HAS WAY OUT

Ald. Selous Makes Feasible Suggestion

CREASE TO MAKE REPORT

POLICE TROUBLE AND THAT OF CITY ELECTRICIAN BEFORE CITY COUNCIL—VETO SEEMED LIKELY BUT WAS AMICABLY ARRANGED.

The city council dealt last night with the resignation of city electrician Smith and trouble seemed imminent but was eventually averted. The question of the police force was also briefly alluded to and it seems possible that some way out of the present impasse may yet be found. Another matter coming up was a threatened action against the city by judge P. E. Wilson of East Kootenay.

Those present were mayor Gillett, aldermen Rose, Irving, McMorris, Annable and Selous.

After the reading of the minutes the report of the financial committee recommending the paying of city accounts was adopted.

The fire, water and light committee recommended that the marble works be charged for the water used by meter instead of a flat rate of $10 a month.

All water power users of more than one horse power be charged the rate for electric horse power shall be charged after July 1.

All water connections with disused water motors be plugged.

A flat rate of 50 cents per month be charged for each electric iron used in each house and of $2.50 a month where used for commercial purposes.

The report was adopted as read.

A letter was read from Lorne Campbell notifying the city that the agreement existing between the West Kootenay Power company and the city entered into in February last would terminate four months from date. This agreement shared the expenses of the substation.

Ald. Irving said that this meant the building of a second transmission line between the city and the power plant.

The letter was filed.

A communication was read from the legal agents of P. E. Wilson, late solicitor for the city, demanding payment of the account of the late solicitor against the city. The communication was referred to the present city solicitors.

Alderman McMorris then drew the attention of the council to the desecration of graves in the cemetery by certain children.

Alderman Rose said he had enquired into the matter and amendment had been promised.

City electrician Smith tendered his resignation on the grounds that he had been misjudged in his action of saving the transformer on the fair ground by cutting it out. The transformers were overloaded. He knew that when he put them up. They had to be watched night after night. He might have turned out sufficient lights to have saved the transformer but he had no means of reaching these lights. He had a flask of whisky in his pocket. He knew that he was plunging the city into darkness but this was necessary to save the transformer.

Alderman Selous moved that the resignation be accepted. If the resolution was not adopted it would be his duty to go into all the circumstances and the facts would probably hurt Mr. Smith. The resolution was then put and carried unanimously.

On a resolution by alderman Selous Leslie Steel was placed in charge of the city's electrical system and the tramway, acting in conjunction with the city engineer, the resignation of Mr. F. A. Smith taking place at once. This resolution was passed unanimously and mayor Gillett then notified the council that within 30 days he would veto the resolution on grounds which he would state when the resolution was vetoed. He would see that the business of the city was carried out but not by incompetent hands such as Leslie Steel. He, therefore, would see the position was properly filled.

Alderman Selous pointed out that if Mr. Steel were in need of help that help would be asked for by him and could easily be procured temporarily at Bonnington.

City engineer Lawrence, at the request of the mayor, stated that while he was not an electrical engineer he had had some experience and was willing to place that experience at the disposal and for the benefit of the city.

A resolution was then put and carried instructing the city clerk to advertise for applications for electrical engineer to have charge of the city electrical system, the power plant and the tramway, at the same salary as at present, $135 a month, the advertisement to be inserted in an electrical paper and the applications to be decided upon at a meeting of the council on Monday, October 22.

Alderman Selous thought the salary ought to be at least $150.

Alderman raised a question as to whether the mayor should issue hospital permits to casual visitors to the city. The mayor said that if a man living in the city for 24 hours could be asked for a dog tax on the other hand he was entitled to assistance if in need of help.

Alderman Selous brought up the question of the police force, asking the courtesy of the mayor not to rule the matter out of order. The alderman made no reflection on the good faith of the police commissioners but thought perhaps as the commissioners were not thoroughly posted as to the law on the matter the whole case might be reopened by referring it to the police magistrate E. A. Crease in whom the public had trust. Mr. Crease ought to be able to show a road out.

Mayor Gillett said he would have great pleasure in bringing the suggestion of alderman Selous before the police commissioners. If the board saw they were wrong they would have no hesitation in reconsidering the decision already made.

Alderman Rose then entered into the question but mayor Gillett refused to allow any further discussion.

In answer to a query by alderman Irving the mayor stated that Messrs. Hardy and Macgregor were acting in place of Messrs. Young and McBeath.

After the adjournment of the council, which then occurred, by amicable arrangement with the aldermen mayor Gillett decided upon the temporary appointment of J. H. Boyes, in place of Mr. Smith, who is now at the power plant. A telephone message was then sent to the power station to this effect.

CRONIN CONFIRMS STORY

HAD A WIRE FROM DIBBLE ON SEPTEMBER 16

WRECK OF SKEENA STEAMERS IS A SERIOUS MATTER

James Cronin returned from the Lardeau last evening and left for Spokane on the midnight train. He was much concerned over the reported drowning in the Skeena river of James Dibble. Mr. Cronin confirmed the statement that he and Charles Theis of Spokane had purchased mineral claims from Dibble recently. He had received a wire from Dibble last Monday week, dated at Hazleton, the day previous, stating that the steamers had been wrecked, and to send money to the Hudson's Bay stores. Mr. Cronin sent the money from this city on the 17th, just a week ago. It should have reached Dibble on Wednesday and as the drowning is supposed to have taken place on Thursday, Mr. Cronin cannot understand how Dibble came to be in the overturned canoe as reported, unless he started to come out before the money had reached him, as, if he waited for cash and got it, he would have quite a lot of business to transact, taking him several days.

Mr. Cronin added that claims purchased were a galena group in the Babine range, inspected by himself this summer whilst up north.

Alfred Bunker received a letter yesterday from W. J. Mackay, a former Nelsonite, but now proprietor of the Port Essington Sun, stating that the steamer Northwest had broken her back on a bar below Graveyard and was a total loss. The steamer Hazelton was lying at the Oliver riffle, with a hole in her bottom, and out of commission. There are no boats on the river and the outlook for getting supplies in this fall was very blue.

Mr. Bunker said that among those known to be in the district were Harry Houston, formerly foreman at the Payne mine; Tom Jeffries, mining expert from the Boundary district, and George Naden, M.P.P., of Greenwood. Out of the five men reported drowned, Dibble's was the only name mentioned and Mr. Bunker expressed natural anxiety for further particulars.

Mr. Cronin stated that the wreck of the steamers on the Skeena, had brought about a very serious state of affairs. Many miners had gone in there this year with the intention of working claims. The stores had some supplies on hand but not enough to last the winter. The steamers could not be quickly replaced and there was practically no way for supplies to be taken in or for the men to get out once the snow came.

COLLEGE OF HUMANITY.

General Booth's Latest Scheme for Human Miserables.

St. John, N. B., Sept. 23.—General Booth of the Salvation Army addressed the Canadian club here today closing with the following: "I have a scheme in my head, which for want of better name, I shall call a 'university of humanity,' and I hope to see it established. It should have two headquarters, one on each side of the Atlantic, with affiliated colleges in every land. In them it should be taught how to alleviate the miseries of mankind. You have colleges of all kinds for the higher classics, colleges of music, engineering, geology and all other colleges. I want a university for men and women to deal with the broken hearts, to teach how to reclaim the criminal and the drunkard, the children of the daughters of shame, and all the miserables of the human race. It will be very costly but I am trusting that some millionaire, or several millionaires, will come to me and say, 'general, you shall have it.' When that time comes I shall be inclined to say, 'Lord, now let Thy servant depart in peace.'"

The general yesterday despite his 78 years addressed three big meetings, morning, afternoon and evening in the opera house. In all he spoke some three and one-half hours. His principal address was that of the afternoon, when he spoke of the success of the Salvation Army.

