## IRON MINING

### Big New Industry to Be Added to Kootenay

### BLAST FURNACE TO GO UP

TIME HAS ARRIVED FOR KOOTENAY LAKE TO TAKE ITS PLACE AS THE CENTER OF STEEL PRODUCING MANUFACTURE WITH A LARGE MARKET.

(Special to The Daily News)

Vancouver, Aug. 16.—"Within two years we shall be supplying steel rails to all points on the continent west of the Rockies and to the Orient. Ideal conditions for the creation of a great iron industry exists in East Kootenay, owing to the proximity of iron and coal," said C. P. Hill, general manager of the coal mines at Hillcrest, Alta., today.

Hill was the original locator of the famous hematite iron deposits, eighteen miles west of Kootenay Landing. Several years ago he disposed of a controlling interest to prominent eastern officials of the Canadian Pacific, including Shaughnessy and Charles Hosmer.

On a recent trip east Hill was authorized by members of the syndicate to lay out a comprehensive plan of development, involving the expenditure of several million dollars. It is understood that a large blast furnace will be erected on Kootenay lake next year. The plans will be drawn by a well known Pittsburg expert.

"The iron veins on our properties have been traced and prospected for a distance of seven miles," said Mr. Hill. "They are ten in number, the widest having a thickness of twenty-three feet. We have all kinds of fluxes in close proximity to iron deposits.

"In connection with the industry we purpose developing water power on Elk and Goat rivers. The deposits are within three miles of the Canadian Pacific and we have a down grade. The ore will be handled by retarded conveyors with a capacity of three thousand tons every twenty-four hours. With coal in close proximity there is no reason why steel and iron business of the west and the Orient should not be controlled by Canadians. We have the advantage of location as compared with eastern competitors."

This afternoon a fireman on the Australian liner Manuka, about to sail, deserted, and after an hour's hunt the police captured him, when he was placed in irons on the vessel. Immediately the other fourteen firemen jumped to the wharf and scattered about the city. Another two hours' work of the police rounded the men up and a ship's boat started with them for the liner. When near the ship ten men leaped into the water and started swimming away in various directions. It took a steam launch another hour to gather them up. The men declared they will again desert at the first opportunity.

#### HARTINGER WINS.

His License for Grand Forks Hotel Renewed by Commissioners.

(Special to The Daily News)

Grand Forks, Aug. 16.—A meeting of the city license commissioners was held yesterday afternoon to deal with the matter of F. Hartinger's license, the latter having been granted a renewal subject to certain improvements being done to his property, the Grand Forks hotel, by August 15th.

W. B. Cochrane appeared on behalf of the Licensed Victuallers' Association to oppose the granting of the license. A. C. Sutton appeared for Hartinger. Mr. Cochrane's arguments in brief were that under the Act the commissioners had no power to deal with licenses for a shorter period than the full term; further, that the commissioners must sit in open court. He urged that on the meeting of June 12th, which was a statutory meeting, the commissioners refused to renew Hartinger's license; that the meeting adjourned until the 17th when they again refused, adjourning sine die. The meeting on July 15th was not held under the conditions provided by the Act and a license granted in such a way was ipso facto null and void.

Mr. Sutton argued that the commissioners had clear power under the by-law to grant a renewal pending certain improvements to be made by a stated time. The adjournment sine die was simply because of the inability to fix a convenient date and to all intents and purposes the July 15th meeting, which was called by the clerk of the board of commissioners, was an adjourned meeting. Mr. Hartinger had complied with the requirements laid down. He had spent $700 in additional improvements and counsel claimed that he was rightfully entitled to his license. The commissioners took the same view and the license of the Grand Forks hotel therefore is still good.

#### TRAIL SMELTER HANDICAPPED

Rossland, Aug. 16—The furnaces of the Consolidated company's smelter are out of commission ad three runing. Half of the furnaces are out of commission owing to lack of coke. There is no shortage of cars to transport coke but the principal cause is lack of men at the collieries and coke ovens. This is due to the fact that the coal and coke compales pay less wages than are paid in metalliferous mines. Besides this considerable of the coke produced in the Crow's Nest Pass is sent to Montana. This is resented by managers of plants using coke in this province, who consider that home plants should be served first. Unless the coke supply is increased all the furnaces at Trail will have to be shut down.

#### BOUNDARY'S JULY ORE OUTPUT

Marked Increase Over Output for Same Period in Previous year.

(Special to The Daily News)

Phoenix, Aug. 16—Figures having been compiled showing the output of Boundary ores for the first month of the last half year, give a total of more than 150,000 tons copper ore mined and smelted in this section. The Granby's 80,000 tons is at up to some previous records, but B.C. Copper's Mother Lode mine gives over 20,000 tons; Dominion Copper shows over 23,000 and Snowshoe also shipped over 20,000 tons, all three of the latter being more than ever turned out by those mines before in a single month. The total for all the mines for July is many thousands of tons more than in a similar period previously, and was the first really good month enjoyed by the district mines this year.

In details the figures of output from the several properties for July, in tons, were as follows

| | |
|---|---|
| Granby Mines | 80,216 |
| B. C. Copper Co.: | |
| Mother Lode | 21,040 |
| Emma | 350 |
| Oro Denoro | 4,556 |
| | 25,946 |
| Dominion Copper: | |
| Brooklyn | 6,799 |
| Rawhide | 9,422 |
| Idaho | 1,913 |
| Sunset | 5,158 |
| Mountain Rose | 614 |
| | 23,806 |
| Snowshoe | 20,840 |
| Providence | 30 |
| Skylark | 20 |
| Sally | 25 |
| July total | 150,873 |

#### GREENWOOD GOSSIP

(Special to The Daily News)

Greenwood, Aug. 16—J. Robertson, one of the employees of the B. C. mile at Eholt, had a 22 bullet extracted from his knee at the Sisters' hospital. He was handling the rifle when it accidentally discharged.

A car of high grade ore was shipped from the Providence mine this week.

The Greenwood Miners 'union is holding a Labor day celebration at Curlew lake on Sept. 2. Excursion rates are to be secured from the C. P. R. from all surrounding points.

John B. Fischer, who recently arrived from the coast, died on Sunday last.

The Greenwood Citizens' Band held an open air concert Thursday night. Quite a number of townspeople turned out and enjoyed the music.

Andy Hamilton, an old timer in the district, was taken to the Sisters' hospital on Tuesday, suffering from rheumatism.

#### AFTER CHICAGO AND ALTON

Charged with Confiscating Property of the Louisiana and Missouri Road

Washington, Aug. 16—A complaint was filed with the interstate commerce commission today in which the Chicago and Alton railroad company is charged with having practically confiscated three other roads, which now form a part of the Chicago and Alton road. The complainant is B. Manning of New York, a majority stock holder in the Louisiana and Missouri road.

Manning alleges that he holds 123 shares of the common and 51 shares of the preferred stock of the Louisiana and Missouri road and that with the exception of 313 shares of the common and 167 shares of the preferred stck, the Chicago and Alton owns the entire capital stock of the road which amounts to $1,010,000 of preferred and $3,312,000 of common stock. He asserts that after the Chicag and Alton had acquired this stock it "entered into a pretended lease with itself, by which it pretended to lease itself the 101 miles of road and equipment owned by the Louisana and Missouri company, at a price and upon terms which practically confiscated and destroyed the property rights and values of your petitioner." He therefore asks the commission to obtain an accounting of the Louisiana and Missouri road since 1871, and to afford him such relief as may deemed just and equitable.

#### YUKON LEGISLATORS BUSY.

Dawson and Fairbanks Threatened With Famine This Winter.

Dawson, Aug. 16.—The annual session of the Yukon legislature is now on, and a considerable amount of important business is before the house for consideration. So far the most important move has been the notice of a memorial to Ottawa, asking for the dominion government support of an all-Canadian railway to connect the city of Dawson with some other of the trans-continental lines. Two pure food acts have been introduced, one for the inspection of bakeries, the other for the inspection of dairies and to insure pure milk. Another bill had been introduced which, if passed, will make it unlawful to sell liquor at the dance halls.

It is feared that Dawson will be short of supplies this winter, as the Yukon river is very low—in fact the lowest on record for the time of the year, and freight is coming in very slowly. The traders say that they cannot get outside orders filled, and that they are far behind where they should be in the matter of reserve supplies for the time of the season. Old timers are freely predicting that the town of Fairbanks will be put out of business. This place has been depending on Dawson for supplies and has been delaying orders until the end of the recent strike. It will now be impossible to make anything of a shipment to this point, and as the supply on hand at the present time will not carry the people through the winter a stampede for the outside is expected.

## BIG GRAFTING

### Steal of Four Million Dollars Is Made

### PENNSYLVANIA'S CAPITOL

CRIMINAL AND CIVIL PROCEEDINGS ARE RECOMMENDED BY INVESTIGATION COMMITTEE TO BE INSTITUTED AGAINST ALL CONCERNED.

Harrisburg, Pa., Aug. 16.—Criminal and civil proceedings against all persons concerned in the fraudulent transactions in connection with the construction and furnishing of Pennsylvania's $13,000,000 capitol is recommended in the final report of the capitol investigation committee made to governor Stuart today. Eighteen persons were named in the report as being interested in one way or another in irregular transactions and the attorney-general is expected to act at once.

