NEW VENIRE ON HAND

But no Progress Was Made Yesterday in Filing Jury Box.

Looks as Though Task of Securing Jury Will Be Extended Into Next Week—Counsel Engage in Altercation.

(Special to The Daily News)

Boise, Idaho, May 23.—There was no progress made today in filling the seat made vacant in the jury box in the Haywood case when Orrie Cole was excused on account of sickness just before the court adjourned Tuesday.

Sheriff Hodgin returned the names of 60 men summoned as jurors and all but one answered when the roll was called, a bench warrant being issued for the missing man. Six were excused on statutory excuses and the cases of five others were taken under consideration until tomorrow morning.

Six jurors were called into the box during the afternoon, five of whom were excused because of having formed an opinion. The sixth was passed by the state and was under examination by the defense when adjournment was taken.

A sharp passage occurred during the examination of Lee Egbert. The juror said he had formed an opinion and was asked by Hawley whether he was in the habit of forming opinions on important subjects from loose talk about the neighborhood.

Darrow objected and explained he thought the line of examination was for the purpose of intimidating other talesmen. Though the objection was overruled, the attorneys continued the exchange for a few moments, Hawley having been nettled by Darrow's remarks.

The prospects for getting the jury filled this week seem to have gone glimmering, but they may strike a better gait tomorrow.

It is thought the state does not propose to exercise all its peremptory challenges but even though it should not exercise another, the work would be likely to continue until Saturday night if the defense should exercise the four more which it has the right to.

REDUCE SIZE OF LOAVES

TORONTO BAKERS' METHOD OF MEETING RAISE IN FLOUR

SMALLER LOAVES FETCH SAME PRICE AS FORMER SIZE

Toronto, May 23.—The increased cost of flour has by no means excited the large bread bakers of the city, and inquiries made of some of the most prominent bakers elicits the information that up to the present no concerted action has been taken to raise the price of bread.

The Nasmith company stated that the announcement of the increased price of flour has not been made long enough to give the association time to call a meeting. They pointed out, however, that an increase of 50 cents on a barrel of flour was not sufficient to justify an increase of one cent on each loaf of bread. The tendency would rather be to reduce the weight of the loaf. In the United States the weight of a loaf is one pound, while in Canada the weight ranges from a pound and a quarter to a pound and a half. It is easier to provide for the increased cost of flour by gradually reducing the weight of the loaf. The law does not interfere with the baker reducing the weight of the loaf, providing he stamps the weight on it.

Mr. Bredin, of the Bredin bakery, stated that there was so much uncertainty in the flour market that it was impossible to state what action would be taken by the bread bakers.

"If the price remains as it is today we will have to do something," said Mr. Bredin.

"Will the tendency be to increase the cost of bread or reduce the weight of the loaf?" he was asked.

"I think the weight of the loaf will be reduced," he replied.

Another prominent baker stated that already one of the largest bakers in the city had reduced the weight of the loaf to 20 ounces, instead of 24 ounces. He had stamped this weight on the bottom of the loaf. Notwithstanding this, however, he was getting the same price for his bread as the bakers who sell the 24-ounce loaf.

The bakers who do not employ union men state that they have followed the example of the bakers who do employ union men, and have increased the wages of their men $1 per week. This they say, with the increased cost of flour, may affect the future price or weight of bread.

EIGHT HOUR DAY FOR PRINTERS

Toronto, May 23—As a result of a conference between the typographical union and the employing printers, a five years' agreement was proposed by the employers. All allied printing trades are to get an 8-hour day commencing June 1, an increase of $2 a week is also granted book binders and pressmen, while proportionate increases are granted other branches. It is agreed that $1 of the increase will go into effect in a year and a half and the additional $1 in three years from June 1, 1907. The union accepted the agreement and the eight hour day goes into effect in all branches on June 1.

ORANGEVILLE CASE

Failure to Prosecute Defendants Justified by Whitney

Toronto, May 24—The following statement has been handed out by deputy attorney general Cartwright after consultation with premier Whitney:

"The attention of the department has been drawn to the remarks of the newspapers on the Orangeville case. At present it is not in a position to say anything beyond this: After the matter was considered in all its bearings, having reference as well to the nature of the evidence before the grand jury as to that which was given and to be given at the actual trial, the provincial detective and crown prosecutor and the chief justice presiding at the trial, came to the conclusion that the interests of justice would be best served by disposing of the case in the manner adopted. The public may rest assured that the decision was reached for very good reasons—reasons which, obviously cannot be discussed in detail, and that no other considerations other than those of the interests of justice influenced the decision."

WHEAT ABOUT ALL SOWN

SATISFACTORY SEEDING REPORTS RECEIVED BY C. P. R.

CONVENTION OF BROTHERHOOD OF ST. ANDREW

Winnipeg May 23.—The weekly seeding reports, made by the agents of the Canadian Pacific, show that in a large portion of the country the wheat has all been sown and at many points the swing of the coarse grains has also been finished. The weather has been uniformly good and in certain districts there has been rain. Within a few days the seeding will be virtually completed in all parts of the country, and with favorable weather the results ought to be very satisfactory to western people.

The delegates to the convention of the Brotherhood of St. Andrew are gathering today from distant parts of the dominion and the United States and greeting one another in the auditorium of the Y.M.C.A. The dominion council was engaged in private session this morning and met again this afternoon. The organization meeting was held tonight consisting of devotions conducted by archdeacon Fortin, reception of visitors and greetings, notices of motion and nominations for the new council.

Tomorrow morning at 11 o'clock addresses of welcome will be given by archbishop Matheson mayor Ashdown and general secretary W. T. Hart of the Y.M.C.A.

WHERE BEARS ARE PLENTIFUL

Report Brought in by Timber Inspector Robertson

Prince Albert, Sask., May 23—Alexander Robertson, timber inspector, who returned to Prince Albert today from Etomommi, states that on several occasions recently bears have attacked men in that district, although the case reported a few days ago is the only one which had fatal results.

Only a few days ago a big black bear forced its way into a shack while the owner was sleeping in a bunk and without noticing the man, devoured his supply of meat and potatoes. The man was aroused and his yells scared the beast away and he was not further troubled. Another man was chased by a bear but reached home in time to get his rifle and shoot bruin dead.

R. Montgomery, P.L.S., who is surveying a township north of Fort Alacorne, also was in town yesterday and brought word of a member of his party having been lost lost in the bush for 48 hours without either food or matches. He lost sight of his companions while tieing a boot lace, and trying to follow them he got hopelessly lost. A number of half breeds belonging to the party made search but failed to find any trace of the man, but he eventually got back to camp by following the searchers' tracks in some fresh snow.

STOLE LIVE WIRE

Nervy act of Thief—Cut down and Carried of 700 Feet of Wire

Hamilton, May 23—A nervy thief appeared in the police court this morning. He was Harry Smith, an electrician, and the charge against him was for stealing 700 feet of copper feed wire from the H. H. and B. Electric Railway company. Smith climbed a pole east of the city limits and cut the wire while a current of several hundred volts was passing over it. He protected himself by the use of a pair of rubber gloves. He pleaded guilty to the theft charge and was remanded for sentence.

HAVE FAITH IN EMMERSON

(Special to The Daily News)

Ottawa, May 23—The New Brunswick constituents of Emmerson are rallying around him at all points. A meeting at Moncton passed a resolution in favor of his being given back the portfolio of railways, after his vindication. Liberals of Westmoreland county, in a convention, passed a resolution endorsing Emmerson and expressing confidence in his vindication. Emmerson said the charges against him were false and declared he would grapple with the "beasts at Ephsus."

PRAISE FOR LEMIEUX ACT

Montreal, May 23—Wallace Nesbitt, K.C. of Toronto, who has just returned from Montreal, where he was on the conciliation board in connection with the Grand Trunk company and the machinists' labor trouble, which has been satisfactorily settled, gives out in an interview that the labor disputes act will settle almost every labor dispute to which it is applied. He speaks very highly of the act in everyparticular and suggests one or two minor amendments. This from an ex-judge of the supreme court is valuable and important testimony to the efficiency of the measure.

BUFFALO FREIGHT HANDLERS

Strike About Ended—Large Number Return to Work.

