FIGHT STARTS

Mr. Goodeve Presents Issues to Electors

MEETING AUGURS SUCCESS

LARGE AND ENTHUSIASTIC AUDIENCE IN YOUNG CONSERVATIVE CLUB ROOMS LAST EVENING — GOVERNMENT'S ATTITUDE ON JAPANESE QUESTION

The campaign in Nelson in the interests of A. S. Goodeve, conservative candidate for Kootenay for the house of commons, was opened last night by a most enthusiastic meeting in the club rooms of the Young Men's conservative which proved one of the most successful events of its kind that has ever taken place in the city. In point of attendance and in point of interest it was a meeting of which the club may well feel proud.

The club rooms have recently been tastefully furnished and were also very nicely decorated for the occasion with flags and festoons; and several beautiful bouquets of flowers adorned the table, behind which the chairman and speakers sat.

The meeting which listened to the eloquence of A. S. Goodeve was pervaded by an enthusiasm, a feeling of cheery optimism and a confidence that argues well for the outcome of the contest and spells success.

For over an hour and a half Mr. Goodeve held the attention of his audience, with his eloquent arraignment of the record of Sir Wilfrid Laurier and his administration.

Prominent amongst those present were: R. S. Lennie, D. C. McMorris, W. H. Bullock-Webster, E. C. Wragge, Norman Macleod, J. P. Paxton, W. E. McCandlish, J. L. Porter, J. D. Anderson (Trail), Fred. Starkey, J. E. Annable, and a host of others.

President Charles Sewell occupied the chair and Fred. E. Bell acted as secretary.

R. S. Lennie, who has been for many years chairman of the Conservative association, upon being called upon by the chairman, introduced Mr. Goodeve to the audience.

Upon arising to address the audience the conservative champion was greeted with hearty applause. He congratulated the Young Conservatives on their handsome quarters and bore testimony to the fact that similar clubs were being formed all over the riding for the purpose of redeeming it from liberal misrule.

He first desired to speak of a personal matter. The liberals, rather than discuss the political issues, chose to try and drag in a side issue. When he was mayor of Rossland in 1900 there were differences between the men and the mineowners. For this the mine manager was to blame and he was now out of the country. This manager persuaded his directors to ask the magistrate to appoint special constables to watch the mines. The magistrates were appointed by the government, and at that time Hon. Joseph Martin was attorney general and John Boultbee, a liberal, was magistrate. It was these two who caused these specials to be sworn in. Although he was mayor at the time he knew nothing about the matter.

The provincial elections came on and Smith Curtis ran. Owing to the feeling at the time Mr. Curtis tried to place the responsibility on him, but failed. Attorney general Martin also tried to convey the idea that Rossland was in a state of riot, which was false. As far as the strike went, that was not till six weeks after he had ceased to be mayor.

Mr. Goodeve told the audience that he felt it his duty to lay the facts before them and to do so would produce all the documents relating to the matter and this he did. The strongest reputation of the insinuations and charges made, however, lay in the fact that P. R. Macdonald, the present labor mayor of Rossland and at the time of the strike prominently identified with the Miners' union, was at the very hour speaking for him against Smith Curtis in Rossland.

The speaker then launched into the real issues of the campaign. The arraignment of the present administration was delivered with telling effect and round after round of applause was heard as the various points were driven home.

The paramount right of the Dominion to control its own immigration laws was first insisted on. British Columbia had passed a Natal act five times and the liberals had disallowed it as often as it was passed. It was shown how the conservatives had refused to assent to the Japanese treaty without the insertion of a clause to the effect that Canada should be permitted to control immigration. It was further demonstrated how the liberals had handed over this control to Japan, despite the finding of the royal commission, the petitions of the British Columbia boards of trade and trades unions, and in the face of Sir Wilfrid Laurier's telegram that the views of the west should prevail. Was this a thing for Anglo-Saxons to tolerate? Hon. Sydney Fisher and Hon. Rurolphe Lemieux had journeyed to Japan at great expense to try to remedy the blunder; but had brought back nothing but empty promises.

Sir Wilfrid Laurier said in the session of 1896-7 referring to the views of British Columbians on exclusion of Asiatics. "I tell them, you are wrong."

Postmaster general Lemieux took R. L. Borden to task for taking the stand he did in favor of the exclusion of Japanese and declared that he, Lemieux, was "not for a white British Columbia!"

Sydney Fisher declared that a few hundreds of thousands of Japanese were no menace to Canada

All this was not newspaper babble, it was read to the meeting from Hansard, the official report of the debates.

R. L. Borden at the same time took occasion to say that there were considerations above and beyond mere trade and commerce; that British Columbia must remain British and Canadian; and that the province must have absolute control of its immigration.

On the very boat on which Mr. Lemieux returned from Japan, there were a thousand Japanese emigrants.

Since then the liberals have set apart no less than 28 townships in Alberta for Japanese settlers to compete with Anglo-Saxons, while it was difficult for white settlers to get land.

Even W. W. B. McInnes, when nominated for Vancouver, tried to steal the conservative platform and declared for a Natal act and committed the liberal convention to that principle. That was, however, a deathbed repentance that would avail him little.

The speech of Hon. Joseph Martin before the Free Trade congress was next dealt with, the speaker declaring it to be a burning shame that a man who had been a representative of the people and a leader in his party should herald forth to the world the indisputable fact that we had the most corrupt government in Canada that was to be found anywhere.

Then came the treatment meted out to J. B. Kennedy of New Westminster. He was the only man out of the solid seven who had the manhood to at least refuse to obey the party lash and vote for the sacrifice of the interests of the province. And what was the result? Now that another election is coming on a machine convention is held for the purpose of side-tracking the offender! This count was by itself enough to ask British Columbia to vote solid for the conservatives.

Then came the Lemieux act and the promise made by the liberal leaders to exempt the railway men from its operations. So soon as the men went home, this promise was violated and the result was seen in the present unfortunate difficulty.

The men do not need special favors. Neither do they ask for them. All they ask is equal opportunity to all.

Mr. Goodeve then dealt trenchantly with liberal promises and performances showing how they had shouted in favor of purity and how they had demonstrated their idea of purity with the thin red line, the Prince Albert stuffing, the McNish, West Hastings and St. James scandals and finally the endeavor to steal ballots by wholesale by means of the election act brought down last session, which was frustrated by the magnificent stand taken by R. L. Borden. Thus Ontario, Manitoba and British Columbia were rescued from the designs of the spoiler.

One by one land deals, the Montcalm affair, the pink teas on the Arctic, the Nova Scotia harbors of refuge, the Kamloops wharf and the Sidney breakwater affairs were held up to scorn. Extracts from the civil service report were read showing the condemnation by liberals of graft, corruption and maladministration of liberals.

In conclusion Mr. Goodeve declared that campaign literature was unnecessary. The Hansard and the reports of commissions sufficed to utterly condemn the present leaders. He declared that he did not ask men to support him in order to advance his own interests. The responsibility was up to the others; and theirs would be the blame if the grafters should continue to rule. This thing must cease. There must be no more speches like that of Joe Martin.

In an eloquent peroration the speaker, amid great enthusiasm on the part of his hearers, declared that he took the position that they must uphold the standard and the glorious part Canada was entitled to in the empire, and declared that conservative principles should rule this fair Dominion.

Thunders of applause greeted the conclusion of the speech and the meeting was brought to a close with cheers for the candidate, R. L. Borden and the king.

POPE HAS ANNIVERSARY

JUBILEE OF HIS ORDERS AS A CATHOLIC PRIEST

HIS HOLINESS REFERS TO SITUATION IN FRANCE

ROME, Sept. 8.—The pope yesterday received 800 French pilgrims who came here for the purpose of presenting greetings on the ubilee anniversary of the pontiff's ordination as a priest.

His holiness made a lengthy speech dealing with the situation of the church in France during the course of which he said: "I hope the day will never come for France in which her church is being destroyed, the faithful shall be obliged to take refuge in other countries. In these days while the holy sacrament is exalted in Protestant England and while the holy wafer is honoured throughout the streets of London, in France liberty is trampled upon by brutal force, serving those who declared war to God to the detriment of France."

The pope ended his discourse by recommending reunion to the French Catholics and clergy.

NOTABLE VISIT

Mining Men and Engineers Here Next Week

EXCURSION TO BLUE BELL

LOCAL BRANCH OF CANADIAN MINING INSTITUTE WILL ENTER PROVINCIAL LIBRARY. PAMPHLET DESCRIPTIVE OF THE INDUSTRY.

PROVINCIAL LIBRARY.

The visit of the mining men and engineers of Europe and of the east to the Kootenay under the auspices of the Canadian Mining Institute at the end of next week will be one of the finest advertisements that this city and district may well have. A meeting of the local reception committee held last evening in the office of Leslie Hill set about making the final arrangements for the proper reception of the visitors here.

Considering the present status of mining not only in the Kootenay and on this continent but over the world generally the visit will be of infinite benefit to this section if properly utilized. The situation in copper is improving daily and although the same cannot be said immediately of lead yet there is the hope held out that even here there will be distinct advances, although possibly not in the near future. Zinc is assuming an importance which it hitherto has not possessed while there has not been for a long time past such a demand for gold properties, the perfecting of milling machinery making it possible to work mines which hitherto have been held as low grade. In the Orient the growing desire on the part of China to play a bigger part on the world's stage is necessitating the increase of expenditure and one of the first means if enabling this to be done is the increase of the per capita circulation, at the present time by far the lowest in the world. Now that circulation is in silver.

Nor must it be forgotten that in reviewing the metal situation in the Kootenay that perhaps the biggst asset of the whole of the upper portion of the province is the untouched reserve of iron. British Columbia today is in the position of the country which has the last big reserve of timber. Its coal fields extend right through the Rockies into the neighboring province of Alberta while its untouched iron areas, east of Kootenay lake have been stated by the leading experts and financiers of the Dominion, to be of vast extent and probably second to none upon this continent. With coal, iron and timber at hand British Columbia, especially the Kootenay country, is destined to become one of the cheapest manufacturing centres possible in the west. And it is to the west the whole of the population of this continent is looking.

Weighing these facts the local reception committee have made up their minds to leave no stone unturned to impress the visitors favorably with the district and its possibilities, its record for the past and its hope for years to come.

That committee is a strong one, made up as it is of three members of the Canadian institute, Messrs. Hill, Hodges and Fowler, of three members of the civic council Messrs. Taylor, Procter and McMorris and of three members of the energetic board of trade, Messrs. Starkey, Byers and Lay. They have determined to place succinctly in the form of a pamphlet before the visitors the statistics of the district as outlined above, including the Boundary. Rossland camp is preparing a small sheet illustrative of the Golden City while for the whole province E. Jacobs, the secretary of the western branch of the Canadian Mining Institute, is preparing a more elaborate document setting forth the resources in mining of the whole province. The preparing of the local pamphlet has been left in the hands of E. K. Beeston, the secretary of the board of trade who is very busy just now getting in all the facts he can and who earnestly invokes the immediate co-operation of every mine and mill and smelter operator in the Kootenay so that his figures may be as accurate and as up-to-date as possible.

But the committee do not stop at this. Arrangements have been determined upon for the adequate reception of the mining men. The party will pass through Nelson on Tuesday next from the east, going to the Boundary country. Thence they will return on Friday night, September 18 and will be here the whole of Saturday going on to the coast that evening. The progamme for that day has been very pleasantly planned. The committee has chartered the steamer Kuskanook, the largest of the C. P. R. fleet in local waters, for the occasion. An excursion made up of some 80 people, about 40 being visitors, official and unofficial from the east; half dozen or so more being Kootenay mining men outside of the district of Nelson and the remainder mining men of the local branch of the Canadian Mining Institute and invited citizens. The expenses will be met by a general assessment falling principally upon those present on the occasion, outside of the visitors.

