POOR BARGAIN

Waterways Treaty is Little Good to Canada

LOSS OF ST. MARY'S RIVER

WESTERN MEMBER DENOUNCES UNFORTUNATE COMPACT— HE SAYS CORPORATION RATHER THAN PUBLIC INTERESTS HAVE BEEN CONSULTED.

(Western Associated Press.)

OTTAWA, May 14 — There was a long discussion today over the waterways treaty.

C. A. Magrath, Alberta, conservative, introduced the subject and sir Wilfrid Laurier stated that had the United States senate amendment not been attached to the treaty it would probably have been ratified before this but in view of the rider they should look carefully into the matter before making up their minds.

Mr. Magrath dealt with the controversy over the St. Mary's and Milk rivers in Alberta. The former which is much the larger rises in Montana, flows into Canada and discharges into Hudson's bay. The Milk river rises in Montana and discharges into the Mississippi, but has a loop about 200 miles long in Alberta. A Canadian company has been using the St. Mary's river since 1897 and has made an appropriation against the stream under the Canadian law up to 2000 cubic feet per second. Canada has about 500,000 acres that can be irrigated by this stream. The Americans took up irrigation schemes several years later and to serve a tract of 200,000 acres a long distance off, proposed to divert the waters of St. Mary's river. The waterways treaty has given Canada prior right to only 500 cubic feet per second and the water in the stream is to be equally divided between the two countries.

"Canada is to give up a portion of the water that has been appropriated under its law not for the purpose of protecting vested rights in the United States, but to create rights that do not exist. And there is suggested a division of the waters at Niagara," Mr. Magrath added. "The recommendations of the joint commission were made on a basis practically of honoring the commitments against the stream in favor of operating companies. Even in the treaty itself there is enunciated the principle of fully protecting vested rights."

Complaints of ill treatment on the Pacific section of the Grand Trunk Pacific are provided in correspondence presented to the House of Commons by the minister of labor to be due to labor organizer Daly, who, according to letter from General Manager Chamberlain, "is trying to make all the trouble he can."

The complaints were first that the men on the Pacific section were ill fed and ill treated and secondly that they were mulcted to an unnecessary amount of hospital money. As to this Mr. Chamberlain says that the contractor was giving as good a medical service as does the railway itself, but the best proof of the success of the hospital service on the Prince Rupert section is that the health of the men has been generally good, and that there have been very few cases of typhoid. The record shows that in 1908 there were twenty six deaths among the men on that section in a force which ranged from 3400 to 4500.

A report that the G. T. P. is using alien labor is dispelled by the report of Chief Engineer Kelliher who states that neither the G. T. P. nor any of its contractors ever employed foreign labor. During the years 1907 and 1908 the G. T. P. materially assisted several thousand men in Great Britain to come to Canada at a time when its construction work was completely demoralized for want of labor. Foreign labor was never invited by the railway company or its contractors.

STEALING BY ACCIDENT

American Captain, Caught in the Act, Offers Thin Story

WASHINGTON, May 14—The American consul general at Vancouver has tried to obtain the release on the payment of a small fine of the fishing schooner Levi Woodbury seized by the Canadian government for alleged illegal fishing within the three mile limit between the Haycock Island last month The consul, it is understood, satisfied himself that there was no wilful attempt to catch fish illegally.

The schooner, it is understood, had drifted within the prescribed limits in a northwest wind and heavy sea. Discovering the situation the captain started to pick up his dories and, it is asserted, did not hear the signals of the government boat to heave to.

ABDUL PAYS BILL.

Late Sultan's Ward Will Pay Cost of Deposition

CONSTANTINOPLE, May 14—The chamber of deputies, by a vote of 121 to 34 at a secret sitting today approved the Turko-Bulgarian protocol settling all claims through the proclamation of Bulgaria's independence.

The sultan has accepted the honorary presidency of the Armenian relief committee of Adana.

The minister of finance has decided that the cash found in the imperial palace of Yildiz, the residence of Abdul Hamid, amounting to nearly $8,000,000 shall be used in meeting the expenditures incurred by the mobilization of the first and second army corps and the march to Constantinople to restore constitutional government.

EZEROUN, Asiatic Turkey, May 14—Five leaders of the mutiny have been arrested on orders issued by Field Marshal Ibraham Pasha, commander of the fourth army corps. There is great uneasiness in this city over the threatening attitude of the garrison which has refused to obey the captain and 52 officers belonging to the Young Turk party.

CROWD OF APPLICANTS

SALE OF PRINCE RUPERT LOTS MAY NOT LAST LONG

VANCOUVER IS ALREADY FULL OF INTRUDING BUYERS

VANCOUVER, May 14—An increase of nearly 50 per cent in the passenger traffic over the city lines of the British Columbia Electric railway company within the year was shown this morning when the company computed the percentage due to the city for the business for April, according to the agreement covering the tram franchise within the limits. The amount of the check is $1820.69, which is to be compared with $1371.45, the amount for the corresponding month of last year. For the four months of the present year the tram percentages paid the city amount to $5,570.38, which represents an approximate increase of 23 1-3 per cent over the payments of $4,138.03 for the corresponding months of last year.

The auction sale of Prince Rupert townsite property, which will take place in Vancouver from May 25 to 29, is attracting people from all parts of the Pacific coast from Alaska to Mexico and from the middle west to the east. Judging by the number of strangers who are continually thronging the offices of C. D. Rand, agent for the government and the Grand Trunk railway in the sale, there must already be hundreds of outsiders in Vancouver who intend to invest during the sale, several hundred more are at Prince Rupert looking over the ground and within the next ten days Vancouver hotels will be full of people who intend to be among the first holders of Prince Rupert lots.

"If the sale were delayed for another month all the hotels in Vancouver would not accommodate the crowd which is coming from all parts of the country to take advantage of this opportunity for gilt edged investment," declared Mr. Rand today, in an aside as he emerged for a moment from the scrimmage of men seeking information about Prince Rupert at his office.

"It is that way all day long nowadays,' continued Mr. Rand with a wave of his hand at the crowd. "They even arrive here before the office opens for business in the morning. Thousands of inquiries are being received from all sections of the country and I very much doubt if the sale will last through till Saturday, the 29th. I would not be surprised to see all the lots offered sold out before that day."

J. M. Mackinnon has sold 70 timber sections at the head of Rivers Inlet and on Queen Charlotte Island to Thomas Meredith of New Westminster and R. W. Gibson of Victoria for $250,000. There is a large amount of fir on the limits and the total timber is estimated at a billion and a quarter feet. Mills will be erected. The deal was all cash.

The Vancouver Power company has given the contract for the enlarging of the tunnel between lakes Coquitlam and Buntzen to the firm of Naylor Bros. of Huddersfield, England. The steadily increasing demand for power in Vancouver and vicinity necessitates The new unit which will give another 30,000 horse power. It will cost $100,000.

Trade Agent to Japan

VICTORIA, May 14—The steamer Empress of Japan which sailed for Hongkong and way ports tonight had among her passengers S. G. A. Harris, of Vernon, B. C., appointed trade agent to Japan to replace W. T. H. Preston, transferred to Holland. The wreck of the four masted schooner Sequel and the sails and other salvage recovered from the wreck are being offered for sale by the collector of customs.

The day's proceedings in Victoria to welcome the Japanese cruisers closed tonight near midnight with one of the strangest parades ever seen in Victoria. Four hundred blue jackets from the Japanese warships marched arm-in-arm with the British blue jackets from the Esquimalt station and soldiers from the local garrison to the drill hall where a smoking concert was held following the reception given to admiral Ijichi and the officers and cadets by the Japanese colony. The reception by the militia at the drill hall was a most enthusiastic one.

Flying Machine Company

BERLIN, May 13—The Wright Brothers Flying Machine Company, Limited, has been organized with a capital of $125,000. It will construct and operate aeroplanes of the Wright system. The Wright brothers placed at the disposal of the company all the results of their experiments and the rights, whether patented or not, for the German empire and its colonies and protectorates as well as for Sweden, Denmark, Luxemburg and Turkey, the arrangements to cover a period of fifteen years, during which the company is entitled to use all the experiments discovered.

FIND NEW VEIN

Important Discovery Made in Centre Star

BIG VALUES ARE IN SIGHT

ROSELAND MINES OF CANADIAN CONSOLIDATED CO. HAVE IMMENSE ORE BODIES STILL TO WORK—VALUES INCREASING WITH DEPTH.

ROSSLAND, May 14—The Canadian Consolidate Mining and Smelting company treated ore at its Trail smelter during the first quarter this year, yielding values of $1,117,000. The refinery produced 4,450 tons of pig lead, and in addition to shipments to Eastern Canada, China and Japan, the company has shipped during April 250 tons to Australia, which is a record shipment of Canadian lead to that country.

In the north vein of the Centre Star mine a new ore body has been uncovered which carries just double the values of the usual run of the mine, while the big ore body in the War Eagle, estimated to contain one million in values, is practically untouched. The net profits of the Centre Star group alone for April were $36,509.

