LORDS AND LIBERALS

Greatest Struggle of Century in British Politics is at Hand

Upper Chamber's Rejection and Distortion of Government's Measures Makes Conflict Inevitable

London, Nov. 23.—Great Britain is fast approaching the greatest political struggle she has had in a hundred years. That contest will determine whether the house of lords shall remain an unreformed tory chamber, ruthlessly mutilating or destroying outright all the measures sent up by a liberal government.

The Education bill, under which the liberals sought to establish popular control of all the schools, denominational or otherwise, that receive state grants, has been turned inside out and altered beyond recognition in the house of lords. Yet education is not the question on which this great and popular agitation is coming, for the people of the country take small interest in that subject.

The government also sent to the lords a bill to abolish the plural voting system, under which some property holders have as many as twenty votes in different constituencies. Elections are decided in thirty constituencies by non-resident property voters and always turned to the tory side.

Then there is the land tensure bill, giving tenants some security against rapacity of landlords and a right to equitable compensation for improvements made with the tenants' labor and money. Besides there is the Trades Disputes bill which restores the law to what it was until five years ago, when the house of lords, acting as a judicial tribunal, held a trade union's funds responsible for the loss incurred by coal owners owing to a strike organized by the union.

The Education bill is already lost for compromise upon it is impossible, and the lords are expected to reject offhand the Plural Voting and Land Tenure bills. But it is believed that they are hesitating about throwing out the Trades Disputes bill, because they are afraid of provoking the trades unions to throw their whole weight into the scale against them in the approaching struggle.

The government does not propose to appeal immediately to the country, but will keep on sending bills to the house of lords, compelling that chamber to fill the cup of its misdeeds, and then, when there is a great accumulation of rejected popular measures, to start a campaign for abolishing the upper chamber as it is now constituted. However, it needs a great leader to conduct an epoch-making campaign like this to victory, and the liberal party has yet to find the man, for the occasion is fast ripening.

WHERE MAN HAS FAILED

WOMAN TO MAKE DASH FOR THE NORTH POLE

MRS. ELLA OUGMAN TO START WITHIN A MONTH.

New York, Nov. 23.—"Somebody has got to find the North Pole. The men who have gone searching for it have failed. I'm going to try and I think I shall succeed."

This is the confident assertion of Mrs. Ella Ougman, explorer and anthropologist, who is making ready at Nome, Alaska, for an expedition "farthest north." Photographs of this plucky woman and some of her interesting relics that will accompany her on the hazardous trip have just reached New York.

Mrs. Ougman is well known at Smithsonian Institution, Washington, for her determined exploits in Alaska and other parts of the northwest, where she has for several years been studying the habits of the Eskimos. She is regarded as an expert on the Innuits, as the Eskimos are known, and her collection of Eskimo curios is considered the finest extant.

Mrs. Ougman expects to start within a month and believes she will return to home well inside of two years.

This newest of the explorers will have Eskimos as her only companions. She understands the Eskimos thoroughly, speaks their language as fluently as she does her mother tongue and considers that they will be best able to withstand the temptation to dig for gold in he Klondike and stick to the object of the expedition.

"I would have recruited a few sterling white men," said Mrs. Ougman, "if I could found any proof against their falling victims to the gold fever. I have not arranged this trip for the purpose of making money out of it. It is not gold we shall seek, but the elusive north pole—that and nothing else. I cannot afford to take any possible deserters with me. I know the Innuits and they are faithful. Those who will go with me have sworn that they will stay with me to the end of the trip, and I know they will do it. Besides this, no white has the endurance that the Innuits have and of all things endurance counts in a trip to the Arctic.

Mrs. Ougman is known to the Eskimos as a man. Although she wears skirts, the unsuspecting Innuits have always been led to believe that they are donned simply to keep her warm. The Eskimos do not trust women as they do men and if they suspected that the leader was of the weaker sex they would not follow her.

The Eskimos allow me many privileges they would not think of allowing women," said Mrs. Ougman. "For instance, they allow me to enter their burying grounds—a thing no woman no native born is ever permitted to do. In this way I have gathered all manner of things from the treasure buried with the Eskimo dead. On the trip to the pole this will be of much importance to me. It will be my object not alone to look for the pole, but to study the habits of the different Eskimo tribes we meet."

The expedition will start on sledges, drawn by Eskimo dogs. At the Eskimo settlement farthest north in the journey the sledges will be loaded with food. There will be enough, Mrs Ougman says, to last 24 months. Should the commissary supply by any chance give out there will be some extra dogs.

Mrs. Ougman has the distinction of being the only woman who has seen Mount McKinley, on the heights of the snowy Alaskan range. With a party of explorers she pushed up the Yukon valley two years ago and stood at the base of the mountain. The climb to the peak of Mount McKinley is 17,000 feet.

"There won't be any chance of fatigue on this trip," said Mrs. Ougman. "I have had experience in the awful cold of the Alaskan country, and know how to keep warm. This time we will pass Mount McKinley and continue north."

CAPITALISTS WANT CUBA

PLAN TO SECURE EXTENSION OF AMERICAN PROTECTORATE

ENGLISH, CANADIAN AND AMERICAN INVESTORS INTERESTED

New York, Nov. 23—Captain Cassily Cook a lawyer of No. 100 Broadway, who says he represents a group of American capitalists, has just made known the details of a plan by which, he asserts, certain powerful interests seek to bring about an extension of the American protectorate in Cuba. He said that the liberals and moderates in the Cuban congress were getting together for this purpose and are working with the representatives of foreign capital.

According to captain Cook, who gained his military title by service in an Ohio regiment in the Cuban campaign, much preliminary effort already has been made in Cuba. A careful canvass has been made of the property owners, merchants and professional men in Cuba, with the result that 95 per cent of them have expressed themselves in favor of the continuance of the protectorate, to assure stability and safety in commercial affairs. The program is to submit to both the United States and the Cuban congress bills to amend the Platt amendment. Some of the agitators favor immediate annexation to the United States but the prevailing sentiment is for an indefinite continuance of the protectorate.

Captain Cook says that men representing $200,000,000 English, Canadian and American investments in Cuba are in league with the "prominent Cubans" he referred to. Part of the plan is for 80 or 100 well known Cubans to unite in an appeal to their countrymen to sign a petition to the president and congress of the United States for a protracted American protectorate.

Manuel Hernandez, representing a New York banking house, is said to have departed for Cuba bearing a draught of the proposed bills for the congresses of the two countries to be submitted to prominent attorneys in Havana and Santiago for their approval. Senator Beveridge, captain Cook says will present the American bill.

"At the December elections," said Capt. Cook, "Alfred Zayas will probably be elected president by the liberals, but we doubt whether the liberal party can keep its people in line. We shall ask for a congressional committee to visit the island in January to study conditions, especially the monstorously rotten condition of the country's finances.

ZINC MINES ON CALUMET ISLE

Brockville Man Will Exploit Valuable Mineral Deposits

Ottawa, Nov. 23—A mining industry that will employ 500 men is likely to be in operation on Calumet island next summer. This is a plan of C. E. Smith of Brockville, who is prospecting on the island with a staff of 20 men. He has found such promising traces of zinc, lead and copper that he entertains little doubt of that productive mines will be discovered before spring and then nothing will remain but to bring in the men and machinery. The mineral area is 700 acres in extent, situated on the Quebec side of the Roche Fondu channel, about four miles from Bryson.

A good deal of Ottawa capital was interested in this district eight years ago, but the venture did not prove a financial success, and no other prospecting was attempted until Mr. Smith came into the district. The wealth of the deposits of zinc and lead may be surmised from the shipment of 1000 tons of ore to Belgium by the Ottawa men ,with whom were associated some Belgians. There are millions of capital available for the present enterprise. Mr. Smith has a working agreement with the largest zinc concern in the world, the New Jersey Zinc company, which produces two-thirds of the zinc made in the United States.

MILITIA OFF TO HAMILTON

Toronto, Nov. 23—One hundred regulars, infantry and artillery, left tonight at 10 o'clock for Hamilton, where rioting is in progress.

TO RESIGN PORTFOLIO

Laurier Declines to Agree to Hyman's Withdrawal From Cabinet

Will Have to Send in Fresh Notice of Resignation of Seat in Parliament as Original Was Irregular

(Special to The Daily News)

Ottawa, Nov. 23.—A telegram has been sent to Hon. Charles S. Hyman by the cerk of the house, asking him to have his resignation forwarded in accordance with the form provided by statute. Until this is done his resignation cannot be officially announced. The wording of the resignation was probably near enough to the regular form, but there were no witnesses and no seal. The Act says that these are necessary.

In the house today opposition leader Borden asked if Hyman's resignation, not being in proper form, was effective and whether or not he was to retain his portfolio.