The Kuskanook will leave here about 9:30 o'clock on Saturday, Sept. 19 and will go up to Riondel, having lunch on the way. At Riondel a stay will be made while the visitors will be given an opportunity of landing and inspecting the Blue Bell mine and mill. This having been finished the party will return down the lake to Procter where a stop will be arranged for an hour or so in order to give those who desire an opportunity of catching a rainbow or Dolly Varden trout. Dinner follows on the boat and the excursionists will come back to Nelson about nine o'clock in the evening.

Among the visitors are the following: Jas. Borrowman, secretary of the mining institute of Scotland; Walter Johnson, representing the iron and steel institute, Hugh F. Marriott, representing the istitute of mining and metallurgy; W. Frecheville, past president of the same institute; John Ashworth, president of the Manchester Geological and Mining Society; W. D. Wight, president of the South Wales Institute of Engineers; Prof. Dr. H. Potonie of Berlin; W. H. Head, sub-editor of the London Mining Journal; Louis Detrez, president l' Association des Eleves des Ecoles Speciales of Liege Belgium. All of the above are touring Canada as the guests of the Canadian Mining Institute.

In addition there are other visitors accompanying the excursion some of whom are Rodger Beck of Swansea, Wales; C. E. Bloomer, England; G. H. Campbell, Toronto; Dr. W. Campbell of the department of metallurgy, Columbia university, New York; T. Carlisle, England; S. Cowper-Coles, England; C. Forgie of the Dominion Coal company, Glace Bay; J. Hogg, Scotland; Mark Hurll, Scotland; D. B. Langford, England; S. Mayor, Scotland; J. C. Murray, editor of the Canadian Mining Journal; J. Obalski superintendent of Mines, Quebec; W. J. Rees, Wales; G. McI. Pyke, Montreal; W. Rowley, England; N. Richardson, general manager N. Atlantic Collieries, Cape Breton; Dr. Heinrich Ries, Department of Geology, Cornell university; A. Sinn, Switzerland; A. Smith, Columbia university, New York; S. S. Smith, England; A. Watson, Scotand.

BASEBALL YESTERDAY.

Vancouver, 5; Tacoma 1.

Butte, 10; Seattle, 6.

LABOR DAY AT FERNIE.

News Notes of Happenings in Crow's Nest.

FERNIE, Sept. 8.—Citizens of Fernie are hardly yet in a position to fitly celebrate a holiday so Labor Day passed off very quietly in the city. The mines were closed down at Coal Creek and building operations in town were practically suspended, though many of the homeless took advantage of the day to work on erection of their new homes. The passenger trains took a fair number to neighboring towns where celebrations were being held, Cranbrook, Michel and Hosmer being the objective points of many. The carpenters ball of the latter town drawing a goodly number, where a welcome rain fell last night and dampened down the bush fires which have been burning in the mountains and at the outskirts of the town. Though there may not be any immediate danger of these fires doing further damage to the town since the underbrush is well burnd out, steps should be taken to extinguish them before they do irreparable damage to the standing timber and to remove all danger of their reaching other towns. No organized effort seems to have been made to cope with the fire, and no one seems to feel any responsibility in the matter.

General manager Hurd and Mrs. Hurd left yesterday on a trip to the coast and expect to be absent about two weeks.

The Morrissey, Fernie & Michel railway is erecting car sheds repair shops and engine house in their yards here which when completed will be up-to-date in every respect and a big improvement on the ones destroyed in the recent fire.

The coal chutes of the C. P. R. which were destroyed on August 1 are not to be rebuilt, as it has been decided to erect new ones at Hosmer.

SMALL POX EPIDEMICS.

Vaccination Urged as An Absolute Preventative.

REGINA, Sept. 8.—Small pox quarantine has been declared in two different districts of the province. At Halbrite, in the south end, there are thirteen cases of the disease, under quarantine and at Maple Creek there is also quarantine enforced, the parties affected with the disease there being in destitute circumstances and depending upon the government for sustenance. The government is undertaking to provide vaccine for doctors and will pay cost of same in cases where patients are unable to do so.

Dr. Seymour, provincial health officer has issued warning and a statement that small pox is a preventable disease and can absolutely be prevented by successful vaccination.

LIGHTWEIGHT CHAMPIONSHIP.

SAN FRANCISCO, Sept. 8.—The pugilistic carnival of this week were in the possessionof the world's championships were yeterday at take, will have its climax tomorrow afternoon at Colma, where Battling Nelson will defend his right to the lightweight championship and Joe Gans will endeavor to regain his laurels lost to the Dane in their last encounter. The promotors of the match confidently expect that the receipts will exceed $13,300 taken in yesterday at the Attell-Moran fight. Both contestants were present at yesterday's fight and received more attention for a few minutes than was shown to the principals.

Nelson last night weighed a fraction over 133 pounds and expects to reduce to that figure without difficulty while the roadwork of yesterday is to be repeated today. Gans is exactly at weight and will confine his training work today to a short run and light gymnasium work. Betting is brisk at 10 to 6 with Nelson the favorite.

FOREST FIRES

Whole Country Around Duluth Endangered

DESTRUCTION IS TERRIFIC

ALREADY ONE TOWN HAS BEEN COMPLETELY WIPED OUT AND OTHERS ARE STILL REPORTED TO BE IN SERIOUS DANGER OF EXTINCTION.

DULUTH, Sept. 8.—All of Northern Minnesota seems ablaze with forest fires. Reports received here today indicate that the region covered by the fires extends along the north shore to Grand Marais, west to the Western Mesaba ranges, south to within ten or fifteen miles of Duluth and north to the extreme edge of the ranges. Throughout this region, a territory one hundred miles square, fires are raging and settlers are being burned out by the hundreds. It will be impossible to estimate the total loss for weeks. Aurora, a town of 1000 inhabitants, was threatened all night, but today it was reported safe for the time being.

The village of Snowball with one hundred inhabitants is wiped off the map. A brisk wind is blowing in the territory affected and unless it dies down or a drenching rain comes, the entire district mentioned, including Buhl, Nashwauk, Wrenshall, Aurora and many mining locations may be swept clear of standing timber.

Duluth has raised $20,000 for the sufferers.

Homeless settlers are arriving in Hibbing and Duluth by every train, telling tales of hairbreadth escapes from the flames.

Up to the present time no lives have been reported lost.

At 3:50 this afternoon Hibbings sent a call for aid for forest fires here. An engine and company was dispatched from Duluth by special train. The wind was blowing a gale and if it does not change, Hibbing, the biggest and most prosperous town on the range which has a population of about 22,000 will be destroyed.

CRANBROOK'S OWN DAY

FAT MEN OF FERNIE SURPRISE THE NATIVES

BENEFACTORS HOISTED WITH OWN PETARD

CRANBOOK, Sept. 7.—Without any special glare of advertising or placarding, the Labor Day celebration here was a marked success, indeed, an unexpected triumph where little was anticipated. What contributed most to the success was that all the events ,except the hose reel races, were held on the recreation grounds where the people could see what was going forward without being compelled to rush from point to point as in other years when some of the competitions took place in the streets and some on the hill. As usual, the Indians came in from the mission in all the bravery of flaming scarlets and vivid greens accompanied by their wives and a multitude of children and dogs of all kinds. They gave a note of color to a scene that was gay with sunshine and flags a plenty.

To mention only a few of the principal competitions ,it may be said that it was a great day for the Cranbrook boys. In the junior baseball game the local lads met their old foes of Moyie and walloped them to the tune of 24 to 14. The seniors also won from Moyie 18 to 7 while in the wet test hose reel race the Moyie team lost by having water turned on too quickly at the hydrant and left a virtual run over for the Cranbrook lads. So it went from one victory to another until the fatness of Cranbrook encountered with the unwieldly bulkiness of the giants of Fernie in the baseball game. Cranbrook has, to be sure, men of girth and brawn and muscle, like George Hoggarth Fred Morris, Charlie Yeandell and many lesser weights, but they and their companions were as pigmies before the herd of Daniel Lamberts who, captained by Billy Ross, rolled like mountains of flesh around the bases till the man who held the scoring card gave it up in despair—the deep despair of Cranbrook. What the actual score was in favor of Fernie may not, in decency, be recorded, but it was as wide as a church door and as high as a steeple. And the way they of Fernie lambasted that ball was a holy terror. Tom Whalen, who was armed with a bat like the mid-section of a pine tree, smote a ball partly decorticating the globule and thereby igniting the remaining portion of the cortex and interior stuffing. Away it flew, due north, like a blazing portent of grim destruction for Wasa and the adjoining regions. As night deepened it was reported passing Canal Flats and still going strongly. It will fall at some point at this side of Golden. That wallop ended the game. "Gentlemen," said the official scorer, "this is no longer a battle of giants. It is butchery of the innocent fats of Cranbrook." With the victory go the gold medals, and the big men of Fernie are heartily welcome to them for the game was a great function and the cause of mighty mirth.

Early in the day's proceedings a very pretty presentation was made to James A. Bates, who during the season has most satisfacaorily and fairly umpired the series of baseball games between Cranbrook and Moyie. So much have the teams appreciated his work that they both united in purchasing the case of meerchaum pipes which were presented in front of the grand stand during the progress of the games. Mr. Bates thanked the teams in aloquent and suitable terms, whereupon Sam Macdonald made public the fact of the presentation through the megaphone.

Though there was a very large crowd in the city it is satisfactory to be able to say that the day and the night passed without furnishing a single entry for the oplice court record.

INDIANS MAY WIN.

Next Saturday's Lacrosse Game Will be of Great Interest.

MONTREAL, Sept. 8.—As a result of yesterday's games in the big lacrosse league, Cornwall defeating Shamrocks at Montreal by 5 to 4 and the Tecumsehs defeating Toronto at Toronto by 6 to 5, next Saturday's game on the National grounds betwen Cornwall and the Nationals becomes of great interest. If the factory town team can defeat the Frenchmen they will be tied with Tecumsehs for first place; if they lose, the championship will go to the Indians.

Today's defeat of the Torontos was somewhat of a surprise and was also the victory of Cornwall over the Shamrocks, the latter team now being better than at any time since the opening of the season. The game was a desperate struggle and marked by several fights.

WHEAT DELIVERIES GOOD

GOOD GRADE OF GRAIN IS BEING OBTAINED

SHORTAGE OF HARVEST LABOR IS EXPERIENCED

WINIPEG, Sept. 8.—Grain shipments were very heavy last week and yesterday witnessed the local receipt of 125 cars of wheat, the major portion of which graded No. 1 Northern. The excellent weather during the latter part of the week enabled the farmers to make up for lost time because of the recent rain, and as a result very satisfactory progress has been made in the fields.

Deliveries are very heavy in Manitoba from points east of Griswold. Reports from Griswold west to Regina state that deliveries will start about Friday of this week. Threshing has just started along the Soo line and very heavy deliveries are expected by the end of this week.

In Southern Manitoba deliveries of wheat are very heavy and the grain is turning out very well indeed. The grading is excellent, being mostly 1 and 2 Northern.

Wheat receipts, which amounted to 125 cars yesterday, are expected to jump to between 400 and 600 cars by the end of the week with the probability of the latter figure being very close to the mark. Next week deliveries will be general and grain men agree that the railroads will be taxed to their capacity to move the crops. The farmers are getting an average price per bushel of from 85 to 90 cents. Grainmen as a whole agree that the total yield will pass the hundred million mark with a nice margin to spare.

