NEW MINISTERS ARE SWORN IN

Hon. W. R. Ross Is Now Minister of Lands

M'PHILLIPS SUCCEEDS CARTER COTTON

Nominations in Fernie October Twenty-First—Election Twenty-Second

(Special to The Daily News.)

VICTORIA, Oct. 10—The re-construction and permanent completion of the cabinet of Premier McBride was satisfactorily consummated today when the lieutenant governor received all members of the government with the exception of Hon. Thomas Taylor who is now touring the provincial interior. The Hon. W. R. Ross, K. C., the Hon. Price Ellison and the Hon. A. E. McPhillips, K. C., were formally sworn in as lands minister, minister of finance and agriculture, and president of the council. Mutual congratulations followed the formal ceremony.

Carter-Cotton Resigns.

At an earlier sitting of the cabinet the resignation of F. L. Carter-Cotton, president of the council, Hon. W. J. Bowser as minister of finance and agriculture and Hon. Price Ellison as chief commissioner of the department of lands were duly accepted.

Fernie By-election.

It is understood that the new lands minister, Hon. W. R. Ross, will return forthwith to his home in Fernie where the by-election necessitated by his acceptance of the portfolio will be brought on without delay, the nomination being fixed for Friday 21st, inst. and the election, should his constituents not decide to return him by acclamation, taking place the following day, Saturday the 22nd.

President of the Council.

Hon. Mr. McPhillips was attorney general of the first Conservative administration of British Columbia in 1903 resigning his portfolio on meeting defeat at the polls. A staunch Roman Catholic, he takes much interest in church matters and devotes a considerable portion of his valuable time to charitable and benevolent work as honorary counsel to the Children's Aid society of Victoria and to the work that is being accomplished under the Children's Protection act. A steadfast liberal conservative himself, he consistently maintains that the best results in and for Canada and its provinces are, under present conditions, to be obtained by uncompromising allegiance to the established political parties. He has been member for the Islands constituency since 1907 and is 49 years old.

Minister of Lands.

W. R. Ross, M.A., K.C., M.P.P. for Fernie, who has received the portfolio of minister of lands, was born in 1859 at Fort Chipewyan, Athabasca. For two or three generations his father's family were employed by the Hudson Bay company. Mr. Ross was educated at St. John's college, Winnipeg, and was first elected to the provincial house from Fernie in 1903. In 1909 he was re-elected by a large majority.

Big Gun Range.

(Special to The Daily News.)

VICTORIA, Oct. 10—At this afternoon's meeting of the provincial cabinet, the first executive session at which Hon. Messrs. McPhillips and Ross have taken their places as president of the council and lands minister respectively, an application from the British admiralty for the setting aside of Goose Pit, Comox district, as a permanent rifle and big gun range for imperial and Dominion requirements, obtained consideration. As is well known throughout the province the locality in question has been the big gun practice point of the admiralty during some time past. As a result of the application, the government has, by order in council, placed Goose Pit under a permanent reserve for the sole use of his majesty's government for military and naval purposes.

For Fire Fighting.

(Special to The Daily News.)

VICTORIA, Oct. 10—A special warrant was authorized at today's executive providing for extraordinary appropriation of $125,000 to cover the unanticipated high cost of fire fighting throughout the province during the recent dry weather. The unusually long delayed arrival of the autumn rains considerably disarranged the departmental estimate as to the season's cost in suppressing or preventing forest fires. The sum of $75,000 was voted for this purpose by the house last session.

CUBA OBSERVES NATIONAL HOLIDAY

HAVANA, Cuba, Oct. 10—This being the forty-second anniversary of the beginning of the 10 years' war for independence (1868-78), the day was observed as a national holiday in Havana and elsewhere throughout the republic. In this city the celebration was marked by considerable enthusiasm.

COUNCIL HEARS LAST ARGUMENT ON BYLAW JUDGMENT

City Solicitor Refuses to Give Opinion—Mr. Davis Advises Appeal—All Three Documents Filed.

The text of the judgment by Chief Justice Gordon Hunter, quashing the Nelson saloon bylaw, was read at the session of the city council last night, together with letters from the city solicitor, A. M. Johnson, and from the counsel who argued the city's case at Victoria, R. P. Davis. The text of the judgment confirms completely the brief dispatch published, which stated that the bylaw was upset on the ground that a power to regulate did not include a power to prohibit. The letters from the two solicitors were particularly interesting, the city solicitor disclaiming any responsibility for the bylaw and declining to give an opinion on its merits, and the associate counsel advising an appeal.

After the reading of the two letters and the judgment, a discussion of but a minute or two followed.

Alderman McDonald said it seemed very strange if the people could admit saloons, and then could not exclude them. As the introducer of the bylaw, he was not satisfied with the judgment. He expected to pay a visit to Victoria and Vancouver, where he would interview some people who knew as much about law as any in Nelson. In view of this, as the city had three months within which to file an appeal, he advised waiting a month before taking further action.

Alderman Carrie said Mr. Davis had expressed a doubt as to the result of an appeal if it should be made.

Alderman Rutherford said he thought he appreciated Mr. Davis' point. His contention was that they would not be prohibiting the sale of liquor in prohibiting saloons.

The letters and the judgment were ordered filed.

Mr. Johnson's Letter.

Mr. Johnson wrote under date of yesterday as follows:

"Re Blomberg v. City of Nelson.

"I beg to enclose you herewith copy of a letter received from Mr. R. P. Davis, K.C., and copy of the reasons for judgment of the honorable the chief justice.

"In reply to your letter of even date in which you wish my opinion, I beg to point out that, I did not draw the bylaw in question; that I was never consulted as to its legality or otherwise, or asked to express my opinion thereon; that Mr. R. P. Davis, K.C., was retained by the council to defend the bylaw; and in view of the considered judgment of the chief justice of British Columbia, and Mr. Davis' advice to the city thereon, I do not consider it encumbent upon me to express an opinion.

"As to the probable costs incurred by the city to date: in giving you any figures I can only hazard a guess. The applicants' costs will probably be taxed at $300 or $400, and the additional costs that the city has already incurred largely depends upon the fee Mr. Davis charges."

Mr. Davis' letter to Mr. Johnson, under date of October 4, from Victoria, was as follows:

"Re Saloon License Bylaw.

"As I wired you yesterday from Victoria, the argument of this motion was heard before the chief justice, and at the end of the case he gave an oral judgment quashing the bylaw. I asked the stenographer to send you a copy of the judgment.

"As you will see, the ground taken by the chief justice was that a power to regulate did not give a power to prohibit, does not deal at all with one of the principal arguments in favor of the bylaw, which was that providing that liquor could not be sold in a saloon is merely a condition imposed on the exercise of the liquor traffic by the municipality under the powers conferred on them by section 35 of the act.

"The matter is not entirely free from doubt, but as I wired you from Victoria, I advise an appeal."

His Lordship's Judgment

The judgment of his lordship, Chief Justice Hunter, was as follows:

"In the supreme court of British Columbia, in chambers before the honorable the chief justice, Victoria, Monday, October 3, 1910, in the matter of the bylaw No. 207 of the municipality of the city of Nelson, B. C. between John Blomberg, of Nelson, B. C., appellant, and the Municipal Corporation of the City of Nelson, B. C., respondents.

"Hunter C. J.—This is an application to quash bylaw passed by the city of Nelson. The portion of the bylaw which it is sought to quash, is that which deals with saloons, and enacts (repealing the former provision limiting the number of saloons to six) which reads, (b) that 'No license for the purpose of vending spirituous or fermented liquors by retail (commonly called saloon licenses) shall hereafter be issued in the city of Nelson.

"A somewhat formidable list of objections has been filed against the validity of this enactment, but as the first one which has been brought to my opinion fatal, it will be unnecessary to consider the others.

Cannot Expand Power.

"It has been held over and over again that a power to regulate cannot be ex-

(Continued on Page Five.)

RAILWAY CAMPS BEING ESTABLISHED

Between Rock Creek and Midway—Railway Hospital Also—Clearing Right of Way.

GREENWOOD, Oct. 10.—There are 225 members in the Greenwood Miner's union.

Rev. J. A. Bedard is in Spokane upon business.

The annual meeting of the Curling club will be held upon October 17.

Mayor McIntosh will return from Chicago this week.

A Chinese boy attends public school in Greenwood.

Bennett Bros. have started a blacksmith shop at the mouth of Rock creek.

Business is improving in Greenwood and the vacant houses are filling up.

James Blake, C.P.R. engineer, was married in Medicine Hat last Wednesday to Miss Lena Corbett of Eholt.

Railway Camps.

Two railway camps are being established between Rock creek and Midway.

A railway hospital is to be built between Rock creek and West bridge. It will be in charge of Dr. Maclean.

Peck McIlwain has left Merritt and gone south for the winter.

George Heatherton is in Kimberley auditing the books at the local union.

David McIlath and Alex. McPherson have the contract for clearing the right-of-way for the Kettle Valley railway between Rock and Bull creeks.

After a residence of 17 years in this district Randolph Stuart has gone to live in Victoria.

The license of the Windsor hotel at Denver has been cancelled. The authorities thought it was not necessary to have a licensed hotel in that camp.

William Rowe is superintendent of a coal mine at Lund creek, Alberta. He moved his family to Nelson this week.

VILLAGES ENGULFED IN CYCLONE OF FLAME

Terrible Tales from Fire-Swept District—Settlers Hemmed by Raging Fires Without Hope of Escape—Whole Families Wiped Out, Hundreds Missing—Constable Murdered by Unwilling Fire Fighters—Horrible Sufferings of Refugees--Loss Amounts to Millions of Dollars-Finding the Dead

WINNIPEG, Oct. 10—The first Canadian Northern train in several days reached here at 11:05 this morning from Fort Francis, this being the Duluth special. Traffic has thus been resumed through the fire swept zone but through traffic has not yet been established from Fort Francis east to Fort William. Telegraph communication has, however, been restored, the wire being strung along trees in sections where the poles are burned. A number of refugees were on the train but although local charity associations had made preparations for receiving the injured, none of these were brought in, temporary hospitals having been established at various points near the scene of the calamity.

Help for Rainy River

Among the passengers were W. A. Preston, M.P.P., who is wiring the Ontario government from here asking for help for Rainy River. He says the wind has dropped and everything is under control, but if the wind should happen to change Rainy River must be destroyed.

Fire Appliances Dispatched

Fort Francis sent up all the fire appliance they could spare and big gangs of men have been contributed from all along the line to stem the tide of conflagration at the Canadian boundary. A regiment of state militia arrived at Beaudette and have taken charge.

Loss at Rainy River

At Rainy River the Rat Portage Lumber company's mill is practically an entire loss to date, value $150,000.

The Rainy River Lumber company's plant and 40,000,000 feet of lumber is intact.

New Beaudette and New Spooner are wiped out, but both the old towns are saved.

The Shelvin-Matthieu mill, valued at $300,000, together with 50,000,000 feet of lumber, the biggest lumber pile on the continent, the plant being located at the junction of the Beaudette and Rainy rivers, has also been saved, owing to the splendid fire fighting appliances of the mill.

Seventy-Five Dead

Seventy-five dead are gathered in the morgue at Beaudette. J. K. Cameron, general superintendent of the Canadian Northern says the published reports of the total dead being 500 are probably conservative. He returned from the scene of the disaster on the special train this morning.

Fate Unknown

If the fire has reached Rapid River not a settler can have escaped and the loss will be great. It will be a month before a list of the total deaths will be available and even then the fate of many transient laborers in mills may never be known.

Seven Towns Gone

WINNIPEG, Oct. 10—Seven towns, Beaudette, Spooner, Graceton, Pitt, Cedar Spur, Swift and Roosevelt have been wiped out. Five hundred persons are reported to have perished, and the death roll may total 1000.

Fifty houses and two mills are burned at Rainy River and several hundred persons are homeless. Lumbermen declare the loss of standing timber will total many millions. John Solvin, his wife and three children were burned to death while seeking safety.

Take Refuge in Water

John McAnnany and Fred Becks spent the night in the river, submerged to the neck to escape the flames. The state fire warden is mustering every man he can procure to fight the flames. Winnipeg sends 13 men, two engines and 3000 feet of hose in response to an appeal from Warroad.

Bridge Burned

Winter Road bridge is burned and a freight train plunged through, a drop of 20 feet. All traffic around the town of Rainy River is tied up. Conductor Edward Monahan of the Canadian Northern gives a graphic description o fire conditions in northern Minnesota

Constable Murdered

Constable Walter Farrel was murdered by unwilling fire fighters at Rainy River yesterday.

Cyclone of Fire

INTERNATIONAL FALLS, Minn., Oct. 10—It was a veritable cyclone of fire that struck the village of Pitt at 2 p.m. yesterday. The wind was blowing 70 miles an hour and the flames leaped from tree to tree with the speed of a hawk. It continued blowing a cyclone until 8 p.m. when it hit Beaudette and 15 minutes later it struck Spooner. Between the towns, a distance of 15 miles was a solid sheet of flame, 100 feet high. Men dropped in the streets from inhaling the heated air and were blown off their feet by the high wind. The exodus from these

(Continued on Page Five.)

BY-ELECTION LIKELY ALSO IN YALE

Premier Will Resign Seat in that Constituency

A. LUCAS MENTIONED AS CANDIDATE

Jos. Martin Expresses Opinion of Ralph Smith—Unsatisfactory Organizer

(Special to The Daily News.)

VANCOUVER, Oct. 10—It is understood here that when the by-election of Fernie for Hon. W. R. Ross' seat takes place a contest in Yale will also occur through the premier resigning for that constituency. The names spoken of as possible Conservative candidates are A. Lucas, late provincial assessor of Kaslo; J. H. Anthony of Lytton, H. H. Matthews of Nicola, S. Infanosy of Merritt and Al Balyea of this city. It is understood that Stuart Henderson will again stand for the Liberals.

Joseph Martin Pays Respects.

