VOL. 9 NELSON B. C., WEDNESDAY MORNING, AUGUST 17, 1910 NO 103

TO HARNESS PEND D'OREILLE RIVER

Nelson Men Organize Large Water Power Company

ENGINEER'S REPORT IS FAVORABLE

Plant at Waneta With Daily Capacity of 20,000 Horse Power

The application of the Pacific Exploration company under the new water act of 1909 for permission to erect a large electric power plant on the Pend d'Oreille river near Waneta has been granted by the water commissioner at Victoria and plans of the proposed plant with a daily capacity of 20,000 horse power and so built that this capacity may be doubled, will be prepared as soon as possible and forwarded for the consideration of the lieutenant governor in council.

Officers of Company

The president of the company which was incorporated some time ago, is H. C. Hall of Nelson. J. W. Falls is manager and A. P. Lorsh, secretary. A considerable amount of Nelson capital is interested in the proposition while W. H. Jobes of Portland, Ore., also has a large interest in the company.

The promoters of the new enterprise expect to furnish electric power to the Pend d'Oreille valley, the Sheep creek and Ymir districts and to the Orient, Chewelah and Metaline districts, on the other side of the international boundary line.

Engineer's Report

The following excerpts from a report made by W. E. Moore, a well known hydraulic engineer, give an excellent idea of the conditions governing the new enterprise, which cannot fail to enormously assist in the development of the country adjacent:

"The river has a total drainage area of from 30,000 to 40,000 square miles, practically all timbered and a great deal of it included in forest reserve. It receives the drainage of Flathead, Priest and Pend d'Oreille lakes, three of the largest lakes in the Rocky mountain region. These lakes serving as reservoirs have a vast influence in regulating the flow of the stream. For this reason the minimum flow is considerably larger than most streams with an equal drainage area and similar topographical geological and geographical conditions. These lakes also serve as settling basins and as a result the only times when the lower river carries much silt or suspended matter is when the streams emptying into the river below the lakes are in a turbulent stage. Even then the waters of the Pend d'Oreille do not carry anything like the percentage of suspended matter that is usually found in western streams. This is an important point in hydraulic power development as waters carrying little or no suspended mater have not the deleterious effect on water wheel gates and runners that is found in most streams.

Plenty of Water

"The government reclamation service has taken quite a number of measurements of the stream just below the mouth of Priest river. The lowest measurement of which there is any record was on Feb. 3, 1905 and was 5419 cubic feet per second. The next lowest was on Jan. 19 of the same year, 7852 cubic feet per second. Just how much water finds its way into the river below the mouth of Priest river and above the power sites I do not know, but it is conservative to place the minimum amount you will have, with the storage the dams will give for peak load purposes, at about 3000 to 3000 cubic feet per second. I would like to go on record right here by stating that the Pend d'Oreille river has all the water at the low stage that can be conveniently taken care of through power houses in that canyon. In other words if there was much more water it would become a vexing problem to know what to do with it.

"The rock at the lower site is a diorite, it is hard but not very difficult to handle. By putting in a crusher you can get all the rock needed for concrete work on the ground from what is excavated for the dams and power houses. For the lower plant the sand may have to be hauled from the Columbia river, about two miles, but there is some sand in the hills above the lower site that may be suitable for concrete.

"Another very good feature of the river is the almost total absence of ice. Now the lakes that drain into the river all freeze over every winter but by the time the ice reaches the lower river it is chopped up very fine. In fact most winters it almost totally disappears before reaching the lower river so that I think it will cause very little trouble on the screens.

"The representatives of the company certainly have the good will of the people along the river as every one seemed anxious to do everything in their power to assist in the work in every way possible.

FERNIE TO INSTALL FIRE ALARM SYSTEM

Sewage System also to be Extended—Bylaws Are Carried—Croquet Tournament

(Special to The Daily News.)

FERNIE, Aug. 16—Voting took place yesterday on two bylaws, one to instal a fire alarm system and the other to extend the sewage system. Both bylaws were carried and $32,000 will now be expended on the work. Up to the present time there has been no adequate way of turning in an alarm of fire and much valuable time has been lost in notifying the brigade. It is not decided yet what system will be installed but a choice will be made immediately.

The funeral of the late Calvert Varty took place yesterday afternoon from his residence on Baker avenue and was attended by a large number of sorrowing friends. After a short service at the house the remains were removed to Christ church where the beautiful service of the Anglican church was held. Interment took place in St. Margarets cemetery.

A croquet tournament has been taking place for the last few days and much interest has been displayed. Mrs. G. G. Moffatt and Mrs. H. H. Depew were the winners in the series

SPRINKLING OF LAWNS REGULATIONS

Rules to Prevent Water Shortage Are Being Generally Observed—There is Still Danger.

The regulations regarding the hours during which city water may be used for spraying lawns are being generally observed though the city officials have, in one or two cases, found it necessary to cut off the supply to houses, of which the occupants have disregarded the published notice.

The rain fall during the past few days has been insufficient to fill the reservoir to any great extent and in view of the approach of the "Indian Summer" when a dry spell is to be expected, it is considered advisable to keep the regulation in force.

The hours during which lawns may be sprinkled are between 6 p. m. and 9 p. m. Water may be used for sprinkling alleys, streets and sidewalks from 7 a. m. to 9 a. m.

SUNDAY SCHOOL PICNIC TODAY

Big Crowds of Merry Children and Parents will go to Proctor on Moyie

Today is the day for the picnic at Proctor under the auspices of St. Pauls Presbyterian church Sunday school and as already announced the C.P.R. steamre Moyie will make two trips, one at 9 a.m. and the other at 1:45. A large crowd is expected and every provision has been made for their entertainment and a bountiful supply of tasty comestibles is assured.

Marathon Race

Capt. Robertson of the Moyie has announced he is willing to run a Marathon race with any scholar under the age of 10 years, with handicap according to weight and he will also lend his support to the infants' tug of war contest. Tickets are 75 cents for adults and children 35 cents; St. Pauls Sunday school scholars free.

An excellent program of sports has been prepared and suitable prizes will be presented after the program is completed. The Outlet hotel will be ready to serve supper to any who may come unprepared.

The Kuskanook will call at Proctor at 5:45 p.m. and excursionists if they wish may return on her. The Moyie will leave homebound at 7:30 so that a late arrival in Nelson may be avoided.

Last of Season

As this is the last Wednesday excursion of the season a large crowd it is hoped will take advantage of this occasion to make merry at this picnic and give the kiddies a real good time.

GRAND TRUNK EMPLOYEES RECEIVING STRIKE PAY

MONTREAL, Aug. 16—Strike pay is being paid out today to the members of the two organizations concerned in the recent Grand Trunk strike. Vice President Murdock of the brotherhood of Railway Trainmen has received a complete list of the men along the entire system who are entitled to the union funds and started today to pay them up to the time work was resumed or to the date where the employees have not yet been reinstated by the company. The members of the trainmen organization will be paid at the rate of $40 per month while the conductors will receive $10 more or $50 per month. About $150,000 will be drawn from the contingency funds of the two organizations and go into the pockets of the men who went out on strike July 10 last.

HAS NOT PURCHASED ALLAN LINE STEAMSHIPS

LONDON, Aug. 16—Authorities of the Canadian Pacific railway here state that there is no truth in the report of the purchase by the Canadian Pacific

WELCOME TO SIR WILFRID LAURIER

City Will Fittingly Celebrate visit of Premier

STREETS WILL BE GAYLY ILLUMED

Delegation on Columbia River Project—Big Crowd of Visitors Expected

That Nelson shall greet Sir Wilfrid Laurier in a manner befitting the size and importance of the city is the intention of the committee, composed of members of the city council, board of trade and Liberal association, which yesterday afternoon held a meeting to discuss arrangements in connection with the reception of the premier during his visit here, which will extend from Saturday night August 27, until the following Tuesday morning.

Electric Illuminations.

The city council has instructed the city electrician to make arrangements for illuminating the streets and it is expected that every citizen having a house or business office on the streets along which Sir Wilfrid will pass will assist by putting up as striking decorations as possible.

Route of Visitor.

On Saturday night the premier will arrive at the C. P. R. depot about 11 p. m. and will be driven along Baker street to the corner of Ward. From there he will proceed to theresidence of L. H. DeVeber on Carbonate street where he will reside during his stay in Nelson. The other streets to be traversed by the premier and party will be Ward street to the wharf and up Stanley to the skating rink. It is the intention to decorate the whole of Baker street in honor of the occasion.

Two Speeches.

The premier will spend Sunday in private. On Monday afternoon he will deliver an address at a big public meeting at the city park and in the evening of the same day he will speak before a meeting in the skating rink.

The Canadian Pacific and Great Northern railways have made arrangements for a special round trip rate of a fare and a third, for the round trip, from outside points and it is anticipated that Nelson will see a large crowd of visitors from all parts of the Kootenay and Boundary. These tickets may be purchased from Aug. 26 to Aug. 29 and will be valid for the return trip up to Aug. 31.

Steamer to Park.

Capt. Gore, superintendent of the C. P. R. lakes and river service, has agreed to put on the steamer Nelson with a barge attached to convey passengers from the city wharf to the city park on Monday afternoon. This service will be paid for by the committee and will be free of cost to the public. Half hourly trips will be made, commencing at 2 p. m.

The school children, who will present a bouquet to Sir Wilfrid, will march down to the city wharf and will all leave on the boat at the same time, probably at about 3 o'clock.

The premier, in Mr. DeVeber's launch, will be convoyed by a large number of other launches, owned by various people in and around Nelson. The park will, of course, be suitably decorated for the occasion and a dais will be erected as a platform for Sir Wilfrid to speak from.

Freedom of City.

Before leaving for the city park the eminent visitor will be presented with the freedom of the city by the mayor who will also give a short address of welcome.

Columbia Question.

One of the most important matters in connection with Sir Wilfrid's visit will be the reception by the premier of a delegation urging that the Dominion government make a grant for the improvement of the navigation facilities of the Columbia river from Robson to the Boundary. This delegation will be composed of members of the boards of trade of Portland, Ore., and Nelson and, it is hoped, of one delegate from the boards of trade of Rossland, Trail, Cranbrook, Nakusp, Greenwood, Phoenix, Creston, Kaslo, Fernie and Grand Forks to each of whom a telegraphed invitation was sent yesterday by R. K. Beeston, secretary of the board of trade. It is probable, also, that a delegate will be present from the Spokane chamber of commerce.

Those present at the Laurier committee meeting yesterday were, F. A. Starkey, in the chair, L. B. DeVeber, W. B. Farris, Dr. E. C. Arthur, H. L. Douglas, N. Wolverton, J. A. McDonald, E. Ferguson, Mayor Selous and R. K. Beeston.

INVESTIGATION ORDERED.

TORONTO, Aug. 16—An investigation has been ordered into the escape of two "insane murderers" Moir and Robert F. Taggart from the Hamilton

PREMIER WELCOMES METHODIST CONGRESS

Dr. Chown Candidate for General Superintendent—Says Superintendent's Statements Not Facts

VICTORIA, Aug. 16—The general conference was occupied with committee work all the forenoon. Such questions as the course of study for probationers at the new college at Calgary are under earnest consideration.

Among the probable candidates for general superintendent, either as assistant or successor to Dr. Carman, the name of Dr. Chown is most prominently mentioned. The matter of a retiring allowance for general conference officials was advocated this afternoon by N. W. Rowel and opposed by D. Allison.