The speaker said that his resignation was not in proper form and was not effective.

Laurier said that Hyman had offered his resignation of his portfolio but he (Laurier) asked him to reconsider the matter and therefore it was not accepted.

Pardee moved the address in a splendid speech, and Demers seconded.

Borden replied, and Laurier answered Borden.

The death of senator Kerr of Cobourg, makes five vacancies in the senate.

Now that the dominion has completed negotiations and will take over the Halifax docks from the admiralty on January 1, it is likely that same thing will be done at Esquimalt.

Preparations will be made at London for the bye-election immediately, but no writ can be issued until Hyman's resignation has been submitted to the speaker in the prescribed form. This may take a few days owing to the minister's absence in the southern states.

The G. T. P. has submitted plans to the department of railways, showing the proposed route from Edmonton westward through the Rockies, to the intended terminus at Kaien island. The route map will come up for approval of the minister in a few days. It shows that after a survey of all available passes through the Rockies, the road has chosen the Yellowhead Pass, which is regarded as the easiest, and most direct line from Edmonton. It means that the new transcontinental will not go as far north as the Peace River country, following the location originally proposed. It may, however, be that the government will prefer a more northerly route in which case further surveys may be necessary. It has been understood for some time past that the Canadian Northern's extension to the Pacific coast would traverse the Yellowhead, and at the present time the rival companies are at work locating their lines through the same pass.

Those familiar with the locality declare that the valley is wide enough to accommodate half a dozen roads, and possibly the day is coming when it will be actually used by as many.

The post office department is now in communication with the Washington authorities for the purpose of securing a better interpretation as to what is included as second class matter. The Canadian department last winter refused admission as second class matter to a number of American publications which had no title to transmission in the dominion on these favorable terms. The postmaster-general has exercised strict care that the low rate of postage is not given to dominion publications that could not qualify under the definition of the act. It is hoped Ottawa and Washington can agree on a definition which will shut out no worthy publications, yet limited wisely. It is stated that one feature of the act proposed for the present session will be the provision by which the parcel carrying branches of the Canadian service will be extended, affording cheaper means of transmission of this class of mail matter than now given by the express companies.

Washington, Nov. 23.—As the result of friction over publishers' privileges in the two countries, the Canadian government has notified the United States government that the postal convention between the two countries will be abrogated on May 1st next. The notice is accompanied by a statement that it is only in so far as it relates to second class matter that this action is desired to extend and that if by legislation or departmental action, new regulations are framed for the guidance of the United States post office department regarding second-class matter, Canada will be prepared to enter upon negotiations for another convention relating to this class of matter.

MAY WAR ON ANARCHISTS

Washington, Nov. 23.—An international concert of action for the suppression of anarchists has been suggested again as a result of the explosion of bombs in the church of St. Peter and the palace of the king of Italy in Rome. There is reason to believe that upon the return of secretary Root to Washington the advisability of an international conference to formulate a plan to grapple successfully with the terrible menace of anarchy will be brought to his attention.

LIBERAL LEADERSHIP

Victoria, Nov. 23.—(Special)—On the authority of R. L. Drury, M. P. P., provincial organizer for the liberal party, whom your correspondent interviewed this evening, there is absolutely no truth in the story that a movement is on foot to depose J. A. Macdonald from the leadership of the liberal opposition in the local legislature and elevate to that position governor McInnes of the Yukon It is not improbable, however, that the latter, who is expected here shortly will resign his post in the Yukon and reenter politics in British Columbia. Such a decision on his part would be warmly welcomed by the liberals; they feel he could render yeoman service. It is known that he has given the matter some consideration, but he has no aspirations for the leadership and would work loyally under the leadership of Macdonald in whom the rank and file of the party have the fullest confidence.

ATTITUDE OF VATICAN

POPE WILL REPLY TO FRENCH MINISTRY IN DECEMBER.

WILL REAFFIRM DISAPPROVAL OF SEPARATION LAW.

Rome, Nov. 23.—In vatican circles a general impression is prevalent that the pope will at the Consistory, which is to be held before the middle of December, deliver a powerful allocution to the cardinals regarding the present conditions of the church in France. Pius X. has so far refrained from saying much regarding the actual situation, his only utterances on the subject being contained in his encyclical published early this year and addressed to the French bishops and in his recent letter to the French hierarchy, when the members of that body assembled in plenary council in Paris last August.

In both these documents the Pope made it evident that the Holy See could not accept the new law of separation between church and state, not only because it infringed on the rights of property of the church guaranteed by the Concordat, but especially for the reason that the new law allowed every Tom, Dick and Harry who had a grievance against the ecclesiastical authorities in his diocese to become the holder of ecclesiastical property, without even asking the consent of the church authorities.

The recent official utterances of some of the members of the French ministry make it absolutely necessary that the pope shall reply to them and express his opinion regarding the new law adopted in France and what the Holy See intends to do to meet the emergencies of the moment.

It is said that Pius X will severely condemn in his allocution the establishment of the numerous lay associations which have been recently formed in France by interests in conflict with the church authorities, and will proclaim that every Catholic who has become a member of such associations may consider himself as excommunicated and out of the fold.

The pope is determined to carry out his policy of disapproval of the law of separation and to ignore all the attempts of the French ministry to obtain his support in the application of the new law.

BULLER'S NEW JOB

Appointed by Court to Manage Marquis of Townshend's Estate

London, Nov. 23—Public interest in the imbecile little marquis of Townshend and his rich, masterful wife had been lost since the echoes of last August's lunacy inquest died away. It has been mildly revived by the appointment of general sir Redvers Buller, a bluff, old soldier, who added to his fame in the Boer war, as a "committee" to manage the marquis' estate. The strikingly handsome poet marchioness applied to the master of lunacy for a trustee for her husband's estate. Her application was supported by lord and lady St. Levan, lady Audrey Budder, lady Agnes Durham and colonel Charles Townshend. At the court enquiry three months ago the jury returned a unanimous verdict that the marquis was "a person of unsound mind, so as to be unable of managing his own affairs, but capable of taking care of himself.

MORMON CHIEF FINED.

Salt Lake City, Utah, Nov. 23.—Joseph F. Smith, president of the Mormon church, this afternon appeared in the district court before judge Ritchie and pleaded guilty to a charge of unlawful cohabitation and a fine of $300 was imposed.

OLD LADY DIES OF BURNS

Rochester, N. Y., Nov. 23.—Mrs. Katherine Farley died at the Homeopathic hospital tonight of burns received in the morning Her clothing was set on fire when she was trying to build a fire in the kitchen stove. She was 75 years old and too feeble to help herself.

R. MARPOLE TO RETIRE

Will be Succeeded at Vancouver by Wm. Downie Formerly of Nelson

General Shuffle of C. P. R. General and District Superintendents to Take Place the First of New Year

(Special to The Daily News)

Toronto, Nov. 23.—One of the biggest shuffles among general and district superintendents of the Canadian Pacific railway is shortly to take place.

The most important change is that of H. P. Timmerman, general superintendent of the Ontario division, who will change places with J. Osborne, general superintendent of the Montreal division. Mr. Timmerman's present post ranks next to the assistant general manager-ship.

C. Murphy, superintendent of the Toronto division, will be promoted to the position of general superintendent of the Atlantic division with headquarters at St. John.

W. Downie, present general superintendent of the Atlantic division, will be appointed general superintendent at Vancouver, an opening caused by the retirement of R. Marpole at the end of the year.

Arthur L. Smith, inspector of despatchers and stations on the C. P. R. lines east of Fort William, is named as superintendent Murphy's successor. A. L. Smith's position will likely be given to W. Killingsworth, of Toronto, chief despatcher of the Ontario division.

Another change spoken of is that A. U. Bain, chief clerk to H. P. Timmerman, will be transferred to St. John; J. G. Shewan, chief clerk at that point, taking the post in Toronto.

General superintendent F. P. Benway, of the Port Arthur lines, was first mentioned for general superintendent of the Ontario division, but it was stated at the Union station that he had declined to accept it.

The changes will go into effect the first of the year, although official confirmation of the shuffle has not yet been given out.

Local C. P. R. men have known for some time that two of the changes would take place, but the change of the Ontario-Montreal superintendents will come as a great surprise.

DEATH DEALING AUTO.

Professional Demonstrator Meets Death in a Collision.

Philadelphia, Nov. 23.—Ernest D. Keeler, of New York, demonstrator and professional driver of racing automobiles, was killed, and Henry D. Lutton, of Colwyn, Pa., was dangerously hurt in a collision today while trying out machines of the racing type on the Point Breeze race track.

