VOL. 6 NELSON, B. C., FRIDAY, NOVEMBER 15, 1907 NO. 178

CHAMBERLAIN IS JUSTIFIED

English Conservative Party Accept Today His Policy Amid a Scene of Undescribable Enthusiasm--Balfour is in Accordance With Views Expressed--Preference for the British Colonies

London, Nov. 14.—At the conference of the conservative association today, Rt. Hon. Henry Chaplin, president of the local government board 1895-1900, and now member of parliament for the Sleaford division of Lincolnshire, moved a resolution suggested as a basis for the party's constructive policy, for the broadening of taxation for the safeguarding of productive industries from unfair competition and for a preferential arrangement with the colonies. Mr. Chaplin said that Balfour had congratulated him on the terms of the resolution which accurately summarized his, (Balfour's), views. He believed Balfour would give it to the party as a lead to tariff reform. L. J. Maxse, editor of the National Review warned the party that if it did not take up tariff reform, Lloyd George would still use their powder. The resolution carried unimously. A unanimous vote of sympathy with Rt. Hon. Joseph Chamberlain, occasioned a scene of extraordinary enthusiasm.

LOMINION COPPER CO. OFFICIALS.

Phoenix, Nov. 14.—(Special to The Daily News.)—H. H. Melville of Boston, vice-president of the Dominion Copper Co., arrived here night before last, acompanied by Maurice M. Johnson of alt Lake City, Utah, the consulting engineer of the company. Warner Miller of New York, president of the company, was also expected with the party, but has not reached the Boundary yet.

Yesterday the party spent most of the day in visiting and inspecting the company's Rawhide, Idaho and Brooklyn mines in this camp, and today they are going over the Sunset mine of the company in Deadwood camp, going also to the smelter.

About a month ago the company closed its mines and smelter in this section, which was understood to be due to the prevailing low price for copper. It was just about to begin the enlargement of the smelter when the orders to cease operations entirely were received by the manager, W. C. Thomas. Mr. Thomas is now accompanying th visiting officials on their inspection of the mines of the company. As yet nothing is given out as to the immediate intentions of the company, but it is believed that it will be prepared to resume whenever the copper market s high enough for the other large Boundary copper producers to do likewise

PROMINENT BANKER COMMITS SUICIDE.

New York, Nov. 14.—Charles T. Barney, for many years one of the most prominent financiers of New York city, committed suicide at his residence today. Mr. Barney shot himself in the head this morning and lived four and a half hours. Mr. Barney was president of the Knickerbocker Trust iompany up to a day or two before that institution closed its doors with liabilities amounting from $60,000,000 to $70,000,000. It was understood at the time the company closed that Mr. Barney had been caught by this summer's sharp decline of prices in all securites. The run on the Knickerbocker Trust company was precipitated by the announcement of the National Bank of Commerce that it would no longer clear the accounts of the Trust company through the New York clearing house. Mr. Barney's resignation as president followed. Mr. Barney was prominent in social circles as well as in the world of finance and was a member of the leading clubs and other social organizations. He was 55 years old. His wife is a sister of the late William C. Whitney.

SIFTON WELL RECEIVED AT BRISTOL.

Bristol, Eng., Nov. 14.—Hon. Clifford Sifton inspected the Royal Edward dock today and appeared much impressed with the facilities afforded for landing Canadian produce. At a luncheon, which took place at Victoria Rooms, Mr. Sifton, responding to the toast "Ships, Colonies and Commerce," received much applause. At the conclusion of his remarks Mr. Sifton referred to the "All Red Route," laying stress on the fact that as others had fast service, Canada and Great Britain should have equally as good a service. His remarks were received with much applause and any reference to Canada was the signal for special marks of approval.

FORMER POLITICIAN WANTS OFFICE.

Ottawa, Nov. 14.—(Speeal to The Daily News.)—Hon. F. E. A. Evanturel, at one time speaker of the Ontario legislature, who forsook the civil service over 20 years ago for parliament, is likely to return to Ottawa. It is said that he is an applicant for the assistant clerkship of the senate. This position is a gift of the senate, with which the government has nothing to do. The understanding was that there should be an English speaking assistant, seeing that the clerk is a French Canadian. The international committee of the senate will have to make the appointment, whoever gets it.

PROVINCIAL DETECTIVE INJURED.

Ottawa, Nov. 14.—(Special to The Daily News.)—P. McCaskill, head of the provincial detective force of Quebec, who was here attending the trial of the Buckingham strikers, which is going on at Hull, while boarding a street car fell on his back on the street and was severely injured. He was taken to the hospital and did not recover consciousness for over an hour. His spine appears to be injured.

IN THE LANL OF THE MIKADO.

Tokio, Nov. 14.—Hon. Adolphe Lemieux, Canada's postmaster general and minister of labor, made a formal call at the British embassy today.

SOME SPORTING NOTES

NEW WORLD'S RIFLE RECORD ESTABLISHED

BICYCLING AND BOXING EVENTS OF THE MOMENT

Lincoln, Neb., Nov. 14—What is said to be a new world's rifle record was established yesterday by captain A. H. Hardy when he hit 992 marble targets out of a possible 1000. The marbles were seven-eighths of an inch in diameter and were thrown at the regulation distance.

Boston, Nov. 14—The riders in the six days' bicycle race last night made a sensational ride on the night's work. The leaders placed 572 miles and three laps behind them as a record for half of the six days' racing.

New York, Nov. 14—Jack Johnson, the heavyweight fighter, was matched yesterday to fight Jack O'Brien. The Philadelphia man favored a six round bout to take place in Philadelphia, but will go to the Pacific coast if he can get on for 20 rounds for a good purse. The main point discussed was whether bandages should be permitted. It was finally decided that bandages and soft short fingered gloves inside the boxing mitts would be allowed.

Gunner Moir, who will fight Tommy Burns for the heavyweight championship of the world on Dec. 2 in London, is in prime condition. Moir has been trainin for a long time and he declares he will stop Burns inside of 20 rounds.

RUSSIAN PARLIAMENT

Great Display of Patriotic Enthusiasm by Conservatives

St. Petersburg, Nov. 14 — The third Russian parliament was opened in the Tauride palace this morning in the presence of premier Stolypin and the cabinet, by M. Golebuff, vice-president of the council of the empire. The religious service here preceding the opening was conducted by the Metropolitan Antolous and a large number of bishops and other high ecclesiastics and was made the occasion of a great display of patriotic enthusiasm by the Conservatives and moderates. The national anthem was repeatedly sung and the emperor was vigorously cheered. The city is quiet. A few hundred students are gathered in the vicinity of the palace, but did not make any demonstration.

The only discordant note was struck by the social democrats, who remained in the committee room during the reading of the emperor's greeting and entered the hall only when it was necessary for them to sign the oath. The constitutional democrats showed no marked enthusiasm in singing the national anthem or in the cheering but otherwise they participated decorously in the proceedings.

