SHRINERS IN WRECK

HomeWard Bound From Los Angeles a Score or More Meet Death.

Locomotive of Special Train Breaks Down and is Derailed—Several Cars Pile up and Catch Fire.

Lompoc Cal. May 11.—Probably a score of passengers were killed and as many injured in a wreck this afternoon on the coast line of the Southern Pacific five miles south of here. The train was a special loaded with Shriners who were on their way home from Los Angeles to their homes in the east.

The train consisted of six coaches. While running at high speed a wheel of the engine broke and the locomotive jumped the track and turned over. Four of the front cars of the train followed it and were smashed to pieces. The dead and injured were thrown in every direction.

The train caught fire immediately after the wreck; but the fire was extinguished by the passengers of the two rear coaches who were uninjured. The cars were thrown over the engine and many of the passengers were burned and scalded to death by escaping steam.

The wreck occurred on a level stretch of track near the beach. The roadbed is of sand at this point and the broken cars plowed into it and were half buried. Some of the occupants escaped alive although injured. The engineer was hurt about the head and wandered down the track in a dazed condition toward Surf a few miles distant. He had almost reached that place when he was overtaken and carried back to the scene of the wreck. A wrecking train soon reached the spot from Santa Barbara with a large number of physicians and nurses on board. The injured were given immediate attention. Some of them were mutilated beyond recognition.

The first man to reach here from the wreck—a few minutes before 9 o'clock—said that he had counted 10 dead who had been taken from the wreckage and laid beside the track. A score or more were terribly injured. Many others received less serious injuries. They were placed with all speed on the train to be taken either to Santa Barbara or San Luis Obispo. The names of the Shriners temples whose members were on board were not known to the men who brought the news to Lompoc. He did not stop to get the names of any of the dead or injured.

San Francisco May 11.—The following official dispatch has been received at the Southern Pacific headquarters: "Extra No. 12 Engineer Champlain with Shriners derailed at Honda 65 miles north of Santa Barbara; caused by an obstruction on the track; wrecking the engine and baggage car; dining car broken in two; three sleepers derailed; not badly damaged."

San Luis Obispo May 11.—At 8:30 o'clock a special train arrived here bringing two cars of dead and wounded from the wreck at Honda. Passengers who accompanied the train and who were injured slightly or not at all assert that the number of dead exceeds 21 and the total will be in the neighborhood of 28. Five of the injured passengers died on the way here and others are so seriously hurt that death is only a matter of a few hours. The injured were hurried to a hospital and residences where preparations had been made for their reception. Trainmen who came from the scene of the wreck say that the cars were crowded with passengers and that the dining car was demolished together with the baggage car. The latter were piled on top of the locomotive. Many of the dead were scalded so that they were unrecognizable. Tourist conductor Lustin is reported killed; also a brakeman is missing and the engineer has a broken leg.

Los Angeles May 11.—The wrecked train left Los Angeles this morning in one section of twelve cars; but advices from Santa Barbara refer to the wrecked train as the first section of No. 21. Railroad officials believe that at Santa Barbara—where many Shriners spent the early hours of the day—the train was divided into sections to travel north. The train left Santa Barbara about noon and the wreck probably occurred about 3 o'clock.

Unconfirmed advices from Santa Barbara say that members of Mecca temple of New York are among the dead. It is positively known that only five members of the temple could have been on the train and it is probable that some of these will be elsewhere accounted for.

Buffalo N. Y. May 11.—Fifty nobles of Ismailia temple left Buffalo on April 30th. Some of them were accompanied by their wives and daughters and made a party of about ninety. With them were Shriners from as far west as Cleveland and as far east as Binghamton N. Y. and Newark N. J. The party was in charge of a committee composed of Lloyd L. Westbrook; William S. Risely; William D. Doherty; Joel H. Prescott and Dr. George L. Brown. Among those from nearby points were Dr. W. L. Osler; William Boehm Jr; W. E. Meyer; Henry J. Fisher of Cleveland; E. D. Coucher; Dr. E. P. Thatcher; Newark; Mayor James T. Low; George J. Diemer of Niagara Falls; John W. Cutler; Charles McKinney of Binghamton; W. I. McGeorge of Corning N. Y.

Pittsburg Pa. May 11.—A private telegram to the Associated Press tonight from a member of Syria temple of this city now in California says: "Syria is at Santa Barbara on way to San Francisco. Wreck sixty miles ahead. All well."

Santa Barbara Cal. May 11.—The first authentic news of the wreck at Honda was received this evening in a message to the railroad officials in which it is stated the dead numbered 21. On the same authority it was stated that most of the killed were riding in the buffet and dining cars.

It is now known that the wrecked train was the second section of train No. 21 which left Santa Barbara at 1:20 p. m. today and was scheduled to arrive at Surf three or four miles from the wreck at 12:30. It is probable that the train carried members of the Order of the Mystic Shrine from New York Brooklyn and Buffalo. Railroad advices are that the special train bearing 21 dead and 20 injured will arrive at 9:25 tonight from the wreck at Honda. No details will be available until that hour. Many of the seriously injured have been taken to San Luis Obispo.

IMPERIAL FEDERATION

HIGHLY INTERESTING PAPER BY JUDGE FORIN

THINKS IT WILL COME FOR SENTIMENTAL REASONS

There was a very good attendance last evening at the monthly meeting of the university club in St. Paul's church hall, the club being forced to give up its old quarters on Victoria street owing to the demand for living rooms.

C. M. Fraser occupied the chair and the paper of the evening was read by his honor Judge Forin who took for his subject "Federal tendencies in the British Empire. When his honor had concluded his paper it was plain that he believed imperial federatino would eventually come from sentimental causes but that for the present commercial interests stayed the movement.

The judge said that the United States have much in common yet their union is at present threatened. Advocates of imperial federation would eventually come be opposed to such a union as it may seem a return to Downing street government. South Africa and the utch are also opposed to federation. As the French in Canada have retained their nationality, so the Dutch in South Africa will do, and perhaps even to a greater extent. A tendency to federation in Ireland does not exist even in a commercial sense, much less in a political sense. It would be immeasurably better for Ireland to have self government as we have it. Speaking personally judge Forin said he was opposed to any preferential tariff within the empire.

In Canada there is no consideration whatever of the subject of imperial federation. Canada is a busy, self satisfied country and indifferent to any change. She is loyal to the British empire, but only those who are interested in their money bags are interested in preferential trade. The people of Canada will not stand for any union which will not admit of every administrative act being criticized on the floor of the Canadian house of commons. Prof. Shortt was quoted as saying that in a commerical way imperial federation would only enlarge the market for British manufacturers.

An animated discussion followed the reading of the paper, in which R. J. Clark, Rev. F. H. Graham, Rev. J. T. Ferguson, Dr. E. E. Arthur, Dr. Petersky, Mr. Clark of London, England, Mr. Rogers of Montreal and W. J. Baird took part.

