VOL. 6 NELSON, B. C., THURSDAY, NOVEMBER 14, 1907 NO. 177

CAPTURE OF THE MURDERER

Roger Vinetto, a Negro, Has Been Arrested for the Outrage Upon Little Seven Year Old Clementine Nahu at North Vancouver on Saturday Last--No Confession is Made

Vancouver, Nov. 13.—(Special to The Daily News.)—After provincial constables had been scouring all the country between this city and New Westminster all day for the suspected murderer of little Clementine Nahu, and after several negroes at points near the boundary had been arrested and sent to the city, the man himself was tonight arrested at the railway porter's club, three blocks from the police station.

He is now in jail, but will make no statement or explanation.

Just previously to his arrest he admitted to a companion that he was in North Vancouver last Saturday. The man was released from jail after serving a vagrancy charge last Saturday morning and was seen loitering about the place where the little girl was murdered about the time she would have been at the spot. He was then wearing old clothes and had a curly beard. This afternoon when arrested he was clean shaven and had new clothing. The coat and underwear supposed to have belonged to him have been found in a vacant lot and the police believe he burned the other articles of clothing, as they cannot be found.

Vancouver, Nov. 13.—Roger Vinetto, a negro, was arrested this afternoon, and will be charged with the horribly brutal murder of the seven year old girl in North Vancouver on Saturday. Vinetto was released from the city chain gang but a few days go, and confesses to have served terms in every state in the union. For knifing a man in Texas he served six months. The prisoner says he left the city jail on Saturday morning anl went direct to North Vancouver.

KING IS INVESTIGATING FULLY.

Vancouver, Nov. 13.—(Special to The Daily News.)—Mackenzie King today, called K. Ishikawa, whose examination in the riot claims inquiry led to the first question of contract labor. He was asked to explain certain statements perviously made in connection with the testimony of Fred Yoshy, former secretary of the Japanese consulate, but not a local employment agent. Ishikawa retracted and modified many of his former statements in the face of Yoshy's testimony, though commissioner King warned him of the penalty for perjury.

At the close Mr. King said: "The manner in which you have given your testimony confirms me in my belief that there is something in these previous statements that either you, or someone else, is interested in concealing and which it is necessary for me to investigates fully."

Yoshy stated that he furnished laborers to the railway companies on a commission basis retaining a dollar monthly from their pay, but that he got his men locally or through Ishikawa and other companies. Yoshy stated that many Japanese coming here intended to go to the states. Asked how this was possible, he stated that the boundary line was a long one and and that the Japanese had maps showing points where crossing was easy.

CANADIAN LABOR SITUATION.

Ottawa, Nov. 13.—Reports to the labor dapartment show some slackening in demand for unskilled labor that usually occurs at this season of the year.

The season just drawing to a close has been the busiest that the dominion has ever known ad the reaction which was bound to follow, is already beginning to assert itself. At the same time the most conservative financiers in the dominion see absolutely no serious apprehensions, believing that the check will be but temporary in its influence and that there is no reason for expecting anything in the nature of commercial or industrial depression.

There are about 4000 men at present employed in construction work on the western division of the Grand Trunk Pacific. Most of these will be laid off as soon as winter sets in, but should have no trouble in securing work at something else. D. D. Mann, of the Canadian Northern is in Ottawa today and he said his company did not contemplate reducing the force on any of its operations.

THE PUBLIC SHOULD UNDERSTAND.

Ottawa, Nov. 13.—The postoffice department gives out the following: Although the usual official notification was given of the fact that the unit of weight under the inter-imperial postage scheme, was raised from 1-2 ounce to 1 ounce, there is some reason to believe that the public has not shown due appreciation of the fact. The public should understand that, whereas, since Christmas, 1898, they have been able to send letters to Great Britain and all parts of the British Empire for two cents per 1-2 ounce, they can now send a letter weighing up to one ounce for two cents. It is a great boon, as it is no longer necessary to employ very thin paper to send a letter of moderate length to Great Britain or one of the colonies for two cents, and it brings the standard weight into conformity with that in use for domestic correspondence.

EFFECT OF BOUNDARY CLOSE DOWN.

Rossland, Nov. 13.—It was announced here today that the closing down of the Boundary smelting plants and mines means the blowing out of at least two of the Trail smelter furnaces. No official statement is obtainable in the matter. No reason is known here for the closing down of the Boundary plants and mines.

JARDINE'S SUPPORTERS ELECTED.

Vancouver, Nov. 13.—(Special to The Daily News.)—At a primary for election of delegates to the liberal nominating convention for New Westminster, J. B. Kennedy, M. P., and his supporters suffered signal defeat. The men chosen are those expected to support Robert Jardine for nomination for the dominion house.

PROLONGED SUSPENSION

BOUNDARY PROSPECTS ARE NOT ENCOURAGING.

BOTH RAILWAYS CANCEL THEIR ORE TRAINS.

(Special to The Daily News)

Grand Forks, Nov. 13.—Six furnaces are now closed down at the Granby, two having been blown out tonight. It is expected that the remaining two will be shut down in the course of a day or two when all the material in the bunkers will be cleaned up.

Manaer Hodges is still "not in" to all attempts to interview him.

The Great Northern ore trains, which haul about ninety per cent of the ore from Phoenix, were cancelled yesterday and it is expected that the C. P. R. ore trains will be cancelled tomorrow. It looks like preparations for a prolonged suspension of work. It is generally conceded that a small force of machinists and carpenters will be employed for some time at repairs and putting things in shape for aggressive work when the plant resumes operations.

TO MOVE CROP.

Banker Wilkie on Proposed Action by Government.

Toronto, Nov. 11.—What arrangements the dominion government has made with the banks to co-operate in the movement of wheat, as announced by Mr. Fielding yesterday, is not known here. D. R. Wilkie, president and general manager of the Imperial Bank of Canada, one of the largest grain banks, does not know. Mr. Wilkie did not think the government intended to permit the banks to issue bills over the limit fixed by statute, the banks up to now not having reached the limit. According to Mr. Wilkie, the banks want this year's wheat shoved out and sold, as it is frost touched and will spoil if kept in elevators. Such complaints as are coming are not from farmers but from wheat speculators and because of the perishable nature of the crop, and the banks are cautious about advancing money to dealers. Mr. Wilkie attributes the whole trouble to the New York financial situation and consequent difficulty in negotiating exchange bills against shipments. The issue of more bank bills would of course relieve the tension, as the ability of the banks to move the grain is limited by the restrictions of their note circulation.

PRAISED ROOSEVELT

A National Conference on Taxation—Canadians Present

Columbus, Nov. 13—The governors of six states were present today at the opening of the national conference on state and local taxation. A. J. Matheson, treasurer of the province of Ontario, and Prof. Adam Shortt of Queen's university, Kingston, were among the delegates.

Charles A. L. Reed of Cincinnati, spoke of the "Co-ordination of State Taxation." He proposed the assembling of a council of states, the first purpose of which would be to formulate standard bills, not only on taxation but on other subjects of pressing importance and submit them for enactment in uniform terms by the state legislature. Its next purpose would be to act in an advisory capacity in respect of any and all other subjects concerning which it was found desirable that the state either adopt uniform legislative provisions or enact uniform laws, or apply uniform rules, regulations, procedures and practices for the enforcement of existing laws

"No student of actual conditions," said the speaker "can fail to recognize that president Roosevelt is not only justified but is pursuing a highly patriotic course in his efforts to relieve hampered progress by the extension of the federal authority over important interests, heretofore, and presumably at the present, falling wihin the purview of the states. This justification will last until, and only until the states by concurrent action adopt uniform laws for the government of uniform conditions over which it is their pressing duty to exercise jurisdiction.

