VOL. 8 NELSON B. C., THURSDAY MORNING, AUGUST 5, 1909 NO. 91

PROVINCIAL LIBRARY 733

FOR TOURISTS

C.P.R. Publicity Manager is Already in Nelson

WILL GET TOGETHER DATA

TOGETHER WITH PHOTOGRAPHERS WILL PREPARE MATTER FOR USE IN C.P.R. ILLUSTRATED ADVERTISING LITERATURE —PUBLICITY METHODS

W. T. Robson of Montreal, publicity manager of the C. P. R., arrived from the east last night and is staying at the Strathcona. Mr. Robson is here for the purpose of gathering material for advertising the district as a tourist resort in accordance with the promise made on Tuesday night by F. W. Peters, assistant to the second vice-president of the railway.

Interviewed by the a representative of The Daily News, Mr. Robson said that all the year round he was busy gathering data for use in the many booklets and other advertising matter published by the C. P. R., and continued: "I have received instructions to get matter in shape for exploiting Nelson and district and shall be round tomorrow to get in touch with the various sources of information as to the attractions of this portions of British Columbia. I am an old newspaper man and have made a specialty of railway advertising and we hope to be able to do for Nelson as a tourist resort what we have done for other places situated on our railway.

"In my department we publish about sixty different booklets, the editions of each of which vary from 200,000 to 250,000. The appropriation made this year by the C. P. R. for publicity was $250,000. This sum is used for emigration, tourist, steamship and hotel advertising. This may seem a large sum but as the development of the road and the districts adjacent to it progresses we find that the various interests have to be put before the public in an attractive manner in order to draw their attention to the advantages of the country through which the C. P. R. runs, and every cent of this money will be taken up by our regular publicity campaign. I try to make our advertising literature as attractive and at the same time as forcible and condensed as possible and am a great believer in good illustrations as a means of bringing the country before the eyes of the world. In my department we have a number of expert photographers who are continually travelling over the line, especially during the summer season. It is necessary to keep these men always at work because of the rapid and remarkable changes which are going on all over the Dominion. They secure the best possible pictures for reproduction in our booklets and in illustrated magazines and newspapers all over the civilized world.

"I hope to have one of my photographic staff here in Nelson within a few days time so that we can secure the illustrations we shall require for the tourist literature advertising this district. We will take pictures of all the most interesting buildings in the city and of the most attractive scenery in this vicinity.

"We receive hundreds of letters every day from all over the world asking for information and booklets describing our various districts and resorts, all of which are answered promptly, and I might say that I have noticed that this year that a growing interest is being taken in this district. I met a man today who is exceedingly well known in literary circles, Prof. Parker of Columbia University, New York, who told me that he had recently been through the Kootenays and that he was simply astonished at its scenic beauty. He said that he proposed to write and speak about it in New York this coming winter.

"There is one feature of the work of the advertising department of the C. P. R. which is not generally known and that is that we supply free of charge to any well known lecturer a set of magnificently colored slides of any place along our road he may care to make use of or is interested in. We have at the present time some 60 sets of these slides in use in various parts of the world. A large number of these are in Great Britain and the continent and also in New Zealand, Australia, China and Japan, but by far the greatest demand for these slides comes from the United States. We also supply printed and typewritten matter for the use of lecturers. This is but one of our many successful methods of advertising. We have constantly running in the different magazines, both technical and otherwise, many special illustrated articles dealing with our road and its adjacent attractions.

"Many persons have told me that they considered that the best advertising the Dominion of Canada receives is done by the C. P. R. I believe that this is true as our organization for the work is undoubtedly one of the best, if not the best, in the world. We have thousands of agents in all the large cities abroad and everywhere we are represented by our advertising pictures and literature. In fact it is now difficult to find any city of the slightest importance in the civilized world where C. P. R. literature is not to be found.

"Our advertising is not conducted in any haphazard way but we have a very careful system by means of which we can check results and so discover which of our many forms of obtaining publicity for the country and railway is most successful. Every single dollar is spent with the object of increasing travel and for the benefit of the road. The company feel that anything that assists in the development of the country through which our railway runs is good business for us, for our interests and the interests of the places on our system are identical. Just in proportion as the population increases we are better off. Our management takes a very broad view on this subject and is keenly interested in the welfare of every municipality on or adjacent to the railway."

BRIBERY CHARGE

New Liskeard Liberal Politician is Committed for Trial

HAILEYBURY, Ont., Aug. 4—Angus McKelvey, a New Liskeard merchant and liberal candidate at the last provincial election, was committed for trial on a charge of bribery yesterday. Another figure in the case was that of John Piche, explorer and prospector, who gave evidence for the crown. Piche is on suspended sentence, he having confessed to taking a bribe for keeping away from the hearing of the Temiskaming and Hudson Bay company dispute with the Ontario government in regard to their alleged right of discovery.

GUN CLUB SHOOT TODAY

ANNUAL EVENT PROMISES TO BE GREAT SUCCESS

MANY SHOTS FROM OUTSIDE ALREADY HERE

Everything is in readiness for the two days' shoot which opens in this city this morning under the auspices of the Nelson Gun club. Another batch of crack shots arrived in the city last evening who, in addition to the local men, will make a record attendance as compared with any shoot previously held in this city.

Among the arrivals last night were L. J. Barclay of Seattle, representing the Winchester Repeating Arms company, and H. E. Poston of San Francisco, representing the Peters Cartridge company, two experts; C. J. Chiugren of Spokane, one of the best shots in the west; R. G. Robinson of Calgary, R. N. Miller of Seattle, A. J. McDonald and W. O. Sturdy of Revelstoke, O. Burden and A. Watson of Crawford bay, and D. Oxley of Phoenix, all amateurs. Several more shots will arrive this morning, among whom will be O. E. Desmond of Kaslo.

The shoot will commence at 9 o'clock this morning on the club's grounds behind the C.P.R. machine shop. There will, all told, be ten events today and the same tomorrow, the local club providing $150 each day to be distributed as added money in addition to the regular sweepstakes. The final event each day will be a handicap event.

For the convenience of the shooters George P. Wells of the Hume hotel will serve lunch on the grounds.

Seats will be provided for the accommodation of the public who may desire to watch the shooting.

The special trophies are as follows: Ink & Ward cup, for best high average made throughout the entire tournament by British Columbia shooters only.

George P. Wells, gold medal for amateur making the highest consecutive score in the money events.

Nelson Gun club medal, for the professional making the highest average, not including the handicap events.

The program for the two days is as follows:

Thursday—Aug. 5

Event No. 1—15 targets, $15 added.
Event No. 2—15 targets, $15 added.
Event No. 3—20 targets, $20 added.
Event No. 4—15 targets, $15 added.
Event No. 5—15 targets, $15 added.
Event No. 6—20 targets, $20 added.
Event No. 7—15 targets, $15 added.
Event No. 8—15 targets, $15 added.
Event No. 9—20 targets, $20 added.
Event No. 10—25 targets. Special handicap event. Entrance $2, no added money. Prize, Stevens' Repeating shot gun, Browning patent, six shots, value $54. Handicap arranged according to percentage made in previous event.

Friday—Aug. 6

Event No. 1—15 targets, $15 added.
Event No. 2—15 targets, $15 added.
Event No. 3—20 targets, $20 added.
Event No. 4—15 targets, $15 added.
Event No. 5—15 targets, $15 added.
Event No. 6—20 targets, $20 added.
Event No. 7—15 targets, $15 added.
Event No. 8—15 targets, $15 added.
Event No. 9—20 targets, $20 added.
Event No. 10—25 targets, special handicap event. Entrance fee $2, no added money. Prize, Ithaca No. 2 Krupp gun, built to order of winner and valued at $100.

Conditions

The contests will commence at 9 o'clock each day and will continue until the program has been disposed of. Contestants are required to enter for all the events in which they desire to compete that day before the hour set for the first competition. Those who later find themselves unable to compete in any of the events for which they have entered will have their money refunded on application to the secretary. The conditions of the shooting are that all money contests will be shot at 16 yards. The entrance fee will be 10 cents per target and three cents per target will be deducted from the money prizes to pay for the targets. The division of the purses will be on a basis of 40, 30, 20 and 10 per cent.

TRIED FORM REPUBLIC

Severe Sentence Imposed on Men From Southern Russia

ST. PETERSBURG, Aug. 4—Sentences were imposed today on 18 men concerned in the attempt to establish a republic in southern Russia in 1908. Nine were exiled to Siberia, two were sentenced to hard labor for life and thirteen sentenced to imprisonment in a fortress for six years. The court also indicted various officials and government servants for their inaction against the republic during its brief existence.

COL. McDOUGALL

To Be Chief Staff Officer for Maritime Provinces

LONDON, Ont., Aug. 4—Lieut. Col. J. C. McDougall, lately in charge of the provincial school of instruction in British Columbia, will be transferred to Halifax in September as chief staff officer for the maritime provinces.

Pretty Girl Elopes

MONTREAL, Aug. 4—A special dispatch from New York says that pretty Miss Lehelmann of that city has eloped with wealthy Mr. Morton of Calgary, who is prominent socially in Toronto.

