FIVE THOUSAND SAILORS STRIKE

Liners Are Delayed by Shortage of Crews

COASTING STEAMERS ARE DESERTED

Steamers Sailing from Glasgow Agree to Increases Demanded

LONDON, June 18.—Both sides in the seamen's strike continue confident of victory. Havelock Wilson, secretary of the seamen's union, declared yesterday that 5,000 men were affected. He was confident that they would be shipped, at the full union rate, next Wednesday. The strike, he believed, was already won *in spite of what he called the "bluff" of* **the ship owners.**

Steamers Delayed.

A lively scene was witnessed at Glasgow yesterday at the sailing of the Atlantic and other liners. Strikers flocked to the piers and endeavored to prevent the men from signing. The Anchor line steamer Furnessia, the Allan liner Ionian and the Defaldez **arrived off Greenock** shorthanded, expecting to find men waiting to fill the vacancies, but it was late yesterday afternoon before the Furnessia had men enough aboard to enable her to sail.

Agree to Pay Increases.

The Leyland liner Winifredian sailed from Liverpool for Boston, the whole crew joining except four men. The steamer Finland, which the seamen tried to tie up at Antwerp, arrived here on scheduled time and proceeded at an early hour this morning on her voyage to New York. All the trans-Atlantic steamers which sailed from Glasgow yesterday agreed to pay the full increase demanded by the men.

Big Steamers Deserted.

NEW YORK, June 18.—Five big coasting vessels tugged yesterday at their moorings deserted by 500 of their seamen, firemen and stokers as a result of the strike declared by the International Seamen's union against the Morgan line. Two of the number, the Momus with 999 passengers aboard, and the Alcoid, a freighter, which were scheduled to sail yesterday for New Orleans, lay all day in midstream with picketing tugs manned by sailors hovering near to dissuade strikebreakers **from enlisting.** The other three, the Antilles, Filric and El Norte, are now fast to their docks.

Stewards Join Strikers.

SOUTHAMPTON, Eng., June 18.—At 9 o'clock last night the stewards of the St. Paul, who are mostly British subjects, joined the strike at Southampton. They marched along the dock carrying the Stars and Stripes. Later they interviewed the American consul, Albert M. Swan, who explained the legal points of the question and their responsibility in deserting the ship. Nevertheless the stewards persisted in joining the strikers. The stevedores here threat*ened to go out on* Monday. They demand an increase of 12 cents a day. It is anticipated that there will be trouble with the strikers here.

PITTSBURG MEMORIAL TO LATE KING EDWARD

LONDON, June 18—Charles E. F. Childers, British vice-consul at Pittsburg, who is here on a visit has received a letter from Lewis Mallett, assistant under secretary of state for foreign affairs, in connection with the Pittsburg memorial to King Edward *for which several thousand dollars had* been raised saying:

Sir Edward Grey has laid before the King your letter of the 23rd ultimo, requesting that his majesty's sanction may be granted to a memorial of his majesty the late King Edward VII in the form of an endowment of the Pittsburg tuberculosis hospital to be named the "King Edward VII memorial of the Pittsburg tuberculosis sanitarium." Sir Edward has received the King's command to state that the proposed title of the memorial meets with his majesty's entire concurrence and to intimate his appreciation of the project.

MONUMENT TO PIONEER

(Special to The Daily News.)

VANCOUVER, B.C., June 18—Vancouver will soon erect in the new court house square a bronze bust of David Oppenheimer, the greatest of the city's pioneer mayors at the cost of nearly $10,000 which the public has subscribed. On Saturday the plaster cast of the bust was the central feature of an interesting ceremony at the "made in Canada" fair which Vancouver is now holding in *celebration of its quarter of a century* of civic history. The fair which contains 160 varied booths and is under the auspices of the King's Daughters is also in aid of the proposed convalescent home.

VANCOUVER GARAGE GOES IN SMOKE

Loss Estimated at Hundred Thousand Dollars

SEES CAR BURNED OWNER DROPS DEAD

Thirty Two Automobiles Destroyed—Only Four Saved

VANCOUVER, B.C., June 18—A spectacular fire occurred at 1 o'clock Sunday morning in the garage of W. Bauer, 1530 Georgia street. Thirty-six autos were stored in the building which was of wood and only four were got out before the flames blocked the doors and drove the empoyees away. Two of the latter were *seriously* burned. The loss is estimated at $100,000.

The garage was the headquarters of the Everett & Tudhop cars and a dozen in stock were burned. All the other machines were owned by private individuals. One fatality occurred in connection with the fire, the victim being Arthur Stanley Marsh, proprietor of the Eastern hotel. Marsh has been ill for a week but when he heard that the garage was burning insisted on going out. He saw his car burned where it was stored in the flaming garage. An hour later he started to walk home but he *fell on the sidewalk and expired before* a doctor arrived. Deceased was well known in Winnipeg and Calgary having come from the latter city to Vancouver. He was weathy.

FIRE DAMAGES CAPT. GORE'S HOUSE

Mrs. and Miss Gore Aroused Early Yesterday Morning by Blaze—Roof *Burnt—Damage $1,000*

Aroused by an alarm raised by Miss Steel, living in the house opposite, Mrs. J. C. Gore and Miss Hazel Gore awoke at about 6:30 yesterday morning to find *their house in flames and made their* escape a few minutes berore the blaze jumped across a passage way through which they had to pass to reach the ground floor. Capt. Gore was absent at Kootenay Landing.

Owing to some delay which occurred through an *attempt being made to* call the brigade by telephone instead of by the fire alarm a few feet away at the corner of Latimer and Stanley streets the blaze had obtained a strong grip on the building before Chief Guthrie and his force reached the scene.

The roof was almost completely destroyed and the furniture and fittings on the upper story were also badly burned and damaged while most of the ceilings will have to be renewed owing to injury from water. The brigade did good work in saving the building. The house was insured with H. & M. Bird *in the Phoenix of London for $3,000.*

The fire commenced on a porch on the ground floor and crept up the side of the building to the top story where it was observed by Miss Steel who was sleeping in a room opposite at the residence of Mr. and Mrs. R. J. Steel. From what cause it originated is not known definitely. The loss is covered by insurance.

Fire Chief Issues Warning

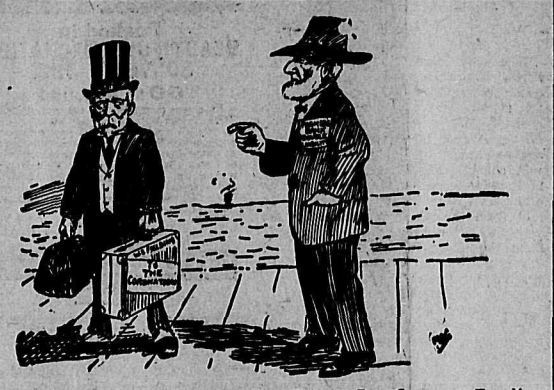
Last night Chief Guthrie pointed out that householders at this season of the year, when everything is as dry as tinder, should exercise the greatest care in seeing that no "live" ashes are thrown out in their gardens or in refuse cans and that they take every other possible precaution against a conflagration. "And in cases of fire citizens will always fine it most satisfactory to call the brigade by means of the alarms which are placed throughout the city except in some of the more remote streets. The alarms are instantaneous, whereas various delays may naturally arise when using the telephone," says the chief.

"I would like to express," said Capt. Gore last night on his return from Kootenay Landing, "my appreciation of the splendid work of Chief Guthrie and his staff in getting the fire under control so successfully and my thanks to many citizens and friends who assisted in saving furniture from the house and who extended hospitality to Mrs. Gore and Miss Gore."

MISSING CHILD IS FOUND BY BOY SCOUTS

(Special to The Daily News.)

VANCOUVER, B.C., June 18—The *Boy Scouts were on Saturday put to an* unusual use in a search for a missing child three years old, the babe of Ald. Ramsay. Within two hours they found it in the bush nearly a mile from its home.



Farmers' Bank Victim: Mr. Fielding, You Take a Run Over and Try Your Hand at Breaking the Bank at Monte Carlo.

Great Delhi Durbar Unique Historic Event

LONDON, June 18—Scarcely will the pageants, surrounding the crowning of their majesties and the investiture of the Prince of Wales in the mother country be finished before attention will be turned to Delhi, India, at which the emperor and empress will in person receive the homage of their Indian subjects and the feudatary princes. For the first time in history a reigning king of England will visit his Indian empire and the ceremonial with which he will be greeted is expected to transcend in magnificence any previously seen in a land where the expression of pomp and state of rulers has reached the highest pitch.

At Delhi

Delhi, where the grand moguls once held their court will be the scene of this year's coronation durbar as it was of the two previous ones incidental to the proclamation of Queen Victoria as Empress of India and of King Edward as emperor. At neither of these durbars was the monarch present in person. The homage of the Indian subjects, the tribute of the native rulers under British suzerainty, was received by a deputy. King George resolved to show his interest in all parts of the empire has determined to attend this durbar and himself meet the Indian people. It will be an unique event in history of Hindustan, this visit for the first time of a ruler whose sway is over all of India.

A durbar is a ceremonial gathering. In proportion as the greatness of the occasion demands, a durbar assumes the trappings of magnificence. In a country such as India it is essential that a durbar held for a grand event should be summoned with the strictest attention to all formalities and that the taking part in it should be observed *with the proper rituals. The proceed*ings of a great durbar such as that which will assemble to hail the king-emperor, will extend over some days. The earlier dates will be given up to the ceremonious arrival in camp of the various native rulers. Day after day is marked by some great procession leading up to the final culmination, the proclamation and homage.

Train Crews Victims Of Headon Collision

INDIAN HEAD, Sask., June 18—In a *headon collision between two freight* trains ,at Winro, a siding five miles west of here about midnight Engineer Pratt of Moose Jaw, was killed, Brakeman Bradley had his back broken and may die, Brakeman McIntyre had his arm and nose broken and Conductor Hounder was also injured. These were the crew of an engine and caboose westbound and all live in Moose Jaw.

An eastbound freight had orders to meet the light train at Winro but owing to a curve at that point and the weight of the train, and possibly the failure of the air to work the train did *not stop but crashed into the light train* about 12 car lengths past the east end switch just as that train was slowing *down to take the switch. The headlight* on the light train was not burning. Engineer Pratt did not jump in time and was buried under the cars of the other train and the trucks drove his head and limbs into the ground. Brakeman Bradley was on the platform between the engine and the caboose ready to open the switch when the force of the collision threw him off the train and he was dragged along the ground, breaking his back. He is not expected to recover. The eastbound crew all escaped. Fifteen cars were so badly damaged that they were burned by the wrecking crew. The injured were taken to the Indian Head hospital.

COW AND CALF BURNT TO CRISP

Ranchers Lose Houses and Furniture in Big Bush Fire at Nine-Mile—Horse Saved

Burnt to a crisp a cow and a calf, belonging to Thomas Farrington, perished last evening in a bush fire which devoured two residences, a stable and a farm building at Nine-Mile point on the West Arm. The houses and building gutted were owned by Roland Bourke and Mr. Farrington.

Mr. Bourke was absent at the time of the outbreak, but his horse, which was confined in a stable was taken out a few seconds before the advancing flames licked up the building, by some neighboring ranchers.

Mr. Farrington and his family escaped to the water where they stayed on the landing float until the fire passed by.

It was believed last night that Barnard & Clayton's ranch buildings and residence near Mr. Bourke's escaped the blaze.

A gang of roadmen at work on the Nelson-Balfour road, were last night fighting the blaze which was spreading rapidly toward Balfour.

A bush fire broke out yesterday at Shoreacres and W. F. Teetzel sent some men down to fight it. Passengers on the coast train said that they seemed to have it under control.

INDIANS CELEBRATE CORPUS CHRISTI AT CRANBROOK

(Special to The Daily News.)

CRANBROOK, B.C., June 18—Nearly 300 Indians from the reservation and *others today gathered at the* Indian mission six miles from here to take part in the Corpus Christi, an old time custom that has survived. Over 200 people from all over the country witnessed the interesting spectacle.

CONTRACTORS OUT FOR OPEN SHOPS

Thirty-six in Vancouver Endorse Action of Builders' Exchange—Work on Exhibition Buildings

(Special to The Daily News.)

VANCOUVER, B.C., June 18—After two hours debate 36 contractors, nearly all independent, decided on Saturday night to declare an open shop and a minimum rate for carpenters of $4.25 per day. The resolution is an endorsation of that adopted early last week by the Builders' exchange.

During the city *council discussion* over the trouble in erecting the new Vancouver exhibition buildings at Hastings park when the management claimed their non-union laborers were interfered with by striking unionists, Ald. Kirkpatrick said: "We'll give you protection if we have to swear in 500 extra policemen."

The management state they are employing non-union labor because the fair building must be completed by August. They are, however, paying union rate of wages which they contend is all they are bound to do.

BRAHMIN MURDERS INDIAN OFFICIAL

TRICHINOPOLY, British India, June 17.—Robert W. D. Ashel, British collector for the maritime district of Tinnoveli, was assassinated by a Brahmin attorney, who committed suicide. With his wife he was sitting in the car of a railroad train at Maniyachi when the Brahmin ap*proached and without a word* shot the collector dead. As he conducted the trial of the Tuticorin rioters last year his murder is attributed to revenge.

FATAL ACCIDENT IN AEROPLANE RACE

Three Are Killed and Several Injured.

ONE AVIATOR IS BURNED TO DEATH

Fifty Machines Take Flight in Long Distance Race. Mass Celebrated.

PARIS, June 18—Fifty aeroplanes took wing early today from the aviation field at Vincennes on the first stage of the European circuit race which calls for a flight to London and return with stops at various places, going and returning. Two of the aviators almost at the start met tragic deaths and at least one other was seriously hurt. The dead are Capt. Princetau, whose motor exploded in mid-air, filling with gasoline and burning and E. Martin who dashed against a tree, the motor of his machine crushing his head. M. Caubert, a former lieutenant in the army who was entered in the race under the *name of Dalger, was found lying sense*less near his machine in a wheat field four miles from Villars Cetrets. His injuries are grave. M. Bille, whose areoplane struck the earth within a mile of the start and was wrecked, was injured but not seriously. Three other birdmen fell, M. Loridan, near Chalrevoix, Oscar Morrison close to Gagny and M. Morin at Chevron, within 22 miles of Liege, which is the end of the first stage of the race. None of these men were badly hurt. Of the 50 aviators who started in the race 38 were civilians and 12 officers assigned for military duty. *Hung up for the competitors are prizes* amounting to $94,000.

Attended Mass

Dawn at Vincennes saw a crowd estimated at from 500,000 to 1,000,000 persons massed around the military exercise field to witness the start. About *6,000 soldiers and 4,000 police most of* them mounted were on hand to keep the field clear. A single gun, fired at 5:40 signalled the commencement of the preliminaries to the race. The Abbe Larbourg was just finishing the mass at an improvised altar for some of the aviators who desired spiritual preparation for the perils of the day. M. Martin, who within an hour was dying, was one of those who knelt for blessing.