PUNISHED WIFE BEATER

Good Progress of Great Northern Extension at Michel.

(Special to The Daily News)

Michel, Nov. 13—J. H. Gregory, an English miner has been arrested here by provincial constable Larsh for assault and threatening to kill. On the day of his arrest he abused his wife, kicked her out of the house and threatened to shoot her. Gregory has been working in the Michel mines for a year or more: his wife and family came out here from England about a month ago. Shortly after he took sick, Mrs. Gregory and one of the boys providing for the family. He was brought up before magistrate Steadman, who, after administering a severe lecture upon the brutality of wife beating, placed the accused under bond to keep the peace for six months, or in default, to serve 30 days in the provincial jail at Fernie.

Robert Clarkson, who had his right foot injured by a fall of rock in No. 8 mine, two weeks ago, had three of the toes amputated yesterday at the Cottage hospital.

Great progress is being made on the construction work fo the Great Northern extension between Michel and Fernie. The big rock cut just below town, which has caused anxiety to the contractors proved to be gravel instead of solid rock. Several acres of swamp have been filled in at the end of the coke ovens and will be used for yard and sidetracks. Many carloads of timber for the Elk river are on the ground and additional cars are coming daily.

NOT CORDIAL

English Reception of the German Emperor

KAISER PROFESSES PEACE

PUBLIC GENERALLY INCLINED TO DISTRUST HIS UTTERANCES AS INSINCERE AND TO REGARD GERMANY AS GREAT BRITAIN'S ONE ENEMY.

London, Nov. 13.—The emperor of Germany, the guest of the king, made a speech today at the Guildhall, where he was entertained by the city of London. He urged the strengthening of Anglo-German relations and emphasized his unalterable desire to foster the peace of the world.

The day passed off without the expected socialist demonstration or any disorder or rioting. The reception given the emperor by the people of London, has been respectful, but compared with that given some other royal visitors, of recent years, it was in no sense enthusiastic. The atmosphere which has prevailed during his appearance in public has been tinged with decided coolness and there is no doubt that the English officials are relieved that the passages of the German emperor through the streets of this city took place without any disagreeable incidents.

The anti-German feeling among a large section of the English people, which just at present is particularly strong has derived fresh impetus from the antagonism which cropped out between the two nations on various lines during the recent conference at the Hague. The emperor intends evidently that his visit shall inspire better feeling, but the results of it remains to be seen. However, cordial relations between the ruling houses of Great Britain and Germany may be the better part even if the public does not share in this feeling. The large majority of the English people persist in believing that Germany is Great Britain's one enemy among the nations and this enmity has been fanned by continuous warnings recently from a certain leading newspaper as well as from military experts—that Germany's chief naval and military activity is directed toward schemes for the invasion of England and that Germany plans to surprise England some day, when she is fully prepared to strike suddenly, just as Japan surprised Russia.

The "German invasion" is becoming a hobby of the anti-Germans and a subject of ridicule for the pro-Germans; it has however, unquestionably affected the mind of the public and it has tended to surround with suspicion emperor William's professions of his desire for peace.

PRESIDENT'S ANSWER.

Approves of Omission of Motto on U. S. Coinage.

Washington, Nov. 13.—In answer to one of the numerous protests which have been received at the White House against th new gold coins which have been coined without the words "In God We Trust," president Roosevelt has written a letter which he today made public. The letter says in part:

"When the question of the new coin again came up we looked into the law and ound there was no warrant therein for putting 'In God We Trust' on the coins. As the custom, although without legal warrant, had grown, however, I might have felt at liberty to keep the inscription had I approved of its being on the coinage. But as I did not approve of it I did not direct that it should again be put on. Of course the matter of the law is absolutely in the hands of congress, and any direction of congress in the matter will be immediately obeyed.

"At present, as I have said, there is no written law for the inscription. My feeling in the matter is due to my very firm conviction that to put such a motto on coins or to use it in any kindred manner no only does no good but does positive harm, and is in effect irreverence which comes dangerously close to sacrilege. A beautiful and solemn sentence, such as the one in question, should be treated and uttered only with that fine reverence which necessarily implies a certain exaltation of spirit. Any use which tends to cheapen it and above all any use which tends to secure its being treated in a spirit of levity, is from every standpoint profoundly to be regretted."

DETAILS AWAITED

Relief in the West Over Fielding's Assurance of Aid

Winnipeg, Nov. 13—The despatch from Ottawa announcing that Mr. Fielding, minister of finance, had been conferring with the Canadian banks, had secured assurances from them aund that additional financial resources would be available for moving the western crop, was news of interest today to grain dealers, wholesale merchants and business men generally.

For the past week, strong reports have been going east to the government from various interests urging intervention to prevent a tieup. Although none of these emanated from official bodies, they were none the less representative of the business and grain interests of the Canadian west. Mr. Castle, the grain commissioner, in a communication to the department of trade and commerce, the contents of which found their way into a Toronto newspaper, drew the attention of the government to the fact that the export trade was virtually at a standstill owing to the money available being insufficient to give grain cargoes from Fort William to the seaboard.

Mr. Castle was summoned east the latter part of last week to consult with the government on the situation. The government also made enquiries of responsible parties as to the prevailing state of affairs. The conference between Mr. Fielding and the banks was followed with the announcement that more aid would be forthcoming.

As to the extent of this aid and as to the manner in which it is to be applied there is no exact information as yet, but pending further details there is a disposition on the part of those in the grain trade to await developments before jumping to the conclusion that the situation has been adequately met. It is understood that the government was informed hat in order to get the maximum quantity of grain out of the country before the close of navigation additional funds to the extent of from five to ten million dollars would be required.

By the co-operation of the banks it is believed this can be done. The chief difficult has been in moving grain east of Fort William to the sea board. Export has also been checked by the desire of some grain men to hold their grain owing to the price for May affording them a premium over the carrying charges and the desire to stop this holding of grain for speculative purposes has doubtless been responsible in large part of the policy of the banks.

Unless financial and transportation facilities combine to make it possible to move forward the stocks at Fort William as rapidly as they accumulate until the close of navigation, which at best is not more than a month away, there will be a continuance of conditions prevailing in the country which make it a difficult problem for the farmer to turn his grain into money. The Winnipeg grain men hope that as the result of Mr. Fielding's conference with the bankers the present conditions will improve.

CAPITAL GOSSIP

Several Important Court Decisions—Seton's Plea for Buffalo

Ottawa, Nov. 13—Harris vs. the London street railway company, was heard in the supreme court today. The plaintiff, now the appellant, was a motorman on the defendant's railway and was taking his car outside the city when it ran into a stranded car on the track and he was injured. At the trial, the power on the plaintiff's car was shown to be poor. The car crossed the circuit breaker and the plaintiff threw off the controller and started to set the brakes when the collision occurred. The jury gave him a verdict of $1500. The Ontario court of appeal set aside the verdict on the plea that the accident was caused by the plaintiff's violation of the company's rules. At the conclusion of the arument today, the supreme court dismissed the appeal.

