CAMBORNE GOLD STRIKE

Prospectors Make Lucky Find in Scott Creek District.

Stanley Menhinick and George List Uncover Lead of Free Gold Quartz Two Feet in Width.

The richest free-gold quartz yet found on the surface of a lead in the Camborne camp was discovered a few days ago in the Scott creek region by Stanley Menhenick, says the Camborne Miner.

Stanley Menhinick and George List were spending a vacation in the hills and occupied their time in prospecting, little thinking that they would strike quartz with gold visible to the naked eye. They were in the vicinity of the Sunset group when Mr. Menhinick observed a ledge of quartz on the surface, and breaking off a few pieces of rock was amazed to behold fine particles of gold sparkling in countless number over the face of the milky quartz. The prospectors examined the ground more closely and the precious metal was apparent in every portion of the lead tested and upon measuring the ore body it was found to be two feet in width. They then planted their posts and came to town to record their remarkable find.

The lucky treasure hunters brought several samples of the ore with them, and we can say that we have not seen any surface specimens in this camp that will beat them. The gold is in fine particles freely disseminated over the surface and through the samples shown. In fact they appear as if the gold had been dusted on the quartz through a pepper shaker.

The section in which the discovery was made has always been looked upon as a silver-lead district, and the fact that gold in such paying quantities has been found will stimulate mining and prospecting there. No work has been done on the new location but if the quartz at depth maintains its surface character—the presence of copper indicating that it will—the find is indeed a bonanza.

AN AMERICAN VIEW.

U. S. Ambassador Lectures on the Revolutionary War.

Cambridge, Eng., Aug. 2.—Ambassador Whitelaw Reid today inaugurated the course of summer lectures at the university with an address on "The rise and development of the United States." Mr. Reid suggested that the separation between Great Britain and her American colonies might never have happened had Chatham's wise policy been followed and said that both the British people and their colonizing sons had profited by the result because America's triumph had checked reaction in Great Britain. He said that there was no doubt that the first echo of independence in America was heard among the cracking of old institutions during the French revolution and that it certainly was a factor in the subsequent rapid extension of popular rights throughout Europe. As it had stimulated liberty by its political development so had it stimulated material welfare by its inventions, productions and opportunities. It scarcely was possible, he said, in conclusion, now to conserve the world without the American outlet for its superfluous energy and its superfluous production.

BITTER FIGHT IN SIGHT.

Duke of Devonshire Speaks Momentous Words in Debate.

London, Aug. 2.—The debate on the second reading of the education bill was continued in the house of lords today. Referring to the bill, the duke of Devonshire said: "It is the duty of this house to show the country that it is opposed to the violent and unnecessary disturbance of our educational system, which has existed for the past 36 years and of which we have no cause to be ashamed. Until we have done this and until we know how our efforts in that direction are regarded by his majesty's government and the other house of parliament, this house will not be called upon to take that final and momentous decision, which at some later period will have to be taken and which may involve consequences far wider than any now involved in connection with the present bill." These words from the duke of Devonshire are taken as foreshadowing a grave conflict in both houses should the government prove implacable and not bring in a measure more in line with the opinions of the peers.

BROTHIER FINDS BAIL.

Vancouver, Aug. 2.—The refusal of the attorney-general to accept cash bail for Desire Brothier has had the effect of making Mrs. Brothier hunt up a bondsman, and yesterday Mrs. Brothier, accompanied by a woman whose name is withheld at the request of the registrar, appeared before Mr. A. E. Beck and offered to give one surety for bail. Mr. Beck is now considering the question and looking over the titles of the property owned by the woman who offered bail. It is not probable, however, that the woman's bail will be accepted, as it is not customary to accept bail from women.

The barbers' strike is on. Yesterday in the 13 union barber shops, which did not sign the scale, no one was at work but the bosses. The three that did sign were at work as usual. One of these had been a one-man shop all along. The 19 non-union shops are, of course, proceeding on their way.

Another reverse for the settlers in the E. & N. railway belt, attends the decision of the full court in the case of the E. & N. railway company vs. McGregor. The decision was on an appeal taken from a decision by Mr. justice Martin, in which the title given to McGregor under an act passed by the provincial legislature at the instance of Mr. J. H. Hawthornthwaite, was allowed.

A CHEERLESS GATHERING

Canadian Enbalmers and Funeral Directors in Convention.

Brandon, Man., Aug. 2.—The second annual convention of the western Canada funeral directors and embalmers' association convened in this city on Wednesday. The sessions will continue until Friday evening. Greetings were received from several of the members who were unable to be present and from the following associations: The Canadian embalmers, the maritime provincial association and the national funeral directors of the United States. The directors of the fair board tendered the delegates the freedom of the exhibition and on the invitation of A. J. H. Eckhart, of the National Casket company, Toronto, the association was entertained this afternoon.

SOURIS PROFESSIONALIZED

Winnipeg, Aug. 2.—At a meeting of the W. C. L. A. tonight the status of the Souris team was considered and after considerable debate that club was professionalized for having played with the Shamrocks in a Minto cup series. The constitution of the association permitted of no other course, but this will likely be amended at the next meeting. Had lacrosse been the only sport affected probably no action would have been taken at all, but as the hockey teams have many of the same players as the lacrosse clubs, the association felt bound to protect the latter sport.

MOVE PRISONERS WHOLESALE

Edmonton, Alta., Aug. 2.—Traveling in a specially barricaded car, with windows heavily barred, the gang of 24 convicts who have been transferred from Stony Mountain to the Alberta penitentiary, arrived with the late train from the south last evening at the Strathcona depot and were brought over to the city in buses. The prisoners were all in good spirits and appeared pleased with the change. They were taken direct to the penitentiary and confined in the cells.

FINED FOR LEAVING GATE OPEN.

Three Rivers, Que., Aug. 2.—Dolphus Lizee, of Batiucan, William Lizee, of the same place, and Euchariste Lajoie, of Yamachiche, were before magistrate Desilets today and fined $20 and costs, the maximum amount allowed by law, for leaving their farm gates open, thus permitting their cattle to pass through them on the railway track. Several railway accidents have recently occurred in the province of Quebec through farmers allowing their cattle to get on the track, and with a view to removing this danger to the travelling public, the head officers of the companies have notified their local agents to prosecute vigorously every farmer whom they find leaving their farm gates open.

WHEN HARVEST IS OVER

CHANCE FOR 20,000 CLUB TO MAKE A KILLING

FARMERS WHO ARE ANXIOUS TO VISIT THE KOOTENAYS

Now that it is better understood the people of this city and district will be able to appreciate at its true value, the display made at the Kootenay booth in the Winnipeg exhibition, and the excellent work done by J. E. Annable and those who assisted him.

Had the custom been followed, as in former years, of going in with the provincial exhibit, and not having a separate display only a minimum amount of educational work would have been accomplished, with probably very slender results in the way of subsequent visits here of investors and settlers. As it is the resources and possibilities of the Kootenays have been fully and thoroughly explained to a great number of the very sort of people we greatly desire to attract here, and the good work thus well begun should be followed up by the 20,000 club who now have an excellent opportunity of doing some practical work along the lines for which the organization principally stands.

Many persons will doubtless come here during the next two months and especially during the exhibition days, as the direct result of the effort already made by Mr. Annable and others, but from a hint thrown out by C. E. Macpherson, the C. P. R. passenger agent of Winnipeg, when here on his last visit three weeks ago, there would be an immediate response from Manitoba and the two new provinces, if an invitation were specially sent out just about the time harvest is well over. Mr. Macpherson's suggestion was, that a special party or several parties from different districts, could be made up to head directly for Nelson and then to visit about the district, coming in special cars and returning at their leisure. Mr. Macpherson should know better than anyone, the proper time to get up such excursions, and he promised to assist the movement in every possible way. What the 20,000 club should do is to start the ball rolling in time and arrange all details with Mr. Macpherson, through J. S. Carter. Return fares at low rates would be granted and the results attained could hardly fail of being eminently satisfactory. The plan will require time and the expenditure of a little money and plenty of work, but with the offered co-operation of the C.P.R. there should be no great difficulty in accomplishing a great deal this fall.

U. S. FLEET AT VICTORIA.

Regatta Will Be Held to Entertain the Visitors.

Victoria, B. C., Aug. 2.—The United States cruiser Chicago, admiral Goodrich, returned to Esquimalt from California this morning joining the American war vessels Princeton, and Preble. The cruiser Boston and torpedo boat Paul Jones are expected to arrive by tomorrow. The fleet will remain here for about a week, and an international regatta will be organized to entertain the visitors.

HIS CROOKED GAME ENDED.

Toronto, Aug. 2.—Edward J. Baker, whose game was to call at houses after the departure of the male inmates and tell the women that their husbands had met with a serious accident and then rob the premises after the women had rushed to the alleged scene of the accident, was today sentenced to two terms of ten years each in Kingston to run concurrently.

TRIED TO KILL THEIR CHILD.

St. Thomas, Ont., Aug. 2.—Newton Stonehouse, aged 40, is in jail, and his wife is in the hospital under arrest charged with attempting to take the life of their infant.

