ENTERS SUIT

Marconi Company Wants All Wireless Business

MONOPOLY UNDESIRABLE

GOVERNMENT DIFFERS AS TO INTERPRETATION OF ITS CONTRACT WITH THE COMPANY—DISSOLUTION OF PARLIAMENT PROBABLE IN EARLY SPRING.

Ottawa, Aug. 6.—It is probable that upon theopening of the branch of the Royal mint here in November or December next, a new nickle penny may be introduced into the Canadian coinaeg. It is felt there is a heed for a penny piece in Canada, and a nickle coin worth two cents would not have the disadvantage in respect to cumbersome size and weight, which necessitates the discarding of the old copper penny. The nickle in Canadian coinage would also afford another convenient market for the large nickle areas now being explored at Cobalt. The new mint will employ about sixty men, and will turn out about 16,000,000 coins per year. At present the British mint is turning out on the average of about 16,000,000 Canadian coins per year.

Cobalt camps have already yielded $10,000,000.

Hon. Sidney Fisher has sailed from Southampton for Canada. Hon. W. F. Fleding and Hon. J. P. Bordeur are not expected in Ottawa for five or six weeks.

The school property committee of Ingersoll, Ontario, has recommended that the domestic science and manual training classes be discontinued, and that the services of a special singing and music teacher be dispensed with.

The tributaries of the Ottawa river are to be shrunken that much pulp wood has been stranded. The drives on the Petawa and Gatineau rivers are in a bad state. A dearth of pulp wood is viewed with alarm at Ottawa, as many orders are being received owing to strikes in Scandinavia. The present condition of the rivers is due to the late spring. The early floods passed away while the ice still held the timber.

After three months of delay excavation for the new $217,000 Y. M. C. A. building in Ottawa has commenced.

An Australian built steam motor car for service on the Intercolonial, was given its first trial trip this week. The car is smaller than those built by the I .C. railway and less speedy, having a maximum speed of 25 miles an hour, while New Brunswick built cars in trial trips have attained 45 and 50 miles in that time. The car is small, with seating room for 47 passengers, the passenger section beind divided into two compartments. The motor has a capacity of 80 to 100 horse power. The cars weigh 30 tons equipped for the road and with the maximum number of passengers, while local cars under the same conditions weigh 70 tons.

Lord Strathcona arrived in Ottawa from Montreal at noon today and drove straight to the premier's office, where he had a conference with sir Wilfrid Laurier in connection with the All-Red line. After the conference lord Strathcona had luncheon with the premier.

The dispute between the government and the Marconi wireless telegraph company in respect to the interpretation of the agreement with the government for the maintenance and operation of wireless stations in connection with the marine service has reached an acute stage. The company has begun legal proceedings to enforce its contention that under their contract in March, 1902, the government is obligated before proceeding with the installtaion or establishment of a wireless station to acquaint the Marconi compnay with the requirements when it shall be optional with the Marconi company to build and operate said station at their own expense. To this interpretation of contract the governmen dissents.

The acting minister of marine, Hon. William Templeman, in a letter to the minister of justice asking his advice in the matter, points out that "should the Marconi company's interpretation of contrate be correct it will be impossible for the department ,should it so desire, to use any other system than the Marconi system, and the Marconi system will have a monopoly of all government business at such times as they desire to exercise their option. It will restrict legitimate competition and will seriously hamper the government in carrying out its present intention of establishing a series of wireless stations for the protection and assistance of navigation on the Pacific coast."

Hon. Mr. Aylesworth, in a written statement ,has advised the department of marine that under the terms of the agreement he finds nothing to prevent thecrown from erecting a wireless station and equipping it with instruments other than the Marconi instruments. Acting on this advice the department has gone ahead with the establishment and operation of wireless stations on the Pacific coast and the Marconi company will fight. Lega proceedings have been entered by the company to maintain its claim for a practical absolute monopoly of the wireless telegraphy business of the government.

Opposition opinion here is that the next session will be called for October and that dissolution will follow so quickly as to bring on the dominion elections in March.

MISSIONARY AT LARGE.

Dr. Peebles Disseminator of Occultism and Spiritualism.

St. Paul, Minn., Aug. 6.—Aboard the Soo train from Vancouver last evening was Dr. Peebles, who has made five trips around the world in the interests of occultism and spiritualism. He is now in his 86th year, but is still a veritable ghost hunter and disseminator o fpsycnic dogmas. He was appointed "world's missionary at large" last year by the national association of occults of America and Canada and is just now returning to his home at Battle Fork, Michigan. While abroad he spent considerable time in India and in Calcutta he was the guest of his highness the Maharajah Tagone. This potentate is a rigid Hindoo and an occultist. Dr. Peebles reports that the phenomena of the Indian Yogis and adepts far excel anything accomplished by the mediums of this country. The nearest approach to the marvels of the Yogis are the feats of Charles Bailey, the Australian medium, he says.

HER NERVE FAILS HER.

Toronto, Aug. 6.—Etta Strangways, has been taken seriously ill at Toronto jail. Judging from her condition at the present time the iron nerve of the woman, which enabled her to carry so bold a front in the highest society circles, has deserted her. When first taken into jail Miss Strangways, while able to walk, showed signs of being weak and tottering. Sunday night she became seriously ill. On examination it was found Miss Strangways was suffering from effects of nervous strain and excitement attendant on her arrest.

BODIES NOT RECOVERED

Montreal, Aug. 6—No trace of the bodies of Shirley Davidson and Miss Kingston, believed to have been drowned at Varennes on Sunday, has been obtained. A tug boat started out for the place loaded with grappling irons and other apparatus and is now on the spot. The fact that one of the most experienced and ablest yachtsmen in Canada, accompanied by a woman who was also well up in athletics and an expert swimmer, could be drowned from a sailboat in what was practically a calm is a puzzle to all who have looked into the matter.

CANADA AND JAPAN.

Japanese Government Desirous of Extending Trade Relations.

Ottawa, Aug. 6.—A cable dispatch says W. T .R. Preston on his arrival at Tokio received a most cordial reception from the British embassy. Preston presented letters of introduction from Ottawa, also a letter of introduction and recommendation from sir Claude MacDonald. Through these introductions Preston has had an opportunity of conferring on the question of his mission with viscount Hayashi, minister of foreign affairs, and Matzuoko, minister of commerce. The Japanese are extremely desirous to extend trade relations with Canada and will leave nothing undone to make Preston's mission successful.

Hon. M. Tsu representing the Japanese government, sailed for Canada on July 30th to make special inquiries along the same lines as Preston is making in Japan.

OVER-DUE SHIP ARRIVES

HOLT HILL, 203 DAYS FROM GRENOCK REACHES VICTORIA

BRITISH JOURNALISTS HAVING A BUSY TIME AT CAPITAL

Victoria, Aug. 6—The British ship Holt Hill, 203 days from Grenock, and quoted for reinsurance at 8 per cent owing to her long passage, passed Cape Flattery today. She came in with her flag half masted for captain Parker, her master, who died and was buried at sea. Captain Parker died during the long struggle of the Holt Hill to round Cape Horn.

The British journalists were taken to Otter point this morning by special steamer and viewed the lifting of one of the salmon traps which contained many thousands of the king of fish. This evening the British visitors are entertained at dinner by local pressmen.

In an interview today Mr. Brain, of the Times, said: "Of course, we have been rushing through a panorama and as a result it is very difficult to form well digested opinions. For this reason I do not care to express any views on the great problems of this country but for the present to confine myself to an expression of admiration for its matchless scenery, climate and people."

Mr. Brain added that so impressed was he with the necessity of carefully considering many matters upon which a hurried and hence superficial and cursory conclusion might be formed that he had asked his manager to give him a fortnight respite after his return to England to collect his information and give it the consideration it deserved.

"We are collecting information and learning about this country at first hand," he added, "and hence prefer not to give interviews."

Mr. Brain has strong words of praise for the C.P.R. and the splendid service the company gives across the continent.

BANK PRESIDENT'S TOUR

Sir Montague Allan Delighted With Western Conditions

Winnipeg, Aug. 6—Sir H. Montague Allan of the Allan Steamship company, president of the Merchants' bank, arrived in the city this morning from the west. He has just completed a thorough tour of inspection of the business of the company in the west. He expressed his complete satisfaction with developments in the west and prospects for its future. In all parts of the country through which he had passed the grain appeared to be in a very satisfactory condition. This was especially true of the farther west, but even in the territory between this city and Brandon, where reports indicated a shortage, everything is looking well. This was his first trip through the west in 21 years and it is needless to say that the changes in the country were very astonishing and satisfactory. One thing which he was sorry to see was the large amount of wild mustard which had been allowed to appear in the wheat fields. This he attributes to the lack of care in the operations of the farmers. The utmost pains ought to be *taken he thought, to prevent the further* spread of this weed.

