BEATEN IN ONE ROUND

Australian Unknown Has no Chance Against Canadian Boxer.

Squires Was Beaten Within Ten Seconds of Beginning of the Fight by a Right Hander on the Jaw.

San Francisco, July 4—Bill Squires, the champion pugilist of Australia, succumbed to the blow of a Canadian fist at Colma today after he had been in the ring with Tommy Burns for two minutes. The men who witnessed the brief meeting between the two fighters were charitable enough to call him a "dub.' They designated him a "false alarm" who should have been pitted against a fourth rate fighter rather than a pugilist with the slightest possession of ring skill. To say that the 9000 persons who journeyed out to Colma to witness the fight were disappointed, would be phrasing it mildly, indeed. It was a hot day and the journey to Colma was disagreeable. Hundreds of persons came from other states to see the fighter of the Antipodes battle with the light heavyweight champion of America and anticipation was keyed up to the highest point. From the standpoint of the average spectator the outcome would have been amusing if less effort had been required to reach the arena.

San Francisco, July 4—Bill Squires, the mystery from Australia, lasted only a portion of a round before Burns, the French Canadian, this afternoon. A succession of rights to the jaw and the fight was over. The fact that Squires was an unknown quantity had lent interest to the fight and an immense crowd assembled just outside San Francisco to witness the contest. Fully 9000 people were in the arena and paid all the way from $2 to $20 to see a few seconds of fighting. What fight there was was decidedly one sided, as Squires never landed a blow.

Within ten seconds after the gong had rung for the men to begin, stocky little Burns had swung his right to the Australian's jaw and he went down. In looked then as if the fight was over, but in four seconds Squires staggered to his feet and rushed violently at Burns. Then they broke in the center of the ring and Burns immediately popped over another right and Squires went down again. He got up in a second and then Burns swung a succession of rights, each one staggering the Australian until he dropped his arms. Then Burns swung his right again with tremendous force and it was all over.

The result, while a surprise to many, keeps Jim Jeffries still in retirement. He had announced that if Squires won he would meet him in the ring. Beyond demonstrating that he can hit hard and with lightning speed, Burns had no opportunity of demonstrating his class. The end was too sudden.

Jeffries was loudly cheered when he came into the arena. He was suffering from an ulcerated tooth. There was betting at even money that Burns would not last ten rounds.

The preliminary bout, Murray and Edwards, resulted in a draw.

Many women braved the gaze of thousands of men and occupied seats close to the ringside. The fight aroused unusual interest, as Squires was an unknown quantity here and there was a great deal of curiosity to know what the man from Australia could do.

Burns, whose record was pretty well known here, while he has never been rated as a top notcher in the heavyweight division, he was noted as a fast aggressive fighter. Men interested in the sporting game were present from all parts of the country.

The arena is located just outside of the county lines and is in San Mateo county where the regulations as to gambling are not so stringent as in San Francisco.

For several blocks along the road leading into the enclosure, booths had been established, where various games of chance were in full swing. In the arena, carrying clinking handfulls of gold and rolls of greenbacks, men wandered through the crowd offering even money that Burns would not last ten rounds and ten to nine that Squires would win.

Jim Jeffries, Jimmie Britt, Frankie Neil and Battling Nelson came into the arena at 1 o'clock and were greeted with a cheer. The "big fellow" looked as big as ever but one side of his face was swollen from the effects of a toothache. At 1 o'clock Frank Edwards and Johnny Murphy, two 120-pound boys, entered the ring for the ten round preliminary.

By this time nearly every seat in the arena was occupied and people were still pouring in. It was an orderly good natured crowd. Billy Jordan acted as master of ceremonies; Eddie Hanlon refereed the preliminary.

A couple of minutes after Squires came in, Burns attired in a long bath robe, entered the ring but neither man was greeted with much enthusiasm. Burns walked over and shook hands with Squires and then sat down in the opposite corner from the Australian. Squires had his wrists and hands bound in tape.

Squires posed for his picture while his manager stood behind him and waved the Australian flag. Billy Jordan then introduced him as "a rough diamond from Australia, Bill Squires.'

Then Burns stepped up, with the American flag waving behind him. Jordan introduced him as "the heavyweight champion of champions of America, Tommy Burns."

Burns was clad in green and red tights with an American flag as a belt.

Jeffries entered the ring to referee the fight. Jordan introduced his as "the great and only undefeated champion of the world, Jim Jeffries."

Joe Rogers challenged the winner for $5000.

Battling Nelson and Jimmie Britt then came into the ring and were introduced. Al. Kauffman challenged the winner of the fight.

At 2:05 the men stepped into the ring and received their instructions from Jeffries.

At 2:10 the men commenced fighting. Squires went after Burns, feinting and leading. They came to a clinch in a corner but no damage was done. Burns landed a right to the jaw and Squires went down. He stayed down four seconds and came up fighting. They went into a clinch and as they broke Burns missed a vicious right swing; Squires poked a right into Burns' body. Burns landed another right swing under the jaw. The knockout blow followed several that landed on Squires' jaw as he rushed into Burns. It landed squarely on the point of Squires' chin and he collapsed and fell flat on his face.

Big Jim Jeffries stoop over him and slowly counted off the ten seconds but he might have spared himself the trouble as it was evident the Australian was down and out for good.

Immediately the crowd swarmed into the ring, while Squires' seconds carried the 'false alarm" from Australia, to his corner.

IRRIGATION MEETING

CONVENTION WILL BE HELD IN CALGARY JULY 17

TO ELIMINATE UNCERTAINTY IN AGRICULTURE

(Special to The Daily News)

Calgary, July 4.—The first irrigation convention covering the provinces of Saskatchewan, Alberta and British Columbia, will open here on July 17. It is gradually dawning on the minds of thinking people that the most significant development in agriculture that Western Canada has yet witnessed is the movement to utilize the great mountain streams in aiding the farmer largely to eliminate the element of uncertainty from the operations.

Irrigation enterprises, private and corporate, now completed and actually under way in Western Canada, comprise are area equal to one-quarter of the total of irrigated area of the whole of the United States, and the development is as yet in its infancy. Our mountain ranges contain natural reservoirs only awaiting the finishing touches of skill and labor to save water sufficient to irrigate vast areas in addition to those that are now or can be provided for by our normal water supply. A propaganda so vast and fraught with such far-reaching interests, that enters so closely into the whole problem of Western Canada's colonization and future prosperity is of deep concern to every resident of the great west and imperatively demands the impetus, constructive guidance and moulding influence that can only be effectively brought to bear through a strong, permanent organization.

The National Irrigation Congress of the United States is accomplishing this purpose south of the line, and the time has doubtless come when a similar movement should be instituted in Canada. The whole question of irrigation in humid and sub-humid climates is now before the public in America. Experiments and investigations are being conducted at many agricultural colleges and public experimental stations, with a view to demonstrating that agricultural operations can be carried on successfully under artificial watering in humid climates as in dry climates. While the result of withholding water on the latter is a total failure, the effect one year with the other, spells success.

