FAIRVIEW NEEDS FIRE PROTECTION

Council Commends Matter to Citizens of Suburb.

LEASES OF WATER FRONT APPROVED

Improvements to the Lighting Circuit---Work at the Cemetery.

The rump city council was still further reduced in size last night, by the absence of Ald. Rutherford, who did not return from the coast in time to make the session. Ald. McDonald returning by way of Spokane, just a quorum was possible, and contrary to expectation, a council session was held. The session was particularly important as the matter of fire protection for the community of Fairview was taken up and steps were taken to bring the matter to the attention of the community and authorities concerned.

Mayor Selous was in the chair, the others present being Aldermen McDonald, Mackenzie and Carrie.

The matter of Fairview fire protection was raised on a letter from D. Guthrie, fire chief, who wrote as follows:

Chief Guthrie's Letter.

"Gentlemen,—I would suggest that the city try and come to some arrangement with Fairview as to fire protection. On the 31st the department responded to an alarm for a fire in Cornwell's bakery in Fairview. To my mind, if we had not laid a line of hose, the east end of the city would have been in danger of a serious fire. On the other hand there was the danger of a fire breaking out in the while the department was working in Fairview. I respectfully recommend that the city council endeavor to have the citizens of Fairview install some hydrants, buy a hose cart, and 700 feet of hose. The Fairview citizens cannot expect the city of Nelson fire department to protect their property at the risk of a serious fire inside the city limits."

The suggestion of Chief Guthrie was generally commended. Mayor Selous stated that in the spring there had been some talk of something being done in that direction for Fairview, but nothing had come of it. It had always been customary for the city brigade to go to the shipyard in case of fire, and even when the apparatus was turned back when it was seen it would be of no use, men were sent on. This was of course at the risk of something happening in the city meanwhile. One city always helped another in time of need, even to the extent of sending apparatus and crew 100 miles if necessary, and no one begrudged the aid being extended to Fairview, in spite of the risk. But the aid that could be extended was strictly limited by the fact that the municipality had failed to install hydrants. The matter certainly ought to be taken up.

All the aldermen agreed with the proposition that Fairview ought to do something for itself, Ald. McDonald expressing the opinion that the community ought either to have equipment of its own, or assist in the maintenance of the Nelson fire department.

On motion of Aldermen Carrie and McDonald, the report was received, with the understanding that the matter be commended to the attention of the residents of Fairview. Mayor Selous undertook to discuss the question with W. F. Teetzel, government agent.

Catholic Cemetery Plot.

The Catholic cemetery committee wrote as follows:

"The committee in charge of the extensive improvements being made to the Catholic portion of the general cemetery respectfully beg to call your attention to the following:

"1. The main cemetery road leading to and crossing our plot, as at present, encroaches on the ground purchased by us for burial purposes, and should be moved a little farther to the east, before we can complete the work now being done for us under contract by Harry Richardson.

"2. The grade of our burial ground being quite steep, it was found necessary to terrace it. In consequence of this, unless the road be cleared to its proper survey before winter, there will be positive danger to the hearse and other conveyances, of being upset when the snow will cover the ground.

"3. It also seems absolutely necessary that a water course to the south of our cemetery, not on our ground, should be slightly changed, as without this being done a considerable part of our plot, now put in good condition, will be washed away in the spring.

"For these reasons the committee respectfully requests that this work be ordered done by the city without unnecessary delay. I may add that we consider the work can be done for about $60; in fact, Mr. Richardson, who has men, horses and proper tools on the ground, has offered to complete the work at this figure."

Ald. Carrie stated that the work mentioned was necessary and would have to be done sooner or later anyway. On his motion, it was decided to go ahead with it.

Waterfront Leases Approved.

Mayor Selous reported that A. M. Johnson, city solicitor, had prepared the various leases for the waterfront.

One lease, that to W. J. Astley, as a liveryman, was read, as a sample, and on motion it was decided to approve all the leases, and the mayor was empowered to sign them. The leases are for varying periods, and are made out respectively to the Nelson Launch club, the Nelson Boat club, Herbert L. Lindsay, W. J. Astley and W. Elford, the three latter for livery berths.

It is understood that boat-houses to be built in the future will be required to be painted within a reasonable time after their construction.

W. J. Meagher wrote under date of November 5:

"Having purchased lots 5, 6 and 7, block 37, situated at the east end of Carbonate street, on the south side, be-

PETITION FOR CRIPPEN'S REPRIEVE

Alleges Grave Doubts as to Guilt of Condemned Man—The Medical Testimony.

LONDON, Nov. 7—The petition for reprieve of Dr. Crippen is a lengthy document of about 2500 words. It submits that upon the evidence produced most serious and grave doubt exists as to the guilt of the prisoner, and that he had always denied it. The whole subject of guilt turns upon the question whether the remains found are those of Cora Crippen (Belle Elmore.) It adds that doubt had been expressed by medical men as to whether the crown did established the identity of the remains, and speaks of the most unfair and unjudicial way in which Dr. Pepper's opinion was slavishly followed by other medical witnesses called by the crown. The petition closes by contending that owing to the statements made by the newspapers it was absolutely impossible for Dr. Crippen to have a fair and impartial trial.

Arthur Newton, solicitor for Crippen is drafting the petition for the reprieve of the condemned murderer. The execution has been fixed for November 23.

THREE CANDIDATES IN YALE ELECTION

Many Aspirants for Conservative Nomination—Liberals May Select Rejected Candidate.

(Special to The Daily News.)

VICTORIA, Nov. 7—Premier McBride will on Wednesday transmit to Speaker Eberts his resignation of the Yale seat to which he was elected with a very large majority over Stuart Henderson at the general election a year ago. The date of nomination and election will be made public during the course of the present week and it may be predicted that the choice of the electors of Yale will be made known before the close of the present month.

Many Aspirants.

There are already numerous aspirants for the seat to be vacated by the premier and it is significant of the attitude of the ocuntry toward the present government that among these hopeful ones, Conservatives are very largely in the majority. To determine between several prospective candidates a convention is announced to be held at Spence's Bridge on Friday of this week, at which the names of Mr. Lucas of Agassiz, at one time Conservative organizer for the province, Harold Mathews, a well known and deservedly popular rancher of the Nicola valley, possibly A. L. Belyea, barrister of Vancouver and Mr. Darcey of Merritt are likely to be brought forward.

The Liberal Choice.

The Liberal opponent of the convention's choice is expected to be Stuart Henderson of Ashcroft, who has already had the honor of representing the constituency in the local house and who was signally rejected on the occasion of his last appeal to the riding. There is also a prospect of an independent being found in the field for the prospective by-election, T. E. Julian of Vancouver having announced himself as such in a recently issued manifesto in which he describes as his principal planks the "terms of union and rights of the province," and "improvement of the Land act."

FAIL TO DO JUSTICE TO PORT ARTHUR'S GROWTH

PORT ARTHUR, Ont., Nov. 7—That the official building permit figures do not show the actual total was evidenced when three local contractors were given nominal fines in the police court for neglecting to take permits on a total of 20 business blocks and residences.

WAS GOOD SHOW

TORONTO, Ont., Nov. 7—A. C. Pratt, M.P.P. for South Norfolk, returned last night from the coast where he went to attend the exhibit of fruit at Vancouver. He stated that the exhibit of apples was one of the finest the world has ever seen.

BOND GIVEN ON THE KILO MINE

Famous Lemon Creek Property Subject of Deal.

MINNEAPOLIS MEN ARE ACQUIRING IT

Stampmill of Chapleau Will Be Used to Test Its Free-Milling Ore.

A mining deal that, in point of money involved, is one of the largest recorded in the Kootenay this year, has just been put through, the Kilo mine, in the old Lemon creek camp, being leased and bonded by N. F. McNaught of Silverton and James McNaught of New York, to prominent Minneapolis interests. The names of the bondees have not been given out but it is stated that they are well known names in western mining. The deal was brought about by Andrew Sostad of Nelson, and the papers were signed in Nelson on Nov. 1, Mr. Sostad representing the bondees, and N. F. McNaught, himself and brother. The first payment was made on that date, O'Shea & Farris being the solicitors who drew the papers.

Will Lease Mill

Mr. Sostad, speaking last night of the big deal, stated that an early move on the part of the Minneapolis lessors would be to least the 10 stamp mill on the adjoining property, the Chapleau, and make a thorough test of the Kilo ore, for the purpose of determining the best method of treatment. It is gold ore, about 60 per cent free milling and the blanket vein which varies from 1 to 4 feet wide on the different levels has been developed by five drifts, connected by raises, there being in all about 1500 feet of tunnel work and raises. This development was carried out many years ago and a large quantity of ore was shipped, all from development, averaging about $20 a ton. According to the engineer's estimate there is 2000 tons of ore blocked out by the existing development.

On North Fork of Creek

The Kilo property is situated on the north fork of Lemon creek, at an altitude of about 3800 feet. There is a wagon road to the Chapleau mill and from that point to the Kilo there is a good rail.

An incident in conntction with the deal was that Mr. McNaught was obliged to forego attendance at the trial of a liquor case in New Denver, at which he had been subpoenaed as a witness, in order to be in Nelson to sign the papers. This he did, with the consent of the constable concerned, the prosecution, as has been anticipated, being successful without his evidence.

VALIDITY OF ACT WILL BE TESTED

Quebec Manufacturers Object to Registration of Extra Provincial Companies—Submit Stated Case

(Special to The Daily News.)

VICTORIA, B.C., Nov. 7—According to a recent issue of the Montreal Star it has been determined by a number of manufacturers of Quebec who are affected by its operation to test the validity of the provincial statute of last session under which licence fees and registration are required of extra provincial trades companies doing business in British Columbia. This decision is stated to have been arrived at at a meeting attended by some 33 manufacturers of the Montreal branch of the Canadian Manufacturers' association and was embodied in a resolution which passed unanimously.

When spoken with to in reference to this threatened test case Attorney General Bowser said that the secretary of the Canadian Manufacturers' association had some time ago asked him if he would give a test case in order that the validity of the statute might be determined and he had promply replied that he could not see that it was his place to take such a course and thereby cast a doubt upon the validity of his own legislation. He had then been asked if he would bring on a case under the act whereby the desired test might be obtained and had answered that such an opportunity would very shortly be presented as officers of the department were now engaged in working up two or three cases, the defendants in which would doubtless be only too pleased to have the Manufacturers' association step in and fight their battle for them. That there is any necessity for such a special test does not, however, appear since the entire issue is contained in a stated case shortly to be submitted for final adjudication. In this case a determination is asked for as to the competence of the province to restrict or limit within such province the business operations of companies incorporated under Dominion laws and also as to whether a province may prohibit such companies from engaging in business within the province until a prescribed license for the province is taken out and fees attaching to the issuance of such licenses are duly paid.

CRANBROOK MAN DIES IN SPOKANE

Found Dead on Floor of Room in Hotel—Worked for Dover Lumber Company

(Special to The Daily News.)

SPOKANE, Wash., Nov. 7—J. H. Lesia, who recently arrived in Spokane from Cranbrook, B.C., to attend to business with the Big Bend Lumber company, was found dead on Monday morning on the floor of his room at the Nagle hotel. The man appeared at the hotel Sunday evening and was shown to his room. He was slightly under the influence of liquor but left a call for Monday morning. When the clerk went to the room and received no answer, he forced the door. Sergt. Nick Warner investigated. Upon the body were found a number of letters, among them one which gave the address of O. W. Hanke, 831 32nd avenue. Correspondence from the Dover Lumber company of Sand Point showed that the man had been working for them. O. W. Hanke could not be found.

NO LOSS OF LIFE IN ASYLUM FIRE

Superintendent of Brandon Institution Issues Official Statement—None of Patients Suffered Injury.

BRANDON, Man., Nov. 7—Since the destruction of the hospital for the insane there are rumors that lives were lost during the fire. Countless rumors have been investigated and proved to be incorrect. A report that two bodies were found in the ruins has also proved groundless. Dr. McFadden, medical superintendent of the hospital for the insane, at 12 o'clock today issued the following statement:

"All the patients, female and male were taken from the asylum without injury to any of them."

Brandonites Alarmed.

Unwillingness on the part of the citisens to allow the government to use the winter fair buildings in the centre of the city vanished when Hon. G. R. Coldwell, acting minister of public works, intimated that the institution might be removed from Brandon if the winter fair building were not turned over for the use of the patients. It is likely that the winter fair will be held in the armory. In the meantime, a number of people are showing great concern over the fact that asylum patients are to be lodged in the city for an indefinite period.

Will Relieve Situation.

BRANDON, Nov. 7—It is now stated here that Manitoba will be relieved of the care of hundreds of homeless lunatics on the completion of the Alberta asylum at Ponoka. The great majority of the inmates of the Brandon asylum were from Saskatchewan and Alberta and they will be sent to Ponoka within a few weeks. The asylum at that place will be completed by the first of the year but it is expected that portions can be rushed to completion to provide accommodation and relieve the situation here.

COUNTRY LIFE PROBLEM TO BE SOLVED

LOUISVILLE, Ky., Nov. 7—Of considerable interest to the country at large as pointing the way to a possible solution of the country life problem, will be the results of the special election in Jefferson county tomorrow on a proposed $500 000 bond issue for a modern system of rural schools. If the proposal is adopted the proceeds of the bond issue will be used to supplant the small district schools with a consolidated chain of rural schools, which it is believed will accomplish great results in the rejuvenation of country life. It is the first time that such a plan has been taken up on a large scale and its success will be watched by the country at large.

LOCOED HEIFER SHOT IN NORTH LOBO

LONDON, Ont., Nov. 7—A fine heifer on the farm of W. McIntyre, North Lobo, went mad and was shot. The outbreak is serious and a large herd of cattle has been quarantined by order of the Dominion government.

