## WEEK'S ORE SHIPMENTS

### Unmistakable Signs of Growing Activity in Slocan District

**Work is Being Resumed on Several Properties--Latest News From Boundary Camps--Maple Leaf Bonded**

Although it has come very slowly—much more slowly than was expected at the close of last year—the revival of silver-lead mining in the Slocan district is growing apace and each week properties long idle are once more being developed and the shipping list is steadily growing. The Whitewater mill is running full blast again after being shut down for a long period and the plant will be kept busy for the balance of the summer. At Slocan and along Slocan lake there are many unmistakable signs of returning activity and the list of properties upon which work has been resumed, or definite arrangements are being made to resume, grows daily. The Kimberly, Tamarac, Comstock, Arlington, Vancouver and the Canadian group are a few only of the properties referred to, there are many others.

The Le Roi management have decided to expend a large sum at once in deepening the shaft from the 1300 to the 1700 foot level. The directors believe the ore is there and are going down after it. The new work will commence at once.

In the Boundary country it is announced that work on the Snowshoe property, recently taken over by the Consolidated Mining & Smelting company, will be commenced on July 23. Some 50 men will be employed at the start and this force will be gradually increased.

A comparison of the output from the Boundary for the first six months of the year, with the same period in 1905, demonstrates that the increase in tonnage and values this year is nearly fifty per cent over that of last. The tonnage for the six months of this year is placed at 633,500, as against 458,000 for the same period in 1905, and the value of this half year's output is estimated at over $3,000,000.

In the immediate neighborhood of Nelson the excellent work being done at the Ymir and the La Plata mines is attracting a great deal of attention amongst mining men and it is very generally expected that both these properties will make handsome returns to their owners by the end of the year.

The ore shipments and the receipts at the smelters for the week are appended in detail. They are both well up to the average expected, and exceed those of the previous week, in which the holidays intervened, considerably.

BOUNDARY SHIPMENTS

| Mine | Week | Year |
|---|---|---|
| Granby | 15,640 | 453,962 |
| Emma | 133 | 8,497 |
| Mother Lode | 1,024 | 73,548 |
| Brooklyn-Stemwinder | 3,531 | 80,588 |

The total receipts reported from local and foreign mines for the week were 28,415 tons and for the year to date 881,564 tons.

ROSSLAND DEEP MINING.

Rossland, July 14.—A. J. McMillan, managing director of the LeRoi, telegraphed from London today directing that the local mangement at once begin the task of deepening the shaft from the 1300 to the 1700 foot level. The exporations have proceeded by means of a winze from the 1300 to the 1700 foot level. As some large shoots of ore of a high grade were found below the 1300 foot level, it has now been decided to extend the shaft down so as to extract the ore. It is a five compartment shaft and the extension of it down to the 1700 foot level will cost a large sum.

MAPLE LEAF GROUP BONDED

(Special to The Daily News)

Grand Forks, July 14.—George A. McLeod, who first brought the McKinley mine to the front, today made the first payment of $3000 at the Royal Bank here to Fee Bros., of Grand Forks, and H. W. Young of Vancouver, owners of the Maple Leaf group of Copper claims in Franklin camp, on which a strike was made recently. A force of miners, under A. J. Stewart, have been stripping the various leads for the last six weeks and have uncovered the largest and richest bodies of copper sulphide ore ever found in southern British Columbia. One cut, 65 feet across the ledge, gives an average assay of 3 per cent in copper and $2.50 in gold and silver.

Today American capitalists have taken a working bond on the Maple Leaf group for $115,000, $500 cash, and balance in payments during the life of the bond, 18 months.

SNOWSHOE TO RESUME SHORTLY

(Special to The Daily News)

Phoenix, July 14.—Charles Blesel, the new manager of the Snowshoe mine in this camp, which was recently taken over by the Consolidated Mining & Smelting Co., of Canada, Ltd., made another visit to the property this week, and it is now given out that the mine will start operations on Monday, July 23. W. S. Macy & Co., Ltd., who already have charge of the Granby, Pathfinder and Skylark boarding houses, will be in charge of the Snowshoe boarding house also. It is expected that in the neighborhood of some 50 men will be employed at the Snowshoe, the force being gradually increased.

NEWS OF BOUNDARY MINES

(Special to The Daily News)

Phoenix, July 14—The British Columbia Copper company is still steadily pumping out the extensive workings of the B. C. mine, Summit camp, on which the company recently took a bond. It will probably require several weeks yet to unwater the property so that it can be inspected and a plan of development formulated.

A force of some 15 men is now employed at the Crescent mine, in the high grade belt, under W. H. Jeffrey, M.E., the water having been taken out and active work started. This property, or a large control, was recently acquired by Col. T. L. Dickason of Chicago, who is spending a month or two looking after his mining interests in this section.

About 250 tons of ore are being shipped daily from the Granby's Gold Drop mine, where some 30 men are steadily employed. Work has been started on enlarging the ore bins at the Gold Drop outlet, provision being made for the installation of another large crusher—the fourth for the Granby.

At the British Copper company's Mother Lode mine in Deadwood camp, the main shaft has now reached a depth of 475 feet and the work of getting the property into shape to greatly increase its tonnage hereafter, by the time the enlarged smelter is ready for blowing in, is being pushed with all possible expedition under superintendent Holman. About 125 men are now employed at the Mother Lode, and the force is being increased as fast as men are to be had.

President Warner Miller of New York, and M. M. Johnson of Salt Lake City, the latter being the managing director and consulting engineer of the Dominion Copper company, are expected to arrive in the Boundary shortly on a trip of inspection to the mines and reduction works of the company, at all of which enlargements and extensions are now being inaugurated.

BOUNDARY'S PAYROLL

(Special to The Daily News)

Phoenix, July 14—The importance of the mining industry in the Boundary may be guaged from the monthly payroll of this section. Each month it seems to grow a little in volume and the railways are preparing to handle an increased output of ore from all of the large shipping properties. The pay day for the most of the mines occurs on the 10th of the month, and this month it was fully as large or a little larger than for the month of May. Following are the figures approximately:

| | |
|---|---|
| Granby Consolidated | $ 75,000 |
| B. C. Copper Co. | 35,000 |
| Dominion Copper Co. | 33,000 |
| Smaller mines | 15,000 |
| C. P. R. and G. N. men | 42,000 |
| Total | $200,000 |

The figures include miners and smeltermen and the employees of the two big railway companies operating in this section.

DUNCAN AND SALLY MINES

Greenwood, July 14—Blanchard Snyder has just returned from a visit to Wallace mountain, where he, with Kenneth Mackenzie, S. E. Belt, Hon. W. S. Fielding L. E. Rolley, Alf. Lund, Duncan Currie and Thomas Henderson, is interested in the Duncan mine, from which a fine sample of silver ore was recently taken. Mr. Snyder reports the ore continuing high grade, with free silver spotted all through it. Six men are steadily employed sinking the winze, which is going down at the rate of two feet per day following ore all the way. The ore is from nine to twelve inches wide. The lead has been traced in open cuts for a distance of 1200 feet. There are very few breaks apparent and the outlook is very promising.

The Sally mine, owned by Ralph Smailes and Robert Wood, is working five men under the direction of William Boyle. Crosscutting from the main tunnel is now under way, the cut being now in a distance of 100 feet along the break. Some good ore has been taken out of the drag. Surface measurements indicate that the ledge will be reached at a distance of 280 feet, and for that reason the crosscut is being opened.

Mine owners and merchants on the West Fork are complaining of the desperate condition of the road between Westbridge and Beaverdell. The road is full of holes from 12 to 18 inches deep. Two men have been put to work, but they are unable to cope with the situation and instead of conditions improving they are getting worse.

## BIG MONTH'S PAY-ROLL

SUM TO BE DISTRIBUTED BY C. N. P. C. C. NEXT SATURDAY

PAST WEEK'S OUTPUT OF COAL AND COKE.

(Special to The Daily News)

Fernie, July 14.—The amount to be paid out in wages on Saturday next, July 21st, by the C. N. P. C. Co. will be the largest in its history. This is the payroll for the month of June and it will be remembered that the tonnage for last month was a record one. The following are the figures:

| | |
|---|---|
| Coal Creek | $ 92,846.80 |
| Michel | 56,069.65 |
| Carbonado | 1,309.45 |
| Total | $150,225.90 |

The output of coal from the Coal Creek and Michel mines for the week ending July 13th was as follows:

| | Tons |
|---|---|
| Coal Creek | 10,563.14 |
| Michel | 7,544.14 |
| Total | 18,108.08 |

Captain McEvoy, of the Kootenay Rifles, has presented for competition in the shooting matches a dozen silver spoons, which will be competed for at the rifle range tomorrow.

R. A. Derrell, of the Canadian Bank of Commerce, has been transferred to the New Westminster branch of the same institution. The vacancy here will be filed by R. E. Shaw of Victoria.

G. G. S. Lindsey, K. C., and Robert Coulthard, returned yesterday from Spokane.

## NELSON'S NEWS OF THE DAY

Bruce White came in from a trip to the Slocan lake country last evening and reports that Tipping and Fife, two well known prospectors, have made a good find at the head of Ten Mile, just over the summit from the Molly Gibson. They have sunk ten feet and opened up a fine body of lead ore.

