ROYALTY GIVES TO MILITANT FUNDS

Members of King's Family Subject to Blackmail

PRINCE OF WALES SUPPORTS CAUSE

Queen Mary Offered Five Thousand Dollars--Police Find Evidence.

(Western Associated Press Special Cable.)

LONDON, June 9.—Police raids on the suffragette headquarters today resulted in the discovery that several of the royal family, including the Prince of Wales, have been regular contributors to the militant funds, while the Queen tried to contribute but her offer was refused.

These contributions do not mean that royalty favors the militants. On the contrary, it really amounts to paying blackmail for immunity for the persons and property of the royal family from militant attacks. When the raids were made and the lists of subscribers found, the government hastily announced that it would immediately begin prosecutions on the charge of supporting a criminal organization but the minute examination disclosed among the subscribers several royalties, including the Duchess of Teck, the Duchess of Fife the Princess of Teck, the Princess Christian and the Princess Royal, and still further investigation shows that immunity payments were made in the name of the Prince of Wales. He has so frequently argued with his father and mother in favor of suffrage that there was uncertainty as to what category his contribution came under.

It was also learned that the Queen offered a subscription of $5,000 if the militants would agree to stop annoying their majesties but this subscription was refused, the militants being unwilling to lose their most valuable advertising medium. Among others in the list are the Duchess of Portland, the Duchess of Westminster, the Duchess of Marlborough, the Countess of Essex and Lady Cunard.

Cannot Prosecute Now.

American hostesses in London have been let conspicuously alone by the militants. Detective agencies which since the season began have had female detectives at every society function to guard against militant outrages, told the police that they were never called by American hostesses.

When the royal names were found on the list the government had to give up the idea of prosecutions of subscribers but is now considering prosecution of the militants for blackmail. The royal and noble subscribers, however, seem unwilling to become complainants and witnesses and without their aid nothing can be done.

Of course, many subscribers are strong supporters of militancy but they also are safe as the government cannot prosecute them and refrain from prosecuting the others. So the militants seem to have scored on the government once again.

Police Protect Their Majesties.

(By Daily News Leased Wire.)

LONDON, June 9.—King George and Queen Mary were able to enjoy the brilliant state ball at Buckingham palace tonight, as there was no interruption by suffragettes, thanks to the rigorous police precautions which had been taken.

CROWD THREATENS TO STORM JAIL

(By Daily News Leased Wire.)

PITTSBURG, Pa., June 9.—A crowd estimated at 2,000 surrounded the East Pittsburg jail late today, threatening to enter the building by force, but what promised to be the first serious outbreak of the 10,000 employes of the Westinghouse interests in the Turtle Creek valley was averted by the cool-headedness of strike leaders. When word was brought to strike headquarters that the small jail was threatened, a brass band was organized and, led by the band, the crowd, including many striking workmen, marched away from the jail to the Turtle Creek district.

The trouble arose when a crowd of pickets and onlookers closed in on a wagon being taken into the plant of the Westinghouse Electric company by special policemen, who arrested one man and in trying to get him through the crowd struck another man on the head. The crowd became inflamed and followed the officers to the jail.

THINKS GOSPEL WILL SOLVE YELLOW PROBLEM

(By Daily News Leased Wire.)

WINNIPEG, June 9.—At tonight's session of the Baptist convention Rev. William Hay, speaking of foreign missions, said the only solution of the yellow peril was the Christianizing of the yellow races. Rational relationships were closer today than ever before. China and Japan were knocking at Canada's doors as never before. Therefore, if the white people gave the world the best they had, which was Christ and his gospel, the best would come back to them.

SCOUR COUNTRY FOR DESPERADOES

Mounted Police Throw Cordon Around Moose Jaw to Encircle Slayers of Justice of Peace

(By Daily News Leased Wire.)

MOOSE JAW, Sask., June 9.—Fifty mounted police are scouring the city and district tonight in search of the three desperadoes implicated in the murder of J. B. Chivas, J. P., of Amisk, Alta. They have flocked in from all quarters today, some in uniform and some in plain clothes, every city in the two provinces having sent a contingent and a cordon has been thrown out from which the thugs, who are believed to have come here, can hardly expect to escape.

A reward of $1,200 has been offered for the arrest of the men and this has induced many, other than the police, to enter in the search. A description of the wanted men has been sent out but their names and nationality are unknown although they are thought to be Poles or Galicians. They are believed to be armed and likely to put up a fight to the finish before they yield to capture.

HUERTA BLOCKS PEACE PROPOSALS

Suggests Plan Which United States Will Not Accept—Recognition Question Involved.

(By Daily News Leased Wire.)

NIAGARA FALLS, Ont., June 9.—The United States is unwilling to extend recognition to a new provisional president if named according to the method prescribed by Mexican delegates, which is that Gen. Huerta will appoint as minister of foreign affairs the man who is agreed upon here to head the new government. The Washington government contends that if Gen. Huerta is permitted to name the foreign minister, who by constitutional succession would be elevated to the presidency, even though the selection be made here, such an act would be construed as recognition of the Huerta government.

On this issue the mediating plenipotentiaries came to a flat disagreement late today at a conference held for consideration of the exact methods by which the new provisional government in Mexico would be created out of the present regime.

For more than two hours the mediators and American delegates argued in vain and it was apparent when the conferences ceased that what hitherto had been considered a matter of detail had suddenly developed into a snag.

The Mexican delegates had not disgussed the point at any length with the mediators when the latter took it up with the Americans. Although the three South American diplomats argued strongly from the Mexican viewpoint, there was good reason to believe tonight that the Mexican delegates would not insist on this arrangement if they found the United States absolutely determined against it.

There is a possibility that a compromise method will be agreed upon.

The day's conferences were so taken up with the details of the peace plan that for the moment the question of constitutionalist representation was forgotten. The mediators had decided to make public all their correspondence with the rebels and had intended to regard the incident as closed, but the American delegates brought about a delay of this plan by conveying the information that the answer from Gen. Carranza to the last communication of the mediators would be here in another day or two. The mediators buried their impatience and decided to await the arrival of the note.

WRECK SURVIVORS REACH ENGLAND

Fireman Was on Titanic and Empress and Will Go to Sea Again—Crew Behaved Well.

(Canadian Associated Press Cable.)

LONDON, June 9.—Wild scenes were witnessed at the Exchange station at Liverpool today on the arrival of the survivors of the crew of the Empress of Ireland, who had been brought home on the Corsican. The station had been packed by a dense throng for several hours and when the train steamed in from Glasgow at 7 o'clock there was a rush to the car doors. The police and railway officials attempted to hold back the crowd, but they were powerless and screaming women with babies in their arms were crushed against the train.

The welcome was weird in the extreme. Some of the women had the good fortune to reach their husbands as they stepped from the train, but 70-odd survivors were soon swallowed up in the crowd and it was only by their kit bundles that they could be distinguished.

Pitiful reunions were witnessed. Women threw themselves hysterically into the arms of their husbands. Children as they caught sight of their fathers in the crowd struggled frantically to reach them, and even the big, gruff firemen could not restrain their emotions.

Fireman on Titanic and Empress.

Among the Liverpool survivors who reached home last night was William Clark, who has had the terrible experience of passing through two of the greatest sea tragedies known. He was fireman on the Titanic and fulfilled the same duty on the Empress of Ireland. His first thought when they struck, he said, went back to those terrible scenes on the Titanic. It was his first voyage on the Empress and of course on the Titanic, which was on her maiden trip. He added: "There is a sort of superstition among sailors, and I believe it applies on land as well, that the third time is fatal, but that does not worry me. I'm going back to Liverpool to find a job on another steamer."

Clark said that he saw none of the crew neglecting his duty or who was not trying to save others immediately the great plunge came.

SENATE AGREES TO RAILWAY AID

Thirteen Liberals Combine With Conservatives

SAYS UPPER HOUSE SCENE OF FARCE

Choquette Moves for Enquiry--Grand Trunk Pacific Bill Passes.

(By Daily News Leased Wire.)

OTTAWA, June 9.—The Canadian Northern railroad aid bill received a third reading in the senate this afternoon and as soon as formally assented to by the Duke of Connaught will become law.

Thirteen Liberals voted in favor of the bill on third reading. They were: Bostock, Mitchell, David, Ross (Moose Jaw), McHugh, Frost, Thibaudeau, Edwards, Derbyshire, De Veber, Young, Watson and Talbot.

All the Conservative senators voted in favor of the measure except Senator Montplaisir. He is one of the oldest members of the upper chamber, having been appointed to the senate in 1891 by Sir John Macdonald. He voted for the bill on second reading.

Four Liberals who voted for the bill on the second reading, but voted against it on the third reading, were: Fiset, Ratz, Beith and Dessaulles.

The analysis of the vote therefore is that 13 Liberals and 22 Conservatives voted for the bill on the third reading, with 19 Liberals and one Conservative against.

In the above estimate Sir Lyman Jones is counted as a Conservative. He has voted with the government since his announcement that he had left the Liberal party.

The vote on the third reading was really a motion by Senator Choquette that the bill be reported to a committee for investigation, this being rejected by 35 to 20. The third reading was then declared carried "by the same division."

The vote on the second reading stood 47 to 12 in favor of the bill.

Says Objections Not Well Founded.

Hon. Mr. Lougheed declared that the objections to the bill enumerated in Senator Bostock's amendment were not well founded. He said that the security the government was getting was ample. He stated that it was unreasonable to demand that Mackenzie & Mann should be required to give their personal fortunes for the successful completion and operation of a 10,000-mile railroad system such as the Canadian Northern railway. The personal fortunes of those behind the Canadian Pacific railway had not been so pledged. The Grand Trunk railway had declined to pledge itself to the construction of the Grand Trunk Pacific. Why, then, should the pledge of the personal fortunes of Mackenzie & Mann be asked for. The proper expenditure of the money realized from the Canadian Northern guarantee bonds was absolutely assured by the terms of the contract.

Senator Bostock thought the government was making a bad bargain and would regret having taken the great share of stock in the railroad.

Calls Senate Pitiful Farce.

On the motion for third reading Senator Choquette offered an amendment providing that the bill should be sent to the railway committee of the senate and that the committee should have the power to summon witnesses and require evidence to be given. He said that it appeared that Mackenzie & Mann were stronger than the government and had forced the government to open the treasury to them that they might take what they wanted. It also appeared that Mackenzie & Mann were stronger than all their opponents combined. Never had he seen such a farce as was being enacted in the senate. A few days ago the Liberal majority of the senate had voted to prevent some farmers in the country who had lost money through the failure of the Farmers' bank being repaid their pitiful losses. They had voted that way on principle because it was not desirable that the government should repay those who had lost their money in financial ventures. Now two men had come before parliament and had said that they were bankrupt and both the commons and the senate were prepared to vote them $45,000,000 to save them. Senator Choquette's motion was seconded by Senator Jaffray.

At the evening sitting, on motion of Hon. Mr. Lougheed, the bill guaranteeing Grand Trunk Pacific bonds to the amount of $16,000,000 was given third reading.

MURDER TRIAL POSTPONED

(By Daily News Leased Wire.)

MONTREAL, June 9.—The trial of Arthur Focault and Joseph Beauchamp charged with murdering Constable Bourdon was today postponed until September. The trial of Edward Beck, editor of Beck's Weekly, on a charge of criminally libelling Ald. O'Connell, will take place in September.

EIGHT THOUSAND MILK TICKETS ARE STOLEN

About 8,000 quart milk tickets were yesterday stolen from the Pioneer dairy's plant on Josephine street between Baker and Vernon streets. The rear door of the building was left open and in the morning a number of the tickets were taken from their accustomed place. In the afternoon the place was again entered and the remainder of the tickets removed. The city police were notified of the theft. To prevent the use of the tickets the dairy's name will be changed to City Dairy.

A. E. FRANK DIES AT NELSON HOME

Secretary of Mountain Lumber Manufacturers' Association Succumbs After Long Illness.

After an illness extending over a period of six weeks, during which time he was confined to his Nelson residence, the death occurred at an early hour yesterday morning of Albert Emil Frank, secretary of the Mountain Lumber Manufacturers' association.

The late Mr. Frank had been connected with the Mountain Lumber Manufacturers' association practically since the removal of its office from Nelson to Calgary some two years ago, and in that time he had acted as assistant secretary of the association for a year and a half under W. A. Anstie, who is now managing director of the Forest Mills of British Columbia at Revelstoke. At the meeting of the lumbermen in Nelson in January last he was permanently appointed secretary and in the performance of his duties in that capacity he had made a host of friends throughout the west, both among the lumbermen and the representative business men of the country.

Mr. Frank took up his residence in Nelson on March 15 last when the office of the association was moved from Calgary back to Nelson, and he had only been a resident of the city for about a month and a half when he was taken ill with a serious attack of pneumonia which terminated fatally yesterday.

Mr. Frank, who was about 29 years of age, came west to Calgary from New York city, where he is survived by a mother, father and two brothers. In Nelson he leaves his wife and little daughter, Louise, 2 years of age.

The funeral will take place tomorrow afternoon at 2 o'clock and it is expected that it will be largely attended by members of the Mountain Lumber Manufacturers' association and of the business fraternity of Nelson. Mr. Anstie and Charles O. Rodgers, president of the Mountain Lumber Manufacturers' association, are expected in the city tonight to attend the funeral. They were yesterday in Calgary.

STATES SWELTER FRANCE FREEZES

Intense Heat Causes Deaths in Detroit and Pittsburg—Frost King Grips France

(By Daily News Leased Wire.)

DETROIT, Mich., June 9.—Up to this afternoon the intense heat of the last few days had resulted in four deaths, driven a young woman insane and prostrated at least 19 other persons, according to police reports. The government street thermometer registered 98 degrees early in the afternoon.

Three Die in Pittsburg

(By Daily News Leased Wire.)

PITTSBURG, Pa., June 9. — Three deaths from the heat were reported here today when the thermometer at 10 o'clock registered 88, the record for 40 years.

Frosts Kill Crops

(By Daily News Leased Wire.)

PARIS, June 10.—All France is in the grip of a cold snap and snow has fallen in many places. The Charolais region has suffered most severely and great damage has been done to the crops. Near Avignon there have been several hail storms and at Havre the ground floors of many houses are flooded.

BUSINESS IS AS GOOD AS WE MAKE IT

The head of a great national industry—a veritable live wire—remarked recently that he could have a panic in his business any time he wanted it.

All he had to do was to let up driving and begin to talk hard times.

But instead of doing this he increases his advertising when things look squally and drives his salesmen harder.

And good times or bad, there has never been a year that his business has failed to go ahead and yield a handsome profit.

This man incidentally practically does all his advertising in the local newspapers, figuring wisely that by making sales for the distributors of his goods, he is paving the way for his own salesmen to get more orders.

The Bureau of Advertising, American Newspaper Publishers Association, is working to help builders of business build better. Booklet on Co-operation forwarded on request to 806 World Building, New York.

