CANADA WINS CHIEF EVENT

W. Sherring of Hamilton Defeats the Athletes of the World

Marathon Long Distance Race, Chief Contest of Olympic Games Won Easily by a Young Canadian Runner

Athens, May 1.—Interest in the Marathon event, the big event in the Olympic games, overshadowed everything today. Everyone was in a fever of impatience until the result was known. All the shops were closed and business was completely suspended. The whole population of Athens and its suburbs and the villages in the vicinity, altogether some 150,000 persons, filled and overflowed the stadium and spread along the Marathon road and the surrounding hills forming a tumultuous, swaying human barrier on each side of the entire length of the course, behind the military cordon lining the road.

The competitors spent the night as the guests of foreign minister Skouse at Marathon. Classified by nationality, the runners consisted of 26 Greeks, seven Britons, including Canadians and Australians, five Americans, three Germans, two Frenchmen, two Italians, three Swiss, one Belgian, one Dane and two Egyptians. The favorites were Petri, Italian; Bonheure, French, and Coutoulaki, Greek, the British and Americans also having numerous supporters.

The contestants started in three lines, one metre apart, exactly at 3 o'clock. The weather was splendid, the thermometer showing 80½ degrees in the shade. A mounted officer, riding in front with a chronometer, acted as timekeeper. Hundreds of vehicles of all kinds followed the fortunes of the contestants, outside the cordon holding the course. The race started at a hot pace. At the tenth kilometre W. K. Frank, American, was leading, followed by the Bohemian, Brensiay. At the 15th kilometre Frank was still ahead, but Daly, Ireland, had taken second place with Blake slowly creeping up. At the 20th kilometre, which was reached at 4.1 p.m. Blake was leading grandly, running a magninficent race, followed by Frank and Sherring, Canadian. The latter, who was now beginning to show himself in his true colors, was slowly gaining on his opponent. At the 26th kilometre uphill work was going on.

At the beginning of the last ten kilometres of the race Frank was still leading, but obviously pumped and distressed. Sherring was second and Blake third. The time at this point was 4.40 o'clock. Sherring was running magnificently, but had stopped to rest. Petri had dropped out on account of stomach trouble. Sherring now speedily took the lead, followed by Suamberg, Sweden, and Frank. When he found himself well in the lead, Sherring dropped into a walk, giving himself a great rest for the final spurt. Whenever he saw his opponents approaching, he resumed the running and in this manner tired them all out except Suamberg and Frank, who always were a good distance behind. Sherring joked and laughed with his friends, and returned the salutes of the cheering crowds.

A cannon shot announced the arrival of the first runner within four kilometres of the stadium. The cheers along the roads grew into roars as at 5.50 pm. a cavalry officer, followed by a single runner was seen approaching. At the gates of the stadium Sherring, smiling and looking fresh and not at all distressed, was joined by crown prince Constantine, who ran alongside until he ended his long journey in front of king George and queen Olga.

The king handed Sherring a bouquet, while the ladies showered flowers and gifts on him. There was great cheering and enthusiasm, although the Greeks evidently were disappointed. Suamberg followed seven minutes behind the winner, and Frank came about two minutes later both done up. The king and queen both congratulated Sherring in the kindliest manner. Sherring's time for this 26 mile run was 2 hours 51 minutes 23 3-5 seconds, while that of Suamberg was 2 hours, 58 minutes, 20 seconds, and Frank's, 3 hours and 46 seconds.

The cycling race of 80 kilometers, to Marathon and back brought a splendid finish, Vast winning by two yards from Bardonneau.

The Green style discus throwing contest was won by the Finlander, Jervinseau, with 35 metres; Georandas, Greek, second with 32 metres, and Mudin, Hungarian, third, with 31 metres, 78 centimetres.

The running high jump was concluded today. C. Leahy, England, was first, with one metre 77½ centimetres; Garczy, Hungary, was second, one metre, 76 centimetres; H. W. Kerrigan, United States, and Dlakides, Greece, tied for third place, with one metre 72½ centimetres.

In the final of the hurdles R. G. Leavin, United States, won, time 16 1-5 seconds; A. Healey, England, second, and Dunicker, Germany, third. The final of the 800 metres race was won by Paul Pilgrim, New York, time 2 mintes, 11½ seconds; James D. Lightbody, of Chicago, was second, and lieutenant W. H. Halswell, England, was third.

P. O'Conner of the British Olympic games team, has lodged a formal protest against M. Prinstein's win in the running broad jump on April 27th on the grounds: first, that though Prinstein's number was 40, he jumped third, in order to take advantage of the smooth track before it was cut up; second, that Halpin in the absence of the official measurer, assumed the duties of judge and measurer, and third, that whilst thus acting Halpin declared two of O'Connor's jumps foul. The claim is also made that one of those jumps exceeds Prinstein's. The protest was not allowed but the matter has excited warm feeling.

Hamilton, Ont., May 1.—William Sherring is a Hamilton boy, who all his life has been devoted to thletics. That he should win the Marathon race is not to be wondered at, when it is considered that Hamilton is the city where all Canada's great long distance runners have been coming from during the last few years, including Caffrey, who won the Marathon race at Boston, which is over a distance of about 25 miles, for two years. Sherring has run in this race, and in 1900 came second to Caffrey.

Sherring went to Athens by himself, and went in for six weeks hard training there. He wrote to friends to say that he was not afraid of the native runners, but he feared the Americans, who would probably have several men in the race to make the pace for their best men. He said the course was 26 miles, and was a very hilly affair, but expressed hopes from the outset that he would win. The training came very hard to him on account of the great heat and the exceedingly glaring whiteness of the roads.

OBTAINS THE SUBSTANCE

GREAT BRITAIN'S TIBETAN TREATY WITH CHINA.

GETS TRADE MONOPOLY WHILE RECOGNIZING PEKING

Peking, May 1.—The Anglo-Tibetan treaty today was officially published after its ratification. In substance it is as follows: "China pays the expense of the recent British expedition to Lhassa in instalments and Great Britain recognizes China's sovereignty over Tibet. China opens the Tato towns, Gyangze and Kateko, to trade. Railways, telegraphs and mines are to be built or operated by China and Great Britain but Great Britain will not interfere with China or Chinese merchants providing the capital for enterprises of this character. Applications from British investors for interests in such enterprises are to be made to the Chinese governor of Lhassa, when he approves ratification by the Chinese government will be necessary.

"On the full payment of the expense of the military expedition Great Britain will withdraw her troops from Chumbi but may withdraw sooner. After the withdrawal of British troops, China must protect British trade. Political relations will be conducted with the residents at Lhassa. A tariff on British imports will be arranged later by a separate convention."

MAY DAY CELEBRATIONS

LARGE MEETINGS DISCUSS LABOR SITUATION

MANY DEMONSTRATIONS REPORTED BUT LITTLE VIOLENCE

London, May 1—Eight thousand men and women took part in labor demonstrations in Hyde Park this afternoon, but complete order prevailed.

Vienna, May 1—May day was observed throughout Austria-Hungary and passed off quietly. The labor demonstrations in the provinces were not of a violent character.

Rome, May 1—May day passed off quietly here. Workmen's meetings were held in all the large towns and many inflammatory speeches were made but no disorders have been reported. This is partly due to the tact of the authorities in avoiding a display of military force, as is customary.

Berlin, May 1—The May day assemblages of working men were larger in Berlin and the industrial centers of Germany today than for several years previously, but no disorder has been reported. Sixty-two meetings of socialists were held in Berlin. At one of these meetings 10,000 persons were present and at another 5000. Work continued at many of the factories here and elsewhere.

Warsaw, May 1—In Poland today three policemen were killed in the streets during the night, but the threatened May day outbreaks have not materialized up to 2 o'clock this afternoon. Warsaw is like a city of the dead. The shops and restaurants are cosed. No cabs and no street cars are running and no newspapers are being sold. The streets are patrolled by troops, but a heavy rain is falling which is keeping the people in doors.

INSURANCE INVESTIGATION

Manager Junkin Denies Having Received Financial Assistance

Toronto, May 1—On the insurance inquiry being resumed today, manager J. F. Junkin of the Manufacturers' Life, was again on the stand. During the course of his testimany Junkin declared that the present system of only allowing insurance companies to invest in certain classes of companies was all wrong, because the stability of a company often depended upon who were the directors. If he was making a suggestion to the government he would ask it to give Canadian companies the same freedom regarding investments as English companies have. This would improve matters, because directors would have greater responsibilities.

He declared emphatically that neither he nor his brother, who is assistant general manager, have received any financial aid or commission from the Manufacturers' Life company while holding their present positions. His salary was $9000 a year and that of his brother was $6000.

Mr. Junkin was on the stand all day. He further explained that certain stock transactions had been made on the authority of the finance or executive committees. Frequent sales were accounted for by the fact that the brokers were instructed to sell when the stocks reached the price fixed by the company. The experience of 1903 has made the company a little more careful and conservative in its stock transactions.

INCREASE MAINTAINED

DOMINION FINANCES ENTIRELY SATISFACTORY.

REBATE ALLOWED ON IMPORTS FOR 'FRISCO.

(Special to The Daily News)

Ottawa, May 1.—British Columbia has asked the dominion government to consent to a rebate of duty on any imported goods that may be forwarded to the sufferers in San Francisco. This will no doubt be granted, provided it is clearly shown that the goods were imported.

