PASS RESOLUTION ON RECIPROCITY

Public Meeting Asks Time to Consider It.

ACTION TAKEN IS UNANIMOUS

Injury to the Young Fruit Industry in Particular Hardly Disputed

"Resolved that in the opinion of this meeting, the proposed reciprocal tariff between Canada and the United States is one of the most important questions that has come before the people of Canada; and in view of the fact that British Columbia has the prospect of great future industries in fruit growing, mining and lumbering, and that sufficient time has not been given the people of this province to carefully consider all phases of this great question, and that they are not in a position to know what effect such a tariff would have on the industries of British Columbia, that the government should give further time to the consideration of this question, and that a special investigation should be made into the affect this tariff, if passed, will have upon the future development of British Columbia." Moved by W. B. Farris, seconded by F. A. Starkey.

"Further resolved, that if this tariff, as outlined is enacted, or in any case, very rigid inspection should be made of all fruit coming into any part of Canada." Moved byb W. B. Farris, seconded by F. A. Starkey.

Practically Unanimous.

For little short of three hours, a large meeting of members of the board of trade and citizens, at the board of trade rooms last evening, discussed the new reciprocity tariff which is simultaneously under discussion in the Canadian parliament and the United States congress, and at the end of that time adopted the two resolutions given above. The first resolution passed with only a couple of dissentient voices, and the second resolution passed unanimously. Although the effect of the new agreement upon both the lumber and mining industries came into the discussions, the fruit industry was the storm centre of the debate, and in the opinion of many speakers this feature of the tariff was bound to result in immediate and serious injury to this industry, from which the entire Kootenay hopes such great things.

The meeting was called to order as the meeting of the board of trade, J. L. Retallack, president of the board, in the chair. There were also present, E. K. Egerton, secretary, F. A. Starkey, William Irvine, A. D. Emory, R. G. Joy, Dr. J. C. Arthur, H. W. Robertson, S. Anderson, E. Ferguson, G. Kurtz, I. G. Mackenzie, T. Morley, B. H. Fox, W. J. Langley, P. G. Ebbutt, H. S. Hall, F. G. Fauquier, M. R. McQuarrie, R. Smillie, J. McLaren, S. M. Brydges, W. Allen, G. A. Hunter, J. A. McDonald, Dr. Wolverton, L. B. DeVeber, H. E. Douglas, W. Rutherford, W. G. Foster, W. Stevenson, C. D. Blackwood, J. Irving, F. Seaman, W. B. Farris, J. Lake, H. E. Horton (Taghum), R. T. Lakes (Boswell), C. J. Westhead (Meetgrass), and many others.

Opinions Invited.

After the secretary read the notice calling the meeting, the chairman, Mr. Retallack said that, after conversations with several citizens, it had been decided to call this meeting. There was no doubt that the putting of fruit on the free list would injure the fruit industry. As to the lumber industry, the case was not so clear. The board had expressed the hope that in negotiating a treaty, zinc would have been placed on the free list. The board should discuss the reciprocity question calmly; as a business matter, and not with political feeling. The meeting was now open, and all present were free to express their views.

Mr. Beeston stated he had received a telephone message from J. J. Campbell who had just arrived at his ranch from the woods, and read the call for the meeting too late to be able to come down. Mr. Campbell wished it to be stated that he was in thorough sympathy with the object of the meeting, but he believed the fruit would suffer a great blow, and that he was willing to assist in any direction in which the board might take action.

Suggests Sending Delegation

F. G. Fauquier, of the Needles, said the removal of the fruit duties would be a serious blow to the fruit industry of the Kootenay. On the prairie he had found American second and third grade fruit in large quantities. He did not anticipate that the Americans would send in their first grade fruit, but with large quantities of the inferior grades coming on the market, it would be purchased, and the market for superior British Columbia fruit would become very restricted. As to the first grade fruit, it was nonsense to say that Washington could not raise it. He had heard someone argue that British Columbia fruit would cross the border. How about that happen in the face of the large duties on the other side? The fruit duties should be maintained, to assist the young fruit industry. There was the advertisement also to be considered, in which the Canadian fruit would suffer, to the gain of the Americans. He was in favor of sending a strong and representative district delegation to Ottawa to protest against the taking off of the duties.

Rutherford Not Afraid.

William Rutherford was surprised to learn that Kootenay fruit was not superior to American fruit. Most of the growers here were not Canadian born, but came over from England, and they appeared scared of the Americans (Remarks of "rot"). He referred to early Canadian history to support the claim that Canadians had defeated the Americans on more than one battlefield, and said Canadians were not afraid of the Americans. He predicted that prime British Columbia apples would, under the working of reciprocity, obtain the Chicago and Milwaukee market. With the lowering of the fruit duties went also the produce duties, and this opened the American market to British Columbia ranch produce. He was thoroughly in favor of the measure.

George Kurtz said that if no one else had a resolution to submit, he would move that the meeting endorse the action of the government.

W. Rutherford seconded this motion.

Starkey Wants Strong Protest.

Fred A. Starkey expressed pleasure that someone had at last offered a resolution, and he had no doubt it would be defeated. Mr. Rutherford began by slurring the Englishman, and yet it was the Englishman's "boodle" which had built the railways of this continent. No doubt differences of opinion would be expressed, but he hoped the differences would arise out of business arguments, and not from political motives. It was all right to have certain views, but British Columbia was the province they were living in, and that they expected to live in. (Hear, hear!)

The Kootenay grew splendid fruit, but it was ridiculous to claim it would at once acquire the American market. Not enough fruit was yet produced in the Kootenay to supply the home market. Look how American fruit came in now over a 13-cent duty. How could the young trees of the new Kootenay orchards compete with the old trees of Washington? Then there was zinc. If the government had given free admission to zinc ore, the zinc mines of the Kootenay would be working. The Democrats had made such gains in the American elections that President Taft wanted to do something for the American people. One of the "concessions" the Americans gave was free produce. Why, Canada did not yet supply its own produce market, let alone, shipping to the United States. For a few weeks Ontario eggs come in here, and after that British Columbia had to depend on the high priced eggs of the States. There was the splendid wheat grown on the prairie, on which the American miller had long looked with covetous eyes. He would now get this free. Why should Canada go to the United States? Canada was prosperous and contented, and was building up internal trade. In the recent financial difficulty in the United States, Canada was but little affected. But if close relations were established, Canada would suffer with the United States. The Americans were all right, but let them come over and become Canadians. The treaty was negotiated to get President Taft out of a hole. If the infant industries of British Columbia were not to be sacrificed, a strong protest should go from the people of British Columbia, to Sir Wilfrid Laurier. He had no political motives in supporting this move, but believed the people of British Columbia should protest. (Applause.)

Mr. Farris' Views.

W. B. Farris believed it would not be advisable to pass the motion of Mr. Kurtz, nor yet to pass a resolution condemning the reciprocity measure. Those present were not only British Columbians, but Canadians, and they should consider the matter from the standpoint of the whole of Canada. There was no man present properly equipped to discuss the whole effect of the reciprocity tariff. Both the Canadian and American governments had their tariff experts, and the opinion of the Nelson board of trade would neither bring the treaty into effect, nor retard it being brought into effect. If the Canadian parliament passed the reciprocity measure, undoubtedly the American congress would also pass it. The fruit industry was extremely important to the Kootenay, but if the board protested that the taking off of the fruit duties would ruin the Kootenay fruit industry, what would happen? The treaty would pass, or not pass, but if it passed, the world would take the Kootenay at its word, believe that its fruit industry was ruined, and cease to sell its fruit lands. Therefore, the proper thing to do to help the fruit industry was, if the fruit industry was hurt to bluff it out, and also to ask the government to grant a very rigid inspection of fruit coming in. This would safeguard the prairie market for the British Columbia fruit grower.

S. Acheson said Canada should look neither to the United States nor to England for its models, but work out its own systems. He deprecated interfering with the business arrangement made by the Canadian government with the United States government. He would be glad if the American congress defeated the measure.

(Continued on Page Four.)

LEGISLATURE AND RECIPROCITY

British Columbia Sacrificed as Sop to Prairie Farmer

RESUME OPERATIONS ON KASLO LINE

Great Northern Official Submits Proposal to Government--Japanese Alliance

(Special to The Daily News.)

VICTORIA, B.C., Feb. 3—When J. H. Hawthornthwaite moved his resolution denouncing the Japanese alliance as one made with a barbarous government the speaker of the house ruled it out of order as containing offensive references to a friendly government.

Mr. Hayward made a good speech in favor of his resolution condemning the reciprocity agreement. When the Ottawa government appointed a tariff commission in 1905 it heard evidence at many points in British Columbia. The demands of this province were practically unanimous in favor of the protection of lumber and fruit and for a reduction of the tariff on mining and agricultural implements and machinery. The government had given us nothing that we asked for and a great deal that we protested against.

Fruit Industry

He would deal more especially with the effect of the reciprocity agreement on the fruit industry. Here was an infant industry not yet developed or fully organized, it was to be exposed to unlimited competition with the fruit industry of the neighboring states which was fully developed and fully organized for marketing purposes. A single district in Washington shipped more fruit than the whole of this province. Our industry was capable of great expansion and when developed and organized could compete with any rival but it was still in the bud.

Sacrifice British Columbia

At the same time that the farmer and the lumberman were to be deprived of any protection their implements and machinery carried protective duties. Even their own fruit after being canned was subject to a duty so that the consumer of canned fruit got no benefit while the farmer who grew it suffered a loss. The prairie farmer had asked for a reduction on farm implements. The government had given practically nothing in that line but had apparently sacrificed British Columbia as a sop to the prairie farmer in order to avoid having to reduce the protection accorded the favored manufacturer of farm implements. Adjournment of the debate was moved by Hon. Price Ellison.

Mr. Hawthornthwaite continued the debate on the second reading of the Coal Mines Regulation act. He made an able speech attacking the deputy minister and the chief inspector. He criticized the bill as defective in various respects which he would go into in more detail when the bill was in committee and was being considered clause by clause.

Parker Williams also attacked the inspector in a long speech which lasted until the house rose and is to be continued next week.

On a question of privilege Mr. Hawthornwaite rose to say that he had not voted against the resolution for a commission to inquire into the cause of the high price of coal but had voted for it. He had apparently spoken against the resolution for a commission to inquire into the cause of the high price of coal but had voted for it

Submits Proposal

Mr. Gilman for the Great Northern railway, has submitted a proposal to the government looking to the resumption of operations on the Kaslo & Slocan road. The offer has yet to be confirmed from St. Paul.

ROSSLAND LADIES MAY PLAY HERE

The Nelson ladies' hockey team, who were defeated by a small margin at Rossland last night, are making endeavors to arrange a third game with the Golden City girls here some time next week, according to a long distance telephone message received last night by Lester Patrick. If this can be brought off another double-header game will be arranged for the evening.

FRUIT GROWERS CALL

A meeting of the fruit growers of the Kootenay will be held in the board of trade rooms, Nelson, next Wednesday morning at 11 o'clock. All fruit growers are urged to interest themselves in this meeting, and all local fruit growers associations and farmers' institutes are asked to send representatives. The call for the meeting is issued by F. G. Fauquier, president of the Ranchers Union of the Arrow Lakes.

FEBRUARY 4, 1911.

Coupon No. 6

This coupon, with one from each of the other issues of The Daily News of the week ending, February 4, and 10 cents, entitles the holder to a photogravure reproduction of Fred Morgan's picture, entitled "London Bridge is Falling Down." Coupons and money should be presented at The Daily News office any time after Sunday next. If pictures are to be mailed, 5 cents must be added to cover postage.

REFUSE TO REDUCE THEIR ESTIMATES

School Board Receives Council's Communication.

SECRETARY ARTHUR MAKES CRITICISM

Says Charges for Light and Water Should Not Be Included.

