VOL. 6 NELSON, B. C., TUESDAY, DECEMBER 10, 1907 NO. 199

WARM DEBATE

Discussion on Speech From Throne

CONDITIONS IN MANITOBA

CRITICISM ON PUBLIC OWNERSHIP—PROSPERITY NOT NECESSARILY FOLLOWING TRADE BALANCE—QUESTION ASKED IN THE HOUSE.

(Special to The Daily News)

Ottawa, Dec. 9—The premier informed Hon. George E. Foster that nothing was being done by the government in respect to the All Red project. A company had been formed and was seeking subsidies, but no official action had been taken.

The premier also informed F. D. Monk regarding the All Red Route, that no one in England at the present time was empowered to treat with the government there. The Canadian government had not caused estimates to be made nor called for tenders.

Minister of finance Fielding, informed George Taylor, Leeds, conservative, that no government accounts over three months due, remained unpaid during the past year.

Col. Worthington, Sherbrooke, was informed by sir Frederick Borden, that the negotiations in England in connection with the purchase of guns, armament or munitions of war, are always carried on through the high commissioner, and the war office and never directly with the British firms.

A. C. Macdonell, South Toronto, elicited the information that S. R. Poulin had been appointed district engineer of the National Transcontinental at Kenora, succeeding major Hodgins, resigned.

R. S. Lake, Qu'Appelle was informed by the minister of the interior, that the conditions and forms for timber licenses including renewals, are exactly the same in Manitoba, Saskatchewan and Alberta.

Hon. Frank Oliver also told George E. Foster that since his appointment as trade commissioner in the far east, W. T. R. Preston had been paid at the rate of $3000 per annum and expenses, the latter so far had amounted to $2702.

H. B. Ames wanted to know what lands were sold by the government to J. S. Hough and to E. Campbell and Ferguson during the nine months ending March, to which Hon. Mr. Oliver replied, none.

The debate was continued by J. E. Armstrong, East Lambton. He adduced further arguments in favor of rural delivery and moved an amendment regretting there was no allusion to it in the speech from the throne.

J. J. Hughes, Prince Edward Island, followed, and he argued that the balance of trade might be heavily against the country and yet it might be prosperous. A second speech by a western member follower, W. D. Staples of McDonald, who in replying to Crawford's speech of Friday, was no so optimistic as to conditions in Manitoba, declaring that there was less general prosperity than Crawford made out. Regarding the latter's declaration respecting public ownership, Staples declared that he was surprised that such statements should come from a man who was a member of the liberal caucus, which proposed to go further in the matter of the provincial telephone system than the government had declared for. Staples vigorously defended Manitoba's election laws, quoting the leader of the opposition in the legislature, who he declared stated, apart from their being costly, are the best ever placed on the statute books. He also declared at the general election the liberals left 360 qualified voters off the McDonald list. He was glad the government was at last prepared to give Manitoba some measure of justice in respect to her boundaries, which should have been done when the new provinces were created, and Manitoba extended westward as well as northward and eastward. The government's refusal at the time was far from pleasing to the liberal members of the west. Mr. Greenway felt so badly about it that during the government's explanation he got up and left the house, however, he was made to sit up and submit.

Staples convulsed the house by reading several liberal campaign songs of the late 90's, which he stated were printed at the deaf and dumb institute and paid for from the public funds. He hoped the boundary bill would be a satisfactory measure; if so, he would support it.

The opposition intends to submit each plank of the party's platform to the house durinng the present session.

J. B. Kennedy of New Westminster gives notice of a bill to amend the railway act by a clause which provides that a railway shall be liable for any property which may be destroyed by sparks from a locomotive.

NELSON NEWS OF THE DAY

E. E. Phair came in from Spokane last evening, coming in by way of the Crow's nest line.

The officers and members of Queen City Rebekah lodge are requested to meet this evening for rehearsal.

There was not a large audience to greet the production of "At Cripple Creek" at the theatre last night.

The meeting called for last evening to reorganize Nelson L.O.L. No. 1692, resulted in a large turn out of local and visiting Orangemen. Grand master D. C. McLaren was present and was accorded a hearty reception. Several interesting addresses were delivered and a decision reached to reorganize with W. Calbick as temporary master and R. W. Hulbert as temporary secretary. A meeting for the election of permanent officers for the ensuing year will be held in the I.O.O.F. hall on Thursday evening, Dec. 19, at which a full attendance is requested.

LEGISLATIVE PROGRAM

ALBERTA'S GOVERNMENT TO TAKE ACTION

AN EIGHT HOUR DAY IN THE COAL MINES

(Special to The Daily News)

Vancouver, Dec. 9—W. H. Cushing, minister of public works, Alberta, said here today that the program of the coming legislature in that province included measures providing for a legal working day of eight hours in coal mines; payment of indemnities to miners injured in coal mine accidents, or, in event of death, compensation to their dependents and the extension of the government telephone system.

DISTRESSING DETAILS

OVER 300 BODIES STILL LYING IN COAL MINE

MAY BE BURNED BY FIRE THAT IS NOW RAGING

Monongah, W. Va., Dec. 9.—Sixty hours after the terrible explosion of black dump, which wrecked mines No. 6 and No. 8 of the Fairmount Coal company last Friday morning, 53 bodies, or only about one-eighth of the total number of victims, have been brought to the surface, while less than one-fourth of the total number have been actually located. The others, undoubtedly between 300 and 400 in number, lie in unknown sections of the east workings, that extend two miles and more back from the main entrance to the mines. The unlocated bodies are seriously menaced by destroying elements, by decaying in the overheated, humid and vapor poisoned atmosphere, and by fires that are smouldering here and there in the workings and from time to time bursting into flames. Steadily the chance is ebbing that these bodies will be brought to the surface, identified by friends and relatives and given Christian burial.

A large force of skilled miners, volunteers for the hazardous task of the rescuing, *are on the scene ready to re-enter* the mines and take up the work where they were forced to leave it yesterday when fire broke out in mine No. 6. The men await only the word from Clarence Hall, the expert of the federal government, and J. W. Paul, West Virginia, chief mine inspector. These two men are now in charge, superseding officers of the mining company and others who directed *the first rescue work.*

New difficulties and complications have confronted the rescuers on every hand, but only with brief interruptions, the work was continued until 3 o'clock yesterday afternoon. The fire drove all from the unexplored regions and the search had to be abandoned. The flames have been fought by every possible means, including the laying of water pipes from *the river far into the mine.*

The fire which broke out in No. 8 mine yesterday was walled in this morning and the work of recovering the bodies of the victims of Friday's explosion was resumed.

DUNSMUIR'S DISMISSAL

DEMANDED BY VANCOUVER TRADES AND LABOR COUNCIL.

RESOLUTION TO THAT EFFECT IS UNANIMOUSLY ADOPTED.

Vancouver trades and labor council has gone on record in no uncertain tone regarding lieutenant-governor Dunsmuir's action in attempting to flood the province with cheap Japanese labor to supplant white men.

At its last regular meeting the council unanimously adopted the following resolution, moved by A. Dutton:

"Whereas the investigation held by Mr. Mackenzie King into the question of Asiatic immigration has clearly shown in *evidence that the hon. James Dunsmuir,* president of the Wellington colliery company, had made a contract with the Nippon company to supply him with 500 Japanese to work in said colliery company's mines, and

Whereas the said hon. James Dunsmuir is lieutenant-governor of the province of British Columbia, and in such capacity refused to assent to a bill which was *unanimously passed* by our legislature for the purpose of restricting Asiatic immigration;

Therefore, be it resolved that we, the Vancouver Trades and Labor Council in regular session assembled, most strongly condemn the said action of Mr. Dunsmuir and call upon the dominion government for his dismissal from the office of lieutenant-governor."

