WEEK'S ORE SHIPMENTS

Coal Miners' Strike Has Already Restricted Output

In Other Respects Mining Industry Was Never in Healthier Condition—Activity in the Slocan

Apart from the fuel situation the most important mining news of the week is the sale of the Krao mine in Ainsworth camp. This is the biggest deal that has been put through in the Slocan for many a year and it is likely that this entry of new capital into that district, together with the deep level mining of the Highlander, will be productive next year in much more ore being shipped from Ainsworth than heretofore has been the case. The importance of the Krao finds of recent date is not only attached to that mine itself but to the properties lying immediately north of it, the Virginia, Alma, Rex and Webster, over which the vein is traced and the Regina, Buck and Doe, to the westward, into which the vein is known to dip. It is understood that a force of men is immediately to be employed and that shipments are likely to begin as soon as the necessary sinking is done—about February or March next.

In the Slocan proper it is reported that never were prospects more bright. Work has been undertaken in all directions and almost everywhere attempted has brought results. The Vancouver is being worked successfully since its purchase by the Le Roi No. 2, of Rossland, and it is understood that a well known low grade property deemed to be eminently fit for concentration and of yielding substantial profits, the old Galena Farm, is to be taken in hand by a syndicate of eastern capitalists some time during the next month or so.

The high grade belt in the vicinity of Greenwood has recently been exploited to some advantage and several deals of importance bringing new capital into the country, have been put through. The same remark applies in lesser degree to the camps upon the West Fork of the Kettle river. In fact everywhere around the district mining is looking more than well, especially now when both lead and silver are almost unprecedentedly high. The smelter situation, however, is serious. There is enough fuel in sight to last the local smelter for a few weeks yet. Trail is down at a low ebb. This is said not to matter extremely at the present stage inasmuch as some repairs and improvements were urgently needed and might themselves have forced a shut down for a short time. The Boundary smelters, with Northport, are endeavoring to arrange for a supply from the coast but whether such arrangements can be satisfactorily made yet remains to be seen.

The output of the various mines and the receipts at the several smelters for the past week and year to date in detail, are appended:

BOUNDARY SHIPMENTS

	Week	Year
Granby	13,669	661,777

MARYSVILLE, B.C.
MARYSVILLE SMELTER RECEIPTS

Sullivan	600	20,720

Rossland, Oct 13—The effects of the strike of the coal miners of the Crow's Nest Pass Coal company are beginning to be felt here in the reduction of shipments which for this week are the lowest in the year. The Trail smelter has notified the Le Roi company that it will receive no more ore from the Le Roi after today and the smelting plant at Trail will close down tomorrow or on Monday. The Le Roi, however, will ship its ore to Northport for a considerable time yet and store it in the bins and yards there till a supply of coke can be obtained. The Le Roi No. 2 is taking advantage of the lull to repair its shaft and to break down ore. The Centre Star will for a considerable period keep its force of men at work in developing and in installing the new hoist and compressor plant and in other work, while the Trail smelter intends to keep most of its men at work in making improvements to the plant.

TO OPPOSE FIELDING.

Halifax, Oct. 13—Dr. R. C. Weldon, dean of Dalhousie Law school, and former M. P. for Albert, N. B., has been nominated by Shelburne-Queen's conservatives to oppose Hon. W. Fielding in the bye-election on October 31

RUGBY FOOTBALL VICTIM

TORONTO UNIVERSITY STUDENTS DEAD FROM INJURIES

SECOND FATALITY WITHIN A WEEK FROM SAME CAUSE

Toronto, Oct. 13.—Rugby football has claimed one more victim at the university of Toronto, in the death yesterday afternoon of W. G. Ellis, son of M. C. Ellis, vice-president of P. W. Ellis & Co., the big jewelry firm of this city.

On Wednesday Ellis was taking part in a practice game of football and sustained an injury which almost at once rendered him unwell. He was removed to his home and rapidly became worse, but despite this, no fatal result was anticipated. He, however, grew worse yesterday and rapidly sank. The cause of death was heart failure, resulting from overstrain during the game. On account of Ellis' death, the McGill 'Varsity game for today was cancelled.

A week ago Cameron Paulin, another student, died from injuries received in a football game.

Morristown, N. J., Oct. 13.—Charles Suydam, 19 years old, son of S. S. Suydam, of this place, was injured fatally today in a football game between teams representing the Morristown High school and the Morristown boarding school. Young Suydam, who was on the high school eleven, while running in a flying tackle in the last half of the game, was accidentally tripped. He fell heavily, breaking his neck and dislocating his shoulder. He died tonight.

SEEKING EMPLOYMENT

Former Crow's Nest Coal Miners Want Work in Winter Camps

(Special to The Daily News)

Wardner, Oct. 13 — The big machinery plant for the new planing mill of the Crow's Nest Pass Lumber company is being received from the manufacturers and it is hoped that sometime in December it will all be installed and ready for operation. The machinery includes a 30x14 lumber sizer, two turn matchers, two moulding machines, and band, resaw, ripsaw and cut off saws, and a picket machine. It is being installed by the Berlin Machine Co. and the Waterous Engine company is supplying the power plant.

The town is crowded with ex-employees of the Crow's Nest Pass Coal company seeking employment in the lumber camps for the winter. The lumber company has taken on some 40 men for this class of work.

Good progress is being made on the building of the new C.P.R. depot which will be completed before the snow flies, and will prove very welcome for the travelling public, and also for the hard working station agent.

J. Brown, proprietor of the Union hotel, accompanied by his wife and family, is off for a six months' holiday. His travels will embrace the northern part of Alberta and as far east as Toronto and Hamilton. During his absence the Union will be in charge of George Taylor.

MILLIONS FOR CHARITY

MONEY LENDER "SAM" LEWIS' FORTUNE TO BE DISTRIBUTED

ABOUT $15,000,000 FOR HOSPITALS AND THE POOR.

London, Oct. 13.—By the death today of Mrs. "Sam" Lewis Hill, widow of "Sam" Lewis, the well known money lender, about $15,000,000 will be distributed in charitable bequests.

In accordance with the will of "Sam" Lewis, who died in 1901, his whole fortune was left to his widow for life, besides what she was given outright, $5,000,000, most of which presumably will go to her second husband, lieutenant Hill, of the Scots' Guards. The King's hospital fund will come in for a large sum. Besides a specific amount, $1,250,000, the hospital fund gets about $3,000,000 out of the residue of the estate. About $6,000,000 goes to establishing dwellings for the poor, $175,000 is devoted to the relief of the Jewish poor and Jewish hospitals, and $875,000 goes to other hospitals. A number of other charities get good legacies.

Lewis was the most famous man in England in his business. His transactions were enormous, and his clients were among the highest personages in the land. He was shrewd and hard, but absolutely honest. He used to say his motto was "I lend to the lord and give to the poor."

It is now claimed that his princely bequests seem to prove the truth of his words.

TAFT SAILS FOR HOME

LEAVES CUBAN SHORES AMID GREAT ACCLAIM.

SALUTES WERE FIRED AND BAND PLAYED "YANKEE DOODLE."

Havana, Oct. 13.—Secretary of war Taft and assistant secretary of state Bacon completed their labor here today and this afternoon departed for the United States on board the battleship Louisiana. They were followed to sea and acclaimed by many liberal and ex-revolutionary leaders, but the former government officials showed no disposition to join in the farewell.