At a meeting of the ratepayers in the Hume Addition yesterday, E. A. Crease, G. H. Playle and G. M. Gilchrist were re-elected school trustees. The resignation of J. Irwin as teacher was accepted and a successor is being advertised for. The meeting adjourned until Monday evening at 8 o'clock at the residence of Mr. Crease.

The funeral of the late Mrs. C. B. Plato took place from the Methodist church yesterday afternoon, Rev. R. N. Powell officiating. The deceased lady died of consumption at Kamloops early in the week and the remains were brought here for interment by the husband, a C.P.R. employee at Castlegar. The husband and two children survive.

All Oddfellows, Patriarchs and Rebekahs are requested to assemble at the lodge room punctually at 1:30 this afternoon for the memorial services, after which they will proceed to the cemetery to decorate the graves of departed brethren. Busses will be provided for the ladies. All members are requested to bring with them floral wreaths and cut flowers.

John A. Turner left for Victoria last evening where he will reside for some months, possibly permanently. Nelson is losing a good citizen in Mr. Turner. He has resided here so long was so well known to all readers of The Daily News that it is perhaps unnecessary to make any extended reference to his career in this city, but it can be said truly that he was always an active worker in every movement for the advancement of Nelson. As a public official and as a business man John A. Turner held the respect and esteem of the entire community and his departure will be sincerely regretted by everyone who had relations with him either of a business or social nature.

## SAVED BY A LETTER

### How Positive Proof of Dreyfus' Innocence Was Discovered

**M. Bruneau Varilla Tells Story for First Time of an Unanswered Letter and the Famous Bordereau**

Paris, July 14.—As a fitting epilogue to the acquittal of Alfred Dreyfus, M. Philip Bruneau Varilla gave the Associated Press a remarkable story of how he first discovered positive proof of Dreyfus' innocence and the guilt of major count Esterhazy, a story heretofore known to only a few intimates, including Dreyfus, who said, during a recent dinner here, that while the establishment of his innocence was attributed to many causes, M. Bruneau Varilla's chance detection of the counterfeit bordereau, or the main document on which the prosecution relied, was the real cause of the triumph of justice.

"Yes," said M. Bruneau Varilla, "a document among my old records was the basis of the whole Dreyfus agitation, and was instrumental in the final acquittal. Dreyfus and I entered the Polytechnical school together in 1878. I recall his very characteristic Jewish look which was rather unprepossessing, but he was a good fellow and a companionable student. Our ways parted on our graduation, he going into the army, and I becoming a government engineer. We seldom came together after that, but once, chancing to meet him on the avenue Montaigne, we chatted about a project which I was engaged in for the development of the French Congo. Later Dreyfus wrote me, asking for information about the project for the purpose of writing a geographical study upon the French possessions in Africa.

Through an oversight the letter remained unanswered.

"It was some years later that Dreyfus was arrested and convicted before the state court martial. I first thought he was a victim of anti-Semitic intrigue, but the conviction seemed to be positive assurance of his guilt. The photographic reproduction of the bordereau, constituting the only proof on which Dreyfus was convicted, which some one had ingeniously photographed, was delivered to my brother with the understanding that its publication would prevent further suspicion that Dreyfus was innocent. However, Maurice decided not to publish it as he did not wish to again call public attention to Dreyfus who was then considered to be a traitor. When my brother spoke of the bordereau the idea flashed across my mind that I might compare the document with something written by Dreyfus during our school days at the Polytechnical school. I found the old unanswered letter in which Dreyfus asked for information relative to the Congo."

M. Bruneau Varilla then showed the correspondent of the Associated Press a letter written on note paper in a delicate handwriting in which Dreyfus asked his old school friend to give him information about the Congo for a geographical study. By the side of this letter M. Bruneau Varilla placed the photograph of the bordereau which he still possessed.

"I began by a careful comparison of the bordereau and Dreyfus' Congo letter," he continued.

"The first glance gave me the impression that they were in the same handwriting, but suddenly I observed something which caused me profound astonishment. In Dreyfus' letter to me the words having a double 's' were written with a long 's' first and a short 's' second, whereas in the bordereau, it was just the reverse. My brother made an independent comparison of the bordereau and the letter and reached the same conclusion, namely that the handwriting of the letter about the Congo was not that of the bordereau. As together we realized this discovery we felt as though an earthquake had shaken us. Maurice immediately announced his determination to publish the photograph of the bordereau so that every one possessing letters written by Dreyfus would be able to make comparisons and the people generally and the Dreyfus family in particular saw what has since been known as the bordereau. From the appearance of that photograph of the bordereau dates almost everything known as the Dreyfus affair. Everything which followed was in consequence of that discovery and the publication of the photograph of the bordereau."

The Official Journal today published a decree announcing Alfred Dreyfus' reinstatement and promotion and the inscription of his name on the list of cavaliers of the Legion of Honor.

Dreyfus, who remains is his apartments, is besieged by many friends who are congratulating him on his final success. Hundreds of felicitations have reached him by mail, telegraph and cable. The date of his receiving his sword and putting on his uniform awaits his assignment to a regiment.

President Fallieres today reviewed the troops at Long Champs. The principal features of the day were the enormous crowds and the frequent shouts of "Vive Dreyfus," showing the prevailing sentiment. The review was a brilliant spectacle, the whole garrison of Paris participating.

The condition of under secretary of state Sarraut, who was dangerously wounded in the breast yesterday in a duel fought with M. Puglisi-Conti, following the passage of the law restoring Dreyfus to the army, is stationary. He passed a calm night, and no complications have developed. The doctors are not prepared at present to pronounce a definite opinion regarding his chances of recovery. A second consultation held at noon showed that M. Sarraut had slight fever but otherwise his symptoms were favorable.

ATTACKED BY PIRATES

Hong Kong, July 14.—The British steamer Sainim was attacked by Chinese pirates last evening at a point 50 miles from Wuchow. Rev. R. J. Macdonald was shot and killed. The captain of the steamer was badly wounded and the engineer saved himself by hiding behind the boilers, in so doing receiving severe burns. A Chinese passenger was also killed. The pirates escaped in junks.

R. J. Macdonald and wife were stationed at Wuchow for the Wesleyan Missionary society.

## ABANDON THEIR SISTER

MITCHELL BOYS WILL NOT SEE HER AGAIN.

DEFENCE TO BE UNDERTAKEN BY MRS. CREFFIELD'S FATHER

(Special to The Daily News)

Seattle, July 14.—O. V. Hurt, the man who gave the testimony that resulted in George Mitchell's acquittal and who has been the most bitter enemy of the "Holy Rollers," entirely relented in his attitude toward Esther Mitchell and Mrs. Maud Creffield today and sent them a telegram stating that he had arranged to provide legal assistance at their trial. Mr. Hurt did not explain his plans, but announced he would write to his daughter, the widow of "Joshua."

Yesterday Hurt had so far forgiven his daughter that he telegraphed to inquire whether he could do anything for her. After another day's delay the father came to the relief of his daughter in so far as it is possible for him to do so.

Every time Hurt has visited Seattle he has inveighed against the "Holy Rollers' and has justified George Mitchell's action in killing Creffield. The county attorney stated before the trial of young Mitchell ended that Hurt's testimony had been sufficient to acquit Mitchell. That the father of Creffield's widow is preparing to make a similar fight for the acquittal of the woman who killed his hero is something of a surprise to police officers and the county attorney's office.

While Hurt has determined to come to the relief of the two women, Esther Mitchell's brothers are turning from her. Immediately after the killing of George, Perry Mitchell pleaded that the officers forgive Esther as she was crazed and did not know what she was doing Now he refuses to see her and will take no interest in her fight. The two boys have practically no money. In fact they will be unable to defray the expenses of George Mitchell's funeral unless the public donates the money. The two boys want to send the body to Newburg, Oregon, to inter it beside his mother's body, but they cannot do so unless the public, which is telephoning offers of assistance, makes a substantial showing of sympathy.

"It is very kind," said Perry Mitchell this morning. "I never did the like before, but we haven't time to wait to earn the money, and I think George ought to be buried beside his mother. There's a lot there and there's room enough for us all in it and I think that's where we all ought to be when our time comes. I hope we can take him there. I hate to ask any man for money, but I'm afraid we'll have to now."

The Mitchell boys were asked if they had made any arrangements for securing legal advice for their sister.

"No," said Fred Mitchell, "we haven't got around to that and I don't think we ever will. Esther will have to get her own lawyers.'

Then Perry, the youngest brother and his dead brother's best friend, spoke up, "Its pretty hard,' he said, and his lip quivered. "She is our sister. We know that, and that's what makes it so hard; but after all we've done and tried to do, she killed George and I don't see how we can do anything to save her. I don't believe it will be much of a trial in court. There isn't anything to it."

"Will you go to see her before you leave?" was asked.

Fred Mitchell sat on the bed with his elbows on his knees. Finally he shook his head slowly. He didn't want to see her.

Perry Mitchell sat in a chair on the other side of the room, his hat on, his big hands clasping and unclasping, and his eyes filling with the first tears that have apparently been shed by any of the Mitchell family since they became the center of interest in Seattle.