The cry from the west for men to york in the harvest fields is again becoming a loud one, and the conditions of labor are evidently going to be serious. It was thought that sufficient number of men had come to the country, but this is far from the case, and hundreds are still wanted to do the work.

The scarcity is principally from Alberta where very few harvest hands can be got. Yesterday 800 men came from the east and were immediately sent to Edmonton and the surrounding district. When they left the city they all had positions to go to.

It is chiefly men to do the threshing who are wanted.

At the provincial immigration office, demands for men are coming in thick and fast and the department is at a loss to find sufficient men to ansyer the call.

The secretary is causing an upward move to be made in wages, and the price for a man in Alberta is a good one, as much as $3 a day being given.

MANOEUVERS IN FRANCE

MOST IMPORTANT WAR PLAY FOR MANY YEARS

OFFSET TO GERMAN TACTICS ACROSS THE BORDER

PARIS, Sept. 8.—The French army manouvers which began today in the Touraine region, which form the greater part of the department of Indre-Et-Loire are considered the most important war plays since that inaugurated under the republic in 1891. As if in response to the German manouvers now being held across the French frontier, the opening positions of the French armies will be somewhat analogous to the situation existing in the war of 1870 which brought about the overthrow of Napoleon III and the establishment of the third republic and caused the loss by France of Alsace and the German part of Lorraine.

The two armies are commanded by generals Millet and Tremeau and each is composed of two corps besides special wireless telegraphy and telephone systems and balloon and bicycle brigades.

LIKES DEFEAT

Rather Than a Victory Won Dishonestly

SAYS LEADER BORDEN

IN FIRST SPEECH IN CAMPAIGN AT BRIDGEWATER-DENOUNCES POLITICAL CORRUPTION—ASKS FOR PURITY IN ELECTIONS AND HONEST ADMINISTRATION

(Special to The Daily News.)

BRIDGEWATER, Sept. 8.—Electors of Lunenburg county, to the number of 1200, gathered here yesterday to hear R. L. Borden deliver his first speech on his tour of the maritime provinces. He was given a good reception. Only a brief reference was made to the Colchester election case, Mr. Borden declaring with an emphasis which left no doubt, that he denounced political corruption no matter by whom practiced. "I prefer defeat in an honest election rather than victory dishonestly gained," he concluded amid cheers. Mr. Borden occupied himself chiefly with a discussion of the liberal administration of the past year, accusing the ministers of falseness towards the people who had elected them; of extravagance and wasteful expenditure in all branches of the government; and of shameful truckling to party heelers. He appealed strongly for purity in elections and for honesty in administration.

WASHINGTON PRIMARIES.

Jones Defeats Ankeny for Senatorial Nomination.

(Special to The Daily News.)

SPOKANE, Sept. 8.—Very meagre returns from today's primary election indicates that congressman Wesley Jones has defeated senator Levi Ankeny for republican senatorial nomination by a large majority estimated to run as high as three to two votes. The race for governor is close between governor Mead, ex-governor McBride and S. G. Cosgrove. Mr. McBride is leading on first choice vote but 40 percent of the first choice vote is required to nominate. In the absence of 40 percent being cast for any candidate second choice votes will be added, leaving the final result in doubt.

Returns indicate the nomination of judge Miles Poindexter by the republicans for congressman for the third district. The renomination of congressman W. E. Humphrey, for first district and of F. W. Cushman for second district is assured.

John Patterson is probably the democratic candidate for governor and William Goodyear is certainly the democratic candidate for congressman from the third district.

SUPPORTS A. S. GOODEVE

ROSSLAND'S LABOR LEADER IS PRONOUNCED

POLITICAL MEETING HELD LAST EVENING

(Special to The Daily News.)

ROSSLAND, Sept. 8.—The marked feature of the political meeting at the Miners' union hall this evening at which about 300 people were present, a meeting that was called in the interests of the liberal party and which was addressed by the liberal candidate, Smith Curtis, and backed by the leader of the provincial opposition, J. A. Macdonald, K. C., member for Rossland, but at which representatives of the other parties of the campaign were invited to speak, and at which W. Davidson of the Slocan, alternately a labor man and a socialist did speak, was the utterance of the mayor of the city, P. R. Macdonald, who had no hesitation in supporting the conservative candidate, A. S. Goodeve.

"P. R.," as he is familiarly known, has been thrice mayor of this city. He is an old timer. He was a member, and a working member of the W. F. of M. in the stormiest days of Rossland. He was there when Mr. Goodeve was mayor, when the strike breakers, of whom so much comment has been made lately, were imported and he was a man who supported the present member for Rossland, J. A. Macdonald, when he was opposed by A. S. Goodeve, the provincial secretary of the newly formed McBride cabinet and, after years of watching the fall of events, the justification of time, has deliberately gone back to his first, his conservative opinions, and openly this evening spoke for Mr. Goodeve to his fellow townsmen, to his fellow workmen, who have known and who have honored him from the early days of the Golden City in thrice electing him mayor, in placing him in the presidentship of District No. 6, W. F. of M., as against the man who is the "Labor-Liberal," as against his own fellow craftsman, W. Davidson of the Slocan; spoke so that this mining camp may know what its thrice chosen leader thinks of the respective merits of the three candidates for federal honors.

It is needless to say that the meeting was a well attended one or that "P. R." unpretentious oratory was the feature of the evening.

Port Neuf Conservatives.

PORT NEUF, Sept. 8.—Albert Sevigney has been nominated by Port Neuf conservatives for the commons.

A. C. Boyce Renominated.

SAULT STE MARIE, Sept. 8.—A. C. Boyce, M. P., was renominated for the by west Algoma conservatives.

In Athletics Second Wind

—means the calling into action of the reserve forces of the body. A good reserve force is as necessary to the gusiness man and the housewife as to the athlete. The regular use of Bovil builds up a large reserve strength and this makes sustained effort of mind and body possible. It also enables the system to successfully resist the attacks of disease.

BOVRIL

PROGRESS IN ASTRONOMY

"WANDERING OF THE POLE" BEING INVESTIGATED

PUBLIC AND PRIVATE MUNIFICENCE ASSISTS

In a small brochure recently issued by the Smithsonian Institute, there is given an oualine of the activity of astronomers in matters pertaining to the sun and stellar bodies.

It is safe to say that the very great activity displayed at present is in no small degree due to governmental and private munificence, making possible the incurring of the expense necessary to secure the instruments and observers capable of investigating the many delicate and intricate problems awaiting solution.

Hitherto solar research has been confined to observations of eclipses, sun spots and times of rotation, and very little of the causes and natures of these hepnomena, or the nature of the envelop of matter surrounding the sun as does the air about the earth. Then the relation of climate to the radiation of the sun's heat, and the cause and source of such heat. Such problems, while of a highly scientific nature, intimately concern the welfare of the human race, in fact of all life, and thus the work of astronomers assumes an important position in popular estimation.

Astronimical science deals with the infinitesimally small and the infinitely large. Of the former the length of a wave of light becomes a matter of extreme imorptance ,as upon the calculations, based upon the size of this wave length, will depend great discrepancies in the speed of stars as these travel through space. It is estimated, according to the length of the wave of light chosen, that a variance of one ten millionth of a millimeter will cause a difference of several miles per second of the speed of the star.

Closely associated with light wave lengths is the wave lengths of heat. The amount of heat received from the sun depends upon heat waves ,and thus light and heat waves are important in relation to climate, vegetable growth, and life generally, becoming important matters for the scientists to investigate. Instruments and appratus of a most delicate nature has been devised and manufactured for use by astronomers to aid in determining the amount of heat radiated from the sun.

Of all the astronomical matters receiving atention at present none is more interesting than what is known as the "wandering of the pole." Stripped of technical terms, this means that it has been discovered that the axis of the earth is in a constant movement of a wobbling nature withing very short limit of not more than forty feet.

The causes of this motion have not been acdurately determined, but indications point to the main causes being the movements of the waters of the ocean and the slight changes in the crust of the earth. One exceedingly interesting feature is that the motion has a period corresponding to one-tenth of a year. So important has this motion of the poles become, that international arrangements have been made for its further investigation.

QUEBEC FORGING AHEAD

HEADS CANADA IN GROWTH OF POPULATION

BRITISH COLUMBIA IN FOURTH PLACE IN INCREASE

It must be conceded, says the Victoria Colonist, that there is a general disposition to look upon the province of Quebec as the least progressive part of Canada. As everything calculated to give the public a correct idea of matters relating to the progress of the country is important, we reproduce the following statistics from the Montreal Gazette. The first table shows the increase of population in Canada between 1891 and 1901.

	1891	1901
British Columbia	98,173	178,657
Manitoba	152,506	255,211
New Brunswick	321,263	331,120
Nova Scotia	450,396	459,574
Ontario	2,114,321	2,182,947
Prince Ed. Island	109,078	103,259
Quebec	1,488,535	1,648,898
The Territories	66,990	158,940
	4,833,239	5,371,315

The total increase was 538,076. The next table shows the changes in each of the provinces:

Quebec	160,363
Manitoba	102,705
The Territories	92,141
British Columbia	80,484
Ontario	68,626
New Brunswick	9,857
Nova Scotia	9,178
P. E. Island—decrease	5,198

We venture to think that these facts will be a surprise to most readers. From them it appears that the three Maritime provinces increased in the aggregate only 13,316, and that Ontario increased less than Quebec. British Columbia's increase was six times as much as that of the Maritime Provinces and seventeen per cent more than that of Ontario, was only a fraction more than half that of Quebec. The Gazette claims that the greatest industrial progress has been made in Quebec ,of course disregarding agriculture, as it claims that the census of 1911 will show that there are from 1,900,000 to 2,000,000 people living in the great northeastern province. It concludes its article with this sentence, which certainly is not lacking in "snap."

"In another reduction of their parliamentary representation the really backward provinces whose people, in their ignorance, sneer at Quebec, will get another evidence that progress goes with quietness and not with ignorant self-conceit and socialistic press bellowings and rallings against men of commercial courage and industrial enterprise."

CANADA IS ALIVE.

Statement of Prominent Buffalo Vessel Agent as to New Rates.

The cutting of the rates for handling grain at Montreal by the harbor commissioners has alarmed New York and Buffalo.

The effect of the new regulations governing f.o.b. charges on export grain in the port of Montreal is to reduce those charges from 1 5-8c to 9-10c per bushel.

This concerns export grain brought to the port by rail only, and is carried out to meet the prevailing terminal charges for similar service at New York, Philadelphia and Boston.

A dispatch from Buffalo says:

Asked what the new rates meant to Buffalo and eastern ports generally, Capt. J. J. H. Brown of Brown & Co., vessel agents in the chamber of commerce, said bluntly that it meant that Canada was alive and New York state wasn't.

"The new rates," said Capt. Brown, "mean that the Canadian route will have all the grain it can possibly handle when the rush sets in, and the ports of New York, Boston and Philadelphia will get the overflow. One-quarter of the cut that was made would have brought practically the same result. Ocean-going vessels will load at Montreal, instead of at United States ports, taking on all they can load at the floating elevators there, and in some cases going on to Quebec, where there are two feet more of water, and taking on more grain.

The fall grain from Chicago and Duluth will be shipped to Montreal by rail, and thence across the Atlantic, instead of coming to New York and other eastern ports via Buffalo. If we had the barge canal opened it might be different. Then we would have a competing water route through to the seacoast. As it is, this most important of all public works has been suffered to drag. The Barge Canal act was passed nearly six years ago, and all that has been done is to scratch the surface here and there. Long before it is finished at the present rate, the Canadians will have a new Welland canal to further divert grain shipments.

