## MAPLE LEAVES

### Sent From Canada for Dominion's Wreath

### Colonial Representatives are Assigned Places

### Roosevelt Makes Quiet Entry to London

LONDON, May 16—Canada's wreath for the funeral of the late King will be in the shape of a maple leaf. The outside is composed of maple leaves while across the wreath in dark carnations will be the words "Canada Mourns." The wreath was designed by W. L. Griffiths, secretary to Lord Strathcona. The maple leaves were sent Griffith by Canadian ladies.

**Duke for Canada**

GLASGOW, May 16—The Scotsman's London correspondent says that the Duke of Connaught is probably going to Canada before the end of the year.

**Taken to Task**

LONDON, May 16—It is learned that on King George's secretary drawing his attention to the announcement that the representatives of the overseas dominions would not take part in the funeral of King Edward, the secretary was immediately instructed to communicate with the colonial office and protest against such treatment with the result that representatives of the colonies will have a place in St. George's chapel.

The Canadian office is closed today, but unofficially it is understood that the colonial office was severely taken to task, it being pointed out that representatives of Canada who had come spontaneously to express Canada's grief at the loss were deserving of more consideration and that such treatment as had been proposed to show Canada's representatives if it were not rectified, would cause many unpleasant comments in Canada.

Interviewed on his arrival here Hon. A. B. Aylesworth expressed the intensity of the shock the news of the King's death in Canada, where there was a sense of personal loss.

**Roosevelt Arrives**

LONDON, May 16—Theodore Roosevelt, special ambassador to the funeral of King Edward, arrived in London this morning and was received by King George at Marlborough house and later visited the throne room in Buckingham palace, where the body of the late king is lying in state.

**Quiet Entrance**

The entrance into the city of Mr. Roosevelt was a quiet one. It was Whit Monday holiday, but despite this fact the popular crowd at Victoria station was a small one. There was no cheering but as Mr. Roosevelt alighted from the train and was escorted by Ambassador Reid to the royal carriage which had been sent for him, those who looked on silently lifted their hats.

**On Special Train**

The Roosevelt party, which included Mrs. Roosevelt, Miss Roosevelt and Kermit left Berlin at noon yesterday and reached Flushing, Holland last night. They continued upon the regular boat to Queensboro, England, where a special train was in waiting for them and which preceded the regular express to London, arriving at Victoria station 15 minutes earlier than the regular train, which followed at 7:45. At Queensboro Mr. Roosevelt was joined by the aide-de-camps appointed to attend upon him by King George, Lord Dundonald, Commander Charles E. F. Cunningham Graham and ViceAdmiral Sir George Neville, commanding the Home fleet, who received the former president in the name of the king. The transfer to the special was quickly made and at 6 o'clock the party proceeded for this city, which was reached at 7:50. It was supposed that Mr. Roosevelt would arrive on the regular train and this fact may have accounted in fact for the comparatively small crowd at the station.

**Welcomed at Station**

Upon the station platform waiting were Ambassador Reid, Mrs. Reid, the members of the embassy and their wives, all dressed in mourning and a group of American residents. There was no music, waving of flags or demonstration. When greetings had been exchanged, Lord Dundonald escorted the Roosevelts and Ambassador and Mrs. Reid to the royal carriages which had been placed at their disposal by the King and they were driven at once to Dorchester house, the home of ambassador Reid. Later, accompanied by Mr. Reid, Mr. Roosevelt in the capacity of special ambassador, met the King at Marlborough house. Following his reception by the King he was escorted to Buckingham palace and shown into the throne room where upon the catafalque reposes the body of King Edward.

**Station Closely Guarded**

Victoria station is closely picketed and patrolled by police. Every entrance and exit is guarded and all applicants for admission are scrutinized. This precaution is taken for the protection of all members of royalty and other official representatives who are coming here for the funeral. In the course of the forenoon Mr. Roosevelt called upon the Duke and Duchess of Connaught at Clarence house.

**Pay Many Calls**

Mr. and Mrs. Roosevelt ended the morning hours with a round of calls. They called upon the Crown Prince and Crown Princess Christian of Denmark, the Duke and Duchess of Argyle, the Princess Henry of Battenburg and the Duchess of Fife and at Buckingham palace inscribed their names in the visiting books of Dowager Empress Marie of Russia, Grand Duke Michael Alexandrovitch, King Haakon and Queen Maude of Norway.

**King Pays Visit**

The Roosevelts had but just returned to Dorchester house when they received a return call from King Haakon who greeted the special ambassador and his wife as old friends. While luncheon was being served the Duke of Connaught and Prince Arthur of Connaught also called. Mrs. Roosevelt went to Buckingham palace again this afternoon and paid a visit to Queen Maude.

**Consults Specialist**

Mr. Roosevelt's throat still bothers him. It was examined this afternoon by Dr. St. Hilaire Thompson, the throat specialist, who attended King Edward during his last illness. Dr. Thompson prescribed further treatment for Mr. Roosevelt. Tonight the Roosevelts dined quietly with Ambassador and Mrs. Reid and the members of the embassy staff with their wives at Dorchester house.

## BIG TRACT SOLD IN FIRE VALLEY

### Company Acquires More Coal Licenses on Graham Island—Fort George Deal is Pending

R. Bruce Scott, one of the partners in the Western Canada Investment company, arrived from Vancouver last week having initiated a deal for the sale of 4650 acres of fruit land in the Fire Valley, on Arrow lakes, to a Vancouver syndicate. The deal has since been completed, about $75,000 being involved in the transaction. The land is partially improved and the purchasers will sub-divide the tract at once and proceed to bring in settlers.

**Seek English Capital**

The Graham Island coal proposition of the Western Canada Investment company is greatly enlarged and to the six coal sections previously held by the firm, have been added 16 more, the tract thus consisting of 21 square miles. The Calgary syndicate is in the proposition and one of the Calgary principals will leave in July for the old country to secure additional capital with which to develop the property.

Mr. Scott leaves at the end of the week for Toronto where he expects to put through a deal for the sale of 2000 acres in the Fort George district. He will be away about two months.

## TAKES BONDS OF CANADIAN NORTHERN

### First Payment of Eleven Million Dollar Sale of Coal Lands—Balance Next Month

(Special to The Daily News.)

VICTORIA, May 14—A first payment of $2,200,000 out of the $11,000,000 involved in the deal has been made by William Mackenzie to James Dunsmuir and by which the Dunsmuir collieries pass into the hands of a syndicate of capitalists organized by the president of the Canadian Northern. It is understood that the purchase will be completed on June 15, the balance of the sum on that date being paid over to Mr. Dunsmuir. A condition of the sale is said to be that Dunsmuir takes $4,000,000 worth of Canadian Northern bonds.

## BAD ACCIDENT TO VANCOUVER PICNIC PARTY

### Brother and Sister Drowned in Capilano Canyon—Foot Slips and Girl Falls Over Cliff

(Special to The Daily News.)

VANCOUVER, May 16—A sad accident occurred yesterday afternoon at Capilano canyon in which Miss Pement, aged 16 and her brother, Bert, a C.P.R. engineer, aged 25, lost their lives in one of the deep holes at the foot of the cliffs.

**Foot Slipped**

The pair were members of a party of picnickers who were roaming along the edge of the rocks along the stream. Suddenly her foot slipped when on the edge of a deep hole and an agonized cry, "she's gone over," rang out. Albert Pement instantly threw off his coat and leaped into the pool, being an expert swimmer. The swirling eddy was, however, too much for him and he was instantly sucked down, never coming up. The merry party, frenzied with fear could do nothing but call for help from North Vancouver. A search for the bodies was unavailing until this afternoon when they were recovered farther down the creek. The victims of the accident were both popular on Mount Pleasant where they lived and their aged parents are distracted over the accident.

## HUNDRED THOUSAND FIRE

PLACERVILLE, Cal., May 16—Fire last night destroyed the court house and several buildings entailing a loss of about $100,000.

## IS DIES NON

### Cessation of Business on Friday Afternoon

### Clergy Requested to Arrange Memorial Service

### Bandstand Site is Still Unsettled

Two thorny questions were handled by the city council last night, the funeral service to be held in memory of the late king and the location of the peripatetic band stand. One was finally disposed of so far as the council is concerned, but another week will be taken in which to discover the location for the bandstand which meets with the minimum of objection. It was left to the ministers of the various denominations to arrange for a memorial service to be held on Friday afternoon and the mayor will proclaim that afternoon a dies non and will request that all stores be closed.

**Memorial Service**

The mayor introduced the subject of the memorial service, saying that merchants wished to know what was to be done as they would probably waive the Wednesday afternoon holiday if Friday were declared a dies non.

Ald. Carrie said that no orders had been received regarding a military service. The militia would probably hold a church parade to St. Saviour's church at 9 o'clock Friday morning.

In reply to a question as to what other cities were doing the mayor said that in Vancouver and Victoria church services would be held in the morning and a lay ceremonial in the afternoon. In Rossland the church of England was holding an open air service.

Ald. Rutherford moved that Rev. Fred H. Graham be requested to hold a service on Friday afternoon and that he be requested to invite other ministers to participate.

Ald. McMorris asked if any regulations were suggested as to the part that they should take. Ald. Rutherford replied that he proposed that that be left in Mr. Graham's hands.

**Mr. Graham Declines**

Mr. Graham was then spoken to over the telephone by the mayor, who reported that he did not wish to be placed in a position of having to assign other ministers to subordinate positions. He had also asked if the other ministers had signified their consent to the council's proposal.

Ald. Rutherford thought that his resolution was a good way out of the difficulty. He felt that everyone would be satisfied to leave the arrangements to Mr. Graham.

Ald. Wells thought that it might be left to Mr. Graham to invite other ministers as a courtesy but he did not know what parts it would be possible for them to take in the Church of England service.

Ald. Rutherford said that at the last meeting Mr. Dixon had shown how such a service was satisfactorily arranged at Rossland.

Ald. McDonald thought that the mayor should call upon the various ministers to arrange the service.

The opinion of Ald. Mackenzie was that the church of England burial service was the finest that could be used.

Ald. Carrie proposed that the arrangement of the service should be left to all the ministers. He thought that there might be some feeling if the arrangements were left to any one clergyman.

Ald. Rutherford had no fear of any jealousy on the part of any of the ministers.

The mayor thought Mr. Carrie's idea was a good one. It would leave the council out. The clerk could notify each of the ministers of the council's idea and ask them to make all necessary arrangements.

Mr. Carrie then put his proposal into the form of an amendment but the mayor appealed to the council to be unanimous and to sink personal feelings.

Ald. Carrie thought that the general feeling in the city was that the arrangements should not be left to any one minister.

Ald. McMorris remarked that if the Church of England service were used Mr. Graham must officiate.

Ald. Carrie thought that the English church service should certainly be used but that there would be feeling if Mr. Graham were selected by the council.

The mayor pointed out that by Ald. Rutherfords resolution the arrangements depended upon Mr. Graham and also upon his securing the participation of the other ministers while Ald. Carrie's proposal left it to the ministers to arrange and decide for themselves. He favored Mr. Carrie's suggestion.

Ald. Wells, seconded by Ald. Carrie, then moved that the clergy of Nelson be requested to meet and arrange the form of a memorial service to be held on Friday afternoon. Ald. Rutherford withdrew his resolution and the proposal carried unanimously.

**Fire Insurance**

The fire, water and light committee recommended that the new light unit be insured for $14,000, $5000 in the Midland and $9000 in the National and General. Report adopted.

**New Sidewalk**

The city engineer reported that the sidewalk on the south side of Carbonate street between Ward and Josephine was past repair. To the board of works.