The customs receipts of the dominion for the ten months ending April 30, show an increase of $3,077,508 over the same period last year. The receipts for the past ten months were $37,987,024. The revenue for the past month was $3,940,994, an increase of $647,657 over April, 1905.

Andrew Carnegie formally opened the Carnegie library here this afternoon. Mr. Carnegie also paid a visit to the house of commons and was provided with a seat beside the speaker.

CALGARY BANK CLEARINGS

In First Week Takes Standing Higher Than Many Cities

Winnipeg, May 1—The first report of the Calgary clearing house is surprising as very few people expected to find that at the outset it woud take rank with St. John, N.B., London, Ont., and Victoria, B.C., and other important commercial centers in Canada. Even ambitious Hamilton, with its larger population, numbering now nearly 60,000, does not exceed the first clearing week of Calgary by more than about a quarter of a million.

In the United States there are about 30 cities that make regular clearing returns that do not average as high as the standard set by the first week of Cagary's figures.

The measure of commercial growth which is indicated by the bank clearings will serve to show how the new cities of western Canada are rapidly growing into centers of importance. Incidentally these returns will also show that the settlement of the broad pains of the west is not mere boom talk, but actual facts. The amount of the clearings for the week ending April 28, were $886,000.

RAILWAY RETURNS LAND

Finds That it is Unable to Live up to its Contract

Toronto, May 1—Over half a million acres of land, part of the grant of the province of Ontario to the Grand Trunk Pacific railway, are to be returned to the government by the railway company and in return for this concession the government will relieve the company of its obligation to place a certain number of settlers on the land each year. The government grant was $3000 a mile and 1,200,000 acres of land for the Fort William branch, the railway company agreeing to place 400 settlers per year for ten years on the lands granted. The return of the land relieves the company from this obligation.

METHODISTS ARE STIRRING

Agitate Against Provincial Recognition of McGill

Toronto, May 1—The movement to increase the endowment of Victoria university by $300,000, making a total of $900,000, is now practically completed. Rev. Dr. Potts leaves for the west shortly and will probably make arrangements for establishing a second Methodist college in the new provinces. Moose Jaw will likely be selected as the location.

Dr. Potts will also go to British Columbia to again urge the British Columbia government to rescind the legislation making McGill university degrees the authorized degrees for that province.

A RECORD PERFORMANCE

Winnipeg, May 1—The audience which greeted Madame Sarah Bernhardt here tonight, was a record one for western Canada, and a fitting tribute to the art of the great actress. The advance sales were slightly in excess of $6000, and even the divine Sarah never faced an audience before which represented such a vast section of country. People were present from Calgary, 900 miles west, from Fort William, 400 miles east, and from Prince Albert, 600 miles northwest. Her performance justified the greeting extended.

DEATH OF WELL KNOWN TYPO

St. Catherines, May 1—Edward Holmes, probably the oldest and best known printer in Canada, is dead, aged 83 years. He was at one time associated with sir Mackenzie Bowell in the printing business. He was with the Globe at the time of George Brown's connection with that paper. He founded the Clinton New Era and turned it over to his son, Robert Holmes, M.P., and went to Toronto, where he was assistant librarian in the legislature for a while.

REMARKABLE ESCAPE

Winnipeg, Map 1—A lineman named Hesser, employed by the Street Railway company, while at work 40 feet from the ground, received a shock of 2000 volts and dropped unconscious to the ground, where he was caught by a fellow workman. He thus escaped the injuries of the fall and shortly afterwards recovered from the shock and is now little the worse for his remarkable experience.

SETTLERS IN SASKATCHEWAN

Regina, May 1—The homestead entries filed at Regina during April numbered 1516. This is the largest number of homesteaders ever filed at the office in one month and is 47 ahead of the record for April, 1905. The total for the ten months from June 30, 1905 is 8786, as compared with 7986 for the whole of the previous year.

BIG ASSESSMENT ROLL

Winnipeg, May 1—While the assessment roll for this year is not yet completed, enough is known to indicate that it will show an assessment of $73,478,300, or twelve million in excess of last year.

STEAMSHIP ARRIVALS YESTERDAY

Boston—Bohemian, Liverpool.
Dover—Zealand, New York.
Moville—Victorian, Halifax.
Queenstown—Oceanic, New York.

REVOLUTION IS ABORTIVE

French Government Shows Ability to Manage the Uprising

Demonstration Everywhere is Reported a Failure Without a Single Life Having Been Reported as Being Lost

Paris, May 2.—The long dreaded labor day failed to bring the revolution which inflammatory journals predicted, but none the less, it brought scenes of extreme violence. The labor districts, which thousands of troops controlled with difficulty, and even portions of Paris, have taken on the appearance of a siege with regiments of infantry and cavalry camped about the Arc de Triomphe, the bank of France and the great railway station, while military sentinels pace before banks and private residences. The main residential portions remain tranquil. In the west end, far removed from riotous scenes, the people were disposed to treat May Day lightly.

Throughout the afternoon, dragoons, republican guards and cuirassiers charged disorderly masses, sweeping the place de la Republique and the broad Boulevard de Magenta again and again. Toward nightfall the cavalry charged with drawn swords and many persons were wounded on both sides. The manifestants overturned omnibusses and threw up hasty barricades. Over one thousand arrests were made during the day. At no time did the demonstration reach the magnitude of a revolt, but was rather a leaderless turmoil. The workmen never succeeded in forming a procession or even in amassing more than a few bands. Their chief action was a reunion of several thousands in the labor exchange at which a resolution was adopted not to return to work until the eight hour day shall have been accorded. The worst hours of the day were towards 5 o'clock in the evening when the police practically lost control and were compelled to rely on the mounted troops. The latter, forming lines 20 yards across, and 15 yards apart, swept around the place de la Republique, driving the disorderly crowds into the surrounding streets. Most of the mob sought refuge on the Boulevard de Magenta and in the Quai de Valmy, which became centres of disorder. Here trumpets sounded repeated commands to disperse and the cavalry galloped into the crowds, trampling and injuring many.

A body of foot guards surrounded by manifestants was rescued with difficulty by cavalry with drawn swords. Here a considerable number were wounded. Throughout the disorders the authorities succeeded in executing their original plan of holding the disturbers strictly within the limits of the labor districts and of not permitting them to press toward the wealthy, commercial and residential sections.

Tonight vehicular traffic is completely suspended. Cabs, omnibuses and stret cars are not running, the result being to give the usually busy boulevards a singular aspect of desertion. Enormous crowds of curious persons fill the streets. The opera and other state theatres are open, the opera having two squadrons of cuirassiers in the basement, while Felix Weingartner is conducting a Beethoven festival in the auditorium.

The banks were closed throughout the day. At 10 o'clock tonight dragoons still guarded the streets surrounding the bourse and other great financial establishments. The temper of the workmen tonight is threatening. They claim that the police acted brutally and cite many incidents of innocent people being beaten and arrested. They declare that today was only the beginning of the movement.

The day dawned showing that the government with its prodigious preparations had made many quarters of the city present the appearance of an armed camp. The forces concentrated under prefect of police Lepin are estimated at 50,000 troops ,12,000 police and 8000 republican guards, gendarmes and detectives.

Detachments of troops of all arms took up postions in the main centres at an early hour. The first trouble was at the place de la Republique which was the scene of countless arrests as the number of disorderly persons had increased there by several thousands. The prisoners were immediately taken before magistrates who quickly passed upon them and the disturbers of the peace were taken to jail.

Detachments of troops then took up a postion around the bank of France, while cavalry and infantry detachments assumed the positions assigned them throughout Paris and on the outskirts of the city. A squadron of cuirassiers with an ambulance occupied the part of the place de l'Etoile, facing the Champs Elysee and detachments of cavalry patrolled the thoroughfares in the vicinity of the ministries and the quay Dorsua. A police guard was stationed at the American embassy.

Many anarchists have been expelled, including Stephane Guerezicoff, and one woman. M. Leby, secretary of the confederation of labor, and M. Fromestal, the wealthy anarchist, also have been arrested. A little before noon delegates from all the trades assembled at the labor headquarters and at the labor exchange, to the number of 6000, where meetings were held. The military surrounded the buildings and awaited the exit of the strikers; with them was prefect Lepine who counselled calm.

In the meantime police charges were continuous on the boulevard Magenta, where the striking printers attempted to march in procession from the bourse du Thavail, the labor headquarters, singing a revolutionary song. They attacked the police who intervened, and the latter were compelled to draw their revolvers. The procession was then broken up.

Reports from the provinces show that there were violent demonstrations at Marseilles, Brest, Bordeaux, Lyons and Rouen, at which place the telegraph wires were cut. At Marseilles processions, carrying red flags and creating violent disorder, came in collision with the troops, and a number of persons were injured. At Bordeaux processions paraded the streets singing revolutionary songs, and the cavalry charged them wounding many. At Lyons a crowd of manifestants attacked the street cars, breaking the glass windows, whereupon the dragoons charged the rioters, wounding a large number. There were lesser disturbances at many points.

Paris, May 2.—4.25 a.m.—The night has been quiet throughout. Several bombs were found by the police but none were exploded. The bombs were conveyed to the municipal laboratory for examination. One was found at the Austerlitz bridge, one on the Metropolitan viaduct, near the opera, and another at Notre Dame de Lorat. A further attempt was also mode to derail the train proceeding to Dieppe. On the Western railway a heavy rail was placed on the track near Rouen, but contact with the wheels of the engine caused the obstacle to leave the track.