"The Canadians are fully alive to the importance of securing this vast shipment of grain from the west, and are making every effort to secure it. Of this the action of the Montreal harbor commissioners is a fair sample. Our hands are tied while the railroads are allowed to block the construction of the barge canal. The Canadian authorities are alive. In New York state too much time is spent over petty questions."

A Dull Letter.

"The only news I have to tell you," wrote the Billville citizen, "is that the river has riz an' drowned all yer cattle, an' yer uncle has broke jail; likewise the widder woman you wuz a-goin' ter marry has runned off with a book agent. Outside of these heer things, we air all a-doin' well."—Atlanta Constitution.

TANGIER, Sept. 8.—While on his way from this city to Fez, Dr. Vassel, the German consul at Tangier, the object of whose visit was reported to be the recognition by Germany of Mulai Hafid, as sultan of Morocco, stopped at Kaar-El-Kebir, and visited Mulai El Abbas, Mulai Hafid's brother, to whom he explained the valuable services that Germany had rendered Hafid during his campaign against sultan Abdel Aziz. After Dr. Vassel's departure from Kaar-El-Kebir, Mulai El Abbas told the members of his entourage what the German consul had said.

CORPORATION OF THE CITY OF NELSON.

By-law No. 189.

A By-law to raise $85,000.00 to increase the capacity of the Electric Light and Power Plant of the City of Nelson.

WHEREAS a Petition has been presented to the Municipal Council of the Corporation of the City of Nelson signed by the owners of at least one-tenth of the value of the real property in the said City of Nelson, as shewn by the the last revised Assessment Roll, expressing their desire to apply the provisions of Chapter 37 of the *Statutes of British Columbia*, 1908, entitled "An Act to enable the City of Nelson to borrow $85,000.00,"and requesting that a By-Law be introduced authorising the issue and sale of Debentures to the said amount of $85,000.00 for the construction and installation of an additional unit to increase the capacity of the Electric Light and Power Plant owned by the City of Nelson at the Upper Bonnington Falls on Kootenay River, British Columbia:

AND WHEREAS it is deemed expedient to so construct and instal such additional unit for the purpose of increasing the said Electric Light and Power Plant:

AND WHEREAS for the purpose aforesaid it will be necessary to borrow the sum of $85,000.00, and to issue Debentures of the City of Nelson for the purpose of raising the said amount:

AND WHEREAS the whole amount of the rateable land of the said City of Nelson, according to the last revised Assessment Roll, is ($2,635,930) Two Million Six Hundred and Thirty-five Thousand Nine Hundred and Thirty Dollars:

AND WHEREAS it will be requisite to raise annually by rate the sum of Seven Thousand Four Hundred and Three Dollars and Thirty-five Cents, ($7,403..35) *for paying the said debt and interest.*

NOW, THEREFORE, the Municipal Council of the Corporation of the City of Nelson enacts as follows:

1. It shall and may be lawful for the Mayor of the Corporation of the City of Nelson t borrow upon the credit of the said Corporation, by way of the Debentures hereinafter mentioned, from any person or persons, body or bodies corporate, who may *be willing to advance the same as a loan,* a sum of money not exceeding in the whole the sum of Eighty-five Thousand Dollars, ($85,000.00) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object hereinbefore recited:

2. It shall be lawful for the Mayor of the said Corporation to cause any number of Debentures to be made, executed and issued for such sum or sums as may be required for the purpose and object aforesaid, not exceeding however, the sum of Eighty-five Thousand Dollars ($85,000.00) each of the said debentures being of the denomination of One Thousand Dollars ($1,000.00), and all such Debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof:

3. The said Debentures shall bear date the first day of October, 1908, and shall be made payable in twenty years from the said date, in lawful money of Canada, at the office of the Bank of Montreal, in Nelson aforesaid, which said place of payment shall be designated by the said Debentures and shall have attached to them coupons for the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed:

4. The said Debentures shall bear interest at the rate of five (5) per cent. from the date thereof, which interest shall be payable semi-annually at said office of the Bank of Montreal in Nelson aforesaid, in lawful money of Canada, on the first day of April and the first day of October respectively in each year during the currency *thereof; and it shall be expressed* in said Debentures and coupons to be so payable:

5. It shall be lawful for the Mayor of the said Corporation to negotiate and sell the said Debentures or any of them for less than par, but in no case shall the Debentures or any of them be negotiated or sold for less than ninety-five per centum (95) of their value, including the cost of negotiating the sale, brokerage and all other incidental expenses:

6. There shall be raised and levied in each year during the currency of said Debentures the sum of Four Thousand Two Hundred and Fifty Dollars (4,250.00) for payment of interest, and the sum of Three Thousand One Hundred and Fifty-three Dollars and Thirty-five Cents ($3,153.35) for payment of said Debentures by rate sufficient thereof on all the rateable land in the said Municipality:

7. It shall be lawful for the said Municipal Council to re-purchase any of the said Debentures upon such terms as may be agreed upon with the legal holders thereof, or any part thereof, either at the time of sale or any subsequent time or times, and all Debentures so re-purchased shall forthwith be cancelled and destroyed and no re-issue of Debentures so re-purchased shall be made in consequence of such repurchase:

8. This By-Law shall take effect on or after the twenty-fourth day of September, 1908:

9. This By-Law may be cited for all purposes as the City of Nelson Electric Light and Loan By-Law No. 189, 1908:

Done and passed in Council assembled this..... day of.....1908.

NOTICE.

Take notice that the above is a true copy of the proposed By-Law, upon which the vote of the municipality will be taken at the City of Nelson, on Thursday, the 17th day of September, next, between the hours of 9 o'clock a. m. and 7 o'clock p. m., for the East Ward, at the Council Chamber, at the corner of Victoria and Josephine Streets, and for the West Ward, at the office of F. B. Lys, No. 315 West Baker Street.

Nelson, B. C., September 1st, 1908

Hoover's Ranch for Sale

The Hoover ranch, comprises about 130 acres, crown granted, located along the base of the mountain opposite Nelson, having about one half mile of lake frontage. There are many qualifications about this property not commonly possessed by ranch or fruit land generally. The location, directly opposite one of the finest and most prosperous cities of British Columbia and about five minutes distant by boat or steam launch. The most attractive residential location of all the suburbs of Nelson. An elegant location for a city park, with all kinds of land and water attractions. With a small outlay over the purchase price, ready money can be made at once in the summer hotel line. As a fruit ranch, and poultry farm it is now producing a fine income for the owner. For subdivision in residential building sites unequalled by any, and increasing in value.

$10.00 Per Month Will Purchase 5,000 Shares IN THE Indian Springs Copper Mining Company

Capital $1,500,000 in 1,500,000 Shares of $1 Each

650,000 Shares Are Now In Treasury

Seven Full-Sized Claims. Good Values In Sight.

Funds are wanted for continuing development on these properties and in order to get an assured Monthly Income for working expenses I offer for sale on the assessment instalment method.

500,000 Treasury Shares at $2 Per Thousand Shares Per Month

At this rate the mine will have an income of $1000 per month. These monthly payments are not to exceed twenty-five in number. The full cost of these shares will at the most be $2x25 equal to $50 per thousand or five cents per share and even at this exceedingly low price the payments will be spread over the long period of twenty-five months. The management, however, is of the opinion based on practical experience and the report also of Ross L. Craddock, M. E., that from six to twelve months further development will make the mine self supporting and as, at this period, all monthly payments will cease, and shares will be alloted in full at no further cost, these shares will probably cost but one or two cents per share only. As the company will at this stage still have 150,000 treasury shares remaining on which funds can be raised for erection of plant, etc., the probable value then of the shares I now offer can be readily figured by a person versed in mining stocks. This is the best speculation before the public today.

Call and see me or write and I will convince you.

STRIKERS STILL FIRM

NO CHANGE OF MOMENT IN C. P. R. MECHANICS' STRIKE

OVERTURES REGARDING A SETTLEMENT FORTHCOMING

This morning marks the beginning of the sixth week in the strike of the mechanical employees of the C. P. R. and as yet no change has taken place—so far as the public are aware—in the situation. Both parties to the dispute appear to be as hopelessly at variance now as they were on the day the strike was declared but the men claim the company cannot hold out much longer.

"Their locomotives and rolling stock are practically completely paralyzed already," said one of the strikers yesterday to a representative of The Daily News, "and they will gradually get *worse with the unskilled handling they* are receiving at the hands of the few men the company are employing in their attempt to disorganize the strikers and thus break the strike. The men they have now in their employ will do more harm to them than anything else and consequently they are not only trying to help the company along but are aiding our cause although they have no intention of doing the latter.

"We gather from the press dispatches," he continued, "that the company are getting all the help they need, are getting along just as well without us, that everything is going along just as smoothly as a wedding and that no difficulties whatever are being encountered in the operation of trains. But we think we might claim to be a little better educated as a body than to have no more sense than believe this. *And again we are kept posted as to* the state of affairs at points all over the system and the manner in which the official reports we are receiving upset those sent out by the company through the telegraphs in their attempt to weaken our cause is not at all slow.

"As a matter of fact," he said, "there are over 2,000 cars stalled in the Win*nipeg yards alone and are disabled in* a like proportion at points all over the road. Their locomotives are practically all disabled and they are not only sidetracking freight, but are unable to handle the passenger traffic on schedule. You can voice me as saying that the end of the strike is plainly visible."

"How about the wheat crop," asked the reporter.

"Well I cannot see how they can handle it unless they can borrow power and rolling stock from another company in which case the employees of the offending company will join the ranks of the strikers."

"Then how about the innocent public, the last but not the least affected party by the dispute, providing a settlement is not reached soon." queried the scribe.

"Well," came the rejoinder, "I think *by this time those of the public who* are deeply enough interested to look into the matter know that the company and not the strikers were the aggressors. We are simply protesting against their efforts last April to cancel our schedule agreement which should not have expired until this month and which consisted only of concessions which we have enjoyed for years past. They and only they can the people blame for the blockade which is inevitable unless a settlement is reached. Of course the company have striven to hoodwink the general public by stating that arbitration had been resorted to, that they had expressed their willingness to accept the majority report and that the men had declined. But nothing whatever is said of the minority report. Neither are the public informed that the present strikers were the parties who applied for the conciliation board in their effort not only to be loyal and lawful Canadian citizens, but to have settled by arbitration, if possible, the points brought to issue by the posting, by the company, of the notices declaring their intention to cancel the existing schedule, rather than call a general strike.

"If the company cannot accommo*date us to the extent that they have* done in the past much less can the general public at our expense, expect us to give further consideration to the unpleasant state of affairs, brought about by the strike, in the industrial world of Canada, especially western Canada, than has already been given by our organizations. The company, as is known, has been given practically everything it owns by the people of Canada and is under an obligation to meet their demands. You can say that the strikers are just as determined to fight to a finish as they were on the day the strike was declared and that any overtures regarding a settlement must be opened by the company. Our committee previous to the declaration of a strike notified the president of the company of their intentions should he refuse to open negotiations with them and now they must ask us to open negotiations with them if they desire to bring to a close the present unpleasantness. Consequently to them must the public look for relief."