NEW YORK BONDS

Attempt to Dispose of Thirty Millions Worth, Failed

New York, July 4—An attempt to dispose of $29,000,000 New York city 4 per cent bonds, for which bids had been offered for several days, proved a failure today. When the bids were opened it was found that only $3,500,000 of the bonds had been subscribed for. There were 57 bids, all of small amounts, at prices ranging from 100 to 100.36.

Comptroller Metz announced that the amounts subscribed for probably will be allotted to bidders. The remaining $26,500,000 will be readvertised. Mr. Metz said no advance will be made in the interest rate. He ascribes the failure to the present condition of the money market. At the last sale of city bonds in February a little lobetter than par was realized. The bonds offered today, with the exception of $2,000,000, are to run 50 years.

SCOUNDREL CAPTURED

Taken by Body of Armed Men After a Long Chase

Richmond, July 4—Parties of men armed with shotguns and other weapons are scouring the country about here for the assailant of 16-year-old Lillian Lynn, who still lies in a critical condition.

The search has gone on steadily since last night. Some traces of the fugitive have been found, but he is still at large. The people of the vicinity are much worked up and there is some fear of extreme measures if he is captured, especially if his victim's injuries prove fatal.

Greenhill is about 22 years of age and saw service in South Africa.

Later—Greenhill, who assaulted Lillian Lynn, has been captured after a stern chase by 100 armed men.

MOYER MAY TAKE STAND

San Francisco Affidavits to Disprove Bradley Statement.

Trial of Haywood Nearing Close of the Defense—Strong Testimony is Claimed for Rebuttal.

(Special to The Daily News)

Boise, July 4.—Introduction of testimony for the defense in the Haywood case is now nearing a close. There are a number of minor witnesses to go on tomorrow, but it is expected they will be finished before night. On Saturday the defense will introduce depositions secured from W. Bradley and others at San Francisco to disprove the statement made by Orchard, relative to blowing up the Bradley house.

That will conclude the defense, excepting the testimony of Moyer and Haywood. Pettibone will not be put on the stand, but it is stated positively Moyer is to testify. There have been many rumors that Moyer would squeal, but the defense scouts the idea and announces it will use him as a witness. It is not known how long these two witnesses will take, that will depend upon the extent to which either or both go into matters playing a part in the trial. If they do so exhaustively the cross-examination will be long, but it seems to be the idea that both will be disposed of on Monday and Tuesday of next week.

After the conclusion of the defense's testimony the state will probably make a motion to strike out the larger part of what has been introduced by the defense. It claims this has not so far been connected up with the case as promised at the opening of the defense. It is not believed such a motion will be granted, the matter being covered by the judge in his instructions to the jury.

The state claims it will have a great deal of strong testimony on rebuttal and this may take a week. Many witnesses are on their way here to take the stand to contradict statements made by the witnesses for the defense and some of them are men of prominence. One of the claims is that rebuttal testimony of great importance will come from the Coeur d'Alenes, especially with relation to the whereabouts of Orchard on the day of the destruction of the Bunker Hill and Sullivan mill, and to the participation by W. F. Davis in that crime.

Dr. McGee will be contradicted, according to the attorneys for the prosecution, in a number of important particulars. James McPharland will take the stand to make a statement about the copies of reports presented by Morris Friedman, former stenographer in the Pinkerton agency. The last witness on the stand will be Harry Orchard. He will be called to answer a few questions raised by the testimony of some of the witnesses.

There continues to be much talk about Jack Simpkins. One story is that the defense hopes to bring him in to take the stand and another is suing from the defense is that a belief prevails that he is dead. A number of witnesses brought here by the defense have gone home without going on the stand. It is said they refused to testify as was anticipated.

CALIFORNIA RE-OPENED

NEW WAGE SCHEDULE HAS GONE INTO EFFECT

NEW AMALGAMATION OF JUMBO AND OTHER PROPERTIES

(Special to The Daily News)

Rossland, July 4 — The California-Giant started up this morning with a force of 25 men to which more are to be added as soon as they are available and the conditions of the working of the mine will permit of the putting on of more machines. The first thing that is being done is the running of a long crosscut tunnel to the north eco as to get under the workings of the Giant property immediately north of the California. Some very good ore has been found from time to time on the Giant, including cobalt, but the working capital of the property was never sufficient to permit of economical working. The California has first class hoisting and compressor plants and by working the Giant from the California ground it is expected that a greater saving will be effected by the new company which is now taking hold. W. Yolen Williams who is managing the new opening, has been connected with the California in times past and is thoroughly posted as to the possibilities of this property.

The development work on the Annie, one of the properties of the Le Roi No. 2, has gone on, in several levels right to the end line of the California and ore has been left in the face. It is still a moot point, or, at least, no definite announcement has been made by Mr. Williams, whether these showings shall be worked from the California or whether an arrangement will be made with the Le Roi No. 2 to take out the ore. This was at one time proposed but no definite arrangement was ever arrived at.

To the west of the California there has been some very fine showings on the Evening Star, but so far the negotiations which are on foot for the opening and exploiting of a property which is currently believed in this camp, to be an extremely rich one, have not culminated, although it is stated that a start will be made this year.

To the south of the California and immediately adjoining, manager Demuth of the White Bear is just starting up work on the 1000 foot level. Here there has been some stoping on the vein which comes in from the Black Bear at the eastern end of the property. West of this development work, diamond drilling and drifting has exposed six other veins, ore from some of which has been shipped. What its value is Mr. Demuth declines to state but will say that the rock is of good shipping grade. The White Bear, lying in the valley, below the California, is covered to the depth of 900 feet with non-productive ground and it was only after this had been pierced that the management of the White Bear began to find ore in paying quantities. It is interesting that the veins at depth on the White Bear have a northerly trend and it is therefore expected that they will be found to run into the California under the surface gabbro deposit.

To the west of the California, according to a statement of M. Galusha, who in fair and in foul weather has stayed by the Jumbo in years past, an amalgamation is under way with the Jumbo, on the edge of the granite, which has so far proven the boundary to the west of the Rossland deposits, and the Good Hope and Good Friday, immediately contiguous to the east but lying on the Red mountain side of the gulch.

At the other end of the camp, the Center Star company has been finding ore from its boundary to the west with the Le Roi to its eastermost drift into the Idaho in the opposite direction. This is also true of the finds of ore from north to south, some of the strikes being on the south portion of the Center Star, while others are reported to the north of the War Eagle in the Red Mountain acquisition. The territory thus covered is large. That it is profitable, quite apart from the recent strikes of ore that have been uncovered at depths greater than ore was ever mined before in this camp, can easily be inferred by the erection of the splendid new hoist and other machinery, the hoist being said to be the largest in Canada, and by the recent increase of wages in which all the mines have joined.