IS AT OTTAWA

Hon. Charles Murphy Returns from Western Trip

GIVES HIS IMPRESSIONS

BOARD OF CONCILIATION FOR LABOR DISPUTE AT SASKATOON—POST OFFICE PRECAUTIONS AGAINST INFECTED NURSERY STOCK—SALMON HATCHERIES

(Western Associated Press.)

OTTAWA, Aug. 4—Hon. Charles Murphy returned today from the west and expresses himself as enthusiastic over the progress which that portion of Canada has made since he saw it three years ago. He said tonight that what appealed to him most as a sign of what a great country it ultimately would be made was the schools. The school was the most important building in any little town. The schools in the west were architecturally beautiful and splendidly conducted. Elevators were in every place.

Mr. Murphy was emphatic in his belief that Port Arthur and Fort William together would in process of time grow to be the greatest city not only in Canada but in America. He was unstinted in his praise also of Vancouver. The secretary of state thinks highly of United States immigration. He sees no danger in it so far as the nationality of Canada is concerned. These people, he found, adapted themselves quickly to conditions in their new country and become enthusiastic Canadians. Only in Winnipeg did he hear of the Fourth of July being celebrated this year, whereas the first of July was celebrated by Americans in the west everywhere with far more enthusiasm than by the people of the east.

Nowhere did he hear anything of the imperial defence question. One man had put it to him: "We want box cars and not Dreadnoughts," and this he found to be the spirit of the west. He found the west consistently for a low tariff. At the coast he could discover no interest in the question of Japanese immigration at present.

OTTAWA, Aug. 4—On the application of certain workmen employed in connection with the construction of trenches, sewers and municipal public utilities, in the city of Saskatoon, Sask., a board of conciliation and investigation has been established by the minister of labor to adjust grievances relating to the alleged insufficient rate of pay and lack of proper civic inspection of works for the purpose of safeguarding the lives, limbs and health of employees. The number of workmen affected directly is 150 and indirectly 150 others.

Edward J. Stephenson of Winnipeg and Alex Smith of Saskatoon have been appointed members of the board on the recommendation, respectively, of the employees concerned and the corporation of Saskatoon. In the absence of any joint recommendation from the foregoing the board has today been completed by appointment by the minister of labor of E. J. Mellick of Dundurn, Sask., as chairman.

OTTAWA, Aug. 4—The postoffice department has, at the instance of the minister of agriculture, issued a warning to postmasters to be careful to prevent the importation of nursery stock through the mails except after examination by the customs. Much of the nursery stock thus shipped into Canada is known to be infected with various insect pests and therefore the department of agriculture has requested the postoffice department to take every precaution to prevent the delivery of packages containing nursery stock until after they have been thoroughly inspected, and, if necessary, fumigated by the proper authorities.

OTTAWA, Aug. 4—Information has been received by the government to the effect that the new international regulations to govern the fisheries of Canada and the United States, agreed upon by Prof. E. E. Price and Prof. David Starr Jordan, will not go into effect until 1911. They will be published simultaneously in December next, so that a full year's notice will be given to all concerned.

The investigations of the commissioners on the coast have convinced them that the sockeye salmon, which spawn in the rivers of northern British Columbia, such as the Skeena and the Nass, return to those rivers only and never to the Fraser or the Columbia. The commissioners will therefore advise the establishment of hatcheries on the northern rivers.

Miners Talking Strike

HALIFAX, N. S., Aug. 4—The miners of Spring Hill are seriously talking of a strike following the report of the conciliation board made public a week or so ago. Spring Hill conditions are different from Cape Breton in this, that there are no P. W. A. men there. The men belong exclusively to the U. M. W. of A., and if they go out the mines will be compelled to shut down. The conciliation board made a recommendation with respect to docks and fines that the men would be disposed to accept. They feel keenly the system that prevails at present. The docking for stone is more rigorously imposed than it was before the last strike. In this respect the men came out of the battle worse than they went into it, so that they would be willing to accept the recommendation of the board, but the recognition of the U. M. W. of A. was not recommended by the board and this the men want. If they strike that will be their great issue. The company has asserted that recognition of the U. M. W. of A. will never be granted, thus the matter stands between the two opposing forces. A mass meeting of the men of the U. M. W. of A. was held last night. None but those having the password of the U. M. W. of A. were admitted.

Two Deaths at Toronto

TORONTO, Aug. 4—Donald McConnell, aged 13 years, a St. John's industrial school inmate, was accidentally drowned opposite Victoria park yesterday. Police Constable Bond dropped dead in the detention office last evening. He had just brought a suspect to the office and was waiting for an officer when he fell, expiring instantly from heart failure. During the confusion the prisoner escaped.

NICHOLAS GOES ASHORE

RUSSIAN EMPEROR AND BRITAIN'S KING AT COWES

FRENCH PRESS OPINIONS ON MEETING—YACHT RACING

COWES, Aug. 4—Emperor Nicholas, who is here on a visit to King Edward, came ashore from the imperial yacht this afternoon for the first time since his arrival last Monday, and, in company with King Edward, visited the naval station at Osborne. Their majesties drove in a closed brougham.

COWES, Aug. 4—Before returning to the British royal yacht Victoria and Albert for luncheon, Emperor Nicholas and King Edward visited Consuelo, dowager duchess of Manchester.

COWES, Aug. 4—The yacht racing here today in connection with the Cowes regatta showed some interesting events. The principal race was that for Emperor William's trophy, in which there were two starters. It was won by the German schooner Susanna on time allowance, although Germania finished first. Sielly was second, Susanna third, in the twenty-three metre class White Heather defeated Shamrock.

PARIS, Aug. 4—Commenting upon the exchanges at Cowes between King Edward and Emperor Nicholas the French press generally is of the opinion that the words of the British sovereign indicate that England expects Russia to develop her constitutional institutions, and express great satisfaction at the prospect of closer relations between Great Britain, France and Russia.

TAKE OVER WATERWORKS

OVERWHELMING VOTE YESTERDAY AT CRANBROOK

TOTAL COST TO MUNICIPALITY WILL BE $70,000

(Special to The Daily News.)

CRANBROOK, Aug. 4—The policy of the Cranbrook municipal council to acquire the ownership of public utilities has just been endorsed by an overwhelming vote in favor of taking over the waterworks and plant at a cost of $70,000. The result is a matter of great public congratulation.

Murderer Guillotined

PARIS, Aug. 4—A sudden official announcement that a public beheading would take place at 4:30 o'clock this morning, in the boulevard fronting the Sante prison, created a sensation in Paris, which has not seen an execution in 14 years.

Immediately immense crowds gathered at the scene, but were kept back from the guillotine by heavy patrols of police and municipal guards. Parisian sentiment long has been opposed to public executions, for in the past they were accompanied by scandalous scenes of revelry. Despite this sentiment parliament refused to abolish the death penalty in France, and in view of the revolting crime of the man executed this morning president Fallieres refused to commute his sentence to life imprisonment. The victim was one Duchemin, aged 23, a butcher. In 1907 he stabbed his mother, and this not resulting in her death quick enough, he finished her by strangulation. The motive for the crime was robbery.

ELECTED PRESIDENT

Columbians Choose Gonzales Valencia as Their New Ruler

BOGOTA, Aug. 4—Gonzales Valencia was yesterday elected president of the republic of Colombia by the national congress to fulfill the unexpired term of Rafael Reyes, resigned. This means that he will occupy the post of chief executive for about one year. General Jorge Holguin, who has been acting president of the republic, withdrew his candidacy yesterday, leaving the contest between Valencia and Marco Fidel Suarez.

Aeronaut Drowned

NEW YORK, Aug. 4—Percy Woodruff an aeronaut who figured in several sensational balloon ascensions in the east was drowned yesterday afternoon by the upsetting of a launch in the Hudson at Yonkers. A companion was drowned.

STATE RESTS

Now Up to Thaw to Offset Testimony of Alienists

THE EVIDENCE YESTERDAY

DETECTIVES' REPORT ON "MONK" EASTMAN GANG THOUGHT BY THAW TO BE ENGAGED BY WHITE'S FRIENDS TO KILL HIM —SURPRISES IN STORE

WHITE PLAINS, Aug. 4—The state rested in the Thaw case today and from now on it devolves upon Harry K. Thaw and his attorney Charles Morehauser to offset the testimony of the state alienists who have sworn without exception under the cross-examination of the district attorney Jerome that Thaw is still insane and would be a menace to the community if released from the asylum at Matteawan. Dr. Charles P. McDonald was the last alienist called by the senite.

He was followed by John F. Gleason, Thaw's original adviser after the shooting of Stanford White. He came to Thaw's aid this afternoon and cleared up a few points, sweeping away some of Thaw's apparent vagaries upon which Mr. Jerome has dwelt so persistently. Mr. Gleason's most advantageous statement from the prisoner's standpoint concerned the dropping of the law firm of Black, Gruber, O'Brien and Boynge and of L. L. Delafield and of the engagement of Delphin M. Delmas as chief counsel for Thaw. Through Mr. Gleason Thaw's lawyer hopes to show that Thaw's attitude towards Stanford White was not from delusions but was prompted by what Thaw knew of White's practices. Mr. Gleason has about 50 letters which he received from Thaw and they may prove one of the sensations of the hearing tomorrow, if read.