CHURCH PROBLEMS

American Episcopal Church on Modern Theories

BOSTON, May 14—An attempt by so called radicals in the church to have members of the other denominations invited to deliver addresses and take part in the discussions, was defeated today by the general commission in the Episcopal church congress in session here. Although the congress does not represent the Episcopal church in an official capacity, the majority of the commission decided that a decision to admit outside parties might be construed as endorsement of those who believe in allowing the ministers of other denominations to occupy Episcopal pulpits and thus add to the tumult which developed from the passage of the so called open pulpit amendment adopted by the last general convention. At tonight's session at which was discussed the subject of psychotherapy was embodied in the Emmanuel movement was the most largely attended since the present congress opened. Psychotherapy as an aid to pastoral work was defended by Rev. Lyman P. Howell of Northampton and Rev. Samuel Marquis of Detroit. Thomas Darlington, health officer of New York and Rev. Dr. Slattery of Springfield, formerly dean of the cathedral of Our Merciful Saviour, Faribault, Minn., held dissenting opinions. At the early session today the general subject under consideration was "the possible contribution of oriental thought to present day Christianity."

FIGHTING FOR THE WEST

Harriman Roads Building to the Northwest Coast

CHICAGO, May 13—Construction of branch lines which will add over 1000 miles to the Pacific coast extension of the Chicago, Milwaukee & St. Paul railway will soon be undertaken by that road. The territory to be thus invaded has heretofore been controlled absolutely by the Hill lines. The activities of the St. Paul road in the opinion of railroad officials will mean a substantial cut into the traffic now enjoyed by the Northern Pacific and the Great Northern lines.

Surveying parties working in the interests of the Hill, Harriman and St. Paul roads are racing neck and neck through untapped country in the northwest, laying out competitive routes, closely followed by construction gangs in charge of expert engineers in the employ of these roads. Every energy is being bent to have the new lines in operation as soon as possible.

Prohibitionists Keen.

QUEBEC, May 14—It looked for a minute this afternoon as if it would be made a misdemeanor in the province of Quebec for one man to buy a drink for another in a saloon. The legislature had a number of amendments to the license law under consideration, when M. Allen Wright, Girard, introduced one provision that no license holder should accept money from any one person at a bar for more than one drink that the person himself was drinking. One after another member arose and supported the amendment. The provincial treasurer was plainly discomposed at the show of strength but finally he urged that the proposal be left in abeyance until it was seen whether or not public opinion was behind it. This suggestion was carried by a small majority.

Tommy Ryan Comes Back.

SOUTH BEND, Ind., May 14—Word has been received that Tommy Ryan, of Benton Harbor, the former middleweight champion, will again enter the ring and that his first challenge will be to Stanley Ketchell. Ryan is sending word to South Bend stating that he would not be ready to take on a match before October, but by that time would be in excellent condition.

GET THIRTY THOUSAND

COMMITTEE HAVE AMOUNT IN SIGHT FOR Y.M.C.A.

ORGANIZATION MEETING TO BE HELD THIS EVENING

At 9:30 last night $27,830 had been subscribed towards the new Y.M.C.A. building and certain members of the committee guaranteed to secure subscriptions to cover the balance up to $30,000 in a few days. This guarantee was undertaken in view of the fact that there are a number of people who have expressed their interest in the project and have asked time to consider it before naming an amount. Also there are others who wished to give something but could not hand it in by last night.

One unusual subscription reported yesterday was by the telegraph boys who want to attend the educational classes to be conducted in the building. They made up $15 among themselves and that represents more sacrifice than some of the larger ones.

A public meeting is called at the headquarters for tonight at 8 o'clock for the purpose of organizing a Y.M.C.A. and electing a provisional board of trustees. There will be no financial appeal at this meeting so it is hoped the attendance will be large. A program of music will be rendered.

Nelson is to be congratulated that she steps into the class of aggressive cities of the dominion with Y.M.C.A's and it now remains for those who asked time for further consideration to hand in their subscription as soon as possible. The project is a success and much credit is due the committee who have worked so hard to achieve victory.

EMPIRE DAY CONCERT

FIRST PUBLIC FUNCTION IN NEW SCHOOL BUILDING

PUPILS WILL PRESENT PROGRAM OF PATRIOTIC MUSIC

Although the official date of Empire day is May 24th, it has become a settled custom that it shall be observed in the schools of British Columbia on the Friday next preceding that date. The day for school observance this year is Friday, May 21st.

The pupils of the Nelson schools have for several weeks been preparing for a concert to be given chiefly by themselves in the assembly room of then ew public school building the evening of Friday, May 21st.

The concert has been encouraged by the school trustees for many reasons. The main purpose is to impress upon the pupils in a way that cannot be done by text books or by direct teaching, the meaning of the British empire and their own privileges and responsibilities as citizens of it, not with any idea of encouraging militarism or developing a desire for military achievement, but to impress them with a sobering sense of the greatness of their heritage, the sacrifices made by their forefathers to win and defend it and the duty of preparing themselves to take part in the task of guarding and handling it on.

The concert is also to be the first of a series to be held in connection with the schools from time to time to develop the vocal talents of the children and even more to introduce into the school life of Nelson an element of social enjoyment and relaxation for which until lately facilities were entirely lacking.

Also, but only incidentally, it is hoped by the trustees and teachers that such concerts will attract the general public and be the means of raising a fund for completing the furnishing of the school and increasing the attractiveness of the class rooms.

The program of the concert will be furnished in the main by the children themselves in choruses and drills. Local soloists and musicians will assist. There may be one or more very short addresses but oratory will not be a prominent feature. The aim has been to have a musical evening with a preference for patriotic songs and choruses

Victoria Entertains Japanese

VICTORIA, May 14—The Japanese cruisers Asoya and Soya are to remain in Victoria one day longer than was planned, until Tuesday next. Admiral Ijichi and the officers and cadets were entertained tonight at a reception given by the Japanese colony and the blue jackets attended a smoker by the militia at the drill hall. Tomorrow the regatta will be held and the admiral and officers will be the guests of the local naval officers at luncheon.

Condemns Hibernians

DUBLIN, May 14—Cardinal Logue has issued a strong condemnation of certain practices of the Ancient Order of Hibernians' society. He says that in some places the society is a pest and practices cruelty and tyranny on its members indulging in drinking and dancing and compelling people by force to join the order through threats of boycott and even personal violence.

Italy Joins Procession

ROME, May 14—The minister of the admiralty has obtained the approval of the cabinet of a naval programme that provides for the expenditure of $52,800,000 for Dreadnoughts and several fast scout cruisers. A local paper says the decision to build these vessels was reached after Italy had learned that Austria-Hungary was going to spend forty millions on increased naval power

REVISE OATH

Bill to Altar Sovereign's Declaration

ROMAN CATHOLICS' RIGHTS

PROPOSAL TO REMOVE LAST SIGN OF RELIGIOUS INEQUALITY IN LAWS OF BRITAIN PASSES SECOND READING IN HOUSE OF COMMONS.

LONDON, May 14—A comprehensive bill for the removal of Roman Catholic disabilities, providing for an alteration in the accession oath taken by the British sovereign, was introduced by William Redmond in the House of Commons today.

The Roman Catholics never have ceased to inveigh against the insulting references to certain beliefs in the monarch's accession declaration as superstition.

The opposition that hitherto had defeated any effort to alter the oath again showed up today when a petition signed by 400,000 persons against the removal of the Roman Catholic disabilities was handed in just before Mr. Redmond rose.

Mr. Redmond's bill not only removes what is regarded as the objectionable portion of the oath of accession but it repeals the acts prohibiting residence and the acquisition of property by the Jesuits and other monastic orders and abolishes the disqualification which prevents Roman Catholics from filling the offices of Lord Chancellor of Great Britain and Lord Lieutenant of Ireland.

Premier Asquith gave his cordial support to the bill. He declared that the exclusion of Roman Catholics from the Lord Chancellorship and the Lord Lieutenancy was quite unjustifiable on the grounds of logic or policy.

As the bill passed its second reading only by a vote of 153 to 123 there is little probability of its becoming law at the present session. The fact that a majority of the house voted in favor of the measure, however, is regarded as a great victory for the Roman Catholics.

Captain S. Cody, the American whose failures in his experimental aero plane work for the British army, have become a standing joke in the London newspapers, now seems to have at last accomplished success. In the presence of the Prince of Wales he flew for nearly a mile at Aldershot.

Austen Chamberlain declared today that there was no truth in the rumors current in the House of Commons lobbies last night that Joseph Chamberlain, his father, had suffered a relapse.

Madame Lillian Nordica said yesterday that after her marriage with George W. Young, the banker, next spring, she will retire from active professional work.

VISIT QUEEN CHARLOTTE

EXCURSIONISTS REPORT FAVORABLY ON NORTHERN ISLANDS

CADET CORPS REVIEWED—NEWS OF TERMINAL CITY

VANCOUVER, May 14—After a week spent cruising among the Queen Charlotte Islands the steamer Princess Charlotte returned to port this afternoon, bringing back with her the majority of the 100 passengers whom she took up with her. Although the greater part of the week was marred by rain, yet the excursionists report an enjoyable trip and many of them are more than enthusiastic over the land shown them on the islands and the prospects for extensive mineral developments. Many of the passengers returned with more or less empty pocket books and depleted bank accounts, having invested in acreage on the islands, and a number of mineral claims. After viewing the Queen Charlotte townsite a visit was paid to Prince Rupert.

After a trip to Seattle where he made preliminary arrangements in relation to the visit of the Vancouver militia corps to the Alaska-Yukon-Pacific exposition, the commander of the 6th regiment, D.C.O.R., returned to Vancouver yesterday and announced that all doubt as to the visit of Vancouver's citizen soldiers to the big fair is now removed.

His worship the mayor, accompanied by Mrs. Douglas and a party of Vancouver people and visitors to the city, yesterday afternoon reviewed the high school cadets on the Fairview school grounds. A prominent military officer who formed one of the party, complimented Capt. Davey highly on the good work done, stating that the precision shown was remarkable. Mayor Douglas addressed the corps after the drill, stating that if all high schools could produce such a highly trained body of youths the safety of the empire would certainly not be in danger.

