SENDING EXPERT TO EXAMINE UNIT

Allis-Chalmers-Bullock Company Make Reply.

WILL ADJUST TO CITY'S SATISFACTION

Communication Is Result of Much Correspondence Between Mayor and Company.

The Allis-Chalmers-Bullock company have, after much correspondence between their officials and the city, decided to send an expert to make an examination of the second unit of the power plant which has been out of operation since it was closed down on Dec. 12, and also to adjust it to the citys' satisfaction.

This welcome information was contained in the following night lettergram from E. W. Breed, Vancouver representative of the company, which was received on Saturday morning by his worship the mayor:

"Will leave Saturday noon for Nelson arriving Monday. Expert unable to leave until Monday. Everything will be adjusted to your satisfaction at earliest possible moment consistent with absolute certainty in regard to trouble and first class adjustment. If you have any further information or suggestions kindly wire before Saturday noon."

It will be recalled that directly R. A. Brown, city electrician, found that the unit was not in workable condition he telegraphed to the company and asked them to make arrangements for carrying out repairs at the earliest possible moment. He suggested that the trouble might be in the shaft or shaft couplings.

The Allis-Chalmers-Bullock company, through their Vancouver representative, E. W. Breed, replied that he was awaiting instructions from the Montreal office of the company Recently the city received a further letter from Mr. Breed which the mayor described at Monday's meeting of the city council as being an attempt on the part of the company to wriggle out of their contract to keep the unit in repair for one year from the date of its first operation by implying that Mr. Brown had definitely stated that the trouble was in the shaft or shaft bearing and offering to pay the cost of expert examination only if such proved to be the cause of the breakdown. The letter further stated that the company's contract with the city was to keep the unit in repair for one year from the date of shipment of the machinery.

To this last letter the mayor, under the advice of the city solicitor, A. M. Johnson, replied: "No. 2 unit is out of order somewhere. We do not say where but suggest trouble may be in shaft and couplings. Your company is under contract to make good immediately. We require you to send expert at once to ascertain cause of trouble. If trouble exists your company is to bear all expenses of the investigation. If none exists the city would be responsible for such expense."

Mr. Breed's communication stating that an expert would be sent and that everything would be adjusted to the city's satisfaction was the answer to this last telegram of Mayor Selous.

MUNICIPALLY OWNED UTILITIES ARE MAKING MONEY

CALGARY, Alta., Jan. 22—Every municipally operated department of public utilities in the city shows a real surplus for the year 1910 The street railway shows a profit of $33,315.23 The electric light and power shows $22,420 and even the old waterworks comes along with a neat little surplus of $3,335.36, after the sum of $51,180 had been paid for debenture interest and $27,759.68 for sinking fund.

CONVENTION OF LUMBER DEALERS

Meet in Winnipeg Middle of Next Mont' —Hoo Hoos Will Meet at Moose Jaw.

WINNIPEG, Jan. 22—The big convention of retail lumbermen of Western Canada is to be held in this city on Feb. 15, 16 and 17.

It is expected this will be the greatest convention of the kind held in the west and that the prairie provinces in particular will be well represented. Previous to the convention a meeting of the Sasaktchewan Hoo Hoos will be held Feb. 2 at Moose Jaw where Herbert Springate of Winnipeg will be in charge, while arrangements are being made to hold a monster concantation of the Hoo Hoos in Winnipeg Feb. 17 for which applications are now being received by J. Hooper of the retail lumbermen here.

LOTS OF GENERALS BUT NO PRIVATES

United States Cruiser Arrests Revolutionary Gunboat—Bonilla Has an Army of Officers

CEIBA, Honduras, Jan. 22—Great excitement was caused here today when it became known that the United States cruiser Tacoma had "arrested" the revolutionary gunboat Hornet at Truxillo. It is not known what effect the seizure of the Hornet will have on Gen. Bonilla's operations.

Reports have reached here that for more than a week he has been mobilizing troops at Neuva Armenia, 28 miles east, preparatory to an attack on this place. Ceiba appears to have more generals, captains and other officers than private soldiers. Trouble is experienced in enlisting private soldiers, most of the military men being generals.

Report Confirmed

WASHINGTON, Jan. 22—The report that the Hornet, Gen. Bonilla's gunboat on the Honduran coast, had been boarded by a force from the United States gunboat Tacoma, was confirmed in a wireless dispatch received by the navy department from the commander of the battleship Maine. The dispatch merely stated that it had been found necessary to place a force on board in order to detain the Hornet and added that details would be reported later. The state department is waiting information as to whether the Hornet has violated the neutrality of the United States. Commander Davis of the Tacoma boarded the Hornet, it is assumed here, because the vessel was about to make a descent on the little republic.

The naval officers in Honduran waters were given considerable discretion in carrying out their instructions to prevent an assault by the Hornet. It is not known where the vessel received her guns, thus being converted into an instrument of war.

TEN MILLION DOLLARS FOR EXTENDING PLANT

(Special to The Daily News.)

VANCOUVER, B.C., Jan. 22.—The Western Steel corporation has closed arrangements with a British syndicate which gives the concern $10,000,000 for the extension of its plant at Irondale and the construction of a similar plant on the site recently purchased on the Fraser river, opposite Annacis island. President James A. Moore is leaving at once for England to close the deal.

REPORT OF QUEEN DEAL CONFIRMED

Manager Buckley Back From Wisconsin—Clyde-Belt Gets Water License.

E. V. Buckley, manager of the Queen mine, came in from Sheep creek on Saturday night, and returns to the camp this morning. He arrived one week ago from the east, having spent a month in Wisconsin, at his former home. Mr. Buckley confirms the dispatch from the coast recently published in The News, stating that Charles Law, the Vancouver barrister, had secured an option on the Queen property, on behalf of English principals. Several English mining corporations are concerned, it is understood, in the deal, which, if it eventuates in a sale, will mean a good turn-over for the Queen Mine, Incorporated. While Mr. Buckley was in Wisconsin, Mr. Law, who was on his way home from London, visited Merillan, the home of both M. P. Cannon, president of the Queen Mine, Incorporated, and Mr. Buckley, and there carried on the negotiations which resulted in the option being given.

Owing to a broken cam shaft, which will have to be replaced, the Queen mill is now running only 15 of its 20 stamps, but the repairs will be effected this week, when the mill will again run full capacity.

The application of Henry L. Van Wyck, on behalf of the Britannia Mining comany, for a water license for the Clyde-Belt gold mine on Sheep creek, has been heard by the water commissioner, W. F. Teetzel, and granted: The Clyde-Belt property is on the Sheep creek side of Nugget mountain, adjoining the Mother Lode. The water is to be taken from Sheep creek at a point immediately below the junction of Sheep and Wolf creeks, and returned about a mile further down. This is the first new license to be granted on Sheep creek under the new water act.

Good progress is being made on the Kootenay Belle property, on Yellowstone mountain, since a large force of men was put at work drifting on No. 1 vein which has been opened up recently at depth through the long cross-cut tunnel. The first car of ore is being got out for shipment.

KENORA WILL HAVE LONG DISTANCE TELEPHONE

KENORA, Jan. 22—Kenora is to have long distance communication with the outside world. Application is to be made at the coming session of the Ontario legislature for the incorporation of the Central Canada Telephone company for the purpose of building a line from Fort William to the Manitoba boundary where it will meet the Manitoba government lines. Branch lines will be throughout the mining district tributary to Kenora. Work will begin this spring.

BLACK DEATH INVADES ENGLAND

Plague Has Obtained Firm Foothold.

INFECTED BREATH SPREADS CONTAGION

Illness Wrongly Diagnosed as Pneumonia--Extermination of Rats Hopeless Task.

LONDON, Jan. 22—England is becoming seriously alarmed over the accumulating evidence that the "Black Death" has secured a firm foothold in the country. It is not alone that the rats all over the island are unquestionably thoroughly infected, it is beginning to be clear now that many men, women and children have died of the disease, their illness simply having been wrongly diagnosed by the attending physicians.

Death From Plague

Expert investigation has practically proven that cases of supposed pneumonia as far back as 1896 were really plague and a correspondent of The Times for whose authority the newspaper vouches takes the the despondent view that they will never succeed in freeing England entirely of this plague which has found so insidious an entry. 'It seems probable," says the London Express in a discussion of the same subject, "that the extermination of rats is in itself a hopeless task and no more than a slight palliative."

Cases Increasing

While it is true that the number of cases of disease among human beings is not yet very large, medical authorities are agreed that they are increasing rapidl . The fact that the complaint in England tends not to take the bubonic but the pneumonic form, in which the inhalation of infected breath even at a considerable distance is sufficient to transmit the contagion, is not a reassuring feature of the situation.

PRICE OF BEEF WILL TAKE JUMP

Hard Winter on Prairies the Cause, Says P. Burns—Pork and Mutton Also

VANCOUVER, B.C., Jan. 22.—P. Burns, head of P. Burns & Co., announced on arrival in Vancouver from the east that, on account of the hard winter in Alberta and consequent rise in the price of hay and other fodder, the price of beef would make a material advance in the near future. Pork and mutton will also move up the scale, but not to such a great extent as beef. Mr. Burns states that his concern intends to greatly enlarge their packing plant and abattoir in this city, which was started as an experiment some months ago.

NESBITT IN ALBERTA

CALGARY, Jan. 22—A Wetaskiwin paper reports the presence of Dr. Beattie Nesbitt a couple of days ago and says he is now stopping with friends near Millett.

PRESIDENT WANTS CANAL FORTIFIED

Hopes for Five Million Dollars to Begin Work—Senate Gives Strong Support

NEW YORK, Jan. 22—President Taft last night began in earnest his campaign for the fortification of the Panama canal. His entire speech at the banquet of the Pennsylvania society was devoted to this subject. He has high hopes that congress at this session will declare in his favor and appropriate $5,000,000 to begin the work.

In the senate the president has been told that the sentiment for fortification is almost two to one. The house seems evenly divided. Most of the members appear, however, to be willing to be convinced by the side that makes the better presentation of its case. President Taft will bring all of his influence to bear in favor of fortifying. In his speech last night, he said that there were absolutely no treaty obligations in the way of fortifying the canal and that the United States has every right and reason to protect what was purely an American waterway. The president said he yielded to no man in his love of peace and hatred of war. He hopes to submit soon to the senate arbitration treaties of a broader character than had ever come before that body

MADMAN THREATENS SIR THOMAS LIPTON

Enforces Demand for Money With Open Razor—Police Arrive and Capture Maniac

LONDON, Jan. 22.—It was learned tonight that a man named Meldon gained admission to Sir Thomas Lipton's residence at Southgate today and drew a razor on the noted yachtsman in an effort to enforce his demand for $5,000. Meldon was recently discharged from an insane asylum. Sir Thomas owes his escape to his presence of mind and his ability to humor his madman guest, and is beng congratulated on all sides on his lucky escape.

Meldon got an interview with Lipton on the pretence of being a Scotland Yard detective. When in the library the maniac drew a razor and demanded money of Sir Thomas. "Wait until I answer the phone call," Sir Thomas said. The unwelcome visitor was thrown off his guard and allowed Lipton to go to a distant room, where he telephoned the police. Within five minutes two officers had arrived and the man was seized and hustled to jail. Lipton and Meldon were seated at a table when the officers arrived arguing the question of the money demanded of Sir Thomas. The madman still had the open razor in his hand and was repeating his demand for the full amount.

KING AND QUEEN HOLD COURT IN IRELAND

DUBLIN, Jan. 22—It is reported here that King George and Queen Mary will make a brief visit to Ireland, probably in July or August. They will reside in the vice regal lodge and will hold a series of brilliant state functions.

JANUARY 23, 1911
Coupon No. 1.

This coupon, with one from each of the other issues of The Daily News of the week ending, January 28, and 10 cents, entitles the holder to a photo-gravure reproduction of Fred Morgan's picture, entitled "London Bridge is Falling Down." Coupons and money should be presented at The Daily News office any time after Sunday next. If pictures are to be mailed, 5 cents must be added to cover postage.

MUTINEERS SHOT WITHOUT TRIAL

Wholesale Executions on Brazilian Battleships.

BODIES ARE FOOD FOR SHARKS

Crews Lined Up to Witness Slaughter--Executions Continue Daily.