WINNIPEG'S EX-MAYOR

Winnipeg, Sept. 23—Creditors and friends of ex-mayor Carruthers, met today to render practical aid to him in the recent financial crisis in his affairs. His assets are $75,000; half is outstanding accounts of doubtful value, the other half of good value. His liabilities are under $30,000. The meeting decided to raise $15,000 in cash and float a company for $100,000, with Carruthers at its head, retaining all his old agencies.

BORAH TRIAL

United States Senator Before Boise Court

PROSECUTOR OF WHYWOOD

PERIODICAL MEETINGS ASSURED IN FUTURE—INFLUENCE OF THE SOUTH AMERICAN REPUBLICS IS DEMONSTRATED—CONVERSION OF GERMANY.

Boise, Sept. 23—In beginning the work here today of impanelling a jury to try United States senator Wm. E. Borah, charged with conspiracy to defraud the government of valuable timber lands, district attorney Norman M. Ruick, announced that former governor Frank Steunenberg was one of the men indicted with senator Borah for conspiracy. Steunenberg is represented in the indictment proceedings as "John Doe." The case was called today before judge Edward Whitson in the United States district court.

The prominence of senator Borah in the politics of the state, his personal popularity in this, his home town, the leading part he took in the prosecution of William Haywood, charged with the murder of governor Steunenberg and the fact that more than 100 well known residents of southern Idaho are held to be involved with him in the so called conspiracy; combine to attract an interest in the proceedings against him nearly equal to that which marked the first of the Western Federation of Miners' trials here.

The circuit court was crowded to overflowing when judge Whitson took the bench. The array of counsel on either side was imposing. The government, whose representatives here freely predict a hearing of sensational interest, have practically taken the case out of the hands of the district attorney, against whom charges of improper conduct before the grand jury have been filed, and assigned the matter to special attorneys. These are Burch of Detroit and S. Boss, special assistant to the attorney general of the United States. There was also present today Timothy F. Burke of the United States district attorney's office at Cheyenne, who was sent to Boise to assist the special grand jury now in session in its investigaton of the charge against district attorney Ruick.

Senator Borah's attorneys include Jas. H. Hawley, counsel for the state in the Haywood case, Alfred A. Fraser, S. L. Lipton and Carl Paine, all local attorneys, and C. F. Bundy of Eau Claire, Wis. The latter also represents the interests of the Barber Lumber company, the corporation that is said to have profitted by the alleged frauds and some of whose officers have been indicted. The indictments against senator Borah allege that he, with 12 others, named as co-defendants, conspired to defraud the government of many thousands of acres of timber land in Boise county. As a result of this alleged conspiracy, it is alleged that 108 residents of Boise took out timber claims and swore in doing so that they were acting solely in their own interests, whereas these statements are alleged to have been false, and it is alleged that agreements were entered into whereby the claimants were to turn their lands over to the others, who in turn were to transfer them to the Barber Lumber company, whose officers made their headquarters in Wisconsin and who are said to be affiliated with the large lumber interests of the west. Among the 108 claimants are many of Boise's best known citizens. In some instances five and six members of one family, including wives and daughters are involved. All of the 13 men against whom indictments were returned have, with the exception of senator Borah and John Doe, filed pleas of abatement of the indictments on the ground of misconduct on the part of the district attorney, it being alleged that he made an agreement before the grand jury which is prohibited by law and refused to leave the grand jury room on one occasion, when requested to do so.

Judge Whitson began a hearing Saturday morning in open court on these charges the special grand jury having the matter in hand, being adjourned for the time being. Senator Borah's trial coming on with the pleas in abatement undecided, lends a new complication to the situation, for while he has not joined them, a decision adverse to the government would seem to make it incumbent on the United States attorney to take cognizance of the matter in his case.

QUEBEC BRIDGE ENQUIRY

Investigation at Quebec Expected to Close Today—Evidence Given

Quebec, Sept. 23—E. A. Hoare, engineer of the Quebec Bridge company, continued his evidence before the royal commission enquiring into the disaster, this morning. Mr. McClure had reported to him that chord A90 showed deflections in all four of its members. He suggested to McClure that he got to New York and told him to make a thorough check, taking levels, etc. and then proceed to New York and Phoenixville with sketches of the defects. Mr. Hoare said that when the traveller moved he asked Mr. Yenser, the general foreman, who ordered it moved and the latter replied: "Oh, well, there are so many men at work I thought it was better to move it out and think it is safe." From a conversation Hoare had with Birks, the chief engineer, the latter did not consider the defects in members in question serious, but thought repairs necessary.

Frank Cudworth, one of the Phoenix Bridge company's engineers, in charge of field instruments, was on the stand all afternoon. His evidence was largely of a technical nature. He had not personally observed any defects in the structure, but while his work on the debris since the accident he was inclined to the same opinion as McClure, that the defect lay in the fracture of the lower chords of the anchor span. The investigation here is expected to close tomorrow with the examination of Hoare and Deans.

MARCONI RETURNS

Will be Able to Undertake Commercial Wireless Business in Few Weeks

Sydney, Sept. 23—Signor Marconi arrived here Saturday and left during the day for Glace Bay. Before leaving he made a statement to the effect that his company will be able to send commercial messages as soon as the Sydney station is opened in about three weeks. He had now reached a point where all obstacles had been overcome. Weathed conditions he said did not prevent them doing efficient work unless the masts or poles should be struck, lightning would not bother them.

Ordinary telegraph operators, he said, could do commercial wireless within three months. At present the continental Morse system was used but they could use the ordinaryMorse as well and send 20 words a minute. The first commercial work will be sending press despatches to the big English papers.

GORED TO DEATH BY BULL

Brave Efforts of Wife Failed to Save J. J. Gunn's Life

East Selkirk, Man., Sept. 23—J. J. Gunn, a well known farmer and an old timer, while attending his stock on Sunday afternoon, was attacked by his bull, an Ayreshire, with fatal results. One horn pierced his breast and his body was otherwise badly gored. His, wife whose attention was attracted by the apparent unrest of the other cattle, ran to his assistance and at the risk of her own life warded off the bull with a fork held in one hand while she dragged her husband to a place of safety with the other, no other assistance being available. Death was almost instanteous.

Outside of local circles, Mr. Gunn was generally known as an expert on bee culture and has been the president of the Manitoba Beekeepers' association since its organization. He was 50 years of age.

WHEAT SHIPMENTS.

Late Harvest Has Delayed Receipts at Head of Lakes This Season.

Winnipeg, Sept. 32.—The lateness of the summer and harvest season is evidenced itself in a marked manner in the wheat shipment figures which to date are a mere fraction of what they were last year.

Up to September 16th, only 125,190 bushels of wheat had been received at the head of the lakes as compared with 876,019 bushels during the same period last year. These figures are, however, not to be regarded as a serious matter so far as the crops are concenrned, since the harvesting has been so much delayed by the late season. As a result the wheat figures to date cannot be expected to be as great as at corresponding period last year since the two seasons are not at all parallel.

One result of the late harvest will be the slower delivery of the wheat at the lake ports and the result in fact that considerable portions of it cannot be placed in cargo before the close of navigation and as a consequence will either have to be transported by rail or held over until next season. The shipments however will be rushed ahead with all possible haste so as to allow as much of the grain as possible to be marketed.

C.P.R. MACHINISTS' WAGES.

Winnipeg, Sept. 23.—A basis for the final settlement of the proposed new schedule between the C. P. R. western lines and the machinists was arrived at late Saturday afternoon. Though the whole schedule has not yet been drawn up, the most important items, hours of work and wages, have been decided upon. It calls for a nine hour day and wages are divided into three classes, according to location. In the shops between Fort William and east of Broadview, the wages will be 42 1-2 cents, from Broadview to Kamloops, 45 cents and from Kamloops to Vancouver both included, the wages will be 43 1-2 cents an hour.