Burned to Death

CHATEAUX THIERRY, France, June 18—Lendron, a competitor in the European circuit race, was killed near here when the benzine in the reservoir exploded and the machine was consumed. The aviator was burned to death.

RAILWAY WILL BUILD NEW BRIDGE AT CALGARY

CALGARY, Alta., June 18—On account of the greatly increased traffic the Canadian Pacific railway has decided to remove the present bridge over which the line crosses the river east of the city and to replace it with a *heavier structure that will provide for* four tracks, three of which will be built across it immediately on its construction.

Stricken From Rolls

The court en banc delivered judgment today in the case of C. F. Harris, of Lethbridge, application in which case having been made by the law society that his name be stricken from the rolls, the application being sustained.

General Otter Leaves

General Otter left today for Ottawa after inspecting the militia encampment here. He expressed himself as delighted with the condition of military organization in Alberta.

Court Divided

The case of Mrs. Girvin, convicted of incendiarism before Mr. Justice Stewart holding court at Lethbridge, was appealed and the argument heard before the present sitting of the court en banc. Judgment was given this morning by Chief Justice Harvey and Mr. Justice Simmons dismissing the appeal. Mr. Justice Beck and Mr. Justice Scott found for the appeal.

CHANCE DISCOVERY GIVES CLUE TO ROBBERS

MONTREAL, June 18—The chance discovery of a veritable treasure of gold and silver has given the police a clue to the identity of the robbers responsible for the many church burglaries which have occurred during the past few years. A gardener in the employ of the park authorities running to seek shelter under a tree during a storm tripped over something protruding from the ground and unearthed a large piece of *solid silver. Digging further he found* silver and several articles in gold. These he took to Father Walsh of St. Michaels church who identified two of the articles as the sacred vessels used during the celebration of communion.

R. L. BORDEN ARRIVES IN WINNIPEG

WINNIPEG, June 18.—Several thousand Conservatives of the local organizations, with the usual Saturday night crowds which line the streets, gave R. L. Borden and party a loyal reception Saturday night. Around the Canadian Pacific depot several thousand persons were gathered and they cheered as Mr. Borden and his party emerged from the station. Then, escorted by four bands, a procession of automobiles left for the residence of Hon. Robert Rogers, where an informal reception was held. There were no speeches at the residence of Mr. Rogers, but a public reception will be held in the Conservative club on Monday afternoon, which will be followed by a mass meeting in the Walker theater at night. This will be the initial meeting of Mr. Borden's tour of western Canada.

Kootenay Flashes

HALCYON, B. C., June 18.—With a raft made of logs, on which he was trying to reach Nakusp from here, an unknown Swede was picked up by William Boyd of the Halcyon Springs hotel on Friday last in a state of collapse. He had been battling against a heavy wind, following along the shore, when he fell exhausted across the stationary platform built by him to stand on. He was brought here, where he was treated, and tells a harrowing tale of his experience. He had been without food many hours when rescued.

FERNIE, B. C., June 18.—A large bush fire is burning about six miles east of Fernie, but no serious trouble or spreading is anticipated.

FERNIE, B. C., June 18.—G. J. Bury, general manager of the C. P. R., passed through this city today on his way to Lethbridge.

SILVERTON, B. C., June 18.—Duncan Grant, owner of the ill-fated Windsor hotel, which was gutted by fire a fortnight ago and in which three persons perished, has completed his new structure and will have it hauled to the site of the destroyed Windsor this week. A. S. MacAuley will also open his hotel during the week. It is located in the *old Thistle block. This will somewhat* relieve the crowded conditions that have existed here since the fire.

SILVERTON, B. C., June 18.—Work on the Standard mine is nearing completion. The machinery and material for finishing have arrived. The mill is now in frame, the tramway going up and the flume well advanced.

WARDNER, B. C., June 18.—Two engines and a steam shovel belonging to the Burns & Jordan construction camp slid into the river Friday night. An *attempt will be made to recover the* machinery Monday. The C. P. R. lumber mill has been shut down temporarily owing to the high water. P. Lund, president of the Crows Nest Lumber company, accompanied by his daughter Hazel, left yesterday for a visit to the coast.

TRAIL, B. C., June 18.—The only program arranged so far for the celebration of Coronation day is that of the school children. The entire program has not been completed yet. There will be no sporting events.

FERNIE, B. C., June 18.—Great preparations are being made for Coronation day celebration here June 22. A large program is being prepared which includes many sporting events.

FERNIE, B. C., June 18.—Mrs. Telfer, wife of the C. P. R. roadmaster here, and her daughter Laura will depart this week for an extended visit to England.

LETHBRIDGE, Alta., June 18.—Word from the attending physician is that J. Cokley, the balloonist who fell at McLeod Wednesday in his ascension, is improving. His condition is still serious.

PHOENIX, B. C., June 18.—In the first game of baseball played here this season the locals defeated the Greenwood *team by the score of 6 to 2.* It was an interesting contest throughout.

EHOLT, B. C., June 18.—Suffering from pleurisy, Alex. Stewart was taken to the hospital at Greenwood Saturday. Mr. Stewart is one of the best-known druggists in the Kootenay.

FARRON, B. C., June 18.—W. A. Taylor of Coryell and F. T. Kingsbury of Silica were in Farron Sunday on a fishing expedition. According to reports the fish were biting so well that, in his enthusiasm, Mr. Kingsbury tumbled into the water. He was rescued by Mr. Taylor and several bystanders from his perilous plunge.

SANDON, B. C., June 18.—The Ruth, Richmond and Noble Five mines are running steadily.

TREATY SIGNED

CHRISTIANA, June 18—The new treaty of commerce between Norway and Japan has been signed.

BOTH HUSBANDS RUSH TO RESCUE

Matrimonial Tangle Aired in Vancouver Court

WITNESS FAINTS: HUSBANDS FIGHT

Combatants Separated by Lawyers and Surprised Judge Adjourns Court

VANCOUVER, B.C., June 18—"I wish I could deport the whole of you and leave this case for some American judge to decide," said Justice Clement following a spectacular scene in court on Saturday in a contest over the application of J. J. Oliver of Spokane for the custody of his nine year old son. The lad *is now in possession of the mother,* Oliver's former wife, now Mrs. Eubank of Vancouver. The scene was an open one round contest between Oliver and the present husband, following a brief fainting spell of Mrs. Eubank when giving her evidence. She fell to the floor, both Oliver and Eubank rushing to her aid collided and fought until separated by their lawyers. The case was immediately adjourned by the surprised judge who added to his comment given above, "I will meanwhile have this boy placed in the court's keeping in a children's home."

*According to the evidence of Mrs. Eu*bank she had been married first to a man named McFarlane who had gone away to the Philippines. She afterwards met Oliver, secured a divorce from McFarlane and married Oliver. They lived together six years and had one child, the boy in question. But as the marriage with Oliver took place within six months of the time the divorce from McFarlane was secured it is a question whether it is legal under the laws of Washington. Afterwards she was divorced from Oliver and married Eubank of Vancouver, who had been rooming with them. Oliver himself was a divorced man when he married Mrs. McFarlane.

MANY INTERESTED IN NEW INDUSTRY

Silkworms at Trail Excite Secretaries of Fairs Who Want Exhibits—Will Be Shown at Trail.

"The announcement that Antonio Vennucchi of Trail had decided to engage on an extensive scale in the silkworm industry at the Smelter city has created widespread attention and Mr. Vennucchi has already received many communications from secretaries of fairs in various parts of the northwest inviting him to make an exhibit this fall," said F. W. Brown, manager of the Trail Fair association, who was in the city Saturday.

"He states, however," said Mr. Brown, "that it will be impossible for him to make an exhibit anywhere except at Trail this year. Next year he intends to show at the majority of the fairs in the province."

Mr. Brown was in the city endeavoring to make arrangements with George Horstead, secretary and manager of the Nelson fair, for attractions for the Smelter city exhibition, which will take place on September 29 and 30, the two days following the local fair.

GRANBY MAKES PAYMENT ON BOND

Hidden Creek Property Has Enormous Tonnage—Will Ship Ore to Ladysmith Smelter

(Special to The Daily News.)

VANCOUVER, B.C., June 18—Granby Consolidated has made payment of $250,000 on the bond for the purchase of an 80 per cent interest in the Hidden Creek group of copper-gold mines on Goose Bay, Observatory Inlet, Portland Canal.

Development work, including diamond drilling has been in progress since the Granby was given a bond over a year ago. The property is now on a shipping basis equipped with a compressor plant, ore bunkers and wharves and has several rich ore veins, but may be designated as a low grade proposition with enormous tonnage possibilities, one of the outcrops being over 40 feet wide.

The Hidden Creek group was purchased less than four years ago by J. T. Hillis of Vancouver from a syndicate, residents of Port Simpson, the price being $50,000. Two years ago Hillis after doing certain development work, sold out in turn for $135,000 cash to M. K. Rodgers of Seattle and Tom Hodgins of Butte. It is understood the Granby Co. will ship Hidden Creek ore to the Ladysmith smelter until it erects its own reduction works at Goose Bay.

FOREST OF POLES ON LONDON STREETS

City Presents Unusual Spectacle—Platforms and Seats Everywhere—In Throes of Preparation.

LONDON, Eng., June 18—Visiting who are pouring into London for the coronation are at once confronted with unfamiliar scenes whenever they touch the principal thoroughfares along which the principal processions will be made. Everywhere the eye glances upon the timbered structures for spectators. Trafalgar square is an amphitheater of seats. The churches in the Strand seem to be surrounded by wooden collars. Along the sidewalk billboard men, carrying a printed screed, which on the warrant of a passage from holy writ, severely scores the ecclesiastical authorities for making these churches into platforms for rubbernecking sightseers, or, as the objector puts is, a "den of theives."

Timber Everywhere.

Of the abbey which is to be the centre of the historic ceremony, nothing can be shown by the busy guides who are taking tourists around. Timber erections are everywhere, and tourists confine their attentions to the annex where the king and his attendants will don their gala attire.

London, in fact, is in the very throes of a very severe attack of coronationitis, and the symptons of the malady are to be seen in the whole range of society, from the king to the coster.

Countess Camilla Hoyos is responsible for another scheme for commemorating the coronation. She has secured the aid of Miss Grace Parsons, the daughter of Mrs. Henry Parsons, in launching a scheme to provide gardens in which poor London children will be taught gardening and nature study as a recreation.

Sheltered Playgrounds.

Efforts are also to be made to supply the children with sheltered playgrounds in the open air, where under the supervision of a qualified play teacher the youngsters may safely romp to their hearts content. A piece of land off a crowded London thoroughfare has already been acquired, and Countess Camilla Hoyos, who is a sister to the secretary to the Austro-Hungarian legation in London, has made sure that the month of the crowning of the children's king will form a landmark in the lives of the little dwellers in the slums.

An interesting feature of the coronation procession in Westminister Abbey will be the new standards of Britian's overseas dominions to be borne for the first time on this historic occasion. Lord Cruzon of Kedleston is to carry the standard of the Empire of India, the Earl of Aberdeen that of Canada, Lord Northcote that of Australia, Lord Plunket that of New Zealand, and the Earl of Selborne that of United South Africa.

Other Notable Standards.

Other noble lords to figure as standard bearers are the Marquis of Lansdowne, the Royal standard, the Duke of Wellington, the standard of Union; Frank S. Dymoke, the standard of England; Lieut-Colonel Harry Scrymgeour-Wedderburn, the standard of Scotland; the O'Conor Don, the standard of Ireland, and Lord Mostyn, the standard of the principality of Wales.

After a good deal of delay, probably due to friendly competition between rival aristocrats, the pages who will carry the king's train have been finally settled upon. They are the Marquis of Hartington, the Earl of Airlie, Viscount Cranbourne, Lord Romilly, the Hon. E. G. W. T. Knollys, A E. Lowther, W. H. E. Campbell, and V. A. C. Harbord. A slight change has been made in the personnel of the Knights of the Garter who will hold the king's canopy. They are Earl Cadogan, the Earl of Rosebery, the Earl of Crewe and the Earl of Minto.

Most of the gala clothes for the various functionaries who are to figure in the great ceremony are ready for wear. For the last few weeks the members of the royal school of art needlework have been busily engaged in embroidering the tabards, or tunics, for Deputy Clarencieux King of Arms, Windsor Herald, Richmond Herald, and Roug Dragon Pursuivant, as well as a cope for the Bishop of Ripon and the purse for the great seal.

Every day now sees fresh arrivals of notable guests. Seventeen premiers of the British colonies are now in London and the continental capitals are preparing to despatch their envoys. On June 19 the Duke of Connaught will entertain to dinner at St. James palace the foreign princess, while Lord Lonsdale's house in Carlton house terrace has been lent to the king by its owner for the purpose of housing a bunch of notables and the reserved apartments in the best hotels are also filling rapidly.

Warnings to Public.

The Scotland Yard authorities have issued warnings for the protection of coronation sightseers which visitors to the metropolis are studying with a view of their own safety. The public are especially urged to avoid collecting at openings to and corners of streets along the routes of processions. Women are warned to avoid the use of long hatpins, and men from throwing lighted matches, cigar and cigarette ends. Neither have the London police lost sight of the possible danger of airships hovering over the route of the procession, for a mishap to adventurous birdmen would probably cause a panic among the crowds in the street beneath. Regulations to guard against this danger are difficult to frame, for the matter opens up fresh legal points, so the commissioner of police proposes to await events before he takes any measures on the matter.

The warships to be reviewed by the king at Spithead will number 170, being 20 more than were assembled at Spithead for King Edward's inspection July 31, 1909. The senior naval officer will be Admiral Sir Arthur Moore, and Vice-Admiral Prince Louis of Battenberg will be in command of one of the divisions. As about 20 ships other than Britian will be present, spectators of the coronation naval review will witness an exampled display of naval might.

AGA KHAN IS STRIKING FIGURE AT CORONATION

A picturesque personage who has arrived in London for the coronation, is his highness the Aga Khan, of Bombay, head of the Ismaili sects of Mosdems by right of his direct descent from Ali, the nephew of Mohammed. His territory is not very large, but the number of his followers is counted by hundreds of thousands. So great is his influence that his friendliness to British rule is of the greatest value to the government. He is a member of that most exclusive of London clubs, the Marlborough, to which King George belongs.

The family of Aga Khan came originally from Persia, but migrated to India some three generations back. Many of those who owe allegiance to him as the head of Islam devoutly believe that he holds the keys of Heaven. Many of the curious privileges of his position are never exercised by the present prince. He has not, for instance, continued his father's practice of giving letters of introduction to the Archangel Gabriel in order to insure special consideration for his followers in the next world.

NEW REGULATIONS RESPECTING FOREIGN ORDERS AND MEDALS

No Subject Shall Wear Any Insignia Without Having Previously Obtained King's Permission.