The dominion government's survey party engaged for Alaskan boundary survey work, sailed for the north on the Princess Beatrice last night. One of them under H. Mackie of Ottawa, with "Grizzly" Bates as assistant, will disembark at Fort Wrangel and proceed to locate monuments in the valleys of the Stikine and Iskoot rivers at the points where they are crossed by the boundary line. Another party is in charge of N. J. Ogilvie of Ottawa with H. S. Hussell as assistant, and will spend the summer in the region of the eternal snow peaks and glaciers on Endicott Arm. Many thrilling adventures are expected. Its members will leave the steamer at Juneau which also carried Edward Cluan of Ottawa who will act as Canadian representative of an American survey party to be engaged at work in the Unlack district. This party will be in charge of Prof. Leland of Washington. The American government is also dispatching four additional survey parties to mark a portion of the 141st meridian, forming the boundary line from Mount St. Elias to the Arctic ocean. Mr. Cluan will go inland from Ketchikan.

TO GET EASTERN RATES

SPOKANE'S FIGHT MAY SUCCEED IN HALF ITS OBJECT

INTERSTATE COMMERCE COMMISSION REPORT NEARLY READY

(Special to The Daily News.)

WASHINGTON, May 14—Railroad men who are here to discuss the Spokane rates situation with the interstate commerce commission are nearing an agreement on those rates, and it is expected that a definite announcement of those rates or at least a plan of readjustment will be announced tomorrow, the fact that the Hill and Harriman managers have submitted a proposed plan for adjustment of rates in accordance with the commission's decision became known today. None of those interested, however, would indicate what the plan is or give any information about it. The situation is clearing, however, and tonight indications are that there will be no contest except the decision of the commission and govern themselves accordingly. The railroad men spent the entire day at the interstate commerce commission interviewing members singly, with long conferences with commissioners Prouty and Lane at which the proposed plan for readjustment of rates was fully explained.

Positive statements were made today that rates both ways between Spokane and Portland and Spokane and Puget Sound points would remain as at present. The commission has no authority to order any changes in those rates at present.

BRITAIN EASILY FIRST

United Kingdom Leads World in Both Imports and Exports

WASHINGTON, May 14—A new record for the international commerce of the world was established in 1907, according to the statistical abstract of the United States prepared by the bureau of statistics of the department of commerce and labor. This abstract puts the total exports of the various countries and colonies of the world in that year at $14,000,000,000 and the imports at $16,000,000,000. Ten countries contributed more than two thirds of the total. On the export side the United Kingdom headed the list with $2,073,000,000, the United States coming next with $1,835,000,000, Germany next with $1,629,000,000, and France fourth with $1,080,000,000. On the import side the United Kingdom again headed the list with $3,143,000,000, Germany coming second with $2,082,000,000, France third with $1,301,000,000 and the United States fourth with $1,194,000,000. Practically two-thirds of the total of international trade is accredited to Europe. In the year under consideration, Canada took 588 per cent. of her imports from the United States.

Kaisers Meeting

VIENNA, May 14—The German Emperor, accompanied by the empress, reached Vienna from Pola where they arrived in the imperial yacht yesterday and were given a hearty and elaborate public welcome. Emperor Francis Joseph and all the Austrian archdukes and archduchesses met their majesties at the southern railway station. The greetings between the two monarchs was exceptionally cordial as was also the ovation accorded them by the immense crowds that had gathered on the streets through which the visitors drove in an open carriage.

Germany Accepts

BERLIN, May 14—The Reichstag today passed the first and second readings of the patents and trade marks agreements between Germany and the United States. The vote was a unanimous one and there was little discussion on the subject. The patent agreement between Germany and the United States was signed at Washington February 23rd, by Secretary of State Bacon and Count Bernstorff, the German ambassador, and was ratified by the United States.

It Was a Dream

CARACAS, May 14—There is nothing in the records to substantiate the story of the sailor Payne, that the crew of the whaler Carrie D. Knowles languishing in prison for five years. W. W. Russell, the American minister, has no knowledge of the alleged captivity.

Venezuela's Cable

CARACAS, May 14—The cable connecting Venezuela with the outside world was opened to the general public yesterday. The tolls between Caracas and New York in either direction have been reduced to one dollar per word.

STRIKE FAILS

French Postal Employees Are Already Beaten

NO SYMPATHY DEVELOPED

PROMISED SUPPORT NOT ACCORDED AND FIRM STAND OF CABINET ENDORSED BY CHAMBER OF DEPUTIES AND BY PUBLIC OPINION.

PARIS, May 14—The striking postal servants adopted resolutions at a meeting tonight appealing to the workmen's organizations to make common cause with them. The meeting was attended by representatives of the workmen who delivered inflammatory speeches, promised the postal employees immediate support if necessary and placed themselves under the direction of the revolutionary general federation of labor. Those threats produced a big scare but there is strong suspicion here that the leaders in the movement are bluffing. The strike of the postmen itself apparently has lost ground. The rank and file of the men seemingly are convinced that the agitators are acting for their personal ends and as the tools of the revolutionary proletariat organizations and they hesitate to risk losing their permanent situations and pensions.

At Chartres and Jjion today the strikers, in view of the attitude taken by parliament, voted to return to work The government officials say the movement is collapsing and point out that only 18,000 of the 300,000 railway men whose support was pledged the strikers today by M. Guerard belong to the union and that these members are mostly trackmen and artisans employed in the shops.

It is reported that the strikers are cutting wires. This afternoon's meeting was attended by 3000 strikers and delegates from various unions. The strike leaders charged that the military precautions taken by the government proved that it was the intention to drown the strike movement in blood. They favored a direct appeal to the workmen's unions for co-operation and amid enthusiasm the strikers voted unanimously for an alliance with the workmen "with all its consequences." It was decided that the moment had arrived for a solid revolutionary movement under the direction of the general federation of labor.

The resolutions as passed pledge that the postal employees and the workmen's organization would unite for a battle to the death "in order to obtain liberty of thought and speech and the right for all employees of state of form a syndicate." The railroad and the gas men met tonight but neither appeared disposed to give immediate effect to promises made by leaders this afternoon. The railroad employees postponed their decision until next Monday.

Instead of showing an increase this morning, the number of striking postal employees in the city seems to have diminished. The leaders of the strike, however, still talk boldly of developments, including the declaration of a general strike by the general federation of labor. On the other hand the authorities with the endorsement of the chamber of deputies behind them insist that the movement will collapse in a few days without recourse to the elaborate arrangements that have been perfected.

The turbulent session of the chamber of deputies today ended in another signal victory for premier Clemenceau when the government's policy in regard to the postal strike was emphatically endorsed by a vote of 454 to 59 endorsing the government's insistence that the postal employees are functionaries and have no right to strike.

Immediately afterward the chamber passed a vote of general confidence in the government, 365 to 156. The strikers took the chamber's rebuke, shrugging shoulders, and declaring that it only served to bind closer their friends which would soon startle the country by a big increase and a rapid extension of the general movement.

On the other hand it is not intimated what the government's plan is in view of any serious growth of the strike.

Up to midnight there was no change in the situation. If anything it was in the way of weakening strike sentiment. The general conviction is that if the movement does not make vast strides tomorrow, it is almost certain of complete failure.

M. Barthou, minister of public works, posts and telegraphs, during the course of the debate stated that only 2367 out of 24,205 postal employees in paris and the department of the Seine are out and that conditions in the provinces were even better.

Premier Clemenceau, in a typical epigrammatic speech coolly closed the existing session with the declaration that here was merely a case where France must choose between revolution on the one hand and progressive evolution on the other, or between work under the republican law and order and a spirit of adventure calculated to disorganize or rend any republic.

Walking on the "Sunny Side of the Street" one sees the successful men who know that dress counts for much in the daily life.

It was Shakespeare who said "He laughs who wins," and it is equally true that he wins who laughs. In showing the styles that gentlemen admire the Semi-ready stores display all that is cultured and refined in fabric and fashion.

Semi-ready Tailoring has achieved much, and is now admittedly superior to custom tailoring in the retail way.

Knitted into its Perfect Shape—Not Stretched

Long after it is purchased—after numerous trips to the Laundry—Pen-Angle Underwear still retains its graceful, perfect glove-fitting shape, and looks as if it were donned but yesterday. Ask your dealer to show you Pen-Angle. Examine it—feel it, note its soft, smooth texture; stretch it, and see its wonderful elasticity—it cannot shrink.

Pen-Angle Underwear is vastly different. It is knitted, not woven—comfortable, not irritating.

Pen-Angle is an individual, exclusive Underwear creation. It is knitted into its snug, perfect shape—not stretched. The variety of styles, sizes and weights (for any climate) is almost unlimited.

Look for the Pen-Angle label—it's guarantee of complete satisfaction, or your money refunded. It means quality—removes the last straw between you and Underwear satisfaction.

NEWS OF THE DOMINION

WINNIPEG, May 14—The police this morning served the long expected warrant for the arrest of the murderer of Mrs. James in her little home on Dominion street, April 22. Beyond the fact that the man for whom the warrant was issued did not give evidence at the coroner's inquest, the police refuse to give any information. Four detectives are now searching for the man in question and his arrest is expected momentarily.

WINNIPEG, May 14—Not content with the arrangements they have made for securing prohibition for Manitoba, the temperance people in Winnipeg are now engaged in securing signatures petitioning the city council to put a vote to the people at the municipal elections in December next on the temperance question. The civic bylaws provide that a vote shall be taken provided that 25 per cent of the ratepayers sign the petition.