The child was found in an outhouse this morning and is not expected to live. The woman was in such a condition that she had to be sent to the hospital.

MUST PLAY GAME OVER

DISPUTED LACROSSE MATCH IS RULED OUT.

PROTEST OF CRANBROOK TEAM IS SUSTAINED.

(Special to The Daily News)

Cranbrook, Aug. 2.—Word has just been received that the lacrosse match played at Lethbridge on the 16th of July by the teams representing Lethbridge and Cranbrook, and protested by the latter team on the ground that certain players on the team for the prairie city were not eligible under the rules, has been ordered to be replayed.

It will be remembered that on the occasion mentioned Cranbrook was defeated by a score of 5 to 1, but that defeat was not achieved by a genuine Lethbridge aggregation; on the contrary, the line up contained picked men from points far distant from Lethbridge. The appeal was heard and disposed of today at Frank and the protest of Cranbrook was allowed. The game as far as it influences the championship has been annulled, and the record still stands one game, 13 goals to 1, in favor of Cranbrook. The game will be replayed either in Fernie or Frank, and the three players objected to by Cranbrook cannot again play for Lethbridge.

NELSON'S NEWS OF THE DAY

J. E. Annable stated yesterday that the visit to Nelson of Frank T. Shutt, chemist for the experimental farm at Ottawa, was timed for August 28th. Mr. Shutt will spend three days here and will analyze soil for fruit growers and tell them what fertilizing matter should be added to obtain the best results and will give other valuable information. Mr. Shutt will travel through the Kootenays under the direction of J. R. Anderson, deputy minister of agriculture, Victoria.

Fred Starkey and a number of other members of the Sons of England, journeyed to 13-Mile Point yesterday and initiated ten new members of the order, returning home on the Kokanse. Just as the city wharf was reached F. J. Sammons, while getting his rowboat off the steamer, fell into the lake and was gallantly rescued by Mr. Starkey, as mentioned in the account of St. Saviour's Sunday school excursion. elsewhere.

There have been persistent rumors of rich finds at the Silver King mine, but the authorities in charge state that while the ore obtained just now is of high value and coming in satisfactory quantities, that no strike of great importance has ben proved as yet and that the statement that a large number of men are to be added to the working force is incorrect, "but," added the informant of The Daily News, "a little later we may be able to give you some good news."

R. Gilman Brown, of San Francisco, accompanied by his wife, is a guest at the Strathcona. Mr. Brown is the consulting engineer for the Ymir mine and reached the city last evening after making a thorough inspection of the property. Asked as to progress made, Mr. Brown replied that the information already published in these columns about the property covered the situation. "There is really nothing new to tell you," he said. "Thirty stamps are dropping at the mill and if we had more water and more men we could put 20 more stamps in operation. The new water flume is nearing completion and will be available some time this month. There is plenty of ore in sight just now but there are no new developments at the mine further than you have already stated. I expect to spend all tomorrow in Nelson, and will then go south again."

FLEW THE RED FLAG

Mutineers Seized the Armoured Cruiser Pamyat Azova.

Then Loyal Portion of Crew Overpowered and Imprisoned them--Rebels Hold the Asia.

Reval, Aug. 2.—The cruiser Pamyat Azova has arrived in the roadstead here in the possession of the loyal portion of her crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned. The loyal men gained the upperhand of the mutineers at sea. When the ship came in here, they asked for a detachment of troops to aid them in handing over the mutineers to the authorities. Three officers who the mutineers had placed in command are on board. The remainder of the crew have been disarmed.

St. Petersburg, Aug. 2.—The crew of the Russian cruiser Asia has hoisted the red flag. The vessel left in the direction of Sveaborg.

St. Petersburg, Aug. 2.—(9.55 p.m.)—Martial law has been proclaimed at Cronstadt and in the Bonebas basin, the centre of the mining and smelting industry.

Warsaw, Russian Poland, Aug. 2.—General Markgrafsky, chief of the gendarmes, was shot and killed today by revolutionists about 20 miles from town.

St. Petersburg, Aug. 2.—Military disorders have broken out at Reval. Details cannot be obtained.

Moscow, Aug. 2.—An unsuccessful attempt was made this afternoon to blow up the headquarters building of the police. It was frustrated by the discovery of the infernal machine, which had been hidden in a laundry basket, because of the clicking sound of its mechanism.

St. Petersburg, Aug. 2.—Although the mutinies at Sveaborg have been ended and the uprising at Cronstadt practically been put down, the outlook is still black. The revolutionists whose hands were suddenly forced by the premature rising at Sveaborg, apparently are undaunted by their reverses and intend to persist in their program of calling a general strike on Saturday or Monday. One of the leaders of the revolutionists says that the boasted word has gone forth and that the fire of revolution would spread to the corners of the empire. His closing words to the Associated Press correspondent were: "Now watch Reval, Riga, and Libau."

The news of the mutiny on board the armored cruiser Pamyat Azova off the Estpenian coast is fraught with possibilities. The crew of this vessel rose and killed the commander and four officers. U. S. ambassador Meyer received a despatch from the American consul at Reval saying that the Pamyat Azova entered that port this afternoon with the red flag at her masthead. Should this cruiser under the flag of the mutineers sail northward and appear in the presence of the main squadron in the gulf of Finland the loyalty of the crews of these vessels, perhaps, would be put to a stronger test than they could stand.

Although the admiralty claims that the squadron off Sveaborg did not waver in its allegiance, there is something mysterious about the reports of their actions which warrants the suspicion that all is not right aboard. Only two ships fired on the mutineers, the others remaining on the horizon as if the admirals were not sure that they could be depended upon.

The mutiny on the Pamyat Azova probably may raise international complications as in the eye of the law, this cruiser like the Kniaz Potemkin in the Black Sea last summer, is a pirate. There is reason to believe that the German fleet has orders covering just such conditions and that it would not hesitate to put an end to this renegade. When the firing began at Cronstadt Wednesday night there ensued a wild panic in the imperial palace at Peterhof, as the palace lies under the guns of the fortress. All preparations had been made in advance to flee to the Tsarskoe-Selo, but the report afloat yesterday afternoon that the emperor and his family actually had fled in the middle of the night was denied later at the chancellory of the imperial household. It was explained, however, that on account of the "dampness" at Peterhof, arrangements had been made for the return of the imperial family to Tsarskoe-Selo.

Martial law was proclaimed at Cronstadt during the day and all day long reinforcements have been landing there from the mainland. No one is permitted on the island without a pass and although the correspondent of the Associated Press was thus equipped he was held up and searched upon disembarking from a rowboat. The correspondent found that at 6 o'clock yesterday evening there were about 2000 mutinous sailors barricaded in their barracks which were surrounded by troops. The correspondent made a tour of the city and penetrated to the bridge connecting with Constantine fort. He saw sailors laughing from the windows of the barracks at the beseiging soldiers across the bay. Everywhere there were heavy patrols on the streets but otherwise the thoroughfares were almost empty. While passing the arsenal at 4 p.m. the correspondent heard a ragged volley which he subsequently learned had cut short the lives of six prisoners who had been condemned to death by the court martial which began its sittings this morning. It was declared that 300 sailors who had surrendered during the night had been shot earlier in the day, but it was impossible to obtain absolute confirmation of this statement. From eye witnesses on both sides, the correspondent learned that in addition to the officers previously mentioned, the losses on the side of the loyal men were six soldiers and two sailors killed and 20 wounded. The losses on the side of the mutineers could not be obtained but they were not heavy. Three workmen were killed and six wounded. In addition Mme. Jacobia, a sister of colonel Alexandroff, who threw herself between her brother and some sailors when the latter swarmed into their house at the beginning of the outbreak, was brutally stabbed to death.

The plan of the uprising was conducted by the revolutionary military committee, and while it was executed to the letter, it failed because the information of the situation at Fort Constantine and the arsenal was faulty. When the signal was given at 11 p.m., the sailors, sappers and pioneers left their barracks and divided into three groups. The mission of the first and smallest group was to kill the officers, the second was to take possession of the arsenal and the third was to seize the fortress and the train. The train crew had agreed in advance to be ready. Revolutionists cut the telegraph and telephone wires. The horrible task of the first group was accomplished hurriedly and it then joined the second group which already was on the bridge leading to Fort Constantine. This is the only fort directly connected with the mainland. The sentinels at Fort Constantine offered no resistance. The artillerymen remained neutral and submitted to imprisonment in the casemates. It was at this time that the sappers and pioneers who comprised the two groups found themselves checkmated. The batteries of the forts were arranged in two tiers. The guns on the lower can be swung on an angle of 45 degrees and commanded only the sea. While the upper guns can be directed in any direction. The magazine, however, while containing a full supply of shells for the lower tier guns, had in it only 2 shells for the other guns. A storming party later brought up field and machine guns and the mutineers, without the possibility of using artillery were compelled to surrender. About 100 of the mutineers including all the revolutionary civilians escaped in a steamer which was lying off the port. To the sailors who were all practically unarmed, their carbines having been taken from the racks in their barracks the day following the task of capturing the arsenal, the case was hopeless, so after a hasty consultation they decided to return to their barracks and barricade themselves in. Meantime loyal troops were closing in and several skirmishes occurred. The sailors had only automatic revolvers which were supplied by the revolutionaries, and during these encounters most of the casualties occurred. Once inside the barracks, the loyal soldiers immediately surrounded the building, but it was decided to starve them out rather than compel the men of one arm of the service to fire upon their comrades of another arm. About 300 sailors, who became separated from the main body on the return march to the barracks, were cut off and captured. The steamer on which the mutineers escaped was not captured. She is believed to have sailed for Sveaborg in the belief that the mutineers were still in possession there.