He said: "I understand that the railway company has been active in seeking to overcome this evil and I trust such efforts will be continued and supplemented in every possible manner. From this city I went through to Calgary and Edmonton inspecting the branches of the Merchants' bank on the way. I met the managers of the branches and many of the customers of the bank and found them one and all enthusiastic and optimistic in reference to the prospects before the western provinces of Canada. Along the Calgary and Edmonton line all the crops were in a most satisfactory state and the development of the country has been rapid. There was no apprehension in reference to the harvest and it was anticipated that the yield would be satisfactory and the grain saved in good condition.

"In the mountains we visited Laggan, Banff and Field. We drove to Emerald lake from Field and found it to be as it has been described, the prettiest place in the world of travel. On the way back we had the fortune to see a large bear close to the driveway. Such sights are not often seen nowadays. At Banff we climbed the Sulphur mountains and found plenty of snow.

"Vancouver is enjoying great prosperity Many people are arriving there and the city is growing wonderfully. We crossed to Victoria by the Princess Victoria and visited the city, which we found to be very prosperous. On the way home we went into the Okanagan and inspected the fruit ranch of lord Aberdeen at Vernon. It is unnecessary to say anything in reference to this attractive country, which is attracting many settlers at the present time. Everywhere in he west there is a strong demand for more money for the development of the great resources of the country. What I said to our friends was that the same demand existed throughout the world and that it was difficult for the banks to supply the demand.

GREEKS IN CONTROL.

Rioting Railway Laborers Take Possession of Village.

Murphysboro, Ills., Aug. 6.—Word was received here this morning from Fordyce ,about ten miles west of here, that rioting Greeks had control of the town. Sheriff Hanson and a posse went from here today. A telegram from Fordyce tonight states that sheriff Hanson has suppressed the rioting Greeks and has made 18 arrests. Many of the Greeks evading arrest were driven into the adjacent woods by the posse. The Greeks were employed as laborers on the Iron Mountain railway. They demanded the dismissal of foreman House and upon the refusal of roadmaster Carrey to accede to their demands they set upon House and Carrey. Soon the fighting became general and the village was terror stricken. Prompt action by sheriff Hanson and his posse restored order but the messenger does not know whether anybody was killed or injured.

C. N. R. AGENT SENT TO JAIL.

Winnipeg, Aug. 6.—In the police court today, before magistrate McMicken, J. H. Moore, *until recently agent of the* Canadian Northern at Oakville, was convicted of theft of $403 from the company an dsentenced to two years in Stony Mountain jail.

Moore fled to Toronto where he was arrested not long afterwards by detective MacKie of that city and brought back to Winnipeg. Moore's defense in estimation of the magistrate was aggravated not a little by his heartless desertion of his wife and young child and his impentience after he was caught.

SONOMA GIRL WINS OUT

Buffalo, Aug. 6—Sonoma Girl, the unbeaten California mare, and winner of the Merchants and Manufacturers' stakes, won a sensational race in the Empire stakes of $10,000 at Kenilworth park today. She won the second heat handily; in the third she broke at the quarter and crashed into the fence, throwing her owner and driver, J. D. Springer, who escaped injury. With the sulky at her feet the mare ran away nearly a mile. The accident did not hurt Sonoma Girl, and she won the fourth and deciding heat.

Ed. Geers, the veteran driver, handling John A., got in a mixup while scoring for the third heat. The third heat. The old man was thrown from his sulky but recovered, winning the third and fourth heats.

STAY AWAY FROM IRON RANGE

St. Paul, Aug. 6—The strikers of the iron range, in a last desperate effort to bolster up their cause, have circulated among organized labor in St. Paul and Minneapolis a request for men to stay away from the iron mining district and not take the places of strikers. The circulars have been sent to every union and distributed by the thousands at labor headquarters in both cities. The circulars are printed in both Italian and English.

FERRY WHARF AND BOAT BURNED

Toronto, Aug. 6.—The Toronto Ferry company's fine new wharf and waiting rooms at the foot of Bay street and ferry boat Shamrock were totally destroyed by fire this morning. Firemen succeeded in saving other boats near the wharf.

CARS WANTED

Lumber Companies Complain to Railway Commission

COMMISSIONERS GO EAST

APPARENTLY NO STOP IS TO BE MADE IN NELSON — FALSE CREEK RIGHT OF WAY DISPUTE IS SETTLED—BIG LUMBER DEAL MADE.

(Special to The Daily News)

Vancouver, Aug. 6.—Mr. Havey of Cranbrook made application to the Railway Commission this morning on behalf of several mountain mills, alleging that the C. P .R. was not furnishing sufficient cars for the transaction of business. The Commission replied that it was up to the Crow's Nest Pass Southern to furnish sufficient cars to take the output to the intersecting point of the C. P. R., after which the latter company would be responsible. The Commission left for the east tonight after having settled in a manner satisfactory to both parties long standing questions concerning branches of V. W. & Y. railway over thecity foreshore at False creek to obtain right of way to the inlet

The North American Timber company of St. Paul has completed a five million dollar deal whereby it purchased 261 square miles of timber limits in the province. The management state that six mills will be installed to handle the output which will be running next year.

CELEBRATION AT FERNIE

EXCELLENT DAY OF SPORTS ON CIVIC HOLIDAY.

NELSON BOY, J. M. McDONALD, IS CHIEF WINNER.

(Special to The Daily News)

Fernie, Aug. 6. The civic holiday celebration held here yesterday was the most successful in the histroy of the city and the large crowd of visitors from outside points were apparently well satisfied with the various forms of amusement and recreation provided for them by the energetic committee of the local athletic association. The early hours of the morning were unpropitious and there was every indication that the days sport would be spoiled by rain but before 11 o'clock the sky had cleared and brilliant sunshine and cool breezes lasted throughout the day and enabled the committee to carry out its program in its entirety, and all the events were watched by an immense gathering. The excursion from Calgary did not materialize, but all the towns in the Pass sent large delegations and the city was crowded with visitors. The streets and buildings were prettily decorated and presented a very attractive appearance, the C. P. R. station presenting a particularly pleasing sight, having a profuse display of bunting and evergreens tastefully arranged. The program consisted of foot ball base ball, high jump, hurdle race, running broad jump, tug-of-war, 100 yard race, Oddfellows race, hub and hub race, pony races, Indian horse race, horse races, wet test and in the evening boxing contests. There were no accidents to mar the pleasure and success of the holiday and though there was a little friction in the base ball field in the evening when the referee left the grounds on account of one of his decision being questioned, otherwise everything worked smoothly. The Italian band rendered excellent music during the day and in the evening the city enjoyed a grand display of fireworks.

A Nelson boy was the chief winner in the athletic events. John M. McDonald carrying off several firsts ani altogether giving a splendid exhibition of clean sportsmanship. He won the 100 yards in 10 3-5 seconds, the high jump, clearing the bar at 5 feet 2 inches, the long jump, covering 20 feet 2 inches, and the hurdle race in 17 seconds. This fine record for the representative of the C. P. R. shops was very popular among the spectators.

The Coal Creek foot ball team won the trophy in their contest with Fernie. In the wettest between the fire brigades of Fernie and Cranbrook the latter won

The most interesting feature of the soprts was the 1-4 mile horse race, which was won in three heats by an Indian and horse from Moyie, several good horses being entered for the event.

RAILWAY STRIKE SITUATION.

Colorado & Southern Handling Fourth of Normal Business.

Denver, Colo., Aug. 6.—There was little change in the strike situation on the Colorado & Southern today, each side awaiting the result of correspondence now going on between the company's officers and the leaders of the men, who have sought to end the trouble by mediation. The railway company is handling some freight and declares that the business hardled today is about one-fourth of the normal. This is denied by the strike leaders. The railway has succeeded in getting enough coal to keep running the various industries which depend on it and there wil be no shut down of any important industry in Denver for the present.

Following are the terms of settlement said to be offered by the leaders of the men for the consideration of Messrs. Neil and Knapp, commissioner of labor and chairman of the interstate commission respectively. Vice-president Parker to put in effect at once the 2 cents differential that the men are contending for. Calling of a general conference of railway managers of the west at Salt Lake inside of 90 days. If they agree with the terms demanded by the men and are willing to put them into effect, the 2 cents granted by the Colorado & Southern is to be continued And if a reduction is made, the Colorado & Southern men are to accept the reduction.

ALBERTA'S CROPS.

Edomnton, Aug. 6.—The minister of agriculture has issued a statement with respect to crops in Alberta in which he says the winter wheat growth is remarkable and the harvesting of one of the finest crops ever seen in the province has just begun at Lethbridge and Magrath. Returns from crop correspondents show an increase of 111 1-2 per cent over 1906 in winter wheat. Owing to the late spring the sowing of the spring crops was much delayed, the favorbale weather, however, developed as heavy a growth as in former years.