This increase of wages has just gone into effect and it follows upon a raise that was made in some directions as late as May last. It was found absolutely necessary to raise the wages as the miners of the camp were drifting into the United States and into the Boundary country, where better wages were being paid. As soon as the announcement of the change was made, which was done towards the latter part of last month, the old Rossland hands began to come back to camp and since the new schedule has gone into effect still more are returning. In a short time the 20 machines or so which were idle a week ago will all be filled up and the camp, which has even now quite 800 men working will certainly be employing 1100 or more. The new schedule which has been adopted by the mine owners without any solicitation on the part of the union, is as follows

Machine men, $3.50 to $4.
Timber men, $3.50 to $4.
Shovellers, $3 to $3.25.
Blacksmiths, $4 to $4.40.
Blacksmith helpers, $3.25 to $3.50.
Skip tenders, $3.50 to $4.
Skip tender helpers, $3 to $3.25.
Engineers, $4 to $4.50.

GLORIOUS FOURTH

Dealer Loses His Entire Stock Following Sale to Urchin

New York, July 4—James Beckwith, a dealer in fireworks at No. 2475 Third avenue, sold a package of firecrackers and a piece of punk to a small boy last evening and went to the rear of the store. Then he heard an explosion. The boy in lighting the punk, had thrown the match into a pile of Roman candles. The rest of the stock caught fire and the explosion followed. Roman candles, sky rockets and pin wheels went off with a roar and a splutter. For half an hour police had their work cut out keeping back the crowd of boys that swarmed round the burning building looking for a free supply for the Fourth. The stock was valued at $600.

PRISONERS CAPTURED

(Special to The Daily News)

Fernie, July 4—The prisoners who escaped from the local gaol on Dominion day, were captured last night by constable Warner of the provincial force, about three miles below Morrissey and were brought back to the city this morning. When captured they were in an exhausted condition having been unable to procure food since their escape, as they still wore prison clothes and were afraid to appeal at any house for assistance.

STRIKE AT KENORA

Kenora, July 4—A fairly rich strike of gold is reported from Hackey's island, which until recently was under homestead provisions.

FREIGHT CLASSIFICATION

Special to The Daily News

Ottawa, July 4.—The board of railway commissioners issued an order today, approving the new Canadian freight classification, to become effective not later than September next. Some 240 commodities, which have hitherto been carried at owners risk, will hereafter be carried at the risk of railway companies, without any advances in rating.

CANADIANS VICTORIOUS

Take Five Out of Six Events at Seattle Regatta.

Portland Secures Senior Fours After an Easy Race—DesBrisay Loses Singles After a Good Struggle.

SUMMARY

Junior Fours, Nelson.
Junior Doubles, Victoria
Junior Singles, Vancouver.
Senior Fours, Portland.
Senior Doubles, Victoria
Senior Singles, Vancouver.

Seattle, July 4—The Portland crew won the senior fours in the N.P.A.A.O. regatta held on lake Washington this afternoon.

In the biggest event of the day, the senior fours, the crews tugged at the oars fiercely, but the Portlanders took the lead and held it. Vancouver crossed the imaginary line second, Nelson third, Seattle fourth and Victoria last. From the instant the Portland crew caught the water they were ahead, putting clear water between themselves and the next fastest boat before they had got full swing on.

Portland forged ahead, little by little, increasing the clear water space ahead of the trailing bunch. With a long steady stroke they pegged away between 35 and 37 over the entire course, rowing in splendid form and when they finished they were able to cheer in evidence that they were not all in. The crew consisted of: Stroke, B. E. Looms, A. C. McMicken, J. A. Dilabough, A. A. Allen.

The other crews were:

Vancouver—N. C. Sawers, stroke, J. R. R. A. Moore, C. G. Laing, T. Pattison.

Nelson—C. Lee, stroke, N. McIntosh, A. H. Ferguson, A. Bishop.

Seattle—Lovejoy, stroke, Sagler, Cooper, Smith.

Victoria—K. T. Hughes, W. W. Laing, F. Bayliss, W. H. Jesse.

Victoria won the junior doubles, which had been postponed the day before because of rough water, by outchassing Nelson and Vancouver. All three of the shells blew through in a friendly little bunch as far as championship was concerned, keeping close together, and finished fighting furiously to the line. Victoria had a hard time of it but she bucked up on the stretch and played her reserve spurt well, indeed, at the very finish. Nelson finished a close second.

The official time was 10:43 3-5.

Vancouver carried off the greatest honor from the standpoint of good sportsmanship of the entire regatta, through the agency of C. G. Laing, who rowed remarkably well in two races, helping to place his colors second in the senior fours and first in the senior singles.

He had a desperate struggle with Gloss of Portland all the way, but managed to keep the tip of his shell ahead at all times, though he was threatened seriously on several occasions. Gloss would spurt, attempting to make up the small lead held by Laing and then they would have it for all they were worth. The terrific pace set by these two men proved the undoing of DesBrisay of Nelson, who was six or eight lengths ahead for the first mile. He finished third.

Vancouver was not so lucky in the senior doubles, being passed back to third place, Victoria securing first and Portland second. The time was 10:26.

The oarsmen occupied boxes at the Seattle theatre tonight.

BOUNTIFUL BERRY CROP

SHIPMENTS EAST TO DATE MUCH HEAVIER THAN USUAL

SATISFACTORY OUTPUT ASSURED THIS SEASON

F. J. Sammons came in from Procter last night and reported that upwards of 843 boxes of berries were shipped yesterday.

This is the record for any year. Mr. Sammons, however, says that there will be yet larger shipments within the next few weeks. Last year the total shipments were under 200 boxes.

Mr. Sammons further states that most of the berries shipped were Magoons, the shipping variety and there are not many soft ones among those shipped. All berries planted out during the last couple of seasons have been Magoons.

USUAL RESULTS

Indiscriminate Use of Revolvers on Fourth Caused Death

New York, July 4.—The sacrifice of life by reckless celebrators of the Fourth of July began today with the accidental shooting of an Italian woman by her nephew, who, stricken with remorse at the death of his aunt, shot and instantly killed himself. Mrs Alfonso Aucurino, the wife of a retired Italian contractor, living in the Bronx, and Arthur Cararo, aged 19 were the victims of a tragedy. Cararo was amusing himself by shooting at the brick walls of the yard around his home. Mrs. Aucurino stood nearby watching him, when one of the bullets ricochetted from the wall and struck her over the right eye, penetrating the brain, and causing instant death. Overcome with horror, the boy instantly placed his revolver to his head and fired, his own body falling across that of his victim. Both were dead before witnesses of the tragedy could reach them.

Numberless accidental injuries were recorded as an outcome of the careless use of explosives. The use by Italians of revolvers, loaded with ball cartridges instead of blanks, was accountable for a number of wounds.

C.P.R. FLYER

Part of Transcontinental Train Burned Up—Expressman Killed

Winnipeg, July 4.—Accounts of the burning of a transcontinental train on the C.P.R., on Sunday evening, have been brought here by passengers who arrived yesterday. The train was eastbound. The express messenger was so badly injured that he died. One Chinaman had his leg broken, and another was slightly injured.

"We had passed Bassano station," said one of the gentlemen, "and were approaching Lathom. We were sitting quietly in the sleeping car when we became aware that there was something wrong. A moment later the rear wheels of the sleeping car in which we were seated slipped from the rails and a moment later the train came to a standstill.