M. Golebuff's speech in opening the parliament was as follows:

"His majesty the emperor has charged me with the high duty to bid the members of the third douma welcome in his name and implores God's blessing on the work before us of establishing peace in our belover fatherland and of promoting the enlightenment and wellbeing of the people, of consolidating the new state organization and of strengthening the great indivisible Russian empire."

At the first mention of the emperor's name P. A. Krupensky, a marshall of the nobility, who was a member of the second parliament as well as being a member of the present house, and who had been selected by the conservatives to lead the cheering interrupted Golebuff with a cry for cheers for the emperor, which were given with a will and were repeated at the end of the speech. M. Golebuff then read the oath of allegiance distinctly emphasizing the words emperor and autocrat.

MAYOR OF OTTAWA

Ottawa, Nov. 14—Mayor Darcy Scott has announced himself as a candidate for the mayoralty for a second term.

BARNARDO HOME SOLD

Winnipeg, Nov. 14 — The Barnardo farm at Russell, Man., together with all the equipment was sold today. This sale simply marks a development in the work of the society and is not forced by any lack of funds nor by curtailment of operations. It has been found that the farm really did not accomplish what had been hoped for as a means of training the boys for life in western Canada and in future the society will confine its work to bringing out smaller boys who can be sent to the foster parent's home direct.

SHAPED LIKE BUTTERFLY

Paris, Nov. 14—Santos Dumont has just completed the construction of a new aeroplane on a principle different from that previously employed by him. The new machine is shaped like a butterfly. The trials already held, when it was towed by an automobile, have been successful.

MONTREAL'S NEW CUSTOM HOUSE.

Montreal, Nov. 14.—The federal government has bought from the Grey nuns for $400,000, the property at the corner of McGill street and Youville square, upon which it is understood will be erected the new custom house, to cost $3,000,000. The total area of the property is over 60,000 feet.

NEW MANITOBA MINISTER

Winnipeg, Nov. 14—George R. Coldwell, barrister, arrived in the city at noon and was met at once and sworn in as a member of the Manitoba cabinet taking the position of provincial secretary, municipal commissioner and minister of education. At a meeting of the Brandon conservatives last night he was unanimously selected for the vacant seat in that city.

EMPIRE NEWS

Vancouver Board of Trade Is in Line

TELEPHONES ON THE ARM

WELL ATTENDED MEETING OF THE BOARD OF TRADE LAST NIGHT DISCUSSED MANY MATTERS OF IMPORTANCE TO THE CITY—AUDIT IS FINISHED

Although the chief matter before a well attended meeting of the board of trade last night was that of a telephone line along the Arm, yet there were several other points that came up of general interest.

There were present F. Starkey, president, T. G. Procter, J. M. Lay, G. C. Hodge, S. M Brydges, W H Jones, A D. Emory W. W. Beer, A. W. Dyer, H. G. Goodeve, Dr. Hall, J. Irving, I. G. Nelson, C. W. Busk, J Johnstone, S. A. Kelly, J J. Campbell, H. E. Douglas, Mayor Gillett and J. E. Annable.

C. W. Busk, as chairman of the special committee on telephones, reported the result of a consultation with secretary Halse of the B.C. Telephone company. Mr. Halse made two proposals: (1) that he would recommend the construction of a metallic circuit line to Procter on a guarantee o 35 subscribers at $4 a month each, six months to be subscribed in advance; (2) that an independent company be formed to build and keep the line in repair, the BC company engaging to operate it and rent instruments at 50 cents a month. So far the committee had only succeeded in getting 25 subscribers.

T. G. Procte rsaid that 20 would be nearer the number of subscribers than 25. He thought, however, that other people who had not built as yet would be wiling to pay for a telephone whether they could use it or not, because the value of the land would be enhanced by the presence of the telephone.

J. J. Campbell asked whether the BC company would accept 20 subscribers at $7 each instead of 35 at $4 each.

G. C. Hodge said that would be acceptable.

J. J. Campbell moved and James Johnstone seconded, that the special telephone committee be asked to undertake a second canvass to raise $140 a month for 5 subscribers or less. This carried.

Secretary Ebbutt reported that a satisfactory explanation had been made as to the discrepancy between the two statements as to the Spokane chamber of commerce banquet and some amounts inadvertently omitted had been paid over. He, therefore, recommended the adoption of the amended audit.

W. W. Beer moved and S. A. Kelly seconded that the report be adopted and this motion carried.

Application was made by letter from Calgary for a Nison exhibit at the dominion fair in that city next summer. A motion passed to secure the necessary space.

An application from the Asiatic league re the resignation of premier McBride in order to get an expression of opinion on oriental immigration from the province was promptly filed on the ground that the board of trade is not a political body.

The Vancouver board of trade asked for an endorsation of their resolutionn in favor of an inter-imperial press service. On a motion by A. W. Dyer, seconded by T. G. Procter, the secretary was instructed to forward to the Vancouver board of trade the resolutions already passed by the Nelson board of trade and the associated boards on the subject.

A motion was passed on the instance of W. W. Beer, seconded by mayor Gillett, that the Dominion and Great Northern Express companies be asked to extend its delivery of parcels beyond Josephine and Mill streets to the city limits.

H. E. Douglas, for the Great Northern company, promised compliance with the request.

The meeting then adjourned.

NELSON NEWS OF THE DAY

Harry Wright spent yesterday up the lake inspecting the various sections of wagon road along the Arm which have been constructed during the past few months.

W. A. Galliher, M.P., leaves this mornin for Kaslo in order to confer with the lumbermen there as to the best plan for establishing communications with the Upper Duncan country.

An enquirer wants to know whether there was ever a game of hockey between the Rossland annd Nelson teams in Spokane. There has not been any such game. Two years ago after the matches between Rossland and Nelson had resulted in a tie the Nelson team wished to play the final game on neutral ice and proposed Spokane. The request was not acceded to and the championship went by default. Next year Spokane proposed a game but there was trouble over the expenses and the idea was dropped.

GOLD DISCOVERED.

Sherbrooke, Nov. 14.—Gold of good quality and in paying quantities has been discovered in the Lake Megantic district.

FERNIE SCHOOL FIRE

BIG WOODEN STRUCTURE WAS FINALLY SAVED

LOCAL FIRE BRIGADE RENDERED EXCELLENT SERVICE

(Special to The Daily News)

Fernie, Nov. 14—Fire broke out in the public school here shortly ater 2 o'clock yesterday afternoon and for a time it looked as if the bi wooden structure would fall a victim to the flames but the quick response of the fire brigade, their excellent work and the splendid water pressure soon had the conflaration under control. At the time the alarm was given the class rooms were filled with scholars but there was no confusion or disorder, testifying to the ood results accomplished by the weekly fire drill, the children being marshalled out to the grounds in a quiet and orderly manner by the principal and his assistants, where they were dismissed for the day. A defective furnace was the cause of the trouble and the basement of the building in the vicinity of the heating apparatus suffered most, while very slight damage was sustained by the class rooms and school will be resumed as usual tomorrow. The new city hose and ladder wagon turned out for the first time and was most satisfactory in all respects. The fire escapes with which the buildin has lately been equipped were not used as the fire was not near the main stairway and the children were out of the building before the smoke had reached the ordinary exits.

