CRIMINAL TRIAL IS IN PROGRESS

Mike Barovitch Charged with Attempted Murder

DEFENCE DENY BULLET WOUND

Mr. Justice Clements' Charge to Grand Jury—View of its Functions

The assizes at Nelson opened yesterday morning, continuing in session all day and at adjournment, the only criminal case on the docket, that of Rex vs. Barovitch, in which the charge is attempted murder, was hardly begun. The evidence of the crown proceeded far enough to show, however, that the alleged crime followed a drunken fight in a crowd prevailingly Austrian. Fred C. Moffatt is acting for the crown in this case, and A. M. Johnson is conducting the defence. The questions asked by Mr. Johnson in cross-examination seem to indicate that the defense will dispute the contention of the crown that the slight wound inflicted was from a revolver bullet. An interpreter was sworn in, but his services were not used to any extent.

Mr. Justice Clement is presiding at the assizes, and in his address to the grand jury at the opening of the court, he gave directions as to the functions of grand juries. The grand jury completed its work in both departments expeditiously and was discharged at the opening of the afternoon session. Among the members of the legal fraternity present at the opening were E. P. Davis and W. A. Macdonald from the coast, Messrs. Moffatt and Johnson, C. R. Hamilton, K.C., E. A. Crease, H. C. Hall and W. B. Farris.

Mr Hall asked for the discharge of the bail bond in the case of Wright v. McEachren, as the crown had failed to indict. Mr. Moffatt stated that Mr. Hamilton had instructions from the crown in this case, but they did not go beyond a speedy trial. His lordship stated that he would hear the application at the close of the assizes.

Charge to Grand Jury

The grand jury was empannelled as follows: Harry Ambs, Alexander Carrie, W. N. Cunliffe, L. B. de Veber, J. A. Gilke, Leslie Hill, George A. Hunter, J. A. Irving, W. A. Jowett, H. G. Neelands, W. C. Wells, all of Nelson; J. L. Retallack, Kaslo; J. S. Deschamps of Rossland. Mr. Retallack was named foreman.

His lordship's address to the grand jury was very brief. He said:

"Gentlemen of the grand jury—You are to be congratulated on the lightness of the criminal docket, there being but one indictment to consider. I think it will facilitate matters if I confine my present remarks to your duties in connection with the indictment, and address you after you return your bill, in regard to your other duties.

"In the indictment a man named Barovitch is charged with attempted murder. A second count of the indictment also charges him with attempt to do grievous bodily harm. I do not know that it is the business of the grand jury to distinguish betwe n the counts of an indictment. You understand that you are not trying the prisoner. That duty belongs to the petit jury, in case you return a true bill and the matter of distinguishing between the counts of the indictment may safely be left to the petit jury.

"As I have pointed out, it will facilitate matters if I now dismiss you to the consideration of your bill, and I will address you on your other duties on your return."

The grand jury was out about 25 minutes and returning, reported a true bill in the case of Rex v Barovitch.

His lordship then addressed the grand jury in substance as follows:

"Gentlemen of the Grand Jury—I feel a little difficulty in addressing you on your other duties than those pertaining to the administration of criminal justice, as I have rather pronounced views on this subject. It is your right to visit public institutions, both federal and provincial, and examine into their administration, if you think fit, and you have the right to lay any matter you desire, before the authorities. In fact, your powers are almost unlimited. In the early days of England, with the country districts far removed from the seat of administration grand juries meeting periodically were able to perform a most useful service in bringing to the attention of the government abuses that called for remedy. In those days, however, in which the members of parliament are so accessible, there is a ready means, always available to everybody, of bringing abuses directly to the attention of the government, and it is hardly necessary for grand juries to consider this class of matters and lay their views before the authorities in the form of a presentment which frequently has little result. The more fitting way, in my

(Continued on Page Five.)

ROYAL EXILES LAND IN ENGLAND

King Manuel and Queen Mother Leave For Worcestershire Home—Dowager Queen in Italy

PLYMOUTH, England, Oct. 19—The royal yacht Victoria and Albert arrived here at 7 o'clock this evening bringing King Manuel and the Queen Mother Amelie from Gibraltar. The Duke of Orleans, Marquis Soveral, Portuguese minister, and Senor Villa Y Urrula, the Spanish ambassador, wecomed the royal exiles, who at once left for Elwood Norton, Evesham, Worcestershire, which will be their home.

Dowager in Italy

PISA, Italy, Oct. 19—The Dowager Queen Maria Pia, of Portugal arrived today on the battleship Regina Elena of the Italian navy. She was met by King Victor Emanuel and accompanied his majesty to the royal hunting lodge at San Rossario.

Cabinet Crisis

LISBON, Oct. 14—There are rumors of a cabinet crisis. The ministers of war, finance and public works, it is believed will resign.

ERECTION OF NEW FACTORY BEGINS

Western Box and Shingle Mills, Limited, Expect to be in Operation by New Year

The erection of the new shingle mill and box factory on the site lately occupied by the Kootenay Engineering Works, which were destroyed by fire last July has been commenced by W. H. Krescher. The new structure will be of substantial build and will be of one story with a large basement. The operating company will be known as the Western Box & Shingle Mills, Limited and will employ about 20 men.

It is expected the factory will be in operation by the beginning of next year. This industry is being assisted by the city council which has decided to present the new company with the site free of charge and to give exemption from taxation for five years.

NOT PURCHASING COAL MINES ON ISLAND

(Special to The Daily News.)

VANCOUVER, Oct. 19—Sir Thomas Shaughnessy returned from a trip to Vancouver island today. He denies the report that the company is contemplating the purchase of coal mines on the island. He leaves for the east over the main line tomorrow morning.

IS CLAIMING FOR QUARTER MILLION

A. E. Watts Has Seven Actions to Come Before Winter Sitting of Supreme Court.

A. E. Watts of Wattsburg and Proctor, lumberman, owner of timber limits and fruit lands seems likely to occupy a large proportion of the time of the justice who will preside at the winter sittings of the supreme court in Nelson. Mr. Watts is entering the courts with his usual enthusiasm, and vim and intends to conduct all his cases, of which there are seven, personally. For the past three weeks he has been spending much time in the offices of Registrar T. M. Bowman, conducting examinations for discovery of different witnesses in the seven cases he hopes to have decided in December.

In all he is suing in different actions for damages amounting to a total of over a quarter of a million dollars. The most important of these cases is a suit for $102,000, which he is bringing against the C. P. R. for timber destroyed in fires near Wattsburg last summer which he alleges were caused by that company's employees or engines.

Another big case is that in which he is sued by the Proctor Lumber company for $50,000 and in which he is making a counter claim for $110,000. Two cases, large enough for the ordinary man, but minor matters compared with Mr. Watts' two actions, are those against W. E. Cooke for $8300 for damages for loss of logs on the west arm during high water and against J. H. Young of Vancouver for $5000 for alleged breach of contract.

Yesterday Mr. Watts examined for discovery George Glendenning of Toronto, vice president of the Proctor Lumber company, who is represented by James O'Shea.

FIFTY DELEGATES FROM VANCOUVER

Conservative Convention in Nelson Will be Numerously Attended—Making Active Preparations.

(Special to The Daily News.)

VANCOUVER, Oct. 19—Conservative clubs here are making active preparations for a full delegation to the convention of the party organization in Nelson next month. The full apportionment of 50 delegates will go up. The central executive has decided that seven delegates shall be elected by each of the six ward organizations and the balance at large by the executive.

STREET RAILWAY DIRECTORS MEET

Decide Upon Operation of Twenty Minute Service

BALANCE DUE ON STOCK IS NEEDED

Cheap Fares Will Rule—Everything Will Be In Readiness

At a meeting of the directors of the Nelson Street Railway company held in the offices of the president last night it was stated that the company would have ample funds for making payments on the cars, for equipment and for operating expenses when the balance due on stock is received from the shareholders. The interest on the bonds, it was stated, had already been paid.

Twenty Minute Service.

The cars, as already announced, were shipped by the Ottawa Car company from the capital on October 17 and will reach Nelson by November 1, or possibly a couple of days earlier. A twenty-minute service, between the hours of 6 a. m. and 12 midnight, will be in operation within a week of the arrival of the cars here if the plans of the directors do not miscarry through some entirely unforseen occurrence.

The overhead wiring of the extension has been completed along Isala, down Cedar, Carbonate and Latimer as far as Josephine and the remaining portion of the work to the corner of Latimer and Stanley will be finished within the next three days. The track has been bonded and is in readiness for the running of the cars.

Prompt Payment Required.

Notices are being sent to the stockholders asking for prompt payment of the fourth and last installment due on the stock and the directors made a special request that the payments would be made at the earliest possible moment to Acting Secretary E. H. Smith to enable them to meet their financial engagements with the Ottawa Car company.

Operating Staff.

A special committee was appointed to select motormen and conductors from among the large number of applicants who have already written asking for positions with the company. The policy of the directors, in this matter, it was stated, would be to give preference as far as practicable to married men who were residents of the city in selecting an operating staff. Further applications should be made in writing to the secretary.

To Mountain Station.

A letter has been forwarded to J. H. Schofield, M.P.P., for the Ymir riding, requesting that a sidewalk be built between the end of the carline and the Mountain station, a distance of about a block and a half. Along this passengers arriving on the Spokane train will be enabled to walk the short distance to the terminal point of the line in the upper portion of the city. Although the exact schedule has not yet been decided upon it is the intention that it shall be so arranged that all trains and boats arriving at the Mountain station, the union depot and the city wharf shall be met.

Two Snowplows.

Instead of the fare of ten cents charged by the old company when the line was previously in operation the directors have decided to make a rate of five cents for a single ticket, 25 cents for six adult tickets and 25 cents for eight tickets for school children. They consider that these cheap fares will so popularize the cars that the company will be more than recompensed, from both a financial and sentimental point of view, for the low rates.

Track Absolutely Safe.

Directly the cars arrive the motormen and conductors will be given an opportunity to study the working parts and to become acquainted with their operation and with the track. The track has already been looked over by the provincial government inspector of street railways who stated that he considered it would be absolutely safe in all portions. Some of the grades are fairly steep but are easy when compared with many of the streets in such cities as Seattle and San Francisco. In any case the public have the assurance of the inspector that there is no danger whatever of accident. The inspector has announced his intention of being present during the first week of operation. The cars are both equipped with the latest and most approved type of Westinghouse air brakes.

Those present at the meeting were, J. E. Taylor, president, E. H. Smith, acting secretary, G. W. McBride, Al Jeffs, Mayor Selous, R. A. Brown and Alec Carrie.

VICTORIA, Oct. 19—Pending the return from his constituency of Hon. W. R. Ross, Premier McBride is acting personally as chief commissioner of lands.

SPLENDID SURPLUS

(Special to The Daily News.)

VICTORIA, Oct. 19—The British Columbia government has a surplus of $2,750,000 for the year, which ended on March 31 last. The province is in a position to pay off the whole of the public debt, if it were policy to do so. The expenditure has been greatly augmented during the past few years, and notwithstanding there is a balance of actual cash of $2,700,000 in the treasury of the province.

CATHOLICS WILL VOTE FOR ROSS

Attitude of Ledger on Religious Questions Obnoxious—Socialist Literature Damaging to Bennett.

(Special to The Daily News.)

FERNIE, Oct. 19—A Japanese named "Joe" was killed in the shafting beneath the sawing floor of the Fernie Lumber company's mill yesterday afternoon at 1:30. No one saw the accident. Both of the man's legs were cut off, one hand was severed at the wrist and the body was pounded to a pulp. The man was employed as an oiler and was evidently caught in the shaft.

A coroner's jury viewed the scene of the accident today.

Catholic Vote for Ross.

Interest in the coming by-election increases as polling day approaches. The Catholic vote will be practically solid for W. R. Ross, owing to the stand Mr. Bennett's paper the District Ledger, has taken on religious matters at various times. Hon. Thomas Taylor, minister of public works, arrived last night. His department has dealt liberally with this riding during his tenure of office and the work that has been done here is his best introduction to the voters of this constituency. Socialist Leader Hawthornthwaite held a public meeting in Coal Creek last night. The District Ledger, edited by R. P. Pettipiece, issued an election special today. The district has been flooded with Socialist Free Lance literature that is imbering Mr. Bennett's chances of saving his deposit on Saturday.

KASLO ANGLERS ENJOY GREAT SPORT

Secretary of Rod and Reel Club Sends List of Salmon Caught Saturday and Sunday

Many reports have been received in the city during the past week of the great sport that Kaslo anglers have been enjoying in the waters of the main lake near that city. From C. J. Quinn comes a list of no less than 39 fine salmon trout, all of which were caught near Kaslo on Saturday and Sunday last. The best of these weighed 19 1-2 lbs. and the smallest 5 lbs.

Many under the latter weight were caught, but Mr. Quinn kept no track of the small fry, having more than enough to do to keep a record of the big fellows. Mr. Quinn is secretary of the Kaslo Rod and Reel club of which W. E. Zwicky is president. The list of fish and their weights forwarded by Mr. Quinn is as follows:

Two weighing 19 1-2 lbs.; 1, 18 3-4 lbs; 1, 18 lbs.; 1, 17 3-4 lbs; 1, 17 lbs; 4, 16 1-2 lbs.; 3, 16 lbs.; 1, 15 1-2 lbs.; 3, 15 lbs.; 2, 14 lbs; 2, 13 1-2 lbs.; 1, 13 lbs.; 3, 12 lbs.; 2, 11 1-2 lbs.; 1, 11 lbs.; 5, 10 lbs.; 2, 9 lbs.; 2, 8 lbs.; 1, 5 1-2 lbs.; 1, 5 lbs.

IMMIGRATION FOR SCOTLAND DOUBLE LAST YEAR

(Special to The Daily News.)

VANCOUVER, Oct. 19—Malcolm McIntyre, Canadian immigration agent, having the south of Scotland as a field of operations is in the city after a trip across the continent to get thoroughly acquainted with present conditions. He says immigration from Scotland this year will be 30,000 as against 15,000 last year. The settlers will be of high grade. Interest in Canada was being greatly aroused in Scotland through letters of emigrants who have made a success there.

EMBRYO LAND SURVEYORS

(Special to The Daily News.)