NOVEMBER 8, 1910.
Coupon No. 1.

This coupon, with one from each of the other issues of The Daily News of the week ending, November 13, and 10 cents, entitles the holder to a photogravure reproduction of Dendy Saddler's great picture, "Darby and Joan," the world's greatest artistic conception of domestic happiness. The coupons and money should be presented at The Daily News office any time after Sunday next. If pictures are to be mailed 5 cents must be added to cover postage.

LOCATE ORCHARDS IN KOOTENAY

Provincial Horticulturist to Make Choice

FIVE SELECTIONS ALREADY MADE

Demonstration Orchards in Other Districts Will Be Chosen Immediately

(Special to The Daily News.)

VICTORIA, Nov. 7—R. M. Winslow, provincial horticulturist leaves for Kootenay today to complete the location of demonstration orchards in that district.

The work of definitely selecting and locating sites for the provincial government's series of demonstration orchards throughout British Columbia is proceeding satisfactorily. Thus far five selections have been definitely made, in each case the very best offered site having been secured. These are, Aldergrove, the demonstration orchard for the south Fraser valley, to be located upon the property of the Fraser Valley Nurseries Co. Ltd., the site comprising five acres on the Jackman road; Hammond, the orchard for this section comprising five acres of well situated land with typical deep soil and generally favorable conditions; Kamloops, an orchard of approximately five acres presenting typical characteristics of the district; Shuswap, an orchard of approximately five acres of typical soil; Salmon Arm, orchard presenting all desired conditions. The work of further choice of selections is now going forward with greater rapidity and other choices for a number of districts may be looked for immediately.

CHICAGO CENTRE OF HUGE STRIKE

Engineers on Sixty-one Lines May Cease Work—Large Amount is in Dispute.

CHICAGO, Ills., Nov. 7—A strike vote will be taken among engineers of 61 railways west, south and north of Chicago, including the Illinois Central, following the termination today of negotiations between the roads and grand officers of the Brotherhood of Locomotive Engineers, which have been in session since September 26. Difference on wage increases of approximately 7 per cent and alteration of working conditions stood between the negotiators.

Sentiment Unanimous.

Grand Chief Warren Stone, of the engineers, who has been leading the railway men in their demands, said today he believed the strike vote would be unanimously in favor of suspension of work, and that the enginemen would have expressed their desire by December 10. Immediately thereafter, the last opportunity would be given the roads to meet the workers, and if they ignored it, within five hours every engine west of Chicago, in all branches of service, would be stilled and the fires drawn. Out of thousands of cabs would step every engineer on duty.

The Men's Negotiators.

The representatives of enginemen in the 25 conferences which ended today without result, were: Warren Stone, and Ash Kenney, F. A. Burgess, E. C. Corrigan, M. W. Cadle and S. E. Willis, assistant grand chief of the Brotherhood of Locomotive Engineers. The negotiators received the advice of 50 division managers of the brotherhood, who directly reported for the smaller councils of the order. Railway officials as follows heard the drivers' demands, W. R. Scott of the Union Pacific, F. E. Ward of the Burlington, F. G. Batchelder of the Chicago Terminal belt line, W. A. Durham, of the Missouri, Kansas and Texas, F. H. Emerson, of the Great Northern, T. J. Foley of the Illinois Central, F. C. Fox of the Atchison, Topeka and Santa Fe, Grant Hall of the Canadian Pacific, H. J. Simmons of the El Paso and Southwestern, and A. W. Trehoim of the Chicago, St. Paul, Minneapolis and Omaha.

Wage Scale Unsatisfactory.

The whole question arose from the decision of enginemen themselves in convention at Detroit last spring. In a three weeks' session, it was decided that the existing wage scale in effect since February, 1907, was unsatisfactory, and that working conditions had been imposed by railways which should be eliminated. The grand officers were named to meet the roads. The general working conditions of which the engine drivers complain, include among others, the following: Drivers of the Mallet compound engines which do practically the work of two engines and entail a correspondingly greater responsibility and capability, receive the same wages as other drivers of high power engines of much lesser capacity. Engineers wish to be relieved of the toil of preparing their engines for travel and of caring for them after the run. Switching time should be paid for on a different basis.

Big Money Involved.

The magnitude of the wage questions is evidenced by a statement by the employees that the 7 per cent wage difference now standing between the drivers and the railways means approximately $2,800,000 a year. The cost of alterations of working conditions, minor considerations in the conference, would be less than $500,000 it was asserted.

BRITISH GOVERNMENT ASKS FOR INFORMATION

(Special to The Daily News.)

VICTORIA, B.C., Nov. 7—The provincial government has received, through the prescribed official channels, a request from the imperial authorities for particulars of financial arrangements existing between the government of British Columbia and the several municipalities, civic and rural, existing in the province, the information sought being required in the preparation of an imperial return. It is understood that similar information has been sought from each of the Canadian provinces.

TOMORROW IS NEW DATE FOR OPENING

President Taylor Explains Delay in Opening Street Car System to Public—Yesterday's Progress

"The trial run of No. 1 car today was very successful," said J. E. Taylor, president of the Nelson Street Railway company, yesterday. "It was run over the whole of the old track and taken out to the shipyards. The car was stopped on the worst grade on the system, that on Water street, near Cedar street and answered to the brakes perfectly. We stopped both going up and coming down this grade. On both occasions the car was running at a fair speed.

"The noise which was very noticeable during the operation of the car yesterday was caused by the gear case which had a rough spot in it. This will be taken out and we do not anticipate any further trouble of this nature.

"The track we found to be in perfect condition except at the corner of Baker and Stanley and the corner of Ward and Vernon where it will be necessary to draw in the outer rail a trifle. The cars might be run around these two curves even now but Inspector Rae, who made the trip with us today, insists that the track shall be in perfect condition before permitting the opening of the system to the public. The work of altering these two turns will therefore be carried out immediately and will not delay the opening of the service.

Reasons for Delay

"The reason for the further delay in opening the system to the public was that the brakes were found to require some adjustment so that they would act instantaneously. This has been done and we found on today's trip that they brought the car to an immediate stop whenever applied.

"Inspector Rae is very well pleased with both the cars and the track. We hope to run car No. 2 over the track at noon tomorrow. Several trips will be then made by both cars and the new motormen will be made thoroughly acquainted with the route before being allowed to operate the cars.

Tomorrow Date of Opening

"We expect to open the system at noon on Wednesday if no unforseen delay occurs.

"Both myself and the directors are very anxious to have the system open to the public but the inspector insists that everything shall be in perfect order and that every motorman and conductor shall be conversant with the route and the operation of the cars before throwing the system open to the public, thereby avoiding any chance of an accident.

"While it is to be regretted that there has been some delay in commencing operations we think this action of the inspector a very commendable one as by virtue of his position it is absolutely necessary that he safeguard the public in every possible manner. He will authorize the directors to permit the public to ride on the cars as soon as the track has been proved to be entirely satisfactory and the men have become acquainted with the handling of the cars.

Another Change Made

"Car No. 2 has been thoroughly overhauled. One change we were compelled to make in both cars was in regard to the sanding devices. When the cars arrived the sand was placed on each rail by moving a separate handle. It has now been so modified that one lever operates both sanders and distributes the sand on each rail with one movement by the motorman.

Car No. 1 ran up Stanley street with the greatest ease last night and I am convinced that we shall have no trouble whatever in making the stiffest grades on the line when all the rails have been properly cleaned of rust and grease."

CARRICK BUYS PROPERTY WANTED FOR PARK

MONTREAL, Nov. 7—J. J. Carrick, M.P.P. for Port Arthur this morning completed the purchase of the Redpath property, which is quite a large slice of Mount Royal for $500,000. The city has been negotiating for this property for two years to add to the Mount Royal park.

VALUATORS HAVE FINISHED WORK

Preparing Cheques for Payment of Accounts

CLAIMS AGAINST MIDWAY AND VERNON

Board Holds Last Meeting—Payments Will Be Made During Present Month

(Special to The Daily News.)

VICTORIA, B.C., Nov. 7—It is understood that the board of valuators appointed early in the present year to determine the price which the Kettle River Valley railway company must pay for the old Midway & Vernon right of way and also to pass upon the various claims for wages and supplies incurred by the defunct railway corporation and assumed by the Kettle River line under the subsidizing legislation of last session has now virtually completed its important work, although some few isolated claims may yet be received and considered. The approximate aggregate amount of the award has been communicated to the Kettle River Valley company and it is stated that vouchers and cheques in connection with the settlement of preferential accounts are now being prepared and that cheques will go forward to the creditors about the middle of the present month. President J. J. Warren of the railway company is now in the city and has had several conferences with the arbitrators since his arrival. The board held its last meeting on Friday, Judge Forin of Nelson presiding, and there being also present R. F. Green, the representative of the government on the commission, and L. M. Rice of Seattle, who acted in the interest of the railway company.

INHUMAN NEIGHBORS REFUSE ASSISTANCE

Three Children of Saskatchewan Farmer Suffocated—Neighbors Decline to Fetch Doctor

BUCHANAN, Sask., Nov. 7—Circumstances surrounding the death from suffocation of three children of A. Todd, a farmer living a few miles from here, place the neighbors in a very bad light. The father of the children was away with a threshing gang and the mother was milking cows. The fire started in the kitchen and the mother rushed to rescue her children. The baby of six months was dead, although it had been carried to a bedroom by the eldest child aged four. The second child died five hours later and the mother rushed to the neighbors to ask them to go to town for a doctor. They all refused. Word reached here next day and a doctor went out. He was unable to save the life of the eldest child.

REPORT ON ALBERTA GREAT WATERWAYS

Report of Commission on Alberta & Great Waterways Railway—Conservatives Chose Leader.

EDMONTON, Alta., Nov. 7—Things are beginning to assume an animated appearance at the local legislative buildings, in preparation of the opening of the first session under the direction of Premier Sifton next Thursday afternoon. The address in reply to the speech from the throne will be moved by Charles Stewart, of Sedgewick and will be seconded by A. J. McArthur, the newly elected member for Gleichen.

The first business of the session will be the presentation to the house of the report of the royal commission on the Alberta & Great Waterways railway. It will be tabled by Premier Sifton immediately after his honor, the lieutenant governor retires from the legislative chamber. It is expected that all members will be present.

Conservative Leadership.

EDMONTON, Alta., Nov. 7—The Conservatives of the province will hold a convention in Edmonton on Wednesday at which it is expected that a leader for the party will be chosen. It is said that R. B. Bennett has announced that he will retire from politics after this session and will accept the leadership under no circumstances. The party are desirous of securing either M. C. McCarthy or H. A. McGrath, but neither of these wish to give up their federal positions. E. Michener of Red Deer, is also mentioned, but he is not considered sufficiently strong in faith for the position.

PORT ARTHUR SHORT OF POWER

PORT ARTHUR, Ont., Nov. 7—Considerable inconvenience is being experienced owing to the scarcity of electrical power due to the Current river running dry.

Most Ills of Life

come from errors in diet, from too little exercise or from the mistakes we commit without thinking of consequences. These sicknesses may be slight at first, but they hinder work, prevent advancement or bring depression and spoil enjoyment. What is worse, they lead to serious physical disorders if not checked in time; but you CAN check them easily and quickly. They will

BOND ISSUE FOR HIGHWAY PROJECT

California to Vote to Provide Three Thousand Miles of Modern Roadway—Engineer Engaged.

TACOMA, Nov. 7—*The success of* failure of the $18,000,000 bond issue that is to be voted upon by the citizens of California means much to the Pacific Highway project, which contemplates the construction of an international road from Mexico to Canada along the Pacific coast. Governor Gillette and other good road enthusiasts are actively supporting the bond issue, which will provide for at least 3000 miles of modern highway. This will mean the immediate construction of California's part of the Pacific highway.

It is readily conceded by all far-seeing business men that California needs more good roads, especially in the northern part of the state. In nearly all eastern states trunk line highways are being built and maintained by the state, and California will either take a step in advance in the matter of internal development or will retard her growth by lack of adequate highway facilities, by voting favorably or unfavorably on this bond issue.

Noted Engineer.

With the securing of the services of J. B. Miller, the engineer who built the North Bank railroad for the Hill interests, for the state highway commissioners office of the state of Washington, the good roads movement in the Evergreen state has been decidedly fortunate. Mr. Miller will not only devote his energies to that part of the state highway system that will become a portion of the Pacific highway, but will superintend the construction of the state road that is to be built up the Columbia river, and which will ultimately lead to Spokane via Walla Walla.

In view of the fact that the North Bank railroad is one of the best constructed railroads in the country, Mr. Miller's reputation as an engineer is fully sustained by the work he has done.

A good roads rally has been called for November 10, to be held under the auspices of the Tacoma chamber of commerce and the Tacoma Commercial club at the Commercial club's headquarters. *Invitations have been sent* out to all the commercial organizations and the good roads clubs, to send representatives to Tacoma to attend the *meeting. Assurances have already* come in that Vancouver, B. C. and Victoria will be well represented.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LETITIA BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

GOING HOME TO VOTE.

WASHINGTON, Nov. 7—Trains leaving Washington today carried hundreds of officials and government clerks who will tomorrow vote at their respective homes. The departments have been emptying themselves of voters for several days and by noon today the forces in all the big government buildings were reduced to a rather low ebb. The government service, however, is not allowed to suffer by this exodus of voters, as the department heads always prepare for the lack of workers at election time by getting the routine work *well in hand and in such condition that* a reduced number of employes can handle it.

President Taft leaves tonight for *Cincinnati, where he will cast his* ballot tomorrow. All of the cabinet officers are following the example of their chief in returning to their respective *homes to vote. Some of the department* heads and other officials who come from the same states have arranged to save the expense and trouble *of going home by pairing with men of* opposite party. This plan has been steadily increasing in favor since free railroad transportation was abolished several years ago.