**Circus Coming**

An eloquent gentleman, representing an animal circus asked the council for the use of the baseball grounds and for free license, free water and free light. They intended showing for one week and contemplated making some percentage contribution to the funds of the baseball club.

The mayor remarked that the usual fee for a circus was $200 a day and for minor shows $50 a day.

After considerable discussion the council decided to issue a license for $60 a day, the license to include use of the baseball grounds, free light and water, but on condition that the circus compensates the baseball club for exclusion from the use of the grounds during the week in which the circus will show.

**Bylaw Defeated**

W. E. Wasson, returning officer reported the defeat of the Y.M.C.A. bylaw.

**Cemetery Improvements**

J. K. Smith, caretaker of the cemetery, reported that he had seeded and relied part of block 1, next to the main entrance. Block 2 is also cleared and ready for the team, but it is very hard to get a team just now, "but as we are

(Continued on Page Five.)

## MACKENZIE BRINGS OLD COUNTRY GOLD

### James Carruthers Says English Capital Looks This Way—Canada and the World's Food Supply

"From the talk in financial circles in London, with which I came in contact, I estimate that William Mackenzie, president of the Canadian Northern railway, is bringing over this year $50,000,000 of English capital for his railway and other enterprises. This would include railway construction, the large timber proposition at the coast and the recent coal proposition. This illustrates the feeling of Englishmen of money toward Canadian investments, and the keenest interest is taken in projects for Canadian development. The same interest extends to those of small capital and the immigrants coming to Canada this year are notably of a superior character, that is to say, the bulk of them have some money, with which to start themselves or to invest. There were 1000 immigrants on my steamer and the most of them seemed to belong to this class. Canada today looms big in the eyes of the English people."

**Inspecting Quarry**

The observer was James Carruthers, the big Canadian wheat exporter, who completed a two months pleasure tour of Spain, France and the British Isles two or three weeks ago, and after stops at Montreal, Minneapolis and Winnipeg, came on to Nelson at the end of the week and went out to Marblehead to inspect the quarry and works of the Canadian Marble works of which he is the owner. Mr. Carruthers, his son, George Carruthers of Winnipeg, and Sam J. Gorman, managing director of the company, are now making a thorough inspection of the property. At Proctor they passed a large with five cars of marble destined for the beautiful block of the Great West Life Assurance company at the corner of Rorie and Lombard streets, Winnipeg and another five cars will complete the contract. One hundred cars of Marblehead marble are going into the composition of that building which faces the new Grain Exchange. Mr. Carruthers made his last inspection of the Marblehead property last fall when the present plant was just being installed and on the eve of an extensive test of the marble mountain by diamond drill.

While in Winnipeg Mr. Carruthers examined minutely the prospects of the grain crop on the Canadian prairie as compiled weekly by the railway companies from the reports of their local agents and he also made inquiry all along the main line to Medicine Hat and thence to the foothills on the Crow. He states that the unseasonable warm weather has been followed by a prolonged period of cold weather and that the entire grain crop is badly in need of moisture. In fact, if the rain holds off for another fortnight it will be a serious thing for the crop. The increase in the grain acreage on the prairie this year is estimated at 20 per cent.

**Will Supply England's Bread**

While on this subject, Mr. Carruthers, whose houses at Winnipeg, Toronto and Montreal account for one-tenth of the Canadian wheat exported to the old country, said:

"I told the people of the old country that Canada would be supplying all their wheat within 10 years. They consume about 200,000,000 bushels a year. I believe that in ten years we will be producing 100,000,000 bushels of wheat annually. Take this with the fact that the United States has reached its maximum production of wheat and that the republic will have a smaller quantity for export each year, and logic shows the relation which Canada will sustain to the food supply of Great Britain."

## DENIED WRIT OF HABEAS CORPUS

WASHINGTON, May 16—Charles W. Morse, was today denied the privilege of filing an application for a writ of habeas corpus by the supreme court of the United States.

## ORDINATION

### Service Held in Methodist Church on Sunday

### Delegates Elected to Represent Conference

### Statistical Report for Year Ending April 30

The Nelson Methodist church was the scene of great gatherings all day Sunday. From half past nine in the morning till nearly half past nine at night the building was occupied by crowds who met for worship and for the enjoyment of Christian fellowship. At 9:30 a. m. the conference love feast was held and as the delegates from different parts of the province spoke of their personal experience in the Christian life and work a thrill of joy went through the congregations at the song of victory that each was able to sing.

**Ordination Service.**

The ordination sermon preached by the Rev. Dr. Chown was a masterpiece of sermonic effort and by resolution yesterday the conference asked Dr. Chown to see that it was published. The doctor took his text from Gal. 6:2 "Bear ye one another's burdens." His subject was "Ideals of the Christian Life and How to Retain Them." The essential element of Christianity was seeking the lost and was exemplified in the well known hymn of the Ninety and Nine. To go out to seek some one else and to lead that one to Christ was duty of every Christian. The Christian was a steward, he held all he had of talents, gifts or worldly goods from God and should consider that all he had belonged to God and was his to administer for the benefit of the race. The burden of conflict was upon us and the Christian church must not shrink from the conflict. Many telling illustrations were used and the large congregation listened most intently to the sermon. At the close of the sermon the ordination service was conducted by Rev. R. N. Powell, the president of the conference. The Revs. Henry Wilson, William Vance, and Albert Stephenson, who have completed their probation were ordained in the solemn service prescribed by the ritual of the church.

**Sunday School.**

An open session of the Sunday school was held in the afternoon and the church was again well filled. The Rev. O. M. Sanford of Kamloops, gave a most interesting address which was enjoyed as much by the older folks as by the children. The service was very bright and interesting.

**Procession and Mass Meeting.**

At 4 p. m. the members of the conference led by the Rev. R. Hughes and Rev. C. W. Webber marched in procession through the principal streets of the city inviting people to attend the mass meeting which was to be addressed by Dr. Dawson. The doctor himself was seen in the procession. At several of the street corners hymns were sung and an invitation was given to the men standing by to attend the meeting. By the time the procession reached the church the following numbered enough to fill every seat in the main auditorium and overflowed into the school room. Dr. Dawson's message was a powerful appeal to men along the line of "A Man's Temptation." He described temptation as a part of the normal discipline of human life. Temptation was a call to courage and was common to man. All temptation was proportioned to man's power of resistance, and out of every temptation there is a way of escape. Under these general heads Dr. Dawson spoke of the temptations which often beset man and pointed to Christ as the one safe way of escape. The appeal was a most direct one and touched many hearts. Mr. Currie sung a solo and the hymns were popular ones and went with a swing that was good to hear.

**Foreign Immigrants.**

The building was crowded to its capacity at the evening service when the Rev. James Allen delivered a most telling missionary address dealing with the work among the foreigners who are coming in such large numbers to the friendly shores of Canada. Mr. Allen fully sustained the reputation he had made for himself in Nelson at the Canadian club on Saturday and by his insistent logic proved the points he was trying to make. He urged strongly that the Methodist church should earnestly consider the problems forced upon us by the coming of so many people of other races and advised active and combined work on the part of all churches.

During the day the choir of the church rendered some very acceptable anthems and at the evening service an orchestra added much to the musical part of the programme.

**Delegates Elected.**

Yesterday morning the delegates who will represent the British Columbia conference of the church were elected. This occupied the attention of the conference all morning. The following were elected:. Ministers, Rev. W. J. Sippell, D.D., Rev. R. Newton Powell, Rev. A. E. Roberts, Rev. J. H. White, D. D., Rev. A. M. Sanford, B.A., B.D., Rev. S. S. Osterhout, Ph. D., Rev. John Robson, B. A., Rev. R. Milliken, B.D. Reserve delegates, Rev. S. J. Thompson, Rev. Jas. Calvert and Rev. J. F. Betts.

The laymen elected were, George Bell, Enderby; D. S. Curtis, New Westminster; J. P. Rice, Kamloops; R. W. Harris, Vancouver; A. Lee, Victoria; G. R. Gordon, Vancouver; J. Patrick, Nelson; E. W. Keenleyside, Vancouver. Reserve delegates, W. N. Mitchell, Victoria; R. W. Leeson, Vancouver; H. H. Stevens, Vancouver.

The election of a layman and a minister to represent the conference on the general board of missions also took place yesterday and George Bell and Rev. A. M. Sanford were elected to fill this office.

**Waterways Mission.**

The Rev. G. H. Raley presented a report of the Waterways Mission committee dealing with the future policy of the church in relation to its mission to the logging and mining camps of the coast. This was laid over for discussion today and it is expected to be a most interesting discussion.

**Temperance and Moral Reform.**

Last evening the church was again filled for the final public gathering of the conference sessions. This was the Temperance and Moral Reform anniversary of the conference. The Rev. W. A. Gifford, of Enderby, delivered a forceful address on the temperance situation in the province and urged for

(Continued on Page Five)

## ATTEMPT TO WRECK CHINESE SPECIAL

### Stick of Dynamite Found in Stove of Car Occupied by Chinamen—Alarm Sounded

(Special to The Daily News.)

VANCOUVER, May 16—What is believed to be a dastardly attempt to wreck special coaches carrying Chinese passengers from the Empress east was discovered by accident yesterday. According to custom the orientals in the car chose a cook. He went to the galley stove to clean up and found neatly wrapped up in a copy of the Calgary Albertan of April 12, a stick of dynamit, fully capped. The oriental cook did not know what he had found but showed it to the guard who promptly sounded the alarm and had other stoves on the train searched. It is understood another stick of dynamite was found in the fire box of an adjoining car. The company admit only the dynamite found in one coach and claim it was probably carelessly left by a prospector and accidentally put in the firebox by cleaners. The Chinese community, however, believe it was a dastardly attempt at the life of the oriental passengers and are making every possible effort to trace the matter to the bottom.

## COAST INTEREST IN SHEEP CREEK

### Ald. Wells Says Gold Camp Near Nelson Holds Centre of the Stage.

The general and growing interest in the Sheep creek camp is the noticeable feature at the coast these days, according to George P. Wells, proprietor of the Hume hotel, who spent about 10 days there, returning to Nelson Saturday night.

"It is now a recognized fact, at the coast," said Ald. Wells, "that the Sheep creek camp is one of the best gold camps discovered in many years. Not any one mine is singled out, but the camp as a whole is given a vast amount of attention. Sheep creek can be said to be coming into its own.

"Mining in general has engaged public attention, and the interest promises to be maintained. In fact, I think for the next two years the mining industry will be the prominent feature in British Columbia."

## WIN CERTIFICATES OF AMBULANCE SOCIETY

(Special to The Daily News.)

FERNIE, May 16—The examination for certificates of the St. Johns Ambulance association have been conducted at Coal Creek, and the 15 men who entered the examination have all passed most creditably. The following are the names of the successful candidates: William Shenfield, Thomas Manson, R. Dootson, Harry Miard, J. Timmins, R. J. Bower, John Chester, Robert Johnson, D. Michel, Alex Busch, B. Caulfield, J. Lyons, Robert Lowe, James McCulloch. Dr. S. Bonnell conducted the examination.

At the last meeting of the city council R. B. C. Hammond was appointed general superintendent of the electric light system.

Mrs. Guess of Flat River, Mo., has been visiting her sister, Mrs. W. R. Ross, at Park House, for the past few days.

## LOOKS LIKE WAR.

LIMA, Peru, May 16—A government transport carrying a regiment of artillery, a hospital corps and a big cargo of ammunition and other munitions of war, sailed today for Tumbes, a port on the northwest coast of Peru, not far from the northern boundary. Official advices received from Avaca just south of the Ecuadorian frontier, report that the troops of Ecuador can be seen approaching.