LIBERALS OPPOSE NAVAL TRAINING

Borden Explains Steps Taken to Form Reserve

YOUNG MEN WISH TO SERVE EMPIRE

Laurier Objects to Expenditure by Canada of One Million Dollars.

(By Daily News Leased Wire.)

OTTAWA, June 9.—The naval issue which has lain dormant during the present session was stirred up in the house this evening and for several hours nothing but naval talk was heard. The cause of the debate was the estimates of the naval branch.

Premier Borden said that the naval reserve plan was based on requests from different parts of Canada that naval training might be taken up, just as military training.

French-Canadian Liberal members seized upon the statement that sailors trained in Canada could serve in the British navy as an indication that the proposal went farther than Sir Wilfrid Laurier did in his naval policy.

Hon. L. P. Pelletier said that the proposed naval reserve was quite in keeping with the government's naval proposals of last year and that the arguments of the Liberals were ridiculous. He said that the naval policy of the government had been endorsed by the electors of Chateauguay at the by-election in that riding.

The debate continued until after midnight, when the $1,000,000 was voted and other items were taken up.

It is possible that, after all, prorogation may not take place this week. Both parties still hope that a compromise regarding redistribution will be effected and that the bill will be introduced this session. The feeling is that, after spending so much time on the question and having settled every constituency except two, namely, Russell and Richmond, it is a pity to have all the committee's efforts go for naught. But even if the redistribution bill is not introduced this session, prorogation is not expected before Saturday.

On the naval estimates Sir Wilfrid Laurier asked for a statement in regard to the naval college.

Hon. J. D. Hazen said that there were now 40 students taking the course, which is for three years. Eight of the cadets are now studying on H.M.S. Berwick.

Sir Wilfrid then asked about the Niobe. He was told that she was in good condition, lying in Halifax harbor.

"Is it intended to use her at all?" he asked.

"That is a matter that may develop in the future," replied Mr. Hazen.

Sir Wilfrid—I have seen it reported somewhere that she is to become a training ship.

Mr. Hazen—She may be used in connection with the training of naval volunteers.

Hon. R. Lemieux—The minister had better have the postmaster-general and the minister of inland revenue retire. He will feel freer then.

Sir Wilfrid then took up the plans for the naval volunteers and said that he doubted the wisdom of having training stations on the great lakes and thought that the Canadian government, instead of establishing stations, should expostulate with the United States government in regard to the federal government taking over the stations on its side of the lakes. If Canada entered into competition, he remarked, the United States will have a large force and Canada would have a limited one.

Form Volunteer Force

Mr. Hazen replied that Canada had always protested against war vessels or training ships on the great lakes and it was not now intended to establish a training ship there. There would be simply an organization of naval volunteers and if it was necessary for them to have training on shipboard they would be taken to Halifax for that purpose. As to the American training stations, he was informed by his officials that congress had this year passed legislation to take them under federal supervision.

Sir Wilfrid proceeded to discuss the question at some length. There was no doubt, he said, that Canada had moved in the last three years and it was a movement which was not contemplated at the last election.

It was well understood in the election of 1911 if the Conservatives were returned that the naval service act would be wiped out. The Conservative cry was "One throne, one empire, one navy." Now it was settled that the naval service act was to remain in force. The minister had stated that the naval volunteers were organized under that act. They were to serve in the Canadian navy or in the royal navy. They would not serve in the Canadian navy for the minister had said he was not sure Canada would have a Canadian navy. They would serve in the royal navy. This was the corollary of "one throne, one flag, one navy." He had been told, said Sir Wilfrid, that Canada was to have a permanent policy. It was not coming at one fell swoop. It was coming by degrees. The contumelious Rainbow

(Continued on page four.)

GAVE SEVEN MILLION DOLLARS TO COLLEGE

Sir W. Macdonald Contributes Another Million to McGill Institute—Degrees in Medicine Issued

MONTREAL, June 9.—Sir William Macdonald's donations to the Macdonald college of agriculture now total $7,000,000, according to figures given out this afternoon by Dr. Harrison, the principal, at the annual convocation of McGill university for presenting degrees in medicine, music, science and agriculture. The reference to Sir William's bounty came in the address of Dr. Harrison, in which he presented the members of the graduating class of the agricultural institute with their degrees. This total was reached during the past year, when the founder of the college, which is named after him, set aside $1,000,000 for an endowment fund.

EXAMINATION OF HINDUS DRAGS

Twenty Are Found to Have Been in Canada Before—Ninety Rejected by Doctors

VANCOUVER, B. C., June 9.—Twenty of the Komagata Maru's Hindu passengers claimed on arrival here that they were entitled to land because they had previously been residents of British Columbia. Their cases have been dragging along for two weeks before the immigration board of inquiry, which finished with them this afternoon and allowed all 20 to come in. Tomorrow, the Hindus now having agreed to come ashore, the board will commence the hearing of the 90 cases which have been rejected by the medical examiners. These will be taken 10 at a time.

Gurdit Fool, Says Coast Hindu.

VANCOUVER, B. C., June 9.—"We are sorry the ship ever came," declared Bhai Buda Singh, one of the most prominent Hindus residing in this city, today, referring to the arrival of the Komagata Maru with the 369 Hindus aboard. "It has made your people angry," he went on, "and they are preaching against us a holy war. The whole affair seems to have been managed without forethought. Gurdit Singh is a fool and now they must go back to Punjab. The people of this country hated us as strangers when first we came, but their fire has died down and we do not want it to be lighted again."

Determined to Keep Them Out

VICTORIA, B. C., June 9.—Hon. W. J. Roche, minister of the interior, has telegraphed the following to Mayor Stewart of Victoria respecting the Hindu immigrants aboard the steamer Komagata Maru, who are seeking entrance to Canda:

"It is our intention to enforce the immigration law and unless on some technical point we are defeated by the courts of British Columbia I expect we will be able to handle this question to the satisfaction of the residents of British Columbia."

STORM DEATH TOLL WORST IN HISTORY

Cannot Yet Compute Exact Loss in New Brunswick Tragedy—Fierce Gales Bring Disaster

ST. JOHN, N. B., June 9.—The exact death toll on the Bay of Chaleur on Thursday and Friday, in which many lives have been lost, cannot be computed until all the outlying places along the New Brunswick and Quebec coasts of the bay have been heard from. Reports received today place the number of lost at over 100. The reports could not be verified at a late hour tonight, as some of the places where the fishing fleets belong could not be reached because of interrupted wire service caused by the storm, but the toll will be heavy. The disaster is the worst in the history of the north shore.

Capt. Samuel Beck of the Wesley Logging company's schooner Warren arrived in port this morning from Shippegan, which he left at 3 p.m. yesterday. He states that the wind blew 150 miles an hour at times and that no one could walk along the deck during the height of its fury. Though his schooner was lying in the lee of a wharf, a double length of iron chain fastening her snapped like chalk.

The list of the vessels and crews known to be lost is as follows:

Capt. Alberts, schooner and crew of five.

Three crews picked up drowned off Misscou point.

Rubine company's schooner gone with all hands.

At Point Canoe a big boat has gone to pieces, no one saved.

Schooner riding at anchor 15 miles off Shippegan; all the crew swept off.

Schooner and boat off North Cape, P.E.I., with crews lost.

Many other schooners and boats are missing from the Caraquet, St. Simone and Shippigan fleets.

From Paspediac, Que., comes word that 30 boats have been lost with crews. Five of these boats have been picked up near Shippigan.

The bodies of eight Caraquet fishermen were recovered.

BRITISH COLUMBIA RHODES SCHOLAR NAMED

VANCOUVER, B. C., June 9.—Basil St. Elmo Atkins, aged 29, a native son of Vancouver, has been selected as this year's Rhodes scholar for British Columbia. He graduated from McGill with honors last year with degree of bachelor of arts.

FALSE MESSAGES CAUSE BIG LOSS

Lloyds Loses Faith in Wireless Reports From Ships

ASK REGULATIONS TO REMEDY EVIL

Underwriters Thought Empress News Was Canard and Risked at Low Figure.

(Canadian Associated Press Cable.)

LONDON, June 9.—The frequency of the receipt of false wireless messages at Lloyds has led the authorities in London to take steps to remedy the evil. One or two proposals are shortly to be submitted for approval. One is that all ships equipped with radio telegraphic apparatus should be made to report "all well" once or twice every 24 hours, while another suggestion is that each vessel should have a secret password known only to the captain and the chief operators of wireless stations.

The result of scares is not only a good deal of unnecessary anxiety but heavy loss to the underwriters, who are in fact beginning to doubt the accuracy of serious messages. For instance, in the belief that the news of the foundering of the Empress of Ireland was a recurrence of the recent canards as to overdue ships the market at Lloyds was found willing to underwrite the risk of total loss at a nominal figure of two guineas per cent, at which a fairly large business was done, with the result that a heavy liability was incurred.

Not many weeks ago a German steamer was reported abandoned in the Bay of Biscay and reinsurance was effected at 80 guineas per cent. It subsequently transpired she had gone to the assistance of a vessel in distress. Another case was that of the Pacific Mail company's liner Siberia, which was reported to have stranded between Yokohama and Hongking, but which was all the time safe. That misleading message cost the underwriters about $100,000.

STRAIN IN IRELAND GROWS MORE ACUTE

Redmond Officially Recognizes Nationalist Volunteers—Look for Early Dissolution of Parliament.

(Western Associated Press Special Cable.)

LONDON, June 9.—Prospects of compromise on the home rule issue are growing less promising, as it is asserted now that the Unionists will refuse to recommence conversations unless the amending bills give complete exclusion of Ulster.

Meanwhile the strain is increased as a consequence of Mr. Redmond's official blessing to the Nationalist volunteers, in which he predicts that all the Nationalists will shortly be enrolled.

Politicians fail to see how the government can possibly avoid an early dissolution.

Nationalist Volunteers Strong.

(By Daily News Leased Wire.)

DUBLIN, June 9.—John E. Redmond, leader of the Irish Nationalists, issued a statement tonight in which he emphatically denies reports that the Irish volunteer movement is hostile to the objects of the Irish party, and adds:

"Up to two months ago I felt that the volunteer movement was somewhat premature, but the effect of Sir Edward Carson's threats upon public opinion in England, the house of commons and the government, and the occurrences at Curragh camp and successful gun-running in Ulster virtually altered the position and the Irish party took steps about six weeks ago to inform their friends and supporters that in their opinion it was desirable to support the volunteer movement. As a result it has spread within the last six weeks like a prairie fire and all the Nationalists in Ireland shortly will be enrolled."

The volunteers will be strengthened by the addition of 25 representatives of the Irish party. The volunteers are said to number 120,000 at the present time, but they are not so well armed and drilled as the Ulster volunteers, their organization on a military basis having been only begun recently. Further they are hampered by lack of money and difficulty in finding officers willing to drill them.

Search Pirrie's Yacht.

(Canadian Associated Press Cable.)

LONDON, June 9.—A despatch from Belfast announced that Lord Pirrie's steam yacht was overhauled for contraband. He was one of the first peers created by the present government.

BLAKE ANDERSON DEAD

(By Daily News Leased Wire.)

SASKATOON, Sask., June 9.—Blake Anderson, a well known Watrous man, dropped dead here today from heart failure.

Soda Syphons and Sparklets

Take one home with you, you'll find it convenient for picnics and holidays. Have your soda water fresh when you want it.
B size, being a shade larger than a pint, each $1.50
Cartridges for above size, per box 60c
C size, slightly over a quart $2.50
Cartridges for C size, per box 90c

Thermos

If you prefer hot or cold drinks, take a Thermos. Our line is not the cheap vacuum bottle, but each and every one is guaranteed to keep boiling water hot for twenty-four hours or ice cold liquid cold three days. The prices are from.....$1.50 up

Picnics

Lunch Set, containing 12 napkins, 12 doilies, 12 paper plates, one table cloth, 4ft. x 6ft., per set 50c

FINDS PETER LUND ACTED IN PUBLIC INTEREST

(Special to The Daily News)

FERNIE, B. C., June 9.—R. H. Bohart of Wardner brought action against Peter Lund, the well known lumberman of the same place, for $27,000 for the cancellation of the hotel licence of the Wardner hotel at Wardner, B.C. The defendant wrote a letter to the attorney-general of the province which resulted in the licence being cancelled.

Mr. Lund contended that what he did was simply in the public interest, and in this contention he was sustained by Mr. Justice Clement.

His lordship gave judgment for $5 damages for the publication of a copy of the letter in question to a minister at Wardner, but in all other respects upheld Mr. Lund and ordered the plaintiff, Mr. Bohart, to pay the major portion of the costs of the trial.

Witnesses were in attendance at the trial from various points in Alberta and British Columbia.

Herchmer & Martin of Fernie appeared for the plaintiff and A. B. Macdonald of Cranbrook for the defendant.

Colin Campbell of Victoria, superintendent of provincial police, is in the city.

The Fernie-Coal Creek band has ordered a new set of instruments from London, England.

FILL VACANCIES ON DEER PARK SCHOOL BOARD

(By Daily News Leased Wire.)

DEER PARK, B. C., June 9.—A special meeting of the ratepayers of Deer Park school district was held in the schoolhouse on Friday for the purpose of electing trustees to fill the vacancies caused by the removal of George Massey and by the death of I. P. Miller

The meeting was well attended and Angus Campbell and C. Jacobson were elected to fill the offices for the unexpired portions of the terms.

The following resolution was read and adopted unanimously:

"We, the ratepayers of Deer Park, assembled at a meeting called for the purpose of electing a trustee to fill the vacancy caused by the accidental death of the late Mr. I. P. Miller, desire by the adoption of this resolution to express our keen appreciation of the services rendered by him in the capacity of trustee.

"In this position, which he held from the inception of the school, he was untiring in his efforts and interest, and credit is almost entirely due to him for the erection of the present commodious school building."

The secretary of the school board was requested to forward a copy of this resolution to the widow.

HALCYON NOTES

(Special to The Daily News)

HALCYON, B. C., June 9.—T. W. Allshouse, Summit Lake, came down on Monday to meet G. F. Robinson, Gerrard.

E. P. Emms, provincial constable at Kamloops, left on Sunday, very much benefited by his three weeks' holiday.

Telfer Cadwell, Rossland, returned home on Monday, entirely recovered. He was in bad shape when he arrived, nearly three weeks ago.

Y. Hendrickson, Three Valley, left on Monday after a stay of one week, entirely free of rheumatism.

The stormy weather that has prevailed here for the past week has made trolling impracticable.

SHAMROCK THE FOURTH BEATS OLDER CHALLENGER

(By Daily News Leased Wire.)

SOUTHAMPTON, June 9.—Shamrock IV., Sir Thomas Lipton's new challenger, showed excellent form today in her first race, sailed in the Solent. She outpaced the older Shamrock, leaving the trial yacht far astern.