Commenting on the report that Ralph Smith, M.P., has been chosen as provincial organizer of the Liberal party, Joseph Martin, M.P., today spoke as follows:

"I may say that I do not think it possible to pick a man to take charge of the fortunes of the Liberal party locally in British Columbia that would be more unsatisfactory than Ralph Smith, M.P. The party is almost obliterated here now for reasons I have given elsewhere, but the appointment of Mr. Smith as provincial leader would make it, I think, quite impossible to carry a single seat in the province. In 1900 when I went to the country Mr. Smith personally took pains to bring out two labor candidates in Vancouver and by so doing succeeded in defeating two of our candidates here. The Liberals of Vancouver who supported me then will never forget this and will see to it that Mr. Smith does not forget it when election time comes around.

The Kelly Graft.

"Later on in the same year the Dominion campaign started and Chris Foley ran as labor candidate against W. A. Galliher in Kootenay. Mr. Smith went through that constituency supporting Mr. Foley and denouncing Galliher and the Liberal party. This act will not be forgotten by Liberals in the upper country but the principal reason why Mr. Smith cannot unite the Liberal party, but will, if possible, rend it farther asunder, is because he has been for years, and is today, the chief supporter of what is known as the Kelly graft in British Columbia politics. Until corrupt arrangements which contaminate the Liberal party in Dominion politics so far as British Columbia is concerned, are wiped out, the party can have no hope for Liberalism either in Dominion or local elections. This corrupt arrangement is maintained at Ottawa through the influence of Hon. Wm. Templeman and Ralph Smith, and independent Liberals will not disgrace themselves by being associated with it and will take an early opportunity of showing their hostility to Mr. Smith or to any other member of the gang who may be proposed as their leader."

HUMANE CONGRESS

WASHINGTON, Oct. 10 — Delegates from the principal countries of Europe and America are in Washington to take part in the International Humane congress. The sessions were formally opened today and will continue until the end of the week. The American Humane association, of which President Taft is honorary president, is the host of the congress. The proceedings of the first three days are to be devoted exclusively to subjects relating to children and the remaining three days to animals. One of the interesting features of the gathering is an exhibit of many articles of interest in connection with the movement for the protection of children and animals.

FREE SITE TO SHINGLE MILL

Exemption from Taxation for Five Years Also

ALD. RUTHERFORD AND HIS BYLAW

City Council Has a Great Session—Crusher to be Put in Shape

The city council last night held one of its longest sessions of the year, as well as one of the most business-like. The pressure of business was such that there was no time for oratory. The council heard an application from W. H. Kreyscher and associates, for encouragement toward building a shingle mill and box factory and decided to give the enterprise most substantial encouragement. The sum of $100 was voted, to advertise Nelson at the National Apple show at Vancouver. Ald. Rutherford's health bylaw for children was submitted in preliminary form, and preliminary work was done on his bylaw revising the scale of license fees. Various other matters of some importance were also discussed, besides the status of the saloon bylaw matter, which is reported in another column. Those present were Mayor Selous, and Aldermen Rutherford, McDonald, Mackenzie and Carrie.

Assistance to Industry.

Mr. Kreyscher wrote as follows, under date of yesterday:

"Gentlemen,—Acting for myself and associates, I beg to apply for a renewal of my lease, covering the old shingle mill site, and for a lease of the ground formerly occupied by the Kootenay Engineering works.

"Provided we can get favorable terms from your honorable body, we—myself and associates—amply provided with capital, will at once incorporate as a company, and erect soon as possible a box and shingle factory—a first-class building, modern in every respect, and built to conform to the standard of the British Columbia Fire Underwriters' association. Our industry when in full swing will employ an average of 20 men.

"We will need at the maximum about 50 horsepower of electricity from the city and ask for such free from the city of Nelson for one year, and exemption from taxes for five years.

"It is proposed to start at the earliest possible date, and I am asked to request you to kindly take the matter up at once, if convenient. If you see your way clear to grant this request as above, kindly advise me without delay and in your letter of advice quote the lowest possible rate at which you will let us have the power needed, after the first year."

In the discussion on this matter, it was found that the council were unanimous in the opinion that the city should give all reasonable assistance to this enterprise, but the majority were against two sites and against free power. Mayor Selous recounted the conversation which Mr. Kreyscher and I. G Nelson had had with him in which he had advised them to apply for one or other of the sites, and had held out hopes that the council would give them a site and the requested tax exemption. Ald. Mackenzie held out at first for two sites, declaring they were necessary, but Mr. Kreyscher himself arrived later and after the matter was discussed fully between him and the council, Ald. Mackenzie agreed to one site. Ald. Rutherford said if he could be convinced that the proposed company had responsible backing, and could give good guarantees that it would carry out its part of the agreement for five years, he would be prepared to grant not only the free site and tax exemption, but also free power for a year. Appeal to R. A. Brown, city electrician, showed that the giving of this power would involve the purchase by the city of two new transformers. Mr. Brown pointed out that the power line to the waterfront group of big consumers had cost

(Continued on Page Four.)

LITTLE HOPE FOR ENTOMBED MINERS

Workings Badly Wrecked and Rescue Party Encounters Poisonous Gasses—Abandon Hope.

STARKVILLE, Col., Oct. 10—Entombed by an explosion in the Starkville mine of the Colorado Fuel and Iron company, at least 52 men are the objects of heroic efforts of rescuers who worked throughout the day trying to penetrate the black depths of the mine in the hope that some or possibly all the imprisoned miners might be rescued.

Gloom Returns.

As darkness settled tonight over the entrance of Starkville mine the hope that buoyed up the watchers at the pit mouth throughout the day that some of the 50 or more men entombed there would be found alive grew faint and gloom settled again over the silent crowd. This morning the experts at the head of the rescue party were confident that some, walled in by Thursday night's explosion, were alive. They believed the portable fan forcing pure air into the workings would keep the men in the extreme southern part of the mine alive until they could be reached, but as the day rescue party stumbled slowly out of the slope tonight one glance at their faces told the watchers that hope was almost vain.

Badly Wrecked.

After a day of hard work in the face of constant peril, the rescue party penetrated the mine workings nearly 1200 feet or within 900 feet of the men imprisoned nearest the main entrance. Instead of finding the mine clear of gas and afterdamp at this point, the workings were found badly wrecked and poisonous gases were encountered. The leaders would not consent to the rescuers going further until sufficient fresh air had been fanned into the mine to insure safety. It was decided to retreat to the open, leaving the portable fan going until the interior of the mine was freed of deadly afterdamp.

PASSENGER AGENTS MEET

DALLAS, Texas, Oct. 10—The annual convention of the American Association of Passenger agents assembled in Dallas today, with George W. Andrews of Seattle presiding. Representatives of the leading railways of the United States, Canada and Mexico are attending the convention and the topics suggested for discussion cover a very wide range of subjects. At the initial session this morning the association discussed the effect of passenger traffic on the general development of the country.

ORGANIZATION OF THE STUDY CLASS

Officers Are Elected and Numerous Committees Are Appointed—Work Commences Next Sunday

The Y.M.C.A. bible study class held a meeting on Sunday afternoon for organization. Owing to the great interest being shown in this class by the young men, it was decided to organize on broad lines.

The following officers were elected: President, Ed. Ballie; vice president, T. H. Waters; secretary-treasurer, Jas. Thompson; lookout and membership committee, T. D. DesBrisay, chairman, T. H. Waters, W. Kettlewell, W. B. Willan, B. K. Strachan; devotional committee, S. Acheson, chairman, T. Bishop, G. S. Rees, E. Baillie; social committee, J. Laing Stocks, chairman, D. Small, P. L. Joy, R. H. Irwin; musical committee, W. Anderson, chairman, Mr. Keyes, J. Banks, J. W. Young, G. Hardy.

Next Sunday afternoon at 4 o'clock the members of the class will commence their studies of "Men of the Bible." All men are invited.

PUT BANK OFFICIALS INTO VAULT

Grocer Sees Daring Bank Robbery in Vancouver—Crowd Respectfully Watches Robbers Depart.

(Special to The Daily News.)

VANCOUVER, Oct. 10—A daring robbery was perpetrated in the east end on Park Drive, the principal street in the east end of the city, late on Saturday night. As Messrs. Huggett and Jardine, the staff of the branch of the Royal Bank, were preparing to close up after Saturday evening, two masked men armed with a rifle and revolver, suddenly entered and at the point of the weapons forced the bank officials into the vault. One man closed the door and stood guard while the other cleaned up all the money in sight, about $500. The vault door was then opened and the officials told they might come out, the robbers coolly taking their leave. The entire incident from start to finish was seen by a grocer across the street who sent in a hurried call for the police and when the robbers came out a number of pedestrians had gathered at the door of the bank, respectfully standing back as the masked and armed men emerged and went down Park Drive into the darkness. The police arrived a few moments later in answer to the 'phone call, their auto being detained en route by getting into a sewer trench. They have so far obtained no trace of the robbers.

PREMIER SAYS WHITE LABOR ONLY

Grand Trunk Pacific Asks to Employ Asiatics

APPLICATION IS FIRMLY REFUSED

Government Points Out That Plenty of White Labor is Available—The Plea

(Special to The Daily News.)

VICTORIA, Oct. 10—An application of unusual significance and importance came before today's executive being made by the G. T. P. railway company through its solicitor Mr. D'Arcy Tate being for an order-in-council to permit the employment of Asiatic labor on the construction of the G. T. P. in British Columbia. The application was accompanied by a newspaper clipping from the Manitoba Free Press of the 14th ultimo, the gist of which was chiefly the alleged scarcity of labor in this westernmost province and its interference with the natural and desirable progress of construction activity. This article stated, as confirmed by President Charles M. Hays, that such is the labor situation in British Columbia, and so acute the feeling against the utilization of other than white labor that it has been found impossible to carry on construction within British Columbia beyond the completion of the present contract held by Foley, Welch and Stewart to a point 238 miles east of Prince Rupert. The contractors mentioned, it was further alleged, had declined to take on any more work from the British Columbia end claiming that under the present conditions they are even now losing hundreds of dollars daily under their contract. Supporting the application, the railway company's solicitor by correspondence urged that under the contract between the company and this province bearing date of Dec. 29, 1908, and relating to the exclusive employment of white labor in the construction of the railway through British Columbia, a reservation was made by which the government might sanction an abrogation of the white labor clause in the event of an insufficiency of white labor not being found available. This formal application, it was urged by D'Arcy Tate, was made in pursuance of an interview had at Victoria on the 2nd ultimo between the premier and the attorney general representing the province and Messrs. Hays, Smithers, Chamberlain and Tate on behalf of the company, at which Mr. Hays stated that if permission were accorded for the employment of Asiatic labor he would enter into an undertaking not to employ such labor while white labor was available, and further to give employment to all white labor offering for purposes of construction work at current rate of wages.

Government Declines.

After careful consideration the government decided to refuse the application as being inconsistent and distinctly at variance with its well known policy of conserving British Columbia, its resources and its industrial opportunities for white people. The premier in particular pointed out that railway construction in the adjacent states being at present at a standstill, there must naturally be a considerable number of workmen in the interior who would be glad to come to British Columbia for profitable railway construction work and who would also very probably remain as good and permanent citizens.

CUYAHOGA COUNTY CELEBRATING

CLEVELAND, Oct. 10—A week's celebration of the centennial of Cuyahoga county was ushered in this morning with the firing of salutes, the ringing of bells and the blowing of whistles. The entire city is handsomely decorated in honor of the occasion and thousands of visitors are already here to share the festivities. The dedication of the new $1,000,000 court house will be one of the big events of the celebration. Street pageants, a water carnival, fireworks, historical exercises and aeroplane flights over Lake Erie will fill out the week.

NEW THEATRE IN PORTLAND.

PORTLAND, Ore., Oct. 10—The new Heilig theatre, one of four new playhouses recently completed or now under construction in Portland, opens its doors tonight with Viola Allen in "The White Sister" as the initial attraction. The Heilig cost $150,000 and is the finest theatre in the city.

AMERICAN ROYAL STOCK SHOW

KANSAS CITY, Mo., Oct. 10—The annual American royal stock show opened in the big pavilion at the stock yards today and will continue throughout the week. The entries this year run up into the thousands and come from many parts of the United States and Canada.

SALMON FISHING SPORT AT POOL

Three More Fish Caught Sunday—Big One Last Saturday Afternoon—Fight Lasts Over an Hour

The report that the pool at Slocan Junction is alive with salmon and fighting salmon at that, is amply confirmed by the occurrences of Saturday and Sunday. In that period four persons went out on that water looking for those big brutes from the ocean and all felt salmon. Six strikes were felt altogether and three of the fish were landed. Although occasionally the fish are seen to rise in many different parts of the Pool, the real salmon area is in the channel between the island and an island or bar that is only visible in the fall when the water is low. There they are jumping constantly and several that have been seen are no mean specimens.

Fish Lost After Hour's Fight

On Saturday afternoon M. R. McQuarrie of Nelson, accompanied by Rev. Mr. Scott, tried the Pool, with J. Killey, keeper of the Creel lodge as boatman. After a string of ten trout had been secured, about half of them from the channel, Mr. McQuarrie became hooked to a fish that all concerned say was quite the equal of the 50 pounder that was caught last Wednesday by Bob Elliott of Slocan Junction and exhibited in Nelson. The tackle was only suited to trout, but by the device of the rod constantly being passed from Mr. McQuarrie, in one end of the boat, to Mr. Scott in the other end, as occasion required, with Mr. Killey at the oars following the fish as hard as he could row, the line was eased and for an hour and 15 minutes the giant salmon kept the water white as he streaked through it in every direction, leaping, rolling and sounding, up and down a long stretch of river. Meantime Bob Elliott in another boat, went ashore for a gaff and when he returned with it Mr. McQuarrie snubbed the fish with the result that it seemed to realize that it was really hooked and tore off up stream with the line which parted. In the opinion of Messrs Elliott and Killey, it is doubtful if that tackle would ever have brought the fish to boat.

Three Caught on Sunday

On Sunday afternoon three boats were out, and all got connected with salmon.

Archie Johnson, the well known Nelson angler, had his family on the water, Mr. Elliott as boatman. The first fish landed was about 24 pounds in weight and made no particular fight. Then Mr. Johnson hooked a pretty big one, which streaked off up stream and got rid of the hook. His third strike was from a 35 pound male fish which it took 35 minutes to land and when it was landed the boat was well down stream.

Mr. Killey, though fishing the Pool for years, has never before tried for salmon, nor has anyone else before this year. No salmon were caught at all last year. In other years, when they have been caught it has been by anglers who were out for trout. Mr. Killey tried out his salmon tackle this time, and a fighting fish picked up the spoon and started off with in fine style. It was lightly hooked; however and got off in the first rush.