"As quickly as possible we all escaped from the car, but brief as the time was which we spent in making our way from the train, the fire which had burst out in the express car was quicker still. No sooner had we passed from the train than we saw the express car enveloped in flames.

"An engine was hurried to the scene from Bassano, and it arrived in time to save the dining car and three sleeping cars from the fire. Before the engine arrived, however, the express car had been burned, three cars of fish had been wholly consumed, the baggage car was gone, a colonist car, a first class car and a tourist car were in ashes.

"The colonist car had been filled with Chinese, one of whom had his arm broken and another received slight injuries. Grave injury was sustained by the express messenger. The doctors did everything that medical skill could do to relieve his sufferings, but he died on the train. The express messenger killed in the wreck was William McKinley, of Orangeville, Ont. His body was brought east and will be taken to Orangeville for interment."

JUST CELEBRATING

Poles Create at Riot and Two of Crew Are Killed

New York, July 4.—While celebrating the Fourth at Yorkville, a suburb to this city, at an early hour this morning, a number of Poles, began fighting with the result that two of them are dead. The fight started in a saloon and the men were ejected by the bartender. Hostilities were resumed on the canal bank later, where two of the participants, aged 20 and 24 respectively, were knocked down and thrown into the water and drowned. The bodies of the men were recovered a short time later and the hand of one of them clasped a knife and both were covered with bruises. Another of the fighters, was thrown into the canal, but was saved and is now at a local hospital recovering from serious knife wounds. The police arrested twelve men, who are lodged in jail here. The fight assumed the proportions of a riot and the hamlet of Yorkville was terrified. The men were all employed by the New York cotton mills.

FORT STEELE CELEBRATES

(Special Correspondence)

This, the oldest and for some years past, the greatest town in the Kootenays, took a "spurt" and celebrated the 1st. of July, with a great deal of its old time energy and enthusiasm. The town was gaily decorated with evergreens and flags, and there was quite a large crowd present from the nearby towns and the various country districts. Horse racing was the star attraction, and the various purses were keenly contested for. The Kootenays were as usual largely in evidence, and took their full share of the prizes. The wrestling on horse back, which closed the day's proceedings, was to many the most interesting event in the celebration.

Two accidents somewhat marred the perfect pleasure of the day's proceedings, though neither of a serious nature.

This revival of the celebration of Dominion Day in Fort Steele, may be taken as an indication of the reviving commercial importance of the town in prospect of the construction of our long-looked for Kootenay Central railway, which, if constructed on its projected route, will unquestionably be of benefit to every town in the district and an injury to the present status of none.

It may also be taken as a notice to all concerned that in future years the town will regularly celebrate our great Canadian national holiday.

BICYCLE CHAMPIONSHIP

Paris, July 4—The 100 kilometer bicycle race for the championship of the world was run today and was won by the Englishman, Meredith. His time was 1 hour, 28 minutes, 52 seconds.

MAY SUTTON WINS

London, July 4—May Sutton of California in the all-England tennis championship games at Wimbledon today won the final in the ladies' championship, defeating Miss Wilson 2-0.

PURE FOOD QUESTION

Crusade Inaugurated by Retail Merchants of Hamilton.

Government Called Upon to Protect the Public Against All Adulterations of Food and Medicines.

Hamilton, July 4.—The food standard question was discussed in today's session of the Retail Merchant association, and a strongly worded resolution was passed, calling on the government to pass a law to protect the public against impure and harmful foods and drugs and providing for the punishment of people who place on the market compounds and make the public believe they are pure and wholesome or medicine.

The government will be asked to establish a standard of quality for all spices, condiments, vinegars, baking powders and products, cured or preserved meats, vegetables, and other foods, and medicines sold under proprietary or trade names.

A vigorous attack on departmental stores was read by Ald. Fraser, of Hamilton, and E. W. Trowern, secretary of the association.

They accused the big stores of published misleading and false advertisements and also declared that the goods they sold were not always what they represented them to be. Trowern also went after the ministers, who he accured of saying nice things about the late Timothy Eaton, because he had left large sums of money to the churches.

The convention decided to ask all branches to make efforts to secure all of their business in their respective localities and thus put a stop to mail order business. An educational crusade will be started among the farming communities.

The meeting expressed its approval of government control of natural forces and commodities.

CLAIMS BIG SURPLUS

PROVINCIAL TREASURER WILL HAVE A MILLION

TIMBER LEASES AND SALES OF LANDS CHIEF ITEMS

(Special to The Daily News)

Victoria, July 4.—Reports from various provincial departments have been received by Provincial Treasurer Tatlow, to such extent as to warrant the statement that the preliminary estimate of the provincial accounts for the fiscal year ending June 30, will show a surplus of a million, a record for the province.

This excellent showing is credited to the extensive development of the province during the past year.

The returns from the department of lands and works will contribute the largest quota to the surplus, record receipts for timber leases and the proceeds of the sale of Point Grey lands, having brought this about.

FLOOD RELEASED

Toronto Baseball Player Gets Out of Jail—Umpire's statement

Toronto, July 4.—After serving nine of the fifteen day's sentence imposed upon him by Police Magistrate Denison, for his assault on Umpire Conway, Tim Flood, the Toronto baseball player, was this morning released from jail. The order for his pardon, which was signed by Sir Charles Fitzpatrick, acting governor-general, reached the jail in the form of a telegram.

Conway made a long declaration in which he stated that the assault was accidental and that he was satisfied Flood did not intend to kick him. This statement was sent to the minister of justice along with many petitions for Flood's release. Conway did not appear against Flood in the police court proceedings, the police authorities doing the prosecuting.

ICE STRIKERS

Battle in New York Streets Yesterday —Fireworks Used

New York, July 4.—Street battles between the striking ice wagon drivers and strike-breakers, which the police quelled after several participants had sustained minor injuries, followed another attempt of the American Ice company to break the strike in Brooklyn today. The appearance of several of the old drivers, who had returned to work, enraged the strikers, who held out. Each delivery wagon was guarded by a policeman on its rounds, but the presence of officers failed to check the strikers in their efforts to stop the delivery of ice. Twenty strike-breakers in Manhattan, employed by the American company, refused to work today, declaring that they feared they would be injured by fireworks hurled at them by strike sympathizers.

Prospectors', Lumbermen's, Miners' and all Campers' Supplies

TENTS in all sizes and weights.
RUBBERS and OIL SKIN CLOTHING.
OVERALLS and JUMPERS.
UNDERWEAR at all prices.
HUDSON'S BAY BLANKETS and CANOVERALLS and JUMPERS.

THE FALL FAIR

The directors of the Nelson Agricultural and Industrial association have decided on a change of program for the coming exhibition so far as the amusement attractions are concerned. With the exception of horse racing, an American firm of amusement contractors will provide all other attractions, aside of course from the exhibition itself. An aggregation of side shows, ten in all, will occupy the center of the recreation grounds during the fair, and an admission fee is to be charged for entering each booth. A free performance is to be given before the grand stand each afternoon and, this, with whatever horse racing can be offered on the quarter mile track, will be what the visitor will see for his entrance money, after he has viewed the exhibit.