WINNIPEG BUDGET

Shrubb Wins the 15 Mile Race—Death of Old Timer—Other Items

Winnipeg, Nov. 14—Owen Copas, one of Calgary's old timers, left for Victoria last night where he will reside in future. Copas recently severed his connection with the law firm of Copas and Emerson, with which he was connected for nearly 20 years. On leaving he was presented with a handsome cigar case, handsomely engraved.

Six hundred people are attending the night schools just opened here.

The Bank of Commerce has been appointedWinnipeg's financial agents in London.

Winnipeg has decided to increase its annual grant to the generral hospital from thirty to forty thousand dollars.

Rev. Dr. Chapman, who during the last three weeks has conducted evangelistic meetings here, will visit Winnipeg again in June next, when he comes to attend he general assembly of the Presbyterian church in Canada, which meets here at that time. It is understood that Dr. Chapman has evolved a plan for evangelistic work, which he proposes to put before the assembly.

Christopher Wilson, formerly of Winnipeg, died in Denver, Col., on Nov. 12 as a result of injuries received in the Burnham shops some days ago. The steel tire of an engine wheel fell on him, striking him below the knees and crushing both legs fearfully. It required six men to lift the enormous weight from the old man's legs. When the ambulance arrived Wilson was unconscious. His limbs were dressed and the man removed to the hospital where he died. Wilson was a well known Winnipeg express man doing business around the C.P.R. station from 1880 to 1902 when he removed to Denver.

In the 15 mile race at the Arena rink last night between Shrubb the English professional and Marsh of Winnipeg, Shrubb won by two laps, running the 15 miles in 1 hour, 21 minutes and 43 seconds, Marsh being about two laps behind. The result would have been much closer had not the Manitoba farmer been oblied to stop and change his shoes during the race, thus losing nearly all the distance which separated them at the finish. Shrubb leaves almost immediately for the east to give exhibitions.

THE LABOR SITUATION

Toronto, Nov. 14—The Toronto Star says correspondents in different parts of Canada, have sent dispatches indicating the state of industries in their districts. Reports indicate general prosperity, but also a feeling that caution should be shown least the remarkable activity of last year be followed by a period of comparative slackness.

London, Ont., Nov. 14—Five moulders from Detroit made application in the polic station for lodgings, stating that the Jewel and Michigan stove works had laid off nearly half their men and that they were only the advance guard of a veritable army of unemployed who were going to invade Canada in search of work. They were respectable, intelligent and though not penniless, were walking to gaol.

WANT THE MOTTO.

New York, Nov. 14.—A resolution against the omission of the words: "In God We Trust," from the new United States old coins, was adopted by the New York diocesan convention of the Protestant Episcopal church today. The resolution met with opposition, however, and for fully an hour and a half the point was argued. When the question was put to a vote, 81 recorded themselves as opposed to the resolution, while 131 votes favored it.

SALVATION ARMY STEAMERS

London, Nov. 14—According to the Shipping Gazette, there is a probability that the Salvation army will soon own several trans-Atlantic liners. The vessels will be used in connection with the army's scheme of promoting Canadian immigration.

WILL RUN AGAIN

Brandon, Nov. 14—Mayor Clement definitely stated today that he would stand for re-election.

KING IS AFTER THE TRUTH

Japanese Witnesses in the Oriental Immigration Enquiry Are Threatened With Prosecution for Perjury if They Contradict Themselves--Many Curious Facts Are Brought to Light

Vancouver, Nov. 14.—Commissioner Mackenzie King today created consternation among the Japanese witnesses at the investigation into immigration societies' methods, by declaring that he would report all cases to the attorney-general of deliberate contradiction and leave it to him to take action against those witnesses for perjury. Japanese who were on the stand in the previous investigation, now deny what they said on that occasion under oath. The enquiry is being prosecuted with vigor and today, although the witnesses at first declared they knew nothing about immigration matters, later they acknowledged under pressure that they knew a great deal. It also transpired today that Ishikawa has been deposed from the presidency of the Japanese boarding house keepers union for making the admissions he did at the first enquiry.

The provincial police have received advices that two dead bodies have been found on Bowen island, five miles out of Vancouver. There are no means of identification.

David Burnett, who shot himself at Parson's Bridge yesterday, succumbed to his wounds last night at Victoria.

There were no new developments today in the case of the murder of the little girl. Vinetta pleaded not guilty in the police court and his case was remanded for several days.

BRISTOL LABOR M. P.'S AT NORFOLK.

Norfolk, Nov. 14.—At the American Federation of Labor convention today addresses were made by D. G. Shackleton and J. Hodge of London, England, both labor members of parliament. W. R. Trotter of Winnipeg, Canadian fraternal delegate and C. T. Powderly, representing the department of commerce and labor and the introduction anl remarks of a large number of other representatives, formed the leading features of the day's session.

In his address Mr. Powderly declared that he hoped that in his time the president of the United States and his cabinet officers would not consider it beneath their dignity to visit and address the American Federation of Labor.

Resolutions were introduced calling upon congress, in the event of an industrial crisis following the financial panic, to find "ways and means to ameliorate and mitigate the crisis by issuing money without interest, to state, counties, and cities, for the purpose of building highways, schools, bridges and public utilities, provided, however, that such work be done at union wages, under the eight hour day."

The money proposed to be loaned, to be returned on easy installments.

Among other resolutions introduced was one that all members of organized labor absolutely hold aloof from all miitary organizations until the United States provides a military system such as that of Switzerland.

ILLNESS OF BRITISH PREMIER.

Bristol, Nov. 14.—The premier, sir Henry Campbell-Bannerman, after addressing a political meeting, was seized with sudden illness last night at the residence here of William Howell Davis, liberal member of parliament for South Bristol. Doctors attended the sufferer for hours and although the sharpness of the attack had ceased, the premier's condition is such that London doctors have been summoned. Heart trouble is believed to be the cause of the illness.

Later it was learned that the premier's sudden illness was due to a severe spasm of the heart which gradually was relieved by restoratives. He was progressing favorably this afternoon.

At one time during the night the premier's condition created the gravest alarm. Mr. Birrell who also is at Bristol, was hastily summoned to see his chief. Oxygen was administered and relief was obtained. The doctors stated this afternoon that the premier was out of danger.

The condition of premier Campbell-Bannerman, continues satisfactory. He was able to sit up at a late hour last night. It is hoped that after two or three days rest he will return to London. No further bulletins will be issued. The trouble is said to be due entirely to recent over-exertion.

FEDERATION OF LABOR AND BOYCOTT.

