VOL. 9 NELSON B. C., TUESDAY MORNING, AUGUST 1, 1910 NO 90

SALOONS BYLAW PASSES COUNCIL

Third Reading of Bylaw to Abolish Saloons

AMENDMENTS TO ORIGINAL MEASURE

Fire Truck Needs Another Horse—Salvation Army Asks for Grant

At the meeting of the city council held last evening there were present Mayor Selous and Aldermen Carrie, McDonald, Mackenzie, Rutherford and Wells.

The mayor called the meeting to order and City Clerk Wasson read the minutes which were duly confirmed.

The finance committee reported recommending the payment of the various accounts and on motion of Ald. Wells, seconded by Ald. McDonald, they were carried.

Engineer's Report

City Engineer Mackay then reported as follows:

"To the Mayor and Aldermen—I again (1) bring to your notice the condition of the sidewalk on the s orth side of Vernon street, east of the Grand Central hotel to Josephine street. The stringers and posts are rotten and should be renewed; this would mean a new sidewalk as most of the planking would not hold nails; (2) I would recommend that a catch basin be placed at the southeast corner of Hall and Front streets, near the Nelson Iron Works, whilst repairing the sidewalk there I found a hole below same which holds all the water at present and forms a kind of cesspit; (3)I shall be obliged if you will grant me two weeks leave of absence. If granted I will always be within easy call should anything crop up which would require my attention.

The mayor suggested that it might be possible to make a jog and bring in the sidewalk 25 feet on Vernon street, doing away with a lot of the elevation now required. Ald. McDonald liked wide streets and thought the narrowing of Vernon street would be greatly objected to. The council then discussed the city engineer's report. Clauses 1 and 2 were referred to the board of works for report at the next meeting and clause 3, giving a two weeks' leave of absence to the city engineer, was on motion of Ald. McDonald, seconded by Ald. Carrie carried unanimously.

Three Horses Needed

A letter was read from Fire Chief Guthrie reporting upon the team now on trial and suggesting that they should be used at the No. 2 fire hall and that three horses should be used for the heavy truck, which weighs 4500 lbs. Moved by Ald. Carrie, seconded by Ald. Rutherford, that the matter be referred to the fire, water and light committee.

Wants Sidewalk Extension

City Clerk Wasson read the following letter from Judge Forin: "I beg to place before the council a request to have the proposed sidewalk to be built on the south side of Baker street, between Hendryx and Cedar streets, extended to the east side of Cedar street, so that I can have an approach to Baker street" On motion Judge Forin's letter was referred to the board of works. The Baker street sidewalk was also referred to the board of works.

A letter was read from William Mack saying his property was being depreciated by water spreading, which was making a cesspool. The mayor said it was a watercourse and asked the city engineer's opinion. City Engineer Mackay said he had repaired the cribbing and he thought it would now be satisfactory. On motion of Ald. Wells, seconded by Ald. Mackenzie, the letter was filed.

J. H. Annable wrote saying that he had a house on lot 29, block 12 Addition A, and wanted to have water laid. On Motion of Ald. Wells, seconded by Ald. Carrie the letter was referred to the city engineer for report.

Army Wants Grant

City Clerk Wasson read a letter from the Salvation army asking for exemption from taxes or a grant of money to the same amount. Mayor Selous said that this question came up every time a superior officer of the army happened to come to Nelson. One of the officers, a lady, interviewed him some time ago and explained that the army helped cases which the city was really responsible for and he had arranged that if a case of this kind came up the city would repay the army, in fact he thought it had been done already and some railway fares paid. To assist as asked would be illegal, but the city could make the army its almoner when they could handle the case better than the city. The charity organization had so acted and the city recognized them. Moved by Ald. Wells, seconded by Ald. Rutherford that the letter be filed.

W. J. Astley addressed the council and said that he and Mr. Elford were anxious to get a settlement of the matter of leases on their portion of the

Continued on Page Five.

INSANE RIVALRY GROWING FIERCER

Two Billion Dollars a Year Spent Upon Military and Naval Armament.

LONDON, Aug. 1—Wide interest is taken in the Earl of Dunmore's assertions in the house of lords last week that the government of England is now costing the taxpayers £1,000,000 daily. He asked the lords when the increasing cost of government was going to stop, sarcastically observing that if the present Liberal government continued in power it would cost £2,000,000 a day to run the country.

Chancellor Lloyd-George, at a Lord Mayor's dinner last night, explained the causes of the increased and increasing cost of government. In 1890, he said, it was £91,000,000 and in 1910 it was £171,000,000. He added:

"The increase in expenditure, not only in England, but in every land under the sun, is due to what Lord Charles Beresford in the house of commons the other day called 'the insane competition in armaments' between the various countries of the world. They are now spending annually £400,000,000 upon this machinery of destruction. All nations seem to be infected with an epidemic of prodigality in this respect, which seems to be sweeping over the world and sweeping to destruction. England takes the lead in that expenditure."

The chancellor asserted that it was impossible to stop the wild expenditure for armament until the people of the world reached an amicable understanding.

SOLDIER MURDERS ARTILLERY CAPTAIN

South African Veteran's Terrible Revenge for Sentence for Drunkenness—Received King's Pardon.

VICTORIA, Aug. 1.—Brooding over a term of imprisonment, the result of drunkenness early last month, Gunner Thomas Allen, a veteran of the South African war and a soldier of long standing in the imperial and Canadian troops, wilfully murdered Capt. F. K. Elliston of the Royal Canadian Garrison Artillery, at Work Point barracks, Esquimalt, at 9 o'clock this morning.

Shot From Window.

Allen was one of the fatigue party assigned to do some work at the barracks early this morning. After starting work with the others, he left the party and went to the gun room, where he armed himself and lay in waiting concealed in a window, until Capt. Elliston appeared from the company office across the yard. Allen, who was a crack shot, raised his rifle and fired. The bullet pierced the officer's neck just below the ear and severed the jugular vein. Capt. Elliston died in a short time.

Captured by Comrades.

Allen sought flight in the adjoining woods but was soon surrounded and captured by a squad of soldiers. He was turned over to the provincial police and is being held under a formal charge of murder. He has made no statement. The imprisonment, which is believed to have supplied the motive for the murder, was ordered by Capt. Elliston on July 11, but after Allen had served 10 days of the sentence he was released, King George's general pardon having become effective.

SASKATCHEWAN HAS A PASSABLE CROP

Mr. Annable Says Conditions Better Than in Other Two Prairie Provinces.

G. M. Annable of Moose Jaw passed through Nelson yesterday morning, having come in by the belated steamer. He went out by the first train to join his family who are summering at his sawmill near Trail. The delay of the Kuskanook on Sunday evening was, he said, caused by the derailment of a freight train between Medicine Hat and Maple Creek, and the passenger train had to wait until the line could be cleared.

Mr. Annable reports crop conditions throughout Saskatchewan generally and around Moose Jaw in particular as being very fairly good. With the prevailing high prices for all farm produce and the quality of the grain this year, the returns to the farmers will be generally good—better than they have been during some past years, when the crop had been reported as having been very good. He has very recently motored some 300 to 400 miles, starting from Moose Jaw, to ascertain for himself the exact condition of the crops in different districts, having gone on this run as far east as Indian Head; and his conclusion from all that he saw and heard during this drive is as follows:

"Wheat will this year throughout the part of the country which he went, be a fairly good crop. In some places it will be indifferent, arising from the land being light, or the cultivation being bad. Elsewhere again, it will be a very good crop, the soil being heavier and the cultivation of the land being good. Generally, however, as far as he travelled, it will be a fairly good crop; not at all the failure which some outside parties have been representing it as being.

"Oats are about the same, though generally the straw will be somewhat short.

The flax crop in the Moose Jaw district alone will this year bring the farmers at least two millions of dollars.

"Around Swift Current and west of Moose Jaw for some distance, there will be much fair crop. In fact until Maple Creek is reached, there will be much fair to fine crop of various kinds of grain. West of Maple Creek, however, it seemed to be lighter, i. e., as far as Medicine Hat on the main line of the C. P. R. and along the Crow's Nest branch.

"Judging from all that he could see and hear, Saskatchewan will this year fare better than either Manitoba or Alberta, though all reports from those in the northern half of Alberta would indicate the crop there generally as being excellent. The feeling generally on the prairie is at present markedly better, former, as regards crop conditions, than it had been some three or four weeks ago. The harvest will be general around Moose Jaw about the end of this week—the earliest harvest that he has seen there during his 20 years' residence in Saskatchewan."

RUMORS RIFE OF AGREEMENT

Said That Settlement of Strike is Arranged

CONFERENCES STILL CONTINUE

Details Not Yet Ready to Be Given Out—Freight Train Fired at

MONTREAL, Aug. 1—Conflicting statements are tonight's features of the Grand Trunk strike and the following statement is being credited to the company: "It is understood that an agreement has been reached but the details are not yet given out."

Presidents Garretson of the conductors and Lee of the trainmen's union, shown the above, dictated a statement to the effect that they have no knowledge of such a settlement and the best proof of this is that the strike is not called off, nor will it be until we have such knowledge and concur therein.

Conference Continues.

MONTREAL, Aug. 1—The conference between Grand Trunk officials, their striking conductors, trainmen and yardmen, and the minister of labor, adjourned late tonight. Persistent rumors to the effect that settlement had been reached and that the strike was on the eve of being declared off found no official verification. The conference will continue tomorrow.

Shoot at Train.

BROCKVILLE, Aug. 1—Last night the conductor and brakeman of a Grand Trunk freight train from the east reported upon their arrival that at a crossing one mile east of town the caboose was fired upon and three windows broken. Major Carpenter and a detachment of the R. C. D. made an investigation but could find no trace of any shooting in the vicinity. The police were given charge of the case and this morning Conductor Brockton and Brakeman Keller of Montreal, two strike breakers, were brought to police headquarters for questioning. All knowledge of the shooting was denied by them and they were let go on promising to appear when called upon.

PROVINCE OF QUEBEC CHECKS PULPWOOD EXPORT

NEW YORK, Aug. 1—Information has been received here that the government of the province of Quebec has prohibited the exportation of pulpwood from lands held by settlers. Where full payment for lands has been made and ownership passes to the buyer the prohibition does not apply. The action of the Quebec authorities is said to be the second step in their movement to prohibit the exportation of pulpwood which is used largely in the manufacture of printing papers. A previous prohibition had been placed on the exportation of wood cut from crown lands.

RESULT OF THIS ELECTION IS DECISIVE

MEXICO CITY, Aug. 1—Complete returns of the recent presidential election have been received at the department of the interior and totals were given out at the bureau of information today as follows:

For General Diaz for president, 18,823 electoral votes; for Francisco Madero, for president, 221 electoral votes; for Teodore Dehra, five; for General Bernardo Reyes, three; for Jose Iver Limantour, one.

VILLAGE DESTROYED BY FIRE.

ALBANY, Aug. 1—The entire village of Hoover, the eastern terminus of the Corvallis and Eastern railroad, 57 miles east of Albany was probably destroyed by fire late today. The loss is over $100,000. No report direct from the stricken town has been received since 6 o'clock p. m. At that hour the big saw mill, lumber yard, hotel and several dwellings had been burned and the fire was still spreading. The town was reported doomed. Not a building was expected to remain.

ROYAL DECLARATION BILL IS APPROVED BY LORDS

LONDON, Aug. 1—The bill modifying the declaration of the oath taken by the sovereign passed its second reading in the house of lords without division, meeting with general approval on all sides. The archbishop of Canterbury admitted he shared in drafting the new form of oath.

CARRIED THREE PASSENGERS

DOUAI, France, Aug. 1—M. Baxer today made a biplane flight with three passengers. The total weight carried, including passengers and fuel, was 700 pounds.

FIRE FIGHTER IS KILLED BY A TREE

Some of Silver King Buildings Burned Sunday—Various Fires Throughout the District

The compressor plant, boiler room and dynamo room of the Silver King mine on Toad mountain, some few miles from Nelson, were burned on Sunday morning, the fire that has been slowly advancing in that direction having escaped bounds. The bunk house and cook house were saved. Three men have been on duty for the past week by order of W. F. Teetzel, government agent at Nelson, watching the fire and at 1 o'clock Saturday afternoon one of them came in and reported that the fire was four miles from the Silver King and looked safe. There was a sudden change in conditions, however, and the fire suddenly became active. Mr. Teetzel sent out eight men on Sunday and yesterday afternoon the foreman reported that the fire had apparently spent itself, being prevented from getting into the big timber. The force is now giving its attention to heading the fire off from Giveout creek.

Spread from Hall

This is the same fire that started a fortnight ago Sunday in Clarkson's timber limits, near Porto Rico siding, on the Great Northern, and that was at its greatest violence in the locality of Hall Siding that ensuing week. A big swath has been burned in the Salmon river valley since, chiefly in slashings and on logged land. The same fire is now being heard from at Porto Rico, Clarkson Bros. wiring from Tadir on Saturday night for men, saying: "Must have help." Mr. Teetzel notified the government road gangs in the locality to give assistance.

There is another fire on the Granite road, at 49-Creek, coming toward the Hamewood ranch. Mr. Teetzel sent 12 men there on Sunday.

The Bonnington Falls fire, which started on Saturday, and to which eight men were sent Saturday night, is now out, the men returning to town yesterday.