The king has commanded that new regulations respecting foreign orders and medals shall be substituted for those now in force.

It is the king's wish that no subject of his majesty shall wear the insignia of any foreign order without having previously obtained his majesty's permission to do so, signified either.

By warrant upnder the royal sign-manual, or

By private commission conveyed through his majesty's private secretary.

Permission given by warrant under the royal sign-manual will enable the insignia of the foreign order to be worn at all times and without any restriction.

Private permission will only enable the insignia to be worn on the occasions specified in the terms of the letter from the king's private secretary conveying the royal sanction.

The private restricted permission is contemplated for decorations which are more or less of a complimentary character. In either case the matter will be submitted to the king by his majesty's principal secretary of state for foreign affairs.

Full and unrestricted permission by warrant under the royal sign-manual is contemplated in the following cases. For a decoration conferred :

On an officer by his majesty's naval or military forces lent to a foreign government, or an officer in his majesty's naval or military forces attached by his government to a foreign navy or army during hostilities; or on any British official lent to a foreign government and not in receipt of any emoluments from British public funds during the period of such loan.

On any person not at the time in the service of the crown, who, while himself, outside the limits of his majesty's dominions, has rendered valuable services to the head of the state itself, within the period of two years immediately proceeding the notification of the decoration of his majesty's government.

On any British subject employed in a foreign embassy or legation in the United Kinkdom.

ORIENT AND OCCIDENT CONFER

WASHINGTON, D.C., June 18.—A notable two days' conference was opened in this city by the Persian-American Educational society, an organization which aims at closer relationship between the east and the west and which also plans to broaden its scope so as to embrace a world-wide campaign of education and economic development and peace propaganda. The attendance at the conference includes delegates from New York, Philadelphia, Baltimore, Boston, Chicago and other cities. Probably the most notable participant is Goodsie Kanoum, the first Persian woman who has ever visited America.

William H. Hoar of New York, president of the society, called the conference to order this morning and delivered the opening address. Other speakers and their topics were Mirza Ahmad Sohrab of Ispahan, Persia, on "The Persian Women," and Benjamin F. Trueblood, secretary of the American Peace society, on "Peace, the Keynote of the Orient."

At the session this afternoon addresses were delivered as follows: Mrs. Fannie Fern Andrews of Boston, secretary of the American School Peace League, "Education and International Peace"; Hooper Harris of New York, "Is Persia's Future Safe?" Charles Mason Remey of Washington, D.C., "The Necessity of Closer Relationship Between the Orient and the Occident"; Roy C. Wilhelm of New York, "How to Modernize Persia," and Prof. H. P. Holler of Washington, D.C., "Aims of the Oriental University."

Parisian Sage

An Ideal Hair Tonic

Parisian Sage is compounded on the most advanced scientic principles, and nothing on the market today can compare with it. It accomplishes so much more than the ordinary tonics and does it so quickly that users are astonished.

Parisian Sage kills the dandruff germs and eradicates dandruff, stops falling hair, itching of the scalp and splitting hairs in two weeks or we will refund your money.

Parisian Sage gives a fascinating lustre to women's hair and makes it beautiful. It makes the hair grow luxuriantly; it is the daintiest and most refreshing hair dressing that science has produced, and has not a particle of grease or stickiness in it. Parisian Sage costs 50 cents at your druggists or postpaid from the proprietors, The Giroux Mfg. Co., Fort Erie, Ont. The girl with the Auburn hair is on every package. Sold and guaranteed by the Poole Drug Co., Ltd.

CORONATION CARPET THING OF BEAUTY

Work Which Has Been in Progress Six Months is Finished at Last.

The great coronation carpet is finished. The work has taken six months, and the weaving was done on a special steam loom at Axminister. The cost of the specially designed portion of the carpet is estimated at $15 a square yard.

It consists of two strips each nine feet wide, one 153 feet and the other 76 feet long. These will be laid from the Abbey entrance up the aisle, and between the transepts to form the letter T. Underneath and covering the rest of the abbey floor will be 600 square yards of plain carpet of a deep royal blue.

The foundation of the designed carpet is of the same shade, and the pattern, in a blue of the tint of the Order of the Garter, consists of an interlacing of laurels bound together with ribbon. In the spaces formed by the laurel design and running down the center of the strip are alternate devices of the stars of the three principal orders, the Garter, the Thistle, and the order of St. Patrick. Alternating with these is an elaborate scheme of the Tudor rose, thistle and shamrock intertwined.

Along the right and left sides respectively recur at intervals the initials G. and M. surmounted by the imperial crown. The three national emblems occur once more along the borders. The total length of the pattern is some 20 feet.

CIRCLING THE GLOBE
(By Gerald S. Rees)

Letter No. 7—"In Old London."

The wide world is a pleasant place to wander in. There is a great deal "for to admire and behold" but after all the pleasantest part of travelling is the getting home again. Dawn has languidly taken possession of the sky as we round the green clad shores of England's southern island where dwells

"The violet of the undercliff
"All wet with channel spray."

In the near distance nestling amid the rolling hollows of the white ribbed downs are villages where

"All through the long and shadeless day
The tinkling silence thrills,
Or little lost Down churches praise
The Lord who made the hills
And where the old Gods guard their round,
And in their secret heart
The heathen kingdom Wilfrid found
Dreams as she dwells apart."

Eastward the scene is as clear as a line drawing delicate if somewhat austere with the beauty of sharp and plentiful detail. Westward it is dim with many a wide stretch of grey green water framed by a low sweep of dark woods and lit by occasional gleams of bright sunshine. Far away to the left, the slender tops of a motionless line of sentinel cruisers anchored at Spithead rise clear cut against the pale horizon.

On the right a forest of masts and derricks cluster around the solid mass of the Southampton docks, veiled by a floating canopy of smoke, splashed with broad streaks of red and yellow by the slanting funnels of the steamers lying alongside. Between these two points there is a constant coming and going of shipping from all parts of the world, British mail liners, French ships that sail empty and yet earn big bounty money, Norwegians that cut the life out of freight rates, as well as the great way-weary tramps from many ports. The early morning breeze, cool as though blown from a green sea cavern, carries a white sailed cutter, like a tiny moth, along the towering black side of a huge masterful North German Lloyd liner. Close by, the slim green Shamrock, just stripped of her topmast and her fluttering string of winning flags raises and falls slowly on the heaving tide, and the giant White Star Oceanic, hardly less beautiful in its lines, forges down mid-channel to the open sea.

"Anchor's Down"

There is a motion of the captain's hand on the glittering brasses of the bridge telegraph. A muffled uproar ascends from the sea as the immense screws answer the urgent backward thrust of the piston rods and the ship slows to a standstill as the anchor chains roar through the hawse pipes and the bosun's whistle says "Anchor's Down." She has safely carried us across the seas and arrived "on time."

A special train swings us over the level roadbed from dockside to London town, and the two hours journey gives the idea of old England as a sweetly ordered little land, a country of pretty fields, with tidy hedges, of well kept woodlands, where no dead trees are seen, of clean smooth roads with neatly trimmed grassy borders—a smiling, peaceful happy land—and a land of flowers, the cottage gardens overflowing with bloom; wild flowers everywhere, the meadows bright with buttercups, and the hedges as foaming seas of parsley. Salisbury, Bassingstoke, we pass like a flash, and as the evening shadows lengthen we rumble through the outskirts of the great city, passing en route a multitudinous array of red and green semaphores, and shriek our way into the heart of the empire's home. Big Ben, the huge clock on the Westminster tower, booms a welcome. How many, I wonder, could tell me the rhyme to which the chimes of its melodious bells are set?

"All through this hour, Lord, be my guide;
And by Thy power, no foot shall slide."

London is still the same as we saw it on the prairie lands of the northwest, the back blocks of Australia, or the sun kissed isles of the south Pacific and as most exiles see it in other parts of the world, thinking of it as "home," the epitome of the human race, a city prolific in adventure. It still leads the world, and as once all roads led to Rome, all roads within the British empire lead Londonwards, passing over the trackless oceans safe under the shadow of the fleet. One returns from a globe trotting expedition a convert to imperialism, and justly proud of the extension of our language and literature and of our kith and kin beyond the seas, and withal an appreciation of the deep sense of responsibility that true citizenship in the empire entails.

Ridgways Coronation TEA

Packed in BEAUTIFUL CORONATION SOUVENIR TINS

60¢ a pound

In commemoration of the coronation of King George V, "Ridgways" have put on the market a coronation tin of a most picturesque and exquisite design, bearing excellent portraits of King George V, Queen Mary and the Prince of Wales. Special panels have been designed representing Canada, India, Africa, Australia and New Zealand.

Only a limited number have been imported. Price 60c. for one pound tins.

At Best Shops.

EST'D 1836

MR. WALKER WILL DEFINITELY STAY

Well-Known Nelson Optician Will Continue To Be Available for Consultations.

It will interest the large portion of the public composing the clientele of J. J. Walker, the well-known Nelson optician, to be assured definitely that Mr. Walker is not leaving Nelson but, on the contrary, that he is definitely settled here, so far as it is possible to forecast the future. An impression to the opposite effect seems to have been found to exist in some parts of the Kootenay, certain intending patrons, through a misunderstanding of the circumstances, not being aware that he is still in business in Nelson.

A large proportion of Mr. Walker's practice in treating disorders in that infinitely delicate organ, the human eye, comes from the tributary country, which contains numerous patrons who have good cause to be grateful for Mr. Walker's good offices. To these the assurance that he will continue to be available for consultation in difficult cases will be particularly grateful news.

The circumstances which no doubt led eventually to the erroneous impression just referred to are well known. It was Mr. Walker's intention to retire from business in Nelson, as a result of a deal that seemed advantageous. When it came to a matter of carrying out the terms of the deal it was discovered that the ostensible purchaser did not have the power to bind his principals. To this circumstance the many clients of Mr. Walker owe their retention of his services.

NAVIGATION OF COLUMBIA RIVER

A. B. Mackenzie Circularizes Washington and Oregon on Matter of Opening up Great Waterway

From A. B. Mackenzie, secretary of the Associated Boards of Trade of Eastern British Columbia, Fred A. Starkey, president, Saturday received a copy of the following letter regarding the navigation of the Columbia river which has been forwarded by Mr. Mackenzie to a number of individuals, chambers of commerce and boards of trade in Washington and Oregon:

"Under separate cover I am mailing you a copy of the proceedings of the 13th annual convention of this association, which was held last January. In this is set forth a resolution in regard to 'Navigation of the Columbia River.' Information that we have collected goes to show that it is not such a formidable undertaking as it appears to be at first sight to make this magnificent waterway navigable from its mouth as far as Revelstoke, B.C., on the main line of the Canadian Pacific railway, and it may be possible to continue to Windermere lake in East Kootenay, not far from where it takes its source.

"We have assurances from the Rt. Hon. Sir Wilfrid Laurier, premier of Canada, that he is in perfect accord with the undertaking and that the Dominion government will have a survey made of the Canadian portion which should lead to the removal of the obstacles to steamboat navigation.

"The navigation of the Columbia river is a matter of the greatest importance to the states of Oregon and Washington and to British Columbia and can undoubtedly be brought about by the co-operation of the governments of the United States and Canada with the assistance of the states through which it passes. It would act as a regulator of interior railroad freight rates, would attract desirable tourist travel and would be the means of bringing under cultivation large areas of land along and tributary to its banks.

"I feel sure that you can do a great deal to increase, in your locality, public interest in this undertaking and substantial assistance should be forthcoming from the different governments.

"I shall be pleased to hear from you with all available information on the subject and I trust we will be able to formuate a definite program that will lead to speedy results."

FIELD CROPS IN CANADA.

A bulletin of the census and statistics office states that the season this year has been favourable for field crops in all parts of Canada, and excellent reports have been received from all the provinces. The lowest percentage of condition is made for fall wheat, which suffered from inadequate protection in the winter months, and also to some extent from spring frosts. The areas of fall wheat are greater than last year by 4.50 per cent, and of spring wheat by 13.70 per cent. The total area in wheat is 10,503,400 acres, as compared with 9,294,800 in 1910, and 7,750,400 in 1909. The per cent condition of fall wheat at the end of May was 80.63, and of spring wheat 96.69. The area in oats is 10,279,800 acres and its condition 94.76, as compared with 9,864,100 acres and 93.95 per cent condition last year. Barley and rye each show a small decrease in area, but the condition is higher than at the same period last year. Slight decreases are also reported for areas of peas, mixed grains, and hay and clover, with per cent conditions of over 90. Hay and clover have a reported condition of 91.45 for the Dominion, being practically 100 in Manitoba, Saskatchewan and Alberta. The area of the field crops named is 32,051,500 acres for 1911, compared with 30,554,200 acres for 1910 and 28,194,900 acres in 1909. In the provinces of Manitoba, Saskatchewan and Alberta the area in wheat, oats and barley was 3,491,413 acres in 1900, 6,009,389 acres in 1905, 11,952,000 acres in 1909, and 13,809,300 acres in 1910. and it is 15,355,500 acres this year. The increase of these crops from 1900 to 1911 was 2,663,699 acres in Manitoba, 7,364,315 acres in Sasketchewan and 1,836,073 acres in Alberta.

ROSSLAND HERE CORONATION DAY

Chapman Pitching Great Ball This Season—Lanz, Team's New Twirler, Is Said To Be Puzzling.

Played 6, won 3, lost 3, percentage .500. This is the record of the Nelson ball team for the season to date. And considering the bad luck at Cranbrook, it's a pretty good record.

Chapman is pitching a great game this season and is getting stronger every game. Lanz, the new importation, is expected to become a tower of strength to the team during the summer. He's not very fast nor exactly a strike-out man, but he seemed to puzzle Cranbrook's best batters during the East Kootenay tour of the team.

About the only place where the team is short this season is in the infield, where Manager McLean needs another man. He expects to get him within the next week or two.

For the big game on Coronation day with Rossland on the Nelson diamond, which has been put in first-class shape and brought to standard size, both men will be on the ground, though it has, of course, not yet been decided which will hold down the box. D. Phillips will probably catch, as his brother is still suffering from a split finger, received in the Trail game here two weeks ago.

NEW RACING BOATS ARRIVE IN CITY

Are Splendid Specimens of Modern Boat Builders' Art—Will Be Used on Dominion Day.

Saturday at the Boat club float were many members of the club admiring the four new racing boats which have just been received from Putney, England.

The boats are the finest specimens of modern racing craft that have ever been seen in Nelson and are said to be the equal of any in Canada. In workmanship and design they are splendid specimens of the boat builders' art and should enable the local oarsmen to make a fine showing against outside crews on July 1 and on other occasions.

They are built to special specifications prepared by the executive of the local club and are regarded as highly satisfactory. They were tried out yesterday and will be in use from now onward by the racing crews chosen for the Dominion day celebration.

AFTER PETE STANDRIDGE.