In speaking of his motion, A. Dutton said that he was of the opinion that the dominion government should dismiss Mr. Dunsmuir, as he had put them in a position no government cared to be placed in, and he (the speaker) had the authority of the secretary of state that Ottawa did not ask Mr. Dunsmuir to reserve the Natal Act. The premier has denied that he advised the lieutenant-governor to re*serve the Natal Act, and therefore he* must have done it on his own volition.

ANTI ASIATIC

League Calls for Dunsmuir's Resignation

VANCOUVER UNEMPLOYED

OVER THREE THOUSAND OUT OF WORK, WHO MUST BE AIDED OR MUST STEAL OR STARVE—AN APPROPRIATION TO BE MADE AT ONCE

(Special to The Daily News)

Vancouver, Dec. 9—At a mass meeting of the Anti-Asiatic league tonight, at which 75 people were present, a resolution was passed to be mailed to sir Wilfrid Laurier calling for the dismissal of lieutenant governor Dunsmuir, alleging unconstitutionality and disloyalty because of his Japanese hiring contract for the Wellington Colliery company. The question of placing candidates in the field was discussed generally and several speakers advised more enthusiasm must be shown if a real showing was to be made in the campaign.

A delegation of 200 persons representing the unemployed, waited on the city council this evening. The spokesman declared there were over 3000 men out of work and unless they got something to do they must steal or starve. He said that 877 names of unemployed had been registered on a down town corner during this afternoon, just to obtain a hurried estimate of the number of unemployed.

The leader declared that unless the council did something he would not be responsible for the actions of his followers so strong was the feeling. One section of the council favored appropriating $25,000 for opening streets and sewers as relief work, but action was laid over one day when some appropriation will undoubtedly be made.

Hundreds are arriving daily, many from Seattle and the difficulty is to find work or aid for those who deserve it and not for the tramp element, which, being run out by the police of American cities, is now taking refuge here.

AN IMPORTANT MEETING

WEIGHTY RESOLUTIONS BEFORE *BOARD OF TRADE*

MANY MATTERS ARE TO BE DEALT WITH LOCALLY

The meeting of the local board of trade on Thursday next is one of the most important, if not the most important of its *ordinary meetings throughout the year.* At that meeting must be discussed the resolutions which it is prepared to send up to the associated boards' meeting in Moyie at the latter end of next month. Before resolutions can be passed definitely by that convention each board of trade must have had a copy of the resolutions to come up before it so that it is in a position to instruct its delegates. Other resolutions passed by the associated boards must be referred back to the individual boards for endorsement before having the effect of resolutions passed which have been properly presented.

There were a number of matters dealt with by what has been called the Kootenay parliament at its convention this year in Greenwood, some of which have passed into law and some of which have dropped because of the efflux of time. Many of these did not emanate from this city and therefore this city is hardly concerned, though concurring in their passage, in attending to them, knowing that the board of trade looking after them at the last convention will in all probability do so at the coming session.

One of the matters, which was referred to last year in the address of the vice-president, but which was not the subject of a resolution, has in the meantime come more definitely before the eyes of he public and it is likely that this will be made the subject of a resolution, either coming from Nelson, as chiefly concerned, or from some other board, as the whole of this part of the province is affected. Reference is made to the freight rates. What Mr. Starkey *said was: "The underlying* idea of reform is to have a mileage basis more strictly observed in the various schedules of freight rates." Since the meeting in Greenwood Nelson has gone a long way in this direction and is at the present time actively engaged in making up and presenting its case to the railway commission, the chairman of which has himself given a tentative declaration of his approval *of some such basis. The mileage* basis is, however, not to apply to local rates from distributing centers, which system permits of much juggling of schedules, but rather to a broad mileage basis across the whole continent which, being upon an intelligible principle, admits of ready adjustment to the varying conditions.

The time worn applications for the establishment *of experimental farms,* both by the dominion and provincial governments, hitherto neglected, will again be presented, as will also the petition for additional fruit inspectors to prevent the entrance of disease into orchards now fast springing into prominence in this country.

Then again there is the question of the lead bounty now expiring, a continuance of which is sought. The resolution will probably be *pressed much harded at Moyie* than it was at Greenwood, the price of lead having dropped considerably during the past few months.

At the last convention a resolution was passed asking each individual board to present a report at Moyie as to what it was prepared to do towards furnishing a separate Kootenay exhibit of the industries of these districts at the Alaska-Yukon fair, which is to take place next summer at Seattle. As Nelson is the center of most of the work that is being done in southeast British Columbia, it naturally will be expected to take a lead in this matter. The Alaska-Yukon exposition is planned to be on the same scale as those at Buffalo, St. Louis, etc., and will be visited by thousands of people, who will be then close to hand to the Kootenay country. The Kootenay country, —it was felt at Greenwood last March should be well represented. The government will certainly be asked to help but the Kootenays must do most of the work for itself if it expects to gain anything on such an occasion.

Yet another matter, one of more than local importance, although the events of the year, have shown it also to be of supreme local importance, is the re-passage of a resolution dealing with the establishment of an imperial press service. Quite recently this matter has been taken up by Victoria and the whole subject has been under discussion in the old country since the two visits last summer of British journalists to the west.

The public ownership of telephones passed last March at Greenwood, has loomed more largely since that date and will again be dealt with in all probability.

Another matter coming from Nelson was the reservation made in C.P.R. deeds of land to settlers and others which were claimed to be unfair and on which no action has been taken.

Last year, for the first time in the history of the associated boards the question of roads, trail and bridges in these districts was taken up and dealt with as a whole. It was felt that much of the work that was being done was being done piecemeal, such as for instance, the road along the north shore of the arm of Kootenay lake between Nelson and Procter, and too often what was done and what was left undone had not so much reference as it should have had to the local needs but rather to the locality's political proclivities. Hence, each district was requested to bring forward in order the public works it most urgently needed and the convention would then chose a list of the most pressing needs of the whole territory covered by it and submit them to the government, such request having the full weight of the associated boards behind it.

Two important pieces of new business will also come before the meeting Thursday. One will have reference to the system of timber licenses and an effort made to obtain legislation which will prevent any speculator holding great districts covered with timber undeveloped for year after year.

The other matter is one specially emanating from the president of the associated boards, G. O. Buchanan. An expression of opinion is desired from the individual boards and from the collective body as to the working of the Lemieux act, with suggestions from them all as to how the act can be in any way improved so as to extend and strengthen its efficacy. This, of course, is not a question of politics, but is sought in view of the troubles the Kootenay has suffered, in common with other parts of Canada, through the ever recurring trade disputes.

ARMED TRUCE IS OVER

HOUSTON ONCE MORE ON THE WARPATH

ENTRENCHED ON HIS CLAIM AT PRINCE RUPERT

(Special to The Daily News)

Vancouver, Dec. 9—John Houston, entrenched on his mineral claim at Prince Rupert, is breathing vengeance against the officials of the G.T.P., according to advices from the north. He claims that the promise of senator Cox that he should have a site, has never been arranged. He says: "If the public don't get a fair deal up here next spring, count on oil John turning the burg into a rough house." Houston says he intends to show in his next issue that the company let the contract for grading the townsite to a white man, who sublet it to the Japs.

Vancouver, Dec. 9—The supposed establishment of friendly relations between John Houston, editor of the Empire, published at Prince Rupert and the G. T. P. railway proves to have been nothing more than an armed truce. Red hot hostilities have been resumed by the "fighting man from Nelson," after donning his war paint. This time it will be a fight to the finish, involving a lawsuit which may be carried to the imperial privy council in London.