Mr. Morehauser tried to prove the charges against White again today by reading parts of Evelyn Thaw's testimony at the trials. Thaw's letters to Mr. Gleason bear upon this, it is thought. Trying to clear Thaw of the accusation of another delusion Mr. Gleason presented a report of detectives regarding an alleged attempt on Thaw's life on the night of Dec. 23, 1904. The wording of this document was not made public but it was intended to counteract the state contentions that Thaw had delusions about the "Monk" Eastman and his gang which he believed had been engaged by his enemy to kill him and that after White's death the architect's friends entered into a conspiracy to relegate his slayer to Matteawan.

If he can show that Stanford White and a number of wealthy men did maintain several establishments where young girls were ruined and that attempts really were made on his client's life, Mr. Morschauser will be able to dissipate some of the delusive evidence of the state. He intimates that he has some surprises in store for the remaining days of the hearing, including too lay witnesses who may testify as to what they know of Thaw and White. Tomorrow he will finish reading the testimony of Evelyn Thaw and certain other witnesses of the murder trial.

The present plan is to have the attorneys sum up on Saturday and if possible finish the case this week.

The dull routine of expert testimony was jarred this afternoon by the loud shouts outside the court room: "I want Jerome; I must see Jerome," came the cry. Petro Caporale, a wild looking Italian about 50 years of age who had hung around the place all the morning, tried to force his way into the room and when the attendants refused him admission he waved a letter and demanded to see the New York district attorney. "Tell Thaw they will rob him as they robbed me of my children," he declared. It developed that he wanted Mr. Jerome to help him obtain the release of his girls from the juvenile asylum in New York. No weapons were found on him and after Dr. W. J. Mayer one of Thaw's experts and the jail physician had pronounced him probably a harmless lunatic the man was placed on a train and sent to New York.

TURKEY AND GREECE

Porte Demands Recall of Grecian Officers From Crete

CONSTANTINOPE, Aug. 4—Greece has replied to the Turkish note presented today which practically demands the recall of the Greek officers serving in Crete, saying in effect that the question is in the hands of the four protecting powers of Crete, with whose knowledge and consent the officers in question were sent to the island. Turkey is appealing to the four powers and she intimates that her friendly request to Greece will be followed, unless satisfaction is obtained, by a more energetic demand.

Legacy Awaits Her

NEW YORK, Aug. 4—The Herald today says: If Fox Strangeway, a young English woman, who in September last was sentenced to one year's imprisonment charged with having given dressmakers worthless checks, will go to the Tombs she will be placed in possession of information by which she may come into a large legacy which has been left to her by a relative in Ireland.

When she left the Tombs she was not heard from until she was seen several months ago at a meeting of suffragettes in this city. The young woman once conducted a journal in Switzerland. She was in India in 1902 and stopped in Australia on her way to this country. She did considerable writing in this city, and for a time maintained a studio here. In explanation of the charges of forgery the woman said she had erred through ignorance of business methods.

SWEDISH LABOR STRIFE

RANKS OF STRIKERS ARE GRADUALLY SWELLING

BUT MANY ORGANIZATIONS HESITATE TO JOIN

STOCKHOLM, Aug. 4—The labor conflict in Sweden shows signs today of becoming more acute and the ranks of the strikers are considerably swelled, but the general strike called for today has not yet become entirely effective. Many organizations, although sympathizing with the strikers, hesitate to join them actively. The employees of the street car lines and cab drivers have stopped work and neither cabs nor street cars are available. The troops are protecting the gas works and the electric plant. The printers' union held a meeting today but resolved to postpone for the present any decision in the matter of going on strike.

Quantities of dynamite are reported to have mysteriously disappeared recently from the government stores. The leaders of the strikers claim that the end of the week will see a notable spread of the movement, that the railroad, postal and telegraph and telephone employees and printers will by that time have joined.

For the present all is quiet in the city. New trouble is expected when the stocks of food begin to run low.

ELECTRIC SMELTING

Government Official to Issue Report on Electric Ore Treatment

OTTAWA, Aug. 4—Dr. Haanel, of the mines branch of the government, will in a few days issue a report farming the treatment of ores by electricity in Canada, as a result of observations made in Sweden and elsewhere. Dr. Haanel is convinced that the cost of such treatment of ores in Canada, owing to the amount of water available, would be less even than in Sweden.

Prince Rupert Day

SEATTLE, Aug. 4—The Prince Rupert "Boosters club" has chartered a steamer and 250 of its members will come to Seattle on September 1 to celebrate Prince Rupert day at the exposition, according to advices received yesterday by President Chilberg from J. H. Roberts, chairman of the committee in charge. Mr. Rodgers states in his letter that the club is preparing some unique features for Prince Rupert day. "The newest town of the coast," writes Mr. Rodgers, "plans to show its neighbors that while it is the youngest, it is about the liveliest."

CRISIS ENDED

Spain's Internal Troubles Are Said to Exist No Longer

MADRID, Aug. 4—The government today issued an official announcement saying that the crisis of Spain is now at an end and that the country is tranquil from the Bay of Biscay to the Mediterranean. The minister of the interior has given out a statement in which he says, among other things, that not only reservists but volunteers are flocking to the recruiting stations for service in Morocco.

MADRID, Aug. 4—The Spanish Transatlantic Steamship company has offered three of its best vessels to be used as hospital ships for the troops in Morocco.

Gloucester En Fete

GLOUCESTER, Mass., Aug. 4—A spectacle unequalled in the annals of New England, probably the most elaborate of its kind ever attempted in the United States, was brought to a splendid close tonight in honor of the celebration of the first settlement of Gloucester, 284 years ago. Seated in a natural amphitheatre overlooking the harbor, 5,000 persons witnessed the production of the "Canterbury Pilgrims," a pageant most artistically arranged and brilliantly staged. Gloucester day celebration is an annual fixture in the local calendar, but this year an unusually elaborate programme was arranged, and when it was thought that the novelty was to be honored by the presence of President Taft the citizens vied with each other to assist in the plans and make the affair surpass all previous productions. The inability of the president to come here on account of the pressure of tariff affairs in Washington caused much regret.

B. of L. F. and E. Convention

(Western Associated Press)

WINNIPEG, Aug. 4—The big convention of the Brotherhood of Locomotive Firemen and Engineemen opened yesterday morning. The opening address was given by W. S. Carter, international president, while E. A. Ball of Brantford, Ont., second vice president, was in the chair. The sessions are secret.

Ex-Shah Offered Big Pension

TEHERAN, Aug. 4—It is understood that the government has now offered Mohammed Ali, the ex-shah, an annual pension of $75,000 on condition that he delivers up the jewels enumerated in the nationalist inventory and informs the government how he disposed of the missing gems. It is believed that Mohammed Ali will accept the new offer.

Nearly Home

MONTREAL, Aug. 4—The Allan liner Tunisian, with the returning members of the Bisley teams aboard, passed inward at Point Amour, straits of Belle Isle, at 5:30 this morning. The vessel is due at Quebec Friday morning and Montreal Friday evening.

Struck Reef

SEATTLE, Aug. 4—The United States torpedo boat destroyer Paul Jones, which left here July 26 for a cruise in Alaskan waters, is said tonight to have struck a reef several miles from Skagway and made port in a sinking condition. The extent of the damage is not known.

BOWSER BACK

Returns from Trip to Europe and Ottawa

CASES IN PRIVY COUNCIL

PROVINCIAL APPELLATE COURT TO BE INSTITUTED SHORTLY—TO SIT IN NOVEMBER—WHAT HE SAYS OF BURRARD WATER RIGHT CASE

(Special to The Daily News.)

VANCOUVER, Aug. 4 — Hon. W. J. Bowser, attorney general, returned home today from a European tour and a conference with the Ottawa authorities. With the latter he discussed the provincial appellate court, Indian reserves in the province and the control of the fisheries. He says that he expects the appellate court to be instituted shortly and hold its first session during the first week of November.

Arrangements have been made for hearing the state cases of the Indian reserve and the fishery questions before the supreme court at Ottawa shortly with the intent of a final appeal to the privy council.

Mr. Bowser says that the opinion of the privy council in the Burrard Power company case covering the dispute with the dominion as to the provincial control of the water rights in the railway belt is not final and that the case will be argued before the court in Ottawa and in October, then going back to the privy council again.

A full account of the hearing of the Burrard Power company case before the privy council appears in another column.

IMPERIAL DEFENCE

All Delegates Agree That Burden Must Be a Joint One

(Canadian Associated Press)

LONDON, Aug. 4—The imperial defence conference meets in the foreign office again tomorrow when the discussion of the naval memorandum will be renewed. This branch of the question covers so large a field that it may be necessary to hold further sittings before handing over the mass of details involved to the expert committees, as the delegates do not feel themselves competent to discuss minute naval or military questions.

Probably a great deal of discussion of details in committee will be necessary to produce any agreed and perfected plan of action. Meanwhile all delegates have, it is understood, subscribed to the general principle that in empire schemes of defence it is essential that the burden should be borne jointly. It is granted that the principle of the exact form and proportion in which the dominions should bear their share, may be a matter for future arrangement and is not subject to immediate settlement.

Threatened Strike

CHICAGO, Aug. 4—In the event that the threatened strike on the surface street car lines of Chicago materialize the public may still depend on the four elevated lines, according to a statement today by the respective presidents of these lines. The heads of these lines declared their employees were working under a perfectly satisfactory agreement which has a year more to run. Hope of averting the strike, however, is still held out in the attitude of the city council officials, the state board of arbitration and others.

