PACKING MEN ON STRIKE

Nearly Fifty Thousand of Them Quit Work Yesterday

Employees Desire to Reach a Wage Agreement With Employers, Which the Latter Refuse to Make

Chicago, July 12.—Without waiting till the hour set for a general strike of the 49,600 employees in the nine principal meat packing centers of the country, 700 beef cutters at the stock yards here, including the employees of all the packing firms affected by the strike order, quit work today.

The cutters for one firm, Armour & Co., did no work whatever today. There was no disorder in the departure of the first squad of strikers. The ranks of the strikers toward noon was swelled to a total of 20000 by employees from the Armour plant, who walked out as soon as their work for the day was cleaned up. They included the hog killers 400, hog cutters 450, beef killers 550. The strike is to secure a wage agreement with the packers, to which the latter refused to agree.

St. Joseph, Missouri, July 12.—More than 5,000 employees of Swift & Co., Nelson, Morris & Co., and the Hammond Packing Co. in South St. Joseph, went out on a strike at noon today and the plants have closed down. The strikers are orderly. About 700 employees in the yards of packing houses and many employed by the stock yards company are thrown out by the strike. The representatives of the packing companies say that at present no attempt will be made to resume killing.

St. Paul, Minn., July 12.—About 700 employees of Swift & Co., in South St. Paul, went on a strike today.

St. Louis, Missouri, July 12.—Eighteen hundred butchers and cutters, members of the Amalgamated Meat Cutters' [illegible] July 12.—As soon as the retail butchers in this city learned today that strikes had been ordered in the meat packing plants in manw other places they at once began to advance the price of meat from 2 to 3 cents a pound. This was done generally in the tenement sections of the east and west sides. It is expected that within the next few days there will be a meat famine. The joint committee of the New York locals of the Amalgamated Meat Packers and Butchers of North America issued an order calling for strike in all packing houses in this city and in consequence 3,000 men will quit work.

WILL VOTE FOR PARKER

BRYAN PUBLISHES HIS REASONS FOR THAT DETERMINATION.

SAYS DEMOCRATIC NOMINEE IS SOUND ON SOME THINGS.

Lincoln, Nebraska, July 12.—W. J. Bryan today gave out the following statement: "I shall vote for Parker and Davis, the nominees of the democratic national convention and shall do so for the following reasons:

"1. Because the democratic ticket stands for opposition to imperialism, while the republican ticket stands for an imperialistic policy. On this question, which was the paramount issue in 1900, and which must remain an important issue so long as an attempt is made to hold colonies under the American flag. On this issue the convention was unanimous, the platform emphatic, and I have no doubt that the candidate will carry out the platform.

"2. Mr. Roosevelt is injecting the race question into American politics and this issue, if it become national, will make it impossible to consider economic questions that demand solution. The election of the democratic ticket will put a veto upon this attempt and permit the race question to work itself out without the bitterness which Mr. Roosevelt's conduct has engendered.

"3. Mr. Roosevelt stands for the spirit of war. His friends present him as a man of blood and iron. He believes in strenuousness and incalcates a love for warlike things. The democratic ticket stands for peace, for reason and arbitration, rather than force, conquest and plunder.

"4. The democratic platform declares in favor of the reduction of the standing army and as this plank was unanimously adopted, there is reason to believe that a democratic success on this subject would be to bring some advantage to the people.

"For these four reasons I feel justified in supporting the ticket, but I shall not misrepresent the situation or appeal for votes for the ticket upon false grounds. A democratic victory will mean very little if any progress on economic questions so long as the party is under the control of the Wall street element. On the money question Mr. Parker is as thoroughly committed to the side of the financiers as Mr. Roosevelt. If he does not go as far as the republicans would in retiring silver dollars, in establishing branch banks, in enlarging the powers of the national banks, and in the substitution of an asset currency for the present currency, it will be because he is restrained by the democrats in the house and in the street. Nothing good can be expected of him on the money question.

"On the trust question the democratic platform is very much better than the republican platform, but the nomination of judge Parker virtually nullifies the anti-trust plank. Unless in his letter of acceptance he commits himself to attempt anti-trust legislation we need not expect him to pursue a different course from that pursued by president Roosevelt.

"On the tariff question some little progress may be hoped for, but the Parker men on the committee were necessarily in favor of a very conservative tariff plank and it remains to be seen whether judge Parker will carry out the positive and definite plank which was submitted by the full committee. This is the situation judge Parker stands for enough things that are good to justify me in giving him my vote, but, as I have tried to point out for several months the triumph of the Wall street element of the party, denies the country any hope of relief on economic questions. I have nothing to take back. I have nothing to withdraw of things that I have said against the methods pursued to advance his candidacy. After having stated that I shall support the ticket and after having given my reasons for so doing, I think it due to the democrats of the nation today that while the fight on economic questions is postponed it is not abandoned. As soon as the election is over I shall, with the help of those who believe as I do, undertake to organize for the campaign of 1908, the object being to marshal the friends of popular government within the democratic party to the support of a radical and progressive policy, to make the democratic party an efficient means in the hands of thepeo ple for securing relief from the plutocratic element that controls the republican party, and for the time being is in control of the democratic party. This plan of organization will be elaborated soon.

TWO MEN MURDERED.

Junk Dealer and Companion Found Dead in Burned Shop.

New York, July 12.—The dead bodies of George F. Abbott, an aged junk dealer, and Frederick Van Buskirk, were found today in Abbott's junk shop in Brooklyn by firemen called to the building to put out a fire supposed to have been of an incendiary origin. The men 27 years old, and Oscar Daylgren, 28 years old, both of Brooklyn, on suspicion of having knowledge of the crime. There was a bullet hole in Van Buskirk's head at the left temple and a similar wound in Abbott's skull. The murdered junk dealer was accustomed to carry considerable cash about with him and the fact was well known in the neighborhood. Although the bodies were not discovered until today, when the fire occurred, it is believed from their condition that the men were killed yesterday and a witness has been found who heard the sounds of a quarrel in the junk shop early on Monday morning.

THE WELCOME RAIN.

Assures an Abundant Crop in the N. W. Territories.

Winnipeg, July 12.—A Cowley, a N. W. T. correspondent, writes the recent welcome rain has made the fall wheat crop an assured success, as well as all other crops and garden produce. Steam ploughs are being introduced into the district, and the prairie is being turned over in all directions, many furrows being a mile long.

BODY FOUND IN RED SEA.

New York, July 12.—The World this morning says captain Chaplain, of the British steamship Shimosa, which arrived from the far east yesterday, reported that on June 13th a man was found floating in the Red Sea and was picked up. He was a native of Ireland, and formerly captain of the Royal Irish Lancers.

STEAMSHIP BURNED.

Philadelphia, July 12.—The steamship San Jacinto of the Malroy line, was practically destroyed and damaged to the extent of $400,000 by fire today while lying at the wharf at the Roach ship yard, Chester. She was built a year ago at a cost of $500,000.