STRIKE WILL BE FORCED

MOUNT CARMEL SHOOTING PRECIPITATES A STRUGGLE

PRESIDENT MITCHELL REGRETS THE OCCURRENCE

Philadelphia, May 1—The local branches of the Miners' union are electing delegates to the conference at Scranton on Thursday and most of them are instructing their delegates to follow president Mitchel's advice implicitly. There is no question but that the shooting at Mount Carmel may lead to a strong movement in favor of a strike.

President Mitchell, who is at Wilkesbarre, when asked about the matter today said: "The action of the troops there seems to confirm the fears of the foreigners that the location of a state constabulary was to establish a Russian institution in this country. The shooting was seemingly uncalled for and is greatly to be deplored."

BOUNDARY CUSTOMS.

Offical Returns For Month of April at Subports.

(Special to The Daily News)

Grand Forks, May 1.—The following are the official returns from the various customs offices for the month of April, as received by R. R. Gilpin, the chief collector at Grand Forks:

Grand Forks	$1,970.05
Greenwood	2,825.18
Midway	1,537.87
Phoenix	1,153.09
Carson	133.00
Cascade	75.74
Keremeos	64.20
Sidley	49.00
Osoyoos	25.41
Total for district	$7,833.54

CONTRACT LET

Granby Furnace Building Roofing—Mining Notes

(Special to The Daily News)

Grand Forks, May 1—J. C. and Angus McDonald of the local steel structural works, have been awarded the contract for roofing the Granby furnace building. The contract calls for about $10,000 worth of work.

E. R. Knight has just come in from the Blue Boy claim in Knight's camp. The open cut made across the copper lead has shown up well and some satisfactory assays have been obtained.

The owners of the Never Slip, six miles east of here, have commenced opening up the property by means of an open cut which will crosscut the ledge.

The evidence in the proceedings to extradite E. E. Stone, who is wanted for a recent burglary at Danville, is all in and argument for counsel was heard today.

PROSPERITY OF WINNIPEG

Bank Clearings and Customs Receipts Alike Tell the Tale

Winnipeg, May 1—The bank clearings for April were $32,959,258 as against $22,646,778 in 1905, and $18,884,556 in 1904.

The customs collections for the month amounted to $306,124.77, as compared with $199, 412.25 for the corresponding month last year, an increase of $106,712.52. This record reflects the rapidly expanding trade of western Canada. Building permits have reached the three million mark this season.

WITTE'S RESIGNATION

St. Petersburg, May 1—While the czar may have decided to accept premier Witte's resignation, until the fact is published in the Official Messenger, nothing is absolutely certain. The count is said to be worn with the constant struggle, but nevertheless the situation at the Tsarskoe-Selo changes with unexpected rapidity.

VILLAGE BURNED UP

Watertown, N.Y., May 1—The business portion of Depauville, a small village, 15 miles north of here, was destroyed by fire early today. The loss is about $100,000. The village is without fire protection and is not on a railroad and all that could be done was to allow the fire to burn itself out.

TUGMEN JOIN STRIKE

Buffalo, May 1—At a meeting this evening the Licensed Tugmen's association notified the representative of the towing companies that they would not pass a line to a boat of the Lake Carriers' association, or any other boat with a non-union pilot on board. With the exception of two tugs, all towing was tied up tonight. The two tugs in commission are to handle the Cleveland and Buffalo and Detroit and Buffalo passenger boats, which are carded as "fair." Not a boat left the harbor today.

THE FRENCH ELECTIONS

TITLED CLASSES TAKING VERY ACTIVE INTEREST

SOCIOLOGY WILL OCCUPY PLACE OF POLITICS

Paris, May 1—An unusual amount of interest is manifested in the forthcoming elections. Public opinion no longer concerns itself with external politics, but is wholly given up to the political struggle which has already begun at home. The greatest activity reigns among the political parties, and walls and boardings and even public monuments are beginning to break out into multi-colored spots caused by the posters bearing the declarations, proclamations, protestations, challenges and what not of the rival candidates.

One particularly interesting feature characterizes the present electoral campaign. It is the active part played by the aristocracy in the struggle. Hitherto the nobility had held aloof from participation in questions of republican government. With a few rare exceptions French noblemen have disdained to take part in the affairs of a government for which they professed a haughty disdain, when not proclaiming their absolute disapproval. To-day, much to the astonishment of everyone, among the list of candidates are to be seen the names of the young representatives of some of the most distinguished families. Such men as the comte Mathieu de Noailles, prince de Tarento, duke d'Uzes, marquis de Gallard, comte Bernard de Gontaut, baron de Traville and many others have come forward as aspirants for a seat in the chamber of deputies. Not one of these noblemen is to be seen flaunting the colors of the royalist party, and the people may be sure that they are sincere when they declare "We are republicans."

It will be a new and curious spectacle to see the ranks of the republic's representatives invaded by the titled classes and to find them bunched together under the national standard for the purpose of defending the nation against socialism and irreligion. It will not be astonishing to find the next chamber of deputies divided into only two camps—the Collectivists and the Clericalists—and to see the legislature occupied with questions of sociology instead of politics.

WILL ADVANCE BIG SUM

SAN FRANCISCO REBUILDING IS FINANCED.

NEW YORK CAPITALISTS PUT UP $100,000,000.

San Francisco, May 1.—The first definite proposal for the furnishing of money on a large scale to San Francisco to rebuild some of the burned sections, was made public today when it was announced that a syndicate of New York capitalists had agreed to advance $100,000,000.

The news came in a telegram received by W. F. Herrin, chief counsel of the Southern Pacific, from United States senator Newlands, of Nevada, who had a large interest in the burned Palace hotel. Senator Newlands stated that he had submitted the plan to New York financiers and they had virtually consented to supply the money on a bond and mortgage basis. The offer is under consideration.

It was decided today that the citizens' committee would accept all offers of aid from foreign countries. The local money stringency was somewhat relieved today by the banks resuming business in a small measure through the branch of the United States mint. Well known depositors were given certified cheques for small sums by the banks, and business clients of commercial banks were accommodated, if they so desired, with sums not exceeding $500 each.

INLAND REVENUE RETURNS

The collections at the Nelson inland revenue office for April were as follows:

Spirits	$2,068.79
Malt	282.60
Raw leaf tobacco	91.20
Cigars	189.00
Total	$2,632.59

KING EDWARD'S FALL

Naples, May 1—The fact that king Edward had a slight fall on the stairs of the royal yacht Victoria and Albert yesterday before leaving for Mount Vesuvius, caused the circulation of exaggerated rumors about the accident. The king, however, was not injured and laughed at his mishap.

LAKE STRIKE AT CHICAGO

Chicago, May 1—At midnight last night all the members of the Longshoremens' union at South Chicago, numbering about 3000 quit the work of loading and unloading vessels. Of these 1500 are ore handlers, and three ore laden steamers will be tied up by the strike. The grain trimmers are included in the order.

THE RAFAKH BOUNDARY

Cairo, May 1—Further trustworthy reports show that there is little doubt that the boundary pillars at Rafakh have been pulled down and have not been replaced and also that Turkish soldiers removed the telegraph posts from Egyptian territory, where Turkish soldiers are now encamped.

'FRISCO'S NEW CITY HALL

San Francisco, May 1—San Francisco is to build a city hall at once, a temporary structure, but one which will do away with the necessity of paying the high rent, which the owners of property available for municipal use are inclined to charge.

BURNED TO THE GROUND

Montreal, May 1 — The furniture and wood working factory of W. W. Scott and company was burned to the ground early yesterday morning. The total loss is between $20,000 and $30,000.

NEW CANADIAN BANK

Toronto, May 1—The Sterling bank, the latest organized financial institution of Canada, opened for business here today. It has 15 branches in the province.

WATERPOWER QUESTIONS

International Commission Will Meet at Ottawa Tomorrow

Canada to Insist That all Power Matters Shall be Settled as Well as That of Niagara Falls

Buffalo, May 1.—While the Canadian government desires to preserve the natural beauties and scenic grandeur of Niagara Falls, it is nevertheless firm in its purpose to have included in any treaty made with the United States, relative to the falls, the adjustment of other waterpower questions of importance to the interests of Canada which have arisen along the international border.

This is the attitude which the Canadian government representatives on the International water ways commission will present to the American commissioners, when the commission resumes its negotiations at Ottawa on Thursday. Should the Americans not be clothed with the proper authority to meet the Canadian demands, the Canadians probably will advise an adjournment until the Washington authorities have been consulted in the matter.

When Canada accepted the suggestion of the United States government and appointed three representatives on the commission it was with the object that this body would clear up vexatious disputes that had arisen in border waters any where between the Atlantic and Pacific. It was subsequently discovered that the authority of the American commissioners was limited to the great lakes. However, in order to facilitate the attainment of the object in view, the Canadian commissioners were empowered to join the American colleagues in considering the lakes problem, expecting meanwhile that the United States congress would extend the jurisdiction of its commissioners, and the Canadians are prepared to meet the American representatives half way in any treaty proposals upon which they may decide.