## BUSY SESSION

### Harry Wright Summarizes Its Results

### Tramway Bylaw and Site for University

### Liberals Compelled to Admire Contracts

Arriving back from the coast on Saturday night after an absence of a day or two under four months, Harry Wright, the popular member for the riding of Nelson, spent a busy two days shaking hands with innumerable friends, and receiving hearty congratulations on his looks, which denote that the Pacific air agrees with him. "It is only four months," said Mr. Wright, in extenuation of his absence. "Two months I was attending the legislature, and two months I was detained by business reasons. I don't intend to run away from Nelson, my home is here still, and I expect to be home for the balance of the year.

**University Site Question.**

"Nelson certainly looked good to me the night I came in, and the improvements are gratifying to view. The whole Kootenay looks pleasant and progressive. It was at my suggestion that Nelson was placed on the list of places where the university site commission hold sittings. In caucus I pointed out that the fact that the C. P. R. was going to spend $100,000 on a tourist hotel in the vicinity of Nelson spoke well for the West Arm, and I thought the claims of Nelson in respect to a university site could be considered."

Asked regarding the legislative session, Mr. Wright said the house was composed largely of new men, and they were not saying much this year. But he had heard the comment in the lobbies, that the members composing the present house were the best set of men that ever sat in the legislature of British Columbia.

**Railway Bills Satisfactory.**

"The passage of the railway bills was of course the great feature of a session that witnessed many important bills," continued Mr. Wright. The bills were entirely satisfactory to the members in the upper country, as well as to the house at large. One of the Liberal members voted for the Canadian Northern bill, and both of them voted for the Kettle River Valley bill. I don't know whether the Liberals here were surprised or not, but at the coast they were completely out of their reckoning, and were amazed, having, it seems, expected a mare's nest, instead of the business contract that was brought down. The fact is, of course, that the railway bills were entirely satisfactory to the whole country.

**Tramway Bylaw a Hard Pull.**

"I will not refer to the other measures of large general importance, but it may be of interest to recount some of the matters Nelson is particularly interested in. The legislation that most immediately affected this city was the bill validating the street railway bylaw. It was a strenuous job, getting through that bill, costing me a lot of worry, but at last we gained the day. The good financial statement of the city had a lot to do with the final success.

"As to the public works that Nelson is to get, there is little to add to what I wired from Victoria. The court yard will be beautified, and the Vernon street sidewalk completed, while money was appropriated to wipe out the indebtedness of the agricultural society.

"I have also the assurance of the minister of education that when the government comes to apportion the appropriation for educational purposes, Nelson will be given a substantial grant. He said he would do the best he could this year, and possibly more next. It will go toward enlarging the usefulness of the public school.

**Supported Labor Bills.**

"While doing my utmost for my constituency," concluded Mr. Wright, "I of course discharged my general duty as a legislator as well, and assisted in the framing and passage of an amount of useful legislation. In this class I would put several labor measures, for which I voted."

Asked respecting general conditions at the coast, Mr. Wright said that, in mining circles, there seemed to be a great deal of interest taken in Sheep creek camp, and also in Summit camp, both in Vancouver and Victoria. He never failed to give either or both of them a boost whenever opportunity presented. Mr. Wright predicted that within 60 days a large number of people would come up from the coast, to these two gold camps in the vicinity of Nelson.

## REFEREE SELECTED

SAN FRANCISCO, May 16—Tex Rickard was selected this afternoon to referee the Jeffries-Johnson fight on July 4. He was a compromise choice and was accepted by both principals.

## ARBITRATORS' VERDICT IN RAILWAY DISPUTE

**New York Switching Rates Applied to Province of Ontario—Men Claim a Decisive Victory.**

NEW YORK, May 16.—The trainmen and conductors of the Lake Shore & Michigan Southern railroad, and the Michigan Central railroad have been granted wage increases identical with the Baltimore & Ohio, by the arbitrators, P. H. Morrissey and E. E. Clark. The announcement was made by A. B. Garretson, president of the railway conductors, today.

Mr. Garretson, and W. H. Lee, president of the Brotherhood of Railway Trainmen, issued the following statement: "The award of the arbitrators' in the Lake Shore and Michigan Central cases has been handed down and gives the same rates as obtained on the Baltimore & Ohio, thus making the rates on these two properties standard with the lines upon which settlement has been formerly made. The terms of the award are the same as the New York Central, without the deferred payment in any case. It establishes the New York harbor rate across the province of Ontario on the Michigan Central, from Detroit to Buffalo."

**Will Receive Back Pay.**

Mr. Garretson explained that the part of his statement referring to the "New York harbor rate" meant the "New York Switching rate."

In the cases covered by today's decision the fall rate takes effect on April 1, and the employees will receive back pay for the difference.

**Applies to Ontario.**

The New York harbor switching rates are those in first class yards, and will apply to all first class yards on the two roads, and all yards of whatever class in Ontario between Buffalo and Detroit, on the lines of the Michigan Central. The rates of pay under the agreemnt are to remain in effect for an indefinite period.

**Victory Decisive.**

"The victory is a decisive one all along the line," said Mr. Garretson, "and taken with the victory on other roads, is the greatest step forward which organized labor on railroads has ever won. It means the standard rates of pay which we have been seeking to establish throughout the eastern territories, are to be effective."

**Important Developments.**

NEW YORK, May 16.—Important developments are anticipated within the next few days in the railway wage dispute affecting eastern lines and those in the central west. A count of the strike vote which was ordered recently on the Erie, following the road's rejection of the demands of the conductors and trainmen, is set for today, and awards of the arbitrators in the wage controversy on one or more of the lines of the New York Central system west of Buffalo, are practically ready, with the possibility that they be publicly announced at any time. Many of the roads of the eastern territory have already come to terms with their employees on lines more or less closely following those agreed to by employers and employees on the Baltimire & Ohio system, this following the general agreement among the conductors and trainmen to make practically a uniform demand for wage increases among all the roads east of Ohio and north of the Chesapeake and Potomac. The situation on the Erie is regarded by railroad men as the most critical that has so far developed, and the road has claimed that it cannot afford to pay the rates granted by the Baltimore & Ohio and the Central and other lines.

**Expect Agreement.**

The men's representatives have insisted that their services were worth just as much to the Erie as those of their fellow organizations to the other lines. Hence the strike vote. However, while indications were that the Erie vote would be in favor of a strike if necessary, neither the road officials nor the men indicate that serious trouble was likely to result. It was generally believed that whatever the vote of the men, some basis would be reached and found satisfactory to all.

### BEAUTY AN ASSET

In his address to the Vancouver Canadian club, Rev. W. J. Dawson, the noted preacher and evangelist, spoke of the value of beauty in a community. In commending that city for preserving and creating beauty, he said that he considered beauty as one of the greatest assets a city could have and went on to say:

"Beauty is a commercial asset. Beauty is one of the greatest commercial assets a city can have, and, in city building not merely from the utilitarian standpoint, nor merely from the aesthetic standpoint, you should aim at having a city beautiful."

A beautiful city is attractive. It turns the balance in many a man's mind in favor of a community as a desirable place of residence. Every man thus attracted, brings wealth to the city. Beauty, too, makes the people in the community better satisfied with the place in which they live. It encourages them to stay there and to invest their money in the opportunities it has to offer. The beauty of a city increases and preserves the value of its property. That is the purely financial side of the matter. The culture and aesthetic side side is even stronger and it is beyond the power of any man to estimate the value of beautiful surroundings to the people of a community.

The splendid work of Chamberlain's Stomach and Liver Tablets is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Sold by all druggists and dealers.

Minard's Liniment for Corns.

# FORTUNES IN CALIFORNIA OIL

## One Good Investment Worth a Lifetime of Labor

## Here Is An Opportnnity for the Man with Small Means

This advertising announcement is especially directed to such readers of this paper as are honestly interested in their future; men and women who are not living altogether for today, but who have before them a definite fixed purpose, and so shape their destiny each day, by word and deed, so that at some date not far in the future they made be able to achieve the crowning event of their lives.

It is only human that we should each desire to have in our own name much of this world's goods, sufficient at least to provide for comfort and independence during our old age. It is quite true that only a lucky few attain this position in the days of their youth.

Are you satisfied with your future prospects?

Do you know beyond the shadow of a doubt that within three or five years' time you will amass a fortune?

Could you say to yourself, right now that in the next 18 months you will have practically made or saved from the investments which you are making today sufficient funds to provide for yourself and family a comfortable living for ten years time?

### Millions from a Few Dollars In Oil

Chanslor and Canfield were both poor prospectors. Realizing the great possibilities and future of the California oilfields, they placed their savings in the oil industry and are today rated as multi-millionaires.

Zed. Phillips four years ago last September, alighted from the train in the Coalinga Field, and was the possessor of $23. The magic "23" did not disturb him; he was the proud owner of a million dollars' worth of grit, nerve and energy. He worked hard, saved his money and did things. He invested his earnings in the oilfields and as a result he is now worth a quarter of a million.

It would be difficult to devote much space to such men as Doheny, O'Donnell, Chanslor, Hardison, Stewart and thousands of others who through small investments in the great oil industry in California became men of wealth.

### Don't Sigh and Regret --Do Something

We often look back and think to ourselves that had our foresight been as good as our hindsight, we would have done differently. This looking back to disappointments that have passed is particularly interesting in connection with the California oilfields.

### Others Have Made Money in Oil--Why Not You?

The following is a list of "IFS" that are opening investors' eyes to the possibilities of California oil shares:

If you had invested 100 at ground floor prices in

| | |
|---|---|
| Silver tip, you could have made | $ 600 |
| W.K. you could have made | 1,000 |
| Sterling, you could have made | 1,600 |
| Premier, you could have made | 1,300 |
| Monte Cristo, you could have made | 1,120 |
| Record, you could have made | 2,000 |
| S. F. & McK., you could have made | 2,400 |
| Sauer Dough, you could have made | 4,160 |
| Lucile, you could have made | 5,600 |
| San Joaquin, you could have made | 5,700 |
| Peerless, you could have made | 6,350 |
| Kern River, you could have made | 9,500 |
| Central Oil, you could have made | 15,000 |

If you had purchased Pinal Oil shares at 25c. a share, you could have sold at $25 per share; it pays a regular 10 percent dividend 15c. per share.

### A Monthly Income of $60 on an Original Investment of $100

When the "Silver Tip" well in the Coalinga oilfields came in, this stock jumped in a single night from 60c. to $4 and has been paying a dividend of 10c. per share ever since. This is recent history, having occurred but a short time ago.

You have the same opportunities today in the Coalinga oilfields and plenty of them, but you must think, reason and analyze for yourself before you can hope to acquire your share of the world's wealth, you must have the courage of your own convictions AND ACT.

### Advantages of Investment in Oil Securities

It is stated by the best oil authorities that 94 per cent of the wells drilled in the proven zone of the Coalinga field produce oil. You must therefore realize that the element of risk in an oil investment is practically eliminated. Furthermore, placing your money in oil companies means quick, and in most cases, large returns, particularly so in cases where the companies are operating in shallow territory which assures inexpensive drilling and quick action on the invested capital.

Crude oil at the present market price is being purchased from the producer at 63 cents per barrel at the well. Mr. Aubrey, California state mineralogist, states that oil at $1 per barrel is cheaper fuel than coal. Two and a half barrels of oil are equal to as fuel a ton of coal, so that quantity of oil at $1 a barrel, or $2.50, is the equal of a ton of coal at $8. Taking the federal geologists' figures as a basis for calculation, there is at present in the Coalinga district oil worth $2,000,000,000. The great Comstock mine produced only $645,000,000.