Experience has taught exhibition managers in other cities, that to attract large crowds to fairs, there must be in addition a good line of side attractions and it is merely a question of what these should consist of and what position they should occupy relative to the exhibition itself.

If the plans of the directors for this years fair are fully understood, there should be no great objection to doing away with the sports and games that have hitherto been the drawing cards. The experiment, without saying anything of the details already arranged for, is worth trying, but some arrangements should be made for utilizing Nelson's best attraction asset, and providing for an acquatic carnival of some sort, particularly as other local pastimes have been cut out of the official program, and in view of the great success of the water carnival just over it is doubly desirable that a place be found for water sports in the fall fair program.

EDITORIAL NOTES

The Eastern Canadian papers are all discussing the stringency of the money market and its probable effect on this year's business prospects. After a lengthy review of the situation, the Globe says: A great volume of capital is being invested, not in immediate but for future production. Much of this capital is being obtained abroad. Loan companies and other financial corporations float their debentures and bonds in Britain and help to furnish capital for local enterprises. Through such operations much that seems to be borrowed locally is really borrowed abroad. With this borrowed capital we purchase the great volume of supplies and material that makes up our phenomenal record of imports. There are no grounds for regarding the resulant balance of trade as unfavorable. It would be so if the many industries for which it is a preparation had not a good outlook. But the investments that are increasing at a phenomenal rate are eminently sound and are fully justified by the commercial and industrial outlook. When the time for repayment comes this capital will be producing an output that will meet all claims and justify the enterprise of the present era of expansion.

The first thing which General Botha announced to the Transvaal parliament when it opened was that it had been decided not to re-enact the Labor Ordinance, but to send the Chinese home immediately on the expiration of their contracts. The Chinese indentures would begin to expire this month, and 16,000 would expire before Dec. 31 next. "The government," he said, "had been pressed to amend the constitution to enable a temporary renewal of the contract. After ample and careful consideration, however, it had been decided not to introduce such legislation this session, but to let repatriation occur as the indentures expired. The government were moved, not only by the unalterable conviction that the presence of the Chinese was in the highest degree inimical to the interests of the Transvaal, and should cease at the earliest possible moment, but also by the consideration that the supply of native labor had for some time in a marked manner been exceeding the demand."

Referring to the recent death of James McDonald, business agent of the Toronto street railway employees' union, the Toronto Star says editorially: "The conflict between capital and labor may degenerate into civil war, or it may develop into an intelligent discussion and adjustment of rights and interests, and may produce on both sides men who are capable of statesmanship. Such a man was Mr. James McDonald, the business agent of the Toronto street railway employees' union. Mr. McDonald was firm in his advocacy of the rights of the men, but he was not a breeder of strife. All parties had confidence in him as a wise counsellor, whose standard of honor and good faith were high, and hence his judgment always carried weight. His early death is a cause of sincere and widespread sorrow."

PRESENT STRINGENCY

Toronto Financier Thinks We Must Go Slow For a Little While

A gentleman who is thoroughly posted on the financial situation, not only in Canada, but beyond Canada, and who enjoys the confidence of many, sizes up the financial situation as follows in the Toronto World:

The primary causes in my mind of the present stingency were the Boer war and the Russian-Japanese war; prior to these wars savings were increasing nearly all over the world, the rate of interest was quietly falling and funds were able to be found for all legitimate enterprises.

War, being unproductive in any way, leads to waste, and when heavy borrowings are part of the process the result is very disadvantageous from a financial point of view. We have seen Russian and Japanese issues hawked about in every monetary center. The world for some time has used up its savings. British consols have dropped far below the normal quotations; no new issues are being placed upon the British market to any extent; the bank rate remains at four. In France we see a struggle to obtain gold and calls are made on other lands; for example, the United States, to repay gold France and exported; Germany wants to raise funds, and Russia is bankrupt.

I do not see how funds just now can be obtained from the other side of the Atlantic in appreciable quantities to aid Canada.

Another disturbing factor is that the prices of commodities are high, living is dearer and savings are less and in all this, on this side of the Atlantic more particularly, we have gone in for a tremendous burst of development. Mr. Bright used to say that you can't drive six busses abreast through Temple Bar. The true remedy, I think, is to spread out development until savings become available and there are excellent signs in trade returns to show that conditions are likely to improve. If we go slow, live quietly, we shall soon be out of trouble.

SHORTAGE OF CRATES

Many ranchers are talking loudly on the shortage of strawberry cups and crates, the crop being very much larger than was expected even by the secretary of the Fruit Growers' association. The Inglis Bros., of Nine Mile, shipped yesterday morning 68 boxes and a few more the day before, having a gang of six men picking hard for them. They are completely out of cups and boxes and threaten to ship in coal oil cases. A simultaneous demand is being made from almost every point in the district and the Kootenay Mattrass factory which is making the boxes as fast as possible is falling behind with the supply.

PROGRAM ALL CHANGED

ATHLETIC SPORTS ARE CUT OUT BY FAIR MANAGEMENT

HORSE RACING AND CIRCUS SHOWS ARE THE CHIEF FEATURES

There has been a complete change of program decided upon by the directors of the Nelson fruit fair this fall as far as the attractions are concerned. All athletics sports have been entirely cut out by the mangament on the score of the expense. With the exception of horse racing, which will be made a feature each day of the fair, the attractions will all be in the nature of shows. These will be provided by the Nat Reiss company, whose Sim Letta troop of acrobates was so much appreciated here last year and which proved so great a drawing card, although arriving late.

Each afternoon and evening there will be a program, after the style of the old fashioned one ringed circus with the old time clowns. In this performance there are seven acts all of which are new with the exception of the Sim Letta acrobates, who form one act of the seven. This will not take place, however, in a tent, but on a stage erected before the grand stand in just such manner as was done in 1906. The charge for seeing this performance will be the usual entrance to the grand stand. This performance will last about 2 1-2 hours.

The center of the recreation ground will be taken up by a series of ten shows, all run by the Nat Reiss company. These are various in type and on or two of them have been here before and proved very popular. All are expected to prove good drawing cards. An extra admission of ten cents will be charged to each of these shows. The tents and booths will be arranged in a line and will take both sides of a street which the Nat Reiss company's manager will take up the whole of the available space on the grounds.

The fair management get out of those shows a precentage of the receipts and in return give the show people a percentage of the gate receipts. There is no other money passed whatsoever.

