WEST PAYS FOR EASTERN BURDEN

Dominion Counsel's Argument in Rates Case

CHARGES ALL TRAFFIC WILL BEAR

Canadian Pacific Has Little Capital Invested in West--Subsidies Valuable.

(By Daily News Leased Wire.)

OTTAWA, Ont., Dec. 4.—For five and one-half hours today the railway board listened to the arguments of James Bicknell, K.C., Toronto, chief counsel for the Dominion government in the western rates case. When the board adjourned at five o'clock until tomorrow morning. Mr. Bicknell said he would probably be able to conclude his arguments in an hour.

Throughout today, Mr. Bicknell presented his facts in a deliberate and methodical manner. Quite frequently his statements were challenged by F. H. Chrysler, chief counsel or the Canadian Pacific railway, and occasionally by members of the board, but anything in the nature of heated altercations were avoided.

Mr. Bicknell at one point in his argument declared: "If the east is not able to bear its proportion of expense, the west is made to do it, and consequently the west is paying a greater share than 18 per cent, the amount it should pay toward the general expense on the amount of the capital actually invested.

"If we could get accurate figures of capital invested in the west, they would prove that the Canadian Pacific railway has a very small sum invested when the grant of $25,000,000, the grant of 25,000,000 acres of land, and the line constructed in the west by the government is taken into consideration."

All Traffic Will Bear

Mr. Bicknell contended that the exhibits submitted by J. P. Muller, the American rate expert, were near enough actual calculation of the position of the Canadian Pacific railway to constitute a basis from which the board might draw conclusions in fixing rates for the west. The existing rates, he declared, had been arrived at on the theory of "all the traffic will carry."

In view of the lack of real competition, there was nothing for the western people to do but to come before the board and demand that, in the matter of rates, they be given treatment equal to that received by the people of eastern Canada.

Counsel for the government raised the point that, according to the act of 1886, the Canadian Pacific railway be allowed to earn 10 to 15 per cent on the actual expenditure of the company. This means, he argued, that the mileage of that portion of the Canadian Pacific system which was built by the government is not entitled to earn 10 per cent., but rather its earnings must be applied to the earnings of that portion of the system built by the Canadian Pacific railway.

What the company should do with its earnings or profits over the 15 per cent mark is to be decided on by the board.

Mr. Bicknell appealed to the board to view the case not as a court of law would do, but rather as a body having wide powers of administration over nearly all the railways in Canada.

In connection with figures relative to the cost of the road and equipment for the Canadian Pacific railway, which Mr. Bicknell read, some objection was raised by Canadian Pacific railway counsel as to their source.

"I asked the company for the cost of their road and equipment. I was told I could get it in the annual report, and now they say the figures therein are only bookkeeping entries, and not to be used for anything else," said Mr. Bicknell. "We are either to be played fast and loose with or we are to take what we are given as true."

Mr. Bicknell then went on to state that the Canadian Pacific railway's total surplus assets were, after paying all capital charges, in addition to the value of the road and securities, excess of book value and the additional value of the road constructed by the government, and given to them which formed no part of the entries as regards cost of road and equipment.

In dividing this surplus to find where it comes from, it was found that the passenger revenue for 1911 in the east was $4,000,000 and approximately the same in the west.

Enormous Difference

It was in freight that enormous differences were found. Freight earnings west were $19,000,000 and in the east $6,000,000. The proportion of lines east and west of Fort William respectively was 41 and 58 per cent. Applying mileage to freight earnings, the western proportion was 71.6 per cent and the eastern 26 per cent.

"The west is called upon to bear the burden of the eastern debentures," said Mr. Bicknell. "If the eastern ends of the line were not able to earn their full proportion the west, instead of earning the total surplus of 18 per cent, on account of the water competition and competition by the American railroads in the east, was paying 30 per cent on the capital in-

NEW RAILWAY ACROSS CANADA

British Capitalists Backing All Red Line—Power Asked to Build Branch Lines.

(By Daily News Leased Wire.)

MONTREAL, Dec. 4.—The all-red line railway has entered an application with the government for permission to build its transcontinental line from Cape St. Charles, on the Atlantic coast, to the head of Deans channel, on the Pacific. The announcement of the building of this new railway across Canada has been kept quiet by the British capitalists who are backing the scheme. The first knowledge of the actual incorporation was received in Montreal early this afternoon. What capital the new scheme has, and who are the backers, is not definitely known. J. K. Dowsley, solicitor, of Prescott, Ont., is named as the company's legal agent.

Power is also being asked by the charter to build branch lines from Martins Falls to Winnipeg, thence back to the main line near Moose Jaw, Sask. from the Peace river valley to the Yukon territory, and via the Peribonka river, and a railway to Quebec City.

MURDERER HIDING IN WINNIPEG

Driver of Car Which Carried Plum Coulee Bandit Away Makes Contradictory Statements

(By Daily News Leased Wire.)

WINNIPEG, Dec. 4.—The man hunt for the murderer of H. M. Arnold, the manager of the Plum Coulee branch of the Bank of Montreal, became keen tonight, when provincial detectives traced the fugitive to within 12 miles of the city. Provincial and city police now believe their quarry to be in hiding here, and the nooks and crannies of the city are being pierced to bring him to justice.

In the provincial jail is held William Dyck, the driver of the car which carried the bandit away. Dyck has many things to explain to the police and many contradictions to piece out. First, he told the officers at Plum Coulee that he had driven the men within two miles of Morris—detectives tracked the car to a point 18 miles northwest of Morris, and saw the wheel marks where it turned around. Secondly, the liveryman must explain away $240 in silver, which was found beneath the back seat of his car. To be placed in the position it was found the car seat and the wooden framework would have to be lifted. He told some of the men that the men pointed a gun at him and told him to "beat it," which he immediately did. To others he told of the robbers tampering with his carburetor and of spending half an hour fixing it. He made numerous other divergent statements when cross-examined by the chief of the provincial police tonight.

At Plum Coulee this afternoon the inquest was conducted. Witnesses to the actual shooting were present.

William Esau, the teller, told the jury he did not consider the bank a very safe place to work. The late manager had written the head office with regard to the bank's protection on various occasions, but he did not think any reply had been received. The actual amount taken, he said, was $4,200.

The inquest was adjourned.

HIGHWAY THROUGH TO EDMONTON

Good Road Already Exists Along North Thompson—Road from Vancouver to Alberta's Capital.

(By Daily News Leased Wire.)

VICTORIA, Dec. 4.—Within the next year or two British Columbia will possess an up-to-date highway, extending from Kamloops to Tete Jaune Cache, and giving connection through to Edmonton, said Thomas Taylor, minister of public works, today. The provincial government has already established a good road for about 90 miles north of Kamloops along the north Thompson river, and it is to be extended later north to Tete Jaune Cache, where it will meet the highway built by the Grand Trunk Pacific contractors, east and west. It is probable that this road will be taken over by the province from Tete Jaune Cache to the provincial boundary line at Yellowhead pass. It is declared that a fairly good railway contractors' road extends through the Rockies to the east along the Grand Trunk Pacisfic route to Edmonton. The next two years, at the outside, should see a road in existence from Kamloops to Edmonton, it is believed, and later on motorists will be able to run from Vancouver to Kamloops and then through to the capital of Alberta.

BOOKKEEPER STOLE EIGHTY THOUSAND DOLLARS

(By Daily News Leased Wire.)

NEW YORK, Dec. 4.—John C. Schildknect, the $18 a week bookkeeper, who recently pleaded guilty to stealing more than $80,000 from the Washburn-Crosby Flour company, his employers, was sentenced today to Sing Sing prison for not less than two and one-half years or more than four years and eight months.

Schildknect admitted on the witness stand that the greater portion of the money he had stolen was spent upon a young woman, to whom he had given, among other valuable presents, an automobile and $15,000 worth of jewelry.

BUSY SESSION IS IN PROSPECT

Parliament to Meet on January Fifteenth

REDISTRIBUTION CONTENTIOUS BILL

Recommendation Will Be Made for Old Age Pensions.

(By Daily News Leased Wire.)

OTTAWA, Ont., Dec. 4.—Parliament will assemble on Thursday, Jan 15.

This was decided at a meeting of the cabinet, held this afternoon, presided over by Premier Borden. The proclamation formally calling parliament together will be published at an early date in the Canada Gazette.

The fixing of Jan. 15 as the date for the opening will give the government a period of six weeks in which to prepare the sessional program, which promises to be a fairly heavy one.

Whether or not there will be legislation dealing with naval defence has not been announced, but the probability is that the question will again be brought up at the approaching session.

The Redistribution bill made necessary by the last decennial census, and which will greatly increase the representation of the west, may easily prove to be the most contentious measure of the session.

Bills to consolidate and revise the Railway act, to amend the Companies act, and the Civil Service act, will be introduced. The latter will probably make provision for a system of superannuation for the inside service and will bring into effect a number of recommendations made by Sir George Murray in his report to the government.

The Highways act, which has twice fallen by the wayside because of senate amendments, will again be introduced as will a bill to amend the Merchants' Shipping act and a bill to regulate the control of explosives.

It is expected that many days of the session will be taken up with the consideration of the tariff, and the high cost of living. The debate on the address in reply to the speech from the throne, will probably occupy the attention of parliament for the first week, as Sir Wilfrid Laurier is almost certain to move an amendment calling for the abolition of the tariff on food products.

Old Age Pensions

A definite recommendation as to the advisability of establishing in Canada a system of old age pensions will be made at the next session by the special committee of the house of commons investigating the matter.