William Johnston the district repre*sentative and executive board member* of the International Association of Machinists who is spokesman of the local press committee of the strikers said:

"The sixth week of the strike of the C. P. R. mechanics finds the ranks of the men as solid as the first day of the strike and from reports received every day we are sure that the battle is al*ready won.*

"During the past three weeks some of the papers have been printing whole pages of lies about the strike, and the lying policy has been followed so long that our men and the public do not pay any attention to papers like the Montreal Gazette and Star. This weakness of the press has apparently opened the eyes of the men in more directions than one, as they are beginning to understand that papers that are not reliable, or are bought up to print prejudiced matter on one subject, are very likely to be following that policy, all the time.

"The company are still hiring strike breakers, many of them merely hiring in order to get their fare paid to the west, and some of the harvesters have gone into the shops to get sufficient food to keep them from starving. There is no question but what the company is violating the law as regards the importation of men, and doing it flagrantly. Strike breakers are brought across from Chicago, Buffalo, Spokane, and other places along the border while the immigration officers are asleep, the employment agents bring them over and the company's agents make a bluff of hiring them when it is well known that the men were engaged before getting in the car that brought them over, and paid the employment agent his fee. Strike breakers coming over by way of Windsor *and Fort Erie declare they are not* even asked if there is a cent in their pockets. How is that for government immigration inspection? At some points strike breakers report that the foremen refuse to give them their time slips that are forthcoming.

"A Moose Jaw report states that owing to poor sanitary conditions and *bad food supplied, several cases of* fever have broken out among the strike breakers and the local health authorities have ordered the cars taken out of the round house. We believe that the city or provincial health officers should see to it that the same thing does not take place here, and that the boarding house on the C. P. R. flats should be inspected at once.

"A large number of citizens are also of the opinion that the city officials should collect the road tax from the strike breakers. Hundreds of undesirables are travelling from point to point, working a few days here and a few days somewhere else, and it is only right to expect that our city officials should collect this tax in the same prompt manner as usual. Men being with the company in times of peace and working a few days here had this road tax deducted from their wages, *and there is no reason why the gang* now employed by the C. P. R. in Nelson should not at least pay part of the taxes that honest workmen are compelled to pay.

"Just say for us that we are well pleased with the progress we are making, and that we have no intention of stampeding back to work, until we get a satisfactory settlement, the statement of the company's officials to the contrary notwithstanding.

IN THE MATTER OF THE "WINDING-UP ACT" (R. S. C.CHAPTER 144) AND IN THE MATTER OF LA PLATA MINES COMPANY, LIMITED, (Non-personal Liability.)

NOTICE IS HEREBY GIVEN that His Lordship, Mr. Justice Morrison, has fixed Tuesday, the 16th day of September, 1908, at 10:30 o'clock in the forenoon, at his chambers in the court house, Vancouver, British Columbia, as the time and place for the appointment of the official liquidator the above named company, and tot show cause why William Howard Bullock-Webster should not be appointed such official liquidator.

Dated at Vancouver this 29th day of August, 1908

J. C. DOCKERILL,
Deputy District Registrar.
(Vancouver, August 29th, 1908, Registry.)
112-3

$1000 Reward

A reward is offered by the provincial government of one thousand dollars for the arrest and conviction of the two masked men who murdered Charles L. Thomet in his hotel at Midway, B. C., on Tuesday night, the 25th August, 1908.

The hold up men are described as follows: One tall man about 5 feet 11 inches in height, 180 lbs. in weight, 40 years of age, dark hair and complexion, with smooth face, and wearing dark coat, soft felt hat, overalls and hobnailed boots.

One small chubby man, about 5 feet 5 inches in height, 145 lbs. in weight, 35 years of age, dark hair and complexion, with smooth face and wearing dark clothes, cap, and plain soled boots.

Wire information immediately to any provincial officer and particularly to

F. S. HUSSEY,
Supt. of Police, Victoria.
or W. J. DEVITT,
Chief Constable, Nelson.

THE GLASGOW SOCIALISTS

INVADE THE CATHEDRAL DURING SERVICES

THE MOB DISPERSED BY POLICE AND SEVERAL INJURED

GLASGOW, Sept. 8.—Two thousand socialists and unemployed, after an open air meeting yesterday, at which violent speeches were made, attempted forcibly to invade the cathedral during services. A large body of police, which had been specially stationed there to *prevent just such an occurrence*, frustrated the designs of the mob by charging it with their batons. Several rioters were injured and the mob was finally dispersed. The socialist threaten to meet on Thursday, 50,000 strong and *attack the municipal buildings.*

DO NOT WANT PEACE.

Powerful Persian Influences Working Against a Compromise.

TABRIZ, Sept. 8.—The British vice consul here recently succeeded in arranging a renewal of negotiations between the nationalist leaders and an envoy sent by Ain Ed Dowleh, but powerful influences are working against a compromise. Hostilities broke out again yesterday and the nationalist forces bombarded the royalist lines.

EAGLE DAY AT FAIR.

Special Excursion Rates Arranged From Outside.

The Eagle committee has arranged with the C. P. R. for a special excursion train from Greenwood, Phoenix, Grand Forks and intermediate stations on Thursday 24th inst. the second day of the Nelson fair. They have secured the best rates ever given from Boundary points to Nelson and return, viz., from Greenwood, $3.40; *Phoenix*, $3.50; Eholt, $3.25; Cascade, $2.50. A special train will leave Greenwood Thursday morning 24th inst., returning Thursday night, thus giving the Eagles of the Boundary and their friends an opportunity of inspecting the Nelson fair and at the same time rubbing wings with their brother Eagles from many aeries with the *loss of one day only.* Detailed particulars of time, etc., will be given later.

The Eagles of Nelson Aerie No. 22 are busy arranging for a large number of their winged brethren who are coming from every point of the compass on Eagle day, a grand procession in the afternoon from the Alice rink to the *fair grounds.* A promenade concert and dance in the evening will be features of the entertainment.

A Travelling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to LeGrande, Ore.," writes Sam A. Garber, a well known travelling man. "I was in the smoking department with *some other travelling men when one of* them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so that you could not straighten them, and with a deathlike look on her face Two or three ladies were working with her and giving her whiskey I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it,) ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give *it to her, but I succeeded. I could at once* see the effect and I worked with her rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into LaGrande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into LaGrande she was all right, and I received the thanks of every passenger in the car." For sale by all druggists and dealers.

TYPOGRAPHICAL UNION LABEL NELSON, B.C.

MR. CURTIS' ADDRESS.

It was an interesting if not a very convincing address that Mr. Smith Curtis delivered to the members of the Young Liberal club Monday evening, and if what he then said constitutes his appeal to the electors of this constituency there need be no doubt of the result of the election. Mr. Curtis will be left at home to ruminate on what might have been.

His talk of the good times in Canada being due to the Laurier government is, to use a mild expression, silly twaddle. He was quite outspoken in his condemnation of graft in public life, but in the same breath he asked his hearers to help elect him as a supporter of the government that has been guilty of a carnival of corruption such as happily never before has disgraced Canada. His admission that some of the members of the government might have guilty of corruption and should be turned out or the people themselves would be become corrupt is a masterpiece of logic, but it will strike the ordinary layman, not gifted with Mr. Curtis' powers of reasoning, that a government can be no better than the men who compose it and that the only way to clean the Aegean stables at Ottaya is to turn out present ministry and put in another in the hopes that it will do better and to keep on doing this until the evil of corruption and graft has been stamped out of the country. Sir Wilfrid Laurier's government has been shown to be guilty and should be turned out and a chance given to Mr. R. L. Borden to make good his promises of clean government. If at the end of five years the people should find that Borden's government has not kept its pledge to give honest administration it would be their duty to turn him out and give his opponents another chance, and so on until the object sought has been attained. In this way, and in this way only, can Canada secure clean government. If the Laurier government, with its record reeking of graft and corruption, can secure an endorsation from the people at the approaching election it will be taken by it as a mandate to continue the policy of helping its friends at the country's expense which has already cost Canada so many millions of dollars.

Mr. Curtis announced himself an advocate of government ownership of railways and yet in the same breath he asked for the votes of those present as a supporter of Sir Wilfrid Laurier, the greatest opponent of government ownership in Canada today. At the time of the Dominion elections of four years ago government ownership of railways was an issue. Where was Mr. Curtis then? Was he not supporting Sir Wilfrid Laurier and his railway policy against Mr. R. L. Borden, the conservative leader, who was advocating government ownership of the Grand Trunk Pacific railway. If Mr. Curtis is sincere in his advocacy of government ownership of railways why was he not stumping the country in support of Mr. Borden in 1904? Then there was a possibility that he might be able to do something to advance the cause which he says is so dear to his heart, while now, even if he were elected, what could he, as a single, private supporter of Sir Wilfrid Laurier, accomplish in this direction?

On the Japanese question Mr. Curtis apparently is trying to throw dust in the eyes of the people. He blames the C. P. R. and Hon. James Dunsmuir for the influx of Japanese last year, and shuts his eyes to the fact that the bringing in of these undesirables was rendered possible only by the treaty put into effect by the Dominion government with the support of the liberal members from this province. Had it not been for that treaty neither the C. P. R., Hon. James Dunsmuir nor anyone else could have brought in Japanese by the shipload as they actually came.

Mr. Curtis wound up his effort by assuring the audience that if the people of this constituency would only send him to Ottawa he would save the country millions of dollars. That sounds fine, but some other people might have a say in the matter as well as Mr. Curtis. Hon. Mr. Fielding, for example, if the Laurier government should be returned to power, might think that he had something to do with the finances of the country and so might the other ministers who have assisted Sir Wilfrid Laurier in running up the annual expenditure from forty million dollars to one hundred million dollars in the short space of twelve years. These men would be in fine humor to listen to any talk of economy from Mr. Curtis if returned to power with the stamp of public appropal on all their past extravagances.

As a supporter of Sir Wilfrid Laurier's government Mr. Curtis necessarily assumes responsibility for that government's misdeeds and shortcomings and is also bound to the policy of his leader. He cannot get away from them, much as he might like to. He must stand or fall by the record and policy of the liberal party in power.

MINARD'S LINIMENT CO., LIMITED.

Gentlemen,—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road.

JOS. DUBES,
Commercial Traveler.

EDITORIAL NOTES.

While giving expression to high ideals one instant Mr. Smith Curtis the next descends to the veriest kind of ward politics. On Monday evening, for example, he told the Young Liberals that if the Laurier government were returned it would punish the people of constitutuency to have a supporter of that government in the house of commons, the inference being that sir Wilfrid would punish the peole of the constituency by withholding the grants to which they are justly entitled if they elected an opposition member. But Mr. Curtis did not say what would be the position of affairs should Mr. Borden be returned to power. If Mr. Curtis applied the same standard of statesmanship to Mr. Borden that he does to his own leader, sir Wilfrid Laurier, he would expect the constitutency to be punished for electing him, if the conservative leader is returned to power which is quite as likely as that the people should trust the present government with another term of office.

Mr. S .S. Taylor, K. C. speaking, at the Young Liberal meeting Monday night, referred to a boodle fund being at the disposal of newspapers. Did he then refer to the Edmonton Bulletin, owned by Hon. Frank Oliver, minister of the interior, the Victoria Times, owned by Hon. William Templeman minister of inland revenue, the Brockville Recorder, owned by Hon. George P. Graham, minister of railways and canals, the Winnipeg Free Press, owned by Hon. Clifford Sifton, late minister of the interior and the incoming minister of trade and commerce, the Montreal Herald, in which Hon. Sidney Fisher, minister of agriculture is interested, the Halifax Chronicle, owned and formerly edited by Hon. William Fielding minister of finance?

