PROVINCIAL LIBRARY

A SUCCESSFUL ENDING

Celebration Program Was Well Carried Out

Begatta, Firemen's Sports and Lacrosse Games Are Well Patronized---Finances Satisfactory and all Pleased

The second and final day of this city's fourteenth celebration of Dominion day witnessed the conclusion of an excellent program which was varied enough to satisfy all tastes.

Trail slaughtered the local team at baseball and carried off the Walker trophy by a score of 7 to 0.

At lacrosse the Nelson team again demonstrated their ability to get away with the visitors from Revelstoke, by getting 4 goals to their opponents 2. The match was, if anything, more interesting than on the previous day and the Revelstoke team put up an exceedinly creditable game. Nelson people will be glad to see them come here on some future occasion.

The regatta was concluded very successfully and the large attendance of spectators showed the popularity of this feature of the two days program. The lawn tennis tournament, Caledonian sports, and the dances held last evening all proved pleasant events.

The Nelson band did good work, and aided materially in sending off the different events. They have made a marked improvement since their first public appearance a month ago.

No accident occurred to mar the proceedings and not a single arrest was made by the police during the two days. Mayor Hamilton stated last night that financially the committee would emerge from the celebration with a small balance on the right side of the ledger and altogether the celebration proved a success.

NELSON WON AGAIN.

Defeated Revelstoke After a Game That Was Strongly Contested.

The lacrosse game drew a large crowd yesterday and from the spectators viewpoint proved more exciting than Friday's match. Nelson again proved to be the best team, scoring 4 goals to Revelstoke's 2.

The lineup of the teams was the same as on Friday, but C. E. Summers, of Rossland officiated as referee, in place of Dr. McLennan.

The first quarter opened with some rather loose passing, but it was soon seen that Revelstoke was there to win if good hard work could accomplish that end. They stayed on their checks closely and managed to score first game. The trick was done by Saunders, and the spectators loudly applauded.

The game became some livelier then and Blackwod secured a goal for Nelson after a pretty piece of combination play. The first quarter ended with the score 1 to 1.

In the second quarter Revelstoke continued their heroic efforts to hold their own and fought pluckily, but finally Nelson worked the ball in close to Revelstoke's flags and McNichol made a shot. The goal keeper turned it out, but Blackwood, who was in close, recovered it and shoved it through, making the score 2 to 1 in favor of Nelson at the end of half time.

The second half opened with a rush, Thompson getting the ball on the face off and passing to Perrier, who passed to McNichol, to Blackwood, who scored, the whole operation taking about 15 seconds.

The play proved exciting from this on Revelstoke making a spendid effort to even matters up, their combination work and close checking, being much improved over that of Friday, but Nelson again tallied, McNicholl doing the shooting, and the third quarter ended with the score 4 to 1 in Nelson's favor. The play in the last quarter was rather loose so far as Nelson was concerned, and Revelstoke made several good shots and did some nice combination work, finally securing their second goal in the match, which was scored by Latham.

The quarter ended without further scoring and the result was: Nelson 4, Revelstoke 2.

THE FIREMEN'S SPORTS.

War Eagles Carry Off Both Wet Test and Hub and Hub

The wet test and the hub and hub race for firemen called out four teams yesterday, respectively the War Eagle's team from Rossland, and the Trail, Phoenix and Nelson teams.

The wet test came off on Baker street and the hub and hub on the recreation grounds; there not being room for all the contesting teams on the street.

The order and time of the four teams in the wet test contest was as follows:

1. War Eagle team, 24 3-5 seconds.
2.—Trail team, 26 2-5 seconds.
3.—Nelson team, 27 1-4 seconds.
4.—Phoenix team, 28 seconds.

There was a dispute over the War Eagle's record on the ground of what happened at the hydrant when the water was turned on. The matter was not pressed however and the Rossland boys obtained first prize. For second place Trail easily got at least a second's start of the pistol but all the teams did well and no dispute was filed. Chief Steele was well pleased with the showing made by the local team, a young lot, who acquitted themselves very creditably in the contest with the older and heavier men.

The hub and hub contest run on the recreation grounds before the big crowd assembled their for the lacrosse match was a close and exciting event. At the winning line all the teams were bunched well together and the order found by the judges was:

1.—War Eagle.
2.—Nelson.
3.—Trail.
4.—Phoenix.

In prize money the War Eagle team captured $200 and Nelson and Trail $50 each.

The winning War Eagle team consisted of W. Dixon, P. Wilkinson, J. P. Cosgro, C. McBride, J. Table, J. Wolfe, C. Bateman and — Ducaine. Jack Watson was spareman. Guy Wilcox and Dan Cokley were on the nozzle and J. Brokenshire, West and Cave, on the hydrant.

The Nelson team was composed of Perrier, Kauger, McHardy, Elliott, Procter, Boyd, Hipperson, Davison McDonald Herb, Jeffs and Curran.

CALEDONIAN SPORTS.

Girls and Boys Who Carried Off Prizes Yesterday.

The program of children's sports on Baker street was successfully carried out yesterday morning. All the events were well contested and attracted much attention.

The following is a list of winners in the different events:

Girls' Foot race, 14 to 18 years—1st, Nellie Annable; 2nd, Lulu Ellis.

Girls' Footrace, 8 to 12 years—1st, Lulu Mackay; 2nd Winnie Ellis.

Girls' Bicycle Race, 14 to 18 years—1st, Nellie Annable; 2nd, Lulu Ellis.

Girls' Bicycle Race, 8 to 12 years—1st, Lottie Annable; 2nd, Winnie Ellis.

Boys' Footrace, 14 to 18 years—1st, G. Wallace; 2nd, Fred Loring.

Boys' Footrace, 8 to 12 years—1st, Edgar Ellis; 2nd, George Gore.

