VOL. 6 NELSON, B. C., SATURDAY, AUGUST 31, 1907. NO. 113

AFRICAN TOUR

Winston Churchill's Visit to Protectorates

GOES FIRST TO MOMBASSA

THENCE TO HEADQUARTERS OF UGANDA RAILWAY AT NAIROBI —WILL BE AWAY FOUR MONTHS AND WILL RETURN BY WAY OF THE NILE.

London, Aug. 30.—Winston Churchill, the under secretary of the colonies, has arranged his tour of Britain's protectorates in Africa. He will leave England September 25 and go direct to Mombassa. Thence he will travel to Nairobi ,the headquarters of the Uganda railway, and subsequently to the terminus of the line at lake Victoria. On the way he will visit the Kenia district, which, in view of its vast and hitherto untapped resources of timber, is before long to be linked with the Uganda railway. The tour will take about four months, and Mr. Churchil will return by way of the Nile and Khartoum in time for the meeting of parliament next year.

ROLLER MILLS BURNED.

Wapella, Sask., Aug. 30.—The Wapella roller mills, belonging to R. J. Lund, were destroyed by fire today. The fire started in a basement where Lund was attending to some duties. Dust escape from the dust collector and coming in contact with the lantern which he was carrying caused it to explode. Lund was badly bruised and scorched. Townsmen and others worked hard and saved about 1,500 bags of flour from the warehouse. Loss, $22,000, partly insured.

SCHOLARSHIP FOR BURNS' BOY.

London, Aug. 30.—The twelve-year-old son, the only child of John Burns, the labor member of the British cabinet, has just won a scholarship in an open competition from the National school at Battersea, which secures to him five years' education free at the first-rate secondary school at Wandsworth, connected with the famous Westminster school. He is an exceptionally intelligent, hard working boy and his father's pride.

SMUGGLED INTO CANADA.

Sydney, N. S., Aug. 30.—Seventeen Chinamen who had been smuggled into Canada were captured today by customs officers. It is believed they were brought in by the schooner Chloris of Glace bay and came via Newfoundland. Three other Chinamen have not yet been located. The tip was given to officers by Captain Gordon of the government cruiser Gladiator.

C. P. R. DOUBLE TRACKING

GOOD PROGRESS ON WORK BETWEEN WINNIPEG AND FORT WILLIAM

WILL MATERIALLY FACILITATE THE MOVEMENT OF WHEAT CROP

Winnipeg, Aug. 30—G. J. Bury, general manager of the western lines of the Canadian Pacific railway, left last night for the east and will go as far as Fort William for the purpose of inspecting the double track laying along the route between here and the lake cities. The work of construction is being carried on both east and west from the terminal points between here and the lakes. By the close of the season it is expected that 250 miles of the double track will be laid and ready for service when the work of moving the wheat crop eastward will be much facilitated. With the additional equipment, which is being called into service the company will be capable of handling the traffic with greater ease than during any previous season.

The distance between Winnipeg and Fort William by the C.P.R. is 428 miles and with the work already completed and that to be done this fall, more than half of the distance will be thoroughly covered. From Fort William west about four miles will have been finished. Eastward from Winnipeg tracklaying has covered a distance of between 50 and 60 miles while the remainder of the work has been done both eastward and westward from the terminal points of Kenora and Ignace. Several hundred men are at work along the line and if possible the forces will be augmented so that as much of the work as possible may be completed this season.

BEEF COMMISSION

Proposal to Extend Investigation to Other Markets

Edmonton, Aug. 30—Alexander Middleton of Coal Rise, member of the beef commission for Alberta, is in the city. Mr. Middleton ha a conference with premier Rutherford and the acting minister of agriculture, with respect to the proposal to continue the investigations of the commission in Montreal and the old country markets. It is also possible that a comparison of the shipping methods and facilities of the United States markets, notably Chicago, will be discussed in the program of the commision. Mr. Middleton state that it would be a month before the evidence taken in Manitoba would be transcribed from the stenographers' report, after which it would take three weeks to a month to complete the commissioners' report for publication.

FLUMERFELT PRIZES AWARDED.

The results of the competitions for which prizes were given by A. C. Flumerfelt are announced by Col. F. B. Gregory, secretary of the adjudging committee. The committee's report is as follows:

The various essays submitted in the competition offered by Mr. A. C. Flumerfelt of Victoria, have been carefully considered by the committee, and the following have been awarded the prizes:

On Timber—George Elly, P. O. box 864, Vancouver, B. C.

On Mining—Mrs. Rosalind Watson Young, M.A., A.M.I.M.E., Victoria.

On Fisheries—Joseph Clearihue, Cadboro Bay road ,Victoria.

On Labor—L. W. Mackoviski, 1195 Haro street, Vancouver.

There was one paper submitted on agriculture, but in the opinion of the judges as there was no competition and it was a por effort, same should not be considered. There were no essays received on the other two subjects, viz: Finance and Manufacturing, which is a source of great regret to the promoter of this competition.

WHY DANCING IS POPULAR

Reports Received from Dancing Masters of World.

Paris, Aug. 30—The Paris association of dancing masters sent thousands of circulars to dancing masters throughout the world, asking if in their opinion dancing is not the best way to promote mariage. about 3000 answers have been received representing the opinion of a million pupils, some of whom are still single, others married, and most of the rest engaged to marry. The statistics collected seem to show that dancing has caused 97 per cent of the marriages in Germany; 85 in Switzerland; 83 in France; 80 in America; 80 in Greece, Italy, Belgium and Austria; 65 in England, Holland and Bulgaria; 60 in Russia; 55 in Hungaria; 53 in Denmark and 51 in Sweden and Norway.

FEARS GENERAL MUTINY.

Odessa, Aug. 30.—An urgent inspection of the entire Russian navy and the fortresses of Russia, it is stated on reliable authority, has just been entrusted to a commission of naval and military experts headed by general Koladovski, who was hurriedly re-called from his vacation.

The opinion is expressed that the revolutionists have been so successful in carrying on their propaganda among the sailors and soldiers that the authorities fear a general mutiny in the navy and army.

S. A. IMMIGRANTS

Ottawa, Aug. 30—Brigadier Howell, in charge of the Salvation army's immigration work in Canada ,is authority for the statement that the Army in London already has the names of 5000 persons desirous of removing to Canada next year from Great Britain. Fifteen thousand in all have been brought out this season and unless arrangements miscarry the army expects next year to furnish us with from twenty to twenty-five thousand more selected persons. Employment is found for every Salvation army immigrant before her arrives in this country.

MINE MANAGER'S DEATH.

Edmonton, Alta., Aug. 30.—Lemuel Martin, bookkeeper and general manager of the White Star Coal mine, was found dead in the Dominion hotel at Strathcona this morning. Mr. Martin came to town the evening before and was apparently in his usual health. This morning the porter went to his room but received no response to his calls, and opening the door, Martin was found lying in bed dead. The deceased has been subject to heart trouble for some time.

