VOL. 8 NELSON B. C., SUNDAY MORNING, JUNE 27, 1909 NO. 58

601

CUP DEFENDED

New Westminster Wins First Game of Series

TECUMSEHS PLAYED WELL

OPENING MATCH FOR SYMBOL OF LACROSSE CHAMPIONSHIP WAS CLOSE, HARD AND CLEAN—FIRST GOAL SCORED BY OLD MAN ALEX. TURNBULL.

(Special to The Daily News.)

NEW WESTMINSTER, June 26—The New Westminsters this afternoon ably defended their title as lacrosse champions of the world by defeating the crack Tecumsehs of Toronto in the first game for possession of the Minto cup by six goals to four.

The game was one of the best seen in the west, the teams being well matched and each playing with desperation. The first quarter was a long drawn out contest resulting in only one goal, every attempt of the New Westminsters to hire into Tecumsehs' net being met with a resistance which made the champions lose the ball or attempt long passes which usual results to their chances. Tecumsehs valiantly time and again carried the ball down the field only to find that famous stonewall defence was still in working order.

Many shots were made during the first ten minutes of the quarter but all were either from long distances or wild through enthusiasm. Finally Rennie carried to the veteran player, Alex. Turnbull, who rushed the ball up to the net and made a successful attempt.

In the second quarter Tecumsehs pressed the champions hard but constantly lost the ball through wide passing. On the return the easterners always secured the ball near their net. After eight minutes of play Querrie secured and with a clear field made an easy goal. Westminsters responded with a whirlwind rush down the field from the faceoff, scoring a goal in less than a minute. Gilbert tied the score three minutes later scoring the goal amidst a bunch of Westminster men in front of the net.

In the third quarter Westminster shone although Gilbert gave the home supporters heart failure by romping in with the first goal for Tecumsehs in three minutes. Then the champions got down to work and in rapid succession scored four goals through steady, persistent boring at their opponents' goal, Tecumsehs defence going up in the air at this point.

The fourth quarter was a drawn out race back and forward session, Westminster playing letting up on the game. Finally Adamson took a long shot and scored the final goal for Tecumsehs after 18 minutes play.

The day was rainy in the morning but the field dried up in the afternoon and fair weather prevailed during the game.

The contest was clean throughout and though checking was hard few men went to the fence. In the closing quarter Wintemute was laid off and Felker retired to even up.

Prior to the game a dispute occurred as to the capacity of Yorke and Ald. Tom O'Connel as referee and judge of play respectively. The matter was finally settled by both men taking the field with equal powers.

The line up and details of scoring were as follows:

Westminsters	Tecumsehs
Goal	
Gray	Kineman
Point	
Galbraith	Griffiths
Cover Point	
T. Gifford	Graydon
Defence Field	
J. Gifford	Pickering
G. Rennie	Ions
T. Rennie	Rountree
Centre	
C. Spring	Felker
Home Field	
Wintemute	Green
G. Spring	Querrie
A. Turnbull	Gilbert
Outside Home	
L. Turnbull	Dufkin
Inside Home	
Bryson	Adamson

First Quarter

1. Westminster, A. Turnbull, 15 minutes.

Second Quarter

2. Tecumseh, Querrie, 8 minutes.
3. Westminster, Bryson, 1 minute.
4. Tecumseh, Gilbert, 3 minutes.

Third Quarter

5. Tecumseh, Gilbert, 3 minutes.
6. Westminster, G. Spring, 3 minutes.
7. Westminster, Bryson, 3 minutes.
8. Westminster, L. Turnbull, 2 minutes.
9. Westminster, T. Rennie, 3 minutes.

Fourth Quarter

10. Tecumseh, Adamson, 14 minutes.

ANTIGONISH UNDERMINED

Nova Scotia Town Being Washed Away by Ocean

HALIFAX, June 26—Great stretches of road are disappearing from the town of Antigonish and the people are greatly alarmed. The first cave in occurred two weeks ago when a section 50 feet long and twenty feet wide disappeared, carrying a telephone pole now far out of sight. No sooner had this opening been filled with brick and stone than another cavein took place when a strip of road 100 feet long disappeared. The hole made on this occasion was 40 feet deep and 30 feet wide. The cave in is now filled with water. The road commissioner went to the scene from Halifax and while he was investigating another portion of the road 15 feet long by ten feet wide disappeared and next day still another 300 feet from the last cavein fell from view. The intercolonial railway track is also affected, the rails having sunk over a foot in two places. The road commissioner says subterranean waters are dissolving the plaster far beneath the road and that the district will eventually become a large lake.

REPORT OF ARBITRATORS

RECOMMENDS CONTINUANCE OF OLD AGREEMENT

OPERATORS' REPRESENTATIVE DID NOT SIGN

(Western Associated Press.)

OTTAWA, June 26—The department of labor is in receipt of the report of the board of conciliation and investigation which was appointed to investigate the dispute between the various coal operators n Alberta and eastern British Columbia, Members of the Western Coal Operators' association and their employees, members of district No. 18, United Mine Workers of America, also of the minority report signed by Colin McLeod, appointed by the operators. In the report of the board signed by the chairman, Rev. Hugh R. Grant of Fernie, and F. H. Sherman, member of the board, appointed on the recommendation of the employees, the belief is expressed that the old agreement expiring on March 31, 1909, is agreeable to both parties.

The dispute between the Western Coal Operators' association and the United Mine Workers arose by reason of the parties being unable by negotiation to renew an agreement which expired on March 31st last. The board began its labors on May 20, exerted itself to induce the parties concerned to adjust their dispute by mutual agreement but as no settlement was reached in this way the board visited the various mines affected and took evidence on the questions at issue. The report of the board recommends a general agreement based on the old agreement which expired on March 31, 1909, terms of this new agreement to date from April, 1909 to March, 1911.

In respect of the dispute regarding differential rates on pillars and contract rates at Lille, the board finds that if the parties make an earnest effort they can easily settle all differences in this regard.

The board also advises that the understanding arrived at regarding discrimination in 1907 should be observed by the parties to this new agreement. The effect of the report of the board, if accepted will be, the chairman explains in a covering letters, to give neither a closed shop nor an open shop but to continue an agreement that has worked out amicably for two years.

The minority report of Colin McLeod of the Western Coal Operators' association, is in substantial agreement with the report of the board and Mr. MacLeod has discussed at some length the merits of the points at issue between the operators and the men. Mr. McLeod finds the chief dispute between the parties to be a "matter of the preamble of the check off clause," the miners contending that the preamble of the check off clause submitted by them would constitute a legal and binding agreement; the operators replying that it would not affect the legal aspect of the agreement, insisting that its only effect was the establishment of the "closed shop," to which they would not agree. Mr. McLeod submits that the preamble prepared by the miners does not improve the legal and binding aspect of the preamble used in the old agreement, nor, on the other hand, should the preamble, he thinks, of the operators be adopted, in his opinion the preamble should be in terms which he proposed in a draft agreement embodied in his report. On the subject of a check off clause, Mr. McLeod says in his report: "The applicants are undoubtedly entitled to a check off clause in their agreement but the check off clause submitted by them being inconsistent with the laws in force in British Columbia and Alberta, should be rejected and the check off clause of the old agreement should be continued, the same being shown in the agreement above referred to."

Not Yet

PARIS, June 26—J. Pierpont Morgan returned to London yesterday after having been only 12 hours in Paris. The negotiations to affect the listing of the common shares of the United States Steel corporation on the Paris Bourse are continuing but there is no definite indication today when a final decision will be reached.

In the Cyclone Belt

BEAVER CITY, Neb., June 26—Woodruff, Kansas, a reported partly destroyed by a tornado yesterday, there were no fatalities or serious injuries. Half a dozen houses and barns in the path of the storm were demolished but the inmates escaped by taking refuge in cellars.

Oklahoma Justice

WILBURTON, June 26—A mob of 50 masked men took Sylvester Stanton, a negro, known as "Alabama Red" from jail here early today and lynched him. The negro on Thursday shot and killed Albert Turner, a deputy constable who had attempted to arrest him.

Italian Emigration

ROME, June 26—The board of immigration discussed the request of steamship companies for authorization to transport immigrants to Canada. The board recommended that proper action be taken but have not come to a satisfactory understanding.

BALKED AGAIN

Resolution on Naval Defence Withdrawn

GLOBE'S EDITOR OBJECTED

REV. J. A. MACDONALD OPPOSED TO ANY DEFINITE ACTION—LORD CHARLES BERESFORD ON FUNCTION OF THE NAVAL FORCES OF COLONIES.