BURY PAYS VISIT TO GRAND FORKS

Railway Officials Are Shown Smelter and Ranches—City Looks Into Oil Stock Selling Question.

(Special to The Daily News)

GRAND FORKS, B. C., June 9.—G. J. Bury, vice-president and general manager of the Canadian Pacific railway, accompanied by a large party of railway officials and others, arrived in the city this morning and was met by members of the board of trade, the mayor and city council and other prominent citizens. Ten or 12 automobiles were in attendance and took the party first to the Granby smelter, then for a trip through the valley, after which lunch was served at the Honsberger ranch, the party returning to town in time to connect with the 1:30 o'clock train for the east.

A meeting of the city council was held last night. Mayor Gaw was in the chair and all the members were present. A communication was received from Dervy & Co. of Boston, Mass., asking if the city had any second hand electrical machinery for sale. The city clerk was instructed to ascertain what second-hand machinery the city had to dispose of.

A communication was received from the board of railway commissioners notifying the council that the board would sit in Revelstoke on June 18 and would consider a petition from the residents of Columbia regarding the proposed abandonment by the Canadian Pacific railway of the station at Columbia.

A communication was received from J. H. Ryley, solicitor, as to the selling of oil stocks in the city. Under the present bylaw transient traders' license fee is $200. Notice of amendment to the bylaw dealing with the question was given.

A resolution was passed making a grant to the board of trade of $25 per month from May 1, until further notice.

The council adjourned to meet on Wednesday next at 8 o'clock.

After an extended visit to the east Mrs. C. C. Heaven returned home yesterday.

PROCTOR NOTES.

(Special to The Daily News)

PROCTOR, B. C., June 9.—The mixed car of feed for the Proctor & District Farmers' institute arrived on Monday, and the secretary, E. Watson, hopes to have unloaded the portion which has to go to the main lake tonight, in which case the car will be pulled up to the siding at the depot ready for unloading tomorrow.

James Kennedy of the Narrows Balfour, has gone to the main lake for a few days' hunting.

Mrs. Wolstenholme and her three sons left on Monday to join her husband and daughter in Toronto.

WYCLIFFE PIONEER LOCATES ON RANCH NEAR CRESTON

(Special to The Daily News)

WYCLIFFE, B. C., June 9.—Ben Macleod, a recent resident and old-timer of this section, left Kimberley some time ago to look over the country adjacent to Kamloops with a view to locating there, but did not find anything that just suited him and he has finally located on a farm near Creston.

Mr. Wells, rector of the Anglican church here, assisted Rev. E. P. Flewelling at the services at Christ church in Cranbrook Sunday.

Mr. and Mrs. Chester Staples, with their young son, arrived home Sunday from Ann Arbor, Mich., where they have been on a visit of three months.

Rev. Joseph Herdman preached his farewell sermon Sunday and will leave in a few days for his new location near Kamloops.

Mrs. C. West left a few days ago to visit a sister at Kamloops.

Mr. and Mrs. Dryden arrived from the coast last week and have taken up their residence in Marysville. Mr. Dryden is the newly appointed policeman for the district of Wycliffe, Marysville and Kimberley and entered upon his duties June 1.

Mrs. Sadie Hope was the guest for a couple of days of her sister, Mrs. Dick Moore of Cranbrook, last week.

Mr. and Mrs. Harry Edwards returned the last of the week from a camping trip in the Windermere country. Mr. Edwards has almost completely recovered from the effects of his recent accident.

SLOCAN CITY NOTES

(Special to The Daily News)

SLOCAN CITY, B. C., June 9.—The men working on the government road near Johnston's camp were in town over Sunday.

Holland Bruin and George Long were down from the Ottawa mine on Saturday.

Edwin Worth came home from Nelson after three weeks in the Kootenay Lake General hospital.

Harry Graham met with an accident Saturday afternoon, sustaining a fracture of the leg. Dr. W. O. Rose was sent for.

Mrs. L. A. Tipping went up to New Denver on Monday morning, returning in the evening.

The men working on the flume have been laid off on account of the scarcity of water.

Thomas Holt went to Nelson Friday, returning on Saturday.

Na-Dru-Co Laxatives
accomplish their purpose with maximum efficiency and minimum discomfort. Increasing doses are not needed.

EAST KOOTENAY PRE-EMPTORS BUSY

New Settlers on Land Thrown Open by Government Near Wycliffe Clear Land, Build Homes

(Special to The Daily News)

WYCLIFFE, B. C., June 9.—Within a radius of four miles of Wycliffe recently a number of pre-emptors have located on the land on which they filed on May 1 and others are commencing to build houses and break the land.

James Malcolm, formerly bookkeeper for the Beattie-Murphy company, Cranbrook, with his family, has been living in a tent on his homestead since the middle of May. Mr. Malcolm has a log house in the course of construction, and already has a well dug. R. E. Beattie and George Stephenson of Cranbrook have land adjoining Mr. Malcolm and expect to spend the summer there. Mr. Edmundson, also of Cranbrook, has some land in this section and will be there at an early date. Mr. Freak, another Cranbrook man, also pre-empted not far distant but has not yet started building. Mrs. Bidder and son Alfred of Marysville have already made a good start on their log houses and are living on their homesteads. Mr. Handley, the hotel man of Marysville, had some of his ground broken some time ago and has a crop of oats and potatoes in. Jack Horman, also of Marysville, is among those who are building. C. F. Conover and William Flemming of Kimberley, with their families, are living in tents on their land, but except to soon occupy their houses now under construction. The former filed on land where one of the Staples Lumber company's camps was located.

All these people are most enthusiastic over the "simple life" and look forward to the time spent in improving their homesteads as a pleasure and not as a hardship.

ANNUAL ROBSON PICNIC IS ENJOYABLE AFFAIR

School to Send Exhibit of Work to Victoria—Another Townsite Lot Is Sold.

(Special to The Daily News)

ROBSON, B. C., June 9.—The Robson annual picnic was held on Wednesday last and was largely attended and eminently successful. Games of football and baseball were played on the townsite grounds and a good program of races and games was held. The winners were as follows:

Boys' race, 10 to 15 years of age—1, Wilbur Oborne; 2, Rex Johnson.

Girls' race, 10 to 15 years—1, Rosy Watts; 2, Doris Mitchell.

Boys' race, under 10 years—1, Gilbert Oborne; 2, Bernard Johnson.

Girls' race, under 10 years—1, Elinor Squires; 2, Jennie Floyd.

Leap frog—1, Rex Johnson and Wilbur Oborne; 2, Lloyd Oborne and Allan Johnson.

Girls' three-legged race, 10 to 15 years—1, Rosy Watts and Doris Mitchell; 2, Bessie Watts and Marjorie Fowler.

Girls' three-legged race, under 10 years—1, Margaret Brown and Jessie Floyd; 2, Marjorie Lundy and Jean Brown.

Boys' three-legged race, 10 to 15 years—1, Lloyd Oborne and Allan Johnson; 2, Victor and Alfred Lommell.

Boys' three-legged race, under 10 years—1, Leo Lommell and Gilbert Oborne; 2, Earl Fowler and Willie Brown.

Consolation race—1, Jimmie Fowler; 2, Nick Waken.

The ladies' race was won by Mrs. James Fowler.

The committee in charge of the sports was: W. T. Wickham, G. R. Brown, A. D. Clyde, A. F. Mitchell and George Horn.

At the conclusion of the program refreshments were served in picnic style by a committee of ladies consisting of Mrs. G. R. Brown, Mrs. Joseph Johnson, Mrs. A. Lundy and Miss McDiarmid.

Prof. Vining of Brandon college and Mrs. Vining are holidaying in Robson.

Mrs. Stewart McDiarmid of Vancouver, who with her little son and daughter has been visiting her parents, Mr. and Mrs. John D. Ferguson, for the past few weeks, returned home Tuesday evening.

Another townsite lot has been disposed of and it is the intention of the purchaser to erect a house upon it in the near future. Townsite property has been changing hands well this spring, the foregoing being the sixth.

The scholars of the Robson school will have an exhibit at the provincial exhibition to be held at Victoria in September next. It will consist of maps and other drawings, color designs, penmanship, etc.

Promotion examinations will be held in the Robson school next week. The school closes for the holidays on June 26.

W. T. Wickham is making an extension to his general store, which will provide increased accommodation.

One of the finest specimens of the Great Northern diver was shot here recently by Alfred Lommell. It was exceptionally well marked and measured 2 ft. exclusive of bill or feet. Mr. Lommell has had the bird neatly mounted by James Fowler.

FERNIE VETERANS TO SHOOT DURING CHAHKO MIKA MEET

(Special to The Daily News)

FERNIE, B. C., June 9.—At the meeting of the Army and Navy Veterans' association on Monday it was decided if possible to send a team to enter the shooting competition at Nelson to be held during Chahko Mika.

It has also been decided that the veterans will be represented there in the parade.

This association is now growing by leaps and bounds and strong efforts are being made to enroll every veteran in the Fernie district.

CHINAMEN STOLE FRIENDS' BANKBOOK

Gets Two Years in Penitentiary at Vernon Assizes—False Fire Alarm Expert Found Guilty.

(Special to The Daily News.)

VERNON, B. C., June 9.—Four convictions, one verdict of not guilty, three suspended sentences and one two-year penitentiary sentence were the results of criminal cases finished today at the spring assizes before Mr. Justice Murphy, with F. G. Lucas as crown counsel.

The Berryman murder case in which Thomas Christian, William King, Arthur Quinn, Thomas Sullivan and Larry Green are all charged with the murder of James Berryman, was traversed to the fall assizes. His lordship took under advisement the granting of bail for the accused men. A. H. McNeil, K. C. of Vancouver, is counsel for William King, whose sister, a stenographer for Sir Donald Mann at Winnipeg, is here helping her brother.

Maurice Callans was acquitted on a charge of attempted burglary but was convicted on a charge of assault and resisting an officer. He was released on suspended sentence and a $500 fine, as was Savino Lasaco, acquitted on a charge of attempted assault but convicted of common assault.

Charlie Wing, a Chinaman, was convicted of forgery and sentenced to two years in the penitentiary. He obtained the savings bank pass book of his best friend and drew out all his savings.

Henry Bailey, found guilty of mischief in having wilfully tampered with and damaged a fire alarm box in Vernon was released on suspended sentence under $1,500 bond. Bailey's arrest came as the culmination of several months' continuous false alarms from box 7, one of which, as Mr. Justice Murphy pointed out, cost the life of one man, a policeman who was run over by a fire truck and died of his injuries.

HAIR GROWTH PROMOTED

By
CUTICURA SOAP AND OINTMENT

DIRECTIONS: Make a parting and rub gently with Cuticura Ointment. Continue until whole scalp has been gone over. The next morning shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 32-page booklet on the care and treatment of the skin and scalp, sent post-free. Address Potter Drug & Chem. Corp., Dept. 16K, Boston, U. S. A.

WAGNER HAS THREE THOUSAND HITS

Two Bagger Places Pirates' Veteran Shortstop in Almost Unique Place in Baseball Annals.

(By Daily News Leased Wire.)

PHILADELPHIA, Pa., June 9.—Hans Wagner, the veteran shortstop of the Pittsburg National league team, today made his three thousandth hit in 17 years of major league baseball. It was a two-bagger off Pitcher Mayer, with no one on the bases in the ninth. He subsequently scored Pittsburg's only run of the game on two outs. He was applauded when he made the hit and again when he crossed the plate.

The only other player who is said to have made 3,000 hits in his major league career was Adrian C. Anson, who batted out 3,047 in 22 years.

MANY PLAY TRAIL ON SUNDAY NEXT

Smelter City Boys Out After Scalp of Nelson Ball Team—Locals Practice.

Trail baseball team will in all probability be the next opponent of the Nelson baseball team, for yesterday Manager Harry Houston of the local club received word from Trail that the smelter city boys were out after the scalps of the locals. Manager Houston has decided to accept the game with Trail and the boys will, it is expected, go over to the smelter city next Sunday.

Trail has a good team this year and on Victoria day played a nice 9-9 game with the Rossland nine but the locals, who met defeat at the hands of Rossland on Sunday, intend putting in some hard practices this week and promise to play more air-tight ball than they dished upon Sunday last.

LAKE PITCHES TWENTY INNINGS

New American Association Record Is Established—Only Five Runs in Marathon Game

(By Daily News Leased Wire.)

MINNEAPOLIS, Minn., June 9.—Minneapolis and Louisville hung up a new American association record at Nicollet park today when they battled through 20 innings of the greatest ball game ever seen on any field. Minneapolis won 3 to 2, after two men had been retired in the last round. The previous record for the association was set in Milwaukee last year when the Brewers beat Columbus 6 to 5 in 19 innings.

Joe Lake proved himself a man of iron this day, for he pitched the whole way for Minneapolis and looked better in the last inning than he did at the start. But overtime ball games are easy for Joe, for he made himself famous on Sept. 17, 1913, when he pitched for 18 innings against Columbus and won.

Loudermilk for 12 innings and Toney for eight were the pitchers that worked against the Millers.

	R.	H.	E.
Louisville 010 000 001 000 000 000 00—2	15	4	
Minneapolis 110 000 000 000 000 000 01—3	14	3

POLO GAME POSTPONED TO SATURDAY NEXT

(By Daily News Leased Wire)

NEW YORK, June 9.—The date for the second polo game between the English and American teams was announced today as Tuesday, June 16. Should a third contest be necessary it will probably take place Saturday, June 20. Capt. Cheape, whose injuries caused the postponement of the first game scheduled for today until next Saturday, is improving steadily and is expected to enter practice not later than Thursday.

UVANNI TO FIGHT WEEKS AT FERNIE

Articles Signed, Forfeit Posted for Middleweight Championship of Canada on Dominion Day.

(Special to The Daily News)

FERNIE, B. C., June 9.—Much interest is being taken in the coming bout between Joe Uvanni of Rome, N. Y., and Billy Weeks of Vancouver, for the middleweight championship of Canada.

Uvanni has won the elimination competition pulled off by Tommy Burns at Calgary, and Weeks the elimination competition staged by Chet McIntyre at the coast.

Attempts had been made to bring these two together but until now had failed. The articles have been signed and forfeit money posted by both parties.

Both men are in active training and a good contest will be assured.

The bout is to be pulled off by the Fernie Athletic association on July 1, when it also intends to hold the usual Dominion day celebration, giving good prizes for horse and foot racing, jumping, lacrosse, baseball, football, motorcycle and other sports. No money will be spared to make the sports a success.

PERRIER WINS FROM PERRY

Last evening, in the Curlers' Bowling league, A. A. Perrier's team defeated F. R. Perry's term by 61 pins. A. Carrie was high man for the evening with 185 and Mr. Perrier had high average with 416. The scores:

ESSEX BEATS SURREY

(By Daily News Leased Wire.)