Pittsburg Strike

PITTSBURG, Aug. 4—At a meeting of of the Pressed Steel Car company's striking employees at McKee's Rock today the men absolutely voted down a proposition to return to work if the company would eliminate the system of insurance formerly in vogue.

Harmonious Democrats

HARRISBURG, Aug. 4—The democratic state convention was held here today and unlike previous gatherings of the democrats perfect harmony prevailed. The convention adopted a platform which after disposing of state issues, denounced as an "imposition upon the consumer and wage earner," the pending tariff legislation.

Canadian Appointed

(Canadian Associated Press)

LONDON, Aug. 4—Sir Percy Girouard, R.E., is gazetted as commander in chief of the British East African protectorate. Sir Percy is a Canadian who distinguished himself in the Soudan and Boer war.

Grand Trunk Officials Leave

MONTREAL, Aug. 4—The Grand Trunk presidential party left this morning for a trip of inspection of the Grand Trunk and Grand Trunk Western railways. They will continue the journey to Seattle, Victoria, Vancouver and Prince Rupert, returning east on the Grand Trunk Pacific from Edmonton to Fort William.

To Visit King Edward

LISBON, Aug. 4—King Manuel has accepted an invitation from King Edward to visit England in the early autumn. The invitation was couched in cordial terms. No mention of King Manuel's rumored marriage was in it, but the opinion is general that the subject will be discussed.

THE EGYPTIANS' SECRET.

The Egyptians of Pharoah's time were a wonderful people. The pyramids, for instance, put our modern buildings to shame. Where such huge blocks of stone were carved—how they were moved and put in place—are mysteries to modern minds.

The Egyptians were skilled physicians, too. We know that they used fruit juices in treating many diseases. Some years ago, a physician in Ottawa discovered a method of combining the juices of apples, oranges, figs and prunes, by which the most remarkable results have been obtained.

Whether "Fruit-a-tives" (these combined fruit juices in tablet form) are a re-discovery of the prescriptions of the ancient Egyptians, will probably never be known.

Certainly, the ancients never had a more effective remedy than "Fruit-a-tives" for all Stomach, Liver, Kidney and Bowel Troubles. "Fruit-a-tives" are sold by dealers at 50c a box, 6 for $2.50, or trial box, 25c—or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

WANT FIGHT AT DENVER

BUSINESS MEN AFTER JEFFRIES-JOHNSON CONTEST

MOTION INTRODUCED ASKING CITY COUNCIL TO ASSIST

DENVER, Aug. 4—In a resolution introduced by Ald. Thomas H. Hyder, the city council was asked last night to use its influence to obtain for Denver the fight for the heavyweight championship between James J. Jeffries and Jack Johnson.

The city's interest, the resolution declares, would come from the advertisement received by reason of the attendance of people from all parts of the country. The resolution states that prominent business men have expressed their readiness to raise sufficient money to bring the fight to this city.

Cricket in Old Country

(Canadian Associated Press.)

LONDON, Aug. 4—A change in the county standing resulted today when Yorkshire beat Lancashire by 100 runs. The Australians beat South Wales by eight wickets. The visitors have held their own and seem in fine trim for the fifth test match at the Oval next Monday.

LONDON, Aug. 4—Kent beat Middlesex by an inning and 37 runs in the county match yesterday.

Bobby Kerr Out of It

ABERGAVENNEY, Wales, Aug. 4—Bobby Kerr of Hamilton, Ont., ran but did not get a place in either the 120 or 220 yard handicap.

Goes to American League

MARION, Ohio, Aug. 4—Charles Comiskey, president of the Chicago American league team was outbid for the purchase of Frank Farrell, the Marion state league outfielder, who yesterday was sold to the New York American league team for $500. Pittsburg, Kansas City and Cincinnati also bid.

Championship Bicycle Races

SALT LAKE, Aug. 4—The first series of championship bicycle races, the ten mile open professional lap race, was won by Ivor Lawson last night who cut the record made by McFarlane from 21:26 4-5 to 20:35 2-5. The amateur two mile handicap record was reduced from 3:52 4-5 to 3:32.

Won't Row Against Pulford

WINNIPEG, Aug. 4—The rowing club has decided not to send its crack four to Detroit on account of the fact that the Ottawa, crew in which Pulford will appear, will be present.

Vanderbilt Wins Twice

PARIS, Aug. 4—The Prix Revestor was run at Vichy yesterday and won by W. K. Vanderbilt's Reinhard. Mr. Vanderbilt's Seleneus ran in the Prix Colon but failed to get a place.

The Prix de Villiers was run at Dieuville today and won by W. K. Vanderbilt's Messidor III. Mr. Vanderbilt's Tints Delight ran in the Prix de Honfleur and finished fourth.

Labors Completed

PARIS, Aug. 4—The attorneys who came over here from America to take testimony in the Panama libel suits have completed their labors with the witnesses, who answered the summons voluntarily.

NEWS OF THE DOMINION

QUEBEC, Aug. 4—Joseph La Vigeur was drowned in Dussault's pond, Louise Basin, about 3 o'clock yesterday afternoon. He was 26 years old.

TORONTO, Aug. 4—Samuel Reilly of Eastern avenue will likely die as a result of having cut his throat while on a big tour.

TORONTO, Ont., Aug. 4—Hon. Dr. Pyn, minister of education, says that the school inspectors report that teachers cannot be got anywhere in Ontario at salaries of $400 per year.

TORONTO, Aug. 4—The Grand Trunk and the N. O. railways have made an arrangement to last 21 years, by which freight and passenger traffic, yard room and other facilities for traffic are in force at North Bay.

RICHMOND, Aug. 4—Archdeacon Roe, one of the oldest and best known clergymen in the Anglican diocese of Quebec, is dead. He was 80 years of age.

SYDNEY, N. S., Aug. 4—Albert Ross, one of the men charged with complicity in the attempt to blow up Manager Simpson's house at Reserve colliery, was committed for trial today before the supreme court.

SYDNEY, N. S., Aug. 4—A miner named O'Donnell was run over by a car on the Bankhead at No. 8 this morning and died while on the way to the hospital.

KINCARDINE, Aug. 4—Samuel Irwin, aged 50, a well-known farmer of the Sixth Concession of Greenock, is dead as a result of injuries received by being thrown in front of a hay mower by horses running away. While the injured man was being taken home the runaway horses, which had been captured and left in charge of a lad, broke away again and ran down a road in the way of the buggy. One of them jumped into it and crushed the injured man against the dashboard. He lived only a few hours afterwards.

AN INEXPENSIVE WAY

The reader of a newspaper will readily agree that it is necessary for a merchant, with any pretension of agressiveness, to advertise. Merchants are also aware of this fact. Therefore it would seem that it is simply a question as to what form the advertising will follow.

Newspaper Advertising is the Most Inexpensive Way and Brings Larger Direct Results than Any Other Form of Advertising

The Daily News

has an average daily circulation of 3,000 copies distributed on the day of publication in the cities of Nelson, Rossland, the Boundary country, the Slocan Valley and East Kootenay district, covering the line of the C. P. R. from Pincher Creek, Alberta, to Midway, B. C., and there is not in B. C. a more progressive section of country than that in which The Daily News circulates; the varied industries consisting of farming, fruit growing, lumbering, metalliferous mining, coal mining, and smelting, making it an extremely favorable field for advertising articles of every description suitable for a purchasing public engaged in the above mentioned industries.

Kootenay's Publicity Medium

Will Place Your Story in the Hands of 3000 Subscribers Every Day at the Rate of 2-3 of a Cent per Inch per 100 Circulation

Mr. Advertiser you cannot circulate or personally canvas the field for that amount, so be progressive and use the means and resources at your hand to increase your business.

For advertising rates or further information phone 144 or address News Publishing Company, Limited, P. O. Drawer 1119, Nelson, B. C.

It Takes TWO--Are You One of Them?

If, of the two people it takes to make a bargain, you are ONE, how much would it be worth to you to find the other one. Would it be worth the cost of a classified ad? Would it be worth the cost of a small —but determined— 'campaign of want advertising?"

The "other one" necessary to "make a bargain" is found, in nine cases out of ten, through advertising —often through want advertising, and, in this city, USUALLY through want advertising in THIS newspaper.

"The other one" watches the want ads. pretty closely—but, of course, has to be convinced. If your offer is "right," that will be an easy task.

One cent a word will tell your story to readers of

"THE DAILY NEWS"

A ten-word classified advertisement costs only 40 cents for six insertions, when paid in advance.

WILL HONOR JOHNSON

BICENTENARY OF PHILOSOPHER'S BIRTH NEXT MONTH

ADMIRERS PREPARING FOR FITTING CELEBRATION

LONDON, Aug. 4—Shakespeare excepted, it is doubtful if there is another great writer of the past whose personality appeals as strongly to readers on both sides of the Atlantic as does that of Dr. Samuel Johnson, the irascible scholar and poet, renowned lexiconer and hero of the most remarkable biography ever written.

