VOL. 6 NELSON, B. C., THURSDAY, MAY 23, 1907 NO. 28

OFFER IS REJECTED

Miners of Boundary District in Conference Over Wage Scale.

Offer of Limited Increase So Far made by Operators Rejected -Settlement on Mutually Satisfactory Basis Expected.

(Special to The Daily News)

Phoenix, May 22.—Yesterday the members of Phoenix Miners' union held a special meeting to consider a proposition regarding an increase of wages from the managers of the several large copper mines in the Boundary. The evening before the managers met with committees from the Phoenix, Greenwood and Grand Forks unions, and submitted the proposals, which called for an increase of 25 cents per day to miners and muckers and about a score of other classes, but did not specify an increase for some other classes. The union decided not to accept the proposition.

At the committee meeting were present besides the committees from the three unions, A. B. W. Hodges, local manager, and O. B. Smith, Jr., mine superintendent of the Granby Consolidated; W. C. Thomas, manager of the Dominion Copper company; J. E. McAllister, manager, and Frederic Keffer, engineer, for the British Columbia Copper company, and R. H. Stewart, general superintendent for the Consolidated Mining and Smelting company of Canada; Charles Biesel, local superintendent at the Snowshoe, for the same company.

Some weeks ago the members of Phoenix union asked for a raise of 50 cents per day all around, to take effect May 1st, and later the Greenwood union asked the same thing, to take effect June 1st. The Grand Forks union also asked for a raise. The managers made an offer later of 10 per cent advance to underground men under certain conditions, which was declined. The present offer has now been declined.

These requests for a raise came about the time that two of the smelters were forced to close because of a lack of coke, occasioned, in turn, by the labor troubles in the Crow's Nest coal fields. Consequently the smelters and the mines have been out of commission since then, about May 1st, or three weeks ago. Meantime, efforts were made to get together on a local wage scale, but which have thus far not been successful. Coke is now beginning to come into the smelters to some extent, though limited, and it is believed that a way out of the difficulty will yet be found by those interested, and that a ground for common agreement will be reached.

YOUNG GIRL MURDERED

FARM HAND FIRST OUTRAGES HER AND THEN CUTS HER THROAT

TRIES TO END HIS OWN LIFE BUT IS SAVED FOR GALLOWS

Killarney, Man., May 22—Georgina Brown a young girl who kept house for her brother on a farm, two miles from here, was outraged and murdered today by Laurence Rowland, who had been making his home with the Browns for two years past. Her brother was absent for two hours this afternoon and it was during his absence that the brutal crime was committed.

The murderer went to the girl's room where she was dressing after dinner and after probably accomplishing his purpose after a terrible struggle, evidences of which were everywhere apparent, he cut the girl's throat with a razor. He then attempted suicide with a butcher knife but will likely recover to pay the penalty of his crime on the gallows.

GOOD SIX ROUND FIGHT

Tommy Murphy and John Summers Meet in Philadelphia

Philadelphia, May 22—Tommy Murphy of New York and John Summers of England, fought one of the hardest six round fights ever witnessed in this city at the National athletic club tonight. It was Summers' first appearance in the ring in this country and he made an excellent impression. In the first round he dropped Murphy with a right to the jaw and in the second round floored the Harlem fighter was floored twice and only the over anxiety of Summers to stop Murphy saved the latter from taking the count. Murphy grew stronger as the fight progressed and more than held his own in the third, fourth and fifth rounds, while the sixth was about even. Murphy's stomach punches had the Englishman tired at the end of the battle.

SET BACK TO HOME RULE

Rejection of Half-Way Measure Fatal to Aims of Nationalists.

London, May 22.—It is the opinion of all the London morning papers that Mr. Birrell's Irish bill is already dead, and the government organs bitterly lament seeing the two important government measures, the Education Bill and the Irish Council Bill, miscarrying in his hands. The rejection of the measure by the Nationalist convention in Dublin solves for the government a difficulty that was beginning to oppress the ministers, namely, how to deal with the overloaded program for this session of parliament ,but nevertheless there is keen disappointment felt at the discredit thus thrown upon the government, especially as John E. Redmond, the nationalist leader, himself moved the rejection of the bill, and as the liberal papers remark:. "Thus closing the door upon any future half-way measure to home rule."

It is believed that premier Campbell-Bannerman will withdraw the bill and substitute measures dealing with evicting tenants and the Irish university question, but nothing is likely to be settled until the cabinet meets and discusses the situation.

HOURS OF RAILWAYMEN

RAILWAY COMMISSION TO TAKE ACTION IN THE MATTER

FAILURE OF CROWN ATTORNEYS TO PROSECUTE RAILWAYS

Ottawa, May 22—The attorneys general of Ontario and Quebec have a number of cases before them, which were investigated and submitted by the board of Railway Commissioners. Wherever negligence has been shown in the case of any railway accident it has been reported to the attorney general of the province with the request that the party or parties concerned be prosecuted. Conductor Thompson of Guelph, was the first case prosecuted in Ontario; another case has been prosecuted in Quebec. There are other cases in which no action has yet been taken. Where the cases have been submitted to the provinces the duty of the railway commission ceases.

Commissioner Mills, in discussing the matter today, said that the crown attorneys were as a rule, entirely too lax in formulating and prosecuting charges of manslaughter entered against those responsible for fatalities.

Mr. Mills is of the opinion that the law should be strictly enforced in the case of deaths resulting from preventable railway accidents, but there is seldom anything heard of them after the report of the coroner's jury. The doctor pointed out that in the state of Minnesota the law provides that crown attorneys must actively assist in the investigation of all railway wrecks in their respective districts and if negligence is found on the part of any connected with the wreck the crown attorney must prosecute.

The attorney general of Ontario says it is extremely difficult to get evidence to convict. In respect to conductor Thompson, who was on duty for 20 hours for several days, the board has under consideration the drafting of an order to regulate in some way the number of hours per day an employee should be employed.

J. JOHNSTONE PRESIDENT

MEETING OF B. C. FRUIT AND PRODUCE EXCHANGE

DELEGATES HANDSOMELY ENTERTAINED BY REVELSTOKE

(Special to The Daily News)

Revelstoke, May 22.—At the meeting of delegates today to the Fruit and Produce Exchange of British Columbia, the constitution and by-laws drawn up at the previous meeting at Armstrong were adopted and provisional directors elected. These are J. Johnstone, Nelson; Smythe, Revelstoke; Wade, Kamloops; Wilson, Chilliwack; McCallum, Salmon arm.

Johnstone was elected president and Smythe vice-president. It was decided to advertise for a secretary-manager. The meeting favored a vigorous campaign. The directors will meet again at Revelstoke on the 12th of June.

The delegates were welcomed by mayor Brown, and entertained at luncheon by the local board of trade and the Fruit Growers' association. After luncheon the party was driven around the city visiting the local orchards.

Details for the working of the newly formed association were arranged at a subsequent meeting.

SLOCAN HAPPENINGS

(Special to The Daily News)

Slocan, May 22 — Contractors Tattersall and Pendry took up supplies to the Howard Fraction this week and will begin work at once.

James Smith has just completed an assessment on the Coronation, on 12-Mile.

The tug Sandon has brought down a boom of logs from Rosebery to Slocan for the Ontario-Slocan lumber company.

Mrs. George McDonald and children and Mrs. Hammond of Seattle, arrived in Slocan yesterday and will spend the summer with the latter's daughter, Mrs. Dubois, at the Arlington mine.

Mrs. James Foley of Vancouver, is visiting her husband at the Ottawa mine.

William George has returned from a two weeks' trip to the coast.

TRIAL OF JAMES DALE

(Special to The Daily News)

Greenwood, May 22.—The trial of James A. Dale before Mr. Justice Clement is in full swing today. The grand jury has considered the cases brought before it and the preliminaries are in progress.

