ARE SETTLED

Provincial School Inspectorships Decided

A. SULLIVAN'S DISTRICT

G. H. DEANE WILL REMAIN AT NELSON—J. D. GILLIS IS GIVEN POST AT NEW WESTMINSTER—FULL LIST OF INSPECTORS AND THE DISTRICTS

VICTORIA, Aug. 3—A. Sullivan, who was recently appointed a provincial school inspector, has been placed in charge of the Agassiz, Harrison Hot Springs and Kamloops educational district, with headquarters at Kamloops. The news of this appointment will be received with considerable interest as many rumors have been circulated as to the district to which Mr. Sullivan would be appointed. Several other changes have been made by the educational department. G. H. Deane will retain his present inspectorship of southern Kootenay and Boundary, with headquarters at Nelson. J. D. Gillis, who was at one time inspector for this latter district, has been appointed to the south bank of the Fraser, Chilliwack and New Westminster district, with headquarters at New Westminster.

The complete list of inspectors and their districts is now as follows: J. S. Gordon, Vancouver island, headquarters at Victoria; A. C. Stewart, from Port Simpson to south of the Fraser, headquarters at Vancouver; J. D. Gillis, the south bank of the Fraser, Chilliwack and New Westminster, headquarters at New Westminster; A. Sullivan, Agassiz, Harrison Hot Springs and Kamloops, headquarters at Kamloops; A. E. Miller, Okanagan, Arrow lakes and main line to Steamous, headquarters at Revelstoke; G. H. Deane, southern Kootenay and Boundary, headquarters at Nelson.

New Westminster, Revelstoke and Kamloops have been created as headquarters of new districts.

BIG ELEVATOR DEAL

Control of Large Concern Said to Go to Minneapolis

WINNIPEG, Aug. 3—A current report in grain circles today is that the control of the Northern Elevator stock has passed into the hands of the Peavey Elevator company of Minneapolis. The Northern Elevator company own about 175 elevators in western Canada. The transfer includes the goodwill of the business. The Peavey company is the largest elevator company operating in the northwestern states. It already controls and is practically the absolute owner of the British-American company, established in Winnipeg three years ago, and has a large country elevator line, as well as terminal houses at Fort William. The price paid for the reported control of the Northern is said to have been over $1,000,000.

NO LUCK

Accident to Zeppelin Airship Delays Trip to Cologne

FRANKFORT, Aug. 3—The airship Zeppelin II. left here today for Cologne, a distance of 110 miles but was obliged to return on account of an accident to her machinery. She had gone but a short distance when one of her propeller blades broke and another worked loose and fell to the ground. The airship returned and descended at the same place whence it had started. A new propeller will have to be brought from Friedrichshafen. This is the second unsuccessful attempt of the airship to reach Cologne.

RESERVOIR BREAKS LOOSE

Billion Feet of Water Sweep Through Rich Farm Land

FORT MORGAN, Aug. 3—The Empire reservoir, 28 miles west of here, containing more than a billion cubic feet of water and irrigating more than 40,000 acres of land in Morgan and Weld counties broke through the wall today. The deluge swept a swath half a mile wide through the richest farming lands in this region, inflicting damage estimated at half a million dollars.

Taft and Diaz

WASHINGTON, Aug. 3 — President Taft of the United States and president Diaz of Mexico are to meet in El Paso on Oct. 16. President Taft will be accompanied by only his secretary, military attache and the personal friends who are with him on his western trip.

Blown to Atoms

EASTON, Pa., Aug. 3—Milton Shive, of Pattea, yesterday was splitting railroad ties when a terrific explosion occurred and he was blown to pieces. It is said that a dynamite can had been concealed in the tie and that it was exploded when Shive's axe struck it.

Bryce's Visit

ST. JOHN, Aug. 3—Right Hon. James Bryce, British ambassador to the United States will be the next speaker at the Canadian club in this city. He will probably be here within two weeks. The provincial government will extend hospitality to the ambassador.

Engineers Congregate

WINNIPEG, Aug. 3 — From Texas, California, Ohio, Nevada, Oregon, New York, Ontario, New Brunswick, and in fact from all parts of the United States and Canada, delegates of the Brotherhood of Firemen and Locomotive Engineers are fast arriving in the city for their convention which commences tomorrow. Three thousand delegates have already arrived and many will reach here by the morning trains. E. A. Ball of Brantford, vice-president, will preside.

SUFFERING INTENSELY

MEXICO CITY TERRIBLY SHORT OF FOOD AND SHELTER

NO RELIEF STEPS YET TAKEN BY GOVERNMENT

MEXICO CITY, Aug. 3—A despatch received from Acapulco last night says that the earthquake shocks still continue. All buildings which remain standing are untenable, a heavy rain is falling and many are suffering of want and shelter. The tents and temporary shacks in which the people are living are pronounced miserably inadequate. A number of citizens are acting as special policemen. There has been some looting. Food, clothing and medicine is urgently needed, but thus far no relief steps have been taken by the federal government. It is stated at the war department that no request for aid has been made. It is also said that relief measures are held up through red tape. The appeal for relief must first be made to governor of administration Alcova of Guerrero, who in turn will transmit it to president Diaz. The people of Acapulco have heard that the United States has offered to send food and supplies on a warship and are overjoyed at the prospect. The federal authorities here deny any knowledge of outside relief.

OPPOSITION COLLAPSE

TARIFF BILL MAKING GREAT PROGRESS IN SENATE

SOME CHANGES MADE IN DUTIES ON LEATHER GOODS

WASHINGTON, Aug. 3—The complete collapse of all important opposition to the conference report on the tariff bill, was evidenced today when the senate agreed to vote on that measure at 2 o'clock next Thursday. Half an hour after an unanimous consent had been given to the adoption of that course, a general disinclination on the part of senators to speak brought an early adjournment until noon tomorrow. When the senate met today the lack of interest in the proceedings was very evident. This had been caused by an agreement on the part of the western senators to vote on the conference report and to correct the hide and leather schedules by means of a concurrent resolution to be acted upon separately.

The form of the concurrent resolution was agreed upon in an informal conference held in senator aldrich's committee room today. Instructions are given by this resolution to the enrolling clerks of the senate and house to change the language of the proviso reducing duties on boots and shoes and harness. The change will make dutiable at 10 per cent boots and shoes and upper leather of which is made wholly or in chief from the hides or skins of cattle, including calf skins. A similar change will be made in relation to harness, saddles and saddlery. The effect of the amendment is to make the reduced duties on boots and shoes and saddlery and harness apply to such articles as are composed of leather from the hides and skins of cattle and calf skins, instead of confining the reductions to articles made from hides which have hitherto been dutiable.

LITTLE MORE TRANQUIL

SPANISH AUTHORITIES GAINING UPPER HAND

PITILESS REPRESSION FOR REMAINING REBELS

MADRID, Aug. 3—An announcement issued by the minister of the interior today declares that tranquility now reigns throughout Spain, except in certain isolated localities of Catalonia. A column of troops composed of artillery, cavalry and infantry today is marching to Sabalel, ten miles from Barcelona, where the insurgents still are holding out, with orders to repress mercilessly any resistance that may be encountered.

HENDAY, France, Aug. 3—A copy of ElMundo, a newspaper of Madrid, received here today, places the number of killed at Barcelona during the rioting of last week at 20,000 and the wounded at 25,000.

MELILLA, Morocco, Aug. 3—A large force of Moors, comprising contingents from the coast and inland tribes, are today gathering in front of Alhucemas, an island fortress and prison settlement belonging to Spain on the coast of Morocco, evidently in preparation for an attack.

MADRID, Aug. 3—Officient dispatches received from Melilla today say that the Moors last night attacked a block house in course of construction. They were repulsed by the Spaniards, who had one officer killed and 14 men wounded.

Peary Relief Expedition

ST. JOHN'S, Nfld., Aug. 3—The Peary relief expedition sailed this afternoon on the schooner Jeanie. The vessel is bound for Etah, Greenland to bring any dispatches that might have been left there and to restock the station there with provisions.

TOURISTS TO COME

Canadian Pacific Railway Will Build Hotel and Will Advertise Scenic and Other Attractions of District Around Nelson and of Kootenays generally. F. W. Peters Submits Company's Plans to the Board of Trade, which Endorses them.

"1. That the railway company will immediately commence to and will continue to advertise the resources of the Kootenay district, its attractions for tourists and opportunities for investment in the same way as is done for the main line.

"2. That the railway company will establish and maintain as formerly a district passenger agency at Nelson.

"3. That the railway company will construct and maintain at some point between Nelson and the townsite of Proctor and the townsite of Balfour a tourist hotel of the class and character of those established on the main line; such hotel to be similar to those first constructed and to be capable of enlargement and to be ready for occupation for the season of 1910.

"4. That the question of improvement of the railroad service between Lethbridge and Kootenay Landing, and Spokane and Kootenay Landing will be at once taken up with the passenger department with a view to making such immediate and future improvements as the traffic demands and the placing of tourist cars on the regular trains.

"5. That the question of settlers' rates on effects and landseekers' rates will at once be taken up with the traffic department.

"6. That the question of rates on the Kootenay lakes shall at once be taken up with the passenger department."

The above was the announcement of the Canadian Pacific Railway company's plans for the development of a tourist traffic through the Kootenays and also in regard to some other matters made to the board of trade last evening by F. W. Peters, assistant to the second vice president, speaking on behalf of the company and with the direct authority of its president, Sir Thomas Shaughnessy. The company's adoption of this policy is the result of the negotiations which have been carried on for some months past between the board of trade and the company in reference to the company's general policy so far as this city and district are concerned, in the negotiations represented by F. A. Starkey, president and E. E. Beeston, secretary, while Mr. Peters latterly performed a similar duty for the C.P.R.

After Mr. Peters had submitted the plans of his company, a resolution was passed by the board accepting them as a satisfactory outcome of the negotiations between the board and the company. The result of the adoption of this policy on behalf of the C.P.R., it is felt, will not only benefit Nelson and the Kootenays generally by bringing tourists through by this route, but will also result in the more rapid development of the country through the interesting of moneyed men passing through in its immense natural resources and should lead to large investments of outside capital in mines, fruit lands and timber.