"I do not think," he said slowly and brokenly, "that I could talk to her after what she has done. I am sure that Mrs. Creffield persuaded her to do it; but she killed her own brother after all he had done for her, and I can't see what I can do now. I don't want to see her."

So Esther Mitchell is left alone with her only friend, the woman who states openly and freely that she gave her the revolver to kill her brother and that she would have committed the deed herself had she not feared that she would not have an opportunity such as the sister had.

## THAW CHANGES COUNSEL

WRITES PEREMPTORY LETTER TO FORMER LEGAL ADVISERS

PRISONER'S MOTHER ARRIVED IN NEW YORK YESTERDAY.

New York, July 14.—Mrs. William Thaw, mother of Harry K. Thaw, accused of the murder of Stanford White, returned to New York today on the steamer Kaiser Augusta Victoria.

Realizing that she perhaps would arrive too late to see the prisoner today, Mrs. Thaw sent a wireless which was delivered to Thaw and seemed to cheer him.

Mrs. William Thaw was accompanied by her son-in-law and daughter, Mr. and Mrs. George L. Carnegie. She was met at the pier by her son Josiah Thaw. The party was driven in automobiles to the hotel Laurendin, where Mrs. Thaw was soon closeted with Mrs. Evelyn Nesbitt Thaw. Their meeting was said to be most cordial.

It was said tonight that Harry Thaw had dismissed the law firm of Black, Olcott, Grubber & Pennying in a fit of anger.

The firm received this letter from Thaw today:

"Dear Sirs,—After careful consideration I have concluded to make a change in my attorneys and while I have no possible criticism to make of your conduct of my case, my decision is such that I have concluded to no longer retain you as my attorneys. You will therefore regard your connection with my case as finished and will please deliver all papers in my case to Clifford W. Hardridge. I have sent a copy of this letter to Mr. Hardridge and ask you to communicate with him at once. Yours truly, "HARRY K. THAW"

Mr. Hardridge heretofore acted as counsel for young Thaw.

CONSPIRACY IN THE GUARDS

High Officials Implicated—Corruption in Manchuria to Be Exposed.

St. Petersburg, July 14.—The revolutionary newspaper, Misla, today says that the commission which is investigating the military conspiracy among the guards' officers, who were planning a coup d'etat, has discovered that a number of high officials, including professor Nicholsky, a noted reactionist, and M. von Plehve, a son of the late minister of the interior of that name, are implicated in the plot.

M. Brasseff, a former employee of the controller, who is charged with passing fraudulent war accounts, in an open letter today promises to make astounding revelations of the wholesale corruption of the Russian officers during the military operations in Manchuria, whereby millions of roubles were stolen.

GOSSIP OF GRAND FORKS

(Special to The Daily News)

Grand Forks, July 14—A joint installation of officers of Gateway lodge No. 35 I.O.O.F. Grand Forks, and Phoenix lodge, was held here last evening. The meeting was presided over by W. S. Cook of Phoenix, acting district deputy grand master. He was assisted by I. A. Dinsmore, grand marshall; grand secretary, A. Milkie; grand treasurer, Fred Clark; grand permanent secretary, Fred Kennedy and grand warden Walter Morrison.

The city authorities have taken action against Frank Hardinger, proprietor of the Columbia brewery, for selling beer on Sundays and also for his failure to take out a city license for his brewery. The charge will be heard in the police court next Thursday.

J. M. Grant formerly of Magog, Que., has arrived here and will fill the position of teller in the Eastern Township bank.

Frank Clark and bride have arrived home from a two weeks' honeymoon trip to the coast cities.

C. P. R. LAND SALES ARE BIG

C.P.R. land sales show very satisfactory gains. The following table represents the total number of acres sold and the amount of revenue derived therefrom in June in comparison with the previous year's figures:

| June | 1906 | 1905 | Inc. |
|---|---|---|---|
| Acres sold | 75,403 | 64,968 | 10,435 |
| Receipts | $588,013 | $340,759 | $247,254 |

The number of acres of land sold by the Canadian Pacific in June last as compared with the previous year, shows an increase of over 16 per cent, and the total receipts gained 72.55 per cent over the June figures of a year ago.

BROTHIER COMMITTED FOR TRIAL

Vancouver, July 14.—Desire Brothier has been committed for trial on the charge of forgery. Whether the case will go before a jury or be tried without has not been decided yet.

The case of the provincial government vs. Emerson, in which so far Emerson has been victorious, may be appealed to the privy council. Counsel on behalf of Emerson are opposing the application for leave to appeal.

T. P. TO VISIT AMERICA.

London, July 14.—T. P. O'Connor, president of the United Irish league of Great Britain, will go to America early in September. He will be a guest of sir Thomas Shaughnessy, president of the C. P. R., for a tour of Canada, and will address meetings in Philadelphia, Chicago and Boston.

ANOTHER VICTIM.

Salisbury, Eng., July 14.—Edward W. Sentell, of Brooklyn, N. Y., one of the passengers injured in the railroad disaster of July 1, died at 11 o'clock tonight.

## ROSSLAND'S COSTLY FIRE

### Damage to Buildings and Merchandise Amounts to $30,000

**Hunter Brothers Principal Sufferers--Lose Warehouse and Goods Valued at $12,000 --Windsor Hotel Gutted**

Rossland, July 14.—Rossland had a $30,000 blaze today.

The fire started at 12.01 o'clock in the F. C. Harrison block, a three story structure on the south side of Columbia avenue, between Washington and Spokane streets.

It began in a room used as a kitchen by the family of Ben Lewis.

An alarm was quickly sent in and the department hurried to the scene, but the fire spread with great rapidity and soon communicated to the Windsor hotel on the east and the building occupied by T. R. Morrow, druggist, on the west.

After fighting the flames for about an hour they were extinguished, the Harrison block and the Morrow building being reduced to ruins and the Windsor hotel completely gutted.

It was thought that the fire was completely out, but sparks from the burning building set the dry grass afire around Hunter Bros. warehouse, in the centre of the block west of Spokane street, and an explosion of a small quantity of gunpowder drew attention to the fact that the warehouse was ablaze. As the first fire was out the firemen and volunteers turned their entire attention at 1 o'clock to the new conflagration. In half an hour they had it under control, but not until it had burned the stock of goods in the warehouse, valued at $[illegible],000, most of the warehouse, and gutted the residence adjoining the warehouse on the east, occupied by Josiah Stanaway and family.

The losses were:

Hunter Bros., warehouse and goods, $12,000; insurance, $5000.

F. C. Harrison, three story block, $4000; insurance, $1000.

Ben Lewis, furniture in Harrison block, valued at $250, no insurance.

Dr. Stevenson, one story building, $1500; insurance $500.

T. R. Morrow, who occupied the Stevenson building with a drug store, lost $5000; insurance, $2000.

Windsor hotel, owned by A. J. McMillan, loss on building, $5000; insurance, $2800.

N. A. Burritt, loss on furniture and fixtures in Windsor hotel, $5000; insurance, $2500.

N. W. Newton, loss on two story building occupied by Empey Bros., $150.

Empey Bros., damage to stock by water and smoke, $2500.

Josiah Stanaway, loss of household goods, $1000; insurance, $200.

Robert Fox, residence occupied by Josiah Stanaway, $300, insured.

Horace Cherrington, fruit and cigar dealer, loss $250, fully covered by insurance.

CONTRACT FOR THE BULLENS

New Hydrographic Steamer to Be Built By Esquimalt Firm.

(Special to The Daily News)

Ottawa, July 14.—The minister of inland revenue is authority for the statement that the contract for building the new hydrographic steamer will probably be awarded to Bullen Bros., of Esquimalt, B. C.

Fred Calder, of Ashcroft, B. C., will be deputy judge of the county court of Cariboo, during the absence of judge Cornwall.

The Canada West Coal & Coke Co., with a capital of $100,000 and headquarters in Winnipeg, has been incorporated.

WESTMINSTER WINS AGAIN.

(Special to The Daily News)

New Westminster, July 14.—After the defeat of the Vancouver lacrosse team on Dominion Day, sporting editor Garvey, of the Vancouver News-Advertiser, stated that all Vancouver had to do was to think and they would beat New Westminster for they had the material to do it. Tonight the residents of the Royal City are wondering if the Vancouverites are yet awake. The teams met this afternoon at Queen's Park and when the "salmon-bellies" got through the score was nine goals to one, with the champions at the long end. This is their fourth straight victory this year in schedule games. It was an unhappy affair for Vancouver—too realistic to be even thought of pleasantly. New Westminster outplayed them from the very start. Sandy Gray and Crampy Latham had rejoined the home team, while Don Tuck, late of Brantford, figured on the Vancouver lineup.

The standing of the teams in the B. C. A. L. A. is as follows:

| Team. | Won | Lost |
|---|---|---|
| New Westeminster | 4 | 0 |
| Vancouver | 1 | 2 |
| Maple Leafs, Vancouver | 0 | 3 |

### PARTY LINES

The Vancouver World is engaged in a vain effort in attempting to persuade the mass of the electorate of this province that party lines in provincial politics should be abandoned.

