CANADIANS SCOTCH OF NEW WORLD

Distinguished Gathering at Canadian Society Banquet

BRYAN'S PLEA FOR PEACE OF NATIONS

Canadian Minister of Finance Delivers Eloquent Speech.

(By Daily News Leased Wire.)

NEW YORK, Dec. 10.—Cabinet ministers and leading citizens of both countries, some 400 Canadian residents of New York, attended the fourteenth annual dinner of the Canadian society tonight. William Jennings Bryan represented the Wilson administration, while Hon. W. T. White, the Canadian minister of finance, was the Canadian government's envoy. In addition, Sir John Willison, Hon. W. L. Mackenzie King, Justice W. R. Riddell and F. B. Featherstonhaugh, of Toronto, and Alex D. Fraser, of Montreal, came to the city or the occasion, while Governor Taylor, of New Jersey, Bishop Courthnay and representatives of the St. George's, St. Patrick's, St. Andrew's, St. David's and other societies, formed the American representation. The British embassy was represented by Viscount Camden and Consul-General Courtnay Walter Bennett, R. L. Norsworthy, vice-consul, and John Joyce Broderick, the lately appointed consul at Amsterdam, were members of the consular body in attendance.

Mr. Bryan delivered an eloquent plea for international peace, which was supplemented by a powerful address from Mackenzie King for social justice as well. In his reply to the toast of "The Empire," Sir John Willison stirred his hearers when he frankly analyzed some of the feelings of the Canadians toward the United States, and pointed out that the differences between the two countries were merely those that might be expected to exist among members of one family.

Rev. Dr. Eaton, president of the society, was toastmaster, and with his usual humor, recalled many of the scenes in Canadian life to the sympathetic audience. A big ballroom at Delmonico's was decorated with British and American flags, while the table decorations were small Canadian flags. Wives and daughters of the officers were in the galleries for the speeches.

Scotch of New World

Sir John Willison spoke first, and began by calling the Canadians the Scotch of the new world. Only the law which prevented anybody born outside the United States from becoming president had kept a Canadian out of the office, he believed. This, he declared, proved the prophetic vision of the framers of the constitution. With a mere passing reference to reciprocity, Sir John dwelt on the benefits of the empire to Canada and the peace of the world. He expressed regret that the original 13 states had ever broken away, for with the whole continent under one flag there would be a power that would simply compel peace throughout the world.

Speaking of the relations between the two countries, Sir John said that Canadians, at least some of them, might look with some complacency on the minor difficulties of the United States. "But if this great neighbor of ours should ever be in real trouble," he declared, "we would come with full hearts and full hands for any assistance we could render. We glare at "Old Glory" when it flies with too great complacency over summer cottages in Canada, but we feel the thrill of a common pride and a common kinship when it is carried along our streets in those fraternal celebrations so common to the two countries. We cherish certain inherited prejudices against Americans collectively, and yet overwhelm Americans individually with attention and regard. In short, on both sides of the boundary we have all the foolishness and all the fondness for each other which give interest and variety to family relationships. Do we ever reflect that in so far as there is misunderstanding between these two countries, the causes lie far back in history. There is nothing so fatuous and foolish as stirring the ashes of dead fires and cherishing the grievances of other countries."

He concluded: "The only conquests the British empire desires are moral and commercial ones. For these objects we can unite and bring fresh honor to the institutions we cherish and the flags we reverence. 'And all nations shall call you happy; for ye shall be a delightsome land, saith the Lord of Hosts.'"

Secretary of State Bryan recalled the last elections in Canada.

"I spent 10 days there then," he said, "and I was led to believe the country would be ruined, which ever way the election went, but I reassured them by pointing out that I had been defeated three times and this country still kept on."

Mr. Bryan took up his favorite theme of peace among the nations. He was proud, he said, to be a part of the administration that offered

WINNIPEG MERCHANT MILLIONAIRE

Fourteen Thousand Dollars Left to Winnipeg Charities—Bulk of Fortune to Son

(By Daily News Leased Wire.)

TORONTO, Ont., Dec. 10.—The $1,880,679 estate of the late Hyman Miller, wholesale hardware merchant of Winnipeg, who died in Los Angeles Jan. 3, 1912, has been filed for probate in the surrogate court.

The sum of $92,202 is held within the province of Ontario. Members of the family in Toronto receive cash bequests ranging in amounts from $540 to a life interest in $10,000, and the use of the house here to his mother.

The sum of $14,000 is left to charity, many institutions in Winnipeg benefitting. The residue of the estate, amounting to about $1,121,470, is left to his son, C. A. M. Miller, now at Cambridge university, England.

The institutions benefitting are: Associated Charities, Winnipeg, $1,000; Winnipeg General hospital, $1,000; St. Boniface hospital, $1,000; Winnipeg Hebrew Free schools, $1,000; Winnipeg Jewish Orphan asylum, $1,000; Winnipeg Old Folks' Jewish home, $1,000; Sick Childrens' hospitals, Winnipeg, $500; Margaret Scott Nursing mission, $500; Convalescent home, $500; Old Folks' homes, $500; Anti-Tuberculosis society, $500; Children's Aid, $500; Day Nursery, $500; Free Kindergarten, $500; Knowles Boys' home, $500; Winnipeg Boys' home, $500; Children's home, $500; Free dispensary, $500.

DEPORTATION AGAIN ORDERED

Hindu Released by Court Rearrested —Not Permitted to Sleep on Steps of Court House.

(By Daily News Leased Wire.)

VANCOUVER, Dec. 10.—Justice Macdonald decided in the supreme court today that Hernan Singh had not properly been ordered deported because only six members of the immigration board of inquiry had dealt with his case when the act required that the full board of seven should sit.

Just as his lordship announced this decision Malcolm R. J. Reid, immigration officer, arose and intimated that he expected to re-arrest Hernan immediately, in order that the full board could handle his case.

The court asked Mr. Reid to see to it that he had any intention of this kind, that Hernan was arrested beyond the precincts of the court.

Mr. Reid agreed to the proposal at once.

Hernan Singh departed, technically a free man, but got no farther than the corridor downstairs, where nearly 200 of his countrymen had gathered. After a consultation Hernan decided to sit down for awhile. An immigration official waited nearby ready to arrest him.

At 4 o'clock a leading Hindu informed a newspaper man that no opposition would be shown to expelling the Hindu from the building at 4 o'clock, but that the intention was that he should stay on the steps indefinitely. At the hour mentioned several of the Hindus went for a mattress, on which it is proposed that Hernan might spend the night.

The Hindus figured that no attempt at re-arrest would be made until the the Hindu is actually out of the courthouse grounds.

On the other hand, Janitor James McCran seemed to think that he did not want any campers on his front steps and talked of sending for the city police to remove Mr. Hindu if he persisted in making his bed there.

A leader amongst the Hindus declared that they would have an automobile on hand and he believed that in the mix-up of getting him out of the building his followers could take Hernan in the motor and whisk him off.

At 5 o'clock, however, the authorities were ready to meet any trouble. Several provincial police came in and the city police patrol wagon, filled with officers, arrived on the scene.

The janitor led Hernan to the front door and closed the doors. Hernan took a seat on the steps, but the provincial police hurried him along through the crowd, and a moment later he was on the public street. There the immigration officials made the arrest.

In the meantime the full immigration board of seven members had deliberated on his case and again ordered his deportation.

VANCOUVER, B. C., Dec. 10.—Premier McBride states that the Dominion government order-in-council prohibiting the influx of labor into British Columbia was with the concurrence of the British Columbia government. The premier did not at the present time care to discuss the suggestion that the order-in-council had been brought about by reason of the Hindu trouble, which it will mitigate, but declared that in shutting out foreign labor for the next few months the Dominion regulations would accomplish a great deal. The premier said: "Because of a very small program of railway development in the neighboring states, so far as the next few months are concerned, it was felt that there might be a tremendous immigration of workers to this province before the spring season, and since reports here are to the effect that British Columbia railway work is well manned, it was considered wise to take the precautionary measure just put through at Ottawa.

"It will be noted that the order-in-council is for a stated period, expiring March 31," added the premier. In the spring it must be expected that when new work opens up any need for outside help can easily be cared for."

REVELSTOKE TO PACIFIC OCEAN

Navigability of Columbia Found Practicable

FLAT BOTTOMED BOATS NECESSARY

Miles of Dredging Necessary--Provides New Grain Route.

(By Daily News Leased Wire.)

CALGARY, Dec. 10.—The government engineers who have been exploring the Columbia river to ascertain the feasibility of this river as a western wheat route to Portland have stopped work on account of cold weather. They state that the reports they have submitted on their investigations have been favorable, and they were of the opinion that the river could be made navigable from Revelstoke to the Pacific ocean. Flat-bottomed boats would have to be used exclusively and in many places the river would have to be dredged for several miles.

The United States government has engineers working on the lower part of the river, and it is the opinion of the Canadian engineers that in the next four years the Columbia river will be made navigable and that the largest part of the wheat trade from the western prairies will go that way to the foreign markets.

DID NOT DIE FROM EFFECTS OF BLOW

Manslaughter Charge in Connection With Death of William Haliburton Dismissed in Winnipeg.

(By Daily News Leased Wire.)

WINNIPEG, Man., Dec. 10.—Sir Hugh John Macdonald, in dismissing the case against Henry H. Howard of Minneapolis, charged with manslaughter in connection with the death of William Haliburton, expressed it as his opinion, after going carefully over the evidence brought out at the inquest and in the police court, that Mr. Haliburton did not die from the effects of the blow delivered, but from diseased arteries.

Medical evidence went to prove that deceased could not have lived more than 12 months under the most quiet circumstances, any excitement endangering his life.

WILL NOT RESIGN SEAT FOR FIELDING

(By Daily News Leased Wire.)

MONTREAL, Dec. 10.—Hon. Robert Bickerdike, M.P. for St. Lawrence division, today denied that he contemplated retiring to make room for the election of Hon. W. S. Fielding. "I intend to take my seat at Ottawa when parliament opens next month," he added.

"Then there is no foundation for the published rumor that you are about to resign your seat in the house."

"Not the slightest. We were having a laugh about it last night at the Fielding banquet."

JUMPS THROUGH WINDOW OF TRAIN

Negro Makes Second Escape from Custody—Convicted of Burglary at Redcliffe

(By Daily News Leased Wire.)

CALGARY, Alta., Dec. 10.—Sam Sanders, a negro, made his second escape from custody this morning while in charge of the mounted police officers, who were bringing him from Brooks. Sanders had been convicted of burglary in Redcliff some time ago, and was sentenced to two years in the penitentiary at Edmonton. A few days ago he made his escape from the mounted police barracks at Medicine Hat and was recaptured at Brooks yesterday. Just after the train left Ogden this morning he went to the lavatory and jumped through the window and up to the present time has not been recaptured.

COMMITTEE ON FOREIGN AFFAIRS

Lecture on Dominions and Navy Listened to by Veterans—Imperial Naval Board.

(Canadian Associated Press Cable.)

LONDON, Dec. 10.—Veteran officers of both services assembled at Whitehall today to hear a lecture by Lieut. Horden on "The Overseas Dominions and the Navy."

"I believe," he said, "one fleet is necessary and we can not get it either by contributions or by separate fleets. We can not expect the United Kingdom to continue much longer to declare for war or peace without giving the dominions the right to share in the decision. An imperial committee for foreign affairs is not unthinkable. If we think we at home here have the best men, we need not hesitate to ask the dominions to work with us; if, on the other hand, one of them has a better man than ours, we ought to be glad of his help.