Washington, Nov. 14.—The case of the Buck Stove and Range company of St. Louis against the American Federation of Labor to enjoin the Federation from boycotting the products of the plaintiff company, was given a hearing before justice Gould today in the supreme court of the District of Columbia. The case has attracted widespread interest because of the fact of the ultimate result on the principles of organized labor, and the possible far reaching developments of a political nature. The bill in equity cites the powerful organization of the Federation are concentrated on an especial boycott. In this case, while the application of the Sherman anti-trust law is only incidentally involved, it does involve the question as to whether the quotation "unfair" and "we don't patronize" lists constitute an unlawful boycott. The argument of the counsel occupied much of the day.

J. Y. GRIFFIN MOVING TO VANCOUVER.

Winnipeg, Nov. 14.—It would seem as if winter had at last come. Today the Assiniboine river is completely frozen over and to such a depth as to support the weight of the reckless boys who venture upon it.

It is learned that J. Y. Griffin, one of Winnipeg's best known citizens, intends to remove to Vancouver, where he will go into the commission business about the first of next year.

CANADIAN BANKS

Canadian banks and their methods have been the subject of criticism all over the dominion for the past two months. In some newspapers the banks' policy has been explained and defended and in others it has been suggested very frankly that changes could be made with benefit to the country at large.

Naturally enough the American banking system has also been discussed and the superiority of the Canadian plan is very generally conceded.

An eastern paper in discussing the two systems points out that the first point of difference beween the methods of financing of the two countries is that the United States revenues as they are paid in, are deposited in the national treasury, to remain there until they are used to make necessary payments.

In Canada the revenues as they are paid in, are deposited at once in the banks to the credit of the government and the banks use these deposits, as they use others, to promote industry and facilitate trade. In other words the United States does its own banking, while the Canadian government asks the ordinary banks to keep its funds. The second point of difference is that while the United States government uses its surplus funds to help the community only in a danerous emergency, the Canadian government is so using its funds all the time. In the one case the help is exceptional and abnormal; in the other it is customary and regular. For all practical purposes a large part of the revenue of the United States is permanently withdrawn from circulation, while nearly all the revenue of Canada is so withdrawn only during the time necessary to collect and deposit it.

Minard's Liniment Co., Limited.

Gentlemen,—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal.

I would not start on a voyage without it, if it cost a dollar a bottle.

CAPT. F. R. DESJARDIN,
Schr. "Stroker," St. Andre, Kamouraska.

The effect of these differences says the Globe, is intensified by the operation of the branch bank system. Whatever money may be deposited in any bank at once becomes available for the use of any of its branches, should there be a local demand for an increased currency. Fortunately during the late crisis all the Canadian banks stood the test without showing any signs of shakiness. Some anxiety there was but no lack of confidence. Those who are familiar with the characteristic features of the Canadian banking system can easily understand how the maximum of stability has been made compatible with the maximum of flexibility.

EDITORIAL NOTES

According to the Toronto Mail and Empire Hon. George E. Foster at a recennt conservative meeting in Toronto expressed the hope that the day would never come when Canada would shut her doors to desirable citizens because their hear was of a certain color, or because they held certain beliefs, or had certain blood in their veins. These remarks certainly apply and apparently were meant to apply to orientals of all races—Hindus and Chinese, as well as Japanese. Mr. Foster's frank statement will probably prove decidedly embarrassing to Mr. Borden, judging from some of the statements of the leader of the opposition during his recent tour of the west.

Dull times should be utilized by the C.P.R. and G.T.R. to overcome the difference between the limited extent of their equipment and the unlimited needs of the country, present and future. Are Canada's great roads to confess that they cannot make good these deficiencies of equipment in times of depression because the railways are to poor? These deficiencies of equipment cannot be made good in times of prosperity because the railways are too busy. Are the G.T.R. and C.P.R. to be like the Dutchman who "didn't shingle the leaky roof of his dwelling in dry weather because it didn't need it and in wet weather because he couldn't?"

Minard's Liniment Cures Colds, &c.

LIBERAL NOMINATION

Winnipeg, Nov. 14—Robert Buchanan, a life long liberal, residennt of Buchanan Sask., brother-in-law of John Crawford, M.P., liberal member for Portage la Prairie, has been nominated by a section of the liberals of Mackenzie in opposition to the member, Dr. Cash.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

We have usde Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis,
Pastor Milaca, Minn., M. E. Church.

Chamberlain's Cough Remedy is sold by all druggists and dealers.

EDMONTON DEBENTURES

Edmonton, Nov. 14—Considerable surprise is caused by the announcement of the city commissioners that it would be necessary for the city to issue at once debentures for $850,000. Of this amounnt $200,000 must be raised by the end of the year; $416,000 is for work contracted for, but held back owing to the financial stringency.

D&A Corsets

Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of D. & A. Corsets.

You can buy a "D. & A." at various intermediate prices ranging from $1.00 to $5.00.

Are Fashionable Models. 247

Perfect Sleep

Women Who Are Free From Female Ills Sleep Soundly

Points to the Cause

How many women are troubled with insomnia! How few, alas, habitually sleep the night through and rise refreshed.

If you can't sleep it is because your nerves will not let your body rest. Women's nervous troubles come from female diseases. Their delicate organism is a network of intricate nerves. No woman can suffer from female irregularities without eventually ruining her nervous system. Get rid of female disease and the perfect sleep of childhood will return.

Lydia E. Pinkham's Vegetable Compound

cures all female troubles and restores nerve equilibrium and brings sound, restful, healthful, natural sleep. Thus does this wonderful remedy operate to bring health to suffering women.

Wakefulness and Nervousness Cured

Dear Mrs. Pinkham:—Owing to the general enfeebled condition of my system, combined with extreme nervousness, caused by female weakness, I was a great sufferer from sleeplessness, and I tried many medicines without receiving any benefit. A friend advised me to try Lydia E. Pinkham's Vegetable Compound as it had restored her to health. I did so, and in a week I was sleeping well at night, which I had not been able to do for six months previous. My appetite returned, my color improved, and I am as well as any one could wish to be after taking your Vegetable Compound only four weeks. I think your medicine is a wonder for women.

MRS. EITTAM REEBUT, 56 Sparks St., Ottawa, Ont.

Lydia E. Pinkham's Vegetable Compound has cured more women of female diseases than any other medicine in the world. Mrs. Pinkham advises sick women free. She will write you a personal letter if you tell her about your case.

Address Mrs. Pinkham, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

HE EXPLAINS

MR. RUTHERFORD TELLS WHAT HE KNOWS.

A REPORTER INVESTIGATES THE MERITS OF VINOL.

There has reached us rumors of a new discovery. Something that will revolutionize the practice of medicine. A remedy that has given sufferers from wasting diseases hopes of renewed health and prolonged life.

Of enough importance have these stories appeared that a special interview with Mr. Rutherford, our local druggist, who has interested himself in his new preparation which is called Vinol, was thought advisable.