Tragic Occurrence

Tragedy has stepped in at the Jackson siding fire which started last Thursday. In response to a telephoned request from Harry Anderson at Trail, fire warden for this immediate district, Mr. Teetzel sent out 25 men. One of the fire fighters engaged there, an Englishman, living at Rossland, was struck by a falling tree on Sunday and sent to the Trail hospital, dying there yesterday morning. Mr. Anderson telephoned yesterday that this fire was looking favorable and that it was probably under control.

Mr. Anderson also applied for 25 men to fight a fire at China creek, Mr. Teetzel sending out the required force.

Word was received yesterday that a fire which started at Murphy creek on Saturday, was under control.

Near Rossland

On Sunday Mr. Anderson made a request for 25 men to fight a fire at the Velvet mine, back of Rossland. Mr. Teetzel did not have the men available but advised him to secure a force of Doukhobors from the colony at Waterloo.

There is also a bad fire at Wyndall, on the Slocan branch, to which Mr. Teetzel sent men on Friday morning. These men are working under the direction of the local fire warden.

Mr. Teetzel was also notified by letter yesterday that there was a fire at Brooklyn, on the Arrow lakes, near Renata, which the settlers were "anxious to have put out." He is inquiring from the C.P.R. for further particulars.

A report obtained currency Sunday and yesterday that there was a serious fire at Trail and that the town was burned. There seems to be no ground for this report outside of a small fire six miles this side of that town.

None of the present fires, so far as known are in valuable timber.

A light shower or two in Nelson yesterday gave some grounds for hoping for the general rain that the district earnestly desires and which would attend to the fires without further assistance. The rain at Hall Siding was heavy and the fire there is now reported as under control.

MOB THREATENS STRIKE BREAKERS

Canadian Northern Cars Burned in Winnipeg—Police Reserves Disperse Mob of Rioters.

WINNIPEG, Aug. 1.—Last night some seventy men and forty women paid a visit to the Canadian Northern railway shops and hooted and threatened strike breakers. There was a good deal of noise and although none were hurt some throwing was indulged in, and it is alleged revolver shots were fired. The police were called out and dispersed the rioters, making one arrest for inciting to riot.

Cars Burned.

Later a fire broke out among the cars in the west yard, between the tracks, in a rather impossible place, five or six passenger and some twenty freight cars being consumed, the estimated loss being $75,000. At the same time a car of hay was burned in the east yards, three miles distant, the loss being $1,000. The fires are attributed to incendiarism as the result of ill feeling caused by the company' attitude in replacing striking shop men.

FAST TEN ROUNDS.

NEW YORK, Aug. 1—Frank Mantell, the California middleweight, won a slight advantage over Dixie Kid, the negro welterweight, in a fast ten round bout tonight at the Olympic Athletic club.

HIGH SCHOOL EXAMINATIONS

All Form II. Nelson Candidates Are Successful

HIGH STANDARD OF EFFICIENCY

Majority of Students Pass With Honors—Victoria Pupil in First Place

VICTORIA, Aug. 1—The results of the high school examinations held recently throughout the province, have been announced by the department of education and afford cause for general congratulation upon the maintenance of the high standard of efficiency for which the schools of this province have long enjoyed an excellent reputation. Of a total number of 1170 candidates at the examinations held in the various centres no fewer than 792 passed, the majority with honors. Revelstoke, which last year passed its entire entry list, is again very well to the fore, its candidates again being practically all successful. Victoria claims the distinction of having the foremost high school pupil of the province. Miss Florence Penny of the advanced class, passing at the head of all competitors with a total of 852 marks out of the 1600 obtainable, or by the fine percentage of 85.2. Following are Kootenay results:

Nelson high school, preliminary course, junior grade, maximum marks, 900; number of candidates 27, passed 22—H. Clifford Irving, 657; J. Howarth Drewry 607; Arthur Graham 600; Harry Gibbs, 578; Marion Wade, 554; Charles R. Darrough, 547; Mary E. Donaldson 547; Arthur B. Gilker, 544; Harry H. Pitts, 530; Elsie M. Mansfield, 527; John H. Ormsby, 518; Maud Simons, 518; Olive Bealby, 516; W. Hugh Fletcher, 509; Margaret M. Hannah, 505; John Whitebreag, 505; Brusa Ferguson, 493; Donald A. McQuarrie, 488; Clara B. Knott, 484; Florence G. McVicar, 474; Georgia H. Patrick, 468; A. Clyde Emory, 450; Russel R. Gordon, 450.

Advanced course, junior grade, maximum marks 1000; number of candidates 10, passed 10—Adeline Lobb, 777; Mary E. Rutherford, 696; Reginald Decew, 676; Charles W. Steele, 668; Naomi Butchart, 652; Dora Jordan, 651; Enid M. Etter, 638; Mabel L. Astley, 634; Nora Paterson, 613; Edith I. Montgomery, 590; William S. Newitt, 518.

Senior academic grade, maximum marks 900; number of candidates 1, passed 1—John Sponse, 676.

This year at Nelson high school only those in Forms I and II wrote on these examinations, 27 candidates wrote from Form I on the preliminary course, junior grade examination, and 23 of these were successful; 450 marks were required for a pass. In Form II three candidates wrote on the junior grade advanced course and all were successful; 500 marks required to pass. Two of them, Nora Paterson and Naomi Butchart were also successful on the education paper.

Kaslo

Preliminary junior grade, maximum marks 900; number of candidates 3, passed 2—William E. Mackay, 477; Mary McKeenan, 462.

Full course, junior grade, maximum marks 1000; number of candidates 1, passed 1—Everett E. Zwicky, 660.

Advanced course, junior grade, maximum marks 1000; number of candidates 1, passed 0.

Intermediate grade, maximum marks 1100; number of candidates 6, passed 4—Helen A. Glegerich, 828; Margaret E. Garland, 797; Minnie G. Robertson, 772; Vera H. Riddell, 600.

Revelstoke Centre

Preliminary course, junior grade, maximum marks 900; number of candidates 16, passed 16—Muriel Porter, 680; Gladys L. Urquhart, 654; Frederick Fraser, 630; Alice E. Bell, 627; William V. Tamlinson, 618; Alfred Tupping, 614; Vesta E. Procunier, 600; Herbert L. Coursier, 597; Mary E. Field, 594; Bertha M. Hobbs, 578; Douglas S. McCarter, 559; Fred E. Lyttle, 542; Marjorie A. Young, 540; Ruth M. Brown, 513; Lorne M. McLeod, 486; Harold F. Gordon, 483.

Advanced course, junior grade, maximum marks 1000; number of candidates 8, passed 7—Fannie P. Patrick, 650; May J. Manning, 626; James L. Lawrence, 610; Clara Fraser, 583; Ella B. McCarty, 553; Frances M. Lawson, 550; Doris I. Bennett, 530.

Rossland Centre

Preliminary course, junior grade, maximum marks 900; number of candidates 4, passed 3—Hazel A. Wallace, 581; Hazel M. Trebath, 483; Lillian E. King, 481.

Full course junior grade maximum marks 1200, number of candidates 1, passed 0.

Advanced course junior grade, maximum marks 1000, number of candidates 5, passed 2. Thomas Talbot, 531; Myrtle Stanton, 513.

Continued on Page Five.)

LITTLE STRANGER NOMIAS PYGMAENS

Mr. Cockle Describes Characteristics of the Beetle Which Emits Bad Odor.

The beetle which has been causing so much trouble in this city from its obnoxious odor is thus described in a letter from J. William Cockle, the well known entomologist, of Kaslo, to Drs. Rose and Hartin:

"The scientific name is 'Nomias Pygmaens.' It is a member of the Carabid family or ground beetles, living in the earth. It is a native of western North America.

"It is usually most prevalent during hot, dry weather," writes Mr. Cockle, "but I have also found it during the winter in warm, dry cellars.

"It flies just after dusk, and is attracted by light, just as many night flying moths are. After entering a room, it usually is found near water. Thus bath rooms or any place where there is a water basin are frequented by them. The odor is emitted by the female to attract the male, and is ejected in intermittent whiffs while she is running around on the walls of the rooms.

"I know of no remedy for them. I have never found anything that will counteract the vile odor. The only thing I know of, which is any way beneficial, is to catch them with a pair of forceps and drop them into a bottle of alcohol. When the nose gets trained to the scent, it is easy to follow your nose till you find them.

"Look well over the bath tubs or wash basins before using, as the beetles will float on the water, and if crushed against the skin, the result is far from pleasant."

GALLANT RESCUE OF DROWNING MAN

Visitor to City Has Narrow Escape From Death While Bathing at City Park.

But for the gallant exertions of Ira Lindsay and for the subsequent skilful attention of David Hartin, son of Dr. Hartin, Henry Short would have met death by drowning on Sunday at the city park.

Seized With Cramp.

Mr. Short, who is visiting Mrs. J. E. Goulding, on Stanley street, was bathing in the lake, near the park, when he was suddenly seized with cramps and sank. Ira Lindsay, who with D. Hartin and a couple of passengers, was just leaving the park wharf in the launch Matchless, noticed his struggles and hastened to the scene. He reached the drowning man just as he was sinking for the third time, and immediately dived in his record. After a long struggle in which both sank several times, Mr. Lindsay succeeded in dragging the man near shore and with the assistance of V. Epperson, who came to his help, he succeeded in bringing him to land. Mr. Lindsay was then thoroughly exhausted and Mr. Short was unconscious.

Artificial Respiration.

David Hartin, who had in the meantime brought the Matchless to shore, skilfully applied artificial respiration and at length succeeded in restoring Mr. Short to consciousness, and neither the rescuer nor rescued are much the worse for their adventure.

Second Rescue.

This is the second time that Mr. Lindsay has saved life from drowning. Three years ago he rescued a girl in the rapids near Grohman creek, at great peril to himself.

LIBERAL PRESS SUPPORTS CABINET

Carlist Plans for Rising Are Not Advanced—King and Queen Leave for England. 6

MADRID, Aug. 1.—With the Catholics in Rome expressing hope that Don Jaime, the Carlist pretender, may raise the standard of revolt, and the Catholics of the Basque provinces rising in insurrection, and with the Socialists in Spain threatening disorder, the Imparcial, which has hitherto been unfriendly to Premier Canalejas, ranged itself on the side of the government in the pending conflict with the Vatican. The Liberal press in general continues unanimously to support the cabinet, which has been left a free hand to carry through its policy by the departure of King Alfonso and the queen for England.

Not Religious Issue.

The Imparcial says: "We are faithful members of the Roman Catholic church, but we always have regarded the issue, not as a religious one, but as a national problem, involving the independence of the civil power. Not Spain, but the Vatican, has created the present situation."

Indignant at Telegram.

The Liberal expresses especial indignation at the telegram of Cardinal Merry del Val, the papal secretary of state, endorsing the attitude of the Biscayan Catholics who threatened to precipitate civil war, and in telegrams to the Vatican placed their property at his disposal for the conflict. Premier Demetrio Lerroux, one of the Carlist leaders in Spain, left today for Protestant, the Austrian residence of Don Jaime, to confer with the pretender. His late departure would indicate that Carlist plans for a rising are in no specially advanced stage.

Ambassador Withdrawn.

ROME, Aug. 1.—One hour after presenting the note of Premier Canalejas to the Vatican officially announcing that Marquis de Ojada had been "called to Madrid for a communication with the government," the Spanish ambassador to the Vatican left Rome. This was early this morning. As yet no retaliatory measures have been taken by the church and Monsignor Vico still remains in Madrid as Papal Nuncio. The statement issued by Premier Canalejas yesterday, bearing upon the controversy between the church and state, has been carefully perused by the Vatican officials. They assert that part of the statement in which it is declared that the Holy See intended to concede to the Spanish government less than what was agreed to in 1904, is without foundation in fact.

WILL NOT RESIST EXTRADITION

Crippen Willing to Return to England for Trial

GIRL TOO ILL TO APPEAR IN COURT

Relatives Beseech Her to Tell All—Deny All Knowledge of Murder

QUEBEC, Aug. 1—Dr. Hawley H. Crippen announced in the provincial court today that he would not resist his return to England to stand trial for murder of a woman believed by the police to be his wife, Belle Elmore, the actress. The Crippen companion in flight, Miss Ethel Claire Leneve was to have been arraigned today but her custodians reported to the court that she was too ill to appear. The authorities are confident that the woman will give no more trouble than Crippen promises to and that as soon as the fifteen days of grace provided by the extradition laws of Canada have expired both prisoners can be returned to London without any hitch. When Crippen and Miss Leneve were arrested on board the incoming steamer Montrose yesterday they were charged with identical crimes, the murder and mutilation of an unknown woman. It had been expected that both would be arraigned at 10:30 o'clock this morning and deported on the steamer Royal George that will sail for England on Thursday.

Crippen Remanded.

QUEBEC, Aug. 1—Probably not before August 18 will Dr. Hawley H. Crippen and Ethel Claire Leneve be taken aboard a trans-Atlantic liner bound for England, there to stand trial jointly accused of murdering a woman believed to have been Belle Elmore.

The criminal law of the British possessions established this today when the haggard dentist, whose flight ended dramatically aboard the steamer Montrose yesterday morning, was arraigned before a magistrate and remanded until August 8. The girl was too ill to appear but if her condition improves she may be brought into court tomorrow.

Will Not Fight Extradition.