Boys' Bicycle Race, 14 to 18 years—1st, Charley Motley; 2nd, Clint McBeath.

Boys' Bicycle Race, 8 to 12 years—1st, George Gore; 2nd, P. Wilkinson.

As usual marshal Charley Waterman conducted children's races on his own account during the morning to the delight of both children and on lookers. Every child got a prize, Charley has a patent on that method, and the races continued as long as Mr. Waterman's store of nickels hung out. Then the marshal started a squaw race, and one of the contestants who carried her papoose slung over her shoulders won everybody's sympathy. She ran hard and eventually won second prize. The little papoose seemed to enjoy the affair, though its head was nearly wagged off in its mother's frantic efforts to get home first.

THE DRILLING CONTEST

Yesterday morning at 7 o'clock Mercer Antler and Jack Wray of Ymir, the team who were unable to drill when the others did the previous night owing to darkness intervening, took their turn at the rock and succeeded in getting down 29 3-4 inches, winning third prize and just defeating McDonald and Peters of the Venus mine, who made 29 3-8 inches. The first prize went to Faulds brothers of Greenwood with 37 14 inches and the second prize to Taylor and Hart of the Venus mine with 31 inches. The contest was keenly fought out and the event as well as the large number of miners it attracted to the celebration, demonstrate what a drawing number drilling, always proves.

THE REGATTA.

Rowing and Launch Clubs Provided an Excellent Program.

The joint regatta of the Nelson Boat club and the Kootenay Launch club yesterday afternoon proved one of the most pleasing features of the whole celebration. The day was an ideal one for the regatta, bright and clear with just enough wind to put a little life into the water, without at all bothering any of the contestants. From 4 till 7.30 a large crowd of spectators gathered along the water front and the arm of Kootenay lake was alive with boats of every description including a fleet of over 33 launches. A large barge for the public was anchored to the east of the club house, and on this the Nelson band enlivened the proceedings, while there was plenty of room for all spectators. Light refreshments were served during the afternoon.

The three heats for the lapstreak fours were the best races of the day. In the finals, No. 3 in Jesse's four broke his rowlock and thus put, what was probably the best four out of the race.

Lapstreak Fours—1st heat, Jesse, stroke; McMurty, 3; Dowker, 2; Gallon, bow. 2nd, Mason, stroke; Wilby, 3; Winter, 2; Nickerson, bow.

Second Heat—Gallon, stroke; Netherby, 3; Jamieson, 2; Banfield, bow. 2nd, Gibbs, stroke; Seatle, 3; Smith, 2; Winerby, bow.

Third and final Heat—Gillum's crew won easily, Jesse's crew made a game struggle, but No. 3 breaking a rowlack a quarter of a mile from the start, threw the crew out of the race. At the time of the accident Jesse's crew were leading, and the winners admit that but for the accident the other crew would probably have won.

Launch Race, 16 footers—After crediting time allowance the boats came in in the following order:

1st, Jarvis; 2nd, Schermerhorn; 3rd, Broadwood; 4th, Carter.

Launch Race, 18 footers—1st, Mathe-

THE VLADIVOSTOCK SQUADRON GETS AWAY

Vice Admiral Kamimura Was Close on to its Heels but the Vessels Eluded Him on Friday Night---Japanese Essay a Bayonet Charge and Meet With Severe Losses---They Lost About 8000 Men

London, July 2.—According to a despatch from Tokio to the Central News, only three cruisers of the Vladivostock squadron appeared in Tsu island channel and the torpedo boat belonging to the squadron have apparently returned to Vladivostock. Heavy cannonading was heard ashore at half past 8 yesterday evening, the despatch says, but the nature and results of the fight are not known. The Russian ships, however, seem to have suffered no damage, as they were afterwards seen making in a northeasternly direction.

St. Petersburg, July 2.—Nothing is known here of the report that a sea fight between the Vladivostock squadron and the Japanese squadron commanded by vice admiral Kamimura.

No surprise would be created here if the report should be confirmed. So far as known the Vladivostock naval division has not returned to that port.

The admiralty is greatly puzzled over the number and character of Japanese ships which rear admiral Withoft saw on June 23 before Port Arthur. Being unable to account for such a formidable fleet officers are now wondering if admiral Togo has not merchantmen as dummy warships. Later reports received by the naval authorities are to the effect that one of rear admiral Withoft's ships was slightly damaged in the recent engagement off Port Arthur.

Tokio, July 3.—The Russian Vladivostock squadron eluded vice-admiral Kamimura Friday night.

JAPS TRIED BAYONET CHARGE

Result Was That The Russian Rifles Mowed Them Down.

Liao Yang, July 2.—The late successes of the Russians at Dalin and in major Mistchenko's engagement with the Japanese has engendered a much better feeling. It is reported that in the fighting of June 26 and 27 the Japanese lost 8,000 men and that their losses in the operations against Mistchenko were 500. A striking feature of the last engagement at Dalin, as well as in the fight with Mistchenko's force, was that the Japanese tried a bayonet charge, to which they had not previously been partial. Their lines went to the charge with loud cries of "Ayar! Ayar!" but almost to a man they were mowed down by the Russian fire from the rifles.

One of the Japanese prisoners captured by general Mistchenko states that the provisions of the Japanese are running out and that the troops are badly fed. For two days prior to his capture, the prisoner said, the Japanese had eaten nothing, and this statements is confirmed by the Chinese. The Japanese commissary is entirely supplied from Japan and consequently is dependent upon sea communications and the effect of the loss of many boats in the recent storm is beginning to be seriously felt.

JAPANESE ADVANCING.

General Mistchenko's Forces Are Fighting Constantly With Them.