Judge Forin closed the discussion and made it clear that he believed imperial federation woul come in time for sentimental reasons.

COAL COMPANY'S PROFITS

Pay Ten Per Cent Dividend and Carry Forward $353,592

As shown by the annual report of the Crow's Nest Pass Coal company the output in 1906 was: Coal, 806,901 tons, and coke 213,295 tons. This compares with an output in 1905 of, coal 831,240 tons and coke 257,702 tons. The falling off was due to the miners' strike, lasting from Sept. 22 of last year until the middle of November. After paying a ten per cent dividend, taking $350,000, there was carried forward to credit of profit and loss for 1907, $353,592.42. Net profits for 1906 were $351,791.35. Total expenditures for improvements were $170,169.55.

The statement places a valuation of $5,481,323.39 on the company's mines, real estate, plant, etc. The reserve is shown as $1,800,000, with bills payable of $536,787 and accounts payable of $215,755. Cash on hand is shown as $10,519 and accounts receivable $423,495.

G. T. CONDUCTOR SENTENCED

Guelph Ont. May 11.—Joseph Thompson was today sentenced to three years in Kingston penitentiary by Judge Riddell. Thompson was the Grand Trunk conductor in charge of a fruit train which last September was in collision with a passenger train at Gourock near Hespeler in which three lives were lost.

WANT COPPER PROPERTIES

Glasgow Firm With Three Million Dollars to Invest.

An Electric Smelter for Iron Ores to Be Erected on Shores of Burrard Inlet —End of Car Shortage.

(Special to The Daily News)

Vancouver May 11.—Forbes and McKinlay mining brokers announced today the receipt of a communication from Glasgow clients stating they could raise £600,000 in a short time for good paying copper properties.

The letter was an answer to a report by the firm on a group of mines in Bulkley valley since bonded to the Guggenheims. The local brokers are now looking up other properties.

The annoucement was made here today that an electric smelter for the treatment of iron ores will probably be established on the shores of Burrard inlet in connection with the 11,000-ton drydock for which a contract has been let.

N. Thompson of Vancouver is now in the old country attending to the financial details. It is understood he has been successful. R. G. Macpherson M.P. was interviewed and said he was acquainted with the project. He said he understood i twould follow Dr. Haanel's methods—to assist which parliament last session authorized bounties on electrically smelted pig iron; also on steel made in Canada from Canadian ores. The bounty runs in decreasing amounts from 1909 to 1913. The Vancouver company will be the second proposed one taking advantage of the bounty clause—the other one being at Thorold.

Sir William Mulock will address the local Canadian club at luncheon next Thursday.

Local attorneys being inspired by the lack of convictions at the assizes just closed will press for the appointment of a permanent crown prosecutor for Vancouver.

B. W. Greer of the C.P.R. states that the crucial period of the car shortage has now passed and many empties as well as loaded cars are now routed for the coast. Had relief not been assured many local mills would have had to shut down this week.

NO NEW DEVELOPMENTS

SHERIFF ABOUT COMPLETED NEW VENIRE FOR JURY.

SECRETARY KIRWAN OF W. F. M. WANTED AS WITNESS.

(Special to The Daily News)

Boise Idaho May 11.—The day has passed very quietly and there have been no developments of interest in the Haywood case. Sheriff Hodgins has been busy for two days gathering up men to fill the venire for 100 from whom to select a jury. He has secured 75 in the country among the agricultural population and will summon 25 from town. The latter have not yet been secured. The sheriff has been solicited by numerous people wishing to learn whom he has summoned. He declines to make a single name public.

James Kirwan acting secretary of the Western Federation of Miners spent two or three days here. Not wishing to attract unnecessary attention he registered under an assumed name and his presence here was not generally known. He left on the early morning train on his return to Denver. Afterward the prosecution found something concerning which it is thought he would be valuable as a witness and it has made an effort to have a subpoena served on him before he could get out of the state. It is reported he was served at the town of Montpelier in he eastern part of the state; but this report is not confirmed.

One of the names on the state's list of witnesses that attracts much attention is that of W. B. Easterly of Colorado. He has been prominent in Federation circles in that state. It is not known what is wanted of him in this case.

GOVERNMENT AND G. T. P.

PREMIER M'BRIDE HAS ARRANGED MATTERS IN DISPUTE.

RAILWAY WILL GET LANDS AND STAY BY PRINCE RUPERT.

Montreal May 11.—It is announced here that while premier McBride was in this city he arranged the matters in dispute between the G.T.P. and the B.C. government over Prince Rupert and Kaien and Digby islands. The details are to be arranged on his return from Europe. The railway company was advised that it might win in a contest in the courts over the claim of the province to a reversionary right in the Indian lands occupied by the railway; but it is desirous of avoiding a long drawn out conflict. The terms agreed to are that when the company settles with the Indians the province will invest title to the property in the railway on the same conditions as government sale of 10,000 acres on Kaien island sold to the railway by the province and that a quarter of all lands townsited shall revert to the provincial government; the choice of land to be made by the provincial authorities in the usual manner affecting such reversions.

Prince Rupert will therefore not be abandoned.

G.N.R. FERNIE BRANCH BLOCKED.

(Special to The Daily News)

Fernie May 11.—Traffic on the Fernie branch of the Great Northern railway is tied up on account of a mud slide three miles west of this town which was caused by the heavy rains of the last two days. It is not expected that the tracks will be cleared till Monday. The passenger train failed to get through this morning and returned to Fernie.

LONGSHOREMEN STRIKE

NEW YORK DOCKS SCENE OF SEVERAL RIOTS

EXPECTED PEACE WILL BE RESTORED IN FEW DAYS

New York, May 11—Today's events indicate that the crisis of the longshoremen's strike is approaching. The ten or twelve thousand men who are out are apparently nearing the limit of their patience and both sides seem waiting for what promises to be the final struggle.

In the meantime the police are in readiness to quell any rioting that may occur. The reserves in all precincts near the water front have been doubled and many of the dinners which follow the annual police parade which took place today were called off tonight because of the need of the men at stations in case o ftrouble.

The steamship Umbria of the Cunard line; New York of the American line; Koenigen Luise of the North German Lloyd and Vaderland of the Red Star line, sailed this afternoon. They were the principal transatlantic liners scheduled to depart and they were not delayed. The Carmania of the Italian line, which was scheduled to sail, is still at her pier. A riot on the pier thi smorning drove away all of the strikebreakers which were at work on the vessel. The Scandinavian American line has announced that the steamer Florida, which is due tonight or tomorrow morning will be sent at once to Philadelphia to unload. Other lines declared that if they are not able to obtain the required number of men here to handle the cargoes, their ships will be diverted to other ports.