Whether the change of program will prove as popular as the features which have hitherto been introduced remains to be seen. The directors, however, are not only of the opinion that it will, but declare further that the fair will have a far large amount of money at its disposal to expend upon prizes for exhibits. The end of the fair is to advertise this section of the country and to encourage the industries of the upper country. To do, this money is absolutely necessary. Much is put up by public spirited citizens and much is taken at the gate of the fair building from the visitors, who wish to see the exhibits and in hours of relaxation, to witness the attractions. It is the aim of the directors to expend this money as far as possible, and in as great a percentage as possible, in the real interests of the fair whose first end, as stated, is first to promote the settleing up of the Kootenays and only second to amuse. It follows, therefore, from their point of view, that no more money shall be spent upon amusements than will guarantee first-class attractions. Some of the athletic sports have by no means proved so popular as they might have been. There is never the same interest attached to professionalism as to the sport of amateurs and when professional sport means the expenditure of large sums of money as "expenses" it is not wonderful that the directorate are trying a change of program this year. They contend that not only will the fair be bigger than ever, there being already talk of the necessity of expanding it to four days, but the attractions provided will prove even more to the taste of the public, and therefore the gross receipts will be larger, than has ever been the case before this year of grace, 1907.

SPOKANE EXCURSION

Business Men Will Visit East Kootenay on July 18 and 19

Spokane, July 4—The first large excursion over the lines of the new Spokane International railway will be that of the business men of Spokane to Fernie, totaling 325 miles, under the direction of the chamber of commerce, on Thursday and Friday, July 18 and 19. This will be the 11th annual excursion of the business men and it is estimated by secretary Moore of the chamber of commerce that the party will number nearly 150.

The party will leave on a special train at 7 a.m. and will make their first stop at Sand Point, where they will remain until noon and where they will take lunch. Opportunity will be given those who so desire to take short trips on the lake. The party will visit while at Sand Point the Panhandle smelter and the large mill of the Humbird Lumber company.

Short stops will be made after leaving Sand Point, at Moyie, Cranbrook and Wardner, the party arriving at Fernie at 7:30 in the evening. Here they will have dinner and remain over night. On the following day, Friday, the party, after breakfasting at Fernie and visiting the works of the Crow's Nest Coal company and inspecting the coke ovens of this company, will leave at 10 o'clock in the morning.

From Fernie the party will take a short trip to Marysville on the Kimberley branch of the C.P.R., arriving there about noon. Luncheon will be served and following this the party will be conducted through the property of the Sullivan Group Mining and Smelting company. While at Marysville the party will be the guests of the Sullivan Group Mining and Smelting company, which is largely controlled by Spokane interests.

The party will leave Marysville at 3 o'clock, arriving at Bonner's Ferry at 6 o'clock. A stop of two hours will be made there and the party will remain two hours inspecting the town. At 8 o'clock the party will leave Bonner's Ferry and will make no further stops. They will arrive in Spokane at 11 o'clock.

ARE BOUND FOR CANADA

MANY THOUSANDS ARE LEAVING THE OLD COUNTRY

CANNOT OBTAIN WORK OR EARN A FAIR LIVING

The year of grace nineteen hundred and seven is proving itself the supreme emigration season for this generation at least, writes F. A. Mackenzie, in the *London Daily Mail: It is a year of* record good trade and of record prosperity. The board of trade returns month by month surmount their former high-water mark. Each penny on the pound in the income tax yields more than ever before. Our national wealth is growing by leaps and bonuds, and so, we are told, all must be well with us.

And yet in this red-letter period of national well-being more people are leaving our shores than have done so at any time in recent years. They are leaving because either they cannot earn a fair living at home or they cannot obtain any employment at all. Describing the departure of an emigrant ship, Mr. Mackenzie says: The ship on which I was standing was the fifth vessel which the Salvation Army had sent out this year to Canada. Every berth was full, and many eager to go had been obliged to remain behind for lack of room. The Salvation Army has already taken over twelve thousand to Canada this year, and will probably bring the number up to twenty thousand. It is only one agency, although the most important one. The Central Unemployment Fund is devoting thousands of pounds to this work, the East London Fund has sent many trainloads this season from working London, and boards of guardians are helping men out. Sixty thousand people picked from the youth and strength of England, all whole-bodied, all free from wasting disease, all good human material, will go to Canada alone before the summer ends.

Those who travel from Euston to Liverpool in the early morning come time after time upon little crowds of working lads in the railway stations shouting and cheering. In the trains, other lads and lasses, arranged in their Sunday best, stand at the doors, smiling, flushed, eager. Their labelled boxes tell their destination. "Montreal," "Vancouver," "Winnipeg." This is the new Exodus.

But to return to our ship, sailing down the Mersey. I went on the lower deck, mixing with the outgoers. There were many interesting characters among them. One was a baby of two. Her father had gone abroad, leaving her in the workhouse. Unable to pay his way at home, he found enough and to spare in the west, and he had sent back money for the keep of his child and for its fare, and asking the Salvation Army to bring it out to him. As a contrast to the child was an old lady, "eighty-two next June," as she assured me proudly, also from the workhouse. Her son, now earning a fair living in Canada, had sent for hed to come from the workhouse to his home.

"There's no chance for me here." You hear the same story from man after man in this throng.

NOTICE OF DIVIDEND

NOTICE is hereby given that the International Coal and Coke Company, Limited, will upon Aug. 1, 1907, pay a dividend of one and one half (1½) per cent on its issued and outstanding capital stock. Said dividend will be paid to the persons in whose name the stock stands at the time of the close of the transfer books of the company. The transfer books will be closed from July 16, 1907, to Aug. 1, 1907, both days inclusive. Any person holding stock that has not been transferred to his name should send such stock, before the first mentioned date, to the secretary, at the office of the Company, Fernwell Building, Spokane, Washington.

Dated at Spokane, Wash., June 29, 1907.

290 ACRES

Adjoining the townsite of Burton City on the Arrow lakes. This land is beautifully situated for fruit ranching, free from rock, well watered and all the heavy timber has been removed, so that it can be cleared at small cost; 12 acres cleared, about 100 fruit trees just coming into bearing, a log cabin 18x20, also a log house 24x30, and good stable. This land willl be sub-divided to suit purchasers into 10, 20 40-acre plots. Prices and terms on application.

$3000 will buy one whole block just outside the city limits, with 5-room cottage, about half cleared and planted with fruit trees and small fruits.

Terms can be arranged.

R. J. STEEL

IN THE MATTER OF "THE PLANS CANCELLATION ACT, 1906,"

And in the Matter of the Townsite of Robson, part of Lot Three Hundred and One (301), Group One (1), Kootenay, of Record in the Land Registry Office at Nelson as "626."

TAKE NOTICE that on the 25th day of July A.D., 1907, at the hour of 10:30 o'clock in the forenoon, at the Court House in the City of Nelson, in the Province of British Columbia, application will be made to the Judge of the County Court of West Kootenay, by the Columbia and Kootenay Railway and Navigation Company for an order that the plan of the said townsite of Robson, of record at Nelson, in the Province of British Columbia as "626" be cancelled, and that the applicant may enjoy the lands comprised within the said townsite free from any easements or rights of any person to open any land or lanes, street or streets, square or squares, park or parks across, within or upon said lands.

Dated at the City of Nelson, in the Province of British Columbia, this 27th day of June, A.D., 1907.

Kootenay Fruit Lands

Burton City and Fire Valley Fruit and Farm Lands are the best sellers now.

15 months ago I purchased from original locators about 5000 acres of Fruit Lands near Burton City. Since then I have been getting the titles and having them subdivided into 10, 15 and 20 acre blocks. One month ago I began to advertise them and have disposed of nine 15 acre blocks and twenty-one 20 ac. blocks, averaging more than one block per day.