The World bases its condemnation of the party lines system upon the alliance formed between the McBride administration and the socialist members of the legislature. It claims that this alliance is an abandonment of the party lines idea and that consequently the party lines system is a failure.

In our opinion the World's reasoning is not sound and its own admissions form the strongest refutation of its contention.

The World declares that conservatives throughout the province disapprove of the alliance formed by premier McBride with socialist leader Hawthornthwaite and view with alarm the sacrifice of conservative principles to the dictates of the socialist element in the legislature. This means that the rank and file of the conservative party really want a strict adherence to party lines and are prepared, if need be, to temporarily go out of office rather than enter into any combination that must result in the denial of their political principles. And it must be remembered that the conservative party as a whole in this province have not been consulted with regard to this alliance. It may be said that the alliance entered into between the government and the socialists was purely a personal matter, negotiated by premier McBride, and possibly Hon. R. F. Green, with a view rather to his retention of office than the welfare of the conservative party or the advancement of conservative principles. That the alliance is distasteful to many conservatives is, in our opinion, a healthy sign and points clearly to a desire on the part of the electorate for the conduct of provincial politics upon straight party lines. It might fairly be said, if conservatives viewed with approval the alliance between the McBride government and J. H. Hawthornthwaite, that party lines were a failure, for if a socialist-conservative government be tolerable, then we might as well have a conservative-liberal or a liberal-socialist government.

We believe that the inherent rottenness of the present combination is thoroughly appreciated in the country, equally by conseratives and socialists as by liberals. The rank and file of the socialist party in this province do not want to be committed to the Columbia & Western land grants, Kaien Island deals, or much of the McBride legislation that may be regarded as essentially conservative, such as the Assessment Act and the new School law. And we had abundant evidence last session that such deals as the Columbia & Western, Kaien Island, Dewdney relief, etc., were distasteful to conservative members, but they found themselves in a nasty position and by stress of circumstances gave a half-hearted support where their inclinations and convictions would have led them to offer bitter resistance.

If the outcome of the forthcoming elections were to be a renewal of existing conditions it might give rise to doubts as to the advisibility of continuing the party lines system. But we look for no such result. The electors will, we believe, either return a majority of conservatives or of liberals, i.e., a majority that will give one party or the other control of the legislature. The country is thoroughly alive to the evil of a government by a party numerically too weak to initiate legislation without consulting the wishes of a second party with whose political views it is absolutely at variance.

This aspect of the case is well put by the World:

> Since the coalition was effected the government has practically legislated within the narrow limits of a prison cell. They have never once been able to legislate with a free hand. It is a notorious fact that many important measures have been submitted to the socialist members for their approval or disapproval, before, even, they were submitted to the caucus of government supporters! If the socialists disapproved there was an end of the matter. If they insisted upon amendments those amendments were made, and after the measures had passed through the socialist seive the government caucus were honored by a peep at them. It is a deplorable and humiliating fact that the supporters of the government have and do occupy a secondary place in the legislation of the country, for upon whichever side the socialist vote might be cast so would stand or fall the ministry. . . . . In evidence of the correctness of this statement, take but one section of Mr. Hawthornthwaite's latest inflammatory oratorical effort in Vancouver. In effect, he said that he was anxious to have the $200 deposit of candidates reduced to $50 and that he at last compromised with the government by fixing the sum at $100, in return for which he and his associates consented to vote for the bill which conveyed to the C. P. R. Co. 800,000 acres of land in Kootenay that they had not earned.

And we can heartily concur in these further remarks of the World without in any way assenting to the proposition that the party lines system is a failure. A straight conservative government, or a straight liberal government, or even a straight socialist government, if a majority of the electors so decide, would be preferable to a return to the non-party system in vogue in the province prior to 1903.

The World says, in concluding a lengthy article:

> The action of the government in coalescing with the socialistic was a violation of its pre-election pledges. Practically, the conservative party, so far as local politics are concerned has ceased to exist. The cohesive properties which were at one time its boast, are no more. On every side are manifest the elements of discord and dissatisfaction. Lifelong conservatives in the cities and districts are hastening to divest themselves of the slightest suspicion of allegiance to the socialist-conservative ministry. A spirit of disorganization and resentment is rife in the ranks while the government press, unable to palliate, excuse or restrain the revolutionary utterances of their real leader (Mr. Hawthornthwaite), hang their heads with shame and are as mute as dogs whose tongues have been cut out. All things point to a great upheaval in the conservative ranks against men who have violated pledges and are jockeying with the public lands and monkeying with the wise laws of previous administrations. With the socialist leader carrying the McBride scalp in one hand and threatening with the other hand to tear down the Union Jack and hoist the Red Flag of Anarchy in its place, the situation has become intolerable to conservatives and liberals alike.

### A WOMAN TO BE PRETTY

**Must Have Luxuriant and Glossy Hair, No Matter What Color.**

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit, Mich.

### EDITORIAL NOTES

The efforts of the management of the Nelson Agricultural and Industrial exhibition to secure the presence of governor-general Grey for the opening ceremonies should be immediately seconded by the city council. An invitation from the civic authorities should go forward at once. Earl Grey's plan may not be definitely completed yet for his British Columbia tour and prompt action on the part of the city council may ensure his placing Nelson on his itinerary.

The Sandon Mining Standard is shortly to cease publication. For sometime past, under the joint management of J. G. Potter and Geo. Huston, the Mining Standard has conducted a most praiseworthy campaign for the development of the Slocan mining district. Excellent work was done and valuable publicity given the mining potentialities of the district. However, the returns from this campaign have not been sufficient to warrant the continuance of the paper and so another ambitious venture is to be added to the journalistic bone yard.

In an article dealing with the C. P. R.'s record for the year just closed, the London Economist estimates net earnings at $23,540,000, an increase of over $8,000,000. Other revenue, not including land sales would make the total net earnings $25,290,000. Fixed charges and preferred dividend would leave $15,375,868 available for dividends on common stock, which, at 6 per cent, would take $6,084000, leaving a balance of $9,291,868. The Economist thinks, however, that, in view of "competitive dangers" in existence and contemplated, the directors "will adhere to their conservative policy of not increasing the dividend."

# SUMMER FROCKS

If you need a pretty summer frock in a hurry, you'll find plenty of charming gowns here ready to slip into; made of the approved summer fabrics in the latest styles. Or if you want to tuck another into your "going away" trunk and haven't time to get it made, see if you do not find just what you want among the many charming styles here. Prices range from only a few dollars up to $20.00.

New summer novelties arriving every day. If you want to be down-to-date you must watch our novelty counters.

## WOULD CLOSE SALOONS

LICENSE COMMISSIONER OFFERS THIS SUGGESTION

ALL HOTEL AND SALOON LICENSES ARE RENEWED

The license commissioners for the city, his worship mayor Gillett, P. Lamont and Dr. W. O. Rose, held their quarterly meeting yesterday at noon in the city hall. There were six applications for renewals of saloon licenses, and fifteen hotel applicants. All of these were granted for the next six months. Eact saloon keeper pays $250 for the six months, so that $1500 comes into the city treasury on this account for the balance of this year. The hotel men pay $150 each, and the city receives $2250 from this source for the next six months. The combined saloons and hotels contribute to the city purse $7500 annually.

Chief of police Jarvis registered two complaints. The proprietor of the Royal hotel was charged with refusing to give the police necessary information when asked to do so, and the proprietor of the No Place Inn was charged with allowing too much noise on the premises, to the annoyance of their neighbors and of passersby. In both instances, the chief added, the parties had been warned but apparently without effect.

The commissioners directed the city clerk as secretary of the license board to notify the offending parties that if complaints were made against them a second time and subsequently sustained, their licenses would be cancelled.

Mr. Lamont presented a notice of motion that the holders of all saloon licenses be notified that no further saloon licenses or renewals of same would be granted when the current licenses expire in January next. Mr. Lamont failed to obtain a seconder for his motion and no action was taken. In supporting his motion he said that other cities in Canada were abolishing the saloons, and Nelson should get in line. The hotels could furnish all the necessary accommodation the public required. The number of licenses should be restricted the same as was done elsewhere.

Dr. Rose declared that Mr. Lamont was merely an "appointed" member of the board, whereas the speaker and the mayor were elected by the people. If any such change as Mr. Lamont asked for were to be brought about it should be made an issue at the next municipal election, or the people should vote directly upon the question at such election. Mayor Gillett took no part in the discussion and the matter finally dropped.

The City clerk stated that he had billed the Nelson Brewing company with $50 for a license, but no payment had been made.

Applications for transfers from Joseph Curran to Mary Curran for the Club hotel, and from A. Thomas to G. Harrison for the Lakeview hotel, were received and granted conditionally on al lregulations being complied with.

The wholesale and bottle licenses were renewed conditionally, and the board adjourned.

We stand back of everything sold in our stores. If there is any dissatisfaction we want to know it and make it right. Canada Drug & Book Co.

## TIMBER NOTICES

Thirty days after date I intend to apply to the Chief Commissioner of Lands and Works, Victoria, B.C., for a special license to cut and carry away timber from the following described tract of land, situate in West Kootenay district: Commencing at a post planted on the south side of Summit lake on the N. & S. railway, and on M. Ghiteberger's east line, marked "P.J.G. N.W.C.," thence east 80 chains; thence south 80 chains; thence west 80 chains; thence north 80 chains to point of commencement.