"Resolved that the communication be received and the city council informed that the school board cannot see its way to reduce the estimates."—Moved by Trustee Joy and seconded by Trustee Emory. Votes for the motion Trustee Arthur, Trustee Joy and Trustee Emory; against the motion, Trustee Jones. In those terms the school board last night deal with a communication from City Clerk Wasson, forwarding the statement of Ald. Stark, chairman of the finance committee of the city council, by which the estimates of the board, in which they asked for a sum of $37,812.85 for the coming year was cut down by about $8350. Chairman Irvine presided.

Secretary Arthur in reading the communication from the city council said that in past years the city council had always provided the amount asked for in addition to the charges for light and water. For purposes of bookkeeping at the city hall these charges were placed against the expenditure on schools but they had never previously been taken into account by the council when making the school grant.

Council's Action Discussed

Trustee Jones said that she understood from a certain section of the act governing the estimates that the council was bound to provide only for ordinary expenses and not for extraordinary expenses. She considered that the expenditures on manual training, domestic science, night school and commercial courses were of the latter nature.

Secretary Arthur explained that the cost of the equipment, etc. for manual training classes would be about $2000 and that the salary of the teacher, who was expected to arrive last night, would be $130 per month for the first year; $140 per month for the second year and $150 per month for the third year. The night school would be opened directly permission was received from the department of education.

Trustee Jones thought that the expenditures on manual training, commercial courses, night school, etc., should be placed before the people before the council was asked to make the additional grant necessary for them. The amount needed for salaries might go on steadily increasing; next year the board might ask for $37,000 for this purpose.

Chairman Irvine said that while the number of children in the city increased it would be necessary for the board to educate them properly.

Forecasts Probable Raise

Secretary Arthur was of the opinion that $27,000 would be the probable amount needed for salaries alone within the next year or two if the present schedule were carried out. He explained that the government gave a grant of $520 for each teacher.

Trustee Jones remarked that she thought that the city council would have more confidence in the school board if, in addition to the estimates for the current year old accounts aggregating from $2000 to $3000 did not come trailing in during the beginning of January of each year.

The discussion ended with the passing of Trustee Joy's resolution.

Concerning Drugs

A recommendation by W. H. M. May, that three maps be purchased for the school at a cost of $55 and another from R. Smillie of the high school asking that he be authorized to purchase chemicals, etc., for laboratory use to the amount of $159.41 were passed. Trustee Arthur pointed out that Mr. Smillie's previous estimate for this purpose was $200 and that the $159.41 was subject to a discount of 20 per cent.

Trustee Jones suggested that drugs, etc., should be purchased either from or through local drug stores.

JUDGMENT GOES AGAINST PROVINCE

Unable to Tax Canadian Pacific Lands Until Twenty Years After Issue of Patent

EDMONTON, Alta., Feb. 3—Attorney General Mitchell who has just returned to the city, speaking of the judgment on the C.P.R. case said there was nothing to do but accept it as it stands. It was the late Rutherford administration who commenced this case and the new government was not as familiar with it as the old. Former Deputy Attorney General Woods, K.C., who has worked on the case since its inception and went to the old country to appear before the privy council when argument was heard, made the following statement:

"The decision of the privy council against the province in the C.P.R. case places the province back where it was before the action was ever started. The provinc loses nothing that it had before. It merely has not gained something it sought.

"The province will now have no right to tax C.P.R. lands until 20 years after the patents have been issued by the Dominion government. It is my understanding that the majority of the patents have been already taken out by the railway so that the 20 year term has already commenced to run and in the case of those lands on which patents have been issued it means exemption of between 15 and 20 years from now. The Dominion government has never, so far as I know notified the railway company to take out patents. It was the custom of the railway company not to take out patents until they had sold the land and I think most of the patents have now been taken out."

ESTIMATES FOR PUBLIC BUILDINGS

All Items Passed Except for Militia Buildings—Manitoba Member is Dissatisfied

OTTAWA, Feb. 3—After a few preliminaries the commons went into committee of supply today on the estimates for public buildings in the west and passed practically all except items for militia buildings which were left over owing to the absence of Sir Frederick Borden.

Mr. Bradbury renewed his complaint as to the failure of the minister of public works to provide money to construct approaches to the dam at St. Andrews locks.

Glen Campbell said that the small amount of appropriations for Manitoba was a scandal and suggested that it was because it was persistent in electing a majority of Conservatives. He compared the Manitoba and New Brunswick votes.

Mr. Pugsley said he might take Mr. Campbell's remarks seriously if they were made by any other member.

Mr. Campbell insisted on an answer and the minister said that all works under way in New Brunswick were necessary. He said that there had been large expenditures at St. Andrews locks and on public buildings in Winnipeg and provincial towns. In a short time there would be an expenditure of millions on the Hudson Bay railway which when Manitoba is enlarged will be entirely within the province.

Arthur Meighen said that expenditure per head of population in Manitoba was 34 cents as compared with $2 in New Brunswick and $4 in Nova Scotia. This state of affairs, he said, was a gross injustice.

MAKE STRIKE ON EUREKA MINE

Twenty Inches of Rich Ore Unexpectedly Encountered.

BONDERS LET NEW TUNNEL CONTRACT

Workings Designed to Reach Main Shoot—Ore Shipments for Week.

The news of a strike or rich ore on the Eureka mine at Sheep Creek was reported yesterday by William Kennedy, who has the property under bond to W. J. Van Houten and A. Heynmann of Vancouver. The new strike was of the nature of an unexpected discovery as it was reached at the dept of 100 feet during the driving of a tunnel which it was figured out would hit the main vein, exposed on the surface, at a depth of about 250 feet.

About 20 inches of high grade ore are exposed and the ore face of the tunnel is in milling ore the width of which has not yet been discovered by crosscutting. From the indications the ore exposed is the top of a large body of ore.

Mr. Van Houten was in the city yesterday for the purpose of making a contract for another 150 feet of tunnelling which will reach, it is thought, the main ore body already located by the surface showings.

The first payment on the bond held by Messrs Van Houten and Heynmann has been made and the second is about due. The mine was originally owned by Mr. Kennedy and the late William Clarty, whose estate is now the proprietor of his interest.

The following are the returns of the ore production and movement for the week ending yesterday:

BOUNDARY SHIPMENTS

Granby	22,238	111,665
Mother Lode	3,698	32,112
Snowshoe	1,924	9,815
Rawhide	4,740	22,843

Total	7,350	37,408

The total receipts at the smelters, including concentrates, were, for the week, 38,530 tons, and for the year to date, 206,529 tons.

MONSTER GOLD BRICK FROM ATHABASCA MINE

A. W. Constans, manager of the Athabasca mine, came down yesterday loaded with a gold brick valued at a trifle over $10,000. The scales at the bank to which the brick was taken were not of sufficient calibre to weigh the gold and it had to be taken to the jewelery store of J. O. Patenaude where it tipped the scales at exactly 517 7-10 ounces. The brick is the result of less than one month's run of the mill and is from ore taken from the new strike recently reported.

BEATS CANADIAN CHAMP

JAMESTOWN, N.Y., Feb. 3.—Elmer Jacobson, of this city, tonight defeated Let Roe of Toronto, Canadian amateur skating champion and holder of several national records, in a two mile match race, winning by 25 feet in six minutes flat.

Great Interest Taken In the $5,000 Contest

Five Provinces Contributed to Yesterday's Subscription Business---Revelstoke Railroaders Will Support the Foresters' Candidate--Miss Watts Receives Much Encouragement---Slight Change In Rules

News of the great contest has traveled far. So have the letters sent out by the ambitious candidates. Five provinces contributed votes in the big campaign yesterday and the subscriptions were so well divided among the candidates that it is evident a good many workers are using the mails to good advantage.

Revelstoke Will Fight Hard.

Three strong candidates have been nominated from Revelstoke and a host of friends will promote the fortunes of Mrs. Fred Cormier, Mrs. B. R. Blacklock and Miss Alma Thomas. The Revelstoke business thus far has been about equally divided between the three entries, but Miss Thomas seems to have a shade the best of the division.

Mrs. Cormier, who has declared for the Independent Order of Foresters, will have a strong combination at work soon. She is a member of the Ladies Auxiliary of the Railroad Trainmen, while Mr. Cormier is a member of the Conductors and Trainmen's brotherhood. The members of these lodges will work with the Foresters to accomplish big things for Mrs. Cormier.

The two other Revelstoke candidates are perfecting their plans for the campaign and will announce their preference for the organization piano in a few days. Both are very strongly endorsed for the contest honors.

Miss Watts Well Supported.

One of the most enthusiastic candidates for the grand prize, and one whose prospects for success are among the brightest, is Miss Grace Watts of Wattsburg. Miss Watts is well and favorably known in her district, and her friends are carrying on the work of canvassing in a whole-hearted way that bids fair for a successful issue. As soon as it became known that she had been nominated as a candidate, subscriptions commenced to come in, even from remote parts of the province, from her encouraging friends. Miss Watts has not decided in favor of any organization in particular, as yet, but it is reported that she will soon declare for the one whose consistent support will help ensure mutual success. The friends of Miss Watts are unanimous in wishing her the good luck she merits.

Rossland is Confident.

The most confident people of all those interested in the contest seem to be the citizens of Rossland, who are giving loyal support to Miss Ethel Fox. This earnest and popular young lady has a whole regiment of friends, to judge from the subscriptions coming in to her credit, and the letters accompanying the subscriptions invariably express confidence in Miss Fox's ability to win the grand prize.

Nelson Candidates Running Well.

Miss May McVicar, candidate of the public library, continues to set the pace for the Nelson candidates. She has written a great many letters to friends outside of the city and they are bearing fruit already. Miss McVicar's work shows careful planning and is very effective.

The Knights of Pythias candidate, Miss Belle Goodwin, is credited with quite a vote already and it is obvious that she will be a strong factor in the contest. The members of the lodge complimented by Miss Goodwin are enthusiastic over her prospects for the grand prize.

Several of the other Nelson candidates are out working hard but have not turned in very much business thus far, prefering to cover the field with letters before commencing the active canvassing.

Change in Rule Nine.

In order to avoid possibility of duplicating subscriptions, and to relieve the subscription department from the extra work during the contest, a change in the operation of rule nine has been decided upon. Originally this rule read that new subscriptions for a longer period than five years might be divided into yearly subscriptions at the option of the subscriber.

After this week no subscriptions may be divided during the contest. Subscribers who pay for more than one year in advance may divide these subscriptions into yearly orders after the close of the contest.

Advice to the Candidates.

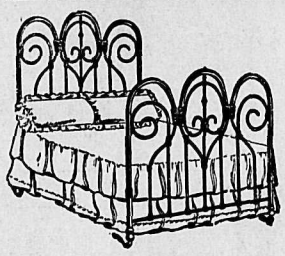
It will save trouble all around if the candidates pursue the plan of turning in subscriptions as fast as received. Quite a number of complaints have been received at the contest office from people who have paid for the paper but have failed to receive it. Investigation has proved that these names have not been turned in by the candidates. Hereafter the contestants will be expected to turn in the money as fast as received so that the papers may start immediately. Failure to do this will cause the removal of the candidate's name from the list of nominees.

FEBRUARY CLEARANCE SALE

COMMENCING MONDAY, FEBRUARY 6

Furniture, Carpets, Rugs, Lace Curtains, and Everything In Our House Furnishing Department

All at Greatly Reduced Prices for Cash Only



Iron Beds

65 different patterns, prices ranging from $4 to $28.

Predicts a Great Future For Vancouver

The New York Commercial publishes an interesting article froma special correspondent in Winnip g. in which he predicts a great future for three western Canadian cities—Winnipeg, Calgary and Vancouver.

