VOL. 8 NELSON B. C., SUNDAY MORNING, JUNE 6 1909 NO. 40

WEST SPOKE

Recent Session of Commons Heard Its Needs

MR. GOODEVE AT HOME

KOOTENAY'S MEMBER PLEASED WITH RECORD OF WESTERN CONSERVATIVES AT OTTAWA REPRESENTATIVES NO LONGER NEGLIGIBLE

A. S. Goodeve, M.P. for Kootenay, is in Rossland having returned there by way of Revelstoke and Robson without passing through Nelson. The following is an account of an interview accorded by him to the Rossland Miner:

Asked how mining in this province is now regarded in eastern Canada, he replied:

"The general feeling is that the mining interests here have greatly improved. There were a great many inquiries made to me as to the Consolidated company the Le Roi Two and other leading mining companies and there is considerable investing in them, and particularly in the Consolidated company. There is a disposition, too, on the part of a number to revive old companies that have properties here which have been idle since 1907. I talked with a number of capitalists who are interested in these mining ventures and some of them will, in the not far future, come here and open up and develop these temporarily shut down mines and properties. This will be the result of the bettered conditions and of the dividends that a number of our larger properties are earning."

Asked about the parliamentary session, Mr. Goodeve replied:

'We are thoroughly satisfied with the work accomplished from a conservative standpoint, during the last session. It is generally admitted that B.C. has received more attention than at any previous session. The great natural resources of the province have been called to the attention of the house and the fact of the improved development of these resources made known, not only to the house but to the dominion as a whole. For the first time attention has been called to our great agricultural and horticultural resources in the far east.

"In regard to this district we have been successful in drawing the attention of the house to the necessity in issuing or renewing railway charters, that clauses should be inserted insisting upon the work being completed within a reasonable time. In the case of the Arrowhead & Kootenay railway a special clause has been inserted compelling the construction of 15 per cent of the road within two years and completion in five years.

"We were able to bring a number of matters of importance to the district before the various departments, and, besides this secured concessions of advantage to a number of our most important industries.

"In relation to the Asiatic question, there seems to be a growing interest taken in the east, particularly in the larger centers. This was most noticeable in public meetings which I addressed in Toronto, Montreal, Guelph and other centers, the workingmen being deeply interested. On both sides of the house it is generally conceded that this is a question of more than local interest and must have the careful attention of the government. It is the intention of the B.C. members to bring the Asiatic question forward in the way of a motion, to be issued at the next session of the house which opens in November. In this way we can place the government on record and get the opinion of the house and thus force some decided action.

"With reference to the Lemieux bill. Notwithstanding the fact that certain government organs are endeavoring to give Hon. Rudolphe Lemieux a great deal of honor on account of being the father of the act, and that it is intimated that he may receive knighthood on account of it, yet it is by no means as popular as they would intimate; on the contrary, a very strong petition was sent in by the railroad and other workers both of Nova Scotia and Ontario against it, thus showing that the feeling against it is very general. Mr. Claude Macdonald, member for South Toronto, introduced an amendment against the bill in the house which was practically thrown out by the government by being kept at the bottom of the order paper, thus preventing it from reaching its second reading. There is no doubt that this will be taken up again at the next session when a strong effort will be made to have it repealed or amended so as to make it more equitable in its workings and fairer to all parties concerned.

"Generally, we feel, from a conservative standpoint, that much good has been done in placing the government on record as being in favor of corporations and against the people. This was particularly noticeable in the action of the government on the Canada Life bill, where this was forced through the house by a straight party vote. Again, with regard to the resolutions by Wm. Staples for Macdonald, asking that a western farmer be placed on the railway commission, when an amendment was introduced by the government asking that a railway man be appointed to fill the vacancy on the commission, a similar effort was made to have the government open up the dominion lands held by them in this province. The answer of Hon. Frank Oliver, minister of the interior, was that he could do nothing until the lands had been surveyed and that they were so busy surveying the land in the prairie provinces that they had not yet had time to give B.C. lands their attention.

"An effort was made to have those volunteers who served in South Africa and being residents of British Columbia, apply their scrip to lands in this province. It was pointed out to the minister that it was unfair to ask citizens of B.C. to expatriate themselves from the province in order that they might take advantage of their scrip. While the minister agreed that this contention was a reasonable one, and that he would give it fair attention yet the session closed without his having done anything in this regard.

"The matter of experimental farms for Kootenay district was taken up with Hon. Sidney Fisher, minister of agriculture, and he stated that while he was in favor of establishing and maintaining experimental farms in the western provinces, that he had found it most difficult to get the necessary funds voted by parliament. He was told that we were not asking for colleges with expensive buildings and staffs, so much as simply experimental stations where men trained and with the requisite knowledge might experiment and thus lend assistance to settlers in new districts. We pointed out that owing to the elevation, the peculiar nature of the soil, and the mountains surrounding the valleys, that conditions sometimes vary greatly within comparatively small areas and that, for this reason it was desirable to have a number of stations established. It is our intention to again take up this question and to have the amounts placed in the estimates for the establishment of the proposed experimental farms at the next session of parliament."

CANADA'S NAVAL PLANS

GOVERNMENT TO ORDER CRUISERS AND DESTROYERS

NUCLEUS OF BRITISH SAILORS AT THE BEGINNING

MONTREAL, June 5—According to an evening paper the dominion of Canada has finally shown her imperial spirit by building a navy of her own to act, should occasion arise as an auxiliary for Great Britain's fleet. Her contribution to the forces of the empire will consist of five first class cruisers, ten torpedo boats and ten torpedo boat destroyers. All contracts for building the vessels will be made with British firms and arrangements have already been made for building several torpedo boats and destroyers with the well known firm of Hawthorn, Leslie and Coote of Newcastle-on-Tyne. The larger vessels will be built on the Tyne but for the building of the small craft a shipyard will be opened on the great lakes, probably at Collingwood. It is not stated positively how much the government is prepared to spend. It is intended that a Canadian naval reserve, drawn from fishermen of Nova Scotia and New Brunswick, will be organized which will go aboard these vessels and eventually receive sufficient training on them with a nucelus crew of artisans and experts from the old country.

Mr. Coote, who is an experienced naval and ship building man of more than ordinary ability, describes his sentiments and intentions: "If Canada is to have a navy it must be one of her own. The proposal that we pay cash contributions to the royal navy, let our defence out to contract, hire Englishmen to do our maritime fighting for us, has been discussed. The sense of the nation turned decidedly against it. There are 20,000 trained sailors on the Atlantic coast. Why should we not make use of some of them by raising a naval militia of several thousand? Let us start with a British nucleus, but let us eventually have an all Canadian navy."

Oasis in Desert

NASHVILLE, June 5—W. P. Conger of McMinnville, has found a spot on the top of the Cumberland mountains in Sequath county where the state prohibition law, effective July 1, cannot touch him and he is now having a saloon erected there. It is 13 miles from McMinnville and there is no school house within four miles of the place. It is reported that Conger has leased all the land for four miles around in order to prevent the erection of a school house. Ten or twelve barrels of whiskey and a lot of case goods are now waiting for transportation to Conger's saloon. Regular hack lines will be established by the enterprising saloonist to furnish liquor to neighboring towns. As the legislature does not meet until 1911 he expects to make a fortune.