(Canadian Associated Press)

LONDON, June 26 — The imperial press conference today resumed discussion of imperial defence, lord Esher presiding.

The chairman told the delegates he thought it impossible to agree upon a definite scheme of imperial naval defence. "If, however," he added, "you can agree upon a plan which will give you good sailors and good officers then good ships and the right type of ships are bound to follow. Your true guides will ultimately be not the British admiralty but your own naval experts who will have learned their lessons with the main battleship fleet and who will be in touch with the strategical plans of the British admiralty and also in touch with your own sentiment and needs." The necessities of imperial military defence, lord Esher said, were summed up in the words "imperial general staff." He then urged the necessity of organizing the whole resources of the nation for defence in future wars would rest with the organization.

Lord Charles Beresford thought that the grave note of statesmen's speeches during the conference was due to the fact that the nation was not prepared for defence. He thought that owing too the deferred liabilities and other things it would be impossible for Britain to maintain the two power standard without the aid of the five sister nations. "Don't let us be in a hurry," he said, "but dont let us be too long. Let us meet together on the same platform and discuss how each can help the other." Lord Charles suggested that the overseas nations could do most by protecting the weakest places, namely the imperial trade routes. They should have mobile defensive forces and he advocated interchange of cruisers, pointing out the pleasure it would be to sailors to see Canadian or Australian ships leading the line. Having praised the personnel of the navy which had never been better in the last 15 years, he referred to the mad infatuation" which resulted in the dismantling of repairing stations all over the world. He suggested that the overseas states might put these in repair and concluded by declaring that when it comes to war the overseas fleets might come under the great strategical bureau which will be the admiralty but was not there now. (Laughter.)

Sir John French dealt with the imperial general staff in order to weld together the scattered forces of the empire, and asked the delegates to use their power in furthering that object.

Lord Charles Beresford, at the conclusion of the conference promised Messrs. Macdonald and Brierly that during his forthcoming visit to Canada he would speak at the opening of the Toronto exhibition and before the Canadian clubs of Montreal and Toronto.

Mr. Temperly moved a resolution to the effect that national defence is the most urgent question of the day for the empire.

Australian and home delegates monopolized the discussion, but towards the close Mr. Macdonald of the Toronto Globe rose and hoped the resolution would not be put because it either meant too little or too much and second because it would not express the result of the conference which he summed up as follows: "The result is that we know and see each other's standpoint and obligations and we go back with a wide outlook and a sense of empire relationship and empire obligations which can not be expressed by this reckless and pitiless resolution. The conference has not been a junket, it has been a serious affair, largely because it is not bound by any resolution and we should go back truer empire men." Referring particularly to defence he said that if Canada had 20 million people no power could wipe it off the map, but with 8 millions alongside, it behooved Canada to be wise. Their international boundary line of 2000 miles was without a gun and without a warship and he desired to see that in the interests of humanity and civilization it remained undisturbed. (Applause)

Mr. Temperly then withdrew his motion. Then, the delegates, expressing their warmest appreciation of their reception in Britain, the conference concluded with the National Anthem and cheers.

Mr. Nicholls of the Winnipeg Telegram submitted to the conference a cabled request from Hugh Sutherland of Winnipeg, chairman of the world's fair committee, to the effect that he and Mr. Dafoe of the Free Press should invite the conference to a meeting in Winnipeg in 1912. Mr. Nicholls said that if the conference would meet in Winnipeg he could assure them a warm, hearty, British welcome.

Kiffin Thomas expressed appreciation of the invitation and requested the delegates to meet subsequently and consider it.

Naval Bibliography

LONDON, June 26—Presiding at the annual meeting today of the navy historical society Prof. C. Frith suggested that the organization in concert with the kindred society in Washington might compute a naval bibliography and he thought such a work would be of the greatest value. Announcing that the state historical society in Wisconsin had joined the British society, Prof. Frith declared "The very considerable support this society received from civil institutions in the United States compares favorably with the support received in our own country and seems to tell of the great awakening of naval interest in America."

FORESTRY COMMISSION

APPOINTED TO CONSIDER AND REPORT ON SITUATION

HON. F. J. FULTON, A. S. GOODEVE AND A. C. FLUMERFELT

VANCOUVER, June 26—Announcement was made here that the provincial government had passed an order in council creating the forestry commission authorized at the last session of the legislature and appointing members. These will be three in number, Hon. F. J. Fulton, A. S. Goodeve, M.P., Rossland and A. C. Flumerfelt, Victoria.

The News-Advertiser in announcing the action of the government states that the men were chosen because of their ability to adequately measure up to the important field the commission will consider. The commission will at once start at work, collecting the data concerning the timber resources of the province and information concerning these holdings from all possible standpoints. They will make a special study of the benefits of reforestation and the institution of proper measures to protect forests from ravages by fire. Probably the most important matter on which the body will consider will be the application of loggers and millmen for an extension of timber privileges in the province whereby licenses will be practically perpetual. On this point strenuous representations were made to the government last winter, this action leading to the creation of the commission.

It is expected that after the body has gathered full information it will consider the important question and recommend legislation at the next session of the provincial legislature. Timbermen here express approval of the action of the government in appointing the commission and consider the members well qualified to take up the work. They look forward to its recommendations forming the basis of legislation of the province in its timber privileges.

TITLE COMES TO CANADA

Open Golf Champion of the United States, a Resident of Ottawa

ENGLEWOOD, June 26—George Sargent, entered from the Hyde Manor club, Sudbury, Vt., won the 14th annual open golf championship of the United States today over the Englewood club links by four strokes, his medal play total at 72 holes being 29. The outcome could not have been more surprising. Sargent a year ago was unable to qualify for the second day's play in the same event over the Myopia course and had never been considered as likely to cut any sort of a figure in such a searching test. He had done well in one or two of the Canadian championships where the field was in no way comparable to that in the United States.

Sargent is an Englishman about 30 years old who began as a caddy abroad and has lived in Ottawa for several years, but in summer is in charge of an hotel course over the Vermont line which is not listed in any of the guides. As he is accredited with the dominion players the feeling is that the title has gone to Canada. Sargent, however, is not likely to become a golfing figure in the United States. He played a splendidly consistent game throughout, his superiority being quite as marked as was that of Fred McLeod of Chicago last year. He made 72 and 71 and but for a poor choice of clubs on the 14th would have been a stroke or two lower.

Not Resigning

BERLIN, June 26 — Prince von Buelow left here today for Kiel to talk with emperor William. The journey has given rise to fresh rumors of the chancellor's resignation but in view of the official declaration this afternoon it is probable he intends only to discuss the situation with his majesty.

Good Judge of Morality

TORONTO, June 26—W. T. R. Preston, late trade commissioner, is here after two years' work in Japan. He is on his way to Europe to promote trade between the Baltic countries and Canada. Of the Japanese he says: "They are unquestionably moral, upright and industrious."

Another Woman Missing

NIAGARA FALLS, June 26 — The body of an unknown woman with the head, both arms and legs missing was taken from the river at the Maid-of-the-Mist landing, just before noon today. The body of another woman is to be seen floating in the whirlpool but it may not be possible to recover it for days.

Criminal Lunatics Escape

CONCORD, June 26—Joseph Gouin of Dover, implicated in the sensational Rockingham Cliff murder three years ago, and William Chapman of Portsmouth, today overpowered their keeper at the New Hampshire state insane asylum where they were under observation and made their escape.

Esther Elsewhere

BAKU, Russia, June 26—A brother of the millionaire oil producer, Rylsky, was kidnapped in a cab today by three men whose object it was to hold him for ransom. The police, however, traced the cab to a mountain defile, captured the kidnappers and rescued Mr. Rylsky.

IS EULOGISTIC

Big Mining Man From States Speaks of Sheep Creek

DESCRIBES MANY MINES

SAYS WILL BE GREATEST GOLD CAMP IN COUNTRY—COMPARES WITH COBALT—TELLS OF HIGH AND LOW GRADE VEINS AND SPECIAL FEATURES

Lewis Hall of New York, who is largely interested in mining enterprises has just returned from a trip of inspection at Sheep creek. Seen at the Columbia last night by a representative of The Daily News, Mr. Hall made the following statement:

"Compared with other camps which I have visited Sheep creek is far ahead because while in other districts the good properties seem to be concentrated in one or two spots and with but two or three mines in each of them, here the values are so widely distributed and the many properties having rich pay centres with ore bodies so well defined that I believe in a short time Sheep creek will be recognized both by the ultra-conservative mining engineer and by the capitalist to be one of the greatest gold camps in the North American continent.