LONDON, June 9.—Essex today defeated Surrey at the Oval by 323 runs. For Essex, Rev. F. H. Gillingham made 121, not out; P. Perrin, 83, and J. W. H. T. Douglas, captain, 74, not out. Douglas also took six wickets for 60 runs.

JOHNNY COULON LOSES HIS TITLE

Bantamweight Champion of World Is Put to Sleep in Third by Kid Williams

(By Daily News Leased Wire.)

VERNON, Cal., June 9.—Johnny Coulon, bantamweight champion of the world, lost his title tonight to Kid Williams of Baltimore, who knocked him out with a stiff right hand punch to the chin in the third round of a 20-round contest.

The fighting was all Williams' from the start. Coulon seemed to be unable to solve the problem of landing anywhere in the first two rounds and was saved at the end of the second round only by the ringing of the bell.

OUTLET CLUB FISHING SHACKS IN GOOD SHAPE

(Special to The Daily News.)

PROCTOR, B. C., June 9.—A general meeting of the Outlet Sports club, at which several lady members were present, was held in Gallup's hall on Monday evening. The president, H. E. R. Bedford, was in the chair. James Kennedy, secretary of the fishing committee, reported that the shacks at Wilson creek and Coffee creek were in very good order, but that certain articles were missing from the latter. He had not had time to visit the shack at Midge creek.

Harry T. Cherry wrote regretting his inability to accept the position of vice-president of the club as he was living in Balfour during only a few months of the year and Percival Coles was elected in his place.

As a result of the meeting which had taken place between members of the executive committee and the rifle association committee, Capt. R. H. Manley, captain of the rifle association, proposed that the association should not separate from the Sports club, but should have its own treasurer and handle its own finance.

During the discussion which ensued several supposed grievances with regard to the expenditure of the club funds were satisfactorily explained and the motion was carried.

R. S. Francis, who had resigned, was reappointed treasurer of the association. The following were appointed a sub-committee to arrange the partition of funds received to date: R. Holmes a Court, Dr. A. C. Major and R. A. Alford. Mr. Alford announced that the tourist hotel courts would be ready for play next Sunday and at a meeting of the executive committee held immediately after the general meeting, it was decided to take the use of three courts on Sundays during the next three months.

Y. W. C. A. CONGRESS OPENS TODAY AT STOCKHOLM

STOCKHOLM, June 9.—Eight hundred delegates from 25 countries are gathered here to attend the international congress of the Young Women's Christian association, which will open tomorrow. The congress ends on June 18. Papers will be read on "Ideals for Women" and "The Influence of Religion in the Women's Movement."

Get Your Canadian Home from the Canadian Pacific . . . . Why?

BECAUSE Western Canada offers the greatest modern opportunity to industrious farmers.
BECAUSE the success can be duplicated in your own experience.
BECAUSE Western Canada affords good lands, good markets, excellent educational facilities and an unrivalled climate.
BECAUSE Land at $11 to $30 per acre in Western Canada produces greater crops than land at $100 to $200 in old and exhausted districts.
BECAUSE the Canadian Pacific Railway will assist desirable settlers to the extent of giving 20 years to pay for the land, and lending the farmer $2,000 at 6 per cent. to make improvements, and in case of the approved land purchaser who is in a position and has the knowledge to take care of his stock, will advance cattle, sheep and hogs up to the value of $1,000 on a loan basis, so as to enable the settler to get started from the first on the right basis of mixed farming.

LEGAL AND OFFICIAL ADVERTISING

Effective on and after Jan. 1, 1913.

Legal Advertising (includes municipal and government notices) — 12c per line for the first insertion and eight cents per line for all subsequent insertions.

In certain cases, however, for the convenience of the public, flat rates have been set, as follows:

Applications for Liquor Licenses:—Once per week for four weeks, $5; daily for month, $30.

Applications for Transfer of Liquor Licenses:—Once per week for four weeks, $7.50; daily for month, $45.

Land Purchase Notices:—Once per week for 60 days, $7.

Land Lease Notices:—Once per week for 60 days, $7.

Certificate of Improvement Notices:—Once per week for 60 days, $12.50.

Delinquent Co-ownership Notices:—Once per week for 90 days, $25.

Duplicate Certificate of Title Notices:—Four insertions, $8; eight insertions, $14.

Water Application Notices:—Four insertions up to 100 words, $6; over 100 words, in proportion.

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

WEDNESDAY, JUNE 10

WASTING THEIR ENERGIES.

Messrs. John Oliver, H. C. Brewster and M. A. Macdonald, members of the local opposition, out of the legislature, are fitfully stumping the country. The chief subject of their animadversions is that, under the land policy of the government all the valuable lands in the province have been acquired by speculators, and that none worth having is left for the pre-emptor. Concerning this it may be said:

First—That it is not true. Much land, as fit for cultivation as any in the province, is ready for pre-emptors, and that additions thereto are made frequently, surveyed and with roads to them, as any person who is desirous of acquiring such land as an actual settler thereon can easily learn by writing to the minister of lands at Victoria.

Second—That at the time of the sales of land of which these parties complain, Messrs. Brewster and Oliver were members of the legislature and made no objection to the land laws on the statute books, which the minister of land, in selling, had been simply administering.

Third—That the government has doubled the price of all lands some considerable time ago to all persons except to actual pre-emptors or settlers thereon, and to those it still remains at the nominal price of one dollar per acre on easy terms of payment.

If the opposition has no more serious ground on which to attack the government than its land policy, its leaders would be doing themselves and their party a service by keeping off the public platform.

CRIPPEN'S CURSE.

Dr. Crippen, the London wife murderer, was arrested some four years ago on board of the steamship Montrose near Father Point, in the St. Lawrence. Captain Kendall of the lost Empress was at that time captain of the Montrose. The place where the Montrose was at the time of the arrest is very near the place where the Empress was at the time of the tragedy—within half a dozen miles at most.

Captain Kendall handed Crippen over to Inspector Drew of Scotland Yard and the members of the police force of the province of Quebec who had accompanied him to effect the arrest. Crippen had until that time not been aware that his disguise had been seen through by any one; but early in the voyage the captain had become suspicious that one of his passengers was the notorious Crippen, and after the exchange of a number of telegrams he found his suspicions confirmed. The Montrose being a slow steamer, there was no difficulty in Inspector Drew being on hand at Father Point when she drew near to it, going out to meet her and going on board and making the arrest.

Fixing his eyes upon the young captain who had pointed him out to Inspector Drew, the enraged Crippen is reported as having said to him: "You will suffer for this treachery." At that time no one paid any attention to the words uttered; but since the tragedy of the Empress they have been recalled. Whether the utterance be regarded as the infuriated growl of the wild beast in him when he found himself enmeshed in the toils of the law or as the premonition of a seer, the words have had a remarkable fulfilment.

THE BOYS' BRIGADE FOUNDER.

There has recently passed away Sir William Alexander Smith at the age of 60, the founder of the Boys' Brigade. Born at Pennyland House, Thurso, in 1854, he had been from his early manhood greatly interested in the volunteer force. In 1874 he received a commission in the First Lanarkshire rifles, retiring therefrom in 1908 with the rank of colonel. In those days he had been engaged in business in Glasgow, and his spare time was divided between his volunteer service and his philanthropic work among boys. As secretary of the North Woodside Sunday school in Glasgow he discovered the difficulty of influencing boys for good without order and discipline. It occurred to him that the military drill and organization with which he was familiar would be of benefit in controlling and interesting the boys.

In a recent sketch of his career the story of the founding and work of the Boys' Brigade is told as follows:

On October 4, 1883, therefore, with two colleagues, he banded together some thirty lads as "The Boys' Brigade," forming his little class into a military company for week day drills, which would implant the habits of discipline and the instinct of duty. A constitution and rules were drawn up, and it is significant of his sound judgment that the object then laid down is the same, word for word, as the object of the Boys' Brigade today: "The advancement of Christ's kingdom among boys and the promotion of habits of obedience, reverence, discipline, self-respect and all that tends towards a true Christian maniness."

There were in those times no Boy Scouts nor any similar organization for the training of youth, and Sir William's first effort was a local one. It proved an immediate success. Within a few months companies sprang up on all sides, and the movement was taken up in England. Its simplicity and effectiveness commended itself to churches of all denominations, and before long the movement had reached such dimensions that Sir William was faced with the choice of giving up his business or giving up the brigade. Unhesitatingly, but at great personal sacrifice, he chose the former. A headquarters office was opened, with Sir William Smith as secretary, and from that day the position of the brigade as a national movement was assured. Now the organization numbers 70,000 officers and boys in the United Kingdom and 120,000 throughout the world. From the Mother Country the movement extended to the colonies, to Canada, and Australia, and to the United States. Other organizations for boys on almost the same lines were formed, and today a quarter of a million youths belong to the various brigades for boys which have sprung from the organization founded by Sir William Smith, and which recognize their indebtedness to the pioneer organization. In 1898 Sir William Smith visited *Canada on a tour of inspection* as the guest of the Earl of Aberdeen, then governor-general, and in 1907 he visited the United States on a similar mission.

In 1908 the semi-jubilee of the brigade was celebrated by a great review, under the command of Sir William, when Prince Arthur of Connaught was the reviewing officer. On the same occasion Sir William Smith received a presentation from the brigade and the public of a casket containing an address, and his portrait, which now hangs in the Glasgow Art gallery. Not long afterwards his majesty King Edward VII. bestowed the honor of knighthood on the founder of the brigade, in recognition of his services to the boyhood of the nation.

His life's history is the story of the brigade, in which he leaves a place that can hardly be filled, and the memory of the services that are deeply appreciated by officers and colleagues in the work and by many thousands of Old Boys.

The Boy Scouts and the Boys' Brigade movements are often confounded; but while the latter has a semi-military aspect, the former has not, having been based by Sir Robert Baden-Powell upon the "gang instinct" which is more or less prevalent and operative in every healthy, manly boy, and which instinct has been utilized by Sir Robert for the development of youths mentally, morally and physically.

WHAT THE PRESS IS SAYING

Theory vs Fact.

The theory of the law is that the failure of an accused person to testify in his own behalf does not injure his case. The theory of juries seems to be that it does.—Kansas City Times.

A Wider Safety First.

"Safety first" is an all-round beneficent rule. It should mean safety from sickness as well as from accident. To avoid typhoid fever infection is as judicious as to keep out of the track of a speeding automobile.—Buffalo Courier.

Without a Search Warrant.

A policeman entered the bedroom of a sleeping citizen and proceeded to go through his clothes. His wife awoke, saw the act, and had the officer arrested. This is a local tale illustrating the irony of circumstances.—Ottawa Citizen.

Causes of Old Wars.

No pretext seemed too trivial in the past to loose the dogs of war. Mrs. Masham, the favorite lady-in-waiting of Queen Anne, collided with the Marquis of Torey, when carrying a glass of water and wet his clothes. The bad feeling engenered spread to the courts, other subjects were dragged into the dispute, and Marlborough's long campaigns were the result. Equally tiny sparks have kindled other conflagrations. An emperor of China went to war over a broken tea cup; the stealing of a pipe caused civil war in Afghanistan; the throwing of a stone by a Hugenot child at the Duke of Guise was followed by the massacre of Vassy and the Thirty-Years' war.—London Chronicle.

THIS DAY IN CANADIAN HISTORY

A remarkable person amongst the traders of the X. Y. company was John Pritchard, a well-educated Shropshire man, who finally settled at Kildonan. Here he lived to a good old age, though in 1805, when in charge of a fort at the junction of the Souris and Assiniboine, he had almost lost his life in a most perilous adventure.

Setting out on June 10 with a clerk for Qu'Appelle fort, 120 miles distant, he got separated from his companion in seeking his horses, and, mistaking one stream for another, was lost for 40 days. He had no means of killing th geese and buffalo which he saw in abundance, and, tramping on for days, became dreadfully footsore and so emaciated that nothing was left of him but the "bones covered with a skin thinner than paper." At last he came to a vacant trading post he knew, 60 miles from his own, and struggling on was befriended by some Indians, who took him home.

After this marvelous escape the Crees called Pritchard "The Manitou," but the Assiniboines dubbed him "the Corpse."

THE WEATHER

Some slight scattered showers occurred yesterday in the western provinces, but the weather was for the most part fair. It was warm in Manitoba and cool farther west.

COLD STORAGE

"Your son was quite an aviator, wasn't he?" asked the first fly.

"Dear, yes," said the second. "But on his last ascent he descended in the middle of a plate of soup and was lost before help could reach him."

"I like a man who is absolutely truthful."

"But a line must be drawn somewhere. You couldn't have respect for a dentist who wouldn't even promise not to hurt you."

A mermaid sat upon the shore,
Her feelings were extremely hurt.
She sighed, "My fate I must deplore.
How can I wear a shadow skirt?"

They were discussing horse racing.

"I guess," observed the Yankee, "I've seen the closest race ever run, for I once saw a horse adjudged winner by a tongue's length."

"Is that so?" drawled the Englishman. "Well, I've seen a closer race than that. I lived two years in Scotland."

"Father, don't men call themselves bachelors before they get married?"

"Yes, my boy."

"And what do they call themselves after, dad?"

"Hush It isn't fit for little boys to know!"

Departing Guest—Out of this sum give each of the waiters 10 sous and Henri five francs.

Head Porter—But Henri has just now entered our employment. He has not yet served you.

Guest—And, therefore, he is the only one who hasn't annoyed me.—Heitere Welt.

GENERAL STRIKE IN ITALY SPREADS

Thousand Workers Clash With Police and Soldiers in Streets of Rome —Government Anxious.

(By Daily News Leased Wire.)

ROME, June 9.—The general strike proclaimed yesterday as a protest against the repressive measures taken by the government in connection with demonstrations at Ancona on Sunday, when several men were shot down, is spreading and gaining in intensity. The resentment of the workmen has been fanned by the killing of another striker at Florence today.

The government views the movement with anxiety as it is believed to be supported not only by the Socialists, but by the Radical party, which is anxious to embarrass the Salandra ministry. The premier was subjected to strong criticism in the chamber for prohibiting anti-militarist meetings on June 7. In reply he said there had been no trouble except at Ancona and that no one regretted more than he the loss of life. He said that the policemen who fired the fatal shots would be prosecuted, but he pointed out that, according to the report of the official sent to make an investigation, the police at the time of the shooting were surrounded by rioters and only fired when several of them had been struck down by bricks.

Police and Strikers Clash.

In Rome tonight 1,000 strikers tried to march to the Quirinal and came into violent contact with the troops and police, who fired nine volleys in the air before the mob gave way. A large number of soldiers and strikers were injured. The strikers attempted to reform their shattered ranks and another fierce engagement with the *police took place before they were* dispersed.

In the cities where the strike was in force no newspapers were published.