Referring to Vancouver the writer says:

At Vancouver Canada is endowed with the finest harbor in North America and the final and best route between Europe and the orient; a harbor the shipping and commercial activities of which must grow like New York. Soon a million people will centre about the vast warehouses and shipping trades of this highly favored port. The natural outlet of the multiplex products and manufactures of the western provinces and flanked on the north, south and east by a region of wonderful farming, fruit growing, mining and other productive elements, Vancouver presents countless opportunities for enterprise, capital and employments that are unsurpassed in the world today. Every railroad of the western part of the continent is rushing toward Vancouver, steamship lines traversing the whole Pacific and reaching all the ports of Japan, China, New Zealand, Australia and the Asiatic archipelagos are adding to their fleets to keep pace with Vancouver's fast growing commerce. Here is another cosmic fact: Vancouver will become the largest and richest city on the Pacific coast of America.

The whole of South Vancouver is to be taken into the city, making a total population of 155,000. Add to this Point Gray, Burnaby and New Westminster and the population on the peninsula must be at least 180,000.

Never has the future been so promising. Four more great railway systems coming. Steel and iron manufacturing, the basis of all industries, shipbuilding, the opening up of large agricultural areas, new mining districts, silver, copper and coal, the opening of the Panama canal and the great tide of immigration now fairly under way mean that Vancouver and New Westminster will soon be one city.

Get some of our lots between the two, while there is time. They will surely double in value this year: $20 down and $10 per month. Do not wait.

The Wright Investment Co., Ltd. Nelson, B. C.

SPORTING NEWS

EASTERN LACROSSE TO BOOM THIS YEAR

But Capitals Say They Don't Want Any Sunday Games—That Canadian Application.

OTTAWA, Feb. 3—Strong opposition will be made by the officers of the Capital Lacrosse club against the introduction of Sunday lacrosse into the National Lacrosse union, the general idea being that the scheme is too much Americanized to permit of its introduction into Canada.

The Capitals, at present, have not decided upon the stand that they will take in regard to the application of the Canadian Athletic club for a franchise, and it is understood that should the Canadians plan to take any of the players who wore the colors of the Nationals last summer, that the application will hardly receive the support of the Ottawa lacrosse moguls. From this distance it looks as if Canadians had already signed up a lot of the Nationals last summer, it is said that Newsy Lalonde has agreed to take charge of the new team.

Officers of the Capitals, including W. Foran, speak very enthusiastically of the prospects of the National Lacrosse union this summer, and they claim that with the more modern lacrosse rules, that the public will see lacrosse just as it was twenty years ago, with prospects of being even faster.

WITH EASTERN PUCK CHASERS

TORONTO, Feb. 3—Hockey results: Intermediate O. H. A.—Preston 8, Guelph O. A. C. 0; Chatham 16, Strathroy 8.

Junior—Toronto Canoes 8, Collingwood 7; Argonauts 8, Varsity 7.

Eastern Ontario Pro.—Belleville 3; Picton 2.

Junior Collegiate—Varsity 6, University Schools 3.

Trent Valley—Harmora 5, Madoc 4.

Northern—Durham 7, Hanover 6.

PHOENIX MEETS GREENWOOD AGAIN ON MONDAY

Phoenix, the champion team of the Boundary league and, next to Nelson, probably the strongest hockey aggregation in British Columbia, will be at home to Greenwood on Monday evening. The result of the game won't alter the direction in which the cup will travel at the end of the season, even if Greenwood should be strong enough to cause the unexpected to happen but the smelter aggregation are said to be much more dangerous than they were the last time the rivals met.

FREAK HOCKEY MATCH DRAWS LARGE CROWD

New Denver Men Play Ladies Using Left Hand and Handle of Sticks —Grand Carnival.

(Special to The Daily News.)

NEW DENVER, B.C., Feb. 3—The newly organized Ladies' Hockey club played their first match last Friday night against the men's senior team who played with the left hand only in the first half and in the second half used the handle of their sticks instead of the blades. The novelty of the match drew a large audience who seemed to enjoy the proceedings very much. The referee C. F. Nelson seemed to favor the fair sex team as most of the time half the men's team were decorating the fence. The match finally ended with a score of 5-4 in the men's favor. The ladies' team lined up: Goal, Miss Geddes; point, Miss Harris; cover point, Miss A. McDougall; rover, Mrs. E. H. H. Grubbe; right wing, Miss McInnes; left wing, Miss Vallance; centre, Miss W. McDougall. The Sandon ladies have organized a team and are to play here next week when no end of fun and hair pulling is expected.

Winner in Carnival.

A grand carnival was held last Saturday night which was well attended both by spectators and skaters, the latter being unusually numerous and many very good costumes were shown. The first prize fancy for gentlemen was carried off by E. J. Hawes as Bluebeard; ladies' fancy, Miss W. McDougall; men's comic, Rev. Mr. Webber. After the judging a number of races were run off. The judges were Messrs. McInnes, Jacobson and Sutherland and the starter E. H. Grubbe. The six-lap race, boys under 15, handicap, was won by Sloan after a good race, E. Nelson, (scratch) getting second place. The barrel race after being run in heats owing to the number of entries was won by Tomlinson, the smallest boy on the ice. The potato race also run in heats was won by Joe Burkett.

ALICE ROLLER RINK RE-OPENS THIS EVENING

The Alice rink will be opened for roller skating this evening under new management. An orchestra will be in attendance. Patrons will be provided with skates which have just arrived from the east. and the management guarantee that the dust, which sometimes makes roller skating somewhat objectionable, will be noticeable by its absence.

SIXTEEN RINKS ARE EXPECTED TO COMPETE

About 16 rinks are expected to enter for the local curling bonspiel which opens here on Tuesday morning at 9 o'clock. Intending competitors should note that entries must be made with Secretary Walley not later than noon on Monday. The draw will take place on Monday afternoon.

COLLINGWOOD BEATS PARIS

TORONTO, Feb. 3—In a closely contested curling game with an exciting finish Collingwood yesterday afternoon beat Paris in the final curling for the governor general's competition, winning 30-29.

SPORTING SPOTLIGHTS

The sheets at the exhibition building are in magnificent shape and if the cold weather continues the rinks competing for the trophies offered at the bonspiel on Tuesday will play under ideal conditions.

Hockey seems to be booming in New Denver this season. In addition to a strong senior team the lake city has a fast ladies' aggregation. Possibly a game with the Nelson girls might be arranged.

Another pitcher has been added to the Victoria baseball club's staff in the person of R. McCreedy, who has been with the Atlanta team in the Southern league. He goes to the capital with splendid recommendations, stands six feet in height, and is said to be exceptionally speedy in the field. He should be of considerable assistance in copping that Northwest league pennant.

Frank Lukeman, of Ottawa, holder of the all-round athletic championship of Canada, is the fastest man in the world on snowshoes for short distances. Lukeman and his Montreal pal, Don Buddo, the half-mile runner, have for three years cleaned up the snowshoe championships from 100 yards to half a mile, and both are preparing for the winter campaign now. The Canadian amateur snowshoe champions and their times follow:

Distance	Holder	Time
100 yards	Lukeman	12 1-5 sec.
220 yards	Lukeman	31 1-5 sec.
120 yards, hurdles	Lukeman	18 2-5 sec.
440 yards, hurdles	Buddo	1.09 2-5 sec.
880 yards	Buddo	2.49 1-5 sec.
1 mile	Herbert	6.04 2-5 sec.
3 miles	McCuaig	19.02

Lukeman subsequently did the hundred in 12 seconds flat, and the 220 in 28 seconds. The fastest amateur mile ever run in Canada was 5.48.

What Has Dandruff Got To Do With Baldness?

You see the statement every day that the one cause of baldness is dandruff. But is it?

True, dandruff often precedes the departure of the hair.

It is equally true that you know men with a shock of hair you can hardly pull a comb through, who have carried around a dandruff laden collar as long as you have known them.

You have also seen men whose scalp was kept as clean as a baby's whose hair was surely departing.

That dandruff talk sounds well and convinces a good many of us, but let us not fool ourselves.

Of course dandruff isn't a good thing to carry around, but it is only an indication.

The same trouble that causes the hair to fall out usually causes dandruff, so if you get at the cause and arrest the loss of hair, you will stop dandruff too.

Those who use Nyal's Hirsutone find it the most satisfactory hair healer and hair dressing they have ever used.

It does stop the hair from falling out.

It will also stop dandruff.

Your Nyal Druggist cheerfully recommends it—$1.00 and 50c in sprinkler bottles.

Sold and guaranteed by the Poole Drug Co., Ltd., W. Rutherford, Nelson.

Nyal's Family Remedies

One for each everyday ailment

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Toronto.—I gladly give you my testimonial in favor of your wonderful medicines. Last October I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas.

After receiving your directions, I followed them closely and am now entirely free from pain in back and bowels, and am stronger in every way.

I also took Lydia E. Pinkham's Vegetable Compound before my baby was born, and I recommend it highly to all pregnant women.—MRS. E. WANDBY, 92 Logan Ave., Toronto, Ont.

Another Woman Cured

Maple Creek, Sask.—I have used Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I am now in perfect health. I was troubled with pains every month. I know other women who suffer as I did and I will gladly recommend your medicine to them. You may publish this if you think it will help others.—MRS. F. E. COOK, Maple Creek, Sask.

If you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham Vegetable Compound, made from roots and herbs.

WHERE SNOWFALLS CEASE TO DELIGHT

Revelstoke Has Already Reached a Record for the Fall of the Beautiful

(Special to The Daily News.)

REVELSTOKE, B.C., Feb. 3.—The snowfall for this winter so far, according to records kept in this city, show that no less than 151½ inches of the beautiful has fallen since the opening of the winter season. According to old statistics this comes within an inch and a half of the record of any other full winter. The winter of 1908-9 saw a fall of 153 inches, while last winter 137 inches fell. With almost two full months yet to go, which are conceded to be big months for snow fall, it is estimated that this winter will average up the biggest record of any previous in its history. The weather, however, has always been moderately mild, the thermometer usually registering from 10 to 15 degrees of frost only. With the exception of a couple of days during the recent blizzard when the thermometer dropped to 12 below zero, the weather has been exceedingly mild and the snow has settled in consequence. The city authorities have had a strenuous time keeping the streets clear, but their efforts so far have been very successful.

New Rooms Opened

Four rooms of the new school, which has been in the course of erection for the past year, were formally opened yesterday and an attendance of 177 was registered. This school cost in the neighborhood of $65,000, of which expense the provincial government went half and half with the city. In the selection of a name for the new school the board offered a prize of $5 to the person first landing a suitable name on which the board was agreed. Miss Lily Daniels, a young girl of 13 years, was the successful competitor with the name of "Strathcona." Among the other names suggested were, McBride, King George, Selkirk, Columbia, Queen Mary and a host of others. Thirty competitors strove for the prize, most of whom were school children.

School Board Estimates

The estimates of the school board which are now made up for presentation to the council at its next meeting, call for an expenditure of $22,300. By far the largest item in this expenditure is for salaries, which amount in the aggregate to close on $15,000. The total estimates are $3,300 in excess of last year, largely occasioned by the additional current expenses occasioned by the opening of the new school.

The Dominion Sawmills Company, Limited, today commenced operations on the building of their new office structure on Victoria avenue. The building will consist of two and a half storeys with offices on the ground floor, living and dining rooms on the second floor, and bedrooms on the attic floor. Everything in connection with the building will be modern in every respect, including steam heating, bath rooms and lavatories, while the interior fixtures of the office promise to be something both elaborate and unique. It is expected that the building will be ready for occupancy by the end of May next.

Leave for Golden

Four rinks of local curlers left for Golden, B.C., to attend the bonspiel at that place. These rinks are conceded to consist of the best curlers in the city, and it is expected that they will land some of the prizes offered. The personel of the rinks are as follows, the first named in each case being the skip; Rae, Barber, Coursier and Hamilton; Knight, Squarebriggs, Edwards and Stone; Foote, McIntyre, Hume and Stewart; Parry, C. R. Macdonald, Field and Donald.

The house and lot on McKenzie avenue, recently the property of Edward Taylor, have recently been purchased by A. C. Macdonald and Dr. Sutherland, the former having purchased the lot and the latter the house. Mr. Macdonald will move the house in the spring and Dr. Sutherland will build on the lot.