Premier's Welcome

Deputations were the order of the day. First came the members of the city ministerial association, next followed a deputation from the city council, Mayor Morley, Aldermen Bishop and McKenzie and Solicitor McDiarmid. The mayor presented a document from the council conferring the freedom of the city upon the conference and expressing the hope that so far as possible this conference might hasten the day of union so that generations to come would look back on this occasion with pride. In the third place Premier McBride appeared before the conference, being introduced amid prolonged applause, by Rev. Melling. The premier said that he never answered a summons more gladly than the offer to extend a welcome to the general conference. He placed a high estimate on the Methodist communion as a force for right doing and clean citizenship not only in British Columbia but in Canada. He deplored the absence of Dr. Robinson, the man than whom Canada had no nobler citizen. His tributes to the work of pioneers such as those like Crosby was appreciated, also to the late Dr. Sutherland and Dr. Potts, the latter being a warm personal friend and counsellor. Dr. Carman made a suitable reply. Last but not least was the W.M.S. delegation headed by Mrs. G. N. Jackson of Winnipeg, who addressed the conference. Her address was really the outstanding feature of the afternoon's proceedings. She briefly outlined the work of the society during the 28 years of its existence, its early struggles and its later triumphs. During the past four years they had erected ten buildings as homes or as schools and have sent 20 new workers to the foreign field. Three hundred and thirty-five have been added to the church through their ministrations alone. The home work is carried on by a staff of 49 workers.

Difference of Opinion

The general superintendent's address yesterday took about two hours in delivery. Parts of it were quite strongly applauded but it was plain from the reporters' gallery that the conference was divided in its estimates of these points. At the conclusion of his address Dr. Carman offered a fervent prayer that new and grander impulses might stir the churches. J. A. M. Aikens was first on the floor with a motion that those parts of the address which referred to matters dealt with by the committee be referred to them for action and that a new committee be appointed to take into consideration the whole matter of the general superintendency and whether there should not be two superintendents, one of whom should reside in the west where the work is of such strategic importance. Hon. Thomas Crawford of Toronto seconded this and it was unanimously carried. Prof. Frank Allen then moved a vote of thanks to Dr. Carman for his address, seconded by Rev. Dr. Spencer. A point of order was here raised amid considerable commotion by Rev. James Allen, as to whether this was not equivocal to an endorsation of the address. That was the matter in doubt. Some statements in the address which referred by implication to Dr. Workman of the Metropolitan church, Toronto, were not true to facts. Cries of "No! No!" were heard. The point of order did not prevail and the motion carried. The statements referred to will be examined in committee.

Secretary-Re-Elected

Rev. T. Albert Moore, D.D., who has proved a most efficient secretary for four years was re-elected this morning for another term on the first ballot, 127 ballots being cast. Rev. Mr. Kilby of Calgary had the next largest number of ballots. After the nomination of the secretary assistants were appointed as follows: Rev. B. Hills of Nova Scotia conference; Rev. W. G. Kilby of Alberta; J. H. Carson, Montreal and Dr. L. A. Willmott of Toronto. The fraternal delegates were accorded seats on the platform. All other visitors are excluded from the conference. Dr. Carman said they would be just as welcome in the gallery.

Both the dailies of Victoria, the Colonist and the Times, have published special editorials, paying very complimentary tributes to Methodism and giving the general conference a warm welcome. Premier McBride has also expressed his satisfaction by a letter to the editor of the Bulletin a special conference newspaper published daily.

AUSTRALIAN CADETS WILL PAY VISIT TO CANADA

MONTREAL, Aug. 16—Twenty-five mounted cadets from Australia who have been visiting Great Britain are now on their way to Canada on the steamship Empress of Britain. They will spend several weeks in Canada visiting the principal places of interest and will sail from Vancouver for

COMMENCE WORK ON HOTEL TODAY

C. J. Bury Makes Definite Statement to This Effect

FOUNDATIONS TO BE BUILT AT ONCE

Superintendent W. O. Miller Goes to Balfour This Morning to Start Work

That work upon the foundations of the C. P. R. tourist hotel at Balfour is to be commenced immediately was the statement made last night by C. J. Bury, general manager of the western lines of the C. P. R. who passed through the city on a flying trip of inspection.

To Balfour Today.

Mr. Bury said when questioned regarding the hotel that W. O. Miller, district superintendent, had yesterday received instructions to pay a visit to Balfour this morning and make all arrangements for putting men to work on the foundations of the building.

Plans Altered.

The general manager said that the plans of the hotel as at first projected had been considerably altered but he was not at present in a position to give any definite statement upon that point.

Definite Statement.

"You may announce definitely, however," said Mr. Bury, "that the erection of the hotel will commence tomorrow and that the work will be completed with all possible dispatch. The hotel will assuredly be ready to receive the large tourist traffic which will undoubtedly be directed through the Kootenays next season.

Never Any Doubt.

"There has never been any doubt about the erection of this hotel," continued Mr. Bury. "When the C. P. R. makes a statement that such a thing will be done that thing is done. We have only been waiting for our architects to complete the plans to the satisfaction of the officials in charge of the matter."

Mr. Bury leaves on the Kuskanook this morning for the Crow's Nest.

MINISTER OF LABOR DELEGATE TO CONFERENCES

OTTAWA, Aug. 16—Hon. W. L. Mackenzie King, minister of labor, left this afternoon for Montreal whence he will sail tomorrow on the Royal Edward to attend a number of international conferences on important questions of social reform. The orders in council deputing the minister of labor as representative of Canada at the several conferences were passed some weeks ago prior to the departure of Sir Wilfrid Laurier for the west. The conferences in question are as follows: International congress of social insurance to be held at The Hague, Sept. 6 to 8; a congress representing higher technical education to be held at Brussels Sept. 9 to 12; international conference on unemployment to be held at Paris, Sept. 18 to 21; international association for labor legislation to be held at Lugano, Switzerland, Sept. 26 to 28, at which will be specially discussed the question of the eight hour shift in uninterrupted processes and the question of a minimum wages policy in connection with home work.

Invitations to the conferences on social insurance, unemployment and higher technical education were received from the governments of the countries in which the conferences will be held having been transmitted through the local British embassies and the colonial office.

AUTHOR OF WINNIPEG FORGERY WELL KNOWN CROOK

MONTREAL, Aug. 16—It was stated tonight by J. W. McNamara, superintendent of the Canadian Pinkerton detectives, that Gerald W. Crowe, who was recently arrested at Calgary charged with the theft of $2650 by forgery at Winnipeg was a well known criminal who had been chased by Pinkerton men from New York to Chicago and Toronto and from Winnipeg to Calgary. Superintendent McNamara said Crowe had confessed and that there was no doubt he would be met with a sufficient number of charges to send him to the penitentiary for a long term. He had tried to raise a check from $5 to $7000 in New York but failed and tried the same unsuccessfully at Chicago before he went to Winnipeg and pulled off the $2650 deal.

SAW RIPS OPEN ARM.

BRANDON, Aug. 16—Samuel Winoski running one of the big saws, slipped and fell forward on the saw which ripped his arm from elbow to the shoulder bone which luckily was not injured. Winoski collapsed and would have fallen on the saw but his companions tore him away. He recovered later and exhibited great stoicism, refusing an

ROOSEVELT DEFEATED FOR CHAIRMANSHIP

Republican State Committee Refuses Honor by Vote of Two to One—Many Contests

NEW YORK, Aug. 16—Col. Theodore Roosevelt's name was presented for temporary chairman of the Republican state convention at the meeting of the Republican state committee today and he was defeated for that honor by a vote of 20 to 10.

Commenting upon the announcement, Lloyd C. Griscom, New York county chairman, said: "I presented the name of former President Roosevelt after consulting with him. The place of temporary chairman was obviously his not only by virtue of his having been president of the United States but by the signal service rendered by him to the Republican party in New York state. Mr. Roosevelt was anxious to engage in the political campaign in the state and his name at the head of the convention would have lent extraordinary prestige to the meeting and would have been of incalculable value to the party throughout the state. The action foreshadows a great many primary contests as it is obvious that those voting to deny him the office of temporary chairman will have to account to the enrolled Republicans of their respective districts for their action."

AUDITOR'S REPORT AROUSES MARTIN

Fighting Joe Addresses Polite Epithets to New Westminster Official—Denials All Round.

(Special to The Daily News.)

VANCOUVER, Aug. 16—An aftermath of Auditor Colsworth's stinging denunciations of the civic management of New Westminster has come in the shape of letters of denial of wrongdoing from the parties mentioned in the last report covering the sale of property for taxes. Fighting Joe Martin was to the fore with a characteristic letter, his name having been connected with the tax sales by the auditor. Mr. Martin alluded to the auditor as a liar, idiot and other terms, closing with the suggestion that the record of Mayor Lee, who was behind the investigation should be reported upon. City Clerk Glover and others also denied having intentionally wronged the city. The council took no action on the report although the aldermen stated that they thought it would have the effect of clearing the air and preventing errors in future.

TO GIVE ADVICE ON EXPLOSIVES

Official from Woolwich Arsenal Here in Interests of Dominion Government—Going to Crow's Nest

Capt. Deasborough, inspector of explosives at Woolwich Arsenal, England, accompanied by Mrs. Deasborough, arrived in the city from the coast last night and are staying at the Hume. He came to Canada in connection with the proposed legislation dealing with explosives, which Hon. W. Templeman, minister of mines, intends to introduce in the Dominion parliament next session. It will be based upon legislation in force in Great Britain and other European countries which has proved very effective.

To Give Expert Advice

The services of Capt. Deaborough have been generously placed at the disposal of the Dominion government by the British authorities and his expert advice will prove of the greatest value to the department of mines.

To Crow's Nest

Capt. Deaborough will spend today in Nelson and then go to the Crow's Nest where he will make a study of the conditions surrounding the use of explosives in the various coal mines in that district.

MINISTERS AND CRIMINALS ON BOARD ROYAL EDWARD

MONTREAL, Aug. 16—Among the passengers booked to sail from Montreal on the Royal Edward on Thursday morning are, Sir James Whitney and Hon. Colin Campbell. It is practically certain that Inspector Dew and his party will be on board also, taking Dr. Crippen and Miss Leneve back to England but no official statement can be made by the company owing to the secret methods of Scotland Yard people.

TO CONCILIATE

MONTREAL, Aug. 16—Word was received today from Hon. Mackenzie King, minister of labor, appointing J. H. Laver, secretary of the Builders' Exchange, to represent the shipping companies on the board of conciliation under the Lemieux act to investigate the troubles between the captains and ship owners.

KIRKPATRICK THROWS UP THREE THOUSAND DOLLAR JOB

OTTAWA, Aug. 16—F. C. T. O'Ham, deputy minister of trade and commerce, has received the resignation of Trade Commissioner Kirkpatrick of Cuba. Mr. Kirkpatrick's reason for resigning is that he considers a salary of $3000 per

PREMIER SPEAKS AT VANCOUVER

Political Meeting in Horse Show Building

CITY'S WELCOME ON MAMMOTH SCALE

Sir Wilfrid Finds Evidence of Protective Sentiment—Aid to Beet Industry

(Special to The Daily News.)

VANCOUVER, Aug. 16—Vancouver gave Sir Wilfrid Laurier a royal welcome today. The premier and party arrived in the city at noon and were met by Mayor Taylor and President Buchanan of the board of trade, who delivered addresses. Among thousands gathered at the depot were several hundred Indians in native holiday attire who have come from all parts of the province in the hope of interviewing the premier concerning trespass on their rights by whites.

Thousand at Luncheon.