The principal event of the day, preceding the departure of Messrs. Taft and Bacon, was the taking over of the government by Charles Magoon. Secretary Taft's governorship ceased at noon and at 3 o'clock he anr Mrs. Taft and Mr. and Mrs. Bacon held a farewell reception at the palace. Immediately thereafter the secretaries and their party were driven in automobiles to the Caballeria wharf, where they met mayor Cardenas, who presented Messrs. Taft and Bacon with two bouquets. Brigadier general Funston, who had preceded the others, had started for the battleship Virginia in a launch. Mr. Taft handed the ladies into a launch and the party started for the Louisiana. Within a few minutes the party had boarded the vessel and received a secretary's salute of 17 guns. The Louisiana passed out first, thundering a salute of 21 guns to the Cuban flag, and the band playing the national hymn. The salute was returned by the Cabanas fortress. In the wake of the flagship came the Virginia, carrying general Funston, and then came the New Jersey. The army transports Niagara and Seneca and a flotilla of gayly decorated launches followed, carrying mostly leading liberals and ex-revolutionists, flying liberal banners. The battleships were escorted to the harbor mouth, where the flotilla whistled farewell, the warships responding and secretary Taft and his party waving their hats and handkerchiefs.

ANOTHER HONK KONG DISASTER

Hong Kong, Oct. 14.—The British steamer Hankow from Canton was burned at 3.10 this (Sunday) morning, while lying alongside her wharf. Hundreds of Chinese passengers were burned to death and a valuable cargo was destroyed. All the European passengers and crew were saved.

The steamer Hankow was owned by the China Navigation company, of London and was built in Glasgow in 1876. The vessel was constructed of iron, her dimensions being, length 308.5, beam 42.4, depth, 15.2. She registered 3073 tons gross.

BAPTISTS AT VANCOUVER

Victoria, Oct. 13.—At the regular quarterly meting of the Calvary Baptist church a motion was carried that the congregation sever its connection with the B. C. Baptist convention. This declaration of independence is the culmination of a difference of opinion which has existed between members of the Calvary church for some months.

PICK STICKER STUCK

Stratford, Ont., Oct. 13.—Charles Kimber, employed by the Whyte Packing company at a pig sticker, is in the hospital here in a serious condition from a knife wound in the abdomen, caused by a pig, which he was killing, kicking and striking the knife.

RUN ON BANK OF ONTARIO

Depositors in Toronto and Montreal Were Hot After Their Cash

Confidence Soon Restored by Prompt Payment of all Demands—Bank of Montreal in Possession

Toronto, Oct. 13.—A meeting of representatives of the Toronto banks was held at the residence of Duncan Coulson, general manager of the Bank of Toronto, last night, at which it was stated arrangements had ben consummated for securing of payment of all the liabilities of the Ontario bank.

According to the statement of the secretary of the meeting, the reason for the conference of bankers was the danger of a run on the Ontario bank. The unfortunate position of the Ontario bank is due to the stock operations in New York of its general manager, C. McGill. The condition of the bank has not been so widely known as to cause uneasiness, and it was not until stock was offered down sharply on the local exchange yesterday that public attention was drawn to it. But the directors have been investigating its affairs for the past three weeks, and the offer of the Bank of Montreal to assume all liabilities, is the result of a visit of two of the Ontario bank directors to Montreal on Thursday. In reliable banking circles, the expectation is expressed that all of the bank's reserve fund of $700,000 may be gone.

A crowd of depositors surged into the Ontario bank when the doors opened this morning. Counter signs met their eyes in a dozen places: "This is the Bank of Montreal," but the anxious men and alarmed women were but little reassured, however, and demanded their money. All depositors were paid in full. After the first hour the pressure abated.

Montreal, Oct. 13.—There was a big rush on the Montreal branches of the Ontario bank today but all depositors were paid in full. Mr. N. King, the local manager, said the bank would pay out to depositors whatever their demands were until they are perfectly satisfied.

AMERICANS IN THE LEAD

HAVE NOW WON THREE OUT OF FIVE GAMES.

YESTERDAY'S PLAY WAS LOOSE ON BOTH SIDES

Chicago, Oct. 13.—Out of a bedlam of errors, long hits, vanquished pitchers, and the half-frenzied mob of spectators, the Chicago American League emerged victorious over the Nationals today. The Americans won in spite of five errors, which were accountable for nearly all the runs made by their opponents. The Nationals lost because they could not hit Walsh's spit ball delivery. The Americans fielded like amateurs and the Nationals fielded perfectly but batted poorly. Time after time when a hit meant runs, batters failed to live up to their reputations.

The day was warm, 25,000 persons saw the game. The Americans began vigorously. Hahn touched Ruelbach's delivery for a single over second. Jones sacrificed and Hahn scored on Isbell's double to right. Davis hit weakly but was safe, while Isbell was caught between second and third. Rohe doubled to left, Ruelbach allowed Donohue to walk, filling the bases. Dougherty, however went out, and two runs were killed. The Nationals piled up three runs. Hoffman singled and went to second on Sheckard's sacrifice. Schulte hit safely, but Hoffman was held at second. Chance was hit by the ball, filling the bases. Steinfeldt forced Chance at second, and Hoffman scored, but Isbell, attempting to make a double play, threw the ball into the crowd and Schulte also scored, Steinfeldt reaching second. Tinker knocked an easy one to Walsh, who threw low to Donohue, and Steinfeldt scored. Tinker went out stealing.

The Americans evened up matters in the third. Isbell hit for two bases, and Davis followed with another hit, scoring Isbell. Captain Chance removed Ruelbach and substituted Pfeister. He began by striking out Rohe. Donohue walked on a dead ball. Doughterty forced Donohue, and Davis reached third, scoring on a double steal. Sullivan struck out.

In the fourth the Americans clinched the game with four runs. Pfeister allowed Walsh to walk, and Hahn forced Walsh at second. Jones hit safely over third. Isbell sent a long double to right centre, and Hahn scored. Isbell and Jones scored a moment later, when Davis hit the ball to left for two bases. At this point Pfeister was retired. Overall, who succeeded him, allowed Rohe to walk, and Donohue doubled to left, Davis scoring. Schulte captured Dougherty's low fly and caught Rohe at the plate. In their half the Nationals tallied one run on misplays. Tinker was safe when Rohe threw into the crowd, and Tinker reached second on the error. Evers walked and Kling stole third and scored on a wild pitch.

In the sixth Isbell scored on his own double and Rohe's single. In their half the Nationals made two runs.

After Evers and Kling had retired, Hoffman and Overall were passed, and when Sheckard reached first on Rohe's fumble the bases were full. Schulte doubled and Overall and Hoffman scored. Had it not been for ground rules Schulte's hit would have been a home run and the score would have been even. With men on second and third, Chance went out at first. Thereafter neither side was able to score.

Walsh was taken out in the seventh, White finishing.

The Americans have now won three out of five games.

The batting order:

Nationals—Hoffman, c.f.; Sheckard, l. f.; Schulte, r.f.; Chance, 1b; Steinfeldt, 3b.; Tinker, s.s.; Evers, 2b; Kling, c.; Ruelback, p.

Americans—Hahn, r.f.; Jones, c.f.; Isbell, 2b; Rohe, 3b; Donohue, 1b; Dougherty, l.f.; Davis, s.s.; Sullivan, c.; Walsh, p.

Umpires—Johnstone and O'Laughlin.

First Innnigs:

Americans—One run. Hahn landed a single down past second. Jones sacrificed, Ruelbach to Chance. Isbell doubled in the right field. Rohe sending Hahn over the plate. Davis grounded to Ruelbach, and Isbell ran to death between third and second, Ruelbach to Steinfeldt, to Tinker. Rohe doubled down past third sending Davis to third. Davis stole home during an argument but umpire Johnstone would not allow it. Donohue walked, filling the bases. Dougherty out, Evers to Chance.

Nationals—Three runs. Hoffman smashed out a single over Isbell's head. Sheckard sacrificed, bunting down to Donohue. Schulte singled to third, Rohe stopping the ball after a high jump, but did not recover in time to throw runner out. Chance was hit by a pitched bal and took first, filling the bases. Steinfeldt forced Chance at second, Davis to Isbell, and Hoffman scored. Isbell threw wild to first to complete a double and Schulte scored, Steinfeldt getting second. Tinker bunted, but was safe at first on Walsh's wild throw, Steinfeldt scoring. Tinker was out stealing, Walsh to Donohue, to Davis.