HAMILTON, May 14—A Maguire, a well known merchant of Hamilton, is believed to have drowned himself and searchers are hunting for the body in the lake. Maguire left home Thursday and has not been seen since. Some time ago he advertised his business for sale.

WINNIPEG, May 14—An important conference of C.P.R. officials will open in Fort William tomorrow when every detail in connection with the mechanical department from coast to coast will be discussed. The conference will be attended by all the officials of mechanical departments. G. J. Bury, general manager, will preside.

VICTORIA, May 14—J. W. Taylor, on trial here before Judge Morrison on a charge of manslaughter was yesterday acquitted. Judge Morrison charged strongly in favor of the prisoner. The alleged crime was supposed to have been committed eleven years ago. Taylor's wife was the chief witness for the crown and her evidence was to the effect that prior to her marriage she had a child by Taylor which the latter destroyed.

EDMONTON, May 14—In the elections which are to take place in the northern constituencies of Peace river and Athabasca, both the former members will be again in the field and will be opposed. In Peace river the ex-member, T. A. Brick, will have as his opponent J. K. Cornwall, and in Athabasca the ex-member will be opposed by J. L. Cote. Mr. Cornwall will leave for the north on Saturday, accompanied by W. Kehoe who will assist him in the campaign. In the electoral districts of Athabasca and Peace river the returning officers shall fix the day for nomination of the candidates and also the day and place for holding polls. The nomination shall take place not less than 14 days after the proclamation required has been posted up and the day for holding the polls shall be as early a date thereafter as possible, but not less than 14 days after the nominations.

DAMAGE CASE CONTINUED

COUNSEL DISPUTE AS TO WHETHER QUESTIONS ARE LEADING

WITNESSES FOR PLAINTIFF SPAR ON CROSS-EXAMINATION

The damage action of Dimmick vs. B. C. Copper company engaged the supreme court yesterday throughout both morning and afternoon sessions, but the case for the plaintiff was not concluded. The day was marked by several tilts between counsel and between counsel for the defendants and some of the witnesses.

The cross-examination of Dimmick by Mr. Macdonald was resumed at yesterday morning's session. He was asked many questions as to statements made by him to others shortly after the accident, but could not remember. Mr. Macdonald produced a card of application for employment, a printed form containing the statement: "I fully understand all the rules posted on the bulletin board at the mines." Witness acknowledged his signature on the card.

Mr. Taylor objected that there was nothing in the defendant's pleadings to warrant the production of that document and he objected to its entry as an exhibit.

On Mr. Macdonald's undertaking to prove the rules on the bulletin board, the card was admitted.

On re-examination Mr. Taylor asked Dimmick to tell exactly what he understood by the rules, signals and the warnings.

Mr. Macdonald objected and a long argument followed as to the propriety and admissibility. Mr. Taylor thought that the witness had answered a subtle question to which his answer meant for more than he intended or knew. The question in a modified form was finally admitted.

E. J. Balfour, who was master mechanic at the Mother Lode mine at the time of the accident, was the next witness. He deposed that he did not like the look of the "glory hole" and had asked where to go in case of danger. He was told that they used to retire to a blockhouse, but that the glory hole was no longer dangerous—in fact the rents of the cottages had been raised $2 a month on account of the elimination of danger. The blockhouse, the only available in the locality in question, was six feet square and would accommodate in emergency 13 persons standing up. In fact it was used as a store room for stoves in summer, was so used at the time of the accident. Another blockhouse he knew was used as a poultry house.

At the close of the direct examination adjournment was taken for lunch.

To Mr. Macdonald the witness said that he had been told that in the early days of the camp when there was a lot of surface blasting the cottage roofs had been especially strengthened by timbers 8x6 inches. Cottages of later construction were not so constructed. The dining room had been timbered on the side of the building towards the glory hole. It was a place of comparative safety. Dimmick's house was not of that kind. Had he been in Dimmick's place he thought he would, after a specific warning, have removed his family from his house into the dining room. He could have done so but could not say as to Dimmick.

Mr. Taylor began his re-examination. Mr. Macdonald renewed an objection he had already entered several times, that Mr. Taylor was so framing all his questions as to really dictate the answer. The objection was sustained.

The witness told Mr. Taylor that many mines in the district were worked by glory holes. He named besides the Mother Lode, the Granby, Sunshine and Gold Drop.

He said there would be danger from flying rock of any size. He had seen rocks of 20 pounds weight thrown.

Mr. Taylor tried to bring out the fact that the blast signals were for guidance mainly of workmen.

Mr. Macdonald objected to the character of the question and also to the fact that it was entirely new evidence. The objection was sustained.

Charles Buxton, who was working at the Mother Lode as a machine miner the day of the accident, said there were 22 holes drilled in all; he drilled about 10; they were six to seven feet deep; he was working in a stope about six feet from the edge of the glory hole. A hole about eight feet square had already been blasted through to the glory hole.

Mr. Taylor—Then the rocks blown out would come through the aperture?

Mr. Macdonald—I must again object. My friend is putting into the witness' mouth the exact answer he wants.

Mr. Taylor—I suppose if a witness said "two and two" and I remarked "that makes four," my friend would object.

To another question the witness said that if he had been in charge and anxious about safety, he would not have fired the 22 holes in one blast, but in three or four. He thought the firing of 22 holes at once had mining as some of the shots, owing to the effect of others, might be altogether wasted.

The witness thought the distance from the scene of the blasting to Dimmick's house would be between 600 and 700 feet.

To Mr. Macdonald the witness said he had been a miner for 11 years, he was working under foreman's orders but sometimes was consulted by the foreman or shift boss.

The holes were not exceptionally deep, but he had never before seen as many as 22 drilled and fired at one place at the same time. He considered the likelihood of flying rocks was increased by the greater number of holes fired at once, by hurling a greater number of rocks at once, but not that it was likely to hurl larger rocks.

The witness was a single man and lived at the boarding house, which he considered fairly safe, but not so much safer than others as to be sought as a refuge. The ore bins were practically safe.

A long and sometimes entertaining duel followed between counsel and witness, the latter positively refusing not admit the safety of the dining room.

To the court the witness said that the glory hole was at least 75 feet above the level of Dimmick's house.

Lewis Johnson, carpenter, employed at the Mother lode mine at the time of the accident though away from the camp at the time, described the nature of the buildings in Mother Lode camp. The heavy timber was put on the roofs only in the early days of the camp. He knew Dimmick's house but had not noticed it for some time before the accident.

After the accident he had built two new block houses, one of them 103 feet from Dimmick's house and a third in the spring of the present year.

To Mr. Macdonald the witness said he understood that the new block houses were for the use, as shelters, of people in the new cottages in the same locality. They were strongly built. So was the dining room and he considered it fairly, but not perfectly, safe.

He remembered a roof timber 10x8 being broke by a flying rock.

After further sparring, Mr. Macdonald remarked: "I see you are very cautious."

Mr. Taylor—Do you want him to be rash?

Mr. Macdonald—No; I want him to be frank.

Dr. J. S. Spankie of Greenwood, who attended Mrs. Dimmick, described the injuries received by her and for which he treated her, first at the Mother Lode and later at Greenwood.

After cross-examination on Dr. Spankie's medical services, he was asked about his experiences in Mother Lode camp and stated that he had always taken refuge in a block house or under the ore bins and understood that all persons in Mother Lode camp went to either one or the other. He had frequently had his patients taken there.

Mr. Taylor asked if Dr. Spankie had consulted with the defendants' solicitors since being subpoenaed.

Dr. Spankie answered: "No; nor at any time."

Mr. Taylor was proceeding with similar questions when Mr. Macdonald objected and the questions were ruled to be inadmissible.

The court then adjourned to Monday at 10:30 a.m.

G. N. R. Show Train

TACOMA, May 14—The finest Great Northern train ever seen in Tacoma was inspected by thousands of people in six hours yesterday. The train was one of ten-de-luxe outfits built by the Great Northern for its Oriental limited service which will operate direct between Tacoma and Chicago, beginning May 23. The train was placed on exhibition here and will be shown at all points of consequence on the Sound and as far north as Vancouver, B. C.

Suspected of Incendiarism

(Special to The Daily News.)

CRANBROOK, May 14—Two brothers by the name of Cameron, have been arrested in connection with the big lumber fire at the Mayook lumber company's mill which took place yesterday morning. They were taken to Fernie where they will appear before the magistrate.

Write for copy of affidavit of Kootenay Brown whom Dr. Dawson employed to peregrinate him around while looking for oil.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

FRIGHTFUL STOMACH TROUBLE

For Four Long Years He Suffered—Then "Fruit-a-tives" Brought Relief.

Stratford Centre, Wolfe Co., Que. May 11th, 1908

I have been completely cured of a frightful condition of my stomach through this wonderful medicine, "Fruit-a-tives." I suffered for four long years with this trouble. My head ached incessantly. I could not eat anything but what I suffered awful pains from indigest I used every known remedy and was treated by physicians, but the dyspepsia and headaches persisted in spite of the treatment.

I was told to try "Fruit-a-tives," and I sent for six boxes, and this was the only medicine that did me any good. I am now entirely well, I can eat ordinary food and I never have a headache, and for this relief I thank this wonderful remedy "Fruit-a-tives." My case is well known in this vicinity and you may publish this statement.

ALCIDE HEBERT.