If treaty arrangements are proposed, there seems no good reason, in the Canadian view of the situation, why they should not redress the disputes respecting the St. John river, which, it is claimed, is being diverted from its natural channels for the benefit of the lumbermen of Maine. The threatened diversion of the Rainy river is another subject in which Canadian interests are affected, and the Milk river dispute in the west, is one that has already given rise to much discusion, and both American and Canadian commerce alike on the great lakes is vitally concerned in the possible effect that the diversion of a large flow of water into the Chicago drainage canal is going to exercise on the level of the lakes.

The recent legislation introduced by Mr. Burton in congress is regarded as being designed, in part, to force Canada into an acceptance of the terms that the United States will offer for the preservation of the falls. The clause, which prohibts the importation of additional power from Canada, would, as it is claimed the framer probably contemplated, be followed by such a determined protest from Ottawa, on the part of the companies now exporting power to the United States, as would force the dominion government into an acceptance of the bargain that it is said Washington statesmen desire to obtain.

The declaration of a certain company's advocate at Washington, in opposing the Burton bill, that the original treaty, now in force, provides for an equal division of the water between Canada and the United States at Niagara, and proposed that the bed of the river be lowered so as to draw the water from the Canadian to the American side is a new view of the treaty situation, and is not taken seriously by the authorities at Ottawa.

CARNEGIE IS HONORED.

Monreal, May 1.—Andrew Carnegie paid a visit to Montreal today, arriving this morning from Ottawa. Immediately after his arrival he took a drive on the mountain in company with some authorities of McGill university and afterwards lunched at the Canadian club. He spoke for a few moments urging the unity of races, but saying nothing new upon the subject. He was in humorous frame of mind and this continued when he attended the special convocation of McGill at which the honorary degree of LL.D. was bestowed upon him.

DIED FOR LOVE

Fredericton, N.B., May 1—Howard Bailey 19 years old, of Marysville, blew out his brains last night, being unable, he said, to live without his sweetheart, Margaret Cameron, to whom he was betrothed, and who died on Saturday.

M'CRAW ALLOWED APPEAL

Quebec, May 1—An appeal has been allowed in the McCraw case and the case is continued to next October. McCraw was to have been hanged in June.

MURDER IN WINNIPEG

Winnipeg, May 1—Salvator Maerie, an Italian, was placed under arrest last night charged with the murder of Giovanni Romani, a fellow countryman.

A JOURNALIST HONORED

Queen's university has conferred the honorary degree of LL.D. upon J. S. Willison, editor of the Toronto News.

In introducing Mr. Willison to the chancellor, sir Sanford Fleming, professor James Capon described him as the most eminent figure in Canadian journalism of today. This high tribute we believe was well merited. Mr. Willison certainly fills a very important place in the Canadian world of journalism, and whilst his "independence" savors of the party scold, it must be admitted that he has brought to bear upon his editorial work a literary skill and a broad, almost philosophic, view of public affairs that have done a great deal toward elevating the tone of newspaper discussions. His is certainly the strongest personality in Canadian journalism today, and Queen's university made no mistake, when marking its recognition of the important place journalism fills in the national life, in selecting Mr. Willison as the chief living representative of the Canadian press. In his speech in acknowledgment of the honor conferred upon him, Mr. Willison referred to the future of Canada, and his remarks in this connection form an excellent criterion of his attitude toward public affairs. Whilst in the heat of political controversy he may sometimes adopt a less exalted strain, on the whole it may be said that Mr. Willison uniformly discusses all topics of vital interest to the people at large in the spirit disclosed in the following citations from his convocation speech:

"We all rejoice at the alluring prospect which now opens before Canada. We rejoice that at last we have commanded the world's notice, that hundreds of thousands of settlers are swarming over the western prairies, that commerce flourishes and trade expands, that the croak of the pessimist has ceased in the land, and that hope and confidence and energy abound. No man with seeing eyes and hearing ears can face that prospect and believe that this must be a land of small men and small politics. The picture should touch the imagination of the Canadian people and give the note of soberness and gravity to all our political debates. It means that our politics are worth while, and that a seat in the Canadian parliament is a trust of great dignity and responsibility. We are not at our best when we wrangle over sessional indemnities and the distribution of petty offices, and we are at our very worst when we juggle with the election machinery, and manipulate public contracts and award public works, and even pervert the constitution in order to serve the sordid ends of a dominant political organization. We have as great natural resources as any land ever possessed. We have instruction and warning in the social and industrial evolution of the United States. We have example and inspiration in the traditions and achievements of the Mother Country. It is, therefore, our obligation and our privilege to build upon all this body of experience and all this wealth of tradition a higher and a sounder civilization than even that which the fathers established and bequeathed to this generation. In this there is nothing of the cant of pharisaism, the illusion of the dreamer or the pretension of the mountebank. If we do less we set aside all the teachings of experience, all the value of tradition and all the advantages of wider and greater opportunities and declare that it is not true that

"Through the ages one increasing purpose runs,
And the thoughts of men are widened with the process of the suns."

"It is not too much to expect that we shall have primary and secondary schools which will nourish good manners and simplicity of life and fashion in the youth of the land, integrity of character and a passionate zeal for private and public honor. We should have universities where learning is reverenced for its own sake and money is not lord of all. We should set social fashions which are not rooted in competitive display and vulgar ostentation. We should maintain a relationship between capital and labor in which neither will be taskmaster, under which old men may live, and every deserving wage-earner have a fair certainty of employment and a dwelling sacred to his own family circle. Even though we make new ventures in legislation, and introduce new processes of taxation we should have cities where the slum and the tenement cannot exist and where the park and playground and conditions of decency and cleanliness are accessible alike to rich and poor. We should do something to restore the independence of the citizen, to check the despotism of party and to exalt faithful and courageous service for the commonwealth. And to Queen's and other great educational institutions we have the right to look for example and inspiration, for moral energy and intellectual vigor. Surely it is from the universities of the country that these impulses to greater independence of thought and action should proceed and surely it is the students who go out from academic halls who should give character to our public life and vigor and efficiency to our free institutions."

Newspapermen all over the dominion will cordially congratulate Mr. Willison upon the distinction he has obtained. He has brought honor to a profession that, as a rule in the distribution of public honors is passed over, and there must have been something decidedly *forceful in his work for this notable exception* to have been made in this favor.

FRED IRVINE & CO.

being allowed to operate rotary furnaces on Sundays, but could not approve of British Columbia fruit-growers being allowed to ship fruit on that day. He was willing to fall in with some of the demands of the transportation companies, but strongly opposed any concession in the matter of Sunday excursions, although willing that the people should be given means of reaching parks, or going out on the water. He would not consider for a moment any concession being made to the religious views of Jews or Seventh Day Adventists, arguing, in effect, that if they were hard hit, their beliefs and religious practices were to blame. Senator Power is a strong supporter of the bill, but even he could not stand for the stopping of street cars on Sundays or the prohibition of shooting at targets. He also wanted provision made in the bill for hunting and fishing on Sundays. When the committee has completed its labors and the bill is reported back to the house, the minister of justice should have it reprinted with the necessary interpretation clauses and then laid over until next session of parliament so that the country may have ample opportunity to study it in its new form before it become the law of the land. Legislation of this class is most pernicious and will not be retained on the statutes any length of time, and if some kind of a measure has got to be put through temporarily it should be made as harmless as possible.

TWENTY THOUSAND CLUB

Another Pamphlet to Be Prepared—Big Concert For Monday Next

There was a meeting of the executive of the 20,000 club last night at 8.30 o'clock in the board of trade rooms, F. M. Black being in the chair. Those present were F. M. Chadbourn, secretary; W. W. Beer, S. A. Kelly, J. L. Buchan, Melville S. Parry, Le B. de Veber, E. W. Widdowson, J. Coxhead, W. H. Jones, S. M. Brydges and I. G. Nelson.

Reports were made from the various committees showing progress made, the most important being done by the advertising committee who were instructed to prepare a general pamphlet on city power, mining and sport and scenery, the draft of which is to be presented at next week's meeting of the executive.

A discussion took place upon the proposed changing of Nelson time which was generally approved and a resolution was passed that the views of the Trades and Labor council and of the citizens in general be ascertained with a view to a fuller discussion at a later date.

Ways and means as to the big concert which is to be pulled off by the club on Monday night next were then taken up and a fine program was reported. General assistance is being obtained from the business community as to the advertising of the musicale. It is the intention to keep the program as closely as possible to the popular taste. As there are no less than 20 numbers already arranged for there are to be no encores so that the hour of termination may not be inconveniently late.

BOUNDARY ODD FELLOWS.

(Special to The Daily News)

Greenwood, May 1.—The local lodge of Odd Fellows observed the 87th annual anniversary of the order by attending divine service at the Presbyterian church last night. The order turned out almost 100 strong, headed by the city band, and the church was filled to its capacity with Odd Fellows and their friends. Rev. M. D. McKee pneached an eloquent sermon dealing with the principles of Odd Fellowship and religion, showing them to be identical. He also emphasized the important place Odd Fellowship holds in the moral and social life of the members and the great work the order is doing in all parts of the world. He congratulated the members on the progress of the local lodge during the past year and upon its present prosperity.

MUST ISSUE LICENSES IF LAW IS COMPLIED WITH

The recent decision of the full court in the appeals of Smart and Leckie are of the utmost importance to all holders of provincial licenses, and in view of that fact the full text of Mr. justice Duff's judgment delivered at Victoria on April 21 is appended. His lordship's judgment constitutes the finding of the full court, Morrison, J., concurring and Irving, J., concurring in one appeal but differing with the other two judges on the second case.