From many parts of Italy come reports of disorders. At Genoa the strikers compelled the storekeepers to close their places of business. At Turin rioters seized two wagonloads of tobacco belonging to the state and threw several cases of cigarettes through the window of a cafe and burned the remainder before cavalry dispersed them.

At Venice several clashes occurred between strikers and police, one of the latter being seriously injured.

After forcing all the stores to close bands of strikers at Bergamo smashed the windows of cars and made the railway employes return to the car sheds.

Strike Drives Out Tourists

(By Daily News Leased Wire)

GENEVA, June 9.—All the express trains from Italy arriving at Chiassi are crowded with American and English tourists, driven out by the strike. Among the passengers today were two who were badly hurt at Milan when a fight occurred between the police and strikers.

Mob Routs Police

(By Daily News Leased Wire)

MILAN, June 9.—Serious disorders have occurred here as a result of the general strike. All the stores are closed and both newspapers and street cars have suspended.

At the close of a meeting attended by 5,000 persons this evening, strikers and their followers armed themselves with bricks and fell upon the police, who fled. A squadron of cavalry dispersed the rioters after a sharp fight. The strikers re-formed their ranks and attacked a detachment of soldiers, whom they scattered. They then captured a wagon loaded with cans of gasoline, to which they touched a match. A terrific explosion followed, causing a panic. Later the manifestants attacked the police and reinforcements came to the rescue, revolvers *being employed in the dispersement of* the crowd.

HAND COLONY FARM TO UNIVERSITY

Provincial Seat of Learning Will Be Open in September Next Year, Says Minister

(Special to The Daily News)

VICTORIA, B. C., June 9.—The colony farm at Coquitlam, operated in connection with the hospital for mental diseases, has been transferred to the board of governors of the provincial university to form an adjunct to the agricultural college. The farm is one of the most up-to-date institutions *of the kind* in western Canada and is famed for its horses and cattle, which have captured prizes at many of the big stock shows.

Students will be in attendance at the new university on or before Sept. 15, 1915, according to an announcement made by Hon. H. E. Young.

NEWS AND HIGH SCHOOL PLAY THIS AFTERNOON

The Daily News and High School teams will play ball this afternoon at 3 o'clock. The students have only lost one game this season so far and the Newsies have just been reorganized and hope to win a few laurels. The batteries will be: High School—Gibbs and Brasch. Daily News—Bert Whitehead and Curran.

UNBEATEN BOY PITCHER WINS AGAIN FOR ANGELS

(By Daily News Leased Wire)

SAN FRANCISCO, Cal., June 9.—*Howard Ehmke, the 19-year-old youth* who left high school last year to join the pitching staff of the Los Angeles team of the Pacific Coast baseball league, won his eighth straight victory today when he shut out San Francisco 6 to 0. He has not suffered a defeat.

JEANETTE OUTPOINTED

(By Daily News Leased Wire.)

NEW ORLEANS, La., June 9.—Joe Jeanette of Boston was outpointed by Harry Wills of New Orleans in a 10-round no-decision bout here tonight. They are negroes.

HOME HORSES WIN.

(By Daily News Leased Wire.)

WINNIPEG, June 9.—Winnipeg horses swept the boards today at the Winnipeg horse show, outside entries securing but few awards.

AT THE THEATRES

At the Starland tonight and matinee today at 2:30, another popular feature production by the Famous Players with Carlotta Nillson in "Leah Kleschna" will be offered.

The story is a splendid vehicle for the art of Miss Nillson and her associates in the production. The story of a girl brought up in a life of crime, schooled from her earliest days to be a thief and removed from every regenerating influence, and of her gradual redemption through the human medium of a man whom she finally comes to love, is one which presents both dramatic possibilities and a strong human interest.

Coming tomorrow are the war pictures, direct from the firing line in Mexico, showing modern warfare in all its details. The copies come direct from the laboratory of the Associated Press representative, Dr Charles A. Prior, who has compiled four wonderful reels, showing the famous federal and rebel generals in action on the battlefields of Ojinaga Mesa and Tieka Blancas. The generals shown under actual fire are Pancho Villa and staff; General Salaza and Castro are shown on the actual firing lines of Mesa.

8 1-2 Acres Good Land All Cultivated

Four Acres, nine-year-old bearing orchard, best commercial varieties, balance in two-year-old trees. Kitchen orchard containing pears, plums, cherries, strawberries, rasps, currants, gooseberries. CLERGY PROMINENT IN ONTARIO FIGHT

Liquor Becomes Supreme Issue in Provincial General Election—Three Church Ministers Candidates.

(By Daily News Leased Wire.)

TORONTO, June 9.—One of the most notable features of the present election campaign in Ontario is the active part being taken by the pulpit. Already three clergymen have been selected as candidates in the fight and in two instances they are opposing members of Sir James Whitney's cabinet. At their convention in Owen Sound today the Liberals of North Grey named Rev. T. A. Rodger, pastor of Knox Presbyterian church in that town. Yesterday Rev. John Coburn raised his standard in West Simcoe against Hon. J. S. Duff, former minister of agriculture, and Rev. J. C. Tolter was selected by the temperance people to oppose Hon. Dr. J. O. Reaume in North Essex.

In the Parkdale division of Toronto today the Liberals decided not to name a candidate, but they will support W. McTavish, nominee of the Young Manhood association, a temperance organization.

The following nominations occurred today:

Conservatives.

Brockville—A. E. Donovan.
Lincoln—W. J. Drope.
Simcoe—A. B. Thompson.
Waterloo South—Z. A. Hall.

Liberals.

Algoma West—F. E. Crawford.
Cochrane—M. Lang.
Essex South—L. P. Wigle.
Grey North—Rev. T. A. Rodger.
Lambton West—John Cowan, K.C.
Ottawa West—C. G. Hurdman.
Simcoe East—Herbert Cook.
Sturgeon Falls—Z. A. Megeau.

Independents.

Nipissing East—James McIlvena, Labor.

As the campaign progresses the abolish-the-bar policy is unmistakably becoming the supreme issue, the proof lying in the fact that the nominating conventions are ignoring the tax reform and the subject of economy in the administration of provincial affairs and are centring their energies on either deriding or advocating the abolition of the bar. Three of the Methodist conferences in session in different parts of the province have this week placed themselves on record as strongly favoring prohibition.

ASSEMBLY AGAIN ADVOCATES UNION

Proposal to Amalgamate Churches Receives Nearly Three to One Vote at Presbyterian Parliament

(By a Western Associated Press Staff Correspondent.)

WOODSTOCK, Ont., June 9.—After the most animated debate on church union the general assembly has ever known and after the development of the tensest situation that has yet appeared in the treatment of this issue, the vote on the question was taken and the result was 286 for union and 109 against union.

The great influence of Rev. Dr. A. S. Grant, general superintendent of home missions and chairman of the finance board, appeared to be thrown against union and the decisive vote for the continuance of the negotiations will probably mean the complete retirement of Dr. Grant from the position which he has filled in the service of the church

The amended basis of union will be submitted to the assembly of 1915 in Kingston and it will in the fall of 1915 be submitted to presbyteries and congregations for vote.

By special action of the general assembly Rev. Dr. W. T. Herridge, the new moderator, will probably be set free from the work of his congregation for a year so that he may give his entire time to the general work of the church.

Almost all western delegates will leave Woodstock tomorrow for their homes.

At the evening session Dr. J. G. Shearer presented his report on social service and evangelism and a number of interesting addresses were delivered. It was decided that the board of social service should be united with the board of home missions.

Sir Thomas Taylor stated that if union were consummated there would be a division of the property of the church in which the rights of the minority would be respected but that there would be no insuperable difficulty in the matter.

WINNIPEG FINDS SCHOOL ACCOMMODATION INADEQUATE

(By Daily News Leased Wire.)

WINNIPEG, June 9.—The population of Winnipeg as a result of immigration increases so rapidly that the school board is hard pressed to keep school accommodation commensurate with the requirements. Tonight it was decided to build another school capable of accommodating 1,500, at a cost of $220,000.

OFFICIAL REFEREE LEFT HUNDRED THOUSAND DOLLARS

(By Daily News Leased Wire)

TORONTO, June 9.—The will of George Kappelle, official referee, was probated today. He left an estate valued at $108,142 to his widow.

LIBERALS OPPOSE NAVAL TRAINING

(Continued from Page One.)

and the no less despised Niobe are to become training ships.

Canada was to become a training station for the imperial navy.

Rush Work on Transcontinental.

At the morning sitting there was an interchange between Hon. J. D. Reid, acting minister of railways, and several of the opposition front benchers in regard to the momentum grades on the National Transcontinental railway. The discussion arose in connection with a $1,000,000 vote in the supplementary estimates.

Replying to Hon. William Pugsley Mr. Reid said that so far as the grades were concerned from a point 100 miles west of Cochrane to Winnipeg there was not any question about them. Any grade work in regard to which there might be complaint would be within 100 miles west of Cochrane on what is known as the Farquhar contract. So far as the grades east of Cochrane were concerned, any grades in regard to which there might be any complaint would be within 20 miles east of Cochrane. From the 200-mile limit on to Moncton there were no complaints whatever owing to the grades. The contract from Cochrane east 200 miles had not been completed. Therefore, if any "sags" or grades were to be brought to the proper level there was no reason why the contractors could not complete that portion so that the grades between Cochrane and Moncton would be such as has been mentioned. For a hundred miles west of Cochrane the line was completed and ready for operation and there were a few sags, not heavy grades, but they could be remedied at little expense.

So far as the operation of the road was concerned it was the desire of the government that operation between Winnipeg and Moncton should take place at the earliest possible moment. The road between Winnipeg and Moncton would be ready for operation this fall and if there were a few "sags" in the 300 miles, the Grand Trunk Pacific, if it took the road over, could remedy them and it would be added to the cost according to the terms of the contract.

As long as any portion of the road was in the hands of the contractors it was impossible to have a thorough operation by the Grand Trunk Pacific or in any other way that the government might arrange. Therefore, he thought it advisable to try to get the road completed at the earliest possible moment in order that operations might begin. If there were a few "sags" they could be remedied at another session, therefore allowing the public to have the benefit of the operation of the road as quickly as possible.

Hon. George P. Graham said he hoped it was clear that the country was to have a transcontinental line up to the standard as agreed upon.

To Connect Montreal.

At the opening of the afternoon sitting the minister of railways moved an item of $1,000,000 for a line to connect Montreal with the National Transcontinental railway. He stated that the government intended to make surveys; if there were any of the vote left after the surveys were completed it could be used for construction.

Hon. R. Lemieux said the proposal of the government was a laudable one, but he would like to direct its attention to a line from Belle river to James bay, which had been subsidized by the Quebec government. This line, he said, would enable connection to be made by boat with the Hudson Bay railway.

Mr. Graham said he was in favor of the government building a road from Montreal to the National Transcontinental, but he would like to have some information as to the probable cost.

The premier said that a subsidy had been voted for a line from Montreal to the National Transcontinental, but it had not been possible to carry out these arrangements. As to the cost, he would not like to make any statement without any surveys being made.

In regard to Mr. Lemieux's suggestion of a James bay service, Mr. Borden said he was not in a position to express an opinion as to its practicability. It would require unloading the grain from the train into boats and from boats into train again and he did not know whether that would be as cheap as the all-rail route. He added that Hon. Frank Cochrane had given the subject a good deal of consideration.

Mr. Lemieux said that he had seen the calculation showing that the cost would be considerably less than by the all-rail route. Still he would not care to commit himself to an opinion on the subject, but he was glad to find that the government was sympathetic toward the suggestion.

Hon. R. Lemieux asked for an explanation in regard to the establishing of a naval reserve. He said the order-in-council establishing a reserve seemed to have been passed somewhat surreptitiously. He then went on to give a review of the whole naval question and said that the prime minister must feel humiliated to think that for the sake of an alliance with the men who had despised and denounced him during the last election he had to revert to the naval policy first laid down by Sir Wilfrid Laurier, but was doing it secretly instead of openly.

Dr. Clark said that a vote of $1,000,000 where $35,000,000 had been asked last year was receding somewhat from the false position in which the government had formerly placed itself. He had no doubt, however, that the announcement of the minister of marine contained the nucleus of a naval policy which would be generally approved by the people. He was glad that German menaces and all other menaces had now been cleared from the horizon and there was no talk of emergency.

Premier Raps Lemieux

Premier Borden said that while Mr. Lemieux had fired off a number of blank cartridges during his remarks, he had offered the house no reminiscences of the young man who had written a certain letter pointing out that it was absolutely the duty of Canadians not to take part in defence and who had uttered a most stern rebuke to the chamber of commerce of Montreal for passing a resolution favoring such a policy. He did not know whether or not Mr. Lemieux was against the present proposals.

Mr. Lemieux—I am against the government.

Mr. Borden—That's the explanation. The hon. gentleman is against the government, no matter what the government does.

Mr. Borden stated that he did not intend to rehash the naval debate of last year, but the fact was that since the proposals had failed in parliament it had been found necessary by the mother country to make certain provisions in the matter of defence, which was perhaps as good a justification of the action he had proposed to take as could be given. As for the present proposal for a reserve, it was based on requests from different parts of Canada that men might engage in naval training just as in military training.

Many Willing to Serve Country

It was a significant fact that though Canada's permanent force was mainly composed of persons not of Canadian birth, there were many thousands in Canada's volunteer service because it was possible to enter it without foregoing the opportunity to make a living for one's self. The premier had no doubt that it would be possible to enrol in the service a considerable number of men who would be prepared to serve either in the Canadian or the royal navy in time of need. As for Mr. Lemieux's statement that the order-in-council had been passed surreptitiously, this was somewhat ridiculous when it was considered that information had been given out to the press about it and the order-in-council had afterward been tabled on the floor of the house.

Hon. G. P. Graham followed. The feature of the proposal before the house was that it meant that the Naval Service act was not going to be repealed. He saw some of the government followers slinking back behind but they were coming gradually.

Laurier Opposes Naval Training

Sir Wilfrid Laurier said that he was sorry he could not be as charitable to the government as the member for Red Deer or the member for South Renfrew. The government showed repentance but did not desire to correct its errors. He was glad to see that the naval act would be maintained.

The member for Red Deer had congratulated the government for receding from an expenditure of $35,000,000 to $1,000,000. He thought that it had not receded enough as the expenditure of such a large amount of money to train sailors to fight when they had no ships to fight in was absurd. Last year the government's policy was "ships without money" and this year it was "men without ships." They were told the men could fight in British ships. He had always objected and still objected to that policy. The government had either gone too far or not far enough.

Hon. Mr. Pelletier replied: "This is an interesting and amusing spectacle." This was met by cheers from the Quebec Liberal members. "I am glad of the applause of my Liberal friends," observed the postmaster-general.

"You have heard them before," interposed Jacques Bureau.

"I wish Armand Lavergne were here," shouted Mr. Lemieux across the floor.

Mr. Pelletier warmed up under the interruptions.