All persons leaving Kotlin island on which Cronstadt is situated are searched and detained in case they are open to the slightest suspicion. This is done in the hope of catching the agitators. Both the telephone and telegraph lines are held by the troops.

In Cronstadt, the correspondent of the Associated Press found the population momentarily expecting the appearance of the "Rebel Fleet." After midnight there was a glow in the heavens toward Cronstadt but it was later found that it came from a fire on the mainland.

St. Petersburg, Aug. 2.—According to the afternoon papers six officers were killed during the suppression of the mutiny at Cronstadt, including colonel Alexandroff, and nine were wounded. The casualties among the rank and file on both sides were much lighter than reported. Before seizing the Fort Constantine boat train, the sailors broke into the houses of the officers, killing some of them and arresting the others. The majority of the artillerymen of Fort Constantine refused to join the mutineers, thus preventing the latter from getting control of the fort with the exception of one gun. When the storming party, under the command of colonel Sheloff, arrived, the mutineers were compelled to rely on their rifles, with which they replied to the volleys of ehe loyal troops until two field guns and two machine guns had been placed in position and opened fire, when the mutineers threw up their hands. The number of mutineers is given at 2900 of whom 2000 were sailors. It is stated the garrison of Fort Constantine and Fort Alexander received previous to the mutiny, the following telegram in cipher from Sveaborg: "Prepare yourselves to receive a free fleet. We hope to find you friends and not enemies." A reply was sent in the desired sense and chiefs were chosen from amongst the sailors after the latter had expelled their officers.

Helsingfors, Aug. 2.—In the Sveaborg mutiny seven companies of artillery were concerned. Of the fortress steamers, the Vistrell, Puskar, Rabotschi, Ingenier and Mars, were in the hands of the mutineers while the Bomba, Opt and Sveaborg remained loyal. The mutineers furiously bombarded the Opt yesterday and threatened to sink the Bomba at the first opportunity even if she hoisted the red flag. During the Skatudden island mutiny only one, a Finn, of 15 vessels stations in the north harbor, fired on the barracks occupied by the mutineers, the others remaining passive.

HARD ON THE MILLMEN

C. P. R. is Not Very Accommodating With Its Lumber Cars.

(Special to The Daily News)

Ymir, Aug. 2.—The lumber industry along this line is somewhat handicapped at present owing to the refusal of the Canadian Pacific Railway company to allow its cars to be brought to Nelson & Fort Sheppard points and loaded with lumber for Manitoba points. The custom has been heretofore that upon request for cars they would be forwarded and returned to Nelson loaded and taken to their destination without transhipment. Now, if the Porto Reco Lumber Co., or the Kootenay Shingle Co., has an order for lumber or shingles for Manitoba non-competitive points, the only manner in which a shipment can be made is to load the stuff in a N. & F. S. local car and transfer the shipment at Nelson. This, it is readily seen, is impracticable. It is presumed that the C. P. R. thinks it is hitting back at the Great Northern; instead it is working a great hardship on the lumber shippers. It is understood that this matter will be placed before the railway commission for remedy. Of course shipments for competitive points in Manitoba are taken care of by the Great Northern.

Where a pretty and happy home stood this morning now lies a mass of blackened ruins caused by a defective chimney on the residence of Hugh McCausland at Salmo. Today at noon the fire alarm was sounded when flames were seen issuing from the roof of the above mentioned building. Willing hands hauled what contents they could out of the house, but in spite of their efforts considerable was lost. Much sympathy is expressed for the family. Mr. McCausland, who is employed at Ryan, B. C., has been summoned home by wire.

ONE MILLION DIVORCES

TREMENDOUS AMERICAN RECORD FOR TWENTY YEARS.

PRESIDENT ROOSEVELT STARTS OUT TO KILL EVIL.

Washington, Aug. 2.—The gathering of data for president Roosevelt's crusade against the divorce evil will begin this week. The work is in charge of the census bureau. A force of 100 experts has been engaged to collect facts pertaining to divorces during the past 20 years.

It is expected that the report will show the evil resulting from lenient divorce laws and the urgent necessity of uniformity in the laws of the different states.

It is estimated that during the last 20 years at least 1,000,000 divorces were granted and that applications for divorce numbered in the neighborhood of 1,400,000. It is believed that between 400,000 and 500,000 children are the offsprings of marriages which have ended in divorce within the last 20 years.

DECISION OF ARBITRATORS.

Toronto, Aug. 2.—At the time of the Winnipeg street railway strike, some of the employees of the Toronto street railway left their jobs and went to Winnipeg, where they assisted in breaking the strike. On the end of trouble there, they returned to Toronto and went back to work on their old jobs. As a result, some of these men were assaulted by other employees of the Toronto street railway, and the management dismissed the men who took part in the assaults. The union threatened to call a strike, and under the agreement the company has with it, the case went to arbitration. The two parties selected judge Mabee as the third arbitrator. Today's decision was handed out unanimously upholding the right of the company to engage and discharge in its discretion, subject only to any existing agreement and to dismiss the men engaged in the assault an the Winnipeg strike breakers was justifiable.

LITHOGRAPHERS STRIKE.

Montreal, Aug. 2.—The strike of lithographic employees in the United States has not yet affected the local lithographers, though a strike is threatened here and it is expected that the members of the local branch of the lithographers international protective and benefit association may be called out at any moment. Owing to lack of information regarding the situation in the states, the men decided to wait for a few days and meanwhile refer the matter to the chief officials of the union in New York.

FRENCH GENERAL DYING

Paris, Aug. 2.—General Brugere, the former commander in chief of the French army, is in a dangerous condition as the result of an operation for appendicitis. The general was removed last night to a private sanitarium and the latest indications are there is little hope of his recovery.

BLACK FOR PRISONER

Sensational Evidence Against Alleged Nanaimo Murderer.

Witnesses Prove Featherstone to Have Been Immoral Degenerate and Fond of Gun Playr

Nanaimo, Aug. 2.—The preliminary trial of Robert Stiles Featherstone, charged with the murder of Mary Dalton at South Wellington on Saturday, July 21st, started yesterday in the little sawmill town where the murder was committed, before magistrate Yarwood of Nanaimo.

The only new witnesses were Mr. Kalberg, superintendent of the South Wellington mill, Francis Brennan, an employee of the mill, and Miss Meredith of Nannaimo. The evidence given by the two latter witnesses was of a sensational character.

Kalberg gave evidence that accused, about ten days prior to the murder said he had just been introduced to the Dalton girl and made remark to the effect that he could accomplish some evil designs on the girl. Twice after that he made remarks of a similar nature. The last remark of this character was made four or five days previous to the murder. Another time when the girl passed him the prisoner made the remark, "There goes my girl," and started out after her.

Mr. Kalberg said: "I am positive that the prisoner talked of the girl to me three times. We were always alone at the time. His remarks about the girl were of a nature that was more or less common talk among millmen all over in reference to any woman. I paid no particular attention to his remarks at the time. I never heard anyone around the mill make any disparaging remarks about Miss Dalton other than Featherstone."

Miss Meredith was next called. Before this witness took the stand magistrate Yarwood informed the spectators present that the evidence about to be given would not be very nice. Acting on this hint, all present with a couple of exceptions left the room.

Miss Meredith being sworn, said: "I met the prisoner at South Wellington at Franker's house in the presence of Killeen, Brennan, the blacksmith and another. We sat there drinking about two hours and then Brennan, Featherstone and I drove to Nanaimo, arriving there after midnight Friday night. We put the horse in the stable, the prisoner getting out at Spencer's store. When we returned from putting up the horse Featherstone said a policeman asked him what he was doing there and that he had told him to mind his own business unless he had a uniform and star. While he was talking he said that he (Featherstone) had his hand on the revolver. After that we had supper at Philpott's. After supper we all went to the Occidental hotel and had some drinks in a side room on the ground floor together with the lady of the house. We had several drinks. Featherstone and Brennan went to the bar and were away a short time. On their return we had another drink at about 3:30 a. m. Then Brennan went upstairs to bed. Featherstone and I remained in the room with the landlady about half an hour, having some more drinks. onsal wtwcf'dS ord, nemfwypvtwy bartender gave the prisoner a key of room 8. We both went to bed there. The light was still burning. On going to bed the prisoner pulled a pistol out of his pocket and shoved it in my face. I was afraid and asked him if it was loaded. He opened the gun and I saw it was loaded. I tried and finally managed to get the revolver away from him.

Francis C. Brennan, on being sworn, corroborated the evidence given by the Meredith girl as far as it went when he was in her company. Continuing, he said: I saw Featherstone Saturday morning when he came into my room. He persuaded me to get up and I went down stairs and saw the prisoner at the bar and had a drink with him. He wanted me to go to South Wellington, butI said I was too tired, when Featherstone placed his hand on his hip pocket and looked at me.