At 1 o'clock luncheon was served in the Dominion hall at which a thousand prominent citizens sat down. In reply to an address from the Liberal association which gave the luncheon, Sir Wilfrid Laurier remarked on the evident growth of Vancouver comparing it with conditions of his previous visits sixteen and nine years ago. He was glad he had been confident that the city would become one of the greatest on the continent. Reverting to his first tour of the province he said that then he had prophesied that Ontario would have to reckon with British Columbia for supremacy in Dominion affairs and this prediction was now being fulfilled.

Dedicates Buildings.

After luncheon Sir Wilfrid Laurier went to the exhibition grounds at Hastings park where he dedicated the buildings delivering a brief address on the resources of the province as shown by exhibits and on the great development which was bound to come with increased settlement and the opening rail communication with the interior.

Political Aspect.

Despite the statement that Sir Wilfrid Laurier's visit was to be non-political there are some heart burnings as a result of the actions of the committee in charge. Geo. H. Cowan, Dominion member for the riding, was entirely left out of the program but butted in and welcomed the premier at the bounds of his district only to be totally ignored when the party reached the city. The aldermen of the city were also not recognized by invitations although a number appeared at the functions as private citizens.

Political Speech.

Sir Wilfrid Laurier and his non-political tour party held a political meeting in the horse show building here tonight when that large auditorium was crowded to the doors. The gathering of 8000, however, presented more the appearance of a great throng of interested sightseers than that of a congregation of enthused party followers and with the open handed western welcome which he received on taking the platform the premier had to be content. As the minutes passed and speeches got under way spontaneous enthusiasm was perceptibly lacking, the cheering in every instance being led from the platform.

West's Lack of Faith.

Sir Wilfrid dealt first with the Oriental immigration question pointing out that imperial and not provincial sentiments had actuated him in his stand on that subject. He deplored the west's attitude in not seeing fit to show greater faith in his administration but hoped for better things in the future. He in company with the other speakers of his party attributed Canada's prosperity and particularly that of the west to the wise administration of his government. E. F. Pardee, M. P. for Sarnia opened the proceedings with a fighting campaign address which stamped as a dead letter his leader's utterances of the afternoon to the effect that the tour was one to study conditions and entirely non-political.

Hon. William Templeman was the first on the program but he refrained from taking up any subject of public interest. Mr. McDonald of Picton, and Hon. Geo. P. Graham closed the meeting, the latter furnished the humor for the evening. J. H. Senkler, president of the local labor association, acted as chairman.

Oriental Question.

Prefacing his remarks on the Asiatic question Sir Wilfrid said that a great deal of misunderstanding existed in British Columbia regarding his stand on the question. He acknowledged that Vancouver was facing the Orient but he asked the audience to judge after hearing his remarks whether he was a true Canadian or whether he was not. He took a very broad stand on the matter which he said was not confined to

EVERY ONE SEEMS TO BE TAKING "FRUIT-A-TIVES"

Demand Always Increasing

Because "Fruit-a-tives" Cures

The real value of any article may be judged by the demand for it. Steadily increasing sales are the surest indication of intrinsic merit. This applies to a medicine as well as to a breakfast food.

First introduced to the public in Ottawa, the fame of "Fruit-a-tives" quickly spread until to-day these fruit juice tablets are known and used in every section of the Dominion.

The only reason for this extraordinary demand is that "Fruit-a-tives" is the only medicine in the world made of fruit, and is the only remedy that will positively cure Constipation, Biliousness, Indigestion, Dyspepsia, Backache, Headache, Neuralgia, Rheumatism, Bladder and Kidney Troubles. One has only to read the testimonials given to "Fruit-a-tives" by some of the best known and most highly esteemed people of Canada, to appreciate the wonderful amount of good that this grand fruit medicine has done and is doing for the sick and suffering.

50c. a box, 6 for $2.50, or trial box, 25c. At dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

FRUIT LANDS

Salmon River Valley subdivision in tracts of from 5 to 30 acres. The choicest fruit land in the Kootenays.

Townsite Lots

In Salmon Rapids townsite, the coming industrial centre of southern British Columbia. Now is the time to buy these while they are cheap, at from $75 to $150.

Improved Fruit Ranches

We have some of the best and oldest revenue producing orchards on the Kootenay and Arrow lakes at prices which cannot fail to attract.

Timber Lands

In large or small blocks at from $1 to $8 per acre including land and timber. We know that we have the best timber investments now offering in the province. Easy terms.

Agricultural Lands

In blocks of from 640 to 10,000 acres at from $2.50 to $25 per acre, on easy terms of payment.

Call or write for our lists. If you want to invest either in land or timber, we cannot fail to interest you as we have propositions in all sizes at prices which cannot be approached.

FOR WATER SUPPLY DEPENDS ON RAIN

Jerusalem, a City of 80,000 People Has no Waterworks—Cisterns Often Insanitary

Jerusalem today, with its 80,000 inhabitants, depends almost entirely on rain for its water supply, the rainfall averaging about 27 inches a year. The water thus collected and stored is good as long as the cisterns and roofs are kept clean. In the houses of the richer classes these cisterns are large enough to store an ample amount of water. With the poorer people the reverse is the case. Most of the cisterns of these houses are small and the houses are often so overcrowded that frequently long before the summer is over the water has given out and a supply has to be purchased at high prices from neighboring cisterns.

Insanitary Water

Among the poorer Jewish settlers on the outskirts of Jerusalem few are able to own their own cisterns and large ones are built generally by charity funds for a common water supply. In many cases they are filled with surface water and the insanitary elements with which the water thus collected is impregnated are held responsible for a large percentage of the fevers and other diseases prevalent toward the end of the dry season. The same condition of the water supply appears to prevail among all the poorer classes of the city. When there is a shortage of rain a critical stage of affairs ensues and at such times most insanitary water is used.

The Romans

At various times since the days of King Solomon efforts have been made to secure a water supply on which the city could depend. About seven and a half miles to the south, a little to the west of Jerusalem, on the carriage road to Hebron are three enormous reservoirs known as Solomon's Pools. These were constructed in the bed of a valley, across which heavy walls were thrown and cemented and are large enough to contain 3,000,000 gallons of water. They are filled in the rainy season with water from the surrounding hills and this was augmented by the inflow of a small spring a little higher up the valley known as the Sealed Fountain, and some other small springs. From these pools there was a masonry aqueduct said to have been the work of Solomon, which winding around the hillsides carried the water to the temple in Jerusalem. At one point this conduit went through a mountain by a tunnel.

The Mohammedans

In the 16th century of our era the Mohammedans remodelled this aqueduct by replacing the open trough with pottery pipes, portions of which are still in use. In the first century the Romans, probably under Pontius Pilate, began to carry into execution a large water supply into the Holy City, but they seemingly were never able to finish this task. Their source of supply was Ain Arroub, a large fountain which is also on the road to Hebron and about twice as far from Jerusalem as the Pools of Solomon, whose water was led into the middle of Solomon's Pools, and also Birred-Dereg in Wadi-el-biyar, whose waters were led through a large conduit through channels cut in the rock and through a tunnel to a point above the Pools of Solomon. These waters were led to the city by two aqueducts made of solid blocks of stone about three feet square and two feet thick, pierced by a hole 15 inches in diameter. Each block was made with a shoulder on one side and a flange on the other by which they were fitted into one another and were cemented together. Part of this ancient work is still to be seen but a number of blocks have been carried away as relics.

Shortage in Rainfall

In 1906 there was a serious shortage in rainfall and water had to be hauled by train from a small spring a few miles down the line to meet the pressing demand. This lack of water aroused the authorities to take some action and resulted in the connecting of the city with the sealed fountain by means of a four inch pipe From its source to Bethlehem the old aqueduct, attributed to King Solomon and repaired by the Arabs, was utilised and from Bethlehem to the city iron pipes were employed, the tunnel above mentioned serving as a kind of accumulating reservoir. This water, which is but a trifle to what the city needs, supplies some fountains where it is free to the poor. Most of it, however, is consumed at the military barracks.

New Turkish Regime

During the first session of the new parliament in Constantinople a concession was granted to the municipality of Jerusalem to appropriate the hides of animals slaughtered in Jerusalem as a tax to produce a fund with which a water supply for the city could be secured. The municipality proposed to make a loan large enough to enable the city to lay a large pipe from Ain Arroub and to repay the loan and interest there on in instalments each year from the tax on hides and the money received from the sale of water.

German Firm

A Bremen firm, hearing of this project sent its director to look over the situation. He made a proposition that his firm would put in a plant to pump the Ain Farrah water into Jerusalem at its own expense, piping the water into each house, and charging for the same 1.25 francs (one franc equal to 19.3 cents) per cubic metre or to any one paying in advance 1500 francs an agreement would be made to give one cubic metre per day for 30 years. Also 75 cubic metres of water would be allowed the municipality free for drinking fountains and street sprinkling, any further amount required by the municipality to be supplied at half price. At the end of 30 years the complete water works were to be handed over to the municipality.

While the price named seemed high the general public feeling appeared to be in favor of accepting this proposition rather than to have the municipality carry out the first project of building the waterworks and levying a heavy tax to meet the indebtedness. The matter is now in the hands of a committee named by the governor, consisting of the mayor, one member of the city council, two members of the chamber of commerce, two engineers of the city and public works, and the mufti or religious head, and bids have been solicited from all sources.

RESTED AT BANFF.

GOLDEN, Aug. 16—After resting at Banff on Sunday the premier and party proceeded westwards yesterday morning. The premier showed keen appreciation of the mountain scenery and atmosphere. At frequent stops the premier alighted and shook hands with many residents but was not in a talkative mood and made no speeches except a brief, pointless one here.

WHAT PARISIAN SAGE WILL DO OR MONEY BACK

Stop falling hair in two weeks.
Cure dandruff in two weeks.
Stop itching scalp immediately.
Grow more hair.
Make harsh hair soft, silky and luxuriant.
Brightens up the and eyebrows.
As a hair dressing it is without a peer—it contains nothing that can possibly harm the hair, it is not sticky, oily or greasy—it is used by thousands to keep the hair healthy—it prevents as well as cures diseases.
For women and children it is the most delightful dressing and should be in every home. Druggists everywhere and The Poole Drug company, Nelson, sell it for 50 cents a large bottle. The girl with the Auburn hair is on every bottle. Mail orders filled by the Canadian makers, Giroux Mfg Co., Fort Erie, Ont.

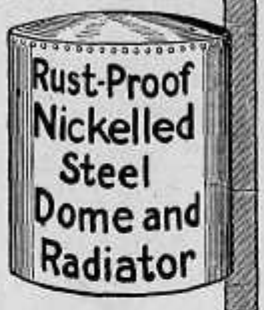
How does your furnace stand the summer?

That's the real test for durability

When your furnace is not in use, the cool, damp air in the cellar, coming into contact with the steel or iron dome and radiator, causes the metal to "sweat." This "sweat," or moisture, attacks the metal and quickly makes it rust. It's an actual fact that most furnaces would give TWICE as many years of service if they did not have their long summer vacations but were in use continually.



However, the Sunshine furnace is now equipped with a Nickelled Steel Dome and Radiator. Nickelled Steel is an exclusive McClary invention. It has been subjected to the most severe tests and has demonstrated it is absolutely rust-proof. It does not gather rust during the "idle" summer. The Sunshine is built to give you lasting service.

You pay no more for the durable Sunshine than for an ordinary furnace. Besides, the Sunshine is *guaranteed* by us. Phone or call on our agent in your locality and get further interesting information.

MAYOR GAYNOR AS NEW YORK MAYOR

His Record—Bitter Struggles—May be Democratic Candidate for President.