Too Much Deposit

BINGHAMPTON, N.Y., June 5—C. P. Knapp, president of the Outing Publishing company, which is now in the hands of a receiver, owner of Knapp's Millionaires hank, and in charge of the defunct bank of Knapp Bros. in Deposit, N.Y., was arrested in Deposit this morning on the complaint of Edith Crowley of Deposit on a charge of accepting a deposit of $50 after he knew the institution was insolvent.

Young Corbett Wins

NEW YORK June 5—Young Corbett of Denver, after going the ten round limit last night won by a small margin, a bout with Sammy Smith, formerly of Philadelphia before the Fairmont Athletic club.

MEAN NO HARM

German Naval Policy Not Aimed at Britain

PRINCE HENRY AT KIEL

ADMIRALS OF FATHERLAND TELL OF NECESSITY FOR MONSTER FLEET BUT CAN'T KEEP EYES OF NORTH SEA AND BRITISH HOME FLEET.

KIEL, June 5 — Prince Henry of Prussia, representing his brother, emperor William, spoke as follows today at the annual meeting of the navy league, held here under the presidency of grand admiral von Koester:

'Every one is glad that a good understanding of the navy league once more has been established. The organization should devote itself to the furtherance and the carrying out of the legal naval program. In addition to a powerful army, we need a fleet in order to insure peace."

Admiral von Koester said that Germany was not considering a fleet against any definite opponent, but as a means of self-defence. "We desire to live on the best of terms with all civilized countries," he declared.

Admiral Weber then made an address in which he referred to the "concentration of the strongest fleet in the world in the North Sea." He said he hoped war would never happen but that Germany, after recent occurrences was obliged to bear in mind the possibility of such a contingency. Admiral Weber rejected the idea of an agreement with Great Britain in the matter of naval construction.

A telegram was received from emperor William saying: "Our principal task in the future as in the past, is to open a way to make the fleet popular, and to create German sea power for the assurance of peace."

Tuberculosis in Ireland

NEW YORK, June 5—The Countess of Aberdeen, the wife of the viceroy o Ireland, arrived here tonight by the White Star liner Cedric to enlist American aid in the fight against tuberculosis in Ireland. "Against a wet climate, a low dietary and a scanty fuel supply," said Lady Aberdeen, "the poorer people of my country have sought warmth by shutting off ventilation. The results have been lamentable. There are 12,000 victims a year and the disease has a grip on 120,000 of our population." Lady Aberdeen will deliver two addresses tomorrow evening in Plymouth church, Brooklyn, and at the Catholic club in New York. On Monday she will go to Boston, thence to Toronto where she will attend the international tuberculosis council of women.

Canada Tapping London

LONDON, June 5—The Southern Alberta land company will shortly invite subscriptions for $200,000 five per cent. debentures.

The Canadian and general securities corporation has been formed with a capital of $250,000.

DR. REAUME'S SERVICE

FORCED MR. BRODEUR TO PROTECT CANADIAN INTERESTS

FISHERIES DEPARTMENT PLAYED INTO AMERICAN HANDS

OTTAWA, June 5—Prof. Prince, the Canadian fisheries commissioner, is on his way to Washington to sign the joint fisheries regulations. It will be remembered that Mr. Brodeur was exceedingly angry when Dr. Reaume, the Ontario minister charged with oversight of the fisheries, published the draft of the regulations which Dr. David Starr Jordan was trying to induce the Canadian commissioner to accept, and when Mr. Brodeur had been cross-questioned a bit it turned out that his anger was purely on Dr. Jordan's account. Now that the regulations are settled, the department is anxiously giving out word that they are to be much better than those which Dr. Jordan proposed. So that it looks as if Dr. Reaume's action has made the department a little solicitous to the opinions of Canadian fishermen.

British Columbia fishermen will await the publication with anxiety. As J. D. Taylor pointed out in the house the regulations which Dr. Jordan sought to impose on Canadian fishermen would have been fatal to the fishery interests on the Fraser. One was that for all time the close season on the Fraser should be 24 hours longer than on the gulf, a regulation which would benefit the capitalists and the oriental labor which they employ and would have extinguished the race of white fishermen on the fraser. "Unfortunately," Mr. Taylor said in discussing this, "for years past the whole trend of the regulations issued by the department at Ottawa has been in favor of the monied interest, the Japanese and Chinese as against the white fishermen."

The drastic regulations contained no sign that our government had made any attempt to utilize the American desire to come to an agreement with regard to the fisheries to obtain a settlement of the difficulty over the use of traps. No treaty respecting salmon on the Pacific coast should be made which does not stipulate that the Americans abandon the destructive methods which they now pursue.

Fears for Sailors

ST. JOHN'S, Nfld., June 5—To the great anxiety felt here by ship owners and the wives of 300 men comprising the crews of the scores of fishing boats a week overdue at this port from Bonavista bay, because of the ice in menacing proportions, has been added the fear of disaster from ice floes and a storm. During Wednesday night and Thursday morning a heavy storm centered over the region between here and Bonavista bay, a distance of 50 miles.

Rival to Bell Company

CHARLESTON, W. Va., June 5—The national telephone corporation with a capital stock of $15,000,000 was incorporated here today. It is understood the new company expects to become a rival to the Bell system in its long distance business. The new concern has already purchased options on many of the leading independent lines of Pennsylvania, Ohio and West Virginia, and it is said will invade other states and Canada and construct trans-continental lines.

Not Published

NEW YORK, June 5—Te report of the committee appointed by governor Hughes to investigate conditions on the stock exchange was completed today at a meeting of the committee. Horace White, chairman of the committee, will take the report to Albany the first of next week and deliver it to the governor.

Won't Bother Laurier

OTTAWA, June 5—The protest against the election of Sir Wilfrid Laurier for the Ottawa seat has been practically dropped.

HONOR PRESS

Leading Public Men Attend Conference

LORD ROSEBERY'S SPEECH

WELCOME BY JOURNALISTS OF BRITISH ISLES—TONE OF ALL ADDRESSES IS IMPERIALIST—COLONIALS ENTHUSIASTIC FOR ALL RED CABLES.

LONDON, June 5—At a meeting today the delegates to the imperial press conference decided to advocate state owned cables at subsequent meetings. All the delegates were present, with Mr. Thomas of Adelaide, Australia, as chairman. It was proposed that after their tour there shall be another conference. This is undecided. It is said that lord Crewe has asked for speakers for Monday but no names were given as it was decided on motion by M. E. Nicholls of Winnipeg that the speeches on Monday be limited to ten minutes. The only question to be discussed Monday, the Canadian Associated Press understands, will be cable service.

The most representative gathering of British newspaper men ever held occurred this evening at the Garden club at Shepherd's Bush, when 1000 journalists of the United Kingdom gave a banquet in honor of the 57 colonial delegates to the imperial press conference, that is to open at the foreign office on Monday next. While the Londoners predominated, every section of the British isles sent a delegate to welcome the colonial visitors who have come to London from all corners of the empire.

The principal subjects to be discussed are "Cable news and press intercommunication," when lord Crewe will preside and postmaster general Buxton and Austin Chamberlain will be among the speakers. "The press and the empire," under the presidency of first lord of the admiralty, Reginald McKenna, who will be supported by foreign secretary sir Edward Grey, lord Cromer, lord Esher and Alfred Littleton. There will be a second division of the same subject under the chairmanship of A. J. Balfour, assisted by war secretary Haldane and lord Roberts; and "Journalism and literature," with lord Morley in the chair and Augustine Birrell, Winston Churchill and lord Milner among the speakers. The colonial visitors riveting their attention on the first of these three subjects will make a strong plea for the reduction of cable rates and the laying of a government cable across the Atlantic, as suggested by Mr. Lemieux, the postmaster general of Canada, thus linking up the United Kingdom, Canada, Australia and New Zealand by an all red line. A movement will be started also for the establishment of an imperial press association and the interchange of news between the colonies and England.