VICTORIA, Oct. 19.—Successful candidates at the recent preliminary examination for provincial land surveyors are: R. P. Arnold, C. M. Barker, D. N. Campbell, A. T. B. Charlesworth, J. Clerri, E. A. Earl, W. H. Massie, A. Henderson, F. C. W. Lamerque, J. Y. Lauree, P. M. McDonald, C. F. Minthorne, G. W. Neste, H. R. Pattinson, W. A. B. Paul, P. H. Sowsman, S. Thurbourn, W. M. Tullis, C. G. Winstead and C. W. Weotton.

NELSON FIRM GETS CONTRACT FOR NEW SCHOOL

(Special to The Daily News.)

VICTORIA, Oct. 19.—Contracts for new public schools have been awarded by the provincial public works department as follows: Glenbank, Slocan, James Dancey & Co. of Nelson, at $3,97. Okanagan Landing, W. G. Simpson of Vernon, $1,358, and Yale Road, Thomas Turnbull, $260.

SEPTUAGENARIAN JUDGE IS STILL IN HARNESS

WINNIPEG, Man., Oct. 19.—Judge Walker, senior judge of the county court, today celebrated his 70th birthday and at the same time completed 20 years on the bench. He is entitled to superannuation on full pay, but says he prefers to keep in harness to resting in retirement. He is one of the best-known men in the west.

DESCENDS INTO LAKE NIPISSING

Balloon Hamburg Drops from Tremendous Height

WELLMAN AND COMPANIONS LAND

Bruised Hand His Only Injury—Cause of Failure of Great Attempt

ST. LOUIS, Oct. 19—The balloon Hamburg of Germany, the fourth to depart in the international balloon race, descended with terrific force from a height of 18,000 feet at 9 p. m. on Tuesday in Lake Nipissing.

Arm Broken.

The left arm of W. M. F. Lassman was broken, his right hand severely sprained and an artery in his wrist cut. Lieutenant Leopold Vogt, pilot of the Hamburg, was forced to swim the lake with the balloon, landing upon Seagull island where Lassman, despite his injuries, tied the aerostat to a tree and remained on the island all Tuesday night, bleeding profusely from his wounds.

Rescued by Indians.

The balloonist was rescued early this morning by Cherokee Indian hunters and sent to the hospital at Powassan, on the Grand Trunk railway, 20 miles from where he landed. The trip of Lieut. Vogt was replete with danger from the time they left Milwaukee at 6:35 o'clock on Tuesday morning to cross Lake Michigan. The balloon travelled rapidly over Lake Huron and Georgian bay during Tuesday at a great height tossed by the windy upper air. The men were in the air 28 hours during which they travelled at the rate of a mile a minute on several occasions. The balloonist landed with two and a half sacks of ballast.

Wellman Lands.

NEW YORK, Oct. 19—Walter Wellman and his five companions were landed here this afternoon by the steamship Trent, which picked them up at sea, after they had abandoned their balloon, and failed in the first attempt ever made to cross the Atlantic, through the air.

Bruised Hand.

A bruised right hand, which Wellman carried in a sling, was the only physical injury that resulted from their long voyage the like of which is unknown in all history. None of the aeronauts expressed regret for the loss of the America they agreed that it had served its purpose and taught its lesson. All stand ready to renew the attempt. Wellman made this statement: "We thought we could not get along without the equilibrator. Now we find we could not get along with it. Our plans for the future are indefinite until we find something that will do what we thought the equilibrator would do."

Cause of Failure.

The equilibrator to which he attributes the failure of his voyage, was the series of tanks containing gasoline which floated in the water attached to the air ship by a long rope. Its purpose in addition to storing gasoline and serving as a wireless "ground" was to keep the balloon steady, compensating for the expansion and contraction of gas due to changes in the atmosphere, which would have made the America rise or sink erratically. The America's experience proved that this floating dint jerking at the delicately poised airship, made it impossible to steer or make headway in the desired direction and generally weakened the structure. To find another means of compensation for this unavoidable change in the volume of gas is the problem to which Wellman and his engineer Melvin Vaniman, will now devote their attention. The direct cause of abandoning the balloon was the exhaustion of the supply of gasoline which had to be thrown out to save the ship. When the crew abandoned the balloon only enough was left to last 24 hours.

Story of Rescue.

On board the steamship Trent at sea, 12 midnight October 18. To the Associated Press, New York, by United Wireless.—We sighted the airship America at 5 a. m. today. She signalled us by the Morse code and the wireless played a wonderful part in requesting me to stand by her till daylight. We kept a boat close by her till dawn when she signalled that she could not launch her lifeboat and asked me to keep close in order that a line might be attached. We made several futile attempts to attach a line, then the America wirelessed that she would come down to the water as soon as possible and drop her boat if I would stand by and pick the boat up. Meanwhile our life boats kept as close to the air ship as possible and finally she got all her men into her boat and cut adrift at a height of about 5 feet from the water.

(Continued on Page Four.)

ATTEMPTS LIFE OF VICE RECTOR

Man With Delirium Tremens Fires Into Study of Vice Rector of Laval.

MONTREAL, Oct. 19.—An attempt was made on the life of the vice-rector of Laval university, Rev. Canon Bauth, yesterday by a man whose name the police refused to divulge. The assailant, who is said to be a well-known business man of St. Catherines street, fired with a revolver through the window of Canon Bauth's study in the university on St. Denis street. The bullet battered the window and lodged itself in a bookcase across the room, the line of fire crossing the place generally occupied by the vice-rector in the morning. The man was arrested at once by Constable Lemieux and taken to the station where he gave evidence of signs of delirium tremens. He has been sent to the Longue Pointe asylum to be examined as to his sanity.

NEW CRUISERS BUILDING FOR CANADIAN GOVERNMENT

LONDON, Oct. 19.—It is learned here that three out of five cruisers recently placed with contractors for construction in England are intended for the governments of Canada, Australia, and New Zealand, respectively. Canada and Australia will pay the builders direct.

ACKNOWLEDGES RECEIPT OF FUNDS

Judge McLatchey Thanks Nelson Subscribers to Campbellton Relief Fund.

The following letter has been received by H. W. Falconer, treasurer of the Nelson branch of the Campbellton relief fund, who is now in New Brunswick, from Judge H. F. McLatchy, treasurer of the general finance committee in charge at Campbellton:

"I am in receipt of your favor of the 14th inst. enclosing draft for $368.50 from the citizens of Nelson B. C., towards the relief of those rendered destitute by the fire of July 11th last, past.

"On behalf of our citizens and our relief committee permit me to thank you for your splendid work in our interests, and the citizens who so generously contributed to the fund we ask to accept our thanks and gratitude.

"We greatly appreciate the substantial sympathy which has been extended to us from so many cities, towns and villages throughout Canada."

Advocates Kootenay.

From the Chatham, N. B., World comes the following, relating to specimens of British Columbia ores taken east by Mr. Falconer for display at the Miramichi Natural History museum in that city:

H. W. Falconer, of The Daily News, Nelson, B. C., is visiting his parents in Newcastle. He brought with him a bag of mineral specimens for the Miramichi Natural History museum. He had read so much about it in the World, he says, that he was prompted to do something for it. The specimens were selected and classified for Mr. Falconer by E. W. Widdowson, provincial assayer, Nelson, B. C., and are highly valued by the association. Mr. Falconer will be tendered a hearty vote of thanks at its first meeting.

TOTAL JUMPS OVER FOUR HUNDRED

Registrations Now Exceed Average by 26—City Offices Will be Open Late Tonight.

With 32 additions yesterday to the list of those who had already qualified as voters in the next municipal elections in January by making declarations as householders or licensees the sum total for the month to date jumped past 400, the average for the past few years, with a rush. The total is now 426. The city clerk will be at his office again tonight between 7:30 and 9 o'clock to receive the declarations of citizens unable to appear during regular office hours.

The only license holder registered yesterday, E. K. Strachan. The householders who qualified were: John Svoboda, Mike Hawrycz, George Menirick, F. B. Lyn, William Matthews, Sydney Wood, W. J. Russell, J. Donovan, James Hird, William Newburn, G. C. Hacking, W. H. Malone, Allie Chisholm, Mike Ross, Hawry Rawink, Albert Whitehead, James Russell, E. H. Hooper, George McLean, A. J. Blaney, George Latham, J. D. Cartwright, Harry Richardson, Leslie Crawford, W. E. McCandlish, jr., George Boddeley, Alexander McCuaig, Thomas Otterburn, David Kerr, C. L. Wales, R. J. Bishop.

WINTER TIME TABLE

(Special to The Daily News.)

VANCOUVER, Oct. 19—The winter time table of the C. P. R. will come into effect on November 1. The Montreal Atlantic expresses Nos. 1 and 2 will continue through the winter, the westbound train arriving here at 11 p.m., while the eastbound leaves at 8 a.m. as at present. Connections for Kootenay points will be made at Revelstoke with Nos. 96 and 97. The eastbound will leave Vancouver at 3:45 p.m. instead of 7:30 and the westbound will arrive here at 12:15 p.m. instead of 11 a.m. The St. Paul-Seattle service will be discontinued.

COLONIZATION OF VACANT LANDS

Plan Will be Submitted to Legislature at Next Session—Minister Leaves for England.

(Special to The Daily News.)

VANCOUVER, Oct. 19—Hon. Price Ellison, provincial minister of finance, left the city for the old country today. While there he will confer with Agent General Turner concerning the colonization of vacant lands of the province in accordance with a plan said to be under consideration for action at the coming session of the house.

JURYMAN FAINTS IN CRIPPEN CASE

Professor Pepper Gives His Evidence

HAD BEEN TOLD OF OPERATION

Impossible to Tell Sex From Remains—Crippen Displays Sang Froid

LONDON, Oct. 19—At the resumption of the Crippen trial today Crippen stepped lightly into the dock as smartly groomed as yesteday. Inspector Dew was the first witness and repeated the already twice told story of how the friends of Belle Elmore consulted him, his interview with Crippen and the latter's courteous reception of him, showing him all over the house. On his second visit, finding bricks in the floor of the coal cellar somewhat loose he pried them up removing clay with a spade and a few inches down found human remains. Mr. Dew briefly told of Crippen's flight, his chase across the ocean and the confrontation of Crippen on the Montrose. "I am not sorry," said Crippen then, "the anxiety has been too much." He repeated about the finding of jewelry and Crippen's statement that Miss Leneve knew nothing about it, saying she had been his only comfort during those last three years.

Crippen Was Cool.

Mr. Tobin subjected him to a lengthy and searching cross examination.

"Did Crippen seem at all anxious or worried when showing you the cellar." "He was perfectly cool, showing no alarm or fright."

Mr. Tobin put a series of questions with the object of getting from Mr. Dew a statement that the floor of the cellar had apparently been undisturbed for years.

Juryman Faints.

While Dew was being questioned, a juryman fainted, his collapse being preceded by alarming guttural sounds. Proceedings were at once suspended and Dr. Wilcox, home office expert, attended him, taking him at once out of court. The judge then asked Dr. Wilcox to confer with him. Crippen seemed keenly interested in all this and asked the warder what was going to happen. At the warden's brusque reply Crippen smiled amusedly. One of the doctors who examined the juryman informed the judge that he had fainted from a fit the result of indigestion but that he thought he would be all right in an hour.

The proceedings were accordingly adjourned.

Trial Resumed.

The juryman having entirely recovered the trial was resumed. Mr. Dew answering questions by Tobin, said he believed Crippen had left no debts behind when he fled.

Mr. Muir re-examining Dew asked what was Crippen's demeanor during the voyage from Canada. "Perfectly collected and cool," said Dew. "He did not appear at all disquieted, his manner being exactly as when I saw him first in July."

Prof. Pepper's Evidence.

After several minor witnesses, Prof. Pepper said that the remains were human and those of a stout adult. Dissection had been done by some one skilled in the dissection of human or at least an animal body. The remains had been buried four to eight months. It was quite impossible that they had been buried as far back as 1905. He had found remains of hair eight inches in length being the hair of a female, dark brown at the root and lighter brown at the foremost part.

During Dr. Pepper's recital of the gruesome details Crippen listened attentatively, gazing intently through convex gold rimmed spectacles at the human exhibition preserved in jars.

Continuing Dr. Pepper said that there was no evidence of disease in the organs and he found no apparent cause of death. On a piece of the abdominal wall was a scar and he had not the slightest doubt that it was the scar of a wound.

Cross examined by Mr. Tobin: "Taking the remains by themselves and apart from hair and other things, it is impossible to tell the sex." "Yes."

Knew of Operation.

Replying to another question Dr. Pepper said that it was not necessary for a person to be skilled in dissecting to mutilate the remains in the manner shown. He could not fix the date of death certainly.

By Mr. Tobin, "Had you heard Mrs. Crippen had had an operation before you formed the opinion that the mark on the flesh was an operation scar." "Yes."

Mark of Operation.

Dr. Pepper further answered that there were traces of tendinous intersections of muscle, which would ordinarily be found in abdominal flesh, in the

(Continued on Page Four.)

Wallace's Big Closing Out Sale

There has never been a sale like our closing out sale, even better than our expectations, which gives startling values in every article right through the store. No reserve prices on our goods and people that have purchased here since we commenced closing not can vouch for the straightforward way we have conducted our sale right along This week we are offering underclothing specials, both in men's and boy's.

Men's Wool Underwear
Penman's Ellis', Hewson's, Viking, Stanfield's St. George, Etc.
Regular $1.50 per suit, sale price..$1.00
Regular $2.50 per suit, sale price.. 2.00
Regular $3.00 per suit, sale price.. 2.25
Regular $3.50 per suit, sale price.. 2.50
Regular $5.00 per suit, sale price.. 3.50
Regular $6.50 per suit, sale price.. 5.00
A few odd shirts, 40c. each.

Boys' Wool Underwear
Regular 50c., sale price 35c
Regular 65c., sale price .....45c.
Regular 75c., sale price .....50c.
Regular $1, sale price .....75c.

RHODE ISLAND REPUBLICANS

Harmonious Meeting Expected—Loss of Blind Boss Will be Severely Felt—Interesting Campaign

PROVIDENCE, R.I., Oct. 19—Extremely harmonious is the outlook for the Republican state and congressional conventions to be held today. Governor A. J. Pothier and other state officials are slated for renomination.