There were three separate attacks on the strike breakers during the day. The first occurred in the morning when a crowd of strikers attacked nonunion men on the Italian line pier at the foot of 34th street. Several strikers rushed through the doors of the pier house and drove the Italian strikebreakers off the pier, beating a number of them. One Italian was seriously hurt and was taken to a hospital. Two policemen were powerless to stop the affray and it was only when the reserves arrived that the strikers were driven away.

Another riot took place at the foot of west 24th street where a party of strikers attacked a number of strikebreakers at the pier of the Panama line. They were driven off by the police before anyone was seriously injured.

West street, which runs along the Hudson river, is being newly paved with granite blocks, and great piles of heavy missiles lay ready for the strikers. Many of these were used in the attacks today. When the strikebreakers left the pier at Hoboken this evening a third riot occurred, a number of the longshoremen employed by the North German Lloyd refused to strike with the others a week ago and when these men left tonight, they were attacked by a large number of the strikers. Many men were badly beaten and the police used their clubs freely. A number of arrests were made. The police guard at the Hoboken piers has been enlarged, as more trouble is feared tonight.

It was announced tonight that 60 checkers on the Cunard piers had struck.

There are several hundred checkers employed on the piers and an effort will be made to induce them all to strike. An effort has been made to induce the teamsters who are employed in hauling perishable goods from the piers to strike in sympathy with the longshoremen, but so far in vain.

Many of the companies have notified shippers that they will be unable to take freight until the present blockade has been removed. Streets near the piers are piled high with freight which cannot be handled. The pier superintendents of the Transatlantic lines declare, however, that they are well satisfied with the situation and that within a few days the ywill have everything running as usual. They repeat with emphasis that they will not recognize the demands of the men and that those who do not return to work immediately will not be re-employed.

The annual parade of the police department was held today although up to the last minute it was not certain whether the police could be spared from their precincts. There were over 500 police in line and the parade was the best ever held in New York.

DEATH OF E. L. P. OSLER.

Toronto May 11.—E. L. P. Osler a brother of Hon. Justice Osler of the Ontario court of appeals and of William Osler died at his residence here last night at the age of 65. For 15 years he was a practicing barrister at Selkirk Man.

CANADA'S FINANCES

Grand Showing for Fiscal Year---Greater Surplus Than Has Been.

Finance Minister Fielding's Estimates of Revenue Exceeded by Several Millions —Reduction in Public Debt.

Ottawa May 11.—Final financial returns for the fiscal period ending March 31 are not yet all to hand; but enough to show that the year will be one of the best in the history of the Dominion.

The revenue for the nine months is $67,138,594; but this will be increased by two million when all collections are made. Hon M. Fielding in his budget speech made an estimate of $65,000,000; but it will be about $4,000,000 more.

The expenditure Mr. Fielding put at $52,000,000 on ordinary revenue on capital $12,500,000. To date the ordinary expenditure is $45,000,000; but this will be increased by four or five millions; and on capital are about $12,000,000; this will be increased by half a million or more; so that the revenue has increased and the expenditure has been kept down to a greater extent than Mr. Fielding anticipated.

The surplus or ordinary revenue Mr. Fielding estimated at $13,000,000; and judging by all appearances it will be three or four millions better and will be the largest on record. This will be sufficient to meet the capital expenditure and all other liabilities and reduce the net debt by a handsome sum. And it should be remembered that all this is accomplished in a nine-months period.

WEEK'S ORE SHIPMENTS

MINERAL OUTPUT IS AWAY BELOW THE AVERAGE

LACK OF COKE AND COAL IS THE ASSIGNED CAUSE

The ore output and the smelter receipts for the past week are both away below the average on account of the lack of coke and coal caused by the recent closedown of the coal mines. Now that the difficulty between the miners and the operators has been settled a return to normal ore shipping conditions may be looked for as soon as a supply of coal and coke has accumulated at the smelters.

Less than 5000 tons were shipped in the Boundary district last week, and the Granby and Dominion Copper company's plants remain closed down.

Appended will be found the ore shipments and smelter receipts in detail for the past week and year to date in tons

ROSSLAND MERGER

California-Giant Company Likely to Prove Great Success

Rossland, May 11—California-Giant Mining company, which is a merger company of the California and Giant companies, expect to have all their arrangements completed during the next week and it is anticipated that work will be commenced during the latter part of the present month. If the company has ample capital for a campaign of development, and with two valuable mines, the California and Giant, success seems a foregone conclusion. Jay P. Graves of Spokane, is one of the leading spirits of the new company.

The new hoist for the Centre Star and its allied mines will be started on next Tuesday or Wednesday. It is the largest hoist in any metalliferous mine in Canada and is a splendid piece of machinery. It is expected to do great work.

The three electrical locomotives placed in the workings of the Centre Star and allied mines recently are doing excellent work and in fact, are so economical, that the management of other mines are contemplating installing similar locomotives.

PAYING OFF HER DEBTS

PREFERRED CREDITORS ABOUT SETTLED WITH

PAYMENTS TO DEFERRED CREDITORS TO COMMENCE JULY 1

Washington, May 11—Payment by Venezuela of the United States and seven other nations will be begun soon after July 1st next. By this time the claims of Great Britain, Germany and Italy will have been liquidated and the deferred creditors will come in for a settlement. It is estimated that six years will be required to settle the claims held by the deferred creditors, since they amount to something more than half of the total debt of Venezuela at the time the awards were made by the Hague tribunal, four years age. The preferred creditors were: Great Britain, 9,401,267 bolivars; Germany, 2,091,908, and Italy 5,785932 a total of 17,297,137 bolivars. The awards to the other claimants were: France, 2,667,079 bolivars; Spain, 1,947,818; Belgium, 10,898643; Sweden and Norway 174,358; the Netherlands, 44,301; United States, 2,313,511, and Mexico, 2,577,328, a total of 38829376 bolivars (a bolivar is worth about 20 cents making a total debt of $71,685,875.)

Officials of the state department have observed with great interest the setlement of the preferred creditors.

After the blockade of the Venezuelan ports on Dec. 20, 1902 by Great Britain, Germany and Italy, the claims of all the powers were referred to the Hague tribunal and a decision was reached in 1903. By this award the blockading powers were declared to be entitled to preferential treatment. Venezuela had agreed to set apart 30 per cent of the customs receipts of Lagurira and Puerto Cabello, and within three months of this decision, the payments were begun. It has been charged that president Castro has diverted importation from the two ports on which the levy was made for the payment of the public debt, but despite this only about four years have been required to accumulate receipts sufficient for the settlement of the claims of the blockading powers. From this fact it is believed that six years at the outside will be time enough for the settlement of the entire Venezuelan debts as estimated in 1903.