Mr. Smith Curtis is advocating government control of railway rates but he is supporting a government which four years ago voted down a motion offered by the opposition providing for direct control of the rates on the railway which the government is virtually building as a present for the Grand Trunk Pacific company.

The best certificate of character that Mr. John Keen of Kaslo could give Mr. Smith Curtis at Monday evening's meeting was that he was a renegade socialist.

SLOCAN'S LABOR DAY.

Winners of the Various Events—Happenings in the District.

(Special to The Daily News.)

SLOCAN, Sept. 8.—Despite the handicap of a depressing, drizzling rain, Slocan's celebration of Labor day was carried through successfully. A number of people from New Denver and Silverton attended, and evinced much interest in the sports.

The first event, a football match between New Denver and Slocan resulted in a victory for New Denver, with a score of two to one.

A Roseberry man, E. Jarrett, won both the 100 and 220 yard foot race. On the broad and high jump, Slocan scored, the former being won by R. McMillan, and the latter by W. Hicks. In the women's race, Mrs. H. Lowe, of New Denver, was successful.

The winner of the horse race was Charley, owned and ridden by Cameron, of Slocan.

The ladies of Knox Presbyterian church dispensed refreshments during the day, and the band under the directorship of Charley, the painter, discoursed music. The celebration closed with a ball in the evening, at the I. O. O. F. hall.

A. E. Teeter left yesterday for Idaho, where he will spend the winter with his brother.

Walter Agassiz, of Kingston, is visiting his aunt, Mrs. E. W. Ham at her home near Slocan.

Mrs. John Frame, of Patterson, N. J., is the guest of Mrs. Alex. Kenmure.

Martin Gurney has recently arrived from England, and will settle on a ranch a few miles down the valley.

Miss Annie Rae, who spent her vacation at her home here, has returned to school in Kaslo.

Mrs. Aylivin, of New Denver, is visiting friends in town.

Mrs. J. Hardy and child have gone to join Mr. Hardy in Nelson.

AGITATION OF SOCIALISTS

CITY OF GLASGOW NOW IN AN UPROAR.

PECULIAR THREAT HELD OUT BY THE LEADER

GLASGOW, Sept. 8.—The socialist leaders in the agitation among the unemployed which has been going on here for several days past still maintaining a threatening attitude, has necessitated constant vigilance and the employment of a large extra force of police.

Last night one of the leaders, asserting that it had been decided to make a series of midnight marches into the wealthy sections of the city after the extraordinary threat that unless the municipal council did something practical for the unemployed in a month, he would reveal all the secrets of the Masonic organization and put every man, woman and child in Glasgow in possession of all the grips and passwords of the order.

MORE SUBSCRIPTIONS.

Burning Case in Home Hospital Progressing Favorably.

These who have been collecting subscriptions in aid of the girl in the Home hospital who was recently so badly burnt wish to appeal still further to the generosity of the people of Nelson. The unfortunate patient is progressing favorably at present; but it will be months before she will be able to leave there and more funds are needed. They thankfully acknowledge the following contributions: Miss Lambe, $10; Mrs. Allen, $1.00; a friend, $5.00; a friend, $5.00; Ladies' Guild at Ymir, $5.00; Miss Dickie, $1.00; Miss McCandl'sh, $1.00; Miss McLaughlin, $1.00; H. E. Dill, $1.00; John Teague, $1.00; a friend from Ireland, $14.61.

DISCLAIMING DISLOYALTY

AUSTRALIA AND THE VISIT OF THE AMERICANS

GOVERNOR AND PREMIER ALIKE MAKE PROTESTS

LONDON, Sept. 8.—The governor of Victoria, Sir Thomas Gibson Carmichael on behalf of all the ministers has sent a cablegram to the Earle of Crowe, secretary of state for the colonies in London, that events in connection with the visit of the American fleet at Melbourne will only strengthen, if that is possible, the feeling of loyalty which is so deeply rooted in Victoria.

Alfred Deakin, the premier of the commonwealth, has also issued a statement which has been made public here, explaining in a similar way that the reception of the Americans does not imply any failure to recognize the kinship of the mother country or Great Britain's naval power.

LUMBER TRADE.

OTTAWA, Sept. 8.—In his report to the trade and commerce department, Canadian trade commissioner Preston from Japan, says Japan is now developing a large export trade in lumber, last year's reports totalling over six million dollars, but Canada gets only nine per cent. of this trade. Preston says there is a large opportunity for much larger trade, especially in view of the steady shrinkage in American supply.

REPORTS ON FRUIT CROP

GOVERNMENT BULLETIN SAYS CONDITIONS FAVORABLE

CROP IS RIPENING EARLIER THAN USUAL

The Dominion government's monthly report on the fruit crop issued under date of August 31 reads as follows:

Weather conditions have been favorable for the fruit crop during the month of August. All fruit is ripening earlier than usual.

Apples: Duchess apples have been moving freely from Southern Ontario in good condition. Gravensteins, Colverts and Alexanders have been shipped in small quantities and are yielding a full crop. Indications show a full crop for fall apples and below a medium crop for winter apples.

Pears: Clapp's and Bartlett's have been exported in small quantities. The prospects in Southern Ontario are for a medium to full crop of pears. Everywhere else a light crop is expected, except in British Columbia where the prospects show a medium crop.

Peaches: Early peaches have proved a medium crop. Yellow St. Johns are now being harvested. Late peaches are reported a light crop.

Plums are light generally, except in British Columbia and small portions of Ontario.

Grapes are reported a full crop. Moore's early and champions are now on the market.

Tomatoes are proving a medium crop.

Insect and fungus disease are not so prevalent as usual.

The United States crop reports show winter apples about the same as last year.

Peaches a full crop and other fruits good.

Great Britain: The prospects for tree fruits offer less than a medium crop and not as good as last month.

NEWS NOTES OF PHOENIX.

Semi-Annual Election W. F. of M.—Oddfellows' Banquet.

(Special to The Daily News.)

PHOENIX, Sept. 8.—At the semi-annual election of officers of Phoenix Miners' union, the following were elected: President, Richard Silverthorne; vice president, John R. Campbell; secretary, W. A. Pickard; treasurer, Francis Knott; conductor, Hector McNeiven; warden, W. Nogle; trustees, F. Knott, J. R. Campbell, D. W. McKenzie, C. Elmer, J. D. McLean.

Under the able direction of the new teaching staff the attendance at Phoenix public school has increased about thirty-five per cent. and the trustees are now considering the enlarging of the school and increasing the staff of teachers. D. A. Grant of Winnipeg is principal, and Miss Thompson of Vancouver is assistant.

Hugh J. Foulton of Ladysmith, grand master of the I. O. O. F. of British Columbia, was the guest of honor at an elaborate banquet here last night, tendered by Snowshoe lodge No. 46. Past Grand F. J. McDougall presided over an interesting toast list with bright and pithy responses, interspersed with music. The grand master, replying to the toast of the grand lodge, gave an interesting address on the growth of Oddfellowship in British Columbia. Visiting brethren were present from Nelson, Trail, Rossland, Moyie, Grand Forks and Greenwood.

Herbert Hartley has been appointed secretary treasurer of Phoenix city corporation, succeeding M. M. Stephens who has removed to Prince Rupert.

AXE HAS FALLEN.

Protest of Tom Longboat Taken up at Ottawa.

OTTAWA, Sept. 8.—The axe has fallen at last on the Amateur Athletic Federation of Canada. An official report of Saturday's meeting of the central Olympic committee handed out today and in a resolution, passed unanimously, the Central Olympic committee expresses the opinion that the federation broke faith with the country, the Olympic committee and the Canadian Amateur Athletic union when Leslie Boyd, A. R. S. representative, protested Tom Longboat. The Olympic committee requests the resignation of the remaining members of the federation on general Olympic committee. The committee also decided that in view of the federation's protest, C. A. A. U. is not further bound by the peace agreement made last November.

"WESTWARD HO!"

The September number of "Westward Ho!" is not only up to the expectations which the sanguine publishers have created but far exceeds them. Its short, crisp and pointed romances are all that could be desired. Not one of them but gives us a new insight into human life and conduct. "The Remittance Man," a tale of Medicine Hat; "The Mission of Roses," and "An Old Fashioned Colonel" are, with several others, fascinating, and best of all, elevating and calculated to draw out and inspire all that is best in the reader. This is the kind of fiction needed in the home.

The September articles are lucid and concern present problems, industrial developments, and the future potentialities of western Canada, to which the publishers seem intensely devoted. Those on "Prince Rupert in the Making;" "The West as a Feld of Immigration;" "An Appreciation of Sir Thomas Shaughnessy" and many others, are all most interesting and instructive; while art is gracefully touched by John Kyle in "Sketching From Nature" the romantic, historical in "Ruined Cities of Ceylon," and the domestic in "Country and Suburban Homes."

The Yellow God
By
H. Rider Haggard
Author of "King Solomon's Mines," "She," "The Brethren," Benita," Etc.
(All Rights Reserved.)

Leaving go her husband, the Asika bounded up to Alan, and tried to drag him from his chair, thrusting her gold mask against his mask. he refused to move, and after a while she left him and returned to the Mungana. Louder and louder brayed the music and beat the drums, wilder and wilder grew the shrieks. Individuals fell exhausted, and were thrown into the water where they sank or floated away on the slow moving stream, as part of some inexplicable play that was being enacted.

Then suddenly the Asika stood still and threw up her arms, whereupon all the thousands present stood still also. Again she threw up her arms, and they fell upon their faces and and lay as though they were dead. A third time she threw up her arms, and they rose and remained so silent that the only sound to be heard was that of their thick breathing. Then she spoke, or rather screamed, saying:

"Little Bonsa has come back again, bringing with her the white man whom she led away," and all the audience answered, "Little Bonsa has come back again. Once more we see her on the head of the Asika as our fathers did. Give her the sacrifice. Give her the white man."

"Nay," she screamed back, "the white man is mine. I name him as the next Mungana."

"Oho!" roared the audience, "Oho! she names him as the next Mungana. Goodbye, old Mungana! Greeting, new Mungana! When will be the marriage feast?"

Soon, however, he forgot it, for a new act in the drama had begun. Two priests, clad in horns and tails, leapt into the dais, and at a signal unlaced the mask of Little Bonsa. Now the Asika lifted it from her steaming face and held it on high, then she lowered it to the level of her breast, and holding it in both hands walked to the edge of the dais, whereupon priests disguised as fiends, began to leap at it, striving to reach it with their fingers and and snatch it from her grasp. One by one they leapt with the most desperate energy each man being allowed to make three attempts, and Alan noted that this novel jumping competition was watched with the deepest interest by all the audience, at the time he knew not why.

The first two were evidently elderly men, who failed to come anywhere near the mark. Their failure was received with shouts of derision. They sank exhausted to the ground, and from the motion of his body Alan could see that one of them was weeping, while the other remained sullenly silent. Then a younger man advanced and at the third try almost grabbed the fetish. Indeed, he would have grasped it had he not met with foul play, for the Asika, seeing that he was about to succeed, lifted it an inch or two, so that he also missed, and with a groan joined the band of the defeated. Next appeared a fourth priest even more horribly arrayed than those who went before him, but Alan noticed that his mask was of the lightest, adn that his garments consisted chiefly of paint, the main idea of his make-up being that of a skeleton. He was a thin active fellow, and all the watching thousands greeted him with a shout. For a few seconds he stood back gazing at the mask as a wolf might at an unapproachable bone. Then suddenly he ran forward and sprang into the air. Such an amazing jump Alan had never seen before. So high was it, indeed, that his head came level with that hof the fetish, which he snatched with both hands, tearing it from te Asika's grasp. Coming to the ground again with athud, he began to caper to and fro, kissing the mask, while the audience shouted.