"I inspected a number of the best developed properties and saw many others. The Nugget, which though as yet equipped with a much smaller mill than the worth of the mine justifies is developing into a very fine property. A very large amount of ore of good grade is now in sight. The Mother Lode besides having a large amount of milling ore, has a good paystreak of high grade shipping ore. This paystreak runs along the wall for very nearly the whole distance of the drift of the lower tunnel. The Golden Belle property, closely adjoining the Mother Lode and now under bond, has three very high grade true fissure veins. Though the force of men now developing it is small, I consider very good progress has been made in working this valuable property.

"One of the most remarkable features about the camp and one that does not seem to be strictly in harmony with the prevailing run of the veins, east and west, which show from two to six feet in width of comparatively high grade values is the enormous dyke of comparatively low grade ore occurring on the Twilight and Sunlight, running north and south. The former claim is two miles east of the Columbia mill and the Sunlight is about 1500 feet above the lower line of the Twilight. This dyke appears to be from 60 to 70 feet wide and runs about 1000 feet up the mountainside. It is a magnificent proposition with the opportunity for a big air compressor with water power and a correspondingly large mill. The ore can be quarried and delivered directly to the mill. In addition to this dyke there is a true fissure vein of high grade ore characteristic of the district running east and west and crossing the dyke at the upper end of the Twilight.

"The Columbia group is being developed under the management of J. L. Warner in connection with eastern capitalists. The main tunnel on this property is now about 190 feet with an upraise to the surface. The vein on the Columbia is the regular east and west true fissure vein of the camp and carries good values in gold. The vein varies from 18 inches to about five feet in width while the country rock, quartzite, carries small values near the vein. The vein itself runs well in values. The fact that even the country rock carries a small value is very surprising fact to me as it is one of the few places in British Columbia or the western states where I have known such to be the case. One of the few other places on this continent is at Cobalt which camp I have studied closely. I believe that further development of the Columbia will show that it is one of the best properties on the creek, the character of the ore resembling closely that of the Queen mine. The Columbia is equipped with a gravity tramway which is connected with a 14-stamp mill. This mill is in a position to serve as a union mill for both the Columbia and Kootenay Belle mines which lies just across the creek to the south and which is connected also by an aerial tram with the mill.

"The Queen is one of the oldest mines in the camp and is the lowest in elevation on the creek. It is equipped with a 20 stamp mill and a 165 horse power air compressor and has up to date produced over $60,000. This is an example of the reward to be gained by persistency in development rather than by the expenditure of large capital and has done much to prove this gold camp. I consider the Queen a very rich property. It demonstrates that contrary to the opinion of many experts that the ores at Sheep creek will become base and refractory with depth. The Queen which is the lowest situated in the camp and has already reached a depth of 180 feet below Sheep creek itself is recovering at least 50 per cent of its values in free gold on its plates, the balance going into the concentrates and tailings. This satisfies me that in all reasonable probability, based on relative elevations that the Nugget mine can go down some 2800 feet, the Mother Lode 2600 feet, the Columbia about 1600 feet, and the Golden Belle about 1000 feet, the Kootenay Belle with its two upper veins about 1000 feet and its largest lower vein, a continuation of the old Yellowstone, about 6000 feet, and the Twilight and many other properties from 5000 to 1000 feet in depth before meeting any condition of baseness more severe than that which now confronts the Queen. In my opinion the answer is in the negative to the question "Do the Sheep creek veins become base or lose value with depth?"

"One of the most interesting properties in the camp is most appropriately named the Kootenay Belle. It is certainly the belle of West Kootenay. I firmly believe that in the next few years it will be recognized as the equal of the famous mines which made Rossland, the Le Roi and War Eagle. The Kootenay Belle is on the north side of Sheep creek and has on it three veins. The lower vein is a continuation of th Yellowstone which produced $180,000 and was the first property opened up at the camp. This vein will be tapped by a short tunnel close to Sheep creek. The two upper veins are respectively from six to seven feet and two feet six inches in width. The larger vein is of medium grade while the smaller vein carries from $5 ato $200 to the ton. These two veins I have traced for about 1800 feet through the property where at a point east of the main workings they apparently come together. Though this property has a record of $76,000 produced mining on it has as yet barely commenced. What the property needs is an air compressor and deeper development.

"There is ample power on Sheep creek to make possible a great gold production from the camp. The country is well timbered, ample for mining purposes. I have recently paid a visit to Cobalt and I do not consider that the last named place with its rich narrow ledges will become as great a camp as Sheep creek is destined to be when deep development operations are undertaken and its large veins of gold, a metal of non-fluctuating value, are opened up."

Mr. Hall was in Rossland and Slocan in 1896 and while in the latter place took a bond on the old Fresno which has now been developed into the Whitewater Deep. He has also spent much time in Cariboo and Rainy Lake counties and at Seven Devils, Idaho, and his opinion of Sheep creek should be both reliable and valuable.

PRAISE FOR JAPANESE

IMPARTIAL TESTIMONY TO GOOD WORK IN KOREA

HONESTY AND INTELLIGENCE ARE THEIR CHARACTERISTICS

TOKIO, June 26 — Before leaving Seoul for the northern part of Korea today former vice-president Fairbanks of the United States, prepared the following statement giving his impression of the Japanese rule in Korea. He said:

"The political, social and industrial condition of Korea is improving and this improvement commenced with the the establishment of the Japanese protectorate. Much of this progress was made under the far sighted statesmanship of prince Ito. The regeneration of this country has been well started and I find every other evidence of the high purpose of Japan towards Korea and the Koreans. The Japanese are devoting their energies to the development of the natural resources of Korea and in this connection I was glad to find that 75 per cent of the mineral products are controlled by Americans. In conclusion I will say education and honesty are the prime essentials necessary for the complete regeneration of Korea and both of these are being given by the Japanese."

Wasted Time

NEW YORK, June 26—Karlos Somouy, a second cabin passenger on the steamer Kaiser Victoria, which arrived today from German, English and French ports, jumped overboard in mid ocean and was lost. He was seen making the plunge and a life buoy was thrown to him, followed by the launching of the life boat which continued its search nearly an hour without once getting sight of him. Somouy was an native of Australia and was believed from his actions previously to committing suicid to have become insane.

More Trouble in Persia

ST. PETERSBURG, June 26—The situation in Persia is regarded as quite serious and as the Russian forces there are likely to prove insufficient in case the disorders spread, there is a possibility that a column will be sent from the Caucasus to Teheran as the troops at Tabris cannot be spared. One hundred Cossacks have arrived at Mesh. Special despatches from Tabriz say the Russians are making large numbers of arrests and also are searching houses and confiscating arms.

Agree as to Crete

PARIS, June 26—According to the Temps the four protecting powers of Crete, France, Great Britain, Russia and Italy, reached complete accord in regard to the future of the Island. They have decided to withdraw the international troops from Crete on July 22. At this time they urge the Cretans, Turkey and Greece to remain calm. A proclamation to this effect will be issued to the Cretans while Turkey and Greece will be advised through the regular diplomatic channels.

One Horse Killed Another

LYNCHBURG, W. Va., June 26—Glenwood, a famous stallion which was imported by James R. Keene, engaged in a battle yesterday at Forest near here on the farm of David Radford, with Champion, a heavier stallion and was killed. Champion secured a hold on the other stallion's throat which he held until he dropped dead.

Sailed for Europe

NEW YORK, June 26—Mrs Theodore Roosevelt sailed for Europe today, accompanied by her daughter, Ethel and her two sons

WORKING WELL

Activity in Mining Steadily Increases

SHEEP CREEK PROGRESS

BIG PAYMENT MADE YESTERDAY ON KOOTENAY BELLE—IMPORTANT DEVELOPMENTS PROMISED IN CONSOLIDATED MINING AT SHEEP CREEK

J. L. Warner, F. M. Black and Dr. F. E. Morrison made the third payment, of $5,000 on the Kootenay Belle mine at Sheep creek, owned by Thomas Bonner and R. M. Billings. The payment was due this until tomorrow. This payment practically assures the ownership of the property remaining with Mr. Warner and his associates who have successfully financed it during the past year by means of the practical operation of the mine with small equipment. During the past week the mill returns have averaged $60 per day, and in the opinion of a leading operator who examined the property at the mine needs to rank with the adjacent Queen, which has produced half a million dollars, in the way of production is a large compressor plant. He regarding the production so far as extremely conservative the lack of equipment and he considered that it spoke for itself concerning the possibilities for limited capital at the camp when the assistance which in most cases has received from the ore taken out during development work was taken into consideration.