Liao Yang, July 2.—The Japanese are advancing over an extended front. Gen. Kouropatkin is in personal command of the Russian troops and they are in splendid spirits. The Russians are holding Dalin pass. Fifteen trains are arriving here daily. Major general Mistchenko's troops are fighting constantly. The Russians assert that photographs taken prove that the Japanese are killing the wounded. Lieutenant Chita, it is said, who was wounded near Siuyen, June 25, and who was left on the field was thrice wounded by the Japanese. The Russian soldiers are furious at this wanton cruelty. They also claim that the Japanese use foul language in approaching the Russians.

REITERATES CRUELTY CHARGE

Russian Paper Declares That Their Wounded Are Killed.

St. Petersburg, July 2.—The Journal de St. Petersburg prints today, an editorial dealing with the official denial by the Japanese government of the reports of the mutiliation of the Russian wounded. "A simple denial is not exculpation. We do not deny that our wounded are well treated at Sasebo and other Japanese cities where well organized hospitals are guarded under the eyes of Europe. But on the field of battle, when the Russians are forced to abandon the wounded, a cruel fate awaits them as their agonized cries then cannot be heard in Europe. A photograph has been taken by Dr. Stankevich of general Mistchenko's division, showing horribly mutiliated Russians, with hands cut off and tongues cut out, and pierced by bayonets. An officer was found in a pitiable condition, but still breathing. He was restored to consciousness and said he had been fired upon deliberately while helpless by a Japanese soldier. His disposition, signed by the Russian authorities and several military attaches will soon be in our possession.

"General Romanoff has made a detailed report upon the subject to the Red Cross and prince Jaim de Bourbon has furnished testimony regarding the battle of Vafangow. News has also come, and has not been denied in the Japanese accounts, that the Japanese use lances and have decided to give no quarter to the Cossacks who fall into their hands.

"In the face of such grave facts we think an indignant denial will not suffice to save the Japanese honor. We have reason to believe that the Japanese massacre and mutilate the wounded, but treat well, for the eyes of Europe, those remaining after the massacres.

"The proportion of the dead and wounded will prove much that is hardly possible now to determine, but sooner or later the truth will come out."

GUARDS IT CAREFULLY.

Russia Regards Its Line of Communication as Important.

Tien Tsin, July 2.—During the recent steam trials outside of Port Arthur, the battleships Czarevitch and Retvizan, and another warship are reported to have made 20 knots. The trials were undertaken to prove that the repairs to the warships were complete. About 32,000 men are engaged in guarding the railroad communications of the Russians and the consequent scarcity of men is preventing general Kouropatkin from undertaking more active operations at present. Even the preventing of the fall of Port Arthur is considered to be of less importance than of guarding the line of communications.

CRISIS AT PORT ARTHUR.

Russians Ready to Meet it With All Their Forces.

Che Foo, July 2.—It is ascertained that affairs are reaching a crisis at Port Arthur and the Russians are ready to meet it with all the forces at their command—The few foreigners remaining at Port Arthur, with the exception of several who are under suspicion, have been ordered to leave. A number arrived here today. Four battleships, gunboats and torpedo boats are kept in the harbor, while two battleships, five cruisers and torpedo boats make excursions to sea. A torpedo boat has made three trips to Yenkou and it is reported that on her last trip admiral Skrydloff was taken to Port Arthur. Russian ships which have been under repair have returned to the squadron.

KOUROPATKIN RETREATED.

Was Afraid That the Japanese Would Surround Him.

General Kuroki's Headquarters in the Field, via Fusan, June 28.—(Delayed in transmission.)—The Russian troops have retreated all along the line before the northern advance of the Japanese army and the country of the northwest is almost clear of them. A cavalry division, which has been active in front of the Japanese right, has retired along the roads and across the country. It appears as though general Kouropatkin feared he would be surrounded. Should he determine to make a stand at Liao Yang, a decisive battle before the rains is probable.

JAPANESE ARE RETREATING

St. Petersburg Believes the Tide is Turning in Their Favor

St. Petersburg, July 2—The outcome of the naval engagements off Port Arthur and Tsu island is monopolizing public interest. The land operations in Manchuria are believed to have been practically adjourned for six weeks until the rains shall be over. Telegrams from Liao Yang agree that the Japanese are withdrawing from their positions, the capture of which entailed the expenditure of much blood and ammunition. The same telegrams show that the Russians are promptly taking advantage of the withdrawal of the Japanese and are assuming the offensive, inflicting considerable loss upon the Japanese. Some persons attribute the Japaee retreat to the arrival at Liao Yang of heavy reinforcements and supplies, including 35,000 tents for the army corps. Others believe that field marshal Oyama, the newly appointed commander in chief of the Japanese forces in Manchuria, has decided not to venture further until the rains are over. Others see a connection between the Japanese retreat and the appearance of a Russian squadron, threatening the Japanese lines of communication. The Liao Yang correspondent of the Bourse Gazette declares that the entire credit of the Japanese retreat belongs to Kouropatkin, who at last has rewarded the patience of the Russian people. Unless a quite unforseen change in the situation occurs, the remainder of the campaign, it is believed here, will be favorable to Russia, owing to the failure of the Japanese to establish a base at Inkow where they could have enjoyed unrivalled facilities for harassing general Kouropatkin.

IT LOOKS LIKE PARKER

DEMOCRATS ARE CERTAIN TO NOMINATE HIM FOR PRESIDENT

COMPLIMENTARY BALLOTS MAY BE GIVEN TO FAVORITE SONS.

St. Louis, July 2.—All the men who will decide the presidential contest, have not yet appeared in the convention but among those who are here there seems to be a conviction that judge Alton B. Parker will be nominated early in the balloting. His most radical supporters claim he will be named on the first ballot, while others say that the favorite sons must be first complimented by the necessary two-thirds vote for them. The claims, that are not disputed in any authoritative quarter, are made that Parker will have a good majority on the first ballot and from states which will compel speedy recognition in the convention.