The third salmon of the day, a 35 pounder, was picked up as dusk was coming on by another Nelson resident, with a hand line. It was not difficult to land.

Mr. Elliott's String

Bob Elliott, the only other person who has gone out for salmon on the Pool has landed three to date. Early in September he got a 40 pound fish with trout tackle, after a long figh. He was also out for trout one day between two and three weeks ago, when he got one on that he estimates was about 32 pounds in weight. Then he fixed up real salmon tackle, consisting of 250 yards of Cuddy Husk hemp line that had been used for tuna fishing on the Pacific, a large reel and a heavy, stiff rod. This was the tackle that landed the 50 pound fish last Wednesday and Mr. Elliott says that that fish gave him more work than any yellowtail he ever hooked in California waters. At the end of an hour and a half, in one of its rushes, it passed close to the boat, and Mr. Elliott made a swipe at it with the gaff, and gaffed it by the tail in the Scotch fashion, having it helpless. Otherwise the fight had every promise of lasting a good deal longer.

Whether a salmon is a fighter or not depends apparently on whether it has spawned. A person who gets hooked to a fresh fish is a tired man by the time he gets it into the boat. It is estimated from the experience of previous years that the salmon will remain in the Pool for another two weeks.

Good Tackle Required

What makes a salmon take a spoon when in fresh water is one of the mysteries that has not been solved. The stomachs of the six fish that have been caught so far at the Pool were all empty and as the salmon caught at various points between this place and the sea are always in the same condition, it is believed that they do not take food from leaving salt water until they return to it. The commonly accepted theory is that the salmon, being a in fresh water for the purpose of spawning, are in a peculiarly nervous condition and are irritated at the spoon in their presence. They drive away trout from their spawning beds, for the trout are on the lookout to eat the eggs. Probably for the same reason they attack the spoon.

Those intending to go down to the Pool for the sport of salmon fishing in the next two weeks are advised to go equipped with heavy tackle, for it is no use risking a light line on a fighting fish. Also a gaff is required, for all these fish are at least four years old, the age when salmon spawn, and are too large for a landing net. Pearl spoons have been used so far.

HOUSEHOLD NOTES

A little corn, cut from the cob, heatened and seasoned, may be added to an omelet before turning. It makes a delicious breakfast dish.

It is an excellent plan to keep a piece of charcoal in the refrigerator. It will do a great deal toward keeping it free from unpleasant odors.

To have them tasty, always soak dried vegetables, such as beans, peas and lentils, for several hours in cold water before they are cooked.

Never sweep a floor in a sick room; instead wipe it carefully with a cloth dipped in borax water. This will prevent the spread of contagion.

Mashed potatoes should be run through a vegetable press as soon as boiled. After pressing, they should be beaten with a fork until light.

Dust silk with a piece of velvet instead of a clothes brush. The velvet will do the work thoroughly and will not injure the delicate fabric.

A bit of lemon peel can be used to remove the odor of fish from a knife. Applying a burning match to the knife will accomplish the same result.

In freezing weather, if windows stick, they can quickly be opened by pouring hot salt water over the casings. This is one of the quickest and easiest ways to remove ice from slippery steps and pavements.

PLAN FOR PEACE CELEBRATION

Obligatory Arbitration Treaty the Aim—Programme Will Include Parade of Merchant Marine

BOSTON, Oct. 10—An unlimited treaty of obligatory arbitration between the United States and Great Britain is the hope of the American Peace Society as a result of the proposition that the two countries join in 1914 in a celebration to observe the completion of 100 years of peace between them.

Plans for Celebration

The plans for a celebration commensurate with the position among nations of the countries directly interested in the occasion have not yet approached the point, it is said, where details have been definitely discussed, but it is proposed that the observance of the centenary be exclusively along the lines of peace, without military forms of demonstration, and that it includes a parade of the merchant marine of both nations, as well as features to commemorate the growth and mutual assistance of the educational institutions of Canada and the United States.

All Approve of Idea

The American Peace Society gave out for publication nearly two score of letters from an extended correspondence with prominent men in connection with the proposed observance, a number of which contain suggestions bearing upon the features of the celebration, all of which approve the idea.

Notable Writers

Among the writers are Andrew D. White, former ambassador to France and chairman of the American delegation to the first Hague conference; former Secretary of State Richard Olney, President A. Lawrence Lowell of Harvard university, Dean Henry Wade Rogers of the Yale university school, Cardinal Gibbons, President F. E. Clark of the United Society of Christian Endeavor, Bishop William M. Lawrence of Massachusetts, Governor E. S. Draper of Massachusetts, ex-Governor A. Montague of Virginia, Richard Bartholdt, professor of the American group of the inter-parliamntary union; Congressman Samuel W. McCall, of Massachusetts, Charles F. Libby, president of the American Bar association; James P. Baxter, president of the New England History of Genealogical Society; Charles P. Adams, president of the Massachusetts Historical Society; John B. Lennon, president of the American Federation of Labor, and representatives of the various Historical Peace and Commercial organizations.

WHAT IS VINOL?

It Represents Twenty Years' Work of Two Eminent Chemists.

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal elements of the cod's liver might be separated from the useless oil or grease, retaining all the good of cod liver oil and dispensing with the bad, as the oil has no medicinal value. These medicinal elements blended with iron iron and a mild medicinal wine—make Vinol.

Vinol is not a secret medicine, as its ingredients are printed on every bottle, and in all cases where the healing, strengthening influence of cod liver oil is needed, Vinol will give better results, for it contains all the curative medicinal properties of cod liver oil, but without the oil, and it is easily assimilated and acceptable to the weakest stomach.

For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unexcelled. We sell it always with the understanding that if it does not do all we claim for it, we will refund the money paid us for it. W. Rutherford, Druggist, Nelson.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by all druggists and dealers.

CANADIAN WEST LAND OF ROMANCE

Many Strange Tales of Its Early Days—Predicted Own Death by Drowning.

Many a curious tale has been told by adventurous travelers when in pre-settlement days they penetrated the vast solitudes of prairie, forest or mountain valley, writes W. J. Barclay, in Chambers' Journal. In the summer of 1862 there was a great rush to the newly-discovered gold mines of Cariboo. A party of over a hundred gold-seekers from Ontario and Quebec made the journey overland via St. Paul, Fort Garry, the prairies, and across the Rockies by the Yellow Head Pass. Descending the Fraser on rafts and in canoes, they found their greatest trials in its tumultuous waters, more than one life being lost in the rapids of the Grand canon. The circumstances attending the death of a Torontonian named Carpenter were singular. His party consisted of three other men from the same city—Messrs. Fletcher, Handcock and Alexander. When they arrived at the rapids they explored the canon, it being agreed by lot that Fletcher and Handcock should portage the outfit while Carpenter and Alexander ran the rapids in the canoe. In midstream the canoe struck a rock and upset. Alexander was a strong swimmer and managed to reach the shore in safety, but Carpenter appeared stunned and sank immediately. While exploring the canon his companions had noticed Carpenter making some memoranda in his note book, which he replaced in an inner pocket of his coat and left on the bank before entering the canoe. His sorrowing companions found the entry to be: "Arrived at Grand Canon, ran the canon, and was drowned."

Rain of Fire.

The phenomena of Nature sometimes took a tragical, sometimes a puzzling form. During a storm on the prairies near the south branch of the Saskatchewan a rain of fire suddenly descended upon a camp of Cree Indians and burned everything around them. Thirty-two Crees perished in the flames. The ground was burned deeply for a considerable distance, and only one or two of the party who stood near a deep slough were able to save themselves by jumping into the water. It was not a flash of lightning, but a rain of fire that lasted for some moments.

There once lay on the lonely summit of a hill far out on the prairie between the North and South Saskatchewans, a huge block of metal. It was a medicine stone of surpassing virtue among the Indians over a vast territory. No band of Cross, Blackfeet, or Sarcees would pass in the vicinity without paying a visit to this great medicine stone to lay their offerings upon it to propitiate the mysterious powers dwelling therein. Strange stories were told in the lodges concerning this stone. Old men remembered having heard men say that they were only able to lift it, but yearly it had grown in weight so that no single man could carry it. It is little wonder that Indian superstition was stirred by this stone. It was not of this world; it had fallen from heaven. It was, in fact, a meteorite. In the year 1869 the missionary of Victoria, a small settlement northeast of Edmonton, caused the stone to be brought in to the mission. When the Indians heard of the desecration they were loud in expression of their regret, while the old medicine men declared its removal would be followed by war, disease, and the disappearance of the buffalo. It is curious as a coincidence that in the following year the plague of smallpox swept over the Saskatchewan country with fearful violence, leaving whole camps of victims to rot unburied on the plains. The plagtie was accompanied by the afflictions of tribal war, carried on, in spite of the disease, with unparalleled ferocity; while a few short years sufficed for the extermination of the countless buffalo herds. The stone was afterwards shipped to Toronto, where the curious can now see it in the museum of Victoria university. It is also of interest to note that Iron creek, Alberta, derives its name from this historic stone, for it was near its banks that it reposed so long a manito of the red man.

Strange Adventure.

A strange adventure befell Capt. Denny, of the Northwest Mounted police, in the summer of 1875. From the fort on Old Man river he took a trip to the foothills of the mountains, about 40 miles distant, for the purpose of fishing and deer hunting. He was accompanied by an Indian guide. The hunt was successful, both the captain and his guide killing a deer. He sent the Indians back to the fort with the horses loaded with the venison, while he inflated a rubber boat brought for the purpose, in which he purposed returning to the fort, fishing on the way. During the morning he made good headway down the river, only once having trouble at a rather nasty rapid, in the middle of which he stuck on a flat stone, and was upset in getting off. He got a thorough wetting before he caught his boat again. About noon the weather began to look threatening, heavy banks of clouds gathering in the north. The thunder storms along the mountains are usually of short duration, but very severe while they last. When the storm broke the captain sought shelter in a clump of timber on the south bank, and during a lull in its fury he plainly heard the drums beating in an Indian camp, and the accompanying "Hi-ya" mingling with the sound. Leaving his boat drawn up on the shore and safely tied, he made his way towards the sound. The storm came down worse than ever and the lightning was blinding as he made his way through the timber. In an open glade the Indian camp of about 20 lodges lay before him plainly visible, 20 yards away, with a band of horses grazing on the farther side, the gleam of fires shining through the open entrances of the lodges. This was surprising, as the Indians do not move about in the wet if they can help it, and their lodges are kept closed through superstitious fear of the thunder. Capt. Denny stood for a few seconds watching the scene, considering which lodge to make for. He had made a step or two towards that nearest him when he seemed to be surrounded with a blaze of lightning, and the crash of thunder stunned him and caused him to fall from the shock. A large tree was struck not far off; he could hear the rending of wood. It was several minutes before he was able to look around. But, to his unutterable astonishment and terror, the camp had disappeared. Where a large Indian camp had stood in full view, the voices of its inhabitants distinctly audible, nothing remained in sight but an empty glade surrounded by storm-tossed trees. Little wonder that the captain, before he could gather his wits together, turned and ran, dropping his gun in his course. When lack of breath caused him to sit down on the bank of the river, a quarter of a mile away, he determined to leave his boat and walk to the fort rather than approach the spot again. The fifteen miles made a hard journey, but he arrived about midnight, draggled and wornout. The story told to his brother officers next morning at the breakfast table caused only laughter and chaff as a freak of the imagination. But the captain was firmly convinced of the reality of the experience. He was determined to proceed to the spot again and bring back his boat and gun. With an Indian and Blackfoot interpreter he returned that day, finding no difficulty in locating the place; but it was vacant, without sign of any recent camp. A few rings of stones overgrown with grass showed where an old camp had been many years before. The Indian related how the Blackfeet had surprised and slaughtered a camp of Crees at this spot, and two bleached skulls found among the grass were evident proof of the story.

THIS DATE IN HISTORY

(October 11)

1492—Columbus sighted the Bahama Islands, the first discovery of land.

1689—Frontenac succeeded Denonville as governor of Canada.

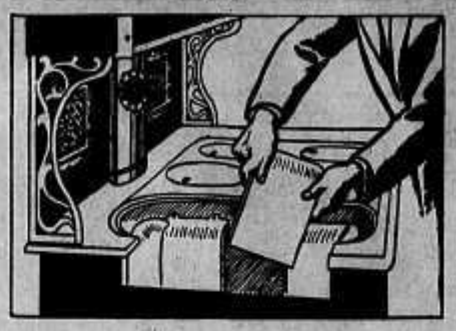
1776—The British defeated the Americans in the battle of Lake Champlain.

1777—Casimir Perier, the celebrated French statesman, born in Grenoble, France; died in Paris, May 16, 1832.

1797—English defeated the Dutch fleet in battle of Camperdown.

1852—Joseph Desha, ninth governor of Kentucky, died in Georgetown, Ky. Born Pennsylvania, Dec. 9, 1768.

1858—Corner stone laid for the Pulaski monument in Savannah.



You can Replace these Linings

easily, speedily and without the aid of any mechanic. Made in five *separate* pieces so if one burns out after long continued use, you can renew it without disturbing the other four. This lining is made of extra heavy durable semi-steel—*not* fire brick. It resists the strongest heat for the longest time. It is only *one* of the *many* strong exclusive improvements in a

KOOTENAY Steel Range

and the nearest McClary agent will be glad to have you ask him for a *conclusive* demonstration of all the *other* advantages. Don't spend that range money before you get full information and the Kootenay booklet. Write the nearest McClary branch. Now is the *best* time.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an **automatic-locking flame spreader** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for rewicking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

1884—Parliament buildings in Quebec wrecked by dynamite.

1891—Funeral of Charles Stewart Parnell in Dublin.

KILLS HIS AUNT FOR TAKING CABBAGE

CHARLOTTETOWN, P.E.I., Oct. 10—Victor Hudson of Stanhope, has been arrested charged with the death of his aunt, Johanna Hudson. He was released on bail. The preliminary hearing was set for Wednesday.