The arrangements for the entertainment of the visitors are varied and include a garden party given for them by the prince and princess of Wales, which will be attended by the king and queen; an army review at Aldershot, and a naval review at Spithead, this latter to be followed by a fortnight's tour of England and Scotland.

Lord Burnham presided at this evening's banquet. Lord Rosebery delivered the speech of welcome to the pressmen and the reply was made by sir Hugh Graham of Montreal.

In his address lord Rosebery referred to the forthcoming visit to the fleet at Spithead by the delegates and characterized the present situation in Europe as ominous. There was an absence of questions, which ordinarily might be expected to lead to war, he said, yet the threatening and overpowering preparations for war were unprecedented in history. He was confident of the power of England to meet any reasonable conjunction of powers but when he saw this bursting out of navies he was uneasy regarding the outcome. Lord Rosebery asked the delegates to carry the message that responsibility rests on every man in the empire.

Sir Hugh Graham, proprietor of the Montreal Star, replying to lord Rosebery's toast "Our Guests," said that the colonial press was responsible for the wave of sentiment which is sweeping the outlying portions of the empire and marks an important change in the attitude of the people towards imperial interests. Canada for long years had sponged on the mother country for protection and was too mean to offer to pay its share, but a change was impending. Inspired by the pluck of New Zealand and Australia, which were always in the van, Canada was now sending delegates to discuss the question of the defence of Great Britain.

Ends in Compromise

PHILADELPHIA, June 5—With the calling off late last night of the strike of the motormen and conductors of the Philadelphia Rapid Transit which was inaugurated a week ago, normal car service was resumed today on all car lines. While the great majority of the men are satisfied with the concessions won from the company, there are some who are still dissatisfied, declaring that they will go ahead with the fight. The men claim that they won more than 22 cents an hour if they had held out. The vote of the men, taken at all the eighteen car barns, was 2702 for the agreement and 1097 against the proposition. The total vote showed that the claims of the strikers as to the number of men on strike were nearer the actual number of men idle than the figures issued by the company.

WILL SUE VANCOUVER

E. L. KINMAN AND HIS MEN ASK HEAVY DAMAGES

CONTRACT LET FOR ROADS AND MAINS ON HEIGHTS

VANCOUVER, June 5—Mr. George Cowan, M. P., has resigned the city solicitorship in view of the understanding that the council intends to create a legal department which will devote its whole time to civic business. The resignation has not been accepted.

Writs were this morning served on the city solicitor at the instance of Davis, Marshall and MacNeill, solicitors for Mr. E. L. Kinman and his associates, whereby the city is held to be liable to the total amount of $100,000 for alleged wrongful treatment of Mr. Kinman and his men in connection with the seizure of and maintenance in Deadman's Island by the city police early this week. The writs are three in number.

Mr. Kinman estimates the damage done to him by the action of the police at $50,000, while Mr. Victor Nawham and Mr. Wesley Taylor who were also arrested for their strenuous actions in connection with the defence of Deadman's Island for the Ludgate interests more moderately place their damages at $25,000 each. The statement in connection with the writ is that the claim is made for false arrest and malicious prosecution.

One hundred and twenty-five teams are tomorrow to work on the Shaughnessy Heights connection, five miles of roads, sidewalks, sewers and water mains. Next week the force will be largely increased and it is probable that within two weeks there will be over 200 men on the work. Additions to the force will be made as fast as room can be made for the men. Messrs. McDonald and Gzowski, contractors, have just been awarded the contract for this work by the C. P. R. Today Mr. James A. McDonald announced that as large a force of men as it is possible to handle will be employed until the work is finished. It has been ordered rushed. A camp capable of accomodating 200 men has been built on the ground and it is probable that another camp will soon be under construction.

The C. P. R. steamship lines and the Mackenzie steamship company have locked horns in the weekly week end trips to Seattle. Several days ago the latter company announced that commencing tonight it would operate a steamer from this city to Seattle, the return trip to be given at the rate of $3, sailing to be from Vancouver at 9 o'clock Saturday night and from Seattle on the return at 9 o'clock Sunday night. Today the C. P. R. announce a week end rate cut to equal the fare and table issued by the Mackenzie line. Just what the outcome will be is a matter of speculation among the shipping men and the traveling public. There is a possibility that before very long another cut may be made on one or both lines. The Princess Victoria will sail for Seattle at 11.30 tonight and the Princess Charlotte will leave Seattle tomorrow night at 11.30 o'clock for Vancouver.

Mr. Nicol Thompson returned today from Ottawa. He confirms the report of Dominion government assistance toward the dry dock project, and construction will begin after details have been cleared away. An option has been taken on a property in the east end. The dock will accomodate the largest merchant vessels, the estimated cost being $1,125,000.

HAUL FOR TREASURY

Obscure Millionaire's Estate to Pay $9,000,000 in Death Duties

LONDON, June 5—With the exception of $325,000 that he devoted to charities and his employees, the will of Charles Morrison, the comparatively unknown millionaire, who died recently near Reading leaving an estate valued at between $50,000,000 and $75,000,000, bequeathed the whole of the vast fortune to relations. Not since the death of Cecil Rhodes has such a remarkable testament as the will of Mr. Morrison appeared. It has been printed in pamphlet form and shows that in addition to the large gifts to relations in recent years that four persons in the family are now made millionaires, namely, a brother, a sister, and wo nephews, while two nieces get $117,500 each and 39 other relatives fortunes averaging $50,000 each. The government will benefit in death and succession duties from the estate about $9,000,000.

Concession Cancelled

LOS ANGELES, June 5—President Diaz of Mexico has refused to continue the concessions to local men to conduct a race track at Tia Juana, according to advices from San Diego, because permission might be construed as an unfriendly act towards California. I. Cohen, William Anderson and Clara Crevilling hold the concession signed by the vice-president of Mexico and they say they will go ahead with pre-

REORGANIZING

Dominion Copper to Resume Operations

OTHER NEWS OF THE WEEK

NEW FURNACE AT TRAIL—SEVERAL NEW STRIKES MADE AT SHEEP CREEK—THE SUMMIT GROUP IS TO BE WORKED—WEEK'S SHIPMENTS

The most important mining event of the past week was the sale of the properties of the Dominion Copper company, to its bondholders at the public sale held at Vancouver on Friday. The purchasing committee represented by Samuel Untermeyer, will now proceed to organize a new company and to issue $40,000,000 convertible bonds with which they are authorized to issue up to $1,250,000. Work on the mines and smelter will recommence as soon as the necessary arrangements have been made.

The largest copper furnace in the Dominion was blown in at the Consolidated company's smelter at Trail a few days ago. The latest giant of this sort is 42 inches by 5 feet in dimensions. This gives the company four large copper furnaces with a capacity of 1800 tons of Rossland ore per day.

Strikes on the Golden Bell, Mother Lode and Kootenay Belle at Sheep creek were reported. The bondholders of the Summit mine at this camp are only waiting for the snow to clear away to commence extensive development operations. There is sufficient ore in sight to pay for many months work with a large staff of men.