The arrival of the Californian and other delegations from the west, which are instructed to vote for Hearst, stirred the atmosphere early in the day and there was some speculation as to what strength Hearst actually had in the convention. The claims of Hearst's managers of more than a third of the delegates and with power enough to prevent the selection of any candidate not satisfactory to Hearst is not seriously considered by the friends of Parker. During the day there has been talk of Cleveland, Gorman, Olney and Harmon.

While the presidential situation is the most interesting feature of the anteconvention days, the platform is a subject of debate and serious consideration. Many suggestions have already been made, but no one can say which will meet with the most favor. Some of the delegates think the platform will engender the greatest contest of the convention. Hoke Smith of Georgia, who was secretary of the interior under Cleveland, is for Parker and will support him as long as there as a possibility of securing his nomination. If it becomes evident that Parker cannot be nominated, then Georgia has a majority for Cleveland. "Of course," said Mr. Smith, "my preference for Mr. Cleveland is well known and I would be glad to see him nominated, but we are honorably committed to judge Parker."

"No compromise with the radical silver element, no half way plank in the platform to attempt to placate the radicals, but a straightforward declaration for sound money." That is the statement with which the democratic leaders from New York landed in St. Louis.

CHAMPION RIDERS.

The Results of Races Held Yesterday at Fredericton, N. B.

Fredericton, N. B., July 2.—The dominion championship races of the Canadian Wheelmen's Association, held here yesterday were quite successful, although no fast time was made, the local riders were practically shut out. In the principal competitions the struggle for first place was between MacNeill, a Charlottetown man, Butley, of Boston, Morton of Toronto, and the McCarthy brothers of Stratford, Ontario. MacNeill has been protested in the championship events as it is believed he was not eligible. The summary is as follows:

Half Mile Championship — Morton, Toronto, 1st; MacNeill, Charlottetown, 2nd; F. R. McCarthy, Stratford, 3rd. Time 1:16 3-4.

Quarter Mile Championship—Morton, 1st; Smith, Windsor, 2nd; Inch, Fredericton, 3rd. Time 34 1-5.

One Mile Championship—MacNeill, 1st; Morton, 2nd; W. E. McCarthy, 3rd. Time, 2:30 4-5.

Five Mile Championship—MacNeill, 1st; W. E. McCarthy, 2nd; F. R. McCarthy, 3rd. Time 14:05 1-2.

RACES AT KAMLOOPS

Arrangements Completed for the Fall Meeting—The Events

[Special to The Daily News.]

Kamloops, July 1—At a meeting of the race committee of the Kamloops Agricultural Association held yesterday the program of the two days' fall racing was definitely settled. The dates of the annual fair of the association are September 28, 29, and 30, and the race meet will be held on the afternoons of the last two days. The opening day's program of sports to be held immediately after the grand parade of the prize winning stock, includes a polo match, bicycle racs, foot races; tug-of-war, gentleman's driving contest and best lady rider.

The horse racing starts each day promptly at 1 o'clock. The official program of events for the two days is as follows, September 29th: No. 1, 3:00 class, trotting or pacing, 1-2 mile, best 3 in 5, purse $200. No. 2, pony race, 1.42 and under, 1-2 mile dash, purse $75. No. 3, Association stakes, 1 mile, purse $200. No. 4, Kamloops stakes 5 furlongs, for B. C. bred fouls of 1902, $50 each and $150 added. No. 5, cowboy race, 1 mile, purse $25. No. 6, Indian race, 1 mile, purse $25.

Second day, September 30—No. 1, Free for all, trotting or pacing, best 3 in 5, purse $400. No. 2, 3 year old, provinvial bred, 3-4 mile dash, purse $200. No. 3, Kamloops Derby, 1 1-2 miles, purse $350. No. 4, provincial bred, weight for age, 3-4 mile dash, purse $175. No. 5, Consolation stakes, 1 mile, purse, $50. No. 6, Indian race, purse $10.

Martin Beattie, the secretary of the association, will leave shortly for the coast to interview prominent business men and generally to promote the interests of the fair, which by the way promises to be the largest in point of entries of blooded stock and horses, agricultural and other exhibits and amount of purses and prizes hung up of any in the interior.

Speaking of the horse races he said, "the full meet, judging from the number of inquiries already made and the promises of suport, will undoubtedly eclipse by far any previous races ever held at Kamloops. As against $1500 for purses last year, the association has hung up $2000. The half mile track and grounds have been placed in excellent condition and already a number of local horses are in training here. Besides the amount expended for various attractions, bands, etc., $350 has been provided for prizes and awards for exhibits, fully $1000 in excess of last year. The exhibition grounds—Alexandra Park—which with its numerous buildings has already cost the association $15,000, is admirably adapted for the purposes for which it is provided and with our proverbial brilliant fall weather, the fair and race meet will doubtless witness a large attendance."

GRAND FORKS MEET

A List of the Races to be Held There in August

[Special to The Daily News.]

Grand Forks, July 2—The annual race meeting of the Grand Forks Driving and Athletic association will be held here on August 25, 26, and 27, next.

The official program is as follows:

First day—No. 1, running, 1-4 mile dash, purse $50.

No. 2, running, 3-4 mile, purse $250.

No. 3, running, 3-8 mile, in heats purse $150.

No. 4, Grand Forks Derby, one mile, purse $400.

No. 5 cowboy's race, 300 yards, two turns, $40 in prizes post entries, entrance free.

No. 6 running race, 5-8 mile purse $150.

Second day—No. 7, gentlemen's saddle horse race, 1-4 mile, owners up, purse $40.