50c a box, 6 for $2.50, or trial size 25c. If, for any reason, your dealer does not handle "Fruit-a-tives," they will be sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

ARE AFTER DES BRISAY

VANCOUVER MEN COURT SENOIR SINGLES CHAMPIONSHIP

WRIGHT OF TORONTO OUT WITH THE COAST ROWERS

VANCOUVER, May 14.—Three new faces will appear in the senior crew of the Vancouver Rowing club this year the personnel of the crew to represent Vancouver at the three-cornered race in Seattle on May 29th and the N. P. A. A. O. regatta have been announced yesterday by the officers of the local club. That the club will have one senior crew in the N. P. A. A. O. regatta is certain and it is just possible that a second senior four will be formed. There is plenty of material on hand this year and another crew can be organized without much difficulty.

With the exception of the senior crew no others crews have yet been selected, but following the regatta next Saturday it is likely that all this season's crews will be finally selected.

The senior crew will be composed of of Wright, late of the Toronto Argonauts, stroke; Gale, No. 3; Stacey, No. 2; Sawers, bow. Wright and Gale are former members of the famous Argonaut club of Toronto, and are expert oars men. Stacey occupied a seat in last year's championship crew, while Travers is forsaking the singles for a seat in the senior four-oared boat.

This year both Sinclair and Laing will be entered in the senior single sculling event. Sinclair won the junior championship last year, while Laing lost senior honors, which he held for a year, to DesBrisay of Nelson. Both local men will make a determined effort to bring the championship to Vancouver this year.

At Seattle on May 29th, the Vancouver crew will row against the Victoria and University of Washington four-oared crews. The Vancouver crew will also compete in the Victoria regatta on May 24th, while a second crew will be sent to Nanaimo.

Americans Keep up Record

GATHWICK, May 14—The Edgeworth stakes of five sovereigns each, with 200 hundred sovereigns added, for two year olds, distance five furlongs, was won here today by Lacroisette, Falli was second and Salve third. There were nine starters. August Belmont's Doncourt and H. P. Whitney's Xella filly were unplaced. The Alexandria handicap of 500 sovereigns for three year olds and upwards, distance six furlongs, was won by Jack Snipe. Among the starters was H. P. Whitney's Baby Wolf.

Intercollegiate Races

POUGHKEEPPIE, May 14—The date of the intercollegiate boat races was changed from June 24th to July 2nd. Notification of the change was telegraphed to the Poughkeepsie commission yesterday by Chairman Francis S. Bang of the board of stewards of the Intercollegiate Rowing association, accompanied by the announcement that five races will be rowed down stream. The change was to admit of crews taking the down stream course, which the tide would have prevented in the earlier date.

Heel and Toe Contest

MILWAUKEE, May 14—Hoagland held his advantage in the walking match last night and finished about half a mile ahead of Brown. Corey was now in line two miles back of the leader. Hoagland had made 78 miles, 3 laps, Brown 77 miles, 11 laps, and Corey 76 miles, 17 laps.

McLaglen Beats Japanese

DULUTH, May 14—Capt. Leopold McLaglan, the "Irish Giant," champion jiu-jitsu wrestler of the world, defeated today T. Yamagata of Tokio in straight falls of forty-five and forty minutes each. The plucky Japanese, greatly outweighed, fought the last bout with a sprained wrist.

Gotch Will Retire.

SPOKANE, May 14—"I am speaking seriously when I say I will leave the mat," stated Frank Gotch, the world's champion wrestler, who is here today. "If I meet Hackenschmidt in Australia it will be my last bout, win or lose. I am going to quit the mat and go into the vaudeville business in Minneapolis"

Former Champion Leads

PITTSBURG, May 14—Charles Weston, formerly world's champion pool player, defeated H. B. Lane, challenger for the title, in the second round of the five round contest. The scores were Weston 202, Lane 7. Total to date, Weston 402, Lane 251.

Wrestling Championship.

CLEVELAND, May 14—Otto Sutter captured the championship of the world from Charlie Koukie of Hamilton, Ont., last night when he won in straight falls in forty and three minutes.

Result of Late Spring

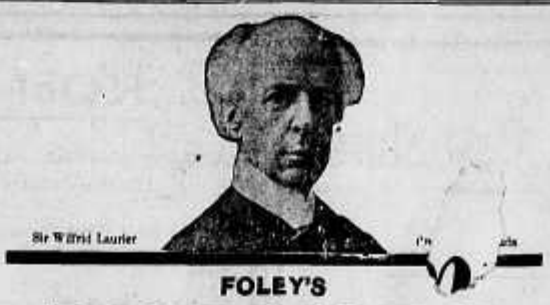
PHILADELPHIA, May 14—On account of the late spring the date of the close of entries for the annual regatta of the American rowing association has been extended to May 16th.

Wins the Metropolitan

BELOMNT May 14—King James won the Metropolitan yesterday. Fayette was second and Kruger third Time 1.40

Object to Strong Medicines

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all Druggists and Dealers.



Sir Wilfrid Laurier

FOLEY'S

PREMIER SODAS

SODAS are made almost entirely of flour and lard. These are two of the principal and most valuable food-elements.

Now a perfect flour and a pure lard combined cannot be surpassed in nourishing value and you get this combination in its most satisfying and most delightful form in Foley's SODAS.

We want you to judge Foley's Sodas by the severest tests and decide for yourself whether they are BEST.

Test them for the quality of the materials Used. Test them for age—are they always fresh, so crisp that you know they are not long from the oven?

Test them for flavor... was the yeast allowed to "work" properly, so that the biscuits are uniformly pleasing and satisfying to the taste?

After these tests we know you will always buy these perfect-made, western-made biscuits.

The flour used in them is specially ground and prepared for the one purpose—that of producing the lightest, creamiest, most delicious sodas that are sold in Canada. Every particle of lard that goes into Foley's Sodas is proved "choice" after rigid examination.

No material can ever be used in Foley's Sodas unless it has been proved perfect and pure. Every housewife will know what this care means. She will know that Foley's Sodas have the very highest food value and that every Foley Soda is all good.

Thousands of homes already know this fact. Does yours?

Foley Bros. Larson & Co.

MINERAL PRODUCTION

No better evidence of the mineral resources of the Kootenays is required than that afforded by the statement of the operation of the Consolidated Mining & Smelting company's smelter at Trail for the first three months of the present year. During that time the total values extracted from the ores treated amounted to $1,117,000. A small portion of the ore treated came from the Boundary but most of it was from the company's properties at Rossland, Moyie and Sandon, although other well knows mines in the district also contributed.

But gratifying as this is, it does not represent the actual production of minerals in the Kootenays in the time given. Quite a large amount of Kootenay ore was treated at the Northport smelter, before it closed, a large amount of gold has been secured from stamp mills in the Sheep creek camp and zinc ore is being shipped to the United States for treatment. But even with all these values added the total is only a fraction of the district's possible production. There are in the Kootenays many properties now idle or undeveloped just as rich as those now producing. It is only a question of time until these are in operation and when they are it will mean increased prosperity for this country.

One thing which is needed, and needed badly, is a smelter for treating zinc. The Trail smelter has been enabled to accomplish much for this country through the installation of its lead refinery for the treatment of silver-lead ore. A smelter which would give the same encouragement to the zinc properties that the Trail smelter and refinery does to the silver-lead mines would prove of inestimable benefit to this country. One of those days such a smelter will be in operation, and, when it is, a new era of development in mining in this country will open. In the meantime the Trail smelter is demonstrating the resources of the Kootenays in the other kinds of ore in which they abound.

PROPOSED WINNIPEG FAIR

The general feeling in western Canada in favor of the holding of a world's fair at Winnipeg in 1912 cannot but be added to by the energy which the people of the prairie city are displaying in regard to the matter. They are already working not only in the west but also in eastern Canada to make the proposed exposition a success. While a special train was carrying a hundred of Winnipeg's most prominent business and professional men from one city to another throughout the west in order to interest the public in the undertaking, other delegates were in the east interviewing the Ottawa government as well as various public bodies on the matter. A request is being made to the dominion authorities for a large grant, either in land or money, for the proposed fair and in this they have the support of the members from the west, irrespective of politics.

It was natural that in the course of the trip westward British Columbia should not be overlooked and a portion of the number who started from Winnipeg went through to the coast to interview the provincial government and also to interest the people of Vancouver and of Victoria in the project. They have also taken advantage of their proximity to Seattle to visit that city and to secure all the information they could from those in charge of the fair which opens there on June 1 in regard to the organization of such a scheme.

No announcement has yet been made as to whether the delegation will visit the Kootenay and Boundary countries on its way home. That it should there can be no question. But whether or not the delegation can find time to do so the people of the district will be found only too glad to co-operate to make the proposed fair a success. No portion of the west can put up a better exhibit than the Kootenay and Boundary countries and the benefit that will accrue from doing so is so obvious as to need no comment.

SPOKANE RATE CASE

The people of Nelson generally, but the business men more particularly, will watch with interest the result of the negotiations now in progress at Washington, D.C., in regard to the freight rates to Spokane. Some time ago the Interstate Commerce commission, after hearing evidence and exhaustive argument, ordered the railways to reduce the rates from Chicago to Spokane by from 25 to 50 per cent, thereby putting the latter on the same footing as Seattle and other coast cities. Previous to this Seattle and other coast cities had enjoyed an advantage over Spokane through what was known as terminal rates. By the commission's ruling Spokane was also given the benefit of terminal rates.