"Why," said Mr. Rutherford, "this is no more a new discovery than was the moon when it was first viewed through a telescope. The discovery existed simply in the fact of finding out a means of getting at the truth we were after. Perhaps the method might be considered a discovery, but what we have found has been known for years, and it is nothing more nor less than the valuable medicinal properties that have always existed in the cod's liver, and for which cod liver oil has been prescribed by so many physicians. You see it is just this way. Cod liver oil (perhaps you have taken it yourself) is something that is very valuable in all sorts of wasting diseases, and in itself is extremely disagreeable. Why, I firmly believe that a great many cases of consumption, even, could be cured if it were possible for the patient to take enough cod liver oil to let its virtues become manifest. For those who have a tendency to sore throat, bronchitis coughs, colds, for every one of an anemic disposition, it has always been considered as simply invaluable; and yet it has more often been necessary to abandon its use than it has been possible to devise a way of administering it.

Two eminent French chemists, Mourgues and Gautier, by name, started in and got interested in the matter, and after years of study they succeeded in extracting from the liver of the cod just what is necessary, and have entirely discard that obnoxious, greasy, vile-tasting fatty matter, the thought of which even has turned the stomachs of thousands. That is all over now. We have found a way of getting the kernel out of the nut.

Vinol is the concentrated essence of medicine found in the cod's liver that does the good. The grease is like the shell of the nut, absolutely useless, only it is different from the shell of the nut because besides being useless it is extremely obnoxious and disagreeable to sight, taste and smell.

We have now taken this extract and put a sufficient quantity of it with Organic Iron and Beef Peptone, dissolved in a specially made medicinal wine. The extract of the cod's liver comes in just the right proportion to do the greatest amount of good. "Here, drink this," said Mr. Rutherford, as he reached for a bottle and poured forth a clear, rich red fluid.

The reported hesitated. The thought of cod's livers, or anything to do with them, brought back memories of the past, when he himself had made heroic struggles to take that awful medicine. "Go ahead and drink it," said Mr. Rutherford. The reporter did so and looked up. "Yes, I know, but that is all right. I thougth you were going to give me some of that Vinol, you were talking about, and did not know that it was your custom to treat a man interviewing you, to a drink like that."

Mr. Rutherford laughed. "Well, that is Vinol that you have taken. Now you know that part of what I have told you is true. It did not taste bad, did it?" And it surely did not. "Now," said Mr. Rutherford, "let me tell you something else. You have just taken, condensed, of the curative principles of the cod's liver what you would find in fifty per cent of its colume of cod liver oil. You can therefore imagine that if it is necessary to take this remedy, how much easier it will be to derive benefit from it than it used to be when cod liver oil was administered. Do you realize that formerly you only obtained a small proportion of these same curative properties in a whole pint of that horrid oil? Does'nt that tell the story to you?"

GREATER MONTREAL

Annexation Scheme Gets Set Back—Two New Steamers

Montreal, Nov. 14—The greater Montreal scheme, by which it is hoped to bring all the municipalities on the island to Montreal, into the city, received a set back today when the ratepayers of Cote des Neiges, a residential suburb on the northwest corner of the city, inhabited largely by business men, and which has been going ahead very rapidly during the last few years, decided by a majority of 13 against annexation.

The contest was a very warm one, something like 75 per cent of those entitled to vote having gone to the polls, which were kept open for two days. The argument against annexation was that Montreal had a big debt and Cote des Neiges none, and that annexation would mean taxation without benefit.

It is announced that the White Star line will next season place two large steamers on the St. Lawrence route under the Dominion flag. The vessels will be named the Alberta and the Albania, and will be 18 knot vessels of 14,000 tons each.

DAN'S NARROW ESCAPE

Lethbridge, Nov. 14—Dan McCready, a lineman for the Lethbridge Electric Light compan, had a miraculous escape from electrocution last night. About 8 o'clock a passerby noticed the apparently lifeless form of a man lying over the cross arm of an electric light pole, his extremities dangling between the wires. A telephone message was sent to the light station and the power was shut off. Before the bystander could get up the pole, the supposed corpse began to talk and pulling himself together clambered down the pole. Though badly burned around the body and hands he is recovering.

TWO DEATHS REPORTED.

Lethbridge, Nov. 14.—James L. Brown, formerly proprietor of the Royal hotel at Medicine Hat, died suddenly at the Royal hotel at Taber, Alberta.

A sad accident occurred last evening about six miles from this city when the second younest child of W. H. Morris, was run over by a threshing machine and instantly killed.

ANOTHER PRINCESS.

Rome, Nov. 14.—Queen Helena this morning gave birth to a daughter. Both mother and child are doing well. King Victor Emanuel and queen Helena, who were married in October, 1896, now have four children.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists and dealers.

A Nifty Lake-Front Fruit Farm

Situated on the north side of Kootenay Lake, within 1½ miles of the City of Nelson

We have for sale an extremely choice location of 43 acres; it will make a fine summer home for a Nelson business man. It is only a 5 minute row across the lake from the end of the street car line, or 10 minutes launch ride from the city.

This property contains fully 30 acres of good orchard land; the frontage on the lake is good. There is a fine shady grove of trees, which has been cleared out and made into a beautiful little park. A swell little stream of absolutely pure water runs through the farm, for which we hold a registered water right. Two acres improved and planted with fruit trees, strawberries and raspberries. Telephone communication with the city.

Choice lake front locations, close to Nelson are at a premium, and if you are thinking of securing something of this nature, act promptly and take advantage of a good opportunity.

We can furnish a clear title to this excellent location, and for quick sale it is offered for

$3500

On easy terms.

See us at once. We will be pleased to give you the benefit of a thorough inspection.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

No Alarm Clock Needed Now---It's Joy's Blend Teas and Coffee

That are in the foreground. They are the kind that YOU like to linger over. One of our customers says that he rises half an hour earlier in the morning so that he can linger over his coffee. That is since he bought his coffee from Joys.

WORLD COPPER OUTLOOK

WRITER IN LONDON JOURNAL ON SITUATION.

EXPECTS PRESENT PRICES TO BE MAINTAINED.

Horace J. Stevens writes at length in The Mining Journal of London on the world's outlook for copper. The article is too long to be reproduced in full, but some extracts are appended:

To arrive at a clear understanding of the present demoralized condition of the copper trade, it is necessary to go back for a long distance, and to begin with generations of world-wide scope.

The trouble in the copper trade is merely a local manifestation of a disease from which the entire civilized world is suffering. The copper trade is in bad shape because money is tight, not only in the United States, but in Europe as well, and money is tight throughout the world because there has been such an unusually large supply of money during the past ten years. This may sound paradoxical, or even nonsensical, but it is absolutely true. In the presidential campaign of 1896 the two great political parties of America lined up on either side—one taking the qualitative, the other the quantitative theory of money. The republicans, who took the qualitative side, were nearer right than the democrats, but neither party grasped all of the truth. Money is a commodity, differing from others in that it is the sole commodity by which the values of all other commodities are measured; yet money is governed, as any other commodity, by the general laws that govern the prices of all commodities.