"The overseas dominions would have a hard task to provide money for effective fleets and a very much harder task to find the men to man them. Giving them credit for all possible good will, it is very unlikely that they will be able to provide a squadron of the line in less than 25 years.

"If a reorganization of the admiralty were brought about it would be comparatively easy to fit in the other parts of the empire, because each would have its own navy board and could nominate naval officers of the staff at the imperial admiralty. Thus both we and the overseas dominions would have control over the greater part of the money we severally provided for naval defence. We should all be represented on a body responsible for the strategic distribution of the fleet."

CANADIAN ORANGEMEN SEND AID TO CARSON

(By Daily News Leased Wire.)

LONDON, Dec. 10.—Amongst the recent communications to Sir Edward Carson are resolutions of support from Waldensan Orangemen, Saskatchewan, and Cornwall Orangemen, Ontario. A resident of Winnipeg sends $50 "just by way of encouragement."

ELIHU ROOT WINNER OF NOBEL PEACE PRIZE

(By Daily News Leased Wire.)

CHRISTIANA, Norway, Dec. 10.—The Nobel peace prize for 1912 was conferred today on Senator Elihu Root of New York, and that for 1913 on Senator Henri Lagontaine of Brussels, Belgium, who was formerly president of the permanent international peace bureau of Berne.

CHICKENS RAISED BY ELECTRICITY

At Double Speed With Half Cost of Food

TO REVIVIFY COLD STORAGE EGGS

May Hasten Human Development and Eliminate Infantile Ailments.

(Western Associated Press Special Cable.)

LONDON, Dec. 10.—T. Thornbacker, inventor of photo-telegraphy, lecturing before the Royal Society of Arts, reported the discovery of an electric current which increases the flow of the nutrient through the capillaries by reducing viscuosity. According to Mr. Thornbacker, there would be no difficulty in raising chickens at double the usual speed and at half the cost of food by the new process. His discovery, he says, may lead to electrical hastening of human development, and to the elimination of infantile ailments. He proposes to attempt to revivify stale eggs by electricity and thus make valuable eggs which have been kept too long in cold storage.

The Standard, after remarking that there has been no more important discovery since the Chinese discovered the roast pig, as told by Charles Lamb, pictures the woes of parents whose children have been forced by electrical treatment, while the family income has failed to grow commensurately with the growth of the artificial growth of the children.

SHIPS AND AUTOS PROPELLED BY RADIUM

(Western Associated Press Special Cable.)

LONDON, Dec. 10.—C. E. S. Phillips, lecturing at the Cancer hospital, suggested the possibility of the employment of radium for ship and motor car propulsion. He pointed out that radium rays have a velocity of 180,000 miles a second and that a gramme of radium diminishes only 50 per cent in 1,750 years, meanwhile emanating 3,600 horsepower. A ton of radium, he declared, possesses radio energy equivalent to 150,000 tons of coal. The lecturer performed numerous remarkable experiments to demonstrate the propulsive power of the radium rays.

CUSTOMS OFFICIALS SEARCH BAGGAGE FOR ARMS

(Canadian Associated Press Cable.)

LONDON, Dec. 10.—Following the proclamation forbidding the importation of arms to Ulster, all passengers' luggage was searched at Belfast today, nothing incriminating being discovered. It is worth noting that the search was conducted by the customs authorities and not by the police, thus leaving it open as to whether the search was directly aimed at discovering arms or whether it was merely for other articles of a contraband character.

TEN LIVING IN SINGLE ROOM

Overcrowding in Toronto Increasing at Alarming Rate—Ten Thousand More Houses Needed

(By Daily News Leased Wire.)

TORONTO, Ont., Dec. 10.—Tenement conditions are daily growing worse in Toronto, according to the monthly report of the medical officer of health, issued today. Overcrowding, consequent upon congestion, is increasing at an alarming rate. There are at least 3,000 houses in the city occupied by from two to six families. As many as eight and 10 families are living in ordinary 10 or 12 room houses. Families of five, six and as many as 10, are living in single rooms, damp cellars and basements.

At least 10,000 additional houses are required at low rentals. There are 12,000 houses fit for condemnation, which in the presence of winter can not be done.

In the 630 lodging houses in the city there are over 1,800 lodgers in excess of the public health act of limitation. Those requiring lodging accommodation are crowding into the city and by spring the number will be nearly double what it is at present.

BANK ROBBER IS CAPTURED

Admits Robbery of Bank of Montreal—Fifteen Hundred Dollars Recovered by Police.

(By Daily News Leased Wire.)

WINNIPEG, Dec. 10.—John Krafcenko, the notorious criminal, who is charged with robbing the Bank of Montreal at Plum Coulee, Man., last Wednesday, and murdering H. M. Arnold, the manager, was captured this morning at a house on College avenue, St. Johns, where he was known as a student by the name of Andrews.

The house had been watched all night by the police, who learned that Krafcenko was expecting a visitor this morning, and desiring to take their man as quietly as possible, kept the appointment. A cordon of 20 police were on hand to make the arrest, which was effected without a struggle.

"It's all up, I guess; I'll come quietly. I did not intend to shoot, anyway," he said.

Arriving at the police station the prisoner asked for a private interview with the chief of police, in which he made a long statement regarding the crime with which he is charged.

Since being hunted, Krafcenko has assumed the name of Dr. Fairchield, under which name he treated two patients, and Andrews, the student. It is said he intended to make his escape in the disguise of a woman.

Krafcenko admitted the holding up of the bank and informed the police that they would find $1,500 in bills under the fence at the rear of the house in which the arrest was made, which the police have since recovered.

Trial Sensational.

John Krafcenko will be formally arraigned in court tomorrow, charged with the murder of Manager H. M. Arnold of the Bank of Montreal at Plum Coulee, and with the robbery of the bank. The trial promises to be sensational, as there are a number of points which are to be cleared up and it is understood there are witnesses who will tell on the stand many things which have not yet been made public. Among the witnesses for the prosecution will be William Dyck, the man who drove the car in which Krafcenko escaped from the scene of the shooting.

It was announced by the Bank of Montreal today that the branch of the bank at Plum Coulee will be closed almost immediately. This branch has been open for about one year.

FIRST TRAIN PASSES THROUGH MONTREAL TUNNEL

MONTREAL, Que., Dec. 10.—Mount Royal having been pierced from side to side, from the building of the Canadian Northern railway in the early hours today the first train bearing a representative gathering of Montreal citizens was run through from the west portal to Dorchester street in the afternoon. Work was practically suspended during the latter part of the day, the event being celebrated at the Dorchester street office, where the guests of the company were entertained and in a garage at the rear of the building, the tunnel workmen held a festival of their own. At 2:30 this afternoon the guests of the Canadian Northern assembled and were taken by automobile to the west portal of the tunnel, situated in the model city. There all embarked in small tunnel cars and commenced the first train journey through the mountain. The start was made at 3:45 and at 5 o'clock the party emerged from the Dorchester street shaft.

"Look! Here I Am!"

That is substantially the message of each and every advertisement in this newspaper today.

"Here I am—

"Look me over and see for yourself."

There is something for every need — something wanted by somebody.

Is there another thing on this earth with such a wonderful and universal appeal as advertising?

Is there any feature in this newspaper that is really more full of human interest than the messages of commerce?

It is an education in itself to read the advertising—an education in what is best in this little old world of ours.

INJUSTICE TO BRITISH COLUMBIA

Counsel Argues Against Terminal Change Burden

CHRYSLER SAYS RATES REASONABLE

Declares No Case of Discrimination Against West Has Been Shown.

(By Daily News Leased Wire.)

OTTAWA, Dec. 10.—A vigorous defence of the existing rates from the Canadian Pacific railway was presented by F. H. Chrysler, senior counsel for the railway, in a carefully prepared brief delivered before the railway commission today. Mr. Chrysler completed his case shortly before adjournment, the remaining time being taken up by L. G. McPhillips, counsel for British Columbia, who has still some time to go before his case is finished.

In opening, Mr. Chrysler declared that the contentions of the Canadian Pacific railway had been based on its own record, and not by setting up conditions of the rival roads, which might not show as favorable results. He made the following statement of the Canadian Pacific railway contentions:

"The facts established by the Canadian Pacific railway show that the rates charged in the west are not unreasonable because, first, no case has been made out of such exceptional net earnings as can induce the board to act because the railway company has abnormal earnings. The evidence shows that the net return on money invested does not exceed 6½ per cent.

Second, no case of discrimination is made out by comparing the west with the east.

"(a) The conditions which govern the establishment and maintenance of the western rates do not apply in the west.

"(b) Because the conditions in the west, when compared with the east, must be based on the traffic conditions of the whole western country as compared with the eastern section, and not by comparing the traffic conditions of the west half of the Canadian Pacific railway with the east. In the west the Canadian Pacific railway has been more or less alone, while in the east it is established under much less favorable conditions. If the whole east is taken against the whole west, the showing as to density of traffic and diversity of the traffic largely alters the showing that results from comparing the two sections of the Canadian Pacific railway.

"(c) The business of the Canadian Pacific railway can not be divided into two parts for the purpose of making a comparative rate. There is no possible way of working out any result in figures that can be relied upon to form a basis of rates.

"(d) The solitary position of the Canadian Pacific railway in the west is at an end, two rival companies being ready to share the traffic that has entirely gone to the Canadian Pacific railway in the past. It is improper to say what the effect of this will be in the earnings. Neither is it possible to say what effect on the traffic conditions will be brought about by the opening of the Panama canal."

Continuing, Mr. Chrysler said:

"The rates charged by the Canadian Pacific railway in the west are fair and reasonable charges for the services performed for the shippers. There is a large spread in rates that may be regarded as reasonable. The question must be what might a tribunal find is a proper charge for a carrier to make against a shipper for the service performed, i.e., on value of the service. So long as the railway keeps its charges within the realm of reasonableness the board has no jurisdiction to interfere with such rates except on the one ground of discrimination, and discrimination does not exist under the circumstances of this case.

"The inevitable result must be that the total tonnage carried by the three companies will be more equally divided than heretofore and the predominate position occupied by the Canadian Pacific railway by virtue of its being the only transcontinental railway materially changed.

"The tonnage from the west itself will also be affected by the establishment of the Grand Trunk Pacific and Canadian Northern railway and their respective branches, which will continue to radiate into the territory now served by the Canadian Pacific railway.

"The growth of the country will have to be enormous and rapid to offset within any reasonable time the disadvantage to the Canadian Pacific railway by reason of its having to share this class of traffic with the two new lines an their subsidiary companies. The board can not adjust rates because of anticipated and problematical changes in traffic.

"Some three years ago the Canadian Pacific railway embarked upon a policy of extension to existing lines and facilities, double-tracking, tunnels, etc., which involved an appropriation of huge sums of money. The policy was adopted when the greatest devel-

GOOD ROADS IN KASLO DISTRICT

Ninety Thousand Dollars Expended —Many Miles Added to Road System This Summer.

(Special to The Daily News.)

KASLO, B. C., Dec. 10.—Another $90,000 has been expended on roads within the Kaslo district and a splendid system of trunk roads planned by *the provincial government five years* ago have had many miles added to their length this summer," said J. D. Moore, road superintendent, at his office today. Mr. Moore then gave an account of the work carried on during the season just closed. The plan is to start roads where they are most needed for mining and other development and extend them each year until they meet, forming one comprehensive system throughout the country. All the roads are built in a most substantial manner. Many trails are built, all of them to wagon road grade, so that they may be widened without losing the work already bestowed on them.

At Ainsworth the road extends six miles south to No. 1 mine and 2½ miles to the Highland mine. Lateral roads totaling five miles in length are connected with these roads.