GULF PORTE, Miss., Jan. 22—That 300 Brazilian mutineers were shot to death without the preliminary of court martial and that similar executions are being held daily in Brazil, was the declaration made today by officers on board the Brazilian steamer King George, which arrived last night from Rio Janeiro.

The 300 mutineers shot down were participants in the second mutiny on Corbras island, when sailors and marines seized the fortress on the island and threatened to shell the city.

The bodies were thrown into the bay to the sharks. The condemned men, who were shot upon orders from President Fonseca were taken to sea upon battleships and executed.

The crews were lined up on the decks to witness the slaughter and proclamations were posted in barracks holding up the summary justice as an object lesson. The King George was in the harbor at Rio De Janeiro on the day of the second mutiny.

AVIATOR READY FOR FLIGHT.

HAVANA, Jan. 22—Aviator McCurdy the Canadian, who is to make a flight from Key West to Havana and who arrived here yesterday on the U. S. destroyer Spaulding to pick out a suitable landing, will leave here tomorrow for Key West, it is his present intention to start Tuesday morning between 8 and 9 o'clock on his aerial voyage to Cuba. He expects to make the flight in two hours should the present favorable conditions continue.

HANKOW SCENE OF FIERCE FIGHTING

Chinese Suspect British Police of Killing Coolie—Foreign Gunboats Land Detachments.

HANKOW, China, Jan. 22—The death of a coolie, who was found in a state of collapse by the British police, resulted in serious disorders today. The Chinese suspected that the police had killed the coolie and rioting began in several sections.

British and German gunboats landed detachments and fierce fighting followed in which eight Chinese were killed. The viceroy is sending native troops to restore order.

Hankow is a treaty port and is one of the largest cities of the Chinese empire.

GOVERNMENT MAY ABOLISH HEAD TAX

Admit Limited Number of Chinese Free —Opium Smugglers Subscribe to Anti-opium League

(Special to The Daily News.)

VANCOUVER, B.C., Jan. 22—T. R. E. McInnes, parliamentary agent of Ottawa, told the commission on Chinese immigration on Saturday his scheme for thoroughly revising the present method of dealing with Chinese entering Canada. He stated as his opinion, and hinted that it might also be the intention of Sir Wilfrid Laurier, that the head tax of $500 should be abolished and instead that a limited number of Chinese should be admitted free each year.

McInnes said that he had been interested in Chinese affairs for several years and had been retained by Hon. Frank Oliver several times to report on immigration matters in general on the coast. He stated as his opinion that Chinese immigration should come under the immigration department, instead of being mixed up with three departments, customs, trade and commerce and immigration.

He declared that he did not think that in sending him on such missions Mr. Oliver was interfering with the department of another minister, but he was of the opinion that the government contemplated some important change in its Chinese policy.

There was considerable amusement when a communication sent by this witness to Sir Wilfrid Laurier was read protesting against the appointment of Pong Shoo Lung, the present interpreter at this port. In this letter Mr. McInnes said that while Hon. William Templeman might be qualified to decide upon western affairs in general he was not qualified to deal with Chinese matters, while he, the witness, knew more about Chinese affairs than any other Canadian.

Mr. McInnes mentioned several sources from which he secured information concerning Chinese immigration frauds here, among them Oyung King, formerly Chinese consul here. Witness gave many facts concerning the opium business on the coast. Yip On was said to be in the ring engaged in smuggling opium, nevertheless he contributed $300 to the funds of the anti-opium league. Many members of the opium smuggling ring were connected with the anti-opium league.

QUEEN'S BROTHER AS GOVERNOR GENERAL

Now Said Duke of Connaught May Not Come—Lewis Harcourt is Also Mentioned

LONDON, Jan. 22.—J. Pierpont Morgan's niece is likely to be the next vicerein. It is now admitted that the Duke of Connaught will not be appointed governor general of Canada to succeed Earl Grey, because he is too formal to suit the democratic Canadians. A suggestion has been made that if it is desired to have a member of the royal family as head of the Dominion, the queen's younger brother, prince Alexander of Teck, might be sent instead of the king's uncle. Apparently it is thought that the prince is not a stickler for the court etiquette insisted on by the duke.

In ministerial circles here it is believed that Lewis V. Harcourt, minister for the colonies, may accept the position, as he finds his health cannot bear the strain of continuous office work required in controlling a big department of the government. He undoubtedly will be very popular, and his wife, the daughter of Walter S. Burns, who married a sister of J. P. Morgan, is an able, charming woman, and would make an excellent vicereine. Mr. Harcourt is doubly connected with America by marriage. His stepmother is a daughter of John Lothrop Motley, a distinguished historian and at one time United States minister to England.

BUBONIC PLAGUE TAKES HOLD OF PEKIN

PEKIN, Jan. 22—Many deaths from the bubonic plague have occurred in this city since the first death from the disease here was reported yesterday. The legation staffs are quaranteening themselves within their own walls, having been unable to agree upon general measures for the entire legation quarters. Advices from Che Fu state that the epidemic has been carried across the gulf of Pe Chi Li in junks and that there are grave fears that it will extend throughout northern China and Korea.

Plague Camps.

KWANG CHING TZE, China, Jan. 22—Plague refugees from Harbin are arriving here in great numbers. The fatalities increase daily. The Japanese are erecting plague camps capable of collecting 4000 persons.

PIONEER MISSIONARY DEAD

STRATHCONA, Jan. 22—The death took place on Saturday evening of Rev. Alex McDonald the oldest of Baptist pioneer missionaries in the west. He came to Winnipeg in 1854 before the railway was built and founded the first Baptist church in that city. He covered most of Manitoba by team on missionary tours. He came to Edmonton in 1893 and remained there until a few months ago. He was 73 years of age and a man of excellent physique. Peter Macdonald is a brother, and James M. Macdonald, Strathcona, and Prof. Macdonald of Woodstock are sons. His wife who had been his helpmate in his missionary work died a short time ago and he never recovered from the shock.

ENGLISH SYNDICATE BUYS EDGEWOOD

Sub-Division and Town Sold En Bloc for Cash.

GREAT ACTIVITY IN LOCAL REALTY

City Residences, Fruit Lands and Lake Frontage Find Ready Purchasers.

The Edgewood subdivision, consisting of about 1000 acres of partly developed fruit lands, together with the townsite, have passed from the hands of the local owners to an English syndicate for a large cash consideration, the deal being one of the largest and most important that have been consummated in the district for some months. The transfer was made by W. J. Toye and J. E. Taylor, in conjunction with J. W. Ford, who is now in the old country.

The owners of this property were, W. S. Riblet, W. A. Calder, F. C. Green, A. G. Larson, J. E. Taylor, M. R. McQuarrie and W. J. Toye. The subdivision and townsite lie about 40 miles up the Lower Arrow lake from West Robson and many of the 10-acre lots and town lots have already been partly settled.

The English syndicate purchasing the subdivision have announced their intention of carrying out a very extensive scheme of colonization the coming spring and summer.

Many Other Sales.

Although the sale of the Edgewood property was the most important reported the past week a large number of other deals in city and outside realty speak eloquently of the satisfactory state of the local real estate market and of the prospects of the coming season seeing one of the greatest inrushes of settlers that the district surrounding Nelson has ever witnessed.

The Western Canada Investment company reported the sale of Frank Walsh's residence on Silica street to Bert Lorsch and the transfer of Edward Langdon's house at the corner of Latimer and Hendryx streets to Stephen Walley. The same firm also stated that they had given a short time option on 640 acres of land at Fire valley to Vancouver parties.

To Irrigate Shoreacres Farms.

That arrangements have been made for the installation of an irrigation system at the Shoreacres subdivision was the statement made on Saturday by Toye & Toye. Work has already been commenced on this project which will supply water to every ranch and ranch house at Shoreacres. The water will be pumped by the wheel system from the Slocan river and carried by pipes to a cement reservoir located at an elevation of 150 feet and from there distributed.

This firm reported the sale of some lake frontage at Nine-mile point to Frederick Keffer of Greenwood, who proposes to erect a summer residence there directly the building operations commence in the spring. They were also the medium for a deal whereby W. A. Calder, of Edgewood, purchased 640 acres of Fire valley land and transferred it to a coast syndicate who are proposing to have the land surveyed and placed on the market in small tracts.

Toye & Toye stated that there was considerable activity in Shoreacres property and reported the following sales: A ten-acre tract to Phillip Grogan; a ten-acre tract to Dominico Scotti and a third ten-acre block to T. J. McCammon of Moose Jaw, who was at one time a resident of Nelson.

BUILD BIG TUNNEL WEST OF KAMLOOPS

Canadian Northern Lets Another Contract—Important Section Completed Next Year.

(Special to The Daily News.)

VANCOUVER, B. C., Jan. 22—The Canadian Northern railway has just let a provisional contract for the 20-mile section of line from Papkum to Hope to the Northern Construction company. The management state that the contract for the section from Hope to Boston Bar, 35 miles, will be awarded shortly. By the end of next year it is expected that the full 107 miles from Port Mann to Boston Bar will be completed.

The work will be started early next season on several tunnels between Yale and Kamloops. The largest of these is at Battle Bluff 10 miles west of Kamloops which it will take two years to complete.

GREAT CONTEST WILL OPEN ON WEDNESDAY, FEBRUARY 1

Knights of Pythias of Greenwood Named for Piano by Miss Arnold--Creston Citizens Will Endeavor to Capture Both the Grand Prize and Organization Piano--Cranbrook and Fernie Will Name Strong Candidates.

The Nelson News $5000 voting contest will commence Wednesday morning Feb. 1. On that day the first vote certificates will be issued and subscritions from all sources will be entitled to the first period votes. No money will be accepted on account of the contest this week, but the candidates and their friends will have the opportunity to canvass for subscriptions to be turned in after the opening date.

Creston Wants the Honors.

Always alive to every opportunity to boost for their city and its citizens, the people of Creston have apparently resolved that the chance afforded by The News contest shall not be overlooked. Several nominations have been received from there already, and they include some of the most popular and representative ladies and gentlemen of that prosperous and rapidly growing community. The fact that the friends of some of the candidates have already sent in money to be credited on their subscriptions, and requesting that their favorites be given the votes, is ample evidence that Creston will be very much in earnest when the contest opens. Of course these over-enthusiastic friends were told that no money can be accepted until after Feb. 1.

Quite a number of Creston residents were in Nelson Saturday and they all agree that Creston will make strenuous efforts to carry off the big prizes. Delegates returning from the associated boards convention say that the work of the convention and The News contest were the sole subjects of discussion there last week, and the visitors were assured that if Creston did not win the grand prize it would be due to an earthquake, a tornado, or a tidal wave. A Cranbrook man, who is a booster for his city all the time, informed the Creston enthusiasts that the tidal wave would hit them all right and that it would be the flood of Cranbrook votes.

Fernie Will Be a Factor

A number of letters and messages were received by the contest office from Fernie Friday and Saturday inquiring about the candidates already nominated from there and asking if nominations will be open after the opening date. It was explained that candidates may enter at any time up to the close of the campaign, but that the reducing vote schedules make it important that the best work be done early in the contest. It seems to be the disposition of the Fernie enthusiasts to rally around the strongest available candidate, with the idea of keeping the Fernie vote solid for one person, rather than dividing it among two or three. In fact it looks as if the metropolis of the Crow will stir things up from the first day to the last one.

Miss Arnold for the K. P.'s.

A telegram was received from Greenwood last night to the effect that if Miss Marguerite Arnold wins the grand prize she will award the $500 Mason & Risch piano to the Knights of Pythias lodge of Greenwood. A letter which came in Saturday night contained the information that Miss Arnold may be depended upon to make a whirlwind race, and it is probable that it is the Greenwood candidate the Phoenix man had reference to the other day when he declared that his town would look for more dangerous opposition from Greenwood than from Nelson or the other points in this section.

OPERA HOUSE---SATURDAY, JAN. 28---

Seats at Poole Drug Store, Thursday a.m.
Prices $2.00, $1.50, $1.00 and 50c.

MARL DISCOVERED ON PROCTOR RANCH

Excellent Quality and Valuable as Fertilizer—Used Successfully to Plaster Barn.