ARCHBISHOP WILLIAMS DYING

Boston, Aug. 30—The venerable archbishop John G. Williams of the Roman Catholic arch-diocese of Boston, who returned from Rochester last week, where he was taken suddenly ill, was in such a serious condition today that the last sacrament was administered to him, and late this afternoon he was failing rapidly. His illness is due to stomach trouble. Archbishop Williams is 85 years of age and has been some time in this city.

GRISWOLD FIRE SWEPT.

Griswold, Man., Aug. 30.—The worst fire in the history of this town started about 11 o'clock last night in Morris & McCaw's real estate office and was not controlled until it had consumed several stores and offices. The loss will be fro m$25,000 to $30,000. The cause of the fire is unknown.

HARVESTERS POURING IN

Winnipeg, Aug. 30—Almost 4000 harvesters from Toronto and points west of there arrived here on special trains today, the first running into the C.P.R. depot at 3 o'clock this morning. It took three days and two nights to make the trip and the train was composed of about 25 coaches.

PROTECTION OF UMPIRES

Topeka, Aug. 30—Eddie Goes, catcher of the Oklahoma City baseball team, was given 30 days in jail by judge Simmons of the city court for assaulting umpire Guthrie on the Topeka grounds on Aug. 1. The assault was unprovoked.

TO ESTABLISH GLASS FACTORY.

Edmonton, Alta., Aug. 30.—A large plant for the manufacture of glass, tiles and pipes will be established at Morinville, twenty-four miles north of Edmonton, by a San Francisco syndicate.

QUEBEC'S TERRIBLE BRIDGE CATASTROPHE

Loss of Life Now Estimated at Between 75 and 85—Actual Cause of Disaster Still in Doubt—Government Investigation to be Held Immediately—Commission for that Purpose Already Appointed.

Quebec, Aug. 30.—According to a statement given out today by the officials of the Quebec Bridge company, the number of dead, as a result of the collapse of the Quebec bridge last evening is at least 78. They say that 14 bodies have been recovered, 9 men rescued alive and 14 are still unaccounted for.

Daybreak revealed the fact that the collapse of the bridge was not caused by any fault on the masonry work, as was supposed last night. The piers and buttresses stand firm and sound in the midst of a mass of iron and steel.

Jesse Lees who worked on one of the big electric cranes said today that a week ago the steel at the base of the arch outside the foremost pier had buckled slightly but no one had considered this a serious menace, since the outer end of the big half arch reached 180 feet in the air and seemed perfectly rigid. Although the immediate cause of the smash is supposed to have been the running of a heavily loaded train out to the end, it is evident that this merely hastened the disaster, since every hour the weight at the outer end of the structure was being increased as the huge girders were riveted into place.

Ottawa, Aug. 30.—A government inquiry will at once be instituted into the cause of last night's great catastrophe at Quebec. For fully fifty years the project of connecting the north and south shores of the St. Lawrence at or near Quebec city by means of a bridge had been under consideration. It was not until six years ago that the construction of the bridge was begun, by a company, of which Hon. S. N. Parent was the president. The sub-structure of the bridge was given out by contract to M. P. Davis of Ottawa. Mr. Davis finished his work in 1902 and it was remarked at the time his work was accepted, that it was the finest piece of masonry on the American continent. The contract for the superstructure was then given to the Phoenix Bridge company of Phoenixville, Pennsylvania, the contract price being approximately $2,000,000. The total length of the bridge between abutments is 1,300 feet. The main cantilevers span 1,800 feet in length, is 90 feet longer than its closest rival, the great Forth bridge in Scotland, the Williamsburg suspension bridge in New York city is 1,600 feet in length. Some idea of the immensity of the structure may be gained from the fact that the superstructure required for its construction 80,000,000 pounds of steel. The engineer of the Phoenix company, upon which concern the loss will probably fall, is John Sterling Deans, while the engineer of the Quebec Bridge company is E. Hoare.

The Canadian government agreed by act of parliament to guarantee the bonds of the Quebec Bridge company, $6,678,000 at three per cent. The only similar accident on record in Canada was the collapse of the New York Central bridge over the St. Lawrence river at Cornwall about 10 years ago.

The governm net will not be at any loss over the collapse of the bridge. The contract was placed with the Quebec Bridge company and their own work with the cantilever, which fell, was being constructed by the Phoenix Bridge company.

Quebec, Aug. 30.—Up to noon it was impossible to secure a list of the dead as all was still confusion at the scene of the awful bridge disaster, although a large number of men were at work early this morning recovering bodies of the victims that were caught in the wreck. Many of them were mutilated in a shocking manner, several decapitated bodies being seen, while others were armless or legless. Of thirty-five Caughnawaga Indians who were employed at the bridge all were killed but seven, two of them who went down when the bridge fell were rescued.

As already announced, Mr. Burke, the chief engineer in charge is among the dead. At least twelve victims were residentse of New Liverpool, Stromauld, St. Nicholas, while one, a painter named La France, hailed from Quebec, and the balance with the exception of Caughnawaga Indians were expert bridge workers from the United States. The shock was so severe as to be heard for several miles and resembled a severe earthquake. It is not yet known what caused the accident. The stone abutments stood the strain of the falling iron work and are apparently uninjured. so it must be to some other cause that the accident will have to be attributed. It was at first thought that the abutments had given away on account of the heavy strain but such is not the case because they stand as firm as ever, surrounded by the mass of iron from the high towers, while out on the beach and in the river lies the immense superstructure, bent and twisted into innumerable shapes. There is a small portion of the iron work at the approach of the bridge still standing.

The company has given out the list of dead as sixty-three, which can be taken as official.

The escape of some of the men in the Quebec bridge disaster was little short of miraculous. Mr. Thomas Sewell was on the huge traveller which towered more than 200 feet over the floor of the bridge. From this height, he fell, as well as the 150 feet from the floor of the bridge into the river below. Being so high and the steel being so much heavier than himself, the latter struck the water first. Sewell, who is an expert swimmer, went down quite a distance and swallowed a good deal of water but managed to get ashore some distance below the bridge site. He says that the bridge swayed a moment and then collapsed at once.

Some of those who viewed the disaster from the shore first noticed the lofty towers settling, but this was perhaps because of their greater prominence. In a second ,the entire mass went settling down with a rush and rattling clash rather than a roar, the noise of which was heard at Sillery and New Lievrpool. Boats immediately put out to the assistance of the drowning men. Sewell says as he same to the surface, portions of human remains rose at the same time, to go down again, while the bodies of others were seen for a moment bleeding from mouth and ears. Jessa, the engineer driver whose locomotive and train, with his fireman Davis, went down into the St. Lawrence, managed to free himself from his cab and was thus saved. He felt a shock as the bridge moved, shut off steam, but the train continued to run until it went down with the bridge. There was naturally a terrible upheaval of water when it was struck by the falling bridge.