No. 8, running, 1-2 mile in heats, best two in three, purse $200.

No. 9, pony race, 1-4 mile, 14 1-2 hands purse $50.

No. 10, Seagram Cup, 7-8 mile, all ages. Winner of Grand Forks Derby to carry seven pounds additional weight, for a cup valued at $300, donated by J. E. Seagram, of Waterloo, Ont. and $300 cash added by the association. Cup to be won two years consecutively by same owner to become private property. Purse divided.

No. 11, cowboy race, 1-4 mile, two turns, purse $20, 1st $15, 2nd $5 post entries, entries free.

Consolation races will be run on the third day, August 27th. They will be open to horses which have failed to win prizes in the other races. Purses will be apportioned from 90 per cent of the gate receipts of the third day.

Horse exhibit—Parade before the grand stand on August 25th or 26th. Liberal cash prizes will be offered in the following clases, namely: Best bred stallion, best saddle horse, best standard bred tallion. Conditions, four to enter in each competition. Prizes in each class, $10.

The conditions for the horse races will be as follows: All purses divided, 70, 20 and 10 per cent. The rules of the New California jockey club to govern.

Entrance fee 5 per cent of purse, with 5 per cent additional from all winners. In all races four to enter and three to start. Entries in all events close with secretary, Yale hotel, August 24th at 6 p.m.

PROSPECTING IN SIAM

STEWART SAYS IT IS A DIFFICULT COUNTRY TO TRAVERSE

THE CURSE OF THE COUNTRY IS THE FEVER HE SAYS

[Special to The Daily News.]

Ymir, July 2—Two years ago last March James Stewart of Ymir left here for Signapore with a number of other Ymirites under an engagement to prospect for the Duff Development Company of London, a company that had received a concession of some 2000 square miles of territory near Kelantan, which territory was held by a native rajah under the Siamese government, Kelantan being some 400 miles up the coast from Signapore.

The work consisted of prospecting the concession for mineral, which, according to Mr. Stewart, was certainly hard to work, owing to the dense jungle that covered the whole country. There are no roads there, the rivers being the highways. Considerable mineral ledges were found, one of them being a ledge 70 feet in width and traceable for a very long distance. This ledge was of quartz, carrying free gold, galena and pyrites. The formation the country is a slate and limestone. Much game was met with, such as tigers, elephants etc. Asked if he shot any big game, Mr. Stewart stated that he came near shooting a Malay for a tiger.

The curse of the country is fever, Stewart being down with it for two months at Signapore and it again breaking out on him at Hong Kong and San Francisco on his way home. He says that no European in the East who had any contact with the Japanese, has any use for them, and said "if they beat Russia it will only be a question of time before England and America will have a task of a like nature on their hands."

One of the Ymirites who went out with the party, married a Siamese woman and today lives in Signapore with his wife, shunned by the English speaking people, who look upon his escapade as a great disgrace. Mr. Stewart has mining property here and will devote his attention to developing it. He has no desire to go back.

Harry Jackson and his partner, J. A. Mitchell, have been doing assessment work on the Sophy mineral claim, situated at the head of Roaring and Clearwater creeks. They report two feet of quartz and talc that carries free gold. The ledge matter when panned shown strings of the yellow metal. The adjoining claim, the Buckeye, owned by W. R. Bayes, has the same ledge and it is the intention of the owners to do considerable work.

FUTURE OF LE ROI

Rossland July 2—Anthony J. McMillan, managing director of the Le Roi, left last night for the east. He may go to London for a week before returning. Prior to his departure he made the statement to the Rossland Miner saying in part: "As regards the future I may say, notwithstanding rumors to the contrary, that it is not our present intention to close either the Le Roi mine nor the Northport smelter. Since I arrived I have done every thing possible to keep things moving along at both places and hope to continue this policy. The mine is in very ood condition and there is a very large amount of ore in sight. Much of the low grade ore we hope to concentrate if the tests we are now carrying on are successful. The high grade ore and the concentrates are mouth are too short to allow time for an investigation.

WILL REMAIN IN POWER

Balfour's Tenure of Office Will Last for Some Time

Liberals Will Allow Him to Deal With Pending Questions and They Do Not Like Spencer

London, July 1.—It is nine years ago today since the conservatives entered on their long lease of office, lord Salisbury having become prime minister on July 2, 1895. Lord Salisbury, the lord high chancellor, and lord Ashbourne, the lord high chancellor of Ireland, are the only two ministers who hold the same posts as they did then. In spite of incessant attacks on the government in parliament during the past week, and the difficulty of maintaining anything like a normal majority, there is no reason to believe that premier Balfour has any present intention of tendering his resignation, nor have the liberal leaders at this moment any real desire to attempt to force him to take such a step. Mr. Balfour realizes that it is not in accord with strict partliamentary principles to transact the nation's business by means of the closure, as he proposes doing for the remainder of the session. But the premier pointed out in the house of commons yesterday that in view of the persistent obstruction tactics of the opposition to all of the government's legislation there was no other course open.

Mr. Balfour desires to remain in power at least until important pending questions are settled, such as Tibet and the Russo-Japanese war, and he also is determined to carry through the larger domestic legislation promised by the king's speech, such for instance as the alien bill, and the bill to compensate owners of saloons for the deprivation of their licenses, when the government reduces the number of saloons.

The goverment is not seeking to curtail the session of parliament and does not expect an adjournment until late in August.

The attitude of the liberal leaders in the house of commons in desiring the retention of Balfour in power grows out of their opposition to lord Spencer, the liberal leader in the house of lords, who in case the government resigns, would naturally be selected to be the new premier. Moreover, they do not wish at the present time to undertake the management of some of the questions now pending.