Mayor Gaynor of New York, who has been laid low by an assassin, has been one of the bright hopes of Democracy for some years past. Should he survive his wound he seems destined for high honors, and some such programme as that followed by Grover Cleveland has been mapped out for him. Were it not for the fact that the powerful Hearst influence has been strongly opposed to him, his path to a presidential nomination by the Democratic party would seem comparatively clear. It is a question whether the implacable hostility of Hearst could defeat an ambition which Mayor Gaynor is known to have cherished. The attempt upon his life, should it not have a fatal ending will have a great stimulus to the Gaynor boom since it can easily be argued that to protect the New York taxpayers from incompetent and dishonest service he risked his life.

A Bitter Campaign.

No sketch of Judge Gaynor's career can properly ignore the accusations that were brought against him last fall when he became a candidate for the mayoralty. It was then claimed that almost every single item in his official biography, from the spelling of his name to the date and place of his birth, was innocurate. The muckrakers failed to show any reasonable motive for the deception said to have been practised by Judge Gaynor, and the charges were generally disbelieved. The candidate denied them at any rate and entered suit against the newspapers that he said had libelled him. What has become of these suits is unknown, but the probability is that they were dropped after he attained office.

Reform From Within.

Leaving aside the disputed points in his career, one of which concerned his early education in a Roman Catholic seminary (his accusers intimating that he had become a priest), we find him a practising lawyer in Brooklyn in 1875. He made a success of his business and became deeply interested in politics. His political career greatly resembled that of Folk, of St. Louis, for he was a bitter antagonist of the rings within his own party and was responsible for securing the conviction of the notorious John Y. Kane for election frauds. In 1893 he was elected to the supreme court of New York state, and later on became a justice of the appellate division of this court.

The Famous Duffy Case.

In this position he came into national prominence through his decision in the famous Duffy "mugging" case, which provided the impetus that landed him in the mayor's chair a year or so later. The Duffy case was that of a young man who had been arrested on some minor charge, which was dismissed by the magistrate. In the meantime his photograph and Bertillion measurements had been taken by the police. Young Duffy found himself being closely scrutinized by every policeman he met on the street. He was treated as a suspicious character, and found the attentions most annoying. His father appealed to the police to destroy the photo and records, but they refused. Then he interested Gaynor, and the result was a judicial order for the surrender of the police dossier of young Duffy. Accompanying it was a severe condemnation of police methods generally, which resulted in the dismissal of Gen. Bingham, chief of police, and the subsequent candidature of Judge Gaynor.

Tammany Defied.

Because he was elected on the Tammany ticket, his opponents predicted that he would become a mere tool of Charlie Murphy, the boss of Tammany hall. These prophecies have not been realized, and the Tammany appointments of Mayor Gaynor have been few. His whole attitude has been that indicated in the Duffy case—that of an opponent to officialism and particularly police officialdom. About his latest public utterance was a condemnation of the practice of the police making arrests for minor offences. He wanted the Cleveland plan of Chief Kohler to be adopted, and in this course, as in all his other clashes with the police, he had the great bulk of New York public opinion solidly behind him. Since he has been mayor two of his daughters have eloped, thus adding to his other perplexities and worries. Though his term in office has been short, the general impression is that not in a generation has New York had such an energetic practical reformer. His re-election was a foregone conclusion.

SUEZ CANAL DUES.

Grievance of British Shipowners Is Ventilated.

At the annual meeting of the General Shipowners' society in London Mr. J. Wilson Potter, chairman, said the question of the Suez canal continued to be a matter of grave concern to British shipowners. By the agreement made in 1883 between the company and the shipowners it was arranged that so soon as the dividend on the canal shares reached 25 per cent., all profits over and above that should be devoted to the reduction of the dues.

The canal company had now totally disregarded the agreement, and applications to the British government to interfere had met with no success.

The British government's investment in the canal amounted to an original sum of about £4,000,000 and the return on this investment was now about one and a quarter millions per annum. The dividends for the last fifteen years amounted to over £13,000,000.

When one considered the amount of money that foreign governments paid to their mercantile marines in the way of subsidies, then if it were impossible for the British government to prevail upon the Suez Canal company to modify its charges, was it unreasonable to ask the government to return to British vessels using the canal a part of its share of the extortionate dividend which the canal company wrung from British shipping?

INSPECTS NEW SHOPS

WINNIPEG, Aug. 16—President Hays, Vice President Chamberlain, Chairman Smithers and other members of the G. T. P. official party paid an extended visit to the new transcontinental shops and later motored about the city accompanied by guests and ladies of the party.

The Corporation of the City of Nelson

By-Law No. 215.

WHEREAS certain residents and property owners of that part of the City of Nelson lying to the east of Kootenay street and south of Gore street in said city, have by petition dated the 25th day of July, 1910, presented to the council of the said city on the 26th day of July, 1910, petitioned the Council to have certain sewers in said locality constructed under the provisions of Section 126 of the "Municipal Clauses Act" as a work of local improvement, and

WHEREAS in and by said petition the said petitioners requested the Council to submit a bylaw to the ratepayers of the said city exempting the lands and the owners thereof in said area for a period of ten years from liability to or payment of sewer rentals in respect of the sewers to be so constructed, and

WHEREAS the said Council has expressed its willingness to submit a bylaw for such purpose to the ratepayers of the said city for their assent. Now

THEREFORE, the Municipal Council of the Corporation of the City of Nelson in Council assembled enacts as follows:

1. In the event of sewers being constructed as a work of local improvement under the provisions of the "Municipal Clauses Act" and Amending Acts, from Kootenay street, east to the easterly limit of the City of Nelson in the alley-ways between Innis and Gore streets, Innis and Houston streets, Richards and Houston streets, Delbruck and Richards streets, Beasley and Delbruck streets, and along the south side of Beasley street, Delbruck street, Richards street, Houston street, and Innis street, the lands in Blocks numbered 39, 11, 12, 25, 26, 40, 41, 42, 43, 48, 50, 51, 24, 23, 24, 52, 53, 54 and 55, of the City of Nelson, in the Province of British Columbia, being subdivision of Lot 424, Group 1, Kootenay District, according to a map or plan thereof, deposited in the Land Registry office at the City of Nelson aforesaid, and there numbered 249, and the owners thereof shall be exempt from payment of sewer rentals in respect of said sewers for a period of ten years, calculated from the 1st day of January, 1911.

This bylaw shall be cited for all purposes as "The City of Nelson Exemption Bylaw, No. 225, 1910."

Done and passed in Council assembled this day of , 1910.

Notice.

Take notice that the above is a true copy of the proposed bylaw upon which the vote of the Municipality will be taken at the City of Nelson on the twenty-second day of August next between the hours of 9 o'clock a.m. and 7 o'clock p.m. For the East Ward at the City Hall, corner of Front and Ward streets, and for the West Ward at the hand room, 509 Kootenay street.

W. E. WASSON,
City Clerk.

Nelson, B.C., August 9, 1910. 97-11

The Corporation of the City of Nelson

Notice of Rules and Regulations governing the use of water by the inhabitants of the City of Nelson and localities adjacent thereto.

1. These regulations shall come into force on the 15th day of August, 1910, and remain in force until further notice.

2. The hours between which water may be used for any of the purposes following shall be as follows:

(a) For the sprinkling of lawns and gardens, between the hours of 6 o'clock p.m. and 9 o'clock p.m.

(b) For the sprinkling of streets, alleys and sidewalks, between the hours of 7 o'clock a.m. and 9 o'clock a.m.

And no person shall use water for any or all of such purposes beyond the time and outside the said hours.

3. No person shall, with a lawn sprinkler or otherwise, water any adjoining or other premises to or than that for which he has paid the regular garden or lawn rate.

(4) All water used for any of the above purposes shall be used by garden hose or lawn sprinkers only.

(5) When any alarm of fire has been sounded and during the continuance of any fire within the corporate limits of the city of Nelson, or during the progress of any fire in any of the localities adjacent thereto, any person using water for any of the purposes mentioned in paragraph 2 hereof shall at once cease using same until such time as the fire has been extinguished.

4. Any person guilty of an infraction or violation of any of the foregoing regulations shall, in addition to all other penalties imposed by bylaw or statutes, be liable to have his water supply cut off without notice.

By Order,
W. E. WASSON,
City Clerk.

98-17.

FOREST FIRES AND TIMBER LICENCES.

In considering the precautions against fire that the holders of timber limits may reasonably be asked to undertake, it must be remembered that the legislation of last session in the provincial house has altered their position so that those who formerly held only a limited tenure have now a longer period in which to exercise their privileges.

Formerly, in many cases, their rights lapsed at the expiration of twenty years from the time they were granted. Licences are now renewable subject to the regulations and royalties of the province until the timber is cut. Instead of having to remove it hastily and perhaps on a market oversupplied they can now take their time. They have an interest in the preservation of the timber that they had not before. Under these circumstances they will find it in their interest to go to greater expense in the way of safeguards than they may formerly have felt commercially justified in doing.

A BITTER FEUD.

It is to be regretted that at times more or less bitterness enters into our political contests, but the relations between Liberals and Conservatives in British Columbia are amenity itself compared with those which prevail between the "Joe Martin" Liberals and the Sifton Liberals in Manitoba.

The feud is an old one. It dates back to 1896 when Sifton was chosen for minister of the instead of Martin. It gathered virulence when Sifton secured the Free Press and Richardson the director of the Tribune, hitherto the Manitoba Liberal organ, was disciplined. The twelve or fourteen years which have since elapsed have not assuaged its rancor or dimmed its personal animosity.

An ancient Roman writer praises the style that is "easy and not too violently insisting." Writers in Manitoba politics do not follow that style. It is not Mr. Martin's or Mr. Richardson's.

Shakespeare says that there is no fury like a woman scorned but he never read the speeches and articles of the Martin Liberals who were turned down by Sir Wilfrid in favor of Mr. Sifton. Take the following urbane reference to Sir Wilfrid from the free trade, anti-Sifton Winnipeg Tribune, and imagine it coming from a Conservative leader or newspaper:

Unless we misread the determination, the earnestness and the patriotism of the men of the west, they will never permit a vain, prattling, semi-senile old man, whose platform deliverances prove that he is a stranger to patriotism, to real liberty, to progress and to democracy, and that he is so far behind the spirit of progress of the age that he neither knows nor understands what is happening in the world outside of his little self and his circle of cheap and expectant flatterers—unless we misread the determination and the patriotism of the men of the west, they will never permit this one man to blast their hopes and interfere with the progress of the west by betraying them on the Hudson's Bay railway question. Almost every centre where Sir Wilfrid has paused in the west, he has been bombarded with a requisition from the people for justice on the tariff question and for the right to have the Hudson's Bay railway maintained and operated as a public enterprise. Despite all the Sir Wilfrids that the world's breeding ground of traitors, incompetents or fools can produce, the men of the west must—nay, they WILL—see to it that this crowning act of betrayal is not consummated.

Quite cordial is it not? Mr. Sifton's paper evidently thinks so for it says:

There is in this city an alleged 'independent' daily paper (much given to thanking God that it is not, in its methods and ideals, like the party newspapers) which has made a display of naive and congenial ruffianism in connection with Sir Wilfrid Laurier's visit to the west which not even the most venomous party organ will ever be able to eclipse.

Almost the only comment that seems called for is the old adage, "Courtesies engentle humanity." Observe how they civilize the politics of Winnipeg.

A THOUSAND YEARS OF PEACE.

The Toronto Star says:

There is much to recommend the suggestion that when the hundredth year of international peace is celebrated by Britain and United States in 1914, there should also be a celebration of the fact that peace has reigned for well nigh a thousand years between the British and the Teutonic peoples.