Running at a 1.04 clip Keeler attempted to pass between a machine on the rail and a repair cart driven by a negro who was at work on the track. At the same time a machine driven by James Hamilton, who had with him Henry Lutton, a mechanic, attempted to pass through the opening. The car driven by Keeler caught the forward end of the car driven by Hamilton, tearing off the front wheels. Lutton was thrown from his seat into the dirt cart, and Keeler's car, after rolling over several times, turned turtle. Keeler was pinned under the car and was killed almost instantly. Lutton had a great hole torn in his head and was hurt internally.

New York, Nov. 23.—An automobile driven by Early Wanzer, who said that he was employed by F. M. Hoyt, of Stamford, Conn., ran down a cab tonight, probably fatally injuring Nicholas Sullivan, the driver. The car which also contained two women, dashed away after the accident but was caught in a pocket of street cars and the chauffeur arrested. During the pursuit of the machine, in which a big crowd participated, a pistol shot was fired and William Doran, one of the pursuers, dropped with a bullet in his neck. Wanzer was charged with the shooting, which he denied.

HARRIMAN REACHING OUT.

In a Fair Way Now to Get Chicago's Public Utilities.

Chicago, Nov. 11.—With the seizure of the Illinois Central comes evidence that E. H. Harriman is reaching out for the public utilities here. He is already in control of the $70,000,000 subway company and is reaching out for the electric lighting and telephone privileges of the city. Many financiers believe he will get them. It looks, however, as though Chicago and its concerns are only a detail in a scheme for the creation and development of the greatest railroad and financial sovereignty in the world.

WHERE MURDER IS NO CRIME

Mahoney City, Pa., Nov. 23.—Within the last three years more than a score of murders have been committed in Schuylkill county, with not a single conviction. Some of the murderers were never apprehended; others caught red-handed were acquitted after a trial.

When Dominick Leprete was placed on trial last Wednesdaw at Pottsville before judge Marr for the murder of aged Mrs. Bridget Haley he pleaded guilty, saying he deserved to be punished. The court refused to entertain the plea, and entered one of "not guilty.' The jury after 35 minutes' deliberation returned a verdict of acquittal.

MILLIONS FOR THE POOR.

What Germany's State Insurance Plan Has Done—Helped 60,000,000

Berlin, Nov. 23.—Working people in Germany have received from the state $555,750,000 for sick benefits in 20 years, $252,750,000 for accidents and $13,500,000 in old age pensions.

The existing law provides for compulsory contribution by employers and employees. In cases of sicknees two-thirds of the expenses are paid by the employee and one third by the employer. In accident cases all the expenses are paid by the employer, and in old-age pensions half the amount is paid by the employer and half by the employee, the government supplementing each pension with $12.50 yearly.

The sum of $312,500 has been expended daily on the combined objects, the total of the various funds is $375,000,000, the whole amount paid in since the law was passed is $1,656,750,000 and sixty million persons have profited by this legislation.

IS PAINED AND AMAZED

ENRICO CARUSO FOUND GUILTY AND FINED TEN DOLLARS

WILL APPEAL AGAINST THE VERDICT IMMEDIATELY

New York, Nov. 23—Enrico Caruso, the famous Italian tenor today was found guilty of annoying women in Central Park zoological garden. A fine of $10 was imposed. The verdict was rendered by magistrate Baker in the Yorkville police court after a hearing which extended over three days.

Caruso's counsel immediately announced he would appeal. The appeal will take the form of a writ of certiorari, directing a review of the case by the court of special sessions.

M. Caruso said tonight: "I am naturally pained and amazed at the verdict. After all the evidence had been given in court I took it for granted that I would be discharged instantly and honorably. I do not doubt that the verdict will be reversed on appeal."

Summing up speeches, marked by strong language, were made by the judge, who hinted at police blackmail and attempted extortion, and by deputy commissioner Mathot, who concluded: "I am here on behalf of women, our wives and daughters, to ask if these panders and sexual perverts shall be permitted to use our public highway and parks for the prosecution of their bestial performances."

Hisses greeted Mr. Mahot when he declared that among the crowd in the court room were men who were "perverts" and that Mrs. Hannah Graham, the complainant could not be blamed for being unwilling to appear before such a gathering.

J. J. HILL MAY RETIRE

Chicago, Nov. 23.—According to the Chicago Examiner, not only is the Burlington to be entirely merged with the Great Northern, but a radical reassignment of officers will be made.

The plan of James J. Hill, the paper says, now is to abandon the name of Burlington and call the system from the coast to Chicago, the Great Northern.

Hill will then resign the presidency of the Great Northern, and take up a permanent residence in New York, and one of these three men will be elected to the presidency of th consolidated company: George B. Harris, now president of the Burlington; Daniel Willard, vice-president of the same line, or Louis W. Hill, son of James J. Hill and vice-president of the Great Northern.

ANOTHER JOB FOR BONI

New York, Nov. 23—Count Boni de Castellane must have been born under a lucky star after all. His countess may throw him over and the French court may deny him his alimentary rights, but more than one job is awaiting him in New York if he will come after it.

One of these is on the Keith and Proctor circuit, where he may draw $4000 a week if he will only say the word and agree to give exhibitions of swordsmanship. The count has given exhibitions of swordsmanship on many fields of honor.

FREIGHT RATES MAY ADVANCE

Chicago, Nov. 23.—A general increase in freight rates to offset a general increase in wages and a steady increase in the price of railway supplies, is contemplated by the chief officials of most of the railroads terminating in Chicago. While no definite action has yet been taken, it is likely that the question of advancing freight rates will be brought up at an early meeting of executive officials in charge of traffic.

DEATH OF HENRY WEHRUM

Scranton, Pa., Nov. 23.—Henry Wehrum, one of the best known men in the iron and steel industry of the United States, died at Buffalo today from a stroke of apoplexy, with which he was prostrated last Wednesday.

DIDN'T KNOW IT WAS LOADED

Hoosick Falls, N.Y., Nov. 23—Clifford Mason, 12 years old, was today instantly killed by the accidental discharge of a gun in the hands of John Sheorff, a playmate, who did not know the gun was loaded.

MINES ARE IDLE NOW

Complete Tie-Up of B. C. Copper Company's Properties in Effect

Company Closed Down Mother Lode and Union Ordered All Men to Quit Work at the Other Mines

(Special to The Daily News)

Greenwood, Nov. 23.—The latest development in the strike is the calling out of the men in the company's mines by the union. The company closed down the Mother Lode mine yesterday, throwing 150 men out of work and last night the union went a step further by calling out all the men at the Emma, Oro Denoro, B. C. and Ruby, and the men at the Lone Star and Washington across the border will be called out by the unions in that district.

It was the intention of the company to continue work at the Emma, Oro Denora, Ruby, Napoleon and Lone Star and Washington, but the action of the union closes up everything.

At the Mother Lode and other mines men have been left in charge to protect the properties from any harm. The number of men now out totals close on to three houndred.

Notices have been sent to all points in British Columbia, and neighboring states, warning union men to stay away from Greenwood.

Scores of men are leaving the town and the trains and stages are packed. Many are going to Phoenix, Grand Forks and Americas points.

The union officers stated this morning that they are taking steps to open negotiations with the company looking to a settlement of the trouble. The result of this will be anxiously awaited by the public. The head officials of the company in New York were to have held a meeting today but so far they have made no move toward a settlement.

SOCIALISM AT YMIR

(Special to The Daily News)

Ymir, Nov. 30—A local of the socialist party of Canada has been organized with a membership of 30. Pat Daly is president and W. B. McIsaacs secretary. Meeting nights are to be the first and third Saturdays in every month. Visiting comrades will ble cordially welcomed.

VICTORIA- SEATTLE ROUTE.

Victoria, Nov. 23.—The C. P. R. decided to cancel its working arrangement with the Alaska Steamship Co. by which the steamer Indianapolis has been left without winter opposition on the Victoria-Seattle route, and will place the Princess Beatrice on this run December 1. This action was taken at the request of the local board of trade.

NELSON'S NEWS OF THE DAY

The ball at the armory last evening given by the officers and men of No. 2 company R.M.R. was a most successful affair. Some 200 guests were in attendance, Irwin's orchestra rendered an excellent program of dance music and refreshments were served after midnight. It is proposed to hold other dances through the winter season.

There was an earthquake last night, but it only affected the main building of the Strathcona hotel—that is what the guests say who were in the lobby on the strike of 11. Without any warning a hand some ore cabinet, attached to the wall near the front entrance, crashed down from its fastenings, spilling out all the ore specimens and becoming a total wreck. F. W. Guernsey of Trail was sitting under the cabinet at the time and had a narrow escape. The cabinet fell on the post of the stairway and hung for a moment, allowing Mr. Guernsey to jump out of harm's way. All the specimens were saved but the cabinet itself is a thing of the past.