OPERATING THE CLIFF

IT HAS JOINED THE LIST OF WORKING MINES AT ROSSLAND

SHIPMENTS FOR THE WEEK AGGREGATED 4,885 TONS

Rossland, July 2—The Cliff mine has rejoined the working list here after being closed down for four years. It will employ ten men in preliminary work increasing rapidly as men can be utilized. Arrangements have been made for the shipment of four cars of ore to the Granby smelter as an experiment to determine the treatment rates. Similar quantities will probably go out to the other smelters. The Cliff is now controlled by John Cook and E. L. Tate, both of Spokane, and will be under charge of Robert Angus, late of the Le Roi mine. The Iron Mask has shipped two cars of dump ore to the Granby smelter. If results are satisfactory a considerable tonnage will be sent out and the mine opened with resulting funds. All of the mines were closed down on dominion day and the shipments are lower than usual in consequence. The figures for the week ending tonight are as follows:

Le Roi	470
Centre Star	1,350
War Eagle	960
Le Roi No. 2	300
Le Roi No. 2 (milled)	250
Spitzee	30
Kootenay	395
Jumbo	120
Iron Mask	70

Total for the week, 4885; and for the year to date, 182,413.

AN INTERESTING GAME.

Buffalo, N. Y., July 2.—The Buffalo lacrosse club this afternoon defeated a team from Toronto in an interesting game at Olympia park. The score was 5 to 0. Buffalo was outplayed on the field, but the defence of the local goal was superior to that of the visitors. Raymond was the goal keeper for Buffalo and captain Wenbourne, who is an old Toronto player, was point. Many a time the Toronto men had been all around Buffalo's goal, but Wenbourne and Raymond were invincible. The team work of the Torontos was superior to that of Buffalo. They also excelled in stick handling. Buffalo made a goal in each of the first three quarters and two in the last. McArthur, third defence for Toronto, had to be taken out of the game because of injuries.

CELEBRATION A SUCCESS.

The two days celebration of Dominion Day came to a close last night and the results are satisfactory. The sports and games were interesting and diversified and pleased both the residents and the visitors. While there was no very large attraction, like a lacrosse team of champion players, all of the games and sports were of a sufficiently meritorious nature to please those who are reasonable. One remarkable attraction would have cost more to bring than a dozen ordinary ones, and it is doubtful if the crowd of visitors would have been 100 larger if the committee had paid one-half of the funds at their disposal for one big feature. The celebration committee will doubtless be criticized by a few, who are never satisfied with anything, but the members can afford to stand this as long as they met with the approval of the many, as we believe they have. A large majority of the residents of Nelson are satisfied that the funds placed at the disposal of the celebration committee have been well spent and consider that they are entitled to praise for their hard and conscientious work. Nelson has gained prestige by the celebration and those who came here from near and far to participate in it will come again.

PORT ARTHUR SQUADRON.

The irrepressible admiral Syyrdloff is again on the high seas with the Vladivostock squadron. While it is true that the squadron does not fly after very high game, and has so far given its main attention to sinking defenseless transports and bombarding fortless towns, still it has given the Japanese naval authorities some bad half hours. One of the Japanese admirals, Kamimura, is after the little Russian squadron and should he get in amongst it with one of his larger warships, it would be a good deal like a hawk amongst a flock of pigeons, and the squadron would soon be among the things that have been. The Japanese would doubtless remember how the squadron treated the defenseless men on the transports and would show the crews but little mercy and probably would not cease firing as long as a vessel remained afloat. Skyrdloff is at least a man of enterprise and action, has considerable courage, if not much mercy, and is willing to take chances by venturing outside the protection of the guns of the Vladivostock forts. He fairly shines by comparison with most of the other Russian commanders both on land and sea, who are past masters of inaction and indecision. There is a despatch, published in today's issue to the effect that Skyrdloff has gone to Port Arthur. If he takes command of the Port Arthur squadron there should soon be something stirring in the vicinity of the harbor.

M. Doumer, who is looked upon as France's coming man, and who, it is reported, may be the next premier if he wishes, is at present the leader in the race for the presidency of the republic. He is a journalist but began life as a locksmith. "Journalism," he says, "leads to everything, provided one does not stick to it too long."

MINES OF POPLAR.

Schist From Marquis and Gilbert Group Give Good Returns.

Frank Marquis has for some time been devoting his attention to the schists on the Marquis and Gilbert group, taking samples and panning, and will in a few days send several hundred pounds to Spokane to be tested by the Hendryx process, says the Poplar Nugget. He thinks that the greater part of the schist on his and the Swede group will run high enough to be mined and treated at a profit. The rock will run between $5 and $10 to the ton, and as there are enormous bodies of it, the cost of mining—or rather of quarrying—will not amount to more than 50 cents a ton. The rock will, of course have to be treated in the district, as it is not sufficiently high grade to pay freight in addition to treatment rates. With almost unlimited water power within a few hundred feet of the ore body, and with every natural advantage for cheap mining and treatment, there is no reason why hundreds of stamps should not within a very short period be crushing rock at a profit on Poplar creek. We have larger ore bodies and higher grade than the famous Treadwell in Alaska. The natural advantages are superior to those in the north, and every condition is more favorable for the profitable mining and treatment of the Poplar creek ores. All that is required is the stamp mill and this should be a profitable investment for capitalists.

Seven men are working on the Spyglass. This week a tunnel was commenced to tap the lead at a depth of 60 feet another tunnel will be started farther down the hill, from which stoping will be done.

Frank A. Tamblyn and Jack Gibson have run a 16-foot tunnel on the Morning Glory, an adjoining claim to the Swede on the northwest. The face is five feet in quartz carrying high gold values.