Buffalo, N. Y., May 23.—The strike of the freight handlers at the docks was practically ended tonight, when the Western Transit company, conceded the men an advance of 3 cents an hour to the 20-cent scale, for which the men struck. Over 700 of the 1200 strikers came from the Western Transit sheds, and it was said the other companies involved would meet the advance.

T. V. O'Connor, president of the longshoremen's union, arrived here from Toronto today to take charge of the situation.

"The men still out have the backing of the longshoremen's organization in full," said he. "There will be no return to work except where the 20 cents is paid. The demands are very reasonable and I believe the employers will look upon them in that light."

Leonardoaze, the striker, who was shot by a policeman this afternoon, is not seriously wounded.

GREENWOOD ATHLETES

(Special to The Daily News)

Greenwood, May 23—The Greenwood amateur athletic association has arranged a program for Saturday evening, the chief feature of which will be the exhibition of wrestling by Everett Baker, who has held the championship of the Pacific coast and is now challenging for the championship of British Columbia. Wrestling matches will take place between Jack Calder and Joe Thomson and between Emile Clerf and G. Murray. There will also be a five round boxing contest between W. E. Swayne and Herbert Archibald, and a mock contest between Panhandle Pete and Sad Eyed Mick. Another item of the program will be slack wire and juggling by Warren Roseboom.

DEATH OF G. B. BURLAND

PROMINENT MONTREAL BUSINESS MAN DIES IN LOS ANGELES

PRESIDENT OF BRITISH AMERICAN BANK NOTE COMPANY

Montreal, May 23.—G. B. Burland, president of the British American Bank Note company, and one of the leading business men of this city, died at Los Angeles yesterday, where he had gone in search of health.

Mr. Burland, who was in his 79th year, was born in 1822 and came to Canada in 1849. He became identified with the bank note engraving business and founded the British American Bank Note company, of which he became president. Mr. Burland was connected with many public institutions and was one of the wealthiest men in Canada and was identified with Montreal's business life for many years. He was president of the Lachine Rapids H. & L. company, a life governor of the Montreal general hospital, to which he contributed liberally of his wealth. He was thrice married. His present wife was a nurse whom he married a few months ago.

GOES TO MEDICINE HAT

TRANSFER OF J. S. LAWRENCE IS CONFIRMED

ALLEN PURVIS MAY BE MOVED TO WINNIPEG

(Special to The Daily News)

Vancouver, May 23.—As a result of Mr. Bury's recent trip over the lines, it is announced a new district of the western division of the C.P.R. will be created, extending from Medicine Hat to Swift Current, on the main line, and west to Lethbridge, on the Crow's Nest. J. S. Lawrence, superintendent of the Kootenay division, is to be transferred to Medicine Hat and D. C. Coleman, present assistant to Bury at Winnipeg, to the Nelson post. A. Purvis, now chief clerk to Busteed here, may succeed Coleman. Official notification of the changes is expected next week. The appointments are to take effect on June 1st.

FIVE MEN KILLED

Chicago, May 23.—Five men were killed and at least a dozen overcome are in a serious condition by the explosion of an ammonia tank in one of Armour & Co.'s warehouses. The building was full of workmen, and the deadly fumes, escaping from under a high pressure, penetrated through every department in the building in such a short time that twenty of the men were overcome. It was not until six hours after the explosion that the first body was recovered. All of the dead and injured were foreigners.

CHINESE LIKE GOOD FLOUR

Winnipeg, May 23.—The demand from the far east for Canadian flour is still on the increase. The Ogilvie flour mills today closed a further contract for 10,000 sacks for July shipment from their Winnipeg mill to China. Recent sales have been made at steadily advancing prices and additional offers are under consideration.

EDMONTON'S ASSESSMENT

Placed This Year at Over $20,000,000---Tax Rate Lowest in West.

Biggest Brewery in Western Canada to Be Erected—Price of Lumber Advanced by Local Retail Association.

Edmonton, May 23.—Mayor Griesbach announced today that Edmonton city's assessment for the present year will be over $20,000,000. Last year the tax rate was 10 1-2 mills, which is the lowest in the west, and will likely remain for the present year.

Enquiry into the coal conditions of the city shows that it cost $19,000 more to heat the city houses last winter than the previous year.

A conservative estimate for the six months from October to April places the total consumption at 55,000 tons. The price obtained by dealers averages $4 per ton, thus making a total of $220,000 expended last winter. During the same period the season before, the consumption was 37,000 tons, but coal then averaged $1 less per ton. This shows an expenditure of $111,000.

Investigation made by the city health authorities shows that much of the milk used in the city is impure. The licenses of a number of milk vendors will be cancelled as a result.

The price of lumber in Edmonton will be raised on June 1st. Contractors will have to pay from $2 to $3 per thousand more than at present. The change chiefly affects native lumber, although certain classes of imported lumber will also take a jump in price. This action was taken by the Edmonton lumber dealers' association at a meeting just held. The reasons assigned are lack of cars, increased cost of production of dressed lumber, and greatly increased demand.

A new brewery is to be erected by the Edmonton Brewing and Malting company at the west end of the city this summer, and will, according to the plans of the company, be one of the largest in western Canada. The first estimated cost of $500,000 has been found to be too low, and the plant when completed will cost in the neighborhood of $450,000. Eighty men will be employed when in full operation.

STORK LEAVING FERNIE

EX-MAYOR AN ALL ROUND GOOD CITIZEN DEPARTS

WAS RECIPIENT OF SEVERAL WELL-MERITED PRESENTATIONS

(Special to The Daily News)

Fernie, May 23—On the eve of his departure for Vancouver, where he will in future reside, ex-mayor Fred Stork, was a busy man. Last night at 8 o'clock B. Co., Kootenay Rifles, of which he has been commanding officer since its organization, presented him with a handsome smoking case and a gold headed umbrella, as a small token of their appreciation for his untiring efforts in their behalf and the keen interest he has displayed in the welfare of the company.

The old timers and prominent citizens of the town also evidenced their appreciation of the services he had rendered the town as mayor, member of the council, and as a broad minded resident, by presenting him in the parlors of the Fernie hotel, at 9 o'clock, with a gold watch, suitably engraved, the presentation being made by his worship, mayor Bonnell, before a large gathering of his old friends.

Mr. Stork was one of the pioneers of the town and has always taken a keen interest in its progress and is one of the most popular and highly esteemed residents.

FINLAND'S PARLIAMENT

Controlled by Coalition of Socialists and Young Finns

Helsingfors, Finland, May 23—The first single chamber diet of Finland, organized under the new constitution, today elected presiding officers and then adjourned to await the emperor's confirmation of the elections. The coalition of socialists and young Finns, as anticipated, had complete control of the elections, polling 134 votes out of 200, and voluntarily conceding the third office filled to the old Finns.

Judge Svinhufvud, a member of the young Finn party, who was degraded from the bench and driven into exile, under the regime of the late governor general Bobrikoff, was elected president.

BOUNDARY WAGE SCALE

(Special to The Daily News)

Phoenix, May 23—Another conference was held this week between Boundary mine managers of several properties and the employees, regarding a request for wage increase. A new scale was submitted by the employers calling for an increase of 25 cents per day to all underground men and many usrface men. The proposal was considered but not acted on favorably. However, considering that by some time next week coke will be arriving freely it is the intention of the companies to add to the small forces now employed and prepare for ore shipments in a few days, anticipating that the wage scale will be adjusted satisfactorily and that there will be sufficient coke to start.

WINNIPEG'S BREAD BILL

Increased $3,500 Weekly by New Scale of Prices.

Winnipeg, May 23.—Winnipeg's bread bill will be $182,500 a year more than it was as a result of the increase in prices.

Persons who buy bread by the dollar's worth will pay a fraction over a half a cent a loaf more. Others will pay a cent a loaf more than formerly. The average consumption of bread is estimated by bakers at between a half loaf and three-quarters of a loaf a day. The conservative estimate therefore would be an increase per capita of half a cent a day. The population of Winnipeg is 100,000, which means an increase in Winnipeg's bread bill of $500 a day, $3,500 a week or $182,500 a year.