CALGARY, June 18.—The Calgary baseball club has received several offers from the big leagues for Pete Standridge. Pete has been asked for from the National, also the American league, but Calgary does not like to part with the old liner. Yesterday President Savage received a telegram from the American league (team not mentioned) offering $2,000 for him, and this is the best yet.

Today President Savage stated that the home team were not anxious to part with Pete. The club intends to give the public the best ball possible and they are not willing to part with their best men. Peter, however, is sold and so is Wilson, but the home team intends to employ players who are the best to take their places.

GOING TO BIG LEAGUES.

VANCOUVER, B. C., June 18.—Jimmy Harrison, the diminutive third baseman and outfielder, and Art Rasmussen, the lanky twirler, will graduate from the Northwestern league at the end of the present season. President R. P. Brown of the Vancouver club is dickering with two major league clubs for the contracts of the two youngsters and it is just about settled that the pair will go to the world's champion Philadelphia Athletics. The deal will probably be closed today, only a matter of something like $250 on the first payment standing between Connie Mack and Bob Brown now. Although the figures are not made public it is stated that the Philadelphia club will pay something like $5,000 for the two players. President Brown received a wire from the Pittsburg club asking for an option on Harrison for two days but the Vancouver club leader could not give President Barney Dreyfus the chance as the sale to the American league club was in sight.

Both Harrison and Rasmussen are "finds" this season and they have developed wonderfully with the Vancouver club. President Brown thinks "Rasty" is a better twirler than Harry Gardiner, who went to Pittsburg last year and is still with the Pirates. Harrison is the most popular player on the Vancouver club right now and has won his way into the hearts of the fans by clever ball-playing. He made good at third base while Bobby James was out of the game, filled in most satisfactorily at shortstop when Scharnwebber was injured, and has played some splendid ball in the outer gardens.

COBBS' IMMENSE VALUE TO DETROIT BALL CLUB

Leaving out all the thrills and getting down to cases—large round cases of a value of one buck each—what is Ty Cobb woth to the Detroit ball club? Ha, ha! Sure you laugh. That has all been threshed out before. Sure it has. But still it offers an interesting diversion if you haven't anything to do.

Recently Mr. Cobb had a real day, whipping the Yankees practically single-handed. He scored from first on a single and from second on a passed ball, and then capped the base-running feats by rapping out a two-bagger which sent two runs home ahead of him and scored himself while Sweeney was disputing the decision on Bush.

On the defense he made a couple of neat catches, on one of them doubling the fleet Hemphill off first.

And now to get down to the mercenary side of the picture. Ty draws a salary which soars around the $10,000 mark, and back in the winter time, when the baseball scribes are clinging to the payroll by their eyebrows, a discussion was started as to Ty's being worth $100,000 to the Detroit owners.

There is a large number of people who dispute the fact that the Georgian is worth $100,000 and earns $10,000 per year. In figuring a man's earning capacity the only safe way to handle the dope is to size up the return due directly to his efforts to his employers.

In Cobb's case this cannot be done with accuracy, but a good line is available. The Tigers have been earing up the western teams of the league. They walked over New York in the opener, and then the Yanks turned and grabbed two. What was the result? The faint-hearted ones promptly pulled the blue stuff and went around sighing. "They're blown now. The east will walk through them."

If New York had made it three straight the result would have been noticeable in the falling off of the attendance. But the Tigers pulled it out of the fire and Cobb was the chief raker.

What was the result? Cobb's feat meant in the neighborhood of an additional $1,000 in the box office the following afternoon over what would have been there if the Tigers had lost the day before.

And Cobb does such tricks many times during the season. When the team goes east thousands will turn out to see Cobb play—not to see the game, but to see Cobb—people who don't know a baseball from a pumpkin. And more dollars will roll into the Detroit club's coffers.

Yes, it would appear that Ty Cobb is worth his $10,000 per year and could not be duplicated for $100,000.

SPORTING SPOTLIGHTS.

The members of the Nelson Gun club will note with considerable pleasure that several Spokane marksmen have announced their intention of taking part in the big shoot here on June 30 and July 1.

It is to be some ball game here on Coronation day, Manager McLean promises.

C. F. Pincott has entered for the Walker cup singles competition at the big tennis tournament here on June 30 and July 1. Mr. Pincott learned his tennis in Australia, where he attained a big reputation in the various matches in which he was a successful contestant. He is somewhat out of practice at present but is expected by those who have seen him at the nets to put up a game that will make some of Kootenay's best players travel to beat him.

Sergt. J. H. Ellis, who is on his summer vacation, caught 15 silver trout while trolling between the city wharf and the rapids Saturday.

(Additional Sport on Page 5)

NEW WESTMINSTER GETS FOURTH GAME

Beat Vancouver Five-Four Saturday—Royals Won on Merits But Plenty of Rough Work

(Special to The Daily News.)

VANCOUVER, B.C., June 18—In one of the best games of the series thus far the New Westminster lacrosse champions defeated Vancouver by 5-4, at the Royal City Saturday. It was the fourth league game in the series of ten, the teams now being even with two each.

In the first quarter Fitzgerald scored Vancouver's only goal, while the champions made it three on brilliant shots by Feeney, Gordon Spring and Len Turnbull. In this quarter the excellent work of the Westminster defence was the feature, frequently preventing the Vancouver all star team from scoring.

The second quarter was Vancouver all the way, Allen, West and Lalonde scoring in the 14 minutes of play while Westminster failed to score a goal.

That was the end of the scoring for Vancouver, the third and fourth quarters being ciphered although there were many near goals. The Westminster defence never did better work.

In the third Gordon Spring and Cliff Spring made it two more for Westminster, but like Vancouver the champions failed to score in the fourth.

The game was Westminster's on merit, although there was throughout rough work in spots, there being 13 penalties in all, seven for Westminster and six for Con Jones' stars. Mat Barr of Vancouver was referee.

AFTER UMPIRES HOT AND STRONG

Dissatisfaction Over Cancelled Games in Northwestern—Longanecker on Receiving End of Boxing Bout.

VICTORIA, June 18.—The Northwestern league probably holds the world's record. Sounds good, but that is about all. Three forfeited games in one week is more than recorded in the entire history of the old Pacific Northwest league and the Pacific National. Quite naturally there is trouble brewing.

It really looks like a hot time in the old town for the umpires, especially Longanecker. Bob Brown says there was no necessity for Longanecker forfeiting either of the two games in Vancouver last week, and he is upheld in this statement by Nick Williams, manager of the Portland club.

Williams says that when Catcher Harris was ordered off the field, his offense consisted in dallying. He did not take more than a minute of the three usually allowed, anyway, according to Williams. The alleged offense of the Vancouver player consisted of refusing to replace in the bag three balls.

Out of these small beginnings two games were declared forfeited by scores of 9 to 0. In the case of Harris, it would have been an easy matter to call for a policeman, and in the case of the balls the umpire should have taken the entire outfit away from the Vancouver bench and made his own selections.

In order to protect himself with his patrons Saturday week, Brown returned in cash and rain checks the equivalent of $100. He fined Manager Brashear $100 for permitting the incident to occur. At the time Brown was stirred up, and he started down to see Longanecker about his action in calling the forfeit. He found old Bob Stewart, one of the park directors, playing the part of a pugilist, with Longanecker on the receiving end, and had to take upon himself the part of peacemaker.

Then there is the game Umpire Kane forfeited to the Tigers at Tacoma. Manager Wattelet has a big kick coming about that and he says he has good reason for his protest.

LANGFORD TOLD NOT TO HURT TONY CAPONI

WINNIPEG, June 18—That Sam Langford was instructed by the police not to in any way engage in a prize fight or hurt Tony Caponi under pain of arrest is the explanation given by Langford and his manager for the farce of Friday night. This statement is supported by the police who say prize fighting is a criminal offence in the Dominion but that boxing exhibitions will be allowed. The last fiasco has about settled boxing in Winnipeg.

CRICKETERS ENTHUSIASTIC

With the coming of the hot weather the cricketers in the city are becoming enthusiastic and there is a satisfactory turnout at the majority of the practices. A feature of the last practice was that three newcomers to the city were at the nets.

The club is dickering with Macleod for a game to be played here in the near future while a match with Proctor is also on the cards.

The third week in July has been chosen for the annual cricket week. Teams from Grand Forks, Revelstoke, Proctor and Fruitvale will be present.

There will be a practice tonight at which all cricketers, whether members of the club or not, will be welcome.

TO PLAY FOR POSITIONS

The committee in charge of the tennis tournament on June 30 and July 1 would like the following to play off sometime this week in order to decide upon representatives for the inter-city contests in the doubles and singles: Mrs. Wickes, Mrs. Webster, Mrs. Bird, Mrs. Goepel, Miss E. McFarlane, Miss G. Cooper and Swan, Pincott, Phipps, Stubbs, Wickes and Webster.

AL STARS WIN AGAIN

By a score of 15 to 11 the All Stars, in a game marked by heavy hitting by both teams, walloped the Wonders yesterday afternoon. The battery for the winners were Pitts and Grizzelle and for the Wonders Hoskins and Boyce.

"MY BACK IS KILLING ME"

"FRUIT-A-TIVES" WILL CURE

Backache means Congestion of the Kidneys. Dull ache in the back—sharp, shooting pains—headache and nervousness—mean that the Kidneys are overworked. The Bowels are constipated and the skin is inactive, so that the Kidneys are compelled to do the work of both bowels and skin in throwing off the waste of the body. The Kidneys thus become irritated and inflamed and backache results. The only possible way to relieve the congestion and cure the pain is to force the bowels and skin to do their share of the work.

"Fruit-a-tives", the great fruit medicine, is the best and most scientific Kidney Remedy in the world.

"Fruit-a tives" will always cure Pain in the Back and Kidney Trouble. 50c. box, 6 for $2.50, trial size, 25c. Dealers, or from Fruit-a-tives Limited, Ottawa.

C. J. WESTHEAD HAS FINE NEW FLOATING RESIDENCE

K. Henry has practically completed the construction and fitting up of C. J. Westhead's new houseboat, which is generally regarded as the finest craft of the kind ever seen on Kootenay lake.

The boat is built for use as a summer residence and is equipped with bath, hot and cold water and the best of plumbing and furnishings.

Mr. Westhead proposes to take the boat up to Seventeen-Mile point tomorrow and to live there during the summer. Hung on davits is a dinghy for use for fishing and other purposes.

EASTERN LACROSSE SATURDAY

At Toronto—Tecumseh 19, Capital 2.
At Cornwall—Shamrock 4, Cornwall 2.

PHILLIES WANT TUG WILSON.

CALGARY, June 18—President Savage, of the Calgary baseball club, received a wire from the Philadelphia team in the big league today, offering a large sum for Tug Wilson, Calgary's crack outfielder. The price is high, and it is also likely that Wilson will be sold. In fact it is practically settled now that Wilson will be the property of the Philadelphia team in future. Philadelphia offered a cash price for Wilson to be delivered immediately, and another cash offer for him to report in three weeks. Although the team does not like to see Wilson go, they consider the price offered should be accepted, and it is probable that the reliable left-garden man will be seen for the last time this series.

Today President Savage signed C. E. Thompson, the first sacker, who two years ago played with Brandon. Thompson at one time played in Saskatoon, and was one of the bunch taken to that city for the professional team that went South as an advertisement. Thompson is considered an excellent man and is also able to play an outfield position. Thompson will report to the team when Wilson leaves for the east.

CORONATION GIFTS FOR SAILORS

The special coronation fund of the Canadian branch of the British and Foreign Sailors' society has realized $1,100. It was organized to evoke an expression of sympathy with the worldwide work of which King George is patron and in which since his accession both the King and Queen have shown such practical interest. The sum will be devoted to providing four cabins in the new institute at Vancouver and a Canadian room in the King Edward Memorial institute on the Island of Malta. Intimation has been forwarded to Gen. Sir Leslie Rundle, governor of Malta, that the room will be furnished and decorated in a manner characteristically Canadian. Also a Canadian room will be provided at Holyhead in memory of the Prince of Wales' forthcoming investiture, and his royal highness is expected to lay the stone of the new institute immediately after his installation. And a coronation cabin will be given to the new institute at Victoria, B.C. The demands upon the society for new and improved institutes are enormous and come from every part of the world and it designs by its efforts to alleviate the unrest which is known to exist among sea faring men as to the conditions of their life and work.

Overskirt and underskirt are of contrasting materials in some of the new models.

To Get the Full Value
Of Your Daily News Subscription

There are two principal ways in which a good paper such as The Daily News may be of benefit to you.

Its news columns keep you in touch with what is happening from day to day. They bring the latest news, not only of your local district and province but of all Canada and the United States and the more important events all over the world.

But the advertising columns of The Daily News bring to you each day information still more valuable, because of more real assistance in your everyday life. They help you to spend your income so as to get the greatest possible benefit from every dollar. They make shopping easy. They keep you posted on prices, and bring you timely notice of any especially low prices which enterprising merchants are able to offer from time to time. They inform you promptly of the arrival of new goods and of the latest styles.

If you need plumbing done, or electrical fixtures put in, or your watch repaired, or your lawn mower sharpened, or most anything else fixed up about the house, a glance through the ads in The Daily News will quickly find someone who makes a specialty of doing what you want done.

If you wish to rent or buy a house, or purchase a piece of land for cultivation or investment, the real estate announcements in The Daily News will save you lots of time and trouble.

In fact, no matter what you want, the advertising columns will help you find it. It pays to read them regularly and carefully.

MONDAY, JUNE 19

MR. BORDEN'S TOUR.

Mr. R. L. Borden, leader of the Conservative party in Dominion politics, today opens a series of meetings throughout the three prairie provinces for the purpose of laying before the farmers of the west his views on reciprocity and the policy of his party on matters generally. Mr. Borden will place the attitude of himself and his party on the question of reciprocity fairly and squarely before the people of the west. He will tell them why he and his supporters are opposing, and will continue to oppose, the arrangement entered into by representatives of the Laurier government with the representatives of President Taft and of the United States.

The farmers of the west have been educated into the idea that reciprocity with the United States would prove of immense benefit to them. Mr. Borden's mission will be to show that reciprocity is inimical to the interests of Canada as a whole and in addition is opposed to those of the empire, while at the same time it will not secure for the farmers of the west the benefits which they have been led to expect. There is not the slightest doubt but that Mr. Borden will place the question of reciprocity in a new light before the farmers of the west. Having heard both sides of the case the farmers will be placed in a position to pass on what is undoubtedly the most far-reaching issue that has ever been presented to the people of Canada.

The farmers of the west will also take advantage of the opportunity to place their views on matters generally before Mr. Borden, so that the result of the trip should be a better understanding all around.

That the people of the west as well as those of the rest of Canada are very much interested in reciprocity is shown by the number of requests which Mr. Borden has received for meetings at places not included in the itinerary as at first arranged. To meet these requests a number of other meetings have been provided for, but it is most unfortunate that, owing to the fact that parliament reassembles on July 18, Mr. Borden has only a limited amount of time at his disposal and cannot, therefore, visit as many portions of the west as he would have liked. All the principal points on the prairies will, however, be touched so that Mr. Borden's views and the position of the Conservative party generally will be placed before the great majority of the people, for those who will not have an opportunity of hearing him will be able to read his speeches in the various papers.