### The Property of the Coalinga Eureka Oil Company Close to Great Gusher Well

The holdings of the Coalinga Eureka Oil Company consists of eighty acres, situated in Section 24, Township 21 South, Range 14 East, Fresno county, California, seperated by only two sections from the famous Section 6, the home of the great "SILVER TIP" GUSHER, and of the Lucile, Amy Pacific States Oil Companies, etc., all of whom rank foremost among the big producers of this great field. Section 13, adjoining the Coalinga Eureka property is the scene of unequalled activity. Derricks have been built, tools hauled out and drilling operations are being carried on with relentless energy. It is the undoubted opinion of experts and practical oil men that Sections 18 and 24 are destined to produce some of the most remarkable wells in the Coalinga field. E. W. Preston, probably the best expert in the whole Coalinga field, and superintendent of the Consolidated Oil Oil Company (which adjoins our Coalinga-Eureka property) also general manager of the New York Coalinga & Aladdin Oil companies (all producing) writes regarding the property of the Coalinga-Eureka Oil company:

"You ask me to give an expert report on your land in Sections 24, 21 and 14. I have just returned from a very careful examination of the property. You have the same identical formation that has made the entire west side of the Coalinga field famous. You are sure to get good wells at medium depth. This property adjoins our property and I have been trying to purchase this same tract. While I regret that we were unable to procure it, I cannot refrain from congratulating you on securing such a desirable piece oil land. It means success to your company."

### Plans of the Company

It is the plan of the company to drill and complete at least four wells during the present year. These wells, according to the output of wells on adjacent property, should have an average yield of 400 barrels per well, or 1600 barrels per day, 48,000 barrels per month, which would enable the company to pay DIVIDENDS TO THE STOCKHOLDERS OF FROM 3 TO 6 PER CENT PER MONTH besides holding in reserve a large amount of money for further development.

### Stock and Disposition of Funds

To complete their first well, the Company is placing on the market a block of 50,000 shares of Treasury Stock, fully paid up and non-assessable, at 25c. per share; when this stock is disposed of the price will be materially advanced.

The money received from the sale of this stock will be expended in developing the property and not in fancy salaries. There are no salaried officials.

### Our Officers and Directors

**EDWARD MEATH**, the president, holds the very responsible position of treasurer of Pierce County, Washington. Mr. Meath is identified with some of the largest commercial and financial institutions in the state, and is considered to be one of the most forceful, energetic and successful business men in the state of Washington.

**HON. W. H. KERR**, the vice-president, is an ex-Superior Court Judge of Fresno county, California. Judge Kerr is one of the first settlers and pioneer operators in the Coalinga field. It is the consensus of opinion that he is today the best informed person re local conditions in the Coalinga oilfield as well as one of the ablest oil experts and operators in ALL the California oilfields. Judge Kerr will take care of all development work on the company's property, giving it his undivided personal attention, thereby assuring good judgment and conservatism in the management of the company's field operations.

**A. ROLAND**, the Secretary, is one of the early operators in the Coalinga oilfield and is prominently identified with the oil industry throughout the state of California. He is a man of unquestionable integrity and superior judgment.

**E. Y. GRASSETT**, one of Vancouver's most prominent contractors, a native son of Ontario, well known in social and commercial circles in Toronto. Mr. Grassett has proved himself to be thoroughly conversant with all matters of finance and from the manner in which he has succeeded in his own business, has been elected to the board of directors of this company. Mr. Grassett is a valuable acquisition to the Board of Directors; careful in his judgments, conservative in all his business undertakings, thoroughly experienced in the control of corporations. He will render a good account of himself and will surely act in the best interests of the shareholders of this company.

**H. S. FORD, M.D., C.M.**, one of our leading physicians, is a graduate of McGill University, Montreal, and is a well-known practitioner. He has established a most enviable reputation as a successful business man; far-seeing in all his investments and possessing natural shrewdness, he has proved himself to be a master of finance and a very capable able business manager.

So promising are the holdings of this company, so good the prospects of the same, that eminent geologists and oil experts say that the Coalinga-Eureka Oil company will bring into existence in the very near future oil wells which will produce enormous profits for the shareholders.

Now is your opportunity to acquire a holding in this corporation when the shares are selling at ground floor prices.

Only a limited block of stock is to be sold at the ground floor price of 25c. per share.

We expect that the issue of 50,000 shares at 25c. per share will be over-subscribed within the next two weeks time.

No applications will be received for shares at 25c. per share after Saturday, May 28th. Should there remain any unsold shares after that date they will be withdrawn from the market and a new issue placed on the market on June 1st at, in all probability 35c. or 40c. The price will be advanced from month to month as the development of the property warrants. It is expected that on the 1st of July the shares will be selling at 60c. or 75c. each.

Do not delay in mailing your application since this advertising announcement appears in over 200 publications, and there are only 50,000 shares to be sold at 25c.

Sit down now and wire the Coalinga-Eureka Oil company, Vancouver, to reserve your shares, then mail your cash payment by first mail.

**Remit by cheque, bank draft, express money order or postal note,**

and make all payments payable to GEORGE L. TASCHEREAU, Trustee for the Coalinga-Eureka Oil Company at par in Vancouver, B.C.

In directing your wire it will be sufficient to say:

**"The Coalinga-Eureka Oil Company, Vancouver, B. C.**

**Reserve.....shares, mailing remittance today.—Signed....."**

**No application will be received for less than 100 shares.**

**Remit all cash or on easy payment plan as per schedule attached.**

Remember this stock is non-assessable—the company is a limited liability corporation.

When you have paid your 25c. in full a certificate will be issued at once showing that your stock is fully paid up and non-assessable, each share having a par value of $1.

### What Your Money Will Buy

**Cash Plan (5 per cent Deducted)**

| | | |
|---|---|---|
| $ 23.75 will buy | 100 shares | par value $100 |
| $ 47.50 will buy | 200 shares | par value 200 |
| $118.75 will buy | 500 shares | par value 500 |
| $237.50 will buy | 1000 shares | par value 1000 |

### Installment Plan

| | | |
|---|---|---|
| $ 10 cash and $ 7.50 a month for 2 months buys | | 100 shares |
| $ 20 cash and $15.00 a month for 2 months buys | | 200 shares |
| $ 30 cash and $22.50 a month for 2 months buys | | 300 shares |
| $ 40 cash and $30.00 a month for 2 months buys | | 400 shares |
| $ 50 cash and $37.00 a month for 2 months buys | | 500 shares |
| $100 cash and $75.00 a month for 2 months buys | | 1000 shares |

Prospectus mailed on application.

Remember to address your application and make all cheques payable to

## Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which rarely progresses from bad to worse.

*It has been Dr. Pierce's privilege to care a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.*

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

***It Makes Weak Women Strong, Sick Women Well.***

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic medicine of KNOWN COMPOSITION.

## STARTS CAMPAIGN FOR PURE FOOD

Canadian Home Journal Urges Housewives to Look for Government Guarantee.

No one doubts the tremendous influence of woman if they are thoroughly aroused and when they appreciate how they are being duped and defrauded and poisoned the food adulterators will need to make themselves scarce. A word to the wise should be sufficient, and the wise manufacturer and wholesaler will begin to clean house at once. The Canadian Home Journal has drawn the first sword in this campaign in the May number.

"Health, like liberty, is only bought at the price of eternal vigilance. If we are desirous of securing it, we must not fail to study this question of pure food. Medicine is not food, and a baking powder containing cream of tartar, which leaves a residue of rochelle salt is an irritant and continual use weakens the stomach and bowels. All persons having weak stomach should avoid as irritant laxative mixture with their everyday food. As baking powder is on every shelf in the Dominion it is essential that it should be of the best quality. The housewives of the land cannot afford to have anything but wholesome nourishing ingredients in their bread and cakes.

**Alum.**

"Out of 158 samples collected, only 37 do not contain alum. According to the best medical and chemical authorities, the use of alum in food is injurious to the system, and particularly to the digestive organs. The heart and nervous system are also very liable to be affected. To safeguard the health of the family, the housewife should settle on some well known baking powder that is guaranteed by the manufacturers not to contain alum.

"The use of alum in foods in Great Britain has been prohibited for many years, and the same thing is true of many states of the union, and there are many reasons for supposing that the government authorities at Ottawa will not be long in following suit. Quite recently the state of Pennsylvania made very stringent laws in regard to the use of alum, and its use is now positively prohibited, not only in baking powder but pickles and other similar articles that are consumed by human beings.

**Baking Powder.**

"There is every reason to believe that a pound of first class baking powder in which alum is not one of the ingredients, can be obtained for 25 cents, and this should be the standard price for a first class article. There is no doubt the majority of the goods in the baking powder line, which are sold at the latter price, are not worth over half of this price. The anti-alum crusade is one of the livest topics of conversation in Canada today, and it seems rather strange that, considering the poisonous effects of alum, that the ladies have not become interested in this matter sooner. A general agitation by women on the non-use of alum will likely be productive of considerable good.

**Cannery Waste.**

"The worst practices that have ever prevailed in the States and Canada have been the use of unfit raw materials; cheapening adulterations, such for instance, as apple juice colored and flavored as a foundation for currant jelly; the use of tomato cannery waste—skins, cores, rotten tomatoes, etc.,— as a stuff from which to make tomato catsups and soups; the use of old evaporated fruits, more or less spoiled and vermin infested, out of which to make preserves; the use of glucose instead of granulated sugar in sweet goods and, also the use of Saccharine to take the place of granulated sugar; the adulteration of vinegar by an admixture of water and chemical acetic acid, obtained from the destructive distillation of wood.

**Dear Cheapness.**

"The great snare of the unskilled housewife is the advertisements which extols the cheapness of certain foods. There are women so entirely lost to the best interests of their households as to squander their money on preserves, jams or spices advertised as bargains. These foolish matrons never seem to pause to consider what cheapness means in inferiority of material. You cannot obtain pure food at cut prices.' Cheap butter, cheap preserves, cheap cloves, and cheap catsup means that you are buying adulterated goods. If you prefer to feed the family on rotten fruit skilfully disguised, if you do not care whether nutmegs are the real thing or a wood substitute, by all means buy the bargain foods.

**Pepper.**

"Pepper is an article which is frequently adulterated, and which should be carefully examined as to strength and quality. A certain firm was offering pepper in pails at a price which was surprisingly low. An expert in pepper who was talking to one of the firm's customers, declared that the article could not be pure and sold at the price alleged.

"'To prove it,' said the expert, 'telephone and ask them what they will charge for whole Singapore pepper.'

"The answer came back promptly and, strange to say, the unground pepper would cost more than which was ground. As it costs one-half cent to grind and three-fourths of a cent to put in pails, the inference was obvious.

"The adulterants of pepper are flour, cocoanut, pepper-shells, cocoanut shells and ground olive stones. The last named adulterant is decidedly harmful, as it is indigestible to a dangerous degree.

**Lime Fruit Juice.**

"Lime fruit juice, or lime juice, as it is more commonly called, is an object of frequent adulteration and only the best brands of this beverage should be procured. It is a most refreshing and beneficial drink, when obtained in a pure form and is extensively used in fevers; but care should be taken to examine label and brand. This is becoming an increasingly popular article in Canada, and it is used in jellies, fruit sauces and puddings with a piquant effect in such dishes. But acid adulterants are common, and the housekeeper who wants genuine lime juice must 'look out for the label.'