CONGESTION OF FREIGHT

SERIOUS CONDITION IN MONTREAL YARDS AND WHARVES

SHIPS HAVE TO BE SENT AWAY TO BE UNLOADED

Montreal, May 23.—The congestion of freight is assuming a serious aspect in Montreal at the present time. The congestion is in the yards of the railway companies and along the wharves, affecting ocean and local goods.

While the strike had some effect upon the situation, the condition of congestion is largely due to the rapid increase fo business, present facilities being inadequate to clear things.

There are at the moment 500 loaded cars in the C.P.R. yards, while there are 1000 cars of freight awaiting clearance in the Grand Trunk yards. The wharves are lined with freight to such an extent that some of the ships have been sent to Hochelaga in order to find room to unload.

Meanwhile the freight is accumulating and shippers are at their wits' end to keep some movement and prevent the matter from assuming the proportion of a blockade.

JAILS CROWDED

Want Government to Establish Industrial Farm for Prisoners.

Toronto, May 23.—Mayor Clavet and city solicitor Keefer, of Port Arthur, have asked the government to establish an industrial farm in the Rainy river district. They point out that the jails are crowded and prisoners would be better for being kept at work.

CASTRO RETIRES

New York, May 23—President Cipriano Castro, of Venezuela, according to information received in this city from two independent sources, retired from office today, because of ill health. He will recuperate in Switzerland. General Juan Vicomte Gomez, first vice-president, succeeds general Castro in the presidency. About three months ago a serious operation was performed on Castro at Macuto, a seaside resort near La Guayra. He was not expected to recover, but in a few weeks had recovered sufficiently to be taken to Caracas. However, he has not fully recovered his health.

BIG BLAST FURNACE

Sault Ste. Marie, May 23—Superintendent Lewis of the Algoma Steel company, announced today that the company will begin in the near future the erection of a million dollar blast furnace. It will be the biggest furnace in Canada. At present the company is running at half capacity because it cannot get metal fast enough except by buying in the United States. The new furnace will be followed at once by the erection of a big coking plant.

LE ROI APRIL REPORT

April shipments amount to 9685 tons, containing 1958 ounces gold, 4200 ounces silver and 206,900 lbs. copper. Estimated profit on this ore, after dducing cost of mining, smelting, realization and depreciation, $5000. Expenditure on development work during the month, $16,500. Ore shipments to the Trail smelter now finished. In future all shipments will be sent to the smelting works at Northport.—London Financial News.

EMPIRE DAY

Kingston, May 23—Empire day was celebrated in schools and the monument of sir John Macdonald in city park, was decorated with flowers by the children of Victoria school. A patriotic address was delivered by Dr. A. W. Richardson.

TESTS LACK REFINEMENT

Montreal, May 23.—Shipping companies here have received complaints against the tests to which second-class passengers are subjected by dominion medical officers at Quebec. These passengers, many of whom are refined in taste and habits, are required to jump and dance and run up and down the shed floors. The matter, it is said, is to be brought to the attention of the interior department.

MINISTER TO DENMARK

Washington, May 23—r. Maurice F. Egan has accepted the post of minister to enmark offered him by president Roosevelt. The date on which he will enter upon his duties will be determined by the state department. Dr Egan is a member of the faculty of the Catholic university in this city.

TO BE ELECTROCUTED

New York, May 23—John Bell was tonight found guilty of murder in the first degree and was sentenced to be electrocuted on the first Monday in January next. Bell killed Dr. Charles Wilmot Townsend of Staten Island.

THE KILLARNEY OUTRAGE

Killarney, Man., May 23—The inquest following the murder of Georgina Brown, near here yesterday by Laurence Rowland, opened today and was adjourned this evening to enable the post mortem to be conducted. The prisoner, who attempted to commit suicide, is recovering.

REVOLUTIONISTS ARRESTED

St. Petersburg, May 23—Sixty members of the army revolt league have been arrested. The majority are young recruits.

ARRESTED ON SUSPICION

SUPPOSED ASSAILANT AND MURDERER OF AMELIA STAFFELDT

WS IN THE NEIGHBORHOOD ABOUT TIME CRIME WAS COMMITTED

New York, May 23—Henry Becker, 21 years old, of Manhattan, was tonight arrested on suspicion that he was the man who yesterday ravished and murdered Amelia Staffeldt, the 15 year old daughter of William Staffeldt, a farmer of Elmhurst, L.I.

Becker, according to the police, admitted to have been in the neighborhood at the hour when the crime was committed and to having washed his hands at a pump in the nearby yard of Mrs. Emily Simonson. The arrest was made at the Sheel road, near the Sheffeldt home and the prisoner later was locked up.

Becker said he spent yesterday chopping wood for a farmer of Elmhurst. The police say he was thus engaged in the forenoon but not later. They are looking for a man said to have been in Becker's company yesterday.

The police say that Becker has been arrested for assault before. Photographs of the prisoner were made tonight and hastily developed for distribution in the neighborhood. In this way it is hoped to learn something of Becker's whereabouts yesterday and the identity of his companion.

FUNERAL OF W. F. LUXTON

TAKES PLACE THIS AFTERNOON IN WINNIPEG

SUDDEN DEATH OF OLD-TIME C. P. R. DISPATCHER

Winnipeg, Man., May 23.—The funeral of the late W. F. Luxton will take place tomorrow afternoon at 2 o'clock from the residence, on Graham avenue, to Holy Trinity church and thence to St. John's cemetery. Archdeacon Fortin will conduct the service at the church.

The members of the typographical union and the "Old Timers' Press" will attend the funeral in a body.

The pallbearers will be Hon. R. P. Roblin, Hon. Robert Rogers, Hon. William Hespeler, James Fisher, sheriff Inkster and professor McDermid.

James Barnes a well-known C.P.R. chief dispatcher, died suddenly at Brandon today. He was working last night. He had been 20 years with the company and was highly regarded.

TUNNEL COMPANY IN TROUBLE

New York, May 23—T. Tileston Wells, a lawyer, was today appointed receiver of the New York Tunnel company, which is constructing a tunnel under the East river from the Battery to Brooklyn. The receiver was given permission to continue the business for 20 days. It is alleged that the company owes more than $100,000.

EX-VICEROY FOR COMMONS

London, May 23.—Lord Curzon, of Kedleston, ex-viceroy of India, will probably be invited by the unionists of Rutland to contest the parliamentary vacancy caused by the death yesterday of Mr. Finch, who had represented that constituency for forty years.

DEATH OF AUTHORESS

Concord, May 23—News reached here today of the death yesterday of Mrs. Ella Farman Pratt, author of books for young people. For many years Mrs. Pratt was the editor of Wide Awake. She was 64 years of age.

SUBURBANITES MUST PAY

Philadelphia, May 23—As a result, is is asserted, of the recent two cent fare law, the Philadelphia and Reading railroad today announced an increase of its suburban fares, in some cases 40 per cent.

WIDOW SEEKS DAMAGES

Ottawa, May 23—An action for $10,000 has been entered by the widow of Andrew Villeneuve, fireman, of Hintonburg, Ottawa, for damages. Villeneuve was killed in the Fire Hill accident near Winnipeg.

LAURIER IN PARIS

Waits Arrival of Fielding and Brodeur Before Doing Business

Visits Ministers and Will Call on President Today—Later Laurier and Colleagues Will Visit Italy.

Paris, May 23.—The Canadian premier, sir Wilfrid Laurier, arrived here last night from London. He called on premier Clemenceau, foreign minister Pinchon and the British ambassador, sir Francis Bertie, and will be received in audience by president Falleries tomorrow.

The purpose of sir Wilfrid's visit to the continent is to see if it is possible to negotiate new and mutually more advantageous tariff arrangements between Canada and France, Italy and Belgium. The subject, however, has not yet been broached at the French foreign office, as sir Wilfrid desires the presence of W. S. Fielding, the Canadian minister of finance, and L. P. Brodeur, the Canadian minister of marine and fisheries who arrive here on Saturday.

The plan is to proceed to Rome May 28 and see what can be accomplished there, returning to Paris about June 13, when formal propositions will be suggested to France and Belgium. Sir Wilfrid will sail for home July 1st.