This expert further stated that when the immense quartz showings of the district now lying undeveloped, but in close proximity to the established producers could have the advantage of outside power for mining by machine drill, he considered that a new era would follow and that the production from Sheep creek would be large enough to attract capital in unlimited sums to what would be recognized as the great gold camp of the west. This view is supported by the fact that recently the camp has been inspected by several other experts of long experience who have advised their clients to invest in one or more of the properties at present lying undeveloped.

A noted operating engineers with large interests in Mexico will arrive this week and it is anticipated that his visit will result in a consolidations of mining interests at a central point at the creek on a larger scale than has heretofore been possible. This will mean the bringing in of electric power from some suitable source and should almost inevitably result in a remarkable era in the development of the camp.

During the past week an important strike was made on the Golden Belle at Sheep creek. Two ledges had previously been laid bare and had shown excellent shipping and milling values. A third ledge was, however, discovered showing about 11 inches of $10 ore and about 12 inches of $40 milling ore.

A rich discovery was also reported on the Gold Note, near Eagle creek, and some magnificent samples of free milling quartz were brought in to the city. The specimens shown were joined together by threads and small veins of pure gold.

It was announced that the reorganized Dominion Copper company at Greenwood intend to open up their properties in August.

Rossland shareholders in the Le Roi mine have received a circular in which it is stated that the necessary arrangements have been made whereby an extensive scheme of development may be carried on and that work in connection therewith will commence without delay.

The shipments for the week were several thousand tons above the average for the year.

The following are the ore shipments for the week and year to date:

BOUNDARY SHIPMENTS.

Granby	19,700	801,238
Snowshoe	2,521	38,906
Other mines		3,152
Total	22,221	843,296

ROSSLAND SHIPMENTS.

Centre Star	4,196	80,211
Le Roi No. 2	422	15,519
Rise Bird	21	21
O. K.	4	12
Le Roi No. 2, milled	200	11,508
Other mines		3,042
Total	5,842	110,313

SLOCAN KOOTENAY SHIPMENTS.

Hope	120	679
Lucky Jim	120	700
Queen, milled	420	15,290
Granite-Poorman, milled	200	4,190
Whitewater Deep, milled	200	17,300
Kootenay Belle, milled	70	1,710
Second Relief, milled	115	1,655
Nugget, milled	120	2,700
Blue Bell, milled	300	20,100
Gold Note	4	4
St. Eugene	867	30,329
Yankee Girl	10	312
Silver King	48	1,407
Whitewater Deep	45	1,305
Rambler Cariboo	21	212
Other mines		3,681
Total	3,859	98,239

Total shipments for the past week were 31,921 tons and for the year to date 726,-238 tons.

GRANBY SMELTER RECEIPTS.

Grand Forks, B. C.

Granby	19,700	801,238
Other mines		779
Total	19,700	801,998

CONSOLIDATED C.O.B. RECEIPTS.

Trail, B. C.

Centre Star	4,196	80,211
Snowshoe	2,521	38,906
St. Eugene	867	30,329
Le Roi No. 2	422	15,519
Yankee Girl	10	311
Silver King	48	1,407
Whitewater Deep	45	1,305
Rambler Cariboo	21	212
Blue Bird	21	21
Gold Note	4	4
O. K.	4	12
Other mines		9,090
Total	8,159	176,427

The total smelter receipts for the last week were 28,619 tons and for the year to date 904,425 tons.

Anti-Smoke Congress

SYRACUSE, June 26—The convention of the international association for the prevention of smoke finished its business today and adjourned. Minneapolis was chosen as the place for the convention the last week of June, 1910. O. T. Higgins of Syracuse was elected president; C. A. Byrne, Minneapolis vice-president; R. C. Harris, Toronto, secretary-treasurer.

There Is Nothing You Can Want in Flour That You Don't Get Best in ROBIN HOOD

What is it you want in a flour? You want a flour made of the very best wheat, of wheat that has most of the "food-quality all wheat possesses. You want flour that has been made honestly, that will make light, wholesome, sweet bread. You want flour that is dependable, always the same, always good.

You get all these "wants" in Robin Hood flour. It satisfies these requirements better than any other flour. In no other way can the immense, instantaneous success of Robin Hood flour be explained.

Did you ever hear of a flour becoming as quickly and widely popular? Right in this city it is being used in hundreds and hundreds of homes where the housewives KNOW that they are having better results with it than with the flour they used to use.

This being the case, is it not time that you should test "Robin Hood" flour? Your money refunded if you have two unsatisfactory trials. That is our guarantee.

Now Is the Time--Not Later On--When You Should Be Using Robin Hood Flour

HORSE CREEK ACTIVITY

MORE CLAIMS LOCATED ON SHEEP CREEK CAMP

CERTIFICATES OF WORK GRANTED AND TRANSFERS

The chief prospecting activity last week was around Wild Horse creek, in the Sheep creek district.

The following newly located claims were registered: The Monogram, near Silver King tramway, by Jamie Mckiernan; the Lalone, Sheep creek, by William Kennedy; the Maple Leaf, on Pawn creek, by Joseph Leahy; the Vulture, on Sheep creek, by G. Loure; the Mayflower, on Pawn creek, by William Kennedy; the True Blue, on Wolf creek, by S. N. Hoss; the Second to None, the Golden Gate and the Puritan, on Wolf creek, by P. Cashin, S. White and A. N. Greadhome; the A. X., on Wild Horse creek, by G. Walker; the Stewart, on Wild Horse creek, by W. F. Stewart, J. Stewart and A. McDonald; the Lizer Mint, on Wild Horse creek, by Charles Desrosiers and O. E. Paulin; the Montreal, on Wild Horse creek, by Charles Desrosiers; the Florence, on Cottonwood creek, by T. Moran; the Little Eva, on Cottonwood creek, by J. Hargreaves; the Happy Boy, on Wild Horse creek, by J. B. Brenner; the Happy Girl, on Wild Horse creek, by T. Williams; the Minnie Ha Ha, on Evening mountain, by J. A. McAlman.

Certificates of work were granted to: H. N. Ouisette for the Shamrock, R. W. Miffin for the Stanford, Miami and Royal Canadian; John McFoy for the Royal Chance and John F. C. Orton for the Allin fractions No. 2; J. Bernard for the Second Treble, Harry Jackson for the Gold Hill, William Allen for the Mule King, J. Erickson for the Eugene, W. H. Moore for the Selina and Helena and to H. C. Donaldson for the Shamrock.

One-half interest in the Gold Drop fractional, the Gold Hill and the Morning fractional, on Wild Horse creek, were transferred from William Blair to Harry Jackson.

Succeeds His Brother

BOSTON, June 26—John Dovey was elected president of the Boston National baseball baseball team today to succeed his brother, George Dovey, who died on a train in Ohio last week. John Dovey has been secretary and a director of the club for the past three years.

Beats the Kaiser

KIEL, June 26—At the continuation yesterday of the races at the Kiel regatta the weather conditions were favorable to the sport and the wind at times died down to almost a calm. In the race for A1 yachts only three boats were entered, the Meteor IV., with emperor William at the wheel; the Hamburg, which was sailed by A. T. Taelgens, and the Germania, which had as its skipper Lieut. Krupp von Bohlen and Halbach, the husband of Bertha Krupp. The contest was very fast and it was won by the Germania with the Hamburg second and the Meteor IV. third.

Arlington Selling Plate

SANDOWN PARK, June 26—The Arlington two year old selling plate of 200 sovereigns, distance five furlongs, was run here today and won by Sun Drop. Pine Knot was second and Marquette third. Among the fifteen starters was August Belmont's Burman.

The Rookery two year old maiden plate of 200 sovereigns, distance five furlongs, yesterday was won by Santa Contessa, Sun Spot das second and Sylvaple third. Among the 24 starters were August Belmont's Naiob, H. P. Whitney's Trocoset and C. Carroll's Torchbearer.

Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all Druggists and Dealers.

BACK FROM OLD COUNTRY

R. G. JOY HAS A MOST ENJOYABLE TRIP

RECEIVES A LETTER FROM KING EDWARD

R. G. Joy has returned to the city' after a three months' trip to the old country. Seen by a representative of the Daily News yesterday, Mr. Joy stated that he had a wholly enjoyable time. It had been his first visit to England since leaving there 17 years ago, 16 years of which have been spent in British Columbia.