That Dr. Johnson's fame is green in Canada is evidenced by the thousands of Canadian visitors to London who go to see what is said to be the former home of the philosopher in Gough square, just off Fleet street. This done the travellers usually step round the corner to partake of beefsteak pudding at Ye Olde Cheshire Cheese, the ancient tavern which claims to have been the favorite inn of Johnson, and, if possible, to sit in the seat which is declared to have been his. On the strength of this legend and largely because of this patronage, the old hostlery in Wine Office Court has been for years a little gold mine to its owners, but as a matter of cold fact, there is no actual evidence whatever to connect the Cheese with Dr. Johnson. Boswell doesn't mention it.

On far surer ground are those admirers of Dr. Johnson who visit Litchfield the little city in Staffordshire where he was born and which was his home for 30 years. Lichfield by the way, is fast becoming a good second to Stratford-on-Avon as a magnet to visitors from Canada and next September is likely to see it thronged with Canadians for in that month Johnson's city will celebrate, in a way worthy of his fame the two hundredth anniversary of his great man's birth.

According to all accounts, the Johnson bicentenary celebration, as it is called, will be uncommonly interesting and should not be missed by any Canadians who are planning to be in England this summer. Preparations for it have been going on for several months. Dr. Johnson entered this mundane sphere on Sept. 18, 1709 and on Sept. 16, 1909 the commemoration exercises in his honor will begin at Lichfield with an exhibition of relics of the grouchy, old philosopher in the venerable house in market square where he first saw the light of day.

Unlike a great many other literary shrines there is no doubt about the authenticity of Dr. Johnson's birthplace. Luckily for the lexicographer's admirers, the quaint old two storied house where Michael Johnson kept his bookshop became the property of the corporation of Lichfield a few years ago. It then was in a sorry condition but has been renovated and now is practically as it was when Samuel Johnson lived in it. Part of the exhibition of Johnsoniana which visitors to the house will see next September is a permanent collection which has been formed and placed in the building since its acquisition by the corporation, but other relics of the sage are to be forthcoming from many quarters. While examining these and going through the house the visitors will be able to use their imagination and picture the famous moralist—first as a juvenile poet over trophiding "good master duck" and later with no other pets, and later as a studious youth filling his head with the contents of the tomes in his father's bookshop. Later they will see Johnson who was described as the best fitted for Oxford of all the young men who had ever gone therestates shrdlu without his degree because of insufficient means to continue his studies and finally they will figure him, after the failure of his ill-fated academy, quitting Lichfield for London in company with David Garrick, who had been one of his two solitary pupils.

The second day of Lichfield will be de voted mainly to visits to places of interest associated with Johnson and his friends. One of these will be the old Three Crowns inn which stands next door but one to the Johnson houses stand and regarding whose claim to have housed the coterie scholar and his biographer, too, there is no doubt Dr. Johnson, in fact almost invariably put up at the Three Crowns when he came down to Lichfield from London and he first brought Boswell with him in the historic year of 1776. The old inn is said to be practically the same as it was when Johnson and Boswell drank innumerable cups of tea there.

Having seen the Three Crowns the Canadian visitors, the distinguished Johnsoniana and other folk will be taken to see the three churches in Lichfield each of which is intimately connected with Dr. Johnson. One of these is St. Mary's where the great scholar was baptized, another is St. Chad's, close to Lichfield cathedral where the famous scholar is said never to have failed to visit when in his native city and the third is St. Michael's where Johnson's father and mother are buried and which the scholar visited in his 75th year, after which he ordered the tombstone which marks their resting place.

On the afternoon of this day, there will be a lecture on the Life and Influence of the Master of Lichfield grammar school where Johnson was a pupil under Hunter, which pedagogue he described as very "severe and wrongheadedly severe." Garrick also attended the grammar school, before he became a pupil of Johnson, while a second student at this school second only to Johnson, was Joseph Addison.

On the evening of the second day of the celebration there will be a performance by local amateurs of Goldsmith's comedy, She Stoops to Conquer which was dedicated to Johnson who wrote the prologue for it and who succeeded in getting it produced.

Next day other places will be visited. Among these will be Edial where the ill- starved "academy of young gentlemen," in which the scholar managed to sink most of his wife's little fortune was located; others are the house of Lucie Potter, Johnson's daughter and Just friend and Stowe House where dwelt the Swan of Lichfield, otherwise Miss Anne Seward. This brilliant dame, herself an authoress was the center of a distinguished literary coterie which included Erasmus Darwin, grandfather of the Origin of Species; Thomas Day who wrote Sandfoot and Merton, sir Walter Scott; Howard, the prison reformer and Dr. Johnson.

Sept. 18, Johnson's birthday, will, however, be the "big" day of Lichfield's celebration. On that date there will be a great gathering of dignitaries and citizens in Market square, where stand statues of Johnson and his faithful Boswell, at which time addresses will be made by distinguished scholars, hymns will be sung and medals presented. Later the mayor of Lichfield will hold a reception at the Guildhall and the annual meeting of the Johnson club will be held. The evening will witness a Johnson supper at the old St. George hotel. Sunday, the 19th will see the end of the celebration with services at the cathedral which has been described as the most "chaste and the most perfect in the world."

The history of the city began with Oswy, the Northumberland king who founded Lichfield, the first Christian church and ends this far with the late Dr Richard Garnett, the famous scholar who died recently. One worthy of Lichfield who must not escape mention is the estimable Dr. Robert James who compiled a medical dictionary in which he was assisted by Dr. Johnson and who put up the "few powders" which killed Oliver Goldsmith.

McClary's Magnet Furnace

The man who has been provoked well-nigh to desperation when trying to squeeze fuel through the ridiculously small opening provided on common furnaces will appreciate to the greatest extent the advantages of the generous feed-door of the "Magnet."

It's the entire width of the fire-box, and very deep. Large enough to easily admit big, rough chunks of wood, that would otherwise either have to be chopped up or wasted.

And this feature is only one of the many possessed by the "MAGNET" —the furnace built on sound, sensible lines.

Built for wood, but will also burn coal.

Sold by enterprising dealers everywhere

NEWS OF THE DOMINION

LANCASTER, Ont., Aug. 4—The house of W. A. Smith, a prosperous farmer near Lancaster, was struck by lightning yesterday and completely destroyed. Mr. Smith and the members of his family had barely time to get out of the house. The fire spread to the driving shed and stables. Four horses were burned to death and several wagons and rigs were destroyed. The loss will run up into several thousands, with little insurance.

RAVENSHOE, York County, Aug. 4—The collapse of a scaffold on the farm of Mr. Holbourne yesterday resulted in the severe injury of three workmen, named Rye, Whyte and Lepord. Rye received concussion of the brain and internal injuries and is not expected to recover. Whyte had a broken arm and leg, and Lepord a broken arm.

HALIFAX, Aug. 4—Word was received here today from St. Pierre, Miquelon, that a large fire occurred there this morning destroying three buildings occupied as stores, warehouses and dwellings.

TORONTO, Aug. 4—Rev. Dr. MacLaren, former principal of Knox college, died at his residence this morning, aged 82 years.

OTTAWA, Aug. 4—The Transvaal government has decided to bar out potatoes from all countries which do not certify that their exports are free from black scab. The regulation will become effective Sept. 1.

PETEWA CAMP, Ont., Aug. 4—"We are hurrying things along and trying to get ready for a fight on Friday," said Mr. McCurdy this morning. "Things are going along smoothly and we are making good progress on the work."

BROCKVILLE, Ont., Aug. 4—Grace Henderson, 20 years old and until a few days ago bookkeeper for the Thousand Islands Railway company, is under arrest charged with the theft of $2,682 and converting to her own use cheques amounting to $663. The defalcation is said to have existed for the past six months. Miss Henderson has been admitted to bail of $6000.

OTTAWA, Aug. 4—The labor department has received the report of the joint committee in the Hillcrest mines dispute. It is satisfactory to both sides and stands for industrial peace in British Columbia coal fields for a period.

MINING SITUATION BRIGHT

Probably at no time in the history of this country has the mining situation in the Boundary and the Kootenays looked quite so satisfactory as at present. There is no boom, and what is more one is not wanted, but there is a distinct revival in the mining industry, based, not on the efforts of wildcatters, but on the legitimate values of the various properties as producers of gold, silver, lead, zinc, copper, or combinations of these as the case may be.

While Sheep creek is making good even beyond the expectations of those who first placed its claims for recognition before the world, many of the old properties in various parts of the interior, which had for various reasons suspended operations, are reopening and will be worked on a straight business basis and not as stockjobbing propositons. A few of these are the Highland-Buckeye and Highlander properties at Ainsworth, the Alice at Creston, the Le Roi at Rossland, the Lucky Jim at Kaslo, and several well-known properties at or close to Nelson. There are also many other valuable properties in various parts of the interior, which only require in some cases capital and in others transportation to place them among the list of heavy producers.

In addition there is promise of much greater smelting activity. The B. C. Copper company's smelter at Greenwood, which has been closed down for the past three months, is now in operation again, and will, it is said, treat not only the usual quantity of ore from its own mines but also the output of the Dominion Copper company's properties, an amalgamation of the two concerns being under way. This will mean that the Greenwood plant will be operated on a more extensive scale than ever before. The Sullivan group smelter at Marysville is also to resume operations, it is said, and with it the mines belonging to the same interests, the company owning both having recently been reorganized. In the meantime the Consolidated company's smelter at Trail, the capacity of which was recently greatly increased, is being operated to its full extent, and the same is true of the Grauby company's smelter at Grand Forks, while additional activity is also being displayed by that company at its mines.