ASPHALT PLANT BURNED

Toronto May 11.—Fire did $10,000 damage to the plant and building of the Harbor Asphalt company this morning. The fire was caused by one of the workmen putting too big a fire under the kettles and the flames spread to the building. The whole place was gutted. The place was insured by the head office in Philadelphia.

NO USE FOR WHITE MEN.

Victoria, May 11.—The board of trade has adopted a report recommending the reduction of the head tax of $500 on Chinese as a means of overcoming the shortage of labor. The action was taken as a result of an investigation conducted by the board as to labor conditions in British Columbia.

COLD SPRING FATAL TO STOCK.

Maple Creek May 11.—Very cold weather has prevailed the past month with heavy frosts at night and cold winds during the day. It is hard on the weak stock which have just come through the severe winter. Much stock is dying off from the effects of the cold spring.

TENNIS CHAMPIONSHIP

London May 11.—In a match for the world's professional tennis championship and a side bet of $2500 Osler Lamb the former champion today defeated Cecil Fairs holder of the title by 7 to 3. Jay Gould acted as referee.

ALL BUSY IN COAL FIELDS

Prospects Bright for Long Period of Peace and Prosperity.

Miners Again Producing Good Tonnage and Men Being Put Back to Work as Rapidly as Circumstances Permit.

(Special to The Daily News)

Fernie May 11.—Though the feeling of relief over the adjustment of the differences between the mine operators and their employes is general throughout the province the relief is felt in an exceptional degree here as the town and district have had to bear more than their share of serious setbacks to progress. Everything now points to an unprecedented era of industrial peace and prosperity; and it is confidently expected that nothing will occur to prevent this section of the Kootenays from enjoying a period of freedom from industrial disputes; and that the community will be able to share in the general prosperity of the country. The mines are already producing a satisfactory tonnage and the men are being given work as fast as places can be found for them. It will not be long before the output of coal will be greater than before the walkout although there is still likely to be a certain amount of inconvenience and suffering in the territories from lack of fuel next winter. The demand will become greater every day and the late loss of tonnage cannot be made up in time to relieve the situation.

Grand Master Schofield of the grand Masonic lodge of British Columbia paid an official visit to the local lodge Friday night. A large number of the order were present to welcome him.

The first sitting of the assize court which was held here yesterday brought in a distinguished gathering of the legal lights of the province. Among those attending were Messrs. J. A. Macdonald of Rossland; W. A. Macdonald of Nelson; T .H. Harvey of Cranbrook; W. R. Ross K.C.; H. H. Herchmer; J. S. T. Alexander; L. P. Eckstein; H. Lawe; Sherwood Herchmer; H. M. Grey and W. Fisher of Fernie.

CLOSED BY LITIGATION

LIEUTENANT GOVERNOR'S ACTION AGAINST LAST CHANCE

PROPERTY MUST REMAIN IDLE PENDING SETTLEMENT

Louis Pratt, manager, under the direction of the supreme court of the Last Chance mine at Sandon, returned from the coast yesterday and left last night for home. Mr. Pratt went to Victoria to see his honor lieutenant governor Jas. Dunsmuir, relative to the action started by Mr. Dunsmuir quite recently against the Last Chance company in liquidation. The lieutenant governor, who owns an adjoining property, claims that the men working under Mr. Pratt on the Last Chance had got beyond the bounds of their claim and into the adjoining property. On the strength of some affidavits an injunction was granted at Victoria and as a result all work on the Last Chance has been stopped and the men paid off.

Before going to the coast a week ago Mr. Pratt had his mine surveys carefully brought up to date and shown on the working plans, and he took these plans to Victoria to exhibit them to Mr. Dunsmuir and convince that gentleman that some one had misinformed him as to the existing facts.

Upon arriving at Victoria Mr. Pratt found that the lieutenant governor had been called out of town and would not return for three or four weeks. He was obliged therefore to return home and await the turn of events at the coast.

Mr. Pratt is in a somewhat peculiar position. He is managing the mine and superintending the actual mining done under an order of the supreme court, and is not in a position to put up a fight against Mr. Dunsmuir's claim. He, Mr. Pratt, states that as a matter of fact, all his mining has been done well within the lines of his claim, as conclusively shown by the survey set out in the plan referred to. No question of the extra lateral rights can come up and no attempt is thought of following the Last Chance vein beyond the boundaries of the company's property. This being so, it is a great pity that the manager is forced to close down the property and pay off the men. Who ever is responsible for wrongly advising the lieutenant governor, if Mr. Pratt's plans are correct, should be made to smart for for causing all the unnecessary trouble, delay and expense just at the time when ore shipments had commenced and when the property was coming to the front once more.

ABBATOIR DESTROYED

Montreal, May 11—Fire broke out last night in the Union Abbitoir company's premises on Frontenac street. The slaughter house was destroyed and considerable damage was done to the large refrigerator apartment alongside, with an estimated loss of $100,000. The cause of the fire is unknown.

THE PEAT INDUSTRY.

Our Ottawa dispatches recently briefly announced the fact that Hon.. Templeman in his capacity of minister of mines had decided that the first practical work of his new department should be an investigation into the peat industry with a view to facilitating the profitable use of the peat fields of Canada.

The high prices of imported coal in the middle provinces of Canada; the depletion of our forests together with the increasing value of our forests for other purpozes and the suffering induced on account of scarcity of fuel in recent years consequent upon labor conditions are causes which have again prominently brought forward the question of utilizing the peat bogs of Ontario and Quebec for the production of marketable fuel and other purposes.

The estimated area so far reported distributed over the different provinces of the Dominion is 37.000 square miles with an average depth of from 6 to 10 feet. Further investigation will undoubtedly prove that this estimate represents but a fraction of the total area of available peat.

The comparative fuel value of coal and peat and wood is: One ton of coal is equal to 1.8 tons of peat or 2.5 tons of wood.

The recent improvements in gas producers and gas engines have opened up a new field for the utilization of peat and lignite. A power plant located at the peat bog using producer gas derived from peat—may furnish electric energy and be transmitted to the market in the same way as in the case of hydroelectric energy. Other industries in Europe using peat as a raw material are at present either developed or in progress of development; such as the manufacture of peat coke and wood alcohol and moss litter.

Several attempts have been made to manufacture peat for fuel in Canada; but with few exceptions these attempts have resulted in financial failures. These failures are in many cases largely due to want of information regarding the process employed in Europe—where the peat industry has been in successful operation for many years.

To furnish this needed information Hon. Mr. Templeman—minister of mines—has appointed Mr. Erick Nystrom an engineer on the staff of the mines branch to investigate the peat industry in Europe. Mr. Nystrom has been instructed to proceed to Holland Norway Sweden Denmark Finland and Germany to study the different peat plants in operation and collect all available information in regard to the methods of working peat bogs; machinery used; cost of production and the subsequent treatment of the peat into briquettes for fuel. It will be his duty to familiarize himself with the different processes invented and in use in the different countries named and report on the commercial possibilities of these processes. He will thus be qualified to act on his return as the government expert on the subject of peat and lignite; to give advice to prospective manufacturers of peat fuel and to assist them in the making out of plans for their plants and for the drainage of their bogs. Mr. Nystrom will leave for Europe at once and begin the investigation. His report—it is expected—will be ready next fall.