To Mr. Hussey: I had conversation with prisoner Sunday previous to the murder in Scott Ellis' yard when a couple of ladies went by, when prisoner said, "When I get in the presence of women I tremble all over."

Further evidence taken of this conversation intimates that the prisoner was a moral degenerate of the very lowest type.

MANCHURIA IS FREE.

London, Aug. 2.—In the house of commons today, in reply to a question on the subject, foreign secretary Grey announced that there were no longer any restrictions on foreign trade in Manchuria. Two British consuls, he added, will shortly be appointed to posts in Manchuria.

FATAL ELECTION ROW.

Memphis, Tenn., Aug. 2.—J. C. Wellington, a saloonkeeper and W. J. Cook, judge of elections, are fatally wounded, and a third man less seriously injured as the result of an election fight shortly after the closing of the polls in the election of county officers today.

CARD OF THANKS.

Mr. and Mrs. J. Fred Hume, on behalf of themselves and family, desire to express their grateful appreciation of all the kindly consideration shown, and the sympathy so genehously extended to them, on the loss of their son, Robert Irvine Hume.

A CONFERENCE OF PREMIERS

Backed by the authority of Hon. William Pugsley, attorney general of New Brunswick, the announcement is made that a conference of provincial premiers and ministers with sir Wilfrid Laurier and his federal colleagues is likely to take place before the autumn session of parliament. Coupled with this announcement is an assertion that the dominion ministry is anxious to effect a settlement, satisfactory to all parties, of the various questions at issue between the provincial and federal governments. The most serious of these as far as British Columbia is concerned, is that of a readjustment of the financial relations at present in force. The campaign for "better terms," which has long been waged persistently by both parties in this province, is thus soon to bear fruit in practical results and when that time comes British Columbia will be better able to cope with the heavy burden entailed upon her by the excessive cost of opening up and administrating this mountainous, heavily timbered territory.

But the question of subsidy increases, urged by every province except prosperous Ontario, is not the only one likely to be discussed. Senate reform will undoubtedly be broached—reform, not of the radical nature advocated by some irresponsible persons, but along the line of more evenly appointed provincial representation. If any change is made in this direction, British Columbia will certainly profit by it, for the Pacific province has at present a numerically insignificant representation in the upper house.

EDITORIAL NOTES

The newspapers of the east have given Canada's big northern salt water body a new name. Instead of Hudson's bay, it is now frequently referred to as the "Canadian sea."

Dying, Russel Sage said: "I have done the best I could." Possibly; but there are some who think that if they had the Sage millions they could do a great deal better.

The Vancouver World's plea for the abolition of party line government in the province has not been very kindly received by the government organs. The Victoria Colonist has given the World the cut direct, remarking: "Coalition governments are a thing of the past in British Columbia."

A rumor recently emanated from England to the effect that premier Whitney of Ontario was about to accompany general Booth on an extended evangelistic tour. Mr. Whitney promptly denied the story. Except for the sake of the few who are unacquainted with Ontario's premier, the denial was unnecessary.

The conservative press is predicting the appointment of Ralph Smith, M.P., as Mr. Preston's successor in the dominion immigration office in London, Eng. Whatever may be said of the authority back of the tale, certain it is that the man would do honor to the office as the office would fit the man.

Apropos the discussion that has been raised by the fruit growers concerning the necessity for finding some supply of cheap labor, the statements made by Mr. Maxwell Smith, dominion fruit inspector, after his recent tour through the Kootenay and Okanagan, are of interest. The labor problem, said Mr. Smith, is the greatest one which confronts the British Columbia fruit grower today. "Chinamen who used to work for 90 cents to $1.25 per day are now demanding as much as $2.25, and white labor is practically not in evidence. I do not suppose that any politician or party of politicians in this province would dare advocate the taking off of the $500 tax on Chinamen, but it will be absolutely necessary that some means be undertaken to secure cheap labor to render effectual the development of the fruit growing and agricultural interests of this province. One of the principal fruit growers in the Okanagan valley told me a few days ago that, in addition to his present staff, he could put 30 more men to work immediately if I could send them to him. From $1.25 to $1.50 with keep, per day would seem to be the limit that fruit growers are able to pay for ordinary labor, such as is required for berry, plum, peach, apple and pear picking." Mr. Smith evidently agrees with the views held by The Daily News, though, as a government official, he recognizes the necessity of refraining from taking an active part in what promises to be a bitter controversy. That labor is needed everyone will admit; but that it is necessary to fall back on the Chinese without first making an intelligent effort to bring in a more acceptable class is not quite so clear.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

RACE FOR KING'S CUP

BIG NEW YORK YACHTING EVENT IS AT HAND.

FLEET OF YACHTS LEAVES GLEN COVE TODAY.

New York, Aug. 2.—Unusual interest attaches to the annual cruise of the New York Yacht Club, which will start from Glen Cove tomororw, because it will comprise two important races, the Astor Cup race on August 7th, and the race for the king's Cup, donated by king Edward, on the following day. Both these races will be sailed off Newport.

The squadron, which assembled at the place of rendezvous, off Glen Cove, today, is unusually large and includes some of the smartest and swiftest yachts in this part of the country. The program for today includes only the usual preliminaries for the cruise, in the evening, a reception on the commodore's flagship. Tomorrow the squadron will sail for Morris' Cove, on Saturday from Morris' Cove to New London. The squadron will spend Sunday at New London and on Monday will continue its run to Newport. On Tuesday the Astor Cup races will be sailed off Newport and on the following day the King's Cup race. The smaller boats will have a race in Narragansett bay. In the evening of that day there will be a grand illumination. On Thursday the squadron will run to Vineyard Haven, where, on the following day the races for the Owl and Gamecock colors will be sailed. On Saturday the squadron will return to Newport, where it will be disbanded. If the conditions are favorable, some minor special events may be added to the program of the cruise.

LAST SAD RITES

Funeral of Little Robert Irvine Hume Very Largely Attended.

There was an unusually large attendance of citizens yesterday afternoon at the funeral of Robert Irvine Hume, the ten-year-old son of Mr. and Mrs. J. Fred Hume, whose tragic death by drowning on Wednesday last awakened universal sympathy in this city for the bereaved parents.

Shortly after 2 o'clock yesterday Rev. R. Newton Powell, pastor of the Methodist church, conducted a brief funeral service at the Hume residence on Victoria street, and then the funeral procession wended its way to the cemetery.

The little coffin was covered with a profusion of beautiful floral offerings from many sympathetic friends.

The pall bearers were Frank P. Welsh, Roy Sharp, Charles McLachlan and Lee McBride. His worship mayor Gillett, and J. A. Gibson, accompanied Mr. Hume to the cemetery.

A partial list of those who sent floral wreathes, cut flowers and floral emblems includes, employees of the Hotel Hume, Mr. and Mrs. A. Halkett, the mayor and Mrs. Gillett, Mr. and Mrs. W. A. Macdonald, Mr. and Mrs. Stanley, Mr. and Mrs. McDermid, Mr. and Mrs. Dawson, Mr. and Mrs. Tompkins, Mr. and Mrs. W. Irvine, Mr. and Mrs. E. R. Atherton, Mr. and Mrs. A. M. Johnson, Mr. and Mrs. Gilchrist and family, Mr. and Mrs. Devlin, Mrs. Hipperson and family, Mr. and Mrs. D. C. McMorris, Mrs. M. Squire, Mr. and Mrs. Fred Squire, Mr. and Mrs. Amas, Mr. and Mrs. C. H. Ink, Mr. and Mrs. W. A. Thurman, Mrs. Blake Wilson, Mr. and Mrs. George Johnstone, Mrs. and Miss Sturgeon, Dr. and Mrs. Hall, Mr. and Mrs. W. W. Baer, Mr. and Mrs. Rutherford, Mr. and Mrs. Beer, Mr. and Mrs. J. A. Dewar, Mr. and Mrs. W. G. McMorris, Mr. and Mrs. W. J. Astley, Mr. and Mrs. Maglio.

Miss Alice Gibson, Miss Alice Richardson, Katie McPhee, Arthur Gilker, Edmund, Charlie and Myrtle Traves, Keith and Cecil Drew, Mary Waldie.

MILLINERY, COSTUMES, DRESS SKIRTS

We are Clearing Out Our Summer Lines of Millinery, Costumes, Dress Skirts and, in Fact, all Our Su mer Stock of New Goods.

We never carry over any of our stocks from season to season. We prefer to clean out all our lines twice a year and put in a complete new stock. We have a fine line of summer goods now on hand and as our fall stock will soon be arriving, these must be cleared out at once. We are going to cut the prices and every day will be bargain day. Don't delay but come early while the lines are complete.

The Store For Swell Novelties.

Fred Irvine & Co.

C. C. RICHARDS & CO.

Dear Sirs—I have used MINARD'S LINIMENT in my stable for over a year, and consider it the very best for horse flesh I can get and strongly recommend it.

GEORGE HOUGH.
Livery Stables, Quebec.