During the recess the secretary of the committee has collected a lot of information respecting the operation of pension systems in Australia, New Zealand and Belgium, and as in communicating with homes for aged people as to what proportion of the inmates comes from urban and rural parts, as well as the chief causes of their poverty.

COURT-MARTIAL ON QUARTERMASTERS DROPPED

(Western Associated Press Special Cable.)

LONDON, Dec. 4.—The war office last evening issued a surprisingly sensational communique to the press. It said the proposed court-martial to be held on charges of corruption against certain army quartermasters had been suspended because "the war office is advised by legal authorities that the jurisdiction possessed by such a court-martial would be too limited for the action which further inquiry shows to be necessary in this case."

People are now asking how much graver the situation is than appears on the surface, and there can be no doubt that unless there is some further action the whole subject will be discussed with vigor upon the reassembling of the parliament in February.

The suspension of the court-martial is taken to mean that certain civilans and officers not on the active list, who are implicated in the scandals, are beyond the jurisdiction of the court as proposed. Military courts have no power to compel civilians to testify in time of peace, and it is therefore probable that a special commission of inquiry will be appointed with full power to take such legal action as may be found necessary. Meanwhile the five officers accused have been relieved from open arrest and have been permitted full freedom of action.

POSTAGE RATES ON SEEDS TO BE RESTORED

(By Daily News Leased Wire.)

OTTAWA, Dec. 4.—The post office department has issued a circular re-establishing the rate of postage on seeds, cuttings, roots, etc., at 2 cents for the first four ounces or fraction thereof, and 1 cent for each additional four ounces or fraction.

The rates were recently increased, but as a result of the protest lodged with the department, the original rates will again come into force.

HINDUS' PETITION TO VICEROY

Asks That Rights Be Respected—Racial Color Bar Puts Stigma on Indians

(By Daily News Leased Wire.)

VICTORIA, Dec. 4.—The Hindu colony of Victoria has forwarded the following self-explanatory cablegram to Lord Hardinge, viceroy of India:

"The Hindustanis of the city of Victoria and of Vancouver Island, s a body, desire that in the matter of new regulations or modifications of the old, in the Canadian Immigration act, that your government protect our rights, like you have done in the case of South Africa. Economic expediency in lieu of fundamental justice and fair play to Hindu subjects of his majesty vitally concerned in these regulations will not tend to cement India more closely to the empire at this time. To us there seems to be but one question— that is, our status in Canada, and hence our status in the empire. If the whole question is to be re-opened on this basis, you will find a solution that will commend itself to us and to our fellow countrymen in India. The racial color bar which discriminates against us puts a stigma on all the Hindustanis, which needs to be removed."

Warning to Emigrants

(By Daily News Leased Wire.)

LONDON, Dec. 4.—Much satisfaction is expressed today over the action of the Punjab government in issuing a communique warning intending Hindu emigrants to British Columbia that they run considerable risk of failing to secure admission, owing to the anticipated congestion of the labor market. The responsible Indian press realizes that it is impossible for British ministers to dictate to ministers responsible to the dominions.

DAMAGE BY STORMS IN NORWAY

Ships Lost, Houses Demolished, Bridges Swept Away—Crew of Liner Drowned.

(By Daily News Leased Wire.)

CHRISTIANA, Norway, Dec. 4.—Great damage has been done by the violent storms which have been raging on the Norwegian coast for the past fortnight. Several ships have been lost, and all fishing craft have been compelled to seek refuge at the various ports. Five of the crew of the liner Bergensfjord were drowned while trying to reach shore in a boat at Bergen.

The Bergensfjord belongs to the Norwegian line and sailed from New York on November 18 last.

At Christiana and Frederickstadt the streets in the lower parts of the towns are flooded. Inland, many houses have been demolished and bridges swept away.

IMPORTATION OF ARMS FORBIDDEN

Government to Revive Crimes Act in Ireland—Anti-Home Rulers Threaten Uprising.

(By Daily News Leased Wire.)

DUBLIN, Dec. 4.—The importation of arms into Ireland is about to be forbidden ,according to the newspapers here. The issue of a proclamation to that effect is expected in a day or two.

Revival of Crimes Act.

BELFAST, Ireland, Dec. 4.—Prominent Unionists here say that any attempt to deprive the Ulster volunteers of their weapons will mean an uprising in the province. At the Ulster Unionist headquarters it is said the importation of arms into Ireland will be stopped by a revival of the Irish Crimes act, which forbids the carrying of arms and gives the authorities power to search and confiscate.

LARKIN TAKES MORAL GROUNDS

(Western Associated Press Special Cable.)

LONDON, Dec. 5.—The quarrel of Jim Larkin, the Dublin labor leader, with the English labor leaders has apparently extended to include moral differences. Larkin was booked to speak at Grimsby yesterday, but the meeting was cancelled at the last moment. At first it was suggested that lack of enthusiasm was responsible, but a Socialist, who was invited to preside, now explains that the reason was Larkin's refusal to be associated with a man who had been a successful petitioner in a divorce suit. The local labor leaders refuse to accept Larkin's dictation in this matter and abandoned the meeting.

A report hints that Larkinism may benefit by the sudden and unauthorized strike on the Great Western railway, "an untoward and uncalculated event, which threatens to change the whole situation and take the control completely out of the hands of those pretending to direct the labor movement."

The breach between Larkin and the labor leaders is irreparable, but the latter dare not strike an open blow. Their plans have been to cut the ground from under Larkin's feet by settling the Dublin strike over his head, but one serious obstacle to the success of the labor deputation to Dublin in finding a formula for a settlement is the strike in South Wales. If that continues, their efforts will be frustrated and within a week Larkin may be put back on the pedestal from which he has fallen.

PREMIER SPEAKS AT MANCHESTER

Last Deliverance on Home Rule This Year.

SIR EDWARD GREY BLAMES UNIONISTS

Political Knights in New Years Honors--Golf Club Politics.

(Western Associated Press Special Cable.)

LONDON, Dec. 4.—Premier Asquith will speak at Manchester today and at Oldham on Saturday. These will be his last speeches on home rule this year, his one other engagement before the new year being in London in conction with the Lloyd George land campaign.

In view of the ministerial efforts to lessen the effect of the firm and uncompromising words at Leeds, the speeches at Manchester and Oldham are awaited with lively interest in Unionist circles.

The Daily Telegraph today says: "A responsibility of the utmost magnitude rests upon Mr. Asquith, who can improve or make worse the political situation, which is almost as bad as it can well be. He will not be handicapped by a partisan audience and his plain duty is therefore to speak plainly and say exactly what is the government's policy.

Sir Edward Blames Unionists.

Sir Edward Grey, foreign minister, speaking at Bradford tonight, blamed the Unionists for the failure of the attempts to realize a home rule settlement by consent. Calling attention to the fact that home rule could not come into operation before 1915, he said there was no hurry for the settlement of the Ulster problem. The government would exhaust every effort to get such a settlement in accordance with the principle the prime minister had laid down, but he declared the next move must come from the opposition leaders. The demand for the federal settlement to be applied to the whole thing was a big matter, requiring much thought, the foreign secretary said, therefore the Irish question must be settled first.

New Year's Honors.

There is much ado in certain circles in the Liberal party over the New Year's honors. It is even said that some men have already had letters of thanks printed to reply to the congratulations of their friends despite the fate of the man who was struck from the list by the late King Edward after his majesty had been told that the prospective knight had been guilty of such a betise. It is believed that the list will be longer than usual and will include a number of "political" knights.

Partizanship Rampant.

A curious illustration of how the severity of partizan politics is entering into the social life of Great Britain is given by the announcement that the Conservatve members of the Walton Hill golf course have migrated to Combe hill. Both courses are handy to London and on that account are frequently patronized by the politicians. The reason for the Conservative desertion of Walton hill is said to be that Lloyd George, Reginald McKenna, the home secretary, and Mr. Masterman, the financial secretary of the treasury, are in the habit of frequenting that course, and consequently there has been an influx of Radicals to the club, which is not pleasing to the Conservative members. At the Combe hill course Bonar Law, the Unionist leader, usually plays with Sir Max Aitken, occasionally making a foursome with F. E. Smith and Steele Maitland.

Pilot's Certificate.

Right Hon. Winston Churchill is not deterred by the fate of Capt. Lushington, the airman, on Tuesday, and still hopes to eventually obtain an air pilot's certificate from the Aero club. He has, however, at his wife's request, suspended flying for the present, though he stated yesterday: "I hope to still be at the admiralty when a seaplane, as well as a yacht, will be at the constant disposal of the first lord. The time is not far distant when that will be necessary."

Miners Idle.

Nearly 20,000 miners in South Wales are idle through the spread of the Great Western railway strike. The strike originated through the dismissal of an engineer, and, although it was not authorized by the union, the movement as developed very rapidly.

Hon. William George Spence-Lyttleton, who was private secretary to Mr. Gladstone in 1892, died this morning. Mr. Lyttleton was born in 1847.

HUDSON'S BAY EMPLOYES ON SUSPENDED SENTENCE

(By Daily News Leased Wire.)

WINNIPEG, Dec. 4.—Four of the five employes of the Hudson's Bay company wholesale store who were charged with theft were yesterday allowed to go on suspended sentences in the police court. James Barber, who is alleged to have been the ringleader, pleaded not guilty and was remanded for trial.

CLOSE SEASON FOR STURGEON

Caviar Valuable Luxury—Made From Eggs of Fish Caught Before Spawning.