MINARD LINIMENT CO., LTD.
I was very sick with Quinzy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once. I am never without it now. Yours gratefully,
MRS. C. D. PRINCE.
Nauwigewauk, Oct. 21.

would start itself if the baby began to cry. Then she tried telephoning to several people whom she thought she might get to take care of the baby for her. She failed on all of these. She was just giving up in despair when the sweet voice of the hello girl gave her an idea. She immediately put it into effect. She made a bargain whereby for a specified consideration the girl at the central office agreed to sing to the baby if she heard it cry. Then—arranging the little one's resting place so that if it cried it would have to cry squarely into the telephone—and then placing the receiver on the baby's pillow she tripped away satisfied with herself and the world. The scheme worked all right. The baby was still alive when she returned.

The use of water motors within the city is to be put a stop to entirely in the very near future. This is the decision reached by the city council. The order will cause a good deal of inconvenience to users of water motors in addition to necessitating upon their part heavy outlays for electric motors. In issuing the new instructions the council should make general allowance for time in which to secure electric motors. They cannot be purchased of the manufacturers off-hand these days. The new order has come so suddenly as to entirely disarrange plans completed for the removal of The Daily News to new quarters. We had assumed that the privilege we now enjoy of operating our plant by water power could be continued—at least through the summer months—when water is abundant and consequently no arrangements had been made to purchase electric motors. Other undertakings will be caught in similar plight; and we would advise those concerned to send in their orders for electric motors at once. We were to have moved into new quarters next week; now the date of removal must be indefinitely postponed. What urgency exists for this new order is not explained. Water is abundant and will only run to waste if not used by local industries.

EDITORIAL NOTES.

Here is a fine example of woman's ingenuity and adaptability to triumph over circumstances. She was a Virginian and had an invitation to an afternoon card party and she had accepted it. She wanted to go because she just knew there would be a lot of women there to whom she wanted to show her new gown. She had engaged a girl to come in and take care of the baby during the time she would be out; and as she dressed herself she thought everything was nicely arranged. The temporary nurse failed to show up on time; and after she had waited until she just couldn't wait any longer the woman began to scheme for some way to have the baby cared for while she was out. She finally thought of the phonograph she had heard at the house of a neighbor and thought she would borrow it; but she did not know how to arrange the thing so that it

NEW YORK FASHION LETTER

New York, May 11—Never has the choice of dress fabrics been more pronounced than this spring in *clinging stuffs*. In contrast to the old days when silks and other materials stood alone, today the styles demand the goods that lay close to the figure and are capable of much drapery if necessary and many pleats. Of course one can always get the softer goods but now it is to be remarked that the best materials of all classes are as flimsy as chiffon.

Stripes and checks continue to gain in popular favor, the neatest patterns showing *small contrasting dots scattered* between the checks or stripes. Subdued tones of ashen grey, pigeon grey, iron grey and moonstone are among the newest shades. For street wear voiles, mohairs and light weight worsteds hold favor over the other materials. Pinks in all their tints are being used, but more often in connection with browns or greens and sometimes blacks. Cherry is a beautiful shade in the 1907 tone and makes up most charmingly in such materials as voile, crepe de chine and veiling; very little trimming is used on these red costumes except some solid embroidery and perhaps one or two beautiful buttons on the coat part. Gold as a trimming for the dull fabrics is still in high favor and particularly is this noticeable in the soutaches and vestings which give so chic a finish to Eton suits of this season.

A few words must be said for the foulards. Last year they were revived to the great satisfaction of all women who have ever had a foulard for their wearing qualities are great. Then the manufacturers have found a new method by the means *of which the new goods are spot proof*, especially to that of water. Some of the designs are rather larger than those of last year, but the favorite is a dot or irregular spot with small dashes. The favorite trimming for a foulard gown is lace which is supposed to give it just the right tone. Many who have the time and the ingenuity are making the little jumper blouses of lace which are just the thing if one has an otherwse good gown a little worn under the arms.

Combinations of materials have grown familiar within the past year but the opening spring season is, nevertheless, bringing with it certain novelties in that direction that are in every way very nice. We have seen chiffon trimmed with cloth and similar things galore, but we have now been shown such things as printed chiffon with silk or ribbon of exactly matching designs and silks that are piped and otherwise trimmed with broadcloth. Taffeta is used as trimming of almost all sorts.

Although the separate skirt knows no season of its own, it will be much in *demand this season. The vogue of the separate coat* presupposes this, and the charming separate shirtwaists and lingerie confections also make it a necessity. The separate skirt is made up many times in the many varieties and of all combinations the black and white checks seem to be ahead of any others. Self-strappings in folds and crossbands are the favored ahead of any others. In modes the pleated skirt is the most called for and its length depends upon the time of day it is to be worn, but it is only for the evening that it is allowed to train. The newest development is the high almost empire lines at the back graduating to the normal waist line in the front.

There is a new collar on French blouses. It is of transparent lace, very high under the ears and shaped to the chin at the front. It is boned and finished at the top with a band of silk or velvet.

Coats modelled to the figure without a crease are the latest demand of Paris fashionables for their tailormades. But these severe styles are pitiless in setting off defects of the figure with as much accuracy as they depict grace of line. It looks now as if the severe tailormades would lead for street wear next fall and winter. One thing that has revived the popularity of the tight fitting coats is the reduced waist line. When the straight front corset of a few years back was at its worst, there was but a small proportion of the feminine world that could wear a straight fitting wrap to advantage. The corset of today has changed all this.

Fortunately for all manners and conditions of women, coats of all types and shapes are possible this season. The well shaped woman can wear her *tight fitting* coats while the woman with defects can hide them under the full coat or rippling little wrap of the jaunty styles now worn.

Jumper dresses are going to be worn by all classes and ages of women this summer. There is something about the jumper suit that detracts from the years and no woman objects to that, and no dress so enhances the youthful wearer's charms. A very pretty gown of this variety was made for the daughter of one of the highest officials in Washington and is worthy of description. It was made of a very pretty tint known as strawberry ice cream, in linen, a most becoming shade to a dark eyed girl. The skirt was a pleated one, with a box pleat down the center of the front and two side pleats down the sides turning back. The next group of pleats turned toward the front, which gave a very good swing to the pleated part and the accentuated plain piece. Two tucks ran round the skirt and a simple stitched hem finished the bottom. The armhole was a square cut and the waist and little sleeves were all in one piece. Over the shoulders ran narrow stitched tucks to give the necessary fulness. The low cut neck which ran down in the front in a deep U was outlined with a band of linen.