The name of former governor Pennypacker, who by virtue of his office was a member of the board of public grounds and buildings which let the furnishing contracts, and those of former governor Stone and his associates who made up the commission that constructed the capitol are not mentioned in the list of those against whom action it is urged should be taken.

The commission says that it will be able to ascertain by testimony that goods costing $1,574,399 were sold to the state by the construction company for $6,434,748, a profit of $4,328,899.

The report was presented to the governor by chairman Fisher in the presence of the commission.

#### NO FEAR OF FUEL FAMINE.

Territory Tributary to Head of Lakes Well Provided For.

Superior, Wis., Aug. 16.—There is no danger of a coal shortage in the territory tributary to the head of the lakes if the roads entering here are able to handle the business the coming winter. Coal receipts up to the present time have broken all records and there is actually on the docks at the present time about 2,000,000 tons. Meanwhile shipments are good for summer and the prospects are that before the close of navigation the docks will have sold more coal from Superior and Duluth docks than ever before during the same season. For three months previous to August 1st, this year Superior and Duluth docks shipped into the northwest more coal than ever before in that same period and nearly double the amount sent out in the same three months of 1906. This year from May 1st to August 1st, a total of 48,944 cars have been shipped as against 28,549 in that period a year ago. The roads are rushing in new trackage and yard facilities and the Great Northern next week will have in operation its big new freight transfer shed here which it is calculated will relieve that road of the congestion of general freight experienced last fall.

#### PECULIAR JUDGMENT.

Man Earning 16 Cents per Hour Fined for Leaving His Job.

North Bay, Ont., Aug. 16.—The plant of the Imperial Paper company at Sturgeon Falls is still practically shut down although an attempt is being made to operate the pulp mill but with meagre results. Labor troubles have tied up the mill since spring. An incident of the trouble is the judgment given by the local magistrate imposing a fine of $10 and costs upon William Murray, dynamoter earning 16 cents per hour for deserting his post and endangering the property of the mill.

Murray went on strike with the others and as a result of this judgment, actions have been entered against six other employees.

#### SWIFT AND APPROPRIATE.

Brute Who Assaulted a Girl to Serve 2 Years and Receive 30 Lashes.

Belleville, Ont., Aug. 16.—Constable Grass arrived here yesterday from Trenton with a prisoner named Malcolm Graham, who was meted out justice in the quickest time this country has ever known. He was arrested at 8:15 Wednesday evening in Trenton charged with assaulting an English girl named Greenfield, recently arrived and employed as domestic. Yesterday afternoon he appeared before magistrate O'Rourke. The prisoner pleaded guilty and was sentenced to two years in Kingston penitentiary with thirty lashes. Graham is 20 years old.

#### POPULATION GROWING.

Quebec, Que., Aug. 16.—Four steamers will have landed passengers at Quebec and Montreal today and tomorrow and when the last of the quartette has reached port a total of 3,792 persons will have thus entered Canada by the St. Lawrence river. Of this number 2,222 are steerage passengers and will land at Quebec to receive the usual inspection there.

#### SHERMAN TO RESIGN.

Lethbridge, Aug. 16.—F. H. Sherman, president of district 18 of U. M. W. of A. has decided to retire at the end of the union year and will live on his homestead near Taber, working in the mines during the winter. As yet his successor has not been regularly nominated, although several unions have informally made representations to Peter Patterson to take the position.

#### HAS HIS SENTENCE DOUBLED

Young Girl Swallows Two Ounces of Carbolic Acid—She is dead

Montreal, Aug. 16—Charles A. Pierce, who was sentenced to three years in jail for stealing $350 from the district savings bank appeared in court again this morning on a charge of having, while in prison, assaulted William Girard, another convict, by striking him on the head with a wooden mallet. Accused wore his convict garb which bore his prison number, 4675. He pleaded guilty and received with a smile his sentence of three additional years in the penitentiary.

Bernardette Brossard, a 16-year old girl, who has been employed as a waitress for about three weeks in the Belrose Cafe, committed suicide at 10 o'clock this morning by taking carbolic acid. She complained to one of the other employees that she did not feel well and was going to the drug store to get some relief. She purchased two ounces of carbolic acid, returned to the cafe, drank the poison and immediately fell to the floor writhing with pain. She was hurried to the hospital where she died half an hour later. Her mother and sister entered the cafe about a minute after she had taken the poison.

#### SIR HIBBERT IN MONTREAL

Montreal, Aug. 16—Sir Hibbert Tupper of Vancouver is at the Windsor, having arrived from Halifax. He will be joined here by his son, Reginald, of the British navy, a passenger on the Empress and will proceed to British Columbia.

#### SWEDES QUARREL.

One Splits the Other's Head Open With a Beer Bottle.

Toronto, Aug. 16.—Yesterday a murderous assault took place in the Russell house. Two Swedes had been drinking together during the day and quarrelled but eventually separated and one, Charles Lee, returned to his room. Later it appears his assailant, F. Helstrum, entered his room and attempted to brain him as he lay in bed, with a beer bottle. Lee's heda was split open necessitating twelve stitches being placed in it besides three deep scalp wounds which the doctors are afraid may cause concussion of the brain. He was removed to the hospital and Helstrum was arrested.

## CAPITALISTS NOT IMMUNE

ATTORNEY-GENERAL BONAPARTE REPLIES TO CRITICS.

WILL ENFORCE THE LAW AGAINST ALL ALIKE.

Baltimore, Aug. 16.—The News today prints an interview, given its Washington representative, by attorney-general Charles J. Bonaparte, which constitutes an authoritative denial to the charge of Wall street that the attorney-general has been treating the industrial and financial enterprises of the country with flippancy. The interview is really a statement prepared by Mr. Bonaparte himself, in part he says:

"I cannot understand how any sensible person could be affected in dealing in such matters of business by remarks that have been attributed to me. I should say that business ought to have laws strictly and impartially enforced. If this is done, everybody knows what he can do and what he cannot, and everybody has a fair field and no favorites. The department of justice proposes to do precisely this and nothing more."

"It is required by law to enforce certain penal statutes which make certain forms of action crimes against the U. S. and also provides civil remedies for such illegal actions. The department, since I have been at its head, has never taken proceedings to enforce the laws without a very careful preliminary investigation to determine whether there was good reason to believe that the laws had been violated. Moreover it has consistently and frequently overlooked merely formal violations of law with trivial consequences and has invariably refused to intervene in such cases when there was any reason to suspect that its intervention was desired to further private ends.

"If the ground of complaint against the department is that it proposes to punish prominent and wealthy men or corporations having vast amounts of capital and engaged in very extensive business, when these are known to have been wilful and persistent lawbreakers on a great scale and with grave injury to the purposes of the law, I must admit that these complaints are well founded. That is precisely what the department of justice is trying to do and when I remain its very unworthy head, will continue to do, so far as it can.

#### GERMANY'S LITTLE WAR.

Berlin, Aug. 16.—Consternation has been caused at the colonial office by the news that the Hotentot chief Morengo has recrossed the frontier of Cape Colony into German Southwest Africa with 400 followers. It is feared that the rebel chief will give German troops long and tedious work in the mountainous region of the northern part of the colony. It is assured that the work of bringing the German troops back from South Africa which has been going on for about six months will forthwith be discontinued.

## WORDY PEACE

### Progress of the Conference at The Hague

### ARMAMENT LIMITATIONS

GREAT BRITAIN WILL INFORM ALL NATIONS WHO WILL RECIPROCATE OF HER YEARLY PROGRAM OF ARMAMENT—ALTERNATIVE PROPOSAL MADE.

The Hague, Aug. 16.—Sir Edward Frye, head of the British delegation has communicated the text of the speech which he is to deliver before the peace conference, on the question of the advisability of the limitation of armaments to baron Marshall von Bieberstein, head of the German delegation, in order to avoid a misunderstanding on the subject. For the same reason strong pressure is being exercised on some of the Latin American delegates in order to prevent the presenting, as they have announced their intention of doing, an alternative proposition for limited armaments. It is reported that baron von Bieberstein is ready to leave the hall of the conference if the Latin American delegates carry out their purpose. In his speech, which will be delivered Saturday, sir Edward Frye will announce that Great Britain is ready to communicate yearly her program for the construction of warships and the expenses involved to all the powers agreeing to furnish Great Britain with similar information. This exchange of views, sir Edward thinks, facilitate a further exchange of views regarding the limitation of araments. It is now regarded as assured that the conference will end between September 10th and 15th.

#### MRS. EDDY'S SANITY

Being Inquired into by her Nearest Relatives

Concord, Aug. 16—Counsel for the "next friends" have agreed to the suggestion of the masters who are inquiring into the competence of Mrs. Mary Baker Eddy, the Christian Science leader, that they accompany two alienists to Pleasant View to make "tests" of her mental condition. Mr. Streeter, Mrs. Eddy's counsel, objected but will consult with his client before the next hearing on Thursday and it is possible that he will then agree to the proposal of the masters.