The meeting at which the C.P.R.'s plans for the development of the city and district were presented to the board of trade was perhaps the most largely attended in the history of the organization, over 50 of the city's most representative business men being present. The chair was occupied by President Starkey, and Mr. Beeston, the secretary, was present.

Mr. Starkey called the meeting together promptly at 8:30 o'clock and lost no time in coming to the point in regard to the object of the meeting. After Mr. Beeston had read the notice causing the meeting, Mr. Starkey explained, for the benefit of those who were not in close touch with board of trade affairs, the progress of the negotiations which had led up to the calling of the meeting. Some time ago he and Mr. Beeston had been appointed a committee to deal with the C.P.R. in regard to matters which were under discussion and last meeting he had asked that the matter be left in the committee's hands. This had been done and the result was that the matter was now settled.

Mr. Starkey then called upon Mr. Beeston to read a detailed report, setting forth the negotiations and what had been accomplished. This report was laid on the table and Mr. Peters called upon to lay the company's proposition before the members.

Mr. Peters, in opening, referred to the portion of the report which said that the negotiations with the C.P.R. had been left in the hands of the president and secretary, and remarked that he could bear tribute to the fact that they had been left in good hands so far as Nelson and the Kootenays were concerned. He had never had to face such a strong presentation of a case for improvements and concessions anywhere as in the present case.

In the case of a company like the C.P.R., with interests stretching from the Atlantic to the Pacific and across both oceans, there were naturally many things to engage the attention of the management. As a result it was possible that the interests of some sections might at times be neglected. In the past perhaps Kootenay had not received the consideration it deserved. Personally that was his opinion. The company had not done what it might to bring in tourists and, through them and other sources, to direct money into the country. His present trip and the one before, however, had given him an opportunity to look into conditions here, with the result that he now had something to lay before the board.

The company's present transportation facilities provided a satisfactory freight service throughout this country, while the passenger service, given by the boats on Kootenay lake, were disinctly in the interests of travel. This was his opinion arrived at with a full knowledge of local conditions. The company, however, was prepared to do what it could in addition to develop traffic through the country, and he felt that the result would be highly satisfactory to the country generally.

In regard to the wharf he might say that with a view to coming to an understanding that would be satisfactory all around, the company had waived its objections to certain terms of the lease and that matter was now settled. It was the company's intention not only to repair the present wharf, but also to build a railway wharf alongside it, extending their track out to the end. This would be the company's only wharf in Nelson and the boats would tie up there on arrival in the city and there remain until their time of departure. Passengers would embark direct from the boat onto the train and vice versa. There would not be the same running around from wharf to wharf that there was at present. The company was under obligation to the city council to provide accommodation for all other transportation companies desiring to use the wharf and at a maximum rate fixed by the city, while pleasure craft and small boats would have the same access to the wharf that they had at present.

This matter having been disposed of, he had taken up with the president of the board of trade, and later with the management of the C.P.R., the development of a tourist trade through the Kootenays, and also some other demands made by Mr. Starkey.

He might say that he had arranged that the company's general advertising agent should visit Nelson with him on the present trip, but unfortunately he had been delayed and would not reach here until this evening. This official was now on his way here from Banff, and on his arrival would commence work securing data upon which would be prepared well-illustrated literature advertising Kootenays' attractions for tourists. The Kootenays would be advertised to the same extent as the main line. The literature would show intending travelers the advantage of either going or coming by the Crow's Nest route, instead of traveling both ways by the main line.

The company would also restore to Nelson what the city should have, a district passenger agent located here. At present the ticket agents in this part of the country were compelled to apply to Calgary for instructions regarding extensions, etc., of tickets.

More important still, however, the company was prepared next season to erect and maintain a tourist hotel to the size and extent that the traffic warranted, and the building would be enlarged as necessity demanded.

Other questions upon which assurances had been asked included better passenger rates for land seekers and better freight rates on settlers' effects. These were matters with which he was not familiar, but he would undertake to lay both matters before the traffic department.

He had also been asked for an assurance of better service generally. This, he thought, was pretty good already. The reputation of the company was that the improvements in its service keep pace with the growth in traffic. When the company established a tourist hotel in this district it would be to its interest, even more than at present, to maintain a service which would induce people to travel this way. In regard to this matter he could give a general assurance that the service would be kept up to the highest standard of efficiency that the traffic warranted.

As to the question of passenger rates on the Kootenay lake boats, that was a matter that was to have come before the railway commission at its last meeting here, but was dismissed as the complainant did not appear. The commission, however, had given permission to reopen the case, and it could thus be taken up again. Sometimes the management found that the rates the passenger department were charging were not justified and matters were made right. This particular complaint he would lay before the passenger department.

He desired to say that he had the authority of the president of the railway to submit the proposals that he had just made and, if accepted by the board as satisfactory, they would be carried out to the letter. He could fairly say that when the company set out to do anything it generally succeeded, and that this would apply to the building up of a tourist traffic through this country. The company would bring people through here unless the people objected to coming. This, he did not think, however, would be the case. He knew many tourists who had already traveled this route and all had spoken in the highest praise of it and most of them had been enraptured by it. These people had all taken the trip on their own initiative, and not as the result of any advertising done by the C.P.R., so very increased travel could be expected as a result of the company's new policy. The mountains naturally attracted many, but he did not think anything could be finer than a trip down the Arrow lakes. He might point out that the bringing of tourists through this country would naturally attract attention to the country's mining, lumbering and agricultural resources and would result in the investment of money here which otherwise would go into ventures in other places.

What he was offering was not in the way of a bargain, but was a business venture pure and simple on the part of the C.P.R. The company expected to reap a profit from the diversion of tourist traffic through the Kootenays. He hoped that the company's proposals, as he had outlined them, would be acceptable to the board and that they would result in great benefit not only to the city of Nelson, but also to the whole of the Kootenays as well as proving profitable to the company itself.

If these proposals were satisfactory to the board the company was willing to bind itself by exchange of letters or in any other way desired. He might say, before concluding, that the hotel would not necessarily be in Nelson. Already the hotel accommodation was far in excess of the city's present needs, far better than was to be found in any other city in the country twice the size of Nelson. The company would have no hesitation in referring in its advertising to the two big hotels already in operation in Nelson. An hotel outside the city might serve the same purpose as one in it and might bring just as many people here. The exact location of the hotels, however, was a matter of the future.

Mr. Beeston then, at Mr. Peters' request, read a memorandum setting forth as above an outline of the policy of the company proposed to adopt in regard to the development of a tourist traffic and also what Mr. Peters undertook to do in regard to other matters.

Mr. Starkey, in referring to the matter, said there was no doubt but that the company's plans would result in great benefit to the country, perhaps the least of which would be that arising directly from the tourist traffic. People, however, who perhaps otherwise would scarcely ever hear of the Kootenays and certainly would never know anything of it or its resources, would be brought through and would be interested to a great or less extent in its mines, timber and fruit lands and would in many cases invest. As far as the hotel was concerned he might point out that if it were erected anywhere close to Nelson it would draw a large week-end trade not only from this but also from surrounding cities, and this traffic alone would go a long way towards paying expenses. In their dealings with the C.P.R. he and the secretary had done nothing to create any ill will on the part of the company. They had treated the matter as one of business and had been met in the same spirit. Some of the $50 a month men, it was true had got wrathy and had talked of moving the C.P.R. shops from Nelson, but no attention should be paid to such people.

Mayor Selous then moved the acceptance of the C.P.R. proposals and Mr. Peters' assurances in regard to other matters. In doing so he said he was acting as a private citizen of Nelson. There was one matter on which he desired to express himself in the same capacity and that was in regard to the site for the hotel. It should be in Nelson. If it were located anywhere else it would benefit the place where it was built and not the city. It was to the advantage of the C.P.R. as owners of the hotel, to have it located in Nelson, as it was to the interests of the people of Nelson to have it here. Nelson offered all the advantages in the way of boating, fishing, mountain climbing etc. that did any other spot in the country, and possessed many that no place else did. By all means the hotel should be in Nelson.

Mayor Selous' resolution accepting the offer of the C.P.R. was seconded by J. M. Lay and passed unanimously.

Before it was, however, W. W. Beer asked Mr. Peters if he could give a guarantee that the shops would not be moved from here and the latter replied that in order to be absolutely fair he could not. The shops here had been established under the conditions of today. If conditions changed at any time the company would have to be governed by those changes. He could not say that there ever would be any change, but at the same time neither could he say there wouldn't be.

A resolution moved by James Johnstone, seconded by S. A. Kelly, was then passed adopting the report of Messrs. Starkey and Beeston and on motion of Mr. Kelly seconded by Mr. Johnstone, a vote of thanks was tendered Mr. Peters for his presence and for the frank and fair way he had met the board and submitted to it the company's plans. To this Mr. Peters replied briefly, reiterating his previous statements that the company would do its best to carry out its undertaking and pointing out that it rarely failed in anything it undertook.

T. G. Procter moved, seconded by E. W. Wildgoose, a vote of thanks to Messrs. Starkey and Beeston for their work.

In responding, Mr. Beeston, on behalf of Mr. Starkey and himself, said that they were repaid for their work in regard to this matter by the fact that the board had adopted their report and approved of the policy adopted by the C.P.R. as a result of their negotiations. He could assure the board that the negotiations had been of an extremely delicate nature. The C. P. R. officials had in some instances to take them into their confidence, while they also had to deal with the suggestions made from time to time by members of the board and others. All, however, was now settled and he hoped in a way that would prove satisfactory to all. He desired to thank the members for the indication of their appreciation.

This concluded the business and the meeting then adjourned.

TWO YEARS' AGREEMENT

TABER OPERATORS AND MEN COME TO TERMS

SETTLEMENT MADE IS ON MINE RUN BASIS

(Western Associated Press.)

LETHBRIDGE, Aug. 3—The Canada West Coal company of Taber and the miners have signed an agreement for two years on the run of the mine basis. The mine has started work.

The Taber town council has come to an agreement with the C.P.R. for a supply of water for the town and will install waterworks immediately.