Hon. S. N. Parent, president of the Quebec Bridge company, in explaining a likely cause for the disaster, said today that through rushing the work, the rivetting may not have followed up the extension of steel as fast as it should and that the drop was due to the weight of the load of steel which was being taken out on it. The day before it was reported to Mr. Parent that one of the large steel cables on the bridge had twisted which seemed to show the presence of some undue strain, but little importance was attached to this occurence. Another engineering authority in Ottawa, who has a knowledge of the bridge itself and who has received some messages on the subject, is of the opinion that the disaster occurred through the newer stretch of the cantilever being subjected to an undue strain before it had been rivieted up. The same gentleman does not think there is any question about the solidity of the pier at the beginning of the cantilever span or the anchor span would have gone as well. Indeed there seems no doubt at all in the official mind that the accident was occasioned by the way in which the bridge was being put together rather than any structural weakness. A message from captain Kennedy of Quebec makes it quite clear that there is no interference with the ship channel, the steel having dropped into about forty feet of water and at a point much nearer the south shore than the vessels need to go.

The steamer Clermont had just passed the bridge when it collapsed. For about ten minutes it was impossible to see anything in the direction of the bridge owing to the clouds of spray from the fallen structure. When captain Muir saw what had occurred, he ordered the steamer to put about and went over as near as possible to the bridge piers. Boats were lowered and although they cruised about for some time they did not pick anybody up.

Today bridge employees were busy looking for bodies among the piles of iron which fell on the shore. The scene on the beach was pathetic. Women were sitting on logs weeping, and as a body was brought ashore there was a wild rush to see if it was that of a loved husband, brother or relative. The bodies were carried to one of the company's buildings at the beach. The men in charge of the building said sixteen bodies had been recovered up to 9 o'clock. The number of victims as stated at the office of the Phoenix Bridge company today is as follows: Eighteen Canadians, 24 Indians and 17 Americans, but the officials would not venture to give out any names at present. They also state that five Canadians, four Indians and three Americans were injured. Among those who had a miraculous escape was J. J. Nance or Ness, of Harrisburg, Pa., who was in charge of an electric engine at the end of the bridge. Nance went down with his engine into the river, but floated out and was picked up about 300 feet further down the river. Today he complained of only a slight pain in the back. The bodies will be brought here by a team this evening and an inquest will be held, probably on Monday.

The two piers appear to be still solid and it is evident that the accident did not occur through the giving way of the masonry as at first reported, but seems to have been caused by the weight of iron, about 800 feet of the bridge giving away.

Philadelphia, Aug. 30.—The officers of the bridge company in this city and the superintendent at the plant at Phoenixville, Pa., are unable to furnish a list of the men who were employed on the bridge. A complete list, they say can only be had at the bridge site.

Those who are known to have been there are: A. N. Birks, resident engineer, Peoria, Ills., and Phoenixville, a graduate of the Boston technical school; E. A. Yenser, general foreman of Leighton, Pa.; W. L. Worley, assistant foreman of Mauchunk, Pa.; D. A. Detterhoff ,chief inspector; Thomas Norton, bridgeman of Phoenixville.

Of these, Norton is known to be alive, as his family today received a telegram from him notifying them of his safety. So far as known here, the others mentioned are missing.

It was explained at the company's plant today that the men employed on the bridge were assembled from all parts of the country and that not more than a dozen came from Phoenixville. Information received by the company today from the scene of the accident says that sixty-one are missing ,fourteen bodies had been recovered and that twelve men are in the hospital.

Chief engineer John S. Dean, general superintendent William Reeves, and P. L. Sclapta ,chief designer, who is said to have designed the bridge, left Phoenixville early today for the scene of the accident to make an investigation for the company. They declined to talk of the catastrophe. While the bridge was expected to cost a total of about $10,000,00,0 the company's contract for the iron work amounted to about $5,000,000. The company has been at work on the contract for about six years and nearly all the iron and steel had been manufactured and delivered. The officers of the company are making every effort to get further information from the bridge site.

Quebec, Aug. 30.—Up to late tonight it was impossible to secure a complete list of the dead ,as all was still confusion at the scene of the awful bridge disaster, although a large number of men were at work from an early hour this morning recovering bodies of the victims that were caught in the wreck, many of them mutilated in a shocking manner, several decapitated bodies being seen, which are also armless or legless.

Of 35 Indians who were employed at the bridge, all were killed but two, who went down when the bridge fell. They were rescued. As already announced Mr. Bruce, the chief engineer in charge, is among the dead.

The abutments are intact, standing the strain of the falling iron work. Divers went down today to explore the river bottom for bodies carried down by the collapse of the bridge last night.

An investigation as to the possible origin of the disaster began today. Of the American workmen on the bridge only ten are known to have escaped.

Several officers of the Phoenix Bridge company, which was constructing the bridge, lost their lives. Among these were B. A. Yanzell, general foreman and Mr. Bruce, the chief engineer, who had walked out on the bridge before it collapsed, and two foremen named John Worley and Jim Idaho. A very close escape was made by Ulric Barthe, secretary of the Quebec Bridge company and a party of friends from Montreal. Mr. Barthe, who was one of the first to start the idea of building the bridge, had driven out to show the works to a party of friends yesterday afternoon. They had scarcely driven off the structure and reached the road before the crash came, and before they could return to the edge of the river the whole structure was lying in ruins. A few moments later and they would have been killed with the rest.

Scenes about the great bridge disaster today are heartrending and distressing to the last degree. The recovery of bodies from the tangled mass of steel structure that collapsed and carried nearly a hundred workmen to a horrible death continued today.

Relatives and friends of the victims of this dreadful happening thronged about the place of the accident and besieged every possible source of information with piteous enquiries of news of those of who were so suddenly and horribly hurled to death.

The tangle of steel is absolutely inextricable and nothing but the use of heavy machinery manned by skilled help will serve to remove the huge mass of debris piled up. Meanwhile only a small number of bodies have been recovered but every possible effort is being made to hasten the recovery.

ELECTIONS IN ONTARIO.

Toronto, Aug. 30.—An election in Ontario is forecasted by the announcement that premier Whitney and several ministers will tour the province this fall. This is his first appearance on the stump since taking office. The election will likely take place next June. The voters' lists are already being prepared.

VANCOUVER NOTES.

Vancouver, Aug. 30.—R. Casper, a logger, working at one of McNair's Howe sound camps, lost his life yesterday afternoon. The boat he was in was run down by a scow in tow of the tug Vigilant.

Lord Vivian, his brother Hon. W. W. Vivian, London, England, and Mr. W. T. Kirby of Winnipeg, after a few days' trip to Cowichan, returned to this city last night. They left town this morning for Ashcroft en route for the Cariboo country, where they will enjoy a month's hunting for big game. Lord Vivian is anxious to secure a grizzly.

Mr. J. W. Greenway, commissioner of dominion lands has reached here on his annual tour of inspection of land and timber offices of the interior department which are located at Kamloops and New Westminster. "This year has witnessed an increased demand for leases of timber lands in the railway belt of British Columbia," said Mr. Greenway.

SERIOUS LOSS OF LIFE.

Eighteen Killed and 60 Injured in a Collision at Mattoon.