In one way this is an overstatement, and in another an understatement. In the reign of Frederick the Great, Britain was for a time the ally of Maria Theresa of Austria against Prussia. The war was of short duration, however, and Britain and Prussia presently became allies against France and Austria.

With hardly an exception but this, peace between the British and the Germans has been of more than a thousand years persistence. In fact if one goes back much more than a thousand years one comes to the time when the English were themselves a German people.

BADEN POWELL INSPECTS VANCOUVER BOY SCOUTS

(Special to The Daily News.)

VANCOUVER, Aug. 16—Lieut. Gen. Baden Powell left for the east this evening after spending the day inspecting the summer camp of boy scouts at Ocean Park. His visit to the city has greatly stimulated interest in the scout movement here.

Ames Holden Shoes

You will buy "The Traveller" shoe this year because you will hear about it—hear it often—hear of it from the makers, and they know everything that is in it, from the last touch of the outsole to the top of the uppers. You will hear of it from the dealer, and he knows "The Traveller" shoe from what his customers tell him, and you'll buy it again because your own judgment will tell you it's a different shoe—a better shoe—a shoe that not only fits, but always stays fitted, because the unseen parts are built on honor—there is no "sham" in "The Traveller" shoe. Remember they'll fit—we have a last for most everybody.

SPORTING NEWS
LACROSSE TODAY

Old Time Stars Will Appear in Field—Track Meet Tomorrow—Baseball.

The lacrosse game between the old timers and new comers will take place on the recreation grounds today at 2:30 sharp. Manager Hawkins boys have been practising hard for the last month and are in good condition. The old timers have not practised this year but most of them are in good shape. Their team will be selected from the following list: Lester Patrick, Roy Sharp, Barney Archibald, Al Jeffs, Joe Thompson, Jack Fox, Scotty Williamson, Fred Bell, Archie Bishop, Harry Bishop, Less Steele, Tim Dunn, Art Perrier, Dud Blackwood, Oil Bell and Doc Steed.

Like Old Times.

Lacrosse fans will undoubtedly be pleased to see the old stars again on the field. Scotty Williamson, Al Jeffs, Dud Blackwood, Barney Archibald, and Art Perrier will recall to the fans the time when Nelson was the best lacrosse town in the province.

New Comers.

Manager Hawkins' team will be chosen from the following players: T. Cummins, F. Greyerbehl, H. Manhart, T. Nute, F. Salter, H. Ferguson, D. Turner, S. McKinnon, N. Newburne, E. Lacey, R. Ball, D. McAlam, F. Miller and B. Pearce.

Field Club Practice.

The first weekly meet of the Y. M. C. A. Track and Field club will be held on Wednesday evening at 6:30. These practice meets are to prepare the members for the field day on September fruit fair dates. The events scheduled are: The high jump, 880 yards run, 100 yards dash. The British Columbia records for the above are: High jump 5 feet 6 inches made by A. G. Sullivan, Vancouver Athletic club; 880 yards run, 2 minutes 3 3-5 seconds, by W. McDowell, J. B. A. A. Victoria; 100 yards dash, 10 seconds by F. D. McConnell, Vancouver Athletic club.

Baseball Practise.

The Nelson baseball team had a successful practise yesterday evening. Newitt, Houston, Bishop and Sturgeon are doing good work in the infield. Phillips and Keane showed good batting form in last night's practise.

Baseball Match Today

The All Stars will clash in a ball game with the Wonders after the lacrosse match today. The batteries for the All Stars will be Pitts and Grizzelle and for the Wonders Parker and McIntyre.

Lacrosse Today

The following will be the lineup of the Newcomers' team which is to meet the Old Timers in a lacrosse game under the auspices of the Ladies' Hospital aid at the recreation grounds this afternoon at 2:30: D. McCallum, goal; F. Greyerbiehl, point; B. Turner, cover point; A. Lacey, F. Miller and E. Carry defence; T. Nute centre; H. Ferguson, T. Dunn and L. McKim, home; W. Newbin, outside, T. Cummins, inside.

Police Stop Boxing Contest

(Special to The Daily News.)

NEW MICHEL, Aug 16—By order of Chief of Police Sampson the 10 round boxing contest to take place in New Michel on Aug. 22 between Harry Lombard, a noted Chicago pugilist, and Charles Carver of England, for two years lightweight champion of the army and navy, has been stopped. Both men have a large following, though only a friendly bout. In consequence disappointment is very keen since the order of the chief of police has been made known.

MINING NEWS

Hugh Robertson Reports Deal in Progress for Sale of Timber Line Group.

Hugh Robertson of the firm of McQuarrie & Robertson, real estate brokers, returned yesterday evening from the Bayonne district where he has been examining mining properties. Mr. Robertson thinks that the Bayonne district will rival the Sheep creek country when proper transportation facilities are obtained. The government is now surveying a road between Kootenay Landing and the Bayonne district.

The Bayonne property is one of the best in the district. Considerable work is being done on the Echo-Sunshine group owned by some Vancouver capitalists. Mr. Robertson understands that they are going to keep up operations in the winter months and are now shipping in supplies.

Mr. Robertson made a special examination of the Timber Line group which he thinks is one of the best properties in the district. The Timber Line group is owned by local capitalists who are in communication with a Vancouver syndicate which contemplates taking it up at a good figure. Specimens of ore from the Timber Line group are on view at the firm's office.

WHAT TO DO IN A THUNDERSTORM

Lightning, owing to its extreme subtlety and tremendous force, is regarded by the majority of people with distinct respect, if not absolute awe. The flash strikes terror into the hearts of people of highly strung temperament and often in their rush for safety they act in the very way to court disaster. What should one do in a thunderstorm? On this point Killingworth Hedges, M. Inst. C.E., the well known authority and author of "Modern Lightning Conductors," offers some timely hints in the new edition of his standard work. Sheltering under trees should be avoided, as well as standing in the vicinity of spreading branches, no should one stand on the lee side of a hay stack or building, as the rain dripping from the top thereof may easily lead the flash in the direction of one's person, converting one into a human lightning conductor. Telegraph poles should be given a wide berth and telephones should not be used during a thunderstorm. Lightning conductors, rain water pipes and such like should be avoided. If one is walking over open country and becoming saturated with the rain, the best safeguard is to crawl under a copse or hedge. Should such be unavailable, as on a plain or moor, the safest procedure is to lie flat down. To hold up an umbrella or seek shelter against the rain is to seek disaster. Similarly, should one be cycling when overtaken, one should dismount and leave the cycle on the ground. It is not that the cycle directly attracts lightning as is generally supposed but a flash throws out innumerable branch discharges. If one's clothes are dry one may receive no further injury than a smart shock but if the clothes are sodden with the rain a fatality may very easily result. The safest place is within the house. True, the building may be struck, but the chances are very remote. If such should result it is invariably the chimney which is selected by the flash in its passage to earth and consequently one should stand well clear of the fireplace which invariably will be blown into the room. Hot water and other pipes should likewise be avoided. The windows should be shut for glass is a splendid insulator and will not attract lightning as is popularly supposed. One should not sit in a conservatory or greenhouse for the trailing wires and general metallic work may be highly charged with electricity resulting from a flash and one should not seek shelter in a farm building where animals are collected. Lightning is most erratic in its selection of convenient channels for its passage to the ground but if the foregoing hints are borne in mind a person caught in a storm is less likely to be a victim to its caprices.

HEADACHES

If you have any doubt that headaches can be cured permanently by a pair of scientifically adjusted glasses, call at my office and I will fit you with glasses which you can take on a month's trial. If they fail to do all that is claimed they will, bring them back and there will be no expense attached to them. Is this a fair offer? How many eye specialists are in a position to make such an offer? Do not think I am making this offer simply because I am going to experiment on your eyes. Every patient I have fitted, no matter how difficult the case was, it has proven a success. To this fact hundreds of people in this town can testify.

Mail orders receive our prompt attention.

TO HARNESS PEND D'OREILLE RIVER

(Continued from Page One.)

Good Market for Power

"While I did not attempt to go into the question of market for your power I have little hesitation in stating that in my opinion the outlook is exceptionally bright. The Sheep creek and Ymir districts, which are only ten or fifteen miles distant, are in need of several thousand horse power at the present and will need much more in the future. The Orient, Chewelah and Metaline districts are all within each access to the sites as is the Northport smelter.

"There are also quite a number of irrigation schemes proposed along the Columbia which will need a great deal of power for pumping purposes. In fact the power sites are within reach of practically all the mining districts of British Columbia and also of the Coeur d'Alene and as the Pend d'Oreille offers the most economical development of any of the streams in this part of the country it certainly presents quite a flattering outlook.

REMOVAL OF SURTAX HAS LITTLE EFFECT ON TRADE

OTTAWA, Aug. 16—The removal of the German surtax by the Canadian government does not appear to have exercised so far a very noticeable effect upon the volume of trade between two countries. The larger increase is in Canadian exports to Germany rather than in imports from that country. In the three months preceding the removal of the surtax, imports from Germany amounted to $1,721,496. In the three months following, the total imports were $1,902,723 an increase of $181,327. In the quarter preceding the taking off of the surtax Canadian imports to Germany totalled $411,504 and in the quarter following it was $603,734, an increase of $192,228.

SIR ERNEST CASSELL'S MEMORIAL TO KING EDWARD

BERLIN, Aug. 16—Sir Ernest Cassell, the British financier, has arranged, according to an announcement made here today, to establish the foundation of $1,000,000, the income from which is to be used for the benefit of poor Germans seeking employment in England and poor British subjects seeking work in Germany who are without money for their needs. The new foundation will be in memory of the late King Edward of Great Britain.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists and dealers.

Try Minard Liniment for Sunburn.

PREMIER SPEAKS AT VANCOUVER

(Continued from Page One.)

British Columbia but affected Canada, Great Britain and the empire. He explained that he preferred to deal with the Japanese consul at Ottawa on the matter and frowned on the British Columbia methods.

Methods Differ.

"I do not approve of legislation which imposes insulting restrictions on friendly relations and mutual agreements. We have the same aim as you but our methods differ." It was following this that Sir Wilfrid made the statement that after Mr. Lemieux's visit to Japan the immigration had been restricted to 400 a year, and that after Mr. McKenzie King's visit to Calcutta immigration of Hindus had ceased. "You look upon this Asiatic question from the standpoint of the laboring man," said Sir Wilfrid, "I regard it from the point of view of the British empire." He, time and time again, emphasized his devotion to British institutions and to the British flag and on this question he had the audience heartily in accord with him. The cheering which greeted the conclusion of his speech was just as enthusiastic as that which marked his entry.

What Martin Thinks.

"Sir Wilfrid will have a hard time trying to convince the people of Vancouver that only 400 Japanese are coming to British Columbia," said Joseph Martin, M. P., after the meeting. "He is away off the track when he comes to dealing with the Asiatic question. His views as expressed give the direct lie to the Liberals in Vancouver and the Grit press. They have always maintained that Sir Wilfrid was forced into his attitude on the Asiatic question by the mother country. Sir Wilfrid told us that it was his own policy. His speech was remarkably well delivered and polished oratory, but the people who were there were actuated by curiosity more than anything else. What applause there was came from the faithful collection of Grits on and near the platform who either held government jobs or are looking for jobs. The other speakers were very poor stuff. I see that Bob Kelly has been the chief organizer in the reception. How about the Kelly graft now. The Liberals always said that Sir Wilfrid knew nothing of it yet here he is hob nobbing with Kelly and driving around with him.

Protective Sentiment.