The railways appealed against the ruling of the commission and the matter is now being fought out at Washington. In the outcome Nelson has a direct interest. While the commission was deliberating on its finding the question of freight rates to Nelson from points in eastern Canada was taken up by the board of trade with the result that certain reductions were secured from the railways and the case which had been entered for hearing before the Canadian railway commission in regard to the matter was withdrawn. The reductions thus secured brought the Nelson rates practically to a parity with those between eastern American points and Spokane. This, however, it was said at the time was only a tentative settlement, pending the result of the Spokane case before the Interstate commerce commission. The understanding was that Nelson was to get reductions in rates equal to any that might be given to Spokane by the Interstate commission.

The upholding of the commission's ruling, therefore, means a lot to Nelson and the result of the negotiations at Washington will be awaited with a great deal of interest here.

EDITORIAL NOTES

An eastern paper rises to remark that Mr. Joseph Martin might now run for the seat of the late Mr. Haroun al-Raschid.

The passing of the second reading of a bill to remove all remaining disabilities against Roman Catholics in the old country is one that is bound to arouse a great deal of discussion. Its endorsation, however, by a majority of the members present in the house of commons yesterday shows that there is a growing feeling in favor of such a step. A few years ago it would have been impossible to have secured an endorsation of this kind.

Judging from the dispatches the French postal strike is practically a thing of the past. The talk of serious trouble appears to have been greatly exaggerated.

The Young Turks are going to use the $8,000,000, which they found in the late sultan's two secret rooms in the Yildiz, the keys for which some officers forcibly took from their former ruler, to pay the cost of military operations necessary in the restoration of constitutional government. This is rather rubbing it in, but Abdul Hamid deserves it and a good deal more.

Seeking Ideas

SEATTLE, May 14 — The party of Winnipeg business men on an organization tour for the Canadian exposition to be held in Winnipeg in 1912, were guests at the luncheon given by the officers of the Alaska-Yukon-Pacific exposition at the Washington hotel yesterday, spent the afternoon at the fair grounds and saw the illumination of the buildings last night. The visitors will leave for home this afternoon. Since the party left Winnipeg the western part of the dominion of Canada has become enthusiastic over the exposition idea. Today a deputation from Winnipeg will lay the matter before the dominion government, at Ottawa, and ask for an appropriation of $2,000,000.

Kermit Lost His Way

NAIROBI, British East Africa, May 14—It was learned early today that Kermit Roosevelt lost his way from his father's camp near Machakos last Friday and spent an entire night alone on horseback riding through a region unknown to him. On Saturday morning he turned up at Kiu, a station on the railway, inquiring his way to the camp. The region in which Kermit Roosevelt is reported to have been lost between the Athi river and Uganda railway and Kiu, where he finally found himself is about 50 miles below Nairobi and 30 miles southwest of Machakos.

Automobile Ran Amok

LIEGE, Belgium, May 14—A remarkable and fatal automobile accident occurred here today. While one machine was trying to pass another on the road it skidded against a wall and crushed the life out of two children who were passing at the time. The car was then carried by its own power down an embankment and thrown against a passing railway train. The machine was a heavy one and as it crashed into the train two passengers were seriously injured while the chauffeur and owner were killed. The car itself was reduced to matchwood.

ANNOUNCEMENT

Having sold the business of the West Kootenay Butcher Co. to Mr. G. G. Peters of the Palace Meat Market I beg to advise that on and after the 10th inst. the business will be carried on by Mr. Peters, under the name and style of the West Kootenay Butcher Co.

Mr. Peters is well and favorably known in Nelson and the surrounding districts and I would bespeak for him a continuance of the patronage I have enjoyed for the past twenty years.

All accounts owing to the West Kootenay Butcher Co. under my proprietorship may be paid to my successor and his receipt will be a sufficient discharge.

West Kootenay Butcher Co.
E. C. TRAVES.

To the Public--

Having purchased the business of the West Kootenay Butcher Co. from Mr. E. C. Traves I beg to announce to my customers and the public generally that on and after the 10th inst. the business I have carried on and known as the Palace Meat Market, will be closed.

On that date I am taking over Mr. Traves' business, and will carry on the business of Wholesale and Retail Meat Merchants at the same stand under the name of the West Kootenay Butcher Co., where I hope to continue to receive the patronage of my former customers as well as those who have favored Mr. Traves with their trade, and that of the public generally.

G. G. PETERS

SAN FRANCISCO SCANDALS

Attempt to Unravel Tangled Skein of Corruption

SAN FRANCISCO, May 14—Charles S. Wheeler, attorney for Rudolph Spreckles, was called to the stand by the prosecution in the trial of Patrick Calhoun today. His testimony, like that of former mayor J. D. Phelan who spent a day and a half on the stand during the week, was directed, according to the statement of assistant attorney Henry to refutations of the "implied insinuations of the defence that Messrs. Spreckles, Phelan and others had engaged in a conspiracy to oust the United Railways from the streets of San Francisco, with a view of obtaining the transportation facilities for themselves." Under interrogation of Mr. Henry, Mr. Wheeler told of his appearance before the state committee of the board of supervisors in 1905 relating to the petition of the railroad company fo an overhead trolley franchise for Sutter street. Mr. Wheeler's argument against the petition was related by Mr. Phelan when he was on the stand and was gone over again by Mr. Wheeler today. The witness also told of his drawing up of the corporation's articles of the street railways and of his subscriptions of $16,000 to that project. The examination was conducted by Earl Rogers, counsel for Calhoun and was construed by Mr. Henry as a challenge of the motives of corporations of the municipal company. Mr. Wheeler declared that he had taken no part in any discussion of the project until after Mr. Calhoun had intimated his intention of putting a trolley on Market street and insisted that it was only to combat that plan that the opposing company was organized.

"Mr. Wheeler, did the municipal company ever lay a foot of track or a single brick of a power house?" asked Rogers.

"It did not," said the witness.

"That's all," said Rogers.

Under a running cross-fire of objections and arguments the witness told the jury that the opposition had been planned for the purpose already stated; that it was especially stated in the articles of incorporation that the company should get the supervisor to offer such franchises as it sought at public auction and so seem to have inserted in those franchises a provision that the city could buy up the road at any time it saw fit.

The examination of the day was that of Robert H. Perry, one of the detectives of W. J. Burns whose business was in 1906 to shadow Abe Ruef, the former political boss. He told of having followed Ruef to the offices of the United Railroads on August 22 of that year, the date on which the prosecution alleges the money was drawn from the mint by Terry L. Ford, general counsel of the company, and paid over to Ruef to be divided among the supervisors.

BEATEN AND ARRESTED

New York Mob Attacks Japanese for Defending Himself.

NEW YORK, May 14—Funnubiki Lonkishi, a Japanese restaurant keeper was badly beaten by a crowd near the Grand Central station today. The trouble started in a subway car when a white man refused to allow the Japanese to occupy a seat by him. When the two left the car hot words passed and a fight followed. A crowd quickly gathered and took the white man's part. The Japanese was faring badly when the police interfered. The Japanese was arrested on the white man's complaint.

Referred to Special Committee

QUEBEC, May 14—The Prevost charges on motion of the premier, were today referred to a special committee of six members who will sit after the house has adjourned. This action was taken despite the protest of Mr. Prevost that the investigation should be held while the house was in session.

CLOSE IN

Have you ever realized what it means to you to live close in, with no hills to climb and to own your own house?

FIRST. Your home is easy of access, no tiresome climbing, the same old climb that never gets shorter.

SECOND.—Property will always be in demand close in, either to sell or rent.

THIRD. Inside property will increase in value twice as fast as outside property.

NOW, HERE'S A CHANCE TO SECURE A HOME in first-class condition, newly painted, stone foundation, 6 roomed, bath, modern conveniences. 1 lot, well fenced, lawn, good walks.

AND in one of the best locations in the city only two blocks from Baker street.

The Price Will Sell It

$2500.00

Reasonable terms can be arranged.

MONEY AT A. Y. P. FAIR

CANADIAN CURRENCY TO BE TAKEN AT GATES

AMERICAN SHOULD BE PROVIDED FOR THE SIDE SHOWS

Some doubt has been felt as to whether Canadian currency would be accepted at par value at the Alaska-Yukon-Pacific exposition at Seattle, an error that visitors from this district might experience no difficulty through misunderstandings which might arise in this respect G. G. Buchanan, as president of the associated boards of trade of eastern British Columbia, communicated with the secretary of the exposition who informed him that Canadian currency would be accepted at par at the gates of the exposition, but that the management of the exposition did not control any of the side shows, so that he could not say what course would be followed in regard to these. Mr. Buchanan, however, advises visitors to the fair to provide themselves with American money before going on the grounds. The correspondence was as follows:

Secretary, Alaska-Yukon-Pacific Exposition, Seattle, Wash.

Dear Sir,—On behalf of the associated boards of trade of eastern British Columbia I beg to ask us to the arrangements that are to be in force in regard to the use of Canadian currency (bills and silver) at the exposition this summer.

We would like to have an official assurance from the management that our currency will be accepted in all branches of the exposition at face value.

We presume that the matter has already been arranged and therefore without dwelling upon the significance of it, we will await your reply.

Yours faithfully,
THE ASSOCIATED BOARDS OF TRADE OF E. B. C.
Per the President.

Kaslo, B. C., April 7th, 1909.

Alaska-Yukon-Pacific Exposition,
Seattle, Wash.,
May 8th, 1909.

Mr. G. G. Buchanan,
President, Associated Boards of Trade of Eastern British Columbia, Kaslo, British Columbia.

Dear Sir,—In reply to your favor of the 7th ult., I desire to say that at the meeting of the executive committee of Alaska-Yukon-Pacific exposition held yesterday, the secretary was requested to advise you that in its gate receipts the exposition will accept at par Canadian currency. The exposition does not control any other source of income. However, the merchants of this city do now, and always have, accepted Canadian money at face value, and we do not think that our British Columbia neighbors will have any trouble on that score.