GORDON-SINCLAIR.

London, July 12.—Lady Majorie Gordon, the only daughter of the earl of Aberdeen, formerly governor general of Canada, was married in London this afternoon to John Sinclair, member of parliament for Forfarshire.

EMPEROR WILL VISIT KING.

Berlin, July 12.—It is stated that emperor William will visit king Edward at the end of October at which time it is also expected that he will pay a private visit to the earl of Lonsdale.

BOND ON THE BARBARA

Miller, Exercising Privilege of Option, Paid the Cash

Greenwood, July 12—Recently Alexander Miller and associates bonded the Barbara mineral claim, adjoining the townsite on the southeast. Today Miller, exercising the privilege of the option, paid the cash for the property.

A CHILD DROWNED

Watertown, July 12—Fred King, aged 12 years, of Siasonville, St. Lawrence county, was drowned yesterday while bathing in the Racquette river.

DEADLY RESULTS OF EXPLOSION OF MINES

From a Russian Source it is Reported that in a Night Attack on Positions North of Port Arthur the Japanese Were Repulsed With Enormous Losses, 30,000 Being Killed and Wounded by Explosion of Mines

IT SEEMS INCREDIBLE.

Japanese Repulsed at Port Arthur With Loss of 30,000.

St. Petersburg, July 12.—A dispatch from a Russian correspondent at Mukden, dated July 12th, says: "According to intelligence received here the Japanese last night attacked positions north of Port Arthur and were repulsed with enormous losses, not less than thirty thousand, it is said, being killed and wounded by our mines."

London, July 12.—The Morning Post Shanghai's correspondent says that the Japanese casualties by land mines at Port Arthur Sunday night are reported to have been 28,000, but none of the many other special war dispatches mentions a Japanese disaster at Port Arthur.

SERIES OF SMALL BATTLES.

Japanese Lost 1,500 and the Russians Losses Were Larger.

Tokio, July 12.—The Japanese Taku Shan army is moving northwest from Siu Yen. It fought a series of small battles with the Russians on July 9th and 10th. The army is moving in two columns, which advanced against the Russians. When the first column approached Chi Kuan Ching the Russians retreated southwest through the valley, but at 5 o'clock in the evening they took up a position on the right, west of Chou Chang. The Russians were dislodged at dusk, when the second Japanese column advanced along the road toward Tong Chia, repulsing small bodies of the enemy en route. They attacked the advance life of the Russians near Siu Tang Laku. The Russians were reinforced and compelled the Japanese to withdraw. At dawn on July 10th both columns attacked and dislodged the Russians from the heights west of Siu Chia Ku. The Japanese strong position held by the Russians at Siu Tchikou. After a desperate fight the Japanese occupied the position.

After occupying Kai Chou, general Oku's army on Sunday moved northward. The Russians have strong defenses at Tapingshan, Niusenihian, Nagmatai, Ching Hishan and a camp near Kuo Chiapao. General Oku will probably attack these positions as soon as the troops are rested. In the fights of July 8th and 9th the Japanese lost about 1,500 men. The Russian losses are believed to have been heavier than the Japanese.

JAPANESE ADVANCE.

It is Shrouded in Mystery and is Bothering Russians.

St. Petersburg, July 13.—The Japanese advance to Ta Tche Kiao is shrouded in mystery. No telegrams have been received by the general staff or the admiralty since general Sakharoff's dispatch of July 10th, with the exception of a report from general Kouropatkin, covering the events detailed by general Sakharoff. The Japanese account of the fighting at Kai Chou is offset by the admission that they are being greatly worried by the cossacks.

It has been intimated to the Associated Press correspondent by the general staff that it is probable that the Japanese will not attempt to take Yin Kow before they capture Ta Tche Kiao as otherwise they would be liable to an unexpected atatck from the Ta Tche Lia force, which is within easy striking distance, thanks to the railroad.

The Japanese advance north will perhaps be delayed some time owing to the southeastern columns converging at Sian Dian to compel major general Mistchenko to draw off, leaving the Siu Yen road clear to Tant Chie and Ta Tche Kiao. As soon as the troops enter Yin Kow and succeed in removing the mines from the mouth of the Liao river the Japanese gunboats lying along the coast will come up, but it is not believed that the Japanese will venture to land a considerable force or to send war material so long as the port Arthur squadron is able to come out whenever it likes.

There is some anxiety here regarding a report that the cruiser Askold has been damaged and it is noticed that she was not mentioned in the list of warships constituting the squadron on its last appearance.

A CANDID CONFESSION.

General Kouropatkin is Short of Provisions and Men.

St. Petersburg, July 12.—Colonel Novitski, of the general staff, in an interview today said: "The result of the loss of Kai Chou will probably be the evacuating of New Chwang. General Kouropatkin's position is more difficult than that which confronted lord Roberts in South Africa. It is as if lord Roberts received his supplies by rail via Constantinople, Cario, and Central Africa. It will be a long time before general Kouropatkin will have enough supplies and men to assume the offensive. In the meanwhile he will have to fight rear guard actions. Perhaps giving up important positions like New Chwang, which are of vastly more consequence than Kai Chou."

BATTLE WILL SOON BEGIN.

Hostile Armies Face Each Other Across the Liang River.

Headquarters of General Count Keller, Niutkay, Eleven Miles West of Lian Dien Sian, July 12. — The opposing armies are grimly facing each other on the heights across the Liang river, ready to engage in a death grapple. The Liang crosses the main Liao Yang and Feng Wang Cheng road 28 miles east of Liao Yang, flows north into the Taitse river and empties into the Liao river. A correspondent of the A. P. who arrived here after a 35-mile ride from Siao Lindji saw long lines of infantry and transportation trains winding through the mountains. At Lien Dien San, a lookout, stationed in a tree top pointed out the way to general Keller's headquarters near Niaut Diay. There the Russian eastern army was found hidden in the hills.

AIDING LAND FORCE.

Russian Warships Leave Port Arthur and Shell Japanese.

Chee Foo, July 12.—It is reported that five Russian cruisers and several torpedo boats left Port Arthur at 8 o'clock on Saurday morning last and shelled the enemy's position on the east coast, returning undamaged at 6 o'clock in the evening. It is believed they encountered admiral Togo's ships and were forced to return. A junk, which arrived here this morning, reports hearing two terrific explosions at Port Arthur yesterday.

JAPANESE PROCLAMATIONS.

Inducements Offered to Russian Soldiers to Desert.

Liao Yang, July 12.—A box full of Japanese proclamations offering inducements to Russian soldiers who surrender, has been brought here from Ta Tche Kiao. Many of them were scattered among general Mistchenko's men.

RUSSIANS GIVE WAY.

New Chwang, July 11.—Chinese coming from the country report the Russians everywhere retiring before the Japanese, who are soon expected here. Active preparations are being made for the defense at Ta Tche Kiao.

THE OFFICIALS WORRIED.