HAIL STORM IN ST. PAUL.

St. Paul, Minn., Aug. 6.—St. Paul was visited by a severe hailstorm at 3:15 p. m. today. The hail fell for but a few moments, but during that time the street paving was made white with globes of ice. The stones were quite large, averaging from a quarter to a half inch in diameter. Horses were unmercifully pelted and stung and had to be held in with tight rein but there were no runaways.

CANNON BALL TRAIN DITCHED.

Dallas, Tex., Aug. 6.—The cannon ball train on the Texas & Pacific railroad eastbound went into the ditch today, four miles east of this city. The mail car jumped the track and was dragged one thousand yards before the train was topped. All the cars left the track except the diner, sleeper and engine. No one was killed.

NEW MOHAWK CHIEF.

Toronto, Aug. 6.—The Mohawks of the Tyendiwaga Indian reserve have elected Joseph Hill, Jr., head chief in succession to Acland Oronhyatekha, who succeeded his father ,the well known head of the Foresters, but he died after his election.

BUGLER DUNNE DEPORTED

WINNIPEG IMMIGRATION OFFICIALS SAY HE IS A CRIMINAL.

WAS IN JAIL AT PORTAGE LA PRAIRIE FOR THEFT.

Winnipeg, Aug. 6.—Winnipeg immigration authorities reported last night as a criminal, a boy who said he is bugler Dunne of South African war fame, who is credited with saving the day for the British at the battle of Colenso. All England and the British empire rang with the fame of the young bugler, who saved the British forces at the battle of Colenso during the Boer war. Bugler Dunne ,as he was called, was in the van of the army when he was wounded, shot in the leg. Despite that he raised himself on his arm and blew the necessary calls, telling the English had won the day, he gained the heights where the Boers had been entrenched and then fainted away. On his recovery and return to England he was feted everywhere and received by the queen, who gave him personal thanks. After that he went on the music hall stage and for some time nothing has been heard of him.

The immigration authorities have been making arrangements for some time for the deportation of a young man in jail at Portage la Prairie under the name of Walter Woodrow. He was arrested for the theft of $300 but was released on suspended sentence. On March 3rd he was again arrested and sentenced to serve a term of six months, which would expire on August 11th, next Monday. It is believed this is his name as he went under the alias of Dunne when he came to Canada on August 11th last year. On the passage over he was known as bugler Dunne and he has always claimed since then that he was the Colenso hero. Several people say that he resembles photographs of the original Dunne but other people deny this. Still the fact is that when he left Winnipeg last night in custody he stoutly maintained that he was the only and original bugler Dunne, who as bugler in the Dublin Fusiliers did much to save the British from defeat at Colenso.

MINNESOTA TOWN WERCKED

Winona Suffers Heavily From Severe Wind and Rain Storm

St. Paul, Aug. 6—A telephone message from Winona, says that a terrific wind and rain storm which broke over that city at 5 o'clock did damage which is estimated at $100,000. The city is in darkness tonight and street cars have stopped as it was deemed unsafe to turn on the current owing to the prostration of wires. Telegraphic communication is entirly cut off and only one telephone is working in the city. So far as has been ascertained no lives were lost and no one was fatally injured. Many of the principal buildings were unroofed, plate glass was broken and much other damage done. The new public baths which were presented to the city and which were to have been opened next Saturday, were entirely destroyed. A bridge on the Milwaukee road at Dakota City was blown away and traffic on that road is impeded. Across the river at Est Winona the Green Bay and Winona depot was partially destroyed and a passenger train which was standing on the tracks was blown into the ditch, passengers miraculously escaping injury. The storm lasted three quarters of an hour; during that time 10 inches of rain fell. No communication has been had with the surrounding country but it is feared that farmers suffered much damage to their crops and farm buildings.

GREAT LAKES CAPTAIN DEAD.

Soo, Aug. 6.—Captain George A. Simpson, one of the most skillful masters on the great lakes is dead at Michigan Soo from asthma. He formerly commanded vessels on the ocean for several years. He was the companies' adjustor on the lakes.

TO RESIDE IN B .C.

Winnipeg, Aug. 6.—Hon. Wiliam Hespeler, former German consul, leaves this week for a visit to his fruit farm in Okanagan valley ,B. C., his future home.

NEWSPAPER MEN ON TOUR

ENGLISH PROVINCIAL PRESS WELL REPRESENTED .

SECOND PARTY IS NOT TO VISIT NELSON.

Winnipeg, Aug. 6.—A party of eleven British newspaper men arrived this morning from the east on a tour of Canada. The party which preceded them a week or so ago consisted largely of London journalists and book writers. This party is made up of working newspaper men from the provincial press of Great Britain and Ireland, a press which can provide ,from the Canadian point of view most effective information from an immigration or trade standpoint, of Canadian conditions nad Canadian possibilities to classes which would be most desirable settlers.

The newspapers represented are the most influential of the British provincial press and the earnest, businesslike manner in which its members seek after cold, hard facts discloses the seriousness with which Canada is being taken by the people of Great Britain. The party which is in charge of W. Whyte, of the department of the interior, is made up of the following: Messrs. Barclay McConkey, Belfast Telegram; David Comb, Dundee Advertises; W. Longstaff, Newcastle Chronicle; Charles W. Starmer, Northern Echo, Darlington; J. M. Attenborough Manchester Guardian; W. Rowley, Elliston, East Anglian Daily Times; Joseph Cooke, Sheffield Daily Independent; W. Redwood, Bristol Daily Press; J. T. Dunsford, Brighton Mercury; A. H. Powell, Birmingham Evening Dispatch and A. J. Eliott, Times correspondent at Washington.

The itinerary selected for the party is as follows: Wednesday in Brandon; reach Regina at 9:30 a. m. Thursday nad will spend the day there, leaving at 4 p. m. for Moose Jaw. In Moose Jaw they will spend the remainder of the day, Thursday, August 8, leaving at daylight for Calgary. They will arrive in Calgary at 3:25 p. m. Friday and will leave for Banff the same night. They will then go through to resorts in mountanis where stops will be made at Banff, Laggan and Glacier. The 12th, 13th and 14th will be devoted to the coast cities and on the 16th the party will be again in Calgary on the way to Edmonton. On the way north stops will be made at Red Deer and Wetaskiwin and at other points as may be arranged, and on Thursday afternoon the travellers will arrive in Edmonton and Fort William on 22nd.

CYCLONES AND TORNADO

Visit United States Villages and do much Damage

Mason City, La., Aug. 6—Clear Lake, Hanlon town and Lake Mills were visited by a cyclone at 5 o'clock this evening doing much damage. Reports from Hanlon town and Lake Mills are meagre as all the wires are down. Many barns and houses were destroyed, one person was killed and several injured in Hanlon town. At Clear aLke the daughter of C. E. Rice was probably seriously injured by flying boards of the cottage which was blown to pieces. Residences at Overney and ortF Riges were destroyed. Park trees were levelled and shipping sent to the bottom of the lake. There were three distinct cyclones all coming from the northeast.

Keister, Minn., Aug. 6—Following a very heavy hail storm here this afternoon, a tornado formed two miles west of here and covered a strip of country 12 miles long and half a mile wide. At the gravel pit seven cars were wrecked and a number of workmen were injured, none however fatally. A herd of 50 cattle were lifted bodily by the storm and carried from one pasture to another. Many farm buildings were kild in runs and the damage to crops is reported very extensive.

NO OUTSIDE INTERVENTION.

Paris, Aug. 6.—Foreign minister Pichon and the Spanish ambassador here, senor Castillo, have agreed to the Franco-Spanish note informing the powers signatory to the Algeciras convention, including the United States, of the intention of France and Spain to keep within the terms of the convention. The situation after the landing of troops at Casa Balnca will largey determine the subsequent measures to be taken by France and Spain. No outside power is expected to co-operate with the two powers mentioned.

BACKS DOWN

Pacha of Casa Blanca Has Had Enough

SURRENDERS TO THE FLEET

BOMBARDMENT OF THE PORT IS SHORT LIVED—SPANISH ARE LANDING TROOPS AT VARIOUS POINTS TO PROTECT ALL THE FOREIGNERS.

Madrid, Aug. 6.—The Impartial publishes a dispatch from its Tangier correspondent saying it is reported that the pacha at Casa Blanca has surrendered the town and that guards for the protection of foreigners will be landed as soon as possible at Mogador Rabat, Saffi and Mazagan. The Spanish battleship Numancia has sailed from Ferrol for Morocco via Cadiz. In the event of more Spanish troops being needed in Morocco they probably will be supplied from the garrison at Ceuta.