Second Innings:

Americans—No runs. Sullivan struck out. Walsh got a base on balls. Hahn raised an easy fly to Chance. Jones out on a grounder, Evers to Chance.

Nationals—No runs. Evers out, Walsh to Donohue. Kling waited for a base on balls. Ruelbach sacrificed, Sillivan to Donohue. Hoffman struck out.

Third Innings:

Americans—Two runs. Isbell doubled to left field. Davis doubled into right field, Rohe scoring Isbell. Pfeister was substituted for Ruelbach. Rohe struck out. Donohue was hit by a pitched ball. Dougherty forced Donohue, Evers to Tinker, and Tinker missed a double play by throwing high to first. Davis and Dougherty pulled off a double steal, Davis scoring on the steal. Sullivan fanned.

Nationals—No runs. Sheckard fanned. Schulte went to second on Davis' drive into the crowd on an easy bounder. Chance grounded out, Davis to Donohue, Schulte going to third. Steinfeldt out, Davis to Donohue.

Score—Americans, 3; Nationals, 3.

Fourth Innings—

Americans—Four runs. Walsh walked. Hahn bunted for a single, Walsh out at second, Steinfeldt to Tinker. Jones singled to left, Hahn going to second. Isbell doubled for third, scoring Hahn, Jones getting to third. Davis doubled to left, scoring Jones and Isbell. Overall then replaced Pfeister. Rohe walked. Donohue doubled into left field, Hahn scoring Davis, and Rohe going to third. Dougherty lined to Schute, and Rohe tried to score from third, but was doubled out, Schulte to Evers, to Kling.

Nationals—One run. Tinker went to second on a wild throw by Rohe into the crowd back of first. Evers got four wide balls. Kling fanned. Tinker and Evers worked a double steal. Overall fanned. Tinker scored on a wild pitch, Evers being held at third. Hoffman walked. Sheckard fanned.

Fifth Innings:

Americans—No runs. Sullivan out. Tinker to Chance. Walsh fanned. Hahn filed to Schulte.

Nationals—No runs. Schulte filed to Sullivan. Chance doubled to right. Steinfeldt flied out to Jones. Tinker out, Davis to Donohue.

Sixth Innings:

Americans—One run. Jones struck out Isbell doubled past first base, the ball going to the crowd, making the fourth base hit for him. Davis out, Evers to Chance, Isbell going to third. Rohe singled to right scoring Isbell. Rohe went to second on a wild pitch. Donohue out, Overall to Chance.

Nationals—Two runs. Evers out, Davis to Donohue. Kling out, Davis to Donohue. Overall walked. Hoffman walked. Sheckard singled to Rohe who threw to second, but too late to get Hoffman Schulte doubled over Jones' head sending in Overall and Hoffman. Chance out, Isbell to Donohue.

Seventh Innings:

Americans—No runs. Dougherty flied to Hoffman. Sullivan filed to Evers. Walsh fanned.

Nationals—No runs. Steinfeldt doubled to left field crowd. Walsh taken out and White put in his place. Tinker fouled to Donohue. Evers out, Davis to Donohue, Steinfeldt moving up to third. Kling out, Rohe to Donohue.

Eighth Innings:

Americans—No runs—Hahn flied to Hoffman. Jones popped foul to Steinfeldt. Isbell fanned.

Nationals—No runs. Evers went out on a fast grounder, Isbell to Donohue. Hoffman fanned.

Ninth Innings:

Americans—No runs. Davis filed to Sheckard. Rohe bunted to left. Donohue out, Tinker to Chance. Rohe went to Chance. shrdlu,D—. srdl huetaonlhhm to second on Donohue's out. Dougherty struck out.

Nationals—No runs. Chance filed to Hahn. Steinfeldt out, Rohe to Donohue. Tinker walked. Moran batted for Evers, Moran forced Tinker, Davis to Isbell.

Score—Americans, 8; Nationals, 6.

	R	H	E
Americans	8	12	5
Nationals	6	6	0

NO SOCIALIST ALLIANCE

Paris, Oct. 13.—The trade union council, at its closing session today, defeated by 830 to 8 votes a motion to enter into permanent relations with the socialists, and adopted a resolution to hold aloof from politics.

MUST RUN FULL BLAST

COPPER TOO HIGH FOR GRANBY TO CLOSE DOWN.

MANAGER HODGES WILL SECURE FUEL AT ANY COST.

"Were copper down to 12 cents a pound as it was a few years ago," said manager A. B. W. Hodges of the Granby smelter, to a representative of The Daily News early this morning on his arrival from Fernie, "I dare say we would have to close down the Granby mines and smelter as tight as a drum, but with copper at 21 cents a pound, the highest price it has commanded for half a century, we cannot afford to do any such thing. I blew out two of our eight furnaces when the strike started, but within a week, you may state, I will have the whole eight running again even if I have to pay a higher price for my coke."

"Is there any hope from Fernie, you ask? No, there is not. It is a good thing that copper is as high as it is or else the whole country side would have to shut down just because mine manager and union boss want to have a real good scrap. I have just been up to Fernie and have talked with both sides, with president Sherman and with manager Drinnan and I could get no satisfaction from either. I am back a sadder and perhaps a wise man. What the rights of the case are I don't know. Many of the men seem to have it in for Sherman or for the local president but they all seem to say that now the fight has started they have got to see it through. Both sides thoroughly distrust each other. The union men say that while certain officials are at the mine there will always be trouble and on the other hand the officials declare that just as long as the men are run by the union bosses there never can be peace. So everything looks like a stubborn struggle just now. But I may be wrong as I confess I don't understand the situation."

"Where am I going to get my coke? Just where I can. During the last strike we got coke from round Tacoma and from Vancouver island but these sources seem now to be choked with orders and are running behind them. I'll have to get my coke from the east, Duluth or Chicago. Of course, I will have to pay more. Last strike the coke cost us $8 a ton or therabouts and I suppose it will cost us that now. But with the high price of copper we can afford it. Even a low grade copper mine is in a different position now than it used to be. Take a mine running two per cent copper, that is 40 pounds to the ton. Now there is a deduction of eight pounds on this for losses in smelting.

"Then there is a constant charge of four cents a pound for converting, refining, transportation, marketing. This remains constant because the railways do not drop their prices when the metals drop in value. That is to say that the mine will get paid 17 cents a pound on 33 pounds in each ton. Where large quantities are mined this amounts to a very handsome thing and in consequently we cannot afford to shut down. The transportation charges are brought down to a minimum by the converting proces. We are not sending away a matte (running 40 per cent or more in waste material) but are sending copper 99 per cent pure. Whether we will ever go further and extract the gold and silver in that copper ourselves, is a question of costs and markets, and the problem has not yet been attacked. But we will be running eight furnaces next week whether the strike continues or not."

MARRIAGE OF BERTHA KRUPP

Essen, Prussia, Oct. 13—The civil ceremony of the marriage of Bertha Krupp to lieutenant Gustav von Bohlen Under-Halbach, took place today at the registry office of the village of Bredeney, near here. The proceedings were strictly formal, only the brother of the groom, and a cousin of the bride, Arthur Krupp of Vienna, being present.

The directorate of the Krupp works will on Monday on the occasion of the religious ceremony, present to all the employees who have been in the Krupp service for longer than five years, a ten mark ($2.50) gold piece; and to those who have served less than five years, a five mark ($1.25) silver piece, making a total of about $150,000 to be distributed among the workmen.

STREET CAR WRECK

Los Angeles, Oct. 13—W. Barratt was killed outright and 12 other persons were seriously injured, four of whom will probably die, when a crowded street car today plunged down a steep hill at Macey and Pleasant streets, at great speed and dashed into a telegraph pole.