The reasons why Burton City lands sell so readily are as follows:

1—The land has a good surface loam with a clay subsoil.

2—It is free from stones.

3—It is nearly level and has a gentle slope, none of it being more than 100 feet above the lake.

4—The public know I can furnish a good title at once.

5—They know I have had a wide experience in fruit lands and am prepared to prove any statements mentioned here.

6—Because I am a practical fruit grower, having over 2500 fruit trees on my home farm, and buyers get the benefit of my experience.

7—I am also prepared to clear land, plant it and care for it until such time as my customers are prepared to take it over.

A SNAP

one improved 20 acre fruit farm for sale fronting on the lake, has a nice beech and in a good locality, 2 1-2 miles north of Burton City. 5 acres cleared and ploughed, 175 fruit trees, a nice creek runs through the property soil is good and no waste land. Daily boat service. This is one of the prettiest places on the Arrow Lakes and will make a nice home in the heart of the fruit growing district.

Price $100 per acre, 10 per cent. down, balance can be arranged

PRAISE FOR ROOSEVELT

EDITOR OF HARPER'S WEEKLY ON PRESIDENT'S POPULARITY

ALL CLASSES ABROAD UNITE IN LAUDING HIM

New York, July 4—Colonel George Harvey, editor of Harper's Weekly, has returned to New York after five weeks spent in England and France. Colonel Harvey said:

"One cannot remain abroad a fortnight without being forced to realize that president Roosevelt is far and away the most popular man in the world. King Edward and the kaiser are much loved and admired by their own peoples but the president's popularity is literally universal, pervading all classes. Royalty, lead by the kaiser himself, who pronounces Mr. Roosevelt the greatest American president without exception, is particularly desirous of his re-election as tending to indicate that, so far from being doomed, autocracy may still hold popular favor if the personality of the ruler be sufficiently vivid and his acts shrewdly beneficent. It is a peculiarly pleasing sign at this time, when a wave of democracy seems to be sweeping Europe to appear in the land whose dedication to personal liberty has caused so much anxiety in royal breasts for more than a century.

"To the keen-visioned kaiser especially, but also in lesser degree to all royalty and apprehensive aristocracy the portent seems plain that even the most intelligent segment of the human race now existing may yet, in considerable measure subordinate self-government to popular idol worship. No less ardent in support of president Roosevelt is the commercialism of England, France and Germany. The panic of five years ago amongst the business men of all three nations over American trade expansion was very real. Our concentration of effort and superior methods seemed likely to dominate all markets within ten years, and New York was regarded as almost the certain and immediate successor of London as the financial center of the world.

"But there is no longer any fear or even talk of the much dreaded American invasion. Impairment of credit has effectually throttled American enterprise and given our competitors a score of years in which to recover the ground that seemed to have been lost forever. Nowhere, not even in our haunts of populism was the president's crusade against the great corporations so heartily welcomed as in England and Germany. No one appreciated better than the business men of those countries that bricks cannot be made without straw and that the first requisite of successful enterprise is capital. The outcome of the president's action they knew to be inevitable, but not in their most optimistic moments did they forsee so quick a realization of their fondest hopes.

"Now that our greatest transportation companies are unable to obtain sufficient money upon working terms to replace even a single Pacific steamship lost upon rocks, British and German merchants consider their eastern trade practically secure and naturally regard our rapidly diminishing exports to the far east with the utmost satisfaction. The staggering blow administered by the president to American railway securities is beheld with complacency amounting almost to glee. The prosperous French people it is well known, were on the verge of diverting their immense surplus investment funds from Russia to America; the first large loan had been successfully negotiated and others were well under way when president Roosevelt, in the words of lord Rothschild, killed the goose that was laying the golden eggs.

"Still more enthusiastic is the third class comprising socialists and anarchists. To them the name of Theodore Roosevelt has come to mean, indeed a gift of God When Mr. Roosevelt boldly contrasted men of wealth with socialists and anarchists, to the advantage of the latter, they foresaw the beginning of a new era.

"To the incidental fact that he shadowed 'wealth' with the word 'predatory' they attach no significance. In their view all wealth is predatory, and they quickly recalled that in his original message to congress urging the reduction of 'swollen fortunes' the president made no qualification or distinction. They readily assume therefore, that the word 'predatory' is now employed less for the purpose of expressing precisely the real intent than for policy's sake in a sagacious attempt to accomplish tangible results. In any case they perceive a mighty advancement of their cause in the first open and favorable recognition ever accorded socialists and anarchists as a class entitled to special consideration by one in a position of the highest authority.

"There are, of course, subdivisions of these three great classes of foreign peoples but all idealists, preachers, sportsmen, prize fighters, editors and writers find something in Mr. Roosevelt's prismatic personality sufficiently akin to hold their admiration and devotion.

"There is no doubt that if our next national election could be dtermined by European votes, Mr. Roosevelt would be rechosen unanimously.."

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep on hand a bottle of Chamberlain's Colic, cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save your life. For sale by all druggists and dealers.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only, a woman full of sympathy for her sick sisters, and above all, a woman who has had more experience in treating female ills than any living person.

Over one hundred thousand cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail, and this has been going on for twenty years, day after day.

Surely women are wise in seeking advice from a woman of such experience, especially when it is absolutely free.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as they have been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

No other medicine in all the world has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Therefore no prudent woman will accept any substitute which a druggist may offer.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

"Baby's Own" Soap

—keeps its delicate fragance to the very last fragment, and it is so well made that it will wear to the thinnest wafer.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the hosemsteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

D. A. CORY,
Deputy Minister of the Interior.

The Store of Quality

CASH IS KING QUALITY IS QUEEN

In a cash store a great many people look for cut prices in everything regardless of QUALITY. Because we sell for CASH ONLY does not say that we sell the cheapest, but we do claim that for the same money we give the HIGHEST QUALITY in town.

In our opinion it is QUALITY that counts. The price cuts no figure if you do not get the QUALITY. When we buy we look at the QUALITY first then at the price.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all druggists and dealers.

DUNSMORE-BOYES

The home of J. H. Boyes, Kootenay street, was the scene of a quiet wedding last evening, when Miss Annie Boyes was united in marriage to Dr. R. J. Dunsmore of this city. The bride handsomely attired in white silk, overlaid with white point de spreit, and carrying a beautiful bouquet of white roses, entered the parlor, which was artistically decorated for the occasion, on the arm of her father, to the strains of Mendelssohn's wedding march

Miss Rebecca Boyes, sister of the bride, charmingly apparelled in a pale blue collenne, acted as bridesmaid and Mr. Angus M. Thomson, supported the groom.

Rev. F. W. Auvache of Grand Forks, performed the the marriage ceremony after which the wedding guests retired to the dining room where a sumptuous repast was served. Owing to business matters of the groom, the happy couple will remain in the city a short time after which they will take an extended tour through the eastern provinces. In the meantime they will reside at the bride's home on Kootenay street. The friends of the happy couple wish them every happiness.