THAW HAS HARD FIGHT

SERENITY DISTURBED BY TESTIMONY OF ALIENISTS

ONE DOCTOR SAYS HE IS INSANE AND DANGEROUS

WHITE PLAINS, Aug. 3—Three alienists in the supreme court today made it unpleasant for Harry K. Thaw, who killed Stanford White and was adjudged insane, but now demands his release from Matteawan asylum, as a mentally normal man. All three testified that he was insane and when Thaw took the stand briefly after some disconcerting testimony he was plainly ruffled and nervous but Mr. Jerome dismissed him after a few comparatively unimportant questions.

Of the alienists who testified, Dr. Austin Flint, Dr. William Hirsch and Dr. Baker, the last named gave most important testimony. He is superintendent of Matteawan and is the only alienist to appear as witness in the case without compensation. Justice Mills called attention to the fact and took a hand in questioning him. Dr. Baker said that in his opinion Thaw is not only insane now but a dangerous person to be at large. It was shortly after this declaration that Mr. Jerome called Thaw to the stand. He was pale and apparently shaken. The district attorney put in evidence some rather incoherent notes written by the prisoner and asked him to explain them. After parries back and forth and laborious evolutions he Thaw of certain writings he said "And I want you to know, Mr. Jerome, many of these notes you call suggestions, were written at the request of my lawyers." Mr. Jerome pointed his finger at Thaw and said: "Do you mean to sit there and tell us who observed you in both trials, that you did not know more about the case than your lawyers did?" "I do," was the quick reply.

Dr. Austin Flint, called next, described a paranoiac as a person dominated by certain delusions, whose mental and physical state might not be otherwise affected, except in so far as these delusions influenced him. The progress of the disease was usually very slow, he said. It rarely caused death and except in the last stages the patient might retain his faculties unimpaired. Paranoiacs, he concluded impressively, never recover.

Dr. Hirsch varied the general verdict by declaring that Thaw was a "degenerate paranoiac." Charles Merschauser, Thaw's attorney attacked this testimony and caused Dr. Hirsch some uneasy moments by inquiring about a book he was writing. "Do you in this book claim that Jesus Christ was a paranoiac?" he asked. The alienist replied that he would not like to give an opinion on this subject. The alienists today delivered their opinions of Thaw in answer to a hypothetical question, only a small part of which was read. It dealt mainly with Thaw's family history and his early life. The alienists for the state will probably occupy the centre of the stage for two or three days.

HUGE STRIKE

Swedish Capital in State of Consternation

SERIOUS FIGHT FEARED

ALL STOCKHOLM GUARDED BY ARMY AGAINST LOCKED-OUT MEN TOTALLING 80,000—BUSINESS COMPLETELY AT STANDSTILL

STOCKHOLM, Aug. 3—Soldiers are being quartered in different sections of the city and suburbs, and the entire standing army of Sweden is ready for eventualities. The situation has suddenly taken so serious a turn that king Gustave has summoned the members of parliament to Stockholm and a special session of the rigstag is expected. Great consternation prevails in the capital at these unexpected and dangerous developments in the situation. Active guard corps are being organized for the protection of property and the banks are closed and carefully guarded. All the ferries running out of Stockholm have ceased operations and the large steamers engaged in the summer in carrying visitors and residents to the seaside resorts in the archipelago have suddenly stopped running and discharged their crews, and are being laid up for the winter. This summer traffic is usually continued until the month of October.

It is expected that the present total of about 100,000 idle workers will be largely increased by tomorrow. It is anticipated that the cab and street car services in Stockholm will stop running on Wednesday, and arrangements are being made to run the waterworks and electric light plants by soldiers. The bridges leading to the islands adjacent to Stockholm are closely guarded this afternoon. Many stores have already been closed and no milk is being delivered in either shops or restaurants.

The labor conflict that is at the bottom of this trouble originated in a dispute over wages in the woolen and cotton industries, in the beginning 15,000 men were locked out and other industries since have became involved until yesterday the Employers' Federation declared a lock-out of iron foundry hands, numbering about 30,000 men. A total of 80,000 men was reported locked out yesterday and their numbers are increasing rapidly.

Count Escapes

EDMONTON, Aug. 3—News reached here this morning of the narrow escape from drowning of Count von Hammerstein, and the drowning of E. Lafrance and S. Velkofsky. The three were trying to run the Grand rapids on the Athabasca river when their boat was swamped. More by good luck than anything else von Hammerstein was washed ashore, but his two companions were drowned.

Jim Hill's Bronze Bust

SEATTLE, Aug. 3—Minnesota celebrated her day at the Alaska-Yukon-Pacific exposition by unveiling a bronze bust of her distinguished citizen, James J. Hill, the railroad builder, this afternoon. John Johnson, governor of the state, came to Seattle to deliver the Minnesota address and unloose the cord that held the flags of Great Britain, the United States and Japan on the monument.

Rowdyism at Game

OTTAWA, Aug. 3—The police have a warrant for the arrest of Mike Ions, a Tecumseh lacrosse player, charging him with brutal assault on Kalls of Toronto, while playing at Scarboro Beach yesterday. The chief constable announced recently that in future the police would prosecute all cases of rowdyism by the players at sports and this is the first warrant to be issued.

One Strike Over

INVERNESS, N.S., Aug. 3—The strikers here admit that the Inverness strike for recognition of the U. M. W. of A. is practically over and would have been called off but for the effect on the situation in Glace Bay. The dominion government is to be asked to deport about 200 Belgians who are a menace and liable to become a charge on the town.

Trade With South Africa

OTTAWA, Aug. 3 — The Canadian trade commissioner in South Africa, in reporting to the trade and commerce department, notes a substantial increase in trade between the two countries and points out the advisability of Canadian manufacturers being represented by travellers in South Africa.

C. P. R. Earnings

MONTREAL, Aug. 3—C.P.R. earnings for the period ending July 31 increased $230,000 over the same period last year while those of the G.T.R. increased $54,000.

Pitchfork Kills

MONTREAL, Aug. 3—Edmond Lilbich, 18 years old, fell from a load of hay at St. Lambert yesterday and the prongs of a pitchfork penetrated his side, causing death before the arrival of the hospital ambulance from here.

DR. PRICE'S
Cream Baking Powder
is the most efficient and perfect of leavening agents.
MADE FROM PURE CREAM OF TARTAR
No alum, lime or ammonia.

VICTORIA'S FAIR WEEK

GREAT PREPARATIONS ARE BEING MADE FOR EVENT

MANY UNIQUE AMUSEMENT FEATURES FOR VISITORS

VICTORIA, Aug. 3—Down in Victoria there will be "things doing" from the 20th to the 25th of September. Those dates embrace the capital's exhibition week and that signifies five days of unalloyed pleasure. The show will have its educational value industrially, agriculturally and commercially; it will give the visitor some idea of the progress the west has made during the past 12 months in all these lines, but, perhaps more than all else, it will furnish Victorians and the thousands of strangers within their gates an opportunity to spend a thoroughly good time together. And when Victoria gives itself up to jubilation every one succumbs to the contagion and, forgetting cares and worries, joins in the fun. That is the kind of a good old-fashioned welcome that is in store for those who hie themselves to the capital for the latter days of the month of September.

The program of entertainment that has been arranged in connection with the fair is the most varied that Secretary Smart has yet succeeded in compiling. An airship will make a flight every afternoon. It will sail over the grounds, circle about the city, and returning make an ascent a few feet from the spot at which it started. Then there will be the five days' horse racing. Inasmuch as the track has been in use all summer, and during that time has been kept in the best condition, and as the finest thoroughbreds of the northwest have been entered, that there will be some classy sport there is no doubt. The regular events will be enlivened by the presence of College Maid, the remarkable riderless racer, who starts without guidance, runs half a mile in splendid time, stops herself at the sound of the gong and then makes her obeisance to the astonished throng. A horse show, in which will be seen some of the best equines of the coast; a fire fight on a scale so closely approaching the real thing as to make a most thrilling spectacle; a naval battle portraying the historic battle of Alexandria, in which eight or nine vessels of war will be seen belching forth fire and hail as they draw together in conflict, and numerous other features will give the reader a general idea of what has been prepared to afford the exhibition visitors enjoyment.

The display of fruits promises to be exceptionally fine for Vancouver island, and British Columbia generally has made marked advances in that industry during the past 12 months; the same may be said of all farm produce, while stock also will be the "best ever," the aristocracy of Canada from the most easterly points being foregathered to carry off the handsome prizes that have been offered by the British Columbia Agricultural association management.

In order that the people of interior island and mainland districts may reach Victoria during the fair at minimum expense negotiations are under way with the different railways, looking to the inauguration of reduced transportation rates. There is every reason to believe that these overtures will be successful. A definite announcement will be made later.

TROUBLE BREWING

Turkey Sends Four Transports of Troops to Crete

ST. PETERSBURG, Aug. 3—The Nova Vremya today publishes a despatch from Constantinople saying that four transports loaded with Turkish troops left the capital for the island of Crete and that a Turkish fleet has been ordered to escort them. The greatest secrecy regarding these naval movements is being observed and it is supposed that the Turkish troops intend to effect a landing on the island.

Rochester Gets McConnell

NEW YORK, Aug. 3—The New York American league club has sold Pitcher McConnell to the Rochester club of the Eastern league today. McConnell will be recalled in the fall.

Rainier Beer is the Best Beer.

AN INEXPENSIVE WAY

The reader of a newspaper will readily agree that it is necessary for a merchant, with any pretension of aggressiveness, to advertise. Merchants are also aware of this fact. Therefore it would seem that it is simply a question as to what form the advertising will follow.

Newspaper Advertising is the Most Inexpensive Way and Brings Larger Direct Results than Any Other Form of Advertising

The Daily News

has an average daily circulation of 3,000 copies distributed on the day of publication in the cities of Nelson, Rossland, the Boundary country, the Slocan Valley and East Kootenay district, covering the line of the C. P. R. from Pincher Creek, Alberta, to Midway, B.C., and there is not in B. C. a more progressive section of country than that in which The Daily News circulates; the varied industries consisting of farming, fruit growing, lumbering, metalliferous mining, coal mining, and smelting, making it an extremely favorable field for advertising articles of every description suitable for a purchasing public engaged in the above mentioned industries.