James Dale, it will be remembered, ran amuck in Carmi camp, up the west fork of the Kettle river, and in the mix-up two men were shot.

FOR TARIFF REVISION

U. S. National Association of Manufacturers Goes on Record.

Fifty-Five Per Cent of Three Thousand Members Declare for Immediate Revision—Other Resolutions.

New York May 22.—The National Association of Manufacturers of the United States went on record as in favor of a revision of the tariff at the earliest opportunity today, and the negotiation of further reciprocity treaties.

A lively debate preceded the vote, which was upon the acceptance of the report of the committee on tariff and reciprocity. The committee based its recommendations on a poll of 3,000 members of the association.

Of the total replying, 55 per cent declared for immediate revision, while 20 per cent expressed a "hands off" sentiment; 8 per cent believed that the time for revision had not arrived, and the other 17 per cent expressed indifference or made non-committal answers. An effort to table the report was defeated and it was adopted as reported.

The mass of resolutions adopted by the association on this closing day included endorsement of the open shop, industrial education, the improvement of the consular service, commendation of the national river and harbor congress, to urge the president to withhold his approval of the new German agreement until the testimony of practical producers could be obtained regarding the effects of an administrative change in favor of "expert values" and opposition to all illegal combinations either of capital or labor.

This last resolution was given added force by the convention's declared determination to raise $500,000 to carry out a campaign of education concerning dictatorial combinations.

Captain Henry A. Castle, of St. Paul, formerly sixth auditor of the United States treasury, in a speech on "Needed Reforms," criticised the management of the postoffice department.

Charles A. Prouty, a member of the interstate commerce commission, advocated direct control by the government over the capital accounts of the railroads.

The association reelected James W. Van Cleve of St. Louis, president, and F. H. Stillman, of New York, treasurer.

The convention closed tonight with a banquet.

FULL JURY BY SATURDAY

THAT IS HOPEFUL EXPECTATION OF STATE ATTORNEYS

PRINTER AND WITNESS COME TO BLOWS OVER HAYWOOD CASE

(Special to The Daily News.)

Boise, Idaho, May 22.—With the court not in session, a very quiet day has been passed here. Tomorrow afternoon the work of selecting a jury will be resumed, and the attorneys for the state think that it may be concluded by Saturday night. That, however, is quite unlikely. Toward the last there will be a still more searching examination of talesmen. As those passed for cause will likely remain in the box, there remain eight peremptory challenges, and it is practically certain that they will be exercised, in which event it is likely to take four full days to complete the jury.

On the theory that the jury will be completed this week, the state assumes that Harry Orchard will reach the stand before the close of next week. The first witnesses will be called to prove the murder, and it is thought their testimony will be disposed of quickly, but in that again there may be miscalculation, as there undoubtedly will be much room for objections and argument, and it may take a week to get through that portion of the case.

An incident occurring last night is the only thing approaching excitement or violence since the case began. It occurred in the residence section and was not generally known today. There is a man named Robert D. Meldrum here from Colorado, who is to be a witness for the state and who is living here under the name of Willis. This man has served as an officer and detective. At the house where he boards there lives a printer, named C. F. L. Whims, who became suspicious of Willis. Last evening after dinner he questioned him about his business and wound up by calling him a liar. The epithet was met with a blow, and there followed a hard fight, in which Whims, though a much larger man, was badly worsted. The defeated man talked of having his opponent arrested, but he consulted with some of his friends among the labor leaders and these advised against it. The unions are endeavoring to maintain an impartial attitude and the leaders did not desire to have a case ventilated in court which might seem to connect the unions with the case on either side.

O'CONNOR IS OPTIMISTIC

Thinks Rejection of Birrell's Bill Will Not Retard Home Rule.

New Chapter Opened in Ireland's Fight Against Misgovernment—Talk to United Irish League.

Dublin, May 22.—T. P. O'Connor, M.P., in a speech before the United Irish League of Great Britain, which met here today, said that the political situation created by the convention's rejection of the Irish bill yesterday imposed upon all new and large duties and may necessitate some change of policy.

He added: "Instead of reaching the end of the chapter of Irish misgovernment, we have to open a new chapter. I believe the lords were determined to destroy the Irish bill in any case, but if it had been satisfactory the bill would have marked the closing of a certain chapter in Irish history.

"Now we have to recommence the work, as we have done many times before. There is now imposed on the Irish race the obligation of making a stronger and more energetic struggle than it has ever made before. I believe that the rejection of the bill has not retarded for a single hour the erection in Ireland of a great assembly to administer the laws of Ireland on Irish soil."

Mr. O'Connor was re-elected president of the league.

CHORUS GIRL SENTENCED

PLEADED GUILTY TO KILLING HER HUSBAND

THRUST NAIL FILE INTO HIS EYE, PENETRATING BRAIN

Bridgeport, Conn., May 22.—Catherine Neil, the artist's model and chorus girl of Newy York, pleaded guilty to the charge of manslaughter in killing her husband, Joseph Neil a blacksmith and pugilist, in Greenwyich on December 14th last, at a special session of the criminal superior court today. Judge Wheeler imposed upon her an indeterminate sentence of not more than nine years and not less than five years in the state's prison at the conclusion of a hearing that lasted two hours.

Mrs. Neil retained her composure until the judge imposed sentence after which she collapsed and had to be carried to a carriage, which took her back to the county jail.

She was charged with having killed her husband at a hotel in Greenwich by thrusting a nail file into the socket of his eye, the blade penetrating the brain and causing death within a short time. Mr. and Mrs. Neil had quarreled.

LATEST BEAR STORY

Bruin Attacks Three men, Captures and Carries off one of Them

Tisdale Sask., May 22 — News has been received here of a sad fatality which occurred in the bush near Mistim. While J. H. McIntosh William Hofferman and John Wilson were out about 50 yards from their camp a big black bear espied them and swam the river after them. When within 25 yards of camp the bear charged and two of the men were able to get in and close the door. John Wilson who acted as cook was not so fortunate but he slipped around the back of the building. The bear then attacked the door of the cabin and Wilson coming round from the back fell right into the bear's arms. The bear killed him up against the door of the building, the other two being unable to get out. One of the party put ten shots from a 32 revolver into the bear through an opening in the building, but with no effect. The bear afterwards carried the dead man about 150 yards when he was shot by another party.

COMMANDER SPAIN MARRIED

Ottawa, May 22—Commander Spain was married in New York two weeks ago to Miss Murray of Toronto.

LAWRENCE TRANSFERRED

Winnipeg, May 22.—(Special.)—D. C. Coleman, assistant to general manager Bury, has been appointed superintendent of the Kootenay division of the C.P.R., with headquearters at Nelson. He leaves next week. The transfer was arranged today by general superintendent Busteed, of Vancouver. J. S. Lawrence, divisional superintendent at Nelson, takes a similar position on another C.P.R. division.

INFLUX OF SCOTSMEN

Emigration From Scotland Is Unusually Large This Year.

Shipping Companies Cannot Accommodate All Who Would Migrate - Newcomers Very Fine Class of People.

Winnipeg, May 22.—A special immigrant train bringing 800 Britishers arrived this morning. Of this number the largest proportion are Scotchmen, many of whom are ticketed through to Alberta and British Columbia and other places.

The total number of Scotchmen who have sailed from Scotland for the Canadian west since the beginning of the new year is now estimated at 11,350. The shipping companies doing business at the Scottish ports report that there is a great demand for accommodation, and the season is practically certain to break all previous records. Those who have already arrived say that it is with the greatest difficulty that accommodation is secured on account of the enormous rush.