CHANGE IN FLAG STATION

Mayor Gillett, speaking of the change of flag station from Miles Ferry to Upper Bonnington, referred to elsewhere in this issue, said that J. J. Campbell and Lorne Campbell has asked him to accompany them to see superintendent Coleman on this matter. Mr. Coleman had been unwilling to make a station of Upper Bonnington but Lorne Campbell had said that he would employ the greater part of his men there. If the station were built at Upper Bonnington it would also benefit J. J. Campbell. Furthermore Lorne Campbell agreed to light the new station. Mr. Coleman then asked the mayor as to Miles' Ferry, but mayor Gillett offered no objection on this score and the matter was accordingly arranged. Asked as to the delivery of supplies to the city power plant and boarding house, mayor Gillett replied there would be no difficulty on that score inasmuch as the supplies could be thrown off without the train stopping.

BOWSER BILL

Telegrams Between Scott and Dunsmuir

McBRIDE'S ASSURANCE

VANCOUVER'S ASIATIC EXCLUSION LEAGUE PLANNING VIGOROUS CAMPAIGN—WILL RESORT TO FORCE IF PEACEABLE MEANS PROVE FRUITLESS.

Vancouver, Sept. 23.—Following are copies of the famous telegrams exchanged between the secretary of state and the lieutenant-governor after McBride had assured the former that the Bowser bill would not become law:

"Ottawa, Ont., 23rd April, 1907.

"Lieutenant-Governor, British Columbia:

"Your premier, McBride assured me that bill entitled act to regulate immigration into British Columbia would not receive assent but would be reserved for consideration of government here. Can I rely on this assurance?

"(Signed.) R. W. SCOTT.

"Victoria, B. C., April 24th, 1907.

"Hon. R. W. Scott, Ottawa, Ont.:

"Your telegram received. Bill referred to will not receive my assent.

"(Signed.) JAMES DUNSMUIR."

The Asiatic Exclusion League is now preparing a formal petition to Laurier asking for immediate action absolutely excluding all Orientals from entering the dominion. This will be circulated throughout the province and forwarded. If no attention is paid to it, the league is planning for an appeal to the throne. If these efforts prove unavailing the leaders of the league say they will then have gone the limit by peaceful means and the only thing left for self protection will be the prevention of debarkation.

MOUND BUILDERS.

Toronto Professor Tells of His Researches for 25 Years.

St. Paul, Sept. 23.—After spending three months traversing Manitoba and Saskatchewan, in search of traces of the pre-historic mound builders, Prof. Henry Montgomery of the University of Toronto, stopped off in St. Paul, on his way back to Toronto.

Discussing his researches he said: "I have devoted 25 years to the study of the mound and cliff dwellers and while there is no certainty about the matter, I believe that the mound builders were related to the cliff dwellers of New Mexico and Arizona and the Aztecs of Mexico.'

Prof. Montgomery states he has reached the conclusion that the mound builders inhabited the country as far north as 51 degrees north latitude, and that is 150 miles north of the international boundary. It is hitherto been thought that these people did not go north of the international boundary nor west of Manitoba.

TOO FAR EAST.

Montreal Methodist Divine on the Asiatic Influx.

Montreal, Sept. 23.—In a sermon last night on the "Yellow Peril," Rev. W. R. Young, D.D., in St. James Methodist church said in part: "We are willing to trade with the Japanese, but we seem to be afraid to meet them upon a common brotherhood ground. Yet God's thoughts are not our thoughts. I may be wrong, but I believe that Canada with her sanctified homes, her bible, her spirit of Christianity will prove to be God's agent for bringing the Japanese to the Kingdom of Christ, and that the day is coming when Japanese and Chinamen and Canadians will bow down at the same shrine, and join in the same hymn of praise in mutual worship of their common maker."

GAS FROM STRAW

Novel Heating and Lighting Plant for Edmonton and Strathcona

Edmonton, Sept. 23—Cyrus Eaton, western manager of the International Heating and Lighting company of Cleveland, is here. His firm has a franchise from the city and also from Strathcona for the supply of artificial gas, and are backed by John D. Rockefeller. Mr. Eaton stated that work on the plant to cost $100,000 will commence forthwith. The plant for supplying both cities will be located in Strathcona. Contracts for the laying of mains and plans are now ready for the work in Edmonton. The gas, Mr. Eaton stated, will be manufactured from straw which will be purchased in the district and shipped to the plant in bales.

CANADIAN TICKET AGENTS

Winnipeg, Sept. 23—The convention of the Canadian ticket agents will take place at the Royal Alexandra hotel from Oct. 13 to 16th next. About 120 delegates will be present from all over Canada and will stop at the big hotel while in the city. A reception and banquet will be given on Monday evening and a ball will be given at a date to be arranged while the convention is in session.

LOST AT SEA

Montreal, Sept. 23—The steamship Dominion of the Dominion line, which arrived in port today encountered one of the most severe storms of recent years on the north Atlantic. While in mid-ocean William Roberts, an able bodied seaman, was swept overboard by a gigantic wave and T. J. Rowland, the ship quartermaster, had two ribs broken and is now in the hospital. Roberts, who was clad in oil skins when he was swept overboard, managed to throw them off in the water, but although the ship stopped and life buoys were thrown overboard, he sank on the point of grasping a buoy. The passengers subscribed £30 for Roberts' widowed mother, whose sole support he was.

MARKET REPORTS.

Winnipeg, Sept. 23.—There was the natural reaction after the high prices of Saturday on the grain exchange today. Liverpool cables were lower and that, together with considerable profit taking in Chicago and Minneapolis, depressed prices for a time. The drop in Chicago was 1 5-8 to 1 3-4 and in Minneapolis about the same.

The world's shipments showed a good increase over last year but trading was not very active. Winnipeg sympathized with the markets to the south and showed a sharp decline. Weather was clear but it is to be colder tomorrow

'FRISCO GRAFTERS

San Francisco, Sept. 23—The state supreme court has sustained the validity of the grand jury which indicted Schmitz, Reuff and others.

NO TALK OF RECIPROCITY

F. G. HAULTAIN SAYS THAT DAY HAS PASSED IN CANADA

TELLS OF GREAT PROSPERITY OF NEW PROVINCES

St. Paul, Sept. 23—One of the leading men in public life in the Canadian northwest is in St. Paul today, in the person of F. G. Haultain, conservative leader in the province of Saskatchewan. When asked for a sketch of the situation in the Canadian west he said:

"Canadians are more concerned at the present time with the development of the material resources of their country than with questions of politics. We are right in the middle of a parliamentary term and it naturally follows that politics are not very active but as a matter of fact the people of Canada are getting closer together on political questions. It is only recently that party lines have been defined in our country, for before the territories were divided into the two provinces, Saskatchewan and Alberta, the entire population, I might say, worked together for one purpose. We are prospering and of course we are happy. Today about the only political question in Canada lies at the root of things, whether we shall have a good or bad government, and from what I hear that question is agitating the people of the states to a greater or less degree. It is just as important in Canada as it is with you. Many of the larger political questions have been done away with in Canada. The tariff question, as an illustration, has been practically settled. The people of Canada want a protective tariff, and, of course, what they want, they will have. When the present liberal party assumed power about 11 years ago, free trade was in the air, but now the people will not have it and both parties realize the fact."

Asked as to trade relations with the United States, Mr. Haultains said: "Regarding closer trade relations with the United States, you will probably hear much more talk about it on the American side of the line than in Canada. You know that for years Canada had a standing statutory offer looking towards reciprocity with the states, but you did not see fit to take it up, and now that you are anxious for reciprocity, we are lukewarm. Canada feels that she can take care of herself and the progress of her development seems to indicate it.