Mrs. McMaster, a sister of the deceased, told the officers who went to investigate that on Tuesday after Johanna Hudson had taken a cabbage from his field he followed her to their house. They barred the door and a fight took place at the window between Johanna and Victor, each armed with sticks. Mrs. McMaster went to the kitchen to get a stick and when she returned Johanna was lying insensible on the floor.

INSPECTS THE NIOBE

DAVENPORT, Oct. 10—Admiral Sir W. Pawke today inspected the Niobe, which leaves today for Halifax. The Niobe is expected to arrive at its destination on the 21st inst., Trafalgar day. The vessel is like the Rainbow. No intoxicants are sold in the canteen and instead of H.M.S. on the sailors' cap ribbons, they have H.M.C.S.

987

Note the area of the peninsula on which Vancouver and New Westminster are being built. Fifty-four square miles takes it all in north to Port Moody. A very small tract for a great city. It will never be any larger, but population will increase continually.

Every year the owners of this land will divide between them many millions of dollars. No matter where you live, working or idle, asleep or awake, no matter how the land lies, good or bad soil, no matter where you buy, values are bound to increase and as they are growing faster, in comparison to their age, than any other cities of the Dominion, values are bound to increase faster. The moment you make a payment your profit begins.

Thirty years ago the population on this ground did not exceed 500; today it is estimated at 175,000. You could have bought the whole tract for five dollars per acre or less; today there are single acres that you could not buy for $1,000.00, and the whole tract would average $5000 per acre. This is what increase in population does. The greatest growth and the greatest increase has taken place during the last five years. You may think it impossible to keep up this remarkable growth. Here is the opinion of men of wide experience, who have an opportunity to compare the growth of many cities.

Mr. Lawrence Gillespie of the Equitable Trust company of New York says: "I believe that the next five years will see more development than has taken place in the last ten years."

Lieut.-Col. Mason of the Home Bank, Toronto, says: "It is a year since my last visit. I must admit that I am surprised at the growth of Vancouver. The outlook here is wonderful, especially with the new railway lines projected and the impetus to be given business by the completion of the Panama canal."

We can offer for a short time a few specially selected lots between the cities right in the course of the fastest growth at only $300. Easy terms. They will be worth in a very short time $2000. They are close to the new car line, are opened up with streets and building is going on all the time.

To any one who will send us a deposit on any of those lots we will guarantee to return the full amount paid at any time within six months if the purchaser personally examines the property and is not perfectly satisfied with his investment. Our October report will tell you about the immense amount of building under way. Send for it.

The Wright Investment Co., Ltd.

NELSON, B.C.

You can trust your eyes to tell you only one important fact about a metal bedstead.

Either the "Ideal" Guarantee is on the footrail, or it is not. When it is, you can be sure you get full value.

For that Guarantee goes on the "Ideal" Metal Bedstead only after forty inspections have made it safe for us to put it there.

"Ideal" Metal Beds, you see, are of only one quality —the best we know how to produce.

That applies, whether the "Ideal" Metal Bed you buy costs but $4 or ten times that. From cheapest to costliest, there is only one quality in our line—and we guarantee every bed in that line.

Read "The Philosophy of Sleep"—an interesting little book we will send you free—and you will get a new light on this metal bed question. Ask for Booklet No. 141 2W

INSURGENCY SPREADS LIKE WILD FIRE

Republican Machine Unable to Stem Tide of Progress—New Movement Winning at Primaries

It is doubtful if modern political history provides an instance to parallel the rapid growth of the insurgent movement in the United States. We have heard much of "rebuilding the party from within" but about the first case on record where the job was undertaken and got thoroughly under way is that of the Progressives in the Republican ranks in the United States. The triumph of Mr. Roosevelt at Saratoga marks a stage in the application of the bitter but necessary treatment of the Republican party. How much of his success is due to his personal popularity and how much to the general acceptance of progressive ideas, is doubtful; but since Mr. Roosevelt will probably be placed on record as the father of insurgency, it is bootless to make these distinctions.

A Rediscovered Word

Insurgent, of course, is a good old word. So is "strenuous" but both have attained such modern vogue that they may be said to have been reinvented or rediscovered in the past few years. Mr. Roosevelt gave "strenuous" its present popularity. The war in the Philippines revived the word "insurgent." Who first applied it to the progressive anti-machine element in the Republican party we do not know; but if you care to trace the word back you will find that in February, 1909, it was first used as the name of a political faction. The faction was a small number of congressmen, not 20, and the first day they voted as a faction and under the name of insurgents was March 15, 1909, at which date their number had grown to 31. They then declared war on Speaker Cannon and voted for a revision of the house rules. They were ignominiously defeated but almost a year later they had grown strong enough to have the hated Speaker removed from the committee on rules.

Read Out of Party

In August, 1909, the insurgents in the senate voted in a little body of seven against the Payne-Aldrich tariff bill. At that time and indeed up to six months ago, the insurgents and the popular movement they voiced were treated with the greatest contempt by the regulars. Again and again they were "read out of the party by President Taft and members of his cabinet. On at least one occasion Speaker Cannon declared that "hanging was too good for them." On behalf of the Republican congressional committee it was announced that when the insurgents came up in their districts for renomination they would be given no help from the party organization. It was freely predicted that as soon as the primaries and elections of the summer were over there would be not a vestige of insurgents or insurgency left to disfigure the political horizon.

The Fire Spreads

It is not more than a year ago that these threats were so freely made. In the past few months primaries or elections have been won by the insurgents in the following states: Indiana, Iowa, Michigan, Wisconsin, Kansas, Nebraska, Colorado, Oklahoma, Arkansas, Georgia, Florida, California, Oregon, Arizona, Idaho, Washington, Vermont, New Hampshire, Maine and New York. In some of these states the triumphant Progressives have called themselves Democrats. In others it was the combination of insurgent Republicans and Democrats that won a victory. In some other cases it was a cleanout triumph for insurgent Republicans alone.

Fallen Stand-patters

In only two states were the insurgents actually defeated, namely in Pennsylvania and Ohio. The former state is the headquarters of the Republican machine and sends to congress no friends of progressive ideas. In Ohio most of the stand-pat crowd were returned but in order to get back some of them had to promise to vote against Cannon for the speakership. Cannon's own majority was greatly reduced in Illinois and since the same alarming reduction showed itself in the vote for all the other stand-patters in the state, it might almost be placed in the insurgent column. Two of the most prominent of the old guard have already fallen, namely Senator Burrows of Michigan and Senator Flint of California. Almost of equal significance is the retirement of Senator Aldrich and Senator Hale. A most hopeful sign of insurgency is the determination of the Democrats to reform their party from within by similar methods to those adopted by the Republicans. They show as much willingness to dethrone their own machine rulers as to profit by the disorganized condition of the Republican party. If the movement goes on as it has begun for another two years the people of the United States are sure of good, clean government in the next congress no matter which political party is in power.

FASHIONS AND FADS

The hair is frequently parted and the crown of the head surrounded with innumerable curls which fall in ringlet fashion over the sides of the head and the ears.

Shoulder collars are very large and round. They are frequently of hand-embroidered batiste or of marine in two different shades, finished with a metal cord ornament.

Some of the newest sashes are finished with a single end and a rosette at the waist line. This rosette is placed quite as frequently at one side as at the front or back.

Considerable attention is being directed toward coat suits of rather straight loose lines. These are termed box, but they differ widely from the ordinary box coats.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY.
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

SPORTING NEWS

VANCOUVERS STATE THEIR GRIEVANCES

Allege Went East Under False Pretenses—Only Allowed One Game, They Say.

VANCOUVER, Oct. 10—The Mann cup team which went down before the Young Torontos in the only game they had an opportunity of playing while in the east have returned to the city much disgruntled at what they consider the unfair treatment they were subjected to by the cup trustees. The statement they give out is as follows:

"Upon the arrival of Joe Lally, a Mann cup trustee, at Vancouver, the matter was taken up in detail, and Mr. Lally assured us that our challenge would be accepted, but that there was still a game to be played off between the St. Catharine's Athletics and the Young Torontos, and that we would be given the opportunity of playing with the winners of that series.

"Mr. Lally then wired the trustees at Toronto asking for dates, and dates as stipulated by us, the V. A. C. were allowed, viz., the 1st and 8th of October, the greatest number of goals scored in these two games to decide the winner of the Mann cup. Mr. Lally had no hesitancy in making these dates for us, and assured us that they had been accepted at Toronto, and that the terms would be absolutely carried out.

"We had no fear but that our club would meet with absolute fair play upon our arrival in Toronto, and that we would be given dates as above set out. We then left, hoping to find everything in order upon our arrival at Toronto, in place of which, everything has been switched, one game only being given to us, and that a sudden-death one and we are told that we can go home, that nothing further will be done.

"We therefore ask the public to judge as to whether this is the proper course to pursue in the handling of a cup given for amateur lacrosse. We feel confident that Mr. Manns purpose was to encourage amateur play in all its essentials."

MOOSE JAW RUGBY TEAM BEATS REGINA

REGINA, Sask., Oct. 10—In a fast, snappy and somewhat scrappy game of football, Moose Jaw on Saturday, won their second rugby victory over Regina this season. The game was close, the visitors winning out with a score of seven points to six in their favor. Large crowds of supporters accompanied the Moose Jaw team to this city.

COP CLAIMS RECORD HAS BEEN JUMPED

OTTAWA, Oct. 10—Alex. Quinn, the well known police athlete of this city, has a grievance. In the official record book of the A. A. U. of C. the standing broad jump record is credited to George Barber of Toronto, with 10 feet 2 1-2 inches. At the police games in Toronto in 1904 Quinn won the standing broad with 10 feet 4 1-2 inches, and made the same record in the police games at Montreal in 1906. As the police sports were all officially sanctioned meets by the C. A. A. U. Quinn rightfully thinks his record should be given recognition.

TOMMY IN NEW ROLE

PORTLAND, Ore., Oct. 10—Tommy Burns, former heavyweight champion of the world, purposes to tour Australia with a baseball team made up of star players picked from the teams of the Pacific coast and Northwestern leagues. Burns has arrived in Portland from Vancouver, B. C. He has cabled his Australian agent to negotiate for the tour of the all-star team.

ON RACING CIRCUIT

ST. CATHARINES, Oct. 10—St. Catharines will undoubtedly be on the racing circuit in 1911. The Miller bill with its eight day limitation clause, has so shortened other meets that the racing magnates are looking for additional points at which to hold races. Two prominent men in the racing world yesterday picked out a site near the N. S. and T. R. tracks, easy of access from Toronto, Buffalo, and other outside points, and expect that the new track will be ready by next year.

FOUR UMPS

CHICAGO, Oct. 10—Only 5000 seats at the Chicago National Baseball league park will be reserved for the world's series games and no reservations will be mailed. This decision has been reached by Robert McRoy, who is in charge of the seat sale.

President Murphy announces that all four umpires assigned to the world's series will officiate at each game. One will rule behind the bat, another will make base decisions, and two will officiate in the outfield.

GRAND PRIZE AUTO RACE IS CALLED OFF

NEW YORK, Oct. 10—The announcement was made tonight that the Grand Prize race for automobiles, which was scheduled to take place over the Vanderbilt cup course, on Long Island, on October 15, has been declared off. Criticism of the fatalities in the recent Vanderbilt cup race, it was stated, was the cause of this action. There is a possibility that the race will go to Savannah.

SPORTING SPOTLIGHTS

The latest aspirant to the honors of being considered one of the noble band who style themselves "White man's hope" and whose sole alleged object is the dethronement of the colored heavyweight champion from his proud position is Miles McLeod of Chicago. Miles hails from old Missouri. He has a pretty good opinion of himself and thinks that if Johnson has the courage to meet him the black man will receive his quietus. This is what he has to say regarding his qualifications: "I feel reasonably sure I can beat that fellow, for I have boxed since I was ten years old, and I know something about the fine points of the game. I believe I can hit as hard as Johnson, and know I can take a deal more punishment." McLeod's age and physique are in keeping with the job he wishes to undertake. He is 24 years old, 6 feet 5 inches in height and weighs 228 pounds. The Missourian, with the Scotch name, is certainly a husky chap.

A new code has just been brought out in Montreal. It is neither a civil code nor a code of procedure; neither its codifiers hope will be quite as unintelligible, and mystifying as any article to be found in these other works. Still it has to do with procedure, but not exactly of a civil sort. It is a code of signals, known only to the members of the Montreal rugby team, and, therefore, to be kept as secret as the workings of a Masonic lodge. This code will never be found in any library, and it is doubtful if some of its choice articles will ever be reduced to writing; but they will be stored up in the minds of its students and suddenly produced on the battlefield to the complete bewilderment of Montreal's opponents, who will see a sign, or hear a strange word, but will not know what either means until something happens that shatters their hopes of victory and puts them on the run. That is the sort of a code the Montreal rugbyists are coming by the early light of these chill autumnal mornings.

Rather strong comment and criticism is reported in eastern rugby circles over certain methods adopted this year regards players that seem to come pretty close to infringing upon the amateur code. Reports as to the rumored migration of first one player and then another from Ottawa Rough Riders to Montreal and vice versa are frequently heard creating as they do an impression of some under current hard at work.

For instance only a few days ago Frank Lukeman, Montreal's crack sprinter and all-round athlete, quit his job in Montreal to take a more lucrative position at the capital. Now Montreal realizing what has happened wants him back again. What is more it is rumored he will return to the winged wheel camp again too. Looks funny doesn't it. This is only one instance, the most prominent perhaps, but others exist no doubt though without being so conspicuously displayed in the public eye.

More developments of a sensational nature are promised in connection with the Mann cup contests over which there has already been so much scrapping. It is said that neither the C. L. A. nor the slighted champions intend to stand back and take all the blows feebly without making any return.

The Winnipeg Tribune think that the double beating of the Nationals by the Vancouver boys is somewhat of a mystery. Why?

There is danger that the fandom of Pittsburg will shortly sustain a severe bereavement. Wagner, the star Pirate, is threatening to retire from baseball. His reason, so far as he has opened his mind to the public is that he has grown weary of the game and wishes to retire before his laurels fade and the black band of the has-been is dealt out to him. But there may be other reasons. It's the creaking wheel that gets the grease and perhaps the offer of a larger salary will cure Wagner's tired feeling.