Miss Olgo Coursier was operated on in the hospital here on Sunday for appendicitis. The operation was successful and the little girl is convalescing rapidly.

Mrs. E. Young leaves for England on Saturday to join her husband there who is in poor health.

STARS TRIUMPHANT

In the Y. M. C. A. junior basketball league game played between the Stars and Circles yesterday the result was as follows: Stars 6; Circles 2.

SHIPPING MAGNATE IS VISITOR TO MONTEAL

MONTREAL, Feb. 3—C. J. Leyland, of Haggerston Castle, Northumberland, who is identimied with many shipping enterprises of international fame, is a visitor to Montreal. Mr. Leyland is here looking into important mining enterprises in western Canada. His connection with the country dates back to the sixties when he was a middy in the royal navy stationed at Esquimalt. He is one of the pioneers to introduce turbine engines in steamships, is a director of the Parson Marine Steam Turbine company and is chairman of the directors of both the Parson Foreign Patents company and the Turbine Steamers, Limited.

DAMAGES FOR INJURY BY THEATRICAL SWORD

HAMILTON, Ont., Feb. 3—A high court writ for $20,000 has been issued on behalf of Robert Shiverick against the Imperial Russian ballet company for damages for injuries received. Shiverick was struck on the head by a sword which slipped from the handle during a performance of the ballet h re two weeks ago. The injured man is now recovering in St. Joseph's hospital.

SATURDAY, FEBRUARY 4

THE CAMP SANITATION BILL

It was remarked at the last session of the provincial house that the amount of progressive legislation introduced in the public interest was rather what might be expected from a government about to face a general election than what might be anticipated as a rule from a government which had just come back with an overwhelming majority and which had its full term to run before again asking for the votes of the electors.

This session the government is still going on with the same kind of work. It does not seem to be under any impression that there is any danger of doing all that there is to be done and finding itself out of an occupation. At the present rate there will be a great deal of valuable legislation to the credit of the house before its four years are up. But we are so far from the millenium and the province is so far from its full development that the advance of public opinion and the progress of industrial conditions will continue to provide the legislature with plenty of work.

The measures already announced for this session include one legalizing regulations for tram cars made to promote the safety of the public and of employees, another incorporating the recommendations of the fire insurance commission, another providing for the regulation of motor cars, another providing for the safety and health of men in coal mines, and another designed to secure healthful conditions for men employed in logging camps, construction camps and similar places. There is also a measure consolidating and revising the general statutes of the province.

Conditions in construction camps have too frequently been far from what they should be. In its railway contract the government provided that standard rates of wages should be paid and only white men employed. It is now to provide that sanitary and healthful conditions shall exist in logging camps and all other camps where workingmen are assembled similar provision is to be made.

PASS RESOLUTION ON RECIPROCITY

(Continued from Page One.)

Though some parts of Canada, particularly the prairie, expected to benefit from the reciprocity agreement, no doubt it would press hard on British Columbia.

Hopes for Its Defeat.

Dr. N. Wolverton pointed out how difficult it was to keep politics out of the discussion of an issue of this sort. He was glad to see that, in the Conservative caucus at Ottawa, it was indicated that probably the party, as a party, would not take sides on the question, but would probably permit its members to follow their individual preferences. He had no doubt the Liberals would follow the same plan. Another reason why it was difficult to keep such a discussion absolutely dispassionate, was that, apart from politics, there were two parties in the country, the producers and the consumers. There were perhaps 1000 producers of lumber in Canada, and possibly 1,000,000 consumers of lumber in Canada. The same applied to fruit. Men in positions of such responsibility as Mr. Fielding had to consider the relatively larger number of consumers as well as the relatively small numbers of producers. As to the fruit industry of British Columbia, undoubtedly it would suffer now, but in 10 years British Columbia would want the American market. He had once been a wheat farmer on the prairie, and for years the best American wheat sold at Duluth 10 cents higher than on the Canadian side. Now, nothing this board could do would affect the enacting of the treaty one iota. It would be decided, as a former speaker had intimated, in the United States senate, and he believed and hoped it would be settled in the negative. Dr. Wolverton said he nourished a soreness. (Dr. E. C. Arthur—hear, hear!) The soreness arose from the fact that in the past, in all negotiations with the United States, with two exceptions, Canada had got the worst of it. He was a little bit afraid to negotiate with their friends, the Americans. He believed however, a change was coming over the spirit of Canadians' dreams. Formerly, like Artemus Ward, who, in the War of the Secession, was willing to sacrifice all his wife's relations as soldiers, the English negotiators had always shown a disposition to sacrifice the interests of the wilderness called Canada. There was reason to hope, however, that in the future, negotiations on behalf of Canada would be carried on by persons in whose hands the interests of Canada would be safe. As to lumber, he could not for the life of him see the injury that would result. Probably there would be some immediate loss from high grade lumber. But the United States timber was rapidly becoming exhausted. The Panama canal would be opened in four years, and there would be low freights to the Atlantic seaboard, and the American market would be just what the British Columbia lumbermen would want. He believed that any injury through the tariff, to the fruit injury, would be not one tenth the injury that would be done through the shouting. Besides it would not affect the actual adoption of the measure. The prairie wanted it, and the government, in the face of all those votes on the prairie, could not refuse to give it.

Mr. Kurtz, with the permission of his seconder, withdrew his motion.

Mr. Starkey's Motion.

F. A. Starkey moved the following resolution:

"Resolved that in the opinion of this meeting the proposed reciprocal tariff arrangement between the United States and Canada is highly injurious to the interests of the fruit growing and lumber industries of British Columbia, and we earnestly urge the Dominion government not to allow this section of the proposed arrangement to go into effect without full inquiry as to the effect it will have in this province."

Mr. Starkey said the government had consulted the interests of only a small part of the population of Canada. The government should ask the American government for time to consider the effect on British Columbia.

J. A. Irving seconded the resolution expressing surprise at some of the sentiments he had just heard. Dr. Wolverton's argument in effect was "after 10 years the injury will cease. Therefore be good boys, and wait for 10 years." He, for one was not prepared to do that. The fruit industry was of the utmost importance to the Kootenay and in its struggling years should be protected. Dr. Wolverton said any action taken would have no effect. Possibly he had special information from Ottawa.

The question of who could vote arose and President Buchan said the meeting was called as a meeting of the board of trade. Those interested were invited to attend. The board would be glad to hear their views. If, however, the board of trade was to go on record by a resolution of this meeting, when it came to the voting, the expression of opinion ought to be by the members of the board.

Mr. Farris said he would offer an amendment, and would urge the meeting not to state that the industries of British Columbia would be injured, but to ask the government to take these industries into consideration.

Compromise Effected.

Mr. Starkey said he would accept that suggestions and would incorporate it in his motion.

Mr. Farris accepted this compromise.

Mr. Rutherford said he meant no slur on the Englishmen.

Question of Application.

H. E. Douglas submitted detailed figures of different kinds of lumber imported into Canada under the existing tariff and also the lumber imported and said he could not see how the British Columbia lumber industry would be hurt. He also gave figures of fruit imported into and exported from Canada into the United States and claimed the American market took a great deal Canadian fruit.

W. G. Foster said only one thing was wrong about Mr. Douglas' figures, and that was that they did not apply to British Columbia at all. The lumber exported was from the Ottawa valley and Parry Sound, and the fruit was the fruit of Ontario.

Mr. Fauquier said some present seemed to think that if the board passed a resolution, there would be blue ruin. He protested against such a ridiculous notion.

Messrs. Starkey and Farris, who had withdrawn, returned, and submitted the resolutions given in the first paragraphs above, as a single resolution.

Mr. Hall said the board should consider whether it was putting itself in a ridiculous position by adopting a resolution which asked the government to consult the people of British Columbia, when the people of British Columbia did not yet know what they wanted.

Mr. Starkey—Are we serfs, that we should not express an opinion to the government? Is this Russia? Is the Russian government the kind of government you think we have in Canada?

Meeting Becomes Open.

I. G. Nelson asked whether those who had accepted the invitation of the board of trade to be present, were not to be allowed to vote, and characterized such a course as unfair.

E. Ferguson believed the meeting was called as an open meeting, and thought the present ruling most unfair.

The advertisement published in The Daily News was read, which called "a meeting of the board of trade."

On motion of W. B. Farris, the board adjourned, and the meeting became a public meeting in every sense. Mr. Buchan was unanimously elected to the chair. Mr. Beeston was elected secretary.

William Allen, as a prospector, thought this situation as well as the previous one, unfair to the outside citizens. Had they known there would be an open meeting, instead of a joint meeting, many more undoubtedly would have been present.

Free Entry for Lead.

E. W. Widdowson submitted a statement as to the free admission of lead ores, which he urged. This will be published in full later. At present, he said the only profit from the low grade ore was in the silver.

Mr. Hall said there were really two points in the motion, which he thought should be separated. He was in favor of the rigid inspection of fruit, but not of the balance of the motion.

J. A. McDonald said as to the fruit duties, there was no doubt that British Columbia would be injured.

Mr. Hall's point was acted upon, and the two parts of the motion were separated, and adopted, as reported above.

Advocates Mass Meeting.

Mr. Fauquier advocated the calling of a mass meeting for the district, to press along the views of the district. Mere resolutions of the various boards of trade would not be enough.

Mr. Farris thought, if there was anything in the motion, that one good man to go to Ottawa and work quietly would be the best mode to work in.

Mr. Fauquier—But he must have the backing of the whole community. I agree with Mr. Farris that a man ought to be sent, but how can he be selected except by a mass meeting.

A resolution was adopted to transmit the resolutions to the Dominion premier, the minister of finance, and the minister of customs.

TAKE NOTICE

We publish simple, straight testimonials, not press agents' interviews, from well-known people.

From all over America they testify to the merits of MINARD'S LINIMENT, the best of Household Remedies.

MINARD'S LINIMENT CO., LIMITED.

MACHINISTS' BALL MOST ENJOYABLE

Annual Event at Alice Rink Proved Unqualified Success—Those Who Formed Committee

There was no doubt as to the success of the dance given in the Alice roller rink last night by the International Association of Machinists. From 9 o'clock until 2 o'clock this morning a merry crowd of some 300 dancers enjoyed the terpsichorean art to the strains of excellent orchestral music. The new decorations drew forth many encomiums, as did also the fine condition of the floor.

The supper, supplied by the American Cafe, was everything that could be desired. The committee in charge of the event were: W. H. Smedley, A. Robinson, Harry Johnson, D. Cummins and H. Edwards. Arthur Johnson acted as floor manager.

Investment Fact No. 4

The Financial Post of Toronto in its Vancouver correspondence in the issue of Nov. 12, 1910, gives the following:

"Owing to the fact that the Granite-Poorman group of mineral claims near Nelson is about to be incorporated into a company for the more systematic and profitable operation of the property, it is interesting to note that M. S. Davys, M.E., says that $167,000 worth of ore has been taken out in the last four years and that the net profit for the last year was $25,220. He states that the ore actually blocked out is worth $157,850, and gives the value of land and equipment at $45,700. He notes that the installation of electric power which has just been completed will enable the mine to be worked continuously throughout the year, instead of closing down for two or four months through lack of water, as has been the case in the past. It is proposed with additional capital to instal a mill for crushing ore by which it is expected to increase the capacity of the present 20-stamp mill about 50 per cent.

Kootenay Gold Mines Limited

Head Offices - - Nelson, B. C.

Board of Directors

Major-General the Rt. Hon. Lord Aylmer, late Inspector-General of the Canadian Militia, Queen's Bay, B.C.; J P. Swedberg, Mine Owner Nelson, B.C.; Thos. Gough, Mine Manager, Nelson, B.C.; E. E. Guille, Stamp Mill Manager, Nelson, B.C.; J. T. Bealby, Fruit Grower, Nelson, B.C.; Wm. Collman, Capitalist, Vancouver; E. B. McDermid, Financial Agent, Vancouver.