Editor Houston, the versatile individual with experiences in bossing mining and prospecting camps and conducting newspapers alternately in half the mining camps west of the Rockies, from the Mexican line to the interior of British Columbia, is asserting that senator Cox, a director of the G.T.P., failed to carry out a promise of a site at Prince Rupert, which was made him last fall as the price of silence.

Entrenched on his mineral claim, staked across the main street of the townsite, the aggressive editor has been hurling hot shots at the company in every recent issue of the newspaper. He expects to add many scalps to his collection. Mr. Houston has never forgiven a minor official for refusing to permit him to set up his printing press in the new terminal city. The plant lay on the wharf all summer at the mercy of the elements.

ANOTHER MATCH FOR BURNS.

London, Dec. 9.—Tommy Burns, who defeated gunner Moir in this city a week ago, and Jack Palmer, of Newcastle, *signed articles at noon today for a match* at $2,500 a side and the best purse offered, that there might not be a greater speed on our route, and I am not unfriendly to a reasonable increase, but on the lines of the present proposal, not as supporting the *Black Sod Bay, and not as neglecting our* own St. Lawrence route, which with every improvement made which it is possible to make, would be one of the greatest attractions to American travellers."

"It has been suggested that the C.P.R. will offer opposition to this new venture should it actually be set on foot?"

The president thought a minute. "This company will continue to protect its in*terests. It will continue to increase its* business by the mean at its disposal. We are working upon commercial lines. The company has to consider the interests of its proprietors."

GERMAN NAVY

More Ships Demanded by the Government

INCREASE IN EXPENDITURE

HERR BEBEL AND SOCIALISTS DEMAND FINANCIAL STATEMENT BUT ARE NOT GRATIFIED—CAPACITY OF GERMAN SHIPYARDS EXTOLLED.

Berlin, Dec. 9 — Speaking before the reichstag committee on the budget today admiral von Tirpitz, secretary of the admiralty, defended the proposal to shorten the age limit of German battleships from 25 to 20 years. He said the introduction of telescopic gun sights had considerably enlarged the effective fighting range of battleships. The battle of Tsushima had proved that the range of large guns would have to be increased and consequent upon this greater displacement had become necessary. Germany's old battleships were built for short range fighting and they have lost considerably in value, the admiral said, through this development. Short range artillery would constitute a point of great weakness in the German line of battle. Other countries were taking these changed conditions into account, the admiral continued, as for example, France, where an entire squadron of new battleships had been demanded.

Herr Bebel, the socialist leader, demanded that the revenues covering the increased naval expenditures be provided before any vote or change in building plans was taken. The admiral refused to discuss the financial side of the question, saying that these were outside his department.

Herr Liebarmann von Sonnenberg, anti-Semite, also declined to define his position on this bill before the revenue had been provided.

Admiral von Tirpitz continuing his address, declared that Germany had made no mistake in postponing the construction of submarine vessels. He said if his department had begun this work before it would have lost many millions.

"We cannot fortell," the admiral said, "what the status of submarines will be five years from now." The capacity of the German shipyards having been called into question, the admiral declared that the vessels in the German yards were actually built more rapidly than in Great Britain, France or the United States.

TO BUY NEW BRUNSWICK

HON. WM. PUGSLEY TELLS OF TORY CORRUPTION IN 1904.

INVITES MR. BORDEN TO HAVE INVESTIGATION MADE

Hon. Wm. Pugsley, the minister of public works, attended the Ottawa liberal nomination meeting here last week and exploded the political bomb he has been carrying around with him for some time. *In effect he said he had been asked to* join the Blair cabal of 1904, but refused, and that later on he discovered that with unlimited funds an attempt had been made to buy a tory majority in New Brunswick.

Mr. Pugsley, who was given a rousing greeting, referred at some length to the charges he had made regarding the corrupt use of conservative campaign funds in *the election of 1904,* and to Mr. Borden's inconclusive reply thereto by asking for a general investigation of the election expenditures by a royal commission which he knew could not be legally appointed. When Mr. Borden started on his tour he declared in a pitiful manner that his party's losses in Nova Scotia were due to the lavish expenditure of liberal money and to "wholesale and retail election *thieving," as Mr. Foster put it.* Knowing, as he did, the real facts of the case, Mr. Pugsley had felt it his duty to expose the deliberate hypocrisy of these gentlemen. While in Woodstock, N.B., during the campaign of 1904 a leading conservative had stated that Mr. Blair was going to resign, and stump the country for the conservatives. This was before the public had an inkling of what afterwards happened. *Later Dr. Pugsley had received a* telegram from a prominent conservative stating that Mr. Blair had resigned, that La Presse had been bought and asking him to join forces with Mr. Blair. "I naturally declined," he said. This was followed by the conservatives pouring into New Brunswick a vaster sum of money than had ever before been seen in any campaign. St. John alone got between $35,000 and *$40,000. Similar large amounts went to* the conservative organization of Westmoreland to defeat Hon. Mr. Emmerson, to Carleton and to other constituencies all over the province. It was an unprecedented attempt to corrupt New Brunswick. He had made the statement that there was no shadow of doubt that these funds were being handled by a small conservative coterie in charge of the campaign *with Mr. Borden's knowledge, and that of* a total fund of half a million St. John got $25,000. The conservative party was not the party of purity it pretended to be. If Mr. Borden desired to bring an action for libel, he would prove his statements.

"If Mr. Borden," he said, "desires that I should be more explicit, I am perfectly willing to be more explicit. If he asks the name of the gentleman who got the *$25,000 I shall be perfectly happy to give* him the name and the name of the bank and the day on which it was received. On the 24th of October five thousand dollars was received, and on the 27th of October, a week before the elections $37,000 was received, the whole going into one constituency. In the bye-election in Shelburn, N.S., which was conducted as a purity campaign by Dr. Weldon, a New Brunswick conservative candidate among the speakers, said that the only money spent in his campaign had been his own. That man's partner had been the very man who had got the $25,000."

Mr. Borden could easily find out if these statements were true, but instead of calling for an investigation of these definite charges he was evading the issue by calling for a royal commission to go on a general fishing expedition. He knew that under the law the only occasion when a royal commission could be granted was on the presentation of a petition to parliament within 60 days after the return of the writ. "Let him bring an action for libel," said Mr. Pugsley, "and if these statements are untrue I will bear the costs of an investigation and not the country. If I have only made reckless charges that cannot be substantiated, I shall have to resign from parliament and go back into private life."

Reverting, in conclusion to the charge by Mr. Foster that he had been on the fence in 1896, not knowing whether he was a conservative or a liberal, Dr. Pugsley declared that in 1896 he had left the conservative party because, like hundreds of others in New Brunswick he had felt he could no longer follow Mr. Foster's leadership. "I left before the general elections and I left never to return."

SHAUGHNESSY'S VIEWS

PRESIDENT OF C. P. R. DISCUSSES ALL RED ROUTE

NOT ALTOGETHER FAVORABLE TO THE NEW PROJECT

Montreal, Dec. 9.—Sir Thomas Shaughnessy, president of the C. P. R., was interviewed today regarding the All Red Route, regarding which an influential deputation, representing the Black Sod Bay scheme, is now visiting Canada.

Sir Thomas said:

"If in this proposed All Red Route scheme the mails are chiefly to be considered, it is conceivable, that for this purpose governmental subvention might be applied for for the realization of certain advantages in this regard. On the other hand, if the commerce principle be considered with a view, through profit, to lessen or eliminate government subvention, it is absurd."