J. R. Booth gave evidence in today's high court in regard to the claim against him for $2,250,000 by Henry S. Sprague of New York. The matter of the sale of the Canada Atlantic railway to the Grand Trunk railway was fully explained and the court reserved its decision at the close. It came out that the Grand Trunk company paid for he C.A.R. the sum of $14,000,000.

An answer was received today by judge Talbot, who is presiding at the Buckingham strikers' trial at Hull from the attorney general regarding the motion of counsel H. A. Goyette, for the strikers, in which he requested that the crown should pay the expenses of some of the defence's witnesses. The attorney general held that the usual rule must be followed in this case and the crown will not pay the expenses of the witnesses for the defence.

Ernest Thompson Seton, the well known author and explorer, is a guest of the governor general. Hon. Frank Oliver had a long talk with Seton at Rideau Hall today in reference to the latter's six months' trip through the norhern wilds of Saskatchewan and Mackenzie district. Mr. Seton is especially interested in having the government take some action to preserve the bands of wood buffalo still existing in the far north and the government has already taken steps towards herding the animals into a reserve and properly protecting them by the mounted police.

SMASHED THE LOCK

Bad Accident on Lachine Canal—Damages $50,000

Montreal, Nov. 13—Confusion in the engine room signals tonight resulted in the steamer Neepawa, an up lake boat, ramming the upper gates of lock No. 1 on the Lachine canal. The gates were carried away and the rush of water into the basin above carried the steamer into the harbor. She was not damaged, but the barge Regina, in the basin at the time, was carried out into the harbor and sunk with her cargo of 25,000 bushels of wheat. On the Regina at the time were the captain, his wife and five children, but all escaped. The total loss is about $50,000. Navigation will be interfered with but not tied up, as the old lock is still available for vessels drawing under 14 feet of water.

THEY PERMIT FOOTBALL

Nashville, Nov. 13 — The national W.C.T.U. today declared for the same standard of purity for both men and women and not women suffrage. A resolution, asking that football be stopped, was voted down. A resolution thanking the government for the efforts to break up the white slave traffic was adopted. Mrs. Lillian Sevens of Portland, Me., was re-elected president.

MAY UTILIZE GOLD RESERVE

Or Place Loan on British Market--Plans of Dominion Government to Come to the Help of the Banks Dealing With the Movement of the Crops--Four Banks Have Been Mentioned

Ottawa, Nov. 13.—(Special to The Daily News.)—Just how the dominion government is going to co-operate with the banks in assisting to market the western wheat crop, especially that portion whch is liable to be destroyed if stored away in its present condition, has not yet been made public. There are only two ways of doing so. One is to obtain a short loan on the British market, which, under present conditions, is likely to be adopted. The other is to utilize some of the gold reserve which is deposited with the finance department as security against note circulation. It is said that there is more gold reserve than is required for this and other purposes, and that some of this might be used in emergency of this kind. At all events, the idea seems to be to place say, $10,000,000 to the credit of certain banks, by way of loan, that are recognized in the west as being grain banks and that are loaning money to move the crops.

There are some four banks mentioned as likely to get part of this loan. They are: The Bank of Commerce, the Imperial Bank, the Dominion Bank, and the Bank of Hamilton. The Union Bank is also spoken of.

The railway companies have assured parties concerned that they will do all they can to facilitate the moving of the crop. The principal difficulty is with the lower grades of grain that have to be moved before navigation closes, otherwise it may be destroyed. The marine department has arranged to keep navigation on Lake Superior open until December 10th. A telegram was sent to Washington asking that light house at Passage Island near Port Arthur be kept going until that date, the dominion paying the extra expenses. This has been agreed to. Everything that is possible for all the parties to do, is being done, to see that the movement of the crop is financed. Should any of the gold reserve be used, it would likely be necessary to have some legislation on this subject at the next session.

TRIPLE MINERS' FUNERAL AT FERNIE.

Hosmer, Nov. 13.—Three rose colored caskets containing the remains of Harry Montelbetti, Joseph Lichazt and J. Matawich, the three miners whose lives were snuffed out by a premature explosion at the Hosmer mines on last Monday evening, born by eighteen pall bearers, and followed by nearly 400 people, reatives, friends, and members of the miners' union, who all marched to the C. P. R. station, constituted, today, the saddest spectacle Hosmer has ever witnessed.

All day Tuesday a pall rested over this prosperous little town and no business was transacted. Not a pound of dynamite was blasted from the time of the fatal discharge and the entire body of miners ceased work till after the burial so as to pay respect to their departed brothers.

The funeral party left by train for Fernie, where they were met by members of the Fernie miners' local. Services were held in the Roman Catholic church, and the remains were laid away side by side in the Roman Catholic cemetery.

VANCOUVER FLOODED WITH LABOR.

Vancouver, Nov. 13.—Vancouver is being flooded with all kinds of laborers and no work available. A call went out months ago, but when they were wanted they were not to be had. Now when winter is setting in, and work is being shut down in interior lumber and copper camps, hundreds of men are available. The mayor has closed the labor bureau so many were the applications made. More are to be rushed in, and as the government and the city authorities are paying little attention to find work for those already here, hundreds will be idle all winter.

BUSINESS DEPRESSION IN STATES.

Chicago, Nov. 13.—There have been large reductions in the working forces in many industries in Chicago during the last few days, owing directly to scaricity of orders and business depression. Several hundred men were laid off directly in various woodworking establishments. Several other concerns are running short time in an effort to maintain their forces.

EXPERT DECLARES COLLINS IS SANE.

Ottawa, Nov. 13.—(Special to The Daily News.)—Dr. Phalen, an expert of the justice department, appointed to examine the condition of Thomas Collins, who is to hang on Friday for the murder of Mary Ann McAuley, has reported that Collins is sane. Collins is at present in the Albert county jail and his execution will take place on the day originally set.

SAYS GOMPERS SPOKE FALSELY.

Toronto, Nov. 13.—President Gompers of the American Federation of Labor has been given the lie by P. L. Loughrin, former dominon organizer of this city. Loughrin says Gompers was not telling the truth when at Norfolk, Va., he declared that Canadian workmen were regarded as part and parcel of the American labor movement and that geographical lines have not interfered with the fullest development of fraternal relations. Loughrin says he was dismissed from his post as dominion organizer because he advocated forcing Americans to locate their mills in Canada or do without logs.

HAVE TOO MUCH FAITH IN POLICE.

Toronto, Nov. 13.—A pamphlet severely criticising the propositions under the Lord's Day Act has been published by the Rational Sunday League. Among other things it charges the members of the Lord's Day Alliance with having more faith in policemen than in prayer.

GRANBY HAS CLOSED DOWN, WHY?

This and all the other great copper reduction works of the Boundary were erected under conditions no more favorable than the present. For the 10 years previous to 1907 the average price of copper was 14.945 and for the years 1903 to 1906, inclusive, it was 13.79. Under these conditions Granby paid $2,968,630.00 in dividends, Consolidated Smelters and B.C. Copper paying at the same rate on their outstanding capital.

Copper today is 13.75 with every indication that it will go higher. A deal for 50,000 tons at a figure in advance of the present market has just been closed. More electrical work is projected than ever before in the history of the world, but operations are temporarily suspend ed. A more favorable opportunity to invest in British Columbia mines will never come to you; 15 to 20 per cent is the rate of interest they are paying on present valuation.

These stocks are dealt in only on New York, Boston and Montreal prices. We have our own agents on all the principle exchanges, who keep us fully advised. We are therefore prepard to give prompt and efficient service. For quick action use the wires.