Yours faithfully,
(Signed) WM. SHIPPELD,
Secretary.

Russian "Robin Hood"

MOHILIV, Russia, May 14—The noted robber chieftain Savitzky, the "Robin Hood" of the Russian revolution, has been killed by members of the rural guard in a neighboring village, after a fight lasting four hours. Savitzky was a high school student when he took to brigandage and had been a terror of the people of the provinces of Tchernigo and Mohilly for several years, but he was a source of amusement for the rest of Russia on account of his dare devil exploits. He delighted playing fantastic tricks upon the police. Once on a wager, disguised as a priest he visited the governor of this province and various other officials. It was his custom to rob the rich and he distributed his spoils among the peasantry. He was betrayed by a member of his band.

Liner Stopped by Ice

MONTREAL, May 14—The Allen line steamship Tunisian, Capt. Fairfull from Liverpool to Montreal, was reported by a Marconi despatch at 4.30 this afternoon as in the ice off Cape Race, sixty miles from St. John. One of the plates in her bow had been started and the ship was making so much water Capt. Fairfull thought it advisable to put into St. John for examination. If the ship is found to be seriously injured the passengers will be brought on via Port Basque and Sydney. A great deal of ice is reported in the gulf, the Tunisian being the second passenger vessel to meet with a mishap on this acount. The Lake Champlain is now on the graving dock at St. John's, Nfld.

Professor Among Anarchists

MOSCOW, May 14—The trial of the members of the local social democratic organization came to an end here today. Eighteen of the prisoners were sentenced to perpetual exile in Siberia and 20 others are to be imprisoned in a fortress for terms varying from one to three and a half years. The exiles include Professor Rockhoff of the University of Moscow, whose connection with the party for a number of years has been a mystery to the police.

Train Wreck in Germany

STRASBURG, May 14—Four trainmen were killed and 12 passengers injured last night in a collision between a passenger and freight train at Horlishium, near Collmar. The passenge train was destroyed.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by all Druggists and Dealers.

Minard's Liniment used by physicians.

NOTICE TO CONTRACTORS

Creston School

Sealed tenders, superscribed "Tender for School-house," will be received by the Hon. the Minister of Public Works up to noon of Wednesday the 26th day of May, 1909, for the erection and completion of a two-room frame School at Creston, B. C.

Plans, specifications, contract and form of tender may be seen on and after the 3rd day of May, 1909, at the office of the Government Agent at Nelson; of James Compton, Esq., Secretary of the School Board, Creston; and at the Public Works Department, Victoria, B. C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for a sum equivalent to ten per cent. of the amount of the tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

EVERED CRIDDLE,
Superintendent Architect.
Public Works Department,
Victoria, B. C., 27th April, 1909.

SHERIFF'S SALE.

By virtue of several executions issued out of the Supreme Court of British Columbia, and the County Court of East Kootenay, holden at Cranbrook against the goods and chattels of the Sullivan Group Mining Company, I have seized and taken in execution all the right, title and interest of the said Sullivan Group Mining Company in and to, a quantity of raw and roasted ore now in the yard of the smelter of the said Company at Marysville, B. C., and also in a large quantity of mining tools and mining machinery, assay materials, supplies and implements, fire brick and fire clay, Vancouver cement Allis and Chambers ore crushers and various other articles and supplies for mining and smelting, office furniture, cooking utensils, and other goods and chattels, a full inventory of which may be seen at my office in the Court House at Nelson, and the various goods and chattels may be seen upon application to John P. Adams, bailiff, in possession at the smelter at Marysville, and at the Sullivan mine.

I shall offer all of the said goods for sale at public auction at Marysville, B. C., on Thursday the 22nd day of April, A. D. 1909.

S. P. TUCK,
26-tf. Sheriff of South Kootenay.
Dated at Nelson, B. C., 2nd April, 1909.

The above sale is postponed until Thursday the 6th day of May, 1909, at the same place and time.

S. P. TUCK, Sheriff of South Kootenay.

The above sale is further postponed until Thursday the 20th day of May, 1909, at the same place and time.

S. P. TUCK,
Sheriff of South Kootenay.

People That Know Enough to Appreciate

Good Candy

are unanimous in pronouncing POPHAM'S the most delicious confections ever offered to the candy-buying public.

Experience in the Candy line, ability to choose good candy, unfailing interest in our customers has prompted us to secure something entirely out of the line of the ordinary Cheap Goods.

POPHAMS Are Exquisite Creamy Confections

Made for Candy makers that know their business.
Made for Candy Stores that know good goods.
Made for candy lovers that know good candy.

THIS IS THE REASON we have strained every point to secure something for our customers that they have not heretofore been able to procure in Nelson.

IMITATIONS ARE MISLEADING—(SPECIFY POPHAM'S).

There Are Many Other Things In Which We Far Excel Competition

FOR INSTANCE

Drop in and look over our stock of Cameras.
Ask us how to develop your Films.
Ask us about your exposures.
Leave your film with us to have them developed.

WE CARRY EVERYTHING IN THE PHOTO LINE TO MAKE PHOTO TAKING EASY.

The Most Important Part of Our Business

is the art of dispensing correctly and accurately Physicians Prescriptions. Anybody with a slight knowledge of the drug business can dispense Prescriptions.

BUT

Do you feel you are getting the care and attention you should.

Do you know if you are getting what your Physician orders.

You don't have to worry a moment when you bring your Prescriptions to us.

We compound more Prescriptions than any other store in the interior of B. C.

We can give you anything your physician prescribes.

BECAUSE WE HAVE A DRUG STORE.

Patronize the best. There's no store in the drug line TOO GOOD.

A BETTER ONE THAN OURS IS NOT TO BE FOUND.

WE LEAD. OTHERS TRY TO FOLLOW

Poole Drug Co. Ltd.

Phone 25 Day or Night Phone 25

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent.

Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

FRESH SALMON, HALIBUT, MACKEREL, WHITEFISH, CRABS, FINNAN HADDIE, SHRIMPS, SMOKED HALIBUT, KIPPERS, ETC.

NELSON NEWS OF THE DAY

Born, on May 13, to the wife of William M. Walmsley, Victoria street, a son.

The W. P. M. meet in Miners' Union hall this evening.

The usual weekly shoot of the Nelson Gun club will take place at 2.30 today.

Commencing today the trains for the coast will leave Nelson at 8.45 a. m. and 7.35 p. m.

L. H. Hunter, temporary manager of the Hudson Bay store here, has returned to the city from Pincher Creek after a few days' absence.

The regular monthly meeting of the directors of the Nelson Fair association will be held in the board of trade rooms on Tuesday evening next at 8.30.

W. J. Twiss, provincial manager of the Mutual Life Insurance company of Canada, was in the city yesterday on his way back to Vancouver after a visit to his old home in Kaslo.

Those desirous of assisting the Y. M. C. A. are asked to give their services as singers or instrumentalists to the management of the Arcade in order to contribute towards a good program for the benefit night on Monday next.

The passenger rates over the C. P. R. to the Alaska-Yukon-Pacific exposition, which opens on June 1, will be, from Nelson to Seattle and return, $24.15, and from Rossland to Seattle and return $22.60.

The proprietors of the Arcade theatre are giving a benefit night in aid of the Y. M. C. A. funds on Monday next. A special programme comprising some excellent pictures will be shown and an orchestra and several local singers will take part.

This afternoon the Empire will give its usual matinee when four reels of film will be shown. On of the films, in the Riviera, is a very fine scenic subject, and The French Ball is a very good biograph subject. For the special performance tonight Bobbie Roth will render a selection from The Geisha, which should not be missed. Wilkinson's orchestra will play selections during the evening and Alan Stewart will sing.

All teas deteriorate with age. The flavor consists in an essential oil which decays. Take only fresh tea, and it only in the sealed lead packets of the "Salada" Tea Company. On account of its delicious strength a pound of "Salada" will go as far as a pound and a quarter of other teas. 162

E. O. Windsor, Nelson's well known piano tuner is in town. Leave orders with the Canada Drug and Book Co. 9-15.

For Victoria Day, May 24th., the Canadian Pacific Railway Company announce a rate of a fare nd one third for the round trip. Tickets will be on sale May 21st., 22nd., 23rd., and 24th., good to return until May 25th. 57-11

RECEIPT THAT CURES WEAK MEN —FREE

Send Name and Address Today—You Can Hav eit Free adn Be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of youth that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy to the press room, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the most-astonishing combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence, so that any man, anywhere who is weak and discouraged with repeated failures may stop dosing himself with harmful patent medicines, secure what, I believe, is the quickest-acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so, cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 450 Luck Bldg., Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

WANT FUNDS BACK

Fernie Fire Relief Troubles—Heavy Storms

A wind of cyclonic proportions struck town shortly after two o'clock this afternoon and though it only lasted for about twenty-five minutes it succeeded in creating a certain amount of havoc. The building which suffered most in the business section of the town was the splendid new King Edward hotel which had about twenty feet of the roof badly damaged. Several small wooden structures in different parts of the town were more or less injured and numerous outbuildings were overturned while a few trees were uprooted by the force of the gale.

The general committee of the Fernie district fire relief fund held a meeting last night to discuss the report of a sub-committee on applications for further relief. It is proposed to advance relief to a number of applicants in the shape of lumber and building supplies to the total amount of twelve thousand dollars, but as there is very little money in the treasury, those who received relief immediately after the disaster will be asked to refund a certain amount in order to help those who received nothing. The committee sat for three hours and discussed a large portion of the lengthy report, but as they were unable to finish it, they adjourned the meeting for a week.