Kootenay's Publicity Medium

Will Place Your Story in the Hands of 3000 Subscribers Every Day at the Rate of 2-3 of a Cent per Inch per 100 Circulation

Mr. Advertiser you cannot circularize or personally canvas the field for that amount, so be progressive and use the means and resources at your hand to increase your business.

For advertising rates or further information phone 144 or address News Publishing Company, Limited, P. O. Drawer 1119, Nelson, B. C.

NERVOUS DEBILITY CURED

Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand: the sallow, pimpled face, dark circled eyes, stooping form, stunted development, youthful, melancholy countenance and this hearing proclaim to all the world his folly and lead to slight knowledge. Our treatment positively cures all weak men by strengthening and removing the effects of former indiscretions and excesses. It stops all drains and quickly restores the victim to what nature intended—a healthy and happy man with physical, mental and nerve power complete.

For over 20 years Drs. K. & K. have treated with the greatest success all diseases of men and women.

If you have any secret disease that is a worry and a menace to your health consult old established physicians who do not have to experiment on you.

We guarantee to cure NERVOUS DEBILITY, BLOOD DISEASES, STRICTURE, VARICOCELE, KIDNEY AND BLADDER DISEASES. Consulta. tion Free. If unable to call, write for a question Blank for Home Treatment.

Located in Our Own Office Building.

It Takes TWO--Are You One of Them?

If, of the two people it takes to make a bargain, you are ONE, how much would it be worth to you to find the other one. Would it be worth the cost of a classified ad? Would it be worth the cost of a small —but determined— 'campaign of want advertising?"

The "other one" necessary to "make a bargain" is found, in nine cases out of ten, through advertising —often through want advertising, and, in this city, USUALLY through want advertising in THIS newspaper.

"The other one" watches the want ads. pretty closely—but, of course, has to be convinced. If your offer is "right," that will be an easy task.

One cent a word will tell your story to readers of

"THE DAILY NEWS"

A ten-word classified advertisement costs only 40 cents for six insertions, when paid in advance.

PREACHES ASSASSINATION

INDIAN MALCONTENT WHO ADVOCATES EXTREME MEASURES

KRISHNAVARMA ADVOCATES THE KILLING OF ENGLISHMEN

Krishnavarma, the editor of the "Indian Sociologist," who is accused of being in a large measure responsible for the recent murders of Sir William Curzon Wyllie and Dr. Lalcaca, in London, recently moved his paper's office of publication from London to Paris, in order to be better able to preach political assassination among the 600 Indian students in England. He argues that it is better to assassinate Englishmen at home than abroad as it would only embarrass France to kill them in that country.

In that connection he is quoted as saying, in the course of an interview in Paris:

"Should we embarrass them by assassinating an Englishman here we should expect no better than to be escorted to the frontier.

"In France there are very few Indians. In England there are no less than 600 Indian students, and should we move definitely to clear the way for the freedom of India, it will be Englishmen in England who will be removed, and not Englishmen in France. Then there will be no excuse on the part of our hosts for inviting us to leave the country.

"I have many friends in England, some old college chums, of whom Lord Morley is one. I like Englishmen personally, but in this campaign I have completely lost sight of the personal element. It is our duty to remove any man who stands in the way of India's emancipation.

"For years I have closely studied every phase of international law, and I know the exact position of myself and colleagues in Paris in relation to the government of France.

"I have given all my friends in India the choice of throwing themselves in with us heart and soul and giving up everything else, or, on the other hand, of keeping entirely clear of us and our work.

"Our organization is such that it can only embarrass outside sympathisers and bring severe reprisals on them. We shall break none of the laws of France, but will be active enough in England.

"Our organization is now perfected. We are strong and we are sincere. Every man is true, and has forsaken all for the one great end—the freedom, the absolute freedom, of India."

Killing No Murder

The "Indian Sociologist" contains in its July issue an article by Krishnavarma justifying murder in the form of "political assassination." He says:

"At the risk of alienating the sympathies and good opinion of almost all our old friends and acquaintances in England, and of some of our past helpmates in India, we regret that political assassination is not murder, and that the rightful employment of physical force connotes "force used defensively against force used aggressively," as aptly expressed by the late Hon. Auberon Herbert in his Herbert Spencer lecture, at Oxford, in 1906."

After this subtle attempt to turn a phrase torn from its context, to his own use, Krishnavarma adds:

"In our contention that political assassination is not murder, we have the support of international law, according to which political offenders have not sinned against the morality of the universe, but against the absurd laws of an antiquated political system, like the one now prevailing in India."

Krishnavarma's praise of murder is conveyed in the following wily words:

"We are not here concerned with the question how England, in her own territory, should deal with persons who commit political assassination, and whom she, of course, regards as murderers.

"The chief object we have in view is to point out that all unprejudiced men treat political assassinators not as criminals in any way, but often regard them as benefactors of their race.

Krishnavarma has for some time supported India house, at Highgate, where young Indian students for some time past lived rent free. Krishnavarma, who wears gold spectacles and the dress of an English clergyman, left England for Paris 18 months ago.

The young Brahmin who attacked Sir William Lee-Warner gave India house as his address.

Krishnavarma in December last proposed to his friends to erect a memorial to four young Indian "martyrs," three of whom were in fact hanged in India for participation in the Muzaffer-pur outrage in May of last year.

Although his suggestion to erect a memorial was not carried out, Krishnavarma founded four "martyr's memorial scholarships," in the names of the four murderers.

The Paris correspondent of a London paper interviewed Krishnavarma on the recent tragedies.

"Of course," he said, "you must not expect me to make a declaration about yesterday's accident." This he said, smiling affably.

"You mean yesterday's murder?" I said.

"No," said Krishnavarma, "If you object to the term accident, let us call it yesterday's act of self-defence.

"From the point of view of myself and Indian patriots, the English are robbers who have camped on our land, and everything we do is turn them out is an act of justice.

"I do not wish to talk about it. My sympathies are quite well known, but if I gave too clear an expression of opinion the French government might, at the request of the British government, ask me to leave the country, and I am very comfortable here in Paris."

Krishnavarma then began to talk about Sir William Curzon Wyllie, with whom he had been on very friendly terms. When Sir William was British resident in Oudh, Krishnavarma was a member of the council of ministers. He received numbers of letters from Sir William Curzon Wyllie, and remarked, still smiling, that he had no complaint whatever to make against him.

Regarding Dr. Lalcaca, who was killed at the same time, Krishnavarma said that was very probably a mistake.

"But I want you to understand," he said, "my attitude with regard to England and the English. We Indian patriots consider that the English have taken our country from us and we consider ourselves justified in using every means to drive them out. We do not think any means too great."

"Even murder?" I asked.

"I refuse," said Krishnavarma. "to call it murder. It is merely political justice."

"Then," I said, "do you regard the death of Sir William Wyllie as justice?"

"That is a question I refuse to answer," was the reply. "I dare not answer, for the reason I gave you just now. But I do not consider his death a murder. I consider it an act of self-defence and absolutely justifiable."

FERNIE CELEBRATIONS

COAL CITY HONORS ANNIVERSARY OF GREAT FIRE

BOARD OF TRADE BANQUET HIGHLY SUCCESSFUL

(Special to The Daily News.)

FERNIE, Aug. 3—The board of trade banquet which was held in the Waldorf hotel last night to commemorate the building of the Greater Fernie was an unqualified success in every sense of the word, and the invited guests from neighboring towns have gone away with the conviction that the citizens of the coal town were in every way worthy of the assistance so freely rendered by a generous and sympathizing public in the hours of distress. The limited seating capacity of the dining room prevented more than 90 being accommodated, though twice that number sought cards of admission. If, however, the number of those who were fortunate enough to secure seats was small they made up for the defect by whole-souled enthusiasm and made the affair one that will long be remembered as the most enjoyable event in the history of the city.

Representatives of sister boards of trade were present from Spokane, Nelson, Cranbrook, Lethbridge, Hosmer, Michel, Elko and other cities and one and all bore generous greetings of congratulations and unstinted praise for the marvellous exhibition of enterprise and progressiveness that had been shown by the residents of the afflicted town in rearing on the ashes of the old, a greater and more substantial one.

President John R. Pollock made a most efficient and acceptable chairman and in opening the toast list briefly explained the object of the banquet at such a time, welcomed the guests from sister towns and asked them to convey to the citizens of their respective cities the deep, sincere and heartfelt appreciation of the people of Fernie for the magnificently generous manner in which they had responded to their appeal for help when their homes and industries had been crushed from the map of British Columbia one year ago.

The toast to the king was as usual the first on the list and was honored with enthusiasm, the audience accompanied by the orchestra, singing the national anthem. The president then proposed the "Dominion of Canada," which was responded to by his honor judge P. E. Wilson, and A. E. Simpson of the Cranbrook board of trade in two most brilliant and inspiring speeches. "Our American Cousins," was then proposed by I. Fisher in a very happy vein, and responded to by W. W. Tuttle, representing the Spokane chamber of commerce, who replied in his most felicitous style and read the following telegram from F. H. Goodall, president of the Spokane chamber of commerce: "Spokane chamber of commerce sends greetings and best wishes for the success of the new Fernie and the prosperity and happiness of its courageous and enterprising citizens. To the officers and members of the Fernie board of trade we extend congratulations upon your achievements, and felicitate you upon this occasion. In adversity and in prosperity may the hand of fellowship still be ours to grasp yours in friendship and good will. It is with exceeding regret I cannot be with you tonight. At the last moment business engagements which could not be broken prevented my attending and ex-mayor Tuttle will represent us. I wish you many happy returns."