OTTAWA, Dec. 4.—An interesting subject to be dealt with at the conference to be held in Ottawa this month between Professor Prince, Dominion fisheries commissioner, and the fisheries commission of the United States, is the establishing of a four-year closed season for sturgeon in order to prevent the further depletion of the inland waters of this valuable fish.

Twenty years ago the catch in Canada was 1,600,000 lbs., bringing $90,000. Last year the catch was 900,000 lbs., but owing to the much higher price now received the value was $113,000.

Inquiries are coming from London dealers for caviar from the Canadian sturgeon. This is an expensive luxury made from the eggs of large fish when caught before spawning. The raw material for the caviar is worth $1 a pound, and 40 or 50 pounds may be secured from one sturgeon. This, together with the value of the flesh, gives the fish great value and makes conservation advisable. It is caught only in St. John river, Lake of the Woods and Lake Winnipeg, and the caviar is shipped to Germany and Russia, as well as England.

SCORE OF LIVES LOST IN FLOOD

Three Days' Continuous Downpour in Texas—Denver Snowbound and Storm Still Raging.

(By Daily News Leased Wire.)

DALLAS, Texas, Dec. 4.—The Texas flood centre shifted southward tonight toward the gulf, centring from Hearne to Richmond, where the flood crest of the Brazos river continued to do great damage and caused some loss of life. At the same time the general flood situation improved when rains began to cease after three days' continuous downpour over most of the state and the creeks in the north and west Texas began to fall slowly.

Before relief came the floods had overspread five large basins in the headwaters of the Sabine, in northeast Texas, to the San Antonio river in the southwest. The total number of dead stood tonight at 24. Estimates of property damage ranged between $1,000,000 and $2,000,000, with Waco and San Antonio the heaviest sufferers.

Denver Snowbound.

(By Daily News Leased Wire.)

DENVER, Dec. 4.—Denver is snowbound tonight. At 7 o'clock tonight the United States weather bureau reported that from 20 to 24 inches of snow had fallen, with no prospect of a cessation for 10 hours. Since mid-afternoon street car traffic has been blocked.

CONFERENCE ON AGRICULTURE

Will Be Attended by Representatives of Provincial Governments and Agricultural Institutions

(By Daily News Leased Wire.)

OTTAWA, Ont., Dec. 4.—Hon. Martin Burrell leaves on Saturday for Amhurst, N.S., to attend the annual live stock show, held at that place. The minister is arranging for another agricultural conference to be held some time during the winter. It will be attended by representatives of the provincial governments and agricultural and educational institutions throughout the country. They will discuss questions of agricultural development and co-operation for the ensuing 12 months. Under the terms of the agricultural aid bill, adopted last session, the grants to provinces this year amounted to $700,000. Next year the amount available will be $800,000.

MRS. PANKHURST ARRESTED ON RETURN FROM STATES

(By Daily News Leased Wire.)

PLYMOUTH, Eng., Dec. 4.—Contrary to expectations, there was no disturbance on the arrival of Mrs. Pankhurst, the militant suffragette leader, who was arrested on board the steamship Majestic on her arrival om New York today. Mrs. Pankhurst was transferred to a tug, which had been chartered by the police, and was taken to Devonport dockyard. Police officers boarded the Majestic as soon as the liner had anchored, shortly after noon. The police tug, with the prisoner and the officers on board, steamed directly for Devonport. Everybody, except officials, were excluded from the government dockyard, and Mrs. Pankhurst was landed without incident.

Threats of Venegance

(By Daily News Leased Wire.)

LONDON, Dec. 4.—The militant suffragettes of London, who had arranged a great demonstration to welcome Mrs. Pankhurst, arranged today to turn it into a meeting of protest. At the militants' headquarters threats of vengeance against the authorities were heard when it was discovered that Mrs. Pankhurst's captors had eluded the rescue party at Plymouth.

SPINTLUM MUST HANG FOR CONSTABLE'S MURDER

VANCOUVER, Dec. 4.—The court of appeals today refused a new trial to Paul Spintlum, who will therefore be hanged on Dec. 18 for the murder of Constable Kindness near Ashcroft, last summer.

DEVITT WAS TOLD ABOUT GAMBLING

Police Officers Made Written Reports of Games

REID ADVISED TO CLOSE ONE EYE

Chief Says He Reported to Mayor--Keefe Statement Differs.

Chief of Police W. J. Devitt was notified in writing on several occasions by Constable Robert Reid and Constable Donald McLeod and was also told personally by those officers of the existence in the city of "open" poker games, but took no action to stop them, according to statements which were made by those officers to the board of police commissioners at a meeting yesterday afternoon which was called because the chief on the previous afternoon told the board that there was no written report on the subject to his knowledge and that it had not been reported to him, although he had heard rumors.

In February last Constables Reid and McLeod reported in the police report book that games were being run and, they said, also mentioned the matter personally to him. They stated that they ceased to make further reports on the question because the chief took no action, Constable Reid declaring that Chief Devitt told him to close one eye and also "not to go into any place" unless accompanied by the chief.

"Chief Devitt told us not to put anything in our reports, asserted Constable McLeod.

The chief told the commissioners that he had not acted in any matter of policy without consulting Mayor Keefe, as chairman of the police board.

Mayor Keefe declared that he had told the chief not to allow any tinhorns in town. The question of gambling had not come up until lately, when he had asked the chief about it and had told him to pull the man running the game in the Annable block if there was any evidence. The chief had stated that he did not believe he could secure any evidence.

All the commissioners, Mayor Keefe, M. R. McQuarrie and Ald. James Johnstone, were present.

Sergeant Did Not Know.

Sergt. J. D. Wightman was the first member of the force called. He stated that he had no knowledge of any written report of any kind regarding gambling. There might be one, but he had not seen it that he remembered. He had made no written report himself, although he had told the chief once or possibly twice that it was reported to him that gambling was going on.

Asked by Ald. Johnstone why he did not investigate, Sergt. Wightman replied that he had never seen any gambling going on, but he had heard that games were played once in a while.

To the mayor he stated that he was in the habit of looking over the police report book; it was the first thing he did when he went on duty.

Shows Reports in Writing.

Constable Robert Reid said he had made a written report. It was found under date of February 15 last and was addressed to the chief, stating that, for his information, a poker game was running in the pool hall on Vernon street. He also reported on September 23 in writing regarding gambling at the fair.

He continued that he had also spoken to the chief about the game at Billy Mack's place on Vernon street. The following night he saw the chief at Mack's place. Later Mack came to him and asked if McLeod and he were "going to come in on him."

"He said," declared Constable Reid, "that the chief and the sergeant were all right, but he wanted to know if I and McLeod were going to come in on him." Constable Reid said that in reply to Mack he simply smiled.

Game in Annable Block.

Constable Reid went on to say that he notified the chief on two or three occasions that there was a game running in the Annable block, but got no satisfaction. "I was only told to close one eye," he said. He said that he also notified the sergeant several times about the gambling in the Annable block and each time the game was in a different place the following night.

Just before the fair the sergeant came to him and told him that gambling around town must be cut out, as there was to be no gambling around town during the fair. It was stopped, but in the Annable block, said Constable Reid, Zelazney ran a game one night in the room of a violin player and made a rake-off of $20, but did not divide up with the owner of the room, although the players messed it up. "If the sergeant didn't know it sounds queer to me," he said.

Got Orders From Chief.

Constable Reid explained that the reason he did not make further reports about the gambling was that

NAKUSP NEWS NOTES

(Special to The Daily News.)

NAKUSP, B. C., Dec. 4.—A flock of feathered pets created a sensation among passers-by on Broadway by their peculiar conduct. It was at first thought that they had been poisoned, but investigation showed that they were intoxicated. Some canned fruit was brought forth for breakfast, but it was found to be mildewed and fermented. The lady of the house threw the contents of the bottle into the back yard, which was quickly consumed by the fowls, with the above result.

A meeting of the fruit fair directors was specially called last night to reconsider the rental of the building as a skating rink to the local hockey club. One hundred dollars for the season had been previously asked, but the club felt that they would be unable to make ends meet with this rent. It was resolved to reduce the amount to $50, the club to erect dressing rooms at the north end in a permanent manner and subject to the approval of the fair management. It is understood that this is satisfactory to the hockey men.

The dramatic society held a rehearsal at the opera house on Monday night.

George Hudson, an old-timer from Burton, was accompanied by Constable Smith off Nakusp on Monday to the Old Men's home at Kamloops. Mr. Hudson has been an inmate of the Nakusp hospital for some time, but it was considered that he would be more comfortable at Kamloops.

A small party of young people was entertained by Mrs. Heathcote on Monday evening to bridge.

The Nakusp lodge No. 42 will celebrate the jubilee of the establishment of the order of Knights of Pythias at an early date.

A. E. Stevens, assistant general superintendent of the British Columbia division of the Canadian Pacific railway, arrived yesterday in his private car, accompanied by Messrs. Main, Brodie, Forster and Stevens, private secretary. After a wait of an hour or so here they proceeded to Nelson.

Five new settlers arrived from Saskatchewan on Monday. The party will take up land in the vicinity of Glenbank.

A. E. Haigh has sold a residence on Broadway to Mr. Hoogerwarff, who will occupy and enlarge it.

During November the attendance at the Nakusp school was 70 pupils, of whom 40 were boys and 30 girls. The average attendance was 61.33. There were eight cases of tardiness among pupils.

UGH! HOW CHILDREN HATE CASTOR OIL

To Clean the Little One's Stomach, Liver and Waste-Clogged Bowels Give Gentle "Syrup of Figs."

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their little stomachs and tender bowels are injured by them.