Being asked what the attitude of the C. P. R. will be should the new project be actually set on foot, sir Thomas said the duty of the C. P. R. would be, as it had been in the past, to protect its own business and to extend its advantages, to preserve and enlarge the trade which it had built up, alike as a great carrying and steamship company. "We are, perhaps, the largest carriers on this continent. Our business is to get and handle trade. We have had some experience. We think we know something of the needs *of trade. We are also a steamship com*pany and we have studied this end with the object of ascertaining the exact conditions.

"We put on the two Empresses. We saw the need and we met it. I do not say that the necessary limit of speed has been absolutely reached, on the contrary, the C. P. R. either of its own initiative or in co-operation might be disposed to provide *boats of a better type than those now* running on the St. Lawrence route, but with the distinct understanding that such must proceed to Liverpool or some other English port. Nor need this idea absolutely exclude the possibility of an arrangement by which there might be a landing of the mails in Ireland, but the present proposal makes either St. John or Halifax the All-the-year port, and ignores *the St. Lawrence route. The St. Law*rence route has a great attraction for travellers, and it would consider its loss, its neglect, almost in the light of a national calamity.

From the commercial point of view sir Thomas considers the All Red route impossible.

It being suggested to sir Thomas that it was contended that the fast line would *create a special class of travel, he ob*served that this already was precisely what the C.P.R. had already covered. "We are in the the business. We are on the ground, we know where to look for business. Neither the C.P.R. nor other companies have been waiting for orders to enter the field to get new business."

"It is true that the Cunard people built the Lusitania and Mauretania in a spasm *occasioned by the fear lest the American* mercantile marine, engineered by Pierpont Morgan, would wrest the supremacy from the British shipping companies, but aside from the two extreme types the Cunard people have not duplicated the Campania or Lucania. On the contrary since the Campania and Lucania they have built the Carmania and the Coronia, but not fast boats. In the case of the Ham*burg-American line, how is it that the* Deutschland has not been repeated, that all the boats are of a normal characted such as the President Lincoln, President Grant and the America, the latest of which is of the normal seven day type.

The Deutschland, by the way, is now on the Mediterranean run; she has made before now the trip from New York to Plymouth in 5 days, 7 hours and 38 minutes. She has maintained an average speed of 23.5 knots per hour during an entire voyage. She has covered in a single day 601 knots. In spite, however, of this great record for speed she was taken off the New York route and put upon a slow tourist course, which accommodates people of leisure in the winter time.

"At the same time this does not exclude the possibility of greater speed realizable on your own Canadian route."

"No, sir; I do not say for a moment

FOR HIS LIFE

Stoessel of Port Arthur Will be Tried

COURT WILL OPEN TODAY

THE GENERAL HAS SUFFERED TWO STROKES OF PARALYSIS SINCE THE SIEGE—CASE IS ATTRACTING MUCH ATTENTION IN RUSSIA.

St. Petersburg, Dec. 9—The final stage of the court martial of lieutenant general Mikhailovitch Stoessel will begin in this city tomorrow. There has been protracted delays in taking the testimony of the witnesses in the far east but now all this material is in order and the proceedings will go ahead rapidly.

General Stoessel is accused of surrendering the fortress of Port Arthur before he had exhausted all the resources of defence. The punishment for this, under the Russian code is death. He is to be tried also on the charge of lacking of initiative and of having exceeded his powers. General Fock and general Reiss are co-defendants with him, the first being accused of having executed the order to surrender. General Smirnoff, general Stoessel's most bitter enemy is to be tried on a minor charge.

The court will be composed of nine generals under the presidency of vice-admiral Raldoubassoff. It will include both generals Kuropatkin and general Kilderling, general Myloff and others. General Goercky will be court advocate. General Stoessel will be defended by deputy Syrvtlanoff and colonel Kellametoff. The basis of the indictment is practically identical with that set forth in the secret reports of the defence of Port Arthur made by general Raimirnoff, but counsel for the defence have announced their intention of broadening the scope of the inquiry to bring in the conduct of the ministry of war both prior to and during the was with Japan.

The trial is exciting the most intense interest in army circles. Every ticket to the little auditorium in the army and navy club, where the hearing will be held, has been taken by army officers of high rank. It is a curious coincidence that this room in the club was the scene some months ago, of the acceptance by the war minister of the sword of honor purchased by public subscription in France for presentation to general Stoessel, in recognition of his heroic defence of Port Arthur. After the accusations brought against general Stoessel, the contemplated inscription was altered and the sword was presented instead to the Russian army. The trial will last a fortnight.

Major Tsvonva of the Japanese army, who was general Nogi's chief of staff during the war, as well as several newspaper correspondents, have been summoned as witnesses, but their attendance is uncertain.

General Stoessel is today in a pitiable state of excitement over the final hearing of his case. The doctors are apprehensive of the effect of the trial upon the veteran officer, who has suffered two paralytic strokes since the fall of the fortress. The general told a newspaper correspondent that he was very glad indeed that the trial, after its endless delays, was finally coming to a close.

LONG LIVE THE KING

Sweden's Monarch Passed Away Early Sunday Morning

Stockholm, Dec. 9—Oscar II., king of Sweden, died at 9:10 o'clock on Sunday morning. The death of the venerable monarch occurred in the royal apartments of the palace, where, surrounded by the members of his family, including the aged queen Sophia and the crown prince Oscar Gustave and high ministers of state, the inevitable end had been awaited.

King Gustave at noon today received the homage of the troops who were drawn up in a semi-circle around the palace. The king addressed them briefly expressing conviction that they would always follow him when the welfare of the country required it. The funeral of the late king will take place on Dec. 19.

GERMAN EMPEROR'S HEALTH.

London, Dec. 9.—Emperor William of Germany, who has completed his "Rest-cure" at Highcliffe castle, arrived in London today for three days of sight seeing. He lunched with king Edward at Buckingham palace at noon, and latter took up his residence at the German embassy where he will stay until Wednesday. His majesty looks to be in splendid health. On Wednesday the emperor will leave for home. It is his intention to visit queen Wilhelmina in Holland on his way back to Potsdam.

THE HUDSON'S BAY STORES
HEADQUARTERS FOR XMAS CHEER

From the British Isles, from France, Germany, Holland, Spain, Italy Portugal, Palestine, Sweden Norway Denmark and Russia, from Eastern Canada and the United States.

We have imported direct to Nelson

Their best products in Choice Household Groceries, Provisions and Wines and Spirits. Nothing required to suit the wants of the daintiest appetite, has been omitted.

Oranges, Smyrna Figs, Seedless Raisins, Bananas, Dates, Cleaned Currants, Malaga Grapes, Table Raisins (Royal Buckingham) Choice Table Apples, Table Raisins, (Connoisseur) French Candied Peels.

Tom Smith's Crackers.

Huntley and Palmer's Biscuits.

Huntley and Palmer's Xmas Cakes assorted in 1 and 2 lb. tins.

Cadbury's King Edward Chocolates, assorted sizes.

FALSE AND MISLEADING.

Despite the finding of chief justice Sifton in the recently tried Alberta lumber case, the Edmonton Bulletin continues to allege that illegal relations existed between the Mountain Lumber Manufacturers' association and the Alberta Retail Lumber Dealers' association for the purpose of stifling competition and maintaining exorbitant prices.

The allegations of the Edmonton Bulletin have been proved to be false and misleading. In a recent issue the Bulletin suggests that the Mountain Lumber Manufacturers' association constitutes an illegal association and contends that the provincial government should follow the course pursued by the Alberta government with regard to the Retail Lumber Dealers' asosciation and hold an investigation.

Doubtless the mountain manufacturers would raise no objection to such an investigation being held, more particularly if it resulted in demolishing once for all the false accusations preferred against them by a section of the Alberta press, but it is most annoying to find newspapers, that should now bektter, continually repeating charges that have been disproved in court.