"The Province of British Columbia," was next proposed by mayor Sherwood Herchmer, whose splendid effort was greeted with continuous applause. W. R. Ross, K.C., M.P.P., replied in a brilliant and telling speech which vibrated with enthusiasm for the future of the greatest province in the dominion. He was followed by Harry Wright of Nelson, who gracefully voiced the congratulations of his city on the rebuilding of the Greater Fernie and spoke in glowing terms of the potentialities of the province. "Our Sister Cities" was proposed by R. Reading in his usual pleasing style and responded to by W. A. Buchanan of Lethbridge; G. B. Stedman, Michel, and C. Kilgensmith of Elko. "The City of Fernie" was proposed by his honor judge P. E. Wilson and replied to by mayor Herchmer and Ald. ermen Cree and Barclay. "Railway and Commercial Interests," proposed by W. R. Ross, M.P.P., brought P. Lund, H. W. Drew and A. B. Trites to their feet and they handled the subject in a thoroughly and masterly manner. "Our Guests" was next proposed by the estimable and popular secretary of the board, G. F. Stevenson, whose remarks were received with great applause and were replied to by W. A. Allison of Cranbrook. "The Press" was proposed by J. B. Turney and responded to by P. E. Simpson of the Cranbrook Herald and E. F. Ambrey. "The Ladies" were left in the capable hands of H. W. Trenholme and H. S. Banwell, whose speeches were brimful of wit and humor.

Songs were rendered during the evening by Messrs. Dick, Fuller, Stevenson, Quinney, Wedd and Winters, which with the excellent music rendered by the orchestra added greatly to the enjoyment of the guests. The gathering broke up shortly after 2 o'clock in the morning after the singing of the national anthem and "Auld Lang Syne."

UNION LABEL NELSON, B.C.

TOURIST TRAFFIC FOR KOOTENAY

There will be general gratification, not only in Nelson but also throughout the Kootenays, over the announcement made by Mr. F. W. Peters, assistant to the second vice president of the C.P.R., as to the company's plans in regard to this city and district. The carrying of these into effect will mean that a portion of the constantly increasing tourist traffic which the C.P.R. is now handling over its main line in this province will be diverted to the Kootenays, which offer scenic and other attractions to the tourist unsurpassed in any part of the world. For the next year or so it will take considerable advertising to accomplish the object sought, but the C.P.R., when it takes any project of this kind in hand, never does things by halves. A stream of tourists through this country may, therefore, be expected next summer, and their numbers will increase year by year as the traveling public become aware of the opportunities for sightseeing and for the enjoyment of nature generally that the Kootenays offer. Every tourist who visits this country will become in himself the means of advertising among his friends and acquaintances the country's attractions and will in this way be the means of directing others this way.

One of the ways in which the C.P.R. undertakes to adopt for the development of a tourist traffic through the Kootenays is by advertising in different ways what the country has to offer the traveler and pleasure seeker. Another part of the scheme is the erection of a tourist hotel to cater to the comfort of those whom the company's advertising may bring this way. The site of this hotel is one of the matters that have not yet been decided. It must, however, be in some place easy of access from the regularly traveled route and at the same time be so situated that it will be a headquarters from which short trips can be taken to the various points of interest in the country, including the fishing streams and pools, and the districts where big game abound. The site of this hotel is a matter, however, which can be left over for the present, although not for so long a time that it will be impossible for the company, after selecting it, to erect the building in time for next year's trade.

As was pointed out several times at the meeting last night the diversion of tourists this way will not only afford a direct benefit, but it should also result in the interesting of capital in all of the country's industries.

The re-establishment of a district passenger agency here is also a matter that will directly benefit the city and district. There are several matters which Mr. Peters is to take up further with the management of the road and it is to be hoped with equally favorable results.

The announcement of the adoption by the C.P.R. of this new line of policy in regard to Nelson as well as to the Kootenays generally is the result of negotiations between the local board of trade and the company, which have been in progress for some time. In these negotiations the board of trade has been represented by Mr. F. A. Starkey, president, and Mr. E. K. Beeston, secretary, while Mr. Peters has acted for the C.P.R. The satisfactory outcome should be taken not only as evidence of a desire on the part of the C.P.R. to assist in the upbuilding of this city and in the development of the district, but also as reflecting the manner in which the claims of the city and district were presented by Messrs. Starkey and Beeston, to whom credit is due for what has been secured.

G. T. P. MATTERS

Sir Charles Rivers Wilson Says Never Was Critical Period

MONTREAL, Aug. 3—Sir Charles Rivers Wilson, president of the G.T.P., goes to Stratford and Battlecreek to inspect the shops and then to Chicago, Seattle, Victoria, Vancouver and Prince Rupert, returning east over the G.T.P. from Edmonton to Fort William, thence by boat to Sarnia. He expects to be back in England by the end of September.

Asked this morning if he thought that the critical period in the construction of the G.T.P. was now over, he said that there never had been a critical period, only such difficulties as great enterprises might expect. Now they have ample money to construct the most difficult portion, in the Rocky mountains. Sir Charles denied that there had ever been any agitation in London for a Canadian board for the Grand Trunk, saying that only one or two obscure individuals had raised the question.

IMPERIAL DEFENSE

Australian Press Opinion on Present Conference Deliberations

(Canadian Associated Press.)

MELBOURNE, Aug. 3—The Age declares that the defence conference deliberations cannot lead to a successful conclusion unless Britain makes full and intelligent provision for diversified interests and local aspirations of colonies. Australia is unalterably determined to build its own navy and train its own citizens by compulsory cadet service, but concludes The Age: "Australia first and foremost demands the service of both our soldiers and ships and we cannot permit another voice in their control. In an imperial crisis Australia would gladly place the entire armament at Britain's disposal but only by consent, not by compulsion."

MELBOURNE, Aug. 3—The Argus remarks that little Englanders now seem as rare as Canadians or Australians who wish to cut loose from the empire.

DEFENCE CONFERENCE

Third Meeting—Canadian and Australian Cruiser Squadron Suggestion

(Canadian Associated Press.)

LONDON, Aug. 3—The third full meeting of the Imperial Defence conference was held in the foreign office today, the main business being the consideration of the admiralty memorandum on naval defence. The presence of secretary of state for war Haldane and parliamentary under secretary of war council Lord Lovat indicated an effort to co-ordinate naval and military defences. The conference was in session of an hour and a half and after settling some details and suggestions to be considered by the committee of experts the conference adjourned until Thursday.

(Canadian Associated Press.)

LONDON, Aug. 3—The Times Sydney, N. S. W., correspondent cables that the principle of the individual development of naval resources of the dominions under a common training system is accepted now by practically the whole community as being attainable and an ideal principle of co-ordination of individual effort in pursuance of a common imperial policy. The idea seems to harmonize with a suggestion recently made and discussed here whereby the Pacific fleet of the empire should be supported and controlled by Canada, Australia and New Zealand in conjunction. Britain's proposal to spend the joint contribution offered by Australia and New Zealand on a cruiser squadron for guarding the trade routes of the Indian and Pacific oceans is most acceptable here to all parties. The press reserves its expressions of opinion until the result of the defence conference is known.

CIVIC HOLIDAY

Fernie Citizens Celebrate Anniversary of Fire With Picnic

(Special to The Daily News.)

FERNIE, Aug. 3—Yesterday was a civic holiday in Fernie and if the weather had been made to order it could not have been better. The combined city Sunday schools held their annual picnic at Elko, a special train taking over six hundred excursionists to that point, where all sorts of amusements had been prepared for them. In the afternoon a baseball match was played on the Fernie grounds between the Scotts and a team from Corbin. The game was keenly contested and there was some good individual play, the Corbin boys proving too strong for the local nats, winning by the score of 9 to 7. About 200 people were on the grounds and thoroughly enjoyed the game. The Fernie-Fort Steele Brewing company had a grand opening of their new premises, the doors being open to the public all day. The citizens' band discoursed music, and refreshments, both liquid and solid, were distributed with a bountiful hand to over three thousand visitors who went over the new plant in the course of the day. This brewery, with its modern and up-to-date machinery, cost in the neighborhood of $225,000. It has a capacity of 250 barrels per day and a storage capacity of 7,000 barrels. The officers of the company, who were all present at the opening ceremonies, are: President and manager, A. Motz; secretary-treasurer, J. H. Smith; directors, R. L. T. Galbraith, Fort Steele, H. E. Hyde and J. E. Woods, Pincher Creek, and T. H. Martin, Frank.

There was no general celebration of the day in the town, though all the stores and mines were closed, and many parties took advantage of the holiday to go on fishing and pleasing excursions into the country. In the evening the board of trade held a most successful banquet to commemorate the rebuilding of the town, which was one of the most enjoyable events ever held here.

John Burns on Emigrants

(Canadian Associated Press.)

LONDON, Aug. 3—In the house of commons, questioned regarding the immigration of a batch of children ranging between eight and fifteen years, president of local government board John Burns said that very young children who were orphans or deserted should not be immigrated, but he saw no objection to those mentioned being sent to Canada under the care of proper agencies.

FOLEY'S

PREMIER

SODAS

THINK OF "FRESHNESS AND FOLEY'S" TOGETHER WHEN YOU BUY SODAS

The most frequent disappointment in buying sodas is in finding them flat in taste and old in appearance. You never find that in Foley's Sodas.

We make Foley's Sodas the day they are shipped. No shipping from piled-up old stock—all fresh made the day they go out.

We ship out in moisture-proof, dust-proof, air-proof cartons. Foley's sodas reach your home in exactly the same perfect, fresh, sweet, delicious condition as when they leave the factory.

Foley's are well advertised, well made and properly packed fresh sodas.

SLOCAN LAKE GLACIER

ANOTHER TOURIST ATTRACTION IN KOOTENAY

WITHIN EASY REACH OF NEW DENVER BY TRAIL

Year after year tourists from all parts of the civilized world are coming to British Columbia in ever increasing numbers, and as a consequence the wonderful natural beauties of the province are becoming gradually better and more widely known. The tide of tourists for some years was almost wholly directed towards the main line, to Banff, to the Field glacier and to the other spots renowned for their scenery.

Lately, however, the Kootenays have been receiving far more attention from tourists. As the district has become better advertised, hundreds of pleasure seekers, health makers and lovers of the natural grandeur of great mountains and unsullied streams of water combined with scenic features which are almost unique have begun to realize Kootenay's claim as a tourist resort.