C. P. R. Men Do Not Like Hill's Advent in the Boundary.

F. W. Peters, general freight and passenger agent of the C. P. R., with headquarters at Winnipeg, H. E. Macdonnel, general freight agent, with headquarters at Nelson, accompanied by R. H. Hedley, superintendent of the Hall Mines smelter and a party of Manitobans arrived here on Tuesday on the private car Earnscliffe and remained here over night returning via Phoenix and Grand Forks on Wednesday, says the Boundary Creek Times. Mr. Peters stated he was here merely on routine business and that his visit had no particular significance. When prominent railway men have no particular business something of importance often happens. The C. P. R. is no quitter and its officers enjoy a battle just as much as any railway men. It is not to be supposed that the big Canadian company is going to sit idly by and allow that awful man Hill to gobble up all the good things in the way of freight in southern British Columbia and before the snow flies it is more than probable that the C. P. R. will do a little railway building on its own account.

Nature plays no favorites and it is just as difficult for the C. P. R. to get over Sidley mountain as it is for the Great Northern. No suitable pass has yet been discovered and to build a road on present information would mean a lengthy detour of expensive railway building. But the C. P. R. can reach the Similkameen in another way. The Daly company at Hedley is already in a position to give a railway a big tonnage. Other mines can be quickly placed on a shipping basis and the Similkameen and Nichola are today the most attractive field in British Columbia for a new railway. While Hill is busy in the Boundary country, there is nothing to prevent the C. P. R. building from Spence's Bridge through the Nicola coal fields, Aspen Grove, Tulameen, Princeton and Hedley and as far eastward as it cares to come. By the time Hill could reach there the C. P. R. would be installed and would have the cream of the trade in a district which is bound to become the banner camp in British Columbia.

Harry E. Macdonell is going into Similkameen and Nicola on a voyage of discovery. The Daly people have already contributed thousands of dollars in freight rates to the C. P. R. exchequer and Mr. Macdonell will doubtless size up the situation with a view to informing the big guns of his company that here is a district where the railway that gets there first is sure to do a large and profitable business.

The route from Spence's Bridge to Hedley offers no serious difficulties. It passes though a comparatively open country without serious grades and but little heavy work. The road could be speedily built and should the C. P. R. decide to begin this summer it could be completed to the latter point before fall.

SMUGGLING BY WHOLESALE.

Two Persons Arrested and Others Said to be Implicated.

New York, July 12.—Behind the arrest of the wireless teleggaph operator and hospital steward, employed on one of the largest trans-Atlantic liners charged with smuggling Sumatra tobacco, the customs officials claim to have unearthed a new and ingenious method of smuggling diamonds, silks, tobacco and other merchandise, which should pay a high duty. Frauds on the government of enormous proportions are believed to have been perpetrated by this method. Its beneficiaries and probably its promoters are believed to be merchants of this city some of them men of wealth and prominence. Trunks, carried as passengers' baggage, upon which labels indicating that they had been properly examined and passed by the inspectors, were surreptitously passed, is one way. In addition to the persons mentioned two others have been arrested, and a large force of special treasury agents are at work seeking other persons of participating in the frauds.

REPLY TO A RANCHER

Editor The Daily News: Rancher at Gutelius cannot pull sound stumps from one foot to two and one-half feet with a tackle and one inch rope. He would need to supplement the power of his tackle with a capstan and a team of horses at the end of a long lever and would need a rope of two or three inches in diameter.

In the east a common form of stump puller is a screw working upward through a plate supported on a stout tripod, the screw operated by a horse at the end of a long lever.

The best stump puller in this country can be seen at work on the streets at Poplar. The lever is a stick of timber 12x14 inches and 25 feet long, the fore end is supported by a wheel and is swept around by one or more pairs of horses. The attachments to the follower are chains made of inch iron, and bars of one and one-half inches.

Stumps such as Rancher mentions can be split and shattered by from 15 to 20 cents of dynamite each, but a great deal of labor in digging and cutting will remain before the roots are extracted.

There is no land that for agricultural purposes is worth the cost of the removal of sound stumps.

Work around them for five years and they will come easier. Yours, etc.,

LUMBERMAN.

Kaslo, 12th July, 1904.

CALGARY GETS TERRITORY

What Mr. Macdonell Has to Say on the Question

Harry E. Macdonell general freight agent of the Kootenay lines of the Canadian Pacific railway, was seen and questioned yesterday as to the granting to Calgary of territory on the Crow's Nest line. He said: "Giving Calgary the additional territory along the Crow's Nest railway west of Fernie cannot particularly harm Nelson wholesalers, as the Calgary rates are increasing and the Nelson rates decreasing the farther west freight is sent from Fernie. To Fernie it is little higher from Nelson than from Calgary to Fernie, but on general principals a merchant cannot expect to ship east and compete with the merchant who is shipping west. As a general rule distributing rates are made west bound.

"The territory east of Calgary in which Calgary formerly had a distributing rate has been taken away from that town and given to Winnipeg, and therefore Calgary was given a little more territory in the west, including that along the Crow's Nest line.

"The Nelson wholesalers through their energy, push and enterprise have always given their Calgary rivals a strong tussle for the trade of the Crow's Nest country and now, with a 25 per cent reduction, their business along the line has been very much increased."

ON A TOUR OF INSPECTION

James Wilson, western superintendent of the Canadian Pacific telegraphs, and W. J. Camp electrical engineer of the company, were in the city yesterday. Mr. Wilson is on a tour of inspection and reports that he found everything in good order. The work of repolling the line, which has been in progress for some time past along Slocan lake and elsewhere, is completed and he found that it had been done in a workmanlike manner. The next work will be the replacing of a number of miles of iron wire in the vicinity of Trail and Rossland, with copper wire. The smoke from the smelter has corroded the iron wire so that there is but little of it left and it will have to be replaced. Mr. Wilson reports that James Kent, manager of the C. P. R. telegraphs, and G. S. Jenkins, general superintendent, who has been at the coast on a tour of inspection, accompanied him as far as Revelstoke and then went on east, while he and Mr. Camp came south for the purpose of making an inspection of the lines in this section.

THEY HAD A CINCH

A well-known broker, particularly interested in and about Procter, and a New Zealander had an exciting quest for mica on Monday last. The whereabouts of a large deposit of mica had been told the broker by an up the lake Indian, and extensive preparations were made to stake the property. The broker and the man from New Zealand arranged to meet the Indian at Procter on Monday, and brought him on board the steamer Kaslo with great secrecy as they feared a priest, who was on the boat might get on to their scheme, as father Coccola did with the St. Eugene. The Indian was kept out of sight until the Blue Belle landing was reached up Kootenay lake. Here the three left the steamer and after a long weary climb reached the mica deposit spot. There was mica, but the largest piece would make a 25 cent piece look large, and the would-be strikers returned sorrowfully to the landing. The mica is yet to be discovered.