CONFERENCE DEADLOCK

McBride Quits Because He Cannot Have His Own Way Entirely

Was Finally Induced to Return to Meeting by Premier Roblin of Manitoba —Chehalis Enquiry

(Special to The Daily News)

Ottawa, Oct. 13.—The deadlock over British Columbia at the provincial conference was broken this forenoon when premier McBride retired from the conference. This took place when the other provincial premiers offered to recommend $10,000 for ten years, as a special grant to British Columbia. He refused to accept this compromise and withdrew. This amount might have been increased if he had held out for that, but he stuck to his original propostion.

Later premier Roblin, Manitoba, succeeded in getting McBride to return to the conference.

British Columbia's premier was not present at the afternoon session.

(Special to The Daily News)

Vancouver, Oct. 13.—Official notification that the C. P. R.'s request for a rehearing of the enquiry into the Chehalis disaster had not been granted was received here today from Ottawa.

It is announced that Hon. L. P. Brodeur, minister of marine and fisheries, had decided not to consider the application of the railway company on the information before him. Whether this means that the application is dismissed for good is a matter of speculation.

AFTER THE THEATRE

New York Jealous Lover Shoots and Kills His Sweetheart.

New York, Oct. 13.—Margaret Bradley, aged 22 years, was shot and fatally wounded by Frank Reis shortly after midnight tonight, at 34th street and 8th avenue. Reis, who is 45 years old and lives in east 34th street, fired five times at the woman while she was walking with another man. Reis was arrested after a struggle.

For several years, according to the police, Reis had been engaged to the Bradley girl. Recently Hoffman, who boarded in the same house as Miss Bradley, frequently accompanied her to the theatre. Tonight he visited the house and was told by the boarders that the two were at the theatre. Reis went to 8th avenue and waited on the corner. Shortly after midnight he saw Hoffman and Miss Bradley get off an Eighth ave. car, and as they started towards Ninth avenue, Reis ran behind them and shot the girl.

SAFEGUARDING PETERHOF

Stringent Rules Now Enforced—Admiral Enquist to Explain

St. Petersburg, Oct. 13—The minister of the imperial court has issued an order forbidding officials and employes of the court to rent rooms to, or otherwise shelter, any persons without the special permission of the minister. The order is due to the arrest of Klepnikff and other terrorists at Peterhof on Sept. 28, and the discovery that many of the participants in the conspiracy were living unsuspected in the immediate vicinity of the palace. The police are searching for a second mysterious automobile, supposed to belong to terrorists which appeared in St. Petersburg recently.

The commission which is investigating the conduct of the reservist officers who took part in the battle of the Sea of Japan, has taken up the case of rear admiral Enquist, commander of the light cruiser squadron, who escaped to Manila. Enquist will be heard on Tuesday in justification of the withdrawal of his ships during the battle.

IMPORTING GAME BIRDS

Victoria, Oct. 13.—Thirty-six capercailzie (wood grouse) arrived here tonight from Scotland addressed to the Island Fish and Game club. The birds, which were forwarded via the C. P. R., are in first class condition and will shortly be set free in order to stock the woods of the south of the island with these celebrated game birds.

STOLE FUNDS OF O. R. T.

Montreal, Oct. 13.—Philipe D. Hamel, formerly secretary treasurer of division 72 of the Order of Railroad Telegraphers, has been found guilty in the court of king's bench of embezzling $8000 of the funds of the order. The trial lasted ten days and the jury was our hours in reaching a verdict.

COMMONWEALTH TARIFF CHANGES

Ottawa, Oct. 13.—A cablegram has been received from commencial agent Ross at Melbourne stating that the commonwealth government has abandoned the proposition to give Great Britain and New Zealand trade preference this session. The government has increased the duty on agricultural implements and machines. The duty on stripped harvesters is $77.66, which is almost prohibitory. On other implements outside of harvesters there is an ad valorem duty of 25 and 20 per cent.

FREIGHT RATES.

The Vancouver World declares that the wholesale merchants of that city are arbitrarily debarred from doing business in the Kootenays because of unequal freight rates. The contention is advanced that eastern wholesalers have such advantages over coast dealers that the latter cannot do business in the Kootenays at all.

Nelson wholesalers complain that there is so great a discrimination in freight rates in favor of the Vancouver wholesale merchants that they are practically shut out of markets virtually at their doors.

A comparison of freight rates from Nelson to Crow points and from Vancouver to the same points establishes beyond question that the Vancouver merchant has decidedly the best of it. If, notwithstanding this advantage, the Vancouver merchant is still kept out of the Kootenay market because of the still greater advantages granted the eastern wholesalers, then the situation in this province is certainly a grave one indeed.

We know that the C. P. R. discriminates against this province in the matter of passenger rates, a condition of affairs which largely accounts for the scarcity of labor in British Columbia today, and it would appear to be equally true that the C. P. R. is bent upon diverting the trade of this province to eastern merchants rather than to encourage the upbuilding of wholesale centres within the province.

Eloquent appeal is made to the Railway Commission to redress Vancouver's wrongs in this regard. It is entirely right that justice should be done to Vancouver merchants, but when the Railway Commission gets down to the work of redressing freight rate iniquities it must not overlook the gross discrimination enforced against Nelson.

EDITORIAL NOTES

The Sandon Mining Review is in high glee over the marked improvement in the mining industry in the Slocan. Speaking more particularly of the Silverton section, the Review says: "Six months ago no one would have believed that a revival in the mining industry was taking place, but today that pretty little lake side town is a hive of business. Most of the mines are being worked, and success has to be written in every instance. Consequently there is a big payroll behind the town, and the merchants are being rewarded for their practical example of faith in the future of the camp."

The Ottawa Free Press is vastly taken with the stalwart form of British Columbia's premier, Hon. Richard McBride. We are told that our Richard is the finest specimen of manhood in the conference and considering that he is a native born British Columbian, what else could the Free Press expect?

New Westminster board of trade, like its sister organization in Vancouver, has been discussing the labor scarcity problem. Members of the former board advocate the appointment in England of an immigration agent. This suggestion prompts again the question, what does our agent-general in England do for his salary?

"You, gentlemen, are judges of the high court of parliament. You are sworn and paid to act for the country, just as sir Thomas Shaughnessy is paid to act for the C. P. R., just as Mr. D. D. Mann is paid to act for the C. N. R. If you take gifts from sir Thomas Shaughnessy or Mr. Mann, you impair your power to protect the people against the companies which your benefactors represent. You put yourselves in the position of a judge on the bench who takes gifts from a litigant whose case he will have to decide." The foregoing is the rebuke R. L. Borden did not administer to Foster, Fowler, Pope, Lefurgey, et al., and which, in the opinion of the Toronto Telegram, he should have done.

FOREST FIRE DAMAGE SUITS

Engineer Prendergast's Cross-Examination Continued Yesterday

Paul S. Prendergast, engineer for the Crow's Nest Southern railroad, who had charge of the clearing of the right of way done by the various contractors during the summer of 1904, during which clearing occurred the disastrous lumber fires for which suit is now being brought by the Fernie and Elk Lumber companies, was the only witness before the supreme court here in its session of yesterday forenoon. The examination of Mr. Prendergast in chief had occupied a considerable portion of last Thursday afternoon and yesterday his cros-examination, begun on Thursday, was continued by E. P. Davis for the plaintiffs.

Witness had stated in his examination in chief that there had been other fires than those on the right of way during the summer and was now pressed close as to whether he thought those fires had anything to do with the burning of the timber limits of the plaintiffs. This witness would not swear to, but he declared that he thought that they were a factor in the conflagration.

Coming to the alleged refusal of subcontractor Quaiffe, from whose right of way the fire is admitted to have escaped, but who cannot be found, to take assistance from the Elk river lumber company in clearing his sections, Mr. Prendergast said that he did not believe the statement as Quaiffe was not that kind of a man.

Asked as to why the brush could not be piled on the right of way and there left until the autumn for burning, witness claimed that this would be too expensive. Chief justice Hunter said he did not see why this should not be done as then there would be no danger of fire, after rain had fallen. Witnes, however, was of the opinion that the expense incurred in this delay would be too much and maintained positively that the only possible system of clearing right of way was to clear it in the summer time and burn it at once. The dangerous part of the fire was the cut brush and tops and it was no use reserving the logs till the fall unless the smaller stuff could also be reserved.