"Little Bonsa has chosen. What fate for the fallen? Ask her, priest?"

The man stopped his capering and held the mouth of Little Bonsa to his ear, nodding from time to time as though she were speaking to him and he heard what she said. Then he passed round the dais where Alan could not see him, and presently reappeared holding Little Bonsa in his right hand and in his left a great gold cup. A silence fell upon the place. He advanced to the first man who had jumped and offered him the cup. He turned his head away, but a thousand voices thundered "Drink!" Then he took it and drank, passing it to a companion in misforture, who in turn drank also and gave it to the third priest, he who would have snatched the mask had not the Asika lifted it out of his reach.

This man drained it to the dregs, and with an exclamation of rage dashed the empty cup into the face of the chosen priest with such fury that the man rolled upon the ground for a while and lay there stunned. Now he who had drunk first began to spring about in a ludicrous fashion, and presently was joined in his dance by the other two. So absurd were their motions and clownlike grimaces and tumblings, for they had dragged off their masks, that roars of brutal laughter rose from the audience in which the Asika joined.

At first Alan thought that the thing was a joke and that the men had merely been made drunk, till catching sight of their eyes in the moonlight, he perceived that they were in great pain, and turned indignantly to remonstrate with the Asika.

"Be silent, Vernoon," she said savagely, "blood is your oruna, and I respect it. Therefore, by decree of the god, these die of poison," and again she fell to laughing at the contortions of the victims.

Alan shut his eyes, and when at length, drawn by some fearful fascination, he opened them once more and it was to see that the three poor creatures had thrown themselves into the water, where they rolled over and over like wounded porpoises, till presently they sank and vanished there.

This farce for so they considered it, being ended and the stage, so to speak, cleared, the audience having laughed itself hoarse, set itself to watch the proceedings of the newly chosen high-priest of Little Bonsa, who now had recovered from the blow dealt to him by one of the murdered men. with the help of some other priests he was engaged in binding the fetish on tot a little raft of reeds. This done, he laid himself flat upon a broad plank which had been laid ready for him at the edge of the water, placing the mask in front of him, and with a few strokes of his feet, that hung over the sides of the plank, paddled himself out to the centre of the stream where the god called Big Bonsa floated, or was anchored. Having reached it he pushed the little raft off the plank into the water, and in some way that Alan could not see, made it fast to Big Bonsa, so that now the two of them floated one behind the other. Then while the people cheerer, shouting out that husband and wife come togeter again at last, he paddled his plank back to the water's edge, sat down and waited.

(Continued in Next Issue.)

THE OXFORD CHANCELLOR

RANGE

is the best value in an all-steel range offered to the people of British Columbia today.

It is handsome in appearance, solid in construction, designed by competent, experienced stove builders, and set up by skilled workmen.

Before you purchase a range, examine some of the outstanding features of the Oxford Chancellor.

It will appeal to your judgment—give you satisfaction when you buy—and prove to the hilt every claim our agents make for it.

REAL ESTATE BROKERS :: NELSON, B. C.

Every Non-Progressive Merchant

Becomes

Your Competitor

When You Cease to Advertise Aggressively

When a merchant "slows up" in his advertising, and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store.

Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means "saving."

If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.

How Many Families in Nelson Do You Know By Name?

Not so very many when you come to think it over. And right here is where we can help you. Your announcement in the columns of THE DAILY NEWS will introduce you to nearly every family in town, as well as to a large list outside of the city.

FRUIT ADDING TO WEALTH

WHAT C. P. R. OFFICERS SAY OF PROVINCE

LOOK FOR BIG DEVELOPMENTS SOON

A party of C. P. R .officials, composed of W. R. MacInnes, general freight traffic manager; W. B. Lanigan, assistant freight traffic manager and F. W. Peters, assistant to the second vice-president, who have been making an annual trip of inspection of the principal western agencies and lines of the system have returned to Winnipeg after a six weeks' absence, during which they traveled over nearly every C. P .R. line and branch in the west.

Speaking of purpose of their trip the officials stated that they were making an annual tour of inspection of the principal western agencies of the company. They were very enthusiastic over the business conditions throughout the whole of western Canada. Business in British Columbia is better than for some years past. The fruit industry is adding greatly to the wealth of the province, and the mining and smelting industries are rapidly improving, and they looked for a great development in both lines in the near future. Although the lumber industry has been comparatively quiet for the past year, the magnificent crop in the entire country east of the Rockies cannot fail to have a beneficial effect.

Mr. Peters, who was formerly general freight traffic manager, and who is, therefore, in close touch with the work of that department, joined them at Calgary. Conditions in the freight department, they stated, were very satisfactory at present. A good grain crop in the west was now assured and as a result business was picking up in every line. They estimated that fully 250,000,000 bushels of all kinds of grain would be harvested in the west this year and the railways would be kept busy handling this. At present the wholesalers were placing large orders which were being shipped west rapidly. The cattle shipments were very large at present, particularly from southern Alberta. Mr. Peters estimated that these shipments were heavier this year than ever before in the history of the country and the cattle were in much better condition. Coal and coke shipments from the Crow's Nest Pass were also very heavy. Coal was being stocked all along the C. P. R. lines and there was no danger of a fuel shortage next winter.

WHAT'S DOING IN CANADA

ITEMS OF INTEREST FROM YESTERDAY'S WIRES

THE DOMINION FROM THE ATLANTIC TO THE PACIFIC

LONDON, Sept. 8.—Rev. L. D. Drake of Brantford, was elevated today to the general superintendentship of the British Methodist Episcopalian church.

PORT ARTHUR, Sept. 8.—Peter Deslaurie, a prominent tug owner, was found drowned in the bay this evening. He was 32 years of age and leaves a wife and two children.

QUEBEC, Sept. 7.—Judge Bosat of the court of king's bench died yesterday, aged 72. He was a member of the house of commons from 1882 to 1887 and was elevated to the bench in 1888.

LONDON, Sept. 8.—William McKeister, ager 17, used a loaded gun to knock down apples from a tree. The weapon exploded and the bullet entering the body just above the heart caused instant death.

NOWOOD, Sept. 8.—Ray McKelvie, son of J. McKelvie, proprietor of the Belvedere house at Stoney Lake, accidently shot himself last night while duck shooting. The bullet entered the left side causing almost instant death.

KELLO, Man., Sept. 8.—Oscar McLeod, aged 23, a popular young man of ahis town went duck shooting yesterday and as he did not return home by night search parties went out to look for him. His body was found a quarter of a mile from his home. Doctors say heart disease was the cause of death.

FORT FRANCES, Sept. 8.—Indians livingup the lake reported las tnight that a gasoline launch was seen to blow up and sink near Jack Fish yesterday afternoon with all hands lost. Enquiry and search reveals that one of the gasoline fish boats from Inetrnational Falls is missing with the owner Mr. Infelt and two fishermen. As no trace of them or the boat can be found it is feared the report is only too true.

CHINAMAN IS POLICEMAN

MONTREAL HAS CELESTIAL ON CITY POLICE FORCE

AUTHORIZED TO KEEP ORDER AMONGST COUNTRYMEN

Montreal has just received another addition to its police force, the latest recruit being a Chinaman.

Lee Chu, a famous character of Chinatown is the new policeman, and he will aid in preserving peace and carrying out the laws in the Oriental district of the metropolis.

Chu, of the Lee family, appeared before Mr. Champeau, chief of police, recently and assured the head of the force that he possessed all the necessary qualifications. He was then sworn in, giving a written document informing the world at large that the aforesaid Lee Chu was thereby empowered to apprehend all malefactors who came within his range of vision, and, in fact, to see that the laws of his majesty were carried out to the very letter and the spirit. To further impress the folk of occident and orient, Chu was given a lovely brass badge which may be read before running and says that its owner is special constable No. 72.

So Chinatown will now beware of Chu and the Lee family, the largest clan in the metropois, will all be good boys when Chu, their worthy and powerful cousin, takes a stroll in East Lagauchetiere street.

As a matter of fact the people of Chinatown are peaceful folk, but now and then one of the bad China boys will work a little blackmail, and try to exact bacheesh from a simple-minded laundryman who loves to tempt fortune at fan tan, or threaten to turn loose a tong and cut up generally, but, of the whole, the Chinese are excellent citizens and behave themselves. Their one fault seems to be a desire for running a little game.—Montreal Star.

MYSTERY OF HUDLEY COURT.

Coming Attraction at the Nelson Opera House.

"One of the strongest emotional dramas in the repertoire of the Marie Van Tassell company is the 'Mystery of Audley Court,' which will be the second offering of the company during their engagement here. Speaking of this play the Calgary Herald says: "Calgary theatre goers were again afforded the opportunity of witnessing Miss Marie Van Tassell, supported by a good company, in a most pleasing production entitled "The Mystery of Audley Court." The play itself was good. Miss Van Tassell was well supported and her acting was as usual far ahead of what is generally seen here. Her Mad scene in the last act was superb. Specialties were introduced between acts and were enthusiastically received."

SHOOTING AT THE TARGET.

Two Companies Have a Match and the Winners Are Challenged.

On Labor day the two Nelson companies of the 102nd. rifle regiment shot off their match at the range, with the result B company won out by the comfortable margin of 75 shots, although captain Carrie of C company carried off the palm for the highest individual score. Quartermaster captain Steele, on behalf of the staff, has challenged the winners and the match will come off on Sunday next at 8 o'clock. The scores follows:

B Company.

Captain Partington	77
Lieut. Anderson	72
Col. Sergt. Teague	77
Sergt. Lawrence	74
Private Richardson	84
Private Gunn	75
Private Hanson	64

C Company.

Captain Carrie	86
Lieut. McKenzie	78
Lieut. Turner	50
Sergt. Clayton	76
Private Dodds	67
Private Brown	58
Private Graham	35

NELSON NEWS OF THE DAY

The west end of Baker street is being graded under the supervision of city engineer Dufresne.

It is understood that there is to be a liberal rally at Kaslo, at which the candidate will address his friends.

The regular meeting of the Fraternal Order of Eagles will take place in Fraternity Hall at 9 o'clock, (city time,) this evening.

The stork visited five homes in Neson on Labor Day and the population of Nelson increased accordingly. The little strangers are welcome.

Godfrey Dangerfield has returned to town after a three week's visit to his former home in Manitoba, where he reports a fine crop of crabapples.

The Cranbrook football team returned home yesterday sadder and wiser men. They are going to practice up for a time before they venture to tackle Neson again.

The members of the Baptist church had a basket picnic to Robson yesterday which was well attended. There were a large number of young people present and a very enjoyable time was spent.

Work is still going on grading and levelling the track at the recreation grounds. A gang of fully a dozen are at work there and it is now certain that it will be in good shape for the races at fair time.

The weather yesterday was cooler and quite a stiff breeze was blowing on the lake. It is more than likely that the very warm weather is pretty well over. The thermometer varied between 73 and 47 degrees.

The regular meeting of Aberdeen Hive No. 12, L. O. T. M., will be held this evening at 8 o'cock sharp, city time. A full attendance is requested. After routine business there will be cards and refreshments.

A meeting of the ladies interested in the boat club dance on Tuesday next took place at the board of trade offices yesterday evening at which full arrangements were made to ensure the success of the entertainment.

The dance given by the members of the city band in the Alice roller rink was not well attended. It looks as if the citizens did not properly appreciate this useful organization which contributed so much to their pleasure and entertainment.