The letter below from Herbert Cue of New Denver should assist in making known the Slocan lake glacier, which in point of beauty can certainly stand comparison with those farther north. As Mr. Cue points out this glacier is now within easy reach of New Denver, and consequently of Nelson, and should be visited by many tourists and residents in the district during the summer and fall.

To the Editor of The Daily News:

Sir,—For some time past more or less interest has been shown to the citizens of New Denver and vicinity in the glacier on the west side of Slocan lake and opposite New Denver. At different times small parties have been organized to explore this region and a few have succeeded in getting through to the glacier, but found the trip very hard on account of the rough country and so much fallen timber.

Two years ago a start was made on a trail up; last year more work was done and the trail extended up some miles. This year another effort was put forth, money was procured and the trail pushed ahead until now the most difficult parts are passed and it is comparatively easy to make the trip.

A good cabin has been built by the improvement society a little more than half way up, so that shelter can be had in case of need and also the climb may be taken in easy stages.

It is the intention to organize a goodly number of parties next month to make this trip to the glacier and thus open up a new district for the beauty loving tourist.

HERBERT CUE.

BRITISH VIEW OF TRADE

WHAT LONDON PAPER SAYS OF CANADA'S COMMERCE

UNITED KINGDOM DOMINION'S MOST IMPORTANT MARKET

LONDON, Aug. 1.—Two facts emerge very clearly from a study of the return just issued of Canadian trade in twelve months, says The Standard. The first is that the United States is the country which has at present the largest commercial interest in Canada; and the second is that the United Kingdom is the country in which Canada is most profoundly concerned for the sale of her produce. The figures supply much food for reflection. The Canadian imports for 1908-9 amounted to 70 1-2 million dollars from the United Kingdom, and no less than 99 million dollars from the United States. The exports were 124 million dollars to the United Kingdom and 32 1-2 million dollars to the United States. Compared with the previous twelve months there was, in sympathy with the industrial depression prevailing all over the commercial world, a decline of 40 million dollars of imports and 18 1-2 million dollars of exports. Canadian imports from the United Kingdom fell by 2½ million dollars, and from the United States by 24 1-2 million dollars. On the other hand the exports to the United Kingdom fell by no more than a million dollars, but to the United States by 21 millions dollars.

Thus, in the past year of acute panic and industrial depression the United Kingdom has sustained her demand for Canadian produce, whereas the neighboring country was compelled to reduce her imports by about 15 per cent. We quote these figures as demonstrating the thesis we are constantly upholding, that to be the United Kingdom that Canada does now and for a very considerable time must continue to look as her best, most reliable and most profitable market. On the other hand, we recognize also that there are in the Canadian market such potentialities, so great a possibility of expansion for British manufacturers, that the mother country should lose no opportunity of securing an arrangement with Canada which would give British manufacturers a definite advantage in the market for those goods in which active competition with foreign goods exists. We are mindful of the fact, and we know that this country is not a little grateful for it, that Canada already gives a substantial preference to British over foreign goods. Many trades which were almost extinguished in 1897, when the preference was first incorporated in the Canadian tariff, have since been revived, and have grown to considerable dimensions. Other trades have not, however, been so fortunate.

Chief among these is the group of iron goods and machinery of which the exports from the United States to Canada in the last ten years have increased nearly three-fold, or from 12 to 36 million dollars. It is no exaggeration to say that scarcely one of the items comprised in this group could not have been supplied from the home country. To bring about this result it might be necessary to extend considerably the preference on these articles. We believe, however, that this enlarged preference would not be required for more than a short period. It is necessary only to deflect the present channels of trade from foreign into imperial directions. Contiguity, appetite, fashion have all helped to establish the United States in the Canadian market. A supreme effort may now oust them from the position, which, however, there must hold the more firmly the longer this improvement is deferred. In our news pages last week we reported the notable speech of a Winnipeg delegate to the Imperial Press conference, in which our manufacturers were urged to bestir ourselves in the matter of securing a better place in the rapidly growing markets of the Dominion. The Irish trade returns form a striking commentary upon Mr. Nichols' words spoken at Manchester. It furnishes also an urgent reason for the conclusion upon our side of some practical response to the preference already given us by Canada. Our commercial rivals do not man such action. These are matters which the business men of Great Britain quite certainly cannot afford to ignore.

Heney Returning to Fight

VANCOUVER, Aug. 3—An interesting personality at the Vancouver hotel last evening was Francis J. Heney, the determined prosecutor of the graft cases in San Francisco. He came in early in the evening and left again for San Francisco in the course of a rapid trip back from Alaska to take up the second trial of Patrick Calhoun, the multimillionaire president of the United Railroads of San Francisco, on the charge of having bribed a supervisor.

He bears a scare on the right side of his face just above the lobe of the ear where he was shot in the court room during the trial of the political boss, Abe Ruef.

Rainier Beer is the Best Beer.

KINGS IN CONFERENCE

KING EDWARD SPENDS DAY PRIVATELY WITH CZAR

RUSSIAN MINISTER ON INTERNATIONAL MATTERS

COWES, Aug. 3—King Edward, accompanied by his guest, the emperor of Russia, who arrived here yesterday, is spending the day cruising on his old cutter the Brittania, and in the meanwhile M. Iswolsky, the Russian minister of foreign affairs, count Beckendorf, Russian ambassador to Great Britain, and sir Edward Grey, the British foreign secretary, are discussing matters of diplomacy aboard the admiralty yacht Enchantress. With the exception of the cruisers forming the escort of the Russian emperor, the great fleet that was here yesterday has disappeared and the roadstead remains in possession of the racing yachts assembled for the regatta.

LONDON, Aug. 3—The Daily Telegraph's Cowes correspondent had an interview yesterday with M. Iswolsky, the Russian minister of foreign affairs, who spoke of the admirable international situation which had resulted from the friendship of the ruling houses of Great Britain and Russia and of the two mighty empires which yearly were growing closer together and forming one of the most powerful guarantees of the peace of Europe and ultra-Europe. M. Iswolsky referred at some length to Anglo-Saxon co-operation in Persia. Questioned as to the withdrawal of the Russian troops from Persia, M. Iswolsky said that it was a great expense to keep the two contingents there and they will be recalled as soon as permanent order was restored and the administrative machine was working smoothly.

He further expressed himself as highly satisfied with his conversation here with sir Edward Grey, the British foreign minister. He said the understanding between the two countries was grounded on a firm basis and while they had no conflicting interests they had increasingly powerful interests in common. With regard to the situation in the island of Crete, M. Iswolsky said he had good hopes that the difficulty would be smoothed out to the satisfaction of all parties.

The correspondent adds that the Russian emperor's entourage was chiefly impressed with the emperor's favorable mention of the duma in his toast on Monday night. They see in it their monarch's unchangeable determination to maintain the existence of the representative institution he created. They consider this the most significant thing that has occurred during the visit of the emperor to Cowes.

Millenium in Ireland

DUBLIN, Aug. 3—In the belief that the millenium may be ushered in any moment over 2000 "Cooneylites" are holding continuous prayer meetings at Ballinamallard, county Fermanagh. The pilgrims are arriving from all parts of Ireland and remarkable scenes are being witnessed. Hundreds of persons are baptized in the river every day and the converts are sleeping in the open air.

Pittsburg Strike

PITTSBURG, Aug. 3—Fears of serious trouble are entertained if the expected eviction of 48 strikers and their families is attempted by the Pressed Steel Car company at their houses near the company's plant at Schoenville today. A double force of deputies with the Pennsylvania state constabulary is on guard at the works.

New Torpedoes

LONDON, Aug. 3—The government is about to commence the manufacture of new torpedoes said to be a great improvement over the existing type. These instruments will have a speed of about 30 knots an hour and a range of five miles. They will be used principally from submerged tubes on battleships and cruisers.

Trade With Indies

(Canadian Associated Press.)

LONDON, Aug. 3—The Morning Post remarks that the important movement towards reciprocity between Canada and the British West Indies, and which the royal commission has been appointed to further, is likely to be checked again by the threat contained in the Payne tariff bill.

A Talk On Corsets

To be beautiful is the rightful desire of every true woman, her beauty is the supreme gift of nature to womanity.

Beauty has many attributes, and it has long been an open question whether fulness of face or perfection of figure has the greatest power of attraction.

The majority of women are endowed with a beautiful figure, but far too many ruin their appearance by confining the most supple parts of their body in badly made, badly constructed and unhygienic corsets. Upon the style and fit of the latter article depends to a very considerable extent the whole question of grace of movement and perfection of figure.

The first quality that the perfect corset should possess is that of giving sufficient assistance to the muscles of the waist in their work of supporting those soft parts of the body which under present conditions of life so certainly require it.

The second quality of the perfect corset is that of giving the body, especially the abdomen and the chest freedom of movement. Both the W.B. and the D. & A. makes of corsets have been designed on these hygienic, beauty giving lines and both makes have corsets to suit all figures.

It only remains for you to choose the corset that is specially made for your figure and see that it is properly fitted for your health, comfort and appearance to be always of the best. We carry a complete line of both styles:

W. B. from ..... $1.75 to $5
D. & A. from ..... $1.00 to $5

Come and look them over.

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY.

BOBBY KERR WELCOMED

OLD COUNTRY PEOPLE ADMIRE CANADIAN RUNNER

THEY WOULD LIKE TO SEE HIM RACE AGAIN

The question as to the proper relative merit of our visiting sprinters this year is a very open one," says the London Sporting Life. "The running of R. E. Walker and N. J. Cartmell at the championships was most convincing, it is true, and on that showing Bobbie Kerr could scarcely be placed on a level with either of the others. Yet no sooner than a week goes by before we find Kerr beating Cartmell a yard in the 100 and a foot in the 220 at Birmingham; nor can it be said that there was any fluke about the matter. The 100 was run in 10 1-5 seconds on a very dead grass course, and the furlong in 22 1-5 seconds, a performance equal to Cartmell's at Stamford Bridge. So it is quite clear that for some reason or another we did not see the best of Kerr on championship day.