The Ferguson mine at Ferguson and the North Star at Kimberly appear to be ten of shippers for the first time this year.

The following are the ore shipments for the past week and year to date:

Civil War Nurse

CHICAGO, Ills., June 5—Mrs. Ann Eliza Hubbard, one of the most widely known of the civil war nurses, died yesterday from paralysis at the residence of her son. Mrs. Hubbard was appointed as special agent by the New York state government at the outbreak of the war to inspect hospitals at the front. She served through the campaign finally making her reports to President Lincoln himself. She was 85 years old.

Czar to Visit France

PARIS, June 5—It is officially announced here today that president Fallieres of France will meet emperor Nicholas of Russia at Cherbourg on July 21. The Russian sovereign will remain in the French seaport until the evening of August 1, when the Russian squadron will take him over to Cowes where he will visit king Edward.

Impresario Injured

PARIS, June 5—Oscar Hammerstein, the impresario of New York, was in an automobile accident here today. While returning to his hotel in a taxi-cab, the vehicle ran into another machine and both cars were damaged. Mr. Hammerstein suffered a number of contusions, but no bones were broken.

What the woman who has visited the Christie Factory says to her friends—

"I NEVER realized all that the 'Christie' brand on biscuits meant until I went through the big factory in Toronto.

"The cleanliness of the whole place amazed me. I don't mean that it is clean as judged by factory standards, but clean according to any standard.

"We women control the purse-strings when it comes to buying biscuits, and it's no wonder Christie, Brown & Co. are glad to have us inspect their factory. To my mind it is the strongest advertisement they could have.

"You'd be surprised to see the staff that is kept busy, day in and day out all the year round—cleaning, cleaning, cleaning.

"The windows, floors, walls, ceilings, machinery, etc.—all speak volumes for the sanitary conditions under which Christie's Biscuits are made.

"It's a picture to see the 'Christie Girls'—over three hundred of them—in spotless white. Each girl is supplied with two complete uniforms a week from the firm's private laundry.

"At every turn I found fresh evidence of the unusual care which is taken to preserve absolute cleanliness.

"It was explained to me how every ounce of raw material is tested, and how, at each step throughout the process of mixing, baking and packing, the Christie quality is jealously guarded.

"I am convinced that if every woman in Canada could visit the Christie factory as I did, they would not think of using any but Christie's Biscuits in future."

The best Grocers everywhere in Canada have Christie's Biscuits. Sold in bulk, by the pound, or in moisture and dust-proof packages.

LIPTON WANTS CHANGES

WOULD RACE FOR AMERICA'S CUP UNDER NEW CONDITIONS

NEW YORK MEN WILL NOT ENTERTAIN HIS PROPOSALS

NEW YORK, June 5—The New York American says:

Sir Thomas Lipton, it was learned today, has sold his big sloop yacht Shamrock III, which raced for the America cup in 1903 to J. J. Mahoney, who is breaking her up for the lead and nickel steel. The price paid was reported to be $7500, about one-tenth of the sum Lipton expended on the famous yacht.

Knowledge of the relegation of Shamrock III to the scrap heap came yesterday when government men pounced down on Robins' shipyard, Erie Basin, where the boat is being dismantled and threatened to take possession of the vessel unless duty is paid on the lead of which the keel is made. There are 95 tons of lead in Shamrock's keel and the duty would amount to nearly $2000. When seen at his home last night Mr. Mahoney scouted the idea that duty could be collected on the yacht. "I broke up Shamrock I and II without paying any duty," he said, 'and I do not see why I should pay in this case. If the Shamrock III had been brought over on the deck of another boat there might be some claim to a tariff but this boat came over on her own bottom and therefore does not come under the head of goods brought into the country."

Sir Thomas Lipton figured in the news of yesterday in another way. Word that he desired to have another try at lifting the America's cup was brought by John W. Dekay, president of the Mexican National Packing company, who arrived on the Lusitania, but as soon as the committee members of the New York yacht club learned of Sir Thomas' reported wish they declared that instead of his being an intimation of his purpose to race again, it really amounted to a decision that he would never send over another challenging yacht.

H. D. Parsons, chairman of the regatta committee said: "Sir Thomas knows that certain rules govern the cup race. He also knows that we cannot change those rules because they are a part of the deed of gift which accompanied the cup. If he really cares to race again he can build a boat according to the rules just as easily as the Americans can. Before he will issue a challenge he wants us to build a slow boat and race against another slow boat. The idea of the cup race is to determine the swiftest craft."

NEW YORK TO BERMUDA

Long Distance Yacht Race Starts With Five Boats Competing

NEW YORK, June 5—With snowy jib top sail breaking out at her fore like a puff of white smoke from a saluting gun, Edwin Palmer's Crusader II crossed the starting line of the Atlantic yacht club here today 4 minutes and 50 seconds after the 10 o'clock starting gun, first away in the club's 666 mile race to Bermuda. Close on the heels of the leader, George A. Rusk's 93-footer Margaret, crowding on every foot of canvas to catch all of a listless 7-mile breeze, coming through a driving mist from the northeast and Dr. W. L. Iselin's Amorita, flying the colors of the Chicago yacht club, glided almost together the Margaret at 10:02:45 and the Amorita at 10:02:55. The sloop rigged Marchioness, owned by J. P. Rosler, and racing under the burgee of the Yachtmen's club of Philadelphia, followed two minutes later. The little 33-footer Rosalie, with her owner, Dr. Leedon, at the wheel crossed last, putting the stake boat alongside at 10:07. Nicholas' Iroquois, which was to have been a starter in the race for which a cup has been offered by the Royal Bermuda yacht club, was delayed in making the Atlantic yacht club anchorage and did not start.

With booms to starboard and the wind abeam the five wind jammers left the shelter of the harbor, passing the Ambrose channel eight minutes apart. The Crusader II with Capt Charles Barr, the skipper of many defenders at the wheel, leading. The Amorita, with H. C. McLeod at the helm had worked hurtily into second place, however and seemed about to overhaul the leader. The Margaret was less than 37 minutes astern and the Marchioness and Rosalie which did not change their respective positions. The boats ran under time allowances made by the Amorita as follows:

To the Crusader II 1 hour 30 minutes; to the Margaret 4 hours and 20 minutes; to the Marchioness, 24 hours, and the the Rosalie 45 hours and 45 minues.

Manchester Races

MANCHESTER, June 5—The Salverborough handicap of 1000 sovereigns for three year olds and upward, distance of six furlongs, was won by Sir Archibald. Deeper was second and Slive Roe third. Among the 12 starters was H. P. Whitney's Delirium

The Counter Welder handicap of 200 sovereigns, added to a sweepstake of five sovereigns for starters, distance five furlongs, was run here today and won by J. R. Keene's Wedding Bell II. Belief was second and Vail Call third. Ten horses ran.

The Devonshire plate of 500 sovereigns for two year olds ,distance five furlongs ,was won by Flinders. Avalagne was second and Lachasse third. Ten horses ran. August Belmont's Astucot II. and H. P. Whitney's colt out of Oakville Belle were unplaced in this event.

National Bowling Tournament

NEW YORK, June 5—Despite weather conditions which seemed to preclude all chances of high score bowling, the Madison Square garden contest yesterday succeeded in retaining a better average of play than on any previous day of the national tournament. More than half the contestants were out of town experts, principally from Connecticut, Indiana, Ohio and New Jersey.