Twelve miles of the Kaslo south road have been completed, and for a picturesque road this one is hard to beat. This road comes within three-quarters of a mile of Ainsworth north and passes through the prosperous settlement of Mirror lake and a country rich in game, mineral, fish, fruit and well adapted to duck or chicken culture.

The Kaslo north road connects at Kaslo with the system and follows the lake for six mines to Col. Kemball's and has two laterals 2½ miles in length.

The Kaslo west road goes one mile in that direction.

Kaslo and South Fork roads extends up Kaslo river to the South Fork station, 4½ miles, where it connects with roads and trails leading to Bear lake, Whitewater, Three Forks, New Denver and Sandon. It connects at South Fork station with a road which leads up the south fork of Kaslo creek 15 miles, when the Slocan system is met with, leading to Slocan City, on Slocan lake, from which point trails and roads run to each of the principal mines.

The Utica road is six and one-eighth miles long, connecting the mine with *the Canadian Pacific railway at a* point 12 miles from here.

The Mirror Lake road runs from Kaslo to Fletcher creek along the lake. The Arcola spur connects with it at the ice plant and extends back three-quarters of a mile from the lake.

The Gardner and Houston road is on the east side of the lake and 12 miles from Kaslo to the north. This road serves a promising ranching district of about 2,000 acres. Messrs. Ott, Gardner, Houston, Lindsay, Johnson and Holmgren are conducting ranching operations in this part. The road has two spurs.

At Argenta a road to Denoreaz was built this summer, 2½ miles long.

The Howser lake east road runs from Argenta, on Kootenay lake, to Matthew Bros. ranch on Howser lake, 18 miles dstant. A good part of this road is a five-foot road, and part is a four-foot trail built to grade, with a view to widening it out.

The meadow creek road takes the centre of the Meadow creek valley and opens up rich meadow land, as well as timber and fruit lands. Mining for placer gold and quarrying for marble is carried on in this country by American and eastern capital.

The Trout lake and Beaton road connects the Kaslo and Revelstoke districts and with existing road systems leading to Beaton, Cambourn and Comaplix.

A road runs from Trout lake to Ten-Mile and Ferguson.

Crawford Bay is about the centre of the east shore of Kootenay lake *and is the most populous farming community*, as well as one of the most prosperous ones on the Kootenay lake. The road runs from the wharf on the east side of the bay 2½ miles to Canyon creek, which it crosses and proceeds another seven miles, making a total of 9½ miles. Trails lead from here to St. Mary's, in East Kootenay, to Gray creek, and to Monroe's point on Kootenay lake. Connection is made to Lynchville, Pilot Bay, Kootenay Bay and Riondel. Many lateral roads and trails penetrate the country. The growth of this settlement can be measured by the fact that 70 people recently turned out to a dance. They have an up-to-date hotel, a school and a sawmill.

TORONTO DOCTOR DEAD

(By Daily News Leased Wire.)

TORONTO, Ont., Dec. 10.—Dr. John Carena, one of the best known physicians in Toronto, died here today. He was the eldest son of the late Principal Carena, of Knox college.

CANNING COMPANY ELECTS OFFICERS

New Building at Grand Forks Nearly Completed—Machinery Ordered from East

(Special to The Daily News.)

GRAND FORKS, B.C., Dec. 10.—At a meeting of the stock holders of the Grand Forks Canning company, held in the Davis hall, the following, officers were elected: President and managing director, Daniel McKinnon; vice-president, C. A. Wallace; secretary-Treasurer, J. A. McCallum. The board of directors elected were: Daniel McKinnon, C. A. Wallace, Jeff Davis, C. E. Henniger, James McArdell, J. H. Patterson and D. J. McDougal. J. H. Wilson was appointed superintendent of the company and F. R. S. Barlee auditor. The new cannery building will be completed ready for the machiner yby the end of this week and will be the most modern structure for that purpose in the interior. J. H. Wilson, who planned the building and superintended its construction, will leave shortly for the east to purchase the necessary machinery, which he expects to have installed and the plant fully equipped for business by March 1. In the meantime, contracts are being made with local ranchers and fruit growers for all the vegetables and fruits they can produce and on that account it is expected more acreage will be put under cultivation next year than ever before.

H. E. Waby *from Enderby, who specializes* in breeding the famous Buff Orpington and Barred Rocks, is in the city attending the provincial poultry show.

Mrs. C. A. Wallace, accompanied by Mrs. Eva Trahan, left on the Great Northern this morning for Spokane, where they will spend the winter. Mr. Wallace will join them in about two weeks.

SLOCAN CITY BUILDING WILL BE MOVED

Agricultural Building Making Good Progress—Doctor to Visit School —Addition to Hotel.

(Special to The Daily News.)

SLOCAN CITY, B. C., Dec. 10.—A Madden is preparing to move his cottage on the lot adjoining the Madden house, up the street to his lots next the Methodist church. He expects to have it ready for the family to move into early in the new year.

The frame of the agricultural building is up and much credit is due the men who have done the work.

The school board deemed it necessary to have a doctor visit the school and for that purpose Dr. Rose of Nelson was called.

Mr. and Mrs. Walter Anderson of Lemon Creek arrived here on Saturday from Nelson with their young son. Mrs. Anderson and baby will remain in town for a week, the guests of her father and mother, Mr. and Mrs. J. M. Rae, before returning home to Lemon Creek.

H. L. Fife has a crew of 10 men, under the management of Fife & Macvannell, working on the new addition to his hotel, the Slocan.

Mrs. Harry Pendry is convalescent in the Kootenay Lake hospital and expects to be home in a few days.

CHRISTMAS ENTERTAINMENT AT SLOCAN CITY

(Special to The Daily News.)

SLOCAN CITY, B C., Dec. 10.—D. B. Latty, *principal* of the school here, and Miss A. M. Winterbotham, teacher of the junior classes, are teaching the children for the Christmas tree entertainment, which is to be held in the I.O.O.F. hall on Christmas eve. The other committees are also doing their share of the work.

A dance was held in the I.O.O.F. hall on Monday evening by the young people of the town. Some of the boys were down from the Ottawa mine for the occasion. Mrs. Robert Graham furnished the music.

Mrs. G. B. Garrett came down from New Denver on Monday, where she had been visiting friends for the last few weeks. She was entertained at lunch by Mayor and Mrs. Anderson and left on the train for Greenwood, via Nelson, to join her husband, who is Canadian Pacific agent at that place.

Jack Moen was down from the Black Prince mine yesterday and is taking another man back with him to add to their force.

ROSSLAND NEWS

(Special to The Daily News.)

ROSSLAND, B.C., Dec. 10.—J. D. Anderson of Trail was in town on Tuesday evening.

Mrs. L. A. Campbell returned today from Spokane, where she has been visiting friends for the past week.

G. A. Lafferty drove to Trail on Tuesday.

Mr. Oakley, Dominion Express auditor, of Winnipeg, was in town for the week-end. While here he went through the mines.

On Thursday evening the regular review of the Ladies of the Macabees will be held at 7:30 o'clock. Business of importance is to be transacted, nomination and election of officers is to take place and a large number of candidates are to be nominated.

E. Coture, who has been working here for the past few months, leaves on Thursday for his home in Montreal.

The Moose Circle held its first meeting in its new rooms on the upper floor of the Conservative headquarters on Wednesday evening.

A whist drive was held this evening in the Orange hall, under the auspices of the Loyal True Blues. Refreshments were served.

Judge Forin of Nelson is in town.

A meeting of the Classification committee for the curlers was held last evening and the members were classified. A list is being sent to each one of the skips.

Mrs. T. Stout, Miss Jennie Inches, Miss Maude Michaely and Miss Agnes Inches left on the evening train for Trail to attend a party given by Mrs. Reece.

D. C. Dawson is in town.

Mrs. J. G. Gamble has donated a handsome Christmas cake to the Ladies of the Macabees to be raffled. It is on exhibition in the Co-operative store window.

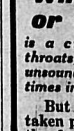
The carnival executive will meet on Friday evening.

AFTER MEASLES Whooping-Cough or Scarlet Fever

is a critical period—weakened throats, delicate bronchial tubes and unsound lungs often follow; sometimes impaired sight or hearing.

But if SCOTT'S EMULSION is taken promptly and regularly after the fever subsides it quickly restores pure blood and strengthens the lungs. Its nourishing force restores appetite, strength and energy

SCOTT'S EMULSION contains just the elements nature requires to restore sound health; it is totally free from alcohol or harmful drugs. Children relish it.



13-115

SCOTT & BOWNE, TORONTO, ONTARIO

OFFICERS ELECTED BY FERNIE VETERANS' ASSOCIATION

(Special to The Daily News.)

FERNIE, B. C., Dec. 10.—At the annual meeting of the veterans' association on Monday Col. Mackay was elected president; James Savage, first vice-president; John Minton, second vice-president, and George Dingsdale, third vice-president; George O'Brien, secretary, and C. O'Brien, treasurer. The treasurer reported a balance of $330. This sum is set apart for the memorial to be erected during the coming year. A committee was appointed to devise ways and means to increase this sum if possible to $1,000. The association now numbers 90 members and a strong canvass is being made to enroll every deserving veteran in the community, also to see that their names are placed on the voters' list.

Miss Nash spent Saturday and Sunday at Lethbridge.

The ice has formed above the mill dam and hundreds of skaters enjoy themselves daily while daylight lasts.

On Monday Joseph Brady, Roy Colley and William Connell were given suspended sentences and ordered to leave town. Alex. Liticlian was fined $25 and costs.

The bazaar held by the Woman's guild of the Church of England on Friday and Saturday was a great success and netted the promoters $650.

KIMBERLY NEWS

(Special to The Daily News.)

KIMBERLY, B. C., Dec. 10.—William Jones left for his home at Rossland on December 6.

Frank Fergolia and Lewis McDonald drove to Cranbrook on Saturday, returning the following day.

William Woodward left on Monday for Cornwall, England, where he will spend his Christmas vacation.

Miss Jean Falconer has placed her resignation in the hands of the secretary of the school board. It will take effect at the beginning of the Christmas holidays.

Preparations are being made for the Christmas entertainment that will be given in the Miners' Union hall at the Sullivan on December 22.

TRAIL PERSONALS

(Special to The Daily News.)

TRAIL, B. C., Dec. 10.—Mrs. T. Stout of Rossland, accompanied by Miss Maud Michaely and the Misses A. and J. Inches, spent the evening at Smelter hill.

R. Morgan of the assay office staff leaves for Victoria on Thursday evening to write the provincial assayers' examination, which takes place in that city on Monday.

W. E. Jones has moved into the residence formally occupied by J. Buchanan on Smelter hill.

Famous "Pint of Cough Syrup" Recipe

No Better Remedy at Any Price. Fully Guaranteed.

Make a plain syrup by mixing two cups of granulated sugar and one cup of warm water and stir for two minutes. Put 2½ ounces of pure Pinex (fifty cents' worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of $2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It tones up the jaded appetite and is just laxative enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, throat tickle, sore lungs and asthma, and an unequaled remedy for whooping cough and croup.

This recipe for making cough remedy with Pinex and Sugar Syrup (or strained honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. If you try it, use only genuine Pinex, which is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this recipe.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

EACH ACCUSES OTHER OF MURDERING JAPANESE

(By Daily News Leased Wire.)

VANCOUVER, Dec. 10.—Another case similar to that in which Davis and Clarke were recently convicted and sentenced to the capital penalty for the murder of one man is likely to eventuate here in connection with the death of a Japanese named Osewago. Two burglars named George Van Worst and James Lester hired the Japanese to convey some loot across the gulf to Vancouver island. Somewhere on the voyage the Japanese was done away with and when the men reached their destination they bored holes in the launch. Now each accuses the other of killing the Japanese. The case will probably not be dealt with until the spring assizes.