C. A. Fray, Mrs. Eddy's secretary, was in court this morning. Depositions were read by J. J. Kelly, attorney for the "next friends" in which Mrs. Eddy was claimed to have written that her husband, who died in Boston, was the victim of arsenical poisoning, mentally administered and that she had held an autopsy to prove the fact. Three letters were read in court this afternoon to her son George W. Glover, warning him to beware of the "mental malpractitioners in Boston and their evil work." A more recent letter to her son refused a request for aid and in it she told him to communicate with her hereafter only through her secretary. All these depositions were objected to by Mr. Streeter and ruled out by the masters.

#### TO ANNUL FRANCHISE

On Ground of Corrupt Practice in Obtaining It

Milwaukee, Aug. 16—A suit to annul the franchise of 1900 which was granted to the Milwaukee Electric railway and light company was begun today. In his affidavit, upon which another examination of the defendants under the discovery statute was issued, the attorney general declares that the changes were obtained through corrupt methods and asks that the officials of the company who were active in obtaining the franchise be suspended and compelled to return large sums, money which he alleges, they illegally presented in obtaining the grants. The court is further asked to annul the franchise so granted. With the summonses that were reserved came also an order from court commissioner Donnelly, citing the president to appear before him on Aug. 26 and be examined under the discovery statute for the purpose of getting the necessary information to begin his annulment proceedings.

#### GENERAL STRIKE ORDER.

Issued by President of National Telegraphers' Union Not Generally Observed

New York, Aug. 16.—Interest in the telegraphers' strike centered today in the probable effect of a general strike order by president Small, of the national union, and which called upon all operators employed by the commerrial telegraph companies and those working private and leased wires not under union contracts, to go out. Throughout the east there were few if any responses to the call. This was explained on the ground that all operators who would strike had already quit work and here the strike order was given importance only as affording official sanction of the action already taken by the strikers without the previous approval of national officers.

#### RECORD INSURANCE MEETING.

Toronto, Aug. 16.—The largest meeting of life insurance men that has ever been held in Canada or indeed, in the world, opens in Toronto next week. On Monday the 19th, the annual convention of the Canadian Association of Underwriters will be held, lasting for two days, while on Wednesday will open the annual meeting of the National Association of Underwriters of the U. S., the largest association of its kind in the world. This latter association is holding its meeting in Canada this year at the invitation of the Canadian association.

#### QUARREL OVER A HAIR CUT.

Barber and Blacksmith Fight—Former is Dead.

Sault Ste. Marie, Ont., Aug. 16.—Edward Haynes, 34 years old, a barber, became involved in a dispute with Thoames Ryan, a blacksmith, in the shop in the Windsor hotel over a hair cut last night. On a challenge from Ryan, the two men went outside to settle the differences. A few minutes afterwards a number of men followed them out and ran across Haynes' dead body lying in an alleyway in the rear of the hotel. The only mark on the body was a discoloration under the right eye. Coroner McClurg will open an inquest this morning. Ryan has been placed under arrest. The dead man had been herefor several months and formerly resided in Michigan.

#### TOO EARLY FOR ARBITRATION.

Chicago, Aug. 16.—No progress was made today by certain labor leaders who intervened to bring about a settlement of the telegraphers strike by arbitration. President Small, of the telegraphers' organization, met Samuel Gompers of the American Federation of Labor and labor commissioner Neill during the day but tonight said that it was only in a social way and that it was too early in the fight to talk of arbitration.

#### NEBRASKANS HAVE A KICK.

Washington, Aug. 16.—An action was instituted today before the interstate commerce commission by the Nebraska state railway commission against the Union Pacific company alleging that the rates of the defendant on coal shipped from Rock Springs, Wyoming, to Nebraska points were excessive and unjust. The commission is asked to fix a minimum rate on each shipment that will be fair to the people of Nebraska.

#### WILL LIVE IN TORONTO

Montreal, Aug. 16—Hon. Edward Blake, M.P., who arrived in Montreal today, left tonight for Toronto on the private car Albert. Mr. Blake as a result of his recent attack of paralysis, is unable to walk but his son, Samuel Blake, who is travelling with him, states that he bore the fatigue of the voyage well and mentally he is as active as ever. Mr. Blake will take up his permanent residence in Toronto. He has not yet resigned his seat in the British house.

#### PROGRESS OF PRESSMEN.

Fort William, Ont., Aug. 16.—The British pressmen, who are guests of the C. P. R., arrived this morning and sailed for Owen Sound on the steamer Alberta. They will reach Toronto Sunday noon. They had a delightful visit in Winnipeg and came away deeply impressed with the growth and prosperity of Winnipeg and western Canada.

#### QUEBEC'S SPLENDID SURPLUS

Quebec, Aug. 16—At yesterday's meeting of the provincial cabinet the treasurer, Hon. Mr. Tessier, made the official announcement that the exact amount of the surplus in the provincial treasury for the fiscal year 1906-07 was $5,034,000.

Hon. Edward Blake, M.P., accompanied by Mrs. Blake, arrived this morning by the Empress of Britain.

#### EXPLOSION OF GASOLINE.

Janesville, Wis., Aug. 16.—Several thousand gallons of gasoline in the Standard Oil company's tank at Broadhead, Wis., exploded this afternoon, destroying the tank and causing a panic in the tower. A passenger train was nearby when the explosion occurred and the car windows wer ebroken but no one was injured.

#### LUMBER PLANT BURNED.

Bland River, Ont., Aug. 16.—The Dominion Lumber company's plant was destroyed by fire yesterday afternoon and 200,000 feet of lumber are still burning, but the fire is under control. The loss may reach $150,000. Dynamite was used to check the flames. The Canadian Soo fire department was called to the scene.

#### FIRE AT COBALT MINE.

Toronto, Aug. 16.—Cobalt dispatches say there was a destructive fire out at the Stellar Cobalt mine in Bucks township yesterday. It burned out the plant and shaft buildings and blacksmith shops. The loss is estimated at $5,000, not covered by insurance.

#### HELD FOR FORGERY.

Toronto, Aug. 16.—Mr. A. S. Kinnon, of Yynn county, Iowa, is the name of a mysterious stranger held by the Toronto police o ninformation from Iowa. Owing to thetelegraphers strike it is difficult to communicate with the Iowa authorities. The charge is forgery.

#### FIFTY YEARS FOR MURDER.

Anaconda, Mont., Aug. 16.—John Berberick, murderer of John Johnson, was sentenced to fifty years in the penitentiary at Deer Lodge, by judge Winston of this city.

#### POST OFFICE LOOTED.

St. Paul, Aug. 16.—The post office at Mandan, North( Dakota, was broken into early this morning and the safe was cracked and about $500 in money and stamps taken.

#### MORE PILGRIMS

Oyster Bay, Aug. 16—President Roosevelt will sail from here Monday on board the Mayflower for Princeton, where he is to take a leading part in the celebration of the landing of the Pilgrim Fathers.

## CASA BLANCA

### Situation Appears to Be in Foreign Control

### MOORISH REINFORCEMENTS

GREAT ATTACK MAY YET DEVELOP UPON FRENCH AND SPANISH AT ANY MOMENT—CASUALITIES SO FAR CHIEFLY CONFINED TO THE ARABS.

Casa Blanca, Aug. 16.—The town is quiet today and business is being transacted. The number of persons killed in and about Casa Blanca has been greatly exaggerated. Probably a thousand men were killed, the majority being Arabs. The town is now completely under the control of the French and Spanish authorities and no further trouble need be feared. French troops to the number of 3,000 are camped about a mile east of Casa Blanca. Their outposts are in touch with the Moors and continual skirmishing is taking place. Five hundred troops arrived yesterday and more French and Spanish troops are expected within a few days. The Moors, however, have received large reinforcements and the authorities fear they are preparing for a great attack today or tomorrow.

Paris, Aug. 16.—The government's advices from Fez indicate that the measures taken to assure the safety of Europeans are ample.

#### FATAL HURRICANE.

Demolishes Rancher's House and Kills Three Little Girls.

Vermillion, Alta., Aug. 16.—A tragedy occurred Wednesday at the ranch of Henry Meyer, a well known local horseman, on Battle river, about twenty miles from here as a result of a small syclone, which passed across the district about 5 o'clock in the afternoon. Mr. Meyer with his hired man and eldest child, a boy of 10 years, were haying at some distance from the ranch and Mrs. Meyer with the four remaining children, the youngest a boy four months old, were in the kitchen. Mrs. Meyer had been busy when the hurricane struck the house, the three eldest children ran from the building but had got only a sort distance when they were overtaken by the flying timbers, two were instantly killed and the third so badly injured that she died this morning at 4 o'clock. Mrs. Meyer and the baby had a miraculous escape as the building was completely demolished together with the stables and corrals. A horse was also killed. The dead children were all girls, Emerald, Ruby and Pearl, their ages being 9, 7 and 3 eyars respectively. So far as could be ascertained no other harm was done. The report was brought to town by Mr. Meyer's man, who came for Dr. Ryan to attend to Pearl, the injured child. She died, however, before his arrival. The children will be buried in Vermillion.

#### BIG WATER MAIN BURSTS

Causes Panic in Chicago—Many Narrow Escapes From Drowning.