The facts of the cases are very clearly set out in the judgment of Mr. justice Duff, the main points at issue being well remembered by all readers of The Daily News. The result of the judgment is to hold that if an applicant has complied with the statutory conditions calling for the grant of a licence the chief commissioner must grant such ap-plicant a licence under the regular form without any special or other conditions imposed. Incidentally Mr. justice Duff holds that the chief commissioner had no legal authority for inserting the celebrated "special clauses" in the licences issued for East Kootenay coal lands.

The judgment marks another step in the long drawn out tangle involving the coal and oil lands in East Kootenay and the respective rights of applicants for licences therefor. Probably the next step will be to renew the original application either to judge Wilson or judge Forin. What, if any thing, the government may do remains to be seen.

Mr. justice Duff's judgment reads as follows:

"This is an appeal from an order made by Mr. justice Martin on the application of the respondents prohibiting the county court judge of the county of Kootenay and the appellants from further proceeding with the prosecution, or the consideration, of certain petitions represented by the appellants severally to that court, alleging that a dispute has arisen respecting the right or title to a prospecting licence over the several areas described in those petitions, and asking a determination under section 9 of the Coal Mines Act, that the appellants are severally entitled to prospecting licences over those areas.

"The application as presented to Mr. justice Martin, was an application for an order prohibiting further proceedings in respect of any or all of these petitions, and the order was granted in that form.

"In the view I take of the questions raised by the appeal, it is not necessary to deal with the point raised by sir Hibbert Tupper that the order ought to be set aside on the ground that the practice does not warrant a consolidation of a number of proceedings instituted by distinct individuals and relating to distinct matters (though involving the same general questions) for the purpose of an application for prohibition. I shall, for convenience, take the petition of Leckie as typical of the petitions involved in this appeal, and make no further reference to the persons whose names are associated with his in the proceedings.

"Leckie's petition alleges that after compliance with the provisions of sections 2 and 3 of the Coal Mines Act, he applied to the assistant commissioner of lands and works at Fort Steele for a prospecting licence over certain lands described in the petition, and situate in East Kootenay; and that, on the 10th of December, 1901, his application was refused for the reason stated in a letter of that date by the chief commissioner of lands and works to be that, 'The department of lands and works has decided that the application cannot be granted as the land embraced therein has been crown granted to the British Columbia Southern railway.' That the legislature of British Columbia in the session of 1903, passed an Act confirming an order in council which had been previously passed by the lieutenant governor in council on the 16th of March, 1902, cancelling the grants referred to in the letter of the assistant commissioner, and declaring that these grants were void and of no effect. The petition further alleged that it was stated by or on behalf of the chief commissioner of lands and works that other persons than Leckie had staked and applied for the area referred to, or portions of it, under the Coal Mines Act, and that on the 16th of June, 1904, there appeared a notice, signed by the chief commissioner of lands and works in the B. C. Gazette, to the effect that licences to prospect for coal and pertoleum upon and under lands within block 4593 south east Kootenay, which includes the area in question, would be issued in a form referred to in the petition. The petition concludes with the prayer that the chief commissioner of lands and works may be ordered and directed to grant the petitioner a prospecting licence over this area on the payment of the fee of $50.00 and that the petitioner may have such further relief as to the judge of the said court might seem fit. This petition was filed the 6th of November, 1904.

"On the 23rd of February, 1905, an order was made by the judge of the county court of Kootenay directing that all persons haing any objections to the prayer of Leckie's petition should file with the registrar of that court, at Cranbrook, a petition or statement setting forth his claim and the grounds of his objection; that notice should be given to all interested persons for four weeks in the B. C. Gazette and in certain local newspapers; and that copies of the petition should be forwarded to any party interested on application being made for the same to the registrar.

"On the 17th of April, 1905, a petition was filed on behalf of A. W. McVittie in the county court of Kootenay at Cranbrook, asking that Leckie's petition be disallowed, and claiming a declaration that McVittie was a prior applicant for a prospecting licence. This last named petition alleged that McVittie had obtained a licence on the 3rd day of August, 1904, to prospect for petroleum on the lands in question for one year.

"Counsel for the respondents endeavored to support the order of Mr. justice Martin mainly on two grounds. It was contended, first, that the class of disputes over which by section 9 of the Coal Mines Act the county court is given jurisdiction is limited to disputes respecting the right or title to a prospecting licence in esse or respecting an area defined by an existing prospecting licence; and second, that before the presentation of the appellants' petition, namely, on the 3rd day of August, 1904, the respondent Watt had acquired under the Coal Mines Act, a prospecting licence over the area to which Leckie's petition relates; and that since the Coal Mines Act authorizes the granting of one prospecting licence only for a given area, in other words, that the prospecting licences authorized by the Act are limited to exclusive licences, the powers conferred by section 9 of the Act cannot be brought into play respecting the area in question except, at all events, for the purpose of deciding some dispute between the holders of prespecting licences which may be alleged to affect that area.

"In substance, I think, the questions to be determined upon the appeal are fairly presented by these two objections; at all events, those questions can be most conveniently discussed concurrently with a consideration of the objections.

"It will be convenient to consider these two objections together. The Act provided that any person who has complied with the provisions of section 2 and 3 shall be entitled, if no valid objection has ben substantiated, to a grant of a prospecting licence under the Act. I entirely agree with the views expressed by Mr. justice Martin, with which counsel for both the appellants and respondents concurred on the argument, that a given area cannot be subject at one and the same time to more than one valid licence under the Act; and that in that sense the licence which the Act authorizes is an exclusive licence; and it is very essential, I think, to keep

THE old-time miller did not concern himself much about the quality or purity of his flour.

He simply ground the wheat.

You would refuse to use his product to-day. The results would not satisfy you. You have advanced.

Yet it is possible that your advance has not kept pace with the advance in milling methods.

You may demand a better flour than your mother did and yet be satisfied with something inferior to what it is possible for you to get.

If you are not using

Royal Household Flour

you are not getting the best that improved milling has to offer.

Ogilvie's Royal Household is as much superior to ordinary flours as *they* are superior to the crude, coarse product of olden times.

Royal Household is made entirely from hard, spring wheat, ground by the latest and most improved method, and purified and vitalized by electricity—a process that is conceded by all millers to be the only method of producing absolute purity, and one that is used by no other mill in Canada.

Your grocer has it in stock.

this in view in construing the provisions of the Act. Mr. Justice Martin acted upon the view that by section 3 the question whether a valid objection has been substantiated within that section is entirely a question for the assistant commissioner, and consequently that any dispute raised by such an objection is not a dispute within section 9 of the Act. I cannot agree with that view. The Act does not, I think, reserve to the assistant commissioner, or to the chief commissioner, any discretion respecting the granting of a prospecting licence. An applicant, who has complied with the provisions of the Act is, I think, subject to the existence of any prior right, entitled to a licence provided that the area in respect of which the application is made is one to which the provisions of the Act apply. The objections referred to in the phrase which I have quoted from section 3 must, I think, be confined to objections going to the rights of the applicant under the statute. There is nothing in this view of the Act which conflicts with the general design of the B. C. legislation respecting the disposition of the public lands. The legislature has, by the statutes relating to minerals other than coal, and by the statutes relating to crown lands, speaking generally, thrown open all unoccupied and unreserved crown lands of the province to the acquisition of rights in them through the performance of statutory conditions. A person desiring to acquire a pre-emption under the Land Act is entitled to an entry of his pre-emption upon compliance with the provisions of that Act. A free miner likewise acquires such interests in the mineral lands of the province as the statute in that behalf authorizes by the compliance with the fixed statutory provisions. The mining ordinance of 1869, which first authorized the granting of coal prospecting licences, provided that on satisfactory proof of compliance with the conditions leading to the grant of the licence, the applicant should be entitled to the grant of the licence provided no valid opposition should be substantiated. That ordinance, by section 29, committed to the assistant commissioner of lands and works the duty of hearing and determining all cases of dispute between adverse claimants to prospecting licences. That the assistant commissioner was to determine these disputes judicially is shown by the fact that he was entitled, and in certain cases required, to summon a jury to assist him in the decision of questions of fact.

"In the Act of 1883, which was expressed on its fact to be passed for the purpose of encouraging prospecting for coal, the same condition was imposed upon the right of the applicant to acquire a prospecting licence; and by section 11 of that Act, there was for the first time enacted the section which appears in the present Act as section 9. The legislature in other words, in the Act of 1883 substituted for the assistant commissioner the county court or a judge thereof as the tribunal to determine the question whether the condition that "no valid opposition had been substantiated" had been complied with. By the Act of 1892, which mainly reproduced the provisions of the Act of 1883, "valid opposition" became "valid objection," the phrase which appears in the present Act. I see no reason for thinking that a dispute raised by such an objection, at all events when founded on some adverse right or claim, is not a dispute as to the right or title to a prospecting licence within the language of section 9. That language is certainly broad enough to embrace such a dispute, and there seems to be no ground for restricting its natural meaning. Having regard to the history of the legislation, the operation of the section may, I think, be fairly held to be limited to such disputes between rival claimants to a given area, or a prospecting licence over a given area; but it is not necessary to the determination of the questions before us actually to decide the point. The petitions referred to disclose a dispute between rival claimants under the Act which must, I think, first be decided before the appellant can effectually press his claim for the grant of a licence; and he has, I think, brought this dispute before the forum charged by the statute with its determination.