Money is of three kinds, which may be termed credit money, token money, and real money. Credit money is composed of personal cheques, bank drafts, government notes and bank notes put out by individual banks under government sanction. Token money, in all countries having the gold standard, includes the silver as well as the copper coinage, the only difference between the silver and copper being that there is a larger proportion of intrinsic value in the silver than in the copper coinage. Real money is gold, and gold only. The token money of the different governments passes readily in all transactions, because it is backed by the good faith of the government emitting it, and is redeemable in gold, either directly or indirectly. The credit money of governments, banks, corporations, and individuals is valeable or valueless according to whether it is or is not instantly redeemable in gold, or other money forms payable in gold.

The production of gold in the leading auriferous districts of the globe is much greater now than in any preceding period of the world's history. This has led, not only to increases in the currencies, but to immense increases in the monetary gold reserves of practically all civilized countries. Nothing is more clearly proven in history or in political economy than that a great increase of money in any given country is followed by the great stimulation of business and rising prices.

Like any other commodity, money becomes dear when it becomes scarce, and grows cheap in proportion as it grows common; hence bankers and writers on finance and political economy make a fundamental error in holding that the price of money is the interest received therefrom. This error is responsible for no small part of the confusion existing in the popular mind regarding higher finance. The price of money is what it will sell for, and not what it will rent for, just as the price of a house is the sum for which it can be sold, and not the charge made for its occupancy.

The entire world has been investing beyond its income. Many of the investments are fundamentally sound; but the man who, with a capital of ten thousand dollars, attempts to buy fifty thousand dollars worth of property, secures merely an equity in the property so bought, and this equity may be wiped out by financial stringency. There is a limit to the borrowing power of the world, just as certainly as there is a limit to the borrowing power of any individual, and this limit seems to have been reached, in the case of the world, in 1907. I do not look for any general panic; but not only in America, but in Europe as well, must we check our too rapid progress. A year, or two or three, will be required to regulate the overstrained world's finances, but there should be nothing in the nature of a general panic. The enterprises that have been badly financed must go to the wall in many cases, while others fundamentally sound, but borrowers to a larger extent than warranted, must check expenditure for capital account, and accumulate reserves and financial strength and reputation from net earnings.

The market for the metal has not yet found a sure level, but I look for such a level of price to be found near the present range of quotations. The drastic measures taken by Montana and Arizona mines in practically cutting production in half are being supplemented, to some extent, by the Lake Superior mines, which, with slightly reduced forces, are undertaking such dead-work as is necessary, with consequent curtailment of output.

I can see no indication of any boom in either the copper metal trade or in the market for shares, for at least a year to come, and possibly not for several years. Some little time will be required to work off the accumulated stocks of copper, which, although by no means wag as large, relatively, as those accumulated by the Secretan syndicate, are sufficient to chasten the spirit of the producers. Furthermore, there is a presidential election coming next year, and this, unfortunately, is a year of business under check, the curtailment ranging from a slight cessation of activity to a very marked depression.

The world is richer than ever before, measured either by the standard of actual money in its possession, or by the truer standard of its various industrial improvements. The world, however, like many an individual or corporation possessed of large tangible resources, is hard up at present for ready cash, and the only process by which this stringency can be relieved is the simple and natural, though not always agreeable, plan of curtailing unnecessary expenditures. If this curtailment is carried to extremes, a panic must follow; but if conducted along sound lines—as I believe will be the case—it simply will mean a general check in new enterprises calling for heavy capital investments, during the next two or three years.

The copper industry is fundamentally sound, for the reason that this product is a necessity in twentieth century civilization. A general collapse of the copper industry is not to be looked for, but a collapse of over-stimulated copper demand and prices not only is here, but is likely to remain here for some time.

ONE ON HEARST.

Witness in Libel Suit Confuses Plaintiff and Defendant.

New York, Nov. 14.—Today judge Wyatt, in the court of general sessions, refused the motion to dismiss the complaint against Wm. R. Hearst, who is chared by Wm. Astor Chandler with criminal libel. The charges against Mr. Hearst grew out of the mention of Mr. Chandler's name in the Evening Journal, relative to charges of misconduct with young girls against Raymond Hitchcock, the actor.

Two of Mr. Hitchcock's former servants were examined today, and both testified that on the evening the two young girls went to Mr. Hitchcock's house at Great Neck, and Mr. Chandler also came to the house and spent the evening with them and Mr. Hitchcock.

WM. CLARK, MFR.

MONTREAL 5-1-06

One of the servants, when asked to pick out Mr. Chandler in the audience, stepped in front of him, but would not say positively that he was the man who she saw in the house, although she thought it was.

The other woman when asked to pick out Mr. Chandler, pointed confidently at Mr. Hearst, much to the amusement of the lawyers and spectators. After the two women had been examined the case was adjourned until next Tuesday.

DANGEROUS PLAYTHING.

Picton, Ont., Nov. 14.—While two children of Mr. Farrington, Viola aged 16, and her younger brother, were alone in their home at Point Travers today the brother heard a rifle shot and entering the room where his sister was, found her dead with a gun lying beside her. It is supposed that the girl was playing with the weapon when it went off.

COLDWELL NOMINATED.

Brandon, Nov. 14.—The conservative convention to select a successor to the late hon. S. W. McInnis, last night nominated G. R. Coldwell for the legislature.

LANGUISHING IN JAIL

UNION PLUMBER'S PUNISHMENT FOR CONTEMPT.

MOTHER HAD DESTROYED MUCH WANTED BOOK.

Winnipeg, Nov. 14.—The climax of the plumbers strike of last summer has developed at the assizes. In the suit of Cotter vs. Osborne, brought by the master plumbers of the city against some of the striking pumbers, one of the defendants, George Litster, made an affidavit on production showing that he had in his possession, amongst other things, a minute book of the Journeymen plumbers local union No. 62. He was excused and an order was issued calling for the production of the book. Litster was not able to find it. He had taken it to the trade hall and after that it seems to have disappeared and he could get no trace of it. As he could not produce it an order was made for attachment for contempt in not obeying the order and he was jailed in pursuance of that order. An application was now made for his discharge.

In support of that application an affidavit was read by Litster's mother, who stated that she had come across some books at her house and looking over them found the minute book in question. Thinking it would save a lot of trouble she burned it without saying a word to her son. She had no idea that the non production of the minute book would be treated as contempt of court or that there was anything wrong in her disposal of the book. Her only object was to save her son getting into trouble and at the time of making the affidavit she stated that she had never told him yet that she had destroyed it. She acted on her own initiative entirely, her son never having made any suggestion of any kind to her about the book, and she had no desire or intention of interfering with the course of justice.