Charleston, Ill., Aug. 30.—Eight persons were killed and thirty were seriously injured today in a collision between a passenger train and an express car on the Mattoon & Charleston electric line. The estimates of the number dead differ as details are hard to obtain. The passenger car was heavily loaded with people going to the county fair at this place. Crews on both cars say they had orders to go ahead, and the two cars crashed into each other one mile from here. The road is operated by a telephone signal system. The injured were taken to a hospital at Mattoon and are being cared for there.

Indianapolis, Ind., Aug. 30.—A report has just reached here from Mattoon, Ills., that twenty people are dead and many more injured in the wreck of an interurban traction car.

Mattoon, Ill., Aug. 30—Eighteen dead and 60 injured have been taken from the wreck of an electric train on the Mattoon and Charleston electric railway which occurred on a sharp curve today. Of the dead, 11 have been identified. The bodies are at an undertaking establishment and the injured are in the hospital here. The train consisted of a passenger motor car and a trailer loaded with people going to Charleston to attend the county fair. One mile west of Charleston the train crashed into an express car on the road coming toward Mattoon on account of confusion of orders. Both cars were wrecked.

NOTABLE MINING SUIT.

Promoters of Cobalt Company Sued for $2,540,000.

Toronto, Aug. 30.—James J. McConnely of Toronto has entered action against the Cobalt Lake Mining company, Henry M. Pellet, Thomas Birkett, Ottawa, Britton H. Henderson, Ottawa, D. C. Rochester, Cobalt, Raymond Mancha, Detroit, and J. U. Avery, Detroit, in a suit involving $2,540,000. Plaintiff demands an accounting from the individual defendants as promoters of the company of the assets with the capital stock of the company.

He asserts that $2,540,000 is still owing by defendants on stock issued to them. He also asks damages against defendants "for improperly procuring the passage of an act respecting the title to the company property which by implying the invalidity of the title to property of company and the validity of adverse claims thereto, depreciated the value of shares."

NEW G. T. P. EXECUTIVE OFFICER

Montreal, Aug. 30—The appointment was announced today of G. W. Caye, chief clerk in the office of the general manager of the Grand GTrunk Pacific, as assistant to the vice-president and general manager and purchasing agent of the new system with headquarters at Winnipeg. The appointment of an executive official at Winnipeg is regarded as tangible evidence that the company is about to enter the field as a competitive factor in western transportation. Mr. Caye's new office is created by an official circular which becomes effective on Sept. 1. The assistant began his railway career 20 years ago on the Central Vermont and left that road to accept the position of chief clerk in the office of the general manager of the Canada Atlantic when that system was owned by J. R. Booth, being with the Grand Trunk Pacific since 1905.

DEATH OF PROMINENT LAWYER.

Toronto, Aug. 30.—Nicholas Murphy, K. C., the well known criminal lawyer, died at noon today. He was a prominent parliamentary lawyer a few years ago and was responsible for amendments to many federal enactments. He was a conservative, and years ago was recognized as the most prominent Roman Catholic lawyer in Toronto. He was slated for a judgeship at one time.

PROGRESS OF V., V & E.

(Special to The Daily News)

Grand Forks, Aug. 30—Patrick Welch of Stewart and Welch, contractors, arrived in town last night on his return from a trip over the proposed oute of the V., V. & E. from Keremeos to Hedley. The contract for the grading of this 40 miles has just been let to J. H. Stewart and the contractors will put a force of 500 men in the field without delay. The road will cross the river to the south side three miles above Keremeos and then back again by Ashnola creek, continuing on the north bank until a little above Hedley when it again crosses to the south side until Princeton is reached. There will be some heavy rock work near Hedley and some more near Princeton. Mr. Welch does not anticipate much difficulty as to labor conditions and expects to be able to continue work all the winter. He thinks that with good luck the grading at Princeton will be accomplished by next fall and that Hedley will be reached about May.

BIG SURPRISE

Railways and Canals Goes to Ontario Minister

G. P. GRAHAM SWORN IN

PUGSLEY TAKES PUBLIC WORKS TEMPORARILY, LATER HE WILL TAKE OVER DEPARTMENT OF MARINE AND FISHERIES FROM BRODEUR.

Ottawa, Aug. 30.—The Hon. George P. Graham is to become minister of railways and canals and the Hon. W. Pugsley minister of public works. The latter, however, it is understood, to be only a temporary arrangement, pending the return of the Hon. L. P. Brodeur, who will exchange the marine and fisheries portfolio with Mr. Pugsley, for that of public works.

Hon. George P. Graham was sworn in at noon as minister of railways and canals and Hon. W. Pugsley as minister of public works.

There will be a shuffle in portfolios later on, after the return of Hon. W. S. Fielding and Hon. L. P. Brodeur. The portfolio of railways and canals goes for the present to Ontario and that of public works to the maritime provinces. These are the two great spending departments. There is a precedent, although none is nesessary for this. It was Hon. John Haggart, an Ontario minister who had charge of the Intercolonial under sir John A. MacDonald.

The cabinet yesterday awarded contracts for 36,000 tons of 80-pound steel rails for the eastern division of the G. T. P. divided equally between the Algoma Steel company, Sault Ste. Marie, for deliver at Fort William at $34 a ton, and the Dominion Iron & Steel company, Sydney, for delivery at Quebec, about $33.50 per ton.

At the meeting of the cabinet this morning it was decided to appoint a commission of three to make an official investigation into the Quebec bridge disaster. The commission will be Henry Holgate, C. E., Montreal; Prof. J. G. Kerry, of McGill university; and Prof. Galbraith, of Toronto. Mr. Parent has received a telegram stating that the piers are not injured.

ADDING TO HIS PILE

Chicago, Aug. 30—The witness fees and mileage of John D. Rockefeller claimed by him, for his appearance before judge Landis in the federal court some weeks ago, were paid today. A check for $73.85 was mailed to Mr. Rockefeller at his home in Cleveland.

TOUR OF THE COAL FIELDS

RALPH SMITH, NANAIMO'S WELL LABOR M.P. IN TOWN

MAKING PERSONAL STUDY OF THE FUEL SITUATION

Ralph Smith, M.P. for Nanaimo, accompanied by his wife, is a guest at the Hume hotel and will remain in town until tonight, when he leaves for Fernie and Alberta points.

When seen last night by a representative of The Daily News, Mr. Smith stated that the object of his visit to southern British Columbia and Alberta, was to study the fuel situation. Last session of parliament this question had been discussed and he thought it probable that further attention would be given it at the coming session and he wanted to be in a position to speak from personal observation. He will visit the collieries in the Crows' Nest Pass and at Lethbridge and Bankhead.

Asked as to the situation of the Japanese immigration question on the coast, Mr. Smith replied that it was now generally recognized to be a very serious one, and one not susceptible of off-hand treatment. However, from his advices from Ottawa he had no doubt that it would be grappled with at once and a solution found satisfactory to the people of British Columbia. For his part, if it developed that there existed an organized effort to import Japanese labor into this province he would take the same stand as he had done in regard to Chinese immigration and insist upon legislation that would prohibit their entry altogether.