WANTS SLIDING SCALE

"CHIPPY" HILL'S OBJECTIONS TO NEW AGREEMENT

HILLCREST MINES WILL NOT RE-OPEN ON THAT SCHEDULE

Winnipeg, May 23—Charles P Hill, manager of the Hillcrest mine, Hillcrest, Alta., is in the city. His was one of the mines affected by the recent miners 'walkout, in fact his men are still out. Mr. Hill declared that he will not sign the agreement as it is absolutely unfair to the mine owners.

"That agreement does not settle the matter," he said in an interview this morning. "Hillcrest will never open on that schedule as long as my name is Hill. The new schedule makes an increase of 25 cents a ton for mining and that leaves us absolutely no margin for profit. It costs over $100 a day to keep the mine closed, but I will not reopen it."

He explained that his men were perfectly satisfied with conditions. They had no grievance at all with the owners. They voted at a ratio of 27 to 1 to return to work at the old scale of prices but as members of the union, they had to stay out.

"I have been down east for the past four months during which time I visited the coalfields of Pennsylvania. We receive here only a dollar a ton more for coal but we have to pay four times as much to have it mined. That hardly looks fair. I will tell you another reason why this agreement is unfair. In the Hillcrest mine the vein is 16 feet thick. The average vein is only four to five feet thick. The work is very much easier in the Hillcrest mine and there should be a sliding scale."

Mr. Hill added that skilled labor is very scarce in the far west. Good carpenters are particularly difficult to get and of 30 or 40 carpenters at work on his property only two or three are skilled mechanics. They went out on strike with the miners and delayed work a great deal.

BOUND FOR KASLO

Make-up of Nelson-Medicine Hat Lacrosse Teams—Others Who will go

The Medicine Hat lacrosse team, who will meet Nelson at Kaslo this afternoon, came as far as Procter last night on the Kuskanook, and transferred to the International, going on to Kaslo.

The Medicine Hat lacrosse team today will be composed of J. Peard, goal; W. Hatcher, point; W. Peard, cover; B. Ritchie, S. Taylor, J. Preston, defence; A. Halward, center; V. Ready, J. Ripley, T. Winkler, J. Halward and C. Neff, home; C. Brougham, manager.

The Nelson players will be chosen today from the following players: Greyerbiehl, H. and A. Bishop, L. Steel, A. Williamson, Jamieson, Springett McQueen, DeBeck, Deacon, Davison, Thompson, Bell, Burns, A. Perrier, and C. D. Blackwood.

A delegation from the Nelson gun club who will take in the trap shooting, some local lumberjacks for the log rolling, the junior baseball team and the city band will be on the Kuskanook when she pulls out at 8 o'clock this morning.

SHERIFF SWEETLAND'S ESTATE

Ottawa, May 23—The big estate of the late Sheriff Sweetland, was entered for probate this afternoon. The estate is worth $157,000 and is made up largely of Ottawa real estate and bank of Ottawa stock. The income goes to three daughters, Mrs. Fred Anderson and Mrs. Geddes of Ottawa, and Mrs. J. H. Thompson of Toronto, during their lives and after that is to be divided share and share alike, among certain grand children. The coachman for 37 years John Pollard Bryan, gets $1000. Nothing was left local charities or institutions.

MENNONITE SETTLERS

Yesterday Toye & Co. put through a sale of 1124 acres at Dog Creek and Deer Park, on the lower Arrow lakes, to the Manitoba and Western Land Co. of Winnipeg. The land was owned by George White. Last winter a sale was made to the same company by Toye & Co. of 1100 acres at Long creek, 20 miles further up the lake. The purchasers are principally Mennonites, who have made money in Manitoba and are coming here to settle down and enjoy life.

SEX AND SUFFRAGE.

Eleven pages of the May Fortnightly are devoted to an article by Mrs. St. Clair Stobart on "Sex and Suffrage." It is Mrs. Stobart's aim to show that the demand of women for political enfranchisement "has its root far deeper seated than upon the tongue tips of the shouting suffragettes," though "the raw millhand from Lancashire, who leaves the factory to butt her head against the metropolitan police may not be conscious of it, any more than Noah's dove was conscious of its mission."

"The first period of humanity," writes Mrs. Stobart, "witnessed the supremacy of the female organism. The second period has seen the ascendency of the male, but there is every indication that this period is drawing to a close, and that a third stage of humanity is about to be reached. For as the dawn of mind led man to the assertion over woman of that physical force of which brain power was a concomitant result, so now does the present writer believe that the dawn of sympathy which this twentieth century witnesses, will lead woman to the assertion of her right equally with man, to regulate the moral and social forces which have displaced the physical in nearly every department of human life. We shall, then, in this third stage of humanity, see the dual supremacy of man and woman over every other department of creation.....And as in the earlier historic periods the qualities selected in men by women namely, physical strength and courage, were the requisites for the formation of societies, so now the qualities which man has of late specially selected in woman, namely, sympathy and love, are equally those best qualified to maintain in a state of happiness and prosperity the social state which man's previous efforts had formed."

Mrs. Stobart proceeds to the argument that "since the growth of brain power was synchronous in man with the development of his physical forces, the modern physical development of women, partially induced by her admission into the world of athletes, will not be without its results upon the cerebrum of the female organism. And already, during the time since physical development has been no longer confined to man, is there not visible a marked increase in the brain activity of women?" In support of this view, Mrs. Stobart points to the women who have reached the front ranks in medicine, science, art and literature.

What is known as the "fighting" argument against female suffrage has, as its sole foundation in reason, Mrs. Stobart contends

"that condition of primitive society in which the governors of a tribe or a country were of necessity the fighters, and where it was only by, through, and because of their superiority as warriors that they possessed any claims to leadership. But in the face of our modern Campbell-Bannermans and Balfours and of the fact that no one dreams of exacting military service from our legislators or cabinet ministers, it cannot be contended that the defensive and the legislative functions of the state are now interchangeable. The powers of governing and defence are as distinct as the forces of intellect and physical might, which respectively control them, and it is absurd to presume that in this twentieth century military capacity and physical force are essential attributes of would-be legislators.

"Since, too, our professional fighters are, as a matter of fact, the only otherwise eligible males to whom the rights of franchise are denied, the argument resolves itself into this: 'Women must not be allowed the vote because they do not fight, and soldiers and sailors must not have it because they do.' But amongst all this apparently muddled thought a deep-seated principle is struggling for enunciation. The purpose for which the weak dove has been sent forth to beat its wings against a hostile waste is revealing itself, and women are beginning to realize—albeit most of them still with only the subconscious mind—that they are struggling in earnest not for this, that, or the other political privilege—they have had privileges for centuries—but for rights of citizenship, for the right, after long imprisonment in the ark of time, to land on Horeb and help in the regeneration of a new world."

EDITORIAL NOTES.

For the ten months ended April, 1907, C.P.R. gross earnings amounted to $58,379,118. This is only $3,290,640 less than the then phenomenal returns of 1906—the entire year.

Sir Wilfrid Laurier was called all sorts of agreeable names in London—the Nestor of the Conference, the Silver-tongued Orator of the Empire, and half a dozen others. A few imperialists, who mistake prancing for progress, were vexed with him because he did things which less excitable people regard thankfully, says the Toronto Monetary Times. He spoke for preference, he gave the Britishers plain talk on the cattle embargo, he lauded interimperial independence, and he counteracted the eagerness of Mr. Deakin, who is much conditioned by the extremities of labor legislation; and of Dr. Jameson, of whom, perhaps, it is unkind to say that he was once before in a disastrous hurry to help a revolution. With the first Canadian, then reposed the restraining and progressive power of the conference; for he represented the balanced, experienced aspiration to go ahead, which makes resistance to short-sighted haste really valuable. Australia talked most. Canada exercised the heavier counsel. That sir Wilfrid completely satisfied neither free trader nor tariff reformer, but strongly impressed both, is the best promise that our imperial influence can easily grow. If we merely said "Ditto" to one or another British party's creed we might as well become resigned to a perpetual provincialism, too big to be dignified, too circumscribed to be national, incapable of being imperial.