J. O. Patenaude, George Elliot, J. Waixel, W. A. Ward, Wood, Vallance Hardware company, R. E. Lemon, C. Longhurst, W. Fotheringham, D. Manhart, J. Vigneux, A. Perrier, Sharp & Irvine (Spokane), Fred Irvine, N. Hoover, Kong and Chinese boys at Hotel Hume. Many of the floral tributes sent in had no names attached.

Telegrams of condolence were received yesterday by Mr. and Mrs. Hume from Vancouver, Rossland, Spokane, Revelstoke, Silverton and many kindly letters from city residents.

ARREST LORD DOUGLAS

Portland Police Lock up a British Peer, Evidently By Mistake.

Portland, Maine, Aug. 2—Instead of having in custody an American bigamist known as lord Douglas, wanted by the authorities of many states, as was at first supposed, the Portland police, it is thought, have detained lord Sholto Douglas, third son of the late marquis of Queensbury. Several days ago a Portland detective was requested by the police of Asheville, N. C., to arrest a man who rented a cottage on the shore of Sebago lake in May. The officer went to the lake yesterday and detained a man known at the lake resorts as S. G. Douglas. The suspect regarded the arrest humorously and told the officer who called on him that he was lord Sholto Douglas. With him were two persons who, he said, were lady Douglas and their son. A firm of bankers in Portland stated today that the man detained at Sebago is lord Sholto Douglas. The suspect is in the custody of the police.

THORPE'S LITHIA cures and strengthens the bladder and kidneys.

VOLIVA IS ELECTED

Dowie's Antagonist the Choice of Zion City People.

Zion City, Ill., Aug. 2—At a meeting in the tabernacle here last night, for the purpose of choosing candidates for general overseer of the church in September, in accordance with the recent order of judge Landis, the name of Wilbur Glen Voliva was the only one presented. A standing vote of those present at the meeting showed 1410 in favor of Voliva's election. The name of John Alexander Dowie was not mentioned at the meeting.

FERNIE NOTES.

(Special to The Daily News)

Fernie, Aug. 2.—The holidays during the first week of last month have appreciably reduced the July output of coal and coke from the mines and ovens of the C. N. P. C. Co., as will be seen from the following figures, given in tons:

COAL

Coal Creek	45,777.16
Michel	30,565.14
Total	76,342.10

COKE.

Coal Creek	8,868.02
Michel	10,029.11
Total	18,879.13

The party of Washington press correspondents, who have been touring the west, passed through here on their way east but did not favor the coal town with a visit.

A concert is to be given in the opera house on August 9th by the children of Fernie in aid of the ladies' benevolent society. They are practicing hard and have prepared a very attractive program. It is confidently expected that the affair will be a greater success than the excellent performance they gave last year in aid of the same society.

The Michel Hungarian society is making great preparations for celebrating their third anniversary on August 20th, and a large attendance of their fellow countrymen from surrounding towns is expected to take part in the sports and to enjoy the grand ball which is to be given in the evening in the spacious Michel hall.

Miss Kidd, matron of the local hospital, left for the coast last night to enjoy a well earned rest.

The suits brought against the Great Northern railway for damages on account of fires started on the right of way into Fernie, and instituted by the Union Bank, the Cedar Valley Improvement Co., the Fernie Lumber Co. and Elk Lumber Co., will be tried at the October session of the supreme court in Nelson.

GRAIN CUTING STARTED

Battleford, Sask., Aug. 2—Cutting the grain started on the farms in this district yesterday and in about a week the movement will be general. A very heavy crop is anticipated, and from the samples to be seen no one will be disappointed.

WANTS TO SERVE SENTENCE.

Oakland, Aug. 2.—"Yes, it is true that I want to begin serving my time in San Quentin without any more delays or appeals," said Arthur Crane, son of a former county clerk of Alameda county, at his quarters in the county jail this morning. "There is no use of a further appeal, and I am tired of staying here in jail when I might be earning my freedom in state's prison."

As a result of taking his case into his own hands, discharging his lawyer, William Lair Hill, and dismissing the appeal of his conviction upon a forgery charge, young Crane wil be taken over to San Quentin within the next few days to commence the serving of his two year's sentence. Crane has been in the county jail thirteen months, and his conduct has been so examplary that he has been made a "trusty." He expects to shorten his service in state's prison by similar good conduct.

The defense of Crane was a purely technical one, depending upon a slight typographical variance between the check Crane forged and the instrument as set forth in the complaint. Both the superior court and the court of appeals have decided against his lawyer's contention, and but one more chance remained to beat the case—an appeal to the supreme court. Crane's father insisted that this should be taken. But the son has refused to permit it.

TO WORKINGMEN

NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present empoyled, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81 of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SANDON MINERS' UNION
A. SHILLAND, Secretary.

RECORD ESTABLISHED

C. P. R. SPECIAL RUNS 79 MILES AN HOUR.

HIGH SPEED ATTAINED ON LEVEL PRAIRIE SECTION.

Winnipeg, Aug. 2.—A specail train, consisting of sir William Van Horne's private car Saskatchewan, second vice-president Whyte's private car Manitoba, and a baggage car, arrived at the C. P. R. depot last evening at 2 minutes after 7 p. m., having made the run from Brandon, a distance of 1[illegible] miles in two hours, an average speed of 67 miles per hour. On board were sir William Van Horne, (chairman of the board of directors) Mr. Cobalt, of New York (a friend of sir William's) Mr. William Whyte, (second vice-president) Mr. G. J. Bury, (general superintendent) and Mr. J. T. Arundel, (superintendent of the second division). The train broke all records, the speed indicator having registered 79 miles per hour for a stretch. A distance of 30 miles west of Portage la Prairie was covered in 23 minutes, an average speed of 78 miles per hour. The top speed of 79 3-4 miles was made in straight run between Bagot and Burnside where there is a slight decline. If the occurrence of a bridge had not then necessitated a reduction of speed over 80 miles could have been accomplished. The train was pulled by one of the company's modern ten wheel passenger engines, which was constructed in Scotland. The record is in a great measure due to the excellent condition of the road.

Regina, Sask., Aug. 2.—Today the department of agriculture published the annual bulletin of acreage seeded and crop prospects in Saskatchewan. The most interesting features are as foddows: Total area under crop 2,000,000 acres. Total wheat yield this year 31,000,000 bushels. Increase 5,000,000 bushels. Average yield estimated 23 bushels per acre.

Calgary, Aug. 2.—Fred Bdick, brother of A. L. Bdick, M. P. P., who is in the employ of Revellion Brothers in the north, arrived from Peace river last night. He was accompanied on the trip by corporal Bowder and constable Shand of the mounted police, who came down from Fort St. John, B. C. These men were members of a party of thirty mounted police who were engaged in cutting the trail from Teslin lake to Fort St. John, a distance of six hundred miles. This trail is a portion of the Yukon-Peace river road which is being cut through. The remainder of the party at Fort St. John are working towards Fort Graham and when corporal Bowder and constable Shand left they had reached a point two hundred miles from Fort St. John. The party expects to arrive in Fort Graham this month.

Minard's Liniment Cures Garget in Cows

UNNECESSARY EXPENSE

Acute attacks of colic and diarrhoea come on without warning and prompt action must be taken. There is no necessity of incurring the expense of a physician's services in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most dangerous cases and no family should be without it. For sale by all druggists and dealers.

A WOMAN HOUSE BREAKER.

(Special to The Daily News)

Grand Forks, Aug. 2.—A bold attempt at house breaking occurred in this city a couple of evenings ago at the residence of Mr. W. J. Kelly. In an interview last evening with your correspondent Mr. Kelly said: "At ten minutes past 2 o'clock on Monday morning my wife and I heard some pehson trying to enter a key into the lock of our front door. I hastily ran to a side window where I could command a view of the front door. There I saw a very tall woman wearing a long coat tdying to enter a key into the lock. She was accompanied by a stoutly built man. I at once called out to them asking them what they wanted. The woman answering said: 'Excuse me, I was looking for a friend,' and then she, accompanied by the man started off on the run. When I spoke to them I had a revolver in my hand ond came very nearly firing on the pair but thought I would give them a chance to get away. On examining my premises early Monday morning I found that they had pulled off a board from the back yard fence and gained an entrance to the house in that way. It is possible the woman was a man in disguise as she was uncommonly tall and active in making her escape." Mr. Kelly resides in a brick cottage in Columbia townsite or western Grand Forks and came from San Francisco about a month ago bringing a picture of the earthquake, and latterly he has been employed as a blacksmith for the Kettle Valley line railway.

Minard's Liniment Cures Distemper

MAKE HAY WHILE THE SUN SHINES

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the household without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary and delay may prove fatal. For sale by all druggists and dealers.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; [illegible] cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of [illegible] cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so. W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa. February 14th, 1906.

THE "HARD-TO-DO THINGS"

Most things are "hard to do" if you try to do them in the hardest ways—and there's a hard way to do most everything!