Court then rose until 10:30 tomorrow morning.

HARVEST FESTIVAL SERVICES

Methodist Church Elaborately Decorated for the Occasion

The elaborate and sumptuous decorations of the Methodist church, which have been prepared to celebrate the ingathering of the harvest, are sure to prove very attractive at the harvest festial seriees to be held today in that church.

The wealth and profusion of flowers and fruits is a striking evidence of the rapid and almost incredible progress Nelson is making in the production of these things. Amid such a display it is possible to overlook the exceeding beauty of the detail. The panels of the pulpit have been filled with fruit; flanking the pulpit are two fruit arches, within which hang horns of plenty, aptly telling of the bountiful measure of prosperity that the west is now enjoying. Altogether the decorations form a display that is a credit not only to the church within whose walls it is found, but to the city and district of Nelson that can produce such materials. The ladies are to be congratulated on the handsome results of their labors.

GOVERNOR GENERAL'S MEDAL

Olaf Austad, of Trail, Carries Off Nelson High School Award

The first of the silver medals to be donated annually to the student of the Nelson high school making the best standing during the year has just been received from the Education department. The winner for 1905 was Olaf Austad, of Trail, who obtained over 75 per cent of the marks obtainable, leading the whole province by a large margin. This performance was but a repetition of that of 1904 when he also led the province in the intermediate examination, his nearest competitor being his own classmate, Grace Allison. What makes his success all the more creditable is that he did not begin his year's work till late in November last year.

The medal is two inches across and will make a fine memento of the occasion. On the obverse side are the heads of earl and countess Grey, both excellent likenesses, with the legend "His Excellency, Earl Grey, G. C. M. G., and Countess Grey." On the reverse appear the arms of the governor general with the words "Presented by His Excelleny, the Governor General." around the margin.

BANQUET AT MOYIE

Rousing Send-off Given Retiring Secretary T. E. Kelly, of Miners' Union

(Special to The Daily News)

Moyie,k Oct. 11—A farewell banquet was given last Monday evening at the Central hotel to T. E. Kelly, retiring secretary of the Miners' union, on the occasion of his leaving for his ranch near Pincher Creek, where he purposes having buildings and fences erected and making other improvements which require his personal attention. The banquet commenced at 10 p.m., with F. J. Smyth of the Moyie Leader, in the chair, and J. L. Gibbons, president of the Miners' union, as vice-chairman. The spread was worthy of the occasion, being remarkably fine. The following is the toast list.

1. The King.
2. The president of the United States.
3. Our Dominion; responded to by A. P. Macdonald.
4. The bachelors; responded to by Andy Johnston.
5. Our American cousins; responded to by E. O. Kamm and W. J. Williamson.
6. Does union help the workingman? Responded to by James Roberts.
7. Our guest; respounded to by J. L. Gibbons.
8. Should the shoemaker stick to his last? Responded to by R. A. Smith.
9. Hose races and stop watches; responded to by C. A. Foote.
10. Our town; its future; responded to by Robert Campbell.
11. Mining; responded to by W. F. White.
12. The ladies; responded to by R. O. Patterson and L. E. Macgregor.
13. Mine host; responded to by the chairman.

A. P. Macdonald, Charles McDonald and others enlivened the proceedings with some choice songs, and Harry Polson played many fine selections on the piano. The gathering was thoroughly representative.

COAST LUMBERMAN

Tells of Situation on the Coast—Plenty of Timber Still Available

W. Marriott, representing the Pacific Coast Lumber company, is on a visit to the interior. Speaking yesterday to a representative of The Daily News, with reference to the lumber situation at the coast, he said that in his opinion conditions were better than they were. There was no longer, as far as the provincial lands were concerned, any possibility of crown granting timber limits and so keeping such districts tied up for years. This might yet be done with the dominion lands, but with those he was not as closely in touch. According to the new provincial laws timber might be leased for 21 years and during that time the loggers' license had to be renewed annually. The license would only be issued on a section as the lowest unit and on each acre in that section, 640, at 22 cents an acre, a year, is charged by the provincial government. Whether the land is logged or not the rental of 22 cents per acre over the whole block is charged just the same and if, because a portion of the section is logged out, the lessee drops his payments his lease is vacated immediately and the land reverts to the government with whatever timber is still left uncut on any portion of the section.

Mr. Marriott suggested that this charge prevented the wholesale holding of lands for speculation. While $140 per annum was not an extreme tax to pay on any one section yet when the limit contained many sections, say 100,000 acres, the annual tax amounted to $22,000, and unless it was kept up year by year that limit would lapse. Just as soon as timber began to be logged, however, there would be an additional tax in the form of 50 cents stumpage per thousand feet on the logs got out.

Land had recently been taken up in large quantities by many people but there is still plenty left, according to Mr. Marriott. Not only is there existing a vast reserve of timber on Vancouver island, but timber still is to be found in great quantities for at least 150 miles up the coast, along the Skeena and elsewhere. The bulk of the supply of timber of British Columbia, Mr. Marriott thought, is still to be found at the coast and the coast was unrivalled when it came to the finer grades.

If you want to buy Fruit Land see me.
That is my business.

ZINC ORE IN THE GREY COPPER

J. A. Whittier has struck a nice body of zinc ore on the Grey Copper. In the old workings there is a fot of this ore, and a tunnel was started a few days ago to tap the ledge at good depth. This has been accomplished and the ore shoot has widened out to two feet and a half, says the Sandon Mining Review. Present indications point to the vein being even wider below. The ore assays as high as 57 per cent zinc.

THE RICHEST FLAVORED TEA

The choice leaf from which Blue Ribbon Tea is selected is grown on the celebrated "hill" plantations of India and Ceylon. It is therefore very much better than tea grown in the lowlands where it is so hot and moist that the leaves grow coarse, rank and ill-favored. None of these inferior leaves are ever allowed in Blue Ribbon.

On the hills in the interior where the air is cool and the land well-drained, the plant grows more slowly and extracts all the richness from the fertile soil. The leaf is less abundant, but is small and tender, with a rich and most exquisite flavor.

The very choicest of this hill grown leaf is selected for

Blue Ribbon TEA

The rich full flavor which has made Blue Ribbon Tea famous throughout Canada is the result.

If you appreciate a really choice tea try a pound of Blue Ribbon. 50c a lb.

STOCKS FOR THE WEEK

B. C. STOCKS NEGLECTED IN FAVOR OF COBALT

BOUNDARY COPPERS CONTINUE IN HIGH FAVOR

(Reported by B. B. Mighton & Co.)

The recent activity in the shares of B.C. for the two weeks immediately preceding abated somewhat during the last week in this immediate vicinity, but the Boundary copper stocks experienced even greater advances than were expected. Eastern markets have become more interested in the stocks of the Cobalt camp and in consequence, stocks of this district have been to an extent neglected, with a consequent weakening. The decline on those markets was taken advantage of by the buyers of this vicinity and a number of stocks found their way to western buyers. The Spokane market continues very active but the stocks of the Coeur d'Alene have become the more attractive there to investors, and have slightly overshadowed the securities of Alberta and B.C., dealt in on that exchange.

Dominion Copper opened at about $5.50 and advanced rapidly until it is now holding firm at 6.75, with no sign of breaking. While this stock may decline a point or two on the reaction, an upward tendency is always exhibited, and a steady advance is predicted until par is reached.

B. C. Copper was traded in at about $13 at the beginning of the week, and within the next three days advanced to $15, though it weakened somewhat in the last two days, until it now stands at $13.50. Granby, since the annual report was published, advanced to $15.25, but again declined and is now holding firm at about $14.50. American Boy, in consequence of the renewed activity at the property, is holding very firm and an advance is not unexpected, within the next two weeks.