Crippen will not fight extradition. Of the girl's attitude less is known. She is still broken in body and spirits, alternately shaken with sobs or silently morose. Her relatives in London are beseeching her by cable to tell all, and the police here are treating her with a gentleness rarely accorded a prisoner, even though a woman.

Forced through a curious crowd, Crippen was taken before the provincial court of special sessions where he was formally questioned as to his identity and notified that he was under arrest for the murder of an unknown woman. Remanding him to August 8, was purely perfunctory as he and his companion, under the Fugitive Offenders act, must remain here at least 14 days. On the eighth, he likely will be remanded again until the 15th, and the first available vessel for England will not depart until three days later. By that time another detective from Scotland Yard will have arrived, bringing a formal application for extradition although this application probably will not be necessary, in view of the accused man's declaration that he will raise no obstacles to his return.

Girl Gets Gentle Treatment.

The most interesting development of the day was the extremely liberal treatment of Miss Leneve by the police. Crippen and she are accused of murder, but the girl today enjoyed the freedom of the house of Chief of Police McCarthy. When taken from jail today it was announced that she had, in view of her weak condition, been taken to a hospital, but this proved to be incorrect. She is back in jail tonight under the care of a physician.

The Arrest.

FATHER POINT, Que., Aug. 1—Dr. Hawley Harvey Crippen and Ethel Claire Leneve, his stenographer, who fled from London after the disappearance of Belle Elmore, the doctor's wife, were arrested here yesterday, aboard the Canadian Pacific liner Montrose, at the command of Inspector Dew of Scotland Yard.

The identification of the long-sought fugitives on the fog-bound steamer by the English inspector, who had raced across the Atlantic ahead of the Montrose, marked the culmination of one of the most sensational flights in recent criminal annals. Accompanied by Canadian officers, he boarded the vessel at 8:10 o'clock in the morning and 15 minutes later both man and girl were locked in their staterooms. Crippen, broken in spirit but mentally relieved by the relaxed tension; the girl, garbed in boy's clothes, sobbing

Have You Ever Considered these Points?

It is now recognized that B. C. has the last great stand of timber on the American continent.

It is admitted by all experts that the value of standing timber in B.C. must double and treble in the next few years.

It is recognized by American and British capitalists that standing timber, reasonably safe from fire, is the finest gilt edged investment of modern times.

Lou cannot buy or lease timber now from the B. C. government.

On all railroad land grants in B.C. except the Nelson & Fort Sheppard, standing timber is sold at $2 per M. plus from $1 to $5 per acre for the land.

On the N. & F. S. land grant we have over 2000 million feet of standing timber in blocks of from 5 to 200 million feet each, selling at from $1.00 to $8.00 per acre.

These prices include the timber and in most cases the price asked works out at less than $1.00 per M. with no extra price for the land, much of which is available for agricultural purposes, or will be when the timber is removed.

These timber tracts are all so placed that the fire risk is reduced to a minimum. Not one per cent has been burned in ten years.

See or write up for estimate and prices. Long terms of payment given.

PARK IS PLANNED IN SOUTHERN ALBERTA

Fine Summer Resort to be Established by Ottawa Government at Waterton Lakes

That southern Alberta is to have the finest summer resort in Alberta and one of the finest in the west is the news brought to Calgary by Howard Douglas, superintendent of national parks.

"We are planning extensive improvements in all our parks this year," said Mr. Douglas, "and in a short time the finest summer resort in Alberta will be established on the Waterton lake park reserve, right near the American boundary, south of Pincher Creek."

In describing the new resort Mr. Douglas said that one half of the lake, which is 17 miles long, is on the American side and that the Americans have been fixing up their shores for the last three years.

"This year we intend to do a little fixing ourselves," he said, "and already the government has sent out surveyors who will locate a townsite near the lake. This body of water is one of the finest in the west for canoeing, boating and fishing and the site is admirably adapted for a summer resort. As soon as the townsite is laid out, a branch of the Canadian Pacific will no doubt be built to Waterton, and this will ensure the success of the scheme."

Mr. Douglas has just finished inspecting the various government parks and he stated that they were all looking remarkably fresh and green considering the weather of the past few months.

"At Wainwright park we now have 749 head of fully grown buffalo and 125 calves, all of whom are doing well. There is enough hay in the park to winter the entire herd.

Mr. Douglas also stated that the herd at Elk Island park was also in good condition, with plenty of winter feed, but that at Banff it was rather dry and it would be necessary to ship in hay for the animals from outside.

"We have another buffalo range at Moose Mountain, south of Regina and another buffalo park will be established very shortly. The range is a good one and it is now all ready for the herd and two cariboos will be shipped from Wainwright as soon as possible."

CENTURY OF PEACE ENJOYED BY CANADA

A celebration will be held between July 1st and Oct. 1, 1915 in Niagara Falls, Ont. Toronto, Hamilton, Buffalo and Niagara Falls, N.Y., to round out the century of peace and in memory of the signing of the Treaty of Ghent. The decision was arrived at at a meeting of the Hundred Years Peace society, held at the Clifton house recently. The celebration will be extended to any other town or village associated with the war of 1812 whose civic authorities or historical association requests. The Frontier society will likely affiliate with similar societies throughout Canada and the United States and an international association taking them all in is proposed. At the meeting a constitution was adopted. It makes provision for the election of President Taft and Governor General Grey or their successors as honorary presidents of the society.

It also provides for the erection of a permanent memorial, to be selected and erected by the society. There is much talk of the memorial taking the form of a free bridge across the Niagara river. J. N. Larned, president of the Peace association of Buffalo, suggested that it would preserve better the peace of the world if the society endeavored to commemorate the century of peace by securing the consent of the two great English speaking nations to submit all their differences to arbitration. He thought that within the next five years both countries could be brought to see the advantage of such a treaty.

OVERHAULING CRUISER.

VALLEJO, Cal., Aug. 1—The cruiser South Dakota which returned yesterday from Monterey bay will go to Mare island navy yard on August 10 for extensive battery overhauling. All eight-inch turrets will be remodelled and heavier, stronger guns installed. The cruiser will be in the navy yard several months.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all druggists and dealers.

METHODISTS MAY HAVE LIVELY TIME

General Conference for Dominion Will Have Many Subjects to Discuss.

The approaching general conference of the Methodist church in Canada, which opens on Aug. 24 in Victoria, B.C., is the principal subject of conversation in Methodist ministerial circles at present, says a Toronto exchange.

Ministers and members are looking forward to the discussion of several more than ordinary important subjects, and the result of the general overhauling of all departments of the church organization which is to be a feature of this conference. The re-election of all general conference officers is, of course, among the first items of business. There will be 320 members of conference, and the conference is expected to last for two or three weeks.

Jackson Controversy.

Undoubtedly the Jackson controversy will come in for a prominent place in the discussion. The question of the training of students and testing of the belief of professors before their appointment and their supervision afterwards, is known to be on the program for a thorough threshing out. The question is, of course, one which extends far beyond the mere matter of the work of Prof. Jackson which awoke such a lively discussion during the Toronto conference this year, and is one of great importance to the Methodist church at large.

Pastor's Term of Office.

The proposal that the four years' term of pastoral office be extended is a question which naturally arouses the special interest of pastors throughout the church, as also does the question relating to the establishing upon a firmer basis of the superannuation fund and enlargement of annuities, which is another matter which falls to be discussed at this year's conference.

Of particular interest to Toronto pastors, though of wide general interest to the church as well, is the proposal to establish a new church department, to be called the Department of Financial Education and Membership Leaving, with a paid general secretary in church.

This scheme, which owes its origin to a plan put first into practice in the Trinity church, Toronto, is designed with a view to securing better and more systematic methods of raising money for church and connectional purposes. The plan on its original lines as carried on in Trinity church has proved so successful that it has been thought advisable to extend the movement.

Successor to Dr. Sutherland.

The selection and appointment of a successor to the late Rev. Dr. Sutherland is another matter of particular interest. Rev. T. E. Egerton Shore, who was Dr. Sutherland's assistant secretary in the Methodist Foreign mission department, is regarded as his most probable successor; but as there is a question of rearrangement on foot in regard to the management of the mission departments, nothing definite can be said as to this important appointment.

Rev. Dr. T. A. Moore Busy.

A very busy man indeed these days is Rev. Dr. T. A. Moore, secretary of this year's general conference. He found five minutes, however, in which to sketch an outline of the principal points which will come up for discussion in August.

"While I can give no opinion, of course, as to the way in which the conference will deal with these questions," he said, "I may say that, briefly, they will be the following:

"All the legislation of the church and work of the church departments will come under review in the first case.

New Hymn Book.

"Then there is the publication of a new hymn book. This is an important matter to be arranged for by this year's conference.

"Changes also are to be made in the methods of administration of the missionary funds, especially the home department.

"Then there is the matter of making the superannuation fund more staple and at the same time enlarging the annuities.

"An important matter, too, will be the consideration of the course of study required of men entering the ministry, and the bringing of college professors under some central authority in the matter of their appointment and teaching.

"The work of the moral and social reform department of the church is to be extended to every part of the Dominion and this matter comes up for conference discussion, as also does the question of changing the method of Epworth League work so as to make this organization more popular with young people.

"Sunday school work must be still further developed, and this is a matter the conference will deal with, paying special attention to the keeping up of attendance at Sunday schools during the vacation months.

General Superintendentship.

"The conference will also deal with the question of pastoral term of office, and will endeavor to make possible a longer pastoral term than the present four years term.

"The general superintendency is to be reviewed, and possibly two or more secretaries may be appointed in future to fill that onerous office as associate general superintendent.

"There is further a proposition to inaugurate a special method of finance appropriate to every congregation, with the possibility of the conference making a new department for this purpose and entrusting its development to some chosen secretary."

May be Associate Supt.

In connection with the proposal to have an associate general superintendentship, the name of Rev. James Allen, M.A., general secretary of the Methodist church home department, is mentioned as among those likely to be chosen for this office.

The reorganization of the home department, if the conference decides to undertake this, would involve the establishment of a system of church offices for certain of the western conferences at Winnipeg. Not all the western conferences, however, favor this system of self-government. British Columbia and Alberta, it is understood, are not over-enthusiastic as yet on the matter.

PIE THIEF OF THE GATINEAU

Burglar Comes from Ottawa or Hull—Passes Over Valuables

Kingsmere and nearby Gatineau villages just now are speculating as to the identity of the famous pie thief whose antics have given a zest of life in that neighborhood for the past few weeks.

Hundreds of Ottawans are living in summer cottages, boarding with the residents or camping out near Kingsmere, Chelsea and in the surrounding country. About a month ago several cottages and camps were broken into and provisions stolen. Little attention was paid to this at the time but in a few days the same occurrence was repeated on another set of houses. Some articles of considerable value were overlooked in some of the houses, but in each case the entire stock of eatables in the larder were cleaned out and the burglaries continued, but in each case it was noticed that the burglar made a specialty of pie stealing. In the past month, dozens is not hundreds of pies have disappeared. They have been stolen from back door steps where they were set to cool from pantries at midnight, from the strong box of the campers and in fact from every likely and unlikely place imaginable.

The ladies of Kingsmere are rather flattered by the evident preference for their pies, for it is a well known fact that in the making of pies Kingsmere is unsurpassed. Especially is this flattering, as the thief comes, it is fairly well understood from Ottawa or Hull.

Some little time ago four young lads of Kingsmere sat up all night in an attempt to catch the thief. The trap, so to speak, was baited with pie. Two of the watchers fell asleep and on the whole the experiment proved inconclusive. Now everyone in Kingsmere is on the lookout and should the thief be discovered it will go hard with him.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach.

A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

By Special Appointment, Purveyor to H.E. the Governor General,

New Season's 'Kootenay Brand' Goods

GREAT NORTHERN RAILWAY

Watch Nelson Grow

Some of the Reasons for Its Progress . . .

1. Fruit Industry
   (a) Ranches coming into bearing.
   (b) Active interest in sale of fruit lands, over 100 inquiries having been received by this bureau alone.
2. Lumbering Industry
   Splendid sales expected for this year.
3. Mining Industry
   (a) Progress being made all over the district.
   (b) Sheep Creek District promises to rank as one of the greatest free milling mining camps in the world.
   (c) Early operation of new zinc smelter.
4. Manufacturing Industry
   (a) Large extensions now being made by two of Nelson's largest factories.
   (b) Free sites and other inducements offered by corporation of city of Nelson.
   (c) This bureau is in receipt of a number of inquiries from persons desiring to establish factories here.
5. Building Industry
   (a) Extension and completion of Tramway system.
   (b) Extension and completion of new C.P.R. wharf, costing $30,000.
   (c) Factory extensions.
   (d) New residences along the Tramway extension.
   (e) Several new business blocks contemplated.
6. Business Centre.
   Wholesale and distributing for Kootenay district.
7. Residential Centre and Tourist Resort.
   (a) Nelson is a city of homes.
   (b) Fishing, shooting and boating. C.P.R. is now constructing a Tourist Hotel at Balfour, near Nelson, to be ready for this season.

Further information, particularly as to inducements offered new industries will be cheerfully supplied by

THE SECRETARY
Publicity Committee, Board of Trade

MARKET REPORTS FROM THE PRAIRIE

Commissioner Metcalfe Writes From Alberta Points—Spokane Has Same Rate as Nelson.

The following market report has been received from the provincial department.

Calgary, July 25, 1910.