While the Republicans are harmonious and well organized there are several conditions existing this year which promise to make the campaign one of more than ordinary interest. In the first place, the recent death of Gen. Charles R. Brayton, the "blind boss," removed a leader upon whom the party had depended in almost every campaign for the past 35 years.

Gen. Brayton's loss will be felt more seriously in the event of the Republicans controlling the next general assembly, which will choose the successor to United States Senator Aldrich. It now looks as if a battle were in store similar to that three years ago when Col. Samuel P. Colt, whose friends are again urging his name, was the majority candidate against Senator G. P. Wetmore. Col. Colt has made no announcement regarding the senatorship but many of his friends who have been informed that Col. Henry F. Lippitt, the millionaire yachtsman and cotton manufacturer, is the choice of both Senators Aldrich and Wetmore, are up in arms. Friends of Governor Pothier and Former Governor Utter, whose names have also been mentioned in connection with the senatorship, are also strongly opposed to the plan of Senator Aldrich and his coterie to ignore all other candidates and select Col. Lippitt for the senate.

For Senatorial Candidate

The opponents of Col. Lippitt will probably endeavor to have tomorrow's state convention go on record for a senatorial candidate, as did the Democratic party at its convention a few weeks ago when it endorsed Judge A. L. Brown of the United States district court for the seat of Senator Aldrich.

The more aggressive leaders among the Democrats are more than hopeful of controlling the general assembly, although no Republican can be found in the entire state who believes for a moment that there is any possibility of the G.O.P. losing control of the legislative body and the power to choose the successor to Senator Aldrich. The Democrats, it is pointed out, have had a majority in the general assembly only once in 40 years and never in a senatorial year.

On the Democrat side are found several men who would loom up conspicuously as aspirants for the Aldrich toga if all predictions should go astray and the Democrats should carry the legislature. Among these is Col. Goddard who twice was a candidate and was defeated by Senator Wetmore. Col. Goddard is the head of a great manufacturing concern in which the bulk of the John Nicholas Brown fortune is invested. He is the father-in-law of the Marquise d'Andigne and an uncle by marriage of C. Oliver Iselin.

But the strongest man the Democracy could present for United States senator probably is Former Governor James H. Higgins of Pawtucket whose career has been the most meteoric politically the state has seen since the days of William Sprague, the "War Governor." Mr. Higgins is not yet 35 years old, but has been a representative in the general assembly, five times mayor of Pawtucket and twice governor. He has been practicing law since he retired from the governorship. He is a graduate of Brown University and of Georgetown University law school

UNITES ST. JOHN WITH THE WEST

Completion of Grand Trunk Pacific of Importance to Maritime Provinces —Gas Discoveries.

ST. JOHN, N. B., Oct. 19—When the Grand Trunk Pacific railway is completed, Canada will have a road from the Atlantic to the Pacific with a four-tenths grade throughout its length, with the exception of one pusher grade in the Yellowhead pass in the Rockies, and one in the province of New Brunswick.

The pusher grade in New Brunswick is only 12 miles long and the rise is only 37 feet to the mile. The passenger trains can go over it without a second engine, which will only be needed for heavy freight trains. A four-tenths grade could have been secured at this point by making a detour, adding 17 miles to the length of the road. Since this 17 miles would have cost $10,000 per mile to build, besides making a longer haul, the direct pusher grade route was chosen as in every way more desirable. As a matter of fact there are much higher grades on both the Canadian Pacific and Intercolonial, and an engine can haul much heavier trains over the Grand Trunk Pacific in New Brunswick than on either of the other roads.

It means much to St. John, as well as to the province of New Brunswick generally, that this great modern railway is nearing completion, for though the first trains must reach St. John over the Intercolonial rails from Moncton, it is only a question of a short time when a direct line will be constructed from Chipman in the center of the province to the railway terminals at Courtenay Bay, the eastern harbor of St. John.

While the new railway brings St. John 12 miles nearer Quebec by actual mileage than by the Intercolonial, the distance, because of the lower grades, is practically shortened 242 miles, for the hauling of heavy trains at high speed. One of the notable features of the Grand Trunk Pacific in New Brunswick is the great steel viaduct at Little Salmon river, 4,008 feet long and 200 feet high at its highest point. It contains 7,000 tons of steel, and is the largest railway viaduct in Canada except one on the Canadian Pacific railway at Lethbridge. All engineering difficulties along the route have been met by permanent work of the highest character. The line besides being another link to unite St. John to the west opens up a portion of New Brunswick rich in timber resources, minerals and fine farming land.

More Gas Wells.

The discovery of gas wells in Albert county, N. B., continues. Well No. 16 was shot recently and showed a yield of over half a million feet per day. The Moncton Transcript states that the wells already capped have an aggregate flow 50 times greater than is needed to provide the city of Moncton with heat, light and power. The last well struck is considerably nearer than the others. The tests have now gone beyond what is regarded as necessary to ensure profitable commercial development, and each new well that is sunk reveals an additional source of supply.

As an illustration of the facility with which the Dominion Coal company can handle cargo at their coal pockets in St. John harbor, it is noted that recently a steamer arrived at 2 o'clock in the morning with 5,419 tons of coal, and had discharged it all and got to sea again at 3 o'clock in the afternoon.

Exhibition of Fruit.

The New Brunswick Fruit Growers' association will hold an exhibition of fruit in St. John on October 31, November 1, 2 and 3. The provincial government offers $50 in prizes. During the past year or two, New Brunswick apples have been winning prizes on both sides of the Atlantic, and the province now has an orchard expert and is not only increasing the number of demonstration orchards, but encouraging farmers generally to pay more attention to fruit culture. Before many years large quantities of New Brunswick apples will be exported from St. John to the British market.

"PEGGY STEWART DAY"

BALTIMORE, Oct. 19—The patriotic and historical societies of Baltimore and of other cities in Maryland today held their customary celebrations of "Peggy Stewart Day." The celebrations are in commemoration of the burning of the brig Peggy Stewart at Annapolis, Oct. 19, 1774. The brig arrived at the Maryland capital at a time when the feeling against the taxation of Great Britain was very strong. When it was announced that the cargo of tea which the vessel carried was subject to this tax, the public indignation was very great. As a result of the popular clamor the owner of the brig set fire to the vessel with his own hands and witnessed its destruction.

Miss Verna Felton, who will take the part of Doris in "The Defiance of Doris," at the Opera House Tonight.

Stop the Leaks in Your Coal Bill

Use a **Gurney-Oxford** range and save 20 per cent. of your coal bill.

The "Chancellor" shown here is the finest steel range made by the well known **Gurney-Oxford** Company. There's **no better** to be had in the country. Made in more styles and sizes than any steel range on the market, with every late device for economy and convenience.

Material is the **best** to be had, inside and out. With or without reservoir on either end. Guard on ash door. Braced oven bottom. Drop door on warming closet. Divided oven flue, to insure even baking. Broiler top. Thermometer on oven door if desired. Made for coal or wood. **Besides** these special features—

The OXFORD ECONOMIZER

will save your fire going at lowest possible cost for fuel. Will save at least 20 per cent. of the coal you now use and will take all cooking odors up the chimney.

You'll save money every day you use a Gurney-Oxford. And always get more satisfactory results from your cooking.

Let us demonstrate to you the "Economizer," and the other Gurney-Oxford points of superiority. See how perfect a good range can be. We will also show you other Gurney-Oxford stoves and ranges for every purpose and for any kind of fuel. On display on our floors all the time.

Get acquainted with the best known, best liked stoves and ranges in all Canada. And do it now—for the good of your pocketbook.

GURNEY-OXFORD

CASSIUS M. CLAY CENTENNARY

LOUISVILLE, Ky., Oct. 19—Today marks the centennary of the birth of Cassius M. Clay, politician, diplomat, abolitionist and journalist and in many respects one of Kentucky's most distinguished sons. The fact that Mr. Clay has been dead but a few years—he died in 1904, at the age of 94—makes it somewhat difficult to realize that he was born one hundred years ago.

Mr. Clay was born in Madison county this state, Oct. 19, 1810 and after graduating from Yale engaged in the practice of law. Between 1835 and 1840 he was three times elected to the Kentucky legislature, but was rejected by his constituents in 1841 on account of his strong anti-slavery opinions. In 1854 he established in Lexington an anti-slavery paper, which after being suppressed by a mob, was revived and republished in Cincinnati. Mr. Clay supported Lincoln in 1860 and was appointed minister to Russia the following year. On his return in 1862 he was made major-general of volunteers. He was again appointed to Russia in 1863 and remained there as minister until 1869. The latter years of his life were spent at his home at White Hall, near Richmond, Ky.

No doubt about an enamelled bed's hygienic merit; none about its beauty. Nor any about its being worth its price—if it bears the "Ideal" Guarantee on the footrail.

That Guarantee assures you of more than mere surface excellence. It warrants real satisfaction to the buyer. Its stoney enamel will stay white; its parts will not work loose.

Know why "Ideal" Metal Beds are better. Ask for "The Philosophy of Sleep"—worth reading, though it is free. Write for Booklet No 44

COLLEGIATE PRINCIPAL ENDORSES BISHOP'S CHARGES

Teachers of Bi-Lingual Schools Not Properly Qualified—French Speaking Students Poorly Equipped

WINDSOR, Oct. 19—F. P. Gavin, principal of the Windsor collegiate institute, a resident of Windsor for over 20 years, has signified his endorsement of the main charges made by Bishop Fallon against the schools of North Essex. Bishop Fallon, it will be remembered attacked not only the teaching of both English and French, particularly the former, but declared that the French Canadian children were dwelling in intellectual darkness. Principal Gavin, in his official capacity, stands on the far side of the examinations and can see and examine the quality of the pupils graduated from all kinds of schools, public, separate and bi-lingual schools. This is what Principal Gavin stated in an interview, his words being given verbatim:

"My experience is with pupils in passing them through the schools and my observation is that the teachers of the bi-lingual schools are not properly qualified. I believe that to be quite true. There is no fundamental reason why French students are not just as willing to be prepared for high school work as the English. They are just as bright and willing, but they actually come too poorly equipped for their courses and leave us without finishing them. I see no reason why the department of education of Ontario should not insist on all teachers in French schools complying with the regulations From what I know I do not see why they could not teach French and English in North Essex with properly qualified instructors."

Will Support Minister

TILBURY, Ont., Oct. 19—At a meeting of the Tilbury North Township council yesterday, the members, all French Canadian Liberals, but one, pledged Dr. Reaume that they would give him a majority of 300 at the next election as a protest against Bishop Fallon's attack on him. The township is largely Liberal. The French are greatly worked up.

OFFICIALS OF ISOLATION HOSPITAL TO BE CENSURED

TORONTO, Oct. 19—As a result of Judge Winchester's inquiry into the management of the isolation hospital, some censure will be given to those responsible for the laxity displayed in post management, and to those employes who were careless in passing from ward to ward.

BALLOON RUNS GAUNTLET OF FIRE FROM FORTS

BERLIN, Oct. 19—Three aeronauts who ascended from Saarbruecken yesterday in the balloon Prince Adolf, report that they were blown over the French frontier, and were fired at by the forts at Verdun as they were passing over them. Neither the balloon nor its occupants were hit.

HOUSEHOLD NOTES

The white of an egg beaten in lemon juice and slightly sweetened is a simple remedy for hoarseness. The mixture should be slowly dissolved in the mouth before swallowing.

Remove grease stains by saturating them with alcohol rather than benzine, as the alcohol will not leave the ring around the spots that is left by the benzine. Wash in cold water.

If threads draw hard and break easily when preparing a piece of fancy work, a little white soap rubbed on the wrong side of the linen will be of advantage. It does not harm the linen.

It is claimed that woody house plants that grow a bark can be strengthened and made to flourish like the proverbial bay tree if given iron water, soaked from rusted iron and poured into the soil.

If the seats of cane chairs are sagged down, wash well on the bottom side, and when nearly dry rub the bottom over with water in which a little glue has been dissolved. Let them dry bottom side up.

Melted beef drippings or tallow can be used in the place of paraffin over the top of jelly. Be sure when cool to cover the space around the edge where it has shrunk away from the glass.

FASHIONS AND FADS

One of the loveliest of jewelled buttons is an olive shape, the elongated centre in various tones to match the gown, the rims set with brilliants, alternating and among which are placed rays of the colored stone.

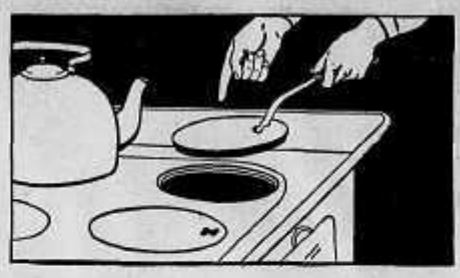
The French are enthusiastic over the practical chiffon jumper which, although it originated here, has been so eagerly adopted by them that it is now sent back to us in charming treatments to go with their latest designs in suits.

A new bag is of dark green morocco, nine inches wide, has a mother of pearl frame, held on by green bands. The lining is gray calf skin with a change purse, a powder puff box and a mirror. The handle is so made as to fall flat against the bag when folded down.

In the many combinations of velvet with other materials, which is a marked departure of the season, nothing further is left to be desired in the way of magnificence. There are for instance, all over velvet brocades mounted on changeable chiffon, which cling to the figure in soft lines.

A simple hair ornament that can be easily adjusted to almost any coiffure is made from silver and gold ribbon, an inch wide and three rows of colored beads strung side by side. Milliner's wire cut to fit the head, with loops at each end to hold a hairpin, are then twisted with the beads and ribbon so that they overlap each other.

It is a pity that so many good women elect to wear a flat, broad band of satin across the top of the head. Such an arrangement is trying to most beautiful modelled features and has a hardening effect that is anything but becoming. By putting the band under the hair at the back from side to side one will find the result much prettier, leaving the natural softness of the hair to frame the face.