If your child is fretful peevish, half sick, stomach sour, breath feverish and its little system full of cold; has diarrhoea, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue, if coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well, smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package.

By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. Accept nothing else.

DR. VOSBURGH SPEAKS ON CHINA

Deals Eloquently With Subject of More Than Passing Interest—Will Repeat Tomorrow.

Nothing more appropriate, nothing that could be more appreciated, nor nothing that is more in the public eye at the present time could be chosen for the subject of a travelogue than the subject chosen by Dr. Vosburgh last evening for his address in the assembly hall of the public school under the auspices of the Y.M.C.A., "China in Transition." More than usual interest was shown in the subject, as Dr. Vosburgh in a manner all his own took his audience for a tour of the mystifying old country that is now awakening and becoming a big factor in the commercial, financial and industrial world. Chinese customs, Chinese amusements and the various characteristics of the Chinese in public and private life were eloquently described and illustrated by slides and motion pictures of a quality rarely seen.

A picture of particular merit was one of a Chinese wedding, a wedding of one of the higher class of Chinamen, and its attendant revels, mirth and great warmth of color. Another was that of a Chinese regatta, where many interesting water sports were to be seen, one of which proved of particular interest, being races between large skiffs which are heavily manned and at top speed reached a speed of 14 knots per hour.

At the time of the revolution Dr. Vosburgh was a visitor to the country, and he described scenes of the famous uprising with a thrill that brought applause from his audience. He showed pictures of the men who were now making Chinese history, describing the characteristics of each and dealing with the corruptness of the public men of the country.

The city and country life of the Chinese was seen and compared and the contrasts between the rich and lowly of that country proved of exceptional interest.

The China of old was compared with the China of today, the modern buildings with the old-fashioned style of long ago, modern means of travel with that in vogue some years ago, and he aptly illustrated with words and views the many historic points of interest in that land.

On Saturday afternoon Dr. Vosburgh will repeat his lecture on "China in Transition" and as a historic treat it will be of interest to both adults and children, for whom Dr. Vosburgh makes it a special point to cater in the afternoons. On Monday evening he will speak on "Scotland and Wales"; on Tuesday evening "In the Heart of Old Japan," and on Wednesday afternoon he will repeat his travelogue on Japan.

SCHOOLS TO PLAY BASKETBALL SERIES

Matches Between Nelson and Rossland Teams Will Be Played at School Assembly Hall

On the train from Rossland this morning three teams will arrive for games tonight with teams representing the public and high schools of the city and tonight the Rossland intermediate will arrive to try conclusions with the local high school quintet.

Four games will be played, the contesting teams being the boys and girls teams of the Rossland public school against the boys and girls of the Nelson public school, the girls of the Rossland high school vs. the girls of the Nelson high school and the local high school team vs. the Rossland intermediates.

The games will be called at 8 o'clock sharp and will be in charge of Rev. J. Evans of the local Y. M. C. A. Each game will be played in 20 minute halves and between the halves of each game another game will be started. In this way it will be possible to pull the matches off in a shorter space of time.

After the games the members of the local teams will entertain their visitors in the assembly hall of the school and on their arrival in the city the visiting teams will be billeted in the homes of the members of the local teams.

The teams that will represent the Nelson schools in the games are:

High school girls: Francis Wolverton, Hazel Thomson, Florence Peters, Isobel Forin and Lillian Oatts.

Public school girls: Elsie Thomson, Hattie Johnson, Reginald Olsen, Pauline Anderson, Dorothy Whittemore and Gladys Mathews, spare.

Public school boys: A. Simons, Carl Whittemore, Lloyd Fairbanks, Elmer Anderson, James Notman and Frank Wallace, spare.

High school boys—G. Roe, C. Bradshaw, H. Nagle, R. Maurer, J. Laughton.

MEET TONIGHT TO DISCUSS CITY HOCKEY LEAGUE PLAN

Tonight in the Y.M.C.A. there will be a meeting of the hockey fans of the city, when the question of the proposed city league for the coming winter will be discussed and finally settled. Several teams have been formed for the purpose of entering the league and many of the fans are deeply interested in the proposal, so that a large crowd is looked forward to at the meeting tonight.

About five teams are already talked of as approving of the city league proposition.

MAKE RECORD SCORES AT Y.M.C.A. ALLEYS

Some record scores were hung up last night in the first game of the four-man team series which has been inaugurated at the Y.M.C.A. Allen had high score and high average, his high score being 217 and his average per game being 195.

Allen's team won by 341 pins and in its last game hung up what is almost a high score for the Y.M.C.A. alleys, a total of 708 pins. Brett had high score for his team with 194 in his second game.

GRAIN DEALERS DISSATISFIED WITH APPOINTMENT

(By Daily News Leased Wire.)

MONTREAL, Dec. 4.—The disappointment felt by members of the Montreal corn exchange and others interested in the grain trade at their expressed wish that an eastern member should be appointed to the grain commission is expressed in an official statement issued by the secretary of the corn exchange today. Members of the exchange are not inclined to regard the appointment of Prof. Magill, a maritime province man, as a concession to their oft-repeated desire for a member of the grain commission who could be considered as familiar with the conditions of the export and eastern grain trade interests, or capable of conserving the legitimate interests of the exporters.

SASKATCHEWAN BILL TO AID FARMERS

(By Daily News Leased Wire.)

REGINA, Dec. 4.—The first provincial measure towards providing cheap money for farmers was introduced in the Saskatchewan legislature today as a result of recommendations made by the commission which visited European and other countries. It provides for the formation of the Saskatchewan Farmers' Mortgage association, to lend money to agriculturists on the security of farm mortgages

TWICE FOUND GUILTY ON MURDER CHARGE

(By Daily News Leased Wire.)

PRINCE ALBERT, Sask., Dec. 4.—A verdict of guilty with a recommendation for mercy was returned by the jury late this afternoon against Retz, for the murder of Charles Bruggencote here, Feb. 11.

The jury was only out about half an hour.

This is the second time Ratz has been found guilty on the same charge, the sentence before being death, but a new trial was granted. He will be sentenced a second time by Mr. Justice Brown.

DEVITT WAS TOLD ABOUT GAMBLING

(Continued from page one.)

he was given to understand that no action was to be taken and also because the chief told him not to go into any place unless he was with him. He had to take orders from the chief and did not want to get in wrong. Gambling had been going on right along. In Chinatown, too, there was gambling, fan-tan and other games.

Questioned by Chief Devitt, he said it was a fact that Chinamen had been raided and fined and that it was as far as he knew for the first time in Nelson.

Ald. Johnstone asked if they were still gambling in Chinatown and Constable Reid replied that he notified several places on Wednesday night to cut it out.

One time when he spoke to Sergt. Wightman about the game "running so strong in the basement of the Annable block he rented them another room in the basement, where the game was run for some time." The officer said that he joked the sergeant about it and the game was moved to another place.

McLeod Also Reported Games.

Constable McLeod told the commissioners that he remembered reporting the existence of gambling some time in February. On February 6 a report in the book spoke of a man who complained that he had lost money in a game at the Kootenay hotel and on February 13 another report, addressed to the chief, said that a game had been running in the Annable block for the previous four or five nights and was going strong up to about 5 o'clock in the morning.

Another report by Constable McLeod in the police report book, dated February 15, stated that in company with Constable Reid he saw a game running at Billy Mack's place at 3 o'clock in the morning.

To Ald. Johnstone the constable stated that he had also reported to the chief personally that the games were running, but nothing was done that he knew of. He had also notified the sergeant.

Chief Devitt indicated to Constable McLeod that the commissioners wished to know if the gambling had been reported since the Schupp case. Schupp's defalcations had commenced, he said, in July, and he asked the officer if any report had been made since that date.

Mr. McQuarrie told the chief that he was mistaken, that the commissioners desired to hear what the police officers had to say regarding written reports because the chief on Wednesday had stated that there were no written reports to his knowledge.

To Chief Devitt, Constable McLeod said he might have reported to Chief Young on May 11, 1912, while J. E. Annable was mayor, that a game was running at Billy Mack's.

Mack Game Began January.

Ald. Johnstone—It doesn't matter to me what Mayor Annable did. It's what we do.

Chief Devitt said that he desired to show that there had been no change in policy.

The report on May 11, which stated that a game was running at Billy Mack's on Saturday night and Sunday morning, was read and Constable McLeod replied that he believed Mack was notified and that the gambling ceased. The Mack game started up again in January of this year, he continued. It had opened up "good and strong" since January, he told Mr. McQuarrie.

The chief drew attention to another report, dated July 8, 1912, which stated that a tin-horn who played blackjack had been given a black eye.

Told Not to Report.

To Mr. McQuarrie, Constable McLeod said that the Mack game was not running before January as far as he knew, although they might have been playing on and off. The game in the Annable block was opened in February.

The reason he did not make further reports about the gambling was that they were told not to put anything in their reports. No steps were taken when they did report.

Chief Devitt—Who told you not to put anything in your report?

Constable McLeod—Chief of Police W. J. Devitt.

Chief Devitt—In the report book?

Constable McLeod—Those are the very words you used, Mr. Devitt.

The chief asked if he had not placed the police regulations, instructing officers to report, in the report book, and Constable McLeod replied that the regulations had been there for a few days and then they were taken away. He did not know where.

Another report in the book made by Constable McLeod was dated September 23, and stated that he had stopped a Chinaman playing chuck-a-luck and had stopped four other games also at the fair grounds. They were later started up again with the permission of the chief of police.