There are Several Hard Ways to

FIND TENANTS
GET SERVANTS
SELL PROPERTY
LOOK FOR WORK
SECURE OFFICE HELP
INFLUENCE INVESTORS
RENT FURNISHED ROOMS
DISPOSE OF "OLD THINGS"
LOCATE LOSERS or FINDERS

and there is one way of doing these things which—while, possibly, not "easy"—is, at any rate, least-hard—the sensible, persistent use of

F. C. WINKLER

"MONEY WILL MAKE THE POT BOIL THOUGH THE DEVIL POUR WATER ON THE FIRE."

AND MONEY—invested in Publicity—will make the store prosper, though assailed on all sides by "hoodoos," "bad luck," or murderous competition!

That "Money is Power" has been conceded since the first coin came from the first mint.

But it has remained for the present generation to learn how to most effectually harness power and make it do the world's work—how, by putting money to work, to make it a useful and a tractable power.

Changed into Newspaper Publicity, money reaches, perhaps, its highest effectiveness.

Newspaper advertising will send store-crowds where they were never before seen will overcome the bad location hoodoo—will do away with "dull days" and "slow stocks"—will batter down, finally, every obstacle to complete store-success—and increasing store growth and profits.

If your Advertising Campaign is big enough, peristent enough, intelligent enough—if it embodies a "Selling Plan" for everything you have to sell—your business will prosper no matter how many of your friends or enemies try to pour water on your fire!

A good medium is an essential part of a good advertising campaign.

PLEA IS NOT GUILTY

ESTHER MITCHELL ARRAIGNED FOR MURDER OF HER BROTHER

LATTER SHOT CREFFIELD, WHOSE WILLING VICTIM SHE WAS.

Seattle, Aug. 2.—Esther Mitchell, the victim of "Holy Roller" Creffield, has entered a plea of not guilty to the information that charges her with murder in the first degree, for the killing of her brother, George Mitchell. A few minutes before she entered her plea, her counsel, E. A. Clark, of Portland, told her that her two surviving brothers would aid her to the best of their ability. The tired, haggard look on the girl's face was at once replaced with a look of pleasure, and still smiling, she entered her plea, uttering the words, "not guilty," in a sharp clear voice.

Long before 9.30 o'clock, the time set for the arraignment the courtroom was crowded with morbid minded men and women. A large number of women were present to see the girl who had killed the brother who had taken another's *life to protect her honor and virtue.* The majority of the women spectators were young.

When Esther Mitchell entered the courtroom women craned forward in their seats to catch a glimpse of her. If the girl was aware of the curious eyes focused upon her she did not show it. With a quick step, looking straight ahead of her, she took her seat behind the rail. Not once in the hour she sat there did she change her position or show any interest in the crowd that stared at her. Occasionally when some woman would stare at her the prisoner looked straight into the woman's face until the spectator dropped her eyes.

SUMMER DIARRHOEA IN CHILDREN

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the first M.E. church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy especially for summer disorders in *children. For sale by all druggists and* dealers.

SANDON MINERS' UNION.

Editor, The Daily News: Why do you chide the Sandon Miners' union for doing that which they have a legal right to do? It used to be thought that the publication of any matter calculated to injure any person was cause for action, criminal and civil. If such were the fact you, Mr. Editor, as well as the union, would be liable in the present case. It has now been definitely decided, however, that crimes committed by unions in the sacred name of labor are not *actionable.* A few years ago when the Sandon union was stout, it did not waste time (and money?) in advertisements.

Its members went by night and pulled John out of bunk by the pigtail and tossed him into the snow.

One of the parties concerned in a fracas of that kind was sentenced to a month's imprisonment—not for assault on the Chinaman—but for contempt of court.

I think the sentence was remitted by an attorney general or somebody at Victoria.

The unions in the Slocan went out on strike for 10 hours pay for 8 hours work 1100 strong. They were out a year. Spent their savings, exhausted their credit, broke friendly storekeepers and saloon men, and ended the dispute with a sawoff.

Out of the 1100, 990 are now in other parts including such heroes as Hagler, Benedum, Roberts and McAdam. Not content with running their own show, the Slocan unions served notice on the sawmills to pay after April 1st in a certain year the "standard wage" of the district to their men.

All of the sawmills responded by going out of business. It is a case of on struggle more and we are free; another rattling good strike and the rest of us will move out. But why complain so long as all is done legally. Pratt and Surprise Smith are within their legal rights in employing Chinamen. Mr. Shilland is within his legal rights when through the medium of The Daily News he blacklists them.

Let the law be respected!

God save the king!

A HELPLESS VICTIM.

Nelson, August 2, 1906.

[Whilst the foregoing communication is obviously written in an ironical vein, it may be as well to point out clearly that the publication of such an advertisement as that which forms the subject of our correspondent's letter, is entirely proper and has been so held by the supreme court of Ontario. We might say, further, that whilst the publication of such an advertisement is well within the rights of the Sandon union, it is most unfortunate that the members should have authorized such a procedure. The circumstances of the case did not warrant such action upon the part of the union and it will certainly create the impression that the union is actuated more by a desire to make trouble than to safeguard the real interests of its members. We sincerely hope that the announcement will be withdrawn and no further obstacle placed in the way of the operation of the Last Chance and Surprise mines upon such entirely indefensible grounds.—Ed. The Daily News.]

Minard's Liniment Cures Garget in Cows

MINING RECORDS.

At the mining recorder's office on August 2nd a transfer was recorded from T. Mitchell to J. Petro of a one-sixteenth interest in the Myrtle placer claim at Hall creek, consideration nominal.

A transfer was recorded from T. Bennett and *H. Billings to Gus Schwinke of a* quarter interest in the Eldorado, on Sheep creek; consideation nominal.

C. Olmstead of New York has bonded the Nevada Columbia and Edwad D, all on Sheep creek from Bella Devlin, H. Amas and A. Pool. The consideration is placed at $30,000, payable in stallments of $10,000 on July 19th, 1907, January 19th, 1908, and July 19th, 1908.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health. —How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness and know that her letter will be seen by a woman only.

Many thousands of cases of female *diseases come before Mrs. Pinkham every* year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

TRANSFER OF RETAIL LIQUOR LICENSE

In the Matter of the Municipal Clauses act

And in the matter of an application for the transfer of the retail liquor license for the Wilson House, situate in Slocan, B.C., from A. E. Teeter to George Stoll.

NOTICE is hereby given that the undersigned will make application to the board of License Commissioners for the city of Slocan at the next setting of such board, for the transfer of the retail liquor license to sell liquors on premises known as the Wilson House, situate on Lots 6 and 7, Block A., in the said City of Slocan, B.C. from the said undersigned to George Stoll.

Dated at Slocan, B.C., this 16th day of July, A.D., 1906.

A. E. TEETER.

Minard's Liniment Cures Distemper

EMPRESS' FAST TIME.

Montreal, Aug. 2.—The Canadian Pacific royal mail steamship Empress of Britain, from Quebec, Thursday, July 26, and Rimouski the 27th, at 11.15 p.m., arrived at Moville at 3.30 p.m. today, after an excellent run, time of passage 5 days 23 hours. It is remarkable that the Empress of Britain and the Empess of Ireland, crossing the ocean in different directions, should cover the distance with the small difference in time of 2 hours and 10 minutes. The Empress of Ireland, which arrived at Rimouski today, made the trip to the westward in 5 days 20 hours and 50 minutes, 2 hours and 10 minutes faster than her sister ship.

TEA THAT NEVER VARIES

One reason most teas vary so much is that they come sometimes from one garden sometimes from another. The difference of soil affects the flavor of even the same kinds of tea. There is no variation in

Blue Ribbon
TEA

It is always selected from the same plantations, the best in India and Ceylon, the immense output enabling the packers to make favorable arrangements with the leading growers.

The special methods of blending and careful tests at every stage of the process make variation practically impossible, every pound must be exactly the same.

Finally, the lead packets keep out any foreign odors, and bring it to you clean, fresh and fragrant, and always with the same rich flavor as before.

Test it for yourself 50c a pound.

MUTINY HAS COLLAPSED

RINGLEADERS EVERYWHERE IN THE HANDS OF GOVERNMENT

BALTIC SQUADRON WAS NOT SEIZED BY THE REBELS

St. Petersburg, Aug. 2.—The wildest rumors are in circulation, one of which, to the effect that a mutiny has broken out at Cronstadt, has caused the utmost alarm, which has been increased by the fact that telephone communication with Cronstadt is again interrupted. It is asserted that four mutinous warships have arrived at Cronstadt and that the guns of the fortress have been trained on them, but that fire has not yet been opened.

Tiflis, Aug. 2.—Upon the arrival of a detachment of Cossacks, the companies of the Samur regiment at Deshlagar, commanding the famous iron gate at Derbent, which had mutinied, surrendered and handed over their ring-leaders to the Cossacks' commander. Telegraphic communication with Deshlagar has been restored.

St. Petersburg, Aug. 2.—During the night mutinous sailors, soldiers and sappers and miners, seized Fort Constantine at Cronstadt, but were subsequently dislodged and compelled to surrender, after heavy fighting with the loyal regiments. A hundred men were killed and many were wounded, including admiral Boakiwisheff. Some of the mutineers succeeded in boarding a steamer and escaping to Finland.