(Special to The Daily News.)

PROCTOR, Jan. 22—Mr. Daniell, a well known resident here, who owns a large tract of land right in the town, has just recently made the discovery of a rich deposit of marl on his property. Mr. Daniell sent specimens of this marl to the Dominion agricultural farm at Ottawa, and when examined, it was found to be of an excellent quality. Mr. Shutt, who is the principal chemist at the Dominion experimental farm, strongly recommends marl as a fertilizer, and as much of the land in British Columbia is destitute of this necessary constituent of plant life, the discovery of this deposit of marl will prove to be a benefit, not only to this district, but to the whole province.

In an interview with your correspondent Mr. Daniell said: "I have not made any very careful examination of the extent of the deposit, but it appears to extend principally along the hill side and is found also on the adjoining property of T. G. Procter. I have dug down about three feet in several places and have found the deposit of excellent color."

Mr. Daniell has used this marl to plaster his barn and its appearance when dry is quite white. He intends using this marl to fertilize that part of his land where it does not occur, as it has the effect of sweetening the ground. It is invaluable where a potato crop is required as it prevents scab. If the marl is found in sufficient quantities it will be used as a fertilizer not only here, but shipped out to other districts, where it does not occur.

J. Tyson of Nelson, arrived here on Wednesday.

G. H. Fraser of Nelson, arrived on Wednesday and is employed by Sharp & Co., at the C. P. R. hotel.

Something Doing!

For This Week

All Boys' Suits and Overcoats At Half Price

All Men's Suits and Overcoats At Half Price

Great Bargains in Sweaters and Underwear
Dr. Jaeger's Goods Reduced 25 and 30 per Cent.

See Our Windows. Everything Must Go.

J. H. Wallace's Clearance Sale

506 Baker Street Nelson, B. C.

Mr. and Mrs. Peachy, who are old residents here, returned this week from Calgary, where they have been for some time. They are quite pleased to return to this favored climate after spending a time in the east. Mr. Peachy intends taking up land here in the near future, but for the present will occupy a house at Balfour.

H. Giegerich of Kaslo, arrived here on Thursday evening and left for Kaslo on Friday morning.

J. W. Cockle of Kaslo, arrived here on Friday and left for home on Saturday.

Miss Merryfield of London, Eng., arrived here on Thursday on a visit to her brother. She expects to spend the winter here.

The weather which has been mild and pleasant for the past week has turned colder today and there is every indication of more snow.

A very enjoyable whist party was given by Dr. and Mrs. Devlin at their home at Balfour on Tuesday evening. The entertainment took the form of progressive court whist, and the contest was entered into with great enthusiasm by all present. Mrs. Baxadell won the ladies first prize while Mrs. Reed captured the second. The gentleman's first prize was won by Mr. Pegg and the second fell to the lot of Mr. Edmonston. At the close of the whist drive dainty refreshments were served and all present report having spent a most enjoyable evening.

Mr. Walton, one of our merchants, went to Nelson on Thursday and returned the same day.

A. G. Gallup left here on Thursday to repair the telegraph line which had been put out of order by the recent snowstorm.

HEAVY SNOWFALL MAKES PACKING DIFFICULT

Nelson Man Taking Out Poles—Good Toboggan Road From Standard Mine to Silverton.

(Special to The Daily News.)

NEW DENVER, B. C., Jan. 22—W. H. Zwickey, manager of the Rambler-Cariboo mine passed through en route to Kaslo. He reports the mine as never looking better, lots of ore in sight and steady shipments going out all winter.

In Seven Minutes.

The champion bob-sleigh run of the Slocan is claimed by the Standard mine who have a good smooth road from the mine to Silverton winding around the mountain. It takes an ordinary walker one hour to walk up and John Vallance, the foreman, accompanied by A. L. McPhee, came down one day last week in seven minutes.

S. J. Towgood of Sandon was a visitor in town this week. He reports an unusually heavy snow fall in Sandon and vicinity making it particularly hard for packing. He has been taking out ore recently for Messrs. Black and Cameron of Sandon, who are operating the Evening Star on the north fork near Sandon.

P. J. Gallagher of Nelson, is taking out poles at Bogart's ranch across the lake and has a very well appointed camp.

HALCYON NEWS NOTES

(Special to The Daily News.)

HALCYON, B. C., Jan. 22—Andy Ward came in from his homestead at Albert point last Monday where he is doing a little improvements and trapping. Andy reports very little game in that region.

P. Levesque, the proprietor of the Union hotel at Revelstoke, and family are spending a few weeks at the San.

The telephone line between Halcyon and Blondin's ranch has been delayed owing to the amount of snow that has fallen during the last few days. Work will be commenced again in a few days.

Charles Skinner left Saturday for Fosthall creek, where he will spend the remainder of the winter trapping.

Mrs. R. E. McKitrick, the popular hotel keeper of Nakusp, was carried off the steamer Minto yesterday on a stretcher suffering from a serious double attack of sciatica, rendering her limbs helpless. Latest reports show a turn for the better.

Fierce storms have been raging on the lakes lately. The steamer Kootenay was unable to call last week. The tug Whatshan had considerable trouble towing barges.

A large cougar has been travelling around Halcyon lately, his tracks have been seen several times in the last few weeks.

Mrs. William Boyd is expected to return from California next week, where she was called away on account of sickness in her family. William Boyd paid a flying visit to Revelstoke last week and came back with a frozen ear.

ROSSLAND FINANCES ARE IN SATISFACTORY CONDITION

(Special to The Daily News.)

ROSSLAND, Jan. 22—The financial statement for the city of Rossland for the year 1910 has just been issued by the city treasurer, J. F. Collins, and from it one may gather that the city is in a fairly satisfactory condition financially. Liabilities include $207,000 for debentures for various undertakings, $3080 interest due debenture holders, $428.15 accrued accounts, $10.40 balance unexpended on trail to mines account, $32.65 trust account (tax sale). The assets include among the larger items, cash in office $209.31, cash in bank $1175.17, cash in bank trails to mine account $10.40, and cash in bank on sinking fund accounts $46,486.93; fire department equipment, $20,187.35; police department equipment, $246.61; office department equipment, $2197.65; sanitary department equipment, $287.80; board of works equipment, $518.31, and weigh scales equipment, $329.60; city sheds, $1008; cemetery and park, $4589.80; water works and supplies on hand, $68,696.57; unpaid taxes, sanitary fees, water rents, and school grant for last quarter, $14,659.90; board of works, streets and improvements, $43,011.56. The excess of assets over liabilities is $9458.40. The receipts for the year were $70,666.72, including $14,744.42 for fees of various funds; $22,163.30 taxes; $10,584.11 school tax; $6349.40 miscellaneous; $13,890.80 water rent. On the expenditure side the larger items are, school board expenses, including salaries, $17,190.33, fire department $6734.96, office department $2361.08, scavenging department $2183.35, board of works $6,231.31, interest on debentures $10,655, deposited to sinking funds $10,025.40, water works $3884.09. The balance on hand is $1384.48.

PRESENTS SACRED PAINTINGS TO ROSSLAND CHURCH

(Special to The Daily News.)

ROSSLAND, B. C., Jan. 2—St. George's church, Rossland, has become the happy possessor of what is probably one of the most beautiful sacred paintings in Canada which has been painted and presented by one of the foremost lady artists in England, Miss Ellen Wrightson. The lady, who has had some most striking pictures in the Royal Academy heard of the wonderful life and work of Father Pat and offered to paint three panels to fill the frame of the reredos which he erected at the back of the altar in the old church, and which was subsequently transferred to the new church erected to his memory. The subject chosen by the artist is the Saviour as the good shepherd, surrounded by His flock, and carrying a lamb in His arms, and the treatment is most beautiful and devotional.

FRUIT PROSECUTIONS

At the Victoria police court, before Magistrate Jay, Edward Plowright, fruit grower, Strawberryvale, and Fred Saul, fruit grower, city, were, on information laid by Dominion Fruit Inspector D. M. Robertson, each fined $10 and costs, or in default, one month's imprisonment for violation of the Inspection and Sales act, in not having their boxes of fruit properly marked in a plain and indelible manner, in letters not less than one-half inch in length, with their full names and addresses, the variety of the fruit and the grade. W. H. Langley appeared for the prosecution. Copies of the act explaining how the boxes must be marked and defining the various grades, can be had on application from D. M. Robertson, 237 Sixth street, New Westminster, B. C.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all druggists and dealers.

WHEAT MAY BE PUT ON FREE LIST

Report That Reciprocity Treaty Will Include Free Wheat—Canadian Millers Are Hostile.

TORONTO, Jan. 22—Whole of Canada today from the Atlantic to the Pacific is much exercised about a report from Washington that wheat will be put on the free list by the trade treaty which is in course of preparation at Washington today. The report is not definite but the rumor is sufficiently verified to get the Dominion talking. The free entry of Canadian wheat into the United States was one of the big things asked by the farmers' delegation the other day. Canadian millers on the other hand are not favorable on the whole. Robert Meighen of the Lake of the Woods Milling Co., is reported from Montreal this morning as saying: "Free wheat would be the most disastrous catastrophe that could happen to this country." Sir Wilfrid Laurier seen this morning, said that all power was in the hands of Messrs. Fielding and Paterson in Washington.

FOUNDATION DAY OBSERVED

BLOOMINGTON, Ind., Jan. 22.—With interesting exercises Indiana University yesterday celebrated the 92nd anniversary of its foundation. Prof. Edward A. Grosvenor of Amherst college delivered the principal address.

The Herpicide Girl Is Thankful

I am always grateful for real blessings, and I know of nothing that I need to be more thankful for than Newbro's Herpicide. Thousands of ladies not only in the United States but all over the world feel the same way about it. To this wonderful scalp and hair remedy they owe their soft, long, beautiful hair.

Mary J. Terry, of Lovejoy, Ill., writes: "My hair came out until there was just a scanty cover for the scalp. I tried everything I had heard or read about until I finally used Herpicide. There is nothing like it. My head is now covered with new hair. I shall forever praise Herpicide."

Most hair troubles come from dandruff. Newbro's Herpicide removes this dandruff by killing the germ which causes it. It also stimulates a flow of blood which nourishes the follicles. The scalp being healthy, the hair does not come out and the new hair is allowed to grow.

There are other preparations which they say are "just as good" as Herpicide. It is not advisable to try them. Instead of doing any good they may do positive harm.

No one is ever disappointed in Newbro's Herpicide. The results are always the same, always satisfactory as indicated by the fact that Herpicide has been sold for years and has thousands of satisfied friends. It is the only genuine, original dandruff germ destroyer. There is nothing "just as good."

One dollar size bottles are sold and guaranteed by all druggists.

Send 10c in postage for sample and book to The Herpicide Co., Dept. R., Detroit, Mich. The Poole Drug Co., Ltd., special agents.

New Westminster

To Be the Nucleus of a Great Industrial City, the Pittsburg of the West

Close upon the decision of the Canadian Northern to make their terminals just across the river from Westminster and their statement that in five years they will have a population of 25,000, comes the announcement of the Western Steel Corporation that they have purchased 1800 acres below the city on the south bank of the Fraser and will have a city of 50,000 people in five years

When the president of one of our great railway systems stated a few years ago that there would be mills, elevators, wharves and great industrial plants from Port Haney to the mouth of the river, 20 miles, it tartled even the optimists. Already this whole distance is sold by the foot frontage and most of it has been bought for industrial purposes.

New Westminster stands in the gateway to Vancouver, the central pivotal point from which all transportation lines branch out, with a network of fast electric lines in every direction, with splendid schools, colleges, exhibition grounds and beautiful natural surroundings.

The householder can buy everything direct from the farmers of the great Fraser valley in what is rapidly becoming the greatest city market in Canada.

Vancouver capitalists who are now putting up buildings in New Westminster claim that living is from 25 to 35 per cent cheaper in New Westminster than Vancouver. All these points count with the manufacturer. Consequently we say that no other city in Canada of 15,000 people has such magnificent resources, nor such certainty of rapid development.

We are still offering lots in our new addition between the cities, right on the edge of New Westminster, surrounded by car lines and railways, with sidewalks, streets, water and electric lines going in and over 100 houses to be built in the immediate neighborhood for only $300.