In taking over the property of Messrs Gough, Guille and Swedberg, the company has a revenue-producing, profit paying concern which is able to take care of itself in every way.

It was the idea of the former owners, however, and it is the purpose of the present company to place sufficient stock to provide for improvements to the stamp mill so that the earnings of the company may be available for dividends from Jan. 1st, 1911.

The authorized capital is $250,000, shares being of the par value of $1.00 each; 200,000 shares have been placed and the final issue of 50,000 shares is being placed at par.

The illustrated prospectus (there being 15 full page pictures of the property) gives all details, and may be had by addressing Dept. "N."

La Grippe and Colds

You cannot conceive a more direct and convincing statement than this of Mr. Surles as to the wonderful curative powers of Duffy's Pure Malt Whiskey, the world's greatest medicine.

"To my friends all over Texas and people everywhere:

"It gives me much pleasure to recommend Duffy's Pure Malt Whiskey for la grippe and all colds, as I have tried it and know it will do the work." J. H. Surles, Putnam, Texas.

Duffy's Pure Malt Whiskey

is a wonderful remedy in the prevention and cure of all diseases of the lungs, throat and stomach and for all weakening and wasting conditions. It is an absolutely pure, gentle and invigorating stimulant and tonic. When taken at meal time it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. Prescribed by doctors and recognized as a family medicine everywhere.

All grocers and liquor dealers, or direct $1.50 a large bottle. Refuse substitutes and imitations; they are impure and dangerous. Send for medical booklet and doctor's advice, both sent free.

PAY TRIBUTE TO MEMORY OF GREAT EDITOR

AMHERS, N.H., Feb. 3—One hundred years ago today Horace Greleey was born in a little farm house in this town. Today a throng in which newspaper men predominated, gathered in the town hall to pay tribute to the memory of the great editor. A message was read from Mrs. Frank M. Glendenning of West Chester, N.Y., Mr. Greeley's daughter and there were brief speeches by representatives of the New Hampshire press. Albert E. Hillsbury of Boston former attorney general of Massachusetts made the principal address.

$3.50 Recipe Free for Weak Men

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4659 Luck Building, Detroit, Mich, and I will send you a copy of this splendid recipie in a plain ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free. 96

CREAMERY TOWN BEATS WANDERERS

Spring Surprise of Season by Licking Champs in Rough Game—Score Was Eight-Five

RENFREW, Ont., Feb. 3.—The greatest surprise of the National Hockey association season was sprung at Renfrew tonight when the Renfrew team by a score of 8-5 defeated the champion Wanderers of Montreal. It was hard, fast hockey from start to finish, and although the Wanderers played desperately they were fairly beaten by the home team which showed astonishing improvement. In the first quarter play was very close. Vair scored for Renfrew in two minutes, and Glass after 10 minutes' play hit back with a tally for the Wanderers, making it one all at the close of the period. In the second, Taylor, after a beautiful end to end run, found the nets again for Renfrew. Glass got another for the Wanderers, and Vais, on Smith's pass, tallied for the home team again. Glass and Small scored in one and ten minutes respectively, and at the end of the second period the score was 4-3 for the Wanderers who up to this period had a shade the better of it.

In the second period Wanderers substituted Gardner for Roeerts, but Renfrew continued without any changes. Taylor tied the score on a sensational run in the third period but a minute later, after a collision with Glass and Ross and a heavy fall, he was obliged to leave the ice with a cut in his head and a badly bruised body. Taylor resumed after a short spell. Smith made it 5 to 4 and also 6 to 4 after a few minutes' play.

At this period two Wandereres' penalties just about killed their chances of winning. Johnson drew a three minutes' rest for slamming Gilmour into the boards, and Ross followed him two minutes later also for slashing Gilmour. Rowe was sent off for hooking Small and while he was off Smith added another for Renfrew. Odie Cleghorn then went from goal to goal and slapped in the eighth. Johnson and Ross both being back on the ice, Glass got the last on a long shot. Wanderers, with five minutes to play, tried hard to equalize matters but were not able to bore through the great defence put up by Renfrew.

The Wanderers' defeat practically gives Ottawa the championship, but Renfrew may spill the beans by beating Ottawa.

LADIES LOSE BY SMALL MARGIN

Are Defeated by Rossland by Score of One Goal to None—Second Game Was Strenuous

(Special to The Daily News.)

ROSSLAND, B.C., Feb. 3.—The double-header tonight provided plenty of excitement for a big crowd at the Rossland rink. The local ladies team entertained their friends from Nelson, and the outcome was a fast and pleasant game in which Nelson, although they did some excellent attacking, had to submit to defeat.

There was no score until close on time when Pearl Forteath scored with a slow short shot for Rossland. Both teams tried hard to reach the net, but failed. Dora Patrick and Hazel Gore were the pick of the Nelson side, and Pearl Forteath, Madge Keating and Ethel Fox were clever on the home side.

Afterwards the Rossland Seniors and Intermediates put up a strenuous game, the Seniors just managing to win, after a stern struggle, by two goals to one. Ames scored the Seniors' goals and C. Griffith the Intermediate's.

A dance was subsequently given in the Oddfellows' hall in honor of the Nelson ladies.

SLANDER ON KING IS LAID AT REST

Story of Morganatic Marriage Denied in Court—Slanderer Gets Year Sentence.

LONDON, Feb. 3—Edward Mylius was convicted of having criminally libeled King George by publishing statements that the King was morganatically married to the daughter of Admiral Seymour while Prince George was a member of the Royal Navy stationed at Malta in 1890. The article was published in the Liberator, an anti-monarchical paper published in Paris and circulated in England.

Mylius refused to withdraw the statement before the trial.

Mylius was convicted on all of the three charges lodged against him and was sentenced to one year's imprisonment.

Chief Justice Lord Alverstone presided at the trial, while Mylius conducted his own defence. Attorney-General Rufus Isaacs, Solicitor-General Simon, and Rowlatt, K.C., and Muir, K.C., represented the crown.

Mylius contented himself with general declarations and admitted that his proofs of King George's alleged alliance with the daughter of Admiral Seymour were light, maintaining that the records of the marriage had been destroyed.

Admiral Was Witness.

The crown called the admiral as a witness and he testified that the daughter in question, now the wife of Captain Napier of the British navy, had never seen His Majesty until 1898, when the King called on the witness at Portsmouth. His only other daughter died in 1895, and for three years preceding her death had been with her father at Malta, where he was commander-in-chief of the Mediterranean squadron. The King had not visited Malta while his daughters were there, and his youngest daughter had never spoken to him.

In a dramatic speech Sir Rufus Isaacs characterized the story of the morganatic marriage as absolutely false, regretting that his majesty was not permitted to face his slanderers and concluded with the declaration that the suit had not been brought to protect the monarchy, but that King George had sought the protection of the court as a man, a husband and a father.

After sentence had been passed Sir Rufus read a letter signed by King George and authorizing the attorney general to state publicly that the writer had never been married except to Queen Mary, and never gone through a ceremony of marriage except with the Queen, and that he would have attended the proceedings to give testimony to this effect but for the advice of the lawyers of the crown that it would be unconstitutional for him to do so.

CANADIAN CANNERS SEVERELY INJURED

Interests Sacrificed by Reciprocity—Petitions Against Agreement—T. G. Procter at Coast

VANCOUVER, B.C., Feb. 3—The ratification of the proposed reciprocity treaty with the United States would means nothing short of the slaughter of the interests of Canadian canners operating on the Fraser and Skeena rivers, or at any other point in British Columbia, is the expressed opinion of a number of canners who are at present in Vancouver arranging for supplies for the coming season. It is stated that the situation from the view point of Canadian interests, has been fully presented to the federal government within the past few days.

Fraser river canners declare that free fish would mean that American buyers would appear on the Fraser river and demoralize conditions there by creating price wars. Operators on the Skeena river inlet, Naas and northern streams say Americans would buy fish in the north and ship them to packing plants in Alaska or to Puget Sount, and also point out that Canada would be the dumping ground for inferior grades of salmon packed on Puget Sound, the Columbia river and in Alaska. Should the reciprocity treaty be accepted canners will probably appeal to the provincial authorities to save the day by assuming control of the fisheries of the province and adopting regulations governing the export of fish similar to those which have in the past prevented excessive exports of certain classes of timber.

Mr. Procter in Vancouver

(Special to The Daily News.)

VANCOUVER, B.C., Feb. 3—T. G. Procter of Nelson stopped over here today on his way to Victoria to press for improvement of roads in the Nelson district. Mr. Proctor gave a strong interview in the local press in which he stated that the people of Kootenay are strongly opposed to the consummation of the reciprocity treaty with the United States. He says the proposals do not make any concessions to the mining industry, but strike a heavy blow at the fruit growers and lumbermen. He states that a large amount of money has been invested in Kootenay fruit lands on the assumption that the Dominion would protect the interests of its settlers whose market is now proposed to be thrown wide open to Americans. The removal of the duty on lumber, he states, will promote careless and wasteful logging and serious inroads will be made on the timber reserves of the province at a time when such action is inadvisable.

M. Procter reports the mining interests of the Kootenay district are bright as the speculative element has been displaced by parties who are doing actual development work.

It is in time of sudden mishap or accident upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all druggists and dealers.

PREPARE FOR CARNIVAL ON TUESDAY NIGHT

The skaters in the city are looking forward with eagerness to the last fancy dress carnival, which will take place at the rink next Tuesday evening. A number of prizes will be awarded to those wearing the best fancy and comic costumes.

COMES HOME UNEXPECTEDLY AND DROPS DEAD

LONDON, Ont., Feb. 3—For years the family of Albert Smith have wondered where he had gone. They had not heard of him for years and had come to the conclusion that he was dead. Yesterday Robert Smith, living near London was surprised by having his long lost brother walk in. The usual greetings of a long lost relative were exchanged. Albert had been all over the west and was reviewing his travels to his brother and family when suddenly he fell over. Medical aid was called but he was dead. Albert was a cripple from hip disease.

RELIEVE

Neuralgia

"I have awful spells of Neuralgia and have doctored a great deal without getting much benefit. For the last two years I have been taking Dr. Miles' Anti-Pain Pills and they always relieve me. I have been so bad with Neuralgia that I sometimes thought I would go crazy. Sometimes it is necessary to take two of them, but never more, and they are sure to relieve me." MRS. FERRIER, 2434 Lynn St., Lincoln, Neb.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

LOT OPPORTUNITY

Two exceedingly choice building lots in Fairview, level as a floor, absolutely free from stone, thoroughly cultivated, no stones or stumps or roots to be found on them; 12 fruit trees 6 years old, well fenced with wire fencing. An ideal site for a home, commanding magnificent view of the lake. These lots are worth $500; unimproved lots in same locality sell at $150 to $200 per lot. The improvements cost easily $75 per lot, then the fence and fruit trees would easily cost $50. Figure it out for yourself and you will see what a snap we are offtring you for $350 on your own terms. Buy them now they are money makers. The owner forced to realize; your chance to benefit by his sacrifice.

The House Buy of Today for a Little Cash Down

Four lots cleared, close in, within the half mile circle; no hills to climb. With a comfortable house of four rooms, city water, chicken house and runs. Rented for $13.50 per month. Price $1350. A small cash payment, balance in monthly payments. This property is so situated that it is sure to increase in value. Let us show you this property. When you see it you will be convinced that it is one of those money making buys that pays to snap up.

A SPECIAL BUY

An opportunity to secure a suburban home at a sacrifice price. Adjoining the city limits on Falls street.

A cosey, well built cottage of 5 rooms nicely finished outside, newly papered throughout. City water and five lots all cleared and under cultivation. The lots are a gift, the house and improvements are worth the price quoted.

$1200

will buy this cosey home if you act quick.