"It is not necessary for the purposes of this appeal to decide the question whether the county court judge has power to issue a mandatory order against the commissioner or the chief commissioner. If my view as to the kind of disputes committed to his jurisdiction be correct, it would seem that many questions might arise on an application for a licence which it would be beyond his jurisdiction to decide; and consequently that (exercising a limited jurisdiction) he is not, in making such an order, acting within the limits of his powers. It does not follow that the right to a prospecting licence under the statute is not a right enforceable by legal process. In performing the functions under the statutes, the chief commissioner and the assistant commissioner do not act as agents of the crown, but as the mandatories of the statute; and as such, it is a mere commonplace to say they are not beyond the control of the courts. Where there are disputed claims to a licence over a given area, there will always be the preliminary question whether the objection giving rise to the dispute can be sustained; and if the objection come within the class I have mentioned, then that question must, before the powers of a court of general jurisdiction can be called into exercise, be first decided under the provisions of section 9.

"It is hardly disputed that the second contention must fail, unless the respondent can make good his position as a licencee under section 12. I do not think that the respondent has established the contention based upon section 12. That section, in my opinion, merely provides for the application of the preceding sections to lands held under reserve, subject, with respect to the licence itself, to such restrictions, conditions and regulations as the lieutenant-governor in council may impose. The section does not contemplate the granting of the licences by the lieutenant governor in council; it contemplates the application to and the granting of the licence by the chief commissioner under sections 2 and 3. The words "it is lawful" therefore, must be read as extending the function of the assistant commissioner and chief commissioner, under those sections, to lands held under reserve. So read, they effect no abatement from the obligatory character of the duties of those officers when dealing with such lands. Julius vs The Bishop of Oxford (1880) 5 A. C. 214. Here, as in other cases, they are, as regards these duties, the creatures of the statute only. Lockhart vs. Mott (1883) 8 A. C. 568.

"The functions of the lieutenant governor in council under the section, too, are limited. His power do not extend to the prohibition of the grant of licences over such lands. A grant of the power to regulate or the power to impose conditions or restrictions does not import a grant of the power to prohibit, Virgo vs. City of Toronto (1896) A. C. 88. He cannot, as I read the section, modify the conditions precedent prescribed by sections 2 and 3; he is, I think, empowered to act only upon the licence as granted; and the purpose of the section being apparent to secure the carrying out of the object of the reserve one does not see the necssity of more enlarged powers. More do I think that that section authorizes the granting of a licence subject to such conditions as deprive it of its character as a licence under the Act and actually tend to defeat the object of the Act. As I have pointed out, the Act plainly contemplates the granting of a licence which confers exclusive rights over the areas to which it applies. As the object of the Act of 1883, the parent of the present Act, was expressed to be the encouragement of the prospecting for coal, the necessity of this is apparent. Moreover, the term "prospecting licence" was, when the Act of 1883 was passed, a term in British Columbia legislation having a well-understood signification; it means a licence conferring rights to prospect which excluded all other such rights under any other such licence from the area to which it applied, and the term as used in that Act and in the present Act must I think, be so construed. In my opinion, the regulations, conditions and restrictions authorized by section 12 are not such as apply to the rights inter se conferred upon licencees by the Act. There is ample authority for limiting the scope of general words when such a limitation is required to prevent a construction which would defeat the object of the legislation; Cox vs. Hakes, 15 A.C. 506. Nothing, I apprehend, can be more clear than this; that the granting of a vast number of licences over the same area would defeat that object which, as I have said, the Act of 1883 declares to be the object of that legislation—to encourage the prospecting for coal.

"If these views be correct, it follows that the respondent does not stand in the position of a licencee under the Act. His licence contains the following conditions:

"'Owing to the number of applicants for licences to prospect for coal and petroleum, and the peculiar circumstances surrounding the application for and issuance of these licences, and the well-known fact that the issuance has been unavoidably suspended for so many months, the government of British Columbia finds it impossible to determine the equitable rights of the numerous applicants. Therefore, for the purpose of enabling all persons to go before the proper tribunal for the determination of their respective rights and priorities, this licence is issued and accepted subject to such prior rights of other persons as may exist by law, and the date of this licence is not to be taken or held as in any sense determining such priority, and further it shall not be taken or held to waive enquiry by the courts into the proper performance of all conditions precedent as between adverse claimants; and further on the understanding that the government shall not be held responsible for, or in connection with any conflict which may arise with other claimants of the same ground, and that under no circumstances will licence fees be refunded. And the holder hereby waives any claim or demand against the government, and expressly agrees not to take any steps or proceedings, or present any petitions to enforce any alleged claim or demand against the government of the province of British Columbia arising out of the issuance of this licence or of any other matter or thing appertaining thereto. The land being under reserve from pre-emption and sale, this licence does not include any right other than the right to prospect for coal and petroleum. The duration of this licence is for on year from the 3rd August, 1904.'

"This licence is not, and, in fact, does not purport to be, an exclusive licence; by express terms the right is reserved to the chief commissioner to issue other licences over the same area. The right of the respondent has neither been determined nor considered by the commissioner. The document is not, either in form or in substance, a licence under the statute; and the act of the chief commissioner in issuing it was not, in my opinion an exercise of the power conferred by section 3. It follows, for the reasons I have given, that it must be treated as a document without statutory validity.

"It follows, moreover, that if the appellant is entitled by reason of compliance with the statutory conditions to the grant of a licence under section 3, the act of the lieutenant governor in council in assuming to impose the conditions referred to in the notice mentioned in the petition, which are the same as the conditions above set out, cannot afford a justification for the refusal by the chief commissioner to exercise his powers under section 3, and grant a licence of the character authorized by that section, subject to such conditions, restrictions and regulations as may be imposed by the lieutenant governor in council in the lawful exercise of his powers.

"I am unable, therefore, to give effect to the contention that the notice referred to, or the granting of licences under it, in any way deprives the appellant of his rights under sections 2 and 3. The appeal should be allowed with costs. Lyman P. Duff, J."

"Re Smart.—The views I have expressed in the Leckie appeal are sufficient for the determination of this appeal in favor of the appellant. Appeal allowed with costs. Lyman P. Duff, J."

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B. Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that linament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

The tickets for the dinner set of English ware at the Dollar Grocery are going fast. Secure some before the last number is reached.

FINAL NOTICE

All holders of tags, certificates or coupons redeemable for premiums are requested to send them in for redemption without delay and get their premiums, as we will positively close our premium department on April 30th, 1906, after which date no tags, certificates or coupons will be received or redeemed.

The American Tobacco Co., of Canada.
The Empire Tobacco Company.
The B. Houde Company.

Corporation of the City of Nelson

NOTICE

NOTICE is hereby given that under the provisions of Bylaw No. 90, "Pound and Dog Tax Bylaw," it is unlawful for any person to suffer any horse, mule, bull or cow, sheep, goat, pig or other cattle, or poultry, to run at large within the limits of the City of Nelson.

Every owner of a dog in the city of Nelson is required to pay annually a tax of two dollars for each dog owned by him.

No person shall suffer or permit his dog to run at large in the City of Nelson for which such person has not paid the tax required of him, and unless such dog shall have around his neck a collar or strap, to which shall be attached a metallic plate to be supplied by the city on payment of the said tax.

Warning is hereby given that any person guilty of an infraction of the above named bylaw is in addition to the fees and charges set forth therein, liable upon summary conviction to a penalty of One Hundred Dollars and the costs of the prosecution, and in default of payment to imprisonment for a term not exceding two months.

By Order
W. E. WASSON, City Clerk.

Nelson, B. C., April 27th, 1906.

NOTICE

Notice is hereby given that the Canadian Pacific Railway Company have this day filed in the district land registry office at Nelson, a plan, profile and book of reference showing proposed location of a branch line to the West Kootenay Power & Light Company's works near Bonnington and that four weeks after this date the said Canadian Pacific Railway Company intend to apply to the board of railway commissioners for Canada, under section 175 of the Railway Act, for authority to construct the said branch.

Dated this 23rd day of April, 1906.
R. MARPOLE, General Superintendent.

NOTICE TO THE PUBLIC.

Notice is hereby given that the partnership heretofore existing between the undersigned as jewelers and engravers, under the firm name of Ewert Bros., Nelson, Rossland and Trail, has been this day dissolved by mutual consent. The business will hereafter be carried on by E. A. Ewwert at Rossland and Trail, and by R. H. Ewert at Nelson.

All debts of the old firm will be paid on presentation at Nelson or Rossland, and all outstanding accounts due the old firm must be closed either by cash, note, or other security on or before May 20th, 1906.

R. H. EWERT,
E. A. EWERT.

ST. CHARLES EVAPORATED CREAM

For many things in cookery, St. Charles Cream is an essential. It is as good as the best milk or cream for any purpose. For many purposes it is much better. It gives to coffee, for instance, a flavor which even the best of ordinary cream cannot approach, and it aids in bringing out the delicate aroma of chocolate and cocoa. For confection and ice cream it is unexcelled. For invalids and infants it is indispensable. It never curdles. It strengthens the strong. If only pure water is added it will agree with the most delicate stomach.

Sold by best grocers everywhere.