St. Petersburg, Aug. 2.—A reactionary newspaper of Moscow published the news of the murder of M. Herzensten, Tuesday morning, more than 12 hours before the perpetration of the crime.

St. Petersburg, Aug. 2.—(2.35 p.m.)—The collapse of the mutiny at Sveaborg, coupled with the breakdown of the plans of the revolutionists to secure possession of the Baltic squadron and promote an immediate rising at Cronstadt, greatly changes the situation. The spirits of the government officials have risen and those of the revolutionists are correspondingly depressed and the arrangements for ordering a general strike on Saturday may be countermanded. The strike in Finland is already a failure, owing to the fact that the more intelligent of the Finns did not support it as they realized that by placing themselves at the head of a purely Russian revolutionary movement, they might justify reprissals and jeopardize their newly granted liberties. The latest reports show that all the rumors to the effect that the Baltic squadron was in the hands of the mutineers were untrue. When the mutineers, who were led by agitators from the shore and who believed that the squadron was coming to their rescue, found that hope in that direction was crushed, dissensions broke out among them and they turned their guns upon each other, those who had determined to die rather than surrender, shooting into the ranks of their more faint-hearted comrades who hoisted the white flag.

Helsingfors, Wednesday, Aug. 1.—(6.40 p.m.)—(Delayed)—When the correspondent of the Associated Press arrived here this afternoon, from St. Petersburg, the situation was practically unchanged. The mutinous artillery men were still holding out, aided by the regiment of sappers and miners, which had joined them in the mutiny. Throughout the day an artillery battle was fought between the north and south batteries of the main island of Sveaborg. From a place of vantage, the correspondent was able to see shells occasionally strike the barracks and fortincations, causing fires to start. The mutineers at that time seemed to have the upper hand and the Russian commander was forced to flee with 2000 loyal infantry to the furthermost part of the southern section of the town of Sveaborg. The Sveaborg fortress is composed of seven islands of which Sveaborg island is the center. Half of Sveaborg, with half of Sandham island, were in the hands of the mutineers, artillerymen, sappers and miners, with the government forces commanding the other halves of Sandham and Sveaborg islands and the whole of Langorn, Nicholas and Harakka islands. The permanent fortifications on Sveaborg island were badly damaged by the shell fire exchanged between the combatants. It is claimed that the troops on Harokko island, the nearest to this place, could silence the guns of the mutineers, but the soldiers refused to fire on their comrades, although they remained faithful to the government. The mutinous artillerymen were well fortified, not only being able to hold their positions but seemingly having the upper hand, and the large 11-inch guns in the hands of the government forces did not seem to have the slighest effect on the earthworks held by the mutineers, though the stone and brick foundations suffered considerably. The correspondent says the charge of the government infantry on Sveaborg island was repulsed by the mutineers. The infantry succeeded in creeping up to a spot near the Russian chruch, keeping well out of sight, and finally they made a rush at the positions held by the mutineers. But the attacking party was met by the fire of machine guns and they at once broke and fled, leaving many dead and wounded on the ground. Not infrequently shells went over Helsingfors and many bullets fell in the city, resulting in several persons being wounded. Re-inforcements of government troops arrived here this morning, consisting of two companies of the finest regiment from St. Petersburg. In conversation with a member of the regiment of sappers and miners, here, the correspondent learned that this was not the first trouble in the regiment, but was the sequel of many smaller disturbances. The sappers and miners on several previous occasions had refused to obey orders of their officers. The government commanders expect to be able to assemble troops tonight on a small peninsula near the fortifications occupied by the mutineers in front and rear. The latter have but little food left and if they do not succeed in replenishing their supplies soon, they will be unable to hold out. As this despatch is being written, the sounds of the firing of big guns announce that the struggle, after a short interval of cessation, has recommenced. Great excitement prevails here. The Red Guard (the armed socialist legion) under the command of Johann Kers, has appealed to the Finns to strike in support of the "Brave heroes of the Russian revolution," but a general strike is regarded as impossible at present. The railroad was torn up for several miles near Riihimaki to prevent reinforcements of troops arriving here, but the railroad men have succeeded in effecting temporary repairs. Telegraphic communication between Helsingfors and St. Petersburg was cut but a railroad wire is now working. The railroad officials declare that the railroad men have no desire to go out on a strike.

G. T. P. NEEDS MORE MEN.

Finds it Difficult to Secure Construction Gangs.

Edmonton, Sask., Aug. 2.—Mr. Frank W. Morse, general manager of the G. T. P., is in the city accompanied by Mr. Stuyvant, general assistant and Mr. G. A. McNicol, private secretary to Mr. Morse. The party will remain in town for a day or two proceeding south via the C. P. R. Seen this morning, Mr. Morse said: "There is no special significance in this visit. We are examining the work done and arranging for that to be performed."

"What about construction from Edmonton east?" was asked.

"Construction of the line between Edmonton and Winnipeg is progressing as rapidly as can be expected, said Mr. Morse. The great activity in this section of the country makes it impossible to have as large a force as we would like, at the same time the contractors are doing all in their power to increase the number of men and if teams could be secured at Edmonton, we would be very glad to start them immediately on construction from here east."

"Has the Clover-Bar crossing of the Saskatchewan, been officially announced?" was asked.

"As regards Clover-Bar crossing," said Mr. Morse, "as you no doubt know, mayor May and Mr. Cross have been in the east for some weeks. They realize the advantages to Edmonton if the Grand Trunk Pacific enters there via Clover-Bar, and they have been urging upon the government the desirability of having the line come by that route, and I can say that anything that has been accomplished in this direction and any benefits or advantage that accrue to the city by our line coming direct to Edmonton is due entirely to the efforts of these gentlemen. The Mayor and Mr. Cross will undoubedly be able to tell you in a short time what they have accomplished in the east and the arrangement for bringing the Grand Trunk Pacific into your city."

NEGRESS SUES FOR ESTATE.

Cincinnati, Aug. 2.—Alethea Foley, a negress, has retained lawyers and will fight for the estate of Lafcodio Hearn, the famous and eccentric writer, who died a few years ago in Japan. She asserts that she is his legal widow.

She alleges that they were married in this city in 1874, shortly after Hearn became connected with a local newspaper. Three years later Hearn went away, and the Foley woman never saw him again.

The woman claims all the revenues now being derived from Hearn's books in this country, as also the estate in Japan, where the writer left a widow and child.

Rarely a more romantic character has appeared even in the literary field of the United States than Lafcadio Hearn. There drifted into a newspaper office one evening in 1873 a spare, swarthy man with large chick spectacles, who asked for work. It happened that a big fire was on at the time, and Hearn was sent out.

Later in the evening the city editor, passing through a side room, saw a man lying full length on a big desk, his eyes out an inch from a pad of paper. It was the near-sighted Hearn writing his story a story that was so wonderfully realistic that the writer became a fixture in the office.

Hearn told little of himself. He had few friends, but to one of them he said his father was an English officer and his mother a Greek. He had little regard for the conventionalities of polite society.

The woman who is now claiming to be his wife once had him arrested for non-support. She is said to have been pretty in her youth and has a very fair skin.

NO MORE "BYERLY" DEALS.

Washington, Aug. 2.—There will be no opportunity for clever people to turn an honest penny without risk on their own part in connection with the forthcoming issue of Philippine certificates, proposals for the sale of which are to be opened on the 23rd of next month.

Captain McIntyre, acting chief of the insular bureau, and who is conducting the refunding of the outstanding Philippine certificates, has decided to require all bidders to inclose with their bids certified checks to the amount of 1 per cent of their bids, as evidence of their willingness to take the certificates allotted to them.

BUCK UP, SAYS DEASY

NELSON'S SIMPLY GOT TO WIN THAT LACROSSE GAME.

BOYS ARE URGED TO TURN OUT REGULARLY FOR PRACTICE

Only eight members of the lacrosse team were out at practise last evening and the game with Regina will be played in a fortnight. A better attendance is expected at every practise between now and the 16th when the big game takes place. Manager Deasy says the Nelson team has simply got to win that game and if the boys expect to make a showing it is up to them to turn in and practise. A few weeks ago one Deacon drifted back into this burg with good intentions of playing the game but he has yet worn out no running shoes by his labors at Recreation Park. The boys hope to see Deacon back in the game again tonight for he has played with the team before and they know his worth.

The intermediate baseball team is anxious to have some poet come forward and write their obituary poem. They have decided that as far as they are concerned the American national game is a dead letter. Can they play—well just say baseball to any member of that team and then foot it for safety. Since their final game here with Trail they have had three offers from other towns which are looking for easy pickings but the boys have had enough and the other clubs must seek elsewhere for a mat. Members of the team said last night that the only reason that they have refused these offers for outside games is that they would have to bring them back here to play return games and now that the citizens of Nelson have so high an opinion of their winning ability, they would not get a gate big enough to pay expenses.

The Rossland Miner of yesterday is authority for the statement that the Rossland team will play a game with the Nelson team in this city on the 12th instant. Manager Deasy stated to a evening that this was incorrect as the evining that this was incorrect as the Nelson boys have refused to play Sunday games. They have challenged Rossland to play off the tie which now exists in the series played by these teams but Rossland apparently holds out for Sunday games. The Nelson boys suggest games on Thursday or Saturday afternoons. It will be remembered that in the last game played in Rossland betwen the teams the Nelson boys were sent home with the score against them, but Bert Davidson is authority for the statement that Nelson is going to do all sorts of things to Archie Macdonald's pets when they get them here in Nelson.