Mr. Joy's trip was not by any means without incident as besides visiting the majority of the sights in England and Scotland he had the honor of receiving a letter from his majesty king Edward, thanking him for a letter of congratulation on the victory of Minoru in the Derby. Mr. Joy in writing to his majesty told him of the loyalty with which he was regarded by all good Canadians and spoke of the usual parting joke from Canadians to one of their number when leaving for a visit to the homeland: "Give my kind regards to King Ed." The letter evidently resulted in his majesty taking unusual interest in Mr. Joy as one of his subjects from across the water. The letter of thanks sent was but another instance of the graciousness of the king to his many millions of subjects.

Among the places taken in by Mr. Joy were Edinburgh, where he went over the famous Holyrood castle, the one time home of Mary Queen of Scots and the scene of so many incidents in her checkered career; Staffordshire, Derbyshire ,and the Forth bridge. At the latter place he was taken over the Shannon, one of the latest British cruisers, which carries a crew of 837 men and was also shown over a couple of torpedo boat destroyers. In London he saw the Tower, the National Gallery and most of the other sights for which the metropolis of the world is so far famed. Mr. Joy also visited the Dalton potteries where he was most interested in the wonderful work turned out. An example was a huge jug with a capacity of 500 gallons which had been made by hand on the potter's wheel for a chemical factory in Scotland. The balance of the time was spent by Mr. Joy at his home in Kent.

With regard to the general conditions Mr. Joy found that there was a certain amount of genuine unemployment but there were also a very large number of men crying for work who were either incapable or worthless. Everywhere he saw signs of the progress of tariff reform, it was being spoken of everywhere, in the country taverns and inn, in the large cities and especially among all kinds of small tradesmen and the laboring classes. The farmers were everywhere in favor of the change.

Mr. Joy crossed the ocean on both occasions on the Allan liner Victorian and was very pleased with the accommodation provided. On the boat returning were no less than 19 English and Scotch girls who were coming out to marry men who had left the old land a few years previously and had made homes in Canada. The vessel was crowded with emigrants, the majority of which seemed to be of a highly desirable class. The greater number of these seemed to be going to the prairie provinces but a good percentage were coming to British Columbia.

Mr. Joy while in England was deluged with enquiries about this province and particularly with regard to the fruit growing industry. He visited the emigration offices at Charing Cross and was informed that crowds of people came in every day and asked for particulars about British Columbia and he noticed that an even larger crowd was to be continually seen outside the offices looking into the windows where was shown an exhibit typical of the country.

Mr. Joy has brought back with him a very interesting photograph of Nelson which was taken by George Neelands in 1891 and gives an excellent idea of the vast progress which has been made by the city in the 18 years. The photograph is Mr. Joy's possession is a copy of one which was sent over by him to his people in 1893.

Why Christie's Biscuits are the best

GOOD BISCUITS are made by more than one or two manufacturers, and can be baked from any one of a few excellent brands of flour, but the Christie way is different.

The best millers in Canada ship us samples of their flour twice a year, or oftener. We test the samples and select the best brands for our purpose.

We blend the brands which we have proved best—keep on blending and testing by actual baking until we get a dough good enough to sustain, or better, the Christie reputation.

Every ounce of raw material is carefully analysed before it can pass into the mixing room.

The best sugar, pure, fresh creamery butter, new sweet milk and delicious cream—these pure ingredients mixed with our blend of flour, in the Christie scientific way, yields that delightful, appetising crispness and delicate flavor which has made

Christie's Biscuits

favored above all other table dainties from ocean to ocean.

Yes, Christie's are the best biscuits money can buy, yet they cost no more than just ordinary biscuits.

A $100 Typewriter for 17 Cents a Day!

Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the $100 machine—the most highly perfected typewriter on the market—yours for 17 cents a day.

The typewriter whose conquest of the commercial world is a matter of business history—yours for 17 cents a day.

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard"—all

Yours for 17 Cents a Day

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment —then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages ,all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

The OLIVER Typewriter

A Quarter of a Million People Are Making Money with

The Standard Visible Writer

The Oliver Typewriter is a money-maker, right from the word "go." So easy to run that beginners soon get in the "expert' class. Earn as you learn. Let the machine pay the 17 cents a day—and all above that is yours.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably above those of many classes of workers.

"An Oliver Typewriter in Every Home"

That is our battle cry. We have made the Oliver supreme in usefulness and absolutely indispensible in business. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the hometraining of young people. An educator as well as a money maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address

UNION LABEL NELSON, B.C.

FORESTRY COMMISSION

The announcement of the appointment of the government's forestry commission will be received with general satisfaction throughout the province. Of the wisdom of the government's course in appointing such a commission there can be no two opinions and the feeling will be equally strong that it has selected the right men to constitute the board. Hon. F. J. Fulton, Mr. A. S. Goodeve, M.P. and Mr. A. C. Flumerfelt are all men who can be relied upon to bring ripe judgment and a thorough grasp of the situation as it presents itself to the discharge of their duties

The importance to the province of the work of this commission cannot be over-estimated. Timber constitutes one of British Columbia's chief natural resources. It is one, however, of which the greatest care must be taken. Mistaken policy or carelessness on the part of the government would in a comparatively few years kill for good and all an industry that should, and otherwise would, be one of the province's chief resources for all time to come. The government's policy, it is recognized by premier McBride and his colleagues, should be to preserve the province's timber wealth as far as lies in its power. ...as it can do in many ways, by care in the issuing of leases of timber lands or permits to cut timber as the case may be, putting in force regulations which will encourage the present holders of timber lands to reserve them as far as possible for the future, cutting only what is actually required to meet the present needs, the prevention by every means possible of forest fires, the protection of young trees in the course of lumbering operations and the adoption of a scheme for reforestration, where necessary. The question of preserving the timber on land now under lease brings up the whole question of the length of these leases, whether they are to be continued as at present for 21 years or made perpetual.

These are some of the things which the commission will be called upon to consider and advise the government upon. The finding of the commission, therefore, is certain to be an important one and the personnel of the board is an assurance that it will be a practical and wise one.

SETTLEMENT IN SIGHT

At last there is some real prospect of a settlement of the strike in the coal mines of eastern British Columbia and western Alberta, and in a few days at the outside, it is likely, operations will be resumed. This will be welcome news to the people of western Canada generally, but to none more so than to those of the Kootenay and Boundary countries. It means increased activity in mining and smelting and the various industries and interests allied with or dependent upon these and also provides an assurance of a sufficient coal supply for next winter.

The settlement, if the present prospects result in one, does not come a day too soon, but on the other hand is just about three months too late. Since April 1 the mines have been idle and the men out of work and the net result appears to be, so far as can be judged from this distance, that both parties are exactly where they were before the struggle began. In the meantime the men have lost several hundreds of thousands of dollars in wages and the companies have lost correspondingly through their properties being idle. But, much as the principals in the fight have suffered, the public has suffered still more as a result of the strike, which has seriously affected business and industrial life of the two provinces and has interfered with it to a considerable extent in another, at least.

The circumstances are especially deplorable, because, so far as the public knows, there was no real necessity for the strike. If a board of arbitration was required to settle the differences between the men and their employers, it could just as well have been asked for on April 1 as two months later. Had conciliatory measures been adopted at the start, instead of an autocratic order to strike being given, all the loss to the men and companies and, what is more important, to the country and its industries might have been avoided. The present strike and its results should be a lesson to all concerned that when next there is a difference between the coal miners of eastern British Columbia and western Alberta and the coal companies operating in these districts all peaceable means should be exhausted before a strike is resorted to.

Rubber Burned

TRENTON, June 26—A considerable portion of the plant of the Trenton Rubber company, situated outside of this city, was destroyed by fire early today. The loss is about $100,000.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price, 25 cents; large size, 50 cents. Sold by all Druggists and Dealers.

Minard's Liniment Co., Limited

Gents,—I have used your MINARD'S LINIMENT in your family also in my stables for years and consider it the best medicine obtainable.

Yours truly,
ALFRED BOCHAY,
Proprietor Rexton Pond Hotel and Livery Stables.

BRADSTREET'S REPORT

Trade Conditions Excellent—Calgary And Vancouver Gains

MONTREAL, June 26.—Bradstreet's statement of trade says: In Canada conditions and trade reports are favorable although business at some country points is quiet, owing to farmers being engaged in field work. Montreal reports improvement in all lines of retail better demand for hardware, brisk business in summer wear and dry goods.