Denoro Mines continues very firm with a good demand and an advance is expected within a month or so. North Star weakened somewhat on eastern exchanges, but still holds firm in this vicinity and all the stock offered below the market is readily taken up. This demand is coming principally from the investors in the immediate vicinity of the property, who show great confidence in the future of the mine. Rambler-Cariboo opened very weak, but has advanced five or six cents within the week, and is believed will reach 40 cents within ten days.

International Coal remained weak in consequence of the rumored strike by the miners and shows every sign of declining still further, until a definite understanding has been reached on this question. Cariboo-McKinney, Consolidated Smelters, California and Sullivan remain very firm though almost unchanged.

Folowing are the approximate quotations for the week ending yesterday:

	Asked	Bid
American Boy	$ .4	$ .3¼
Alberta Coal	.40	.35
Belcher	.50	.45
B. C. Copper	14.75	14.25
California	.6	.4
Canadian Goldfields	.7½	.6½
Cariboo-McKinney	.2¾	.2
Consolidated Smelters	140.00	135.00
Denoro Mines	.7¾	.6½
Diamond Vale	.22	.20
Dominion Copper	6.75	6.25
Giant	.2	.1
Granby	14.75	14.50
International Coal	.56	.54
Jumbo	.19	.17
La Plata	.25	.20
Monte Cristo	.3	.2½
North Star	.28	.25
Pathfinder	.4	.3
Rambler-Cariboo	.34	.32½
Rocky Mountain Dev.	.65	.60
Sullivan	.12	.10
Tel-Kwa	.20	.15
Virginia	.4	.3
White Bear	.10	.9
Western Oil	.19	.17
Yale-Kootenay Ice	.9½	.9

IMPORTANT ANNOUNCEMENT

We have secured the services of Col J. B. Quin and J. J. Blumer to assist in the disposal of a line of publications recently secured from the creditors of the Munroe Publishing company, bankrupt, of San Francisco

The stock consists of valuable reference works, New Americanized Encyclopedia Britannica, works on history, natural history, oratory, art and science; and complete editions of many English, French and American authors—all superbly bound in leather

It affords us a chance to offer our customers as handsome a line of libraries as could be found in any city in Canada or the United States at less than half the publishers' prices.

If interested telephone No. A81. This stock is very limited and we advise prompt action. The sale of these editions will positively be closed this week. Canada Drug and Book company.

DIED

In this city, Oct. 12th, Alfred J. Miller, 58 years of age. Funeral 3:30 p.m. Sunday from the English church.

Victoria papers please copy.

Minard's Liniment Relieves Neuralgia

WOUNDS, BRUISES AND BURNS

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one third of the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic and when applied to such injuries causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the suffering and inconvenience such injuries entail. For sale by all druggists and dealers.

Minard's Liniment Cures Burns, Etc.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Try Sunlight Soap and follow directions.

OVERCOATS AT COST

We Are Closing Out Our Stock of Overcoats

YOUR OPPORTUNITY IS RIGHT HERE AND NOW

to buy an overcoat or raincoat at a price that it will not pay you to wear your last year's coat this season.

$9.00 Will buy a swell short Overcoat in the latest stripe effects, first class mohair linings, regular price $15.00.

$11.00 For Cravenette Raincoats, full lined, suitable for Overcoat or Raincoat in plain greys, tweeds, stripes and overcheck patterns. These coats have never been sold for less than $20.00.

$16.50 Buys the best Overcoat ever shown; black and blue Beavers and stylish tweed patterns, mohair lining, silk velvet collars.

Quality considered these prices beat anything that has ever been offered in Nelson. We want to close out this line at once and give you an opportunity to purchase Overcats at cost price. Before a coat leaves the store we will guarantee that it will fit the purchaser.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for a woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, scalding or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the female organs. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all bad symptoms have disappeared.

"I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it."

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

"I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it: and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly."

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

OF INTEREST TO MINERS

STOCKS AND STOCK-WORKS

Cavernous spaces dissolved out in such rocks as limestone or caused otherwise, may be of indeterminate shape and may be filled with one or more ores or gangues, either in adjoining zones following the outline of the walls, roof or floor, or in parallel or roughly horizontal bands. Irregular masses of ore of this kind have long been known in Germany by the name of "Stocks" when of a large size, smaller bodies being known as cones and tufts. The size of these accumulations of ore varies from small bunches up to masses 1000 feet or more in length by 200 feet or more in breadth. Hematite and galena frequently occur in this form in limestone, as in the "pockets" of hematite and of galena found in the carboniferous limestones, notably in the ore "chambers" of the Eureka mine in Nevada and the Emma and Flagstaff mines in Utah from which in recent years vast quantities of ore have been taken.

The "gash" veins of galena in the north of England occur in upright joints of limestone which have been widened by solution and are sometimes completely cut off underneath by the floor of shale or sandstone on which the limestone lies.

Rounded and oblong bodies of ore and gangue found in granite cannot be due to the infilling of chambers dissolved by subterranean solution. These bodies are usually connect d with true fissure veins; but their mode of origin is not well understood. They are called "carbonas" by the Cornish miners.

Stock-works are portions of the country rock so charged with veins, nests, tufts and impregnations of ore, that they can be worked as ore deposits. Frequently a succession of such deposits are to be observed in the same mine. Amongst the granites and slates of Cornwall the tin ore has been deposited, or separated out in rudely parallel "floors", in some instances these floors, which lie at the side of the ordinary veins, measure from six to ten feet in thickness and from twenty to forty feet broad.

A Chimney is the term applied to a rich portion of a vein, especially when it has considerable vertical extension. The ore in a vein is said to occur in chimneys when the rich portions are somewhat continuous and have a definite direction. If there are several such chimneys they are expected to be and occasionally are, roughly parallel with one another.

A chimney or ore may be a "bonanza" if large and rich enough, but the latter term carries no idea of expected regularity, while chimney does.

ORIGIN OF MINERAL VEINS

Many theories have been proposed to account for the infilling of mineral veins. The most noteworthy of these are, first, the theory that teaches that the substances in the veins have been obtained from the surrounding rocks by a process of leaching or solution and redeposit; second the theory of infilling from below. According to the latter theory the ores and minerals may have been introduced in either one of three different ways: (1) dissolved in water or steam; (2) by sublimation; (3) by igneous fusion or injection.

CORRESPONDENCE

M. H. L., Ymir, B. C.—The sample sent you by the smelter is supposed to check with the results upon your shipment given by them. The sample is what is commonly called a "control sample," that is a control upon the smelter. A third sample is taken at the same time, which is sealed down and only used in case of a dispute, when it is sent to an umpire whose decision is final, and upon whose decision payments are made. You should send your samples to a reliable assayer to check against the smelter. If any difference occurs between the results obtained by your assayer and the smeltr, ask them to repeat their assay (which they will willingly do). If no alteration is made you can then demand an umpire. When you do this you must send the results given by your assayer to the smelter. It would be best to send the names of two or three assayers whom you would be willing to submit your sample to for umpiring. The smelter will then choose one of these and send the sealed sample to him. It is commonly understood that both parties must absolutely rely upon the umpire's results, whatever they may be. Should the umpire give less than the smelter you will have to pay the fees and refund the smelter the difference, at the same time if the umpire gives more than the smelter gave, then you will receive the additional amount.

M. L. W., Sandon, B.C.—We do not usually reply to correspondents that send initials only; you should send your name and address with all communications, and place any initials you desire after them, or we will use your initials only. The dyke rock you send belongs to the serpentine group. It has been considerably weathered and an absolute statement cannot be made; probably with depth you will find a true serpentine.

F. L., Kaslo, B. C.—Your No. 1 sample is micaceous schist. No. 2 slate only. No. 3 a talcy substance. No. 4 talc, with galena and blende intermixed.

J. W., Sandon, B. C.—Your letter dated 6th instant, postmarked Silverton the 8th, is the first we have received from you since you sent the samples early in September. Your assay certificate has been sent to Sandon under the name given. You will quite see the cause of delay was not on our part.