A HOME of Comfort

CRIME STILL A MYSTERY

New York, May 23—After a whole night's work the police today are as far from a definite clue to the identity of the murderer of Amealia Charlotte Staffeldt, the 15 year old girl who was so shockingly assaulted and killed with a knife in a field at Queensboro yesterday. The borough inspector personally has charge of the case. Every detail of the crime has been carefully gone over, he explained, and no love affairs of the girl which might possibly have led to the crime, have come to light. Information gained from an employing carpenter may lead to something tangible. This carpenter told the police that he paid off men yesterday who had worked for him near Elmhurst for two months past. Several of the men had been drinking and at noon they started for Manhattan. One in particular is said to have started for Manhattan by a short cut across the old farm into a field in which Miss Staffeldt's corpse was found.

Several of Inspector Flood's detectives think the crime was committed by an insane, on account of the many revolting phases. Joseph Engel, the farm hand, who saw a man running across the farm shortly before he found the girl's mutilated body, says the man's eyes wore a crazy look which startled him. He says the man was a foreigner. Adam Hummel, who was working with Engel, also believed from his cursory sight of the stranger, that he was a foreigner.

POWER AT PORT ARTHUR

Toronto, May 23 — The Hydro-Electric Power Commission has made an offer to Port Arthur for power reasy for distribution to consumers over lines owned by the municipality on the following terms: For first 3000 horse power, $17.50 per horse power; from 3000 to 6000, $16.50; over 6000, $15.50. These figures are for a continuous 24 hour supply of power. The council of this city will decide soon as to whether they will accept this offer or whether they will themselves develop power at Silver Falls on the Kaministiquia river, the government having offered them the opportunity. The commission's offer to the city is made as a result of figures and terms of a proposed agreement which the private concern is willing to enter into for the development of the falls, if Port Arthur decides not to enter upon the work as a municipal undertaking. It has been estimated that 30,000 horse power can be easily developed at the falls.

GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself but I took Chamberlain's Cough Remedy and was soon as well as ever. For sale by all druggists and dealers.

RAMBLER-CARIBOO TO SHIP

Spokane, May 23—Shipments will begin at the Rambler-Cariboo by the 1st of June," said John Bunner, one of the local stockholders in the company, yesterday. "There is a considerable amount of ore on hand and as soon as the roads are opened up the mine will begin shipments. The snow has prevented this being done earlier and it is still four or five feet deep.

"There is plenty of ore blocked out in the upper levels and ore has been struck at the 900 foot level. On the 100 foot level which is being worked, ore has not been struck as yet. There is considerable ore also that has not been explored in the upper levels. The boarding house is now being removed to the portal of the tunnel and when this is done and the road is opened up, a full force of men can be put to work."

The annual meeting of the company is to be held in Kaslo on June 6.

SLOCAN MAIL SERVICE

REPORT OF PROCEEDINGS AT NEW DENVER CONVENTION

TO WAIT ON C. P. R. OFFICIALS NEXT THURSDAY

(Special to The Daily News)

Slocan City, May 23.—The result of the convention which was held at New Denver yesterday afternoon is concerted action on the part of the Slocan district, and it is not now likely that there will be any indecision or lack of unanimity of feeling among the people of the various centres in the district, but that the question of the daily mail and passenger service will be pressed to a conclusion.

There was evidenced at the convention a desire to recognize the position of the Canadian Pacific railway as a company which had done much and which was doing much to develop the Kootenay and to acknowledge that the trouble which had arisen was not the fault of the divisional officials but rather the mistake of those higher in authority. At the same time, however, it as unmistakably in evidence that the Slocan people did not propose to sit down quietly recognizing the virtues of those who had injured them, and declaring with the poet, "Whatever is, is right." Thus the meeting determined to approach the matter by the way of the divisional officials of the Canadian Pacific, asking the co-operation of the Nelson board of trade, and thus endeavor to have the matter adjusted amicably. But a permanent organization was evolved out of yesterday's convention, the end and aim of which is the recognition of the rights of the Slocan by the Canadian Pacific railway as well as by the government. It may be noted, in this latter regard, that the advice of the postal department is to appeal the matter to the railway commission for its adjudication. That the Slocan has not taken this step at this juncture is evidence sufficient of the eminently fair-mindedness of a people whose dream of waking prosperity has been rudely disturbed by the new and retrograde schedule.

The unity of the Slocan with Nelson in this matter was recognized by the New Denver convention heartily enough. The action of The Nelson Daily News in sending a special representative to the district, and the fact that this representative was also a member of the Nelson board of trade, bearing with him the good wishes and sympathy of that body and its president, F. Starkey, was appreciated as trustworthy evidence of the good feeling existing between one of the most important districts of the Kootenay and its commercial capital, and resolutions expressing that feeling were passed by the convention.

The convention opened at a little after 1 o'clock in the afternoon in the New Denver theatre, with the following delegates present: Slocan City, mayor McNeish and D. St. Denis, manager of the Ontario and Slocan Lumber company; Silverton, T. H. Wilson, merchant, W. Hunter, M.L.A., D. Brandon, hotel keeper; New Denver, A. Thompson, mining broker, C. F. Nelson, druggist, J. B. Smith, merchant; Three Forks, H. Lowe, manager Lone Bachelor mine; Sandon, W. T. McClurg, manager Minnesota Silver company, and Louis Pratt, manager Last Chance mine.

The press was represented by The Nelson Daily News.

W. Hunter was unanimously chosen chairman of the meeting. He opened the convention by shortly detailing the effect of the present schedule upon the reviving interests of the Slocan. He said that business was quickly picking up and that the banks and general merchants had said that everything was better during the last few months than for several years past. Quite a number of purchases of fruit land had been made in the district and there had been much cleared for the purposes of settlement. In addition timber lands had found a ready sale and mining was in a more prosperous condition than it had been for many years. Several deals had been closed, many more were pending. New Denver was rapidly filling up and Silverton was prosperous with quite a number of mines working. The speaker did not recommend any rash action being taken, but at the same time it was imperative that something should be done to adjust the present difficulty. He had taken the opportunity afforded by a recent visit to Nelson to confer with J. S. Lawrence, the divisional superintendent, on the situation. Mr. Lawrence had informed him that the Slocan lake traffic would only justify a tri-weekly service. A daily service had been conducted in the past and the company kept it up indefinitely, hoping that the revival in the Slocan would presently justify its continuance, but so far this had not been the case. The speaker had then urged that is was a pity, just as the prospect of that revival had become something more than a hope, when business was actually picking up, when the needs of Silverton had compelled the C.P.R. to send a freight boat to its wharf almost daily, despite the alteration of the passenger and mail schedule, that the company should have suddenly lost heart and abandoned its beneficent attitude. To this Mr. Lawrence replied that he had vainly endeavored to figure out how it would be possible to afford a daily passenger and mail service and would be pleased to consider any proposition that could be made showing how this could be done without involving a greatly increased expenditure, not justifiable by the business of the Slocan.

D. St. Denis was appointed secretary of the meeting.

T. H. Wilson, secretary of the public meeting held last week in the Slocan, read the folowing answer from the postmaster general in reply to a telegram sent upon the situation:

"Ottawa, May 17.—T. H. Wilson, Silverton: This department is not responsible for the reduction of the mail service to tri-weekly. The department had been notified by the C.P.R. that it was reducing its train service to three days a week. Under the circumstances, when the trains do not run, I may say that so far as being able to continue the running of the trains as regards frequency, this department has no power whatever. I advise you, if you have any grievance, to place the same before the railway commission. This department is quite prepared to continue a daily mail service if the daily train service is continued. R. M. Coulter, Deputy Postmaster General."

Mr. Wilson also read another telegram, which was from Mr. Lawrence, assuring him that the department would take the matter of restoring the daily service in the Slocan under its earnest consideration.

D. St. Denis read a telegram from F. Starkey, president of the Nelson board of trade, saying that he was personally in sympathy with the Slocan and assuring the convention of the support of the Nelson board of trade. He then introduced Mr. Dyer, the representative of The Daily News of Nelson, as a member of the Nelson board, who was accorded the privileges of the convention as representing Nelson.