The policy of the Mountain Lumber Manufacturers' association is and always has been to supply lumber to any person, whose financial position warranted the risk, whether a member of the Retailers' association or not. It has been the aim of the association to seek to increase the number of its customers on the prairies and there is no recorded instance where the M.L.M.A. has refused to fill an order save on grounds entirely distinct from the question of membership in the retailers' association.

Chief justice Sifton in his decision in the Clark case said, in reference to the charge of conspiracy between the Mountain Lumbermen's association and the Alberta Retail Lumber Dealers' association:

"I therefore must hold that so far as the latter four clauses of the indictment are concerned, as they connect the Alberta members of the association with the Mountain Millers 'association that the accused has not been shown to be guilty as charged in the indictment."

The fact of the matter is that any bona fide retail lumber dealer in Alberta can have orders for lumber filled by the Mountain Lumber Manufacturers' association, irrespective of his membership in the Retail Dealers' association, and always has been in that position. The mountain lumbermen are manufacturing lumber for sale and they are anxious to secure all the good customers they can. They have never attempted to restrict sales or enhance prices on the prairies. These statements have been clearly proven in court and should be sufficient to put an end to the campaign of abuse that has been waged against the mountain lumber men by a section of the Alberta public.

squirrel, always in motion but always revolving in a circle and accomplishing nothing."

FAST EXPRESS—SLOW FREIGHT.

How the Retail Custom Tailor is Doubly Handicapped.

Local freight coming or going from Toronto to Montreal usually takes a full week. The merchant tailors complain that the slow freight runs are an added handicap. They have to pay from 50 to 100 per cent more for cloth bought from middlemen than do the big importing tailor houses like the "Semi-ready," and that concern is now booking orders in Toronto and points west, tailoring them to measure in their Montreal shops, and delivering the finished suits within a week from taking the measurement. A gentleman in Hamilton who recently ordered a special suit made to measure got it in four days. The Semi-ready agent telegraphed the measurements, and the suit went west by express on the evening of the fourth day.

QUEBEC ELECTIONS

EDITORIAL NOTES

Sir Wilfrid Laurier in the course of his remarks in the debate on the address in reply to the speech from the throne, made the following happy reference to the Borden platform:

"The year 1907 has seen the construction of a new platform for the new conservative party. It is a remarkable structure. It is not remarkable for what one would look in such a structure, but rather for the very reverse. It is remarkable, not for its solidity, but for its elasticity. It was built not of oak but of India rubber. Its planks are not the ordinary boards, but nameless, shapeless things intended to contract or expand according to time, place and circumstances. I do not think I am at all unduly severe if I say that almost every proposition advanced was coupled with an "if" or a "but" which makes it susceptible of a double interpretation. Every idea is combatted by the surrounding one. Every step forward is followed by a step backward, and Mr. Borden reminded me very much of a caged

NATIONAL SUPERVISION

IMPORTANT RECOMMENDATIONS BY SECRETARY OSCAR STRAUS.

FOR THE CONTROL OF TRUSTS AND COMBINES.

Washington, Dec. 9.—In the annual report of the secretary of commerce and labor, delivered today to the president for transmission to congress, secretatry Oscar S. Straus announced several important recommendations and suggestions. In regard to the work of the bureau of corporations in the investigation of trusts and combines, *secretary Straus declares* his belief that ultimately the national development of industries will force the adoption of a national system of regulation or supervision of some such general nature as that already applied to national banks, in order that the significant facts *of corporate management* may be correctly laid before congress and the public as the only proper basis for just and intelligent action thereon.

Among other matters dealt with in the report are methods of bringing about closer relations between the department and the commercial interests of the country; immigration and naturalization, contract labor, the Oriental question, woman and child labor, mediation of labor troubles and fisheries.

In speaking of the work of the bureau of corporations secretary Straus says:

"The bureau of corporations has continued the work prescribed in its organic act in the investigation of corporations engaged in the great interstate industries. Since the organization of the bureau of 1903 a number of important reports have been issued. The first annual report in 1904 set forth the policy of the bureau, with comment on certain questions raised by industrials combination. The report on the beef industry was issued in 1905 and the report on the transportation of petroleum in 1906, the latter report setting forth a large number of discriminations in railroad rates, upon which have been based numerous indictments and convictions for *violation of the interstate commerce* act and its amendments.

"In May ,1907, the present commissioner submitted to the president part I of a report on the petroleum industry, dealing with the position of the Standard Oil company in that industry. The bureau is occupied, *as current work, with making* investigations into the steel, lumber and tobacco industies, as well as with further work on the petroleum industry, and with inquiries connected with canals, coastwise and river navigation, cotton exchanges, the International Harvester company, and in making special investments relating to patents held government employees upon articles in use by the government. It is believed that these investigations will set before the public a number of important economic and financial facts and tendencies that will be of the highest value in dealing with great industrial problems.

"It is believed that the experience of the bureau has signally justified that phase of the policy of the administration which has been aimed at securing an efficient publicity in interstate matters by federal means.

"Corporate activity has become national in its commercial scope, but its legal status is still limited almost wholly by state statutes, a discrepancy that has been the cause of many existing evils. The legal conditions should at least be *brought into some reasonable* relation to the business facts. Coporate commerce, as carried on by those great companies whose operations substantially constitute the whole problems before us, is national. The control over them, to some extent at least, should also be national, by the general *government. The power and jurisdiction* of the regulative authority should be commensurate with the field of operations of the corporations to be regulated. Centralization as a business fact has been accomplished. It only remains to be determined whether legal conditions shall be adjusted to the facts *which they are* supposed to cover.

"Industrial combination, as such, appears to be an inevitable economic necessity. This fact must be recognized in order to treat the matter successfully. The prohibition of commercial power simply because it results from combination is futile and may be harmful. It is not the existence of such power, but its misuse, to which attention must be directed. Commercial success which is based solely upon the proper use of cemmercial pewer, upon the giving of better service or lower prices than any competitor, is a success that justifies itself, is a proper business development, and works benefit both to the public and the corporation. On the other hand, success that is based not on service to the public, but on the destruction of competitors by unfair methods, is an evil to be prevented.

"It is believed, and the belief is based on experience, that publicity is the best deterrent against such unfair methods,

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence *upon farming land owned by him in* the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

Fooled the Doctors and Got Well

GIN PILLS CURE RHEUMATISM

They certainly were a surprised lot of doctors out Tyneside way. They had been treating Mrs. Harris for years. Gave her about everything that was ever heard of for Rheumatism—and then told her the disease was chronic.

A friend told Mrs. Harris about GIN PILLS. Just to oblige her friend, Mrs. Harris took a box. When that was gone, she dismissed the doctors and bought another box of GIN PILLS. By the time these were gone, she was so much better that she bought the third box and laughed every time she saw a doctor.

Tyneside P. O., Aug. 6, 1906.

I received your sample box of Gin Pills, but as there was only enough for a trial I got a box from our druggist, and now I am taking the third box. The pain across my back and kidneys has almost entirely gone, and I am better than I have been for years. I was a great sufferer from Rheumatism, but it has all left me. MRS. T. HARRIS.

The doctors can't explain it. They don't try to. They said Mrs. Harris could not be cured. GIN PILLS cured her. Proof beats explanation all to pieces. Do YOU want proof? Write, mentioning this paper, for a free sample of Gin Pills and try them yourself. Then you will see what Gin Pills will do for YOU. Write now to the Bole Drug Co., Winnipeg, for a free sample.

Sold by dealers everywhere. 50c a box —6 for $2.50. 90

Beware of imitations and substitutes.

and that few, if any, corporate managers have the courage to continue openly evil practices when the exact details thereof have been or may at any time be made specially public, by name, date, amount or place.