**Spices.**

"The story is told of a traveller in the employ of a certain Canadian spice manufactory, who called on a grocer in a small northern town and was met with a refusal. 'Yes, sir,' replied the grocer, 'ground cloves, cheaper by 10 cents a pound than you can sell them.'

"'Then I'll take a package,' said the traveller, who is a man of resource. The firm which he represents is one which has been making an effort to procure and manufacture high-class goods, in spite of the fact that the Canadian housewife requires to be educated up to pure food values. Consequently their representative was anxious to see the quality of the cheap packages of ground cloves—and was willing to spend a few cents on the investigation. He opened the package, of dull brown powder between finger and thumb and smelled in superior fashion.

"'What's the matter?' said the grocer suspiciously.

"'I don't wish to be disagreeable,' was the reply, 'but I hope you don't sell that ground cloves.'

"'Why not?'

"'Just let me know you some,' said the travelling man, with an irritating air of explanation. He produced a small package, which he opened and offered to the grocer. The latter looked crestfallen, as he surveyed the brighter mixture, from which came a pungent whiff of genuineness. There was a decided difference between the two packages—the difference which always exists between the spurious and the genuine.

"'Well, the people won't pay your price,' said the grocer.

"'Well, so much the worse for the people,' came the reply. 'They're buying more food than experience just now. But they'll find out.'

"So the traveller came back to the city firm, bringing with him the package of cheap cloves. Within a month, there came a letter from the grocer in the northern town, ordering the goods "which came a little high, but are worth it." Of course, if a woman prefers sand or starch sprinkled over the apple sauce, to nutmeg or cloves, why, she will persevere until she comes to a cheap package and congratulate herself on being economical.

**Look at the Label.**

There is one thing which every housewife can do, in order to assure herself that she is obtaining the pure material, or, at least, that which is certified pure. She may look at the label on bottles or boxes to see if they are marked 'pure,' 'mixture' or 'compound.' It must be borne in mind that in many cases a compound is an entirely useful and legitimate article.

"As a prominent firm has remarked: 'We feel that one of the most important safeguards to the matter of preventing fraud is truthful labelling and the strict enforcement of the label regulation.' The public has a right to know what is being bought, and it is woman's duty, as purchaser for the household, to acquaint herself with the various substances used as food stuffs and to examine the package, with a view to discovering the quality of the contents.

"The government form of warranty reads: 'We hereto warrant the contents of this package as manufactured by us, to be pure and unadulterated, in accordance with the warranty provided for in the third schedule of the Adulteration act, chapter 133 of the revised statutes.'"

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. Sold by all druggists and dealers.

## Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

**New Perfection**

WICK BLUE FLAME

**Oil Cook-stove**

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

# Reasons Why VANMINSTER Is the Premier Subdivision

VANMINSTER lots are within 3-4 of a mile of the centre of New Westminster.

If we were to make you a present of a lot 50x160 feet in its natural rough state, you could not bring it to the present high state of cultivation of our Vanminster lots for the price we are selling them at.

VANMINSTER Lots have from eight to twelve fruit trees, from six to twelve years old, growing on them. Some lots have strawberry plants, and almost every foot has been so well cultivated that the land can be worked with a garden hoe.

VANMINSTER Lots are situated on Third avenue and the municipal council has appropriated $15,000 for macadamizing the road and building sidewalks the full length.

VANMINSTER lots are 25x150, 50x152, and 50x162.

VANMINSTER Lots are situated between two of the fastest growing cities on the North American continent, having at present a combined population of 130,000.

VANMINSTER Lots are less than ten minutes' walk of the New Westminster city electric cars.

VANMINSTER Lots are less than ten minutes' walk of the new Vancouver-Sapperton line.

Car Fare to Vanminster Lots is 17 1-2 cents from Vancouver, and 4 cents from New Westminster. You make a big saving in taxes by living on Vanminster lots.

Our price for cleared and planted Vanminster lots is no higher than unimproved lots in the same locality.

New Westminster today is a city of 14,000 inhabitants and in the last three years has made very rapid progress and is now growing faster than at any time in its history. The largest manufacturing concerns of the coast are establishing plants there and today New Westminster boasts of one of the largest monthly payrolls in British Columbia. Vancouver's tremendous growth has a great bearing on the development of New Westminster. Westminster property is today away below the price of Vancouver real estate, and therefore, manufacturing concerns requiring large areas of ground find it more satisfactory to go to Westminster than to endeavor to conduct manufacturing concerns on high priced Vancouver property. With the building of several new transcontinental railways to the coast (two of which at least, will have wharfage facilities in New Westminster) the building of grain elevators for the handling of the wheat crop of Sunny Alberta, the large salmon fishing industry, and lumber mill operations already established there, only serve to bring to mind the unprecedented development that must take place during the next two or three years. The excellent system of electric transportation maintained between Vancouver and Westminster by the B. C. Electric Co., which is now operating a service on two distinct routes between the cities, and with a third line building, ensures the ultimate junction of the two places into one of the largest commercial centres on the North American continent.

## Vanminster Will Make Money for You if You Make Your Selection NOW

The immense development planned for the next few years will do the rest.

Buy while you have the opportunity. Selling fast. Only 28 lots unsold. You will have to hurry to secure lots in

# VANMINSTER

Guaranteed to be exactly as represented or money refunded.

Prices of lots, 25x150, cleared and planted $250 each; $20 cash, $10 per month.

Lots 50x-50, cleared and planted, $500; $20 cash and $20 per month.

Twenty-six lots sold this week. But now, the profit is yours after the first payment.

## WHY IS THERE NO RUSH TO OUR VACANT LANDS? THE REAL REASON.

The flow of immigration to the Canadian west is on a phenomenal scale. Its immensity is such as to attract the attention of the whole civilized world.

Estimates from authoritative sources place the total number of immigrants into Alberta and Saskatchewan this year at 100,000. That is at the rate of a million people in two years, going into provinces whose total population when the last decennial census was taken was less than 200,000.

If such a flood of human beings had poured into England or Italy or Gaul some centuries ago, we should all be duly impressed with its magnitude as an historical event. Our descendants will learn that in the year 1910 this mighty tide rose highest in the province of Alberta and that at the invisible boundary line between Alberta and British Columbia it stopped short.

Why has it halted there? Has British Columbia no vacant lands or does her climate forbid settlement? Is the flow to the prairie due to geographical conditions found there and not found here, or is it due to work done to bring about settlement there and not done to bring about settlement here?

The true answer to this question may be worth discovering. If conditions imposed here by nature are such that settlement must proceed slowly, let us look that fact in the face and govern ourselves accordingly. If on the other hand no such conditions exist, if by the use of the same means that have been employed there our valleys and bench lands may be settled as rapidly as the prairie, or anything like as rapidly, why should we not employ those means? Are we less interested in the development of our lands, or have we less ability to accomplish what we set ourselves to do?

In its broad outlines the history of the settlement of the Canadian prairie may be stated very briefly: By 1881 there were one or two thousand miles of railway in operation. The C. P. R. and the "competing" N. P. R. were offering transportation facilities to millions of acres of vacant lands. Farmers, mainly from Ontario, had been going in and by that time numbered some 15,000. But further immigration came with disappointing slowness. By 1896 the agricultural problems of the new country had been solved and most settlers of the right sort were doing fairly well. A new government came into power at Ottawa, and still the rate of immigration continued to be as disappointing as before. But seven years later, about the year 1902, a new era began.

It was not for want of vigorous immigration work on the part of the government that it did not begin sooner. Mr. Sifton's administration of his department is open to serious criticism in several respects but not on this score. For seven years, ever since he took charge, the immigration work had been carried on with remarkable energy and ability. Still, except in Galicia, the results had been comparatively small.

The year 1902 brought two new factors into the equation. In the first place, a second Canadian transcontinental railway, the C. N. R. took the field, incidentally acquiring the old N. P. R. lines and giving important reductions in rates which added considerably to the farmer's net revenue. In the second place, a new, and as it proved, immensely effective kind of immigration work was begun, not by the government nor, at the outset, by the railways, but by certain land companies.

Up to 1902, the methods in use were much like those still employed to settle British Columbia, and the results were much the same,—something was accomplished, but progress was slower than could be wished. That is to say, a campaign of publicity had been carried on, and offices had been opened at many points where information and literature could be obtained. There had been plenty of land companies, too, but of a different sort from the new companies which now began to operate.

The old land companies were managed in rather an amateur way so far as the land selling part of their business was concerned. Most of them had bought their land outright or had secured it as railway subsidies. They had held it for a good many years and were bringing in very few people. Their method consisted chiefly in maintaining a few offices where any one who wanted to could get their literature or buy some of their land. Between these companies and individual speculators a large area was withheld from the homesteader and at the same time little effective effort was being made by its owners to bring in purchasers.

The new land companies worked in an entirely different way. Settlement was their business. They did not buy land to hold as an investment. They began with a knowledge of men who would make actual settlers and who would buy if the right thing were offered. They looked around for suitable land and when they had found it took an option or bought on time making only a first payment. They bought no more than they could quickly find buyers for. That sold, they repeated the operation. With comparatively small capital they were thus able to handle large areas.

John Smith in Illinois knew a number of farmers there who had sons growing up and who would like to move to some newer state where land was cheaper. They could not all go roaming around the country looking for some place where such land was to be found. But John Smith heard of some, say in Dakota. He looked it over and saw that it was suitable. He bought it, paying perhaps only a small deposit down. Then he went to his farmers and told them of it. He got them to come out and have a look at it, paying their fare if necessary and adding that to the price he charged them. Knowing the men and knowing what they wanted he generally made sales.

The business grew up. A number of John Smiths were at work. They began to form small companies. Then Col. Davidson, a Toronto boy who had gone to St. Paul, came along and organized the business in a still larger way. He bought land in larger tracts and worked through a number of smaller companies each with its staff of men with local knowledge of where buyers were to be found. He took over the greater part of the Northern Pacific land grant and sold it for that company. Then his attention was turned to the Canadian prairie. He used the same organization of agents and the same methods on a larger scale. His success was immense and immediate. Other American companies in the same business observed this and followed his example. Western Canadians formed companies, went down into the States and secured groups of local agents by co-operating with local men. That sort of work is what started the inflow of American settlement.

It was greatly assisted of course by the publicity work of the Dominion government, by the government's immigration agents and by the railways. When fifty or a hundred thousand American settlers were in the country and prospering, that helped still more. To-day the land companies and their organization in the States from which the settlers are brought, might be entirely withdrawn and still the people would come in.

But it was the work of the agents of the land companies that started the movement on a big scale,—their personal knowledge of good, available settlers, their personal, house to house canvass of such men, their free excursions bringing in men who might buy or not just as they saw fit but who generally bought when they were shown the land and told its price. It was work much like that of a commercial traveller or of the travelling agent of an insurance company. It was just as necessary if the business was to be got. How the American inflow built up values, and how it has led to an almost equally great inflow from Great Britain is now an old story.

When similar methods have been tried in British Columbia on a similar scale and have failed, it will be time to say that the difference between the rate of immigration here and that on the prairie is due to some inherent difference in the face of nature. We are told sometimes that settlement must be slow here because we want only men with capital. But the average American immigrant is a man with capital. At least fifty per cent. of them have anywhere from five to fifty thousand dollars per head of family. We are told that what accounts for the rush to the prairie is the quickness with which the land can be brought into bearing. But, for one thing, land here can quickly be brought to yield vegetables and small fruits for which there is a good demand; and, for another, little difficulty seems to have been experienced in settling similar fruit lands in the Pacific states.