Mr. Smith was asked regarding his understanding of the dominion government's intention to introduce legislation to amend the Elections act at the coming session of parliament. Mr. Smith said that there could be no doubt on that score. It was intended to introduce the legislation last session but owing to sir Wilfrids' departure for London to attend the imperial conference it had been deferred. The legislation Mr. Smith said, would be very drastic and would clearly establish the bona fides of the liberal party in the matter of preventing electoral corruption.

Rumors have appeared in the public press recently that Mr Smith was about to accept a public office under the government. Asked concerning the truth of these reports, Mr. Smith said: "When I first entered parliament I promised my constituents that so long as I held their confidence I would never accept a public office under the government, and I hold to that determination still. I have no intention of accepting any public office

We are now opening up a large shipment of

LIMOGES ELITE CHINA

These goods are assorted so that you can select any pieces you prefer and make up to your taste—EITHER A TEA OR DINNER SET. . . .

TYPOGRAPHICAL UNION LABEL NELSON, B.C.

ALL-RED CABLES.

We have received from the Ottawa board of trade a pamphlet embodying the copy of an address presented to th egovernor-general, earl Grey, by the president and executive council of that body dealing with the subjecs of empire-girdling, state-owned cable-telegraphs in an unbroken chain round the globe, and his excellency's reply thereto, with explanatory notes, the whole constituting one of the most valuable and illuminating contributions to the literature of imperial unity that has come under our notice for a long time.

Space will not permit of anything like adequate notice of or quotation from this admirable pamphlet, which should be read by every sincere imperialist. It may be briefly noted that the Ottawa board of trade, following up much excellent work in the past along imperial lines, now seeks to arouse the empire to practical interest in the establishment of a system of imperial telegraphs. In this work it has the invaluable cooperation of sir Sandford Fleming, in fact it is he who has been the inspiration of the scheme and it is to his persevering and indefatgiable efforts that the project has already assumed fairly definite form. His excellency's reply to the address of the Ottawa board of trade, as might have been expected, was entirely sympathetic. A word or two from his excellency's reply will place the subject clearly and forcibly before our readers.

The address was presented to earl Grey upon his return from England and in its opening paragraphs allusion is made to this fact. In the course of his reply, his excellency said, in part:

"Referring to the address you have presented, I thank you for the welcome which you have given me on my return from England. The chief reason that caused me to absent myself from my happy home in the dominion for a space of less than a month was my desire to support sir Wilfrid Laurier in his endeavor to impress upon the members of the imperial government the importance of establishing a fast trans-Atlantic service between Canada and England, and of thus making Canada not only the natural and God-appointed but the accepted mail and passenger route between Great Britain and the Orient and those great British dominions in the southern seas of New Zealand and Australia.

"I congratulate you that through the action of your representative at the imperial conference, sir Wilfrid Laurier, the representatives of the empire in conference assembled resolved that the time had come for the establishment of a mail and passenger service between Great Britain and Canada equal to the best supplied New York. The time is not far off when Canada will reap the great advantage of the geographical position with which nature has endowed her, by the establishment of a service which will stop our British letters travelling over two sides of a triangle via New York, and when the merchant in New York ,to whom time is a consideration, will travel to and from and communicate by post with the United Kingdom through Canada.

"Gentlemen, the object of your requesting me to give you this interview is to provide you with an opportunity for bringing once more before the attention of the public the desirability of supplementing the establishment of the All-Red route with an All-Red empire owned cable, by and through which will freely interflow between every portion of his majesty's dominions every national aspiration and every sympathetic impulse of the British people in every portion of the globe.

"The adoption of this policy has long been advocated by your board of trade, and when the day comes, (as come it will), when peoples living within range of the All-Red cables will be able to exchange thought with every other people similarly situated at a low and uniform rate, making telegraphic intercourse between various parts of the British Empire as easy and almost as cheap as that which exists between Ottawa and Vancouver today, then when that day comes, thanks in a large measure to your efforts, nothing will be able to deprive the Ottawa board of trade and sir Sandford Fleming especially, of the halo of glory which will for all time belong to you .

"As one of those who believe with sir Sandford Fleming that the establishment of a state owned All-Red line will be a service of hardly less importance to the empire than the establishment of the All-Red route, I shall have much pleasure in forwarding to lord Elgin, the colonial secretary, with a request that he shall communicate its contents to the king, and with the approval of his majesty, to the other governments of the empire, the address to which I have listened with so much interest."

EDITORIAL NOTES.

Japanese consul general Nosse is adopting a more conciliatory tone in his announcements. Possibly the Japanese representative at Ottawa is learning the wisdom of not being too anxious to rush into print. Mr. Nosse intimates that his government will be found willing to enter into some arrangement regarding migration of Japanese to these shores that will be mutually satisfactory. It is understood that sir Wilfrid Laurier is now communicating with the mikado's government on this subject and by the time parliament meets we may expect to hear of some satisfactory solution of the problem having been arrived at.

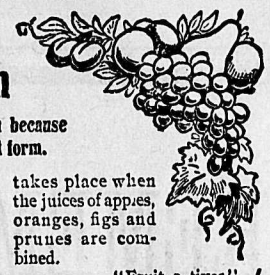
Fruit Cures Constipation



"Fruit-a-tives" cure Constipation because they are Fruit Juices in Tablet form.

Constipation means a disordered liver. When the liver is weak, bile is lacking. And it is the bile—which the liver excretes—that flows into the intestines and moves the bowels.

Fruit-a-tives is the great liver tonic. It invigorates the liver and causes more bile to flow into the bowels.

Purgatives, powders and purging mineral waters, never reach the liver. They irritate the bowels and FORCE them to move. They generally do harm. They NEVER do any PERMANENT good.

"Fruit-a-tives" are fruit juices—in which the medicinal action is many times intensified by the wonderful change which takes place when the juices of apples, oranges, figs and prunes are combined.

"Fruit-a-tives" have already proved a cure to many thousands of people in Canada.

"Fruit-a-tives" are free from calomel, cascara, senna and other bowel irritants. They are *concentrated fruit juices* with valuable tonics and internal antiseptics added.

"Fruit-a-tives" move the bowels regularly and easily every day — and thus cure Constipation.

50c. a box—6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

Fruit-a-tives Limited, Ottawa. 108

JAPANESE IN CANADA

Consul-General Nosse Issues Statement of Recent Arrivals

Ottawa, Aug. 30—Hon. T. Nosse, the Japanese consul general at Ottawa, furnished the trade and commerce department with a statement which purports to show in detail the actual number of Japanese who have arrived in Canada this year. The statement in detail is as follows:

Arrivals for 1907: January, 224; February ,374; March, 276; April, 409; May, 597; June, 782; July, 720; total, 3334; en route to the east, 58; to the United States, 67. Of this number according to the United States immigration agents about 800 are returning from Japan; to visit, 1270; total, 2603; net, 641. Of the 641 Mr. Nosse states there were merchants, students, women and children, and that there cannot be more than one-half the number, 320, who were actual laborers. Mr. Nosse's statement further mentions that according to the Canadian government census in 1901 there were in British Columbia 4515 Japanese, and alleges that there must now be about 6000, an increase of 1500 in the last six months, or 250 a year. This includes natural increase of population as there are at present about 600 women and 200 children. There are 3000 naturalized Japanese in British Columbia.