Three of the leaders in the individual and two men contests were displayed as the result of the day's efforts. Shiman and Dalton of Yonkers, N. Y., took the third place among the two men teams with a score of 1218, Hoghie and Stone of Waterbury, Conn., tied for fifth place in the same event with 1211 and Charles A. Richards of Buffalo took fourth place in the individual contest with a score of 634, rolling a consistent series of three games, 215, 223, 216.

Pullman Will Remain

CINCINNATI, June 5—In all probability Harry C. Pulliam will resume the active performance of the duties of his office as president of the National baseball league in ten days or a fortnight . August Herrmann, president of the Cincinnati club and chairman of the National commission, said today: "I understand the plan is for Mr. Pulliam to visit all the baseball owners in the next ten days while the clubs are in the west and show them that he is fully recuperated in health. I think he will be back in the president's chair within a week or two. Mr. Pulliam came into town last night from Indianapolis and registered at the St. Nicholas hotel and kept himself in seclusion during the long night sessions of the magnates who were discussing his case. John T. Brush of New York was as usual openly opposed to recalling Pulliman, and was backed, it is said, by Charles W. Murphy of Chicago, but against those two there were six votes in favor of Pulliman."

Each Wins Two

NEW YORK, June 5—Chess enthusiasts in New York received cable advices from Paris last night saying that the series of four games at Paris between Dr. Emanuel Lasker, the world's champion, and D. Janowski, the leading French expert, resulted in each winning two games in the contest for a purse of 2500 francs.

Prix Bocage

PARIS, June 5—The Prix Bocage was run today at St. Ouen and won by Thoms Hitchcok's Stokes. J. E. Widener's McCann ran in the Prix Severs but failed to get a place.

MADMAN'S DEADLY WORK

EMPLOYEE IN SLAUGHTER HOUSE SUDDENLY RUNS AMOK

KILLS FIVE AND WOUNDS FOUR BEFORE BEING SECURED

SOMERSVILLE, Mass., June 5—With a maniacal yell John Murphy turned from pig-sticking to man-killing in the North Packing & Provision company's slaughter house today and driving his fellow workmen before him like a herd of sheep, slew five of them and wounded four others. Among the wounded is Dr. Daniel S. Hayes, government inspector at Waltham.

According to some of the workmen, Murphy has been acting strangely for some days, but he returned from his dinner this noon apparently in good spirits. Shortly after 2 o'clock he suddenly uttered a terrific shriek and jumped at Dr. Hayes, waving his 13-inch razor edged knife. He cut Dr. Hayes a deep gash on the neck, stabbed him over the heart and practically disemboweled him. The terrified workmen rushed for the door, but were not quick enough to escape Murphy who ran after them slashing right and left. Every man struck went down with a groan. The crowd plunged down stairs with Murphy after them and at every landing he struck somebody. On the floor one of the workmen, an Italian, seized a heavy bar of iron and felled Murphy to the floor but Murphy was quickly on his feet again and wounded another man. On the street floor he was given another terrific blow on the head and his knife was wrenched from his hands. Two police officers came in to assist the crowd and Murphy was given a fearful beating before he was finally overpowered and taken to the police station.

Murphy is 50 years old, weighs 200 pounds and was regarded as one of the strongest men in the plant. He had been engaged in pig-sticking for some years at the North company.

The wounded men were quickly taken to the Cambridge hospital where it was reported that there was very little hope of Dr. Hayes or John Cheavus, a Pole, one of the wounded workmen, recovering.

FINES FOR REBATING

Southwestern Roads Pay for Violation of Elkins Law

WASHINGTON, June 5—The department of justice was advised today that the Missouri Pacific and the St Louis, Iron Mountain and Southern railway companies had entered a plea of guilty before Judge Lieber in Little Rock, for making illegal rebates to grain merchants and were fined $15,000. This closes the prosecution in Little Rock, which includes indictments against the roads mentioned as well as the merchants who received the rebates and the former traffic officials of the companies who granted it. The latter two individuals had heretofore pleaded guilty and been fined $15,000 and $2500 respectively.

The attorney general stated today that before consenting to the imposition of the $15,000 fine against the railroads he had caused a careful examination to be made of all the circumstances under which the rebate was given and was fully convinced that the railroad companies were really, but only technically guilty of any offence against the Elkins law.

CONFERENCE ON HEALTH

Discussion of Leprosy, Tuberculosis and Water Pollution

WASHINGTON, June 5—Leprosy, tuberculosis and the pollution of streams formed the principal themes of discussion today at the 24th annual meeting of the conference of state and provincial boards of health of North America. With regard to the subject of leprosy, Dr. W. C. Woodward of the district of Columbia, chairman of the committee on national leprosy, stated that no progress had been made toward the establishment of such an institution but he argues that the dictates of humanity have upon the government almost impelling force in this connection. The absurdity of the federal government arresting lepers for violating interstate quarantine laws and regulations only to return them to their home states without having any practicable method of compelling them to remain there and the impossibility of the federal government restraining lepers without having a suitable place in which to care for them, all pointed, he said, to the absolute necessity of the establishment of a national leprosarium.

In the course of the discussion following, Dr. J. N. Hurty declared that in 1903 there were 40 registered lepers in Louisiana but that it was generally known that there were at least 150 lepers in the state. The conference was a unit in support of the proposition for a national leprosarium.

Taking up the subject of tuberculosis Dr. Joseph Foster declared that it was one for municipalities rather than the state. He advocated the education of the public in being more careful with regard to the milk supply and said that the public should "get after the milkmen."

With reference to the pollution of streams the committee appointed to consider the subject reported that as the federal government had no control over the matter many difficult problems had to be solved at the present time, but it was urged that this might be done by agreement between the states.

Johnny Kling to Return

KANSAS CITY, June 5—Johnny Kling states that he will return to the Cubs before July 1. He received a telegram from President Murphy offering him $6,000 or a full year's salary to return and he wired Murphy that he would return providing Murphy would concede a certain little demand which Kling feels sure he will do. Murphy told Kling over the wire that it is practicaly a certainty that he will wire him in two days time to join the team but before making the definite announcement he said he wanted to talk with Manager Chance.

THE EIGHTEENTH ANNIVERSARY

Today is the eighteenth anniversary of the death of sir John A. Macdonald, whose remarkable genius made the dominion of Canada as it exists today. The group of statesmen through whose efforts the original members of confederation, Ontario, Quebec, Nova Scotia and New Brunswick, were brought together have been rightfully named "the fathers of confederation" but it was sir John's master mind which brought harmony out of discord and made possible a successful termination of the negotiations. His also was the hand which guided the new nation through the first years of its existence, until the exigencies of politics drove him from office for a term. Returning to power, however, five years later he remained premier until the day of his death, June 6, 1891.

During his first years of office sir John was able to extend the dominion to the Pacific coast by the purchase of the territory lying between the Ontario boundary and the Rocky mountains from the Hudson's Bay company and by arranging with British Columbia to join the sisterhood of provinces. Out of the territory purchased from the Hudson's Bay company was at once created the province of Manitoba and about the same time Prince Edward Island was induced to throw in her lot with Canada, thus rounding the dominion off on the east as British Columbia did on the west. Within the past few years the provinces of Alberta and Saskatchewan have been formed out of the territory which sir John's government purchased from the Hudson's Bay company and there may yet be others to the north of these again.