Hockey talk is quite free in eastern Canada just now and various plans for this winter's sport are being mooted by the big moguls of the ice game. Toronto is said to be sure of a place in the big league along with Ottawa, Renfrew and Montreal. The two mining towns are to be cut out on account of the long distance the teams have to travel to play games there. It is not known how many teams will be in Montreal this winter on account of the uncertainty of the Wanderers, the present champions, and the Shamrocks, which was upheld by several Winnipeg players last winter. It does not look as if there will be many games played for the Stanley cup, owing to the obliviation of many professional leagues. Edmonton is already talking of again going after the silverware, but it is a long while before any ice will be seen in the Alberta capital, and until then nothing definite can be taken from the rumors that come from there. "Newsy" Lalonde is said to be endeavoring to have the Nationals organize a club this year and join in with the big clubs.

This is the latest in Eastern lacrosse: A new professional lacrosse league is to be formed, owing to dissatisfaction with the constitution of the National Lacrosse union. The Nationals, Shamrocks, Tecumsehs, and Toronto will be the members of the new organization, leaving Cornwall and Ottawa on the outside. The new club will arrange a series of eighteen games, each two clubs meeting six times in the season. The present players on the four teams will be on the reserve list, the club to have the privilege of securing any other players in Eastern Canada. There will be no residence rule, a paid president, probably St. Pere, of the Nationals, will have charge of the affairs of the league. It is proposed to have a game every Saturday. Hitherto a team has sometimes gone three weeks without a game.

RUGBY SHOTS.

Now that Charlie Gage has decided to stay in Hamilton, the varsity crack will be used at inside wing, while Thompson will take Gatenby's place at outside wing, and Pfeifer will be back in his old place at centre scrimmage. As Moore will be found on the back line again, as it has been decided that Belley will hardly do, with the result that the team to meet Ottawa on Saturday will prove pretty strong. It will be as follows: Fullback, George Smith; centre half, Kid Smith; right half, Frank Burton; left half, Art Moore; quarter, Avery; scrimmage, Pettierry, Pfeifer, Scott or Gerrard; inside wings, Brammer and Gage; middle wings, Isbister and Barren; outside wings, Glassford and Thompson. There is a chance that Lajoie, another member of last year's varsity team will turn out with the yellow and black. Art Moore and Ben Simpson will both be in uniform Saturday.

Thomas F. Clancy, president of the Interprovincial Amateur Football union and coach of the Ottawa Football club, has for many years been one of the leading figures in Canada rugby. Tom is ex-president of the Canadian and Quebec Football union and was for many years captain of the Ottawa University football team, which on three or four occasions won the Canadian championship. Curiously, however, Clancy was never a member of the Ottawa team, which has been in his care since the organization four years ago of the Interprovincial league. Tom played in the days of the Ottawa City-Ottawa college rivalry, and although many of his teammates jumped over to the red, white and black, he could never be induced to desert Rev. Father Fallon and the garnet and grey club.

Mr. Clancy is an American by birth. He was born and brought up in Naugatuck, Connecticut, being educated at St. Lawrence college, Montreal and the Ottawa university. He was a crack first baseman when at the Montreal college, breaking into football as a halfback and subsequently moving to the Ottawa college scrimmage, where, with Bob McCreadie and Tom Boucher, he made a reputation that has seldom been equalled. Mr. Clancy was very much opposed to accepting the coaching responsibilities in connection with the Ottawa club, but the players positively refused to turn out without him, and Tom was eventually coaxed back into the game. Clancy is known as one of the shrewdest and fairest men in football. He never gives up until the whistle sounds, and is always one of the first to gracefully acknowledge defeat.

ARRANGING ROUTE FOR ISLAND RAILWAY

Will Call for Tenders in Few Days—No Trouble Regarding Labor is Anticipated

(Special to The Daily News.)

VICTORIA, Oct. 10—P. B. Holt, financial representative of Messrs. Mackenzie & Mann, has been in the city for several days conferring with Premier McBride with respect to the inauguration of the construction on the island section of the Canadian Northern railway. The obtaining of a route which will make the island division a useful and profitable integral portion of the new transcontinental system and redeem proelection pledges in respect to colonization values made to people of Victoria and Vancouver Island by Premier McBride and his supporters, has proven a task involving very careful consideration. The conclusion to be reached within a few days will it is said be satisfactory to all parties concerned. Mr. Holt expects to be in a position to call for tenders for the construction of the first section during the next few days and ground will be broken immediately thereafter, construction being pushed vigorously. No difficulties are anticipated with regard to labor as several large construction plants in the Pacific northwest are disengaged and men from these can be rushed to the island at a days notice.

STANDING IN THE WAY

Five years ago Calgary had a population of about ten thousand; today it has a population of something like thirty thousand, the result of the development of the surrounding districts.

Five years ago Lethbridge had a population of two thousand—about one-quarter that of Nelson. Today it has a population of eight or ten thousand, the result of the development of the surrounding districts.

Five years of development in southern Alberta alone has built up not only these two cities but a dozen smaller towns. Publicity and other work devoted to the bringing in of settlers and capital has made the difference between the southern Alberta of today and that of five years ago. If no settlers had entered upon the farm lands of Southern Alberta during these years, where would Calgary and Lethbridge be today? How much had Lethbridge grown in the preceding five years before the settlers began to come in.

Consider what the growth of these two cities has meant in the employment created by the erection of new buildings alone. Or consider what it has meant to the retail merchants and the hotels.

They are not isolated instances of the result of developing the resources of a territory. Ten years ago Edmonton had a population of only about two thousand. Saskatoon, Moose Jaw, Regina, Winnipeg,—even Vancouver, six hundred miles away,—are instances of the growth of cities due to the development of the tributary territory. Imagine an alderman in any of these cities getting up five years ago and saying that the development of the neighboring country was of no benefit to any one but real estate men.

The Kootenay has an area more extensive than that of the district surrounding Calgary, and has richer natural resources. The Kootenay requires for its development a territorial association. Only an association including the whole Kootenay can be strong enough to do the work effectively. But if anyone were today to go to any board of trade or any district association in the Kootenay to ask if it is prepared to do its share, what would be be told except that the city council of Nelson the capital of the Kootenay has declined to do anything?

Nelson must either lead the way in the formation of such an association or it must block the way. Which is it to be?

SWISS SETTLERS FOR OUR MOUNTAIN VALLEYS

A good deal has very properly been said in favor of "ready made farms." A good deal might also be said in favor of ready made settlers,—that is of settlers who are already familiar with conditions of soil and climate similar to those they will find here.

The first settlers in the Canadian west were from eastern Canada and Great Britain. Their success was not immediate, for one reason because they had been accustomed to farming under different climatic and other conditions. Even those who were farmers already took some years to learn what could be done, what could not be done, what was most profitable to do and how to do it. Everything had to be discovered by experiment.

Later on, however, southern Alberta got some ready made settlers,—that is, some settlers came in who had been accustomed to farming under similar climatic and other conditions. Because they were thus familiar with what could be done under such conditions the progress of southern Alberta was very much more rapid than it would otherwise have been. It is to such settlers, for instance, that the introduction of "Turkey Red" wheat is due.

Would it not be likely to assist in the agricultural development of the mountainous districts of British Columbia if we had some settlers accustomed to agriculture in a mountainous country with a climate more or less resembling that to be found here?

A good many Swiss farmers have settled in one part or another of this continent, and they have made a good name for themselves as thrifty, law abiding and progressive settlers. It so happens that as a rule they have gone to districts where much that they know of farming is of little use to them because of the difference in conditions. But in the valleys of the southern Selkirks they would find a good many tracts of country very like their own. Instead of having to learn new methods entirely, they could utilize their knowledge of how to make the best, agriculturally, out of a mountainous country; and it is reasonably certain that others could get some useful hints from them.

The C. P. R. is a large landowner in southern British Columbia, it has agencies at its disposal on the continent of Europe, and it has exceptional transportation facilities at its disposal. Why should it not endeavor to bring out a number of Swiss settlers with specimens of the breeds of cattle, goats and sheep which they have found suitable to their country, as well as seeds of varieties of vegetation which thrive under the same conditions?

EDITORIAL NOTE

The Calgary Herald, says: "There are probably more good stories told of Houston than of any other newspaper man of his time. One of his great charms was perfect independence of character and fearlessness. Some landmark of this vigorous campaigner will be quite fitting, and Nelson, the scene of his activities, is the proper place.

LAW FIRM WILL RETAIN ROSSLAND OFFICE

ROSSLAND, B. C., Oct. 10.—C. R. Hamilton, K.C., of Rossland has entered into partnership with the law firm of Lennie & Wragge of Nelson. The firm will be known as Hamilton, Lennie & Wragge and they will carry on legal business both in Nelson and Rossland. Mr. Hamilton will continue to give personal supervision to the work of the Rossland office.

FREE SITE TO SHINGLE MILL

(Continued from Page One.)

$15,000, and that the total revenue from it at present did not amount to interest on the investment.

It was decided to grant to the proposed company the site occupied before the late fire by the Kootenay Engineering works with whatever other land to the east might be required, together with a tax exemption of five years.

Advertise at Apple Show.

Mr. Cassidy, of the Vancouver World, addressed the council, soliciting an advertisement to cost $200, for the special number that newspaper proposes to issue in connection with the National Apple show, the advertisement to occupy a page, to which the newspaper would add a page of general matter about Nelson.

After Mr. Cassidy retired, it was unanimously agreed that the National Apple show provided a splendid opportunity for advertising Nelson and the Kootenay alike by some special form of publicity which would portray Nelson as the centre of the Kootenay fruit district. The proposal of the Vancouver newspaper was not taken up, and a grant was voted of $100 to be disbursed by the mayor and Ald. Rutherford. It is very probable that the latter will attend the big show.

Ald. Rutherford read a draft bylaw designed to give authority to the proper officer to effectively quarantine children for a number of contagious children's diseases and to provide for a more thorough control of the situation. This draft was read and was referred to the city solicitor to be licked into shape.

Ald. Rutherford also brought up the matter of amending the license bylaw, notice of which he had given last week. The council went into committee of the whole and went over the ground carefully. The intent of the new bylaw will be to raise license fees all round. Among others that it is expected to raise, are the license fees of saloons and hotels.

Cemetery Statement.

In answer to an interview in The Daily News, in which two citizens criticised the cemetery policy of the council, on behalf of the fraternal orders, the financial statement of the cemetery, prepared by direction of Mayor Selous, in the interests of Ald. Rutherford, chairman of the cemetery committee, was read as follows:

Disbursements—	
Salary caretaker	$ 470.00
Labor	400.55
Carriage	12.00
Seed and plants	25.45
Blacksmithing	27.00
Repairs to residence	260.25
Hardware	9.65
Total disbursements	$1,541.40
Receipts—	
F. O. E. for 1909	$ 80.00
A. F. and A. M. for 1910	100.00
Other receipts	111.00
Burial permits and cem. lots	371.00
Total receipts	662.00

The interesting thing about the statement, according to the cemetery chairman, is that only one of the orders has yet paid the amount it agreed to pay the city treasury in consideration of extra work being done on the general plot, that order being the Masons. The extra work done, the council claims has been for in excess of what the council engaged to do. The Masons and Oddfellows agreed to pay $20 each for five months, the Eagles $15 per month for five months and the Knights of Pythias $15 per month for four months.

Board of Works

Ald. McDonald brought up the question of "death traps," various faults in alleys, of one kind and another that were dangerous to pedestrians at night He mentioned the case where an aged man lately broke a limb in falling down the cellarway of Mr. Svoboda's grocery, which James O'Shea, solicitor for Mr. Svoboda, promised last year should be remedied. The matter of this cellar was left to the board of works to deal with. The board of works will close the cellarway.

The report of the city engineer, G. C. Mackay, was as follows:

"I recommend that a new six foot sidewalk be built on Front street, south side of block 51 (opposite hospital.) The existing sidewalk consists of four 12 inch planks run lengthwise and is in a bad state of repair.

"I have examined the rock crushing plant, which consists of crusher, elevator and revolving screen. As far as I can tell, these seem to be in working order, but I understand that the crusher jaws are of soft iron. If this is the case they will have to be replaced and I am writing to the makers for price of Manganese steel jaws to fit the machine. The timber framing on which the plant rests is rotten. The cost of new timber framing would depend altogether on the location of the plant. The present location is not suitable for economical working."

It was decided to make the new walk on Front street extend from Park street to Willow street, instead of merely from Park to Cherry streets. It was also decided to have it four feet wide instead of six feet wide and to have the planks crosswise instead of lengthwise as the engineer recommended. Ald. McDonald pointed out that lengthwise walks were hard on baby carriages.

In regard to the rock crusher, Ald. McDonald asserted that when he had asked in the spring to have it started up, the mayor had informed him that it would cost $1700 to fix it. However, the crusher was as good as the day it was made. The streets were in a rotten condition, and all this time the crusher could have been at work on them.

Mayor Selous doubted very much that he had ever mentioned any sum as the probable cost of fixing the crusher as he had now no sum in his memory. He caused the city clerk, W. H. Wasson, to read the report of Mr. Dufresne, at that time city engineer, which had been the basis of his information in the spring. In that report Mr. Dufresne estimated that the crusher could be repaired for $300. He also estimated that a 15 horse power motor was required for it.

Put Crusher to Use

The city engineer was instructed to obtain quotations on new jaws for the crusher, new framework, a 15 horse power motor and to suggest a new location. At the same time he was instructed, at the wish of Ald. McDonald, to obtain quotations on new grates for the engine of the roller. But for grates Ald. McDonald said the roller was a perfect machine.

Mrs. Castanzo Fiore, wrote asking that the city engineer inspect lot 20, on which she had some crib work which was finished to the street, but which needed a little more cribbing at joining the bridge that passes her lot. The land mentioned is on Cottonwood creek on the flat. The request was referred to the city engineer.

F. H. Hillam made application for a ditch to be dug in the roadway facing his residence on Carbonate street, to a distance of 100 feet, to carry the surplus water to the sewer manhole, water finding its way into his cellar, his residence being on lower ground than the roadway. The city engineer said there was a drain there which he was going to have cleaned out.

A. Larson applied for the grading of Mill street between Hall and Hendryx as he wished to make a boulevard and plant trees around his five lots which he had improved. The city engineer was instructed to report.