"You are going to listen to me," he said. "I have been in public life for 30 years, have gone through some ordeals and am not going to be disturbed tonight by such interruptions."

The postmaster-general proceeded to say that Mr. Graham had just given the house an entirely new version of the Laurier naval policy. The country now knew that it was only for the purpose of training men who were not intended to fight. He wondered where were the two fleet units. They have been given the spectacle of the Liberal leaders quarreling among themselves. Mr. Graham had welcomed the government proposals but Sir Wilfrid and Mr. Lemieux were entirely opposed to them.

The present proposals were not inconsistent with the attitude taken by the Conservative party last session. The government had simply been asked by young men throughout the country to give them an opportunity for training for naval service and the proposals before the house were to give them this opportunity.

TUMOR IN THE STOMACH

Completely Removed When She Took "Fruit-a-tives"

NEWBURY, ONT., April 4th, 1913.

"Some years ago, I was sick in bed, and thought I was going to die. I had a growth in my stomach, which the doctors said was a Tumor and they said that the only thing to do was to go to the hospital and have the tumor cut out. I dreaded an operation although both doctors said it was the only cure. I said I would die before being operated on.

At this time, my mother in Alvinston sent me some "Fruit-a-tives" and induced me to try them as she had heard of another woman who had been cured of a similar growth in the stomach by taking "Fruit-a-tives".

To please my mother, I began to take "Fruit-a-tives" with the happy result that they cured me. I have not been to see a doctor since and my health is first class.

I recommend "Fruit-a-tives" every time I get a chance and I will be glad to have you publish this letter as some other woman may now be a sufferer from the same trouble and "Fruit-a-tives" will cure her" MRS. A. McDONALD.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price By Fruit-a-tives Limited, Ottawa.

Wednesday Morning Specials in the June White Sale

Be here early as we have only four hours to do a whole day's business in.

WILL VISIT MOLLY GIBSON GLACIER

Tourists and Even Residents of District Do Not Realize Beauties to Be Seen, He Says.

Twenty-one members of the Outlet Sports club of Proctor will make an excursion to the glacier and peaks above the Molly Gibson mine and camp there for about a week during next month, states H. E. R. Bedford of Creston, who is president of the Outlet Sports club of Proctor, who was in the city last night. The glacier is 9,400 ft. above the lake and at that altitude is to be found scenery that rivals if not outrivals that of Switzerland and Norway and other famous mountain regions of Europe, according to Mr. Bedford.

Another trip that is a delight to the lover of scenery which was dwelt upon by Mr. Bedford is up to the Six-Mile lakes and down over the ridge along Lemon creek to the Slocan valley. These spots, he said, were but little visited and only because people did not realize what beauties might be seen on the trip.

From the tourist hotel at Balfour, which is conducted during the summer months by the Canadian Pacific railway, these trips can be made and the pack horses which are always obtainable at the hotel can be utilized for the trips, adding greatly to the pleasure of the outing. He believes that during the present summer these trips will increase considerably in popularity and that it will not be long before large numbers of tourists will visit the district to enjoy this pleasure alone.

COUNTERFEITERS ARE BUSY IN EDMONTON DISTRICT

Lead Fifty Cent Pieces Become Plentiful—Police Secure Nice Collection—Are Well Made

(By Daily News Leased Wire)

EDMONTON, Alta., June 9.—In the possession of Deputy Chief Wright of the city police is a collection of "phony" half dollars that are masterpieces of workmanship, except for the fact that they are lead and have the greasy surfaces common to counterfeit coins manufactured from lead.

It is the belief of the police that counterfeiters are busy in the Edmonton district again, as several spurious half dollars have been turned over to the deputy chief during the last two weeks.

RHEUMA WILL STOP URIC ACID DEPOSIT

Rheumatic Complications Checked and the "Human Sewers" Restored.

The Kidneys, Bowels and Skin are the "human sewers" which carry off the impurities in the blood. When these are clogged Uric Acid sediment lodges in the muscles and joints and Rheumatism follows. RHEUMA, the great remedy for all forms of the terrible disease, checks the deposit of Uric Acid.

"For many years I suffered with Rheumatism. I am 71 years old, but am proud to say that after using one bottle of RHEUMA the Rheumatic pains are entirely gone. I daily recommend RHEUMA to my friends."—Willis Goff, Bridgeburg, Ont.

The Poole Drug Co. will return your money if it fails; 50 cents a bottle.

News of the Markets

BULLS AGAIN USE FREIGHT DECISION

Crop Prospects Also Serve to Cheer Sentiment in New York—Expect Ruling This Week.

(By Daily News Leased Wire.)

NEW YORK, June 9.—Another small advance in stocks occurred today. While traders continued to show indifference to outside influences, sentiment was cheerful and the inquiry was broad. The good impression produced by yesterday's crop report was strengthened today by the favorable character of the weekly review of weather conditions. While the fortnightly report on idle cars showed another increase, the change this time was nominal. Unofficial statements that the freight case would be quickly decided again did service as a bullish factor, it being said on this occasion *that the ruling might be expected this* week.

The opening was irregular but the market quickly moved upward.

Bonds were steady, although there were unusually wide movements among speculative issues. St. Louis & San Francisco *refunding fours* fell 1⅝ to 70, a loss of 5 points in a week. Total sales of bonds, par value, $2,560,000. United States bonds unchanged on call.

The following New York stock market quotations are supplied by Osler, Hammond & Nanton, Winnipeg.

EASY MONEY RATES IMPROVE FEELING

Canadian Pacific Passes Two Hundred in London—Sentiment Generally Is More Optimistic.

(Western Associated Press Special Cable.)

LONDON, June 9.—The beginning of the settlement today brought a more confident feeling though naturally it restricted business. The general outlook is considered clearer. Consols were the feature of strength, gaining ⅝ for money and 5-16 for the account in the early trading and closing up 3-16 for money and ¾ for the account. Markets in general remained cheerful and the advance in prices was assisted by reports from Paris of the success of Senator Alexander Felix Ribot in forming his cabinet.

Easy money rates and the belief that the Bank of England would get most of the gold appeared as important influences in the better feeling.

Canadian Pacific advanced ⅝ to 200¼; Grand Trunk was up, advancing ¼ to ¾. Canadian industrials *were irregular.*

Canadian Agency subsidiaries were exceptionally flat, awaiting a full statement of the company's position. The debentures of the Southern Alberta Land company and the Western Canada Land company have been marked down from 10 to 30 points as a result of the Canadian Agency failure. Home rails advanced on repurchases. Americans were little changed. There was a good tone. The list closed with important issues above parity. Union Pacific gained 1 point, Steel ½ point, Southern Pacific a point, Chesapeake & Ohio, ¾.

The subscription list of the Dominion of Canada loan will be closed by the Bank of Montreal tomorrow. It is said that a considerable part of the issue will remain in the hands of the underwriters.

At a meeting of first mortgage bond holders of the Canada Iron corporation today the majority of the bonds were voted in favor of the previously outlined reorganization scheme.

CANADIAN PACIFIC MAKES GAIN IN MONTREAL

(By Daily News Leased Wire.)

MONTREAL, June 9.—A wide open break in Scotia which fell 10 points in the early trading today, extending the week's slump to 15 points, created a *nervous feeling in the market and* weakness spread to other stocks, particularly stocks of the industrial section whose dividends have been under suspicion.

This weakness was the more disturbing in view of the generally improved tone of the outside markets and the firmness of Canadian Pacific railway, which rose about a point in New York and finished the day here at 195¾ bid against 195 Monday. Brazilian while quiet was also slightly better, finishing ¼c higher at 78½ bid. Power, already a leader of influence on the general market, was steady around 224½, only ½ off the high of the recent 4 point rise.

NELSON STOCK QUOTATIONS.

GRAIN

WHEAT MARKET STRONG FROM FIGURE VIEWPOINT

(By Daily News Leased Wire.)

WINNIPEG, June 9.—Winnipeg wheat opened ¼c lower; oats unchanged; flax ⅛c up to ¼c lower. At noon wheat had declined ¼c, oats were firm and flax a little weaker.

It seems evident that any break that would be brought about by the optimistic view of the United States government report has run its course. Some decline was inevitable, but statistically for near months the market is exceptionally strong and there is plenty of time in which both the winter and spring wheat crops could fall off from their splendid promise. Manitoba and eastern Saskatchewan are in fine shape but southwestern Alberta needs a soaking rain and northern Alberta is getting a little too much. *The Dakotas look well from reports* but east of the Mississippi the country is dangerously dry.

The cash market is dull, not for lack of demand but from scarcity of offerings. Cash wheat is now in strong hands and there is a tendency on all sides to await developments.

Winnipeg close: Wheat—July 95⅝; Oct. 86½.

Oats—July 39¼.

Flax—July $1.40½; Oct. $1.43¾; Nov. $1.42¾; Dec. $1.42.

Minneapolis—July 90¾; Sept. 86; Dec. 86⅞.

Chicago—July 85½; Sept. 83⅞; Dec. 86⅛.

PRODUCE

MONTREAL PROVISIONS.

(By Daily News Leased Wire.)

MONTREAL, June 9.—Cheese—Finest westerns, 12⅞ at 13⅛; easterns, 12⅝ *at 12¾c.*

Butter—Choicest creamery, 24½ at 25c; seconds, 23 at 23½c.

Eggs—Fresh, 23 at 24c; selected, 26 at 27c; No. 1 stock, 23½c; No. 2 stock, 20 at 21c.

Pork—Heavy Canada short mess barrels, 35 to 45 pieces, 29; short cut back barrels, 45 to 55 pieces, 28½.

WANT AD HOROSCOPE

June 10

Your most congenial marriage will be made with a person born in the latter part of February, the first of February, or the first week in September.

Your birth sign is Gemini, meaning double natured, or the twins. Your planet is Mercury, and gives a nature that is nervous, highly strung, excitable, imaginative and generous. This planet gives a love of art, sculpture, literature and the stage, but is strangely lacking in musical talent.

The personality is proud of family name, of position and power. The explorer, Dr. Cook, was born on this date.

Successful purchases will be made, through the Want Ads, of automobiles, real estate and stocks generally.

RAILWAY TRAFFIC GROWS STEADILY

Worst Is Over, Say Western Canadian Pacific Officials—Confidence Returns—Look for Big Crops.

(By Daily News Leased Wire.)

WINNIPEG, June 9.—Railway men in Canada are plucking up courage. Things are beginning to move. Passenger and freight traffic are each showing considerable improvement.

On the Canadian Pacific railway this *improvement is marked. The recent* statement by Sir Thomas Shaughnessy that the country is sound to the core is every day being more emphasized.

Local Canadian Pacific railway men are confidently optimistic. "The worst is over," they *say.* "Confidence is returning and we shall be all right in a jiffy. Give us good weather and let that crop come on all right and we have nothing to fear."

It is true that the Canadian Pacific railway is not undertaking much development work outside of finishing up what was undertaken last year but there is some improvement work going on and the general feeling among railway men is that business improvement will from now on be uninterrupted.

METALS

METAL PRICES.

CANADIAN SECURITIES SLUMP FOLLOWING FAILURE

(Canadian Associated Press Cable.)

LONDON, June 9.—One serious result of the failures during the weekend is the big movement that has occurred in securities of several Canadian companies related to Grenfell and the Canadian Agency. Six per cent. debentures of the Southern Alberta Land company were quoted at 20-30 *today in comparison with 50-55 on* Monday. Five per cent. debentures were priced at 43-48 as compared with 50-55 earlier in the year. The former were hovering around 85 and the latter at 77½. Five per cent. debentures of the Western Canada Land company were quoted at 75-80 today, a fall of 5 points as compared with Monday's prices.

ARREST EDMONTON MAN ON EXTORTION CHARGE

(By Daily News Leased Wire.)

EDMONTON, Alta., June 9.—A sensation was caused this evening by the arrest of William Wheeler, a well known citizen and proprietor of the Dominion club, on a charge of attempted extortion from women. Wheeler had just returned from a trip to Winnipeg and immediately his return was reported to O. M. Biggar, who has been chosen to conduct the legal end of the investigation. His arrest is the first one in connection with the charges of graft which have *been made against the police department* and the investigation of which will begin next Friday before Mr. Justice Scott. It is alleged that Wheeler has been a close assistant of ex-Chief Lancy, who was dismissed some days ago. Wheeler was released *on $2,000 bail.*

POSTMASTER FACES CHARGE OF KILLING CHINAMAN

(By Daily News Leased Wire.)

KINDERSLEY, Sask., June 9—Chief *Justice Haultain today adjourned until* tomorrow the trial of R. A. Hardy, late postmaster at Fiske, accused of murdering Lee Yuen, a Chinaman, at Fiske a short time ago.

Hardy is accused of murdering the Chinaman by cutting his throat and throwing the body into a cellar under the Chinaman's laundry.

According to the evidence given at the preliminary hearing, the Chinaman was found some distance from his building on the side of the road and his final words spoken in the hospital before he died were:

"Hardy did it."

PARI-MUTUELS POPULAR.

(By Daily News Leased Wire.)

YORKTON, Sask., June 9.—The three days' spring meet of the Yorkton Driving club opened here today with a fair attendance and the parimutuels did a good business.

KILL THE FLIES IN YOUR HOUSE NOW

Toronto's Medical Health Officer says: "If you come across any flies in your house *kill them now.*" Therefore all good housekeepers should commence using WILSON'S FLY PADS early and continue their use through the season.

Remember that every ten-cent packet of WILSON'S FLY PADS will *kill more flies than three hundred* sheets of sticky paper.

Follow the directions carefully to get the best results.

Mining News

LANDSLIDE SHOWS UP COAL DEPOSIT

News of Discovery Near Toby Creek Is Taken to Windermere by Young Bear Hunter.

(Special to The Daily News)

INVERMERE, B. C., June 9.—Excitement prevails here over word brought by a young bear-hunter named Alfred Larrabe to the effect that he has discovered an immense deposit of what appears to be coal situated up the valley toward Toby creek, about two miles from a well-made, well-traveled road at a point about eight miles west of this place. No development has as yet taken place. It ap*pears that the deposit was laid bare by* a land slide which took place last spring.

Several sacks have been brought in and are on exhibition and being burned. Toby creek is one of the tributaries of the Columbia river and rises in the Selkirks. The deposit is not far from the well-known Paradise mine, which was developed in the latter nineties. The Paradise is a low grade proposition. The mountains surrounding it are permeated with ore and are said to be in the same belt in which the celebrated Coeur d'Alene and other rich mines are located. The Kootenay Central line is building through this valley and several years ago located a branch line up Toby creek.