These Lids are Made to Last

and stay flat—no bulging in the centre, no warping, no cracking; because they are *extra heavy* and made from the finest metal. Your kettles and pots will always set level and get every particle of heat all over the bottoms. Not for a little while, but for *years*. And every detail of construction is of equal goodness from end to end of a

KOOTENAY Steel Range

with more exclusive improvements for your benefit, than you'll find on any other range at the price. We want to *prove* this to you before you buy. WEDS FRENCH NOBLEMAN

NEW YORK, Oct. 19—Society was interested today in the wedding of Miss Eleanor Steele, daughter of Mr. and Mrs. Charles Steele of this city and Count de la Greze of Paris. The wedding took place at Sunridge Hall, the country home of the bride's parents at Westbury, L.I. The bridegroom had as his best man his brother, the Vicomte de Rancougne. The bride's attendants were her two younger sisters. The couple will make their home in Paris, where the Count de la Greze is an attache of the French foreign office.

Nyal's FAMILY REMEDIES

LOOK FOR THE DANDELION COLORED PACKAGE

That trade-mark is widely advertised for YOUR protection. When you see the name NYAL'S on a family remedy you can be quite sure of three things, viz:

First — Pure ingredients scientifically compounded.

Second — That its beneficial effects have been proven.

Third—That we know the formula and your doctor may know it too.

Nyal's Family Remedies are made by a house with a solid reputation of over half a century. The formulas are all exceptionally good—very similar to what your doctor would prescribe. We know what's in all Nyal's Remedies. That's why we recommend them.

Anything you buy with the name Nyal's will give you entire satisfaction.

Sold and guaranteed by

The Poole Drug Co. and W. Rutherford

Would You Like to Win $1,000 in Cash or This Home Costing $1,500?

We have just 20 lots left in our Burnaby Heights Addition. We guarantee every one to be on high, level ground with good soil, no rock or gravel, close to two carlines, with streets and buildings going in in the immediate vicinity. Size of lots 33x132 feet.

About a year ago we put on an addition of 236 lots and decided to offer the above prize.

We had the Nelson Daily News print in plain figures cards numbered 1 to 236, placed them each in a separate envelope and sealed same. They were then taken to a Nelson bank and the manager drew one sealed envelope from the 236 and placed it in the vault, having the remaining envelopes destroyed. We expect to close out these lots before ten days and the manager of the bank will then open the envelope and notify us regarding the number. We will send each purchaser a copy of his letter to us.

No city in Canada of 15,000 people has anything like New Westminster's prospects in the immediate future. Real estate is still low, but a rapid advance is certain.

The price of the lots is only $200, $20 down and $15 per month. Each one carries one chance to secure the money which is now lying in the bank awaiting the event.

You may be the lucky one. There has been such unusual development during the past year that we could not possibly make such an offer with another addition.

The Wright Investment Co., Ltd.

NELSON, B.C.

SPORTING NEWS.

SPORTING NOTES FROM THE OLD COUNTRY

The Field Expounds Law Relating to Amateur Status of Canadian Oarsmen.

The Warwick Welter Handicap resulted in one of the plunges of the season coming undone. Sanspot, a three year old son of Sunbridge, belonging to J. B. Joel, had never previously raced over a longer distance than five furlongs, but he was now backed for literally thousands of pounds to win at his first attempt over a mile and three furlongs. The stable commission is said, even for J. B. Joel who occasionally gambles heavily, to have been something abnormal. The horse was beaten a head by Scarlet Runner, who was not backed for a half penny, and whose trainer, as a matter of fact had backed the second. People blamed Walter Griggs for riding a bad race, and as Sanspot was making up ground so fast in the last furlong that in another stride he must have won, there was the natural temptation to do this, but Griggs, as a matter of fact, rode to orders. The orders he received were: "You are to be last, and you are not to move on the horse till you get into the straight."

Frank Wootton won the New Handicap on Claret Lad, who made his third success during the afternoon, and the boy is now only three points behind Maher in the winning jockey list; the scores being: Maher 89, Wootton 17.

Ernest Barry, English sculling champion, has arrived at Southampton from South Africa after his unsuccessful attempt to win the worlds championship from Dick Arnst. Barry is willing to put the losing end of a purse for a return match on the Thames, Arnst having promised to if Barry obtains the necessary support.

Another Indian wrestler, Imam Bux by name, is making a sensation in London. Recently, he clashed with John Lemm, of Switzerland, but the latter had no chance with his dusky antagonist who, by the way, is a brother of the famous Gama, who wrestled 2 1-2 hours with Zybszco without a fall to either man.

Steve Bloomer, at one time the idol of all England as an inside right, is out of a job. This little man, who was the terror of all goal-keepers in his day, seems to be "going back." Still, he should have a lot of good football in him yet.

A. McFarlane, of the Dolphin club, won the 220 yards swimming championship of Scotland in the Whitevale baths, Glasgow, his time being 2 min. 55 1-5 secs. Miss Etta Mackay, the professional lady champion, at the same meet, gave an exhibition swim over 320 yards, which she accomplished in 4 mins. 24 secs., thus beating her own world's record for the distance by 11 secs.

Frank Beaurepaire, the amateur champion swimmer of Australia, and holder of many world's records, accomplished another fine performance in Hull when he swam 500 yards in 6 min. 19 2-5 secs. He appeared later in the week at the annual gala of the Glasgow Amateurs, and created a new Scottish record over 300 yards. His time was 3 min. 52 2-5 secs, the previous best being 3 min. 53 2-5 secs. by Haynes.

The Field, the English sporting journal, has some rather pertinent remarks on the proposed visit of the Ottawa eight to Henley next year. "According to a report from Canada," says that journal, "the Ottawa Rowing club intend to send an eight and four to Henley next year. The eight will probably try for the Grand Challenge cup; the senior club four will attempt the same task as the Winnipeg crew who captured the Stewards' cup. The men, according to this report, will be trained on rowing machines during the winter months and migrate to England in May. On August 22 a public meeting was held in Ottawa, presided over by the mayor, at which it was unanimously decided to send the eight. Of the $5000 necessary almost one thousand was raised on the spot, and collectors have been appointed to start an active campaign. Ten Eyck will accompany the crew presumably as trainer. This raising of public subscriptions towards the expenses of the crew is, as a matter of fact, against the laws of the A. R. A. and the rules of the Henley Royal regatta, the regatta rule being as follows: "An amateur may not receive any contribution towards his expenses in competing at the regatta, except from the club which he represents; but it shall be open to any bona fide member of such club to contribute to the club funds for the above purpose."

Amateur Status.

Commenting on this the Field continues: "It is a generally known fact that most of the trans-Atlantic crews have received money raised by public subscription to defray their expenses and in this case it is none the less hard on the home oarsmen that latitude in this direction is allowed to colonials and foreigners, while in our own case the strict letter of the law has to be adhered to. The matter of expense is usually the chief stumbling block to a visit to other countries. The genuine amateur Canadian oarsmen will be heartily welcomed at Henley, but he must conform to the rules, at any rate within limits, and it is as well perhaps (in view of the mention of Ten Eyck) to point out a Henley rule which is not well known, on the other side: 'No eight-oared, four-oared, or pair-oared crew shall be allowed to compete if within four weeks prior to the commencement of the regatta the crew shall have been coached during any practice in rowing, or controlled or directed in their training by any person not considered an amateur oarsman, sculler, or coxswain under rule one.'"

HIGH SCHOOL WINS.

The officials in charge of the annual school meet at the recreation grounds last Friday have figured out the championship results. Stewart Newitt of the high school gained first place and Allan Duggan of the public school took second honors.

SMIRLIE LAWSON QUITS

TORONTO, Oct. 19—Smirlie Lawson, the running half back of last year's champion varsity team, stated Saturday afternoon he was out of the game for good. The statement was decisive and was made on the varsity oval, where "Smirlie" has so many times brought enthusiastic rugbyists to their feet as he worked out victory for his team.

"I am out of the game for good," said Dr. Lawson. "My post graduate work is keeping me more than busy. I am sorry, but I will not be able to wear the Argonaut colors this season as I expected."

LEJEUNE BREAKS BASEBALL THROWING RECORD

CINCINNATI, Oct. 19—The world's record for the long distance throwing of baseball that has stood for thirty-six years was broken at the field day between the Cincinnati and Pittsburg National league teams here when Sheldon LeJeune, of the Evansville club of the Central league, threw the ball 426 feet 6 1-4 inches, 25 feet 10 3-4 inches over the old record.

The long distance throw event was in a special match between Lejeune and Oscar Fundree, of Springfield.

The previous record was made by Tom Hatfield, and was 400 feet 7 1-2 inches.

PITCHER COOMBE'S LIFE AND WORKS IN BALL

Athletics' Star Twirler First Gained Team Four Years Ago—Has Created Sensation This Season.

It was early in 1906 that some remarkable pitching attracted attention to a youngster down in Maine, and half a dozen managers tried to sign him. Some thought they had him, but there was heart-barning one day in June that year when Connie Mack told a group of reporters:

"We'll have a new man tomorrow. His name is John Coombes of Colby college, Maine."

One of the reporters nearly fainted. He was an official of the Phillies and thought Hugh Duffy, then manager, had Coombes as good as signed. It later developed that Mack had signed the youngster almost a year before.

The average collegian fails to deliver in the big leagues, but Coombes was different. Big and strong, with great speed, but not the best of control, a good head and ability to bat, he wrote his name high in baseball chronicles by pitching a twenty-four innings victory over Boston on Sept. 1, 1906.

Coombes won that game, but the strain weakened him and the next season his pitching arm broke down. The Athletics' trainer worked hard on the arm; and in a few weeks Coombes had more speed than ever, but had no control. His batting caused Mack to play him in the outfield part of 1908, and he was kept on the pay roll during 1909, although his pitching was unimpressive.

Last spring Coombes' hard work told. One afternoon he pitched a few innings without issuing a pass and folks who had asked why Mack kept him knew the answer. From that day Coombes has been a sensation and his performance of fanning fourteen Browns proves his class. Among the feats credited to Coombes is a 16-innings runless game against the White Sox, with Ed Walsh opposing him.

HOW AL. KAUFMAN COMPARES WITH JOHNSON

As Al Kaufman, the California heavyweight, appears to be the only white fighter at this time who would stand a show with Jack Johnson, the champion, and as it is generally believed Johnson and Kaufman will sooner or later come together for the title, the following comparison of the physical measurements of the two fighters is of interest:

Johnson, Last December		Kaufman, on Labor Day
31	Age	24
195 lbs.	Weight	200 lbs.
6 ft. 1-2 in.	Height	6 ft. 12 in.
17 1-4 in.	Neck	17 in.
41 in.	Chest	40 in.
34 in.	Waist	33 1-2 in.
14 1-2 in.	Upper Arm	12 3-4 in.
13 1-4 in.	Forearm	12 1-2 in.
24 1-2 in.	Thigh	23 1-2 in.
15 1-2 in.	Calf	16 in.

The first cardinal point is years. As Johnson had the better of it in this respect over Jeffries, so has Kaufman over Johnson, but more so. "Youth will prevail," something many of us forget. Kaufman's star is rising. Johnson's will, before long, begin to decline.

Again, this youngster of 24 has Johnson beat in height and in weight, but this was also true of Jeffries.

The same difference in neck measurement obtains as did between Johnson and Jeffries, the advantage going to the negro by a quarter of an inch only. As pointed out last December, Jeffries' and Johnson were both very nearly even in girth of neck, which in large measurements show great vitality. The great blood vessels running to and from the brain, of course, are contained here and, as Dr. Sargent, of Harvard university, has pointed out, this is an important index of vitality.

Johnson is the better by only an inch in chest measurement, but, of course, every novice knows that this counts to the good for heart and lung room if there is no superfluous fat, and both have a remarkably good tapering down to the waist, while keeping good bulk in the powerful side muscles of the torso. The champion is decidedly ahead in arm and forearm and has a larger thigh but a slimmer calf. Both are symmetrical. Neither man has been fat to any appreciable extent, which is a great point.

SPORTING SPOTLIGHTS

At the first game of the world's series at Philadelphia the crowd was estimated at 35,000; Tuesday it was 21,000; at a recent cricket match at the Kennington Oval, London, given as a benefit for Samuel Apted, 51,000 spectators passed through the turnstiles. The figures are instructive inasmuch that they show the immense hold cricket has on the English public. In this consection it is interesting to note that the largest attendance at a football game in Scotland was on the occasion of the international game between England and Scotland at Glasgow when the attendance was 121,452. The largest attendance at a football match in England is given as 110,802, at an English cup final a few years ago.

The high school rugby team are practicing at the recreation grounds every evening in preparation for a game with the Kootenay Rugby club on Saturday. The match is not likely to be a straight one between the two teams as the boys are too much on the light side to stand up successfully against husky demons like Craufurd, Belcher, Parris and half a dozen others of the same calibre. What they lose in weight, however, they gain to a large extent in pace and with the assistance of a few members of the senior club the scholastics should be able to put up a good fight. It is probable that there will also be a match between the two teams on Thanksgiving day, October 31.

But Nelson accuses Al Wolgast of dodging him and of being afraid to give the defeated Dane an opportunity to regain his title lost at San Francisco last spring. And Abe Attell declares that Wolgast is also stalling to avoid meeting him and claims that Ad. is holding off with a view to another go with Battling Nelson. On the face of it the situation seems a little mixed. The truth of the matter is probably that Wolgast is stalling not because he's scared to meet either antagonist but merely in order to get the offer of a purse that would make the match worth while. Those who witnessed the go at San Francisco in the spring say that the Dane was beaten to a frazzle. There is no doubt whatever that he was all in when his seconds threw up the sponge. Whether he can come back or not is a matter which time alone can prove but Bat has been in the ring for some years and the poet and the erstwhile heavyweight champ, Jim Jeffries, are not the only persons who have discovered that there is such a thing as the triumph of time; fight promoters are quite wise by this time and are hardly likely to stage a go with Nelson as one of the parties unless the Dane can give some defenite proof to the public that he has a fighting chance of "coming back." Nelson's go with One Round Hogan at San Francisco next month may give some indication of the ex-champion's true form.

The Toronto News hands out a few bouquets to Goulding the premier walker of the world. It reads like this. "There are walkers and walkers, but there is only one Goulding. He is the peer of them all at the hoochy-coochy game, and is likely to remain so for a good many years. The Old Country sent over the best to try conclusions with the Canadian champion, but if the truth must be told, he was not able to extend the lanky local lad to the limit. Webb as a walker is sterling worth, a good honest performer beyond doubt, but he lacks the flash and style of the new world's champion. There was never a time in either of the two races that Goulding could not have gone away from his opponent. He had always something in reserve, and it was evident that had he been pushed that the record in the mile at least would have suffered some shearing."