According to the statistics given, the greatest number who have sailed in one day has reached 3225. The shipping companies are receiving application from all parts of Scotland. The great majority are for steerage berths, although it is being noticed that a far larger proportion of purely imimgrant passengers are traveling second class than did a few years ago. The foreign immigrants still go almost wholly steerage, but the purely Scotch class of immigrants seems to have more money than those who went out from five to ten years ago and to be more desirous of traveling in comfort.

Another promising feature of this year's immigration from the old land is that the new arrivals are mostly steady working men, whose ambition is to better their position. This year the largest numbers have come from Aberdeen, Fifeshire and Ayershire. From the Lewis and northern counties there have come large numbers gathered by agents, it is said, on behalf of the new lines of railway. Of late, however, the difficulty experienced in obtaining this class of labor has increased, partly owing to the lack of accommodation on outgoing ships and also to some extent to the growing impression that Canada has more to offer than ordinary labor and it is better to go direct on to the land.

DOCK LABORERS' STRIKE

MONTREAL'S BIG LABOR TROUBLE NOW AT END

MEN RETURN TO WORK WHEN RANKS ARE DEPLTED

Montreal, May 22—The longshoremen's strike is at an end and 500 of the union men have found themselves out inthe cold. The men were re-engaged as they presented themselves by ones and twos. Men on the outside are now clamoring for the application of the Lemieux act. The loss to the port of Montreal is estimated at half a million. Seeing their ranks depleted by desertion the union and nonunion men held a meeting today and resolved to return to work, deciding at the same time that they would apply tomorrow to have the 1 1-2 cents arbitrated upon. They go back for 27 1-2 cents and the shippers' federation declare they cannot break faith with those already engaged, hence their inability to take all the strikers back before ten days.

EMPIRE DAY AT COAL CREEK

Socker Match Between the Local Team and Michel the Star Feature

(Special to The Daily News)

Coal Creek, May 22—The local literary and athletic association has decided to hold a celebration here on the 24th. One of the principal features of the day will be an association football match, between Michel and the Coal Creek clubs.

As is well known these two teams were in the finals for the Fort Steele Brewing company's cup las fall, when Michel unexpectedly won out by a score of 3-2. The healthy rivalry which exists between the two teams is likely to produce a geen contest. Other branches of sport are well catered for and it is earnestly hoped that the weather will be on its best behavior and ensure the residents of the coal town a day's enjoyment.

ANNIVERSARY OF EXPLOSION

Coal Creek Plant Idle -- Commemoration Services Held in Fernie

(Special to The Daily News)

Fernie, May 22—Traffic was again interrupted on the Fernie branch of the Great Northern railway by a mud slide a few miles west of this town yesterday. The morning passenger train left here on time but was compelled to return and in the afternoon ran out over the C.P.R. to Morrissey, where it made connections with its own system. The slide not only completely covered the tracks, but disorganized the telegraph service, the wires being down for some distance.

Today being the fifth anniversary of the terrible explosion by which 130 lives were lost at the Coal Creek mines, the plant was idle and commemoration services were held in Fernie under the auspices of the local union.

The early closing bylaw came into effect yesterday and all stores except the green grocers, candy shops and tobacconists closed their doors at 6 o'clock sharp. The bylaw, it is unnecessary to state, is much appreciated by the employees. The shops will remain open on Saturday nights, the evenings before all holidays and the pay night of the coal company.

RECEIVED INTO CANADIAN BODY

Galt, May 22—The United Presbyterian church, one of the oldest in Ontario was yesterday received into the Canadian body at a meeting at Guelph Presbytery.

CHILD DIED FIGHTING

REVOLTING STORY OF OUTRAGE AND MURDER

FARMER'S YOUNG DAUGHTER VICTIM OF MURDEROUS ASSAULT

New York, May 22—Amaelia Staffeld, 15 years of age, was outraged and murdered on the outskirts of her father's farm in Elmhurst, Long Island, today. The crime was committed in a lonely spot where the girl had wandered in search of dandelions and the means of her death was the kitchen knife she had used to cut the crowns from the roots of the flowers. The child died fighting. The body was found by Jos. Engel, a farmhand, and was half stripped of clothing and bore evidences of a revolting assault. There were gaping wounds in the throat and the blood smeared knife lay nearby. Word of the outrage spread quickly through the farming section where the girl's father, William Staffeld, a well known farmer, lives and the 200 neighbors gathered about the sheeted form to await the arrival of the coroner, and afterwards formed themselves into a posse. Late tonight the posse had been unable to find the murderer. The police met no more success.

OBJECT TO KIDNAPPING

Detroit, Mich, May 22—At the biennial convention of the switchmens' union, of North America here, a resolution was adopted today protesting against the "kidnapping of Moyer, Haywood and Pettibone and requesting president Roosevelt to use all legitimate means in his power to secure a reversal of the recent decision legalizing the kidnapping.

VERDICT FOR C. P. R.

Vancouver, May 22.—Mr. Justice Martin this morning handed down a decision in Brice vs. C.P.R., a test case for damages as the result of the fatal collision of the Princess Victoria with the tug Chehalis in the harbor last year. The action was dismissed in a lengthy decision, in which it was stated that the Princess observed every precaution demanded.

TO PROMOTE MEXICAN TRADE

Ottawa, May 22—Duke d'Abruzzi, the famous Italian explorer, will visit Canada shortly to look over mining propositions in which he is interested.

Mr. Donnelly, the Canadian commercial agent in Mexico, will be in Canada during July and August to address boards of trade and endeavor to promote an increase in trade with Mexico.

IMPERIAL BANK CAPITAL

Toronto May 22—At the annual meeting of the Imperial bank today the capital stock was increased by five million dollars, practically doubling their capital stock. The old directors were re-elected and $25,000 was voted to the officers' and employees' pension fund.

GERMAN SEAMEN'S STRIKE

Hamburg, May 22—The strike declared yesterday by the Seamen's union is without public sympathy because of the suddenness of the decision, which was taken without awaiting the result of the ultimatum sent to the ship owners.

FATAL HOTEL FIRE

Utica, May 22—In a fire in the Metropolitan hotel early this morning Annie Sullivan, a chambermaid, and Geo. A. James, of Clinton, a guest, were suffocated. A number of others were more or less overcome and there were many narrow escapes.

EXAMPLE WORTH FOLLOWING

Brandon, May 22—Brandon coal companies have decided to amalgamate and build a monster coal shed. It will be built this summer and large enough to hold sufficient coal to last two years. A liberal supply of coal will be laid in this fall.

LUMBERJACKS' FATAL QUARREL

Fernie, May 22—Two employees of the lumber mill at Jaffray quarrelled yesterday and one of them, George Congdon by name, struck the other with an edger knife inflicting a fatal wound. He is under arrest and the victim, whose name is unknown, is in the hospital here.

THIRTY IN FOR CHURCH

Cleveland, May 22—Charles B. Church, an actor of the time of John Wilkes Booth, died here today aged 79 years. After leaving the stage Church became a printer and at one time was reputed to be the most rapid type setter in the world.

SLOCAN'S GRIEVANCE

New Denver Convention Asks Cooperation of Nelson Board of Trade.

Joint Delegation to Wait Upon Local C P R. Officials—Injurious Effects of New Schedule.

(Special to The Daily News)

New Denver, May 22.—The convention here today in regard to grievances against the C.P.R. dropping the daily mail service, was largely attended and was organized as a permanent body until the matter is adjusted, with W. Hunter, M.P.P., as chairman and D. Denis secretary.

A long wire from Coulter, deputy postmaster general, advised an appeal to the Railway Commission. The convention determined, however, to secure the co-operation of the Nelson board of trade, as a public-spirited body which had helped much in the past in the furtherance of Slocan interests. The Nelson board was asked to appoint a committee to meet a Slocan delegation, to have a joint conference with the C.P.R. local officials at Nelson on Thursday next.