P. J. GALLAGHER.

June 16th, 1906.

Notice is hereby given that 30 days from date William C. Read will apply to the chief commissioner of lands and works, Victoria, for special licences to cut timber on the following described lands near Dog creek west of the Lower Arrow lake.

Licence No. 7: Commencing on the west boundary of lot 5817 about ten chains north of the North fork of Dog creek; thence west eighty chains, thence south forty chains, thence east forty chains, thence south eighty chains, thence east forty chains, thence north one hundred and twenty chains to the place of beginning.

No. 5: Commencing where a post has been planted about twenty chains due west of the N. E. corner of the No. 4 licence, thence forty chains north, thence a hundred and sixty chains west, thence forty chains south, thence a hundred and sixty chains east to the place of beginning.

No. 6: Commencing at the N. W. corner of the No. 5 licence, thence west one mile, thence south one mile, thence east one mile, thence north one mile to place of beginning.

No. 1: Commencing one mile west of the N. E. corner of the No. 5 licence, thence two miles north, thence half a mile east, thence two miles south, thence half a mile west to the place of beginning.

No. 2: Commencing one mile west of the N. E. corner of No. 5 licence, thence north two miles, thence west half a mile, thence south two miles, thence east half a mile to the place of beginning.

No. 3: Commencing two miles west of the N. E. corner of licence No. 5, thence north two miles, thence east half a mile, thence south two miles, thence west half a mile to the place of beginning.

No. 4: Commencing two miles west of the N. E. corner of licence No. 5, thence north two miles, thence west half a mile, thence south two miles, thence east half a mile to the place of beginning.

Dated April 22nd, 1906.

## The Richest Flavored Tea

The choice leaf from which Blue Ribbon Tea is selected is grown on the celebrated "hill" plantations of India and Ceylon.

It is therefore very much better than tea grown in the lowlands where it is so hot and moist that the leaves grow coarse, rank and ill-flavored. None of these inferior leaves are ever allowed in Blue Ribbon.

On the hills in the interior where the air is cool and the land well-drained, the plant grows more slowly and extracts all the richness from the fertile soil. The leaf is less abundant, but is small and tender, with a rich and most exquisite flavor.

The very choicest of this hill grown leaf is selected for

**Blue Ribbon TEA**

The rich full flavor which has made Blue Ribbon Tea famous throughout Canada is the result.

## JAPAN'S AIM IN CHINA

PRESENT SITUATION DISCUSSED BY TIMES' CORRESPONDENT

INFLUENCE OF NOMINALLY FOREIGN OWNED PAPERS

The Tokio correspondent of the London Times contributes a long article on *the subject of Japan's attitude towards* the Chinese problem. He refers to and quotes, a plain utterance on this subject which appeared recently in the columns of the Jiji Shimpo, the leading journal of Japan. After recapitulating the various disquieting incidents which have occurred of late in China, the Jiji Shimpo articles goes on to say:

It would seem that the anti-foreign sentiment so prevalent of late in China was utilized by certain agitators to produce these disturbances, and from that point of view it is not impossible that developments may at any moment occur involving a serious commotion. The cry for so called "recovery of rights" may be said to find an echo in every part of the Chinese empire today, and the fact deserves all attention, for although in spirit this differs from the ordinary anti-foreign feeling, it has its origin in the narrow-minded idea that the country's honor is impaired by the presence of foreign enterprises within her borders, and thus the cry cannot fail to reinforce the anti-foreign sentiment. Nay, more, there is no assurance that it may not itself take the form of a clamor for the expulsion of foreigners, and it is therefore a phenomenon which must be profoundly regretted in the interests of the future of China's foreign relations, and which her friendly neighbor cannot for a moment regard with indifference. No efforts must be spared to convince the Chinese that if they revoke the concessions hitherto granted to foreigners, and if they reject all applications that may hereafter be made to them, they will not only run the risk of alienating western nations and involving themselves in diplomatic complications, but also they will deprive themselves of foreign assistance and foreign capital for the exploitation of their railways, their mines, and other enterprises, thus losing aids which are of the utmost value in developing their country's resources and which are entirely without danger or disadvantage. Chinese officials, at all events, should have these facts urged upon them with the utmost insistence, and we trust that our government will not neglect this duty. At the same time our own countrymen in China must practice the utmost circumspection in deed and in word so as to aevoid being suspected by Occidentals of fostering the anti-foreign spirit. It is scarcely credible that among our countrymen so much as one person of such an evil disposition can be found. Nevertheless, impetuous youths may possibly be carried away by their surrounding and may thus be betrayed into expressions which do not represent their saner judgment. There are, too, among newspapers edited and owned by Chinese subjects a few whose proprietors, in order to evade Chinese jurisdiction, have borrowed the names of Japanese subjects. The latter, of course, have nothing whatever to do with the opinions expressed by such journals; but if violent views are ventilated in their columns it is inevitable that foreigners, ignorant of the real state of the case, should suspect the Japanese of collusion, or even instigation, and suspicions of that kind may grow by accumulation into a source of embarrassment even to our own foreign relations. Already the Shanghai correspondent of The Times, in a telegram with reference to anti-foreign feeling in China, has spoken of reprehensible conduct on the part of Japanese, and another correspondent, Dr. Morrison, who has always shown himself very friendly to Japan, has made use of similar language. It is a source of much regret that influential correspondents should see reasons for taking these views, and it should serve as a warning to our countrymen of the necessity of practising greater circumspection. It is also advisable that our government should consult with the Chinese government for the purpose of subjecting to due restraint newspapers published in China under the names of Japanese. In short, our officials and our people should pay the utmost attention to dissipating foreign suspicions and to discharging Japan's duty of true friendship towards her neighbor.

The Times correspondent adds: "That this is the view of all educated Japanese may be taken for granted. Perhaps a word of explanation is necessary with reference to the newspaper question. The publication of vernacular journals in China under the names of foreign proprietors is an outcome of the judicial independence enjoyed by the foreign communities in the Settlements. Press laws do not exist in China, neither does the principle of free speech receive any official recognition. Consequently, a newspaper owned and published by Chinese subjects is completely at the mercy of the powers that be. What that means is matter of history, for when, in the early days of Chinese journalistic enterprise, the Peking authorities obtained practical proof of the nature of newspapers, they speedily issued an edict ordering the entire suppression and sealing up of these "dangerous instruments" and the prosecution of the editors with the utmost rigor of the law. It was then that the device of borrowing the names of foreigners as proprietors came into vogue, and since a nominally foreign-owned journal published in a foreign settlement is subject to foreign jurisdiction only, Chinese subjects found in the extra-territorial system an aegis under which they could pursue their journalistic enterprises without disturbance."

He concludes by suggesting that the time has come for the western powers to "co-operate with the Peking authorities in the elaboration of some system of press control. Even though that step be now taken the not too creditable fact will still remain that only when their own interests were threatened did western powers move in a matter to which their attention should have been directed long ago in China's right. An eastern proverb speaks of being bitten by one's own pet dog, and that is precisely what is now happening, for the journals which, under the pretence of foreign ownership, are enjoying freedom of speech, use that privilege to propagate anti-foreign sentiment among their readers. Some of these nominal proprietors are Japanese subjects. It is tolerably certain that they do not in any way direct the policy of the papers to which they lend their names, but, of course, no one troubled with the Yellow Peril nightmare will acquit them of complicity. For the rest we may be very sure that the Japanese will not be troubled with altruistic scruples in their Asiatic policy. They will snatch at all the rewards that keen competition brings, and if they think that they can do for themselves anything now done for them by foreigners they will strive hard to put their confidence to the test of practice. But as to encouraging China to engage in an anti-foreign campaign or espousing any policy of the Orient for the Orientals, no one at all familiar with their sentiments and their ambitions can suspect them of such folly. Their aim is to be great in the whole world, not in one-half of it only.

MOTTO—Live and let live.

**One of Three Things Always Cause RHEUMATISM**

Do you know the system rids itself of waste matter through bowels and kidneys? Yes, but by the skin as well.

As a matter of fact, the skin rids the system of more urea than the kidneys do.

If the skin, or bowels, or kidneys are unhealthy—they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to joints and nerves—causing Rheumatism.

One never inherits Rheumatism. One does inherit weak kidneys, irregular bowels and bad skin action.

**Fruit-a-tives**

OR "FRUIT LIVER TABLETS"

will positively cure Rheumatism because they increase the eliminating action of skin, kidneys and bowels—and make these three organs so vigorous and healthy that there can be no urea or waste retained in the system to poison the blood and irritate the nerves.

FRUIT-A-TIVES are fruit juices, combined with tonics—the whole forming the most effective cure for Rheumatism.

50c. a box or 6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

## NEW YORK FASHION LETTER

New York, July 14—There seems to be as great a variety in styles and materials for the children as there is for their elders; of which linen leads the materials and empire modes the styles. In spite of the mothers' needles and the visiting dressmakers there are establishments in the city that do nothing else but cater to the wants of the little ones.