The California Jockey club is preparing to hold a hundred days' race meeting this winter at which prizes aggregating $50,000 will be competed for.

POST SEASON GAME.

At New York—Nationals, 2-10-2; Americans, 10-14-12. Ames, Wiltze and Myers, and Wilson; Vaughan, Quinn and Criger.

SPORTING SPOTLIGHTS

A controversy is raging as to who is the fastest runner among the older men of the city. The names of Capt. Gore, Capt. Robertson, J. E. Annable, J. H. Wallace and J. P. Kilby are mentioned and it is also understood that G. A. Hunter and Dave Proudfoot claim the honor, though somewhat younger. It is suggested that these men turn out some afternoon at the recreation grounds and settle the matter.

Teddy Roosevelt is now blamed for the state of things existing in football circles across the border. A. Boyle, formerly of the University of Pennsylvania team, is quoted by a Philadelphia paper as follows:

"Let us face the issue frankly. Football is less popular and more dangerous now than it was 15 years ago. This unfortunate condition is due largely to Theodore Roosevelt's pernicious activity. His meddling with everything under the sun has spelled disaster in many ways and in none more so than in our great college games. Theodore Roosevelt is responsible for spoiling our great college game more than any other man. When an outcry arose among a lot of old maids and clergymen over a few unfortunate deaths, Roosevelt magnified the difficulty by summoning to the White House many football men and haranguing them and bully-ragging them until they and the country at large began to think that football was in a bad way. But is Mr. Roosevelt now a follower of football? Not as you could notice it. Having extracted all the notoriety possible from it, he has dropped it, and the innocent sporting public have been the sufferers. Roosevelt himself was the only coddle this time."

THIS DATE IN HISTORY

October 20

1658—Boston Common was made a place for executing criminals.

1784—Lord Palmerston, famous English statesman, born. Died Oct. 18, 1865.

1827—Combined fleets of England, France and Russia almost annihilated the Turkish navy in the battle of Navarino.

1842 — Commander James seized Monterey, Cal.

1855—Louis Joseph Napoleon Druchesi, Roman Catholic archbishop of Montreal, born.

1869—Red River insurrection began with a protest of the French half-breeds against the purchase by the Dominion government of the Northwest Territories and Rupertsland.

1870—An earthquake did much damage in Quebec.

1877—Hon. Lewis Wallbridge, chief justice of Manitoba, died in Winnipeg.

Born in Belleville, Ont., Nov. 27, 1816

1899—Boers defeated by the British at the battle of Dundee Hill.

SUNDAY SCHOOL ASSOCIATION MEETING IN VANCOUVER

(Special to The Daily News.)

VANCOUVER, Oct. 19—The western branch of the British Columbia Sunday School association yesterday opened in St. Andrew's church and will continue until Thursday. The convention is largely attended, nearly every district on the lower mainland and island being represented.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an **automatic-locking flame spreader**, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for rewicking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

The Imperial Oil Company, Limited.

"THE MATURITY OF AGE"

AGE does not always mean improvement in a whisky any more than it does in the incorrigibly bad boy. New whisky, like a young boy, must possess the elements of matured goodness.

CORBY'S "Special Selected" Rye Whisky

is made by a process which yields up the goodness of the richest grain in absolute purity.

Storage for years in charred oak casks develops its inherent qualities to a rare degree of excellence. The smooth flavor and tempting aroma are not often equalled.

On sale by all first-class hotels, cafes and liquor stores.

UNION LABEL — NELSON, B.C.

THURSDAY, OCTOBER 20.

"NO MORE MELONS."

The annual report of the C. P. R. is this year more impressive than it usually is and that is saying a good deal.

The company has a cash surplus on hand of nearly fifty million dollars. In addition it has a good many million dollars coming to it from the sale of lands which it has parted with on the instalment plan. Still further it has many millions of acres still unsold. In cash, cash accruing and lands it has probably a total of more than a hundred million dollars apart from the value of its railways, their equipment, its steamships, hotels and other incidentals. It is thus in a good financial position to serve the country along its lines and to assist in its development.

This is not due solely to the good luck of the company in owning a railway system in a rich and growing country, nor to its land grants. The American railways were for the most part built in regions rich in natural resources and in the growing time. Some of them had greater land grants. Yet the Union Pacific and the Northern Pacific have both been in the hands of receivers. And none of them have such reserves in cash and other live assets as the C. P. R.

The reason is that the American railways as a whole have been hugely overcapitalized. The basis of their capitalization has been their estimated value,—the estimated earning power of the lines,—and not their cost. A large part of their earnings goes to pay interest on watered stock and bonds. To a certain extent the C. P. R. has, during the last ten or fifteen years shown the same tendency. Melons have been cut. Stock has been issued not because the company needed to issue it but because it was desired to put money into the pockets of the shareholders and because the earnings of the road were such as to make the stock saleable.

Still the process has been kept within limits. And now comes the welcome declaration of Sir Thomas Shaughnessy that there is not to be any more melon cutting. There should not be if the interests of the country are to be considered.

NOT SO SIMPLE.

The Victoria Times rather strangely says:

> It is almost criminal to think how many homes are made miserable by the poor food consumed and how many infants are sacrificed through a lack of knowledge on the part of mothers.

Why is it criminal to think of that? If our contemporary had said that not to think of it, not to pay any attention to it, and not to do anything to remedy it was criminal, one could understand what was meant.

The Times has, however, an easy remedy for the ills of which it speaks. Of course it wants to have something more taught in the public schools. "It would be a comparatively simple thing" it says.

That would be good news if it were true. Unfortunately it is not. The immature and undeveloped minds of children cannot be taught, prior to the age at which they leave school, all that it would be well for them to know when they are men and women. They have not at that age the mental power and capacity.

Even adults could not in the same time learn half of what people are continually asking should be taught in a few years at school to children whose minds are as yet quite incapable of understanding the subjects proposed.

"The science of housekeeping and such other affairs as pertain only to women," including the care of infants, is not so simple a thing as the writer in the Times seems to imagine. Can it be that he is himself so unfamiliar with the rudiments of these subjects that he does not know how much there is to learn?

Children in the public schools might be—and indeed, they are—taught enough to give them the idea that there is a good deal in connection with these things which it would be well for them to learn. They might even be taught a few elementary principles—and they are so taught. But that is but the beginning of what adults need to know of these subjects.

EDITORIAL NOTE.

After Roosevelt's Cairo speech, his affair with the Vatican, and one or two other incidents, people wondered what he could do when he got home that would not be an anti-climax. He is now engaged in showing us that his European performances were mere preliminaries to the real show.

BOTH PARTIES NOMINATE IN DRUMMOND-ARTHABASCA

QUEBEC, Oct. 18—Conventions have been held in the county of Drummond-Arthabasca to select candidates for the forthcoming election to replace Louis Lavergne, M.P., who has been appointed senator. The Liberal convention was held at Kingsley Falls, where Sir Wilfrid Laurier addressed the meeting. J. E. Perrault, advocate, was chosen as the Liberal standard bearer and accepted the nomination.

The opposition held a convention at Drummondville attended by delegates from every parish in the county. The meeting was addressed by Messrs. Monk, M.P., Lavergne, M.L.A. and A. Sevigny, advocate of this city. The delegates unanimously decided upon Arthur Gilbert, a well known farmer, of the county, to oppose the government. He accepted.

CREW DISOBEYED ORDERS

CLINTONVILLE, Ill., Oct. 18.—The testimony that the crew of the northbound car disobeyed orders was given today in the inquest proceedings into the death of 46 passengers in the Illinois traction system wreck near Staunton on October 4. The witness, Superintendent Hansley, testified that the crew did not wait until both sections of the southbound car had passed the meeting switch. Conductor Mehl, of the southbound car, told the jurors his car was going 36 miles an hour just before the collision. State's Attorney Stenghill is assisting the coroner.

NEW LINERS OF HUGE PROPORTIONS

Latest Triumph of Shipbuilders' Skill Will Be Launched Today—Sumptuous Appointments

BELFAST, Oct. 19—An ocean steamer that will rank among the wonders of the world is to be launched tomorrow at the yards of Harland & Wolff, in this city. The steamer is the Olympic and close by is her sister ship, the Titanic, which will also soon be ready to take her initial plunge into the deep.

While nothing seems to be impossible with shipbuilders, there are many bold enough to prophesy that, so far as size is concerned, these steamers are the last word in the building of merchant marine. They are being built for the Oceanic Steamship Navigation company, more widely known as the White Star line, and will ply between Liverpool and New York.

The new vessels will have a displacement of 45,000 tons. They are to be 860 feet long, with a beam of 90 feet and the boat deck will be more than 60 feet above the water. In both tonnage and size they will surpass the Mauretania and Lusitania, although they are not expected to do so in speed. The lines of the new ships are not designed for great speed, 21 knots being the average aimed at, as against the 25 of the giant Cunarders. An immense amount of space, which in fast boats is devoted to machinery, will thus be saved for cabin accommodation. The carrying capacity of the Olympic and Titanic will exceed that of any ships afloat today by at least one-third. Each ship will carry under normal conditions more than 5000 persons all told.

Skating Rink

In almost every respect the new ships will be floating hotels. Dancing rooms, smoking rooms, cafes, a library and even gardens are to occupy prominent positions in these wonderful vessels. There will be a cool avenue of oriental palms, beds of roses and carnations and arbors skilfully contrived by expert gardeners. In the winter months all these are to be protected by glass roofs. Among other interesting innovations will be a swimming bath sufficiently deep for diving and a skating rink.

The suites of cabins are to be in their design and fittings equal to the rooms in the finest hotels in Europe, and families will be able to cross the Atlantic in almost the same privacy as in their own homes. There are to be many dining rooms, the principal one of which will be elaborately decorated and will seat no fewer than 600. Those who wish to take their meals on deck can do so at a "veranda cafe," situated on one of the upper decks, 50 feet above the level of the water. All the cafes will be decorated in a remarkable manner. They will be fashioned to represent those of the Riviera. Exposed rafters will be twined with vines and to complete the illusion, the attendants will be similar to those in southern Europe.

Safety Appliances

The Olympic and Titanic will be as complete in their safety appliances as in their luxurious equipment. Each boat will be divided into upwards of 30 steel compartments, separated by heavy bulkheads. An automatic device on the bridge will control all these heavy steel doors, making it possible for a single hand to close them all in case of danger.

A combination of turbine and reciprocating engines will propel the ships. It is expected that a great economy of coal will be effected by this arrangement. The crews will be the largest ever employed on merchant ships, each vessel carrying 850 officers and men. The displacement of each vessel when loaded will be nearly 60,000 tons. It is expected that both ships will be ready to be placed in commission early next spring.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by all druggists and dealers.

CANVASS STARTING TODAY FOR MEMBERS

Ten Day Campaign of Young Men's Christian Association Opens—Roll of Five Hundred is Aim.

The campaign for a membership of 500 for the Young Men's Christian Association, which is to be carried on for a period of 10 days, beginning with today, was successfully inaugurated last evening, at a supper given to the leading members of this canvass by William Anderson, the Y.M.C.A. secretary, with the assistance of Mrs. Anderson and other lady well-wishers of the movement. The supper was partaken of in the class-room on the first floor, and it was down to a dainty repast and did full justice to the good things provided. At its conclusion, the party settled down to serious business, and discussed the plan of campaign for the next few days so that at the end of that period it would be possible to report the success of the worthy attempt.

Plan Outlined.

Mr. Anderson was the first speaker, and outlined his idea, which was unanimously adopted by the meeting. This was that two captains should be appointed, each in charge of a team of nine men, and that they should work in friendly competition in the bringing in of new members. T. D. DesBrisay, the well-known athlete, was selected as leader for one, and Alex Chern as captain of the other team, the members of which were made up by those at the table, who were representative of the different classes in the community, and would be able to secure the best results. The score would be kept by points, each new member being counted as 10 points, and each dollar paid in membership fees registering as another point. The teams would be tallied from day to day, till the last day of the campaign, and the victors enabled in some solid manner to enjoy their triumph over the losing side. In Mr. DesBrisay, the one team had an enthusiastic leader, who is able to bring his own personality to bear on possible recruits with every hope of success, and in Mr. Chern as his opponent, the other team had a captain whose popularity with the boys should enable him to run either as a winner or a very close second.

The meeting was fruitful with suggestions, among the speakers being the respective captains of the teams, each expressing his determination to win. F. Wade and J. R. Hunter, directors of the institution, emphasized the utility of the Y.M.C.A., and stated that its actual operation within the city would be of assistance in the canvassing of new members, as they could see for themselves the many advantages the "Y" has to offer to the men of Nelson. F. J. Myers spoke on behalf of the railroad men, and offered some good suggestions, which will be carried into effect during the campaign. James Thompson, physical director, in a neat little speech appealed for efficiency of each member, and proved the necessity of physical exercise under the training of an expert for the proper development, not only of the body, but also the will and the soul, all three entities being so closely co-related as to be absolutely dependent one on the other. G. S. Ross moved a vote of thanks to the ladies for their kind hospitality, and this was unanimously accorded.

Institution Appreciated.

The greatest publicity possible will be given to this campaign during the next 10 days, and every citizen of the city is asked to lend support to the leaders and men of each team in their efforts to place the institution on a permanent and successful basis, and in so doing render a great service to their fellow men. Many testimonies have been received during the past few months of the need that the Y.M.C.A. is filling in the city, and it is for the sake of those who have not as yet realized the many advantages to be gained through membership that the present canvass is being organized. The suggestion was made and adopted that an "open night" should be held on some convenient day next week for all the men in the town, when the work of the "Y" would be shown in actual progress, and on that occasion there will also be provided some special attractions.

Last evening the spacious reception hall of the building presented a very busy appearance, all departments being under way, and there were a number of visitors present; and the remark was made in the hearing of one of the directors that the Nelson Y.M.C.A. was as in many another place, "the shadow of a great rock in a weary land" for the stranger within the city gates.