The Regina lacrosse team will play Rossland in that city on Saturday afternoon the 18th of August.

When the lacrosse fever is now so strong, a man on the streets suggests that two of the B. C. teams, say Rossland and Nelson, should arrange with the management of one of the Parks to play an exhibition game in Spokane on some holiday and show the Americans just what lacrosse is. Portland gave them an exhibition of rowing on Tuesday and tickled them all the way up the back. Other American cities, including St. Paul, Duluth, Chicago, Seattle, Tacoma, Portland and the California cities, have good lacrosse teams and if a team could be formed in Spokane some good games could be arranged for next season with the Kotenay clubs. Its up to the managers of the two clubs to get busy.

SUMMER ASSEMBLY

Dr. Northrop's Address Last Evening and His Lecture Tonight.

Rev. Dr. Northrop delivered an unusually forcible address at the Baptist summer assembly last evening to a good audience. The reverend gentleman's topic was "Five feet, eight of Christianity," and he based his address on three texts, Paul's words "Till we all come unto the perfect man." Jeremiah's statement "Run ye to and fro in the streets of Jerusalem and see if ye can find a man," and the familiar text, "When I was a child I spake as a child, I thought as a child, I understood as a child, but when I became a man I put away childish things." The speaker defined his topic as applying Christian character and including the whole man, from the top of his head to the sole of his foot—every inch a man. Contrasting a perfect man physically, mentally and spiritually, with one lacking some of these characteristics, Dr. Northrop alluded to the crooked and deformed tree in the forest as typical of the man unbalanced mentally or lacking true spirituality, though sound physically. He instanced the case of a prize fighter he had known personally, who was a magnificent type of physical manhood, but who lacked mentality and who showed no trace of possessing any spirituality or refinement. The speaker traced the growth of the human ideal of character in infancy, the parents, in childhood the teacher, further along in life, the college president and professor, and finally Jesus Christ, as the one type of perfect character. In closing Dr. Northrop warned his hearers that they were judged by the little things of every day life. Men measured each other by the trivial happenings of the day not by single heroic deeds, and the flies in the ointment was used as a moral.

This afternoon Rev. Mr. Shanks will give the Bible lecture and this evening Dr. Northrop will deliver his celebrated lecture "Don't snub that boy," a story said to be well worth hearing by parents as well as children, and all who love children.

A LOST EMPIRE.

A new and interesting definition of the Canadian northwest is advanced in the latest number of "Success," an American publication. Speaking from the point of view of a United States citizen, Samuel Sherwin refers to the grainlands of Manitoba, Saskatchewan and Alberta as "our lost empire." This phase he justifies in the following ingenious way."

Definition number seven in Webster's unabridged, of the transitive verb, "to lose," reads: "To fail to obtain or enjoy; to fail to gain or win." Twenty-five years ago Canada was young and diffident. Today she is strong, rich, and a little proud. Then, we thought it worth while to make advances, it is difficult to say what might or might not have taken place. Now, there are half a million American settlers in Manitoba and Saskatchewan and Alberta, and, if you should ask them, you would find that they are not at all interested in the annexation question. "Things run rather better here," they say, "than in the States. The administration of justice is much more satisfactory. We see no advantage in changing."

If you have ever felt, as I rather fancy you have that it is in you to explore strange, new countries for yourself, that you would not hesitate very long between going into something in the dry goods way and going into something in the empire-building way, you will do well to open the atlas to the map of North America and let loose your imagination in the splendidly romantic conquest of that far northwest which we know very little about, but which we shall, willy nilly, learn a good deal about before "Jim" Hill, and the new Grand Trunk Pacific and the Canadian Northern, and the Canadian Pacific, and the Dominion government get through with it. They are building—while you wait—an empire with which we, of these states, shall very shortly have to reckon.

It is the first time an empire was ever built in just this way. The rifle has no place in the undertaking. Thanks to the century-long influence of the Hudson's Bay Company, the Indians and half-breeds are docile. Thanks to the Anglo-Saxon sense of order, and to the royal Northwest Mounted police, there are few or none of those "bad men" who have infested our frontiers. The conquering army is made up of farmers and cows and sheep and horses and plows and harvesting machines. The advance skirmishers, if you could see them at work, are hardy young men in rough clothes who carry transits and levels, and travel with pack horses or, in the depth of the winter, with pack dogs.

REFUNDS $400,000.

Chicago Telephone Company Pays Back Overcharges.

Chicago, Aug. 2.—In accordance with a promise given to its subscribers several years ago that all would be treated equitably should the courts decide the rates charged for metallic circuit telephones were illegal under its franchise the Chicago Telephone Company will refund more than $400,000 to its patrons. President Arthur D. Wheeler of the company announced this plan in a letter sent to mayor Dunne by judge Barton Payne, counsel for the company. Mayor Dunne expressed himself as highly pleased with the fairness shown by the corporation in refunding the excess fees paid by the subscribers since the issuance of the Tuley injunction in 1902.

BRYAN ENDORSED.

Minton, North Dakota, Aug. 2.—W. J. Bryan was unanimously endorsed today for the presidency by the democratic state convention. He was called the best friend of the working people and his election was predicted.

THORPE'S LITHIA cures and prevents gout.

LAND NOTICES

NOTICE is hereby given that 30 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, at Victoria, for a special license to cut and carry away timber from the following described lands in West Kootenay district: Commencing at a post marked "Forest Pelton S.W. corner," planted on the north boundary of timber lease lot 435, and about 50 chains in a northerly direction from the 20 mile board on the N. & S. railway, thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to place of commencement.

Located June 29, 1906. (-4

FOREST PELTON.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands on the southerly side of the Columbia river in the West Kootenay district of British Columbia: Commencing at a post marked "Louis Borgat northeast corner," thence south 40 chains; thence west 40 chains, more or less to the east boundary of Lot 373, 40 chains more or less to the columbia river; thence easterly following bank of Columbia river 40 chains more or less, to place of commencement, containing 160 acres more or less.

LOUIS BORGAT.

NELSON'S NEWS OF THE DAY

Born, on August 2, to the wife of John Erickson, Granite road, a son.

Wire trouble was prevalent last night and telegraphic news was scarce as a result.

Cranbrook is making elaborate preparationsfor the celebration of labor day, Monday, September 3rd.

Mrs. Hamilton Byres and children left for Vancouver o nthe coast train last evening and will spend a month or six weeks visiting relatives in the terminal city.

In the window of T. G. Procter's office yesterday there was on ehxibition a branch of big black cherries, said to be "Lamferts" from the orchard of A. Wallace, at Kaslo. The fruit is the finest of its kind seen here this season.

In the interview with Mr. E. M. Jacobs on mining in the Boundary, which appeared in yesterday's issue, the Rawnlde property was discribed as shipping about 8000 tons monthly, whereas it should have read "about 2000 tons a month."

Miss Olivia Dahl and Miss Gina Smith arrived in town last evening from their tour of the Boundary. They leave this morning for Sandon where they give a concert tomorrow evening. On Monday evening they will give a concert in Kaslo.

Last night about 10 o'clock there was a big blaze, visible in the city, and appearing to come from some burning building a couple of miles down the Granite road. The fire lasted about half an hour but details of the damage done are lacking.

The second dance at the tramway park pavilion held last evening under the auspices of the 20,000 club proved a great success, the weather was cooler than on the first occasion and every one enjoyed the dance thoroughly. Early in the morning the lights went out suddenly but the trouble was quickly remedied by the city line men, and on went the dance. J. C. Taylor convener of the club's entertainment committee hopes to make the future dances still more successful.

NELSON BRANCH

C. R. Hamilton, K. C., and Paul Coudrey, of the Le Roi No. 2, Rossland, are guests of the Strathcona.

Rev. Dr. Northorp will deliver his famous lecture this eveinng, in the tent on the public school grounds used by the Baptist summer assembly, on "Don't Snub That Boy." All boys under 15 will be admitted free of charge. Those who have heard the lecture speak very highly of it and say that Dr. Northorp's treatment of a difficult and important question, is an exceedingly able one.

The annual Sunday school picnic of St. Saviour's church held yesterday at Procter, proved a success in every way, the only drawback being the absence of the band. The Kokanee steamed out at 9:15 yesterday morning with a great crowd of happy children and many grownups and the afternoon boat took up another large number of people. There were sports and games of all sorts without number and the children thoroughly enjoyed the treat kindly provided for them. One little girl who found her way into The Daily News office on her way home, declared enthusiastically that "everything was just splendid." And what more could be said. Captain Gore took a keen interest in all that went on and personally assisted in seeing that the children had the best of times all day. No accident marred the day but just as the Kokanee reached the city wharf last evening at 9:15, F. J. Sammons, the well-known fruit shipper inspector, in some way lost his balance and fell overboard. He was promptly and heroically rescued by Fred Starkey, with no further injury than a thorough ducking.