SUMMER TIME TABLES

C. P. R. SCHEDULE TO GO INTO EFFECT NEXT SUNDAY

IMPROVEMENTS ADDED FOR BENEFIT OF KOOTENAY

Next Sunday, May 6, the summer time table goes into effect on the C.P.R. system, involving many changes in the hours of arrival and departure of Nelson trains.

The full steamer service on Kootenay lake and the West Arm, and on the Arrow lakes will be restored.

The steamer for Kootenay Landing will leave daily at 4:30 a.m., and arrive at 8:10 p.m. But it is hoped and expected that the new steamer Kuskonook will reduce the time so that 7 a.m. may be made the hour for leaving.

The train for the west, via Robson and Revelstoke, will leave at 7:15 p.m. and arrive at 10:05 p.m.

Rossland and Trail will be served by the coast trains and also by a morning train leaving Nelson at 9:10 and arriving at 10:37.

The Boundary train leaves at 8:30 a.m., returns as part of the coast train at 10:05 p.m.

The service to Slocan lake points will be by train leaving Nelson at 9:10 a.m. and returning at 4:30 p.m. daily except Sundsy.

The steamer Kokanee will take the run to Kaslo daily except Sunday, leaving at 6 a.m., returning at 2:15 p.m. on Tuesdays, Thursdays and Saturdays, and at 6:25 p.m. on Mondays, Wednesdays and Fridays, on which days connection is made with Lardeau points.

The steamer service on Trout lake will be tri-weekly, on Mondays, Wednesdays and Fridays, leaving Trout Lake at 7:30 a.m., reaching Gerrard at 9:30; returning it leaves Gerrard at 2:45 p.m. and arrives at Trout Lake at 4:45.

On the Nakusp and Slocan branch, trains will leave Sandon at 8:20 daily except Sunday, arriving at Nakusp at 12:15 p.m.; leaving Nakusp at 2:20 p.m., returning to Sandon at 6:20 p.m.

The connection west of Revelstoke and east of Dunmore Junction will again be with the travelling public's favorite train, the Imperial Limited. A special feature added this year will be a through sleeping car from Arrowhead to Vancouver for the special accommodation of Kootenay travellers.

At the coast connection is made between Vancouver and Victoria and Seattle daily by the fast and commodious steamer, Princess Victoria.

EMPIRE DAY FOOTBALL

Pincher Creek Team Coming to Dispute Nelson's Association Title

The prospect for summer sports in Nelson are brighter this year than for many years past. If the city's prestige in lacrosse is temporarily lost by the breaking up of the old champion team, there are many compensating gains. Intermediate lacrosse will fill the gap and in time provide a creditable senior team. Baseball, cricket and association football will probably be better developed than they were last year.

Football attained general popularity last year when the Nelson-Sandon game during the Dominion day celebration showed its possibilities.

The season will open this year on Empire day with the visit of a team from Pincher Creek, composed of English and Scotch players. J. L. Meighan, manager of the Nelson team, has completed negotiations with the Albertans and the match is assured.

Hector Perrier, who is now in Pincher creek, has forwarded a photograph of the football team, and expresses the opinion that Nelson's kickers will have their work cut out for them.

Mr. Meighan says that the home team is stronger than last year's, having received several new players, and that the benefit of last year's practice has not been lost.

CAPTAIN MOORE'S TROUBLE

Had to Refuse Passengers to Catch the Train—Necessity for Local Boat

Captain Moore of the steamer Kaslo was between the devil and the deep sea on his trip down yesterday morning. He had freight for the Blue Bell, Ainsworth and Pilot Bay and was late in consequence. He had seven passengers to transfer at Five Mile for the Great Northern southbound express, and also had the usual number of calls to make on the shore line. If he missed the train he would get into trouble and if he left any passengers to Nelson on the shore line, he would get into hot water. Under the circumstances he decided to make seven stops prior to reaching Five Mile point, and perforce had to leave many intending passengers on the shore as he passed the inviting white flags set up for his information. He whistled to notify them that he was late and could not stop; and thus demonstrated the necessity for a local boat between Procter and Nelson. Poor captain, he could have been happy with either crowd, had the other been away, but both being present he was in the usual predicament of men in a like position. Finally he caught the train, only 20 minutes late.

TRADE GROWING RAPIDLY

BRITISH COLUMBIA COMPANY IN THE PRAIRIE PROVINCES

F. B. GIBBS WILL LEAVE NELSON TO MANAGE NEW DISTRICT

F. B. Gibbs, district manager of the Brackman-Ker Milling company, left yesterday for Calgary to look over the bigger field of which he is soon to take charge. At Revelstoke he will join the general manager, D. R. Ker, and other officials, who are en route from Victoria to Calgary.

Mr. Gibbs expects to leave Nelson for Calgary permanently about the middle of August. He will be succeeded in charge of the Nelson office by the present accountant, G. A. Brown.

The new plans of the Brackman-Ker company, as outlined by Mr. Gibbs, include a reorganization of the company's business and division of territory. From having been a purely British Columbia company it has been forced by the competition of Manitoba milling companies and by the rapid development of the prairie provinces, to extend its operations through Alberta and Saskatchewan as far as Regina.

A new brick mill of large capacity is now being built at Calgary, which, it is expected, will be completed in August. Calgary will then become the eastern headquarters of the company. Business in the western part of British Columbia as far as Kamloops is managed from the head office at Victoria. A northern district with headquarters at Edmonton, will include northern Alberta, with its southern limit at Red Deer, and the part of Saskatchewan now being opened by the Transcontinental, the Canadian Northern and the new branch of the C.P.R. The new district, of which Mr. Gibbs will take charge, and which will be supplied from Calgary, includes southern Alberta, the mainline of the C.P.R. east of Regina and west to Kamloops, the Macleod branch, the Crow's Nest district, West Kootenay and the Boundary.

In the new mill at Calgary the company will manufacture all its cereal products, and from there the carload business in oats and other grains will be handled in connection with the company's line of elevators along the Edmonton branch of the C.P.R. The rapid development of the country and the consequent extension of the company's business is constantly requiring increased elevator capacity and new elevators are being built at many points along the line.

FUND CLOSES TONIGHT.

Smeltermen Contribute Generously to San Francisco Relief Funds.

The collections for the San Francisco relief fund, as far as Nelson is concerned, will be closed tonight, when the list from the city power plant is received.

The latest contributors are Mrs. M. Gibbs, H. Harris, and the following named employees of the Hall Mines smelter: R. B. Reiley, J. A. McLauchlan, J. J. Chambers, C. C. Crossley, E. Mackin, H. White, F. Dougnet, P. Peascod, G. Leet, W. Hogbery, D. McLeod, F. Krasmink, J. R. Lewis, W. O. Hind, G. Potter, H. Hargreaves, W. Edwards, H. Harris, W. Lynch, E. Osler, J. Merry, C. Holm, C. Jessen, N. R. Gydeserf, V. Roberts, V. Vigenzo, H. J. Anderson, J. Allan, E. Toolson, J. Johnsan, J. McKissick, J. White, A. Reid, T. Broome, E. Malan, D. Boyer, J. Roche, E. Yeant, M. McLeod, P. F. Poulton, C. J. Simpson, A. Bartholdi, A. Crossley, H. Heath, M. Deirte, M. Jensen, J. Johnson, C. Cribbs, P. Moran, C. Curtis, C. Mikkelsen, A. Campbell, A. Haggart, J. Slater, W. Billington, A. Redfern, W. G. Fraser, G. Neve, T. Thomson, F. Crane, L. Bartholdi, N. Norris, M. Shaw, L. Hartwig, R. Reid, W. Barraclough, E. Martin, J. Saunders, J. Brown, A. Bergman, G. W. Hall, K. Sheeley, J. Smith, J. Ingram, J. Levine, F. Harris, E. Hickling, G. A. Fletcher, F. Peart, J. Buelock, A. Tupahka, W. Enerby, G. A. Baker, D. McLeod, J. McLeod, R. Olsen, A. Anderson, E. Snodgrass, H. Skurnt, F. Deny, M. Litwin, M. Werbinik, N. Nelson, N. Uhoper, G. Giurusso, L. Iverson, S. E. Coulter, J. Croach, L. Patma, C. Carmaiti, J. Canderle, R. Romane, J. Boel, W. Koiristo, R. W. Hinton, I. Borstwick, F. Pilczuk, M. Maxsymink, F. Bupental, C. Cimini, H. Wood, A. Balconi, J. Balleny, C. Johnson, W. Richardson, N. Bergquist, N. Pouskansky. The total contribution of the smelter employees was $123.

CREWS ARE DRAWN.

List of Contestants in Spring Regatta of Nelson Boat Club.

The following crews have been drawn for the spring regatta of the Nelson Boat club with the following hours of practice:

4.30 p.m.—Thomson, Seatle, Swann, Gallon.

5 p.m.—Manhart, Deacon, Mawdsley, Beeston; and a second crew, Johnstone, Ross, Bidwell, Gore.

5.30 p.m.—Arundel, Hall, Eaves, R. Cummins.

6 p. m.—Nott, Larsen, Stewart, D. Cummins; second crew, Sharp, Hearn, Perrier, Bell; third crew, Poole, Lackey, W. Davidson, Jackson; fourth crew, Fotheringham, Campbell, Wells, Jones.

6 a.m.—Teague, H. Manhart, B. Davidson, Senior.

7 a.m.—Smyth, Bishop, Langhurst, Ball.