Litster, himself, made an affidavit, in which he stated that his mother never said anything to him about destroying the book and he first heard of it when J. D. Sinclair told him what his mother had done. When he first refused to produce the minute book the reason was the reluctance of the executive committee of local union No. 62, to have the same produced, and afterwards when he desired to comply with the order of the court he was unable to do so owing to the disappearance of the book. If he took the minute book home he took it with other books, not knowing that it was with them, as he never remembered seeing the book after taking it to the Trade hall. Litster has been in jail for some months in the interest of the union.

YOU WILL NEED WARM THINGS TO WEAR THIS WINTER. WINTER IS THE TIME WHEN YOU MUST WEAR CLOTHES. CLOTHES MEAN WHAT PEOPLE WEAR--ALL THEY WEAR. WHEN YOU GET CLOTHES YOU MIGHT AS WELL GET THE RIGHT KIND--MADE OF THE RIGHT MATERIALS, BY THE RIGHT WORKMEN. THEN YOU WILL GET QUALITY AND STYLE. ONE NIGHT ONLY

....SATURDAY NIGHT, NOVEMBER 16th....

One Night Only

Provincial Press Comment

A CHARMING PLAY—DELIGHTED AUDIENCE

in his picturesque romance "We Are

Brandon Sun, Oct. 1—David B. Gally King" was greeted with capacity business at the opera house on Monday night.

The star and his play were strangers to Brandon theatre goers, but they came under the direction of C.P. Walker which was a sufficient guarantee to the public that the productio nmerited good patronage.

"We Are King" made a decided hit—the greatest hit of several seasons. It's seldom, indeed, Brandon people have an opportunity of seeing as finished an artist as David B. Gally. His play is bright smart and intensely interesting—just the bill that the theatre devotee enjoys and the general public finds really entertaining.

There was the same refreshing snap to the presentation of "We Are King" that characterizes the Walker productions. There was everywhere evidence of that attention to detail which gives to a piece the swing of a finished production, the artistic air that success demands.

Mr. Gally in the dual role of newspaper man and king, is at all times splendid. His comedy is delightful, refined and free from effort, his love making is natural; and as king he showed great strength. His versatility is remarkable.

Miss Clifton as Fraulien Theresa, was charming. Her voice is of exceptional sweetness. She is possessed of great beauty and has a bewitching manner. Her part demanded great ability as an actress and she succeeds admirably.

The support was perfect, so strong in fact that several members of the cast in different scenes divided the honors with the principals.

David B. Gally and his company deserve the warm support of western theatre goers, for the bill they provide is seldom equalled.

"WE ARE KING"

Kenora Miner and News—Though David B. Gally was an unknown quantity as a headline, the people flocked to the Hilliard theatre Wednesday night to hear "We Are King" in which he took the principal character, or rather the two chief characters Early in the evening every seat and box in the house had been sold, and the gallery had the S.R.O. sign. On this occasion it was neither Gally nor the play that drew the crowd, but the fact that C. P. Walker of the new Walker theatre, Winnipeg, was back of the enterprise. Mr. Walker is known to have high ideals regarding plays and actors and the people of western Canada are always confident of seeing something good when a company is sent out by him. Such was the case last night and rarely has there been a more delighted audience in the Hilliard theatre than that which witnessed the production of "We are King." A pleasing effect was created upon the lifting of the curtain on the first act by the elaborate stage settings and the apparent attention to detail.

The dual role of the king and the scribe is taken by David B. Gally, and the changes are remarkably quick. He has a splendid conception of the dramatic art and his comedy is bright and refined, while he does not overdo love making. Miss Clifton as the princess is a charming character, bright, winsome and natural. The company throughout is composed of excellent actors and actresses and as a result all the minor parts were well taken.

RAILWAY COMMISSION

CHAIRMAN KILLAM GIVES AN INTERVIEW.

TRANSPORTATION PROBLEM TO BE SOLVED.

Toronto, Nov. 14.—"There is no question that Canada has suffered by an inadequacy of transportation facilities," said judge Killam, chairman of the Dominion Railway Commission, in an interview, "but the commission has reason to believe that the situation will be gradually, and as speedily as possible, improved."

The whole problem was under consideration by the commission.

"Our operating staff have been investigating the situation for months. The Canadian Northern has been practically completed, the Canadian Pacific is now undergoing examination and the Grand Trunk will follow.

"The Canadian Northern facilities were found to be seriously inadequate, but even before the commission had the report the railway had undertaken their betterment. This has continued in a manner highly satisfactory to the commission, and much expensive and well-advised improvement in equipment has been and is being made. The report of conditions on the Canadian Pacific is not yet before the commission.

"We do not anticipate any trouble in effecting the improvement. The efforts of our operating staff is to negotiate with the roads with a view to having them undertake the work deemed necessary on their own initiaitve. This they are usually prepared to do. If, however, this position were not taken, then the board would feel called upon to consider the matter and make an order.

"It is a very extensive problem," concluded the chairman, "but the commission has no hesitation in stating that while the improvement will necessarily be gradual, the next few years will see materially better transportation facilities all over the country."

A despatch from Ottawa states that it is understood that the government has for some time been contemplating a change in the railway commission by increasing it from three to five members. It is practically certain that these two members will be added by legislation to be enacted during the coming session. When the new board has been constituted it will probably be provided that any two members will be authorized to hear cases and give decisions, subject always to an appeal to the full board. The presumption is, however, that very few appeals will be taken, and that in general the decisions will be final. The tendency of this prompt action will be to greatly facilitate decisions in all cases which come before the commission.

THAW'S TRIAL.

New York, Nov. 14.—District attorney Wm. Travers Jerome and Martin Littleton, leading counsel for Harry K. Thaw, held a long conference on the Thaw case today. While neither party to the conference would discuss the matter, it is believed that the evidence taken before the lunacy commission who examined Thaw before his first trial be opened for benefit of counsel on both sides. The evidence was ordered sealed and has never been seen by either side. It is said that attorneys will join in a motion that it now be opened. The case is set for hearing December 2, but is believed probable that it will be postponed possibly for a month or more.

WE ARE KING.

Mr. David B. Gally presenting Mr. Walker Whiteside's great comedy success "We Are King," will be the attraction at the opera house on Saturday, Nov. 16. This delightful comedy affords Mr. Gally an exceptional opportunity to display his unlimited talent. Of the play the Louisville Times has the following to say:

"One of the most artistic triumphs of the present theatrical season is 'We Are King' given for the first time in Louisville, New Masonic theatre, last night to an audience that was as responsive as the most exacting actor could desire."

The action of the piece centers around Gustavus Venner, and Hector, king of Kahnburg, a dual role that is most acceptably filled by David B. Gally, who has not hitherto been largely known in this historic world, but with another season or two, should have a better acquaintance with the play-goers, because of his present excellent work.