Chicago, Aug. 16.—With a roar that brought frightened sleepers from their beds for blocks around, a 36-inch water main burst on Chicago avenue near Kingsbury avenue early today, shooting a column of water sixty feet into the air, imperilling several lives and damaging thousands of dollars worth of property. The main broke through the brick pavement of the thoroughfare directly in front of the Stockholm hotel, causing a panic among the five hundred guests there. The water quickly flooded the basements for two blocks and a number of families had to be rescued from drowning by the police. Five children of Henry Knudson, on Superior street, had a narrow escape and were rescued by a policeman who carried them out on his shoulders through water up to his chin. Nine horses stabled in the vicinity were drowned.

#### PROGRESS OF G. T. P.

Ready to Move Wheat to Winnipeg by Late Autumn.

Ottawa, Aug. 16.—According to advices received by Collingwood Schrieber, government engineer, regarding Grand Trunk Pacific construction in the west, rails have now been laid to a point 120 miles west of Portage la Prairie, the line will be completed to Saskatoon, 465 miles west of Winnipeg, by the time snow flies. Divisional points are being placed at intervals of 120 miles and the road will be in shape to carry wheat to Winnipeg at least by late autumn. It is expected that work will be commenced on the Winnipeg terminals without delay.

#### OTTAWA SUBURB BURNED.

Ottawa, Aug. 16.—Fire in Jayneville, a suburb of Ottawa last evening did damage to the extent of $90,00. The blaze started in the paint shop of Mr. Proulx, which was burned with a dwelling and shed belonging to him. At one time it was feared that the whole village would be consumed. The efforts of the fire fighters were embarrassed by looters who stole articles from the burning houses and from those in the vicinity.

We are now opening up a large shipment of

### THE JAPANESE INVASION.

Complaint is sometimes made that the people of eastern Canada do not show enough sympathy with British Columbia in its fight against Oriental immigration. This lack of sympathy is largely due to ignorance of the facts, but in some measure it can be attributed to the false statements of men occupying responsible positions, who in their greed to get rich quick and to prevent laboring men from earning more than a mere subsistence, entirely misrepresent the situation to eastern people.

An example of this sort of misrepresentation can be found in the current number of the Toronto Monetary Times. A prominent Vancouver bank manager, is quoted as expressing the following views:

"In my opinion the development of this province is prevented to a serious extent by the absence of sufficient labor of any kind, and the interests of the white laborer retarded to an enormous extent thereby. The head tax, viz., $500, on Chinamen has resulted in a large advance in the wages of these men, and it is almost impossible to secure competent Chinamen for domestic servants under $40 a month, and all found.

"Our industries, particularly agriculture, are suffering by the absence of sufficient numbers of that kind of labor.

"Last week 1,200 Japs arrived at this port from Honolulu, and they were found to be strong, intelligent men, and I believe most of them have already obtained employment. These men have had considerable experience as laborers on the sugar plantations in the Sandwich Islands, and as far as I can ascertain are a very desirable class. The labor agitators and politicians who pander to the labor element to obtain votes and influence have made a great outcry, but the great majority of people are in favor of increasing the number, and also removing the head tax from Chinamen.

"Our farm lands are undeveloped and will continue in that condition; our fisheries suffer in the same way, and our forests are not developed to anything like the extent they would be had we a sufficient supply of cheap labor. The skilled white man receives good wages, and will continue to do so, even although we had a large influx of Oriental labor, and he will work to much greater advantage by having the assistance of the Orientals. These men are now in receipt of such wages, and will continue in that condition, that they can afford to have Chinamen to assist in their household duties provided the wages were lower, but as it is they and their families suffer from lack of sufficient domestic help.

"White servants are difficult to get and frequently difficult to please. There is no doubt that the future of British Columbia depends upon the influx of large numbers of men who are capable of hard work as menial laborers, such work as a white man would as a rule not undertake, and if he does it is only transitory. As far as I have seen, I would prefer the Japanese and the Chinamen to a number of immigrants woh come from the southern parts of Europe.

"I am creditably informed that last year hundreds of acres of excellent fruit in this province were left on the ground to rot, owing to lack of labor to pick it at a modest profit; such fruit that could not be excelled in the same quantity elsewhere in any part of the dominion. The Chinaman of all adapts himself most readily to our labor conditions, and if 20,000 were admitted free we would have such a development that would astonish and profit, not only the owner of land, but the skilled laborer."

With some of the statements of facts in the foregoing no exception can be taken, but when this prominent bank manager seeks to create the impression that the agitation against flooding the province with Oriental labor is attributable solely to labor agitators and politicians catering for the labor vote, and that the great majority of people are in favor of increasing the number of Orientals coming into the country and of removing the head tax on Chinese, he is guilty of deliberate misrepresentation.

No man who has lived any length of time in British Columbia and who has given even the most cursory attention to this question can honestly say that the great majority of the people favor further influx of Orientals and the removal of the head tax on Chinese.

There are many people in British Colubia, not dependent in any way upon the labor vote, who view with grave alarm the possibility of any large influx of Orientals. These people realize the disastrous economic conditions a large population of non-assimilable, semi-servile Asiatics will bring about in a white man's country. They know, too, from experience of other countries the evil consequences morally and politically of the presence in a free country of a large body of people, alien in thought, ideals and aspirations. Moreover they hesitate to believe that a country so rich in natural resources, as British Columbia is known to be, cannot be developed by men of their own race.

The pro-Asiatics, such as Vancouver's prominent banker, have only one argument worthy of consideration, and that is as to the rapidity or otherwise of the development of British Columbia. We freely admit that some of our natural wealth could be more speedily exploited if several thousand Chinese and Japanese coolies were imported and put to work at wages upon which a white man could not maintain even a very modest standard of living for himself and his family. But wherein would British Columbia be benefitted? What value can these boasted natural resources be, if their development means only employment for coolies from China and Japan? It has always seemed to us that the value of our natural resources was to be estimated by the degree and extent of profitable employment they could afford to white people, people who would assist in making of Canada a great nation, a worthy partner in the great firm of John Bull & Co.

We can cut down our forests, deplete our mines, cultivate every acre of arable land and yet not have accomplished anything worth while in the direction of nation building, if the result be a few wealthy capitalists and overseers and a vast horde of real wage slaves, who despise our civilization, our religion and our social customs, who, in the hour of danger, would be controlled by outside influences and when the inevitable contest between the white and yellow races for supremacy on the Pacific arose, would line up with their own people.

Men of the Anglo-Saxon race, with intermixture of the northern European races, have built up the United States, have made eastern Canada what it is, have successfully colonized the Australias and other parts of the world, where nature has not been so kind as in the case of British Columbia, and the same people can make of British Columbia the richest and grandest province in the dominion, rich in a prosperous, homogeneous population. To call Japanese and Chinese to our assistance is either a confession of insatiable greed or of utter unworthiness of the good things that have been provided for us.

MINARD'S LINIMENT CO., Ltd.

Gentlemen—In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever. Yours truly,

A. E. ROY, Carriage Maker.

### EDITORIAL NOTES.

The Toronto Telegram, conservative, unfeelingly remarks: "The western wheat crop is reported to be smaller, later, and in danger of a visit from R. L. Borden and another heavy frost in a few weeks."

ROYAL CANADIAN MINT

Ottawa Aug. 16—It is stated in reference to a Vancouver dispatch that the authorities, in connection with the federal mint, have not overlooked the electrolytic smelter at Trail, B.C., but have, as was mentioned in previous dispatches, decided to get the metal for the copper coinage from that refinery. Until a suitable refinery is established in Canada silver and gold will have to be refined in the United States or Great Britain as at present. The mint will be in operation in six or seven weeks. The building of the plant has cost half a million dollars and the annual outlay for services and wages will amount to $010,000.

NEW VICAR-GENERAL.

Rome, Aug. 16.—It is reported that the papal secretary of state, cardinal Merry del Val, whose health is failing, will be appointed vicar-general of the pope succeeding cardinal Respighi, who will succeed the late cardinal Svampa as archbishop of Bologne.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY BETTER THAN THREE DOCTORS

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as his parents could wish for.—Mrs. B. J. Johnston, Linton, Miss. For sale by all druggists and dealers.

## TIMBER NOTICES

TAKE NOTICE that I, Donald Dewar, of Arrowhead, B. C., woods manager, intend to apply for a special timber license over the following described lands, situate on McDonald creek, Upper Arrow lake, West Kootenay.

No. 1.—Commencing at a post planted at the N. W. corner of T. L. No. 7200, running west 20 chains; thence south 100 chains; thence east 60 chains; thence south 110 chains; thnce east 40 chains; thence north 10 chains; thence west 20 chains; thence north 129 chains; thence west 60 chains ;thence north 80 chains to point of commencement.

Dated July 10, 1907.

No. 2.—Commencing at a post marked "R. T. Dewar's N. W. corner," beginning midway on the east and west line of T. L. 7307, on the south side, running east 80 chains; thence north 80 chains; thence south 80 chains; thence west 80 chains; thence north 80 chains to point of commencement.

Dated July 9th, 1907.

No. 3.—Commencing at a post marked "R. T. Dewar's N.W. corner post," and planted at the N.E. Corner of Location No. 2, thence east 80 chains; thence south 80 chains; thence west 80 chains; thence north 80 chains, to point of commencement.

No. 4—Commencing at a post marked "Donald Dewar's N.W. corner post," and planted at the N.E. corner of Location No. 3, thence east 80 chains; thence south 80 chains; thence west 80 chains; thence north 80 chains, to point of commencement.