Westerners, therefore, will be enabled to vote intelligently so far as the position of the two parties is concerned on the reciprocity question, and that is all that anyone can desire. Mr. Borden and the Conservative party have nothing to fear from a verdict secured in such a way.

WHY NOT?

Discussing the situation in the Crows Nest Pass and southern Alberta, the Lethbridge Herald says:

It is indeed regrettable that the union men and the coal operators have been unable to reach an agreement by which the mines could be opened for work while the remainder of the investigation is being made. Every day the mines are idle means thousands of dollars of loss to the miners and operators, as well as to the general public. The public cannot understand why it is that the contending parties cannot arrive at some arrangement under which the mines could be operated. Of course, they are not possessed of all the facts, but from what is known by the public it does seem folly for the parties to take such unreasonable positions that such great loss and suffering must be inflicted on everybody concerned. It should not be a difficult matter, if the miners and operators have any desire whatever to have the mines operating, to make an arrangement by which whatever terms are finally agreed upon would apply from the time the mines started, and at that time whatever financial differences there are could be made good by the two parties to each other.

EDITORIAL NOTES.

Judging by the way the crops are coming on, western prosperity will reach the peak load about the time the farmer cashes in on those 30 or 40 bushels to the acre next fall.—Edmonton Capital.

Significantly enough, says the Ottawa Journal, the English journals invariably criticise Laurier's "stand." He doesn't seem to be moving ahead any.

Hon. Frank Oliver, minister of the interior, is at present stumping the west in the interests of reciprocity. It is to be hoped that he will deal with all phases of it, including a reciprocal arrangement whereby a certain cabinet minister transferred to a certain corporation over 600,000 acres of valuable Saskatchewan agricultural land in place of an equal number of acres of inferior grazing land in the northern portion of Manitoba and about the same time was able to deposit $68,500 to his credit in one of the chartered banks of the country.

The people of British Columbia, irrespective of politics, will join in the regret that Mr. R. L. Borden will be unable to visit this province during his present tour of the west as was at first planned. Conditions have changed since then. The fact, however, that parliament reassembles on July 18 leaves Mr. Borden no option in the matter.

It is expected the petition to the minister of justice asking for the release of Taylor, the man sentenced in this city for attempted suicide, will today be ready for signing. There should be no trouble in making this the most representative petition that has ever been sent from Nelson on any question.

The C. P. R. always keeps abreast of the times. The latest move of the company is to place soda fountains on its through trains, from which soft drinks and ices of all kinds will be served. This will give the company a chance to introduce a novelty in this line in the shape of "Cinder Sundaes."

The new corsets are no longer boned about the waist in order to give the Grecian figure.

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale.
All the people use it.

DAMMING TO REPLACE DREDGING

Suggests Novel Method of Improving National Water Route—Pay-as-You-Enter Cars.

MONTREAL, June 18.—The scientific discussion which has been waxing warm of late as to whether it would be possible to make the St. Lawrence river an all-the-year-round navigable stream was given a new fillip this week when Dr. Olgar Manheim, consulting engineer on rivers and harbors to the Norwegian government, who is finishing a tour of investigation of the principal waterways of this continent, suggested that it might be more practicable to pay more attention to summer conditions on Canada's great river than wasting time theorizing about what might be done in winter.

The discussion was originally started when a report to the governmnt by Dr. Howard T. Barnes, professor of physics at McGill university and world famous as an ice expert, was made public. Dr. Barnes said winter navigation of the St. Lawrence was quite possible. Engineers, rivermen and others split on his opinion. Some stood with him, some against. Then Dr. Manheim came along and turned the public mind to summer navigation with a brand new theory. Dr. Manheim believes that millions now spent in dredging may be saved and that the low water period in the autumn may be entirly eliminated.

"I do not know whether it has even been suggested in this country," said he, "but I believe that regulation or conservation of the water would solve the problem far more cheaply and lastingly than by dredging. When I was in Cornwall I took a little motor boat and went up to the foot of the Long Sault rapids, where I understand it is proposed to dam the St. Lawrence for the purpose of providing waterpower to the towns on the Canadian and American shores. It is a gigantic proposition they have there, and one I think which might be followed all along the St. Lawrence as far as Montreal. I do not mean that the damming should be done particularly for waterpower development, but for bettering navigation. The dam at Long Sault, I believe, will make that part of the river into a quite navigable stream, instead of the dangerous passage it is now. It will not divert any water from the river, but will hold it back and thus regulate the depth for miles to the westward.

"The time will come when similar works will be required at other points on the St. Lawrence; that is to say, regulating dams will have to be built to conserve the water and maintain a high enough level for the navigation of large vessels."

Chinese Ride Canadian Fashion.

The progress of the New World is fleeting into the darkest part of dark old China—not on the wings of the wind, but on the wheels of a modern invention. The Chinese are nothing if not up to date these days. Ten years ago a street car would have been quite tabooed in the Celestial empire. Today the Chinese have not only adopted them but are demanding the very best and latest models of the pay-as-you-enter type. These cars, strictly Canadian, for it was in Montreal that they were invented and first tried out, have been the one great spectacular success in city transportation since electricity has been used. Montreal alone adopted them for some time. Then Chicago, New York, Cincinnati, Toronto, in fact cities and towns all over the continent saw their value and took them up. The three strong points in favor of these cars are the closer collection of fares it is possible to make, the increased receipts per car hour and a most astonishing decrease in the number of accidents. It may well be said that China is waking up.

From Coast to Coast.

Charles M. Hays has completed his annual coast to coast inspection trip of the construction and maintenance of way of the Grand Trunk Pacific and returns to headquarters at Montreal hoping that the first through train on Canada's third transcontinental railroad will steam into Prince Rupert about a year from now. He also says that the Pacific terminus of the road has doubled its population in the last six months and that the municipal authorities are planning for a city of 100,000 inhabitants. Such is the faith of the Bank of Montreal in the future of the place that they have loaned the corporation $1,000,000 cold cash without security to make necessary improvements.

The Grand Trunk is spending something like $5,000,000 on drydocks, terminals ,car shops and foundries, while capital from other sources is counted in the millions. The Prince Rupert Hydro-Electric company is commencing work on their waterpower development on the Khtada river under the direction of R. F. Hayward, general manager of western Canada power, and it is expected that power will be turned into the city within two years. The western Canada company's works are about completed and power will be transmitted to Vancouver next month. Mr. Hayward will then devote his entire time to the Prince Rupert enterprise. The western Canada company was started in precisely the same manner as the Prince Rupert company about a year and a half ago, with the same master minds of Messrs. Cahan and Hayward behind both. Mr. Hayward expects to develop about 15,000 horsepower at first, 7,500 of which has already been contracted for, and may, if so required, develop as high as 30,000. The company owns and controls all the waterpower within a radius of 130 miles of the city, and as power can only be transmitted satisfactorily about 90 miles it is evident that theirs will be a monopoly for a long time to come. No money was spent in acquiring the waterpowers, all the vendors agreeing to take stock in the new company, so that the proceeds of the bond issue of the company may be used for development purposes solely.

13 per Cent. Interest
Cheap Residences Close In

Two six-roomed residences on Mill street, opposite public school. All modern conveniences. Now rented at $20.00 per month each. Price $1,850. Payable $600 cash, balance to arrange.

Nelson residential property is due for a raise in the near future and we do not know of any better safe investment than good renters close to the centre of town such as these, which produce about 13 per cent per annum.

HARDIHOOD OF YOUNG DEBUTANTE

Dances All Night and Riding at Eight o'Clock—Cold Bath Instead of Sleep.

LONDON, June 18.—Kidneys and bacon and poached egs at 2 o'clock in the morning, and this after an earlier supper at which quails and asparagus, plovers' eggs, strawberries and cream formed part of the menu! Dancing until daylight, and, after a scanty allowance of sleep, a cold plunge and quick dressing so as to appear properly habited and mounted in the park at 8.30!

Then home to interview dressmakers and to shop, until the time comes to get ready to fulfill the day's long list of social engagements, that end again with the thoroughly British dishes served by thoughtful hostesses to the survivors of the ball-room in the wee small hours of the morning.

The Strain of Long Hours.

It is in a literal whirl of social events that the debutante finds herself when she becomes a butterfly ot society. How she contrives to exist through it, much less to enjoy her first season, is a marvel.

It is since London became a city of reposeful restlessness (the contradiction in terms is explained easily) that the debutante's career has been rendered as little harassing to her young and ardent temperament as it is possible to make it.

A bewildering array of entertainments is set down upon the calendar of each day of June and of July also; but everything that modern science and cleverness can contrive makes the difficult task of doing too much one that will not sap the strength of those who are the doers.

The modern girl comes into the arena of society fitted by her training in field sports to endure the strain of long hours and even of late ones. She knows that she can save up her vitality for a great call upon it, and that after she has expended it she can at a convenient time re-stock her reserve forces in readiness for future emergencies. She is not the slave of her emotions. Great crowds are not the terrifying ordeal to her that they were to the cloistered child of the past, who was brought straight from the school room to the court; for the modern mother trains her daughters to be accustomed to society, and at all the great garden receptions even in the height of the season it is usual to be looked after and waited upon by the little girls of the house and also the little boys, who are still in the school room.

By these means the shyness that used to keep the debutante on the rack and use so much of her vital force is avoided altogether.

Fresh and charming in her morning dew, but stupefied by awe and apprehension never. To her, as to her elders, the telephone which saves so much unnecessary and wearisome correspondence is available, and the motor car is there to bear her from one point of the metropolis to another, and out into the beautiful country for a change of air whenever there is an opportunity for it, and everyone in modern times sees that such opportunities are of frequent occurrence.

Quick Change Toilettes.

It is not surprising under these circumstances, that the program for a debutante's day can comprise a constant change of excitements without prostrating her.

Dress is at the same time a less exacting affair than it used to be and a more exacting one. It is not wearisome to wear the limp little frocks made of the lightest materials and the featherweight hats that are demanded nowadays, but they must be changed so often.

A debutante is in her maid's hands at intervals from early morn to dewey eve, for each occasion demands its proper toilette and each toilette its requisite suite of adjuncts. It comes to pass, too, that the coiffure must be dresed again and again in order that it may agree with the style of dress that is worn.

But it is not only by making charming appearances at parties, at the opera and the theaters, at Hurlingham and Ranelagh, and at the fashionable race meetings that the debutante fills in her day. She has a certain amount of serious thinking and serious work to do.

The Serious Side Of it.

Living in the midst of affairs, she takes an interest in social and political questions and contrives to satisfy her desire for something less evanescent than the daily round of gaiety by attending, and in many cases actually organizing, meetings for the benefit of this and that league of well-doing.

She goes to debates in the houses of parliament, and there are no great concerts and picture galleries that appeal to her and remain unvisited. Very happily she is spared the long and tedious dinner parties that were a blot upon her mother's pleasures, when she was a debutante.

The cheery feasts she attends are preliminaries to a dance and a series of dances, for it is the delightful practice of the chaperons of the present day to spare one another as much as possible, and one hostess will take several girls under her wing for part at least of an evenings engagements.

Very splendid is the introduction into society that befalls a girl this year. Magnificant entertainments at court and elsewhere lead up to the great day of their majesties' coronation and the attendant rejoicings, and to mark the joyful, merry makings that are proper there are some wonderful fancy-dress balls in prospect, and notably the Shakespeare masque that is to take place in the Albert hall in coronation week.

"Dressing up" appeals with a very special allurement to the debutante, who is well pleased to find her elders willing to frolic in the trappings of old times, as queens and princesses, kings, knights and faries.

The courts held by the king and queen this week have been the means of setting many a girlish heart fluttering with excitement. At last the long-looked-for moment has arrived. The debutante is presented. Before her lies the glamour of her first season. Her path is radiant with the glory of the unknown.

TEN YEARS AGO

Extracts From The Nelson Daily Tribune of June 20, 1911.

The Sunnyside hotel on West Baker street will be opened to the public today.

It was reported late last night that the trackmen on the Kootenay branches had decided to join the strikers who have gone out on the main line.

Fred Fraser and Charles Holton of Revelstoke are in town in attendance at the Masonic grand lodge.

ELEVEN MILLION DOLLARS FOR LUMBER BUSINESS

OTTAWA, June 18.—Report that the lumbering business of J. R. Booth is to pass into the hands of a British syndicate, is now current in Ottawa financial circles, and the information comes from a very reliable source.

Negotations are said to be in progress, but nothing definite is yet concluded. The deal would be so extensive as to require much time to give effect to it. The story is that the British capitalists would pay Mr. Booth $11,000,000, and take over the whole business embracing the lumber and pulp mills and business in Ottawa, the up river limits and mill and business at Burlington, Vermont.

Hand-tucked blouses of sheer linen with jabots trimmed with Valenciennes lace are much worn.

POSTMASTER GENERAL MAKES FIGHTING ORATION

MONTREAL, June 18—Hon. R. E. Lemieux, assisted by several members of parliament and other lesser lights, continued his series of Liberal campaign meetings last week, addressing the electors of Jolliette yesterday at St. Constant. Mr. Lemieux barely touched on reciprocity but warmly defended the navy bill and fiercely attacked Bourassa, Monk, Lavergne and the Nationalists. At St. Constant this afternoon 2,000 people assembled to hear the postmaster general. He opened with an attack on Mr. Bourassa in which he characterized his opposition as the "cries of a fool disappointed in his ambitions."

Mr. Bourassa had attacked him on more than one occasion but could never prove a single assertion to detract from his reputation. He then said that the Nationalist policy aimed at the isolation of Quebec but it should be remembered that Quebec was no longer a part of France. France had changed since the days of Wolfe and an abyss now existed between France and Quebec while the flag of Britain had protected the faith, the religion, and the language of Quebec. Discussing the navy bill he repudiated the statements that Sir Wilfrid Laurier had betrayed his country.

ARE AFTER NOXIOUS WEEDS IN WINNIPEG

Street Commissioned Tallman is organizing a campaign against noxious weeds in the city, says the Winnipeg Tribune. The edict has gone forth that every resident, ratepayer and citizen is expected to keep his grounds or property clear of all such nuisances. Failto comply with these instructions a penalty of $5 per day is threatened and without notification either.

This campaign promises to add to the attractiveness of Winnipeg's beautiful boulevards and the street commissioner, far from anticipating any disagreeable results expects every citizen to remove and keep removed all weeds and unsightly things about their grounds.

MINERS STAMPEDE TO NEW PLACER GROUNDS

NOME, Alaska, June 18—A stampede is on to the Good News Bay district, south of Kuskonowan, where rich placer grounds have been discovered. Several hundred prospectors have gone back from the Iditarod and many are going back from here.