A Gordon French wrote from Nelson under date of yesterday as follows:

"Gentlemen—Recently when in Victoria, the directors of the French Complex Ore Reduction company desired me to express their thanks to you for the most liberal grant of one year's lease of the old electric lighting buildings and water power on the ground at the nominal rent of $1. We are hopeful that before the year is up we will be in a position to solicit a lengthened lease or perhaps, purchase of the property."

CRESTON NEWS NOTES

(Special to The Daily News.)

CRESTON, Oct. 10—Messrs. Joseph Graften of Coleman and Jang and Burnett of Frank, Alta., have this week purchased from Arthur Okell and Capt. Carruthers the whole of sub-lot 63 at Duck creek, containing 305 acres.

On Wednesday evening last Mrs. E. Mallandaine was the hostess at a smart whist party. During the evening both vocal and instrumental music was rendered by the various guests after which dainty refreshments were served. Among those present were Mrs. R. Reid, Mrs. Dow, the Misses Howarth, Scott, Ella Dow and Messrs. E. C. Gibson, W. E. Corsan, Campbell Dow and N. A. Brown.

Partnership Dissolved

Messrs. Moran and Mead, proprietors of the Creston hotel, have dissolved partnership. George Mead takes over the ranch, while J. B. Moran takes the Creston hotel. There has been an equal division in the assets of the firm. It is safe to predict that under the ownership of J. B. Moran the Creston hotel will retain its reputation of being one of the leading hotels of the Crow.

The Creston Dramatic society held their first rehearsal on Thursday evening in the Mercantile hall. The piece to be staged is entitled "Butterflies," an American society comedy.

The marriage is announced to take place at the ranch of G. C. French on Nov. 12 of Miss Annie McIntosh and L. G. Payette. The bride to be came only a short time ago from Scotland.

LAND FOR DEMONSTRATION ORCHARD AT ROSSLAND

(Special to The Daily News.)

ROSSLAND, B. C., Oct. 10.—M. A. Henderson of this city has received a letter from R. M. Winslow, provincial horticulturist, in response to his application for the demonstration orchard which is to be established in the Rossland vicinity. Mr. Winslow promises that M. S. Middleton shall visit the site and report fully upon it. Mr. Henderson has 10 acres of land to the east of the city, and the soil is of admirable quality. Mr. Middleton is fairly well acquainted with it as he has visited it personally. Almost the whole of the land is cleared and some is already planted to fruit trees.

TOWN PLANNING CONFERENCE

LONDON, Oct. 10.—What Europe and America are doing to solve the problems of housing and town planning is to be exemplified at the first International Conference on Town Planning, which assembled in London today for a week's session. In conjunction with the conference there is being held in the galleries at Burlington house a notable exhibition of designs and illustrations to which the leading architects of the world have contributed.

DIX-TOWNSEND WEDDING

NEW YORK, Oct. 10.—One of the most notable weddings that New York has seen this fall took place today in Grace church, when Miss Josephine Wilkerspoon Townsend became the bride of John Adams Dix. The bride is - daughter of Mr. and Mrs. Howard Townsend, who are among the leaders of fashionable society in the metropolis. Mr. Dix is the only son of the late Dr. Morgan Dix, the rector of Trinity church. He is also a grandson of the late Governor John A. Dix and a cousin of the republican nominee for governor this year.

A SENSIBLE MERCHANT

Bear Island, Aug. 26, 1909.
Minard's Liniment Co., Limited.

Dear Sirs,—Your traveller is here today and we are selling a large quantity of your MINARD'S LINIMENT. We find it the best Liniment on the market making no exception. We have been in business 35 years and have handled all kinds, but have dropped them all but yours; that sells itself; the others have to be pushed to get rid of.

EIGHTY YEARS OF AGE SUFFERED 20 YEARS

Then Cured by Gin Pills

Remember, right at the start, that Gin Pills are not a "cure-all". If you have Small-Pox, Typhoid Fever or Consumption, there is no use in your taking Gin Pills because they probably would not do you any special good.

Gin Pills are not a "hit-or-miss" remedy. They are a scientific preparation for the Kidneys and Bladder—for Rheumatism, Lumbago and Lame Back, and are made and guaranteed by the largest wholesale drug house in Canada.

For the special diseases mentioned, Gin Pills have proved their great value in thousands of cases. Here is a case in point.

Annapolis, N. S., May 14th, 1909.

"I wish to give testimony to the benefits I have received from the use of Gin Pills. I am over eighty years of age and have been suffering from Kidney and Bladder Trouble for about fifteen years. I took doctors' medicines but got no help.

I want to thank you for sending me the sample box of Gin Pills which I took, and found it helped me.

I have taken six boxes of Gin Pills, but got relief before I had taken near that amount. I used to get up some nights every fifteen minutes and had to use an instrument before I could urinate. Now, I can lie in bed four or five hours without getting up. I can truthfully say that I am nearly cured and am still taking Gin Pills and shall always keep a box in the house." W. H. PIERCE.

If you are suffering with your Kidneys—with sharp, shooting pains through back and hips—if your Bladder is weak—if you are all crippled up with Rheumatism or Lumbago—Gin Pills will do you good. We give you a chance to test them. Write National Drug & Chem. Co. Limited Dept. B.C., Toronto, for free sample box and you will receive it by return mail. Regular size boxes are sold by dealers at 50c., 6 for $2.50. 33

We have had placed in our hands for sale one of Nelson's fine homes. The house is situated on four lots, all in bearing fruit trees. There is a stone foundation with cement floor basement. House has double parlor, dining room, kitchen, three bedrooms, etc. A good stable on property.

Price $4200, easy terms.

REGISTRATIONS FORMED RECORD

Total is New Nearly Two Hundred—Four Licensees Qualify by Making Declaration

The registration of citizens qualified to vote in the January municipal elections yesterday formed a record for a single day the total up to 5 p.m. reaching 72. Of this number 68 were householders and four were holders of licenses in the city though residing outside the corporate limits. The total voters who have registered up to date number 190.

The licensees who made declaration that they had paid fees amounting to $5 or more to the city of Nelson for the current year and were operating offices or stores in the city, thereby entitling them to vote, were A. E. G. Cornwell, A. W. McFee, A. E. Bennett and R. R. Caldwell. These four are the first who have qualified to vote under this head since the opening of the lists on Oct. 1. The householders who registered were:

James Elliott, J. G. Ballantyne, H. W. Fesser, R. D. Graves, I. M. Lindsay, Ernest Myers, E. W. Steel, Phillip Wade, George Paton, C. Batcliffe, G. K. Benston; G. H. Goodwin, James McPhee, E. C. de Beyssasc, J. White, J. Armstrong, J. A. Ingram, W. W. Shackleton, P. L. Lyon, W. E. Corry, A. H. Fulton, G. G. Peters, Fred C. Moffatt, C. A. Larson, A. Haselden, F. G. Jex, G. L. Minard's Liniment Cures Colds, Etc

VILLAGES ENGULFED IN CYCLONE OF FLAME

(Continued from Page One.)

towns began six hours before the flames hit them.

Towns Ablaze

A few minutes after the flames hit the towns they were all ablaze. The wind even uncovered buildings and tore trees yet untouched by the fire up by the roots.

Horrible Suffering

The tales of horrible suffering being brought by the refugees beggar narration. Oscar Johnson, wife and three children stood for five hours in the Beaudette river, ducking their heads when the heat became too intense. They say the water in the river was heated to an uncomfortable extent and that steam rose from the surface. When they escaped it was through a furnace of dying coals with here and there a blaze reaching out for what it might devour.

Saved by a Pony

Mrs. A. C. Ragson, aged 60 a pioneer of the district, stood in a freight car in the relief train with her granddaughter in her arms and told the marvelous tale of a white pony coming up to her on the track with neck extended and whinneying as if seeking aid. She called the pony to her and it stood while she mounted it and together they went up the railway track at high speed, while the forest blazed on both sides. As they flew along she says she counted nine bodies along the rails.

Settlers Hemmed In

The destruction of $1,000,000 worth of lumber, mill property and millions of dollars worth of timber, pales into insignificance beside the horrible personal sufferings and the shocking death roll. There was no escape; the poor settlers were hemmed in on their little clearings, with great forests on all sides and with only a forest road connecting them with the main highways. Horses and cattle, released by their owners at the approach of the flames fled to safety and accompanying them there were hundreds of deer, caribou and moose and in truth, not fiction, the cattle lay down with bears, wild cats and timber wolves and with no danger from them.

Bringing in the Dead

RAINY RIVER, Ont., Oct. 10—One searching party has returned bringing the nine bodies of the Boten family, consisting of father, mother and seven children. They had only got a short distance from their home when overtaken by the fire.

George Wover, Charles Baker and Patrick O'Hara who were missing have turned up. Wover and Baker got to Rapid river before the fire. Wover plunged into the water and kept under as well as he could but is burned badly about the hip where his body showed above the water while the flames were passing over. Baker dug out a trench in the bank hastily with his hands and protected himself in front with a blanket; he escaped with minor injuries. O'Hara, seeing he would be unable to keep ahead of the fire went back to his log cabin and started a fire on the edge of his clearing which advanced sufficiently to protect him, although he was nearly suffocated.

Homesteaders' Bodies Found

Of the Iowa men out looking for homesteads, two of the bodies have been found. One of them was still living although badly burned. Their names cannot be ascertained.

Nineteen Bodies

Charles Baker counted 19 bodies on his way to town. They are all within a radius of six miles of Beaudette. How many will be found farther out cannot be ascertained. People are sending their families east on special trains made up here for Fort Francis where they can transfer to Duluth. At present the wind is still and the danger is over for the night.

Vigilance Committee

The citizens of Rainy River held a mass meeting this afternoon and organized a vigilance committee. Fifty men are guarding the streets. Walter Farlas is reported by Dr. Amos as having a very slight chance of recovery. He cannot talk intelligently in answer to questions as to how many men attacked him. It is said there were three. Policeman McMahon found some melted soap near the scene of the outrage which indicated the men were interrupted while preparing soap to blow up a safe. One man was arrested this afternoon. He was noticed pretending to have but one arm. Some of the railway boys, who are ready to pull off a lynching bee if the guilty can be discovered made the man strip, when his other arm was found buttoned up under his shirt.

Hell Down There

WINNIPEG, Oct. 10—"Brother, it's hell down there," said Fireman George Smith of the Duluth express, on arrival this morning. "If she keeps on the way she's going there is going to be mighty little left of the population of that part of Minnesota. She has quieted down a little but all it requires is a puff of wind and she is back again as bad as ever. There is one good thing though; it cannot ever reach the railway again for all timber in that section is burned. For miles around Beaudette and Spooner the country is now as level as the prairie. Everything is swept away.

He added that the bridge between Beaudette and Pitt through which half a dozen grain cars went on Friday night, has been repaired temporarily.

Rainy River is one great concentration camp, fitted up as a temporary hospital but danger there has not yet passed.

Fifty-Three Dead

BEAUDETTE, Minn., Oct. 10—Fifty-three are dead here and bodies of two families of nine and fifteen respectively have been brought in from outside points. The roads are choked with fallen timber and rescue parties are operating under great difficulty. It is estimated that the dead in this section will number 200. Great alarm is felt because so few of the settlers are coming in. One thousand refugees have been taken south but these are the town population. A relief committee is fully organized. Two cars of provisions have arrived. Provisions, clothing and money are badly needed. Roosevelt and Williams are reported in danger but Warroad is still safe.

Warroad in Peril

WARROAD, Minn., Oct. 10—Fire is within five miles of the town. The fire department reinforced by a detachment of the Winnipeg fire department and every available man in town are vigorously backfiring and with the falling wind there is good chance of their being successful. The Great Northern has trains working on each side of the fire, having gathered up available surfacing gangs to assist. Trains are taking settlers to Roseau from this point and here every available car and boat is held in redness, should it become necessary to evacuate the town.

Strewn With Corpses

RAINY RIVER, Oct. 10—The country between Warroad and Beaudette is undoubtedly strewn with corpses. Three days have passed and hundreds of well known families have not been heard from. Four entire families were found dead near Beaudette and it is believed that further in the interior the sights will be appalling. Only fifty men are out investigating conditions, and there should be hundreds, but the ground is so hot it is impossible for anyone to travel far and the experienced woodmen here tonight are dismayed. Only 14 bodies have been brought to Beaudette and 13 were seen along the Rapid river.

Many Will Die

One hundred and ninety typhoid fever patients removed from Old Beaudette are suffering from want of the necessities of life and many will die. The towns of Roosevelt and Williams are threatened again tonight as the wind is rising. One thousand refugees from Pitt, Spooner and Beaudette have been taken to Rainy River, Duluth and International Falls. Fully 5000 are homeless.

International Falls Also

FORT FRANCIS, Ont., Oct. 10—Forest fires threaten International Falls, of 2000 people across the river from here. Several fires have been burning near International Falls for 36 hours and a high wind would sweep the fires into the city. A force of about 50 men worked all night last night but were unable to extinguish the fires. Rushing from one spot to another they were able to render their aid to any threatened quarters and fires repeatedly broke out immediately behind them.

For Military Aid

This morning Mayor Berg wired the governor of Minnesota for military aid as there are not enough available men there to adequately protect the city. The 225 refugees from Spooner and and Beaudette are being sheltered in international Falls homes. The men refugees have joined the fire fighters. Late trains today from the west augmented the number of refugees and more and more are expected.

Peril Abates

RAINY RIVER, Ont., 10—Rainy River is comparatively quiet tonight, the danger threatening with a south wind having at last temporarily disappeared. Refugees from Beaudette who have crowded this place since Saturday are gradually thinning as the trains are carrying them east and south. Five doctors, 15 sheriffs and 30 men of K. company of the state militia are here.

Identified Dead

RAINY RIVER, Oct. 10—A revised list of known dead around Beaudette follows: Edward Roulin, wife and seven children; Broten family, seven children and father and mother; Sidnow Coffin, family, mother, father and three children; Sarah Larson, child aged 10, found in school yard near Spooner; Matthew Berg, wife and five children; Kate Jasmer, domestic for Albert Berg; Alex White, nephew of Judge Waite of Crookston; Mark Varman, married.

Aid for Sufferers.