NEW ENGLAND PRIZE CORN

WORCESTER, Mass., Nov. 7—To demonstrate the fact that Iowa, Illinois, Kansas and other states of the middle west are not the only localities in which *corn can be successfully and profitably* raised the New England Corn show was opened today on the grounds of the Worcester country agricultural society. *It is the first corn show ever held in* the east and as a consequence it is already attracting much attention among those interested in agriculture. Nearly all sections of New England are represented in the exhibition which will continue through the week. Five thousand dollars in premiums will be awarded.

REAR ADMIRAL PHELPS RETIRES.

WASHINGTON, Nov. 7—By the operation of law Rear Admiral Thomas N. Phelps, recently detached from duty as commandant of the navy yard at Mare Island, Cal., was placed on the retired list today. He is a native of Virginia and was graduated from the naval academy in 1869.

WILL BUILD MANSE AT CRESTON

Church of England Will Hold Smoking Concert—Plan Prepared for New Warehouse

(Special to The Daily News.)

CRESTON, Nov. 7—At a meeting of the managers of the Presbyterian church at Creston held here on Tuesday evening last important business was transacted. At this meeting Rev. S. Sarkissian announced that he would remain here permanently, whereupon the managers made arrangements for the immediate clearing of the church lots preparatory to the erection of a manse, being a five roomed cottage. Considerable enthusiasm prevailed at the meeting and it is expected that now as they have a permanent pastor Presbyterian matters in Creston will move along more rapidly than heretofore.

Smoking Concert

On Friday, Nov. 11 at 8:30 in the evening in the Mercantile hall the Church of England will hold a grand smoking concert. On this occasion there will be a first class program of songs, recitations and Prof. G. M. Gunn will render selections on the bagpipes during the intervals. Every man in the valley is cordially invited and a most enjoyable evening is anticipated.

The ladies of the Altar society of the Catholic church will hold a card social in the Mercantile hall on Saturday evening, Nov. 5. *Refreshments and* music will also be in evidence.

New Warehouse

W. K. Brown has the plans and specifications now ready for the new warehouse and a meeting of the members of the Farmers' Institute will be held in the old school house on Thursday next. Nov. 10, at 8 o'clock. Every member is requested to be present.

James Cook, one of the Creston members of the advisory board of the Canadian National Apple show held this week in Vancouver, left for the terminal city a few days ago.

Dr. G. B. Henderson this week started *the erection of a new residence on* his property on Canyon street. The new home will be large and commodious and the doctor expects to have it ready for occupancy by Christmas.

Horses Scarce

Hugh McCreath, the well known liveryman, returned on Wednesday last from Pincher Creek, Alta., where he went to purchase horses. Mr. McCreath says that horses are very scarce in those parts, and hay is also very scarce. The fall wheat crops are looking well and all in those parts expect a bumper crop next year. Mr. McCreath on this trip purchased a team *of well bred carriage horses.*

J. A. Bevan of Spokane, accompanied by his wife and child have been paying a visit to Creston this week, being the *guest of his brother* R. S. Bevan, the local fruit grower.

Miss J. McGillivray, formerly of Creston and latterly of Cranbrook has accepted the position of housekeeper at the Creston hotel.

The public school report for October shows the total registration for that month to be 89. Division one 38, average attendance 35; division two, 51, average attendance 44. Thirty-six pupils have attended the full 20 days.

New Sidewalks

G. M. Benny, superintendent of roads for the district, has just completed a wide sidewalk to the Presbyterian *church on Canyon street* and also a wide sidewalk to a cross street below the provincial police office. These sidewalks are a great improvement to the town and the good work of the government in these matters is being fully appreciated by the residents of Creston.

The work of making improvements to the provincial police office is nearing completion and will greatly improve that public office.

Many new families are almost daily arriving in Creston and as a result all the available houses are occupied. At present many of the new comers are forced either to rent rooms or erect new houses for themselves as every conceivable kind of a private dwelling is occupied. Many of these new comers are from various Crow towns who have come here to winter their families in the glorious climate of this valley.

METHODISTS AT MATTIESBURG

MATTIESBURG, Miss., Nov. 7—Delegates and visitors to the annual session of the Mississippi conference of *the Methodist church have arrived here* in large numbers. The conference will be in session through the entire week and will be presided over by Bishop *E. D. Mouzin of Texas.* More than the usual number of important changes in pastoral assignments are expected to be made this year.

BAD STOMACH

Many in Nelson Are Being Thoroughly Purified by Miona, the Guaranteed Cure for Indigestion.

People of Nelson who suffer from dyspepsia and other stomach troubles are getting *tired of taking preparations* containing pepsin, because pepsin simply digests the food artificially. Pepsin relieves, it never cures.

And remember, pepsin only digests animal food; it has no effect on starchy good, such as potatoes, rice, bread, etc.

Mi-o-na cleanses and purifies the stomach and bowels, and tones up and puts energy into the stomach walls, so that they properly mix the food with the natural digestive juices of the stomach.

Mi-o-na tablets quickly arouse the stomach from its inaction, and in a few days it is able to do its work easily and without exertion. There will be no more sour *stomach, fermentation of food,* dizziness, sick headache, belching of gas, or foul breath.

Mi-o-na only costs 50 cents a large box, and is guaranteed by The Poole Drug Co. to cure dyspepsia, sea or car sickness, vomiting of pregnancy, and stomach sickness resulting from over-indulgence of the night before, or money back.

THE POOLE DRUG COMPANY, LTD.

PREMIER EQUAL TO ANY OCCASION

Gives British Columbia Economical, Straightforward and Progressive Government

The Toronto News refers editorially to Premier McBride as follows:

McBride, of British Columbia, has become almost a national figure although he is only at the beginning of his career. He has rescued the affairs of his province from chaos. He has established stable and continuous government. He has restored the provincial finances. He has almost effaced the memory of feeble resolutions and hopeless incompetence. He has charm of manner, an impressive presence and that personal magnetism which contributes so greatly to political success. Under his leadership the Conservative party holds almost every seat in the legislature and has left to the Ottawa government only a single constituency in the province. He enjoys the confi*dence of all classes and he seems to be* equal to any occasion. Only a man of breadth of mind and wholesome temper could have taken his attitude toward Sir Wilfrid Laurier when the federal prime minister visited the coast a few months ago. What is far more to his credit is the admission on all hands that he is giving British Columbia economical, straightforward and progressive government. He is using his power wisely and soberly and repaying the confidence of the province with an active and capable administration of its affairs. He serves a noble province, to be perhaps the wealthiest in the Confederation and if he continues as he has begun, he will establish standards which will make any relapse into feeble slovenly, or corrupt methods very difficult. Altogether the west has leaders equal to its problems and the Conservative party certainly has not need to fear comparison with its opponents.

MAY EXTEND WOMAN SUFFRAGE AREA

NEW YORK, N.Y. Nov. 7—At the headquarters of the National American Woman Suffrage association in this city arrangements have been made to receive early returns from the four states in which a vote is to be taken tomorrow on the question of granting women the ballot. The four states are Oklahoma, Washington, South Dakota and Oregon. The first three named will vote directly on the question of granting suffrage to women. In Oregon a vote will be taken on a proposed amendment to the constitution granting to all taxpayers regardless of sex the right of suffrage.

Should the four states vote in the *affirmative the result will be a cause* for great jubilation among the advocates for equal rights, for it will mean a 100 per cent increase in the woman *suffrage territory. In four states* women now possess suffrage upon equal terms with men at all elections. These states and the dates when they established equal suffrage are as follows: Wyoming, in 1869; Colorado, in 1893; Utah in 1896, and Idaho in 1896.

FATAL ENDING OF VANCOUVER DRINKING BOUT

One Man Dead, Two in Hospital, and Fourth Man Dead or Fugitive From Justice

VANCOUVER, B.C., Nov. 7—Louis Lankeray is dead, Emil Delawdier and Henri Cochett are in the general hospital and Jean Lemar is either dead or a fugitive from the police as the result of a drinking bout in Vancouver early this morning in which poison is said to have been placed in a bottle of of liquor. The four Frenchmen met in a house in Fairview and among the drinks consumed was a bottle of port wine, which is believed by the police to have contained strychnine. When the police were called to the house they found the dead body of Lankeray and Delawdier and Cochett were so nearly dead that it was at first thought little could be done for them at the hospital. They are now, however, out of danger. Lemar was missing when the police reached the house and a general call has been sent out for his arrest, the police believing he is still alive. Until Lemar is found the poisoning appears likely to remain a mystery.

BOOMING OF GUNS WILL WELCOME RAINBOW

New Canadian Warship Arrives on Pacific Coast—Reception Will be Held on Board.

VICTORIA, B. C., Nov. 7—His Majesty's Canadian ship Rainbow passed Tatoosh the outmost point of the straits of Juan de Fuca about 80 miles from Victoria at 1 o'clock this afternoon and will reach Esquimalt at 10 o'clock in the morning. At that time Admiral Kingsmill will go on board and a salute of 21 guns will be fired simultaneously by the Rainbow and shore batteries. This will be followed by a salute of 13 guns to the admiral at 2:30 p. m. Hon. William Templeman and *G. DesBarats, deputy minister for* naval affairs, will go on board to receive the vessel in the name of the government of Canada. They will be followed *by a civic reception committee* and an informal reception will be held on board. Deputy Minister DesBarats states that Esquimalt station will be *formally taken over* by Canada from the imperial authorities November 9.

EDMONTON POSTOFFICE OPEN AT LAST

EDMONTON, Alta., Nov. 7—The new postoffice was opened this morning after lying idle for over six months, although practically completed. The delay was caused in waiting for some of the interior finishings to come from England.

BRITISH COLUMBIA MOUNTED BATTERY

District Officer Commanding Thinks Grand Forks Ideal Situation—Praises Rifle Association.

GRAND FORKS, B. C., Nov. 7—A very successful shoot was held at the ranges of the Kettle Valley Rifle association in this city during the week, and some more fine shooting was done. This shoot was a handicap, and a large number of the members of the association turned out. C. G. Wheeler carried off the honors with F. H. Hutton and W. H. Dinsmore closely following. The shoot was conducted under strict service conditions, no aids to sight being allowed and slings being barred. The following was the result of the shooting at the different ranges:

Energetic Association.

After the recent inspection of the local rifle association by Col. Wadmore of Esquimalt, that gentleman was seen by your representative and upon being asked for his opinion of the conditions and efficiency of the local association said that he was very much pleased with his inspection; he had found all of the equipment in first-class order and the new range which had been constructed at considerable expense during this summer would be a credit to any association. He was pleased to be able to state that the Grand Forks association was the most energetic and best organized rifle association in British Columbia, and for efficiency and up-to-dateness could not be surpassed in the province. The colonel stated that it was his intention to establish a mountain battery in British Columbia, something that at present does not exist in the Dominion. He had been on the lookout for a suitable point at which to try this experiment, and judging from what he had seen in his inspection of the local association he thought that Grand Forks would be an ideal place for such an undertaking. He was taking the establishment of such a battery up with the authorities and he felt sure that if such an undertaking was thought well of by the department the first battery would be equipped at this point.

A. J. Stewart of this city has purchased a blacksmith business at Orient, Wash., and has moved his family to that place.

J. Heron, until the first of this month the senior member of the firm of Heron & Miller of this city, has sold out his interest in the housefurnishing business to his partner, F. J. Miller, and this week moved with his family to the coast.

Charles Wekell, master mechanic of the Granby smelter is able to be around again after several weeks confinement to the hospital with a severe attack of typhoid fever.

The rainfall in the Kettle valley for the month of October was 0.75 inches.

Word was received in this city this week that Alex. Miller, well known throughout the province and especially *in the Boundary district, where he is* interested in several large mining enterprises, had been married in Muntticllo, Missouri, to Miss Emma Lee *Barnes, daughter of Mr. and Mrs. J. W.* Barnes of that city. The young couple will make their home at Vancouver after the new year.

Miss Olive Allen of Grand Rapids, Mich., arrived in the city this week to spend the winter with her parents here.

Mrs. J. B. Henderson and family left *the first part of the week for Calgary,* Alta., at which place they will take up their residence. Mrs. C. L. Bugbee has taken over the private boarding house on Winnipeg avenue, *formerly conducted* by Mrs. Henderson.

It is stated on good authority that the Little Giant group near Orient, Wash., which was bonded a few months ago by N. Ross of this city, has been taken over by the Canadian Mining Operators, Ltd., of Vancouver, B. C. This makes the third property in the Orient district which Mr. Ross has succeeded in turning over this summer.

Miss Nellie Carter, formerly assistant city clerk, accompanied by her mother, left this week for Spokane, where Mrs. Carter will undergo treatment for her eyes, Miss Carter going on to Vancouver, at which place she will enter the general hospital to train for a nurse.

W. Y. Williams, consulting engineer of the Granby company, spent a couple of days in the city at the end of this week, returning to Spokane yesterday. Mr. Williams leaves the first of next week for the new mining property which the Granby recently bonded in the northern part of the province, and will be joined by O. B. Smith, manager of the Granby's Phoenix properties, who leaves here on Monday for the north country.

Customs Returns.

The Canadian customs returns for the port of Grand Forks, and subports, for the past month have made a new record. R. R. Gilpin, collector of this city, reports the month's business as follows: Grand Forks, $10,647.18; Phoenix, $1544.34; Cascade, $128.64; Carson, $47.77; making a grand total of $12,356.92 for the month.

John Wright, who for some time past has held the position of cashier in the Great Northern railway offices in this city, has been appointed agent at this point.

Gazette Wins.