JURYMAN FAINTS IN CRIPPEN CASE

(Continued from Page One.)

piece in question on the tray produced by Dr. Pepper, which counsel examined minutely. Crippen watched the examination closely. "Intersections," added Dr. Pepper, "would not show on the skin, but on the muscles which were cut away. One mark on the skin in Dr. Pepper's opinion was due to a fold of the skin after death." "Do you consider it an operation scar." "I do." There were no marks of stitches besides the scar of the wound. In the majority of cases stitch marks remained but in others they did not. The court adjourned.

DESCENDS INTO LAKE NIPISSING

(Continued from Page One.)

This proved successful. The America immediately rose in the air and shortly afterwards at 8 o'clock I had the pleasure of welcoming on board Mr. Wellman and his five lieutenants and a cat which seemed little the worse for its air experience. I then picked up the boat and proceeded.

Glad to be Rescued.

Wellman and his crew are honored guests on board. After a wash and a brush up they ate a hearty breakfast. The America was abandoned in latitude 35.18 N., latitude 68.13 W., 480 miles from Sandy Hook and the craft is now having a great time among the clouds. The America was making a speed of about eight knots when abandoned and when released drifted to the west. Her motor had been broken and Wellman was out of his course. All hands were mighty glad to be rescued. (Signed) Capt. Dowe, R. N. R., in command SS. Trent.

CHARGE AGAINST MOTORMAN OF WRECKED CAR

WINNIPEG, Man., Oct. 18.—Acting on behalf of the Winnipeg Electric Street railway R. A. Bonnar, K.C., tonight laid information against C. H. Stenson, the motorman who had charge of the car which turned turtle at the Pembina subway early this morning. He is charged with neglect of duty and endangering the safety of passengers. The company is determined to do everything in its power to put an end to the carelessness of its employes. The maximum penalty for the offence is three years in the penitentiary.

Minard's Liniment is good for Sprains.

Dr Morse's Indian Root Pills positively cure Constipation and all kindred & resulting troubles. 25¢ a box. 16

JOINT STUDY FOR SUNDAY SCHOOLS

Union Class for Teachers May be Formed—Mrs. Bryner Will Speak Here Last Sunday of Month.

A well attended general committee meeting of the Eastern British Columbia Sunday School association was held in one of the Y.M.C.A. class rooms last evening, under the presidency of H. Amos, and several important matters were discussed, and resolutions passed, relative to the work of the association, so far as the city is concerned. Delegates from the Methodist, Presbyterian and Baptist churches will attend the annual convention at Vernon, beginning next Tuesday morning, and continuing till Thursday evening, and will bring back a full report to their respective Sunday schools.

At this convention, Mrs. Mary Bryner, one of the leading Sunday school workers in the United States, and who has made a special study of primary class teaching, will be the chief speaker, and it was arranged that she would spend Sunday, October 30, in this city on her way east to the territorial convention, and address a mass meeting of all the Sunday schools in the afternoon in the Methodist church. The details of this meeting were left in the hands of a special committee, and will be announced early next week. It is felt that the visit of such an eminent worker in the Sunday school field should be made known as widely as possible and a very cordial invitation is extended to all to hear her.

The Fairview Sunday school was also represented at the meeting, and will send a delegate to the convention at Vernon, and will also if possible take part in the mass meeting on October 30.

Mr. Amos also notified the meeting that William Anderson, secretary of the Y.M.C.A., had offered the use of one of the class rooms, and his own services as leader, for a united weekly meeting of all Sunday school teachers, to discuss the lesson for the following Sunday. The matter will be taken up by the schools concerned, and an effort made to carry out this plan. The thanks of the meeting were tendered Mr. Anderson for his proposal.

Baltimore, Md., Nov. 11, 1903.

Minard's Liniment Co., Limited.

Sirs,—I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot-races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance I remain, Yours truly,

W. C. McQUEAN,

14 St. Paul street.

Care Oliver Typewriter Co.

P.S.—Kindly answer at once.

We have had placed in our hands for sale one of Nelson's fine homes. The house is situated on four lots, all in bearing fruit trees. There is a stone foundation with cement floor basement. House has double parlor, dining room, kitchen, three bedrooms, etc. A good stable on property.

Price $4200, easy terms.

CELEBRATION AT YORKTON

YORKTON, Va., Oct. 19—With a parade and an elaborate program of addresses the 129th anniversary of the surrender at Yorktown of Lord Cornwallis to Gen. Washington and his allied armies was celebrated today under the joint auspices of the Yorktown Historical society and the society of the descendants of the signers of the Declaration of Independence. Sailors and soldiers from the navy and army of the United States, Virginia state troops and Confederate and Union veterans participated in the parade. Governor Mann of Virginia headed the list of speakers.

TO AID DEPENDENT PEOPLES

LAKE MOHONK, N.Y., Oct. 19—The 28th annual meeting of the Lake Mohonk conference of friends of the Indian and other dependent peoples began here today with an attendance of many prominent philanthropists, educators and others interested in the welfare of the American Indians, Porto Ricans, Filipinos and other peoples over whom the United States government exercises guardianship. The sessions will continue to and include Friday evening.

CRIMINAL TRIAL IS IN PROGRESS

(Continued from Page One.)

opinion, would be for the members of grand juries individually to take up matters that they regard as requiring to be brought to the attention of the government, with their representative in parliament. However, I wish you to understand that I am not forcing my views on you. If you wish to exercise your privilege, you have the right. If you should make any presentment, I will be happy to lay it before the proper authorities."

Following his lordships remarks the grand jury retired.

Prisoner Arraigned

The case of Rex v. Barovitch was then called and the prisoner, Mike Barovitch was arraigned on the two charges of attempting at Trail on Aug. 10, 1910, to murder Eli Bladovitch and of attempting to do Bladovitch grievous bodily harm, in each case by discharging a loaded revolver at him.

Mr. Johnson entered a plea of "not guilty."

The petit jury was then constituted as follows: C. F. Walmsley, R. A. Weir, J. M. Armstrong, H. V. Rudd, G. E. Revell, Louis Kerr, G. G. Peters, A. H. Marcon, John B. Taylor, Godfrey Dangerfield, S. M. Brydges, R. J. Steel. Mr. Steel was elected foreman.

The balance of the petit jurors were excused for the time, liable to be recalled in case of disagreement of the jury selected, through notification in the press.

Mr. Moffatt Outlines Case

Mr. Moffatt opened the case for the crown in a brief outline to the jury, stating that it would be shown that at 3 o'clock on the afternoon of the day named in the indictment, Barovitch came out from the bar of the Union hotel, Trail, in which he had been drinking, to the sidewalk in front of the hotel and turning back through the swing doors, which were located at the front corner facing the street, fired into the bar room. He then came out again, a short distance into the street and another man looked out from the swing doors, and in answer to Barovitch's question "What are you doing here?" answered, "It is none of your business." Barovitch then fired at the man, the bullet grazing his scalp and attempted to fire a second time, but was prevented. Constable Devitt arresting him. Mr. Moffatt showed the jury five large photographs of the locality, one showing the appearance of the hotel from the opposite corner of the street, another the depression of the street below the sidewalk, another the hill down which Constable Devitt ran, another the swing doors from the inside. He also put in a blue print map of the scene.

At this stage adjournment was taken for lunch.

Grand Jury's Presentment

Court resumed at 2 o'clock, the grand jury then making its presentment as follows.

"To the Hon. Mr. Justice Clement—May it please your lordship, we, the grand jury, beg to present as follows:

"After receiving your lordship's opinion of the value of a grand jury's presentment at the present day, we have limited our investigations to an inspection of the jail, which was found to be in a thoroughly clean and efficient condition, reflecting great credit on the warden and staff. We would, however, recommend that some system be adopted for the general instantaneous opening of all the cell doors in case of fire, such cell doors being now opened individually. The present system might well prove deficient in case of fire and even lead to loss of life.

"We feel sure that your lordship will join us in congratulating the district on the absence of crime, which is evidenced by the fact that only one criminal case is before you at these assizes."

(Sgd.) JOHN L. RETALLACK,
Foreman.

His lordship, in discharging the grand jury from further attendance, said it was a matter for congratulation that the persons for whose accommodation the jails were chiefly used, were, judging both from the names and from the evidence, largely of foreign birth, and not native born Canadians. He assured the grand jury that the presentment would be transmitted by the registrar to the proper authorities, with whom it lay to act on the recommendation, or not, as they saw fit.

Crown's Evidence

The case of Rex v. Barovitch was now resumed, and the crown commenced the submission of evidence.

Alan Lenn, photographer of Nelson, was the first witness for the crown and testified to taking the photographs shown, on Friday last.

Mr. Johnson directed his cross questioning toward throwing doubt on the accuracy of the photographs, particularly the one showing the pitch of the hill. The witness said the photograph was not foreshortened, but while the general appearance was deceptive, a scrutiny foot by foot would show that the hill was steep. Mr. Johnson's contention was that the picture showed the steep incline practically as a level.

Constable's Account

Robert Henry Devitt, at the time of the occurrence C.P.R. constable at Smelter Junction and also acting provincial constable, testified that at the time named, he was descending Smelter Hill, where he lived and was about twothirds of the way down when he saw a man come through the folding doors as if he had been thrown out. The man recovered himself, pushed open the swing doors, and fired into the room. The witness ran down the hill toward the man, who backed out into the street about a yard from the sidewalk and pointed a "gun" at a man standing on the sidewalk and fired at him. The witness was then 60 yards from the man firing the shot. He continued running toward him, saw him raise the revolver again toward the man, and grasping him by the wrist and the revolver, took the latter from him. He "broke" the revolver, which was a .32 calibre hammerless Ivor-Johnson revolver, containing five shells, two of which were discharged. One empty shell was found on the prisoner. He turned both prisoner and weapon over to Constable Moneypenny. The witness identified the man he then arrested as the prisoner at the bar. There were other people around at the time of this occurrence, which consumed about five minutes. The man he arrested was not what he would call drunk. He was present when a bullet was taken from the inner side of the door.

Ten Second Man

Under cross-examination, Constable Devitt swore the time between the first and second shots was 10 seconds, or not more than 15 at the outside. He ran 100 yards down the hill over rough ground, part of which was sandy, in the ten seconds. Mr. Johnson caused the witness to show on the map the exact spot where Bladovitch stood when fired at and examined the witness carefully as to his ability to see the two sides of the hotel. Constable Devitt swore that he distinctly heard the snap of the revolver the time it missed fire. In his examination before the Trail magistrate he had not mentioned the polished empty shell he had taken from the prisoner's pocket, as he had not been questioned about it. He had not tampered with the cartridges. The witness saw no blood on Bladovitch's face nor on his white shirt. At the time of the firing Barovitch and Bladovitch were facing one another, and Bladovitch neither dodged nor winced. He saw no one else on the sidewalk, and he did not see a young Austrian standing behind Bladovitch.

Physician Describes Wound

John Bain Thom of Trail, physician, testified that between 3 and 4 o'clock of the afternoon in question, Bladovitch, in the company of others, came to him at his residence in the Trail hospital, to have him treat a wound in the head. The wound was a superficial wound about two inches long, running obliquely a little forward of the top of the head. At its deepest part it was not deeper than a third of an inch. It was not an incised wound, such as made by a very sharp instrument, and it was not lacerated or ragged, though its edge was roughened. There was no bruise beneath it. He treated it with a lotion and closed it with metal clips.

Mr. Moffatt asked the witness his opinion as to the cause of the wound.

Mr. Johnson objected that it had not been shown that Dr. Thom was a specialist in wounds.

His lordship asked what experience the witness had had with wounds, and Dr. Thom said he had treated perhaps six gunshot wounds. He would not think of saying that a bullet caused this wound, but it was a wound such as a bullet could cause. From the location of the wound, he would not expect much of a flow of blood.

Under cross examination by Mr. Johnson, Dr. Thom said Bladovitch was a full blooded man, and appeared to weigh about 180 pounds. He did not notice whether the man's hair was wet, indicating washing. He observed no marks on the face or clothing. The wound when he first saw it looked as if it had been washed. He said a chair round was one of numerous things that might have been the instrument causing a wound of that description. He had never treated a superficial bullet wound.

To Mr. Moffatt, the witness said that the more of bruise, congestion and raggedness, the more likelihood of the wound having been caused by a blow with a blunt instrument. If such an instrument had caused the wound, he would have expected to find more contusion and raggedness than he did find.

At the request of Mr. Johnson, the witness explained to the jury that that portion of he human head was covered by three skins. The thickness of the skins would have a bearing on the amount of the bruising and also the length of time that had elapsed. A glancing blow would show less bruising than a direct blow.

Alleged Victim's Testimony

Eli. Bladovitch, a smelter employee at Trail, the alleged victim of the alleged shooting, was the next witness. Bladovitch swore that at 3 o'clock of the afternoon in question he was in the bar of the Union hotel, drinking with Eli Bebenik. They had about six drinks, when six men came over from the Victoria hotel, Mike Barovitch, Steve Feirica Joe Brakage, John Yelavac, Yelavac's brother and another. They had a couple of drinks and then Barovitch and Zebenik started kicking the witness sitting at a table by the bar. Barovitch and Zebenik started to fight, the witness remaining at the table for four or five minutes. Hearing a shot, the witness went to the door and stood outside. He told Barovitch it was none of his business why he was there and Barovitch fired at him, the bullet striking his head and making him hear a singing in his ears. He did not think anything after that, except that he was scared, but he saw Barovitch start to raise the revolver toward him again. Barovitch did not actually raise his arm.

The witness then went to his room and about an hour later went to the doctor.

During the trouble in the bar room, Barovitch said to Zebenik: "I ain't scare of you and Zebenik said the same to Barovitch. This was what he meant by saying they were "kicking." The witness on this occasion wore a white shirt. When he went out on the sidewalk he had nothing in his hand.

Did Not Go to Bed

Cross examined by Mr. Johnson, the witness said the previous night he had worked on the "grave yard" shift at the smelter, going down to his boarding place, the Union hotel, about 6 o'clock in the morning. He did not go to bed, and up to 3 o'clock in the afternoon had about nine drinks but no dinner. He had a glass of whiskey in the morning and the rest of the time he drank beer, cashing his pay check. All of his drinks were at the Union. He was not drunk. The other boys were drinking too.