CATHERINE MANN-PAYZANT.

I will sell them on easy terms—$100 down.

J. E. Annable

NELSON, B. C.

STOCKS FOR THE WEEK

PRICES FIRM WITH A TENDENCY TO ADVANCE

DUE TO SETTLEMENT OF DISPUTE AT COAL MINES

(Reported by B. B. Mighton & Co.)

The stock market for the past week was active, prices being firm with a tendency to advance. This condition was due to the settlement of the labor trouble in the coal mines. The Spokane exchange dealt more extensively than usual in British Columbia and Alberta securities, as did also eastern centers.

B. C. Copper remained almost unchanged, advancing only slightly during one day and dropping back at once. Dominion Copper on the other hand advanced slightly with each day's trading and continued to attract a good deal of attention throughout the week. Both of these securities are expected to make big advances and this will undoubtedly take place when their present alterations are completed.

International Coal advanced from 4 to 5 cents between the opening and closing, and there is a probability of such advance continuing until a new high record is made but upon a reaction it is possible that prices will be about on a level with the quotations of a month ago. Rambler-Cariboo was active though almost unchanged. Consolidated Smelters were offered more freely at attractive prices. Western Oil and Coal continued in demand and advanced from 15 to 20 cents per share. Diamond Vale Coal remained weak, with but few sales recorded. The recent flurry in Cariboo-McKinney seems to have died out.

The following are the approximate quotations for the week ending yesterday:

	Asked	Bid
American Boy	$ .1¾	$ .1½
Alberta Coal	.32	.29½
Ark	.19¾	.19
B. C. Copper	8.12½	7.87½
Consolidated Smelters	135.00	110.00
Canadian Goldfields	.7	.5
Cariboo-McKinney	.4	.3
Diamond Vale Coal	.27	.24
Granby	150.00	130.00
Giant	.3	.2½
International Coal	.70	.64½
La Plata Mines	.19	.17
Monte Cristo	.3	.2
North Star	.15	.10
Nicola Coal Mines	.6	.5
Rambler	.34	.32
Sullivan	.8½	.7½
Stewart	2.50	2.37
Snowstorm	2.89	2.84
Western Oil Con.	1.90	1.70
White Bear, non-ass.	.7	.6

Buy Florence Fast Mail at ten cents.

CHURCH SERVICES TODAY

The services announced for today in the churches of Nelson are as follows:

Anglican—St. Saviour's church, corner of Ward and Silica streets. Sunday after Ascension; holy communion, 8 a. m.; morning prayer and litany, 11 a.m.; Sunday school, 2:30 p.m.; evensong, 7:30 Rev. F. H. Graham, rector.

Catholic—Church of Mary Immaculate corner of Ward and Mill streets. Low mass, 8 a.m.; high mass, 10:30; evening service, 7:30. Rev. Father Althoff, priest

Salvation Army—Barracks on Victoria street, west of Josephine. Special services will be held today. Knee drill, 7 a.m.; holiness meeting, 11 a.m.; praise meeting, 3 p.m.; evening meeting, 8 o'clock.

Baptist church—Stanley street, near Mill. Morning service, 11 a.m.; evening service, at 7:30; Sunday school, 2:30 p.m.; Rev. E. H. Shanks, pastor. Morning subject, "The Christian's Hand," illustrated. Evening topic, "The parable of the ten virgins."

Presbyterian Church—St. Paul's, corner Victoria and Kootenay streets. Morning service, 11 a.m.; Sunday school, 2:30 p.m.; evening service, 7:30 p.m.; Rev. J. T. Ferguson, pastor.

Methodist church—Corner Silica and Josephine streets. Morning service, 11 a.m.; Sunday school and pastor's bible class 2:30. R. N. Powell, pastor. At the morning service the pastor will give a chalk talk to the children, subject, "Bricks, how made and bought"; evening subject, "A committee of investigation," a sermon to young men.

RELIEF FOR RHEUMATIC PAINS

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman of Key West. "Somtimes it settled in my knees and lamed so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the pain away. I have not had any trouble from that disease for over three months. For sale by all druggists and dealers.

Ask for Minard's and take no other

Pending repairs and changes to the Canada Drug and Book Companys' east end store, Vanstone's, that branch will be closed and its business will be attended to at their main store, K.W.C. block.

WOMEN WHO CHARM
HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. T. E. Gillis

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular menstruation, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. T. E. Gillis, Windsor, N. S., describes her illness and cures, in the following letter:

Dear Mrs. Pinkham:—

"When I commenced to take Lydia E. Pinkham's Vegetable Compound I was suffering with weakness and womb trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Surely you cannot wish to remain sick, weak and discouraged, when you might so easily be cured. The medicine which has made so many other women well will cure you also.

Accidents to your horses may happen at any moment. GET READY for emergencies. Buy a bottle of

Fellows' Leeming's Essence

For Lameness in Horses

Only 50c. a bottle—and saves dollars worth of time by curing lameness of every description. At dealers, or from 12

TO WORKINGMEN NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present employed, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81, of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

George Harrison

SOCIALISM IN FRANCE

SAID TO BE A MENACE TO THE REPUBLICAN EMPIRE.

STRUGGLE OF PUBLIC EMPLOYEES FOR INDEPENDENCE.

The Paris correspondent of the Birmingham Daily Post contributes an informative article to that paper upon the question of socialism in France, which reads as follows:

"In the opinion of well informed public men in France, the republican regime has never been so menaced as it is at this moment. It is being acknowledged that the peril comes not from clericalism, nor from reaction, nor from Chauvinism, but from the socialist and revolutionary forces that make up what is called in political phraseology, the extreme left." The correspondent, who is exceptionally well informed, gives the following succinct summary of the situation as it presents itself to his trained judgment:

"The revolt of the electricians that put Paris in darkness the strike of the bakers that was intended to deprive every Paris household of bread, the caprice of the waiters that suddenly paralyzed the business of the principal Paris cafes, are but samples of what is in store for us here if the Confederation Generale du Travail succeeds in the programme it has prepared for May 1.

"To explain the origin and nature of the labor confederation I must go back to the law of March 21, 1884, legalizing trade unions, or labor syndicates, as they are called here. These syndicates soon banded together and became a federation. They were installed in premises placed at their disposition by the departments and the municipalities such buildings being designated 'Bourses du Travail,' or labor exchanges. Annual grants of public money are made for the maintenance of such establishments, which gradually acquired such importance that another organization was formed, called the Federation des Bourses. The secretary-general of this latter federation was M. Ferdinand Pelloutier, a militant anarchist, whose device was 'the destruction of present society by a general strike of manual labor.'