LOOKING FOR A HOME?

If you are looking for a comfortable home in a good locality, with lovely views, we have a house containing 5 rooms, situated on observatory St., which it will pay you to enquire about. $500 will handle this. Call and get particulars.

NELSON'S NEWS OF THE DAY

Miss Mary May of South Quappelle, is visiting her sister Mrs. F. J. Squire of Fairview.

There were chapters of the Red and White Rose degrees in the meeting of the Sons of England last night with several initiations.

The last drill of the local company of the R.M.R. before the inspection of July 9 will be held this evening in the armory. A good attendance is requested.

The rainy weather is making the strawberry crop pulpy and the berries in consequence have not the same shipping qualities as they ordinarily possess Those ranchers who are growing the firmer fruit have now the advantage.

Record has been made of the location of the Wild Cat near Slocan Junction by Jas. Kelley. Certificates of work have been issued to J. G. Devlin for the recorded owners on the M.A.P.; to J. G. Devlin for E. DeRoy on the Mountain Peak; to W. Sacher on the Green Hill; to F. Aikin for P. Casey and himself on the Maggie Aikin and Michigan for work done on the latter; to F. Aikin on the Montana and to J. C. Moen on the Maude.

In chambers before his honor Judge Forin yesterday morning two applications were heard. The first an application for directions in the Bank of Montreal vs E. Vernon Thompson, F. C. Wragge appearing for the former and H. C. Hall for the latter, was dismissed. The second application in re the estate of Nicholas McKian for letters of administration made by E. A. Crease on behalf of the brother of deceased, James McKian, was granted. Nicholas McKian was working as a miner in the Argenta mine on March 18 last and was killed in the blacksmith shop by the accidental explosion of a box of caps. The estate is valued at $1426.

WINNIPEG EXHIBIT

Messrs. McDermid and McHardy have received a good collection of clover and grasses which were packed yesterday for the Winnipeg exhibition as a part of the exhibit going from this city. The clover came from Poupore on the Columbia river about 12 miles above Trail. There are several specimens. One bunch of red clover has 142 stems to the root, another of alsike has 117 and one of a very fine species of clover has 94. The grass is from Crescent valley on the Slocan river. There is a specimen of timothy over six feet in height, one of rye which is 77 inches lond and has 84 stems to a root and another specimen is wild oats three feet long with 87 stems to the root.

Keep Minard's Liniment in the house

On Thursday next, July 11, the Methodist S.S. will hold its annual picnic at Procter, the steamer Moyie having been chartered for the occasion. Two trips will be made, one in the morning and the other at noon. The C.P.R. has promised to carry all boats taken by fishermen and pleasure seekers free of charge.

PRICE OF METALS

Yesterday being a public holiday in the United states there were no quotation of the prices of metals or of copper stocks wired from New York.

NELSON'S NEWS OF THE DAY

Steam is now up on the construction work plant at the new court house.

Nearly an inch of rain has fallen in the last four days, quite an unusual feature for July.

Chief of provincial police Bullock-Webster is expected back from the coast tomorrow.

The water is still rising in the lake and there seems to be no present prospect of a fall.

H. W. Harbour, C.P.R. train despatcher, returned last night from a six weeks' holiday trip to eastern Canada.

G. Saunders of Winnipeg, district deputy of the Sons of England, came in from Winnipeg last night and attended the lodge meeting of his order.

Miss Thom of the public school staff left yesterday on a holiday trip to England. Miss Horton of the Salmo public school has gone to Montreal.

Mrs. W. C. Maclean and family left last night on a trip to Vancouver, Seattle and coast points. Mr. Maclean will leave in a few days for the Similkameen country.

The orchestra at the Strathcona played American airs during the dinner hour last night in honor of the day, and the guests were presented with roses by proprietor Webb.

The regular meeting of Court Kootenay Bell No. 723, C.O.F., will be held in the K.P. hall tonight. A full attendance is requested as there is important business to be transacted.

Notwithstanding their arduous efforts on Monday and Tuesday when they played all day and part of each night, the city band gave their regular street concert last evening as usual.

Yesterday the Nelson gun club received from Charles Cameron of Collingwood, Ont., formerly of this city, two sterling silver clay pigeons, made from Cobalt silver. The pigeons were promised by Mr. Cameron early this spring and arrived too late for the Dominion day contest. They will be shot for under the conditions stipulated for by the donor, during the fall fair days.

So many thousands of votes were brought in last night just before the closing of the library contest that it was found to be impossible to count them and in consequence this has been deferred until today. The result will be published as soon as it is handed in to this office.

Alphone Waterer, a Frenchman, was fined $20 yesterday morning by police magistrate Crease for flourishing a revolver. Accused had been drinking and displaying his wad of bills around various places and then bought a gun to protect his wealth.

J. Perron of Slocan junction was arrested by constable Young of the provincial police yesterday on a complaint made of his breaking two windows in the C.P.R. station on Sunday last. Perron is being kept under observation as it is believed that he is not responsible for his acts.

G. S. Rees of the C.P.R. navigation department, leaves for Vancouver this evening on a three months' vacation and will sail for Yokohama on the C.P.R. Empress of Japan, early next week. From Japan he will proceed to England by the long sea route, returning to the city in October.

In reference to the new plan of gravelling the city side streets, city engineer Lawrence states that if coarse pebbles, such as are to be obtained from Cottonwood creek for the cost of teaming, are first rolled into the ground and then gravel rolled over this substratum, a good road is made at little cost. Rubble gutters will be made to prevent cutting after rain.

FOURTH OF JULY

Enjoyable Dinner Given Last Night at the Hume Hotel by J. F. Langan

An enjoyable dinner was given last night at the Hume hotel in commemoration of the Fourth of July, by J. F. Langan of Chicago, who recently opened a real estate office in this city. There were about 40 guests present at a prettily decorated table. The after dinner speeches which were made in response to the toasts of King and President, Our Cousins, Nelson, Future of Kootenay and the Ladies by Messrs. W. C. Wells, J. F. Langan, mayor Gillett, R. J. Clark, Dr. LaBau and alderman Selous, spoke highly of the reciprocal relations now existing between the two countries and the opening up of this section of the country. After the toastmaster, C. Hall, had exhausted his list and the health of the caterer, Belleville Tomkins, had been drunk, the entire company wound up the proceedings by singing the National Anthem and then parading Baker street with torches, preceded by a drum, chanting the recently introduced board of trade chorus.

ORCHARD'S BRAIN

Noted Expert Says he has Never Met the Criminals' Equal

Boise, July 4—That Harry Orchard's mental faculties are more alert and his emotions broader and more tense than those of the average Harvard student is the decision reached by Prof. Hugo Munsterburg of the psychological department of Harward, after a week's study of the noted criminal.

"I have never met a type of criminal like Orchard," said the professor. "He is very emotional in some things which excite the average person. His head measurements show brain activity and alertness greater than the average student at Harvrd.'

Prof Munsterburg studied Orchard the last day he was on the stand and has visited him several times in the penitentiary.