INDIANS DECLARE SPINTLUM NOT GUILTY OF MURDER

(By Daily News Leased Wire.)

VANCOUVER, B.C., Dec. 10.—Extraordinary efforts are being made by counsel for Paul Spintlum to save him from hanging on Friday. Appeals have been made to Ottawa for a reprieve on the ground that new evidence has been found and affidavits have been made ready to support this. The affidavits are by other Indians, who declare that they are certain that Spintlum did not kill Police Constable Kindness, who went *out to arrest* Moses Paul. In the meantime arrangements are going forward for Spintlum's execution.

The Hudson's Bay company's new price list for groceries, wines and spirits, etc., is ready for distribution. It will pay all housekeepers to apply for it. tf

Phoenix Champion Football Team

Front Row—L. Jones, G. Davidson, G. Pritchard, H. Dutton, R. Agnew.
Centre Row—A. Reid, E. Blundell, T. Williams.
Back Row—W. Oxley, W. Dixon, J. Porter; J. Marshall, secretary.

Among the summer pastimes of the Boundary district there is one that flourishes with probably even more success than any of the others, and that is the great old country game of association football. During the summer just past no little success attended the efforts of the soccer fans of that district and one of the most successful series of games that has ever been pulled off in the Boundary district was played.

The winning team of the Boundary series was that of Phoenix, which throughout the season played a stellar article of football and received the hearty support of the fans of the famous little mining town.

Among the winnings of the Phoenix team are included the Labor Day tournament in Phoenix, the Grand Forks fair championship and the Greenwood district cup, which was donated for competition between the Boundary teams by John R. Jackson, M. P. P.

Next season, with the same support, that has been accorded them during the past saeson and with a team of championship calibre in the field, it is the intention of the Phoenix boys to send a team to meet the winners of the West Kootenay divisional league.

News of Sport

PROFESSIONAL MEN REACH FINALS

More Than Double Score on Business Men—Play Young Men Next Wednesday.

Defeating the Business Men's team by the score of 35 points to 16, the Professional Men's class basketball team last evening qualified for the finals of the first part of the class trophy series for 1913-1914. Although the pace set at the first of the game was not very warm it was not long before the teams, each of which has a splendid reputation for aggressiveness, started the ball rolling in warm style and when they started the fur began to fly. Remarkably close checking was a feature of the game all the way and Referee Evans had his hands full all the time to keep the players within the limits of aggressiveness.

For the winners every man on the team worked hard and deserved credit for the victory and particular mention shoul be made of the guards, who held their men down to the minimum on the score book. For the losers T. K. McLeod and E. Hacking at guard, too, proved a real source of strength and credit also is due to the Stark brothers, both of whom worked hard throughout the game.

At the start of the game the Business Men seemed to surprise the winners, for they took them right off their feet and annexed a good lead before the Professional Men had come within reaching distance of the basket. But their lead was short lived, for their opponents buckled themselves together and were soon on even terms and assuming the lead. The half ended with the winners nine points to the good and with indications of an easy victory before them.

In the second half the Professional Men seemed to have secured confidence and they made matters easy for themselves for the rest of the game.

Rev. J. Evans refereed the game with his usual keenness. H. Nagle held down the position of scorer and Charles F. McHardy was the official timekeeper.

On Wednesday evening the Professional Men will meet the Young Men in the final of the first half of the series, when the fastest game of the series is looked forward to. In the last game between these two teams the Professional Men were returned winners after a first-class game by a lone field goal, two points, and it is expected to be equally as close a game when they meet next Wednesday. The teams last night lined up as follows:

Professional Men—N. B. Cummins and A. C. Rome, guards; W. A. Curran, centre; W. W. Ferguson and E. Murphy, forwards.

Business Men—E. Hacking and T. K. McLeod, guards; T. D. Stark, centre; C. H. Stark and F. Ames, forwards.

BROKEN BY DEFEAT WELLS LEAVES RING

(Western Associated Press Special Cable.)

LONDON, Dec. 10.—It is unlikely that Wells will appear in the prize ring again. He seems thoroughly broken up by his defeat, but he refuses to discuss it or speak of future plans.

BETTER ACCOMMODATION FOR SPECTATORS IN TRAIL RINK

(Special to The Daily News.)

TRAIL, B.C., Dec. 10.—minor alterations are being made in the local rink in preparation for the coming season. The band stand, which was formerly at the main entrance end of the building, has been moved to the far end. This will give increased accommodation for spectators during hockey this season. The cold weather of the past few days has enabled the ice makers to make good progress in the preparations of the curling rinks and if it continues they will be ready for use early next week.

R. B. Dimmock, William Cliff and R. Gruswell, Jr., of the Molly Gibson mine, reached Trail on Monday and will spend the winter here. The first named will be seen wearing the colors of the Trail hockey team in their senior games.

NEW HEAVYWEIGHT CHAMPION PELTED WITH FLOWERS

Warm Welcome on Return to France—Will Appear at Parisian Music Halls.

(Western Associated Press Special Cable.)

PARIS, Dec. 10.—Carpentier, the new heavyweight champion of Europe, arrived home today, fresh from his battle with Bombardier Wells at the National Sporting club, London, on Monday night.

Long before the boat train arrived thousands assembled at the Gere du Nord to welcome him. When the train drew in he was seized and carried shoulder high down the platform, the "fans" pelting him with flowers. Negotiations for a match between Carpentier and Gunboat Smith are proceeding in a satisfactory manner. Between now and February, when he expects to return to London, Carpentier will appear at some of the Parisian music halls in exhibition bouts.

EASY VICTORY FOR J. ALLEN'S BOWLING TEAM

By 297 pins J. Allen's team last evening defeated the team of A. A. Perrier in the Y.M.C.A. bowling tournament. Perrier's aggregation was handicapped by the absence of two members, each of whom was allotted 100 pins for each game that he missed. J. Allen had high score, with 195, and high average, with 160.

BOUT CALLED OFF

(By Daily News Leased Wire.)

SAN FRANCISCO, Cal., Dec. 10.—A nasal abscess, which necessitated an operation today on Willie Ritchie, lightweight champion, resulted in calling off the scheduled 20-round fight last night between Ritchie and Harlem Tommy Murphy.

CAMBRIDGE EASY WINNER

(By Daily News Leased Wire.)

LONDON, Dec. 10.—Cambridge yesterday won its annual Rugby football match against Oxford by 13 points to 3.

LOWER RATES FOR SOFT FRUITS

Special Rate for Shipment of Soft Fruits Will be Extended to British Columbia

VANCOUVER, Dec. 10. — Concessions offered by the superintendent of the Dominion Express company in the way of lower rates on express carloads of soft fruit are to be laid before the executive of the British Columbia Fruit Growers' association at the meeting to be held in Victoria on Dec. 15. The association will hold its annual sessions here January 21-23.

Secretary Winslow, provincial horticulturist and W. C. Ricardo of Vernon have just returned from attending the sessions of the National Fruit Growers' association of Canada in Toronto. While in the east they met Mr. Stout and pointed out to him that a number of Ontario fruit growers enjoyed a special rate for shipment of soft fruits by carload. Mr. Stout, it is said, offered to give British Columbia fruit men similar rates.

British Columbia representatives met Hon. Martin Burrell and discussed with the minister a number of questions relating to the fruit growing industry.

George Boyes returned to the city last night after having spent the summer in Vernon.

PENTICTON SUED BY CONTRACTOR

Says Delay by City Caused Extra Expense—Twenty-one Thousand Dollars Damages.

(Special to The Daily News.)

VANCOUVER, B. C., Dec. 10.—Suit is being heard here by Justice Macdonald, in which Macdougall & Co., contractors, are suing Penticton for $21,500 damages over a contract to construct a waterworks system for Penticton. The contract was entered into July, 1911, for a price in the neighborhood of $50,000. The work was to be completed at the latest by January 31, 1912. All valves, hydrants, special castings and iron and steel pipes were to be supplied to the contractors by the municipality.

It is contended by the plaintiff that the municipality was so slow in delivering materials that delays were caused. These delays in turn threw so much of the work over until winter and wet weather of next spring that serious losses were experienced in digging in the frosty ground and digging out the caved-in and water-filled trenches. An itemized bill is rendered for the sum claimed.

S. S. Taylor appears for Penticton and M. A. Macdonald for the company. The case is not concluded.

PRIEST UNMOVED BY MURDER EVIDENCE

Saw and Knife With Which Body Was Dissected Lie on Table In Court

(By Daily News Leased Wire.)

NEW YORK, Dec. 10.—Hans Schmidt sat unmoved for three hours this afternoon in the criminal courts building and heard from the lips of witnesses the story of the murder of Anna Aumuller. On a table before him lay the saw and knife with which he had dissected her body, nearby were the stained pillowslips in which he had wrapped a portion of it before he dropped it into the Hudson river from a ferry boat, and stones with which he had weighted it.

To these exhibits of the state, the one-time priest paid no heed. He was unmoved when a stenographer read the confession he made to the police, and when the physician told minutely of the murder in which the victim's body had been dissected. The only expression of interest manifested by him was shown when Anna Hart, friend of the girl, said that Anna Aumuller told her Schmidt wanted to marry her.

"We will get married, Schmidt told the girl," said Miss Hart, "and go to some far off country and I will hang my cassock on a high hook."

Schmidt told the police in his confession that he had married Anna Aumuller, acting as both bridegroom and priest. The witness knew nothing of the so-called ceremony.

THREE YEARS SERVICE ENFORCED

PARIS, Dec. 10.—The ministerial declaration to be read in the chamber of deputies tomorrow emodies the policy already outlined. It makes no reference, however, to a loan, except to say that the governmetn will make its financial policy a matter for debate later, when the new taxation based on democratic principles, including a tax on acquired wealth, will be submitted for consideration.

With reference to the military question it is explicit as to the government's determination to enforce three years service previously voted by the chamber.

The only reference to the immunity of rentes is the announcement that the government will support in the senate the chamber's income tax, a tax which must be levied on every sourse of income.

The declaration includes with the usual phrases regarding France's good relations with foreign powers and affirms her determination to contribute to peace, while firmly upholding her own dignity.

Closing-Out SALE

The Winning Number of Our Prize on Wednesday is 101. Have You Got It?

We want to call the attention of our out-of-town patrons to this sale. It will pay you to call in while in town.

COST OF LIVING IS STILL RISING

OTTAWA, Dec. 10.—Figures for November compiled by Mr. Coles of the department of labor, indicate that the cost of living is increasing steadily with the approach of winter months. The index figure based on wholesale prices has jumped from 136.8 in October to 138.4 in November, or nearly two points. During November last year the index number stood at 136.6.

The increases which were responsible for November's big jump were due to advances in the price of grains and fodders, beef, cattle, sheep, dairy products and articles of consumption generally.

There were declines in the price of flour, glucose, honey, pepper, cream of tarter, raw cotton and silk, iron pipes, linseed oil, resin and rubber.

NOTICE

The strike at the Queen mine, Sheep Creek, B. C., is still on. All working men are warned to stay away until the strike is settled.

By order of the Ymir Miners' union,
W. B. M'ISAAC.

THE HOSPITAL BYLAW.

The request made to the city council by the board of directors of the Kootenay Lake General hospital that a bylaw to raise $20,000 as a contribution toward a new hospital building revives interest in an undertaking that the people of Nelson have much at heart. This city and district is undoubtedly sadly in need of a modern hospital. The project for the construction of a building in keeping with the needs of the situation has been before the people of Nelson for several years. A couple of years ago a bylaw was passed by the people providing $15,000 for the erection of a new building. A similar amount was raised by popular subscription and the government promised to contribute an amount equal to the total raised locally.