He had not had trouble with Yelavac. He and Brakage had not grabbed a chair. The witness would not swear he could remember everything that happened that day up to 3 o'clock as there were many present and everyone was mixed up. Zebenik was a friend of his. He heard the plate glass window broken. He did not see one of the party draw a knife on another. He did not see a shot fired at the ceiling.

When he told Mike Barovitch it was none of his business he did not hear Barovitch then say, "Stand back." He did not see a young man named Davitch standing behind him in the doorway, but Davitch might have been there. He remembered Zebenik saying: "Are we going to have a drink or a fight?" The landlord said: "Have a drink." He did not hear Zebenik say: "How do you feel, Mike?" or hear Mike answer: "Feel how?" and Zebenik again: "Feel like fight." He did, however, hear Barovitch say he "did not want to fight; he would rather drink. The witness, with the revolver in his hand, illustrated to the jury the motions Barovitch went through in handling the weapon.

The witness said he and Barovitch had never quarrelled. He had never told Barovitch that the latter "looked like an old woman." He had never called Barovitch names when drunk. He saw no one on a bench outside at the time of the shooting.

To his lordship, the witness said he was born in Austria, he and the accused coming from adjoining villages.

All Day Carouse

Steve Butonc, proprietor of the Union hotel, gave the names of a large number of "those present" on the occasion in question. He described the Union party lined up at one section of the bar and the Victoria party at another section, when a big fellow from the Victoria said: "We must drink or fight," and the witness persuaded them to drink. They drank and Barovitch and the big fellow had words, and all at once all of them were fighting. Brakage swung a chair at another man, and then he heard a shot. He threw his eyes to the swing doors, and saw smoke. Then he threw his eyes to the ceiling and saw dust coming down. Then he got under the bar. When he came out he saw Bladovitch come in, with blood on his head. The witness got out through a side door and saw Barovitch arrested.

Cross-examined by Mr. Johnson, the witness said Joe Idukavitch was present at the bar room trouble. Zebenik was a big man, weighing 180 to 200 pounds. He saw Brakage hitting right and left with the chair. The back of the chair was broken off, but he did not know who broke it. He did not see Eli Bladovitch hit on the head. Idukavitch caused a lot of trouble that day to various persons. He did not see Idukavitch stab at Zetrica or chase him, but he saw the cut coat later. He did not see Idukavitch go after Barovitch. Nobody was very drunk in his house that day, they were just "glad." They had big glasses in the morning and smaller glasses later.

Observe Fight Through Window

Benjamin Gregory, a smelter employee, went into the Union hotel about 3 o'clock for a cigar, observing a lot of loud talking there. Vic Miller and W. Graham were with him. There were 11 in the party. The three of them went outside and sat on a bench. Then a noise arose inside and the witness looked through a window and saw a general fight. He saw Barovitch fall out through the doors, and push them open again, having pulled a revolver, and fire in at random. The witness advised the man to put the revolver away, or he might get into trouble. After half a minute Barovitch backed out, Bladovitch following. They exchanged words in some other tongue than English, and Barovitch drew the revolver again and fired at Bladovitch. He raised the gun once more, but it missed fire. He was then arrested.

To Mr. Johnson the witness said Miller and Graham looked through the window with him at the fight. The witness was a teetotaller. He saw no one outside except Barovitch, Bladovitch and his own companions. He plainly heard the click the time the revolver missed fire. Bladovitch said nothing and made no movement when hit. There was no blood on Bladovitch's face when he came out of the bar.

It being 5 o'clock, court adjourned with the conclusion of Gregory's testimony.

MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound for years and never found any medicine to compare with it. I had ulcers and falling of the uterus, and doctors did me no good. I suffered dreadfully until I began taking your medicine. It has also helped other women to whom I have recommended it."—Mrs. HENRY CLARK, Glanford Station, Ontario.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 30, Gardiner, Maine.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

We Are Showing Some Truly Fetching Waists

New Autumn
Stocks
Embrace
Many
Remarkably
Attractive
Garments

Even if fashion has not already declared in favor of separate waists, the unusual charm of this season's styles would ensure for them general popularity.

The Peasant Blouse is the model most affected. This has been developed in plain and fancy materials, Persian patterns being especially prominent. Veiled effects that are extremely becoming are also in evidence. Both long and short sleeved models are represented with a decided predominance of the former.

Whether for practical or dressy wear, to go with tailor suit or complete a calling costume, the woman in search of a pretty waist will find a host of charming styles from which to select.

Smart style does not mean extravagant price for the woman who comes here to shop. We have plenty of truly beautiful blouses at prices of extreme moderation.

On some of the most attractive styles orders cannot be duplicated. So first comers will enjoy widest scope of selection.

M'QUARRIE & ROBERTSON

419 WARD ST. NELSON, B.C.

Russell Sage's advice to young men: "Put your money in real estate near a growing city."

Money Making Investments

"The cheapest way to acquire experience is to take advantage of the experience of others."

VANCOUVER and NEW WESTMINSTER are destined to be one great city and the wonderful development now going on ensures the junction in a very short time.

With the tremendous city building developments in the vicinity of the two cities, property lying between them offers an investment that cannot be equalled in British Columbia.

Vancouver building permits for the first nine months of 1910 were $9,000,000 as against $7,000,000 for all of 1909. That surely spells progress to the knowing ones.

Read what the Vancouver Province has to say of New Westminster on Oct. 15th:

This has been a good week in New Westminster for city property. A large number of sales of residential properties have been made, in many cases the transfers being those of fine homes. The buyers in not a few instances have been Vancouver people, who have purchased with the intention of living here. City property in comparison with Vancouver is ridiculously low in price and this is gradually beginning to be realized, with the result that city property is finding a ready sale. No one section of the city appears to be favored for this class of buying. For business property there are many enquiries and it is expected that some large deals will be closed next week. Among other announcements of the week was that of the proposed building of a $150,000 theatre building on Columbia street, with stores underneath the theatre. The project has advanced to that stage where plans have been drawn and are now under consideration.

The cry for houses to rent is heard on all sides and every real estate office is daily besieged by people who have found it almost impossible to secure suitable dwellings. And this despite the fact that there has been an unprecedented amount of building in the city this year, houses being erected in all sections. On Eighth avenue alone there are thirty houses being constructed in one row. The scarcity of houses has brought the inevitable and arrangements are now under way for the early erection of at least two large apartment houses. Both will be situated close to the business center. On Pine street fifteen houses in one block are being built.

Improved Car Service

Strong pressure is now being made to have the B. C. Electric Railway Company improve its city street car service, giving more lines and a quicker service. It is argued that much building in the upper portion of the city has been delayed waiting for better car service. If the company acceds to the request of the citizens there will be a tremendous amount of building on the hill. Certain differences existing between the company and the city are considered to have held back the inauguration of this improved service. These are now in a fair way to be adjusted and it can only be a matter of a short time until an announcement is made of the commencement of work on the city car lines. The improved city service with the extensions to Milleide and Lulu Island, which the company have promised to undertake soon, mean progress such as the Royal City never saw before.—Vancouver Province, October 15.

We have a choice subdivision situated on 3rd avenue, Burnaby adjoining the city limits of New Westminster just four blocks from 8th avenue, referred to above and overlooking the Fraser Mills Lumber company's plant, the B.C. Distillery and the new C.N. terminals on the Fraser river. The property is directly between the Vancouver-New Westminster interurban and the Vancouver-Sapperton interurban lines, and is just four blocks from the New Westminster car line. The property is all cleared, lots are 50x160 feet and each lot has from nine to twelve bearing fruit trees thereon. They are situated on a graded street which is the most populous one in East Burnaby. We can conscientiously recommend the lots as a good sound investment, sure to make you money, and in the very near future.

Prices: $500 to $650. Terms: $25 cash; balance 3, 6, 9, 12, 18 months.

Call at our office and let us show you.

GROWING CHILDREN

play hard and work hard at school, and rapid growth uses up an enormous amount of energy and vitality that needs replacing.

This accounts for the many delicate, sickly and ailing children we see on our streets.

We wish the mother of every such child would come to our store for a bottle of Vinol, as it is a delicious cod liver and iron tonic which children love to take, and it is easily assimilated.

A grateful mother in Durand, Mich., says her little girl was weak, pale, and had no appetite. She gave her Vinol and she began to thrive at once—and she gained rapidly in weight, color and strength. (Name furnished on request.)

Vinol builds up good healthy flesh and muscle tissue and makes thin little limbs round and plump.

Try a bottle of Vinol with the understanding that if it does not benefit your child your money will be returned. W. Rutherford, Druggist, Nelson.

WHY SUFFER FROM PILES?

Zam-Buk Gives Certain Ease.

Friction on veins (the hemorrhoid veins) that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others? Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from the use of Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it and after using three or four boxes I am pleased to say it has effected a complete cure."

Mr. G. A. Dufresne, 183-185 St. Joseph Street, St. Roch, Quebec, P. Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles."

Magistrate Sanford, of Weston, King's Co., N. S., says: "I suffered long from itching piles, but Zam-Buk has now cured me."

Mr. William Keddy, of Upper Nine Mile River, Hants Co., N. S., says: "I suffered terribly from piles, the pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. I procured a supply and commenced with the treatment. After a very short time Zam-Buk effected what several other ointments and medicines had fail to do—a complete cure."

Zam-Buk is also a sure cure for skin injuries and diseases, eczema, ulcers, varicose veins, cuts, burns, bruises, chaps, cold sores, etc. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

COMMUNICATIONS

The John Houston Memorial.

To the Editor of The Daily News.

Sir,—I should like, with your kind permission, to enlarge upon the scheme suggested in a letter to you that appeared in your issue of the 8th inst. for a memorial to the late John Houston. I found on a recent visit to Nelson that the idea met with the approval of many beside myself, and indeed I can think of no more desirable memorial than that the name of John Houston should be perpetuated by connection with so important and valuable an institution as the Tuberculosis sanatorium at Tranquille. At present there are many sufferers from the "white plague" in our cities of British Columbia, who are unable to receive relief, as they do not possess the means to pay for it, but with an endowed ward, free treatment could be given to such cases, and the memorial would prove a blessing to many. The idea of raising memorials of this nature as tokens of more lasting benefit to mankind than any other, we see is being carried out to perpetuate such names as "King Edward VII and "Florence Nightingale," and in such company let the name of John Houston go down to posterity, and Nelson can prove to the world that it, at least, possesses the "true Nelson spirit" in donating the memorial fund to such a widely beneficial purpose.

M. L. AMMIUS.

Greenwood, B. C., October 17, 1910.

NO DYSPEPSIA OR STOMACH DISTRESS

Settles Your Out-of-order Stomach and Ends All Indigestion Five Minutes Later.

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapepsin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourest, acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 50-cent case of Pape's Diapepsin, then you will readily understand why this promptly cures indigestion and removes such symptoms as Heartburn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations of undigested food, water brash, Nausea, Headache, Biliousness and many other bad symptoms; and, besides, you will not need laxatives to keep your stomach, liver and intestines clean and fresh.

If your Stomach is sour and full of gas, or your food doesn't digest, and your meals don't seem to fit, why not get a 50-cent case from your druggist and make life worth living? Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and, besides, one case is sufficient to cure a whole family of such troubles.

Surely, a harmless, inexpensive preparation like Diapepsin, which will always, either at daytime or during night, relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

POSTMASTERS MEET

BOSTON, Oct. 19.—The New England Postmasters' association held its annual meeting in Boston today with a large attendance of members. One of the leading features of the program was an address by E. T. Bushnell, chief clerk to the first assistant postmaster general at Washington.

FOR SALE

FOR SALE—The largest stock of boats and paddling canoes in British Columbia, that have only been used a short while this season, at one-third off spring prices. Several launches from 18 to 35 feet, at bargain prices. Several of the famous Peterborough motor canoes, new and second hand. These are without any doubt the best small boat ever constructed. No craft of their size and dimensions can compete in sea-going qualities, carrying capacity, durability, and generalness. Propelled by a 2 horse power engine, they are capable of making between 7 and 9 miles per hour. A man of ordinary strength can haul one out on the beach without any exertion. For further particulars and prices write or call. The Lindsay Launch & Boat Co., Box 34, Nelson, B.C.

Own Your Own Home

A GRAND PROPOSITION FOR THE WORKING MAN

Use other people's money to buy your home; then pay it back in monthly payments; less than ordinary rent.

Your money is not being thrown away as 6 per cent interest is allowed during the time the contract is maturing. Do not ask others who know nothing about this plan, but come and see me. I will be pleased to give you the very fullest information as well as a copy of the contract.

If you have no lots now, I can show you how you can buy lots and build on them and so own your own home.

If you cannot call, write me. I will explain everything. Numbers have already taken advantage of this system. Why not you.

NELSON NEWS OF THE DAY

(Additional local news notes on page 8.)

M. S. Middleton, provincial horticulturist, returned to the city last night from the Salmon river fruit land district.

Members of L. O. L. are requested to be present Friday evening, October 21, when they will confer the royal arch purple degree.

Mr. and Mrs. H. H. Stewart, in preparation for the winter, have moved from their summer residence on the north side of the lake and are at the Strathcona hotel for moving into their house on Hobson street.

Royal Hotel, here's your home for the winter. Best board in the city. 198

Miss Olga MacKay is prepared to resume her dancing classes. Apply 912 Vernon street. 183-6

Bulbs for fall planting, both for the garden and house, are daily expected to arrive at the Hudson's Bay Stores. They are direct from one of the very best firms in Holland. See advt. 154-tf

MRS. E. BEACH will receive pupils at 408 Victoria street. 130-5

For Thanksgiving Day, October 31, 1910, the Canadian Pacific Railway Company are authorizing a rate of fare and one-third for the round trip. Tickets will be on sale October 29 to 31 inclusive, final return limit November 2, 1910.

WANETA NEWS NOTES.

(Special to The Daily News.)

WANETA, B. C., Oct. 19.—J. S. C. Fraser, manager of the Bank of Montreal, Moncland; J. Cronin, the well-known capitalist, and G. L. Merry of Trail were in the valley last week looking over some of their land and timber holdings.

Captain Finlay Kerr has returned home after spending the summer down at the coast.

J. T. Snyder now occupies the position of local station agent in place of W. H. Ketchum, removed to Nelson.

William Duncan, foreman, with a gang of men is constructing a bridge over Fifteen Mile creek.