As with her elder sister, the short Eton or Empire bolero suit used with a circular or princess skirt appears as the most popular for the young miss, while for travelling the pony jacket will be extremely popular. For the travelling dress grey mixture is the most serviceable color, and the checks and over plaids are also used and have a good deal of trimming in the way of braid, especially soutache, lace collar and cuffs, silk bands and fancy buttons. Most of the trimmings are of the same shade as the dress material or a contrasting shade of the same color. For day and evening wear all the dainty colors, such as the popular pink, blue, green and yellow, the delicate pastel shades, and above all, white, are in great favor.

Very stylish would be an Eton costume and suitable for travelling, made from a fine overcheck of medium gray mohair, a material and color that will stand much wear and tear. The skirt is cut by a three piece pattern and is stitched in box plait effect on each side of the front gore and tucked to yoke depth and the hem is finished by several rows of stitching. The slightly full front of the jacket is tucked on the shoulders to yoke depth and gathered in at the waistband. Around the neck, down the fronts and over the waist band is a prettily shaped facing decorated with stitching and buttons and a narrow braid heading. The jacket is tucked on each side near the arm. The sleeves are elbow length and are finished by pointed turned back cuffs. Worn with this is a white linen waist beautifully embroidered and grey silk gloves and a grey chip hat, decorated with a fold of white silk and two long quills. The shoes were of fine leather having grey uppers.

A dainty frock made from embroidered batiste would be pretty for evening wear, fashioned from a waist of very graceful cut, tucked to simulate three box plaits down the front, finished at the low round Dutch neck with a band of insertion. A bertha starts from each side of the center back, runs over the shoulders and down each side of the box plaiting to the waist line. The three piece skirt is trimmed with with four ruffles edged with lace and headed with a band of the insertion and this lace finished the sleeve ruffles and the bertha, while the belt is made from a band of insertion. The sleeves are two deep ruffles, adjusted to sleeve caps as a foundation. The belt may be of a dainty piece of Dresden ribbon with the long ends in the back.

Blue mercerized gingham was used for a natty gown for morning wear. The waist closes at the left side of the front and has its fulness in four rather deep tucks stitched down from the shoulder seams to the belt. The neck is cut in a V and completed with a deep rolling collar edged with a row of white insertion, inside of which was a white shield piece and collar. A bow of plaid ribbon finished the closing of the rolling collar and a draped belt of the ribbon is worn. The sleeves are full to just below the elbow from which point they are tucked and gathered into white cuffs. The seven gore skirt has the center gores both front and back laid in plaits and stitched in tuck effect to just above flounce depth.

For morning, nothing is so serviceable as brown Holland slips; in these they may play in the sand heaps, and make mud pies to their heart's content, while they breath in the strong fresh air and grow strong and hearty.

Suitable as a model for these slips is one developed from brown Holland, which is cut with a narrow pointed yoke of embroidery, back and front, on each side of which the fulness of the body is disposed of by means of tucks from the shoulders to yoke depth, while the fulness of the center front is gathered to the yoke. The sleeves are made in bishop style and the deep hem at the bottom of the skirt is finished with stitching.

For travelling, a long coat, made after the style of her older sister's raincoat, would be useful; and a pretty style for a short coat for dressier wear could be constructed from heavy white linen in pony style, having a deep square collar of all-over linen embroidery edged with narrow embroidery, cuffs of the same, full sleeves and fancy bottoms as a decoration.

The lingerie hat is liked above all others for the little tots and two or three will be none too many for them, and for the vacation have a few little sun bonnets for wear while at their play.

A pretty, little bathing suit could be made from blue sateen made with a full skirt gathered in a band to the loose waist having a deep square collar and short sleeves. For very little girls the bathing suit is often made as little knickerbockers, joined to the blouse waist, while the bathing suits of the boys are usually made in the pajama style.

But the little men of the family have by no means been forgotten. Pretty little suits in blouse style are shown in white, blue and tan linen, serge or flannel. Of course, every one of these little gentlemen wants to copy as far as possible father, brother or uncle, and in this regard he will be able to satisfy himself in his best clothes; but the boy also wants to play, and while at play he does not want to be bothered with much style, or even clothes themselves, so give to those times the kind he can tumble about in without fear of a tear or a stain.

For his morning suit our lad should have knickerbockers of cheviot or serge for wear with his wash blouses. The collar is a detachable one and may be replaced with those of white linen and a bright tie. Another blouse fastened on the right side, and on the left was decorated by a pocket, quite usable by the user of pockets; this blouse was further decorated with white strap trimmings, a standing collar and narrow bands at the wrist. A blouse that is cool and pleasantly loose for play is one made from dark, blue chambray, in sailor style, and the boy may wear a white shield or not according to the warmth of the weather.

CATHERINE MANN-PAYZANT.

### MODEST CLAIMS OFTEN CARRY THE MOST CONVICTION

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of a disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will do, but prefer to let the users of it make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists and dealers.

---

### CHURCH SERVICES TODAY

The services announced for today in the churches of Nelson are as follows:

Anglican—St. Saviour's church, corner of Ward and Silica Sts. Fifth Sunday after Trinity; holy communion, 8 a. m.; morning prayer and holy communion, 11; Sunday school, 9:45 a.m.; evensong, 7:30; Rev. F. H. Graham, rector.

Catholic—Church of Mary, Immaculate, corner of Ward and Mill streets. Low mass, 8 a.m.; high mass, 10:30 a.m.; evening service, 7:30. Rev. Father Althoff, priest.

Salvation Army—Barracks on Victoria street, west of Josephine. Special services will be held today. Knee drill, 7 a.m.; holiness meeting, 11 a.m.; a praise meeting at 3 p.m.; Salvation meeting, 8 p.m.

Baptist church—Stanley street, near Mill. Morning service, 11 a.m.; evening service, at 7:30; Sunday school, 12:15 p.m.; Rev. E. H. Shanks, pastor.

Presbyterian church—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a. m.; Sunday school, 12:30 p.m.; evening service, 7:30 p.m.; Rev. J. T. Ferguson, pastor.

Methodist church—Corner Silica and Josephine streets. Morning service, 11 a.m.; and pastor's bible class, 2:30 p.m. Strangers and visitors very heartily welcomed. Rev. R. N. Powell, pastor. Morning topic, "Nature's Message for Man"; evening subject, the second of the series of 20 minute sermons on scenes from the life of David. "Despised of Man and Chosen of God. The coronation of David."

---

### TO PROTECT MUSICAL COMPOSERS

Government Will Put Trough T. P. O'Connor's Copyright Bill.

London, July 14.—The government has consented to father T. P. O'Connor's musical copyright bill, which insures its passage. It is believed that the enactment of the measure will end the extensive and long established piracy of music and insure the protection of foreign composers. American composers and publishers are concerned in the measure, because of recent years much music has been stolen and republished here.

The agitation for parliamentary action lasted eight years, and heretofore failed, but this year Mr. O'Connor succeeded in engaging the support of every group in the house of commons, and finally induced the government to take up his copyright.

### SAVED HIS COMRADE'S LIFE

"While returning from the Grand Army encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says J. E. Houghland of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties through the south and west. I always carry this remedy and have used it successfully on many occasions. For sale by all druggists and dealers.

A large hotel and store buildings are now in course of erection. A waterworks system is being installed. From one to two through stages leave Grand Forks daily. The following copper showings are in the vicinity. The McKinley, Gloucester, Banner, Jumbo, Maple Leaf, M. S., Victoria and others.

## OF INTEREST TO MINERS

Today is commenced a fresh series of articles in this department "The determination of rocks and rock forming minerals." During the last few months therehave been a number of requests for articles upon the various "country rocks" asking the way to detect them, and how to determine the various kinds. The articles now to be published are the outcome of these requests.

Should any of our readers desire to follow these articles through, it would be as well if they provided themselves with a small hammer and chisel; a knife and file for obtaining the streak; a small magnet to test whether the sample is magnetic or not; and a bottle of acid. If it is convenient hydrochloric acid is the best; but when it has to be packed in one's blankets, it is better to have powdered citric acid, using a drop of water to liquify a little of it when placed on a rock to test whether it will effervesce or not. In testing the hardness of samples it would be better to obtain a set of different rocks if possible as they are of great help. Should any of our readers find any difficulty in determining any sample we shall be pleased to give advice upon it, if a specimen piece is submitted for examination.

DETERMINATION OF ROCKS

Rocks considered as mineral substances are distinguished from each other by their external characters, such as the size, form, and arrangement of their component parts. These characters when readily perceptible to the naked eye and in the majority of cases are observable in hand samples are termed "macroscopic," to distinguish them from the more minute features which are usually only observed when magnified, and are known as "miscroscopic."

In classifying or determining rocks, it is not sufficient to state their different minerals, for the same minerals may constitute very distinct varieties of rocks. For instance, quartz and mica form the massive crystalline rock "greisen,' the foliated crystalline rock "mica-schist," and the sedimentary rock "micaceous sandstone," or another instance may be quoted: Chalk, limestone and statuary marble are all composed of "calcite." It is essential that the structure, texture, color and other characters of the rock be carefully noted.