This gave $60,000 available for the construction of the proposed new hospital, but for various reasons the work was not proceeded with. In the meantime the need for a new building has become more pressing and it has become evident that even a more pretentious structure than was at first proposed has become necessary. The directors have, therefore, asked the city council to submit a bylaw to raise $20,000 as a contribution toward its construction, and the government is to be asked to give a definite sum, $50,000, for the same purpose, considerably larger than was thought necessary a couple of years ago. With a contribution of $20,000 from the city and $50,000 from the government and what would be raised by popular subscription it is felt it would be possible to erect a building in keeping with the needs of the situation.

So far as the city is concerned it may be said that money bylaws are coming rather fast. This may be so, but for a cause so deserving as the erection of a new and modern hospital building large enough to serve the needs of the community there should be no question in anyone's mind. The city can well afford an extra debenture issue of $20,000 for such a deserving cause, for the annual levy which it will necessitate will not constitute an undue burden upon the ratepayers. The city council should feel in submitting this bylaw to the people that they are acting solely and entirely in the public interest and in consonance with public opinion.

IRON BOUNTY IS WANTED.

The Port Arthur Board of Trade is urging the Dominion government to assist the development of the production of iron ore in this country. The idea of the board, as explained in a resolution recently passed, is that the government should pay a bounty of 50 cents per ton on every ton of iron ore mined and smelted in Canada during the next ten years, the total amount to be paid out in this way to be limited, however, to $1,000,000 in any one year.

The particular desire of the Port Arthur Board of Trade is to secure the development of the vast iron deposits of Thunder Bay district, but in its action is no sectionalism. Its members are quite willing to see such a bounty paid on all iron ore mined and smelted in Canada—in Nova Scotia, British Columbia or any other section of the Dominion.

British Columbia possesses several iron deposits, so that the action of the Port Arthur Board of Trade in this matter is of great interest to this province. There may be objection in some quarters to the idea of a bounty and perhaps some other method of assisting the development of the iron industry may be suggested. This much, however, can be said, that the lead bounty has worked untold benefit to this part of Canada, and there is no reason to suppose that it would not be equally efficacious in the case of the iron industry. It rests with those who object to advance some other proposal, for it will be generally agreed that the development of the iron industry on a large scale in various parts of Canada would prove of decided benefit to the Dominion.

It is to be hoped that the matter will be taken up in British Columbia and elsewhere throughout Canada, with the object of convincing the government of the necessity of doing all it can to assist in the shape of a bounty or in some equally effective way, the development of what should, with proper encouragement, become one of the Dominion's greatest industries.

EDITORIAL NOTES.

Two weeks from today is Christmas. How much of your shopping have you done?

The hearing of the most important question which has ever come before it, the western freight rates case, is now nearing a conclusion before the Dominion board of railway commissioners. It is to be hoped that the commissioners will not take as long proportionately in deciding the case as the lawyers engaged have in arguing it.

WHAT THE PRESS IS SAYING

A Cause of Unpopularity With Some

Prof. Stephen Leacock offers to serve on the high cost of living commission without pay. Right here is where the professor makes himself unpopular with the other aspirants willing to serve their country at so much a day and expenses.—St. Thomas Journal.

A Ghastly Commentary

The fact that immigrants pass through official hands at Quebec at the rate of 300 per hour, as pointed out by Mr. Georges Pelletier, of "Le Devoir," in his booklet on "Canadian Immigration," is a ghastly commentary upon the kind of nation building now being carried on in Canada.—Montreal Daily Mail.

THIS DAY IN CANADIAN HISTORY

News of the Duke of Wellington's decisive victory over Napoleon Bonaparte at Waterloo was received with great relief and rejoicing throughout the British North American provinces. In communication of this triumph the names of Wellington and Waterloo are sprinkled liberally over the map of Canada. Ontario has two counties so called, while in early days St. John, N. B., not only bestowed these honored designations upon two of its thoroughfares, but, of the four city fire engines, distinguished one as "Wellington" and another as "Waterloo." Further, the citizens of St. John showed their interest in the battle, which broke for ever the power of the Corsican tyrant, in a fashion at once more practical and more costly than the easy borrowing of great names. On this date—December 11, 1815—a public meeting, with the Hon. Ward Chipman in the chair, was held in the city hall, on Market square, on behalf of the families of those killed and wounded in Waterloo. Committees were appointed and £1,472 15s 6d (or considerably over $7,000) was collected—a very large sum, considering that the city had not been in existence for a third of a century. Seventeen subscribers gave £20 or more, and three gave £50 each.

AT THE THEATRES

"The Battle of Waterloo" will be presented at the Starland tonight and at a matinee at 4 o'clock for the convenience of those who cannot attend at night. This production, as a war picture, is one of the most wonderfully realistic that has yet been attempted and has received very extensive notices in the British papers, where they should be good judges of anything representing the tremendous episode in European history.

SOME MILITARY PROBLEMS OF MEXICO WHICH THE UNITED STATES MAY TACKLE.

It will be noticed that two great ranges, each bearing the name Sierra Madre, run in a southerly direction from California, one near each coast which after a certain distance come together again to the south of Puebla. The area between these ranges is known as the plateau of Mexico which is divided into a number of basins in the north with a rising elevation to the south. The rivers are in consequence quite short and would be of little use for navigation purposes to troops which had affected a landing on either coast line. The northern plateau consists of a broad plain covered by swamps, meadows and small lakes. This marshy country has been recently drained, but the roads are unmetaled and extremely bad. The transport and commissariat services of an invading force would, however, be forced to rely on the railway for a means of supply. The frontier measures 1,300 miles. The railway line near the frontier between Nuevo Laredo and Monterey has been interrupted in quite a dozen places.

THE WEATHER

Fine, mild weather continued throughout the western provinces yesterday and especially in Alberta, where temperatures of 50 to 60 have been recorded.

A CAROL

Thrice welcome good St. Nicholas,
Thrice welcome in our midst.
While angels watch their flocks by night,
And children's dreams are filled with mist.
Thrice welcome is the golden morn,
When Christ our Lord was born:
Thrice welcome is the old, old song:
Glory to God on high.

ARMS AND AMMUNITION SEIZED AT FLEETWOOD

(Western Associated Press Special (Cable.)

LONDON, Dec. 11.—The activity of the customs officers in carrying into effect the proclamation prohibiting the exportation of arms and ammunition to Ireland, was followed by a series of large seizures at Fleetwood yesterday.

This is the port of embarkation for practically all cargo consigned to Belfast, and practically not a package is allowed to escape scrutiny. Passengers on steamers arriving at Belfast are asked: "Have you any arms to declare?" and the luggage is searched in many instances, but at this port the special staff customs officers have not made a single capture yet. Several women on one train were among passengers suspected of gun running and were called upon to declare that they were not carrying concealed pons with them.

CANADIANS SCOTCH OF NEW WORLD

(Continued from page one.)

peace, not only to the country from which this country had drawn its origin, but to all the countries on earth.

"Neighbors from Canada," he exclaimed, "we are your friends. You can not be happy without making us happy, and you can not suffer without making us sorry. Come among us. You can not come too often. The better we know each other, the less difficulty we shall have about misunderstandings. The better we know each other, the more truly shall we stand side by side in solving the great social and economic problems that confront us. We had the other day a visit from the premier of Canada, and it was my good fortune to have him at my house to meet invited guests, and he left upon all who came in contact with him the deep impression that he created here even a more friendly feeling than he found, even if that were possible."

Minister of Finance

Hon. W. T. White, in his address, said the members of the society—a bit of Canada transplanted to New York—kept alive as did the Greek colonist of old the fire he bore with him from Athens, their love and veneration for the grand Dominion from which they had sprung and where their fathers lived and died.

Nations, like individuals, cultivate the art of forgetting. Today there is mutual understanding, respect and regard along the 4,000 miles of border. No such other border existed in all the world. Not a rampart, save those of nature, from ocean to ocean, across the continent. Next year we should celebrate 100 years of peace. That celebration will usher in 1,000 more, millenium between the two great English-speaking races. Why should it not be so?

He paid his tribute of respect to President Wilson for his single minded and persistent devotion to ideals which animated and inspired his public conduct.

As to Canada, the dream of the fathers had been fulfilled. Confederation had welded together the scattered provinces of the great Dominion. What of the future when the 9,000,000 would become 25,000,000 and the 25,000,000 50,000,000, and the 50,000,000 100,000,000, as the United States has today. Devoted as Canadians are to the ideals of education and religion, living under and cherishing free institutions—is there any limit to their future development?

He spoke of the love and loyalty unchanged and unchangeable of Canada for the empire, of which the symbol was the throne and the crown.

W. L. Mackenzie King, responding to the toast of "Canada," declared his wish to emphasize the similarities between the two countries rather than the differences.

DRILLED INTO MISSED HOLE

Three Austrians Dangerously Injured in Explosion on Pacific Great Eastern Grade Construction

(By Daily News Leased Wire.)

VANCOUVER, Dec. 10.—Three Austrians, names at present unknown, were so seriously hurt that their lives were at first despaired of, in an explosion yesterday afternoon on the Pacific Great Eastern grade near Caulefields, a short distance from Point Atkinson. The men started to work this morning to drill into a "missed" hole. A big charge of dynamite, set there, had failed to go off, and the men started to open it up by drills. Some miscalculation regarding the exact location of the explosive must have occurred, for the work was well under way when the whole thing went off.

Men, rock and tons of earth and roots were thrown into the air. Workmen nearby rushed up to the assistance of those injured and stretchers were quickly prepared on which the men were carried to a launch and conveyed to North Vancouver.

One man had one eye blown out and is likely to lose the sight of the other: the second man had both legs broken and is suffering from other wounds, while the third is not so badly hurt, though bleeding about the head and arms from surface wounds.

SALMON WORTH SEVEN AND HALF MILLION DOLLARS

(By Daily News Leased Wire.)

VANCOUVER, B.C., Dec. 10.—It was stated officially today that the total cash value of the salmon caught in British Columbia waters this year was $7,619,745.75.

WARM IN EDMONTON

EDMONTON, Dec. 10.—The highest temperature for the month of December in the Province of Alberta was registered today when the mercury reached 60 above the zero mark.

A meteorological station has been established in Edmonton since 1882, but the nearest to this mark was registered in 1907, when 56 above was registered.

Frank Ames, local manager for the Canadian Ingersoll Rand company, will leave on the Crow boat this morning for his home in Sherbrooke, Que., where he will spend the holidays. He will be away about a month

TO GUARD AGAINST ALUM IN BAKING POWDER SEE THAT ALL INGREDIENTS ARE PLAINLY PRINTED ON THE LABEL, AND THAT ALUM OR SULPHATE OF ALUMINA OR SODIC ALUMINIC SULPHATE IS NOT ONE OF THEM. CHEER UP! IF HEADACHY, BILIOUS, CONSTIPATED--CASCARETS TONIGHT

No odds how bad your liver, stomach or bowels; how much your head aches; how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets.

They end the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach. They cleanse your Liver and Bowels of all the sour bile, foul gases and constipated matter which is producing the misery. A Cascaret tonight will straighten you out by morning—a 10-cent box from your druggist will keep your head clear, stomach sweet, liver and bowels regular and make you feel cheerful and bully for months.

10 Cents. Never gripe or sicken.

"CASCARETS WORK WHILE YOU SLEEP."