NANAIMO MYSTERY

Coroner's Jury Decides That Fields Drowned Himself

Nanaimo, July 12—The coroner's jury yesterday decided that the man Fields, whose body was found recently in Nanaimo river, came to his death by suicidal drowning while laboring under temporary aberration. The evidence taken shows that Fields, who belonged to Field, B. C., and is reputed as fairly well off, became deranged in Vancouver, possibly through excessive drinking. Attempts were made there to have him go into a hospital, but he insisted upon coming to Nanaimo. Here he behaved in a mysterious manner which drew the attention of the police to him as someone who required watching for his own sake. While they were making enquiries he left town Monday, June 27th, on which day he was last seen alive out in the neighborhood of Extension. It is supposed that he wandered around the country for three days and eventually found himself near the Nanaimo river. Whether he intended to commit suicide or merely intended to bathe will never be known. The former theory rests on the dangerous place in which he entered the water, one where no sane man would have thought of plunging in. On the other hand, if the man's mind had given away, he might not have perceived the danger, and in that case he did just what a man going in bathing in a more or less public place without trunks would have done. He took off his clothes except one under garment and went into the water. The clothes were found on Thursday evening and the body a week later. The deceased leaves a wife and child residing in Oregon.

REPUSED TO SEE THEM

COMMITTEE OF UNION MEN CALL ON PRESIDENT ROOSEVELT

WANTED HIM TO INERFERE ON BEHALF OF COLORADO MINERS

Oyster Bay, July 12—A committee consisting of M. P. Burke of Carbondale, Pa., and Henry Hefskovits of Plymouth, Pa., respresenting the central labor unions of Lackawanna and Luzerle counties with a [illegible] of men, principally miners or allied workmen, came here today to present president Roosevelt the resolutions adopted by the several central labor bodies they represent, urging him to investigate the Colorado labor situation. The committeemen were received by secretary Loeb, and when they asked to arrange an interview with the president Mr. Loeb offerd to lay the resolution himself before the president, but as the committee had been instructed to present them personally to the president, Mr. Loeb's proposition was not satisfactory. The members of the committee were informed that a personal interview with the president could not be arranged. He suggested that they call on national chairman Cortelyou in New York with the resolutions, but they declined to accept the suggestion. They left immediately for home to report to convention which is now in session at Pittston, Pa.

MAYOR JONES DEAD

Toledo, July 12—Mayor Samuel Jones died at 5:05 p.m.

BRITISH STEAMER SEARCHED

Perim, Straits of Babel Mandeb, July 12—The British steamer Menelaus, from the Clyde for Shanghai, which arrived here tonight, reports that she and the British steamer Crewe Hall, from the Clyde for Kurrachee, were stopped on June 11th in the Red sea, south of Jedda, by the Russian volunteer steamer St. Petersburg, which carried eight guns and a large crew. Both steamers were boarded and all their papers and manifests overhauled. The vessels were detained four hours, after which the St. Petersburg steamed away to the northward.

ARBITRATION TREATY

One Signed Yesterday Between Britain and Germany

London, July 12—The foreign office announces that an agreement was signed today by the foreig minister lord Lansdowne, and the German ambassador, providing for the settlement by arbitration of differences which may arise of a legal nature or relating to the interpretation of existing treaties between Germany and Great Britain. The terms of the agreement are identical with those recently concluded with France, Italy and Spain.

THREE MEN INDICTED

Mount Holly, N. J., July 12—The grand jury of Burlington county today returned true bills of indictment against Aaron Timbers, Jonas Simms and Wm. Austin, for felonious assault upon Mrs. Elias Beddle, and for assault with intent to kill, and for breaking into the residence of Thomas Styker on the ranch road. For the three offences the maximum penalty is 49 years.

ON A SAD ERRAND

New York, July 12—Samuel L. Clemens, "Mark Twain," and his two daughters, bringing the body of Mrs. Clemens, who recently died in Italy, arrived here today. Mrs. Clemens' body will be taken to Elmira for burial.

DROWNED WHILE BATHING

Edmonton, July 12—John Bowden of Lacombe, lost his life a few days ago by drowning in the Drift Pile river. Bowden was a member of Bray's survey party which left here for the Moose river about May 14th. He was bathing when the fatal accident occurred.

CENTER STAR VS. UNION

Evidence for Plaintiff Still Being Taken at Victoria

Testimony Being Given by Non-Union Men--Kirby Swore that he Worked by Permission of Union

[Special to The Daily News.]

Victoria, July 12—The Centre Star vs. the Rossland Miners' union damage case is still in progress before Mr. Justice Duff and a jury. The plaintiff's do not expect to have their case all in before Thursday night, while S. S. Taylor thinks his case for the defence will occupy from that time till Tuesday night. He intends to make a motion for non-suit, which, even if it fails, will be an advantage in allowing him to get the law before the court and jury. The cross-examination of Thomas Strick by Mr. Taylor took place yesterday afternoon and evening. His evidence was to the effect that he did not give A. C. Galt, barrister, evidence concerning he union for the purpose of getting even with the union; that he had not been deterred by being called a scab and that he never saw an unfair list posted. He made $6 a day before the strike, was out of work for six months and got $30 from the union while out of work.

Thomas Kirby, another witness, was employed in the War Eagle mine and voted against the strike. He said a letter was read at a meeting of the union on July 10th, in, which the Western Federation of Miners promised aid, and he was given permission to finish some work in the shaft on the 11th. At the station he saw Beamish with a camera and billiard cue and on Sunday on entering the church he heard Frank Woodside, secretary of the union, or Hanna call him a "scab." The union gave him the cold shudder on his going to work and Beamish he thought took his photo.

To Mr. Taylor he said he voted against the strike. Secretary Woodside used his influence in favor of it, and during the strike Woodside's pay went on. Woodside was not much of a miner. Witness also said the miners did not get sufficient notice of the pithead ballot on the 4th. In replying to judge Duff the witness said 14 or 15 of them wanted to stand out against the legality of the vote but were afraid of being blacklisted.

The records of the meeting of July 6th showed that 254 voted for the strike and 86 against and four spoiled ballots.

In reply to his lordship, witness said that the executive generally was known to be in favor of this particular strike, which had been voted down in April.

Replying to Mr. Taylor, witness said W. L. Macdonald was not favorable to a strike.

W. H. Hooper, the next witness, was a timberman at the War Eagle. He joined the union at the instigation of the walking delegate whose name was Abel. The men were transfered frequently from the War Eagle to the Centre Star, which was under the same management. When witness came to Rossland he found it necessary to join the union in order to stay there.

W. H. Sherman, timberman in the Le Roi, who was examined this afternoon, was driven from Rossland by the strike, but subsequently returned owing to the condition of his wife, who was nearly insane because of fear of an experience such as she had in Leadville, when, during a strike ordered by the Western Federation of Miners, she nearly starved.

PAYING OFF CLAIMS

About $18,000 Being Distributed Locally on Lardo-Gerrard Railway Claims

After about three years of persistent work W. A. Galliher has finally secured the settlement and payment of the wage claims against the subcontractors who built the railroad from Lardo to Gerrard.