Possessed of a delightfully flexible resonant voice, Mr. Gally uses it to the best advantage at all times, which, coupled with his easy presence and pleasing unobtrucive mannerisms, makes him liked almost from his first appearance. The dual role furnishes him an excellent vehicle to display his versatility, and the ease with which he glides from the serious to the rediculous, from the stern to the opposite, from the carelessly happy but unlucky correspondent, to the crisis of being made a real king, shows clearly that he has mastered many of the finer points of his art.

Manager C. P. Walker has surrounded Mr. Gally with an excellent cast.

WHAT ABOUT COAL CARS.

Winnipeg, Nov. 14.—As a result of a conference held yesterday between second vice president Wm. Whyte of the C. P. R., hon. W. R. Motherwell of Regina, and C. Anderson, secretary of the Saskatchewan grain growers association, steps will be taken immediately to relieve the car shortage, which is fairly prevalent throughout Saskatchewan. Seventeen engines are being immediately removed from double tracking work on the line between Winnipeg and Fort William and more will be taken off from other lines to meet the requirements, even at the expense of the company's work.

CARRIE IS HONORED

Nashville, Nov. 14—Mrs. Carrie Nation, was today made a life member of the W.C.T.U.

Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. Even in bed, it seemed as if she could not get easy. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier, healthier woman in the Dominion than this same Mrs. Ripley to-day.

Williamsdale East, May 9th.

I cannot refrain from writing you the benefits I have received from Gin Pills. Before I had taken Gin Pills I suffered dreadfully with my back, and had suffered for twenty years. I have tried almost everything but got no relief until I got "Gin Pills."

I have taken six boxes and now I have not the sign of a pain or an ache in my back. I am now 48 and feel as well as I ever did in my life. There is nothing can hold a place with Gin Pills for pains in the back to which women are subject. Yours truly,

MRS. MILLANOR P. RIPLEY.

Mrs. Ripley had serious Kidney Trouble. And the sick kidneys were making her back ache—were giving her those splitting headaches—were sapping her strength—and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has been well ever since. GIN PILLS are a grand medicine for women.

Try them at our expense. Mention this paper when writing and we will send you a free sample so you can see for yourself just what GIN PILLS will do for you. The Bole Drug Co., Winnipeg, Man. 9!

A Remarkably Good Skirt for $3.00

Values Up to $6.50

We have taken a number of broken lines of Ladies' Skirts, some light and dark tweeds and some cheviots, all new fall goods and the very latest style; some were $4.50, some $5.00, but most of these were $6.50 each. Your choice this morning for $3.00.

EXTRA LARGE WOMEN'S SKIRTS

You know the difficulty you always experience in buying a large skirt. These are here in a splendid range of styles and cloths, some are in tweeds, some in cheviots, some in serge and some in black voile. Altogether they're about the best collection of these goods you'll seen in a long while. Come early today while your size is here; prices each, $6.50 $8.00 $.10.00 $12.50 and $15.00.

We still show the greatest range of dress goods ever shown in the city.

MEAGHER & CO.

A GOOD LINIMENT.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists and dealers.

MORAL SOCIAL REFORM

Winnipe, Nov. 14—At a meeting of the Manitoba Presbyterian synod, the fallowing resolution was passed last night on "Moral Social Reform." Rev. principal Patrick iving a powerful address: "The abolition of bars, and the severance of the connection between hotels and sale of liquors; resolute effort to extend the area of local option; emphatic declaration in favor of public ownership of licenses and that licenses should be held dn the interests of the community and not entrusted to private persons.

NELSON BRANCH

Everything will be in readiness this afternoon for the 20,000 club ball which will take place in the roller rink this evening. There will be no rolling after 5 p.m.

Walker, the jeweler, has a magnificent display of diamonds and diamond jewelry well worth a visit of inspection. He says it's no trouble to show goods, even if it is only for inspection.

ALICE SKATING RINK

The skating rink will be open Saturday as usual all day. On Saturday evening the band will be in attendance. Skating from 7:30 o 9:30, and dancing from 9:30 until 11 o'clock. H. P. Gibson, Prop. 178-2

SASKATOON WHEAT

Sasaktoon, Nov. 14—That there is a demand for Saskatoon wheat at western points for milling purposes, is now an assured fact. A few weeks ago parties from Edmonton and Prince Albert, sampled "hub" wheat in search of a good article for milling purposes. The result is that the Saskatoon Flour and Milling company entered into a contract to supply Edmonton people with ten thousand bushels of Saskatoon wheat, and an agreement is pending to supply a Prince Albert firm with a monthly shipment of four or five carloads.

BRANDON BONDS SOLD.

Brandon, Nov. 14.—The Brandon school board this evening accepted an offer of the Neeven company of Chicago for $49,000 worth of five per cent debentures at 90 flat.

BELLECHASSE ELECTION.

Turgeon's Victory as Seen From an Ontario Standpoint.

(Canadian Courier.)

The Giant of Bellechasse has routed the Free Lance from Labelle. In other words, the hon. Adelard Turgeon has defeated Mr. Henri Bourassa. The victory is almost if not quite decisive. When Mr. Turgeon was opposed in 1897, he had a majority of 434; in 1900 and 1904 he was elected by acclamation. Mr. Bourassa's friends seemed to think that the lists were less favorable to Mr Turgeon than on previous occasions, yet he wins by a majority approximating 800. True he had all the prestige of the Gouin government behind him and all its forces working for his election. It is true also that sir Wilfrid Laurier, the father of Quebec, let it be known that he did not approve of Mr. Bourassa's campaign. Admitting these facts, the majority is still quite encouraging to Mr. Turgeon.

Just what effect this election will have on the future of the Gouin administration in Quebec it is difficult to say. Mr. Bourassa made an alliance with the conservatives and it looks like an opposition defeat. Nor is it easier to estimate the effect upon the church party in the province. Mr. Bourassa is a dutiful son of the church and was apparently in sympathy with the aims and desires of the hierarchy. It would seem, though this is by no means certain, that the leading men in Quebec are quietly but persistently resisting the authority of the church in all political matters not connected with public morals.

While Mr. Tureon has won, it must have been impressed upon him and his colleagues that public opinion in Quebec is keenly alive and that the people are determined to keep their politics pure and the administration up to the highest point of efficiency. Perhaps such campaigns as this will do good in impressing upon ministers of the crown everywhere that the slightest signs of favoritism in the conduct of public affairs will be resented, and that ministers of the crown might with advantage to themselves devote more of their time to conceiving advanced politics and improving the methods of government and less time to those little movements known popularly as political manipulations. The lesson is needed as much in the other provinces as in Quebec.

Drugs

Compounding Is Confounding

to many drug clerks. They do not know their business thoroughly and often "get rattled" when a strange or out of the ordinary prescription is put before them. There is no such embarrassment here. We put in our Prescription Department only those of long practical experience who have a positive love for the work and to whom the handling of drugs is as second nature. You may bring your prescription here with the certainty that they will be carefully, accurately and promptly compounded at small cost.

Canada Drug & Book Co.