MINERAL EXPLORATION AND RACIAL MIGRATION

The story of mineral exploration and racial migration is peculiarly the heritage of our people, the Anglo-Celts. It is the motif that runs through the drama of English and American history, more particularly during the last 100 years. Even in its barest outlines it serves to suggest *that the miner is the pioneer of industry and the herald of empire.*

The first social organizations around the shores of the Mediterranean sent their prospectors to the hinterlands of Europe, Asia and Africa. The gold of Ophir, the copper of Sinai, the silver of Laurium were part of the web and woof of those early civilizations. The mines of Iberia gave Hannibal the sinews of war against Rome, and the gold of Daria strengthened the resources of Rome under Trajan. But the greatest adventure was that of the Phoenicians who passed through the Pillars of Hercules into the western ocean in order to reach the far Cassitorides, the tin islands that in turn were to produce those Cornish*men to whom the world is one big* mine. After Carthage and Rome, in turn, had been overthrown, the mining industries of the world were disorganized. Desultory operations persisted in Hungary, Spain and Saxony, but the middle ages to the miner was as dark below ground as above. Even the discovery of America, which marked the beginning of a new world movement, was not connected with a real advance in mineral exploitation, although associated with the winning *of gold and silver. It is true, the wave* of Spanish conquest broke over the American continent, penetrating the treasure vaults of Mexico and Peru. But the Spaniard devastated, he did not develop. He gathered the harvest that the patient Indian had sown by the laborious toil of centuries. Cortez and Pizzarro were filibusters, not explorers; they were pirates, not miners. The conquistadars were no pioneers of industry; behind them arose the smoke of ruin and the dust of destruction. Even the great sea captains of Elizabeth were but the sequel to an epoch of spoliation. After them, and in their wake, across the sea, came the men who from Cornwall and Devon, from Saxony and the Harz, *brought the technique of mining to* the new world, applying it peacefully to the mineral development of Mexico, Peru and Chile, all along the regions previously ravaged by European freebooters, said T. A. Richard at a recent function.

WANT PROTECTION HERE AGAINST OIL FLOTATIONS

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 9.—At *the meeting of the board of trade to*night a committee was appointed to take up with the provincial government a suggestion that it take some such steps as have been taken in Manitoba requiring that before shares in oil companies are offered in British Columbia their properties be passed upon by competent authority as to the probability of oil being discovered.

NINE-YEAR-OLD BANDIT SIX TIMES BEFORE COURT

(By Daily News Leased Wire)

MONTREAL, June 9.—A bandit leader of only 9 years of age was before Judge Choquette this morning. He was arrested with two other boys of 11 and 13 for breaking into a house. They broke a window with a stone and stole about $100 worth of goods.

The leader has been six times before the court on charges of theft and house breaking. The court decided to send him to the reformatory.

WATER NOTICE

For a License to Take and Use Water

NOTICE is hereby given that Luigi Stedile of Nelson, B.C., will apply for a license to take and use 500 gallons per day of water out of a spring on S. Lot 271, which flows in a northerly direction through S. L. 271 and empties into an unnamed creek near its source. The water will be diverted at the spring and will be used for domestic purposes on the land described as the north half of sub-lot 271 of Lot 304.

This notice was posted on the ground on the 13th day of May, 1914. The application will be filed in the office of the Water Recorder at Nelson.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(Sgd.) LUIGI STEDILE,
Applicant.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be *described* by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available *surface rights may be considered* necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands. W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

CORPORATION OF THE CITY OF NELSON

KEEPING OUT POTATO FUNGI.

The cellars for storing potatoes on the Sweet ranch, Garfield county, Colorado, are models of their kind. They are well ventilated, and are thoroughly fumigated every year to keep down disease. Rhizoctonia, a fungous disease that attacks the stem of the potato plant, is spreading throughout the potato-growing sections of the west, and the Sweets are taking every precaution to keep it out of their fields. All seed potatoes are soaked in formaldehyde solution for two hours before planting. All carloads of seed potatoes are fumigated both in the cellar and in the car, and the effect of this vigilance is seen in the healthy, vigorous plants in the long rows that extend from the foot of the mountains to the edge of the mesa on which the ranch is located.

The reason that so many growers report small yields of inferior potatoes is that they are not willing to adopt the sensible rotation and the careful selection of seed which successful growers have demonstrated are necessary if best results are to be obtained.

BE SURE IT'S THE "AUBURN HAIR GIRL"

The Represents Parisian Sage An Invigorating Hair Tonic—Quickly Removes Dandruff.

You can use nothing better than Parisian Sage, as sold at drug counters everywhere, to make the hair soft fluffy and abundant. It stops itching head, invigorates the scalp, and removes dandruff with one application. If your hair is getting thin, or is harsh, dull and lifeless, do not despair—give it attention. Frequent applications of Parisian Sage well rubbed into the scalp will do wonders.

When the hair is falling out, splits, or is too dry and streaky, surely use Parisian Sage—it supplies hair and scalp needs. Get a 50 cent bottle from the Poole Drug Co., Ltd., at once. It certainly makes your head feel fine and gives the hair that enviable gloss and beauty you desire.

TRIALS OF COMPOSITORS

They tell of a Scottish compositor who fled from Edinburgh to London in order to escape from the brain exhausting ordeal of deciphering Carlyle's hieroglyphics and putting them into type. He had been at work in London for some time, when one day a "take" of Carlyle's copy was given him to set up. The sight of it appalled him. "Is that man here, too?" he exclaimed. Whereupon he laid down his composing stick, put on his coat and hat and vanished.

Balzac's copy was also a nightmare to compositors. The failure of the establishment that printed his works was the direct result of the enormous labor spent in making corrections in the proofs of his manuscript. What it meant to put his copy into type is shown by the fact that Cesar Birotteau had to be reset 15 times in 20 days!—London Standard.

TWO BOYS ELECTROCUTED

(By Daily News Leased Wire.)

PORT COLBORNE, Ont., June 9.—Two lads, Fred Brennan and John Archer, about 14 years of age, while bathing this evening near the government spur line, touched a live wire and were electrocuted. Another lad, Wilbur Lewis, was badly burned but will recover.

AGRICULTURE NEWS

ATTACKS BOVINE TUBERCULOSIS

Hon. Martin Burrell Takes Forward Step in Department of Agriculture —Praises This Province.

(By Daily News Leased Wire.)

OTTAWA, June 9.—The following statement has been issued by the department of agriculture:

"For the past two years Hon. Martin Burrell, minister of agriculture, has had under contemplation the necessity of taking some step toward the lessening of bovine tuberculosis. The relation of bovine tuberculosis to human tuberculosis is well known and the transmission of the disease through milk of infected cows is no longer a matter of serious dispute. A careful perusal of the writings of those authorities who have dealth in recent years with this subject reveals a state of things, especially in connection with the mortality of the children of the cities, that must arouse deep public concern.

"Nearly every civilized country is attempting at least something in the direction of controlling or eradicating the disease which not only involves a heavy economic loss to cattle owners, but which is a constant menace to public health. The problem in Canada, as elsewhere, is both a large and a complicated one, nor can a permanent solution come without co-operation between federal, provincial and municipal authorities, backed by the enlightened support of the individual owner.

"The veterinary branch of the federal department of agriculture, formerly under the able direction of Dr. Rutherford and lately under the capable present veterinary director-general, Dr. Torrence, has largely undertaken the work of stamping out contagious diseases of animals, such as glanders and hog cholera.

"Jurisdiction, however, is concurrent and among the provinces British Columbia has made the most advanced step by enacting a statute providing for the slaughter of and compensation for dairy cattle infected with tuberculosis and with satisfactory results. By a recent federal order-in-council regulations have been authorized which will empower the department of agriculture to enter into any agreement with cities for the definite object of eradicating bovine tuberculosis from all dairy herds supplying milk to the cities in question.

"Local sanitary inspection of dairies will be required and in the working out of the scheme it is certain that invaluable educational results will follow on this whole subject. Dr. Torrence, who prepared the new regulations, was a member of the international commission on the control of bovine tuberculosis and is a recognized authority on the subject and his special qualifications in this direction strongly influenced Mr. Burrell when he selected him as veterinary-general a year ago."

TELLS HOW TO TAKE CARE OF BUSH FRUITS

My experience in raising small fruit began after I had posted myself by reading plentifully about such things in the books gotten out by men who were practical growers. I found, after being on the farm a few years, that even the men who had made a study of the work were not letter-perfect. I learned from personal contact with the soil that the raising of small fruit is something like religion, that each grower must work out salvation for himself.

From one of the best berry growers of Michigan I procured my plants, followed instructions as near as my circumstances would permit, and the first year rejoiced my heart with a crop of fine, meaty strawberries the like of which had never been seen in our neck of the woods. The farm papers have been filled with articles telling how to cultivate and how to market the fruit. What I tell you here is a bit out of my own experience, and I believe one's personal contact with things gives him a better opportunity to learn how to do.

The first year I raised a good crop of strawberries—nothing like them in the country, and yet I had the time of my life selling them. The marketing of a crop is the most particular part of the whole transaction, but of which I will not speak at this time. Lay out your ground north and south where you can, especially for bush fruit. The movement of the sun from east to west gives better fertilizing qualities, and in the main you are more apt to see your fruit ripen evenly.

Six feet between rows of blackcaps, seven feet for blackberries is none too much. I made the mistake of setting my first patch one foot less, which gave less room for cultivation, and the weeds a better chance. Don't be afraid to use the cultivator; everything depends on this. Plenty of manure is all right, but with lots of fertilizer and scant cultivation you'll be disappointed in the outcome.

Take two patches of berries, the one heavily manured and seldom cultivated, another, similar soil, lightly manured and thoroughly cultivated, the later will outyield the first 100 per cent. I know this to be true since I have tried it on several occasions, fully satisfying myself that intense cultivation is the thing.

About the care of plants. The books tell you to watch the new growth in the spring, and when up to 18 inches or two feet, pluck the centre of the new growth. An utter mistake, as I proved many, many times. Don't wait until the plant is two feet, no, nor one and a half, but stoop a little lower. I would never let the new growth get above 15 inches, sometimes a foot will do.

It is surprising how many opinions there are on the manner of caring for the new growth of bush fruit and the mode of disposing of the last year's growth. I am fully satisfied that it is best to cut out and burn the old wood as soon as it is done bearing.

The reason I would pluck the new growth low down is easily explained. You form a stockier, weather resisting plant, with all the fruit surface any bush can carry and do justice to its fruit. Pluck the tender growth at two feet and you get a top-heavy weakling that, tossed about by every wind, soon twists and breaks at the surface of the ground.

Strength of plant comes from low plucking. The branches—fruiting branches begin at once to shoot out in every direction. These grow into strong laterals capable of holding an immense crop of berries. Rather than ask a grower to take my word for this I would have him experiment for himself, on a small scale perhaps; he will soon satisfy himself that the low plucking of the growth is the better way.

Just stand, if you please, with me and gaze down the rows of blackcaps in early fall; note the evenness of the rows; note also that, although six feet of space separates these rows, there isn't room to set a foot without trampling a growing lateral. There's such a tangle you feel like taking out your pruner, going into that growth, making a path for the cultivator to follow next spring.

Don't you do it. Touch them not till spring opens; of course before the buds begin to open in spring it is the proper thing to go in and trim up the bushes. Be sure and cut out enough wood to leave free cultivating, yet enough left to bear the fruit. Some growers preach fall trimming. This is a mistake—at least in the northern states. Usually there is some winter-killing, which, if you trim in the fall, spreads over the wood left to the injury of the plant and the following crop of berries.

Another thing; don't content yourself with nipping out the very tip of the new growth. I tried that several years. Later I got to running my fingers down about three inches from the top, snapping off the tender growth which resulted in a stronger fruiting bush, no slender, baby laterals topping out to sap vitality of the plant with no consequent addition to the crop.

I would do even so with blackberries, leaving only a single row of plants, treating all others as weeds to be destroyed. The latter, while requiring cultivating for the purpose of holding a dust mulch, must be cultivated shallow so as not to cut any more of the feeding roots than necessary. Every root cut or cracked stands for a new growth of plant.

As for the best blackcaps, I have found the Conrath the best all-around berry—more perhaps from its drouth-resisting qualities than aught else, although it is a splendid berry in the box and a good shipper. The so-called business blackcap, Cumberland, was so easily affected with me because it was so easily affected by dry weather. —Fruitgrower and Farmer.

UTILITY FEED TROUGH.

From the time the chick is hatched and until it is 7 or 8 weeks old there are required, under the present general method of feeding, various-sized plates and troughs for retaining the food supplied. During the first few days the chicks must be fed on the floor or on shallow metal or wooden plates. The next change is usually to small, low, V-shaped troughs, which are later replaced by hoppers of different construction. It is at once obvious that this general method of feeding requires the purchase or construction of three distinct types of food retainers during the first eight weeks of the chick's existence.

Some years ago the late Professor Gowell, of the Main agricultural experiment station, originated a range feed trough or hopper having slat sides and a half-pitch, removagle roof. It is this hopper that has recently been remodeled. The new model is inexpensive and of simple design.

Details of Construction.

In constructing the trough first make three pieces from a board eight inches wide and 17 inches high. If more than two compartments are desired, it will be necessary, of course, to provide extra partition pieces. The removable slatted front can then be made. For this operation use inch-by-three material for the battens and ordinary building lath, spaced two inches inside measurement, for the upright strips.

The bottom and back boards are next nailed to the end and partition pieces, which have been previously prepared. Use an eight-inch board for the bottom and a 12-inch one for the back. The front strip, which should extend one inch above the inside of the bottom, is now nailed in position. Let both the back board and the front strip come flush with the bottom edge of the floor. The roof is made of two 11-inch boards and, instead of being removable, the front half is securely nailed in position and the back half hinged to it with strap hinges. A strip of canvas keeps the joint of the roof dry.

The practical advantages of such an appliance are: First, a removable front that makes it possible to provide a shallow feeding board for young chicks; second, a hinged roof that permits one to place the hoppers in openings cut in the longitudinal fence of the range yards, with the back facing out, which greatly facilitates replenishing the feed since the opening and the closing of gates are avoided; and third, a regular standard hopper can be provided for the chicks as they grow older simply by placing the removable front in position.

TO PROBE METHODS OF SELLING FARM MACHINERY

(By Daily News Leased Wire.)

REGINA, Sask., June 9.—Dates for the series of meetings to be held throughout the province by the royal commission appointed by the Saskatchewan government to inquire into the manner in which sales of agricultural machinery were carried on were announced today. Meetings will be held at 17 points.

KEEP YOUR SKIN FREE FROM HAIR OR FUZZ

(Beauty Topics)

Here is a harmless method for banishing hairy growth on chin, lip or cheek: Make a stiff paste with a little powdered delatone and water; spread on hairy surface and in two or three minutes remove, wash the skin and it will be entirely free from hair or blemish. You will not be disappointed with this treatment, because only one application is required, but to be certain of getting real delatone, it is best to buy it in a small, original package.

SNAPS
FOR
Wednesday Early Shoppers

We want to make Wednesday morning the popular shopping morning. That's the reason we practically give some lines away in every department.