Business failures for the week ending Thursday number 30, which compares with 28 last week and 21 in the same week of 1908. Bank clearings at thirteen cities for the week terminating last Thursday aggregated $84,216,000, a loss of 6 per cent. against last week a gain of 25 per cent. over last year.

The weekly bank clearings were as follows:

	Amount	Inc.	Dec.
Montreal	$21,488,000	15.1	....
Toronto	20,861,000	30.8	....
Winnipeg	11,296,000	21.5	....
Vancouver	3,962,000	42.5	....
Ottawa	2,806,000	....	19.1
Quebec	1,291,000	14.0	....
Halifax	1,812,000	2.8	....
Hamilton	1,600,000	7.8	....
St. John	1,210,000	....	2.5
Calgary	3,204,000	89.2	....
London	1,215,000	25.1	....
Victoria	1,730,000	70.5	....

Doesn't Matter How

NEW YORK, June 26—Believed to have been struck and killed by a train on the New York Central railway, two men were found lying dead in a sewer excavation along the tracks near North Bridge today. One of the victims was identified as H. E. Varian, 44 years old, a New York Central engineer of Bronx borough. The other man is not known. The indications are that the men while walking from the track had been hit by an electric car.

THE BEST REMEDY

For Women—Lydia E. Pinkham's Vegetable Compound

Belleville, Oct.—"I was so weak and worn out from a female weakness that I concluded to try Lydia E. Pinkham's Vegetable Compound. I took several bottles of it, and I gained strength so rapidly that it seemed to make a new woman of me. I can do as good a day's work as I ever did. I sincerely bless the day that I made up my mind to take your medicine for female weakness, and I am exceedingly grateful to you for your kind letters, as I certainly profited by them. I give you permission to publish this any time you wish."—Mrs. Albert Wickett, Belleville, Ontario, Canada.

Women everywhere should remember that there is no other remedy known to medicine that will cure female weakness and so successfully carry women through the Change of Life as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

NEWS OF THE DOMINION

WINNIPEG, June 26.—Western Canada is being favored with splendid rain. The rain started last night and is general over Manitoba, Saskatchewan and parts of Alberta. Portage La Prairie, Hamiot, Morden and other parts report about one inch of rain. Farmers are jubilant over the prospects of heavy yields of all kinds of grain.

MONTREAL, June 26.—Arthur Boyer, who was minister without portfolio in the Mercier government in 1890, has been called to the senate in place of the late Senator J. R. Thibeau, sheriff of Montreal.

VANCOUVER, June 26.—The exhibition association decided tonight on October 4, 7 and 8 as dates for the first annual exhibition under its auspices. There will be $20,000 in cash prizes.

Mr. Walter Boyd, a pioneer resident of Vancouver, died yesterday morning at Sechelt.

Peace in Steel Trade

CAMBRIDGE SPRINGS, Pa., June 26—The representatives of the western steel workers who have been conferring for three days on a wage scale to govern the wages of the iron mill employees this year and next reached an agreement late last night. The prices agreed upon are practically the same as those that prevailed during the past year. Ten thousand men are affected.

Ask for Minard's and take no other.

END OF THE TRAGEDY

BURIAL OF DEFAULTER, MURDERER AND SUICIDE

MOTIVE FOR LAST CRIME MAY REMAIN A SECRET

ST. MICHAEL'S, Md., June 24—Without ceremony and in the quietest and most unostentatious manner possible, the body of Robert H. Eastman, "Jame Bob" the New York stock broker, the man who murdered pretty Edith Woodill, and then committed suicide, will be buried this afternoon at the expense of Talbot county. The farm near Bozman where Eastman had made his home during his recent stay in this vicinity and in the bungalow in which the murder took place will be the scene of the burial. No church here will permit the body of the suicide to be buried within its graveyard and the authorities are forced to seek a resting place for it on the farm of the man himself. Already the bungalow and farm from being a Mecca for curiosity seekers is becoming shunned. People dread even to drive by it and no one is willing to visit the place alone. That the dead man, whose sensational taking of his own life yesterday, was really "Jame Bob" Eastman the fugitive New York broker, is now established beyond all question of a doubt, for the body was positively identified this morning. Even before this identification, however, the state attorney and local authorities felt pretty certain of the identity of the dead man for Mrs. Eastman or Miss Bradcomb, had practically admitted from New York that from descriptions printed, the man was her fugitive husband. She was asked by wire to come here but she said she was unable to do so. The detectives here are working on the case in a desultory manner and there is promise of some developments in the case. The story of the drunken row told by Eastman in his letter to his wife has caused a sensation here and efforts are being made today to locate members of a party of four or five people who are said to have left here on a launch the day after the supposed time of the murder of Mrs. Woodill.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by all Druggists and Dealers.

Actors Threaten Strike

CHICAGO, June 26—A strike of more than 50,000 actors playing on the American stage was threatened by Harry Mountford, secretary of the board of directors of the White Rats at a large mass meeting. He says they have not been receiving a square deal and that if conditions did not change in the near future a walk out of the entire organization would take place

SHERIFF'S SALE.

By virtue of several executions issued out of the Supreme Court of British Columbia, and the County Court of East Kootenay, hereto at Cranbrook against the goods and chattels of the Sullivan Group Mining Company, I have seized and taken in execution all the right, title and interest of the said Sullivan Group Mining Company in and to, a quantity of raw and roasted ore, now in the yard of the smelter of the said Company at Marysville, B. C., and also in a large quantity of mining tools and mining machinery, assay materials, supplies and implements, fire brick and fire clay, Vancouver cement Allis and Chambers ore crushers and various other articles and supplies for mining and smelting, office furniture, cooking utensils, and other goods and chattels, a full inventory of which may be seen at my office in the Court House at Nelson, and the various goods and chattels may be seen upon application to John F. Adams, bailiff, in possession at the smelter at Marysville, and at the Sullivan mine.

I shall offer all of the said goods for sale at public auction at Marysville, B. C., on Thursday the 22nd day of April, A. D. 1909.

S. P. TUCK,
Sheriff of South Kootenay.

Dated at Nelson, B. C., 2nd April, 1909.

The above sale is postponed until Thursday the 6th day of May, 1909, at the same place and time.

S. P. TUCK, Sheriff of South Kootenay.

The above sale is further postponed until Thursday the 13th day of May, 1909, at the same place and time.

S. P. TUCK,
Sheriff of South Kootenay.

The above sale has been further postponed until Tuesday the 22nd day of June, 1909, at the same place and time.

S. P. TUCK,
Sheriff of South Kootenay.

The above sale has been further postponed until Tuesday, the 6th day of July, 1909, at the same place and time.

S. P. TUCK,
Sheriff of South Kootenay.

Are You Always Lucky in Lotteries

You may perhaps have your prescriptions FILLED. You may perhaps take the medicine according to your physician's orders.

BUT

Do you know that you are getting what your physician prescribes. Do you know that your prescriptions are correctly compounded?

You Would Be More Satisfied

If you knew the hand of an EXPERIENCED DRUGGIST served you. If you knew that DRUGGISTS that make a specialty of prescription work are left entirely in charge of your wants. If you know your physician's instructions are carried out to the letter.

Your Physician Appreciates

Our knowledge of our business. Our never-failing attention to his patients. Our up-to-date methods of compounding prescriptions. Our promptness in the execution of his orders.

OUR STORE IS HERE FOR YOU—TAAKE ADVANTAGE OF IT.

A Word About Stationery

We carry a line of Pads and Papeteries that cannot be excelled. Our goods are specially selected. The prices will surprise you. You will be bewildered when you compare our goods. You will wonder why you did not come here long ago.

IN ADDITION TO THIS—We have everything you need in the line. It is a pleasure to show you our exquisite assortment of fancy papers.

Yet Another Stronghold

The exceptional distinction of BUTTERCUP ICE CREAM. The WANT MORE flavor of Butter-Cup is what makes it popular. We are sole agents for this cream—You can't get it elsewhere. Ask for it. Insist on having it if you want the very best.

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent.

Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

If It Is Nice, Fresh Juicy Meat, We Have It.

Spring Veal, Lamb, Mutton, Pork, Beef. Everything slaughtered here and handled in an up to date plant.

NELSON NEWS OF THE DAY

His Honor Judge Forin will hold chambers tomorrow morning.

The stonecutters will meet tomorrow night in Miners' Union hall.

The city council will meet tomorrow evening at 8 o'clock in the city hall.