"It is believed that the work of the bureau of corporations, as carried on now and in the past, constitutes the best means yet treated for accomplishing this object and for establishing that efficient publicity which will, of itself, most efficiently end unfair competition, and it is further believed that the extension of its work in the form of some general plan of federal supervision would be the logical and proper custom of its past experience."

On the subject of immigration, secretary Straus said:

"The total number of aliens admitted during the year was 1,285,349, which exceeded that for the fiscal year 1906 by 184,614, and that for the fiscal year of 190. by 258,850, being increases of 17 and 25 per cent, respectively.

"Of the aliens admitted, 1,100,771 ranged in age from 14 to 44 years, and 138,544 were less than 14 years of age, leaving only 46,234 who had reached or passed the age of 45. As to literacy, it is shown that 343,-402, or 30 per cent of the total number of aliens admitted were illiterate. Concerning the financial condition of immigrants, 873,923 exhibited less than $50 each—how much more they had it is impossible to state—while 107,502 showed amounts in excess of that sum; and the total amount of money which was exhibited by arriving aliens, and brought into the country, was $25,599,893, an average of almost $20 per person. There has been a considerable increase in the number of persons rejected because of insanity, contagious diseases and convictions for crime."

As a measure of relief for "the congestion and the consequent evils caused thereby in our larger Atlantic seaport cities," secretary Straus recommends the "directing of immigrants to those sections of our country—the south, the southwest and the west—which have need for the right kind of immigration, especially in agricultural and manufacturing pursuits." He adds: "The appropriations made by the last congress authorized the construction of stations for the accommodation of arriving aliens at New Orleans, Galveston and Charleston, which when completed, will have considerable effect in inducing steamship companies carrying aliens to land their passengers at these stations and aid generally in promoting distribution."

The project of stationing immigration officers at the principal seaports of foreign countries, where immigrants could be examined and their acceptance or rejection finally passed upon, is rejected by secretary Straus, as involving an abandonment of the national policy in regard to the right of expatriation. Such action, the secretary points out, "would be vesting in one or more officials stationed in foreign countries, 3,000 miles or more distant, the absolute power of determining who shall or shall not be permitted to come to our shores," and would afford "a wide open door of corruption."

While upholding the government policy of excluding Chinese laborers, secretary Straus believes that the present laws are "fraught with irritating consequences," and that the racial discrimination against the Chinese, as such, is the cause of the great falling off in the trade with China. He points out that "the exports of the United States to China, according to our statistics, fell from 53 millions in the fiscal year 1905 to 44 millions in 1906 and to 26 millions in 1907." The secretary believes that the present immigration laws, in regard to Chinese, "unnecessarily humiliate a whole people when only a particular class is to be reached." Secretary Straus also points out that immigration legislation which is wholesome for the mainland of the United States is not desirable for some of our insular possessions, and that changes should be made to adopt the laws of local conditions.

Secretary Straus is hopeful of good results from the work of the bureau of labor in the investigation of woman and child labor. "The best equipped men on the staff of the bureau," he says, "have given months to a careful study of the subject, and the work is now fully under way and will engage the time of between 60 and 100 workers during the while of the fiscal year of 1908."

In commenting on the work of the bureau of labor, the secretary also points out the work of mediation in labor difficulties under the Erdman act, the "most conspicuous test" of which was the successful settlement of the threatened strike of the Order of Railway Conductors and the Brotherhood of Railroad Trainmen in March of this year.

Lends Fragrance

TO THE SUPPER TABLE

"SALADA" TEA

PURE, DELICIOUS AND WHOLESOME

Lead packets only, Blue Label, 40c.; Red Label 50c., and Gold Label, 60c. per lb. At All Grocers

ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;
Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and cids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.

Seattle the Chicago of the West

A Business Property for $3,300.00

RIGHT IN THE HEART OF THE CITY OF SEATTLE

I own a good five-room cottage, rented now for $36.00 per month. The lot is 25x120 to alley and worth at least $125 per front foot. A bank in Seattle loaned $1500 on the property. The cottage is insured for $800. It is situated on Pontius avenue, between Eastlake and Westlake avenues, which great thoroughfares are the main outlet to the Northern part of the city, this is business property now and the man that owns it a few years from now will be lucky.

It Will Be Worth a Fortune

I purchased this property from a man who was leaving the city and had to sell quickly. He wanted $3700. I bought it from him the day he left the city for $3300. I am up against it for ready money (and must have real money), so will sell this property for just what I paid for it. I owe the bank still $1850 (which is payable $35.00 per month—the rent will carry it.) Pay me the difference and you will make some easy money. I have my contract from the original owner here with me and can prove all my statements to be correct. Will only be here a few days, so get busy if you want it. I might say that before purchasing this property, although in the real estate business myself, I consulted five of the largest and best posted real estate men in the city relative to the value of this ground and the most conservative one of the five said it was worth $125 per front foot unimproved. Address,

R. G. McLEOD
QUEENS HOTEL, CITY.

NELSON NEWS OF THE DAY

The price of all metals is on the down grade. London lead closed yesterday at £14 12s. 6d., the lowest point reached this year, the highest being £20 1s. 3d. on March 8th.

Born in this city on December 8th to the wife of John Cassidy, Mill street, a son.

The annual entertainment of St. Paul's Sunday School will take place in the church and parlors on the evening of Friday, January 3rd. Songs, recitations and drills by the scholars will be the leading features.

This is "flood-tide" in the volume of business in the retail stores—of all the year the busiest time—in the stores that are enthusiastically advertised.

This afternoon and evening the ladies of the Catholic church will hold an afternoon tea and a whist party at the residence of Mrs. Sturgeon, Silica street.

Dozens of important ads. in today's paper are demanding your attention—dozens of them should have it.

At the mining recorder's office yesterday a certificate of work was issued to John Blomberg for the recorded owners on the Star Fractional. Certificates of improvement were granted to Alfred E. Gallupe on the Montreal and the Quebec Harry Rippin conveyed to Wm. Allen, by bill of sale, the Tunnell site claim; consideration $1.

One day last week you missed the most important want ad.—to you, that has been printed recently. One day this week an equally important one, to you, will appear.

All those taking or intending to take part in the bowling tournament at the Alice rink are specially requested to at once hand in their names to proprietor H. P. Gibson. The prizes for the highest scores in December will be: Men's companion set of pipes; ladies pair of French Kid Gloves. A fancy dress carnival will be given for children in the rink on next Saturday week, December 21. The next grand masquerade carnival will be on Wednesday, December 25. The prizes for the Xmas carnival will be donated by the Poole Drug company and will be placed on exhibition in the firm's store window this week. A dance will be given in the rink on New Year's Eve, Tuesday, December 31st.

Restless and non-contented in that furnished room—when a want ad. will bring you offers of a dozen better ones

The Bell Trading company announce the arrival of their fancy stoc of groceries from the east kand are no wprepared to supply everything in their line for the Christmas trade.

We have some offices for rent in the Aberdeen block. Beer Bros. 198-tf

Expert piano tuner and regulator, Jas. R. Muir. Strictest attention to all details. Leave orders at Daily News office

The ladies of the Catholic church will hold an afternoon tea from 3 to 6, and whist party in the evening from 8:30 at Mrs. J. Sturgeon's residence ,519 Silica street. Everyone welcome on next Tuesday afternoon and evening. 197-3

Look them up now. You save money, get comfort and convenience by having your boots repaired by W. J. Habgood, near postoffice. Good material, neatness, security. Terms cash. 187-26

Minard's Liniment Cures Garget in Cows

WHEN TO GO HOME

From the Bluffton, Ind., Banner: "When tired out go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best, go home and do the act there. When you feel like being extra liberal, go home and practice on your wife and children first. When you want to shine with extra brilliancy, go home and light up the whole household." To which we add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists and dealers.