A. W. Dyer thanked the meeting, but assured it that he was there as a newspaper man and was not a delegate from the Nelson board. At the same time, as a member of that body he would take upon himself to present to it any report with which the convention might entrust him, saying that he was quite sure that the Nelson board would back the Slocan in this as it had previously done in other struggles on public matters.

C. F. Nelson said that all must recognize the benefits which had been conferred upon the Slocan by the Canadian Pacific railway. He admitted that the business of the Slocan would perhaps not justify such a service as the railway had afforded in the past. At the same time he really failed to see why the mails could not be delivered daily. At the present time there were two mails delivered on three days in the week and none on the other three. On three days in the week the boat made two trips daily, carrying passengers and mail. On the alternate days it would carry neither passengers nor mail, but the steamer, just the same, had to pass both Silverton and New Denver, and more often than not at all had to call in at either or both places. He failed to see why mail and passengers should not be carried on these occasions. It would cost practically nothing to put into these places even if there were nothing offering, in or out, in the way of freight. At the same time, he was of the opinion that the matter had better be taken up with the local officials of the Canadian Pacific, as they were, he was sure, not at all in sympathy with the new orders that had been issued by their departmental superiors under some misapprehension.

W. Hunter was of the opinion that a daily service on the Nakusp and Slocan railway would not much matter as long as there was a daily service on the lake and a practicable service on the line between Sandon and Rosebery.

There ensued a general discussion on this point in which several gentlemen took part, the following figures being elicited principally from the provincial accounts or contributed by Mr. Hunter. The Nakusp and Slocan railway was a government line which was operated by the C.P.R., but on which the provincial government paid yearly a sum approximating $26,000, and had done this since 1894. Against this the government received from the C.P.R. yearly 40 per cent of the gross earnings of the line. This varied from year to year. In 1897 it had been as high as $18,484.67, but in 1904 it had dropped to $6,301.48 a year. When the service was only tri-weekly last year it had increased to $9,783.96, a larger sum than had been obtained in any year since 1901, when the slump had set in. It seemed from these figures that the less the C.P.R. earned upon this line the more it had to pay the government.

Louis Pratt said that at present there was a daily service into Sandon. This, however, was a farce. Letters sent out from Sandon via the C.P.R. were held two or three days, going and returning, at Rosebery. If sent out via Kaslo they were held one day in Kaslo and another day in Nelson, if going west. It took longer to get a reply from the coast than it did from Montreal. It took a week, any way the letter was billed, to get a reply from Slocan City. It was impossible to get into Nelson and return under five or six days. He had recently been talking to some Great Northern officials, and he understood from them that a new service was going in between Spokane and Nelson, with a re-arrangement of the steamer run between Nelson and Kaslo. Under the new time table it would be possible to get to Nelson and return under 48 hours. In fact a trip to Spokane could be undertaken under the same conditions. The speaker thought the postal authorities might hand over all the mail to the Great Northern for handling. Under the present system the Sandon postmaster had to send mail on three days by the one railway and on the other three days by the other line. But sending a letter via Slocan lake was an utter farce. Even if the Great Northern were to handle all the mail, yet the present arrangements were such as to practically cut off Sandon from the coast and from the rest of the Slocan district, despite the fact that there had been built a government railroad expressly to help them out and on which the government was yearly paying a heavy sum of money. Mr. Pratt did not advocate any extreme measures. He thought that the local C.P.R. officials should be approached by a delegation from the Slocan district, accompanied by a committee specially appointed by the Nelson board of trade.

Louis Pratt then moved and C. F. Nelson seconded that whereas it was considered (that the C.P.R. local officials were not in sympathy with the new time table, and whereas the Nelson board of trade was an influential body which had evinced its willingness to help the Slocan people in the past, as well as the present, that a delegation from the Slocan should be appointed to meet with the Nelson board of trade and confer with the local C.P.R. officials, naming J. S. Lawrence, superintendent; H. McDonnell, freight department, and J. S. Carter, passenger department.

Mr. Pratt pressed this by saying he thought that more could be gained by persuasion than by attempted bulldozing. He had an idea the whole matter had arisen through the new western management of the C.P.R. not understanding the situation.

The resolution carried unanimously and the following delegation was selected: W. Hunter, Slocan; W. H. Brandon, Silverton; D. St. Denis, Slocan City; A. Thompson, J. B. Smith, New Denver; H. Lowe, Three Forks; Louis Pratt, O. V. White, Sandon.

A. W. Dyer, on being invited to make a report of the proceedings to the Nelson board of trade, replied that he would bring the matter up to the board on his return to Nelson, but he was not representing the board there and he could not bind it in any way. At the same time he was sure that the board would do its best. He then agreed to ask the board on behalf of the convention to hold a special meeting and appoint a committee to meet the delegation which would come down on Wednesday night next and jointly confer with the C.P.R. officials on Thursday, May 30.

D. St. Denis moved and H. Lowe seconded a vote of thanks to the Nelson board of trade for its past services and present sympathy. This was carried unanimously.

Louis Pratt then declared that the Nelson Daily News had the confidence of the district of every shade of political opinion. Indeed it had been known to lay aside its political proclivities to help the Slocan. After some more highly laudatory remarks, which evoked applause, he moved a vote of thanks, which was seconded by C. F. Nelson and carried by a standing vote.

It being thought advisable to continue the campaign, W. Hunter was appointed permanent chairman and D. St. Denis permanent secretary, the chairman being given power to assess the various communities for their share of the necessary expenses. The meeting then adjourned subject to the call of the chairman.

Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. Even in bed, it seemed as if she could not get easy. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier, healthier woman in the Dominion than this same Mrs. Ripley to-day.

Williamsdale East, May 9th.

I cannot refrain from writing you the benefits I have received from Gin Pills. Before I had taken Gin Pills I suffered dreadfully with my back, and had suffered for twenty years. I have tried almost everything but got no relief until I got "Gin Pills."

I have taken six boxes and now I have not the sign of a pain or an ache in my back. I am now 48 and feel as well as I ever did in my life. There is nothing can hold a place with Gin Pills for pains in the back to which women are subject. Yours truly,

MRS. MILLANOR P. RIPLEY.

Mrs. Ripley had serious Kidney Trouble. And the sick kidneys were making her back ache—were giving her those splitting headaches—were sapping her strength—and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has been well ever since. GIN PILLS are a grand medicine for women.

Try them at our expense. Mention this paper when writing and we will send you a free sample so you can see for yourself just what GIN PILLS will do for you. The Bole Drug Co., Winnipeg, Man. 91

Synopsis of Canadian Homestead Regulations

ANY available Dominion lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2,000 pounds shall be collected on the gross output.

Deputy of the Minister of the Interior.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Quebec and One in Beauport, Que

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties in many cases, quickly drifts them into the horrors of all kinds of female complaints, tumors, ulceration, falling and displacements or perhaps irregularity or suppression, causing backache, nervousness, irritability and lassitude.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Mlle. Alma Robitaille, of 78 rue St. François, Quebec, Que., tells women how to avoid such suffering; she writes:

Dear Mrs. Pinkham:—

"Overwork and long hours at the office together with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was, and straightway sent out for a bottle I finished that and took two more before I really began to improve, but after that my recovery was very rapid, and I was soon well and able to go back to work again. I certainly think your medicine for sick women worthy of praise, and am indeed glad to indorse it."

Miss Clara Beaubier of Beauport, Quebec, writes:

Dear Mrs. Pinkham:—

"For several years I have suffered with female trouble which has been a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was very much better and stronger, and in four months I was well, no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound and I consider it without equal for the ills of women.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing-down pains, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and it will make you strong and well.

You can tell the story of your sufferings to a woman, and receive helpful advice free of cost. Address Mrs. Pinkham, Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years she has, under her direction and since her decease, been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

CANADA'S TRADE GROWTH

SUBSTANTIAL COMMERCIAL PROGRESS—NEW FAST MAIL SERVICE

GEORGIAN BAY CANAL AND PROPOSED RAILWAY TO HUDSON BAY

(Special to The Daily News)

Ottawa, May 23—The trade and commerce department has issued a statement showing that the total exports, domestic and foreign, were for the 12 months ending March 31 last, $272,206,606. The total imports were $340,374,745, making together a total aggregate trade for the year ending March 31 last, $612,581,351, as against $520,452,356 for the corresponding period of 1905-6, an increase of $92,128,995.