BULLS IN CONTROL

WINNIPEG, Feb. 3.—The bulls showed that they were in control of the markets today, and that did not allow the recessions to proceed too far. Soo, common, was fractionally higher, and Reading made a respectable gain. New York Central was higher on account of a decision by which its franchise rights on certain streets in New York were permanently confirmed in the courts. Union Pacific gained a point, while Missouri Pacific ascended on rumors of beneficial changes in management. Northern Pacific sold off, having apparently wearied of the upward journey.

WEAK SCALPING MARKET

WINNIPEG, Feb. 3.—A weak scalping market prevailed on all exchanges today, with Winnipeg strongest. Liverpool cables came ⅜d to ½d lower, which was followed by our markets opening unchanged to ⅛c lower, but with the advance of the morning further declines took place. Trade locally was quiet both in futures and cash. Demand for the latter was small, and although export bids were in line for lower grades, very little was worked owing to the scarcity of wheat for sale. The number of cars inspected locally was only 18 as compared with 87 last year. Toward the close of the market a reaction from the low point took place on the American markets, but the bears held wheat down on the Winnipeg exchange until at the close May showed a decline of ⅜c, July ⅜; while on Chicago the decline was ⅛c for *May, ¼c for July and ¼c to ⅜c for September*, and on Minneapolis ⅜c for May and ¼c for July. Liquidation in oats was in evidence again and a decline of ¾c took place on the local market, while Chicago held steady both in oats and corn.

BACK BROKEN BY FALL IN MINE

Oddfellows Will Give Masquerade Ball in Greenwood—Three Basket Socials in Prospect

(Special to The Daily News.)

GREENWOOD, B.C., Feb. 3—Oats are $40 a ton in Greenwood.

R. G. Sidley is suffering from a paralytic stroke.

There are three cases of typhoid fever in Midway.

Cider and apples from Grand Forks are plentiful in Greenwood.

The Oddfellows will give a masquerade ball in the old Masonic hall on Feb. 14.

There will be a hockey match next week between the Oddfellows and the Knights of Pythias.

The sheriff's sale of the Elkhorn mining property has been postponed until the 24th inst.

There will be three basket socials at Rock Creek this month.

James Ennis, better known as Jimmy, the baker, has been admitted to the provincial home in Kamloops.

Mrs. Howard Stevenson, formerly of Midway recently underwent a successful surgical operation in Rochester, Minn. She is now a resident of Watson, Sask., where her husband is agent for the Canadian Northern.

Charles Hemi is in the hospital with a broken back, sustained by a fall in the Mother Lode mine.

BIG TANK BURSTS AUDIENCE IN PANIC

BERLIN, Feb. 3—While a performance was being given in the winter garden, the mammoth variety here, late today, a big tank used by women livers burst precipitating the contents into the auditorium. A panic followed and 1000 spectators made a rush for the exits. Women and children were knocked down and trampled and many were hurt. It is not known yet whether any were killed.

ROB INTOXICATED MAN—THROW PROCEEDS AWAY

WINDSOR, Ont, Feb 3—A daring robbery occurred this afternoon when Ross Simpson and Fred Boors of Detroit, robbed an intoxicated man in the Herindon hotel of $200 and a gold watch and then made a dash for the Windsor ferry. The police were notified and reached the dock just as the ferry boat was ready to pull out for Detroit. The boat was held while the officers arrested the men. The men in an effort to get rid of the evidence of the deed threw the money and the watch overboard. Three five dollar bills were picked up by a customs officer in a row boat. The rest of the money was lost. The men are now being held in Windsor police station charged with theft and will appear before the magistrate tomorrow morning.

ALL YOUR STOMACH TROUBLE VANISHES

Indigestion, Gas, Heartburn and Dyspepsia go and You Will Feel Fine in Five Minutes.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

THE NELSON NEWS

Votes will be allowed on all new or renewal subscriptions to The Daily or Weekly News.

Everybody needs the Nelson News and candidates will find it an easy matter to secure new subscriptions and renewals from already subscribers.

The business man, the rancher, the miner, the lumberman, in fact every man and woman in the whole of Southern British Colnmbia will find The Nelson News indispensable.

Relatives residing at a distance are interested in the affairs of those in this section and they can easily be persuaded to subscribe.

Many business men residing in the east have investments in the Kootenay country, and they will be glad to subscribe. Get your friends' subscriptions today.

Elegant Mason & Risch Piano

Will be given to the church, lodge, school, society or individual named by the winner of the grand prize. Candidates may announce at any time that if they win the grand prize they will award the $500 piano to any organization or individual and those interested may turn in subscriptions to the credit of the candidate who has declared for them.

How to Win

After having read all about The Daily News' great offer you will desire to enter the contest and win. THE FIRST THING TO DO is to enter your name as a candidate, then either call or write for a receipt book, with which to secure subscriptions. NEXT, let all your friends know you are in the contest and request them to save their votes for you. Keep this up and YOU WILL BE SUCCESSFUL.

The contest department is a part of the circulation department of The News, located on the first floor. Call on the contest managers, who will be glad to give you any further particulars regarding the details of the contest. Telephone No. 144.

HAMPTON'S MAGAZINE

Votes will be allowed on all subscription payments to Hampton's Magazine.

Hampton's is the sensation of the magazine world. It is a magazine with high ideals, militant in the cause of the people, devoted to the very best in literature and entertaining all the time.

Hampton's costs the publishers $300,000---but you can get it for $1.50.

Hampton's paid $50,000 for Peary's story of the discovery of the North Pole.

Hampton's contributors include the most eminent men and women living. Its articles cover every phase of existence---fiction, humor, science, exploration, children's rights and women's opportunities, health, politics and better government.

No extra charge for Canadian subscriptions.

Nomination Coupon--1000 Votes

As the Nomination Coupons are good for One Thousand Votes each, only one of these coupons will be accepted for one candidate.

Pleases people hard to satisfy

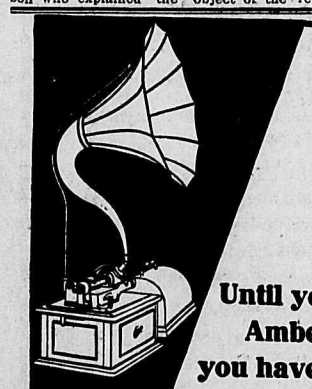
BRITISH COLUMBIA AND DAWSON LINE

Bill Reported by Railway Committee—Martin Burrell Promotes Bill—Head Office in Ottawa.

OTTAWA, Feb. 3—The railway committee of the commons this morning considered a bill to incorporate the British Columbia and Dawson Railway company which proposes to build a railway from Lyttleton to Fort George and thence through northern British Columbia and the Yukon to Dawson city. Provisional directors are New York and Chicago men. Colonel Andrew Thompson who explained the object of the company said that it would be purely a Canadian enterprise inasmuch as the railway would not touch the boundary of the United States. He said the promoters of the railway were confident that the future development of northern British Columbia would warrant the building of the railway.

Martin Burrell, promoter of the bill, expressed a similar opinion. It was explained that in addition to building to Dawson, it is proposed to build a line from Ashcroft to the Fraser river and from Lillooet lake and river and Harrison lake to Vancouver.

The committee decided to increase the capital stock of the company from $1,000,000 to $10,000,000. The bill provides that the head office of the company shall be in Ottawa. The bill was reported.



Until you have heard Amberol Records you have not heard the

Edison Phonograph

at its best

Amberol Records open an entirely new field of music for Edison Phonograph owners. They offer music which by reason of its length cannot be secured on any other record. They offer not only a wider range of music, but a higher grade and a better rendition than has before been possible.

The tone of Amberol Records is matchless. They have a clearer, richer tone and more delicate interpretation than that of any other Edison Records, which means that they are superior to all other records.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogs from your dealer or from us.

Edison Phonographs, $16.50 to $240.00. Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c. to $2.50.

ELECTRICITY FOR STEAM ON QUEBEC'S RAILWAYS

Agitation Over the Tariff—Noiseless Business in Montreal—Gambling Trust—Cocaine Bill.

(From Our Own Correspondent).

MONTREAL, Feb. 3—Although Canada's loss by forest fires was far less this past year than on any previous year, and although her record through many years has been much better than her neighbors in the United States, concerted efforts are now under way to minimize in a practical manner the many dangers which, from one source and another, beset her timber wealth. At the forestry convention, which was presided over by Earl Grey in Quebec, many opinions were expressed by noted foresters from all parts of the country. Action by those who are vitally interested in and partly responsible for timber destruction would do more for conservation of this kind than any law ever promulgated. Therefore it may be safely said that it will not be many months before the province of Quebec will have a plan of campaign drawn up in which the railways, contractors, settlers, hunters and the general public who make use of the forest areas will play their parts for safeguarding against fires. The railways have been asked to figure out the cost of replacing steam by electricity, and Sir Lomer Gouin has hinted that he would be in favor of granting no charters for new roads in northern Quebec unless they were equipped with electricity.

Reciprocity and Manufacturers.

Although the reciprocity negotiations at Washington are over, and interest in the subject is not so much to the fore as it was some weeks ago, it hardly seems out of place to call attention to some of the prophecies which were made at the banquet of the Canadian Manufacturers' association here, when some of the best known men of the country sat down to dine together. That there are subjects of agitation in the country was evident from the tone of the speeches. Hon. Mr. Lemieux, R. L. Borden, Sir E. B. Walker, Donald Macmaster and Charles M. Hays, each had something striking to say, and each expressed his opinion frankly. The reciprocity negotiations, the divergency of interests between farmers of the west and manufacturers of the east, the closer linking of imperial bonds, and Hon. Mr. Lemieux's eloquent description of harmony under the British flag in South Africa were all subjects of keen interest to the more than 300 captains of industry who attended the banquet.

Picking Out the Lemons.

An incorporation of brains might well describe a company which has just made its bow to Montreal. It is a new idea in Canada to incorporate brains, but besides having brains it has a capital of $500,000. When a man wants to invest his savings he is invariably met with the question "What securities are safe?" Canada is full of gold brick propositions these days. Some of them are mining and oil propositions gaudily decorated. Others are questionable land speculations, all will bear investigation. Some of them will be good some of them may be bad. They will all seem good if you believe the promoter. How to distinguish? That is a problem which has been worrying the investing public for ages, but a problem which hereafter will have been solved. Charles Cahan, K.C., and H. H. Lovett, K.C., have turned the trick. They have formed a company known as Corporation Agencies, Limited, whose business is to advise. Were Tom, Dick or Harry to go in for a business of this nature one would pay no more attention to it, but whatever Messrs. Cahan and Lovett have turned their hands to in the past they have been more than successful with, and it is not risking much to assert that the incorporation of these gentlemen's brains into a business for serving the public with good advice will be successful in the future. Corporation Agencies also intends to act as agent for Canadian undertakings, with a view to bringing them to the attention of capitalists here or abroad. R. Lloyd-Jones is the manager and a large staff of consulting engineers, auditors, accountants and other expert investigators, has been carefully selected for this most interesting and important work. It is the first institution of its kind in Canada.

Campaigns Against Noise.

There have been intermittent campaigns against whistling of tug boats on the Lachine canal in the middle of the night, there have been strenuous objections to the railways shunting and tooting freight and passenger cars in the wee small hours of the morning, there have been plaints laid before the city council concerning the ashman and his horrid disturbances in taking up the garbage at dawn, but there has never been a campaign against noise in the down town district of the city, in the offices where men work their brains for bread. But the noiseless office is on the way just the same. In some of the larger offices, where 15 and 20 typists are employed hammering away at their machines from morning till night, the noise is deafening. Until lately it was accepted as a necessary evil, but now through the ingenuity of man again, times have changed. The noiseless typewriter has made its appearance, and where once a babel of clicks and clacks resounded through an office all is as quiet and as tranquil as a church. It took a long time for S. P. Kidder to perfect a noiseless typewriter machine, and longer for the invention to reach Canada. Now the demand for them is so great that it is impossible for the factory at Middletown, Conn., to supply half the required number. To one of a mechanical turn of mind the noiseless machine is of great interest for the tranquility it brings. Some offices on St. James street and they are busy offices too, are as quiet as a village store.