Patrick Welch, the well-known contractor, obtained the right to construct the road from the Canadian Pacific company in 1899 and sublet his contract to Carlson and Porter. The sub-contractors subsequently failed, as sub-contractors often do and they owed a large sum for wages, hire of teams, etc. At Mr. Galliher's instance the dominion government retained a sufficient sum out of the subsidy voted to the C. P. R. for the construction of the road, to meet the unpaid claims for wages, and last December Leonard Shannon of Ottawa, auditor of the canals and railways department, was appointed a royal commission by the federal government to investigate and report upon the claims.

Mr. Shannon held a court of enquiry here last December and later reported to the government.

Mr. Shannon arrived in this city last week to close up the matter and pay off the claims, practically in full. He is quartered at the Hume and expects to finish his business here this week.

The claims aggregate $18,000 and most of them had been assigned to hotel keepers and merchants around Lardo and Kaslo and subsequently were further assigned to Nelson parties in the course of trade. This money is now being paid out to the holders of claims.

ATHLETIC RECORD HELPED

Rhodes Scholarship for B. C. Goes to A. W. Donaldson

[Special to The Daily News.]

Victoria, July 12—A. W. Donaldson of Vancouver has been awarded the Rhodes scholarship from B. C. He has passed his second year in McGill university, is 22 years of age and was chosen because of his athletic record over four others. The judges, chief justice Hunter, judge Duff and superintendent of education Robinson made the award at a meeting in Victoria this morning.

Hudson's Bay Co.

CALGARY IS FAVORED.

Like a thunder clap out of a clear sky comes the announcement that Calgary has been given the Crow's Nest territory for a market for her wholesalers. Nothing could have surprised the citizens so much at it had been announced and fully understood by them that this territory was to be a part of the Nelson wholesale district.

In explanation of their curious and unjust course the Canadian Pacific officials claim that it is a settled policy of the road to build up certain wholesale centers along its main line and branches by giving favorably located towns certain transportaion privileges in the territory west of them. That in following out this policy the company because Winnipeg wholesalers complained and objected to the enterprise of the Calgary merchants took away the territory to the east of that place and gave it to Winnipeg. In order to compensate Calgary for this territory it gave it an enlarged section to the west stretching almost to the suburbs of Nelson, and the wonder is that they did not, while they were about it, include Nelson. Such a course would have been just as justifiable as the one taken. To follow out the theory of the railway to a logical conclusion Nelson should be given all of the country to the west as far as the suburbs of Vancouver. In turn Vancouver should be awarded the expanse of water between Vancouver and Victoria, while Victoria should be made a present of the Vancouver Island areas and the wide ocean to the west to hunt around in for customers for her wholesalers.

The object sought to be attained in carrying out this policy, the railway company says, is to avoid the back haul, as in each instance the goods under the system adopted will always be conveyed westward toward some destination and there will be no doubling back over the same ground twice. If this is true why is it that Vancouver is allowed a territory to the eastward? The railway people will tell you that this is done because Vancouver is a coast terminal.

The real cause of the favoring of Calgary, however, is that the C. P. R. fears that the new transcontinental line which will reach Edmonton before long will build up a rival wholesale center at that place. The desire, therefore, is to do all that is possible before the new railway reaches Edmonton to make Calgary a wholesale center and thus head off Edmonton. This is said to be the principal reason why Nelson is being discriminated against and Calgary favored by the C. P. R.

The fact remains, however, that Calgary has been given a better rate to points along the Crow's Nest line than is enjoyed by the wholesalers of Nelson, and the result will be, if such condition of affairs is allowed to continue, that Calgary and not Nelson will enjoy the wholesale trade of that section.

The territory naturally belongs to Nelson. It is in the same province, and the merchants and business men are our neighbors and friends. Nelson is the headquarters of a good many mining, lumbering and other enterprises located along the Crow's Nest line and, therefore, the people of southeast Kootenay, other things being equal, would prefer to trade with us.

Notwithstanding the discriminations on the part of the railroad in favor of Calgary the merchants of this city have done considerable business along the line and will continue to do some, but eventually the trade will gravitate to the place from whence goods can be hauled the cheapest.

According to the statements made by the members of the Wholesalers' Association the railway officials promised to give the Nelson merchants the territory as far east as the provincial boundary line and the statement that Calgary has secured the territory comes to them as a complete surprise. If this is true, and there is no reason to doubt it, the officials of the railroad have acted in bad faith and have broken their promises. As the territory naturally belongs to Nelson it should have it, no matter how great an effort may have to be made to secure it. The matter should be again taken up with the railway company and another effort made to attain what is desired. Then, if it results in a deaf ear being turned to the demand for justice, an appeal should be made to the Canadian Railway Commission. That body will see to it that Nelson gets what she is entitled to. The commission will sit here shortly and when it does Nelson's case can be laid before it.

EDITORIAL NOTES.

An ultimatum was recently issued by the Wellington coal company, commanding its employees to leave Extension for Ladysmith on pain of forfeiting their employment. It is said that several of the men will quit their work rather than submit to the arbitrary order of the company. The Wellington Coal Company evidently means to control its employees with an iron hand, even dictating to them where they shall reside.

In an article which appeared in last Sunday's Daily News, attention was called to the apparent want of activity on the part of the Kootenay Fruit Association and the urgent need there was of the organization working up. Mr. Newling's letter published in this issue clearly demonstrates that The Daily News was mistaken so far as the association is concerned. It was evidently the secretary, and not the association that needed waking up, and as the official in question, judging from his vigorous language, is now thoroughly alive to the situation some progress may yet be made. The local fruit trade has grown, and will undoubtedly continue to grow so rapidly that the formation of a live association to properly and quickly advance the interests at stake, is an absolute necessity and it is to be hoped that no further time will be lost in pushing the organization ahead.

CURING THE FILLER

THE Pharaoh filler I select in Manicaragua -- Province of Santa Clara, Cuba, is generally harvested in February.

The plants re cut down at daybreak-- llowed to remain until eleven clock in the morning -- until hey are properly wilted--then aken to curing houses for drying.

After they are thoroughly ried they are allowed to become noist through atmospheric hu- nidity and then made into 'hands." Four of these hands onstitute a carat, eighty carats nake a bale.

After allowing it to age for hree full years, in order to de- velop its superb fragrance and aroma, I make it up into 'Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

J. Bruce Payne, LIMITED GRANBY, P.Q.

NOT DEAD BUT SLEEPING

Editor The Daily News—You had an article in your issue of Sunday, 10th instant on the Kootenay Fruit Grower's Association. As I happen to know as well as anyone with regard to that association, and certainly better than your- self, you will be good enough to allow me to give you a few facts, which you do not seem to indulge in.

At a general meeting it was resolved, very properly not, to have nothing to do with the Chinese fruit growers, who are by far the largest producers on Kootenay lake. At the commencement of the shipping sea- son I sent a circular to every member of the association asking him to let me know what quantity of fruit he would be likely to have for shipment this season. The re- ply I received did not total up to 300 boxes. Under these circumstances the executive very properly decided that this quantity was not sufficient to warrant employing an agency and handling such a small quan- tity, most of the members having only young orchards or gardens.