The imports consisted of dutiable goods, $300,901,500; free goods, $129,898,781; coin and bullion, $9,604,464, making a total of $340,374,745. The duty collected during the year amounted to $53,006,546, as against $45,129,009, an increase of $7,877,537.

In one year the trade of the country has increased by $92,281,995. In other words it means that the total trade of Canada has nearly doubled in five years. When the liberal party pledged itself to promote the interests of the people at the last general election it would have been almost too much to promise that the trade of the country would increase nearly $200,000,000 in two years, yet such is the case, it means that the total trade of Canada fast mail service and how is it to benefit Canada?

The proposal is divided into two parts, one affecting the Atlantic ocean and the other the Pacific ocean. It is contemplated to inaugurate a fast mail and freight service between England, Australia, New Zealand, via Canada. Four days at sea, four days across Canada; eight days to the Pacific coast from England.

On the Pacific side the object is to establish at least an 18-knot service to Australia—which would bring the Antipodes within 20 days of England and very greatly lessen also the time to the orient.

The promoters of this proposed new line in which lord Strathcona has promised to take a heavy financial interest, have received assurances from the British, Canadian, Australian and New Zealand governments of an annual subsidy of $5,000,000 per annum for ten years.

The completion of this fast line will make of Canada the highway for a large proportion of the trade which now reaches Australia and New Zealand from the mother land by way of the Suez canal. The impetus given to the business of the dominion by increased traffic across the continent is beyond computation.

A feature of this fast line to the antipodes, and easier access to the orient, will be to open new trade channels impossible under present conditions. The benefits will extend far beyond those which enure by reason of the transient freight. Canada will be better known and her goods will find their way to the uttermost parts of the earth. If sir Wilfrid Laurier accomplished nothing more than this at the conference he succeeded in advancing the material interests of the people of Canada to a degree which cannot be calculated at this time.

The building of the Georgian bay canal has been a vexed political question for 50 years. The liberal government has been systematically making surveys and acquiring information which would tend to a final solution of all the problems presented in a scheme of such magnitude as the building of this canal.

The report of the Georgian bay canal commissioners will be presented to the house next session. It will contain a full detailed plan as to the completed cost of the entire waterway—460 miles in length. Nearly $600,000 have been expended in securing for the first time full and accurate data with respect to the cost of the great project.

The total cost of the canal, it is estimated, will reach $105,000,000. The report will deal not only with the estimated cost, but will explain the engineering problems to be encountered in the construction. The figures cover a route from the Georgian bay to Montreal, via the French river, lake Nipissing and the Ottawa river.

The report will show that the plan is quite feasible, the only point to be decided is as to whether the expected results will justify such an expenditure of public money. It is expected that the canal will have a continuous depth of 21 feet during the period of navigation. Sir Wilfrid Laurier while in England recently expressed himself as in favor of the canal.

The government has taken measures to test the feasibility of a railway from Saskatchewan to Fort Churchill on Hudson bay. An exploration has been made of the entire route, and information secured showing that such a railway would not be a very expensive undertaking and that at small cost the harbor at Churchill can be kept open all the year. The government has already expressed the opinion that such a railway would relieve the congested condition of traffic in the Northwest and has also favorably received the suggestions of the Northwest members to assist such an undertaking.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened, it is pleasant to take. For sale by all druggists and dealers.

Buy Burton City Fruit Lands

AND GET THE BEST IN THE KOOTENAYS

This land is level and free from stone, located along the shore of the beautiful Arrow Lake and only one mile from Burton City. I have 1250 acres which I will sell wholesale or subdivide. It will pay you to see this before you buy.

The large C. P. R. steamers call twice a day. Good neighbors Close to fine orchards. The Arrow Lakes are 350 feet lower than Kootenay Lakes, which insures permanent success in growing fruit and in no part of the Kootenay is there such opportunities for hunting large game. Only 14 miles from Burton City, on Goat mountain, is located one of the largest herds of mountain goat known to the sportsmen of B. C., while on the opposite mountain deer can be seen at any season of the year and one of the streams running through Burton Valley is called Trout Creek on account of the quantity of fish caught there. Burton Valley is the home for wild fruit. Wild cherries, wild crab apples, raspberries and wild strawberries, are fast being replaced by cultivated orchards.

EXPROPRIATION OF LAND

PREMIER STOLYPIN SPEAKS PLAINLY ON LAND QUESTION

WILL NOT TOLERATE PLUNDERING OF LANDED PROPRIETORS

St. Petersburg, May 23—Premier Stolypin caused a sensation in the lower house of parliament today by unexpectedly announcing that a serious conflict existed between the house and the government and scored an effective point by showing that the agrarian committee of the house had proceeded to solve the whole agrarian problem without consulting the government. The premier concluded by announcing that the forcible expropriation of land could not be permitted and warning the house that speeches exciting the peasants were beginning to cause a dangerous agitation in the provinces, which the government was determined to restrain.

He declared a committee of the house yesterday had formally adopted the principle of forcible expropriation of land without awaiting to ascertain the government's attitude. It was the premier's duty, therefore, to enlighten the deputies.

Continuing, the premier said that the agrarian program of the committee left the various parties in the house in irreconcilable positions towards each other and towards the government. If the principle of forcible expropriation of land was permitted to prevail a social upheaval, of which history would not be able to show a parallel, would be precipitated.

Continuing, M. Stolypin criticized the constitutional democratic agrarian program as being milder and more gradual than that of the radicals, but he said the same principle, the undermining of the rights of property, was hidden at the bottom. Furthermore the constitutional democrats' price, 40 per desiatine (2.70 acres) was unreasonably low and ruinous to the landlords. He heartily welcomed the proposal of the constitutional democrats to let the peasants decide whether communal ownership should be maintained or abolished, although he scouted the argument that the forcible expropriation of land was inevitable, pointing out that the present available government reserve land was adequate to appease the land hunger.

M. Stolypin asserted that to plunder the land of 130,000 land owners would be like forcing an invalid back to health by nourishment drawn from his own body. The whole state must assist in solving the agrarian problem. The premier then announced the government's willingness to assist the peasants to purchase land and help them on a broad scale in the payment of the mortgage interest, but he firmly asserted that the forcible expropriation of land could not be permitted except in the case of the exercise of the right of eminent domain in building roads for irrigation works, etc. In conclusion, the premier warned the house that some of the speeches had excited the peasants and were beginning to cause a dangerous agitation in the provinces, which the government was determined to restrain, adding: "The radicals long for a mighty upheaval. We yearn to build up a mighty Russia."

B. of L. F. and E. Kootenay lodge No. 631, special meeting will be held in Fraternity hall on Sunday, May 26 at 14 k. Nomination of officers.

REJECTION OF BIRRELL'S BILL

Irish Politicians Now Wondering Where They are at

Dublin, May 23—The nationalists are of the opinion that one result of the rejection of Mr. Birrell's bill by the national convention will be to compel the liberal party at the next general election, to incorporate in its program some genuine home rule scheme. In the meantime they expect that the present government will pass Mr. Bryce's Irish university bill and other Irish legislation. The Irish members of the house of commons will continue to co-operate with the liberals on general legislation.

The opposition politicians in Ireland profess the opinion that the outcome of the convention threatens John E. Redmond's leadership of the nationalist party, and declare that Mr. Redmond and other Irish members of the house of commons, came to Dublin from Westminster intending to support the bill, but when they reached Ireland they were forced to bow to public opinion. They say it would be interesting to learn how far the Irish members were consulted in the preparation of the bill, and whether or not they promised the cabinet their support.

It is certain, they declare that the nationalist party would have been hopelessly split if the Irish members had attempted to stem popular feeling and the worst dissensions of recent years would have resulted.

NELSON'S NEWS OF THE DAY

The Baptist church choir will meet tomorrow evening for practice in place of tonight.

A. C. Garde, manager of the Argenta mines, was in the city yesterday and today will return north with his wife and family, who will spend the summer at the mines.

The chief of police is trying to catch the boys who have been stealing lilac bloom from gardens on Silica street. A severe example will be made of them if caught.