Gratifying as all this increased activity is in itself, it is rendered more so by the fact that it has come at a time when the prices of metals are at about the lowest possible figure on record. Gold, of course, does not fluctuate in price, but silver, lead, copper and zinc do, and these all went down at the time of the financial crash of a couple of years ago and have not since recovered to any extent. The fact that the mines and smelters of this country can operate at the present prices of metals is the best possible testimony as to the country's possibilities in this direction. Any upward movement in prices that may take place, and one cannot long be delayed, will unquestionably stimulate mining in this country, but in the meantime the fact has been demonstrated that mining can be carried on in the Kootenays when metals are at what is acknowledged to be exceedingly low prices.

So far as the metalliferous mines are concerned the situation can be said to be of the brightest. Things look equally reassuring in the coal regions of the Crow's Nest pass, on which they depend for their fuel supply. Labor difficulties in the coal districts, which interfered with mining generally for a time, have been settled and there is nothing in sight at the present time to indicate any further trouble from this or any other source.

Altogether the mining situation in the Kootenays and the Boundary appears at last to be moving toward permanency and stability. As these are secured the prosperity of the Kootenays and the Boundary will increase, and with it that of every resident of these districts.

EDITORIAL NOTES

Hereafter the advice of the C.P.R. to intending tourists will be: "See the glories of Kootenay."

The people of Nelson welcome the trap shooters now here to take part in the tournament which opens today.

Every tourist brought through this country means one more person whose attention has been called to a greater or lesser extent to Kootenay's varied resources.

During his recent visit to the coast Hon. William Pugsley declared himself in favor of the building of a dry-dock there capable of taking the largest battleship. In the interests of Canada, not only from the standpoint of naval defence but also from a commercial standpoint, Mr. Pugsley's words should be followed up with action. At the present there is no dock in Canadian waters on the Pacific coast capable even of handling many of the merchant marine vessels that ply there, to say nothing of warships. The result is that the large vessels crossing the Pacific have to go to American ports for overhauling, if for nothing else. This is not in the interests of Canadian shipping.

HENRY'S

Garden Tools
Spraying Materials
Bee Supplies

Fruit and ornamental trees—home grown, hardy, tested and proven. Our trees do not have to be fumigated. They are grown in the only part of the continent not infested with the San Jose scale.

NURSERIES

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY.

TAKE NOTICE that I, Harriet M. Bustin of Salmo, B. C., occupation married woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about 40 chains north of the N. E. corner of T. L. No. 2825, north of the International Boundary Line, thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement, containing 640 acres more or less.

HARRIET M. BUSTIN.
WM. FEENEY, Agent.

March 31st, 1909.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

CONSERVATIVES TO MEET

A joint meeting of the executive committee of the Nelson Conservative association and the Young Conservative club will be held in the club rooms this evening at 8:30 o'clock. A full attendance is requested.

Hand Painted China and Cut Glassware

Come in and look through our show cases of hand painted China and Cut Glassware. We are showing some of the prettiest designs ever seen in Nelson and are giving our patrons an opportunity of purchasing which you should not overlook.

Proper Fitting Glasses Needed

It is most important that if you require glasses they should be proper fitting, otherwise they are worse than useless. Mr. J. J. Walker has made a special study of complicated eye troubles and has the testimonials of hundreds of delighted customers who are now reaping the benefit of his careful fitting.

Does Your Watch Fail You?

There is no reason why you should miss your appointments through a defective watch, when we can put it in perfect repair at a trifling cost. Try our repair department.

A Talk On Corsets

To be beautiful is the rightful desire of every true woman, her beauty is the supreme gift of nature to womanly.

Beauty has many attributes, and it has long been an open question whether fairness of face or perfection of figure has the greatest power of attraction.

The majority of women are endowed with a beautiful figure, but far too many ruin their appearance by confining the most supple parts of their body in badly made, badly constructed and unhygienic corsets. Upon the style and fit of the latter article depends to a very considerable extent the whole question of grace of movement and perfection of figure.

The first quality that the perfect corset should possess is that of giving sufficient assistance to the muscles of the waist in their work of supporting those soft parts of the body which under present conditions of life so certainly require it.

The second quality of the perfect corset is that of giving the body, especially the abdomen and the chest freedom of movement. Both the W.B. and the D. & A. makes of corsets have been designed on these hygienic, beauty giving lines and both makes have corsets to suit all figures.

It only remains for you to choose the corset that is specially made for your figure and see that it is properly fitted for your health, comfort and appearance to be always of the best. We carry a complete line of both styles:

W. B. from ..... $1.75 to $5

D. & A. from ..... $1.00 to $5

Come and look them over.

DOES NOT LOSE APPEAL

WATER RIGHTS CASE NOT DECIDED AGAINST PROVINCE

WILL COME BEFORE SUPREME COURT AT OTTAWA

So far from the province's losing its right of appeal in the water rights within the railway belt case at the recent hearing before the privy council at which British Columbia was represented by the attorney general, Hon. W. J. Bowser, the text of the decision shows that in reality, the effect of the ruling is merely that the province must first make appeal to the supreme court of Canada, says the Victoria Colonist. The dismissal of the province's petition in the present instance in no way affects its final right of appeal to the British tribunal.

The petition of the province was dismissed without costs.

The following is the account of the case given in the London Times' legal supplement of July 10:

Judicial Committee of the Privy Council

(Present—Lord Macnaghten, Lord Dunedin, Lord Collins and Sir Arthur Wilson.)

The Burrard Power company, Ltd., and the attorney general for British Columbia vs. the king, on the information of the attorney general for Canada.

Canadian Water Rights

This was a petition for special leave to appeal from a judgment of the exchequer court of Canada of May 11, 1909.

Sir Robert Finlay, the Hon. W. J. Bowser, K. C., attorney general for British Columbia, and Mr. Hamar Greenwood appeared for the petitioners; the Hon. E. L. Newcombe, K. C., deputy minister of justice for Canada, for the respondent.

The question involved was stated to be of immense importance. On April 7, 1906, the water commissioners for New Westminster, British Columbia, under the provisions of part iv of the water clauses consolidation act, granted to the Burrard Power company, Ltd., a record for 25,000 inches of water (subject to certain reservations) out of the Lillooet lakes and tributaries and Lillooet river and its tributaries, such waters to be used for generating electricity for light, heat and power, and for milling, manufacturing, industrial and mechanical purposes. The undertaking and works in connection with that record of waters could not be proceeded with until approved by the lieutenant governor in council. In 1906 proceedings were taken in the exchequer court of Canada by the attorney general against the Burrard Power company, Ltd. The information alleged (1) that, pursuant to the agreement of the government of British Columbia contained in article 11 of the terms of union upon which British Columbia was admitted into the Dominion of Canada, the legislature of British Columbia by the Dominion in aid of the Canadian Pacific Railway, 1880," 43 Vict., chap. 11, as amended by 47 Vict., chap. 14, granted to the Dominion government for the purpose of constructing and to aid in the construction of the portion of the Canadian Pacific railway on the mainland of British Columbia in trust to be appropriated as the Dominion government might deem advisable, the public lands along the line of the railway which lands were called the "railway belt"; (2) that both the Lillooet river, which was a tributary of the Pitt river, and the Lillooet lakes from which it rose, were wholly situate within the limits of the railway belt. The Lillooet river was about 12 miles long, and was a public and navigable river. On the public lands forming part of the railway belt and adjoining the Lillooet lakes and river was a large quantity of valuable timber which was entitled the right to be floated down the river. The information contended that the grant and the diversion thereby authorized would materially interfere with that right; that the grant and the rights under the water clauses consolidation act thereto attached would materially interfere with the rights of the Dominion government in the railway belt; that the capacity of the Lillooet river was about 25,000 inches, and the grant and the proposed diversion thereby authorized would greatly diminish the quantity of water in the river and materially interfere with the rights of the Dominion government and the public right of navigation of the river; that section 91 of the British North America act, 1867, provided that the exclusive legislative authority of the parliament of Canada extended to all matters coming within the following (amongst other) classes of subjects: (1) The public debt and property. (10) Navigation and shipping; and that subsection 2 of section 121 of the water clauses consolidation act, 1897, provided that the power conferred by the first subsection of entering and taking crown lands should not extend to lands which should be expressly reserved by the crown for any purpose whatever. The information asked for a declaration that the grant of April 7, 1906, was invalid. The Burrard Power company, Ltd., filed a statement of defence traversing the allegations and submitting that no cause of action was disclosed. Mr. Justice Cassels, in the exchequer court, decided that the lands proposed to be affected by the exercise of the rights conferred upon the Burrard Power company, Ltd., were within the railway belt; that the railway belt was property within the meaning of section 91 (1) of the British North America act, and that at the time of its transfer to the Dominion there was no provincial legislation in existence authorizing British Columbia to appropriate the water rights within the railway belt, and that therefore the water clauses consolidation act conferred upon the water commissioners no authority to make grants or unrecorded waters in the railway belt; that the grant of April 7, 1906, was invalid; and that the proposed exercise of the rights would constitute an interference with the navigation of the Lillooet river at a point below the works and an interference with the fishing rights of the Dominion of Canada.