All who accepted last Wednesday's offer will know there is something worth coming for.

SPECIAL NO. 1
Ladies' and Children's Woven Combinations in heavy cotton, with short or no sleeves, finished fancy beading. Children's from 2 to 12 years. Women's sizes 34, 36 and 38.

NELSON NEWS OF THE DAY

Born on June 9 to Mr. and Mrs. S. Hillyard, Fairview, a daughter.

There will be a meeting of the license commissioners this afternoon at 3:30 o'clock in the city hall.

S. M. Arnold will leave on the Great Northern this morning for New York, whence he will sail on the Mauretania on June 16 for London, England.

The Altar guild of St. Saviour's church will give an afternoon tea in the parish hall of the church tomorrow afternoon from 3 to 6 o'clock.

Milk from the dairy of C. Farenholtz which was tested during the past month by Dr. E. C. Arthur, medical health officer, tested 3 4-5 per cent butter fat.

There will be a meeting of the committee in charge of arrangements for the fraternal day celebration during Chahko-Mika week this evening at 8 o'clock in Veterans' hall.

Eight members of the intermediate first aid class at the Y. M. C. A. have been examined by Dr. M. J. Vigneux. In practical work the members of the class all passed and their written papers are being examined by Dr. Vigneux.

To complete the amalgamation arrangements which are now under way there will be a joint meeting of the Ratepapers' association, the Nelson Improvement association and the Chahko Mika rose show committee this evening at 8 o'clock in the board of trade rooms.

For fresh pasteurized milk and cream try the City Dairy. 48-tf

PANAMA CANAL TO OPEN NEW MARKET

Believes Reduction of Freight Rates Will Open Vast Opportunity to Market Fruit

Believing that with the opening of the Panama canal and the consequent reductions in freight rates between British Columbia, the northwestern states and Europe, a new and almost unlimited market will be opened for the fruits produced in the west, A. T. Davis of Mirror Lake is leaving on the Crow boat this morning en route for Europe in the interests of the fruit business generally of British Columbia and the northwestern states.

In appreciation of the ability of Mr. Davis who has had charge of the marketing of the products of the Wenatchee shippers during the past three seasons, they, deciding to get in as early as possible on the new market which will be provided in the old country, have decided to send him on the trip and he states that it is his intention not only to work for the interests of the American growers but for the fruit producers of British Columbia. He will visit Great Britain, Germany, France, Norway and Sweden.

During the past few weeks Mr. Davis has made a tour of the fruit districts of the west, getting in touch with conditions this season, and he is taking with him on his trip data concerning the fruit districts of British Columbia, Washington and Oregon and while in Eastern Canada he will visit the fruit growing regions of the Niagara peninsula, looking over the prospects in that district for the coming season.

Though Mr. Davis is confident of the future of the new market for the fruit of the west it will be a market, he states, for the very highest class of fruit only and it is with the intention of working up a market for first class fruit only that he is taking the trip.

Mr. Davis will be in Europe for two months and en route east will pay a short visit to Calgary where he will look over the prairie outlook.

DAILY NEWS WANT ADS BRING QUICK RESULTS.

DEVOTE ALL ATTENTION TO RECOVERING BODIES

MONTREAL, June 9.—There were no developments today in the Empress of Ireland matter. It is a case of simply waiting until the investigation can be begun next week on the arrival of Lord Mersey in Canada and in the meantime the discussion as to which captain was to blame for the sinking of the Empress, if either, has settled down. Even the two captains themselves, who were so much in the public eye a few days ago, are seldom mentioned now. So-called experts are bobbing up occasionally with views as to how the Empress could be raised but no action has yet been taken to lift the sunken ship.

Capt. Walsh of the Canadian Pacific railway company is devoting his attention to recovering as many bodies from the vessel as possible.

"That is our first work now," he said today. "We must recover them if at all possible."

Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. To-day they are just as effective, just as reliable as ever, and nothing better has yet been devised to

PRAIRIE SYNOD HAS BIG DEFICIT

Anglican Diocese of Qu'Appelle Reports Shortage of Twenty-five Thousand Dollars.

(By Daily News Leased Wire.)

REGINA, Sask., June 9.—St. Paul's parish hall was crowded at the opening of the annual meeting of the Anglican diocese of Qu'Appelle this afternoon. Rev. Canon F. H. Knowles was elected secretary, Archdeacon Dobie assistant secretary of the synod, and E. Spencer Page lay secretary.

The balance sheet shows that there was a deficit on May 31 last of $25,537.64.

Bishop Harding strongly appealed to the clergy to do all in its power to clear St. Chad's college of debt. Opposition was manifested to a report on finances which advocated that instead of taking up special collections there should be a block system for each parish.

PLUMBERS STRIKE FOR SIXTY CENTS AN HOUR

(By Daily News Leased Wire.)

WINNIPEG, June 9.—The plumbers' union went out on strike today. It demanded an increase from the present scale of 55 cents per hour to 60 cents per hour. The majority of the contractors refused to accede to the demand and the plumbers, with whom are included steamfitters, gasfitters and like trades, promptly walked out.

INTEREST KEEN IN CHAHKO MIKA

East Kootenay Residents Enthusiastic. Cranbrook Princess Competition. Coming for Tennis Tournament.

Considerable interest is being evidenced in the Chahko Mika celebration which will be held in Nelson from July 13 to 18 by residents of East Kootenay, according to communications received last night by George Paterson, manager of the celebration.

At least 100 residents of Cranbrook will attend the affair on East Kootenay day, acording to the information, and in all probability a special train will be required to bring the guests from that district. Another shipment of ballots for the Chahko Mika princess competition which is being conducted in Cranbrook has been ordered. Miss Richards, with 450 votes to her credit is leading the competition in that city, Miss Drummond with 195 votes is second, and Miss Whitehead with 150 votes is third.

H. Gordon Macredy, the Cranbrook solicitor, has written enquiring about the tennis tournament which is to be held here during the week. Mr. Macredy intimates that he may enter single, double and mixed doubles in the tournament.

BLUEBELL TEAM CHOSEN FOR LEAGUE GAME TODAY

Goal, Bennett; backs, W. McCulloch and A. McCulloch; halves, Marshall, Anthony and Buttle; forwards, Murray, Burt, Gorton, Stanton and Townshend; reserves, Campbell, Sherraden, Dodd and Kearney, is the line-up of the football team that has been chosen to represent Bluebell today in the game with Nelson at Riondel, which will in all probability decide which of the two teams will represent division B of the West Kootenay Divisional Football league in the home and home games with Trail winners of Division A for the championship of the district.

The game will be refereed by J. Sime and J. McGuffy will act as linesman for Bluebell. The ball will be kicked off at 1.30 o'clock sharp.

At the present time the teams are on an equal footin gas far as wins and loses are concerned, but Bluebell has the lead on goal averages.

TWO COAST ARENAS CLAIM TO HAVE SIGNED VAISE

Frenchy Vaise, lightweight champion boxer of Canada, who will box 20 rounds with Charlie Lucca for the title in this city at Chahko Mika week, is in great demand at the coast at the present time. At Vancouver two arenas claim to have the champion signed for bouts to take place at the end of the present month and one is applying to have the other put out of existence on this account. Johnny O'Leary and Eddie Moy are the boxers who are anxious to meet the champion at the coast and the embroglio which is at present going on between the two arenas may result in the champion not appearing at the coast at all. Vaise will be in Nelson about July 1.

CABARETS GET LICENSES

MONTREAL, June 9.—The five cabarets whose cases have been long before the courts, were granted their licenses by the board of license commissioners today.

MANUFACTURERS MEET IN MONTREAL

Made in Canada Label to Forefront—Vote Two Thousand Dollars to Empress Fund

(By Daily News Leased Wire.)

MONTREAL, June 9.—Representatives of the business interests in the Dominion to a large extent, and especially of the industries which proudly label their goods "Made in Canada," several hundred delegates to the annual convention of the Canadian Manufacturers association have temporarily settled down in Montreal. Many of them have brought their wives and their three days' sojourn in this city will include a trip in the harbor and several social functions, winding up with a grand banquet on Thursday night.

This was the opening day of the convention. The attendance was large, as befits an organization embracing more than 3,000 members, and as there are important questions before the manufacturers, a good deal of interest will be taken in their deliberations.

Two thousand dollars was voted by the association today to the sufferers through the sinking of the Empress of Ireland.

The first social event of the convention was a reception tonight at the Ritz Carleton. The guests were received by President Gordon, Second Vice-President J. H. Sherrard and T. P. Howard, chairman of the Montreal branch of the association. A dance followed the reception.

The treasurer's report for the past nine months, owing to the fact that the meeting is being held in June instead of September, shows that the receipts amounted to $52,462, and there was a profit for the period of $6,111, the total balance of the association now being $43,180.

H. W. Fleury, chairman of the insurance committee, in his report, reviewed at considerable length the history of the Central Canada Manufacturers' Mutual Fire Insurance company and the association's grievances with the Canadian Fire Underwriters association. Referring to the voluntary liquidation of this company, the report adds:

Fire Loss Grows.

"While never financially responsible for the Central Canada, the association allowed the company to be formed under its auspices. A forced assignment would have been expensive for mutual policyholders and hurtful to the prestige of the whole organization but a voluntary liquidation with all creditors paid in full gives ground for the hope that failure will never attach to any enterprise backed by the Canadian Manufacturers' association.

"Notwithstanding the great quickening of industry in Canada during the past years in the subject of fire prevention, losses kept increasing at a rate that should give cause for real concern," he said. In 1913 the loss was $26,346,618, as compared with $22,900,712 in 1912, and $21,459,575 in 1911.

For the first three months of 1914 the total losses were $7,856,613 against $7,661,527 for the corresponding period of 1913; $9,904,217 for 1912, and $4,043,975 for 1911.

The general dullness of trade was indicated in the membership committee's report. The net increase for the year was only 361, bringing the total membership up to 3,032. No less than 46 of the resignations during the past year were due to liquidations or discontinuance of manufacturing operations.

WILL DISTRIBUTE TENTATIVE PROGRAMS OF CHAHKO MIKA

One thousand tentative programs of the Chahko Mika celebration will be distributed in the city in all probability during next week, according to George Paterson, manager of the affair, when residents and visitors to the city will be given an idea of the extent of the celebration.

At a meeting of the general committee in charge of arrangements for the week of fete on Friday night the tentative program will be produced for the first time.

SCOTSMEN WILL PICNIC AT SHOREACRES RANCH

The second annual picnic of Clan Johnstone No. 212 will be held on July 1 at the ranch of Charles F. McHardy, Shoreacres. A program of Caledonian sports is being arranged for the day and a special train will be run from Nelson to Shoreacres for the occasion.

CLUB TO HOLD DANCE DURING CHAHKO MIKA

At the Mandolin club social and dance last evening it was announced that the club's dance during Chahko Mika week would be held on July 15. It was also announced that, having a membership of approximately 200 the roll would be closed. A committee was appointed to arrange for the Chahko Mika dance.

NELSON NEWS OF THE DAY

Born on June 9 to Mr. and Mrs. A. T. Walley, Stanley street, a daughter.

A. C. Yoder, the Nakusp lumberman, is at the Hume.

Dr. W. H. Willson returned to the city last evening from Halcyon.

The monthly meeting of the board of trade will take place tomorrow evening at 8 o'clock in the board rooms.

G. A. Lafferty, manager of the Bank of Montreal at Rossland, came in on the coast train last night and registered at the Hume.

B. N. Aylmer, Noel H. Ryley and John H. Hoyle of Queen's Bay were in the city yesterday. They registered at the Hume.

The water in the West Arm remained stationary yesterday, according to the guage of the Nelson Boat & Launch company.

Dr. E. C. Arthur left on the coast train last evening for Vancouver where he will attend the provincial convention of health officers.

Showing the advanced stage of flowers and foliage of the Slocan district at this season of the year a quantity of sweet pea blooms were yesterday brought to the city by T. J. Lloyd of New Denver. The blooms were from the ranch of W. Eccles of New Denver.

NEW ASSOCIATION WANTS CONTRACT

Secretary and President Will Draw Up Agreement With Canadian Pacific Medical Association

An application from the Canadian Pacific Employes Medical association of British Columbia for a contract with the Kootenay Lake General hospital for the treatment of employes of the railway, their families and dependents at a flat rate with the use of the operating room and other privileges free was referred last night by the directors of the institution to the president and secretary with power to draw up a contract satisfactory to the hospital. Considerable discussion took place on the subject and it is expected that the officers of the institution will communicate with the other hospitals of the province regarding agreements which have been made with them.

During the month 810 days treatment were given in the general hospital, an increase of 82 days over the previous month, according to the report of Miss H. R. Saunders, head nurse, who is acting matron in the absence of Miss E. E. Kidd, who is away on a vacation. Twenty-two major operations took place during the month, an increase of five over the previous month. There was one death at the hospital.

Eighty-three days' treatment were given at the maternity hospital, where there were nine births.

Two new junior nurses, Miss R. Gilchrist and Miss Wileman, had passed an examination very satisfactorily, stated the report, and had received their uniforms.

Miss Pike, head nurse at the maternity hospital, had returned from her vacation during the month, according to the report; Miss Kidd, matron, had left on June 5 for a month's vacation; Misses Laslett, Curry, Mitchell and Noble had completed their vacations and Miss Wilson would return on June 20.

A recommendation that additional lights be placed on the hospital grounds was received from the acting matron and adopted by the board of directors.

Ald. I. A. Austin and D. G. Kurtz were appointed the visiting committee for the month.

FIFTY-FIVE HUNDRED HEAD OF CATTLE ARE SEIZED

Wealthy British Company Is Charged With Having Undervalued Stock to Pass Canadian Customs.

(By Daily News Leased Wire.)

SWIFT CURRENT, Sask., June 9.—Five thousand five hundred head of cattle, the property of the Matador Ranch company, north of here, were today seized by Special Officer G. E. Hughes of the Canadian customs department for alleged under valuation to the amount of $32,600. The cattle are placed in the charge of special officers and will be held pending the action of the company's officers.

The Matador company has ranches in Mexico, Texas, Arizona and Colorado. It is a British concern and one of the wealthiest ranch companies in the world. The headquarters of the company are in Trinidad, Colo., and the manager here is now in communication with the head offices.

EMINENT BRITISH ENGINEER WELL KNOWN HERE, DEAD

(Canadian Associated Press Cable.)

LONDON, June 9.—The death has occurred at Ballyshannon of Prof. Robert Crawford, the eminent engineer, who carried out several important schemes in Canada and at one time filled the chair of engineering at McGill.

CHARGED WITH KILLING DURING BARROOM ROW

(By Daily News Leased Wire.)

SASKATOON, Sask., June 9.—John Queen of Rosthern was today committed for trial to Prince Albert, charged with causing the death of J. J. Peter in a barroom row at Rosthern on June 1.