FALLS TO DEATH

NEW YORK, June 18—Falling from the 28th floor of the Bank Trust building, nearing completion at Wall and Broad streets William Anderson, a stone cutter, was instantly killed. The body dropped in front of the Wall street entrance to the stock exchange and was terribly mangled.

NATIONALS SCORE WIN.

MONTREAL, June 18.—The Nationals had little difficulty in defeating the Caughnawaga Indian lacrosse twelve, seeking admission to the N. L. U., by a score of 13 to 1 this afternoon.

Flower hats are still popular.

INDIANS WALLOP CAPITALS

TORONTO, June 18—The Tecumsehs administered an unmerciful defeat to the Capitals yesterday, the half time score being 6-0 for the Indians. 'Caps scored once in the third and again in the fourth quarter but Querrie's braves tallied 11 more and the final score was 19-2. Play in the first quarter centered mostly around the Capital goal but the Ottawa defence gamely met the Indian's agressive tactics and only one goal was scored by Tecumsehs in the 20 minutes. In the second quarter Referee Foran fined Morton $1 in addition to his ten minute penalty for hitting Butterworth, the official holding that the blow was not an accident.

CORNWALL GOES UNDER

MONTREAL, June 18—Shamrocks lifted themselves out of the no "per cent" class at Cornwall's expense here yesterday, leaving the factory town 12 to share the cellar position destined for the use of the "won none" clubs with Ottawa's representatives in the N.L.U. The final score was 4-2. Cornwall lined up with another veteran, Francis Cummins, back on the team, while the Shamrocks adopted opposite tactics, appearing without Kavanaugh, Hegan and O'Rielly whose places were taken by youngsters. The game was even all the way through, both teams being fairly matched as to condition.

Shamrocks notched one in each quarter, while Cornwall scored in the second but were blanked in the second half. Muir had the better of Hess in the nets while the young homes were evenly matched. The play all through was indifferent being relieved only occasionally by dashes of speedy work.

SCORES AT SATURDAY'S GUN CLUB SHOOT

The high scorers at Saturday's shoot of the Nelson Gun club were Archie Bishop, Carl Larson, Harry Cramer and W. A. Ward. The full scores were as follows:

At 50 targets—Morgan, 24; Foster, 29; Jeffs, 28; Bush, 36; Cramer, 42; A. Bishop 46; Larsen, 42; Ward, 38; Grant 15.

At 15 targets—Merrihew, 10; Gerrells, 15; Dr. Smyth, 10.

DROWNED AT INDIAN HEAD

INDIAN HEAD, Sask., June 16.—Walter Roberts, a young man about 20 years old, an employe of the farm of Samuel Lotten, about five miles east of here, was drowned this morning while bathing with three other young men in a bay near the farm.

LETHBRIDGE, Alta., June 18.—President Eckstrom sustained the decision of Umpire Murphy over the disputed game at Edmonton last Wednesday after considering the communications from Murphy and Deacon White and Brandon takes the game as per score. The official scores are not all in yet, so the present correct standing of the teams is unavailable.

PEERAGES ARE STILL IN DEMAND

Many Claimants for Extinct Earldoms Before Peers—Ancient Baronies Brought to Life.

Though peers are taking to trade and the nation has pronounced against hereditary fitness for legislative powers, there is still plenty of hankering after handles to names. Eight petitions have been filed before the committee of privileges of the house of lords to investigate the alleged abeyance of peerages and the claims of the present petitioners to resume the titles.

The Duke of Atholl wishes to be entitled to the ancient earldom of Oxford, long held by the De Veres. The duke is a Scotch magnate, while the present earl of Oxford, who lives in the eastern county of Norfolk, is married to Louise M. Corbin of New York.

Claims Latimer Barony.

Francis Coutts, nephew and heir of the late Baroness Burdett-Coutts, the great philanthropist, claims the barony of Latimer. Etheldreda Mary, Lady Petre, widow of the fourteenth baron of Essex, petitions for the barony of Furnivall for her daughter, the Hon. Mary Frances Katherine Petre. Viscount Gage, a Sussex landowner, wants to be baron of Dynanut and also Lord Martin. He expects to rake one title, if not both, out of the scrap heap of the past.

Sir Robert B. S. Grey of Devonshire is keen to be Baron Fitzwaryn, while A. H. Leith of Aberdeenshire, R. G. Alexander and C. M. Kenworthy of Yorkshire, go the whole hog in demanding the baronies of Burgh, Strabolgi and Cobham. These three baronies have not been heard of for 200 years, but the rummaging in records of the coronation has led to the claimants satisfying themselves that they are going about with too humble a share in life if they can get their rights.

The Yorkshire claimants are not competing for the titles so keenly as for the estates. They petition as co-claimants, hoping to lay hold of a wide territory. Mr. Leith claims against them for "some one of the said baronies."

Linked By Marriages.

The three baronies were linked by intermarriages. Strabolgi fell into abeyance through lack of male heirs in 1375, Burgh followed the same way in 1597, and Cobham early in the eighteenthe century. Down to 1750 the Alexander and Kenworthy claims are identical, at which date the only representatives of the three families was one Mary Disney.

C. M. Kenworthy traces his claim from Mary Disney's fourth daughter, Lucy, while R. G. Alexander relies on his descent from her second daughter, Harriet. For hundreds of years the Disneys and Alexanders were established in Yorkshire and several have distinguished themselves in law and science. One of the big men in this line of ancestry once rescued the crown of England from a battlefield on which it had been lost, and received the king's thanks for it. Even in these days of advancing democracy these claims are exciting widespread interest, giving as they do fascinating peeps into the romantic past.

Little bonnets of crin or silver lace with ruffles of fine lace falling over the hair are very dainty and attractive.

The "mitten" stocking is a very pretty fad. It is of black net, and is worn over a silk stocking of a contrasting color.

NOTICE

Nelson Board of Trade. A special general meeting will be held at the board rooms on Monday, the 19th inst., at 8:30 p.m. The atendance of all members is particularly requested.

PREFERENCE HOISTED TO MASTHEAD SAYS LAURIER

LONDON, June 18—At a luncheon at the Constitutional club presided over by A. J. Balfour yesterday, Sir Wilfrid Laurier, premier of Canada, told a big gathering of British statesmen and overseas premiers that the reciprocity agreement between the United States and Canada should cause no alarm to anyone. Canada, he said, wished to trade with the mother country in preference to other lands but that did not mean that it should trade with her alone. Whatever privileges were granted other countries would be given equally to England. "In Canada," he added, "the policy of British preference has been hoisted to the top of the mast and there it will stay whatever Great Britain does or does not."

NEGOTIATION OF NEW TREATY WITH JAPAN

In Process of Construction—What It Will Contain Foreshadowed by Recent Debate.

OTTAWA, June 18.—The government will negotiate a new treaty with Japan. The existing treaty expires on July 17, and a temporary arangement has been made to cover the interval during the negotiation of a new convention.

The present treaty is very wide in its scope. It deals with conditions of travel and residence, protection of dwellings, rights before the courts, consular privileges and a number of subjects which would not be dealt with by treaty with a European country. Then it deals also with trade and commerce. There is a limited constitutional list on which Canada and Japan give one another special rates on duty; and there is finally a general clause under which each has "favored nation" treatment in the markets of the other. It is this last provision alone which the temporary agreement continues. All the rest of the existing treaty is allowed to lapse.

What the new convention will contain it is early to attempt to predict. Some indications may, however, be gathered from the debate which took place on the proposed temporary agreement just before parliament adjourned.

"Favored Nation" Clause.

In the first place, it is probable that it will contain a "favored-nation" clause. That means that Japan will give to the produce of Canada as low rates of duty as she gives to the produce of any other "foreign" country; and Canada will reciprocate on Japanese products. The word "foreign" is inserted, with the purpose, on our part, of excepting our preferential tariff to *the mother country and to other parts* of the Empire. On the side of Japan, it would probably allow of special rates on goods coming from, say Corea.

In the second place, an attempt will be made to arange for a new conventional list to replace the list now existing. This will not follow at all closely the list in the treaty which has already been negotiated with Japan by Great Britian. It was open to Canada to adhere to this treaty, but the government decided that its terms were not suitable to us. For example, it made silks free, while they are dutiable in our tariff; and on the other hand, the list of goods on which Japan gives British goods lower rates does not include many items which are exported from Canada. It is hardly likely that the new list will include wheat or flour, or any of our farm products, for even under the present treaty these articles are subject to a heavy duty, and the new Japanese triff is materially more protective.

The Immigration Problem.

The chief provision of the present treaty, which the new convention will not contain, is that relating to immigration. Under the existing convention, Japanese subjects have the right to travel and reside in Canada on the same terms as British subjects. This it was which brought out the enormous influx of Japanese into British Columbia in 1907, and the riots which followed. As a result of Hon. R. Lemieux's mission to Japan this difficulty was overcome by means of an understanding between Canada and Japan by which Japan agreed to regulate the number of emigrants of the laboring class to Canada. This agreement has been faithfully observed by Japan; but in the temporary arrangement now made to tide over the period of treaty-making, the clause giving the Japanese subjects equal rights or residence with British subjects is dropped. However, the friendly outstanding in regard to the control of "coolie" emigration is continued, and that fact gives rise to a dispute in the house of commons as to whether this understanding carries with it the original right of the Japanese as to residence in Canada. The Opposition leader was not quite convinced by the finance minister's arguments that it did not, but at all events, it was made clear that after July 19, Japan would have no such treaty right, and if she had any such right at all, it was terminable on notice at any time. So that it would seem clear that if Japan should endeavor to assert such a right it could only bring a denunciation on our part of all understandings on the subject.

U. S. and Japan.

Further light is thrown on the problem by the terms of the new treaty which the United States has made with Japan. The treaty contains a clause which gives the Japanese "liberty to enter, travel and reside" in the United States "upon the same terms as native citizens or subjects, submitting themselves to the laws and regulations there established." But the treaty also provides specifically that the American immigration law is not affected. It is quite possible that similar provisions may be made in the new treaty between Canada and the sunrise kingdom. Meanwhile, it may be added that the special understanding in regard to the limitation of emigration was quite distinct from the treaty. To argue now that the understanding carries with it part of the old treaty would be to reverse their own contention.

The subject which the government has in mind in negotiating a new *treaty is the protection of our* trade interests in Japan. This is admitted on all sides to be desirable, but no one now expects to see golden argosies passing between the Dominion and the Island Empire of the orient. At the time the last treaty was negotiated, there were some rosy hopes in the air. But the course of trade since that time has dispelled these so effectively that Mr. Fielding did not hesitate to admit that the treaty had not fulfilled the desires of the government in that regard.

In fact it was shown clearly by Mr. Martin Burrell of Yale-Cariboo, B. C., that we were actually doing less trade in some articles now than before the treaty was signed by Canada in 1906. As instances of this he cited lumber, and wheat and flour, all products in which it was thought we would do a larger trade. If you total the trade in each of these items for the three years before the treaty and for the three full years since the treaty, the result will stand thus:

	Before treaty (1904-06)	Since treaty (1908-10
Lumber	$155,000	$130,000
Wheat	602	.....
Flour	266,000	238,000

The Wheat Situation.

The figures in regard to wheat are startling in the face of the large expectations which were raised, though not so surprising when one remembers that the Japanese are for the most part a rice-eating people. James J. Hill lost a good deal of hard cash in trying to build up a trade in wheat, *but made up his mind that it was im*possible to grow wheat on this continent at a price to compete with rice. The failure of the trade in lumber to expand is partially explained by the protective tariff of Japan, which is high on some lines. But it is also due to the not generally known fact, to which Mr. Burrell called attention, that Japan has 58,000,000 acres of forest under government supervision. In 1908 Japan exported lumber to the value of $4,500,000 and her lumber imports were valued at only $700,000.

The course of the aggregate trade in imports into and exports from Canada for the same six years, is shown in the following table:

	Imports	Exports
Before Treaty		
1904	$1,998,000	$341,000
1905	1,914,000	508,000
1906	1,662,000	492,000
Since Treaty.		
1908	2,197,000	734,000
1909	1,989,000	756,000
1910	2,202,000	660,000

The inference which Mr. Burrell drew from these figures was that the interests of our immigration were far more important than any trade interests. The inference which all agreed in drawing was that not a great deal could be hoped from trade with Japan; but that it was nevertheless the part of wisdom not to allow any of our competitors, especially the United States, to obtain an advantage over us in the Japanese market. Hence the temporary agreement for "favored nation" treatment; and hence the negotiations to come for a new trade treaty. As has *already appeared, it looks as if the in*terests of our immigration would be carefully protected in any new convention.

Great Northern train arrives from:
Spokane and intermediate points 5.45 p.m. daily, except Sunday.

A Shoreacres Beauty

A snug 10 acre fruit farm situated close to the Shoreacres station, school and postoffice—with the added advantage of government graded wagon roads. This little farm is level, free from stone, and we submit is as good a 10 acre fruit farm as we ever have offered for sale. It contains some very fine timber which could be cut and marketed at a figure which should pay for the clearing. The soil is positively of the very best quality and every foot of the farm can be plowed and cultivated with no waste. This farm is situated in the centre of a well settled district and is very close to the Kootenay and Slocan rivers.

On May 29th we offered for sale in this paper a choice ten acre Shoreacres fruit farm on easy terms and same was sold within 48 hours. We again wish to make a prompt sale of the above described farm and we offer same for $1000 on the terms $50 cash and $25 per month at 7 per cent interest.

We should like to emphasize to intending purchasers the fact that as regards location and quality we guarantee this little farm to be second to none in the West Kootenay district and would advise you to act quickly.

Owner, Room 11, Queens Hotel Nelson.

NOTICE DELINQUENT CO-OWNER

Notice to W. C. Wells

Notice is hereby given that I, George R. Devlin, co-owner together with W. C. Wells in the "Devlin Lode" mineral claim, situated on Sheep creek and recorded on the 2nd day of July, 1909, unless you, within a period of 90 days from the first publication of this advertisement, pay to me the sum of $54.50, money expended by me in performing the assessment work, together with half the costs of travelling to and from the claim, and together with all the costs of this advertisement, your interest in the said claim will become vested in me, your co-owner, who has made the required expenditure on the said mineral claim under section 24 of the "Mineral Act."

This notice is published under section 26B of the "Mineral Act."

22-4-11-30d GEORGE R. DEVLIN.

HEALTH ACT

Regulations for the Sanitary Control of Lumber, Mining and other Camps, Sawmills and other Industries Situated in Unorganized Districts.

1. Every employer of labor on any work in any lumbering, mining construction, or other camp, sawmill, or other industry situated in any portion of an unorganized district, shall, upon establishment of each and every camp or work, forthwith notify the Sanitary Inspector of the province of the establishment of the same, and when requested to do so shall furnish such particulars as may be required by the said inspector.

2. The owner, manager, agent, or foreman of any lumber, mining, or other camp, sawmill, or other industry located within an unorganized district, shall, in connection with every such industry or works, be responsible for the execution and enforcement of any regulation herein contained or hereafter to be adopted.