N. 5—Commencing at a post marked "Donald Dewar's S.W. corner post," and planted at the N.W. corner of Location No. 3, thence east 160 chains; thence north 40 chains; thence west 160 chains; thence south 40 chains, to point of commencement.

DONALD DEWAR.

Dated July 9th, 1907.

---

NOTICE is hereby given that 30 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay district:

No. 1 Limit—Commencing at a post planted about 6 miles up Snake creek from the Slocan river, and marked "A. L. McCulloch's southwest corner," thence 80 chains north; thence 80 chains east; thence 80 chains south; thence 80 chains west to point of commencement.

Located, April 27, 1907.

No. 2 Limit—Commencing at a post planted about 7 1-2 miles up Snake creek, and marked "A. L. McCulloch's northeast corner," thence 80 chains south; thence

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY.

TAKE NOTICE that Emily Wenmoth, of Hayfield, England, occupation, farmer, intends to apply for permission to purchase the following described land:

Commencing at a post planted on the north boundary, and 20 chains from the N.W. corner post of lot 7740, Pend d'Oreille river, B.C., thence 40 chains north; thence west 40 chains; thence south 40 chains; thence east 40 chains to point of commencement, and containing 160 acres, more or less.

EMILY WENMOTH.
A. G. LANG, Agent.

Dated 15th June, 1907.

---

NELSON LAND DISTRICT, DISTRICT OF KOOTENAY.

TAKE NOTICE that C. J. Coleman, of Clark's Forks, Idaho, occupation, telegraph operator, intends to apply for a special timber license over the following described lands:

Commencing at a post planted on the South Fork of the Salmon river on the west side of the stream, about seven miles from its mouth and about one mile and three-quarters from the river in a south-westerly direction and southwest (magnetic) of Stag Leaf mountain; "C. J. Coleman's N.E. corner post," thence south 40 chains; thence west 40 chains; thence south 80 chains; thence west 40 chains; thence north 120 chains; thence east 80 chains to point of commencement. The location joins the location of E. J. Keogh immediately on the south.

C. J. COLEMAN.
EDWARD J. KOEGH, Agent.

Dated July 31, 1907.

---

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY, B.C.

TAKE NOTICE that Fred A. Kribs of Portland, Ore., occupation timber merchant intends to apply for a special timber license over the following described lands:

Commencing at a post planted about 20 rods west and 350 paces north of the confluence of the South Fork of the Salmon river and Wilson creek, about 14 miles south of Salmo, B.C., thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement, and containing 640 acres more or less. Said point of commencement can be reached from said confluence of the South Fork of the Salmon river and Wilson creek by going west up a gulch about 80 rods to a point where a trail running in a northerly direction has been blazed or about 350 paces.

FRED A. KRIBS.
PHIL. BOSBY, Agent.

---

NOTICE TO DELINQUENT CO-OWNER

To James Livingstone, or any other person or persons to whom he may have transferred his interest in the Alberta Mineral claim, situated on the First North Fork of Lemon Creek, in the Slocan City Mining Division of West Kootenay district, and recorded in the Mining Recorder's office at Slocan, B.C.

You, and each of you, are hereby notified that I have expended the sum of four hundred and ten dollars ($410.00) in labor and recording fees upon the above named mineral claim in order to hold the same under the provisions of Sec. 34 of the Mineral Act; and that if, within 90 days from the date of this notice, you fail or refuse to contribute your proportion of the aforesaid expenditure, which is two hundred and five dollars ($205.00) for the four years ending the 12th day of July, 1907, together with all costs of advertising, your interest in the said claim will become vested in the undersigned, under Sec. 4 of the Mineral Act, Amendment Act, 1900.

Dated at Slocan, B.C., this 15th day of July, 1907.

J. T. BEAUCHESNE.

# INTENSIFIED FRUIT JUICES AN IMPROVEMENT ON NATURE

### A Discovery that is Revolutionizing Medicine.

### Remarkable Success Attends the Finding of a New Medicinal Compound by Combining the Juices of Apples, Oranges, Figs and Prunes.

Fruit helps to keep one healthy. Fruit, in itself, will not cure disease. The medicinal principle—or that part of fruit which has a curative effect—is in such infinitesimal quantities, that it is unable to overcome a diseased condition of the stomach, liver, bowels, kidneys or skin.

Just here is where science stepped in. An Ottawa physician did what nature could not do. He first found that some fruits were stronger medicinally than others—and that apples, oranges, figs and prunes contained all the healing properties of other fruits. There are two principles in fruit juices—bitter and sweet. After extracting the juices of the four fruits mentioned, this physician succeeded in replacing one atom of the sweet principle by one of the bitter. This resulted in an entirely new combination being formed. This new compound was many times more active medicinally than the fruit juices. Where eating fruit only helped to keep one well, this compound actually cured disease.

To make it more valuable still, this physician added the finest tonics and antiseptics, and then, by evaporating the entire compound to a powder, made it into tablets.

This, in short, is the method of making "Fruit-a-tives"—these wonderful tablets — the most reliable cure for Constipation, Billiousness, Stomach Troubles, Kidney and Bladder Disease and Skin Affections. Being made from fruit, "Fruit-a-tives" may be taken by women and children without fear of ill-effect.

Don't take a substitute. If your druggist does not handle them, send 50c for a box to Fruit-a-tives Limited, Ottawa.

112

# Naming it "spring water"

doesn't make it safe to drink.

¶ Spring water, as a rule, is good pure water, and fit to drink—at the spring. But it may not be so when you get it.

¶ Many things can happen—do happen—to much spring water, long before you pour it into a glass. Some of them are things you wouldn't like to know about.

¶ Some bottlers of spring water bring it long distances in tanks. This simply invites bacteria to come and multiply in the water. ¶ Some spring waters are stored in containers a long while before they are bottled. Then the water gets flat and insipid. ¶ Things happen in the bottling house, too, that don't do the water any kind of good. ¶ The safe way for you, and the only way for a bottler who cares about purity, cleanliness, quality, is to do the bottling where the spring flows, as we do with

# York Springs Water

Wholesome — Limpid — Refreshing

We take more trouble than seems worth while to have everything just as clean as daintiness demands — we are perhaps "finicky,"—even the bottles we use are cleansed with York Springs water. ¶ Bottling at the Springs for surety of purity, and bottling under scrupulously hygienic conditions, we KNOW York Springs Water gets to you pure. ¶ If you realized half the dangers that come from drinking water that isn't surrounded with just such precautions—you would drink no water except York Springs Water. 204

*Ideally Pure York Springs Water is the basis of these beverages:* York Springs Water (natural), York Sparks (York Springs Water charged with purified carbonic gas), York Ginger Ale, York Sarsaparilla, York Soda, York Potash Water, York Aperientis (the perfect laxative)

# FOR PALMA CONTESTANTS

UNITED STATES TEAM NOW BEING SELECTED

*SHOOT FOR TROPHY TAKES PLACE* AT ROCKCLIFFE, OTTAWA

Port Clinton, Aug. 16—Preliminary contests were held today and will be continued *tomorrow for places on the team which* will represent the United States in the international contest for the Palma trophy which will be shot off at the Rockcliffe range, Ottawa, on Sept. 7. Lieut.-Col N. *B. Thurston of New York will captain the* team and is directing preliminaries. He has been captain of the New York team for many years, which team has won victories in many close contests. The remaining *officers of the team will be appointed* by the executive committee on recommendation of the captain. The members of the team will be selected from those who make the best scores in accordance *with the following rules:*

In addition to the scores made in the preliminary contests today and tomorrow there will be added those scores made in the Wimbledon cup match, the Leech cup *match and the 800 and 1000 yard stages of* the president's match, all being events of the National rifle association, to be shot on the Ohio range during the coming week.

From the aggregate of all these scores *the team will be selected as follows:* Nine on the basis of high aggregates and three selected by the executive committee, making 12 in all, four of whom will be alternates. The eighth man who will shoot *in the match will be selected by the captain,* after preliminary practice in Canada. The team, after being selected on the evening of Aug. 24, will be assembled and trained on the range here.

*Among the contestants* in today's preliminaries are Capt. Ed. Wells and Sergt. Doyle of the 71st New York and Dr. W. G Short of the 70th New York regiment ,all of whom were on tre rifle team which *went to England four years ago. Among* other states represented in the preliminaries are Georgia, Maine, Montana, New Jersey, Massachusetts and Ohio. The four regular service teams of the United States *army, marine corps and navy are also* represented by their crack shots. Lieut. Holcomb of the marine corps team, who has made some phenomenal records of late, is expected to be a certain winner of a place *on the international team.*

All of the contestants in today's contest were required to furnish statements from the adjutant general of their states or other competent authorities that they have *aained during the year a record* in competition of at least 95 per cent at 800 yards 90 per cent at 900 yards and 85 per cent at 1000 yards, in a string of consecutive shots.

Many riflemen have already arrived for *the big shoot of the national rifle association,* to be held during all of next week at Camp Perry. One of the features of the big match will be the press match. A very handsome and valuable silver cup *will go to the newspaper represented* by the winner, and a miniature of the cup will be given to the winner himself. All newspaper men, including editors, reporters and correspondents are eligible. Some of *the biggest newspapers of the country will* be represented by the crack shots of their staffs. The conditions are two sighting shots and ten shots for record at 500 yards.