It was thought that the object of the convention would be best attained in this manner. A vote of thanks was passed to the Nelson board of trade and The Nelson Daily News for their hearty support in the present troubles as in the past.

(Special Correspondence.)

Slocan City, May 21.—A sample of the wretched service which is now being accorded to the dwellers of the Slocan is afforded by the enforced sojourn here today of the special correspondent of The Daily News. Leaving Nelson at 9:25 this morning, the passenger train, on to which was tacked a long string of freight cars, did not reach Slocan City till 1 o'clock in the afternoon, a distance of 45 miles. The lake steamer was not in sight. It had left for the head of the lake, Rosebery, in the early morning, and might or might not go up the lake again in the afternoon at some indefinite hour. If it did go up it might or might not call in at New Denver or Silverton, but even if it did do so the steamer would take no passengers.

Lively indignation is expressed in the town at the new state of affairs, which only came into being, declaredly without warning, on May 15. During the whole winter Slocan lake has been on the main line of travel from Nelson and Rossland to the coast, shortening the journey, as far as Nelson is concerned, by 12 hours, thereby bringing the C.P.R., in facility and speed of communication, on a par with the Great Northern service to Vancouver and Victoria. Even now, under the new arrangement, the freight coming in from Revelstoke is brought to the Kootenay via Slocan and not the Arrow lakes.

Under the schedule just abandoned passengers from Nelson left that city at 7:30 a. m. and reached Slocan City at the foot of the lake, at 9:20 a. m., one hour and fifty minutes, as against the present three or four hour schedule. The steamer then took the passengers on to Rosebery, at the head of the lake calling in on the way at Silverton, 16 miles from here and at New Denver, four miles further on and four miles short of Rosebery. There a transfer was made to the Nakusp and Slocan branch and at Nakusp connection was made with the Arrow lake steamer runnng on to Arrowhead, where a short railway journey was embarked upon, bringing the passenger to Revelstoke at 5 oclock in the evening, in time to make connection with the westbound passenger train on the main line of the Canadian Pacific.

The through passenger from Rossland was not much helped under this service, as the morning local train between Rossland and Nelson did not reach Slocan Junction until about one hour and a half after the coast train from Nelson, via Slocan lake, had passed by. If, by starting earlier, the Rossland morning local had been scheduled to connect with the coast train at Slocan Junction, under the winter schedule, Rossland passengers like those of Nelson, could have reached the coast the morning after their departure, makin the run in something under 30 hours. By a slight improvement, it will thus be seen that the winter schedule, eminently satisfactory to Nelson and the Slocan, could also have been made to serve at least equally well Rossland, thus embracing the whole of West Kootenay and giving it a very good service to the coast.

But, in its wisdom, or, as it is described here, owing to the newness of the new broom at Vancouver, Mr. Busteed, the C.P.R. has substituted a service which has not improved the condition of Rossland, places Nelson 12 hours further away from the coast and has dealt what the men of Slocan indignantly declare to be an irreparable

A PROVINCIAL BANK

The Victoria Week for some time past has been engaged in a very commendable agitation for the establishment in British Columbia of a provincial bank. The Week's strong point is that the banks now operating in this province are simply draining the province of its surplus cash for the building up of eastern enterprises, whilst British Columbia undertakings are retarded and not infrequently killed outright beause of the banks' refusal to afford reasonable credit.

The Week goes so far as to propose a tax on deposits to prevent exportation of currency. It urges the Victoria members of the legislature to get together and formulate a bill with that object in view, arguing that if lumber requires an export tax, if iron ore requires an export tax, surely the wealth, in solid cash, of the people of a growing and still struggling community like British Columbia, requires safeguarding. This is a drastic remedy, but the situation is an extreme one, and it is an old proverb that desperate diseases require desperate remedies.

EDITORIAL NOTES.

Slocan people are advised that nothing useful is likely to be obtained in the direction of improving their mail service by holding indignation meetings. This is a plain intimation from the C.P.R. that Slocan people must accept what is given them without a murmur. The C.P.R. is very fond of dictating to those who do not approve of everything that corporation does. The Daily News received similar intimation from C.P.R. sources in regard to its complaint against the news service supplied by the telegraph end of that powerful institution. We were told to stop kicking or a terrible fate would overcome us. The people of the Slocan are plainly given to understand that if they continue to kick against the new mail service they can look for no betterment. This is a free country and it is a Britisher's privilege to kick. Our advice to the people of Slocan is to keep right on kicking until they secure what they want. It is morally certain that the C.P.R. will do nothing unless compelled thereto by an indignant public. We can assure the Slocan people that Nelson board of trade will rally to their support and that no effort will be spared on the part of the independent citizens of Nelson to help Slocan secure redress of a very burdensome grievance.

The Canadian Mining Journal says, editorially: A persistent attempt is being made to boom the Larder lake district. In view of the prestige attaching to mining in Ontario because of Cobalt's great showing, it is not unlikely that many small investors will be induced to risk their money in one or other of the extravagantly advertised concerns which have been recently floated. At present, although something like 4,000 locations have been staked out in the district, no development work of importance has been done and consequently the only foundations for the assumption that the area is a rich one are the newspaper reports of valuable finds and the publication of assay returns in propectuses, which may mean anything or nothing. As a sample of the absurdities now being published by the daily press, we cut the following from a Montreal evening paper:

"One prominent mining man of large experience in the different gold camps of the world, after visiting the camp, stated this could hardly be termed a mining camp at all, that it more nearly resembled a large manufacturing industry, with sufficient raw material on hand to run for centuries. The question in his opinion, was simply one of the capacity of the machinery, and the amount of gold bars turned out would be limited only by the size of the plant for treating the ore."

How men of ordinary intelligence can possibly be influenced by such obvious nonsense as this baffles explanation. And yet the fact remains that it is just this sort of thing that the public will swallow without so much as winking.

GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself but I took Chamberlain's Cough Remedy and was soon as well as ever. For sale by all druggists and dealers.

SLOCAN'S GRIEVANCE

(Continued From Page One)

blow to the now improving fortunes of the pioneer district of the Kotenays.

Passengers from Nelson and Rossland now do not go to the coast via Slocan lake, but are taken over the Arrow lake route. From either place travelers must leave at night time, and reaching Robson, at the foot of Lower Arrow lake, simetime before midnight, are transferred aboard one of the C. P.R. steamers, sleep on the vessel and are taken up next morning to Arrowhead, calling at Nakusp on the way.

But Slocan lake people, under the new schedule, are utterly demoralized. There is a daily service, as far as this town is concerned, between here and Nelson and Rossland, which, however, it is feared locally may be shortly cut down to a tri-weekly system. But the steamer, although daily running, will only take passengers and mail on Mondays, Wednesdays and Fridays. Even if it were to do so, the same difficulty would be experienced at the head of the lake, at Rosebery, inasmuch as the train service between Rosebery and Nakusp only runs on Mondays, Wednesdays and Fridays. On these three days, therefore, passengers from Slocan lake points can get through to the coast on the following day, as under the recently abandoned winter schedule. In order to do this, however, they must leave this point by the early morning boat for Rosebery in order to make connections with the Nakusp and Slocan railway train. Thus the Nelson passenger is barred out, for his train could not reach Slocan City till midday and past, and though the boat would take him up in the afternoon to either Silverton or New Denver, there would be no train to meet him at Rosebery and he could therefore get no further for the next two days: or, if he made his trip on a Friday, not for the next three days. Hence a wholesale or commercial traveler would have to make a two-day sojourn at points where his whole business could probably be transacted in a few hours.