3. If in the opinion of the Sanitary Inspector the site of the camp or works is unhealthy or unsanitary, he may order the removal of such camp or works to some other site to be selected by him.

4. Any house, tent, or dwelling occupied by the employees engaged in any industry located within an unorganized district shall contain sufficient cubic feet of air space for every occupant thereof as may in each instance be deemed necessary by the Sanitary Inspector, and shall further be provided with efficient means of ventilation. The floor of every dwelling shall be constructed of boards or planks or other material equally suitable for the purpose, raised on supports at least one foot from the ground, and so made that it shall be tight. Every dwelling other than a temporary tent shall be lighted by windows so constructed that they can be opened when necessary.

5. The method of ventilation of every dwelling in which a stove or furnace is used shall be such as will satisfy the sanitary inspector. The temperature of the room shall be maintained at from 60 to 65 degrees Fahr.; and a shallow pan supplied with water shall be kept on the stove to supply air moisture.

6. Every camp or works of every industry coming under these regulations shall be equipped with a wash-house or laundry containing a stove and tubs for bathing purposes.

7. Every camp or works shall be supplied with a building or tent properly constructed and set apart as a kitchen, and having a dining-room in connection therewith, with propery conveniences for the cleanliness and comfort of the employees.

8. Proper receptacles must be kept on hand into which all refuse, whether liquid or solid, must be placed, and such refuse must be regularly destroyed by fire or removed to a safe distance from any building and be so deposited as to not create a nuisance or contaminate the drinking water.

9. Latrines, earth, or other closets must be located, constructed, and maintained in a manner satisfactory to the said Sanitary Inspector.

10. Stables in connection with any camp or works must be located as not to contaminate the water supply, and must not be less than 125 feet distant from any dwelling or kitchen. This distance may be increased at the discretion of the Sanitary Inspector.

11. The water supply of any camp or works must be uncontaminated and obtained from a source satisfactory to the Sanitary Inspector.

12. Printed copies of these regulations may be obtained from the Sanitary Inspector.

13. Should the Sanitary Inspector find that any of these regulations are not complied with, he may, when necessary, take steps to enforce them, and the expense of such action shall be paid by the employer or his agent.

14. The penalties contained and provided in section 97 of the "Health Act" shall apply to the violations of any of these regulations.

15. The Sanitary Inspector may, when deemed necessary, obtain the services of any Provincial constable or constables to assist him in the performance of his duties and to aid in the enforcement of these regulations.

By Order.
L. T. DAVIS, M.D.,
Sanitary Inspector,
55-1 Victoria.

SHERIFF'S SALE

By virtue of a Warrant of Execution issued out of the county court of West Kootenay, holden at Nelson, at the suit of Wilson Brothers against the goods and chattels of Lorne Stewart, carrying on business under the name and style of Stewart and Company, and the said Stewart and Company, and to me directed, I have seized and taken in execution all the right, title and interest of the said Lorne Stewart and Stewart and Company in one gray horse, harness and delivery wagon, and in a large quantity of various kinds of groceries as contained in the store recently occupied by the said Lorne Stewart and the said Stewart and Company.

All of which I shall expose for sale by public auction at the said store on Monday, the 19th day of June, 1911, at hour of 11 o'clock in the forenoon.

An inspection of the stock of groceries may be had upon application to C. D. Jarvis at the store, and an inventory of the same may be seen at my office in the courthouse in Nelson.

Terms of sale, cash.

Dated at Nelson, 13th day of June, A.D. 1911.

S. P. TUCK,
Sheriff of South Kootenay.

NOTICE

Public notice is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation was approved by the Lieutenant-Governor in Council fixing minimum sale prices of first and second class lands at $10 and $5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the applications to purchase were given favorable consideration after the date of said regulation, namely April 3rd, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor in Council on the 19th of May, 1911, that the regulation dated the 3rd April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands.
Department of Lands,
Victoria, B.C., 16th of May, 1911. 31-36

Victoria, B.C., April 3rd, 1911. 302-52

NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, Near Winnipeg, Man.

Sealed tenders addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.
The Commissioners of the Transcontinental Railway.
Dated at Ottawa, June 2, 1911.
Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

Corporation of The City of Nelson

COURT OF REVISION

Public notice is hereby given that the first sitting of the annual Court of Revision for revising, correcting and hearing complaints against the assessment as made for the year 1911, will be held in the city hall on Wednesday, the 28th day of June next, at 11 o'clock in the forenoon. All persons having complaints against the assessment must give notice to the assessor in writing at least 10 days before the first sitting of the court.

Dated at Nelson, B.C., the 22nd day of May, 1911.

W. E. WASSON,
22-1m. Assessor.

WATER NOTICE

I, A. L. McCulloch, of Nelson, B.C., hydraulic engineer, give notice that on the 20th day of June, 1911, I intend to apply to the Water Commissioner, at his office in Nelson, for a license to take and use 6,300 cubic feet per second from the Kootenay river, in West Kootenay district. The water to be taken from the stream above the island, opposite Slocan Junction railway station, and to be used for power purposes.

May 20, 1911.

Mining News

APPROACHING MILLION MARK

Ore Shipments Jump to Nearly 950,000 tons for Year to Date—Smelter Receipts

With the returns for the past week the ore shipments from the mines of the Kootenay, Boundary and Rossland district, together with some shipments from south of the boundary line, reached the total of 943,878 tons for the year to date, and are thus only about 50,000 tons from the million mark. The shipments for the week were 16,194 tons and the smelter receipts were 18,071 tons and for the year to date 903,089 tons. The detailed figures are as follows:

Gasoline Engines

MARINE AND STATIONARY

If you want an engine with the power, high class material and first class workmanship, call and inspect the Barber. They are in a class by themselves. You don't know the pleasure of boating until you install a Barber engine. They are built in all sizes from 1 to 6 cylinder, 2½ to 100 H. P., high speed, medium or heavy duty. Call or write for catalogue, and let me quote you prices on either a marine or stationary. They are a high grade engine, at a reasonable price, and they are guaranteed to do their duty.

I keep a full supply of dry batteries, direct from the factory. I test and guarantee them to register over 20 amperes before leaving the store; also a variety of pocket flashlights and batteries, and everything for motor boats.

THOMAS SARGENT,
Motor Boat Supplies, 506 Stanley St.
Phone 44. P. O. Box 172 NELSON, B.C.

M'EACHREN DEVELOPING NEW GOLD PROPERTY

REVELSTOKE, B.C., June 18—Neil McEachren was in the city on Monday from his property just south of Revelstoke and reports the development as showing up the rich ore shoot to be continuous. It is Mr. McEachren's intention to continue the work right through the winter and he is having his cabin put in shape for the accommodation of the men now employed. Later on another cabin will be built and more men put to work. Future development on this immense ore body will be looked forward to with great interest here.

LONDON SYNDICATE GETS QUESNEL RIVER PLACER

BARKERVILLE, B.C., June 18—A London syndicate represented here by L. A. Bonner, has secured an option on the vast hydraulic mining claims at Bullion on the Quesnel river, owned by the Guggenheims and formerly vested in a company of which Sir William Van Horne and Sir Thomas Shaughnessy were prominent shareholders. J. B. Hobson, a prominent mining man of Victoria was manager for many years and installed a large plant which was very productive during seasons when water was plentiful.

COAL AT PORT ALBERNI

ALBERNI, B.C., June 18—Prospecting work on the coal discovery made by the railway graders on the townsite of Port Alberni, on the waterfront, between Watherhouse's wharf and the Barclay Sound Cedar company's mill, is to be commenced this week.

Archibald Dick, ex-inspector of mines for the provincial government, is to be in charge of the work. Mr. Dick was in town last week making an examination of the ground and left for Nanaimo to get a small staff of experienced coal miners to undertake the preliminary development work.

SILVER AT PORT ARTHUR

PORT ARTHUR, Ont., June 18—Silver ore was discovered by workmen excavating on Van Norman street today but the find causes no excitement as there have been several others in various parts of the city during the past 20 years, none developing into paying mines. It is generally felt that the city is built on a bed of silver ore. It is known also that iron exists in the rocks of the city and coal as well has been discovered inside the city limits.

MARKETS

BETTER EXPORT DEMAND ON WINNIPEG MARKET

WINNIPEG, June 17.—Liverpool showed a decidedly stronger tone and there was a better export demand. A number of loads of Nos. 3 and 4 were worked. The cash demand was good for everything except No. 1 Northern. Winnipeg October was light and held pretty strong. There was a moderate fluctation in July, with the close ⅛c down. October closed ¼c and December ⅜c lower. Chicago was down ⅝c to ⅞c; Minneapolis ½c to ⅝c. Weather in the Canadian west was generally warm and dry. There was a good export trade in oats.

POTATO FAMINE IN KOOTENAYS

Perishable Nature of Last Year's Crop and High Cost of New Variety Reason.

At the present time there is something in the nature of a potato famine in Nelson and district.

According to the managers of the big wholesale houses in the city this is due to two causes—to the fact that the production locally is much smaller than the demand, and to the fact that this is a period of the year when the old potatoes are becoming soft and quickly perishable, while the new season's crop is at present so expensive that it does not pay the wholesalers to import in large quantities from the east on account of the fact that the price will naturally fall as the crop is harvested.

ISRAELITES FALL UPON NELSON

Long-Bearded Patriarchs Preach Here on Bicycle Trip From California to Michigan.

On a long journey from Los Angeles to their home in Michigan, travelling on bicycles wherever possible and of the sect known as "Israelites," Thomas Pennington and Henry Derbaum, two long-bearded old men, reached the city Friday night and propose to stay here for several days, during which time they expect to preach on the streets and dispose of literature explaining the principles of their religion.

Saturday morning they visited H. H. Currie, publicity commissioner, in quest of information relating to roads from here to East Kootenay and later saw W. F. Teetzel, government agent.

They stated that they were known as "Thomas and Henry" and expressed their religion as that of "preparing people for life, not death." Thomas is 58 years of age and Henry is two years younger. They started on their proselyting tour from Los Angeles two years ago and travelled all over southern California. On March 16, 1910, they left for the north on their bicycles, which in this district they have been compelled to abandon for train and steamboat, and spent the winter in Vancouver. This spring the two Israelites preached in Vancouver island and then took a trip to Seattle. They came here via Spokane and Grand Forks.

They have, they say, been preaching since 1903 and have travelled all through the United States. With them they carry about 200 pounds of baggage. "The worst climb we have experienced yet," they said, "was Mount Siskiyou, between California and Oregon." They are on their way home to Michigan, which they expect to reach this fall.

"Thomas and Henry" seemed perfectly content with their life but did not give any figures as to the number of converts obtained.

Two shades of blue, one very much lighter, are used on linen tailored suits.

Serge suits for seashore have heavy wide bands of silk soutache braiding on the hem.

Some of the new motor bonnets are made entirely of wide and narrow-pleated frills.

The lace cap has by no means been abandoned since the going out of cold weather.

Square trains and pointed trains are disputing for first place and enjoy equal favor.

On small hats particularly aigrettes are triumphant among the trimmings of the moment.

NELSON NEWS OF THE DAY

The city council will meet this evening at 8 o'clock.

His honor Judge Wilson will hold chambers this morning.

Born, yesterday, June 18, to the wife of S. S. Fowler, a son.

E. Shannon, superintendent of the Enterprise mine, came in on Saturday night and is a guest at the Hume.

Patrick Clark, who has been making an inspection of the Standard mine, returned Saturday morning to Spokane.

The monthly meeting of the school board will take place this evening at 8 o'clock in the office of the secretary.

Miss Lillian Wallace, of "The Cat and the Fiddle" company, is visiting Mrs. D. Roy McFarlane, Ward street, during the company's stay here.

There will be an important meeting of the directors of the Kootenay Lake General hospital at the Y.M.C.A. building at 8 o'clock tomorrow evening.

The petition for the release of F. H. Taylor, who is serving two years, inflicted by Judge Forin, on a charge of attempted suicide, will be circulated today.

On Saturday J. A. Irving received the first strawberries of the season from Shoreacres. They were grown by A. J. Dill and were of the "Clark Seedling" variety.

At 8.30 this evening there will be a special meeting of the board of trade at which will be considered a resolution regarding the coal strike in the Crow's Nest and Alberta.

There will be a meeting of the special committee in charge of the arrangements for the Sons of England smoker on Coronation evening at the office of W. Cutler, at 8 o'clock this evening.

The tickets for the raffle for the $250 residential lot at Proctor, which is being donated for the new building fund by T. G. Proctor, can be obtained from the directors of the institution only. The draw will take place at Proctor on Coronation day.

James Malone is the new partner in the firm of Kirkpatrick & Malone, proprietors of the Tulameen hotel. He has been a resident of Nelson for years and comes to Princeton with a high opinion of this town and district.—Similkameen Star, Princeton.

Charged with vagrancy A. J. Lathbury, who was arrested by the city police while begging in the uptown portion of the city Saturday afternoon, was sent down for 60 days in the provincial jail by William Irvine, police magistrate. R. B. McMurdo, who was with Lathbury, was released and ordered to leave the city.

The directors of the Nelson fruit fair have had printed a useful little pocket note book which is being distributed free. In addition to the blank pages for notes the book contains weather signs, antidotes for poison, tables showing the high and low prices for cereals since 1887, weights and measures, a table for calculating wages and a wealth of other valuable information.

THE BEST EVER

Curlew ice cream, at C. H. Bean's, the Palace Confectionery, 414 Baker street. 52-tf.

Gin Rickeys at the Nelson bar. Shipment of fresh limes just received. 41-tf.

Now is the time to order your screen doors and windows. Made to any size at Waters & Pascoe. 306

You will have a —— time if you join the Nelson retail merchants' picnic and take in the Proctor Coronation celebration, June 22. $5 prize for the missing word. Send free guess on post card, F. J. Sammons, Proctor. Missing word in sealed envelope with editor. 52

FISHING WATER

Boats for hire on Pool at Slocan Junction, most famous fishing water of British Columbia. Fly fishing par excellence. Try grasshoppers for the big fellows. All conveniences at G.P.R. Creel Lodge. J. Killey, lodgekeeper. 37-tf.

F. A. Martin, J. W. Robb and S. Thompson have started a building and contracting business. They are all thoroughly experienced in this class of work. Work entrusted to them will be charged simply the cost of labor and materials, no middle man's profit being added. Orders left for them at McQuarrie and Robertson's office will be attended to promptly. 44-26

Ice cream, teas, etc., of the very best quality can be obtained on the premises of the Nelson Boat & Launch company, which has in stock the largest supply of rowboats, skiffs and canoes, made by that world renowned company, the Peterborough Canoe company, for whom they act as sole agents.

Their comfortable and fast launches are well known, and they are now booking many orders for private dances to be held in their large pavilion.

Book your orders now for boats, canoes and launches for June 22, June 30 and July 1st, or you will be disappointed. Phone 154. 53-tf.