Tangier, Aug. 6.—According to a semi-official account of the fighting at Casa Blanca the commander of the Galilee asked for permission to land a guard of sailors to protect the French consulate which was granted but while the guard was proceeding to the consulate it was fired upon in the strets and six blue jackets and an ensign were wounded. The French then cleared the streets at the point of the bayonet, killing many of the Moors. On arriving at the consulate the guard signalled news of the incident to the Galilee and the French ship notified the Spanish cruiser, which landed a guard for the consulate of Spain. The war ship then bombarded the Arab quarter of Casa Blanca. The Casa Banca battery fired a couple of blank shots when the Duchaya was entering the bay and the cruiser replied destroying part of the battery, the Moorish gunners retiring. The Europeans of the city were not touched . The Duchayla then shelled the beach were a number of Kabyles assembled, killing many of them. The cruiser also shelled the outskirts of Casa Blanca where groups of Moors were seen. The French ships at Casa Blanca are the Galilee, Duchayla and Forbin and the Spanish cruiser Don Alvaro de Bazean. Senor Nerazzin, the Italian minister here has demanded reparation for the murder of three Italians at Casa Blanca and the wounding of a fourth. The minister insists on the punishment of the guilty persons and the payment of an indemnity to the families of the victims. Reports from Rabat say the situation there is critical. The Berber tribesmen continue threatening to invade the city and panic stricken Europeans are fleeing the place.

Paris, Aug. 6.—A special despatch received here from Tangier says the street fighting and the bombardment of Casa Blanca, according to a refugee who arrived from there on the steamer Anatole, continued throughout Sunday and was still in progress when the steamer left there at 6 o'clock Sunday evening. The French ships fired a total of about 2,000 rounds. The number of Moorish dead will run into the hundreds. A single party of marines killed 150 Moors. The French wounded number about 12. No Frenchman was killed. The Marabout Sidi Marouf was wounded.

At 5 o'clock Sunday morning a small detachment of 50 marines in command of an ensign landed in the city. This force had hardly passed through the water gate before it received a volley fired at point blank range from a detachment of regular Moorish troops, five marines and the ensign were wounded. The ensign was shot through both hands. In spite of his injuries he ordered his men to fix bayonets and charge. This the Frencnmen did and in the fighting more than 150 Moors lost their lives.

Tangiers, Aug. 6.—The French cruiser Galilee was bombarding the Moorish quarters of Casa Blanca and the neighborhood of the city when the last steamer, which has just arrived here, left port.

The Kabyles attacked Casa Blanca and the Moorish authorities applied to the commander of the Galilee for assistance. He thereupon landed sixty men and a Spanish cruiser landed forty. This landing party was fired on by the Kabyles and seven Frenchmen, including an officer ,were wounded. The combined forces of the French and Spanish partly cleared the city of hostile tribesmen. Guards were then placed about the foreign consulates and then the Galilee opened fire with her big guns on the rebels.

London, Aug. 6.—A special dispatch received here from Tangier today describing the bombardment of Casa Blanca, says the French cruiser Du Chayla and the Spanish gunboat Don Elavario participated with the Galilee in the bombardment of the villages surrounding Casa Blanca, which were destroyed by the fire of the warships.

During the bombardment large reinforcements of tribesmen came up and many of them weer killed or wounded.

A FUEL FAMINE.

Evidences multiply that western Canada is confronted with the prospect of a serious fuel famine this coming winter. People thoroughly conversant with the situation in the Crow's Nest coal fields unhesitatingly predict that the shortage will be more marked than last year. It is frankly stated by those conversant with the facts that the blame for this unfortunate state of affairs rests largely, if not entirely with the railroad companies, which have signally failed to make adequate provision for handling the output of the collieries. This situtaion is so serious that it should form the subject of special complaint to the Railway Commission upon the occasion of that body's early visit to Nelson.

There should be no great difficulty i nthe way of securing fairly exact data on the subject so that the complaint to the Commission may be sufficiently definite to permit of prompt action.

It would also be well if some pressure could be brought to bear upon local coal dealers to lay in sufficient stocks of coal to ensure this city against the loss and inconvenience of a fuel fmaine.

A PERSONAL VICTORY.

The ruling of the Railway Commission that hereafter the Grand Trunk railway must provide a third class car daily on its run between Toronto and Montreal and grant a two cent rate, recorded in these columns some days ago, can only be regarded in the light of a personal victory achieved by that strenuous parliamentarian, W. F. McLean, the tory member for South York.

The ruling will be appealed against by the railroad company and it may be some years before the two cent rate will actually be effective, nevertheless McLean has secured the ruling and in so doing has crowned a long agitation with splendid success. He fought for this decision single handed and, in fairness it must be said, with little or no encouragement from either side of the house. His contention that the charter of the Grand Trunk compelled the company to grant a two cent rate was ridiculed on both sides of the house and brought down upon him the bitter assaults of fellow conservative members. After waging a practically unsuccessful fight in the house, he took the matter before the attorney-general of Ontario, with no better success. Finally he decided to appeal to the Railway Commission and that body has ruled in favor of his contention.

At the time of its creation The Daily News took the position that in the establishment of the Railway Commission the Laurier administration had accomplished something of very great and lasting value to the dominion. The work of the Commission in the years that have elapsed since its appointment has fully justified this contention. It has been a favorite pursuit of the conservative opposition to ridicule the Commission, but the public have reason to know that slowly, but surely it is exercising a very wise useful control over Canadian transportation companies and that the wide powers entrusted to it are being used to good advantage.

One effect of McLean's victory will be to encourage the public to agitate for a two cent rate throughout the length and breadth of the dominion, in the more thickly settled districts and if this agitation be consistently maintained there is no reason why it should not eventuate as did a similar agitation in the United States. W. F. McLean is the pioneer of a great movement looking to the relief of the Canadian people from the exactions of the railroads and well merits the gratitude of the entire dominion from Cape Breton to Comox.

EDITORIAL NOTES.

It will be a very great set back to Nelson if the 20,000 club should be compelled to go out of existence because of lack of suport. Notwithstanding very limited means the club has done excellent work in advertising the city and district. The recent exhibits at Manitoba and Alberta fairs, which have proved splendid advertisements of the resources and potentialities of the Kootenays, were organized by the club. A great deal of carefully prepared advertising matter has been circulated through the club's agency and in many other ways the club has done valuable work in keeping Nelson in the limelight. Much more could be done, but funds have always been limited. It is difficult to understand just what it is that Nelson business men expect in regard to an institution like the 20,000 club. They must know that it cannot be carried on without money and that the work it can do is limited by the extent of its financial resources. We trust that the mere announcement that the club contemplates dissolution will serve as a spur to the business men and property owners of the city to come forward with generous contributions to avert such a misfortune.

FRUIT DEALERS GRIEVANCES

Shipments Delayed in Transit with Loss and Inconvenience to all concerned

Nelson fruit dealers have experienced a great deal of annoyance this season because of delays in transportation of shipments. The followig communication received by a local fruit dealer indicates the sort of thing local dealers have to put up with:

"I wish to countermand the order for the second crate of currants and I shall take occasion to express my astonishment that a concern such as I supposed yours to be would do business as you did with me in connection with the order given you for me by my friend Mr. ——. In the first place the raspberries arrived in very bad order, so bad that the only use that could be made of them was to make them up into jam immediately. This leads me to believe that your purpose in shipping C.O.D. was that you were aware of their condition and so shipped to avoid the chance of having them refused. Then, your price was so outrageous that had I not found you tricky I should not care to do business with you further. I could have bought them here for less money than they cost me. I want you to understand that I am thoroughly dissatisfied with your methods and that I shall take the trouble to let the people of this section know the character of your dealings."

As a matter of fact the raspberries complained of were picked the afternoon of shipment and left Nelson in first class condition. The price charged was the market quotation on the day of shipment. It is quite obvious that the berries were held up in transit and arrived at their destination unfit for the purposes for which they were purchased. It is certainly up to those concerned in the expansion of the fruit industry to bend their energies towards securing more regular and rapid transportation of fruit from Nelson to surrounding points. The firm to whom this communication is addressed are the innocent sufferers from carelessness or incapacity on the part of the transportation companies, and this firm is not alone in its gounds for complaint. Several local dealers have had to suffer severely this season by reason of delays in forwarding shipments of fruit.

SYMPATHETIC STRIKE.

Helena, Mont., Aug. 6.—Twenty telephone operators went on strike here today in compliance with a request from the Montana federation of labor.

The strike was ordered as a sympathetic movement for the strikers of several other cities, Butte included, who are also without telephone service for similar reasons. The Rocky Mountain Bell Telephone company has applied for a temporary injunction restraining a boycott of the company.

FATAL BEE STING.

Toronto, Aug. 6.—William Stein, a farmer living on the second concession of Blenheim township, who was stung by a bee last Tuesday ,died in great agony from blood poisoning today.

IMPRESSIONS OF CANADA

REPRESENTATIVE OF LONDON STANDARD IS ENTHUSIASTIC.

CANADA FIRST GREAT INDEPENDENT NATION OF THE EMPIRE.