His honor, Judge Brown rendered his decision yesterday in the case of the Gazette Printing Co., Ltd., vs. George R. Belton. The Gazette company was awarded $359.92 with costs. In a counter claim of Belton vs. Gazette, his honor dismissed the case, with costs against the plaintiff.

The Eastern Townships bank this week moved into their handsome new premises on the corner of First and Bridge streets, and can now safely be said to be one of the best housed banking institutions in the interior of the province.

Piping Hot Water Always Ready

for every occasion, with the Kootenay Steel Range, without "driving" the fire or wasting fuel. The generous firebox is built so that the water heats very rapidly as it passes through the water front, and gives a plentiful supply. One bath usually empties the boiler heated by an ordinary range with the result that the rest of the family must wait for more water to heat. Not so with the boiler attached to the water front of a

KOOTENAY Steel Range

because the Kootenay never fails to heat as much water as is required and as fast as it is used. The nearest McClary Agent will make clear to you the reasons why you ought *to own* a Kootenay. 56

LAURIER TOUR IMPROVED CONSERVATIVE PROSPECTS

OTTAWA, Nov. 7—C. A. Magrath, of Medicine Hat, when interviewed here in regard to Sir Wilfrid Laurier's west*ern tour declared positively that where*as he formerly had doubts as to the strength of the Conservative party in his constituency, he has now no fears *of the result.* "In fact," he said, "I would be surer of winning with Sir Wilfrid Laurier himself as my opponent than I would be with any one else."

MISSING MEN SAFE

KINGSTON, Ont., Nov. 2—Reports receved from Mill Haven today state that Steel brothers, who were missing, and who it was feared had been drowned in the gale of last week, returned home safely. They were caught in a storm and had to take shelter on one of the islands for several days.

NELSON BOAT & LAUNCH CO., LTD.

Buy your boats and canoes now. Prices now very low, and stock only used one season.

Take notice that the undersigned, The Astley-Elford Boat Company, Limited, intends to apply to the Registrar of Joint Stock Companies for permission to change its name to "Nelson Boat and Launch Company, Limited."

Dated the *5th day of November*, A.D., 1910.

THE ASTLEY-ELFORD BOAT COMPANY, LIMITED.
LESLIE CRAUFURD, President,

TO CONTRACTORS.

Sealed tenders addressed to the undersigned and marked "*Tender for Phoenix* School," will be received until 12 o'clock noon on November 26, 1910, for the building of a four-roomed school in the city of Phoenix, B.C.

Plans and specifications may be seen at the city hall, Phoenix; at the office of the superintendent of education, Victoria; or will be sent by the undersigned on request.

Each tender must be accompanied by an accepted check on a chartered bank, payable to the order of the *Phoenix School* Board, equal to ten per cent of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to *complete* the work contracted for. If the tender be not accepted the check will be returned.

No tender necessarily accepted.

T. A. LOVE,
Secretary School Board,
Phoenix, B.C.

NOTICE OF APPLICATION OF TRANSFER OF RETAIL LIQUOR LICENSE.

Notice is hereby given that 30 days after date, application will be made to the Superintendent of Provincial Police for the transfer of the license for the sale of liquor by retail in and upon the premises known as the Erie Hotel, situate at Erie, British Columbia, from Jas. J. Hickey to A. A. McArthur, of British Columbia.

Dated this 5th day of November, 1910.

JAS J. HICKEY,
Holder of License.
A. A. McARTHUR,
Applicant for Transfer.

M. Hawrycz & Co

Ladies and Gentlemen—We do packing of furniture and pianos, first class, and we make kitchen tables at very low prices.

Call at 417 1-2 Hall St. or telephone 438.

B. C. Hair Goods

559 Georgia St., Masonic Temple Vancouver, B.C

Ladies and Gentlemen—I wish to announce that I have received my new 16 page catalogue and price list for the latest style in hair goods as following: Wigs, toupee, transformation, pompadours, switches, puffs and curls, which I will mail free to you if you write for one. Remember you can get my hair goods for less money and better quality than anywhere else. Why can you buy for less money? Because I make a specialty in manufacturing only.

There is generally a cold spot in every home—it may be a room or passage which the heat from the furnace or stove does not reach.

To place another coal stove with all its accompanying nuisances is out of the question; where and what is the remedy? Has it ever occurred to you that the temperature of that cold spot can be immediately raised by the use of a small gas heater. No dirt, no trouble, one match and a scratch and behold comfort reigns supreme.

Just think it over and then tell your trouble to the gas man.

Kootenay Lake General Hospital

Maternity Branch

Patients are now received at the following rates:

Private ward patients, week.... $20.00
Semi-private ward patients, week 15.00

Address applications to matron at hospital.

Ho! All Ye Who Labor

Are you noting the signs of the times? Do you realize that this, the land which should be yours, is about to be invaded by a great host of people from every nation, and every clime, who will compete with you in the labor market, in the mines and forests and orchards, on the railways, in the mills, and in every calling.

Do you realize that your salvation lies in securing as much as possible of the land which will sustain the coming population and on which they will be glad to labor.

Do you realize that the amount of good land is not large, that in a few years it will be more prized than gold? Not an acre of it will command less than $100 to $200. Today we can sell you 40 acres of the best in the province for only $500; $50 down and $20 per month.

When lumbering is over, the mines are dug out; when labor difficulties come, lucky is the man who can hike to the land. Don't wait. Every day it is getting dearer, and your chances slimmer.

A post card will bring you full particulars.

The Wright Investment Co. Ltd.

NELSON, B.C.

SPORTING NEWS

ARGOS TO PROTEST SATURDAY'S GAME

Claim Time Was up When Williams Made Winning Touchdown—Score Was 23-20.

OTTAWA, Nov. 7.—The Argonauts of Toronto went down before the Ottawas in a return match played on Lansdowne Park in a Scotch drizzle, by a score of 23 to 20, on Saturday. The Argonauts won the toss and chose to kick against the wind in the first half, which closed with Ottawa leading by a score of 11-3. In the third quarter the lost ground was more than made up by the Argonauts, who piled up 17 points while the Ottawas did not once succeed in crossing the line.

The conditions were exactly reversed in the fourth and final quarter, the Ottawas adding steadily to their score and the Argonauts accomplishing nothing. Two rouges and a touch down for Ottawa made the score 20 to 18 for Ottawa, and then it stood still for seconds before the gong sounded, when Williams went over the Argonaut's line in the dark for the final touchdown.

The Argonauts claim that time was up when the final touchdown was made and will protest.

OLD ENGLAND HAS NEW HEAVYWEIGHT

LONDON, Nov. 7.—At last England has a heavyweight who can fight.

Bombadier Wells is the heavy, and while he could not at this time wrest Jack Johnson's laurels from him, he is an exceptionally good man, as his victory over Sergt. Sunshine proves.

Wells is 22, and weighs about 183 pounds. As he stands 6 feet 2½ inches, he is lathy in appearance, but he has a frame which will fill out, and with his reach of 79½ inches, a wallop in either hand and considerable natural skill as a boxer, he is really the most promising looking thing the heavyweight brigade has produced in many moons.

Wells lacks experience. In defeating Sunshine he defeated the most formidable man England could send against him, for Sunshine but recently won from Ian Hague.

The Wells-Sunshine bout was the first of Hugh McIntosh's so-called "elimination" series to find England's best heavyweight. Wells will be matched with Bill Lang, if McIntosh's pans are carried out, and if he wins he will meet Tommy Burns, then Al Kaufman and other American heavyweights. If his performances result in victories, he will in a couple of years challenge Johnson, providing the pace the champion is travelling does not end in his defeat by some one else.

CHARLIE MITCHELL HAS GROWN RICH

Some Inner History of Life of Boxer Who Crossed Atlantic to "Whip Sullivan."

A vagrant message from England recently brought tidings of Charlie Mitchell, the one unforgotten and unforgettable character who crossed the Atlantic to "whip Sullivan." Mitchell has not been in the States for a good many years, not, in fact, since he fought Jim Corbett. The story that has drifted across the pond is that Mitchell has grown weathy and that he is still hustling, though with little regard to the finer ethics of commerce.

When Mitchell's father-in-law, Pony Moore, the minstrel man, and owner of St. James' Hall, died, the fighter was said to have come in for a large fortune. He was also said to have amassed considerable wealth in the show printing business, and other enterprises, sporting and theatrical.

If the rough side of the world ever had a "good thing" it was Squire Abingdon, and he was made to order for Mitchell and his friends. If he lived in this day he would be called a degenerate. That word was not in common use in those days, or if it was it was applied to some other type besides young men of abundant riches, no sense, and less taste, who take the shortest cut to the "dogs." Abingdon, whose family name was Baird, was England's bad boy from the moment he came into his own until he died at the end of a debauch in New Orleans after the fight between Fitzsimmons and Hall, on which he was supposed to have lost a pot of money, but didn't, as sharpers who had the imbecile in charge were sure not to bet it that way.

His affair with Lilly Langtry, that culminated in givi- - the actress a black eye, for which he afterwards, under pressure, made amends by presenting her with the best two-year-old in his stable and a small fortune besides, was the talk of Europe before the Squire got down as low as the Seven Dials in his search for boon companions.

Mitchell became his pal, his hero, and his pet bully. He was putty in Mitchell's hands. Mitchell could "lay him down" on anything from a cock fight to a horse race, and he would take his word for the decision. Mitchell was at his shoulder in his meanderings through London's underworld, and fought many of his fights for him.

He had to finish many a one that his noble patron started with all manner of tough characters, the tougher the better. The boxing champion took one scrap off the Squire's hands that cost him three months in Clerkenwell. It was a brutal assault, and it was known generally that Abingdon committed it, but Mitchell assumed the blame and took his three months on "the blooming stepper" without a murmur, and with certainty of being well repaid for the sacrifice.

SPORTING SPOTLIGHTS.

Frederick B. King, Oxford University graduate, football player and all-round athlete, has asked a judge in the municipal court of Chicago to grant him $26,000 because he can no longer play golf without pain. King fell from a street car and is demanding the damages from the Chicago Street railway. If the amusement of golf is worth $26,000 to an amateur player, what is baseball worth to, King Cole, or football to a college captain? The case opens up all kinds of interesting possibilities in future litigation if King gets the decision.

George Hackenschmidt, the Russian Lion, has reached America once more and is now in Chicago. He will start a tour of the country on Nov. 15, and will meet all the men his manager, Jack Curley, picks out for him. This is the first time Hack has been in the Windy City since he was defeated by Gotch in 1908.

Victoria and Portland have been officially admitted to the Northwestern Baseball league.

The re-election of Thomas J. Lynch as president of the National league looks like a safe bet.

For the second year in succession there were no National League games of regulation length this season in which a pitcher held his opponents without a hit or run. Neither major league had any no-hit contest last season, but before that the National had pulled off such freaks for four years in succession. Six times this year pitchers have held a team to one hit in nine innings. Cole held Brooklyn to one hit on Aug. 17. Overall did it to Philadelphia on May 26. Burns of Cincinnati let the Cubs down with a single on June 27. The other pitchers who have pitched one-hit games unassisted this year are Mathewson and Bell. Moore and Humphries collaborated on a feat of that kind in April against Boston.

Boston tailenders made the largest number of runs in a single game in the National league this year. The amassed an even 20 tallies against Philadelphia on Oct. 6. In two other games a total of 18 runs was reached by one team. The largest number of runs made by both teams in one game was 27, and that total was reached twice during the season just closed.

AD WOLGAST COMES THROUGH WITH OFFER

Says he Will Box the Durable Dane on Dec. 24 at 'Frisco.

"Cadillac, Mich., Nov. 2.

"Louis Blot, San Francisco:

"Will box Nelson, San Francisco, December 24th. $7,500 and $500 expenses, with privilege of 40 per cent. Let me know quick; vaudeville engagements.

"AD WOLGIAST."

With the foregoing telegram in his pocket and the word from Battling Nelson that he would sign articles for a return engagement with the present lightweight champion, Promotor Louis Blot announced at San Francisco that he had practically clinched a match between the two boxers for a twenty-round bout at his arena on the afternoon of Saturday, Dec. 24.

News dispatches from Cadillac, Mich., and previous advices announced that owing to the break in Wolgast's arm he would not be able for a battle of consequence until next year, probably February 1 at the earliest. It was said that the break in Wolgast's left arm had not completely healed and that a long rest would be necessary.

The telegram to Blot from Wolgast, however, would make it appear that the lightweight champion expects to be in condition for a bout before Christmas.

CANADIAN RECORDS.

Following is an official list of records which was compiled by Arthur Plow, secretary of the Amateur Athletic Union of Canada:

100 yards—Robert Kerr, 9 4-5s, Sept. 11, 1909, Toronto. Tiger A.C., Hamilton.

220 yards—Robert Kerr, 21 2-5s, Sept. 11, 1909, Toronto. Tiger A.C., Hamilton.

440 yards—W. C. Robins, 48 3-5s, Sept. 15, 1909, Montreal. Irish-American A.C.

880 yards—Emilo Lunghi, 1m 52 4-5s, Sept. 15, 1906, Montreal. Irish-American A.C.

1 mile—George W. Orton, 4m 21 4-5s, Sept. 24, 1892, Montreal. Toronto Lacrosse C.

2 miles—T. P. Conneff, 9m 34 3-5s, Sept. 27, 1909, Montreal. Manhattan A.C.

3 miles—J. P. Sullivan, 14m 58 3-5s, Sept. 15, 1906, Montreal. Irish-American A.C.

5 miles—F. G. Bellars, 25m 31 4-5s, Oct. 3, 1908, Montreal. New York A.C.

120 yards—A. C. Kranzlein, 15 3-5s, Sept. 24, 1898, Montreal, Chicago A.C.