25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF-- GROWS HAIR

Don't pay 50 cents for worthless hair tonics--Use old, reliable, harmless "Danderine"--Get results.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—anytime—will surely save your hair. Get a 25 cent bottle of Knowlton's Danderin from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

ENGINEROOM WORKERS MUTINY ON STEAMER

(By Daily News Leased Wire.)

CERBERE, France, Dec. 10.—The engineroom workers and firemen of the Spanish steamer Alfonzo XIII., of the trans-Atlantic line, on the voyage from Coronato, Cadiz, acording to a despatch received today from Cadiz, mutinied. They attacked the officers and were only overpowered after a desperate fight. Sveral men were wounded and the mutineers were placed under arrest on arrival of the steamer at Cadiz.

The Alfonzo XIII. sailed from Vera Cruz Nov. 16 and from Havana Nov. 20 for Balboa. She is commanded by Capt. Aldamez.

SOUTH LANARK ELECTION TODAY

(Canadian Associated Press Cable.)

LONDON, Dec. 10.—The South Lanark, Scotland, by-election takes place tomorrow.

INJUSTICE TO BRITISH COLUMBIA

(Continued from page one.)

opment in the country's history was going on. The money required for this purpose, all of which is to be spent within the next two or three years, amounts to over $100,000,000.

"In connection with this policy, the Lake Superior division is being gradually double-tracked and this expenditure is almost entirely in the interest of the west, enabling, as it will, grain and other products to be carried from Fort William to Montreal and eastern points with the greatest despatch and thus avoid the detention inseparable from a single track railway under the climatic conditions which exist north of Lake Superior, with which the board is entirely familiar.

"It should be the policy of the board to give every encouragement to these and similiar improvements and also to give serious consideration to the necessity of protecting this investment, not only in the interest of the company itself, but the country served by it.

It must not be forgotten that the success of the company and of every other railway company in the west depends upon the natural products of the country and therefore the hazard of the undertaking is very much greater than in the east or in any country in which there is denser population and consequently much more diversity of the traffic."

So far as the board was called upon to decide whether rates were reasonable or not, Mr. Chrysler contended that there was a wide limit within which rates might be considered reasonable. Rates might be very high and still be reasonable. The old test was that a carrier could only collect what a jury considered reasonable.

For British Columbia.

L. G. McPhillips, counsel for British Columbia, in presenting his brief, pointed out that he was supplementing the arguments formerly submitted by his predecessor, Mr. Macdonald. So far as British Columbia was concerned, they had no reason to be unfriendly to the Canadian Pacific railway, but still Britsh Columbia's interests had to be considered.

Referring to the land grants given to the Canadian Pacific railway, he contended that they must be considered not at their value when given, but when disposed of by the company. The question of expenditure on the tunnel through the Selkirk range should be considered by the board. It should be built on the anticipation by the company of future profits to come.

The inquiry was founded on section 77 of the Railway act, which dealt with discrimination. The onus of justifying discrimination had been accepted by the railways; how, he asked, had they discharged it?

Mr. McPhillips contended that the charging up of terminal expenses to British Columbia was an injustice to that province. The complete transfer of goods from the steamer to the car was charged to them.

Chairman Drayton—It is an added burden of $1 a ton, I should say.

Leased lines were also included in the compilation of figures. These were not a part of the Canadian Pacific railway and should not be considered.

He further contended that there was no evidence to show that it cost more to haul in British Columbia than in the other provinces. Even if it did and that was generally admitted, there was no evidence or argument to justify the higher rates.

Mr. McPhillips then submitted figures prepared by Mr. Calderhead, the British Columbia expert, to show that there was a greater diversity of traffic in British Columbia than in the prairie provinces, a greater density of population per mile of road, a greater amount of capital invested in manufactures and more industrial concerns, while class and commodity rates were much higher in British Columbia than in the neighboring provinces.

British Columbia's counsel had not finished at adjournment.

ARTIFICIAL DAYLIGHT

Did you ever try to make daylight at night It is very simple. All you need is two color screens and a strong incandescent light. Pass the artificial light rays through the screens, which draw out the excess in colorings which are foreign to daylight, and, presto! you have pure, true and unvarying daylight.

Scientists for centuries have dreamed of manufactured daylight. But it was only recently that the wonder has been worked out. There have been so-called "day-light producers," but they have not been practical. In the final analysis they were found to have turned out nothing but a very strong, bright, white light, which while it exceeds in brilliancy the usual gas light or the strong rays of the electric light, was no more like soft daylight than the gleam of the old-fashioned candle.

The problem has at last practically been solved by Dr. Herbert E. Ives, a well known physicist of Philadelphia. Many cabinets, and light to produce daylight had been manufactured previous to Dr. Ives' invention, but none stood the test. Dr. Ives' process employs a cabinet which is constructed in various sizes, but the one which is most convenient is 18 inches deep, 30 inches wide and 28 inches high.

An incandescent gas light is placed at the top of the cabinet. There is a metal reflector to throw the light downward through the delicate screens which filter out the rays of red, orange and yellow that are foreign to daylight, except to a slight extent. In other words the screens extract from the light excesses of these colors.

This cabinet has a lamp with an aluminum dome on top, taking the usual Welsbach mantle. The mantle causes the light to be thrown downward through an absorbtion screen of glass, greenish in color, which filters out excess of color, making the light absolutely true white. The light then passes through a gelatine screen of purplish red which serves to correct the tint. This screen holds dyes that are absolutely unchangeable. The white light caused by this process is reproducable and constant. Daylight varies from morning tints to almost all hues at night when the sun is setting. The new process improves on nature. The artificial light will not vary. It remains the same day and night. It is an average daylight.

The invention has a great field of usefulness in surgery and certain industries. Surgeons depend upon the color of the tissues to tell whether they are diseased or not. A great deal of surgery is done at night. In artificial light the tissues have not their true color. The invention will remedy this, in that operations may be performed by aid of daylight at any hour of the night.

In Textile manufacturing, dyeing and and color printing, daylight at night will have many uses. In color printing, for instance, the presses can be run only so long as the ink put in by daylight lasts. With the aid of this invention presses can be run all night. In the sorting of cigars it is impossible to tell their color by artificial light. Likewise in dental work the exact color of artificial teeth cannot be determined at night. In paper manufacturing and and in the manufacture of flour daylight is needed to differentiate the various grades.

Thread manufacturers will use the new method to test the color of threads. Even in daytime they can't always match threads exactly, whereas with this invention they will be able to tell the color of each thread at any time. The reason is, while daylight varies, the new light will never vary.

Retail stores will use manufactured daylight to distinguish the color of goods. It will no longer be necessary for customers to carry goods to the windows to examine them by daylight. Diamond buyers now deal only by daylight. Hereafter they will be able to transact their business at any time.

This invention can be made in various forms to be used for different purposes. For instance, it can be used to light a small room or closet; it can be used to illuminate a printed page, or for any other purpose where a perfect light is desired in the houseroid. The inventor's dining room table is illumined by this artificial daylight, and it is giving very satisfactory service.

The scientific work of Dr. Ives has been devoted chiefly to investigation of the production, measurement and utilization of light. He has made an exhaustive study of the firefly and has established by means of photographs its remarkably high efficiency as a light producer. But this greatest service to humanity undoubtedly rests in his invention of this machine to create daylight artificially. An invention which will serve the scientist, manufacturer, printer, merchant, and lapidarist is certainly to be valued highly. Even in the home its influence is sure to felt eventually.

Dr. Ives is a member of many scientific societies.—Technical World.

This Neckwear Makes An Appreciated and Welcome Gift

Don't hesitate about what to give to some dear friend—choose a pretty bit of neckwear and you'll choose rightly. Especially if you choose here, where there is so large an assortment of new ideas to select from.

There are simple little bits that are exceedingly smart and some fluffy, frilly affairs of rare beauty. There are all sorts in between. Ours is a very complete stock.

Prices are the pleasing kind that give you a really wonderful return from a modest outlay.

35c to $9.00

Christmas Comforters for Christmas Gifts

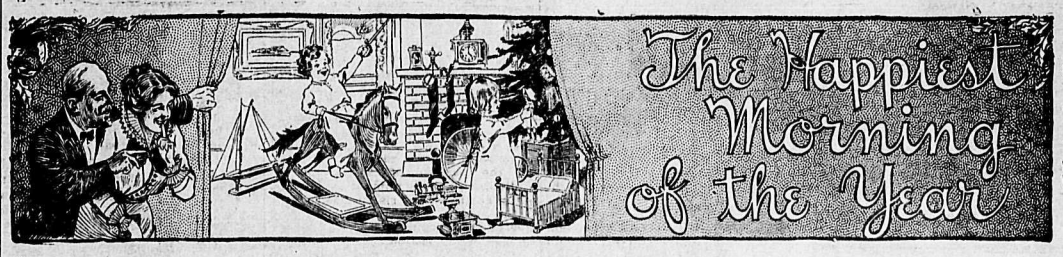
An Offering of Dependable Comfortables That Spells Economy With Capital Letters

Here are good warm Comforters that will be your friend's best friend in the cold nights ahead.

The low prices we are able to place on them will make it possible for you to consider the giving of comforters as gifts, most seriously.

Here are the best qualities procurable at the very lowest prices possible. Very attractive designs.

$2.50 to $25.00



Toyland Is Ablaze

With a myriad of vari-colored play things. Santa, who has made his headquarters here, has brought hundreds of perfectly wonderful toys for little boys, and big boys and for their sisters, too.

Many mothers brought their children here to see him, after we announced that Toyland was open. Such wonderful things you never saw. Old Santa has outdone himself. Yes, Toyland is bigger and better than ever before. But you must come and see for yourselves—and bring the little ones, too. It will make them too happy for words.

NEWS OF THE MARKETS

STOCKS

FEW CHANGES RECORDED ON NEW YORK MARKET

(By Daily News Leased Wire.)

NEW YORK, Dec. 10.—There was a few weak spots in today's market, but the general movement was narrow. At the opening the whole list eased off. New Haven equalled its low record of 71¼, and New York Central touched 91¼, the bottom price for five years. Canadian Pacific broke 3 points. These declines were soon halted, however, and the market rallied. Thereafter movements were inconsequential and the close of the important stocks showed only slight net changes in most cases.

The following New York stock market quotations are supplied by Osler, Hammond & Nanton, Winnipeg:

Dec. 10.—	Open	Close
Amalgamated Copper	69⅝	70¼
American Car Foundry	....	43¾

CANADIAN PACIFIC DECLINES ON MONTREAL MARKET

(By Daily News Leased Wire.)

MONTREAL, Dec. 10. — Further weakness in Canadian Pacific railway resulting from London's unfavorable reception of the new financing plan was again the chief feature in the Montreal market. Tuesday's decline of ⅝ to 226 was extended to 6⅛ points on the movement. The close was 223¾.

Power was the principal feature, rallying back to 217, the closing level on the previous day after an early reaction of 1½. Richelieu was ½c down. The balance of the list was flat and featureless and no important changes were shown.

DIVIDEND PASSED BY NEW HAVEN RAILWAY

(By Daily News Leased Wire.)

NEW YORK, Dec. 10.—After an unbroken record of 40 years as a dividend payer, the New York, New Haven & Hartford railroad has finally been forced to the necessity of suspending further disbursements on its $157,000,000 of stock.

This decision was reached late today after a protracted meeting of the directors at the Grand Central terminal. The action of the board, while partly foreshadowed by the recent acute weakness of the stock, will come as a shock to thousands of investors, particularly in New England.

GRAIN

SENTIMENT MORE BULLISH ON WINNIPEG EXCHANGE

(By Daily News Leased Wire.)

WINNIPEG, Man., Dec. 10.—Wheat prices were strong for options on the Winnipeg market, following a rather weak opening, sentiment being of a more bullish character.