"Our section of the country has had a wonderful development during the past few years. Regina, which struggled along as a village for upwards of 16 years, is now a flourishing city of 9000 people."

C. P. R. IN ATLANTIC RATE WAR.

Montreal, Sept. 23.—The first indication of the Canadian lines taking a hand in the Atlantic rate war is the announcement this morning by the Canadian Pacific Atlantic Steamship line of the following minimum rates effective at once and until further notice: From Montreal to Liverpool on Empress of Britain and Empress of Ireland, first cabin, $55, second cabin $42.50; S. S. Lake Manitoba, first cabin $45, second cabin, $35; on Lake Champlain and Lake Erie, (one class cabin ships) $40. The rates westbound from Liverpool are not yet affected but it is expected that, commencing November 1st, the rates now obtained to Liverpool will become effective from Liverpool.

JAPANESE EXHIBITION.

Ottawa, Sept. 23.—Alex McLean, Canadian trade agent in Japan, announces that the Japanese government has decided to hold a great international exhibition in Tokio in 1912 and suggests that Canada should prepare to participate in a manner worthy of the dominion and its resources.

WON'T COME WEST.

Ottawa, Sept. 23.—It is not likely that the civil service commission will go west. It is desired to have the report ready for presentation to parliament before Christmas and this will not allow time for the trip west.

POLICE EXONORATED.

Regina, Sask., Sept. 23.—The inquiry into the charges recently made by Doukhobors in Winnipeg that they had been subjected to cruel treatment during their incareration here last year, was met by a complete denial of the officials of the R. N. W. M. P.

IS A FIASCO

How Europe Now Regards Peace Conference

SOMETHING WAS DONE

IS CHARGED WITH CONSPIRING TO DEFRAUD THE GOVERNMENT OF VALUBALE TIMBER LIMITS IN IDAHO—INTENSE INTEREST IS BEING MANIFESTED.

London, Sept. 23.—To call the international peace conference at the Hague a fiasco would merely be to repeat the public opinion of the whole of Europe. Its meetings long since have ceased to command attention and the newspapers are giving them less and less space. The cosmopolitan throng which appeared at Wilhelmina's capital early in the summer has dwindled to a comparative handful of officials. Only those compelled to remain on the spot for the signing of documents embodying the results of the meetings and a few secretaries remain. The others have dispersed to their homes or are touring Europe. The results attained give little satisfaction in England. Even those persons who at the commencement of the conference held the view that a mere discussion of the problems for which it was called to consider, would be a step toward the prevention of war, admit their hopes were unjustified and they now are among the first to condemn the entire proceeding, describing them as a waste of time. This failure to deal successfully with the great questions included in the program is credited largely to defects in the constitution of the conference by which the delegates are expected to perform in a few months what properly was the work of years, including as well, the recognition of all powers, strong or weak morally and physically as equals.

The overloading of the program with questions of naval warefare and on martime law, subjects for specialists, not diplomats, is also considered to have been a mistake, the debates on them leading to dissentions instead of agreements.

Government circles, however, are trying to find some excuse for the existence of the British delegation at the Hague. They summarize the accomplishments of the reference as follows:

The insuring of periodical meetings of the conference, the conversion of Germany to the principle of arbitration, the ercognition of the rights of neutrals, the institution of an international prize court.

The discovery by Europe of South American influence in international affairs, and through South America's initiative the abolition of the forcible collection of debts and the declaration of the nations in favor of obligatory arbitration and the humanizing of war in many directions.

Further, they claim that the air has been cleared on other points and add: We know where we stand and where the points of danger lie.

AN AWFUL STORM

Hurricane off the Newfoundland Coast Caused Many Wrecks Last Week

North Sydney, Sept. 23 — The steamer Bruce arrived here on Saturday night, 14 hours late, bringing meagre details of an awful storm off the Newfoundland coast last week. At Conception bay a terrific sea swept the track, threatening destruction and holding the train for 14 hours. The wind blew a hurricane and when the storm subsided the train crossed, reaching Port Aux Basques at 12:30. For miles along the railway from St. Johns to Port Aux Basques, the telegraph line is down and it is impossible to obtain anything but meagre details. Vessels were wrecked at Donovan, Bonaventure Bay, and two lives were lost. One vessel was lost with a cargo of fish valued at $20,000. Many fishermen lost their full season's catch.

AWFUL EXPERIENCE

Portage la Prairie, Sept. 23—A large number of laborers at the Mercer quarries helplessly watched John Hutchinson, a blaster, as he fought for half an hour in midair with a big mountain pilot snake, a poisonous species that had climbed down a ladder to attack him as he was swinging half way down to the bottom of a shaft 150 feet in depth, preparing to place a dynamite blast. None was able to render aid and Hutchinson was obliged to fight alone until he beat off the reptile, with an iron drill in one hand, while he clung to the rope with the other hand. He dared not drop the dynamite lest it caused an explosion that would have blown him to pieces and he was obliged to keep a tight hold on the rope or fall to the bottom of the shaft.

DASH FOR THE POLE

Halifax, Sept. 23—The Glouster yacht John R. Bradley, which left Sydney in June with Dr. Cook of New York and J. R. Bradley, the famous hunter, captain Bartlett, and a crew on an exploring trip to Greenland, is expected at Sydney on Sunday next. The yacht left Cook and the Norwegian steward at Elan, 190 miles from the pole, together with plenty of provisions. They will take Eskimos and dogs and make a dash for the north pole. Cook accompanied Peary on his previous trip and is confident of making good where Peary failed.

The Hudson's Bay Stores

Our New Stock of

Clothing, Gents' Furnishings, and Boots and Shoes

Is Beginning to Arrive

In about another week we will be able to offer full lines in these goods, and can promise you the best values ever offered in the city.

We will tell you more about them later on. In the meantime it will pay you to wait their arrival before purchasing elsewhere.

THE POLICE TANGLE.

The suggestion made by alderman Selous at the city council meeting last evening that the police trouble be referred to police magistrate Crease and mayor Gillett's intimation that he would be pleased to so advise the board of police commissioners, was timely and holds out some hope of an early and satisfactory settlement of a very unpleasant business.

In view of this course being pursued and of a satisfactory adjustment of the trouble thus being reached, additional statements in connection with the affair, which it had been the intention of The Daily News to publish this morning, are withheld.

For the sake of the good name of the city it is to be hoped that the board of police commissioners will prove amenable to reason in this matter and accept the advice of the police magistrate, who by long experience is eminently fitted to adjudicate in such an affair.

Nelson has had good reason to be satisfied with its police force in the past and ever unbiased citizen would regret to see it entirely disorganized because of the misdemeanors of one individual.

THE ALL-RED LINE.

There is a paragraph in the annual report of the directors of the C. P. R., which may be more significant than would appear to be the case on a first perusal. The paragraph in question reads:

"The subsidy that is now being paid to your company for the carriage of the mail between Liverpool and Hong Kong will expire on April of next year and it is not improbable that a faster and more frequent service will be made a condition of its continuance. In view of this fact your directors recommend that they be authorized to arrange for the acquisition of two steamships to meet the requirements of your Pacific trade, or to build two larger and faster boats for the Atlantic trade and transfer the Empress of Britain and Empress of Ireland to the route between Vancouver and Hong Kong."