J. J. Campbell, manager of the Hall M. and S. company, has returned from a trip to eastern Canada and yesterday went up the lake in his launch to spend the holidays.

International Coal and Coke company stock has reached the highest point attained for the shares so far, the prices running from 67 3-4 to 70c. on the Spokane market yesterday.

As the train from Slocan City was passing Lemon creek yesterday afternoon two deer dashed across the line in front of the locomotive and blindly rushed into the wire fence alongside the track, caught by their antlers.

W. A. Carlyle, former provincial mineralogist, and for the past seven years general manager of the Rio Tinto copper mines, Spain, has resigned that position to take up consulting work in London, where his temporary address is bank of Montreal, Threadneedle street.

The following Nelson junior baseball team will play against Kaslo today at Kaslo: R. Bard catcher; J. Bell, pitcher; E. Stevens, 1st; S. Newitt, 2nd; M. McCandlish, short; L. Jackson, 3rd; W. Brown left field; E. Irwin, center; J. Miller right field; A. Lacey, spare.

J. S. Lawrence, local C.P.R. superintendent, as announced yesterday, will soon be succeeded here by D. C Coleman of Winnipeg. Mr. Lawrence will be transferred to the charge of a new division just created, which extends from Swift Current to Calgary, with headquarters at Medicine Hat. The change will be effective on and after June 1.

RAILWAY MAN KILLED

Niagara Falls, Ont., May 23—Robert Cain aged 20 years, and unmarried, employed as a switchman in the G.T.R. yards here, in attempting to jump on a moving engine, fell under the wheels. One of his feet was cut off at the ankle and the other badly crushed. Cain died of his injuries a few hours later.

Minard's Liniment Lumberman's Friend

RELIEF FOR RHEUMATIC PAINS

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman of Key West. "Somtimes it settled in my knees and lamed so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the pain away. I have not had any trouble from that disease for over three months. For sale by all druggists and dealers.

TORONTO CITY'S BAD LUCK

Toronto, May 23—The Ontario and municipal board gave the city another rude jolt this morning in the street railway curve case. The board practically decided that the privy council's judgment gave the company the right to build tracks with curves and necessary connections on any street and that the city's premission was not necessary. The city will appeal the case.

NELSON'S NEWS OF THE DAY

George W. Hughes is down from Kaslo, a guest at the Strathcona.

President Starkey has called a special meeting of the board of trade for Monday evening at 8:30 in the court house, to consider the tri-weekly passenger and mail service on Slocan lake.

Last year's high water mark was the lowest on record. Yesterday, the level was two feet higher than last year's high water mark. Local boatmen agree that the water is sure to go unusually high this season.

J. W. Ambery, Victoria, western representative of Hiram Walker and Son, the Walkerville distillers; J. B. Rickaby, Victoria, of Rithet and company and P. H. Burnham, Great Northern Kootenay agent, of Grand Forks, are guests at the Hume.

Station master Gage has "adopted" one of the C.P.R. Victoria day posters, for today's celebration at East Robson. The most drawing card in the program is a football match between East Robson and Castlegar, to be played on the Pass creek meadows, midway between the two "cities," provided the meadows are not flooded.

For once there will be simply "nothing doing" today in the Queen City of the Kootenay. The football match was postponed out of courtesy to Kaslo and the *promised cricket match is off.* Local fishermen and launchmen will be out in numbers and possibly Mr. Waterman's children's parade may come off this afternoon, but the crowd will be at Kaslo.

There was just one application in chambers yesterday before his honor judge Forin. H. C. Hall moved in bank of Montreal vs. E. Vernon Thomson, to set aside the supreme court writ of summons and the service thereof out of the court's jurisdiction, no order for service having been obtained previous to the issuing of the writ. Wragge for the plaintiffs' objected that the ground of moving against the writ and the service were not set out in the summons, and his honor allowed the objection and dismissed the application with costs.

The banks and provincial offices will be closed today and tomorrow. Today the general delivery at the postoffice will be open from 10 a.m. to noon only. Today will be very generally observed locally as a public holiday, only the bars, cigar stores, restaurants, etc., remaining open. Except as mentioned above there will be no recognition of tomorrow as a holiday here.

Nels. Demars, the oldest settler in the Kootenays, now over 83 years of age, is a guest at the Grand Central hotel. On Wednesday last at his cabin some 20 miles below Nakusp on the Columbia river, Demars shot an inquisitive lynx which very calmly walked up to the cabin and peered into the window. Demars caught up his rifle and shot the animal before it recovered from its surprise at seeing the man.

At the mining recorder's office on May 23 Samuel Marshall recorded the Gold Standard on Wild Horse creek. By a bill of sale C. E. Wilson transferred a half interest in the Lone Hand on Wilson creek, to David Saigion; consideration nominal. Certificates of work were issued to C. C. Ladd on the Clarendon fraction; to C. E. Wilson on Silver King and to A. McDonald on Goldhill, Silver Crown, Copper Queen and Daisy.

The inconvenience caused by the new S. F. and N. schedule, which goes into force on June 2, is just beginning to be appreciated. The arrival here of the train from Spokane at 2 o'clock in the morning or thereabouts, means that the eastern and coast mail which is now distributed by 8 p.m. each night, will not be available until the following morning, and passengers arriving will have an unpleasant time of it trying to get sleeping accommodation at that early hour. As the train from Spokane leaves at 4 p.m. it will not catch the evening main line trains east and west, causing still further delay. The new service is an abominable one in whatever light it is regarded.

"Fishing and Shooting, Canoe Trips and *Camping*" is the title of the latest booklet issued by the C.P.R. publicity department, so far as it goes it is an excellent production, well illustrated and printed. But from a British Columbia point of view it is utterly inadequate. Nothing like justice is done to this province as the sportsman's paradise, either in the text or the illustrations. In preparing a book dealing with the subjects indicated in the title, the C.P.R. publicity department should have engaged a writer fully conversant with British Columbia's unrivalled attractions in these respects. The booklet can be obtained on application to W. T. Robson, C.P.R. advertising department, Montreal, by mentioning this paper and enclosing four cents in stamps.

J. Irvine, D.S.C.R. of Vancouver, representing the Independent Order of Foresters, has been in the city for the past two days reorganizing the local lodge. Last evening at a well attended meeting in Fraternity hall, the following officers were elected for I.O.F. Court Kootenay, No. 3138: Court deputy, H.C.R., F. W. Swannell; physician, Dr. E. C. Arthur; chief ranger, E. C. Traves; past chief ranger, W. C. Johnston; vice-chief ranger, R. M. Hood; recording secretary, D. J. Elvery; financial secretary, D. Proudfoot; chaplain, D. C. Wilson; senior woodward, G. R. Johnston; jun. woodward, S. Dodd; sen. beadle, E. Skatbo; junior beadle, W. G. Middleton; treasurer, P. Lamont; board of trustees, W. Wilson, J. A. Irving; financial committee, F. H. Smith, R. S. Wright. In future the lodge will meet on the second and fourth Thursday evenings of each month.

Improved Kootenay Lake FRUIT FARM

One of our prettiest locations

It is situated at Trafalgar, 13 miles from Nelson on the east side of Kootenay lake, has an excellent commanding view of the water, and is within 250 yards of the lake shore.

Between Trafalgar and Procter is located the largest, most beautiful and choicest block of fruit land to be found anywhere along the shores of the Kootenay lake. The best improved fruit farms are to be found there. Settlers in that locality have the benefit of a postoffice, stores, school and a daily service of trains and boats. There is a large settlement there now and you will, therefore not be isolated.

The farm we are offering for sale contains 11 7-8 acres and fronting on the Canadian Pacific railroad, within 100 yards of the station, steamboat landing, store and postoffice. It is completely fenced and is all fruit land of the very finest quality and we are prepared to guarantee to the purchaser that there is no better land in the Kootenay district.

Eleven acres cleared and under cultivation. Comfortable new log house of three rooms, root house and a good well of water, limited quantity of tools and implements.

Taking the proposition as a whole we *recommend* it as a particularly good one, and an industrious buyer can make money out of the place from the start. For particulars write