Hurdles—F. Smithson, 15 3-5s, Sept. 21, 1907, Montreal. Multonomah A.C.

3 mile walk—W. H. Meek, 21m 55 2-5s, Sept. 24, 1894, ontreal. Columbia A.C.

1 mile relay (4 men)—L. J. Sebert, R. B. Chandler, F. Halbhaus, L. A. Wright, 3m 28 3-5s, Oct. 22, 1909, Toronto, Toronto Varsity A.A.A.

Running broad jump—C. D. Bricker, 23f 8½ in., June 6, 1908, Montreal, Toronto West End Y. M. C. A.

Running high jump—I. E. Baxter, 6f 2½ in., Sept. 16, 1899, Toronto. New York A.C.

Putting 16 pound shot—Ralph Rose, 49f 7¾ in., Sept. 21, 1907, Montreal. Olympic club.

Throwing 16 pound hammer—M. J. McGrath, 173f 7 in., Sept. 21, 1907. Montreal. New York A.C.

Throwing 56 pound weight—Duncan Gillis, 37f, Sept. 18, 1909, Vancouver. Vancouver Police A.A.A.

Pole valut for height—E. B. Archibald, 12f 5 in., June 6, 1908, Toronto. Toronto West End Y.M.C.A.

Throwing the discus—M. J. Sheridan, 139f 10½ in., Oct. 2, 1908, Montreal. Irish-American A.C.

MARSH LOSES AGAIN TO BILLY WEBB

MEDICINE HAT, Alta., Nov. 7.—In a return race Saturday, William Webb of Grassy Lake again won from John S. Marsh at ten miles with a 600-yard handicap. The race was for $300 a side and was run in the rink, 13 laps to the mile. Marsh gained half a lap for eight miles but could not make up his handicap, losing by 30 feet.

IRISH FOOTBALL.

DUBLIN, Nov. 7.—Irish league football games played on Saturday resulted as follows:

Bohemians 0, Glentoran 1.
Belfast Celtic 3, Cliftonville 0.
Linfield 6, Shelbourne 1.
Derry Celtic 1, Distillery 0.

MORMON ISSUE IN UTAH.

SALT LAKE CITY, Utah, Nov. 7—Interest in tomorrow's election in Utah centres chiefly in the fight to control the legislature, which will elect a successor to United States Senator Sutherland. Senator Sutherland, who is a Republican, is a candidate for re-election. The Republicans assert that they will have the legislature overwhelmingly, but the opposition believes there will be enough votes against the Republicans to prevent Sutherland's return. The American party, which is hostile to Mormon church interference in politics, is expected to play an important part in the election. The party is particularly strong in this city and counts upon electing its legislative candidates. It is, therefore, regarded as possible that a combination of the Democrats and the American party might break the Republican control in the next legislature.

GEORGIA-CAROLINA FAIR.

AUGUSTA, Ga., Nov. 7—The annual Georgia-Carolina fair opened in this city today, to continue through the week. The agricultural exhibits and the displays in the poultry, live stock and several other of the departments are the best ever seen here.

No doubt about an enamelled bed's hygienic merit; none about its beauty. Nor any about its being worth its price—if it bears the "Ideal" Guarantee on the footrail.

That Guarantee assures you of more than mere surface excellence. It warrants real satisfaction to the buyer. Its snowy enamel will stay white; its parts will not work loose.

Know why "Ideal" Metal Beds are better. Ask for "The Philosophy of Sleep"—worth reading, though it is free. Write for Booklet No142

WILL BUILD NEW HALL AT PROCTOR

Work Will be Commenced at Once—Subscriptions Are Coming in Freely.

(Special to The Daily News.)

PROCTOR, Nov. 7—Mr. Barkley of Cranbrook arrived here on Tuesday from Nelson and left on the Kuskanook Wednesday morning for Cranbrook.

Mr. Ireland, who is here in the interests of the C. P. R., and is overlooking the foundation of the hotel, which is now in course of construction, has moved his headquarters to Balfour.

Mr. Proctor, who has spent much of his time here during the summer months, is about to return to Nelson for the winter. Mr. and Mrs. Russel will live in the houseboat owned by Mr. Proctor.

Build New Hall.

It has at last been decided to build a hall in Proctor and the Rev. Mr. Reed, who has the matter in hand, has done good work this week in getting subscriptions. The work of building the hall will be commenced at once.

Mrs. Nickerson's father spent several days visiting his daughter this week on his way to his home at Spokane.

Mrs. Anson of Nelson, spent several days here this week at the Outlet hotel as the guest of Mrs. Snow.

Lord Alymer was in town on Monday, the guest of Mr. Proctor.

Some of the new street cars for Nelson passed through here on Tuesday and made us long for the luxury of city life again.

The weather here has been bright and clear for the past week and many have taken advantage of the excellent boating and fishing in the Kootenay river. Today it has turned cold and rainy and from present indications the wet season has set in at last.

Rev. Mr. Conn of Nelson, arrived here last Sunday and held service in the school house at 10:30 a. m. which was well attended.

Mr. Proctor entertained a number of friends on his houseboat last Sunday.

Rev. Mr. Reed, church of England minister here, held service at Watts' mill last Sunday afternoon which was well attended. Mr. Reed also held service in the church at Balfour at 10:30 a. m.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief Sold by all druggists and dealers.

THOUSAND-MILE RELIABILITY RUN

CHICAGO, Nov. 7—The start of the 1000-mile reliability run arranged by the Chicago Motor club was made today. The contestants are divided into two classes, one for touring cars with the Stewart trophy as the prize for the winner, and the other for runabouts with the Van Sicklen cup as the prize. The itinerary of the trip will embrace Elgin, Rockford, Moline, Davenport, Rock Island, Quincy, Jacksonville, Springfield, Peoria, Bloomington, Decatur, Danville, Kankakee, Streator and Joliet.

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM

513 JAMES ST., HAMILTON, ONT.

"Five years ago, I was taken down with what the doctors called Inflammation of The Bladder—intense pains in back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor.

My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once and the attacks were less frequent.

In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me." JOHN HERMAN. 48

GIN PILLS are sold at 50c a box—6 for $2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write us, mentioning this paper. Money back, if GIN PILLS do not give full satisfaction. National Drug and Chemical Co., Dept. B.C., Toronto.

TRIANGULAR FIGHT IN PENENSYLVANIA

PHILADELPHIA, Nov. 7—In one of the most important elections in years, Pennsylvania is to have the first real test of its independent reform sentiment tomorrow, when in a three-cornered contest for the goevrnorship, the non-partisan Keystone party will oppose both the old party machines at the polls. It is the first time that a strictly non-partisan movement, composed of insurgent Republicans and independent Democrats, has been carried out in the state, backing a ticket in the selection of which the partisan affiliations of candidates was a secondary consideration.

The choice of the Keystone party for governor is ex-State Treasurer William M. Berry, the man who opposed the state capitol frauds. The Republican gubernatorial candidate is Congressman John K. Turner of the twenty-fourth district, while the Democratic ticket is headed by Webster Grim, a member of the state senate. In addition three leading candidates for state offices, candidates have been named by the Prohibitionists, Socialist, Workingmen's league and Industrial parties.

A SNAP

You will never get such a chance for a close in house. Call.

Wallace's Genuine Closing Out Sale

506 Baker Street Nelson, B. C.

To Consumers of Coal and Wood

The undersigned beg to notify the public that:

On after the 1st November, 1910 orders for coal and wood will only be executed when accompanied by CASH. This course has been rendered imperative owing to the fact that freight rates have been increased and that we pay in advance for all fuel (including freight.) We find that we must either adopt the Cash System or Raise the price of fuel—the latter course we are reluctant to pursue. Cash must be deposited in the office before the orders will be filled.

Thanking our patrons for past favors and trusting for continuance of friendly relations. We are yours obediently.

Kootenay Ice & Fuel Co.
West Transfer Co.

TUESDAY, NOVEMBER 8

ALBERTA LEGISLATURE MEETS

When the Alberta legislature meets is week the report of the A. & G. W. . commission is to be presented and e government will no doubt announce intentions with regard to the road. remier Sifton has kept his decision osely to himself and although he has ne through several by-elections since cepting office his policy is yet unown to the public.

There are really only two methods of ilway building that are justifiable in e light of the experience of the pub- with railways in the last twenty ars. One is government ownership; e other, ownership by a transcontnental line. Ownership of a local line a local company has the disadvantges of both and some more of its own ided.

The Conservatives of Alberta are al- to have a convention, to chose a ader and to frame a policy. It is gh time they did. But where is the ader to come from? There are able en in the ranks of the Conservative arty in that province but they are oing well personally in private life ithout being sufficiently wealthy to e in a position to devote their time to e public service.

The man who undertakes the leadrship of the party must give practicly his entire time to it, and must cut ose from business connections which ight prove entangling alliances in ealing with business interests as a gislator. He must have enough money live on the income derived therom, or else he must depend on party ubscriptions, and must neglect to ake provision for his old age. Men f exceptional ability who have exceptional prospects in private life naturaly hesitate to throw them overboard; nd in a new country like Alberta here are few men who have been long nough in the country to be in a posiion to retire from private business.

PURPOSE OF THE BOY SCOUT MOVEMENT

A recent narrative relates how some outh Sea islanders when ill were aken to a hospital and treated free of harge, also how they subsequently appeared and demanded pay for going to he hospital and for taking medicine. They declined to believe that the thing had been done to benefit them and not o benefit the persons under whose orders they had acted.

In Winnipeg, it is said, the parents of one of the foreign children who had been sent to a manual training class wanted the school authorities to pay for the time spent on wood work by the boy. Their idea was that the teacher had put him at the work in order to produce goods for sale. Why else, they asked, had he been placed at a carpenter's bench and employed in making things? Being refused payment, they went away convinced that the whole thing was a scheme on the part of the authorities to get child labor free.

A more recent instance of similarly absurd mis-interpretation is the statement that the object of the Boy Scout movement is militarist. The "evidence" adduced in support of this singular notion, so far as it has come to our knowledge, is no less deliciously absurd—as might, of course, be expected from the nature of the conclusion which it is employed to support.

In "Scouting for Boys," the official manual of the organization General Baden-Powell, the originator of the movement, thus explains its origin and purpose:

> The boys of the nation are full of enthusiasm and spirit and only want their heads to be turned the right way to become good, useful citizens. This splendid material is being allowed to run to waste—nay worse than that, it is allowed to become harmful to the nation simply for want of education, for want of a hand to guide them at the crisis of their lives when they are at the crossroads where their futures branch off for good or for evil.
>
> The present authorized scheme of education in our schools includes plenty of bookwork, but no development of the quality that counts, namely character, which after all is of the first importance. Not hundreds but thousands of boys in our great cities, after an education in reading sufficient to enable them to devour the herrors of the Police News, and in arithmetic to help them to make their football wagers, are being left to drift into the ranks of the "hooligans" and "wasters" without any attempt to save them. But they receive no teaching in resourcefulness, chivalry, thrift, citizenship or patriotism.
>
> (a) How is it possible to apply a remedy for this?
>
> (b) What form can this remedy take?
>
> (c) How can a private individual help?
>
> Where the individual citizen can help in this great national work is shown by what has already been accomplished in this direction by the Boys' Brigade, Young Men's Christian Association, Church Lads' Brigade and other numerous societies of the same kind. Yet good as their work has been, with all their efforts they only fill a portion of the field. They hold some 270,000 boys; but what is that out of the three and a half millions who need their help?
>
> That they do not influence a greater number is due to:—
>
> Want of amalgamation and mutual co-operation among the different societies.
>
> Difficulty in getting enough young men to take up the work of training the boys.
>
> Difficulty of attracting the boys and of maintaining their interest after they have got them.
>
> THESE DEFICIENCIES SEEMED TO BE REMEDIABLE IN SOME PARTICULARS, AND INDUCED ME TO SUGGEST THE SCHEME OF "SCOUTING FOR BOYS" AS A STEP TO MEETING THEM since being applicable to all these societies it might, by its common adoption, form a bond between them; by reason of its practical and sporting tendency and absence of red tape it might appeal to a wider field of possible instructors; and, above all, by its variety of attraction it would appeal directly to the boys themselves—even to the worst, the "hooligans."

Here we have the reason for the founding of the order, its object, purpose and aim set forth in the clearest possible manner and at some length. In keeping with this are similar statements made on a hundred occasions by its founder and by those who have been attracted to its support and are carrying it on. Now when someone gets up and says that the origin, purpose and aim of the movement are something altogether different, there are only three possible explanations of such a statement, namely:

1. The author of the statement does not know very much about the movement, does not even know what account of its aims is given by those who founded it and carry it on, but has been led into a ludicrous mis-conception of it, or

2. He has read such accounts of its origin as that which is here quoted from "Scouting" but he thinks that Baden-Powell does not know why he originated the order or with what motive and aims; also that those who are leaders in the movement and who give the same account of its aims do not know what their motives are, or

3. Baden-Powell and the other leaders habitually indulge in gross, deliberate, elaborate falsehood in giving the accounts they do of the reasons and circumstances which led to the origin of the order, and of their own purpose and aim in carrying it on.

Assumptions so remarkable should be supported by very convincing evidence to justify their existence. As was recently remarked in these columns this evidence should "bear the test of being recorded in black and white and subjected to examination." No evidence, real or alleged, in support of the singular statements to which we refer has yet been submitted to the public in this form so that it could be subjected to any real examination. The columns of this paper are, however, open for the purpose. We do not suppose that the invitation will be accepted, but if it is the alleged evidence will be found, we imagine, to be highly diverting.