Chief Devitt commenced to ask Constable McLeod regarding a statement he was alleged to have made during the Bradshaw trial last year, but Mr. McQuarrie objected that it had nothing to do with the gambling cases.

Chief Devitt Makes Statement.

Ald. Johnstone—The whole situation is clear enough in my mind.

Mr. McQuarrie—Yes, the reports are there in the book.

Asking the chief to retire the commissioners went into committee of the whole and discussed the matter. He was then given an opportunity to make a statement.

Chief Devitt said that if anything had been reported by the police to him it had in turn been reported by him to Mayor Keefe, the chairman of the board. The mayor had told him to take orders only from him and had said that if the police took instructions from anyone else he would discharge them and if they were reappointed by the commissioners he would discharge them again. He had always taken his instructions from the chairman.

He continued that he had received no complaints regarding the policy under which the city was conducted. At the beginning of the year he had asked the commissioners, he said, to see that any complaints were made in a regular way and that he had requested them not to butt in and interfere. He remarked to the commissioners that he had enemies and that the life of a policeman was not an enviable one. He believed that the policemen under him had, unfortunately, had some encouragement to undermine him. He had nothing to blush for and he courted the fullest investigation. He declared that he had been too long a policeman to allow anyone to besmirch his record. Since 1886 he had been in the police business nearly all the time.

Mayor Gives Explanation.

Mayor Keefe in reply declared that what he had said to the chief was that he, Chief Devitt, knew the situation and that he wanted things to run on as they were last year. He had told him not to allow any tinhorns in the city. The city was quiet enough as it was last year and he had

SHILOH CURES COUGHS & COLDS

The Sensible Solution of that Christmas Problem—

"Give him a Gillette Safety Razor"

Why sensible?

Because the Gillette is **a real gift for a real man**—a gift that is sure to be appreciated.

It doesn't merely look fine, though the Gillette is certainly hard to beat in that particular. **It appeals to a man's hard-headed business sense** as well as to his good taste, for it gives him, every day in the year, a service whose equal he could not get from any other source.

The gift of a Gillette is a compliment to any man, for a decade of use has proven it **undoubtedly the best razor that money can buy.**

From Standard Sets, Pocket Editions or Travellers' Sets, in gold, silver or gunmetal finish, cased in leather or polished plate, you can select **a Gillette exactly suited to any man's tastes or habits.** Standard Set (shown at right in lower panel) costs $5.00. Pocket Editions (centre, below) cost from $5.00 to $6.00. Combination or Travellers' Sets (right above and left below) run from $6.50 up.

Your Druggist, Jeweler or Hardware Dealer should be able to show you a good assortment. If not, write us and we will see that you are supplied.

CANADIANS HAVE MONEY.

The showing of the Canadian banks is an excellent answer to those who talk of Canada being in a bad way financially. The November returns are not yet available, but those for October are now before the public and show that whatever talk there may be of hard times, people have more money than ever to deposit in the banks and are depositing it there.

The returns for October show an increase of no less than $22,260,722 in the amount on deposit in the savings departments of the various Canadian chartered banks, to which should be added an increase of $7,918,994 in the demand deposits. In addition the central gold reserve stood at $7,573,977 in October, as against $3,350,000 in September.

The figures of deposits and loans for the month are given in a published statement as follows:

Demand deposits....$	389,855,507
Savings deposits....	643,511,207
	$1,033,366,714
Current loans	862,313,367
Call loans in Canada	76,118,205
Call loans outside Canada	93,346,810

The only portion of this statement to which Canadians may object is the large amount of money on call outside the Dominion. Particularly is this so in view of the fact that the month's returns show that the amount of these outside call loans has increased $6,700,000 as compared with September, while on the other hand loans in Canada showed a decrease of $4,000,000 in the same time.

Does all this look like the bank statement of a country in financial difficulties or one whose people are feeling the effects of hard times? Does it not rather demonstrate the *soundness of Canada's position and* the prosperity of her people?

FATHER JEANOTTE.

The following reference to the late *Father Jeanotte, so well and lovingly* known throughout the Slocan and by Kootenay old-timers generally, taken from the Enderby Press, will be read with interest by his many *friends in this section:*

The report of the death of Father Jeanotte, some days ago at Montreal, brings to light many incidents which were known in his ministrations in this field which mark the true character of the man and priest. As an example of Father Jeanotte's practical goodness we will be pardoned if we tell of one of his acts of kindness on a visit to Enderby some months ago. He held service in one of the homes, as was his custom, and the service concluded a purse of $9.50 was handed him, for his own personal use. The next day Father Jeanotte walked to Salmon Arm. He saw the dreary cabin of A. McDonald, half a mile off the road as he climbed the sand hill, and went to the cabin. He found McDonald ill in bed—lung trouble—you know. Father Jeanotte spent a *few hours with him to cheer and* comfort. Then he passed on. The purse of $9.50 was left with McDonald with 50 cents added for good measure.

No one who knew Father Jeanotte, or of his work, would for a moment doubt the truth of this story. His was a great heart and an unselfish one.

EDITORIAL NOTES.

Do your shopping early, reader, dear, for it will soon be Christmas.

Parliament has been called to meet January 15, the same as the municipal elections in Nelson and other British Columbia cities. Is this a coincidence?

Some people believe that because real estate speculation has been killed in western Canada *owing to promoters* overdoing the sub-division game that Canada is going to the bow-wows. Canada never was in better financial condition than at the present and of *no part of the Dominion can this be* said more truly than of Kootenay and the Boundary.

WHAT THE PRESS IS SAYING

Of Course They Know.

Germany is spending more on her navy than she did last year. We are assured by certain Canadian newspapers, however, that as far as Britain is concerned the gun isn't loaded.—Toronto Mail and Empire.

What Is Coming?

Information has been received from the most reliable sources that changes in the standing of the opposition leaders are on the "tapis." Though they may not be announced in the immediate future, they will be "un fait accompli" before many months are over. These changes involve nothing less *than the retirement of some of the* most important leaders.—Kingston Standard.

Canadians in Mexico.

Canadian capitalists down in Mexico are not to be envied. The Mexican Northwestern railway, which they own, was destroyed first by the rebels and then by the federals. Now the rebels demand that the road be repaired and operated or else confiscated. If it is repaired, doubtless it will afterwards be confiscated with greater profit. Canadian enterprise in Canada would seem to be attended by no such risks.—Ottawa Citizen.

THIS DAY IN CANADIAN HISTORY

On this date in the year 1837, when Mackenzie's rebel forces were threatening the capital of Upper Canada, the erratic Sir Francis Bond Head, after putting his family for safety on board a vessel in the bay, endeavored to gain time by sending the two well known reformers, Mr. Baldwin and Dr. John Rolph, with a white flag, to en*quire into the demands of the insur*gents. They asked for nothing short of "independence"—as Rolph very well knew they would ask, for he was deeply concerned in the plot, and had promised, it is said, to become president of the provisional government which Mackenzie proposed to set up. Probably he accepted the mission as the governor's messenger to avoid suspicion, but he is supposed to have used the opportunity to urge an immediate attack on the city. Rolph was a clever man who had been a lawyer before he became a doctor. In fact, he practiced both professions simultaneously. When it became plain that the rebellion would prove a fiasco, he fled to the United States, *but was pardoned, and returned to* Canada to found a medical school, and to become a cabinet minister in the Hincks-Morin government in 1851.

COMMUNICATIONS

COMPULSION AND SATAN.

To the Editor of The Daily News.

Sir: It is a characteristic of Satan to compel, and every effort to compel in any way the consciences of men in any way, whether it be the Sabbath or any other matter at issue, is satanic. God wins by the power of love; God leaves everyone free to *choose; Satan tries ot compel, and* every law of any kind or nature tending to control, to bind men's consciences in their relation to God is purely satanic. And every effort to put law upon the statute books of this country compelling any religious observance whatsoever is an effort gotten up by, controlled by, and in the interest of Satan. Everyone who by vote or by voice helps on this work of compelling the consciences of men by law is being used as an agent of Satan. It is purely satanic from first to last and the results will be satanic. That is, their efforts will end in utter ruin and destruction. According to the Pharisees, was Christ not from God because he kept not the Sabbath *according to their idea? And the* Pharisees of today are just the same. Furthermore, is Sunday the day which God blessed as Sabbath?

COLD STORAGE

Militants threw hammers at the judge that sentenced them to jail. Real knockers, those girls.

I want but little here below,
My wife a trifle more—
But our small boy when Christmas comes—
He wants the whole blamed store.

"I see the English militants are organizing an army."

"Yes, but what division of it will they put the married women in?"

"That's easy. The infantry, of course."

Just at this time of the year many men go into the northern woods to hunt up a hunk of venison. We prefer the safer method of hunting it in some of the meat stores.

Daily papers tell us that Evelyn Nesbit Thaw has called detectives to her aid because she has been receiving threatening letters.

After seeing her stage performance we can easily under stand that such letters might be written by folks who take life seriously.

AT THE THEATRES

"The Silver King" will be staged here tonight and tomorrow by the students at the Kootenay Business college and other local artists, under the direction of H. Craven.

The drama abounds with thrilling incidents and will lead the audience through imaginary paths of grief, joy and pleasure, eventually bringing them to the desired ending in a grand climax. For a drama teeming with *choice comedy and genuine pathos,* "The Silver King" cannot be equalled.

JACK

Over the mountain trails we tramped,
Good old Jack and I.
Out in the wilds together we camped
Under the starlit sky.
It was not gold I hoped to stake;
My quest was land by stream or lake,
Where the boats pass by.