(Special to The Daily News)

Victoria, August 6.—J. A. J. Dawson, of the London Standard, one of the visiting British journalists, speaking of his impressions of Canada, said:

"Those who write and those who read the journal I have the honor to represent, the Standard of London, hold strongly to the belief that Canada is even more emphatically the country of the twentieth century than the United States was the promised land of the nineteenth century. We think there is another vital difference between those two countries. Canada we think of as the first great independent nation of the British empire. We hope to see more and more good men and women of British stock, and more and more of British capital taking part each year in the development of this most mangificent among the oversea uplands of the empire.

"We hope, and work for the end of closer and ever closer union between Canada and the rest of the empire, based, not upon patriotic sentiment and the love of our own race, but upon trading reciprocity, upon imperial preference and upon sure belief in the advantage to the whole cause of civilization which is gained by the spread and dominance of that rule and that constitution which unite us all, four haundred million strong, under the one well-loved flag which stands, the world over, for real justice. We attach great importance to the rapidly growing movement for fiscal reform, not alone upon commercial grounds, but because we are assured that preference, the principle of treating our kin a little better than the stranger, must make for the further strengthing of the greatest and most benificent union that the world has ever seen. In this, I think ,we look for the loyal patience of Canada now, and the strong, unanimous voice of Canada's approval presently, when the good time comes. It is drawing nearer day by day.

"The enormous, the boundless natural resources of the Dominion are, of course, the things which most impress every observant visitor to this magnificent land. As to what comes next in order of my impressions I would name these, the true and active partiotism of Canadians, imperial and loyal, the fine, sturdy, law-abiding good citizenship anf Canadians, the remarkable administrative ability, and the enterprise of Canadians, and finally, the truly marvellous facility with which the native Canadians are raising and absorbing into their own body social, politic and national, the steadily growing stream of immigrants abiding good citizenship of Canadians, which is now flowing into this Dominion of promise and plenty. There is in Canada the quality of sober,l aw-abiding, god-fearing patriotism and good citizenship which is going to make the Dominion the greatest of all great nations within the empire. I have studied Canadian affairs deeply for years ,and have lived and worked in most other parts of the empire. But this vist as a guest of that great empire building agency, the Canadian Pacific Railway Company, has impressed me more deeply than any words of mine will ever explain. It is my sincere hope that I may be able to convey some practical portion of this impression to readers in England."

WAR ON W. F. M.

Union Men to be Kept Out of Cripple Creek District by Mine Owners.

Colorado, Springs, Colo., Aug. 6.—Hereafter the card system will be rigidly enforced against the Western Federation of Miners in the Cripple Creek district. This was decided at a meeting of the owners' association held here yesterday. It is understood that the principal object of the meeting was to discuss the situation arising out of the release of the leaders of the Federation. A strong effort will be made, it is understood ,to prevent Federation sympathizers beig employed in the district.

FLAG NOT FLYING YET

Chicago, Aug. 6—A special to the Tribune from Port Arthur, Ont., says: The British flag is not waving over Isle Royale yet. Capt. A. C. Young, the Canadian officer who sailed from this port to raise the British flag over the island in lake Superior returned today. Capt. Young says one of his men waved the flag over the land. The United States customs officer treated the matter as a joke and offered entertainment to the visitors.

NEW SERUM DISCOVERED

Alleged to be effective in Combatting Cerebro Spinal Meningitis

Chicago, Aug. 6—A special to the Inter-Ocean from Cleveland, says: According to private advices received yesterday from New York, the wealth of John D. Rockefeller has made possible the cure of cerebro spinal meningitis. Dr. Simon Flexnor, head of the Rockefeller institute for medical research in that city, advises that he has discovered a serum, the efficacy of which has been demonstrated by experiments. A girl almost dead when the serum was applied, who no one thought could recover, is now getting well. One of the worst diseases in the human calendar has been conquered without a doubt. Physicians say the serum is the discovery of the age, it means the saving of thousands of lives. The percentage of deaths in meningitis is 99 1-2.

POPE IS WORRIED

Rome, Aug. 6—Persons who have seen the pope lately say that he is suffering from mental anxiety caused by the outburst of anti-clericalism. Like most every one else, he knows that host of the charges made by the anticlericals on which the *movement is ostensibly based, are false* whilst others are shamefully exaggerated and the church is being made to suffer for the misdeeds of a few black sheep. Two of these his holiness has publicly unfrocked. They were rectors of parish churches in Rome.

PEANUTS TO THE FRONT

Berkeley, Aug. 6—Prof Jaffa, who has been connected with the state university *for 30 years, in a bulletin for the department* of agriculture, say ten cents worth of peanuts contain six times the amount of energy contained in a porter-house steak. Conclusions were reached at Berkeley by experimenting on students and others.

EDITORS MUST BE CAREFUL

St. Petersburg, Aug. 6—Drachivsky, the prefect of police, has issued an order, *notifying all editors that they* render themselves liable to a fine of 4000 roubles ($1500) or three months in prison by publishing without permission anything about the emperor or the members of the royal family or any comments upon a trial before the rendering of the verdict.

CAPTURED A REAL LIVE PRINCE

Chicago, Aug. 6—A special to the Record-Herald from Newport, R.I., says: "Mrs. Ogden Goelet and Mrs. Cornelius Vanderbilt are to have no part in the festivities in honor of crown prince William of Sweden, who will arrive here Aug. 22 for a stay of five days with Mrs. Stuyvesant Fish. For the first time on the occasion of the visit of a distinguished nobleman here, Mrs. Fish has absorbed the situation.

SHORT LIVED FAME

Paris, Aug. 6—Marcelin Albert, leader of the recent revolt in the Midi, who was released from jail on Friday received a cold welcome upon his arrival at Montpelier. His late admirers reproached him for not returning sooner after his release, and hooted him until he entered his house where he shut himself up.

Minard's Liniment Cures Diphtheria

HAD AN AWFUL TIME.
But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my bowels. I had an awful time an dhad it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now stronger and well. I have written the above through simple gratitude and I shall speak a good word for this remedy always—Sam H. Gwin, Concord, Ga. For sale by all druggists and dealers.

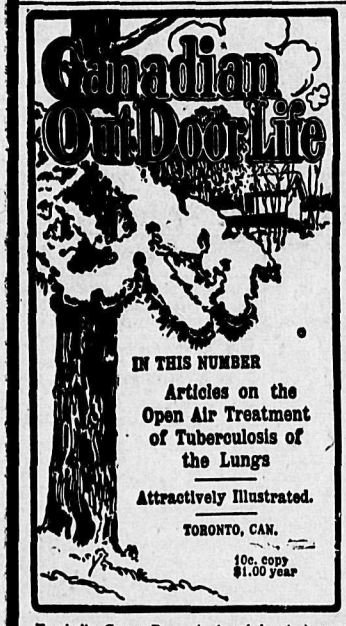
NOT A SINGLE APPLICANT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES BECAUSE OF HIS OR HER POVERTY



Facsimile Cover Page (reduced in size) new Monthly Magazine of The National Sanitarium Association. Full size of page 10x7.

FORWARD STEP

IN THE INTERESTS OF

Muskoka Free Hospital for Consumptives

The National Sanitarium Association of Canada has undertaken to publish a monthly magazine devoted to the Outdoor Treatment of Tuberculosis, and the inculcation of Hygienic Methods of Living for the people generally. The first number was issued in November, 1906.

All profits from this magazine — from subscriptions and advertising—will go to the maintenance of patients at the Muskoka Free Hospital for Consumptives.

Any one contributing one dollar a year, or more, to the funds of the Hospital will become a subscriber to CANADIAN OUT-DOOR LIFE for one year.

No Father, No Mother, No Home — Worse Than a Prisoner

GARFIELD BRACEY, BERLIN, ONT.: Enclosed please find doctor's certificate and examination papers. Hope you will *secure me a place in your Sanatorium.* You will notice that my circumstances is a hard one; no father, no mother, no home—worse than a prisoner. Nobody wants me on account of my disease. Hoping you will have the charity and consider my position, and give me a position at *once in your Sanatorium, I ever pray.*

An Orphan, without Home or Means

DR. A. E. HANNA, PERTH: I have a patient here, a young fellow in whom I am greatly interested. He has tuberculosis. He is a poor young fellow, an orphan, out of home, without any means. If we sent him up would you take him in and do the best you can for him? I know how difficult it is to accommodate all who require treatment, but this is a special case.

It is always encouraging to have a letter from friends who kindly contribute. For the convenience of those who have not time to write, the following blank may be used:

SUBSCRIPTION BLANK.

.....190....

Dear Sir,

I have pleasure in enclosing the sum of.....

.....($.....), *as a contribution to the maintenance of the MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.*

Address.....