Canadians have long ceased to regard sir John in a partisan spirit, but remember only the great work he did, not only for Canada but also for the empire, in uniting into a nation, loyal and devoted to the mother country, the various British colonies and possessions comprising what was generally known as British North America. As the years go by and the greatness of sir John's services become more widely recognized, the anniversary of his passing away will be more generally observed. In the meantime Canadians as a whole fully recognize and appreciate the greatness of mind which enabled sir John to accomplish what he did.

A COMING CELEBRATION

A movement has been started in eastern Canada to commemorate the events of the war of 1812 by some appropriate celebration three years hence, the centennary of the outbreak of hostilities. The idea is one that should appeal to all Canadians and it is to be hoped that the efforts of the promoters will meet with the success they deserve. Canada's present population has been to a large extent made up of immigration within the last 100 years, much of it within the past few years. Many of these new comers do not know that there was such a thing as a war in Canada in 1812. In the three years of that war occurred many incidents that will for all time adorn the pages of Canadian history and it is only fitting that Canadians generally should be made acquainted with them and tribute be paid to the memory of those who took part in the struggle. At Lundy's Lane, Beaver Dam, Queenston Heights, Chateauguay and in many other engagements the best traditions of the British race were upheld. Associated with the stirring events will for all time be the names of Brock, Laura Secord, de Salaberry, Tecumseh and others who gave their services and in many cases their lives to their country.

The commemoration of this struggle is not proposed in any vain glorious spirit. The object is educative and at the same time to do honor to those who fought the country's battles in the face of fearful odds. At the outbreak of the war Canada consisted of portions of what are now the provinces of Ontario and Quebec and even these were but sparsely settled, the total population being in the neighborhood of 300,000 people. Of these about 75,000 were in Ontario and 225,000 in Quebec. Opposed was the United States with a population of 8,000,000 people. In face of these odds, the colonists with the aid of the comparatively few British regulars in the country held their foes in check until the mother country, which was then engaged in a deadly struggle to overthrow Napoleon, was in a position to assist.

On the outbreak of hostilities the command in Upper Canada devolved upon sir Isaac Brock, lieutenant governor. He hurriedly put what troops he could in the field. These consisted of regulars and volunteers from among the colonists. The Indians of the country also flocked to his standard under Tecumseh, one of the ablest chiefs who ever presided over the destinies of the race in Canada.

General Brock's first big achievement was the capture of Detroit, which was defended by 2500 American regulars, while he had with him only 700 white troops and 900 Indians. The date of this victory was August 17, 1812. General Brock continued to direct operations until Oct. 13 of the following year when he met his death leading his troops against a vastly superior force of Americans at Queenston Heights. The Americans, 1500 strong, had crossed the Niagara the previous night and Brock with a force of about 300, consisting of British regulars and York volunteers, hastened against them. In the charge he was shot down, but, reinforcements arriving shortly afterwards, the Americans were driven over the cliff or forced to surrender. General Brock's tragic death made of him a Canadian national hero for all time to come.

But while sir Isaac Brock will always remain for Canadians the chief figure of the war there are others whose names will never be forgotten. Among these is Laura Secord, who with a courage and determination worthy of the bravest soldier, made a long and dangerous night march to warn the Canadian soldiers of a contemplated attack on their forces by the Americans. As a result of Mrs. Secord's clear-sightedness, energy and determination the Canadian forces were enabled to prepare for their foes and to inflict on them a crushing defeat. Then there is also Tecumseh, who gave his life in battle as a proof of his devotion to the British crown. The scenes of these exploits were all in Ontario. To Col. de Salaberry belongs much of the credit for the defence of Quebec. At Chateauguay he met a much superior force marching on his native province and in a decisive engagement put them to route. This, with the battle of Chrysler's farm, ended the American attempt to capture Montreal and Quebec.

Since 1812, Canada, as now known, has come into existence and the descendants of those who took part in this struggle have scattered from one end of the country to the other. Laura Secord, for example, has a great granddaughter living not so far from Nelson, while Judge Lampman of Victoria, is a great grandson.

While it is only right and proper that the scene of the celebration should be the part of Canada in which hostilities were waged, the people of the dominion as a whole should do everything within their power to make it a success form the successful defence of the Canada of 1812 made possible the Canada of today.

Wooden Steamer Burned

DETROIT, Mich., June 5.—The wooden steamer Iron Age, 220 feet long, was burned to the water's edge ten miles south of Bar Point in Lake Erie today. Captain Willoughby and his crew of nine escaped in a small boat but lost all their personal effects. Capt. Willoughby and his crew were brought to Sandwich, Ont., by the steamer Warner. The Iron Age was valued at $2,000 and was insured for $5,000. She was owned by her captain, W. J. Willoughby, of Whitner, Ont., and her engineer, Richard Baxter, also of Windsor. All the members of the crew hailed from Chicago and vicinity.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 38, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

HORSE SHOW IN LONDON

AMERICAN BRED ANIMALS WIN MANY PRIZES

INDIVIDUAL PRIZES RETAINED BY ENGLISH OWNER

LONDON, June 5—The international horse show, which has become an annual event in London's social season, was opened at Olympic this afternoon under the most happy auspices. The big building was fairly well filled with spectators who were roused to enthusiasm over several keen competitions among American and English horses.

In class No. 28, competition for novice tandem, exceeding 15 hands, first prize, $150, judge William H. Moore of New York carried off both first and fourth honors, with Hildegarde and Leonidas and Thaddeus and Thetis respectively. Moonshine and Virginia, owned by C. W. Watson of Baltimore received special mention in this class.

E H. Stotsbury of Philadelphia took both first and second prizes in class 15, pair of light harness horses, four years old and upward, roadsters or trotters, undecked. Ludgana and Tom were first and Lucy and Pearl second. First prize $150, second $100. Third and fourth went to American bred horses owned by Walter Winans.

The greatest interest, however, was taken in class 21, the judging of 29 novices, single harness horses over 14 hands and not exceeding 15 hands. England heretofore has been supreme in this class. The 29 entries were finally weeded out, until it was a question whether first money, $100 should go to judge Moore's mare, Phyllis or to Batina, a brown stallion owned by Alexander Bowie of London. The judges, after long consideration, declared in favor of Matina and gave Phyllis second place.

The splendid display of American horses and the elaborately decorated quarters provided for them have called forth loud praise from the newspapers and the visitors to the show.

Judge W. H. Moore's Thetis took fourth prize in class 21, for novice single harness over 15 and not exceeding 15.2 hands; there were 21 entries. In class 17, novice tandems not exceeding 15 hands J. G. Moore's Amarilla and Phyllis took first prize of $150; C W. Watson's Chatterbox and Riding Bells captured third prize of $50.

FRENCHMEN ROUSED

Colony in San Francisco Sends Message of Thanks to Prof Foulet

SAN FRANCISCO, June 5—Ambassador Jusserand, mayor Taylor and 2000 members of the local French colony, who attended a reception to the ambassador and Madame Jusserand last night, entered a vigorous protest to the statement of David Starr Jordan of Stanford university in a recent speech of Bryn Mawr college that France was a decadent nation. A telegram read to the assemblage by J. N. Dupas, president of the federated French societies, congratulating him on his protest against Mr. Jordan's remarks was sent to Prof. Lucien Foulet of Bryn Mawr, while the entire assemblage rose when asked to endorse the message to Foulet.