"At the Limoges congress in 1895, the federation of syndicates were amalgamated, and thus the Confederation Generale du Travail was born. As the law of 1884 did not provide for this wholesale combination, the confederation, as such, was an unlawful organization, and, therefore, could not have its offices at the Paris Bourse du Travail. Its habitat is 33, Rue Granke-aux-Belles, the house being divided into two sections, corresponding to the two old federations, and printing a weekly organ called the Voix du Peuple.....

"One of the main features of the confederation is the strike and general strike committee. It does all the propaganda; sends its emissaries to all parts of France where there are labor troubles, preaches violence and revolt, and refuses absolutely everything in the way of arbitration. Its permanent mission is to impress on the laboring classes the great principle that emancipation is only to be found in a universal uprising against capitalist tyranny. 'Neither wages nor employers' says the confederation. 'The factory in which you work and which is kept up by your work belongs to you; take it.'

"The unscrupulous methods of the confederation have long been classified under the term of 'action directe.' A new weapon has now been forged called 'sabotage.' If the bakers put ground glass in the bread that is sabotage. To spoil the work and break the machinery; burn the viands and vitiate the wine and badly address parcels and hinder in every way the march of honest business—all that is sabotage. In the Cri Postal—the postmen's organ—the sabotage recommended in the event of the men not getting what they want is to send correspondence to the wrong towns; muddle up the telephones and put the telegraphic apparatus out of order.

"Anti-militarism is the logical sequence of these doctrines. We have, for example, a strike at Toulon or Marseilles, with the usual accompaniment of riots, assaults and perhaps a death or two. The soldiers are called out to restore order and there is at once an interpellation in the chamber to protest against the military taking the part of the bourgeois against the people. The confederation renews its agitation against the army. The schoolmasters keep up the refrain, and professor Herve laughs in his sleeve. That is the sort of thing to which we are now accustomed, not only at Toulon and Mersailles but at all the industrial centers. The evil is such that the general strike doctrine penetrates barracks and camps, in the shape of incitements to revolt the moment the conflict is declared and to reserve their shots for their own generals.

"I admit that the revolutionary syndicates incorporated in the confederation do not form perhaps more than 15 per cent of the working population of France. It is quite possible that M Pierre Bietry is right in puting the total membership at 300,000. But such a conglomeraton of reckless, determined men, perfectly organized and centralized, without scruples, and sworn to upset the existing social order, is surely a terrible force to deal with, especially when ministers of the day have themselves 'sown the wind' and are caught in the whirlwind.

"Another problem in close connection with what has been said is the struggle for independence on the part of the public employees. Hitherto the government had relied on its functionaries. The schoolmaster, the postman, the customs house officer, the workman in the arsenals, the tobacco and lucifer match manufactories and numerous other categories were pliable and submissive. There are, to say the very least, 700,000 public employees, whose votes at general elections might be reckoned upon for ministerial candidates. Given to the oppostition the extreme left would have been crushed long ago.

"The schoolmasters are to a very alarming extent anti-militarists. Their influence is considerable n the public service. The moment the functionaries have gained their point there will be an almost immediate development tending to amalgamation with the labor confederation. When that day comes the general strike will be nearer than it ever has been and the results far more sweeping. The infection is discovered in most unexpected places. A week ago we saw the prefect of the Pyrenees-Orientales persuading the mayor to accept the Red Flag and the 'Internationale,' and scarcely had he been reprimanded by M. Clemenceau than we had another prefect (of the Indre-et-Doire department) assisting at a banquet with teh emblem of revolution unfurled, the band playing the 'Internationale' and service at table done by young girls wearing Phrygian caps.

"The radicals are chiefly responsible for what is going on. In their hatred for the monk and the priest, they forget the real interests of the republic. By coalition with the socialists they lost their independence and found themselves powerless to check what they could not approve. They see their error now. M. Maujan, one of their leaders, writing in the Radical says the time has arrived 'to declare war against ideas destructive to the country and civilization alike.' He defies the threats of the revolutionary syndicates, and calls on his party to return to their principles, to prevent, if not too late, the destruction of all they hold most dear."

GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself and was soon as well as ever. For sale by all druggists and dealers.

1,000,000 One Dollar Shares

ISSUED FULL PAID AND NON-ASSESSABLE

The amount of gold produced by leasers in Goldfield district cannot be accurately ascertained; but conservative estimates place it at $12.000.000 from the first winnings from the Combination in the fall of 1903 till the last cleanup on the Mohawk on December 31 of 1906. The Jumbo ground yielded Bowes & Kernick $400.000; Ridge & Curtis $250.000; Vermilyea & Bartlett $100.000; Richards $80.000; Zinn $60.000 and a number of other leasers smaller amounts. The Florence ground produced $60.000 to the owners of the Sweeney-Nixon-Hennessy lease and $1.000.000 to John McKane and has associates from the Reilly lease. The January ground made "January" Jones famous and gave him and hispartners $1.000.000 from one lease. The Sandstorm the Kendall and other claims gave leasers fully a million dollars. From the middle of April till December 31 of 1906 leasers on Mohawk ground won the amounts set forth below:

Leases—	Gross Value.	Net Value.	Royalty.
Hayes-Monnette	$3.939.671.54	$3.149.807.42	$708.705.95
Frances-Mohawk	2.109.794.92	1.668.893.08	375.500.48
Oddie	103.826.64	53.882.72	12.123.54
Mohawk Leasing and Dev. Co.	256.251.30	168.367.39	37.882.50
Kalfus	127.236.07	85.931.46	19.334.50
Mohawk Lease Co.	67.728.14	44.236.21	9.935.12

475,000 Shares in Treasury

ALL OTHER SHARES POOLED FOR SIX MONTHS

D. McKenzie & Co.	35.332.14	22.421.27	5.044.74
Begole	493.28	23.81	5.36
Curtis Brothers	200.761.66	114.329.55	25.724.05

Successful leasers are now at work on the Combination Fraction; the Combination and the Florence and the bulk of the ore that is being mined and shipped in Goldfield District comes from leases operated by Davis Loftus & Sweeney; Oddie Brothers; Sheets & Ish; Robinson & Vickers and Burns.

When over 1000 feet of shafts and drifts and crosscuts already done and paid for and when enough money is in the treasury to install an electric hoisting plant another shipper will bethe

Florence-Fast Mail Mining Co.

INCORPORATED UNDER THE LAWS OF NEVADA

1906

What can be done on a lease with machinery and money was shown by the Frances-Mohawk Mining and Leasing Company on the Mohawk ground in the summer and fall of 1906. The company was organized June 9 and treasury stock offered at 20 cents a share. Sixty days from the date of organization of the company a shaft had been sunk 220 feet and 175 feet of crosscuts run. On September 19th a dividend of 5 cents a share was declared; and on the expiration of the lease on Jaunary 7 1907 it had sold ore of the value of $2.109.794.42 and the shares that were sold at 20 cents in June were selling at $1.25 on the Goldfield stock exchanges. The ground that was worked by the Frances-Mohawk Company is less than 3000 feet from the Florence ground leased to and now being worked by the Florence-Fast Mail Company.