W. E. Scott, Esq.,
Deputy Minister of Agriculture,
Victoria, B. C.

Sir,—I have the honor to report as follows:

Strathcona, July 18.

Fruit dealers here report small fruits of all kinds to date arriving in good condition from B. C. with the exception of one or two shipments of raspberries arriving a little soft, but much better than in former seasons; prices have been well maintained, but supply of all small fruits has been very short and unable to meet the demand. Cherries seem to be lessening in quantity arriving this point and Edmonton.

Edmonton, July 19.

Jobbers report this date having no quotations from B. C. shippers with the exception of one, and quotation so high they would not consider in comparison with quotations from the American side. All report prices being quoted by California shippers on peaches, Hales Early nad Triumph, 35 cents per case from Wenatchie 40 cents per case. I watched the handling of raspberries at Strathcona from express cars to express wagons and must state that the handling was very rough on the part of drivers of express wagons. It certainly could be handled with greater care and lessen the risk of its arrival at Edmonton in a poor condition. Fruit by express has to be carted over two miles at present time from Strathcona to Edmonton, bridge not yet being built, and therefore rather a difficult point to reach with raspberries. Jobbing houses here had apples from Salmon Arm, B. C., variety transperent, were of good size, well packed, but very green.

Calgary, July 20.

Jobbers and retailers report raspberries and cherries arriving here in good condition generally, but raspberries are getting a little soft now. Cherries arriving in lesser quantities. Raspberries have been arriving in large quantities at this point, but prices have been well maintained, the greater percentage coming to the Vernon Fruit Co. Some of the best cherries arriving on the market here this season have been from the lower mainland as reported by jobbers and retailers arriving in excellent condition held up well and showed no rot as in former seasons, and prices obtained were good. A few blackberries from Mission and Hammond, B. C., are on the market here and sold at good prices $3 per crate to retailers for two-fifth case.

Two cars of mixed fruit came in here last week from California to Plunkett & Savage, jobbers here, had been consigned. ; Jobbers expected to net shippers on peaches 35 cents per case, tomatoes 40 cents per case of 20 lbs. I also saw a car of Ben Davis apples from Colorado consigned to the same firm, arrived in excellent condition were selling at $2.25 and $2.50 per box. With the same firm I saw apricots from Wenatchie valley which were very poor stock indeed, cost f.o.b. point of shipment 65 cents per case.

Plunkett & Savage and the MacPherson Fruit Co., jobbers here, showed me quotations they had just received from B. C. shippers, stated they could not entertain or consider prices quoted in comparison with prices quoted from the American side, Wenatchie valley, Yakima and Colorado points; as an example, California tomatoes costing 40c f.o.b. there, laid down Calgary 84c, B. C. quoting $1.50 per case f.o.b. there. It certainly is a long margin of difference and B. C. shippers can not expect to move at that price as against the California quotations.

Macleod July 21.

Agent here reports B. C. small fruits arriving here in good condition to present date. What come in are mainly from Kootenay points. There is a flat rate of $2 by express from Kootenay points to all points along this line and the same rate exists from Spokane. The express rate from Calgary is $1.30 per cwt. and $2.55 from the lower mainland to Mission Junction, and $2.48 Okanagan points. The freight rate from Nelson to this point on mixed cars of vegetables is 25 cents per cwt., car of mixed fruits, apples and pears 60 cents per cwt., car of mixed fruit, apples and pears, from Grand Forks, 55 cents per cwt., car of mixed fruits, apples and pears, from Vernon 70 cents per cwt; straight cars of vegetables from Vernon to Macleod 45 cents. American strawberries, raspberries and blackberries and other small fruits arriving in large quantities at this point and other points along this line. They use the flat box 1 3-4 inches in depth, 5 1-2 inches square, for raspberries, and the deep box for strawberries and blackberries. They hold less than our four-fifths, but more than our two-fifth.

The following are prices quoted f.o.b. point of shipment to retail dealers here by H. J. Shinn & Co. and White, Hillcroft & Co. of Spokane.

Raspberries per case of 24 lbs.	$2.20
Cherries per case of 20 lb.	1.75
Dewberries per case of 24 lbs.	2.50
Blackberries per case of 24 lbs.	2.50
Loganberries per case of 24 lbs.	2.50

Duty 48c, express 60c.

Dealers here report what B. C. small fruits they received this season arrived in excellent condition, but could not obtain 25 per cent. of what they required to meet demand. Dealers stated here that 75 per cent. of small fruit used and 50 per cent. of large fruit came from the American side. This is where Nelson and all the Kootenay growers and shippers should aim to supply with both large and small fruits. All points along Crow's Nest line and branches should be supplied by them. They have as low a rate by express and a lower rate by freight, than Spokane and other American points, but they fall short in the supply and compel the fruit dealers along this line and branches to buy American fruit products by their not growing in greater quantities the fruits necessary to supply their trade.

I may state here that Macleod has one of the worst platforms I have seen, raspberries from B. C. fell off truck while being trucked from car to express office when present.

Lethbridge, July 22.

Agent and dealers here report small fruit from B. C. arriving in good condition this season, at the same time report 75 per cent of the small fruits sold and consumed here come from the American side, and 50 per cent. of the large fruits. Retail fruit dealers here buy in carloads mixed fruits and vegetables Good & Co., J. Kerr & Co., retail fruit dealers, had cars rolling then of vegetables and fruits, containing potatoes, cabbages, tomatoes, peas and other vegetables, and of fruits, peaches, apricots, plums, and early apples. The rates are as follows to this point from Spokane: On vegetables 47 cents per cwt., apples and pears 70 cents, peaches, plums, prunes, cherries and berries 55 cents, mixed carloads are shipped at their respective rates for actual weight of each commodity minimum carload 24,000 lbs. except that such mixed carloads must contain not less than 10,000 lbs., of fruit, apples or pears. This is another point that Kootenay growers and shippers could supply to advantage, their express rate being the same as the shippers from Spokane and other American points and their freight rate is a little lower to this and other points along this line. The following have jobbing houses here: Plunkett & Savage, MacPherson Fruit Co., Hill, Horne & Co., successors to the Northwest jobbing house.

Medicine Hat, July 23.

Express agent and dealers here report small fruits arriving in excellent condition this season to date, but supply far short of demand. Dealers here state they are buying peaches from jobbing houses in Calgary and Lethbridge f.o.b. point of shipment at $1 per case for Triumph, and $1.25 for Hales Early and Crawfords; there is one jobbing house at this point, F. G. Lynd & Co. Dealers here further report they obtain all their supply of small fruits from B. C. as they find prices lower, are less time in transit, and arrive in better condition than when they buy from jobbers here. Cherries and raspberries arrive in lesser quantities at this point.

Calgary, July 23.

The following are prices being quoted retailers by jobbers today:

Wenatchie apples per case	$2.25
California pears per case	3.50
Wenatchie peaches per case Triumphs	1.00
Wenatchie peaches per case Crawford and Hales Early	1.40
California plums	1.25 to 1.50
B. C. raspberries per case 24s	2.25
B. C. black currants per case 48s	3.75
Cherries per case 10 lbs.	1.25
Cherries per case of 16 lbs.	2.75
Cherries per case of 24 lbs.	3.75

The following show the number of cases of cherries, raspberries and currants that arrived at Calgary and for points east and north from the 11th to the 22nd by No. 2 and No. 6 express trains from B. C.:

No. 6 Train—	E.	N.	Calgary
Monday 11	...	20	50
Tuesday 12	200	50	150
Wednesday 13	150	80	140
Thursday 14	240	15	180

Thursday 21	284	134	446
Friday 22	143	199	330
	3572	1284	2862

Total No. 2, east, north and Calgary, 4614; total No. 6, east, north and Calgary, 7698; final total, 12,312.

The above was furnished through the kindness of Mr. H. Kinggill, foreman, Dominion Express Co., Calgary.

To summarize—I would advise B. C. shippers to perfect all arrangements and be ready to handle fruit crop promptly and expeditiously when ready to ship, and see that your carriers or transportation companies are in the same position to handle your fruit products quickly and without delay, get hold of the markets here at once through jobbers and retailers, and don't hold off too long. No doubt it will be necessary for the B. C. shippers to place a percentage of their fruit in Winnipeg and the Manitoba province. I repeat again, get in touch at once with the jobbers and retailers of fruit products in all the provinces. You will require all no doubt to market your crop successfully in the face of competition to be met by American growers and shippers.

PROPOSED LAW AS TO COAL MINES

Submitted by Provincial Government—Miners do Not Offer Criticism

The Fernie Ledger says: In this week's issue we complete the reproduction of the proposed bill amending the Coal Mines Regulation act. We have printed installments each week feeling that by so doing there would be a better opportunity for our readers who are interested in the coal mining industry to read over the different chapters and clauses and digest them better than if its publication had been made all at once. When we started these extracts we prefaced them with a request that any suggestions of amendment, improvement or additions of any kind either with regard to the text or to the objects thew involved would be acceptable and that we would give them place in our columns. Furthermore for the purpose of aiding those to whom our suggestions might not be sufficiently clear we outlined certain portions that we thought could be improved quoting the original and then giving our views. As an evidence of the deep interest that has been displayed by those whose welfare is effected by this proposed legislation we would feel that our efforts had not been wholly useless if ten letters had been sent in, nay more, even five, but instead of this small number candor compels us to tell the truth and quote the exact number of responses to have reached the astounding figures of .000000.

Many Good Features

There are many features of this proposed bill that are decidedly superior to those contained in its predecessors, still there is room for still further improvements and yet they who ought to be the most interested are positively apathetic.

Highly Commendable

This method of framing legislation is highly commendable and they who have been instrumental in its initiation have shown that they believe that by submitting it to those whom it most vitally affects the theory of "many men, many minds" would have a complete exemplification. In brief it is the application of the referendum in practice. Naturally it was thought that this plan would result in the making of a piece of remedial legislation that would be replete with beneficial clauses, but no, they who are constantly grumbling at conditions do not display energy enough to write a single letter relative to the question but in the event of omissions of which they thought about but did not take the trouble to put on paper they will growl and wonder why it did not form a part of the bill and more than likely attempt to shoulder the blame on the local or district officers; this is not fair as these men are constantly kept busy and it was to all and everybody that the request was made. Fortunately, however, these men have taken up the proposed bill during the current week with Deputy Minister of Mines, R. B. Tolmie and Chief Mines Inspector Francis H. Shepheard and no doubt the result of their deliberations will be that certain improvements will be made; still had all responded offering suggestions there would have been more incorporated in this anticipated act. The operators also have brought their observations to the notice of these two men, as that is the object of the department, i.e. to get the opinions and advice of the employees and employers. We do not know how the latter responded yet we feel safe in stating that they gave it more consideration than the rank and file of the mineworkers.

MEETS BEAR ON ROAD.

Rossland Man's Exciting Experience—Makes Record Run Home.

Rossland Miner—Andy Drewery developed such a rare turn of speed on Friday morning that he should have no trouble in developing into a sprinter of repute. But he would much prefer to train at his leisure and not in the manner that was forced upon him on the occasion referred to. He was walking towards the city from the Sunset mine when he saw, standing on the road, a monster bear. Andy suddenly remembered something he had forgotten at home. Without waiting to ask Bruin how he liked Rossland, Andy got home in quicker time than he ever made it before or hopes to make it again. It's a bad thing for the digestion to hurry that way, but it might have been worse if he had tarried. Bruin was not disposed to run away, so Andy gave him best and he hit the high places for the Sunset, leaving the honors with the bear. Later on Ald. J. Lee and Chief of Police T. H. Long went after the animal, although bears, it is said, may not be legally killed before August 1. Anyway, the law remains unbroken as yet, but Andy's record will stand for many a long day, unless he meets another and then, with the practice he had on Friday, he may knock a second or two off.

ROAD TO MIRROR LAKE IS NOW COMPLETED

(Special to The Daily News.)

KASLO, Aug. 1—Mr. and Mrs. Patemen leave by the Kokanee today for Victoria. Mr. Patemen has been on the staff of the Kootenian for about a year. As a lasting remembrance of Kaslo he takes away the Rambler gold medal for the annual June contest in fishing.

The government road crew that have been working at Mirror lake completed the road last evening and will start at Fry creek on Tuesday.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by all druggists and dealers.

Minard's Liniment Cures Colds, Etc.

Weak? Tired? Run-down?

These conditions come from overwork, a weak stomach, overtaxed nerves or feeble blood. When you feel "all in"—hardly able to drag about, no energy, no ambition, easily exhausted and can't sleep—take

BEECHAM'S PILLS

and note what a difference they make in your condition. The stomach is the first to feel the good effects. Food tastes good, the digestion is strengthened; bowels and bile work regularly, the blood is cleansed, and the nerves rested. The whole system responds to the tonic action of Beecham's Pills. Soon there is the buoyant feeling of returning health.

Fresh Strength and New Life

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes 25 cents.

After a Hard Game of Golf

Nothing revives the tired body so quickly as a cool bottle of refreshing

Budweiser

Every drop of it embodies the wholesome qualities of the richest American barley and the tonic powers of the finest Saazer hops grown in old Bohemia. Superb Quality and Purity places Budweiser in a class by itself.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives **no outside heat.** All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection
WICK BLUE FLAME
Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is **no surrounding heat—no smell—no smoke.**

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere. If not at yours, write for Descriptive Circular to the nearest agency below

TUESDAY, AUGUST 2.

EDITORIAL NOTE.