CONTRIBUTIONS MAY BE SENT TO

HON. SIR W. R. MEREDITH, Kt., Chief Justice, Vice-President Nat. San. Association, Toronto, or W. J. GAGE, Esq., Chairman Executive Committee, Toronto.

All Subscriptions received will be acknowledged in the Toronto "Globe" and "News." Anyone subscribing one dollar or more becomes a subscriber to the Canadian Outdoor Life for one year.

"DO IT NOW"

Is a business motto of this strenuous age that applies with tremendous force when it is a good act you should do.

"A child's kiss set on thy sighing lips shall make thee glad.

"A sick man helped by thee shall make thee strong.

"Thou shalt be served thyself in every sense of service which thou renderest."

"DO IT NOW"

"I WAS SPECIALLY PLEASED WITH THE ATTENTION PAID TO CONDUCT THE INSTITUTION CAREFULLY AND ECONOMICALLY."—Dr. R. W. Bruce-Smith, Government Inspector Hospitals and Charities.

Carnefac Stock Food IS THE BEST

NELSON NEWS OF THE DAY

There will be a meeting of the board of trade tomorrow evening.

Dr. J. W. Lennox and wife of Tucson, Arizona, are here on a visit to the sister of the doctor, Mrs. W. E. Wasson.

Mrs. A. M. Tyson of Vancouver and the *Misses Lovell of Victoria are the guests of* Mrs. G. Ferguson, Carbonate street.

The Pythian Sisters will hold their regular meeting tomorrow evening at 8 o'clock. All members are requested to attend.

The loops of electric lights across the main streets of the city are being replaced by straight strings of incandescent lamps, which is an improvement.

The thermometer yesterday ranged lower than it has for some time past running as low as 49 degrees in the early morning and never rising above 66 at any time in the day.

It is stated that secretary Haywood of the W. F. of M. is about to visit Vancouver. If such should prove to be the case then he will be invited to pay a visit to Nelson.

The choir picnic of St. Saviour's church takes place today, the singers having been invited by C. W. Busk to his ranch. The boys will leave in the morning at 7 o'clock and the others at 9 from Lindsay's boathouse.

The Indian who has been detained by the police for drunkenness while the Indian agent at Fort Steele is being communicated with, was remanded yesterday for another three days pending receipt of advices from East Kootenay.

A horse was lost by E. C. Traves of the *West Kootenay Butcher company yesterday* morning at 7 o'clock. At the time the horse and wagon were at the city wharf unloading beef when the animal took fright and backed into the lake. The *weight of the cart drowned the horse.*

The following new books have been received at the public library: Stingaree, by E. W. Hornung; Summit House Mystery, L. Dougall; Wheel of Life, Ellen Glasgow; Yarn of Old Harbor Town, W. Clark Russel; Tides of Barnegat, F. H. Smith; Power Lot, F. H. Smith; Second Generation, D. G. Phillips.

Ed. Mason is working up a nice program for the promenade concert tomorrow. Besides the ordinary boxing exhibitions there is a chance of a yet more scientific encounter being pulled off between Bert Provein and Ross of Winnipeg. Both are lightweights, Bert pulling down the scales at 135. The local man is training hard and there should be a good exhibition of what is still termed "the noble art of self defense."

Theatre goers of Nelson will be pleased to hear of the return engagement of the favorites the, Juvenile Bostonians. They will be here for three nights beginning Aug. 15, with a Saturday matinee. The bookings for the season up to date are the Clifford Players, Burns' Vaudeville, Fair of Country Kids, We are King, Messenger Boy, McEwen, the Hypnotist, When Knighthood was in Flower, Canford Dodge Panama Company, Barry's Minstrels and Buster Brown.

WAS A GREAT SUCCESS

Nelson Exhibit at Winnipeg Accomplished *Much for District*

J. Hyslop came in on Monday night from Hamilton, where he had been to see some of his friends, after helping James McPhee at the Winnipeg fair with the Nelson exhibit. Mr. Hyslop helped to pick the exhibit and then left matters with W. R. Campion who was in Winnipeg at the time. Mr. Campion went with Mr. McPhee to Brandon and Regina and is today at Moose Jaw on the last day of the fair there. They may be expected back on Saturday next.

Speaking in reference to the fair at Winnipeg, Mr. Hyslop said that the Nelson people need not be ashamed of their exhibit at the capital of Manitoba. The exhibit was as attractive as any at the fair and was far more so than many others. There was no lack of flowers, two or three consignments coming in during the five days of the fair. The fruit also arrived in good order and there was not the slightest difficulty in disposing of every box that arrived. Victoria was not nearly so well provided, but Mr. Hyslop understood that after seeing what Nelson could and did put up, wires were sent humming west and the exhibits at the smaller towns for the city of Victoria are likely to have *proved more worthy of the provincial capital.* Mr. Hyslop is of the opinion that the exhibit has accomplished much for this district and there should be quite an influx of immigrants who have been converted *to Glorious Kootenay while roaming* round the big fair at Winnipeg.

SUMMER REGATTA

Alluring Program of Events Scheduled for Tomorrow by Nelson Boat Club

Supposing tomorrow to be a real, fine sunny day the summer regatta of the boat club will be pulled off, but if the day is dull the event will be postponed for a week. The program is arranged to start at 2 o'clock sharp, C. A. Lee being the starter and N. Fraser and Capt. Gore the judges. Tonight will be pulled off the heats in the single sculls of all rowers who are not engaged in the fours of the next day. All concerned are therefore requested to be down at the boat house at 6 o'clock this evening.

The main feature of the regatta will, of course be the fours. Of these there will be three races, two fours in a heat. The fours competing are stroked by Robertson, Hall, Nott and Teague and should prove to be good races. The winners are said to lie between the last two named but on the other hand it is declared that they have no cinch on the event.

Besides these events there will be other races for which prizes are provided by the committee. There will be two canoe races, both for men, single and double. For Gunnel boats there will be single *and double and mixed doubles. Besides* a cash prize is being provided for an Indian race between Indian canoes.

Swimming races also are scheduled and there will be a repetition of the tilting game which excited *so much laughter last* year. In the tub race the man with the best tub should win, and every man is obliged to provide his own tub, under the stringent rules in force.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY BETTER THAN THREE DOCTORS

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as his parents could wish for.—Mrs. B. J. Johnston, Linton, Miss. For sale by all druggists and dealers.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform *the conditions connected therewith* under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. *If the father (or mother, if the father* is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual *or company. A royalty at the rate of five* cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

GOLD MINES STILL FOUND IN PARTS OF SCOTLAND

The recent discovery of gold at Arrinnaig, on the shores of Loch Fyne, is by no means the first time that "puir auld Scotland" has announced that she carries auriferous wealth in her ancient bosom. Dr. Johnson made more or less nasty remarks about the drift of needy Scotsmen into England, but he cannot have been ignorant of the fact that in the time of Queen Elizabeth Scotland as a gold-producing country was regarded as an El Dorado by her rich and powerful neighbor, and that English money was freely spent in its exploitation.

It is unlikely that Scotland will become a rival to Klondyke or the Rand for her gold mines, or Ceylon for her pearl fisheries, but it is a fact that Scotland is producing gold at the present moment and that in several of her rivers pearl fishing is a recognized if fitful profession—perhaps sport is the better. word. And has she not much treasure lying at the bottom of Tobermory Bay?

It is on the Stronachullin estate of Mr. R .Graham Campbell, near where the famous Loch Fyne herring flash in silvery shoals ,that gold has been lately found. It has long been known that the neighborhood was rich in minerals, for some fifty years ago operations were carried on in the locality for the extraction of lead and copper, both of which were found in considerable quantities. Some time ago the old workings were examined and the presence of gold was then revealed—gold in a reef or lode of quartz which is said to stretch for miles.

Proof is already forthcoming that the gold of Stronachullin is of workable value, although in what quantity remains to be ascertained. Tons of quartz have been dug out and dispatched to Swansea, where a ready sale was effected ,and it is stated that the returns obtained are such as to eclipse those secured by some Rand mining dividend-paying companies. The question is as to the depth of the vein of quartz which has been discovered, and as to its equable quality, and experts are busy with the matter.

But the existence of gold is known in Tweedsmuir ,Peebleshire; the Lammermuir hills, Galloway, Breadalbane, Braemar, Clove, Forfarshire, Rosshire, Inverness-shire, Sutherlandshire and, above all, in the Leadhills district of Lanarkshire.

Says Dr. John Brown:—"You take the road to Learhills by the Glengonnar Burn, which, like the river Pison in the Eden of Genesis, 'compasses the land where there is gold.' Indeed this region was called in olden times 'God's Treasure-house in Scotland,' and the four pretty burns in which the precious yellow grains were found, Glengonnar, Shortcleuch, Mennock and Wanlock, were compared to the four rivers in the Garden of the Lord—Pison, Gihon, Hiddekel, and Euphrates. Here was got the gold of which king James' bonnet-pieces were made, hundreds of workmen being then employed in the search. The glittering sand is still occassionally to be found, and every now and then a miner, smit with the sacred hunger, takes to the deluding, feckless work, and seldom settles to anything else again."