YOUNG PASTOR SUICIDES

Little Falls, N. Y., Nov. 23.—The body of Rev. John Sanford, aged 26 years, and pastor of the Methodist church at Salisbury Centre, ten miles from here, was found hanging in the parsonage at that place by trustees of the church tonight. The minister had been missing since Tuesday. Mr. Sanford was unmarried and came here from England two years ago. It is believed that temporary insanity caused the act.

WERE THAWING DYNAMITE.

Brandon, Man., Nov. 23.—An explosion of dynamite occurred in a Great Northern construction camp near here today by which one man, Lee Reynold, of St. Cloud, Minn., was killed and others were seriously injured. They were thawing the explosive when the accident occurred.

MORE WAGE INCREASES

Chicago, Nov. 23.—Station agents and telegraph operators over the entire system of the Chicago and Northwestern railroad have been granted an increase of wages. It is reported that Armour & Co., and Swift & Co., are about to raise wages in several departments.

Hudson's Bay Stores

We Now Offer Several Carloads of

FLOUR AND FEED

We quote:—

BRAN, per 100 lbs	$1.30
SHORTS, per 100 lbs.	$1.40
PASTRY FLOUR, per 49 lb. sack	$1.50
OATS, elevator cleaned, last year's crop, and of the very choicest quality, per 100 lbs.	$1.50
BARLEY, per 100 lbs.	$1.50
WHEAT, of the best quality, per 100 lbs.	$1.75

SPECIAL PRICES ON ALL FOR TON LOTS.

TIMOTHY HAY, none better ever offered, per 100 lbs,	$1.25
Per Ton	$23.00

A Word About Our Bran and Shorts

These come from a small mill where they DO NOT have all the latest patents to take out the very last particle of flour, and to leave nothing but the woodly fibre of the shell, which is ALRIGHT FOR THE MILLER but ALL WRONG FOR THE BUYER of Bran and Shorts.

EXAMINE OURS. It contains twice as much flour as the ordinary article in the market.

A "COCK AND BULL STORY"

What the Victoria Times happily alludes to as a "cock and bull story" is the yarn now going the rounds of the McBride government press, originating with the Vancouver News-Advertiser, that the liberal party of British Columbia is dissatisfied with the leadership of J. A. Macdonald and that he is shortly to be deposed from that honorable and responsible position.

It is significant to note just now the anxiety of the McBride government press to discredit Mr. Macdonald in the country. We had the wholly false story of his visit to Fernie to "make political capital" out of the coal miners' strike for circulation in the interior, and, needless to say, the small fry government organs assiduously spread the malicious falsehood.

For coast consumption in particular, but reproduced with sublime, if not ridiculous, confidence in the gullibility of the public, by the interior organs, is the story manufactured for the occasion by that usually ultra-circumspect journal, the Vancouver News-Advertiser, of the prospective deposition of J. A. Macdonald from the liberal leadership.

Mr. Macdonald, it must be conceded, is entirely lacking in the characteristics of a demagogue. His mental make-up bars him from indulging in grand stand demonstrations, but his solid good sense, his uncompromising integrity, and his earnestness of purpose, stamp him as a man worthy of the confidence of the electorate and one to whom the country at the present juncture will turn with hopefullness to grapple with the problems of staesmanship that now confront this province.

The Times, in its comments upon the News-Advertiser's "scoop", remarks:

Mr. Macdonald has only been a very few years in public life, but in that time he has made a reputation on the political platform and in the legislature of which every liberal in the province and in the dominion is proud. His conduct of the investigation into the Kaien Island scandal before the legislative committee, and his subsequent analysis of that notorious transaction on the floor of the assembly, stamped him as a leader of extraordinary ability and a worthy successor of the very able men who in the past have sat in the councils of the province. The liberal party has every confidence in its leader, the province as a whole, irrespective of party affiliations, believes in him and trusts him. Mr. Macdonald is the man of the hour in the political life of British Columbia today. The people need his services in the great struggle now impending—in the battle which will shortly be joined to set the province free from Hon. Richard McBride and his band of hungry adventurers. It is true Mr. Macdonald would be an ornament to the bench if he could be persuaded to accept such an honorable post. If he consulted his own personal tastes and material interests he would accept a judicial position. But he has a higher duty to perform, and he can be depended upon to subordinate his private inclinations and to remain in the position to which he has been called by the united voice of the liberal party in British Columbia. We doubt not that the News-Advertiser expresses the hopes and fears of the government of which the Hon. the president of the council is a member, in giving currency to the absurd rumor of dissenions in the ranks of the liberals in regard to their leader. But we can assure the astute editor that there is nothing whatever in its story. Mr. Macdonald will remain leader of the liberals, and he will lead a united and harmonious party against the heterogeneous and incongruous elements which have done so much in the past three years to bring discredit upon the name of British Columbia.

These lots are worth $200.00 each today and it cost $2400.00 to build the houses Don't miss this opportunity. You can live in one and rent the other.

TOYE & CO.
FRUIT LAND, REAL ESTATE
NELSON, B. C.

EDITORIAL NOTES.

Great Britain's trade continues to expand despite the blue ruin predictions of the tariff reformers. The Board of Trade returns for October show imports amounting to £54,639,318, an increase of £5,962,900 as compared with October, 1905, and exports to the value of £33,234,331, an improvement of £3,886,775.

R. J. Barrett, editor of the London Financier, continues a series of very valuable articles in the columns of his paper, based upon his observations during his recent visit to Canada. The last copy of the Financier to hand contains an article dealing with the Grand Trunk Pacific project. His conclusions are thus summarised:

"That the new transcontinental railway is a magnificent project.

"That its scope and future influence on the prosperity of Canada are scarcely realised yet even there.

"That the men who are at the head of affairs are earnest, far-sighted and clever organizers.

"That the dominion government's co-operation, financially and otherwise, is enlightened policy.

"An examination of the terms upon which the railway is to be constructed impressed me with the great wisdom and foresight shown by the government of the dominion.

"That any bonds offered in this country should be quickly absorbed by British investors."

The London Daily News thus explains the Trades Disputes bill, which has occasioned such a bitter fight in the commons and which promises to receive even rougher handling in the lords than has the Educational bill: "What, as a matter of fact, and stripped of all vague rhetoric, does the Trades Dispute bill set itself to accomplish? It designs to restore the trades unions to the position in which they were implicitly left by the liberal government of 1871, whose work was completed by the tory government of 1875. For thirty years they have lived and flourished with but little complaint under a law whose deliberate enactment is now denounced as intolerable. . . . An employer may proceed against a trades unionist for any breach of common law. . . . . But the union as a whole is to have its funds preserved from the attacks of the employers. Without some such provision all strikes become impossible; the trades unionists would experience the iron law of wages in unchecked operation, and the remuneration of the skilled as well as the unskilled trades would be driven down to subsistence level . . . This bill can never make any real equality in a trade dispute. The dice will always be loaded on the side of the masters so long as they have behind them the weapons of hunger and cold. . . . . Unless there is an enormous body of public opinion on the side of the strikers a strikers bound to fail. If that public opinion exists, the strikers are probably justified in their demands. The better employers have no fear of the Trades Disputes bill in its present form. The objection of the lawyers is largely a matter of legal pedantry. . . . The bill goes further toward equity than any alternative method of getting behind a legal decision, which had suddenly established a monstrous inequality and injustice."

PARLOVITZ CONCERT.

Wednesday Night's Performance Highly Spoken of By Press.

The Eduord Parlovitz Concert party will give an entertainment in the opera house next Wednesday evening, Nov. 28th.

Press comments on the performance given are highly complimentary.

The Montreal Gazette says: "Mons. Parlovitz came into instant favor. His first selection, Chopin's 'Grand Polanaise', proved him a master of his instrument, while his succeeding numbers were played with a brilliancy of technique and delicacy of touch which charmed all. Liszt's 'Rhapsodie Hongroise' was a triumph, and he received an ovation at its close. His group of selections by Chopin were splendidly rendered."

The Cornwall Freeholder says: "Miss Grace Merry is a rarely clever reader, especially in her Scotch selections, which were given with a fidelity only to be attained by a born Scotswoman. Her gown was a dream, so the ladies said."

The Brockville Recorder says: "Miss Alys Bateman and party rendered a delightful program. It may be safely said that of all the concert parties heard in Brockville during the past few years, none ever eclipsed that rendered last evening. Should Miss Bateman decide to visit the Island City in future she may count on a royal reception. Miss Bateman bids fair to take the place so long held by the famous Patti. Her voice is quite exceptional in its purity, brilliancy and range. Among other gems, 'The Lass with the Delicate Air' showed a vivacious charm."