$20 down and $10 per month will secure you property that will earn you more every year than you will save by labor. Try to purchase several lots and have them all working for you. The only way you can lose is by putting it off until it is too late Our next addition will be $400 per lot.

SPORTING NEWS

CURLERS RETURN WITH MANY HONORS

Bring Four Pieces of Silverware Back With Them From Cranbrook—Winning Rinks

The majority of the Nelson curlers who went to Cranbrook for the big annual bonspiel of the British Columbia Curling association returned on Saturday night's boat and brought with them four of the coveted mugs put up for competition and one or two prizes for second honors in the various contests.

Bert Walley skipped the winning rink in the Grand Challenge and W. H. Wilson competitions; Chief Guthrie and his rink won the Hudson Bay cup; Vice-president Houston's rink carried off the B. C. Curling cup and was second in the All Comers event, in which rinks from Lethbridge and Calgary in addition to those from British Columbia, took part; Walley second honors in the contest for the Tuckett trophy, while Pete Hunden was second in a points contest.

Houston's rink which won the B. C. cup and the All Comers second prize was composed of Houston, Jones, Seaman and Revell; Walley in winning the Grand Challenge and the Wilson silverware was assisted by Robertson, Hunden and Proudfoot and by Bunyan, Smyth and Thompson in taking second place in the contest for the tobacco company's trophy. Guthrie's rink was Guthrie, Robertson, Jones and Revell.

Joe Thompson stated last night that the Cranbrook curlers excelled even the East Kootenay's well known hospitality in the manner in which they entertained their visitors. Every effort he said, was made to make the members of the rinks from outside points comfortable and the banquet on the last night of the affair was the last word in sportsmanlike hospitality.

AT THE RINK

There will be the usual two sessions of skating at the rink this afternoon and evening.

KENORAS GET THERE

KENORA, Ont., Jan. 22—The Kenoras defeated the Falcons of Winnipeg 8-3 in a good fast game Saturday night, which became furious in the second half. The half time score was 2-2 but the home team made conditions count in the last half.

CIRCLES WIN EASILY

The basketball game in the Y.M.C.A. junior basketball league played Saturday morning between the Circles (Capt. H. Nagle) and the Triangles Capt. B. Whitehead), the result was: Circles 6, Triangles 1.

ALL SET FOR BIG BOUNDARY CURLING 'SPIEL

(Special to The Daily News.)

PHOENIX, B.C., Jan. 22—The annual Boundary curling bonspiel opens at Grand Forks on Tuesday next. Phoenix will send three rinks, Greenwood three and Mother Lode one, while Grand Forks will place seven rinks in the All Comers competition. The last bonspiel was held at Phoenix.

GRAND FORKS DEFEATS GREENWOOD HOCKEY TEAM

(Special to The Daily News.)

PHOENIX, B.C., Jan. 22—At Grand Forks on Friday night the home team defeated Greenwood at hockey by a score of 4-0. This places Grand Forks and Phoenix even in the race for the league championship, each team having two wins and a tie to their credit. Phoenix goes to Grand Forks on Tuesday for the next game. A special train will be run.

PHOENIX HAS FIRST SKI CLUB IN B. C.

Officers Elected and Splendid Running Course Prepared—Will Send Man to Rossland Carnival

(Special to The Daily News.)

PHOENIX, B.C., Jan. 22—Phoenix has the first ski club to be organized west of the Rockies. Following are the officers: Hon. president, O. B. Smith; hon, secretary, T. A. Love; president, A. O. Johnson; vice-president, E. Engen; secretary, O. Nordin; marshal, M. Sortome.

A splendid running course has been put in shape near the C.P.R. depot at considerable expense and the members are now holding regular meets.

There are some particularly classy jumpers belonging to the club and it has been decided to send seven to the Rossland carnival. The following will probably go: E. Engen, E. Ness, A. Stenwald, P. Hansen, O. Nordin, Fred Carlson and Hilmar Bakke.

OLD COUNTRY FOOTBALL

LONDON, Jan. 22—Saturday's footer results were:

Scottish, Dundee 3, Rath Rovers 1.
St. Mirren 0, Hearts 0.
Motherwell 0, Aberdeen 1.
Falkirk 0, Celtic 0.
Kilmarnock 2, Airdrionians 1.
Glasgow Rovers 4, Hibernians 2.
Morton 2, Hamilton 1.
Clyde 1, Third Lanark 0.

Rugby.

Scottish Whites 26, Blues 19.
Northumberland 24, Durham 19.
Ulster 14, Leicester 8.
Harlequins 26, London Scottish 3.
Blackheath 40, Old Leisians 0.
Rosslyn Park 6, London Irish 9.
London Welsh 24, Old Whitcroftians 6

SPORTING SPOTLIGHTS

The members of the Ladies' and the Rovers hockey team who are to take part in the double header on Wednesday night with Rossland aggregations are meeting with good success in the sale of tickets for the event. There's nothing like a ladies' game to draw a crowd.

The Nelson curlers are just tickled to death with the reception accorded them on the occasion of their visit to Cranbrook and say that they never had a more enjoyable time in their lives.

The ice at the curling rink on Saturday evening was covered with a thin layer of water which prevented play. The sheets seemed to be hardening up a little last night, however, and it is hoped that the enthusiasts of the roarin' game will be able to enjoy a few ends tonight.

The management of the skating rink is to be congratulated upon the success attending the band concert at the rink on Saturday night. The large crowd of skaters present and the expressions of appreciation of the innovation heard on all sides should encourage them to make a Saturday night band a regular thing. The ice was pretty soft but the temperature is steading up again and a full six days skating is hoped for this week.

So the high school boys won from the Y.M.C.A. juniors on Saturday night. But the game was very closely fought and neither side ever had a chance to walk away Both teams are now eager for another match so that the superiority of one or other of the fives may be decided. Of course Dosey Newitt's absence from the high school team may have had something to do with the closeness of the score.

HIGH SCHOOL BOYS WIN CLOSE GAME

Scholastic Basketball Fiends Defeat 'Y' Juniors Only in Overtime Play Following Tie Score.

The Y. M. C. A. junior basketball team went down to defeat but not disaster in Saturday evening's contest with the High school (Red) team when they met in friendly contest to decide the merits of their respective organizations. The opinion was expressed and was shared by many that the game was the fastest and most interesting one to watch yet played on the gymnasium floor and both teams are to be congratulated on their knowledge of the finer points of basketball playing.

The closing score was 16-14 in favor of the High school team, and the close nature of the finish and equal ability of both teams is evidenced by the fact that at the call of time the score was 14-14 and the game was continued beyond the regular limit to enable the announcement of a winning team. The excellent team work of the "Reds" during the second half enabled them to pull up even with their opponents' score who in the first half had the best of the game. The checking throughout was splendid, and white and red were in close attendance on each other in every position but the penalties were few. The majority of the goals were won on the field play, A. W. Seaman for the winners, and Waldo Ferguson for the losers, securing the maximum number.

Each individual member of both teams played well and hard right up to the finish and the only point of criticism was in the shooting of the ball at the basket. Either team could have won on points if the shooting had been as good as their other play. Further practice would remedy this, and the player who is accurate and quick in his shots is worth his place on any team for that if for no other reason. Newitt was scheduled to play centre for the "Reds" but his recent accident at the High school when making chemical experiments prevented his appearance.

The line-up was as follows:

High School	Centre	Y Juniors
H. Gibbs		J. Ferguson
	Forward Left	
C. Grizelle		A. Graham
	Forward Right	
H. Pitts		W. Ferguson
	Guard Right	
W. Seaman		A. Emory
	Guard Left	
R. Decew		D. McQuarrie

James Thompson, the physical director, was referee and awarded an extra point to the Reds during the game consequent on a goal being scored from a foul of one of the team when shooting. Rev. J. P. Westman was timekeeper, and Dick Turner official scorer. There was a good attendance of parents and friends of the boys to watch their efforts.

HACK FAILS

BALTIMORE, Md., Jan. 22—George Hackenschmidt, the Russian wrestler failed in his attempt to throw Gus Schoenlein twice in an hour. He did not succeed in putting the Baltimorian's shoulders to the mat even once. The men were not off their feet five minutes during the entire hour.

BASEBALL MAGNATES' MEETING BROKE UP IN SQUABBLE

CALGARY, Jan. 22—The baseball meeting this afternoon broke up in a racket after 15 minutes discussion and there will be no more Western Canada league as it previously existed. There will probably be a split-up and an Alberta league taking in Calgary, Edmonton, Lethbridge and probably Medicine Hat as a fourth team.

The meeting was at loggerheads from the opening this afternoon. A wire was received from Saskatoon which stated that they would not pay their deficit until Zimmerman was handed over to them. It was then suggested that they be put out of the league. It was next proposed that the other club's debts be settled and the Brandon representative moved that drafts to be sent out be paid within 10 days and that a meeting be held in Winnipeg during the bonspiel. This was what really started the trouble.

Delegate Hornibrooke said that this was the annual meeting and that matters were supposed to be settled now. If it was proposed to hold another meeting at Winnipeg, Calgary would not be in the league. Shuster said Calgary was trying to hog the league. He said he did not think Calgary would be in the league and he would work to keep it out.

The Edmonton delegate was supporting Calgary and it is altogether likely that teams will split up as outlined above and there will be an eastern league composed of Saskatoon, Regina, Moose Jaw, while Brandon, Portage La Prairie and Winnipeg will likely constitute a western Canadian league with Weatherstone of Brandon as president.

Alberta cities consisting of Lethbridge, Medicine Hat, Calgary and Edmonton will form probably an independent league or an international league comprised of Alberta and Montana cities.

IS NOT NEGOTIATING

(Special to The Daily News.)

VANCOUVER, B.C., Jan. 22—Mayor Taylor emphatically denies the report emanating from Ottawa to the effect that negotiations are being carried on with City Engineer Kerr of that city to come to Vancouver.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists and dealers.

LADIES PRACTICE AT RINK TONIGHT

Prepare for Wednesday's Big Game With Rossland—How Rovers Will Go on Ice

The Nelson ladies' hockey team will hold their final practice between 7 and 8 o'clock tonight in preparation for the first game of the season which takes place on Wednesday evening when the Rossland ladies will be their opponents on the local ice. A big turn out of aspirants for a place on the team is expected and it is likely that the management will have no little difficulty in selecting a team as the amount of material available this season is greater than ever. Every practice develops new hockey stars among the members of the ladies' organization and it ought not to be difficult to get together a junior or intermediate team in addition to the senior organization.

As already announced there will be a double header on Wednesday evening, the Nelson Rovers being scheduled to play the Rossland juniors at the conclusion of the game between the green and white ladies and those from the Golden City. The lineup of the Rovers will be: Goal, Tom Boyes; point C. Grizzelle; cover, Taffy Cummins; rover, Fred Grant; centre, Jack Grant; left wing, Waldo Ferguson; right wing, Johnnie Ferguson. The Rossland boys have wired that they are bringing over a pretty strong bunch but the local fellows feel that with a lineup like the above they ought to be able to hold down anything in the way of a legitimate junior team that the mining city aggegation can bring down the hill. Bob Bishop will probably referee both games

WOULD SHUT OUT THE SALMO SALAR

Mr. Cockle Against Introducing Atlantic Salmon and Eastern Brook Trout

A strong position against the introduction of eastern game fish into Kootenay waters is taken by J. W. Cockle, the well known naturalist of Kaslo Mr. Cockle touched on this question at the associated boards of trade at Creston, when supporting the Kaslo resolution for a dominion fish hatchery for the Kootenay, a resolution which was unanimously adopted. Mr. Cockle stopped off at Proctor, to go up to Kaslo yesterday, but on the trip over discussed the question more fully, for publication:

"The report of the Board of trade meeting published in The Daily News of Jan. 18," said Mr. Cockle, "contains an extract of a letter from Hon. L. P Brodeur, containing his suggestion for placing fish fry of the Salmonidae specie in the Kootenay waters, and entirely disregarding the question of the erection of a local fish hatchery. His suggestion is that the department of fisheries will send supplies of eastern brook trout fry and European salmon for liberation.