A Bad Food Scare.

As a result of a seizure of something like 75,000 gallons of Chinese eggs here the other day, a rigid investigation as to how Montreal gets her food supply has been started by the board of control. Dr. E. P. Lachapelle, one of the controllers and also a member of the provincial board of health, says he believes that Montreal has been made the dumping ground for bad food, refused by other cities, for years. The eggs were put up in tins for sale to the bakers and samples of them tested by the city's analysists showed that one dose of the mixture killed a guinea pig in less than a day.

Cocaine Legislation.

The cocaine clause of the opium bill which will be introduced in the house of commons by the Hon. W. L. Mackenzie King, is a direct result of the investigations made by a little band of workers in Montreal, who have found that the cocaine snuffing evil has reached large proportions in the city and country, and is doing untold damage to the boys and girls of Canada. Mr. King will ask for cast iron legislation setting an absolute ban on the sale of cocaine in the Dominion of Canada except for medical purposes and providing heavy punishment for violators of the law. The present laws have proved totally inadequate in coping with the evil, and Chief Carpenter of the detective bureau, has made the startling announcement that fully four-fifths of the young boys and girls who fall into his hands, have the habit in a greater or lesser degree, and that he and his men are almost powerless to check the sale by unscrupulous druggists.

The Gambling Trust.

The so-called gambling trust, which flourished here for years unmolested has been broken up or has retired into seclusion. Brady was all powerful until one of his lieutenants squealed, houses in all parts of the city were raided and today there is not a wheel turning.

GREENE AND GAYNOR ARE NEAR FREEDOM

Sentence Reduced by Good Behavior—Notorious Legal Battle Involved the Dominion

ATLANTA, Ga., Feb. 3—Messrs Greene and Gaynor, two of the most noted inmates of the big federal prison here, will be released from that institution within a few days. Under the good behavior rule their sentence of four years was cut down to three years and one month, which period will expire next week. The exact day of their leaving the prison has been kept secret, owing to the desire of the prisoners to avoid publicity. They will be met at the prison gates by the members of their families who have resided in Atlanta the most of the time since Gaynor and Greene began serving their sentences. According to popular belief both prisoners have managed to retain a considerable part of their large fortunes and it is rumored that a long sojourn in Europe will follow their release.

Long Legal Battle

It is doubtful if any case of its kind in the history of the country has attracted more attention that that of John F. Gaynor and Benjamin D. Greene, chiefly because of the long legal battle they waged to escape trial. Their troubles began in December, 1900 when both were indicted by a grand jury in Savannah of having defrauded the government in conspiracy with Oberlin M. Carter of the United States engineer corps. It had been demonstrated that Carter had for years conspired with the Atlantic Construction company, of which Gaynor and Greene were the chief partners, to the end that only this company could bid for the work of river and harbor improvements around Savannah; that Carter drew specifications that only the Atlantic people could meet on time and that in this and other ways the government was defrauded of about $2,000,000.

Carter was convicted and sentenced to prison and to pay a fine. Gaynor and Greene being arrested in New York began to contest extradition to Georgia. They carried the case finally to the supreme court which decided against them, and on the eve of their being taken to Georgia they fled, leaving their bondsmen to forfeit altogether the sum of $80,000. On May 11, 1902 they turned up at the Chateau Frontenac, Quebec. Proceedings for their extradition were at once begun. The Canadian officers, fearing delay, arrested them and took them by boat to Montreal. The prisoners' lawyers tried to stop the tug and serve writs of habeas corpus, but they failed.

With the prisoners confined in Montreal there was a repetition of the old struggle between the courts. The Quebec courts wanted the men back there whereas Extradition Commissioner Lafontaine wished to hear the case in Montreal. Finally the Quebec judge scored and they were returned to that city. On Aug. 13, 1902 Judge Caron dismissed all charges against the prisoners, a decision which aroused a storm of protest from the press in both Canada and the United States. The United States government then appealed to the English privy council, which decided against Gaynor and Greene. The men then applied for a writ of habeas corpus, which was denied.

Following their return to Savannah Gaynor and Greene, who already had spent over $750,000 in their defence, appealed to the supreme court of the United States on a technicality, but they again lost and the judgment against them which covered a fine of the same amount as the money supposed to have been taken, was affirmed. The legal battle lasted over six years and it was not until the beginning of 1907 that the men were received at the federal prison in Atlanta to begin serving their sentences.

WAS REDUCED TO A SKELETON

GIVEN UP BY THE DOCTORS AND PREPARED TO DIE

"FRUIT-A-TIVES" SAVED HER LIFE

The days of the miracle have not passed away. Every day—almost every hour—"Fruit-a-tives" is performing miracles of healing in some part of our country! One does not ordinarily think of miracles in connection with fruit juices—and yet it is fruit juices that are changing sick, helpless, and sometimes dying, people into happy, healthy men and women. Here is just one case in which the cure made by "Fruit-a-tives" was nothing short of a miracle.

MADAME ARTHUR TOURANGEAU.

Madame Tourangeau suffered for eleven years and was finally given up to die by her physicians. Yet "Fruit-a-tives"—the marvellous remedy made of fruit juices—completely cured her and restored her to health.

Here is her letter—read it—study it—profit by it.

RIVIÈRE À PIERRE, CO. PORTNEUF, QUE., May 9th, 1910

"I look upon my recovery as nothing short of a miracle. I was for eleven years, constantly suffering from Chronic Dyspepsia and Indigestion with Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate. Even water would not stay on my stomach.

The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. I received the Last Rites of The Church and looked forward to death in a short time. I was reduced to a skeleton.

At this time, a lady friend strongly urged me to try "Fruit-a-tives" and how thankful I am that I did so. When I had taken one box, I was much better and after three boxes, I was practically well again and had gained 20 pounds. I have taken 13 boxes in all and now weigh 150 pounds and am absolutely well—no pain—no indigestion—no constipation—my heart is sound—and complexion clear.

For the sake of other sufferers, I give you permission to publish my letter and photograph."

MADAME ARTHUR TOURANGEAU.

The stomach is a bag about a foot long and six inches wide, covered by a muscular coat and lined with delicate membrane. This lining membrane should pour out for each meal about a pint of Digestive Fluid called Gastric Juice, which dissolves or digests the food.

During digestion, the muscular coat squeezes and presses the food from one end of the stomach to the other, and this churning mixes the food with the Gastric Juice. If the food is not churned properly, or if the Gastric Juice is weak—then the food is not dissolved properly and Indigestion and Chronic Dyspepsia result.

Gastric Juice comes from the blood—and the only way to have strong, active Gastric Juice is to keep the blood pure by keeping the bowels and kidneys regular, and the skin active.

"Fruit-a-tives" will always cure Indigestion, Sour Stomach and Chronic Dyspepsia because the fruit juices act on liver, bowels, kidneys and skin, purifying the blood. "Fruit-a-tives" relieves any irritation in the stomach—strengthens the muscular coat—and ensures the Gastric Juice being full strength and abundant. If you have any Stomach Weakness or Trouble of Digestion, by all means take "Fruit-a-tives". 50c a box—6 for $2.50—trial size, 25c. Sent on receipt of price, if your dealer does not handle them, by Fruit-a-tives Limited, Ottawa.

COST OF PROJECT IS DIFFICULTY

Deputation Asking for Georgian Bay Canal Interviews Minister of Finance.

OTTAWA, Feb. 3—The deputation of federal boards of trade waited on Hon. Mr. Fielding today to press the claims of the Georgian bay canal. There were about 150 memorials from various parts of the country and part of a monster Montreal petition. The deputation consisted of the following: G. May, president of Ottawa board of trade; John Ferguson, president of North Bay board; W. J. Poupore and W. A. Dandurand, of Montreal; O. A. McCool, Frank Cahill, D. Murphy, T. A. Wilson, M.P., K. G. F. Hodgins, M.P., Gerald White, M.P., and A. J. Forward, the secretary. In replying to the deputation Mr. Fielding said that in consideration of the demands of the deputation it was entitled to consideration. He said:

"This is a question upon which I cannot make any definite statements. I have been absent for many months and have not had an opportunity recently to discuss the project with my colleagues. I can not say when the project will be taken up. This is a debatable point. There is great difficulty in financing the project and the people who sign and present these petitions seem to lose sight of this difficulty. I can assure you that I quite appreciate the vast importance of the subject and I will discuss it with my colleagues at the earliest opportunity. I have never harbored any hostility to the project, in fact, I realize to the fullest extent the importance of such a waterway to the commerce of this country. I have always been sympathetic with such schemes. Any representations to impress upon the government the importance of executing this project are no longer necessary."

FUNDS NEEDED TO RELIEVE DISTRESS

Much Suffering Has Resulted From Volcanic Eruption—Victims Number Six Hundred.

WASHINGTON, Feb. 3—To meet conditions of suffering in the Philippines incident to the eruption of Mount Taal, the Red Cross society in Washington cabled $10,000 to Governor Forbes. Governor Forbes is president of the Philippine branch of the society. The governor states that unless adequate means are adopted there will be much suffering as mud and lava have destroyed the crops of thousands of families.

Three hours passed this morning without any additional tremors being registered by the seismographs at the Manila observatory. This is considered a good sign by Father Algue, the head of the conservatory. Col. Rivers, of the army and assistant chief of the Philippine constabulary, has been placed in charge of all relief work. An appeal has been issued to the public by the Philippine government requesting funds for relief work.

MANILA, Feb. 3—A prolonged earthquake aroused the residents of Manila today. Revised estimates place the number of those killed by the eruption of Mount Taal and drowned in the tidal wave at 600. These include many of the hamlets which are being excavated on the north shore of Taal island. Sixty-two bodies were buried in a trench today.

S. J. HUNT, Rossland

Here it is—watch for the name!

This is the flour you have been looking for. It is SEAL OF ALBERTA—the flour that experience has demonstrated to be faultless.

You can test this for yourself. Buy a sack of SEAL OF ALBERTA. Use some of it for baking your next batch of bread.

You may note these features about SEAL OF ALBERTA—It will absorb just a little more water—It will make a larger loaf—It will be better shaped—It will be beautifully rounded, neither falling over the edge of the pan nor flattening out on top. It will be lighter, sweeter, better bread.

Then test it. Make any comparisons you like. Consider color, texture, appearance. You will find every word we have said to be true. SEAL OF ALBERTA is not only different—It's better.

THE LABOR WORLD

Spokane, Wash., team owners recently formed a union.

A co-operative store has been formed by the unions of Waterloo, Ia.

About 95 per cent of the building trades at Fort Worth, Tex., are unorganized.

The coal mines of Nova Scotia in 1909 gave employment to 12,063 persons.

Efforts are being made to organize the Italian freight handlers at Portland, Me.

A metal trades council has been organized at Quincy, Mass, with 13 unions affiliated.

Madera, Visalia, Exeter, Hanford and Fresno, Cal., are building up strong labor union organizations.

Spanish coal mines steadily employ more than 1,100 women in labor that has to be done above ground.

A child labor law will be one of the measures which the labor unions will urge the Tennessee legislature to pass.

San Mateo, Cal., Building Trades council has settled its differences with the contractors after months of dispute.

Action to organize the workers in dyeing establishments probably will be taken shortly by the Trades' Hall council, at Sydney, Australia.

The National Association of Pharmacologists has taken up the matter of establishing shorter hours for drug clerks and proposes to do it by legislation.

Local No. 728, International Brotherhood of Teamsters, a Brooklyn and Long Island organization, has started a campaign for more complete organization of the truck drivers.

The American Federation of Labor has instructed labor in various states to exert influence to secure legislation forbidding the alleged use by police authorities of the "third degree" to secure confessions from prisoners.