"After Saturday's results, many of us would like to see him meet Walker again, say, at such a distance as that of last Saturday, 150 yards, for I still believe that the South African has something in hand at short sprint distances. Whether he will do anything at 220 yards is an open question, but Walker could run a fair quarter a year ago, and there is little doubt as to his staying power. Perhaps the greatest race between the trio would be a straight 220, and if they could be brought together at such a distance I should like to be there to see the contest. On a good day the present record would assuredly go by the board.

"The new ground at Abergavenny was opened on July 5. In the invitation sprint, 100 yards, Walker beat Cartmell, who was placed on the quarter-yard mark, a foot in 10 2-5 seconds. But it was two days after a championship. On Saturday Walker fully redeemed his reputation at the polytechnic meeting. In the open sprint he failed to win his heat in 10 1-5 seconds, but it appeared to me that he took matters easily in the last 20 yards, and anyhow, 10 1-5 seconds was quite equal to evens at Stamford Bridge. Of Walker's 150 yards one can only speak in the highest praise. Though palpably slowing in the last dozen strides, he did 15 seconds flat, and beat E. W. Haley by five yards.

"It seems that P. J. Roche and W. Murray were selected for the sprint and furlong. When the Irish pair heard that Kerr was available they, in a sporting spirit, offered to stand down, each in one event, Murray in the sprint and Roche in the furlong, and let Kerr run in both."

Johnson Covers Jeffries' Money

NEW YORK, Aug. 3—Sam Berger, manager for J. J. Jeffries, expressed considerable delight and said: "Well, I guess there'll be a fight," when informed this evening that Jack Johnson had posted $5,000 in Chicago today to bind a match with Jeffries for the heavyweight championship. In regard to the report that Johnson wants Jeffries to agree to the time and place for the match before the latter goes abroad, Berger said: "How can Jeffries name any time or place for the fight, particularly a place before a bid has been received from a promoter.

"We would like to know when and where as well as Johnson, but we are not mindreaders. If Johnson means business," he continued, "he should come here to New York as soon as the bids for the fight are in and he and myself will go over them, and anything that looks reasonably good to us both we will accept.

"Jeffries is dealing with Johnson and the public in good faith. He only wants what is fair and reasonable. Any other champion—and Jeffries is the real champion—would have demanded 90 per cent of the gate or purse, but he is good enough to say that Johnson shall have a loser's end. No, I won't say how much it will be, but it will repay him for training expenses, even if it does not for the betting—he will surely bet."

Brian Mawr Wins

NARRAGANSETT PIER, R. I., Aug. 3—Brian Mawr polo team won the first match of the national junior polo championship from Miopia, on the grounds of the Point Judith Country club yesterday. The score was 11½ to 6½. By their victory the Brian Mawr team goes into the national semi-finals and is given an opportunity of regaining the championship lost last year to New Haven after three previous successes.

Burke Batters Lucas

NEW YORK, Aug. 3—Sailor Burke, the Brooklyn middleweight, battered Fred Lucas of New York into a helpless condition at the Bedford Athletic club in Brooklyn last night. Burke had Lucas on the floor when the bell rang at the end of the first round. Two more knockdowns followed in the second and Lucas was tottering on the ropes when the referee stopped the fight.

Alberta Baseball

GRANUM, Alta., Aug. 3—Great interest is being taken here in the final struggle in the Southern Alberta baseball league, which takes place here on Friday afternoon at 2 o'clock. Claresholm's defeat of Stavely yesterday by a score of 6 to 3 leaves that team and Granum with eight wins and three losses each. Both teams are sure of winning Friday's final game, which will be, by all odds, the most exciting of the series. A large crowd of baseball enthusiasts from neighboring towns are expected to witness the match between the two rival teams.

THE NEWS' DAILY PATTERN

CHILD'S DRESS
Paris Pattern No. 2670
All Seams Allowed

The Empire style is especially becoming to the small girl. An exceedingly dainty model cut on these lines is here shown developed in blue and white dotted lawn, the yoke and front panel cutin one piece. The full skirt portion is gathered and attached to this yoke, the joining being hidden by a band of cream colored beading, run with narrow black velvet ribbon. The square Dutch neck and short sleeves are trimmed with the ribbon run beading, and, if desired, the model may be developed with high neck and long sleeves. The pattern is in four sizes, 1-2 to 5 years. For a child of three years the dress requires 3 1-8 yards of material 27 inches wide, 2 yards 36 inches wide or 1 3-4 yards 42 inches wide, with 1 3-4 yards of beading and 3 yards of ribbon.

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent. Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

Our Meats

Are Always Juicy and Strictly Fresh

Why?

Because we dress our meats daily at our Nelson abattoir. We have only the best meats and handle them with absolute cleanliness. Everybody appreciates this and our own self-respect demands it.

NELSON NEWS OF THE DAY

J. J. Walker has received a shipment of antiseptic lense cleaners which he will give to any person who wears spectacles and who will call for one.

Miss Nora Hatfield, daughter of E. Hatfield, expressman, of Rossland, is paying a two weeks' visit to Mr. and Mrs. Edgar Mason of Fairview.

J. S. Aitheart, manager of the Highland mine, says that property is making a remarkably fine showing and that another shipment was made yesterday.

The construction of the cement sidewalk around the post office is now well in hand and the portion along Ward street has now been opened up for public use.

The Ladies of the Maccabees will meet at the K. of P. hall this evening. There will be initiation and officers and guards are requested to be on hand at 7.30 sharp.

Nelson Nest No. 184, American Order of Owls, will meet tonight in Fraternity hall at 8 p. m. All members are requested to attend as this promises to be a most interesting meeting. There will be several initiations under the new order.

Tonight the Arcade puts on its midweek change of pictures. The following comprise the program: "Workingman's Dream," "Wasting the Master," both splendid comics. "Farmer's Daughter," "Sicilian's Revenge," "Parted but United" and "Woman's Wit" are fine dramatic pictures. Miss Mackenzie will sing "The Road to Yesterday," illustrated.

Creditable sidewalk construction is being pushed forward throughout the city. The work is at present progressing along Vernon street, south, between Ward and Josephine, on Ward street east, between Vernon and Front and from Stanley to Kootenay on Baker street south, while the section between Ward and Stanley on Baker is now almost ready for use.

There is every probability of a return baseball match being arranged with the Cranbrook nine to take place in this city within the next two weeks. A. Hobson, secretary of the Nelson Eagles' team, intends opening communication with the secretary of the Cranbrook team immediately. The local boys are, therefore, expected to turn out regularly for practice.

The curling head cup at the Queen's hotel will be raffled off Saturday next. Substitutes will be found for those who cannot be at the raffle. 93-2

Fresh shipment Bass at the Nelson hotel bar.

DECLINES APPOINTMENT

D. M. EAGLE WILL NOT BE PRINCIPAL OF NELSON SCHOOL

MISS THOM RETIRES, MAKING ANOTHER CHANGE IN STAFF

A telegram has been received by Dr. E. C. Arthur, secretary of the Nelson school board, to the effect that D. M. Eagle of Windsor, Ont., has now found it impossible to accept the principalship of the Nelson public school to which position he was recently appointed in succession to A. Sullivan who was appointed to an inspectorate.

The reason that Mr. Eagle has now declined the appointment offered him by the local school board is that he has been unable to secure his release from the principalship of the Windsor school in time to commence his duties here on the reopening of the public school on August 23.

The school board on learning of Mr. Eagle's decision immediately wired another applicant offering him the position but he, too, was compelled to refuse for the same reason.

They have, however, wired four other competent teachers and will consider their replies at a special meeting of the board which will be called either today or tomorrow when the appointment will in all probability be made.

There is also to be another change in the staff in addition to those already mentioned. Miss Thom, who has been acting principal since the resignation of A. Sullivan, has signified her intention of leaving the school to accept a position as principal at the Trail public school.

Miss Thom has a splendid nine owned and stands as one of the leaders of the teaching profession in Kootenay. She has taught in Nelson school for the past seven years and it is with regret that the school trustees have accepted her resignation. Her successor has not been appointed but it is thought probable that the vacancy will be filled from the staff.

PEND D'OREILLE VALLEY

Interesting Items of News From Waneta District

(Special to The Daily News.)

WANETA, Aug. 3.—Two venturesome journalists came down the Pend d'Oreille river last week in a row boat. They had started from near the source of the river in Montana and stated their intention of rowing down the Columbia river to salt water. Meantime they had to make a portage from near the boundary line to Waneta, a distance of 12 miles and for this purpose a local teamster loaded up men and boat on his wagon.

Surveyors have been busy in the valley this summer. W. S. Dewey's party has just completed the survey of nearly a dozen ranches and one another party is surveying the block of one claims near the boundary line.

J. Stirling, an old gentleman of 72 and father of John Stirling, has arrived from Scotland and will in future reside with his son, G. W. Stirling of Nelson and C. B. McAlister of Seattle, who owned land here, sold the valley a day last week. Both say that the district, if better known, would certainly attain large numbers of settlers.

Another choice valley visitor, visitor of the valley was William Hesson, the well known authority on fruit growing.

It is seldom that such continual heavy rains as occurred last week is experienced here in the middle of July.

Dr. Fryer of Nelson was down to inspect the new team of horses which William Hall has imported from Kelvin Falls.

R. H. Brown is shipping his current crop to the Nelson jam factory.

Matthew Hill has a contract to supply J. A. Montgomery, the confectioner of Nelson, with cream.

Amongst the new settlers in the valley is William Hall and his young son, from the north of England.

Capt. Downie has had the misfortune to lose a valuable mare which was gored to death by a bull.

TORONTO VANCOUVER

NELSON NEWS OF THE DAY

W. K. Zwicky of Kaslo is a guest at the Hume.

R. J. Long of Creston is among the guests at the Hume.

The temperature yesterday varied between 48 and 58 degrees.

A. Carney of Kaslo, provincial timber inspector, is a guest at the Hume.

Mr. and Mrs. Lewis McClure John and E. R. Mount-Biggs are among the guests at the Strathcona.

On account of the thunderstorm the electric current was shut off between 4.30 and 7.25 last evening.

J. M. Doyle, assistant manager of the S. F. and N. railway, was a guest at the Strathcona yesterday.

J. E. Annable has been appointed to take charge of the Kootenay exhibit at the Toronto exhibition.

The next dance at Lindsay's pavilion will be held tomorrow evening. Wilkinson's orchestra will preside.