"Regarding the first of these species, the eastern brook trout, Salvelinus Fontimalis, is a true char and as such is not to be compared either as a game or food fish with the true salmon. In fact, along the waters of the Kootenay, to suggest that any trout that might be caught was a char, would be to brand it at once as of sufficiently poor quality to render it uneatable.

"There are several physiological reasons why it would be unwise to introduce into the western waters any other species of Salvelinus than those already there, but I will not trouble you with them. Suffice to say we do not want any eastern brook trout.

Salmon Salar

"We next come to the suggestion of the introduction of the Atlantic salmon, Salmon Salar,. This grandest of fishes might, or might not prove adaptable to such environment as the water of Kootenay lake but if I may be allowed to express an opinion, it would have to be in the negative, for the reason that this salmon is a migratory fish, always running down to salt water, and returning again to spawn. I can only presume that the fisheries department is familiar with the conditions that exist along the waterway of the Kootenay river between Nelson and Robson, where the falls of the river are impassable for any fish. The supposition would therefore be that after reaching the parr stage, many of the fry would naturally seek the ocean and when returning would be greatly depleted by the salmon nets of the Columbia river fishermen in the states of Oregon and Washington, and the few which escaped would ultimately lose their lives in an attempt to scale the surging height of Bonnington falls.

Hatchery True Solution

The true solution of the question is build a hatchery and then, if you want to, send the fry of Kootenay's celebrated salmon to stock other inland waters as well as your own. Next to the Salmon Salar, our Salmo Kamloops, variety Kootenai, is the grandest fish in the world, and when we have an indigenous fish of such superb quality, both as a game and table fish, why ask us to accept anything as an experiment, which, if entirely successful would prove no better, and which would stand the chance of being a miserable failure?

"Moral: Propagate the fish which are indigenous to these waters and do it quick."

ROD AND GUN

Variety, and plenty of it, is the keynote of the January issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, of Woodstock, Ontario. The opening article deals with the outfit required for the back-woods and though sportsmen may differ on many of the trimmings, there will be a general agreement as to the essentials. This is followed by a number of personal experiences in hunting, fishing, canoeing and mountaineering throughout Canada, while a paper on the birds of Manitoba and some light verses add materially to the interest of the number and recommend it as one in which sportsmen of all tastes may find something which cannot fail to prove both pleasurable and profitable to themselves. There are a number of items recording occurrences out of the common, showing how vastly experiences in the woods may differ and others reminding sportsmen of similar events on their own trips. The whole is redolent of the outdoors and must act like a tonic in the wintry weather, reminding sportsmen of the joys they have had and those which they are anticipating with the keenest of pleasures in the not far distant future.

ATHLETIC WORLD

The January number of the Athletic World, published by W. J. Taylor, Limited, Woodstock, Ontario, just issued, not only maintains but further develops the national sports policy laid down on the inception of this highly creditable monthly. The seasonable sports treated, the excellent articles pertaining to the important phases of outdoor pastimes and the official information given tell how great a want in the sport life of Canada is being filled by the Athletic World. Its pages are rich in illustrations and timely discussions, making it one of the best yet issued.

EXEMPLARY SENTENCE FOR VANCOUVER HOLDUP ARTIST

(Special to The Daily News.)

VANCOUVER, B.C., Jan. 22—Richard Grey, the holdup man who was captured a few weeks ago near the Vancouver hotel by a man he attempted to rob was yesterday sentenced by Judge McInnes to 15 years in the penitentiary and 20 lashes. His pal, Scott was sent up for seven years.

MONDAY, JANUARY 23.

INDIAN RESERVES

Throughout southern British Columbia there are a number of Indian reserves the population of which has diminished until in many cases a few families or even only half a dozen individuals are occupying choice areas of land that might support a comparatively large number of people. In some cases these areas are within city limits or close to them.

The Songhees reserve is an instance. It was practically in the heart of Victoria. A similar reserve is to be found in or at Vancouver. Others might be mentioned less striking but not less inherently absurd.

There is no particular reason why this state of affairs should be allowed to continue in any case until the resulting ill-effects become as acute as in the case of the Songhees reserve. The disposal of that land would have been much easier had it been undertaken earlier. A general policy might be adopted of clearing up the Indian title to reserves whenever the area of a reserve comes to be out of reasonable proportion to the number of Indians upon it or whenever its value is out of reasonable proportion to the use they make of it.

THE NEW CANADIAN NATION.

Three hundred thousand immigrants will come to Canada during the present year, says the Minister of the Interior. He should be able to make a good guess; and if his estimate may prove over the mark it may also prove to be under.

With the volume of immigration that has come in for some years and that will undoubtedly continue for many more years, the composition of the Canadian nation has much changed and will be in a sense transformed. Three hundred thousand people is a population equal to that of the whole province of British Columbia, and is about equal to the population of Alberta. It is much more than the population of Manitoba or Saskatchewan was but a short time ago.

In the prairie provinces ten or fifteen years ago the population was mainly drawn from eastern Canada and particularly from certain parts of Ontario which in turn had been settled chiefly from Scotland and the north of Ireland. The western Canadians of that time are but a small percentage of the population of today. They have been reinforced by further immigration from the eastern provinces; but today nine-tenths of the people are from the British isles, from the continent of Europe or from the United States.

They have been Canadianized or are becoming so. This has been possible partly because cabinet ministers, school teachers and others occupying what may be termed formative positions have been and are mainly native Canadians; and partly because as each year's influx was assimilated it became itself an assimilating force. Still the composition of the people has changed. The Canadian nation of twenty years hence will be of different stock, will have come from different homes, and will be the product of a different heredity and environment, as compared with the Canadian nation of twenty years ago.

The eastern provinces were settled mainly from two sources: Loyalists of German and of British stock came from the American colonies. Other settlers came from the British isles. There were practically no immigrants from the continent of Europe except a few Prussians,—no Hungarians, Poles, Galicians or Russians. The immigration from the British isles included some settlers from England but was mainly from Scotland and the north of Ireland.

Today the immigration we get from the United States is partly of the original stock but very largely also of Scandinavian origin. The immigration from the British isles is now mainly from England; very few settlers on the farm now come from Scotland or Ireland. In addition there is the continental immigration.

Broadly speaking the new Canadian nation will have a smaller element of Scotch and north Irish origin and a larger element of English and Scandinavian origin. There will also be a larger element of American origin, that is of stock which has lived in the United States for several generations. And there will be a small percentage of east and south European origin. Those of us who may be here twenty years from now may find it interesting to observe what corresponding changes may take place in national characteristics, temperament and customs.

TEN YEARS AGO

Extracts From The Nelson Daily Tribune of Jan. 22, 1901.

Born in Nelson on Jan. 21 to the wife of George Hall of Gore street, a son.

Privates John Sims of Nelson and Ben Huckell of Victoria, who went to South Africa with the second contingent and who have been in continual active service at the front during the past year, arrived in Nelson last evening.

The consumption of coal in Nelson at the present time is about 30 tons per day.

COMMUNICATIONS

THAT PAPER APPLE INCIDENT

To the Editor of The Daily News:

Sir—If the Victoria Times stated on Jan. 7 that no prize fruit went from the first Canadian National Apple show at Vancouver, I am able to declare that, so far as the Kootenays are concerned the statement is absolutely false. A very large number of boxes of apples which had won prizes at that show were selected and the names of the growers booked in my presence by Messrs Scott and Brandreth. I can name 83 boxes of fruit grown by Messrs Doyle & Macdonald, Bealby, James Johnstone, Appleton, Spiers, Rutherford, A. Scott, Fauquier and Tripp which were sent to London, every box of which won a prize, either singly or as part of a three box, five box or ten box competition.

The fons et origo of the statement would appear to be that indicated by Mr. Johnstone. F. R. E. DeHart, manager of the Kelowna exhibits at Vancouver when asked by Mr. Scott what apples he would be able to contribute to London, replied that the matter had been under discussion by the Kelowna board of trade and they agreed that, as Kelowna in previous years had (he alleged) contributed 75 per cent of the fruit which was exhibited at the Royal Horticultural society's colonial exhibitions, they had resolved that unless a Kelowna man, or at any rate an Okanagan man was sent along with it that time (December, 1910) not a single box of Kelowna fruit would be given to the provincial government. And as a matter of fact not a single box of Kelowna apples did go to London in December, 1910. What was the result? The British Columbia government exhibit was awarded the Hogg gold medal, a unique distinction, never before awarded in the history of the society—a distinction only awarded for extraordinary merit. If Mr. DeHart's statement that in preceding years Kelowna contributed 75 per cent of the British Columbia government's display, were correct, it is fair to argue that that exhibit would have been of higher quality had the Kelowna proportion been smaller, seeing that, when Kelowna sent no fruit at all the British Columbia government exhibit won the very highest award obtainable, an award of altogether distinguishing value. But Mr. DeHart's statement, that Kelowna contributed in previous years 75 per cent of the total exhibit sent by the provincial government is incorrect. Mr. Scott stated to me and to Mr. Honsberger that Kelowna's contribution in years preceding 1910 was about 25 per cent of the whole. Even so, my argument still holds good, but Kelowna's credit is higher than Mr. DeHart's erroneous statement would claim for her. Finally, accepting for the moment the statement of the Victoria Times as correct, what does it amount to? It amounts to this: When the British Columbia government with fruit not of the highest quality (all prize fruit according to the statement being withheld) wins the Hogg gold medal, what award would have been adequate as recognition had they sent the very best fruit that the province produces. It's an ill bird that fouls its ain nest. From this one statement of the Victoria Times deduce the accuracy of its other statements.

J. T. BEALBY.

Nelson, B.C., Jan. 18, 1911.

MRS. ROSS ILL

(Special to The Daily News.)

VICTORIA, Jan. 22—The wife of Hon. W. R. Ross, minister of lands, is ill in the hospital.

The contract has been let to Carlin and associates for the building of the first section from Esquimalt to Shawnigan lake of the Victoria & Barclay Sound railway, owned by the Canadian Northern.

It is in time of sudden mishap or accident upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all druggists and dealers.

Minard's Linament Co., Limited,
Gentlemen,—I have used MINARD'S LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent physician of Montreal, who called it the "great Nova Scotia Linament." It does the doctor's work; it is particularly good in cases of rheumatism and sprains.
Yours truly,
G. G. DUSTAN,
Chartered Accountant.
Halifax, N. S., Sept. 21, 1905.

BUILDING STILL REMARKABLY ACTIVE

Winter Causes No Letup in Building Activities—West Has Splendid Showing.

The winter season letup in building operations held in anticipation by the more pessimistic has as yet failed to put in its appearance. Judging from the recent state of activities, the Canadian builder no longer cares the snap of his finger for the frost, the snow or the sweep of the wind. Experience has taught him to meet weather conditions as they come and his work is no longer confined to specific seasons, but one that keeps him busy from one end of the year to the other. Nothing more clearly demonstrates this than the comparative figures for the month of November, submitted to Construction from 24 important centres throughout the Dominion. These figures show a most gratifying state of progress on practically all sides, with individual gain in some cases such as has never before been attained in the history of the community they represent.

An average gain of 64 per cent, representing an investment of $8,051,419, as against $4,719,564 in the corresponding year of 1909, tells them the story of the month's progress in brief, and while the amount noted is slightly less than that recorded for October, it nevertheless indicates a growth that is well in keeping with the remarkable development that has characterized the season throughout.

Possibly the most pronounced feature of the month was not so much the universal activity that obtained in general, as it was the heavy proportionate gains made in all parts. Toronto, as is its usual wont, stands well at the head of the list with an amount of $2,040,030, a splendid total to top off the heavy successive gains already to her credit; while Vancouver registers an amount for permits issued of $1,897,895, which is a most remarkable showing in view of this city's past performance. These totals are the largest reported for the month, and the gains are 5 per cent and 211 per cent in order named.