FAIRVIEW NEEDS FIRE PROTECTION

(Continued from Page One.)

tween Cedar street and Park street, and intending to build a residence thereon, I respectfully request that the sewer be extended another 50 feet, more or less, so that I can connect therewith. I understand that at present the sewer runs along the alley back of these lots, as far as Edward Baillie's residence, whose lots adjoin mine."

It was pointed out that in similar cases applicants had been turned down and the suggestion was made that Mr. Meagher ought to contribute toward the cost of the extension. The matter was referred to the city engineer for report.

To Complete Fill.

The city engineer estimated the cost of the 2500 yards of fill already completed, at the corner of Ward and Victoria streets, at $850. On the Victoria street part the bridge had been filled up and but 200 yards more was required. On Ward street about 500 yards more would make the job complete.

It was the concensus of opinion that the work should be proceeded with, especialy as the city was not likely to get earth cheaper in the future than it was now getting it from Edward Kerr. On motion, the city engineer was instructed to carry the work through.

Ald. Mackenzie raised the matter of the rough hand rails along some of the plank sidewalks, where elevated. He said in some cases they were little better than rough "two-by-fours," and were full of splinters. He wanted to know who was responsible.

Mayor Selous pleaded guilty, stating that he had instructed James Foote, city sidewalks foreman, not to plane them down so much, as he feared they would be too weak to stand the usage they got. He had an excellent opportunity of observing, for people had a habit of sitting on the hand rail above his own place on Stanley street. The mayor added that the lumber furnished to the city, of this grade, was abominable, and that Mr. Foote stated he used the best of it for the hand rails.

On motion of Ald. McDonald, it was decided to get a quantity of properly dressed hand rail stuff.

On the matter of the platform applied for a fortnight ago by J. A. Montomery to bridge the gap between the street and the sidewalk opposite his candy factory on Water street, the board of works reported that it could not recommend compliance with Mr. Montgomery's request.

Dr. E. C. Arthur, secretary of the school board, wrote under date of Oct. 31:

"I am instructed by the school board to ask a statement, by months, of the number of cases of scarlet fever that have been reported to the health authorities during the year 1910."

The letter was referred to the city medical health officer, Dr. Gilbert Hartin, with a request to furnish the information asked.

D. Guthrie, fire chief, reported as follows:

"The department responded to two box alarms during October, two telephone alarms, and one still alarm. No serious fires. Hydrants inspected weekly. Alarm system tested daily. One drill. All hydrants and alarm boxes repainted. Conduct of the men O.K."

Improving Light Circuit.

R. A. Brown, city electrician, reported that, with the sanction of the mayor, he had secured a quantity of wire for new feeders, for improving the lighting circuit in the southwestern portion of the city. This would affect the domestic lights from Victoria street south, but more particularly, those on the hill.

Mr. Brown drew to the attention of the council the statement of W. F. Roberts, manager of the Nelson Coke & Gas company, in which he attributed the recent fire in the Hamilton Powder company's building to a "defective connection in the city's electric wiring." Mr. Brown criticised this statement as incorrect. He said the fact was, feed wires from the street railway circuit had been run to The Daily News building to run The News press, but had not been used for a year or so. These feed wires had sagged till they touched the tin roof of the powder company's building adjacent. When the juice was turned on, to run the new cars, the current was communicated from the tin roof to a ventilating pipe, and thence to the gas pipe, which was distant from the ventilating pipe only the thickness of a piece of paper, thence proceeding to the ground and forming what was technically known as a "ground." The current had formed an arc between the ventilating pipe and the gas pipe adjacent, burned a hole in the gas pipe, and ignited the gas. He had immediately had his men cut the feed wires and take them away.

WOULD OPEN UP LARGE AREAS

London Magazine Discusses Importance of Project for Deepening Columbia River—Surveys Needed

The Empire of London, England, referring to the proposed deepening of the Columbia river says:

Among the mang great schemes of new communication contemplated in Canada, of which the most important are the Georgian Bay canal (which cannot now be long delayed), the Hudson Bay railway (already begun) and the canal from Lake Winnipeg to the Rocky mountains (the surveys of which are ordered), the project for opening the Columbia river should not be lost sight of. The object is to open a new route from the sources of that river to the Pacific, at Portland, in the Washington territory of the United States. Several influential boards of trade and the Associated Chambers of Commerce in British Columbia, with delegations from Washington and Oregon states, interviewed Sir Wilfrid Laurier during his western tour on the subject and were met with a sympathetic reception at his hands. The proposed route would cover, it is estimated 750 miles of waterway of which 150 miles would pass through Canadian territory. It is stated that the United States governments (national and state) have already moved in the matter, and that the Canadian part of the project involves a considerable amount of dredging and the building of three or four locks. The estimates submitted as regards cost and potentialities are probably, as usual in the first stages of consideration of all such schemes, rather embryonic, and a great deal of serious survey as well as negotiation between the two governments concerned, will have to be undertaken before the scheme can be considered as practical and likely to be carried out in the near future. Sir Wilfrid suggested that the best method would be for the two governments to come to some agreement as regards the work, undertake the surveys, ascertain the cost, and decide upon a united plan of action. The work, if carried out, would probably have an important influence upon freight rates and would help to open up large and important areas now suffering from want of communication with the outer world.

MEETS IN JACKSONVILLE

JACKSONVILLE, Fla., Nov. 7—From all sections of the United States and from other countries as well the wives and daughters of members of the Masonic fraternity are pouring into this city to attend the 13th triennial assembly of the general grand chapter of the Order of the Eastern Star. The sessions of the body will begin in the Masonic temple and continue until Friday. An elaborate program of entertainment has been prepared for the visitors. A trip to St. Augustine will be one of the features.

Minard's Liniment Co., Limited.
Gentlemen,—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal. I would not start on a voyage without it, if it cost a dollar a bottle.

TEN YEARS AGO

Extracts From The Nelson Daily Tribune of Nov. 7, 1900

Albert Maslonka, aged 10 years, was taken to the provincial reformatory last night by Timber Inspector Martin, who was made a special constable for the occasion.

The contracts for the new house of J. K. Strachan is constructing have been let. John Toye will do the general work and William Lawr the plastering and Strachan Bros. the plumbing.

Today the balance of the men employed by J. W. Stewart and J. V. Welch will be taken off the work and the outfits will be shipped to the Rainy Rivtr district shortly. A work train is likely to be ont on the section between the city and Five Mile point in a few days to ballast the road. When this is completed the C.P.R. will have spent in round figures $500,000 between Nelson and Proctor.

WATCHMAN KILLED

SOURIS, Man., Nov. 7—Samuel W. Whitman, watchman in charge of the Canadian Pacific railway crossing here was instantly killed while on duty last night. He was leaning against a car when it started suddenly and he fell under the wheels. He was grabbed at once by a brakeman but the car had passed over his thighs. He lived only ten minutes. He leaves a wife and two children.

TWO MORE CHARGES ARE SWORN OUT

Police Now Have Four Informations Against Martinpau and Morrison—Other Charges Likely.

Two further charges were sworn against Morrison and Martineau yesterday morning. These men are now awaiting trial on a charge of having broken into the Yale-Columbia company's store at Westley and are also accused of having attempted to dynamite a safe at Trail on October 22.

The two new charges are of having broken into a shack near Castlegar belonging to Henry Hayes and into another near the Nelson gas works occupied by James Robusto. In each case they are alleged to have stolen clothing.

Clothing Stolen Here, Too.

Mr. Hayes, in his information sworn yesterday, declares that the two men stole from his shack, which is situated between six and seven miles from Castlegar on the railroad to Trail, a suit of clothes, four suits of underwear, two sweaters, one jersey, seven pairs of socks, a pair of rubbers, a pair of boots, some handkerchiefs, a razor and an overcoat. He identified an overcoat and some handkerchiefs found on the alleged criminals at the time of arrest as having been taken from his shack.

James Robusto, who laid the other information, lost an overcoat, a suit of clothes, a hat, a pair of boots, and a pair of gloves from his shack near the gas works on October 17. He was able to identify the trousers of the suit, and the hat and gloves from among the large assortment of articles of clothing taken from Martineau and Morrison.

Three Charges up Today.

W. H. Bullock-Webster, stipendiary magistrate, will hear the former of these two new charges at 11 o'clock this morning, and the latter at 2 o'clock this afternoon. At the afteronon session Chief of Police Downes of Trail will endeavor to substantiate the charge of breaking into the station agent's office in that city.

May be Other Charges.

It will be recalled that about six weeks ago the office of the Great Northern railway at Fernie was broken into and the safe dynamited. A small amount of money was stolen. About a week later the C. P. R. office at Cranbrook, and also the post office in that city, was attacked but the robbers did not succeed in obtaining any reward for their attempt. It is now believed by the East Kootenay police that Martineau and Morrison who were captured by Provincial Constable J. D. Wightman while hiding in a cave about five miles up Shields creek last week may have been responsible for these crimes. A description of the two men was forwarded to Chief of Police Row of Cranbrook yesterday and he will endeavor to add the two attempted burglaries at Cranbrook to the already lengthy list of crimes which are alleged against the two men.

OSOYOOS COAL HAS LASTING QUALITIES

Drives Investigators Out of Doors—Sample From Property to Be Analyzed by Expert

A thermal test of coal from the property of the Osoyoos Coal company, near Princeton, was made yesterday afternoon at the office of W. Gosnell, president of the company who brought the coal with him on his return from Princeton at the end of the week. The test was made by Mr. Gosnell in the presence of such experts as S. M. Brydges, I. G. Nelson and Charles Hawthorne, and a member of The Daily News staff was an unwilling witness of the operation. "Go inside if you can stand it," was the greeting extended by an individual in shirt sleeves who was cooling off outside the building. Inside the heat was fierce. This was in spite of the fact that the door had been kept open till about five minutes before the arrival of the party.

Mr. Gosnell assured the party that the heat generated had all been produced from half a scuttle of coal and the white hot embers in the bottom of the grate appeared to confirm this statement. Several sizable blocks or lumps of the coal were on exhibition and looked pretty much like ordinary bituminous coal, with the exception that they were perfectly clean. Mr. Gosnell stated that the specimens he had brought were all from the outcrop and not from the interior of the entry and that there was on the dump similar coal that after a year of exposure to the elements had not begun to slack. As soon as sledding sets in about three cars of coal will be brought down to Princeton in sleighs and shipped to Nelson and other points. Mr. Brydges has sent a sample of the coal brought over by Mr. Gosnell to Spokane for exhibition.

It was hastily decided to submit a sample of the coal to some assayer or chemits for test in order to determine the number of calorics it could generate, the amount of ash and other factors and the prespiring investigators retreated to a more congenial atmosphere.

WILLIAM WHYTE MAY RETIRE

MONTREAL, Nov. 7—G. J. Bury, the general manager of the Canadian Pacific railway's western lines, returned from the west this morning after having a consultation with other officials. It is rumored that his visit is in connection with the approaching retirement of Vice-president Whyte, who has reached the pension age. No confirmation of Mr. Whyte's retirement is obtainable.

CONVENTION WILL BRING MANY TO CITY

Over Three Hundred Are Expected—Premier to Speak at Banuqet in Eagle Hall.

A meeting of the delegates appointed at Friday night's public meeting to represent Nelson city electoral district at the Conservative convention next week met in the Conservative club rooms in the K. W. C. block last night for the purpose of considering arrangements for the reception and entertainment of the delegates, ministers and members of parliament who are expected to be in Nelson for that event.

As already announced, all the members of the government, with the exception of Hon. W. J. Bowser, attorney general, and Hon. Price Ellison are expected to attend the convention, which promises to be one of the largest and most important ever held in the province.

Three Hundred Visitors.

Each riding is entitled to send ten delegates for each member elected to the house and from reports sent from the coast and other districts it appears that practically every riding is sending its full complement of delegates. It is anticipated that at least 300 persons will be brought to Nelson by the convention.

Ask for Hospitality.

The hotels on the night of November 16, when the premier, ministers and the majority of the delegates will arrive, will undoubtedly be over crowded and arrangements are being made to accommodate the visitors in private houses where such are available. William Irvine, secretary of the Nelson Conservative association, and Kootenay's representative on the executive council has already received offers from several citizens who are willing to accommodate some of Nelson's guests during the convention and will be glad to hear from others who are willing to extend the same hospitality.

Premier to Speak.

The convention will open on the morning of Tuesday, Nov. 17 and will continue until Friday night. On Thursday night it is intended to give the delegates to the convention a banquet at which Premier McBride and several of the ministers will deliver addresses. The convention and the banquet will be held in the Eagles hall. The banquet, at which arrangements will be made to accommodate some 400 guests will be in the nature of a public reception to Nelson's guests.

EXCITING CHASE FOR SLAYER OF HALF BREED

Row in Tent Ends in Death—Police Fire Shots at Fugitive in East Calgary

CALGARY, Alta., Nov. 7—After walking around for a day, a half breed by the name of Consternie Dodin died this morning from the effects of a blow on the head from a stone and Peter Sansebear, another half breed, is now in the city police cells. He was only placed there after an exciting chase which terminated down near the cement works in East Calgary.

Abused Woman

Saturday Sansebear went over to the half breed's tent in the southern portion of the town and it is said he was abusing a woman named Mary Paul. Dodin interfered and in the scuffle following Dodin received the blow from which he died this morning. The city police were informed and the constable went over to make the arrest. Sansebear saw him first and a running chase followed in which several shots were fired by the police.

CHANGE IN SECRETARYSHIP OF DOMINION ALLIANCE

MONTREAL, Nov. —The annual general meeting of the Dominion Alliance opened here today. The election of officers brought one important change, Rev. William Rochester of Winnipeg, formerly general secretary for the west becomng general secretary to replace Rev. T. Albert Moore, formerly of Hamilton, now of Toronto, who resigned.