A strike of the clerks in 20 of the east side (New York City) banks, according to the organizers of the newly formed East Side Bank Clerks' union, is threatened if demands to be made in their behalf for higher wages and shorter work day are not granted.

The last report of the Amalgamated Society of Engineers, of Great Britain, states that the membership is now 119,043, as compared with 109,381 in October. The general fund now stands at $899,850, as compared with $865,220 at the end of June, the superannuation reserve fund also showing a marked increase.

There were 29,293 fatal accidents in the coal mines of North America during the 30-year period ending with 1908, a rate of 3.11 to each 1,000 employees in the mining industry, according to a bulletin of the bureau of labor, department of commerce and labor, which has just been made public.

William E. McEwen, labor commissioner of Minnesota, will visit the northern part of that state as a representative of the American Federation of Labor and inaugurate a plan which will invite the bringing into the fold of organized labor the migratory workers in that section of the state. A similar campaign is mapped out for other states.

AT THE THEATRES.

A good program will be shown at the Gem theatre this evening, consisting of the following subjects: "Little Nell's Tobacco," a fine Imp feature; "His Gypsy Sweetheart;" "Cowboys' Courtship," and "Wanted, An Athletic Instructor." The Film Exchange says that the pictures of the race between Barney Oldfield, the world's champion automobile racer, and Jack Johnson, the world's champion prize fighter, are perfect, and guarantee it in every way. The above will be shown on Monday and Tuesday evenings, Feb. 6 and 7.

The pictures at the Empire theatre for this afternoon's matinee and evening show include several interesting features, among which are, "Mental Science," "The Sheriff and Miss Jones."

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need It contains no harmful substance and always gives prompt relief. Sold by all druggists and dealers.

CATTLE DYING ON INDIAN RESERVE

Forage Covered by Hard Sheet of Ice—Hundreds of Cattle are Perishing

GREAT FALLS, Mont., Feb. 3—Advices from Browning, on the Blackfoot Indian reservation, tell of the live stock losses by reason of early chinooks having thawed the snow which froz-, forming a hard sheet of ice oevr the range grass and prevented the big herds on the range from obtaining fodder. Hundreds of cattle have perished in the vicinity of Browning and unless another chinook sets in soon it is feared the losses will be the heaviest in some years.

Fifty thousand head of cattle are ranging at large on the reservation. Eight dead were counted in one snowdrift. Thousands of cattle are flocking on the right of way of the Great Northern.

HAD GOO DRECORD

TORONTO, Feb. 3—Inquiry at the head office of the Dominion bank here elicits the information that A. J. Ferguson who committed suicide at Hanley, Sask., has an elegant record as an official of the bank in which institution he had been employed for the past five years. Mr. Ferguson was 27 years of age and ill health and domestic worries are alone believed to be responsible for his rash act. A fortnight ago he made application for leave of absence to come and east, which was granted but he decided to wait until the weather moderated for travelling.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

We'll Make Your Spring Suit or Overcoat to Measure

COLLIER WRECKED ON TURN POINT

Heavily Laden With British Columbia Coal for Mexico—Position is Serious.

VANCOUVER, B. C., Feb. 3—The collier Titania, six thousand tons, heavily laden with British Columbia coal for Mexico, was wrecked this morning on Turn point, San Juan island in American waters at the southern end of the Gulf of Georgia. The steamer left Union Bay, B. C., yesterday and hit this morning at 7 o'clock. She was in charge of Capt. Christianson, a Victoria pilot, at the time of the accident. Capt. Ernest Kroger, is the commander of the Titania which carried a crew of 26 men, all of whom are safe.

Proceeding in a fairly heavy sea and with a hard tide running the Titania suffered an accident to her steering gear, became unamanageable and hit the rocks. She went on at high tide and this fact with the additional one that her forward hold is full of water, is taken to indicate that her position is serious. She sent out calls for aid and a tug is now going to her assistance from Roche harbor, Washington.

The steamer Titania has been engaged in the coal carrying trade between Nanaimo and San Francisco for a number of years, only recently having been chartered from Union Bay to carry coal to Mexico. She is a Norwegian steamer of the semi-whaleback type, and has a capacity for 6000 tons of coal.

JAPANESE POPULAR PARTY WANTS INCREASE IN NAVY

VANCOUVER, Feb. 3—Japanese papers received here today show that a manifesto has been issued by Leader Oishi, of the Popular party demanding another high increase in the navy. The papers comment widely upon the action and most of the editors take the same view as the political leader. In the manifesto Oishi declared that unskilful diplomacy would cause Japan to lose the supremacy of the Pacific if she did not fight a "certain country." That the United States is the "certain country" referred to is evident. Oishi says the United States will have a navy in the Pacific double that of Japan's in 1911 unless immediate steps are taken to increase the Mikado's fleets.

CALGARY IS GROWING

CALGARY, Feb. 3—The city's population is 55,330 according to the estimate of the directory authorities. This means an increase of over 9000 in the past year. One fact in the growth of Calgary is revealed in this year's directory and that is that this city shows a greater proportion of growth in English speaking people than almost any other city in the west. The slight foreign speaking increase is shown in the north and east part of the city.

MOR EDEATHS FROM PLAGUE

PEKIN, Feb. 3—Several additional deaths from plague occurred in Pekin today.

GOES TO PRIVY COUNCIL

WINNIPEG, Feb. 3—An application was made before the court of appeals this morning on behalf of the city for leave to appeal direct to the privy council, instead of going to the supreme court of Canada as the city at first determined to do in its case with the Winnipeg Electric Railway company. The court granted leave to appeal and the city's appeal to the supreme court will now be dropped. One of the principal points to be decided by the privy council arises over the provision in the by-law that: "The company shall place and keep within the city limits all the engines, machinery, power houses, repair shops and construction shops (if any).

SEND PLAGUE COMMISSION

LONDON, Feb. 3—Great Britain and the United States are sending a plague commission to the infected districts and it is likely that other nations will do likewise. Medical men throughout China who have searched the records discovered only brief paragraphs in them concerning the pneumonic and septicaeamic forms of the plague. The latter type is sometimes fatal in three hours. Its bacilli apparently are identical with those of the bubonic plague but their action is quite different.

OVER-ISSUE OF COBALT MINING STOCK

TORONTO, Feb. 3—There has been an over-issue of the stock of Little Nipissing Silver Cobalt Mining company and pending an investigation the stock transfer books of the company have been closed. A special meeting of the shareholders has been called for Feb. 17 at the King Edward at which it is expected the whole matter will be in shape for action.

NELSON NEWS OF THE DAY

(Additional News Notes on Page Seven.)

H. E. Horton and E. P. Horton of Taghum registered at the Strathcona yesterday.

A big crowd is expected at the Sons of England social in the K. P. hall on Monday evening.

George A. Lanmers of Stillwater, Minn., the well known lumberman, is a guest at the Hume.

There will be a meeting of the directors of the Nelson Street Railway company on Tuesday evening at 8 o'clock.

J. L. Shepherd, late of the Hume hotel staff, leaves this morning via the Great Northern railway for Chicago.

There will be a meeting of the Nelson and District Women's Institute in the K. P. hall this afternoon at 3.30 o'clock.

A debate was held by the Intermediate league at Trinity church last evening, on the subject, "City vs. Country Life." The affirmative won.

For the fifth day in succession the Crow boat came in last night without any passengers from the east, the blockade not having yet been raised.

R. H. Stewart, general manager of the Consolidated Mining & Smelting company, arrived from Rossland last night, with Mrs. Stewart and child, and registered at the Hume. They leave on the coast train this morning.

E. K. Beeston returned yesterday after attending a meeting of the Robson Farmers' Institute on Thursday night. Mr. Beeston was present in his capacity of secretary to the new Kootenay Fruit Growers' union and explained to the meeting the objects of that organization, with the result that many of those present expressed the intention of becoming stockholders and benefitting thereby.

An attempt was made on Thursday and another yesterday afternoon to bring in the shaft from the power plant which is to be tested for faults by the Nelson Iron Works, but both failed owing to the heavy snow on the Granite road and the weight of the machinery. It is probable that a special sleigh with extra broad runners will have to be built in order to bring in the shaft, which weighs over three tons. George Motion is in charge of the work.

WAD OF BILLS IS FOUND ON BEGGAR

Officials at Provincial Jail Make Discovery on One Handed Vagrant Sent Down for Term

The discovery of a wad of bills carefully concealed beneath a portion of a woolen sweater wrapped around the stump of his left arm indicates that Charles Bowman, alias Clarence Kingham, who was sent down for 60 days yesteday by Police Magistrate Irvine on a charge of begging, was not in the unfortunate state of destitution which he wished to make the charitably inclined to believe.

Bowman on several occasions during the past few weeks has been in Nelson and has been detected in the act of begging alms from pedestrians on the streets by the police. One of his hands was off above the wrist. On two or three occasions he has been given an opportunity to avoid trouble in the police court by getting out of town. He had gone out on each occasion, but came back a few days ago and was caught again by the police on Thursday night. Yesterday morning he came before Magistrate Irvine and was sent down for 60 days in the provincial jail. On being searched there it was discovered that he had a number of bills concealed around the stump of the arm from which the hand is missing.

JOSEPH MARTIN EULOGIZES HOUSTON

"Fighting Joe" Expresses Appreciation of Pioneer Journalist—Subscription Limit is Removed

S. M. Brydges, secretary of the committee in charge of the John Houston memorial fund, yesterday received from Joseph Martin, K.C., and member for one of the St. Pancras divisions in the English house of commons, a characteristic letter of appreciation of the late John Houston. After mentioning that he had already subscribed the regulation $1 to the fund, Mr. Martin said:

"I admired Mr. Houston very much as a public man and also as a private citizen, and feel that he cannot be replaced.

"*I sat on opposite sides with him in the* house and also on the same side. I always found him a true man and one of the strongest upholders of public rights,

"If the limit of $1 should be taken off I would gladly subscribe more."

The committee have now decided to remove the limit of $1 to the subscriptions and it is anticipated that many will take the opportunity of still further expressing their appreciation of the services of the late John Houston to Nelson and the province generally. The number of lists now out is 220.

RANCHERS BUILD ON WEST ARM

Club Together and With Assistance of Nelson Men With Summer Homes Expect Large Structure

Finding the accommodation for concerts, meetings and church services on the West Arm, between Nelson and Harrop, to be entirely inadequate, a number of the ranchers and others living for a whole or part of the year between Four-mile and Eight-mile points have clubbed together and commenced the erection of a hall of the dimensions of 20 by 40 feet.

The location of the hall is at Five-mile point of Crystal beach, and the land upon which it stands has been donated by A. D. Emory of Nelson. Others assisting in the work by giving subscriptions or otherwise helping are: Dr. N. Wolverton, J. Bannister, A. B. Shannon, R. H. Ewert, M. Brown, W. McGuire, C. N. Tripp, W. Burgins, A. Scitt, P. Thomson, Mrs. C. Miller, F. Belcher, A. T. Walley, J. A. Irving, Dr. E. G. Smyth, William Irvine, C. W. West, Mr. Dawson, J. F. Thompson, Dr. J. A. Neale, J. J. Campbell, McDonald & Doyle, Heddle Bros., Mr. Cruickshank and T. Airey.

The new hall will be found of immense value to the ranchers along the Arm, as at present they have no place at which to hold concerts, Farmers' institute meetings or similar affairs. The work of erecting the building is now nearly completed and the intention is to celebrate its opening with some suitable function.

Well-Known Minister

Restored to Health by Vinol

Rev. D. Schneider, who is a well known minister in Rice Lake, Wis., writes:

"I had a very severe stomach trouble last year from which I was kept in bed three months. I engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine and I can gladly *recommend it.*"

Prominent men from all over the country do not hesitate to indorse this wonderful tonic.

For twelve years Vinol has been sold on the "money back" plan and every year strengthens it's popularity and proves by continued tests that it will do what we claim for it. W. Rutherford, druggist, Nelson.