Miss Alexander, accompanied by her cousin Miss Pyman and maid, arrived in town this morning from England and will in future reside with her brother, J. S. Alexander, on Riverside street.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price, 25 cents; large size, 50 cents. Sold by all Druggists and Dealers.

Mars in Trouble

BOSTOON, May 14—Rifts in the south polar capital of Mars were reported today by Prof. Lowell from his observatory at Flagstaff. Prof. Lowell said the two rifts were observed, one in longitude 350 and the other in longitude 240. The phenomenan is a repetition of the one observed previously.

Keep Minard's Liniment in the house.

Wash Vests

Nothing beats a wash vest to brighten up a suit.

There's a crisp freshness about a wash vest that adds a charm to good dressing.

We've just received some new and smart creations.

English Flannels, Duck, Piquo, Linen, Worsteds, &c., in very handsome patterns.

Surah silk in tan and grey.

A choice collection of special styles and special values.

$1.25, $1.50, $1.75, $2.00 to $3.50

Where would you expect to find the latest ideas, the correct things in wearables, if not right here?

Hosiery

Been having trouble with your hosiery, sir? Come here for relief. We cure all sorts of hose ailments.

Our hose are durable—the sort of hose the best mills make in the best way.

Our Hosiery fits at every point and is correctly sized.

We've a fine showing of new spring patterns of fancy hosiery in choice colorings. Many new designs.

Hose at 25c, 35c to 75c

Come here with any hose trouble you've been having, sir, and we'll cure it.

NELSON NEWS OF THE DAY

D. T. Fraser of Trail is a guest at the Strathcona.

A. T. Avison of New Denver is registered at the Hume.

A. R. Heyland of Kaslo is a guest at the Strathcona.

J. W. Cockle of Kaslo came in last night and is registered at the Strathcona.

Born, on May 14, at Hall street, Nelson, to the wife of Christian Jacobson of Crawford Bay, a son.

The highest temperature recorded yesterday was 64 degrees and the minimum registration was 35 degrees.

G. F. Wilson of New Denver is at the James Williams of Trail arrived last night and is staying at the Strathcona.

The Ottawa Journal of Monday last says: "Mr. O. E. Leroy, of the geological survey, has left for Sheep Creek, B. C."

Although four recently rose an extra 20 cents grocers in Nelson have not yet made a second advance in their charges for this commodity.

The San Francisco Opera company will play here on June 14 and 15, probably filling the intermediate dates at the Boundary cities.

The restriction on the export of logs mentioned in yesterday's issue is not as some readers have evidently misapprehended, of general application. The notification being sent out to those concerned by J. H. Martin, timber inspector of West Kootenay, contains the following words: "Section 5 of chapter 42 of the Statutes of British Columbia, 1906, has been repealed. Logs and shingle bolts cut from lands held under lease or license, or lands granted by the government of the province of British Columbia after July 1st, 1908, cannot be exported from the province of British Columbia. This act will become effective on July 1st, 1909.

A. Palmer passed through the city last night on his way home to Kaslo from Spokane where he has been to be operated on for a very pleasant vacation.

W. Matthews spent yesterday fishing at Slocan Junction and enjoyed a most successful day, bringing home 14 pounds of excellent trout which weighed up to two and a quarter pounds each.

The services in Trinity Methodist church tomorrow morning will be conducted by J. Laing Sharpe and in the evening by his honor Judge Forin who will deliver an address coupled with a song service by the choir.

There will be a young people's praise service in the Baptist church tomorrow morning. A sermon appropriate to the occasion will be preached by Rev. A. N. Fritz and a young people's choir will provide the music.

F. E. Griffiths, part proprietor of the Westmount mine, was a guest at the Hume yesterday. Mr. Griffiths stated that he found his property looking very well and that he expected to commence shipments within the next month.

Among the visitors to Nelson at present is Judge Tasse of Victoria, known from one end of Canada to the other. Mr. Tasse, who was for many years a resident of Montreal, since taking up his residence in Victoria has been a strong advocate of the beautification of that city by the provincial government. After Mr. Tasse had kept his plan before the public for some time, it was taken up generally by the people of the city and strong representations were made to premier McBride to carry out the idea. This the government decided it could not do, at least until the demands upon it for roads, bridges, schools, etc., were satisfied. Mr. Tasse is not, however, much downcast over the temporary failure of his scheme, but was around yesterday greeting his many friends in this city. He is a guest at the Strathcona.

Rev. Frank Stone, chaplain of the Seamen's Institute of San Francisco, who is on a vacation tour, has decided to spend several weeks in Nelson. He will take part in the services at St. Saviour's church tomorrow and will be the preacher at the evening service.

In an interesting game of baseball played at the recreation grounds yesterday afternoon the public school defeated the high school juniors by a score of 16-12. The Battery for the winners was composed of P. Gardi and C. Grizelle and for the high school, H. Pitts and R. Brown.

Manager George Horwood of the opera house has received word from the manager of Miss Edith Miller and concert party who were billed to appear here this month, stating that it had been decided that the party should not come further west than Calgary but that, owing to the success of the tour return engagements would be played in the east.

In the last issue of Outdoor Canada appears an article on launching on Kootenay lake. The article is excellently illustrated with six cuts and the front page of the cover is given up to a seventh printed in color which shows a fleet of gasoline boats on the lake in front of Nelson. Apart from its value to lovers of the sport of launch racing Mr. Wolverton's contribution cannot but greatly assist in making the attractions of Nelson as a summer resort more widely known.

The Daily News has received, in addition to those already mentioned, two new maps from Ottawa, one published by the department of mines and the other by the department of the interior. The former is by far the more important as far as this district is concerned and shows in a clear and complete manner the geological formation of the Rossland mining camp. The latter shows the elevation in Manitoba, Saskatchewan and Alberta and shows the capacity of each building. Both maps are well printed and will be valuable as means of reference.

Dr. A. P. Procter, chief surgeon of the Pacific division of the C. P. R., has fashioned a system of placing a tin case of first aid materials in the conductor's van of every passenger train. The outfit includes tourniquets, morphine and strychnine tablets and dressings for wounds. In order that train crews shall know how to make use of these materials arrangements have been made through which Dr. W. O. Ross is giving lectures on first aid to railway men at the depot here every Tuesday and Dr. Kingston of Elkhorn is giving similar lectures in that city.

Charyes E. Bennett, speaking last night of Sheep creek said that during his trip through the various mining centres of the United States which included cities in Nevada, Washington, California and many other places, that the rich gold camp near Salmo was one of the best known mining districts in British Columbia. He was asked for information concerning it in almost every town at which he stayed during his trip. Mr. Bennett is one of the owners of the Golden Belle group at the creek which was recently bonded by J. L. Warner for eastern associates.

Commencing May 23 the Great Northern railway will run the Oriental Limited through from Tacoma and Seattle to Chicago without change using the Burlington route from St. Paul to Chicago. These trains will be brilliantly lighted throughout by electricity. On the same date a new fast train will be put on, running between Seattle and Kansas City via Great Falls, Billings and the Burlington route. The equipment will include tourist and standard sleeping cars and dining cars. This will be the first through service between these points via the Great Northern. Close connection will be made with these trains at Spokane.

The second boat club dance of the season, given in the Alice roller rink last night, proved an even more emphatic success than the previous one which took place some months ago. The arena was animated and brilliant, the elegant and varied hued costumes of the ladies forming a delightful picture, offset by the tasteful decorations of the hall of which the general color scheme was green and white. There were over 200 persons present. Supper was served in the rooms beneath the rink at midnight, and was, it is needless to remark, quite up to the high standard which could be expected from the energetic committee in charge of this portion of the arrangements. Wilkinson's orchestra received frequent rounds of applause for their fine playing and well chosen selections of music.

NEW WESTMINSTER IN LINE

Ancient Capital to Have Grain Elevator—Lacrosse News

NEW WESTMINSTER, May 14.—The New Westminster elevator company was incorporated today with a capital of a quarter of a million dollars for the purpose of erecting elevators on the Fraser river to handle the western export of grain. Local and Alberta capitalists are behind the enterprise.

The New Westminster lacrosse team are in the pink of condition and confident of success in defence of the Minto cup against the Regina next week. Local feeling is two to one on the home team.

At a meeting of the British Columbia Methodist conference today a letter was read from the trustees of the Massey estate, Toronto, offering to donate twenty-five thousand dollars to church educational work in British Columbia contingent upon British Columbia Methodists raising $75,000 to supplement the fund before the end of the year. Dr. Sipprell, principal of Columbia college, stated that he had already secured promises of $40,000 towards this.

Rev. James Calvert, newly elected president of the conference, has the distinction of having been the first missionary ordained in the British Columbia conference in 1887. Other officers of the conference are Rev. A. E. Roberts, Victoria, re-elected secretary; Rev. R. S. Stillman, Vancouver, assistant secretary, and Rev. T. H. White, Ashcroft, general secretary.

More Trouble for Heinze

NEW YORK, May 14—F. Augustus Heinze, already under indictment on a charge of over-certification of his brother Otto-Heinze's checks, was arraigned before circuit judge Hough today on a new indictment, charging misapplication of funds of the Mercantile National bank in March and October, 1906. He pleaded not guilty with the privilege of withdrawing the plea and making any motion his counsel might desire. Judge Hough set the bail, no additional security was asked.