AT THE THEATRES.

"The Cat and the Fiddle," a musical extravaganza success, which will be seen at the opera house this evening and tomorrow afternoon and evening, met with much favor last season. It is known to be brimful of novelties and surprises that really make one sit up and take notice, being away from the old conventional musical comedy of two acts. Beautiful transformations, artful magic, tuneful music and fun follow in rapid succession until the grand finale and the homeward voyage on the air ship. Throughout the theme is one of rapidity, and the audience is kept constantly busy watching the stage for new surprises and laughs which are sprung upon them one after another. Apparently it is the ambition of every manager to offer new chorus evolutions and song numbers; and it is claimed for "The Cat and the Fiddle" that this end has been reached in "The Undressed Kids," "The Mother Goose Baby Dolls," "The Poster Girls," "The Dancing Beauties," "The Water Witches," "The Sailor Girls," "The Milk Maids," and many others. Harry B. Watson, who is making a bigger hit than ever, heads the capable company of more than 40, and assisting him are those clever Boylans, Arthur and Rose, known as the greatest delineators of the eccentric dancers before the public. Their delineations of the Apache dance and other characteristic whirlwind dances have brought them great fame. Among other principals are Marty Martz, George E. Wakefield, J. O. Campbell, George E. Hart, the Gothard Brothers, and a host more.

One of the greatest, if not the greatest, child dramas, entitled "The Little Major," a Rex feature, ever put on the screen, will be shown at the Gem theatre this evening. That it is perfectly safe to place this work in the moving picture hall of fame, so says the review of the Moving picture World. It tells a beautiful story, and the acting of the child is so earnest and sincere that the audience for the time being forgets it is looking at a picture. Other items included are, "The Sampede," an Imp feature, and "A Cowboy's Waif," a Bison drama.

Minard's Liniment lumberman's friend.

Suits to Suit Your Individuality

You have a certain individuality of your own—so has each of your friends and acquaintances.

What looks well on you, does not necessarily suit anyone else.

Think of this for a moment and you will realize what a tremendous stock it takes to bring out each and every man's individuality—to distinguish him from the rest and still make him well dressed.

We do it with this splendid stock of Fit Reform Suits.

Your choice of style, fabric and color is of infinite latitude.

A perfect fit is assured, whether you are of regular or out of the ordinary build.

Emory & Walley Clothes, Hats and Toggery . . . .

Cuff Links

We have them in Sterling Silver and Gold Filled. It is worth your while to see them. We are offering them this week at 45c.

Mail orders promptly attended to.

DEATH AT SLOCAN CITY

(Special to The Daily News.)

SLOCAN CITY, B.C., June 18—The death took place on Thursday last of Ian Alexander, the infant son of Mr. and Mrs. Malcolm McLeod of this place. The cause of death was bronchitis, followed by pneumonia. The little sufferer who was only 14 months old, contracted the illness in the early spring. Rev. Mr. Gillam of the Presbyterian church, conducted the funeral service.

VICTORIA HOSPITAL INSTALS X-RAY MACHINE

(Special to The Daily News.)

KASLO, B.C., June 18—The Victoria hospital has added to its equipment a new Victor high frequency machine by which X-rays, cathode rays and other electrical phenomena of that class are produced. The machine is charged from the current used for lighting the building and different tubes are brought into the circuit for diferent uses. A strong odor of ozone is present when the machine is working.

Those who wish to save the discount of 10 per cent on taxes for the current year must pay on or before June 30. The discount applies to taxes on real property, personal property, wild land and timber land. It does not apply to taxes on unworked crown granted mineral claims, nor to taxes levied for rural school purposes. To secure the benefit of the discount arrears of taxes must first be paid.

Rheumatism Relief Found

Many in this vicinity have not only found relief but a cure in the following prescription, which was printed last year in the newspapers. Any one having a friends suffering with rheumatism would do well to clip and present it. Undoubtedly the ingredients are ordinary in character but the peculiar combinations or compounding seems to effect results little less than marvelous. Have a druggist mix it who will use the true and pure ingregients only, and results are assured:

Iodide of Potassium	2 drams
Sodium Salicylate	4 drams
Wine of Colchicum	½ oz
Comp. Ess. Cardiol	1 oz
Comp. Fld. Balmwort	1 oz
Comp. Syrup Sarsaparilla	5 ozs

Mix and take a teaspoonful after each meal and ont at bedtime. After the first week gradually increase the dose to two teaspoonfuls. Be persistent and regular in its use if you expect a cure.

Look for the Union Label

It will be found on every suit we Turn Out.

It means that only the best union workmen have been employed, thus ensuring the high quality of our suits.

Just now we would like to show you our fine range of cheviots. They will make up nicely into 2-piece suits, very light and comfortable.

Prices $29 to $40

NELSON NEWS OF THE DAY

A. M. Johnson leaves this morning for Kaslo.

R. B. Bell of Salmo is registered at the Strathcona.

S. Kenna, manager of the tourist hotel at Balfour, is at the Strathcona.

Mr. and Mrs. Oscar V. White of Sandon were at the Strathcona yesterday.

A. W. Davis, manager of the Molly Gibson mine, was in the city yesterday.

The fair directors will meet this afternoon at 4 o'clock in the office of the secretary.

Ross Fleming and J. R. Ramsden of Fairview announce the dissolution of their partnership.

First communion will be solemnized at the Church of Mary Immaculate at the early mass on Coronation day.

According to the guage of the Nelson Boat & Launch company the water has now reached a height of 15 feet 4 inches. The rise during Saturday and yesterday was eight inches.

At the Church of Mary Immaculate on Coronation morning instead of the regular mass at 8 o'clock a special mass will be held at 7.30 o'clock at which a blessing will be asked for King George.

In the advertising columns of today's issue of The Daily News are published the new provincial government regulations governing the sanitary arrangements in lumber and mining camps in British Columbia.

A carefully arranged program is in preparation by the pupils of St. Joseph's school for the annual concert to be given by them in the Nelson opera house on Tuesday evening, June 27. The entertainment will consist of songs, drills, elocutionary selections by the older pupils, dialogues and action songs by the little ones. A special feature is the operetta "Dr. Gertrude Mason," performed by the senior grade pupils.

J. D. Wightman, provincial constable, arrested Herbert Bages at Castlegar yesterday on a charge of having stolen some fishing tackle and other articles from C. D. Blackwood's fishing cabin at Slocan Junction and lodged him in the provincial jail here. The stolen goods were found in Bages' possession at the time of the arrest. He will come up for trial before W. H. Bullock-Webster, stipendiary magistrate, this morning.

Those attending the celebration at Proctor on Coronation day will have the option of travelling on any of the C.P.R. boats. They may go up on the Kuskanook, leaving here at 6 a.m., the Moyie, leaving here at 8 a.m., or the Nelson at 3 p.m. Returning their tickets will be good on either the Kuskanook or the Moyie. Those going up on the Kuskanook, however, must exchange the tickets, which are being sold by the members of the Retail Merchants' association, at the C.P.R. ticket office the previous day.

Manager Horstead received yesterday a favorable reply to his request for a special matinee of "The Cat and the Fiddle" on Tuesday afternoon, provided he could give the company assurance that it would receive sufficient patronage to warrant the performance. This he has no hesitation in doing as he feels that the production is one that will receive liberal support at the hands of the ladies and children. The time of the performance has been set for 3.30 in order that it will not interfere with school hours.

G. J. Bury, general manager of the western lines of the C.P.R.; Grant Hall, superintendent of motive power, and F. F. Busteed of Vancouver, general superintendent of western lines, reached the city on the Boundary train on Saturday night and left immediately on a special for Proctor where they made an inspection of the new tourist hotel. They were accompanied by W. O. Miller, local superintendent, and Capt. J. C. Gore, superintendent of lake and river service. From Proctor the party proceeded to Kootenay Landing.

Keep Minard's Liniment in the house.

PUBLICITY OFFICE SOLICITS IDEAS

New Secretary Takes Over Bureau—Is Putting His First Plan Into Execution.

Though the formalities connected with the transfer of the office of secretary of the publicity bureau, now for the first time separated from the office of secretary of the board of trade, were concluded on Thursday night, the date when the separate office came into existence, H. H. Currie, the new secretary, actually took possession on Saturday morning, completing a few hours earlier his service with The Daily News. By arrangement between the publicity bureau and the board of trade, under whose wing it is constituted, E. K. Beeston, secretary of the board, has moved his office into the rear portion of the building, and the front office is given up exclusively to the publicity bureau. W. F. Roberts, chairman of the publicity committee, was present when the transfer was made. Certain supplies were secured, and the new secretary of publicity settled down to his work.

Mr. Curry had little to say last evening about his first day's work other than to intimate that he had schemed out the first of his plans and had partly put it into execution. This particular plan relates to publicity in the daily press of Canada. By the middle of the week he will be ready to tackle his next item.

"I do not believe it desirable to discuss future plans until I reach them individually," said Mr. Currie, "as they are in a state of evolution and may be changed, dropped or improved. I merely wish the people of Nelson, and the people of the Kootenay, too, for that matter, to note that I am at work. Further, I am at work in their interest. We all know that in any kind of creative work it takes a little time to get things going, and I merely ask the people to maintain the same friendly interest that many of them have personally expressed until they have sufficient facts before them to form a judgment upon.

"In the conduct of the office I shall attempt to maintain the traditions set by Mr. Beeston. There will be no north polar atmosphere to greet visitors who wish to give advice, and I hereby solicit publicity ideas. Of course, I have certain methods of my own already determined upon, definite and tried formulas that have seldom failed in the past. If they fail this time, after a full and fair trial, I will be amazed. But I am the publicity man and am the shop to which anyone with publicity wares should hie. I hope all the brainy people will accept this invitation.

"Through The Daily News, I would intimate to the business men of all the communities throughout the Kootenay that they have a standing invitation to call at the Nelson publicity bureau. That term is broad enough to include all, but I particularly desire to come into close touch with the officers of the boards of trade, and with the newspapermen. This will be, I trust, for our mutual advantage and for the advantage of the Kootenay."

Mr. Currie stated he had been informed he would have the strongest support from the members of the publicity committee in doing new and positive work that was within the means of the bureau, and felt doubly assured that the bureau in its work would command success.

WEEK SHOWS ADVANCE IN PRICE OF COPPER

Improvement in Steel and Iron Trade —Railway Stocks Touch High Point

NEW YORK, June 18—Influence brought to bear upon the stock market last week was not sufficiently pronounced to bring about a decided change in the matter of trading or speculative sentiment. The movement of stocks was narrow and hesitating, indicating no decisive trend, although there were evidences of underlying strength in the resistance of the market to severe attacks from the bear party and the advance of railroad stocks in the face of these attacks. The average price of railroad issues touched the highest point of the year, although the entire weeks movement was so small as to possess little significance. Interest continued and the amount of trading fell off sharply. The market was apparently marking time while waiting for information which might form the basis of a broader movement. Doubt as to prospects for crops and as to the outlook for a trade revival was chiefly responsible for the hesitation.

Definite signs of improvement in the steel and iron trade were perhaps the most encouraging development of the week; reports of increased business following the recent reduction of prices were general. A further advance in the price of copper metal, coupled with a large gain in the volume of exports and a shrinkage in the European visible supply pointed to an improvement in this branch of the metal trade. The report of foreign trade for May gave striking evidence of the manner in which the country's credit abroad is being maintained. Not only were last months exports the largest ever reached in the month of May but the balance of trade in favor of this country was increased to more than $500,000,000 for the 11 months of the fiscal year.

FIRE AT MOYIE

(Special to The Daily News.)

MOYIE, B.C., June 18—Fire broke out shortly after midnight on Friday in the Farrell block on Victoria avenue, destroying almost everything on the second floor. The fire brigade was quickly on the scene and were successful in confining the flames to the one floor. The origin of the fire is unknown.

The Masons of Cranbrook, Fort Steele and Moyie are preparing to hold a joint picnic at Swansea on Coronation day.

PRESENTATION TO POPULAR OFFICIAL

J. H. Fox Recipient of Handsome Limoges Tea-Service—F. A. Starkey Makes Presentation.

J. H. Fox, chief clerk in the division freight agent's office here, who has been promoted to the position of city freight agent at Vancouver, was presented at noon on Saturday with a beautiful tea-service of Limoges china.

The presentation was made by F. A. Starkey on behalf of Mr. Fox's many friends in the city and the function was attended by a representative gathering of business men of the city.

Mr. Fox left for the coast last night.

LECTURE ON LAND CLEARING

Professor Thom, Soil Expert of Washington State College, Retained by Provincial Government.

VICTORIA, B. C., June 18.—The department of agriculture has been successful in securing the services of Prof. C. C. Thom, the soil expert of the Washington State college, Pullman, Wash. Professor Thom has had extensive experience in the study of the character and the treatment of soils, both in Canada and in the state of Washington. In the latter territory he has had opportunity to study the character and the cultivation of the soils of eastern Washington, which are very similar to those of the Kootenay. He is a forceful speaker and is able to present his extensive knowledge in an acceptable form.

Professor Thom's schedule will come in with others in the regular institute itinerary, and his own meetings will be held as follows: Sunnyside, June 26, 8 p. m., subject, "Land Clearing"; Nakusp, June 27, 8 p. m.; Waneta, June 29, 1 p. m.; Columbia Gardens, June 29, 8 p. m.; Fruitvale, June 30, 8 p. m.; Burton City, July 4, 8 p. m.; Renata, July 5, 8 p. m.; Creston, July 7, 8 p. m.

While the foregoing does not nearly do justice to either Professor Thom or the district, the department wishes it understood that this series of meetings is a preliminary to further services by the same authority.

PEDAGOGUES FOR POTLATCH

SEATTLE, June 18.—As a result of the interest taken in Seattle's first golden potlatch by the Californians in charge of publicity and entertainment work of the National Education convention, to be held in San Francisco July 8 to 14, practically all the delegates to that convention from middle western and eastern points will visit Seattle and participate in the potlatch.

The National Education association and publicity committee have sent to teachers and other educators planning to attend the convention, or forming special car and train parties of delegates, suggestions that they return to their homes via Seattle, stopping off in this city to attend the potlatch. Much potlatch literature has been distributed by this committee, and the responses received indicate hundreds and thousands of pedagogues will add to the great potlatch crowds which will gather in Seattle July 17 to 22.

KING OF CROOKS CAPTURED

BEMIDJI, Minn., June 18.—Dr. Dumas, held by Pinkerton detectives as the king of American crooks, was arrested yesterday morning as Husbing and brought here last evening as the result of a trap laid for two of his alleged confederates, who were shot and seriously wounded at 10:30 yesterday morning as they were about to blow up the postoffice at Puposkey. Dr. Dumas was arraigned here last night at 8 o'clock before Court Commissioner Simons and after a brief examination was held on bonds of $5,000, which were furnished by two Cass Lake merchants and a saloonkeeper of that place. Dumas was turned loose.