The essential thing in the methods which have led to such results on the prairie is not, of course that they should be carried on by land companies nor that they should be carried on in the United States. It is the personal canvass of possible settlers by agents who know the men among whom they are working, who know the land to which the settler is invited, and who address themselves only to men who will make successful settlers. Such work can be carried on in Manitoba or in Great Britain as well as in Iowa or in Dakota, and it can be carried on by associations of land owners as well as by railway companies or by such companies as operated on the prairie.

## REV. DR. FERGUSON READS STATEMENT

### Moderator of Synod of British Columbia Describes Position in Which he Finds Himself Placed

At the close of the forenoon service last Sunday in St. Paul's Presbyterian church Dr. J. T. Ferguson read the following statement:

"I have scrupulously refrained, often with difficulty, from referring in the pulpit to the proceedings in the city council. But on returning late last night from Vancouver, where, as moderator of the synod, I had been in correspondence with the Queen Mother and his majesty the King in reference to the great national bereavement and the accession, and where I had been called on to take a leading part in memorial services attended by thousands of the citizens, I was more than astonished to read the report of remarks made by his worship the mayor at the meeting of the city council last Monday, remarks which exhibited the clergy of the city in odious light, and reflected upon them as unfitted to be entrusted with responsibility on an occasion of public mourning. If in view of these remarks I find myself unable to take part in the civic mourning, I wish it to be understood that this will not be due to any feeling of disrespect towards the memory of our late deeply lamented sovereign."

Dr. Ferguson added that he deeply regretted the necessity of making this statement.

Minard's Liniment Co., Limited.
Dear Sirs,—Your MINARD'S LINIMENT is our remedy for sore throat, colds, and all ordinary ailments.
It never fails to relieve and cure promptly.
Yours, CHARLES WISOOTEN.
Port Mulgrave.

## PIONEER MEAT PACKED DEAD.

CHICAGO, May 16—Samuel Gregsten, aged 64, retired board of trade operator and capitalist is dead at his home in West Hinsdale. Mr. Gregsten was one of the pioneers of the meat packers of the city. Before coming to Chicago he operated a line of steamboats and barges on the Mississippi and Ohio rivers and was the first man to carry coal by river from the Pennsylvania fields to New Orleans.

## REHEARING OF OIL CASE.

WASHINGTON, May 16—The supreme court of the United States today fixed November 14 as the day for the re-hearing of the Tobacco and Standard Oil cases.

## JUDGE APPOINTED RECEIVER.

COLUMBUS, May 16—Judge Kinkaid has been appointed receiver of the Hocking Valley Railway company.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by all druggists and dealers.

# A Marvelous Invention

## A gas range that can be changed to a coal range in three seconds

"Made in Canada"

The Champion Interchangeable can be changed from a gas range to a coal or wood range in three seconds. There isn't a single bolt to remove or a screw to turn. The operation is so easy a child can do it.

In natural gas districts, where gas is liable to fail any time, the owner of the Champion always has a good coal range to rely on. No other range like the Champion—the most convenient range in the world. Takes the place of two ranges (gas and coal), thus saving room in the kitchen.

# Champion INTERCHANGEABLE GAS, COAL & WOOD Range

The Champion Interchangeable has caused a sensation in United States during last three years. We bought the rights to make it in Canada. We've improved it, too. Get our agent to show you the Champion Steel Range, or write our nearest office for Champion booklet.

## ORDINATION

(Continued from First Page.)

more earnest work along the lines of temperance reform. The Rev. Dr. Chown gave a most telling address on the White Slave traffic and the attempts that are being made to stamp out this evil from the land.

The conference is nearing its closing sessions and it is expected that the bulk of the business will be completed by tomorrow noon. The stationing committee had a long session last evening in an endeavor to get their work complete. Several committees are now ready to report and the whole day tomorrow will be given up to discussions of some important deliverances.

**Vote of Thanks.**

A most hearty vote of thanks was tendered the board of trade for their kindness in providing the entertainment of Saturday last on the motion of Mayor George Bell of Enderby, seconded by J. L. Hartwell.

**Columbian College.**

The board of Columbian college presented their report yesterday afternoon. The report showed that the college was in a splendid position both as regards students and also as regards financial standing. Some very important improvements to the building and equipment were recommended and the college will be in splendid shape by the time the fall term opens.

The directors presented a resolution through D. S. Curtis tendering the thanks of the directors to Principal Sipprell for his work in securing the subscriptions to the $100,000 fund and granting him a honorarium of $1000. Dr. Sipprell in accepting the gift said that he would not think of receiving the money until the larger share of the fund had been paid in. He was anxious for the success of the institution and would still give his best work to make it a complete success.

**Statistical Report.**

The statistical report for the year ending April 30, 1910, contained the following records of progress:

| | |
|---|---|

| Increase | 29 |
| New churches | 14 |
| Value | $ 44,455 |
| New parsonages | 6 |
| Value | $ 10,550 |

## COLONIZER PARTY AT LAST ARRIVES

English Visitors Will Have Trip up Lake Today—Tomorrow They Will Visit Proctor.

The Colonizer party, consisting of 12 members representing business interests of the Old Country, under the leadership of the editor of the London Colonizer, F. W. Frier, arrived in Nelson last night, by the Crow boat, two days later than the original schedule. The first thing the tourists commented upon was the delightful weather here and Nature's beautiful garb of green, in contrast to the unpleasant conditions prevailing throughout most of their journey. The party was met last night by F. A. Starkey, and E. K. Beeston, respectively president and secretary of the board of trade, as well as other members, and arrangements were made for the scheme of entertainment that had been planned.

At 9:30 o'clock this morning, the party, under the escort of several members of the board of trade, will proceed in two large launches to the ranch of C. W. Busk, up the arm. They will be entertained by Mr. Busk at luncheon. In the afternoon the ranches of J. J. Campbell and Macdonell & Doyle, will be visited, before the return to the city is made.

Tomorrow will be devoted to a visit to Proctor, the ranchers of the outlet town having extended a cordial invitation to the party, to inspect the ranches of the neighborhood.

From Nelson the party will proceed to the Okanagan, and thence to the coast. The only previous stops have been, Montreal, Toronto—with a day at Niagara falls—and Winnipeg.

The party consists of Mr. and Mrs. F. W. Frier, Francis J. Dotts, London; Mr. and Mrs. W. Haynes, Miss Haynes, W. Haynes jr., Reading; T. W. Canch, Edinburgh; J. P. Hayley, Huddersfield; A. Strickland, A. R. Strickland, Godstone.

### THE ZAMBESI BOAT RACE

LONDON, May 16—In an interview, Arnst, the champion sculler, said he had not signed articles for a race on the Zambesi, as those proposed stipulated Thames rules and he had demanded the usual championship rules.

### WHITMONDAY HOLIDAY

LONDON, May 16.—All European and continental exchanges are closed today.

W. J. Farmer, the Castlegar merchant, was in the city yesterday.

A General meeting of the Lacrosse club will be held tonight at 8 o'clock in the board of trade rooms, to receive the report of the committee on the waterfront plan.

Ask for Minard's and take no other. Never hesitate about giving Chamberlain's Cough Remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds to which children are susceptible, it is unsurpassed. Sold by all druggists and dealers.

## IS DIES NON

(Continued from First Page.)

waiting it may give the English church committee time to shift the rock off block 2 next to the road, which they were holding for themselves to build a retaining wall in front of their plot." All private and societies' lawns are in the best of condition. He asked for $10 or $15 worth of flowering annuals to beautify the grounds. The report was adopted and will be drawn to the attention of the church of England.

**Scandinavian Society**

The mayor reported that the Scandinavian society intended to celebrate June 24 by a picnic at the park and asked for permission for the sale of refreshments on that day. The request was granted R. A. Brown mentioning incidentally that the new street cars would not be shipped from Ottawa before June 15 and that the cars would not be running in Nelson before July 15.

**Sidewalks**

Ald. Carrie reported that the sidewalk opposite the Y.M.C.A. needed to be relaid and a new sidewalk was needed on the south side of Victoria street. Referred to board of works.

**Fire Bylaw**

Ald. McDonald gave notice of an amendment to the fire bylaw. His intention is to take in lots 66, 67, 68, 60, 61, and 62.

**Public Fountain**

Ald. McDonald also drew attention to the need for a public fountain for horses and human beings. On motion of Ald. McMorris seconded by Ald. Wells the public works committee will be requested to select site and report the cost to the council.

**Band Stand**

The band stand question was reintroduced by Ald. McDonald who suggested alongside D. J. Robertson's or next the Hume hotel as desirable sites.

Ald. Wells was willing to grant permission for the stand to be placed near the Hume hotel but thought that the public would regard it as a private enterprise if placed there.

The mayor thought the wharf the proper place. Ald. McDonald feared that children would be drowned. The mayor thought that would be no worse than falling 20 feet off the court house wall. Next to D. J. Robertson's would be a nice place to store the stand. Ald. Carrie thought Victoria street the proper place. Finally the council decided to take another week to think it over.

**Sunday Ball**

During the discussion of the circus question Ald. Rutherford protested against the baseball club being granted permission to charge a fee for admission to the baseball grounds for Sunday games.

**Water Connection**

W. O. Miller wrote asking for water to be laid from Nelson avenue to the C.P.R. section house on the north side of the company's track about one mile east of the station. The water will be laid at the company's expense. Peter Anderson also wrote regarding water connection with his property at Fairview offering to do all the work of digging and back filling, also to help lay pipes if city will furnish pipes or he would run a half inch pipe from the main on Second street to his property at his own expense. The city engineer was instructed to act in accordance with the terms of the request.

The mayor presided and all the members of the council were present.

### BAD STOMACH.

Many in Nelson Are Being Thoroughly Purified by Miona, the Guaranteed Cure for Indigestion.

People of Nelson who suffer from dyspepsia and other stomach troubles are getting tired of taking preparations containing pepsin, because pepsin simply digests the food artificially. Pepsin relieves, it never cures.

And remember, pepsin only digests animal food; it has no effect on starchy food, such as potatoes, rice, bread, etc.

Mi-o-na cleanses and purifies the stomach and bowels, and tones up and puts energy into the stomach walls, so that they properly mix the food with the natural digestive juices of the stomach.

Mi-o-na takes quickly arouse the stomach from inaction, and in a few days it is able to do its work easily and without exertion. There will be no more sour stomach, fermentation of food, dizziness, sick headache, belching of gas, or foul breath.

Mi-o-na only costs 50 cents a large box, and is guaranteed by the Poole Drug company to cure dyspepsia, sea or car sickness, vomiting of pregnancy, and stomach sickness resulting from over-indulgence of the night before, or money back.

### The Underwear You Want

### Here's the Most Complete Stock of New Muslin Underwear

Have you bought your summer underwear? Warmer days will soon be here and with the advent of warm weather comes the urgent need of cooler underwear.

Perhaps you've planned just the kind and amount of underwear you intend purchasing—or probably you want to see a full selection of kinds and prices before you decide—in either case a visit to this store is the wisest course.

The extensive range of styles and prices, so characteristic of the store in past years will be more pronounced this season than ever. Stocks are splendidly good. All sizes and styles, muslin underwear of superior quality.

Come and see how well we can serve you in these lines.