W. B. Hudson of Erie leaves tomorrow morning for a visit to the coast cities, including the Seattle exposition.

The private sale of furniture at the residence of F. M. Black, 308 Carbonate street, will be continued this afternoon and evening.

Judge F. H. Short of Fresno, California, and C. Pierce of San Francisco, who accompanied by their wives and families have been guests at the Hume for the past couple of days, spent yesterday at the pool near Salmo Junction fishing and returned to the city last evening well pleased with a good catch. They were so well pleased with their trip that they decided to take down their families and have rented a cottage there which they will occupy until the end of the week when they will return to California.

Mrs. Crease and the Misses Crease, mother and sisters of E. A. Crease, left on Tuesday morning train for California for an extended holiday trip.

Three cars of concentrates and one car of crude ore were shipped early this week from the Second Relief mine at Erie to the Consolidated company's smelter at Trail.

James Eler of Kaslo, who was recently brought in to the provincial asylum in this city for medical examination, is to be sent in New Westminster and will be taken there by Constable Simpson.

A partnership has been formed between E. Lupton and W. A. Wilkinson, tailors of this city, to take effect today. They will conduct their business in the store now occupied by the latter on Ward street.

Owing to the inability of the members of the R. M. R. to get together a full team for the cricket match which they were to have played today with the members of the Nelson eleven, the game has been postponed.

J. W. Whitely, provincial organizer of the Grange association, came in on the Crow boat last night and is registered at the Hume. He leaves this morning for Sandon but will return to visit the local lodge on Friday evening.

Miss Alice Cunningham, who is severing her connection with the local corps of the Salvation Army, Wolfus, through the columns of The Daily News, to thank her many War Cry customers for all the kindnesses bestowed upon her during the last year, before departing on the coast train this evening.

The first shipment of the Kootenay exhibit for the Toronto exhibition, which opens on the 26th inst., goes forward by the Crow steamer this morning. It consists of a large consignment of fruit, chiefly cherries and gooseberries. The reason the shipments have been commenced so early is that it is thought advisable to send the fruit forward and have it placed in cold storage at Toronto immediately on arrival there rather than to place it in cold storage in Nelson until a date nearer the opening of the exhibition, as it will undoubtedly ship better by adopting the former course.

C. Ford, superintendent of the Dominion Express company, with headquarters at Winnipeg, accompanied by E. Heine, superintendent at Vancouver, passed through Nelson on Monday evening en route to Vancouver.

A gold brick was brought in yesterday from the Nugget mine at Salmo by J. O'Donnell valued at about $7,000, the result of three weeks' run on the ten stamp mill on the property. A brick was also brought in from the Second Relief at Erie worth over $3,000.

Mr. and Mrs. T. Greenwood of Sunshine Bay left over the Great Northern this morning. They intend visiting the A.-Y.-P. fair and making an extended tour of the Pacific coast cities including Vancouver and Victoria. They will also take a trip through the famous Hood River valley and other fruit growing districts.

Louis Gosselin of Montreal is a guest at the Hume. Mr. Gosselin is a member of the well known legal firm of Dandurand, Hibbard, Bayer & Gosselin and is in Nelson for the purpose of making an inspection of the Blue Bell mine at Riondel, the London-Richelieu near Crawford Bay and other mining properties in which he is heavily interested. In the Blue Bell he is one of the largest owners of stock and intends going up to Riondel during the next few days in order to go through the mine with S. S. Fowler, the manager. Mr. Gosselin's father is the owner of the Crawford Bay hornsite which, he states, may within the next few months be sold to an American syndicate who will at once proceed with an extensive scheme of development. Mr. Gosselin knows Nelson well as he was here about three years ago. He stated last night that there was no place on the continent where he would rather live.

Mrs. Joseph Wright of Boston, Ont., is visiting Nelson as the guest of her son, Harry Wright, and Mrs. Wright. Mr. Wright's brother, Britton B. Wright, a large sugar and coffee planter of Costa Rica, and his brother-in-law, H. B. Hunt of Boston, are also spending a few days here. The party are on their way to the Seattle fair.

F. C. Allen of Erie, son of G. W. Allen, formerly manager of the Second Relief mine, has been appointed to the position heretofore filled by his father. Mr. Allen, senior, has returned to the east, sickness in the family having called him there where his only daughter has been sick for some months past. F. C. Allen is at present a visitor in the city.

In an interview with George B. Bell of Salmo appearing in yesterday morning's Daily News, it was stated through an error that there were from 500 to 600 men at work in the Sheep creek camp. Mr. Bell states that there are considerably less men than this in that district and that there is still plenty of room for prospectors wishing to locate properties.

Count Fred. de Ballincourt-courcel, Count de Chezonnerie de Villette and Count de Perrinel de Hauvesin of Paris, France, who have spent the past two weeks in Kootenay, left last evening for Vancouver from where they will go to San Francisco, and, returning across the continent, will visit the eastern American cities before leaving New York for Paris.

Without doubt the opening scene in "The Martyrdom of Louis XVII.," which is to be shown at the Empire theatre tonight, is one of the prettiest pieces of coloring ever done on a moving picture film and is well worth seeing. Other subjects are "Two Band Boxes," "A Marriage of Convenience" and a very funny comic entitled "Martin's Leave Home for a Week," when the domestics take possession of the house and entertain their friends.

F. M Black returned last night from a trip of inspection to Sheep creek. He visited the Bonanza Bell and other properties in which he is interested and stated to a representative of The Daily News that he was entirely pleased with the progress which was being made. He brought in with him a gold brick of a value of $700, the result of nine days run of Kootenay Belle ore at the Columbia mill, four stamps only of which are at present in operation.

Four expert shots arrived in the city last evening to take part in the tournament to be held here on Friday and Saturday. They are Frank C. Riehl and G. H. Garrison of Toronto, representing the U. M. Cartridge company and the Remington Arms company; G. N. L. Robertson of Spokane, representing the Peters Cartridge company, and W. A. Robertson of Portland, representing the Dupont Powder company. They are all guests at the Hume. This party is the first detachment of the many shots who will arrive in the city in the next couple of days from points throughout the west to take part in the annual shoot of the Nelson Gun club. A practice shoot will be held at the traps this afternoon. All those desirous of taking part in the big shoot are requested to hand in their names not later than this evening to G. H. Garrison at the Hume hotel. Mr. Garison will be in charge during the entire tournament.

Fresh shipment limes at the Nelson hotel bar.

NOTICE

A special meeting of the board of trade will be held this evening at the board of trade rooms at 8.30 p. m. for the purpose of meeting Mr. F. W. Peters and receiving his proposals and the report of the president and secretary upon the negotiations with the Canadian Pacific railway that have been carried on.

E. E. BEESTON,
Secretary.

ERIE MINES ARE LEASED

SECOND CHANCE AND JUNO ARE TAKEN OVER

J. P. BELL TALKS OPTIMISTICALLY OF THAT CAMP

John P. Bell, who has spent the past few days in Nelson as a guest at the Strathcona, returns to Erie this morning. Mr. Bell is an old-timer in British Columbia, having in 1887 located in Vancouver, in which city he resided for eight years, after which he came to Kootenay and has since lived in this district continuously.

Speaking to a representative of The Daily News last evening, Mr. Bell recalled the fact that in 1891 he, with a a man named Billings, who had come to Kootenay from the Similkameen, was going to Trail. At a point just below Trail they had occasion to swim their horses across the Columbia river just where there is at present every prospect of a steel bridge being constructed in the near future by the provincial government to span the Columbia.

"Should this bridge be constructed," said Mr. Bell, "it will be one of the finest in the interior, as it will need to be about four-fifths of a mile in length. There is an island just below Trail which would render it an easy matter to span the river."

He stated that the members of the legislature from this district were at present working for its construction and he felt sure that they would have little difficulty in securing the necessary aid from the provincial government to ensure its speedy erection. Should the bridge be constructed it would assist in opening up a good mining and ranching country and would not only prove beneficial to the residents of the district directly adjacent to Trail, but would be of great value to the residents of the valley between Trail and the line of the S., F. & N. railway.

Referring to the country around Erie, Mr. Bell said that the district generally showed signs of great advancement. Several of the mines were being worked on an extensive scale, while the ranches looked remarkably well. During the present week a lease and bond had been taken on the Second Chance and the Juno by a local syndicate. These were two promising claims and the bondholders were confident that they would net good returns. The Second Relief and the Arlington continued Mr. Bell, were being worked extensively, while the Gordon, a property situated one mile to the south of Erie, was being developed with good results. S. L. Myers was working the Wafer, which adjoined the Second Relief, and Messrs. McDonald and Bellenger had completed a trail to the Lucky Boy claims, from which they expected to rawhide next winter.

The wagon road between Erie and Salmo was now almost completed and would open up a large tract of ranch land in the neighborhood. For this road the residents of the district were indebted to J. H. Schofield, M. P. P., and Harry Wright, government agent. Mr. Bell expressed great faith in the possibilities of the district around Erie and says that the construction of these wagon roads would greatly assist in the settling up of the valleys throughout that section.

GOES UP IN SMOKE

Big Fire Burns Box Cars and Much Coal

HALIFAX, Aug. 3—The coal sheds of the I.C.R., more than a dozen box cars, half a dozen coal hoppers, 700 tons of coal and other property more or less valuable went up in smoke this afternoon at the I.C.R. yards, Richmond. The good work of the I.C.R. fire department, handicapped though it was by insufficient equipment saved the surrounding property especially the round house, from destruction. The fire had gained considerable headway before the city apparatus arrived, when good work was done by the men. The engines were all taken from the round house, cars were hauled to sidings further away from the fire. The D.A.R. train was delayed until trenches were dug under the rails for the hose, when it went in and the Sydney train went out. The delay of the D.A.R. train was slight. The damage is estimated at $7000. New coal sheds are being built at the new roundhouse so the loss is not serious.

A Clean-Up Sale Of Seasonable Goods

Croquet Sets

6-ball sets, were $3.50 for $2.50
6-ball sets, were $2.75, for 1.75