I. O. O. F., Kootenay Lodge No. 16, will meet in Oddfellow hall tomorrow night.

The Women's Auxiliary of St. Saviour's church will hold a garden party at the residence of Mrs. Barnhart on Tuesday, July 5.

The water during the 24 hours ending at 6 o'clock yesterday morning fell 2 1-2 inches, reducing the total rise to 17 feet as recorded by the Lindsay Launch and Boat company's gauge.

The examinations for entrance to high schools in the urban centres in Kootenay inspectorate will be held tomorrow and the two following days. The examination of high school pupils and for teachers' certificates will begin on July 5.

A quiet wedding was solemnized at St. Saviour's church by Rev. F. H. Graham yesterday morning, June 26, when David Bryce Gillespie of Fruitvale was married to Miss Louisa Gwendoline Williams of London, England. Claude A. Hastings acted as best man and Miss Josephine Stewart as bridesmaid. The bride was given away by H. A. Stewart. The happy couple left the same morning for their home at Fruitvale.

The Empire theatre is putting on an entire change of program for Monday and Tuesday and the program chosen is an excellent one. "Spending a Holiday" and "The Timid Dealers" are two screaming 15 penny pictures. "A Daughter of Erin" and "A Sister's Crime" are two very fine dramatic pictures, but the gem of the program is the fine film "From Quebec to Niagara Falls." In this is shown some truly magnificent views, the photography being superb. Starting from the ancient city of Quebec, after taking a look at some of the principal streets, one travels on the mighty St. Lawrence coming to the famous Lachine rapids, which are splendidly shown. Further on the journey one is shown the very beautiful scenery of the 1000 Islands and later the south shore of Lake Ontario. Coming to the falls one is shown views from both the American and Canadian sides. Goat island, the Horseshoe falls, the Maid of the Mist, the "Buffo" and railroad bridges across the Gorge, and the gorge itself with its tumbling waters are all shown. To those who have seen the falls this is a chance to renew a very pleasant trip, but to those who have never had the pleasure of seeing this part of Canada it is a chance that should not be missed. For a few cents one can take this famous trip and see one of the seven wonders of the world. The children should especially be given an opportunity of seeing this picture as it will give them an intelligent appreciation of their geographical studies. Many thousands travel many miles every year to see Niagara Falls, but the people of Nelson have a chance to see them in all their wonderful beauty without leaving their home city.

A private sale of furniture will be held at 129 Stanley St., corner Observatory, on Wednesday the 28th inst. from 8 a. m. to 7 p. m.

In winding up the first day's celebration don't forget the Dominion Day ball at the Eagles' hall. Admission $1.00 for gentlemen, ladies free.

For Dominion Day, July 1, the Canadian Pacific Railway company announces a rate of fare and one-third for the round trip. Tickets will be on sale June 30th to July 1st, inclusive, good to return until July 2nd.

The day's celebration on Thursday concludes with a ball and concert at Eagles' hall. Lunch will be served at any time during the evening; coffee and sandwiches, ice cream and cake. Williams's orchestra.

Church Services Today.

All changes for church service announcements must be handed in or phoned to The Daily News before 4 o'clock on Saturday. If not received by this time the notices will be omitted from Sunday's issue.

The services announced for today in the churches of Nelson are as follows:

ANGLICAN—St. Saviour's church, corner Ward and Silica streets. Third Sunday after Trinity. 11 a. m. Holy Communion; 11 a. m., Matins and Litany; 2.30, Sunday school; 7.30, Evensong. Rector, Rev. F. H. Graham.

ROMAN CATHOLIC—Church of Mary Immaculate, corner Ward and Mill streets. Low Mass, 8 a. m.; High Mass, 10.30 a. m.; evening service, 7.30. Rev. Father Althoff, priest, will preach at all services.

METHODIST—Services held in Trinity Methodist church, corner Silica and Josephine streets. Morning service, 11 o'clock, subject, "Turning Back to the Day of Battle." 2.30, Sunday school and Bible classes; evening service, 7.30, subject, "Rising in the Dark." Rev. R. Newton Powell will preach at both services. R. Newton Powell, pastor.

SALVATION ARMY—Barracks on Victoria St., west of Josephine. Knee drill, 7 a. m.; holiness meeting, 11:00 a. m.; praise meeting, 3:00 p. m.; evening service at 7:30 o'clock. J. K. Gosling, Adjutant.

BAPTIST—Stanley Street, near Mill. Morning service 11 a. m. Evening service 7.30; Sunday school, 2.30 p. m. Rev. A. N. Frith, pastor.

PRESBYTERIAN—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a. m.; Sunday school, 12.15 a.m.; men's Bible class, 10 a. m. Evening service 7.30 p. m. Rev J. T. Ferguson, pastor.

CHRISTIAN SCIENCE—Service at 11.30 a. m. and 7.30 p. m. in the Conservatorium church, corner Stanley and Silica streets. Subject of lesson, sermon, "Christian Science." Wednesday evening service at 8 p. m. Reading room open every day at same address from 2 to 5 p. m. Visitors heartily welcome.

NELSON NEWS OF THE DAY

G. D. Bell of Salmo is at the Hume.

J. P. Bell of Erie is at the Strathcona.

A. B. Buckworth of Ymir is a guest at the Hume.

There will be no shooting at the range this afternoon.

Frank Hawkins of Ottawa is among the guests at the Strathcona.

This is patriotic Sunday in the Presbyterian churches of Canada.

The temperature in the city yesterday ranged between 45 and 59 degrees.

Born, on June 24, to the wife of S. Cummins, Victoria street, a daughter.

S. S. Fowler of Rossland came in yesterday and registered at the Strathcona.

The winning number in the weekly prize drawing at Weir's shoe store is 217.

W. F. Teetzel came in from Cranbrook last night and is staying at the Strathcona.

Mrs. Fred Chapman and children of Fairview leave this morning to visit relatives in Moyie.

Rev. A. S. Frith's subject today will be, morning: "The Harvest of the Spirit;" evening: "The Name to Honor."

Miss Alice McLynn, Miss Hulberta Shaw and Miss McCreath of Greenwood are guests at the Strathcona.

The Nelson committee of the Canadian Bible society will meet in St. Paul's Presbyterian church hall tomorrow at 3 p. m.

Dr. W. H. Wilson left for Vancouver last night on a trip to the Seattle exposition. He will return to Nelson on July 10.

A. L. Peake of the new Davenport Cafe, Josephine street, announces that he is now prepared to serve guests at all hours with the best available.

The men's bible class of the Baptist church will take up for discussion the questions contained in the Bible lessons published in The Daily News.

Rev. A. N. Frith, pastor of the Baptist church, will leave this week to attend conventions in Portland and Victoria and will be away from the city for about a fortnight.

Dr. R. C. Arthur leaves for the coast tonight. He will visit Vancouver, Victoria and Seattle, returning to Nelson July 4 or 5. During his absence he practice will be attended to by Dr. Hawkey.

Dr. S. C. White of Pittsburg is a guest at the Strathcona. Dr. White is interested in the Gordon mine at Erie and is in the district for the purpose of making an inspection.

Miss Scully left by the Crow boat yesterday morning en route to Italy where he will visit his former home after an absence of 12 years, the greater portion of which time he has spent in Western Canada.

Among the many attractions at the coming Dominion Day celebrations on July 1 will be a grand ball in Lindsay's dance pavilion from 9 p. m. to 3 a. m. Wilkinson's well known and popular orchestra will be in attendance.

There will be a meeting in connection with the Dominion Day celebrations in the city hall at 8 o'clock tomorrow night. The report of the finance committee will be received and the money for the prizes for the various events allocated.

The Women's Council will hold a meeting in the Presbyterian church at 3 o'clock tomorrow afternoon. Mrs. J. L. Stark will give an account of the work of the Nelson Council since the establishing of the branch here. All interested are cordially invited to attend.

Clarence D. Ogilvie returned yesterday morning to Harrop after paying a flying business visit to the city. Mr. Ogilvie states that while small shipments have already been made from the ranches along the north shore of the West Arm it will be fully a week before shipping is commenced in earnest by the ranchers around Harrop.

with a good demand. He asserts that the ranchers are all well prepared for the busy season.

Mrs. J. W. Holmes and J. W. Holmes, Jr., left last evening for a three weeks' trip to the coast cities. They will take in the Alaska-Yukon-Pacific exposition before their return.