Sandon and Three Forks, points quite as important as Silverton and New Denver and Rosebery, come out even worse under the new tri-weekly service. A glance at the map will perhaps be necessary to thoroughly grasp the situation. The Nakusp and Slocan line runs between Nakusp and Sandon, making connection with the lake service at Rosebery. Three Forks and Sandon, the latter being the real terminus, lie beyond Rosebery. From the time of the beginning of this little line, which is subsidized by the government, a daily service except one year was run backwards and forwards. Sandon was left in the morning and a call was made at Rosebery to connect with the morning steamer from Slocan City, the train then going on to Nakusp, where connection was made with the service from Nelson and Rossland up the Arrow lakes. In the afternoon this train ran back to Sandon, again calling at Rosebery on its way. When the winter schedule, a greatly improved service, was inaugurated, no difference was made to Sandon. But now that the winter schedule is abolished, the old service is not reverted to. Instead, a tri-weekly service is substituted. Nor is this all. The cars no longer stay in Sandon over night. The train gets in from Nakusp at an indefinite hour, its departure thence depending on the arrial of the southbound steamer from Arrowhead, and stays in Sandon about 15 minutes, returning at once to Rosebery, where it stays over the next two or three nights, as the case may be. Hence a passenger from Sandon to the coast must leave Sandon on either Monday, Wednesday or Friday night, and he will that night get as far as Rosebery, 14 miles on his journey, but cannot get any further for the next two days, three if Sunday intervenes. Thus his journey to the coast will now take three days, whereas it formerly took barely over one. Similarly the journey to Nelson will now take two days, whereas it formerly took eight hours.

The Sandon man can try to get out via Kaslo, but even in that case he may have to stay over a night in Kaslo.

Take the case of a letter written this afternoon from Slocan City to a business man in Sandon, requiring immediate reply. It would reach Sandon on Wednesday eening. Unless replied to within 15 minutes, an impossibility, the answer would not reach Rosebery till Friday evening, and as on Saturday and Sunday there is neither a mail nor a passenger service, the reply would not reach Slocan City till the following Monday evening, after business hours, involving a week for a reply to a letter sent to a place 25 miles away as the crow flies or 34 miles as routed. If the letter were written from Nelson on the same date, no reply ould be had on this route until Wednesday, May 29.

The same remarks apply to a business man wanting to pay a business visit to Sandon.

A passenger from Nelson to get one hour and a half in New Denuver must spend one night at Slocan City, but should he find that his business could not be transacted within that limited time he would be obliged to spend two nights on his journey. And even this apology for a service could only be used if made avail of on three days in the week.

Even the resident on Slocan lake is hampered in getting to and fro. On the three days in the week when a passenger boat is run, there exists a twice-a-day service, but on the other four days there is no passenger service whatsoever, despite the fact that the steamer is hauling cargo just the same and is delivering it and shipping it at Silverton or New Denver if billed there or from there. Heretofore there has always been a twice-a-day service on the lake.

In 1905 there was a tri-weekly service on the Nakusp and Sandon railway, but, according to the provincial public accounts, never did the gross receipts on the line drop as low as in that year.

The above are the facts that will be presented by the delegates to the meeting which will be held tomorrow at New Denver, and it may be said that the Slocan has apparently awakened out of its lethargy of recent years to denounce publicly the new schedule, which it is declared will have the effect of entirely ruining the new impetus given to business in this district. There are more properties now opening up than has been the case for the last four years, and moreover there is quite a large number of ranchers taking up land in the Slocan valley, to say nothing of the increased output of the lumber mills. Public opinion here is a unit on the matter, which will certainly be pressed as far as possible.

A Desirable Home from Every Standpoint

Situated on Silica street; one of the prettiest locations in the city; has fine view of the lake; only two blocks from Baker street.

SUNSHINE FURNACE

UNBREAKABLE FIRE-POT

The lower portion of a fire-pot is usually nearly or partly filled with dead ashes, leaving the live, red-hot coals in the upper part. The result is that the upper portion expands much more than the lower.

This uneven expansion causes a strain too great for a one-piece fire-pot to stand. Sooner or later it will split, allowing precious heat and sickening gases to escape.

But the fire-pot of the Sunshine is constructed to meet this condition. It is in two sections. The upper half expands, as much as necessary, independently of the lower. When cool, it contracts back to its original size, fitting to the lower half perfectly.

And this strong, unbreakable, gas and heat-tight, two-piece fire-pot is just one of the many superior features of the Sunshine.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

KASLO'S CELEBRATION

KUSKANOOK WILL TAKE UP LARGE LOCAL CONTINGENT

MEDICINE HAT AND NELSON WILL MEET AT LACROSSE

Kaslo has prepared a most attractive program for its annual celebration of Empire day, tomorrow, and the C.P.R. has made ample arrangements to take care of the big contingent from this city, by placing the palace steamer Kuskanook on the route for the day.

The Kuskanook with the city band on board, will steam out for Kaslo and way points tomorrow from the city dock at 8 a.m., arriving in Kaslo at 11 o'clock. The boat will leave Kaslo at 7 p.m. on the return trip, reaching Nelson at 10 p.m. This latter arrangement will be positively adhered to.

A special service from Trout Lake City will start at :30 a.m.; Gerrard 7:10; Argenta, 8:30; Lardo, 9:10, reaching Kaslo at 10:30 and leaving again in the evening at 7:30.

One of the chief attractions at Kaslo will be the lacrosse match between the Medicine Hat team and Nelson. An exceedingly hot game is anticipated as both teams are in good condition and keen to win, Nelson and Kaslo will meet at baseball and in addition there will be lumbermen's contests, rock drilling, trap shooting, Caledonian sports and other events. Two bands will be in attendance and a grand ball in the evening will wind up the celebration.

MICHEL MINERS

Why They Did not Return to Work Under The Last Agreement

Editor The Daily News—With your kind permission and some space in your valuable paper, I would like to refute a statement appearing in that weighty sheet, known as the Fernie Ledger, of last week. It would appear as though the Ledger, acting, presumably, as the official organ of some of the miners, should give special attention to the veracity of its correspondence before issuing anything that is detrimental to another section of the miners, through the inaccuracies of mere rumors.

The article I refer to, deals with the action of Michel men in refusing to return to work on the signing of the new agreement by the district officers. The inaccuracies will be obvious even to the Ledger if I refrain from discussing the action which led to the suspension of work, but confine myself to results. We were practically ordered back to work on a basis, so far as Michel was concerned, very much worse than offered to us at Calgary by the operators' association. The Crow's Nest Coal company agreed to do then what they are not required to do now under the signed agreement; viz., to carry all timbers, etc., to the face or thereabouts for the miners; a great concession when it is known that it is necessary for safety to use sets of timber, three pieces, every two or three feet, varying in length from 12 to 16 feet and in diameter from 6 to 12 inches; these timbers being carried by the miners in some cases nearly 300 feet up the pitch. Why this concession was annulled has never been explained to the Michel miners. We also contended that the advances granted were not commensurate with the increase in the living rates.

The Ledger explains at some length that the miners suffered no reductions; it is really too bad it could not announce some. If the miners were able to exist on fresh air and mountain scenery, then probably they could manage; but salubrious as these may be, they are not sufficient to live on. The Ledger also states that the Crow's Nest Pass Coal company refused to recognize the new union, that the friends of organized labor will be pleased at the action taken by the company. How nice to hear these encomiums from the Ledger towards the Crow's Nest Pass Coal company. Who will doubt the plausability of the lion and the lamb story after this?

Now, as a member of the committee who invited superintendent Drinnan to Michel the Ledger was the first to inform me of an attempt to form a "New Union" at the Michel mines. What actually transpired was this: Superintendent Drinnan informed us that the deputy minister of labor, together with the district officers, guaranteed that the men would return to work after this agreement was signed up and that we had not complied, and demanded why. We simply informed him that the deputy minister had no jurisdiction over us, and unfortunately, the district officers had very little at this time. Did that signify a "New Union?" We had by two telegrams invited president Sherman to take part in this discussion. Did that portend a break away?