Bear Shot.

After doing considerable damage to a local orchard another bear was killed last week. Residents would feel grateful for an amendment to the Game act allowing the trapping of bears inside fields and orchards, for breaking down the limbs of bearing trees a single bear can easily do $100 worth of damage and as the visits are made in the night, the rancher at present must suffer the annoyance and loss until by chance the bear makes the mistake of allowing himself to be made a target of by daylight.

Big Crop of Apples.

There was a big crop of apples in the valley this year and ranchers have been shipping steadily to nearby points where the demand is good at satisfactory prices.

H. A. Douglas, accountant of the Royal Bank of Canada, Nelson, was in the valley on a hunting trip.

The friends of R. G. Brown, who recently underwent a serious operation in Victoria, are glad to hear that he is now considered strong enough to make the journey back to his home.

The steel bridge over the Pend d'Oreille river at Box canyon, state of Washington, is being constructed for the Idaho and Washington Northern railway which eventually will pass through the whole length of this valley on its way to the city of Trail.

M. Chabenas had a slight accident necessitating a visit to the doctor in Nelson.

A. G. Lang went up to Nelson on today's train.

Residents in the valley are highly pleased over the fact that the Hon. Thomas Taylor, minister of public works, has definitely announced that the future route of the transprovincial wagon road passes through this valley and up the Salmon river.

J. R. Martin, timber inspector, is down on official business.

A car of lumber is being unloaded to supply the needs of several settlers.

KASLO NEWS ITEMS

(Special to The Daily News)

KASLO, Oct. 19—S. Hunter has installed a beautiful Gourlay piano in the home of S. H. Green and expects another to arrive in a few days for W. B. Smith. This makes a total of nine Gourlay pianos placed in Kaslo homes by Mr. Hunter.

B. H. Latham, fire chief, left for Cranbrook to attend the fire chiefs' convention today.

Rev. and Mrs. Reynolds leave in a few days to spend the winter at the Bahama islands.

George Drennan has been busy packing the household goods and is forwarding them to S. H. Harrison, who is in future going to reside in Marcus.

COUGHING BURST BLOOD VESSEL

Says Danger Avoided and Cures Coughs in Five Hours

A writer for the medical press states that coughing is responsible for the bursting of blood vessels quite frequently. A cough or cold means inflammation (fever) and congestion and these in turn indicate that the body is full of poisons and waste matter. Simple relief, as found in patent cough medicines and a whiskey, often result in more harm than good; as they cause more congestion. A tonic laxative cough syrup will work marvels and here follows a prescription which is becoming famous for its prompt relief and thorough cures. It rids the system of the cause, except it be consumption. Don't wait for consumption to grasp its victim, but begin this treatment which cures some in five hours. Mix in a bottle one half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Take 20 drops every half hour for four hours. Then one-half to one teaspoonful three or four times a day. Give children less according to age.

RETIREMENT OF LIEUT.-COL WOLF

WASHINGTON, Oct. 19—After more than 30 years of active service, Lieut.-Col. Silas A. Wolf, 28th Infantry, was placed on the retired list today on his own application. Lieut.-Col. Wolf was graduated from West Point academy in 1878 and has served continuously in the infantry arm. His last post of duty was with his regiment at Fort Snelling, Minn.

WILL NOT JOIN HANDS WITH SIR WILFRID

MONTREAL, Oct. 19—"Was it the comet or Sheldon that upset the Montreal papers?" asked Sir Charles Hibbert Tupper when he had read an evening paper that he was to join hands with Sir Wilfrid Laurier and that both had been seen at the Windsor conspiring for the defeat of the Conservative party at the next federal election.

"The day I am seen working with Sir Wilfrid Laurier for the benefit of the Liberal party," added Sir Hibbert, "you may look for the end of the world."

Minard's Liniment Cures Dandruff.

NOTICE TO CONTRACTORS

Grand Forks Court House.

Sealed tenders, superscribed "Tender for Court-house, Grand Forks," will be received by the Honourable the Minister of Public Works up to noon of Tuesday, the 25th day of October, 1910, for the erection and completion of a brick and stone building at Grand Forks, B. C.

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 20th day of September, 1910, at the office of the Government Agent, Grand Forks, and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of $3,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.
Department of Public Works,
Victoria, B. C., September 29th, 1910.

NOTICE.

In the matter of Chapter 36 of the British Columbia Statutes, 1910, and of the appraisement and apportionment thereunder.

All persons, or their assignees, who did work or supplied material, including goods or merchandise in connection with the actual construction of the grade of the Midway & Vernon Railway, between Midway and Rock Creek, are requested to send in a detailed statement of their claims verified by affidavit or statutory declaration to the undersigned. R. F. GREEN,
Secretary for Valuators.
P. O. Box 312, Victoria, B. C.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson Division of Kootenay District.

(a.) The name: Jonathan Rogers; address: Vancouver, B. C.

(If for mining purposes) Free Miner's Certificate No. 41833 B.

(b.) The name of the lake, stream, or source (if unnamed, the description is): Sheep Creek.

(c.) The point of diversion: about 3000 feet up from the junction of Sheep Creek and Wolf Creek.

(d.) The quantity of water applied for (in cubic feet per second): 11.2 cubic feet.

(e.) The character of the proposed works: flume and pipe.

(f.) The premises on which the water is to be used (describe name): The Kootenay Belle group of mines.

(g.) The purposes for which the water is to be used: mining purposes.

(h.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return: To be returned to Sheep Creek about eighteen hundred feet up from the junction of Sheep Creek with Wolf Creek, difference in altitude about 180 feet.

(i.) This notice was posted on the 1st day of July, 1910, and application will be made to the Commissioner on the 1st day of August, 1910.

(j.) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: Green Gold Mines, Salmo; A. H. Tuttle, Ymir; Amalgamated Gold Mines, Vancouver.

Attach copy of such parts of the Company's memorandum of association as authorise the proposed application and works.

JONATHAN ROGERS.
Per F. E. Morrison, Agent.
Vancouver, B. C.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson Division of West Kootenay District.

(a) The name, address and occupation of the applicant: Fred A. Starkey, of Harrop, B.C., Merchant.

(b) The name of the lake, stream or source (if unnamed, the description is): Mill Creek.

(c) The point of diversion: About 400 feet southwest of Block 20, Lot 222, Group 1, Kootenay district.

(d) The quantity of water to be applied for (in cubic feet per second): One-quarter cubic foot.

(e) The character of the proposed works: Ditch and flume.

(f) The premises on which the water is to be used: Lot 2 and Block 5A, Block 20 of the west sub-division of Lot 222, Group 1, Kootenay district.

(g) The purposes for which the water is to be used: Irrigation.

(h) If for irrigation describe the land intended to be irrigated, giving acreage: 12 acres Lot 2 and Block 5A, Block 20 of the sub-division of Lot 222, Group 1, Kootenay district.

(i) Area of Crown land intended to be occupied by the proposed works: None.

(j) This notice was posted on the 22nd day of August, 1910, and application will be made to the Commissioner on the 22nd day of September, 1910.

FRED A. STARKEY,
Nelson, B.C.

NOTE—One cubic foot per second is equivalent to 35.71 miners' inches.

MI-O-NA

RELIEVES STOMACH MISERY ALMOST IMMEDIATELY.

If the food you ate at your last meal did not digest, but laid for a long time like lead on your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, dizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected.

Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any distress, Mi-o-na will relieve instantly.

But Mi-o-na, unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na costs 50 cents at the Poole Drug company's and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; it cleanses the stomach and bowels; purifies the blood and makes rich red blood.

NELSON NEWS OF THE DAY

Additional local news notes on page 1.)

The temperature yesterday varied between 35 and 38 degrees.

Born, on October 18, to the wife of A. G. Johnson, Hoover street, a daughter.

William Irvine, who was taken ill on Saturday last, is progressing favorably.

Born, on October 18, to the wife of George Turner, Latimer street, a daughter.

W. W. Bradley, provincial assessor, went to Cranbrook on Tuesday. He will return to Nelson on Saturday.

There will be a meeting of the directors of the Nelson Library association tomorrow evening at 8 o'clock, at the library.

James Hunter, not Frank Hunter, was recently sued by Mrs. M. K. Matthews for a rent bill. The two men are not related to each other.

The dates of the dances of the Cinderella club are the following Thursdays: November 4, 18, December 16, January 6, 20, February 10.

The Y.M.C.A. campaign for new members commences today and will continue until October 29. It is hoped that the membership list of this institution may be increased by means of a vigorous canvass to 500 in the period.

A special meeting for prayer and conference in honor of the approaching visit of Rev. D. Patterson and Mr. Weaver will be held in St. Paul's Presbyterian church hall this evening at 8 o'clock. Friends are invited.

Mrs. Arnold Driscoll on Monday night was stricken blind. She is now under the treatment of Dr. Gilbert Martin and hopes soon to regain her sight. Mrs. Driscoll some years ago was blind and recovered under the treatment of Dr. Butler, a specialist of Moncton, N. B.

Among the attractions at the Eagles' social on Wednesday night, October 28 will be progressive whist, for which prizes will be given. Brother Mason has promised to present the winner with a beautiful mounted illustration entitled "A Swimming Match," which may be seen in the window of the Queens cigar store.

The portions of the West Kotenay exhibit for the Canadian National Apple show from ranches east of Nelson and as far west as Castlegar are being collected at A. McDonald & Co.'s new warehouse which has been placed at the disposal of J. W. Cockle and A. D. Emory. The display will be shipped to Vancouver on Saturday.

The Y.M.C.A. First Aid class will meet as usual tonight at 8:30 o'clock. Dr. L. B. Borden will give a lecture on "Circulation." This is an important subject dealing with the stopping of bleeding, cleaning and dressing of wounds. As this is only the second lecture of this helpful and interesting series, it is not too late for any man to become a member of this class.

Joseph Blackburn appeared before W. E. Wasson, J.P., yesterday morning to answer a summons sworn to by James Robertson in which it was alleged that the defendant stole 50 pounds of hay from a stable on an alley north of Baker street on the night of October 14. The alleged offense being an indictable one Mr. Wasson had no power to hear the charge, and accordingly adjourned the case until Wednesday next.

J. H. Matheson, who has been in business in Nelson for the last 19 years, with the exception of one year, has bought out the Marcus-Turgeon Electrical company, which recently established in the fore part of the premises occupied by him at 606 Baker street, and he is adding the electrical business to that of his general repair shop. The premises have recently undergone a complete remodelling. Everyone will wish Mr. Matheson success in his new venture.

The members of the Church of England at Edgewood are considering the erection of a church at that place. For some months past Rev. Mr. Pallimore, Church of England missionary stationed at Nakusp, has been holding services in Edgewood twice a month and the population is now sufficient to justify the building of a church. The syndicate owning the townsite have offered to present one lot free and a second will probably be purchased by the congregation.

The first annual dance of the Nelson Lawn Tennis club will be held at 9 o'clock sharp tonight at the Eagles' hall. Wilkinson's orchestra has been engaged for the occasion and a committee of ladies will supply refreshments. Tickets have been selling in great numbers during the past week for this event, which is the first important ball of the season. Those who have not yet obtained tickets may do so from the Poole Drug company, the Canada Drug and Book company, W. Rutherford, or from the secretary at the door of the hall.

The regular meeting of Aberdeen hive, Ladies of the Maccabees, in K. P. hall last evening, was somewhat of a special occasion. After a successful meeting and initiation, the members of the hive entertained the charter members, it being the eighth anniversary of the founding of the order. About 50 members answered the roll-call, and others who were sick responded by letter. The meeting closed in due form, after which all repaired to the banquet room, where refreshments were served by a committee consisting of Mesdames Thompson, McLean, Fletcher and McEachern. The repast proved to be a very dainty supper, and then the charter members, in turn, gave a few words for the good of the order. The remainder of the evening was passed pleasantly with a musical program and dancing.

W. C. Gladwin of Vancouver, provincial fire warden, is a guest at the Strathcona.

R. H. Ley came in from Sheep Creek yesterday and is at the Strathcona.

W. B. Pool, manager of the Nugget gold mine of the Sheep creek camp, is a guest at the Hume.

James S. McGregor, brother of H. S. McGregor, Nelson studio, arrived last night on the Crow boat from Aberdeen, Scotland.

H. C. Headington, a London capitalist interested in the Enterprise (B. C.) Mines and the Ymir Gold Mines, Limited, left on Tuesday night for the coast.

AT THE THEATRES

Allen Players Open Engagement at Opera House Tonight—Good Picture Shows.

"The Defiance of Doris," which is to be presented by the Allen Players at the opera house tonight, is a peculiarly constructed play; very much out of the ordinary run of comedy dramas. Miss Verna Felton, in the leading role, has a part which suits her better than anything she has yet been seen in here, and the balance of the company is particularly well cast. Previous to the opening of the play, the hero and heroine, who are both graduates of Stanford, have been secretly married and the plot of the play is hinged on the attempts of the young pair to retain their secret until their respective fathers, who have become estranged through political differences, have resumed friendly relations. Doris Bradley, the heroine, at last divulges her secret to her father, in order to save her husband's life, and the play closes on the two old men "burying the hatchet," as they graphically put it. The play bears a double interest for Miss Felton's friends and admirers, as the scenes are enacted near her home, and the author is a newspaper man in San Jose, Cal. The Allen Co. carry their own special baggage car, and new scenery will be used for every production during their engagement here. There is already a large advance sale for tonight, and everything points to a capacity house.

An unusually strong program is billed at the Empire theatre this evening. "The Stolen Invention" is a splendid Thanhouser film; "In the Reign of Terror," a story of the French revolution; "Betty and the Fireworks," a good comic. Little May Hunt will sing "Cherry Ripe."

The subjects to be shown at the Gem theatre tonight are of a most interesting nature. The imp feature, "For a Sunday Edition," is quite up to their best in every detail. Others are: "The Girl Next Door," "The Inconstant," a most humorous comedy, and "The Devil on Two Sticks."

FIFTEEN INJURED IN RAILWAY WRECK

SPRINGFIELD, Ill., Oct. 18—Fifteen persons were injured shortly before noon today when the northbound Chicago & Alton flat limited crashed head on with a southbound freight at Nilewood, nine miles north of Carlinville.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists and dealers.