F. T., Salmo, B. C.—The sample you send for examination is psilomelane, which is an oxide of manganese with potash and baryta present. You will notice the distinguishing features are: that it is bunched up like small grapes; it is iron black in color; it has a brownish black streak; and has a semi-metallic luster. Its hardness is about 5.6.

S. D., Ymir, B. C.—It is impossible to give even an approximate "guess" of the amount of gold carried in the porphoretic quartz you send. An assay must be made to determine the amount of gold present; for this the fee will be $1.00. Your sample will be kept 10 days.

T. G., Greenwood, B. C.—Your sample is a piece of chalcedony, slightly inclining to agate-chalcedony. The sample sent has no commercial value, though occasionally for an exceptionally good quality of this rock a good price can be obtained.

T. S. Creston, B. C.—It is impossible to state anything about the carbonates you send as you give no particulars. A rough examination leads us to believe that they contain a fair percentage of lead. In that case it would be advisable to assay them for silver and lead, possibly gold as well.

G. L., Salmo, B. C.—We fail to find any indications of native copper in your rock, and do not see any justification for your making the statements that there is. It may be that upon an assay being made copper will be found to be present but as far as native copper is concerned there is none there.

Your Type.

Your physique is known to us as a type.

Certain physical changes we take care of when we fit you.

AND WATCH THEM GROW

Taste WINDSOR TABLE SALT. Does not "bite"—is not bitter. It is pure salt and all salt. Will not cake.

Canned Meats

LAING'S

served in

B., Cranbrook, B. C.—Your sample is plain quartz, slightly iron stained in parts. It may carry a little gold, but that is doubtful.

A. M., Erie, B.C.—Your No. 1 shows zinc present in the form of blende, there is also galena and pyrites present. No. 2 may or may not carry zinc; being an oxidized ore it is impossible to say anything definite without an analysis. The fee for a zinc determination will be $2, and we will keep your samples 10 days unless we hear from you previously.

H. T. A., Slocan, B. C.—Your sample is apparently stibenite. The distinguishing features of stibenite are its hardness 2 (very soft); its lead gray or blackish gray color with the same streak; its shinging metallic lustre; its perfect cleavage; and in this instance its needle like crystals of a lead gray color. It would be advisable to have your sample assayed for antimony and silver, the fee for this will be $6.00.

W., Ainsworth, B. C.—No. 1, read reply to A.M. and others regarding oxidized ores. No. 2 is pyrrhotite; it may contain a little gold. Impossible to state about nickel without having an assay made.

F. McD., Nakusp, B. C.—Very little can be said about your ore as it is crushed down. It is a silicious rock with specks of galena, pyrite and blende in it. It may be advisable to have it assayed for silver and gold.

Z., Castlegar, B. C.—To determine the quality of the clay you submit, an assay will have to be made, the fee for which will be $10.00. This will not be a complete analysis, but will be sufficient for any points you ask about. In case you desire an assay made please send a larger sample along with the fee.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

MORTGAGE SALE

UNDER and by virtue of the powers of sale contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by public auction on Saturday, the 20th day of October, 1906, at the hour of 12 o'clock, noon, at the Hotel Hume, corner of Ward and Vernon streets, Nelson, B.C., by Messrs. Charles A. Waterman and company, the following described property, viz:

Lots numbers fifteen (15) and Sixteen (16), both in Block number ten (10), being part of the subdivision of Lot number 36, Group one in the District of Kootenay, British Columbia, and known as the Hume addition to Nelson, B.C., according to a map or plan deposited in the Land Registry Office and numbered 236B.

Upon the said lands is erected a large and commodious dwelling house in first class order, with city water. This property is not far from the business portion of the city.

Terms and conditions made known at the time of sale or in the meantime upon application to

EDWARD A. CREASE,
Mortgagee's Solicitor.

Dated at Nelson, the 17th day of September, 1906.

"Kootenay" Steel Ranges

MORE "KOOTENAY" STEEL RANGES ARE SOLD IN OUR GREAT CANADIAN WEST THAN ALL OTHER MAKES OF STEEL RANGES COMBINED

Burns, coal, coke or wood equally well.

Cooking surface is in four pieces, to stand contraction and expansion without cracking, and has four or six cooking holes, as desired.

Oven is lined with asbestos, which retains all the heat for baking and prevents it escaping from the range.

Has large, roomy, handy feed pouch.

Cut shows range Square with High Closet, made with or without reservoir, high shelf, high closet, or with any combination of these parts.

If you need a range be sure to see the "Kootenay" at your dealer's, or write direct to our nearest office.

All joints are made perfectly air tight by the use of stove cement.

Flues are broad and deep and encircle the entire oven.

Fire-box is deep and broad and can be supplied with either coal or wood grates, or both.

Repairs are seldom needed, but when they are, which is inevitable with eveay stove, you know where to get them—in Canada.

DOUKHOBORS' PROGRESS

LEADER VERIGIN TELLS OF THEIR ACHIEVEMENTS TO DATE.

THOROUGHLY SATISFIED NOW AND DOING VERY WELL.

Winnipeg, Oct. 13.—Interviewed today, Peter Verigin, the Doukhobor leader, who is on his way to Russia to visit count Tolstoy, gave some interesting particulars of the progress being made by his countrymen in western Canada. He said:

"So much unjust criticism has been aimed at the Doukhobors recently that a true accounts of their doings is necessary. The past season, from April 15 to October 10, 800 of our number were employed on railway construction work and 75 teams on the Grand Trunk Pacific. Every man available whom we could spare from our holdings was employed on construction work.

"I do not think, however, we will do any construction work next summer, but will concentrate our energies on our holdings. The following summer, however, we expect to again do construction work, as we have found that this employment is satisfactory to all of us.

"The past summer we have erected at Verigin a $35,000 roller flour mill, the first story of which is solid cement on cement piers. The next two stories are of cement blocks and the fourth story is of timber and brick.

"We also have two brick yards, one at Verigin and one at Swan river, while we manufacture our own cement blocks at Yorkton. Settlers outside of ourselves have seen the satisfaction these cement blocks have given and many of them intend using them in future construction. We have constricted a spur track ourselves to the yard at Verigin and this has proved a great convenience.

"Work on a 50,000 bushel elevator will be commenced in the immediate future, which will be in readiness by spring.

"We have at present telephone connections with Swan river and the work of connecting all our villages with the system is now in progress. We also intend installing electric light plants in several of our villages. We had intended using kerosene, but we think electricity less expensive and far more convenient.

Forty or fifty schools are to be erected, where the young of our settlements will receive an English education. Already five or six schools are operating, but we intend employing lady teachers exclusively, as we think the scholars will become more attached to female than male instructors. Our schools will hardly be ready for opening until I return in the spring. On Sundays these schools will be used for places where we will worship in our own faith.

"The 22 villages, of which Verigin is the centre, are connected by graded roads built by the Doukhobors themselves, with the Swan River colony, which contains 18 villages, and the Good Spirit colony, which includes seven villages.

"Harvesting has been considerably delayed by the absence of the men on construction work, but now that they are released, farming operations will be rushed. The yield from what has already been harvested has proven very satisfactory, many of the fields running 30 bushels per acre. An average of about 22 bushels, it is expected, will be reported."

To the question as to the probable repetition of dissatisfaction which once prevailed, Mr. Verigin replied he had no fears.

"Our people," he said, "were formerly anxious in mind. They did not know the future the country had in store for them, and naturally were dissatisfied. They are so prosperous now, however, and see that the present prosperity is likely to continue, that I have little fears of further trouble."

NEW YORK FASHION LETTER

New York, Oct. 13—I must tell you of the newest thing in sleeves that has just come out; it is called the "Sling sleeve" which comes from the manner of its draping for when the arm is slipped through it, it has the appearance of a sling; a sling, or course, that is very graceful, and attractive, which though it might suggest "first aid" is so pretty and novel that it promises to be a favorite with the woman who is looking for novelties.