From the decision of the exchequer court the petitioners presented this petition for leave to appeal direct to the privy council. They contended, inter alia, that the lands included in the railway belt did not constitute "property" within the meaning of section 91 (1) of the British North America act; that the legislature of the province of British Columbia retained the right to legislate in regard to lands granted in the railway belt; and that the water privileges act, 1892, and the water clauses consolidation act, 1897, confirming crown rights in British Columbia, as to water rights operated upon lands in the railway belt. The petition said that various companies other than the defendant company had been incorporated by private acts of British Columbia, and that the acts contained powers enabling the companies to apply for and exercise the rights and privileges applicable to water rights within the railway belt, subject to the approval of the lieutenant governor in council, and that by virtue of the powers of the water commissioners grants of unrecorded water had been made to those companies. A great deal of capital had been invested in the proposed undertakings and considerable sums had already been expended with a view to their successful operation. Depending upon its hitherto unquestioned right to deal with the water rights within the railway belt, the government of British Columbia had from time to time granted, as well in the railway belt as in other parts of British Columbia, rights to persons, corporations and companies to carry out irrigation works in the belt and to appropriate unrecorded water therefor. The water so appropriated was distributed to settlers in the irrigated areas of the railway belt, and was essential to their livelihood and to the cultivation of their lands. Delay would seriously interfere with and impede provincial and municipal enterprise and the trade and commerce of British Columbia.

Lord Macnaghten intimated yesterday that their lordships thought that the petitioners should appeal to the supreme court of Canada first, and then, if it were necessary, to his majesty in council. They would therefore dismiss the petition, but without costs.

It was stated that steps would be taken to expedite the hearing of the appeal to the supreme court.

Solicitors—Gard, Rook & Co.; Charles Russell & Co.

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent.

Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

Our Meats

Are Always Juicy and Strictly Fresh

Why?

Because we dress our meats daily at our Nelson abattoir. We have only the best meats and handle them with absolute cleanliness. Everybody appreciates this and our own self-respect demands it.

NELSON NEWS OF THE DAY

J. S. Deschamps, lumberman, of Burnaby Island, was a guest at the Hume yesterday.

The Sons of England will meet this evening in the K. of P. portions of the Eagles' building.

Alex. Lucas of Kaslo, provincial assessor, reached the city yesterday morning and registered at the Hume.

Good progress is being made with the replanking of the city wharf and it is expected that the work will be completed very shortly.

Mrs. G. E. Oulton and her brother, J. McCherson, wish to thank their many friends for their kindness extended to them in their sad bereavement, especially the friends and companions of Mr. Oulton at the city power plant.

"The Martyrdom of Louis XVII.," a very finely colored film, which was shown at the Empire theatre last evening, received very favorable comment. Other subjects shown were "A Marriage of Convenience," "Pan Handlers" and "The Martian Leave Home for a Week." This program will be repeated tonight.

The cariboo head now at the Queen's hotel will be raffled off Saturday next. Substitutes will be found for those who cannot be at the raffle. 89-2

Fresh shipment lines at the Nelson hotel bar.

From Fernie

(Special to The Daily News.)

FERNIE, Aug. 4—His honor judge P. E. Wilson, held a short sitting of the county court yesterday, very few cases being on the docket.

Comptroller J. J. Ward of Toronto and Alexander Smith of Ottawa, late chief organizer of the liberal party in Ontario, passed through town last night on the C.P.R. express for the east. They have been visiting Seattle and the coast cities and came over the Crow line in order that they might see the progress of building operations in Fernie. They expressed themselves as simply amazed at the magnitude of the work accomplished in so short a time, and will take back with them a high opinion of the energy and progressiveness of the western people.

W. Brown of Spokane, who is largely interested in coal areas up the Elk valley, is spending a few days in town.

W. A. Buchanan, M. P. P., proprietor of the Lethbridge News, who came to the city to attend the banquet of the board of trade, returned to the Albertan city last evening.

Deliberate Murder

NEW YORK, Aug. 4—Wong Hoy Choung, the Chinaman who has been in custody since Saturday, following the fatal shooting of Loh Wing, the Chinese vice consul in this city, was accused of deliberate murder today by the coroner's jury empanelled for the inquest into the death of the vice consul, and was recommitted to the Tombs prison to await the action of the grand jury.

Big Sum for Pope

ROME, Aug. 4—The will of the late Don Carlos, pretender to the throne of Spain, leaves to the pope works of art and money to a total of $2,000,000.

Slight Quake

SAN FRANCISCO, Aug. 4—The weather bureau here reported a slight earthquake in this city at 10:20 this morning. The movement was so faint, however, that it was not generally known. The disturbance was recorded by the seismograph at the University of California.

SAN JOSE, Cal., Aug. 4—A slight earthquake shock was felt in this city about 10:30 this morning. It caused little comment.

Roosevelt Busy

NAIROBI, East Africa, Aug. 4—Theodore Roosevelt and his son Kermit left here today for Kijabe, on the railroad line, where the former will lay the foundation stone of a new mission church.

NAIVASHA, British East Africa, Aug. 4—After the cornerstone ceremony at Kijabe, Mr. Roosevelt and his son Kermit came by train to Naivasha, where they arrived later in the afternoon and went into camp.

Bad Electrical Storm

LONDON, Ont., Aug. 4—An electric storm yesterday from Mount Bridges on towards Yarmouth did much damage, destroying barns filled with recently gathered crops and killing many cattle.

NELSON NEWS OF THE DAY

Alfred McMillan of Rossland is a guest at the Hume.

The temperature yesterday varied between 52 and 75 degrees.

Mr. and Mrs. A. J. Decker of Kaslo were guests at the Hume yesterday.

A dance was given last evening at Fernedale Park which was well attended.

Born, at the Kootenay Lake General hospital, yesterday, to the wife of James T. Burkitt, a daughter.

A. D. Wheeler of Ainsworth, and his son, A. S. Wheeler, were guests at the Strathcona yesterday.

P. W. Jordan, postmaster and general merchant, of Nakusp, reached the city last evening and registered at the Hume.

Ald. George Hale has purchased the 75 feet frontage adjoining his residence. The deal was put through by H. & M. Bird for a client in England.

Constable Simpson of Kaslo left on the coast train last evening in charge of James Eber whom he is taking to the insane asylum at New Westminster.

Arrangements are well in hand for the dance to be given in the armory on Monday evening next by the members of the Nelson Cricket club and the affair augurs success.

Mrs. T. Nute leaves on this evening's coast train for a month's holiday trip to Victoria. Mrs. Nete will be accompanied by her mother, Mrs. Rivers, who has spent the past three weeks in Nelson.

R. Lawrence of the International Correspondence schools, returned to the city last evening from a trip through the Boundary and Okanagan districts and will be at his Nelson office for the next week.

The inland revenue returns for the district for the month of July amounted to $2,301.31, consisting of $1,412.11 on liquor and spirits, $62.34 on malt, $196.66 on raw leaf, $40.20 on cigars ex factory and $30 on cigars ex warehouse.

The local officials of the C. P. R. report that traffic throughout this division is exceptionally heavy just now. There is a considerable amount of lumber being shipped to the prairie provinces where better prices are now being secured. The traffic in the boundary country is heavier than usual and will be lively from now on consequent of the opening up of the B. C. Copper company's properties.

G. Weaver Loper, vice-president and manager of the Lucky Jim Zinc Mines, Limited, operators of the Lucky Jim mine at Kaslo, returned to the city last evening from Spokane where he has been for the past two weeks on mining business.

A practice shoot was held yesterday afternoon at the butts behind the C. P. R. roundhouse in preparation for the big tournament which opens today. Some good scores were made at the practice which augur keen competition during the shoot.

S. L. Myers of Erie is a guest at the Hume. Mr. Myers has been appointed to collect a mineral display from the mines around Erie for exhibition at the Spokane fair and the mining congress which follows, and would be glad to receive specimens from anyone interested.

Miss F. Binns of Trail is a guest at the Strathcona.

Franklin Wilson of Kaslo is registered at the Hume.

"Sandy" McDonald, of the Revelstoke hotel, came in on the coast train last evening.

The city band will play this evening in the band stand on Front street, commencing at 8 o'clock.

The public generally are cordially invited to be present at the big street today and tomorrow behind the C. P. R. round house. Ample seating capacity has been provided.

The coast train reached the city last evening one hour and fifteen minutes late. The delay was occasioned on the main line, the boat being over two hours late leaving Arrowhead.

WEEKLY LAUNCH RACES

All Three Events Provide First Class Contests

The regular weekly launch races were held yesterday afternoon and each class was keenly contested.

In class A. there were three starters, J. Bunyan's Calypso, N. Wolverton's My Lady and L. B. DeVuler's Laugh-a-Lot. The last named took first place after a good race with My Lady only one second behind.

In class B. there were three starters, Elford's Brilliance, Wheeler's Kuno II., Travis' Lady Laurier, Andrew's Canuck, and Gore's No Name. Kuno II. came in first but was disqualified for exceeding its time limit by one second, while first and second places were taken respectively by Lady Laurier and No Name.

In class C. there were six contestants, Brown's W. R., Rutherford's Skidoo, Anderson's Mystery, Christie's Delight, Wales' Princess and Dick's Dunlop. Delight was the winner with Princess second.

SEEING B. C.