Considerable attention was attracted last night to a crate of unusually fine berries exhibited in A. S. Horswill's window. The berries were of the Magnum variety, grown by William Linton of Gray's creek, and were shown as an example of what "B" Fertilizer will produce.

W. H. Elson, C. P. R. trainmaster at Revelstoke, is at the Strathcona. Mr. Elson is one of the best-known men in the district having had the honor of bringing in the first C. P. R. train to Nelson in the early nineties. He is here at present looking over some timber limits owned by him in the Slocan.

Dr. C. W. Dickson, assistant professor of chemistry in Queen's University, was in the city yesterday. He left for Okanagan last night accompanied by his brother, G. H. Dickson, of the International Coal company, who arrived from Coleman. Dr. Dickson has resigned his position in the university and will locate in British Columbia.

Allan Purvis, divisional superintendent of the C. P. R., returned last night after a tour of inspection over the Sloan and Smelter lines. The repairing of the washout on the former will be completed, after truly stupendous work, in about 10 or 14 days. The Sandon-Nakusp section will be clear as far as Three Forks by Wednesday next.

The regular meeting of Court Royal Jubilee 4201 was held in I. O. O. F. hall on Friday night. The election of officers took place resulting as follows: Past Chief Ranger, H. R. Caldwell; Chief Ranger, R. H. Hardman; Sub-Chief Ranger, A. P. Lorsch; treasurer, F. Deacon; secretary, J. O'Donnell; senior woodward, James Johnstone; junior woodward, C. H. McDonald; senior beadle, W. A. Johnstone; junior beadle, O. St. Lawrence; physician, R. J. Hawkey, M. D.; trustees, J. A. Erickson, C. R. McDonald and W. Johnstone; auditors, W. Green, James Johnstone and S. Ratcliffe. All members are requested to note date and place of meeting has been change to second and fourth Mondays in the new K. of P. hall in the Eagle block, the next meeting being July 11th.

"Seeing in the Dark" is the subject of the sermon to be delivered by Rev. R. Newton Powell at this evening's service in Trinity Methodist church. The subject of the morning sermon is "Turning Back in the Day of Battle." Visitors and strangers are cordially welcomed.

Dr. Wilson received a telegram yesterday from J. G. Devlin, who, with a force of men is engaged in opening up the vein on the Clyde-Belt group, of which they are the owners. Mr. Devlin states that he has exposed the vein for 400 feet and that it varies in width from 18 inches to 8 feet. He is certain that it is the Mother Lode vein.

G. E. Crocker, superintendent of the Bonner's Ferry Lumber company, is a guest at the Strathcona. Interviewed by a representative of The Daily News last night Mr. Crocker stated that the company had lost altogether between five and six million feet of logs through the late floods. Practically all the logs on the main lake had been gathered together by the Tale-Columbia tugs, Pilot and Hercules, but a high wind on Thursday evening last broke up a four million feet boom at Kootenay Landing and about half a million of these were lost. The tugs are now engaged in keeping together the rest of the broken booms. The company are building a mill to replace the one totally destroyed by fire last April. The new mill will have double the capacity of the former and will be in a position to manufacture fifty million feet per annum or 500,000 feet per 20 hours. Apart from the logs lost the company has twenty million feet at Bonner's Ferry and expects to have the mill in operation by September 1 and to cut fifteen million feet before the water freezes over.

It has been arranged that the fruit barge, which will be put into commission on Wednesday, will leave Nelson at 6 p. m. instead of 5.30 p. m. as originally intended.

The examinations will commence in the principal's room at the public school tomorrow morning. All those intending to write must be in their places by 8.45 for instructions, as writings on the examinations must commence at 9 o'clock.

Michael Ladwick was brought into the provincial gaol last night by provincial constable Morris of Fernie, having been sentenced to three months by Judge Wilson for forging a cheque. Chief of police B. Downes of Trail on Friday evening came in with a Chinaman named Man, charged with keeping a gaming house, and three other Celestials charged with gambling. Each was sentenced by Noble Bins, J. P., to pay a fine of $50 and costs and in default to go to prison for two months. Yesterday an appeal was made and they were released on bail of $300 each by order of Magistrate E. A. Crease and will appear at the Rossland county court on July 27. Each man provided $200 bail and the remaining sum was put up in equal amounts by Kwong Wing Chong and Wing Lee of Nelson.

FRUIT LANDS

West Arm of the Kootenay Lake

Portion of our old homestead is for sale and although we are not desirous of parting with same, yet circumstances compel us to do so; 20 to 30 acre blocks partly improved, lake frontage, good soil no irrigation needed, plentiful water supply.

ENGLAND AND GERMANY

MR. GIGOT SAYS THERE IS NO DANGER OF WAR

RELATIONS OF TWO COUNTRIES OF MOST PLEASANT KIND

E. P. Gigot, manager of the local branch of the Hudson's Bay company, who returned from Germany on Thursday, is kept busy these days shaking hands with his many friends who are glad to see him back.

On being asked to give a sketch of his voyage, of what he saw and how he found things in the Old Land, he stated that he had nothing to communicate which would in any way be of interest to the public, but that he enjoyed his visit very much and that he was glad to be back again. Canada, and above all, British Columbia was good enough for him.

Regarding the talk of war between England and Germany, so much read about in the press, Mr. Gigot ridiculed the idea and asserted that during the two months he spent in the Fatherland, he did not meet with a single person who entertained any doubt as to the present friendly relations between the two powers being not only continued but constantly improved. It was conceded that both countries could be greatly benefited by taking lessons one from the other concerning the development of different industries, and trade and commerce, and the very many matters arising therefrom.

In accordance with this theory, continued Mr. Gigot, representatives of British manufacturers, labor interests and municipal organizations, were visiting Germany from time to time, no less than three such bodies having arrived there within the last two months. Germany, on the other hand, was sending representatives of similar interests to England, bent on the same errand. It was needless to say that both countries were receiving these delegations with open arms and that every possible courtesy was shown and every facility given to investigate the subjects they come to look into. This interchange of ideas by leading men from both countries meeting personally Mr. Gigot thought was the best possible guarantee of peace and good-will that could be given.

No long ago a large number of Burgomasters of the leading cities of Germany, headed by the Burgomaster of Berlin, visited England to study the organization of the municipal laws there and were received in a right royal spirit, which was very highly appreciated all through Germany. The feeling in Germany towards England appeared to be more than friendly, and whilst occasionally some slight temporary resentment was caused by some ridiculous article appearing in the jingo press the old saying that "blood is thicker than water" was fully believed in and acted up to.

Intolerable Heat

NEW YORK, June 26—Driven temporarily insane by the excessive heat Mrs. Emma Mosby tonight threw herself and her eight year old daughter from the roof of a five storey apartment house on Quincy street in an exclusive section of the city. Both were killed instantly.

Still Sweltering

NEW YORK, June 26—New York and vicinity sweltered again today. There was less suffering than on previous days during the prolonged dry spell, the electric storms of the earlier night having clarified the atmosphere

Growing Worse

ST. PETERSBURG, June 26—Ninety new cases of cholera and 40 suspects were taken into the municipal hospital during the 24 hours ended at noon today. There have been also 34 deaths from the disease during this period.

Nice Toy

OWEN SOUND, June 26—Franklin Pacham, aged 15, accidentally shot himself dead this morning while playing with a toy rifle in his parents' yard this morning.

Jay Eye See Dead

RACINE, June 26 — Jay Eye See, known all over the country as the first 2:10 trotter, died yesterday on the Pleasant View farm, seven miles from here. Jay Eye See's death was due to old age. He was by Dictator, out of Midnight and was a full brother to the famous Dexter, 2:17 1-4.

Suing a Judge

NEW YORK, June 25—Police commissioner Bingham today brought suit against supreme court justice William J. Gaynor, claiming $100,000 damages for defamation of character in letters criticising the commissioner.

French Printers' Visit

NEW YORK, June 26—A party of printers from Paris, here for a study of methods pursued in American typographical establishments, arrived today on the steamer La Provence from Havre. They will visit many of the noted printing plants in New York, Philadelphia and Chicago.

Steamer Floated

QUEBEC—The Thompson line steamer St. Peter, which ran ashore at Cape Alarouche, some fifty miles above Quebec, floated off at high tide this afternoon and arrived here this evening. She is said not to be taking any water. A survey will be held tomorrow.

Quebec Cabinet

QUEBEC, June 25.—A cabinet meeting was held this afternoon at the parliament buildings. Joseph Dumont was appointed assistant provincial secretary to fill the vacancy made by the death of Jose Boivin.