From what I can gather you got your information from some sore-head rancher, who has not joined the association and for the paltry sum of $2 for membership he thinks that the Fruit Grower's associa- tion is a charitable institution formed for the benefit of the public to find a market and handle fruit for anyone that grows it, perhaps some "tenderfoot" who knows not, who when he has been as long in the Kootenay and grown asmuch fruit as I have will know a little more about the business than he does now. In eight years I have never experienced the slight- est difficulty in disposing of any fruit at remunerative prices, with the exception of strawberries. And if anyone desires to see how a fruit garden (I don't call it a ranch) should be run, under Mr. Hyslop's able management, they had better come and look at mine.

Non-members of the association have re- ceived no information as to the proceed- ings nor are they likely to and you need not suppose that it is a dead institution be- cause you have not been supplied with a quantity of "wind" which the newspapers of this section are chiefly filled with, but the B. C. Fruit Grower's Association meets here in August for its annual con- vention you will find it very much alive.

I remain, sir, your obedient servant.

ONSLOW NEWLING,

Secretary Kootenay Fruit Grower's Assn.

Mr. Newling's letter, which The Daily News gladly publishes, calls for but little comment. The secretary's knowledge of what is going may be all that he claims but he forgets admission that having sent out circulars early in the season, and it not being replied to except by one or two members, the work of the association was stopped. It is pathetic, and quite explana- tory as to why nothing has been accom- plished this season.]

TAMARAC MINES, LIMITED.

The financial accounts of the Tama- rac Mines, Limited, for the year ending 31st March, 1904, have just been render- ed and shows a balance in hand at date of $535.53. The balance brought forward from the previous year was $1,952.84 and during the year pay- ments were received as follows: Insu- rance recovered $5,703.41, assessments $1,560, refund tramway $137, bank in- terest $19.55.

The item, refund tramway, probably refers to the cable and buckets sold to the Broken Hill and B. C. Standard companies.

The principal items of expenditures during the year are: Development work $2,441, D. Roberts $630, 643 Spitze shares purchased $1,243.75, office rent and salaries $350, managing director $300, Fowler fee for examination and report $250, legal expenses $509.46.

Among the assets of the company, the machinery is valued at $1,500, buildings $1,000, tramway $2,578, railway spur $1,000, and office furniture $150.

SIMPSON'S
CHEMICAL ERASIVE

SOAP

— FOR —

CLEANING COAT COLLARS

And Extracting
Grease, Paint, Tar, Oil, Sperm and Kerosene from Silks, Cloths, Carpets, etc., of Fast Colors

Price - - 25 Cents

Directions for Use—Rub a little of the Soap on the spot or stain, dip a brush in warm water, and rub gently for a few seconds; then wipe thoroughly off with clean water and all will disappear. If the spots be hard, such as paint or sperm, rub the garment together after applying the soap.

N. B.—Simpson's Soap removes Scruff from the head, Tartar from the Teeth, Fur from the Tongue, and cures Cuts, Sores, Ringworm, Chilblains, and Outward Piles by simply washing with it.

CAUTION—See that each cake bears the words "SIMPSON'S ERASIVE SOAP, REGISTERED," in raised letters, without which none is genuine.

If your druggist does not keep it, write for sample cake, enclosing 25 cents stamps or postal note, to Australian Agency, Room 1, (ground floor) Molson's Bank building, Vancouver, B. C.

STEAMSHIP DISASTERS

LOSS OF NORGE RECALLS OTHER SIMILAR CATASTROPHES

FIVE HUNDRED AND THIRTY-FIVE LIVES LOST ON BOURGOYNE

The loss of the Norge comes on the eve of the anniversary of the sinking of the French liner Bourgoyne on July 4th, 1898, which has stood out as the most appalling sea tragedy of modern times. The Bourgoyne was in collision with the British steamship Cromartyshire sixty miles south of Sable island. The accident happened at 5 o'clock in the morning and the passengers were asleep in their berths. Of the 734 souls aboard the Bourgoyne 535 were lost. Of the 217 first and second cabin passengers, 206 were lost.

The next previous great shipping disaster occurred on March 7th, 1897, when the French line steamship Ville de St. Naizaire, bound from New York to Port au Prince, and carying a crew of 70 men and ten passengers ran into a terrific storm off cape Hatteras, took fire and went down. Only 29 hands got away from the vessel, and these after suffering terrible hardships from thirst, hunger and the weather, were picked up and brought to port.

In June, 1897, the steamer Aden, bound from Yokohama to London, was lost off the island of Gocotra, east of Africa, and 78 hands were lost.

Another great tragedy was the loss of the North German Lloyd steamer Elbe on the morning of January 20, 1895. The loss of life in this instance was said to be due to negligence on the part of the captain on the British steamer Crathie, with which the Elbe was in Collision. The Elbe was on her way to New York from Bremen. Immediately after the collision, her officers seeing that she was going down sent up rockets. The Crathie took no notice of the signals. Double rockets were sent up but the Crathie sailed away, and of the 350 passengers and crew on the Elbe, only 20 were saved in one of the boats, which was picked up by a fishing smack the following evening.

The Hamburg-American Packet Company's steamship Pomerania from New York for Hamburg, was sunk on the English channel off Dover at midnight on November 25th, 1878, by a collision with a British bark. The sailors cut away the boats with their knives refusing to obey orders, and thrust the passengers aside. Every member of the crew got safely away but the forty-seven passengers were all drowned. The captain did all he could to restrain the crew, and went down with his ship, but having a life belt was subsequently picked up by a steamer.

On April 2nd, 1873, the White Star steamer Atlantic, from Liverpool to New York, was wrecked on Mars Head, cape Prospect, near Halifax. Five hundred and forty seven passengers perished. The steamer carried 900 passengers, 50 of whom were first cabin. She left Liverpool with an insufficient supply of coal. Heavy storms were encountered and the fuel was nearly exhausted. The captain thought he was making for Sambro light and while looking for it ran on the rocks. Before boats could be lowered and manned the vessel heeled over and sank. Every woman on board was drowned.

The steamship Huhgarian of the Montreal Steamship Company, foundered in a storm on February 20, 1860, on cape Ledge, near Halifax. Two hundred and fifty persons, including all the officers, were lost.

The Cimbra, a Hamburg steamer, was sunk by collision with the British steamer Sultana off the coast of Holland on January 19, 1883. About 450 persons perished.

The annals of the sea contain no sadder tale than that of the burning of the steamer Austria, from Hamburg for New York, in September, 1857 with 538 souls on board. On the eleventh day out the ship took fire. Four hundred and seventy persons perished. Men and women fought desperately to escape the flames and water, but scores were roasted alive, even as were some of the victime of the Slocum disaster.