CROUP

A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's Cough Remedy. It will prevent the attack if given as soon as the child becomes hoarse, or even after the croupy cough appears. For sale by all druggists and dealers.

DEATH OF MISS GRAHAM

(Special to The Daily News)

Slocan, Nov. 23—Miss Graham, who came here two weeks ago from California, died last evening at the home of her niece, Mrs. McLellan. Miss Graham had not been well for some time, having had a hemorrhage of the lungs, accompanied by partial paralysis a short time ago. Her death, however, occurred very suddenly, while seated in her chair. Besides her niece, Miss Graham is survived by a sister, Mrs. Gallup of Balfour, and a brother, Mr. Graham. The remains will probably be taken to Balfour for interment.

Color Over Your Old and Faded Dresses, Skirts, Blouses, Jackets Capes Ribbons and Feathers with—

Diamond Dyes

One or two 10c packages of DIAMOND DYES made specially for home use will make your old and faded garments so bright and handsome that they cannot be told from new goods.

DIAMOND DYES will color anything, from ribbon and feathers to the heaviest garments, such as dresses, jackets, shawls and men's clothing. The directions on each package are so simple that even a child can use DIAMOND DYES with a certainty of getting as good a color as can be made by the professional dyer.

Never risk your materials and garments with the weak, adulterated and imitation dyes sold by some dealers. When you buy the DIAMOND DYES you have the best produced in the world.

Send to Wells Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., for valuable Dye Book and card of dyed samples; FREE to any address.

CANADIAN TRADE REVIEW

Montreal, Nov. 23—Bradstreet's weekly trade report says: Trade and industry are active in Canada. The banks are closely loaded up and money is high priced. Industrial developments are indicative of great progress making in different sections. Toronto reports electric power from Niagara turned on on Nov. 15, and on the same day the first train over the Northern Ontario railroad reached that city. Montreal reports collections good, higher prices for lumber, affecting woodenware of all kinds and hardware prices advancing. Retail trade at country points is better with cooler weather. The grain movement in the Northwest is heavy, and the railroads find it impossible to move it fast enough. Collections are good in the Northwest.

Trade is active in British Columbia and industries are busy employed.

Failures for the week number 27 as against 31 last week and 40 in this week a year ago.

HAMILTON STREET CAR STRIKE

Hamilton, Nov. 23—The street railway company undertook this evening to operate the cars for the first time at night and the expected riot followed. A large crowd gathered at the corner of King and James streets and the cars were stoned; the windows of the railway station in James street were also smashed. Then the crowd broke all the windows in the departmental store of Stanley Mills. About this time the report spread that the soldiers were coming from Toronto and the crowd dispersed.

Big "Clean-Up" Sale Pianos and Organs

Exceptionally busy summer and fall selling has placed on our hands a large number of second-hand pianos and organs, taken in exchange on new styles of MASON & RISCH and PIANOLA PIANOS.

Our "upper country" warehouses—in Nelson and Revelstoke—are now comfortably crowded—we've winter shipment on way from factory too.

These used goods must be sold—we wish them to move rapidly. You'll appreciate these unusual offerings.

Small Upright Luff and Sons piano English make, 6 octaves, walnut case ..... $ 20

Charles Davis Upright Piano, 7 octaves, 4 ft., 5 in. in height, French Walnut case, scroll front 40

Avell and Smart Upright Piano, 7 octaves, 4 ft. 5 in. high, full iron frame, excellent value at $100, yours for 65

Nugent Piano, New York, 7 octaves, ebonized case, good buy at 125

Bell Piano, Guelph, 7 1-3 octaves, imitation French Walnut case, veneer partially off one end, suitable for hall or lodge 150

Mason and Risch Piano, 7 1-3 octaves, 4 ft. 5 in. high, finished in San Domingo mahogany, slightly used, but good as new, was $400 but now selling at 350

Mason and Risch Piano, large upright grand, beautiful mahogany case, 4 feet 9 inches high, case is slightly marred, otherwise in fine condition, splendid tone, was sold for $500; take it for 375

Mason and Risch Piano, upright grand in Art Burl Walnut case, practically new, prime condition, perfect tone, was $550, extraordinary value at 400

Dominion Organ, walnut case, 5 ft. high, 5 octaves, 2 1-2 sets reeds, 7 stops, Vox Humana, Great, and Grand organ swells 30

Bell Organ, 5 ft. high, walnut case, octaves, 2 1-2 sets of reeds, eight stops, in good tune 40

Bell Organ, massive Walnut case, scroll front, 3 sets of reeds, 10 stops, both swells. You'll not lose on this at 50

Doherty Organ, black Walnut case with bevelled French plate mirror, 5 octaves, 3 sets of reeds, 10 stops, bass and treble couplers, and knee swells, splendid value at this figure 60

We've also a number of others. Full list sent upon request.

You may turn in any one of these instruments at full value, as partial payment on a new MASON & RISCH PIANO, within two years after purchase.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit, Mich.

COD LIVER OIL and IRON

Add PHOSPHORUS and you have FERROL

For many years it has been recognized by physicians everywhere that **Cod Liver Oil** and **Iron** should be given in combination if possible, as where one is required the other is in all probability needed, too, **each enhancing the value of the other.**

Strange to say, although many attempts have been made, no one ever succeeded in combining the oil and iron until, quite recently, a Canadian physician, after some years of study and experiment, managed to solve the problem He then added just a little phosphorus; the result is-

FERROL

which contains in an elegant, palatable and easily digested emulsion Cod Liver Oil, Iron and Phosphorus, the exact constituents necessary to **Increase the Weight, Enrich the Blood and Build up the System.**

No argument is needed to prove the value of such a preparation in the treatment of Bronchitis and Pulmonary Diseases, Scrofula, Rickets, Anæmia and wasting diseases of any kind.

For Croup, Whooping Cough and Chronic Coughs and Colds **Ferrol** is an absolute specific.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.

PEASANTS ARM FOR WAR

MILLION DOLLARS STOLEN FOR PURCHASE OF ARMS

PREPARING TO STRIKE DEATH BLOW AT PRESENT GOVERNMENT

New York, Nov. 23—W. E. Walling, a Chicago millionaire and university settlement worker, who is a recognized student of sociological problems, has returned with his wife from a prolonged visit to Russia. He will address several meetings in this country in the interests of the Russian revolutionary party and expects to return to St. Petersburg in the latter part of December.

In the course of an interview regarding the outlook in Russia, Mr. Walling said:

"This supposed passiveness on the part of the peasantry and the revolutionists at the present time is simly superficial. Terrible times are ahead of the Russian czar. Word has gone forth not only through revolutionists but by leaders of the peasantry, that the government must be upset and the czar deposed or forced to yield to the people's will on the question of land and freedom for the common people.

"The people heretofore have not been against the czar and the government of St. Petersburg. In fact, they have been loyal to the czar and his ministers, believing that it was not they who were to blame for their condition. They placed the blame upon the local officials and the landlords. This feeling has changed entirely. The peasantry has learned since the duma was dissolved, that the blame for oppression really really lies at the door of the czar and his ministers. In some 15 villages I visited with my wife, we heard the remark time and again; 'The czar himself is the enemy of the people, he is a double headed vampire drinking out our blood, and it shall again flow from him.'

"I want to say that I have been among these people for months. I know what is coming and know it will shock the universe. A fight for salvation is almost at hand, and when the real blow is struck, as terrific as it will be, the strife unquestionably will last for years, for we know that France and Germany have given great financial support to Russia and are prepared to continue such assistance. At present the revolutionists are the workingmen. The real peasantry has only now began to get into the movement and it takes considerable labor and level-headedness on the part of the revolutionary leaders to keep them in check until the proper time to strike. The revolutionists have found how to furnish guns and intend to put them into the hands of the peasants, who are now already being organized into regular regiments.

"In one Russian province there are 182 villages where secret armed militia exists. There are 400 such districts, the majority of which, however, are not as well developed in organization as the one I have in mind. The revolutionists have had two big problems to solve for the success of their cause. There was first the problem of obtaining the money, and this obtained ,then the smuggling in of arms. Through the Maximalist wing of the socialist party the financing question was overcome. This party going on the assumption that the government is always at war with the people, has resorted to robbery. Recently they stole half a million dollars in Poland; $200,000 in St. Petersburg; $100,000 in Moscow; $100,000 in Siberia, and $100,000 from other places, making a total of a million dollars. Other large sums added to this make a fine starting foundation for the coming struggle.

"With the exception of the Prussian border there is not a single point of land where arms are not being imported by the revolutionists and placed where they will be of most service. The people are now working like so many million ants for the same purpose—the overthrow of the present government.