The description given me by one of our designers is fetching: "The sleeve is either plain or folded, cut circular, put into the arm without fullness and drawn towards the underarm and slightly caught up there to give the sling effect. There is no underarm seam. The edges are left apart, but joined by bands of velvet or braid or stitched straps of the cloth. In length it comes below the elbow as all correct sleeves for this winter should do. The hem is very open and loose, without flaring. It is finished with a band of velvet or cloth. Usually the edge of this is trimmed with frills of plaited lace or ribbon or hand embroidery. This especial kind of trimming is used a great deal on every kind of sleeve, especially those that have the French make and finish."

If this sleeve is considered too unprotective for the cold weather, because of its openness at the back and the bare wrist, many women overcome this objection by putting in a fancy colored lining; and if the sleeve material is very thin, such as lace, lingerie, thin silk, etc., two linings are used the first of some warm silk or wool, or other material over which is a fancy lining of solored silk to harmonize with the gown and over this is draped the sling sleeve. Such sleeves are a relief to an otherwise plain gown, and they have the recommendation of being new and very stylish, which will make it popular for theatre and reception wear.

There has been a good deal of dispute over the empire dress and coat, but at last the designers have come to the conclusion that it shall stay with us for this season at least. Certainly there are modifications that the ladies of the French court would never recognize and probably would deem a detraction from that classic mode so much effected by them but the styles suitable for a French court are not adapted for the hustling life of the modern American woman, who seldom plays the doll; whose life is spent in the strenuous affairs of life which keep her even more busy than the most ardent "little diplomat" of the old days.

Some of the changes are the tight fitting lining, which curves at the waist line like the princess dress and really gets its name from the bolero which hangs losely about the shoulders and bust. And the newest modification is the sling sleeve just described above. For dressy wear in a carriage, at a reception, the theatre, or any place where dignity, style and long graceful lines are needed, it is certainly the dress to wear, if the woman is not too fleshy; the tall woman of good form, even the short woman if not stout may wear it, but flesh, never. It was designed for a woman of the Diana type, and proportion is its first requisite.

The coats of the empire style are certainly very beautiful when made in some beautiful clinging goods such as some of the heavy close silks, that keep their place while the bolero is of heavy fine lace, some of which represents a small fortune in itself. Then there are the beautiful enamelled or jewelled buttons that are used, and these cost another penny. Altogether the dress coat is a rather expensive affair and is seldom easy to make for the home dressmaker, indeed, coats are even harder than the dress for the fingers of the amateur and nearly always show her trade mark.

The short coat of the winter styles is not cut off as those of the summer ones were, and are a little below the waistline. Some of them are belted in large bone buttons or fancier ones for dressy coats are used to fasten those jaunty little garments, which are single breasted, but may have a pointed lap over to the left side from the right, or tabs, or else straight straps down the front. Remember the belt should be narrow, three inches being considered the limit for the widest, some of which are of leather which gives quite a natty appearance to a street costume but is not suitable for those intended for dressy wear. All the coats seen so far fasten in front with buttons close to the throat and indeed there are some that are quite military in the style of collar, but are not popular for wear with the fancy blouses or one that has a pretty collar, of course, it is better taste with such a jacket to wear a tailored blouse.

CATHERINE MANN-PAYZANT.

Minard's Liniment Relieves Neuralgia

NOTHING TO FEAR

Mothers have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones as it ontains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but it is a medicine of great worth and merit. POPE'S HEALTH EXCELLENT

Rome, Oct. 13—The pope, who is in perfect health, received many people in private audience today, including archbishop Mazzella of Rossano, Italy, and the right reverend E. Girouard, apostolic vicar of Athabasca, Canada, questioning the latter lengthily about the condition of the church in Canada.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FIT REFORM WARDROBE

PRICE OF METALS.

New York, Oct. 13—Silver, 69 1-2; casting copper, 19 1-2; lead, $5.75.
London, Oct. 13—Silver 31 1-8.

NELSON'S NEWS OF THE DAY

Finlay McLeod is leaving this evening for Vancouver.

E. Harrup has started a store on the lake side at 15-Mile.

Copper is quoted at 21 cents a pound, the highest price for half a century.

W. S. Drewry has purchased the residence of W. G. Brown on Stanley street.

Rev. E. H. Shanks left for Rossland last night to supply the Baptist pulpit there today.

Good fishing was reported yesterday afternoon in the lake close by the city, especially off the shipyard.

Rev. F. B. Marks, pastor of the Baptist church at Rossland, was married at Waskada, Man., on Tuesday last, and with his bride will return to Rossland this week.

W. B. Shaw, local manager of the C.P.R. telegraph office, retires from that position tomorrow to join the staff of P. Burns and company. He will be succeeded by R. L. Coombs of Vancouver.

On and after Dec. 1, 1906, the C.P.R. royal mail Empress and "Lake" steamers will sail from West St. John to Liverpool instead of from Montreal and Quebec, as previously, the winter service then taking effect.

Rev. C. Padley, until recently pastor of the Baptist church at Lethbridge, has been appointed by the B.C. mission board district missionary and has removed his headquarters to this city. Mr. Padley will preach in the Baptist church today.

A new time table goes into effect this morning on the Nelson and Fort Sheppard railway. Train will leave the union depot at 8 a.m., and Mountain station at 8:37 a.m., reaching Spokane at 5 p.m. Returning train will leave Spokane at 10:15 am., reaching Mountain station at 6:55 p.m. and union depot at 7:25 p.m.

The funeral of the late A. J. Miller will take place from St. Saviour's church at 3:30 this afternoon. Kootenay lodge No. 16, I.O.O.F., has charge of the arrangements. Deceased was a life member of the Sons of England as well as an Oddfellow and a Mason. All members of Kootenay lodge No. 16, I.O.O.F., and visiting brethren are requested to meet at their lodge room this afternoon at 3 o'clock sharp for the purpose of attending the funeral of the late Bro. A. J. Miller.

A football practice will take place on the recreation grounds at 6 o'clock tomorrow morning.

Mrs. E. J. Martin and family, who have been visiting D. J. Robertson for the past few weeks, leaves tomorrow for Vancouver.

The cut rates of the C.P.R. to New Zealand exhibition have attracted so much attention locally that five people are now figuring on leaving on the November steamer.

There will be a meeting of the executive committee of the Churchmen's club tomorrow evening for the purpose of drafting a schedule for the winter entertainments.

The entertainment committee of the 20,000 club will meet tomorrow morning at 10 o'clock at the Standard Furniture store. The net returns of the late concert are now stated to be under $25.

Mr. and Mrs. Hamilton of Regina, who have been visiting their daughter Mrs. F. Ingraham, in this city, have decided to settle in this province and have in consequence purchased a home in Victoria.

The committee on the school sports on Thanksgiving day met last night and drafted a provisional program which is now being elaborated. The football match has been included as a part of the day's fun. A small entrance fee of ten cents will be charged.

The last batch of invitations for the flannel dance on Thanksgiving day was sent out last night. Anybody inadvertently overlooked will please acquaint the secretary of the cricket club with the misdemeanor. Irwin's orchestra of four pieces, cornet, clarionet, violin and piano, has been engaged for the occasion.

The regular meeting of the university club was held last evening with a much better attendance than at the last session. R. J. Clark read the paper of the evening on the "Evils of National Prosperity." In dealing with this subject Mr. Clark had more particular reference to material prosperity. He spoke of the nations of former times increasing in material development and then declining from the zenith of their power. He was of the opinion that the British nation is declining mentally, morally and physically and asked whether anything could be done to stop the decay or is it inevitable. Answering his own question, Mr. Clark thought the decay was due to sins of both ommission and commission and therefore the remedy lay with the people themselves. He did not, however, suggest any remedy. The discussion that ensued was very general, some agreeing with the speaker and some taking the opposite view.