In each case the stroke is named first and the rest in order of No. 3, No. 2 and bow.

The list is subject to revision, and any others not named who wish to row are still invited to send in their names. Practices will begin at once, and will be held daily. With ten crews training and all containing good material, the spring regatta should be a very interesting contest.

Minard's Liniment is used by Physicians.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

EXPLAINS AMENDMENTS

APPLICATION OF NEW PROVISIONS OF SCHOOL ACT

CIRCULAR ISSUED BY DEPARTMENT OF EDUCATION

A circular has just been issued by the provincial minister of education to explain to those interested, especially to trustees of schools in rural districts, the latest amendments to the school law of the province, and to guide and assist them in applying the provisions of the act as it stands.

Acknowledgement is made at the outset of valuable suggestions received from many quarters, especially from the reeves' convention, held at New Westminster last October.

The amendment act of 1906, as first presented to the legislature, has previously been fully described in The Daily News, but many modifications were made before the act was finally adopted, and it is with these chiefly that the latest circular deals.

It is explained that rural municipalities n ther financial relations with the education department are to be treated in the same way as incorporated cities, and one board of trustees will manage all the schools within the municipality, and members of the boards will be elected at the same time as reeves and councillors.

It is the unorganized rural school districts, however, that are most affected by the changes. Trustees of such districts are relieved from the duty of making assessments and collecting rates. These duties will be performed by the provincial assessors, and the proceeds will be paid to the boards quarterly by the minister of finance. The government's contribution to teachers' salaries will be paid monthly instead of half yearily as at first intended.

The annual school meetings in rural districts will be held early in July, after the close of the school year, and, presumably after the year's accounts are closed.

Provision is also made for advances to school districts, during the first half of 1906 only, to enable the trustees to meet current expenses until the first proceeds of assessment are available. Application for such advances are invited through the education office, and must be accompanied by detailed statements of the purposes for which they are to be used.

One important change affects both teachers and trustees. Hereafter a teacher may neither resign nor be dismissed except at the end of a term or within ten days after the annual school meeting.

Residents of assisted school districts have hitherto raised funds for expenses by voluntary contributions. They are still permitter to do so, but are empowered, wherever, such is the wish of the majority, to raise funds by assessment instead.

NELSON MAN PROMOTED

A. B. Netherby Becomes Manager of Branch of Royal at Mt. Pleasant

A. B. Netherby, who has been accountant of the Nelson branch of the Royal Bank of Canada for the last two years, has been informed of his promotion to the position of manager of the Mt. Pleasant branch in Vancouver.

The Royal, like many other banks, has been keeping pace with the growth of Vancouver, by opening branches in the new business districts. It now has four, the original office on Hastings street, and branches on Granville street, in the east end and in Mt. Pleasant.

Mr. Netherby's rise in the service of the bank has been unusually rapid since he entered it in Victoria seven years ago. His many friends in Nelson will be pleased to learn of the recognition of his ability and diligence, while sincerely regretting his loss to Nelson.

Mr. Netherby will leave for the coast tomorrow morning. His successor as accountant in the Nelson branch will be A. C. Futcher of Victoria.

Minard's Liniment Lumberman's Friend.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

THE HOW AND WHY OF IT.

"Fruit-a-tives" are the parts of the fruit that do you good. Apples, Oranges, Figs and Prunes are pressed—the juices separated from the tough, woody fibre—and concentrated. Then—(and this is the secret of "Fruit-a-tives")—one more atom of bitter principle from the orange peels is forced into the concentrated fruit juices. By this process—one of the most remarkable achievements of the age—the juices are made stronger, and many times more active medicinally. Finest tonics and internal antiseptics are added, and the whole evaporated and pressed into tablets. "Fruit-a-tives" are the greatest tonic, laxative and blood purifying medicine ever discovered.

50c. a box. At all druggists.

FRUIT AND FARM LANDS
For Sale
In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have on my list many choice locations.

One 13 acre lot near Nelson, partly improved. Price $650.00.

5-Acre lot two miles from the city, $250.00.

10-Acre lot, partly cleared, waterfront. Price $50.00 per acre.

Three 20- acre lots near Slocan bridge. Price $25.00 per acre.

70 Acres at Beasley Siding at a bargain.

Improved farm of 100 acres, $7500.

Several choice locations on Slocan river.

Nine choice locations at Creston; good land near the station.

Two good locations on the Columbia river.

Four 40-acre blocks on Arrow lake.

I can give you choice, selected lands.

On Kootenay Lake

On Columbia River

In Fire Valley and Creston

Districts, and several partly improved farms. Wild land suitable for stock ranges. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

I have a fruit farm of my own located on the Kootenay river on which I have 1500 fruit trees, some of these are bearing. This is not for sale, but I have had experience in selecting lands, clearing lands, planting and pruning trees and I am prepared to make reports on land as to the location and desirability for fruit culture.

PRICE OF METALS.

New York, May 1—Bar silver, 66; casting copper, 18; electrolytic copper, 18 1-4 to 18 1-2; lead, $5.50.

London, May 1—Silver, 30 9-16; lead, £16.

NELSON'S NEWS OF THE DAY

Want advertising aids you in keeping pace and faith with clocks and calendars.

Budapest, May 1—Five thousand socialists made a demonstration here today. There were no disturbances.

"Want ad. gumption" is not a sixth sense—it is a sort of art of living with least annoyance, least fretting and least friction.

Born, in this city, on Tuesday evening, May 1, to the wife of W. H. Walker, Mill street, a daughter.

A special meeting of the executive committee of the Nelson cricket club will be held in C. Morrison's office this evening at 9 o'clock.

A new bill board erected on Stanley street, above Silica, makes a novel back ground for the shade trees in front, planted to beautify the city.

The nuisance of reckless sportsmen is again reported. Yesterday a canoeist felt a bullet fired from the north shore, just opposite the city, whistle past his cheek.

John Hampson, manager of the Alice mine at Creston, has accepted a position with the Brown-Alaska Copper company, and leaves for the north by way of Seattle this morning.

Silver rose on both metal markets yesterday, two points on each. The present American quotation is 66 cents an ounce. *Lead declined one point in London,* but is stil above the bounty limit.

Guests attending the Masonic ball at the opera house this evening are reminded of the necessity of presenting their tickets at the opera house doors, *as only persons* presenting tickets will be admitted this evening.

There will be a special meeting of Aberdeen Hive No. 12, L. O. T. M. at the K. of P. hall this afternoon at 3 o'clock sharp to complete arrangements for a social and dance at Squire's ranch at an early date.

A drill parade of the 1st Nelson company Boys' Brigade, will be hed this evening at 7 o'clock in St. Paul's church hall. The members of the company are planning a social gathering for Friday week.

Citizens are reminded that after today the owners of all fowl found on the streets will be promptly summoned by the police. Fair notice has been given to all concerned and the authorities state that the law will be vigorously and impartially enforced

The canvass of local merchants by the committee having the matter of a weekly half holiday in hand has proved that the great majority favor Saturday as the day for closing, upon the understanding that *places of business shall be kept open on* Friday nights until 10 o'clock. Unless something arises to change the present plans it may be taken for granted that, commencing the first week in June, all places of business will close on Saturday afternoons throughout the months of June, July, August and September.

A movement is on foot to have a civic holiday declared for three hours next Saturday afternoon so that every one can take *in the launching of the new* C.P.R. steamer Kuskonook, which will take place at the shipyards at 2:30 Saturday afternoon.

Just remember that the merchant pays you for your time when you read his ad. *He is under every obligation to see that* your time is not wasted. Unless, in effect, he could always do this, through special price inducements and bargain news, he would have to stop advertising—it wouldn't pay him.

Referring to the account of the breaking into of the Midway postoffice last week, which appeared in last Sunday's issue of The Daily News, E. A. Hain, postmaster at Midway, writes contradicting the statement that the registered letters had been rifled.

Word reached the city last evening that a strike had been declared by Greenwood union No. 22 *against* the work in progress at the substation at Anaconda. The strike is declared against the W. K. P. & L. company, or the subsidiary construction company, now erecting the substations in the Boundary. The men ask a nine hour work day and $3 per day.

The Mackenzie-Glover company will appear at the opera house on next Friday and Saturday evenings in concert, comedy and drama. The company is described by *the press as the most unique,* charming and talented combination of humorous and dramatic power on tour. Reserved seats can be got at Rutherford's.

Frank Phillips, secretary of the Nelson Miners' union, stated *last night that as the* result of a meeting held on Sunday ast of those opposed to the suppression of the Appeal to Reason by the Canadian postal authorities, a petition protesting against the suppression has been circulated here and largely signed. *Similar petitions* are being circulated in other parts of the province and all these will be sent to Ottawa in a few days. Last evening the Miners' union sent a letter of protest to W. A. Galliher, M.P.

Last evening the opera house was transformed, the extensive decorations for the Masonic ball tonight being nearly completed. The committee requests that all Masons attending the ball shall wear the regalia of the Blue lodge. *The committee* also wishes it stated that only invited guests who present their tickets, sent them with their invitation cards, at the opera house doors this evening, will be admitted.

MADDEN—H. Maldment, Rossland; R. Eldridge and wife, E. G. Sanders, Midway; F. T. Benson, Slocan; J. Johnson, Spokane.

CLUB—A. C. Wilson, J. W. Harris, Bonnington.