My dream was of a little farm
Where fruit trees would grow,
And distant mountains lending charm
With their crests of snow.
By the Arrow Lakes I found the spot,
And I bless the fates that cast my lot
Where their soft winds blow.

Jack was only a horse, 'tis true,
But I loved him well.
All that a horse might know, he knew,
And he did excel.
Together we worked to till the soil,
Together we shared the fruits of toil
On the land to dwell.

When we came we found a wilderness,
Did old Jack and I.
Nature garbed in her silver dress,
With her wild beasts nigh.
We'd land to clear and then to break,
Fruit trees to plant and fence to make,
And the years slipped by.

Buildings went up amid the wood
Where once roamed the bear.
Fruit trees bloomed where fires had stood,
And wolves had their lair.
And all the while kind nature smiled,
The clouds gave rain, the sun beguiled,
And Jack did his share.

A horse is fond of liberty;
I humored Jack in this.
To doff the bridle and go free
Is real equine bliss.
He loved to roam about my grounds
And seldom overstepped the bounds
Or did aught amiss.

Now he sleeps by my roses fair
As the days pass by.
He needs not now my daily care,
And I muse with a sigh.
No more I'll here his welcome neight,
He'll share no more my work day,
At rest he shall lie.

PLAN NAVAL AND MILITARY CLUB

Nelson and District Veterans' Association Changes Qualifications for Membership.

A special meeting of the Nelson and District Veterans' association was held in the Veterans' hall in Eagle block to discuss the matter of revising the conditions of membership, which had previously prevented a number of intending members from enrolling. After lengthy discussion it was decided to admit members holding the following qualifications: Possession of active service medals or *seven years' service in the regular* forces, or 15 years in the auxiliary forces, either naval or military.

It is expected by taking this step that the present membership will double or treble in numbers and the association expects to take up the question of organizing a naval and military club, with headquarters in Nelson, during the coming year. Among the latest members joining are George Horstead of the Canadian Mounted Rifles and F. Hodge of the Imperial Yeomanry.

DYNAMITE FOUND NEAR EDMONTON PENITENTIARY

(By Daily News Leased Wire.)

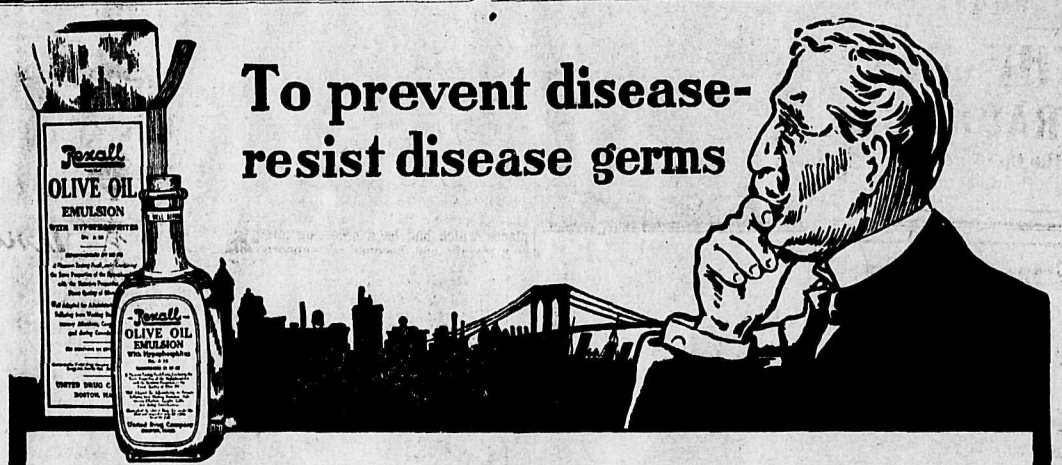
EDMONTON, Alta., Dec. 4.—Preparations for an attempt to blow up either the Alberta penitentiary or e mine operated by the prison for the Dominion government, were discovered, when 21 sticks of dynamite were found hidden in some brushwood by one of the prisoners in charge of Guard Britt.

It is believed that the person who *deposited them on the embankment* intended exploding the dynamite at an appropriate time withe the intention of blowing up the mine underneath or else carrying them to the huge brick prison and try to cause its destruction, incidentally allowing an opportunity for a general jail delivery.

PRESIDENT MAKES CHOICE FOR NEW PREMIER

(By Daily News Leased Wire.)

PARIS, Dec. 4.—The ministerial crisis is a step nearer settlement tonight. President Poincare, after a lengthy consultation, requested ex-Premier Felix Ribot to undertake the task of forming a composite ministry acceptable to all groups of Republicans. M. Ribot at first declined, pleading ill health, but finally consented to consider the matter and give his answer tomorrow. Parliamentary circles, however, doubt that he will accept.



To prevent disease-resist disease germs

SMALLPOX is prevented by vaccination — the injection of vaccine.
DIPHTHERIA is prevented by the injection of anti-toxin.

These enable the body to produce substances which prevent the growth of smallpox and diphtheria germs in the blood.

There are many other diseases, nearly, if not quite as dangerous, and far more common — typhoid fever, the grippe, bronchitis, pneumonia, catarrh, rheumatism, and a score of others — that can be prevented less painfully and more easily by making the body strong to resist germ infection.

Rexall TRADE MARK

Olive Oil Emulsion

(With Hypophosphites)

Is designed for the prevention as well as the relief of disease — by enabling the body to overcome the *germs.* It, at the same time, strengthens and tones the nerves, nourishes the blood, puts the entire system into a proper healthy condition to combat and successfully resist disease.

Every person not in perfect health has incipient germs of some distressing ailment in his or her system.

Cold weather, over-work, excesses of any kind, are liable to bring about just the conditions under which those latent disease germs will get the upper hand, and put you on your back "down sick."

You who are run-down, tired-out, *nervous*—

You who, though not sick enough to give up, *still don't feel good*—

You who are apparently well, and *want to stay well*—

Take home a bottle of Rexall Olive Oil Emulsion today, and use it as a means to *get well and keep well.*

Rexall Olive Oil Emulsion is a real nerve-food tonic.

In this it is different from most other so-called "tonics" which either have no food value and do nothing more than temporarily stimulate you, leaving you in a worse condition than before or, having food value, still are so unpleasant to take that many people can't keep them down.

Rexall Olive Oil Emulsion is pleasant to take. The Hypophosphites it contains tone the nerves. The pure Olive Oil nourishes both nerves and blood.

Rexall Olive Oil Emulsion strengthens you, puts snap and ginger and vitality into your system. It makes you feel better and stronger. It improves your digestion and your bowel action.

It contains no alcohol nor any dangerous or habit forming drugs.

It is guaranteed to be just as represented above — to do all that is claimed above — to satisfy you in every way, or your money back without quibble or question.

Enough for full two weeks' treatment, $1.00.

Sold only at The Rexall Stores — the World's greatest Drug Stores — and always with a full guarantee of complete satisfaction, or your money back.

GROWTH OF WEST IS MARVELLOUS

Toronto Visitor Speaks of Changes in Large Cities During Past Seven Years.

"The west has seen marvilous changes during the past seven years. Vancouver has grown from an old-fashioned seaport town to one of the most modern cities on the continent; I have discovered that the stories about Calgary's growth which have reached the east are not hot air, as I thought; Edmonton has made a remarkable growth; Winnipeg, Regina, Saskatoon, Fort William, Port Arthur—all have changed so much in the past seven years that I hardly know my way around when I visit them."

So declared W. Cowan of Toronto, a member of a large building supply firm, who was at the Strathcona on Wednesday night.

He is very much interested in Nelson and has noted the growth of the city from information received in the east.

CLERGY RECEIVE APPOINTMENTS

Bishop de Pencier Names Those to Fill Vacancies in Kootenay Diocese.

Bishop de Pencier of New Westminster has made the following appointments in the diocese of Kootenay:

Rev. Mr. Snell for New Denver; Rev. Mr. Bridge at Nakusp, in succession to Rev. S. H. Phillimore, who has resigned and will return to England; Rev. Mr. Johnstone to act as railway chaplain on the main line; Rev. Mr. Hughes for Kokanee, in succession to Rev. Christopher Reed, who has been transferred to Enderby.

At the quarterly meeting of the executive of the diocese of Kootenay the mission grants were allocated and Rev. H. A. Solly, organizing Secretary for the diocese, who has made a canvass, reported that several of the places which had been receiving mission grants had become self-supporting. Those present at the meeting were: Bishop de Pencier, Rev. E. P. Flewelling of Cranbrook, Rev. Thomas Greene of Kelowna, Rev. C. A. Procunier of Revelstoke, Rev. E. A. St. George Smythe of Trail, Rev. H. A. Solly, Rev. F. H. Graham of Nelson, C. A. Cock of Cranbrook, George Johnstone, Fred Irvine, Harry Bird and C. R. Hamilton, K.C., of Nelson.

No Company in British Columbia Has Asked for Extension of Time

(By Daily News Leased Wire.)

VANCOUVER, B.C., Dec. 4.—Though more than 2,000 miles of new railway are under construction in British Columbia, with 16,000 men employed on the work, the question of financing the various propositions appear to be in excellent shape.

"No company now building railway lines in this province under agreements with the government has yet asked for a day's extension of time," declared Sir Richard McBride today. "We have no reason to expect either that any company will approach us for an extension. The agreements and policies of the government covering railway matters are being carried out practically to the letter."

These Beautiful Linens Make Presents That No Housewife Will Ever Forget

These linens are just the kind that so excellently lend themselves to Christmas-giving. They are of the highest rank, and, in possession of careful housewives, will be in service for years and years.