In this series of articles it will be useful for our readers to follow the scale of hardness. The following is the one usually employed: 1, talc; 2, gypsum; 3, calcite; 4, fluorite; 5, apatite; 6, feldspar (orthoclase); 7, quartz; 8, topaz; 9, corundum; 10, diamond. The hardness (H) of any mineral is determined by ascertaining a point on this scale such that the given mineral will scratch any mineral in the scale below that point and will be scratched by any mineral above that point. All points to No. 6 are easily scratched with a knife, No. 6 being so with some difficulty; No. 7 yields with difficulty to a file; a knife only leaving a metallic streak of steel upon the surface. No. 1 and 2 are scratched with the finger nail, No. 1 very easily; No. 3 does not answer this test, but will scratch a copper coin, whilst No. 4 is not scratched by copper. No. 5 scratches glass, whilst No. 4 will not do so.

It will also be well to note the specific gravity of the various minerals; there is no particularly easy way of determining this, but by practice considerable facility can be acquired in approximately estimating the specific gravity (5.9) of rocks merely by testing them in the hand.

The following tables will be found a great help in determining the different rocks. It must be distinctly understood that the fracture must be freshly made and that the decomposed or weathered surface must be discarded or not taken into account.

TABLE NO. 1.

A fresh fracture shows the rock to be close grained, dull with no distinct structure.

(a) Hardness (H) .5 to 1, soft, crumbling, easily scratched with finger nail; does not effervesce with acid; emits earthy smell, when breathed upon; color dark gray, brown or blue, perhaps white, yellow or red; is probably some clay stone, fire clay, shale, or a decomposed feldspar rock.

(b) H 1.5 to 2; S.G. 2.2 to 2.4; occurs in beds or veins; does not effervesce; color white, yellow or reddish; is probably gypsum, or, friable, crumbling, soils the fingers; strong effervescence; color white or yellowish, is chalk, marble or limestone.

(c) H 3 to 4; S.G. 2.5 to 2.7; color pale green, dark green, or red; streak white; soapy feel; does not effervesce; breaks in curves or shell-like surfaces, sometimes splintering, is probably serpentine.

H 3; S. G. 2.6 to 2.8; color white, bluish-white, yellow or brown; streak white; strong effervescence, is some form of limestone.

(d) H 3 to 4; S.G. 3 to 3.9; color dark brown to black; streak yellow or brownish; slightly soluable in acid which turns yellow; is a clay-ironstone or limonite. If the rock is reddish and has a red streak it is hematite.

(e) H 3.5 to 4.5; S.G. 2.8 to 3; color yellowish, white or pale brown. Powder from streak slightly soluable in acid with effervescence; is dolomite.

(f) S.G. 2.5; color white, grey, yellowish or bluish, rings or clinks under the hammer; splits in thin plates; does not effervesce; may be phonolite or clink stone or porphyrite.

(g) S.G. 2.9 to 3.2; color black or dark green, weathered portions yellow or brown; may be basalt, andosite or amphibolite.

(h) H 6 to 6.5; S. G. 2.5 to 2.7; with difficulty scratched with a knife; color white, bluish grey, yellow, or red brown; streak white; no effervescence ;is probably a feldspathic or orthoclase rock.

(i) H 7; S.G. 2.5 to 2.9; knife leaves metallic streak upon resisting surface; color white, reddish, yellowish, to brown or black; very finely granular or of a horny texture; no action with acids; is probably silica in the form of jasper, flint, chadcedony, etc.

(To be Continued.)

CORRESPONDENCE

M. D., Anaconda, B. C.—A private reply has been sent you, as requested.

T. H., Grand Forks—Your Nos. 1 and 2 samples are crystalline limestone. No. 3 is a pulverent form of limestone (see (b) in table 1 above). No. 4 is serpentine. No. 5 pyrrhotite. None of these samples, excepting perhaps No. 5, will carry any value. No. 5 may carry gold and a little copper.

J. D., Kaslo, B. C.—Sample No. 1 is a fine grained quartzite, with a narrow vein of iron pyrites running through it. No. 2 is a graphitic schist. No. 3 the same. None of these samples are of commercial value.

P. E., Cranbrook, B. C.—Your sample is mainly composed of pink feldspar; no value. Please give more particulars when sending samples on again.

G. T., Salmo, B.C.—No. 1 hematite in quartzite; No. 2 straight hematite. We should advise assaying both for gold. The fee will be $1.00 in each instance. These samples will be kept 14 days to see whether you desire an assay made.

## STOCKS FOR THE WEEK

GOOD MARKET FROM SPECULATIVE POINT OF VIEW

ROSSLAND WHITE BEAR STOCK IS FAVORITE TRADER

(Reported by B. B. Mighton & Co.)

Local brokers report business in mining shares as fairly active during the past week. From Spokane it is learned that more business is being transacted at the present time in mining stocks than there has been for several years. From Montreal and Toronto it is stated that investors are again purchasing the shares of some of the better class British Columbia companies. By comparing the prices of these shares, as advertised today, with the prices at which they were offered a year ago, it will be noticed that in almost every case there has been a good advance.

Mining in British Columbia was never better from a speculative point of view than it is at present, with only the properties of real merit working and in almost every case the shares being offered below their intrinsic value, it would seem that there should be a good profit made by investing at the present time.

White Bear, Rossland, was one of the most active stocks on the Toronto market for the week ending yesterday. Thousands of shares changed hands and prices advanced between three and four points.

International Coal continues very active, with more buyers than sellers. Prices have remained very firm.

Sullivan Group also has been traded in to some extent. This has been more noticeable as this stock has been very dull for several months. It would appear that matters have been arranged to the satisfaction of certain interests that have been very persisted in "bearing" Sullivan, and a good advance may be expected in these shares now.

Rambler-Cariboo has been in good demand with but very little stock changing hands.

The copper stocks showed a downward tendency, but as there has been considerable buying during the last couple of days we believe that they will show more strength during the early part of the week.

The following are the approximate quotations for the week ending yesterday:

| | Asked | Bid |
|---|---|---|
| American Boy | $ .1 | $ .⅝ |
| B. C. Copper | .7 | .6¾ |
| B. C. Standard | .20 | .15 |
| Belcher Mountain | .45 | .40 |
| Canadian Con. Smelters | 130.00 | 127.00 |
| Cariboo-McKinney | .3 | .2 |
| Canadian Marconi | 3.50 | 3.25 |
| DeForest, common | 2.50 | 2.00 |
| DeForest, preferred | 7.00 | 6.50 |
| Dominion Copper | 3.10 | 2.75 |
| Deer Trail Con. | .2 | .1¾ |
| Eva Gold Mines | .35 | .30 |
| Five Metals | .15 | .12 |
| International Coal | .55 | .54 |
| Imperial Development | 750.00 | .... |
| Jumbo | .15 | .12½ |
| North Star | .6 | .5 |
| Prince | .17 | .15 |
| Rambler-Cariboo | .25 | .24 |
| Sullivan | .4 | .3½ |
| Tel-Kwa Mines | .5 | .4 |
| Washington Meteor | .13 | .11 |

The Hudson's Bay company are sole agents in the Kootenays for the king of all bottled Lagers, the A. B. C.

## GREAT LACROSSE MATCH

CRANBROOK AND LETHBRIDGE TO MEET ON MONDAY

SPECIAL TRAIN CHARTERED TO CONVEY CRANBROOK TEAM

(Special to The Daily News)

Cranbrook, July 14—A special train of great proportions will pull out from here on Sunday evening at 10 o'clock to take the lacrosse team, their supporters, rooters and mascots of magic power, to Lethbridge for the big match on Monday next—and that will be a match worth going half the journey on one's head to see. Frank is out of the hunt for the pennant, as Cranbrook has beaten that crowd twice. Lethbridge played here on the only occasion the teams met this year and Cranbrook wiped the earth with them to the tune of 13-1. People believe the number 13 is unlucky, but the lads who wear the blue and white do not share in that superstition. It looked good to them once before and its magic would not be resisted again. It is said that Lethbridge has never been beaten on their own grounds at lacrosse. That may be so, but they stand a fair chance of having another story to tell after Monday's match. However, there is no use selling the bear's hide until we shoot the bear.

Win or lose, we are simply all going over to see what will be probably the finish of the three cornered fight between Lethbridge, Frank and Cranbrook. If Cranbrook wins the coming match, it will be in order for the other two teams to fight out the battle for the wooden spoon. That the cup may come our way is the very natural hope of the Cranbrookites. They are working hard to secure it—the boys are. The rank and file are doing their best in that direction, too. One man went out the other night when the full moon was shining and nearly got heat-apoplexy from chasing a jack rabbit round the cemetery. He 'lowed his hind laig'd make a bully mascot. That man failed to connect with the rabbit, but he shook hands with a diabolic thirst which simply will neither down, nor drown, for all the liquid he has poured on it. Joe Ryan has had sent out to him specially a four leaved Shamrock that grew on the famous fairy region, the Devil's Bit mountain, county Tipperary, Ould Sod, where it was plucked in the dark of the moon. If that fails to do the trick, there's no use in spells.

But it's men, not mascots, win matches, and the linup for our young city looks promising, to say the least. Here it is: Goal, Ickoff; point, Dunc. McLean; cover, Matheson; 1st defence, Staples; 2nd defence Porteous; 3rd defence, "Scotty" Williamson; center, Jamison; 3rd home, Sandy Cowan; 2nd home, Walter Miller; 1st home, DeBeck; inside home, Matthews; outside home, Fred Paton.