Although three more losses are noted than in the previous month, it must be remembered that the number of cities reporting is again one-third as great. Apart from Halifax's loss of 76 per cent and the decrease in Lethbridge of 27 per cent, the falling off, collectively, little affects the exceedingly active conditions which otherwise prevailed. The highest increase for the month goes to Port Arthur, whose mighty development is reflected in a gain of 1,263 per cent, representing an investment of $182,016 as compared with $13,350 in the month of November, 1909. Ontario, in fact, turned itself to good account in practically every direction. Berlin recorded an increase of 365 per cent, Hamilton a gain of 44 per cent, and Brantford is ahead by 162 per cent. A big advance is also noted in the case of Fort William, which registered 198 per cent, and this is equally true of St. Thomas, which annexed a gain of 432 per cent. Fort William's total amounts to $411,480, which is $273,515 in excess of her previous corresponding figures. Again Ottawa, which witnessed operations to the extent of $230,100, has an increase of 12 per cent; Windsor records a gain of 27 per cent, and Kingston, which does not submit comparative figures, reports operations of $23,965. The only two reversals noted in this province occur in the case of London and Peterboro, but considering the investment in either cases these declines are of very small proportions.

In the western section of the Dominion the headway made was equally pronounced. Aside from Vancouver's phenomenal upturn previously noted, many of the cities reporting forged ahead in a most substantial manner. Especially can this be said in the case of Calgary, which undertook new work amounting to $590,604, equal to a gain of 197 per cent. This total, which is slightly in excess of that noted in the previous month, speaks volumes for the wonderful development which this city is experiencing. Edmonton, where a falling off of 16 per cent is noted, was, however, less fortunate; as was also the city of Lethbridge, whose decrease has been previously stated. In Saskatchewan, both Regina and Moose Jaw slightly topped their figures for the same period last year, the investment in each case being approximately $50,000. Prince Albert sends in a stated amount of $240,000 without corresponding figures for the previous year, while Saskatoon, which issues permits aggregating $184,210, shows a gain of 647 per cent. Substantial strides were also made in Winnipeg and Victoria, which have to their credit gains of 27 and 94 per cent in the order named.

Berlin	$ 27,950	$ 6,000
Brandon	4,400	6,430
Brantford	98,400	37,550

WILL HOLD ANNUAL MEETING MONDAY

Shareholders of Street Railway to Gather to Receive Reports and Elect Directors

At a meeting of the directors of the Nelson Street Railway company held in the offices of the president, J. E. Taylor on Saturday afternoon, it was decided that the annual meeting should be held on Monday next, Jan. 30. The place will be one of the halls in the Eagle block.

At this meeting the auditor's report on the finances of the company will be presented and the election of directors will also be brought up for consideration.

PAN HELLENIC UNION PROTESTS TO PRESIDENT

NEW YORK, Jan. 22—A mass meeting convoked by the Pan Hellenic union was held here today to protest against the alleged intention of European powers to hand the island of Crete over to Turkey. Resolutions were adopted calling upon President Taft and congress to state to the powers that the interests of peace demanded that Crete be incorporated with Greece.

Gasoline Engines

MARINE AND STATIONARY

If you want an engine with the power, high class material and first class workmanship, call and inspect the Barber. They are in a class by themselves. You don't know the pleasure of boating until you install a Barber engine. They are built in all sizes from 1 to 6 cylinder, 2½ to 100 H. P., high speed, medium or heavy duty. Call or write for catalogue, and let me quote you prices on either a marine or stationary. They are a high grade engine, at a reasonable price, and they are guaranteed to do their duty.

I keep a full supply of dry batteries, direct from the factory. I test and guarantee them to register over 20 amperes before leaving the store; also a variety of pocket flashlights and batteries, and everything for motor boats.

DECLARES DIVIDEND OF TEN PER CENT

Meeting of Directors of British Columiba Copper Company—Second Dividend Paid

(Special to The Daily News.)

PHOENIX, B.C., Jan. 22—At a meeting of the directors of the British Columbia Copper company in New York on Wednesday an annual dividend at the rate of 10 per cent was declared, payable on Feb. 1 next.

As the company has an issued capital of 503,000 shares, par $5, the disbrsement next month will amount to $62,875. This is the second dividend to be disbursed by the British Columbia Copper company, the first having been disbursed in September, 1907, at the rate of 40 cents per share. The present dividend, when paid, will make the total amount returned to shareholders by the company $264,075.

During the month of December the net earnings of the company amounted to approximately $25,000, as compared with $35,221 in the previous month. A considerably larger tonnage of low grade ore was run through the smelter in December than had been customary. This brings the total net earnings of the company for the year 1910 up to $277,686.

For the week ending Jan. 21 the company's smelter treated 12,215 tons of ore as follows: Mother Lode 6802 tons; Jack Pot, 591; Rawhide, 4350; Napoleon 472.

CREATION OF PEERS IS NOW IMPROBABLE

Home Rule is Inevitable Says O'Connor—Negotiations Will be Difficult But Solution Expected

(By T. P. O'Connor.)

LONDON, Jan. 22—The first meeting of the first cabinet council marked the real beginning of active business in the great political battle which will come to a crisis in the next parliament. This entrance of realities into politics has done much to end the era of speculation and flapdoodle threats by the Tory party.

Already the situation is much modified. For instance, the Ulster bluster about armed resistance to home rule got a deadly blow through the special correspondent of The Daily Mail revealing that all of the stories about the purchase of arms on the continent were fabrications. The signs indeed multiply all round that home rule is inevitable and that the chief business of the Tories will be to arrange such terms as will secure equality and justice to the Protestant minority. No such guarantees are necessary, as a matter of fact, but the Irish leaders are ready to accept any proposal in their desire to reconcile all Irishmen and to begin home rule with a united national effort to rebuild the Irish nation.

Lord Courtney Accepts

The most remarkable incident of this week was the letter of Lord Courtney formerly deputy speaker of the house of commons, and one of the most important Liberals who split with Gladstone and home rule. Lord Courtney now accepts home rule as near at hand and only stipulates that proportional representation—his favorite policy for many years—should be given an experiment in Ireland.

Mr. Redmond speaking at a great banquet in Dublin given to celebrate the success of his mission in America, gave a cordial reception to this suggestion. It is remarkable that without special pressure by the Irish party or any large change of views, the Liberal Irish leaders having had only a few communications for a week, everybody accapts the proposal that the home rule bill be made the first business of the session of parliament next year.

The Tories attempted to make a diversion and trouble by suggesting that such a priority of home rule over the Welsh church disestablishment measure might cause a revolt of Welshmen but the Welshmen repudiated these reports. In a couple of weeks from now Mr. Redmond and the Liberal leaders will certainly be in consultation in reference to the details of the new home rule bill. The negotiations are not without difficulties, especially in reference to the new financial arrangements between the two countries but with good will and good sense on both sides and the immense bond of a common campaign against the house of lords, there is little doubt that the two sides will find a satisfactory compromise.

Insist on Referendum

The feud among the Tories has reached a somnolent stage. Apparently Mr. Balfour is insisting on the immediate acceptance of the policy of a referendum and the protectionists are agreeing but on the condition of regarding the whole question as academic and open till the Tories get into power again, when it can quietly be dropped out. Evidently the Tories are disorganized and divided and do not show any signs of putting up any big fight on the lords' veto.

The government will find the preamble of the bill promising a reform of the house of lords a difficulty with its own party and a weapon in the hands of the opposition, but here again the importance of the house of lords' issue will enforce discipline. All sections of the coalition and even the Laborites may agree to allow the preamble to pass as a pious opinion. The creation of new peers to swamp the lords is believed every hour to be more distant.

Ireland Jubilant

I have just returned from a brief visit to Ireland. I found everybody there in excellent spirits, partly because of recent events and the approach of home rule and partly because of immense triumphs over the O'Brien-Healy factions. All of the Liberals are equally optimistic and in short, the new session of parliament opens in higher hopes than for any time since the Gladstone and Parnell settlement for the Irish problem.

N. L. U. IS TO HAVE PAID PRESIDENT

He Will Get Five Hundred Per Annum—Clubs Will Forfeit Bond if Break Engagements

MONTREAL, Jan. 22.—Hereafter the National Lacrosse union is to be ruled over by a paid president, who will name the match officials, prepare the schedule, suspend players upon reports of referees, collect fines, etc. The new man is to be paid $500 a year for his services, but no appointment was made, the matter being left over for a meeting to be held here next Saturday. Outside of this, the most important matter discussed at Saturday's meeting was the proposition to have each club put up bonds of $1,000 to be forfeitable to the union in case it wilfully violates the constitution and bylaws or fails to keep engagements, save when prevented to do so by circumstances over which it has no control. Eventually the amount of the bond was reduced to $500.

W. E. Foran of Ottawa, put up a hard fight against the appointment of a paid president, but the sentiment of the meeting was distinctly in favor of the change. When the president is unable to act, his place will be taken by the honorary president, Pete Murphy, of the Shamrocks, was named to fill the position.

The reserve investment was left over until the annual meeting, but the contract-jumping rule was amended so that the players who went west can return. The clause forbidding clubs from paying fines imposed upon players was dropped, it having been found of no effect. The only change made in the playing rules was a rule providing that a player of the opposing side may not go within the goal crease; nor may he check the goal tender within the goal crease.

OTTAWA WINS MOST STUBBORN GAME

After Furiously Fast Struggle Beat Canadiens in Dramatic Overtime Play LeSueur's Great Play

OTTAWA, Jan. 22—After the most stubbornly contested struggle witnessed in Ottawa since the memorable match against the Kenora Thistles in 1905, the Ottawa hockey team defeated the Canadiens of Montreal at the local rink on Saturday night. It was not until 20 minutes overtime had been played that the peerless aggregation which wears the red, white and black succeeded in beating the fast French Canadians, a shot by Jack Darragh, carroming against the skate of Walsh, landing in the net.

The final score was 5-4. Seven thousand spectators witnessed the game, which for excitement had anything previously played this season completely eclipsed. It was certainly the fastest, though not the most brilliant match ever played in Ottawa. Close, hard checking, coupled with the remarkable speed of the visitors made it absolutely impossible for the homesters to scintillate with their usual team work.

The Canadiens have never been able to wear medals for combination and the three or four men attack system which the Ottawas are rapidly developing. Thus on this account it was a struggle in which individual effort predominated. Furiously fast at all times it kept the rink full of spectators on the verge of nervous collapse.

The wonderful rally of the visitors in the third period, the gruelling overtime and the dramatic climax which followed the breaking of the tie, contributed to a game which is not likely to be forgotten for years to come. In the third session and even in the first minute of the extra period, it looked as though the Ottawas were doomed to defeat, the phenomenal play of Lesueur and Walsh saving the locals.

LeSueur Saves the Day

On one occasion Newsy Lalonde of the visitors dodged both Shore and Lake and dashed in on LeSueur. If Lalonde had scored everything would have been over and the Ottawas would have been obliged to suffer defeat on their own ice. But LeSueur rushed out of goal and effected the most sensational save of his career. Lalonde threw up his hands in despair when he realized that the Ottawa goal tender had robbed him of undeniable fame. Subsequently the Ottawas pulled together and attacked the citadel of the habitants with such speed and determination that it was only a quesion of time when they should settle the issue.

Condition had a lot to do with the disposition of the spoils, for while both teams were exhausted to the point of dropping, the Ottawas in the overtime, when the game was really won and lost, exhibited the greatest staying powers. It was nevertheless a grand showing for the French Canadians in Ottawa and a great victory for the home team.

HOODOO IS TOO MUCH FOR QUEBEC

Are Beaten by Wanderers Five-Three—Quebec Made Mistake in Taking off Mallen

QUEBEC, Jan. 22.—The Quebecs were unable to pry themselves apart from the hoodoo influence which the Wanderers always exert upon them, and the locals were accordingly beaten by the score of 5-3 on Saturday. It is a singular fact that the Quebec team, which has at various times beaten the very best teams in the Dominion, have never been able to pull off a victory over the Wanderers, either at home or abroad.

Quebec played good hockey but in the opinion of hockey players very bad judgment was exercised in taking off Mallen in the second period, this taking place only five minutes after he had scored one of the prettiest goals of the match. He was replaced by Joe Hall, who was utterly unable to do anything owing to his injured shoulder, and who only lasted for a brief period. Joe Power took his place, but the latter could not warm up speedily enough for the high pitch at which the game was then travelling. While Quebec might not have won had the changes not been made, the general opinion is that they would have made the visitors hustle harder to win and that they would have had to score more goals than they did to win.