The Ottawa Journal says: "The Conservative party of Canada meets a stroke of good fortune in the departure of F. D. Monk, hitherto recognized as the leader of the party for the province of Quebec, who has now joined forces openly with Mr. Bourassa.

"That Mr. Monk has been not only a dead weight on the party but a drawback and a danger to it, has for some time been recognized by most of the party in the other provinces. Some men, by unswerving and aggressive loyalty to their party, make up to it for their lack of political acumen and force. Other men, less reliable in their party fealty, supply compensation by their ability and activity as organizers and generals. Mr. Monk shone in neither way. Politically speaking he was neither loyal nor competent."

ORIGIN OF FIRES.

Even in dry weather fires do not start themselves, and when the whole question of the prevention of such fires is dealt with there should be at hand information and evidence as to the origin of the fires so far as it is possible to obtain this.

Lightning starts some of them. Others are due to camp fires or clearing fires escaping control and there are various minor causes. Still others are said to have been set going by sparks from railway locomotives. To sparks from locomotives, indeed, very many fires are ascribed and among these some of those which have been most difficult to deal with.

It is said that the screen used in the locomotive smoke stacks is not sufficient to arrest by any means all of the sparks, and that while those which escape may do little harm ordinarily they are continually starting fires just when fires are dangerous. These are sweeping statements: they are made by responsible persons, and while we are not ourselves in possession of evidence sufficient to warrant us in speaking of them as proved they undoubtedly demand investigation.

The railway companies, themselves, one cannot but believe must be anxious to avoid all possible causes of fires. They are among the chief losers directly or indirectly, and they cannot view with indifference the possibility of causing loss to others or injury to the country in general. To equip their locomotives in dangerous dry seasons with spark arresters of a more effective character than may be needed at other times would of course be costly, but it would be less costly than fires caused by inadequate equipment.

THE 100 YEARS PEACE.

In a few years Canada will have completed a century of peace. Indeed Canada is in a sense a country that has never made war upon any other. Her sons have fought either in defence of her territory or in quarrels that she did not make.

Under the French regime, Canada was but a settlement of some 60,000 colonists ruled over by officials appointed by the king at Paris or by his ministers. Their action or inaction was not voluntary but was in forced obedience to orders. After the separation of the American colonies from the British Empire and the coming of the Loyalists, the people of Canada defended their country against the invading American armies during the war of 1812. Since then Canada has known peace as it has been known by no other country in the world.

She has not since been invaded and she has had no quarrel with any other country that has not been peacefully settled. Canadian volunteers have gone to the Crimea, to Egypt, and to South Africa. In even larger numbers, though as individuals and not as national representatives, they took part in the American civil war. But Canada was in no way responsible for the origin of any of these wars, nor did she carry their burden. From their heavy cost she has been almost wholly free, and she has been able to devote her energies almost to the building up of the country.

Great Britain has been taxed heavily in life or wealth for the Crimea, India and South Africa. Germany has been at war with Austria and France, Austria with Germany and Italy, France with Russia and Germany, Russia with England, France, Turkey, Italy and Japan, Japan with China and Russia, the United States with Mexico in addition to her civil war.

Except as a member of the British Empire peace is likely still to be her lot. It is not easy at present to conceive of any possible cause of war with any country in Europe, nor is it easy to imagine how any country in Europe could hope successfully to invade Canada. With the United States arbitration as a method of settling disputes becomes yearly more assured. There has been talk of a possible invasion of North America by Asiatic powers determined to force open a door for the emigration of their people, but this seems visionary.

Novelties and Staples In Office Sundries and Desk Furnishings

Office men are always on the lookout for any new device that will be a convenience or time saver in the office.

We are always prompt to stock any device of merit as soon as it comes on the market.

A look over our tables is always interesting and often profitable to you.

WESTERN CANADIAN IRRIGATION CONVENTION

Last Call to the Convention to be Held at Kamloops, B.C., Aug. 3, 4, 5, 1910

This convention promises to be the most important of the series yet held. Between 60 and 70 delegates have notified their intention of being present, nearly all of whom are experts in irrigation and forestry.

The Dominion government is sending the chief hydrographer, the head of the irrigation department and the secretary of the department of conservation, the first two on matters connected with their respective departments. The premier and other members of the British Columbia government, the minister and deputy minister of agriculture of the Alberta government, J. S. Dennis, B. B. Bennett, K.C., and representatives of nearly every irrigation and colonization company in the three provinces have notified their intention of being present. The convention will also be attended by Prof. Elcheverry, head of the irrigation department of the state university of California, whose illustrated lectures on California irrigation and methods are held in such high esteem.

Basis of Representation

The basis of representation is as follows: The governor general of Canada, members of the Dominion cabinet, the senate and the house of commons, the Dominion commissioner of irrigation, the superintendent of forestry, director and superintendent of Dominion experimental farms, five representatives of the Canadian society of engineers, two representatives from each Canadian railway, one from each agricultural paper in Canada.

From the provinces of Saskatchewan, Alberta and British Columbia: The lieutenant governors, the members of the legislatures, the deputy ministers of provincial departments, provincial irrigation commissioners, three each for all irrigation-colonization companies, two each for all agricultural, forestry and live stock associations, five each for all cities, appointed by the mayor, two each for boards of trade or similar organizations, two each for all towns, villages or rural municipalities, to be appointed by the mayor, reeve or overseer, two each for all Canadian clubs, to be appointed by the president, superintendent or representative appointed by him of each experimental or demonstration farm; three representatives from other irrigation associations, appointed by their presidents.

Delegates should purchase single journey tickets and at the same time ask for standard certificate. This will be signed by the association secretary at Kamloops and is available for reduced fare on return journey.

MARKET LETTER

(From Matthews, Ellis & Bremner, Ltd. Vancouver)

The stock market has been quiet during the past week, no exciting features having presented themselves. The fluctuations in prices have been small. Mining shares occupy the principal place in the speculative market.

Alberta Canadian Oil has been extremely quiet, the asking price ranging from 10c. to 12c.

American-Canadian Oil has been very quiet and held at about last week's price, namely 15 1-2 to 16c.

International Coal & Coke is held at 65c, with 63c. bid. It looks like a good investment at this price as it nets over 9 per cent dividend.

Diamond Vale Coal & Coke, after selling up to 15c. last week, is again easier and offered today for 12 1-4c.

Nicola Valley Coal & Coke is offered at $70, with no buyers at that price.

Royal Collieries sold at 21c. and closing at 25c. asked and 20c. bid.

Portland Canal Mining company has moved freely at prices somewhat better than last week's closing. It closed today at 34c. asked and 33 1-2c. bid.

Stewart Mining & Developmnet company is a little lower than last week. After selling at $3.10 it is offered today at $2.95, with $2.25 bid.

Lasquett Island Mining company is a little lower than last week. It sold at 9 1-2c. and closed with 10c. asked and 9c. bid.

Nugget Gold Mines is firmer, selling at 1⅝ 1-2c. and 99c. and closing at $1 asked.

Bear River Canyon Mining company has been neglected and offering at lower prices. It closed at 23c. asked.

Rambler-Cariboo Mining company declined on account of the destruction of some of their buildings by forest fires.

Bitter Creek Mining company is offered at 75c. with no buyers.

Glacier Creek Mining company is offered at 29c.

Red Cliff Mining company has been fairly active at lower prices than last week. It declined to $1.35 and recovered and sold today at $1.50.

B. C. Permanent Loan company is very firm. It is wanted at $135, with no sellers.

Northern Crown Bank certificates are offered at $52, and Northern certificates at $100.

Dominion Trust company is held at $105, with $96 bid.

South African Scrip is held at $725, with $650 bid.

MINING NEWS

Alaska Gold Output Seriously Curtailed by Lack of Water for Sluicing.

FAIRBANKS, Alaska, Aug. 1—The severe drought experienced in Tanana valley this summer has had a serious effect in curtailing the gold output for the district, the water shortage greatly reducing sluicing operations. The output for the Fairbanks district was less than $1,000,000 in July and bankers estimate that the total output for the season of 1910 will be only $6,000,000. Last year the output was between $8,000,000 and $9,000,000. The labor shortage resulting from the rush to the Iditarod in June has also served to reduce mining operations in this district.

From Granite-Poorman.

T. Gough, part owner of the Granite-Poorman mine and mill, is in the city from Granite, looking after business interests.

WILL NOT RESIST EXTRADITION

(Continued from Page One.)

hysterically. They were no longer the "Rev. John Robinson and son," as booked from Antwerp on July 20.

After brief delay the Montrose continued her 160-mile journey up the river toward Quebec, where jail awaited the pair. Crippen is charged with the murder of an unknown woman, believed to have been his actress wife. The girl is held as an accessory. In charge of Inspector Dew, they will be taken back to England on or about the 18th of August.

Garbed as Pilot.

Inspector Dew embarked on the Eureka's small tender, accompanied by Chief McCarthy of the Quebec police and ex-Chief Dennis of the same city.

All wore the garb of pilots and over his florid face Inspector Dew had pulled a pilot's visored cap to hide his features from the man he sought. He did not wish Crippen to recognize him and take advantage of the only avenue of escape—suicide.

Four sailors quickly rowed the tender alongside the Montrose and Dew and his companions stepped aboard. Crippen was standing near the rail talking with Dr. Stewart, the ship's surgeon, and attempting to appear calm. But that he was nervous was indicated by his furtive glances and his remark to Dr. Stewart: "There are three pilots coming aboard," he said, nervously. "Is that not unusual?"

The surgeon did not reply, but kept his eyes on the strangers, who walked rapidly toward them.

Glad Suspense Over.

"Crippen, I want you," said Inspector Dew, quietly, as he approached. The dentist recoiled involuntarily as he recognized the man who addressed him, then the blood left his face, his breathing became short and fast and he gurgled incoherently. As he was being led away to the captain's cabin, from where he was transferred later to his own stateroom, he said gratefully:

"Thank God, the suspense is over. I am glad."

Crippen's arrest accomplished, Dew hurried to Miss Leneve's stateroom where he found her still dressed as "John Robinson, Jr." She was on the verge of nervous breakdown. Her appearance, when confronted by the detective and told she was under arrest, was pitiable. The control she had fought so hard to retain throughout the voyage left her. She cried out hysterically, and became so faint that restoratives were administered. Shut in her room and restored to woman's dress, she was closely guarded as the vessel continued its journey, for fear that she would take her life or collapse utterly.

Handcuffs on Crippen.

Crippen was attired in a travelling suit of blue serge and tweed overcoat. Gold-rimmed eyeglasses rested on his nose, and from behind them his eyes looked out dully. His face was pale and drawn. With both under arrest, the Montrose's whistle sounded hoarsely, a signal to the waiting Eureka that Inspector Dew's search was at an end. Immediately the pilot boat came alongside and the newspaper men and photographers swarmed aboard. Crippen was handcuffed in his stateroom, No. 8, and Miss Leneve, under the care of a physician was in No. 5.

The news by this time had spread among the passengers, who had been duped throughout the voyage by the bogus clergyman and his retiring, effeminate son. Captain Kendall had kept from them the identity of the two passengers and, although the recent bombardment of the wireless messages had aroused their suspicions, none on board beside Llewellyn Jones, the wireless operator, knew that the two were Dr. Crippen and his girl companion.

Deny Murder.

Although neither Crippen nor the pretty typist denied their identity, neither admitted any connection with the London murder. Neither Inspector Dew nor the Canadians who made the arrest tried to get any incriminating admissions from the couple. Such efforts are contrary to British law, and the prisoners volunteered no information.

With the shock of arrest over a stewardess changed the boy's clothing in which the girl had travelled for garments more fitted to her sex. Then she collapsed again and lay for more than an hour in her berth, her features contorted and her body shaken with convulsive sobs. In a separate cabin, guarded by a detective, Crippen sat in silence with his chin sunk on his chest.

When Inspector Dew went aboard the steamer today his greatest fear was that Crippen and Miss Leneve, when they found themselves discovered would commit suicide.

The small army of American, Canadian and European correspondents that has been waiting at Father Point to see the end of one of the most exciting man hunts in police history arose at dawn today, but Dew and the Canadian detectives were up before them. From the Gulf of St. Lawrence, 160 miles away, a fog had rolled up the river, and it was impossible to see more than 50 yards. But the wireless penetrated the mist, bringing word that the Montrose was only 30 miles away. On account of the fog she felt her way cautiously, and it was 7:45 o'clock before her black-ringed funnel was visible down the river. At that time the fog lifted a little, but it was still dense enough to aid admirably the purpose of the detectives, which was to get aboard without arousing the suspicions of the couple they hoped to arrest.

Girl Faints When Arrested.

Detective Dennis gave the most interesting account of how Miss Leneve was trapped in her cabin.

"As soon as Crippen had been taken in charge by McCarthy," he said, "Inspector Dew and myself went to cabin No. 5, where we were informed that Miss Leneve was reading a magazine. Dew gave instructions for a stewardess to stand ready with a glass of brandy to be administered in case the girl fainted, then he entered the cabin, followed by myself.

"'Do you recognize me?' he asked the girl, who rose to greet him.

"'No,' she replied bluntly, as the color left her face.

"'Well,' said he, 'I am a detective of Scotland Yard, and I have here a warrant for your arrest.'

"The magazine fell from the girl's hands and she sank back on the sofa in a faint. Then the stewardess entered at a word from Dew and forced a little liquor between her lips.