VANCOUVER, Aug. 16—For the first time on tour at the termination of over three thousand miles of railway travel, Sir Wilfrid today encountered evidence of protection sentiment. Following the civic address of welcome the board of trade memorial was submitted pointing out that with the opening of the Panama canal manufacturing enterprise would experience an impetus and encouragement and urged the government to provide a "reasonable amount of tariff to offset the higher wages and increasing cost of living."

Not Suited to British Columbia.

Later at the luncheon rendered to the premier by the Liberal association, President Senkler read an address "respectfully commending to your consideration the fact that certain import regulations adapted to provinces east are not suited to the interests of British Columbia." Alluding to the fiscal policy the premier declared that he had just come from provinces which were urgently and unanimously calling for free trade. Canada must move forward but progress must be made along wise and permanent lines. It would be the aim of the government to determine the tariff best adapted to the interests of the whole country.

Aid for Beet Industry.

On arrival at Mission Junction the train stopped while Sir Wilfrid received a welcome. At Sicamous Junction, the Vernon Liberal association presented the party with a large consignment of Okanagan valley fruit.

The fruit packers waited upon Hon. G. E. Graham to urge aid to the sugar beet industry in British Columbia, presenting a strong case. They submitted that tests showed British Columbia beets to have three to four per cent. more saccharine than those of Ontario, southern Alberta or any other Canadian province.

Vancouver's Mammoth Welcome.

Vancouver's welcome was on a mammoth scale. Thousands thronged the streets outside the depot and the premier addressed the gathering from an automobile. He paid a glowing tribute to the growth and development and progress of the west, Vancouver being in the van. Replying to congratulations on his escape from the train wreck Sir Wilfrid reminded the gathering that it was charged he was born under a lucky star.

Moved by Welcome.

Over a thousand attended the luncheon given by the Liberal association and greeted the premier with a remarkable demonstration. Sir Wilfrid was much moved by the welcome. "I have so much to do to follow the traditions of better men gone before, whose memories we all cherish and revere. My heart has filled at your welcome, you young men, you Canadians of tomorrow who have never seen me before and have done so much to show appreciation of my poor efforts." Continuing the premier spoke of the opportunity confronting young Canadian manhood in the west. "If I could turn the hand of time back 40 years and become again a struggling young barrister and budding politician I would come west where the sun shines and industry and energy are awarded lavishly," he said.

Opens Exhibition.

In the afternoon Sir Wilfrid formally opened Vancouver's first exhibition. It was a brilliant scene, the new grounds were richly decorated and an immense throng present. "You have made a magnificent start," said the premier, who counselled the directors to emulate the lines adopted by Toronto's national exhibition, "which in my opinion is without equal on the continent with Winnipeg closely in its wake."

Evening Meeting.

The horse show arena with a capacity of 8000 was crowded to the doors at night with hundreds turned away. Addresses were given by the premier, Messrs. Graham and Templeman. Sir Wilfrid dealt with the naval question and bespoke his ideals for the Canadian nation. He was accorded a magnificent reception.

The Trades and Labor council will wait on the premier tomorrow on the question of Asiatic immigration while the lumbermen will present their views on the tariff.

NA-DRU-CO LAXATIVES

are new and entirely different from ordinary preparations. They accomplish their purpose without disturbing the rest of the system, and are therefore the ideal laxative for the nursing mother, as they do not affect the child.

Compounded like all NA-DRU-CO preparations, by expert chemists. If unsatisfactory we'll gladly return your money.

25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them. 24

August Clean-Up

Still Selling Dress Goods at Cut Prices

Our recent price cuts have already reduced stocks considerably, but much remains that is offered to you at most attractive figures. Many of your friends have taken advantage of this opportunity to provide new gowns at nominal cost. Why not you? You can still find a wide variety from which to choose and a large assortment of grades and shades. We can fill any reasonable demands that are made upon us if you will call at once.

Remember now is your chance to provide for present and future needs with small outlay. It will pay you to buy dress goods at these prices and put them away for future use. In any event call and see what we have. It may put you in a buying mood. You will have no reason for regret if you come early.

Regular 65c. and 75c. goods for....39c.
Regular $1 goods for .....69c.
Regular up to $2 goods for .....99c.

NEW STRIKE TACTICS

MONTREAL, Aug. 16—A new move was made today at the Builders' Exchange in their fight against the bricklayers and stone masons who have been on strike for the past six weeks. It was decided to establish local unions, affiliated with the Canadian Federation of Labor, have them properly incorporated, and for the new unions to enter into a working agreement with the Builders' exchange.

ANOTHER HARVEST EXCURSION.

TORONTO, Aug. 16—Twelve hundred people left Toronto today on the C.P.R.'s third harvest excursion to the west.

Minard's Liniment Co., Limited.

Gentlemen—In June, '08, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Your truly,
A. E. ROY,
Carriage Maker.
St. Antoine, P.Q.

Rush Sale of Lots

Owner's sacrifice of two corner lots on Innes street, cleared and planted in potatoes.

On Tram Line

In a short time when the tram is running these lots will be worth much more, as they are one of the choicest building sites in Nelson. We want $150 cash and the balance can be paid $20 monthly. Price $450.

Pay you to look at these.

McQUARRIE & ROBERTSON,

419 WARD STREET Agents NELSON, B.C.

Are You Looking for Fruit Land?

If so, do not buy until you have had a look at the land we are offering at

EDGEWOOD

You will find conditions better than we represent them in this beautiful district of orchard homes. Ideal soil for fruit growing, with a south exposure. Situate at the mouth of the Fire Valley, with its great stretch of fertile lands, Edgewood is bound to become a business and distributing centre. Edgewood has good hotel, general store, flour and feed store, post office, express office, daily mail, double daily boat service, besides every advantage that goes with the fine climate of the Kootenays.

Baker Street NELSON, B. C.

HISTORY OF NELSON CITY BAND

Was Started Eight Years Ago—Has Valuable Outfit—Names of the Present Members.

The Nelson city band was organized in the year 1902 by F. L. Irwin. Previous to this time there had been no band in the city and on celebration days one had to be imported at considerable expense. The band committee had to overcome great difficulties, as they had neither the men nor the money to finance the affair. A public subscription was taken up which netted the band $125. The city council was then petitioned for a grant and after some discussion the council voted them $250. Since the year 1903 the band has been in continuous activity, giving concerts in the summer months.

The band has had three professional band leaders. At present Mr. Irwin has undertaken to lead the band as the expense of a professional leader is too heavy. The band has, all told, a $2500 outfit.

The band is managed by a board appointed by those who are members. This year's members are F. Irwin, president, J. M. Ladwig, secretary treasurer, and an executive committee made up of Messrs. Irwin, Ladwig, Brown, Crowther and Dyke. The band has at present 18 members, whose names are as follows: F. Irwin, M. Brown and Geo. Petetro, cornet players, H. Fenser, D. Laughton, and W. McCandlish, altos, B. Crowther, baritone, R. Fleming and A. Oliver, trombones, J. M. Ladwig, bass, R. A. Dyke, S. McCandlish and A. Oliker, clarionet, A. A. Perrier, saxophone, W. Parker, picola, and H. Kinnahan, drums.

HAS LIVED SINCE 1784.

For Century Mrs. Vasilka Worked in Fields of Bulgaria.

The claim of a woman of Posen, born in 1785, to be the oldest woman alive, is contested by Mrs. Vasilka, who according to monastic records, was born in May, 1784, in Havelsko, Bulgaria, where she has lived ever since. Mrs. Vasilka is a peasant daughter, and for over a century worked regularly in the fields, according to the custom of her country.

Through Countless Wars.

When she was born Bulgaria was merely a province of the Turkish empire, and the entire population groaned under the tyranny of their Turkish rulers.

Mrs. Vasilka lived through all the crises of her nation, and now rejoices to know that Bulgaria is an independent kingdom.

During her life she has seen innumerable wars and rebellions, massacres and atrocities, political crimes and tragedies. She recollects perfectly events that happened at the end of the eighteenth century.

Her son Todor, has also worked in the fields nearly all his life, but he has also taken part in various wars, and rebellions in the Balkan peninsula. He is not quite so fresh and vigorous as his mother, although he is still capable of doing a good day's work.

Filial Piety.

The "oldest woman in the world" is said to enjoy fairly good eyesight and good hearing, and she is able to walk without support. She lives on a pension paid to her by many of her numerous descendants, who number more than 100. She is naturally quite a celebrity, and people come great distances to get a glimpse of this wonderful woman who has defied time for a century and a quarter.

WATER NOTICE.

Take notice that I, Ida J. Dawson, of Nelson, B.C., intend to apply 30 days from date, to the Water Commissioner for a water license to take one-fifth of a cubic foot of water from an unnamed stream flowing out of Garrity Creek, to be used for irrigation purposes on Block 1 of Lot 1061.

IDA J. DAWSON.

Nelson, B.C., July 29, 1910.

NOTICE.

To C. G. Simpson, or to any person, or persons to whom he may have transferred his interest in the May Blossom mineral claim, situate on Quartz creek, in the Nelson mining division of West Kootenay, you and each of you are hereby notified that I have expended Three Hundred Dollars ($300.00) in labor and improvements on the above mentioned claim, and Seven Dollars and Fifty Cents (7.50) recording fees, in order to hold the said claim under the provisions of the Mineral act, the said labor being done for the three years ending May 4, 1910, and if within sixty days from date of this notice, you fail or refuse to contribute your proportion of such expenditures, amounting to One Hundred and Fifty-three Dollars and Seventy-five cents ($153.75), together with all costs of advertising, your interest in said mineral claim will become the property of the undersigned, under Section four of the Mineral Act Amendment Act, 1906.

(Signed) JOHN F. HARBOTTLE.

Dated at Nelson, this 2nd day of August, 1910.

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

Companies Act.
(July 1st, 1910.)

CANADA:
Province of British Columbia.
No. 15A (193.)

THIS IS TO CERTIFY that The G. M. Annable Company, Limited, is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at the city of Moosejaw, in the province of Saskatchewan.

The head office of the Company in this province of the Situate at Jackson's Siding, near the town of Trail, and George R. Campbell, mill manager, of Jackson's Siding aforesaid, whose address is Jackson's siding aforesaid, is the attorney for the company.

The amount of capital of the Company is Five Hundred Thousand Dollars, divided into Five Thousand shares.

Given under my hand and Seal of Office at Victoria, Province of British Columbia, this fourteenth day of July, one thousand nine hundred and ten.

[L.S.]

J. P. McLEOD,
Acting Registrar of
Joint-Stock Companies.

The objects for which this Company has been established and licensed are:

To purchase, take or lease or otherwise acquire any mines, mining rights and lands in the province of Saskatchewan or elsewhere, and any interest therein. To explore, work, exercise, develop and turn to account the same. To quarry, assort, refine, dress, amalgamate and prepare for market ore, metal, and mineral substances of all kinds. To buy, sell, manufacture and deal in minerals, plants, machinery, implements, conveniences, provisions and things capable of being used in connection with the operations of the Company, or required by workmen and others employed by the Company.

To carry on business as timber merchants, sawmill proprietors and timber growers, and to buy, sell, grow, prepare for market, manipulate, import, export and deal in timber and wood of all kinds and the manufacture of which timber is used. To purchase and plant and work timber estates.

To carry on the business of warehousing and cold storage in its several branches, to issue certificates and warrants, negotiable or otherwise to persons warehousing goods with the Company, and to make advances or loans upon the security of such goods or otherwise.

To manufacture, cut, gather or store or otherwise acquire ice, and to sell or dispose of the same as may be most advantageous, and to erect, purchase, lease or otherwise acquire buildings and premises as may be necessary for the purpose aforesaid.