The Wanderers did not give any evidence that they had gone back to any great extent, and they put up a hard, plugging game, keeping even with Quebec in the early stages and pulling ahead in the latter. The game was fast and exciting at all times and in doubt for a long period. The offences were not serious.

Houses for Sale

We have the choice of the whole city. If these don't suit call and see our list.

Four roomed cottage on four lots, no hills to climb. All lots clear and make fine garden; chicken houses. Eight minutes walk from postoffice. Can be bought for the price of the lots; $1350, on very easy terms.

Fine home on Vernon street, 3 minutes from postoffice. Fine view; seven rooms and in A1 condition. This can be had with or without furniture, $3500. Owner will accept very reasonable terms.

We have several very fine 2 acre lots adjoining the city limits. Some of them highly improved. They are good buying. Enquire.

Men from the Prairie

We have lived there ourselves and know what you want. Come and see our holdings. If we have nothing to suit you you can get reliable information to reward you.

We are about the oldest established firm dealing in these lands and consequently have a wide experience and knowledge of the country. Call and we will be glad to give you any information about land in almost any section of the Kootenays. Here are a few choice selected buys:

10 acres at Balfour, near C.P.R. hotel, all good land and rich soil. Fronts on the lake and about one mile from Proctor. Boat lands at property and postoffice about 100 yards distant.

Several 10 acre lots at Lancaster—partly improved and in one of the best ranching districts in the Kootenay.

10 acres at Grey's creek, fronting on the main lake. Easily cleared and land is all occupied adjoining.

Crawford Bay—We have the land for sale which lies nearest the lake on level land, and adjoining the Burden ranch and sawmill. This we can sell at less than other owners are holding two miles from transportation in the bay.

We have numerous other equally excellent properties and it would pay the land seeker to investigate our list before buying.

POOR DEMAND FOR WHEAT

WINNIPEG, Jan. 22.—Cables came unchanged and there was a poor demand for wheat. Offerings from Argentine were fairly liberal on the British market, and on this side of the water there was a general weakness of tone.

Scares the Bulls

Minneapolis had a slump, May dropping 1¾c and July 1½c to 1⅝. Chicago May was down 1⅜c to 1½c, July and September 1¼c. This weakness was due almost entirely to the fear that the duty will be removed, which would, of course, lower the price of American wheat. It is considered very doubtful that this removal will take place, but the mere possibility of it is sufficient to take the starch out of the American bulls.

The Winnipeg market was very stagnant until about 15 minutes before the close, when it sold down to 99c and the bulls made a frantic effort to get it back, but to no purpose, the bears, encouraged by the American break, stood pat, and the close for May was 98¾c, and for July 99⅞c bid. The oat market was unchanged to ⅛c lower. May flax dropped 8 cents and July 5 cents.

HEAVY DEALING IN BONDS

NEW YORK, Jan. 22.—Improvement in the investment demand from capital went on last week, though in a more moderate degree, and afforded a basis for some operations in stocks. The tendency was most strikingly reflected in the bond department of the stock exchange itself, the volume of dealings swelling to a daily average seldom equalled in the last year. Each day brought its announcement of the sale of new bonds.

Advices from abroad showed an active interest in foreign banking circles in the forthcoming New York city bond issue. Quotations for the new bonds, when issued at the stock exchange at a premium, foreshadowed the success of the flotation. The investment demand was fostered by the relaxing money market, which was influenced by the heavy influx of funds to New York from interior points.

SPIRIT OF PROGRESS INVADES ST. JOHN

May Adopt Commission Form of Government—Great Drydock in Prospect

ST. JOHN, N.B., Jan. 22—The latest evidence of the new spirit of progress that has taken possession of the people of St. John is found in an agitation for the adoption of the commission plan of city government. At present the city is governed by a mayor and 17 aldermen. Thirteen of the aldermen are elected by the ward system and four are elected at large. The aldermen receive $200 per year and the mayor $1600. The system has outgrown its usefulness and there is now a general determination to bring about a change. The question was taken up by the advertising committee of the board of trade, which entered into correspondence with more than 60 cities in the United States having the commission plan of government and received from these a mass of valuable information. This was carefully studied and the committee submitted a report to the council of the board, urging that steps be taken to have a vote of the people on the adoption of the commission plan in St. John. The council of the board endorsed the report and sent it to the city council urging that authority be secured from the legislature to take a plebiscite at the time of the next civic election in April. The city council this week has agreed to ask for power to take the plebiscite. Several other schemes have been suggested including one for a board of control and another for a city council of smaller membership, but public opinion very strongly favors the commission plan. At all events there will be a general shaking up and the citizens are giving more attention to the question of civic government in these opening days of 1911 than they have ever given in the past. It is essentially a business men's movement, aimed at providing a system which will facilitate the development of industry and growth of population.

Bank Clearings

The story of the bank clearings is pleasant reading for the citizens of St John. There was an increase in the clearings in the city last year of $5,000,000 and they have more than doubled in the past ten years. Making a comparison with the sister city of Halifax, it is shown that while the increase at Halfax in the last four years was a little over $2,000,000, the increase in St. John was more than $10,000,000. Taking up the clearings for the first week of this year it is found that St. John stands third among all Canadian cities in the percentage of increase in bank clearings over the first week of 1910. The percentage of increase was 39.97 in Vancouver, 36.42 in Edmonton and 27 in St. John. Speaking of banks, the number of these institutions in St. John continues to increase. Following the announcement that the Merchants' bank of Canada had purchased a building, and opened a branch, came the Union bank of Canada which also has secured premises and is opening a branch. Then the Traders' bank has been looking over the situation and it is also rumored that the Imperial is looking this way.

The prospect that work on the construction of a great dry dock at St. John will be begun at an early date is improving. The Imperial Drydock company which was organized at St. John some years ago with a capital of $1,250,000 is now asking authority from the legislature to increase its issue of bonds to $3,500,000 for the purpose, it is stated, of constructing a drydock at this port. Those interested in the company state that they will probably construct a dock of the first class at an expenditure of $3,000,000 or more. Of course the federal government must be heard from before the project takes final shape but it is believed satisfactory arrangements can be made.

The Canadian Pacific railway company is making an effort to secure more property adjoining that which it has lately purchased at the head of the harbor and if this property is secured the expenditure by the company in terminals will, it is said, be greatly increased. It is at this point the company will make provision for docking its Bay of Fundy steamers and handling its local Nova Scotia trade. To provide such facilities as it requires will involve a very large expenditure and will completely transform the appearance of that locality.

Another interesting development is the purchase by a company of the New Victoria hotel on Prince William street which will be converted into a modern apartment house, with rooms single and en suite and with a dining room and general rooms for the convenience of the tenants. This is a entirely new departure in St. John.

The activity in real estate in St. John continues. There is an especially active movement on the eastern side of St. John harbor east, where it is expected the coming of the Grand Trunk Pacific and the construction of the dry dock will lead to the building pu of a new town. At present there are merely scattered houses in that vicinity. The street railway company has announced that it will this year extend its line to Fernhill and also along the Crouchville road, where the new town is expected to be built and this fact alone would considerably increase the value of real estate there. In the city itself property is held at a much higher price than formerly. The historic building on what is called Chubb's Corner, near the post office, has just been purchased by a syndicate which talks of installing an elevator and modernizing the structure, which is now occupied by brokers, insurance men and lawyers, with a bindery on the top floor.

Permanent Streets

The city of St. John will continue this year the policy inaugurated last year of carrying on a system of permanent street construction. In addition to whatever sum is expended on permanent paving the sum of $100,000 has been set aside for street repair work. Another forward step is being taken by the safety board of the city in the revision of the city's building laws. With regard to the fire and police departments of the city it is noted that the expenditure on these two departments has been doubled in the last ten years.

A number of large industrial propects appear to have been advanced a stage during the last few weeks. The Atlantic Sugar Refining company, which is to build a great refinery at St. John, is advertising for a plant to be installed and this is regarded as conclusive evidence that the company means business. Its plans and specifications have already been filed. It is announced that the Grand Falls Power company, in which Sir William Van Horne is largely interested, has secured the rights of the rival company, and is preparing to begin development of a great pulp and paper industry at the Falls. At the last meeting of the city council of Moncton the company concerned in the project assured the council that natural gas would be brought into Moncton from the Albert oil wells next summer and that the company intended also to go on with the construction of the proposed street railway in the town.

ENGLAND'S PROBLEM

"The main trouble with England is people," says Augustus Bridle, writing in January Canada Monthly (formerly Canada-West), and what Mr. Bridle has to say in proving it sounds plausible at least. Mr. Bridle says:

"It was a poet who said, 'England, with all thy faults, I love thee still.' Perhaps with fewer faults, he would have loved her less. England is marvelously human.

"The last night at sea and near the lights of Lundy, a Bristol alderman said, 'Well, we shall soon be smelling people.' England's greatest problem is people. With an area the fifteenth part of Canada and five times Canada's population, she may be said to have reached the limit of human occupation long before Canada became a self-governing colony. The ultimate salvation of England on the economic side will largely parallel what happened to Egypt in the time of Moses, provided a promised land be found—which we in Canada think has already been done. That, however, is a phase of imperialism which is the luxury of vague mind.

"The tourist will tell you there is nothing particularly wrong with England. Where else may he see so much of the poetry and humanity of the world in so small a space at so slight a cost. There is London, the Vast Unconscionable, with a population almost equal to that of all Canada; the huge heart of an old and strange land. For a penny from the top of a motor-bus from Trafalgar Square to the Bank of England—the greatest whirlpool of traffic in the world—he may see what the Strand is and what Fleet street, look at St. Paul's and Newgate, be carried the length of ancient Chepe, and part way skirt the tawny tide of the Thames. A miracle of compacted history and romance, London known she is the riddle of the nations, the colossal human accident that looks like a law. With the superb disdain of a leviathan she plows along through the centuries, careless so long as the sea is big enough to feed her. There is no man living who knows London, not even the taxi-man. Neither is there any that understands England. There are several millions in England who have never seen London, millions in London who have not seen England, when from the heart of the one is only a day's journey to the remotest edge of the other."

CALGARY STREET RAILWAY IS PROFITABLE VENTURE

CALGARY, Jan. 22.—The annual report of the street railway has been handed to the city commissioners by Supt. McAuley and the figures show a profit of 11.5 per cent of the net earnings over the fixed charges, the net earnings over operating expenses was 20 per cent. The street railway employees are now receiving a bonus for December amounting to over $5 each.

NEW ZEALAND'S SUBSIDY

WELLINGTON, Jan. 22.—Interviewed today concerning the Vancouver mail service, the Right Hon. Sir Joseph Ward, the prime minister, said that New Zealand's subsidy to the service was $100,000 a year. The service is between Vancouver and Auckland and Sydney. He stated, it must be apparent that New Zealand was actuated by cordial desire to work in accord with the Commonwealth.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds croup and influenza. Try it when in need It contains no harmful substance and always gives prompt relief. Sold by all druggists and dealers.

FORT GEORGE

at the junction of the Fraser and Nechaco rivers, will be the largest city on the Grand Trunk Pacific Transcontinental railway west of Winnipeg.

Fort George is the geographical and strategic commercial centre of British Columbia—the natural supply point for a splendid mixed farming, mineral, timber and coal area of millions of acres made accessible by 1100 miles of navigable waterways.

Splendid openings for business and investment.

PREMIER ANSWERS OPPOSITION

Rural Population of Province Has Doubled in Five Years—Government's Policy

The premier, Hon. R. McBride, made an address lasting about an hour and a half in the debate on the speech from the throne last week. He followed Mr. Brewster who indulged in a long, general criticism of the government policy. The premier in opening referred to the address of Parker Williams on the previous day, saying that the tone of Mr. Williams' speech lowered the reputation he had gained for himself in previous sessions. The only point he considered worthy of reply was the statement that the government had done nothing since last session to provide for the safety of men in coal mines. It was sufficient answer that during the year the government had equipped mines with the Draeger safety apparatus and the officials had been the first to assist in the work of rescue in the Bellevue disaster.