Mr. Nosse further furnishes a statement of Japanese passengers landing at British Columbia ports since January, 1907: February, 26; March, none; April 339; May, 303; June, none; July, 1422; August, 306; total, 2395.

Mr. Nosse is in receipt of official advices from Hawaii that the Japanese were originally shipped for the United States to work on the Great Northern railroad and other lines there and also on the Japanese rice plantations in Texas and Louisiana and have no intention of staying in Canada.

BORDEN IN QUEBEC CITY

Quebec, 30—R. L. Borden addressed a meeting at Montcalm Square last night, laying before the audience the conservative platform and the policy which he considers to be the most adapted to the best interests of the country. There were about 3000 persons present. Referring to the collapse of the Quebec bridge, he said that Quebec could rely on the rebuilding of the bridge, because it was not a local enterprise but a national one. Mr Borden was followed by J. G. H. Bergeron.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY BETTER THAN THREE DOCTORS

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as his parents could wish for.—Mrs. B. J. Johnston, Linton, Miss. For sale by all druggists and dealers.

Pen-Angle Guaranteed Underwear

Warranted to you by the dealer, by the maker to him. Form-fitted for comfort's sake; won't stretch, won't shrink. Made in many fabrics and styles, at various prices, in form-fitting sizes for women, men and children. Trade-marked in red as above. 908

ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.

THE DAILY NEWS

PRINTERS AND PUBLISHERS

NELSON NEWS OF THE DAY

There will be a band concert this evening, weather permitting.

Born, at Halifax on Aug. 21, to the wife of J. W. Banfield of the Royal bank, a son.

H. C. Bullis has promised a good photograph of the Nelson power plant for the office of the 20,000 club.

Mrs. E. C. Clarke and Miss Clarke left last night for Spokane, and James Clarke for McGill university, Montreal.

The house belonging to Mrs. Day on Silica street, has been purchased by A. Monk through the agency of Toye and Co.

The program of the horse races to be run this year at the fair has been arranged and will be found in the fair advertisement in these columns.

W. C. Thomas of the Dominion Copper smelter, left for Fernie en route from Boundary Falls. He is trying to arrange with the mines of the Crow's Nest for a regular supply of coke in future.

Walter Forbish, business manager for the McPhee attractions, is in town arranging for Downie's Uncle Tom's Cabin, which will give one afternoon and night performance here under canvas on Thursday, Sept. 12. Mr. —Forbish reports excellent business all over the northwest territories and claims the press and public are a unit in proclaiming this as being the best production ever given of this historic and time-honored drama.

Of Interest to the Public

Number enrolled, 29; average daily attendance, 26.

Minard's Liniment Cures Diphtheria

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my bowels. I had an awful time an dhad it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now stronger and well. I have written the above through simple gratitude and I shall speak a good word for this remedy always—Sam H. Gwin, Concord, Ga. For sale by all druggists and dealers.

W. H. MULLINS CO.

Genetlemen — After giving the "Get There" steel duck boat a thorough trial am convinced it is all you claim for it. It is capable of carrying two hunters and outfit with perfect safety. Can heartily recommend it. Yours,

H. G. QUEREAU.

PLANNING TO BUILD.

I want you to write for my new Book "COUNTRY AND SUBURBAN HOMES." It is especially prepared for prospective home builders and is full of valuable, practical and useful information on the subject. Each residence is illustrated by half-tone plates of the original, showing exactly how the building will look when completed. There are complete descriptions of each home and accurate estimates of cost. This book will cost you nothing, but will be worth a great deal of money to you. Write to-day. I prepare at low cost special designs and plans for new work or for remodelling old buildings.

H. STANLEY MITTON, ARCHITECT, VANCOUVER, B. C.

Nothing but Salt—and such Salt! You will find no other so delicate in flavour, so pure as WINDSOR TABLE SALT. 145

Filtered by nature—re-filtered by science—carbonated with purified gas—there is no water so refreshing and zestful to mix with spirits. Quenches thirst in a wholesome way; improves the flavor of liquors; does the stomach good.

York Sparks

is better—yet costs no more.

LICENSE TO AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES ACT, 1897."

Canada,
Province of British Columbia.
No. 391.

THIS is to certify that "Burton City Fruit Lands Company, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Colmubia extends.

The head office of the Company is situate in the City of Winnipeg, in the Province of Manitoba.

The amount of the capital of the Company is ninety-nine thousand dollars, divided into thirty-six shares of two thousand seven hundred and fifty dollars each.

The head office of the Company in this Province is situate in the City of Nelson and Robert Wetmore Hannington, barrister, whose address is the same, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of rBitish Columbia, this 12th day of Jnne, one thousand nine hundred and seven.

(L. S.) S. Y. WOOTTON,
Registrar of Joint Companies.

The objects for which the Company has been estblished and licensed are:

(a) Buying, or acquiring by grant, purchase in exchange for the Company's shares or otherwise, and to sell, lease and exchange, mortgage or otherwise transfer or deal with or dispose of real estate, lands, tenements, hereditaments of every description or nature, and any and every right and interest therein, and generally to carry on a business of a land company.

(b) To carry on the business of immigrtion and colonization agents, make advances to assist settlers on lands purchased from the Company ,and secure the repayment of such advances with interest, on such terms and in such manner by way of mortgage or agreement as may be mutually agreed upon, and generally to act as a land improvement company.

(c) To carry on trade as general merchants and forwarders.

(d) To issue in payment of any property acquired by the Company shares of the capital stock of the Company as fully paid up and no-assessable and otherwise;

(e) To carry on the business of manufacturers and dealers in power generators and motors of every description; to construct and operate all classes of vehicles, agricultural improvements, implements, machinery, boats, steamers, barges and ferries in which the said motors are used; to construct and operate boat lines and to carry on the business of carriers, cartage and parcel deliveries; to own and operate omnibus lines and vehicles and boats for hire; to sell, lease and supply powtr and supply electricity; to own and operate electric plants and generally to carry on any of the businesses incidental to the aforesaid purposes and objects of the Company;