"The girl was clad in a boy's suit of brown material, but even in this ill-fitting attire she showed some of the beauty that the police believe led Crippen to turn against his wife. Her light brown hair is cut short and parted in the middle after the English boy fashion. Her eyes are gray and large and heavily fringed and her complexion is clear. Her face is pleasingly oval and her expression winning."

It was more than four hours after she faced the detective that the girl was able to sit up. Even then her condition was pitiful and no one saw her except the ship's surgeon and the stewardess.

The Crippen Tragedy.

Hawley Harvey Crippen, an American, aged 50, graduate 1884 of the Homeopathic hospital college of Cleveland, Ohio. Has been manager to "Munyon's" in London. Lived at 39 Hilldrop-crescent. Disappeared July 3.

Cora Crippen, his wife, also an American. A music hall artist known as Belle Elmore. Honorary treasurer of the Music Hall Ladies' guild. Last seen early in February, and stated by her husband to have died in California. The remains of a woman believed to be hers discovered buried in a cellar at the house in Hilldrop-crescent.

Ethel Clara Leneve, age 27. Has for ten years been in the employ of Crippen as his typewriter. Has lived with him at Hilldrop-crescent since the disappearance of his wife, and has been known as Mrs. Crippen. Disappeared with Crippen.

February 2—Mrs. Crippen disappeared. Crippen circulated the report that his wife had gone to America.

February 3—Undated letter, purporting to be from Mrs. Crippen, arrived at offices of Music Hall Ladies' guild, of which Mrs. Crippen was honorary treasurer, announcing writer's departure to America and resigning the treasurership. The letter is believed to be a forgery.

March 26—Notice of Mrs. Crippen's death in California appeared in the obituary columns of the Era.

April 2—Paragraph announcing Mrs. Crippen's death appeared in the Stage.

June 30—Friends of Mrs. Crippen visited Scotland Yard and informed Superintendent Forest and Chief Inspector Dew of her mysterious disappearance.

July 9—Dr. Crippen and Ethel Leneve disappeared together at 1 p.m.

July 13—Woman's mutilated remains, believed to be those of Mrs. Crippen, discovered under the floor of the coal cellar beneath the steps leading from the front door of the Crippens' house.

July 31—Dr. Crippen and Miss Leneve arrested on the Montrose at Father Point, Quebec.

This is to certify that I have used MINARD'S Liniment in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh.

RESENTENCING ORDERED

SAN FRANCISCO, Aug. 1—The resentencing of Willard N. Jones and Theddeus S. Potter, convicted of land frauds, was ordered today by the United States circuit court of appeals, after hearing the cases. Jones had been sentenced to pay a fine of $2000 and to spend one year in the government prison on McNeill's Island and Potter was sentenced to pay a fine of $500 with imprisonment for six months. After handing down the decisions and orders the court adjourned to meet on Sept. 12.

HAS INFANTILE PARALYSIS.

WASHINGTON, Aug. 1—William Himrich, pitcher of the Washington American baseball team, is a patient in the Georgetown university hospital here, suffering from infantile paralysis, a disease which rarely attacks adults. Numerous cases of infantile paralysis have been reported here among children recently and three cases were discovered today.

SALOONS BYLAW PASSES COUNCIL

(Continued from Page One.)

waterfront. Things were unsatisfactory at present. They were endeavoring to form a company and found difficulty unless they could get satisfaction as to leases. The mayor said Messrs. Astley and Elford could have all the space they could utilize. If they amalgamated perhaps an economy of space could be effected. He would like to keep as much space as possible for future council to deal with.

Mr. Astley said they expected by the amalgamation to do a much larger business and would want all the space for possible extension.

After discussion Ald. Rutherford moved, seconded by Ald. Rutherford that the matter be left to the waterfront committee to report. As Ald. McDonald is going out of town on Wednesday the committee decided to meet on the waterfront at 10 a.m. today.

Fire Chief's Report

Fire Chief Guthrie reported as follows: "I herewith submit my report for the month of July. The department responded to four box alarms and three telephone calls, used 14 streams, laid 14,800 feet of hose. The most serious fire was the one that started in the Kreyscher shingle mill on the 5th, doing damage to the extent of about $30,000. Fire alarm system tested daily, water pressure reading taken twice daily the average remains at 100 lbs., hydrants inspected weekly. Eight hundred feet of new Eureka hose received, tested and put into service. Fireman W. Symons resumed duty on the 14th.

Liquor License Bylaw

The bylaw to amend the Trade License bylaw then came up and Ald. Rutherford moved, seconded by Ald. McDonald, that the council go into committee of the whole, with Ald. Carrie in the chair. After bringing in various amendments to the bylaw the committee reported progress and the mayor again took the chair and Ald. McDonald moved, seconded by Ald. Rutherford, that the bylaw be now read a third time.—Carried.

Mayor Selous then addressed the council saying he did not know how the many changes made in the bylaw would affect its validity. They had added new clauses and made great changes and it was not the same bylaw as received the first and second readings. He thought they were doing a great injustice to the men who were running the saloons. There were no complaints about their conduct and some of the hotels were probably worse than the saloons complained of. The closing of the saloons would lead if anything to more drinking as the more people you get into one place the more drinking in the form of treating there would be, and you are taking away the means of livelihood and confiscating the property of those six men and incurring liability which may involve the city in lawsuits and heavy costs.

Ald. McDonald said he thought the cause of temperance had been favored by the bylaw passed and did not think the city was being involved in any liability. The city hotels should be made to run properly and if the city has not a chief of police who could control them it should get one that can. He did not object to the mayor taking the stand he did as he had been elected by those people and had to stand by them.

Mayor Selous asked if any other alderman would have pleasure in insulting the mayor. Ald. McDonald should be the last man to talk in the manner he had in supporting this bylaw, as he (the mayor) had it on undoubted authority, that Ald. McDonald had sold liquor himself and that this was Ald. McDonald wos'n stat g. shrdlu cmfwyp McDonald's own statement.

Ald. McDonald denied the imputation in strong language. "I never sold a drink in my life," he said.

The Mayor—I am assured that it is Ald. McDonald's own statement.

Ald. McDonald—I will bet you $5000 that you cannot prove it; I am a 30 years teetotaller.

The Mayor—I don't bet, and should have thought it was against your principles.

Ald. McDonald—I don't bet, but will give $5000 to the hospital if you can prove what you say. This is Charlie Waterman's doings; and Mr. McDonald went on to refer to Mr. Waterman in very uncomplimentary terms.

Ald. Rutherford said he felt they were doing good to put the saloons out of business. They have been taking the means of livelihood from women and children for years.

Ald. Carrie said he never could see any use for saloons and would like some of the poorer hotels put out of business.

Ald. Mackenzie said that the temperance business was the only reason that he got into public affairs. "We have tried to improve the condition to the best of our lights," said Ald. Mackenzie.

The third reading was carried.

Bylaws No. 211, debentures; No. 212, money for general purposes; No. 213, to provide money for school purposes, and No. 214, the Kootenay street sewer bylaw for frontage tax, passed their first and second readings and the council adjourned until Monday, Aug. 8.

AT THE THEATRES.

A well varied program is on at the Empire this evening. "The Marvellous Garland," a clever trick picture; "The Gulf of Salerno," scenic; "The Ugly Girl," a Hinds story, the film being beautifully colored; "The Door," a fine dramatic subject, and a good comic entitled "Willie Gets Hit."

The splendid subjects and excellent films drew a big crowd to the Arcade last night. "Married on Horseback," "A Cowboy's Ride for a Wife" had the audience excited enough to wish for as much again. The hero and heroine in each case interested them to the highest degree. Another subject full of dramatic ability is "Reunited at the Gallows." This program will be repeated this evening, and judging it on its merits, is certainly one that should be well patronized.

The committee of the board of trade having charge of the mineral exhibit for the Vancouver exhibition collected subscriptions yesterday and was well received. Additional samples of ore are still required and the Bayonne and Sloan districts are still unrepresented. Prospectors are requested to leave any samples of ore that may be available at the office of H. W. Widdowson or at the board of trade.

Advanced course junior grade, maximum marks 1600, number of candidates 2, passed 1. Ruth M. Armstrong, 715.

COMMISSIONER VISITS KOOTENAY

Premier Will Attend Kamloops Irrigation Congress—Water Rights in Cariboo Creeks.

(Special to The Daily News.)

VICTORIA, Aug. 1—Premier McBride, Provincial Water Commissioner W. S. Drewry and E. T. Billinghurst, representing the Victoria board of trade leave tomorrow for Kamloops to be present at the opening of the sessions of the irrigation congress, all of which Messrs. Drewery and Billinghurst expect to attend, while Hon. Mr. McBride will return to the capital by Friday. In the first minister's brief absence, the duties of acting premier will devolve upon Mr. Bowser, who returns tomorrow from his Lillooet holiday.

Will Visit Kootenay.

Water Commissioner Drewery proceeds at the close of the Kamloops convention to east and west Kootenay and Okanagan, official business requiring him to spend some little time during the ensuing few weeks at Alkali lake. There is to be no further meeting of the board of which he is chairman until Sept. 19 for which date a meeting is convened at 150-mile house for adjudication upon the matter of rights in various Cariboo creeks.

ANNIVERSARY OF FERNIE FIRE

Wonderful Progress Made Since Disaster of Two Years Ago—Ornamental Lake.

FERNIE, Aug. 1—The city council are considering the proposition of securing the tract of land near the new park for the purpose of making a small lake at that entrance of the town. It would not only act as an excellent fire break, but would be a boon to residents during the summer months. It is not likely that anything will be done in this direction immediately, but Mayor Herchmer is determined to leave no stone unturned to make the city one of the most attractive in the interior of the province in the near future.

Tax Transient Agents.

A bylaw taxing transient real estate agents $500 per annum has been passed by the council and these outsiders will now have to contribute that amount to the municipality before they can attempt to do business here.

The urgent necessity for a public library is attracting the attention of the citizens and Mayor Herchmer has appointed a committee of prominent men to look into the question with a view of devising ways and means of accomplishing the good work.

Wonderful Progress.

Today is the anniversary of the disastrous fire of 1908 and it is interesting reading to see the wonderful progress that has been made during the last two years in rebuilding and improving the city. A good idea of the enterprise displayed may be gleaned from the fact that 70 fireproof buildings at an average cost of $18,000 have been erected during that time as well as 900 dwellings. Besides the fireproof business buildings frame business houses to the value of $150,000 have been erected. The most up-to-date water and electric light systems have been installed; a school costing $50,000 and a $15,000 fire hall have been completed as also a city hall costing over $15,000. New side walks have been built in every part of the town, roads graded and a storm sewer system is now being rushed to completion. The fire department has been thoroughly reorganized with a paid department supplied with every equipment necessary to place it on the most efficient basis. These are a few of the signs of progress but is a very incomplete list though sufficient to show that the citizens have not been idle and that they are possessed with the determination to make this the best business town in the interior.

H. Hawkins of the Hudson's Bay store at Nelson, has been visiting his father-in-law J. B. Smith, secretary treasurer of the Fernie-Fort Steele Brewing Co., here for the past week.

Minard's Liniment Cures Distemper.

CREW OF FANATICS MAY BE STARVING

Nothing But Potatoes and Cattle Beets to Eat—Are in Pitiable State

HALIFAX, Aug. 1—The mysterious barque Kingdom, the Holy Ghost and Us society's yacht, which anchored at the quarantine ground in Halifax harbor on the night of June 21, has again been heard from. The barque remained in harbor for several days and during her stay a reported endeavored to board her, seeking information, but was unable to do so, as Capt. Perry and Frank E. Sanford, the leader of the Holy Ghost and Us society, had not the slightest desire for the white light of publicity. It was also impossible to learn what would be her next port of call.

Later reports revealed the fact that she sailed to Portland. In its issue of July 20th, the Portland Express has the following:

"There is much to convince observers that affairs in Shiloh are in a very bad shape. There is little, if any doubt about this if one may believe reports. A representative of the Express was told this by a man who was once prominent at Shiloh but who broke away after a few years' experience. This man has seen a number of people from Shiloh within a short time also others who keep themselves informed how things are going on the hill, and it is claimed by him that not since Sandford with his spade and wheelbarrow began work preparatory to building the temple have the members of the Holy Ghost and Us colony been so discouraged and without resources as they are at the present time. People are reported to be leaving continually and it is further stated that some of the leaders would leave if they had the courage or had some other place to which they could go.

Among those whom the Express representative was told had left are a Mrs. Adamson and her family of five children. They have taken a small farm and will try to get a living from it without the husband and father, who would not leave.

"That the people are discouraged is evidenced in many ways. They did no extensive planting on any of the farms this spring, cultivating only small gardens. The informant stated that all of the cows and oxen have been sold and only a few old horses kept for driving purposes, remain. This man was told within a short time that the only food the followers of Sandford on the hill had were potatoes and cattle beets. Only a short time ago a meat dealer called Shiloh by telephone and told them he could give them a good trade in meat, but in reply was told that there was not a cent in the safe when it was opened that morning.