Does this signify that the C. P. R. is back of the All-Red line project? Subject to proper safeguards, we hope that is a fair inference. The C. P. R. is entitled to first consideration in the carrying out of the project, in fact it is difficult to conceive of its materializing at an early date without the co-operation of the Canadian Pacific Railway company, which already operates an All-Red line of its own. It is known that lord Strathcona is one of the most active promoters of the project and his interests and those of the C. P. R. are very close. Heretofore it has appeared that the C. P. R. was not very greatly interested in the project, but that apparent indifference may have been assumed for the occasion, or it may be that lord Strathcona has won over the directors to his way of thinking. In any event, the public would welcome the announcement that the C. P. R. was actively interested in the All-Red line, for that company's active participation in the undertaking would be an assurance of an efficient service, and moreover it would ensure the favorable reception of the project in Great Britain, where a large proportion of the money will have to come from.

EDITORIAL NOTES.

At a caucus of the liberal members of the Ontario legislature Mr. A. G. McKay, K. C., of Owen Sound, was elected provincial leader in succession to Hon. George P. Graham, who has entered the Laurier cabinet. Mr. McKay's selection was a foregone conclusion so that the announcement did not occasion any surprise. Mr. McKay is a brilliant speaker, one of the best stumpers in the province. He is a clever lawyer, especially successful in criminal cases and is deservedly popular. He will devote considerable time to organization work in the province and will have the hearty co-operation of Mr. Graham. The selection will prove a popular one with liberals.

The causalty returns of the Canadian railways for the nine months ending the first of April show 460 killed and 603 injured, as follows: 42 passengers killed and 210 injured; 321 employees killed and 317 injured; 206 other persons killed and 76 injured.

The level crossing accidents show 41 killed and 22 injured. Two were killed and 32 injured by trespass; 46 were killed and 29 injured while working on the railway tracks; 44 were killed and 109 injured in head on collisions.

Sixty-one bodies have been found on the railway tracks and bridges during the period in question.

Solicitor O'Donoughe's report to the dominion trades and labor congress contains the following reference to the Lemieux Act:

"The Industrial Disputes Investigation Act, 1907.—The full importance of this bill has not, probably, been fully understood by all the constituents of the congress. In my opinion organized labor has gained much by its passage into law, if for no other reason than that by it, the grievances of workmen are publicly ventilated while, at the same time, they are enabled to remain at work and receive their daily wages. Moreover, unincorporated trade unions are officially recognized by the bill and their representatives are entitled to a hearing before the public body constituted under it. In this regard the bill marks a great advance in public opinion and to that extent will deprive individual employers of an argument that is very often resorted to by them to avoid recognition of a trade union."

LeaderBorden has been telling Toronto papers that he finds a decided reaction against liberalism throughout the country. It would be interesting to learn from Mr. Borden what evidences of reaction he encountered in St. John, N. B., where a seat formerly held by a conservative was allowed to go to a liberal by acclamation. If the debacle had commenced one would have thought that the St. John bye-election offered the time and place to make the fact patent to all men. Notwithstanding his pre-election talk of reaction, leader Borden was shrewd enough not to put his alleged convictions to the test by contesting either St. John, N. B., or Brockville, Ont.

The First Great English Novel That Has Appeared in the Twentieth Century.

Such is the term applied to

JOSEPH VANCE

By William DeMorgan.

"It is a book, not of the last year but of the last decade; the best thing in fiction since Mr. Meredith and Mr. Hardy, a book that must take its place by virtue of its tenderness and pathos, its wit and humor, its love of human kind and its virile characterizations, as the first great English novel that has appeared in the twentieth century."

In cloth binding only $1.25.

MINARD'S LINIMENT CO., Ltd.

Dear Sirs—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your liniment to allay the irritation and did so. The effect was more than I expected, a few applications completely curing irritation and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the Mosquitoes. Yours truly,

W. A. V. R.

STANDARD OIL'S DEFENSE

TO MEET THE GOVERNMENT ON EVERY POINT.

FACTS BROUGHT OUT AT THE HEARING YESTERDAY.

New York, Sept. 23.—The line of defense of the Standard Oil Co., of New Jersey, to the allegations made by the federal government in its suit against the company was indicated in the hearing today, when Tilford, treasurer of the Standard Oil Co., was cross-examined by John G. Milburn, chief of counsel for the defendants. Mr. Milburn's interrogations to the witness were designed to show that in the oil fight in Colorado between the Standard and the independent companies, the first to cut prices were the independent companies, except those which arose from natural causes. Mr. Tilford explained that the reason why the supply of crude oil had been cut down to the sixteen independents in the Pittsburg field just before the agreement was made with the Standard, was because the oil supply in that district was diminishing. Mr. Milburn developed the fact that the oil firm of Schofield, Schauamer & Tagle of Cleveland, independent company, was not forced into the Standard's control but had been taken over after many suggestions from the officers of the Schofield company. The questions that adduced this testimony and others put to the witness showed that the defendants intended to meet the government on every point raised in the long bill of complaint.

TO GIVE BATTLE TO AZIZ

MULAI HAFIG, THE PRETENDER, ON THE WAR PATH

BLAMES PRESENT SULTAN FOR THE MOROCCAN UNREST

Casa Blance, Sept. 23—Mulai Hafig is reported to have left Morocco City on Sept. 19 with the intention of giving battle to his brother, sultan Abdul Aziz, now at Rabat. Mulai Hafig had with him 1500 men and some artillery.

Tangier, Sept. 23—The various European representatives here have received copies of a letter written by Mulai Hafig, brother of the sultan of Morocco, who is the pretender to the throne, in which he blames the present sultan for the state of unrest existing in Morocco and points out that his action in assuming power is supported by the teachings of the Koran. He asks the powers to remain neutral in the contest between the sultan and himself and assures them that Europeans will be protected wherever he has the power to protect them.

BORDEN'S OPPORTUNITY

Pugsley Challenges Him to Investigate the Nova Scotia Election Funds of 1904

Hon. Wm. Pugsley, minister of public works, addressing the liberals of Fairville, N.S., the other evening, dealt with various topics of interest but paid special attention to Mr. Borden's call for election purity.

The conservative leader, he said, was going around the country speaking as if he and his party were entirely innocent of having spent any money. He, Mr. Pugsley, was willing to admit that money had been spent in his elections. He would not be hypocritical about it. He knew a prominent conservative to go over to Nova Scotia and while admitting that money had been spent in his election, thanked God it was his own money.

"But I know," said Dr. Pugsley, "that there was raised in the county and province and even outside of the province the sum of $25,000 to secure that gentleman's election. We all want electoral purity but we should not act the hypocrite about it.

"My view of the matter is that it would be well for Mr. Borden to turn his attention to his own party first. If he himself is not willing to tell, perhaps he could get some of his leading friends to state what amount of money had been spent throughout Canada to secure the return of conservative candidates in 1904. The amount would startle the people of this country as they were never startled before."

Mr. Pugsley said he could show that $500,000 had been raised and distributed to secure the defeat of sir Wilfrid Laurier and his government in the election of 1904. It might be said he gave no evidence of this charge.

"If Mr. Borden has any doubt about it," said the speaker, "I invite him to have an action brought against me, and I will prove it. The evidence will then be forthcoming before the public."

DR. HALL'S MOVEMENTS.

Will Make a Tour of Province and Go to England Next Summer.

Dr. G. A. B. Hall was interviewed by a reporter of The Daily News yesterday relative to his movements in the near future.

Dr. Hall said: "I am retiring from general practice at the end of this present month, as I have contemplated doing for some time. Dr. W. O. Rose and Dr. Hartin have formed a partnership and have purchased my x-ray instruments and office furniture, they will occupy my present offices .

"I propose going in for a good hunt in the hills this fall and afterwards I am going over the province as thoroughly as I can in order to acquaint myself with the general situation, and with the province's most pressing needs so that when the legislature next meets I may be properly and thoroughly posted, as I believe a member of parliament should be in order that he may take an intelligent part in the discussions of the house.