The university club will hold a session on Saturday evening at which J.T. Bealby will be the speaker. The topic is to be "Shakespeare as a Man." It is expected that a very interesting time will be spent. The exact time and place of meeting will be announced later on.

Curling enthusiasts are much interested in the scheme to build a new rink, especially as provision is to be made to accommodate them. A. Carrie, the architect, will submit a plan of the proposed building at the meeting at 8:15 p. m. tonight, (city time,) which is to take place at the board of trade office.

A meeting is to be held at 8:15 o'clock this evening at the board of trade offices to receive the report of the committee appointed to deal with the question of a new rink. It is strongly felt that it is essential for Nelson to have a new, up-to-date rink in the interests of winter sports, and it is hoped that all interested in the matter will make it a point to attend this meeting and lend their assistance.

Nelson has the chance of a lifetime to get together a championhockey team in Nelson and go aafter the Stanley cup. In Lester and Frank Patrick the city has two stick artists who rank second to none among hockeyists in Canada. Then the team has two crackerjacks in Harry and Archie Bishop. Only three more are needed to make up a full team, and Lester Patrick is now at the coast endeavoring to arrange for this. All that is wanted is a proper rink with adequate accommodation.

As an advertising medium The Daily News has always considered itself so good as to be in a field by itself; yesterday further corroborative evidence was given when a message was received at this office asking us to kindly inform the public that the boarding house offered for sale through our advertising columns is not situated at 511 carbonate street, and also that when the person wishing the announcement has anything to sell, it would centainly be advertised in The Daily News, as the house has been besieged by people who wanted to know if it was the place advertised to be for sale.

Tickets for the Nelson Boat Club dance which is to be held in the Alice roller rink on September 15th, are now on sale at J. J. Walker's jewelry store. The price of these tickets is $1.50.

If you want any building or repair work, Phone A172 and estimates or contracts or jobbing will be cheerfully furnished by McDonald and Williams. Shop, Front and Ward Sts. opposite court house. P. O. Box 367. 271-tf.

WANTED

Applications will be received by undersigned up to the 15th inst. for the position of Night Constable for the City of Trail.

H. DES BARES,
City Clerk.
117-5

For a Sprained Ankle.

A sprained ankle may be cured in about one-third the time usually required, by applying Chamberlain's Pain Balm freely, and giving it absolute rest. For sale by all druggists and dealers.

Don't be afraid to give Chamberlain's Cough Remedy to your children. It contains no opium or other harmful drugs. It always cures. For sale by all druggists and dealers.

Reciprocity With West Indies.

LONDON, Sept. 8.—According to a forecast on the proposed reciprocity treaty between Canada and the West Indies published here, a revision of the respective tariff would be necessitated. Canada it is stated must place a duty on foreign raw cocoa and fruit, while the Dominion must also agree to make the present concession of a preference on sugar duties binding so far as the West Indies are concerned. Reciprocating the West Indies would lower the rates of duty on food stuffs, agricultural implements and machinery. Jamaica is apparently unwilling to treat with Canada. It is probable that only the sugar exporting island in the first instance will enter the agreement.

Are you particular about your hosiery, sir? Then come here.

Emory & Walley
Clothes, Hats and Toggery

THE TWO INVINCIBLES.

Cod Liver Oil and Iron.

Cod Liver oil and iron in some form or other are prescribed by physicians the world over, more than any other two remedies the world has ever known, for anemia or poor blood, weakness, convalescence, and all wasting and pulmonary diseases.

Iron, because it is the basis of the blood and without a sufficient amount the blood is improvished, watery, pale and impure.

Cod Liver Oil, because it contains curative and reconstructive qualities greater that that possessed by any other one medicinal agent.

In Vinol, modern science has given to the world a combination of these two world-famed tonics—Cod Liver Oil and Iron, but shorn of all useless oil or disagreeable features.

Vinol is made by a scientific, extractive and concentrating process from fresh cod's livers, combining with peptonate-of-iron all the medicinal, healing, body building elements of cod liver oil, but no oil.

As a body builder and strength creator for old people, delicate children, weak, run-down persons, after sickness, and for Chronic Coughs, Colds, Bronchitis, and all throat and lung troubles, Vinol is unexcelled.

We ask Nelson people to give Vinol a trial. It won't cost anything unless it gives satisfaction. Wm. Rutherford, Druggist, Nelson, B. C.

Plan at Rutherford's Saturday

NELSON NEWS OF THE DAY

Charles A. Waterman & Co. will hold an auction sale this afternoon at the residence of S. A. Wye, 510 Victoria street.

The challenge cup for the district exhibit at the Kaslo fair is on view in the window of the Canada Drug and Book company.

The sisters of St. Joseph's academy opened yesterday morning for the fall term with an attendance of 125, an unusually large number for the first day.

A. S. Goodeve, the conservative standard bearer, will speak in Trail tonight, where it is expected that Smith Curtis, the liberal nominee will also be present.

Local race horses are out training every evening on the race track at the recreation grounds and each of their owners say they are almost certain of carrying off the honors in the races during the fair.

Yesterday B. C. Travis took a party of friends up Kootenay lake fishing and, getting stormbound, could not proceed till late. Eventually they put in to Kaslo for the night and only got back to town last night.

W. H. D'Arcy, chief claims agent of the C. P. R., with headquarters at Winnipeg, and his son Harry D'Arcy are guests at the Strathcona. Mr. D'Arcy is on an official tour and had a conference with mayor Taylor last night.

A joint meeting of the executive committees of the Nelson Liberal Conservative Association and the Young Corservative Association will be held at the club rooms of the latter institution on Thursday evening at 9 o'clock, city time.

The final arrangements for the C .P. R. Federated Trades dance has been completed, and the rink has been nicely decorated. The lunch is in charge of the ladies auxiliary. Irwin's orchestra will be in attendance. Grand march 9:30, city time.

At a meeting of the committee of the boat club held last evening arrangements were made as to the holding of the boat club dance. A final meeting for the perfecting of these arrangements will be held on Saturday evening next at 8:30 o'clock city time, in the publicity bureau.

No trace has been found thus far of the body of Thomas Taylor, who was drowned in the vicinity of Granite a few days ago while fishing. It is somewhat doubtful now if the remains will be found for some time, if at all, as it may have gone over Bonnington falls.

At a meeting of the Young People's society in connection with St. Paul's church held last night officers were elected for the balance of the year, and it was arranged to hold a social evening next Tuesday with a musical program and an address by Mr. Kenmuir, of Slocan City, of some of his experiences in the far east.

The dance to be given this evening by the members of the Federated Trades of the mechanical department of the C. P. R. in the Alice roller rink, is assured of success and the committee having charge of the arrangements state that the ball will surpass anything of its kind even held inthe city. Dancing will commence at 9 o'clock and sumptuous refreshments will be provided.

The Baker street window of the Canada Drug and Book co's. store is of commanding interest this week, to those interested in the latest filing devices, card systems, and loose-leaf goods—being the latest materials put together by people who know how. The Canada Drug and Book Co. is the headquarters for the best inthe line of office supplies, from desk ticklers to the latest in filing cabinets. Those in need of anything in this line will do well to have their representative quote prices before placing their orders.

The club rooms of the Young Conservative club are now furnished in a very convenient and practical manner. One very happy feature is the striking likeness of R. L. Borden, the leader of the party. The walls are also decorated with fine portraits of Sir John A. Macdonald, Sir John Thompson, Sir William Ralph Meredith and the father of the confederation. A pool table has already been installed and it is the intention tto do still more so as to make all members and their friends feel comfortable and at home.

A very interesting constitutional point was argued before judge Wilson yesterday in the case of the Merchants' Protective and Collecting Association, Ltd., against the Nelson Brewing Co., Ltd. The defendant's counsel, R. S. Lennie, contemplated that the plaintiffs, not being registered under the provincial Companies Act, has no status in this province. They are incorporated by the dominion parliament and are not registered here. On the other hand, R. M. Macdonald for the plaintiffs argued that, the dominion having sole jurisdiction over trade and commerce, the province has no right to prohibit such a company from doing business in the provinces, as they practically do by this legislation. The case was argued thoroughly on both sides and judge Wilson eventually reserved judgment.

Dr. and Mrs. A. W.Irving are registered at the Strathcona. Dr. Irving is a nephew of Robert Irving of the Canada Zinc company of this city, and is on his way to attend the annual meeting of the International Association for the study and prevention of tuberculosis. This assembly embraces the whole world and has president Roosevelt for its presiding officer. Dr. Fagan, provincial health officer, will also attend this meeting. Dr. Irving is superintendent of the sanatorium at Tranquille ,B. C., where at present there are 27 patients. It is hoped ere long to increase the capacity to 90. One interesting feature is that, as an annex to the institution, there are 400 to 500 acres of irrigated land which enable the management to supply all the supplies needed.

PERSONAL.

John Keen has returned to Kaslo.

Smith Curtis left for Rossland yesterday morning.

Clarence Moodie and wife are leaving by the S. F. and N. this morning on a visit to Spokane.

D. H. Spencer, accompanied by his wife and daughters, chief clerk and cashier of the C. P. R. at Portage La Prairie, who has been spending a week with F. E. Simpson of Cranbrook, came into Nelson last night and will remain here for a few days as guests of R. S. Wright and wife, travelling auditor for the same company.

REVIVAL IN KLONDYKE

OUTPUT OF PALMIEST DAYS WILL BE RIVALLED

CORPORATIONS NOW GET BULK OF THE GOLD

VANCOUVER, Sept. 8.—The Klondyke's output this year will be increased $2,000,000 over that of last year making a total of $5,000,000 this year. The increase is due to the installation of new dredges, electrical conveyors and hydraulic plants. The output will be greatly increased next year and the Klondyke soon will be yielding as much annually as in its palmiest days. The only difference is that the corporations are getting the bulk of the bold instead of the individual miners, yet many individuals are still employed.

The upper Yukon river is in first class condition for travel and there is every indication that travellers leaving for the outside as late as Sept. 25, will be able to reach Dawson without trouble.

Her Own.

Mistress—"Whose helmet is that, Jane?"
Jane—"Mine, please ma'am."
Mistress—"Yours? Why it's a policeman's."
Jane—"Yes, ma'am; he's mine, too."

Fall Suits

New up to date samples for the House of Hobberlin clothing to hand.

Call and leave orders early for your fall suit or overcoat; when you can secure first choice. We make a specialty of those that are difficult to fit. Every suit is cut to fit the individual. All suits are guaranteed a perfect fit and to keep their shape.

PRICES FROM $20 TO $35.

Quality Insures Durability

Add style and good taste to it and the result is satisfaction. Our own manufactured jewelry is known to possess all of the above quality. Last but not least is the price. When buying jewelry from us you buy direct from the manufacturer, thereby saving the middleman's profit. At present we are offering some good values in children's rings.

Child's solid gold rings, plain 50c, 75c and $1.00
Child's gold rings, set with pretty gems at $1.00, $1.50 and $2.00

Going Fishing?

If so, outfit with us and you will never be able to say that if your tackle had been good, you would have landed the big one. The

Fishing Tackle

we sell is the best made and insures a good catch with the smallest percentage of lost fish.

NELSON HARDWARE Co.
Baker St. Nelson, B. C.
This Store Closes Wednesday Afternoons at 1 o'Clock.

$2000

is not a high price to pay for a modern 8-room house and two well cultivated lots in Nelson. But add to this 20 acres of good fruit land near Bonnington, without increasing the price, and you have one of the best snaps on the market. We have it, and $600 cash, balance on terms to be arranged, will take the property.