In Need of Money

"The informant stated that soon after the Kingdom arrived at South Freeport from Palestine that Mr. Sandford was in great need of money and wanted $500. When he asked how this was raised he was told the town of Durham had just paid the Shiloh school teachers, and this money went to Sandford. The postmaster's salary, he was told, also went the same way. The town of Durham is in the hands of Sandford. The man claims that they elect officers who will hire teachers from Shiloh and their salaries go to support Sandford. The postoffice at Shiloh is in a farm near the Hilltop temple, and the people in that part of Durham have their mail sent there. The office is run as any fourth class postoffice but all the income is said to go to Sandford, for the postmaster is a member of the Shiloh colony.

"The report is current that Holland, styled 'Moses' by Sandford, is still at Shiloh but that he has been deposed by the head of the movement, 'Elijah' and other men are in charge. The condition without money and with the glaring prospect of no crops is said to have struck terror in the hearts of many in the colony. The people are evidently losing their courage and even getting distrustful of Sandford. This man predicts the fall of Shiloh within a short time, unless Sandford gets money very soon and it is not apparent where he is to get it. It looks as though the self-styled 'Elijah' had got to the end of his rope."

SPOKANE BUSINESS MEN VISIT NELSON

Two Days' Excursion Planned by Spokane Chamber of Commerce—To Attend Congress

SPOKANE, Aug. 1—A two days' excursion to Nelson is planned for Aug. 25 and 26 by the Spokane chamber of commerce.

Heemer's band will accompany the excursion. Most of the small towns along the road have parks near the station and the excursionists will stop.

Nelson, B.C. will come in for special attention. It is expected that from 1000 to 1500 delegates from that part will attend the dry farming congress and the excursionists will advertise the congress. The night will be spent at Nelson, the Nelson board of trade acting as host.

DOCTOR MURDERED ON EVE OF HIS WEDDING

PITTSBURG, Aug. 1—Dr. George Murray Stewart, one of the most prominent young physicians of the fashionable east Liberty district was found in his apartments tonight shot dead. Beside his body lay that of Edna Wallace, a middle aged woman. A bullet hole through her right temple was apparently self inflicted after she had shot and killed the doctor. A revolver lying by the woman's side strengthened the police in this theory. The double killing comes almost on the eve of Dr. Stewart's marriage to a Virginia girl. The Wallace woman was proprietress of a house at No. 112 Lambert street and the police believe jealousy of the doctor's coming marriage prompted the double tragedy.

August Clean-Up!

Sale of Remnants and Oddments

This week we should like to make a clean sweep of all the odds and ends of summer goods that are left over from the Red Mark Sale.

As we go through the shelves we find numerous remnants of various summer materials, odd sizes in underwear, etc., all of which we are marking down exceptionally low to get rid of them.

We haven't the space to mention half the grand bargains we can offer you, so would respectfully suggest that you come and look round. Yours may be the very size that is over. Ask and see.

PRESIDENT TAFT WAS FIRST MEMBER

Conservation Association of United States to Hold National Congress in St. Paul

ST. PAUL, Aug. 1—An interesting fight on President William H. Taft's connection with the conservation movement develops in the fact that the records of the National Conservation association show that he is the original member, having joined before President Gifford Pinchot took office and while the venerable President Charles W. Eliot of Harvard was at its head. He has continuously maintained his membership and in point of the duration of his relation to the association, is a pioneer. Officers of the association feel that this connection will serve to persuade the president to make unusual efforts to so arrange his time as to be present in St. Paul during the coming congress and in the northwest there is especial interest in the prospect of an address from the first member and one of the original conservationists.

Commenting on the slight confusion of some of the delegates already appointed as to the fields of work of the conservation association and the conservation congress, Secretary Shipp of the association, who is also executive secretary of the congress, said:

Membership of 50,000

"The association is a permanent organization, having a membership of nearly 50,000 scattered through all of the different states. Gifford Pinchot, former chief forester, is its official head. It is organized along lines similar to those of most general associations and deals with conservation questions in their broad relations and as they affect the states, although purely state questions are within the purview of the various commissions.

Conservation Congress

"The conservation congress is differently organized, having a membership of only such delegates as attend, but no permanent or fixed members. Its sessions are arranged by an executive committee, representing the association and the congress and its annual sessions are open to all who come, irrespective of membership in the national association. The two organizations are separate and distinct, the congress being the annual meeting of men interested in conservation and the association being an organization of men who are members and maintain a permanent relationship. At the head of the congress is President Bernard N. Baker. The conservation movement therefore has two official heads, President Pinchot of the association and President Baker of the congress, each fulfilling separate and distinct duties."

15,000 Delegates

The local board of managers is laying plans for an attendance of 15,000 delegates at the five day September conference. So great is the flood of acceptances from the invitations sent out a month ago that plans are already being laid to entertain one of the largest assemblages either St. Paul or Minneapolis has ever known. Committees have been named to prepare in advance for suitable hotel accommodations and information bureaus and other special features will be provided in anticipation of an attendance which will fill the two cities to overflowing.

KING GEORGE V. COINAGE

Canada and Britain Will Issue New Coins Next Year at the Same Time.

OTTAWA, Aug. 1—There will be no issue of a new coinage bearing the effigy of King George V. until January. The mint will continue the coinage with the present die until the end of the year. The new dies are being designed in England. Canada and England are expected to have the first coins of the new reign simultaneously.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists and dealers.

Minard's Liniment Cures Rheumatism

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson division of West Kootenay district.

(a) The name, address and occupation of the applicant is William Johnston, P.O. box 13, Nelson, B.C., machinist.

(b) The name of the lake, stream or source: Ward Creek.

(c) The point of diversion: About 20 feet below G.N.R. track.

(d) The quantity of water applied for (in cubic feet per second) .006 per second.

(e) The character of the proposed works: Open ditch at present in use, to be piped within one year from date of license.

(f) The premises on which the water is to be used: South half of Lot 225, subdivision of Lot 304, Group 1, Kootenay district.

(g) The purposes for which the water is to be used: Irrigation.

(h) If for irrigation describe the land intended to be irrigated, giving acreage: South half of Lot No. 225, about one acre.

(i) This notice was posted on the 30th day of July, 1910, and application will be made to the Commissioner on the 1st day of September, 1910.

(j) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: C.P.R. lands and road reserved between G. N. railway track and Cottonwood Creek.

WILLIAM JOHNSTON,
P.O. Box 13, Nelson, B.C.

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

Companies Act.
(July 1st, 1910.)

CANADA:
Province of British Columbia.
No. 7A (1910.)

THIS IS TO CERTIFY that Sanderson, Limited, is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the Legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the city of Toronto, in the province of Ontario.

The head office of the Company in this province is situate at the city of Nelson, and James O'Shea, solicitor of Nelson aforesaid, whose address is Nelson, aforesaid, is the attorney for the Company.

The amount of the capital of the Company is Fifty Thousand Dollars, divided into Five Hundred shares.

Given under my hand and Seal of Office at Victoria, Province of British Columbia, this fourteenth day of July, one thousand nine hundred and ten.
[L.S.]

J. F. McLEOD,
Acting Registrar of Joint-Stock Companies.

The objects for which this Company has been established and licensed are: To manufacture, buy, sell and deal in all kinds or lines of drygoods, neckwear, fancy goods and children's clothes, and to engage in any other business which may seem to the Company capable of being conveniently carried on in connection therewith or calculated directly or indirectly to render profitable or enhance the value of the Company's property or rights for the time being.

REWARD OFFERED.

GEORGE WILLIAM PRIEST,
Nelson, B.C.

LAND REGISTRY ACT.

Take notice that an application has been made to register Edward Peters as the owner in fee simple, under two Tax Sale Deeds from the Deputy Collector of the Assessment District of Nelson, to Edward Peters, bearing date respectively the 28th day of April, A.D., 1910, of all and singular those certain parcels or tracts of land and premises situate, lying and being in the Kootenay District in the Province of British Columbia, more particularly known and described as Lots seven thousand and seventy-two (7072) and seven thousand and seventy-three (7073), Group one (1), known as "Billy Quarts and "Rover" mineral claims respectively.

You and those claiming through or under you, and all persons claiming any interest in the said land by virtue of any unregistered instrument; and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within 40 days from the date of the first publication hereof, and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Edward Peters as owner thereof in fee.

Dated at the Land Registry Office, Nelson, Province of British Columbia, this 21st day of May, A.D. 1910.

SAML. R. ROSS,
District Registrar.

To the heirs of F. B. H. Bonier, deceased, and all whom it may concern.

NELSON NEWS OF THE DAY

(Additional local news notes on page 8.)

Joseph Tyler of Nelson enjoyed a swim across the lake on Sunday.

Born, on July 30, to the wife of John H. Matheson, Victoria street, a son.

Born, on July 30, to the wife of J. A. Armstrong, Hall street, a daughter.

Miss Olga B. MacKay returned on Saturday from a six weeks' visit to the coast.

An excursion to Proctor, under the auspices of the Methodist young men, will take place tomorrow.

Kootenay lodge No. 16, I.O.O.F., will hold their second annual excursion to Proctor on Wednesday, Aug. 10.

Mrs. Hugh Ross wishes to thank the Hudson Bay Insurance company, through their agent, G. A. Hunter, for so kindly and promptly forwarding her the check for insurance, covering all damages to furniture during the recent fire.

Born, on Aug. 1, at the Kootenay Lake General hospital, to the wife of Hellelt Jackson, a daughter.

John McGarvey, the well known rancher of Rosebud, came into the city yesterday, returning the same day, on the Kuskanook.

Miss Louise Gilchrist, of the postoffice staff, leaves this morning for Spokane on an extended visit with friends there.

Melville Nelson, bookkeeper for the Blue Bell mine, came in on Saturday from Rosebud. He returned yesterday afternoon on the Kokanee.

R. Lawrence of the International correspondence schools, has returned from the boundary, and will be in town for the next ten days.

H. Newitt leaves this morning for Sheep Creek. He came in on Friday to play baseball for Nelson on Monday, but the Cranbrook team failed to appear.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all druggists and dealers.

I want agents in surrounding towns to represent the Nelson Steam Laundry. Paul Nipou, proprietor. 26-tf.

A fast launch to Ferndale from Astley or Elford's landing every fine Sunday. Morning trip at 9 o'clock, afternoon 2 and 3.30 o'clock; last return trip leave Ferndale at 7 p.m.

The Royal Hotel luncheons and evening dinners at 25 cents cannot be excelled. Try them and be convinced.

Lindsay's large fleet of launches are for hire by the hour or day at reasonable price. The Dauntless, Matchless and Fearless are in charge of capable men. The Restless, Peerless and Wireless are for parties to run themselves. For prices and further particulars call phone 418 or Lindsay's boat house. 30-tf.

JOHN BURNS AND SON BUY GILLETT BUSINESS

John Burns & Son, 708-710-712 Vernon street, wishes to announce to the public that they have bought the business and good will of W. G. Gillett, contractor and builder, and will carry on the combined business under the name of John Burns & Son. We have the largest sash and door factory in the interior and hope by strict attention to orders to be able to secure your work. A full stock of building material, brick, lime and cement always on hand. When wanting estimates give us a call. If you can't come, phone 178 or write to box 138, Nelson, B.C.

SPORTING NEWS

Lacrosse Match With Rossland Tomorrow—Yesterday's Match Failed to Materialize

A successful lacrosse practice was held yesterday evening at the recreation grounds. There was a large turnout. Under the careful coaching of Manager Hawkins during the past week the team has become fast and skilful.

The Nelson boys will play Rossland in this city on Aug. 3 and the Nelson team will line up as follows: Goal, McAlam; point, Manhart; cover, Greyerbehl; 1st defence, Lacey; 2nd defence, Ball; 3rd defence, Nagle; centre, Nute; 3rd home, Ferguson; 2nd home, F. Miller; 1st home, Newburne; outside home McKinnon; inside home, T. Cummins.

There will be no practice tonight as Manager Hawkins wishes his team to have a good rest before the big game on Wednesday.

Failed to Appear

The Cranbrook baseball team failed to appear yesterday and the much talked of game has been indefinitely postponed. Manager W. R. McLean received no word of the change of plan of the Cranbrook team and when the Cranbrook boys failed to arrive it was a great surprise. It was found out later that the Cranbrook boys had gone to Northport. There will be a baseball practice tonight. All those interested in baseball are requested to be present.

Cricketers Lineup

The cricketers football team will line up as follows on Wednesday in their game with the Nelson city team: Goal, Hers Edwards; backs, W. Rhead, L. Wilkinson; half backs, S. Wilkinson, Williamson, E. Pounder; forwards, Marsden, A. Bartholomew and B. Hyde.

Track Club Practice

The Y.M.C.A. track and field club held a practice at the recreation ground last night indulging in jumping and running. F. A. Cummins, D. Fish, B. W. Lake, R. Blanchard, T. Padden and J. Little ran a 100 yard dash. Cummins was the winner, covering the distance in 12 seconds. Fish was a close second. A full turnout of the Y.M.C.A. track and field club is expected next Thursday at 7 o'clock. Members are requested to meet at the fair buildings.

Receive Their Cups.

R. M. Palmer, G. Beaston, S. Newitt and D. Hartis have each received a cup for winning the mid-summer fours at the Dominion day regatta on July 1. The cups were donated by the Boat club and are engraved with the names of the crew and the date. The cups arrived from the east yesterday.

Football Match.