To raise, purchase, sell, exchange, breed and otherwise deal in horses, cattle, sheep, swine, and all other live stock.

To purchase and sell grain and cereals of every kind, and to manufacture, buy and sell flour and other food articles manufactured from grain or cereals, and to acquire by purchase, lease or otherwise, and to own, sell, lease, mortgage, convey, and improve and operate factories and elevators, buildings and manufactories for the production and storage of all kinds of goods that may be produced or in conjunction with grain and cereals of any kind.

To buy, sell and otherwise acquire and dispose of all kinds of real and personal property, either outright or in part, or on commission, or as agents for or on behalf of or as agents for any person, firm or corporations, including insurance, loans and real estate companies, for a fixed sum, or on commission, and to buy, sell or deal in any property real or personal for a commission.

To construct, purchase, lease or otherwise acquire any wharves, piers, buildings or works that may be necessary or capable of being advantageously used in connection with the business of the Company, and to construct, carry out, maintain, improve, manage, work, control, or superintend any roads, ways, bridges, reservoirs, water courses, aqueducts, canals, docks, dams, mills, works, factories, warehouses, elevators, and other works and conveniences which may seem directly conducive to any of the objects of the Company, and to contribute to, subsidize, or otherwise aid or take part in any such operations.

To purchase stock, shares and bonds of other companies which may have a like or similar powers.

To acquire by purchase or otherwise any rights, lease, patent, franchise or patent rights for the purpose of the company's undertakings.

To carry on other business which may seem to the company capable of being carried on in connection with any of the above, or calculated directly or indirectly to render profitable or enhance the value of the Company's property for the time being; to establish agencies and branches in any and all places as may seem fit, and to possess all the usual and ordinary powers and privileges reasonably necessary for the successful carrying on of the business of the Company.

NOTICE.

The public of British Columbia and visitors are cordially invited to meet the Right Honorable Sir Wilfrid Laurier, G.C.M.G., P.C., Premier of Canada, at a public reception to be tendered by the Premier and Members of the Executive Council of the Government of British Columbia, in the Parliament Buildings, Victoria, on Wednesday, the 17th instant, at 8 p.m.

HENRY BYRON YOUNG,
Provincial Secretary.

Own Your Own Home

You cannot plant seeds today and pick the flowers tomorrow. Twenty cents a day or $6 a month will start you in the right way to acquire a home by our plan.

Make a start, save some of your income each month. Others are doing so, and your savings combined with the others will buy you a home in the shortest time and at the least cost. Contracts non-forfeitable after six months dues have been paid, 6 per cent allowed on your savings.

Loans may be repaid wholly or in part at any time and the interest proportionately reduced. No drawings. Not a lottery. Every person treated alike. I shall be pleased to supply all literature and answer all questions. Write or call.

NELSON NEWS OF THE DAY

(Additional local news notes on page 5.)

W. Stubbs and H. Pitts, jr., left yesterday for Crawford Bay, where they intend to spend the next two weeks.

Mrs. S. H. Heaney leaves tomorrow for Portland, Ore., where she will meet Mr. Heaney, who is looking after business interests in Florida.

Mrs. Fred Stevenson, formerly of Nelson and now in Vancouver, arrived yesterday evening in the city. Mrs. Stevenson is the guest of Mrs. Joseph Sturgeon.

A lacrosse match, under the auspices of the Ladies' Hospital Aid, will be played today between the Old-Timers and the New-Comers, on the recreation grounds at 2.30 sharp.

The funeral of the Japanese, Miss Gara, who was killed at Salmo by a falling tree, took place at the Salmon river town yesterday. The arrangements were in the hands of R. S. Brereton, of the Standard Furniture company.

R. Strachdon of Ainsworth spent yesterday in the city looking after his business interests.

W. J. Murphy of this city, and A. Murphy of Everett, Ont., spent yesterday in looking over the Athalmera mine.

W. S. Newill, of the firm of M. Newill & Co., is in the city from Sheep creek, where he has been looking after the firm's interest.

Sewing done. 314 Victoria street. 101-6

A fast launch to Ferndale from Astley or Elford's landing every fine Sunday. Morning trip at 8 o'clock, afternoon 2 and 3.30 o'clock; last return trip leave Ferndale at 7 p.m.

I have just received from the factories of Munro & McIntosh Carriage company, Alexandria, Ont., one carload of democrats, delivery wagons, buggies, hackboards and carts, which I now have for sale. D. Grant, blacksmith and horseshoer, Vernon street. 82-tf.

Lindsey's large fleet of launches are for hire by the hour or day at reasonable price. The Dauntless, Matchless and Fearless are in charge of capable men. The Restless, Peerless and Wireless are for parties to run themselves. For prices and further particulars call phone A18 or Lindsay's boat house. 88-tf.

The Royal Hotel luncheons and evening dinners at 25 cents cannot be excelled. Try them and be convinced

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all druggists and dealers.

FISHING WATER.

Boats for hire on pool at Slocan Junction, most famous fishing water of British Columbia. Fly fishing par excellence. Try grasshoppers for the big fellows. All conveniences at C.P.R. Creet Lodge. J. Killey, lodge keeper. 91-tf.

ENGLAND'S SUMMER DANK AND DRIPPY

Dry Season in North America Balanced by Excessive Rainfall in North Europe

LONDON, Aug. 16—Nine years ago England shared with the rest of the world one of the finest summers on record. Since then fine weather has not altogether deserted other portions of the globe, but if the British Isles have enjoyed anything like the beautiful summer of 1901 there has been little publicity given the fact. The current year seems to have brought the some of meteorological gloom. It was the habit in the first fair summer of the 20th century for the English newspapers to rhapsodise over the beauties of the unaccustomed brilliance of the sunshine and the clarity of the air. Now, as the following jeremiad from the London Express shows, they are going to the opposite extreme. Somehow it recalls Charles Lamb's description of a bad colt. Most of the twentieth century men and women are persuaded that the British climate is not as good as it was, and they are not convinced when searchers of past records assure them that "it never was." But all that has ever been thought or said unkindly of the British climate would be hopelessly inadequate as an expression of popular feeling at this moment.

All Hope Abandoned

The most courageous apologists for its vagaries must be silent. We have ourselves hoped against hope and said smooth things of the weather in the hope of placating its ferocity, but the effort is vain. Further concealment would be indecent. The weather is—but no we dare not attempt to say what the weather is. It is unprintable and unspeakable. It is of a Stygian blackness, desolate, abominable, frigid and calculated.

There is not one of us who has no tale of personal suffering and loss. The least that the weather has done is to ruin pleasure and inflict pain. Holidays turned to cold damp bitterness, influenzas, rheumatisms, and depressions bordering on acute melancholia have been the commonplaces of this dreadful year. These are ill enough but more serious and permanent ills have to be written.

Good-Bye Summer

The summer is gone. Goodwood week has come, the social season is finished, lavender and walnuts are with us and the sun is sinking fast. Already the decaying hand of autumn begins to shake the short lived leaves from the trees and the fires in our rooms being to seem less out of keeping with the calendars on our walls. The summer is gone. The summer has never come. We have enjoyed the small mercy of some ten days of fine tolerably warm weather. The rest has been rains and after-rains and icy hurricanes and floods and cold and a sort of waking nightmare of climatic intemperance. Farmers are face to face with ruin. The sodden crops beaten and bruised with rain and wind cry out for sunshine and see no hope of it. Tradesmen are wounded by the season on which they rely for the best business of the year. There has been no business on the river, there has been little business in the shops, there have been slumps and reactions on the stock markets. Even rubber has not been resilient enough to withstand the universal depression.

Never Rains But it Pours

The weather has been a national calamity imposed on a nation already struck by the heavy hand of death. It is not wonderful that superstitious minds should find in this congestion of calamity portents of woe. When we seek some explanation of an entirely abnormal condition the comets at once present themselves as an available excuse. But scientists assure us that the comets are innocent of guilt. The scientists indeed put forth various accounts of cause and effect. But these leave us unmoved. The cause is comparatively immaterial. The effect is deplorable. The climate seems to have gone irredeemably to the bad. Our modern winters are muggy and unhealthy. Our summers are the rainy season. We get neither clear frosty weather to invigorate us nor sunshine to make us alive. Soon we will perish of inanition and the world become so unattractive that regret may be poisoned. That is indeed the only compensation which optimism can find for ills that can neither be cured nor endured.

EXPRESS CHARGES IN THE UNITED STATES

There has been presented to the United States interstate commerce commission a petition by 120 great commercial organizations in all parts of the United States, a petition calling for a thorough investigation by that body of the methods of the express companies. The petitioners complain that the present express charges in the United States are unreasonable and extortionate and that the injustice to which the shipper is subjected in this particular is flagrant and continuous.

It is alleged that competition in express service in the United States has been largely eliminated, that unjust and unreasonable regulations and practices are enforced, that the rate for express freight is from two and a half to four times the first class freight rate and that the railways receive for moving 100 pounds of small parcels as high as 37 1-2 times the amount charged by them for 100 pounds of first class freight.

All of which serves as a reminder to us on this side of the international line that we are still waiting to hear the result of the investigation into the methods of express companies in this country which was entered upon some time ago by the Dominion railway commission. It will be remembered that at the time the express companies' earnings were first brought before public attention at a sitting of the railway commission the figures adduced were such as to indicate that a very considerable reduction could be made in the companies' charges and still the companies would reap very large profits.

One great difference between the situation in this respect in this country and the situation in the United States is that in this country we have a parcel post system. When John Wanamaker was postmaster general of the United States 30 years ago, he said that there were four reasons why there was then no parcel post system under the Stars and Stripes—namely, the Adams Express Co., the Wells-Fargo Express Co., the American Express Co., and the Pacific Express Co. The United States is still without a parcel post system for the same four reasons. The Wall Street Journal says in a recent issue, in regard to one of these reasons: "It looks as if the Wells-Fargo stockholders have been able to eat their cake and have it too. After increasing their capital stock 200 per cent and declaring a 300 per cent cash dividend some time ago, a quarterly dividend has now been declared on the increased amount of stock at the same rate as prevailed before that increase took place. This is the real argument against the parcel post and yet the consumer remains ungrateful."

Not Bargain Clothes But Bargain Prices

Our Lonely Suit Sale has been a great success. Many a man has been agreeably surprised at the value of these clothes. This is positively the last week of these great bargains. We have still a number of choice worsteds to choose from.

Two Prices Only $12.50 & $18.50

Men's Trousers

"THE HUB"

FOR SALE

There has been placed in our hands for sale, 160 acres of fruit land in the Creston district, along the Canadian Pacific railway, and government wagon road. The land is about two and a half miles west of Kitchener, and is surrounded by improved ranches and fruit farms. There is about 60 per cent of the land level, and free from stone, the balance rolling hills. The soil is a sandy loam with clay sub-soil, and abundance of water.

Price, $40 per acre. Very reasonable terms. This is an ideal block for subdividing.

FOR SALE IN HUME ADDITION

Four-roomed house, newly painted and papered inside, basement full size of house, four lots cleared and fenced, bearing fruit trees and small fruits, chicken house 12 x 42, city water in house, and creek running beside property. Fifteen minutes' walk from postoffice. Price $900, $300 cash, balance $20 per month.

WE WANT AN OFFER

For 76 acres of fruit land, situated along the Slocan river, adjoining Winlaw. This tract is sub-divided in three 25-acre blocks, and one 16-acre block, with small clearing, and 30 bearing trees. There is plenty of water available, and the land easy to clear. Close to depot, school, and postoffice. We will sell this as blocs or sub-divisions.