A fine team, my masters. May the better team win; and, a word in your ear, Lethbridge: Keeep the N.W.M.P. off the field of play, for, rightly or wrongly, the complaint was made last time the teams met in your own city, that the conduct of the police was not of a character to induce one's belief that strict impartiality was a strong feature with your sportsmen. Play the game! Turn her loose!

The special train which will take the Cranbrook team to play at Lethbridge on Monday will consist of three sleepers and a baggage car. In order to secure this accommodation for the team and those who will accompany them it was necessary to put up a guarantee of $600. It speaks splendidly for the pluck and energy of the Cranbrook people that this sum was subscribed inside an hour and a half from the time when it was called for. Between 75 and 100 will avail themselves of the train, which is timed to leave Lethbridge at 8 p.m. on Monday so that all can be back to Cranbrook, well rested by a comfortable sleep, ready for business on Tuesday morning. It is probably the first time in the west when such a number of the leading men of a city travelled 200 miles in a specially chartered train to see their young men try conclusions with a rival city in a manly game.

**Minard's Liniment Cures Diphtheria**

BOWEL COMPLAINT IN CHILDREN

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it very promptly controls any unnatural looseness of the bowels. For sale by all druggists and dealers.

RUSSIAN LIBERALS JUBILANT

Postponement of Visit of British Fleet Regarded as a Victory.

St. Petersburg, July 14.—The liberals are jubilant at the postponement of the visit of the British channel fleet to Russian waters, which they regard as being an open recognition of the fact that public sentiment in both countries is hostile to such an official exchange of courtesies while the people and the government of Russia are at war.

The official announcement does not reveal the real motive for the postponement, which is believed to be the admiralty's sense of humiliation at the sorry spectacle the remnants of Russia's navy would cut in the presence of the powerful British fleet, and the fear that its arrival at Cronstadt would mark another mutinous outbreak on the part of the sailors and garrison of that fortress.

London, July 14—Without accounting for the possible incidentals, it would seem to sum up the general trend of British feeling on the postponement of the visit of the British channel fleet to Russian waters to say that it was realized on all sides that a misinterpretation had been placed on the visit by certain factions in Russia, which might have led to offensive happenings of a nature to harm future Anglo-Russian relations.

Jeweller and Optician.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 14th, 1906.

## LAND NOTICES

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at the northwest corner post of Lot 6300, in West Kootenay district, west 20 chains, thence north 40 chains, thence east 40 chains; thence south 40 chains; thence west 20 chains; thence south 20 chains to point of commencement.

Dated this 5th day of May, 1906.

J. J. CAMPBELL.

NOTICE is hereby given that sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described land on the West Arm of Kootenay lake, commencing at north corner post, adjacent to 11-4 mile post on the Procter extension, and running thence south 20 chains; east 40 chains; north 20 chains; following lake to point of commencement, containing 80 acres more or less, omitting the right of way.

J. C. BRADFORD.

Nelson, B. C., June 9, 1906.

NOTICE TO CONTRACTORS

## TENDERS FOR RAILWAY TIES

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Ties, 1906," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, until 12 o'clock, noon, of the 12th day of July, 1906, for five hundred and thirty-five thousand (535,000) Railway Ties, in accordance with the specifications of the Commissioners.

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Ties, 1907," will also be received as above until twelve o'clock noon, of the 4th day of September, 1906, for one million and ten thousand (1,010,000) Railway Ties, in accordance with the specifications of the Commissioners.

Tenders must be made on the forms supplied by the Commissioners which, as well as the specifications, may be obtained on application to Hugh D. Lumsden, Chief Engineer, Ottawa, Ont.; to A. E. Doucet, District Engineer, Quebec, P.Q.; or to A. E. Hodgins, District Engineer, Kenora, Ont.

Full information in regard to deliveries required is given on form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed.

The successful tenderers will be required to sign a contract in form satisfactory to the commissioners, and to furnish an accepted cheque on a chartered bank of Canada, payable to the Commissioners of the Transcontinental Railway for a sum equal to ten per cent (10 p.c.) of the amount of the tender, as security for the due and faithful performance of the contract.

No tender for less than five thousand ties will be considered.

The right is reserved to reject any or all tenders.

By Order,

P. E. RYAN,
Secretary

The Commissioners of the Transcontinental Railway.

Dated at Ottawa ,June 26th, 1906.

## THE "HARD-TO-DO THINGS"

Most things are "hard to do" if you try to do them in the hardest ways—and there's a hard way to do most everything!

**There are Several Hard Ways to**

FIND TENANTS
GET SERVANTS
SELL PROPERTY
LOOK FOR WORK
SECURE OFFICE HELP
INFLUENCE INVESTORS
RENT FURNISHED ROOMS
DISPOSE OF "OLD THINGS"
LOCATE LOSERS or FINDERS

and there is one way of doing these things which—while, possibly, not "easy"—is, at any rate, least-hard—the sensible, persistent use of

## NELSON'S NEWS OF THE DAY

Yesterday was a comparatively cool day, the average range being 87-54.

Mrs. Morris of Baker street west, has gone to Gerrard for the summer.

Miss Dutton of Birtle, Manitoba, is the guest of her cousin, Mrs. J. W. Holmes, Mill street.

The city band will give the regular open air concert at the old park this afternoon from 3 to 5 o'clock.

Tomorrow is the last day for the payment of electric light and water rates in order to obtain the rebate of ten per cent.

Hugh Gilmour of Vancouver, arrived in town last evening from Fernie. He leaves this morning, via Spokane, for his home.

The recently elected officers of Kootenay lodge No. 16, I.O.O.F., will be duly installed at the regular lodge meeting to be held tomorrow evening.

Owing to the absence of Rev Mr. Shanks who cannot return in time, there will be no services in the Baptist church today. The bible class will meet as usual.

The Altar Guild of St. Saviour's church will give a garden party on Thursday afternoon at 4 o'clock on the grounds of W. Irvine's residence, Silica street, kindly loaned for the occasion.

Thos. Grey of Kokanee creek, will be leaving shortly on a visit to his old home in New Brunswick. He has not been back for 30 years and thinks it is about time he was taking a holiday.

A meeting of the Nelson cricket club is called for 9 o'clock tomorrow night at A. W. Dyer's residence, when arrangements will be made for a match with the Kokanee tam for neext Thursday.

The launch party to be held by the Women's Auxiliary in connection with St. Saviour's church, which was to have been held on July 10, but was postponed, is now definitely arranged to take place on Thursday, August 16th.

J. E. Annable's latest request for the Kootenay booth at the Winnipeg fair on July 23-28, is for fine specimens of Nelson trout. The fish presented are not to be cleaned, but brought in just as caught. They will be placed in cold storage, frozen and shipped to Winnipeg. Lucky fishermen today are requested to bear this in mind.

# Malthoid Roofing

We can supply this celebrated roofing in four grades

½ Ply 1 Ply 2 Ply 3 Ply

We will be pleased to furnish all information and can only say that for a lasting, serviceable and fireproof roofing, it has no equal.

**J. H. Ashdown Hardware Co., Ltd.**

Sole Agents for Kootenay District.

Messrs. The J. H. Ashdown Hardware Co., Ltd.,

After considering the matter of roofing for the buildings in connection with the new power plant for the city of Nelson, I have decided that the Malthoid Roofing is the best and only roofing to meet all the conditions contingent upon the situation and elements to which these buildings are subjected, as this roofing not only is fireproof, but will withstand dampness and heat. Yours truly,

W. G. GILLETT, Mayor.

At the weekly shoot of the gun club yesterday afternoon the following scores were made; 25 birds in each event: No. 1, Snyder, 22; Ward, 14; Bishop, 18. No. 2, Young, 15; Ward, 14. No. 3, Hunter, 10; Bishop, 17.

The book committee of the library will select the new books to be purchased immediately with a portion of the funds raised by Kirmess. Messrs. Hume, Starkey and Crease will negotiate for the purchase of a new library site.

Persons who intend going to Rossland tomorrow or Tuesday to attend the big celebration there should obtain a receipt from the ticket office when purchasing their tickets. On presentation of this receipt at the Rossland office a substantial rebate will be allowed.

The Spokesman-Review has notified the 20,000 club that it will be pleased to publish an illustrated writeup of the coming N.P.A.A.O. regatta. Views of the lake, the mosquito fleet and other features of interest will be immediately prepared for the use of the paper.

C. E. McPherson, general passenger agent for C.P.R. western lines, arrived in town last night from the coast, accompanied by Mrs. McPherson. The presence of Mr. McPherson in town should be taken advantage of by the fair directors to discuss special rates during the holding of the exhibition. Nelson should be given really low rates this year and Mr. McPherson is the man who can fix them so that they will be winners.

C.P.R. telegraph lines east and west were again badly demoralized last night. For several nights lately there has been the same complaint. This wire trouble makes it difficult to secure the kind of a news service The Daily News would like to give its readers regularly day in and day out. It seems impossible for the wires to keep in good working order for more than a few hours once every now and again.