(f) To acquire, hold, sell, mortgage, pledge and otherwise deal with mortgages and charges on lands, or any interest therein, and agreements for the purchase and sale of land, or any interest therein, and to invest and lend money upon the security of real and personal estate ,goods and chattels, stock, bonds, bills of exchange, promissory notes or other kinds of security as an individual may, and to take and receive in respect thereof, mortgages in real or personal estate or other securities, and to sell or assign such mortgages or other securities; to collect rents, manage estates ,and buy and sell property of all kinds on commission, and to act as valuators, financial agents, general and special agents and real estate brokers; to acquire and hold timber limits, timber licenses and timber lands and to sell and dispose of the same; to engage in the cutting and manufacture of timber and lumber and their products of any and every kind and description, and to carry on the business of timber and lumber merchants, by wholesale and retail, and to acquire, work, equip and operate sawmills, planing mills and other works and industries incidental to the business of manufacturing and dealing in lumber and timber and their products; to carry on the industry and business of mining in all its branches, and for that purpose to prospect for, open up and develop and operate all classes of mines and deposits of metals, minerals, rocks, clay, gypsum or other deposits or formations found in or on the ground; to purchase or otherwise acquire and take and hold shares, bonds, debentures and other assets or securities of any other corporation carrying on or interested in any trade, business, undertaking or industry of a character similar to any of the Company's business or undertakings, or with which the Company shall have business relations, and while holding the same to exercise all rights and powers incidental to the ownership thereof, including the power to vote on such shares; to assume and carry out the contracts and obligations and to guarantee the indebtedness of any such corporation, and to enter into contracts for any such purpose; to sell, lease or otherwise dispose of the Company's entire undertakings ,property and assets, or any part or parts thereof, at any time, from time to time, and for such considerations as the Company may see fit, and to accept in payment, in whole or in part, or by way of security for the purchase money or rent, mortgages or liens thereon, all the shares ,bonds or debentures of any other corporation, or other form of security whatever that the Company may deem proper, and also to sell, dispose of and assign any such securities to any purchaser or assignee;

(g) To engage in and carry on any other business which may be deemed desirable to be carried on in conjunction with any of the Company's businesses or undertakings; to do all acts, deeds and things necessary or convenient for the exercise of all or any of the powers of the Company, or that may be deemed conducive to its interests;

(h) To apply for and obtain in any other province or in any of the territories of Canada, a license to enable the Company to carry on its business therein in accordance with the laws or ordinances of such Province of Territory.

The One Right Steel Plate Range

Until we found out just the right way to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook,—every steel-plate range kept the kitchen broiling-hot. This range is a cool range—the top shield and lining is thick asbestos, so the heat stays inside the range and keeps oven evenly hot. Food is better cooked, quicker cooked and cooked for less fuel-cost.

630

For Cleanly Cookery
OXFORD CHANCELLOR
BURNS WOOD OR COAL

Everything about it is cleanly,—empty the ash-pit without fluffing ashes over everything; feed-pouch takes fuel without clutter and muss. Fuel does more cooking because this range has the right draft-control,—sensitive, easily-governed—bring a fire up quick, cool it down quick.

QUEBEC BRIDGE DISASTER

FURTHER DETAILS OF THURSDAY'S APPALLING ACCIDENT.

NUMBER OF LIVES LOST STILL IN DOUBT—MAY TOTAL 85.

Quebec, Aug. 30.—With the first break of day a dozen government and Quebec bridge companies' tugs began a search of the St. Lawrence for the victims of last night's catastrophe. The toll of death caused by the collapse of the great cantilever bridge numbers at least 75 and may reach 85. Up to an early hour today less than twenty bodies had been recovered. The terrific drop of the great steel structure from 180 feet abouve the surface of the river crushed the bodies of many of the workmen in a frightful manner and it is feared many of them never will be found. Many of the dead were Americans, brought here by the Phoenix Bridge Co. of Phoenixville, Pa., which had the contract for the iron work of the bridge.

Among the known dead are B. A. Granzel, general foreman for the Phoenix Bridge company; chief engineer Birks, fireman Davis, of the bridge switch engine; John Whalley, foreman; Jim Idaha, an Indian foreman; Victor St. James and Henry Hardick, brothers of New Liverpool, Quebec; Wilfrid Proulex, of New Liverpool; Zephrian La France, Quebec city, and about thirty Caughnawaga Indians employed as laborers.

Early this morning row boats were sent out to examine the superstructure showing abouve the water near the shore to ascertain if any of the workmen were imprisoned in the mass of twisted iron work. None were found alive. Just below the surface of the water two bodies were seen, but it was impossible to reach them until the tide went out. Both the local and dominion authorities have already taken steps to investigate the cause of the disaster and if possible fix the responsibility. Some of the workmen expressed the belief that the anchor pier gave way under the tremendous strain of the overhanging steel works. M. P. Davis, of Ottawa, the contractor who built the piers, made a hasty examination last night, however, and reported them to be in good condition, although the steel superstructures had fallen upon them. A locomotive and several freight cars loaded with steel girders were moving out upon the bridge just before the structure collapsed. Engineer Jess, who was on the locomotive went into the river with his engine but was picked up three hundred feet below the bridge. Fireman Davis perished. Engineer Jess was removed to Levis hospital where he rapidly recovered from the effects of his plunge into the water. According to his story the steel work overhanging the river was the first to show signs of weakness. At the first sign of danger Jess shut off steam, but his locomotive contiued to move toward the end of the bridge which had begun to totter, and a moment later the engine went into the river.

Philadelphia, Aug. 30.—The Phoenix Bridge company, which has the contract for building the Quebec bridge which collapsed yesterday, near Quebec, has its offices in this city. The plant is at Phoenixville. The officers of the company are: President, David Reeves; secretary, George C. White; treasurer Frank T. Davis; chief engineer, John S. Deene, and general superintendent, William Reeves. The news of the accident was a great shock to all of the officials. Four representatives of the company were sent to Quebec immediately and until their report is received the company will make no statement.

The officials of the concern say they have no idea of the monetary loss incurred. Mr. Davis, the treasurer, said: "I ray that the loss of life is not as great as reported. I do not know how it happended. I thought everything was going well. We put the entire charge of the construction, and had 200 men at work ,under Charles B. Milligan of Phoenixville."

The great bridge was built in sections at the works of the company and was bolted together at Quebec.

RICHARD MANSFIELD DEAD

Curtain Drops on Career of America's Best Known Actor

New London, Conn., Aug. 30—Richard Mansfield, the best known actor on the American stage, passed away at 6 o'clock this morning at his summer residence, Seven Oaks, Ocean avenue.

Death was directly due to a disease of the liver, aggravated by complications. Dr. A. H. Hall, a local physician, who has been in chare since Mr. Mansfield's arrival here from Saranac lake, states that death was not entirely unexpected, although the fact had not been made public. Mr. Mansfield's condition has been reported as being excellent. It is stated that he took the journey from Saranac lake well and that he was up and around the house until three days ago. Then a turn for the worse set in and Mr. Mansfield was confined to his room. On Thursday Dr. McClellan, of Pittsburg, was summoned. Dr. Allen said today that he had feared the worst for several days. There were quite a number of conditions that prevented his getting well. During the great actor's last moments he was lying in a state of coma and did not recognize the loved ones at his bedside. There were present at the time of his death, his wife, his brother, Felix, his young son and the physicians and nurses.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA PROVINCIAL COMPANY.

"Companies Act, 1897."

I HEREBY CERTIFY that "The Morning Bell Mining and Smelting Company" has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at Spokane, Washington.

The amount of the capital of the company is Two hundred and fifty thousand dollars, divided into One Million shares of Twenty-five cents.