### MORTGAGE SALE OF KOOTENAY FRUIT LANDS.

Under the powers contained in a Mortgage, which can be inspected at the Land Registry Office, Nelson, British Columbia, (registered April 25, 1908, No. 23483), and a copy of which will be produced at the time of sale, there will be sold at Public Auction at the Courthouse, at Nelson, B.C., on Monday, the 23rd day of May, 1910, at 2.30 p.m., the following lands, situate in West Kootenay District, British Columbia:

(a) Sublot No. 25 of Lot 406, Group 1, situate about two miles east of Robson, on the line of the Canadian Pacific railway, fronting on both the Columbia and Kootenay rivers, containing 24 acres.

(b) Sublot 10 of Lot 406, Group 1, adjoining the above-mentioned Sublot 25 on the north, fronting on the Columbia river, and containing 12.48 acres.

(c) Sublot No. 6 of Lot 406, Group 1, situate about three miles west of Robson, one-quarter of a mile from the Columbia river, containing 20 acres.

(d) Lot 608, Group 1, situate about one mile west of Robson, fronting on the Columbia river, containing 36.96 acres.

(e) Lot 624, Group 1, adjoining Lot 620 on the south and containing eighty (80) acres.

Full particulars and terms of sale can be had on application to the undersigned.

Dated at Nelson, British Columbia, this 24 day of March, 1910.

LENNIE & WILGGIN,
Solicitors for Mortgagee.

MUST BE SOLD
Seven-Roomed House at a Snap

We have been instructed to offer for quick sale a first class seven room house on Mill street close in, and within five minutes walk of the postoffice. The house is plastered and has three bedrooms, good cellar and all modern conveniences. There are two lots and location is one of the best.

For a few days we have been instructed to offer this first class residence at the low figure of $2,450. A small cash payment of $300 will give you possession and the balance can be arranged either monthly or to suit your convenience.

If you are looking for a nice home do not neglect looking over this property.

McQUARRIE & ROBERTSON,
419 WARD STREET NELSON, B.C.

# RETIRING FROM BUSINESS!

BY our honest dealing, doing strictly as we advertise, our great CLEARING OUT SALE attracts more and more each day. We have gained the confidence of the most skeptical. Every price advertised remains until the article is sold out. There is no juggling with or misrepresentation in prices. ## J. H. WALLACE, 506 Baker Street

## Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of the hard wheat used, but also the superior milling facilities, that places "PURITY" flour so far above all others. Our milling plant at St. Boniface, Manitoba, cost nearly $1,000,000, and is one of the most perfectly equipped mills in the world. The wheat itself is subjected to the most wonderful system of cleaning and scouring, passing through twenty distinct machines. Fifty-five steel rollers, the largest in Canada, reduce the wheat into flour. Then it is purified and dressed by "bolting" it through silk sifters of fine mesh. Not a "branny" particle or speck of dust is ever found in "Purity" Flour.

You may have to pay a little more for Purity, but baking results, quality and quantity, prove it is worth far more than the slight difference.

We have two other modernly equipped mills at Brandon, Man., and Goderich, Ont.

# LIFE IMPRISONMENT FOR DR. HYDE

**Is Found Guilty of Murdering Thomas Swope—Counsel Will Move for a New Trial**

KANSAS CITY, May 16—Dr. Hyde was found guilty at 10:30 this morning of murdering Thomas E. Swope. His punishment was fixed at life imprisonment.

**Wife Distressed**

"Oh, Clarke," cried Mrs. Hyde when the verdict was announced. She threw her arms about his neck and wept silently. Then she patted her husband on the cheek. Dr. Hyde sat motionless. He looked firmly at judge Latinaw while the verdict was being received. As the words "imprisonment in the state penitentiary during his natural life," were pronounced, his eyes fell upon the floor.

"Don't worry, dearie," said Hyde to his wife as she clasped him in her arms.

Mrs. E. W. Hopkins and Miss Laura Hyde, sisters of the prisoner, were distressed but did not break down. They tried to comfort Mrs. Hyde. "We shall hope for the best," they said. "We don't understand the verdict; Clark is an innocent man."

**New Trial**

"I haven't lost hope," declared Hyde. Within ten minutes after the verdict was returned the doctor was on his way to his cell.

"I will file a motion for a new trial and then take an appeal in the case," said Frank Walsh, chief counsel for Hyde. The verdict came unexpectedly. Every attorney in the case had given up hope of the jury, which had been out since Friday night, reaching an agreement. It was reported this morning that one juror vowed he would not vote for acquittal until "I die of old age."

## MEN AND WOMEN

The Duke of Connaught has always been a great traveler, and his latest expedition to Central Africa will not be his first visit there. His royal highness has been over most of the roads of the world, and he can tell the good stories he has collected on his travels with a humor worthy of his Irish name. Everybody knows the story of how the Duke of Connaught came to be given the name of Patrick by his sponsor the Duke of Wellington. Queen Victoria was driving through an Irish district, when an old beggar wife hobbled across her path and cried, with high pitched fervor, "Oh, Queen, dear, call the next one Patrick and all Ireland will die for ye."

**A Cardinal Who Plays Golf.**

Cardinal Merry del Val, who came into unpleasant collision with ex-President Roosevelt, is to some extent a Londoner, for he was born about 45 years ago in Portman Square, where his father, descended from an Irish family of Morry, was secretary to the Spanish embassy. He also received his early education in England, where his propensity for playing practical jokes procured for him the punning nickname of "Merry Devil." The cardinal-secretary of state is one of the few members of the Sacred College who can speak English with fluency, and is the only cardinal who plays golf.

**Bismarck's Doctor.**

The king of Sweden has gone to Nice, says the London Chronicle, to consult Professor Schweninger, who was Bismarck's "Bantzer," or fat-reducer, and his body doctor for many years. Schweninger was the hundredth doctor whom Bismarck had consulted—the ninety-ninth having diagnosed the ailment as cancer in the stomach. When Schweninger was first introduced to Bismarck by his younger son, Count "Bill," whose bulk the new doctor had reduced, the chancellor complained that he asked too many questions. "Very well, then," said Schweninger, "you had better call in a veterinary surgeon; he won't ask you any."

**The Duchess' Adventure.**

A comical misadventure happened recently at Marseilles to H.R.H. the Duchess of Fife. Her royal highness was on her way to Egypt on board the India. When the boat stopped at Marseilles, she went on shore for telegrams. Her royal highness asked the authorities to make a search, feeling certain, she said, that there must be something for her. A search was made, and in the dead letter office a letter was found addressed: "H.R.H. Duchess of Fife, Marseilles." It had been returned marked "Boat unknown." The telegraph officials had jumped to the conclusion that the name on the telegram was that of a boat, and the initials, "H.R.H.," those of the passenger.

**A Joke on Mark Twain.**

"The Jumping Frog of Calaveras County" finds prominence in every obituary tribute to Mark Twain, says the London Chronicle. It was the gem of fun which first revealed to the world that it possessed one more great humorist. But Mark Twain lived to find himself accused of having stolen the gem from an ancient Greek author, whose story in the original was published for the edification of the scholar and the confusion of the plagiarist. And then came the simple explanation; the ancient Greek author was only Arthur Sidgwick, who had rendered the "Jumping Frog" into excellent classical Greek in a volume of composition specimens. Nobody enjoyed the joke better than Mark Twain and Mr. Sidgwick, who humorously complained of having been supposed to have flourished many years B.C.

## SUNDAY SCHOOL DELEGATES ARRIVE IN WASHINGTON

NEW YORK, May 16—One hundred and ten delegates to the sixth Sunday school convention at Washington were arrivals today on the steamship Celtic. The delegates are from Ireland, England, Scotland, Wales and Sweden. Among them was the Rev. Francis Connell of Stockport, Eng., who is superintendent of a Sunday school which is said to number 7040 members and to be the largest in the world. The delegates are to go from here to Philadelphia and then on to Washington in which they will be from the 19th of the month to the 27th. They will go from there to Niagara Falls, thence to Toronto and from the latter place to Boston. They will sail from Boston on June 7.

## It Just Depends

ON WHO SAYS IT

If some stores were to advertise to sell a 80 sack of potatoes for $1.35 what would you say?

If you happened to read the ad at all you would say: "That's a fake."

And in a good many cases you would be right.

It isn't what is said in an ad. that makes it true—it's who says it.

When Joy says you can come here and buy a 80 sack of Potatoes for $1.35 you can depend on it being so.

Try a sack—100 lbs., full weight.

## NELSON NEWS OF THE DAY

(Additional local news notes on page 8.)

The Nelson committee of the Canadian Bible society will meet on Wednesday at 7 p.m., in St. Saviour's class room.

On Friday next, owing to the burial of his late majesty, the store of the Bell Trading company will be closed during the afternoon. On Wednesday, however, it will be open all day.

William Henry Waters of Nelson was married to Miss Annie Wade of Nelson yesterday evening in St. Paul's Presbyterian church by Rev. J. T. Ferguson, D.D. The happy couple left by the coast train for Vancouver, where they will reside in future.

The Presbyterian girls' mission band were at home in the church yesterday evening and welcomed their friends. Recitations were given by Misses Bernice Robertson and Isabel Form, and readings by Misses Naomi Butchart, Isabel Thomson and Nora Patterson, all illustrating foreign missionary work. Lantern views were exhibited, showing scenes from Bunyan's Pilgrim's Progress, and views of London. Refreshments were served at the close.

The regular meeting of the Nelson lodge of the Knights of Pythias, No. 16, will take place in Castle hall, Eagle block, tonight at 8 o'clock. Nomination of officers will take place, there being no meeting next Tuesday, which is May 24.

His worship, Mayor Selous, requests the merchants, and others engaged in business, to close their places of business on Friday afternoon, so as to give everyone an opportunity to attend the public memorial service for his late majesty, King Edward, at the recreation grounds.

Sunday was another perfect day for trout fishing, and anglers were everywhere in evidence. The usual number of boats were out on the pool at Sloan Junction, which, true to its record, led all other spots in quantity of fish taken. The fish were striking freely, but not strongly.

In St. Paul's Presbyterian church, Nelson, yesterday evening, James Cleaver Burgess of Salmo was married to Mrs. Minnie Smith of Nelson, by Rev. Dr. Ferguson. The happy couple leave this morning for Salmo, where they will reside in future.

The Presbytery of Kootenay will meet this evening in St. Andrew's church, Kaslo, for the purpose of inducting Rev. H. R. Robb to the pastoral charge. Dr. J. T. Ferguson will preside. The sermon will be preached by Rev. R. H. Gilmour, and the charge will be delivered by Rev. P. McNaib.

Visit Cornwall & Co's new store and buy some of their celebrated cakes. 9-tf.

Private sale of household furniture, Monday and Tuesday only. 503 Kootenay street. 23-2

Our potatoes are the finest you can eat. Try a sack at $1.35 from the store of Quality. 9-tf.

Ice cream and refreshments, including afternoon tea, are served at Lindsay's pavilion. 21-2

J. H. Wallace's store will be open to accommodate customers until 9 p.m. this week. 23-tf.

The Royal Hotel luncheons and evening dinners at 25 cents cannot be excelled. Try them and be convinced.

Co-Operative store is now open at 622-4 West Baker street. Miss Goff will demonstrate Tuxedo goods during the week. Everybody welcome. 23-tf.

Expert shoe-shining, Home hotel barber shop. Only Whitmore's polishes used. Specialty made of dyeing tan shoes and cleaning canvas shoes. 20-tf.

The public dancing will recommence for the season at Lindsay's pavilion on May 24. Dancing Wednesdays and Saturdays. Wilkinson's orchestra. No invitations other than this notice.

Boats arrived from Peterborough. Call and see us if you want a good boat. Launches for sale. W. J. Astley, box 188, phone 66F. Nelson Rowing Club Landing. 1-tf.