"It is not the intention to arm the entire peasantry, but only the more active portions and in the sections best adapted to guerrilla warfare. There are now 5000 guerrilla fighters in the woods of the Baltic provinces, banded into leagues of outlaws, calling themselves the 'Forest Brothers.' A great deal is being done by them in organising and equipping other bodies. The revolutionists have the railway men with them body and soul. This is going to be a terrible blow to the government. A big strike is planned, absolutely different from what has gone before. It will be a successful railway strike. It is planned that the peasants who are now being instructed in the scientific methods of railway destruction by the railway men, are to put the latter in hiding until the destruction is completed, thereby preventing the movement of government troops and guns. After that the strikers will join the armed revolutionists."

SCHOOL TRUSTEES

Joseph Jackson Appointed Janitor—Other Business Transacted.

The adjourned monthly meeting of the board of school trustees was held in the secretary's office last evening, there being present A. D. Emory, chairman; Dr. E. C. Arthur, secretary, and F. W. Swannell.

After the reading of the minutes of the previous meeting and the adoption of the same, the first question considered was the consideration of the applications for the position of janitor of the public school. There were an even dozen citizens who wanted the job. A ballot was taken with the result that Joseph Jackson got the appointment.

Jackson was weigh master two years ago but was let out by the civic administration that came into power January, 1906.

The finance committee reported the payroll for November and sundry small accounts. The report was adopted and warrants ordered issued.

The secretary of the Rossland Teachers' association wrote asking if the Nelson board granted teachers ten days' absence on account of illness without having to provide a substitute. Secretary Aruthur applied in the affirmative.

A request from one of the staff for an increase of salary was tabled. The request will be considered by the new board.

Two applications for places on the teaching staff were received and filed.

A teacher wrote complaining that, owing to the low temperature prevailing in her school room, the attendance of scholars for the past month had necessarily been very irregular, many of the children suffering from severe colds contracted while at school. The writer also complained of the escape of coal gas and smoke into the school room.

Mr. Swannell said that the room complained of was the most difficult one in the building to heat. The board had done the best they could with the fuel available. It was suggested tha coke should be used in place of coal.

The secretary said that the question of the fuel supply was a serious one. At present it was only got from day to day. He suggested trying to get some first class wood, if it could be obtained.

The matter was left in the hands of the secretary to make the best arrangements possible.

On the question of obtaining further room accommodation several locations were discussed. The chairman and the secretary were appointed a special committee to make arrangements and report at the next meeting, and in the meantime desks and chairs will be ordered for whatever room is finally selected.

The meeting then adjourned.

SELLS MORE OF CHAMBERLAIN'S COUGH REMEDY THAN ALL OTHERS PUT TOGETHER

Mr. Thomas George, a merchant at Mt. Elgin, Ont., says: "I have the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozen sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists and dealers.

302

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SHILOH

FULL COURT TO DECIDE

CHIEF JUSTICE DECLINES TO REHEAR CASE.

FULL TEXT OF COURT ORDER IN STAR VS. WHITE.

Chief justice Hunter has practically *declined to re-hear the famous* Apex case of Star M. & M. Co. vs. Byron N. White Co., as recently directed by the full court.

The full court composed of Irving, Martin and Morrison, J.J., upon the appeal of the plaintiffs against the order of the chief justice refusing to allow more exploratory work to be done, directed that the appeal be allowed with costs, that the work asked for be done and that the whole matter be referred back to the learned trial judge—the chief justice—for reconsideration. The *chief justice* had dismissed the plaintiffs' case with costs at the trial, and, under the ruling of the full court it was proposed to ask his lordship to ascertain if the new evidence, resulting from further work being done, would change his finding in the main case.

The chief justice intimated to Mr. justice Irving, after the full court had rendered its decision, that his mind had been so fully made up at the trial of the case that it was most improbable that any fresh evidence now submitted would alter it, and he suggested that *in all fairness to the* plaintiffs against whom he had held, the full court should hear further evidence and subsequently dispose of the whole matter.

The appeal has accordingly been adjourned, the judgment at the trial is set aside, for the purpose of doing the new work and hearing the fresh evidence.

The terms of the order as settled by the full court, omitting the formal portions, are as follows:

This court doth order and adjudge:

1. This court doth not see fit to make any order as to the issues in this action but this court doth order that the work hereinafter described be performed, and that for the purposes of performing the said work, and adducing the evidence hereinafter referred to the said judgment be and the same is hereby set aside and that the further hearing of this appeal be adjourned.

2. That work be done for the purposes of this action and appeal in the Slocan Star, Silversmith, Windsor, Heber Fraction and Rabbit Paw mineral claims under the direction of this court, and under the supervision and management of W. E. Zwicky, of Kaslo, B.C., the said work to be as follows:

(a) Crosscut the "black fissure" (so called) in the hanging wall stope situate 35 feet above No. 5 level at the bend, namely at the point where the Slocan Star works enter the Heber Fraction mineral claim; and at the most westerly point where ore has been found in that stope; then drift in a southerly direction on the black fissure (so called) carrying the foot wall of the same in the middle of the drift; continue this drift to a distance of at least (50) feet or so much farther as the plaintiffs may desire, but not to exceed one hundred and fifty (150) feet; then cross cut the black fissure (so called) at the end of the said work so as to expose the full width of the same;

(b) Crosscut in a westerly direction the black fissure (so called) at the point marked X on No. 5 level as shown on plan No. 1, so as to expose the full width at that point of said black fissure (so called);

(c) Drift in an easterly direction on the course of No. 2 vein (so called) at about station No. 23 on said No. 5 level as shown on said plan No. 1 following the strongest quartz seam that may be exposed and keeping within the vein so as to leave either the hanging or foot wall on one side of the drift; and continue said drift a length of 50 feet in the direction of said No. 2 vein (so called);

3. That the work above specified shall be done by using No. 5 level and No. 5 crosscut to the portal thereof, as shown on said Plan No. 1 and by using, the car track and cars in the said level; and by using the surface tracks and dumps of the defendants (respondents) and as to the work specified in sub-paragraph (a) of paragraph 2 above, by using in addition for the purposes of ingress to and egress from the staid stope to and from said No. 5 level the passages and raises at present provided from No. 5 level to the said stope; and for the purposes of letting down to No. 5 level all the waste or other material mined, or for other mining purposes incidental to the said work, by using the chutes and raises shown on plan No. 1 between stations 19 and 20 of No. 5 level; and the defendants shall give all other reasonable facilities for the purposes of the said work;

4. That the plaintiffs by their officers or any of them, their solicitors, surveyors, engineers or representatives not exceeding five at any one time, may be at liberty at all reasonable times up to and during the further trial of this action, upon giving 12 hours notice in writing signed by the plaintiffs or their solicitors, to the manager or superintendent or other person in charge of the defendants' works at Sandon, B.C., or to the defendant's solicitors or their agents at Nelson, B. C., to enter into and upon the Slocan King, Slocan Star, Jennie, Windsor, Silversmith, Rabbit Paw and Heber Fraction mineral claim and inspect, examine, make surveys and plans of any and all tunnels, drifts, shafts, winzes, stopes, raises or other works or mining operations of the defendants including the work directed above so far as may be necessary for the purposes of this action; and to take samples and make observations and surveys as may be necessary to accomplish the purposes of this action, or to obtain full information or evidence respecting any of the matters in issue in this action and for any or all of the said purposes and in order to ascend and descend, to use the defendants' ways, work and appliances.

5. That all parties be at liberty to adduce before this court upon the adjourned hearing of this appeal such further evidence as they may be advised respecting the issues as developed at the trial, and respecting the work hereby ordered.

6. That the plaintiffs in the first instance shall bear the expense of the said work specified above subject to the further disposition thereof by the court.

7. That the plaintiffs do on or before the 10th day of December, A.D., 1906, pay into the Bank of Montreal at New Denver, B. C., to the credit of a trust account in the name of the said W. E. Zwicky the sum of one thousand dollars ($1000.00) to be used and applied by him in the payment of the expenses connected with the doing of such work; and also do from time to time, as required by the said W. E. Zwicky, place to the credit of the said account such further moneys as he may require to enable him to carry on the said work.

8. That the said work shall be commenced and prosecuted by the said W. E. Zwicky forthwith upon payment of the said sum of money to his credit as aforesaid in the said bank, and all due diligence and despatch shall be exercised by him in the prosecution of the same.

9. That the defendants(respondents) do pay to the plaintiffs (appellants) the costs of and incidental to the above named motion but that the taxation thereof be postponed until after the final disposition of this appeal and that the costs of the trials preceding this judgment and all costs other than the costs of and incidental to the said motion be reserved.