WINNIPEG, Oct. 10—Tonight's session of the city council voted $2500 for the immediate relief of forest fire sufferers, and directed that the city relief officers be sent to the front to assist and to advise the council where and how further assistance would be most needed. In the meantime a party consisting of Dr. McQueen, four nurses from the general and St. Boniface hospitals and a large store of necessaries organized by J. L. Hyland and other private individuals left on the 7 o'clock train without waiting for the civic party.

YMIR NEWS NOTES

(Special to The Daily News.)

YMIR, Oct. 10.—J. M. Gillis is the father of another bouncing boy who made his debut at the hospital on Saturday. All are doing well.

The Clarkson brothers are moving away for good in the event of further development of their timber interests, their office will be in Nelson. They expect to start for Toronto within the next two weeks.

D. S. Grebe has purchased the property formerly belonging to John Burns and is moving into the house today.

Charlie McDonald and wife have moved to Salmo where Charles has a large logging contract.

Mrs. George Motion, Sr., is visiting her son and daughter, Mr. and Mrs. Buckworth.

C. W. Riley, manager of the Dundee mine, is spending a few days in Nelson this week.

Quite a number of ladies are taking advantage of the fine weather and good roads by taking horseback journeys to and from the different mines.

J. M. Gills and family will occupy their residence the coming winter instead of remaining in their bostelry. Jim is doing a lot of repairing on the latter and certainly deserves a share of the traveling custom.

Andy Burgess has been on the sick list the last week, suffering from an attack of quinsy, but is again beginning to rustle about town; Andy says he can't afford to be ill.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YORNO, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

COUNCIL HEARS BYLAW JUDGMENT

(Continued from Page One.)

panded into a power to prohibit; notably in the Virgo case, 3394, A. C. Now it seems to me that the whole scheme of legislation regarding the subject of liquor licenses imports the continuance of the liquor traffic, whether it is regarded as a saloon traffic or a hotel traffic. It is quite true that in some matters hotels are favored rather than saloons—for instance, there is a provision requiring that in the case of a hotel that contains not less than 30 rooms, no petition shall be necessary, and in other respects applications for hotel licenses are favored rather than applications for saloon licenses. But with some few exceptions of that character, it seems to me that the matter of licensing saloons and hotels stands on pretty much the same footing. There is a board of licensing commissioners created to deal with such licenses; and their powers are fully justified in regard to the issuing, cancellation, and revocation of such licenses.

Under the Statute.

"The section, however, which has particular application to the case in hand, is section 305, and is as follows:

"The council of every municipality may pass bylaws, not, however, contrary to or inconsistent with the conditions of this act, ... (a) For regulating the manner and conditions under which the board of licensing commissioners may authorize and grant the renewal of a license, to or from any person now holding a license or to or from any person to whom a license may hereafter be granted; (b) For limiting the number of licenses for hotels, saloons, stores and restaurants to be issued or granted in the municipality. . . with a number of provisions attached.

"Now it seems to me it is contrary to the principle of the Virgo case to attempt to expand these powers, and by so doing, imply a power to prohibit. As Lord Justice Davey pointed out in that case, a power to regulate seems to import the continuance of that which is to be regulated, and in itself is inconsistent with a power to prohibit. If it were competent for the municipality, under a power to limit the number of saloons, to absolutely wipe out and prohibit saloons, then I see nothing to prevent them from wiping out and prohibiting hotels, stores and restaurants, and I think it would be an extraordinary interpretation of the section to hold that the legislature had thereby empowered any municipality to completely prohibit hotels, stores and restaurants.

Lesson From Analogy.

"Further, I may observe that in section 10 there are a great number of subsections granting different powers to the municipality, some being powers to regulate and some powers to prohibit, and some both, so that it is evident that the legislature was appreciative of the distinction. For instance, in subsection 31 of that section there is conferred the power to prevent or regulate horse-racing; and to prevent or regulate bucksters. It is quite clear, I think, that under that subsection, it would not prohibit bucksters.

"I, therefore, think the portion of the bylaw moved against is invalid."

MINING NEWS

MINING CONGRESS OF MUCH INTEREST

R. W. Brock, Director of Geological Survey, Tells of Los Angeles Gathering.

"One of the most important subjects of discussion before the American Mining congress held recently at Los Angeles was that of the effect the proposed conservation of natural resources as proposed by the conservationists at Washington would have upon mining interests in the United States," said R. W. Brock, director of the geological survey at Ottawa, at the Strathcona last night. Mr. Brock was in the Southern California city as Canada's representative at the gathering, which was attending by the most prominent mining men of the southwest and many from other parts of the United States.

Ask for Protection.

"The question of land classification and the basis upon which mining men would be able to obtain lands and claims was very thoroughly discussed and a number of resolutions passed asking that the mining industry of the country should be adequately protected in any measures that might be brought before congress.

"Many speakers expressed the fear that some of the proposed measures, if carried through the house, would result in holding back the development of the mineral resources of the country, and the resolutions passed were eloquent of the views expressed at the meeting."

The great apostle of conservation in the United States, Gifford Pinchot, addressed the gathering and expounded his views at length. Mr. Brock spoke in the highest terms of the able manner in which the secretary of the congress, Sydney Norman, carried out his duties.

"We were magnificently entertained while in Los Angeles," said Mr. Brock, "and were taken upon several side trips by the Sierra Madre club. One of the most interesting of these was an automobile excursion along the line of the great Owen's river aqueduct which will carry water to Los Angeles from a distance of 217 miles. Over 200 miles of this aqueduct consists of tunnelling.

Through Oil Fields.

"Another excursion which we found of unusual interest was that in which we were taken in automobiles through the oil fields of Bakersfield, Coalinga and Midway. At Taft we saw a natural gas well from which 2,000,000 feet of gas are being taken per day, while 41,000,000 feet are going to waste owing to the impossibility of saving it. A recent discovery of oil near the Devil's basin between McKittrick and Coalinga has caused a big rush of prospectors from Bakersfield into the new territory.

"At San Francisco we were entertained at a banquet given by the San Francisco members of the Mining and Metallurgical society.

"While at the congress I met S. P. Parrish, late of the LeRoi mine at Rossland, and Jack Cosgrove, at one time associated with the Centre Star. A very large number of the other delegates were of Canadian birth."

Mr. Brock, accompanied by W. M. Boyd of the topographical branch of the geological survey department, leaves this morning for Ottawa.

JAPAN'S NEW DREADNOUGHT

TOKIO, Oct. 10.—Something of a record for rapid naval construction has been established in the case of Japan's newest and most formidable battleship, the Kawachi, which was launched at the government yards at Yokosuka today, less than six months after the keel was laid down. The Kawachi has a displacement of 20,800 tons and will carry a battery of 10 10-inch, 10 6-inch, 12 4-inch guns and five torpedo tubes.

ALABAMA POSTMASTERS MEET

MONTGOMERY, Ala., Oct. 11.—The fourth annual convention of the Alabama League of Postmasters of the fourth class began in this city today and will continue over tomorrow.

Low Priced Suits That Are High In Quality

FOR LADIES AND MISSES

If You Are Seeking Such, See These

You will wonder how they could have been made to retail for the prices. Linings, buttons, trimmings, everything about them bespeaks the excellent quality that is usually accompanied by high costs.

These are very extraordinary suits for their prices—they were purchased under extraordinary conditions which we scarcely hope to duplicate. Therefore the woman with a keen eye to her own interests is not going to delay about inspecting them.

You will find models new and distinctive—materials smart and of excellent quality and sizes up to 36.

These are incomparably the best suits you can buy for the money.

Price $10

MEAGHER & CO.

Eagle Block Baker Street

GEE! I'M FROZEN

That was the exclamation heard time after time yesterday. Now that was rather ridiculous when people could buy a small electric heater which would go in their pocket and with it could boil a glass of water or milk in half a minute for the remarkable sum of $3 which is the cost of this little article.

These heaters are a thing that or needed in every home. The baby wants hot water at night. We all like to get out of bed to light a stove, but with this small electrical attachment you can do it from the bed. While the fellow sharpens his razor his water has boiled. The doctor can sterilize his instruments by the bedside and perhaps save a life, being able to have hot water almost instantaneously. The cook can boil her potatoes, cabbage, puddings and in fact everything where hot water is needed. Call and see the little marvel at

VICTIMS BURIED

LOS ANGELES, Oct. 10—Seventeen of the 20 or more men who lost their lives in the explosion that wrecked the Times building eight days ago were buried side by side in Hollywood cemetery today. One funeral service was held for all in Temple Auditorium which was packed with 2500 men and women, while a great crowd unable to enter stood outside.

GOOD HARD WORK A CURE FOR ILLNESS

Nervous Derangements Cured by Labor —Work Cure Succeeds Rest Cure—Good Results.

Many doctors; many cures. The rest cure has been hailed as a panacea and now comes its antithesis, the hard work cure. It would be inaccurate to say that Dr. Arthur Paterson, of the Brompton hospital, London has discovered the cure. Millions of people all over the world and for many generations have discovered it, each independently of the other. It was no more invented than was sleep. Sancho Panza to the contrary notwithstanding. But it has been left wor Dr. Paterson to make the hard work cure popular. Most of his patients belong to the leisured classes, or the class of brain workers, and, of course, to restore one of these to normal health or a degree of health above normal, is considered almost as notable a feat as the winning of the Victoria Cross. Newspapers enlarge on the cure; it is well advertised, the public becomes interested investigates the cure and great ultimate good is the probable result.

A System of Hard Work

Dr. Paterson is deserving of considerable credit, however, for he has made out quite an elaborate system. The cure is not summed up in the famous prescription, "take a sawdust pill night and morning." Hard work is the cure, but the sick man who goes to the sanitarium at Frimley, near London, is not immediately set at hard work. There is a scheme of graduated labor and several weeks or even months may be required from the time a patient is admitted until he receives his degree and escapes. The scheme differs essentially from the method that made William Muldon a rich man, for it is not made up of exercise, but work. The terms are by no means synonymous, and for present purposes we shall take exercise to mean artificial work.

There is nothing artificial about the Frimley cure. The first work the patient is required to do is to walk a mile, by easy stages if necessary, but a full mile every day. Gradually the distance is increased to six miles. This part of the program may be considered exercise, but it is merely preliminary and serves to get the patient ready to undergo the cure. This stage over, the patient is put in the garden watering plants, weeding, carrying baskets of mould, wooding; carrying baskets with a hoe. After this he is given a little spade, then a spade, then a large spade. The next step consists in discharging the duties of a day laborer as well as learning to be a concrete worker. He digs trenches, mixes gravel and concrete and helps build a chapel which is now almost completed.

The Women Dig Too

By the time he becomes a good laborer the patient is cured and may return to his law or medical practice or to his splendid leisure as a man of wealth. He departs with the appetite and digestion of an Italian navvy; with a skin browned and roughened by the sun and wind and rain, with toughened hands and muscles, and probably with wholesome habits of work fastened on him that will add years to his life. The cure for women is exactly the same as that for men, with the difference that their picks and shovels are lighter and smaller than the men's. Naturally they will choose to wear gloves for the protection of their hands, though photographs before the writer show them barehanded and barehended digging in a gravel pit... Two countesses are revealed feeding chickens.

Not a Cure-all

The work cure is not advertised as a cure all. For a typhoid fever patient or a case of broken leg it would prove fatal. But for nervous derangements, digestive troubles and tuberculosis at a stage before the patient is practically prostrated, it is said to work wonders. The hard work cure is not a denial of the rest cure, for Dr. Paterson says that certain forces of the body which become inactive through illness may be set at work again by complete rest. The rest cure, however, is a temporary alleviation. It soon reaches its limit and if a man continues to rest he becomes ill again. The man who continues to work continues to improve until he is perfectly well and is kept at the maximum of efficiency by work. The hard work cure does more than restore; it permanently improves the mental capacity of the brain worker. Just as the man whose his brain can do better manual labor than the man whose hands work mechanically, so the man who employs his hands regularly at some skilled labor finds that the work strengthens and stimulates his brain.

KASLO NEWS NOTES

(Special to The Daily News.)

KASLO, Oct. 10—Frank McQuestion of Lardo has taken A. Palmer's place at the Exchange hotel, the latter having gone to Vancouver where he intends to engage in future in a pool room and cigar stand.

Mrs. Pilling has moved from the McGregor building and reopened in the Vienna cafe and is again ready for business, having added to the old stand furnished rooms in connection which will be a great benefit to the mining men.

Several fine catches of salmon have been brought in during the week.

A. W. Gelston who has been at the Rambler mine for some months returned today, and expects to be leaving for the coast in a few days.

Mrs. I. A. Riddell shipped 50 more boxes of Gravenstein apples this week.

Roy Kruger and T. Carney have left for a trip to Spokane.

NELSON NEWS OF THE DAY

(Additional local news notes on page 4.)

The Baptist Ladies' Aid will meet this afternoon at 4 o'clock in the church parlors.

The regular meeting of the board of trade will be held on Thursday evening at 8:30 o'clock, in the board room.

The October meeting of the hospital board will be held this afternoon at 4 o'clock in the office of the secretary, George Johnstone.

W. G. Morris, one of the Vancouver partners in the Western Canada Development company, is spending a few days in the city.

The provincial tax sale of lands in arrears for taxes in the Nelson assessment district will be held at the court-house tomorrow at . o'clock noon.

The public are advised not to forget the bean supper given by the ladies aid of the Church of Mary Immaculate tomorrow evening from 6 to 8 o'clock, in the parish hall. After the supper a social evening will be spent with cards and music. Everybody is welcome.

The management of the Tremont hotel yesterday passed into the hands of F. E. Hanscome and A. Campbell, who entered upon the enjoyment of their five-year lease, which they secured from the owners, J. J. Malone and A. Tregillus, who have been its proprietors for the 11 years of its existence.

Ed Peters, the well-known Ymir miner, came in from Goat creek yesterday with some samples of copper-gold-silver ore from the Calumet and Hecla property. Mr. Peters is of opinion that in connection with the snowslide behind Crawford Bay, the observers saw feet for inches, or else measured snow where it had and from the roof. Miners generally appear skeptical in regard to the reported depth of snow, and figure that October, as usual, will be one of the best months for prospecting at altitude.