The head office of the company in this Province is situate at the City of Creston, and O. J. Wigen, a fruit and produce rancher, whose address is the City of Creston, B.C., is the attorney for the company.

The time of the existence of the Company is Forty-nine years from the 15th of January, 1907.

The company is specially limited under Section 56 of the said Act, and no liability beyond the amount actually paid upon shares or stock in the company by the subscribers thereto or holders thereof shall attach to such subscriber or holder.

GIVEN under my hand and seal of office at Victoria, Province of British Columbia ,this 12th day of August, 1907.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are restricted to acquiring, managing, developing, working and selling mines, mineral claims and mining properties, and the winning ,getting, treating, refining and marketing of mineral therefrom.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

REMEDY FOR DIARRHOEA NEVER KNOWN TO FAIL

I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world." —S. Pemison, Spring Grove, York Co., Pa. This remedy is for sale by all druggists and dealers.

Expert piano tuner and regulator Jas. R. Muir. Strictest attention to all details Leave orders at Standard Furniture Co.'s office.

Store opens daily at 8 a.m. | MEAGHER'S | Store closes at 6 p.m.

Fall Coats for the Girl

At no time this season will be able to show you a better range than at the present time, and moreover we will not be able to give you the same value. These goods were bought before the rise in prices, which have affected all lines especially the manufactured article, therefore we are in a position to give you the best the market affords at the lowest possible price. There are here in a large variety of cloths, especially madet possible price. They are here in a from anything you'll see any place else. Prices, $6, $7, $8, up to $12.50 each, sizes 6 to 18 years.

More About Millinery

In fact we can show you everything about millinery this season. Our showing eclipses all former records. The very best from the leading fashion centers find their way here. At present we are showing a dainty lot of new French Felt in all the leading shades, hardly any two alike and there's sure to be the one you want if you come early.

NELSON NEWS OF THE DAY

The temperature yesterday varied between 44 and 63 with a rising barometer.

Born on Thursday, Aug. 29, to the wife of Harry Houston, Fairview, a daughter.

Under the influence of the rain of the past week the lake has again began to rise.

Some of the members of the Grand Forks cricket team which is to play its first match here on Monday, are expected over this evening.

For some unexplained reason the lights in the city have been poor of late. Voltage is supplied at the power plant at 126 and is supposed to reach this city at not less than 120, but 110 eems to be nearer the mark.

Parents having children to enroll at the public school must atend to this by Tuesday next, as the reorganization of classes will then be completed. Report for August on this account, is delayed until Wednesday, when it will be published as usual.

The high school reports the number of pupils on the roll in division 1 for August to have been 23, with an attendance of 22.1, giving a percentage of 96.09. Division has an enrollment of 20, an attendance of 18.3 and a percentage of 91.50.

There are two cases coming up before judge Forin on Tuesday next, the one being the deferred case of Lindsay vs. Brydges, which promises to be something of a cause celebre and the other the continuation of the case of H. Reid vs. the Argenta Mines, under the Workmens Compensation act.

HARROP NEWS NOTES

Harrop, Aug. 30—While fishing in the West Arm this afternoon, Messrs Gilson and Fox succeeded in landing a rainbow trout weighing exactly seven pounds and measuring two feet four inches in length.

J. D. Ker and J. Mansell are clearing a 25 acre tract of bench land and purpose putting it in orchard this fall.

The children of Mr. and Mrs. Parke Southworth were the hosts at a very pleasant birthday party yesterday afternoon at which 15 children attended.

Rev .H. R. Reynolds will conduct the church service here on Sunday afternoon.

Ernest Harrop is spending a few days in Nelson.

Also a six-roomed house and five good lots. The lots are fenced and laid out in lawn and garden.

Price $2,500; terms $1,500 cash, balance on extended payments.

H. & M. BIRD

NELSON, B.C.

SLOCAN NEWS NOTES

Slocan Aug. 30—The Patrick Lumber company who are building a wagon road between Slocan and their timber limits in the Little Slocan have established a camp near town where 30 or 40 men will be employed until the snow flies.

The recent heavy rains have caused several mudslides on the Springer creek wagon road. A crew of men are now at work repairing the damage.

J. W. Kyte is doing an assessment on the Redwood situated at the head of Dayton creek.

Slocan school has reopened with Norman Morrison as teacher.

Mrs. E. W. Ham left this morning for a ten days' trip to the coast.

LABOR SUNDAY

New York, Aug. 30—Pastors of 10,000 Presbyterian churches in the United States have been requested by the Rev. Charles Stelzle, superintendent of the Presbyterian department of church and labor, to discuss some phase of the labor question in their sermons, and assurances received lead to the belief that practicaly all will comply with the request.

Labor Sunday on the Sabbath preceding Labor day, has become a calendar event of the Presbyterians. The Rev. Dr. Stelzle says in his proclamation that just as Memorial day and several birthdays show our appreciation of those who rendered patriotic service, and just as the church holy days do honor to those who have served mankind spiritually, so Labor day should be observed by the churches in honor of the millions of toilers who daily do the work of the world and serve mankind in the humbler but most necessary walks of life.

NOSSEE STILL EXPLAINING

Japan Has no Desire to Impose her People Upon Canada

Ottawa, Aug. 30—Japan's consul general, Nosse, make the following statement in explanation of a previously published interview, which gave a somewhat erroneous impression of his views:

"I am sorry to find my statement in the papers has been misunderstood, thus creating a sensation in the west. What I desired to announce was the fact that there is a treaty between Japan and Canada which both nations are required to respect for our mutual advantage. But the making of an agreement so as to regulate the Japanese immigration to Canada is another question. The Japanese government has never entertained any idea of imposing upon her good friends her emigrants where they are not wanted. I trust, seeing that there is a strong feeling of friendship and amity on the part of Canadians towards their neighbor across the Pacific, things will soon be settled and that this agitation may belong to the past. All we expect from Canadians is fair play, nothing more, and I have every confidence we can depend upon it. If I go home this fall, I mean to start a big demonstration in Japan for the development of Canadian trade there. Canadian trade is steadily increasing in Japan since Canada has secured the benefits of tariff concessions from Japan but your goods have to meet the competition of the United States and Canada has not got enough surplus to supply Japan's requirements. I hear Mr. Preston is at present hard at work in Japan and I expect the result of his mission will be very noticeable in the increasing trade."

FATALITY AT MICHEL

(Special to The Daily News)

Michel, Aug. 30—G. Romano, a young Italian, about 18 years of age, met with a fatal accident yesterday, while engaged in blowing out a stump near the No. 8 fan. He had placed a heavy charge of dynamite under the stump and had turned away and was making for a place of safety when he was struck on the back of the head by a flying piece of wood, the result of the explosion. He was taken to the Michel hospital but never regained consciousness, dying several hours later.

Coroner Bleasdel arrived last night from Fernie and an inquest was held today. The deceased had worked in the camp for nearly a year. The funeral will be held Sunday at Michel cemetery.

LOST— pearl pendant between Mines Road and Latimer street, near Stanley. Reward at this office. 113-3