"After the session is over I propose to take a post graduate course in surgery in the old country and most of my time next summer will be spent in England. When I return I will restrict my practice to surgery only.

"There has been some mention of my leaving the city before my term of office expires but my political friends and my constituents can rest easy in the matter for if I should at any time find that I am unable to give proper attention to my parliamnetary duties, or should eventually decide to leave the constituency I represent before the expiration of my term, my supporters will have ample opportunity of doing as they please with my resignation."

RESUME HOSTILITIES.

General Drude Destroys Moorish Camp —Surrender of Arms Demanded.

Casa Blanc, Sept. 23.—Negotiations for cessation of hostilities have failed. General Drude on Saturday resumed the offensive and burned the Moorish camps at Jidi Brahim, south of Casa Blanca, and dispersed the tribesmen who offered but little resistance. These operations were chiefly notable for a brilliant forced march of the French troops who covered forty kilometers inside of twelve hours.

The expedition consisting of 2,000 infantry with a detachment of cavalry, artillery and native auxiliaries, left camp before dawn, and formed into hollow squares, one behind the other. In this formation they marched some distance under the cover of darkness, and unobserved by the tribesmen. A heavy morning sea fog came up at daybreak and forced a half hour's halt, during which shots by the advance guards gave the alarm to the enemy. The tribesmen came up in large numbers, but a vigorous attack by the first square soon dispersed them. No further stand was made by the enemy during the march, although scattered groups of horsemen harrassed the French flanks. After the destruction of the camps had been effected, the tribesmen returned to the attack, a troop of cavalry repelling a spirited charge by the Moorish horsemen. The French then abandoned their defensive formation and the column returned to camp. Their losses were one killed and ten wounded.

The destruction today of the Moorish camp at Sidi Brahim, south of Casa Blanca ,and the dispersing of the tribesmen has resulted in new overtures for peace. Several caids representing Oulseeyan, Zanata and Zyada tribes, presented themselves at general Drude's headquarters last evening to discuss the conditions which the French commander proposed for their submission. His terms include the unconditional surrender of the Moors of their arms, against which the caids are holding out, but upon which the French authorities insist.

HARROP NEWS NOTES

(Special to The Daily News)

Harrop, Sept. 23—Construction work on the much needed government wagon road between here and Procter was commenced today.

W. B. Hill of Winnipeg will arrive here on Thursday and will at once commence to build a residence on his newly acquired property. Mr. Hill proposes putting the whole of his land in orchard this fall.

Inspector of schools Gillice spent Saturday here completing arrangements for the building of the new school house.

D. A. Mackenzie has disposed of five acres of the McCoy ranch. The new purchaser intends settling on his property this fall.

APPOINT THIRD ARBITRATOR.

The matter between the miners of the St. Eugene and the Consolidated company on a qeustion of wages will come up under the Lemieux Act on October 7 at Cranbrook for arbitration. The Consolidated company have nominated J. A. Harvey of Cranbrook as their arbitrator and the men S. S. Taylor of Nelson as their representative on the arbitration board. These two arbitratons have agreed upon P. E. Wilson judge of the county court of East Kootenay, as the third arbitrator, the arbitrators having all been approved by the dominion government.

In the meantime the men at the mine are still going on with their work.

Minard's Liniment for sale everywhere.

TO RECOVER AMERICA CUP

SIR THOMAS LIPTON'S LATEST CHALLENGE RECEIVED

SEVERAL NEW YORK YACHTSMEN PREPARED TO COMPETE

New York, Sept. 23—Sir Thomas Lipton's challenge for the America cup reached here today with the steamer Umbria and members of the New York yacht club are waiting with interest the meeting on Wednesday, when the challenge will be formally considered. It was said that no intimation of the contents of sir Thomas' communication would likely be divulged until after the meeting. It is said, however, *by club members that sir Thomas* wants to compete for the cup with a sloop 75 feet in the waterline and the present racing rules of the club to govern. With a 75 foot waterline the Irish challenger will spread something like 7000 square feet of canvas. That sir Thomas has not challenged under the old racing rules under which the Reliance, Columbia and Shamrocks were built, is certain, for William Fife, the English designer, who has drawn the plans for sir Thomas, informed an interviewer while here recently that England would never contst for the America cup under the old rules, whose conditions made impossible any chance of success for the challenger. Those members of the club who have been active in cup matters in the past declare that a race for the America cup should be a contest for the fastest yachts that could be built and that the only condition imposed should be that the waterline lengths should not exceed 90 feet. *If the contest is sailed under new rules,* several prominent yachtsmen, it is declared, will build boats to try for the honor of defending the cup.

Preparations for the defence of the America cup has been begun by the New York yacht club. At last one syndicate is being organized to build a yacht to defend the trophy and there may be a second, perhaps more. There seems to be only one opinion as to the management of the defender. Everyone appears to agree that it will be vested in E. D. Morgan. It is understood that several of the more prominent younger men in the club have either tentatively or definitely promised to subscribe to the syndicate, and that a few others of the older men who have not been represented in previous syndicates will subscribe. Those mentioned as being generous subscribers to the syndicate are Edward H. Harriman, Col. Robert Thompson, C. K. G. Billings and R. A. Rainey.

The cost of reproducing the Reliance would be upwards of half a million dollars. The Reliance cost $200,000 to build and $200,000 to run, while the club spent $50,000 for the mere conduct of the races. Material and workmanship are more expensive now than they were then and it is believed that the new defender will exceed these figures.

ANGLO-RUSSIAN CONVENTION

Formal Ratification took Place Yesterday at Russian Foreign Office

St. Petersburg, Sept. 23—Ratification of the Anglo-Russian convention took place at the foreign office here this afternoon. The Anglo-Russian convention regulates the respective interests of Great Britain and Russia in Thibet, Afghanistan and Persia. Russia maintains her position in the north of Persia and Great Britain to the south. The other governments interested in Persia have been assured that the convention does not threaten the integrity of that country and does not interfere with the vested interests of any one. For this reason the question of the Bagdad railroad is left to future negotiations between the powers, including Germany and France. The convention guarantees *the maintenance of the present position of* Thibet and Afghanistan, each of the contracting powers agreeing not to endeavor to obtain any advantage in these fields which might be to the disadvantage of the other. Russia, it was announced on Sept. 20, made prompt use of the free hand given under the terms of the Anglo-Russian convention and conveyed a direct plan to the national assembly at Teheran of Russian occupation of the northern part of Persia, if the Persian authorities were unable to put down the state of anarchy existing in the tribes adjoining Russian territory.

ATTACK OF DIARRHOEA CURED BY ONE DOSE OF CHAMBERLAIN'S CHOLERA AND DIARRHOEA REMEDY.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely, and I had been taking other medicines for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

MINING RECORDS

Certificates of work have been granted on the Sunshine to J. F. Westby for Dr. Eitel; on the St. Lawrence and Sunshine for work done on the former, to T. Wall for the recorded owner; on the Royal fraction to D. Booth; on the Belcher to J. L. Purdy; on the Belcher Boy to J. L. Purdy for work done on the Belcher to J. L. Purdy for the recorded owner; on the Queen Victoria fraction to T. Brown, for M. Egan; on the Cloude to H. Steffens.

Records have been made of the location of the Sunhen Bell on Goat creek, by C. Kerher; of the Kathleen on 5-Mile creek, by C. J. Robertson and of the Goldie, on Duck mountain by W. Beathier.

THE DAILY NEWS

PRINTERS AND PUBLISHERS

NELSON NEWS OF THE DAY

The weather has been considerably warmer during the past two days. On Sunday the thermometer varied between 46 and 71 degrees and yesterday between 44 and 74.

