known. None of the citizens were hurt. According to those in the fight there were three or four robbers in the party. The bank of Odin is a private institution."

QUEBEC'S VIEW OF CASE

HON. W. A. WEIR TALKS OF OTTAWA CONFERENCE

GATHERING ON WHOLE WAS EMINENTLY SATISFACTORY

"The outcome of the conference of premiers at Ottawa is gratifying in the extreme to the province of Quebec, and of course to the other provinces of the dominion," said Hon. W. A. Weir, Quebec's minister of public works, in an interview at Montreal.

"In brief, the basis of settlement is that the province will get 80 cents per head per annum from the dominion treasury, according to the latest census.

"On this basis, Quebec will get an annual increase of no less a sum than $600,000.

"The agreement, I can say, was reached with the utmost unanimity. All the premiers were in perfect accord with the sole and signal exception of premier McBride, of British Columbia. He put in the claim that British Columbia was different from other provinces and required different treatment. When asked to show just wherein the difference lay, he brought up all manner of technicalities, but could, or would not give any real data on which anything definite could be based.

"Finally, British Columbia was offered $100,000 additional per annum for ten years over and above the increase based on 80 cents per head settlement; but premier McBride would not hear of it, and declared himself insulted by the offer.

"Although appealed to furnish definite data, he did not do this, and in fine the representatives of the other provinces simply had to guess things so far as British Columbia was concerned.

"In my opinion, the offer was fair, even, I think, generous. Some of the representatives of the provinces were at first opposed to so big additional grant to British Columbia, but for the sake of harmony and to round out the settlement, they were willing to agree to it.

"At first they proposed $80,000, then came up to $40,000, $50,000, but premier McBride's uncompromising attitude caused them to come up to $100,000.

"But all to no purpose, for Mr. McBride considered it an insult to him and his province.

"Apart from that, the conference has been an unqualified success. The representatives of Quebec, Ontario, the Maritime provinces, and Manitoba, and the new provinces of the west have been in perfect agreement from the start. Now that agreement has been arrived at, we are naturally very much pleased at so satisfactory an outcome."

TO KILL THE DANDRUFF GERM.
Is the Only Possible Way of Having An Effective Cure.
If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NELSON'S NEWS OF THE DAY

Some good shipments are being made from the Great Western mine at McGuigan.

H. M. Stevenson, manager of the Highlander, came in from the mine yesterday on a brief business visit.

William Impey is opening a carpenter shop on Vernon street at the place formerly occupied by the Turner-Beeton Co.

Prof. Lake of the Oregon Agricultural college, will demonstrate pruning, etc., at the orchard of James Johnstone at 10:30 this morning.

Captain Paddon is down from Crawford bay and says that the country side is looking very well and plenty of improvements are being undertaken.

The state of the roads, especially after the recent heavy rain, has seriously interfered with shipments from the La Plata and the installation of the new compressor plant.

There will be lectures at the board of trade rooms this afternoon at 2:30 and in the evening at 7 o'clock by Prof. Lake and J. D. Anderson, deputy minister of agriculture.

F. E. Fauquier, who is down from the Needles, reports that the fishing is excellent on Whatshan lake and that a caribou and a silver tip have been killed there this season.

Some boys were brought before police magistrate Crease yesterday for being in a state of intoxication. The police are endeavoring to trace the person who sold them the liquor.

E. O. Kramm, manager of the St. Eugene mine, under superintendent Stewart, passed through Nelson last night on his way to Rossland. The mine is working actively and there is no lack of fuel.

A. D. Wheeler, who came in from Ainsworth yesterday, says that a force of men is at work on the Krao, putting up buildings, erecting a hoist and timbering the upper portion of the shaft preparatory to sinking.

Mayor Gillett arrived home from Kamloops last night well pleased with the result of the municipal convention held in that city. With the mayor, were alderman Grigor of Rossland, and mayor Naden of Greenwood, who had been in attendance at the convention.

There promises to be a keen demand for seats at the Harold Jarvis concert in the Methodist church next Thursday evening. Reserved seats can be secured at Rutherford's.

It is not proposed to make any change in the Kootenay lake steamer service when the C.P.R. winter time table goes into effect on November 10. Both steamers will be run as usual, the increasing traffic necessitating the double service.

The Women's Council of St. Saviour's church has followed the example of other church societies and has formally resolved to participate in the work of the anti-tuberculosis society of which a branch was formed here last week.

GANS-HERMAN FIGHT

Agreement Signed Yesterday—Gans Turns Down Battling Nelson

Chicago, Oct. 26—Articles of agreement and Kid Herman of Chicago, were signed here today. The terms are 133 pounds, two hours before the fight, the winner to receive 65 per cent and he loser 35 per cent of the purse.

Billy Nolan, manager for Battling Nelson, met Gans a short time before the signing of the agreement between Gans and Herman and opened negotiations for a fight between Gans and Nelson. Gans insisted on 133 pounds at 3 o'clock and Nolan declared for the same weights to govern as at Goldfields. Gans turned his back on Nolan and commenced to talk with Herman's manager, who was standing close by.

Both Gans and Herman say they favor George Siler for referee.

MURDER AND SUICIDE

New York, Oct. 26—Murder and self destruction ended tonight the lives of a man and woman, who were registered at the hotel Griffo, a downtown hotel, as Mr. and Mrs. Sinclair of Burlington, Vt. The woman had been shot through the left breast and the man died from a bullet wound in the head. The right hand of the man clasped a revolver of large calibre. Little is known of the couple, although they had been frequent guests at the house, and nothing in their effects served to identify them further than was known to the hotel employees.