Probably the "bonnet-pieces" of king James are known to the general reader principally by reason of the story of James V. He married Madeline, the eldest daughter of Francis I. of France, and brought her to Crawford Castle, Lanarkshire. When the French ambasador who accompanied the princess made light of the country because of its barren appearance, king James wagered them that it could produce richer fruit than their own country. He won his wager when at a succeeding banquet he introduced covered dishes covered with beautiful bonnet-pieces, made from the gold of the district. The incident was gracefully terminated by the king's presentation of the gold coins to his beautiful bride.

A nugget of gold weighing 2 lb. 3 ozs., or 12,960 grains, was found in the mines of Crawford in 1502. Forty years later gold was taken from them to form the Scottish Regalia, 35 ozs. being devoted to the queen's crown and 3lb. 10 ozs. to that of the king. A belt for the queen had 19 1-2 ozs. devoted to it. The cost of making the jewels amounted to the sum of fifteen pounds! A visit to the Regalia of Scotland in Edinburgh castle may therefore be taken as ocular demonstration of the production of gold in Scotland. In 1576, Bevis Bulmer, a well known Englishman associated with mining operations in the north of England, was induced to come to Crawford, where he worked the mines with great success. He had a staff of 300 men and the search, although prosecuted only in the summer months, was, for three years' washings, productive to the extent of £100,000.

Indeed, for three centuries gold has been collected in small quantities from the alluvia of the streams in the Leadhills and Wanlockhead district. About 1850 two miners got as much gold at Longcleuch as sold in Glasgow for £42. Ten years later the Leadhills miners made a search for gold in their leisure hours, and they were so successful that the average quantity obtained per day was twelve grains. Some obtained small nuggets and in a few months many hundred grains were collected. The gold was presented to the countess of Hopetoun, who had it made into ornaments, which she displayed to the miners in their cottages. Since then, on the occassion of the marriage of notables in the district, the miners have collected as much gold as make "native" wedding rings.

Tradition has it that a lump of gold as large as a horse's head lies in the Limpen, a burn on Robert Moor. Not many years ago a little girl playing with her companions on the steep face of Dod Hill exclaimed, "Er, what a bonnie stane! I'll take it hame to my feyther." She was as good as her word, and the "stane" was found to be a nugget of gold weighing 640 grains troy, or 1 oz. 6 dwt. 16 grains.

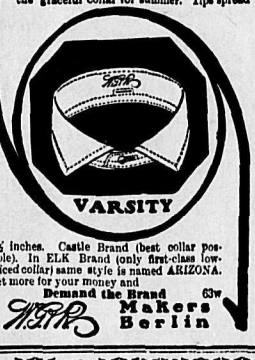
In the autumn o flast year it may be remembered, his majesty king Edward paid a visit to lord and lady Colebrooke at Glengonnar House, Abington. They motored round the neighboring district and had pointed out to him the old gold-producing localities. One of his visits was to the ruins of Crawford castle, the scene of the story of king James V. and the "bonnet pieces."

Next to Lanarkshire, "the treasure house of Scotland" (and still famous for its black diamonds, as coal is lightly called.) Sutherlandshire has made most stir with its production of gold. In the latter half of the last century Kildonan Burn, which joins the river near the town of Himsdale, sprang into fame, as did also the Suisgil, a stream about three miles distant. In 1869 the report that gold had been found in Kildonan attracted widespread attention, and many men were "smit with the sacred hunger." The gold fever spread even among men who had roughed it in Australia and California, and had expected to be far from its reach in Scotland. Masons, joiners, bankers, clerks and the most unlikely men of all classes threw up their situations and hurried to the golden region. Having kept an eye for a few days on the operations of those who had been to the "diggings," and knew how to proceed, they staked out and began working claims of their own. The metal obtained was maunfactured into rings, watch chains, brooches, etc., which were in great demand. It is not related, however, that any great fortunes were made.

The duke of Sutherland was anxious to encourage and foster the enterprise, but he was forced at the end to close down the "mines," as the heavy royalty, the claims for compensation, and the expenses of management exceeded any revenue that was derived from the rent of the claims, of which there were at one time 200 being worked by upwards of 300 diggers.

Summer Collars

Fit and wear well. We make collars that cost no more than foreign cotton collars, yet fit and wear far better. This style is the VARSITY, smart with medium-width 4-in-hand, comfortably low, yet stylishly high, is the graceful collar for summer. Tips spread



4½ inches. Castle Brand (best collar possible). In ELK Brand (only first-class low-priced collar) same style is named ARIZONA. Get more for your money and

DOMINION OF SOUTH AFRICA.

Cape Colony's Assembly Unanimously Favors Federation,

Cape Town, August 6.—The house of assembly has unanimously passed the resolution brought forward by Mr. Malan—that the government of Cape Colony should approach the other South African governments with a view to federation.

In his speech, Mr. Malan urged that federation must emanate from the whole of the people of South Africa. He paid a tribute to lord Shelborne's memorandum on the question, and said that his excellency had done the country great service. It was opportune that the oldest colony should take the initative in regard to federation, which would tend to wipe out old prejudices and strengthen the national ideal.

Dr. Jameson, the premier, seconded the motion. He welcomed it, he said, and the spirit in which it was moved. He also paid a tribute to lord Shelborne's memorandum, adding that South Africa had never had a high commissioner who more scrupulously refrained from interfering with the colonies. The racial difficulty, the premier continued, must be overcome before they could proceed to the practical difficulties of federation. The only way was to take up the attitude adopted by Mr. Malan. He rejoiced that the two white races were becoming more tolerant regarding the language question. He was prepared to admit that the country was bilingual, and that, therefore, they must foster the second language. In conclusion, Dr. Jameson said that the practical details of federation must be debated on a policy of give-and-take, and he agreed with Mr. Malan that their motto should be "Festina lente."

The Inter-colonial Conference on Customs and Railways will meet before next March, if possible. It is expected that directly the discussion on railways and customs is completed the conference will proceed to consider preliminaries with a view to federation, thus paving the way for a national convention of delegates elected directly by the people.

THE PEND D'OREILLE VALLEY.

Waneta, August 6.—The farmers here, as elsewhere in the Kootenays ,have had a favorable season. The hay harvest is now over and record crops have been put up. Cherries, strawberries and currants have yielded well and it is noticed that peach trees are bearing well this year.

C. L. Pearson has sold his ranch to Mr. Cierry of Trail, who takes up his residence here shortly. Several preemptions were taken up this spring, but since then intending locators have had to leave disappointed as there is no more land available.

Mr. Rogers, of the church of England, has been a welcome visitor here this summer and has held services at several points in the valley.

With the intention of utilizing the Pend d'Orille river for electric purposes certain parties have lately staked 15,000 inches of water near the narrows of the river at Waneta.

SWEET GIRL GRADUATES

Shanghai, Aug. 6—Saveral Chinese women students have sailed for the United States on board the steamer Minnesota. They are graduates of schools in China and are going to America to enter Vassar college.

REMEDY FOR DIARRHOEA NEVER KNOWN TO FAIL

I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world." —S. Pemison, Spring Grove, York Co., Pa. This remedy is for sale by all druggists and dealers.

All the strength giving properties are Preserved in

Canned Meats

An Absolute Cure for

Rheumatism

If the skin or bowels are unhealthy, they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to the nerves—and causes Rheumatism.

Fruit-a-tives surely cure Rheumatism and Sciatica

because they act directly on bowels, kidneys and skin—and so strengthen and invigorate these organs that there is no urea and uric acid retained in the system to irritate the nerves and bring Rheumatism, Sciatica and Neuralgia.

"Fruit-a-tives" are intensified fruit juices with tonics and intestinal antiseptics added.

50c. box—6 for $2.50.

Fruit-a-tives

SULLIVAN'S OUTPUT

One Hundred Tons Daily go to the Company's Smelter

Spokane, Aug. 6—"One hundred tons of ore are being shipped daily from the mine of the Sullivan company to the smelter at Marysville, five miles away," said M. Oppenheimer, treasurer of the company, whoe returned from a trip of inspection to the property last week.

"The mine s kept unning day and night, 50 men being employed in the tunnels. About 100 men are working at the smelter. We expect to increase the working forces as the ore shipments increase. Recent assays of the ore show it to be of fairly good quality, carrying about 25 per cent lead, 10 percent zinc and 10 ounces silver. All the metals in the ore are being saved.

"D. & A." Corsets

Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of D. & A. Corsets. You can buy a "D. & A." at various intermediate prices ranging from $1.00 to $6.00. Are Fashionable Models.