THE LABOR SITUATION.

The labor situation in Canada has taken a new phase and one, too, that calls for very earnest consideration. In place of the scarcity of labor that prevailed throughout the spring and summer months we are now confronted with a condition of affairs that promises an unusually congested labor market. These conditions exist in the east, as well as in the west. Toronto is already rapidly filling up with large numbers of idle workmen and the unemployed question has already assumed quite serious proportions in that city.

In this province, owing to the closing down of saw mills, logging camps, and, recently, of the Boundary mines and smelters the employment problem during the coming winter months promises to be a serious one.

The quick change from scarcity to over abundance in the labor market should prove an object lesson to those concerned in immigration matters. It is quite obvious that any immigration work, having for its object the securing of labor in the spring and summer months, must be carried out in the light of the lessons taught by the present congestion.

There is not continuous employment for any very large body of men in this province. Labor may be scarce in the summer months, but with the advent of fall, large numbers are thrown out of employment and their prospects of securing remunerative employment through the winter are poor indeed. Unfortunately, it is the white labor that is chiefly displaced by these fluctuations, the cheap Asiatic labor is kept, whilst white men, who might make good citizens, are allowed to walk the streets or to leave the country.

During the period of shortage of labor we heard a good deal about the difficulties of the employer and appeals were made to the patriotism of the white union laborer to offer no obstacle to the importation of labor from abroad. Now it is up to the employer to prove his patriotism. Every employer of labor who has Asiatics in his employ should take prompt steps to replace them with white men. We want to keep the white men in the country and employers will be rendering the province a good service by going to special pains to see that white men are given preference over Asiatics in every opening that occurs during winter months.

Self-sacrificing patriotism is sometimes demanded of employers as well as of employees and in the present congested condition of the labor market, it is certainly up to employers of labor to show that their vaunted patriotism is something more than mere talk.

The C. P. R. has a very large number of Japanese in its employ all along the main line in this province. Here is an opportunity for the C. P. R. to display a little of that patriotism, it is so fond of appealing to when it is seeking some concession from the legislature. Let the big corporation offer special inducements to white men to take this work so that they may be kept in the province over winter and be on hand for the spring and summer months when their services will be again in great demand.

If the saw mills, railway companies and other large employers would take hold of this matter at once in a truly patriotic spirit, the unemployed difficulty, so far as white men are concerned, would speedily be overcome and a very advanced step would have been taken towards the solution of the Asiatic problem in British Columbia.

EDITORIAL NOTES.

In a despatch published this morning president Roosevelt gives a sensible reason for the omission of the motto, "In God We Trust," on the ten dollar United States coins just issued from the mint at Philadelphia. Pending the president's explanation the American newspapers have been publishing many stories of why the change was made. The World of New York has the following:

There are several explanations of the omission, but none of them official. One is that the Indian whom St. Gaudens designed on one side of the coin had so many feathers in his head dress that there was no room for the motto. Another is that anything relating to trusts is offensive to the present administration. Still another is that the motto has become inappropriate, since in these troublous times the administration knows not whom to trust. "I have it straight," said one of Washington's sidewalk colonels, "that the design as originally made by St. Gaudens bore the words, 'In Ted We Trust.' When the president heard of it, however, his modesty prompted him to order the omission of the words. There was then no time to change to the old motto, and so we have none."

In asking that the dominion government "reorganize the railway commission board, and lubricate its machinery," the Toronto News declares that "the federal railway commission today is unquestionably the most important tribunal in the country. . . . . If wisely strengthened and properly oranized, should rank as one of the chief constructive acts of the Laurier government. No other tribunal has such a vital, practical relation to the welfare of the people. Its true character and dignity will be assured to the board if the government is prudent and courageous in the new appointments which will become necessary under the legislation to be enacted during the next session of parliament."

Under the heading of "Reasons to cheer up," an eastern exchange remarks:

It has already been stated that the present financial crisis bears within itself the elements of its own cure. The heavy liquidation that has occurred in the stock market and the check that has been put upon the too rapid development in the railway and industrial world will ere long be seen in the relief of the monetary stringency. This is always the effect of such a money panic as we have been experiencing, and leading local financiers feel that the present crisis will prove no exception to the rule. The head of one of the foremost Canadian chartered banks predicts that there will be lots of money available by January 1, and the general manager of a sister institution estimates that March 1, 1908, will witness a plethora of funds in this country.

ONTARIO MORALS.

Brampton, Nov. 13.—The case of Henry vs. Mothersill is being tried here at the fall assizes. Henry is suing Mothersill, who is one of the wealthiest farmers in the neighborhood for $20,000 damages for alienation of his wife's affections. Mothersill is about 50 years old, married, and has a family. Henry has a family of two daughters who are the principal witnesses for the plaintiff. The alleged intimacy is said to have continued for several years. Henry yesterday was examined for four hours and told a story unfit for publication unblushingly. The two daughters corroborated their father's evidence. Mothersill denied the charges. The evidence was all in last night.

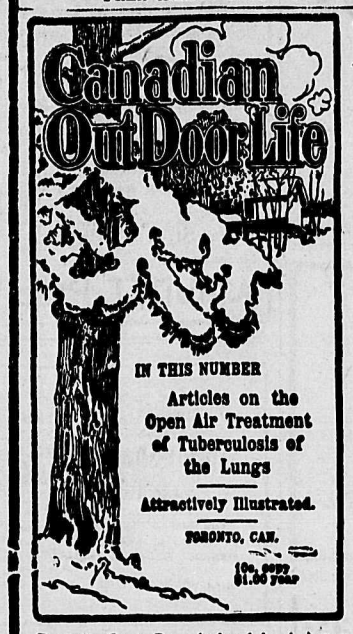
NOT A SINGLE APPLICANT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES BECAUSE OF HIS OR HER POVERTY



Facsimile Cover Page (reduced in size) new Monthly Magazine of The National Sanitarium Association. Full size of page 10x7.

FORWARD STEP

IN THE INTERESTS OF Muskoka Free Hospital for Consumptives

The National Sanitarium Association of Canada has undertaken to publish a monthly magazine devoted to the Outdoor Treatment of Tuberculosis, and the inculcation of Hygienic Methods of Living for the people generally. The first number was issued in November, 1906.

All profits from this magazine — from subscriptions and advertising—will go to the maintenance of patients at the Muskoka Free Hospital for Consumptives.

Any one contributing one dollar a year, or more, to the funds of the Hospital will become a subscriber to CANADIAN OUT-DOOR LIFE for one year.

No Father, No Mother, No Home—Worse Than a Prisoner

GARFIELD BRACKY, BERLIN, ONT.: Enclosed please find doctor's certificate and examination papers. Hope you will secure me a place in your Sanatorium. You will notice that my circumstances is a hard one; no father, no mother, no home—worse than a prisoner. Nobody wants me on account of my disease. Hoping you will have the charity and consider my position, and give me a position at once in your Sanatorium, I ever pray.

An Orphan, without Home or Means

DR. A. E. HANNA, PERTH: I have a patient here, a young fellow in whom I am greatly interested. He has tuberculosis. He is a poor young fellow, an orphan, out of home, without any means. If we sent him up would you take him in and do the best you can for him? I know how difficult it is to accommodate all who require treatment, but this is a special case.

It is always encouraging to have a letter from friends who kindly contribute. For the convenience of those who have not time to write, the following blank may be used:

SUBSCRIPTION BLANK.