*Ottawa, Aug. 16—There is every likelihood* that the Palma trophy match to be shot in the week following the Dominion rifle association meeting, will be the biggest match event ever shot in the world. *The teams consist of eight men* each and so far the assured entries are Great Britain, Canada, Australia and the United States.

Newfoundland has decided to send six *men to shoot at the D. R. A. meet* and these men have said that they mean to stay for the Palma trophy shoot. They have also made enquiries as to the Palma trophy shoot and it is almost certain that *the six who are coming will have been* increased to eight and the team entered for the Palma trophy.

# STORK TO VISIT ITALY

FOURTH CHILD TO BE BORN TO THE ROYAL FAMILY

QUEEN HELENA SCANDALIZES GOOD ITALIAN MOTHERS

Rome, Aug. 16—Great interest has been aroused in Rome and throughout Italy by the official announcement that the fourth child will be born to the royal family within the next month or two. Queen Helena, who is the daughter of prince Nicholas of Montenegro, is highly popular with the Italian people. She became the queen of king Victor Emmanuel III in 1896 and the first child, Yolanda Margherita, was born June 1, 1901.

Seldom before in the history of the world had such elaborate preparations been made to welcome a babe as heralded the coming of the Italian royalty's first born. The populace was disappointed in that the youngster was a girl, and so ineligible to *the throne, but celebrated with none the* less hilarity. Rome, too, observed the birth of the first royal child born within the gates of the Eternal City since the days of the Caesars, presented the king *and queen with a magnificent cradle de*signed by Monteverde, the most eminent sculptor of the day. This cradle will be used for the prospective little prince or princess. As a work of art the cradle of *Monteverde is perhaps the most elaborate* cradle ever built. A figure of Rome, over six feet in height, stands at the head with a royal crown in her hand, and the wolf of the capital attendant.. At the foot rises *the genius of the house of Savoy, a fe*male figure with wings extended as though to protect the child. The cradle itself, elliptical in form, swings between two figures.

*Good Italian mothers have bee scandal*ized in the past by queen Helena's treatment of her babes. She has steadfastly disregarded the custom which swaddles the bambino of the peninsula in linen bands *wrapped round and round its legs,* while gorgeous wet nurses, dressed all in one color, with heads decorated with huge bows of ribbon to match the gown ,are considered indispensable appendages to the *baby. The queen's babies have had both* their arms and legs free, while their wet nurse has been the queen herself. When *the ladies of the royal household have* protsted at her pronounced resolve, queen Helena delivered this distum: "I am sorry, but baby legs were made to kick with, and my babies shall have perfect freedom."

*According to the court circular, the ac*couchment of queen Helena is expected to take place next month, or not later than October.

THE BEST YET

Next Sunday's New York World will contain a sherb illostration of the pen work of Charles Dana Gibson, the most famous of all American artists. The picture is one of the "Gibson Bathing Girls" that has made such a hit on the stage of the New York Roof Garden. Everybody in New York is talking about this stunning series of Bathing Girl pictures. Size 10x15, ready *for framing and only to be had with the* New York Sunday World.

## Minard's Liniment Cures Diphtheria

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you *this unsolicited testimonial.* About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my bowels. I had an awful time an dhad it not *been for the use of Chamberlain's Colic,* Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now stronger and well. I have written *the above through simple gratitude* and I shall speak a good word for this remedy always—Sam H. Gwin, Concord, Ga. For sale by all druggists and dealers.

Madame Kathleen has established her hair dressing parlor in room 35, K.W.C. block. Hairdressing, shampooing, manicuring, scalp treatment a specialty. 97-6

PLANNING TO BUILD.

I want you to write for my new Book, "COUNTRY AND SUBURBAN HOMES." It is especially prepared for prospective home builders and is full of valuable, practical and useful information on the subject. Each residence is illustrated by half-tone plates of the original, showing exactly how the building will look when completed. *There are complete descriptions of* each home and accurate estimates of cost. This book will cost you nothing, but will be worth a great deal of money to you. Write to-day. I prepare at low cost special designs and plans for new work or for remodelling old buildings.

H. STANLEY MITTON, ARCHITECT, VANCOUVER, B. C.

For Trade Mark see Trade Mark

PEN-ANGLE Underwear

One kind of underwear, and only one, fits right, wears out slowest, and satisfies you from the day you buy it. That kind is trade-marked (as above) in red, and guaranteed to you by stores that sell it and the people who make it. Made in many fabrics and styles, at various prices, in form-fitting sizes for women, men and children. Look for the PEN-ANGLE. 207

Experience counts in the making of the higher grades of clothing for men and youths, and the reason why

Sovereign Brand

holds the supremacy among Canadian brands is because only the most experienced workmen are employed in every department.

NOTICE is hereby given that 30 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for special licenses to cut and carry away timber from the following described lands, situate in the West Kootenay district:

Location No. 1—Commencing at a post planted about 20 rods west and 350 paces north of the confluence of the South Fork of the Salmon river and Wilson creek, about 14 miles south of Salmo, B.C., thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement. Said point of commencement can be reached from the said confluence of the South Fork of the Salmon river and Wilson creek by going west up a gulch about 80 rods to a point where a trail, running in a northerly direction, has been blazed for about 350 paces.

Located March 9, 1907.

Location No. 2—Commencing at a post planted about 20 rods south and 80 chains west of the confluence of the North Fork of the South Fork of the Salmon river, and the South Fork of the Salmon river, about 20 miles south of Salmo, B.C., thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains, to point of commencement. About 700 paces north of said point of commencement will be found an earth slide about 50 feet in height, where the said South Fork of the Salmon River makes a turn, and where a small creek from the southwest flows therein.

Located March 16th, 1907.

Location No. 3—Commencing at a post planted about 20 rods south and 80 chains east of the confluence of the North Fork of the South Fork of the Salmon river, and the South Fork of the Salmon river, about 20 miles south of Salmo, B.C., thence south 40 chains; thence west 160 chains, thence north 40 chains; thence east 160 chains to point of commencement.

Located March 16th, 1907.

## NELSON NEWS OF THE DAY

A dance will be given by the R.M.R. on Aug. 21.

The temperature yesterday varied between 45 and 75 degrees.

The Juvenile Bostonians will play "Tips" at this afternoon's matinee and this evening will present "Olivette."

Brigadier Smeeton, assisted by captain Quaife, will conduct meetings all day on Sunday next at the Salvation army barracks.

A pair of eyeglasses was lost yesterday on Baker, Hall, Vernon or Stanley streets. The finder is requested to bring the them to The Daily News office.

Answers to classified advertisments remain uncalled for at the office of The Daily News as follows: "X," "W.G.," "R," "Y.X.," and "R.F."

Last evening the Y.M.P.A. bid farewell to Bros. past master Larson, first instigator Sharp and social promoter Perry who left on the midnight flyer for a trip to the coast cities, where they will install new branches of the order.

Good progress is being made with the building of the courthouse, the first courses of the faced marble masonry being laid. The whole face of the building, rear and front, will be of marble, with narrow and broad layers of that stone alternately.

Ong Sing was senteced by police magistrate Crease yesterday to six months imprisonment for stealing goods from the house of S. A. Kelly on Carbonate street on the previous day. Mr. Kelly caught the thief just as he was leaving the house by the back door which had inadvertently been left open.

MINING RECORDS

Certificates of work have been issued on the Overman and Scott to J. Johnson and on the Ettlente and Cork fraction to M. Egan.

The location of the Gold Hill on Cottonwood creek, has been recorded by J. Swanson.

INDUSTRIAL UNREST

F. A. Ackland Working for Peace at Valleyfield—G.N.W. Telegraphers out

Ottawa, Aug. 16—F. A. Acland, secretary of the department of labor, has gone to Valleyfield to endeavor to affect a settlement of the strike in the Montreal Cotton mills.

Considerable surprise is expressed here that the Great North Western telegraph has not applied for the appointment of a board of investigation under the Lemieux act. It is thought that the company cannot be very seriously inconvenienced, or it would do so. A business man who is familiar with the workings of the Lemieux act, says that if any walking delegate comes to Ottawa with the object of inducing the local operators to go out on strike, he will in all probability be proceeded against under the section of the act which provides that any one who incites, encourages or aids men to strike before applying for a board is liable to a fine of from $50 to $1000.

W. H. MULLINS CO.

Gentlemen—The metal duck boat, "Get There," is all right. Am surprised and delighted with same. Don't want any more wooden boats. The "Get There" is all and more than you claimed for it.

LICENSE TO AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES ACT, 1897."

Canada,
Province of British Columbia.
No. 391.

THIS is to certify that "Burton City Fruit Lands Company, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Colmubia extends.

The head office of the Company is situate in the City of Winnipeg, in the Province of Manitoba.

The amount of the capital of the Company is ninety-nine thousand dollars, divided into thirty-six shares of two thousand seven hundred and fifty dollars each.

The head office of the Company in this Province is situate in the City of Nelson and Robert Wetmore Hannington, barrister, whose address is the same, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of rBitish Columbia, this 12th day of Jnne, one thousand nine hundred and seven.