On September 7, 1899 the Anchor line steamer City of Rome with 1200 passengers struck an iceberg. Luckily there was no loss of life.

On September 29, 1899, the steamship Scotsman of the Dominion line, was wrecked on rocks in the straits of Belle Isle at the entrance to the gulf of St. Lawrence, and the steamship Mantfort picked up and saved 250 passengers. Many passengers were drowned. The sailors of the Scotsman were charged with piracy and robbery.

In May, 1870, the city of Boston, from Liverpool to New York, carrying 191 souls, was wrecked and sank with all on board.

In February, 1902, the Huronian of the Allan line, from Liverpool to St. Johns, disappeared without leaving a trace.

HENRY'S ORCHARDS HEALTHY

Provincial fruit inspector Cunningham has returned after having spent two days inspecting the strawberry fields in South Vancouver, Centre Park and West and East Burnaby, says the Vancouver News-Advertiser. Mr. Gray of South Vancouver, is perhaps the greatest sufferer from insect pests in that vicinity and yet he has one fine field in which no trace of infestation could be detected. Mr. Henry has an acre of strawberries within an eighth of a mile of Mr. Gray's infected field, and yet there is not the slightest trace of infection, although Mr. Henry's field was reported to have been attacked. Some of the vines were not so hearty and vigorous as could be desired, but there were no insects found. Mr. Henry's nuresry was closely inspected throughout, and found to be exceptionally healthy and clean. Only one tree infected with bark disease, "apple tree anthracnose," was discovered, and it was promptly destroyed by Mr. Henry, who was present at the time.

Look up your Queen Cigar Store coupons. The drawing for the ticket to the world's fair will come off on Friday evening next.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory,

of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miners for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for first year and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a mining recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, $10. Royalty at the two and one-half per cent on the the gold shipped from the Yukon tory to be paid to the Comptroller.

No free miner shall receive a more than one mining claim on arate river, creek or gulch, but the miner may hold any number of purchase, and free miners may claims in partnership by filing paying fee of $2. A claim may be oned, and another obtained on the creek, gulch or river, by giving paying a fee.

Work must be done on a claim to the value of at least $200.

A certificate that work has must be obtained each year; if claim shall be deemed to be and open to occupation and free miner.

The boundaries of a claim may fined absolutely by having a and publishing notices in the cial Gazette.

Petroleum.—All unappropriated lon lands in Manitoba, the Northwest ritories and within the Yukon are open to prospecting for petroleum the Minister may reserve for an or company having machinery on to be prospected, an area of Should the prospector discover oil ing quantities, and satisfactorily such discovery, an area not exceeding acres, including the oil well and land as may be determined, will to the discoverer at the rate of acre, subject to royalty at such may be specified by order-in-council.

DAVID WARK'S CAREER

ENJOYS THE DISTINCTION OF BEING THE OLDEST SENATOR

CAME TO NEW BRUNSWICK FROM IRELAND IN YEAR 1853

Hon David Wark, a member of the senate of Canada—to which body he was called by royal proclamation on the first day of confederation, July 1867—has recently completed his one hundredth year of existence. here are not many well established instances of such a long life. A well authenticated case in recent years is that of sir Moses Montefir, an Englishman, who was born at Leghorn on October 24th, 1874, and who lived beyond the centennial anniversary of his birth. Mr. Wark was born near Londonderry, Ireland, on February 19th, 1804, and educated in the ordinary parish schools. In 1825 he came to New Brunswick to seek his fortune. The whole population of the province then was less than 75,000 souls. Mr. Wark in telling of his life relates the fact that when he came to the province there was little to be done at clerking so he readily took up work at shipbuilding. After a time he got employment to keep a trader's books, then he taught school. This was at what now is Moncton, but which was then known as the "Bend" of the Petitcodiac river. An earnest Presbyterian, he found no church of that denomination at Moncton and so removed to Richibucto, where there was one. He opened a school and or some time taught the young idea of the place all the English branches, and also navigation, mensuration, trigometery, then in request as studies for boys. But this was hard work for one teacher among children of all ages and conditions. Mr. Wark abandoned it and entered upon a mercantile life, in which for 30 years he was engaged. He also gave great attention to agricultural work, and in time became one of the most eminent and successful farmers of Kent county. In 1842 Mr. Wark was elected a member o the house of assembly for Kent county, his colleague being the late judge Weldon, father of the late W. C. Weldon of St. John. As a legislator Mr. Wark soon made considerable impression upon the house and upon the province. He was a prudent, safe and reasonable man of excellent judgment, moderate in the expression of an opinion, and well informed upon many matters which affected the welare of the people. After some years in the house he was appointed to the legislative council in 1851 and he occupied a seat in that body until he was called to the senate. From 1858 to1862 he was in the executive council, being a colleague of Fisher. Tilley and other liberals of that time and he held the office of receiver-general. In such matters as development of agriculture, the diffusion of education, the extension of trade, Mr. Wark was an active promoter.

As early as 1847 he promoted legislation in the provincial legislature favoring reciprocal trade between the provinces, which had at least a partial influence in securing what was desired, and it led or at least helped to lead up to the reciprocity treaty of 1854 between the Canadian provinces and the United States. Mr. Wark in his long political career, covering a continuous period of 62 years, has ever been on the side of movements to help people help themselves. The New Brunswick saving bank system as perfected was largely due to his judgment. In the senate of Canada he has ever acted with the liberal party, but towards all parties he has been just and moderate. His life has been actuated by a strong sense of duty, and he has regarded public position as a trust given to him to be exercised for the benefit of his fellowmen. Conscientious, honest, single-minded, temperate, methodical, prudent, Mr. Wark's long life has been a most excellent example of good living—a steady, earnest life, which is better for the country in which it is lived than any meteoric display of brilliant but erratic intellectuality. It is claimed for him, and probably correctly, that he is the oldest legislator in the world, not merely in age but in the long career which began 62 years ago and has continued ever since. Perhaps the king of Great Britain and Ireland and all the British domain beyond the seas ought to be congratulated upon the fact that he has in these dominions the oldest legislator living and that he is a man well-deserving of honor. The men who were in public life in New Brunswick when Mr. Wark entered the legislature in 1842, have all disappeared from the scene. Of the senators when he was called to the senate in 1867 there is only one of the body now, Hon. William Miller of Nova Scotia; of his New Brunswick colleagues in that body in 1867 one still lives—Hon. A. R. McClelan, who ceased to be a senator when he became lieutenant-governor of this province. In 1860, when 56 years of age, Mr. Wark married Miss Elizabeth Anne Burpee, of Sheffield, Sunbury county, a sister of the late Hon. Isaac Burpee. Mrs. Wark died a few years ago. A daughter still survives.

NELSON'S NEWS OF THE DAY

Mrs. S. H. C. Milner and party left yesterday for Phoenix and Grand Forks.

The Nelson football club will have a practise on Thursday evening.

The city band will give their regular weekly street concert from the band stand on Ward street this evening.