FEW WOMEN ESCAPE

the pain or annoyance of rough or chapped hands during the winter season, and most outdoor or business people suffer more or less.

Hands that are suffering from the wintery weather may be restored to the smoothness of health by judicious applications of Zam-Buk.

The value of Zam-Buk either as a protective or a corrective, cannot be over estimated. A box should be on every dressing table.

CHAPPED FROM FINGERS TO ELBOW

Henry Walker, of 14 Manufacturer Street, Montreal, works with his shirt sleeves rolled up above his elbow, and passing from a warm room to the biting cold as he is obliged to do, he got the worst case of chapped hands and arms. From his fingers to his elbows was one mass of raw flesh with bad cracks here and there.

He tried several kinds of salve, but nothing relieved him until he tried Zam-Buk. This took away the burning and smarting almost at once. The cracks began to heal and a few applications of the balm cured him. His hands and arms are now smooth and soft.

ZAM-BUK CURES blood poison, cuts, bruises, old wounds, running sores, ulcers, boils, piles, eruptions, scalp sores, eczema, itch, chapped hands, barber's rash, burns, scalds, rheumatism, neuralgia, etc. Sold by all druggists and stores at 50 cents a box, or from Zam-Buk Co., Toronto. 3 boxes for $1.25.

The Foundation of Every "Progress" Coat

The good looks, and shape, and wear, too—of a "Progress Brand" Coat, depend on the part you never see—the INSIDE.

This figure shows the anatomy of "Progress Brand" Coats. The patent sleeve and shoulder pads—the strong felt, genuine hair-cloth and thoroughly shrunken canvas. This foundation is moulded by hand and held by hand stitches.

It is this perfect building of the foundation that gives perfection to the finished "Progress Brand" garment.

"Progress Brand" Suits and Overcoats prove that they are made right, by the wear they give.

112

J. H. WALLACE

ONLY SCANDAL-MONGERS

TORIES MAKE NO ATTEMPT TO PROVE THEIR CHARGES.

SHOULD DEVOTE THEIR ENERGIES TO PROVING ONE.

The Toronto Globe in a recent issue published the following timely remarks anent the tory campaign of scandal and slander:

Some perfervid conservative orator the other night said that there were twenty-five "scandals" proved against the government. If he would take wise advice he would drop twenty-four of them and devote all his energies to proving one. The opposition is not, however, engaged in the business of scandal-proving, but in that of scandal-mongering. If one case could be shown where there was a deliberate purpose to fleece the country the opposition would soon get a response from the electorate. Not one of the recent bye-elections would have been won by the government candidates if one-twentieth of the charges made against the government were proved or shown to have any foundation in fact.

The usual course of a "scandal" is that some member introduces the subject in parliament. The longest-winded and least coherent personage on the opposition side is commonly chosen for the task. Voluminous documents are read by the hour, and when the storm has ceased the opposition newspapers announce that another "scandal" has been launched. The government press cannot afford much space for the charge, and the opposition press gives no space to any reply that is made. The average newspaper reader consequently remains in blissful ignorance of the whole matter. If his affiliations are tory he trusts that there is a scandal; if his preferences are liberal, he is sure that the whole matter is a farrago of tory falsehoods. Not one opinion throughout the country is changed by it.

Readers who can recall the Pacific scandal, the McGreevy-Connolly revelations, or the Curran bridge scandal will agree that this was not the way liberals proved their charges in the days of old. The newspapers blazed with the proofs of wrongdoing. The whole country rang. Administrations were smashed, and ministers and members censured publicly and driven from parliament.

Threats are being made that a large part of the time of parliament is again to be consumed in the re-airing of these bob-tailed "scandals." It is scarcely probable that Mr. Borden and his friends will take The Globe's advice, but it will be found to be good, nevertheless—namely, not to endeavor to cover so much ground. Pick out the most promising of the scandals and devote their best abilities to proving it, and when they have done that and blasted some ministerial reputation they will probably get a more patient hearing for the remainder of their accusations.

Minard's Liniment Cures Distemper

A HOME MADE HAPPY BY CHAMBERLAIN'S COUGH REMEDY

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeeprs insisted that I should try Chamberlain's Cough Remedy. I did so, and our baby is alive and well today.—George Spence, Holly Springs, N.C. For sale by all druggists and dealers.

RAILWAYMEN'S GRIEVANCES.

Brandon, Dec. 9.—Western railway employees are becoming alarmed over the prosecutions that are taking place against them and the blame attached for the accidents that have taken place during the last few months. Sunday afternoon a union meeting was held here at which delegations were present from five districts on the C. P. R. west of Brandon, the following unions taking part: Order of Railway Telegraphers, Brotherhood of Railway Trainmen, Order of Railway Conductors, Order of Railway Engineers, and Order of Railway Firemen.

The troubles of the railway men were discussed at the session when it was decided to petition the dominion government to amend the Railway Act to such an extent that in the case of an accident, those in charge of the trains could not be prosecuted the same as ordinary criminals.

THE DAILY NEWS CLASSIFIED ADS.

The best and cheapest means of reaching the people of the Kootenays. A small advertisement in these columns will bring big results.

RATES—One cent per word per issue; six insertions for the price of four is paid in advance.

Classified ads. will be received for insertion until 9 o'clock on the evening previous to publication. Phone 144.

ONE Insertion OF A Want Ad

DOES NOT ALWAYS CONSTITUTE A COMPLETE CLASSIFIED ADVERTISING CAMPAIGN — ALTHOUGH SOMETIMES IT DOES!

The first "try," in any line of effort, is not usually enough. "Try again" is a slogan as old as—experience of human affairs.

There is probably nothing else in which the first "try" is so often rewarded as in WANT ADVERTISING.

And there is surely nothing else in which reasonable persistence is so certain of a reward!

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, vertigo, sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

From the Markets Of the World

WE HAVE NOW AT THE SERVICE OF THE TRADE THE MOST COMPLETE AND COMPREHENSIVE STOCKS WHICH THE MARKETS OF THE WORLD CAN AFFORD. WE HAVE BEEN ESPECIALLY SUCCESSFUL THIS YEAR IN ASSEMBLING IDEAL ASSORTMENTS IN

ONTARIO MUST PAY

Exchequer Court Holds Province Liable *for Care of Indians*

Ottawa, Dec. 9—The exchequer court has handed down judgment in the case of the dominion of Canada vs the province of Ontario. Justice Burbidge holds that administration of Indian affairs devolves upon the dominion government and Ontario ought not to be held responsible for the administration of Indian treaties in Ontario. The expenses of negotiations of the treaty are held to be reasonably incurred and should be allowed by the dominion government and charged to Ontario. The province ought to be held liable to indemnify the dominion for expenditures made to pay each Indian inhabitant for the tract surrendered the sum of $5 yearly and for part of the sum of $12 given to each man, woman and child of bands represented at the time of the treaty. The judge fixed the province's share at $5 per head on this score.

Are You Traveling By Ox Team ON THE 'ROAD TO MARKET?'

According to Franklin, the "road to market" was "plain" even more than a century ago.

The years have brought a succession of improved methods of travelling on this same old road, however; and now the former weary time and distance have been almost obliterated.

Just steam and electricity have shortened the distance between London and Lvierpool, Paris and Marseille, New York and Chicago, so has Newspaper Publicity shortened the distance between YOUR MARKET and YOU.

You can still travel from one city to another by ox-team, and have a fair chance of reaching your destination SOMETIME. But you would not willingly choose the ox-team for a thousand-mile trip if a fast express train were available!