Royal Hotel, here's your home for the winter. Best board in the city. 198

Mr. M. Rosenbaum of the House of Hoberlin is at Wallace's store today taking orders for men's clothing. 159-1

STOMACH DISTRESS IS ENDED FOR EVER

Indigestion, Stomach Gas, Heartburn or Dyspepsia Will be Relieved in Five Minutes.

Take your sour, out-of-order stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 2-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food lies only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

Minard's Liniment Cures Dandruff.

PICKETING AGAIN AT SPRINGHILL

Eight of Strike Leaders Arrested—Both Sides Are Confident of Victory

HALIFAX, Oct. 10—The troubled mining centre of Springhill had unlooked for excitement during the past week. Following an injunction granted by Judge Drysdale which virtually stopped picketting, a period of lethargy set in. Men came to Springfield and found employment with the company without interference by strikers. Last week the scene changed.

Organizer Arrives

James B. McLennan, provincial organizer of the U.M.W. from Glace Bay, arrived in Springhill early in the week. A mass meeting of strikers was held behind closed doors and the morning following picket duty of an aggressive although passive character was resumed in greater force than ever before. Those of the strike breakers who did not live behind palisades had to run the gauntlet of from 300 to 600 men. The company acted quickly and had warrants issued for eight of the principal U.M.W. leaders. The men arrested were J. D. McLennan, provincial organizer; J. B. Moss, of the Nova Scotia executive; A. C. Bonnyman, president of the local lodge; Emil McChelson, Lionel DeBar, Richard Richards, W. A. Matrix and David Colwell. The last mentioned is an elder of the Presbyterian church and one of the most highly respected persons in Springhill. The trial was called for Saturday afternoon before Magistrate Ross, but before any evidence was taken adjournment was made until next Saturday at 10 o'clock.

Both Sides Firm

Mr. Moss expressed the view that the men would ultimately win out, that the mines could not be successfully operated by the class of labor employed, that the longer the company operated under existing conditions the more money it would lose. Against this statement of Mr. Moss must be put the fact that the company is steadily increasing its coal output, has about as many men employed as it desires and while some of them are far from desirable citizens many are from Glace Bay and other Cape Breton collieries and are experienced miners. There is no sign of yielding on either side.

BAD STOMACH

Many in Nelson Are Being Thoroughly Purified by Miona, the Guaranteed Cure for Indigestion.

People of Nelson who suffer from dyspepsia and other stomach troubles are getting tired of taking preparations containing pepsin, because pepsin simply digests the food artificially. Pepsin relieves, it never cures.

And remember, pepsin only digests animal food; it has no effect on starchy food, such as potatoes, rice, bread, etc.

Miona cleanses and purifies the stomach and bowels, and tones up and puts energy into the stomach walls, so that they properly mix the food with the natural digestive juices of the stomach.

Miona tablets quickly arouse the stomach from its inaction, and in a few days it is able to do its work easily and without exertion. There will be no more sour stomach, fermentation of food, dizziness, sick headache, belching of gas, or foul breath.

Miona only costs 50 cents a large box, and is guaranteed by The Poole Drug Co. to cure dyspepsia, sea or car sickness, vomiting of pregnancy, and stomach sickness resulting from over-indulgence of the night before, or money back.

HYOMEI
(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by
THE POOLE DRUG COMPANY AND W. RUTHERFORD, NELSON, B. C.

(a) The name, address and occupation of the applicant: George J. Hammond, rancher, Nakusp, B.C.

(b) The name of the lake, stream or source (if unnamed, the description is): Nakusp creek.

(c) The point of diversion: About one-half mile above C. P. Railway culvert on said creek.

(d) The quantity of water applied for (in cubic feet per second): Four cubic feet.

(e) The character of the proposed works: Dam, ditch, pipe or flume.

(f) The premises on which the water is to be used: South half of Lot 256 G1.

(g) The purposes for which the water is to be used: Irrigation and domestic.

(h) If for irrigation describe the land intended to be irrigated, giving acreage: South half of Lot 256 G1, containing about 1160 acres.

(i) This notice was posted on the 16th day of September, 1910, and application will be made to the Commissioner on the 12th day of October, 1910.

(j) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: J. C. Wensley, F. Wensley, A. E. Haight and S. J. Barlow, at Nakusp, B. C.

GEORGE J. HAMMOND,
A. L. McCULLOCH, Agent.

NOTE—One cubic foot per second is equivalent to 35.71 miners' inches.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson Division of West Kootenay District.

(a) The name, address and occupation of the applicant, Fred A. Starkey, of Harrop, B.C., Merchant.

(b) The name of the lake, stream or source (if unnamed, the description is): Mill Creek.

(c) The point of diversion: About 80 feet southwest of Block 30, Lot 222, Group 1, Kootenay district.

(d) The quantity of water to be applied for (in cubic feet per second): One-quarter cubic foot.

(e) The character of the proposed works: Ditch and flume.

(f) The premises on which the water is to be used: Lot 3 and Block 5A, Block 30 of the west sub-division of Lot 222, Group 1, Kootenay district.

(g) The purposes for which the water is to be used: Irrigation.

(h) If for irrigation describe the land intended to be irrigated, giving acreage: 12 acres Lot 3 and Block 5A, Block 30 of the sub-division of Lot 222, Group 1, Kootenay district.

(i) Area of Crown land intended to be occupied by the proposed works: None.

(j) This notice was posted on the 22nd day of August, 1910, and application will be made to the Commissioner on the 22nd day of September, 1910.

FRED A. STARKEY,
Nelson, B.C.

NOTE—One cubic foot per second is equivalent to 35.71 miners' inches.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson Division of Kootenay District.

(a.) The name: Jonathan Rogers; address: Vancouver, B. C.

(If for mining purposes) Free Miner's Certificate No. 41932 B.

(b.) The name of the lake, stream, or source (if unnamed, the description is): Sheep Creek.

(c.) The point of diversion: about 3000 feet up from the junction of Sheep Creek and Wolf Creek.

(d.) The quantity of water applied for (in cubic feet per second): 11.2 cubic feet.

(e.) The character of the proposed works: flume and pipe.

(f.) The premises on which the water is to be used (describe same): The Kootenay Belle group of mines.

(g.) The purposes for which the water is to be used: mining purposes.

(h.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return: To be returned to Sheep Creek about eighteen hundred feet up from the junction of Sheep Creek with Wolf Creek, difference in altitude about 150 feet.

(i.) This notice was posted on the 1st day of July, 1910, and application will be made to the Commissioner on the 1st day of August, 1910.

(j.) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: Queen Gold Mines, Salmo; A. H. Tuttle, Ymir; Amalgamated Gold Mines, Vancouver.

Attach copy of such parts of the Company's memorandum of association as authorize the proposed application and works.

JONATHAN ROGERS.
Per F. E. Morrison, Agent.

Vancouver, B. C.

NOTE—One cubic foot per second is equivalent to 35.71 miners' inches.

NOTICE TO CONTRACTOR

Glenbank School.

Sealed tenders, superscribed "Tender for Glenbank School," will be received by the Hon. the Minister of Public Works up to noon of Friday, the 14th day of October, 1910, for the erection and completion of a two-room school building at Glenbank, near Nakusp, in the Slocan Electoral District.

Plans, Specifications, Contract and Forms of Tender may be seen on and after the 14th day of September, 1910, at the offices of G. H. Gardiner, Esq., Nakusp, Secretary to the school board; the Government agents at Nelson and Revelstoke; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of $50, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.

NOTICE TO CONTRACTORS

Grand Forks Court House.

Sealed tenders, superscribed "Tender for Court-house, Grand Forks," will be received by the Honourable the Minister of Public Works up to noon of Tuesday, the 25th day of October, 1910, for the erection and completion of a brick and stone building at Grand Forks, B. C.

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 24th day of September, 1910, at the office of the Government Agent, Grand Forks, and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of $1,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.

Department of Public Works,
Victoria, B. C., September 20th, 1910.

NELSON NEWS OF THE DAY

(Additional local news notes on page 7.)

Born, to the wife of J. W. Wilson, High street, on September 3, a son.

The winning number at Weir's shoe store last week was 1730.

Born, to the wife of T. Munro Cairns, 4 Mile, on October 3, a son.

Born, to the wife of J. J. Davidson, Jr., Observatory street, on October 1, a daughter.

Mrs. A. W. Seaman will receive tomorrow afternoon from 4 to 6 o'clock at 319 Mill street.

Superintendent W. O. Miller of the C. P. R. will leave for Vancouver on tonight's train.

The funeral of the late G. Walley Clark will take place this afternoon at 2 o'clock from the residence on Stanley street. The funeral will be private.

W. Hills of the Van-Roi mine had the misfortune yesterday to lose an envelope containing a check drawn on the Bank of Montreal for $56.50. An advertisement in another column gives particulars.

The temperature in Nelson yesterday showed a variation of 20 degrees between the high and low readings at the government meterological station. The figures were 62 and 42 degrees, respectively.

A bean supper will be given by the Ladies' Aid of the Church of Mary Immaculate in the club rooms tomorrow evening. A splendid musical program has been arranged and a most enjoyable evening may be expected.

There will be an important meeting of the Anti-Tuberculosis society in the Y.M.C.A. building this afternoon at 3 o'clock. A general invitation is extended to ladies interested in this all-important subject to be present.

"Ireland and the Irish" is the title of the illustrated lecture that will be given by Rev. J. P. Westman this evening at 8:15 o'clock in the auditorium of Trinity Methodist church. There will be illustrated Irish songs, and 125 slides depicting Irish scenery and Irish life.

A number of plates, which contained pies and other dainties donated to the Ladies' Hospital aid which dispensed refreshments at the fair are in the hands of the committee. Anyone desiring to receive them back may do so by calling up B. 326.

S. A. Kelly has returned to the city from the coast.

H. Manset Cook of Victoria is a guest at the Strathcona.

The overhead wiring for the street railway, which is being erected by J. H. Ringrose, will be completed within the next two weeks.

There will be a meeting of the Odd Fellows Building & Investment Company, Limited, in the lodge room this evening at 8 o'clock. Important business awaits transaction.

Walter King has just returned to town from a hunting trip in the Salmon river and Pend Oreille district where he spent a week with J. J. Moran of Boundary View ranch.

The Misses T. Louise Murray, M. G. Murray and Florence Murray, members of the Wilkinson family who have operated the Murray Lumber mills at St. John, N. B., for many decades, are guests at the Strathcona.

The list of applications for naturalization papers at the sittings of the county court on November 1 seems likely to be longer than usual. So far 15 have entered their names with T. M. Bowman, registrar, and several others will undoubtedly take this preliminary step before the end of the month. Those who have entered their names since the publication of the last list are: Frank C. Boyd, Ira N. King, and A. C. Towner. All are at present citizens of the United States.

LOST—Envelope containing check for $56.50, probably on one of main streets; drawn in favor of W. Hills. Finder rewarded. Return to Daily News office. 159-2

WANTED—A good modern house to rent. D. L. MacInnis, Inspector of Schools, Nelson. 159-6

The local lodge of the Chinese Masonic order held an extended session in the Eagles' hall on Sunday night. Some 35 residents of Chinatown were present and there were about 20 candidates for initiation. The meeting started at 10:30 and was kept up until 6:30 a.m. yesterday. Oriental delicacies, such as chop suey, noodles and preserved fruits, in addition to the inevitable chicken, were served during the gathering. The ritual of the Chinese Masons is said to be entirely dissimilar to that of the Canadian order. The Masons in China, however, are one of the strongest organizations in the Orient and exercise a tremendous influence upon local and national politics. It is the greatest "tong" in China, a country in which the minor secret society, or "tong" flourishes in such great numbers.

AT THE THEATRES

Lieutenant Shackleton's "Dash to the South Pole," as told by the Gaumont Bioscope pictures, is a stirring display of British pluck.

It must not be assumed because this expedition has returned without fatal accident that it was just a holiday trip. To take only three incidents from Lieutenant Shackleton's story alone, the first where Wild, who is leading one of the Manchurian ponies, suddenly feels a tug on the rope, and knows nothing more until he is being hauled out of a deep crevasse, into which the pony has vanished and is lost forever. His companions try to ascertain the depth of the crevasse, but to them it appeared to be a bottomless pit.

Then there is the moment on the return journey when the same party, after indescribable exertions, are brought to the point of starvation and in their desire for food they eagerly devour the flesh remaining upon the bones of a pony which they had killed on the outward journey two months before.

The public will have an opportunity of seeing the wonderful pictures, together with an interesting lecture at the Empire theatre on Thursday, Friday and Saturday next.

A fine program is billed at the Empire theatre this evening, the feature film being a fine western picture entitled "The Blazed Trail." Others are "The Amateur Hypnotist," "Getting Rid of Uncle" and "One Good Turn."

The Gem's program is a most delightful and interesting one, each item being well worth seeing. "The Hedmen's Persecution" (a late Biograph release) gives us a fine dramatic subject well handled, the cowboys being much to the front. "Burlesque Queen" and "Horseshoer's Girl" are two excellent comedies. "Why He Had to Tip" keeps the audience in a good humor all the time.

Two Good Buys

CARBONATE ST.—No hills to climb. A double house, stone foundations, strictly modern; each part contains six rooms and bath. Price $4500, one-third cash, balance to arrange.

STANLEY ST.—Seven room house, two corner lots, very cheap. Price $1700. Terms: Cash $300, balance easy.

Houses to rent are scarce. Make that buy before winter sets in.

CONGREGATIONALISTS MEET

BOSTON, Mass., Oct. 10.—Several thousand delegates and visitors are in Boston to attend the fourteenth triennial meeting of the National Council of Congregational churches which will hold forth in this city during the ensuing 10 days. The educational, publication, ministerial aid and home and foreign missionary societies of the denomination are to hold their annual meetings in connection with the council, giving a program of great interest. One of the most notable features will be the observance of the centenary of the organization of the American Board of Commissioners for Foreign Missions. At this celebration, which will begin tomorrow and continue over several days, addresses will be made by representatives from more than 50 missionary organizations.

OHIO LIBRARIANS IN SESSION

COLUMBUS, O., Oct. 10.—Librarians of public, college university, medical, law and other libraries throughout the state are assembled here for the sixteenth annual meeting of the Ohio Library association, which opens this evening with a reception at the Columbus Public library. The discussion of numerous problems of common interest will keep the librarians busy over tomorrow and Wednesday.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists and dealers.