Fancy linens are here as well as the more staple sort for table use. The former are in magnificent designs, finely executed; the latter are of the heaviest, most desirable qualities, also in beautiful patterns.

This town seldom has the opportunity of viewing such a large collection of fine linens, so it would indeed be unwise for you to miss it. You will be welcome whether you purchase or not, so be sure to come.

Santa Claus Has His Headquarters in Our Toy Department

Santa Claus has decided to make his headquarters here and we have made him very welcome. For all good little boys and girls he has toys that will please and delight them immeasureably. And all sorts of games, too, amusing and instructive.

Yes, Toyland is at least really open, wide open and it's a mighty pretty and interesting place. Some little boy discovered it the other day and said, "Oh, isn't it just great, mother." We think Santa Claus has done very well. He has arranged all the toys so you can see them so easily and decide what you want.

TO SEND POULTRY TO GRAND FORKS

Entries Are to Be Kept Open Until Close of Show Here—Keen Competition

The second day of the second annual winter show of the West Kootenay Poultry and Pet Stock association did not see the end of the arduous duties of the judge and the greater part of today will have to be spent before the final awards are made. This fact alone is ample proof of the large number of magnificent birds that are on exhibition at the show and again yesterday the exhibition was the source of many expressions of surprise and the prediction was time and again heard that next year Nelson would be the venue of the annual provincial winter show.

The officers of the local show have arranged with the officials of the provincial show, which opens in Grand Forks on Tuesday, to have the entries for birds from the local show kept open until after the judging here is completed and this from the local show kept until after the judging here is completed and this fact was the source of much relief to many of the local fanciers yesterday, who immediately commenced to prepare for a shipment to the Boundary city. It is expected that 75 birds will go from here to the Grand Forks show and they will be put in charge of George C. Egg and Con G. Johnson.

Though the attendance at the show yesterday was a little better than on the first day, yet it has not reached the numbers that the officials of the show would like and which the excellent showing of birds deserves, but the attendance today is expected to surpass the combined attendance of the first two days.

Keen Competition

Yesterday the competitions were particularly keen in the breeding pens. In this division of the White Wyandotte class the competition was particularly keen, there being no less than 10 breeding pens entered, the first prize going to James Williamson of Trail, who scored 186.50 points, second place going to the pen of Richard V. Ramsden of Nelson, whose pen scored 186.16, and the third to Con G. Johnson, also of Nelson, who scored 183.66 points. These pens are of exceptional quality and they are to be entered in the Grand Forks show, it is expected.

In the Barred Rocks four pens were entered, first prize going to Mrs. F. J. Harbinson, Phoenix, with a total of 180.04 points, and second prize to H. H. Pitts of Nelson with a score of 175.91 points. The other two pens were disqualified.

Tonight the 20 young pure bred cockerels, which were donated by the members of the association to be raffled to ticket holders, will be drawn for at the Gem theatre at 8:30 o'clock.

This is the last day of the show and the annual provincial winter show opens at Grand Forks on Tuesday and lasts until Saturday, Dec. 13.

YOUR HAIR MAY BE YOUR FORTUNE

Beautiful hair has made the fortune of many a woman, by adding charm and loveliness to an otherwise plain face. Nothing means more to good looks than beautiful hair. It adds to the attractiveness of every feature. Without it you can't be beautiful; with it you will be at least pretty.

To have beautiful hair, use Harmony Hair Beautifier. It will improve the beauty of your hair, taking away the dull harshness and stringiness, softening and polishing every hair in your head and making it soft, silky, glossy, easier to put up and keep in place, and at the same time giving it a rich and lasting rose fragrance that will delight both you and those around you.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick and thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, $1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories, Toronto, where the celebrated Harmony Perfumes and Toilet Preparations are made. —The Poole Drug Co., Nelson, B. Have a Joy Shave!
Oil Your Razor with 3-in-One

Always do this before and after shaving: Draw your "ordinary" or "safety" razor blade between thumb and forefinger moistened with a little 3-in-One Oil. Oil your strop, too. Then you'll secure keenest edge in quickest time.

3-in-One Oil Prevents Rust from forming on the microscopic "teeth" which form the cutting edge of every razor blade. It's rust that dulls your razor, makes it "pull" and hurt. You can't ever wipe all the lather moisture out of those tiny "teeth"—but 3-in-One Oil will positively ward off any rusting between shaves.

Right now buy a bottle and have perfect shaves! The book with the bottle tells you hundreds of other helpful uses, indoors and out.

For sale at all good hardware, drug, grocery and general stores. 1 oz., 10c; 3 oz., 25c; 8 oz., ½ pt., 50c. 3½ oz. Oil Can 25c.

NEWS OF THE MARKETS

TORONTO LOAN IS FAILURE

Lists for Dominion Issue Close Today —Canadian Pacifics Stronger— Labor Situation Critical

(Western Associated Press Special Cable.)

LONDON, Dec. 4.—The stock markets were hesitating and professional, weakening at the outset but settling later, the bears being cautious and general influences adverse. The railway labor situation is very unsettled. The strike on the Great Western railway appears to be spreading, and the labor leaders are defied by the workers, who decline to handle goods from Dublin. The Ulster crisis is again more prominent. The anti-German outburst in Alsace disturbed the Berlin bourse, but the French bourse was steadier, the political crisis over the new loan being less discussed.

The weekly bank return was disappointing, the Bank of England reserve being $1,171,856 lower on the week. Heavy demands for currency are more than offset by the imports of gold.

Gilt-edged securities were steady. The Toronto city scrip was at 1¼ discount, and shows no signs of rallying. The failure of the issue is ascribed to the issue of the new Dominion loan. The Toronto loan is understood to have been fully subscribed on Monday, but the tenders therefor were withdrawn as soon as the new Dominion issue was announced.

The lists for the Dominion loan close tomorrow.

Canadian Pacific railways strengthened on the weekly traffic gain, and closed below the best in the absence of support from Berlin. Grand Trunk were neglected. Canadian Cars advanced again, the annual statement being considered hopeful.

Argentine rails were weak on the crop news, an indifferent wheat crop being expected. Linseed will be a bad crop and maize good, but late.

Call money was easy at 4 per cent. The bank returns show large payments out by the treasury, but the market balances with the Bank of England are smaller.

Bill rates are hardening, with buyers cautious, owing to the confused domestic and foreign situation.

STOCKS

COPPER SHARES AFFECTED BY UNSETTLED MARKETS

(By Daily News Leased Wire.)

NEW YORK, N.Y., Dec. 4.—After a day of contradictory movements, the stock market closed with the favorite shares showing irregular changes of insignificant proportions.

The drop in prices late in the day was influenced by renewed tension in the money market. Call money advanced 8 per cent., which induced hurried selling of the speculative holdings. Further cuts in steel products and the closing of a comparatively small steel mill were reported.

Copper shares were affected unfavorably by unsettled market conditions abroad.

HIGHER PRICES ON MONTREAL STOCK EXCHANGE

(By Daily News Leased Wire.)

MONTREAL, Que., Dec. 4.—The higher prices established in yesterday's advance were maintained in the local stock market today, and in some instances further gains were recorded, the chief feature being provided by a rise of 2⅝c in Richelieu, which closed at top price of 111.

Bell Telephone, heavy for some days around 139½, rebounded sharply on purchases of a couple of lots in the afternoon, touching 143 in a broken lot transaction and finishing 143¾.

Ottawa Power rose 2 to 166; Laurentide ½ to 167½, and Textile ½ to 83½, closing 83⅝ bid.

C.P.R. was firm today at 225⅞ to 225¾, but fell back in the afternoon to 225½. Brazilian was firm around 86¾, but final quotations were shaded ⅛c from the previous day.

Richelieu, in which transactions footed up more than 1500 shares, rose steadily from 108⅝ at the morning opening to 111 in a fairly active market. In the afternoon it held firm on the advance.

WANT AD HOROSCOPE

DECEMBER 5.

If this is your birthdate, Jupiter, the god of fortune, is your planet. This is a most favorable planet to be born under. Jupiter gives great fortune and honor. Astrologically, Jupiter represents the "changes" of Nature and the tireless, ceaseless motion of the earth. Jupiter represents the law of system within a system.

For these reasons we find that people of this birthdate are great travellers, accumulate wealth, are highly honored in public, able to overcome great difficulties and never are reduced to want or poverty.

The Want Ads will be very useful to many occupations for the coming month. Machinists, clerks, agents and domestic help are all well favored.

DEVITT WAS TOLD ABOUT GAMBLING

(Continued from page three.)

told the chief that he wished things to run along in the same way. He had never heard of the gambling in the Annable block until lately. He discussed it with the chief, who told him that he had asked the sergeant, who had told him that gambling was not going on. The chief had said that if he had any evidence he would pull the man running the game, but he said that he did not believe he could get any. The police magistrate had stated that unless there was a rake-off he could not get a conviction.

The chief said that he had received no written complaints regarding the government of the city.

Mr. McQuarrie called attention to the written reports of the constables and to the effect that the commissioners on Wednesday had asked the chief if he knew of any open games and he had denied any knowledge of such games.

Chief Devitt replied that he could go on the stand and swear that he never saw any poker game.

Mr. Johnstone—But you had the reports there and did not try to get any evidence of the existence of games. I am fully satisfied from the reports of the police and from the comments of the public at large that more gambling had been going on than last year.

At the beginning of the year both he and Mr. McQuarrie had made it plain to the chief that there was to be no gambling and that things were not to be allowed to be any worse than they were in 1912, when open gambling was prohibited.