Winnipeg market opened unchanged to ¼c lower and closed unchanged, ⅛ to ⅜c higher.

Minneapolis opened ⅛ to ¼c lower and closed ⅛ to ¼c higher.

Buenos Ayres market opened unchanged to ⅜c higher for wheat; corn ¼ to ½c higher, and flax ⅝c lower.

Cash wheat closed ⅛ to ⅜c lower.

Cash oats closed unchanged ⅛ to ¼c lower.

Cash flax closed without change.

Cash barley closed unchanged.

Winnipeg close: Wheat—Dec. 84¾, May 89⅝, July 91⅛.

Oats—Dec. 34½, May 38⅝.

Flax—Dec. 1.20¾, May 1.28⅝.

Minneapolis wheat close: Dec. 84⅜; May 88¼, July 89⅝.

Chicago wheat close—Dec. 88⅞, May 92½, July 89⅜.

Pork—Heavy Canada short mess barrels, 35 to 45 pieces, 30; short cut back barrels, 45 to 55 pieces, 29.

BRITISH PAPERS SEE DECLINE OF CANADA'S CREDIT

(Western Associated Press Special Cable.)

LONDON, Dec. 11.—The Daily Telegraph prints a column article under the headings:

"Canada's Loans; Heavy Borrowings; Steady Decline in Credit."

It suggests that the rapidity of the Canadian issues during the current year is accounted for by the urgency of raising funds to meet temporary obligations, the borrowers finding it cheaper to raise loans regardless of the market conditions for the purpose of continuing works of construction rather than allow the work to lapse.

The Telegraph sets out the year's issues thus:

"The Dominion, $35,000,000; the provinces, $14,000,000; municipalities, $77,186,740; railways, $133,851,280; miscellaneous, $50,000,000; total, $310,041,020, as compared with a total of $204,915,000 in 1912.

The Telegraph continues:

"Under the circumstances of tight money, the frequency and urgency of the Canadian demands is not surprising. Canadian loans only can be effected by raising the price against Canada, meaning that this progressive decline of Canadian credit is unmistakable. It may, of course, be but part of the price of developing the country, which posterity will have to pay. Canada must judge whether the developments are not proving too costly."

THIS is a HOME DYE that ANYONE can use.

WEST KOOTENAY LAND DISTRICT

Take notice that I, A. Larsen Kieraas, laborer, of Nelson, B. C., within 60 days after first publication of this notice intend to apply to the Commissioner of Lands and Works at Victoria for permission to purchase the following described lands.

Commencing at a post marked "A. L. K.'s" south-west corner and planted at the north-west corner of lot 397, thence east 100 chains more or less, thence north 10 chains more or less to south-east corner of lot 863, thence west 100 chains more or less to the south-west corner of the said lot 863, thence south along shore of upper Arrow lake 10 chains more or less to point of commencement, containing 100 acres more or less.

Dated this 25th day of November, 1913.

A. LARSEN KIERAAS.

Mining News

LONG TUNNEL TO CUT SIX LEADS

Good Progress Is Made With Development of Noble Five Mine at Depth—Manager Here

Working two shifts, good progress is being made on the long tunnel at the Noble Five mine, stated T. L. McAllister, manager of the property, who was at the Strathcona last night.

The tunnel, which is to be 2,500 ft. in length, is now in 100 ft., he said. Ten men are employed on the work.

Five leads on the Noble Five property and one on the Omega, owned by J. M. Harris, will be cut by the long tunnel, Mr. McAllister expects.

He is very pleased with the results of the development of the upper workings during the past summer. About 125 tons of ore were taken out during this development work and the smelter returns netted just about enough to pay expenses, he said.

STANDARD PROFIT NINETY THOUSAND

Big Silverton Dividend Payer Has Month of Record Earnings—Values Better With Depth

Net earnings of the Standard Silver-Lead Mining company, operating the Standard mine, near Silverton, for November were the heaviest in the history of the company, according to a Spokane report. The profit for the period will be approximately $91,000, or but $9,000 less than required to pay the 5-cent a share December dividend, amounting to $100,000.

PREDICT BETTER PRICES IN SPRING

Buyers Do Not Appear to Be Impressed by Cut in Electrolytic Copper Quotations.

(Special to The Daily News.)

BUTTE, Mont., Dec. 10.—After being out of the market for several weeks and refusing to sell at current prices, and also refusing to make quotations, the Amalgamated Copper company reduced the price of electrolytic copper to 15 cents. Other selling agencies met this cut and now the general quotations by all the big interests are 15 cents for electrolytic.

This reduction, which marks a recession from 17½ cents some months ago, has not stimulated the buying that it was thought such a reduction would bring about. The cut by Amalgamated is a reduction from quotations of 16 7-8 cents. Buyers do not appear to be impressed with the cut and many feel that there should be a further reduction before they make purchases.

The recession in copper prices from the high point of 17 3-4 cents a pound reached in late 1912 lasted until the middle of last July and carried the electrolytic price down to about 14 cents a pound. This was the Balkan war decline. The recovery was rapid, the following two months seeing an advance of 17 cents a pound and a settling to a 16 7-8 cents basis, where the producers held the price "pegged," despite the undercutting by dealers and independents, until the recent let-go all along the line.

Owing to the very strong copper statistical position there is a feeling in copper circles that the metal is not slated for the low price of mid-year. This feeling, of course, predicted on the assumption that the decline in business now being felt all over the country will change for the better in the next few months. Confidence is expressed that the pendulum will commence an upward swing at least by early next spring.

Discussion continues as to who were the heavy sellers of standard copper in the decline of the London market which preceded the recent abandonment of the 16 7-8 "peg" price. Explanation is offered that some of the big sellers were using the standard market to dispose of accumulating stocks of electrolytic and again that European consumers found sales of standard a convenient hedge against supplies of the metal. It is also good opinion that certain American interests who are considered excellent judges of the securities market as well as being in touch with first-hand sources of copper information were large operators on the short side of standard copper.

RAWHIDING CONDITIONS EXCELLENT AT SANDON

Although this winter is one of the most open in years, conditions in the Sandon district for rawhiding could not be better, according to visitors from that place who were in Nelson last night. There is about 1 ft. of snow at the present time, while last year during the latter part of October the management of one mine was carrying on rawhiding on about 6 ft.

LONDON DIRECTOR VISITS WELL-KNOWN SILVERTON MINE

Charles H. Stewart of London, England, a director of the Le Roi No. 2 and Van Roi mines, returned last night from Silverton, where he made an inspection of the Van Roi mine and left on the evening train for Rossland. With Ernest Levy of Rossland, manager of the two mines, Mr. Stewart was a guest at the Hume.

REGULATIONS MORE STRINGENT TO RESTRICT EMIGRATION

VIENNA, Dec. 10.—Negotiations were begun today between the Austrian and Hungarian ministers for the purpose of devising more stringent regulations for the restrictions of emigration. These are to be applied to both countries, with the object of checking further emigration of subjects liable to military service. The existing regulations, particularly in Hungary, have proved utterly inadequate to prevent a great number of young men from evading military service by emigrating to the United States.

WATER NOTICE

Notice of Application for a Licence to Take and Use Water and for the Approval of Plans.

Notice is hereby given that William Charles Ernst Koch, of Nelson, B.C., will apply for a licence to take and use 25 cubic feet per second of water out of Robertson Creek, a tributary of Slocan River. The water will be diverted at a point about five hundred (500) feet west of the east line, down stream, of Lot Thirty-Eight Hundred and Twelve (3812) in the flume already constructed over Lots Thirty-Eight Hundred and Twelve (3812) and Three Hundred and Eighty-One (381) and will be used for industrial purposes, that is to say, fluming of logs, from the point of diversion to a point on Lot Three Hundred and Eighty-One (381).

Application will also be made for the approval of the plans of the works already constructed for the utilization of the water as aforesaid. This notice was posted on the ground on the Tenth day of November, 1913.

The application for a licence and the approval of plans, together with the information required by Sections 60 and 70 of the Water Act as amended will be filed in the local Water Recorder's Office at Nelson, and with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

Objections may be filed with the said Water Recorder or the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

W. C. E. KOCH,
Applicant.

NOTICE TO CREDITORS

IN THE MATTER OF the Estate of EDWARD K. MAHON, late of the City of Nelson, in the Province of British Columbia, Druggist, deceased.

NOTICE IS HEREBY GIVEN pursuant to the Revised Statutes of British Columbia, 1911, Chapter 4, that all Creditors and others having claim against the estate of the said Edward K. Mahon, who died on the 16th day of April, 1913, are required on or before the 20th day of December, 1913, to send by post prepaid or delivered to Fred C. Moffatt of Burns Block, Baker Street, Nelson, British Columbia, Solicitor for the Administrator of the estate, their Christian and surnames, addresses and descriptions, full particulars of their claim, statement of their account, and the nature of the securities, if any, held by them, duly proved by Statutory Declaration.

AND FURTHER TAKE NOTICE that after such last mentioned date the said Administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said Administrator will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated the 17th day of November, A. D. 1913.

FRED C. MOFFATT,
Burns Block,
Baker St.,
Nelson, B. C.,
Solicitor for G. F. Mahon, Administrator of the estate. *185-2AW4

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

THREE NAMES ARE ADDED TO LIST

Civic Court of Revision Has Light Task This Year—List Is Now Complete.

Gerald William Webster, Alice Jane Shaw and M. R. McQuarrie, the last named as duly authorized representative of the Nelson Investment Company, Limited, were last night added to the city voters' list for 1914 by the court of revision, consisting of Mayor Keefe, Ald. I. A. Austin and Ald. A. A. Perrier.

The list was signed by the mayor and is now complete, although the police magistrate or the county court judge has the power to add the name of anyone who was improperly left off the list when it was made up after the assessment roll closed on December 1.

GOOD SUGGESTION TO NELSON PEOPLE

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are mighty glad we are Nelson agents for Adler-i-ka. The Canadian Drug & Book company.

A Pointer in Plumbing

There is little use in a competent plumber using poor materials, any more than a poor plumber could get satisfaction out of good materials. For a really good and satisfactory job the two should match—a good workman with good stuff to work with. We blend the two to perfection, and are not open to the general reproach of overcharging for work.

PURCHASES LOT ON VERNON; TO BUILD

Local Investor Purchases Through McHardy Property Adjoining Thomas Roberts' Residence

Charles F. McHardy yesterday reported the sale of lot 4, block 4, Vernon street, adjoining the Thomas Roberts residence, to a local investor, who is making arrangements to construct a modern home.

This lot was sold at the last city tax sale to J. W. Holmes. It was owned by R. McLeod.

MAKES LARGE SALE OF FRUIT LANDS

Dr. N. Wolverton Sells Hundred and Sixty Acres on Arrow Lake and Tract in Slocan

Dr. N. Wolverton reports the sale of an undivided 160 acre tract on the Lower Arrow lake to Ray P. Beker, of Cambridge, Mass., and 59.4 acres adjoining Slocan Park, in the Slocan valley, to Harold Danbrook, of Govan, Sask. The latter covers six 10-acre unimproved ranches. Mr. Danbrook is now on the way with a car of settler's effects. Mr. Baker is planning to build in the spring.

PLAN TO HOLD PACKING SCHOOL THIS WINTER

The directors of the West Kootenay Farmers' institute have decided to apply to the provincial department of agriculture for a packing school to be held in Nelson this winter if sufficient names are received to warrant its formation, the minimum being 12. The school will be held in the late winter and will run for five days. The charge per student is $3 for the course.

Application should be made immediately to the secretary, Raymond T. Hickes, P. O. Box 1077 ,Nelson.