President Sherman told the Victoria Colonist that the situation at Michel was due to "personal feelings." Let me say in my opinion if those against whom president Sherman throws his inuendoes had desired a break, it would most likely have taken place. But they knew that the International union was not responsible for the state of affairs and the Michel men tried locally to remedy its grievances and failed.

I am not personally vindictive, but I would be pleased to see Mackenzie King and Sherman working under the conditions they have consigned the Michel miners to work under.

Again; if Sherman can explain why more men have quit Michel since the settlement than during the suspension, I will undertake to explain why Michel men refused to return to work before making an attempt to do for themselves what the district officers failed to do for them, and which all fair minded men must agree was only justice. However, we are informed that we will find redress in the laws of B.C., the district officers having had legal advice on this question. If we failed to get the law of B.C. recognized in the agreement, we miners of Michel fear our chances are slim of our doing so afterwards. As regards all this legal advice we get, we believe it is like Hades, the less we hear of it the better we are for it. It is said now that the miners and operators have settled down to two years prosperity and fictitious figures are brought forward to show how much the miners have earned in the past, and the great Canadian public is led to believe that this agreement signifies continued better times, whereas conditions have altered enormously in Michel since the last agreement was signed. For instance, Safety lamps have displaced the open lights, blasting of coal has been prohibited in a majority of places, etc., which in older mining regions are paid for with their various differentials, but which here tend to reduce the earning capability of the miner.

What, then, is the position of the supposedly affluent miner? He finds his living rates growing higher and his wages growing less.

Manager Lindsey of Fernie, addressing the Calgary club, during the convention, promised to protect this great Canadian public (of which the miners seem to form no part) and would not raise the price of coal. He was cheered vociferously; but how does it work out. About 5 per cent of the men in this district have received a 5 per cent advance, and the public is taxed 15 per cent advance per ton for their coal. I have no doubt, however, that this public blames the miners for this increase.

What are the other "Canadian Captains of Industry" doing? Pat Burns says, 3 cents a pound advance for his beef, the first of a very marked advance; Ogilvie and company say 20 cents per sack extra for their flour. Are you surprised then, if the miners sit up and ask questions?

Reverting back to Sherman's statement that it was "personal feeling" that was responsible in Michel for the insubordination. What about his famous threat, "a substantial increase, or good-bye U. M. W. of A.." It seems to me that some of our leaders think that every time they drop off at Michel or elsewhere, the miners ought to drop on their knees and cry "Allah," and that when they tell us anything we ought to murmur "Caesar ipse hoc dixit, ergo verum est." But I am pleased to say we have a class of men in Michel who do not intend to relinquish the privilege of thinking for themselves, and whose credulity is hardly so apparent as some think it is, or who would like it to be. If a proposition is put before them which seems proper and feasible, they do it, but they refuse to be "crammed," and for having the audacity to dispute the infallibility of certain persons in office, they are to be black-balled by the Ledger.

Hoping that I have shown that Michel was not actuated by any personal animosities, I think you for your space, upon which I hope I have not presumed too far. Respectfully yours,

JAMES DOUGLAS.

Michel, May 20, 1907.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened, it is pleasant to take. For sale by all druggists and dealers.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Deputy of the Minister of the Interior

Apply F. G. Fauquier, Needles, Arrow Lake, B.C.

MULOCK GIVES ADVICE

PUBLIC SHOULD LAY IN ADVANCE SUPPLY OF COAL

WOULD BE HELPFUL TO BOTH MINE OWNERS AND MINERS

Winnipeg, May 22.—Sir William Mulock in an interview today said:

"The coal industry of Fernie has been subject to certain interruptions, which have at times greatly inconvenienced the public. But much, I think, can be done by the exercise of prudence on the part of coal consumers to minimize the inconvenience arising from interruption to the regular supply of coal. For various reasons it is the custom of the mines in the Fernie district to mine coal only in sufficient quantities to fill the cars awaiting loading. If the car supply ceases or is reduced, mining stops or is also reduced. *If at other times there is a surplus of* cars, the mines cannot instantaneously increase their staff of miners. Consequently they cannot take full advantage of the transportation awaiting them at the moment.

"At some of the mines, owing, I am told, to the conformation of the ground, it is difficult to provide storage facilities for coal mined and waiting shipment. Thus heretofore a hand-to-mouth policy has been pursued, no coal being supplied in advance of immediate demands. Consequently any interruption in the supply has been immediately felt by the public.

"This method of doing business is hazardous to the public interest, as well as injurious to the mine owners and miners. When the cars at the mines awaiting coal are insufficient to take away the ordinary possible output of the mines, there is a corresponding reduction in the quantity mined, and when there are no cars, mining operations come to a standstill. Because of this method of conducting the business, *the miners on an average lose* several days' pay per month, a very serious loss to any working man. The mine owners are also seriously prejudiced.

"Much could be done by the general public not only to save themselves from the inconvenience arising from a shortage in the coal supply at any particular moment, but also to save the mine owners and miners from loss, by laying up a reasonable supply of coal in advance of actual requirements.

"It is very improbable that the mines will be able at all times to send out daily a sufficient quantity of coal to meet the daily wants of the public, to say nothing of the interruptions which are liable to occur owing to the breaking down of machinery, explosions and other uncontrollable causes. Therefore I think it would be well for the coal dealers at all times to have a reasonable supply for the winter use."

BETSY BOBBET CLUB

Highly Interesting Performance at Yellaway Hall This Evening

It has been the custom in the past for the boarding pupils at St. Joseph's school, who are known to their friends as the "Betsy Bobbet Dramatic society," to give from time to time an entertainment for the Sisters and invited friends, in order to demonstrate the progress made by the scholars in vocal and instrumental music, elocution and physical culture.

One of these delightful performances will be given this evening in "Yellaway hall" to invited guests. Appended is the program:

Chorus of Welcome, the Club.
Opening address, Janet Adie.
The Secret," humorous dialogue, Misses Janet Adie and Wanda Hooper.
Song, Young Housekeeper, Miss Ida Julien.
Piano solo, selected, Miss Ruth Stanton.
"In Want of a Servant," scene 1; Mr. Marshall, Miss Ida Julien; Mrs. Marshall, Miss Laura Thorp.
Piano solo, "La Madonna," Miss Hazel Lund.
"In Want of a Servant," scene II; Dutch lady Miss Von Vollenstein, Miss Edith Lund. Irish lady, Miss O'Finnagan, Miss Ruth Stanton; colored lady, Snowdrop Washington, Miss Hazel Lund; Mrs. Bunker, A widow lady, Miss Ida Julien; Jennie, Mrs. Bunker's daughter, Miss Janet Adie.
Piano solo, "Appeal to the Emigrant," Miss Edith Lund.
Tableau, "Last Glimpse of Erin."
Recitation, "Very Small Girl," Miss Edith Lund.
Song, "The Bogie Man," Miss Wanda Hopper.
Twilight Serenade, march and action song the Club.
Recitation, Epilogue, Miss Hazel Lund.
Closing chorus, the Club.
God Save the King.

Minard's Liniment Lumberman's Friend

RELIEF FOR RHEUMATIC PAINS

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman of Key West. "Sometimes it settled in my knees and lamed so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the pain away. I have not had any trouble from that disease for over three months. For sale by all druggists and dealers.

MUST DISPLAY LIGHT

Launch Club Takes Action and Request Prosecution—Wells Is Captain.

At a meeting of the Kootenay Launch club held yesterday afternoon in the city hall, it was decided to request the collector of customs to prosecute all launch owners out in launches after sunset without the regulation white, red and green lights, as it is apparent that serious loss of life will certainly occur unless lights are carried.