FARMER'S SUDDEN DEATH

RED DEER, Alta., Nov. 7—A farmer named Thomas Brown, residing ten miles east of here, after being in town on Saturday left here for home in apparently good health and was found by neighbors in an unconscious condition Assistance was summoned but before help arrived he expired. He had evidently fallen from his wagon and was run over as four ribs were broken. He was 68 years of age and leaves a wife and family. There will be no inquest.

FASHIONS AND FADS

Ratine is growing rapidly and is one of the newest of the newest fabrics brought out this season. It has somewhat the appearance of Turkish toweling.

There are corsages and tunics of beaded nets—white beaded in crystal and silver; black beaded in jet, gold, silver or moonlight blue beads.

The heavy textures of this winter are best trimmed with braid and fur and the Hercules and giant braids of silk, soft and pliable are most used.

White kid gloves are heavily stitched in black, finished at the wrist with a tiny band of black kid and fastened with one large button of black cut jet.

Brocades and damask silks are again making a most determined effort to win a place in the feminine world of fashion. Some of them are really lovely.

Patent leather is still popular for children. Shepherd's checks, stripes and coarse basket weaves are the materials most favored for the school frocks.

The flowers worn for garnitures are more exquisite than ever before. There are roses of dull silver or gold, with centres of brilliant colors, which are really works of art.

TELLS OF SEASON'S GEOLOGICAL WORK

O. E. LeRoy Describes Large Territory Covered—Says Development of Slocan Mines Encouraging.

"During the season just closed Mr. W. H. Boyd and myself have been at work preparing a topographical and geological map of Slocan district," said O. E. LeRoy, of the geological branch of the Dominion department of mines at Ottawa, when asked as to the work of the department in southeastern British Columbia yesterday.

"The territory covered extends from Slocan lake to Kootenay lake and includes the Whitewater basin on the north and the mines of Four-Mile creek on the south, an area of about 260 square miles.

"Mr. Boyd has been preparing a topographical survey of this section on a scale of one mile to the inch and with 100 foot contours. Owing to an interruption of about six weeks caused by the heavy smoke from forest fires he was not able to complete this work this season, but it will be finished early next year. On my part the surface geology has been mapped out, and all mines and most of the important prospects have been examined.

Situaiton Encouraging.

"The fires of course disorganized mining in the Slocan to a large extent, especially in the central portions of this district, but the usual amount of assessment work has been done, many properties working two or three men for a couple of months or so. The encouraging feature about this section of British Columbia is that the mines which are being actively developed at the present time are showing considerable quantities of ore. The principal producing mines are the Hope, the Richmond Eureka, the Standard, and the Hewitt. The Van Roi is awaiting the completion of the mill before resuming work.

"The Hope people," continued Mr. LeRoy, are developing and adding to their ore reserves, while the Hewitt is shipping the ore mined in development and also blocking out quantities of ore. This is being done on several other properties. Owing to the disorganization of the K. & S. service, the ore from the Slocan is being shipped over the C.P.R. via three Forks.

In Boundary Country.

"In addition to the work in the Slocan I made an examination this season of the Franklin camp. This was done as a result of a request from the people of Grand Forks, who are very anxious that a geological survey of this camp should be made as soon as possible. Quite a lot of work has been done on several properties in this camp, notably on the McKinley properties.

"On the west fork of the Kettle river, in the vicinity of Beaverdell, Mr. Reinecke has, during the season, made a topographical and geological may of the district. A railway line is being built from Midway to Vernon through this country, so there are good possibilities of many of the prospects turning out well if they are located within a convenient distance of the railway. In previous years the Carmi and Sallie mines in the Beaverdell district have shipped a quantity of high grade silver ore, but at that time the ore had to be hauled to Midway at a cost of about $20 per ton.

"In the Boundary country a special map has been made of the portions of the Deadwood camp which will include the Moeher Lode and Sunset mines. It will be on a scale of 400 feet to the inch with 200 foot contours. This map has been prepared with great attention to detail and a thorough examination of the geology of the mines was also made.

East Kootenay Work.

"In East Kootenay Mr. S. J. Schofield had mapped an area in the vicinity of Marysville, including the Sullivan and certain copper properties up the St. Mary's river. The Stemwinder and North Star mines, both of which are at present idle, are also included in this map. Mr. Schofield's work was concluded this year, and all the material is ready for preparing for the publication of the map and report."

Mr. LeRoy stated that he expected the Slocan may to be published next year.

Minard's Liniment Cures Colds, Etc.

APPLE SHOW FAR OUTCLASSED ALL

"I have seen the greatest apple shows in the United States, and I confidently affirm that Canada's first national apple show, held at Vancouver on Oct. 31-Nov. 5, outclassed them all." This declaration was made by J. E. Annable, president of the Nelson fruit fair, who returned from Vancouver on Sunday night.

Will Advert'se Province

"It was certainly a great success," continued Mr. Annable, "and it will do more to advertise the fruit growing possibilities of Canada, and especially the province of British Columbia, than anything heretofore attempted, and it has placed British Columbia in the front ranks as an apple producing province.

"Figure out what it means. Apples must have soil, sunshine, water and climate. This apple show has proven that British Columbia has all of these essentials. Apple culture means more to British Columbia than any other method of utilizing the soil. It means population—what British Columbia requires. It means contentment and prosperity. It means home life with congenial surroundings. It means enormous wealth for the province. It means the opening up of commerce—British Columbia fruit is now being shipped in large quantities to Australia and to Europe.

"Along this line, the Vancouver Sunset said: 'It has shown in short that British Columbia is an ideal land in which to live, for the apple flourishes only in a country which offers the greatest inducement as a place of habitation—no doubt that is why Eden was a terrestrial paradise, for are we not told the apple grows there in such luscious beauty that it tempted all mankind to his downfall? Whether or not that is true, we know that where the apple grows best, there the conditions of living for the human race are nearest the ideal. So the Canadian National Apple show has proven that fact to the world for British Columbia.'

West Kootenay Superior

"The apples from the West Kootenay were of superior grade, such as Cox's Orange Pippin and Gravenstein, and the large display of Gravensteins exhibited by McDonnell & Doyle, and grown near Nelson, received the highest award. The prize given for this particular exhibit, $150, was the largest prize ever awarded in the Dominion for Gravenstein apples. Many other valuable prizes were also received by apple growers of this locality, going to show that the West Kootenay is producing high grade apples.

"The exhibits sent from this territory were grown without irrigation, which insures their keeping qualities, and the deputy minister of agriculture, W. E. Scott, purchased these exhibits and is sending them to the Royal Horticultural society's show in London, England, where they will go into competition with the world. Many of the orchards in the West Kootenay are young, but in a few years, when they come into bearing, the name 'Kootenay Fruit' will be known beyond the seas."

Minard's Liniment Cures Diphtheria.

Discriminating Women Are Seeking Just Such Evening Dresses As We Offer

They Combine High Style With Reasonable Cost

Discriminating women are looking for just such tasteful, well made evening dresses as these. They represent the newest style ideas without exaggerating them. They are not too extreme to be in good taste but advanced enough to please the most progressive.

We don't hesitate to recommend them from the standpoint of style and quality. The materials are fine and beautiful, exemplifying the newest weaves and colorings. The workmanship is expert—even to the inside finish they measure well up to the most exacting requirements.

As to prices: An inspection of these evening dresses will leave you more firmly convinced than ever that this store offers the best garment values in this vicinity.

EAST KOOTENAY

The bylaw calling for an expenditure of $600 for the purpose of fixing up the Central school grounds at Fernie met with the approval of the voting public who turned out in great strength 48 votes in all being cast, 41 in favor and 7 against.

The sawmill of the Elk Lumber Co. has closed down for the season. The planing mill will operate throughout most of the winter. The Elk Lumber Co. are operating three bush camps, employing about 250 men.

With new ore bodies found in the St. Eugene mine, the Aurora on the shipping list and ore at the Society Girl ready to ship a busy winter in Moyie can be looked for.

H. S. Womack, the recently appointed city clerk at Fernie, has handed in his resignation to the city fathers. The state of Mrs. Womack's health which necessitates her departure for the east is given as a reason for Mr. Womack's resignation.

On Thanksgiving day an explosion occurred in No. 1 mine, Bellevue. Fortunately there was no one in the mine at the time of the accident, through, from the meagre details to hand, it would appear that considerable damage was done, the bulkheads and chutes being blown out, and the air line broken.

A scene of wild disorder took place in one of the houses in Dagotown situated in what is known as Old Michel. On October 29 a party of Italians gathered in one of the shacks and heated words arose out of an argument in reference to the employment of certain individuals. It is understood that a considerable amount of liquor had been consumed by some of those present, and this inflamed the spirits of two of the number, Vincent and Toratti. High words led to the knife being drawn, resulting in Andria Vincent being stabbed in fourteen places, including the face, head, arms and chest, one of the thrusts even penetrating a lung. He was removed to the hospital, where Dr. Shaw attended to his injuries. Constable Bulger, on hearing of the affray, was quickly on the scene and arrested Toratti whom he conveyed to Fernie.

A very pretty wedding took place October 29 at Michel at the residence of William Harmison, Michel, when his sister Margaret, daughter of James Harmison of Bedlington, Northumberland, England, became the bride of William Talbot, late of Clown, Derbyshire, England, Rev. G. T. Chenoweth officiating. William Walkdon acted as best man and Miss Annie Mercer, was bridesmaid.

Once during Peck McSwain's longest sojourn amongst us says the Fernie Free Press, he conceived the unworthy notion of taking his departure. He strolled over to the C. P. R. yards and selected a luxurious upholstered private car. It was upholstered with hay and stood on the track sacred to "West Loads." Peck took the only lower berth in sight and awaited developments. A yard man came along and sealed up the car. It was bumped into motion and Peck fell asleep. It was some time afterwards when he was awakened by another jolt and a series of shuntings hither and thither. He tried the door but it was locked. The shunting continued and Peck went through all the sensations of being loaded on a barge on Kootenay lake. He felt the damp, cool air from the lake filtering through the cracks in the car. After what appeared to be a boat ride of several hours the car was again banged about and Peck emitted the signal of distress. The door was opened and Peck stepped out into the yards of Fernie after being locked up in a car of hay that had been refused by a consignee for 19 hours.

ATLANTIC LINER EXPERIENCES STORMIEST PASSAGE KNOWN

MONTREAL, Nov. 7—The steamship Megantic which arrived here last night, reports the stormiest passage in history. On the second day out from Liverpool she made only 370 miles instead of the usual 400. A wireless message was received from Liverpool asking, "Megantic, are you afloat?" On board the steamer was Miss Shackleton. She is on her way to Winnipeg, where she will found a nurses' home. She is the sister of the famous Antarctic explorer Sir Ernest Shackleton. She says that if Capt. Scott is unsuccessful on his present expedition, Sir Ernest will make another effort to find the south pole.

NELSON NEWS OF THE DAY

(Additional local news notes on page 8.)

Phineas Devere Hunt, the Cranbrook insurance man, now on a business visit to Nelson, is - member of the Cranbrook council, and a candidate for mayor. He will pay a visit to Kaslo before returning to Cranbrook.

The Baptists Ladies' Aid will meet this afternoon at 3 o'clock in the church parlors, all members being requested to attend.

The regular meeting of the Nelson board of trade will be held on Thursday evening at 8 o'clock. A large amount of business is on the order paper for transaction.

The subject at the meeting of the Baptist Young People's society this evening will be, "The War Against the Bar-room."

Rev. Mr. Hooper of Toronto arrives in the city this week, to enter on a term as acting pastor of the Baptist church for the winter.

The November session of the board of directors of Kootenay Lake General hospital will be held this afternoon at 4 o'clock, at the hospital.

A meeting of the executive of the Nelson Liberal association will be held this afternoon at 5 o'clock, at the Hume block, Vernon street.

Tomorrow evening the Churchmen's club will give a concert in the parish hall, adjoining St. Saviour's church, when all will be heartily welcome. The small fee of 25 cents will be charged for admittance, and all who attend are assured of a very pleasant musical evening, commencing at 8.15.

At the evangelistic meeting in St. Paul's Presbyterian church tonight at 8 o'clock, Rev. W. Patterson will speak of the Tears of Jesus. Special music will be sung by Prof. Weaver and a male quartette.

Peter Verigin, head of the Doukhobor society, who has been spending his time for the last few weeks at the Doukhobor community at Brilliant, on the opposite side of the Columbia river from Castlegar, arrived in the city Sunday night, and left by the morning boat for Yorkton, Sask.

There will be a meeting of the 1st Nelson troop, Baden-Powell's Boy Scouts, tomorrow evening at 6.45 o'clock, at the club room. Every scout is requested to be on hand, as important business is to be transacted.

The marriage of A. S. MacAulay and Miss Ida M. Julien will take place tomorrow morning at 8 o'clock, in the Church of Mary Immaculate.

A special meeting of the boys and girls is announced to be held on Wednesday at 3.30 o'clock in St. Paul's Presbyterian church, to be addressed by Rev. W. Patterson, whose sunny humor and kindliness will attract his young hearers. Something good in the way of singing is also promised from Prof. Weaver.

There will be a meeting at 2.30 o'clock this afternoon of the Association of Church Helpers, to be held in the parish hall of St. Saviour's church. Important business is to be arranged for, and a large attendance is requested. All women of the congregation of St. Saviour's church are members of this association, and are cordially invited to be present.

A meeting of those interested in the formation of a male voice party will be held at 7.30 o'clock this evening at the Y.M.C.A.

Owing to a misunderstanding, it has been necessary to alter the date of the dance to be given under the auspices of the Eagles, advertised for tomorrow night, from tomorrow night to Thursday night. Wilkinson's orchestra will be in attendance, and dancing will commence at 9 o'clock. A large attendance is hoped for.