F. C. Gamble, provincial government engineer, has ordered the reroofing of the office of the provincial police, one of the oldest buildings in the city, formerly serving as the city gaol.

The Industrial Workers of the World have postponed their meeting called for this evening until next Friday, the 27th instant, when a special meeting will be held.

There will be no meeting of the 20,000 club this evening but a general meeting will be held next Tuesday evening when the accounts for the past month will be presented and the standing of the club will again be gone into.

This evening Queen City Rebekah lodge No. 16, I.O.O.F., will celebrate the 66th anniversary of the Rebekah degree I.O.O.F. The committee in charge of the celebration request all Odd Fellows and their wives and all members of Queen City Rebekah lodge to assmble in the lodge room at 9 p.m. Visiting members are cordially invited to attend.

A. M. Johnson yesterday received a letter from John P. Woodward announcing the death of Hedley Herbert Sewell, formerly of Smith and Sewell, ranchers at 13-Mile point, at Old Albuquicque, northern Mexico. The cause of death was peritonitis, following an attack of typhoid fever. The sister of the deceased was also down with typhoid fever, but recovered, and with Mr. Woodward, was present when the end came. The deceased and his partner left here on May 22 to start fruit growing in Mexico.

In addition to the criminal cases of Rex vs. Bouchard and Rex. vs. Beckett, already referred to, two more indictments have been sent in for the assizes, which open here before Mr. justice Morrison, this day week. Weston and Dalligher of Rossland are jointly charged with theft and Maurice J. O'Connor of Greenwood is charged with assaulting chief of police A. E. Savage of Greenwood on the 14th of August, whilst the chief was in the discharge of his duties. In all probability the assizes at Greenwood next month will be cancelled and the single case on the criminal list sent here for trial.

To Fruit Growers of Kootenay District—Everybody with whom I have talked say that Martin Burrell of the Riverside Nurseries, Grand Forks, B.C., had the finest two year old apple trees at the Nelson fair they ever saw. All who want home grown trees direct me a postal card and I will call on you at once. Roy Chase, Agent, Slocan Junction, B.C. 133-1

CASE WAS ADJOURNED

Grove Hotel Scandal up Before the Stipendiary Magistrate

More details of the trouble at the Grove hotel on Sunday afternoon, Setp. 15, were aired in the stipendiary magistrate's court yesterday afternoon when chief of provincial police Devitt charged Jack Redding with disorderly conduct in a public thoroughfare, disturbing the peace and quiet of residents near that thoroughfare. A. M. Johnson appeared for the defendant, who pleaded not guilty.

The only witness called yesterday was John S. Johnson, who lives near the Grove hotel. Mr. Johnson said that he had been witness to a party of women accompanied by two or three men, landing from a launch near the Grove hotel in the afternoon of the Sunday in question. They were yelling and hooting. They went to the hotel and got some liquor and then went back to the launch and went up the lake, coming back in a short time and getting more drink and making a bigger disturbance than before, the women exposing themselves "in all shapes and descriptions." The women were drunk.

Mr. Johnson could not identify the defendant as one of the men with the party. He could not say whether the shouting had been on a public thoroughfare and he was not certain whether the conduct of the party did disturb his peace although he was sure that it should have done so. But that morning, meaning Monday morning, Sept. 23, the defendant had come to him unsolicited and had admitted that he was one of the party and was sorry for it.

The case was then adojurned at the instance of the crown until 3 o'clock this afternoon when other witnesses will be produced to prove the presence of the defendant.

IN CHAMBERS

Cases Disposed of Yesterday by the County Court Judge

In chambers yesterday before his honor judge Forin, the following applications were disposed of:

Harrison vs. Pennock, W. H. Bullock-Webster obtained an order for payment out.

Power vs. Cortiana, W. A. Macdonald, K.C., for the Jackson Mines; R. M. Macdonald and A. M. Johnson for judgment creditors ;abandonment filed by all judgment creditors as against the Jackson Mines, Limited, except Power. Order made for payment to Power of $300 in full settlement and balance in court to go to the Jackson Mines. This is the termination of the most protracted litigation before the courts in many years.

Genelle vs. Genelle, order made for security for costs of appeal to be given within ten days; Macdonald, K.C. for the application.

In Robert Reid vs. the Argenta Mines, the learned county court judge, as arbitrator, has handed down his compensation finding for the injuries sustained by Reid at the mine on the 8th of March last, Reid having lost the sght of the right eye totally, his left eye being injured, and the fingers of his right hand being badly crippled. He is to be awarded $7.50 a week, from March 23, the total sum not to exceed $1500. If the company provide Reid with work that he can do and pay him the going wage therefor, compensation is to cease during such employment.

CHAMBERLAIN'S COUGH REMEDY ONE OF THE BEST ON THE MARKET.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity, until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take, and is unloubtedly the best on the market for the purposes for which it is intended. For sale by all druggists.

KOOTENAY FRUIT LANDS

A conversation heard on Baker street, Nelson, on August 30th, is as follows:

Q. Who did you buy your fruit land from?

A. Mr. Annable.

Q. Where is it located?

A. At Burton City.

Q. Why do you consider it the best?

A. Well, it is good soil, free from stone, the land is level and there is a nice stream of water which can be run over every block and you can have it piped into your house; and above all he has all the blocks laid out so that each one has a lake shore frontage, and it is close to town and there is a nice settlement, one 30 acre orchard and several smaller ones on the next lots.

Q. How is the price?

A. It is not any higher than others are charging for land away back from the lake shore.

Q. What communication?

A. Two steamers every day and daily mail.

Q. Well I am going to see that Burton City land before I buy. Where is J. E. Annable's office?

A. It is next to the postoffice in Nelson. Good-bye.

FOR SALE

On High street, Hume Addition, a 4-roomed cottage and two lots; electric light, city water. Everything is neat and in order. One of the prettiest spots in Nelson. Nine hundred and fifty dollars; terms given.

NELSON, B. C.

MAKE SOME CONCESSIONS

CONFERENCE BETWEEN C. P. R. AND NELSON BOARD OF TRADE.

NEW TARIFF TO BE PUBLISHED BY OCTOBER 15.

There was an important meeting held yesterday afternoon at the C. P. R. offices between the freight committee of the Nelson board of trade, accompanied by their solicitor, S. S. Taylor, and F. W. Peters, general freight manager for the western lines. The meeting was held at the invitation of Mr. Peters and certain modifications of the present tariff which are to come into effect were laid before the committee which promised to suspend further action in their appeal to the railway commissioners until the new tariff has been published. This Mr. Peters said would be the case before October 15 next.

Mr. Peters explained that there would be modifications in the tariff in commodity and class goods and in the outgoing rates from Nelson. One of the modifications would be that the outgoing rates from Nelson would in future be placed upon a mileage basis.

Mr. Peters in referring to the incoming rates on eastern goods declared that the basis of charge was not the rate from the east to Vancouver plus the rate back to Nelson but was based on the eastern rate to Spokane. The committee of the board of trade informed Mr. Peters that they would lay his proposals before the board they represented as they were not empowered to enter into and definite agreement.

The committee invited Mr. Peters to consider the advisability of basing the incoming rates into Nelson on eastern goods on the prairie rate to the mountains to Nelson, thus eliminating the basis heretofore prevailing whereby Nelson has had to pay the high mountain rate through the mountains on all goods.

Mr. Peters understood that if the new tariff of October 15 is not satisfactory the appeal to the railway commissioners will be proceeded with.

MILES FERRY.