Owners of launches should remember that, quite apart from the great danger to life and property caused by their neglect as to lights, they are liable for all damages if they run down any craft when not carrying proper lights; those damages in case of loss of life would be very serious.

Users of small boats should also remember that when not carrying a light they have no remedy for damages against a launch carrying lights.

George P. Wells was elected captain of the club.

Buy Burton City Fruit Lands

AND GET THE BEST IN THE KOOTENAYS

This land is level and free from stone, located along the shore of the beautiful Arrow Lake and only one mile from Burton City. I have 1250 acres which I will sell wholesale or subdivide. It will pay you to see this before you buy.

The large C. P. R. steamers call twice a day. Good neighbors. Close to fine orchards. The Arrow Lakes are 350 feet lower than Kootenay Lakes, which insures permanent success in growing fruit and in no part of the Kootenay is there such opportunities for hunting large game. Only 14 miles from Burton City, on Goat mountain, is located one of the largest herds of mountain goat known to the sportsmen of B. C., while on the opposite mountain deer can be seen at any season of the year and one of the streams running through Burton Valley is called, Trout Creek on account of the quantity of fish caught there. Burton Valley is the home for wild fruit. Wild cherries, wild crab apples, raspberries and wild strawberries, are fast being replaced by cultivated orchards.

Get my prices on this land now as they will advance soon

TO WORKINGMEN NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present employed, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81, of the W. F. of M., reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SANDON MINERS' UNION
A. SHILLAND, Secretary.

The Hoover Home

One of the most scenic locations on Kootenay Waters is for sale

The property comprises about 130 acres of timber and fruit land, having half a mile of lake frontage directly *opposite Nelson.*

The central portion of about 100 acres with buillings, fruit trees, flower gardens and living springs thereon, will be sold as a whole, leaving the extensive lake frontage to the north and south, which I will offer in acre subdivisions. For price and terms apply at my home.

NELSON'S NEWS OF THE DAY

The general delivery at the local post-office will be open from 10 until noon to-morrow.

Eight letters are at this office for "K.S." three for "P," and one each for "X," "Rancher," "H.O." and "H.H."

Nelson Temple No. 10, Pythian Sisters, meets in the K. of P. hall, Vernon street, *this evening. All members are requested* to attend.

Col. Dowker, father of Mrs. F. H. Graham, arrived in the city yesterday and will make his home with Rev. F. H. and Mrs. Graham for an indefinite period.

Harry Wright received word yesterday that the Medicine Hat lacrosse team would arrive here tonight en route for Kaslo, where they will play Nelson tomorrow.

There will be a special practice of St. Paul's church choir this evening at 8:30, after the congregational prayer meeting. The change from Friday evening is necessitated on account of the holiday.

The Ladies' Hospital aid have presented the Kootenay Lake general hospital with a dozen handsome bedside tables, designed and made in this city. The gift is greatly appreciated by the trustees and the patients.

At the mining recorder's office on May 22, *a certificate of work was granted to* Harry Rippin on the Crumlin, to apply on the Pearl. Harry Rippin recorded the location of the Pearl fraction on Sandy creek.

Mrs. Laughton carried off the popularity prize at the Twenty to One club's dance, winning a handsome opera cloak. *The dance was a success, a net profit of* $40 being realized for the library in Miners' union hall.

Wolverton and company put through two sales yesterday: Joseph Gilett to Albert A. N. Johnson, 5 room house on Latimer street, price $1750; H. H. Avery to N. Wolverton of Brandon, house on Carbonate *street, price $3500.*

A local high authority on educational matters has confided to The Daily News that with reference to hens, a "sitting" is correct and a "setting," the reverse. It appears that the hen "sits." The bird is "set" on a "sitting." Will advertisers and the general public please note.

L. McClure John, a lately arrived Englishman, with plenty of capital, and deeply impressed with the possibilities of fruit farming in this neighborhood, yesterday purchased through Toye and company, Woodward's ranch of 17 acres at 13-Mile. Mr. John will settle down on the property and make his home there.

Given fine weather tomorrow and an enjoyable trip is assured all who attend the Kaslo celebration on Empire day. Nelson should be well represented to witness the Medicine Hat-Nelson lacrosse match and the Kaslo-Nelson baseball game, in addition to the other attractions offered for the day. It is to be hoped that all members of the 20,000 club present will wear their buttons or flags. For those unprovided the secretary who will go up on the steamer, will have a supply.

A meeting of Court Kootenay No. 3462, I.O.F., will be held in the I.O.O.F. hall tonight for reorganization and election of officers. A few sojourning members are putting in their cards and many new members are to be initiated by J. Irvine, the organizer. A large attendance is expected both of members of this court and those residing in the city and belonging to courts elsewhere. A cordial invitation is extended to all Foresters to attend this meeting and help the good work along. The meeting will be opened at 8 o'clock.

Gold commissioner Harry Wright has had the approach to the present court house nicely levelled off and sodded, the grass sods coming from the old courthouse grounds. Mr. Wright has made an offer to the city council which undoubtedly will meet with public approval if carried out. Mr. Wright agrees to get the interior of the building thoroughly done up and put to rights if the city will paint the exterior. The building occupies such a prominent position now and is visited by so many people that the council should *jump at the offer, especially as the city* will own the building outright in a couple of years.

Rev. Henry Steele of Grand Forks who was here yesterday attending the executive meeting of the Anglican synod told The Daily News some particulars of the International Clericus, to be held at Van*couver during the first week in June.* All the bishops and most of the clergy of the western Anglican church will be present and a large atendance is looked for. Many papers will be read, including one by the rector of St. Saviour's church, and animated debates on live subjects will take place. These meetings are held annually, alternately on either side of the line and *from small beginnings* have steadily grown in importance and in attendance.

The Victoria Week, for obvious reasons, should be well posted about Nelson even if other coast papers are not always well informed, yet the Week indulges in crocodile tears over what it is pleased to term "a setback for Nelson." This foolish statement is based on the announcement that the city engineer has issued a notice to water motor users that such motors must be discontinued after June 15. The reason for the move set out in the same engineer's notice, that the city will supply electricity in place of water power, is ignored. The item includes the statement that Nelson "lacks an adequate combination of capital and brains." If the writer in the Week had used ordinary care in composing his item he would have grasped the situation and credited Nelson with an advance instead of a setback.

A meeting of the executive of the synod of the diocese of Kootenay was held in St. Saviour's Parish hall yesterday afternoon, presided over by Archdeacon Beer of Kaslo. There were present Revs. C. A. Procunier, Revelstoke; F. H. Graham, Nelson, and Henry Steele, Grand Forks, and J. M. Lay, C. W. Busk, George Johnstone, F. Irvine and E. A. Crease. The committee brought the diocesan work of the year up to date and prepared the annual report which will be presented to the synod at the next meeting, which will be held at Vernon on June 12 and 13. The handsome new church at Vernon will be consecrated at a special service on the evening of June 11. The executive also decided to open *a new parish consisting of Wardner, Elko* and Fort Steele, the last named to be the centre point. A clergyman will be installed as quickly as one can be obtained.

A splendid showing of LADIES' FANCY PARASOLS

The first shipment of these goods arrived a few days ago and they are without doubt the prettiest goods in this line shown this season. Having bought these goods late we were able to procure prettier and newer styles than shown earlier in the season They come in extremely pretty patterns on light grounds, some in plain white silk and linen, some in embroidered linen and also in navy and black silk. PRICE $2.50 to $20.00.

Children's Parasols at $1 and 1.25 each

A very pretty selection of Parasols for the little Miss. They come in white, pink, cardinal and sky, also fancy spotted muslins Extra good value at $1.00 and $1.25 each.