The people's meeting at Trinity Methodist church tonight will take the form of "An Evening in the Southern States." Southern songs and talks will be given. Everybody is invited.

His honor, Judge Forin, will return from the coast tonight, it is expected. Consequently the sitting in chambers will be held tomorrow morning.

PROGRAM FOR AUTUMN MEETINGS

Splendid List of Lectures for Farmers' Institutes—Itinerary in Kootenay Drawn up

(Special to The Daily News.)

VICTORIA, Nov. 7—The provincial department of agriculture has just issued the itinerary and program for the autumnal meetings of the Farmers' Institutes throughout British Columbia, for which an especially strong list of lecturers has been secured. These experts in their several specialties include Messrs. M. A. Jull, B.S.A., live stock commissioner; P. H. Moore, B.S.A., dairy instructor; J. F. Carpenter B.S.A.; M. S. Middleton and C. C. Clark, assistant horticulturists, all of the department of agriculture, Victoria; F. Dundas Todd, Victoria, and L. Harris, Vernon, apiary instructors; H. F. Rau, Tacoma and J. J. Wilson, Vancouver, poultry specialists, and Dr. C. S. McKee, V.S., Victoria. The itinerary and program in extenso include:

Cranbrook-Fernie — Nov. 28, M. A. Jull, L. Harris and P. H. Moore, at Cranbrook, on "Preparation and Housing of Poultry in Winter," "Live Stock Industry," "The Housing of Bees in Winter," and "Dairy Farming."

Robson—Nov. 10, M. S. Middleton and L. Harris at Castlegar on "Fall Cultivation and the Preparation of the Soil" and " Bee Keeping in its Relation to Horticulture"; Nov. 11, M. S. Middleton and L. Clarke at Kamloops on "Spraying and Pruning." A short course at Kamloops will also be provided if possible by M. A. Jull, live stock commissioner.

SUNDAY IS FORT WILLIAM'S BUSY DAY

FORT WILLIAM, Ont., Nov. 7—Sunday was the busiest day in the history of Fort William as a trading port. There were at one time in the harbor 24vessels, while during the day 15 steamers cleared for the east with a total of slightly more than 1,500,000 bushels of grain. During the afternoon five steamers with a total of 6000 tons of package freight unloaded at the Canadian Pacific sheds and seven freighters with combined cargoes of coal totalling slightly over 37,000 tons awaited their turns under the coal dippers.

FIRE AT SOURIS

SOURIS, Man., Nov. 7—White's confectionery store was damaged by fire last night. The loss is about $2000 and is fully covered by insurance. The blaze originated from an explosion in the furnace.

ARROW LAKES ARE FAMOUS FOR FRUIT

Nakusp Centre of Fine District—What the Joint Kootenay Fruit Pamphlet Says of This District

Under the heading of "Nakusp and the Arrow Lakes Fruit District" the illustrated fruit pamphlet issued by the joint committee that prepared the Kootenay exhibit for the National Apple show at Vancouver, has the following descriptive text:

For picturesque scenery, favorable climatic conditions, fertility of the soil and the immense area of cultivatable fruit lands, it is difficult to imagine a more desirable district for the seeker of a home and productive orchard than the various points along the shores of the Arrow lakes. Within a radius of 10 miles of Nakusp, the chief and central town of the district there are 25,000 acres of the very best fruit producing land to be found in the province awaiting the settler and investor.

It is demonstrated that irrigation is unnecessary in the Columbia valley.

A liberal return for the investment is assured in the one case, and abundant enjoyment in the other.

Attractive for Residence

The district offers boating, fishing and hunting, sandy beaches for bathing, excellent roads, winding along the lake shore and among the various orchard sites. Among the townsites are Burton City, Edgewood, Arrow park, Apple Grove, Needles and Sunnyside, tributary to which are excellent lands. The town of Nakusp is charmingly situated on a level tableland, overlooking a wide expanse of the lake. It has steamer and railway communication with all points and is an industrial centre of great prospective value.

"A NERVOUS WRECK."

"My daughter is rapidly becoming a nervous wreck," said an anxious father to a friend who happened to be a druggist,—"she has no appetite, is run-down, weak, takes no interest in anything, and we cannot find anything that helps her."

"Why don't you give her Vinol"—said the druggist—"it is not a secret nostrum, just a simple and delicious cod liver and iron tonic—and the best strength creator and general all round tonic we have ever sold in our store. Take a bottle home and try it. We'll return your money if it does not help her."

Within ten days the father came back for another bottle of Vinol, saying that he had never seen such a change in a girl in his life, and he felt sure one more bottle would restore her to normal condition.

Such cases as the above are constantly coming to our attention, and we ask every run-down, nervous, debilitated, aged or weak person in this vicinity, and every person suffering from a chronic cough, cold, or bronchial trouble, to try a bottle of Vinol on the same terms as above. W. Rutherford, druggist, Nelson.

REMARKABLE SALE OF KOOTENAY FRUIT LANDS

Sixty Tracts of Edgewood Orchards Gone in Less Than Month—No Irrigating

Enthusiasm over the big red apple prevails. At the close of this week 60 fruit farms in the Edgewood orchard tract have been sold. As the sale of this land opened only on Oct. 10 it will be seen what a keen demand there is for good fruit lands. This is doubtless due to the high price of fruit land to the south of the international boundary.

The sale of Edgewood orchards has several unique features. Chief among these is the fact that the land is being sold direct from the surveyors' reports. In making this survey the surveyors have given a careful report on each farm and purchasers choose from these reports as satisfactorily as if they saw the land itself.

Vancouver and Calgary people have been large purchasers thus far, but one of the most extensive advertising campaigns ever conducted for western Canada fruit lands is being carried on and inquiries are pouring in from all over the continent. This part of the campaign has not gotten fully under way as yet. Mr. E. B. McDermid, the president of the Investors' Trust & Mortgage corporation, attributes the success of the campaign to good land and to a straighforward presentation of the facts about it.

SPEAKER AND BOY SCOUTS

An English exchange of Oct. 14 has the following:

The Speaker and the Boy Scouts—The speaker of the house of commons in an address to the Boy Scouts at Penrith last night eulogized the movement as being one of great service to youths in training their powers of observation and their logical faculties. Such a movement could not but help in the making of good citizens.. He was not a Boy Scout himself (laughter) and never would be unless they formed a society of old boy scouts. He had closely studied it and had formed the opinion that it was a most desirable movement and one to be warmly supported.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

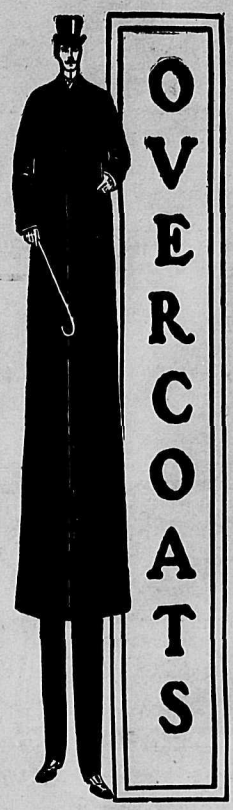
The general health of women is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."

Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

It will pay the man that dresses well to keep an eye on our Toggery Department, for we're always the first to show any late productions.



Overcoats, just twice the range we have ever shown.

We're sure that you can find here, sir, "just your overcoat," whether your taste be quiet or breezy.

If you are particular about your overcoat come to the store that sells the best overcoats made.

Overcoats

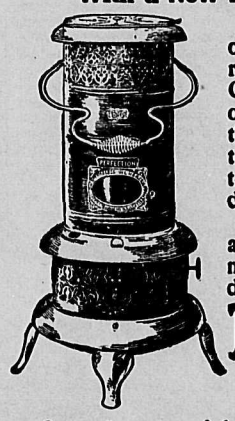
THE HUB Furnishing House **Emory & Walley**

Dry Your Clothes on a Wet Washday

With a New Perfection Oil Heater



When clothes can't be hung outside, and must be dried in a room or cellar, the New Perfection Oil Heater quickly does the work of sun and air. You can hang up the wet clothes, light your Perfection Oil Heater, open the damper top, and the heat rises and quickly dries the clothes.

Do not put off washing to await a sunny day in order to avoid mildew. Dry your washing any day with hot air from a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

It gives just as much heat as you desire. It is safe, odorless and smokeless.

It has an **automatic-locking flame spreader,** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. Burner body or gallery cannot become wedged, because of a new device in construction, and can always be easily unscrewed for rewicking.

An indicator shows the amount of oil in the font. Filler-cap does not need to be screwed down, but is put in like a cork in a bottle, and is attached to the font by a chain. Finished in japan or nickel, strong and durable, well-made, built for service and yet light and ornamental. It has a cool handle and a damper top.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

NELSON NEWS OF THE DAY

(Additional local news notes on page 7.)

The services conducted on Sunday last in the Presbyterian church by Rev. W. Patterson and Prof. Weaver were largely attended, the congregation in the evening filling the building. The preacher's fervent appeals were received with close attention, and his winning personality laid hold of the people. In the morning his topic, "The Standing Army," led him to illustrate the Christian life by apt military metaphors. In the evening, speaking of the Two Sons, he set the parable of the Prodigal Son in fresh light. There was again a good attendance last evening, in spite of the unfavorable weather. The Rich Young Ruler and Blind Bartimaens were together the subject of r. Patterson's discourse.

The parlors of the Y.M.C.A. were filled on Sunday afternoon on the occasion of the men's service, addressed by Dr. William Patterson, on the topic "Three-Thirds of a Man." The three-thirds were of course the physical, intellectual, and spiritual sides, and Dr. Patterson held that, as the physical man depended for health and growth on food, air, and exercise, intellectual and spiritual growth depended on similar elements on those planes. Prof. Weaver led the singing, and rendered the well known revival solo, "Life's Railroad."

John Sherbinin, agent of the Doukhobor colony at Bdilliant, was in the city yesterday.

The delegates appointed by the Nelson Conservative association to attend the Conservative convention next week will meet on Friday night at 8 o'clock in the club rooms in the K.W.C. block.

The Canadian club have invited Premier McBried to speak at a luncheon on Nov. 17.

It has been decided to train the Nelson contingent Boy Scouts in the arts of skiing and using snowshoes, and Scoutmaster R. W. Markham will be glad to hear from anyone who will be willing to teach the boys how to make either ski or snowshoes.

J. H. Schofield, M.P.P., and Antonio Vennuchie registered at the Strathcona yesterday on their way home to Trail after a few days duck and geese hunting near Kootenay Landing.

Mrs. E. L. McNicoll of Phoenix is a guest at the Strathcona.

Mr. Justice Clement left Sunday night for Vernon where he will preside at the sittings of the supreme court commencing today. The criminal list at Vernon has already been disposed of.

Harry Wright, M.P.P., is expected to reach the city tonight.

Rev. Dr. Walker of Glasgow, Scotland, is a guest of Mrs. A. Bell. He is on his way to New Zealand where he will visit his brother, and is accompanied by Dr. Cook of Dundee, Scotland, who is an old friend of Mrs. Bell.

Before William Irvine, police magistrate, in the city police court yesterday morning, J. D. Simpson was given 90 days in the provincial jail for creating a disturbance by being drunk, and Gus Erickson and James Grant were each fined $10 and costs for similiar offences. Erickson, who was fined at the end of last week for drunkness, was given the option of 60 days in jail but paid his fine.

The highest temperature recorded at the government meteorological station yesterday was 54 degrees and the minimum was 37 degrees.

Two flat-cars of machinery for the new C.P.R. steamer for the Arrow lakes, being built at the Nakusp shipyards, passed through Nelson yesterday en route for Nakusp. The machinery consisted of the high pressure and low pressure engines for the port side.

Mrs. (J. A. Tanner and Mrs. H. M. Manhart will receive tomorrow afternoon at the latter's residence, 711 Silica street.

Mrs. J. E. Annable will receive Thursday afternoon and evening in honor of her daughter, Pauline.

At the Theatres.

The Welsh choir and its conductor, Madam Hughes-Thomas, L.R.A.M., need no recommendation to those who have previously heard them. On their tour of the United States and Canada last season they were accorded enthusiastic receptions everywhere.

In Wales, a county proverbially known as "the land of song," this Choir is regarded as the leading interpreter of Welsh national music, whilst in every city where it has sung in Great Britain, Ireland, France, and America, it has been acclaimed as a combination of unsurpassable musical talents.

This choir is unique, as far as Canadian audiences are concerned, at least. It consists of but 25 voices, but every voice is a voice of fine quality—every voice is one of natural beauty; and not one has been spoiled by bad training. Natural production, natural singing—nothing artificial, nothing that of necessity detracts from the volume, the purity or the quality of the organ. The result is that those 25 singers not only sing in a manner that stamps them all as finished artists, but with an astounding volume, a clarity of enunciation and a perfection of intonation wholly unusual, and with phrasing that is a lesson to any student of song.—The Montreal Daily Herald, Tuesday, Oct. 26, 1909.

The program to be shown tonight at the Gem theatre is as follows: "The Deciding Vote," an Imp feature, treating with one of the most timely topics of the day; "Railroad Ride in Devonshire"; "Love and Money," and "Absent Minded Max," a most humorous sketch composed by Max Lenders himself.

The program at the Empire theatre this evening includes several interesting subjects, the feature film being a fine Bison picture entitled, "A Cowboy for Love." Others are, "Dots and Dashes," an excellent Thanhouser film; "The Watchman's Daughter," and "The Folding Bed."

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists and dealers.

NOVEMBER The Topaz Month

We have a good selection of fine Golden and Spanish Topaz at moderate prices. Our best specimens average from $3 to $10. We have a few gems in our windows.

Prepare for Winter Reading