The telegram was as follows: "The French colony of San Francisco, assembled tonight, 2500 strong under the protecting folds of the Stars and Stripes and the Tri-color, on the occasion of the visit to San Francisco of the ambassador of France, sends warmest congratulations to Prof. Lucien Foulet, who protested with so much dignity against the insults addressed to the French nation."

Dutch Princess Christened

THE HAGUE, June 5—Princess Juliana, the infant daughter of queen Wilhelmina of Holland, was christened in the Lutheran church today. The members of the royal family and the visiting princes and princesses occupied front pews of the church. There were present also, a number of officials and representatives of the diplomatic corps. The baptismal font was of silver fashioned in the Gothic style. After listening to a long sermon, the text of which was taken from the gospel of St. Luke, her majesty presented the infant for baptism. After this ceremony the choir chanted the 24th Psalm.

Paris Awaits Spectacle

PARIS, June 5—All Paris is waiting with interest the gorgeous funeral planned for H. A. Chauchard, proprietor of the Magazins du Louvre, the big department store near the Palace Royal, who died in this city recently. The newspapers are filled today with anecdotes of the philanthropist and merchant prince, who the son of a poor country gardener, died with an annual income of $1,000,000. The original capital of the Magazins du Louvre, $200,000, never was increased and the yearly dividends on each $1,000 share have averaged $5000.

Cheating Tax Collector

GOLDFIELD, Nev., June 5—Forty-six indictments were returned yesterday against the officers of the Pittsburg Silver Peak and Florence, Goldfield mining companies of Nevada, charging that false reports had been made by them to the state bullion tax collector in connection with the output of the properties. The names of those indicted were not made public and will be withheld until the persons named are served to appear.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write to the manufacturers for publication, that others similarly afflicted may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by all Druggists and Dealers.

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent.

Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

NELSON NEWS OF THE DAY

The city council will meet at 8 p. m. tomorrow.

His Honor Judge Forin will hold chambers tomorrow morning.

Born, on June 4, to the wife of Thomas Murray, Stanley street, a son.

I. O. O. F. Kootenay Lodge No. 16 meet in Goldfellows' hall tomorrow evening.

The Brotherhood of Railway Engineers will meet this evening in the K. of P. hall, Eagle block.

The I. O. G. T. will meet in the new K. of P. hall tomorrow evening and the Juvenile Temple, I. O. G. T., will gather at the same place at 6.45 p. m.

The summer schedule of the C. P. R., in which there are many changes of importance to this district, comes into force today. The most important alterations are the earlier arrival of the Crow Boat and the running of Sunday trains to Rossland and the Boundary. The following are the changes affecting Nelson: Trains for Rossland and the Boundary will leave Nelson at 7.15 a. m. and for Rossland and the coast at 5.45 p. m. daily. The coast and Rossland and Boundary train will arrive at 4.50 p. m. and the Rossland train at 12.30 noon daily; the Slocan train will leave at 8. a. m. and return at 4.20 p. m. every day except Sunday; the Crow boat will leave Nelson at 6 a. m. as usual but will leave Kootenay Landing at 2.20 and arrive at the city wharf at 5.20 p. m. The other services remain as before.

There has been a steady purchase of seats for the San Francisco Opera company's production of "Fleodora" commencing night in Nelson since the sale opened at the opera house. Regular theatre goers appear to have been joined in this instance by a vast number of people who do not attend the theatre frequently. This is regarded as an indication of interest even more striking than when there is a big sale confined to those people who make it a point of seeing all the high-class shows which come along. The splendid talent comprising the San Francisco Opera company is well known and the extraordinary record of "Fleodora" has certainly preceded it here. The result will undoubtedly be manifest in an audience of imposing size.

Why not try a load of fine dry kindling from the shingle mill, $2, delivery extra. 36-6

Business Announcement

Mr. E. E. Robinson has taken over the Jewelry and Watch repairing business formally carried on by Mr. H. Wilsey at 417½ Baker street.

Mr. Robinson is no stranger to Nelson having been associated with the firm of R. H. Ewert as watchmaker for three years, during which time he made a host of friends. He is also an active member of the Boat club and 102nd Regiment, having represented the latter along with Col.-Sergt. Teague at the Quebec tercentenary. Mr. Robinson has had a wide and varied experience in the watch, jewelry and optical trade, having worked in some of the largest stores on the coast and in Alberta, notably among others being C. E. Redfern of Victoria and Armstrong Bros. of Vancouver and W. E. Black of Calgary, so patrons may rest assured that any work left in his care will receive his personal attention. It is Mr. Robinson's intention to put in a complete and up-to-date stock and to add a first class optical parlor to the establishment.

Men, as well as women, like to be well dressed, but many of them don't know how to go about it.

The majority of Clothing stores can't help them much, either—they clothe them, 'tis true—but they certainly don't dress them.

That's Where This Store Comes In!

We dress Men well—we spare no pains to do it.

Clothes quality, these days, counts for as much as price in the way of an inducement, when asking for patronage.

If you care for Clothes excellence, Sir, come here.

Exclusiveness and excellence in Hats and Haberdashery.

TROUSERS

All trousers are not like cugs. Hundreds of poor trousers walk about our streets every day. Prominent men, too.

New spring fabrics alive with style, correctly cut and tailored by men that know how

$3.00, $4.00, $5.00 to $8.00

Nothing startling about our prices—they sound like the trouser prices of other stores—but just call and see how very different the trousers are. That's what counts.

UNREST IN SYRIA

Local Troops are Being Replaced by Macedonian Corps

BERLIN, June 5.—A special correspondent of the Berlin Tageblatt, after visiting Mersina, Adana, Alexandretta and Antioch, telegraphed his paper from Aleppo today saying that the country is extremely quiet, but that everywhere there is anxiety with reference to the near future. Armenians and Syrians are leaving by hundred while importers are cancelling their orders. Martial law will be declared as soon as the Constantinople government sends reliable troops, after which the reactionaries and separatist movement will be tried before military courts.

The Syrian army corps, the correspondent continues, is being replaced gradually by Macedonians but in spite of these measures the fears of an insurrection are general and every man goes armed. The local branch of the Ottoman Bank has transmitted the sum of £30,000 to manufacturers of arms for this section alone.

BRADSTREET'S REPORT

Canadian Trade Fairly Good, Especially in the West

MONTREAL, June 5.—Bradstreet's report on the state of trade today says in Canada warm weather has favored the retail trade and crop growth. In the western section wholesale trade is satisfactory but in the east demand for goods is not any too good. Conditions, on the whole, are only fair. Bank clearings for the week ending with June 3 in the aggregate are $104,254,000, 26.5 per cent. over last week and 29 per cent. over last year.

Business failures for the week were 28, which compared with 22 last week and 22 last year.

The weekly bank clearings are as follows:

NELSON NEWS OF THE DAY

The temperature in the city yesterday ranged between 46 and 67 degrees.

There will be a practice of the Eagle baseball team at the recreation grounds at 10 o'clock this morning.

The prize list for the Nelson annual fruit fair in September is now in course of preparation and will be issued about the beginning of next month.

The Lindsay Boat and Launch company's gauge at 4.30 yesterday morning registered a depth of 12 feet 7½ inches, a rise of 8½ inches during the 24 hours.

Every member of C. company, 102nd regiment, is expected to turn out in drill order at 8 p. m. Monday evening. It is important that there should be a full turnout.

William Hamilton, arrested by special constable George Gunn on Friday night on a charge of begging, was yesterday morning sentenced by police magistrate E. A. Crease to 30 days in the provincial gaol.