10. Leave to all parties to apply.

The Royal Sells Up-to-Date Footwear

IN TIME OF PEACE

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation ond the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared for a successful combat with the first cold you take? A cold can be cured more quicky when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists and dealers

T. G. PROCTER.

November, 13th, 1906.

TIMBER NOTICES

NOTICE is hereby given that 30 days after date I intend to apply to the Hon Chief *Commissioner of Lands and Works for* a special license to cut and carry away timber from the following described lands in West Kootenay: Commencing at a post marked "Geo. A. Hunt-N.E. corner," situated on the west side of J. T. Burgess' timber claim on Russell creek, thence south 60 chains; thence west 40 chains; thence south 100 chains; thence west 20 chains; thence north 160 chains; thence east 60 chains to place of commencement.

Dated this 17th day of November, 1906.

11-24 GEO. A. HUNT, Kitchener.

NOTICE is hereby given that 30 days after date I intend to apply to the Hon Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay: Commencing at a post planted 20 chains west of the northeast corner of the Kaslo and Slocan railway company's Lot No. 812, at the east boundary of W. H. Whimster's South African *War Scrip purchase, thence east 20 chains;* thence south 40 chains; thence east 40 chains; thence north 40 chains; thence east 60 chains; thence north 40 chains; thence west 120 chains; thence south 40 chains to place of beginning, containing 640 acres more or less.

Dated at Cranbrook, B.C., this 20th day of Nov. A.D., 1906. 11-24

THOMAS W. LEASK.

W. F. GURD, Solicitor.

Gin Pills Help You As Nothing Else Will

ONTARIO PROOF

GIN PILLS cure all Kidney ills from simple backache to diabetes pain in the small of the back and through the hips —swollen feet and hands—burning urine —constant desire to urinate—dizziness—headaches—spots before the eyes—with loss of appetite, sleeplessness and nervousness — disappear under the healing, soothing powers of *GIN PILLS.*

Men and women who have any kidney or bladder trouble are throwing away their one chance of health and happiness by not writing for a free sample.

OWEN SOUND, ONT., March 10th, 1905.

Having used a sample box of Gin Pills, and finding them give me great relief, I sent my father-in-law, A. McDermid, of Keady, a box; he having for years been used up with kidney and bladder trouble, and unable to get relief from the urinary remedies used. The Gin Pills gave him relief before half the box was used. He is now entirely cured, and I believe Gin Pills a great cure.

JAMES LODGE.

Do as Mr. Lodge did. Simply write us for a free sample box of GIN PILLS and try them at our expense. If you feel better in every way, and know that GIN PILLS are doing you good, surely you will continue using them until cured. That is why we will send you a free sample box if you write and tell us in what paper you saw this offer.

GIN PILLS are sold by druggists everywhere, 50c a box, or 6 for $2.50.

THE SOLE DRUG CO. - WINNIPEG MAN.

SHERIFF SEIZES G. N. R.

CANADIAN ROAD OF THAT NAME IN TROUBLE.

MACKENZIE AND MANN DID NOT FULFIL GUARANTEE.

Montreal, Nov. 23.—The Great Northern Railway company, which runs from Hawkesbury, Quebec, with branch lines from Monteral to Joliet, and which is controlled by Mackenzie & Mann, was seized by the sheriff today to satisfy the bondholders of the elevator at Quebec.

The elevator was built by the railway company, which turned it over to an elevator company, guaranteeing bonds as to principal and interest. The elevator company failed to meet the interest payments and the bondholders sued the railway company as guarantor of the bonds and recovered judgment. The railway company appealed the case, urging that it had no right to guarantee the bonds, but the court of review upheld the judgment of the trial court. It was the intention of the company to appeal their case to the supreme court and then to the privy council, but it neglected filing security before appeal and the seizure was made.

The elevator is located at Quebec and has failed to pay its own way.

PEARY LANDS AT SIDNEY

APPARENTLY NONE THE WORSE FOR PERILOUS ADVENTURES

STILL CONFIDENT NORTH POLE CAN BE REACHED.

Halifax, Nov. 23.—Peary's steamer Roosevelt reached Sydney at 7 o'clock this morning and immediately upon arrival, commander Peary boarded a tug and came ashore to meet Mrs. Peary, who has been awaiting at Sydney for the last two weeks. He appeared in excellent health and no worse for his perilous exertions up north. He was apparently in the best of health and spirits.

The Roosevelt tells of her experience in her leaky condition and loss of much interior wood, ladders, beams and almost everything available on board having been sacrificed to keep the party warm.

Peary still believes the north pole can be reached and the same opinion is expressed by captain Bartlett.

INQUEST INTO NIAGARA OUTRAGE.

(Special to The Daily News)

Grand Forks, Nov. 23.—Upon the resumption of the inquest into the death of Louise King, in the Niagara dynamite outrage this afternoon, the evidence of an Italian, named Lombardo, was taken. His testimony showed clearly that there had been two explosions, and he was of the opinion that both occurred upstairs. The evidence points to the explosives having been placed in the room occupied by Rovello and Agilio.

A United States interpreter is here attending the inquest.

No further clue as to the whereabouts of Agilio had been secured up to the time of filing this despatch.

COAL FAMINE AT COAST

SEATTLE AND TACOMA IN BAD WAY FOR FUEL.

OFFERS OF $8 PER TON FOR 5000 LOTS.

Vancouver, Nov. 2a—Coal cannot be bought for $10 per ton in Seattle, Tacoma and towns within a radius of a hundred miles. The scarcity of coal in the cities and towns along the coast of Washington has developed into a famine and agents have been in Vancouver for several days attempting to purchase a supply here. In this they have been unsuccessful as there is not more than sufficient on this market of this kind of fuel to care for the demand of the local market. As high as $8 per ton has been offered for British Columbia coal by the agents of Washington state merchants and that figure applies to offers to purchase in lots of 5000 tons.

MAN'S INHUMANITY TO MAN

Hundred Hindus Evicted After Nightfall in South Vancouver.

(Special to The Daily News)

Vancouver, Nov. 23.—A gross act of inhumanity was enacted last night at South Vancouver, near this city, when 100 Hindus, many ex-soldiers being amongst them, were evicted after nightfall. On the coldest night yet experienced here this season the poor fellows, with bag and baggage, were huddled along the roadside shivering with cold. The eviction was accomplished with the aid of the town constable, acting under instructions of the municipal clerk. Residents came to the rescue and accommodated 35, but the balance remained on the road all night.

All came to town this morning and told a tale of inhumanity. Rent had been paid for one house and the owner of the other had accepted clearing in lieu.

At Greenwood cannery, Eburne, plans are being made for temporarily housing 500 Hindus, but strenuous opposition is being encountered. Residents refuse to furnish material or board the workmen making improvements.

WIFE SHOOTS HUSBAND.

Immediately Thereafter Commits Suicide—No Explanation of Tragedy

Chicago, Nov. 23.—James F. Delaney, vice-president of the American Shipping Co., was today shot and killed by his wife, who immediately afterwards committed suicide

NewYork, Nov. 23.—James H. Delaney, who was killed by his wife in Chicago today, was president and treasurer of the American Shipping company, which has a branch in this city. Mr. Delaney's home was in Chicago, but he frequently visited New York, and was well known here. He started for Chicago ten days ago. No one at Mr. Delaney's office here could throw any light on the affair. The two were married eight years ago, and had no children.

OUTPUT RAPIDLY INCREASING

Crow's Nest Coal Shipments Will Soon Regain Normal Scale

(Special to The Daily News)

Fernie, Nov. 23—Work at Coal Creek and Michel collieries is proceeding in a satisfactory manner, No. 9 at the former camp producing yesterday 550 tons. By the middle of next week this will have reached its standard output, while the tonnage from all the other mines is rapidly increasing and it will not be long before shipments will be on the same scale as prior to the strike.

This morning a slight accident happened to one of the Coal Creek box car loaders, but the damage was quickly repaired and little delay was caused to the operations.

Minard's Liniment Cures Colds, etc.

U. S. STEEL ADVANCES WAGES

New York, Nov 23—E. G. Gary, chairman of the board of directors of the United Steel corporation. today announced that the wages of common laborers in the plants of the subsidiary companies of the United Seel corporation will be increased ten cents a day beginning Jan. 1 next.

TORONTO STUDENTS AND POLICE

Toronto, Nov. 23—Toronto university students in sworn testimony before the police commissioners told stories of being clubbed by the police on the morning after Hallowe'en. They said they had offered no resistance. The police had also made use of threats and bad language, before charging against the students. No stones had been thrown, however. The investigation adjourned and at the next sitting the version of the police will be heard.

CHANCE FOR CASTELLANE

Count Boni Offered Job as Headwaiter in New York Restaurant.