.....190....

Dear Sir,

I have pleasure in enclosing the sum of.....

"DO IT NOW"

Is a business motto of this strenuous age that applies with tremendous force when it is a good act you should do.

"A child's kiss set on thy sighing lips shall make thee glad.

"A sick man helped by thee shall make thee strong.

"Thou shalt be served thyself in every sense of service which thou renderest."

"DO IT NOW"

"I WAS SPECIALLY PLEASED WITH THE ATTENTION PAID TO CONDUCT THE INSTITUTION CAREFULLY AND ECONOMICALLY."—Dr. R. W. Bruce-Smith, Government Inspector Hospitals and Charities.

CAN'T UNDERSTAND IT

BOUNDARY PEOPLE ARE PUZZLED OVER CLOSE DOWN

NO OFFICIAL STATEMENT CAN BE OBTAINED

(Special to The Daily News)

Grand Forks Nov. 13—The complete closing down of the Granby smelter was quite a surprise to the residents of this district. Almost simultaneously with the *blowing out of the big plant comes word* from Greenwood that the B. C. Copper company's smelter at that place has also closed down. In both cases no definite reason is given for the blowing out of these plants. Plenty of coke is now available to meet all demands and the price of copper is rising. The only feasible cause adduced for the closing down is that it is strictly a question of labor and wages.

From present appearances the dearth of laborers in the Boundary district is a thing of the past, at least for some time to come, as the closing down of the three bi smelters as well as all the different mines, has thrown fully 2000 men out of employment. These men are all seeking other labor and already in Grand Forks there are ten men for every job. The closing down has completely turned the tables in the labor problem of this district.

Warner Miller, president of the Dominion Copper company, H. Melville, vice-president, and M. M. Johnson of Salt Lake, consulting engineer for the same company, according to the very latest despatches received here today, will arrive here this evening and will carefully investigate all matters pertaining to the operations of the smelter at Boundary Falls.

ANOTHER ACCOUNT

(Special to The Daily News)

Grand Forks, Nov. 13—Four furnaces are shut down in the Granby smelter, and things look as if there is to be a complete close down of the plant. The men, when leaving work were told to draw all their pay to date, the foreman and shift bosses stating that things were to be closed down tight. Manager Hodges is reported as saying that there was no probability of a close down but the paying off of the largest part of the men today and the greasing of the machinery point towards at least a month's idleness.

No statement regarding the facts of the matter are to be had from the management and as a result numbers of the men are leaving town for outside points in the hope of securing work. The past season in the smelter has been broken by the occasional shutting down of the furnaces and this has not helped the financial condition of the men so that a prolonged suspension of work will o hard with the majority of the men. The supply of coke and ore has not been any too plentiful, but it had been hoped that the larger part of the plant would be kept in operation.

Ralph McBean, alias Ralph Wilson, has been arrested on an information from Pendleton, charging him with horse stealing. He has waived extradition and was taken back by the Pendleton sheriff to that town.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

We have usde Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough,

Rev. James A. Lewis,
Pastor Milaca, Minn., M. E. Church.

Chamberlain's Cough Remedy is sold by all druggists and dealers.

PUBLIC OWNERSHIP

Saginaw, Mich., Nov. 13—Addressing the interstate forestry conference here today Dr. Fernow of the Toronto university, held that the state should encourage private ownership of timber wastes. Their exemption from taxation for a term of years, together with the ultimate taxation of the timber harvest in its value, would promote private replanting he declared.

A Nifty Lake-Front Fruit Farm

Situated on the north side of Kootenay Lake, within 1½ miles of the City of Nelson

We have for sale an extremely choice location of 43 acres; it will make a fine summer home for a Nelson business man. It is only a 5 minute row across the lake from the end of the street car line, or 10 minutes launch ride from the city.

This property contains fully 30 acres of good orchard land; the frontage on the lake is good. There is a fine shady grove of trees, which has been cleared out and made into a beautiful little park. A swell little stream of absolutely pure water runs through the farm, for which we hold a registered water right. Two acres improved and planted with fruit trees, strawberries and raspberries. Telephone communication with the city.

Choice lake front locations, close to Nelson are at a premium, and if you are thinking of securing something of this nature, act promptly and take advantage of a good opportunity.

We can furnish a clear title to this excellent location, and for quick sale it is offered for

$3500

On easy terms.

See us at once. We will be pleased to give you the benefit of a thorough inspection.

Fruit Lands. Box 51, Nelson B. C.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

LAND REGISTRY ACT

TAKE NOTICE that an application has been made to register Mary Ann Sturgeon as the owner in Fee Simple under two several tax sale Deeds from R. J Stenson, Collector of the Slocan Assessment District to C. V. Gagnon, bearing date the 21st day of November, 1906, and the 22nd day of August, 1905, respectively, of all and singular those certain parcels and tracts of land and premises situate, lying and being in the District of Kootenay in the Province of British Columbia, more particularly known an ddescribed as:

All minerals, precious and base, save coal and petroleum, under lots four thousand four hudred and seventy (4,470) "Mountain Chief No. 3" Mineral Claim, and four thousand four hundred and seventy-one (4,471) "Sarnia" Mineral Claim, both in Group One in the District of Kootenay.

And said minerals have been transferred by the said C. V. Gagnon and the said Mary Ann Sturgeon.

You and each of you are requested to contest the claim of the tax purchaser within fourteen days from the date of the service of this notice upon you, and in default of a caveat of certificate of lis pendens being filed within such period, you *will be forever estopped and debarred from* setting up any claim to or in respect of the said land, and I shall register Mary Ann Sturgeon as the owner thereof.

DATED at the Land Registry Office, Nelson, Province of British Columbia, this 23rd day of July, A.D., 1907.

H. T. MACLEOD,
District Registrar.

TENDERS

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Detention Building, Victoria, B.C.," will be received at this office until Monday, December, 2, 1907 inclusively for the construction of a Detention building at Victoria, B.C.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to William Henderson, Esq., Resident Architect, Victoria.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank made payable to the order of the Honorable, the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender. By order.

FRED GELINAS, Secretary.

Department of Public Works, Ottawa, November, 2, 1907.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.

NOW REGULAR DIOCESE

ROMAN CATHOLIC ADVANCEMENT IN THE WEST.

NEW BISHOP OF SASKATCHEWAN IS APPOINTED.

Winnipeg, Nov. 13.—The erection of the vicariate apostolic of Saskatchewan into a regular diocese, according to a despatch from Rome is an important development of that church in the west. It is also a sign of the rapid settlement that is going on in the west.

According to Roman Catholic usage, a vicar apostolic was formerly a bishop, archbishop, or other ecclesiastic, to whom the Roman pontiff delegates a portion of his jurisdiction. He is now a missionary or titular bishop, stationed either in a country where episcopal sees have not yet been established or in one where the succession of a Roman Catholic bishop has been interrupted. He exercises jurisdiction in the name of a bishop but he cannot perform certain acts properly belonging to the episcopate. The elevation of Prince Albert to the position of an independent see is the passage from the stage of a mission to that of regular organization.