(L. S.) S. Y. WOOTTON,
Registrar of Joint Companies.

The objects for which the Company has been estblished and licensed are:

(a) Buying, or acquiring by grant, purchase in exchange for the Company's shares or otherwise, and to sell, lease and exchange, mortgage or otherwise transfer or deal with or dispose of real estate, lands, tenements, hereditaments of every description or nature, and any and every right and interest therein, and generally to carry on a business of a land company.

(b) To carry on the business of immigrtion and colonization agents, make advances to assist settlers on lands purchased from the Company, and secure the repayment of such advances with interest, on such terms and in such manner by way of mortgage or agreement as may be mutually agreed upon, and generally to act as a land improvement company.

(c) To carry on trade as general merchants and forwarders.

(d) To issue in payment of any property acquired by the Company shares of the capital stock of the Company as fully paid up and no-assessable and otherwise;

(e) To carry on the business of manufacturers and dealers in power generators and motors of every description; to construct and operate all classes of vehicles, agricultural improvements, implements, machinery, boats, steamers, barges and ferries in which the said motors are used; to construct and operate boat lines and to carry on the business of carriers, cartage and parcel deliveries; to own and operate omnibus lines and vehicles and boats for hire; to sell, lease and supply powfr and supply electricity; to own and operate electric plants and generally to carry on any of the businesses incidental to the aforesaid purposes and objects of the Company;

(f) To acquire, hold, sell, mortgage, pledge and otherwise deal with mortgages and charges on lands, or any interest therein, and agreements for the purchase and sale of land, or any interest therein, and to invest and lend money upon the security of real and personal estate, goods and chattels, stock, bonds, bills of exchange, promissory notes or other kinds of security as an individual may, and to take and receive in respect thereof, mortgages in real or personal estate or other securities, and to sell or assign such mortgages or other securities; to collect rents, manage estates, and buy and sell property of all kinds on commission, and to act as valuators, financial agents, general and special agents and real estate brokers; to acquire and hold timber limits, timber licenses and timber lands and to sell and dispose of the same; to engage in the cutting and manufacture of timber and lumber and their products of any and every kind and description, and to carry on the business of timber and lumber merchants, by wholesale and retail, and to acquire, work, equip and operate sawmills, planing mills and other works and industries incidental to the business of manufacturing and dealing in lumber and timber and their products; to carry on the industry and business of mining in all its branches, and for that purpose to prospect for, open up and develop and operate all classes of mines and deposits of metals, minerals, rocks, clay, gypsum or other deposits or formations found in or on the ground; to purchase or otherwise acquire and take and hold shares, bonds, debentures and other assets or securities of any other corporation carrying on or interested in any trade, business, undertaking or industry of a character similar to any of the Company's business or undertakings, or with which the Company shall have business relations, and while holding the same to exercise all rights and powers incidental to the ownership thereof, including the power to vote on such shares; to assume and carry out the contracts and obligations and to guarantee the indebtedness of any such corporation, and to enter into contracts for any such purpose; to sell, lease or otherwise dispose of the Company's entire undertakings, property and assets, or any part or parts thereof, at any time, from time to time, and for such considerations as the Company may see fit, and to accept in payment, in whole or in part, or by way of security for the purchase money or rent, mortgages or liens thereon, all the shares, bonds or debentures of any other corporation, or other form of security whatever that the Company may deem proper, and also to sell, dispose of and assign any such securities to any purchaser or assignee;

(g) To engage in and carry on any other business which may be deemed desirable to be carried on in conjunction with any of the Company's businesses or undertakings; to do all acts, deeds and things necessary or convenient for the exercise of all or any of the powers of the Company, or that may be deemed conducive to its interests;

(h) To apply for and obtain in any other province or in any of the territories of Canada, a license to enable the Company to carry on its business therein in accordance with the laws or ordinances of such Province of Territory.

Every steel-plate range kept the kitchen broiling-hot until we found out just how to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook. THIS range is a COOL range—lined with thick asbestos, so the heat stays inside the range, so the oven bakes quick and bakes evenly. Food is better cooked quicker cooked and cooked for less fuel-cost,—and cooked with less bother.

623

FOR CLEANLY COOKERY
**Oxford Chancellor**
BURNS WOOD OR COAL

Everything about it is cleanly,—ash-pit has an outside guard so it can be emptied without fluffing ashes over everything; feed-door extra big to take in fuel without clutter and muss. And this range's draft-control is sensitive, easily-governed, brings a fire up quick or cools it down quick, easier to manage than you think possible. Couldn't make this range any handy, any more serviceable,—it's all it should be to please you.

Come and Price it. Many styles for every purse and any fuel, always on view.

### FOR A WHITE CANADA.

Winnipeg Trades Unionists Will Co-Operate With Vancouver Brethren.

Winnipeg ,Aug. 16.—A "white Canada" is to be the cry of the Winnipeg trades unions on the question of Asiatic labor for the dominion. This was demonstrated at a meeting of the trades and labor council at Winnipeg last night. A letter of strenuous appeal was read from the trades and labor council of Vancouver and this will be referred to the legislative committee to deal with, but, as chairman McKim said, there was no question as to what the action of the responsible committee would be. There was complete unanimity among union men on this matter. They were determined to fight the introduction of yellow labor tooth and nail. They wanted Canada to be a white mans country—a white Canada.

Steps are being taken, said the letter, for the formation of an Asiatic Exclusion League, which when properly organized, will take this matter out of the hands of the trades and labor council and make it a people's movement, irrespective of party ,politics or creed. "Something certainly must be done at once as events here are assuming alarming aspects in regard to oriental arrivals," was one of the phrases in the letter.

### SOCIALIST CAMPAIGN

Headquarters Organizing for Extensive Fall and Winter Propaganda

Chicago, Aug. 16—Plans for an enthusiastic campaign, to extend through the fall and winter, are now being completed at the national headquarters of the socialist party. The acquital of Haywood and the success of English socialists in parliamentary elections has put new life into the propaganda. From all over the country demands are pouring in for lecturers and the great increase in the financial receipts will make it possible to supply the demand. Scores of the brightest men and women in the party have been selected for this work and will start out in the next few weeks to spread the tidings of social revolution throughout the length And breadth of the land. Michigan, Wisconsin and other northern states will be the scene of the first onslaught of the agitators and the propaganda will be gradually extended until every voter in the country has learned what he must do to be saved. At the office of the national officers it was stated that William Haywood would almost certainly be nominated for the presidency, and the prediction was made that he would receive the largest vote ever cast for a third party candidate.

## WORLD'S HOP INDUSTRY

PRACTICALLY CONFINED TO FOUR COUNTRIES

ENGLAND, GERMANY, UNITED STATES AND AUSTRO-HUNGARY

Spokane, Wash., Aug. 16.—Twenty-five thousand men and women will be required to pick the hop crop in Washington yards this season, beginning Sept. 2, and continued 30 days, during which time it is estimated 50,000 bales will be made. The Yakima valley, west of Spokane, will produce 26,000 bales, while the yards in the western part of the state, growers say, should yield 24,000 bales. The price for picking has been fixed at $1 a box, and, as the blossoms are clean and plentiful and labor scarce, the workers will be able to earn from $3 to $4.50 per day.

Growers are looking for an influx of Indian pickers from British Columbia and as far north as Alaska in the next two weeks, words having been received that more than 1200 tribesmen are making canoe journeys southward. Some of them will go to Oregon and California, but the majority are expected to come to Washington for the season's pick. Many young men and women and in some instances entire families living in the cities will pass their vacations in the hop yards, where they are provided with tents and cooking utensils by the growers.

If the present warm weather continues the hay crop of the Pacific coast will be cut down materially. Dealers say the outlook, if there is a moderate degree of rain between now and picking time, points to a crop in Washington of at least 50,000 bales. The market, which has been decidedly off, due to the prospects of a record-smashing crop the world over, is improving. This is caused by the weather conditions, which point to considerable reduction of the crop. In any event the growers are in position to hold their hops until they get a price which will give them a fair profit. Some new hops have been contracted for at 10 1-4 cents a pound, while the price of old hops range from 3 to 5 cents.

The peculiarity of the hop-growing industry is that it is extremely localized not only in the United States, but in other countries. According to the last census, less than 1 per cent of the crop of the United States was grown outside of Washington, Oregon, California and New York, and within these states the crop is confined to certain restricted areas. In New York most of the crop is grown in parts of Otsego, Schoharie, adison, Moneida and Franklin counties, named in order of size of crop; most of the crop of Washington is grown in Yakima, Pierce and King counties; Marion, Polk, Yamhill and Clackamas counties produce most of Oregon's crop, and in California the crop is grown mostly in Sonoma, Mendocino and Yuba counties. Since this census was taken there has been a marked extension of areas of production in the Pacific states, and this is most noticeable in Washington.

Four countries grow 86 per cent of the hay crop of the world. England is perceptably in the lead, with a production of 28.1 per cent of the total. The crop of 1905 was adopted as the leading one for which information is available, for all countries. Next in order is Germany ,with 23.3 per cent, the United States with 20 per cent, and Austro-Hungary with 14.4 per cent. The relative prseent standing of these four countries is fairly indicated by the crop of 1905; but the report shows that notwithstanding the large crops of 1905, the hop production of England and Germany is leclining, while that of the United States is distinctly gaining.