So it is in travelling on this "road to market!" You might find your market SOMETIME by using the ox-cart sort of publicity—*the poster and sign-board sort;* but why not eliminate time and distance and annoyance and disappointments by taking the fast express to YOUR MARKET—which is typified by modern, aggressive and adequate newspaper advertising.

Try The Daily News

It Is the Express Train of Publicity in the Kootenays

The sum of $1500 yearly for the purchase *of ammunition and twine for nets for the* use of Indians by the treaty is allowed as an expense. The dominion must pay for its expenditure for school supplies and for the encouragement of agriculture among the Indians. They are held to be legitimate objects of administration on the part of the dominion. The province of Ontario must bear expenditures made for salaries of chiefs, and for the triennial distribution of clothing to them.

The judgment means that Ontario will be obliged to pay a lump sum to the dominion of $380,000 and will henceforth be obliged to pay in perpetuity the portion of about $2.75 of the annuity of $5 a head received by the Indians in the region affected. The province must also assume a *perpetual liability of $1500 a year to the* Indians for nets and ammunition. The lands affected contain 55,000 acres of which 30,000 lie in what is known as New Ontario and 25,000 acres in Saskatchewan.

BIG WOLF HUNT

Will Start in Quebec Next Month—Many Hunters Will be in Party

Montreal, Dec. 9—The tourist department of the C.P.R. issued a statement today that the big wolf hunt starts from Kippewawa, Que., on Jan. 17 next. The hunt will be under the guidance of an old wolf hunter and best of guides will be arranged for the New Yorkers, Bostonians and Chicagonians and men from the other great lake cities, to take part in these hunts. Canada also will furnish a contingent of stalwarts.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

We have usde Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis,
Pastor Milaca, Minn., M. E. Church.

Chamberlain's Cough Remedy is sold by all druggists and dealers.

London, Dec. 9.—Silver 25⅞; lead £14 12s. 6d.

NELSON NEWS OF THE DAY

There was a practice of the Nelson choral society last night at the K.P. hall.

There will be a meeting of the ladies guild of St. Saviour's church in the parish hall this evening.

Archie Bishop has returned from his old home in Ontario where he has been for the past few weeks, in time for the hockey season.

H. G. Collins, representing the Northwestern railway passenger department, was in the city yesterday on business connected with his railway.

A whist party and tea in aid of the Church of Mary Immaculate will be held this afternoon and evening at the home of Mrs. Sturgeon on Silica street.

Warden Jarvis of the provincial gaol left last night in charge of J. Winterton of Fruitvale, who has been committed by stipendiary magistrate Bullock-Webster to the provincial asylum.

The sittings of the supreme court at Rossland are fixed for this morning but Mr. justice Martin will not be through with the business here until probably Thursday night and the Rossland sittings will be postponed until Friday next or later.

Tomorrow evening the members of the Churchmen's club will give a social concert at 8:15 in the parish hall to which all members of the club are expected to be present with their lady friends. An exceptionally good program has been arranged in order to offset the cakes which the ladies are expected to bring, gentlemen will be charged an admission of ten cents.

The thermometer on Sunday ranged between 26 and 40 degrees and yesterday between 20 and 35. Sunday morning was clear but the sky was clouded over after midday and early yesterday morning the snow began to fall, continuing at intervals until nightfall, when a total fall of an inch was registered.

It is possible that the night service between Nelson and Spokane will be the subject of a petition from certain citizens to the railway company who will be asked to revert to the former plan. The night service is more difficult to operate during the winter than during the summer months.

For the past nine months the postal receipts have gone beyond the minimum at which the dominion government will establish a city delivery. The city is now in preparedness for such a delivery inasmuch as the houses have been numbered. The question is likely to come up at the next meeting of the board of trade.

The record of the Red and Blue contest at the Baptist Sunday school last Sunday was: Total attendance, 178; blues, 83; reds, 82, teachers and officers not counting. The total score of points to date is blues, 1342, reds, 1312. Next Sunday the contest closes. Great interest and enthusiasm has been manifested throughout with a most friendly spirit of rivalry. Plans are being made to make this increase of members and interest a permanent benefit to the school.

Mr. justice Martin sat until after 6 o'clock last evening in the supreme court sittings in order to complete the hearing of the damage action of Huggard v the American Land and Lumber company. On the morning in the case of Isaac v. Miller was continued from Saturday. Mr. Hinton was on the witness stand all morning and when the noon hour was reached an adjournment was taken until this morning. The case will probably take all today and part of tomorrow. During the noon hour the shingle saw, which caused the trouble in the Huggard case, the loss of the man's right hand, was put in place in the court room and the afternoon session was taken up with hearing the balance of the evidence in the case and the address of counsel. At the conclusion of Mr. Taylor's argument the court rose for the day, judgment being reserved.

There will be a special practice for St Saviour's choir at the rectory this evening at 8:30 o'clock.

H. J. Maguire, formerly C.P.R. baggage master here, and now travelling baggage agent, Winnipeg, is in the city on business of the road. He is a guest at the Hume.

A. S. and A. T. Horswell, who have purchased the grocery business lately conducted by R. M. Hood and company, are rapidly getting the stock and premises in shape and will open for business on Wednesday morning.

The Young People's society will hold their regular meeting in St. Paul's church hall at 8 o'clock. At this meeting G. S. Rees will given an account of his recent trip around the world and all members and friends are cordially invited.

H. N. Eva, an experienced circulation manager, formerly of Minneapolis and Spokane, has taken charge of the outside circulation department of The Daily News in place of Thos. Draper, resigned. Mr. Eva will make regular trips throughout the territory covered by The Daily News and is leaving tomorrow for Crow's Nest and southern Alberta points.

Subscribers are reminded of the notice appearing at the head of this column regarding subscriptions in arrears. The rule, that commencing Jan. 1, 1908, papers will be delivered or mailed only to those fully paid up, will be strictly enforced. A staff of canvassers and collectors is now busily engaged in straightening out the lists and the names of all those in arrears at the end of the year will be removed, pending a settlement.

The meeting at Miners' union hall last night to hear an address by J. H. Walsh, organizer of the I.W.W., was well attended. Mr. Walsh gave an interesting address on the manner in which several noted strikes had been failures because of the help afforded employers by labor unions not on strike. The idea of the I.W.W. was to draw no lines between one class of labor and another but to draw one line only and that between employers and employees. Any worker was eligible for membership in the I.W.W. but no employer. Hence, when the I.W.W. called a strike all classes of labor went on strike and the employers would have to give way.

GRAND FORKS OUTLOOK

OFFICIALS SAY THE SMELTER WILL SCTART SOON

W. F. OF M. ASKS ALL WORKERS TO KEEP AWAY

(Special to The Daily News)

Grand Forks, Dec. 9—Things are still hanging fire in the labor situation, a few more men being at work at the smelter. The bigger part of the workmen have come from outside points.

The smelter officials stated tonight that the exact date of blowing in the furnaces could not be given out but that it would not be long.

The Western Federation of Miners issued the following poster today: "Lockout; working men keep away from the Boundary district of British Coumbia. The Granby company is attempting to cut wages here. Hundreds of men idle here. Take no notice of newspaper reports to the contrary. Signed, W. J. Louttit, Pres. Phoenix Miners' union; A. E. Hardy, pres. Grand Forks, Smeltermen's union."

The Granby company states that there is no lockout and as far as the union is concerned the company would be pleased to wait on a committee of that body with regard to the resumption of work, but under all circumstances the wages would remain the same as now posted at the works.

The C.P.R. announces special rates for the holiday season. A rate of a fare and a third will be issued to all points, tickets on sale Dec. 21, 22, 23, 24, 28, 29, 30, and 31, good until Jan. 3.