It is proposed that among the attractions at the Dominion Day celebrations should be a Marathon race and also championship races up to five miles for amateurs and up to 15 miles for professionals. The distance for the Marathon race has not yet been decided but it will probably be from five to ten miles. Athletes in the city who will take part in

ment to F. A. Starkey, president, or Capt. D. C. McHorse, secretary, in order that the necessary arrangements may be made.

Rev. Newton Powell, pastor, will preach at both services in Trinity Methodist church today. In the evening there will be a service for the reception of new members followed by the Sacrament of the Lord's Supper.

The ladies appointed by the Charity Organization to take charge of the distribution of food and clothing during this month are: Mrs. W. G. Rose and Mrs. W. R. Dewitt to whom all applications for assistance must be made.

Mr. and Mrs. Edward Hodgson of Fairview desire to express their thanks to the many friends and acquaintances and the school mates of their late son Fergusson who have so kindly extended sympathy to them in their recent bereavement.

Changes have been made in the hours of Sunday school service in St. Paul's Presbyterian church for the summer months. Commencing today the men's bible class will meet at 10 a. m., and the Sunday school at 12.30 p. m.

Rev. Thomas Crerar of North Leith, Scotland, will speak at the men's bible class in St. Paul's Presbyterian church at 10 o'clock today and will also preach at the evening service in that church. At the evening service Miss Knott will sing Cowen's "Better Land."

A telegram published in a Vancouver contemporary a few days ago stating that a new branch of the Canadian Bank of Commerce had been opened at Naksup, with J. L. Buchan as manager, is incorrect inasmuch that Mr. Buchan, manager of the bank here, is merely in charge at Naksup until a resident manager is appointed.

The highest score at the shoot of the Nelson Gun club yesterday afternoon was made by G. S. Rishi of the U. M. C. A. Cartridge company, who made 45 hits out of a possible 50. The next highest scores were made by George P. Wells and C. H. Ink who tied with 44 each. As Mr. Rishi is not a member of the club the gold trophy fell to Messrs. Ink and Wells. The silver button was won by W. Davidson with a tally of 40 hits. The full scores were as follows: C. H. Ink, 44; W. A. Ward, 39; G. P. Wells, 44; C. S. Rishi, 45; H. Grubb, 35; W. Davidson, 40; C. Larson, 33.

Miss Coates returned to the city yesterday afternoon after spending a week at Proctor, visiting her cousin, Mrs. Bourne. She was accompanied by her nephew, Master David Douglas.

George Alexander of Kaslo, who has just returned after a winter spent in the old country, came in last night on the Crow boat and is staying at the Strathcona.

The washouts on the Kaslo and McGuigan line are of such magnitude that it is feared that it will be impossible for train communication to be re-established between these two cities for three or four weeks.

The C. P. R. have made arrangements for a special train from Brillant to Grand Forks on Tuesday next for the purpose of carrying 300 Doukhobors in the land near the latter city lately purchased by Peter Veregin for his countrymen at a cost of $30,000.

A. Wike, who narrowly escaped drowning on Friday night, was rescued by S. Mathesen of the steamer Kaslo, who hearing cries for help, secured a raft, no boat being available, and paddled out. A short distance from the steamer he discovered an overturned canoe and after a search discovered Mr. Wike and succeeded in taking him on board.

The following are the announcements in connection with St. Paul's Presbyterian church for this week: Tuesday, 3 p. m., Young People's society, devotional meeting; Thursday, afternoon, from 3 p. m., and evening, reception at Mrs. Angus Shaw's ranch; Friday, 3.30 p. m., Women's Foreign Missionary society; 7.30 p. m., rally and praise meeting; 8.30 p. m., choir practice.

The coast train arrived in the city early this morning for the first time since the washouts on the main line west of Revelstoke caused by the heavy rain of Tuesday night and Wednesday morning. There were a very large number of passengers on board and several days accumulated mail. The main line is clear of all trouble and the regular service will be resumed from now onwards. The Crow boat was four hours late last night. Three hours of this time were lost owing to the large amount of driftwood and floating logs on the main lake which seriously impeded the passage of the Kuskanook. The Great Northern railway will probably run a train as far as Ymir tomorrow and possibly will be able to recommence their Spokane and Nelson service.

Lorne A Campbell of Rossland is a guest at the Strathcona.

J. Anderson and A. R. Hayland of Kaslo are at the Strathcona.

The winning number in the draw at Weir's shoe store last night was 275.

A social dance was given last evening at the Granite mine at which a large number of residents of this city were in attendance.

Mr. and Mrs. R. Dudley came in from Fernie last night and are staying at the Home. Mr. Dudley is connected with the Crow's Nest Pass Coal company.

The city police court was occupied for over two hours yesterday morning on an assault case in which a Hindu named Ojagr Singh appeared as plaintiff against T. Midgeley and J. Rogbry. All parties were employed at the Yale-Columbia company's mill here. The story told by the plaintiff was that he was accused by one of the white men of leaving work too early. Recriminations followed and resulted in a free fight in which the second white man and several Hindus took an active part. Ojagr appeared to be the only one of the combatants suffering any injury, his face being cut slightly. Magistrate E. A. Crease, after evidence given by a number of witnesses and Hindus bound over both the plaintiff and the defendants to be of good behaviour for 12 months and ordered them to provide sureties of $100 each.

RELIGION IN RUSSIA

No Liberty to Change for Members of Orthodox Church

ST. PETERSBURG, June 5.—Premier Stolypin spoke in the Duma today in defence of the government's draft of a law dealing with the matter of changing from one faith to another and against the motion for removing all restrictions imposed on the orthodox church, which could not suffer backsliding from Orthodox to non-Christian beliefs and that if such amendments are incorporated the bill would be vetoed. Continuing, he defined the relations between church and state. He conceded that the church enjoyed full independence in matters of creed and dogmas, but insisted on state control. His speech was a brilliant effort, but it fell upon cold ears and brought out no applause. The premier, for the first time in the history of the third Duma, found himself fighting for a lost cause before an adverse house. The classing by the premier of persons of the Jewish faith and Mohammedan with heathen excited indignation among the centrists and progressives, many of whom are Jews and Mohammedans.

Strikers Starve Corsica

BASTINA, Corsica, June 5.—The populace of the Island of Corsica is in dire assaults for the necessities of life by reason of the strike of Marseilles sailors, which has been the means of cutting off their main source of obtaining supplies from the outside world. In addition, the strike of the railroad men has now been going on for a month.

Roosevelt Without Water

KIJABE, British East Africa, June 5—The Roosevelt party left here at one o'clock today for the Selik district. Between Kijabe and the objective point there is a waterless tract that it will take two days and a half to cover. Water for the expedition will be carried in ox wagons in charge of a settler. The moon is at present full and the nights are bright. This will enable the party to travel day and night with scarcely a stop until water on the other side is reached.

Cuba Safely Launched

WASHINGTON, June 5 — President Taft today transmitted to congress with a special message the report of Charles E. Magoon, who served as provisional governor of Cuba during the last American occupation of the island. The president takes occasion to congratulate governor Magoon for his services both in the United States and in Cuba and gives high praise also to major general Barry, who was in command of the United States forces. The message concluded: "At a fair election held under the advisory commission, with new election laws, general Gomez was elected president and he has begun his administration under good auspices. The new government will grow in strength and self sustaining capacity under the provisions of the Cuban constitution."