At Willow Point a school is also to be applied for, John Gilroy having consented to make the necessary arrangements and to canvass at that point for names of ranchers and others of taking the course.

THREE HUNDRED KIDDIES ATTEND FINAL TRAVELOGUE

Yesterday afternoon over 300 children attended the Vosburgh travelogue, "Scotland and Wales." They cheered and clapped as their favorite pictures were thrown on the screen and seldom it is said, has there been such an enthusiastic gathering at an entertainment of this nature in Nelson. While the Highlanders were marching down the streets of Edinburgh they cheered themselves hoarse. Dr. Vosburgh was just in his element and fully entered into the spirit of his audience. He left the city last evening for Vancouver and Victoria, as this lecture concluded the series of seven given here.

BRITISH SUBMARINE SINKS CREW IS RESCUED

(By Daily News Leased Wire.)
PLYMOUTH, Dec. 10.—The submarine C-14 sank in Plymouth sound today as the result of a collision. The crew was rescued. This is the first British submarine lost without the sacrifice of lives.

BREAKS A COLD, NEEDS NO HELP

Pape's Cold Compound Cures Colds and Grippe in a Few Hours—Tastes Nice—Acts Gently.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, with the knowledge that there is nothing else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad aftereffects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—accept no substitute—contains no quinine. Belongs in every home. Tastes nice—acts gently.

SUFFRAGE BILL NOT PARTY MEASURE

Government Not Unanimous on Votes for Women—Nothing to Prevent Private Bill

(By Daily News Leased Wire.)
VICTORIA, B.C., Dec. 10.—Premier McBride refused today the request of the United Suffrage societies of British Columbia for the introduction of a suffrage bill by the government. He suggested that the question would have to be brought up by a private member.

Beribboned in purple and white, the suffragette colors, and with two wide-eyed little children clinging to their skirts, the 12 Vancouver women, representing three women's suffragette organizations, met the cabinet shortly before the noon hour today and concisely laid before the provincial ministers their demand for the ballot.

Mrs. McConkey spoke for the Pioneer Equality league, with Miss Guttredge, for the British Columbia Women's Suffrage league, and Mrs. Drummond, for the Equal Franchise association.

"The provincial executive is not in entire agreement on this question of the vote for women," announced Premier McBride. "Some of my colleagues think that to give the franchise to women would be a wise policy, while others do not go as far as that. For my part, I am unable to subscribe to the views you offer today. I do not mean to be critical, but I say that it is impossible to grant your request for a government bill to give you the ballot. A measure of this kind is, however, well within the province of any private member. I do not mean to say that the house will be dragooned by my views. The house will be able to decide for itself on this question if it is introduced. It is not a party question with the Conservatives, although I understand that the Liberals have agreed to give their support to the franchise for women.

"If you get the vote, then you would soon sit in parliament and it would be reasonable to suppose that some time you would form a women's party and probably run the entire affairs of the country. That would be a logical conclusion," said the premier.

LICENSE COMMISSIONERS TO WATCH TANGO TEA

(By Daily News Leased Wire.)
VANCOUVER, B.C., Dec. 10.—The licensing board was occupied this evening over the question whether a tango tea should be permitted in the Canadian Pacific railway hotel. The manager said there was no liquor sold and that none but the guests took part. Despite this, there was strong opposition to the holding of the tango tea, but in order to satisfy themselves the inspector will pay a visit to the next function of the kind and several of the commissioners will be on hand to see what it is like.

STRATHCONA AND LAKEVIEW LICENSES ARE TRANSFERRED

At a meeting yesterday afternoon the city license commissioners granted applications for the transfer of the licenses of the Strathcona hotel from Frank B. Whiting to James Marshall and of the license of the Lakeview hotel from the Nelson Investment company to J. G. Schultz, the order in each case being made conditional on the necessary formalities, including the payment of transfer fees being complied with. Commissioners present were Mayor Keefe and Howard Bush.

NOTICE

The Nelson ferry will be running irregularly on Friday, Dec. 12, between the hours of 9 a.m. and 4 p.m.

G. M. BENNEY,
Road Superintendent

NELSON NEWS OF THE DAY

The trades and labor council has called a mass meeting at Miners' Union hall tomorrow evening at 8 o'clock to protest against the imprisonment of miners on Vancouver Island.

With the object of arranging for the purchase of rose bushes for distribution next year at cost price, the Nelson Improvement association will meet at the board of trade rooms on Monday evening at 8 o'clock.

Officers of the new Conservative association for Rosemont and other western and southern suburbs of the city will be elected at a meeting at the offices of McQuarrie & Robertson on Tuesday evening at 8 o'clock.

J. Fred Hume, Dr. N. Wolverton, Dr E. C. Arthur, E. H. Smith and Edward Ferguson have been appointed provisional directors of the Kootenay Liberal Publishing company, Limited The application for a charter is about to be sent to Victoria.

An increase of $40.50 was made during the week just passed by the Nelson street railway company over the receipts for the corresponding week of last year. The receipts last week amounted to $252.55, while for the corresponding week last year they amounted to $212.05.

Data regarding the establishment of a public market at Nelson will be presented at this evening's meeting of the board of trade by the committee in charge of that section of the board's activities. The committee met yesterday afternoon to prepare its report.

Mrs. Hackman and Miss R. Sheppard were the winners of the ladies' prizes at the weekly whist drive and social evening of the Churchman's club last night. The men's prizes fell to E. Cole and E. G. Sheppard. Those entertaining the gathering with musical numbers were: Rev. F. H. Graham, F. Wilson and A. Graves.

The regular monthly meeting of the Nelson District Women's Institute will be held in the K. of P. hall on Saturday afternoon at 3 o'clock. This will be the last meeting for the year. The program will consist of a paper by Mrs. Eades and a demonstration by Miss Muriel Mohr on how to make and put together a fruit salad.

The funeral of the late Mrs. George M. Gunn will commence at the Standard Furniture company's undertaking parlors at 2 o'clock this afternoon. Services, conducted by Rev. E. S. Logie will be held at the Presbyterian church at 2.30 o'clock. Charles A. McKay of Kamloops, a brother of the deceased, and Mrs. Harold Chapman of Revelstoke, a sister, arrived in Nelson last night, and William Gunn, the second son, came in from Trout Lake. Hugh, the eldest son, was here at the time of Mrs. Gunn's death. The other children, Ida, Isabel and Alexander, are at Trout Lake and will not be here for the funeral.

The Charity Society have a number of ladies who would like to have work by the day. Apply to Mrs. J. Sturgeon or to Mrs. Hugh Ross. tf

Our best photos in folders, only $3.00 per dozen, suitable for Christmas gifts. Delivered two days after sitting. Columbia studio, Nelson, B. C. *204-6

The sale of work to be held by the Pythian Sisters on Thursday afternoon is postponed until Saturday afternoon, Dec. 13th, on account of the death of Mrs. Gunn. 204-3

Sale of Hand-Made Laces.—For a Christmas gift why not buy something beautiful as well as serviceable? If you have not seen our line of exquisite hand-made laces you have not done justice. You may have overlooked just the gift your friend would appreciate. On Wednesday and Thursday of this week we will sell hand-made lace jabots, handkerchiefs and collars at 50 cents and up. We also have a rare collection of Persian antique rugs at prices that will astonish you. Come and see them.—The Elite, 315 Baker Street.

HELLO! Our new address is City Cab, Ward street. Nelson Vacuum Cleaning Co., Phone 438. 190-2

To make your Christmas dinner a sucess apply for the Hudson's Bay company's price list of Christmas cheer. tf

Mr. and Mrs. H. J. Treby Heale wil present a vocal and dramatic entertainment at the opera house on Wednesday, Dec. 17. Sale of reserved tickets at City Drug Store. tf

The ladies of the Methodist church will hold a sale of home cooking in Christie & Benson's store Saturday, 20th inst. Bread, nutbread, doughnuts, cakes, cookies, Christmas cake and pudding. 204-1

The most appreciated Christmas gift is a season ticket to the rink. Tickets on sale at the office of McQuarrie & Robertson's—Ladies $3, girls $2, gents $5, boys $3. Happy, healthy exercise during the winter sports season. Band will be frequently in attendance. 206-6

Christmas Display in All Departments

Only two weeks more and Christmas will be here. Already this store is the centre of admiring crowds, who are looking for and talking about the different gifts they are going to make and the pleasures they will bring. Turn which way you will, everything in this store speaks of Christmas. Our fixtures and counters are literally packed with new merchandise, bought from the world's most reliable sources, especially for the season's trade. Every imaginable want has been provided for and we would advise our patrons to make their purchases now, when stocks are at their best.

Nelson Loses Money

Nelson is losing money every day. A customer orders goods from us, but never pays for them, but we have to square the wholesaler or he will close up our business. Thus this money paid the wholesaler is a dead loss to the city's prosperity. If we have to wait months for overdue accounts we pay interest to the wholesaler for any sum owing. So square up your accounts. Cash makes the goods cheaper. Your expenses at Christmas are heavy. Meet our account before it comes. You'll then have a merrier Christmas.

NELSON NEWS OF THE DAY

The Pythian Sisters meet this evening at 8 o'clock in Castle hall.

Mr. and Mrs. F. A. Coyle and C. S. Darace of Grand Forks are at the Hume.

D. R. Marvin will leave on the Great Northern this morning for Vancouver.

F. C. Merry, manager of the Silver Cup mine at Ferguson, is a guest at the Strathcona.

C. F. Sherwin, superintendent of the Bluebell mine at Riondel, was at the Hume yesterday.

The monthly meeting of the Nelson board of trade will be held at 8 o'clock tomorrow evening.

Mr. and Mrs. C. I. Archibald and family of Salmo left on the coast train last evening for Victoria.

Thomas H. Wilkinson and bride will leave shortly for the coast after having spent a few days with his parents.

The city police have a tweed belt and a buckle attached which was picked up on Baker street near Hall street.

Miles of excellent skating can be had at Kootenay Landing, according to arrivals on the Crow boat last night.

Mrs. J. C. Gore returned on Monday evening from a two months' trip visiting friends in Portland, Vancouver and other cities.

W. A. Calder, the pioneer Edgewood rancher, returned on the Great Northern train last night from a visit to his old home in Ontario and registered at the Hume.

Many skaters yesterday afternoon and evening enjoyed their first skating of the season on the pond at the rear of the Canadian Pacific roundhouse on the flats.

Classes today at the Y. M. C. A are: Junior school, 4 to 5 o'clock; senior school, 5 to 5:45 o'clock; employed boys, 7 to 8 o'clock; businessmen, 8:30 to 9:30 o'clock.

There will be a rehearsal this afternoon at 4.30 o'clock in the parish hall of the children who will take part in the Christmas entertainment of St. Saviour's Sunday school.

G. C. Gage, accountant at Trail smelter, and J. M. Turnbull, engineer for the Consolidated company, came in on the Rossland train last night and registered at the Hume.

R. K. McCarthy and A. W. Ross of Vancouver, inspectors for the Canadian Bank of Commerce, who have been at the Hume for several days, left for the coast last night.

G. C. Gage accountant at Trail smelter, and J. M. Turnbull, engineer for the Consolidated company, came in on the Rossland train last night and registered at the Hume.

All Pythian Sisters are requested to meet at the undertaking parlors of the Standard Furniture company this afternoon at 2:30 o'clock to attend the funeral of the late Mrs. George M. Gunn.

A. Stedile, Stedile Marcello and A. Fillipi will leave on the Great Northern this morning for New York en route for Milan, Italy. They will sail from New York on Dec. 17 by the steamer France.