For particulars, inquire of

WILL NOT REDUCE YUKON MOUNTED POLICE

OTTAWA, Aug. 15—A telegraphic statement from Vancouver to the effect that Col. Fred White, controller of the Royal Northwest Mounted police, was there on his way to Dawson to arrange for a reduction of the number of the force in Yukon is officially denied at the department. Col. White instead of being en route to Dawson is actually on the way back to Ottawa and there is no present intention of reducing the force in the territory.

ZAM-BUK CURES SUNBURN.

Neglect of a sunburn on face, arm or neck often leads to the after growth of skin which is freckled or coarse; and this is particularly distressing to ladies. Timely application of Zam-Buk will prevent this. Zam-Buk is a herbal balm, which soothes and cools the burned skin, and assists nature to replace the damaged tissue with soft, velvety skin.

Zam-Buk is also good for stings, scratches, heat sores, blisters on hands or feet, and all skin injuries. Applied to these it quickly stops the smarting, and insures quick healing. As it is free from animal fat, and mineral coloring matter, it is particularly suited to the delicate skin of babies, suffering from heat rashes, chafed places, etc. Sold everywhere by druggists and store-keepers. Beware of harmful imitations, and see the name "Zam-Buk" on the box before buying.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists and dealers.

an impression of untidiness to the visitor to the city. It is the property of the C.P.R. and it is likely that representations will be made by the city council to the railway suggesting that some improvement be made.

The steamer Valhalla, which has been lying at the C.P.R. docks for the past two months, is to be repaired with a new hull. She will then be used for transfer service between Proctor and Kootenay Landing.

Hon. V. V. Vivian and Hon. Violet Vivian of London, England, who are making a tour of Canada, are guests at the Strathcona, having arrived from the coast. They spent yesterday admiring the picturesque scenery and visiting the power plants at Bonnington Falls.

St. Paul's Presbyterian Sunday school will be "at home" on the Proctor picnic grounds all day today, and extend to everyone a cordial invitation to attend. Ice cream, peanuts, soft drinks, and other delicacies will be served at nominal prices and there will be plenty for everybody.

The following books have been added to the library: "Anna Karenina," by L. N. Tolstoi; "Cashel Byron's Profession," Bernard Shaw; "Half Hours With the Stars," R. A. Proctor; "In Great Waters," T. A. Janvier; "In the Days of William the Conqueror," E. M. Tappan; "Middlemarch," George Eliot; "Oswald Bastable," R. Nesbit; "Wonderbegoods," E. Nesbit; "Pathfinders of the West," A. C. Laut; "Queen Hildegarde," L. E. Richards.

AT THE THEATRES

"Wanted, a Wife," Highly Amusing Comedy at Opera House.

The Pringle Stock company scored a distinct success at the opera house last night in a three act farcical comedy, "Wanted, a Wife." Both the play itself and the presentation by the company were worthy of a far larger house than that present.

Miss Florence Pringle, in one of her light comedy parts, was highly amusing and the audience was kept in a continual state of laughter by the clever acting of Mr. Pringle.

The bill tonight will be filled by a play of a heavier nature, entitled "The Great Diamond Robbery."

The following is the program at the Gem theatre tonight: "Maud Muller," "Training a Husband," an American Biograph drama, and two Eclipse pictures, entitled "In Hot pursuit," and "Magic Cartoons." The management of this theatre has been fortunate in securing Miss Shepherd, late of the Circuit theatre, Chicago, as pianist.

The following are the subjects which will constitute the program to be shown at the Arcade tonight: "The Bachelman's Wife," a fine Bison film; "The Wreck," "A Street Porter," "The Suffragan's Wife," and "A Hat for the Wedding Day." The musical portion will be under Professor Wilkinson's charge.

The change of program at the Empire theatre includes a most interesting picture, showing scenes in a mica mine. Other subjects are "First Love is Best," and "The Promised Land," being the 8th in the series of the "Life of Moses."

DUCK-STEALING YOUTHS ARE GIVEN SUSPENDED SENTENCE

Leslie and Donaldson are Released Under Cognizances of One Hundred Dollars.

Herbert Donaldson and Jack Leslie, aged 16 and 15 years respectively, were charged in the city police court this morning before Stipendiary Magistrate W. H. Bullock-Webster with having stolen seven ducks from H. Richardson on July 21.

The evidence of the police was to the effect that the youths broke into a pen in the yard of Mr. Richardson's house at about 11 o'clock on the night of July 21 and that the spoil was afterwards divided up, Leslie taking four and Donaldson getting three. Each boy then cached the ducks in a hiding place in the garden of his father's residence.

The magistrate ordered the boys released under cognizances of $100 each and to be prepared to appear and receive judgment if called upon, any time during the next twelve months.

GENERAL OTTER PROBABLY NEW INSPECTOR GENERAL

OTTAWA, Aug. 16—Announcement that General MacKenzie is now being sent out to Canada by the war office to be chief of the general staff confirms the impression that the position of inspector general, now held by Sir Percy Lake, will go to General Otter. General MacKenzie will, however, be chief military adviser in succession to General Lake. The latter is at present at the head of the general staff. No official confirmation of General MacKenzie's appointment has yet been received at the militia department, but his name was submitted to the Canadian authorities and approved. Sir Percy Lake's tenure of office in Canada expires in October, when it is expected he will go to India.

EARLY POTATOES REMUNERATIVE CROP AT WANETA

(Special to The Daily News.)

WANETA, Aug. 16—A. Young is in from Trail on a visit to his ranch.

John Sorsen, district bridge superintendent, was here the other day looking over the work in progress under the local foreman, William Duncan.

John Sirling had at the beginning of the month the first ripe tomatoes in the valley.

Early Potatoes Remunerative.

As last month the crop of early potatoes brought the very good price of $2 per 100 pounds, delivered at the depot here, and the demand was far greater than the supply, early potatoes are likely to figure largely here in next year's crops.

Yellow Transparent and Early Harvest apples are not grown much here, but in a week or two there will be some nice Gravensteins ready for shipment.

Bears Abundant.

Bears are very numerous and much talked about, surprise being expressed that the close time, both in the interests of the rancher and the sportsman, is not placed earlier in the season. The rancher wants to kill the bear now, because now is the time bears are constantly around and likely to do most damage. Earlier there is nothing in the orchard to attract them, and later on in September and October they are off to the high mountains to feed on the late huckleberries, fungi and fish spawning at the heads of streams. If the close season were, say, from June 1 to July 15, instead of as at present from July 15 to August 31, it would still allow the sportsman to kill bears in spring when the fur is at its best, and it would permit him to begin shooting again when the meat becomes fit for food, for in the spring and early summer the black bear lives largely on ants and carrion, whereas in July and August he lives largely on berries. Besides, while by August cubs are able to take care of themselves, the law should bar the unsportsmanlike killing of female bears in June, when the cubs are certain to die of starvation.

John Reith and Mrs. Reith have arrived on a visit to their former home. Mr. Reith has lately sold his ranch at Lacombe, Alta.

It is reported that the owners of the iron claims, situated near the mouth of the Salmon river, will shortly let a contract for a 300-foot tunnel on the property.

Fight Fires.

Until the heavy rain of Sunday night brought relief, T. J. Duncan and A. E. Churches had their men off the woodwork in order to fight the big fire at Fish creek, near the boundary line. A number of men are still at work to prevent all chance of the fire starting up again.

Miss Allen and Miss Janecek are visiting here, the guests of Mrs. Vroom.

PHILOSOPHER'S STONE DISCOVERED BY INVESTIGATOR

Has Succeeded in Transmuting Copper into Iron—Expects More Important Results.

OTTAWA, Aug. 16—L. R. Keogh, of the Ottawa Collegiate institute, has made a discovery of scientific and possibly financial importance. After years of labor and investigation he has succeeded in transmuting copper into iron. This has never been done before, and demonstrates the fact that the transmission of metals is possible. Mr. Keogh states that to his knowledge this has never been proved before. He further states that the new element obtained from his experiment with copper answered the test usually applied to the identification of iron. In support of his contentions he explains that he is willing at any time to allow competent judges to undertake the work of verifying his results. "I do not think that the discovery I have made is at present of any financial significance," said Mr. Keogh. "but it is possible that at a later date something of more importance will follow."

GRAVE CONCERN TO EMPIRE

LONDON, Aug. 16—The Daily Mail says that to American settlers the doctrine of free trade means more than the readjustment of tariffs. It represents the ultimate adoption of continental union is the interest whereof many people are working both in Canada and the United States. Beyond this trade policy lies the problem of gravest concern to the empire.

JEALOUSY CAUSES ITALIAN MURDER IN ST. JOHN

ST. JOHN, Aug. 16 — At the police court this morning the confession of Andrew Rossi, who killed another Italian named Siracusa, through jealousy was heard. Rossi said he was jealous of Siracusa's attention to one Minnie Jones and they had talked a great deal but Siracusa always laughed at him. At last in a fit of jealousy he shot Siracusa, robbed him and fled. Rossi takes the matter coolly.

CHINESE ELECTIONS.

MONTREAL, Aug. 16—Huan Quam, of Ottawa and Lee Mon How of Montreal, merchants, are elected to represent the Chinese of eastern Canada in the Kwang Tung parliament of China. The first election of its kind in Chinese history.

FOY ACTING PREMIER

TORONTO, Aug. 16—During the absence of Sir James Whitney, Hon. J. J. Foy, attorney general, will be acting premier.

FIRE IN TORONTO FACTORY

TORONTO, Aug. 16—Fire in the factory of the Payne Manufacturing company on Pearl street, did $55,000 damage. Covered by insurance.

WILL GO TO JURY.

TORONTO, Aug. 16—Dr. Herbert E. Shepherd voluntarily decided to go to a jury to answer a charge of bigamy against him today. The crown had not sufficient evidence to send him up for trial.

ENDORSES MILLION DOLLAR DOCK

TORONTO, Aug. 16—During his reception at Owen Sound last evening, Dr. Pugsley expressed the government's endorsation of the million dollar dry dock and shipbuilding plant proposed.

Does One of These Interest You?

If Not, We Have Others

Hoover Street—A well built five room house with good grounds, half a block from car line and in a most desirable neighborhood; $500 will handle this balance terms to suit. Price $1800.

NELSON NEWS OF THE DAY

(Additional local news notes on page 1.)

Mr. and Mrs. A. D. Wheeler came in from Ainsworth yesterday and were guests at the Strathcona.

Commander and Mrs. Harrison, accompanied by the Misses Harrison, are spending a few day in Nelson. They are registered at the Strathcona.

John Dunn and Robert Parkinson, chief stewards on the C.P.R. Arrow lake service, have just returned from a four months' holiday in England.

The Ladies' Aid of the Church of Mary Immaculate will hold a social tomorrow afternoon and evening on the lawn at St. Joseph's convent. The affair will be in aid of St. Joseph's school.

Thomas Reynolds of Ymir was before Magistrate W. H. Bullock-Webster yesterday for examination regarding his sanity. He was declared sane. Reynolds, who had been acting queerly, was brought in by Constable J. A. Fraser.

Robertson & McQuarrie report the following sales: W. G. Gillett's residence, on Silica street, to S. H. Hoskins, mining recorder; Stewart Campbell's residence, Carbonate street, to Mr. Miller, part owner of the Summit mine; a cottage in Silica street to H. A. Webster.

Attention has been drawn to the condition to a part of the road leading down from Josephine street to the wharf. The street has been put in good order by the city, and the C.P.R. have effectively boarded over the railroad track, but between the track and the commencement of the wharf there is a short hiatus in the generally improved state of the approach to the wharf. This part of the path is made up of rough, loose gravel, and gives