The following players will represent the Nelson Football club in the football match with the Nelson cricketers tomorrow evening at 6:45 o'clock: Goal Nute; fullbacks, H. Harper, J. Holland; halfs, Fish, Ritchie, Brochan; forwards, McAndrew, Snedden, Hampton, Bennett, Ramsden. Williamson and Rhead are playing for the cricketers, Fish and Brechan taking their place on the halfback line. After the game, a meeting will be held at the Burtlett house at which important business will be transacted. All players are asked to be on the field early so the game can be finished before dark.

Cricket in England.

No one could fail to be satisfied with the doings of the Zingari in England this summer. To have defeated such redoubtable teams as the Gentlemen of Surrey and the Gentlemen of Sussex is decidedly a big feather in their caps. The latest victory—that against Mitcham is, of course, unimportant, and it certainly seems odd that the Zingari fixture card should contain the names of two such widely different clubs in point of merit as the Gentlemen of Surrey, and the Town of Mitcham, which is also in Surrey.

It seems a pity, on the face of their form, that the Canadians are only playing amateurs. Against such redoubtable teams as the M.C.C., or Yorkshire, or Lancashire, they would have a real chance to show their international merit. The day is not far distant when Canada will play a picked eleven of the Mother country's best talent. At present she is only feeling her ground, so to speak.

A. O. Jones, the redoubtable captain of Notts, has probably seen as much county and test cricket as any man living in England today, if we except Archie Maclaren. He is a formidable antagonist with the ball, and combines with a picturesque and attractive long hop the faculty of placing the field to his very best advantage. As a batsman, too, A. O. shines. He has a peculiar twist of the arm which sends a yorker on what Ranjitsinghi once called the "Snake Glide," and this form of making runs appeals specially to him. When he sees fit, however, he can serve out as pretty a boundary swipe as any batsman living.

Everyone who takes an interest in English county cricket is bound to admire the steadfast and sure way in which Kent sets out, each year, to win the championship. A famous English critic, when questioned as to which, in his opinion, was the most sportsmanlike county, replied without hesitation: "It's a toss-up between Kent and Yorkshire." And it is a curious fact that these two counties, Kent and Yorkshire, have headed the championship table oftener than any other.

Cricketers everywhere are commiserating with plucky little Somerset in the tangle in which it finds itself. For a long time it was known that the state of the club's finances was very low, but until recently there had been none but whispered talk of relegation to the second division because the committee cannot meet its huge liabilities. Somerset is not a very strong county, and this disaster threatens to put the cap on any display by the eleven of real bright cricket, but it was generally able to keep its end up and in normal times has defeated all the foremost counties. It has been in the first division of English county cricket for more than twenty years, and to have to retire now seems more than hard.

FOR SALE

There has been placed in our hands for sale, 160 acres of fruit land in the Creston district, along the Canadian Pacific railway, and government wagon road. The land is about two and a half miles west of Kitchener, and is surrounded by improved ranches and fruit farms. There is about 60 per cent of the land level, and free from stone, the balance rolling hills. The soil is a sandy loam with clay sub-soil, and abundance of water.

Price, $40 per acre. Very reasonable terms. This is an ideal block for subdividing.

FOR SALE IN HUME ADDITION

Four-roomed house, newly painted and papered inside, basement full size of house, four lots cleared and fenced, bearing fruit trees and small fruits, chicken house 12 x8, city water in house, and creek running beside property. Fifteen minutes' walk from postoffice. Price $800, $300 cash, balance $25 per month.

WE WANT AN OFFER

For 76 acres of fruit land, situated along the Slocan river, adjoining Winlaw. This tract is sub-divided in three 20-acre blocks, and one 16-acre block, with small clearing, and 35 bearing trees. There is plenty of water available, and the land easy to clear. Close to depot, school, and postoffice. We will sell this en bloc or sub-divisions.

For particulars, inquire of

TRY THE MONEY-BACK CURE FOR INDIGESTION

Nine times in ten stomach derangements are responsible for sallow complexion, dull eyes and thin body.

It is the stomach that supplies nourishing blood to the muscles, the nerves and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and undigested, will pass through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heavyiness after eating, or any other miserable stomach disturbance, you need Mi-o-na, and the sooner you get it the quicker you will be healthier and happier.

It will relieve any distressed stomach condition almost immediately. It will cure if used according to directions. The Poole Drug company sell it for 50 cents a large box, and he thinks enough of it to guarantee it to cure indigestion.

HYOMEI
(PRONOUNCED HIGH-O-ME)

THE BEST HEADACHE REMEDY.

is Mathieu's Nervine Powders." Prompt and Safe. Do not create a habit. Sold by dealers, box of 12 powders 25c. If yours cannot supply you, take for immediate use some so called "just as good article" but send us 25c and we will mail you a box to use next time your head aches. A trial will convince of their worth. J. L. Mathieu Co., Prop., Sherbrooke, P.Q.

CENSUS OF FOREST PRODUCTS

The census of the forest products of Canada, to be taken on 1st June, 1911, will embrace square, waney or flat timber, logs for lumber and miscellaneous products.

In the first class are included ash, birch, elm, maple, oak, pine and all other timber cut as square, waney or flat, and in the enumeration will be reported for cubic feet and value.

Logs for lumber, which are included in the second class, are in such woods as elm, hickory, hemlock, oak, pine and spruce. They will be enumerated in the census by quantities of 1000 feet board measure, with value in the same unit.

Miscellaneous products of the forest include bark for tanning, fence posts, fire wood, hoop and hop poles, masts and spars, piling, pot and pearl ashes, railroad ties, staves, stave-bolts and heading, telegraph poles (including telephone and other poles for electric wires), wood for pulp and the furs and skins of forest animals undressed and they will enumerated by number or quantity and value.

The census of forest products will be taken chiefly from farmers and the lessees of timber limits.

NELSON NEWS OF THE DAY

(Additional local news notes on page 1.)

A band practice was held yesterday evening.

His honor, Judge Forin, left last night for Revelstoke, to hold county court.

Yesterday's average temperature was 66, the thermometer ranging from 50 to 73 degrees fahrenheit.

A new sidewalk has been built, adjoining the Nelson Iron Works, on Hall street, opposite A. Macdonald's.

The regular meeting of Queen City Rebekah lodge No. 36, I.O.O.F., takes place this evening at 8 o'clock, in the lodge room.

Died, at Victoria, B.C., on Sunday, July 31, Mrs. Alexander Martin, eldest daughter of Mrs. W. Kerr of this city, and sister of Mrs. D. J. Robertson.

Miss Gladys Foote returned yesterday morning from Mirror Lake, where she has been the guest of Miss Ray Wilson, daughter of W. Wilson, of this city.

Pupils who passed the examinations in Nelson for entrance to the high school can get their certificates on calling at the office of Dr. Arthur, secretary of the school board.

The Boy Scouts who are camping at Busk's ranch, are learning General Baden-Powell instructions under the tuition of S. A. Kelly. The boys number 36, and have a good sized tent for running quarters.

From now on, until the date of the Nelson fruit fair, Sept. 28, 29 and 30, the fair board will meet weekly. This week's meeting will be held this evening at 8 o'clock, in the office of the secretary, George Horstead.

F. G. Poulton, chief engineer and manager of the Nelson Street Railway company, is overhauling the overhead gear of the old line. He has finished the overhauling from Stanley street to the end of Baker. Mr. Poulton will be delayed for some time owing to the non-arrival of a case of overhead gear which was shipped from Toronto on July 12. The cause of the delay is the strike on the Grand Trunk railway.

The Kootenay Jam Company, Limited, yesterday despatched a carload of jam to Calgary, which was made up entirely of this season's strawberries, there being 400 cases of this preserve alone in the car. This is the largest individual shipment of one variety yet made by the company, and is interesting as proving that strawberry jam, and especially that made from the Kootenay berries, is the first favorite all the time.

W. B. Lanigan, assistant freight traffic manager of the C.P.R., and party, arrived from Proctor last evening. He was accompanied by W. R. Haldane, general freight agent for this district. It is understood that Mr. Lanigan will probably confer today with the board of trade railway committee.

Before his honor, Judge Forin, in chambers yesterday, in the cases of Hamilton v. Church and Hamilton v. the Violin Lake Lumber company, A. M. Johnson, for the plaintiff, moved for leave to enter final judgment; James O'Shea contra. He reserved or referred the cases to the Rossland registrar, to take accounts.

Three boys had some trouble with a Chinaman at the alley between the Grand Central and Phil Rahl's blacksmith shop, with the result that they were brought up in court before Stipendiary Magistrate W. H. Bullock Webster yesterday afternoon. One of the boys was fined $5 and costs for assault on a peaceful citizen.

Sunset's excursion. Wednesday, Aug. 2, 1.45 p.m. and 7 p.m., to Proctor and return. Adults 75 cents, others 50 cents. Music on board. Come. 32-3

ADDITIONAL SPORT

Breaking Altitude Records.

BRUSSELS, Aug. 1—New altitude records are becoming an every day occurrence here. The aeroplanist Tick today reached a height 1700 metres (5570 feet). On Saturday, Olie Stagers made a flight to a height of 1524 metres (4921 feet) in a monoplane.

Aeroplane Kills Boy.

SUNDERLAND, Eng., Aug. 1—While making a flight at the Boulonga race course tonight, Mlle Frank's biplane overturned and crashed into a crowd of spectators, killing a boy. Mlle. Frank, was dangerously injured.

Pugilist Dying.

PRESCOTT, Ariz., Aug. 1—Realizing that a fatal illness is fast cutting his life short and longing to see his children and mother before he dies, Joe Gans, the noted negro pugilist former lightweight champion and one of the wonders of the prize ring left here tonight for his old home in Baltimore, Md. Gans is in a weakened condition from consumption and it is doubtful if he can survive the journey home.

Chess Match.

HAMBURG, Aug. 1—Frank J. Marshall, the American champion, drew with Duras today in the 12th round of the international chess tournament. The leaders' scores: Schlechter, won 9; Niemzowitsch, 8 1-2; Duras and Marshall, 7; Spielmann, 6 1-2; Chotimirskki and Teichmann, 6.

THE SEMAPHORE CIGAR STORE AND BILLIARD PARLORS

To make room for new stock, we are compelled to sacrifice while they last Semaphore Specials and Lamorillas, three for 25 cents or $2.75 per box. Our specialty this week Rolled Havanas. Something new. Just out. Give them a trial.

BRITISH COLUMBIA'S WELCOME TO SIR WILFRID LAURIER

Halifax Chronicle (Liberal): Sir Wilfrid Laurier has received many enthusiastic and hearty welcomes during his tour of the west, but the welcome which awaits him in Victoria is expected to eclipse them all. In fact, the reception which has been planned in that city for the prime minister promises to be unique in the history of Canada. It is fixed for the evening of Aug. 11, when the parliament buildings will be brilliantly illuminated and a general celebration in the prime minister's honor will take place on the parliament grounds.

The Victoria Colonist, the leading Conservative newspaper in British Columbia, speaks of the coming welcome in that province to Sir Wilfrid as a notable event, and it expresses the greatest satisfaction that the invitation tendered to the prime minister by Premier McBride, on behalf of the people of British Columbia, has been accepted by Sir Wilfrid.

It commends this welcome, not, of course, as an invitation to a political leader from some of those who sympathize with his policy, but as a welcome of the province, as a province, to the distinguished gentleman who for 14 years has been first minister of the crown in Canada. This graceful act on the part of Premier McBride exemplifies, as nothing else better could, the large place which Sir Wilfrid Laurier fills in the life of the Dominion, and it is quite fitting, even if somewhat unusual, that the welcome of the whole province on the western coast should be officially tendered to him by a premier who is an opponent in politics.

Premier McBride is a skillful politician, and we dare say he has not lost sight of the prospective advantage in honoring the chieftain of the Liberal party. But, however that may be, his act loses nothing in graciousness and chivalry. Canadians everywhere, Liberals and Conservatives, will take it as a generous and kindly thought on the part of the premier of British Columbia and will rejoice in the honor which is paid to the first minister of the Dominion.

BODY MAY BE FOUND IN DEAD MAN'S EDDY

(Special to The Daily News.)

WANETA, Aug. 1.—In spite of search by residents along the Pend d'Oreille river, the body of the young man, Thornberg, of Trail, has not been recovered. It is thought likely that, as the water is still fairly high, the body has been carried into the Columbia and may be found in Dead Man's eddy, just above Northport.

Harold Reith is here on a visit from Lacombe, Alta.

Fred Adie, fruit pest inspector, has returned from an official visit to Trail.

Inspecting Road Work.

George M. Bennie, district superintendent, was here last week inspecting the government road work. Mr. Bennie is carefully inspecting the grading and general direction of the present improvements in anticipation of the main valley road being one day a part of the transprovincial wagon road.

William Roth, having finished hay making here, has gone to look after the crop at his Champion creek ranch.

A. E. Churches is shipping green apples to Nelson.

Good Hay Crop.

The dry spell did not come early enough to affect the hay crop which, generally through the valley, is up to the average.

A. G. Lang has the first sweet corn ready for the table.

A forest fire, which started on the United States side of the boundary line, has crossed over and is now burning in the green timber on Fish creek and at the head of Russian creek.

W. Davy has arrived from London, England, and intends to take up farming in the valley.

LOOKING FOR WESTERN IDEAS

WASHINGTON, Aug. 1 — China is looking for western ideas for her navy. In September his imperial highness Prince Tsai Naun and Admiral Sah, the imperial naval commissioners, will arrive in the United States to study naval affairs. The royal party will sail on the steamer Manchuria on Aug. 24.

For Rent