It was only in 1865 that the diocese of St. Boniface, which had up to then included the whole of western Canada from Lake Superior, was first divided, although in 1859, mgr. Grandin had been consecrated bishop and appointed coadjutor to Mgr. Tache. In 1865 Mgr. Faraud arrived as vicar apostolic for Athabasca and McKenzie, at a time when there was not yet a Catholic church in Winnipeg. In 1881 Alberta became a diocese and St. Boniface was raised to the dignity of a metropolitan see. In 1890 British Columbia became a regular see and it was decided in principle to petition Rome for the division of the diocese of St. Albert, over which Mgr. Grandin presided, and the vicariate apostolic of Saskatchewan, became a fact and Mgr. Pascal was appointed vicar, after having been consecrated in France. He was installed in Prince Albert October, 1891, by Rev. F. Leduc, delegated for the purpose by Mgr. Grandin.

Right Rev. Albert Pascal, O.M.I., D.D., was born at St Genest de Batizon, department de L'Ardeche, France, August 3, 1848. He was educated in his native land but was seized with the desire to engage in the Canadian mission and was ordained in the Catholic order in Montreal in 1873. He labored first in the shanties on the upper Ottawa. In 1875 he left for the mission fields of Athabasca-McKenzie. When appointed to the vicariate apostolic of Saskatchewan he was consecrated as bishop of Mosynopolis at Viviers, France. Since then he has revisited France several times in the interest of his missions and has been an important factor in the religious development of the north.

STEEL AND BOLT MILL

FINE PLANT AT EDMONDS NOW IN OPERATION.

LARGE ORDERS FOR GOODS ARE RECEIVED DAILY.

(The Edmonds, Wash., Tribune.)

The Washington Bolt and Steel Mill is now running practically all of its machinery and any person interested can have the satisfaction any day of seeing the batteries of machines taking on a regular feed of iron rods of anywhere from a quarter inch to two inch steel and coughing out nuts and bolts ready for use at the rate of about a carload a day. It should be stated, however, that the machines are not running full force, from the fact that the company has to select a man to operate a certain battery after which he is taken in hand by John Norman, the bolt mill expert who is here from the Cambria Iron Works at Bethlehem, Pa., starting the plant and instructing the men, and taught how to operate his machine. While the machines are automatic in action yet they require that the rods of iron which they are to digest into the finished product be fed to them in the proper shape so that several days are required for the average beginner to master his machine so that he can go it alone. As an interesting item of the volume of business the mill will handle, one salesman on his first trip out sent in orders aggregating almost $6,400 for nuts and bolts. Material however is another interesting side to the question and this morning the men whose business it is to unload, weigh and check up the incoming shipments of iron, unloaded a car of iron and after the stuff was piled up in the floor it invoiced about $1500 and there was not such a big pile either. All the machinery of the plant from the engine down has run perfectly from the moment it was first turned over and Superintendent Pike says it is one of the best plants in the country. There are many interesting things in a mechanical way which might be written about, the massive shears which nip off the end of a two inch rod, the great punches and the fiery furnaces fed by crude petroleum, did space permit, all of which are intensely interesting to the average man who has any mechanical taste whatever. Between the factory building and the tracks of the Great Northern a huge tank capable of holding two cars of crude petroleum is being constructed. Water has been piped so that the plant has ample fire protection and just to be nice and comfortable Mr. Pike has run steam pipes from the engine and has the only steam heated office in the city.

Minard's Liniment Cures Diphtheria.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists and dealers.

WIRELESS TELEPHONES

Berlin, Nov. 13—A German company is now telephoning with a wireless system from Nauen to various places in Germany, 50 or 60 miles distant. One of the managers of the company said today that conversations have been conducted with extreme clearness and precision.

WINNIPEG'S TRIUMPH

Winnipeg, Nov. 13—Deaths from typhoid fever in Winnipeg have been reduced in three years from 24.85 per 1000 of the population to practically 4'5. The general death rate has fallen from 21 per thousand, which ranks Winnipeg as among the healthiest cities in the world. This is a triumph for sanitation.

NELSON NEWS OF THE DAY

The ladies have got the preparations for the ball on Friday night at the roller rink well in hand and the 20,000 club dance, in consequence, appears likely to be a great success.

The rehearsal of the officers of Kootenay Lodge No. 16 I.O.O.F., which was to have taken place this evening to prepare work for the visit of grand master T. Embleton of Rossland, on Nov. 25th, has been postponed.

There is nothing definite as yet as to the next sitting of the arbitration court in the case of the Consolidated Mining company and its employees. No date will be set probably until the return of S. S. Taylor, one of the arbitrators, from the coast.

There will be a meeting of the board of trade tonight in the old court house at 8.30 o'clock. The telephone matter will probably be dealt with. The question of freight is not likely to be touched as the new schedule has not been received up to the present.

"We are King," which was originally booked for two nights at the opera house on Saturday and Monday, will only play a one night's engagement here, Saturday next, owing to the fact that railway connections cannot be made in time to reach Revelstoke for the engagement there.

The lumber investigation in Alberta is now coming up again in the form of a trial between the province of Alberta and W. H. Clarke which is to be heard before chief justice Sifton at Edmonton on November 18. W. A. Austie, the secretary of the Mountain Lumbermen's association, and G. P. Wells, the former secretary, both of this city, have been summoned to attend.

HANDS TERRIBLY CRACKED

ZAM-BUK HEALED THEM

Over and over again the value of Zam-Buk for chapped hands and cracked places has been demonstrated. Mrs. Yellen of Portland adds her testimony and says: "My hands were so sore and cracked that I could not put them near water. When I tried to do so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and the balm succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation and in a very short time healed my hands completely."

Hands that are chapped may be restored to the smoothness of health by judicious application of Zam-Buk.

The value of Zam-Buk, either as a protective or a corrective, cannot be overestimated. A box should be on every dressing table.

Zam-Buk heals sores, cures eczema, skin eruptions, ulcers, rinworm, itch, barber's rash, blood poison, bad leg, saltrheum, abrasions, abscesses, cuts, burns, scalds and all skin injuries and disease. Of all stores and druggists at 50 cents or from Zam-Buk Co. Toronto, for price, 3 boxes for $1.25.

"WE ARE KING"

"We Are King," with David B. Gally portraying a double role, is rich with delightful comedy, interspersed with strong dramatic situations; a most beautiful love story and just enouh romance and pathos to please the most critical. This charming play is coming to the opera house on Saturday, Nov. 16.

The scenes are laid in Kahnburg, a small principality in northern Germany, and the plot hinges around the marvellous resemblance between the king and a literary vagabond. Brutal and oppressive, the prime minister and some of the nobility seek to dethrone king Hector, and they succeed in substituting the vagabond and imprisoning the real ruler in a madhouse. The character of the new king is so different from that of the one dethroned that this transformation is attributed to the effect of a blow.

To relieve the little kingdom of its indebtedness Hector is engaged to marry princess Olivia of a neighboring principality, whom he has never met. She, hearing tales of Hector's profligacy, travels to Kahnburg in disguise as a lady historian and meets the substitute king, who falls in love with her. Exciting incidents follow one another rapidly and through the Raven, a religious fanatic, Venner, the vagabond, learns that he is the real king stolen from his parentns while an infant, and that his double in the madhouse, is the son of a royal favorite. After an attack on the king's life, the identity of the princess is discovered and all ends happily. Mr. Gally in the dual role of Gustavus Venner and Hector, king of Kahnburg, portrays two vastly different characters and particular attention is called to the rapidly with which he changes from one character to the other, which is very mystifying to the audience and many are slow to believe that one man plays both parts.

Mr. Gally is under the management of C. P. Walker.