CHURCH SERVICES

Anglican—St. Saviour's church, corner of Ward and Silica streets. Fifth Sunday after Trinity. Holy communion 8 a. m.; Matins and holy communion, 11 a.m.; Sunday school, 9:45 a.m.; evensong, 7:30 p.m. Rev. F. H. Graham, rector.

DOCTOR'S CRUSADE

Ontario Medicos on the Warpath Against Patent Medicines

Toronto, July 2—The Ontario Medical Association wants the dominion government to legislate to make it a misdeamenor to state in advertisements of patent medicines that an article will cure any specific ailment which ingredients do not warrant. It also wants legislation to require the formula to be placed in each package, in order to prevent the importation or sale of poisonous and injurious drugs.

ROBERT BEITH NOMINATED

Newcastle, Ont., July 2—The liberals of the united counties of Durham, have nominated Robert Beith, sitting member for West Durham as candidate at the next general elections.

PRODUCING BULLION

HOW THE ORE IS TREATED AT THE FIVE-MILE POINT MILL

SEVERAL PROCESSES NECESSARY BEFORE VALUES ARE PRODUCED

The Lardeau agle contains the following description of the operation of the new mill of the company owning the Silver Cup and Nettie L. at Five Mile Point:

From the mouth of the Sunshine tunnel an aerial tramway has been constructed to the valley of the South Fork. The upper terminal is just sufficiently below the tunnel to admit of suitable dumpers, while the lower terminal is just across the fork and on the wagon road, about 3 1-2 miles from Five-Mile. The tramway is of the standard Riblet type, 4,200 feet long, with a drop between the terminals of 2,600 feet. The cables are 1-inch and 7-8 inch in diameter respectively, and the buckets have a normal capacity of 1,000 lbs. The tramway is operated by two men, one at each terminal, and is capable of taking a load up to equal to 60 per cent of the down weight. The plant is a splendid piece of work, and is working as smoothly as the flight of a bird.

A supplemental tramway was found necessary to build the mill. This line leaves the main line some 2,000 feet vertically, and 6000 feet horizontally below the upper terminal, and runs direct to the mill, with a vertical drop of 1,100 feet. At the junction of the lines, bins are provided, into which the ore from the main line is discharged, and from these bins filled into the buckets of the supplemental line, and by them delivered direct into the bins at the mill.

The second and third class ore dumps accummulated in the development of the Silver Cup workings are at present not being treated at the mill, as the recent snowslide completely checked progress in that direction. But the obstructions around the latter mine are being cleared away, and at present the mill is treating with ore from the Nettie L.

The mill is erected on a hillside, sloping down from the road to the south fork, at an angle of about 20 degrees, admirably adapted for the laying out of the mill in benches or floors as has been done. The subsoil is sand and gravel, which is a good material for foundations, and admitting of excavation at a low cost. The mill has been laid out in floors, arranged in steps, the ore being received at the highest point and gradually descending by gravity through the various processes.

The following is an approximate arrangement of the mill, and the treatment the ore receives.

On the first floor are the ore receiving bins which have a capacity of 200 tons. Here also is the crusher. From this floor the ore passes to the next one, wherein are 20 stamps pounding away day and night; they are divided into four batteries of five stamps each, the weight of the stamps being 1000 lbs. each. On the 3rd floor are the sizers, and from these the ore, which has now the appearance of powder or cement, is received by the Dodd buddles and modified Willfleys, of which there are six on the 4th floor. From here it passes to the floor below, on which are the vanners and Willfleys, and at this point the lay mind receives its first impressions of the wonderful system of concentrating the various metals.

There the naked eye could see the precious metal lingering to be further treated, while the water which is being mechanically shaken carries away the powdered rock to the drying floor, and from thence to the 7th floor, on which there are two Howell-White roasting and chloridising furnaces. After being treated in the furnaces, it is extracted and allowed to cool off, after which it is received by 10 pan amalgamators and five settlers. Here can be seen the precious metal, for which men have dug and delved, and for which the company owning the plant have spent untold wealth to produce. When above at a distance of 70 feet, we saw the ore first being dumped into the bins, at this end the metal is pouring steadily from the ejectors into pannikins, and we have bullion. As will be noticed the plant is partly a concentrator and partly a chloriding plant. The mill and the process of concentrating adopted have been designed by Mr. Attwood, the company's consulting engineer, to whom great credit is due. There is not another plant laid down of its kind in the length and breadth of Canada, and the company owning it are deserving of the highest praise for installing the plant, and Ferguson is proud of the company and overjoyed at the good results.

APPEAL FOR PROTECTION.

Armenians Ask to Be Saved From Butchery By Turks

Washington, July 2.—Secretary of state Hay today received the following cablegram from Persia:

"Ispham, Persia, July 2.—Turkish barbarians are massacreing thousands of Armenians. We humbly solicit the United States government, in the name of Chrisianity and humanity, to save innocent lives. Signed, Armenian Bishops in Persia."

NELSON'S NEWS OF THE DAY

In this city on Friday, July 1st, sthe wife of J. Fred Hume of a son.

In this city on dominion day the wife of M. J. Mulroney of a son.

Mrs. William Lawrence and Miss Lawrence of Revelstoke are the guests of Mrs. James Lawrence, Silica stryet. Miss E. Lawrence has just returned from visiting friends in Spokane.

F. J. Deane, proprietor of The Daily News, who has been confined to the general hospital with sciatic rheumatism for some weeks, is still unable to leave his present quarters, but is slowly improving.

Premier McBride passed through the city yesterday on his way to the coast from Kaslo where he parted from hon. R. F. Green. Mr. McBride met a few of his political friends while waiting for the train and left the city at 7.15.

The lawn tennis tournament was not concluded yesterday as the players wished to witness the regatta. The final scores will appear in the next issue of The Daily News.