Three countries supply most of the hops that go into the channels of international trade. These are Germany, which in 190 4contributed 37.3 per cent of the world's hop trade; the United States, which contributed 22.8 per cent; Austria-Hungary, 15.4 per cent. The export trade of Belgium, which is of rather large proportions, is partly based upon re-exported hops from Germany and Austria-Hungary.

The hop exporting countries shipped 65,000,000 pounds of hops in 1904, some degree of duplication being involved because of re-shipments. This quantity came out of the world's crop of 174,000,000 pounds, so that international trade handles about three-eights of the entire crop.

Half of the hops that go into international trade are shipped to the United Kingdom, and these are chiefly brought from the United States, the fraction of British imports contributed by this country often being one-half or considerably more. The countries of secondary importance in the import trade in hops, which received from 3,000,000 to 5,000,000 pounds each were Belgium, France, Germany, the Netherlands and the United States.

The apparent anomaly of the United States as an importing country ,while the second exporting in order of importance, is explained by the fact that the brewers of the United States prefer Austrian and German hops on account of their extremely high quality for certain desired results in brewing.

London, Nuremberg and New York are the world's leading hop markets. The price of hops is subject to wide fluctuation. The quantity wanted by the world varies not greatly from one year to the following, so that a shortage or abundance in the crop is reflected in the prices in a greater degree than is indicated by the per centage of deficiency or abundance. Prices in New York are affected more by the prices in London than in Nuremberg, because American hops are largely the dependence of British brewers and do not enter perceptibly into continental trade. The United States imports between 3,000,000 and 4,000,000 pounds of hops a year, while the exports range from 10,000,000 to 24,000,000 pounds.

### TORONTO BANK CLEARINGS

Toronto, Aug. 16—Toronto bank clearings for this week were $22,944,003; for the same week last year they were $21,640,718.

## 12 REASONS

### Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

## THE DAILY NEWS CLASSIFIED ADS.

WILSON'S FLY PADS

Kill them all. No dead flies lying about when used as directed.

— SOLD BY —

DRUGGISTS, GROCERS AND GENERAL STORES

15c. per packet, or 3 packets for 25c. will last a whole season.

ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;
Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and cids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.

### RAID ON PRIBYLOFF ROOKERY.

Alleged to Have Been Planned by Japanese Sealers.

Seattle, Aug. 16.— A plan for an organized raid upon the Seattle rookery of the Pribyloff was planned, not only to loot the rookery of the seal herds but also the salt houses, where the North American Trading & Transportation company, lessors of the Pribyloff rookeries has a large number of pelts salted has been discovered with the result that the U. S. government has decided to dispatch the cruiser Buffalo to Bevic. The news was brought here by the sealing schooner Vera which has returned from a unting cruise in the north Pacific.

She reported that an arrangement had been reached by a number of Japanese sealing schooners, each of which carried besides their usual aramaent used in hunting, one or more machine guns on board to unite in making a concerted raid on the islands. The guns used are all to weak to resist such an invasion.

## How does this strike you?

One hundred and seventy acres fine land on main lake, very easily cleared and with good stream and beach. Steamers three times a day each way. Grand fishing and A1 location.

Price $8 per acre, one-third cash and balance on terms.

This proposition is worth investigating.

We have lands to suit the large or small man, the settler and the investor. Why not call or write for our list?

| Dominion Copper | 5½ | 4⅝ |
| B. C. Copper | 8½ | 8¼ |

## NELSON NEWS OF THE DAY

Born, on Friday, Aug. 16, to the wife of W. Matthews, Stanley street, a son.

There is yet another drop in lead chronicled, that metal now being lower than at has been for many months past. Silver, however, is still high.

Despite the constant repairs that are going on there is more than one sidewalk in the city in a dangerous condition. The city engineer asks that all such cases be promptly phoned to him on being observed.

One of the novelties proposed for the long suffering theatre goers of the west is the incursion of a bunch of Seattle girls, properly chaperoned, as a minstrel show. The young ladies are represented as being crazy to get on the road.

W. J. Carpenter, formerly of Rossland, but now of Spokane, is in the city on a photographing tour for some of the big mining corporations. Mr. Carpenter recently made a panoramic photograph of the Trail smelter seven feet long.

There will be a committee meeting of the 20,000 club on Tuesday next when the result of the canvass of the city recently inaugurated will be reported on, with a view to future continuance of the club. So far nearly enough money has been raised to pay off the debts of that institution but more will have to be put up before the club can see its way clear to finance operations until the end of the year.

## FOR SALE

5 AND 10 ACRE BLOCKS

On the south shore of the lake, within easy reach of Nelson. These blocks are admirably adapted for residential and fruit growing purposes. Each block has lake frontage and abundance of water. The prices range from $300 to $400 for each 5-acre block. In conjunction with this property we have about 100 acres of good bench land including a strip leading to the lake, and lake frontage at $20.00 per acre.

## HAMMOCKS

We would like to fill your order for one of these. Our shipment has been delayed in transit and we are therefore selling them at prices which should merit your patronage. Call and inspect our line. . . .

**The J. H. Ashdown Hardware Co., Ltd.**

NELSON BRANCH

There was some slight improvement in the telegraph service last night. Apparently some A.P. stuff was received at Vancouver and passed on here in a more or less mutilated condition. General manager Kent of the C.P.R. Telegraphs, has been out at the coast, where he told the newspaper men that he was supplying a vastly improved news service, well worth the additional price charged. Kent is either a humorist or he has lost the last shred of conscience.

The Bostonians vaudeville minstrel entertainment at the opera house last night afforded an opportunity for the various members of the juvenile company to show just what they could do in variety specialties. While no numbers were bad, and all were applauded by an appreciative audience, some were markedly good. The ballet was excellent and had but one fault, that of its brevity. The audience could have stood a good deal more of the really fine dancing. Babe Mason was good in several things; Rose Cole did well, especially on her first entrance; Halcyon Martin, the tiniest of the cast, was much admired but perhaps the best of the whole program was a concerted piece from the Prince of Pilsen. "Taps" will be given this afternoon and the evening performance will be "Olivette." Both should draw good houses.

### 20,000 CLUB

The following additional subscriptions were obtained yesterday:

| | |
|---|---|
| Amount heretofore acknowledged | $595 |
| W. G. Thomson | 10 |
| Macdonald and Hall | 10 |
| F. Irvine and Co. | 10 |
| J. A. Gilker | 10 |
| Bush and Matthew | 5 |
| M. Scully | 2 |
| Total | $642 |
| D. J. Robertson, monthly | 1 |

James Balding and son of the Fairview dairy, are spending a three weeks holiday at the coast.

### SLOCAN NEWS NOTES

(Special to The Daily News)

Slocan, Aug. 16—The annual children's picnic, held under the auspices of the Presbyterian Sunday school, took place at the beautiful picnic grounds near town on Aug. 13. Nearly every child in town was present and greatly enjoyed the sports and bountiful lunch provided.

George Smith, who has been assistant C.P.R. agent here for several years, left yesterday for Greenwood where he will be employed.

Mrs. Oliver Covington of Greenwood arrived here yesterday and will spend several months with her sister, Mrs. D. B. O'Neill.

Mrs. Stewart of Greenwood is visiting her brother-in-law, Alex Stewart.

Born, in Slocan, Aug. 13, to the wife of William Clough, a daughter.

Mrs. W. H. Brandon of Silverton, is visiting friends in Slocan.

### ELECTION OF AN ARCHBISHOP

Regina, Aug. 16—The mode of electing an archbishop of the church of England will remain for the present as it was when Rev. S. P. Matheson was elected to the high position. This was the decision arrived at yesterday by the synod of the ecclesiastical province of Rupert's Land, after several hours of discussion and many warm remarks. The charge was made that the diocese of Rupert's Land, which includes what is practically the province of Manitoba, was acting from a selfish standpoint in bringing forward the proposals. The memorial which the diocese presented was thrown out at once with the amendment offered. Although the matter is left abeyance for the present, it is hoped that it will be definitely settled before it becomes necessary to elect another archbishop, and the voting down of the motion and the amendment was more for a shelving of the question than a settlemet.

### BUFFALO IN FAR NORTH.

Ottawa, Aug. 16.—Col. Fred White, governor of the organized territories, has received frequent requests to take steps to save a few hundred wood buffalo which roam over the country to the north of the Great Slave lake and eastward of the Mackenzie, and which are also found in a few other parts of Canada's great lone lands. Mr. Seton Thompson, the nature writer, who is in the far north at the present time, has interested himself in the subject and a couple of reports on the matter have been received from inspector Jarvis of the Northwest Mounted Police. He is of the opinion that many of the buffalo are being killed by traders who conveniently lay the blame upon wolves which infest that country. The generally accepted view, however, is that wolves do kill many of the calves.

### G. T. FREIGHT TRAIN WRECKED.

Niagara, Falls, Ont., Aug. 16.—A Grand Trunk freight train was wrecked today on the lower steel arch bridge over the Niagara gorge. The bridge was damaged and four cars loaded with meal dropped into whirlpool rapids. Traffic over the bridge is blocked.