Railway Building

Mr. McBride, taking up the criticism of Mr. Brewster's speech, dealt at some length with the accusation that he had been false to his pledge in connection with the construction of the Canadian Northern railway on Vancouver island. He pointed out that it would have been easily possible to have the company build two or three miles of line, but he wanted something permanent and satisfactory. During the past year surveyors had changed their plans and recommended a different route than first proposed. Till their reports were complete it would have been most unwise to venture on any construction, whatever the political effect. If the Canadian Northern was to compete successfully with the C.P.R. it must have the easiest grades and a delay that secured such grades was well advised. Surveys for the first 20 or 30 miles were now complete and he had no doubt contracts would be let forthwith and grading proceeded with. Work on the mainland was going on well. All contracts for the coast division had been let and he expected to see trains running over that section next fall. Contracts for grading the sections to Kamloops and up the North Thompson were being called for and should be let within the year. Already the business for the province had been quickened by the Canadian Northern construction which had infused an atmosphere of optimism in all quarters and he had greatest confidence that the line would be completed within the four years. In view of the continued delays in Grand Trunk Pacific construction it hardly became a follower of Sir Wilfrid Laurier to criticize the dealings of the government with the Canadian Northern. Not only had Mackenzie & Mann quickened railway construction, they had also undertaken other enterprises, such as the purchase of the Dunsmuir collieries and as a result it was their intention to increase the output of the mines threefold and this would mean more employees and greater business. He was pleased to see that their ability had been recognized in the capital of the empire by knighthood.

Government's Land Policy

Turning to the criticism of the land policy he pointed out that the rural population of the province had doubled within the past five years. That land was not held for speculators was shown by the fact that of 28,000,000 acres of land available for agriculture in the province 23,000,000 acres had been reserved for pre-emption. While the government had realized large sums from land sales, the money had been put into the development of rural districts by public works.

The government did this because they recognized that settlement here was attended with difficulties unknown in the prairie provinces. In this country the land most available and easy of settlement was that owned by the Dominion government in the railway belts of the C.P.R. and E. & N. railways and he asked Mr. Brewster what the Dominion government had done to secure settlement of these lands. The provincial government had received offers from colonization companies who wished to buy land at a nominal price and place settlers on it, but the government was of the opinion that it was their duty to do such work themselves and not entrust it to private companies.

He declared that the government had dealt generously with rural schools which were more efficient under the School act than under the former system. In conclusion he praised very highly the work of the forestry commission and fire insurance commission.

COLLISION AT CALGARY

CALGARY, Alta., Jan. 22.—Yesterday's delayed Soo-Portland flyer and the Alberta Railway & Irrigations company's extra freight had a head-on collision in the yards here this morning. Both engines, the baggage car and several freight cars were damaged. Baggageman Harper was slightly injured. The trains were on slow speed.

NELSON NEWS OF THE DAY

(Additional News Notes on Page Eight.)

The winning number in the draw at Weir's Shoe Store was 2,172.

A. W. Davis, superintendent of the Molly Gibson mine on Kokanee creek, was in the city Saturday.

The first aid classes in connection with the Y.M.C.A. physical work will meet this evening in the upstair class room at 7 o'clock.

A good attendance is requested at the fortnightly general meeting of Court Royal Nelson, No. 9204, A.O.F., which will be held tonight in K. of P. hall at 8 o'clock.

The regular meeting of Kootenay lodge No. 16, I.O.O.F., will be held tonight. All officers are requested to be present. The initiatory degree will be conferred on candidates.

The church tea, to be given by Mrs. Bullock-Webster and Mrs. Graham, will be held at the rectory, 708 Silica street, tomorrow afternoon from 2 to 6 o'clock. All members of the congregation are cordially invited.

David Stephens, superintendent engineer for the C.P.R. lake and river service, is confined to his house through an accident resulting in a fracture of some ribs, caused through slipping on some icy stone steps on Thursday last.

All officers, non-commissioned officers and men of "B" company, 102nd regiment, are requested to meet at the armory tomorrow night at 8.30 o'clock, to arrange for the starting of drill, and to deal with any matters that may be of interest to the company. The new uniforms are to hand, and will be issued as soon as drill starts.

Joe Wright appeared before William Irvine, police magistrate, in the city police court on Saturday morning to answer a charge of creating a disturbance by being drunk. He was given 60 days in the provincial jail. Wright was in trouble for a similar offence here a short time ago but was allowed to go on condition that he got out of town within 24 hours. He left and went to Sandon, but the lure of Nelson was too much for him and came back and again landed in the city lockup.

AT THE THEATRES.

The change of program at the Gem theatre includes, "A Clever Ruse," and "Faithful Max," both of which are Imps. "The Mascot of Company D." and "The Inventor." On Wednesday will be shown the Imp Christmas release entitled, "The Crippled Teddy Bear," one the prettiest stories ever seen in moving pictures.

"Millionaire Milkman" is the title of an excellent Thanhouser film at the Empire theatre this evening; "The Cattle Baron's Daughter" is an exciting Bison picture, in which one sees some clever riding. Other subjects are "Too Soon and Too Late," and "Wiffles in Society."

One of the most marvellous successes of recent years is without doubt "A Stubborn Cinderella," a comedy with music. After record-breaking runs in Chicago, New York, Boston and Philadelphia, the comedy is now on tour and will be offered this season by Charles A. Goettler at the opera house next Saturday evening with an exceptionally good cast, including Coit Albertson, a comedian of no mean quality. "A Stubborn Cinderella" had a most sensational run in Chicago, consisting of 465 consecutive performances at the Princess theatre. Dramatic critics from coast to coast have pronounced the play one of the most unique and best musical comedies of the season. Notwithstanding the fact that "A Stubborn Cinderella" had many competitors, the critics' view was proven by the immense success it achieved wherever presented. The play was written by Will R. Hough and Frank R. Adams, and Joseph Howard added the music.

THRUMS NEWS ITEMS

THRUMS, Jan. 22—Mr. and Mrs. E. B. Irving entertained on Wednesday evening last in honor of their son John, it being his seventh birthday. All present had a most enjoyable time.

NELSON NEWS OF THE DAY

(Additional News Notes on Page Seven.)

L. B. Scott of Rossland registered at the Strathcona on Saturday night.

Winston's orchestra provided an excellent program for the Hume special dinner on Saturday evening.

In a news article in Saturday's issue, a reference was made to B. A. Isaac incidentally as not now connected with the Nelson Iron Works. Mr. Isaacs is, of course, president of the company, and the reference was an obvious slip.

The highest temperature recorded yesterday was 29 degrees and the minimum was 20 degrees above zero.

E. M. Breed, British Columbia's representative of the Allis-Chalmers-Bullock company, of Montreal, arrived from the coast last night, and is a guest at the Hume.

The Nelson male voice choir held a very successful and well attended practice yesterday afternoon and will meet again on Tuesday and Thursday evenings at 8 o'clock. They will make their first public appearance on Wednesday, Feb. 1.

The dramatic and humorous recital by Miss Eugeni Fox, assisted by H. Treby-Heale, vocalist, and Mrs. R. G. Brand, pianist, which has for some weeks been eagerly anticipated by all lovers of high-class elocution, songs and pianoforte music, will take place this evening in the opera house.

SLOCAN A MINING AND FRUIT CENTRE

Neighboring Properties Getting Ore Out to Ship—Much Land Close in Sold Past Season

"Slocan City will see quite a bit of ore shipped in its immediate neighborhood this winter," said D. St. Denis, city clerk of Slocan City, who arrived in Nelson last night, to search the titles to all properties within both the city and school district of that name, as the basis for the new assessment ordered by his city council.

"The lessees of the Ottawa mine, L. B. McPhee, James McVicar and H. D. Lea, who have been actively developing since they shipped last June are soon to ship a 20 ton car of high grade ore to the Trail smelter. The Ottawa mine is about six miles from the city and is owned by the Ottawa Mining company, a Pittsburg corporation.

"The Meteor, owned by Messrs, Aylard, Finch and Campbell, was leased to Joseph Law, Charles Barber and John Wafer. They have just brought down 12 tons of high grade silver-lead ore and will be making a shipment shortly.

"The Hampton mine, owned by N. F. McNaught, was under lease, but the death of Mr. Gillis in the hospital at Nelson tied up matters for a while. H McVicar and Blair Carter have just started work on this property on which they have a lease.

"J. C. Moen has three men working on the Black Prince.

"There has been considerable development from a fruit standpoint in the immediate vicinity of Slocan City the past season, according to Mr. St. Den's.

M. S. Guerney purchased five parcels of land, aggregating over 200 acres, paying about $10 000 cash, for friends in the old country and India. One of these parcels was of 40 acres for Capt. Frederick Williams, on active service in India, and Capt. Williams has given instructions for the tract to be cleared and planted. In all within a radius of three miles, to the south, 250 acres of fruit land have been sold the past season. Fully 1500 trees have been set out within the same radius the past season The coming season will naturally see extensive development.

Mr. St. Denis expects to be engaged for the greater part of the week on searching titles, as there are some 600 titles to be searched. The last time this formality was exacted was in 1904.

MORE PROSECUTIONS IN FARMERS' BANK CASE

TORONTO, Jan. 22.—It is announced that a number of warrants will be issued tomorrow in connection with the Farmers bank case. The application for the winding up of the bank will come up tomorrow and further prosecution will be vigorously carried on.

REDUCING EXPENSE OF CLEARING LAND

How Arrow Lake Ranchers Apply Principle of Conservation— Mr. Fauquier Gives Illustration

F. G. Fauquier, after spending a couple of days in Nelson following the Creston convention of the Associated Boards of Trade, left yesterday morning for his ranch at the Needles, via Nakusp. He will put in the present week pushing matters connected with the Ranchers' Union of the Arrow Lakes, of which he is president, and expects to have definite information on a number of points when again in Nelson, in about a week's time. The movement begun by the formation of the Ranchers' union is gathering force, and up and down the Arrow lakes individual ranchers are figuring what ties, props, cordwood and poles they can get out this winter, to be moved in the spring by the barge the C.P.R. has promised if the quantities are forthcoming.

Discussing the principle behind this movement to market forest products from the Arrow lake ranchers, Mr. Fauquier said:

"The primary idea of this movement, for the present, is to make the most of the timber on our land, when clearing it, instead of burning it, as is the common method, thus saving a very respectable amount of what was formerly a total loss. The trouble with too many ranchers is, that when they are approached on the matter of getting out ties and cordwood, they immediately alter their point of view, and instead of figuring that the clearing of the land is what they are spending their time and money for, and that any ties and cordwood amounts to so much velvet, come to the conclusion that, unless they can actually make a profit out of the ties and other products in themselves, the proposition is not worth while. Now, everyone knows that, almost anywhere in the Kootenays, cleared land, roughly speaking, is worth $100 an acre more than the same land before it is cleared. Thus, even if the forest products from a particular acre were manufactured and manufactured at a loss, so far as labor costs were concerned, the labor cost would have to be incurred anyway in clearing the land, and the returns from the forest products go to reduce the net expense of clearing that acre. For myself, I am putting in a gang of men to get out ties, and I figure on making a profit of from $25 to $75 an acre on the forest products themselves. Suppose, however, instead of having a profit, I had an actual loss of $25 per acre. I would still be getting my land cleared. I would be paying less than the usual $100 for clearing, by whatever my forest products brought in.

"This rule applies, whether one is ranching on a small or large scale. Consider the case of the small rancher, who may be working for wages. He gets $3 a day from the government, spends $1 of that for board, and in the end saves $1. If he works for himself making up ties and the like, he is home with his family, he saves most of his board, and he is gradually increasing the value of his land $100 an acre by clearing it."

When the Fire Bell Rings

Do you feel satisfied that you are sufficiently protected from loss should your property be burning? If not secure at once a policy from one of the eleven strong English, American or Canadian fire insurance companies we represent. Absolute security, prompt settlement.

It may be your turn next.

Loose and Mounted Diamonds

Dollar for dollar and diamond for diamond you cannot get better value anywhere in loose and mounted diamonds than we give. Large importations through our wholesale house keep our stock constantly full of diamonds of every grade and every statement we make about a stone is absolutely dependable.

It is difficult to tell the difference between a good diamond and a pretty good diamond. To make the distinction calls for knowledge and experience. If you have the knowledge, you can buy diamonds anywhere. Otherwise it is far safer to buy from a jeweler with a reputation and a comprehensive diamond stock. We have both.

We sell diamonds on payments to responsible people.