A GIGANTIC BABY

Centralia, Ill., Nov. 13—Mrs. Joe Robinson gave birth to a child weighing 19 1-2 pounds. Two years ago she bore a baby which tipped the scales at 18 pounds.

It is easy to see that Mrs. Robinson enjoys perfect health. Many women go through life, wretched and dispirited on account of ill health. Mrs. Mary Shoreham of Toronto, suffered for years with diseased ovaries, constant pain in the back, headaches, indigestion and sallow yellow skin. "Seven months ago a lady friend recommended Fruit-a-tives," says Mrs. Shoreham, "and I decided to try this medicine, though I had little faith in it, because the doctors said an operation would be necessary. After I had taken four boxes of Fruit-a-tives I was free of all pain and was well again."

"Fruit-a-tives are made of fruit juices and tonics and are the best medicine in the world for women. 50c.

FERNIE HAPPENINGS
(Special to The Daily News)

Fernie, Nov. 12—A petition is being prepared for presentation to the city council by the residents and owners of property in the Fernie annex, asking that body to construct a subway under the Great Northern track to connect the annex with the city proper; also for the extension of the water mains and electric light; the grading of the streets and laying of sidewalks. Building operations in that section of the town have been very active this year and many neat and attractive residences have been erected, but as yet the town council has done nothing to supply ordinary conveniences such as other portionns of the municipality enjoy, so it is confidently expected that the petition now being circulated will receive very favorable consideration at the hands of the city fathers.

The fire departmennt has at last received a new hose wagon which will be a valuable addition to the present equipment and which will materially increase the efficiency of the brigade.

Mrs. Drinnan, wife of the general superintendent of the coal company, and her son, Robert, have left for Vancouver where they will remain for some months.

SAMPLES OF GRAPHITE
(Special to The Daily News)

Grand Forks, Nov. 13—E. R. Knight, a pioneer prospector of this district has just found some float samples of graphite which may lead to something of importance, and the peculiar feature of this find is that it was made just at the head of bridge street, in the very heart of the city, the mineral being found in a gravel bank. Local mining men pronounce the samples to be a genuine graphite of the best quality and it is now likely that the ground will be staked at If this land is staked a systematic plan of development will be carried out.

A RELIABLE REMEDY FOR CROUP.

Mrs. S. Rosinthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists and dealers.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary afflictions, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

FOR XMAS ADVERTISERS

SEASONABLE HINTS FOR THE RETAILER

BE SURE AND GET YOUR SHARE OF HOLIDAY TRADE

Notwithstanding the fact that Christmas of itself produces a great deal of business that will be secured without any special effort, it does not necessarily follow that a firm can afford to cease advertising at this time of year, or even cut down on it. As a matter of fact, more advertising should be done now than at any other time of year for the simple reason that it is a season of easy business and good profits. In order to get your share you will have to go after it hard, says the General Merchants' Review. Just because you may be able to get more business now than usual, with an unusually small amount of effort does not mean that you are getting your share. You may be doing more business right now than you ever did before in our life but that does not indicate that you are getting your share. Getting your share means getting all that is coming to you irrespective of what you may have secured in the past. The fact that you are getting more advertising than usual does not indicate that your competitor is getting more than you are and a great deal more than he ever got in his life before. Getting your share is a hard matter and that is what you advertise and work for. You needn't worry about the other fellow getting his share, for no doubt he is looking after that matter himself. Your share is what you are interested in and that is what ou will have to hustle for. Your share is all you can get in a legitimate way. The more you get the better your customers are off. To get your share you must do a great many things and hustle pretty hard. Now is the time to advertise and advertise big. This is the time of year when people gather their families around the big parlor table and go through a mail order catalogue with a fine toothed comb, and father and mother sit up looking it over after the young folks have been tucked away in bed, seeing what they can find as suitable Christmas gifts for them. This time of all times of the year the catalogue gets worked overtime. The leaves are already well worn and the hinges broken. The poor old book must now look as though it had been through a siege and it's a cinch that it has been consulted a thousand times already and is destined to be consulted as man times more before Christmas comes. The mail order catalogue searching that is going on is astonishing. Nearly two months ago the mail order houses began talking Christmas. They are still at it, and they got in on your trade just about 60 days before you got started and about the same length of time before you began to think real seriously of it.

All this time they have been suggesting Christmas buying and if you are wise you will reap the benefit of their sowing. In other words you will reap here you have not sown at all, but in business this is fair. Take advantage of the other fellow's sowing, provided you do it honestl and fairly. The mail order house has taken advantage of the sowing you have done, and this time of all times of the year you have the opportunity of taking advantage of their sowing and it is up to you to make the best of it. People have just about made up their minds what they will have and although some of them have spennt their money with the distant mail order fellows, a great many of them have not and these are the ones that you want to get after and get after quickly. Your cip is to advertise as hard as you can and as loud as you can. Shout and shout and shout and keep shouting. Show the people cuts of your goods and print good descriptions always urging them to call in and look over the goods before buying. Urge upon them the fact that your stock is always open for inspection and then tell them the prices you ask for your goods. Send out inducements of every nature to get them in. Keep up your ads in the newspaper but make them bigger than the ones you have been running right along. Remember, this is the season of giving, and get the women in if you have to give them something for coming. The mail order retail establishments have worked up a great desire for Christmas goods. Now is your chance to go after this and get the trade they have worked up. The right kind of hustle push and advertising will accomplish this for you and the percentage of cost will not be great for they have already created the demand. See that the demand is supplied. See that you let the people know that you have everything they want at prices lower than the mail order fellow asks, and show them that they can carry the goods away with them and return them if they find they are not as represented. Show them that it is to their advantage to see what they buy before they buy it, for Christmas goods are made for the present only and are not permanent in any sense of the word. You will have to remember that catering to the selfish side of humanity is what will fetch them on this Christmas proposition, although it is supposed to be a season of unselfishnes. If you can show them that it is to their advantage to buy of you you appeal to their selfishness and this will bring them your way and that is exactly what you are after. Go after them with hammer and tongs and by the right kind of publicity fired at them sufficiently frequently, you will hand up in good shape and have your share of the Christmas trade when it is all over.

Minard's Liniment Cures Diphtheria.

GOOD ALBERTA CATTLE

High River, Nov. 13.—Three agents of Swift and company of Chicago, are at present in the province purchasing herds and it is said, have at presentn 5000 head purchased. W. R. Hull sold 1200 head to Swift's agents and received a good price. W. R. Lumley, Swift's chief agent says that Alberta cattle compared more favorably than the very best bred in the states, being more mature and ore suitablue to the packing houses than cattle from the middle west.

A GIGANTIC BABY.

Centralia, Ill.—Mrs. Joe Robinson gave birth to a child weighing nineteen and a half pounds. Two years ago, she bore a baby which tipped the beam at eighteen pounds.

It is easy to see that Mrs. Robinson enjoys perfect health. Many women will envy her, because they go through life, wretched and dispirited on account of ill-health. Mrs. Mary Shoreham, of Toronto, suffered for years with diseased ovaries, constant pain in the back, headaches, indigestion and sallow, yellow skin. "Seven months ago a lady friend recommended Fruit-a-tives," writes Mrs. Shoreham, "and I decided to try this medicine, though I had little faith in it, because the doctors said an operation was necessary. After I had taken four boxes of Fruit-a-tives I was free of all pain, and was well again."

"Fruit-a-tives" are made of fruit juices and tonics and are the best medicine in the world for women. 50c.