In accordance with the city council, owing to the funeral of his late majesty, the store of the Hudson's Bay company will be closed on Friday afternoon, but will remain open for business all day on Wednesday.

For Victoria Day, May 24, the Canadian Pacific Railway company announce a rate of fare and one-third for the round trip. Tickets will be on sale May 23 to 24 inclusive, final return limit May 26, 1910. 20-10

The special sale of boots and shoes at the Hudson's Bay Store is in full swing. You get 16 boots for $4.50; 15 boots for $3.75; 14 boots for $3; 13 boots for $2.25; 12 boots for $1.50; 25 boots for 75 cents. These are genuine reductions. Take advantage of them. 20-tf.

A large assortment of Campbell's Stains and Floor Finishes have just been received by The Nelson Hardware Company. These Stains are unequalled for staining and varnishing furniture and interior wood work. The floor finish is very durable and suitable for all floors. Ask for color card.

## WONDERFUL SUCCESS

Compels Dr. J. F. Miller, Optometrist, to Prolong His Visit in Nelson, Hotel Royal, Until Saturday, May 21.

Read what Rev. W. A. Bromwich of Golden, says:

"For the past six years I have had serious trouble with my eyes. I consulted two of the leading eye specialists of Vancouver, and wore the glasses prescribed by them, but was in constant confusion with headaches, nervousness and imperfect vision. I could not recognize my friends across the street.

"But since wearing the glasses prescribed by Dr. Miller my vision is perfect and my eyes are ntperfect rest. I feel as though I was in a new world.

"I heartily recommend and endorse Dr. Miller and his work. Yours,

"REV. W. A. BROMWICH,
"Golden, B.C.

"Member of Methodist Conference."

Phone No. 52 for appointments.

## SPORTING NEWS

### Jeff is Shy

BEN LOMOND, May 16—A big crowd journeyed here from San Francisco yesterday to see Jim Jeffries in his announced Sunday workout. It was learned that the former champion is a very timid man. All his years in the ring have not worn off the shyness Jeffries early evinced when called upon to perform in public. Before the big fellow showed up in the gymnasium yesterday one of his camp followers remarked: "Jeff would give a one hundred dollar bill if he could get out of facing the crowd this afternoon." And the truth of the assertion was attested by the fighter's subsequent behavior. When he began skipping the rope he kept his face to the wall and his back to the spectators and when he started his shadow boxing he vered in a corner as far removed from curious eyes as possible, but his bashfulness wore off when he warmed up in his battling with Armstrong. In the large throng which witnessed Jeffries yesterday were women and children who entered the park with their male escorts.

### Boycotting Ball Games

WASHINGTON, May 16—A boycott is cutting down to a slight extent the attendance of the Washington-Cleveland series of ball games here. About 200 men were turned back near the gate on Sunday by pickets, who had been placed there to intercept union men who might be on their way to see the game. The grievance consists of the alleged fact that the owners of the Cleveland team employed non-union labor in the construction of their new park.

### DAMMING THE ST. LAWRENCE.

A group of American capitalists are asking the Canadian and the United States' governments for a very valuable privilege on the St. Lawrence river. They want the right to generate approximately 600,000 h.p. of electric energy by damming that river at the Long Sault rapids near Cornwall. It is a somewhat difficult matter to realize at once just what that means; but when we are told that it would take pretty nearly one half of the yearly output of all the coal mines in Canada to produce the same amount of 24-hour horse power, it can readily be seen how valuable such a privilege would be—to the capitalists at least. To Eastern Ontario, corporation control of that enormous energy might not be so advantageous. Large corporations with monopoly price, i.e. exacting as high a price as is compatible with the greatest possible profit. With them the interests of the consuming public are but incidental to corporation profits.

But there are other more serious objections to the scheme. These have been concisely set forth by the commission of conservation in a report on the project made last February before the International Waterways commission—the tribunal that is to report upon the advisability of the proposed dam. The report of the commission of conservation stated that Canadian interests are given a minimum consideration in the company's plans. Of the total proposed development only a small portion (one-sixth) would be developed on the Canadian side of the river. The Canadian market, it states, cannot at present absorb its half of the proposed development and, should power be exported to the United States, the vested interests it would create there would prevent its subsequent withdrawal to meet the future needs of Canadian industry. Moreover, the company proposes a new channel for navigation on the American side of the river, the approach to which would be beset with dangerous currents. Thus, if permission were given to build the dam, not only would it be exceedingly difficult for Canada to proceed with the deepening of the navigable channel of the St. Lawrence, but an all-Canadian route from Lake Superior to the ocean would become a dream of the past.

### SPEEDER PURCHASED FOR USE OF MINE OFFCIALS

MOYIE, May 16.—A four horsepower speeder for use on the branch line of the C.P.R. between Cranbrook and the Sullivan mine at Kimberley, has just been purchased by the Consolidated company and will be used by its officials when travelling between Cranbrook and the mine. The speeder has been running "trial trips" here during the past few days. It will travel over 30 miles an hour.

R. H. Stewart, superintendent of the mines of the Consolidated company, paid an official visit to the St. Eugene mine yesterday.

## NELSON NEWS OF THE DAY

(Additional local news notes on page 1.)

Born, on May 16, to the wife of Richard Brooks, Nelson, a son.

F. A. Briand, the well known New York mining engineer, is again in the city.

W. F. Teetzel, government agent, has returned from a business trip to the Arrow lakes.

Born, on May 14, at Observatory street, Nelson, to the wife of Joseph Johnson, 308 Robson street, a daughter.

The water at Upper Bonnington has reached the top of the wing dam of the city power plant, and is flowing over.

William Irvine has returned from the coast, where he was in attendance at the sessions of the grand lodge of the Knights of Pythias.

All members of the choir of St. Saviour's church are requested to be present at the special practise to be held tonight in the church.

The dancing season at Lindsay's pavilion opens tomorrow evening. There will be dancing on Wednesday and Saturday evenings of each week.

P. Macdonald, who is in business at Cayley, Alta., is at present in town, visiting his brother-in-law, James Grant, the well known prospector.

The attention of miners and prospectors is drawn to the fact that all miners' licenses expire on May 31, and must be renewed on or before that date.

G. C. Mackay, city engineer of Nelson, caught a 30 pound salmon at Keels on Sunday, trolling with a rod. The fish furnished plenty of excitement.

Chas. A. Waterman & Co. will sell by auction this afternoon at 2 o'clock, the furniture of D. S. Husband, Cottonwood street and Nelson avenue, Fairview.

A Chain Tea, under the auspices of the Presbyterian Ladies' aid, will be given at the residence of Mrs. J. S. Allan, Stanley Hill, tomorrow afternoon. A cordial invitation is extended to all.

In the matter of the estate of Edwin Richardson, deceased, an application was made before his honor, Judge Forin, in chambers, yesterday, under the Intestate Estates act, by W. H. Bullock-Webster (E. A. Crease), on behalf of the administrator of the estate, George T. Moir, for leave to sell certain real estate in the city of Nelson. The application stands until Monday.

By a typographical error a portion of the resolution passed by the Canadian club on Saturday was omitted from the report in Sunday's issue. The resolution as passed was: "Resolved, that the members of the Canadian Club of Nelson and District express their deep regret for the loss of a noble king and their deep sympathy for Queen Alexandra and the royal family in their overwhelming sorrow. And be it further resolved, that this resolution be telegraphed to the honorable secretary of state for transmission to the royal family."

Married, at St. Saviour's church, Nelson, on Saturday evening, April 14, Major Sydney Mortimore Emmanuel De Bucy to Miss Ethel Evangeline Richardson, of this city, Rev. Fred H. Graham officiating.

Three inches was the extent of the rise of the water at Nelson during the 48 hours ending last evening, as recorded by the water gauge at Lindsay's boathouse, bringing the lake level to 18 feet 7 inches above low water mark.

Mrs. H. O. B. Macdonald, who yesterday received the sad news of the death of her brother and sister by drowning, left last evening for Vancouver, accompanied by her husband and family. Much sympathy is felt by Mrs. Macdonald's many friends in her sad bereavement.

Wires being down, caused the disappointment of the chess cracks of Nelson and Spokane on Saturday evening, assembled at the code of the wire to contest the return telegraphic match. There was trouble at two different sections, and when this half of the line got working, it was found that the Spokane office had its own troubles, for no message could be got through.

The first mineral claim recorded at the office of the Nelson mining recorder since the accession of his majesty, King George, was recorded yesterday by John Smallwood of Nelson and Beasley. The claim is on Bird creek, and was locally named "King George V."

The regular meeting of Queen City Rebekah lodge No. 16, I.O.O.F., will be held in the lodge room this evening at 8 o'clock. This being the second night of nomination of officers for the coming term, a good attendance of members is requested.

A special shoot of the Nelson Gun club was held yesterday afternoon at the traps, when C. A. Young of Cincinnati, representing the Peters Cartridge company, and W. A. Hills, representing the Remington Arms company, were spectators and participants. Mr. Young is particular as a noted shot. The following scores were made at 50 targets: Young, 48; Read, 47; Hillis, 46; Bishop 46; Dill, 45; Wells, 46; Blackwood, 43; Ward, 41; Grubb, 37; Kramer, 37; Larson, 32; Lapointe, 18. The following scores were made at doubles: Hillis shot at 24, broke 22; Bishop shot at 24, broke 21; Young shot at 20, broke 22; Kramer shot at 16, broke 10; Larson shot at 12, broke 7; Read shot at 12, broke 7; Wells shot at 20, broke 18; Blackwood shot at 12, broke 6; Grubb shot at 12, broke 9.

The many friends of W. E. McCandlish will regret that he is laid up with an attack that affects the muscles of the limbs.

W. F. Lawson, chief of police of Sandon, and R. J. Sutherland, provincial constable of New Denver, returned from the coast on Saturday, and left for their homes yesterday.

Miss Cecilia Green, daughter of R. F. Green, passed through Nelson yesterday, on her way to Victoria. She has just graduated with honors from McGill university.

D. Pentiscot, provincial constable at Rock Creek, brought to the provincial jail on Saturday, three vagrants sentenced by W. G. McMyan, stipendiary magistrate at Greenwood, to 30 days imprisonment for vagrancy, the men being William Clark, James McKay, and Harry Adams. The constable returned to Rock Creek yesterday morning.

There will be a drill for recruits and others of "B" and "C" companies, 23rd regiment, who are not proficient in their drill, tonight at 8 o'clock, at the armory, and a similar drill tomorrow night at the same hour. In view of the approaching parades it is important that all members who are not proficient should attend.

Dr. W. H. Wilson, who, previous to a year ago, had practised several years in Nelson, for some time as partner with Dr. Lahau and more latterly alone, has resumed the practice of his profession. He has secured offices in the Wood-Vallance block. Dr. Wilson has many friends in Nelson who will be glad to know of his return to professional work.

Commencing tonight, train No. 36 will leave the depot at 9 o'clock at night, for the city wharf, will leave the wharf at 9.30 o'clock, and will leave the depot for the west at 9.15 o'clock. No baggage will be accepted on the return trip to the station. This train takes passengers for the coast, and also for points between Nelson and Rossland.

C. R. Sayer, chief travelling secretary of the Y.M.C.A. for western Canada, was in Nelson Saturday night and Sunday, conferring with the directors of the local association in regard to the work. Mr. Sayer left Sunday night for Vancouver, to discuss with the directors of the association there outlines of the plan to raise $400,000 for a new building. He will then return to Winnipeg, in connection with the movement there to raise $250,000 which, added to what is realized by the recent sale of the present property, will give a total fund of $900,000 for a new building.