JUDGE'S SON SUICIDES

Was Despondent Over Threatened Attack of Rheumatism

Montreal, Aug. 6—Harry A. L. Finkle, son of judge Finkle of Woodstock, Ont., committed suicide in this city yesterday by cutting his throat with a razor. He had for some time suffered from rheumatism and had been compelled to give up his position as buyer in the Canadian Rubber company here last January, and go into a hospital for treatment. It is believed the motive for his act was despair over symptoms of a recurrence of his illness. Deceased was only 30 years of age.

RUMOR OF ROYAL MATCH

London, Aug. 6—The marquis of Anglesey recently entertained the duke of Connaught and his family at dinner. This has led to a report that the royal family has at last consented to recognize the young marquis as a suitor for the hand of princess Patricia. The marquis who attained his majority a little more than a year ago has recently resigned his lieutenant's commission in the Blues, of which his ancestor the marquis, was colonel.

CAR SUPPLY ALL RIGHT.

Lethbridge, Alta., Aug. 6.—The output of the Alberta Railway & Irrigation company's mines at Lethbridge is 700 tons per day and is being taken as fast as mined by dealers in the prairie provinces. Naismith, general manager, says the car supply is all right. The mine is working every day to supply the demand and the output will be increased as more men can be had, the scarcity of labor being the only hinderance to a possible output of 1,200 tons a day.

WANTS RACE WITH LONGBOAT.

Toronto, Aug. 6.—George Bonhag is out to beat Tom Longboat, the noted redskin runner. Efforts are being made to bring the pair together in a three mile race at Hamilton, Ontaio, August 31. Bonhag is considered the best man at that distance in America, and a match with the Indian would doubtless prove one of the prettiest races seen in recent years.

Admission, promenade, 25c.; Reserved Seats 25c. Doors open at 7:30

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY, B.C.

TAKE NOTICE that Fred A. Kribs of Portland, Ore., occupation timber merchant intends to apply for a special timber license over the following described lands:

Commencing at a post planted about 20 rods west and 350 paces north of the confluence of the South Fork of the Salmon river and Wilson creek, about 14 miles south of Salmo, B.C., thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement, and containing 640 acres more or less. Said point of commencement can be reached from said confluence of the South Fork of the Salmon river and Wilson creek by going west up a gulch about 80 rods to a point where a trail running in a northerly direction has been blazed or about 350 paces.

FRED A. KRIBS,
PHIL. BOSBY, Agent.

Dated July 8, 1907.

WE SELL THE SAME GOODS FOR LESS MONEY

Store opens daily at 8 a.m. | **MEAGHER'S** | Store closes at 6 p.m.

ONE PRICE FOR EVERYBODY AND THAT THE LOWEST

Clearing Sale in the Suit Section

$15.00 to $30.00 Suits for $5.00

Apart from the fact that we never carry anything over that we can possibly dispose of, no matter what the price, we have another very strong reason for this sale and that is that we need every inch of room in the ready-to-wear section for the immense stock of new fall goods already in transit. Come early tomorrow morning prepared to see the best values in ready-made suits you'll see this season.

Twenty only ladies' suits; colors, brown, grey, green and navy; sizes 32 to 38 good quality cheviots and serges; regular prices $18 to $30 each; your choice today $5 each.

An Extraordinary Bargain in Misses Tweed Skirts

For the same reason that we are sacrificing suits we are giving these skirt values today; 15 only Misses skirts in the lot; some were $5.50, some $6, but the majority were $6.50 each, made of good wearing tweed in light or dark colors; your choice at $3.50 each.

NELSON LAND DISTRICT, DISTRICT OF KOOTENAY.

TAKE NOTICE that C. J. Coleman, of Clark's Forks, Idaho, occupation, telegraph operator, intends to apply for a special timber license over the following described lands:

Commencing at a post planted on the South Fork of the Salmon river on the west side of the stream, about seven miles from its mouth and about one mile and three-quarters from the river in a southwesterly direction and southwest (magnetic) of Stag Leaf mountain; "C. J. Coleman's N.E. corner post," thence south 40 chains; thence west 40 chains; thence south 80 chains; thence west 40 chains; thence north 120 chains; thence east 80 chains to point of commencement. The location joins the location of E. J. Keogh immediately on the south.

C. J. COLEMAN.

NELSON NEWS OF THE DAY

W. Cutler will be in charge of the refreshment brigade at the promenade concert tomorrow night.

There is some prospect at list of an hotel being built at Castlegar for the benefit of passengers and for the accommodation of local fishermen.

Nelson lodge No. 59, I.O.G.T. will meet this evening in the K.P. hall for the installation of officers for the ensuing quarter. All members are requested to attend.

Despite a search which has lasted constantly over the past 48 hours no trace of the body of David Noble of the Trail smelter has as yet been discovered in the Kootenay river.

A special meeting of the Nelson cricket club, to be held at the secretary's house, is called for 8 o'clock Friday night, the purpose being to consider the team to be sent to the coast on Thursday week. All members are invited to attend.

A flagrant case of killing grouse out of season was stumbled upon a couple of days ago in the case of some passengers, supposed to be new comers to the country, on a boat down the lake. Two sacks were left on board and were opened to discover their contents and were found to contain ten brace of grouse. Information was given to the police but unfortunately too late to procure an arrest.

The J. H. Ashdown Hardware Co., Ltd.
NELSON BRANCH

There will be a meeting of the executive of the board of trade this afternoon at 5 o'clock in the board of trade rooms for the purpose of considering the various suggestions already advanced for the entertainment of the British journalists arriving here next Saturday night.

All those who are in favor of the winter entertainment series proposed by the 20,000 club, will oblige by signifying their assent to the secretary. So far there have been some 70 tickets engaged. Each ticket admits to the whole of the series of six, admission to which will otherwise be $1 each, in addition the possession of a season ticket entitles the holder to a choice of seats.

The team to play Castlegar tomorrow will leave town by the 8 o'clock train, returning in the evening. They will be selected from among the following: Bourke, Kerr, Wade, Hall, Coppen, Tregillus, Rolt, Allan, Graham, Forin, Cheyne, Mawdsley, Teague and Ferguson. All those able to go will please notify the captain at once if notification has not already been made.

Installation of officers of Queen City Rebekah lodge No. 16, I.O.O.F. took place at the regular meeting last evening. The installation ceremonies were conducted by D.D.G.M., Mrs. J. F. Kirby; G.M., Miss Frances Bacom; G.W., Mrs. S. Ward; G.R.S., Mrs. Jas. Bulger; G.F.S., Mrs. Ball; G.T., Miss Grace Irving. The following officers were duly installed: P.N.G., Mrs. Jas. Bulger; N.G., Mrs. F. J. Squires; V.G., Miss Gussie Longford; F.S., Mrs. Watts; treasurer, Miss Jean Cameron. At the close of the lodge P.N.G. Mrs. James Bulger was presented with a very handsome gold past master's jewel by the members of the lodge.

W. E. Davison left for Vancouver last night where he will take up his permanent residence. Since the organization of the Firemen's Relief association Mr. Davison was the honorary secretary and as mark of appreciation, the firemen held a meeting last evening at which the following address was read and a souvenir presented to the retiring officer: Dear Sir—We, the officers and members of the Nelson fire department, in wishing you good-bye, feel that we are losing from our ranks one of the oldest and truest friends. With the people of Nelson generally, we regret that you considered it advisable to accept another position, which necessitates your absence from our midst; but we trust you will not forget "the willing hearts and hands" in the Nelson fire department. Hearts that hold the warmest affection towards you and hands ready to greet you should Nelson again become your home. We trust you will accept this souvenir of our regard, something to remind you of the old days and associates.

20,000 CLUB

Without More Suppodt the Club Must go out of Business

There was a very well attended meeting of the executive of the 20,000 club yesterday evening at their office, there being present T. G. Procter in the chair, P. G. Ebbutt, secretary, D. C. McMorris, J. E. Annable, chief Deasy, E. W. Widdowson, W. H. Jones, E. K. Beeston, A. W. Dyer and R. G. Joy.

The principal business discussed was the state of the finances and it was considered that if the merchants would not support the club that the institution would have to close up. It was therefore decided that a thorough canvass be made of the city within the next few days.

After the reading of the minutes the entertainment committee reported fair progress on the series of winter's entertainments, a loss on the last moonlight excursion and a fair prospect of success in the promenade concert of tomorrow night. It was decided that the entertainment committee do nothing for 14 days with regard to the winter shows, while the finance committee endeavors to meet the deficit of the club—$614.

It was further decided that lists be prepared of the citizens of Nelson so that a thorough canvass be made of the city to meet the deficit.

Jewelry

It is a specialty with us. We manufacture our local gold in many very beautiful designs. We will mount any old gems into appropriate settings and thereby exchange a useless jewel into a beautiful ornament. Our stock of fine brooches is very large and noted for its originality.