Ladies' Muslin Underskirts

A full range in lace or embroidery trimmed; made of good quality cambric with lawn flounce and dust ruffle. A splendid wide skirt at $1.50 to $5.00.

Agents for Standard Patterns — Madden Block, Baker St.

YUKON FRACTION

Work of Development Nearly Finished. New Tram Almost Ready.

Patrick Daly, of Ymir, told The Daily News yesterday that 700 feet of work had been accomplished since February 15th last on the Yukon fraction, at Ymir, under bond to Stiles Bros., of Sattle. The development done is a continuation of the work originally commenced by the owners, and consists of three tunnels. The work on numbers 2 and 3 has the object of proving up the work on number 1. Development so far has encountered large bodies of ore, and the showing on number 1 has not yet been reached. To reach the showing on the number 1 tunnel at depth, about 200 feet more work will have to be done on number 2, and about 400 feet on number 3. When this last work has been completed the showing in number 1 will have been satisfactorily proved to a depth of 500 feet. Another object for the work in progress is the opening up of the adjoining Yankee Girl property, which has the Yukon ledge. Grobe & McLeod, who own this claim, have been running rights ovr the Yukon tunnels.

A new tramway on the Yukon is nearly completed. It has a daily capacity of 100 tons, and when finished will deliver the ore from number 3 tunnel to a point on the Dundee wagon road about one mile from Ymir, cutting out the hill and reducing the cost of ore transportation 50 per cent from the present price.

NEW PORT OF ENTRY

Kingsgate on International Boundary, on Spokane and International Railway

(Special to The Daily News)

Kingsgate, May 22—The above is the name of the new port of entry at the international boundary on the Spokane and International railway. There is no*thing of a town here yet, but there is con*siderable activity in the building line. A fine new hotel is being put up by D. J. Elmer, backed by good financial interests, which will be a great accommodation to travellers over the new line, which proes to be the favorite line of travel both to and from the United States. There is only onne train over the road now, *which arrives here about noon and makes* connection with the C.N.R. trains running both east and west.

About June 15 a new through train between Spokane and St. Paul will be put on, which is likely to be the fastest between east and west. By it close connection will also be made with Portland.

The dominion government is putting up *an examining corral* and stable for live stock, and a large force of men under Mr. Burns is pushing the work ahead.

Mr. Dinnock, customs officer here, having resigned, has just been succeeded by A. R. Chisholm of Moyie.

Dr. Hugh Watt of Fort Steele is at present examining the twins as an officer of the department of public health.

A postoffice and public school are much needed.

OLD PARLIAMENTARIAN DEAD

London, May 22.—Rt. Hon. George Henry Finch, known as the "Father of the House of Commons," having represented Rutland in the house for 40 years, died at his residence, Burley-on-Hill, Oakham, Rutland, this morning. He was born in 1835, and in politics was a conservative.

FOUND DROWNED

Chinaman Meets Fate in Icy Waters of the Lake—Upset Canoe

Lum Kee, a 25 year old Chinaman, in the employ of T. M. Sturgiss, at the latter's ranch at 3-Mile, met an untimely death by drowning yesterday morning.

Mr. Sturgiss, who gave the deceased a high character as a steady, industrious workman, said last evening that he last noticed the Chinaman at 11:15. Later he noticed that one of his skiffs had broken *away and had caught in the bushes along* the bank; he further found an upturned old canoe that had been placed along the boat landing. Lum Kee was called but no trace of him could be found and Mr. Sturgiss called in his neighbor, rancher Foster, and the two righted the canoe, but could find no trace of the Chinaman. Word was sent to gold commissioner Wright *and, in the absence at Greenwood of the* provincial police, W. F. Hamilton was sent to the scene in Lindsay's launch. The body was found about 5:30, at a distance of 20 feet from shore, in some six feet of water.

The remains were brought to D. J. Robertson's undertaking rooms and Dr. Arthur summoned. It is unlikely that an *inquest will be held. The funeral* will take place tomorrow.

Mr. Sturgiss said the deceased had been in his employ all winter. He had unquestionably seen the skiff adrift, gone after it in the canoe which had upset and Lum Kee met his fate quickly in the icy waters of the lake.

ONE CAUSE OF INDIA'S UNREST

Lahore, British India, May 22.—A Hindu revolutionist, who aroused the fanatics of the Punjab into a state of great excitement by circulating the statement that the alleged plague did not exist and that the 1,000,000 deaths attributed to it were really caused by the poisoning of drinking water by emissaries of the government, was today sentenced to two years 'imprisonment. An accomplic, who dropped harmless balls into the wells, claiming that he did so by order of the government, was condemned to 18 months' imprisonment.

NELSON'S NEWS OF THE DAY

Born, to the wife of W. W. Harris, a son, May 22.

I. C. Schermerhorn of Cranbrook, and O. B. N. Wilkie, surveyor, Trout Lake City, are visiting the city.

The Methodist choir will give a concert in the church next Wednesday evening, the program for which will be announced later.

Today is Empire day at the city schools and this afternoon will be principally devoted to a review of the British empire past and present. At the close of school today children and teachers will unite in singing the National Anthem.

Sunday will hereafter be a dry day at Trail. The police and license commissioners have decreed that hereafter all saloons and hotels must close their bars on Saturday night at 11 o'clock and remain closed until 1 a.m. Monday.

A small tin can, carefully wrapped with canvas and marked "ashes of the dead," passed through the local postoffice last night on its long trip to a little village in India. The packet contains some of the bones and ashes of the late C. Singh, a Hindu, who died recently at Grand Forks, and whose body was cremated there. Pall Singh, a brother, sends the packet. There were 33 cents of postage on the parcel.

The ladies of Nelson will read with interest the announcement in another column that the Belding-Paul Co., Ltd., is opening a class in the K. of P. hall next week for free instruction in art needlework. These lessons are to be entirely free and every lady in Nelson is welcome to attend them. The arrangements for these classes has been made by Fred Irvine and Co., from whom further particulars can be obtained.

The funeral of the late Edward Daly of Montreal, who died on Sunday last at the residence of his son, Patrick Daly, in Ymir, took place yesterday morning at 8 o'clock from the church of Mary Immaculate, Rev. Father Abbott reading the mass. The chief mourners were the four sons of the deceased, Patrick, John, Edward and James. The pall bearers were Thomas Madden, Robert Madden, Henry Cody, T. Boyer, Hugh Hyland and John Ryan. The interment took place in the Catholic portion of the city cemetery.

Local agent Douglas of the Great Northern, received word yesterday that the new midnight service between this city and Spokane, would come in force on Sunday, June 2. Asked if there would be a stub day service between Nelson and Northport, Mr. Douglas said possibly but it had not been arranged for. As already announced, on and after Sunday week the train will leave Spokane at 4 p.m., reaching here, when on time, between 1 and 2 in the morning, while the southbound will leave here at midnight.

In order to permit of city solicitor Macdonald getting away on his holiday trip to England yesterday, a special meeting of the city council was held about the time the Daily News was going to press, and the settlement of the W. K. P. and L. company's litigation was reduced to writing, and duly executed by the city and the company. This was the result of the conference commenced earlier on the previous evening and referred to in yesterday's issue. The original understanding as published, has been carried out. All proceedings are dropped and each party pays its own costs. No reference was made to any claim for alleged damages by Messrs. Tierney and McBeath.

FIRST COPPER MATTE EXPORTED

Sydney, N.S., May 22—The first exportation of copper matte in the history of the maritime provinces was made from Pictou smelter at Pictou today. The shipment, which was billed to a New York refinery, consisted of 25,063 pounds of matte, possessing an average assay of 50 per cent, yielding about 12,531 pounds of pure copper. The net price of the article is 20 cents per pound.