C. P. R. Shut Off the Flag Station—Protest is Lodged.

Several of the residents of Miles Ferry came to the city yesterday to lodge a protest against the shutting of Miles Ferry as a flag station. It seems that H. C. Bullis went down on Saturday buying a ticket to Miles Ferry and was told after having got some distance on his journey that he could not be landed at Miles Ferry, the conductor offering to put him off at the upper Bonnington station. This Mr. Bullis refused to take advantage of and went on to Slocan junction, returning to Nelson without being able to get to his destination. He has lodged as complaint. Mr Bullis is aware that there was an article appearing in The Daily News some time since saying that there was a change in contemplation in this regard but declares that there has been no notice to the effect that the new ruling had been made. Evidently the ticket sellers have had no such warning. Mr Bullis stated that he was informed mayor Gillett was consulted by the C. P. R. authorities and made no objection to the proposed change. It will, however, be difficult, Mr. Bullis says, to get supplies into the city power plant via the upper Bonnington station, inasmuch as they would have to be packed back for a mile over the railway track, there being no road. Hence it would seem as if the only way of getting supplies to the power boarding house would be by wagon road from Nelson which would add considerably to the cost of the plan to the city.

ANOTHER TRUNK MYSTERY.

Body of Young Girl Found in One at Elliot Bay, Near Seattle.

Seattle, Sept. 23.—The body of an unknown girl, about 18 years old, was found in a trunk yesterday on the beach about two miles south of Elliott Bay. In the trunk were two letters, one of which may lead to her identification. This letter was written on a letter head of the J. B. Covington Fuel, Feed & Hauling Co., St. Paul, Minn., and was signed Edith.

St. Paul, Sept. 23.—J. B. Covington of this city, whose firm's letter paper was found in the trunk containing the body of a young girl at Elliott Bay, near Seattle, gives the following explanation of how the firm's letter paper had come to be in the trunk.

"Edith Covington, aged 25, and Frank Covington, aged 22, were brother and sister, raised by their grand parents in Cattlesburg, Ky. After they had grown up they paid me a visit and the boy left here for San Francisco. While he was there, his sister, who was still in St. Paul, received a letter saying he was going to the Klondike. That was the last we heard from the young man. The latter married and is now living in Rutherlen, Va. We have not heard from her directly but had news from her recently, and she is happily situated. A few days ago a letter came to her here from Seattle and we forwarded it to her. I persume that while Edith was here she wrote to her brother on the firm's letter paper, and that may explain how the letter got into the trunk. The theory is that Frank left his trunk behind him when he went to Klondike and it may have fallen into other hands. The boy always bore an excellent reputation. That is as much light as I can throw on the matter."

Minard's Liniment Relieves Neuralgia

LAME BACK.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications affected a cure." For sale by all druggists.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

MEAGHER & CO.

Agents for Standard Patterns — Madden Block, Baker and Ward St.

A Choice Improved Fruit Farm

Containing 41 acres on the east shore of Kootenay lake, not far from Earl Grey's ranch. The soil is a deep red loam with clay subsoil, practically free from rock and can be cleared thoroughly for $20 an acre.

A fine stream is running through the property, with water right of 12 inches. The neighborhood is well settled. As a commercial proposition this is cheap when compared with other land that has been sold nearby.

Eight acres are cleared, there being 500 apple trees, some cherry, plum and walnut trees planted. Also five acres partly cleared. The above description also applies to a ten and twenty acre block adjoining, except that the water record is three and six inches respectively.

Price of ten acre block $100 per acre and for the 20 acre block $80 per acre. Price for 41 acre block, $5500; terms to suit.

For further particulars see or write

NELSON NEWS OF THE DAY

J. E. Daniels, U.S. customs officer at Northport, was a visitor to Nelson yesterday.

Mrs. A. Larson and her daughter, Mrs. F. H. Hillam, left last night for a week's visit to the Spokane fair.

The floral judges of the fair have examined the lawns and gardens which were entered in the competition and have awarded the prze to Mrs. D. C. McMorris.

St. Paul's church Christian Endeavor will hold their usual meeting this evening at 8 o'clock. The topic for discussion will be "The Disused Talent." Everyone interested is invited to attend.

The Kaslo fruit fair opens today at 1:30 and will be open tomorrow from noon. The steamer will leave Kaslo at 6 o'clock this evening. A. W. Dyer of The Daily News staff goes to Kaslo this morning to obtain a report of the fair.

The annual general meeting of the Nelson Liberal association takes place this evening in Miners' union hall. In addition to the election of officers for the coming year, a very important matter in itself, the meeting will be called upon to select delegates to attend the provincial convention to be held in Vancouver, Oct. 1. Every liberal in town should endeavor to put in an appearance at the meeting. It is most desirable that the gathering should be thoroughly representative so that a wise choice of officers and delegates may be made. President Docksteader will occupy the chair and open the meeting at 8 o'clock.

Persons having accounts against the Nelson Agricultural and Industrial association are requested to send them in to the secretary as soon as possible. Prize winners at the recent fair are advised that the secretary will be prepared to pay all premiums on Thursday next. Before then it will be useless to make application for payment as the returns will not be completed.

A well attended and enthusiastic meeting of the Nelson Young Liberal's association, was held in A. M. Johnson's office last evening, with president Victor W. Odlum in the chair. After some discussion the following delegates were nominated for the provincial liberal convention which meets at Vancouver on Oct. 1: V. W. Odlum, A. M. Johnson, W. G. McMorris and C. F. McHardy. These names will be sent on to the meeting of the senior liberal association which holds its annual meeting in Miners' union hall this evening.

The mayor and alderman Selous had the electrical superintendent on the carpet yesterday concerning his conduct on Saturday night. The official stated that he was merely enjoying himself with the rest of the crowd. The acting chief of police and acting constable Wightman were called in and they very reluctantly admitted that the superintendent was considerably under the influence at the exhibition grounds and later on. It was stated that a flask was carried about and apparently on further cross-examination of the official, that individual went to pieces and later on agreed that he would send in his resignation.

Yet another party of emigrants, sent out by the Rev. J. L. Brooks agency, has arrived in Nelson, expecting to find work at $3 a day and free board. It appears to be a very difficult matter to head off this parson's work. Cables to the high commissioner for Canada and the agent general for B.C. have had no effect. Parson Brooks had ample notice to stop this last party, but he is not doing stopping, in fact he has yet other parties under way. It is to be hoped that directly immigration agent Dunlop of Fernie, who was up here recently to investigate the matter, hears of the latest development in the case, he will telegraph Ottawa to take strenuous measures to prevent parson Brooks perpetuating his fraudulent practices.

William Jewell, the C.P.R. conductor, charged with assaulting Jack Bunyan last Friday night, telephoned over from Eholt yesteday and asked if the police wanted him. On being informed that a warrant was out for his arrest, he stated that he would return to the city at once. Jewell's friends think that a summons, in place of a writ of arrest, would have fully answered the occasion but if Jewell's is arrested upon his return, bail will be promptly offered and counsel will appear for the accused. Jewell declares that he was first attacked and will ask for a counter summons for assault.

PARSON TO PRESIDE

Ottawa, Sept. 23—Rev. Hugh Grant of Fernie, has been appointed chairman of the permanent committee of arbitration between the coal companies operating in the Crow's Nest Pass, and their employees.

PREMIUMS WITH GOLDEN WEST SOAP—Save wrappers and ends of cartons of Golden West Soap and Golden West Washing Powder—each end of carton represents three wrappers. Write Standard Soap Co., Calgary for particulars. 127-tf

SHOT WITHOUT TRIAL.

Lodez, Russia, Sept. 23.—Seven workmen and two girls were executed here today by shooting, without trial for participation in the murder of Marcus Silberstein, owner of a large cotton mill, who was killed by his employees Sep. 13, because he refused to pay them for the time they were out on strike.

Police and troops on Sept. 20th made a sudden descent and arrested 800 of the employees.