The Burlington's Diverse Routes

In lpanning your trip, you don't want to be confined to one gateway. If your ticket reads "Burlington," your route may be

Via St. Paul,

the Mississippi River Scenic way, three trains daily, or

Via Billings

the direct way to the Southeast with complete trains all the way through or

Via Denver

and either the Billings direct way, or else through Scenic Colorado.

Get hold of a Burlington folder; the map shows what a desirable portion of the through route the Burlington trunk lines form. An intelligent inquiry by you as to the Burlington routes and services will add to the comfort of your journey east or southeast.

CANADIAN WATERWAYS.

St. Catherines, Nov. 13—At the next session of the dominion parliament the merits of the several plans which have been submitted to make the Welland canal a waterway capable of accommodating the largest vessels, will be discussed. The question of either improving the St. Lawrence route or proceeding with the Georgian bay canal, will also be discussed and a decision made.

TO HELP GRAIN MEN.

Ottawa, Nov. 13.—The present gold reserve of the dominion government in security for bank note circulation, totalling between $48,000,000 and $50,000,000, is about $1,000,000 more than actually required. This may be set free so as to relieve the demand of the grain trade, but it will only afford temporary relief as elevator companies rely upon banks for practically all that is required.

OVER THE PACIFIC.

Montreal, Nov. 13.—Dr. Lemieux, brother of the post master general, received a cablegram from Yokohama last night stating that hon. Rodolphe Lemieux arrived there safely yesterday on the Empress of China.

CHARMING NEW BLOUSES

OVER twenty new styles of Ladies Blouses arrived a few days ago and it is not too much to say they're the prettiest ever shown in the city. They come in a full range of sizes and materials, consisting of Japanese Silks in a nice soft quality with bright lustrous finish, chiffon, taffeta, in an excellent quality that will not cut and all-over lace or embroidered net. Colors, white, black, navy and reseda; at cost, $4, $4.50 and $5.

NEW TIGHT-FITTING COATS

CHARMING new styles are shown here in this line. As everyone knows, this Coat is fashion's favorite, for this season. We have them in navy, black, myrtle and brown. Step in any time and we will be pleased to show these goods.

YOU FIND EVERYTHING NEW IN MILLINERY HERE.

MEAGHER & CO.

LIBERAL NOMINATION

St. Catherines, Nov. 13—It is reported that M. J. McCarron will be the liberal candidate at the next general elections for the commons in opposition to E. A. Lancaster.

CALGARY DEBENTURES

Winnipeg, Nov. 13—Calgary city has practically decided to dispose of $250,000 30 year debentures to Toronto brokers for 89 net here.

VICTORIA SUICIDE.

Victoria, Nov. 13.—At Parson's bridge, near this city, today David Burnett, a young farmer of Sooke, shot himself with a rifle and lies at St. Joseph's hospital in this city, hovering between life and death. The attempted suicide was the result of the refusal of Miss Luckey of Parson's Bridge to marry Burnett. Burnett shot himself throuh the lungs and is not likely to survive.

NELSON NEWS OF THE DAY

Rev. A. N. Frith, pastor of the Baptist church, arrived last night.

There was a fair audience at the theatre last night for the last occasion of the engagement of the Jere McAuliffe company here.

Constant repairs are being made to the Baker street bridge and will continue to be made until the whole gap has been filled in.

S. S. Taylor left last night for the coast to attend the sitting of the full court. Mr. Taylor expects to be absent for the next ten days.

Jack Larkin has arranged for a 20-round boxing contest to be pulled off between Brechin and Mullin on Nov. 29. The hall in which it is to occur has not as yet been settled upon.

The weather yesterday still continued gloomy with the overhanging fog which seems to have deepened with a falling barometer. The thermometer yesterday varied between 33 and 41 degrees.

Manager Zavits of the Allis-Chalmers-Bullock company, has spent the last few days at the power plant deciding upon the course to pursue in order to place the plant completed in the hands of the city as rapidly as possible.

G. S. Rees returned from Vancouver last night. He states there are a great many Japanese to be seen in the streets of that city, and the hostile feeling against their presence is still very manifest. Hundreds of white men are out of employment at the present time in Vancouver, their number is being daily increased, and it would appear that there will be considerable distress felt in the city before the winter is through on account of the present labor conditions.

The china chocolate set which has been presented by the Canada Drug and Book company as a prize to the most popular lady at the Antituberculosis ball on Nov. 29, is on view in the Standard Furniture company's windows.

The regular meeting of Court Kootenay Bell No. 723, Canadian Order of Foresters, will be held in K. of P. hall tonight at 8 p.m. A full attendance is requested as the report of the special committee on the social evening will be presented.

Young-Arrowsmith—In St. Saviour's church, Nelson, B. C., on Wednesday, November 13, 1907, by the rector, the Rev. Fred H. Graham, George Alexander Macdonald Young of Creston, B. C., was married to Miss Louie May Arrowsmith, also of Creston.

The members of the I. O. G. T. held a farewell party at the home of Miss O. E. Hiddle last night, when occasion was taken to present Miss Christina Plumb with a gold locket suitably engraved. Miss Plumb leaves for the east Friday and takes with her the best wishes of her many friends in this city.

Thomas Kiddie, the newly appointed manager of the Northport smelter, leaves this morning for Rossland on his way to Northport, after spending several days in this city renewing old acquaintanceships. Mr. Kiddie will not take charge of the Le Roi plant until the first of the coming month and at the present moment is ignorant of the business arrangements which are likely to be made in the near future.

There was an interested audience last night at the Baptist church to listen to an address on Jamaica, in which country so many Canadians are now interested, which was delivered by Mrs. J. Laing Stocks and illustrated with over 60 beautiful views showing the remarkable scenery of the island, the homes, the people, the can sugar plantations. The life of the West Indian negro was happily shown in both address and views and was further illustrated by several plantation songs, very well rendered by G. Brown. After the conclusion of this part of the entertainment the chairman of the meeting, Dr. Wolverton, made a few remarks on the great contrast which evidently existed between the negro of the British West Indies and of the southern states, bringing an enjoyable evening to a close.

The social of the Churchmen's club at St. Saviour's parish hall last night, the first of this season, was so well attended that there was barely sitting room left. The feature of the evening was a particularly good musical program including within it some of the best musicians in the city. Between the various solos, instrumental and vocal, cards of all descriptions were indulged in according to the tastes of the guests. After the program refreshments were served to over 100 people, all that the small hall is able to hold. The program included some gramaphone fireworks by J. D. Nickerson, which was by way of an overture, solos by Mrs. Briggs, Mrs. S. H. Wye, Miss Down, J. Taylor, G. Smith, S. A. Wye and F. Parker, and instrumental solos by Miss Bate, Mrs. W. Astley and Mrs. R. W. Hannington.

Nap Mallette has started an express wagon.

Several hotels were obliged to turn away visitors last night for lack of room.

A tree falling against the city power line yesterday afternoon brought two wires together and thus made a short circuit. The power was off for about 30 minutes.

T. S. Ibbertson entertained the Jere McAuliffe company at the Hume hotel last night after the close of the performance.

N. B. IRON DEPOSITS

Fredericton, Nov. 13—The Drummond Mining company of Montreal has secured a lease of valuable iron areas in the county of New Gloucester. T. M. Loggie, chief draughtsman of the crown land department, claims that these iron deposits are the most valuable in the world.