SHARES 10 CENTS

In order to provide money with which to install an electric hoist and rush the work of shaft sinking and drifting and crosscutting the Company has ordered 125.000 shares of the treasury stock to be offered for sale and the first allotment of 50.000 shares is offered at 10 cents a share. Applications will be received and stock certificates issued as soon as the money is paid. These shares will be advanced to 20 cents within sixty days and to $1.00 within four months.

Officers and Directors

K. D. SPEER OF GOLDFIELD .....DIRECTOR
E. C. HOLLINGSWORTH OF GOLDFIELD .....DIRECTOR
JOHN S. COOK & CO. OF GOLDFIELD ..... BANKERS

Little Florence Lease. Producing ore worth $20.000 a day.

Florence Mine. $1 shares selling at $6.

Florence-Fast Mail Lease. $1 shares selling at 10c.

1907

The Florence-Fast Mail shaft on the Florence is down 200 feet and 800 feet of crosscuts have been run; and it can be safely said that when an electric hoist is installed—as rapid work will be done this year by the Florence-Fast Mail Company and for the same reason—that is to get at ore known to be worth thousands of dollars a ton in gold. The Frances-Mohawk lease was close to the Hayes & Monnette lease. The Florence-Fast Mail lease is close to the Little Florence lease and the Little Florence is now producing ore as rich as any produced by the Hayes & Monnette lease last year. It is only a question of machinery and money. The company has has the ground and the Florence ledge; and money will purchase the machinery and pay miners for doing the work.

SHARES LISTED

The directors of the Florence-Fast Mail Mining Company will make application to list the stock on both the Goldfield stock exchanges on or before May 15 and on the San Francisco mining stock exchange on or before May 29. S All of the shares issued for the purchase of the company's mining claims—FAST MAIL and LAST DOLLAR FRACTION—and for the work done up to this date on the Florence-Fast Mail lease—have been pooled for six months from May 1 1907.

NELSON'S NEWS OF THE DAY

Rev. A. G. Clarke of London, England, will preach in St. Saviour's church this evening.

At the Baptist church this evening the choir will render the anthem "'Tis Midnight," by Williams.

The Ladies' Aid of the Baptist church will meet tomorrow afternoon at the residesce of Mrs. Maurer, Fairview.

Rev. J. T. Ferguson has returned from attending the meeting of the synod at New Westminster. He will take both services at St. Paul's today.

The sale of Mrs. J. E. Harris' household effects at the residence on Vernon street, will take place on Thursday next. Full particulars will appear in Tuesday's issue of The Daily News.

There will be a practice of the local lacrosse team on the recreation grounds this morning at 10:30 sharp. A full turnout is wanted to prepare for the match with Grand Forks here on Tuesday afternoon when a fast game is looked for.

S. F. Tolmie, vetinary surgeon, Victoria, has been at Calgary consulting with his chief, J. G. Rutherford, V.S., chief vetinary officer for the dominion with headquarters at Ottawa. Dr. Tolmie was at the Hume last night and leaves for the Okanagan district this morning.

The mayor stated yesterday that notices would be served on all water motor users requiring them to give up using city water for power purposes on a date to be announced. The idea is to make the owners of city plants use electric power in place of the water power now in use.

At the regular weekly shoot of the Nelson gun club yesterday afternoon the following scores were made at 50 birds: Mawdsley, 37; Ink, 32; Bishop, 32; Wells, 32; Ward, 30; Tierney, 26; Robertson, 26; Choate, 19. The total for the fifth consecutive shoot for the U.M.C. prizes, is as follows, allowing for handicaps: Mawdsyle, 173; Bishop, 170; Ward, 169; Ink, 168; Wells, 165 and Choate, 133.

Wm. Shackleton of the Canadian Marble and Granite works, has retruned from a trip to Edmonton ,where he secured three large contracts for marble and granite to be shipped to Edmonton and used in the construction of two school houses and an hotel.

The weekly half holiday will go into effect in the first week in June as in past years. All local business houses have fallen into line except the hardware stores and furniture dealers, whose business simply will not permit of a half day's recreation in midweek.

This is young people's day at the Methodist church. At this morning's service the pastor will give a chalk talk to the children, subject, "Bricks; how made and bought." The subject of this evening's sermon, which will be especially for the young people is "A committee of investigation."

A friend, "P.M.S.," who dropped into the office of The Daily News yesterday afternoon, left a $2 bill to be added to the fund raised for the poor woman, whose husband was sent to the penitentiary some time ago and who was left to provide for five small children. The total amount received to date or this worthy object is $116.

Capt. Lorne Stewart, No. 2 Co., R.M.R., yesterday received a telegram from the deputy minister of militia announcing that the deal for the new 1000 yard rifle range on Cottonwood creek flats, had been approved by the department and now only awaited the signature of the acting governor generad. This means that the new rifle range will be available this summer.

ETNA AND STROMBOLI

Volcanoes Getting Busy—Stronger Eruptions Imminent

Messina, Sicily, May 11—Frank A. Perret of New York, assistant director of the Royal observatory on Mount Vesuvius and the companion of professor Matteucle, the director of the observatory during the eruption of April, 1906, returned here today after having visited mounts Etna and Stromboli. He made most important observations and took interesting photographs.

He said: "The disturbances much resemble those which preceded the eruption of mount Vesuvius last year. The smoke is more dense and the dynamic force in the main force has increased. The roaring of the volcanoes and the violent discharges give the impression that stronger eruptions are imminent."

Enormous clouds of grey ashes appeared ths afternoon from the sea, darkened the sky and fell on the town. Considerable apprehension was felt when it was realized that the clouds were ashes and cinders from mounts Stromboli and Etna. A similar phenomenon was noticed along the southern coast and caused panics in several places.

BURNS—SQUIRES MATCH FIXED

To Take Place May 30—Jim Jeffries to Be Referee.

New York May 11.—A dispatch from Los Angeles says Bill Squires of Australia and Tommy Burns were matched there yesterday to box at Colma for the world's championship on May 30. James W. Coffroth—the San Francisco promoter—arranged the event at a conference with the parties interested at a local sporting resort. Squires' end was looked after by his manager Barney Reynolds. The bout is expected to go 45 rounds. The men agreed that there should be a side bet of $5000 apart from the other emoluments and there was no hitch until it came to the selection of a refereree. Burns wanted George Siler of Chicago or no body and Reynolds objected on the score that Siler was too old a man to handle a couple of young fighters like Burns and Squires. Burns suggested Jim Jeffries as a compromise and Reynolds promptly accepted.