Was Willing to Pay.

Referring to gambling at the fair Mr. McQuarrie mentioned that he had stopped one game and that the man running it had offered to pay him anything to allow it to go on. The chief and the mayor had told him that the games were all right.

Mayor Keefe and the chief said that the games as they were explained to them were different to those which started up.

Mr. McQuarrie remarked that he could not see how the police department could be run in this way. After what had happened regarding the chief and the gambling reports he did not see how the public could be expected to have any confidence in the department. He was very sorry to state this, but it looked to him that way. He did not consider the chief had acted frankly with the commissioners. He had been willing to treat the chief as a friend, but he had been made to look like a fool.

The chief spoke about "stories on the street," Mr. McQuarrie pointing to the police report books in reply. The chief again said that he had been in the habit of reporting matters to the chairman.

The mayor retorted he had never heard a word about the Annable block game until the Schupp case.

Ald. Johnstone said he had been placed in a peculiar position. He did not go round "these dives" and had to depend on the chief and the result had been that friends had come to him on the street and charged him with being "in cahoots with the whole business." He had desired the city to be run as last year.

After some more discussion the board decided to think the matter over until 4 o'clock today, when a decision as to the action to be taken will, it is the intention, be announced.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

STOMACH SOUR? GOT INDIGESTION ALSO?

"Pape's Diapepsin" Will Make Your Disordered Stomach Feel Fine in Five Minutes—Time It!

If what you just eat is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

CANAL WILL HELP LUMBER BUSINESS

Will Have Effect of Reducing Competition Against Mountain Mills, Says St. Paul Man.

Greatly improved conditions for the lumber industry of the interior of British Columbia, on account of the opening in 1915 of the Panama canal, the large and quickly marketed grain crop this year and the late arrival of cold weather this winter, which has enabled the farmers to carry out an immense amount of fall plowing, which will mean that there will be a large acreage in crop next year, are predicted by James A. Nowell of St. Paul, Minn., president of the Farmers Land & Cattle Company, Limited, of that city and who is heavily interested in timber and other land in the mountain district of British Columbia.

At the Hume Mr. Nowell expressed the opinion that the opening of the Panama canal would have the effect of removing to some extent the competition of coast lumber against that of the mouetain district, as the Pacific coast mills would be able to ship their produce at cheap rates through the canal.

During his trip across the continent he observed that there had been practically no cold weather east of the Rockies and that the farmers in the Dakotas were still busy with the plow.

Another factor which influenced Mr. Norwell in his predictions regarding the approaching better times for the lumbermen of the interior was that he had found that stocks at mountain mills and in the prairie yards were small.

"There's nothing wrong with this country; its time will come. I have been interested in this district for 10 years and I am absolutely satisfied as to the great future which lies before it," he declared.

J. Cavendish of Nelson, who is touring the Arrow Lakes this winter with his moving picture machine is supplying a much-felt want. He visited Edgewood Saturday, Nov. 29th and gave an exhibition in the Banting hall at night which was a most creditable production and afforded much satisfaction to all those fortunate enough to be present. Mr. Cavendish, who has one of the best travelling outfits obtainable, is to be congratulated on his enterprise.

WEST PAYS FOR EASTERN BURDEN

(Continued from page one.)

vested there. If the cost of construction west of Port Arthur could be obtained, it would be found that the railway had a comparatively small amount invested there because of subsidies, land sales, etc., which had helped out in the west.

"We do not suggest that these people, who were pioneers in railroad venture, who invested money ($198,000,000) in this venture and assisted in the development of the country, should not be entitled to 10 per cent on their investment, but when they get that they should be subject to this body, which should see that they do not earn an inordinate profit over this amount," said Mr. Bicknell. He went on to state that it would be of no use to put in any more figures till the board decided what view point it would adopt when it could require railways to keep their accounts and to furnish them.

Chairman Drayton: "There has never been any attempt to lay down in this country what a fair and reasonable rate is."

The question of the rates, said Mr. Bicknell, could not be fixed by any hard and fast rule in a big country like Canada. Multitudinous exceptions would arise when the tariffs were actually being made.

Capital Cost Small

Mr. Bicknell then entered into a calculation to show that after making allowance for the value of the lands sold and other subsidies received, the net cost to the Canadian Pacific railway of the construction of its western lines was approximately $52,000,000. Land sold up to the present time had brought in $90,000,000, and there still remains 6,000,000 acres to be sold. "We have not attempted to work out a similar statement in regard to eastern lines except by way of comparison," said Mr. Bicknell. "No one will dispute," said the government counsel, "that one of the predominant factors in the fixing of the rates must be the cost of service. The only question which remains open for the board to decide is whether the segregation of freight and passenger revenues and expenditures made by Mr. Muller are correct or approximately so. My contention is that it as nearly a correct deduction as is possible with the figures at our disposal."

Mr. Bicknell argued that in the Vancouver rate cases the Canadian Pacific railway had submitted statements which contained a segregation of passenger and freight revenues.

This was indignantly denied by E. H. Chrysler, counsel for the Canadian Pacific railway.

Winnipeg Counsel Supports

Isaac Pitblado, counsel for the Winnipeg board of trade, came to the support of the government counsel. He declared in the Vancouver case the railroad had put in an exhibit based on the segregation of cost of service. "There must be segregation of the passenger and freight revenues on some principle or another," declared Mr. Bicknell. "There is no way of escaping from it."

Government counsel declared that the standard of the rate charges in the west had been fixed largely as a matter of bargaining. The railways have collected all the people will pay.

"All the traffic will bear," suggested Mr. Drayton.

"The difficulty now is to get the Canadian Pacific railway to come down," said Mr. Bicknell. "This is probably because it has no effective competition. The only way the people can secure redress is to come to the railway board and ask it to arrive at some system which will not yield excess profits for the company."

Chairman Drayton interrupted to point out that on two occasions at least, the railways had agreed to a reduction in the rates—when the Manitoba government entered into a certain agreement with the Canadian Northern railway, and when the Dominion government made a contract with the Canadian Pacific railway in regard to its Crows Nest Pass line.

"Neither of those agreements touched class rates. They dealt with commodity rates only," declared Mr. Pitblado.

"The Manitoba agreement covered all classes of rates," remarked the chairman.

Quality First

OUR DIAMOND RINGS ARE A SAFE INVESTMENT

WHY?

Because we buy only the First Quality Stones and fine grade diamonds have steadily increased in price for years. Mr. Patenaude personally selected a large stock of loose stones when in the East and Europe, and, furthermore, our present stock was purchased before the recent advance in prices. Therefore we are positive we can give you an advantage—the best values.

Facts About Settings

It is important that a gem or gems should be set to the very best advantage. Our jeweler is an expert on diamond setting and mounting and we endeavor to manufacture artistic and unique settings—something out of the ordinary. We have without a doubt been successful, having now in stock a magnificent line of rings, with beautifully designed platinum and carved settings. Ask to see our new carved single stone settings.

NEAR FIVE HUNDRED FROM CHARITY BALL

Net Proceeds Amount to Four Hundred and Seventy-five Dollars—Committee Expresses Thanks.

Net proceeds of the Charity ball on Tuesday evening, which will be spent on charity, amount to $475.50, after all expenses are paid, according to a statement made public by the committee yesterday. Proceeds of the ball and donations amounted to $511; expenses were $35.50, leaving $475.50.

The members of the Charity organization wish to thank the following: The News Publishing company, for publicity and programs; W. H. Jones, for tickets; Cinderella club, for pencils; McDonald Cartage company, for moving piano; Pythian Sisters, for playing cards; Knights of Pythias, for hall; I. G. Johnson, for orchestra; the Gem and Starland theatres; the general public for their donations and all those who helped to make the ball a success.

There will be a meeting in the offices of McQuarrie & Robertson this evening at 8 o'clock for the purpose of discussing the proposal to form a Conservative association for the southern and western suburbs of Nelson.

Between 50 and 60 were present last evening when the choir of St. Paul's Presbyterian church entertained its friends to a social evening in the Oddfellows hall. A program was rendered consisting of games and music and during the evening a light luncheon was served.

SCHUPP GETS TWO YEARS IN PRISON

Pleads Guilty to Theft From Taylor Milling & Elevator Company's Nelson Branch.

Pleading guilty to stealing $1,085 from the Taylor Milling & Elevator company's Nelson branch, Leigh Schupp was yesterday sentenced by Police Magistrate Irvine to two years in jail.

Schupp will be taken to the penitentiary at New Westminster.

In chambers yesterday the application of A. M. Johnson for permission to put in additional evidence in the case of Lofsted vs Sostad et al was granted. James O'Shea appeared for the defendants. In Sturgeon vs Mc Donnell, J. H. Grant (James O'Shea) was granted an order for payment of moneys out of court. E. P. Dawson (E. A. Crease) in Busk vs Stewart secured an order to amend terms of advertisement. In Consolidated Optical company vs Douglass E. C. Wragge appeared for the defendant, Mr. Johnson for the plaintiff, and Fred C. Moffatt for third parties. An application that the action stand until the place of trial of the suit Douglass vs Douglass be decided upon was granted.

Semi-Ready Store

Did it ever occur to you that you were not doing yourself justice by buying other clothing than Semi-Ready?

You will say Why?

First, because Semi-Ready is the best clothing in America.

Second, it is tailored just a little better than others, and last, but not least, you pay just the same price for a suit of Semi-Ready clothes here as anywhere else in Canada.

Think! Buying at Gilker's means buying at the same prices as you would in Montreal. Plain figures sewn inside the pocket will prove it to you.