In addition to their shipments to the Hall Mines smelter, the Hunter V. mine is now sending out 40 tons a day to the Trail smelter.

During the month of June the Hall Mines smelter received lead ores in the aggregate amounting to 3,771,921 pounds net dry weight, or 1885 tons. The lead received amounted to 2,144,383 pounds or 1072 tons.

George S. Cantlie, superintendent of the car service of the Canadian Pacific railway, with headquarters at Montreal, who is making a tour of the coast, will be here on Thursday for the purpose of inspecting the Kootenay car service of the company.

By special request of a large number of those who intend to participate in the excursion to Port Hill on Sunday, it has been decided to hold the steamer Kaslo at the dock until 8:45 a.m., instead of 8:15 a.m., as at first advertised.

Aaron Lacey, son of Mr. and Mrs. Wm. Lacey, was 12 years old yesterday and the anniversary was celebrated by a birthday party. Fourteen of Aaron's boy friends were invited to the apartments of the Lacey family in the Applewaite block. They had a merry time with games and pastimes, and the whole concluded with refreshments, consisting of cake, ice cream and strawberries. All voted the birthday party a great success.

Some boys broke into the warehouse of A. Macdonald and Co., down by the C. P. R. tracks on Monday night, an entrance being effected through a back window. Several cases and packages of tobacco were taken and sundry other articles, including some boots, and several packages of candy and chewing gum. Most of the goods were subsequently found cached under the Mason and Risch piano warehouse, further west along the line of rail.

A flash of lightning alarmed the operators in the local telephone office on Monday afternoon at 4 o'clock. It made a noise on the switchboard like a twelve-pounder gun going off, while the board fairly smoked and sizzled under the effects of the electricity. It went along the wires in all directions burning out between 120 and 130 fuses. It also burned out several instruments on the other side of the lake. The result was that the local staff had a busy day of it yesterday putting in new plugs.

Commenting on the Sharp burglary, a well-known Baker street merchant said last night: "Some of us do get careless at times. I live near Mr. Sharp and on the night his house was entered I came home tired out with a wad of over $100 that I was too busy to bank during the day. I left the back door of my house wide open all night and my coat, with the wad aforesaid in the pocket was hanging on the sitting room door all night, just ready for some one to take it. I wont do it again."

A very handsome grandfather's clock has been put in place in the Hume hotel dining room. The case is of oak, beautifully hand carved, and stands about seven feet high. The clock has two sets of chimes. The Cambridge and the Oxford, and chimes out the hours half hours, and quarters, the full chime striking at the hours. The time piece was made in England, but purchased in Constantinople and brought to B. C. many years ago. Mr. Hume brought it here from his former home in Victoria some days ago. J. O. Patenaude, the jeweler, who is regulating the clock in its new home, values it at $500.

The local fleet of torpedo launches will make a demonstration in force up the lake next Friday evening. The city band will accompany the launches, and a landing will be effected at a point known only to the commander of the fleet. Later the party hope to return in safety to the city.

The mystery concerning the suposed disappearance of a woman on Monday on the mountain on the opposite side of the from the city, was satisfactorily explained yeserday. It seems that a camping party was in quarters over the ridge and that the woman in question had joined them, the man who took her over returning alone. The camping party all returned to the city yesterday.

W. F. Robertson, the provinicial mineralogist, has been inspecting mining properties in the Ainsworth district and up to the head of Kootenay lake. He says the finest view to be had in these parts is to be had from the Levina mine, above Argenta, on Hamill creek, where the country for miles around can be viewed. A mining party from Trout Lake and Ferguson have gone over the divide into the Howser lake country and it is said they have made some good finds.

The machinery is being delivered at the millsite of the Reliance Mining and Milling Company on Forty-Nine creek. The carpenters and builders are framing and putting up the mill structure. The sawing of lumber for the mill will be commenced immediately the mill is in place and ready for operation. The construction force is to be increased towards the end of the present week. It is anticipated that the entire plant will be in operation by the end of August, as from now on the work can and will be pushed.

A NARROW ESCAPE

George Hunter had rather a trying time with his launch, the Three Sisters, on Monday afternoon. He had gone up to Kaslo in the launch on Sunday and on Monday started for home with his wife and the three little girls, after whom the boat is named. He made Busk's ranch all right and after a wait there started for the city. After passing the narrows at Nine mile point, the squall which struck this city at 4:30 was seen coming along the surface of the arm, churning the water at a great rate. Mr. Hunter immediately made for the north shore and successfully beached his launch before the full force of the storm reached him, and managed to get his wife and children safely ashore, and the awning off the boat over them for protection against the rain. Then he turned his attention to the launch, but when the wind storm broke in full force the waves lifted the boat high and dry on the beach. The Kokanee came along in a short time and the officers seeing the party stopped and took them on board. Mr. Hunter went up yesterday morning and brought his boat back.

The hundredth ticket drawn at the Queen Cigar Store prize drawing on Friday night will entitle the lucky holder to a trip to St. Louis and return.

PICNIC ON THURSDAY

A picnic to Procter will be held on Thursday under the auspices of the St. Paul's Sunday school. The steamer Kokanee will leave the city wharf at 8:45 in the morning and arrive back at 6 p.m. A special coach will be attached to the train leaving for Procter at 2 p.m. Tickets, adults, $1; children, 50 cents.

PRIZES AT NELSON FAIR

Fruit growers will have a good opportunity to take prizes at the Nelson fair this fall. Besides the 200 prizes offered for fruit by the associatio, the Imperial bank is giving $15 in gold for the best collection of fruits, Martin Burrel of Grand Forks a $10 prize for apples, pears and plums; T. G. Procter offers a town lot in Procter for the best collection of fruit grown in the Nelson, Ainsworth, Goat River or Slocan mining divisions and A. Macdonald and Co., a valuable prize for the best and prettiest design made with fruit grown by the exhibitors.

ANOTHER CONCENTRATOR

P. Maris, representing French capital at Kaslo, has returned from a trip to France and announces that his company—the Silver Star—operating the Cork and other properties on the south fork of Kaslo creek will at once start the erection of a concentrator for treating the output of the mine. The Province, an extension of the Cork, operated by H. Giegerich and others is reported to be showing up particularly well at the present time.

MINING RECORDS

At the mining recorder's office on Tuesday S. L. Meyers obtained a certificate of work on the Gold Bug.

Certificates of work were granted to A. B. Cooper et al on the Green Horn and Good Hope.

To Mrs. Janet Stewart on the Iron Cliff.

To William Coffey on the Atlin Fractional No. 2.

Look up your Queen Cigar Store coupons. The prize drawing will take place at McNichol and Smyth's on Friday evening at 8 o'clock.

A public dance will be given at the city park pavilion on Thursday, July 14th by the Queen City Mandolin orchestra. Special car returning at 1 o'clock. Good order is assured.

Maybe you have the lucky number. The prize drawing for the ticket to St. Louis and return will take place at the Queen Cigar Store on Friday evening.