New York, Nov. 23.—Count Boni de Castellane has only to say the word and it will be in his power to regard with lofty hauteur the fashionables of New York while they dine under his personal supervision in a Broadway restaurant. Authority as absolute as that which in anti-divorce days he exercised in Paris will be his if he elects.

It all lies with his decision on an offer cabled to him by J. R. Martin, proprietor of the Cafe Martin, at Broadway and Twenty-sixth street. The cable was worded substantially as follows:

"Count Boni de Castellane, Paris: Will contract to engage you as majordomo at salary of 50,000 francs a year to take entire charge of waiters and manage restaurant privileges of Cafe Martin. Oblige with immediate answer,

"J. B. MARTIN."

'Count Boni is just the man I'm looking for," said Mr. Martin. "My patrons will be interested in a head waiter with such an interesting career as that revealed in Mme. Gould's divorce. Count Boni is graceful, fascinating and undoubtedly knows good food and how to serve it. I made the offer a handsome one of $10,000 a year in case Count Boni has scruples about going to work."

Minard's Liniment Cures Diphtheria

E. O. Windsor, piano tuner, is in the city. Leave orders at Canada Drug and Book company. 156-tf

FUNDS FOR ONTARIO TREASURY

Offer of $15,000,000 Made for Mining Rights of Portion of Gillies' Limit

According to the Toronto Globe fifteen million dollars is said to be the amount which financiers recently declared themselves willing to pay the Ontario government for the mining rights on that portion of the famous Gillies lumber limit which is known to be rich in minerals. In accordance with the policy of the government, as announced at the last session of the legislature, the whole of the limit, comprising about 100 square miles, is withdrawn from prospecting. On the mineral section which has an area of about three square miles, and adjoins the Cobalt silver field, and which the government has decided is to be mined for the benefit of the people of the province of Ontario, active preliminary operations are already going on under the direction of government officials. Excellent ore has been taken out of the shaft now being sunk, and this no doubt will be sold to meet the expense of the work.

It was for this rich section of the limit that the offer of $15,000,000 was made. The parties who made it, the Globe is informed, were men of considerable standing in the financial world, of whose ability to carry out any agreement reached as to price there could be no doubt. In fact they are reported to have been ready to pay over a handsome percentage of the purchase money as soon as an agreement was reached, and the balance to be paid in fixed intalments on specified dates.

Whether the government will enter into an agreement of this nature is a question which will not be settled now, but they are not likely to do so without first laying the matter before the legislature. It might be that an arrangement will be reached whereby, after open competition, private parties will do the work on the limit either for fixed payments or a percentage of the ore, the government taking the larger share. This has not been discussed, and in the meantime the work now proceeding will continue tot be carried out under direct government supervision.

HOTEL CLERK MURDERED

Arkansas City, Kas., Nov. 23.—Early today two masked men in at attempt to rob the St. Charles hotel here, shot and killed William Goof, the night clerk, and wounded S. A. Halpin, an actor, so badly that he died a few hours later. The robbers escaped.

Headaches

When the Head aches and the Tongue is Coated

it is Biliousness or Constipation. Torpid Liver is at the bottom of the trouble. And it takes Fruit-a-tives to make that lazy liver work.

Fresh fruit is fine for these troubles, but one can't eat enough fruit to do much good. The medicinal elements are in too small proportion in the ripe fruits.

A clever Ottawa physician discovered a method by which fruit juices could be combined so that their medicinal action would be increased many times.

Fruit-a-tives are these fruit juices in tablet form. They sweeten and tone the stomach and liver, cure Constipation and remove all blood impurities. One Fruit-a-tives tablet has the same curative effect on liver and bowels as dozens of oranges, apples, figs and prunes. And this action is as gentle as the fruit juices themselves.

"I have been suffering with Torpid Liver and Constipation, and find that Fruit-a-tives are just what my system requires to relieve these complaints. I hope many more sufferers will try them."
MRS. WM. TREPPRY, Burnside, Man.

$1000 REWARD

The government of British Columbia hereby offers a reward of $1000 for information leading to the arrest and conviction of one Frank Cedio, alias Frank Agilio Painblanc, who on the 18th inst. at the Canada hotel at Niagara, B. C., murdered Louise King by means of dynamite or other explosive.

Description of Frank Cedio, alias Frank Agilio Painblanc:—

Italian, age about 38 years; height, about 5 ft. 6 1-2 inches; weight, about 150 lbs; brown hair, light brown mountache; may be clean shaven now; eyes light blue, thin face, small thin nose; slight scar on one cheek, extending downwards from eye to corner of mouth.

When last seen wore dark grey suit with black stripes, plaid pattern and tanned high top laced boots.

Wire or otherwise report immediately any information to Mr. I. A. Dinsmore, Provincial Constable, Grand Forks.

By Order,
F. S. HUSSEY,
Supt. Provincial Police

NELSON'S NEWS OF THE DAY

The degree team of Queen City Rebekah lodge No. 16, I.O.O.F., are requested to attend practice in the lodge room this evening at 8 o'clock.

The annual meeting of the Kootenay Curling association will be held in the board of trade rooms, Rossland, at 3 p.m. on Wednesday, Dec. 5.

R. M. Macdonald and S. S. Taylor, K.C., have returned from attending the sittings of the full court at Vancouver. R. S. Lennie is still at the coast.

The residence and grounds on Hall Mines road, purchased from E. T. H. Simpkins by B. A. Isaac over a year ago, have been sold to John Towler at a good advance. R. J. Steel put through the deal.

The recent sale held by the Catholic Ladies Aid realized the handsome sum of $350 over all lexpenses. It should be noted that it was Mr. and not Mrs. Youngman who won the prize cushion in the raffle.

The seat plan for the Pariovits Concert on Wednesday will open on Monday morning at 10 o'clock at Rutherford's for ticket holders and on Tuesday morning for others. Tickets may be procured at Fred Irvine and company's and at Patenaude's.

The local medical fraternity held a meeting yesterday at which the question of the fee to be charged for medical examination of life insurance applicants was discussed at length. It was finally decided *unanimously that the minimum fee in all* such cases should be $5.

The Jerry from Kerry company will hold the boards at the opera house this evening. The good performance given by the company on Monday last should ensure a crowded house tonight. Many of the specialties are very clever and the whole performance is well worth taking in.

Yesterday three actions, Stead vs. McLeod Mining Syndicate et al., Dougall vs. Harris and Gosnell vs. Hartwig, on the list for trial at the county court sittings which open before judge Forin on Tuesday next, were settled out of court and stricken from the list of cases.

The Spokesman-Review states that A. Robert Morton has just returned from a trip to this city, where he was married to Miss Evelyn Ried of Lucknow, Ont. Both Mr. and Mrs. Morton were fellow students at the Collegiate institute in Goderich, Ont., and the marriage is the culmination of an early romance. Mr. Morton is in charge of the wholesale credits and insurance of the Spokane Dry Goods company.

Last night in A. K. Wattie's office all arrangements for the forthcoming St. Andrew's banquet in the K. of P. hall on Friday evening, Nov. 30, were perfected and a most successful dinner is looked for. Geo. *Johnstone* will take the chair, the pipers will be on hand and a lengthy toast list has been prepared.

Last evening at 8 o'clock William Arthur Ward and Sarah Anna Brusch were married by Rev. R. *Newton Powell* at the residence of Mrs. A. C. Garde, Front street. Mrs. Garde's two little daughters acted as flower girls. The bride was attired in travelling costume. After the ceremony supper was served.

Nelson lodge K. of P. is arranging to hold its first annual roll call on Tuesday night next and the officers are making special efforts to have every member present, who has been or is now, a member of Nelson lodge. The team who have been practicing for some time will put on the exemplification work in the rank of knight on this occasion. All members of the lodge are to be accounted for on Tuesday night. Special music will be provided and refreshments will be served. The question of the reorganization of the uniform rank and the preparation of special drill will be considered in anticipation of the grand lodge session which will be held in this city next May. All members of the order and especially visiting K.P.'s are expected to be present Tuesday night.

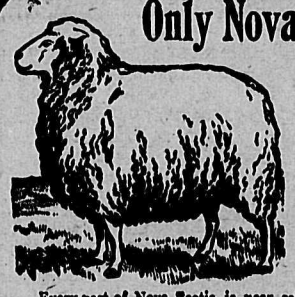
Only Nova Scotia Wool IN Stanfield's Unshrinkable Underwear



Every part of Nova Scotia is near salt water and the gentle sea breezes impart to the wool a peculiar texture and softness. This wool is long staple and of great strength and elasticity. "Stanfield's" is the only Underwear in the world made from Nova Scotia combed wool.

J. A. GILKER, Agent.