Governor Hughes, New York, and Governor Johnson, Minnesota

SEATTLE, Aug. 4—Governor Charles E. Hughes of New York and his secretary, Governor John A. Johnson of Minnesota and his secretary and Governor Marlon E. Hay of Washington sailed on the Princess Victoria for Victoria at 9 o'clock this morning. After seeing the sights of the British Columbia capital the three governors will take a steamer to Vancouver, where Governors Hughes and Johnson will start the journey over the C.P.R., Governor Hay returning to Seattle.

Sudden Death

PITTSFIELD, Mass., Aug. 4—William Mitchell, the 24 year old son of Rev. A. Mitchell of Jermentown, a graduate of Brown university this year was killed yesterday by eight tons of pig iron which broke through a ceiling and fell upon him while he was at his desk in the office of the Stanley Electric company. The iron had been stored in a room over the office. At Brown university he was known as a general athlete and was popular.

To Meet Strike

CHICAGO, Aug. 4—Active preparations to meet a possible strike are being made by the street railway companies. They are also preparing old power houses as sleeping quarters for the strike breakers. Members of the United States board of arbitration started for Chicago last night to see whether they could ward off the trouble.

Old Curiosity Shop

FERNIE A YEAR AFTER

SOMETHING OF CITY THAT HAS RISEN FROM ITS ASHES

EYEWITNESS OF DISASTER TELLS OF WORK OF RECONSTRUCTION

(By Joseph Ryan.)

A year ago apocalyptic rain lay upon the city of Fernie. It seemed as if the real of irreparable desolation was set upon her. Thousands of her women and children were scattered, and in tears and exile ate the bitter bread of the stranger. The story of the Fernie fire swept around the world until the tale of the tragedy almost sapped the reason of men. We heard through the English press how the brave and other savage animals of the mountain fastnesses were closing in to end the miserable lives of the few of us dwellers in the valley, who survived the visitation. It was as if some malign power or principle of nature had decreed that Fernie should not exist. The final chapter closed in flame and fire that leaped to the mountain tops with a leprous moon glaring down, smoky-red, over a scene of almost scriptural horror.

One would think that such a calamity should be commemorated in sack cloth and ashes, but when the anniversary came around on the 2nd of the present month, the people said "Come and see how we have wrought in our emergency, and rejoice with us that our hearts are strong and our works are good." On Monday there were flags flying, bands parading, excursions going here and there laden with many of the very children who last a year ago went by much the same trains to Cranbrook and other places. The streets were packed with prosperous people making holiday. And they had good reason. Bravery is rightly beloved of men.

The fire was in reality a blessing in dreadful disguise. It destroyed not alone the city but all elements of danger from fire that might threaten the new town. The underbrush, tops, limbs and debris of the old cuttings in the forest around the city are all gone to be a serious menace no longer. Inside that zone of safety has sprung to life a young city bigger, better built by far and safer by many degrees than the old one.

To go into details of all, or half, the new magnificent erections would be a weariness, even if it were not already told and well told in The Daily News. Let it suffice that in five minutes' walk from the Fernie hotel you can see four or five churches, as many banks, a dozen or more big business concerns, court house (it will cost about $100,000 when finished), municipal buildings, schools and residences by the score in process of erection in brick and concrete. The C. P. R. section house marked the eastern limit of the old city. Now the residences extend a full half mile beyond it along the flat and are connected with the business centre by wide, tree-lined avenues. One feels that tomorrow, or after, the street cars will be running along there and the municipal power house, whence the energy will be derived, is rapidly approaching completion across the C. P. R. tracks. The structure will be entirely of concrete and steel.

As a sample of Fernie's indomitable energy and pluck and energy some reference may be permissible to the new concerns of the Fort Steele Brewing company, just beyond Coal Creek at the west side of the town. The old plant was wiped off the earth in the great fire, and almost before the heat was out of the ashes, that is, on September 15th last, work began on the new structure. Inside eight months from the start the building was finished and by nine months they were brewing. Industrial concerns are, as a rule, erected for utility, with but small regard for design. These concerns, however, are elegant and of very great architectural beauty. The outside material is of hard, glossy, white brick manufactured in West Fernie, with interior of steel and concrete. There is hardly wood enough in the whole plant to light a pipe. An investment of some quarter of a million of dollars to date (it will take another fifty thousand or so to equip the bottling and malting departments) has placed an absolutely up-to-date plant in active operation, capable this moment of turning out one hundred and twenty-five barrels of beer a day with the actual labor of four men and a brew-master. The dominant note of the place is the great height of the various departments, engine rooms etc., the abundance of light and the scrupulous cleanliness of everything. To such a pitch is this striving for purity carried that the air taken from the top of the buildings, some hundred feet from the ground, is filtered through about six inches of cotton batting before being permitted to go to the compressor to be used under pressure for forcing beer from one vessel or tank to another. Every machine in the place is run from its own motor, which latter derives its power from a primary motor in the engine room operated by an engine of 75 h. p. which runs its 290 revolutions a minute with a silence that is astounding. It is said by experts that for elegance and perfection of details these concerns have not their peer from Montreal to the Pacific.

The enterprise and its accomplishment in record time is but a type and example of the drive and energy of the body of Fernie people. There are many doing a deal more than even this, regard being had to their means.

A year ago an abomination of desolation lay on the place where the city had been. Today there is actually a larger population than of old and living in a driving, thriving, active city with half a dozen banking corporations clearing foundations for large, permanent structures. When one sees that evidence of prosperity and a great future be need, as a general rule, look no further. Over in West Fernie the Elk Lumber company is running full blast, day and night, turning out a matter of 125,000 feet of lumber a day. A stone throw beyond the sawmill is the brick plant producing steadily about the finest building material to be found on the market. The coke ovens hoist up their smoky torches day and night. A thousand more fill soon go in under the little hill to the east of the coal Creek tracks. Up Coal Creek way the black diamonds are coming out in thousands of tons and giving employment to a couple of thousand men. That is where Fernie's gigantic pay roll comes from. Fairy creek will soon have a concrete dam thrown across it up near Three Sisters mountain to provide storage for a municipal water supply that will be the most efficient in the province if height of head be a criterion.

So much, in the merest outline, of what Fernie has done and is doing. Ten times as much might be said and not exhaust a tenth of the reality. And yet, supposing the minutest detail were exhausted, what would it all mean or signify? An evidence, and no more, of the glorious optimism of a great people,—all the more glorious in that they have the eye of faith in strong realities and the near-by existence of an undoubted source of prosperity in the raw materials that cannot fail to build up wealth, comfort and a commanding commerce.

Fernie is a great place with a great future and a present that other cities may well envy. Great though it be, its people are greater. Did they not make it three times, four times over in the face of trails, dangers and difficulties that form a thrilling part of the great epic of the west? If the city have no motto it should adopt one, and none would be more fitting than "Hesurgam," I should arise.

WHARF WILL BE WIDER

PARTICULARS OF CHANGES TO BE MADE BY C. P. R.

RAILWAY WHARF WILL BE ALSO FOR FOOT PASSENGERS

C. S. Moss, chief engineer of the Nelson division of the C. P. R., seen by a representative of The Daily News yesterday stated that the plans for the new wharf had already been prepared. They were, of course, subject modification but it was intended that the present wharf should be widened from 20 to 30 feet and lengthened about 100 feet, making the total length about 220 feet. A second wharf would be built alongside carrying a railway track. This would also be 30 feet in width which would allow for sufficient room for passengers and rigs to pass along on the western side. The two wharves would be joined by a bridge which would be moved on a rail up and down as the water heightened or receded.

The combined railway and passenger wharf would commence at a point immediately west of the Wood Vallance warehouse. On the present wharf a movable shelter would also be placed which would be taken up and down on a track. Work on the railway wharf and on the widening of the existing one will commence directly the water falls sufficiently.

Strong Indictment

NEW ORLEANS, Aug. 4—Thirty-one indictments against Rev. John J. Hotchgrove, pastor of the Catholic church at Plaquemine, La., were returned by the grand jury of Iberville parish today. Twenty-eight of the counts charge grave crimes the other three are for alleged criminal libel.

Railway Engineers

WINNIPEG, Aug. 3—The International Brotherhood of Railway Firemen and Engineers, at their annual convention tonight, decided to adopt a scheme for a school of correspondence for their members. The plan will give to all at a minimum cost educational advantages hitherto unobtainable.

RUSSIAN SENTENCED

Naval Lieutenant Who is Accused of Wilfully Sinking Submarine

SEBASTOPOL, Russia, Aug. 4.—Lieut. Agloff, who was in command of the Russian submarine Kambala when his vessel was sunk off Sebastopol last June, but a collision with the battleship Rostislav, with the loss of twenty members of her crew, has been sentenced to five years penal servitude and loss of all rights, on a charge of embezzlement.

The newspapers today accuse Agulloff of losing the order that resulted in the collision between the submarine and the battleship for the purpose of hushing up the embezzlement charge.

Wheat Harvest Begins

PORTAGE LA PRAIRIE, Aug. 4.—Wheat cutting started today near Burnside where Kenneth McKenzie and Johnston Troop started in on several hundred acres now ready for the binder.

GLENBORO, Man., Aug. 4.—Wheat cutting has commenced here, L. McFadden having started his binder yesterday. He reports a good crop and the samples promises to be of a high standard.