The tug-of-war on Baker street last evening, Nelson vs. all comers, was finally won by Nelson. The fat mans' race did not materialize owing to lack of candidates.

Miss Ida Tencate, proprietress of the Nelson Cafe has been obliged to retire from business owing to ill-health and her place has been taken by Miss Armitage, who will conduct the business in the future.

Some dishonest person broke through the rear building of Emory and Walley's gents' furnishing store on Baker street sometime during the night of July 1st or early yesterday morning. The thief helped himself to a valuable dressing case, some fine clothing, boots, underwear, etc., and then decamped. The matter is in the hands of the police, who had no information as to the culprit last evening.

MELIKA WON THE CARRIAGE

A Prize Given for the Prettiest Indian Papoose

There was considerable disapointment among the Kootenay Indians assembled in this city to participate in the celebration over the fact that their babies were barred at the baby show held on Friday. The displeasure was of the open mouthed, defiant kind and in order to prevent ghost dances and a posible uprising of the aborigines D. McArthur and Co. very generously donated a rubber tired baby carriage to be awarded to the prettiest papoose. Mr. McArthur, however, stipulated that T. G. Procter and Melville Parry should be the judges, and that the latter should wheel the prize winning baby from D. McArthur and Co.'s store to the bank of Montreal and back to the store. Soon 12 little aboriginies were ranged in row while the judges searchd for signs of beauty among them. It was no easy task to find it, but after many consultations it was decided that Melika, son of Mr Sit in the Sun and his devoted spouse Juniata, were entitled to the baby carriage. He is a moon faced kid with a nose like a piece of dough. Mr. Parry put the little aboriginie into the handsome baby carriage and moved proudly down the street, the observed of all observers, accompanied by the entire delegation of Indians. Many were heard to remark as he passed on his triumphant way "How much the child resembles its father." The picture of the prize Indian baby and his two foster fathers, the judges, was afterwards taken at the Queen Studio.

The Indians are much pleased at the generosity of Donald McArthur and say he is a "heap good man and a skookum chief."

A CUP OF IMPERIAL TEA

is always delicious, and full flavored. Our experience protects us from inferior and unsatisfactory lines.

Our teas are not chosen for us by tea houses. We choose for ourselves, blend for ourselves. That is why IMPERIAL TEA is the very best. Price like the quality, never varies, always the same—50cts per lb; 5 lbs for $2.25.

NEWS OF THE CAPITAL

OPPOSITION TO THE C. P. R. BUILDING FROM TORONTO TO SUDBURY

CLAIMED IT HAS NO RIGHT TO CONSTRUCT UNDER CHARTER

[Special to The Daily News.]

Ottawa, July 2.—Before the railway commission today the Mackenzie and Mann interests contested the present right of the C. P. R. to build a branch from Sudbury down to Toronto, without having obtained any special authority from parliament for building such a road. The company claims the right to build under the terms of its original charter from parliament. Mackenzie and Mann own the James Bay line, covering practically the same route, and ask the commission to forbid the C. P. R. from carrying out its proposed line without first securing the consent of parliament. Sam Blake, of the James Bay Co., declared that the Canadian Pacific's proposed line from Toronto to Sudbury would never have been mooted, if it had not been that the James Bay company was already constructing over that route. The latter was subsidized by the Ontario government which also guaranteed the bonds, and it was against all equity that an enterprise like this should be injured by the C. P. R. exercising such authority as it would not pretend to hold under its original charter. Any exceptional powers respecting first charter had run out in 1891. The branch lines vested in the C. P. R. by its argument lasted all day.

Before judge Winchester today Collingwood Schreiber, deputy minister of railways and canals, Henry A. McLeod, and Thomas C. Keefer, all men with over half a century's engineering experience in Canada, declared that thoroughly competent Canadian civil engineers could have been obtained for every position on the Grand Trunk Pacific railway from that of chief engineer Stephens down, without going to the United States for a single man. They mentioned a dozen different engineers of high standing who would gladly have accepted Mr. Stephens' position at the salary paid that gentleman.

The only place in the city you can get a drink of Bass' Ale on draught is at the Tremont. Try a glass.

MISSING LOOMIS

All Hope of Finding Him Has Been Given up

Paris, July 2—The American embassy and consulate have given up all hope of finding Kent J. Loomis, who disappeared from the steamer Kaiser Wilhelm II, at about the time of her arrival at Plymouth on June 20. Letters to this effect have been forwarded to the state department. The letters recommended that a thorough official inquiry be made of the officers of the Kaiser Wilhelm II, when the vessel arrives in New York, as her stops at Cherbourg, Southampton, and Plymouth.

THE COLORADO TROUBLE

Western Federation After the Mine Owners and Others

Denver July 2—The mine owners' and citizens alliance will arrest every officer if the Western Federation of Miners and business will go on uninterrupted, said president J. G. Williams toady in reference to the filing of information at Cripple Creek, charging 48 leaders and prominent members of that organization with murder and othe crimes. "We have anticipated this move and if w eare transported to Cripple Creek and there confined, as presidenth Moyer is, we will rest easy in the knowledge that competent men are at the head of the organization and the work of advancing the cause will go on with renewed impetus. It is sure to come with this latest outrage on innocent men."

Attorney general Miller left Denver for St. Louis today with the reply to the Habeas Corpus proceedings begun in the federal court there on behalf of Charles H. Moyer, president of the Western Federation of Miners. This reply, which will be presented to the court next Tuesday, sets forth that Moyer has been delivered to the federal authorities and that the respondents of the writ, governor Peabody and general Bell and captain Bulkly Wells, did not have him in custody when the officer arrived with the papers in the case.

E. O. Windsor, piano tuner, is in the city. Leave orders for him at the Canada Drug and Book Co.
